About NBP

The Bank You Trust

National Bank of Paxistan (the Bank) was established on November 09. 1949 under the National Bank of Pakistan Orginance, 1949 and is listed on the Pakistan Stock Exchange. The Bank's Registered and Head Office is situated at Karachi, The Bank is engaged in providing commercial banking and related services in Pakisten and overseas.

The Bank also handles treasury transactions for the Government of Pakistan as an agent to the State Bank of Pakistan. The Bank operates 1.512 (2021:1.513) domestic branches in Pakistan and 18 (2021:19) overseas branches (including the Export Processing Zone branch,

The Bank has a wide local and international outmach through a network of branches, ATMs, subsidianes, representative offices, agency tie-ups, correspondent banking relationships, etc.

With a total asset base of PKR 5,2 trillion, (USD 23,1 million) and accounting for ~15% of total incustry assets, the Bank has been designated a "Domestic Systemically Important Bank" by the State Bank of Pakistan.

In oursuit of its vision of enabling sustainable growth and inclusive development, the Bank is well-diversified across its major business segments of retail, commercial, corporate & investment, Islamic, treasury and international operations. The Bank's international operations exist in South & Central Asia, Middle East, Western Europe and North America. Demonstrating a strong franchise, 58% of average assets of the Bank were hinded by average customer deposits. The domestic current and savings account (CASA) ratio was 79.4% as at December 31, 2022

7 Decades of Serving the Nation

After independence in 1947. Pakistan was inherited with a very weak financial system architecture. There was an emergency need to have in commercial bank "truly national in character" and capable enough to navigate the country through the then uncertain times. Ever since, the Bank's purpose and mission have been to support the tingnosal well-being of the Nation, and to provide strength in uncertain times -Then, Now and Always.

The Bank's 15,000+ employees serve 9.5+ million customers through a wide local and international network of branches, agency arrangements. business promotion offices in Europe, America, Central Asia, Far & Middle Eastern countries and correspondent banking relationships.

Strong Capitalisation and Risk Profile

With PKR 300.8 Bn as Net Assets, NBP is the nighest capitalised bank in Pakisten, The SBP through its BSD Circular No. 07 dated April 15. 2009 has prescribed the minimum paid up capital triet of losses) for all locally incorporated banks of PKR 10 Bn, The paid up capital of the Bank for the year ended December 31, 2022 stood at PKR 21,27 Bri (2021; PKR 21.27 Bn), comtonably well above the SBP requirements.

The Bank is also subject to maintaining minimum capital ratios under the Basel III framework as advised by the SBP from time to time. The Bank has been identified as Domestic Systemically Important Bank 'D-SIB' by the State Bank of Pakistan, Accordingly, the Bank's total capital adequacy requirement stood at 13,0% (2021:13,50%). The Bank is required to maintain capital conservation buffer of 1.5% (as reduced under the BPRD Circular Letter No. 12 of 2020). Moreover, being & U-SIB, the Bank is also required to maintain higher loss absorbency HLA' capital surcharge in the torm of additional Common Equity Ser 1. (CET1), At January 1, 2022 the required HLA was 2,0% that was revised downward to 1.5% in December 2022.

With the Common Equity Tier 1 (CET-1) ratio of 16,30% (2021: 15,42%) and overall Capital Adequacy Ratio (CAR) at 21,59% end 2022 (2021; 20.39%), the Bank is compliant with the enhanced regulatory

The Bank's leverage ratio at end 2022 was 3,08% (2021;3,47%). The Bank's liquidity and net stable runding ratios stood at 147% (2021;164%) and 251% (2021;278%), respectively against regulatory requirements of 100% for each.

The Bank is rated AAA/A1+ with a stable outlook by both VIS Credit Rating Agency and PACRA Credit Rating Agency, This is the highest credit rating awarded to a Bank in Pakistan. Thus, the Bank's risk profile reflects a restrained risk appetite, a strong funding base, a secure level of liquidity, a sound domestic tranchise and consistently stable

Diversified Coverage

The 1950s The Beginning

The 1960s. Dawn of

& Growth

87,900

- . During the 1950s, the Bank undertook the expension of the branch network.
- » The first overseas branch was established in Jeddah. Saudi Arabia (1950), a branch in London (1963) and another branch in Baghdad (1957).
- . The Bank took Government Treasury Operations and established currency cnests at various locations, it managed currency chests or sub-chests at 57 of its offices. Deposits which constituted 3.1 per cent of total deposits of all Pakistani banks in 1949 had risen to 38 per cent by 1952
- . In the 1960s, NBP Started the School Scheme to popularize the banking and savings habit. This scheme was offered to industrial workers and school & collège students.
- Operative in 1,189 achools, deposits raised to PKR 2.9 million, By 1969, NBP's "worker scheme" raised the total deposits by factory workers into PKR 2.84 million and the number of accounts opened had touched 8,767.
- . Ouring this period, there was growth in the branch network both at home and
- The 1970s witnessed the nationalisation of Pakistani commercial banks operating in the country.
- In 1972, the National Bank of Pakistan evolved the Supervised Amouthirs Credit Program, and introduced a new methodology of viable credit for small farmers available at their doorstep.
- On January 1, 1974 National Bank of Pakistan along with 13 other scheduled Pakistani banks was nationalised.

- In the 1980s, the Government announced a three-year plan for the implementation of an Islamic Economic System
- » NBP introduced a separate and comprehensive procedure for banking under this system from branch level to the Head Office.
- Consolidation and reorganisation resulted in closure of 286 branches-from 1,846 branches (1979) to 1,380 branches (1989),
- Overseas expansion continued with the opening of a representative office in Bering (1981) and in Secul, South Kores (1985); the latter was converted into a brench in
- The Bank increased its luthorised and paid-up central twice during the 80s, gaining a much broader and stronger equity base.

After independence in 1947, Pakistan inherited a very weak financial system architecture. There was an emergency need to have a commercial bank, "truly National in character" and capable enough to navigate the country through the then uncertain times. This created your Bank, the National Bank of Pakistan. Your Bank's purpose and mission has been to support the financial well-being of the Nation, and to provide strength in uncertain times - Then, Now and Always.

The 1990s. Initiatives & Reforms

2000 - 2009. The Millennium

The Bank You Trust

- The 1990s was a decade of new financial reforms and initiatives.
- · The Bank became a SWIFT member in 1998. The facility provides modern technology to Bank customers for prompt and convenient cash transactions and remitiances round the clock.
- In 1999, the Bank celebrated its Golden Jubies. By the close of the decade, its market share hart reached amund 20% and it remained the largest financial institution in the country.
- The decade witnessed a restructuring programme, where loss making branches were closed or merged. Number of Regions were reduced to 29.
- National Bank of Pakistan went public with IPO of 23.2% shares and lating at all domestic stock exchanges (2001).
- In 2002, the Bank signed an agreement with Western Union.
- The Bank's wholly owned Exchange Company commenced operations in February 2003.
- NBP gained market recognition and received over 30 international

- PKR 30.4 Bn as Profit After tax in 2022. The Bank achieved. PKR 5 Trillion Milestone in Assets and becomes largest bank in the country.

The Bank You Trust

Mr. Ahsan Ali Chughtai Director

BAC

BRCC

C NYGC

Senior Banker/Financial Sector/Public Policy and Development/Investment and Planning/ PPP Specialist.

Key Skills: Financial sector, Infrastructure structuring, development, implementation,

Over 42 years of banking and consulting experience with international and domestic banks, Provincial Government and its egencies, MLAs and other foreign donor agencies.

Dear Shareholders,

I am pleased to present this Review Report as the new Chairman of this major National Institution that has been partnering and contributing to Nation's growth for over seven decades.

Your Bank

NBP, stakeholders will join me in appreciating that NBP has always embraced its responsibility in putting the country first as Pakistan's leading financial institution over the decades. The Bank's business model is evolved as an institution which primarily handles the banking needs of the povernment its entities and their employees. We are now working towards redefining this traditional role to include main stream commercial and retail banking business with more focus on the ever growing SME midmarket segment including the needs of small businesses, agricultural and related farming sector and the supply chain segment which has the capacity to generate short cycle cash flows.

Operating Context

Global economy is facing multiple challenges. The World Bank has slashed the global economic growth outlook to 1.7% for 2023 from its earlier projection of 3%. High inflation has triggered rapid and synchronous monetary policy tightening globally. The splil over of sluggish growth is exacerbating headwinds faced by emerging markets and developing Pakistan's economy is also confronted with multiple challenges like high inflation, low growth, and low levels of official foreign exchange reserves. To stem the rising inflation, the State Bank of Pakistan has increased the policy rate from 7.5% in September'21 to 17%, GDP growth is projected to fall below 296 in FY23.

The Banking industry is now subject to higher base tax rates. additional taxes related to income from government securities, lower ADH and higher minimum lending targets for various segments. Conventional banking systems are facing competition from the innovative Fintech and less regulated non-bank institutions.

Let me concede at present, our preparation to meet the aforementioned challenges is not adequate. We need to acquire new technology and enhance our skills set and aggressively strategize to retain our prominent role in the competitive market place.

The Board

In April 2022 tour Directors on the Board including the Chairman completed their tenure and to fill the vacant positions. Government of Pakistan appointed myself and two other Directors in January 2023.

The Board is an optimum mix of non-executive executive and independent Directors which fully meets the regulatory requirement. My fellow directors are accomplished professionals and bring diversity and rich experience to the Bank.

The Board is cognizant of the current economic situation in the country and its effects on the Sanking and Financial sector. This together with the critical interdependency that exists between our socio-economic environment, the well-being of our stakeholders and under the circumstances the sustainability of the Bank shall create immense challenges. The Bank will have to proactively manage these critical challenges effectively by implementing planned strategies

Against this backdrop, the Bank will continue to play an important contributory role towards the country's economic stability by managing desirable growth and value creation for the stakeholders.

We are mindful of the current and legacy issues that persist and remain our crucial challenges. Going forward the Bank is committed to address and resolve these challenges while protecting its capital and franchise and to the satisfaction of its stakeholders.

The Board is also aware of the Bank's Corporate Social responsibilities and its commitments towards environmental preservation and wellbeing of its employees who are the key stakeholders, and this shall remain one of the foremost priority.

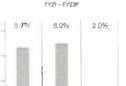

Compliance

The Board is fully committed to instil and implement industry best practices, state of the art technology and requisite skills to augment the Bank's standing as one of the largest banks in

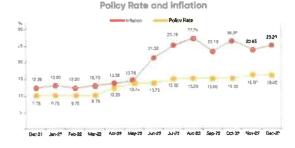

The Bank has in the past faced key compliance issues largely due to outdated systems and controls, inadequate technologies, weak processing and tack of skills. This has led to numerous regulatory actions and heavy penalties and reputational concerns.

The Enforcement Action by Regulators (NYDFS & FRB) at NBP US Operations has been under remediation. Annual Examination Report issued by Regulators in April 2022 acknowledged that the previous regulatory observations have been met and there are no new AML/CFT and sanctions related observations. As part of the de-risking, the Bank is in the process of moving USD clearing business to the correspondents.

This will be taken up under a carefully planned and structured methodology and in full compliance with all regulatory requirements.

Pakistan GDP Growth

NIP Annual Report 2022

Strategic Overview

Global Franchise

The Bank's international franchise has historically lacked strategic direction and the overall control structure is not considered sufficient to meet the ever-increasing challenges in the global marketolace. The inherent risks of value erosion from these international operations clearly outwelfth the opportunities for value creation.

Accordingly, and in view of huge operational and compliance risk, the Bank has implemented an exit strategy from various markets which shall be continued in a planned manner and completed effectively at the earliest.

A strong franchise in key global markets built around correspondent banking relationships, investments, trade linkages with Pakistan, abilities to extend quality service to overseas Pakistani disspora supported by a strong technology platform replacing weak systems, strengthening controls and placement of skilled HR shall remain the ultimate goal for the Bank. This shall be the hällmark of our future strategy for Bank's franchise in global markets.

Public Sector Entities

The Bank shall continue its support for the public sector entities however Bank will endeavour to revisit its credit underwriting strategies, strengthen assets monitoring procedures and realize loan restructuring opportunities. We shall be seeking recovery of overdue mark-up from public sector entities which is considered essential for Bank's financial soundness.

Looking Ahead

We understand the insultable Macro Economic challenges are likely to prevail in the short-term, however, we remain confident of the Bank's resilience to meet the challenges.

I trust the measures adopted by the Government will drive the country's economic revival and help us succeed in positioning the country to achieve its full potential in the medium to long term.

As the Nation's Bank NBP remains firmly committed towards supporting the Government's national development agenda through strengthering the Agriculture. SME and the Export sectors, building capacity and encouraging the farmers and local manufacturers to meet the Macro Economic targets.

Full implementation of Treasury Single Account (TSA) will create new challenges for the Banking and Financial sector. TSA is being Implemented under a phased plan. On its completion this would result in withdrawal of Federal Government and relitted departments deposits from the banking system estimated between PKR 150 Bn to PKR 200 Bn.

NBP by virtue of its business with Government and related departments will face large deposit withdrawals. This will not cause serious liquidity issues however Bank's lending objectives will be temporarily affected. Bank has developed strategies to deal with these sensitivities and maintain liquidity and other key ratios within the acceptable limits. Bank is also working on targeting retail and institutional deposits to strengthen our market share and accordingly substitute the TSA withdrawals.

As we navigate the Bank through these challenging times, we look forward to continued support from the Government of Pakistan.

In particular, we request appointment of a fulfilme President & CEO of the Bank. This will strengthen the leadership of the Bank and bring in the necessary and key functional and operational efficiencies. We also request appointment of Directors to the vacant Board Room positions; a complete Board will further strengthen the oversight and operational support to the management.

Board shall encourage the management to expedite transformation to achieve excellence in Islamic and Digital Benking product offenings, stronger focus on Consumer, SME, s. Housing Finance for low-income groups and the Agricultural Finance segments. This shall deepen our role as the Nation's Bank, and enhance our presence in market niches which remain largely untapped.

The Board shall prioritise integrating social and environmental consciousness into the Banks overall business strategy. Strengthening Risk Management tramework. Technology Platform and proactively addressing the anomalies in HR governance shall feature prominently in our key priorities for the Bank.

My Message:

- To Our Key Partners & Regulators

I am thankful to the Federal Government for the confidence reposed in me. I am also thankful to the Governor and Officials of the State Bank of Pakistan for their guidance and support.

I wish to convey our firm resolve to ensure strong governance within the Bank: Implement a strong control and compliance structure throughout the Bank and ensure that the Bank remains a good and compliant corporate citizen.

I extend assurance to our Regulators both in Pakistan and around the world that we continue to pnorflize and build standards of Governance and operational discipline in our Bank to meet their expectations.

- To Our Staff

The Bank shall be fair, equitable and transparent in its dealings which shall all be based on the principle of meritocracy,

We are focused on resolution of legacy issues, though this may take time, however we have set our direction and would take a prioritized approach to resolve the issues.

I appreciate efforts and contribution of all staff toward the continuing success of the Bank and I firmly believe that good and robust financial results would not have been possible without teamwork and the dedicated efforts of all employees of the Bank.

Appreciation

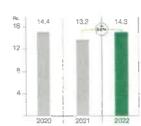

I extend my gratifude to the retiring Chairman Mr. Zubyr Soomro, the outgoing Directors and the retiring President Mr. Arti Usmani for their leadership and guidance in making the Bank strong and more resilient. The Bank's leading position, its market outreach, economic value generation and contribution to the national exchaquer is a testimony of effective management and leadership and oversight of the Chairman and the Board of Directors.

Finally, I would like to thank all our valuable customers and business partners for their continued loyalty and support.

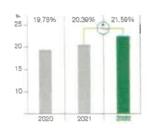

Ashraf Mahmood Wathra

February 28, 2023 Karachi.

Earnings Per Share (Rs.)

Capital Adequacy

Dear Readers,

I am honoured and deeply conscious that I am leading a Bank with a 74-year history of serving the Nation. Till the time a full time President/CEO is appointed, it is my turn to provide the Bank with the leadership to fulfil its rote and deliver the necessary value to all stakeholders. I take the opportunity to thank all concerned for their trust & confidence within the Bank to have maintained continuity as well as delivered the strong results.

In this communique. I will brief you on our operating & business context, strategic and operational progress during 2022, our financial performance and our growth strategies going forward. To reiterate, we con't want NBP to just be a larger version of other Pakistani commercial banks. Our raison d'être remains to serve the Nation as well as deliver value for our stakeholders.

Challenging Operating Context

Globally: Despite the COVID-19 pandemic fading away, global growth is projected to decelerate. The crisis facing development is intensifying as a result of supply disruptions, synchronized monetary policy tightening to contain high inflation, less favourable financial conditions, and geopolitical tensions. Latest forecasts indicate a sharp, long-lasting slowdown, with global growth declining to 2,0% in 2023 from earlier projection of 3,0% phmarily driven by geo-political tensions and the prevailing commodity price super cycle.

Pakistan Economy: Specific to Pakistan, the already precarious economic situation was exacerbated by devestating flooding that damaged infrastructure, one-third of the agricultural production (which accounts for approx, 23% of GDP and 37% of employment) and about 15% of the country's population. Recovery and reconstruction costs of large-scale flooding are expected to be 1.6 times the FY2022-23 national development budget. Overall, the country's economy is confronted with major challenges like lower forex reserves, limited foreign financial inflows, twin-deficits and inflationary pressures. As the structural adjustment programme that the country is in continues, the expectation of a slowdown in economic activity and reduction in imports in H2-FY23 poses substantial challenges for the economy due to the tightening policy. These factors have led to lowering of Pakistan's sovereign rating by major credit rating

To counter the inflationary trend, State Bank of Pakistan has stood at PKA 116.8 Bn. 19.7% up YoV. Despite a challenging continued its interest rate hike cycle by increasing the policy rate from 7.5% at the beginning of 2022 to 16.0% by the end of 2022, and further to 17.0%. The consequent impact of rising and high nominal interest rates will in turn have to be dealt with by not just the financial sector but will have its own impact on the real sector of the economy as we enter 2023.

Banking Industry

Despite challenging economic conditions, the banking industry remained resillent, elbeit with some rising risk concerns which emanate from Pakistan's macroeconomic environment as well as the overall perception of the direction of fiscal and monetary policy. Although the rise in the average policy rate of 590 bps from 7.28% in 2021 to 13.18% in 2022 had a positive impact on the banking industry's revenues, it has also raised concerns for banks with regards to potential future risks that can be faced by them going forward. The Pakistani banks carry large holdings of government securities and lending in each of these classes, the Impact of rising policy rate has different but potentially adverse effects. Such impacts will have to be absorbed by banks on the capital and therefore sufficient buffers need to exist on their balance sheet such that they can withstand any shocks.

The Bank is Profitable, Strong and Able to Absorb Shocks

The Bank has delivered yet another year of strong financial results and further strengthened its resilience to absorb shocks in uncertain times. The excellent strategic delivery and financial results are testament to the efforts & dedication demonstrated by the Bank's employees in serving the Nation. The Bank posted its highest-ever pre-tax profit of PKR 62.7 Bn, 18.7% up YoY. With a 40% YoY growth in interest bearing assets coupled with the beneficial impact of interest rate increases, the Bank's generated gross interest income of PKR 503.3 Bn i.e. 117% up Yoy, in the rising interest rate environment, the Bank paid PKR 386.5 Bn in profit to the providers of interest begring funds that averaged PKR 3.871.9 Bn. Pursuant to our effective deposit mobilisation strategy, average non-interest bearing deposits increased by PKR 60 Bn to PKR 571.2 Bn and saved deposit. cost by approx. PKR 5.0 Bn. Consequently, net interest income

business environment and lower trade activity, the Bank mainteined its non-fund income stream that amounted to PKR 36.7 Bn (2021:PKR 36.9 Bn).

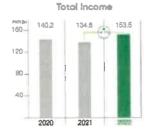

Pursuant to our prudent strategy to strengthen the capital base of the Bank in the challenging times, a provision of PKR 12.6 Bn has been charged. This is particularly important in the backdrop that IFRS 9 that stands implemented effective January 01, 2023. The Bank now holds PKR 190.7 Bn in specific provisions (translating into a high coverage ratio at 93%) and further PKR 12.5 Bn in general provisions.

It is a testament to the strength of the Bank that even with a highly prudent approach to provisioning, the Bank has reported its highest ever pre-tax profit amounting to PKR 62.7 8n fi.e. 18.7% up YoY) and a profit after tax of PKR 30.4 Bn (i.e. 8.6% up YoY). It is important to highlight that the applicable tax rates were raised on the banking industry in 2022 as well as there was a retrospective application of tax as well. Therefore, the total tax charge amounted to PKR 32.3 Bn at an effective tax rate of 51,5% (2021:47,0%) which has resulted in the Bank showing a lower growth in after tax profit as compared to last year.

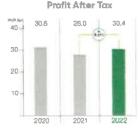

The Bank achieved PKR 5 Trillon milestone in its balance sheet that drew by 36,2% to reach PKR 5,240.4 Bg, making NBP the largest Bank in Pakistan in terms of total assets. Asset quality remains strong with no YoY increase in domestic NPLs during the year, As a conscious strategy to deliver higher after-tax profit to the Bank's shareholders, the year-end deposits stood at PKR 2,666.2 Bn (2021:PKR 3.019.2 Bn), Major share of the Bank's deposits comes. from sticky customer deposits that contribute 98.1% of the total deposits with CASA ratio at 79.4%

In summary, NBP is now the largest capitalised bank in the country (with net assets of PKR 300.8 Bn) with CAR at 21.9%. Liquidity Coverage at 147% and Net Stable Funding at 251%. This makes the Bank strong and resilient to absorb shocks in challenging times and therefore enjoys highest credit ratings of AAA/A1+ for both long term and short term respectively.

A detailed Financial Performance overview is given from Page # 115.

AGM & Supplementary in

Financial Performan

Strategic Meruew

Financial Statements

Helping the Nation Prosper

Helping the Nation prosper has been a central tenet of our purpose. Against the backgrop of delivering strong results, NBP continued to deepen its role in driving the country's economic activity in an uncertain environment. With more than 300,000 new customers this year. NBP is now serving more than 9.5 million customers, and continues to be a major financial intermediary that connects millions of ropportunities' in the country. The Bank manages PKR 2.7 trillion of deposits for 7+ million depositors and has extended PKR 1.4 trillion of loans to more than 0.5 million borrowers. With PKR 100 Bri in outstanding, our 'Advance Salary' loan is the largest single consumer finance product in Pakistan meeting the financial needs of more than 270K+ families. We are also one of the largest providers of funding to large corporations (PKR 632 Bn) as well as to the agricultural/farm credit (PKR 74 Bn) serving more than 128 thousand farmers across the country. This year SBP nominated NBP as the 'Champion Bank' for AJK region to promote agriculture financing in the sector. The Bank was recognised for its CSR initiatives in the area of women and tax management for NBP in future. ernoowerment and differently abled persons.

This year NBP contributed PKR 32.3 En to the national exchequer in taxes as well as enabled the Government to collect and pay PKR 8.4 Trillion, The Bank also disbursed loans of PKR 6.3 Bn as low cost housing finance under Mera Ghar. Housing initiative to 2,000 families, and PKR 8.1 Bn in the Prime Minister Youth Business Loan scheme to 15,000+ young entregreneurs.

We remained fully committed to resolving issues raised by our stakeholders through Pakistan Citizen Portol and the President NBP Portal through 23,932 complaints of which 23,706 stand addressed. Seven (07) Khulli-Kachehri were conducted in 2022. by my predecessor and myself to engage with the general public through telephone calls and resolve any Issues raised.

Our Transformation Journey

The Bank embarked on a transformational strategy in early 2019 to be able to capitalise on its leading position and become a financial institution with whom the customers "want to deal with" rather than to "have to deal with"!

We have made steady progress in addressing our key institutional challenges in areas like Risk. Compliance & Controls Technology, HR, etc. While visible progress has been made, we stay determined to fix these issues, come what may - it is an

Risk, Control and Compliance

As the Bank's balance-sheet growth grows, we continue to focus on enhancing our risk & credit architecture. The transformation has led to establishing the roles and responsibilities of 'three lines of detence' for each material risk the Bank in line with international best practices. While these measures will help in the future, our carry-forward NPLs in the private and public segment will require special attention in the coming years and can be the source of future profitability for the Bank. Historically, the Bank has been carrying on its books NPLs that are significantly higher than its peers and industry average (although fully provided). With the implementation of IFRS-9, addressing NPLs is necessary to improve better risk

- Accelerate Technology & Digital Transformation

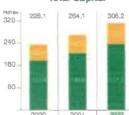

We have embarked on a technology upgrade journey as an initial step to evolve as a modern financial institution. With the upgrade of our Core Banking Application underway, there is a simultaneous thrust to improve the digital application and the ATM network. The Bank's core strategy remains focused on financial inclusion and a major component of this strategy is digitalisation enabling access to financial services to all Pakistanis - ramers, entrepreneurs (particularly women) running SME/cortage industries; beneficiaries of G2P subsidy schemes. & welfare programs, etc. Our commodity subsidy platform is delivering support to more than two million beneficiaries for procery purchases at 30K+ Kiryana stores by smoothly transferring food subsidies. This year the Bank also achieved a 60% YoY growth in debit card activation. This year the Bank processed seventy-seven million digital transactions of just above PKR one trillion value. The launch of the E-stamoing initiative in collaboration with the Governments of Sinch and KPK was yet another achievement facilitating G2P payment.

Value Distribution - 2022

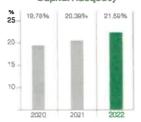

Providers of Funds IIII Employees Bigging & Rustains billion

Total Capital

Capital Adequacy

- Human Caoltal

NBP is continuously working on improving its overall working environment to attract better human capital. In this regard, the continuous process of policy review and efforts to become a more inclusive employer was achieved through team building, 2023 and Beyond training & development and maintaining industrial harmony. Effective steps were taken to promote diversity in line with the 'Banking on Equality Policy' of the SBP and our incoming batch of Trainee Officers composed of 62% women and 15% are from minorities/under-represented applicants. In recognition of such efforts, NBP has been recognized at the Global Diversity, Equity and Inclusion Benchmarks Awards-2023 by winning a total of four awards

- International Franchise

Given the historically sub-optimal performance of many of our overseas operations, we are following a prudent strategy to consolidate and scale back our international tootorint. Going forward, our strategy is selective growth with focus on trade. remittances and FIs business. In line with the plan approved by the Board, we are closing our Central Asian operations and will continuously remain focused reviewing all locations on the basis of profitability, sustainability and potential market prospects as a basis to decide on exit or stay. Also, we have rejuvenated our efforts on the recovery of overseas NPL portfolio. For international franchise, we continue to remain committed to ensure compliance with all the applicable laws, rules. regulations, and codes in the spirit of good governance.

integrating Sustainability

As the Nation's bank, NBP has always been conscious of ensuring that its customers are in compliance with applicable environmental standards, Going forward, given the climatic risks in Pakistan (as evidenced by the recent floods) the Bank is further strengthening its processes to comply with the ESRM Implementation Manual (launched by the SBP) and the UN SDGs.

NBP endorses the objectives of the ESRM for reporting on environmental and social related measures of the banks. While a report on our CSR initiatives during 2022 is given elsewhere in this Annual Report, going forward we have clear plans to adopt Global Reporting Initiatives for sustainability reporting.

Islamic Bankina

To promote riba free Islamic banking, which I believe is the true 'sustainable banking' synonym, this year we opened 50 Islamic banking windows in our conventional branches. We leunched new deposit and loan products specially focused to promote financial inclusion of women. Our total Islamic banking assets increased by 8,3% and reached PKR 109,3 Bn as we are managing PKR 77.1 billion of customers' deposits. Home Remittance transactions processed by our Islamic banking cluster stood at 322,690 for the year. Whereas debit cards activation increased to 54.692 as of December-2022, showing a President/CEO (A)

25.5% growth, YoY. Over 4,800 digital banking users were activated during the year, taking the total users to 11,133. i.e. 75% up YoY

Being the country's leading Bank, we are cognizant of the short-term challenges prevailing in our operating environment. We understand effective measures being taken by the government and the State Bank of Pakistan will mitigate the risks and lead to improvement of the country's external position. in the medium term. As a systemically important bank, we are determined to play our National role by supporting the Government's efforts for a robust economic recovery in the country, white also maintaining a strong & resilient balance sheet to deliver sustainable performance to our shareholders. Operating conditions remain difficult but policy responses will

in 2023, we will continue to enhance our digital transformation for offering innovative solutions through seamless delivery channels. We will also prioritise our Inclusive Development programme with focus on priority sectors including Islamic, Agriculture, SME, Women, CSR and G2P initiatives. Focus will also be placed on empowering the country's vouth and emerging entrepreneurs through providing access to affordable finance, thereby fuelling economic activity across the country.

As our sustainability manifesto continues to evolve and mature. we have initiated plans to proactively integrate the ESG factors. across our business verticals and key processes thereby contributing to sustainable development while strengthening the resilience of our business.

Acknowledgements

As we look towards 2023, I would like to take this opportunity to thank our outgoing Directors in 2022 as well as Mr. Arlf Usmani for their services. I am especially thankful to three Directors (Mr. Asif Jooma, Mr. Farid Malik and Mr. Ahsan Chughtal) who have continued as Board members through 2022 for their input and support, I would also like to mark my appreciation for the executive team and employees of the Bank who have delivered these results. I also thank the Ministry of Finance and the Governor and the staff of SBP for their continuous guidance. I would like to thank all our valuable customers and all other stakeholders who have placed their trust in the Bank.

Finally, I would like to welcome our newly appointed Chairman Mr. Ashraf Mahmood Wathra and other Directors on the Board. We look forward to navigating the Bank against all headwinds. under their stewardship and able guidance on its journey to transform itself into a modern and efficient company well equipped to deliver against its Vision.

Rehmat All Hasnie

Financial Statements

Directors' Report to the Members

Dear Shareholders

Financial Performance

The Board of Directors are pleased to present the Annual Report of National Bank of Pakistan "NBP" "the Bank" together with the audited financial statements for the year-ended December 31, 2022 and the independent Auditors' Report thereon. Proper books of account have been maintained and these financial statements fairly present its state of affairs, the result of its operations, cash flows and changes in equity during the year.

Operating Context

The global economy continues to tace slowing growth, high inflationary pressures and geo-political tensions which, it seems will persist in the near-to-short term, in most countries (especially the developed economies), central banks are responding aggressively to manage the rising inflationary pressures with a tight monetary stance and the consequence of exchange rate pressures on most emerging market currencies. Consequently, most countries are tacing a multi-year slow growth trend in which rising debt burdens and weak investment are being observed.

Pakistan's economy is also beset by multidimensional challenges due to long-term macro imbalances and policy uncertainties. In early FY23, Pakistan's economy had just recovered from the COVID-19 pandemic and was undergoing structural adjustments. Supported by accommodative macroeconomic policies, the GDP grew by 6.0% in FY22. However, strong domestic demand, coupled with low productivity growth, high world commodity prices, and the global economic slowdown has exacerbated the external imbalances. To stabilize the economy, the Government began implementing a range of corrective policy measures to constrain aggregate demand, including a contractionary budget, increase in the local energy prices and a free floating exchange rate. As a result of these stabilization measures. growth is expected to slowdown, the exchange rate to stabilize and appropriate macroeconomic space would be created to adjust the size of the public debt, while the country's foreign exchange reserves were expected to gradually rise.

However, the economy suffered a setback due to catastrophic floods which have left nearly 33 million people devastated in the country and severely raised the economy's requirement of tunding (domestic and foreign) to cope with the relief and rehabilitation of the flood affected as well the adverse impact on the domestic economy. The Government faces difficulty in continuing its social protection programs for these relief & rehabilitation efforts while maintaining progress towards achieving macroeconomic stabilization that was needed on its own merits. Based on currently available information. GDP growth could fail to around 2% in FY23, compared to the previous forecast of 3-496 before the floods, Meanwhile, higher food prices have raised the headline inflation around 25% YoY, somewhat above the pre-flood projection of 18-20%, in the prevailing inflationary environment, the State Bank of Pakistan has increased the policy rate from 9.75% at the beginning of 2022 to currently 17.0%. SBP has projected Large Scale Manufacturing to further slow down due to supply constraints and production cuts.

While removal of Pakistan from the FATF grey list was a positive development, the current account deficit, the external sector remains under stress due to delay in realization of official financial inflows and debt repayments. The Government is taking effective policy measures to address domestic and external imbalances. Key priorities include strengthening the fiscal position, continuing social protection to the poor, allowing free floating exchange rate and shifting from general subsides (especially in terms of energy pricing) to a regime where subsidies are targeted. The timely implementation of these macro measures along with the revival of the IMF's Extended Fund Facility should resume the flow of multilateral support which is critical for Pakistan to successfully regain macroeconomic stability and advance its sustainable development agenda.

Performance and Outlook of the Banking Sector

Pakistan's banking sector has performed well and remained resilient during 2022. Screads have improved on the back of higher average policy rate. However, continuity of the stress in the macroeconomic environment may have adverse implications on asset quality and overall banking industry's performance in 2023. Performance may also be affected by certain policy decisions like incremental tax regime (with particular reference to Advance-to-Deposit Ratio based tax) and the implementation of the Treesury Single Account, These fiscal measures can push the banks either to follow aggressive lending strategies, or to shed their deposits to avoid higher tax

In the meanwhile, as per the SBP directives, IFRS 9 stands implemented effective January 01, 2023 which will change the computation of credit cost for banks - based on expected losses, resulting in, (i) a one-time provision on existing assets. routed through Equity and (II) recurring provisions cost on P&L depending on each bank's asset book quality, and reclassification of certain investment. Also, it will lead to reclassification of certain investments with related income routed through 'Other Comprehensive Income! Instead of the Profit & Loss Account, However, no major impact is expected on capital adequacy of the banks, as SBP has allowed banks to opt for a 'transitional arrangement' staggering the impact over 5 years.

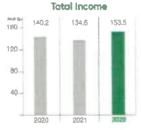

However, effective internal controls, customer confidence and robust regulatory monitoring by the SBP makes the Pakistan banking industry agile and resilient enough to agiust to changing regulatory requirements and emerging economic & regulatory environment.

NBP's Strong Financial Delivery in 2022

The following financial discussion and analysis is based on statutory information unless otherwise stated. Despite the continued challenging environment, the Bank has delivered strong financial results for the year ended December 31, 2022. For the year under review, NBP has recorded after-tax profit of PKR 30.4 9n.

Profitability Profitability						
93 n	Keylines	2000	3021	Hetter	(With the	
1	NI	116.8	97.8	192	19,7% △

10	EPS/Rs)	14.29	(3.18	2.13	88%a	

In the backdrop of higher average policy rates coupled with a major volumetric growth in interest bearing assets, the Bank generated a gross mark-up/interest income of PKR 503.3 Bn which is more than double the PKR 231.9 Bn of pnor year. Likewise, interest/mark-up expense amounted to PKR 386.5 Bn. of which PKR 209.6 Bn or 54.2% was paid to the depositors. Consequently, net interest/mark-up income "Nil" closed at PKR 118.8 Bn which is 19.7% higher, YoY, Despite a lacklustre trade & business activity during the year, the Bank succeeded in maintaining its non-mark-up/interest earning "NFI" stream that closed at PKR 36.7 Bn (2021; PKR 36.9 Bn) Accordingly, total revenue of the Bank closed 14.1% high YoY at PKR 153.5 Bn (2021: PKR 134.6 Bn).

Operating & other expenses for the year amounted to PKR 78.2 Bn depicting a YoY increase 30.3%. HR costs that constitute around 62,5% of the total operating expenses, amounted to PKR 48.8 Bn i.e. 31.8% up against PKR 37.0 Bn in 2021, Pertinent to mention this YoY increase in HR costs is mainly due

to the fact that the year 2021 cost was on a lower side as compared to 2020 due to reversals of certain accruals created in the prior years which were no longer required. Excluding the impact of such reversals, the cumulative average growth in staff cost stood 11%.

The Bank invests appropriate funds in the uplift and maintenance of its business premises, providing a secure & healthy work environment to its workforce and customers. This year we spent a sum of PKR 1.1 Bn on repair and maintenance of our business premises. Overall property-related expenses amounted to PKR 10.7 Br., which is 26.7% more than the prior year. Since Information Technology is pivotal for the Bank to achieve its strategic goals, we continue to invest in upgrading our core banking application, systems, and applications architecture. In 2022, we spent PKR 2.0 Bn on software maintenance and PKR 0.8 'Bn on network enhancement, in line with our prudent strategy to buttress the Bank's balance sheet against possible stress, PKR 12.6 Bn provisions have been taken, of which PKR 8.1 Bn are equinst advances (mostly being general provisions in view of the credit risks associated with certain sectoral pressures which are becoming evident) and PKP 3.8 Bn against investments. Consequently, profit before tax amounted to PKR 62.7 Bn which is 18.7% higher YoY.

With the recent changes in taxation laws, the effective tax rate stood at 51.5% (2021:47.0%) and amounted to PKR 32.3 Bn. White the banking industry is already subject to a super tax charge of 10% with incremental 4% statutory tax rate, this additional tax has impacted after-tax profitability of the banks lincluding NBP). Furthermore, the Finance Act-2022 imposed 10% additional tax on banks if their Advances to Deposit Ratio falls below 50%; and 16% if the ADR goes below 40%. The Bank has also recognized a prior tax charge of PKR 3.8 Bn due to the retrospective applicability of additional tax on income from Govt, securities due to ADR below 50%.

Financial Performance

significantly lowers.

(PKR (Mn)

172,811.7

Accordingly, the Bank's after-tax profit closed at PKR 30.4 Bn which is 8.6% higher than PKR 28.0 Bn of previous year (in which the applicable tax rates and charges on banks were

The Bank's end of year total assets closed at PKR 5,240.4 Bn which is a massive 38,2% Increase from PKR 3,846,7 Bn at the end of 2022. Capital & reserve closed at PKR 300.8 Bn i.e. PKR 14.6 Bn or 5,1% up from PKR 286,2 Bn on December 31, 2021,

Balance Sheet Growth

Key Item	5055	2031	Gizwih
Investments (net)	3.477.4	1.636.2	79.4% a
Advances (net	1,230,5	11124	10.5% A
Total Assets	5.240.4	3,845.7	38,2% A
Deposits	2,866,2	3.019.2	711.7961 9
Borrowings	1.940.5	312.9	520.1% a
Net Assets	300.8	286.2	5,196 ▲
Break-up Value Per Share	141.4	134,5	51% 4
Islamic Banking Total Assets	109.3	100.9	8.3% 4

Gross loans & advances stood at PKR 1,438.6 Bn depicting a modest YoY increase of 10.2% or PKR 133.4 Bn; whereas, net advances stood at PKR 1.230.5 Bn. Growth in advances was achieved in most of our products including corporate, commodity, agriculture and Islamic. Consequently, the advance-to-deposit ratio improved to 54.0% at the end of 2022 as compared to 43.2% at the end of 2021, Non-performing loans recorded a small increase of 3.7% and amounted to PKR 205,3 Bn (2021; PKR 197,9 Bn), With PKR 190,7 Bn of specific provisions held, NPL coverage ratio stood high at 93%.

The Bank's investments (at cost) amounted to PKR 3,509.0 Bn. (2021:PKR 1.924.2 Bn) with a carrying value of PKR 3.477.4 Bn #2021:PKR 1,938.2 Bn). Pursuant to an effective yield/interest rate risk and liquidity management strategy, the Bank is maintaining a diversified investment portfolio across zero risk weighted GoP instruments, high dividend yielding equities and other interest-bearing financial assets with interest sensitive maturity pattern

As of December 31, 2022, total deposits with the Bank amounted to PKR 2,666.2 Bn as compared to PKR 3,019.2 billion at the end of 2021. This reduction in deposits is based on a focussed strategy to reduce the ADR based tax imposition so as to deliver a higher after-tax profit to our shareholders. Major share of the Bank's funding comes from sticky customer deposits that contribute 98.1% of the total deposits. With current deposits amounting to PKR 1,310.2 Bn or 49.1% of the total deposits, the Bank maintains a strong liquidity profile. The Bank maintained its CASA ratto high at 79.4%, Detailed coverage of the financial performance and other organizational development is also given elsewhere in this Annual Report. The Bank has enough resources to meet all its financial obligations and hasn't defaulted in payment of any debt or other financial obligation.

Appropriation of Profit

The Board deliberated at length whether or not cash dividend should be recommended. However, given the potential impact of pension and other contingencies, despite some positive signals, there remain causes for concern. Accordingly, it is considered prudent to retain the profits. Thus, the Board does not recommend any dividend for the year 2022.

Profit for the year ended December 31, 2022 after carry forward of accumulated profit of 2021 is proposed to be appropriated as follows:

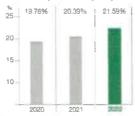

Profit after tax for the year ended December 31, 2022	30,410 3
Unappropriated profit brought forward	140,073.8
Other comprehensive income - net of tax.	(3,129,1)
Transfer from surplus on revaluation of fixed assets-net of tax	197.7
Transfer from general loan loss reserve	8,000.0
	145,142.4
Profit evailable for appropriations	175,562.7
Appropriation;	
Transmitto Statutory Reserve	(3,041.0)

· Capital Adequacy & Strength

Un-appropriated profit parried forward

The Bank's financial soundness continues to improve significantly annually. While Common Equity Tier 1 (CET1) Capital ratio stood at 16,30% (2021:15,42%), the Total Capital Ratio stood at 21,59% (2021:20,39%). The Bank's Leverage ratio was 3,08% at the end of 2022 (2021;3,47%), The Bank's liquidity coverage and net stable funding ratios also improved to 147% (2021:184%) and 251% (2021:278%) respectively against their regulatory requirement of 100%

Capital Adequacy

Credit Ratinas

NBP is rated as 'AAA' by both the recognised credit rating agencies in Pakistan, In June 2022, M/s VIS Gredit Rating Company re-affirmed the Bank's standatione credit rating as "AAA", the highest credit rating awarded by the company for a bank in Pakistan, Similarty, M/s PACRA Credit Rating Company also assigned the Bank long-term entity rating as 'AAA' (Triple AAA) and short-term credit rating as 'A1+' (A-one Plus).

Principal Activities

Principal activities of NBP during the year remained same as in prior year and included general banking services, credit, ATM and debit cards facilities, investment banking advisory, treasury and capital markets, housing and general finance, transaction banking, cash management, digital banking, international trade & remittances, etc. The Bank's subsidiaries offer financial services to their customers including currency exchange. modaraba, fund management and securities brokerage

Governance & Stewardship by the Board

The Board remained tocused on delivering its role of stewardship through providing effective leadership and strategic insight. As an integral part of the country's financial ecosystem, we are cognizant of our duties as a corporate citizen to act in a manner that benefits the Nation at large. A detailed overview of the functioning of the Board is given in the Corporate Governance section of this Report. Also a statement has been separately made regarding Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019. For better corporate governance, the Board forms sub-committees, currently including:

- i. Board Audit Committee
- II. Board Risk & Compliance Committee
- III. Board HR & Remunerations Committee
- iv. Board Technology & Digitalization Committee
- v. Board Inclusive Development Committee

Changes in the Board of Directors

Details of the changes in the Board of Directors during the year given under Statement of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 and the Public Sector Companies (Corporate Governance) Rules, 2013, is included in this Annual Report.

Meetings of the BoD and BoD Committees Held during 2022

Details of the meetings of the Board and the Board Committees held during the year are included in this Annual Report.

Remuneration to the Directors

Remuneration Policy for the non-executive independent Directors for attending the Board and Board Committee meetings was approved by the shareholders in their general meeting held on July 27, 2020. The Policy is compliant with the applicable laws including NBP's ove-laws, the Banks' (Nationalisation) Act 1974, and instructions of the State Bank of Pakistan, in terms of this Policy, the Board shall, from time to time, determine and approve such level of remuneration for the members of the Board, for attending meetings of the Board or

meetings of the Committees thereof, as may be within the limits. for such remuneration as prescribed by the SBP from time to time and determined to be an adequate measure of remuneration for the performance of relevant duties by such members. In terms of the policy, the Board shall also ensure that such remuneration is not determined in a manner that may undermine the Independence of the Board or Committee members. The details of compensation paid to the Directors in 2022 are disclosed in Note 41 to the unconsolidated financial statements.

The Bank You Trust

Proposed Dividend for The Year Ended December 31, 2021

As explained in note 48 of the annual audited unconsolidated financial statements of the Bank for the year ended December 31, 2021, the recommended cash dividend of Re.1 per share which amounted to Rs. 2,128 million, was not approved in the annual general meeting held on March 30, 2022

Material changes subsequent to the Balance

No material event has occurred subsequent to the Balance Sheet date that requires adjustments to the enclosed financial statements.

Contribution in SBP-led initiatives

In pursuit of its Vision to enable inclusive development, NBP has been actively supporting the Government and SBP-led initiatives for increasing financial inclusion and has extended financings under various refinance schemes and initiatives.

Impact of the Government Policies on the Bank Performance

Certain policies of the Government, while these create challenges as well as opportunities for the Bank have a considerable impact on its performance. Key relevant policies include, e.g. mandatory participation in subsidised lending schemes, higher tax rates in relation to ADR, deposit protection premium, commission/fee income on apvernment treasury business, and implementation of the treasury single account. Also, the Bank is a major lender to certain public sector companies which have been unable to meet their debt obligations to the Bank in a timely manner or in some cases are unable to service their debt at all. This causes a significant drap on the Bank's income. However, the Bank remains committed to fulfilling its role as a national institution and supporting the government and its initiatives in a manner that it also delivers profitability to its other shareholders.

Major Developments During the Year

Major progress was made during the year in the area of business & product development, market outreach, IT systems & infrastructure, human capital management, etc. Such development initiatives and their outcomes are discussed under respective sections elsewhere in this annual report.

Strategic Overview

AGM & Supplementary Info.

Principal Risks & Uncertainties Facing the Bank

By the very nature of its business model, the Bank is exposed to certain principal risks. As part of its oversight, the Board ensures that adequate policies and risk management frameworks are in place to recognize all significant/material risks to which the Bank is or may be exposed to and that adequate resources and strategies have been deployed to mitigate such risks. The Bank is continuously reviewing its credit portfollo, to identify accounts and industries susceptible to higher risk, in these challenging times. Further, with respect to information security risk management arising as a result of Covid-19 and recent incident of cyber-attack on NBP servers, the Bank took appropriate actions to respond & monitor the evolving cybersecunty risks. Key risks to which the Bank is or may be exposed to include (I) Credit Risk; (ii) Treasury & Capital Risk: (iii) Market Risk: (iv) Operational Risk and (v) Cybersecurity Risk. With increasing magnitude of floods and its impact on the apricultural sector. NBP's exposure to environmental risk is also becoming considerable because of its portfolio exposure to both carbon transition and physical climate risks as the largest and a most-diversified bank in Pakistan. A detailed indication of the principal risks and uncertainties as well as the future prospects is discussed in note 47 to the financial statements.

Governance & Risk

Progressing with the Board's HR strategy, the Bank has continued to induct talent at senior levels. Also, the outdated Staff Service Rules (1973) have been repealed pursuant to the approval of the Federal Cabinet on April 01, 2021 and replaced by the Staff Service Bules-2021 which are more in consonance with the contemporary HR practices and procedures. This will set the foundation for promoting a culture of accountability & meritocracy in the Bank. This Board acknowledges and appreciates the support of the Federal Government in this regard.

The Bank remains committed to ensure compliance with all the applicable laws, rules, regulations, and codes in the spirit of good governance, and recognises the need to continually improve its compliance & control capacity within its domestic as well as overseas network. A major revamping of the network structure has been implemented in 2021 to strengthen the control & compliance. Also, significant funds have been invested in acquiring new rechnological platforms for effective internal controls, Anti Money Laundering/Know Your Customers, data accuracy & authenticity and generating quality MIS for efficient decision making.

Compfiance & Risk Matters in the New York Branch

The Bank continues to remain committed to ensure compliance with all the applicable laws, rules, regulations, and codes in the spirit of good governance. To this end, the Board continued to effectively challenge management to ensure strategic directions to investments throughout the Bank's operations in new technological platforms for effective AML/CFT/CPF controls, data accuracy and authenticity, internal controls, etc. were well-throughout. As widely reported and disclosed in previous reporting periods, in February 2022, the Bank entered into consent orders with The Federal Reserve Bank of New York, and the New York State Department of Financial Services. (NYDFS), the US regulators of NBP's New York branch. These orders included two civil money penalties totaling USD 55.4 Mn. (PKR 9.8 Bn) that focused on historical weaknesses in the Compliance Program that persisted from 2016 and beyond, which were paid within the deadline. It is important to note that the US Regulators made no findings of improper transactions or wilful misconduct. Since then, substantial improvements have been made to comply with the orders and to the branch's controls. Going forward, the Board remains fully committed to satisfying the regulators' expectations.

Ongoing Investigation by the FIA

In July, 2021, the Federal Investigation Agency initiated an enquiry in the matter of M/s Hascol Petroleum's 'HPL' banking arrangements with the NBP as well as several private and other public sector banks. On January 21, 2022, several serving/former employees of the Bank were incriminated under various charges. At NBP, credit decisions were based on a set of published audited financial statements of HPL, and were made as per the applicable policies of the Bank and SBP regulations. NBP extended its full cooperation with the FIA on this investigation and has made available all relevant records required by the FIA. N8P's own stance on this matter was documented in submissions made to the State Bank of Pakistan and also to the FIA, Subsequently, the FIA cleared several of the Bank's serving employees on the grounds that 'no element of wrongdoing or illegal gratification was found on their part', it is pertinent to mention that HPL has acknowledged its indebtedness to NBP for the full amount of outstanding loans and the same reflected in the books of accounts of the

IT Network & System Security

Subsequent to a major cyberattack on October 30th, 2021, that impacted some of the Bank's services, major steps were taken during 2022 to strengthen the IT Network & Systems security. Expert cyber security consultants were engaged in various capacities to contain the damage and formulate an incident response posture, based on which projects procurements and implementations were planned.

Visible improvement has taken place on the major technology initiative approved by the Board in 2022 for upgradation of the Bank's Core Baking Application. As stated in our prior year's report, for 2022 and 2023, focus remains on the task of upgrading the Core Banking Application and all necessary

processes and procedures are being followed by the Bank to ensure its timely implementation. With the upgrade to the latest version, the Bank will have the latest technology, updated functionalities and performance improvements the vendor has built into the succeeding versions. The Core Banking Application upgrade will position the Bank well against its competitors to better serve its customers in today's increasingly digital environment.

Progress on Closure of Foreign Subsidiaries/ Branches

in line with our strategy on international franchises of consolidation, the NBP Board has approved closure of presence in Central Asia Operations which comprised of two overseas Subsidianes being in Almaty (Kazakhstan) and Dushanbe (falikistan) along with three oversees branches located in Baku (Azerbaijan), Bishkek (Kyrgyzstan) and Ashgabat (Turkmenistan). It also included closure of the representative office at Tashkent (Uzbekistan). Further, closure of the representative office at Toronto (Canada) and branches in Sylhet (Bangladesh). Jalalabad (Afghanistan) was also approved.

As of year-end 2022, NBP entities in Dushanbe Subsidiary (Talikistan) and Ashgabat branch (Turkmenistan) stand closed whereas closure of Baku (Azerbaijan), Bishkek (Kyrgyzstan), Almaty (Kazakhstan) is under process, Further, Bank had almady closed Jalajabad (Afghanistan) and Sylhet (Bangladesh) and 2 Rep Offices. Tashkent (Uzbekistan) and Toronto (Canada) during the year 2021. Additionally, the BoD in their meeting dated January 17, 2022 had also approved the closure of the Pavis Branch which is under process.

Contingency Regarding the Pension Case

Status of the case is the same as disclosed in Note 25.3.4.1 to the Annual Financial Statements for the year ended December 31, 2021. The Bank estimates an overall increase in pension liability, based on the independent actuarial firm report. amounted to PKR 89.7 Bn, excluding any penal interest/profit payment (if any) due to delayed payment. Further, the potential pension expense for the year 2022 onward will also increase by PKR 12.1 Bn due to an adverse decision. Based on the opinion of legal counsel, no provision for any additional pension liability has been made in these annual financial statements for the above mentioned amount as the Bank is confident about a favourable outcome on the matter. External auditors of the Bank have inserted an emphasis of matter para in their Audit

Explanation with regards to emphasis of mater in the Auditors' Report

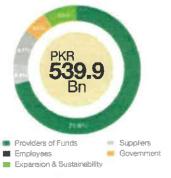

The external Auditors of the Bank have included emphasis of matter by drawing attention to Note 25.3.4.1 to the financial statements which explains the contingency in relation to litigation by retired employees of the Bank for pension benefits. As opined by legal counsels, the Bank has reasonably strong legal grounds to convince the Honourable Sugreme Court of Pakistan for reviewing its earlier judgement. Therefore, pending the decision on the review petitions, the financial impact of the subject case has not been included in the financial statements for the year ended December 31, 2022.

The Bank You Trust

Impact of the Bank's Business on the Environment

The Bank is coonizant of the environmental consequences of its operations and its obligation to safeguard against environmental vulnerabilities. While the Bank's business. operations do not have a direct impact on the environment, the Bank has taken measures for implementation of the Green Banking Initiatives under the SBP's Green Banking Guidelines to provide finance to transform the economy into a resource efficient and climate resilient one. We have embedded the consideration of social economic and environmental impacts into our business strategy and decision-making processes, in line with the Environmental & Social Risk Management Implementation Manual issued by the State Bank of Pakistan, the Board and the Management are committed to develop an Environmental and Social Management System to understand. monitor and manage its social, environmental and economic impact to enable it to contribute to society's wider goal of sustainable development. A detailed report on the activities undertaken by the Bank with regard to corporate social responsibility during the year is given separately elsewhere in this report.

- vi) Credit Rating and Awards.

Future Outlook

We anticipate 2023 to be challenging as the macroeconomic expectations are that effects of the large-scale flooding and aftershocks of the COVID-19 pandemic will be long lasting and the pace of economic recovery remains uncertain. This, coupled with the policy uncertainties, may have a significant impact on how businesses are run in 2023 and beyond. It may also have the effect on the Bank's portfolio risk profile, earning potentials and resilience.

Despite such headwinds, your Bank will continue to play its due role in supporting a robust economic recovery in the country, while also maintaining a strong & resilient behance sheet to sustainably create value for its shareholders. The Bank's business strategy will remain focused on financing and supporting underserved sectors including SME. Microfinance, Agriculture finance and the Government initiated subsidised schemes as well as Islamic financing.

Acknowledgement & Appreciation

We appreciate the continued efforts & dedication of our employees towards ensuring continuity of uninterrupted service to the Nation. We would like to acknowledge the Government of Pakistan, the State Bank of Pakistan, the SECP and other regulatory bodies for their continued support in enabling the Bank to echieve its true potential and contribute towards the socio-economic development of Pakistan.

We would also like to thank our present teammates and the retiring Chairman Mr. Zubyr Soomro and retiring President/CEO Mr. Arif Usmani for their contributions towards making the Bank resilient and capable of creating inclusive growth opportunities for the Nation.

For and on behalf of the Board of Directors

Rehmat All Hasnie President & CEO (A) Farid Malik Director

He has a vast expenence of conducting Islamic Banking Trainings.

He elso teaches AAOIF! Sharish Standards, Islamic Jurisprudence. Islamic creed and Shariah inheritance law at Alburtian institute Internahert

Shariah Board's Annual Report NBP Aitemaad - 2022

بسم الله الرحمد الرحيم

الحمد للدرب العالمين والسلاة والسلام عاد سيد الأنبياء والمرسلين وعاد أثد وصحبه اجمعين اما بعد

The Board of Directors (BoD) of National Bank of Pakistan (NBP) have entrusted the Shariah Board (SB) with the task to assess the overall Shariah compliance level and environment within NBP Aitemaed Islamic Banking. The objective of the report is to present a view about the overall Shariah compliance level and environment within NBP Alternaed Islamic Banking.

In the Capacity of Shariah Board, we have reviewed the overall Shariah compliance level and environment within the NBP Alternaed Islamic Banking as of December 31, 2022.

Shariah Board Opinion

While BoD and Executive Management are solely responsible to ensure that the operations of NBP -Aitemaad Islamic Banking are conducted in a manner that comply with Sharish principles at all times, we are required to submit a report on the overall Shariah compliance environment of NBP - Alternayd Islamic Banking.

To form our opinion as expressed in this report, the Sharlah Compliance Department (SCD) of the bank carried out reviews, on test check basis, of each class of transactions, the relevant documentation and process flows. Further, we have also reviewed the reports of the internal and external Shadah audit. Based on above, we are of the view that:

1. Compliance with Directives issued by Shariah Board

NBP Aitemaad's overall environment, products, and agreements comply with the Shariah directives issued by Shariah Board.

2. Compliance with Sharlah related regulatory directives issued by State Bank of Pakistan (SBP)

The management ensures zero tolerance on Shariah non-compliance instances with regard to the SBP directives. In this context, NBP Aitemaad has an exclusive Shanah Non-Compliance key performance indicating point in the staff appraisal system.

3. Sharigh Compliance Mechanism

Alhamdulillah, NBP-Atternaad Islamic Banking already had a comprehensive Shariah Compilance Policy and extensive checklist for Shariah compliance review of the transactions.

This year, SCD developed the check list along with assessment papers for Islamic Banking Windows (IBW) based on their field functionaries' experiences. Further, SCD has also visited the customers' delivery site in compliance with Shariah Board instructions to supervise and guide the staff on execution of financing transactions.

4. Mechanism ensuring prohibited Income to Charity Account

NBP-Alternaad Islamic Banking has a well-defined Charity policy approved by NBP Shariah Board and BoD which has been revised during the year. Shariah Compliance review and Internal Shariah Audit of financing transactions were conducted. In addition, other revenue generating sources including investments and treasury transactions were also reviewed.

During the Sharlah Review of financing portfolio, no Non-Shariah compliant transaction was discovered. Therefore, there was no income was declared as charity this year, During this year, rupees Two Hundred Eighty Slx Thousand (286,000) was collected on account of late payments and deposited in the Charity account and charity amounting rupes One Hundred Fifty Thousand (150,000/-) was disbursed to Prime Minister's Flood Relief Fund 2022, Following is charity account position;

Charity Fund – 2022	Aupees in 1000
Opening Balance	64
Received from customers on account of delayed payment (2022)	286
Profit on charity saving account	3
Payments/utilization during the period	150
Closing Balance	203

5. Profit and Loss Distribution and Pool Management

NBP Alternaed Islamic Banking Pool Management Wing is staffed with adequate human resource ensuring compliance with the SBP and Shariah Board guidelines. SCD has reviewed profit and loss calculation prior to distribution among depositors on monthly basis in addition to yearly Shariah compliance review of pool management. Further, Internal Shariah audit wing also conducted Shariah Audit of pool management on quarterly basis. All these layers of control have strengthened the profit & loss distribution and pool management.

6. Staff and Customer understanding of Islamic Banking and Finance

The Bank has arranged fifty seven (57) in house training sessions on different topics of Islamic Banking's basic concepts, products and services, and customer services where seven hundred and sixty four (764) staff (including IBB staff and conventional staff designated to IBW) were trained during the year.

This year, SCD in coordination with IBW and Learning and Management Development Division (LM&DD) has developed three (03) and five (05) days online course modules for IBW staff along with final assessment for the Islamic Banking certification.

For addressing public queries related to Shariah and Islamic Banking, the Bank is managing an "ask Shariah" portal I.e. asksharlsh@nbp.com.pk. The Portal serves as a platform for staffs' on job training and guidance on their day-to-day operations and awareness of customer in the field of Islamic Banking.

7. Promotion and Awareness of Islamic Banking and Finance

SCD in coordination with AIBG operations and marketing has initiated Islamic Banking awareness sessions for the promotion of Islamic Banking for general public. In this regard, total sixteen (16) awareness sessions were organized all over country, out of which three (03) were specifically designed for women only in line with SBP's comprehensive National Financial Inclusion Strategy (NIFS), Moreover, two (02) sessions were arranged online for the vast coverage of Islamic Finance concepts among the masses.

Apart from customer awareness sessions, SCD has also started giving guest lectures on Islamic Banking and Finance in different Universities and Madaris.

8. Provision of adequate resources to Sharish Compliance Department (SCD)

SCD, in order to operate with reasonable head counts, has initiated requisition request for staff hiring. In this regard, one of the Shariah Scholar has joined in secretariat of Shariah Board, Further, two Shariah Scholars are in joining process, SCD shall anticipate the requirement of staff for SCD for the future windows operation and inform the management with the same, if any,

9. Other Developments

i. Sharish Compliance Review (SCR) of Islamic Banking Branches and Departments

The Shariah Compliance Department has conducted review of 86 deposit branches, 10 Islamic Banking Windows (IBW). treasury transactions and financing portfolio, on sample basis, during the calendar year. SCD has also reviewed the different marketing campaigns to ensure strict adherence with Sharigh Board guidelines.

li. Branch Network & Expansion

Athamdulitiah, the branch network of NBP Atternaed Islamic Banking stands at 188 dedicated Islamic banking branches and 50 IBWs, NBP has initiated the process to open more, approximately, 100 Islamic Banking Windows next year targeting the greater reach of Islamic Banking.

- . Corrective Actions on SCD, ISAW & External Shariah Audit Reports
- · Wheat Procurement by Government and payment facilitation by Aitemaad Islamic Branches
- . Sale of third-party products (bancetakeful) SOP

Recommendations

We recommend the Bank on the following matters:

- 1. The Bank has automated the liability side of the Core Banking whereas the asset side is still pending, which needs to be automated.
- 2. Bank has implemented Sharfah Compilant Staff Financing Policy (Housing Module) with limited features, we recommend to implement all remaining modules.
- 3. Bank is required to introduce a comprehensive Islamic banking training policy that must include elementary and advance level specialized training courses for all staff across the Bank.

pills meaths plain into ربانا الا تؤاففنا إذ لسينا أو افطانام ربنا ولا تمما علينا اسرا فما سملته على الفيد مد البئناج ريئا والالتحلنا مآثا مناقاتانايه ج واعف منا وقفه ونغفرتنا والغم وليجمئا والغم الند مولنا فانصرنا علب القوم الكفريك

We gray to Almighty ALLAH to provide us guidance to achere to the Shariah principles in day-to-day operations, to absolve our mistakes and for the success of Islamic banking in Pakistan.

Directors' Training Program

Trainings are arranged to acquaint Directors with the latest developments and trends in the areas of governance. management and leadership. These trainings are aimed at Increasing directors' familiarity with the Bank and financial services industry, equipping them with sufficient information and resources to facilitate educated decision-making.

In compliance with the regulatory requirements, SECP approved Director Training Programs are not only attended by the Directors but also arranged for senior executives of the Bank, particularly those nominated by the Bank on the board of its subsidiary companies, etc.

The Bank You Trust

Directors' Orientation

Directors' Orientation refers to the process of helping new Directors contribute fully, and as early as possible in their tenure, to the governing work of the Board. The objective of the orientation is to enable the Directors to:

- · Understand their roles, responsibilities and time commitment to governance work around the Board and
- · Be aware of the current goals, opportunities and challenges facing the organization.
- · Be aware of who the organisation's main stakeholders are, including clients, partners, public, as well as the staff.
- Develop an understanding of how their own background, knowledge, experience and skills will contribute to the current work of the Board, and the goals of the organisation.
- Appreciate the background, knowledge, experience and skills of other Directors.
- Gain knowledge of how the Board meetings are run, decisions are made, and what formal governing policies and practices exist; and
- Understand how the Board functions similarly or differently from other boards they have served on, or are serving on.

Appointment of Directors

Pursuant to the provisions of the Banks (Nationalization), Act, 1974 (XIX of 1974), the Directors of the Bank shall be appointed by the Federal Government for a period of three

years. Appointment of Directors has been mentioned in the Statement of Compliance with Gode of Corporate AGM & Supplementary Info.

Whistle Blowing/Speak-up Policy

Under Code of Conduct of the Bank, all employees are required to behave with integrity and honesty in their dealing and any suspected violation of law, regulation or ethical standard must be reported to the appropriate level of authority in the Bank. The Whistle Blow policy encompasses the process of submitting concerns and complaints, directed towards the Bank, by independent third parties, for the sake of ensuring transperency in Bank's affairs and wherever they found any impropriety in conducting the business of the Bank. The objective of the policy is to encourage Bank employees and all other stake holders to raise concerns in good faith, having identified or discovered any financial maloractices hitting bank profitability or wrong doing which may affect Banks reputation.

Whistle-Blowing covers reporting of incidents of misconduct, involving or affecting an organization, to enable the organization to take appropriate action. It is a window to obtain feedback on issues bordering on both corporate governance, as well as reputational risk.

Who Can Speak-Up/Blow the Whistle?

Any individual, institution and an employee of the Bank and its subsidiaries (irraspective of employment type) from Bank's local as well global operations, who has observed a reportable misconduct, shall report his / her concerns to the designated officials within the Bank. The Board of Directors and the Board Risk & Compliance Committee (BRCC) give assurance that employees, stakeholders, or any member of the public can raise legitimate concerns, without fear of reprisals, provided they are made in good faith. All staff should ensure that they take steps to disclose any wrongdoings or malpractices of which they become aware as non-action / concealment will be deemed as complicity.

Protection to a Whistle-Blower

By setting up the necessary procedures safeguarding confidentiality and offering anonymity, the interests of the whistle-blower are protected from possible harassment or victimization by those accused of misconduct. Any person who makes a disclosure or raises a concern under this Policy will be protected if the person:

- · Discloses the information in good faith.
- · Believes it to be substantially true.
- · Does not act maliciously or make false allegations, and
- · Does not seek any personal or financial gain.

Investor Information & Engagement

Being a listed Public Limited Company, NBP is determined to discharge its obligation of providing material information about its financial position & performance, its group companies, management, operations as well as its future prospects. At NBP. investor engagement is conducted through the Company Secretary office as well as by an Investor Relations 'IR' team within the finance function. The IR teem ensures that all material. developments are communicated to investors and analysts via statutory announcements through the stock exchange and holding analyst briefing. Such information is also made readily available on the Bank's website. In addition, in-person discussions are also arranged with foreign analysts and shareholders as and when required. The idea behind the Bank's investor engagement through these briefings is to give the right perspective of the business affairs of the Bank to the investors (both existing and potential) which help them in making their investment decisions.

Also, the Bank's IR team regularly participates in related events, conferences, etc. to engage with our stakeholders. Our Company Secretary office strives for timely dissemination of material information e.g. financial statements, to shareholders.

The Bank has put into place comprehensive guidelines to address their grievances for the Investors and Shareholders in compliance with the regulatory requirements as stipulated under SECP SRO # 1196(I)/2019 and S.R.O. 303 (I)/2020;

- For all shares related matters, shareholders are requested to contact the Bank's Shares Registrar with contact details available on the Bank's corporate website.
- In order to facilitate the shareholders who, intend to register a complaint, the contact details of the focal person of Shares Department are given on the Bank's corporate website for this purpose.
- · In addition, if Shareholders' grievances are not resolved by the Shares Registrar of the Bank, they may escalate their complaints to the Company Secretary of the Bank.
- If a complaint still remains unaddressed, the same can be forwarded to Securities and Exchange Commission of Pakistan (SECP); using the link of SECP website which is available on the Bank's corporate website.
- Furthermore, queries with respect to financial position & performance results of the Bank can be directed to 'Investor Relations' team, which is headed by Chief Financial Officer. at the email address investor, relations@nbp.com.pk (which is also available on corporate website as well).

Annual Corporate Briefing

The Bank held its annual corporate briefing on March 08, 2022. CEO of the Bank jointly with the CFO presented a detailed analysis of Bank's performance along with future outlook: session was followed by Q & A session.

Social and Environmental Responsibility Policy

With a Vision to be the Nation's leading bank enabling sustainable growth and inclusive development, we have embedded the consideration of social, economic and environmental impacts into our business strategy. We take our responsibilities to the society and the environment seriously, and we commit to being transparent and accountable for our impacts. In line with the Environmental & Social Risk Management Implementation Manual issued by the State Bank of Pakistan, our Board and Senior Management are committed to develop an Environmental and Social Management System to understand, monitor and manage its social, environmental and economic impact to enable it to contribute to society's wider goal of sustainable development.

Steps to Encourage Minority Shareholders **Participation**

The Bank encourages minority shareholders to participate in the AGM as well as the analyst briefing sessions, the date of which are announced through the stock exchange. These events provide an open forum for a two-way engagement with our stakeholders, particularly the minority shareholders. Participation of the minority shareholders to these events is encouraged through:

- · Notice of General Meetings is published at least 21 days before the meeting in newspapers (both English & Urdu) having nationwide circulation. Moreover, the notice is also circulated from the forum of Pakistan Stock Exchange.
- . The Bank timely updates its website with respect to all notices of general meetings.
- · Annual Report of the Bank is sent to each member of the Bank before Annual General Meeting
- · During AGM, Analyst Briefing a detailed briefing on the Bank's performance and strategies is given to the shareholders.
- The shareholders are encouraged to raise oueries and give suggestions relating to the Bank's operations.

Major Capital Expenditures

Major Capital expenditure during the year:

The total capital expenditure during 2022 was PKR 1.96 Bn for business expansion, renovation and improvement of IT Infrastructure, that mainly includes:

- PKR 162 Mn for trade innovation software implementation at Hong Kong branch.
- PKR 656 Mn for branches development.

Presence of the Chairman Audit Committee

All general meetings held during the year were attended by Board members including the Chairman of the Audit Committee. Chief Executive Officer and other senior management of the Company to address queries and clarifications sought by the shareholders.

issues Raised at Last AGM

General queries and clarifications sought by shareholders regarding the agenda points, dividend payment, financial & operational performance of the Bank were addressed to their satisfaction. Apart from the said queries, no significant issue or concern was raised.

Meetings of the Board

The Board held 15 meetings during the year, Notices / agendas of the meeting were circulated in advance, in a timely manner. Decisions made during the meetings were clearly stated in the minutes of the meetings maintained by the Company Secretary, duly circulated to all directors for endorsement and were approved in the subsequent Board meetings.

All Board meetings held during the year surpassed the minimum quorum requirements of attendance as prescribed by the applicable regulations and were also attended by the Chief Financial Officer and the Company Secretary as required.

Board Meetings Held Outside Paidstan

Despite provisions by SECP and the Bank's overseas operations, all Board meetings were held Inside Pakistan at the Bank's Head Office.

Internal Audit

The Board appoints the Chief Internal Auditor, who functionally reports to the Audit Committee and administratively to the President/CEO; whereas performance appraisal of the CIA is carried out jointly by the Chairman Audit Committee and the Chief Executive Officer. The Board ensures that Chief Internal Auditor is suitably qualified, experienced and conversant with the Bank's policies and procedures; and the Internal Audit team comprises of experts of relevant disciplines in order to cover all major heads of accounts maintained by the Bank. The Chief Internal Auditor function continuously monitors implementations of the policies and effectiveness of the internal controls framework designed by the Board.

Capital expenditures planned for next year:

The Bank has budgeted capital expenditure for the next year. This would primarily be invested in increasing our Core Banking Application and other Technology Platform upgrade, operational outreach, safequarding our existing infrastructure / relationships from growing threats on cyber security front along with normal replacements to ensure smooth operations.

Managing Conflicts of Interest

The Directors manage their personal, financial and business affairs in a manner that ensures avoldance of any conflict of interest. At an individual level, members of the Board declare conflicts of interest situations and withdraw from taking part in deliberations on/exercising influence over matters where . The Directors are well-versed with their responsibilities to conflict or the appearance of conflict of interest arises. The actions are appropriately minuted for future reference. In addition, the affiliations and transactions of Directors are regularly reviewed to ensure that there are no conflicts or relationships that might impair Directors independence.

One of the key duties that Directors owe to the Bank is the duty to avoid conflicts of interest. This includes not placing one's self in a position where the Director's personal interest could possibly conflict with their duty to the Bank. Conflicts may arise in several situations. Typical scenarios are:

- · Where the Directors have a direct or indirect material interest In a transaction that the Bank enters into:
- Where the Directors hold positions or offices, or possess property that may result in conflicting duties; and

- Where the Directors stand to benefit from information received by them, or opportunities made available to them in their capacity as Directors or officers.
- act in the pest interests of the Bank and investors, and to retrain from any conduct that may be considered adverse or contrary to the interests of the Bank and investors;
- The Directors are required to disclose their falong with family members") interests to the Bank before entering into any such transaction as per the manner prescribed in the applicable lews and requiations:
- The concerned Director, if any, does not participate in any deliberation, decision-making, proceeding, or investigation action by the Board of Directors in case of a conflict of
- Insider Trading is prohibited and the records of persons having access to sensitive information are maintained in an insider register.

The ultimate objective of procedures to deal with conflicts is the protection of the Bank's interest and promotion of transparency for the benefit of the shareholders.

Related Party Transactions

its daily operations to meet its business objectives, while doing so we recognize the need to maintain transparency and to fulfill our obligations towards all our stakeholders, including the shareholders, requiators, employees, etc. The Bank follows the philosophy that there must not be any conflict of interest or non-disclosure of such transactions. In this connection, the Bank has a formal documented Related Party Transactions Policy, approved by the Board of Directors. This policy governs 'transactions between the Bank and its related parties' and aims to ensure that the Bank meets its obligations under the applicable legal and regulatory requirements and applicable Financial Reporting Standards, Transactions with related parties arising in the normal course of business are carried out on an unbiased, arm's length basis, Pursuant to the regulatory requirements, all related party transactions are placed before the Board Audit Committee every quarter, for review and recommendation to the Board of Directors. The same are then placed before the full Board for consideration and approval by the Board as per the Audit Committee's recommendations. All members of the Board are required to disclose their interests held in their individual capacity.

Details of all related party transactions both affecting balance sheet and profit & lose account have been adequately disclosed under note 45 of the unconsolidated and note 46 of the consolidated financial statements along with transactions with governament related parties.

Adoption and Statement of Adherence with the International Integrated <IR> Reporting Framework

The International Integrated Reporting <IR> Framework establish guiding principles and overall content of an integrated report. An integrated report aims to provide insight about the resources available to an entity collectively referred to as "the CAPITAL," and categorized as financial, manufactured, intellectual, human, social and relationship, and natural capital An integrated Report also seeks to explain how the organization interacts with the external environment and the CAPITALS to create, preserve or erode value over the short, medium and long term. It also supports integrated thinking, decision-making and actions that focus on the creation of value over the short. medium and long tems.

The Bank may enter into transactions with its related parties in Integrated framework is still a voluntary practice in its early stages. As of August 2022, the International Accounting Standards Board 'IASSB' and the International Sustainability Standards Board 'ISSB' actively encouraged the continued adoption and use of the Integrated Reporting Framework and the Integrated Thinking Principles underpinning It.

The Bank You Trust

Enterprise Resource Planning

Rollout and Integration of ERP

NBP has implemented an efficient Enteronse Resource Planning (ERP) software to manage and integrate the functions of its core business processes, such as finance and human resources, into a single system. The ERP software is designed to streamline operations, improve efficiency, and provide a centralized and unified approach to managing key functions.

Effective Implementation & Updation

The implementation of the ERP software has been fully supported by senior management, who recognizes the importance of technology in the bank's operations. The management has provided the necessary resources, including funding and personnel, to ensure the effective implementation and continuous updating of the EAP system

User Training & Orientation

National Bank of Pakistan provides comprehensive training to its employees, to ensure that all users are able to effectively utilize the enterprise resource planning software. The training covers all aspects of the software, including its features. functions, and best practices for its use. This training helps to ensure that users are able to make the most of the system and provides a smooth transition to the new technology.

Risk Management & System Security

NBP has a robust risk management process in place to manage and control risk factors on ERP projects. This includes regular risk assessments, regular reviews of the systems, and the implementation of control measures to mitigate potential risks. The bank's incident response plan is also in place to manage any potential cyber threats to the ERP system.

In conclusion, the ERP software at NBP is designed to manage and integrate key business processes, such as finance and human resources, into a single system. The implementation of the ERP software has been fully supported by senior management, and comprehensive user training is provided to ensure its effective use.

Business Continuity Plan

Business Continuity Planning" is becoming more and more any financial and reputational loss, non-availability of basic important in today's world as organizations perficularly banks banking services/systems for customers besides providing & financial institutions are facing multiple internal as well as - safety to personnel and other relevant stakeholders before. external threats. - 6. The Board has set up an effective internal audit function for both local and overseas operations. With regards to NBP-USA, Internal audit function of the Bank is outsourced to an independent professional firm. In addition, audit function in Germany is also outsourced. Both these audit firms are considered suitably qualified, expenenced and conversant with the policies and procedures of the Bank and all applicable laws and regulations.
- 7. The statutory auditors of the Bank have confirmed that they have been given a satisfactory rating under the Quality Control Review programme of the institute of Chartered Accountants of Pakistan and registered with Audit Oversight Board of Pakistan, that they and all their partners are in compliance with International Federation of Accountants (IFAC) guidelines on Code of Ethics as adopted by the Institute of Chartered Accountants of Pakistan and that they and the partners of the firm involved in the audit are not a close relative (spouse, parent, dependent and non-dependent children) of the chief executive officer, chief financial officer, head of Internal audit, company secretary or directors of the Bank;
- The Statutory Auditors or the persons associated with them have not been appointed to provide other services except in accordance with the Act, these Regulations or any other regulatory requirement and the auditors have confirmed that they have observed IFAC guidelines in this regard.
- 9. We confirm that all requirements of regulations 3, 6, 7, 8, 27, 32, 33 and 36 of the Regulations have been complied with except for the following non-compliance:

i) As per regulation 7, it is mandatory that the Board shall have at least one female director when it is reconstituted after the expiry of its current term. No female director was appointed on the Board after retirement of Ms. Sadaffe Abid, whose tenure ended on April 18, 2022.

10. Explanation for non-compliance with the requirements, other than regulations 3, 6, 7, 8, 27, 32, 33 and 36 are set out below:

i) As per regulation 9(i). The Chairman and the Chief Executive Officer of a company, by whatever name called, shall not be the same person. However, the Banks (Nationalization) Act. 1974, provides an exception to the stated regulation.

As per Banks (Nationalization) Act, 1974, section 11(8), where the Federal Government has appointed a Chairman, he shall preside over the meetings of the Board, and in case a Chairman has not been appointed, then the President shall preside over the meetings of Board. In the absence of the Chairman or the President, as the case may be the directors may elect one of its members to preside over the meetings.

Since the Federal Government did not appoint a Chairman for the Board after the retirement of Mr. Zubyr Soomro, Mr. Artf Usmani presided over the meetings of the Board from April 17, 2022, till the expiry of his term i.e. May 11, 2022, After him, Mr. Rehmat Ali Hasnie, CECVPresident (Acting) presided over the meetings of the Board from May 12, 2022, till December 31, 2022,

M. EXPLANATION FOR NON-COMPLIANCE WITH THE PUBLIC SECTOR COMPANIES (CORPORATE GOVERNANCE) RULES, 2013

We confirm that all other material requirements envisaged in the Rules have been complied with except for the following, toward which reasonable progress is being made by the Bank to seek compliance by the end of next Financial Year:

S. No	Ruk-Sub Ruk-Na.	Reasons for Non-Compliance	Future course of action
1	4(1) & 4(4)	chairman of the Board remained vacant during the year. In	Subsequent to the year ended, the Federal Government vide Notification No. E1 (11) BKG-III 2017-90 dated January 18, 2023 has appointed Mr. Ashvaf Mahmood Wathra as Chairman of the Board.
2	8(1)	The performance evaluation of the members of the Board including the Chairman and the Chief Executive is required to be undertaken annually by the Government for which, the Government is required to enter into performance contract with each member of the Board at the time of his appointment. Hence the compliance to this provision is primarily attributable to the Government.	The Bank is conducting Board Evaluation in line with Regulation G-13 of Corporate Governance Regulatory Framework (CGRF) of SBP. However, a letter shall be written to the Federal Government, communicating the said non-compliance and seeking action thereupon on part of the Federal Government.

REHMAT ALJ HASNIE CEO/President (Acting) ASHRAF MAHMOOD WATHRA

Review Report to the Members

On the Statements of Compliance with the Listed Companies (Code of Corporate Governance) Regulations, 2019 and Public Sector Companies (Corporate Governance) Rules, 2013

We have reviewed the enclosed Statement of Compliance with the best practices contained in the Listed Companies (Code of Corporate Governance) Regulations, 2019 (the Regulations) and Public Sector Companies (Corporate Governance) Rules, 2013 (the Rules) (both herein referred to as 'Codes') prepared by the Board of Directors of National Bank of Pakisten (the Bank) for the year ended December 31, 2022 to comply with the requirements of regulation 36 of the Regulations and the provisions of the Rules.

The responsibility for compliance with the Codes is that of the Board of Directors of the Bank. Our responsibility is to review to the extent where such compliance can be objectively verified, whether the Statement of Compliance reflects the status of the Bank's compliance with the provisions of the Rules and report if it does not and to highlight any non-compliance with the requirements of the Codes. A review is limited primarily to inquiries of the Bank's personnel and review of various documents prepared by the Bank to comply with the Codes.

As a part of our audit of the financial statements we are required to obtain an understanding of the accounting and internal control systems sufficient to plan the audit and develop an effective audit approach. We are not required to consider whether the Board of Directors' statement on internal control covers all risks and controls or to form an opinion on the effectiveness of such internal controls, the Bank's corporate governance procedures and risks.

The Codes require the Bank to piace before the Audit Committee, and upon recommendation of the Audit Committee, place before the Board of Directors for their review and approval its related party transactions distinguishing between transactions carried out on terms equivalent to those that prevail in arms' length transactions and transactions which are not executed at arm's length price and recording proper justification for using such alternate pricing mechanism. We are only required and have ensured compliance of this requirement to the extent of the approval of the related party transactions by the Board of Directors upon recommandation of the Audit Committee. We have not carried out any procedures to determine whether the related party transactions were undertaken at arm's length price or not.

Based on our review, nothing has come to our attention which causes us to believe that the 'Statement of Compliance' does not appropriately reflect the Bank's compliance, in all material respects, with the best practices contained in the Codes as applicable to the Bank for the year ended December 31, 2022,

Further, we highlight below instances of non-compliance with the requirements of the Codes as reflected in the note / paragraph reference where these are stated in the Statement of Compliance:

	Reference	Description
}	111 (9(i))	It is mandatory that the Board shall have at least one female director. However, there was no female director holding the office of Directors after the retirement of Ms. Sadaffe Abid from the Board.
II	IV (1)	After the retirement of Mr. Zubyr Soomro as Chairman of the Board, President/CEO (A) presided over the meetings of the Board, in absence of the chairman.
iii	IV (2)	The performance evaluation of members of the Board including the Chairman and the Chief Executive shall be undertaken annually by the Government. However, no performance evaluation was undertaken of the above stated personnel.

Statement of Internal Controls

Reporting of Internal Control System

The Bank's management has established and is managing a system of internal controls as approved by the Board of Directors to achieve effective and efficient operations, while complying with applicable laws and regulations and preserving the reliability of financial reporting. The internal control system comprises of various interrelated components to gauge the overall control environment, including the availability of well-documented policies and procedures and their compliance, risk assessment, identification of risks and mitigating controls, technology breaches, information leakages, governance and management reporting

The management and the employees at all levels within the Bank are required to perform their duties as per defined guidelines. The internal control system also requires effective and efficient external and internal reporting, maintenance of proper records and processes, operational loss database. compliance with applicable laws and regulations, and internal policies with respect to the conduct of business. The Bank remains cognizant of its responsibility to continuously improve and strengthen its system of internal control on an ongoing

The Bank has completed the implementation of roadmap regarding Internal Control Over Financial Reporting ("ICFR") and the Long Form report on the assessment of the Bank's ICFR for the year 2021 was Issued by the statutory auditor in compliance with the SBP directive. Last year, the Bank engaged external consultant to assist in the scoping and diagnostic exercise for the ICFR programme with view to its ongoing environment.

The Bank's internal control system has been designed to manage rather than eliminate risk of failure to achieve objectives under a changing environment. There are inherent limitations in the effectiveness of any system, including the possibility of human error or system failure, circumvention and overriding of control. Accordingly, even an effective internal control system can only provide reasonable assurance with respect to achievement of programme objectives.

Evaluation of Internal Controls

Besides the monitoring of the implementation of internal control system at the management level, the Bank has an independent Internal Audit function namely the Audit & Inspection Group with three Area Audit & Inspection Offices that conduct audits of Branches, Regions, and Groups at the Head Office on an ongoing basis to evaluate the efficiency and effectiveness of Internal control system. In addition, an Internal Control function is established under Operations Group for testing & monitoring key controls across operations. Adequate compliance systems and processes are available to evaluate and assess the adequacy of customers' onboarding, sanctions screening and transactions monitoring.

The Bank You Trust

For the year 2022, the management continues its efforts to strengthen the internal control system of the Bank. The observations made by the external/internal auditors and regulators in their respective audits/inspections are reviewed and measures are being taken by the management (by respective groups and tracking at management level forums). Board Sub-Committees, and Board of Directors for rectification of such observations and their non-recurrence.

Based on the results achieved from reviews and audits conducted during the year, the management considers that the Bank's existing internal control system needs further improvement. This is an ongoing process and management would continuously be evaluating the efficacy of its inbuilt controls to enhance and further strengthen the overall internal control system of the Bank.

Based on the above, the Board of Directors has endorsed the management's evaluation of internal controls including ICFR in the Director's report.

Our Ethics & Code of Conduct

It is an obligation on employees of the Bank to be responsible, honest, trustworthy, conscientious and dedicated to the highest standards of ethical business practices, Our Code of Conduct reflects our commitment to meet the expectations of our stakeholders and sets the fundamental principles and rules relating to our ethics, conduct and compliance to ensure integrity. We are committed to conducting our business with honesty and integrity, and expect all our employees to maintain high standards in accordance with this Code that forms an integral part of the terms of employment of all employees.

Purpose of Code

The Code of Conduct fithe "Code") is to define the commitment that the Bank expects of its employees to know in clear terms what acts. conducts and practices are considered attical and clearly describe the appropriate behaviour that all employees are required to adopt in order to safeguard the reputation enjoyed by the Bank and its subsidiaries. both in Pakistan and abroad. It also describes, where considered necessary the omissions that would be against the Code.

Application of Code

It is an obligation on us all to be responsible, honest, trustworthy conscientious and dedicated to the highest standards of ethical business practices, Our internally developed Code of Conduct "Code" provides guidance on expected behaviour and explains the effect of decisions that are taken and describes the principles that must be followed. The Code applies to all employees of the Bank and its subsidianes. It applies equally to interns, consultents, agents and service providers who are engaged/retained by the Bank. A copy of the code is provided to all concerned, so that they know the applicable provisions and undertake to follow these in the course of their employment and/or business relationship with the Bank. The rules set out in this Code are to be applied at all times and in all places when carrying out Bank duties, be they of a professional or social nature,

Compliance with this Code

If an employee falls to comply with this Code or applicable laws, rules or regulations (including the rules and regulations of the SBP) he or she will be subject to disciplinary measures, including (with respect to employees) discharge from the Bank. Violations of this Code may also constitute violations of law and may result in civil or criminal penalties for such person, and such person's supervisors. The competent authority will determine, or designate appropriate persons to determine appropriate actions to be taken in the event of a violation of this Code. In determining what action is appropriate in a particular case, the competent authority or its designee will consider the following aspect. If appropriate, the relevant external authority would be notified.

Basic Principles of our Code

. Act with Honesty and Integrity

All our decisions and actions shall continue to be, and seen to be, driven by the utmost level of honesty, integrity and falmess by executing right things in a right way.

. Comply with the Lew

We shall continue to comply in letter and spirit with laws, rules and regulations of Pakistan and the countries where we have established our husiness

· Treat all with Respect

We shall always extend maximum respect, londness and fairness to all our customers, colleagues, applicants for employment, vendors and counterparties.

. Conflict of Interest

The sale trigger of all our decisions and actions shall be to contribute towards success of the Bank. We manage our personal. financial and business affairs in a manner that ensures avoidance. or even appearance of any conflict of interest.

· Respect the Organisation

We respect our organisation through adherence to its by-laws, rules, policies and procedures; and by remaining committed to safeguarding Assets, Reputation and Relations of the Bank.

Non-Discrimination

NBP will not tolerate discrimination in any form, or any dishonest, unethical or inappropriate behaviour. The Bank's policy is to ensure a harmonious environment with equal employment opportunity for all, regardless of age, gender, race, religion, colour, national origin and marital status and that client and prospective clients are not discriminated against on a prohibited basis.

· Safeguard the Confidentiality of Information

We shall continue to appreciate and honor the trust bestowed upon us by pur customers and counterparts in regard to their personal and business information that we possess.

· Limited Use of Confidential Information

While recognizing the need for a constant flow of information for the smooth operation of the Bank, we will not disclose confidential Information pertaining to our clients' affairs to our fellow workers within NBP unless they have a clear business need to know the information for the performance of their duties.

Avoid Conflicts of interest

As part of our employment responsibilities we act in a way that contributes to the financial success of the Bank, enhances its reputation and fosters its client relationships. This requires us to look after our own private financial interests in such a way that we do not profit improperly from our position with NBP.

. Use of NBP's Computer Systems

Utilization of NBP's computer systems provides an employee access to confidential client information based on the business/ support function(s) being performed. Employees are granted access to the various computer systems to perform their job duties. Each employee is expected to protect the access granted to him or her and to keep any associated passwords confidential at all times.

External Communications

Only designated Senior Management Officials liaison through Corporate Communications Division are responsible for NBP's relationship and communication with the press and the general

Sincerity with NBP/Management and Others

When we have knowledge of any questionable or possible illegal act or occurrence involving or affecting NBP, we have an obligation to report the act or occurrence using means made available by the Bank for such purpose.

Self-Dealing

We are not in any way to represent or exercise any authority on NBP's behalf, grant direct or Indirect credit accommodations or make credit recommendations, or act in the capacity of an account officer with respect to any type of transaction for ourselves, or members of our immediate family.

· Respect the Policies of the Organization

We are required to be aware of all policies and processes which apply to us as employees of NBP. These policies and processes are issued by the authorized officials of NBP, and modifications may be enforced from time to time.

Demonstrate Discipline and Decency

NBP expects us all to demonstrate discipline in terms of timeliness, punctuality and dress code. We should devote our full attention and energy to official duties during working hours. Employees are required to attend at work as required and not to be absent from ck dy without authorisation.

Acceptance of Gifts from Suppliers or Clients

NBP employees are prohibited from giving, seeking or accepting gifts for oneself or any other person anything of value beyond PKR 5,000/- (including services, discounts or entertainment) from clients, suppliers or anyone else in return for any business or service from. or confidential information about NBP.

. Borrowing Money from Vendors or Clients

We are not allowed to borrow money from, or lend money to any of NBP's vandors or clients. This is strictly prohibited t

Financial Pertormance

Risk Management Overview

Risk Management Group (RMG), as an Integrated group, is comprised of Enterprise Risk Management Group (ERMG), Credit Risk Management Group (CRMG), and Retail & Program Lending Group (R&PLG). The group also includes divisions such as, information Security Division (ISD) and Credit Administration Division (CAD) under the supervision of Chief Risk Officer (CRO). RMG functions as an independent group reporting directly to the President with dotted line reporting to the Board. RMG endeavours to cater all material risks that the Bank may be exposed to.

Risk Governance and Oversight Structure

The Bank's risk management governance and oversight structure involves understanding drivers, types, and impact of risks,

Drivers of Risks Factors that cause a risk to exist

Types of Risks Categories by which risks manifest themselves

Impacts of Risks Consequences of risks. both quantitative and qualitative

The Board takes the responsibility to ensure active oversight for the implementation of risk related policies, frameworks, and procedure manuals to prevent any significant financial loss or reductions in shareholders' value that may be incurred by the Bank. Therefore, the Board ensures that policies and frameworks are in place to recognize all significant/material risks to which the Bank is exposed to and the required human resources, culture, practices, and systems are adequate to address such risks. Following are the risk related board and management level committees for robust implementation and oversight of risk management practices.

Board Risk & Compliance Committee

BRCC is essentially a Board-level oversight committee that performs the risk management activities on behalf of the Board and is the highest risk-related policymaking and supervising body for all types of risks faced by the Bank, notably credit, market, liquidity, operational, and other risks that may have material impact over the Bank's performance. It plays a vital role in improving the risk culture in NBP through active reviews of various risk policies, procedural manuals, and MIS.

Enterprise Risk Committee

ERC is a senior management committee with representation from relevant business and support groups that oversees the implementation of risk management framework, from an integrated/ enterprise-wide perspective focusing on risk strategy, development of policies and procedures, assessment of risk management tools, MIS reporting and escalations to BRCC.

Moreover, other relevant committees, such as Asset Liability Committee (ALCO) and Management Credit committee (MCC) etc. are responsible to ensure the formulation and implementation of a comprehensive risk management framework.

MCC is a serior management committee that is responsible for the approval / review of credit exposures. counterparty / borrower limits, credit policies and procedures as per the Credit Approval Authority Booklet (CAAB) / Credit Policy Manual and delegated by the Board Risk & Compliance Committee/ Board of Directors. Chief Risk Officer (CRO) & Chief Credit Officer (CCO) being the members of the committee, ensures an adequate participation of risk in the decision making process.

ALCO is responsible for managing the composition and pricing of assets and flabilities of the Bank, Including off-balance sheet items, to produce results that are consistent with liquidity, capital adequacy, growth, profitability, and risk appetite/ tolerance objectives.

Risk Management Framework Implementation

The Bank implements risk management framework through a 'Three Lines of Defence' model which defines clear responsibilities and accountabilities for various offices and ensures effective & independent oversight and assurance that the activities take place as intended under the risk management framework, and frameworks are in place to recognize all significant/material risks to which the Bank is exposed to and the required human resources, culture, practices, and systems are adequate to address such risks.

2 Line of Defence

Risk Management and the Compliance functions in the Bank oversee and independently challenge the effectiveness of risk management actions taken by business groups which are further evaluated at Management-level Committees. The recommendations are approved/escalated to the Board's sub-Committees as per SBP requirements for deliberation and

Board Audit Committee and Audit & Inspection Group (A&IG) provide independent. objective assurance and consulting activity designed to add value and improve risk management functions of the Bank, A&IG helps the Bank accomplish its objectives by bringing a systematic and disciplined approach to evaluate and improve the effectiveness of risk management, control. and governance processes.

3" Line of Defence

The Bank You Trust

RMG sets the mission of maximizing stakeholders' value through sustainable growth which is achieved through informed risk decision-making and superior risk & capital management, supported by a consistent risk-focused culture across the Bank. Based on our approach to risk management, the Board has approved various policy documents that set forth the parameters to achieve effective risk management.

decision-making.

monitoring and controlling

the risks within their areas of

The Bank applies Basel framework as a cornerstone of the NBP's risk management framework and capital & liquidity strategies. The Bank maintains a strong capital, funding, and liquidity position in line with its ongoing commitment to maintaining balance sheet

At a strategic level, the Bank's risk management objectives are to:

- · Identify and assess significant risks to which the Bank may be exposed to.
- timely response to the identified risks through formulating Bank's risk appetite,
- architecturally equip the Bank with tools & models for effective risk management.
- · assist Business Groups in optimizing risk/return decisions,
- analyze the overall risk profile of the Bank.
- · keep track of emerging risks and perform an active role in their mitigation.

Strategic goals, embedded into our approach toward risk management, are to maintain a robust framework, identify and escalate risks and support sustainable business growth through optimum risk-reward decisions. The aim of the risk management strategy is to enable the management to identify & assess the risks, respond through formulating effective mitigating tools and monitor the effectiveness of the response.

The risks, Bank faces, are mainly categorized as Credit Risk, Market & Liquidity Risk, Operational Risk, and other risks that have material impact over the capital of the Bank.

Strategic Overview

AGM & Supplementary Info.

CREDIT RISK

The Bank has strong credit risk management practices that include risk appetite framework, risk profiling, well-defined centralized credit approval mechanism, tools/models development and assessment, and portfolio reviews.

LIQUIDITY RISK

Market & Liquidity risk is managed through market & liquidity risk management framework and regular review and monitoring of the investment portfolio by the Bank's Asset Liability Management Committee (ALCO) vis-a-vis approved limits, thresholds and ratio zones. The comprehensive structure comprising product, exposure, sensitivity, VaR limits along with MATs is in place to ensure that the Bank does not exceed its tolerance for market & liquidity risk.

OPERATIONAL RISK

Operational risk is being managed through an Operational Risk Management Framework. This framework includes aspects related to Governance, OR Strategy, Risk & Control Self-Assessment (RCSA), Key Risk Indicators (KRIs), and Loss Data Management.

INFORMATION SECURITY RISK

The Information security risk is managed through a well-established information security policy and risk management/cyber-security frameworks that covers IS Security Operations & Threat Management, Network & Infrastructure Security, and Application & Database Security in addition to the management roles of IS Governance& Compliance, IS Program Management, and IS Risk Management.

ENTERPRISE-WIDE RISKS

In addition to the above-mentioned risks, the Bank has a structure to identify residual material risks on periodic basis. The source of these reports includes, but is not limited to, the Internal Capital Adequacy and Assessment Process (ICAAP), Recovery Plan, and Stress-Testing framework which take into account risks over and above those which directly occur as a result of daily business and operations of the Bank. These risks include Concentration Risk, Interest Rate Risk in Banking Book (IRRBB), Increase in NPL Categories. Reputational Risk. Strategic Risk, etc.

The Bank adopts different decision tools and techniques of risk management to keep the Bank resilient and vibrant to minimize Josses within the defined risk appetite/tolerance levels, and credit concentration limits. Strategic goals are embedded into risk management to maintain a robust framework for identifying and escalating risks to support sustainable business growth.

IT Governance **Board of Directors** Board Technology & Digitalization Committee Board Risk Committee **Board Audit Committee** President/CEO **Chief Technology Othors** Chief Digital Officer Chief Risk Officer Chief Compliance # IT Strategy, Risk & Digital Governance · • Chief Information Security Danstel Channels and Governmence IT Infrashuence Payments IT Operations Data Analytics & Insights . IT Systems & Solutions Diortal Bankino Strategy # IT Transformation Digital Transformation Government Digital Program

In the era of an increasingly digitalized economy, focus on IT Governance and Management is essential to ensure that the current and future investments in IT are in line with the business needs and IT-related risk appetite of the organization. IT in the banking sector is also increasingly advancing which has shifted the key emphasis for the organization to strive for:

- Generating business value from (T-enabled investments)
- Achieving operational excellence through the reliable and efficient application of technology.
- · Maintaining IT-related risk at an acceptable level
- Maintaining high-quality information to support business decisions.
- regulations, contractual agreements and policies.
- Optimizing the cost of IT services and technology

IT Governance of the Bank comprises monitoring by:

NBP Board of Directors

The NBP board oversees the conduct of the business and supervises management. NBP Board of Directors always remains committed to adopting the highest standards of corporate governance practices. While the Board of Directors Is responsible for the overall governance of the Bank with integrity and in compliance with all applicable laws and regulations, the CEO and senior management are responsible for efficient business operations by following the Board's approved plans & policies, and placing significant issues for the information, consideration and decision, as the case may be, of the Board or its Committees. The NBP Board has established a monitoring and control function through its sub-Committees for each area of the Bank. The NBP Board is fully responsive to the legal and regulatory implications of

cyber-risks and has designated the Board Technology & Digitalization Committee to monitor and manage the timely IT network and Security projects implementation.

Technology Digitalization Board Committee

A dedicated Sub-Board Committee formalized by the NBP BoD to specifically review advise, and report on the status of technology activities and digital initiatives in the bank. The Committee also support the NBP management to ansure that IT risk-related strategies are designed and implemented to achieve resilience and monitor the ability of the Bank to effectively respond to wide-scale disruptions, including cyber Complying with ever-increasing relevant laws, incidents. Technology has caused risks to become more prevalent and intrusive to business. Hence, the BTDO ensures the implementation of better governance while working with senior executives on overseeing risk management and establishing a healthy IT-related risk profile. Regular update about IT Network upgrade and Security posture is being taken by the BTDC along with an update on all IT Projects.

Chief Executive Officer

The NBP CEO oversees corporate functions across all businesses and subsidiaries and directs reports on all activities of the Bank to the board and the respective committees as requested from time to time by the chair of the board and the chairs of the board committees. The NSP CEO has the primary responsibility for the management of the business and affairs of the Bank as well as provides leadership and vision for the effective management and profitability of the Bank for increasing shareholder value and conformity with corporate policies adopted by the board.

Chief Technology Officer

Information Technology Group works under the supervision of the Chief Technology Officer as the backbone of the Sank that provides 24 x 7 support for connectivity, servers, applications, network and security infrastructure to the Bank. The NBP CTO is responsible for managing and controlling key IT capability decisions to improve IT management, ensure compliance, and increase value from IT technology resources. CTO is primarily responsible to ensure that the governance of activities related to IT is well-established as IT governance centres around making sure the Bank knows what impact IT decisions have on business value. The Zero-trust identification and implementation of endpoint detection and response (EDR) on all endpoints provide continuous endpoint monitoring and analytics to quickly evaluate and respond to cyber threats. CTO regularly update the Bank's senior management as well as the BTDC regarding the IT and cyber security posture of the Bank.

IT Strategy, Risk & Governance

An exclusive IT Governance domain is defined under the supervision of the CTO by the name of IT Strategy, Risk & Governance Division that is specifically responsible to prepare, review and implement IT-related policies, incident response, and controlling planning for IT governance. The division is managing technology programs and operations and proposes IT Strategic initiatives to ensure that IT operates within the budget and that targets are completed. The Division has also established policies and procedures for Implementing controls in each area of ITG. Additionally, IT Network Security assessment was also conducted to further improve the cybersecurity posture of the Bank.

Implementation of a 24x7 Security Operation Centre is also established to have real-time monitoring, detection and response for cyber threats. External/third-party assessments were also done to ensure a secure IT environment. Moreover, Disaster Recovery plans and contingency Plans are in place to counter any unforeseen event, information Security Policy and Cybersecurity Policy are also in place. On the educational front, IT SRG has worked to educate all employees by arranging training for Cyber Security Essentials Bank-wide, Zero-Trust Architecture, Software Defined Networks, Service Oriented Architecture, Cybersecurity fundamentals, Project Management, Security Analysi, etc. are the key training delivered to ITG employees to remain abreast with the latest trends and technologies. Relevant specialized certifications are also arranged for ITG for the execution of all digital banking-related policies, employees to have well-equipped human resources at the Bank. The hiring of employees (new talent) with specific IT skills remains an ongoing strategy to overcome any missing expertise and capabilities whereas resource augmentation is a continuous process at the Bank.

Information Security Governance

The Information Security function resides within Risk Management Group at NBP, headed by a Chief Information Security Officer and is primarily responsible for developing Information and Cyber Security policies and frameworks for the bank and overseeing, promoting and reviewing security programs. The information security setup has been designed to provide quidance and support to the bank through IS Governance, IS Security Operations and Threat Management, IS Risk Management, IS Program management, Network and Infrastructure Security and Application Security wings, which are being augmented with relevant resources to enhance the information security poeture of the bank

The Bank You Trust

The function is represented at the Board level by the CRO and President who oversee the development, implementation and maintenance of banks information security program

Chief Digital Officer

The Chief Digital Officer is responsible for overseeing the Bank's adoption of digital technologies, transforming business strategy via the use of technology and data, and evangelising how people, processes, and technology can achieve the digital vision. The CDO is largely accountable for transforming the overall business model and introducing a digital dimension to the Bank's operations, CDO is vigorously embracing the newest digital technologies, such as cloud computing, data analytics, etc., and has established a dedicated division to enhance transparency, reporting, and governance in the digital domain. CDO is working on NBP's long-term strategy, which includes the deployment of robotic process automation. Al-based decision making in lending-based business and cross-selling, and the implementation of block chain technology for the expansion of digital banking footprints in NBP. To meet NBP's long-term, mid-term, and short-term ambitions, the CDO keeps Ex Com and BTDC updated of the latest digital domain. developments and projects on a regular basis.

Digital Governance

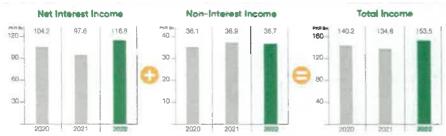

Under the leadership of the CDO, the Digital Governance domain is pursuing and executing the process governance for nonzontal policies to implement internal controls, ensure compliance with all internal and regulatory mandates, and ensure that all processes & procedures are flawless for instant audit. The Digital Governance Division is responsible regulatory requirements, SOPs, and SLAs

Mar Annual Report 2022 HBP Annual Report 2022

FINANCIAL PERFORMANCE To be the best, it is important to be in the know. As our nationwide network caters to millions of people, we have constantly introduced services and products that are designed for all Pakistanis, everywhere, from basic banking to industry-specific product suites.

Strategic Overview

Financial Performance Overview

During the year, the average policy rate remained at 13.2% compared to 7.3% of last year. This translates into increase in the policy rate by 590bps due to which the Bank earned a gross mark-up/interest income of PKR 503.3 Bn (117.1% YoY). Net interest-bearing assets during the period averaged at PKR 3,886,9 Bn 1+41% YoY), Interest-bearing investment portfolio averaged 55.1% up at PKR 2.631.7 Bn (Dec '21: PKR 1.697.2 Bn) and generated interest/mark-up income of PKR 348.3 Bn (150.4% YoY), making 69.2% of the total mark-up income. Average loans and advances net) increased by 15.9% to PKR 1414.5 Bn (2021: PKR 98.4 Bn) and generated mark-up/interest income of PKR 141.4 Bn, which compared to PKR 87.3 Bn levies of 2021, is higher by 61.8%. Average interest-bearing liabilities increased by 43.9% to PKR 3.87.1 Bn. Therefore, the Bank's cost of funds also increased to PKR 3.87.1 Bn.

Bn (187,9% Yo Y), of which PKR 209.6 Bn (Dec '21: PKR 87.8 Bn);

was on account of crofft to the depositors. The Bank's cost of

deposits increased by 400bps to close at 8.0% for 2022 /2021;

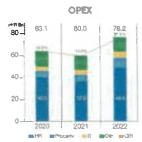

4.0%), Overall, the Bank's net mark-up/ interest income closed

at PKR 116.8 Bn . which is 19.7% higher against PKR 97.6 Bn

Despite a generally lower economic activity during the year due to the aftershocks of pandemic and the floods, the Bank succeeded to maintain the level of its non-fund-based income stream by generating a non-mark-up income of PKR 36.7 Bn which is slightly lower than the previous year's PKR 38.9 Bn. Non-markup income constitutes 23.9% of the total income (Dec '21: 27.5%). Branch banking operations continued generating healthy lees & commission income that closed at PKR 21.2 Bn (18.8% YoY). Dividend income increased by 13.3% to PKR 5.2 Bn as companies resorted to paying dividends. Higher international trade volumes. increasing the foreign exchange income by 14.4% YoY to PKR 7.4 Bn (Dec '21: PKR 6.5 Bn). These gains were however offset by the lower gain on securities that amounted to PKR 1.1 Bn (Dec '21; PKR 6.2 Bn), Accordingly, the non-mark-up/interest income of the Bank totalled PKR 36.7 Bn. as against PKR 36.9 Bn of the last year.

Net interest income and Non-interest income collectively generate PKR 153.5 Bn during the year.

earned during the prior year.

Operating expenses for the year closed at PKR 78.2 Bn against PKR 80.0 Bn for the year 2021. HR compensation that accounts for 62.5% of the total operating expenses amounted to PKR 48.8 Bn compared to PKR 37.0 Bn for the year 2021. Resultantly, the Bank's operating cost to income ratio stood at 50.9%, against 44.6% for the prior year.

The Bank invests appropriate funds in the uplift and maintenance of its business premises, providing a secure & healthy work environment to its workforce and customers. This year we spent a sum of PKR 1.1 Bn on repair and maintenance of our business premises. Overall property-related expenses amounted to PKR 10.7 Bn, which is 26.7% more than the prior year. Since Information Technology is pivotal for the Bank to achieve its strategic goals. The Bank continue to invest in upgrading its IT infrastructure, systems, and applications architecture. In 2022, we spent PKR 2.0 Bn on software maintenance and PKR 0.8 Bn on Network enhancement.

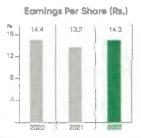

Pre-tax profit for the year amounted to PKR 82.7 Bn i.e. 18.7% higher YoY against PKR 52.9 Bn of 2021. As a result of retrospective taxation and increase of 10% in income tax rates for banks (from 39% to 49%). Tax charge amounted to PKR 32.3 Bn. translating into an effective tax rate of 51.5% (2021; 47.0%).

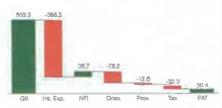

Profit after-tax for the year 2022 closed at PKR 30.4 Bn i.e. 8.6% above the PKR 28.0 Bn in 2021. This translates into Earnings Per Share of Ra. 14.29 as compared to Rs. 13.16 in the corresponding year.

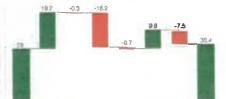

Significant growth is achieved in profit before provisions, partially off-set by higher provisions charge and higher tax. Net assets increased by PKR 14.6 Bn to PKR 300.8 Bn.

Our performance remained strong as we continued to create growth apportunities for the Nation through uninterrupted delivery of services to our customers. Financial results for the year 2022 reflect our resilience to the impact of Covid and Flooding on the Bank, its oustomers and the economy.

PAT - YoY Reconciliation

Significant growth is achieved in profitability, partially off-set by higher Opex.

AGM & Supplementary into

Balance Sheet Strength

Balance sheet strength is critical to the Bank's ability to serve its customers, drive core business outcomes and deliver strong & sustainable returns to the shareholders. Our key capital, liquidity and funding metrics have strengthened further during FY'22. The strength of our balance sheet means the Bank is well-positioned to support its customers and the Pakistani economy through challenging and uncertain times.

Assets

As of December 31, 2022, total assets of the Bank amounted to PKR 5,240.4 Bn. which is 35.2% more from PKR 3,848.7 Bn at the end of 2021. The Bank has managed its overall asset liability mix by generating stable funds and deploying the same into earning avenues offering positive yield

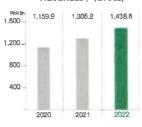

Loans and Advances

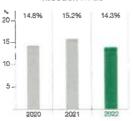

At Dec-2022, gross loans & advances of the Bank amounted to PKR 1.438.6 Bn depicting a 10.2% prudent increase from the year end 2021 levels. The loan book is diversified over 30+sectors. Private and Public sector constitute 65.3% (2021; 67.3%) and 34.7% (2021; 32.2%), respectively. With PKR 203.2 Bn, individuals make 14.1% of the loan book whereas Power makes 13.5% share and PKR 194.5 Bn in outstanding loans, followed by 11.5% of the Textile sector where the exposure increased by 3.2% YoY to reach PKR 165.1 Bn. Oil & Gas also recorded 73.9% growth to reach PKR 178.7 Bn from PKR 102.8 Bn in 2021, in fine with the Bank's refreshed vision of inclusive development, healthy growth was also achieved in Commodity and Agnoulture & Allied sectors. These 5 major sectors make almost 60% of the total loan book with PKR 837.9 Bn in outstanding.

With PKR 205.3 Bn of NPLs at end of 2022, net loans & advances amounted to PKR 1.230.5 Bn i.e. 10.5% up from PKR 1.113.4 Bn level at end 2021. Given the focused decline in deposits and a prudent growth in advances, the Bank's Advances-to-Deposits Ratio (gross) improved from 49% at the end of Dec'21 to 54.0% at end Dec'22. Furthermore, the Finance Act-2022 imposed 10% additional tax on banks if their Advances to Deposits Ratio talls below 50%; and 16% if the ADR goes below 40%. The Bank has also recognized a prior tax charge of PKR 3.8 Bn due to the retrospective applicability of additional tax on income from Government securities due to ADR below 50%. Business groups that contributed towards YoY growth in advances include CkIBG (+PKR 4.5 Bn), IDG (+PKR 12.6 Bn), RBG (+PKR 3.7 Bn), and AIBG (+PKR 4.0 Bn), etc.

Advances / (Gross)

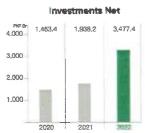

Infection Ratio

Investments

At the end of 2022, the Bank's investments (at cost) amounted to PKR 3,509 Bn (YE'21: PKR 1,924.2 Bn), making just over one-half of the Bank's balance sheet. Given the limited quality loan-growth opportunities, and a constant growth in the customer deposits, excess liquidity with the Bank is placed in shorter term GoP securities to capitalize on price volatility in the hiking policy rate environment.

The PKR 1,584.8 Bn or 82,4% increase in investments (at cost) mostly came in T-Bills 2,000 that increased by PKR 68.1 Bn from PKR 812.4 Bn at the YE'21 to PKR 880.5 Bn at end Dec'22. PiBs increased by PKR 1,484.3 Bn from PKR 925.2 Bn at the YE'21 to PKR 2,409.5 Bn at end Dec'22. As the market opportunity offered decent spread, investments were funded through deposit mobilization as well as leveraging keeping in view the hiking increase in policy rate.

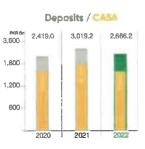

The Bank You Trust

PKR 42.0 Bn of Investment in listed companies is a diversified portfolio in 30+ sectors with highest concentration in commercial banks (15.8%), followed by Oil & Gas downstream (13.7%), Cement (10.2%) Power (7.3%), and Oil & Gas upstream (6.5%).

Deposits

The Bank has established an unparalleled outreach to a wide range of core depositors throughout the country. As the Bank enjoys depositors' utmost trust, most of our deposits are 'stable funds' coming from core customers. During the year, the Bank followed a focused strategy to optimize its deposits to deliver Nigher PAT to its stakeholders therefore deposits reduced by PKR 353 Bn and amounted to PKR 2,666.2 Bn, which is 11.7% lower than PKR 3,018.2 Bn, at the end of year 2021. This was in line with our deposit management strategy to avoid non core deposits coming at year end, and not available for deployment but impacted higher tax rates in relation to advances-to-deposits ratio. Customers' deposits as of Dec'22 amounted to PKR 2,616.8 Bn, representing 98.1% of the total deposits. Total current deposits (including Fi's) stood at PKR 1,310.2 Bn, depicting a 23.7% decrease YoY. Also, the saving deposits increased by 5.4% to PKR 807.4 Bn, as compared to PKR 765.9 Bn a year back. The bank's CASA deposits decreased slightly from 82.3% in December 2021 to 79.4% as of December 31, 2022.

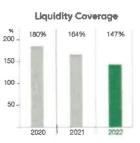

Funding & Liquidity

Your Bank has the second-largest share of customer deposits in the Pakistan banking sector and wide branch network to attract low cost CASA deposits. The Bank's liquidity and funding profile are sound as the vast bulk of assets are funded by a large and stable customer deposit base which continued to grow strongly.

The Bank maintains optimum levels of funding and liquidity. As of December 31, 2022, deposits closed at PKR 2,666.2 Bn. Average deposits during the year however grew by PKR 474.6 Bn or 21.8% to PKR 2,655.3 Bn.

The majority of the Bank's funding comes from core customer deposits that contribute 98.196 (PKR 2,616.8 Bn) of the Bank's total deposits. Compared to Dec 31, 2021 level, customer deposits have Increased by PKR 118.7 Bn or 4.8%. Ft deposits, decreased during the period under review by PKR 471.7 Bn and closed at PKR 49.4 Bn (Dec'21: PKR 52.1.1 Bn).

The Bank's liquidity coverage ratio stood at 147%, and the Net Stable Funding Ratio stood at 251%, well above the statutory requirement of 100%.

Value Distribution - 2022

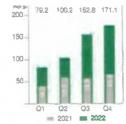

Value Distribution - 2021

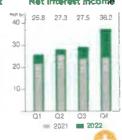

Quarterly Performance

Gross Mark-up/Interest

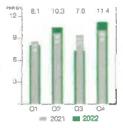

Net Interest Income

Net interest income for Q1 '22 amounted to PKR 25.8 Bn which increased by 2% as compared to Q4 '21 due to volumetric growth. in average interests bearing assets coupled with the impact of higher average policy rate i.e. 9.75% during Q1 122 as compared to Q4 '21 i.e. 7.9%. For the Q2 '22, Nil amounted to PKR 27.3 8n i.e. 6% up as compared to the previous quarter and quarter 2 of 2021 as well. This is mainly due to increase in policy rate up. 13% Nil for the Q3 '22 amounted to PKR 27.5 Bn remained the same with a slight increase of 1% as compared to the previous guarter. and show an increase of 10% as compared to the corresponding quarter or last year. Net interest income for the Q4 '22 amounting to PKR 36.2 Br., i.e., 31.9% more as compared to the previous guarter. However, this was 43.7% higher than the corresponding quarter last year.

Non Interest / Mark-up Income

Non-interest income for the Q1 '22 amounted to PKR 8.1'Sn, reflecting 18% discrease, as compared to the previous quarter due to less deposits during the quarter which is due to the reduced transactions and ultimatery transaction ree. Non-interest income for the O2 '22 amounted to PKR 10.3'Bn i.e. 27% up as compared to Q1'22 mainly due to increase deposits and increase by 7.494 then the corresponding quarter last year. Non-interest income for the Q3 '22 amounted to PKR 7.0'Bn i.e. 32% down as compared to the previous quarter due to limited economic activity. Non-interest income for the 4th quarter amounted to PKR 11.4 Bn which is 62.89 up as compared to the previous quartie and 15.5% as compared to the corresponding quarter last year, which is mainly due to an increase in dividend and foreign exchange income

18.8 19.1 18.9 23.4

2021 2022

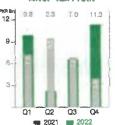

Operating Expenses

Due to inflationary pressure and geo-political tensions resulted in increase in commodity prices particularly or oil & gas and food which ultimately had impact on operating expenses of bank. Operating expenses of Q1 '22 smounted to PKR 16.8'Bn, reflecting 29% increase, as compared to the previous quarter. For the O2 '22. operating expenses amounted to PKR 19.1'8n which is 14% higher, as compared to Q1'22 and 17% higher against the Q2 '21, Operating expenses for the Q3 '22 decreased to PKR 18.9'Bn, slightly lower by 1% as compared to the previous quarter. For the 4th quarter operating expenses amounting to PKR 23.4 Bit showing an increase of 24% as compared to Q3'22 due to creation of certain provisions

Profit after tax for the Q1 '22 amounted to PKR 9.8'Bn as PKRIN! compared to a profit of PKR 3.9'Bh in Q4 '21 reflecting 155% increase as compared to previous quarter. In Q2 '22, profit after tax is declined by 77% and closed at PKR 2.3'En as against PKR 15. 9.8'Bn in the previous quarter due to increase in super tax rate from 4% to 10% and prior year charge pertaining to ADR related tax 10 amounting to PKR 3.8 Bn. Profit after-tax for the Q3 122 amounted to PKR 7.0'Bn, 206% up as compared to the previous quarter. For the O4 '22 profit after-tax amounted to PKR 11.3 Bn. i.e., 60% up as compared to the previous guarter.

Advances (net)

Historically, advances of the Bank have posted a modest growth since 2017 and have sharply increased in 2022. Steady growth has been achieved in net advances over the last six years increasing from PKR 739.8 Bn in 2017 to PKR 1,230.5 Bn in 2022 with a CAGR of 11%. An increase of 10.5% YoY in 2022 is observed due to increasing loan demand as the economy is recovering from the impact that Covid-19 and catastrophic floods had in recent years.

Deposits

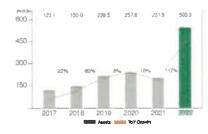

Deposits, that are primary source of funding for the Bank, have also increased significantly over the last six years' growing from PKR 1,727.1 Bn in 2017 to PKR 2,686.2 Bn in 2022. Smooth growth was observed throughout these years, however, the deposits reduced by 11.7% in 2022 in line with the Bank's strategy to manage cost of deposits and deliver higher PAT. Desprie the short-term maturity profile. Deposits have historically proved to be sticky and a stable funding source.

Mark-up / Return / Interest Earned

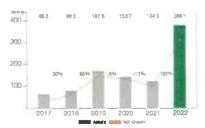

In the backdrop of higher average policy rates coupled with a mejor volumetine growth in interest bearing assets, the Bank generated a gross mark-up/interest income of PKR 503.3 Bin which is more than double the PKR 231.9 Bin of prior year. Gross mark-up / interest earned has poeted compounded average increase of 33% over the spain of the last six years. While growth

2021 2022 7.29% 13.20%

was low during the initial two years, a sharp increase was achieved in the year 2019 and 2020 on the back of increasing discount rate and volumetric growth in earning assets. Corresponding to the shift in asset mix on the back of higher liquidity placed into investments, contribution from income on investments has increased constantly over the years.

Mark-up / Return / Interest Expensed

The increase in mark-up expense reflects the impact of volumetric growth in deposits borrowings coupled with the impact of revision in profit rates in line with the policy rate increase from time to time. Responding to the increasing discount rate, the Bank has been particularly active in mobilizing low-cost CASA deposits. Satisfactory results have been delivered in this regard by both conventional as well as Islamic benking operations. During the year 2022, the average policy rate remained at 13,20% compared to 7,29% of last year. This translates into an average increase in the policy rate by 590bps. As a consequent of that, the Bank has achieved an increase in cost of funds of 400bps to 8,0% for 2022 (2021: 4,0%).

Non Mark-up / Interest Income

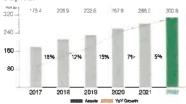

With 3% growth over the past six years, the Bank's Non-mark-up / interest income "NFI" has also recorded a satisfactory performance for most of the years. During these years, NFI has mainteined a trend of contributing approximately one-third of the Bank's total income. However, due to a lackfuster performance of the stock market, and depressed trade business, NFI for 2022 remained almost similar to that of 2021.

Operating Expenses

Total operating expenses in 2022 amounted to PKR 78.2 Bn against PKR 60.0 Bn for the year 2021. The operating expenses increased by 30.3%. Over the period increase was observed from 2017 to 2019 followed by a drop in 2020 and also in 2021. This drop was due to reversal of certain HR related unutilised provisions that were no more required. In 2022 a 30% YoY growth depicts the impact of both i.e. the reversals in prior year as well as inflationary pressure in the rising utility and fuel onces.

Capital

Reflecting our prudent capital management strategy, net assets of the Bank have also posted healthy increase on the back of higher profitability and profit retention in the recent years. Net assets, that amounted to PKR 175.4 Bn in 2017, have increased to PKR 300.8 Bn at the end of December 2022. This translates into a 11% CAGR over the past six years.

6 Years' - Maturities of Assets & Liabilities

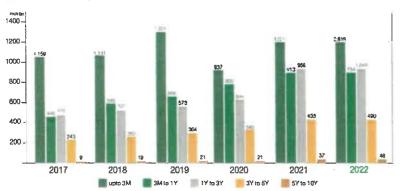

Maturity of Assets

At the year end 2022, the Bank's total assets stood at PKR 5,240.4 Bn, increasing at a CAGR of 15,90% over the past six-years based on expected maturales. While 13,40% of the Bank's assets are expected to mature within a period of one month, another 16,20% are expected to mature over the next two months i.e. a total of 29,6% to mature within a period of 3 months. The remaining 70,4% of the assets have a maturity period of beyond 3 months.

Maturity of Liabilities

At the year end 2022, the Bank's total liabilities stood at PKR 4,939.6 Bn, Increasing at a CAGR of 15% over the past six-years based on expected maturities. While 40% of the Bank's liabilities are expected to mature within a period of one month, another 13.1% are expected to mature over the next two months i.e. a total of 53% to mature within a period of 3 months. The remaining 47% of the liabilities have a maturity period of beyond 3 months. Thus, efficiently managing the liquidity risk, the Bank maintains a positive maturity gap between the average maturity of its assets and liabilities.

DuPont Analysis

- The Bank's operating margin of the Bank has lightly dropped in from 21.8% in 2020 to 19.8% in 2022. Two major reasons behind
 include (i) the civil penalty of PKR 9.8 Bn in 2021, and (ii) higher effective tax rates on the back of supertax and ADR related taxes.
- Assets utilisation in terms of total income has remained fairly stable over the period ranging between 3.4% in 2022 to 4.6% in 2020, in the past three years, there has been a drop in assets utilisation as the balance sheet size increased significantly.
- Return on equity has also remained high in the range of 18.7% in 2017 to 12% in 2022. In the recent years. RoE has recorded a
 drop as the Bank's has been retaining its profit after tax since 2017 to strengthen its capital base, resultantly reducing the RoE
 ratio.

Summary of Cash Flows

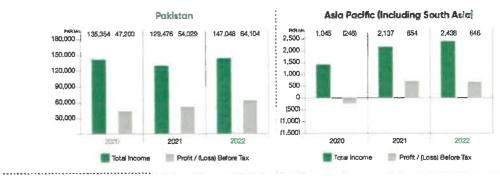

PKR Mn 2019 2018 2017

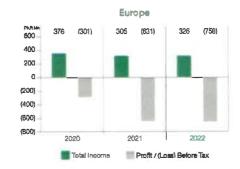

Classification	2022	2021	2020	2019	2018	2017
Net cash flow from operating activities	1,561,583	470,702	(51.870)	293,000	597,385	(232,541)
Net cash flow from investing activities	(1,607.936)	(459, 106)	52,401	(254,952)	(536,224)	266,340
Net cash flow from financing activities.	(2,428)	(2,454)	(2,042)	(2,046)	(40)	(15,958)
Cash & cash equivalent at beginning of the year	3 271,386	262,243	263,754	227,753	166.631	148,790
Cash & cash equivalent at the end of the year	222,704	271,386	262,243	263,754	227,763	166,631

Cash Flow from operating activities mainly represent the core activity of the Bank i.e. mobilization of deposits, Since 2017, deposits of the Bank have shown a CAGR of 9.1%. During year 2022, there was net inflow of PKR 1,581.6 Bn from operating activities. The major outflow under investing activities was on account of net investments in available-for-sale securities and investment made in held-to-maturity securities. During the year 2022, outflows of PKR 2.4 Bn under financing activities were observed against payment of lease obligation.

Assets Quality and Provisions

There was no increase in domestic NPLs. However, NPLs in FCY denominated loans recorded an increase of PKR 7.4 Bn mainly due to exchange impact. We prudently measure impairments in the assets portfolio and maintain robust levels of provisions. Provisions charge for 2022 amounted to PKR 12,6 Bn of which PKR 8.1 Bn was against impairment in loans, and PKR 3.8 Bn against diminution in value of investments.

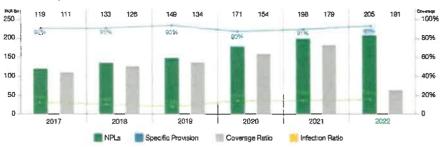

Specific provisions held against NPLs stood at PKR 190.7 Bn (Dec'21; PKR 179.3 Bn) whereas general provisions stood at PKR 17.3 Bn (Dec'21; PKR 12.5 Bn) and NPL coverage against total NPL is 92,9%. Since IFRS 9 stands implemented effective January 01, 2023, therefore prudently some general provisions under the expected credit loss methodology have been kept over and above as required under prudential regulations.

Share Price Sensitivity

Market Capitalization as of December 31, 2022

PKR 50,188 Mn

Change in share price by:

+ 10% -- 10% PKR 5.019 Mn PKR 5.019 Mn

The following major factors have varying impact on financial performance of the Bank and market valuation of its shares

Policy Rate

In the prevailing hyperintlationary environment, the State Bank of Pakistan has maintained a rising policy rate policy and the market expectations are that the policy rate will remain high in the short to near term. Any volatility in the interest rates will impact revenue and profitability of the Bank.

Capital and money markets

The Bank's investments amount to PKR 3,477 Bn, which mainly consist of high-yielding low-maturity, low-risk Government Securities. Trends in the money & capital markets have a direct impact on the Bank's financial performance.

- Minimum Rate of Return on Deposits

Any upward revision in rate of profit payable to providers of funds leads to increased costs of funds and compression in net interest margins earned by the Bank. Such revision can negatively impact the earnings and correspondingly the share price of the sorip.

- Exchange fluctuations

The Bank is a major enabler of the country's international trade. In this process, the Bank remains exposed to significant foreign currency exchange rates Hence, the currency fluctuation also affects the Banking business.

- Inflation

Inflationary trends inflict an indirect impact on earnings of the Bank through its corresponding incremental impact on the policy rate. Higher policy rates usually lead investments into high yielding but low-risk Government papers, thus resulting in increased interest income. This, in turn, will have a positive impact on overall profitability and the share price.

- Political Stability

Political stability is a prerequisite for economic growth and resilience for the organisation as the same reduces the uncertainty and urges investors to mobilise economic activity through injecting their funds in investment avenues. Political stability will stimulate trade & business activity resultantly higher earnings for the Bank and its shareholders.

- Natural Calamities

Natural calamities are outside the control of the Bank such as natural disasters, floods and pandemics might negatively disrupt the operations of the Bank and ultimately might affect share price of the Bank.

NSP Annual Report 2022

The Bank You Trust

Groups' Performance

Retail Banking

Major initiatives were taken in areas of organizational restructuring, technological advancement, product innovation, risk management and inculcation of sales culture. This was done through instilling a reward for performance culture which has not only resulted in boosting the overall branch productivity, but in addition, with its transperent reward culture, has also played a pivotal role in growth of RBG deposits, advances and ancillary business.

Deposits Performance 2022

RBG Deposit business continued to build strong momentum from the outset of 2022. However, after the introduction of revised ADR tax rules, our growth turned into a story of 2 halves:

H1' 2022

RBG Absolute deposits reported an YoY growth rate of over 18% as on 30-06-2022 as compared to industry growth rate of around 15%. We closed June 2022 at Rs 2,675 Billion as compared to the closing position of Rs 2,283 Billion as on 30-06-2021. This halped us exhibit an impressive 20% growth in Average Deposits dunno the year 2022.

The drive to attain new to bank accounts in targeted segments bore fruit as the business acquired over 350,952 in new to bank accounts in 2022 which was 30% greater than NTBs opened in 2021. A significant contribution was from special segments like Women, Assan and Remittance accounts, which contributed almost 50% of new accounts.

H2' 2022

In line with the latest fax rules introduced by FBR, NBP managed its year-end 2022 ADR level successfully RBG carrying tion's share of the bank's deposits utilized its recently introduced efficient network structure to play the lead role towards this cause by coordinating bank-wide efforts to ensure that NBP's ADR ratio remains over 50% as on 31-12-2022. To further channelize the efficiency achieved through restructuring, ABC started shedding special rate deposits and have reduced dependency on chest deposit balances so that future growth comprises primarily of core deposits.

Debit Cards Activation 2022

RBG's Debit card base continued to build a strong momentum from the outset of 2022. We closed June 2022 at 180,260 and Dec 2022 at 729,264, a growth of 305% in activations in the second half. This healthy growth was an outcome of various measures taken in 2021 and 2022 which included addition in the MPI scoring model, establishment of debit card discount & loyalty offers in collaboration with our loyalty partners, introduction of debit card activations through ADCs (ATMs and Mobile App), improvement in card activation process etc.

Debit Cards Activation		
Q1 '22	88,966	
Q2 '22	180.260	
Q3 '22	294,480	
Q4 122	729,264	

Wealth Management

The Bancassurance business registered an Impressive YoY growth of 15% with annual volume of PKR 848 MN. This is a commendable

performance considering the overall Bancassurance market witnessed stagnant performance during 2022 due to the origoing pressure on consumer savings and disposable income. Furthermore, the NBP Bancassurance business showed a remarkable productivity growth with 10,820 policies underwritten which was 25% higher YoY. This enhancement in network productivity was fueled by strong frontline engagement through trainings, regular analytics and effective sales management. Under the new regulatory framework, the business logged a complaint ratio of only 2% of booked cases during the year. Our key focus in this segment remains on consolidation and strengthening of processes and controls to ensure regulatory compliance and sustainability. The Wealth Management menu is set to see further expansion and diversification this year with the launch of

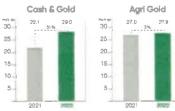

mutual fund offenings for NBP customers through distribution agreement signed with NBP Funds,

Advances Performance 2022

Cognizant of the overall economic situation. Consumer Assets at RBG adopted a somewhat selective growth strategy, thereby focusing consumer advances that are secured and collateralized, Besides, Consumer Assets business in 2022 progressed on the trajectory of "Change Management" through process re-engineering, technological advancement, digitization, new product development, target market expansion, introduction of new sales channel - institutional sales and improved risk management.

Cash & Gold" and "Agri, Gold"

Focus under the selective growth strategy was diverted to relatively secured products "Cash & Gold" and "Agri Gold", exhibiting YoY growth of 31.1% and 18,48% respectively. Growth in Cash & Gold resulted in surpassing the allocated targets for the year 2022. These secured products also witnessed a significant reduction in problem loans. YoY NPLs against "Cash & Gold" reduced by ~34% whereas the same for "Acri Gold" reduced by ~25% w.r.t June 2022

Advance Salary

The selective growth strategy resulted in a measured growth of 5% in the overall RBG advances portfolio. Underlying this growth was a result of reduction in "NBP Advance Salary" portfolio primarily impacted due to the monetary economic contraction and full year impact of revised Prudential Regulations under which the DBR was reduced from 50% to 40% and financing tenor from 05 to 04 years. These aconomic and regulatory measures resultantly reduced the average ticket size for new NBPAdvance Salary loans and also impacted the rollover cases. Despite these factors, RBG managed to maintain the ilon's

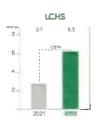

share in the category of personal loans, CAG - R8G achieved a lot more on other fronts related to this product that include:

- Expansion in Advance Salary target market by offening the product to Contractual employees
- Laurich of incentive scheme for staff to promote the product in these lough times.
- Revamping and automation of "NBP Advance Salary" loan approval process, thereby providing customers the ease to apply for loan. from the comfort of his/hor home/office
- Simplification of required documentation thereby making it minimal, hassle free and convenient

Low Cost Housing and Saibaan

CAG ~ RBG carned forward the NBP legacy of being an active participant in all government initiated lending programs, Being major contributor to the Government low cost housing program "Mera Pakistan Mera Ghar", the Bank proudly maintained its prominent position This is evident from the fact that the Bank maintained the highest relative market share in terms of number of loans, being the first bank to provide shelter to 2.000+ families. The low cost housing portfolio witnessed an exponential growth of ~135% in 2022. On the proprietary NBP Salbaan product, efforts were focused to reduction in NPLs - Salbazin NPL portfolio reduced by more than Rs 70M i.e. ~1096 - and product feetures were reviewed, thereby making it effective and conductive for future growth.

Following are the significant initiatives and achievements under LCH and Salbaan

- Review of product features for both Saibaan and LCH thereby making it more effective
- Financing under Salbaan was allowed in branches across the network instead of limiting it to positive or selected areas
- Signed agreement with "Saste Se Sasta" for lead generation to promote housing finance
- Approval of framework to on-board builders/developers and realtors for promotion of mortgage finance
- Revised Marketing collateral theraby making it more effective.
- · Timely resolution of complaints received across various channels

Institutional Sales

RBG beefed up its efforts on the institutional sales front. During 2022, the group build upon the "Institutional Sales" foundation laid in 2021. More than 35 institutions were targeted by the institutional sales division in 2022, 05 institutions have already accepted standard and concessional rate proposals. During 2022, our commercial Banking Group entered into an "Employee Banking" arrangement with institutions, that inter alia include concessions for their employees on MBP entire product suite (i.e. assets, liabilities and services). RBG will continue its performance trajectory in 2023 and years ahead. Going forward, CAG-RBG through perseverance will turther strengthen the consumer finance business of a thriving "Nation's Bank"

Treasury & Capital Markets

Pakistan's economy faced strong headwinds during the year 2022. Treasuries in particular bear the brunt of simmering political conditions, outlight war in Ukraine, high global commodities prices, remnants of pandemic and now the two headed monster of high inflation and economic stagnation. Adding fuel to the fire - high country risk along with low foreign exchange reserves and then the recent devastating floods (eti throughout the economy particularly in the agriculture, livestock, transportation, and infrastructure sectors, SBP initiated monetary tightening cycle – policy rate in July 2021 from 7% jumped to a whopping 16% in November 2022. Cumulative change during the CY 22 was 6.75%. The impact of high inflation and policy rate lead to slow down in the economy. Currently policy makers are committed to IMF program (now extended until June 2023) and are trying to make the necessary macroeconomic adjustments to protect economic sustainability.

Any deviation from a prudent and coordinated monetary and fiscal policy mix would risk compounding macroeconomic challenges and may require more aggressive policy action in future if planned revenue measures and external financing arrangements do not meet expectations, Hence, the markets are likely to remain topsy-turvy during H1 CY23.

Change in macro-economic indicators during the year:

	2021	2022
FY GDP IMF/World Bank	5.7%	6.00%
CY CPI Average	9.48%	19.29%
CY Poscy Rate EOP	9.75%	16.00%
CY USD/PKR EOP	176.51	226.43
CY KSE-100 EOP	44596	40420

Challenges faced by the economy:

1. High Inflation 2. Stringent IMF conditions

The Bank You Trust

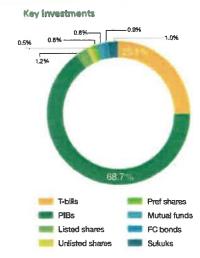

- 3. External account challenges 4. Tight Monetary Policy
- 5. Volatile exchange rate and massive devaluation
- 6. High oil & commodity prices
- 7. Low FX reserves

Equity markets remained lackluster globally in 2022 with fast changing political and economic landscape that resulted in higher volatility. Pakistan stock market provided some early gains in 2022, but the excitement proved short-lived as political landscape and macroeconomic indicators changed the sentiment, resulting in KSE-100 index closing the year with negative 10.68% return. Remaining cognizant of the market conditions. Capital Markets team remained focused to optimally rebalance the portfolio towards high dividend yielding stocks along with selected high growth scrips that remained part of the portfolio.

Overall, TCMG fared well by rebalancing the investment portfolio mix to align with the changing dynamics and prudent exchange risk management that enabled Treasury to achieve departmental goals and targets even though the challenges of high inflation, low growth, volatile equity and exchange markets coupled with heightened political uncertainty exacerbated in terms of longevity and magnitude.

The fact that TCMG is persistently considered as a leading FX bank and rated as one of the top Primary Dealers for Government securities bears testament to our expertise in providing FX and investment solutions to our diversified clientele. Furthermore, TCMG has made steady progress in strengthening controls and compliance environment by focusing on people, culture and systems.

Stroregic Overview

AGM & Supplementary Into,

Digital Banking

The Bank is creating a digital financial institution instead of simply digitizing various aspects of a bank. Since NBP has recently embarked on its transformation journey, we may appear a late entrant, but it is a unique advantage. We are applying learnings from the industry's digital transformation doe and don'ts and leveraging proven state-of-the-art digital technologies. NBP aspires to make banking more accessible, convenient, and efficient for our customers and the citizens of Pakistan.

In 2021, the State Bank of Pakistan mandated the financial industry to create the role of a Chief Digital Officer, a key executive responsible for steering the digitization efforts of the organization. The Bank appointed Mr. Muhammad Hamayun Sajjad, recognized as one of Asia's top 100 fintech leaders, as the Chief Digital Officer (CDO).

2022 was the year of demonstrating digital and upskilling the Bank's staff, Muhammad brought a positive cultural shift capitalizing which we delivered phenomenal growth in Digital Banking, Our efforts have enabled digital banking adoption, digital-literacy, serve our customers better, and support the Government's broader initiatives to promote financial inclusion and alteviate poverty in the

NBP Digital - Strategy

NBP is the largest financial institution with the most comprehensive suite of banking products. The Bank has a unique bland of customers ranging from Bank account holders, Citizens, Corporations, and government institutions. Our digital banking strategy is two folds; the first is about embedding foundational capabilities, whereas the second focuses on continuously delivering high-priority business initiatives leveraging available digital features.

Achievements in Digital Banking

NBP is at an early stage of its digital banking transformation, but our staff and customer exhibited an overwhelming response even to our initial launch of basic digital banking features. Here we would like to shere the significant highlights of NBP Digital Banking from the year 2022

Increased Adoption of Mobile Banking and growing use of non-cash transactions Introduced new features in the NBP Digital App to offer easy signup, Quick account balance view, Employee referral, and Debt. Card Management. The results were outstanding, with over 180% YoY signup growth, half a million active users, an 84% transaction volume increase, and a 250% increase in value. To promote adoption, we have offered various incentives, such as cashbeild rewards and decounts on transactions made through the app. The migration to digital channels reduced the Call Center traffic by 30%, whereas on the whole, alternative delivery channels processed more than seventy million transactions in volume and just above a trillion in value.

From ATM to Debit, use of card beyond cash withdrawal We accomplished the mark of 2.0M active debit cards. a phenomenal 60% YoY growth, enabling at least half of the Bank's customer base. The most exceing part is YoY 100% growth in the POS volumes

Digital banking in Pativistan is previously driven through additioning then customer self-service, in the case of NSP, our staff plays a vital role in helping our ountomers embrace digital NBP crefted various programs and encetives to sograde employees' digital skills to help them adept to current trends in the industry. The employee campaigns in 2022 engouraged more than helf of the amployee base to perceives actualy. The pression companies were been on the customs ulpome depending on the level of assistance provided by NRP

Government's Digital Initiatives We take immense pade in enabling the Government of Pakistan to digitize the stamp-paper, the ramous E-stamping initiative. The implementation is divided among each Province, and we successfully launched in Sindh and KPK

Comfort and convenience for the old-age pensioners

We designed and launched a set of in-branch digital features based on the Pensioner customer persons. Pensioners can now use their fingerprints to access their accounts coupled with an alternative verification in case of falture. The process is fully automated and digrazed from front to back. During the year, more than 60% of Government pensioners have utilized the new digital pensioner verification facility.

We have adopted Cloud technologies to deliver speed at scale The scale and breadth of NBP dioral banking services require flexible, scalable, secure, and 24x7 available foundations. We have

successfully transitioned our Digital Banking platform onto a local cloud infrastructure, enabling NBP to offer the most reliable and efficient digital customer experience at markedly lower costs.

> Assisting customers with in-branch Digital transformation

We have embarked on a mission of equipping our front-line staff and the branch with digital capabilities to assist walk-in customers in the Sank branch or by visitina customera' premisea.

The launch of Targeted Commodity Subsidy Platform

the Government of Pakistan promised the global stakeholders the laurich of targeted subsidies on essential commodities. The National Bank of Pakistan was responsible for designing. developing, and launching a digital platform and an acosystem. We built, ground up, a Targeted Commodity Subsidy Platform driving the digital. ecceystem supporting more than two million beneficiary's grocary purchases at thirty thousand Kiryana stores, Government's Utility Stores Corporation, and Ganteen Stores Department.

The Bank You Trust

Digital Trends and Cultural Transformation are Shaping Our Strategy

As we prioritize digital banking transformation, we remain mindful of the global and local trends shaping our strategy. Globally, we have seen a rapid increase in the adoption of digital banking services, with customers seeking convenience, security, and personalized experiences. Locally, Pakistan has also seen a surge in digital banking adoption, with the pandemic accelerating the shift toward digital transactions. We consciously pivoting from the legacy by carefully seeding the "digital culture," emphasizing the importance of branches enabling NBP's employees and making them responsible for the digital customer expenence. To meet these trends, we will continue prioritizing innovative digital services, investing in technology and data analytics, promoting financial inclusion and digital literacy, and supporting government initiatives. In particular, we will leverage emerging technologies such as artificial intelligence and block chain to provide our customers with more personalized and secure services.

In conclusion, we are proud of our significant strides in digital banking transformation over the past year. As we look to the future, we are committed to remaining at the forefront of digital banking innovation in Pakistan and supporting our customers and the broader community through our digital banking services.

Aitemaad Islamic Banking

Alhamduillah. NBP Aitemaad Islamic Banking Group posted pre-tax profit of Rs. 2.30 billion for the year ended December 31. 2022 as compared to Rs. 1.5 billion during the previous year and witnessing 5396 YOY growth. NBP Aitemaad recorded total Income Rs. 5.54 billion during the year under review which is 2796 higher than previous year Rs. 4.37 billion. This improvement was due to volume growth (YOY) in average deposit and earning assets 15% and 23% respectively along with high policy rate environment. NBP Aitemaad earned 0.475 billion non fund Income in 2022, depicting 41% Increase YOY. Despite the inflationary pressure, operating expenses increased by 11% to 3.05 billion versus last year Rs. 2.74 billion.

NBP Alternaad's average deposit has been Rs. 87.7 billion during year as compared to last year Rs. 78.2 billion having 15% YOY growth. End of period deposit grew by 10% to Rs. 93.4 billion from 84.8 billion as at 100 becember 2021. Total deposit customers stood at 223,626 at end of 2022 with increase of 28,403 (13.4%).

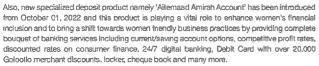

NBP Aitemaed Islamic Banking Group invested Rs. 19.5 billion in SLR eligible GOP tjerah sukuk during the year of 2022 as Bal Mueijal with GOP of Rs. 8 billion is matured in first quarter of 2022. Hence, NBP Aitemaed's gross investment augmented to Rs. 54.01 billion in Dec-22 from Rs. 46.58 billion in Dec-21 recording 16% growth YOY (9% by including profit earned Rs.2.97 billion on Bai Mueijal in investment in 2021).

NBP Aiternaad increased its gross financing portfolio by Rs. 4.01 billion to close the year end at Rs 47.04 billion as compared to Rs. 43.03 billion at the end of Dec-21, exhibiting a YOY growth of 9% owing to given economic conditions and all time high policy rate environment. NBP Aiternaad managed to recover monthly installments from Hassod, 100% provided for in Dec-21. Non performing financing decreased to 0.655 billion from Rs. 0.713 billion in Dec-21 financing portfolio comprises corporate customers, located in Karachi, Lahore, Islamebad and Multan. Strategy is to continue booking top tier corporate customers, albeit cautiously.

Alhamdufillah, NBP Aitemaad has opened 50 Islamic Banking Windows (IBWs) In Conventional Branches during the year 2022 and enabled ADC services including Green PIN through NBP ATMs and Debit Card Management via Mobile App for new card request, change card status & PIN, non-cardholder onboarding and MPG – RAAST P2P via Mobile App, NBP Alternaad has also revamped its all financing products in order to further strengthen the products parameters as per business and industry practices.

Special Assets Management

It has been a challenging year for the Banking Industry as well as for the country due to prevalent tough economic conditions internally and externally. In addition, political instability and unprecedented devastation caused by floods have taken a big toll on economy. As a result of these factors stress on the industry has increased manifold which is expected to result in higher NPL stock for the banking industry. This calls for a strong Special Asset Management Group which is able to contribute to recovery and rehabilitation on non performing essets and contributing to the bottom line of the bank.

Main function of SAMG is to manage the wholesale NPLs of the Bank and reduce NPL stock through timely recovery either through court and/or settlements/restructuring. SAMG is currently handling the largest portfolio in the industry.

The group was given the objective both by the Board and the regulator for improving the performance of recovery and reduce flow on new names to the remedial portfolio. In addition to this the Group also faced challenges in term of HR resources. To achieve the sald goals, the group was revemped with a strategy of reviewing the portfolio with the intention to quickly develop a recovery pipeline on which the existing HR could be focused to achieve quick recoveries. Also, an early warning process was developed with Risk to monitor and identify deterioration in account so that early corrective action could be taken to reduce flow of new NPLs to the portfolio. However a major impediment and a challenge for SAMG is the perception of it being a risky business given legal and LEAs involvement. In addition to this close working relationship was built with the Businesses and Risk to support the business to deliver its results. Despite the constraint with the staff the Group was able to exceed the budgeted recovery of PKR 4. Bit while developing a decent recovery pipeline for the future.

SAMG would focus on reduction of NPAs through adoption of following strategies:

- · Implement systematic review of legal status.
- · Change of BLAs where progress is slow.
- Preference to negotiated settlements rather than litigation
- Improved Coordination with Legal
- · Reconsider waivers of COF and non-accrued interest to accelerate potential settlements
- · Alignment between Risk and Business on recovery strategy and improvement of approval efficiency
- Addition of qualified manpower and re-organization of the remedial business

Audit

The Bank has an independent internal audit function referred to as Audit & Inspection Group (A&IG), A&IG provides independent assessment of risk management, control and governance process of NBP in line with the Institute of Internal Auditors (IIA) and SBP guidelines. A&IG assists the Board Audit Committee in discharging its oversight responsibilities regarding internal controls and internal audit of the Bank.

Audit coverage includes domestic & overseas branch operations, information technology, Islamic banking and HO functions as per approved audit plan. Gaps in controls and areas of improvement identified during audits were escalated to the management and Board Audit Committee.

During 2022, Audit policy and Charter were revised to bring it in accordance with the revised SBP guidelines and IIA Standards. Audit procedures have been amended in light with the regulatory guidelines and in accordance with the banks' structure, risks and related controls. Quality assurance process has been instituted in line with IIA guidelines.

Human Resource has been provided necessary trainings to build-up their capacity for effective audits. In addition to this, expert and trained resources were hired to strengthen the Audit and Inspection Group.

With a commitment to support the Bank in its journey to be the Nation's leading bank, A&IG will continue to strengthen its resources, systems and framework in line with regulatory requirements and to cope with the changing banking environment.

The Bank You Trust

Human Resource Management

Diversity and Inclusion

Our HR team is great advocate of creating and nurturing a diverse and inclusive culture for all our employees. Customized D&I training programs have created social and economic impact on our agenda that are safer work environment, increased employee morale, sense of belonging for employees and assisted us in developing more inclusive company values within NBP.

There are 253 Women Champions who are touchpoints for women clients, 183 of them are trained on Gender Sensitivity. In addition, we have also integrated D&I awareness content into all our training programs; be it technical or soft skills training.

Furthermore, International Woman's Day is celebrated at NBP across the board, awareness sessions for PINK tober and specialized training sessions are conducted for positive behavioral reinforcement. In addition to the above, many important areas of D&I have been covered through customized trainings.

The Board of Directors and its Management is committed to the growth, development and investment in its human resources by focusing on D&! Initiatives, Talent Management and Rewards. As such, National Bank of Pakistan has been recognized at the Global Diversity, Equity and Inclusion Benchmarks Awards 2023. The Bank won a total of four awards in categories of Recruitment; Work-life Integration, Flexibility & Benefits: DEI Learning & Development and Community, Government Relations & Philanthropy, NBP won the "Best Practice" award in category of Flexibility and Benefits, whereas "Progressive" award in the other three categories.

NBP has also partnered with Purple Tuesday, an initiative that inspires organizations to make public commitment to communities and countries committed to wider disability and inclusion strategy and practice.

Talent Management and HR Business Partnera

The HR Business Partners and Centre of Excellence model was strengthened through further restructuring at Head Office and Regional offices to efficiently provide value-added services to the business through dedicated HRBPs in closed coordination with Center of Excellence

More than 450 new hires were inducted during the year 2022. The Bank also recently inducted a Trainee Officer batch for Human Resource Management Group in which 62 percent are female employees and 15 percent are minorities/under represented applicants

The Bank participated in various career fairs at educational Institutions in order to attract business graduates keeping in mind the agenda of branding NBP as an employer of choice as well as to improve staff diversity and inclusion ratio.

Competency Framework

The Competency framework is designed to provide NBP with tools to have clear and robust action plan to identify and map competencies for job roles within the Bank. This framework shall

also provide tools to address any competency gaps for consistent development of employees through a comprehensive Development Needs Analysis by providing a clear and transparent framework and mechanism for developing their skills.

Our organisational Effectiveness Division organized six workshops conducted by Group Chief HRMG and attended by other Group Chiefs and their Divisional Heads. At the end of each workshop. technical competencies were developed and mapped for their respective groups. Subsequently, the consultants reviewed Leadership and Technical Competencies in line with best market practices according to job roles.

In the first phase, the Competency Framework has been rolled out for grade SVP and above. The outcome of this initiative is to Identify employee strengths and development needs and align these to the banks Development Needs Analysis by providing a clear and transparent framework and mechanism for developing their skills. Subsequently, this framework shall be linked to Learning & Development, Talent Management and various other functions of HRMG.

Employee Relations

Employee's grievances require an empathetic and impartial approach in a safe environment. A meticulous orievance handling approach was adopted in 2022, "Employee Grievance Handling quidelines" were developed with end to end process. Through the efforts of HRMG's team the TAT for the complaints is strictly complied with and average time taken to resolve a complaint has been reduced to minimum threshold.

Dedicated efforts have been made to achieve industrial hormony. No major strikes/sit ins/protests for considerable period of time throughout the Bank.

Compensation and Benefits

NBP has always kept its employees' & their dependents health as "Top Priority" by providing all the required medical facilities. In the year 2022, we enlisted well-reputed hospitals on Bank's approved penel and also engaged hospitals in conducting health awareness campaigns/sassions and tialson with renowned tabs for vaccination camps in Bank's premises.

Some of the various distinguished hospitals/Labs enlisted on Bank's approved panel during the year 2022.

Free Medical Camps were organized in collaboration with various labs during the year, where in arrangements were also made for free testing services for the employees.

Learning & Development

During the year 2022 over all approx. 24,291 participants were Imparted trainings with focus on AML, AISG, Credit, Risk, Digital Banking, Gender Sensitization, PWDs, Operations, Retail & Regulatory compliance, Agri. etc. Besides this, through e-learning platform multiple modules were disseminated to the staff. Bite sized learning modules on Digital Banking were uploaded on e-Learning portal along with modules on TBML, Islamic Banking and AML.

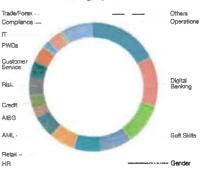

Furthermore, L&D organized Certifled Professional Trainer (CPT) program in collaboration with International Association for People and Performance Development (IAPPD) for our faculty members to equip them with latest tools and techniques to boost up their content development and delivery.

NRP Annual Report 2022

ITG Achievements

IT Group continued its efforts to implement effective solutions and efficient services to help the Bank in addieving its business goals with the maximum possible controls in place. With the first quaner of the year 2022 that was full of challenges, connectivity disruptions and hardware issues post-cyber-incident, a semblance of stabilization was returned as ITG kept working tirelessly and dedicatedly to ensure un-interrupted services for "Business as Usual (BaU)" functions. By the end of the second quarter of the year, significant progress was made on initiatives approved under emergency for improved security and enhanced controls for its infrastructure and network.

Additionally, the bank also embarked on the Profile Upgrade journey in the year 2022, which is one major step to bring the Core Banking application (Profile) to the latest available version. The current Profile version 7.3 from vendor Fidelity Information Services, LLC ("FIS") was implemented in the National Bank of Pakistan over the period between 2010 and 2015. The existing version is 13 plus releases behind the latest version overloaded with heavy customization in-house, partially unsupportable by the vendor and integrates with a multitude of the Bank's applications white processing high volume transactions in real-time maintaining its 24x7 services.

The Profile Upgrade is unavoidably required as the Core Banking application is struggling to cope with the speed and volume of the transactions required to process especially during the month ends when delays are increasingly progressing. With the upgrade to the latest version, the bank will have the latest technology, updated functionalities and performance advances the vendor has built into the succeeding versions. This will also reinstate full vendor support for the National Bank of Pakistan ("NBP"). The branch interface will be upgraded to a browser-based application enabling the users to deliver faster customer service in a timely and secure

This Upgrading of the Core Banking System will bring multi-benefits to the bank on a greater scale, some of them are:

- 1. Delivery of a robust and up-to-date system
- 2. Upgrade to the latest and supported version
- 3. Merging Islamic and Conventional in one instance
- 4. Improve System Security functionality
- 5. Overcoming current technical limitations such as purging and archiving
- 6. Improved and easier integration of the latest functions and applications

Other than CBA, the focus in 2022 remains on revamping IT Infrastructure and network upgrades, including the following major projects:

- · FortiNet Data Centre firewall to secure Servers and core equipment in IT Data Centre
- Data Centre Core Network Equipment upgrade.
- · Internet Segment Network Equipment upgrade and Next Generation Firewalls in place
- · Temporary deployment of F5 Internet Segment WAF,
- Internet Segment Cloudflare WAF.
- Temporary deployment of Trend Micro Network Monitoring Device (DDI) and Email Security (DDEI & Scan Mail),
- . Two Factor Authentication (2FA) for VPN connectivity to ensure strong controls over authentication for users accessing bank network from outside
- CrowdStrike (EDR) and Kaspersky (KATA/xDR) for 11,500+ endpoints and user machines for detection of threats and response over the network
- Managed Detection & Response Services for Endpoint & Servers
- · IBM SIEM enhancement
- Secure Web Proxy to protect users from the latest threats over the internet with detailed inspection, detection and blocking of malwara
- Establishment of 24 x 7 Security Operations Centre (SOC)
- Exchange Servers (Hardware and Software) Upgrade
- · Core Router and switches Upgrade
- · NMS Deployment & integration with Technology Infrastructure SolarWinds Orion.
- Approved SOPs of Key Technology Areas
- Database Upgradation & Consolidation in Oracle Exadata

Besides the upgrades on the IT infrastructure front, 1TG also initiated Core Banking Upgrade (Profile) implementation project and completed the Discovery phase along with Orientation Workshop for the NBP project team to ensure the successful Implementation of the project. The following applications are also implemented by the bank to provide improved services to the customers:

- · Single-window remittances operations for cash payout through Pakistan Post Offices
- . SBP RAAST payments on Mobile App.
- · e-Stamping for KPK and Sindh province
- · Pakistan Single Window portal for trade operations
- Trade Innovation solution catering for all branches and NBP trade factories
- PLRA (i.e. Punjab Land Records Authority) CLRMIS Web Application Portal at NBP Designated Branches for Agriculture
- · Cardiess/Blo-Metric transactions enablement
- Debit Card Management on Mobile App
- Card Activation through ATMs
- Digital Account Opening of Customers (pilot project)

In continuation to the above, 1TG successfully validated and closed 100+ SBP's Cyber Security Inspection Report-19 observations and is continuously working towards addressing and closing the remaining observations.

On the operational front, the ITG team prepared a strategy for the timely execution of the month's end and Year End closure of Business (COB) on the Core Banking Application (Profile) for both Islamic and Conventional banking to ensure seamless business continuity, As a result, 1TG was able to completely process ATM/Mobile App hold transactions which were approximately 2M, in just three days (this task used to take 10-15 days in the past.

Following are some key infrastructure projects that are under implementation:

- Data Center Web Application Firewall (WAF), Internet Segment Web Application Firewall (WAF) and an improved security layer of Next Generation Firewall for VPN gateway.
- Software-Defined Networking (SDN) Ready Access and Core Switches.
- · LAN Managed Switches for 1600 Branches.
- Network Device Admission TACACS/RADIUS.
- . Website hosting, Bundled with DDoS and web protection, etc.
- · Server and Storage Hardware for ITG and Business Projects.
- Upgraded SAN.
- · IBM SIEM enhancement & Guardiam Integration & Implementation.
- Implementation & Roll Out of PEP Process
- PTCL Data Center Co-location

Financial Control

In recent years, the role of FCG has broadened throughout the Bank as a key partner in the process of strategy formulation as well as its execution, FCG is now providing efficient decision support information to the key business & control functions in the Bank. This strategic role of FCG is delivered through its synergetic core functions i.e. Financial Information, policy review, ICFR, taxation, financial planning & analysis, and SBP reporting. All these functions relate to the gathering, analysis, interpretation and communication of financial, as well as related, explanatory non-financial information to both internal and external stakeholders.

Efficiently managing the taxation matters in 2022, FCG managed to adjust over PKR 7.5 Bn refunds against advance tax, leading to a better cash flow management. To promote a tax compliance culture in the Bank, FCG arranged facilitation guidelines to assist the Bank's employees in filing their income tax returns in a timely manner which resulted in significant improvement in employees' number of taxpayers. As a member of the cross-group team, FCG made effective contributions towards balancing and reconclilation of GL. FCG has also contributed towards improvements in the control & compliance environment of the Bank through updating various procedures & controls in the area of financial reporting, vendor payments, ICFR, etc. As the Bank's extension towards external stakeholders, FCG endeavours to promote corporate governance image of the Bank through, inter alia, efficient financial reporting and investors/analyst relations. This year too, FCG has achieved the prestigious recognition for the Bank on quality published annual report.

In 2022, FCG welcomed the 1st batch of CA Trainees in the Bank. Under this programme, NBP is offering training (article) opportunities to the CA student in its key functional areas e.g. Finance, Risk, Treasury, Credit, Audit, etc. This scheme aims to create professional learning & growth opportunities for the CA students across the Country, Furthering its business-partnering role. FCG has clear plans to strengthen its role for efficient management decision making and strategic financial planning.

Our strategic plan for 2023 is clearly focused on moving towards a more automated environment for data management and producing quality information for all our stakeholders. Last, but not the least, FCG will be further enriching the Bank's talent pool by acquiring young finance professionals under the CA trainee scheme and capacity building of existing resources.

The Bank You Trust

Operations

During year 2022, as county experienced an un-imaginable challenges on political, economic and security front, NBP Operations Group also witnessed numerous challenges, but remained committed to serve the country and nation in best possible manner. Besides rendering uninterrupted operational support to internal Business Groups, performance and efficiency in executing government transactions has been one of the top priority and focused area for Operations Group.

Key milestone achieved during year areas under:

- 1. Since promulgation of Public Finance Management Act (PFMA)-2019, amended in June 2020, for implementation of Tressury Sinote Account-TSA to bring fiscal discipline in government expenditures, it has been Federal / Provincial Governments top priority to monitor/control budgetary expenditures incurred by Ministries/Divisions/Government departments, who received funds from Federal/Provincial consolidated funds. Prior to implementation of TSA, it was much difficult for the governments to govern these accounts as government entities were free to maintain commercial banking accounts in any bank and utilize funds at their discretion. But under TSA schame, these accounts are being tracked by governments and SBP, white fresh allocations/disbursements are being made through Assignment Accounts (for which NBP is only authorized bank being agent to SBP). Operations Group in year 2021-2022 forestalled the scenario and put in efforts to automate and simplify process of opening of Asaan Assignment Account by the government departments, As a result, now these accounts can be opened in bulk on request of Finance departments of the concern government(s) at any specified branch pan-pakistan of their choices. This ease of doing business has been instrumental for NBP and during year 2022, NBP made record payments through these accounts, which resulted in an increase of 20% commission income from government agency function. This has also brought bottom line commission income of NBP from agency function to record high (i.e. over 10.000 Billion for the period July 2021-June 2022).
- 2. In year 2022, Operations Group in coordination with Sindh and KPK governments successfully implemented e-stamping projects, whereby NBP Sindh and KPK branches are issuing e-stamps to customers and collecting revenues for the provincial governments. With the implementation of this initiatives both the governments have been able to receive provincial revenues on real time basis without any leakages/delay as compared to legacy stamp document issuance process. The discussion for e-stamp faunch for Baluchistan government is underway, which is expected to be implemented soon.
- 3. Another key achievement of Operations Group for 2022 and feather in NBP's cap is automation and simplification of pensioners' DCS accounts maintenance process.
- Operations Group through AOS platform designed a process for pensioners' allyeness confirmation through biometric verification and made provision in the system for uploading Life Certificate/Non-marriage Certificate. This facility is extremely helpful in cases, where thumbs are un-readable (old-aged pensioners). Further, visiting pensioners may upload aliveness confirmation certificate duly signed and issued by NBP branch Managers without moving pillar to post for finding out external government officials for attestation as per

The same facility has also been offered to NBP pensioners for activation of their accounts from dormant to operative. This changed experience has been appreciated by all the pensioners and recognized as one of its type in the entire industry.

BMV.LIFE/NONMARPAIGE C	SUMMARY OF DCS ACCOUNTS ENTIFICATE UPLOAD THROUGH AOS IFF	IOM 29/09/2022 TO 02/02/2023)
SUCCESSFUL BMV	NON-MARRIAGE CERTIFICATE	BWA EXEMPTION THROTICH
		UPLO4DING LIFE CERTIFICATE
160,651	102,711	108,578

Operations Group achievements w.r.t. support internal Business Groups:

- 1. Successful implementation and execution of cash management at branches, especially after enforcement of revised ADR rules by SBR The challenge of revised ADR for NBP was manifold as compared to other banks, because NBP also facilitate other banks to divert their surplus cash to SBP through its chest operations.
- 2. Despite increase in no, of operational ATMs throughout NBP network during last few years, OPG team constantly focusing and managing better ATM uptime. This has resulted in reducing branch workload. During year 2022, NBP has also been recognized by 1-link among top 3 banks in ATM financial transactions at industry level (source: 1-link annual report issued in Dec 2022).

Risk Management

Risk Management Group (RMG) is proactive in identifying, assessing, monitoring, and controlling the risks associated with Banking Business, RMG functions as an independent group reporting directly to the President with dotted line reporting to the Board.

Strategic goal, embedded into our approach to risk management is to maintain a robust framework, identify and escalate risks and to support sustainable business growth. RMG acts as a second line of defense in the overall risk management structure of the Bank. assuming the role of establishing overall risk management framework, development of tools & systems for effective risk management, risk oversight along with review and reporting of deviations from set standards, to Senior Management/BoD.

RMG has achieved several milestones during the year w.r.t capital planning, Market & Liquidity risk, Operation risk etc. with the aim of continuous improvement in its risk management practices through the introduction/development of new methodologies based on sophisticated tools.

- . The Bank developed/formulated a comprehensive Enterprise Risk Management (ERM) Framework in-line with enhanced regulatory requirements, streamlining the roles and responsibilities of various groups for each material risk the Bank is exposed to. Additionally, in order to enhance ICAAP methodologies, the Bank has developed strategic risk model using capital asset pricing model and further enhanced scenario analysis for optimistic forecasting of additional capital requirement under stressed market and economic conditions. Furthermore, a decision making tool/model was conceptualized and developed for senior management for addressing major liquidity and capital related issues during the balance-sheet growth of the Bank w.r.t internal and regulatory requirements.
- · The Bank also performed a comprehensive review and updated its Market & Liquidity risk policy and procedure manual encompassing enhanced regulatory requirements and rationalized the roles and responsibilities of various stakeholders. Moreover, w.r.t FX risk, criteria/models were developed for out of market FX deals monitoring, currency-wise exposure limits setting and for assessing overseas' branches liquidity position.
- Operational Risk Management framework and procedures were updated in line with SBP framework and International best practices. Coordinators from all over the bank were appointed and detailed training sessions were conducted to brief them about Operational Risk requirements and their role & responsibilities, initiated exercise to develop new and revision of existing Risk Control Self-Assessment (RCSAs) documents including Key Risk Indicators (KRIs). Operational Risk Event reporting mechanism was re-designed to make it easier for end user and data can be reported with accuracy and completeness.
- · Retail & Program Lending Group was established within RMG to manage risk side of products that operate on Program basis. This group adapts to a Credit Cycle approach and covers different functions including Policy & Portfolio Management, MIS & Analytics, Credit Approvals, Collection Oversight and Process & Control. Group closely interacts with RBG, IDG and AIBG businesses and various

- other stakeholders. Given the detailed mandate and scope. this Group is headed by dedicated CCO who reports to the Chief Risk Officer of the bank.
- Guidelines of key products like Cash & Gold, Agri Gold, Low Cost Housing, etc. were reviewed and necessary changes were made for improved booking quality and controls. Similarly, products like commercial vehicles, Karendaz for women empowerment were also approved at Risk.
- With strong focus on portfolio oversight, MIS skill set was enhanced and various product level dashboards were created to cover different aspects of the book. This included. Concentration. Virtage, Geographic and Customer demographics, NPL and litigation related details and credit approvals.
- To strengthen controls and enhance efficiencies, Advance Salary (flagship product of RBG) was automated E2E. This resulted in better monitoring, improved turnaround times and strict process controls.
- Process was also reviewed and designed to automate Salbaan and Low Cost Housing products. This is being worked with various stakeholders for quick roll out.
- Various initiatives have been taken to ensure improved controls. This include roll out of a cluster based Hub model for credit approvals. Under the design, credit applications originating from 37 regions have been clustered into 7 hubs for credit approval purposes. This will centralize and standardize the credit process.
- Collection Oversight function has been established at Head Office that overlooks and coordinate with Regions on various collection related activities. This unit not only follows up on early collection but also coordinate with Legal Division of the bank on status and progress of various cases in NPL.
- RCSA's were being reviewed and updated for different products along with Operational Risk to ensure a structured control on these products.

- . Focus has also been put on having a dedicated Retail CAD at the bank, in this repard, a Retail CAD Head was announced and headcount approvals were given to strengthen the team and to enhance the skill set of this unit.
- · Restructuring of ISD in 2022 with introduction of new technical roles of wing head level including IS Security Operations & Threat Management, Network & Infrastructure Security, and Application & Database Security; in addition to the management roles of IS Governance & Compliance, IS Program Management, and IS Risk Management. The unit (ISD) works under the supervision of Chief Information Security Officer (CISO).
- · Numerous initiatives have been taken by ISD to identify cyber security weaknesses of systems & Infrastructure.
- Several controls are in place including but not limited to 24/7 SOC, 2FA authentication of VPN connections, Kaspersky EPP & EDR mandatory deployment on bank's systems, and vulnerability scanning of complete IT infrastructure of the bank in line with the action plan of Bank's cyber security management framework.
- · Many tS Initiatives are in progress to create more impact in 2023 for secure environment of banking in NBP, such as IS

Policy revision in line with updated ISO 27001 standard, VA-PT program for vulnerability assessment & penetration testing of bank's information assets, and KATA XDR implementation etc.

The Bank You Trust

- Implementation of "Credit Risk Concentration Management Framework* that enforces single obligor/economic group/sector limits for prudent credit underwriting/approval.
- Rapid Portfolio Review (RPR) were conducted in-light of the macro economic challenges to assess the credit worthiness of the obligors on the forward looking basis.
- Establishment of "Data Analytics and Business Intelligence Wing", in order to undertake various initiatives pertaining to automation including development of system based scorecards and development of ORR database/model.
- ORR model has been reviewed and amendments have been Incorporated in the Model/Framework/User Guldelines w.c.t. (I) Risk rating of exposure to GoP obligors/PSEs backed by GoP Guarantee. (II) Substitution of Counterparty's Risk rating in the presence of a Guarantee.

Compliance

The Compliance Group is an integral part of NBP, dedicated to create value for both internal and external customers, whilst meeting regulatory obligations in every country it operates in. Thus, the Group upholds a strong compliance culture representing the bank's core values through ongoing development of its personnel and structure, as well as providing effective challenge of its actions.

As a result of the restructuring, that was started in 2021, in 2022, several improvement programs were initiated by the Compliance Group to enhance efficiency and improve the quality of oversight and governance. New Compliance related policles/programs were introduced and some existing ones were made more robust, For instance, to better assess and report the compliance risks, the RCSA (Risk Control Self-Assessment) documents are being prepared, once implemented, it will overhaul the Compliance Risk Management of the bank, Automation of workflows were tested prior to implementation in 2023 to improve the efficiency of internal process. The Financial Crime Risk Assessment (FCRA) was carried out to manage financial crime risks within the bank.

Continuing from 2021, the Group has gone from strength to strength throughout the year and in doing so, improved line of sight of its global operations, thus, enabling it to make structural and strategic changes. This included enhancing documented controls, significantly widening the scope of employee training to include operational risk, information/cyber security, in addition to financial crime and sanctions compliance through awareness drives and structured training. The oversight provided by the Bank's Board of Directors was through a documented oversight process that included roles and responsibilities, which were adhered to strictly.

As part of its commitment to the highest standards of AML-CFT compliance, the Group reviewed its customer due diligence/enhanced due diligence processes, transaction monitoring and sanctions screening systems, as well as regulatory reporting processes for further improvement/enhancement throughout its network. Work on automation of these and other control systems in its network continues to be a work-in-progress.

Accordingly, NBP's approach towards the management of compliance risk continues to be strengthened through enhanced oversight by various management and Board level committees. In line with its oversight strategy for the overseas network, the bank strengthened Head Office oversight by providing effective challenge to the overseas units, thus raising their awareness, leading to enhancements to their control environments.

In 2023, the Group plans to introduce further automation and process modernization in coordination with other Groups with the objective of enhancing data quality and others that will improve risk identification, monitoring and reporting.

Inclusive Development

Business Development during the year

In line with the Board's vision of financial inclusion and lending to priority sectors, IDG focused on expanding its outreach to farmers, women and SMEs across Pakistan. The Group endeavored to create awareness through SME road shows, Kissan Melas and other events. The focus remained on enhancing SME financing, especially to women, agriculture farm & non-farm sectors and micro businesses (through MFIs). However, unprecedented rains and floods, political turnoil and inflation deteriorated the socio-economic conditions thus negatively affecting IDG's expension strategy and planned progress. Nonetheless, the Group's final numbers were close to the year end targets. This was achieved primarily due to the perseverance and determination of our teams, while maintaining portfolio quality.

To enhance business through a focused approach, the Group reorganized its field structure by increasing the number of business clusters from 2 to 3 – North, Central and South. This enabled improvement in customer service and an upturn in financial inclusion.

Commercial and SME Business

NBP is fully committed to driving economic growth by providing focused lending solutions to small, medium and commercial entitles, allowing these businesses to prosper and grow. Further to increase the competitiveness of entrepreneurs and ensure sustainable development, our forte remained Seasonal Financing for various crop based commodities mainly Rica, Wheat & Cotton. Special emphasis has been given to increase market penetration and growth in priority sectors of the economy by developing value chain from producers to end-users. Despite flood based challenges and crop damages, SME performed well with no material adverse impact on the portfolio. Alongskie SME, in Commercial business NBP leads the way with an exceptional growth of 80% on YoY basis.

Agriculture Finance

Agriculture business

Considering the challenging market environment and to remain competitive in product offerings and customer facilitation, Agri Business structure was re-organized along with detailed roles and responsibilities to align with the industry best practices and to bring in efficiencies, incucate a performance-based culture and enhance productivity, A comprehensive monitoring mechanism of Agri Portfolio including performance monitoring against targets, risk alerts, KPIs and Scorecards of field teams and escalation matrix has been developed and implemented.

Initiatives include but are not limited to Policy & Product revision/Innovation, improvement of staff skillset to equip them with the latest marketing tectics & product knowledge, digital solutions for customer onboarding and real-time MIS for portfolio monitoring. The project of real time connectivity with Punjab Land Records Authority (PLRA), pending since long, has now been established through vigorous efforts and coordination with PLFIA, Chlef Information Security Officer (CISO) and SBP. The System has now become live in 10 Branches.

Lending to Microfinance Institutions

NBP has been a market leader in commercial banks as far as lending to microfinance institutions is concerned. The Bank not only overachieved its assigned targets and posted healthy growth, but also took new initiatives to expand its relationship with the sector. NBP also added two of the largest microfinance banks to its microfinance portfolio.

Innovation, Inclusion and Capacity Building

The Group inked partnership agreements with Government as well as private organizations to implement the Bank's developmental strategy and promote financial inclusion. NBP signed MOUs with Sindh Enterprise Development Fund for collaboration on providing subsidized financing to Agri SMEs in Sindh, Sindh Irrigated Agriculture Productivity Enhancement Project (SIAPEP) for high efficiency irrigation systems under the World Bank Project with Sindh Government and Naymat Collateral Management Limited for Electronic Warehouse Receipt financing.

SBP through its Banking on Equality (BOE) Policy 2021 had Instructed banks to reduce the gender gap in financial inclusion by implementing strategies to create women-friendly business practices and environment. The activities are categorized under carefully identified pillars. In 2022, IDG Inclusion, Innovation & Capacity Bullding Division (IICBD) team took various initiatives under Pillar 2 (Women Centric Products & Outreach Target) of the BOE Policy. These include panel discussions with business women in collaboration with Chambers of Commerce Islamabad, Lahore, Faisalabad and Mardan; three-day female entrepreneurship boot camp in collaboration with

Sustainability and Corporate Social Responsibility (CSR) Activities and Achievements in 2022

Adoption of best practices for CSR

Engagement in socially responsible activities offers additional opportunities to distinguish from competitors and to improve the quality of services for the citizens of Pakistan. Likewise, CSR practices of National Bank of Pakistan aim to build sustainable relationships with organizations instead of making one-time donations. The reason is simple: NBP believes in driving a positive change that impacts lives in the long term. We aim to invigorate civil society, champion good governance, promote social and economic development and encourage ethical behavior thus empowering people to greate a better world.

CSR is our commitment to facilitate positive environmental and social change not only within the organization but also in the community around us. Our socially responsible journey is in our DNA, which means a great deal to us and those we serve. When CSR works, everyone wins – the community, the environment and the business.

NBP supports the UN SDGs towards mitigating multiple economic and social problems. In the year 2022, NBP CSR activities directly or indirectly achieved the SDGs related to health, reduction of inequalities, education, gender equality and partnerships for the goals.

The Bank's strategic objectives on ESG/ sustainability reporting

NBP has taken various initiatives that demonstrate its commitment to the implementation of Environmental, social and governance (ESG). The bank has also become a member of ESG Task Force jointly led by the Pakistan Stock Exchange and the Pakistan Institute of Corporate Governance. The Task Force aims to develop and launch a coherent, systematic and realistic framework backed by regulations and tools, instruments and incentives to encourage companies and financial institutions to volunterily adopt ESG standards and guidelines.

As Pakistan's leading Bank, NBP is committed to sustainable development and the maintenance of high levels of ESG practices in the institution. Some endeavors undertaken include green initiatives like Solar Powered ATMs and Branches across the country and donation of water pumps and solar panels under its CSR activities; green financing facilities to its Corporate, Investment, Islamic, Agri and SME clients for Wind-Powered, Hydro and Solar-Powered Projects under SBP Renewable Energy Finance Scheme and conventional bank financing; and issuance of Sukuk (Islamic Bonds) and TFCs for Hydro Power Projects.

NBP has also developed its Green Banking Policy, which is in line with SBP guidelines and is currently under review with the Board of Directors.

CSR Policy

National Bank of Pakistan, being a public sector organization and the leading Bank of the country, has always been conscious of its social responsibilities and has undertaken multiple CSR initiatives directed towards promotion of healthcare, education, environment, women's empowerment and Improvement in the overall quality of life of Pakistanis. It is a reflection of the above that the Bank has created the CSR and Sustainable Development Division (SDD) within its inclusive Development Group.

NEP CSR Policy streamlines its CSR activities and makes CSR a key process for sustainable development. The Policy supplements the role of the Bank in undertaking measures for the underprivileged segments of society, enabling the Bank to contribute in their development.

ACTIVITIES AND ACHIEVEMENTS - HIGHLIGHTS

1. Initiatives for flood affectees

The unprecedented rains and subsequent floods in Paklstan caused devastation of an enormous magnitude in various parts of the country.

NBP. in collaboration with Therdeep Microfinance Foundation and Bural Community Development Program, stepped up to provide immediate aid to the flood affected communities in Pakistan by providing water purifiers to the flood affected households in order to give them access to clean drinking water. These water purifiers, distributed in the vulnerable communities of Sindh, Baluchistan and Southern Punjab, meet the standards established by the US Environment Protection Agency (EPA), NSF International and World Health Organization and removes 99,9999% of bacteria, parasites, micro plastics and turbidity.

Flood Affected Household Water Purifiers

Access to Clean, Drinkable Water Project

National Bank Of Pakistan Thardeep Microfinance Foundation

NBP also contributed PKR 50 million in the shape of donation made to the Prime Minister's Flood Relief Fund.

A digital payments platform was also launched by NBP which enabled people across the globe to donate using their preferred payment method i.e. Credit / Debit Card, International bank transfer, local bank Direct Debit, Wallets, ATMs and 1Link.

2. Education and technology

The Bank extended its hand towards Family Educational Services Foundation (FESF) for setting up a new Higher Education Wing at its Deaf Reach Campus at Rashidabad, Tando Allah Yar. NBP's donation alms at serving the needs of students with hearing impairment from Grade 9 to Grade 14. The Wing thus meets the need for higher education of these students in lower Sindh where Government schools only go up to Grade 8. It is also the first and only college in interior Sindh that offers BA program for students with hearing impairment.

NBP also provided one-year scholarships for 100 students with hearing impairment to encourage and enable them to continue their studies and aim for higher education.

The Bank also provided assistance to Sanjan Nagar Public Education Trust for construction and equipping of a tech-enabled resource center for girls, located in its High School building in Lahore,

3. Cataract surgeries for underprivileged patients

NBP donated funds to Layton Rahmatullah Benevolent Trust for cataract surgeries of over 900 underprivileged adult patients.

Keeping in view the population segment to which the patients belonged, adult patients were focused for this initiative so that they could get well and start earning income, thus benefitting the whole family.

4. Blind Cricket tournament

NBP has been sponsoring Pakistan Blind Cricket Council (PBCC) cricket tournaments for over a decade now as a part of its diversity and inclusive initiative for differently abled persons.

In the year under review, the bank provided sponsorship for the 12th and 13th editions of NBP T-20 (Grade 1 & Grade 2) Blind Cricket Trophy for the years 2021-22 and 2022-23.

PBCC, a full member of Pakistan Cricket Board and founder member of the World Blind Cricket Council, aims to promote blind cricket at the national and international level, it arranges cricket tournaments at national and international levels for both men and women and also provides financial aid and counseling to the players for their welfare, education, training and rehabilitation.

Value Chain & Operating Model

The Bank's business model has evolved over 7 decades of unremitting commitment to the Nation and resilience to a challenging operating environment. We seek to generate and deliver value for inclusive development and growth of all our stakeholders through partnering for their prosperty while balancing our economic, social and environmental priorities,

Our refreshed vision of becoming "the Nation's leading Bank enabling sustainable growth and inclusive development" leads our focus on strategic planning to address emerging challenges and achieving balanced growth. Our strategic planning processes continue to evolve every year, building on the learnings of each planning cycle and the macro environment trends that shape our operating landscape. Financial Planning, Corporate Governance and Risk Management provide a framework and broader boundaries within which we conduct our business.

Our stakeholders' engagement processes help us in establishing our stakeholders' value propositions and maintaining an equitable balance between stakeholders' interests. Our strategy and KPIs are formulated considering the key inputs and the capitals available to us. Over the period we have developed a customer-focused business strategy to provide financial solutions to individuals, small and medium enterprises, as well as large corporate and public sector entities. We have established a dedicated business function for each category of our customers. Our business functions are primarily responsible for making their respective business strategies and plans while ensuring coherence with the overall strategic goals of the Bank.

For Corporate, Commercial and SME businesses, NBP is there to help entrepreneurs launch a start-up, fund their business growth. manage payments timely and securely, expand internationally, manage their finances effectively and deal with business counterparts globally through our branches and representative offices. Support functions at the Head Office manage adequate logistics and technological support for the business functions in executing their business strategy. Our control functions at Heed Office provide a supervisory and governance role through policy making and monitoring. These control functions ensure regulatory compliance as well as adherence to internal policy frameworks.

Creating Value for our Stakeholders

As the Nation's Bank, we endeavor to bring more to the society in line with the objectives of the State than just our financial target. Our long-term success is dependent on serving our customers welt and generating value for society through our products, services and facilities. At NBP, value is created through our business model, where we transform various inputs or Capitals through business actives & interactions to produce outputs and outcomes that create value over the short, medium or long-term. Our input is across various capitals, i.e. Financial Capital, Manufactured Capital, Human Capital, Intellectual Capital, Customer Capital, Social and Natural Capital. Compared to Corporates in other sectors, the financial institutions generate lower Return on Assets which is below 2% in general, compared to 15% - 20% earned by corporates in other sectors. To make the returns attractive for our shareholders, we resort to the process of a Gearing which enables the Bank to expand its business volumes by generating higher funding through deposit mobilization and borrowings and placing the same at premium in multiple streams of earning assets on the strength of a comparatively fixed and smaller amount of the shareholders' equity.

Thus, the Bank is currently operating at 17.4 times equity multiplier of net assets. Our business and value creation model is centered to the two basic functions of (I) Financial intermediation, and (II) Maturity Transformation. Financial Intermediation entails that the Bank acts as an intermediary between its various customers, e.g. depositors-to-borrowers, importers-to-exporters, remitters-to-beneficiaries by offering both fund based and non-fund based financial solutions. Maturity transformation on the other hand, is an act of borrowing money for short-term and invest or lend out at risk premium. These two functions are the key propellers of value creation and augmenting financial capital of the Bank through key income streams being (i) the fund based mark-up / interest income, and (ii) non-fund fee & commission income. Fund based income being the net interest margin, i.e. delta between the lending rate and the borrowing rate, compensates the Bank for the credit and interest rate risk it takes. Hence, the Bank's net interest / mark-up income is the residue from the mark-up income generated and the mark-up interest expensed on the deposits, borrowings and other debt obligations.

The Bank also earns non-fund based income by way of fee and commission for the services. This year, the Bank earned 72% of its total revenue by way of mark-up / Interest income. Rest of the 38% income was generated through capital gains, dividend income, income from dealing in foreign exchange, etc. These two major categories of income directly lead to augmenting the financial capital of the Bank.

Integrated Business Model

The Bank's integrated business model is illustrated as per the Integrated Reporting Framework and depicts the relationship of the Bank's CAPITALS under the integrated Reporting Framework.

inputs or CAPITALS

Key inputs for the Bank's business are its financial, intellectual, human, manufactured, natural, social and relationship capital. They are a source of differentiation for the organisation due to their strengths and capabilities. The organisation largely depends on these capitals to add value and provide outputs for its stakeholders. They play a key role in the robustness and resilience of the business model.

Stakeholders

The Bank's stakeholders are categorised into major categories that include shareholders, customers, regulators, rating agencies, suppliers, employees, and the societies where we operate.

Operating Context

For details on the external environment affecting the Bank, please refer to the Outlook section of this Annual Report.

Business Activities

- . Our business model adapts to continuous changes in the external environment, capital, business activities, and in turn, outputs and
- . Our differentiating factors are product suite, focused market segmentation, delivery channels, marketing, and cutting-edge technology to provide better services to customers and other stakeholders.
- We target long-term success through process improvements, employee training, relationship management and product innovation.

The Bank's products and services to its customers serve as the outputs of the business model. Please refer to our products and services on the coming pages within this section of the Annual Report.

Outcomes

Our internal outcomes (e.g. employee morale, organisational reputation, revenue, cash flows, etc.) and external outcomes (customer satisfaction, tax payments, brand loyalty, social and environmental effects, etc.) are part of our business model, and are an outcome of top-notch services and products offered by the Bank. We focus on improving our services and operating standards to produce positive outcome.

Financial Performance

Operating Context and Outlook

The Bank's financial performance is significantly linked to rapidly changing external environment i.e. the socio, geo-political and economic trends both locally as well as globally. Therefore the Bank's financial performance for the year 2022 is meant to be read & evaluated in the backdrop of operating context.

Pakistan's economy recovered from the pandemic (a 0.94% drop in FY2020) and maintained a V-Shaped recovery by posting real GDP growth of 5,97% in the fiscal year 2022. This high growth, however, seems unsustainable and has resulted in financial and macroeconomic imbalances.

An already precarious economic situation was exacerbated by devastating flooding that damaged infrastructure, one-third of the agricultural production (which accounts for approx, 23% of GDP and 37% of employment) and about 33 million people, The World Bank has estimated economic losses over \$30 Bn and imminent reconstruction needs over \$16 Bn. Due to a plurality of factors including the shrinking fiscal space, political noise, exchange rate pressure, mounting current account deficit, inflation, energy sector bottlenecks, and the absence of a supportive environment for the private sector, Pakistan was faced with a bleak and austere 2022. The Rupee recorded a new low of 285.1 per dollar and Pakistan's sovereign rating was downgraded.

Pakistan GDP Growth

After recording near 6% GDP growth for the last two years. Pakistan's GDP in FY23 is expected to grow by 2% only. Such a substantial drop in growth is largely attributable to the devastation caused by historic monsoon floods and the moderation coming into effect as a result of monetary tightening, fiscal adjustments as well as import restrictions.

Forex Reserve and Exchange Rate

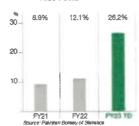

Official liquid reserves fell by USD 12.1 Bn during 2022 on account of foreign debt servicing and surge in imports amid delays in completion of the IMF-EFF reviews which resulted in external funding disruptions. Nevertheless, official reserves currently stand at USD 4.3 Bn i.e. close to a month's import cover, with the completion of the 9th IMF-EFF review in final stages.

External uncertainties including USD amugaling put immense pressure on the Rupee in 2022. Consequently, the Rupee lost 28% of its value against the US dollar in 2022, averaging PKR 204.5/USD during the year according to data published by the SBP. However, the situation has only worsened as the Rupee has depreciated another 24% since the start of 2023.

Challenges Facing the **Banking Industry**

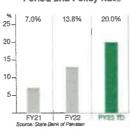

- · Regulatory restrictions
- Advances growth was affected
- Higher operational costs due to high inflation, nuisee
- Destine in value of the
- Growth in deposits in the
- challenges.

Headline Inflation

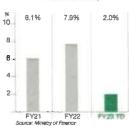

Headline inflation is expected to remain high for the rest of FY23 driven by higher food, fuel and utility prices along with build-up in core inflation as a result of second-round Accordingly, the SBP is now expecting average inflation in FY23 to armve in the range of 27-29%. Average inflation in FY22 was 12 196

Period End Policy Rate

Interest rates are up 1,025 bps since the beginning of 2022 to date with the benchmark policy rate currently set at 20% after the most recent hike of 300bps in Mar'23. However, higher than expected inflation readings (core segments specialty) going forward may make the case for further increase in Interest rates during 2023.

Fiscal Deficit

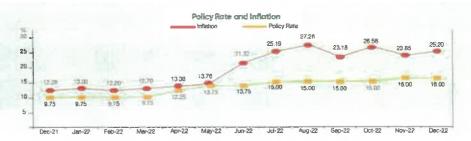

On the fiscal side, Pakistan's challenges continue with 1HFY23 fiscal deficit clocking in at 2% of GDP. With the ambitious targets set by the IMF for FY23, the Government is squeezed for fiscal space having to cut down expenditure including subsidies and introduce additional revenue measures like hiking GST by 1% and imposing FED on several items.

impact of Government's Policies on the Bank's Business and Performance

Following are the Government of Pakistan's policies related to banking and financial service industry having a bearing on the Bank's business:

- Reduction in the capital conservation buffer by 100 basis points to 1.5%;
- Implementation of IFRS-9 attracting higher provisions for expected credit lossed and capital adjustment
- . Increasing the regulatory limit on extension of credit to SMEs and agriculture;
- . Introduction of refinancing schemes for payment of wages and salaries.
- · Promotion of Riba free banking in the country

The mandated lending programs e.g. Mera Pakistan Mera Ghar, Kamyab Jawan Youth Loan, Prime Minister Business Loan and minimum credit targets for Agricultural loans also have significant Impact on the Bank's business. Government's policies for subsidized financing / re-finance e.g. "Temporary Economic Refinance Facility" (TERF) for new industrial projects as well as capacity expansion was another source of impact on the Bank's business. NBP consistently demonstrated its dedication to achieving these development goals and has been recognised time and again for its remarkable performance and contribution towards economic development.

Material Considerations of a Sustainable NBP_____

Being a bank with an agenda to play a National role aligned with objectives the State, material matters and considerations in the process of our strategy making are significantly different from those of other commercial banks in the Country.

The emerging trends in product delivery and the mounting financial headwinds in the prevailing economic environment have resulted into newer challenges, trends and developments with multiple influences on our operations prompting the Bank to pursue a multi-layered strategy for meeting varying expectations of its stakeholders in a balanced & sustainable manner.

In these challenging times, the Bank has helped its customers by offering affordable banking & financial products, while fulfilling genuine needs of its employees and safeguarding the shareholders' value and ensuring compilance to taxonomies of sustainable banking. In particular, the accelerated focus on continuity of uninterrupted delivery of services has prompted the Bank to enhance its digital offering encompassing the entire customer journey.

Amid certain contingencies that may have major impact on our capital base, the Bank's resilience was second to none. Being agile to the emerging trends in technology, stakeholders' preferences and the call for playing an extended role for National economic stability, the Bank adapted nimbly to the exterior environment.

In setting its asset growth and risk strategies, the Bank also remains vigilant on emerging global trends, disruptions and novelties that influence our performance and sustainability. In a time of financial crises, rising policy rates and volatile exchange rate environment, we were particularly watchful of our maintaining financial cushions, liquidity and capital buffers by embarking on farsighted provisioning.

Identify

We regularly identify matters that have, or may have, an impact on the Bank's sustainability and ability to create value for its stakeholders.

Prioritize

We prioritise matters in relation to their impact on the Bank's ability to deliver its strategy, and influencing the decision of key stakeholders.

Respond & Review

Identified material matters are integrated into the Bank's strategy formulation with clearly setting KPIs, measurement of performance.

In order to help identify material matters and topics, adapt the Bank's strategy to emerging market trends, and play its significant role in the country's economic system. the Bank analyses its external environment to identify matters arising from changes that are brought forth by the various developments in the political, economic, social, technological, environmental, and legal/regulatory spheres in the recent past that were relevant to key stakeholder groups, as given below:

Our approach to managing Matterial Matters

The Bank pursues a strategy to best protect the Interest of all its stakeholders through mutuality and shared value. In the process, the Bank identifies the topics material to its strategic planning. This entails allocating the required resources to each business and control group based on the significance of each material topic towards achieving the strategic imperatives. Delivery of material topics is measured against predefined and budgeted targets that are approved by the Board and communicated to each strategic unit at beginning of the year.

As effective set of policies and procedures has been put in place to guide our people on how to execute their activities in a responsible and ethical manner in managing the material topics. Adherence to the policies & controls to accomplish the objectives of material topics is ensured through periodic internal and external assurance and verifications, findings of which are reported to the Board and/or the relevant Management Committees for Information and corrective action, where necessary.

Strategic Overview

AGM & Supplementary Info.

We pay close attention to the environment in which we operate, scanning the horzon for risks and opportunities, and adapting our strategies accordingly. We also monitor trends in the behaviour of our customers and clients so we can effectively meet their evolving needs.

Possible Implication The Bank's Response

Potential of new Entrant into the industry

Entry of new rivals may have an impact on the Bank's business and profitability in the long run. However, heavy minimum capital requirements and time taking licensing process to setup a bank serve as strong entry barrier for new entrants. However, the central bank has recently been following accommodative policy allowing entry of microfinance banks and Fintech that are posing a threat in the retail segment by focusing on transactional services through innovative digital solutions,

NBP is responding to such threats by:

- Adopting more customer-centric business strategies and improving service quality and convenience for retaining customer
- Substantially investing into and enhancing its digital banking platforms for improving customer convenience:
- Launching new products and services that cater to a diversified customer base; and
- Increasing its Islamic banking product suite and outreach.

Bargalning power of customers and suppliers

The retail/transactional level customers/ suppliers usually enjoy relatively higher bargaining power to switch to other competitors due to the low switching costs involved. Although such customers are primary source of funding to the Bank, their bargaining power is considered 'low' as they individually have a minimal impact on the Bank's bottom line. The bargaining power of larger groups (e.g. moving away of the deposits by Government entities to Treasury Single Account) and corporate customer is comparatively greater as their moving away may have sizeable impact on funding and revenues of the Bank.

NBP follows a cohesive strategy to strengthen its business relations with the providers of funds as well as with the suppliers:

- · Identifying alternative sources of funding/ supplies
- Establishing cordial business relations and treating our suppliers as business partners to create a win-win situation.
- Optimising the concentration risk

Intensity of competitive rivairy

Pakistan's banking industry that comprises of commercial banks. DFIs. microfinance institutions, Fintech, etc. is quite competitive as the banks have focused on developing a wide range of products to enhance their market share through customer acquisition and toyalty. Product differentiation and the low switching costs give the customers freedom to easily move from one bank to other.

Recent development in delivery of services by Fintech through digital channels has further intensified rivalry in the banking industry.

NBP has initiated following measures with a view to consolidating and further improving its

- by distinguishing itself in the marketplace primarily on the basis of its longevity, experience and brand image:
- · launches NBP Digital App for delivery channels
- offering low-cost banking solutions for customer retention and loyalty
- · leading the G2P payment initiatives

Strategic Objectives

Our objectives in the short-term, medium-term and long-term are reviewed and aligned every year by the Management and approved by the Renk's Board of Directors

Broadly strategic objectives of the Bank are categorised as tollows:

Short-Term

- · increasing digital banking footprint,
- · Rationalising the international franchise
- · Improving service quality and customer experience
- Strengthening control and compliance functions:

Medium-Term

To enhance our market share by prudently expanding the core business and strengthening infrastructure by investing into I.T. systems and human capital,

Long-Term

The Bank You Trust

Building on the short-term and medium-term achievements, the Bank's long-term objective is to be the Nation's leading bank enabling sustainable growth and inclusive development.

Supporting Customers

Putting our customers at the core of the

strategic decisions we make in pursuit of our vision to enable sustainable growth and inclusive development.

Powered by Digitalising

(

Making our business operations more efficient and technologically advanced to enable our customers and clients to engage with us in the way they want to.

Inclusive Bank

Diversify our omanisation by business. geography and income type to be more resilient to economic headwinds and future trends.

Strengthen **Our Culture**

Improve our service guality and corporate image of the Bank to make it the best choice for our customers and colleagues.

Prudent Resource Allocation

To ensure efficient resource allocation for generating sustainable and long-term returns for each class of our stakeholders. development.

2023 Strategic Priorities

Overall, our strategic priorities for 2023 remain unchanged i.e. to be the Nation's leading bank enabling sustainable growth and inclusive development, in pursuit of our goals, we set our business strategy with frequent developments relating to technology, stakeholder preferences, Increasing unorthodox competition, greater regulations, atc.

These influences solicit strategic responses for achieving our strategic goals.

Since 2019, the word DELIGHTED has been an acronym for a vast majority of our institutional challenges which are: Data, Enterprise Risk, Legal, International Franchise, Governance, Human Resources, Technology, Expense Management and Digitalisation

Corporate Governance

Resource Allocation

In pursuit of our commitment to enhancing stakeholders' value and serving the Nation, we have deployed adequate resources to ensure efficient strategy execution. Our resources fall under 6 major categories, each one is briefly discussed below:

Financial Capital

The Banks' financial capital comprises of the funds injected by the equity shareholders and it helps the Bank in acquiring, developing and maintaining other types of capitals to perpetuate its business. Financial capital also acts as a buner to absorb unanticipated losses and serves as a regulatory restraint on imprudent asset growth. Therefore, the regulators have prescribed minimum capital requirements, both in terms of quality and quantity.

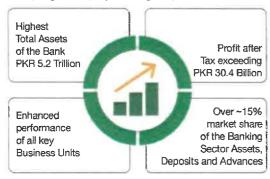

The Bank's policy is to maintain a strong capital base so as to maintain investors, creditors and market confidence and to sustain development of the business. Adequacy of the Bank's financial capital is monitored using, inter alia, the rules and ratios established by the SBP. The Bank has devised effective stress testing scenarios to assess the strength of its financial capital under the Internal Capital Adequacy and Assessment Process (ICAAP). Other tools deployed include prudent capital allocation, balancing risk-weighted assets, efficient maturity profiling interest bearing assets & liabilities, etc.

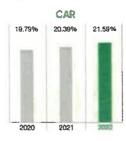

Key objectives of our Capital Management & Adequacy Strateay include:

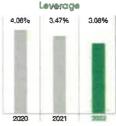

- Regulatory Compliance
- · Meeting internal capital targets which are more stringent than the regulatory requirements
- Maintaining optimum Risk Weighted Assets for profit maximisation
- Achieving Corporate Sustainability
- · Securing the highest credit rating for the Bank.

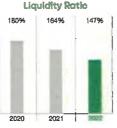

The Bank has devised effective stress testing scenarios to assess the impact on the financial capital of the Bank under the internal Capital Adequacy and Assessment Process (ICAAP).

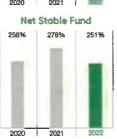

Other tools deployed include prudent capital allocation, balancing risk-weighted assets, timely asset repricing, dividend policy and earning asset portfolio mix.

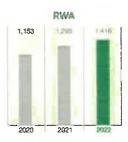

At end 2022, the total Risk Weighted Assets Credit Risk and Market Risk amounted to PKR 1,066 Bn (2021: PKR 984 Bn) and PKR 94 bn (2021: PKR 82 Bn), respectively. Whereas, RWA under Operation Risk amounted to PKR 259 Bn (2021; PKR 229 Bn). Overall, the RWAs were increased by 9.5% YoY to PKR 1,418 Bn.

Through efficient strategy execution, the Bank generated healthy operating profit during 2022, further strengthening Capital Adequacy of the Bank. As of December 31, 2022, the Bank's total eligible Capital amounted to PKR 306.2 billion (2021; PKR 264.1 billion), of which Eligible Tier-I Capital amounted to PKR 231.2 billion (2021: 199.75 billion). At end 2022. CET-1 ratio stood at 16.30% (2021:15.42%), whereas the Total Capital Adequacy Ratio stood at 21,59% (2021;20,39%).

Moreover, NBP is the only Bank in Pakistan with credit rating of 'AAA' by both the approved credit rating agencies in Pakistan. In June 2022, M/s JCR-VIS Credit Rating Company again reaffirmed the Bank's standalone rating of "AAA", one of the highest credit ratings accorded by the company for any bank in Pakistan, PACRA has also assigned a long-term entity rating of 'AAA' (Triple AAA) and short-term rating of 'A1+' (A-one Plus), This strong credit rating capacitates the Bank to access additional capital in case a requirement arises.

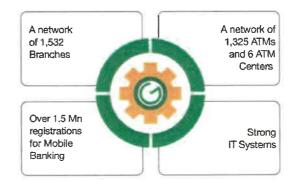

For further details, please refer to Note 46 to the Financial Statements.

Manufactured Capital

This refers to Capital goods, i.e. Buildings, I.T. infrastructure, ATMs, Vehicles, Equipment, etc. built or acquired by the Bank, Given the extreme importance of the manufactured capital in smooth execution of its operations, value creation and to meet future chattenges, the Bank focuses on maintaining adequate manufactured capital. The Bank is, and will continue to, invest in its LT. Infrastructure with the objective of digitising its products and services. A major project initiated this year is the up gradating of core Banking Application.

The Bank is maintaining an optimal balance between owned and rented business premises. Further, the Bank is also mindful of the requirement to maintain a healthy work environment within the Bank premises and is continuously investing for modernisation of the business premises. We have started a plan to standardise our workplace ambiance and quality.

Total value of our manufactured capital stood at PKR 57.1 billion (2021; PKR 54.2 billion) at the end of 2022. For further details, please refer to Note 12 to the Financial Statements.

Strutegic Overview

Financial Statements

AGM & Supplementary Info.

Human Capital

We consider our human capital as the Bank's most important asset. The Bank's most important asset is its human capital. At 31 December 2022. the Bank had 15.112 (2021: 15.409) people as its full time employees. In addition, the Bank also engages 1,218 (2021 : 1,273) outsourced personnel of services companies for delivering certain non-critical functions. Our human capital pool functions to achieve common goals with dignity, dedication, and mutual respect.

This year too, we took effective measures to dampen the effects of Covid-19 crisis through constant liaison with the hospitals and staff in need of treatment for Covid-19, and enlistment of reputed hospitals on the Bank's approved panel.

Our teams remained available 24/7 to execute the hospitalisation claims and to arrange new panel hospitals with Covid related hospitalisation/isolation facilities for staff and their dependents. Entire costs for Covid-19 pathological tests, injections/medications and antibodies test for staff (and their dependent family members) are being fully covered by the Bank, Further, the Bank is compensating with additional amount of PKR 1.5 million to the families of those NBP team members who expired during Covid-19 nandemic

Social & Relationship Capital

We strongly believe the Bank's viability greatly depends on its sustainable relationship with each stakeholder group, e.g. customers, suppliers and business partners, and the wider community, are built on mutual trust, loyalty, and shared values. This Relationship Capital creates opportunities for the Bank in the process of value creation for our shareholders. To establish and develop our relationship capital, the Bank interacts with its customers and other stakeholders in a number of ways. We also invest into and contribute towards the growth of our communities through various charity and support activities, particularly in the areas of Education, Healthcare, Environment, Sports and Promotion of Culture. During the year 2022, the Bank invested considerable amounts into CSR initiatives.

Intellectual Capital

Intellectual Capital, being an intangible asset, has zero value on the Bank's balance sheet but positively impacts the performance and success of the Bank. Our intellectual capital includes the brand synonymous values and conduct, human capital knowledge and skills, systems and processes, software and corporate governance. Over the period, the Bank has strengthened and enriched its Intellectual Capital through continued measures including deployment of I.T. of Credit, Compliance, Investment, Human Resource Management and Risk Management, etc.

Natural Capital

This includes natural resources like soil, earth, water and oil, etc. Unlike manufactured resources, most natural resources are finite and cannot be replenished. Internally, the Bank has put in place policy guidelines for economical consumption of materials, water and energy in a sustainable manner which also helps the Bank In improving its cost-to-income ratio. While paper continues to be a major component of the Bank's consumptions of materials, we are encouraging a 'less-paper' environment through promoting Digital Banking, ATMs, E-statements, and distribution of the Annual / Quarterly reports in cligital form. As another measure, we have made it mandatory that only energy-efficient lights, e.g., LED's are installed at all our premises. In line with directives of the State Bank of Pakistan, the Bank is developing credit policies to promote Green Banking in Pakistan,

Listening to our Stakeholders

The Board and the Management engages directly and indirectly with stakeholders to built an understanding of the impact of the Bank's operations on key stakeholders, This engagement, both directly and through regular communiques ensures the Board and the Management is well-versed on key issues of our stakeholders and their legitimate requirements. These are considered in strategic decision making by allocating adequate resources and inputs to meet stakeholders' requirements. In doing so, we follow a balanced approach by allocating required CAPITALS to ensure sustained growth and value creation.

Customers and Clients

Why they are important to us?

Engaging with our customers and clients helps us in:

- · Maintaining custome: lovatty and our marke leadership position
- Devised better solution for our customers' financial requirements
- Integrating agnievement or strategic objectives

How we engage and what are their expectations?

We enhage with our customer in a wide vanery of ways. including running regular meetings, analysing custome complaints, roiding Khulli-kachehri drawing on the

market data and insignts and personal customer interactions.

- Our customers are looking for better and all-inclusive digital offering
- They want improved service quality and convenient business environment.
- . They want their data and deposits to be safe
- · Grievance handling mechanism
- · Financial education and literacy
- · Financial support for revival of business
- Need of Financial support to: women entrepreneurs

How well we responded?

We have continued to support our customers through enhanced market visibility and product suite. We strengmented Complaint Management System to facilitate the custome: profesionally, Service Quality Committee exists to toresee custome: issues and navise fixes that could result into satisfied customers. Robusi Service Quality and Complaint Management Function are in place. Complaint resolution rate improved to 99%, and our ATM uptime has improved to 95%. Our Digital App. and Internet Banking services are more officient. In the challenging time, we are offering convenient loans to all the factors in the economy, with particular focus on SME. Acriculture and Retail.

Parallel to increased investments in the Bank's digital infrastructure, measures have also been taken to strengthen the IT Security Framework through noticy revisions, regular vulnerability testing and alignment to leaguing IT/Cyber Security Standards and frameworks.

Our Colleagues

Why they are important to us?

Our people are Integral to deliver the strategic goal of serving the Nation for inclusive development & growth.

How we engage and what are they telling

We have an established engagement programme through dedicated HR business partners and Career Ambassadors. They provide us with insight that keeps us attuned to the different perspectives of our colleagues and respond accordingly.

In the challenging economic environment amidst inflationary pressures:

The Bonk You Trust

- · As colleagues embrace challenging working conditions as aftershocks of the Pandemic, they required healthy work conditions and health safety arrangements
- . Our colleagues told us that with rising costs, they needed financial support
- Our colleagues wanted support to be able to develop their own careers

How well we responded?

We brought forward healthy pay increase, awarding 15.000+ colleagues a considerable ad hoc allowance. To inculcate a culture of developing skills, a Competency Framework has been rolled out for grade SVP and above. The targeted outcome of this initiative is to identify employee strengths and development needs and align these to the Banks Development Needs Analysis by providing a clear and transparent framework and mechanism for developing their skills. Subsequently, this framework shall be linked to Learning. & Development, Talent Management and various other functions of HRMG. We supported colleagues with their next career move within the Bank, helping to retain our diverse and inclusive workforce and mitigate redundancies.

In the year 2022, we have taken unprecedented steps not only in terms of enlistment of well-reputed hospitals on Bank's approved panel, providing our people with greater control over their health requirements.

Further details are available in Human Resource Management Section at Page # 151.

Strategic Overview

AGM & Supplementary Info

investors

Why they are important to us?

Engaging with our shareholders, particularly the minority shareholders, and other market participants helps us in having understand their priorities and drive balanced outcomes.

How we engage and what are they telling

We continue to benefit from productive engagement with the shareholders, investors, rating agencies and the analysts. In 2022, we were able to interact more frequently, enabling deeper engagement with such stakeholders irrespective of their individual location. Key takeaways from our dialogue have been:

- · Continued financial performance and resilience to adverse economic environment
- · Return to the shareholders
- · Financial soundness and resilience to ensure safety of investors' value
- · Transparency and disclosure
- · Risk management and governance
- · Dividend payments and restrictions imposed by the regulator

How well we responded?

- . We provided improved details on our financial performance & position with greater insights into operating context, interest
- We delivered strong growth to shareholder's value through higher retained earnings of PKR 30.4 Bn and PKR 12.6 Bn set aside as provision to buttress our Balance Sheet,
- Shareholders' Net Assets Increased to PKR 300.8 Bn with break-up value per share increasing to PKR 141.
- · Investor Relations helped establish engagement with the analysts, credit rating agencies and financial journalist for building trust and gaining greater market visibility for the Bank.
- . We continued to enhance transparency in our disclosures. Our efforts were recognised through NBP achieving the 3rd consecutive Certificate of Merit Award under the Best Corporate Report Awards.

Strategic Performance

PKR 208 Bn Hald as Provisions

A detailed review of our financial delivery to investors is presented elsewhere in this Report and more specifically on Page # 115 - Page # 142

Suppliers

Why they are important to us?

for smooth running of its business operations and uninterrupted delivery of services to its customers the Bank's supply chain comprises of large number or vendors from various locations, both local and international through whom a procures fi equipment. stationery and other materials as well as service providers. who provide a vanety of services required for the smooth continuity of operations

How we engage and what are they telling us?

- . They want long-term work relationship
- Adherence to contractual terms and conditions
- Promot paymonts
- fransparency & confidentiality

How well we responded?

The Bank You Trust

- · Adhere to proper procurement regulations while maintaining good business relationships with the service providers
- Improving turnaroung time for payments
- · Fair dealing

Society

Why they are important to us?

They are important to us for having best collaboration with our community for delivering our social responsibilities. This also helps us in obtaining inputs from communities which are necessary for smooth running of our operations.

How we engage and what are they telling us?

In 2022, we engaged with a wide range of organisations, including non-governmental organisations (NGOs) and others where appropriate. We participated in various sustainability forums. Major themes we heard from them included:

- · Wanting to see continued progress related to social and environmental governance
- · Support for communities facing hardship
- An increased focus on nature and biodiversity

How we responded?

We engaged with NGOs, by participating in various CSR Initiatives. We have worked to promote diversity, equity and Inclusion. In support of the communities in which we operate, through our CSR programme we have reached thousands of individuals to help them in the area of e.g. health, education, safe water & sanitation, gender equality and women empowerment. A detailed report on CSR initiatives is given on Page # 163.

Independent Auditors' Report

To the members of National Bank of Pakistan Report on the Audit of the Unconsolidated Financial Statements

Opinion

We have audited the annexed unconsolidated financial statements of National Bank of Pakistan (the Bank), which comprise the unconsolidated statement of financial position as at December 31, 2022, and the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement for the year then ended, along with unaudited certified returns received from the branches except for 98 branches which have been audited by us and notes to the unconsolidated financial statements, including a summary of significant accounting policies and other explanatory information and we state that we have obtained all the information and explanations which, to the best of our knowledge and belief, were necessary for the purposes of the audit.

In our opinion and to the best of our information and according to the explanations given to us, the unconsolidated statement of financial position, unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement together with the notes forming part thereof conform with the accounting and reporting standards as applicable in Pakistan, and, give the information required by the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017), in the manner so required and respectively give a true and fair view of the state of the Bank's affairs as at December 31, 2022 and of the profit and other comprehensive loss, the changes in equity and its cash flows for the year then ended.

Basis for Opinion

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Unconsolidated Financial Statements section of our report. We are independent of the Bank in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code) and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Emphasis of Matter

We draw attention to note 25.3.4.1 to the unconsolidated financial statements which explains the contingency in relation to the pension obligation of the Bank. The Bank, based on the opinion of its legal counsel, is confident about a favorable outcome on this matter and hence, no provision has been made in these unconsolidated financial statements. Our opinion is not modified in respect of this matter.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the unconsolidated financial statements of the current period. These matters were addressed in the context of our audit of the unconsolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

A.F. Ferguson & Co. Chartered Accountants

Following are the Key Audit Matters:

C Na	Man Anglie St.	How the motter was addressed in our sudit
S.No.	Key Audit Matter	How the matter was addressed in our audit
1	Provision against advances (Refer notes 5.6 and 11.4 to the unconsolidated financial statements)	
	The Bank makes provision against advances extended in Pakistan on a time-based criteria that involves ensuring that all non-performing advances are classified in accordance with the ageing criteria specified in the Prudential Regulations (PRs) issued by the State Bank of Pakistan (SBP). In addition to the above time-based criteria, the PRs require a subjective evaluation of the credit worthiness of borrowers to determine the classification of advances. The PRs also require the creation of general provision for certain categories of advances. Provision against advances of overseas locations is made as per the requirements of the respective regulatory regimes. The Bank has recognized a net provision against advances amounting to Rs. 8,060 million in the unconsolidated profit and loss account in the current year. As at December 31, 2022, the Bank holds a provision of Rs. 208,059 million against advances. This includes a general provision against the underperforming portfolio on a prudent basis. The determination of provision against advances based on the above criteria remains a significant area of judgement and estimation. Because of the significance of the impact of these judgements / estimations and the materiality of advances relative to the overall unconsolidated financial statements of the Bank, we considered the area of provision against advances as a key audit matter.	Our audit procedures to verify provision against domestic advances included, amongst others, the following: Obtained an understanding of the management process to record provision and ensure that it is consistent with the requirements of PRs; Evaluated the design and tested the operating effectiveness of the relevant controls established by the Bank to identify loss events and for determining the extent of provisioning required against non-performing advances; and Selected a sample of loan accounts and performed the following substantive procedures to evaluate the appropriateness of specific and general provision: i) Checked credit documentation, repayments of loan / mark-up instalments, tested classification of non-performing advances based on the number of days overdue; ii) Evaluated the management's assessment for classification of a customer's loan facilities as performing or non-performing based on review of repayment pattern, inspection of credit documentation and thorough discussions with the management; iii) In case of restructured loans, we reviewed the detailed documentation of restructuring including approvals, legal opinions, terms of restructuring including approvals, legal opinions, terms of restructuring, payment records and any other relevant documents to ensure that restructuring was made in accordance with the PRs; iv) We also reviewed minutes of the meeting of credit, risk and compliance and audit committees to identify risky exposures; and v) We had discussions with management to challenge assumptions and judgements used in performing portfolio review and recording provisions. We issued instructions to auditors of those overseas branches which were selected for audit, highlighting 'Provision against advances' as a significant risk. The auditors of those branches performed audit procedures to check compliance with regulatory requirements and reported the results thereof to us. We, as auditors of the Bank, evaluated the work performed by the component auditors and the results thereof.

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

S.No.	Key Audit Matter	How the matter was addressed in our audit
2	Valuation of listed equity shares, units of mutual funds and term finance certificates classified as available-for-sale (Refer notes 5.2 and 10.1 to the unconsolidated financial statements)	
	The Bank has significant investments in equity shares, units of mutual funds and term finance certificates (TFCs) classified as Available for Sale (AFS). As per the Bank's policy, listed equity shares and units of mutual funds are required to be considered for impairment when there is a significant or prolonged decline in the fair value of investments. Further, TFCs are required to be assessed for impairment as per the SBP's Prudential Regulations which involves subjective criteria. The significance of the investment amount, subjectivity involved, and assumptions used in impairment make it significant to the unconsolidated financial statements. Therefore, we have considered this as a key audit matter.	 On a sample basis, we have performed the following procedures: Each investment's cost was compared to its market value wherever available to determine decline / surplus in valuation; Checked whether, in case of listed equity shares and units of mutual funds classified as available for sale, impact of significant or prolonged decline was recognized consistently as per the policy of the Bank as disclosed in note 5.25(c); and For TFCs, checked that listed TFCs were valued as per the quoted prices and unlisted TFCs were valued at cost less provision. Further, TFCs were also evaluated based on evidence of deterioration in the financial health of the investee and repayment pattern.

Information Other than the Unconsolidated and Consolidated Financial Statements and Auditors' Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the unconsolidated and consolidated financial statements and our auditors' reports thereon.

Our opinion on the unconsolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the unconsolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the unconsolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

A.F. Ferguson & Co. Chartered Accountants

Responsibilities of Management and the Board of Directors for the Unconsolidated Financial Statements

Management is responsible for the preparation and fair presentation of the unconsolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of unconsolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the unconsolidated financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Bank's financial reporting process.

Auditors' Responsibilities for the Audit of the Unconsolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the unconsolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to Influence the economic decisions of users taken on the basis of these unconsolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- · Identify and assess the risks of material misstatement of the unconsolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- · Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the unconsolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.

Evaluate the overall presentation, structure and content of the unconsolidated financial statements, including the disclosures, and
whether the unconsolidated financial statements represent the underlying transactions and events in a manner that achieves fair
presentation.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide to the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the unconsolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

- 1. Based on our audit, we further report that in our opinion:
 - a) proper books of account have been kept by the Bank as required by the Companies Act, 2017 (XIX of 2017) and the returns referred above from the branches have been found adequate for the purpose of our audit;
 - b) the unconsolidated statement of financial position, the unconsolidated profit and loss account, the unconsolidated statement of comprehensive income, the unconsolidated statement of changes in equity and the unconsolidated cash flow statement together with the notes thereon have been drawn up in conformity with the Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and are in agreement with the books of account and returns;
 - c) investments made, expenditure incurred and guarantees extended during the year were in accordance with the objects and powers of the Bank and the transactions of the Bank which have come to our notice have been within the powers of the Bank;
 and

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

A.F. Ferguson & Co. Chartered Accountants

- d) zakat deductible at source under the Zakat and Ushr Ordinance, 1980 (XVIII of 1980), was deducted by the Bank and deposited in the Central Zakat Fund established under section 7 of that Ordinance.
- 2. We confirm that for the purpose of our audit we have covered more than sixty per cent of the total loans and advances of the Bank.

The engagement partners on the audit resulting in this independent auditors' report are Nadeem Yousuf Adil and Shahbaz Akbar on behalf of Yousuf Adil and A. F. Ferguson & Co. respectively.

For the year ended December 31, 2022

STATUS AND NATURE OF BUSINESS

National Bank of Pakistan (the Bank) was incorporated in Pakistan under the National Bank of Pakistan Ordinance, 1949 and is listed on the Pakistan Stock Exchange (PSX). Its registered and head office is situated at I.I. Chundrigar Road, Karachi. The Federal Government through State Bank of Pakistan (SBP) holds controlling interest (75.6% shareholding) in the Bank. The Bank is engaged in providing commercial banking and related services in Pakistan and overseas. The Bank also handles treasury transactions for the Government of Pakistan (GoP) as an agent to the SBP. The Bank operates 1,512 (2021: 1,513) branches in Pakistan including 188 (2021: 189) Islamic Banking branches and 18 (2021: 19) overseas branches (including the Export Processing Zone branch, Karachi). The Bank also provides services in respect of Endowment Fund for students loan scheme and IPS accounts.

BASIS OF PRESENTATION 2.

In accordance with the directives of the Federal Government of Pakistan regarding the shifting of the banking system to 21 Islamic modes, the SBP has issued various circulars from time to time. Permissible forms of trade related mode of financing include purchase of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these unconsolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

Key financial figures of the Islamic banking branches of the Bank have been disclosed in annexure II to these unconsolidated financial statements.

- These are the unconsolidated financial statements of the Bank in which the investments in subsidiaries, associates and joint 2.2 ventures are stated at cost and have not been accounted for on the basis of reported results and net assets of the investees which are done in the consolidated financial statements.
- The US Dollar amounts shown on the statement of financial position, profit and loss account, statement of comprehensive 2.3 income and cash flow statement are stated as additional information solely for the convenience of readers. For the purpose of conversion to US Dollars, the rate of Rs. 226.4309 to 1 US Dollar has been used for 2022 and 2021 as it was the prevalent rate as on December 31, 2022.

STATEMENT OF COMPLIANCE 3.

- These unconsolidated financial statements have been prepared in accordance with the accounting and reporting standards 3.1 as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:
 - International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
 - Islamic Financial Accounting Standards (IFAS), issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017;
 - Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
 - Directives issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP).

Where the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017, or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

SBP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and 3.2 Measurement' and IAS 40, 'Investment Property' for Banking Companies through BSD Circular Letter No. 10 dated August 26, 2002. Moreover, SBP vide BPRD circular no. 4, dated February 25, 2015, has deferred the applicability of Islamic Financial Accounting Standards (IFAS) 3, Profit and Loss Sharing on Deposits. Further, according to the notification of SECP dated April 28, 2008, the IFRS - 7 "Financial Instruments: Disclosures" has not been made applicable for banks.

For the year ended December 31, 2022

Accordingly, the requirements of these standards have not been considered in the preparation of these unconsolidated financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.

- The SECP vide SRO 56 (1) / 2016 dated January 28, 2016, has notified that the requirements of IFRS 10 (Consolidated 3.3 Financial Statements) and section 228 of the Companies Act, 2017 will not be applicable with respect to the investment in mutual funds established under trust structure.
- Application of new and revised International Financial Reporting Standards (IFRSs) 3.4
- Standards, interpretations of and amendments to published approved accounting standards that are effective in 3.4.1 the current year.

The following standards, amendments and interpretations are effective for the year ended December 31, 2022. These standards, amendments and interpretations are either not relevant to the Bank's operations or are not expected to have significant impact on the Bank's unconsolidated financial statements other than certain additional disclosures:

- Amendment to IFRS 16 'Leases' Covid-19 related rent concessions extended beyond June 30, 2021
- Amendments to IFRS 3 'Business Combinations' Reference to the conceptual framework
- Amendments to IAS 16 'Property, Plant and Equipment' Proceeds before intended use
- Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' Onerous Contracts -- cost of fulfilling a contract
- Annual improvements to IFRS Standards 2018-2020 Cycle (related to IFRS 9, IFRS 16 and IAS 41)

Certain annual improvements have also been made to a number of IFRSs.

Standards, interpretations of and amendments to published approved accounting standards that are not yet 3.4.2 effective.

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, interpretations and amendments are either not relevant to the Bank's operations or are not expected to have significant impact on the Bank's unconsolidated financial statements other than certain additional disclosures:

Effective from accounting period

		beginning on or after
-	Amendments to IAS 1 'Presentation of Financial Statements' - Disclosure of accounting policies	January 01, 2023
-	Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - Definition of accounting estimates	January 01, 2023
-	Amendments to 'IAS 12 Income Taxes' - deferred tax related to assets and liabilities arising from a single transaction.	January 01, 2023
-	Amendments to IFRS 16 ' Leases' -Clarification on howseller-lessee subsequently measures sale and leaseback transactions	January 01, 2024
-	Amendments to IAS 1 'Presentation of Financial Statements' - Classification of liabilities as current or non-current	January 01, 2024
-	Amendments to IFRS 10 and 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred indefinitely

For the year ended December 31, 2022

There are certain new and amended standards and interpretations that are mandatory for the Bank's accounting periods beginning on or after January 1, 2022 but are considered not to be relevant or do not have any significant effect on the Bank's operations and are therefore not detailed in these unconsolidated financial statements.

- The SBP vide its BPRD Circular No. 02 of 2023 dated February 9, 2023 has specified the new reporting format for financial 3.4.3 statements of Banking Companies. The new format has revised the disclosure requirements and will become applicable for the financial statements of the Bank for the quarter ending March 31, 2023.
- Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) 3.4.4 has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission of Pakistan:
 - IFRS 1 First Time Adoption of International Financial Reporting Standards
 - IFRS 17 Insurance Contracts
- The management anticipates that these new standards, interpretations and amendments will be adopted in the Bank's 3.4.5 unconsolidated financial statements as and when they are applicable and adoption of these new standards, interpretations and amendments, may have no material impact on these unconsolidated financial statements of the Bank in the period of initial application.

IFRS 9 Financial Instruments: 3.4.6

As directed by SBP via BPRD Circular no 3 of 2022, IFRS 9 Financial Instruments is effective for periods beginning on or after 1 January 2023 for banks having asset base of more than Rs. 500 billion as at 31 December 2021. SBP via same circular has finalized the instructions on IFRS 9 (Application Instructions) for ensuring smooth and consistent implementation of the standard in the banks.

During the 2022, the management of the Bank has performed an impact assessment of IFRS 9 taking into account the SBP's IFRS 9 application instructions. The assessment is based on available information and may be subject to changes arising from further reasonable and supportable information being made available to the Bank at the time of finalizing the impact for initial application of IFRS 9. In addition, the Bank will implement changes in classification of certain financial instruments. These changes and impacts are discussed below:

An overview of the IFRS 9 requirements that are expected to have significant impact are discussed below along with the additional requirements introduced by the SBP:

Governance, ownership and responsibilities

The Bank has adopted a governance framework requiring the Risk, Finance, Operations, Internal Audit and IT functions to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

Risk Management Division has develop Models/ methodologies for PD, LGD and Credit Conversion Factor (CCF). These models shall be validated on annual basis considering the following aspects:

- Quantitative Validation: Expected credit loss (ECL) model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed Pds.

Finance Division will ensure preparation of disclosures and incorporation of the impacts on the financial statements of the Bank. The function shall identify, prepare and extract the data required for the risk parameters modelling and ECL calculations. Finance Division shall ensure that all disclosures as required by the accounting standard and the SBP formats and guidelines are made.

For the year ended December 31, 2022

The risk management division will perform the back testing of ECL at least on yearly basis and will be responsible for the independent validation of the risk parameters / risk models; including PD, LGD and CCF etc., that are used to compute the ECL which would be carried out as per the policy.

Internal Audit will carry out periodic review of IFRS 9 methodology and impacts calculated by the Management.

Classification and measurement

The classification and measurement of financial assets will depend on how these are managed (the entity's business model) and their contractual cash flow characteristics. Financial assets that do not meet the SPPI criteria are measured at FVTPL regardless of the business model in which they are held. The Bank's s business model in which financial assets are held will determine whether the financial assets are measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVPL'). The classification of equity instruments is generally measured as Fair Value through Profit & Loss (FVTPL) unless the Bank elects for Fair Value through Other Comprehensive Income (FVTOCI) at initial recognition. The Bank has analyzed the impact of initial application of IFRS 9 on its financial assets as follows:

Equity Securities

The Bank expects to continue measuring at fair value all financial assets currently held at fair value.

For certain listed equity securities currently classified as available-for-sale (AFS) with gains and losses recorded in OCI, the Bank will apply the option to classify them as FVOCI. Therefore, the application of IFRS 9 will not have an impact on initial adoption. However, in accordance with the requirements of the standard, gains and losses recognized in OCI will not be recycled through the profit and loss account on derecognition of these securities.

The remaining listed equity securities will be measured at FVTPL. The AFS reserve related to those securities is currently part of Surplus on Revaluation of Assets and will be reclassified to retained earnings hence, there will be no impact on overall equity.

Unquoted equity securities are required to be measured at fair value under IFRS 9. However, the SBP has allowed banks to carry these investments under the current Prudential Regulations, i.e. at the lower of cost and break-up value, till accounting periods beginning on or after January 1, 2024.

Debt securities and Loans and advances

Debt securities currently classified as AFS and those passes SPPI test, are expected to be measured at fair value through OCI under IFRS 9 as the Bank's business model is to hold the assets to collect contractual cash flows, but also to sell those investment, Debt securities currently classified as HTM and those passes SPPI test are expected to be measured at amortized costs under IFRS 9 as the Group business model is to hold the assets to collect contractual cash flows.

Cashflows of certain debt instruments classified in AFS or / and HTM categories, do not expect to give risk to cash flows representing solely payments of principal and interest and accordingly, these would be measured at fair value through profit and loss.

Impairment

The impairment requirements apply to financial assets measured at amortised cost and FVOCI (other than equity instruments), lease receivables, and certain loan commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, an allowance (or provision) is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL'). Financial assets where 12-month ECL is recognised are in 'stage 1': financial assets that are considered to have experienced a significant increase in credit risk are in 'stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'stage 3'

For the year ended December 31, 2022

The assessment of credit risk and the estimation of ECL are required to be unbiased and probability-weighted, and should incorporate all available information which is relevant to the assessment including information about past events, current conditions and reasonable and supportable forecasts of economic conditions at the reporting date. In addition, the estimation of ECL should take into account the time value of money.

Based on the requirement of IFRS 9 and SBP's IFRS 9 application instructions, the Bank has performed an ECL assessment taking into account the key elements such as assessment of SCIR, Probability of Default, Loss Given Default and Exposure at Default. These elements are described below:

- PD: The probability that a counterparty will default, calibrated over the 12 months from the reporting date (stage 1) or over the lifetime of the product (stage 2) and incorporating forward looking information.
- LGD: An estimate of the loss incurred on a facility upon default by a customer. LGD is calculated as the difference between contractual cash flows due and those that the Bank expects to receive, including from the liquidation of any form of collateral. It is expressed as a percentage of the exposure outstanding on the date of classification of an obligor.
- EAD: the expected balance sheet exposure at the time of default, incorporating expectations on drawdowns, amortisation, pre-payments and forward-looking information where relevant.

For the purpose of calculation of ECL, the Bank has used 5 years data till 31 December 2022 and going forward, one more year's data shall be included until the Bank has at least 10 years data. For calculating ECL, the Bank shall classify its financial assets under three following categories:

- Stage 1: Performing Assets: Financial assets where there has not been a SICR since initial recognition, the Bank shall recognize an allowance based on the 12-month ECL.
- b) Stage 2: Under-Performing Assets: For financial assets where there has been a SICR since initial recognition, but which are not credit impaired, the Bank shall recognize an allowance based on lifetime ECL for all exposures categorized in this stage based on the actual maturity profile.
- c) Stage 3: Non-Performing Assets: For financial assets which have objective evidence of impairment at the reporting date, the Bank shall recognize ECL on these financial assets using the higher off approach, which means that lifetime ECL computed under IFRS 9 is compared with regulatory provision required as per Prudential regulations.

As required by the Application Instructions, financial assets may be reclassified out of stage 3 if they meet the requirements of Prudential Regulations (PR) issued by SBP. Financial assets in stage 2 may be reclassified to stage 1 if the conditions that led to a SICR no longer apply.

Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Bank uses a number of qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or interest payments are 60 days or more past due. Qualitative factors include unavailability of financial information and pending litigations.

Based on the level of increase in credit risk, the Bank shall calculate 12 month ECL for assets which did not have a SICR i.e., Stage 1 or a lifetime expected loss for the life of the asset (for assets which demonstrated a SICR) i.e., Stage 2.

At every reporting date, the Bank shall assess whether there has been a SICR since the initial recognition of the asset. If there is a SICR, the asset must be assigned to the appropriate stage of credit impairment (Stage 2 or 3).

Under the SBP's instructions, credit exposure (in local currency) guaranteed by the Government and Government Securities are exempted from the application of ECL Framework. Moreover, until implementation of IFRS 9 has stabilized, Stage 1 and

For the year ended December 31, 2022

stage 2 provisions would be made as per IFRS 9 ECL and stage 3 provision would be made considering higher of IFRS 9 ECL or provision computed under existing PRs' requirements.

Presentation and disclosure

IFRS 9 also introduces expanded disclosure requirements and changes in presentation which will be incorporated as per the SBP's revised format.

Loan / financing related fee

Loan origination / commitment fees that are regarded as compensation to the lender for an ongoing involvement with the acquisition of a financial instrument would be recognized over the life of the related loan. However, if the commitment expires without the lender making the loan, the fee would be recognised as revenue as earned.

Impact of adoption of IFRS 9

The actual impact of adopting IFRS 9 on the Bank's financial statements in the year 2023 may not be accurately estimated because it will be dependent on the financial instruments that the Bank would hold during 2023 and economic conditions at that time as well as accounting elections and judgements that it will make in future. Nevertheless, the Bank has performed a preliminary assessment of the potential impact of adoption of IFRS 9 based on its statement of financial position as at December 31, 2022.

Classification and measurement

Based on the bank's assessment, the IFRS 9 requirements are expected to have the following impact on the classification and measurement of its financial assets and financial liabilities:

- 1. Debt instruments amounting to Rs. 12,805 million have been reclassified from Available for Sale to Fair Value through Profit or Loss.
- 2. Equity instruments amounting to Rs. 20,024 million have been reclassified from Available for Sale to Fair Value through Profit or Loss.

Impairment

The total estimated adjustment (net of tax) of the adoption of IFRS 9 on the opening balance of the Bank's equity at 1 January 2023 is reduction in equity of approximately Rs. 10,555 million, representing corresponding impact related to impairment requirements;

Impact on regulatory capital

The implementation of IFRS 9 is expected to result in reduced regulatory capital of the Bank, which is likely to reduce their lending capacity and ability to support their clients. In order to mitigate the impact of expected credit loss (ECL) models on capital, SBP has determined that it may be appropriate for the Financial Institutions (FIs) to follow a transitional arrangement for the impact on regulatory capital from the application of ECL accounting. Annexure B of the 'Application Instructions' issued by SBP vide BPRD Circular No.3 of 2022 dated July 05, 2022, have detailed the transitional arrangement.

The transitional arrangement must apply only to provisions for stage 1 and 2 financial assets. The transitional arrangement must only adjust CET1 capital. Where there is a reduction in CET1 capital due to new provisions, net of tax effect, upon adoption of an ECL accounting model, the decline in CET1 capital (the "transitional adjustment amount") must be partially included (i.e. added back) to CET1 capital over the "transition period" of five years.

For the year ended December 31, 2022

The impact of adoption of IFRS 9 on the capital ratios of the Bank are as follows:

	As per adopted IFRS 9	As per current ARS
Common Equity Tier 1 Capital Adequacy ratio	16.26%	16.30%
Tier 1 Capital Adequacy Ratio	16.26%	16.30%
Total Capital Adequacy Ratio	21.55%	21.59%
CET1 available to meet buffers (as a percentage of risk weighted assets)	7.26%	7.30%

4. BASIS OF MEASUREMENT

These unconsolidated financial statements have been prepared under the historical cost convention except for revaluation of land and buildings and non-banking assets acquired in satisfaction of claims which are stated at revalued amount and certain investments and derivative financial instruments that are carried at fair value. In addition, obligations in respect of defined benefit plan are carried at the present values.

5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policy adopted in preparation of these unconsolidated financial statements are consistent with those of the previous financial year.

5.1 Cash and cash equivalents

Cash and cash equivalents include cash and balances with treasury banks, balances with other banks and call money lendings, less call borrowings and overdrawn nostro accounts.

5.2 Investments

Investments other than those categorised as held-for-trading are initially recognised at fair value which includes transaction costs associated with the investments. Investments classified as held-for-trading are initially recognised at fair value, and transaction costs are expensed in the profit and loss account.

All regular way purchases / sales of investments are recognised on the trade date, i.e., the date the Bank commits to purchase / sell the investments. Regular way purchases or sales of investments require delivery of securities within the time frame generally established by regulation or convention in the market place.

The Bank has classified its investment portfolio, except for investments in subsidiaries, associates and joint ventures into 'held-for-trading', 'held-to-maturity' and 'available-for-sale' as follows:

- Held-for-trading These are securities which are acquired with the intention to trade by taking advantage of short-term market / interest rate movements and are to be sold within ninety (90) days. These are carried at market value, with the related unrealised gain / (loss) on revaluation being taken to profit and loss account.
- Held-to-maturity These are securities with fixed or determinable payments and fixed maturity that are held with the intention and ability to hold to maturity. These are carried at amortised cost.
- Available-for-sale These are investments that do not fall under the held-for-trading or held-to-maturity categories. These are carried at market value except in case of unquoted securities where market value is not available, which are carried at cost less provision for diminution in value, if any. Surplus / (deficit) on revaluation is taken to 'surplus / (deficit) on revaluation of assets' account shown in equity. Provision for diminution in value of investments in respect of

For the year ended December 31, 2022

unquoted shares is calculated with reference to break-up value of the same. On derecognition or impairment in quoted available-for-sale investments, the cumulative gain or loss previously reported as 'surplus / (deficit) on revaluation of assets' in equity is included in the profit and loss account for the year.

- Provision for diminution in value of investments in unquoted debt securities is calculated as per the SBP's Prudential Regulations.
- Held-for-trading and guoted available-for-sale securities are marked to market with reference to ready quotes on Reuters page or MUFAP (PKRV / PKISRV / PKFRV) or the Stock Exchanges, as the case may be.
- Investments in subsidiaries, associates and joint venture companies are stated at cost. Provision is made for impairment in value, if any.

5.3 Repurchase and resale agreements

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the statement of financial position and are measured in accordance with accounting policies for investment securities. The counterparty liability for amounts received under these agreements is included in borrowings. The difference between sale and repurchase price is treated as mark-up / return / interest expense and accrued over the life of the repo agreement using effective vield method.

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the statement of financial position, as the Bank does not obtain control over the securities. Amounts paid under these agreements are included in lendings to financial institutions. The difference between purchase and resale price is treated as mark-up / return / interest income and accrued over the life of the reverse repo agreement using effective yield method.

5.4 Derivative financial instruments

Derivative financial instruments are initially recognised at fair value on the dates on which the derivative contracts are entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative instruments during the year is taken to the profit and loss account.

5.5 Financial instruments

All financial assets and financial liabilities are recognised at the time when the Bank becomes a party to the contractual provisions of the instrument. A financial asset is derecognised where (a) the rights to receive cash flows from the asset have expired; or (b) the Bank has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the Bank has transferred substantially all the risks and rewards of the asset, or (ii) the Bank has neither transferred nor retained substantially all the risk and rewards of the asset, but has transferred control of the asset. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to profit and loss account.

Advances 5.6

Advances are stated net of specific and general provisions. Provisions are made in accordance with the requirements of Prudential Regulations issued by the SBP and charged to the profit and loss account. These regulations prescribe a time based criteria (as supplemented by subjective evaluation of advances by the banks) for classification of non-performing loans and advances and computing provision there against. Such regulations also require the Bank to maintain general provision against consumer and Small and Medium Enterprises (SME) advances at specified percentage of such portfolio. General provision for loan losses of overseas branches is made as per the requirements of the respective central banks. Advances are written off where there are no realistic prospects of recovery. The amounts so written off is a book entry and does not necessarily prejudice the Bank's right of recovery against the customers. The Bank determines write-offs in

For the year ended December 31, 2022

accordance with the criteria as prescribed by SBP vide BPRD circular no. 06 dated June 05, 2007.

Islamic financing and related assets 5.6.1

Under Murabaha financing, funds disbursed for the purchase of goods are recorded as advance against Murabaha finance and the financing is recorded at the deferred sale price. Goods purchased but remaining unsold at the statement of financial position date are recorded as inventories.

Assets given on ligarah are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Ijarah assets are depreciated on a reducing balance basis over the term of the ljarah after taking into account the estimated residual value. Impairment of Ijarah assets is recognised in line with the Prudential Regulations or upon the occurrence of an impairment event which indicates that the carrying value of the ljarah asset may exceed its recoverable amount.

In Running Musharakah, the Bank and the customer enter into a Musharakah agreement where the Bank agrees to finance the operating activities of the customer's business and share in the profit or loss in proportion to an agreed ratio at an

Under Diminishing Musharakah financing, the Bank creates joint ownership with the customer over the tangible assets to fulfill capital expenditure / project requirements. The Bank receives periodic payments from the customer against the gradual transfer of its share of ownership to the customer.

In Istisna transactions, the Bank finances the cost of goods manufactured by the customer. Once the goods are manufactured, these are sold by the customer as an agent of the Bank to recover the cost plus the agreed profit.

Under Tijarah, the Bank purchases the finished goods from the customer against payment, takes possession and appoint customer as an agent to sell these goods to ultimate buyer on deferred payment basis. Profit is recognized on accrual basis over the period of transaction.

Wakalah is an agency contract in which Bank provides funds to the customer who invests it in a Shariah compliant manner.

In Musawamah financing, the Bank purchases the goods and after taking the possession, sells them to the customer either in spot or credit transaction, without disclosing the cost.

Fixed assets and depreciation 5.7

Property and equipment 5.7.1

5.7.1.1 Owned assets

Property and equipment, except land and buildings, are stated at cost less accumulated depreciation and accumulated impairment losses, if any, Land is stated at revalued amount, Buildings are stated at revalued amount less accumulated depreciation and impairment, if any. The cost and the accumulated depreciation of property and equipment of foreign branches include exchange differences arising on currency translation at the year-end rates. Depreciation is charged to profit and loss account applying the straight line method except buildings, which are depreciated on diminishing balance method at the rates stated in note 12.2. Depreciation on addition is charged from the month in which the assets are available for use and no depreciation is charged in the month the assets are disposed off.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit and loss account during the period in which they are incurred.

Assets are derecognised when disposed off or when no future economic benefits are expected from its use or disposal. Gains and losses on disposal of property and equipment are included in profit and loss account.

For the year ended December 31, 2022

The assets' residual values and useful lives are reviewed annually, and adjusted if appropriate, at statement of financial position date.

Land and buildings' valuations are carried out by professionally qualified valuers with sufficient regularity to ensure that their carrying amounts do not differ materially from their fair value.

- Any revaluation increase arising on the revaluation of such assets is recognised in the statement of comprehensive income and accumulated in equity, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit and loss account, in which case the increase is credited to profit and loss account to the extent of the decrease previously expensed. A decrease in the carrying amount arising on the revaluation of such assets is recognised in profit and loss account to the extent that it exceeds the balance, if any, held in "Surplus on Revaluation of Fixed Assets" relating to a previous revaluation of that asset.
- Depreciation on assets which are revalued is determined with reference to the value assigned to such assets on revaluation and depreciation charge for the year is taken to the profit and loss account.
- An amount equal to incremental depreciation for the year net of associated deferred tax is transferred from "Surplus on Revaluation of Fixed Assets" to unappropriated profit through statement of changes in equity to record realization of surplus to the extent of the incremental depreciation charge for the year.
- On the subsequent sale or retirement of a revalued asset, the attributable revaluation surplus remaining in the revaluation reserve is transferred directly to unappropriated profit.

5.7.2 Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. These are transferred to specific assets as and when assets are available for use.

5.7.3 Impairment

The carrying values of fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amounts, fixed assets are written down to their recoverable amounts.

The resulting impairment loss is taken to profit and loss account except for impairment loss on revalued assets which is adjusted against the related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of assets. Where impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of the amount which would have been determined had there been no impairment, Reversal of impairment loss is recognised as income in profit and loss account.

5.8 Lease liability and right-of-use assets

The lease liabilities are initially measured at the present value of lease payments that includes:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate as at the commencement date;
- amounts expected to be payable by the lessee under residual value guarantees, if any;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are to be discounted using the incremental borrowing rate being the rate that the Bank would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

Notes to and forming part of the Unconsolidated Financial Statements For the year ended December 31, 2022

On initial recognition, right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs incurred; and
- an estimate of restoration costs.

The Bank leases various offices / branches for the purpose of its operational activities. Rental contracts are typically made for fixed periods of 3 to 10 years, Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

Intangible assets 5.9

Intangible assets are stated at cost less accumulated amortisation and accumulated impairment losses, if any. The cost and the accumulated amortisation of intangible assets of foreign branches include exchange differences arising on currency translation at the year-end rates. Amortisation is charged to profit and loss account applying the straight-line method at the rates stated in note 13. Amortisation on addition is charged from the month in which the assets are available for use and no amortisation is charged in the month the intangible assets are disposed off. The estimated useful life and amortisation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

5.10 Non-banking assets acquired in satisfaction of claims

In accordance with the requirements of the 'Regulations for Debt Property Swap' (the regulations) issued by SBP vide its BPRD Circular No. 1 of 2016, dated January 1, 2016, the non-banking assets acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. A surplus arising on revaluation is credited to the 'surplus on revaluation of assets' account and any deficit arising on revaluation is taken to the profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to profit and loss account and not capitalized. Depreciation on non-banking assets acquired in satisfaction of claims is charged to the profit and loss account on the same basis as depreciation charged on the Bank's owned fixed assets.

5.11 Deposits and their cost

Deposits are recorded at the fair value of proceeds received.

Deposit costs are recognised as an expense in the period in which these are incurred using effective yield method.

5.12 Taxation

5.12.1 Current

Provision of current taxation is based on taxable income for the year determined in accordance with the prevailing laws of taxation on income earned for local as well as foreign operations, as applicable to the respective jurisdictions. The charge for the current tax also includes adjustments wherever considered necessary relating to prior years, arising from assessments framed during the year.

5.12.2 Deferred

Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

For the year ended December 31, 2022

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and unused tax losses can be utilized. Deferred tax is not recognised on differences relating to investment in subsidiaries and branches to the extent the deductible temporary difference probably will not reverse in the foreseeable future.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit or deductible temporary differences will be available to allow all or part of the deferred income tax asset to be utilized.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to gain / loss recognised on surplus on revaluation of assets is charged / credited to such account.

5.13 **Employee benefits**

Defined benefit plans 5.13.1

The Bank operates an approved funded pension scheme, an un-funded post retirement medical benefits scheme and an un-funded benevolent scheme for its eligible employees. The Bank also operates an un-funded gratuity scheme for its eligible contractual employees, An actuarial valuation of all defined benefit schemes is conducted every year. The valuation uses the Projected Unit Credit method. Remeasurements of the net defined benefit liability / assets which comprise actuarial gains and losses, return on plan assets (excluding interest) and the effect of asset ceiling (if any, excluding interest) are recognised immediately in other comprehensive income. Past-service costs are recognised immediately in profit and loss account when the plan amendment occurs.

5.13.2 Other employee benefits

Employees' compensated absences

The Bank also makes provision in the financial statements for its liability towards compensated absences. This liability is estimated on the basis of actuarial advice under the Projected Unit Credit method.

5.14 Revenue recognition

Income on loans and advances and debt security investments are recognised on a time proportion basis that takes into account effective yield on the asset. In case of advances and investments classified under the Prudential Regulations, interest / mark-up is recognised on receipt basis.

Interest / mark-up on rescheduled / restructured advances and investments is recognized in accordance with the Prudential Regulations issued by SBP.

Fee, brokerage and commission income other than commission on letter of credit and guarantees is recognised upon performance of services.

Commission on letters of credit and guarantees is recognized on time proportion basis.

Dividend income on equity investments and mutual funds is recognised when right to receive is established.

Premium or discount on debt securities classified as held-for-trading, available-for-sale and held-to-maturity securities is amortised using the effective interest method and taken to profit and loss account.

Gains and losses on disposal of investments and fixed assets are dealt with through the profit and loss account in the year in which they arise.

For the year ended December 31, 2022

Income from lease financing is accounted for using the financing method. Under this method, the unearned lease income (defined as the sum of total lease rentals and estimated residual value less the cost of the leased assets) is deferred and taken to income over the term of the lease so as to produce a constant periodic rate of return on the outstanding net investment in the lease. Gains or losses on termination of lease contracts are recognised through the profit and loss account when these are realised. Unrealised lease income and other fees on classified leases are recognised on a receipt basis.

5.15 Net investment in finance lease

Leases where the bank transfers substantially all the risk and rewards incidental to ownership of the assets to the lessee are classified as finance leases. Net investment in finance lease is recognised at an amount equal to the aggregate of present value of minimum lease payment including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

5.16 Foreign currencies translation

The Bank's financial statements are presented in Pak Rupees (Rs.) which is the Bank's functional and presentation currency.

Foreign currency transactions are converted into Rupees applying the exchange rate at the date of the respective transactions. Monetary assets and liabilities in foreign currencles and assets / liabilities of foreign branches are translated into Rupees at the rates of exchange prevailing at the statement of financial position date. Forward foreign exchange contracts are valued at the rates applicable to their respective maturities. All gains or losses on dealing in foreign currencies are taken to the profit and loss account.

Profit and loss account balances of foreign branches are translated at average exchange rate prevailing during the year. Gains and losses on translation are included in the profit and loss account except gains / losses arising on translation of net assets of foreign branches, which is credited to the statement of comprehensive income.

Statement of financial position balances of foreign branches are translated at exchange rate prevailing at statement of financial position date. Gains and losses on translation are included in the profit and loss account except gains / losses arising on translation of net assets of foreign branches, which is credited to the statement of comprehensive income.

Commitments for outstanding forward foreign exchange contracts are disclosed in these unconsolidated financial statements at committed amounts. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Rupee terms at the rates of exchange prevailing at the statement of financial position date.

5.17 Provision for off balance sheet obligations

Provision for guarantees, claims and other off balance sheet obligations is made when the Bank has legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of amount can be made. Charge to profit and loss account is stated net of expected recoveries.

5.18 Off setting

Financial assets and financial liabilities are only set off and the net amount is reported in the unconsolidated financial statements when there is a legally enforceable right to set off and the Bank intends either to settle on a net basis, or to realise the assets and to settle the liabilities simultaneously.

5.19 Fiduciary assets

Assets held in a fiduciary capacity are not treated as assets of the Bank in the statement of financial position.

For the year ended December 31, 2022

5.20 Dividend and other appropriations

Dividend and other appropriation to reserves, except appropriations which are required by the law, are recognised in the Bank's unconsolidated financial statements in the year in which these are approved.

5.21 Earnings per share

The Bank presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Bank by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any. There were no dilutive potential ordinary shares in issue at December 31, 2022.

5.22

Bai Muajjal transactions represent sales of Sukuks on a deferred payment basis and are shown in lendings to financial institutions except for transactions undertaken directly with the Government of Pakistan which are disclosed as investments.

The difference between the deferred payment amount receivable and the carrying value at the time of sale is accrued and recorded as income over the life of the transaction.

5.23 Acceptances

Acceptances comprise undertakings by the Bank to pay bill of exchange drawn on customers. Acceptances are recognised as financial liability in the statement of financial position with a contractual right of reimbursement from the customer as a financial asset. Therefore, commitments in respect of acceptances have been accounted for as on balance sheet financial assets and financial liabilities.

5.24 Segment reporting

A segment is a distinguishable component of the Bank that is subject to risks and rewards that are different from those of other segments. A business segment is one that is engaged either in providing certain products or services, where as a geographical segment is one engaged in providing certain products or services within a particular economic environment. Segment information is presented as per the Bank's functional and management reporting structure.

Business segments

The Bank's primary segment reporting is based on the following business segments:

- Retail Banking Group includes retail lending and deposits, banking services, cards and branchless banking.
- Inclusive Development Group consists of loans to individuals, agriculture, SME, commodity and commercial customers.
- III. Corporate and Investment Banking Group offers a wide range of financial services to medium and large sized public and private sector entities. These services include, providing and arranging tenured financing, corporate advisory, underwriting, cash management, trade products, corporate finance products and customer services.
- IV. Treasury includes fixed income, equity, foreign exchange, credit, funding, own position securities, lendings and borrowings and derivatives for hedging and market making.
- International Financial Institution and Remittance Group includes the results of all international branches, correspondent banking business and global remittances. This represents Bank's operations in 13 countries including Pakistan and 18 branches including one branch in export processing zone in Pakistan.

For the year ended December 31, 2022

- VI. Aitemaad and Islamic Banking Group provides shariah compliant services to customers including loans, deposits and other transactions.
- VII. Head Office / Others includes the head office related activities and other functions which cannot be classified in any of the above segments.

Geographical segments

The Bank is managed along the following geographic lines for monitoring and reporting purposes:

- Pakistan (including branch in Export Processing Zone)
- Asia Pacific (including South Asia)
- III. Europe
- IV. United States of America
- V. Middle East

5.25 Accounting estimates and judgments

The preparation of the unconsolidated financial statements in conformity with the approved accounting and reporting standards as applicable in Pakistan requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Bank's accounting polices. The estimates, judgments and associated assumptions used in the preparation of the unconsolidated financial statements are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The key areas of estimates and judgments in relation to these unconsolidated financial statements are as follows:

a) Provision against non-performing loans and advances

The Bank reviews its loan portfolio to assess amount of non-performing loans and determine provision required there against on a quarterly basis. While assessing this requirement, various factors including the past dues, delinquency in the account, financial position and future business / financial plan of the borrower, value of collateral held and requirements of Prudential Regulations are considered. The Bank also considers the effect of Forced Sale Value (FSV) of collaterals in determining the amount of provision, however, no benefit of FSV of collateral has been taken during the year in determining provisioning amount.

General provision for loan losses of overseas branches is made as per the requirements of the respective central banks.

The amount of general provision against domestic consumer and SME advances is determined in accordance with the relevant Prudential Regulations and SBP directives.

In addition, the Bank has also made general provision in respect of its corporate portfolio on prudent basis. This general provision is in addition to the requirements of Prudential Regulations.

b) Fair value of derivatives

The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant interest and exchange rates over the term of the contract.

c) Impairment of available-for-sale investments

The Bank considers that available-for-sale equity investments and mutual funds are impaired when there has been a significant or prolonged decline in the fair value below its cost except for investments where relaxation has been

For the year ended December 31, 2022

allowed by SBP. This determination of what is significant or prolonged requires judgment. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance.

Further the Bank has developed internal criteria according to which a decline of 30% in the market value of any scrip below its cost shall constitute as a significant decline and where market value remains below the cost for a period of one year shall constitute as a prolonged decline.

d) Held-to-maturity investments

The Bank follows the guidance provided in the SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity as held-to-maturity. In making this judgment, the Bank evaluates its intention and ability to hold such investments till maturity.

Income taxes

In making the estimates for current and deferred taxes, the management looks at the income tax law and the decisions of appellate authorities on certain issues in the past. There are certain matters where the Bank's view differs with the view taken by the income tax department and such amounts are shown as contingent liabilities.

Fixed assets and intangible assets, revaluation, depreciation and amortisation

In making estimates of the depreciation / amortisation method, the management uses the method which reflects the pattern in which economic benefits are expected to be consumed by the Bank. The method applied is reviewed at each financial year end and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets, the method is changed to reflect the change in pattern.

The Bank also revalues its properties on a periodic basis. Such revaluations are carried out by independent valuer and involves estimates / assumptions and various market factors and conditions.

Employees' benefit plans

The liabilities for employees' benefits plans are determined using actuarial valuations. The actuarial valuations involve assumptions about discount rates, expected rates of return on assets, future salary increases, future inflation rates and future pension increases as disclosed in note 39. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

Provision against contingencies

Provision against contingencies is determined based on the management judgement regarding the probability of future outflows of resources embodying economic benefits to settle an obligation arising from past events.

CLOSURE OF FOREIGN SUBSIDIARIES AND OPERATIONS 6.

In line with SBP Governance Framework 2018, the Board of Directors (BoD) in its 302nd meeting held on January 20 & 21, 2020 has accorded the approval of International Strategy. As per approved Strategy, the BoD allowed closure of six (06) Central Asian (CA) locations i.e. Azerbaijan (Baku), Kyrgyzstan (Bishkek); Kazakhstan (Almaty); Tajikistan (Dushanbe); Uzbekistan (Tashkent); Turkmenistan (Ashgabat) and Afghanistan (Jalalabad). The Board of Directors in its 316th meeting held on January 6 & 11, 2021 has accorded its approval to scale down Bangladesh operations by closing Sylhet, Chittagong and Gulshan branches.

The BoD in its 317th meeting held on February 24, 2021 has also given its recommendation to the shareholders to approve voluntary closure and delegation of powers to President / CEO. Further, the shareholders in their 72nd meeting held on March 29, 2021 also accorded their concurrence for closure of operations at above locations.

For the year ended December 31, 2022

While processing the Bank's request of capital injection of Euro 3.08 Million to Paris Branch, SBP directed the Bank to close its operations at Paris Branch. On the basis of SBP's directive, the BoD in its 327th meeting held on January 17. 2022 accorded their approval. Subsequently, SBP per their letter dated April 20, 2022 also approved the capital injection of Euro 3.08 Million to Paris Branch.

On the basis of the aforementioned framework and after completing all the requirements of SBP and as well as the requirement of host countries' regulators, operations at following international locations have been closed on the dates mentioned there against.

\$.No.	Name of International Locations	Date of Closure
1	Toronto Representative Office, Canada	31.12.2020
2	Jalalabad Branch, Afghanistan	15.08.2021
3	Tashkent Representative Office, Uzbekistan	31.08.2021
4	Sylhet Branch, Bangladesh	30.09,2021
5	CJSC Subsidiary Bank of NBP in Dushanbe, Tajikistan	28.09.2022
6	Ashgabat Branch, Turkmenistan	07.11.2022

Closure process at Central Asian locations have been delayed due to settlement of NPLs portfolio. Operations at the following locations are under the process of closure. Tentative closure dates are also mentioned there against.

S.No.	Name of International Locations	Tentative Date of Closure
1	CJSC Subsidiary Bank of NBP in Almaty, Kazakhstan	31.12.2023
2	Bishkek Branch, Kyrgyzstan	30,09.2023
3	Baku Branch, Azerbaijan	31.12.2023
4	Paris Branch, France	31.03.2023
5	Chittagong Branch, Bangladesh	31.12.2023

			18,580,034	17,654,536
			18,593,800	17,667,067

- These include various deposits with banks and carry interest at the rates ranging from 3.5% to 9.5% per annum (2021: 8.1 2.5% to 8% per annum).
- These include various deposits with correspondent banks outside Pakistan and carry interest at the rates ranging from 0% 8.2 to 4% per annum (2021: 0% to 1.5% per annum).

	Note	2022 2021 (Rupees in '000)		
9. LENDINGS TO FINANCIAL INSTITUTIONS				
Call / clean money lendings	9.1	9,723	21,009,723	
Repurchase agreement lendings (reverse repo) 9	.2 & 9.8	31,262,744	282,051,308	
Musharaka Lending	9.3	-	30,000,000	
Placements with State Bank of Pakistan	9.4	18	2,405,644	
Letters of placement	9.5	174,150	174,150	
·	9.6	31,446,617	335,640,825	
Less: provision held against lendings to financial institutions 9	.7 & 9.9	(174,150)	(174,150)	
Lendings to financial institutions - net of provision		31,272,467	335,466,675	

- This includes zero rate lending to a financial institution amounting to Rs. 9.7 million (2021: Rs. 9.7 million) which is 9.1 guaranteed by the SBP.
- These carry mark-up at rates ranging from 16% to 16.5% per annum (2021: 8.7% to 10.7% per annum) with maturities 9.2 ranging from January 3, 2023 to January 12, 2023.
- This represents Musharaka agreements entered into with Meezan Bank Limited and carrying profit at the rate of Nil (2021: 9.3 10.65%) per annum.
- These represent placements made with the SBP as a result of shortfall in respect of time-based mandatory targets of 9.4 disbursements under Government's scheme "Mera Pakistan Mera Ghar". However, the government has ceased the lowcost housing scheme in July 2022 and announced through the State Bank of Pakistan to continue it for the customers after necessary amendments and revisions of its features.
- These are overdue placements and full provision has been made against these placements as at December 31, 2022. 9.5

Lease rentals receivable Residual value Minimum lease payments

Less: Financial charges for future periods Present value of minimum tease payments

The leases executed are for a term of 1 to 5 years. Security deposit is generally obtained upto 10% of the cost of leased assets at the time of disbursement. The Bank requires the lessee to insure the leased assets in favor of the Bank. Additional surcharge is charged on delayed rentals. The average return implicit ranges from 10.19% to 14.85% (2021: 10.19% to 14.85%) per annum.

11.4.1.1 General provision includes provision amounting to Rs. 5,211 million (2021: Rs. 5,618) against consumer & SME finance portfolio as required by the Prudential Regulations issued by the SBP. General provision also includes Rs. 607 million (2021: Rs. 252 million) pertaining to overseas advances to meet the requirements of regulatory authorities of the respective countries in which the Bank operates.

Keeping in view the portfolio assessment and the estimated impact of adoption of IFRS 9, the Bank has also maintained a general provision of Rs. 11,530 million (2021: Rs. 6,603 million) against underperforming portfolio on prudent basis, in view of prevailing economic conditions. This general provision is in addition to the requirements of Prudential Regulations.

- 11.4.1.2 The SBP has allowed specific relaxation to the Bank for non-classification of overdue loans of certain Public Sector Entities (PSEs) which are guaranteed by Government of Pakistan as non-performing loans up till December 31, 2022. No provision is required against these loans; however, mark-up is being suspended as required by the Prudential Regulations.
- 11.4.1.3 These represent non-performing advances for agriculture finance which have been classified as loss and fully provided for more than 3 years. These non-performing advances have been charged off by extinguishing them against the provision held in accordance with Prudential Regulations for Agriculture Financing issued by the SBP. This charge off does not, in any way, prejudice the Bank's right of recovery from these customers.

23. RESERVES

23.1 Exchange translation reserve

This comprises all foreign currency differences arising from the translation of the financial statements of foreign operations.

23.2 Statutory reserve

Every bank incorporated in Pakistan is required to transfer 20% of their profits to a statutory reserve until the reserve equals share capital, thereafter 10% of the profits of the Bank are to be transferred to this reserve.

For the year ended December 31, 2022

23.3 Merger reserve

As per the Scheme of Amalgamation, all the assets, liabilities and obligations of NBP Leasing Limited were merged with, transferred to, vested in and assumed by the Bank as at the effective date July 31, 2017. The reserve represents the excess of net assets transferred to the Bank over its investment in NBP Leasing Limited.

23.4 General loan loss reserve

During the year ended December 31, 2022, the Board of Directors in their meeting held on April 23, 2022 have approved transfer of Rs 8 billion from general loss reserve to unappropriated profit.

25.2.3 Commitments in respect of forward lending

Undrawn formal standby facilities, credit lines and other commitments to lend

50,363,949 20,618,971

These represent commitments that are irrevocable because they cannot be withdrawn at the discretion of the bank without the risk of incurring significant penalty or expense.

25.2.4 Other commitments

Professional services to be received

36,850 - **26,619,691** 36,196,804

25.3 Other contingent liabilities

25.3.1 Claims against the Bank not acknowledged as debt

25.3.2 Claims against the Bank not acknowledged as debts includes claims relating to former Mehran Bank Limited amounting to Rs. 1,597 million (2021: Rs. 1,597 million).

25.3.3 Taxation

Tax returns of the Bank have been filed up to tax year 2022 and amended by tax authorities up to tax year 2021. For Azad Kashmir and Gilgit Baltistan branches no amendment to returns filed under section 120 of the Ordinance has been made, hence returns filed are deemed assessments for all the years till tax year 2022.

- a) During the period under review the appeals for tax years 2006 and 2007 have been decided against the Bank by CIR(Appeals) and the Bank has filed further appeal before ATIR on legal grounds u/s 161 of The Ordinance. The Tax Advisor is confident that the ultimate outcome of the proceeding will be decided in the Bank's favor. Amount of contingency involved is Rs. 1,032 million and Rs. 1,395 million respectively.
- b) Honourable Tribunal has decided the appeals filed by the Bank for tax years 2009, 2010 and 2016 for which appeal effect orders have also been issued determining tax refund of Rs. 948 million, Rs. 815 million in 2009 and 2010 respectively. Whereby for tax year 2016, the department has created demand of Rs. 118 million which has been adjusted against tax refunds of tax year 2018.
- c) Honourable CIR(Appeals) through judgement dated December 31, 2021 has decided the appeal filed by the Bank for tax year 2018 in favor of the Bank for which appeal effect order has been issued determining refund of Rs. 1,199 million.
- d) Honourable CIR(Appeals) has decided the appeals filed by the Bank for tax years 2019 and 2020 partially allowing relief to the Bank. The Bank filed further appeal before ATIR which is pending. The bank has shown additional tax liability of Rs. 1,773 million and Rs. 4,298 million for the year 2019 and 2020 respectively as contingency based on the tax consultant's expectations that the issue would be decided in the bank's favor.
- e) Honourable CIR(Appeals) through its recent judgement for tax year 2021 dated December 21, 2022 has decided appeal filed by the Bank confirming the Order of assessing officer. The Bank intends to file appeal before ATIR on legal and factual grounds. The bank has shown additional tax liability of Rs. 3,757 million as contingency based on the tax consultant's expectations that the issue would be decided in the bank's favor.
- f) The aggregate effect of contingencies as on December 31, 2022, excluding amount of Rs. 1,912 million (December 31, 2021: Rs. 2,096 million) in respect of indirect tax issues, amounts to Rs. 15,419 million (December 31, 2021: Rs. 17,983 million). No provision has been made against these contingencies, based on the opinion of tax consultant of the Bank, who expect favorable outcome upon decisions of pending appeals.

For the year ended December 31, 2022

25.3.4 Contingencies in respect of employees benefits and related matters

The following are the details of the contingencies arising out of the various legal cases pending adjudication in respect of employees' benefits and related matters. The Bank considers that except for Pensionary benefits note 25.3.4.1, the financial impact of other matters is impracticable to determine with sufficient reliability.

25.3.4.1 Pensionary benefits to retired employees

In 1977 the Federal Government vide letter No. 17 (9) 17 XI / 77 dated November 30, 1977, addressed to the Pakistan Banking Council, directed that all executives / officers of all the nationalized banks would be paid pension as calculated at 70% of average emoluments upon completion of 30 years of qualifying service of employees and where qualifying service was less than 30 years but not less than 10 years, proportionate reduction in percentage was to be made. This pension scheme was made applicable with effect from May 01, 1977.

In the year 1997, the Banks Nationalization Act, 1974 ("BNA, 1974") was substantially amended whereby the Pakistan Banking Council was abolished and the Board of Directors of the nationalized banks were empowered / mandated respectively to determine personnel policies with the President of the Bank deciding the remuneration and benefits of the employees in accordance with policies determined by the Board. In the year 1999, by virtue of the said amendments in BNA, the Board of Directors of the Bank approved the Revised Pay Structure for the officers / executives of the Bank with effect from January 01, 1999 vide Circular No. 37/1999, whereby the basic salary was increased by 110 % to 140% and besides giving multifarious benefits to its employees, formula for monthly gross pension was revised. However, the amount of gross pension on the basis of existing Basic Pay and existing formula was protected.

A number of Bank's employees, after attaining the age of superannuation filed Writ Petitions before the Lahore High Court and the Peshawar High Court, praying for re-calculation of their pensionary benefits and increases in accordance with the Bank Circular No. 228 (C) dated December 26, 1977 and furthermore, for allowing the increases in their pension as per the increases allowed by the Federal Government to its employees. This litigation started in the year 2010 and 2011.

The Peshawar High Court, in terms of judgment dated June 03, 2014, dismissed the petition while observing that the petition was hit by laches and that the petitioners could not claim the benefits granted to the similarly placed employees of other institutions who were governed through different Statutes and Service Rules.

The Lahore High Court vide its judgement dated January 15, 2016, allowed the Writ Petitions on the same matter and the Bank was directed to release the pensionary benefits of the petitioners. The said order was assailed by the Bank by filing Intra Court Appeals in January 2016 which were dismissed by the Lahore High Court, Lahore, through its judgement dated January 16, 2017. The Bank assailed the said judgement by filing appeals in the Supreme Court of Pakistan.

The Honorable Supreme Court of Pakistan after hearing the arguments of both parties, vide its judgement dated September 25, 2017 upheld the decision of the Division Bench of the Lahore High Court on the contention of increase in Bank's employees' pension, thereby instructing the Bank to give pension benefits to its employees in the light of Head Office Instruction Circular No. 228 (C) of 1977. Under this Circular, the pension of employees was to be calculated at 70% of average emoluments upon completion of minimum qualifying service requirement, besides requiring the Bank to follow subsequent revisions in pension scheme and rates granted by the Federal Government to civil servants from time to time as well.

The Bank as well as Federal Government filed review petitions against the aforesaid judgment of the Honorable Supreme Court of Pakistan and also made an application for constitution of larger bench of the Supreme Court to hear the review petition, which was reportedly accepted by the Chief Justice. However on March 18, 2019, the matter came up for hearing before a three member Bench instead of a larger bench. As advised by our legal counsels, the Bank considers that due to conflicting decision of the other bench of the Supreme Court in a case which, in all material facts and circumstances, is identical to the Bank's case and various other legal infirmities in the judgement as highlighted by the Bank in its Review Petition, the Bank has a reasonably strong case on legal grounds to convince the Supreme Court for review of its decision. The Review Petition is ongoing and is expected to be listed for hearing soon.

For the year ended December 31, 2022

A related matter has also been appealed in the Supreme Court where the petitioners have asked for increases in pension in accordance with government increases in Pension for Government employees which is pending adjudication and a favorable outcome is expected.

In case the above matters are decided unfavorably, the Bank estimates based on the actuarial advice that the financial impact arising from the additional liability would be approximately Rs. 89.7 billion excluding any penal interest / profit payment (if any) due to delayed payment Pension expense for the current year and onward will also increase by Rs.12.1 billion due to this decision. Based on the opinion of legal counsel, no provision has been made in these unconsolidated financial statements for the above-mentioned amount as the Bank is confident about the favorable outcome of the matter."

Moreover, the State Bank of Pakistan in the backdrop of Supreme Court's Judgement, through its letter dated February 20. 2018 has instructed the Bank to obtain prior approval of SBP before declaring any dividend.

25.3.4.2 Regularizing the temporary hires / workers deployed by service provider companies under outsourcing arrangements

The Bank outsourced certain non-core jobs to various service provider companies after entering into contracts with them. The resources deployed by the service provider companies were their employees and the said companies have had sole administrative control over these resources. Some of these resources filed writ petitions before the High Courts and National Industrial Relations Commission (NIRC) seeking to be absorbed by the Bank in its regular service based on grounds that they were in fact employees of the Bank. Presently, there are 6 cases on appeal pending at the Supreme Court where these have been clubbed to be heard as one. The Chief Justice of Pakistan has constituted a larger bench comprising of five Judges being headed by himself for adjudication. The case is ongoing and is presently adjourned for a date to be fixed. A favorable outcome of this case is expected.

25.3.4.3 Litigation related to management trainee program

Treatment of Non-MTOs (regular employees) at Par with the MTOs (also appointed in regular cadres) - Litigation arising out of order dated September 21, 2016 passed by the Supreme Court in our CA No.1644/2013 out of our CPLA No. 805/2013 filed against order dated March 13, 2013 of the Division Bench of Sindh High Court, Sukkur in CP No. D-417/2010 (the "Decision").

Mr. Ashfaq All and three (3) others filed a CP No. D-417/2010 before the Sindh High Court, Bench at Sukkur while praying to treat them equally in respect of remunerations with other employees (MTOs) having same grade, nature of job and qualification.

The Honorable Division Bench at Sukkur, vide order dated March 13, 2013, directed the Bank to ensure equal treatment to the petitioners with similarly placed employees without any discrimination.

Certain employees filed petitions in the Honorable High Court of Peshawar who also gave its decision in favor of the petitioners. Review petition filed in the Honorable Supreme Court of Pakistan by the Bank was also dismissed.

Last year, the Bank entered into out of court settlements which have successfully been executed with many Non-MTO employees ('petitioners') and accordingly compromise agreements ('the agreement'), offering waiver of loans, increase in basic salaries and provision of other allowances, were signed with those petitioners who have withdrawn their cases against the Bank. Simultaneously the Bank continues to make payments to claimants as per any court orders from time to

25.4 Foreign exchange repatriation case

While adjudicating Foreign Exchange repatriation cases of exporter namely: M/S Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court of the State Bank of Pakistan has also adjudicated penalty of Rs. 1,020 million, arbitrarily on the Bank. The Bank has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgments. The Honorable High Court has granted relief to the Bank by way of interim orders.

For the year ended December 31, 2022

As advised by our counsel, NBP has also filed a Constitutional Petition challenging the constitution of the Appellate Board by the Commission and has obtained restraining order on the ground that the Appellate Board constituted by the Commission lacks legal merit in the light of Supreme Court ruling. Our counsel, Mr. Raashid Anwar, Advocate has concluded his arguments in respect of the Foreign Exchange Regulation Appellate Board constitution. However, another petition filed by another company whereby challenging the constitutionality of the Competition Act was also tagged with the petitions filed by the banks.

Based on merits of the appeals management is confident that these appeals shall be decided in favor of the Bank and therefore, no provision has been made against the impugned penalty.

- Compliance and risk matters relating to anti-money laundering at the New York Branch 25.5
- The New York Branch of NBP continues to make progress against the enforcement actions received in February 2022 from 25.5.1 the Federal Reserve Bank and the New York State Department of Financial Services. The Branch has provided regular quarterly and half-yearly progress reporting to its regulators. The management and the Board of Directors continue to provide close oversight of the branches, remedial actions and are committed to ensure compliance with the conditions agreed in the enforcement actions. The management actions implemented by the Bank and Branch, and their associated validation by Internal Audit will be subject to review by the Branch's regulators.
- 25.5.2 During the year ended December 31, 2019, a case was filed in the District Court for the Southern District of New York against the Bank by the relatives of several US citizens killed in Khost, Afghanistan, during a terrorist attack carried out at Camp Chapman, a US base. The complaint was later extended to several other random terrorist attacks carried out against US servicemen in Afghanistan by various terrorist organisations. The Bank was sued for its alleged role in knowingly facilitating, alding and abetting, conspiring and providing material support and banking services to several notorious terrorist groups and terrorist fundraisers.

The plaintiff alleged that the Bank transferred funds by using its New York branch to convert the donations they received from outside Pakistan into U.S. dollars. It has been alleged that the Bank was in a position of knowing and preventing the money transfers.

In January 2021, the case was primarily dismissed on the grounds of its non-compliance with the drafting requirements of the civil procedures applicable. Further, three more amended complaints were filed and dismissed, and the fourth complaint was finally dismissed by the court pursuant to the Bank's Motion to Dismiss the case. The complainants had ultimately failed to state a preliminary case against the Bank as a result of the unsubstantiated and baseless nature of the complaints.

The plaintiffs have filed an appeal against the dismissal of the motion and NBP has filed its counter reply and the case is sub judice.

Based on the merits of the appeal, the management is confident that the appeal shall be decided in favour of the Bank and therefore, no provision has been made in these unconsolidated financial statements.

		2022 (Num	2021 bers)
38.	STAFF STRENGTH		
	Permanent On Bank contract	10,018 5,094	10,437 4,972
	Bank's own staff strength at the end of the year	15,112	15,409

In addition to the above, 1,218 (2021: 1,273) employees of outsourcing services companies were assigned to the Bank as 38.1 at the end of the year to perform services other than guarding and janitorial services. Out of these, 1,211 employees are working domestically (2021: 1,258) and 7 (2021: 15) abroad respectively.

39. **DEFINED BENEFIT PLAN**

39.1 General description

General description of the type of defined benefit plan and accounting policy for remeasurements of the net defined liability / asset is disclosed in note 5.13 to the unconsolidated financial statements.

39.2 Number of employees under the scheme

The number of employees covered under the following defined benefit schemes are:

2022	2021
(Num	bers)
10,018	10,437
10,018	10,437
10,018	10,437
4,855	4,685
10,018	10,437
	10,018 10,018 10,018 4,855

39.3 Principal actuarial assumptions

The actuarial valuations were carried out as at December 31, 2022 using the following significant assumptions:

	2022	2021
	(Per a	annum)
Discount rate	14.50%	11.75%
Expected rate of return on plan assets	14.50%	11.75%
Expected rate of salary increase	14.50%	11.75%
Expected rate of increase in pension	53% for next one year,	29% for next one year,
	10% onwards	7.25% onwards
Expected rate of increase in medical benefit	14.50%	11.75%

Notes to and forming part of the Unconsolidated Financial Statements

For the year ended December 31, 2022

		2022 (Rupee:	2021 s in '000)
39.8	Components of plan assets - Pension fund		
	Cash and cash equivalents - net	284,476	133,034
	Government securities	53,824,866	41,244,674
	Shares	5,565,760	6,969,297
	Non-Government debt securities	100,000	104,000
	PLS - Term Deposit Receipts		6,625,201
	Mutual funds	6,289,301	6,697,543

39.8.1 The Funds primarily invests in government securities which do not carry any significant credit risk. These are subject to interest rate risk based on market movements. Investment in term finance certificates are subject to credit risk and interest rate risks, while equity securities are subject to price risk. These risks are regularly monitored by Trustees of the Pension fund.

39.9 Sensitivity analysis

The increase / (decrease) in the present value of defined benefit obligations as a result of change in each assumption is summarised as below:

				202	2		
		Pension fund	Post retirement medical scheme	Benevolent scheme	Gratuity scheme	Compensated absences	Total
	Ī			(Rupees i	in '000)		
	1% increase In discount rate	(5,915,892)	(3,240,793)	(86,365)	(398,462)	(594,451)	(10,235,963)

39.11	Expected charge for the next financial year						11,365,650

For the year ended December 31, 2022

39.12 Maturity profile

The weighted average duration of the obligation

	1003
Pension fund	7.09
Post retirement medical scheme	12.41
Benevolent scheme	5.37
Gratuity scheme	11.5
Compensated absences	7.22

39.13 Funding Policy

Pension Fund - Bank's current assets and its percentage is given below;

1 endight and a park a contact about and to percontage to give it below.	Amount	Percentage
Current Assets	Amount Rupees in '000 284,476 53,824,866 5,565,760 100,000 6,289,301	
Cash and cash equivalents - net	284,476	0.4%
Government securities	53,824,866	81.5%
Shares	5,565,760	8.4%
Non-Government debt securities	100,000	0.2%
PLS - Term Deposit Receipts		0.0%
Mutual funds	6,289,301	9.5%
	66,064,403	100%

Bank will continue to invest with the same percentage in the asset categories mentioned but increase the assets gradually so that there is no deficit in the pension fund.

39.14 Significant risks associated with the staff retirement benefit schemes are as follows:

Asset volatility	The risk arises when the future earnings are lower than expectation. This risk is
	measured at a plan level over the obligation period of the current population. The
	company assets are either invested in fixed securities or cash.

Changes in bond yields The risk arises when the actual return on plan assets is lower than expectation.

Inflation risk

The most common type of retirement benefit is one where the benefit is linked with last drawn salary. The risk arises when the actual increases are higher than

expectation and impacts the liability accordingly.

Life expectancy / Withdrawal rate The risk arises when the actual lifetime of retirees is longer than expectation. This risk is preserved at the plan level every the active retires population. The risk of actual

is measured at the plan level over the entire retiree population. The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit

obligation. The movement of the liability can go either way.

Investment Risk The risk arises when the actual performance of the investments is lower than

expectation and thus creating a shortfall in the funding objectives.

40. DEFINED CONTRIBUTION PLAN

Provident Fund

The NBP employees Provident Fund was created under National Bank of Pakistan Employees Provident Fund Rules on April 01st, 1950 under the Provident Fund Act, 1925. The Rules have been superseded by revised NBP Employees' Provident Fund Rules which came into force on 01st January, 1958.

As per rules, the Officers, Executives and Clerical and Non Clerical staff in regular cadre make monthly contribution of 10% and 12.5% of their basic salary respectively towards the fund and the bank has to pay interest on balances of member's provident fund half yearly.

This scheme covers 9,737 employees (2021: 9,801 employees).

FAIR VALUE MEASUREMENTS 42.

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted instruments classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed-term loans, other assets, other liabilities, fixed-term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

Allowances include accommodation and travel expe

Miowances include accommodation and travel expenses.
 Amount includes NBP - NY Governance Council (Sub-Committee of BRCC).

For the year ended December 31, 2022

42.1 Fair value of financial assets

The Bank measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hlerarchy into which the fair value measurement is categorised:

	2022

PKRV & PKFRV (MUFAP)

PKISRV (MUFAP)

Breakup value as per latest available audited financial statements

MUFAP & Pakistan Stock Exchange

Reuter page Reuter page Reuter page **MUFAP**

The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward

pricing calculations.

Land, buildings and non-banking assets acquired in satisfaction of claims are revalued on a periodic basis using professional valuers. The valuation is based on their assessment of the market value of the assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty. Accordingly, a qualitative disclosure of sensitivity has not been presented in these unconsolidated financial statements

42.2 Fair value of non-financial assets

Information about the fair value hierarchy of Bank's non-financial assets as at the end of the reporting period are as follows:

			2022

TRUST ACTIVITIES

**Endowment Fund** 

Students Loan Scheme was launched by Government of Pakistan in collaboration with major commercial banks with a view to extend financial help by way of mark-up free loan to the meritorious students without sufficient resources for pursuing scientific technical and professional education within Pakistan. The Scheme is being administered by a high powered committee headed by the Deputy Governor, State Bank of Pakistan and the Presidents of NBP, HBL, UBL, MCB. ABL and the Deputy Secretary, Ministry of Finance as member and Senior Director of IH&SME Finance Department (Infrastructure, Housing & SME Finance Department) The Committee in its meeting held on August 7, 2001 approved creation of Endowment Fund initially at an amount of Rs. 500 million, Rs. 396 million were transferred from the old Qarz-e-Hasna (Defunct) Fund, Rs.50 million contributed by the Government of Pakistan and Rs. 54 million were contributed by participating banks (HBL. NBP and UBL 25% each, MCB 17.5% and ABL 7.5%). as a secretary of the Committee. The State Bank of Pakistan has assigned National Bank of Pakistan to operate the scheme.

The amount of the Endowment Funds in investments stands at Rs. 875.179 million as at December 31, 2022 (2021; Rs. 835.77 million).

For the year ended December 31, 2022

The Bank undertakes Trustee and other fiduciary activities that result in the holding or placing of assets on behalf of individuals 44.2 and other organisations. These are not assets of the Bank and, therefore, are not included as such in these unconsolidated financial statements. Assets held under trust are shown in the table below:

# Transactions with Government-related entities

The Federal Government through State Bank of Pakistan holds controlling interest (75.60% shareholding) in the Bank and therefore entities which are owned and / or controlled by the Federal Government, or where the Federal Government may exercise significant influence, are related parties of the Bank. The Bank in the ordinary course of business enters into transaction with Government-related entities. Such transactions include lending to, deposits from and provision of other banking service to Government-related entitles.

The Bank also earned commission on handling treasury transactions on behalf of the Government of Pakistan amounting to Rs.10,507 million (2021: 8,408 million) for the year ended December 31, 2022. As at the statement of financial position date the loans and advances, deposits and contingencies relating to Government-related entities amounted to Rs. 593,486 million (2021: 405,294 million), Rs. 1,403,331 million (2021: 1,247,457 million) and Rs.1,714,807 million (2021: 1,540,238 million) nespectively and income earned on advances and investment and profit paid on deposits amounted to Rs. 40,225 million (2021: 31,846 million) and Rs. 199,052 million (2021: 31,846 million) and Rs. 199,052 million (2021: 51,110 million) respectively.

For the year ended December 31, 2022

#### 46. CAPITAL ADEQUACY, LEVERAGE RATIO & LIQUIDITY REQUIREMENTS

The Bank's objectives when managing capital, which is a broader concept than the 'equity' on the face of the statement of financial position, are:

- to comply with the capital requirements set by the regulators of the banking markets where the Bank operates;
- to safeguard the Bank's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- to maintain a strong capital base to support the development of its business.

Basel-III instructions comprise the following three capital standards:

#### Minimum Capital Requirement (MCR):

The MCR standard sets the nominal amount of capital banks / DFIs are required to hold. Currently, the MCR for banks and DFIs is Rs. 10 billion as prescribed by SBP.

#### ii. Capital Adequacy Ratio (CAR):

The Capital Adequacy Ratio assesses the capital requirement based on the risks faced by the banks / DFIs. The banks / DFIs are required to comply with the minimum requirements as specified by the SBP on standalone as well as consolidated basis. As of December 31, 2022, the required CAR for banks is 11.50% (plus 1.50% for NBP as D-SIB requirement).

#### iii. Leverage Ratio:

Tier-1 Leverage Ratio of 3% is introduced in response to Basel III Accord as the third capital standard. Bank level disclosure of the leverage ratio and its components started from December 31, 2015; The Bank has a leverage ratio of 3.08% in the year December 31, 2022 (2021;3.47%) and Tier-1 capital of Rs. 231,191 million (2021; Rs. 199,752 million).

The SBP's regulatory capital as managed by the Bank is analysed into following tiers:

#### 1. Tier 1 Capital (going-concern capital)

- Common Equity Tier 1
- Additional Tier 1
- Tier I capital, which comprises highest quality capital element and includes fully paid up capital, balance in share premium account, reserve for issue of bonus shares, general reserves and un-appropriated profits (net of accumulated losses, if any).

#### 2. Tier 2 Capital (gone-concern capital)

- Tier II capital, which includes general reserve for loan losses, revaluation reserve, exchange translation reserve and subordinated debt.

Basel III capital rules require bank to make certain deductions from the capital before arriving at the Capital Adequacy Ratio (CAR).

Risk weighted assets are measured according to the nature of the asset and reflect an estimate of credit, market and other risks associated with each asset and counterparty, after taking into account any eligible collateral or guarantees. A similar treatment is adopted for off-balance sheet exposures, with some adjustments to reflect more contingent nature of potential losses.

The Bank's policy is to maintain strong capital base so as to maintain, investor, creditor and market confidence, and to sustain future development of the business. The adequacy of the Bank's capital is monitored using, among other measures, the rules and ratios established by the SBP. The ratios compare the amount of eligible capital with the total of risk-weighted assets. The Bank monitors and reports its capital ratio under the SBP rules, which ultimately determine the regulatory capital, required to be maintained by Banks and DFIs.

For the year ended December 31, 2022

The paid-up capital of the Bank for the year ended December 31, 2022 stood at Rs. 21,275 million (2021: Rs. 21,275 million) and is in compliance with the SBP requirement for the said year. In addition the Bank has maintained minimum Capital Adequacy Ratio (CAR) of 21,59% (2021: 20,39%).

There have been no material changes in the Bank's management of capital during the year.

Minimum Capital Requirement (MCR):	2022 (Rupees	2021 in '000)
Paid-up capital (net of losses)	21,275,131	21,275,131

For the year ended December 31, 2022

#### 47. **RISK MANAGEMENT**

Risk management is about understanding and managing the potential for volatility of earnings, loss of access to reliable deposits and funding and depletion of capital arising from the business activities, whilst pursuing its strategic objectives. The Bank has in place a well-defined risk management strategy/ policy with clear objectives and deliverables through multipronged risk management processes.

The Bank applies the Basel framework as a cornerstone for NBP's risk management framework, capital, and liquidity strategy. The Bank maintains a strong capital, funding and liquidity position in line with its on-going commitment to maintaining balance sheet strength. The strength of risk management profile of the Bank stands at the following pillars:

- Identification and assessment of significant material risks.
- Overseeing and managing the risk profile of the Bank within the context of the risk appetite.
- Optimize risk / return decisions by aligning them to business objective of achieving sustainable optimum growth.

Information Security Division (ISD) is also an integral part of Risk Management Group to oversee independently the emerging information/ cyber security risks.

In order to support Risk Management Group (RMG's) activities, a strong data management mechanism is also in place to collect and consolidate exposure wise information for various risk related analysis and reviews. The mechanism also helps in identification of e-CIB related information, periodic reviews, generation of reports and highlighting inconsistencies and errors, and issuing instructions to the relevant data entry points for rectification.

During 2022, Pakistan witnessed significant economic headwinds. Rising inflation, increasing fuel prices, depleting foreign exchange reserves, massive devaluation of the Pakistani rupee, political instability, increasing interest rates, and high budget deficit made the year more challenging. In this backdrop, Fitch, Moody's and S&P Global lowered the country's sovereign credit rating. In June 2022, Pakistan was hit with a natural catastrophe in the shape of worst ever floods in the history of the country. The floods resulted in millions of people being displaced and severe damage to both crops and livestock. Additionally, international commodity prices also remained elevated through the year. The headline inflation increased significantly touching a multi-year high of 27.32% in August. During the year, SBP increased the benchmark interest rate by a cumulative 625 bps to 16%. This steep increase was aimed at reducing aggregate demand in the economy and also to counter high inflation. This led to a steep uptick in domestic food prices. The Bank is regularly conducting assessments of the credit portfolio, with robust post disbursement credit review mechanism to identify borrowers most likely to be affected in the challenging business and economic environment. Bank is confident that it has more than sufficient risk bearing capacity to with stand these difficult times.

#### 47.1 Risk Governance Structure

Risk Management Group (RMG) operates as an independent group under the supervision of Chief Risk Officer (CRO). RMG's scope and coverage has been enhanced to cater enterprise-wide risk management, credit approvals, and program lending. CRO reports directly to the President with dotted line reporting to Board Risk & Compliance Committee (BRCC). The group is responsible to perform the functions pertaining to development and oversight of the risk management framework, methodologies and other functions assigned from time to time in line with local/international best practices and under the supervision of SBP's regulations/ guidelines.

The Bank's Board is responsible to ensure active oversight over implementation of policies and frameworks so as to prevent any significant financial loss or reductions in shareholders' value that may be suffered by the Bank. Therefore, it is the responsibility of the Board to ensure that policies and frameworks are in place to recognize all significant / material risks to which the Bank is / may be exposed and that the required human resource, culture, practices and systems are adequate to address such risks. The Board and its relevant committee, i.e. Board Risk and Compliance Committee (BRCC) and the senior management along with its relevant committees i.e. Management Credit Committee (MCC), Enterprise Risk Committee (ERC), Asset and Liability Committee (ALCO) etc. are responsible to ensure implementation of Risk Management framework.

For the year ended December 31, 2022

#### 47.2 Risk Management Framework

The Bank's risk management policies are established to identify and analyze the risks faced by the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect the changes in market conditions, products and services offered.

The Bank implements risk management framework through a 'Three Lines of Defence' model which defines clear responsibilities and accountabilities for various offices and ensures effective and independent oversight and also that the activities take place as intended. RMG together with Compliance Group acts as second line of defense and performs integrated function of oversight and independently challenges the effectiveness of risk management actions taken by business groups, who are the first line of defense. The risk management is further strengthened by the third line of defense, where Board Audit and Compliance Committee and Audit and Inspection Group add value through independent and objective assurance in improving risk management functions of the Bank.

Following paragraphs introduce Bank's exposures to material risks associated with its business activities and explain overall strategies and processes to manage those risks:

#### 47.2.1 Credit Risk

Credit risk is one of the significant risks faced by banks by due to the nature of their core activities. Through effective management of credit risk exposure, banks not only support the viability and profitability of their own business but also contribute to systemic stability and efficient allocation of capital in the economy. Credit Risk arises from the potential that a customer's or counterparty's willingness or ability to meet such an obligation is impaired, resulting in an economic loss to the bank. NBP's lending activities account for most of the Bank's credit risk which is continuously evolving in various financial activities including loans and advances, commitments to lend, contingent liabilities such as letter of credit and guarantees, and other types of both on and off-balance sheet transactions. The Bank has a dedicated setup led by Chief Risk Officer that ensures the effectiveness of the risk management frameworks for assessment / measurement, review and reporting of credit risk under supervision of Board Risk and Compliance Committee.

A prudent path to identify, assess and monitor credit risk management through structured assessment models, effective pre-disbursement evaluation tools and an array of post disbursement review systems has enabled NBP to effectively manage its credit risk and to keep the Bank resilient and minimize losses within the defined risk tolerance levels. Strategic goal, embedded into our approach to risk management is to maintain a robust framework, identify and escalate risks and to support sustainable business growth. The Bank has in place Risk Appetite Framework and Credit Risk Concentration Management Framework to control and mitigate the levels of credit risk it undertakes by placing limits on exposures in relation to existing or potential obligors, economic groups and to various industry segments.

The Risk Management function of the Bank is regularly conducting assessments, on perpetual basis, of the credit portfolio to identify borrowers and sectors through portfolio reports and dashboards most likely to get affected due to changes in the business and economic environment locally as well as globally. Bank is proactively keeping an eye on the delinquency in the accounts, financial position of the counterparty, current economic situation and other relevant information.

Credit review and approval process of the Bank is well-defined and is managed under strict supervision of senior management. For analysis of counterparties within various asset classes / constitutions / economic group, the Bank has in place rating models / scorecards, which further enhances the effective decision making. Concentration of exposure / risk in any of counterparty, economic group, or industry is assessed frequently and limit setting is tailored accordingly within Bank's overall risk appetite. Furthermore, during the year several automation initiatives were also undertaken by RMG for more efficient and effective decision making.

The Bank has also embarked on implementation of IFRS 9 standard, which is currently in parallel-run phase. The standard sets out new model for financial assets, which requires recognition of impairment charge based on an 'Expected Credit Loss' approach rather than the 'Incurred Credit Loss' approach as currently followed.

For the year ended December 31, 2022

Moreover, under the leadership of CEO & CRO, the credit approval process was brought in line with global best practices by implementing the delegated approval authorities to Chief Credit Officer (CCO) & Senior Credit Officers (SCOs). This has vastly improved the turnaround time (TAT) for credit approvals besides a focused approach to asset / loan underwriting and monitoring. Furthermore, the risk team has also started making joint visits with the business teams to customers sites which has proved to be very helpful in understanding the ground realities and also supports in making informed decisions.

Retail & Program Lending Group manages the risk side of products governed on a program basis. Group has been organized on a Credit Cycle approach that adapts an end-to-end credit view. It is engaged in areas of Policy & Portfolio Management, MIS & Analytics, Credit Approvals, Collection & Recovery, Quality Assurance, etc. Head of Retail & Program Lending Group reports to CRO of the bank and is also a voting member of Management Credit Committee.

Currently under Basel Framework, Standardized Approach is used to calculate capital charge for credit risk weighted assets, with simple approach for credit risk mitigation. Additionally, stress testing for credit risk is completed on regular basis to evaluate the conceivable effects of scenarios provided by the regulator.

Particulars of the bank's significant on-balance sheet and off-balance sheet credit risk in various sectors are analyzed as

#### 47.2.1.1 Lendings to financial institutions

#### 47.2.1.5 Concentration of Advances

The bank's top ten (10) exposures on the basis of total (funded and non-funded exposures) aggregated to Rs. 1,851,158 million (2021: Rs. 1,474,941 million) are as following:

(Rupees	in '000)
306,636,922	244,605,208
1,544,521,600	1,230,335,750
1.851.158.522	1,474,940,958

Funded Non Funded Total Exposure

The sanctioned limits against these top 10 exposures aggregated to Rs. 1,899,110 million (2021: Rs. 1,563,667 million).

For the purpose of this note, exposure means outstanding funded facilities and utilised non-funded facilities as at the reporting date.

#### 47.2.2 Market Risk

Market Risk is the value of on and off-balance sheet positions of a financial institution that will be adversely affected by movements in market factors such as interest rates, foreign exchange rates, equity prices, credit spreads and/ or commodity prices resulting in a loss to earnings and capital.

The Bank's market risk is managed through Market Risk Management (MRM) Framework approved by the Board which is comprised of related policies/ procedures with the objective to mitigate market risk. Bank has in-place market risk limits to maintain risk emanating from such market drivers within the Bank's risk appetite. Under the developed Value-at-Risk (VaR) models and policy framework, VaR limits are being monitored with an objective to be used for capital charge calculation under IMA approach in future.

Standardized Approach is used to calculate capital charge for market risk as per Basel framework. Stress testing for interest rate, equity prices, and exchange rates risks activities is carried out regularly to estimate the impact on the capital of the Bank and maintain the Bank's capital at appropriate level.

In addition to the regulatory requirements, Bank has devised proprietary market risk stress testing scenarios which are performed on periodic basis to assess the impact on capital of the Bank for Internal Capital Adequacy and Assessment Process (ICAAP). Limits/ zones and Management Action Triggers and Management Action Plans corresponding to Liquidity Ratios, Balance Sheet Duration Gap, Government Securities' PVBP and Duration have also been developed.

#### 47,2.2.2 Foreign Exchange Risk

Foreign exchange and translation risk arises from the impact of currency movements on the value of the Bank's cash flows, profits and losses, and assets and liabilities as a result of participation in global financial markets and international operations.

In order to manage currency risk exposure the Bank enters into ready, spot, forward and swaps transactions with the SBP and in the interbank market, financial institutions and corporates. The Bank's foreign exchange exposure comprises of forward contracts, purchases of foreign bills, foreign currency cash in hand, balances with Banks abroad, foreign placements with the SBP and foreign currency assets and liabilities. Foreign Exchange exposure is managed within the statutory limits, as fixed by the SBP. Appropriate segregation of duties exists between the front, middle and back office functions.

#### 47.2.2.3 Equity position Risk

- Profit and loss account

- Other comprehensive income

Stock trading activities also raise risk which occurs resulting in negative fluctuations of daily stock prices specifically in those stocks which are held by the Bank, hence, deplete capital. The Bank's equity position is managed through limits imposed by regulator for both, overall investment and exposure in single scrip. Moreover, internal limits are set to possibly manage overall earnings in the form of placing of stop loss, VaR limits and/ or through diversification within the structure of overall equity position portfolio.

#### 47.2.2.4 Yield / Interest Rate Risk in the Banking Book (IRRBB)-Basel II Specific

Interest rate risk specifically arises due to adverse movements in yield curve that is being monitored by ALCO with an objective to possibly limiting the potential adverse impact on the profitability of the Bank, which may result due to volatility of market interest rates and any mismatch or gaps in the amount of financial assets and financial liabilities in different maturity time bands. Bank assumes that the sources of IRR are based on following sub-risks.

- Re-pricing risk; arising from changes to the overall level of interest rates and inherent mismatches in the re-pricing term of banking book items.
- Yield curve risk; arising from a change in the relative level of interest rates for different tenors and changes in the slope or shape of the yield curve.
- Basis risk; arising from differences between the actual and expected interest margins on Banking book items over the implied cost of funds of those items.

#### 47.2.3 Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk but excludes strategic and reputational risks. For effective implementation, bank has comprehensive Operational Risk Management (ORM) Framework and procedure documents. These documents provide guidance for setting up operational risk strategy of the Bank, selection and adoption of risk and loss measurement tools, reporting, and establishment of operational risk management processes.

Operational risks are a core component of doing business arising from the day-to-day operational activities of the Bank including launching of new products and services by the bank. Bank realizes that operational risks cannot be fully mitigated, it therefore, determines an appropriate balance between accepting potential losses and incurring costs of mitigation.

Further, the Bank has adopted an Operational Risk Management Framework and Operational Risk Tolerance limits are approved by the Board in-line with Basel framework and Bank's policy, respectively. Furthermore, Bank has rolled-out Operational Loss Data Collection Mechanism whereby field functionaries and Groups/Divisions at head office are responsible to report operational losses under their jurisdictions on a certain frequency. Operational loss events are reviewed and appropriate corrective measures are taken on an ongoing basis. Risk Evaluation exercise is carried out for new products, processes and systems as per the operational risk procedures document of the bank.

The Bank also conducts root cause analysis of major Operational Risk Incidents covering key control lapses and accordingly suggests recommendations & mitigations. As per Basel regulatory framework, the Bank calculates capital charge for its operational risk using Basic Indicator Approach. This approach is considered most suitable in view of the business model of the bank which relies on an extensive network of branches to offer banking services to its customers.

Moreover, the Bank closely monitored overall bank's operational environment and undertook required actions to ensure the safety and security of Bank staff, assets and maintenance of service to its customers. The Bank continued to take measures to ensure maintenance of their service levels and resolved customer complaints to meet the expectations of its stakeholders.

The Bank's operations stayed highly resilient and the Bank deployed all necessary measures for the health and safety of its employees to prevent them from any unwarranted situation.

#### 47.2.4 Information Security Risk

Cyber Security is one of our top priority risks. Considering extensive customer base and increasing digital footprint, mechanism has been devised for upscaling of technology infrastructure and related channels from information security standpoint. Further, due to evolving cyber threat landscape, the Bank has taken appropriate actions to monitor and respond to cybersecurity risks and adopted a heightened state of cybersecurity. We are living in the highly technology dependent environment, where most of the business functions are performed with information technology for storing, processing and sharing information; the information "assets" that are being used to store, process and transmit the information, face various types of threats. If threats get materialized and are able to exploit the vulnerabilities (weaknesses) present in these information assets, the confidentiality, integrity and availability of information get compromised. In order to mitigate the risks, certain controls and countermeasures need to be assessed and implemented. The Bank has devised a governance mechanism to manage related risks through development of Policies & Frameworks, and deployed security tools to ensure adequate implementation of internal controls and monitoring of security threats within technology infrastructure.

As first line of defense, the Business groups have primary responsibility for identifying, measuring, and controlling the risks within their areas of accountability. Our staff of Information Security Division (ISD) is second line of defense against any cyber risks. Therefore, the Bank regularly assesses the information security controls and undertakes employees' awareness and trainings. The Bank works with its key technology partners to ensure that potentially vulnerable systems are identified and appropriate fixes & controls are implemented to secure the systems. The Bank is actively communicating with its customers on interacting with the Bank in a secure manner through its full suite of channels including online and digital banking.

For the year ended December 31, 2022

The management is cognizant of the fact that cyber security is a top priority risk and the Bank Is taking appropriate steps to monitor and respond to it. The Information Security Division (ISD) has been reorganized in 2022 with introduction of new technical roles of IS Security Operations & Threat Management, Network & Infrastructure Security, and Application & Database Security; in addition to the management roles of IS Governance & Compliance, IS Program Management, and IS Risk Management. The unit (ISD) works under the supervision of Chief Information Security Officer (CISO). Numerous steps have been taken by the Bank to identify cyber security weaknesses of systems & infrastructure. Several controls are in place including but not limited to 24/7 SOC, 2FA authentication of VPN connections, Kaspersky EPP and Crowdstrike EDR mandatory deployments on bank's systems (KATA XDR is in final phase of implementation) etc. in line with the action plan outlined in the Bank's cyber security management framework.

#### 47.2.5 Enterprise-wide Risk

In addition to the above mentioned risks, the Bank has a structure to identify residual material risks on periodic basis. The source of these reports includes, but not limited to, the Internal Capital Adequacy and Assessment Process (ICAAP), which takes into account risks over and above those which directly occur as a result of daily business and operations of the Bank. These risks include Concentration Risk, Interest Rate Risk in Banking Book (IRRBB), Increase in NPL Categories, Reputational Risk, Strategic Risk, etc.

Moreover, all those brewing risks that are material and arise within the Bank or due to inherent behavior of country's market and economic conditions, whether in isolation or in combination are addressed under the Bank-wide Recovery Plan. These risks are monitored on certain frequency and mitigating actions are taken as and when deemed necessary.

Bank's Stress-testing framework, comprises of tools, to deliver a timely assessment of the resilience of the Bank's capital under stressed conditions to the senior management. It ranges from simple sensitivity analysis to sophisticated stress testing methods to capture the abnormal movement of market and economic indicators and to translate such scenarios into projections of Bank's profitability, liquidity and capital planning.

This framework paves the way to a quantitative, forward-looking assessment of capital adequacy (movement/ level of Capital Adequacy Ratio (CAR) of the Bank) to provide an indication of how much capital might be needed to absorb any expected and any unforeseen losses. It helps in identifying potential vulnerabilities within the Bank and assessing solvency by applying plausible/ past adverse scenarios under extreme conditions."

#### 47.2.6 Liquidity Risk

Liquidity risk is the risk of loss to a bank arising from its inability to meet obligations as they fall due or to fund assets, without incurring unacceptable costs or losses. More simply, liquidity risk is the possibility that a bank will be unable to meet its financial commitment to a customer, creditor, or investor when due, in a timely and cost-effective manner.

To mitigate this risk, Bank has arranged diversified funding sources, manages specific assets with liquidity in mind and monitors liquidity on daily basis. In addition, the Bank maintains statutory deposits with central Banks inside and outside Pakistan. The purpose of liquidity management is to ensure that there are sufficient cash flows to meet all of the Bank's liabilities when due, under both normal and stressed conditions without incurring unacceptable losses, as well as to capitalize on opportunities for business expansion and profitability. This includes the Bank's ability to meet deposit withdrawals either on demand or at contractual maturity, to repay borrowings as they mature and to make new loans and investments, as opportunities arise.

Asset and Liability Committee (ALCO) is responsible for ensuring that the Bank has adequate liquidity and monitors liquidity gaps, to execute this responsibility. Mandatory as well as advanced/ optional stress testing and ratio based liquidity assessments are performed to proactively identify and manage liquidity position, needs/ requirements. Bank has various limits/ ratios, triggers and management actions in place to monitor and mitigate liquidity risk. The Bank calculates and monitors, on regular basis, Basel-III Liquidity standards (includes LCR, NSFR and LMTs), liquidity ratios as per SBP parameters besides other internal liquidity measures.

For the year ended December 31, 2022

#### 47.2.7 Derivative Risk

A derivative is a contract that derives its value from the performance of an underlying asset which can be an index, interest rate, commodity price, security price, FX rate etc. Derivatives include forwards, futures, swaps, options etc. In Pakistan, futures and forwards are most commonly traded derivatives.

Currently, the Bank is not an active participant in the Pakistan derivatives market as it does not hold an Authorized Derivative Dealer (ADD) license to perform derivative transactions. Once acquired, the Bank will carry out transactions that are permitted under the Financial Derivatives Business Regulations issued by SBP, which may include Interest rate swaps, forward rate agreements, foreign currency options, etc.

Moreover, the Bank may also offer other over the counter derivative products to satisfy customer requirements, specific approval of which will be sought from the SBP on a transaction by transaction basis.

#### 48. PROPOSED DIVIDEND FOR THE YEAR ENDED DECEMBER 31, 2021

As explained in note 48 of the annual audited unconsolidated financial statements of the Bank for the year ended December 31, 2021, the recommended cash dividend of Re.1 per share which amounted to Rs. 2,128 million, was not approved in the annual general meeting held on March 30, 2022.

#### 49. CORRESPONDING FIGURES

Certain corresponding figures have been reclassified wherever necessary to confirm to the presentation adopted in the current year.

#### 50. GENERAL

50.1 Figures have been rounded off to the nearest thousand rupees.

#### 51. DATE OF AUTHORISATION FOR ISSUE

The unconsolidated financial statements were authorised for issue on February 28, 2023 by the Board of Directors of the Bank.

2022

#### 8 **Pool Management**

NBP-AIBG has managed following pools for profit and loss distribution.

General depositor pool

The General pool consists of all other remunerative deposits. NBP Aitemaad (the Mudarib) accept deposits on the basis of Mudaraba from depositors (Rabbulmaal). The net return on the pool is arrived at after deduction of direct costs from the gross return earned on the pool. The entire net return after paying equity share to Mudarib is considered as distributable profit of the pool.

Special depositor pools (Total 182 during the period and 51 as at Dec 31, 2022) b)

Special pool(s) are created where the customers desire to invest in high yield assets. These pool(s) rates are higher than the general pool depending on the assets. In case of loss in special pool, the loss will be borne by the special pool members. The net return on the pool is arrived at after deduction of direct costs from the gross return earned on the pool. From the net return, and after allocation of share of profit to commingled equity, profit is paid to the Mudarib in the ratio of the Mudarib's equity in the pool to the total pool. The balance represents the distributable profit

Equity pool

Equity pools include AIBG's fund and current account deposits. The equity pool may have constructive liquidation every month and risk associated with assets of pool includes operational, market, equity, return and Shariah.

## Key features and risk & reward characteristics

Deposits are accepted from customers on the basis of Qard (current accounts) and Mudarabah (Saving and term deposits). No profit or loss is passed on to current account depositors.

For deposits accepted on Mudarabah basis from depositors (Rab ul Maal) the Bank acts as Manager (Mudarib) and invests the funds in the Shariah Compliant modes of financings. Rab ul Maal share is distributed among depositors according to weightages declared for a month before start of the period.

In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of investment.

For all pools, the Mudarib's share is deducted from the distributable profit to calculate the profit to be allocated to depositors. The allocation of the profit to various deposit categories is determined by the amount invested in that category relative to the total pool, as well as by the weightage assigned to the various deposit categories.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

## Annexure 'II' as referred to in notes 2.1 and 11.7 of the Bank's Unconsolidated Financial Statements

Avenues / sectors of economy / business where Modaraba based deposits have been deployed.

	2022 (Perce	2021 ntage)
Sector		
Fertilizer	1.48%	1.12%
Textile	4.25%	4.60%
Fuel & energy	34.07%	40.71%
Leasing/Modarbas	0.03%	0.34%
Sugar	7.80%	7.94%
Cement	6.10%	7.43%
Gas	0.35%	0.91%
Financial	1.94%	1.59%
Federal Government	32.95%	24.61%
Real Estate	3.10%	2.98%
Agriculture	0.30%	0.34%
Others	7.64%	7.43%
Total	100%	100%

## Parameters for profit allocation and charging expenses

Profit of the pools has been distributed between Mudarib and Rab-ul-Mall by using preagreed profit sharing ratios. The share of Rab-ul-Mall's profit has been distributed among different customers using the various weightages assigned to the different categories of the pool.

No provision against any non performing asset of the pool is passed on to the pool except on the actual loss / write off of such non performing asset. Administrative expense are borne by mudarib and not charged to Mudaraba pool.

Mudarib Share	31-Dec-22 (Rupees in '000)
Gross Distributable Income	9,906,319
Mudarib (Bank) share of profit before Hiba	3,211,747
Mudarib Share in percentage	32%
Hiba from Mudarib Share	
Mudarib (Bank) share of profit before Hiba	3,211,747
Hiba from bank's share to depositors	708,244
Hiba from bank's share to depositors in percentage	22%

## **Profit rates**

During the year ended December 31, 2022 the average profit rate earned by NBP Islamic Banking Group is 12.82% and the profit distributed to the depositors is 8.92%.

## Directors' Report to the Shareholders Consolidated **Financial Statements**

#### Dear Shareholders.

On behalf of the Board of Directors, we are pleased to present the Directors' Review together with audited consolidated financial statement of National Bank of Pakistan and its Group companies for the year ended December 31, 2022.

Consolidated after-tax profit of the Group for the year ended December 31, 2022 amounted to PKR 30.95 Bn. being 7.6% higher than PKR 28.8 Bn for the year ended December 31, 2021. For the year ended December 31, 2022, the subsidiary companies contributed PKR 0.807 Bn (2021; PKR 0.889 Bn) to the Group profitability; whereas the associates contributed a net loss of PKR 0.095 Bn (2021: Profit PKR 0.023 Bn). A share of profit of PKR 0.545 Bn (2021: PKR 0.218 Bn) was however recorded on account of UNBL-UK, a UK based Joint Venture in which NBP has 45% shareholding. Accordingly, consolidated after tax profit for the year stood at PKR 30.95 8n translating into EPS of PKR 14.49 as compared to PKR 13.44 for the year ended December 31, 2021.

As at December 31, 2022, consolidated assets of the Group amounted to PKR 5,251.8 Bn being PKR 1,394.7 Bn or 36.2% higher than PKR 3.857.0 Bn of December 31, 2021.

Group after-tax profit for the year ended December 31, 2022 after carry forward of accumulated profit of 2021 is proposed to be appropriated as follows:

	(PKH WIII)
After-tax consolidated profit for the year ended December 31, 2022	30,949.0
Unappropriated profit brought forward	145,312.5
Other comprehensive income - net of tax	(3,114.2)
Non-controlling interest	(114.4)
Transfer from surplus on revaluation of fixed assets - net of tax	197.7
Transfer from general loan loss reserve	0.000.8
•	150,281.6
Profit available for appropriations	181,230.6
Appropriation:	
Transfer to statutory reserve	(3,041.0)
Unappropriated profit carded forward	178,189.6

Unappropriated profit carried forward For and on behalf of the Board of Directors

## **Independent Auditors' Report**

To the members of National Bank of Pakistan Report on the Audit of the Consolidated Financial Statements

## Opinion

We have audited the annexed consolidated financial statements of National Bank of Pakistan and its subsidiaries (the Group), which comprise the consolidated statement of financial position as at December 31, 2022, and the consolidated profit and loss account, the consolidated statement of comprehensive income, the consolidated statement of changes in equity and the consolidated cash flow statement for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion, consolidated financial statements give a true and fair view of the consolidated financial position of the Group as at December 31, 2022 and of its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with the accounting and reporting standards as applicable in Pakistan.

## **Basis for Opinion**

We conducted our audit in accordance with International Standards on Auditing (ISAs) as applicable in Pakistan. Our responsibilities under those standards are further described in the Auditors' Responsibilities for the Audit of the Consolidated Financial Statements section of our report. We are independent of the Group in accordance with the International Ethics Standards Board for Accountants' Code of Ethics for Professional Accountants as adopted by the Institute of Chartered Accountants of Pakistan (the Code), and we have fulfilled our other ethical responsibilities in accordance with the Code. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

## **Emphasis of Matter**

We draw attention to note 26.3.4.1 to the consolidated financial statements which explains the contingency in relation to the pension obligation of the Group. The Group, based on the opinion of its legal counsel, is confident about a favorable outcome on this matter and hence, no provision has been made in these consolidated financial statements. Our opinion is not modified in respect of this matter.

### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

## Yousuf Adil **Chartered Accountants**

Following are the Key Audit Matters:

S.No. Key Audit Matter	How the matter was addressed in our audit
Provision against advances     (Refer notes 5.8 and 11.4 to the consolidated financial statements)	
The Group makes provision against advances extended in Pakistan on a time-based criteria that involves ensuring that all non-performing advances are classified in accordance with the ageing criteria specified in the Prudential Regulations (PRs) issued by the State Bank of Pakistan (SBP).  In addition to the above time-based criteria, the PRs require a subjective evaluation of the credit worthiness of borrowers to determine the classification of advances.  The PRs also require the creation of general provision for certain categories of advances.  Provision against advances of overseas locations is made as per the requirements of the respective regulatory regimes.  The Group has recognized a net provision against advances amounting to Rs. 8,012 million in the consolidated profit and loss account in the current year. As at December 31, 2022, the Group holds a provision of Rs. 208,363 million against advances. This includes a general provision against the underperforming portfolio on a prudent basis.  The determination of provision against advances based on the above criteria remains a significant area of judgement and estimation. Because of the significance of the impact of these judgements / estimations and the materiality of advances relative to the overall consolidated financial statements of the Group, we considered the area of provision against advances as a key audit matter.	Our audit procedures to verify provision against domestic advances included, amongst others, the following:  Obtained an understanding of the management process to record provision and ensure that it is consistent with the requirements of PRs;  Evaluated the design and tested the operating effectiveness of the relevant controls established by the Group to identify loss events and for determining the extent of provisioning required against non-performing advances; and  Selected a sample of loan accounts and performed the following substantive procedures to evaluate the appropriateness of specific and general provision:  i) Checked credit documentation, repayments of loan / mark-up instalments, tested classification of non-performing advances based on the number of days overdue;  ii) Evaluated the management's assessment for classification of a customer's loan facilities as performing or non-performing based on review of repayment pattern, inspection of credit documentation and thorough discussions with the management;  iii) In case of restructured loans, we reviewed the detailed documentation of restructuring including approvals, legal opinions, terms of restructuring, payment records and any other relevant documents to ensure that restructuring was made in accordance with the PRs;  iv) We also reviewed minutes of the meeting of credit, risk and compliance and audit committees to identify risky exposures; and  v) We had discussions with management to challenge assumptions and judgements used in performing portfolio review and recording provisions.  We issued instructions to auditors of those overseas branches and a joint venture which were selected for audit, highlighting 'Provision against advances' as a significant risk. The auditors of those branches and joint venture performed audit procedures to check compliance with regulatory requirements and reported the work performed by the component auditors and the results thereof.

## Yousuf Adil **Chartered Accountants**

S.No.	Key Audit Matter	How the matter was addressed in our audit
2	Valuation of listed equity shares, units of mutual funds and term finance certificates classified as available-for-sale (Refer notes 5.4 and 10.1 to the consolidated financial statements)	
	The Group has significant investments in equity shares, units of mutual funds and term finance certificates (TFCs) classified as Avallable for Sale (AFS). As per the Group's policy, listed equity shares and units of mutual funds are required to be considered for impairment when there is a significant or prolonged decline in the fair value of investments. Further, TFCs are required to be assessed for impairment as per the SBP's Prudential Regulations which involves subjective criteria.  The significance of the investment amount, subjectivity involved, and assumptions used in impairment make it significant to the consolidated financial statements. Therefore, we have considered this as a key audit matter.	<ul> <li>On a sample basis, we have performed the following procedures:</li> <li>Each investment's cost was compared to its market value wherever available to determine decline / surplus in valuation;</li> <li>Checked whether, in case of listed equity shares and units of mutual funds classified as available for sale, impact of significant or prolonged decline was recognized consistently as per the policy of the Group as disclosed in note 5.27(c); and</li> <li>For TFCs, checked that listed TFCs were valued as per the quoted prices and unlisted TFCs were valued at cost less provision. Further, TFCs were also evaluated based on evidence of deterioration in the financial health of the investee and repayment pattern.</li> </ul>

## Information Other than the Consolidated and Unconsolidated Financial Statements and Auditors' Reports Thereon

Management is responsible for the other information. The other information comprises the information included in the Annual Report, but does not include the consolidated and unconsolidated financial statements and our auditors' reports thereon.

Our opinion on the consolidated financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

Yousuf Adil Chartered Accountants A.F. Ferguson & Co. Chartered Accountants

Responsibilities of Management and the Board of Directors for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting and reporting standards as applicable in Pakistan, the requirements of Banking Companies Ordinance, 1962 and the Companies Act, 2017 (XIX of 2017) and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The Board of directors is responsible for overseeing the Group's financial reporting process.

Auditors' Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with ISAs as applicable in Pakistan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with ISAs as applicable in Pakistan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error,
design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to
provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting
from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's Internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention In our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- · Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Board of Directors regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Board of Directors with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Independent Correspondent Firm to Deloitte Touche Tohmatsu Limited

## Yousuf Adli Chartered Accountants

A.F. Ferguson & Co. Chartered Accountants

From the matters communicated with the Board of Directors, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

The engagement partners on the audit resulting in this independent auditors' report are Nadeem Yousuf Adil and Shahbaz Akbar on behalf of Yousuf Adil and A. F. Ferguson & Co. respectively.

### 1.2 Basis of consolidation

- The consolidated financial statements include the financial statements of the Bank (Holding Company) and its subsidiary companies together - "the Group".
- Subsidiary companies are fully consolidated from the date on which more than 50% of voting rights are transferred to
  the Group or power to control the company is established and excluded from consolidation from the date of disposal
  or when the control is lost.
- The assets, liabilities, income and expenses of subsidiary companies have been consolidated on a line by line basis.
- Income and expenses of subsidiaries acquired during the year are included in the consolidated statement of the comprehensive income from the effective date of acquisition.
- Non-Controlling interest / (minority interest) in equity of the subsidiary companies are measured at fair value for all the subsidiaries acquired from period beginning on or after January 1, 2010 whereas minority interest of previously acquired subsidiaries are measured at the proportionate net assets of subsidiary companies attributable to interest which is not owned by holding company.
- Material intra-group balances and transactions have been eliminated.

## 2. BASIS OF PRESENTATION

2.1 In accordance with the directives of the Federal Government of Pakistan regarding the shifting of banking system to Islamic modes, the SBP has issued various circulars from time to time. Permissible forms of trade related mode of financing includes purchase of goods by banks from their customers and immediate resale to them at appropriate mark-up in price on deferred payment basis. The purchases and sales arising under these arrangements are not reflected in these consolidated financial statements as such but are restricted to the amount of facility actually utilized and the appropriate portion of mark-up thereon.

Key financial figures of the Islamic banking branches have been disclosed in note annexure-II to these consolidated financial statements.

For the year ended December 31, 2022

2.2 The US Dollar amounts shown on the statement of financial position, profit and loss account, statement of comprehensive income and cash flow statement are stated as additional information solely for the convenience of readers. For the purpose of conversion to US Dollars, the rate of Rs. 226.4309 to 1 US Dollar has been used for 2022 and 2021 as it was the prevalent rate as on December 31, 2022.

### 3. STATEMENT OF COMPLIANCE

- 3.1 These consolidated financial statements have been prepared in accordance with the accounting and reporting standards as applicable in Pakistan. The accounting and reporting standards applicable in Pakistan comprise of:
  - International Financial Reporting Standards (IFRS), issued by the International Accounting Standards Board (IASB) as notified under the Companies Act, 2017;
  - Islamic Financial Accounting Standards (IFAS), issued by the Institute of Chartered Accountants of Pakistan as notified under the Companies Act, 2017;
  - Provisions of and directives issued under the Banking Companies Ordinance, 1962 and the Companies Act, 2017; and
  - Directive Issued by the State Bank of Pakistan (SBP) and the Securities and Exchange Commission of Pakistan (SECP);

Where the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017, or the directives issued by the SBP and the SECP differ with the requirements of IFRS or IFAS, the requirements of the Banking Companies Ordinance, 1962, the Companies Act, 2017 and the said directives shall prevail.

- 3.2 SBP has deferred the applicability of International Accounting Standard (IAS) 39, 'Financial Instruments: Recognition and Measurement' and IAS 40, 'Investment Property' for Banking Companies through BSD Circular Letter No. 10 dated August 26, 2002. Moreover, SBP vide BPRD circular no. 4, dated February 25, 2015, has deferred the applicability of Islamic Financial Accounting Standards (IFAS) 3, Profit and Loss Sharing on Deposits. Further, according to the notification of SECP dated April 28, 2008, the IFRS 7 "Financial Instruments: Disclosures" has not been made applicable for banks. Accordingly, the requirements of these standards have not been considered in the preparation of these consolidated financial statements. However, investments have been classified and valued in accordance with the requirements of various circulars issued by the SBP.
- 3.3 The SECP vide SRO 56 (1) / 2016 dated January 28, 2016, has notified that the requirements of IFRS 10 (Consolidated Financial Statements) and section 228 of the Companies Act, 2017 will not be applicable with respect to the investment in mutual funds established under trust structure.
- 3.4 Application of new and revised International Financial Reporting Standards (IFRSs)
- 3.4.1 Standards, interpretations of and amendments to published approved accounting standards that are effective in the current year.

The following standards, amendments and interpretations are effective for the year ended December 31, 2022. These standards, amendments and interpretations are either not relevant to the Bank's operations or are not expected to have significant impact on the Bank's consolidated financial statements other than certain additional disclosures:

- Amendment to IFRS 16 'Leases' Covid-19 related rent concessions extended beyond June 30, 2021
- Amendments to IFRS 3 'Business Combinations' Reference to the conceptual framework
- Amendments to IAS 16 'Property, Plant and Equipment' Proceeds before intended use
- Amendments to IAS 37 'Provisions, Contingent Liabilities and Contingent Assets' Onerous Contracts cost of fulfilling a contract

For the year ended December 31, 2022

Annual Improvements to IFRS Standards 2018-2020 Cycle (related to IFRS 9, IFRS 16 and IAS 41)

Certain annual improvements have also been made to a number of IFRSs

Standards, interpretations of and amendments to published approved accounting standards that are not yet 3.4.2 effective.

The following standards, amendments and interpretations are only effective for accounting periods, beginning on or after the date mentioned against each of them. These standards, interpretations and amendments are either not relevant to the Group's operations or are not expected to have significant impact on the Group's consolidated financial statements other than certain additional disclosures:

	Effective from accounting period beginning on or after
Amendments to IAS 1 'Presentation of Financial Statements' - Disclosure of accounting policies	January 01, 2023
Amendments to IAS 8 'Accounting Policies, Changes in Accounting Estimates and Errors' - Definition of accounting estimates	January 01, 2023
Amendments to 'IAS 12 Income Taxesdeferred tax related to assets and liabilities arising from a single transaction.	January 01, 2023
Amendments to IFRS 16 ' Leases' -Clarification on how seller-lessee subsequently measures sale and leaseback transactions	January 01, 2024
Amendments to IAS 1 'Presentation of Financial Statements' - Classification of liabilities as current or non-current	January 01, 2024
Amendments to IFRS 10 and 28 - Sale or Contribution of Assets between an Investor and its Associate or Joint Venture	Deferred indefinitely

There are certain new and amended standards and interpretations that are mandatory for the Group's accounting periods beginning on or after January 1, 2022 but are considered not to be relevant or do not have any significant effect on the Group's operations and are therefore not detailed in these consolidated financial statements.

- The SBP vide its BPRD Circular No. 02 of 2023 dated February 9, 2023 has specified the new reporting format for financial 3.4.3 statements of Banking Companies. The new format has revised the disclosure requirements and will become applicable for the financial statements of the Bank for the quarter ending March 31, 2023.
- Other than the aforesaid standards, interpretations and amendments, the International Accounting Standards Board (IASB) 3.4.4 has also issued the following standards which have not been adopted locally by the Securities and Exchange Commission
  - IFRS 1 First Time Adoption of International Financial Reporting Standards
  - IFRS 17 Insurance Contracts
- The management anticipates that these new standards, interpretations and amendments will be adopted in the Group's 3.4.5 consolidated financial statements as and when they are applicable and adoption of these new standards, interpretations and amendments, may have no material impact on these consolidated financial statements of the Bank in the period of initial application.

For the year ended December 31, 2022

### 3.4.6 IFRS 9 Financial Instruments:

As directed by SBP via BPRD Circular no 3 of 2022, IFRS 9 Financial Instruments is effective for periods beginning on or after 1 January 2023 for banks having asset base of more than Rs. 500 billion as at 31 December 2021. SBP via same circular has finalized the instructions on IFRS 9 (Application Instructions) for ensuring smooth and consistent implementation of the standard in the banks.

During the 2022, the management of the Bank has performed an impact assessment of IFRS 9 taking into account the SBP's IFRS 9 application instructions. The assessment is based on available Information and may be subject to changes arising from further reasonable and supportable information being made available to the Bank at the time of finalizing the impact for initial application of IFRS 9. In addition, the Bank will implement changes in classification of certain financial instruments. These changes and impacts are discussed below:

An overview of the IFRS 9 requirements that are expected to have significant impact are discussed below along with the additional requirements introduced by the SBP:

## Governance, ownership and responsibilities

The Bank has adopted a governance framework requiring the Risk, Finance, Operations, Internal Audit and IT functions to effectively work together to ensure input from all business lines. IFRS 9 requires robust credit risk models that can predict Probability of Default (PD), Loss Given Default (LGD) and Exposure at Default (EAD).

Risk Management Division has develop Models/ methodologies for PD, LGD and Credit Conversion Factor (CCF). These models shall be validated on annual basis considering the following aspects:

- Quantitative Validation: Expected credit loss (ECL) model design validation, data quality validation and benchmarking with external best practices.
- Quantitative Validation: Calibration testing which ensures the accuracy of the observed PDs.

Finance Division will ensure preparation of disclosures and incorporation of the impacts on the financial statements of the Bank. The function shall identify, prepare and extract the data required for the risk parameters modelling and ECL calculations. Finance Division shall ensure that all disclosures as required by the accounting standard and the SBP formats and guidelines are made.

The risk management division will perform the back testing of ECL at least on yearly basis and will be responsible for the independent validation of the risk parameters / risk models; including PD, LGD and CCF etc., that are used to compute the ECL which would be carried out as per the policy.

Internal Audit will carry out periodic review of IFRS 9 methodology and impacts calculated by the Management.

### Classification and measurement

The classification and measurement of financial assets will depend on how these are managed (the entity's business model) and their contractual cash flow characteristics. Financial assets that do not meet the SPPI criteria are measured at FVTPL regardless of the business model in which they are held. The Bank's s business model in which financial assets are held will determine whether the financial assets are measured at amortised cost, fair value through other comprehensive income ('FVOCI') or fair value through profit or loss ('FVPL'). The classification of equity instruments is generally measured as Fair Value through Profit & Loss (FVTPL) unless the Bank elects for Fair Value through Other Comprehensive Income (FVTOCI) at initial recognition. The Bank has analyzed the impact of initial application of IFRS 9 on its financial assets as follows:

## **Equity Securities**

The Bank expects to continue measuring at fair value all financial assets currently held at fair value.

For certain listed equity securities currently classified as available-for-sale (AFS) with gains and losses recorded in OCI, the

For the year ended December 31, 2022

Bank will apply the option to classify them as FVOCI. Therefore, the application of IFRS 9 will not have an impact on initial adoption. However, in accordance with the requirements of the standard, gains and losses recognized in OCI will not be recycled through the profit and loss account on derecognition of these securities.

The remaining listed equity securities will be measured at FVTPL. The AFS reserve related to those securities is currently part of Surplus on Revaluation of Assets and will be reclassified to retained earnings hence, there will be no impact on overall equity.

Unquoted equity securities are required to be measured at fair value under IFRS 9. However, the SBP has allowed banks to carry these investments under the current Prudential Regulations, i.e. at the lower of cost and break-up value, till accounting periods beginning on or after January 1, 2024.

### Debt securities and Loans and advances

Debt securities currently classified as AFS and those passes SPPI test, are expected to be measured at fair value through OCI under IFRS 9 as the Bank's business model is to hold the assets to collect contractual cash flows, but also to sell those investment. Debt securities currently classified as HTM and those passes SPPI test are expected to be measured at amortized costs under IFRS 9 as the Group business model is to hold the assets to collect contractual cash flows.

Cashflows of certain debt instruments classified in AFS or / and HTM categories, do not expect to give risk to cash flows representing solely payments of principal and interest and accordingly, these would be measured at fair value through profit and loss.

### Impairment

The impairment requirements apply to financial assets measured at amortised cost and FVOCI (other than equity instruments), lease receivables, and certain loan commitments and financial guarantee contracts. At initial recognition, an impairment allowance (or provision in the case of commitments and guarantees) is required for expected credit losses ('ECL') resulting from default events that are possible within the next 12 months ('12-month ECL'). In the event of a significant increase in credit risk, an allowance (or provision) is required for ECL resulting from all possible default events over the expected life of the financial instrument ('lifetime ECL'). Financial assets where 12-month ECL is recognised are in 'stage 1'; financial assets that are considered to have experienced a significant increase in credit risk are in 'stage 2'; and financial assets for which there is objective evidence of impairment, so are considered to be in default or otherwise credit impaired, are in 'stage 3'.

The assessment of credit risk and the estimation of ECL are required to be unbiased and probability-weighted, and should incorporate all available information which is relevant to the assessment including information about past events, current conditions and reasonable and supportable forecasts of economic conditions at the reporting date. In addition, the estimation of ECL should take into account the time value of money.

Based on the requirement of IFRS 9 and SBP's IFRS 9 application instructions, the Bank has performed an ECL assessment taking into account the key elements such as assessment of SCIR, Probability of Default, Loss Given Default and Exposure at Default. These elements are described below:

- PD: The probability that a counterparty will default, calibrated over the 12 months from the reporting date (stage 1) or over the lifetime of the product (stage 2) and incorporating forward looking information.
- LGD: An estimate of the loss incurred on a facility upon default by a customer. LGD is calculated as the difference between contractual cash flows due and those that the Bank expects to receive, including from the liquidation of any form of collateral. It is expressed as a percentage of the exposure outstanding on the date of classification of an obligor.
- EAD: the expected balance sheet exposure at the time of default, incorporating expectations on drawdowns, amortisation, pre-payments and forward-looking information where relevant.

For the year ended December 31, 2022

For the purpose of calculation of ECL, the Bank has used 5 years data till 31 December 2022 and going forward, one more year's data shall be included until the Bank has at least 10 years data. For calculating ECL, the Bank shall classify its financial assets under three following categories:

- a) Stage 1: Performing Assets: Financial assets where there has not been a SICR since initial recognition, the Bank shall recognize an allowance based on the 12-month ECL.
- b) Stage 2: Under-Performing Assets: For financial assets where there has been a SICR since initial recognition, but which are not credit impaired, the Bank shall recognize an allowance based on lifetime ECL for all exposures categorized in this stage based on the actual maturity profile.
- c) Stage 3: Non-Performing Assets: For financial assets which have objective evidence of impairment at the reporting date, the Bank shall recognize ECL on these financial assets using the higher off approach, which means that lifetime ECL computed under IFRS 9 is compared with regulatory provision required as per Prudential regulations

As required by the Application Instructions, financial assets may be reclassified out of stage 3 if they meet the requirements of Prudential Regulations (PR) issued by SBP. Financial assets in stage 2 may be reclassified to stage 1 if the conditions that led to a SICR no longer apply.

## Significant increase in credit risk (SICR)

A SICR is assessed in the context of an increase in the risk of a default occurring over the life of the financial instrument when compared to that expected at the time of initial recognition. It is not assessed in the context of an increase in the ECL. The Bank uses a number of qualitative and quantitative measures in assessing SICR. Quantitative measures relate to deterioration of Obligor Risk Ratings (ORR) or where principal and / or interest payments are 60 days or more past due. Qualitative factors include unavailability of financial information and pending litigations.

Based on the level of increase in credit risk, the Bank shall calculate 12 month ECL for assets which did not have a SICR i.e., Stage 1 or a lifetime expected loss for the life of the asset (for assets which demonstrated a SICR) i.e., Stage 2.

At every reporting date, the Bank shall assess whether there has been a SICR since the initial recognition of the asset. If there is a SICR, the asset must be assigned to the appropriate stage of credit impairment (Stage 2 or 3).

Under the SBP's instructions, credit exposure (in local currency) guaranteed by the Government and Government Securities are exempted from the application of ECL Framework. Moreover, until implementation of IFRS 9 has stabilized, Stage 1 and stage 2 provisions would be made as per IFRS 9 ECL and stage 3 provision would be made considering higher of IFRS 9 ECL or provision computed under existing PRs' requirements.

### Presentation and disclosure

IFRS 9 also introduces expanded disclosure requirements and changes in presentation which will be incorporated as per the SBP's revised format.

### Loan / financing related fee

Loan origination / commitment fees that are regarded as compensation to the lender for an ongoing involvement with the acquisition of a financial instrument would be recognized over the life of the related loan. However, if the commitment expires without the lender making the loan, the fee would be recognised as revenue as earned.

## Impact of adoption of IFRS 9

The actual impact of adopting IFRS 9 on the Bank's financial statements in the year 2023 may not be accurately estimated because it will be dependent on the financial instruments that the Bank would hold during 2023 and economic conditions at that time as well as accounting elections and judgements that it will make in future. Nevertheless, the Bank has performed a preliminary assessment of the potential impact of adoption of IFRS 9 based on its statement of financial position as at December 31, 2022.

As not adopted. As not current

## Notes to and forming part of the Consolidated Financial Statements

For the year ended December 31, 2022

### Classification and measurement

Based on the bank's assessment, the IFRS 9 requirements are expected to have the following impact on the classification and measurement of its financial assets and financial liabilities:

- 1. Debt instruments amounting to Rs. 12,805 million have been reclassified from Available for Sale to Fair Value through Profit or Loss.
- 2. Equity instruments amounting to Rs. 20,024 million have been reclassified from Available for Sale to Fair Value through Profit or Loss.

### Impairment

The total estimated adjustment (net of tax) of the adoption of IFRS 9 on the opening balance of the Bank's equity at 1 January 2023 is reduction in equity of approximately Rs. 10,555 million, representing corresponding impact related to impairment requirements;

## Impact on regulatory capital

The implementation of IFRS 9 is expected to result in reduced regulatory capital of the Bank, which is likely to reduce their lending capacity and ability to support their clients. In order to mitigate the impact of expected credit loss (ECL) models on capital, SBP has determined that it may be appropriate for the Financial Institutions (FIs) to follow a transitional arrangement for the impact on regulatory capital from the application of ECL accounting. Annexure B of the 'Application Instructions' issued by SBP vide BPRD Circular No.3 of 2022 dated July 05, 2022, have detailed the transitional arrangement.

The transitional arrangement must apply only to provisions for stage 1 and 2 financial assets. The transitional arrangement must only adjust CET1 capital. Where there is a reduction in CET1 capital due to new provisions, net of tax effect, upon adoption of an ECL accounting model, the decline in CET1 capital (the "transitional adjustment amount") must be partially included (i.e. added back) to CET1 capital over the "transition period" of five years.

The impact of adoption of IFRS 9 on the capital ratios of the Group are as follows:

	IFRS 9	AS per current
Common Equity Tier 1 Capital Adequacy ratio	16.52%	16.56%
Tier 1 Capital Adequacy Ratio	16.52%	16.56%
Total Capital Adequacy Ratio	21.98%	22.02%
CET1 available to meet buffers (as a percentage of risk weighted assets)	7.52%	7.56%

## 4. BASIS OF MEASUREMENT

These consolidated financial statements have been prepared under the historical cost convention except for revaluation of land and buildings and non-banking assets acquired in satisfaction of claims which are stated at revalued amount and certain investments and derivative financial instruments that are carried at fair value. In addition, obligations in respect of defined benefit plan are carried at the present values.

## 5. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policy adopted in preparation of these consolidated financial statements are consistent with those of the previous financial year.

## 5.1 Business Combination

Acquisitions of businesses are accounted for using the acquisition method. The consideration transferred in a business

For the year ended December 31, 2022

combination is measured at fair value, which is calculated as the sum of the acquisition-date fair values of the assets transferred by the Group, liabilities incurred by the Group to the former owners of the acquiree and the equity interests Issued by the Group in exchange for control of the acquiree. Acquisition-related costs are recognised in profit and loss account as incurred.

At the acquisition date, the identifiable assets acquired and the liabilities assumed are recognised at their fair value.

Goodwill is measured as the excess of the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree, and the fair value of the acquirer's previously held equity interest in the acquiree (if any) over the net of the acquisition-date amounts of the identifiable assets acquired and the liabilities assumed. If, after reassessment, net of the acquisition-date amounts of the identifiable assets acquired and liabilities assumed exceeds the sum of the consideration transferred, the amount of any non-controlling interests in the acquiree and the fair value of the acquirer's previously held interest in the acquiree (if any), the excess is recognised immediately in profit and loss account as a bargain purchase gain.

Non-controlling interests that are present ownership interests and entitle their holders to a proportionate share of the Group's net assets in the event of liquidation is measured at fair value at the date of the acquisition.

When a business combination is achieved in stages, the Group's previously held equity interest in the acquiree is remeasured to fair value at the acquisition date (i.e. the date when the Group obtains control) and the resulting gain or loss, if any, is recognised in profit and loss account.

### 5.2

Goodwill arising on an acquisition of a business is carried at cost as established at the date of acquisition of the subsidiary company.

For the purposes of impairment testing, goodwill is allocated to each of the Group's cash-generating units (or entities of cash-generating units) that is expected to benefit from the synergies of the combination.

A cash-generating unit to which goodwlll has been allocated is tested for impairment annually, or more frequently when there is indication that the unit may be impaired. If the recoverable amount of the cash-generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit on a pro-rata basis based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognised directly in profit and loss account. An impairment loss recognised for goodwill is not reversed in subsequent periods.

On disposal of the relevant cash-generating unit, the attributable amount of goodwill is included in the determination of the profit or loss on disposal.

#### 5.3 Cash and cash equivalents

Cash and cash equivalents include cash and balances with treasury banks, balances with other banks and call money lendings, less call borrowings and overdrawn nostro accounts.

#### 5.4 Investments

Investments other than those categorised as held-for-trading are Initially recognised at fair value which includes transactions costs associated with the investments. Investments classified as held-for-trading are initially recognised at fair value, and transaction costs are expensed in the profit and loss account.

All regular way purchases / sales of investments are recognised on the trade date, i.e., the date the Group commits to purchase / sell the investments. Regular way purchases or sales of investments require delivery of securities within the time frame generally established by regulation or convention in the market place.

The Group has classified its investment portfolio, except for investments in subsidiaries, associates and joint ventures into 'held-for-trading', 'held-to-maturity' and 'available-for-sale' as follows:

Held-for-trading - These are securities which are acquired with the intention to trade by taking advantage of short-term market / interest rate movements and are to be sold within ninety (90) days. These are carried at market value, with the

For the year ended December 31, 2022

related unrealized gain / (loss) on revaluation being taken to profit and loss account.

- Held-to-maturity These are securities with fixed or determinable payments and fixed maturity that are held with the intention and ability to hold to maturity. These are carried at amortised cost.
- Available-for-sale These are investments that do not fall under the held-for-trading or held-to-maturity categories. These are carried at market value except in case of unquoted securities where market value is not available, which are carried at cost less provision for diminution in value, if any. Surplus / (deficit) on revaluation is taken to 'surplus / (deficit) on revaluation of assets' account shown in equity. Provision for diminution in value of investments in respect of unquoted shares is calculated with reference to break-up value of the same. On derecognition or impairment in quoted available-for-sale investments, the cumulative gain or loss previously reported as 'surplus / (deficit) on revaluation of assets' in equity is included in the profit and loss account for the year.
- Provision for diminution in value of investments in unquoted debt securities is calculated as per the SBP's Prudential Regulations.

Held-for-trading and quoted available-for-sale securities are marked to market with reference to ready quotes on Reuters page or MUFAP (PKRV / PKISRV / PKFRV) or the Stock Exchanges, as the case may be.

Associates - Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investments in associates are accounted for under the equity method of accounting. However, in case where associates are considered as fully impaired and financial statements are not available, these investments are stated at cost less provision.

Under the equity method, the Group's share of its associates' post-acquisition profits or losses is recognized in the consolidated profit and loss account, its share of post-acquisition movements in reserves is recognized in reserves. The cumulative post-acquisition movements are adjusted against the carrying amount of the investment. When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Group does not recognize further losses, unless it has incurred obligations or made payments on behalf of the

Joint venture - The Group has interests in joint venture which is jointly controlled entity. A joint venture is contractual arrangement whereby two or more parties undertake in economic activity that is subject to a joint control and includes a jointly controlled entity that involves the establishment of separate entity in which each venturer has an interest. The Group accounts for its interest in joint venture using the equity method of accounting.

The carrying values of investments are reviewed for impairment when indications exist that the carrying value may exceed the estimated recoverable amount. Provision is made for impairment in value, if any.

#### Repurchase and resale agreements 5.5

Securities sold with a simultaneous commitment to repurchase at a specified future date (repos) continue to be recognised in the statement of financial position and are measured in accordance with accounting policies for investment securities. The counterparty liability for amounts received under these agreements is included in borrowings. The difference between sale and repurchase price is treated as mark-up / return / interest expense and accrued over the life of the repo agreement using effective yield method.

Securities purchased with a corresponding commitment to resell at a specified future date (reverse repos) are not recognised in the statement of financial position, as the Group does not obtain control over the securities. Amounts paid under these agreements are included in lendings to financial institutions. The difference between purchase and resale price is treated as mark-up / return / interest income and accrued over the life of the reverse repo agreement using effective yield method.

#### Derivative financial instruments 5.6

Derivative financial instruments are initially recognised at fair value on the dates on which the derivative contracts are entered into and are subsequently re-measured at fair value using appropriate valuation techniques. All derivative financial

For the year ended December 31, 2022

instruments are carried as assets when fair value is positive and liabilities when fair value is negative. Any change in the fair value of derivative instruments during the year is taken to the profit and loss account.

## 5.7 Financial instruments

All financial assets and financial liabilities are recognized at the time when the Group becomes a party to the contractual provisions of the instrument. A financial asset is derecognised where (a) the rights to receive cash flows from the asset have expired; or (b) the Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (i) the Group has transferred substantially all the risks and rewards of the asset, or (ii) the Group has neither transferred nor retained substantially all the risk and rewards of the asset, but has transferred control of the asset. A financial liability is derecognised when the obligation under the liability is discharged or cancelled or expires. Any gain or loss on derecognition of the financial assets and financial liabilities is taken to profit and loss account.

### 5.8 Advances

Advances are stated net of specific and general provisions. Provisions are made in accordance with the requirements of Prudential Regulations issued by the SBP and charged to the profit and loss account. These regulations prescribe a time based criteria (as supplemented by subjective evaluation of advances by the Group) for classification of non-performing loans and advances and computing provision there against. Such regulations also require the Group to maintain general provision against consumer and Small and Medium Enterprises (SME) advances at specified percentage of such portfolio. General provision for loan losses of overseas branches is made as per the requirements of the respective central banks. Advances are written off where there are no realistic prospects of recovery. The amounts so written off is a book entry and does not necessarily prejudice the Group's right of recovery against the customers. The Group determines write-offs in accordance with the criteria as prescribed by SBP vide BPRD circular no. 06 dated June 05, 2007.

## 5.8.1 Islamic financing and related assets

Under Murabaha financing, funds disbursed for the purchase of goods are recorded as advance against Murabaha finance and the financing is recorded at the deferred sale price. Goods purchased but remaining unsold at the statement of financial position date are recorded as inventories.

Assets given on Ijarah are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Ijarah assets are depreciated on a reducing balance basis over the term of the Ijarah after taking into account the estimated residual value. Impairment of Ijarah assets is recognized in line with the Prudential Regulations or upon the occurrence of an impairment event which indicates that the carrying value of the Ijarah asset may exceed its recoverable amount.

In Running Musharakah, the Group and the customer enter a Musharakah agreement where the Group agrees to finance the operating activities of the customer's business and share in the profit or loss in proportion to an agreed ratio at an agreed frequency.

Under Diminishing Musharakah financing, the Group creates joint ownership with the customer over the tangible assets to fulfill capital expenditure / project requirements. The Group receives periodic payments from the customer against the gradual transfer of its share of ownership to the customer.

In Istisna transactions, the Group finances the cost of goods manufactured by the customer. Once the goods are manufactured, these are sold by the customer as an agent of the Group to recover the cost plus the agreed profit.

Under Tijarah, the Group purchases the finished goods from the customer against payment, takes possession and appoint customer as an agent to sell these goods to ultimate buyer on deferred payment basis. Profit is recognized on accrual basis over the period of transaction.

Wakalah is an agency contract in which Group provides funds to the customer who invests it in a Shariah compliant

In Musawamah financing, the Group purchases the goods and after taking the possession, sells them to the customer either in spot or credit transaction, without disclosing the cost.

For the year ended December 31, 2022

## 5.9 Fixed assets and depreciation

### 5.9.1 Property and equipment

### 5.9.1.1 Owned assets

Property and equipment except land and buildings are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Land is stated at revalued amount. Buildings are stated at revalued amount less accumulated depreciation and impairment, if any. The cost and the accumulated depreciation of property and equipment of foreign branches include exchange differences arising on currency translation at the year-end rates. Depreciation is charged to profit and loss account applying the straight line method except buildings, which are depreciated on diminishing balance method at the rates stated in note 12.2. Depreciation on additions is charged from the month in which the assets are available for use and no depreciation is charged for the month the assets are disposed off.

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the profit and loss account during the period in which they are incurred.

Assets are derecognised when disposed off or when no future economic benefits are expected from its use or disposal. Gains and losses on disposal of property and equipment are included in profit and loss account.

The assets' residual values and useful lives are reviewed annually, and adjusted if appropriate, at statement of financial position date.

Land and buildings' valuations are carried out by professionally qualified valuers with sufficient regularity to ensure that their carrying amounts do not differ materially from their fair value.

- Any revaluation increase arising on the revaluation of such assets is recognised in the statement of comprehensive income and accumulated in equity, except to the extent that it reverses a revaluation decrease for the same asset previously recognised in profit and loss account, in which case the increase is credited to profit and loss account to the extent of the decrease previously expensed. A decrease in the carrying amount arising on the revaluation of such assets is recognised in profit and loss account to the extent that it exceeds the balance, if any, held in "Surplus on Revaluation of Fixed Assets" relating to a previous revaluation of that asset.
- Depreciation on assets which are revalued is determined with reference to the value assigned to such assets on revaluation and depreciation charge for the year is taken to the profit and loss account.
- An amount equal to incremental depreciation for the year net of associated deferred tax is transferred from "Surplus on Revaluation of Fixed Assets account" to unappropriated profit through statement of changes in equity to record realization of surplus to the extent of the incremental depreciation charge for the year.
- On the subsequent sale or retirement of a revalued asset, the attributable revaluation surplus remaining in the revaluation reserve is transferred directly to unappropriated profit.

## 5.9.1.2 Leased assets (as lessee)

Assets subject to finance lease are accounted for by recording the asset and the related liability. These are recorded at lower of fair value and the present value of minimum lease payments at the inception of lease and subsequently stated net of accumulated depreciation. Depreciation is charged on the straight line basis at rates disclosed in note 12.2. Financial charges are allocated over the period of lease term so as to provide a constant periodic rate of financial charge on the outstanding liability.

## 5.9.1.3 Ijarah (as lessor)

Assets leased out under 'ljarah' are stated at cost less accumulated depreciation and accumulated impairment losses, if any. Assets under ljarah are depreciated over the period of lease term. However, in the event the asset is expected to be available for re-ljarah, depreciation is charged over the economic life of the asset using straight line basis.

Ijarah income is recognised on a straight line basis over the period of Ijarah contract.

For the year ended December 31, 2022

#### 5.9.2 Capital work-in-progress

Capital work-in-progress is stated at cost less accumulated impairment losses, if any. These are transferred to specific assets as and when assets are available for use.

#### 5.9.3 Impairment

The carrying values of fixed assets are reviewed for impairment when events or changes in circumstances indicate that the carrying values may not be recoverable. If any such indication exists and where the carrying values exceed the estimated recoverable amounts, fixed assets are written down to their recoverable amounts.

The resulting impairment loss is taken to profit and loss account except for impairment loss on revalued assets which is adjusted against the related revaluation surplus to the extent that the impairment loss does not exceed the surplus on revaluation of assets. Where impairment loss subsequently reverses, the carrying amount of the asset is increased to the revised recoverable amount but limited to the extent of the amount which would have been determined had there been no impairment. Reversal of impairment loss is recognized as income in profit and loss account.

#### 5.10 Lease liability and right-of-use assets

The lease liabilities are initially measured at the present value of lease payments that includes:

- fixed payments (including in-substance fixed payments), less any lease incentives receivable;
- variable lease payment that are based on an index or a rate as at the commencement date;
- amounts expected to be payable by the lessee under residual value guarantees, if any;
- the exercise price of a purchase option if the lessee is reasonably certain to exercise that option; and
- payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The lease payments are to be discounted using the incremental borrowing rate being the rate that the Group would have to pay to borrow the funds necessary to obtain an asset of similar value in a similar economic environment with similar terms and conditions.

On initial recognition Right-of-use assets are measured at cost comprising the following:

- the amount of the initial measurement of lease liability;
- any lease payments made at or before the commencement date less any lease incentives received;
- any initial direct costs incurred; and
- an estimate of restoration costs.

The Group leases various offices / branches for the purpose of its operational activities. Rental contracts are typically made for fixed periods of 3 to 10 years, Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease agreements do not impose any covenants, but leased assets may not be used as security for borrowing purposes.

#### 5.11 Intangible assets

Intangible assets are stated at cost less accumulated amortisation and accumulated impairment losses, if any. The cost and the accumulated amortisation of intangible assets of foreign branches include exchange differences arising on currency translation at the year-end rates. Amortisation is charged to profit and loss account applying the straight-line method at the rates stated in note 13. Amortisation on addition is charged from the month in which the assets are available for use and no amortisation is charged in the month the intangible assets are disposed off. The estimated useful life and amortisation method are reviewed at the end of each annual reporting period, with the effect of any changes in estimate being accounted for on a prospective basis.

Intangible assets with indefinite useful life are carried at cost less impairment losses, if any.

For the year ended December 31, 2022

#### Non-banking assets acquired in satisfaction of claims 5.12

In accordance with the requirements of the 'Regulations for Debt Property Swap' (the regulations) issued by SBP vide its BPRD Circular No. 1 of 2016, dated January 1, 2016, the non-banking assets acquired in satisfaction of claims are carried at revalued amounts less accumulated depreciation. These assets are revalued by professionally qualified valuers with sufficient regularity to ensure that their net carrying value does not differ materially from their fair value. A surplus arising on revaluation is credited to the 'surplus on revaluation of assets' account and any deficit arising on revaluation is taken to the profit and loss account directly. Legal fees, transfer costs and direct costs of acquiring title to property is charged to profit and loss account and not capitalized. Depreciation on non-banking assets acquired in satisfaction of claims is charged to the profit and loss account on the same basis as depreciation charged on the Group's owned fixed assets.

#### Deposits and their cost 5.13

Deposits are recorded at the fair value of proceeds received.

Deposit costs are recognised as an expense in the period in which these are incurred using effective yield method.

#### 5.14 **Taxation**

#### 5.14.1 Current

Provision of current taxation is based on taxable income for the year determined in accordance with the prevailing laws of taxation on income earned for local as well as foreign operations, as applicable to the respective jurisdictions. The charge for the current tax also includes adjustments wherever considered necessary relating to prior years, arising from assessments framed during the year.

### 5.14.2 Deferred

Deferred tax is provided on all temporary differences at the reporting date between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes.

Deferred tax assets are recognised for all deductible temporary differences and unused tax losses, to the extent that it is probable that taxable profits will be available against which the deductible temporary differences and unused tax losses can be utilised. Deferred tax is not recognised on differences relating to investment in subsidiaries, branches and associates and interest in joint arrangments to the extent the deductible temporary difference probably will not reverse in the foreseeable future.

The carrying amount of deferred tax assets are reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit or deductable temporary differences will be available to allow all or part of the deferred tax asset to be utilised.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply to the period when the asset is realised or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the

Deferred tax relating to gain / loss recognized on surplus on revaluation of assets is charged / credited to such account.

#### 5.15 **Employee** benefits

### 5.15.1 Defined benefit plans

The Group operates an approved funded pension scheme, an un-funded post retirement medical benefits scheme and an un-funded benevolent scheme for its eligible employees. The Group also operates an un-funded gratuity scheme for its eligible contractual employees. An actuarial valuation of all defined benefit schemes is conducted every year. The valuation uses the Projected Unit Credit method. Remeasurements of the net defined benefit liability / assets which comprise actuarial gains and losses, return on plan assets (excluding interest) and the effect of asset ceiling (if any, excluding interest) are recognized immediately in other comprehensive income. Past-service costs are recognized immediately in profit and loss account when the plan amendment occurs.

For the year ended December 31, 2022

### 5.15.2 Other employee benefits

## Employees' compensated absences

The Group also makes provision in the financial statements for its liability towards compensated absences. This liability is estimated on the basis of actuarial advice under the Projected Unit Credit method.

## 5.15.3 Retirement and other benefit obligations

## In respect of CJSC Subsidiary Bank of NBP in Kazakhstan (CJSC)

The CJSC withholds amounts of pension contributions from employee salaries and pays them to state pension fund. The requirements of the Kazakhstan's legislation state pension system provides for the calculation of current payments by the employer as a percentage of current total payments to staff. This expense is charged in the period the related salaries are earned. Upon retirement all retirement benefit payments are made by pension funds selected by employees.

## 5.16 Revenue recognition

Income on loans and advances and debt security investments are recognized on a time proportion basis that takes into account effective yield on the asset. In case of advances and investments classified under the Prudential Regulations, interest / mark-up is recognized on receipt basis.

Interest / mark-up on rescheduled / restructured advances and investments is recognized in accordance with the Prudential Regulations of SBP.

Fee, brokerage and commission income other than commission on letter of credit and guarantees and remuneration for trustee services are recognized upon performance of services.

Commission on letters of credit and guarantees is recognized on time proportion basis.

Dividend income on equity investments and mutual funds is recognized when right to receive is established.

Premium or discount on debt securities classified as held-for-trading, available-for-sale and held-to-maturity securities is amortised using the effective interest method and taken to profit and loss account.

Gains and losses on disposal of investments and fixed assets are dealt with through the profit and loss account in the year in which they arise.

Income from lease financing is accounted for using the financing method. Under this method, the unearned lease income (defined as the sum of total lease rentals and estimated residual value less the cost of the leased assets) is deferred and taken to income over the term of the lease so as to produce a constant periodic rate of return on the outstanding net investment in the lease. Gains or losses on termination of lease contracts are recognized through the profit and loss account when these are realized. Unrealized lease income and other fees on classified leases are recognized on a receipt basis.

## 5.17 Net investment in finance lease

Leases where the group transfers substantially all the risk and rewards incidental to ownership of the assets to the lessee are classified as finance leases. Net investment in finance lease is recognised at an amount equal to the aggregate of present value of minimum lease payment including any guaranteed residual value and excluding unearned finance income, write-offs and provision for doubtful lease finances, if any.

## 5.18 Foreign currencies translation

The Group's financial statements are presented in Pak Rupees (Rs.) which is the Group's functional and presentation currency.

Foreign currency transactions are converted into Rupees applying the exchange rate at the date of the respective transactions. Monetary assets and liabilities in foreign currencies and assets / liabilities of foreign branches are translated into Rupees at the rates of exchange prevailing at the statement of financial position date. Forward foreign exchange

For the year ended December 31, 2022

contracts are valued at the rates applicable to their respective maturities. All gains or losses on dealing in foreign currencies are taken to the profit and loss account.

Profit and loss account balances of foreign branches and subsidiaries are translated at average exchange rate prevailing during the year. Gains and losses on translation are included in the profit and loss account except gains / losses arising on translation of net assets of foreign branches and subsidiaries, which are credited to the statement of comprehensive income.

Statement of financial position balances of foreign branches and subsidiaries are translated at exchange rate prevailing at statement of financial position date. Gains and losses on translation are included in the profit and loss account except gains / losses arising on translation of net assets of foreign branches and subsidiaries, which is credited to the statement of comprehensive income.

Commitments for outstanding forward foreign exchange contracts are disclosed in these consolidated financial statements at committed amounts. Contingent liabilities / commitments for letters of credit and letters of guarantee denominated in foreign currencies are expressed in Rupee terms at the rates of exchange prevailing at the statement of financial position date.

## 5.19 Provision for off balance sheet obligations

Provision for guarantees, claims and other off balance sheet obligations is made when the Group has legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and a reliable estimate of amount can be made. Charge to profit and loss account is stated net of expected recoveries.

## 5.20 Off setting

Financial assets and financial liabilities are only set off and the net amount is reported in the consolidated financial statements when there is a legally enforceable right to set off and the Group intends either to settle on a net basis, or to realize the assets and to settle the liabilities simultaneously.

### 5.21 Fiduciary assets

Assets held in a fiduciary capacity are not treated as assets of the Group in the statement of financial position.

## 5.22 Dividend and other appropriations

Dividend and other appropriation to reserves, except appropriations which are required by the law, are recognised in the Group's financial statements in the year in which these are approved.

### 5.23 Earnings per share

The Group presents basic and diluted earnings per share (EPS) for its shareholders. Basic EPS is calculated by dividing the profit or loss attributable to ordinary shareholders of the Group by the weighted average number of ordinary shares outstanding during the year. Diluted EPS is determined by adjusting the profit or loss attributable to ordinary shareholders and the weighted average number of ordinary shares outstanding for the effects of all dilutive potential ordinary shares, if any. There were no dilutive potential ordinary shares in issue at December 31, 2022.

## 5.24 Bai Muajjal

Bai Muajjal transactions represent sales of Sukuks on a deferred payment basis and are shown in lendings to financial institutions except for transactions undertaken directly with the Government of Pakistan which are disclosed as investments

The difference between the deferred payment amount receivable and the carrying value at the time of sale is accrued and recorded as income over the life of the transaction.

## 5.25 Acceptances

Acceptances comprise undertakings by the Bank to pay bill of exchange drawn on customers. Acceptances are recognised as financial liability in the statement of financial position with a contractual right of reimbursement from the

For the year ended December 31, 2022

customer as a financial asset. Therefore, commitments in respect of acceptances have been accounted for as on balance sheet financial assets and financial liabilities.

### 5.26 Segment reporting

A segment is a distinguishable component of the Group that is subject to risks and rewards that are different from those of other segments. A business segment is one that is engaged either in providing certain products or services, where as a geographical segment is one engaged in providing certain products or services within a particular economic environment. Segment information is presented as per the Group's functional and management reporting structure.

### **Business segments**

The Group's primary segment reporting is based on the following business segments:

- I. Retail Banking Group includes retail lending and deposits, banking services, cards and branchless banking.
- II. Inclusive Development Group consists of loans to individuals, agriculture, SME, commodity and commercial customers
- III. Corporate and Investment Banking Group offers a wide range of financial services to medium and large sized public and private sector entities. These services include, providing and arranging tenured financing, corporate advisory, underwriting, cash management, trade products, corporate finance products and customer services.
- IV. Treasury includes fixed income, equity, foreign exchange, credit, funding, own position securities, lendings and borrowings and derivatives for hedging and market making.
- V. International Financial Institution and Remittance Group includes the results of all international branches, correspondent banking business and global remittances. This represents Group's operations in 13 countries including Pakistan and 18 branches including one branch in export processing zone in Pakistan.
- VI. Alternaed and Islamic Banking Group provides shariah compliant services to customers including loans, deposits and other transactions
- VII. Head Office / Others includes the head office related activities and other functions which cannot be classified in any of the above segments.

## Geographical segments

The Group is managed along the following geographic lines for monitoring and reporting purposes:

- Pakistan (including branch in Export Processing Zone)
- II. Asia Pacific (including South Asia)
- III. Europe
- IV. United States of America
- V. Middle East

## 5.27 Accounting estimates and judgments

The preparation of the consolidated financial statements in conformity with Approved Accounting Standards requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Group's accounting polices. The estimates, judgments and associated assumptions used in the preparation of these consolidated financial statements are based on historical experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. The key areas of estimates and judgments in relation to these consolidated financial statements are as follows:

a) Provision against non-performing loans and advances

The Group reviews its loan portfolio to assess amount of non-performing loans and determine provision required there

For the year ended December 31, 2022

against on a quarterly basis. While assessing this requirement, various factors including the past dues, delinquency in the account, financial position and future business / financial plan of the borrower, value of collateral held and requirements of Prudential Regulations are considered. The Group also considers the effect of Forced Sale Value (FSV) of collaterals in determining the amount of provision, however, no benefit of FSV of collateral has been taken during the vear in determining provisioning amount.

General provision for loan losses of overseas branches is made as per the requirements of the respective central banks.

The amount of general provision against domestic consumer and SME advances is determined in accordance with the relevant Prudential Regulations and SBP directives.

In addition, the Group has also made general provision in respect of its corporate portfolio on prudent basis. This general provision is in addition to the requirements of Prudential Regulations.

The fair values of derivatives which are not quoted in active markets are determined by using valuation techniques. The valuation techniques take into account the relevant interest and exchange rates over the term of the contract.

## c) Impairment of available-for-sale investments

The Group considers that available-for-sale equity investments and mutual funds are impaired when there has been a significant or prolonged decline in the fair value below its cost except for investments where relaxation has been allowed by SBP. This determination of what is significant or prolonged requires judgment. In addition, impairment may be appropriate when there is evidence of deterioration in the financial health of the investee, industry and sector performance.

Further the Group has developed internal criteria according to which a decline of 30% in the market value of any scrip below its cost shall constitute as a significant decline and where market value remains below the cost for a period of one year shall constitute as a prolonged decline.

## d) Held-to-maturity investments

The Group follows the guidance provided in the SBP circulars on classifying non-derivative financial assets with fixed or determinable payments and fixed maturity as held-to-maturity. In making this judgment, the Group evaluates its intention and ability to hold such investments till maturity.

## Income taxes

In making the estimates for current and deferred taxes, the management looks at the income tax law and the decisions of appellate authorities on certain issues in the past. There are certain matters where the Group's view differs with the view taken by the income tax department and such amounts are shown as contingent liability.

### Fixed asset and intangible assets, revaluation, depreciation and amortization

In making estimates of the depreciation / amortization method, the management uses method which reflects the pattern in which economic benefits are expected to be consumed by the Group. The method applied is reviewed at each financial year end and if there is a change in the expected pattern of consumption of the future economic benefits embodied in the assets, the method is changed to reflect the change in pattern.

The Group also revalues its properties on a periodic basis. Such revaluations are carried out by independent valuer and involves estimates / assumptions and various market factors and conditions.

## g) Employees' benefit plans

The liabilities for employees' benefits plans are determined using actuarial valuations. The actuarial valuations involve assumptions about discount rates, expected rates of return on assets, future salary increases, future inflation rates and future pension increases as disclosed in note 40. Due to the long term nature of these plans, such estimates are subject to significant uncertainty.

For the year ended December 31, 2022

## h) Provision against contingencies

Provision against contingencies is determined based on the management judgement regarding the probability of future outflows of resources embodying economic benefits to settle an obligation arising from past events.

## **Determination of control over investees**

The Group's management applies its judgement to determine whether the control exists over the investee entities.

#### **CLOSURE OF FOREIGN SUBSIDIARIES AND OPERATIONS** 6.

In line with SBP Governance Framework 2018, the Board of Directors (BoD) in its 302nd meeting held on January 20 & 21, 2020 has accorded the approval of International Strategy. As per approved Strategy, the BoD allowed closure of six (06) Central Asian (CA) locations i.e. Azerbaijan (Baku), Kyrgyzstan (Bishkek); Kazakhstan (Almaty); Tajikistan (Dushanbe); Uzbekistan (Tashkent); Turkmenistan (Ashgabat) and Afghanistan (Jalalabad). The Board of Directors in its 316th meeting held on January 6 & 11, 2021 has accorded its approval to scale down Bangladesh operations by closing Sylhet, Chittagong and Gulshan branches.

The BoD in its 317th meeting held on February 24, 2021 has also given its recommendation to the shareholders to approve voluntary closure and delegation of powers to President / CEO. Further, the shareholders in their 72nd meeting held on March 29, 2021 also accorded their concurrence for closure of operations at above locations.

While processing the Bank's request of capital injection of Euro 3.08 Million to Paris Branch, SBP directed the Bank to close its operations at Paris Branch. On the basis of SBP's directive, the BoD in its 327th meeting held on January 17, 2022 accorded their approval. Subsequently, SBP per their letter dated April 20, 2022 also approved the capital injection of Euro 3.08 Million to Paris Branch.

On the basis of the aforementioned framework and after completing all the requirements of SBP and as well as the requirement of host countries' regulators, operations at following international locations have been closed on the dates mentioned there against.

S.No.	Name of International Locations	Date of Closure
1	Toronto Representative Office, Canada	31.12.2020
2	Jalalabad Branch, Afghanistan	15.08.2021
3	Tashkent Representative Office, Uzbekistan	31.08.2021
4	Sylhet Branch, Bangladesh	30.09.2021
5	CJSC Subsidiary Bank of NBP in Dushanbe, Tajikistan	28.09.2022
6	Ashgabat Branch, Turkmenistan	07.11.2022

Closure process at Central Asian locations have been delayed due to settlement of NPLs portfolio. Operations at the following locations are under the process of closure. Tentative closure dates are also mentioned there against.

S.No.	Name of International Locations	Tentative Date of Closure
1	CJSC Subsidiary Bank of NBP in Almaty, Kazakhstan	31.12.2023
2	Bishkek Branch, Kyrgyzstan	30.09.2023
3	Baku Branch, Azerbaijan	31.12.2023

10.6.1 The market value of securities classified as held-to-maturity as at December 31, 2022 amounted to Rs. 436,150 million (2021: Rs. 366,869 million).

### 10.7 Investment in shares of a bank incorporated outside Pakistan - Bank Al-Jazira

The Bank holds 30,333,333 (2021: 30,333,333) shares in Bank Al-Jazira (BAJ) incorporated in the Kingdom of Saudi Arabia, representing 3.7% (2021: 3.7%) holding in total equity of BAJ. The investment has been marked to market using closing price as quoted on the Saudi Stock Exchange in accordance with SBP concurrence vide letter No. BSD/SU-13/331/685/2006 dated February 17, 2006. BAJ's Viability Rating is bb+ with short term and long term IDR at F2 and BBB+ respectively by Fitch Rating Agency.

Out of 106,014,565 shares, 94,273,510 shares of Agritech Limited were acquired from Azgard Nine Limited as part of multiple agreements including the Master Restructuring Agreement (MRA). These shares were acquired at an agreed price of Rs. 35 per share. The market value of the shares at December 31, 2022 amounted to Rs. 4.39 per share resulting in an impairment of Rs. 3,200 million (2021: Rs. 3,264 million) which has been fully recorded in these unconsolidated financial statements.

- 10.9 Aggregate market value of investment in associates (quoted) on the basis of quoted prices amounts to Rs. 1,742 million (2021; Rs. 1,880 million).
- 10.10 Associates with zero carrying amount, represent the investments acquired from former National Development Finance Corporation (NDFC) which have negative equity or whose operations were closed at the time of amalgamation.
- 10.11 The details of break-up value based on latest available financial statements of unlisted investments in associates are as follows:

		Year / Period ended	Break-up value Rupees in '000
	Pakistan Emerging Venture Limited	June 30, 2022	25
	Mehran Industries Limited	June 30, 2001	5,681
	Tharparkar Sugar Mills Limited	September 30, 2001	(83,140)
	Prudential Fund Management	June 30, 2007	(2,482)
	Dadabhoy Energy Supply Company Limited	June 30, 2007	103,952
	Pakistan Mercantile Exchange Limited	June 30, 2022	36,149
		2022	2021
		Note(Rupe	es in '000)
10.12	Investment in joint venture		
	United National Bank Limited (UNBL) (Incorporated in United Kingdom)	10.1 / 10.2 / 10.12.1 <b>7,441,30</b> 8	7,140,903

- 10.12.1 Under a joint venture agreement, the Bank holds 20.25 million ordinary shares (45%) and United Bank Limited (UBL) holds 23.25 million ordinary shares (55%) in UNBL. In addition to ordinary shares, four preference shares categories as "A", "B", "C" and "D" have been issued and allotted. The "B" and "D" category shares are held by the Bank and category "A" and "C" are held by UBL. Dividends payable on "A" and "B" shares are related to the ability of the venture to utilize tax losses that have been surrendered to it on transfer of business from the Bank or UBL as appropriate. Dividends payable on "C" and "D" shares are related to loans transferred to the venture by the Bank or UBL that have been written-off or provided for at the point of transfer and the ability of the venture to realize in excess of such loan value.
- 10.13 The investments also include shares acquired under tri-partite consent agreement dated June 29, 2011. These strategic investments comprise of the shares of Pakistan State Oil (38,055,247 shares), shares of Sui Northern Gas Pipeline Limited (18,805,318 shares) and Pakistan Engineering Company (135,242 shares). The cost of these shares amounts to Rs. 4,603 million and market value as at December 31, 2022 amounts to Rs. 6,224 million. These shares have been frozen by the Government of Pakistan for sale in the equity market due to their proposed privatization and can not be sold without concurrence of privatization commission.
- 10.14 The investments also include 31,665,000 shares of Pakistan Reinsurance. The cost of these shares amounts to Rs. 220 million and market value as at December 31, 2022 amounts to Rs. 217 million. These shares can not be sold without concurrence of privatization commission.
- 10.15 The investment also include 20,000,000 shares of First Credit and Investment Bank. The cost of these shares amounts to Rs. 157 million and market value as at December 31, 2022 amounts to Rs. 110 million. These shares can not be disinvested without prior consultation with Ministry of Finance.

#### Investments in subsidiaries 10.16

Cast-N-Link Products Limited Less: provision for diminution in value of investments

1,245 1.245 (1,245)(1,245)

10.16.1 The financial statements of Cast-N-Link Products Limited (CNL) are not available since the year 1997. Accordingly, the management of the Group had applied to the Securities and Exchange Commission of Pakistan (SECP) for the exemption from the requirements of section 228 of the Companies Act, 2017 (the Act) in respect of consolidating its subsidiary CNL. The SECP, vide its letter EMD/233/627/2002-103 dated November 18, 2019, has not acceded the Bank's request from the exemption from consolidation of CNL in its consolidated financial statements for the year ended December 31, 2019 and further directed to comply with the requirement of section 228 of the Act. However the Bank, based on the fact that investment of the Group in CNL is not material and comprise of 0.000024% of the total assets of the Bank and the investment have been fully provided for, has not consolidated the financial statements of CNL.

11.4.1.1 General provision includes provision amounting to Rs. 5,211 million (2021: Rs. 5,618 million) against consumer & SME finance portfolio as required by the Prudential Regulations issued by the SBP. General provision also includes Rs. 607 million (2021: Rs. 252 million) pertaining to overseas advances to meet the requirements of regulatory authorities of the respective countries in which the Group operates.

Keeping in view the portfolio assessment and the estimated impact of adoption of IFRS 9, the Bank has also maintained a general provision of Rs. 11,530 million (2021: Rs. 6,603 million) against underperforming portfolio on prudent basis, in view of prevailing economic conditions. This general provision is in addition to the requirements of Prudential Regulations.

- 11.4.1.2 The SBP has allowed specific relaxation to the Bank for non-classification of overdue loans of certain Public Sector Entitles (PSEs) which are guaranteed by Government of Pakistan as non-performing loans up till December 31, 2022. No provision is required against these loans; however, mark-up is being suspended as required by the Prudential Regulations.
- 11.4.1.3 These represent non-performing advances for agriculture finance which have been classified as loss and fully provided for more than 3 years. These non-performing advances have been charged off by extinguishing them against the provision held in accordance with Prudential Regulations for Agriculture Financing issued by the SBP. This charge off does not, in any way, prejudice the Group's right of recovery from these customers.

For the year ended December 31, 2022

For the purpose of impairment testing of goodwill, management has considered discounted cash flow method using cost of 13.2 equity of 20% and terminal growth of 4.0% considering five years cash flows. Further, discount for lack of marketability is also considered at the rate of 20%. Other key assumption used in the method are management fees, growth rates on asset under management keeping in view of industry growth, expenses based on the historic growth trends, short term investment with the assumption of reinvestment and discount rate which is based on risk free rate, sector beta and market equity risk premium.

For the past 5 years, the company has provided sustainable profitability. As a result, the recoverable amount exceeds the carrying value as at December 31, 2022, therefore, management did not identify any impairment.

26.3.1

26.2.4 Other commitments

Professional services to be received

Claim against the Group not acknowledged as debt

Other contingent liabilities

Tax returns of the Bank have been filed up to tax year 2022 and amended by tax authorities up to tax year 2021. For Azad Kashmir and Gilgit Baltistan branches no amendment to returns filed under section 120 of the Ordinance has been made, hence returns filed are deemed assessments for all the years till tax year 2022.

- During the period under review the appeals for tax years 2006 and 2007 have been decided against the Bank by CIR(Appeals) and the Bank has filed further appeal before ATIR on legal grounds u/s 161 of The Ordinance. The Tax Advisor is confident that the ultimate outcome of the proceeding will be decided in the Bank's favor. Amount of contingency involved is Rs. 1,032 million and Rs. 1,395 million respectively.
- b) Honourable Tribunal has decided the appeals filed by the Bank for tax years 2009, 2010 and 2016 for which appeal effect orders have also been issued determining tax refund of Rs. 948 million, Rs. 815 million in 2009 and 2010 respectively. Whereby for tax year 2016, the department has created demand of Rs. 118 million which has been adjusted against tax refunds of tax year 2018.
- c) Honourable CIR(Appeals) through judgement dated December 31, 2021 has decided the appeal filed by the Bank for tax year 2018 in favor of the Bank for which appeal effect order has been issued determining refund of Rs. 1,199 million.
- d) Honourable CIR(Appeals) has decided the appeals filed by the Bank for tax years 2019 and 2020 partially allowing relief to the Bank. The Bank filed further appeal before ATIR which is pending. The bank has shown additional tax

For the year ended December 31, 2022

liability of Rs. 1,773 million and Rs. 4,298 million for the year 2019 and 2020 respectively as contingency based on the tax consultant's expectations that the issue would be decided in the bank's favor.

- Honourable CIR(Appeals) through its recent judgement for tax year 2021 dated December 21, 2022 has decided appeal filed by the Bank confirming the Order of assessing officer. The Bank Intends to file appeal before ATIR on legal and factual grounds. The bank has shown additional tax liability of Rs. 3,757 million as contingency based on the tax consultant's expectations that the issue would be decided in the bank's favor.
- The aggregate effect of contingencies as on December 31, 2022, excluding amount of Rs. 1,912 million (December 31, 2021; Rs. 2,096 million) in respect of indirect tax issues, amounts to Rs. 15,419 million (December 31, 2021; Rs. 17,983 million). No provision has been made against these contingencies, based on the opinion of tax consultant of the Bank, who expect favorable outcome upon decisions of pending appeals.

### 26.3.4 Contingencies in respect of employees benefits and related matters

The following are the details of the contingencies arising out of the various legal cases pending adjudication in respect of employees' benefits and related matters. The Group considers that except for Pensionary benefits note 26.3.4.1, the financial impact of other matters is impracticable to determine with sufficient reliability.

### 26.3.4.1 Pensionary benefits to retired employees

In 1977 the Federal Government vide letter No. 17 (9) 17 XI / 77 dated November 30, 1977, addressed to the Pakistan Banking Council, directed that all executives / officers of all the nationalized banks would be paid pension as calculated at 70% of average emoluments upon completion of 30 years of qualifying service of employees and where qualifying service was less than 30 years but not less than 10 years, proportionate reduction in percentage was to be made. This pension scheme was made applicable with effect from May 01, 1977.

In the year 1997, the Banks Nationalization Act, 1974 ("BNA, 1974") was substantially amended whereby the Pakistan Banking Council was abolished and the Board of Directors of the nationalized banks were empowered / mandated respectively to determine personnel policies with the President of the Bank deciding the remuneration and benefits of the employees in accordance with policies determined by the Board. In the year 1999, by virtue of the said amendments in BNA, the Board of Directors of the Bank approved the Revised Pay Structure for the officers / executives of the Bank with effect from January 01, 1999 vide Circular No. 37/1999, whereby the basic salary was increased by 110 % to 140% and besides giving multifarious benefits to its employees, formula for monthly gross pension was revised. However, the amount of gross pension on the basis of existing Basic Pay and existing formula was protected.

A number of Bank's employees, after attaining the age of superannuation filed Writ Petitions before the Lahore High Court and the Peshawar High Court, praying for re-calculation of their pensionary benefits and increases in accordance with the Bank Circular No. 228 (C) dated December 26, 1977 and furthermore, for allowing the increases in their pension as per the increases allowed by the Federal Government to its employees. This litigation started in the year 2010 and 2011.

The Peshawar High Court, in terms of judgment dated June 03, 2014, dismissed the petition while observing that the petition was hit by laches and that the petitioners could not claim the benefits granted to the similarly placed employees of other institutions who were governed through different Statutes and Service Rules.

The Lahore High Court vide its judgement dated January 15, 2016, allowed the Writ Petitions on the same matter and the Bank was directed to release the pensionary benefits of the petitioners. The said order was assailed by the Bank by filing Intra Court Appeals in January 2016 which were dismissed by the Lahore High Court, Lahore, through its judgement dated January 16, 2017. The Bank assailed the said judgement by filing appeals in the Supreme Court of Pakistan.

The Honorable Supreme Court of Pakistan after hearing the arguments of both parties, vide its judgement dated September 25, 2017 upheld the decision of the Division Bench of the Lahore High Court on the contention of increase in Bank's employees' pension, thereby instructing the Bank to give pension benefits to its employees in the light of Head Office Instruction Circular No. 228 (C) of 1977. Under this Circular, the pension of employees was to be calculated at 70% of average emoluments upon completion of minimum qualifying service requirement, besides requiring the Bank to follow

For the year ended December 31, 2022

subsequent revisions in pension scheme and rates granted by the Federal Government to civil servants from time to time as well.

The Bank as well as Federal Government filed review petitions against the aforesaid judgment of the Honorable Supreme Court of Pakistan and also made an application for constitution of larger bench of the Supreme Court to hear the review petition, which was reportedly accepted by the Chief Justice. However on March 18, 2019, the matter came up for hearing before a three member Bench instead of a larger bench. As advised by our legal counsels, the Bank considers that due to conflicting decision of the other bench of the Supreme Court in a case which, in all material facts and circumstances, is identical to the Bank's case and various other legal infirmities in the judgement as highlighted by the Bank in its Review Petition, the Bank has a reasonably strong case on legal grounds to convince the Supreme Court for review of its decision. The Review Petition is ongoing and is expected to be listed for hearing soon.

A related matter has also been appealed in the Supreme Court where the petitioners have asked for increases in pension in accordance with government increases in Pension for Government employees which is pending adjudication and a favorable outcome is expected.

In case the above matters are decided unfavorably, the Bank estimates based on the actuarial advice that the financial impact arising from the additional liability would be approximately Rs. 89.7 billion excluding any penal interest / profit payment (if any) due to delayed payment Pension expense for the current year and onward will also increase by Rs.12.1 billion due to this decision. Based on the opinion of legal counsel, no provision has been made in these consolidated financial statements for the above-mentioned amount as the Bank is confident about the favorable outcome of the matter.

Moreover, the State Bank of Pakistan in the backdrop of Supreme Court's Judgement, through its letter dated February 20, 2018 has instructed the Bank to obtain prior approval of SBP before declaring any dividend.

## 26.3.4.2 Regularizing the temporary hires / workers deployed by Service provider companies under outsourcing arrangements

The Bank outsourced certain non-core jobs to various service provider companies after entering into contracts with them. The resources deployed by the service provider companies were their employees and the said companies have had sole administrative control over these resources. Some of these resources filed writ petitions before the High Courts and National Industrial Relations Commission (NIRC) seeking to be absorbed by the Bank in its regular service based on grounds that they were in fact employees of the Bank. Presently, there are 6 cases on appeal pending at the Supreme Court where these have been clubbed to be heard as one. The Chief Justice of Pakistan has constituted a larger bench comprising of five Judges being headed by himself for adjudication. The case is ongoing and is presently adjourned for a date to be fixed. A favorable outcome of this case is expected.

## 26.3.4.3 Litigation related to management trainee program

Treatment of Non-MTOs (regular employees) at Par with the MTOs (also appointed in regular cadres) - Litigation arising out of order dated September 21, 2016 passed by the Supreme Court in our CA No.1644/2013 out of our CPLA No. 805/2013 filed against order dated March 13, 2013 of the Division Bench of Sindh High Court, Sukkur in CP No. D-417/2010 (the "Decision").

Mr. Ashfaq Ali and three (3) others filed a CP No. D-417/2010 before the Sindh High Court, Bench at Sukkur while praying to treat them equally in respect of remunerations with other employees (MTOs) having same grade, nature of job and qualification.

The Honorable Division Bench at Sukkur, vide order dated March 13, 2013, directed the Bank to ensure equal treatment to the petitioners with similarly placed employees without any discrimination.

Certain employees filed petitions in the Honorable High Court of Peshawar who also gave its decision in favor of the petitioners. Review petition filed in the Honorable Supreme Court of Pakistan by the Bank was also dismissed.

Last year, the Bank entered into out of court settlements which have successfully been executed with many Non-MTO employees ('petitioners') and accordingly compromise agreements ('the agreement'), offering waiver of loans, increase in

For the year ended December 31, 2022

basic salaries and provision of other allowances, were signed with those petitioners who have withdrawn their cases against the Bank. Simultaneously the Bank continues to make payments to claimants as per any court orders from time to time

#### 26.4 Foreign Exchange repatriation case

While adjudicating Foreign Exchange repatriation cases of exporter namely: M/s Fateh Textile Mills Limited, the Foreign Exchange Adjudicating Court of the State Bank of Pakistan has also adjudicated penalty of Rs. 1,020 million, arbitrarily on the Bank. The Bank has filed appeals before the Appellate Board and Constitutional Petitions in the Honorable High Court of Sindh against the said judgments. The Honorable High Court has granted relief to the Bank by way of interim orders.

As advised by our counsel, NBP has also filed a Constitutional Petition challenging the constitution of the Appellate Board by the Commission and has obtained restraining order on the ground that the Appellate Board constituted by the Commission lacks legal merit in the light of Supreme Court ruling. Our counsel, Mr. Raashid Anwar, Advocate has concluded his arguments in respect of the Foreign Exchange Regulation Appellate Board constitution. However, another petition filed by another company whereby challenging the constitutionality of the Competition Act was also tagged with the petitions filed by the banks.

Based on merits of the appeals management is confident that these appeals shall be decided in favor of the Bank and therefore, no provision has been made against the impugned penalty.

#### 26.5 Compliance and risk matters relating to anti-money laundering at the New York Branch

- 26.5.1 The New York Branch of NBP continues to make progress against the enforcement actions received in February 2022 from the Federal Reserve Bank and the New York State Department of Financial Services. The Branch has provided regular quarterly and half-yearly progress reporting to its regulators. The management and the Board of Directors continue to provide close oversight of the branches, remedial actions and are committed to ensure compliance with the conditions agreed in the enforcement actions. The management actions implemented by the Bank and Branch, and their associated validation by Internal Audit will be subject to review by the Branch's regulators.
- 26.5.2 During the year ended December 31, 2019, a case was filed in the District Court for the Southern District of New York against the Bank by the relatives of several US citizens killed in Khost, Afghanistan, during a terrorist attack carried out at Camp Chapman, a US base. The complaint was later extended to several other random terrorist attacks carried out against US servicemen in Afghanistan by various terrorist organisations. The Bank was sued for its alleged role in knowingly facilitating, aiding and abetting, conspiring and providing material support and banking services to several notorious terrorist groups and terrorist fundraisers.

The plaintiff alleged that the Bank transferred funds by using its New York branch to convert the donations they received from outside Pakistan into U.S. dollars. It has been alleged that the Bank was in a position of knowing and preventing the money transfers.

In January 2021, the case was primarily dismissed on the grounds of its non-compliance with the drafting requirements of the civil procedures applicable. Further, three more amended complaints were filed and dismissed, and the fourth complaint was finally dismissed by the court pursuant to the Bank's Motion to Dismiss the case. The complainants had ultimately failed to state a preliminary case against the Bank as a result of the unsubstantiated and baseless nature of the complaints.

The plaintiffs have filed an appeal against the dismissal of the motion and NBP has filed its counter reply and the case is sub judice.

Based on the merits of the appeal, the management is confident that the appeal shall be decided in favour of the Bank and therefore, no provision has been made in these consolidated financial statements.

40.10

40.11

For the year ended December 31, 2022

#### 40.12 Maturity profile

The weighted average duration of the obligation

#### Years

7.09 Pension fund Post retirement medical scheme 12.41 5.37 Benevolent scheme 11.50 Gratuity scheme Compensated absences

#### 40.13 **Funding Policy**

Pension Fund - Bank's current assets and its percentage is given below.

Current Assets	Amount (Rupees in '000)	Percentage
Cash and cash equivalents - net Government Securities Shares Non-Government Debt Securities PLS - Term Deposit Receipts	284,476 53,824,866 5,565,760 100,000	0.4% 81.5% 8.4% 0.2% 0.0%
Mutual Funds	6,289,301 66,064,403	9.5%

Bank will continue to invest with the same percentage in the asset categories mentioned but increase the assets gradually so that there is no deficit in the pension fund.

#### The significant risks associated with the staff retirement benefit schemes are as follows: 40.14

Asset volatility	The risk arises when the future earnings are lower than expectation. This risk is
•	measured at a plan level over the obligation period of the current population. The
	company assets are either invested in fixed securities or cash.

The risk arises when the actual return on plan assets is lower than expectation. Changes in bond yields

The most common type of retirement benefit is one where the benefit is linked with Inflation risk

last drawn salary. The risk arises when the actual increases are higher than

expectation and impacts the liability accordingly.

Life expectancy / Withdrawal rate The risk arises when the actual lifetime of retirees is longer than expectation. This risk

is measured at the plan level over the entire retiree population. The risk of actual withdrawals varying with the actuarial assumptions can impose a risk to the benefit

obligation. The movement of the liability can go either way.

The risk arises when the actual performance of the investments is lower than Investment Risk

expectation and thus creating a shortfall in the funding objectives.

#### **DEFINED CONTRIBUTION PLAN** 41.

## **Provident Fund**

The NBP employees Provident Fund was created under National Bank of Pakistan Employees Provident Fund Rules on April 01st, 1950 under the Provident Fund Act, 1925. The Rules have been superseded by revised NBP Employees' Provident Fund Rules which came into force on 01st January, 1958.

As per rules, the Officers, Executives and Clerical and Non Clerical staff in regular cadre make monthly contribution of 10% and 12.5% of their basic salary respectively towards the fund and the bank has to pay interest on balances of member's provident fund half yearly.

This scheme covers 9,737 employees (2021: 9,801 employees).

The above information does not include particulars of subsidiaries.

#### 43. **FAIR VALUE MEASUREMENTS**

The fair value of quoted securities other than those classified as held to maturity, is based on quoted market price. Quoted instruments classified as held to maturity are carried at cost. The fair value of unquoted equity securities, other than investments in associates and subsidiaries, is determined on the basis of the break-up value of these investments as per their latest available audited financial statements.

The fair value of unquoted debt securities, fixed-term loans, other assets, other liabilities, fixed-term deposits and borrowings cannot be calculated with sufficient reliability due to the absence of a current and active market for these assets and liabilities and reliable data regarding market rates for similar instruments.

^{**} Allowances include accommodation and travel expens

^{**} Amount includes NBP - NY Governance Council (Sub-Committee of BRCC).

[&]quot;Allowences include accommodation and travel expenses.

^{**} Amount includes NBP - NY Governance Council (Sub-Committee of BRICC).

For the year ended December 31, 2022

#### 43.1 Fair value of financial assets

The Group measures fair values using the following fair value hierarchy that reflects the significance of the inputs used in making the measurements:

- Level 1: Fair value measurements using quoted prices (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Fair value measurements using inputs other than quoted prices included within Level 1 that are observable for the assets or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices).
- Level 3: Fair value measurements using input for the asset or liability that are not based on observable market data (i.e. unobservable inputs).

The table below analyses financial instruments measured at the end of the reporting period by the level in the fair value hierarchy into which the fair value measurement is categorised:

			2022

Breakup value as per latest available audited financial statements

MUFAP & Pakistan Stock Exchange

Reuter page Reuter page Reuter page MUFAP

The fair values of forward foreign exchange contracts and forward Government securities transactions are determined using forward

pricing calculations.

Land, buildings and non-banking assets acquired in satisfaction of claims are revalued on a periodic basis using professional valuers. The valuation is based on their assessment of the market value of the assets. The effect of changes in the unobservable inputs used in the valuations cannot be determined with certainty. Accordingly, a qualitative disclosure of sensitivity has not been presented in these consolidated financial statements

#### 43.2 Fair value of non-financial assets

Information about the fair value hierarchy of Group's non-financial assets as at the end of the reporting period are as follows:

#### 45. TRUST ACTIVITIES

#### 45 1 Endowment Fund

Students Loan Scheme was launched by Government of Pakistan in collaboration with major commercial banks with a view to extend financial help by way of mark-up free loan to the meritorious students without sufficient resources for pursuing scientific technical and professional education within Pakistan.

The Scheme is being administered by a high powered committee headed by the Deputy Governor, State Bank of Pakistan and the Presidents of NBP, HBL, UBL, MCB, ABL and the Deputy Secretary, Ministry of Finance as member and Senior Director of IH&SME Finance Department (Infrastructure, Housing & SME Finance Department) as a secretary of the Committee. The State Bank of Pakistan has assigned National Bank of Pakistan to operate the scheme.

The Committee in its meeting held on August 7, 2001 approved creation of Endowment Fund initially at an amount of Rs. 500 million, Rs. 396 million were transferred from the old Qarz-e-Hasna (Defunct) Fund, Rs.50 million contributed by the Government of Pakistan and Rs. 54 million were contributed by participating banks (HBL, NBP and UBL 25% each, MCB 17.5% and ABL 7.5%).

The amount of the Endowment Funds in investments stands at Rs. 875.179 million as at December 31, 2022 (2021: Rs. 835.77 million).

The Bank undertakes Trustee and other fiduciary activities that result in the holding or placing of assets on behalf of 45.2 individuals and other organisations. These are not assets of the Bank and, therefore, are not included as such in these unconsolidated financial statements. Assets held under trust are shown in the table below:

The Federal Government through State Bank of Pakistan holds controlling interest (75.60% shareholding) in the Bank and therefore entities which are owned and / or controlled by the Federal Government, or where the Federal Government may exercise significant influence, are related parties of the Group. The Bank in the ordinary course of business enters into transaction with Government-related entities. Such transactions include lending to, deposits from and provision of other banking service to Government-related entities.

the year ended December 31, 2022. As at the statement of financial position date the loans and advances, deposits and contingencies relating to Government-related entities amounted to Rs. 593,486 million (2021: 405,294 million), Rs. 1,403,331 million (2021: 1,247,457 million) and Rs. 1,714,807 million (2021: 1,540,238 million) respectively and income earned on advances and investment and profit paid on deposits amounted to Rs. 40,225 million (2021: 31,846 million) and Rs. 199,052 million The Group also earned commission on handling treasury transactions on behalf of the Government of Pakistan amounting to Rs.10,507 million (2021: 8,408 million) for (2021: 51,110 million) respectively.

46.1

For the year ended December 31, 2022

#### 47. CAPITAL ADEQUACY, LEVERAGE RATIO & LIQUIDITY REQUIREMENTS

The Group's objectives when managing capital, which is a broader concept than the 'equity' on the face of the statement of financial position, are:

- to comply with the capital requirements set by the regulators of the banking markets where the Group operates;
- to safeguard the Group's ability to continue as a going concern so that it can continue to provide returns for shareholders and benefits for other stakeholders; and
- to maintain a strong capital base to support the development of its business.

Basel-III instructions comprise the following three capital standards:

## i. Minimum Capital Requirement (MCR):

The MCR standard sets the nominal amount of capital banks / DFIs are required to hold. Currently, the MCR for banks and DFIs is Rs. 10 billion as prescribed by SBP.

#### ii. Capital Adequacy Ratio (CAR):

The Capital Adequacy Ratio assesses the capital requirement based on the risks faced by the banks / DFIs. The banks / DFIs are required to comply with the minimum requirements as specified by the SBP on standalone as well as consolidated basis. As of December 31, 2022, the required CAR for banks is 11.50% (plus 1.50% for NBP as D-SIB requirement).

## iii. Leverage Ratio:

Tier-1 Leverage Ratio of 3% is introduced in response to Basel III Accord as the third capital standard. Group level disclosure of the leverage ratio and its components has started from December 31, 2015. The Group has a leverage ratio of 3.15% in the year December 31, 2022 (2021: 3.54%) and Tier-1 capital of Rs. 236,742 million (2021: Rs. 204.320 million)

The SBP's regulatory capital as managed by the Group is analysed into following tiers:

#### 1. Tier 1 Capital (going-concern capital)

- Common Equity Tier 1
- Additional Tier 1
- Tier I capital, which comprises highest quality capital element and include fully paid up capital, balance in share premium account, reserve for issue of bonus shares, general reserves and un-appropriate profits (net of accumulated losses, if any).

#### 2. Tier 2 Capital (gone-concern capital)

 Tier II capital, which includes general reserve for loan losses, revaluation reserve, exchange translation reserve and subordinated debt.

Basel III capital rules require bank to make certain deductions from the capital before arriving at the Capital Adequacy Ratio (CAR).

Risk weighted assets are measured according to the nature of the asset and reflect an estimate of credit, market and other risks associated with each asset and counterparty, after taking into account any eligible collateral or guarantees. A similar treatment is adopted for off-balance sheet exposures, with some adjustments to reflect more contingent nature of potential losses.

For the year ended December 31, 2022

The Group's policy is to maintain strong capital base so as to maintain, investor, creditor and market confidence, and to sustain future development of the business. The adequacy of the Bank's capital is monitored using, among other measures, the rules and ratios established by the SBP. The ratios compare the amount of eligible capital with the total of risk-weighted assets. The Bank monitors and reports its capital ratio under the SBP rules, which ultimately determine the regulatory capital, required to be maintained by Banks and DFIs.

The paid-up capital of the Bank for the year ended December 31, 2022 stood at Rs. 21,275 million (2021: Rs. 21,275 million) and is in compliance with the SBP requirement for the said year. In addition the Bank has maintained minimum Capital Adequacy Ratio (CAR) of 22.02% (2021: 20.76%).

There have been no material changes in the Group's management of capital during the year.

#### 48. **RISK MANAGEMENT**

Risk management is about understanding and managing the potential for volatility of earnings, loss of access to reliable deposits and funding and depletion of capital arising from the business activities, whilst pursuing its strategic objectives. The Group has in place a well-defined risk management strategy / policy with clear objectives and deliverables through multi-pronged risk management processes.

The Group applies the Basel framework as a cornerstone of the NBP's risk management framework and capital strategy. The Group maintains a strong capital, funding and liquidity position in line with its on-going commitment to maintain balance sheet strength. The strength of risk profile management of the Group stands at the following pillars:

- Identification and assessment of significant material risks.
- Overseeing and managing the risk profile of the Bank within the context of the risk appetite.
- Optimize risk / return decisions by aligning them to business objective of achieving sustainable optimum growth.

Information Security Division (ISD) is also an integral part of Risk Management Group to oversee independently the emerging information/ cyber security risks.

In order to support Risk Management Group (RMG's) activities, a strong data management mechanism is also in place to collect and consolidate exposure wise information for various risk related analysis and reviews. The mechanism also helps in identification of e-CIB related information, periodic reviews, generation of reports and highlighting inconsistencies and errors, and issuing instructions to the relevant data entry points for rectification.

During 2022, Pakistan witnessed significant economic headwinds. Rising inflation, increasing fuel prices, depleting foreign exchange reserves, massive devaluation of the Pakistani rupee, political instability, increasing interest rates, and high budget deficit made the year more challenging. In this backdrop, Fitch, Moody's and S&P Global lowered the country's sovereign credit rating. In June 2022, Pakistan was hit with a natural catastrophe in the shape of worst ever floods in the history of the country. The floods resulted in millions of people being displaced and severe damage to both crops and livestock. Additionally, international commodity prices also remained elevated through the year. The headline inflation increased significantly touching a multi-year high of 27.32% in August. During the year, SBP increased the benchmark interest rate by a cumulative 625 bps to 16%. This steep increase was aimed at reducing aggregate demand in the economy and also to counter high inflation. This led to a steep uptick in domestic food prices. The Bank is regularly conducting assessments of the credit portfolio, with robust post disbursement credit review mechanism to identify borrowers most likely to be affected in the challenging business and economic environment. Bank is confident that it has more than sufficient risk bearing capacity to with stand these difficult times.

#### 48.1 Risk Governance Structure

Risk Management Group (RMG) operates as an independent group under the supervision of Chief Risk Officer (CRO). RMG's scope and coverage has been enhanced to cater enterprise-wide risk management, credit approvals, and program

For the year ended December 31, 2022

lending, CRO reports directly to the President with dotted line reporting to Board Risk & Compliance Committee (BRCC). The group is responsible to perform the functions pertaining to development and oversight of the risk management framework, methodologies and other functions assigned from time to time in line with local/ international best practices and under the supervision of SBP's regulations/ guidelines.

The Bank's Board is responsible to ensure active oversight over implementation of policies and frameworks so as to prevent any significant financial loss or reductions in shareholders' value that may be suffered by the Bank. Therefore, it is the responsibility of the Board to ensure that policies and frameworks are in place to recognize all significant/ material risks to which the Bank is/ may be exposed and that the required human resource, culture, practices and systems are adequate to address such risks. The Board and its relevant committee, i.e. Board Risk and Compliance Committee (BRCC) and the senior management along with its relevant committees i.e. Management Credit Committee (MCC), Enterprise Risk Committee (ERC), Asset and Liability Committee (ALCO) etc. are responsible to ensure implementation of Risk Management framework.

#### 48.2 Risk Management Framework

The Bank's risk management policies are established to identify and analyze the risks faced by the Bank, to set appropriate risk limits and controls, and to monitor risks and adherence to limits. Risk management policies and systems are reviewed regularly to reflect the changes in market conditions, products and services offered.

The Bank implements risk management framework through a 'Three Lines of Defence' model which defines clear responsibilities and accountabilities for various offices and ensures effective and independent oversight and also that the activities take place as intended. RMG together with Compliance Group acts as second line of defense and performs integrated function of oversight and independently challenges the effectiveness of risk management actions taken by business groups, who are the first line of defense. The risk management is further strengthened by the third line of defense, where Board Audit and Compliance Committee and Audit and Inspection Group add value through independent and objective assurance in improving risk management functions of the Bank.

Following paragraphs introduce Group's exposures to material risks associated with its business activities and explain overall strategies and processes to manage those risks:

## 48.2.1 Credit Risk

Credit risk is one of the significant risks faced by banks by due to the nature of their core activities. Through effective management of credit risk exposure, banks not only support the viability and profitability of their own business but also contribute to systemic stability and efficient allocation of capital in the economy. Credit Risk arises from the potential that a customer's or counterparty's willingness or ability to meet such an obligation is impaired, resulting in an economic loss to the bank. NBP's lending activities account for most of the Bank's credit risk which is continuously evolving in various financial activities including loans and advances, commitments to lend, contingent liabilities such as letter of credit and guarantees, and other types of both on and off-balance sheet transactions. The Bank has a dedicated setup led by Chief Risk Officer that ensures the effectiveness of the risk management frameworks for assessment / measurement, review and reporting of credit risk under supervision of Board Risk and Compliance Committee.

A prudent path to identify, assess and monitor credit risk management through structured assessment models, effective pre-disbursement evaluation tools and an array of post disbursement review systems has enabled NBP to effectively manage its credit risk and to keep the Bank resilient and minimize losses within the defined risk tolerance levels. Strategic goal, embedded into our approach to risk management is to maintain a robust framework, identify and escalate risks and to support sustainable business growth. The Bank has in place Risk Appetite Framework and Credit Risk Concentration Management Framework to control and mitigate the levels of credit risk it undertakes by placing limits on exposures in relation to existing or potential obligors, economic groups and to various industry segments.

The Risk Management function of the Bank is regularly conducting assessments, on perpetual basis, of the credit portfolio to identify borrowers and sectors through portfolio reports and dashboards most likely to get affected due to changes in the business and economic environment locally as well as globally. Bank is proactively keeping an eye on the delinquency in the

For the year ended December 31, 2022

accounts, financial position of the counterparty, current economic situation and other relevant information.

Credit review and approval process of the Bank is well-defined and is managed under strict supervision of senior management. For analysis of counterparties within various asset classes / constitutions / economic group, the Bank has in place rating models / scorecards, which further enhances the effective decision making. Concentration of exposure / risk in any of counterparty, economic group, or industry is assessed frequently and limit setting is tailored accordingly within Bank's overall risk appetite. Furthermore, during the year several automation initiatives were also undertaken by RMG for more efficient and effective decision making.

The Bank has also embarked on implementation of IFRS 9 standard, which is currently in parallel-run phase. The standard sets out new model for financial assets, which requires recognition of impairment charge based on an 'Expected Credit Loss' approach rather than the 'Incurred Credit Loss' approach as currently followed.

Moreover, under the leadership of CEO & CRO, the credit approval process was brought in line with global best practices by implementing the delegated approval authorities to Chief Credit Officer (CCO) & Senior Credit Officers (SCOs). This has vastly improved the turnaround time (TAT) for credit approvals besides a focused approach to asset / loan underwriting and monitoring. Furthermore, the risk team has also started making joint visits with the business teams to customers sites which has proved to be very helpful in understanding the ground realities and also supports in making informed decisions.

Retail & Program Lending Group manages the risk side of products governed on a program basis. Group has been organized on a Credit Cycle approach that adapts an end-to-end credit view. It is engaged in areas of Policy & Portfolio Management, MIS & Analytics, Credit Approvals, Collection & Recovery, Quality Assurance, etc. Head of Retail & Program Lending Group reports to CRO of the bank and is also a voting member of Management Credit Committee.

Currently under Basel Framework, Standardized Approach is used to calculate capital charge for credit risk weighted assets, with simple approach for credit risk mitigation. Additionally, stress testing for credit risk is completed on regular basis to evaluate the conceivable effects of scenarios provided by the regulator.

Particulars of the Group's significant on-balance sheet and off-balance sheet credit risk in various sectors are analysed as follows:

#### 48.2.2 Market Risk

Market Risk is the value of on and off-balance sheet positions of a financial institution that will be adversely affected by movements in market factors such as interest rates, foreign exchange rates, equity prices, credit spreads and / or commodity prices resulting in a loss to earnings and capital.

The Group's market risk is managed through Market Risk Management (MRM) Framework approved by the Board which is comprised of related policies / procedures with the objective to mitigate market risk. Group has in-place market risk limits to maintain risk emanating from such market drivers within the Group's risk appetite. Under the developed Value-at-Risk (VaR) models and policy framework, VaR limits are being monitored with an objective to be used for capital charge calculation under IMA approach in future.

Standardized Approach is used to calculate capital charge for market risk as per Basel framework. Stress testing for interest rate, equity prices, and exchange rates risks activities is carried out regularly to estimate the impact on the capital of the Group and maintain the Group's capital at appropriate level.

In addition to the regulatory requirements, Bank has devised proprietary market risk stress testing scenarios which are performed on periodic basis to assess the impact on capital of the Bank for Internal Capital Adequacy and Assessment Process (ICAAP). Limits / zones and Management Action Triggers and Management Action Plans corresponding to Liquidity Ratios, Balance Sheet Duration Gap, Government Securities' PVBP and Duration have also been developed.

#### 48.2.2.2 Foreign Exchange Risk

Foreign exchange and translation risk arises from the impact of currency movements on the value of the Bank's cash flows, profits and losses, and assets and liabilities as a result of participation in global financial markets and international operations.

In order to manage currency risk exposure the Bank enters into ready, spot, forward and swaps transactions with the SBP and in the interbank market, financial institutions and corporates. The Group's foreign exchange exposure comprises of forward contracts, purchases of foreign bills, foreign currency cash in hand, balances with Banks abroad, foreign placements with the SBP and foreign currency assets and liabilities. Foreign Exchange exposure is managed within the statutory limits, as fixed by the SBP. Appropriate segregation of duties exists between the front, middle and back office functions.

#### 48.2.2.3 Equity position Risk

Stock trading activities also raise risk which occurs resulting in negative fluctuations of daily stock prices specifically in those stocks which are held by the Group, hence, deplete capital. The Bank's equity position is managed through limits imposed by regulator for both, overall investment and exposure in single scrip. Moreover, internal limits are set to possibly manage overall earnings in the form of placing of stop loss, VaR limits and/ or through diversification within the structure of overall equity position portfolio.

## 48.2.2.4 Yield / Interest Rate Risk in the Banking Book (IRRBB)-Basel II Specific

Interest rate risk specifically arises due to adverse movements in yield curve that is being monitored by ALCO with an objective to possibly limiting the potential adverse impact on the profitability of the Group, which may result due to volatility of market interest rates and any mismatch or gaps in the amount of financial assets and financial liabilities in different maturity time bands. Bank assumes that the sources of IRR are based on following sub-risks.

- Re-pricing risk; arising from changes to the overall level of interest rates and inherent mismatches in the re-pricing term of banking book items.
- Yield curve risk; arising from a change in the relative level of interest rates for different tenors and changes in the slope or shape of the yield curve.
- Basis risk; arising from differences between the actual and expected interest margins on Banking book items over the implied cost of funds of those items.

### 48.2.2.6 Reconciliation of Financial Assets and Liabilities with Total Assets and Liabilities

Total Financial Assets as per note 48.2.2.5 Add: Non-Financial Assets	5,122,860,030	3,751,107,222
Fixed assets	57,604,343	54,610,404
Intangible assets	2,101,322	1,394,843
Right of Use Assets	7,186,067	7,090,980
Deferred tax assets	22,406,230	1,902,811
Other assets	39,607,902	40,928,687
	128,905,864	105,927,725
Total assets as per statement of financial position	5,251,765,894	3,857,034,947
Total Financial Liabilities as per note 48.2.2.5  Add: Non-Financial Liabilities	4,937,628,802	3,558,377,933
Other liabilities	3,836,860	3,633,633
Total liabilities as per statement of financial position	4,941,465,662	3,562,011,566

### 48.2.3 Operational Risk

Operational risk is the risk of loss resulting from inadequate or failed internal processes, people and systems or from external events. This definition includes legal risk but excludes strategic and reputational risks. For effective implementation, Group has comprehensive Operational Risk Management (ORM) Framework and procedure documents. These documents provide guidance for setting up operational risk strategy of the Group, selection and adoption of risk and loss measurement tools, reporting, and establishment of operational risk management processes.

Operational risks are a core component of doing business arising from the day-to-day operational activities of the Group including launching of new products and services by the Group. Group realizes that operational risks cannot be fully mitigated, it therefore, determines an appropriate balance between accepting potential losses and incurring costs of mitigation.

Further, the Group has adopted an Operational Risk Management Framework and Operational Risk Tolerance limits are approved by the Board in-line with Basel framework and Group's policy, respectively. Furthermore, Group has rolled-out Operational Loss Data Collection Mechanism whereby field functionaries and Groups/Divisions at head office are responsible to report operational losses under their jurisdictions on a certain frequency. Operational loss events are reviewed and appropriate corrective measures are taken on an ongoing basis. Risk Evaluation exercise is carried out for new products, processes and systems as per the operational risk procedures document of the Group.

For the year ended December 31, 2022

The Group also conducts root cause analysis of major Operational Risk Incidents covering key control lapses and accordingly suggests recommendations & mitigations. As per Basel regulatory framework, the Group calculates capital charge for its operational risk using Basic Indicator Approach. This approach is considered most suitable in view of the business model of the Group which relies on an extensive network of branches to offer Grouping services to its customers.

Moreover, the Group closely monitored overall Group's operational environment and undertook required actions to ensure the safety and security of Group staff, assets and maintenance of service to its customers. The Group continued to take measures to ensure maintenance of their service levels and resolved customer complaints to meet the expectations of its stakeholders.

The Group's operations stayed highly resilient and the Group deployed all necessary measures for the health and safety of its employees to prevent them from any unwarranted situation.

### 48.2.4 Information Security Risk

Cyber Security is one of our top priority risks. Considering extensive customer base and increasing digital footprint, mechanism has been devised for upscaling of technology infrastructure and related channels from information security standpoint. Further, due to evolving cyber threat landscape, the Group has taken appropriate actions to monitor and respond to cybersecurity risks and adopted a heightened state of cybersecurity. We are living in the highly technology dependent environment, where most of the business functions are performed with information technology for storing, processing and sharing information; the information "assets" that are being used to store, process and transmit the information, face various types of threats. If threats get materialized and are able to exploit the vulnerabilities (weaknesses) present in these information assets, the confidentiality, integrity and availability of information get compromised. In order to mitigate the risks, certain controls and countermeasures need to be assessed and implemented. The Group has devised a governance mechanism to manage related risks through development of Policies & Frameworks, and deployed security tools to ensure adequate implementation of internal controls and monitoring of security threats within technology infrastructure.

As first line of defense, the Business groups have primary responsibility for identifying, measuring, and controlling the risks within their areas of accountability. Our staff of Information Security Division (ISD) is second line of defense against any cyber risks. Therefore, the Group regularly assesses the information security controls and undertakes employees' awareness and trainings. The Group works with its key technology partners to ensure that potentially vulnerable systems are identified and appropriate fixes & controls are implemented to secure the systems. The Group is actively communicating with its customers on interacting with the Group in a secure manner through its full suite of channels including online and digital Grouping.

The management is cognizant of the fact that cyber security is a top priority risk and the Group is taking appropriate steps to monitor and respond to it. The Information Security Division (ISD) has been reorganized in 2022 with introduction of new technical roles of IS Security Operations & Threat Management, Network & Infrastructure Security, and Application & Database Security; in addition to the management roles of IS Governance& Compliance, IS Program Management, and IS Risk Management. The unit (ISD) works under the supervision of Chief Information Security Officer (CISO). Numerous steps have been taken by the Group to identify cyber security weaknesses of systems & infrastructure. Several controls are in place including but not limited to 24/7 SOC, 2FA authentication of VPN connections, Kaspersky EPP and Crowdstrike EDR mandatory deployments on Group's systems (KATA XDR is in final phase of implementation) etc. in line with the action plan outlined in the Group's cyber security management framework.

For the year ended December 31, 2022

### 48.2.5 Enterprise-wide Risk

In addition to the above mentioned risks, the Group has a structure to identify residual material risks on periodic basis. The source of these reports includes, but not limited to, the Internal Capital Adequacy and Assessment Process (ICAAP), which takes into account risks over and above those which directly occur as a result of daily business and operations of the Group. These risks include Concentration Risk, Interest Rate Risk in Grouping Book (IRRBB), Increase in NPL Categories, Reputational Risk, Strategic Risk, etc.

Moreover, all those brewing risks that are material and arise within the Group or due to inherent behavior of country's market and economic conditions, whether in isolation or in combination are addressed under the Group-wide Recovery Plan. These risks are monitored on certain frequency and mitigating actions are taken as and when deemed necessary.

Group's Stress-testing framework, comprises of tools, to deliver a timely assessment of the resilience of the Group's capital under stressed conditions to the senior management. It ranges from simple sensitivity analysis to sophisticated stress testing methods to capture the abnormal movement of market and economic indicators and to translate such scenarios into projections of Group's profitability, liquidity and capital planning.

This framework paves the way to a quantitative, forward-looking assessment of capital adequacy (movement/ level of Capital Adequacy Ratio (CAR) of the Group) to provide an indication of how much capital might be needed to absorb any expected and any unforeseen losses. It helps in identifying potential vulnerabilities within the Group and assessing solvency by applying plausible/ past adverse scenarios under extreme conditions.

### 48.2.6 Liquidity Risk

Liquidity risk is the risk of loss to a Group arising from its inability to meet obligations as they fall due or to fund growth in assets, without incurring unacceptable costs or losses. More simply, liquidity risk is the possibility that a Group will be unable to meet its financial commitment to a customer, creditor, or investor when due, in a timely and cost-effective manner.

To mitigate this risk, Group has arranged diversified funding sources, manages specific assets with liquidity in mind and monitors liquidity on daily basis. In addition, the Group maintains statutory deposits with central Groups inside and outside Pakistan. The purpose of liquidity management is to ensure that there are sufficient cash flows to meet all of the Group's liabilities when due, under both normal and stressed conditions without incurring unacceptable losses, as well as to capitalize on opportunities for business expansion and profitability. This includes the Group's ability to meet deposit withdrawals either on demand or at contractual maturity, to repay borrowings as they mature and to make new loans and investments, as opportunities arise.

Asset and Liability Committee (ALCO) is responsible for ensuring that the Group has adequate liquidity and monitors liquidity gaps, to execute this responsibility. Mandatory as well as advanced/optional stress testing and ratio based liquidity assessments are performed to proactively identify and manage liquidity position, needs/ requirements. Group has various limits/ ratios, triggers and management actions in place to monitor and mitigate liquidity risk. The Group calculates and monitors, on regular basis, Basel-III Liquidity standards (includes LCR, NSFR and LMTs), liquidity ratios as per SBP parameters besides other internal liquidity measures.

### 48.2.7 Derivative Risk

A derivative is a contract that derives its value from the performance of an underlying asset which can be an index, interest rate, commodity price, security price, FX rate etc. Derivatives include forwards, futures, swaps, options etc. In Pakistan, futures and forwards are most commonly traded derivatives.

Currently, the Bank is not an active participant in the Pakistan derivatives market as it does not hold an Authorized Derivative Dealer (ADD) license to perform derivative transactions. Once acquired, the Bank will carry out transactions that are permitted under the Financial Derivatives Business Regulations issued by SBP, which may include Interest rate swaps, forward rate agreements, foreign currency options, etc.

Moreover, the Group may also offer other over the counter derivative products to satisfy customer requirements, specific approval of which will be sought from the SBP on a transaction by transaction basis.

### 49. PROPOSED DIVIDEND FOR THE YEAR ENDED DECEMBER 31, 2021

As explained in note 49 of the annual audited consolidated financial statements of the Bank for the year ended December 31, 2021, the recommended cash dividend of Re.1 per share which amounted to Rs. 2,128 million, was not approved in the annual general meeting held on March 30, 2022.

### 50. CORRESPONDING FIGURES

Certain corresponding figures have been reclassified wherever necessary to confirm to the presentation adopted in the current year.

### 51. GENERAL

51.1 Figures have been rounded off to the nearest thousand rupees.

### 52. DATE OF AUTHORISATION FOR ISSUE

These consolidated financial statements were authorised for issue on February 28, 2023 by the Board of Directors of the Bank.

### Pool Management 8

NBP-AIBG has managed following pools for profit and loss distribution.

General depositor pool a)

> The General pool consists of all other remunerative deposits. NBP Aitemaad (the Mudarib) accept deposits on the basis of Mudaraba from depositors (Rabbulmaal). The net return on the pool is arrived at after deduction of direct costs from the gross return earned on the pool. The entire net return after paying equity share to Mudarib is considered as distributable profit of the pool.

Special depositor pools (Total 182 during the period and 51 as at Dec 31, 2022)

Special pool(s) are created where the customers desire to invest in high yield assets. These pool(s) rates are higher than the general pool depending on the assets. In case of loss in special pool, the loss will be borne by the special pool members. The net return on the pool is arrived at after deduction of direct costs from the gross return earned on the pool. From the net return, and after allocation of share of profit to commingled equity, profit is paid to the Mudarib in the ratio of the Mudarib's equity in the pool to the total pool. The balance represents the distributable profit

Equity pool C)

> Equity pools include AIBG's fund and current account deposits. The equity pool may have constructive liquidation every month and risk associated with assets of pool includes operational, market, equity, return and Shariah.

### Key features and risk & reward characteristics

Deposits are accepted from customers on the basis of Qard (current accounts) and Mudarabah (Saving and term deposits). No profit or loss is passed on to current account depositors.

For deposits accepted on Mudarabah basis from depositors (Rab ul Maal) the Bank acts as Manager (Mudarib) and invests the funds in the Shariah Compliant modes of financings. Rab ul Maal share is distributed among depositors according to weightages declared for a month before start of the period.

In case of loss in a pool during the profit calculation period, the loss is distributed among the depositors (remunerative) according to their ratio of investment.

For all pools, the Mudarib's share is deducted from the distributable profit to calculate the profit to be allocated to depositors. The allocation of the profit to various deposit categories is determined by the amount invested in that category relative to the total pool, as well as by the weightage assigned to the various deposit categories.

The assets, liabilities, equities, income and expenses are segregated for each of the pool. No pool investment is intermingled with each other. The risk associated with each pool is thus equally distributed among the pools.

Avenues / sectors of economy / business where Modaraba based deposits have been deployed.

	2022	2021
	(Perce	ntage)

Total	100%	100%
		*

### Parameters for profit allocation and charging expenses

Profit of the pools has been distributed between Mudarib and Rab-ul-Mall by using preagreed profit sharing ratios. The share of Rab-ul-Mall's profit has been distributed among different customers using the various weightages assigned to the different categories of the pool.

No provision against any non performing asset of the pool is passed on to the pool except on the actual loss / write off of such non performing asset. Administrative expense are borne by mudarib and not charged to Mudaraba pool.

Mudarib Share	(Rupees in '000)
Gross Distributable Income	9,906,319
Mudarib (Bank) share of profit before Hiba	3,211,747
Mudarib Share in percentage	32%
Hiba from Mudarib Share	
Mudarib (Bank) share of profit before Hiba	3,211,747
Hiba from bank's share to depositors	708,244
HIba from bank's share to depositors in percentage	22%

### Profit rates

During the year ended December 31, 2022 the average profit rate earned by NBP Islamic Banking Group is 12.82% and the profit distributed to the depositors is 8.92%.

### SPECIAL NOTES TO THE SHAREHOLDERS

### 1. TRANSMISSION OF ANNUAL FINANCIAL STATEMENTS THROUGH EMAIL:

In pursuance of the directions given by SECP vide SRC 787 (1)/2014 dated September 8, 2014, those shareholders who desire to receive annual financial statements through email instead of receiving the same by post in future are advised to give their formal consent along with their valid email address on a standard request form available on Bank's website i.e., www.nbp.com.pk and send the duly filled-in and signed form along with copy of his/her CNIC/Passport to the Bank's Share Registrar. Please note that giving email address for receiving annual financial statements instead of receiving the same by post is optional. In case you do not wish to avail this facility, please ignore this Notice and, in such case, annual financial statements will continue to be sent at your registered address on CD as approved in 88th Annual General Meeting held on March 30, 2017.

### 2. CONVERSION OF PHYSICAL SHARES INTO BOOK-ENTRY FORM:

The SECP through its letter No. CSD/ED/Misc./2016-639-640 dated March 26, 2021 has advised listed companies to adhere to the provision of Section-72 of the Companies Act, 2017 (the "Act") requiring all the existing companies to replace shares issued by them in physical form with shares into book-entry form in a marriner as may be specified and from the date notified by the SECP but not exceeding four (04) years from the date of promulgation of the Act. Considering the aforesaid directive. NBP has also published a request on October 28, 2021 to ensure compliance with the Act and advised to open Investor Account directly with the Central Depository Company of Pakistan Limited ("CDC") or CDC-Sub-Account with any TREC Holder registered with Pakistan Stock Exchange Limited (PSX) to place their physical shares into book-entry form. It will not only ensure the compliance of relevant nulses and regulations but will also speed up the process of disbursement of entitlement to the respective shareholders.

### 3. AVAILABILITY OF AUDITED FINANCIAL STATEMENTS ON BANK'S WEBSITE:

The Bank is placing the Audited Annual Financial Statements for the year ended December 31, 2022 along with Auditors' Report, Directors' Report and Chairman's Review Report thereon on its website; www.nbp.com.pk

### STATEMENT OF MATERIAL FACT UNDER SECTION 134(3) OF THE COMPANIES ACT, 2017

This statement sets out the material facts concerning the special business to be transacted at the Annual General Meeting of the Bank to be held on March 30, 2023.

### from d-

# TO CONSIDER AND APPROVE REMUNERATION OF NON-EXECUTIVE/INDEPENDENT DIRECTORS AND NON-EXECUTIVE CHAIRMAN OF NBP:

The shareholders, in their 61st AGM, held on March 31, 2010 had approved revision in Directors' fee/expense package. Subsequently, the shareholders in their EOGM held on May 15, 2017 revised the Directors' fee. Since then, there has been no revision in the Directors' fee/expense package. In view of the Board's responsibilities and enhanced role, the Directors have to devote considerable time and expertise in the overall stewardship of the Bank. The Board of Directors, on recommendation of BHRRC and keeping in view the SBP's Corporate Governance Regulatory Framework (CGRF), has recommended the remineration of Non-Executive/Independent Directors and Non-Executive Chairman at Rs. 400,000/- for attending Board/Committee meetings plus 20% of the fee for holding the Office of the Board Chairman, it is worth-mentioning here that this fee is on the lowest scale of remuneration among the peer banks. The Board has also recommended enhancement in the Directors' daily allowance from Rs. 15,000/- per diem to Rs. 35,000/- per diem, in lieu of hotel accommodation. In case of journey by road, other expenses and mileage allowance enhanced from Rs. 30/- per kilometer.

The Federal Government in terms of internsi Finance Wing, Notification No. F.1(11) Bkg-III /2017-90 dated January 18, 2023 has appointed Mr. Ashraf Mahmood Wathra, as Chairman, Board of Directors of NBP for a term of three (03) years w.e.f. January 18, 2023.

The State Bank of Pakistan vide Regulation G-14 of Corporate Governance Regulatory Framework (CGRF) has directed the banks to "pay a reasonable and appropriate remuneration to their board members". Moreover, the Board Remuneration Policy, approved by the shareholders in EOGM held on July 27, 2020 also envisages that the Board shall, from time to time, determine and approve such level of remuneration for the Board members as may be within the limits prescribed by SBP from time to time. The remuneration shall always be approved from shareholders in a General Meeting (AGM/EOGM). This is also a requirement under Section 11(3)(a) of The Banks' (Nationalization) Act, 1974.

It is requested that remuneration of the non-executive/independent Directors and Mr. Ashraf Mahmood Wathra, non-executive Chairman, Board of Directors of the Bank be approved as recommended by the Board of Directors of the Bank and in pursuance thereof, the following resolutions may be passed:

"RESOLVED THAT the following package of Directors' meeting fee and other expenses, for attending Board/Committee meetings as allowed under the Board Remuneration Policy of the Bank, to Non-Executive/Independent Directors, as recommended by the Board of Directors of the Bank in its 344th meeting held on February 28, 2023, be and is hereby approved:

The Basel Committee on Banking Supervision (BCBS) issued the Basel III rules text, which presents the details of strengthened global regulatory standards on bank capital adequacy and figuidity.

### Basis Point (BP)

One hundredth of a percentage point (0,01 per cent); 100 basis points is 1 percentage point, Used in quoting movements in interest rates or yields on securities.

### Capital Adequacy Ratio

The percentage of risk-adjusted assets supported by capital as defined under the framework of risk-based capital standards developed by the Bank for International Settlements (BIS) and as modified by the CBSL to suit local requirements.

### Cash Equivalents

Short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

### General Loan Impairment Provisions

Impalment assessment on a collective basis for homogeneous groups of loans that are not considered individually significant and to cover losses that have been incurred but have not yet been identified at the reporting date.

### Commitments

Credit facilities approved but not yet availed by the clients as at

### Contingencies

A condition or situation, the ultimate outcome of which will be confirmed only on the occurrence or non-occurrence of one or more uncertain future events.

### Corporate Governance

The process by which corporate entitles are governed. It is concerned with the way in which power is exercised over the management and direction of entity, the supervision of Amount at which the financial asset or financial lability is executive actions and accountability to shareholders and

### Correspondent Bank

A bank in a foreign country that offers banking facilities to the customers of a bank in another country.

### Cost/Income Ratio

Operating expenses as a percentage of total operating income.

An evaluation of a corporate's ability to repay its obligations or the likelihood of not defaulting, carried out by an independent

### Credit Risk

Risk of financial loss to the Bank, if a customer or counterparty to a financial instrument fails to meet its contractual obligations. and arises principally from the loans and advances to customers and other banks and investment in debt securities.

### Currency SWAPs

The simultaneous purchase of an amount of a currency for spot settlement and the sale of the same amount of the same currency for forward settlement.

### **Deferred Taxation**

Sum set aside in the Financial Statements for taxation that may become payable/ receivable in a financial year other than the current financial year. It arises because of temporary differences between tax rules and accounting conventions.

### Delinguency

A debt or other financial obligation is considered to be in a state of delinquency when payments are overdue. Loans and advances are considered to be delinquent when consecutive payments are missed. Also known as "Arrears".

### **Derivatives**

A derivative is a financial instrument or other contract, the value of which changes in response to some underlying variable (e.g. interest rate) that has an initial net investment smaller than would be required for other instruments that have a similar response to the variable, and that will be settled at a future date.

Dividend earned per share as a percentage of its market value.

### Letters of Credit (LCs)

Written undertaking by a bank on behalf of its customers. authorising a third party to draw on the Bank up to a stipulated amount under specific terms and conditions. Such undertakings are established for the purpose of facilitating international trade.

### Domestic Systemically important Banks (D-SIBs)

Systemically Important Banks (SiBs) are perceived as banks that are "Too Big To Fail". D-SIBs are critical for the uninterrupted availability of essential banking services to the country's real economy even during crisis.

### Earninas per Share (EPS)

The profit attributable to ordinary shareholders divided by the number of ordinary shares in issue.

### Effective Interest Rate (EIR)

Rate that exactly discounts estimated future cash payments or receipts through the expected life of the fl instruments or when appropriate, a shorter period to the net carrying amount of the financial asset or financial liability.

### Effective Tax Rate (ETR)

Provision for taxation excluding deferred tax expressed as a percentage of the profit before taxation.

### **Equity Method**

This is a method of accounting whereby the investment is initially recognised at cost and adjusted thereafter for the post-acquisition changes in the investor's share of net assets of the investee. The profit or loss and other comprehensive income of the investor include the investor's share of the profit or loss and other comprehensive income of the investee.

### ESOP (Employee Share Ownership Plan)

A method of giving employees shares in the business for which they work.

### Exposure at Default (EAD)

EAD is an estimate of the exposure at a future default date. taking into account expected changes in the exposure after the reporting date, including repayments of principal & interest and expected drawdowns of committed facilities.

### **Expected Credit Losses (ECLs)**

ECL approach is the loan loss impairment method under SLFRS 9 on "Financial Instruments". ECLs are the discounted product of the Probability of Default (PD), Exposure at Default (EAD) and Loss Given Default (LGD). ECL measurements are unbiased and are determined by evaluating a range of possible outcomes.

The price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

### Finance Lease

A lease in which the lessee acquires all financial benefits and risks attaching to ownership of the asset under lease.

### Financial Instrument

A financial instrument is any contract that gives rise to both a financial asset in one entity and a financial liability or equity instrument in another entity.

### Financial Assets Measured at Amortised Cost

A financial asset is measured at amortised cost if the asset is held within a business model whose objective is to hold assets. to collect contractual cash flows and the contractual ferms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and Interest on the principal amount outstanding.

### Financial Assets Measured at Fair Value through Other Comprehensive Income (FVOCI)

FVOCI include debt and equity instruments measured at fair value through other comprehensive income. A debt instrument is measured at FVOCt, if it is held within a business model whose objective is achieved by both collecting contractual cash. flows and selling financial assets and the contractual terms of the financial asset give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding. Equity investments may be irrevocably classified as FVQCI when they meet the definition of Equity under LKAS 32 Financial Instruments: Presentation, and are not held for trading.

### Financial Assets Measured at Fair Value through Profit or Loss (FVTPL)

All financial assets other than those classified at Amortised Cost or FVOCI are classified as measured at FVTPL. These are held for trading or managed and their performance is evaluated on a fair value basis as they are neither held to collect contractual cash flows nor held both to collect contractual cash flows and to sell financial assets.

### Forward Exchange Contract

Agreement between two parties to exchange one currency for another at a future date at a rate agreed upon today,

AGM & Supplementary Info.

Global Reporting Initiatives (GRI)

The GRI is an international independent standards organisation that helps businesses, governments and other organisations to understand and communicate their impacts on issues such as climate change, human rights and corruption. GRI promotes sustainability reporting as a way for organisations to become more sustainable and contribute to sustainable development.

Group

A parent company and all its subsidiaries.

Three party agreement involving a promise by one party (the guarantor) to fulfil the obligations of a person owing a debt if that person falls to perform.

Hedging

A strategy under which transactions are effected with the aim of providing cover against the risk of unfavourable price movements (interest rate, foreign exchange rate, commodity prices, etc.).

Held-to-Maturity (HTM) investments

Non-derivative fi assets with fi or determinable payments and fi maturity that an entity has the positive intention and ability to hold to maturity.

High Quality Liquid Assets (HQLA)

Assets that are unencumbered, liquid in markets during a time of stress and, ideally, be central bank eligible. These include, for example, cash and claims on central governments and central banks.

Impaired Loans

Loans where the Group does not expect to collect all the contractual cash flows or expects to collect them later than they are contractually due.

Impairment

This occurs when recoverable amount of an asset is less than its carrying amount,

**Impairment Charge** 

Impairment allowances are provisions held on the Statement of Financial Position as a result of the raising of a charge against profit for the incurred loss. An impairment allowance may either be identified or unidentified and individual (specific) or collective (portfolio),

Intangible Asset

An Intangible asset is an identifiable non-monetary asset without physical substance.

Interest Rate SWAP

An agreement between two parties (known as counterparties) where one stream of future interest payments is exchanged for another stream of future interest payments based on a specific principal amount.

Interest Spread

Represents the difference between the average interest rate earned on interest earning assets and the average interest rate paid on interest-bearing liabilities.

Key Management Personnel (KMP)

Key management personnel are those persons having authority and responsibility for planning, directing and controlling the activities of the entity, directly or indirectly, including any Director (whether Executive or otherwise) of that entity.

Liquid Assets

Assets that are held in cash or in a form that can be converted to cash readily, such as deposits with other banks, Bills of Exchange and Treasury Bills and Bonds.

Loans and Receivables

Non-derivative financial assets with fixed or determinable perments that are not quoted in an active market other than those intended to sell immediately or in the near term and designated as fair value through profit or loss or available for sale on initial recognition.

Lifetime Expected Credit Losses (LTECL)

Lifetime ECL are the expected credit losses that result from all possible default events over the expected life of the financial instrument. According to SLFRS 9 on "Financial instruments". the ECL allowance should be based on LTECL unless there has been no significant increase in credit risk since origination.

Liquidity Coverage Ratio - LCR

Refers to highly liquid assets held by Banks to meet short-term obligations. The ratio represents a generic stress scenario that aims to articipate market-wide shocks.

Loan-to-value ratio (LTV)

The LTV ratio is a mathematical expression which expresses the amount of a first mortgage lien as a percentage of the total appraised value of real property. The LTV ratio is used in determining the appropriate level of risk for the loan and therefore the correct price of the loan to the borrower.

Loss given default (LGD)

LGD is the percentage of an exposure that a lender expects to lose in the event of obligor default.

Market Capitalisation

The value of an entity obtained by multiplying the number of ordinary shares in issue by its market value as at a date.

This refers to the possibility of loss arising from changes in the value of a financial instrument as a result of changes in market variables such as interest rates, exchange rates, credit spreeds and other asset prices.

Materiality

The relative significance of a transaction or an event, the omission or misstatement of which could influence the economic decisions of users of Financial Statements.

Net Interest Income (NII)

The difference between the amount a bank earns on assets such as loans and securities and the amount it pays on liabilities such as deposits, refinance funds and inter-bank borrowings.

Net Interest Margin (NIM)

The margin is expressed as net interest income divided by average interest earning assets.

Non-Controlling Interest (NCI)

Equity in a Subsidiary not attributable, directly or indirectly, to a parent.

**Nostro Account** 

A bank account held in a foreign country by a domestic bank, denominated in the currency of that country. Nostro accounts are used to facilitate the settlement of foreign exchange trade transactions.

Net Stable Funding Ratio (NSFR)

Measures the amount of longer-term, stable sources of funding employed by a bank relative to the flouidity profiles of the assets funded and the potential for contingent calls on funding liquidity arising from

off-balance sheet commitments and obligations.

Open Credit Exposure Ratio

Total net non-performing loans and advances expressed as a percentage of regulatory capital base.

**Operational Risk** 

This refers to the risk of loss resulting from inadequate or falled internal processes, people and systems or from external events.

An entity that controls one or more entities.

Price Earnings Ratio (P/E Ratio)

Market price of a share divided by the earnings per share.

Price to Book Value

Market price of a share divided by the net assets value of a

Probability of Default (PD)

PD is an internal estimate for each borrower grade of the likelihood that an obligor will default on an obligation,

**Provision Cover** 

Total provisions for loan losses expressed as a percentage of net non-performing loans and advances before discounting for provisions on non-performing loans and advances.

Related Parties

One party has the ability to control the other party or exercise significant influence over the other party in making financial and operating decisions, directly or indirectly.

Related Party Transaction (RPT)

RPT is a transfer of resources, services or obligations between a reporting entity and a related party, regardless whether a price is

The Bank You Trust

Repurchase Agreement

Contract to sell and subsequently repurchase securities at a specified date and price.

Return on Average Assets (ROA)

Profit after tax expressed as a percentage of the average assets.

Return on Average Equity (ROE)

Net profit attributable to owners expressed as a percentage of average ordinary shareholders' equity.

Reverse Repurchase Agreement

Transaction involving the purchase of securities by a bank or a dealer and resale back to the seller at a future date at a specified

Subsidiary

An entity that is controlled by another entity.

Substance over Form

The consideration that the accounting treatment and presentation of Financial Statements of transactions and events should be governed by their substance and financial reality and not merely by legal form.

Tier I Capital

(Common Equity Tier 1 - CET 1) Common Equity Tier 1 (CET1) is a component of Tier 1 capital that consists mostly of Stated Capital. It is a capital measure that was introduced as a precautionary measure to protect the economy from a financial crisis.

Tier I Capital

(Additional Tier 1 Capital - AT 1)

Additional Tier 1 Capital (AT1) is a component of Tier 1 capital that comprises securities that are subordinated to most subordinated debt, which have no maturity, and their dividend can be cancelled at

Tier II Capital

Capital representing revaluation reserves, general provisions and other capital instruments, which combine certain characteristics of equity and debt such as hybrid capital instruments and subordinated term debts.

Yield to Maturity (YTM)

Discount rate at which the present value of future cash flows would equal the security's current price,
