

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**ANNUAL REPORT**

**FOR THE YEAR ENDED**

**31 DECEMBER 2024**

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**DIRECTORS' REPORT**

The directors of Tai Sang Bank Limited (the "Bank") submit their report together with the audited consolidated financial statements for the year ended 31 December 2024.

**Principal activities**

The principal activities of the Bank are commercial banking and related financial services and property investment and management. The principal activities of the Bank's subsidiaries are shown in note 13 to the consolidated financial statements.

**Results and appropriations**

The results of the Bank and its subsidiaries (collectively the "Group") for the year ended 31 December 2024 are set out in the consolidated statement of comprehensive income on page 9.

The directors do not recommend the payment of a dividend.

**Donations**

Charitable and other donations made by the Group during the year amounted to HK\$Nil (2023: HK\$Nil).

**Share issued in the year**

For the year ended 31 December 2024, the Bank has not issued any new shares. Details of the share capital are set out in note 20 to the consolidated financial statements.

**Equity-linked agreements**

For the year ended 31 December 2024, the Bank has not entered into any equity-linked agreement.

**Directors**

(a) Directors of the Bank

The directors of the Bank during the year and up to the date of this report are:

Mr. Patrick Ma Ching Hang, BBS, JP	(Chairman)
Mr. Ma Ching Tsun	
Mr. Ma Ching Yuk, SBS, JP	
Mr. Alfred Ma Ching Kuen	
Mr. Philip Ma Ching Yeung, BBS	
Ms. Katy Ma Ching Man	(Alternate director to Mr. Alfred Ma Ching Kuen)
Ms. Amy Ma Ching Sau	(Alternate director to Mr. Philip Ma Ching Yeung)
Mr. Ma Ching Cheng	
Mr. Aaron Tan Leng Cheng <sup>1</sup>	
Mr. Stephen Chung Kong Fei <sup>1</sup>	
Mr. James Yu Man Woon <sup>1</sup>	

<sup>1</sup> Independent non-executive director

## **TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

### **DIRECTORS' REPORT (CONTINUED)**

#### **Directors (Continued)**

In accordance with Article 98 of the Bank's Articles of Association, all ordinary directors shall retire in each succeeding two years. Accordingly, all ordinary directors remain in office.

#### **(b) Directors of the Bank's subsidiaries**

During the year and up to the date of this report, Mr. Ma Ching Yuk, Mr. Alfred Ma Ching Kuen, Mr. Patrick Ma Ching Hang, Mr. Philip Ma Ching Yeung and Mr. Ma Ching Tsun are also directors in subsidiaries of the Bank. There are no other directors of the subsidiaries of the Bank.

#### **Directors' material interests in transactions, arrangements and contracts that are significant in relation to the Group's business**

Except for the loans disclosed in note 23 to the consolidated financial statements, no other transactions, arrangements and contracts of significance in relation to the Group's business to which the Bank's subsidiaries was a party and in which a director of the Bank had a material interest, whether directly or indirectly, subsisted at the end of the year or at any time during the year.

#### **Directors' interests in the shares, underlying shares and debentures of the Bank or any specified undertaking of the Bank**

At no time during the year was the Bank, its subsidiaries or its other associated corporations a party to any arrangement to enable the directors and chief executives of the Bank (including their spouse and children under 18 years of age) to hold any interests or short positions in the shares or underlying shares in, or debentures of, the Bank or its specified undertakings or other associated corporation.

#### **Management contracts**

No contracts concerning the management and administration of the whole or any substantial part of the business of the Bank were entered into or existed during the year.

#### **Business review**

##### **(a) Review of Business**

In the financial year 2024, the Group reported a pre-tax operating profit before property revaluation loss and loss on disposal of property, plant and equipment of HK\$1.06Mn, as compared to HK\$4.65Mn in 2023. This represents a notable decrease, primarily attributed to the costs associated with launching a new safe deposit centre in Whampoa in November 2024. Overall, the key contributors of the Group's operating income in 2024 were the net interest income and safe deposit box rental income of the Group. Additionally, the Group's safe deposit box rental income for the current year increased by 30% from the previous year.

During 2024, total customers' deposits decreased by 1.3% from the end of previous year. The mix of customers' deposits for 2024 has shifted towards fixed deposits as a result of the increased interest rates. As at the end of 2024, fixed deposits accounted for 38.6% of the total level of customers' deposits, increased from the 27.8% of total customers' deposits for 2023. For both 2023 and 2024, savings accounts took up the largest proportion of the total customers' deposits balances.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**DIRECTORS' REPORT (CONTINUED)**

**Business review (Continued)**

**(a) Review of Business**

Other major source of income for the Group came from property rental income. Net property rental income decreased by 11.2% when compared to 2023. Despite, the lackluster commercial real estate market, the occupancy rate and net property rental income were relatively stable during 2024. The Group's investment properties recorded a slight decrease of 0.75% in value as at the end of 2024, resulting in the booking of property revaluation loss of HK\$2.3Mn for the year 2024.

The Group continued its investment strategy in equity shares, with a focus on enhancing returns for our stakeholders. The dividend income from equity share investments also improved in 2024 with an increase of 19.9%.

Operating expenses increased by 22.1% in 2024 as a result of the Group's expansion of safe deposit box business by the opening of another flagship safe deposit box centre in Whampoa, Hong Kong in mid-November 2024.

The loans and advances of the Group decreased by 8.5% during the year, mainly resulted from the full repayment by a loan customer during the first half of 2024. Funds received from the repayment of loans had been invested in exchange fund bills, which could provide a reasonable level of interest yield while also serve to enhance the liquidity of the Bank. The amount of surplus funds placed with the HKMA was also maintained at a minimum.

During the year, all relevant laws and regulations were complied with. The Group's conservative management on the latest balance sheet mix and new expansion of business had resulted in a total capital ratio exceeding 80% and liquidity maintenance ratio exceeding 110% as at the year-end of 2024, both of which were substantially above the statutory minimum.

The Group observes a strict customer acceptance policy. While the aim is not to provide a full range of banking services to satisfy all customer needs, the Group is committed to deliver products and services with quality and flexibility such that strong customer relationships are established and maintained.

As at the end of 2024, the total number of employees employed by the Group was 49. The Group operates in three locations, being the head office in Central and safe deposit box centres in Quarry Bay and Whampoa. The Group adopts close communication between management and the staff and places strong emphasis on operational efficiency, risk management, compliance, and sensible work-life balance for employees. The Group will continue to adopt environmental protective measures in order to promote an environmental friendly working environment for all employees.

**(b) Principal Risks**

The Group is exposed to various types of risks including credit risk, operational risk, liquidity risk, market risk, legal risk, strategic risk and climate risk, the details of which are carried in note 3 to the consolidated financial statements. Different Board committee, viz. Executive Committee, Credit Committee, Asset & Liability Committee, Audit Committee, Remuneration Committee, Nomination Committee and Risk Committee, are in place to oversee the various types of risks confronted by the Bank and give directions to management to control and mitigate these risks accordingly.

**TAI SANG BANK LIMITED**

(Incorporated in Hong Kong with limited liability)

**DIRECTORS' REPORT (CONTINUED)****Business review (Continued)****(c) Important Events and Future Development**

The Group will remain conservative and continue to maintain its total capital and liquidity maintenance ratios at levels with appropriate buffers above the statutory minimums to guard against any unexpected market shocks. While the Group intends to proceed with the approved Board expansion plan by opening new safe deposit box centers, it will closely monitor the current market conditions and make necessary adjustments to the approved plan as it is deemed appropriate by management.

**Permitted indemnity provisions**

At no time during the financial year and up to the date of this Directors' Report, there was or is, any permitted indemnity provision being in force for the benefit of any of the directors of the Bank (whether made by the Bank or otherwise) or an associated company (if made by the Bank).

**Compliance with the Banking (Disclosure) Rules**

The Bank has complied with the requirements set out in the Banking (Disclosure) Rules under the Hong Kong Banking Ordinance.

**Auditor**

The consolidated financial statements of the Group have been audited by PricewaterhouseCoopers who retire and, being eligible, offer themselves for reappointment.

On behalf of the Board

Patrick Ma Ching Hang  
Chairman

Hong Kong, 27 March 2025

羅兵咸永道

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**Opinion**

*What we have audited*

The consolidated financial statements of Tai Sang Bank Limited (the "Bank") and its subsidiaries (the "Group"), which are set out on pages 8 to 90, comprise:

- the consolidated statement of financial position as at 31 December 2024;
- the consolidated statement of comprehensive income for the year then ended;
- the consolidated statement of changes in equity for the year then ended;
- the consolidated statement of cash flows for the year then ended; and
- the notes to the consolidated financial statements, comprising material accounting policy information and other explanatory information.

*Our opinion*

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at 31 December 2024, and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and have been properly prepared in compliance with the Hong Kong Companies Ordinance

**Basis for Opinion**

We conducted our audit in accordance with Hong Kong Standards on Auditing ("HKSAs") issued by the HKICPA. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Consolidated Financial Statements section of our report.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

*Independence*

We are independent of the Group in accordance with the HKICPA's Code of Ethics for Professional Accountants ("the Code"), and we have fulfilled our other ethical responsibilities in accordance with the Code.

**Other Information**

The directors of the Bank are responsible for the other information. The other information comprises the information included in the directors' report and supplementary financial information, but does not include the consolidated financial statements and our auditor's report thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF TAI SANG BANK LIMITED (CONTINUED)**  
(incorporated in Hong Kong with limited liability)

**Other Information (Continued)**

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

**Responsibilities of Directors and the Audit Committee for the Consolidated Financial Statements**

The directors of the Bank are responsible for the preparation of the consolidated financial statements that give a true and fair view in accordance with HKFRSs issued by the HKICPA and the Hong Kong Companies Ordinance, and for such internal control as the directors determine is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, the directors are responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless the directors either intend to liquidate the Group or to cease operations, or have no realistic alternative but to do so.

The Audit Committee is responsible for overseeing the Group's financial reporting process.

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. We report our opinion solely to you, as a body, in accordance with Section 405 of the Hong Kong Companies Ordinance, and for no other purpose. We do not assume responsibility towards or accept liability to any other person for the contents of this report. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with HKSAAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with HKSAAs, we exercise professional judgment and maintain professional scepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

羅兵咸永道

**INDEPENDENT AUDITOR'S REPORT  
TO THE MEMBERS OF TAI SANG BANK LIMITED (CONTINUED)**  
(incorporated in Hong Kong with limited liability)

**Auditor's Responsibilities for the Audit of the Consolidated Financial Statements  
(Continued)**

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by the directors.
- Conclude on the appropriateness of the directors' use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Plan and perform the group audit to obtain sufficient appropriate audit evidence regarding the financial information of the entities or business units within the Group as a basis for forming an opinion on the consolidated financial statements. We are responsible for the direction, supervision and review of the audit work performed for purposes of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****1 General information**

The principal activities of Tai Sang Bank Limited (the "Bank") and its subsidiaries (collectively the "Group") are the provision of banking and related financial services, and property investment and management.

The Bank is an authorized institution incorporated in Hong Kong. The address of its registered office is 130-132 Des Voeux Road Central, Hong Kong.

These consolidated financial statements are presented in units of Hong Kong dollars (HK\$), unless otherwise stated. These consolidated financial statements have been approved for issue by the Board of Directors on 27 March 2025.

**2 Summary of material accounting policies**

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

**2.1 Basis of preparation**

The consolidated financial statements of Tai Sang Bank Limited have been prepared in accordance with all applicable Hong Kong Financial Reporting Standards ("HKFRSs") issued by the Hong Kong Institute of Certified Public Accountants ("HKICPA") and requirements of the Hong Kong Companies Ordinance Cap. 622. The consolidated financial statements have been prepared under the historical cost convention, as modified by the revaluation of financial assets at fair value through other comprehensive income and investment properties at fair value.

The preparation of financial statements in conformity with HKFRSs requires the use of certain critical accounting estimates. It also requires management to exercise its judgement in the process of applying the Group's accounting policies. The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the consolidated financial statements, are disclosed in note 4.

**2.1.1 Adoption of new HKFRS and amendments**

The Group has applied the following standards and amendments for the first time for their annual reporting period commencing 1 January 2024:

Amendments to HKAS 1	Classification of Liabilities as Current or Non-current and related amendments to Hong Kong Interpretation 5 (2020)
Amendments to HKAS 1	Non-current Liabilities with Covenants
Amendments to HKFRS 16	Lease Liability in a Sale and Leaseback
Amendments to HKAS 7 and HKFRS 7	Supplier Finance Arrangements

The amendments listed above did not have any impact on the amounts recognized in prior periods and are not expected to significantly affect the current or future periods.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 Summary of material accounting policies (Continued)****2.1 Basis of preparation (Continued)****2.1.2 New and amended standards not yet adopted by the Group**

Certain new accounting standards and interpretations have been published that are not mandatory for 31 December 2024 reporting period and have not been early adopted by the Group. These standards and interpretations are not expected to have a material impact on the Group in the current or future reporting periods and on foreseeable future transactions.

**2.2 Consolidation**

The consolidated financial statements include the financial statements of the Bank and all its subsidiaries made up to 31 December.

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to, or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated unless the transaction provides evidence of an impairment of the transferred asset. Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

In the Bank's statement of financial position (Note 26), the investments in subsidiaries are stated at cost less provision for impairment losses (Note 2.12). The results of subsidiaries are accounted by the Bank on the basis of dividend received and receivable. Dividend income from subsidiaries is recognised in the statement of comprehensive income when the right to receive payment is established.

There are no restrictions, or other major impediments on the transfer of funds or regulatory capital between the Group companies.

**2.3 Interest income and expense**

Interest income and expense are recognised in the consolidated statement of comprehensive income for all instruments measured at amortised cost and debt securities measured at fair value through other comprehensive income using the effective interest method.

The effective interest method is a method of calculating the amortised cost of a financial asset or a financial liability and of allocating the interest income or interest expense over the relevant period. The effective interest rate is the rate that discounts estimated future cash payments or receipts through the expected life of the financial instrument or, when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group estimates cash flows considering all contractual terms of the financial instrument (for example, prepayment options) but does not consider future credit losses. The calculation includes all fees paid or received between parties to the contract that are an integral part of the effective interest rate, transaction costs and all other premiums or discounts.

Once a financial asset or a group of similar financial assets have been written down as a result of an impairment loss, interest income is recognised using the rate of interest used to discount the future cash flows for the purpose of measuring the impairment loss.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.4 Fee and commission income and expense**

Fees and commissions are generally recognised on an accrual basis when the service has been provided. Loan commitment fees for loans that are likely to be drawn down are deferred (together with related direct costs) and recognised as an adjustment to the effective interest rate on the loan. Commission and fees arising from negotiating, or participating in the negotiation of, a transaction for a third party - such as the arrangement of the acquisition of shares or other securities or the purchase or sale of businesses - are recognised on completion of the underlying transaction.

Other operating income (including rental income from investment properties and safe deposit box rental) is recognized when services are provided.

**2.5 Financial assets**

**(i) Classification and subsequent measurement**

The Group classifies its financial assets in the following measurement categories:

- Fair value through profit or loss (FVPL);
- Fair value through other comprehensive income (FVOCI); or
- Amortised cost.

The classification requirements for debt and equity instruments are described below:

**Debt instruments**

Debt instruments are those instruments that meet the definition of a financial liability from the issuer's perspective, such as loans, government and corporate bonds and trade receivables purchased from clients in factoring arrangement without recourse.

Classification and subsequent measurement of debt instruments depend on:

- (a) the Group's business model for managing the asset; and
- (b) the cash flow characteristics of the asset.

Based on these factors, the Group classifies its debt instruments into one of the following three measurement categories:

- **Amortised cost:** Assets that are held for collection of contractual cash flows where those cash flows represent solely payments of principal and interest ('SPPI'), and that are not designated at FVPL, are measured at amortised cost. The carrying amount of these assets is adjusted by any expected credit loss allowance recognised and measured as described in note 3.1.4. Interest income from these financial assets is included in 'Interest income' using the effective interest rate method.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 Summary of material accounting policies (Continued)****2.5 Financial assets (Continued)****(i) Classification and subsequent measurement (Continued)**

- Fair value through other comprehensive income (FVOCI): Financial assets that are held for collection of contractual cash flows and for selling the assets, where the assets' cash flows represent solely payments of principal and interest, and that are not designated at FVPL, are measured at fair value through other comprehensive income (FVOCI). Movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue and foreign exchange gains and losses on the instrument's amortised cost which are recognised in profit or loss. When the financial asset is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in 'Net Investment Income'. Interest income from these financial assets is included in 'Interest Income' using effective interest rate method.
- Fair value through profit or loss: Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt investment that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented in the profit or loss statement within 'Net trading income' in the period in which it arises, unless it arises from debt instruments that were designated at fair value or which are not held for trading, in which case they are presented separately in 'Net Investment Income'. Interest income from these financial assets is included in 'Interest Income' using the effective interest rate method.

Business model: the business model reflects how the Group manages the assets in order to generate cash flows. That is, whether the Group's objective is solely to collect the contractual cash flows from the assets or is to collect both the contractual cash flows and cash flows arising from the sale of assets. If neither of these is applicable (e.g. financial assets are held for trading purposes), then the financial assets are classified as part of 'other' business model and measured at FVPL. Factors considered by the Group in determining the business model for a group of assets include past experience on how the cash flows for these assets were collected, how the asset's performance is evaluated and reported to key management personnel, how risks are assessed and managed and how managers are compensated. An example is the liquidity portfolio of assets, which is held by the Group as part of liquidity management and is generally classified within the hold to collect and sell business model. Securities held for trading are held principally for the purpose of selling in the near term or are part of a portfolio of financial instruments that are managed together and for which there is evidence of a recent actual pattern of short-term profit-taking. These securities are classified in the 'other' business model and measured at FVPL.

SPPI: Where the business model is to hold assets to collect contractual cash flows or to collect contractual cash flows and sell, the Group assesses whether the financial instruments' cash flows represent solely payments of principal and interest (the 'SPPI test'). In making this assessment, the Group considers whether the contractual cash flows are consistent with a basic lending arrangement, i.e. interest includes only consideration for the time value of money, credit risk, other basic lending risks and a profit margin that is consistent with a basic lending arrangement. Where the contractual terms introduce exposure to risk or volatility that are inconsistent with a basic lending arrangement, the related financial asset is classified and measured at fair value through profit or loss.

Financial assets with embedded derivatives are considered in their entirety when determining whether their cash flows are solely payment of principal and interest.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 Summary of material accounting policies (Continued)****2.5 Financial assets (Continued)****(i) Classification and subsequent measurement (Continued)**

The Group reclassifies debt investments when and only when its business model for managing those assets changes. The reclassification takes place from the start of the first reporting period following the change. Such changes are expected to be very infrequent and none occurred during the period.

**Equity instruments**

Equity instruments are instruments that meet the definition of equity from the issuer's perspective; that is, instruments that do not contain a contractual obligation to pay and that evidence a residual interest in the issuer's net assets. Examples of equity instruments include basic ordinary share.

The Group subsequently measures all equity investments at fair value through profit or loss, except where the Group's management has elected, at initial recognition, to irrevocably designate an equity investment at fair value through other comprehensive income. The Group's policy is to designate equity investments as FVOCI when those investments are held for purposes other than to generate investment returns. When this election is used, fair value gains and losses are recognised in OCI and are not subsequently reclassified to profit or loss, including on disposal. Impairment losses (and reversal of impairment losses) are not reported separately from other changes in fair value. Dividends, when representing a return on such investments, continue to be recognised in profit or loss as other income when the Group's right to receive payments is established.

Gains and losses on equity investments at FVPL are included in the 'Net Trading Income' line in the statement of comprehensive income.

**(ii) Impairment**

The Group assesses on a forward-looking basis the expected credit losses ('ECL') associated with its debt instrument assets carried at amortised cost and FVOCI and with the exposure arising from loan commitments and financial guarantee contracts. The Group recognises a loss allowance for such losses at each reporting date. The measurement of ECL reflects:

- An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- The time value of money; and
- Reasonable and supportable information that is available without undue cost or effort at the reporting date about past event, current conditions and forecasts of future economic conditions.

**(iii) Modification of loans**

The Group sometimes renegotiates or otherwise modifies the contractual cash flows of loans to customers. When this happens, the Group assesses whether or not the new terms are substantially different of the original terms. The Group does this by considering, among others, the following factors:

- If the borrower is in financial difficulty, whether the modification merely reduces the contractual cash flows to amounts the borrower is expected to be able to pay.
- Whether any substantial new terms are introduced, such as profit share/ equity-based return that substantially affects the risk profile of the loan.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.5 Financial assets (Continued)**

**(iii) Modification of loans (Continued)**

- Significant extension of the loan term when the borrower is not in financial difficult.
- Significant change in the interest rate.
- Change in the currency the loan is denominated in.
- Insertion of collateral, other security or credit enhancements that significantly affect the credit risk associated with the loan.

If the terms are substantially different, the Group derecognizes the original financial asset and recognises a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition of impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognised is deemed to be credit-impaired at initial recognition, especially in circumstances whether the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in profit or loss as a gain or loss on derecognition.

If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognises a modification gain or loss in profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate (or credit-adjusted effective interest rate for purchased or originated credit-impaired financial assets).

The impact of modifications of financial assets on the expected credit loss calculation is discussed in note 3.1.10.

**(iv) Derecognition other than on a modification**

Financial assets, or a portion thereof, are derecognised when the contractual rights to receive the cash flows from the assets have expired, or when they have been transferred and either (i) the Group transfers substantially all the risks and rewards of ownership, or (ii) the Group neither transfers nor retains substantially all the risks and rewards of ownership and the Group has not retained control.

The Group enters into transactions where it retains the contractual rights to receive cash flows from assets but assumes a contractual obligation to pay those cash flows to other entities and transfers substantially all of the risks and rewards. These transactions are accounted for as 'pass through' transfers that result in derecognition if the Group:

- (a) has no obligation to make payments unless it collects equivalent amounts from the assets;
- (b) is prohibited from selling or pledging the assets; and
- (c) has an obligation to remit any cash it collects from the assets without material delay.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 Summary of material accounting policies (Continued)****2.6 Financial liabilities****(i) Classification and subsequent measurement**

In both the current and prior period, financial liabilities are classified as subsequently measured at amortised cost, except for:

- Financial liabilities at fair value through profit or loss: this classification is applied to derivatives, financial liabilities held for trading (e.g. short positions in the trading book) and other financial liabilities designated as such at initial recognition. Gains or losses on financial liabilities designated at fair value through profit or loss are presented partially in other comprehensive income (the amount of change in the fair value of the financial liability that is attributable to changes in the credit risk of that liability, which is determined as the amount that is not attributable to changes in market conditions that give rise to market risk) and partially profit or loss (the remaining amount of change in the fair value of the liability). This is unless such a presentation would create, or enlarge, an accounting mismatch, in which case the gains and losses attributable to changes in the credit risk of the liability are also presented in profit or loss;
- Financial liabilities arising from the transfer of financial assets which did not qualify for derecognition or when the continuing involvement approach applies. When the transfer of financial asset did not qualify for derecognition, a financial liability is recognised for the consideration received for the transfer. In subsequent periods, the Group recognises any expense incurred on the financial liability; when continuing involvement approach applies; and
- Financial guarantee contracts and loan commitments.

**(ii) Derecognition**

- Financial liabilities are derecognised when they are extinguished (i.e. when the obligation specified in the contract is discharged, cancelled or expires).
- The exchange between the Group and its original lenders of debt instruments with substantially different terms, as well as substantial modifications of the terms of existing financial liabilities, are accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability. The terms are substantially different if the discounted present value of the cash flows under the new terms, including any fees paid net of any fees received and discounted using the original effective interest rate, is at least 10% different from the discounted present value of the remaining cash flows of the original financial liability. In addition, other qualitative factors, such as the currency that the instrument is denominated in, changes in the type of interest rate, new conversion features attached to the instrument and change in covenants are also taken into consideration. If an exchange of debt instruments or modification of terms is accounted for as an extinguishment, any costs or fees incurred are recognised as part of the gain or loss on the extinguishment. If the exchange or modification is not accounted for as an extinguishment, any costs or fees incurred adjust the carrying amount of the liability and are amortised over the remaining term of the modified liability.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.7 Financial guarantee contracts and loan commitments**

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and others on behalf of customers to secure loans, overdrafts and other banking facilities.

Financial guarantee contracts are initially measured at fair value and subsequently measured at the higher of:

- The amount of the loss allowance; and
- The premium received on initial recognition less income recognised in accordance with the principles of HKFRS 15

Loan commitments provided by the Group are measured as the amount of loss allowance (calculated as described in note 3.1.4). The Group has not provided any commitment to provide loans at a below-market interest rate, or that can be settled net in cash or by delivering or issuing another financial instrument.

For loan commitments and financial guarantee contracts, the loss allowance is recognised as a provision. However, for contracts that include both a loan and an undrawn commitment and the Group cannot separately identify the expected credit losses on the undrawn commitment component from those on the loan component, the expected credit losses on the undrawn commitment are recognised together with the loss allowance for the loan. To the extent that the combined expected credit losses exceed the gross carrying amount of the loan, the expected credit losses are recognised as a provision.

**2.8 Offsetting financial instruments**

Financial assets and liabilities are offset and the net amount reported in the consolidated statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

**2.9 Foreign currency translation**

**(a) Functional and presentation currency**

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Hong Kong dollars, which is the Bank's functional currency and the Group's presentation currency.

**(b) Transactions and balances**

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in the consolidated statement of comprehensive income.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.9 Foreign currency translation (Continued)**

**(b) Transactions and balances (Continued)**

Changes in the fair value of monetary securities denominated in foreign currency and classified as FVOCI are analysed between translation differences resulting from changes in the amortised cost of the securities and other changes in the carrying amount of the securities. Translation differences related to changes in the amortised cost are recognised in the consolidated statement of comprehensive income, and other changes in the carrying amount are recognised in equity.

Translation differences on non-monetary items are reported as part of the fair value gain or loss. Translation differences on non-monetary items, such as equities classified as FVOCI, are included in the investment revaluation reserve in equity.

**2.10 Property, plant and equipment**

Bank premises represent those properties held for own use and are treated as finance lease since the costs of land and building elements of the leasehold properties cannot be allocated reliably at the inception of the lease. Bank premises are stated at valuation made in prior years less accumulated depreciation charge and impairment losses.

On adoption of HKAS 16 entities that measured property, plant and equipment based on revaluation performed prior to 30 September 1995 were exempted from the requirement to make regular revaluations prospectively, provided that these entities did not measure their property, plant and equipment using the revaluation model subsequent to 1995.

Effective from 30 September 1995, no further revaluations of bank premises have been carried out. The Group has adopted the transitional provision in paragraph 80A of HKAS 16, which provides exemption from the need to make regular revaluation of bank premises.

The revalued amount made prior to 30 September 1995 became a deemed cost as the revaluation date for subsequent measurement under HKAS 16.

Cost includes expenditure that is directly attributable to the acquisition of the items. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. All other repairs and maintenance are expensed in the consolidated statement of comprehensive income during the financial period in which they are incurred.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.10 Property, plant and equipment (Continued)**

Bank premises	Bank premises are stated at cost less accumulated depreciation. Portion of the bank premises value attributable to the land element is depreciated over the lease term, while portion attributable to the building element is depreciated on a straight line basis over the remaining portion of the useful life.
Leasehold improvements	Remaining portion of the useful life of the bank premises.
Furniture, fixtures & equipment	Furniture, fixtures and equipment are stated at cost less accumulated depreciation and accumulated impairment losses. Depreciation for furniture, equipment and fixtures at owned premises is calculated at 10% per annum on a reducing balance basis after an initial provision of 20% on cost in the year of purchase. Depreciation for fixtures at lease premises is calculated on straight line basis over the remaining portion of the lease.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period. Assets that are subject to amortisation are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable.

An asset's carrying amount is written down immediately to its recoverable amount if the asset's carrying amount is greater than its estimated recoverable amount. The recoverable amount is the higher of the asset's fair value less costs to sell and value in use.

Gains and losses on disposals are determined by comparing proceeds with carrying amount.

**2.11 Investment properties**

Property that is held for long-term rental yields or for capital appreciation or both, and that is not occupied by the companies in the consolidated Group, is classified as investment property.

Investment property is measured initially at its cost, including related transaction costs.

After initial recognition, investment properties are measured at fair value assessed by professional valuers on the basis of open market value. If information of open market value is not available, alternative valuation methods are used such as recent prices on less active markets or discounted cash flow projections. These valuations are performed in accordance with valuation standards on properties published by The Hong Kong Institute of Surveyors.

Subsequent expenditure is charged to the asset's carrying amount only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The item is stated at cost less impairment and is included in the carrying amount of investment properties. Once the item begins to generate economic benefits, it is then measured at fair value. All other repairs and maintenance costs are expensed in the statement of comprehensive income during the financial period in which they are incurred.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.11 Investment properties (Continued)**

Any changes in fair value are recognised directly in the statement of comprehensive income.

If an investment property becomes owner-occupied, it is reclassified as premises, and its fair value at the date of reclassification becomes its cost for accounting purposes. If an item of premises becomes an investment property because its use has changed, any difference resulting between the carrying amount and the fair value of this item at the date of transfer is recognised in other comprehensive income as a revaluation of premises under HKAS 16 "Property, Plant and Equipment". However, if a fair value gain reverses a previous revaluation loss or impairment loss, the gain is recognised in the statement of comprehensive income up to the amount previously debited.

**2.12 Impairment of non-financial assets**

Assets that have an indefinite useful life are not subject to amortisation, but are tested annually for impairment and are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount may not be recoverable. An impairment loss is recognised for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units). Assets other than goodwill that suffered impairment are reviewed for possible reversal of the impairment at each reporting date.

**2.13 Current and deferred income tax**

The tax expense for the period comprises current and deferred tax. Tax is recognised in the consolidated statement of comprehensive income, except to the extent that it relates to items recognised directly in equity. In this case, the tax is also recognised in equity.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period in the country where the company's subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is provided, using the liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the end of the reporting period and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

The principal temporary differences arise from depreciation of property, plant and equipment, revaluation of bank premises and tax losses carried forward. However, the deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss.

Deferred income tax assets are recognised to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.13 Current and deferred income tax (Continued)**

Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Group and it is probable that the temporary difference will not reverse in the foreseeable future.

The tax effects of income tax losses available for carry forward are recognised as an asset when it is probable that future taxable profits will be available against which these losses can be utilised.

**2.14 Employee benefits**

**(a) Employee leave entitlements**

Employee entitlements to annual leave are recognised when they accrue to employees. A provision is made for the estimated liability for annual leave as a result of services rendered by employees up to the end of the reporting period.

Employee entitlements to sick leave and maternity leave are not recognised until the time of leave.

**(b) Pension obligations**

Group companies offer defined contribution mandatory provident funds to all eligible employees of the Group. The funds are provided through payments to trustee-administered funds.

For defined contribution plans, the Group pays contributions to publicly or privately administered pension insurance plans on a mandatory, contractual or voluntary basis. The Group has no further payment obligations once the contributions have been paid. The contributions are recognised as employee benefit expense when they are due and are reduced by contributions forfeited by those employees who leave the scheme prior to vesting fully in the contributions. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

**(c) Long service payments**

The Group's eligible employees who have completed a required number of years of service to the Group are eligible for long service payments under the Hong Kong Employment Ordinance in the event of the termination of their employment, provided that such termination meets the circumstances specified in the Hong Kong Employment Ordinance.

In June 2022, the Hong Kong Government enacted the Employment and Retirement Schemes Legislation (Offsetting Arrangement) (Amendment) Ordinance 2022 (the "Amendment Ordinance") which will be effective from 1 May 2025 (the "Transition Date"). Under the Amendment Ordinance, any accrued benefits attributable to the employer's mandatory contributions under mandatory provident fund scheme ("MPF Benefits") of an entity would no longer be eligible to offset against its obligations on long service payment ("LSP") for the portion of the LSP accrued on or after the Transition Date. There is also a change in the calculation basis of last monthly wages for the portion of the LSP accrued before the Transition Date.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 Summary of material accounting policies (Continued)****2.14 Employee benefits (Continued)****(c) Long service payments (Continued)**

In July 2023, the HKICPA published "Accounting implications of the abolition of the MPF-LSP offsetting mechanism in Hong Kong" (the "Guidance") which provides clarified and detailed guidance on the accounting considerations relating to the abolition of the offsetting mechanism. The Guidance clarified that following the enactment of the Amendment Ordinance, LSP is no longer a 'simple type of contributory plans' to which the practical expedient had been intended to apply.

A provision is recognised in respect of the probable future long service payments expected to be made. The provision is based on the best estimate of the probable future payments which have been earned by the employees from their service to the Group to the end of the reporting period.

**2.15 Related parties**

For the purposes of these financial statements, a party is considered to be related to the Group if that party controls, jointly controls or has significant influence over the Group; is a member of the same financial reporting group, such as parents, subsidiaries and fellow subsidiaries; is an associate or a joint venture of the Group; is a key management personnel of the Group or parents, or where the Group and the party are subject to common control. Related parties may be individuals or entities.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****2 Summary of material accounting policies (Continued)****2.16 Provisions**

Provisions are recognised when the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount has been reliably estimated.

Where there are a number of similar obligations, the likelihood that an outflow will be required in settlement is determined by considering the class of obligations as a whole. A provision is recognised even if the likelihood of an outflow with respect to any one item included in the same class of obligations may be small.

Provisions are measured at the present value of the expenditure expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to the passage of time is recognised as interest expense.

**2.17 Cash and cash equivalents**

Cash and cash equivalents include cash in hand, balances with banks and central bank, placements with banks and exchange fund papers with original maturities of three months or less, that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

**2.18 Leases**

Leases are recognised as a right-of-use asset and a corresponding liability at the date at which the leased asset is available for use by the Group. For leases of real estate for which the Group is a lessee, it has elected not to separate lease and non-lease components and to treat these as a single lease component.

Assets and liabilities arising from a lease are initially measured on a present value basis. Lease liabilities include the net present value of the following lease payments:

- Fixed payments (including in-substance fixed payments), less any lease incentives receivable
- Variable lease payment that are based on an index or a rate, initially measured using the index or rate as at the commencement date
- Amounts expected to be payable by the Group under residual value guarantees
- The exercise price of a purchase option if the Group is reasonable certain to exercise that option
- Payments of penalties for terminating the lease, if the lease term reflects the Group exercising that option, and
- Lease payments to be made under reasonably certain extension options are also included in the measurement of the liability.

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**2 Summary of material accounting policies (Continued)**

**2.18 Leases (Continued)**

The lease payments are discounted using the interest rate implicit in the lease. If that rate cannot be readily determined, which is generally the case for leases in the Group, the lessee's incremental borrowing rate is used, being the rate that the individual lessee would have to pay to borrow the funds necessary to obtain an asset of similar value to the right-of-use asset in a similar economic environment with similar terms, security and conditions.

Depending on the nature of the underlying asset and the terms and conditions of the lease, a lessee may be able to refer to a rate that is readily observable as a starting point when determining its incremental borrowing rate for a lease (for example, the rate that a lessee has paid, or would pay, to borrow money to purchase the type of asset being leased, or the property yield when determining the discount rate to apply to property leases).

To determine the incremental borrowing rate, the Group uses recent third-party financing received as a starting point, where possible, adjusted to reflect changes in financing conditions since the receipt of third party financing. Where recent third-party financing does not exist, the Group uses a build-up approach that starts with a risk-free interest rate adjusted for credit risk for the leases and makes adjustments for factors specific to the lease. Lease payments are allocated between principal and finance cost. The finance cost is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability,
- any lease payments made at or before the commencement date less any lease incentives received,
- any initial direct costs, and
- restoration costs.

Right-of-use assets are depreciated over the shorter of the asset's useful life and the lease term on a straight-line basis. If the Group is reasonably certain to exercise a purchase option, the right-of-use asset is depreciated over the underlying asset's useful life.

Payments associated with short-term leases and leases with low-value assets are recognised on a straight-line basis as an expense in profit or loss. Short-term leases are leases with a lease term of 12 months or less. Low-value leases comprise computer equipment and small items of office furniture.

Lease income from operating leases where the Group is a lessor is recognised in income on a straight-line basis over the lease term.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 Financial risk management**

The Group's activities expose it to a variety of financial risks and those activities involve the analysis, evaluation, acceptance and management of some degree of risk or combination of risks. Taking risk is core to the financial business, and the operational risks are an inevitable consequence of being in business. The Group's aim is therefore to achieve an appropriate balance between risk and return and minimise potential adverse effects on the Group's financial performance.

The Group's risk management policies are designed to identify and analyse these risks, to set appropriate risk limits and controls, and to monitor the risks and adherence to limits by means of reliable and up-to-date information systems. The Group regularly reviews its risk management policies and systems to reflect changes in markets, products and emerging best practice.

Risk management policies are approved by the Board of Directors. Financial risks are identified, evaluated and managed in close co-operation with the Group's operating units. The Board provides written policies or guidelines covering areas such as credit risk, interest rate risk and liquidity risk. In addition, internal audit is responsible for the independent review of risk management and the control environment.

The major types of risk faced by the Bank are credit risk, liquidity risk, market risk and operational risks. Market risk includes currency risk, interest rate and other price risks.

**3.1 Credit risk**

Credit risk is the risk that a counterparty causes a financial loss to the Group by failing to discharge an obligation. Adverse changes in the economy, or in the health of a particular customer, could result in losses that are different from those provided for at the end of the reporting period. Management therefore carefully manages its exposure to credit risk. Credit exposures arise principally in loans and advances. There is also credit risk in off-balance sheet financial arrangements such as loan commitments. The credit risk management and control are performed by all responsible staff under close supervision by senior management.

**3.1.1 Credit risk management**

The Group manages concentrations of credit risk wherever they are identified - in particular, to individual counterparties and groups, and to industries. The Group controls the levels of credit risk it undertakes by placing limits on the amount of risk accepted in relation to one borrower, or groups of borrowers, and to industry segments. Such risks are monitored on a continuous basis and subject to periodic or ad hoc reviews, when considered necessary.

Exposure to credit risk is managed through regular analysis of the ability of borrowers and potential borrowers to meet interest and capital repayment obligations and by changing these lending limits where appropriate. Exposure to credit risk is also mitigated in part by obtaining collateral and corporate and personal guarantees from the borrowers.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.1 Credit risk management (Continued)**

**(a) Collateral**

The Group implements guidelines on the acceptability of specific classes of collateral. The principal collateral types for loans and advances are:

- Mortgages over residential and commercial properties;
- Charges over equities; and
- Pledges over deposits.

Loans and advances to customers are generally secured. In addition, the Group will seek additional collateral from the counterparty as soon as impairment indicators are noticed for the relevant individual loans and advances.

**(b) Credit-related commitments**

The primary purpose of these instruments is to ensure that funds are available to a customer as required. Guarantees and standby letters of credit - which represent irrevocable assurances that the Group will make payments in the event that a customer cannot meet its obligations to third parties carry the same credit risk as loans. Documentary and commercial letters of credit - which are written undertakings by the Group on behalf of a customer authorising a third party to draw drafts on the Group up to a stipulated amount under specific terms and conditions - are secured by the underlying collaterals provided by the borrowers.

Commitments to extend credit represent unused portions of authorisations to extend credit in the form of loans, guarantees or letters of credit. With respect to credit risk on commitments to extend credit, the Group is potentially exposed to loss in an amount equal to the total unused commitments. However, the likely amount of loss is less than the total unused commitments, as most commitments to extend credit are contingent upon customers maintaining specific credit standards.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.2 Maximum exposure to credit risk before collateral held or other credit enhancements**

**The Group**

Maximum exposure	2024 HK\$	2023 HK\$
Credit risk exposures relating to on-balance sheet assets are as follows:		
Balances with banks and central bank	8,655,055	12,719,691
Placements with banks	161,047,641	142,300,048
Investment debt securities measured at FVOCI	179,715,020	177,553,392
Loans and advances to customers:		
Loans to individuals:		
- Overdrafts	6,918,393	5,789,708
Loans to corporate entities:		
- Investment companies	189,401,587	210,337,814
- Small and medium size enterprises (SMEs)	6,992,265	6,192,308
Credit risk exposures relating to off-balance sheet items are as follows:		
- Loan commitments and other credit related liabilities	15,903,763	5,099,736
<b>At 31 December</b>	<b>568,633,724</b>	<b>559,992,697</b>

The above table represents a worst case scenario of credit risk exposure to the Group at 31 December 2024 and 2023, without taking into account any collateral held or other credit enhancements attached. For on-balance sheet assets, the exposures set out above are based on net carrying amounts as reported in the consolidated statement of financial position.

Management is confident in its ability to continue to control and sustain minimal exposure of credit risk to the Group resulting from its loan and advances portfolio based on the following:

- 100% of the loans and advances portfolio is categorised in the top grade of the internal rating system (2023: 100%);
- Mortgage loans and properties investment loans, which represent the majority of the loans and advances portfolio, are backed by collateral;
- 100% of the loans and advances portfolio is considered to be neither past due nor impaired (2023: 100%); and
- The Group has a stringent approval process in granting loans and advances.

**Credit risk mitigation, collateral and other credit enhancements**

The Group uses a variety of techniques to reduce the credit risk arising from its lending and money market activities. Enforceable legal documentation establishes the Group's direct, irrevocable and unconditional recourse to any collateral, security or other credit enhancements provided.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.2 Maximum exposure to credit risk before collateral held or other credit enhancements (Continued)**

**Credit risk mitigation, collateral and other credit enhancements (Continued)**

The table below describes the nature of collateral held and their financial effect by class of financial asset:

Balances and placements with banks	These exposures are generally considered to be low credit risk due to the nature of the counterparties. Collateral is generally not sought on these balances.
Balances with central bank	These exposures are the outstanding balances at the Hong Kong exchange fund settlement account with Hong Kong Monetary Authority, which are unsecured. They are considered to be of very low credit risk due to the nature of the counterparty.
Investment debt securities measured at FVOCI	These exposures comprise solely of investments in exchange fund bills issued by the Hong Kong government and are considered to be very low credit risk due to the nature of the issuer. Exchange fund bills are issued on unsecured basis.
Loans and advances	These exposures are secured, partially secured or unsecured depending on the type of collateral and type of facilities offered to customers. The major types of collateral taken include residential properties, other properties and shares. Personal guarantees are also obtained by the Group for credit enhancement. As at 31 December 2024, the collateral coverage of loans and advances to customers is 100% (2023: 100%).
Contingent liabilities and commitments	The components and nature of contingent liabilities and commitments are disclosed in Note 25. Regarding the commitments that are unconditionally cancellable without prior notice, the Group would withdraw the credit facilities extended to borrowers in case their credit quality deteriorates. Accordingly, these commitments do not expose the Group to significant credit risk. As at 31 December 2024, the collateral coverage of contingent liabilities and commitments is over 100% (2023: over 100%).

While the credit risk of balances with central bank is considered to be very low, as stated in the above analysis, the credit risk, expected credit loss measurement and loss allowances of loans and advances, investment debt securities measured at FVOCI, contingent liabilities and commitments, balances and placements with banks and central bank are analysed in detail from note 3.1.3 to note 3.1.8.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.3 Loans and advances, placements with banks and investment debt securities measured at FVOCI**

Loans and advances, placements with banks and investment debt securities measured at FVOCI are summarised as follows:

**The Group**

	31 December 2024	31 December 2023
	Neither past due nor impaired HK\$	Neither past due nor impaired HK\$
Loans and advances	203,312,245	222,319,830
Placements with banks	161,047,641	142,300,048
Investment debt securities measured at FVOCI	179,715,020	177,553,392

There were no loans and advances, placements with banks, investment debt securities measured at FVOCI that were past due but not impaired nor loans and advances that were impaired at 31 December 2024 and 2023. The credit quality of the portfolio of loans and advances and placements with banks that were neither past due nor impaired was of satisfactory grading by reference to the internal rating system adopted by the Group.

During the year, the Group did not obtain any assets by taking possession of collateral held as security (2023: Nil). The Group has no repossessed assets as at 31 December 2024 (2023: Nil).

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.4 Expected credit loss measurement**

HKFRS 9 outlines a 'three-stage' model for impairment based on changes in credit quality since initial recognition as summarized below:

- A financial instrument that is not credit-impaired on initial recognition is classified in 'Stage 1' and has its credit risk continuously monitored by the Group.
- If a significant increase in credit risk ('SICR') since initial recognition is identified, the financial instrument is moved to 'Stage 2' but is not yet deemed to be credit-impaired.
- If the financial instrument is credit-impaired, the financial instrument is then moved to 'Stage 3'.
- Financial instruments in Stage 1 have their ECL measured at an amount equal to the portion of lifetime expected credit losses that result from default events possible within the next 12 months. Instruments in Stages 2 or 3 have their ECL measured based on expected credit losses on a lifetime basis.
- A pervasive concept in measuring ECL in accordance with HKFRS 9 is that it should consider forward-looking information.
- Purchased or originated credit-impaired financial assets are those financial assets that are credit-impaired on initial recognition. Their ECL is always measured on a lifetime basis (Stage 3).

The 'three-stage' model for impairment based on changes in credit quality under HKFRS 9 (other than purchased or originated credit-impaired financial assets) is summarized in the following table:

<b>Stage 1</b>	<b>Stage 2</b>	<b>Stage 3</b>
(initial recognition)	(Significant increase in credit risk since initial recognition)	(Credit-impaired assets)
12-month expected credit losses	Lifetime expected credit losses	Lifetime expected credit losses

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.4 Expected credit loss measurement (Continued)**

The key judgements and assumptions adopted by the Group in addressing the requirements of the standard are discussed below:

**Significant increase in credit risk (SICR)**

The Group considers a financial instrument to have experienced a significant increase in credit risk when one or more of the following qualitative or backstop criteria have been met:

**Qualitative criteria:**

For retail mortgages or loans, if the borrower meets one or more of the following criteria:

- In short-term forbearance
- Direct debit cancellation
- Extension to the terms granted
- Previous arrears within the last 12 months

For corporate lendings and treasury instruments, if the borrower is on the significant financial difficulty and the lending meets one or more of the following criteria:

- Significant adverse changes in business, financial and/or economic conditions in which the borrower operates
- Actual or expected forbearance or restructuring
- Actual or expected significant adverse change in operating results of the borrower
- Significant change in collateral value which is expected to increase the risk of default
- Early signs of cashflow/liquidity problems such as delay in servicing of loans

**Backstop**

A backstop is applied and the financial instrument considered to have experienced a significant increase in credit risk if the borrower is more than 30 days past due on its contractual payments.

The assessment of SICR incorporates forward-looking information and is performed at annual credit assessment of each loan/lending and at the end of financial year for all financial instruments held by the Group. The criteria used to identify SICR are monitored and reviewed periodically for appropriateness by the Group.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.5 Definition of default and credit-impaired assets**

The Group defines a financial instrument as in default, which is fully aligned with the definition of credit-impaired, when it meets one or more of the following criteria:

**Quantitative criteria**

The borrower is more than 90 days past due on its contractual payments.

**Qualitative criteria**

The borrower meets unlikelihood to pay criteria, which indicates the borrower is in significant financial difficulty. These are instances where:

- The borrower is insolvent
- There are cash flow difficulties experienced by the borrower
- The borrower is in breach of loan covenants or conditions
- The borrower is probable to initiate bankruptcy proceedings
- The borrower's competitive position has deteriorated
- The borrower is downgraded below investment grade level

The criteria listed above have been applied to all financial instruments held by the Group and are consistent with the definition of default used for internal credit risk management purposes. The default definition has been applied consistently to model the Probability of Default (PD), Exposure at Default (EAD) and Loss given Default (LGD) throughout the Group's expected loss calculations.

**3.1.6 Measuring ECL – Explanation of assessment process**

The Group assesses the Expected Credit Loss (ECL) individually for each financial asset. The ECL is measured on either a 12-month (12M) or Lifetime basis depending on whether a significant increase in credit risk has occurred since initial recognition or whether an asset is considered to be credit-impaired. Expected credit losses are the discounted product of the Probability of Default (PD), Exposure at Default (EAD), and Loss Given default (LGD), defined as follows;

- The PD represents the likelihood of a borrower defaulting on its financial obligation (as per "Definition of default and credit-impaired" above), either over the next 12 months (12M PD), or over the remaining lifetime (Lifetime PD) of the obligation.
- EAD is based on the amounts the Group expects to be owed at the time of default, over the next 12 months (12M EAD) or over the remaining lifetime (Lifetime PD) of the obligation.
- Loss Given Default (LGD) represents the Group's expectation of the extent of loss on a defaulted exposure. LGD varies by type of counterparty, type and seniority of claim and availability of collateral or other credit support.

The ECL is determined by projecting the PD, LGD and EAD for each future month and for each individual exposure. These three components are multiplied together and discounted back to the reporting date and summed. The discount rate used in the ECL calculation is the original effective interest rate or an approximation thereof.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 Financial risk management (Continued)****3.1 Credit risk (Continued)****3.1.6 Measuring ECL – Explanation of assessment process (Continued)**

The Lifetime PD is developed by applying a maturity profile to the current 12M PD. The maturity profile looks at how defaults develop on each exposure from the point of initial recognition throughout the lifetime of each loan. The maturity profile is based on historical observed data and is estimated individually based on the Group's knowledge of each loan.

The 12-month and lifetime EADs are determined based on the expected payment profile, which varies by each loan.

The 12-month and lifetime LGDs are determined based on the factors which impact the recoveries made post default. These vary according to each loan exposure.

- For secured products, this is primarily based on collateral type and projected collateral values, historical discounts to market/book values due to forced sales, time to repossession and recovery costs observed.
- For unsecured products, LGD's are typically set at each loan, which are influenced by collection strategies, including contracted debt sales and price.

**3.1.7 ECL measurement**

The assessment of SICR and the calculation of ECL forward-looking macroeconomic information, such as property price index, is incorporated as part of risk parameters estimation. The Group has regularly reference to macro-forecast data and expert judgement to ensure that relevant factors could be taken into consideration in the ECL calculation.

As the Group's loan portfolio consists of limited number of borrowers that are of different nature and background, the economic variables and their associated impact on the PD, EAD and LGD of each exposure vary. Judgment on individual loans of such factors has been applied in this process. Each individual loan exposure is analysed based on the historical records and future outlooks which are applicable to each exposure on a case by case basis.

As with any economic forecast, the projections and likelihoods of occurrence are subject to a degree of inherent uncertainty and therefore the actual outcomes may be significantly different to those projected. The Group considers these forecasts to represent its best estimate of the possible outcomes.

Maximum exposure to credit risk – Financial instruments subject to impairment

The following tables contain the analysis of the credit risk exposure of financial instruments for which are subject to ECL assessment. The gross carrying amount of financial assets below also represents the Group's maximum exposure to credit risk on these assets.

The Group's policies regarding obtaining collateral have not significantly changed during the reporting period and there has been no significant change in the overall quality of the collateral held by the Group since the prior period.

The Group's financial assets that are secured have sufficiently safe "loan to value" (LTV) ratios, which result in no loss allowance being recognised in accordance with the Group's expected credit loss model.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.7 ECL measurement (Continued)**

**Sensitivity analysis**

The most significant assumptions affecting the ECL allowance for the Group include the following items:

- (i) Mortgage collateral valuations; and
- (ii) Listed share collateral valuations.

Set out below are the changes to the ECL as at 31 December 2024 that would result from reasonably possible changes in these parameters from the actual assumptions used in the Group's economic variable assumptions (for example, the impact on ECL of each of upward or downward movements in the collaterals valuations ):

	Mortgage collateral valuations		
	-20%	No change	+20%
Impact on ECL	-	-	-
	Listed share collateral valuations		
	-10%	No change	+10%
Impact on ECL	-	-	-

**3.1.8 Loss allowance**

The loss allowance can be impacted by a variety of factors, including:

- Transfers between ECL stages due to financial instruments experiencing significant increases or decreases of credit risk or becoming credit-impaired in the period, and the consequent step up or step down between 12-month and Lifetime ECL;
- Additional allowances for new financial instruments recognised during the period, as well as releases for financial instruments de-recognised in the period;
- Impact on the measurement of ECL due to changes in PDs, EADs and LGDs in the period, arising from regular credit assessments;
- Financial assets derecognised during the period and write-offs of allowances related to assets that were written off during the period.

The following tables explain the changes in the loss allowance between the beginning and the end of the annual period:

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.1 Credit risk (Continued)**

**3.1.9 Write-off policy**

The Group writes off financial assets, in whole or in part, when it has exhausted all practical recovery efforts and has concluded there is no reasonable expectation of recovery. Indicators that there is no reasonable expectation of recovery include: (i) ceasing enforcement activity and (ii) where the Group's recovery method is foreclosing on collateral and the value of the collateral is such that there is no reasonable expectation of recovering in full.

The Group may write-off financial assets that are still subject to enforcement activity. However, there were no such assets being written off during the year ended 31 December 2024 and 31 December 2023.

**3.1.10 Modification of financial assets**

Apart from the rescheduled loans stated in note 3.1.3, the Group sometimes modifies the terms of loans provided to customers due to commercial renegotiations, or for distressed loans, with a view to maximizing recovery.

Such restructuring activities include extended payment term arrangements, payment holidays and payment forgiveness. Restructuring policies and practices are based on indicators or criteria which, in the judgement of management, indicate that payment will most likely continue. These policies are kept under continuous review. Restructuring is most commonly applied to term loans.

The risk of default of such assets after modification is assessed at the reporting date and compared with the risk under the original terms at initial recognition, when the modification is not substantial and so does not result in derecognition of the original asset. The Group monitors the subsequent performance of modified assets. The Group may determine that the credit risk has significantly improved after restructuring.

The Group continues to monitor if there is a subsequent significant increase in credit risk in relation to such assets through the use of specific models for modified assets.

**3.2 Market risk**

The Group takes on minimal exposure to market risks, which is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in market prices. Market risks arise from open positions in interest rate, currency and equity products, all of which are exposed to general and specific market movements and changes in the level of volatility of market rates or prices such as interest rates, foreign exchange rates and equity prices.

The Group performs periodic stress tests to monitor its exposures to market risks. Stress tests provide an indication of the potential size of losses that could arise in extreme conditions. The stress tests carried out by the Group are in general risk factor stress testing, where stress movements are applied to risk category.

The results of the stress tests are reviewed by senior management and by Board Committees. The stress testing is tailored to the business and typically uses scenario analysis.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 Financial risk management (Continued)****3.2 Market Risk (continued)****3.2.1 Sensitivity analysis for 2024 and 2023**

As at 31 December 2024, no significant open positions in foreign currencies were taken, hence the net interest income for foreign currencies were not sensitive to interest rate changes. Interest sensitivity applies mainly to Hong Kong Dollar ("HKD") positions, whereby if the HKD market interest rates had been 100 basis points lower with other variables held constant, the Group's profit after tax for the year and reserves would have been HK\$747,128 and HK\$747,128 lower (2023: 100 basis points lower, HK\$1,488,380 and HK\$1,488,380 lower). This arose as a result of lower net interest income earned on HKD financial instruments.

The Group's equity risk position arises mainly from the holdings of equity securities all being classified as financial assets measured at FVOCI, the majority of which being listed in Hong Kong. Such holdings are held for long term investment purpose. At 31 December 2024, if Hang Seng Index had been 10% lower (2023: 10% lower) with all other variables held constant and the equity instruments moved according to the historical correlation with the index, the Group's investment revaluation reserve would be HK\$1,045,831 lower (2023: HK\$1,201,009 lower). The Group's equity securities measured at FVOCI would be HK\$1,045,831 lower (2023: HK\$1,201,009 lower).

At 31 December 2024 and 2023, majority of the Group's financial assets and liabilities are denominated in HKD or United States dollars ("USD") and as HKD is pegged to the USD, therefore the Group is not exposed to significant currency risk.

The method and assumption used on the above sensitivity analysis on interest rate risk and equity price risk is performed on the same basis for both 2024 and 2023.

**3.2 Market risk (Continued)**

**3.2.3 Interest rate risk**

*Interest sensitivity of assets, liabilities and off-balance sheet items - repricing analysis*

Cash flow interest rate risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. Fair value interest rate risk is the risk that the value of a financial instrument will fluctuate because of changes in market interest rates. The Group takes on exposure to the effects of fluctuations in the prevailing levels of market interest rates on both its fair value and cash flow risks. Interest margins may increase as a result of such changes but may reduce or create losses in the event that unexpected movements arise. The Board sets limits on the level of mismatch of interest rate repricing that may be undertaken, which is monitored daily by senior management.

The table below summarises the Group's exposure to interest rate risks. Included in the table are the Group's assets and liabilities at carrying amounts, categorised by the earlier of contractual repricing or maturity dates.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 Financial risk management (Continued)****3.3 Liquidity risk**

Liquidity risk arises from the mismatch in the cash flows arising from on-balance sheet assets and liabilities, plus the settlement characteristics of off-balance sheet activities.

The Group's liquidity management process, as closely monitored by senior management in accordance with policies and guidelines approved by the Board, includes the following tasks:

- day-to-day funding, managed by monitoring future cash flows to ensure that requirements can be met;
- maintaining adequate amount of highly marketable assets that can easily be liquidated as protection against any unforeseen interruption to cash flow;
- monitoring liquidity ratios against internal and regulatory requirements; and
- managing the concentration and profile of debt maturities.

Monitoring and reporting take the form of maturity profile projections for the next day, week and month respectively, as these are key periods for liquidity management. Mismatches between medium-term assets and liabilities together with the level and type of undrawn lending commitments, overdraft facilities usage and contingent liabilities are also monitored under the usual conservative strategy of the Group.

**3.3.1 Maturity analysis**

The table on the following page analyses the Group's assets and liabilities into relevant maturity groupings based on the remaining period at end of the reporting period to the contractual maturity date.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.3 Liquidity risk (Continued)**

**3.3.2 Non-derivative financial liabilities and assets held for managing liquidity risk (Continued)**

Assets available to meet all of the liabilities and to cover outstanding loan commitments include cash, balances with banks and central bank, items in the course of collection and exchange fund bills; and placements with banks. In the normal course of business, a proportion of customer loans contractually repayable within one year will be extended. The portfolio of marketable securities held provides further reserves to meet unexpected cash outflows.

**3.3.3 Off-balance sheet items**

**The Group**

	No later than 1 year HK\$	Indefinite HK\$	Total HK\$
<b>At 31 December 2024</b>			
Loan commitments	15,903,763	-	15,903,763
<b>At 31 December 2023</b>			
Loan commitments	5,099,736	-	5,099,736

**(a) Loan commitments**

The dates of the contractual amounts of the Group's off-balance sheet financial instruments that commit it to extend credit to customers and other facilities, are summarised in the above table.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 Financial risk management (Continued)****3.4 Fair values of financial assets and liabilities****(a) Financial instruments not measured at fair value**

The fair values of financial assets and liabilities not presented at fair value in the Group's statement of financial position are estimated as follows:

**(i) Placements with banks**

The fair value of overnight placements to banks is their carrying amount. Fixed interest-bearing placements are maturing within one year from the end of the reporting period and their carrying value approximates fair value.

**(ii) Loans and advances to customers**

Loans and advances to customers are net of provisions for impairment and bear interest at a either floating rate or managed rate and their carrying value approximates fair value.

**(iii) Deposits from customers**

The estimated fair value of deposits with no stated maturity, which includes non-interest bearing deposits, is the amount repayable on demand. The fair value of those balances bearing interest at a floating rate is their carrying value. Fixed interest-bearing deposits from customers are maturing within one year from the end of the reporting period and their carrying value approximates fair value.

**(b) Fair value hierarchy**

HKFRS 13 specifies a hierarchy of valuation techniques based on whether the inputs to those valuation techniques are observable or unobservable. Observable inputs reflect market data obtained from independent sources; unobservable inputs reflect the Group's market assumptions. These two types of inputs have created the following fair value hierarchy:

- Level 1 - Quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2 - Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (that is, as price) or indirectly (that is, derived from prices).
- Level 3 - Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

This hierarchy requires the use of observable market data when available. The Group considers relevant and observable market prices in its valuations where possible.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.4 Fair values of financial assets and liabilities (Continued)**

(b) Fair value hierarchy (Continued)

**Assets measured at fair value:**

**The Group**

	Level 1 HK\$	Level 2 HK\$	Level 3 HK\$	Total HK\$
<b>31 December 2024</b>				
<b>Recurring fair value measurement</b>				
Equity investments measured at FVOCI	22,874,367	-	318,405	23,192,772
<b>31 December 2023</b>				
<b>Recurring fair value measurement</b>				
Equity investments measured at FVOCI	21,124,268	-	325,694	21,449,962

There were no significant transfers of financial assets between all levels of fair value hierarchy classifications. Predominately of the Group's fair value financial assets are at Level 1 equity investments. The fair value of the Level 3 equity investments as at 31 December 2024 was measured using an adjusted asset based approach with significant unobserved inputs and hence was classified as Level 3 of the fair value hierarchy. The most significant unobservable input for measuring the fair value of the investment was the net assets value of the investee and the fair value of the investment would largely change in proportion to the change in the net assets value of the investee.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 Financial risk management (Continued)****3.5 Capital management**

The Group's objectives when managing capital, which is a broader concept than the 'equity' on the face of consolidated statement of financial position, are:

- to comply with the capital requirements under the Banking (Capital) Rules of the Banking Ordinance and the authorization criteria of licensed bank under the Banking Ordinance;
- to safeguard the Group's ability to continue as a going concern, so that it can continue to provide returns for shareholders;
- to maintain a strong capital base to support the Group's stability and its business development; and
- to employ capital in an efficient and risk based approach with an aim to optimize risk adjusted return to the shareholders.

Capital adequacy and the use of regulatory capital are monitored daily by the Group's management, employing techniques based on the Banking (Capital) Rules. The required information is filed with the HKMA on a quarterly basis.

The HKMA requires each bank or banking group to maintain a capital adequacy ratio ("CAR"), defined as the ratio of total regulatory capital (as defined under the Banking (Capital) Rules) to the risk weighted assets, at or above the minimum as set out in section 3A of the Banking (Capital) Rules. The capital adequacy ratio as at 31 December 2024 are computed on both solo and consolidated basis of the Bank as specified by the HKMA under section 3C of the Banking (Capital) Rules for its regulatory purposes, and are in accordance with the Banking (Capital) Rules.

The Bank's policy on capital adequacy as approved by the Board of Directors sets out the objectives, policies and process for managing capital and assessing the adequacy of capital to support its current and future activities. The Bank reviews its policy on capital adequacy on a regular basis to ensure all necessary changes are reflected in the policies.

CAR is monitored by the Bank on a daily basis to ensure compliance with all relevant statutory requirements and regulatory guidelines governing the banking business.

Other than statutory CAR, an internal trigger CAR is applied for control purposes. If the actual CAR falls below the trigger ratio, the case would immediately be reported to the Board and the HKMA, and remedial action will be taken.

In addition, the Bank will assess the impact on its capital when there are new products, new investments, or any proposed significant transactions.

Semi-annual stress tests are also performed to assess the potential impact of extreme business conditions on capital and to develop strategies to mitigate the adverse effects where necessary.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**3 Financial risk management (Continued)**

**3.5 Capital management (Continued)**

The table below summarises the ratios and the composition of regulatory capital of the Group as at 31 December 2024 and 31 December 2023. The Bank complied with all of the externally imposed capital requirements by the HKMA throughout the year.

	2024	2023
Common equity tier 1 capital ratio	<u>59.56%</u>	<u>62.45%</u>
Tier 1 capital ratio	<u>59.56%</u>	<u>62.45%</u>
Total capital ratio	<u>80.95%</u>	<u>85.26%</u>
Capital conservation buffer ratio	<u>2.5%</u>	<u>2.5%</u>

The above capital ratios represent the consolidated ratios of the Bank computed in accordance with the Banking (Capital) Rules as at 31 December 2024 and 2023. In accordance with the Banking (Capital) Rules, the Bank has adopted the "basic approach" for the calculation of the risk weighted assets for credit risk and the "basic indicator approach" for the calculation of operational risk. The Bank has been exempted from the calculation of risk weighted assets for market risk.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****3 Financial risk management (Continued)****3.5 Capital management (Continued)**

The Bank is required to calculate and report its capital ratios on the consolidated position based on the regulatory scope of consolidated figures in addition to the Bank's solo position based on its unconsolidated level figures. As at 31 December 2024 and 31 December 2023, the basis of consolidation for accounting purpose differs from the basis of consolidation for regulatory purposes, under which only Success Land Enterprises Limited, Golden Wisdom Development Limited, Team Gold Investment Limited and Gold Harmony Enterprises Limited are included as subsidiaries in the consolidated Group for regulatory purposes.

The capital base after deductions used in the calculation of the above capital ratios and reported to the Hong Kong Monetary Authority is analysed as follows:

	2024 HK\$'000	2023 HK\$'000
Common equity tier 1 (CET1) capital		
CET1 capital instruments	264,987	264,987
Retained earnings	399,601	399,759
Disclosed reserves	6,161	4,567
	<u>670,749</u>	<u>669,313</u>
Less: Cumulative fair value gains arising from revaluation of land and buildings	(269,655)	(272,019)
Regulatory reserve for general banking risk	(1,800)	(1,800)
Total CET1 capital after deductions	<u>399,294</u>	<u>395,494</u>
Additional Tier 1 capital	-	-
Total Tier 1 capital after deductions	<u>399,294</u>	<u>395,494</u>
Tier 2 capital		
Reserve attributable to fair value gains on revaluation of land and buildings	141,601	142,665
Regulatory reserve for general banking risk	1,800	1,800
	<u>143,401</u>	<u>144,465</u>
Less: Tier 2 capital deductions	-	-
Total Tier 2 capital after deductions	<u>143,401</u>	<u>144,465</u>
Total capital base	<u>542,695</u>	<u>539,959</u>

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****4 Critical accounting estimates, and judgments in applying accounting policies****(a) Estimate of fair value of investment properties**

The fair values of investment properties are estimated based on the valuation made by an independent professional valuer on an open market basis at a valuation date. The fair values are assessed in accordance with the HKIS Valuation Standards on Properties (2020 Edition) published by the Hong Kong Institute of Surveyors. The contractual rental income and the expected future market rental income after allowing for outgoings and maintenance requirements are capitalised at observed market yields. The principal assumptions underlying the estimation of market value are those related to: the receipt of contractual rentals; expected future market rentals; rent free periods; maintenance requirements; and observed market yields. Changes in the assumptions used in the valuation would affect the fair value of investment properties.

In addition, the values are also assessed by reference to comparable sales transactions around the valuation date as reported in the relevant market at similar locations. Appropriate adjustments have been made on the values of the subject properties for relevant factors, such as location difference, building age, time of transaction, shop frontage, floor levels and pedestrian flow, etc.

**(b) Measurement of the ECL allowance**

The measurement of the ECL allowance for financial assets measured at amortised cost and FVOCI is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behaviour (e.g. the likelihood of customers defaulting and the resulting losses). Explanation of the inputs, assumptions and estimation techniques used in measuring ECL is further detailed in note 3.1.4, which also sets out key sensitivities of the ECL to changes in these elements.

A number of significant judgements are also required in applying the accounting requirements for measuring ECL, such as:

- Determining criteria for significant increase in credit risk;
- Choosing assumptions for the measurement of ECL;
- Establishing the number and relative weightings of forward-looking scenarios for each type of product/market and the associated ECL; and
- Establishing groups of similar financial assets for the purposes of measuring ECL.

Detailed information about the judgements and estimates made by the Group in the above areas is set out in note 3.1.4.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****4 Critical accounting estimates, and judgments in applying accounting policies (Continued)****(c) Determination of deferred taxation**

In determining the deferred tax positions of the Group and of the Bank, significant judgment is required in determining the tax implications of the transactions entered by the Group. Deferred tax assets are recognised to the extent that it is probable that it could be recoverable. Deferred tax liabilities are recognised at full.

Management reviewed all the transactions entered by the Group and by the Bank, and all deferred tax assets (to the extent recoverable) and deferred tax liabilities are recognised in the consolidated financial statements except for the certain tax losses carry forwards that the realisation of related tax benefit through future taxable profits is not probable.

**5 Net interest income**

	2024 HK\$	2023 HK\$
<b>Interest income</b>		
Cash and balances and placements with banks	8,514,264	8,850,778
Loans and advances to customers	4,911,484	8,264,900
Investment securities measured at FVOCI	6,731,289	2,522,233
Others	132,151	63,558
	<u>20,289,188</u>	<u>19,701,469</u>
<b>Interest expense</b>		
Deposits from customers	3,486,672	2,665,884
Bank borrowings	2,603	8
Lease liabilities	1,288,424	948,413
Others	212,872	94,979
	<u>4,990,571</u>	<u>3,709,284</u>

The interest income and interest expenses are for financial assets and financial liabilities that are not at fair value through profit or loss.

The interest expenses on lease liabilities relate to interest for the lease liabilities recognized on the long term property lease entered into by the Group as lessee for its expanded safe deposit box business.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****6 Other operating income**

Others ( <i>Note (i)</i> )	709,097	5,570
	24,129,433	18,454,801
	29,589,336	24,563,822

**Note (i):**

The Group initiated a legal proceeding on 11 February 2021 as plaintiff via the issuance of a writ of summons to the Group's previous cleaning contractor as defendant, for damages caused by negligence of the said cleaning contractor and the lack of duty of care when carrying out their contracted work on 25 July 2020 which caused damages due to flooding from a fire sprinkler broken by the staff of the cleaning contractor. The legal proceeding since concluded, with the Group received the final court settlement of HK\$701,831 for reimbursement of legal costs from the defendant during the year ended 31 December 2024. The settlement received was recognised in other income of the book.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**7 Operating expenses**

	2024 HK\$	2023 HK\$
Staff costs (Note 8)	21,313,444	18,007,958

	<u>202,907,792</u>	<u>199,003,354</u>

The movement in investment securities measured at FVOCI is summarised as follows:

	2024 HK\$	2023 HK\$
<b>At 1 January</b>	199,003,354	119,058,201
Surplus from changes in fair value (Note 21)	1,658,268	986,455
Additions	292,246,170	208,958,698
Redemptions/disposals	(290,000,000)	(130,000,000)
<b>At 31 December</b>	<u>202,907,792</u>	<u>199,003,354</u>

**Equity investments measured at FVOCI**

The Group has designated at FVOCI investments in a portfolio of equity securities that were acquired for investment purposes. The Group chose this presentation alternative because the investments were made for their dividend income rather than with a view to profit on a subsequent sale.

At 31 December 2023	51,703,590	16,837,716	68,541,306
Net book value			
At 31 December 2024	98,223,428	38,957,585	137,181,013
At 31 December 2023	98,582,150	21,710,201	120,292,351

The Group's bank premises at their net book values are analysed as follows:

	2024 HK\$	2023 HK\$
In Hong Kong, held on:		
Leases of over 50 years	94,567,568	94,683,176
Leases of under 50 years	3,655,860	3,898,974
	98,223,428	98,582,150

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**15 Investment properties**

The Group's interests in investment properties at their net book values are analysed as follows:

	2024 HK\$	2023 HK\$
In Hong Kong, held on:		
Leases of over 50 years	291,000,000	293,200,000
Leases of under 50 years	12,300,000	12,400,000
	<u>303,300,000</u>	<u>305,600,000</u>

All investment properties were classified as level 3 asset of fair value hierarchy as of 31 December 2024 and 2023.

At 31 December 2024, the Group had no unprovided contractual obligations for future repairs and maintenance.

In the consolidated statement of comprehensive income, direct operating expenses include HK\$266,044 (2023: HK\$12,542) relating to investment properties that were unlet.

*Valuation basis of investment properties*

The investment properties were revalued on the basis of their open market values, which were derived by the following valuation methodologies adopted by Jones Lang LaSalle Limited, the independent firm of qualified property valuer, as at 31 December 2024 and 31 December 2023.

- Sales evidence on the market on comparable properties around the time of valuation; and
- Capitalization of the income potential using appropriate capitalisation rate, which was derived from analysis of sale transactions and the valuer's interpretation of prevailing investor requirements or expectations.

The fair value measurement of investment properties is positively correlated to the market rental and negatively correlated to the capitalisation rate.

The following table shows a reconciliation from the beginning balances for fair value measurements in Level 3 of the fair value hierarchy for the year ended 31 December 2024:

	2024 HK\$	2023 HK\$
At 1 January	305,600,000	307,900,000
Deficit from fair value adjustments on investment properties	<u>(2,300,000)</u>	<u>(2,300,000)</u>
At 31 December	<u>303,300,000</u>	<u>305,600,000</u>

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**16 Right-of-use assets and lease liabilities**

**(a) Right-of-use assets**

The analysis of the net book value of right-of-use assets is as follows:

	HK\$
At 1 January 2023	25,664,051
Depreciation for the year	(2,851,561)
	<hr/>
At 31 December 2023 and 1 January 2024	22,812,490
Additions	18,568,988
Depreciation for the year	(3,963,408)
	<hr/>
<b>At 31 December 2024</b>	<b>37,418,070</b>
	<hr/>

**(b) Lease liabilities**

The Group had obligations under contractual maturities of the lease liabilities as follows:

	At 31 December 2024		At 31 December 2023	
	Present value of the minimum lease payments HK\$	Total minimum lease payment HK\$	Present value of the minimum lease payments HK\$	Total minimum lease payment HK\$
Within one year	3,692,056	5,220,000	2,126,675	3,000,000
After one year but within five years	20,054,901	24,450,667	11,217,563	13,800,000
Over five years	17,847,877	18,879,333	12,133,183	12,780,000
	<hr/>	<hr/>	<hr/>	<hr/>
	41,594,834	48,550,000	25,477,421	29,580,000
	<hr/>	<hr/>	<hr/>	<hr/>
Less: total future interest expenses		(6,955,166)		(4,102,579)
		<hr/>		<hr/>
Present value of lease liabilities		41,594,834		25,477,421
		<hr/>		<hr/>

For both years, the Group leased the commercial properties for its own operations. Lease contracts are entered into 9 to 10 years (2023: 10 years). Lease terms are negotiated on an individual basis and contained different terms and conditions. Extension and termination options are included in a number of leases across the Group. These are used to maximise operational flexibility in terms of managing the asset used in the Group's operation. The extension and termination options held are exercisable only by the Group and not by the respective lessor. The Group's borrowing rates applied to the lease liabilities range from 3.66% to 4.25% (2023: 3.66%).

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**19 Deferred income tax**

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes relate to the same fiscal authority. The offset amounts are as follows:

	2024 HK\$	2023 HK\$
Deferred tax assets:		
- Deferred tax assets to be recovered after more than 12 months	(9,849,058)	(8,202,176)
Deferred tax liabilities:		
- Deferred tax liabilities to be incurred after more than 12 months	18,393,619	17,591,530
Net deferred tax liabilities	<u>8,544,561</u>	<u>9,389,354</u>

The movement on the deferred tax account is as follows:

	2024 HK\$	2023 HK\$
At 1 January	9,389,354	9,015,673
Recognised in the consolidated statement of comprehensive income (Note 9)	(844,793)	373,681
At 31 December	<u>8,544,561</u>	<u>9,389,354</u>

The movement in deferred tax assets and liabilities during the year, without taking into consideration the offsetting of balances within the same tax jurisdiction, is as follows:

**Deferred tax liabilities**

	Accelerated tax depreciation HK\$	Fair value gains on Bank Premises HK\$	Total HK\$
<b>At 1 January 2023</b>	1,544,834	16,284,734	17,829,568
Recognised in the consolidated statement of comprehensive income	(273,135)	35,097	(238,038)
<b>At 31 December 2023 and 1 January 2024</b>	1,271,699	16,319,831	17,591,530
Recognised in the consolidated statement of comprehensive income	795,293	6,796	802,089
<b>At 31 December 2024</b>	<u>2,066,992</u>	<u>16,326,627</u>	<u>18,393,619</u>

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**19 Deferred income tax (Continued)**

**Deferred tax assets**

	Tax losses HK\$	Other HK\$	Total HK\$
<b>At 1 January 2023</b>	8,724,332	89,563	8,813,895
Recognised in the consolidated statement of comprehensive income	(606,462)	(5,257)	(611,719)
<b>At 31 December 2023 and 1 January 2024</b>	8,117,870	84,306	8,202,176
Recognised in the consolidated statement of comprehensive income	1,678,300	(31,418)	1,646,882
<b>At 31 December 2024</b>	9,796,170	52,888	9,849,058

Deferred income tax assets are recognised for tax losses carry forwards to the extent that the realisation of the related tax benefit through future taxable profits is probable.

**20 Share capital**

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**23 Benefits and interests of directors (disclosures required by section 383 of the Hong Kong Companies Ordinance (Cap. 622) and Companies (Disclosure of information about Benefits of Directors) Regulation (Cap. 622G))**

(a) Directors' emoluments and retirement benefits

	2024 HK\$	2023 HK\$
The aggregate amounts of emoluments paid to or receivable by directors of the Bank during the year in respect of their services as directors were as follows:		

Fees	2,469,324	2,469,324
	<u>                    </u>	<u>                    </u>

The aggregate amounts of emoluments and retirement benefits paid to or receivable by directors of the Bank during the year in respect of their services in connection with the management of the affairs of the Bank or its subsidiary undertakings were as follows:

Salary	1,321,000	1,300,000
Employer's Contribution to Retirement Scheme	-	-
	<u>1,321,000</u>	<u>1,300,000</u>
	<u>3,790,324</u>	<u>3,769,324</u>

(b) Loans to directors and controlled body corporates by directors

Particulars of loans made to directors and controlled body corporates by directors are as follows:

	2024 HK\$	2023 HK\$
Aggregate amount of loans outstanding at the end of the year	157,840,939	125,532,258
	<u>                    </u>	<u>                    </u>
Maximum aggregate amount of loans during the year	167,832,293	127,050,225
	<u>                    </u>	<u>                    </u>

All loans to directors and controlled body corporates by directors are granted on values not greater and on term not more favourable than to borrowers of the same financial standing but unconnected with the Bank.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****24 Related-party transactions****(a) Transactions with key management**

A number of banking transactions were entered into with related parties in the normal course of business. These include the extension of credit facilities and deposit taking. For deposits taken and credit facilities extended, the interest rates charged are under terms and conditions that would normally apply to customers of comparable standing.

The following is a summary of significant related party transactions entered into with key management which include directors, relatives and companies controlled or significantly influenced by them in addition to those disclosed in note 23, which were carried out in the normal course of the Group's business:

	2024 HK\$	2023 HK\$
Loans		
Average balance during the year	164,351,381	191,733,574
Outstanding as at end of year	203,842,740	150,457,140
Interest income	<u>7,741,374</u>	<u>6,297,284</u>

The loans granted to related parties during the year are collateralised by properties and shares in listed companies and deposits. The fair value of these mortgaged properties and shares in listed companies as at 31 December 2024 were HK\$351,400,000 and HK\$20,104,827 (2023: HK\$363,000,000 and HK\$16,094,789) respectively. No provisions have been made in respect of loans advanced to related parties (2023: Nil).

	2024 HK\$	2023 HK\$
Deposits		
Average balance during the year	134,339,810	132,929,847
Outstanding as at end of year	129,102,798	138,720,580
Interest expense	<u>1,882,928</u>	<u>1,622,683</u>

**Contingent liabilities and commitments**

---------------------------------------	----------------	---------------

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS****24 Related-party transactions (Continued)**

Notes:

- (i) Property management fee income included fee income charged on the property managed by the Group on an actual costs incurred basis and management fee charged on an arm's length basis for premises leased to companies controlled by directors.
- (ii) Property rental income was charged on an arm's length basis for premises leased to companies controlled by directors.
- (iii) Property consultancy fee expense was charged on an arm's length basis for consultancy services provided by a company controlled by directors
- (iv) Rental commission expense was charged on an arm's length basis for rental commission to a company controlled by directors

**(b) Transactions between the Bank and its subsidiaries**

During the year, the Bank entered into transactions with subsidiaries that are wholly-owned by the Bank in the ordinary course of business and on normal commercial terms. The income and expenses during the year and on-balance sheet outstanding at the reporting date are as follows:

	2024 HK\$	2023 HK\$
<b>Income and expense during the year</b>		
Interest income	1,241,089	1,118,051
Other operating income	1,415,416	1,665,830
Operating expense	982,283	217,236
	<u>                    </u>	<u>                    </u>

The interest rates in connection with loan to subsidiary are under terms and conditions normally applicable to customers of comparable standing.

Other operating income represents income from providing management services, information technology services, rental administration services, financial control and accounting services and other administration services to the Bank's subsidiaries by the Bank.

Operating expense represents rental and management fee expenses paid to its subsidiary by the Bank for the rental of office unit owned and held by the subsidiary.

All income and expense on these transactions are determined on an arm's length basis.

	2024 HK\$	2023 HK\$
<b>On-balance sheet outstanding at the reporting date</b>		
Loan to a subsidiary	21,000,000	21,000,000
Amounts due to subsidiaries	9,840,083	10,657,625
	<u>                    </u>	<u>                    </u>

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**24 Related-party transactions (Continued)**

(c) Transactions between the companies within the Group

During the year, the Bank and its wholly-owned subsidiaries entered into transactions with another wholly-owned subsidiary that provide property management services for properties owned and held by the Bank and its wholly-owned subsidiaries. The property manager remuneration paid by the Bank and its wholly-owned subsidiaries are determined in the ordinary course of property management business and on normal commercial terms. The amount of income received and expenses paid between the Group companies during the year are as follows:

	2024 HK\$	2023 HK\$
<b>Income and expense during the year</b>		
Property manager remuneration paid by the Bank and its subsidiaries	458,988	464,868
Property manager remuneration received by a subsidiary within the Group	458,988	464,868
	<u>458,988</u>	<u>464,868</u>

**25 Contingent liabilities and commitments**

(a) Credit commitments

The following is a summary of the contractual amounts of each significant class of contingent liabilities and commitment, and the aggregate credit risk weighted amount:

	2024 HK\$	2023 HK\$
<b>Contract amount</b>		
Other commitments with an original maturity of under 1 year or which are unconditionally cancellable	15,903,763	5,099,736
	<u>15,903,763</u>	<u>5,099,736</u>
<b>Credit risk weighted amount</b>	-	-
	<u>-</u>	<u>-</u>

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS**

**25 Contingent liabilities and commitments (Continued)**

**(b) Operating lease commitments - the Group as lessor**

The Group has contracted with tenants for the following future minimum lease receivables under non-cancellable operating leases:

	2024 HK\$	2023 HK\$
Land and buildings		
- not later than one year	5,759,814	9,185,793
- later than one year but not later than five years	1,430,271	4,295,301
	<u>7,190,085</u>	<u>13,481,094</u>

The Group leases out investment properties (Note 15) under operating lease arrangements, with leases typically for a period from one to three years. The terms of the leases generally require the tenants to pay security deposits and provide for periodic rent adjustments according to the prevailing market conditions. None of the leases includes contingent rentals.

**(c) Capital commitments**

The Group does not have any capital expenditures contracted for but not recognized as liabilities as at 31 December 2024 and 31 December 2023.

**(d) Repairs and maintenance: investment properties**

The Group does not have any contractual obligation for future repairs and maintenance of the investment properties not recognized as a liability as at 31 December 2024 (2023: HK\$Nil).

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**4 Segmental information**

(i) Business activities

The Group operates predominantly in Hong Kong and in two classes of business - commercial banking and property investment. The commercial banking business includes, inter alia, acceptance of deposit from customers and the provision of lending, trade financing, foreign exchange, and other credit facilities to customers. Property investment represents interests in various commercial properties held for rental purposes.

At 31 December 2024, commercial banking and property investment accounted for HK\$760,128,342 and HK\$303,300,000 of the Group's operating assets respectively (2023: HK\$727,302,357 and HK\$305,600,000). For the year ended 31 December 2024, contributions to the Group's operating income from commercial banking and property investment, were HK\$37,376,781 and HK\$7,511,172 respectively (2023: HK\$32,503,454 and HK\$8,052,553 respectively).

(ii) Overdue and impaired loans by geographical area

As at 31 December 2024, the Group has no overdue or impaired loans (2023: Nil).

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)****4 Segmental information (Continued)****(iii) International claims**

The information as at 31 December on international claims discloses exposures to foreign counterparties on which the ultimate risk lies, and is derived according to the location of the counterparties after taking into account any transfer of risk.

Europe	-	-	57,000	57,000

**5 Corporate governance**

In monitoring the operations and the financial soundness of the Group, the Board has established seven specialised committees for handling matters which require detailed review or in-depth consideration, namely, the Executive Committee, Credit Committee, Asset and Liability Committee ("ALCO"), Audit Committee, Remuneration Committee, Nomination Committee and Risk Committee. The Audit Committee is made up of directors who are independent non-executive directors. Remuneration Committee, Nomination Committee and Risk Committee are chaired by independent non-executive directors and comprised of a majority of members being independent non-executive directors. Other committees are comprised of Chief Executive & General Manager and other directors and senior executives of the Bank as appointed by the Board.

The Executive Committee handles major matters arising from business and operational activities. It relieves the full Board from the needs to carry out detailed review of information and operational activities and also co-ordinates the work of other Board committees. The Credit Committee, in addition to its usual role in evaluating credit applications and making credit decisions, also serves the vital role of monitoring the loan portfolio quality of the Group. The ALCO oversees the Group's operations relating to interest rate risk, exchange rate risk and liquidity risk. In particular, ALCO ensures that the Group has adequate funds to meet its obligations. The Audit Committee assists the Board in providing independent review of the effectiveness of the financial reporting process and internal control systems of the Group by working closely with the Group's internal and external auditors. The Remuneration Committee establishes policies on the Group's remuneration paid to senior management and key personnel and monitors their proper implementation. Nomination Committee is responsible for the review of suitable candidates for directors and senior management posts. The Risk Committee oversees the overall risk of the Group and ensures the proper function of the Group's risk monitoring framework.

The Group has complied with the requirements set out in the Supervisory Policy Manual entitled "Corporate Governance of Locally Incorporated Authorized Institutions" issued by the Hong Kong Monetary Authority in all material aspects.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**6 Key Prudential Ratios (on Regulatory Consolidated Basis) (Continued)**

Note:

(1) N/A: Not applicable

(2) Risk-based regulatory capital ratios

The table summarizes the capital ratios calculated as computed in accordance with the Banking (Capital) Rules under regulatory consolidated basis of the Bank as at the dates shown. The constituent elements of the Total capital as at 31 December 2024 and 31 December 2023 have been disclosed in note 3.5 of the Consolidated Financial Statements of the Group. All of the Common Equity Tier 1 capital, Tier1 capital and Total capital of the Bank's regulatory group have decreased from 30 September 2024 mainly due to the property revaluation loss on investment properties as at the end of December 2024. With the increase of RWA between the last two quarter ends of 2024, the Group's regulatory consolidated CET1 ratio, Tier 1 ratio and Total capital ratio as at 31 December 2024 have decreased from those as at 30 September 2024.

(3) The Bank uses the Basic Approach for calculating credit risk and the Basic Indicator Approach for calculating operational risk. The Bank was granted by the HKMA an exemption from the calculation of market risk under the exemption criteria under section 22(1) of the Banking (Capital) Rules on 22 March 2016 and has excluded market risk in the calculation of capital ratio since then and as at 31 December 2024.

(4) The Capital conversation buffer ratio for the Bank for 2024 is 2.5% (2023: 2.5%) as stipulated by the Banking (Capital) Rules. While the Bank only operates and has private sector credit exposures in Hong Kong for the purposes of the calculation of its Countercyclical capital buffer ratio, the applicable Countercyclical capital buffer ratio for the Bank equals to that of Hong Kong as at 31 December 2024, which amounts to 0.5% (2023: 1%).

(5) Basel III leverage ratio

The leverage ratio shown above represents the regulatory consolidated leverage ratio calculated in accordance with the Banking (Capital) Rules. The exposure measure for 31 December 2024 was slightly reduced from that as at 30 September 2024, as a result of a lower level of customers' deposits for the fourth quarter of 2024, causing a decrease in the size of the consolidated statement of financial position. This factor together with the decrease in the regulatory Group's Tier 1 capital have led to a slight decrease in the Group's consolidated leverage ratio as at 31 December 2024 when compared to 30 September 2024.

(6) Liquidity Coverage Ratio (LCR) / Liquidity Maintenance Ratio (LMR)

The Bank, as a category 2 institution for the purpose of the Liquidity Rules, is only required to maintain and report LMR on a solo basis. As such, the Bank is not required to report LCR. The above LMRs are the quarterly average LMRs calculated as the simple average of each calendar month's average LMR of the Bank's solo position within the reporting quarters. The decrease in the average LMR noted for the current quarter as compared to the last quarter was mainly due to a larger extent of increase in the average qualifying liabilities than the same for liquefiable assets.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**6 Key Prudential Ratios (on Regulatory Consolidated Basis) (Continued)**

Note:(Continued)

**(7) Net Stable Funding Ratio (NSFR) / Core Funding Ratio (CFR)**

The Bank, being a category 2 institution for the purpose of the Liquidity Rules, is not required to report NSFR and CFR.

**(8) Higher Loss Absorbency (HLA)**

The Bank is not designated as a domestic systematically important authorised institution and as such is not subject to the HLA requirements under the Banking (Capital) Rules. HLA ratio is not required to be reported by the Bank.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**7 Overview of Risk Management and Risk RWA (on Regulatory Consolidated Basis)**

The overview of risk management and the RWA of the regulatory consolidated group as at 31 December 2024 and 30 September 2024 are disclosed in Table OVA and Template OV1 as below.

**(i) Table OVA: Overview of Risk Management**

While management of major risk areas is delegated to the relevant Board Committees, the full Board assumes the ultimate responsibility of overseeing and monitoring the Bank's overall risks. These Committees include Credit Committee (for credit risk), Asset & Liability Committee (for capital adequacy, liquidity, market and interest rate risk) and Risk Committee (for operational and other risks).

Both the Board and bank management fully acknowledge the Bank's low risk appetite, hence the Bank's activities are confined to a few areas which the Bank is able to identify, assess and exercise full control over the risks. Control limits on different activities are set out in the relevant policies which Board members were provided with updated copies at meetings. A risk-averse culture has been built throughout the organization, reinforced by active communications with staff, weekly management meetings and annual staff briefings on the code of conduct. All policies and operating procedures are available for handy reference by staff.

The management information system applied by the Bank permits timely and accurate position reporting for regular reviews by management and relevant staff. Positions, or anticipated positions arising from taking certain activities with resultant pressure to meet the policy Limits, will be brought to management attention promptly. Impact analysis and sensitivity analysis will be performed, and viable alternatives posted, for management decisions to mitigate the risks. For the important control limits, trigger levels below such limits are set serving as cushions allowing time for management to take actions to rectify.

Important functions and activities, as determined by the Board, are subject to periodic compliance checks. The findings are posted to senior management for information, and to the relevant functions who are required to respond with remedial plans. At the same time, Internal Audit formulates 3-year audit plans for review and acceptance by Audit Committee, and conducts audit works according to plan with results presented at Audit Committee meetings where management would respond with action time-table.

Stress tests are performed semi-annually to examine the key issues including the risk of delinquent interbank placements, deposit run-off, risk of capital adequacy from falling property values, risk in meeting the various sections of the Banking (Exposure Limits) Rules due to escalating values of property. Reverse stress tests are performed annually to examine the sufficiency of buffers in meeting the different sections under the Banking (Exposure Limits) Rules.

**7 Overview of Risk Management and Risk RWA (on Regulatory Consolidated Basis) (Continued)**

**(ii) Template OV1: Overview of RWA as at 31 December 2024 (Unaudited - on Regulatory Consolidated Basis) (Continued)**

Note:

- (1) N/A: Not applicable
- (2) The increase noted in the credit risk for non-securitization exposures calculated on BSC approach between the above two periods was mainly due to the increases noted in higher risk-weighted assets of loans and property, plant & equipment, being partially offset by the decrease in the holdings of lower risk-weighted assets, that is, interbank placements for the position of 31 December 2024. Operational risk have also increased due to the higher level of operating income for the fourth quarter of 2024.

**8 Linkages between Financial Statements and Regulatory Exposures**

The differences between accounting and regulatory scopes of consolidation and mapping of financial statement categories with regulatory risk categories are disclosed in Template LI 1, while the main sources of differences between regulatory exposure amounts and the carrying values in the financial statements are given in Template LI 2 below. Table LI A provides explanations of differences between accounting and regulatory exposure amounts as at 31 December 2024.

6	Exposure amounts considered for regulatory purposes	1,089,241	1,089,241	-	-	-

**(iii) Table LIA: Explanations of Differences Between Accounting and Regulatory Exposure Amounts as at 31 December 2024**

The amounts in column (a) in Template LI1 are taken from the consolidated financial statements which have been prepared based on the consolidated results and financial data of the Bank and its five wholly owned subsidiaries made up to 31 December 2024. The five subsidiaries of the Bank are listed in note 13 of the consolidated financial statements. There are no subsidiaries which have not been included in the consolidated financial statements.

The above basis of consolidation for accounting purposes differs from the basis of consolidation for regulatory purposes, under which only four of the subsidiaries, namely, Success Land Enterprises Limited, Golden Wisdom Development Limited, Team Gold Investment Limited and Gold Harmony Enterprises Limited, are included as subsidiaries in the consolidated Group for regulatory purposes. The consolidated carrying values under the scope of regulatory consolidation are included under column (b) in Template LI1.

Differences between the amounts in columns (a) and (b) in Template LI1 are not material.

The carrying values in the consolidated financial statements and the regulatory exposure amounts are listed in Template LI2. There is no difference between these two as at 31 December 2024.

**9 Capital Structure and Adequacy (on Regulatory Consolidated Basis)**

The calculation of the capital ratios as at 31 December 2024 and 30 June 2024 is based on the Banking (Capital) Rules ("BCR") effective from 1 January 2014. The capital ratios represent consolidated ratios of the Bank computed in accordance with section 3(1) of the BCR.

The tables below present the composition of the regulatory capital as at 31 December 2024 and 30 June 2024 (Template CC 1) and the Statement of Financial Position based on the accounting scope of consolidation and the regulatory reporting scope respectively as at 31 December 2024 and 30 June 2024 (Template CC 2).

Notes to the Template

	Description	Hong Kong basis	Basel III basis
9	<b>Other intangible assets (net of associated deferred tax liabilities)</b>	-	-
	<b>Explanation</b> As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights ("MSRs") may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in row 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.		
10	<b>Deferred tax assets (net of associated deferred tax liabilities)</b>	-	-
	<b>Explanation</b> As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs of the bank to be realized are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.		
18	<b>Insignificant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> For the purpose of determining the total amount of insignificant LAC investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.

Notes to the Template (Continued)

	Description	Hong Kong basis	Basel III basis
19	<b>Significant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> For the purpose of determining the total amount of significant LAC investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
39	<b>Insignificant LAC investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant LAC investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
54	<b>Insignificant LAC investments in Tier 2 capital instruments issued by, and non-capital LAC liabilities of financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold and, where applicable, 5% threshold)</b>	-	-
	<b>Explanation</b> The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant LAC investments in Tier 2 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
<b>Remarks:</b> The amount of the 10% threshold and 5% threshold mentioned above is calculated based on the amount of CET1 capital determined in accordance with the deduction methods set out in BCR Schedule 4F. The 15% threshold is referring to paragraph 88 of the Basel III text issued by the Basel Committee (December 2010) and has no effect to the Hong Kong regime.

**(i) Template CC1: Composition of Regulatory Capital as at 30 June 2024 (Continued)**  
**(Unaudited - on Regulatory Consolidated Basis)**

**Notes to the Template**

	Description	Hong Kong basis	Basel III basis
9	<b>Other intangible assets (net of associated deferred tax liabilities)</b>	-	-
	<b>Explanation</b> As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights ("MSRs") may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in row 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.		
10	<b>Deferred tax assets (net of associated deferred tax liabilities)</b>	-	-
	<b>Explanation</b> As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs of the bank to be realized are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.		
18	<b>Insignificant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> For the purpose of determining the total amount of insignificant LAC investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.

**Notes to the Template (Continued)**

	Description	Hong Kong basis	Basel III basis
19	<b>Significant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> For the purpose of determining the total amount of significant LAC investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
39	<b>Insignificant LAC investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant LAC investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
54	<b>Insignificant LAC investments in Tier 2 capital instruments issued by, and non-capital LAC liabilities of financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold and, where applicable, 5% threshold)</b>	-	-
	<b>Explanation</b> The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant LAC investments in Tier 2 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
<b>Remarks:</b> The amount of the 10% threshold and 5% threshold mentioned above is calculated based on the amount of CET1 capital determined in accordance with the deduction methods set out in BCR Schedule 4F. The 15% threshold is referring to paragraph 88 of the Basel III text issued by the Basel Committee (December 2010) and has no effect to the Hong Kong regime.

Tai Sang Bank Limited

**Table CCA: Main Features of Regulatory Capital Instruments as at 31 December 2024 and 30 June 2024**

1	Issuer	Tai Sang Bank Limited
2	Unique identifier (e.g. CUSIP, ISIN or Bloomberg identifier for private placement)	Not applicable
3	Governing law(s) of the instrument	Laws of Hong Kong
	<i>Regulatory treatment</i>	
4	Transitional Basel III rules*	Not applicable
5	Post-transitional Basel III rules*	Common Equity Tier 1
6	Eligible at solo*/group/group & solo	Solo and Group
7	Instrument type (types to be specified by each jurisdiction)	Ordinary shares
8	Amount recognised in regulatory capital (Currency in million, as of most recent reporting date)	HKD 265 (Mn)
9	Par value of instrument	HKD 1
10	Accounting classification	Shareholders' equity
11	Original date of issuance	1954, 1969, 1990, 2001, 2010
12	Perpetual or dated	Perpetual
13	Original maturity date	No maturity
14	Issuer call subject to prior supervisory approval	No
15	Optional call date, contingent call dates and redemption amount	Not applicable
16	Subsequent call dates, if applicable	Not applicable
	<i>Coupons / dividends</i>	
17	Fixed or floating dividend/coupon	Floating dividend
18	Coupon rate and any related index	Not applicable
19	Existence of a dividend stopper	No
20	Fully discretionary, partially discretionary or mandatory	Fully discretionary
21	Existence of step up or other incentive to redeem	No
22	Noncumulative or cumulative	Non-cumulative
23	Convertible or non-convertible	Non-convertible
24	If convertible, conversion trigger (s)	Not applicable
25	If convertible, fully or partially	Not applicable
26	If convertible, conversion rate	Not applicable
27	If convertible, mandatory or optional conversion	Not applicable
28	If convertible, specify instrument type convertible into	Not applicable
29	If convertible, specify issuer of instrument it converts into	Not applicable
30	Write-down feature	No
31	If write-down, write-down trigger(s)	Not applicable
32	If write-down, full or partial	Not applicable
33	If write-down, permanent or temporary	Not applicable
34	If temporary write-down, description of write-up mechanism	Not applicable
35	Position in subordination hierarchy in liquidation (specify instrument type immediately senior to instrument)	Not applicable
36	Non-compliant transitioned features	No
37	If yes, specify non-compliant features	Not applicable

**10 Countercyclical Capital Buffer Ratio (on Regulatory Consolidated Basis)**

The details of the Bank's countercyclical capital buffer ratios as at 31 December 2024 and 30 June 2024 are disclosed in Template CCyB 1 below:

**Template CCyB1: Geographical Distribution of Credit Exposures Used in Countercyclical Capital Buffer ("CCyB") as at 31 December 2024**

At 31 December 2024		(a)	(c)	(d)	(e)
	Geographical breakdown by Jurisdiction (J)	Applicable CCyB ratio in effect %	RWA used in computation of CCyB ratio HK\$ '000	AI-specific CCyB ratio %	CCyB amount HK\$ '000
1	Hong Kong SAR	0.500%	203,312		
	Total		203,312	0.500%	1,017

At 30 June 2024		(a)	(c)	(d)	(e)
	Geographical breakdown by Jurisdiction (J)	Applicable CCyB ratio in effect %	RWA used in computation of CCyB ratio HK\$ '000	AI-specific CCyB ratio %	CCyB amount HK\$ '000
1	Hong Kong SAR	1.000%	154,324		
	Total		154,324	1.000%	1,543

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**10 Countercyclical Capital Buffer Ratio (on Regulatory Consolidated Basis) (Continued)**

Note: The above templates show the CCyB ratios of the Bank computed on the consolidated basis as at 31 December 2024 and 30 June 2024. As the Bank only operates and has private sector credit exposures in Hong Kong, the overall countercyclical capital buffer ratio was the same as the jurisdiction countercyclical capital buffer ratio of Hong Kong, that is, 0.5% as at 31 December 2024. The level of private sector credit exposures in Hong Kong has increased during the second half year of 2024 as a result of a larger loan book. Apart from this, there have been no material changes in the geographical breakdown of the credit exposures of the Bank during the current semi-annual reporting period.

**11 Leverage Ratio Disclosures (on Regulatory Consolidated Basis)**

The tables below represent the summary comparison table for reconciling the total consolidated assets of the Bank as stated in the financial statements as at 31 December 2024 to the leverage ratio exposure used in the computation of the leverage ratio (Template LR 1) and the leverage ratio template (Template LR 2) as at 31 December 2024 and 30 September 2024, presented in HK\$'000.

**(i) Template LR1 : Summary Comparison of Accounting Assets Against Leverage Ratio ("LR") as at 31 December 2024 (Unaudited - on Regulatory Consolidated Basis)**

		(a)
	Item	Value under the LR framework HK\$'000 equivalent
1	Total consolidated assets as per published financial statements	1,063,428
2	Adjustment for investments in banking, financial, insurance or commercial entities that are consolidated for accounting purposes but outside the scope of regulatory consolidation	10
3	Adjustment for fiduciary assets recognised on the balance sheet pursuant to the operative accounting framework but excluded from the leverage ratio exposure measure	-
4	Adjustments for derivative contracts	-
5	Adjustment for SFTs (i.e. repos and similar secured lending)	-
6	Adjustment for off-balance sheet ("OBS") items (i.e. conversion to credit equivalent amounts of OBS exposures)	-
6a	Adjustment for specific and collective provisions that are allowed to be excluded from exposure measure	-
7	Other adjustments	9,900
8	<b>Leverage ratio exposure measure</b>	<b>1,073,338</b>

Note: There are no material changes in the summary comparison reconciling items of the Bank's consolidated balance sheet assets as stated in the consolidated statement of financial position with the exposure measure for the calculation of leverage ratio for the current semi-annual reporting period.

21	Total exposures after adjustments for specific and collective provisions	758,460	761,733
<b>Leverage ratio</b>			
22	Leverage ratio	52.65%	52.73%

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**11 Leverage Ratio Disclosures (on Regulatory Consolidated Basis) (Continued)**

- (ii) Note: The decrease of leverage ratio as at 31 December 2024 from that of 30 September 2024 was predominantly due to the lower level of leverage ratio exposure measure, which was resulted from a decrease in the level of customers' deposits, causing a decrease in the size of the consolidated statement of financial position.

**12 Liquidity Disclosures**

**(i) Table LIQA Liquidity Risk Management**

Governance of Liquidity Risk Management

The Bank has a low liquidity risk tolerance and ensures that funds are always available to meet obligations fully as they come due, particularly for customers' deposits which should be fully covered by highly liquid treasury funds.

The Board of Directors assumes the ultimate authority in the approving the liquidity management policy of the Bank. Day-to-day management of the Bank's liquidity position is delegated to senior management, whose operation is closely monitored by ALCO. Internal liquidity position reporting is prepared by the Bank's accounting department and reported to senior management on a daily basis and to ALCO at every ALCO meeting. Internal trigger limits are set for the effective monitoring of the liquidity position. Upon review by ALCO of the liquidity positions, it assesses in light of prevailing market condition, if the Bank's liquidity management strategy or guidelines are required to be amended.

The Liquidity Risk Management Policy of the Bank as approved by the Board and liquidity management strategy as determined by ALCO from time to time are communicated to relevant operational departments within the Bank during periodic meetings held among the departments and senior management.

Funding Strategy

While efforts have been made to promote depositors' loyalty to maintain funding stability from customers' deposits, bank management constantly reviews market situation and explores suitable funding sources such as term depositary products and establishing correspondent banking relationships with other financial institutions, both locally and overseas, with an aim to provide reciprocal funding arrangements or standby funding lines.

Liquidity Risk Mitigation

To mitigate its liquidity risk, the Bank maintains an adequate level of overnight funds at interbank or settlement account. It also aims to maintain an adequate cushion of high quality liquid assets.

Stress Testing on Liquidity Risk

Stress testing on liquidity positions are performed on a quarterly basis and presented to ALCO for review. The liquidity stress testing exercise includes scenarios covering an institution-specific crisis scenario for the Bank and a general market crisis scenario. ALCO examines the liquidity stress testing results to decide if the minimum number of days necessary for the Bank to arrange emergency funding support is satisfactory to the needs of the Bank and formulate the necessary strategies to address the cash flow needs reflected from the scenario analysis. ALCO also determines if the mix of the Bank's holding in liquefiable assets has to be adjusted based on the outcome of the stress testing.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)****12 Liquidity Disclosures (Continued)****(i) Table LIQA Liquidity Risk Management (Continued)**Contingency Funding Plan

Upon the awareness of liquidity crisis concerns, emergency ALCO and Board meetings would be called to decide on the ways that the Bank's liquidity position can be improved, including, but not limited to the following possible means: cancellation of undrawn customers' overdrafts facilities, calling back of customers' overdrafts / loans outstanding, availability of un-used interbank funds that could be utilized, negotiating with major depositors for increasing their deposits with the Bank, pledging of appropriate assets of the Bank for funding facilities, convincing major shareholders to place deposits with the Bank or making additional capital injection. Prompt decisions are to be made by ALCO and the Board. Contingency funding drills are carried out periodically to test the availability of funds available for the Bank.

Maturity Profile of Balance Sheet

The maturity profile of the items in the balance sheet of the Group as at 31 December 2024 has been disclosed in note 3.3.1 to the consolidated financial statements.

- (ii) As the Bank is designated as a Category 2 institution for liquidity monitoring purposes, Template LIQ1 on liquidity coverage ratio and Template LIQ2 on net stable funding ratio are not required to be disclosed.

**13 Credit Risk for Non-Securitization Exposures****(i) Table CRA General Information about Credit Risk**

The Bank is stringent in accepting credit customers and would only deal with customers whose background and financial conditions are known to our management. Tangible securities and/or strong guarantors to support credit facilities are insisted. This has given rise to a high quality credit portfolio with decades of zero loan loss.

The credit approval, review and monitoring functions are delegated by the Board to Credit Committee. Granting of new credits and renewals of existing credit are guided by Credit Policy as approved by the Board. The credit initiation and review process involve the Credit Officer who is responsible for information gathering, analysis and report preparation. New credits are subject to prior compliance clearance before the loan or credit limit would be made available to borrowers. Credit risk management and administration are examined by Internal Auditors once a year, with results reported to Audit Committee.

Credit Policy is reviewed annually, or more frequently as changes in regulatory or business environment necessitate a policy change. Revisions to Policy require concurrence of the Credit Committee and approval of the Board before taking effect. Policy limits are established upon referencing the regulatory requirements, market practice and our own risk tolerance.

Weekly meetings are held among senior management to review the performance of each existing credit exposure and new credit applications. Members of Credit Committee meet monthly to examine the overall portfolio, market trend and compliance-related issues. Information or connected exposures, as approved by Credit Committee members who are not connected parties, are provided to Board members at each Board meeting.

Note: Our Bank does not have any defaulted loans and debt securities as at 31 December 2024 and 30 June 2024.

**(iv) Table CRB: Additional Disclosure Related to Credit Quality of Exposures**

Exposures are considered by the Group to be past due when repayments are overdue by 3 months. Impaired exposures are those of which the discounted future cash flows using the original effective interest rate are lower than their existing carrying values. Impairment is considered when there is objective evidence of the happening of the following events, including, but not limited to:

- significant financial difficulty of the borrower;
- default or delinquency in interest or principal payments;
- the Group, for economic or legal reasons relating to the borrower's financial difficulty, grants to the borrower a concession that the Bank would not otherwise consider; or
- it becomes probable that the borrower will enter bankruptcy or other financial reorganization.

There are no differences between the definitions of past due exposures and defaulted exposures for accounting purposes and those for regulatory purposes.

Restructured exposures are those exposures that the Group has granted concession in its repayment, such as, a longer repayment period and/or lower instalment amounts, when compared to the original exposures.

The breakdown of exposures by geographical areas, industry and residual maturity as at 31 December 2024 and 31 December 2023 are given in note 3.1.11 (a), note 3.1.11 (b) and note 3.3.1 of the consolidated financial statements respectively.

The Group does not have any impaired exposures, past due exposures, defaulted exposures nor restructured exposures as at 31 December 2024 and 31 December 2023.

(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**13 Credit Risk for Non-Securitization Exposures (Continued)**

**(v) Table CRC: Qualitative Disclosures Related to Credit Risk Mitigation**

The Group accepts first legal property mortgages and listed securities as collateral for secured loans. Updated valuation of properties under mortgages are obtained at least annually for credit review purposes or when changes to the credit facility lines are proposed. Listed securities pledged to the Group are revalued on a daily basis to ensure the prudent loan-to-security value ratios have been preserved.

The carrying amounts of loans secured by mortgaged properties and listed securities amounted to HK\$189,401,587 and HK\$13,910,658 while the fair value of these mortgaged properties and shares in listed companies were HK\$351,400,000 and HK\$20,104,827 respectively as at 31 December 2024. Of the total mortgaged properties, residential properties accounted for 25.2% of the total value of such properties while commercial properties were 74.8% of total mortgaged properties. All listed securities pledged to the Group as loan collaterals were blue-chip listed equities.

The Group does not net its on- and off-balance sheet exposures.

**(vi) Template CR3: Overview of Recognised Credit Risk Mitigation**

		(a)	(b1)	(b)	(d)	(f)
		Exposures unsecured: carrying amount	Exposures to be secured	Exposures secured by recognised collateral	Exposures secured by recognised guarantees	Exposures secured by recognised credit derivative contracts

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**13 Credit Risk for Non-Securitization Exposures (Continued)**

**(vii) Template CR4: Credit Risk Exposures and Effects of Recognised Credit Risk Mitigation – for BSC Approach (Continued)**

Overall on-balance sheet exposures have increased during the second half of 2024. However, the mix between the different exposure classes has changed. More funds have been placed with the sovereign via investments in exchange fund bills. On the other hand, lower level of interbank placements as at 31 December 2024 are noted.

The higher level of on-balance sheet residential mortgage loans and other exposures were noted for 31 December 2024. Residential mortgage loans in the above templates include loans and overdrafts secured by residential property mortgages, as defined by the completion instruction of the Capital Adequacy Return.

The RWA of the Group as at the year-end has increased from 30 June 2024. This was directly resulted from the higher level of residential mortgage loans and other exposures with credit risk weighting of 100% which were higher than the credit risk weighting of bank exposures of 20% for 31 December 2024. As a result, the RWA density has increased from 69.08% as at 30 June 2024 to 72.01% as at 31 December 2024.

Risk Weight		0%	10%	20%	35%	50%	100%	250%	Others	Total credit risk exposures amount (post CCF and post CRM)
Exposure class		HK\$'000								
1	Sovereign exposures	4,986	108,781	-	-	-	-	-	-	113,767
2	PSE exposures	-	-	-	-	-	-	-	-	-
3	Multilateral development bank exposures	-	-	-	-	-	-	-	-	-
4	Bank exposures	-	-	269,280	-	-	-	-	-	269,280
5	Cash items	2,809	-	-	-	-	-	-	-	2,809
6	Exposures in respect of failed delivery on transaction entered into on a basis other than a delivery-versus-payment basis	-	-	-	-	-	-	-	-	-
7	Residential mortgage loans	-	-	-	-	-	29,312	-	-	29,312
8	Other exposures	-	-	-	-	-	623,525	-	-	623,525
9	Significant exposures to commercial entities	-	-	-	-	-	-	-	-	-
10	Total	7,795	108,781	269,280	-	-	652,837	-	-	1,038,693

Note: Sovereign exposures as at 31 December 2024 showed a significant increase from 30 June 2024, resulting from a higher level of investment in exchange fund bills which are attracting a 10% credit risk weighting. On the other hand, the level of bank exposures decreased from 30 June 2024. The funds released from such assets have been applied mainly to the investment in exchange fund bills.

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**14 Interest Rate Risk in Banking Book**

**(i) Table IRRBBA Interest Rate Risk in Banking Book - Risk Management and Objectives and Policies**

Interest rate risk in the banking book ("IRRB") is defined as the risk of loss to the Group due to possible changes in the level of interest rates impacting interest rates sensitive assets and liabilities and off-balance sheet items in the banking book of the Group.

The Group has established a Board approved policy on the risk governance management of IRRBB. The subject policy refers to elements of IRRBB management framework as advocated in the Supervisory Policy Manual IR-1 "Interest Rate Risk in the Banking Book" issued by the Hong Kong Monetary Authority. The monitoring of IRRBB of the Group is delegated by the Board to the Risk Committee, ALCO and senior management of the Bank. With Risk Committee overseeing the overall risk management framework of the Group, ALCO concentrates on direct monitoring of IRRBB via its reviews of periodic reports submitted by management on IRRBB impact and gives necessary instructions on the Group's level and type of interest rate sensitive assets and liabilities for the controlling of IRRBB of the Group. ALCO also conducts regular reviews of interest rate trends, risk profile and stress testing results.

Risk appetite in IRRBB has been thoroughly considered by the Board when approving the Group's IRRBB policy. The risk appetite has been reflected in the risk limits established by the Group and duly documented in the IRRBB policy. Such risk limits serve as the basis for on-going monitoring of the impact of possible future interest rate changes on the economic value of equity ("EVE") and net interest income ("NII").

With the current structure of the Group's HKD interest rate sensitive position being more than 95% of the total interest rate sensitive position in all currencies, the monitoring of IRRBB is effected through the compilation and review of related risk reports on the HKD interest rate sensitive positions as at the end of each calendar month. Such reports are compiled based on the same scenarios for the EVE and NII impact analysis as the regulatory returns and are submitted to ALCO at its monthly meeting for review and discussion.

In the measurement of IRRBB for both internal monitoring and regulatory reporting purposes, the Group relies on the following assumptions and characteristics of its interest rate position profile:

- (a) The Group does not provide any fixed rate retail loans.
- (b) The non-maturity deposits of the Group, including current and savings deposits, are assumed to continue into the foreseeable future. The earliest repricing date of such deposits is used to determine the impact of IRRBB on the Group.
- (c) The retail time deposits of the Group are normally subject to early redemption risk by the deposit customers. However, such risk is mitigated by a material penalty applied on time deposits for pre-maturity redemptions. The historical pattern of the Group in this regard reflects a very insignificant early withdrawal rate on retail time deposits.
- (d) The Group assesses the impact on earnings under the earnings perspective approach, based on the two standard interest rate shock scenarios while assuming a constant balance sheet.

The Group also conducts periodic stress-tests on IRRBB for the measurement of its vulnerability to loss resulted from its interest rate positions under stressed market conditions. The results of the stress-tests performed are reviewed by ALCO, which gives specific instructions on the composition and level of interest rate positions when it sees fit.

The overall risk management framework on IRRBB is subject to periodic reviews and audits conducted by the internal compliance unit and the internal auditors of the Group.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**14 Interest Rate Risk in Banking Book (Continued)**

**(ii) Template IRRBB1 Quantitative Information on Interest Rate Risk in Banking Book**

The table below provides information on the adverse change in the economic value of equity ("EVE") and also the adverse change in net interest income ("NII") over the next 12 months under each of the prescribed interest rate shock scenarios in respect of the Group's interest rate exposures arising from its banking book position for the current annual reporting date as at 31 December 2024 and 31 December 2023.

	(in HK\$'000)	(a)		(c)	
		Adverse impact Δ EVE		Adverse impact Δ NII	
	Period	31-Dec-24	31-Dec-23	31-Dec-24	31-Dec-23
1	Parallel up	1	32	-	-
2	Parallel down	3,145	191	6,178	5,060
3	Steeper	-	-		
4	Flatter	609	1,724		
5	Short rate up	2	1,644		
6	Short rate down	284	-		
7	Maximum	3,145	1,724	6,178	5,060
	Period	31-Dec-24		31-Dec-23	
8	Tier 1 capital	399,294		395,494	

The prescribed interest rate shock scenarios are provided by the Hong Kong Monetary Authority in their Supervisory Policy Manual IR-1 "Interest Rate Risk in the Banking Book" and are described as follows:

1. Parallel up: A constant parallel shock up across all time buckets
2. Parallel down: A constant parallel shock down across all time buckets
3. Steeper: Short rates down and long rates up
4. Flatter: Short rates up and long rates down
5. Short rate up: Rates up are greatest at shortest time bucket and diminish towards current rates in longer time buckets
6. Short rate down: Rates down are greatest at shortest time bucket and diminish towards current rates in longer time buckets

Based on the results of the above analysis, the parallel down shock scenario would result in the most significant adverse impact on the Group's net interest income, i.e. a 40.40% (2023: parallel down shock, 31.64%) decrease in the Group's NII. On the other hand, the flatterer scenario would cause the largest adverse impact on economic value of equity, which would lead to 0.15% (2023: 0.44%) decrease in the Tier 1 Capital at the consolidated level.

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)****15 Disclosure on Remuneration****(i) Table REMA Remuneration Policy**

The Bank establishes a Remuneration Policy which governs the set-up of a Remuneration Committee and formulates the principles of remuneration determination for its staff. The Remuneration Policy of the Bank promotes an overall scheme of remuneration that matches the Bank's business objectives, risk tolerance and risk management framework.

The composition and responsibility of the Group's Remuneration Committee has been set out in note 5 of the Supplementary Financial Information. During its two meetings held in the year ended 31 December 2024, the Remuneration Committee reviewed and approved the annual remuneration to be paid to the Bank's senior management (being those holding position as Deputy/Assistant General Manager or above) and key personnel (being heads of key functions and manages as stipulated in Fourteenth Schedule of the Banking Ordinance) in accordance to the Bank's Remuneration Policy and Board instructions. It also approved the annual review of the Bank's Remuneration Policy where minor changes were made. The basis of determining the annual emolument adjustment payable by the Bank to its senior management and key personnel is by reference to Board approved benchmark based on public sector indicators in this area. Accordingly, employees who are responsible for risk control functions are remunerated independently of the businesses they oversee. No individual director of the Bank will be involved in decisions relating to his/her own remuneration.

The total fees paid to the members of Remuneration Committee during the year ended 31 December 2024 amounted to HK\$1,200,000 (2023: HK\$1,200,000) which were paid for their overall workloads and commitment to the Board as a whole.

**TAI SANG BANK LIMITED**  
(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**15 Disclosure on Remuneration (Continued)**

(ii) Template REM1 Remuneration Awarded During Financial Year

At 31 December 2024		(a)	(b)
Remuneration amount and quantitative information		Senior management	Key personnel
1	Number of employees	2	6
2	Fixed remuneration		
3	Total fixed remuneration of which: cash-based (HK\$)	2,407,735	4,371,002
4	Total remuneration	2,407,735	4,371,002

  

At 31 December 2023		(a)	(b)
Remuneration amount and quantitative information		Senior management	Key personnel
1	Number of employees	3	6
2	Fixed remuneration		
3	Total fixed remuneration of which: cash-based (HK\$)	3,613,140	3,772,882
4	Total remuneration	3,613,140	3,772,882

**Note:** The Group only provides fixed remuneration to its senior management and key personnel in the form of salary and allowance in cash. No variable remuneration, whether in the form of cash, shares and share-linked instruments and other instruments, has been provided by the Group to its senior management and key personnel. There were no deferred remuneration nor retained remuneration, whether vested or unvested, awarded, in the form of payment or reduction through performance adjustments, to the Group's senior management and key personnel during both the years ended 31 December 2024 and 31 December 2023.

The decrease in the number of employees for senior management in the year ended 31 December 2024 was resulted from personnel changes in the senior management of the Group, which also led to a lower level of fixed remuneration paid to these staff. On the other hand, the number of employees for key personnel remained stable between the two years. However, there was a drop in the level of fixed remuneration paid to these staff, mainly due to a vacancy among such key personnel during part of the year ended 31 December 2024.

(iii) Template REM2 Special Payments

During the years ended 31 December 2024 and 31 December 2023, the Group did not have any new sign-ons, severance payments or guaranteed bonuses awarded to its senior management and key personnel. It has therefore not included disclosure Template REM2 on special payments, which is considered not to be relevant and would carry nil balances in such template if published.

**TAI SANG BANK LIMITED**

(Incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)****15 Disclosure on Remuneration (Continued)****(iv) Template REM3 Deferred Remuneration**

During the years ended 31 December 2024 and 31 December 2023, the Group did not have any outstanding deferred remuneration not pay out any deferred remuneration in any forms for its senior management and key personnel. It has therefore not included disclosure Template REM3 on deferred remuneration, which is considered not to be relevant and would carry nil balances in such template if published.

**16 Disclosure Templates on Counterparty Credit Risk, Securitization Exposures and Market Risk**

The Bank does not engage in any derivative transactions, securities financing transactions or securitization transactions as at and during the year ended 31 December 2024 nor has plan to engage in such transactions in the coming year, and has therefore not included any disclosure templates on counterparty credit risk and securitization exposures, which are considered not to be relevant and would carry nil balances on such templates if published.

The Bank has been exempted from the calculation of risk weighted assets for market risk and accordingly has been exempted from disclosing templates on market risk.

**17 Capital charge for credit, market and operational risks**

The capital ratio in note 3.5 to the financial statements represents the consolidated ratio of the position of the Bank for regulatory purposes as at 31 December 2024 and 2023 computed in accordance with the Banking (Capital) Rules.

The capital requirements for each class of exposures are summarised as follows:

**(i) Capital charge for credit risk**

	Capital requirement	
	2024	2023
	HK\$'000	HK\$'000
Sovereign exposures	1,438	1,420
Bank exposures	2,673	2,362
Residential mortgage loans	3,648	2,020
Other exposures which are not past due exposures	54,072	54,462
Total capital charge for on-balance sheet exposures	61,831	60,264
Direct credit substitutes	-	-
Trade-related contingencies	-	-
Total capital charge for off-balance sheet exposures	-	-
Total capital charge for credit risk	61,831	60,264

**TAI SANG BANK LIMITED**

(incorporated in Hong Kong with limited liability)

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)****17 Capital charge for credit, market and operational risks (Continued)**

The Bank uses the Basic Approach for calculating credit risk. This disclosure is made by multiplying the Bank's risk-weighted amount derived from the relevant calculation approach by 8%, not the Bank's actual "regulatory capital".

**(ii) Capital charge for operational risk**

	2024 HK\$'000	2023 HK\$'000
Capital charge for operational risk	5,648	4,352

The Bank uses the Basic Indicator Approach for calculating operational risk.

**(iii) Market risk capital charge**

	2024 HK\$'000	2023 HK\$'000
Market risk capital charge	-	-

The Bank was granted by the HKMA an exemption from the calculation of market risk under the exemption criteria under section 22(1) of the Banking (Capital) Rules on 22 March 2016 and has excluded market risk in the calculation of capital ratio since then and as at 31 December 2024.

**18 Disclosure on Fair Value Practices on Financial Instruments for CA-S-10 Guideline issued by the HKMA**

The Group holds listed equity investments measured at FVOCI which are subject to fair value measurement as stipulated in the CA-S-10 Guideline issued by the HKMA. The valuation technique used by the Group to value the subject listed equity investments measured at FVOCI has been set out in note 3.4 of the Notes to the Consolidated Financial Statements while the sensitivity analysis of such investments are detailed in note 3.2.1 of the Notes to the Consolidated Financial Statements.

The Group uses prices quoted at the stock exchanges for each of the listed equity investments measured at FVOCI to mark the investments to their fair values on periodic basis. The fair value measurement and calculation process is performed by a department independent of the risk taking unit and is subject to stringent controls supervised by senior management of the Group. The fair values of the listed equity investments measured at FVOCI are reviewed regularly by senior management and the Board.

**SUPPLEMENTARY FINANCIAL INFORMATION (UNAUDITED) (CONTINUED)**

**19 Climate Risk Management**

Following to the issuance of Supervisory Policy Manual GS-1 "Climate Risk Management" by the HKMA in December 2021, banks are required to disclose climate-related information that addresses the financial risks and opportunities posed by climate change.

Climate risk is broadly classified into physical risk and transition risk. Physical risk refers to the impact of climate and weather-related events and long-term progressive shifts of climate that impact directly on the Group through events like property damage and reduced productivity. Transition risk refers to the financial risk that results from the process of adjustment towards a lower-carbon economy which may include changes in climate policy of governments, technologies advancements or changes in the market sentiment.

With regard to climate risk, the Group has put in place a Climate Risk Management Policy which was approved by the Board in October 2022. The Board has the ultimate responsibility for the Group's climate risk management and resilience. Risk Committee has been delegated with the prime responsibility for overseeing the development and implementation of climate risk policy and strategy while the Executive Committee ensures adequate resources, systems and controls are in place to support the implementation of the climate risk strategy. Other parties that take part in the day-to-day management of climate risk include the compliance function, heads of various departments and the internal audit function.

The Group commits to the following strategies adopted for its management of climate risk:

- to integrate climate risk considerations into its strategic planning process;
- to ensure that climate risks are identified, measured, monitored, reported and controlled through active Board and management oversight, adequate policies, procedures and limits, efficient management information systems and comprehensive audits;
- to keep abreast of the latest standards and development on climate risk and adopts industry recommendations on the subject; and
- to promote staff awareness on carbon neutrality and the carbon footprint of the Group's operation and adopts practices, products and equipment that are environmental friendly.

The Group has identified that the lending portfolio, the investment portfolio and the business operations to be the three channels that are prone to potential impacts of climate-related risks. The assessment of these channels further identified the following potential impacts:

- (i) Credit risk – credit risk of the Group's lending portfolio will be affected via the widening of borrowers' credit premium and lowering of the value of loan collaterals due to climate-related damages or policy changes;
- (ii) Market risk – investment securities and investment properties held will be affected through price fluctuations;
- (iii) Operational risk – operations of the Group will be subject to the risk of business disruption, costs associated with property repairs and compliance with new rules; and
- (iv) Reputation risk – poor management of climate risk will adversely affect the reputation of the Group.

At the initial stage, simple metrics are planned to be adopted by the Group to periodically measure and report climate risks. Examples of such metrics include the amount of loans exposed to climate sensitive sectors, the amount of loans with collaterals exposed to climate risk, environmental risk rating of the equity investments made by the Group, are adopted by the Group to measure climate risks, the Group's properties held and its operation location by geographic segments and the number of incident events and loss related to climate risk. Periodic stress-tests on financial impacts are to be performed on severe but plausible scenarios of physical risk cases where climate changes result in business disruption to the Bank's operations.

**APPENDIX****TAI SANG BANK LIMITED**
