Template OV1: Overview of RWA

The table below provides an overview of RWA and the related minimum capital requirements by risk type. For the purpose of risk management and regulatory consolidation, the Group refers to the consolidation of Public Bank (Hong Kong) Limited (the "Bank") and Public Finance Limited ("Public Finance"). The Group has adopted standardised approach for both credit risk and market risk. Regarding operational risk, the Bank and Public Finance have adopted basic indicator approach and standardised approach respectively. During the second quarter of 2023, RWA decreased by HK\$645.17 million to HK\$24.64 billion, mainly due to decrease in RWA for credit risk for non-securitisation exposures.

Notes to the template:

	Description	Hong Kong basis	Basel III basis			
		HK\$'000	HK\$'000			
9	Other intangible assets (net of associated deferred tax liabilities)	0	0			
	Explanation As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights ("MSRs") may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in row 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.					
10	Deferred tax assets (net of associated deferred tax liabilities)	13,687	0			
Explanation As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010 the bank to be realised are to be deducted, whereas DTAs which relate to temporary differences may limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, it capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that request Basel III. The amount reported under the column "Basel III basis" in this box represents the amount of Edducted which relate to temporary differences to the extent not in excess of the 10% threshold searising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from differences and significant investments in CET1 capital instruments issued by financial sector entities those that are loans, facilities or other credit exposures to connected companies) under Basel III.						
18	Insignificant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)	0	0			
	Explanation For the purpose of determining the total amount of insignificant LAC investments in CET1 capital instruments issued by financial sector entities, an Al is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the Al in the capital instruments of the financial sector entity, except where the Al demonstrates to the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the Al's business. Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the Al's connected companies which were subject to deduction under the Hong Kong approach.					

	Description	Hong Kong basis HK\$'000	Basel III basis HK\$'000				
19	Significant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)	0	0				
	Explanation For the purpose of determining the total amount of significant LAC investments in CET1 capital instrumen issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other cred exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthet holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. Therefore, the amount to be deducted a reported in row 19 may be greater than that required under Basel III. The amount reported under the colum "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hor Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI connected companies which were subject to deduction under the Hong Kong approach.						
39	Insignificant LAC investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)	0	0				
Explanation The effect of treating loans, facilities or other credit exposures to connected companies which sector entities as CET1 capital instruments for the purpose of considering deductions to be made the capital base (see note re row 18 to the template above) will mean the headroom within available for the exemption from capital deduction of other insignificant LAC investments instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be that required under Basel III. The amount reported under the column "Basel III basis" in this box amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by aggregate amount of loans, facilities or other credit exposures to the Al's connected companism subject to deduction under the Hong Kong approach.							
54	Insignificant LAC investments in Tier 2 capital instruments issued by, and non-capital LAC liabilities of, financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold and, where applicable, 5% threshold)	0	0				
Remar	Explanation The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant LAC investments in Tier 2 capital instruments and non-capital LAC liabilities may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the Al's connected companies which were subject to deduction under the Hong Kong approach.						

regime.

The amount of the 10% threshold and 5% threshold mentioned above is calculated based on the amount of CET1 capital determined in accordance with the deduction methods set out in BCR Schedule 4F. The 15% threshold is referring to paragraph 88 of the Basel III text issued by the Basel Committee (December 2010) and has no effect to the Hong Kong

Template CC2: Reconciliation of regulatory capital to balance sheet

The table below provides a reconciliation between the scope of accounting consolidation and the scope of regulatory consolidation, and shows the link between the consolidated balance sheet of the Bank and its subsidiaries in published financial statements and the numbers that are used in the composition of regulatory capital disclosure template set out in Template CC1 (i.e. composition of regulatory capital). There was no significant change in the expanded balance sheet items over the reporting period.

Template CR1: Credit quality of exposures

The table below provides a breakdown of defaulted and non-defaulted loans, debt securities and off-balance sheet exposures. The defaulted loans are individually determined to be impaired after considering the overdue period of more than three months and the qualitative factors such as bankruptcy proceedings, corporate winding-up arrangements and other serious warning signals of repayment ability of counterparties. There were no defaulted debt securities and off-balance sheet exposures as at 30 June 2023.

Template CR3: Overview of recognised credit risk mitigation

The table below provides a breakdown of unsecured and secured exposures (net of impairment allowances), including loans and debt securities. The major collaterals for secured loans and advances and receivables were customer deposits, properties, listed shares, taxi licences, public light bus licences and vehicles. Over 90% of debt securities were rated with a grading of A3 or above based on the credit rating of Moody's Investors Service, an external credit agency.
