**NOTES TO THE CONDENSED CONSOLIDATED INTERIM FINANCIAL INFORMATION DISCLOSURE STATEMENTS**

**1 BASIS OF PREPARATION**

These condensed consolidated interim financial information disclosure statements were authorised for issue on September 28, 2023 and have been prepared in accordance with the Banking (Disclosure) Rules issued by the Hong Kong Monetary Authority ("HKMA") and in accordance with Hong Kong Accounting Standard ("HKAS") 34, "Interim Financial Reporting" issued by the Hong Kong Institute of Certified Public Accountants.

**2 BASIS OF CONSOLIDATION**

The condensed consolidated interim financial information disclosure statements cover the consolidated position of the China Construction Bank (Asia) Corporation Limited ("the Bank") and its subsidiaries (together referred to as "the Group"), and the Group's interest in a joint venture up to June 30, 2023.

Unless otherwise stated, all financial information contained is prepared according to the consolidation basis for accounting purposes.

In preparing the capital adequacy ratios of the Group, they are prepared according to the basis of consolidation for regulatory purposes. The main difference between the consolidation basis for accounting and regulatory purposes is that the former includes the Bank and all its subsidiaries and a joint venture whereas the latter excludes CCB Securities Limited ("CCBS"), CCB Nominees Limited ("CCBN") and CCB (Asia) Trustee Company Limited ("CCBT") which conduct non-banking related business.

**3 STATEMENT OF COMPLIANCE**

In preparing the unaudited condensed consolidated interim financial information disclosure statements for the first six months ended June 30, 2023, the Bank has fully complied with the disclosure provisions of the Banking (Disclosure) Rules.

**4 STATUTORY FINANCIAL STATEMENTS**

The financial information relating to the year ended December 31, 2022 that is included in the condensed consolidated interim financial information for the six months ended June 30, 2023 as comparative information does not constitute the Group's statutory annual consolidated financial statements for that year but is extracted from those financial statements which have been delivered to the Registrar of Companies as required by section 662(3) of, and Part 3 of Schedule 6 to, the Hong Kong Companies Ordinance (Cap. 622) and to the HKMA.

The Group's auditor has reported on those financial statements. The auditor's report was unqualified; did not include a reference to any matters to which the auditor drew attention by way of emphasis without qualifying its report; and did not contain a statement under sections 406(2), 407(2) or (3) of the Hong Kong Companies Ordinance (Cap. 622).

**5 CHANGES IN ACCOUNTING POLICIES**

The accounting policies applied, Hong Kong Financial Reporting Standards (“HKFRSs”), are consistent with those of the consolidated financial statements for the year ended December 31, 2022, except for the following revised HKFRSs for the first time for the current period’s financial information:

Amendments to HKAS 1 and HKFRS Practice Statement 2	Disclosure of Accounting Policies, which effective for annual period beginning on or after January 1, 2023.
Amendments to HKAS 8	Definition of Accounting Estimates, which effective for annual period beginning on or after January 1, 2023.
Amendments to HKAS 12	Deferred tax related to Asset and Liabilities arising from a Single Transaction, which effective for annual period beginning on or after January 1, 2023.
	International Tax Reform – Pillar Two Model Rules, which effective for annual period beginning on or after January 1, 2023.

Amendments to HKAS 1 and HKFRS Practice Statement 2 “Disclosure of Accounting Policies”

Amendments to HKAS 1 and HKFRS Practice Statement 2 aim to require entities to disclose their material rather than their significant accounting policies. The amendments define what is ‘material accounting policy information’ and explain how to identify when accounting policy information is material. They further clarify that immaterial accounting policy information does not need to be disclosed. If it is disclosed, it should not obscure material accounting information.

To support this amendment, the HKICPA also amended HKFRS Practice Statement 2 Making Materiality Judgements to provide guidance on how to apply the concept of materiality to accounting policy disclosures. The application of the amendments does not have a material impact on the Group’s financial statements.

Amendments to HKAS 8 “Definition of Accounting Estimates”

Amendments to HKAS 8 clarify how companies should distinguish changes in accounting policies from changes in accounting estimates. The application of the amendments does not have a material impact on the Group’s financial statements.

Amendments to HKAS 12 “Deferred tax related to Asset and Liabilities arising from a Single Transaction”

Amendments to HKAS 12 require companies to recognise deferred tax on transactions that, on initial recognition, give rise to equal amounts of taxable and deductible temporary differences. They will typically apply to transactions such as leases of lessees and decommissioning obligations and will require the recognition of additional deferred tax assets and liabilities. The application of the amendments does not have a material impact on the Group’s financial statements.

Amendments to HKAS 12 International Tax Reform – Pillar Two Model Rules

The amendments provide entities with temporary relief from accounting for deferred taxes arising from the Organisation for Economic Co-operation and Development’s Pillar Two model rules. The amendments also introduce targeted disclosure requirements to help investors understand an entity’s exposure to income taxes arising from the rules. The application of the amendments does not have a material impact on the Group’s financial statements.

**5 CHANGES IN ACCOUNTING POLICIES (CONTINUED)**

New HKFRSs not yet effective for the year ending December 31, 2023

The Group does not early adopt the following HKFRSs which were issued, but not yet effective for the financial year ending December 31, 2023:

Amendments to HKAS 1	Classification of Liabilities as Current or Non-current, which effective for annual period beginning on or after January 1, 2024.
	Non-current Liabilities with Covenants, which effective for annual period beginning on or after January 1, 2024.
Amendments to HKFRS 10 and HKAS 28 (2011)	Sale or Contribution of Assets between an Investor and its Associate or Joint Venture, which effective date is to be determined.
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback, which effective for annual period beginning on or after January 1, 2024.

**6 ESTIMATES**

The preparation of condensed consolidated interim financial information requires management to make judgment, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this condensed consolidated interim financial information, the significant judgment made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the consolidated financial statements for the year ended December 31, 2022.

**7 FINANCIAL RISK MANAGEMENT**

The Group continuously monitors and identifies risks. Our principal risks are credit risk, liquidity risk, market risk, operational risk, regulatory compliance risk, financial crime risk, reputational risk, pension risk and sustainability risk. There is no material change in the principal risks and uncertainties for the remaining six months of the financial year, the description of which can be found in the risk report of the consolidated financial statements for the year ended December 31, 2022. A summary of our current policies and practices regarding the management of risk is set out in the "Financial risk management" section of the Annual Report 2022.

**(a) Credit risk**

Credit risk is the risk of loss arising from a borrower's or counterparty's inability to meet its obligations. Credit risk exists in the Group's loans, leases, credit cards, trade finance and treasury transactions. There is also credit risk in off-balance sheet financial arrangements such as loan commitments, trade-related contingencies and transaction-related contingencies.

**8 FAIR VALUE MEASUREMENT**

**(a) Financial assets and liabilities measured at fair value**

Fair value estimates are generally subjective in nature, and are made as of a specific point in time based on the characteristics of the financial instruments and relevant market information. The Group measures fair value using the following hierarchy method:

- Level 1: fair values measured using quoted market prices (unadjusted) in active markets for identical financial instruments.
- Level 2: fair values measured using valuation techniques based on observable inputs, either directly (i.e. as prices) or indirectly (i.e. derived from prices). This category includes quoted prices in active markets for similar financial instruments, or quoted prices for identical or similar instruments in markets that are considered less than active, or other valuation techniques where all significant inputs are directly or indirectly observable from market data.
- Level 3: fair values measured using significant unobservable inputs. This category includes inputs to valuation techniques not based on observable data and the unobservable inputs have a significant effect on the instrument's valuation. This category includes instruments that are valued based on quoted prices for similar instruments where significant unobservable adjustments or assumptions are required to reflect differences between the instruments.

Where available, the most suitable measure for fair value is the quoted market prices in an active market. In the absence of active markets for most of the unlisted securities and over-the-counter derivatives, direct market prices of these financial instruments may not be available. The fair values of such instruments are therefore calculated based on established valuation techniques (i.e. Market Comparable Approach) by using observable and comparable market parameters or market prices provided by counterparties. Independent price verification or reasonableness check is performed if fair values are determined by reference to externally quoted prices.

Options and equity swaps traded over the counter are valued using broker quotes price. The fair values of foreign exchange contracts are valued by observable foreign exchange rates and forward points at the reporting date. Other derivative financial instruments, including interest rate swaps and currency swaps, are valued through estimated future cash flows and discounting with appropriate yield curves.

For structured deposits, this class of instruments includes certain deposits received from customers that are embedded with derivatives. The valuation of the underlying deposits is derived by using net present value of expected cash flow taking the Group's own credit risk into account. The valuation method of the embedded derivative is the same as other derivatives mentioned as above.

	2023	2022
<i>Financial assets measured at fair value through other comprehensive income ("FVOCI") - Unlisted equity securities</i>		
As at January 1	121,753	81,952
Change in fair value recognised in other comprehensive income	6,920	42,352
<b>As at June 30</b>	<b>128,673</b>	124,304

As at June 30, 2023 and June 30, 2022, financial assets categorised as Level 3 are unlisted equity securities. The fair values of unlisted equity securities are determined with reference to multiples of comparable listed companies in the market, such as price/earnings ratios of comparables, or enterprise value to the earnings before interest, taxes, depreciation and amortization ("EV/EBITDA") ratios per Bloomberg. The fair value is positively correlated to these market comparable parameters. Had the earning of the underlying equity investments increased/decreased by 5%, the Group's other comprehensive income would have increased/decreased by \$6,434 (2022: \$5,625).

**Information about Level 3 fair value measurements**

As at June 30, 2023, the valuation method and significant unobservable inputs used in the fair value measurement of the Group's financial assets classified as Level 3 are as follows:

	Valuation model used	Significant unobservable valuation inputs parameters	Average	Relationship of unobservable inputs to fair value
Unlisted equities securities	Market-comparable approach	Earnings multiples (P/E ratio)	12.25 (2022: 13.67)	The higher the ratio, the higher the fair value
		EV/EBITDA multiples	6.02 (2022: 7.83)	The higher the multiple, the higher the fair value
		Marketability discount	40% (2022: 40%)	The higher the discount, the lower the fair value

**8 FAIR VALUE MEASUREMENT (CONTINUED)**

**(b) Financial assets and liabilities not measured at fair value**

Financial assets and liabilities that are not presented at their fair value on the consolidated statement of financial position mainly represent cash and balances with banks and central banks, placements with banks, advances to customers and trade bills, and other assets measured at amortised cost. These financial assets are measured at amortised cost less expected credit losses. Financial liabilities not presented at their fair value on the consolidated statement of financial position mainly represent deposits and balances of banks, deposits from customers, financial assets sold under repurchase agreements, lease liabilities and other debt securities issued at amortised cost. These financial liabilities are measured at amortised cost.

i) Cash and balances with banks and central banks, and placements with banks

These balances are mainly priced at market interest rates and mature within one year. Accordingly, the carrying values approximate the fair values. The differences between fair values and carrying amounts of these financial assets not presented on the Group's consolidated statement of financial position.

ii) Advances to customers and trade bills

Majority of the advances to customers and trade bills are on floating rate terms, bear interest at prevailing market interest rate. Accordingly, their carrying values approximate the fair values. The differences between fair values and carrying amounts of advances to customers and trade bills not presented on the Group's consolidated statement of financial position.

iii) Other financial assets, other debt securities issued which measured at amortised cost and financial assets sold under repurchase agreements

The fair value of securities measured at amortised cost is determined using the same approach as those securities measured at fair value.

**9 SEGMENTAL INFORMATION**

**(a) Reportable segments**

The Group manages its businesses by divisions, which are organised by products services and customer types. In a manner consistent with the way in which information is reported internally to the executive management for the purposes of resource allocation and performance assessment, the Group has presented the following four reportable segments.

(i) Corporate, institutional and commercial banking

This segment mainly represents the provision of a range of financial products and services to corporations, financial institutions and small and medium sized enterprises. The products and services mainly include commercial loans, syndicated loans, commercial mortgages, trade financing, foreign exchange and deposit-taking activities.

(ii) Consumer banking

This segment mainly represents the provision of a range of financial products and services to individual customers. The products and services mainly comprise residential mortgages, personal loans, credit cards, auto-financing, deposit-taking activities, foreign exchange, wealth management, insurance and securities agency services.

(iii) Treasury & management pool

This segment covers the Bank's treasury operations and management of shareholders' funds. The Treasury Division enters into inter-bank money market transactions and invests in debt instruments. It also trades in debt instruments, derivatives and foreign currency for its own account and carries out customer driven derivatives such as foreign currency transactions. Its function also includes the management of the Group's overall liquidity position, including the issuance of certificates of deposit.

(iv) Others

This segment mainly represents investments in premises, subsidiaries and others.

Segment assets and liabilities are mainly composed of placement with banks, advances to banks and customers, investment securities, derivatives financial instruments, deposits and certificates of deposit and other debt securities issued.

Revenue and expenses are allocated to the reportable segments with reference to interest and fee and commission income generated by these segments and the expenses incurred by these segments or which otherwise arise from the depreciation or amortisation of assets attributable to these segments.

The primary revenue stream of the Group is derived from net interest income and net fees and commission income. The executive management relies to a large extent on net interest income and net fees and commission income in managing its business. Hence, net interest income and net fees and commission income for all reportable segments are presented under segmental information.

**24 DERIVATIVE FINANCIAL INSTRUMENTS**

Derivatives include forward, swap and option transactions undertaken by the Group in the foreign exchange and interest rate markets. The Group uses derivatives for trading activities and sale to customers as risk management products. These positions are actively managed through entering into offsetting deals with external parties to ensure the Group's net exposures are within acceptable risk levels. No significant proprietary positions were maintained by the Group as at the reporting date. The Group also uses these derivatives in the management of its own asset and liability portfolios and structural positions.

The following table provides an analysis of the notional amounts, carrying amounts and credit risk weighted amounts of derivatives of the Group at the reporting date:

		<u>7,777,601</u>	<u>7,777,601</u>

The additional tier 1 capital instruments are perpetual and subordinated, and the coupon payments may be cancelled at the sole discretion of the Group. The capital instruments will be written down at the point of non-viability on the occurrence of a trigger event as defined in the Banking (Capital) Rule. They rank higher than ordinary shares in the event of a winding-up.

**34 RESERVES**

**(a) General reserve**

General reserve is appropriated from the retained earnings for future use.

**(b) Investment revaluation reserve**

The investment revaluation reserve comprises the cumulative net change in the fair value of financial assets measured at fair value through other comprehensive income until the financial assets are derecognised and is dealt with in accordance with the accounting policies adopted for the measurement of these financial assets at fair value.

**(c) Regulatory reserve**

Regulatory reserve comprises reserves maintained in accordance with Hong Kong regulations. At Group level, it includes a regulatory reserve of \$791,023 (December 31, 2022: \$909,600) to satisfy the provisions of the Hong Kong Banking Ordinance for prudential supervision purposes. Movement in this reserve is made directly through retained earnings and in consultation with HKMA.

**(d) Other reserve**

Other reserve is used to record the corresponding amount of the share options and bonus rewards granted by the former parent company to the Bank's employees. The options and rewards granted are classified as equity-settled share-based payments and the amount recognised in other reserve represents capital contribution from its former parent company and is not distributable.

**(e) Merger reserve**

Merger reserve arises as a result of the acquisition of a majority of the corporate banking business ("Acquired Business") of CCB Hong Kong Branch. This amount represented the difference between the net book value of the Acquired Business and the consideration paid.

**(f) Retained earnings**

The Bank and its financial subsidiaries are required to maintain minimum capital adequacy ratios under their respective regulatory jurisdictions. The minimum capital requirements could therefore potentially restrict the amount of retained earnings available for distribution to the shareholders.

All reserves, except for general reserve and retained earnings, are not available for distribution.

**35 CONTINGENT LIABILITIES AND COMMITMENTS**

The following is a summary of the contractual amounts of each significant class of contingent liabilities and commitments to extend credit:

	<b>June 30, 2023</b>	December 31, 2022
Direct credit substitutes	<b>60,595</b>	102,700
Transaction-related contingencies	<b>3,054,210</b>	2,963,201
Trade-related contingencies	<b>2,435,472</b>	1,132,808
Other commitments:		
which are unconditionally cancellable or automatically cancellable due to the deterioration in the credit worthiness of the borrower	<b>53,942,129</b>	54,900,558
with an original maturity up to one year	<b>844,679</b>	4,514,432
with an original maturity over one year	<b>32,443,407</b>	33,260,246
	<b>92,780,492</b>	96,873,945

Contingent liabilities and commitments are credit-related instruments which include letter of credits, guarantees and commitments to extend credit. The risk involved is essentially the same as the credit risk involved in extending loan facilities to customers. These transactions are, therefore, subject to the same credit application, portfolio maintenance and collateral requirements as for customers applying for the loans. The contractual amounts represent the amounts at risk should the contract be fully drawn upon and the client defaults. As the facilities may expire without being drawn upon, the contractual amounts do not represent expected future cash flows.

The financial assets shown above include amounts transferred to third parties that do not qualify for derecognition are mainly debt securities held by counterparties as collateral under repurchase agreements. As the substance of these transactions is secured borrowings, the collateral assets continue to be recognised in full as financial assets measured at fair value through comprehensive income and the related liabilities, reflecting the Group's obligation to repurchase the transferred assets for a fixed price at a future date, are also recognised on the statement of financial position. As a result of these transactions, the Group is unable to use, sell or repledge the transferred assets for the duration of the transactions. The Group remains exposed to interest rate risk, credit risk and market risk on these pledged instruments. The counterparty's recourse is not limited to the transferred assets.
