## **Regulatory disclosures (unaudited)**

### **Introduction**

The information contained in this document is for Chong Hing Bank Limited ("the Bank") and its subsidiaries ("the Group") to comply with the Banking (Disclosure) Rules ("BDR") made under section 60A of the Banking Ordinance. It should be read in conjunction with the Group's consolidated financial statements. The banking disclosures are prepared in accordance with the BDR and disclosure templates issued by the Hong Kong Monetary Authority ("HKMA"). It has been prepared on a consolidated basis for regulatory purposes which is different from the consolidated basis for accounting purposes. Information regarding subsidiaries that are not included in the consolidation for regulatory purpose is set out in the "Basis of Consolidation section" of the Group's consolidated financial statements.

The approaches used in calculating the Group's regulatory capital and risk-weighted assets are in accordance with the Banking (Capital) Rules. The Group uses the standardised (credit risk) approach to calculate its credit risk. For counterparty credit risk, the Group uses the standardised approach (counterparty credit risk) to calculate its default risk exposures starting from 30 June 2021. For market risk, the Group uses the standardised (market risk) approach to calculate its market risk. For operational risk, the Group uses the basic indicator approach to calculate its operational risk.

A disclosure policy has been put in place for the disclosure of material information (including inside information) relating to the businesses, state of affairs, profit or loss and capital adequacy ratio to the stakeholders and the public in compliance with the disclosure obligations required by the Listing Rules, the Banking Ordinance, the Securities and Futures Ordinance and other applicable laws, rules and regulations. The banking disclosures are governed by the Group's disclosure policy, which have been approved by the Board. The disclosure policy sets out the governance, control and assurance requirements for publication of the document. The banking disclosures are reviewed by independent party in accordance with the Group's disclosure policy.

The Group's Banking Disclosure Statement at 30 June 2021 comprises Pillar 3 information required under the framework of the Basel committee on Banking Supervision ("BCBS"). The disclosures are made in accordance with the latest BDR issued by the HKMA.

According to the BDR, disclosure of comparative information is not required unless otherwise specified in the standard disclosure templates. Prior period disclosures can be found in the Regulatory Disclosures section of our website, [www.chbank.com](http://www.chbank.com).

**Part I : Key prudential ratios and overview of RWA (unaudited)**  
**OV1: Overview of RWA**

The following table sets out the RWA by risk types and the corresponding minimum capital requirements (i.e. 8% of RWA), as required by the HKMA.

In HK\$'000		(a)	(b)	(c)
		RWA		Minimum capital requirements
		As at 30 June 2021	As at 31 March 2021	As at 30 June 2021
1	Credit risk for non-securitization exposures	168,075,246	163,974,761	13,446,020
2	<i>Of which STC approach</i>	168,075,246	163,974,761	13,446,020
2a	<i>Of which BSC approach</i>	-	-	-
3	<i>Of which foundation IRB approach</i>	-	-	-
4	<i>Of which supervisory slotting criteria approach</i>	-	-	-
5	<i>Of which advanced IRB approach</i>	-	-	-
6	Counterparty default risk and default fund contributions	847,061	863,343	67,765
7	<i>Of which SA-CCR approach</i>	584,302	Not applicable	46,744
7a	<i>Of which CEM</i>	-	828,603	-
8	<i>Of which IMM(CCR) approach</i>	-	-	-
9	<i>Of which others</i>	262,759	34,740	21,021
10	CVA risk	179,588	318,713	14,367
11	Equity positions in banking book under the simple risk-weight method and internal models method	-	-	-
12	Collective investment scheme ("CIS") exposures – LTA	Not applicable	Not applicable	Not applicable
13	CIS exposures – MBA	Not applicable	Not applicable	Not applicable
14	CIS exposures – FBA	Not applicable	Not applicable	Not applicable
14a	CIS exposures – combination of approaches	Not applicable	Not applicable	Not applicable
15	Settlement risk	-	-	-
16	Securitization exposures in banking book	9,011	8,883	721
17	<i>Of which SEC-IRBA</i>	-	-	-
18	<i>Of which SEC-ERBA (including IAA)</i>	-	-	-
19	<i>Of which SEC-SA</i>	9,011	8,883	721
19a	<i>Of which SEC-FBA</i>	-	-	-
20	Market risk	5,861,688	5,672,775	468,935
21	<i>Of which STM approach</i>	5,861,688	5,672,775	468,935
22	<i>Of which IMM approach</i>	-	-	-
23	Capital charge for switch between exposures in trading book and banking book (not applicable before the revised market risk framework takes effect)	Not applicable	Not applicable	Not applicable
24	Operational risk	7,090,913	7,044,600	567,273
24a	Sovereign concentration risk	-	-	-
25	Amounts below the thresholds for deduction (subject to 250% RW)	531,423	531,423	42,514
26	Capital floor adjustment	-	-	-
26a	Deduction to RWA	130,388	127,562	10,431
26b	<i>Of which portion of regulatory reserve for general banking risks and collective provisions which is not included in Tier 2 Capital</i>	-	-	-
26c	<i>Of which portion of cumulative fair value gains arising from the revaluation of land and buildings which is not included in Tier 2 Capital</i>	130,388	127,562	10,431
27	Total	182,464,542	178,286,936	14,597,164

Total RWA increased by HK\$4.2 billion as compared with last quarter. RWA for credit risk for non-securitization exposures was the main contributor and the key driver for the increase was the increase in corporate exposures.

**Part IIA : Composition of regulatory capital (unaudited)**
**CC1: Composition of regulatory capital**
**As at 30 June 2021**

	(a)	(b)	
	Amount	Source based on reference numbers/letters of the balance sheet under the regulatory scope of consolidation	
<b>In HK\$'000</b>			
<b>CET1 capital: instruments and reserves</b>

**Part IIA : Composition of regulatory capital (unaudited)**
**CC1: Composition of regulatory capital**
**As at 30 June 2021**
**Notes to the template:**
**In HK\$'000**

Row No.	Description	Hong Kong basis	Basel III basis
9	<b>Other intangible assets (net of associated deferred tax liabilities)</b>	836,659	836,659
	<b>Explanation</b> As set out in paragraph 87 of the Basel III text issued by the Basel Committee (December 2010), mortgage servicing rights ("MSRs") may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to follow the accounting treatment of including MSRs as part of intangible assets reported in the AI's financial statements and to deduct MSRs in full from CET1 capital. Therefore, the amount to be deducted as reported in row 9 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 9 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of MSRs to be deducted to the extent not in excess of the 10% threshold set for MSRs and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.		
10	<b>Deferred tax assets (net of associated deferred tax liabilities)</b>	26,254	-
	<b>Explanation</b> As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs of the bank to be realized are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e. the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities or other credit exposures to connected companies) under Basel III.		
18	<b>Insignificant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> For the purpose of determining the total amount of insignificant LAC investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. Therefore, the amount to be deducted as reported in row 18 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 18 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
19	<b>Significant LAC investments in CET1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> For the purpose of determining the total amount of significant LAC investments in CET1 capital instruments issued by financial sector entities, an AI is required to aggregate any amount of loans, facilities or other credit exposures provided by it to any of its connected companies, where the connected company is a financial sector entity, as if such loans, facilities or other credit exposures were direct holdings, indirect holdings or synthetic holdings of the AI in the capital instruments of the financial sector entity, except where the AI demonstrates to the satisfaction of the MA that any such loan was made, any such facility was granted, or any such other credit exposure was incurred, in the ordinary course of the AI's business. Therefore, the amount to be deducted as reported in row 19 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 19 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
39	<b>Insignificant LAC investments in AT1 capital instruments issued by financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold)</b>	-	-
	<b>Explanation</b> The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant LAC investments in AT1 capital instruments may be smaller. Therefore, the amount to be deducted as reported in row 39 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 39 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
54	<b>Insignificant LAC investments in Tier 2 capital instruments issued by, and non-capital LAC liabilities of, financial sector entities that are outside the scope of regulatory consolidation (amount above 10% threshold and, where applicable, 5% threshold)</b>	-	-
	<b>Explanation</b> The effect of treating loans, facilities or other credit exposures to connected companies which are financial sector entities as CET1 capital instruments for the purpose of considering deductions to be made in calculating the capital base (see note re row 18 to the template above) will mean the headroom within the threshold available for the exemption from capital deduction of other insignificant LAC investments in Tier 2 capital instruments and non-capital LAC liabilities may be smaller. Therefore, the amount to be deducted as reported in row 54 may be greater than that required under Basel III. The amount reported under the column "Basel III basis" in this box represents the amount reported in row 54 (i.e. the amount reported under the "Hong Kong basis") adjusted by excluding the aggregate amount of loans, facilities or other credit exposures to the AI's connected companies which were subject to deduction under the Hong Kong approach.		
<b>Remarks:</b>  The amount of the 10% threshold and 5% threshold mentioned above is calculated based on the amount of CET1 capital determined in accordance with the deduction methods set out in BCR Schedule 4F. The 15% threshold is referring to paragraph 88 of the Basel III text issued by the Basel Committee (December 2010) and has no effect to the Hong Kong regime.
