#### III – Additional balance sheet information

- i) Amount of impaired loans and advances to customers and banks
- ii) Amount of specific provisions made for such loans and advances
- iii) Value of collateral which has been taken into account in respect of such loans and advances to which the specific provisions relate
- iv) Percentage of such loans and advances to its total amount of loans and advances to customers and banks
- v) Analysis of gross amount of advances to customers classified into the following industry categories:

#### Loans for use in Hong Kong

Industrial, commercial and financial:

- property development
- property investment
- financial concerns
- stockbrokers
- wholesale and retail trade
- manufacturing
- transport and transport equipment
- recreational activities
- information technology
- others

Individuals:

- Ioans for the purchase of flats in the Home Ownership Scheme, Private Sector Participation Scheme and Tenants Purchase Scheme or their respective successor schemes
- loans for the purchase of other residential properties
- credit card advances
- others

#### Trade finance

Loans and advances for use outside Hong Kong

#### **Total Advances to Customers**

100% of the loans and advances to customers are covered by collaterals or other securities as at 31 Dec 2023 and 30 Jun 2023.

- vi) The branch does not have any overdue and rescheduled advances as at 31 Dec 2023 and 30 Jun 2023.
- vii) The branch does not have any other assets overdue as at 31 Dec 2023 and 30 Jun 2023.
- viii) The branch does not have any repossessed assets as at 31 Dec 2023 and 30 Jun 2023.

# EŕG

# **VI** – Liquidity information

	2023	2022
Average LMR for the quarter ended 31 December	76.9%	76.9%

The average LMR for the quarter ended of December (3 months' average) are calculated based on the arithmetic mean of the average value of its LMR for each calendar month in accordance with the Banking (Disclosure) rules effective from Jan 2018.

# VII - Liquidity risk management

Liquidity risk is that the Bank does not have sufficient financial resources available to enable it to meet its payment obligations when they fall due, or can secure them only at an excessive cost. This includes the run-off of the client deposits, tightening of credit lines, market liquidity under stressed situations, market-wise impact on funding sources and the assumptions on cash flow requirements.

The Branch manages liquidity risk in accordance with EFG bank group's guidelines to ensure sufficient liquidity is available to meet commitments to customers, both in demand for loans and repayments of deposits and to satisfy the bank's own cash flow needs. The Branch has a liquidity management process in place that includes liquidity contingency plans, encompassing repo borrowing, liquidation of marketable securities and stress tests.

# Liquidity risk management governance in EFG Bank AG Hong Kong branch *HK-ALCO*

A monthly meeting is organized by the Hong Kong Asset & Liability Committee ("HK-ALCO") to review the branch's liquidity, maturity mismatch position, customer deposits, investment portfolio, interest rate swap for hedging bank's interest rate risk and the implication to the branch due to interest rate movement on top of the profitability of the branch to make sure that the liquidity risk management is properly conducted.

### Liquidity Maintenance Ratio

The Ratio is prepared daily, in accordance with the reporting requirements of the Hong Kong Monetary Authority (HKMA). The purpose of the report is to ascertain the liquidity position of the branch on any business day and see whether the branch is able to meet the statutory liquidity requirement.

The liquidity risk tolerance is 5% above the statutory liquidity requirements (i.e. 30% as the minimum target ratio). This requirement is already taken into account of on and off balance sheet activities including funding requirements. The daily report is prepared by the Financial Control department and provided to the Chief Executive, Risk Management, Regional Treasury and Money Market Unit for review.

#### **Periodic Stress Testing**

The branch is taking a preventive measure to conduct a quarterly stress test, or at a less frequent manner depending on the market environment and the branch's conditions, reviewing the branch's funding and liquidity positions under an extreme scenario.

The result on liquidity stress testing is reviewed by members of HK-ALCO and submitted to Global Head of Treasury and Global Risk Unit. Corrective actions will be made if unsatisfactory result is obtained.
