 - b. Non-compliance of the public accounting firm's audit with applicable auditing standards.
4. Providing recommendations to the Board of Commissioners on the appointment of Public Accountants and Public Accounting Firms to be

submitted to the General Meeting of Shareholders as regulated by the regulator.

The Audit Committee must ensure that a report on the appointment of a Public Accountant and/or Public Accounting Firm for auditing the annual historical financial information is reported by the Company to OJK no later than 10 working days after the appointments, and must be accompanied by the Audit Committee's recommendations and considerations used in providing their recommendations.

5. Evaluating the audit services for annual historical financial information by Public Accountant and/or Public Accounting Firm, at least through:
 - a. The suitability of the audit performed by the Public Accountant and/or Public Accounting Firm with the applicable audit standards;
 - b. Adequacy of fieldwork time;
 - c. Assessment of the scope of services provided and the adequacy of the quotation test; and
 - d. Recommendations for improvements provided by the Public Accountant and/or Public Accounting Firm.
- The Audit Committee must ensure that the Audit Committee's evaluation report on the conduct of providing audit services on annual historical financial information by the Public Accountant and/or Public Accounting Firm, the Company reports to the Financial Services Authority periodically every year no later than 6 (six) months after the fiscal year ends.
6. Reviewing the execution of audits by internal auditors and external auditors, and oversee the implementation of follow-up actions by the Board of Directors on the auditor findings, in order to provide recommendations to the Board of Commissioners;
7. Reviewing complaints relating to the Company's accounting and reporting process;
8. Reviewing and advising the Board of Commissioners regarding potential conflict of interest;
9. The Audit Committee provides recommendations to the Board of Commissioners concerning the appointment and dismissal of the Head of the Internal Audit (IAD), and must ensure that the Head of IAD appointment or dismissal report is signed by the President Director and the Chief Commissioner to the Financial Services Authority no later than 10 (ten) working days after the date of appointment or dismissal of the Head of IAD;
10. Providing recommendations to the Board of Commissioners regarding the stipulation of Internal Audit Charter. The Audit Committee must ensure that the Internal Audit Charter is reviewed at least once in 3 (three) years;
11. In carrying out the internal audit function, the Audit Committee is responsible for:
 - a. Monitoring and reviewing the Bank's internal audit implementation effectiveness;
 - b. Evaluating IAD Performance;
 - c. Ensuring IAD communicates with the Board of Directors, the Board of Commissioners, external

- auditors, and the Financial Services Authority;
- Ensuring IAD works independently;
 - Providing recommendations to the Board of Commissioners concerning the preparation and determination the IAD audit plan, scope, and budget;
 - Reviewing audit reports and ensuring the Board of Directors takes the necessary corrective actions quickly to anticipate control weaknesses, fraud, compliance issues with policies, laws and regulations, or other issues identified and reported by IAD;
 - Providing recommendations to the Board of Commissioners Concerning the IAD annual remuneration as a whole and performance awards; and
 - Ensuring IAD upholds integrity in carrying out its duties.
- Providing recommendations to the Board of Commissioners regarding the appointment of an independent quality controller from an external party to conduct a review of the IAD's performance. The Audit Committee must ensure that the report on the results of an independent external review party signed by the President Director and the President Commissioner is submitted to the Financial Services Authority no later than 2 (two) months after the review period ends;
 - The Audit Committee must ensure that special reports regarding any internal audit findings that are expected to endanger the business continuity of the Bank, signed by the President Director and the Head of Audit Committee, are submitted to the Financial Services Authority no later than 3 (three) working days after they are discovered;
 - The Audit Committee is obliged to ensure that the report on the implementation of the main results of the internal audit, which is signed by the President Director and the Chair of the Audit Committee, is submitted to the Financial Services Authority semi-annually at the latest:
 - July 31 of the current year for the first semester;
 - January 31 of the following year for the second semester.
 - Maintaining the confidentiality of Company documents, data and information. In carrying out its duties and responsibilities, the Audit Committee takes into account the Audit Committee Code of Conduct as follows:
 - Integrity
Audit Committee Members are committed to always being consistent in thoughts, sayings and actions based on conscience and belief in essential truth principles. In performing their duties Audit Committee Members:
 - Shall carry out their duties honestly, diligently and responsibly;
 - Shall be subject to the law and make

- disclosures in accordance with the rules of law and profession;
- Shall practice and encourage others to act in a professional manner;
 - Shall respect and support the established Vision and Mission of BNI;
 - Shall be prohibited from intentionally becoming part of illegal activities, or engaging in acts that undermine the credibility of the Audit Committee; and
 - Shall be prohibited from deliberate misrepresentation or manipulation in carrying out the duties, responsibilities and authorities given.
- Objective and Independent
The Audit Committee Members provides a fair and balanced assessment of all relevant conditions and are not influenced by personal or other parties' interests when expressing their opinions. In performing their duties, Audit Committee Members:
 - Shall pay attention to balance, and place the interests of stakeholders above other interests;
 - Shall disclose all material facts which, if not disclosed, may obscure the result reporting;
 - Shall disclose if there is a relationship that has the potential to affect explicit judgment and cause a conflict of interest;
 - Shall be prohibited from accepting anything that may, or may potentially, affect professional judgement.
 - Competency
Audit Committee Members use their knowledge, expertise, and experience necessary to perform the tasks, responsibilities, and authorities provided. In performing their duties, Audit Committee Member:
 - Shall perform the duties, responsibilities, and authorities given in accordance with their competences;
 - Shall maintain and improve their knowledge and expertise sustainably.
 - Confidentiality
Audit Committee Members shall always keep the confidentiality of information that is secret and confidential to the Bank in accordance with the Bank's policies and prevailing regulations. In performing their duties, Audit Committee Members:
 - Shall be prudent in the use and safeguard information obtained;
 - Shall be prohibited from using information for personal or other purposes unless there is a legal obligation or professional

obligation.

AUDIT COMMITTEE AUTHORITIES

For carrying out its duties, the Audit Committee has the following authorities:

- Access to Company documents, data, and information regarding employees, funds, assets, and necessary Company resources, including access to information regarding all of the Company's activities;
- Communicating directly with employees, including the Board of Directors and those carrying out the functions of internal audit, risk management, and accountants related to the Audit Committee duties and responsibilities;
- Involving independent parties other than members of the Audit Committee as needed to assist in carrying out their duties (if needed); and
- Carrying out other authorities assigned by the Board of Commissioners.

AUDIT COMMITTEE MEMBERS' TERM OF OFFICE

- Audit Committee members' term of office who are members of the Board of Commissioners may not be longer than the Board of Commissioners term of office as stipulated in the Articles of Association and can be re-elected only for the next 1 (one) period;
- If a member of the Board of Commissioner who is the Audit Committee Chairman ceases their term of office before their term of office as a Commissioner of the Company is over, another Independent Commissioner shall replace the Audit Committee Chairman;
- The term of office for Audit Committee members who come from independent parties is a maximum of 3 (three)

will act as the Audit Committee Chairman.

In 2022, the Audit Committee membership composition did not change. So, the Audit Committee membership composition remained the same as last year.

The Audit Committee also provided input in Committee in Board of Commissioners Committee meetings that invited the Audit Committee. During 2022, the Audit Committee attended 11 (eleven) other Committee meetings.

BRIEF REPORT ON THE AUDIT COMMITTEE'S ACTIVITIES IN 2022

The Audit Committee was established to assist the Board of Commissioners in its supervisory function. For this reason, the Audit Committee's duties and responsibilities are guided by the applicable provisions. The Audit Committee duties and responsibilities and its Code of Ethics have been included in the Audit Committee Charter and Code of Ethics, as stipulated by the Board of Commissioners.

To fulfill the OJK Regulation No. 55/POJK.04/2015 dated December 23, 2015, BNI has posted the Audit Committee Charter and other information required in the OJK Regulation on the Company's website.

During 2022, the Audit Committee carried out the following duties and responsibilities:

1. Reviewing the financial information to be issued by the Company to the public and/or the authorities;
2. Reviewing compliance with laws and regulations related to the Company's activities;
3. Evaluating the effectiveness of the audit/services provided by the Public Accounting Firm (KAP), including reviewing its independence and objectivity;
4. Providing recommendations to the Board of Commissioners on the appointment of Public Accountants and Public Accounting Firm for the fiscal year 2022 audit;
5. Preparing a report on the KA evaluation results on the provision of KAP audit services for fiscal year 2021;

6. Reviewing the audit by the internal and external auditors, and supervising the follow-up actions by the Board of Directors on the auditors' findings.

- a. Reviewing the planning and implementation of the IAD audit and consultation, as well as supervising the follow-up to the IAD audit results.
- b. Reviewing the planning and implementation of the Compliance Division review, as well as supervising the follow-up of the Compliance Division review results.
- c. Reviewing the implementation of the OJK Examination, as well as supervising the follow-up to the OJK examination results.
- d. Reviewing the implementation of the BPK Audit, as well as supervising the follow-up to the BPK audit results.
- e. Reviewing the implementation of the KAP Audit, as well as supervising the follow-up to the of the KAP audit results (Management Letter).
- f. Monitoring the preparation of reports from the Board of Directors and Board of Commissioners on the main points of the audit results.
- g. Monitoring the progress of the settlement of employee cases, and follow up on cases related to fraud.

7. Conducting an assessment of the BNI Internal Control System.
 - a. Evaluating the implementation of the Whistleblowing System (WBS);
 - b. Evaluating the implementation of the Anti Fraud Strategy Program.
8. Reviewing the Company's monthly performance reports;
9. Reviewing the Company's Good Corporate Governance (GCG) implementation;
10. Reviewing the Financial Institution Pension Fund Investment Performance (DPLK);
11. Reviewing the Supervision of Business Realization of Financial Institution Pension Funds (DPLK);
12. Reviewing the Supervision of Governance of Financial Institution Pension Funds (DPLK);

13. Reviewing the 2021 Baseline Proposal and the 2022 Target of Macprudential Inclusive Financing in order to Achieve BNI's Macprudential Inclusive Financing Ratio (RPIM);
14. Reviewing Management's proposals that require the approval of the Board of Commissioners;
15. Conducting Audit Committee Work Visits to Branches/Centra/Regions;
16. Preparing reports related to the Audit Committee duties.
 - a. Audit Committee Report for the Annual Report;
 - b. Report on the realization of the Audit Committee work program.
17. Remedial & Recovery progress review;
18. Reviewing and Input the Audit Committee Write-Off Plans with a Limit of Rp100 billion up to Rp200 billion;
19. Reviewing Frauds that Occurred;
20. Coordinating committees;
21. Carry out dispositions from the Board of Commissioners.

Through Committee meetings held throughout 2021, the Audit Committee also held discussions with related parties regarding the following matters:

Management

The Audit Committee reviews the audited and unaudited financial statements to be published in 2022, to ensure the information content and disclosure is in accordance with accounting standards and prevailing regulations. Evaluations of the audit effectiveness, independence, objectivity, and adequacy of the audit scope by external auditors is also carried out by the Audit Committee through discussions with Management. The Audit Committee also discusses and monitors the follow-up completion of the internal and external audit findings, monitors the follow-up to the settlement of cases that occur in order to encourage the acceleration of settlement as well as the necessary administrative sanction steps.

To improve the quality of the Bank's lending, the Audit Committee through the Board of Commissioners has recommended Management conduct a thorough review of BNI's loan process.

External Auditor

Regarding the audit process of the company's financial statements as of December 31, 2022 carried out by the Public Accounting Firm (KAP), the Audit Committee discussed the audit plan, monitored the audit progress including findings that required adjustments, evaluated internal control including internal control over the Company's financial reporting, as well as the quality of the Company's overall financial reporting.

In the monitoring function of the audit results conducted by external auditors, namely Bank Indonesia (BI), the Financial Services Authority (OJK), the Supreme Audit Agency (BPK), the Financial Transaction Reports and Analysis Center (PPATK), and KAP, the Audit Committee evaluated the follow-up actions taken by the Management

on the audit results of the said external auditor. The review and evaluation of the results of external audits conducted by the Audit Committee until the end of 2022 were as follows:

1. The progress of completing the BI audit results was 96.36%, with 2 (two) commitments pending;
2. The progress of completing the OJK audit results was 98.29%, with of 17 (seventeen) findings pending;
3. The progress of completing the BPK audit was 83.12%, with 118 (one hundred and eighteen) recommendations pending;
4. The progress of completing the Management Letter from KAP Tanudiredja, Wibisana, Rintis & Partners (member of PricewaterhouseCoopers) was 42.85%, with 4 (four) recommendations pending.

The Audit Committee prepared a Report on the Audit Services Evaluation Results for Annual Historical Financial Information for Fiscal Year 2022 by KAP Tanudiredja Wibisana Rintis & Rekan (member of PricewaterhouseCoopers) to comply with OJK Regulation Number 13/POJK.03/2017 dated March 27, 2017 concerning the Use of Public Accountant Services and Public Accounting Firms in Financial Services Activities, the Company reported the Audit Committee Evaluation Results Report to OJK in June 2022.

Internal Audit

The Audit Committee reviews the annual internal audit plan, monitors the inspection results, as well as the follow-up on its completion by the Company's Management. The Audit Committee also held discussions with the Internal Audit (IAD), in an effort to encourage the effectiveness and strengthening of the functions of the IAD.

Based on the IAD's 2022 Annual Work Plan and Budget (RKAT), the realization of the planned activities carried out by IAD were as follows:

No.	Type of Activity	Plan	Realization
1	Delivery Channel Audit	111	112
2	KCLN Audit	5	5
3	Mandatory Audit	12	12
4	Divisions Audit	5	7
5	Subsidiaries Audit	4	4
6	IT Thematics/Activities including IT and Non-IT Applications Audit	73	68
7	Independent Review	6	12
8	Consultation/Review/Surprise	-	14
Total		216	234

The Internal Audit activities carried out realized 108.33% of the plan determined based on the 2022 Annual Work Plan and Budget (RKAT).

From the results of the review and evaluation of the Internal Audit's follow-up up to the end of 2022, the IAD audit follow-up progress reached 99.71%. There were 49 follow-ups still in the process of completion, including 3 pending follow-ups from 2020, 13 pending follow-ups from 2021, and 33 pending follow-ups from 2022.

Based on the results of the review and evaluation of the Whistleblowing System (WBS) reports, during 2022 there were 178 reports submitted through the WBS, consisting of 43 reports outside the scope of the WBS and 135 reports within the scope of the WBS. Of the 135 reports, 54 reports were not proven to be true/insufficient evidence, 53 follow-up reports are still in the process of completion, and 28 reports have been proven. Of the proven reports, there were 4 proven reports related to unethical behavior, 8 proven reports related to fraud, 13 proven reports related to violations of regulations/laws, and 3 proven reports related to conflicts of interest.

To further optimize the functions of IAD, the Audit Committee has recommended implementing Risk Based Audits as the audit method and approach used by IAD in conducting audits.

Compliance Director

Based on the results of the Audit Committee's review of the Compliance Report on Banking provisions and other relevant legislation, the results are submitted in the form of a Compliance Director's Duties Implementation Report. During 2022, the Company routinely submitted these reports to OJK in accordance with OJK Regulation No. 46/POJK.03/2017 concerning Implementation of Compliance Function for Commercial Banks. In addition to this, the Audit Committee also conducted reviews and discussions on the Compliance Division work plan, employee case processes, implementation of the Whistleblowing System (WBS), and the implementation of the Anti-Fraud Strategy Program.

In this case, the work plan from the Compliance Division is carried out to encourage the effectiveness of the synergy between the Compliance Division and Internal Audit in carrying out the supervisory function, especially the Company's compliance with applicable regulations.

The results of the examination and evaluation of the process of resolving employee cases in 2022 showed there were 158 (one hundred and fifty eight) cases. Consisting of 122 (one hundred and twenty two) cases that were processed, with 36 (thirty six) cases still in the process of being resolved.

For cases processed, employees who were proven to have committed violations and/or fraud, were followed up by imposing administrative sanctions in the form of:

- Termination of Employment (PHK) for 84 (eighty four) employees;
- Demotion for 23 (twenty three) employees;
- Letter of Reprimand (STK) for 49 (forty nine) employees;
- Letters of Reprimand (STE) for 118 (one hundred and eighteen) employees; and
- Guidance Letters (SP) for 94 (ninety four) employees.

The Anti-Fraud Strategy for semester II of 2022 was reported to the OJK in January 2023, and the Anti-Fraud Strategy for semester I 2022 was reported to the OJK in July 2022. In 2022 the number of internal frauds that occurred was 81 incidents (3 being significant fraud that was reported incidentally to the OJK), while the number of external outlet frauds was 20 incidents.

Board of Commissioners

The Audit Committee Duties and responsibilities, as well as recommendations, have been periodically reported to the Board of Commissioners, as follows:

1. Review of the proposed KAP appointment and the Audit Committee recommendations to the Board of Commissioners to appoint KAP Tanudiredja, Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers) to audit the BNI Consolidated Financial Statements ending December 31, 2022, and review of the effectiveness of the Public Accounting Firm Audit Services including aspects of independence and objectivity;
2. Review of the Bank's Published Financial Statements;
3. Review of the effectiveness of the Internal Audit function related to the RKAT, audit findings and recommendations including compliance with Internal Control, risk management processes and implementation of corporate governance (GCG);
4. Review of the follow-up effectiveness on the completion of the findings of the Internal Auditors and External Auditors (OJK, BPK, PPATK);
5. Review of the monthly performance report of the Company, the proposed revision of the RBB for the Year 2022-2024, and the proposed RBB for the year 2023-2025 submitted by the Management;
6. Review and providing input on plans to write off loans with a limit of Rp100 billion to Rp200 billion;
7. Review of the Management's proposals requiring the approval of the Board of Commissioners;

8. Prepared the main points of the Audit Committee advice and opinions based on the Audit Committee Meeting results, and recommended to the Board of Commissioners to submit the main points of Audit Committee advice and opinions to the Management for follow-up.

AUDIT COMMITTEE COMPETENCY DEVELOPMENT

In create superior and competitive HC, the Bank organizes competency development programs to support the implementation of supervisory and management duties, especially when providing input to the Board of Commissioners. Information on the Audit Committee competency development activities that they participated in throughout 2022 can be found in the Company Profile chapter in this annual report.

NOMINATION AND REMUNERATION COMMITTEE

The Nomination and Remuneration Committee assists the Board of Commissioners regarding the nomination and remuneration policies at the Board of Commissioners, Board of Directors, Board of Commissioners Committee members' levels, and all Bank employees based on applicable regulations.

BASIS FOR ESTABLISHMENT OF THE NOMINATION AND REMUNERATION COMMITTEE

BNI's Nomination and Remuneration Committee was established in 2002 based on the Board of Commissioners Decree No. Kep/01/DK/2002 dated December 2, 2002 concerning the Establishment of the Nomination and Remuneration Committee. The Nomination and Remuneration Committee was established by the Board of Commissioners and carries out their duties according to the following regulations:

1. OJK Regulation No. 34/POJK.04/2014 dated December 8, 2014 concerning the Nomination and Remuneration Committee of Issuers or Public Companies;
2. OJK Regulation No. 45/POJK.03/2015 dated December 23, 2015 concerning the Implementation of Remuneration Corporate Governance in Commercial Banks;
3. OJK Circular Letter No. 40/ SEOJK.03/2016 dated September 26, 2016 concerning the Implementation of Remuneration Corporate Governance in Commercial Banks;
4. OJK Regulation No. 55/POJK.03/2016 dated December 7, 2016 concerning the Implementation of Corporate Governance in Commercial Banks;
5. OJK Circular Letter No. 13/SEOJK.03/2017 dated March 17, 2017 concerning the Implementation of Corporate Governance in Commercial Banks;
6. Minister of SOEs Regulation No. PER-12/MBU/2012 dated August 24, 2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs as amended several times by:

- a. Minister of SOEs Regulation No. PER-06/MBU/04/2021 dated April 13, 2021 concerning amendment to the Minister of SOEs Regulation No. PER-12/MBU/2012 Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs.
- b. Minister of SOEs Regulation No. PER-14/MBU/10/2021 dated October 29, 2021 concerning the Second Amendment to the Minister of SOEs Regulation No. PER-12/MBU/2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs.

NOMINATION AND REMUNERATION COMMITTEE CHARTER

The Nomination and Remuneration Committee has a Committee Charter that is continuously refined and updated in accordance with the development of prevailing laws and regulations and current conditions. The latest update/improvement of the Nomination and Remuneration Committee Charter was carried out in 2022 as stipulated in the PT Bank Negara Indonesia (Persero) Tbk Board of Commissioners Decree No. KEP/006/DK/2022 dated June 2, 2022 concerning the Nomination and Remuneration Committee Charter.

The Nomination and Remuneration Committee Charter contains:

1. Legal Basis;
2. Nomination and Remuneration Organizational structure and Committee membership;
3. Remuneration and Nomination Committee Membership requirements;
4. Remuneration and Nomination Committee responsibilities;
5. Remuneration and Nomination Committee duties;
6. Remuneration and Nomination Committee authorities, rights and obligations;
7. Remuneration and Nomination Committee Meetings;
8. Remuneration and Nomination Committee members Term of Office.

NOMINATION AND REMUNERATION COMMITTEE STRUCTURE, MEMBERSHIP AND EXPERTISE

The Nomination and Remuneration Committee structure and membership is set forth in the Nomination and Remuneration Committee Charter as follows:

1. The Nomination and Remuneration Committee is established by the Board of Commissioners. The Board of Commissioners may establish a separate Nomination and Remuneration Committee;
2. The Nomination and Remuneration Committee shall act in an independent and responsible manner reporting directly to the Board of Commissioners;
3. Appointment of Nomination and Remuneration Committee members for the Board of Directors is based on a Board of Commissioners' Meeting Decision;
4. The Nomination and Remuneration Committee consists of at least three (3) members, namely 1 (one) Independent Commissioner serving as Chairman,

1 (one) Commissioner and 1 (one) company executive officer in charge of human resources, or those who occupy managerial positions below the Board of Directors in charge of human resources at BNI;

5. Nomination and Remuneration Committee Members, other than those mentioned in point 4 above may come from other Board of Commissioners members and those from outside BNI;

6. In the event that the membership of the Nomination and Remuneration Committee is more than 3 (three) persons, committee members who are Independent Commissioners shall be at least 2 (two) persons;

7. Other Nomination Committee members as referred to in point 5 cannot come from managerial parties under the Board of Directors in charge of human resources;

8. The Nomination and Remuneration Committee Chairman will be an Independent Commissioner at BNI;

9. The Nomination and Remuneration Committee Chairman shall not concurrently serve as chairman in more than 1 (one) other committee, and may only concurrently serve as Committee Chairman in at most 1 (one) other committee in BNI;

10. Nomination and Remuneration Committee Members shall not be allowed from the Board of Directors, either in BNI or other Banks;

11. If deemed necessary, the Committee may appoint a Secretary to the Committee with the assignment, rights, powers and responsibilities established by the Chairman of the Committee.

In 2022, the membership composition of the Nomination and Remuneration Committee changed as follows:

NOMINATION AND REMUNERATION COMMITTEE DUTIES AND RESPONSIBILITIES

To evaluate and compile and provide recommendations to the Board of Commissioners regarding nomination and remuneration systems/policies for Commissioners, Directors, executive officers and employees as a whole, including in this case reviewing and evaluating the company's talent management systems and policies, as well as evaluating the organization development proposed by the Board of Directors.

1. Related to nomination:
 - a. Provides recommendations to the Board of Commissioners on:
 - i) Membership Composition for the Board of Directors and/or members of the Board of Commissioners;
 - ii) Policies and criteria required in the Nomination process; and
 - iii) Performance evaluation policies for Members of the Board of Directors and/or members of the Board of Commissioners.
 - b. Assists the Board of Commissioners to assess the Board of Directors and/or Board of Commissioners members performance based on benchmarks that had been developed as an evaluation;
 - c. Provides recommendations to the Board of Commissioners regarding the capacity building program for Board of Directors and/or Board of Commissioners members;
 - d. Provides proposals/recommendations for candidates who qualify as Board of Directors and/or Board of Commissioners members to the Board of Commissioners to be submitted to the General Meeting of Shareholders;
 - e. Develops and provides recommendations to the Board of Commissioners regarding the systems and procedures for replacement of Board of Commissioners and/or Board of Directors members to the Board of Commissioners to be submitted to the General Meeting of Shareholders;
 - f. Prepares and provides recommendations to the Board of Commissioners regarding the process of managing and implementing talent development for the executives of State Owned Enterprises (Directors and one level below the Board of Directors);
 - g. Provides recommendations to the Board of Commissioners on Independent parties who will become members of the Audit Committee and the Risk Monitoring Committee.

2. Related to remuneration
 - a. Evaluates remuneration system/policy based on performance, risk, fairness against peer groups, target, and long term Bank strategy, fulfillment of reserves as regulated in rules and regulations and future potential of Bank earnings.
 - b. Develops and provides recommendations to the Board of Commissioners regarding:
 - i) Remuneration structure;
 - ii) Remuneration policy; and
 - iii) Amount of remuneration.
 - iv) Structure, policy and amount of remuneration for the Board of Commissioners and the Board of Directors mentioned above to be evaluated by the Nomination and Remuneration Committee at least once a year.
 - c. Deliver evaluation results and provide recommendations to the Board of Commissioners on:
 - i) Remuneration policy for the Board of Directors and the Board of Commissioners to be submitted to the General Meeting of Shareholders;
 - ii) Remuneration policy for executive officers and employees overall to be submitted to the Board of Directors.
 - d. Ensure the remuneration policy is in accordance with prevailing regulations.
 - e. Conduct regular evaluations of the Implementation of remuneration policies.
 - f. Assist the Board of Commissioners in conducting performance appraisals in accordance with the remuneration received by each of the Board of Directors and/or the Board of Commissioners members.
3. Related to Talent Management
 - a. Evaluate the Talent Classification systems and procedures carried out by the Board of Directors;
 - b. Conduct regular reviews of the Company's Talent Management System and monitor and evaluate its implementation;
 - c. Validate and calibrate the Talent proposed by the Board of Directors to the Board of Commissioners/Supervisory Board (Selected Talent), to produce a list of Talent to be nominated by the Board of Commissioners/Supervisory Board to the GMS/Minister (Nominated Talent).

4. Carry out other duties assigned by the Board of Commissioners related to the nomination and remuneration functions.
5. The procedure for carrying out the Nomination and Remuneration Committee duties and functions is carried out in accordance with the OJK Regulations that regulates the Nomination and Remuneration Committee for Commercial Banks, the OJK Regulations that regulates the Nomination and Remuneration Committee of Issuers or Public Companies and the OJK Regulations that regulates the implementation of corporate governance. management in the provision of remuneration for commercial banks.

NOMINATION AND REMUNERATION COMMITTEE AUTHORITIES, RIGHTS, AND OBLIGATIONS

1. Based on a written assignment from the Board of Commissioners, Nomination and Remuneration Committee may access the records or information about employees, funds, assets, and other resources owned by the company relating to the performance of its duties. The Committee shall report in writing the results of the assignment to the Board of Commissioners;
2. To carry out its duties, the Nomination and Remuneration Committee shall cooperate with the Human Capital Division and other relevant Divisions;
3. The Nomination and Remuneration Committee, with the approval of the Board of Commissioners, reserves the right to appoint a third party (person or entity) to assist their duties;
4. The Nomination and Remuneration Committee Members shall perform their duties properly and maintain the confidentiality of all documents, data and company information from both internal and external parties and use them only for the benefit of the Committee's duties;
5. The Nomination and Remuneration Committee, related to the remuneration policy, shall take into account at least:
 - a. Financial performance and fulfillment of reserves as regulated in applicable legislation;
 - b. Individual work performance;
 - c. Appropriateness with peer groups; and
 - d. Consideration of the Bank's long-term targets and strategies.
6. Before the end of the current fiscal year, the Nomination and Remuneration Committee shall prepare and submit work plan and annual budget to the Board of Commissioners to be set, with a copy delivered by the Board of Commissioners to the Board of Directors. The implementation of Nomination and Remuneration Committee work plan and annual budget will be reported to the Board of Commissioners;

7. The Nomination and Remuneration Committee shall prepare and submit reports on their tasks, responsibilities and procedures to the Board of Commissioners.

NOMINATION AND REMUNERATION COMMITTEE MEETINGS

1. Nomination and Remuneration Committee meetings shall be held in accordance with the needs of the Company, at least four (4) times a year;
2. Nomination and Remuneration Committee meetings may only be held if attended by a majority of members, with the majority there being the Chairman and 1 (one) Executive Officer in charge of Human Resources, or the party occupying a managerial position under the Board of Directors in charge of Human Capital;
3. The meetings shall be chaired by the Chairman, and if they are unable to attend the meeting, it shall be chaired by a senior committee member appointed/agreed upon in the meeting;
4. Decision making in the meetings shall be conducted based on consensus agreement. In the absence of consensus, decisions shall be made on the basis of a majority vote with the principle of 1 (one) person 1 (one) vote;
5. If the result of voting is a tie, then the decision shall be made on the basis of a majority vote with the principle of 1 (one) person 1 (one) vote, excluding the votes from the Executive Officer of Human Capital, or the party occupying a managerial position under the Board of Directors in charge of Human Capital;
6. The results of meetings will be recorded in the meeting minutes and signed by all members of the Committee and properly documented;
7. Any dissenting opinions that occurred in the meeting shall be clearly detailed in the meeting minutes;
8. The meeting minutes, as referred to in item 6 above, shall be submitted in writing by the Nomination and Remuneration Committee to the Board of Commissioners;
9. Members attendance at meetings will be reported in a quarterly report and the annual report of the Nomination and Remuneration Committee.

BRIEF REPORT ON THE NOMINATION AND REMUNERATION COMMITTEE ACTIVITIES IN 2022

During 2022, the Nomination and Remuneration Committee (KNR) Committee carried out all programs/ Work Plans set at the beginning of 2022 in order to assist the implementation of the duties of the Board of Commissioners. The mechanism of implementing KNR activities/tasks is carried out through:

- Implementation of the KNR Meeting;
- Studies/evaluations/reviews outside the meeting forum.

The results of the KNR Meeting and monitoring, reviews/evaluations of the KNR were submitted to the Board of Commissioners as reports and recommendations both in writing and in the Board of Commissioners' Meeting forum.

The implementation of KNR activities in general covered the following matters:

- Implementation of nomination tasks
 - Conducting a review of prospective BNI management from internal BNI parties as well as providing suggestions/recommendations regarding prospective BNI administrators who meet the requirements to be proposed at the BNI GMS through Series A Dwiwarna Shareholders;
 - Reviewing the completeness of requirements for prospective BNI management for the purpose of submitting a fit and proper test to OJK as candidates for BNI management;
 - Conducting a review of the candidates for the management of BNI's subsidiary companies who must obtain approval from the Board of Commissioners and who will be proposed to the Series A Dwiwarna Shareholders (Ministry of SOEs);
 - Making recommendations regarding the Capability Development Program for members of the Board of Directors and the Board of Commissioners;
 - Preparing recommendations on the Nomination System for Members of the Board of Directors and Board of Commissioners;
 - Conducting performance appraisal for members of the Board of Directors and members of the Board of Commissioners, followed up by submitting input from the Board of Commissioners to each individual member of the Board of Directors through the President Director. The Board of Commissioners' input letters covered performance improvement as well as input for competency improvement for each individual member of the Board of Directors;
 - Reviewing the HC management nomination system as a whole;
 - Conducting discussions with the Board of Directors regarding
 - Human Capital policies and problems encountered related to Human Capital
 - Human Capital policy improvement plans, which were followed up with a letter from the Board of Commissioners with directives for the Human Capital policies
 - Human Capital policy proposals
 - Progress of completeness of Human Capital policies
 - Evaluating the HC development in accordance with the Corporate Plan;
 - Evaluating the transfer, promotion and employee sanctions system;
 - Evaluating the Talent Management System;
 - Evaluating the Board of Directors' recommendation regarding the Company's organization structure.

2. Implementation of remuneration duties
 - a. Evaluating the remuneration system/policy for members of the Board of Directors and Board of Commissioners, executive officers and employees as a whole;
 - b. Reviewing the Board of Directors and Board of Commissioners remuneration for 2021 and tantiem for 2020;
 - c. Evaluating and making recommendations regarding the remuneration structure, remuneration policy and amount of remuneration for members of the Board of Directors and Board of Commissioners to be submitted to the GMS through the Series A Dwiwarna Shareholders, including a review of the proposed remuneration for the Board of Directors related to the allocation of Long Term Incentives;
 - d. Ensuring the employee remuneration policy is in accordance with applicable regulations by conducting periodic evaluations of the implementation of the employee remuneration policy.
3. Other Duties
 - a. Conducted 2 (two) working visits by the Chairman and Members of KNR, as well as Members of the Non-Commissioner Committee at the BNI Corporate University Division to Slipi, and a visit to the Human Capital Strategy Division at Graha BNI. During the two visits, discussions were held regarding the organization, strategies and work programs for the Division, including the problems faced and concerns for building a superior organization.

NOMINATION AND REMUNERATION COMMITTEE OBLIGATIONS RELATED TO THE BOARD OF DIRECTORS SUCCESSION POLICY

BNI has developed a Board of Directors succession policy program, aligned with Minister of SOEs Regulation No. PER-11/MBU/07/2021 dated August 24, 2021 concerning Requirements, Procedures for Appointment and Dismissal of Members of the Board of Directors of SOEs, as amended by Minister of SOEs Regulation No. PER-7/MBU/09/2022 dated September 20, 2022. This program included criteria, namely potential employees to be included in the Talent Pool will have the opportunity to attend training programs or activities related to management, business strategy, strategic planning, risk analysis and business potential, operational and financial performance analysis and other similar programs.

Through this program, if the Bank requires leadership replacements, BNI will propose internal candidates from the program participants, facilitated by the Board of Commissioners, after considering recommendations from the Nomination and Remuneration Committee. Furthermore, the results of the internal candidates selection will be submitted to the Ministry of SOEs to undergo a fit and proper test.

NOMINATION AND REMUNERATION COMMITTEE MEMBERS COMPETENCY DEVELOPMENT

To create superior and competitive HC, the Bank organizes competency development programs to support the supervisory and management duties, especially for when providing input to the Board of Commissioners. Information on the competency development activities that the Nomination and Remuneration Committee participated in throughout 2022 can be seen in the Company Profile chapter in this annual report.

RISK MONITORING COMMITTEE

The Risk Monitoring Committee was established by the Board of Commissioners to support the effective implementation of the Board of Commissioners duties and responsibilities, related to risk management in the Bank and the application of the principles of Good Corporate Governance.

BASIS FOR THE ESTABLISHMENT OF THE RISK MONITORING COMMITTEE

BNI's Risk Monitoring Committee was established in 2004 based on the Board of Commissioners Decree No. Kep/002/DK/2004 dated March 1, 2004 concerning Establishment of the Risk and Compliance Committee. BNI established the Risk Monitoring Committee to carry out the following duties in accordance with laws and regulations:

1. OJK Regulation No. 55/POJK.03/2016 dated December 7, 2016 concerning Good Corporate Governance for Commercial Banks;
2. OJK Circular No. 13/SEOJK.03/2017 dated March 17, 2017 concerning Governance Implementation for Commercial Banks;
3. Minister of SOEs Regulation No. PER-12/MBU/2012 dated August 24, 2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs, as amended several times, most recently by Minister of SOEs Regulation No. PER-14/MBU/04/2021 dated April 13, 2021;
4. Regulations of Bank Indonesia and the Financial Services Authority governing the Implementation of Risk Management for Commercial Banks and the Application of Integrated Risk Management for Financial Conglomerates;
5. OJK Regulations governing Risk Management for Commercial Banks and Integrated Risk Management for Financial Conglomerates;
6. PT Bank Negara Indonesia (Persero) Tbk. Articles of Association.

RISK MONITORING COMMITTEE CHARTER

The Risk Monitoring Committee has a Risk Monitoring Committee Charter, which is continuously refined and updated in accordance with developments/changes in prevailing laws and regulations as well as current conditions. The last update/improvement of the BNI Risk Monitoring Committee Charter was carried out in 2022, which was stipulated in the Board of Commissioners Decree No. KEP/007/DK/2022 dated June 02, 2022 concerning the "Risk Monitoring Committee Charter".

The Risk Monitoring Committee Charter includes:

1. Basis for establishing and carrying out the duties of the Risk Monitoring Committee;
2. The Risk Monitoring Committee purpose and objectives;
3. Risk Monitoring Committee Structure and membership;
4. Risk Monitoring Committee membership requirements;
5. Risk Monitoring Committee Duties;
6. Risk Monitoring Committee Authorities;
7. Risk Monitoring Committee Rights and obligations;
8. Risk Monitoring Committee Meetings;
9. Risk Monitoring Committee members Term of office.

RISK MONITORING COMMITTEE STRUCTURE AND MEMBERSHIP

1. The Risk Monitoring Committee was established based on the Board of Commissioners meeting decision and in a Board of Commissioners Decree;
2. The Risk Monitoring Committee is under the coordination of the Board of Commissioners and is directly responsible to the Board of Commissioners;
3. Appointment of the Risk Monitoring Committee members is carried out by the Board of Directors based on the Board of Commissioners meeting decision;
4. The Risk Monitoring Committee Membership shall be at least:
 - a. 1 (one) Independent Commissioner who concurrently serves as chairman;
 - b. 1 (one) person from an independent party who has expertise in risk management;
 - c. 1 (one) person from an independent party who has expertise in finance.
5. Independent commissioners and independent parties who are members of the Risk Monitoring Committee shall make up at least 51% (fifty one percent) of the total members of the Risk Monitoring Committee;
6. The Risk Monitoring Committee Chairman is an Independent Commissioner concurrently serving as a member as stipulated in the Board of Commissioners meeting decision, and determined in a Board of Commissioners Decree;

7. The Risk Monitoring Committee Chairman can only hold concurrent positions as Chair of the Committee in at most 1 (one) other Committee at BNI;
8. Former members of BNI Board of Directors and former executive officers or parties with links to BNI that may influence their ability to act independently, who may become an independent member of Risk Monitoring Committee, shall be subject to a 6 (six) month long cooling off period. The cooling off provision shall not apply to former members of the Board of Directors and former BNI executive officer whose duties are only to perform supervisory function for at least 6 (six) months. The term "cooling off" refers to the cooling off period as stipulated in OJK Regulations and Circular on the Implementation of Governance for Commercial Banks;
9. Members of the Risk Monitoring Committee who come from independent parties are not allowed to have concurrent positions as:
 - a. Member of the Board of Commissioners/Supervisory Board at SOEs/other companies;
 - b. Secretary/Secretariat staff to the Board of Commissioners/Supervisory Board in SOEs/other companies.
10. The Board of Directors shall appoint and dismiss independent parties members of the Risk Monitoring Committee based on a Board of Commissioners' meetings decision and a Board of Commissioners' Decree;
11. The Risk Monitoring Committee Chairman shall have the right to propose a replacement for members of the Risk Monitoring Committee to the Board of Commissioners if one of the members of the Risk Monitoring Committee ends their term of office, resigns or is dismissed;
12. Risk Monitoring Committee Members are prohibited from being members of the Board of Directors of BNI or other banks;
13. The Risk Monitoring Committee shall work collectively when performing its duties to assist the Board of Commissioners;
14. The Risk Monitoring Committee is independent both in performing its duties and in reporting, and is directly responsible to the Board of Commissioners; and
15. In performing the Committee's daily tasks, staff from outside BNI or the Committee secretary can assist it. The Committee staff or Secretary is appointed based on a Board of Commissioners Meeting decision and is determined in the Board of Commissioners Decree.

RISK MONITORING COMMITTEE DUTIES

The Risk Monitoring Committee duties include the following:

- Evaluating the suitability of risk management policies and the implementation of Bank policies, which include:
 - Evaluating the conformity between the Bank's risk management policies and the implementation of these policies, which consist of credit risk, market risk, liquidity risk, operational risk, strategic risk, legal risk, compliance risk and reputation risk;
 - Evaluating the conformity between the integrated risk management policies with the implementation of these policies, consisting of the 8 (eight) risks in point 1.a above, as well as insurance risk and intra-group transaction risk;
 - Providing recommendations to the Board of Commissioners on the suitability of risk management and integrated risk management policies to ensure that BNI manages risks adequately; and
 - Reviewing and providing opinions to the Board of Commissioners on the General Credit Policy and other policies required by regulators, and submitted by the Board of Directors for approval by the Board of Commissioners.
- Monitoring and evaluating the implementation of the Risk Management Committee and risk management work unit duties, in order to provide recommendations to the Board of Commissioners, including:
 - Monitoring the implementation of the Risk Management Work Unit work plans and the Risk Management Committee duties;

- Monitoring the implementation of the Integrated Risk Management Work Unit work plans and the Integrated Risk Management Committee duties;
 - Providing recommendations to the Board of Commissioners to enhance the effectiveness of risk management at BNI, including the implementation of integrated risk management in the Subsidiaries; and
 - Providing evaluation results on risk-related regulator assessments to the Board of Commissioners.
- Carrying out certain other tasks related to the Risk Oversight Committee function and scope of duties as assigned by the Board of Commissioners.

MONITORING COMMITTEE AUTHORITIES

- Based on written assignments from the Board of Commissioners, the Risk Monitoring Committee can access records or information about employees, funds, assets and other resources owned by BNI relevant to the performance of its duties. The Committee shall report in writing the results of the assignments to the Board of Commissioners;
- Risk Monitoring Committee is authorized to conduct testing and perform inspections of BNI branches/representatives/regions and business units, if necessary;
- Members of the Risk Monitoring Committee are authorized to communicate directly with parties related to the Risk Monitoring Committee duties, including communicating matters related to financial and management information; and

- In carrying out its duties the Risk Monitoring Committee may cooperate with the Risk Management Committee, Integrated Risk Management Committee, Risk Management Work Unit and other relevant work units.

RISK MONITORING COMMITTEE RIGHTS AND OBLIGATIONS

- Members of the Risk Monitoring Committee must carry out their duties properly in accordance with the Risk Monitoring Committee Charter;
- Members of the Risk Monitoring Committee from independent parties have the right to receive an honorarium from BNI, the amount of which is determined by the Board of Commissioners based on the prevailing laws and regulations;
- Members of the Risk Monitoring Committee must maintain the confidentiality of all documents, data, information and everything related to the implementation of the Risk Monitoring Committee duties;
- Before the current fiscal year, the Risk Monitoring Committee must prepare and submit an Annual Work Plan and Budget to the Board of Commissioners for determination, with copies submitted by the Board of Commissioners to the Board of Directors for information. Implementation of the Risk Monitoring Committee Annual Work Plan and Budget is reported to the Board of Commissioners;
- Members of the Risk Monitoring Committee must prepare and submit a report to the Board of Commissioners, signed by the Committee Chair and Committee Members as follows:
 - Reports on each duty implementation accompanied by recommendations if necessary;
 - Quarterly reports and annual reports.
- Every year, the Committee through the Board of Commissioners reports to the General Meeting of Shareholders on their responsibilities and achievements as well as other information that needs to be submitted;
- Members of the Risk Monitoring Committee are prohibited from accepting gifts or gifts in kind related to their position;
- Members of the Risk Monitoring Committee must provide sufficient time to carry out their duties and responsibilities optimally;
- Committee members from independent parties must attend the Company's working days and hours under the following conditions:
 - At least 1 (one) day every week according to the day and attendance schedule determined by the Board of Commissioners and/or Committee Chairman, attend the Committee Meetings and carry out other duties according to assigned duties and obligations; as well as;

- If necessary, at the request of the Board of Commissioners and/or Committee Chairman, Committee members from independent parties must attend the Board of Commissioners' Meetings or Committee Meetings, or activities that must be attended by the Board of Commissioners in accordance with the requirements outside the daily or routine attendance schedule.

- In order to avoid overlapping duties among the Committees under the Board of Commissioners and cooperation in the duties' implementation, the Risk Monitoring Committee must coordinate with other Committees under the Board of Commissioners.

RISK MONITORING COMMITTEE MEETINGS

- The Risk Monitoring Committee shall meet at least 1 (one) time in 1 (one) month;
- Risk Monitoring Committee Meetings shall only be conducted if attended by at least 51% (fifty one percent) of the total number of members including an Independent Commissioner and Independent Party members;
- Risk Monitoring Committee meeting shall be led by the Risk Monitoring Committee Chairman or most senior Risk Monitoring Committee Member, if absent;
- If deemed necessary, the Risk Monitoring Committee may invite other parties related to the meeting to attend the Risk Monitoring Committee Meeting;
- Committee meeting decisions shall be made on the basis of consensus;
- In the absence of consensus, decision-making shall be based on majority votes with the principle of 1 (one) person 1 (one) vote;
- Risk Monitoring Committee meetings decisions shall be considered valid if approved by more than (one-half) of the Risk Monitoring Committee members present. The principle of votes for members shall be 1 (one) person 1 (one) vote;
- The Committee meeting results shall be recorded in the meeting minutes signed by all members of the Committee present and documented in accordance with the laws and regulations;
- Any dissenting opinions that occur in committee meetings shall be clearly stated in the meeting minutes together with the reasons for these differences of opinion;
- Minutes of Committee Meetings shall be prepared by the Secretary of the Committee;
- Minutes of Committee Meetings shall be submitted in writing by the Risk Monitoring Committee to the Board of Commissioners;
- Committee Members Attendance in meetings shall be reported in the Committee's quarterly report and annual report.

BRIEF REPORT ON THE RISK MONITORING COMMITTEE ACTIVITIES

To fulfilling its role as a supporting committee for the Board of Commissioners, the Risk Monitoring Committee carried out the work program/plan that was set in early 2022. The mechanism for implementing KPR activities/duties is through:

1. Holding KPR Meetings by inviting related Directors, related divisions/units;
2. Attending the Board of Commissioners meetings and the Board of Commissioners meetings with the Board of Directors where the agenda is related to the KPR duties;
3. Reviews/evaluations outside the meeting forum.

The Risk Monitoring Committee Meeting and monitoring results, reviews/evaluations are submitted to the Board of Commissioners as reports and recommendations both in writing and in the Board of Commissioners meeting forum During 2022, KPR held 36 (thirty six) meetings and made 55 (fifty five) reviews/evaluations. The Risk Monitoring Committee activities included the following:

1. Reviewing and meetings related to BNI Bank Health Level, BNI Risk Profile, Integrated Risk Profile and the duties of the Risk Management Committee and the BNI Integrated Risk Management Committee;
2. Meetings and in-depth reviews on the main issues of Operational Risk, Legal Risk, Compliance Risk, Strategic Risk, Reputation Risk, Credit Risk, Market Risk and Liquidity Risk, Insurance Risk and Intra-group Risk;
3. Duties related to credit:
 - a. Meetings and reviews related to the Development of Loan at Risk (LaR) Handling and loan restructuring at BNI Wide and Regional levels, for the Corporate, Enterprise, Commercial and Small segments (including KUR);
 - b. Meetings and reviews related to loan consultations submitted by the Board of Directors to the Board of Commissioners;
 - c. Meetings and reviews related to Remedial & Recovery Discussion;
 - d. Reviews related to the Troubled Assets Sales Plan by Portfolio;
 - e. Reviews related to the Maximum Lending Limit Report.
4. Reviewing the updated General Policy on Risk Management and General Policy on Integrated Risk Management & Integrated Capital of BNI proposed by the Board of Directors to the Board of Commissioners;
5. Reviewing the BNI 2022/2023 Recovery Plan Document update proposed by the Board of Directors for approval by the Board of Commissioners;
6. Reviewing the BNI 2022 Resolution Plan Document proposed by the Board of Directors for approval by the Board of Commissioners;

7. Reviewing the BNI Bank Business Plan for 2023;
8. Meetings and reviews related to BNI's 2022 Risk Appetite Statement proposed by the Board of Directors for approval by the Board of Commissioners;
9. Reviewing Minister of SOEs Regulation No. PER-5/MBU/09/2022 concerning Risk Management in SOEs;
10. Reviewing BUMN KEPMEN draft concerning SOE Sustainable Risk Management Guidelines;
11. Reviewing BNI Anti-Bribery Management System (SMAP) Policy;
12. Reviewing the Risk Monitoring Committee Charter.

RISK MONITORING COMMITTEE MEMBERS COMPETENCY DEVELOPMENT

To create superior and competitive human resources, the Bank organizes competency development programs to support the supervisory and management duties, especially in providing input to the Board of Commissioners. Information concerning competency development activities participated in by the Risk Oversight Committee throughout 2022 can be found in the Company Profile chapter in this annual report.

INTEGRATED GOVERNANCE COMMITTEE

To assist in the supervisory duties of the Board of Commissioners, the Company has an Integrated Governance Committee that was formed by referring to and based on the prevailing laws and regulations, in particular to OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning Integrated Governance for Financial Conglomerates, and OJK Circular Letter No. 15/SEOJK.03/2015 dated May 25, 2015 concerning Integrated Governance for Financial Conglomerates.

BASIS FOR ESTABLISHING AN INTEGRATED GOVERNANCE COMMITTEE

The Integrated Governance Committee was established based on the PT Bank Negara Indonesia (Persero) Tbk Board of Commissioners Decree No. KEP/006/DK/2015 dated June 22, 2015 concerning Establishment of the Integrated Governance Committee. The Integrated Governance Committee shall be independent both in carrying out its duties and in reporting, and is directly responsible to the Main Entity's Board of Commissioners. BNI established the Integrated Governance Committee that performs its duties in accordance with laws and regulations, including:

1. OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning Integrated Governance for Financial Conglomerates;
2. OJK Circular No. 15/SEOJK.03/2015 dated May 25, 2015 concerning Integrated Governance for Financial Conglomerates.
3. OJK Regulation No. 45/POJK.03/2020 dated October 16, 2020 concerning Financial Conglomerates;

4. Minister of SOEs Regulation No. PER-5/MBU/09/2022 dated August 1, 2022 concerning Risk Management in SOEs;
5. Minister of SOEs Regulation No. PER-12/MBU/2012 dated August 24, 2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs, as amended by Minister of SOEs Regulation No. PER-06/MBU/04/2021 dated April 13, 2021 and Minister of SOEs Regulation No. PER-14/MBU/10/2021 dated October 29, 2021.

INTEGRATED GOVERNANCE COMMITTEE CHARTER

In carrying out its duties and responsibilities, the Integrated Governance Committee is guided by the Integrated Governance Committee Charter that is continuously refined and updated in accordance with developments/changes in applicable legal regulations and current conditions. The most recent renewal/refinement of the BNI Integrated Governance Committee Charter was carried out in 2022, as stipulated in the Board of Commissioners Decree No. KEP/005/DK/2022 dated June 01, 2022 concerning the Integrated Governance Committee Charter. The Integrated Governance Committee Charter has also been published on the BNI official website, and contains a the legal basis; definitions; committee formation and structure; committee member requirements; committee membership; committee duties, responsibilities and authorities; appointment, dismissal and term of office of committee members; committee meetings, and reporting.

INTEGRATED GOVERNANCE COMMITTEE MEMBER REQUIREMENTS

1. General Requirements
 - a. Have good integrity, character and morals and sufficient work experience related to committee duties;
 - b. Has no personal interests/relationships that may cause negative impacts and conflicts of interest to the Financial Services Institutions in the BNI Financial Conglomerate.
2. Competency Requirements
 - a. Have adequate educational background, ability, knowledge and experience in banking or other financial service institutions;
 - b. Able to work together, have good and effective communication skills, and can provide sufficient time to carry out their duties;
 - c. Have sufficient knowledge and understanding of the principles and processes of Good Corporate Governance in general, laws and regulations in the banking sector, and other financial service institutions, especially related to the operational activities of banking and other financial service institutions.

3. Independence Requirements
Members of the Integrated Governance Committee as independent parties:
 - a. Is a party outside of BNI who has no financial, management, share ownership and/or familial relationships with the Board of Commissioners, Supervisory Board, Board of Directors and/or Controlling Shareholders of the Financial Services Institutions in the BNI Financial Conglomerate, or relationships with Financial Services Institutions in the BNI Financial Conglomerate that may affect their ability to act independently. The financial relationship, management, share ownership and/or familial relationship shall be in accordance with the definitions stipulated by the prevailing laws and regulations;
 - b. Has no direct or indirect business relationship related to the business activities of Financial Services Institutions within the BNI Financial Conglomerate.

INTEGRATED GOVERNANCE COMMITTEE MEMBERSHIP

1. The Integrated Governance Committee consists of at least:
 - a. An Independent Commissioner who is the Chair of one of the committees in the Main Entity, and concurrently serves as a member;
 - b. An Independent Commissioner who represents and is appointed by each Financial Services Institution in the BNI Financial Conglomerate, as a member;
 - c. An independent party who serves as member. An independent party may come from an independent party Committee member in the Main Entity; and
 - d. Members of the Sharia Supervisory Board of the Financial Services Institutions that carry out business activities based on Sharia principles in the BNI Financial Conglomerate as members, whose numbers are adjusted to the needs of BNI Financial Conglomerate as well as the efficiency and effectiveness of the Integrated Governance.
2. The number and composition of Independent Commissioners who are members of the Integrated Governance Committee as referred to in point 1 letter b above, are adjusted to the needs of the BNI Financial Conglomerate and the efficiency and effectiveness of carrying out the duties of the Integrated Governance Committee by taking into account the minimum representation of each financial services sector;
3. The membership of Independent Commissioners in the Integrated Governance Committee, referred to in point 1 letter b above, can be in the form of permanent and non-permanent members, in accordance with the needs of the BNI Financial Conglomerate, where if necessary the Main Entity can add a non-permanent member as an Independent Commissioner who is not yet a member of Integrated Governance Committee; and

4. Membership of Independent Commissioners, Independent parties and members of the Sharia Supervisory Board as referred to in point 1 above, in the Integrated Governance Committee in the BNI Financial Conglomerate are not considered as concurrent positions.

INTEGRATED GOVERNANCE COMMITTEE DUTIES, RESPONSIBILITIES, AND AUTHORITIES

The Integrated Governance Committee's duties and responsibilities include:

- Evaluating Integrated Governance implementation at least through assessment of adequacy of internal controls, implementation of integrated compliance functions and implementation of Integrated Governance Guidelines. When conducting the evaluations, the Integrated Governance Committee obtains information from evaluations of internal audit and compliance functions in each Financial Services Institute for members of Board of Commissioners of each Financial Services Institution who are members in the Integrated Governance Committee;
- Providing recommendations to the Main Entity Board of Commissioners regarding the Integrated Governance and improvement evaluations of Integrated Governance Guidelines;
- Carrying out the duties of the Main Entity's Board of Commissioners to review and evaluate material related to the duties of the Integrated Governance Committee and/or other duties as determined by the Main Entity's Board of Commissioners;
- Evaluating the suitability of the Integrated Governance Policy against the implementation of these policies and provide recommendations to the Board of Commissioners of the Main Entity for the Integrated Governance policies and their implementation to ensure that Integrated Governance management has been carried out adequately;
- Prior to the current fiscal year, the Integrated Governance Committee must prepare and submit an Annual Work Plan and Budget to the Main Entity's Board of Commissioners for approval, a copy is submitted by the Main Entity's Board of Commissioners to the Main Entity's Board of Directors for information purposes. The implementation of the Integrated Governance Committee's Annual Work Plan and Budget is reported to the Main Entity's Board of Commissioners; and
- Members of the Integrated Governance Committee are required to carry out their duties properly and maintain the confidentiality of all documents, data, information, and everything related to the implementation of the Integrated Governance Committee's Duties and can only used for the benefit of carrying out their duties.

The Integrated Governance Committee also has the following powers:

- The Integrated Governance Committee may request an explanation or the necessary information about employees, funds, assets, and other resources related to the performance of its duties to the Institute of Financial Services in the BNI Financial Conglomerate, with due regard to the prevailing regulations. The Committee shall report in writing the result of the assignment to the Board of Commissioners;
- Members of the Integrated Governance Committee are authorized to communicate directly with parties related to the Integrated Governance Committee duties;
- To carry out its duties the Integrated Governance Committee can cooperate or coordinate with Committees under the Board of Commissioners of other Main Entities, as well as relevant divisions/units/work units in the Main Entity or other Financial Services Institutions within the BNI Financial Conglomerate.

APPOINTMENT, DISMISSAL, AND TERM OF SERVICE OF INTEGRATED GOVERNANCE COMMITTEE MEMBERS

- The Integrated Governance Committee Chairperson and members are appointed and dismissed by the Main Entity Board of Commissioners;
- Members of the Integrated Governance Committee can be members of the Main Entity Board of Commissioners, or the Board of Commissioners and Supervisory Board of the Financial Services Institutions:
 - he term of office shall be equal to the term of appointment as a member of the Board of Commissioners or Supervisory Board determined by the GMS;
 - Ceases automatically when their term of office as a member of the Board of Commissioners or Supervisory Board ends.
- The term of office for independent party members of the Integrated Governance Committee is for a maximum of 3 (three) years and can be extended once for another 2 (two) years so that the total term of office for independent party members of the Integrated Governance Committee is for a maximum of 5 (five) years without prejudice to the right of the Board of Commissioners of the Main Entity to dismiss the member of the committee concerned at any time;
- The Main Entity Board of Commissioners may dismiss any member of the Integrated Governance Committee if they are deemed to have not performed their duties as members of the committee as set forth in the Appointment Decree of the committee member concerned;

- In the event a member of the Main Entity Board of Commissioners who concurrently serves as Chair of the Integrated Governance Committee ceases to serve as a member of the Main Entity Board of Commissioners, the Committee Chair shall be replaced by another Independent Main Entity member of the Board of Commissioners who is one of the Main Entity's Committee Chairman within 30 (thirty) days at the latest; and
- Dismissal and appointment of Committee members is reported to the GMS.

INTEGRATED GOVERNANCE COMMITTEE MEETINGS

- Integrated Governance Committee shall meet at least 1 (one) time in 1 (one) semester;
- Integrated Governance Committee Meetings shall only be conducted if attended by at least 51% (fifty one percent) of the total number of members;
- Integrated Governance Committee meeting shall be led by the Integrated Governance Committee Chairman or most senior Integrated Governance Committee Member, if absent;
- If deemed necessary, the Integrated Governance Committee may invite other parties related to the meeting to attend Risk Monitoring Committee Meeting;

5. The committee meeting must be attended by Independent Commissioners from the Financial Services Institutions in the BNI Financial Conglomerate who are members of the Integrated Governance Committee. In the event that the independent Commissioner concerned is unable to attend the Integrated Governance Committee meeting, other Commissioners who are not members of the Integrated Governance Committee or officials at the relevant Financial Services Institution may be asked to attend the Integrated Governance Committee meeting by filling in the meeting, but not will not be counted in the attendance quorum and voting to reach a decision at the meeting;
6. Committee meetings decisions shall be made on the basis of consensus;
7. In the absence of consensus, decision-making shall be based on majority votes. Integrated Governance Committee meetings decisions shall be considered valid if approved by more than 1/2 (one-half) of Integrated Governance Committee members present. The principle of votes for members shall be 1 (one) person 1 (one) vote;
8. Committee meetings results shall be recorded in minutes of meeting signed by all members of Committee present and documented in accordance with the laws and regulations;
9. The results of the Committee's meeting shall be stated in the minutes of the meeting signed by all Committee members present and properly documented;
10. Any dissenting opinions that occur in committee meetings shall be clearly detailed in the minutes of meeting along with reasons for dissent;
11. Attendance of Committee Members at meetings shall be reported in the quarterly reports and annual reports of the Committee.

BRIEF REPORT ON THE INTEGRATED GOVERNANCE COMMITTEE ACTIVITIES IN 2022

During 2022, the Integrated Governance Committee has carried out all programs/work plans set at the beginning of 2022, to assist the Board of Commissioners duties, with a strategy for 2022, including:

- Improving the quality of the integrated compliance function by conducting a self-assessment of the compliance culture in each of BNI's Subsidiaries, evaluating the implementation of anti-fraud, Anti-Money Laundering and Prevention of Terrorism Funding strategies, the Whistleblowing System in the BNI financial conglomerate, and evaluating the implementation of the integrated compliance function.
- Improving the quality of integrated internal control by ensuring the quality and number of auditors in Subsidiaries is sufficient, evaluating the effectiveness of the integrated internal control system, and evaluating the results of the Subsidiary's internal audit and follow-ups.

- Improving the quality of integrated risk management by monitoring action plans, improving root causes in integrated risk management, evaluating integrated risk profiles and Quality of Integrated Risk Management (KPMR) implementation, and reviewing the Integrated Risk Management General Policy.
- Maintaining the quality of Integrated Governance by evaluating integrated governance structures, processes and results, reviewing and evaluating Integrated Governance Guidelines, and increasing knowledge of best practices for implementing integrated governance.
- Monitoring the effectiveness of integrated governance results by conducting integrated financial performance evaluations, as well as evaluating the synergy plans between BNI and its Subsidiaries, as well as synergies between the Subsidiaries.

Based on these Integrated Governance Committee strategies and work programs, the mechanism for performing the Integrated Governance Committee activities/duties was by:

- Holding Integrated Governance Committee Meetings, including those by inviting related Directors, related divisions/units;
- Following the Board of Commissioners meetings, and Board of Commissioners meetings with the Board of Directors where the agenda is related to the implementation of the Integrated Governance Committee duties;
- Studys/evaluations outside the meeting forum.

The results of the Integrated Governance Committee meeting and monitoring, review/evaluation/review of the Integrated Governance Committee are submitted to the Board of Commissioners as reports and recommendations both in writing and in the forum of the Board of Commissioners Meetings, and the Integrated Governance Committee also conveys suggestions, opinions and recommendations from the implementation of the Integrated Governance Committee Meeting in writing to the Board of Directors for follow-up. During 2022 the Integrated Governance Committee has held 9 (nine) meetings, by holding discussions and discussing 23 (twenty three) meeting agendas. The implementation of the activities of the Integrated Governance Committee generally includes the following matters:

- Reviewing and discussing the subsidiaries performance and strategy for developing subsidiaries in line with the PT Bank Negara Indonesia (Persero) Tbk vision to become a financial institution that excels in service and performance, including evaluating the December 2021 Integrated Financial Performance Evaluation and Synergy in 2021: Holding Companies and Subsidiaries & their Subsidiaries, as well as discussing the 2022 Subsidiary Strategic & Business plans and

- 2022 Synergy Plans: Holding Companies and Subsidiaries & their Subsidiaries;
- Encouraging and providing suggestions to improve subsidiaries synergy as part of the BNI Group, including synergies in financing cooperation, sharing know your customer information, exploring prospective new products and optimizing business opportunities from PT Bank Negara Indonesia (Persero) Tbk as the holding company;
- Encouraging acceleration and providing advice so that Subsidiaries in the BNI Financial Conglomerate can continue to increase positive contributions that have an impact on the profitability of the BNI Financial Conglomerate, of course accompanied by adequate risk management and internal control, fulfillment of quality human capital, and good governance;
- Discussing and recommending resolutions to Governance problems that occur in Subsidiaries, including improvements to the integrated compliance function by building a compliance culture in each Subsidiary Company;
- Evaluating and providing recommendations to the Board of Commissioners on Integrated Governance including evaluating the adequacy of integrated internal control; evaluation of the integrated compliance function; implementation of integrated risk management; implementation of Integrated Governance Guidelines, and achievement of subsidiaries performance;
- Evaluating and providing recommendations for BNI Financial Conglomerate Integrated Governance Guidelines for the 2022 period;

 - Improving the integrated internal control and integrated audit quality, through evaluation of the self-assessment results for the implementation of the integrated internal control system for a semester period, evaluating the integrated internal audit, and evaluating the PA internal audit results and follow-ups;
 - Improving the Integrated Governance Committee performance effectiveness.

INTEGRATED GOVERNANCE COMMITTEE COMPETENCY DEVELOPMENT

To develop superior and competitive human capital, the Bank organizes competency development programs to support the the supervisory and management duties, especially for when providing input to the Board of Commissioners. Information concerning competency development activities for the Integrated Governance Committee throughout 2022 can be seen in the Company Profile chapter of this annual report.

BOARD OF DIRECTORS

Supporting Organs

CORPORATE SECRETARY

The Company was established based on an agreement, to conduct business activities using authorized capital divided into shares, and to fulfill the requirements stipulated in the laws and its regulations. Therefore, the Company also needs to manage its capital properly based on good corporate governance mechanisms. By implementing such governance a positive impact on the Company's business sustainability can be realized, so as to increase the trust of shareholders and other stakeholders.

As a legal entity, the Company has 3 (three) organs to run the company, namely the General Meeting of Shareholders, the Board of Commissioners and the Board of Directors. The Board of Directors must ensure smooth communication between the Company and stakeholders, one way by empowering the function of the Corporate Secretary. With the economic development, especially in the Capital Market sector, the role of the Corporate Secretary becomes increasingly important, not only in relation to administrative and communication functions, but also to ensure the company's compliance with laws and regulations, and corporate governance implementation improvement. The Corporate Secretary is also expected to continuously update information on regulations that must be complied with by the Company, and provide important information to the Board of Directors and the Board of Commissioners for decision making.

The Corporate Secretary is required to have qualifications in accordance with their duties and responsibilities, as well as to increase their knowledge and ability to support them in carrying out their duties. The Corporate Secretary provides a positive value in assisting the management of Issuers or Public Companies, so as to increase the trust of shareholders, as well as other stakeholders.

The Corporate Secretary is an individual or person in charge of a work unit that carries out the functions of the Corporate Secretary. The Corporate Secretary is appointed and dismissed based on a Board of Directors decision. Based on the Company's Articles of Association, the Board of Commissioners is authorized to approve the appointment and dismissal of the Corporate Secretary. The Corporate Secretary is prohibited from holding concurrent positions in other Issuers or Public Companies.

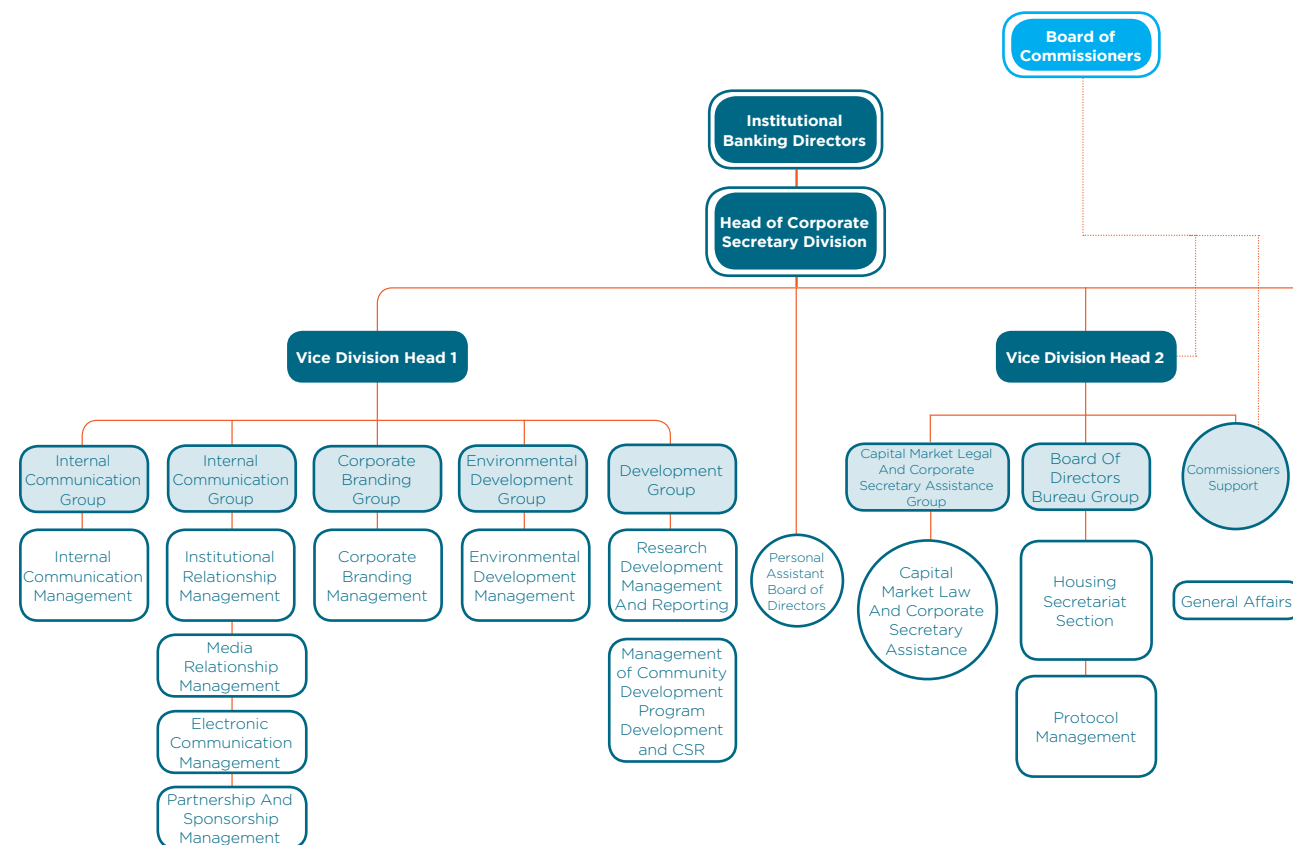

LEGAL BASIS

Regulations and laws that serve as a reference in the establishment, appointment and duties of the Corporate Secretary, include:

1. BNI's Articles of Association;
2. OJK Regulation No. 35/POJK.04/2014 concerning the Corporate Secretary of Issuers or Public Companies;
3. PT Bursa Efek Indonesia's Board of Directors Decree No. Kep-00001/BEI/01-2014 concerning Amendments to Law No. I-A: concerning Registration of Shares and Equity In addition to Shares Issued by a Listed Company;
4. Ministry of SOEs Regulation No. PER-01/MBU/2011 concerning Implementation of Good Corporate Governance (GCG) in SOEs, as amended by PER- 09/MBU/2012;
5. 2003 Law No. 19 concerning State-Owned Enterprises;
6. Ministry of SOEs Regulation No. KEP117/M-MBU/2002 dated July 31, 2002;
7. BEJ's Board of Directors Decision No. 339/BEJ/07-2001 dated July 20, 2001 concerning Amendment to Provision letter C.2.e Listing Rule Number I-A: concerning General Provision on the Registration of Equity Securities Exchange;
8. Bapepam Chairman Decree No. IX.I.4 No. Kep 63/PM/1996 dated January 17, 1996.

CORPORATE SECRETARY ORGANIZATIONAL STRUCTURE

The BNI Corporate Secretary function is carried out by the Head of the Corporate Secretary Division. Based on Board of Directors Decree No. KP/395/DIR/R dated September 30, 2022 and Memo REN No. REN/2/160/R dated July 06, 2021, with the Corporate Secretary organization structure as follows:

CORPORATE SECRETARY DUTIES AND RESPONSIBILITIES

BNI's Corporate Secretary shall be directly responsible to the President Director with a mission to support the creation of a consistent and continuous good corporate image through an effective management communication program to all stakeholders. The Corporate Secretary shall have access to relevant Company information and material and control of rules and regulations in the field of capital markets, especially with regard to information disclosure.

Referring to the OJK Regulation No. 35/POJK/2014 concerning Corporate Secretary of Public Companies, the Corporate Secretary functions include:

1. Following developments in the Capital Market, especially the laws and regulations in force in the Capital Market sector;
2. Providing input to the Board of Directors and Board of Commissioners of Issuers or Public Companies to comply with statutory provisions in the Capital Market sector;
3. Assisting the Board of Directors and Board of Commissioners in the corporate governance implementation including:
 - a. information Disclosure to the public, including the availability of information on the Issuer's or Public Company's Website;
 - b. Submitting timely reports to OJK;
 - c. Implementing and documenting the General Meeting of Shareholders;
 - d. Organizing and documenting the Board of Directors and/or the Board of Commissioners Meetings;
 - e. Organizing an orientation program for the Board of Directors and/or the Board of Commissioners.
4. Acting as a liaison between the Issuer or Public Company and the shareholders of the Issuer or Public Company, OJK, and other stakeholders.

In line with the above OJK Regulations and in achieving and implementing the Corporate Secretary's vision and mission in line with BNI's vision and mission, the BNI Corporate Secretary's functions and duties are set out in the Corporate Guidelines for the Corporate Communication and Secretariat Division, including the following:

1. The main functions of the Corporate Secretary for the Company are as follows:
 - a. Following developments in the Capital Market, particularly the regulations that apply in the Capital Market;
 - b. Providing the public with any information needed by investors (investor relations) with respect to the Bank condition;
 - c. Providing the public with all information needed by stakeholders (public relations) related to the Bank condition;
 - d. Providing input to the Board of Directors to comply with the provision of Law No. 8 Year 1995 concerning Capital Markets and its regulations;
 - e. Acting as a contact person between the Bank and OJK and the public.
2. In addition to carrying out these principal functions, the Corporate Secretary also performs the following duties:

- a. Attending Board of Directors Meetings and making minutes of meetings;
- b. Preparing a Special Register related to the Board of Directors, the Board of Commissioners and their families both in the Company and its affiliates including share ownership, business relations and other roles that may give rise to a conflict of interest with the Company;
- c. Preparing a List of Shareholders including those with ownership of 5% (five percent) or more;
- d. Being responsible for the GMS. Preparing materials required with regard to reports/ routines of the Board of Directors to be submitted to external parties. Preparing materials needed on Board of Directors' decisions with regard to the Company's management;
- e. Organizing routine and non-routine meetings for the Board of Directors.

INTERNAL AUDIT

As stated in the SEOJK concerning Internal Control Systems for Commercial Banks, Internal Control is an ongoing monitoring mechanism established by the Bank's Management to support the Bank performance objectives achievement, increase value for stakeholders, minimize potential losses and maintain compliance with applicable laws and regulations. BNI has implemented an effective and efficient Internal Control System by separating functions between the Risk Taking Unit (First Line Roles), Risk Control Units (Second Line Roles) and Risk Assurance Units (Third Line Roles).

Internal Audit (IAD) plays a role as the third line in the Three Lines Model, by monitoring activities and correcting deviations or weaknesses to ensure that risk management, as well as the adequacy and effectiveness of internal control at each line, through audits (Assurance) and Consultations.

The Assurance Function includes the Risk Based Audit based on the risk assessment analysis results, while the consulting function is carried out both formally and informally, and involves independent reviews of the launch of new products or activities (according to OJK regulations) and special assignments requested by management or at the initiative of the IAD.

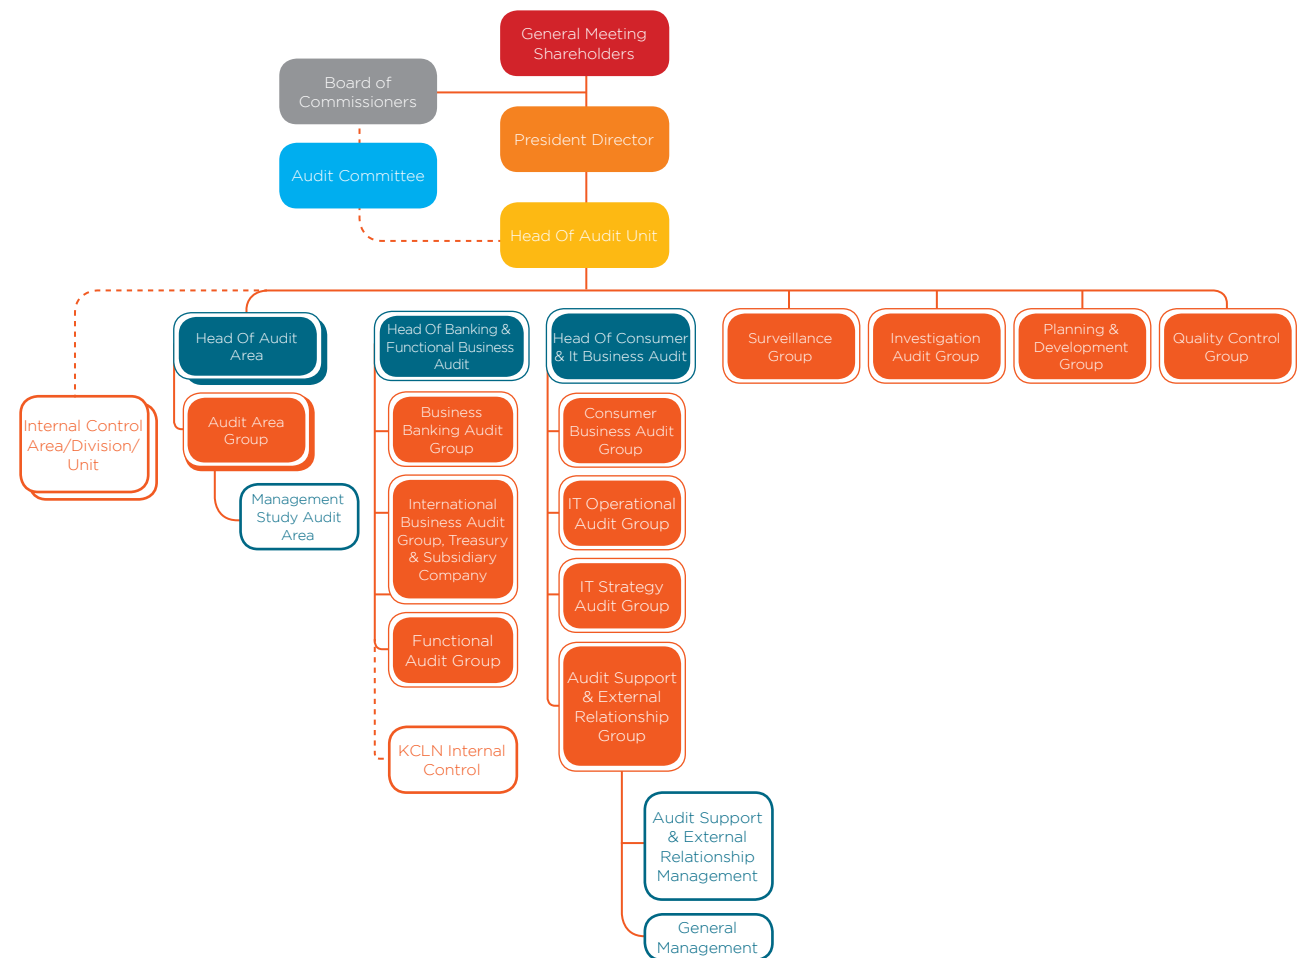

To strengthen the Internal Audit (IAD) function, and to continue to improve audit methodology, and to innovate audit tools so that assurance and consulting is in line with business developments, so as to have a good impact in encouraging improvements in the quality and effectiveness of risk management, as well as the adequacy and effectiveness of internal control, including ensuring the quality of achievement performance.

POSITION OF INTERNAL AUDIT

IAD position in the BNI organization is directly below the President Director, with a direct line of communication (dotted line) to the Board of Commissioners/Audit Committee, as stipulated in the Board of Directors Decree No. KP/395/DIR/R dated September 30, 2022 concerning the Organizational Arrangement of the BNI Board of Directors, and in Board of Directors Decree No. KP/068/DIR/R dated February 18, 2021 concerning Organizational Arrangement of the Internal Audit.

The Head of IAD is appointed and dismissed by the President Director after obtaining approval from the Board of Commissioners after considering the Audit Committee recommendations is reported to the Financial Services Authority (OJK).

Internal Audit Organizational Structure

HEAD OF INTERNAL AUDIT PROFILE

The Internal Audit is led by Anang Basuki, CIA effective from February 16, 2021, with the position of Executive Vice President based on Board of Directors Decree No. KP/057/DIR/R. A brief profile of the Head of Internal Audit is as follows:

Anang Basuki CIA

Head of Internal Audit

Currently 53 years old, has experience in the Banking Industry, in the areas of Internal Audit, Information Technology (IT) Audit, Credit Risk Management and Operational Banking.

Started as an Auditor at BNI in 1996, then in 2011, served as Deputy General Manager of Internal Audit in charge of IT Audit, Strategic Function Audit and Fraud Investigation. Had an important role in the development of the BNI Internal Audit organization starting from long-term planning, Audit System Development and Quality Assurance, so in 2015, was assigned as Chief Audit Executive (CAE) in the Internal Audit. Throughout his career at BNI, in addition to having experience in the Internal Audit field, he gained experience in BNI Business operations, both as a Branch Manager and as a Regional Office Head, and served as Division Leader in several Divisions, namely the Head of the Credit Administration Division (2015-2017) and Head of the BNI Corporate University Division (2017-2021). He has a strong passion for developing Human Capital and was assigned as Chief Learning Officer at BNI Corporate University. With his experience, expertise and insight, in February 2021, he was reassigned as CAE to the BNI Internal Audit.

INTERNAL AUDIT CHARTER

In carrying out its duties, the Internal Audit adheres to the Internal Audit Charter signed by the President Director and the Board of Commissioners and stipulated in the Board of Directors Decree No. KP/139/DIR/R dated April 14, 2021. The Internal Audit Charter was prepared based on OJK Regulation No. 1/POJK.03/2019 concerning the Internal Audit Function in Commercial Banks and the prevailing professional audit standards, and includes the IAD Vision and Mission, the IAD Structure and Position, the IAD Duties and Responsibilities, Authorities, Code of Ethics, Independence and Objectivity, Objectives and Scope of Audit Activities, Auditor Requirements and Development, Audit Risk and Legal Protection to Head and Auditors, Audit Quality Control Program, IAD Integrated Governance Function, and IAD Relations with external auditors.

INTERNAL AUDIT DUTIES AND RESPONSIBILITIES

The implementation of the internal audit function as stipulated in the OJK Regulation concerning the Implementation of the Internal Audit Function in Commercial Banks is the responsibility of the Board of Directors, Board of Commissioners and Audit Committee through Internal Audit, and includes the following duties:

1. Assisting the President Director and the Board of Commissioners in conducting supervision by describing the planning, implementation and monitoring of audit results in operational terms;
2. Examining and assessing the efficiency and effectiveness of finance, accounting, operations, human resources, marketing, information technology and other activities through audits;
3. Identifying all possibilities to improve and increase the efficiency of the use of resources and funds used;
4. Providing recommendations for improvements and objective information on the examination results in the form of an Audit Report and submit the report to the President Director and the Board of Commissioners with copies to the Audit Committee and the Director in charge of the Compliance function;
5. Providing consulting services to BNI internally to add value and improve the quality of control, risk management, and corporate governance as long as it does not affect the independence and objectivity of the IAD, and adequate resources are available;
6. Carrying out follow-up monitoring of audit results as well as periodically submit a Pending Follow-up Report on Audit Results to the President Director and the Board of Commissioners with copies to the Audit Committee, as well as the Director in charge of the Compliance function; and
7. Conducting an in-depth audit at the request of the Board of Directors and/or Commissioners, or as a follow-up to the general audit results of an object or event that is suspected to contain indications of violation and/or fraud if necessary.

In addition, the Head of Internal Audit duties and responsibilities are as follows:

1. Ensuring the internal audit function is in accordance with the Internal Audit Function in Commercial Banks and the Internal Audit Code of Ethics;
2. Allocating audit resources, determining the objectives, scope, and audit plans or schedules and techniques;
3. Determining strategies, methodologies, tools, audit approaches as well as implementation of quality control in carrying out predetermined main tasks, including subsidiaries/affiliates/financial service institutions owned by BNI, relating to the implementation of audits and consultations;

4. Ensuring that IAD Auditors follow continuous professional development and adequate training in their fields in order to keep abreast of company developments;
5. Preparing and reviewing the internal audit charter periodically;
6. Preparing the Annual Audit Plan and Annual Consultation together with the President Director and Board of Commissioners approved budget allocation by considering the Audit Committee recommendations and monitoring its implementation;
7. Reporting immediately any audit findings that are thought may interfere with BNI's business continuity to the President Director and the Board of Commissioners, with copies to the Audit Committee and the director in charge of the compliance function, as well as monitoring the follow-up;
8. Carrying out follow-up monitoring of audit results as well as periodically submitting a Pending Follow-up Report on Audit Results to the President Director and the Board of Commissioners; and
9. Ensuring the use of external party services is only temporary in nature so as not to affect the independence and objectivity of the IAD function, and is in accordance with the BNI internal audit charter.

INTERNAL AUDIT AUTHORITIES

To carry out its duties and responsibilities with optimal results, Internal Audit is authorized to:

1. Have full, free and unlimited access to BNI records, information, employees, funds, assets, locations/areas, and other resources, including BNI's subsidiaries/affiliates/financial service institutions, relating to the implementation of audits and consultation;
2. Conduct verification, interviews, confirmations, and other audit techniques with customers or other parties related to the implementation of audits and consultations;
3. Communicate directly with the Board of Directors, the Board of Commissioners and Audit Committee;
4. Conduct regular and incidental meetings with the Board of Directors, the Board of Commissioners and the Audit Committee;
5. Attend strategic meetings;
6. Request assistance from other work units or use the services of external parties in conducting audits if deemed necessary; and
7. Coordinate and build synergistic relationships with other assurance units/functions (compliance unit and risk management) in order to obtain comprehensive and optimal audit results.

INTERNAL AUDIT OBJECTIVITY

The Internal Audit provisions govern the implementation of audit assignments to maintain objectivity, and include:

1. It is regulated in the Code of Ethics that must be obeyed by all auditors.
2. They are not allowed to be involved/conduct business/operational activities, including:
 - a. Having the authority and responsibility or being involved in/or conducting operational activities in BNI or its subsidiaries/affiliates/financial service institutions;
 - b. Holding concurrent duties and positions for the implementation of operational activities BNI or its subsidiaries/affiliates/financial service institutions; and
 - c. Being involved in making decisions on BNI operational activities.
3. Does not have a relationship that creates a potential conflict of interest, such as:
 - a. Having a familial relationship with employees in the auditee unit up to the second degree, both horizontally and vertically;
 - b. The auditor has been an employee in the auditee unit, both as a Head or Non-Head;
 - c. Is conducting an audit of an audit object where the internal auditor was previously involved in providing consulting services/other tasks regarding the object.
4. Not being involved in activities or having a relationship that will cause a conflict of interest
5. Regulated in the cooling-off period policy, including:
 - a. Reassignment of the auditor to the unit/auditee where a potential conflict of interest can be given at least after the audit of the auditee unit conducted 1 (one) time and/or after a period of 1 (one) year has passed; and
 - b. Not allowed to audit an auditee 2 (two) times in a row as team leader.

In addition, Internal Audit has a code of ethics that all auditors must obey, as follows:

1. Integrity
 - a. Carrying out their duties honestly, diligently, and responsibly;
 - b. Complying with the law and making disclosures in accordance with the laws and regulations and the profession;
 - c. Not intentionally/consciously becoming involved in prohibited/illegal activities, not taking actions that can damage Internal Audit's credibility and internal audit profession;
 - d. Supporting goals of BNI and IAD.

2. Confidentiality
 - a. Being careful in using and maintaining information obtained in the execution of their duty; and
 - b. Not using information for the benefit of anyone and/or in any way that would conflict with the law and/or Company provisions.
3. Competency
 - a. Carry out duties in accordance with their knowledge, skills and experience;
 - b. Carry out audits in accordance with the Standards for the Bank's Internal Audit Function and/or other applicable audit standards; and
 - c. Improve competence continuously.

AUDIT QUALITY CONTROL

Audit quality control program (Quality Assurance) and Improvement Program designed to evaluate the Internal Audit activities conformity with standards and evaluate the application of a code of ethics, including developing an audit methodology and refining audit programs to suit the development of existing business processes as well as best practices. Internal Audit quality control is carried out by internal and external parties. Quality control carried out by internal parties involves forming a separate unit, the Quality Control Group, whose duties include reviewing the quality of implementation and audit results and ensuring that the auditor's code of ethics has been complied with.

External quality control is carried out by an independent party, namely a Public Accountant every 3 (three) years. The last review in 2022 was carried out by PT RSM Indonesia Konsultan with the following results:

1. "In general, internal audit activities comply with the provisions of OJK Regulation No.1/POJK.03/2019 concerning the Implementation of the Internal Audit Function in Commercial Banks, as well as OJK Regulation No. 38/POJK.03/2016 and OJK Circular No. 21/SEOJK.03/2017 concerning Implementation of Risk Management in the Use of Information Technology by Commercial Banks, particularly related to the Internal Audit Process";
2. The effectiveness in using the Audit Management System (FAST) application for Application Controls and General Controls has been running well, where the application has become the catalyst for the digital-based audit process.

In addition, a review of conformity with the IPPF International Standard (International Professional Practices Framework) has been carried out.

AUDIT METHODOLOGY

Internal Audit has prepared an Audit and Consultation Work Plan in line with the Bank's policy direction, to become one of the most profitable financial institution in Indonesia by optimizing risk management and disciplined credit processes for improving asset quality; increasing selective business expansion and sustainable financial solutions; Increasing global market expansion; Increasing sustainable FBI and CASA; Strengthening digital capability; Increasing BNI Group synergy; Optimizing Human Capital and Operations.

The preparation of the Audit and Consultation Plan follows the Macro Assessment and Micro Assessment stages. The Macro Assessment was carried out on BNI's overall performance and risk indicators, with the aim of identifying certain themes/topics that will be the focus of the audit with an orientation on the business process implementation, in line with the General Policy of the BNI Board of Directors (KUD), considering BNI's Risk Profile according to the Risk Management Committee (RMC), input or concern of the Board of Directors and Senior Management, and the conditions/issues that occur based on BNI's business development.

Micro Assessment assesses the risk level of auditee units, and is carried out by assessing the unit risk level based on predetermined risk parameters. Identification of high risk audit objects, to determine audit priorities.

Several initiatives for improvement and development of audit tools carried out by IAD included:

1. Digital-Based Audit using the Audit Management System Application (FAST) since 2019 and enhancements carried out in 2022.
2. Implementation of continuous auditing using IDEA Case Ware tools to support data processing and improve the Surveillance unit's function in detecting Irregularities in Transactions as an Early Warning System.

INTERNAL AUDIT WORK PROGRAM IN 2022

To support BNI's 2022 strategy achievement, IAD developed a strategic initiative as outlined in the 2022 IAD Business Plan and work programs in the 2022 Audit and Consultation Plan, as follows:

1. Carry out audits of all BNI Auditable Activities to oversee potentially significant business risks using a risk-based audit approach;
2. Carry out value-added services through the consulting function in line with user needs through Independent Reviews as a form of IAD control for the issuance of new products as one of the regulator (Financial Services Authority) requirements, and other non-formal consultative forms;

3. Carry out activity/thematic audits for business process improvements in line with the latest critical and risk issues, as well as IT Activity Audits in line with IT Major Risk and IT Transformation;
4. Carry out mandatory audits in accordance with regulatory provisions;
5. Supervise operational units by providing value added services (partnership) through delivery of risk awareness/sharing sessions, and initiation of operational process improvements by establishing concrete steps to resolve problems and/or establishing policies;
6. Optimize the Surveillance function to assist audit implementation through early detection of potential risks as an Early Warning System or Continuous Audit/Monitoring for implementing anti-fraud strategies, develop CS journal reports to identify red flags/irregular transactions, and add SUR Lounges to optimize the use of IDEA Case Ware tools for making Exception Reports, Selected Reports, and data processing based on the focus of the examination;
7. Optimize the effectiveness of the Integrated Internal Audit Work Unit with Subsidiaries; and
8. Increase learning and growth through improved audit methodology and tools, improved applications, and support for IT infrastructure for IAD, which is currently being done digitally through the Audit Management System (AMS) Application, and continues to be enhanced periodically as well as increase employee capability competencies.

Based on the results of the Company's directives review in 2022, risk assessment, audit priorities, and availability of human capital, IAD established a 2022 audit strategy, as follows:

1. Delivery channel and non-delivery channel audits to be conducted for auditees with high risk and moderate to high risk levels, following 2 (two) approaches, the delivery channel audit for the unit, and an audit sampling activity.
2. Optimize data analytics surveillance for thematic audits and off-site unit audits.
3. Optimize the consultative function, including an Independent Review of the issuance of new products as a condition for permits from the regulator (Financial Services Authority), and a review of digital activities, as well as controlling digital activities, e-channels, reconciliation of digital transactions, fintech and cyber security.
4. Conduct audits on particular activities/issues that have a strategic impact on the Bank as well as activity audits with a focus on progress on follow-up to previous activity audits.

IAD AUDIT & CONSULTATION REALIZATION IN 2022

The 2022 Audit and consulting realization reached 108.33% of the target, with audit delivery channels, Division, KCLN and Subsidiaries audit realization reaching 102.40%, and Thematic Audits, IT Activities, Non-IT Applications, IT Applications, Independent Reviews, and Mandatory Audis reaching 101.10% as follows:

2022 Audit Realization

During 2022, apart from conducting audits based on RAT, IAD also supervised through assignments for consultations/reviews/surprise audits related to the following activities:

- Review of Group Sales Activities – Treasury Division;
- Review of Investment Activities – Treasury Division;
- Review of Business Planning & Development Activities – Treasury Division;
- Review of Pension Fund Business Development Activities – Pension Fund Division;
- Review of Pension Fund Claim Activities – Pension Fund Division;
- Review of Supporting Activities – International Division;
- Review of Prepurchase Account Activities – Procurement & Fixed Assets Division;
- Review of Settlement Activities and Risk & Compliance Management– Pension Fund Division;
- Review of Debtors whose debts were written off in 2022 – Corporate & Enterprise Remedial & Recovery Division;
- Consulting Services for the 2022 Java Jazz Festival Event – Marketing Communication Division;
- Audit of Employee KUR Disbursements;
- Surprise audits of cash and securities management at 10 outlets.

AUDIT RESULTS FOLLOW-UP COMPLETION

As part of the audit process/stages, after reporting the audit, the audit activity that must be carried out is monitoring the audit results. Monitoring activity is an activity to find out and ensure the implementation of follow-up audit results including the completion of IAD Recommendations and Disposition of the Board of Directors, both by the auditee and other related parties.

Every quarter, IAD submits the progress on the completion of follow-up audit results in the form of a Pending Report on the Follow-Up of Audit Results to the Board of Directors and the Board of Commissioners through the Audit Committee to encourage the level of completion of Audit Recommendations.

Overall, each year the level of completion of follow-up on Audit Recommendations and Board of Directors' Disposition on audit results has been above 99% as shown in the following table:

In addition to monitoring the IAD audit results, IAD functions as a liaison with external parties (OJK, BI, BPK and KAP), IAD also monitors the follow-up to the external party audit results. During 2022, the follow-up on the external audit results shown in the following table:

Audit	Period To Decemeber 2022	
	Finished	In Progress
Bank Indonesia (BI)	53	2
Indonesia Financial Services Authority (OJK)	980	17
RI Financial Audit Board (BPK RI)	581	118
Public Accounting Firm (KAP)	3	4

IAD HC COMPETENCY COMPOSITION AND DEVELOPMENT

IAD HC Personnel

The Internal Audit has 207 (two hundred and seven) employees as shown in the following diagram:

IAD HC COMPETENCY DEVELOPMENT

Internal Audit is committed to developing the auditors' competencies and capabilities. To support competency development, IAD has establishes a minimum annual training/refreshment period policy, which all auditors are required to take part in a capability development program. The competency development carried out by IAD during 2022, was as follows:

Competency Development/Training Materials	Organizing Agency	Time Of Execution
ANNUAL TRAINING		
Auditor Annual Training	BNI Corporate University	January 2022
Internal Control Annual Training	BNI Corporate University	March to July 2022

INTERN AUDIT IMPLEMENTATION GUIDELINES

When carrying out its duties, Internal Audit is guided by OJK Regulation No. 1/POJK.03/2019 concerning the Implementation of the Internal Audit Function in Commercial Banks that has been stated in the Internal Audit Charter.

Whereas, for implementing IT Audit, Internal Audit is guided by OJK Regulation No. 11/POJK.03/2022 concerning Implementation of Information Technology by Commercial Banks, and SEOJK No. 21/SEOJK.03/2017 concerning Application of Risk Management for the Use of Information Technology by Commercial Banks.

In addition to these provisions stipulated by the regulator, the Internal Audit guidelines comply with the IPPF International Standards (International Professional Practices Framework) to ensure an effective and thorough audit implementation so as to provide added value to the Bank and to mitigate risks faced by the Bank.

INTEGRATED INTERNAL AUDIT WORK UNIT (SKAIT)

For the implementation of the Integrated IAD function as referred to in POJK No. 1/POJK.03/2019 concerning Implementation of the Internal Audit Function for Commercial Banks, and POJK No. 18/POJK.03/2014 dated November 18, 2014, and Circular Letter No. 15/SEOJK.03/2015 dated May , 2015 concerning the Implementation of Integrated Governance for Financial Conglomerates, the Integrated Internal Audit duties and responsibilities are carried out by the Integrated SKAI.

To support the BNI Financial Conglomerate growth in a healthy, prudent and sustainable manner with high competitiveness, BNI as the Main Entity has established a commitment between IAD and the SKAI in the Subsidiaries. This commitment is to carry out the integrated internal audit function and maintain the development of the Financial Conglomerate audit quality to ensure the internal control function is effective in all operational activities in the Subsidiaries at all management levels.

Internal Audit performs assurance and consulting functions independently and objectively and integrates with the SKAI in the Subsidiaries, to provide added value by increasing the effectiveness of risk management, control and governance processes. With regard to its role as a SKAIT, IAD routinely establishes communication and coordination with the Subsidiary's Internal Audit Work Unit, through joint communication forums, knowledge sharing of audit methodology and integration of audit planning, implementation and reporting to support the integrated Integrated Governance (TKT) in the BNI financial conglomerate.

SKAIT duties and responsibilities stipulated in the TKT guidelines are as follows:

- Evaluating and providing input on the adequacy of the Subsidiary's SKAI audit methodology, policies and procedures in accordance with the size, characteristics and complexity of the subsidiary, both at the stages of audit planning, audit implementation, reporting of audit results and monitoring of follow-up completion;
- Submitting a report on the main results of the integrated audit to the Main Entity's President Director and the Board of Commissioners with a copy to the Director in charge of the Main Entity's Compliance Function;
- Monitoring the follow-up of internal audit results in an integrated manner and report the results to the President Director and the Board of Commissioners of the Main Entity with a copy to the Director in charge of the Main Entity's Compliance Function;
- Submitting the integrated internal audit report to the President Director, the Director appointed to carry out the supervisory function of LJK in the Financial Conglomerate and the Main Entity's Board of Commissioners as well as the Director in charge of the Main Entity's Compliance Function;
- Monitoring and follow-up on recommendations from the Integrated Governance Committee;
- IAD as the third line in the Three Lines Model ensures internal control in each line in the BNI Financial Conglomerate, by conducting audits and consulting with subsidiaries. IAD can conduct audits and consultations on Subsidiaries without requiring prior approval from the Subsidiary's Board of Commissioners;
- IAD carries out internal supervision over all areas, operational and business activities as well as coordinates with the internal control function in the Subsidiary.

To carry out these duties and responsibilities, including developing audit quality, the Subsidiary's IAD and SKAI integrate the internal audit function with a scope that includes:

Audit Methodology

IAD with the Subsidiary's SKAI conducts alignment/ evaluation according to the size, characteristics, and complexity of the subsidiary, including, risk-based audit methodology as well as audit policies and procedures of each Subsidiary, through:

- IAD coordinating the alignment of the risk-based audit methodology used by the Subsidiary SKAI;
- IAD providing input on the adequacy of Subsidiary Company Audit Policy and SOP.

Audit Planning

IAD with the Subsidiary’s SKAI prepare an Integrated annual Audit plan with the following mechanisms:

1. IAD input on the annual audit plan prepared by the Subsidiary SKAI;
2. Information concerning the Subsidiary SKAI audit results to be used by IAD as evaluation material in preparing an integrated audit plan;
3. IAD consolidates the integrated annual audit plan and submits it to the President Director and the Board of Commissioners of the Main Entity.

Audit Implementation

The integrated audit can be carried out using the following mechanism:

1. Audits are carried out individually;
2. Joint Audit.

Integrated Auditor Competency Development

IAD with BNI Subsidiary Internal Audit conducts auditor development through the following mechanisms:

1. IAD includes Subsidiary SKAI in joint training held by BNI’s Internal Audit.
2. IAD and SKAI of Subsidiaries carry out joint workshops.
3. Subsidiary IAD and SKAI provide auditor internship opportunities at the Subsidiary Company as well as at BNI’s Internal Audit.

Integrated Audit Results Reporting

1. Subsidiary Internal Audit submits reports on the internal audit function to BNI Internal Audit through an integrated internal audit communication forum on a quarterly basis. The report contains at least the following information:
 - a. Subsidiary Company’s Annual and Periodic Internal Audit Plan;
 - b. Realization of Subsidiary Internal Audit implementation;
 - c. Main audit results of Internal Audit of Subsidiaries and External Audit of Subsidiaries;
 - d. Follow-up on the completion of audit results by Internal Audit of Subsidiaries, BNI Internal Audit, and External Subsidiaries;
 - e. Subsidiaries Internal Audit Maturity Profile.
2. IAD submits an Integrated Internal Audit Report containing information related to the main integrated internal audit report and the follow-up of the integrated internal audit results, with the reporting time as follows:

- a. Reports are submitted quarterly to the Director appointed to carry out the supervisory function of Subsidiaries in the Financial Conglomerate, and the Director in charge of the compliance function in the Main Entity; and
- b. Reports are submitted to the Main Entity Board of Commissioners every semester.

Integrated Audit Work Unit Activities Realization

During 2022 IAD with the Subsidiary SKAI realized the following Integrated Audit Activities:

1. Organized integrated auditor training with material for all IAD and SKAI auditors of Subsidiaries including Internal Audit Standards (IIA & IPPF), Internal Control Framework, Audit Methodology, Internal Audit Charter, Reporting of Audit Results, Quality Assurance and Improvement Program (QAIP), Integrated Audit, Internal Audit Function Assessment Self Assessment, and Control System Assessment Self Assessment Intern PA. As well as training specifically related to updating PSAK 71, 72, 73, ECL Calculation, Credit Audit, Performance Audit, and Asset and Liability Management.
2. Conducted a Joint Audit with BNI Life Insurance and BNI Sekuritas SKAI;
3. Prepared the SKAI Assessment Methodology for Subsidiaries;
4. Prepared the Subsidiary Company’s Internal Control System (SPI) Assessment Methodology and the Evaluation Implementation by means of Self Assessment at each Subsidiary Company each semester;
5. Conducted Integrated Audit Work Unit communication forums every Quarter, in Quarter I in April 2022, Quarter II in July 2022, Quarter III in October 2022, and Quarter IV in January 2023, that discussed:
 - a. Subsidiary SKAI Audit Work Plan Realization.
 - b. Subsidiary SKAI SKAI Audit Key Results.
 - c. Progress of Audit Results Follow-Up for SKAI Subsidiaries, IAD, and External Audit (OJK, BPK RI, etc.).
 - d. Monitored Subsidiaries SKAI Maturity Profile including organization, fulfillment of certification/training of auditors, completeness of enablers, outputs and development plans for Subsidiaries SKAI.
 - e. Discussion on Subsidiaries Internal Control System Self Assessment evaluation results.
 - f. Follow-up discussion on the suggestions and opinions of the BNI Board of Commissioners on Subsidiaries.

In addition, IAD when carrying out its duties as an Integrated SKAI also conducts periodic reviews of the Integrated Governance Guidelines and each semester evaluates the Structure, Process and Results of Integrated Governance to assess the Governance Structure, Governance Process and Governance Outcome in the Integrated Audit Work Units.

INVESTOR RELATIONS FUNCTION

Investor Relations activities are part Investor Relations is a strategic function within the company that is part of corporate public relations activities. Investor Relations has the accountability to build and maintain mutually beneficial relationships with shareholders and other financial communities in order to maximize the company’s market capitalization. The Main Functions of the Investor Relations Division include:

COMPLIANCE FUNCTION

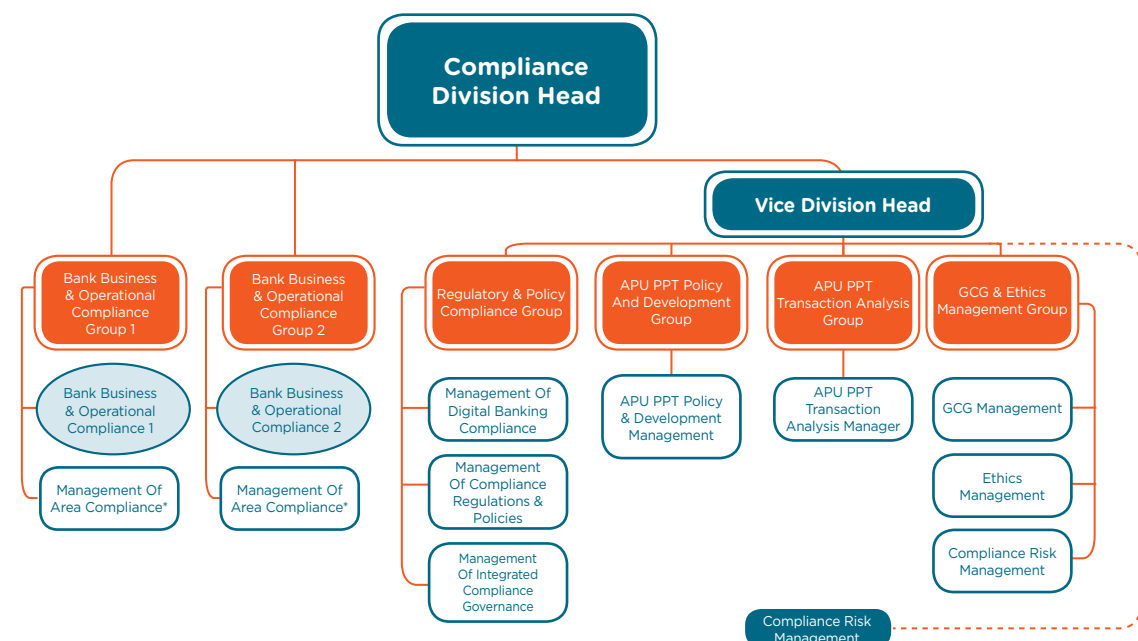

As a financial institution, BNI carries out activities based on the principle of trust. In order to grow in a healthy and sustainable manner, a strong good corporate governance foundation is required and consistent application of prudential banking principles, one of which is through the Bank’s compliance. BNI has targeted one of its goals in the sixth mission statement, namely “Becoming the Reference for the Implementation of Compliance and Good Corporate Governance for Industry”.

Based on this mission, the implementation of compliance is not only to fulfill regulatory compliance but is also an organizational must. Thus, compliance must be built into an internalized and organized culture.

COMPLIANCE WORK UNIT ORGANIZATIONAL STRUCTURE

For compliance, BNI has appointed a Director in charge of the compliance function and has established a Compliance Division to carry out the compliance function. In addition, BNI's Board of Commissioners is also involved in carrying out active supervision of the implementation of Bank compliance.

The organizational structure of the compliance work unit refers to the Board of Directors Decree No. KP/133/DIR/R dated April 7, 2021, as follows:

*Regional Management of Area Compliance has a function to ensure the application of APU and PPT in the Regional Offices, Branches and Centers.

ACTIVE SUPERVISION OF THE BOARD OF COMMISSIONERS COMPLIANCE FUNCTION

The Board of Commissioners active supervisory function as well as compliance with POJK related to Compliance Function Implementation in Commercial Banks is carried out by:

1. Evaluating the implementation of the Bank's compliance function at least 2 (two) times a year;
2. Providing suggestions to improve the implementation of the Bank's compliance function quality.

Either directly or through the Committees under them, the Board of Commissioners actively supervises and provides suggestions for improvements through meetings or through periodic reports, such as:

1. Regular Board of Commissioners meetings with the Director in charge of the Compliance function;
2. Periodic meetings of the Committees under the Board of Commissioners (Audit Committee, Risk Monitoring Committee, and/or Integrated Governance Committee) with the Director in charge of the compliance function and/or the Compliance Division;
3. Periodic reports submitted include Corporate Governance Self-Assessment Report, Integrated Governance Self-Assessment Report, Compliance Report, Integrated Compliance Function Implementation Report, and the implementation of Anti-Money Laundering and Prevention of Terrorism Financing (APU-PPT) program Reports.

DIRECTOR IN CHARGE OF THE COMPLIANCE FUNCTION

For the period January-May 2022 the Director in charge of the compliance function at BNI was Bob Tyasika Ananta. Based on an Extraordinary General Meeting of Shareholders (RUPS LB) decision held on August 31, 2022, Mucharom was appointed as Human Capital & Compliance Director at BNI. The appointment and implementation of the Director in charge of the compliance function duties is carried out based on the applicable regulations, in particular the provisions concerning the Implementation of the Compliance Function, General Provisions, the Provisions for the Fit and Proper Test, as well as the provisions for the Use of Expatriate Employees in the Banking Sector, that regulate:

1. Must obtain approval from OJK before carrying out duties and functions in their position. The Human Capital & Compliance Director Mucharom underwent a Fit and Proper Test on December 20, 2022. Through the OJK letter No. SR-3/PB.12/2023 dated January 4, 2023, OJK approved the appointment of Mucharom as Human Capital & Compliance Director;

2. Must fulfill independence requirements, namely not having financial, management, share ownership and/or familial relations up to the second degree with members of the Board of Commissioners, the Board of Directors and/or Controlling Shareholders or relationship with the Bank that may affect their ability to act independently;
3. Must have adequate integrity and knowledge regarding banking regulations and prevailing laws and regulations;
4. Are prohibited from appointing or using expatriate employees;
5. Does not hold concurrent positions as President Director and/or Vice President Director;
6. Not in charge of the following functions: operational business, risk management that makes decisions on banking activities, treasury, finance, accounting, logistics, procurement, information technology and internal audit.

Based on the applicable BNI organizational structure, the BNI Human Capital & Compliance Director oversees the following organizations:

1. Compliance Division;
2. Legal Division;
3. Human Capital Strategy Division;
4. Human Capital Services Division;
5. BNI Corporate University;
6. Anti-Fraud;
7. Policy Governance Division.

Overall, the duties and responsibilities of the Director in charge of the compliance function include:

1. Formulating strategies to encourage the creation of a compliance culture;
2. Proposing compliance policies or compliance principles to be approved by the Board of Directors;
3. Establishing compliance systems and procedures to formulate the Bank's internal provisions and guidelines;
4. Ensuring all policies, regulations, systems and procedures as well as the Bank's business activities are in accordance with the provisions of the Financial Services Authority, Bank Indonesia and the prevailing laws and regulations;
5. Minimizing the Bank's Compliance Risk;
6. Taking preventive measures so that the policies and/or decisions made by the Bank's Board of Directors do not deviate from the provisions of the Financial Services Authority, BI and the prevailing laws and regulations;
7. Performing other duties related to Compliance Function, such as monitoring and maintaining the Bank's compliance with the commitments made by the Bank to the Financial Services Authority, BI and other supervisory authorities;
8. In addition to the above duties and responsibilities, in order to implement the integrated compliance function, the Director in charge of the compliance function has duties to direct, monitor and evaluate the implementation of the Integrated Compliance function as well as follow up on directions or advice from the Board of Commissioners of the Main Entity or the Integrated Governance Committee in order to improve Integrated Compliance Function.

COMPLIANCE WORK UNIT

The work unit carrying out the compliance function is the Compliance Division. The Compliance Division is an independent unit directly responsible to the Director in charge of the compliance function. In addition, the Compliance Division is also designated as an Integrated Compliance Unit.

INTEGRATED COMPLIANCE WORK UNIT

In the context of implementing OJK Regulation No. 18/POJK.03/2014 concerning the Implementation of Integrated Governance for Financial Conglomerates, the Compliance Division as the Integrated Compliance Unit (SKKT) BNI has carried out the task of monitoring and evaluating the implementation of the compliance function in each Subsidiary Company, by:

1. Ensuring the implementation of the compliance function and the implementation of Anti-Money Laundering and Prevention of the Financing of Terrorism (APU and PPT);
2. Aligning the Compliance Risk Management methodology including the implementation of the APU and PPT provisions;
3. Integrating and aligning compliance function policies and procedures, including AML and CFT policies and procedures;
4. Ensuring Subsidiaries' compliance with the implementation of internal and external reporting obligations;
5. Developing the HC Compliance Unit in the BNI Financial Conglomerate.

COMPLIANCE UNIT WORK PROGRAM IMPLEMENTATION IN 2022

In line with information technology developments, globalization and integration of financial markets, the challenges and risk exposures faced are getting bigger. Therefore, in carrying out operational activities with increasing business complexity, BNI continues to strive to mitigate the Bank's business activities risks, both preventive (ex-ante) and curative (ex-post). In line with the OJK Regulation No. 46/POJK.03/2017 concerning the Implementation of the Compliance Function for Commercial Banks, the need for an increase in compliance's role and function.

To encourage the realization of a compliance culture in all organization units, the following compliance programs have been implemented:

1. Realizing the implementation of a compliance culture at all organizational levels and in bank business activities;
 - a. Delivering Training/Socialization to all employees covering Compliance Culture, Good Corporate Governance (GCG) materials, Gratification and Anti-Bribery Control through digital and classical media as well as mandatory e-learning (Gratification and GCG Control);
 - b. Delivering a Compliance Reminder (CORE) for the Daily Exercise Employee Program (DEEP46) with regular APU PPT and gratification material to improve the employee compliance culture;
 - c. Delivering on site supervision related to APU PPT and the GRC (Governance, Risk and Compliance) Forum;
 - d. Handling Gratification Control in BNI's work areas, in collaboration with the Corruption Eradication Commission (KPK) to improve Good Corporate Governance (GCG) and Compliance Culture;
 - e. Monitoring the effectiveness of Good Corporate Governance and Integrated Governance implementation at BNI.
 - f. Developing a Compliance Information Management System (CIMS) application, as an information system, database and monitoring system of the online compliance reviews results and implementation of APU PPT;
 - g. Preparing a Measurement of Compliance Index (CIX) as a reference to measure and ensure that the compliance function is running well;
2. Managing the compliance risks faced by the Bank; Compliance risk is a risk arising from the failure to comply with and/or not implementing the prevailing laws and regulations.

Based on such matters, the Compliance Division actively strives to minimize compliance risk. The composite compliance risk profile assessment includes an assessment of the inherent risks and assessment of the quality of Risk Management implementation so that it reflects the compliance risk control system. In a composite manner, BNI's Compliance Risk Profile in 2022 stood at level 2 (low to moderate), with the following details:

- a. BNI's Inherent Risk in 2022 BNI was at level 2 (Low to Moderate);
- b. The Quality of Risk Management Implementation (KPMR) was at level 2 (Satisfactory).

The Compliance Division continues to make improvement efforts to minimize Compliance Risk, including:

- a. Identifying, monitoring and periodically disseminating the fulfillment of obligations and matters prohibited by regulations as a preventive measure;
 - b. Reminding organization units they in charge of the fulfillment of obligations periodically;
 - c. Making corrective actions based on the compliance risk database;
 - d. Preparing sanctions from regulators/supervisors as a source of compliance risk into the Compliance Index, and making the compliance index part of the unit Key Performance Indicators (KPI).
3. Ensuring that policies, regulations, systems and procedures as well as the Bank's business activities are in accordance with the OJK/BI provisions, as well as the prevailing laws and regulations. As one of the preventive measures to prevent compliance risks from arising and to support healthy and sustainable growth, the Compliance Division takes preventive (ex-ante) measures by conducting compliance tests to ensure that all internal regulations and certain banking activities comply with applicable banking principles. The compliance test activities include:
 - a. Test of compliance on drafts of policies, as well as on new/updated systems and procedures;
 - b. Compliance test/review of existing policies, systems and procedures;
 - c. Compliance test on the design of publishing or new/updated products/activities;
 - d. Compliance checklist on the fit and proper test of prospective controlling shareholders, members of the Board of Directors, and/or the Board of Commissioners;

- e. Compliance test/Credit Compliance Review (C2R) for the proposed Credit Application Tool (PAK);
 - f. Compliance test/Procurement Compliance Review (PCR) for the proposed Procurement of Goods and/or Services Document;
 - g. Compliance test/review on plans for opening and relocating Bank offices (regional offices, branch offices, sub-branch offices, and functional offices);
 - h. Compliance test/review of branch and center operational activities.
4. Ensuring bank compliance with commitments made by the bank to OJK/BI and other supervisory authorities. Monitoring commitments to the supervisory authority is carried out together with the Internal Audit (IAD).
 5. Expanding C2R carried out by the Compliance Division with the following criteria:
 - a. Providing new and additional funds with the authority of the Medium Credit Committee, Regions (excluding small segments), Divisions and Head Office; or
 - b. Restructuring with the authority of the Medium Credit Committee, Regions (excluding small segments), Divisions and Head Office; or
 - c. Reviewing the provision of funds, where at least 1 (one) Credit Committee member is from the Board of Directors;
 - d. Modifications include, but are not limited to changes in structure, release of collateral, changes to requirements where at least 1 (one) member of the Credit Committee is from the Board of Directors;
 - e. Proposals for the provision of funds after consultation with the Board of Commissioners, or the provision of funds to Bank related parties must obtain permission from the Board of Commissioners.
 6. Developing the BNI AML System in line with the POJK concerning the implementation of APU and PPT programs by ensuring there is a system that effectively identifies, analyzes, monitors and provides reports on the customer transaction characteristics carried out automatically.

INTEGRATED COMPLIANCE UNIT WORK PROGRAM IN 2022

To show the duties and functions of monitoring and evaluating the implementation of the compliance function at each Financial Services Institution (LJK) within the BNI Financial Conglomerate (KK), the Integrated Compliance Work Unit carried out the following:

1. Analyzed the latest external provisions that have a significant impact and have major sanctions for FSIs in the BNI FC and submit them to related LJKs for follow-up, including OJK regulations governing Credit Information Management Institutions, Investment Managers, Submission of Reports on Securities Companies Conducting Business Activities as Guarantor Securities Emissions and Broker-dealers,

Insurance Products associated with Investments, Policies to Maintain Capital Market Performance and Stability Due to the Spread of Corona Virus Disease 2019 and Consumer Protection in the Financial Services Sector;

2. Aligned the internal policies in each FSI within the BNI FC and then provided the necessary input or recommendations while taking into account the business sector, complexity, needs, size, conditions and regulations that apply to each FSI within the BNI FC;
3. Aligned the Compliance Risk management mechanism through monthly monitoring of compliance with the Regulatory Business Conduct of each FSI in the BNI FC based on the regulations of each FSI through a Self Assessment;
4. Implemented the Compliance Index (CIX) in the FSIs in the BNI FC as a means of monitoring the compliance function in the FSIs by using yje parameters of fraud, cases of negligence, sanctions and fines from regulators, pending findings of external and internal auditors, updating customer data and Regulatory Business Conduct of each FSI;
5. Analyzed the FSI Compliance Function Implementation Report in the BNI FC periodically to include the implementation of:
 - a. Compliance Culture;
 - b. Compliance Risk and Compliance Index;
 - c. Regulatory Compliance;
 - d. Company Compliance with Commitments to Regulators;
 - e. Implemented the Anti-Money Laundering & Counter-Terrorism Funding Program (APU PPT) based on 5 (five) pillars in the APU PPT program, namely active supervision by the Board of Directors and Board of Commissioners, Policies and Procedures, Internal Control, Management information systems, and Human Capital and Training.
6. Conducted periodic meetings with each FSI in the BNI FC with discussions including the following:
 - a. Follow up on suggestions or recommendations submitted by the Integrated Compliance Work Unit and the Integrated Governance Committee;
 - b. Recent issues related to the compliance function at each FSI in the BNI FC as well as follow-up settlement and mitigation;
 - c. Implement and adjust to the latest external regulations for each FSI in the BNI FC;
 - d. Implement the AML-CFT Program for each FSI in the BNI FC is based on the 5 pillars of the AML-CFT program as well as the Self Assessment risk assessment for institutions based on the Institutional Risk Assessment by taking into account the results of the National Risk Assessment issued by PPAK and Sectoral Risk Assessment issued by OJK;

- e. Align the anti-bribery/anti-gratification application provisions;
 - f. Implement mandatory learning and understanding of tests for all employees at each FSI in the BNI FC in a consistent and sustainable manner;
 - g. Implement routine and periodic GRC forums at each FSI in the BNI FC;
 - h. Implement reviews and adjustments to the guidelines and internal policies for each FSI in the BNI FC in accordance with the latest external regulations.
7. Make efforts to improve the Human Capital competence in the compliance units at each FSI in the BNI FC by organizing sharing sessions by BNI on the topic of Compliance Culture, Flow and Licensing Reporting Process for New Products and/or Activities to Regulators, Consumer Protection and Integrated Compliance, Anti-Fraud Strategy at BNI, Good Corporate Governance, Management of Anti-Gratification and Anti-Bribery Management System (SMAP), as well as Anti-Money Laundering and Prevention of Terrorism Funding (APU PPT);
 8. Prepare and submit periodic reports on the Compliance function oversight and evaluation duties and responsibilities at each FSI in the BNI FC periodically to the Compliance Director, as well as prepare periodic reports on the integrated compliance duties and responsibilities submitted by the Compliance Director to the President Director and the BNI Board of Commissioners;
 9. Synergize with each FSI in the BNI FC, including Training and Learning between BNI and each FSI in the BNI FC.

Committees

under the Board of Directors

In carrying out its duties, the Board of Directors has established committees to assist the Board of Directors regarding effectiveness and efficiency, including in making strategic decisions on the Company's operational activities. The committees under the Board of Directors are as follows:

1. Credit Committee;
2. Credit Policy Committee;
3. Business Committee;
4. Asset & Liability Committee (ALCO);
5. Human Capital (HC) Committee;
6. Performance Management Committee;
7. Risk Management and Anti-Fraud Committee;
8. Technology Management Committee;
9. Integrated Risk Management Committee;
10. Subsidiary Committee.

CREDIT COMMITTEE

THE CREDIT COMMITTEE STRUCTURE AND MEMBERSHIP

The Credit Committee (KK) consists of the Head Office Level Credit Committee, Division Level Credit Committee, and Regional Level Credit Committee. The Credit Committee is a committee whose job is to decide on the granting of credit, covering the business functions and risk functions using a four-eyes Principle based on authority, and avoiding conflicts of interest. When providing credit decisions, the credit committee considers the policies and procedures for granting credit, debtor condition, credit security and the application of good corporate governance.

CREDIT COMMITTEE PROFILES AND DUTIES AND RESPONSIBILITIES

The profiles and certification of each committee member can be seen in the discussion on the Board of Directors Profiles and the Senior Executive President (SEVP) Profiles.

CREDIT COMMITTEE JOB DESCRIPTION AND DUTIES AND RESPONSIBILITIES

Credit Committee Duties are as follows:

1. Approving or rejecting credit proposals in accordance with the authority limit or type of credit determined by the Board of Directors;
2. Being responsible for credit decisions based on matters that include the feasibility of the business being financed, credit security considerations, compliance with providing lending policies and procedures, and credit limit provisions;
3. Coordinating with related divisions on credit funding aspects;
4. Rejecting requests and/or influence from parties with an interest in credit applicants that provide loans that are merely a formality;
5. Carrying out their duties, especially in connection with providing credit within their authority, based on professional, honest, objective, accurate and thorough skills.

IMPLEMENTATION OF DUTIES OF THE CREDIT COMMITTEE IN 2022

In 2022, the credit committee made 459 credit decisions, consisting of 182 in the corporate segment, 249 in the commercial segment, 9 in the consumer segment, 19 in the financial institution segments, each in accordance with their level of authority.

INTEGRATED RISK MANAGEMENT COMMITTEE

BNI has established an Integrated Risk Management Committee (KMRT) based on SK No. KP/193/DIR/R dated May, 2015, and the Integrated Risk Management Committee membership composition was restructured, based on SK No. KP/217/DIR/R dated June 17, 2022, with the following membership composition:

INTEGRATED RISK MANAGEMENT COMMITTEE STRUCTURE AND MEMBERSHIP

3	November 25, 2022	Approval of the 2023 Subsidiary's Business Plan Proposal, which is broadly related to the 2023 Subsidiary's Financial Targets, Strategic Initiatives, and Corporate Actions

External Auditor

To carry out the independent supervisory function on the financial aspects of the Bank, BNI appoints a Public Accounting Firm (KAP). The External Auditor who examined BNI's finances for the 2022 fiscal year was determined at the Annual GMS, taking into account the Board of Commissioners recommendations, following the recommendation of the Audit Committee. The selection process was carried out in accordance with the applicable goods and services procurement mechanism. To ensure the independence and quality of the audit results, the appointed External Auditor may not have a conflict of interest with the Bank.

IMPLEMENTATION OF EXTERNAL AUDIT FUNCTION

For its operational activities, in addition to the internal auditors and the Financial Services Authority, the Bank is also supervised by external auditors from the Financial Services Authority, Bank Indonesia, the Republic of Indonesia Audit Board, and a Public Accounting Firm.

APPOINTMENT OF PUBLIC ACCOUNTANT

Following up on the General Meeting of Shareholders ("GMS") resolutions for the Fiscal Year 2021, the Board of Commissioners appointed KAP Tanudiredja, Wibisana, Rintis & Partners (member of PricewaterhouseCoopers) as the external auditor for examining the Bank's Financial Statements and other reports for the Fiscal Year 2022. Fiscal year 2022, is the second audit year period for KAP Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers)

Basis of appointment was as follows:

1. Based on OJK Regulation No. 13/POJK.03/2017 dated March 27, 2017, on the Use of Public Accountant Services and Public Accounting Firms in Financial Service Activities, Article 16 paragraph 1 states that the Public Accountant conducting the annual financial audit services cannot be used for more than 3 (three) consecutive fiscal year audits;
2. Based on OJK Regulation No. 37/POJK.03/2019 concerning Transparency and Publication of Financial Statements in conjunction with OJK Circular Letter No. 9/SEOJK.03/2020 concerning Transparency and Publication of Conventional Commercial Bank Reports, Article 4 paragraph 2 states that Banks must include the name of the Public Accounting Firm conducting the annual financial statements audits, together with the name of the Public Accountant, partner in charge of the audit, including the opinion given in the announcement of the Quarterly Publication Report for the position at the end of December;
3. The appointment process for KAP Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers) as the external auditor was carried out through an Auction mechanism.

PUBLIC ACCOUNTING FIRM, ACCOUNTANT NAME AND FEES

The Public Accounting Firms, accountant names, fees, and KAP permits for the last 5 (five) years are as follows:

Year	Public Accounting Firms	Name Of Responsible Accountant (Partner)	Period	Audit Services Fee (Rupiah)	KAP Licence
2022	Tanudiredja, Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers)	M. Jusuf Wibisana	1 Year and Interim	25.550.000.000	241/KM.1/2015
2021	Tanudiredja, Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers)	M. Jusuf Wibisana	1 Year and Interim	22.175.000.000	241/KM.1/2015

Year	Public Accounting Firms	Name Of Responsible Accountant (Partner)	Period	Audit Services Fee (Rupiah)	KAP Licence
2020	KAP Purwantono, Sungkoro and Surja (Ernst and Young)	Danil Setiadi Handaja	1 Year	12.650.000.000	603/KM.1/2015
2019	KAP Purwantono, Sungkoro and Surja (Ernst and Young)	Danil Setiadi Handaja	1 Year	12.900.000.000	603/KM.1/2015
2018	KAP Purwantono, Sungkoro dan Surja (Ernst and Young)	Danil Setiadi Handaja	1 Year	8.500.000.000	603/KM.1/2015

In addition to BNI's consolidated financial statements audit, the scope of audit work by Kantor Akuntan Publik Tanudiredja, Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers) for the fiscal year 2022 included:

1. Audit of the June 30, 2022 Interim Consolidated Financial Statements
2. Review and Validation of BNI Interim Consolidated Financial Statements as at June 30, (Newspaper Format)
3. Audit of December 31, 2022 Consolidated Financial Statements
4. Review and Validation of the BNI Consolidated Financial Statements as at December 31, 2022 (Newspaper Format).
5. Audit of Financial Statements and Implementation of the annual MSE Funding Program (Micro and Small Business Funding Program)
6. Audit of Financial Institutions Pension Fund Financial Statements (DPLK) and Financial Institution Pension Fund Investment Reports (DPLK)
7. Agreed Upon Procedures for Custodian Work Unit Activities
8. Audit of Compliance with Legislation, Internal Regulations, and Financial Control (PSA 62)
9. Agreed Upon Procedures Report on Performance Evaluation Results
10. Internal Control Report (Management Letter)

AUDIT RESULTS

The audit results carried out by the external auditor contain an opinion on the Financial Statements. For 2022, BNI's Consolidated Financial Statements Opinion was "presented fairly, in all material respects". This shows that BNI has presented the Consolidated Financial Statements accurately and in accordance with applicable standards and there were no material misstatements.

AUDIT FEES

The Audit Service Fee for the BNI Consolidated Financial Statements, the Annual MSE Funding Program Implementation Report (Micro and Small Business Funding Program), and other Audit Services during 2022 is Rp21.1 billion (excluding the Annual Audit Services Fee and Interim Review of Subsidiaries' Financial Statements of Rp2.7 billion and Rp1.7 billion). The total Audit Service Rewards include Out of Pocket Expense (OPE) and Value Added Tax (VAT).

OTHER SERVICES PROVIDED BY PUBLIC ACCOUNTANTS

During 2022, other services provided by Public Accountants included:

1. Agreed Upon Procedures for the PT Bank Negara Indonesia (Persero) Tbk Board of Directors Key Performance Indicators for the year ending December 31, 2022 in accordance with the Republic of Indonesia Minister of SOEs Regulation No. PER-11/MBU/11/2020 dated November 23, 2020, by KAP Tanudiredja, Wibisana, Rintis & Rekan (a member of PricewaterhouseCoopers) for a total Public Accountant fee of Rp320 million.
2. Agreed Upon Procedures for BNI Financial Information carried out to assist BNI in connection with the preparation of Aggregated Financial Information for the Ministry of State-Owned Enterprises, by KAP Tanudiredja, Wibisana, Rintis & Rekan (a member of PricewaterhouseCoopers), for a total Public Accountant fee of Rp500 million.

COORDINATION BETWEEN THE EXTERNAL AUDITOR AND AUDIT COMMITTEE

To implement its monitoring function on the audit results conducted by external auditors, namely Bank Indonesia (BI)/OJK, the Supreme Audit Agency (BPK), the Financial Transaction Reports and Analysis Center (PPATK), and KAP, the Audit Committee has evaluated the follow-up actions taken by the Management on the audit results of the said external auditors. Complete coordination can be seen in the description of the Audit Committee Report.

EXTERNAL AUDIT EFFECTIVENESS AND BANK COMPLIANCE WITH PROVISIONS CONCERNING RELATIONSHIPS BETWEEN THE BANK, THE PUBLIC ACCOUNTANTS, AND BANK INDONESIA

BNI has conducted an effective external audit and the Bank's compliance with the provisions concerning the relationship between the Bank, Public Accountants and Bank Indonesia for the Bank, including the following:

1. As stated in PBI No. 7/50/PBI/2005, as an Amendments to PBI No. 3/22/PBI/2001 concerning Transparency of Bank Financial Conditions, which has been revoked and declared invalid by the OJK Regulation No. 13/POJK.03/2017 of 2017 concerning the Use of Public Accountant Services and Public Accounting Firms in Financial Services activities, providing Assignment of an audit of

the Financial Statements, BNI must appoint a Public Accountant and a Public Accounting Firm that have been registered with Bank Indonesia. Through the Board of Commissioners letter No. No. DK/110 dated November 19, 2021, the Board of Commissioners appointed the Public Accounting Firm Tanudiredja, Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers) as the external auditor to conduct audits of the Company's Financial Statements and other reports for the 2022 fiscal year;

2. Based on OJK Regulation No. 13/POJK.03/2017 dated March 27,2017 concerning the Use of Public Accountant Services and Public Accounting Firm in Financial Services Activities, article 16 paragraph 1 states that the party carrying out financial services activities is required to limit the use of audit services on annual historical financial information from the same PA to no more than 3 (three) consecutive reporting fiscal years;
3. The appointment of the same Public Accountant and/or Public Accounting Firm by BNI must be based on a work agreement;
4. The Public Accountant who audits the Bank's Annual Financial Statements is required to conduct audits in accordance with the Public Accountant Professional Standards, the work agreement, and the audit scope. The Public Accountant and/or Public Accounting Firm is required to observe the Bank Confidentiality as regulated in the Law No. 7 of 1992 on Banking, as amended by Law No. 10 of 1998;
5. In the framework of preparing and implementing the audit, the Public Accountant may request information from Bank Indonesia regarding the condition of the Bank to be audited;
6. Bank Indonesia and/or the Financial Services Authority can request information from a Public Accountant even though the work agreement has ended.

To anticipate the economic challenges during the COVID-19 pandemic, as well as any increased risk exposure that may arise in carrying out its business activities, BNI established an effective and integrated risk and capital management system. In addition to minimizing the impact of the challenges faced, this also aims to support sustainable performance achievement and growth and increase the Company's competitiveness.

BNI's risk management is proactive and forward looking, it aims to maximize added value to shareholders, comprehensively manage capital, and ensure profitability and sustainable business growth. In addition, BNI as a Financial Services Institution with a number of subsidiaries that are members of the BNI Financial Conglomerate, is also established an integrated risk management system.

The regulations governing the risk management implemented by BNI include:

1. Risk Management Implementation
 - a. OJK Regulation No. 18/POJK.03/2016 dated March 16, 2016, concerning Risk Management Implementation in Commercial Banks;
 - b. OJK Circular No. 34/SEOJK.03/2016 dated September 1, 2016, concerning Risk Management Implementation in Commercial Banks;

 - b. Financial Services Authority Regulation No. 18/POJK.07/2018 dated September 10, 2018 concerning Consumer Complaint Services in the Financial Services Sector;
 - c. Bank Indonesia Regulation No. 22/20/PBI/2020 dated December 22, 2020 concerning Bank Indonesia Consumer Protection;
 - d. OJK Circular Letter No. 17/SEOJK.07/2018 dated December 6, 2018 concerning Guidelines for Implementing Consumer Complaint Services in the Financial Services Sector.
11. Data Protection
- Republic of Indonesia 2022 Data Protection Law No. 27 dated October 17, 2022 concerning Protection of Personal Data.

RISK MANAGEMENT ORGANIZATIONAL STRUCTURE

BNI's Risk Management organization and functions and Integrated Risk Management for BNI's Financial Conglomerate are prepared and determined as follows:

BNI's Financial Conglomerate is organized and determined as follows:

1. BNI's Board of Directors and Board of Commissioners are authorized and responsible for ensuring the implementation of BNI's Risk Management individually or in an integrated manner;
2. In carrying out its functions to supervise the implementation of BNI's Risk Management and Integrated Risk Management, BNI's Board of Commissioners is assisted by the Risk Monitoring Committee, Audit Committee, Nomination and Remuneration Committee and Integrated Governance Committee;
3. BNI's Directors in charge of the Risk Management function carry out the Risk Management function for BNI, and also the Integrated Risk Management function for BNI's Financial Conglomerate;
4. In carrying out its functions to implement an effective risk management, the Board of Directors is assisted by a Risk Management subcommittee of the Risk and Capital Committee (KRK-RMC) and an Integrated Risk Management Committee (KMRT);
5. If necessary, the Director in charge of Risk Management can discuss Risk Management issues in other committee meetings at the Board of Directors' level, or at the Board of Directors' meetings;
6. In implementing BNI's Risk Management, the Board of Directors is assisted by the Risk Management Work Unit (SKMR) that also functions as an the Integrated Risk Management Work Unit (SKMRT);
7. The Risk Management Unit is responsible for facilitating and coordinating with BNI risk management units, and all LJK members of the Financial Conglomerate in managing 8

(eight) types of risks in BNI: credit risk, market risk, liquidity risk, operational risk, legal risk, strategic risk, compliance risk, and reputation risk, and 10 (ten) types of risks in BNI's Financial Conglomerate, including intragroup transaction risk and insurance risk;

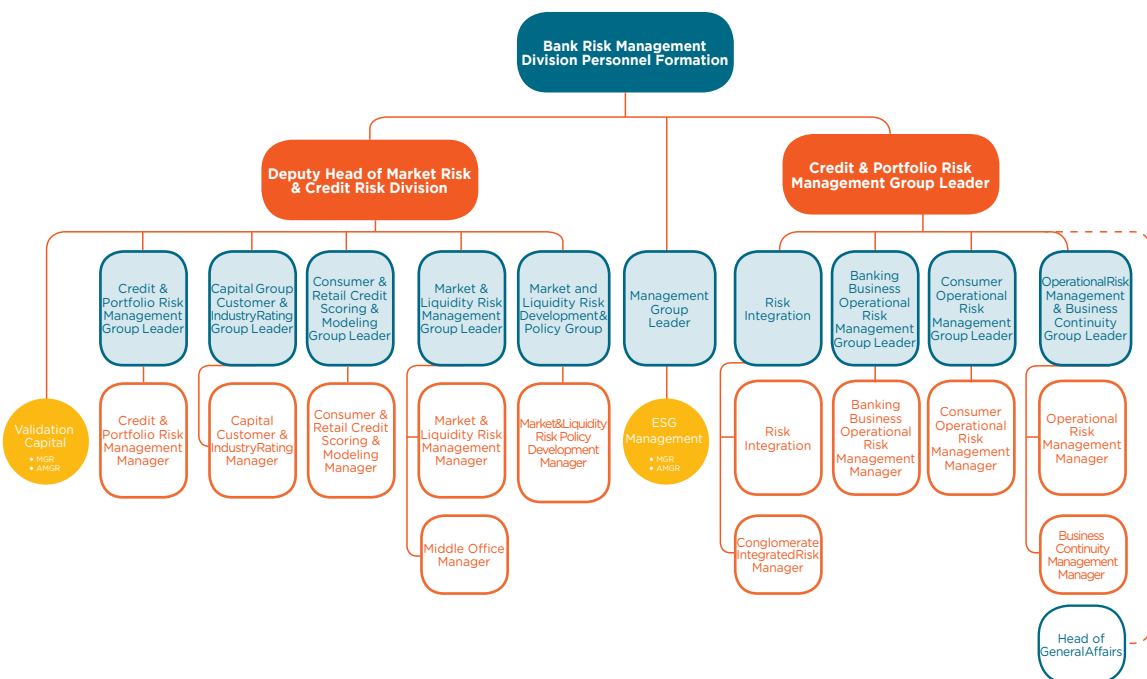

8. The Risk Management Work Unit in carrying out its functions, authorities and responsibilities is independent to the Operational Work Unit (risk taking unit) and does not carry out activities related to the Bank's business.

In carrying out its functions, the Risk Management Work Unit can escalate issues up to Risk Management subcommittee of the Risk and Capital Committee (KRA-RMC), or the Director in charge of the Risk Management function. Whereas the Integrated Risk Management Work Unit can escalates issues up to the Integrated Risk Management Committee or Director in charge of the Integrated Risk Management function.

ENTERPRISE RISK MANAGEMENT DIVISION

BNI's Enterprise Risk Management Division (ERM), as the Risk Management Work Unit (SKMR) and the Integrated Risk Management Work Unit (SKMRT) at BNI are under and directly responsible to the Risk Management Director as the Director in charge of Risk Management function and Integrated Risk Management function.

ENTERPRISE RISK MANAGEMENT DIVISION

BANK'S RISK MANAGEMENT DIVISION HEAD PROFILE

The Enterprise Risk Management Division Head reports directly to the Risk Management Director. Since February 17, 2022, the Enterprise Risk Management Division has been led by Rayendra Minarsa Goenawan, M.M, B.C.Sc.

Level 4 Risk Management Certification	August 5, 2022	BNSP

RISK MANAGEMENT DIVISION DUTIES AND RESPONSIBILITIES

As a Risk Management Work Unit (SKMR) and Integrated Risk Management Work Unit (SKMRT), the Enterprise Risk Management Division has the following functions:

1. Risk Management Work Unit
 - a. Preparing proposal for the Bank's risk management strategies and policies;
 - b. Monitoring overall risk position (composite), per type of risk, and per type of functional activity, as well as performing stress testing;
 - c. Developing and evaluating the accuracy of models used to measure risk;
 - d. Reviewing new products and activities proposals from a risk aspect;
 - e. Providing recommendations to operational work units (risk taking unit) based on the authority owned;
 - f. Evaluating the independence and effectiveness of the Bank's risk management infrastructure on a regular basis;
 - g. Supervising the risk management implementation, through the integrated risk control system and risk exposure limit determination;
 - h. Preparing and submitting risk reports regularly to the Board of Directors through the Director in charge of risk management function;
 - i. Independent of the risk taking unit, carrying out the risk management supervisory function, to ensure the Bank's risks and portfolios are well managed, through determination of risk parameters and limits;

- j. Responsible for managing 4 (four) main risks, credit risk, market risk, liquidity risk, and operational risk, including measuring credit, market, and operational risks, through the Internal Rating System, Market Risk Management Model, and Operational Risk Tools.

2. Integrated Risk Management Work Unit
 - a. Giving input to the Board of Directors of the Main Entity related to the preparation of Integrated Risk Management Policies;
 - b. Monitoring the implementation of Integrated Risk Management Policies including developing the procedures and tools for risk identification, measurement, monitoring, and control;
 - c. Monitoring Risks in BNI's Financial Conglomerate based on the assessment results of:
 - i) Risk Profile of each Financial Service Institution (FSI) in the Financial Conglomerate;
 - ii) Integrated Risk level for each risk type;
 - iii) Integrated Risk Profile.
 - d. Preparing proposal for determining the integrated Risk Appetite Statement;
 - e. Conducting stress testing;
 - f. Periodically reviewing the adequacy of Integrated Risk Management implementation, and Risk Management implementation in each FSI member of the Financial Conglomerate;
 - g. Reviewing proposals on new lines of business that are strategic in nature and can significantly influence the Financial Conglomerate Risk exposure;
 - h. Providing information to the Integrated Risk Management Committee on matters requiring follow-up from the Integrated Risk Management implementation evaluation results;
 - i. Providing input to the Integrated Risk Management Committee on the preparation and refinement of Integrated Risk Management policies.
 - j. Preparing and submitting the Integrated Risk Profile report regularly to the Board of Directors of the Main Entity in charge of Integrated Risk Management function, and to the Integrated Risk Management Committee.

RISK MANAGEMENT COMPETENCY DEVELOPMENT

To improve their competencies, the Enterprise Risk Management Division has participated in a number of internal and external competency development activities. The competency development carried out in 2022 was as follows:

No.	Name Of Education And Development	Organizer	Date
1	Implementation of Basel III Reform Basel 4 for calculating RWA Credit Risk	Bankers Association For Risk Management	March 23, 2022
2	Basic Python for Data Analysis and Modeling	Rakamin Akademi	May 20, 2022
3	Implementation of BASEL III on Operational Risk	Bank Association For Risk Management	June 9, 2022
4	Implementation of Market and Liquidity Risk and Stress Test Model	Learning Media Indonesia	16 June 2022
5	Digital Banking Fundamental: Architecture, Security, Risks and Controls	PT Andalan Nusantara Teknologi	July 11, 2022
6	Managing Digital Risk: Concepts Strategies, Tactics and Implementation	PT Andalan Nusantara Teknologi	July 27, 2022
7	Financial Risk Manager Certification	Kaplan Edupac	August 1, 2022
8	Investment Manager Representative Certification	TICMI	October 17, 2022
9	National Certification For Trainer	Sahabat Karir Indonesia	November 16, 2022
10	Credit Scoring For Loan Restructuring	Lembaga Training Lixbrain	November 17, 2022

RISK MANAGEMENT CERTIFICATION

In 2022, risk management certification was obtained to improve professionalism, performance, develop self-potential and to support the implementation of risk management duties. The certifications received were as follows:

Certification Level	Position	Number of Employees
1	Assistant	92
	Assistant Manager	2001
	Manager	154
	Assistant Vice President	16
2	Assistant	0
	Assistant Manager	38
	Manager	331
	Assistant Vice President	40
3	Manager	13
	Assistant Vice President	127
4	Manager	1
	Assistant Vice President	7
	Vice President	45
	Senior Vice President	4
	Vice President	0
5	Senior Vice President	0
	Executive Vice President	0

RISK MANAGEMENT SYSTEM

IMPLEMENTATION OF RISK MANAGEMENT TARGET AND STRATEGIC INITIATIVES IN 2022

The BNI's risk management targets and strategic initiatives in 2022 included the following;

- Risiko Kredit
 - Conducting reviews of Credit Risk Risk Appetite;
 - Calculating Risk Weighted Assets (RWA) for Credit Risk;
 - Conducting calculations of Credit Risk RWA using the Standard method
 - Conducting analysis of BNI credit risk RWA calculations
 - Conducting trials for calculating BNI's Credit Risk RWA using a semiannual standard approach for positions at the end of December 2021, June 2022 and December 2022, related to the implementation of OJK Letter (SEOJK) Number 24/SEOJK.03/2021 concerning Calculation of RWA for Credit Risk Using a Standard Approach for Commercial Banks
 - Compiling quantitative disclosures of Credit Risk exposure;
 - Performing credit risk stress testing;

- Conducting Credit Risk analysis/assessment on new/existing Bank products, activities and transactions;
- Reviewing the parameters, measurement/ methodology of the Credit Risk Profile;
- Supporting the updating of BNI Recovery Plan documents;
- Supporting the preparation of the BNI Resolution Plan document;
- Preparing Sustainability Finance or Environment, Social & Governance (ESG) Reports;
- As SSG ESG coordinator: Coordinating ESG meetings and discussions (minutes and proposals);
- Developing an Impairment Model related to the application of the latest accounting standards (IFRS 9);
- Carrying out the preparation of Unsecured and Secured LGD Models for IFRS 9 calculations;
- Conducting a document review of Credit Risk Management Policies and Procedures;
- Conducting a standard review of financial ratios per industry for 2022;
- Conducting a 2022 Industry Risk Rating (IRR) review;
- Conducting analysis/study of risk analysis on priority economic sectors;
- Carrying out monitoring of priority economic sectors;
- Conducting a 2022 Industry Risk Appetite review;

- Conducting a Risk Acceptance Criteria per Economic Sector;
- Conducting a review of the 2022 BNI Loan Exposure Limit (LEL);
- Implementing the Internal Rating System (IRS) and Financial Institution (FI)/Bank as well as monitoring the implementation of the rating system and FI/ Bank;
- Monitoring the Business Banking debtor rating system in the corporate, medium and small segments;
- Developing the IRB model and improving the debtor rating system in the corporate, medium and small segments;
- Developing policies/Implementation Guidelines (Juklak) for the Early Warning System (EWS) for the Corporate segment (EWS Moody's);
- Monitoring the Early Warning System (EWS) system in the corporate segment for public companies;
- Conducting the development of Credit Risk RWA calculations according to BASEL III Reform criteria;
- Conducting credit risk measurement – Reviewing PSAK 71 impairment model;
- Conducting calculation of Credit Risk Premium (CRP);
- Conducting loan portfolio analysis/study including reviews of 25 core debtors and Non Performing Loan (NPL) analysis;
- Conducting loan portfolio analysis/study including reviews of 25 core debtors and Non Performing Loan (NPL) analysis
- Conducting analysis/study of BNI Credit Guarantee
- Conducting analysis/studies on the Evaluation of the Implementation of the National Economic Recovery Program (PEN)
- Conducting calculations and reports on BNI Restructuring Credit due to the Impact of the COVID-19 Pandemic (Weekly, Monthly and Quarterly)
- Monitoring available loan space on a regular basis;
- Developing, reviewing and/or calibrating credit scoring (application/behavior/collection) as well as other risk modeling through the utilization of internal (customer level) and external data for Consumer Credit Products, Mass Retail and Small Segments up to Rp5 billion;
- Implementing and monitoring the implementation of credit scoring logic/rules (application/behavior/ collection) for Consumer, Mass Retail, Small Segment credit products up to Rp5 billion in IDEAS and in scoring modules in other surrounding systems;
- Conducting IDEAS enhancements by adding internal data, external data and integration of surrounding systems;
- Developing Scorecard Governance related to the development, implementation, monitoring and review of scoring and modeling for products that use credit scoring;
- Preparing analytical reports for consumer and retail portfolios;

- Conducting external credit scoring backtesting as well as assisting in the establishment of Risk Acceptance Criteria (RAC) and credit risk mitigation related to plans for cooperation with Bank partners as providers of technology-based financial services;
- Validating the Credit Risk model for the Business Banking Segment (Corporate, Medium and Small) and the Consumer Segment (consumer and mass retail) for the new rating/scoring model or the existing model submitted for validation;
- Monitoring the implementation of concerns for improving the Credit Risk Profile;
- Performing Credit Risk Stress Test validation;
- Conducting PD and LGD model validation on IFRS 9 calculations;
- Conducting EWS validation (small & medium);
- Conducting Industry Risk Rating validation;
- Validating Single Integrated Monitoring for SME and Commercial segments;
- Conducting Credit Scoring validation (Credit Card, Fleksi and others);
- Conducting IRS 2.0 validation for the Corporate and Medium Segments;
- Conducting the process of rerating corporate and medium debtors for the establishment of CKPN;
- Conducting analysis/assessment of Credit Risk provisions on the Bank's planned activities and new transactions
- Conducting analysis of performance monitoring, review, calibration as well as developing new scoring and modeling for consumer credit products (i.e. Credit Cards and BNI Griya) and mass retail (i.e. BNI Entrepreneurs, KUR and small segments) through the utilization of internal (customer level) and external data;
- Implementing (piloting/full implementation) of the application/behavior/collection scorecard for consumer credit products, mass retail (a.l. BNI Entrepreneurs and KUR) and the Small Segment using a scoring system on the loan application system/Integrated Decision Automated System (IDEAS);
- Developing Scorecard Governance related to monitoring and reviewing scoring and modeling for consumer and mass retail credit products (including BNI Entrepreneurs and KUR) and the Small Segment that uses a scoring system;
- Preparing analytical reports for consumer and retail portfolios;
- Implementing Credit Scorecard Application for Small Segment Loans up to Rp5 Billion;
- Building a scoring model for the Merchant Acquisition process and a behavior scorecard for the Merchant Lending Model;
- Developing a scorecard model for consumer products (Credit Card and BNI Griya) as well as KUR products using an ensemble method that combines machine learning models;
- Supporting the process of developing E2E Credit Processing by assisting in the process of preparing documents, POC and UAT Loan Management System (LMS);

- bh. Carrying out a joint development of Single Integrated Monitoring Tools (SIMON) in collaboration to develop a monitoring model for the Small, Medium and Corporate Segments;
- bi. Conducting credit risk assessment, external credit scoring backtesting as well as assistance in determining Risk Acceptance Criteria (RAC) and credit risk mitigation related to cooperation plans with Bank partners as providers of technology-based financial services
- bj. Implementing Credit Card Behavior Scorecard to support Customer Management Programs such as Increase Limit Program (CLIP), Shadow Limit, LOP and Win Back;
- bk. Actively supporting the implementation of the Digital Loan Program through eFORM (Credit Card), KUR (BNI Move) and Mbanking (BNI Fleksi), integrated with IDEAS;
- bl. Conducting an assessment of the impact of COVID-19 and the latest economic conditions on the BNI Credit Portfolio;
- bm. Validating the Single Integrated Monitoring Tools for the Corporate, Large Commercial and SME Segments;
- bn. Backtesting the Adequacy of Expected Credit Loss (ECL);

2. Market Risk

- a. Preparing document review of Market Risk Management Policies and Procedures;
- b. Reviewing and developing market risk management policies, procedures and methodologies;
- c. Conducting review of policy documents, procedures, methodology and reporting of IRRBB (Interest Rate Risk In Banking Book) for BNI Individual and Consolidated;
- d. Preparing market risk limit review, for the BNI portfolio, including:
 - Market Risk Limits (VaR, Budget Loss, VaR Stress);
 - Review of EWS Forex parameters;
 - Review of Securities EWS parameters;
 - Review of Off Market Price parameters;
 - Review of JIBOR Quotation Fairness parameters;
 - Review of IRRBB modeling results;
- e. Remodeling Vasicek Treasury Instruments for IFRS 9 requirements;
- f. Monitoring significant securities transactions and limits;
- g. Monitoring and reviewing the budget loss limit of the Treasury and KCLN;
- h. Monitoring the transaction authority/deal size for treasury dealers and KCLN;
- i. Compiling quantitative disclosures of Market Risk exposure;

- j. Conducting stress testing of exchange rates and interest rates based on business as usual, monitoring and analyzing the development of incidental market risk stress testing parameters and scenario analysis of recovery plans;
- k. Performing backtesting on Value at Risk (VaR);
- l. Performing calculation of Market Risk Weighted Assets (RWA) using the Standard method;
- m. Validating the Market Risk model;
- n. Performing Market Risk analysis/assessment on new/existing Bank products, activities and transactions;
- o. Evaluating the calculation of Net Open Position (NOP);
- p. Evaluating the calculation of Interest Rate Risk in Banking Book (IRRBB);
- q. Reviewing risk level calculations for forex, derivative and reverse repo transactions;
- r. Monitoring the limits related to the concentration of securities;
- s. Preparing reports and evaluating investment limits and investment timeframe per DLK instrument;
- t. Preparing reports and evaluating counterparty limits per instrument;
- u. Preparing reports and limit evaluations per counterpart;
- v. Preparing reports and evaluating bond ratings (at the time of purchase and daily);
- w. Preparing reports and monitoring the liquidity of Financial Institution Pension Funds (DLK);
- x. Preparing reports and monitoring Mark to Market investment bonds and mutual funds;
- y. Preparing reports and monitoring Value at Risk (VaR) of bond and mutual fund investments;
- z. Conducting review of Market Risk Risk Appetite;
 - aa. Conducting review of parameters and measuring the Market Risk Profile;
 - ab. Supporting the preparation of the BNI Recovery Plan document;
 - ac. Implementing Kondor Global Risk (KGR) Market Risk;
 - ad. Developing the historical KCLN VaR method.

3. Liquidity Risk

- a. Preparing documents for review of Liquidity Risk Management Policies and Procedures;
- b. Reviewing limits and developing Liquidity Risk Management Policies, Procedures and methodologies, including:
 - BNI Wide and Regional Rupiah and Forex cash ceilings;
 - Safety Level Limits for Rupiah and foreign currencies;
 - Maturity Profile Limits for Rupiah and foreign currencies;
 - Early Warning indicators for Rupiah and foreign currencies.

- c. Conducting review and developing Policies, Procedures and Methodologies for Managing Domestic Liquidity Risk and Overseas Branch Offices;
- d. Preparing individual and consolidated BNI Liquidity Coverage Ratio (LCR) policies, procedures, methodologies and reporting documents;
- e. Preparing policy documents, procedures, methodology and reporting for BNI's Net Stable Funding Ratio (NSFR) individual and consolidated;
- f. Conducting monitoring and analysis of cash management per region;
- g. Compiling quantitative disclosures for Liquidity Risk exposure;
- h. Conducting Liquidity Risk stress testing according to schedule (business as usual), monitoring and analyzing the development of incidental liquidity Risk stress testing parameters and scenario analysis recovery plan;
- i. Conducting Liquidity Risk analysis/assessment on new/existing Bank products, activities and transactions;
- j. Conducting review of Liquidity Risk Risk Appetite;
- k. Reviewing the parameters and measurements of Liquidity Risk Profile;
- l. Monitoring liquidity periodically;
- m. Supporting the preparation of the BNI Resolution Plan document;
- n. Compiling the BNI Recovery Plan documents;
- o. Monitoring DLK Liquidity.

4. Operational Risk

- a. Conducting review of Operational Risk Risk Appetite;
- b. Compiling document review of Operational Risk Management Policies and Procedures;
- c. Conducting Operational Risk analysis/assessment on new/existing Bank products, activities and transactions;
- d. Conducting review/calculation of Operational Risk Weighted Assets (RWA) using the Basic Indicator Approach method;
- e. Compiling disclosure of quantitative exposure to Operational Risk;
- f. Implementing Risk Control Self Assessment (RCSA), Loss Event Database (LED), Key Risk Indicator (KRI) and Business Continuity Management (BCM) operations in Divisions/ Units, Regions, Domestic Branches, Supporting Branch Offices, Cash Offices, Sentra and Related Overseas Branch Offices;
- g. Supporting the updating of BNI Recovery Plan documents;
- h. Coordinating the preparation of the BNI Resolution Plan document;
- i. Compiling document review of Business Continuity Management (BCM) Policies and Procedures;

- j. Evaluating Business Continuity Management/BCM documents (Call Tree and CMT/ETF Organization Decree, Threat and Risk Analysis/TRA), Business Impact Analysis/BIA and BCM Maintenance);
- k. Conducting operational risk identification analysis by reviewing risk issues in all organizational units;
- l. Conducting Operational Risk analysis for Internal and External needs;
- m. Compiling the results of Operational Risk Monitoring in all organizational units;
- n. Compiling Quick Review and Operational Risk Assessment;
- o. Organizing Operational Risk Management Forum (FRO) and managing the follow-up of the results;
- p. Conducting parameter review and measurement of the Operational Risk Profile;
- q. Compiling the results of monitoring and evaluation of the implementation of BCM related to disaster events in all organization units;
- r. Compiling the results of monitoring and evaluating the optimization of the Data Center (DC) functions, Disaster Recovery Center (DRC), BCM Center and BCM Building and reviewing alternate critical site units;
- s. Conducting site visits, simulations and socialization of BCM in all units and preparing reports on the results of BCM activities;
- t. Conducting system testing and critical work unit applications;
- u. Developing and Implementing Merchant Fraud Scorecard;
- v. Reviewing and strengthening card skimming mitigation;
- w. Improving and reviewing lead data business processes for data leakage mitigation;
- x. Improving and reviewing credit card fraud business processes;
- y. Improving and reviewing digital account opening business processes;
- z. Compiling digital risk frameworks, policies and procedures;
 - aa. Improving and reviewing end-to-end merchant business processes;
 - ab. Conducting an assessment for granting RAS VPN access for WFH employees;
 - ac. Playing an active role in providing operational risk analysis on bank project initiatives such as Outlet Transformation – BCG, Himbara-Jalin, etc.

5. Legal Risk

- a. Conducting review of the Legal Risk Management Policy;
- b. Conducting review of Legal Policy;
- c. Conducting legal analysis/studies by providing written and oral advice;
- d. Carrying out legal counseling/training;
- e. Conducting legal review of non-standard agreements using the scoring system calculation method;

- f. Providing assistance to business units related to business activities;
- g. Handling and resolving legal cases;
- h. Supervising case handling;
- i. Performing legal risk analysis/assessment on new/existing products, activities and transactions of the Bank;
- j. Reviewing the parameters and measuring the Legal Risk Profile;
- k. Conducting legal reviews and follow the Credit Committee on credit proposals decided by the Board of Directors.

6. Reputation Risk

- a. Reviewing the Reputation Risk Management Policy;
- b. Delivering responses/response letters to the mass media regarding customer complaints/grievances against BNI;
- c. Maintaining BNI's reputation and image towards all stakeholders;
- d. Performing Reputation Risk analysis/assessment on new/existing Bank products, activities and transactions;
- e. Reviewing the parameters and measuring the Reputation Risk Profile.

7. Strategic Risk

- a. Conducting a review of the Strategic Risk Management Policy;
- b. Sharpening long-term strategies and targets in the 2022-2023 Corporate Plan focusing on digital-based business development;
- c. Compiling short-term plans in the Board of Directors General Policy (KUD) taking into account macroeconomic conditions and industry competition, as well as competitive assessment of peers;
- d. Compiling medium-term plans in the Bank's Business Plan (RBB) by strengthening unit strategy alignment in an effort to achieve corporate strategy and targets;
- e. Conducting socializing of strategies and targets set in KUD and RBB to all Divisions/Units/Units/Regions;
- f. Conducting continuous organizational improvements, particularly for strengthening branch and regional offices, structuring business support functions, and reviewing business processes related to digital business models;
- g. Sharpening information and reviews on global, national, regional economic and business conditions and the latest business potential of subsidiaries to broaden insights and to assist in making strategic decisions;

- h. Compiling studies on BNI's priority sectors (covering Industry Overview, industry characteristics, Key Success Factors & Key Risk Factors, industrial developments studied, BNI's financing portfolio and lessons learned from this financing, as well as Industry Outlook);
- i. Conducting evaluations and monitoring the strategies and targets achievements set in KUD, RBB and Business Plan Units;
- j. Conducting reviews and monitoring new products and activities, especially related to digital products and activities;
- k. Conducting Strategic Risk assessment on new/existing Bank products, activities and transactions;
- l. Conducting a parameter review and measurement of the Strategic Risk Profile.

8. Compliance Risk

- a. Conducting review of the Compliance Risk Management Policy;
- b. Creating a Compliance Culture at all levels of the organization and bank business activities;
- c. Ensuring the Bank's Policies, Provisions, Systems and Procedures and Business Activities are in accordance with the Regulatory Provisions and the applicable Laws and Regulations;
- d. Monitoring and maintaining the Bank's compliance with commitments to Bank Indonesia, the Financial Services Authority and other Authorities;
- e. Managing the Whistleblowing System (WBS) and Anti-Fraud Strategy;
- f. Compiling and improving compliance tools/systems and communication media (Compliance Forum);
- g. Implementing and evaluating the compliance index;
- h. Conducting Compliance Risk assessment on new/existing Bank products, activities and transactions;
- i. Conducting the Compliance Risk Profile parameters and measurements;
- j. Managing compliance risk;
- k. Controlling Gratification and Anti-Bribery;
- l. Monitoring the compliance function in Subsidiaries.

9. Risk Integration

- a. Conducting review of Risk Management Policies: General Risk Management Policies and Internal Control Systems;
- b. Conducting review and developing Risk Integration Procedures: Risk Profile Assessment, Bank Health Level, Risk Appetite, Risk Culture, Internal Capital Adequacy Assessment Process (ICAAP), and Risk Management disclosures;

- c. Conducting analysis and assessment of BNI individual Health Level;
- d. Conducting analysis and assessment of BNI's Risk Profile and providing suggestions and recommendations for improvement;
- e. Conducting calculations of BNI's Minimum Capital Adequacy Requirement (KPMM) according to the Risk Profile;
- f. Conducting an analysis of 8 (eight) types of risk in the Internal Risk Report (IRR);
- g. Optimizing the preparation of risk strategies and Risk Appetite in line with business goals and strategies;
- h. Compiling BNI Risk management application documents in the Bank's Business Plan;
- i. Monitoring Risk Appetite and Risk Tolerance;
- j. Compiling disclosure (disclosure) Implementation of Bank Risk Management;
- k. Conducting risk analysis/assessment on new/existing Bank products, activities and transactions;
- l. Managing and developing Risk Management Information Systems (RMIS) as well as the Bank's Risk Management database;
- m. Conducting review of the Recovery Plan company guidelines;
- n. Performing analysis and monitoring of the Threshold Recovery Plan;
- o. Improving the risk culture, coordinating with the culture specialist group;
- p. Reviewing the parameters and methodology for measuring the BNI Risk Profile;
- q. Developing Branch Level Risk Profile initiatives (including calculation methodologies, parameters and implementation).

10. Risk Integration in the BNI Financial Conglomerate

- a. Conducting review of Integrated Risk Management policies: Integrated Risk Management General Policy (KUMRT) and Integrated Capital;
- b. Conducting review and developing Integrated Risk Management (MRT) implementation procedures::
 - MRT procedures;
 - Integrated Risk Profile Assessment Procedures;
 - Integrated Capital Procedures.
- c. Conducting a review of the 2022 Integrated Risk Appetite Statement and Integrated Risk Limits;
- d. Conducting integrated risk limit analysis and monitoring;
- e. Conducting integrated analysis and monitoring of Risk Appetite;

- f. Conducting analysis and assessment of BNI Health Level on a consolidated basis;
- g. Conducting analysis and assessment of the Consolidated and Integrated BNI Risk Profile and providing suggestions and recommendations for improvement;
- h. Conducting BNI Consolidated and Integrated Capital Adequacy Requirement (KPMM) calculations;
- i. Conducting analysis and monitoring of the main risks of all FSI members of the BNI Financial Conglomerate through the Leading Risk Indicator (LRI);
- j. Compiling documents for monitoring and reviewing the implementation of integrated risk management in the BNI Financial Conglomerate (KK);
- k. Ensuring that all Financial Services Institutions (FSI)/Subsidiaries have policies and procedures related to the implementation of Risk Management;
- l. Providing guidance and input to Subsidiaries in implementing Risk Management;
- m. Organizing Integrated Risk Management Committee (KMRT) meetings and providing input to the KMRT in the framework of preparing recommendations for Integrated Risk Management policies, strategies and frameworks;
- n. Conducting Integrated stress testing validation.

BNI'S RISK MANAGEMENT IMPLEMENTATION

The BNI Risk Management implementation has the following objectives:

1. Managing risks inherent in BNI's relatively complex products, activities, and business activities;
2. Providing an overview to Management of possible losses that may occur in the future;
3. Improving methods and systematic decision making process based on the information availability;
4. Maintaining and improving BNI's Risk Profile assessment in either individual, consolidated, or integrated manner as the Financial Conglomerate;
5. Managing adequate capital structure to cover risks that may arise;
6. Providing more accurate basis for measuring performance;
7. Creating and maintaining BNI's strategic position and reputation;
8. Creating competitive advantage and maintaining sustainable growth to increase BNI's shareholder value.

BNI's Risk Management implementation is carried out in accordance with the regulator's provisions, which involves the following 4 (four) pillars of Risk Management implementation:

ACTIVE MONITORING BY THE BOARD OF DIRECTORS AND THE BOARD OF COMMISSIONERS

Active monitoring of Board of Directors is performed by:

1. Preparing risk management policies, strategies, and framework, including risk limits, by considering risk appetite and risk tolerance according to BNI's condition, and measuring the risk impact on the capital adequacy;
2. Preparing, determining, and updating the procedures and tools to identify, measure, monitor, and control risks in BNI;
3. Preparing and establishing transaction approval mechanisms, including those that exceed the limits and authority for each position level;
4. Evaluating and/or updating risk management policies and strategies;
5. Determining BNI's organizational structure, including clear authorities and responsibilities at every position level related to the risk management;
6. Implementing risk management policies, strategies, and framework approved by the Board of Commissioners, and evaluating and providing guidance based on the Risk Management Work Unit reports, including BNI's Risk Profile Assessment;
7. Ensuring that all of BNI's material risks and impact caused by such risks have been addressed;
8. Ensuring the implementation of corrective actions on issues found by the Internal Audit (IAD);
9. Ensuring the quantity and quality adequacy of human resources to effectively support BNI's risk management implementation;
10. Developing risk management culture in BNI including risk awareness at all organizational levels;
11. Ensuring the risk management function is applied independently.

The Board of Directors' supervisory function is carried out through the Board of Directors Meeting Forum (Radisi), Risk Management & Anti Fraud Committee Meeting (KRA), Risk Management Sub-Committee (RMC), Anti-Fraud Sub-Committee (KAF), Credit Policy Committee Meeting Forum, and Credit Procedure Committee (KPP).

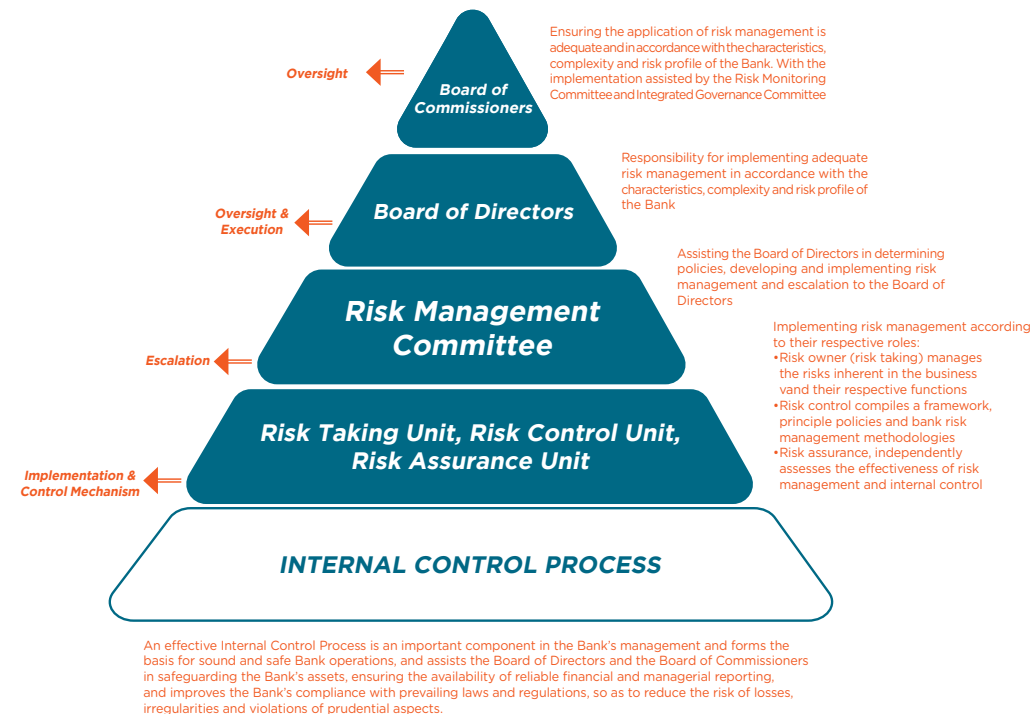

Active supervision by the Board of Commissioners is carried out by:

1. Approving BNI's risk management policies including risk management strategies and frameworks determined by the risk level to be taken (risk appetite) and risk tolerance;
2. Evaluating risk management policies and strategies;
3. Evaluating the Board of Directors accountability and providing direction for improvements to BNI's risk management policies;
4. Ensuring that risk management policies and processes are carried out effectively and are integrated into the overall BNI risk management process.

The Board of Commissioners' supervisory functions are carried out through the Board of Commissioners' Meeting (Radikom), as well as in Risk Monitoring Committee, Integrated Governance Committee and Audit Committee meetings.

To achieve effective Risk Management, the implementation is based on the established Risk Management. Risk Governance regulates the roles and responsibilities, the decision making process, the interrelationship between Risk management functions, and the establishment of policies to ensure Risks are well managed.

BNI RISK MANAGEMENT

ADEQUACY OF LIMIT POLICIES, PROCEDURES, AND ESTABLISHMENT

To support the effective implementation of Risk Management, BNI has developed comprehensive and integrated Risk Management policies and procedures. BNI already has Risk Management General Policies and an Integrated Risk Management General Policy that have been approved by the Board of Commissioners, and serve as a strategic and comprehensive basic reference. This General Policy has been translated into the Risk Management Policy and Procedures.

The Risk Management Policy and Procedures guide the implementation of Risk Management. On an individual basis, BNI's risk management manages 8 (eight) risk types: Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Legal Risk, Strategic Risk, Compliance Risk, and Reputational Risk. Whilst overall BNI manages 10 (ten) risk types: the 8 (eight) risk types managed individually plus Intra-Group Transaction Risk and Insurance Risk. BNI already has policies and procedures that form the basis for managing each risk, with detailed provisions for each policy and procedure regulated in technical instructions. The hierarchy of policies, procedures, and technical guidelines is shown in the following chart:

As one of the risk control methods, BNI also has a risk limit, as a threshold for determining the intensity level of risk mitigation that will be implemented by management as a risk control method. The limit setting includes a number of limits, such as risk limits (credit risk, market risk, and liquidity risk), limits per functional activity, as well as overall limits.

The risk management policies, procedures, and risk limits carried out by BNI are reviewed periodically with approval up to the Board of Directors level through Committee Meetings or circulation to the Board of Directors according to their level of authority.

ADEQUACY OF PROCESS OF RISK IDENTIFICATION, MEASUREMENT, MONITORING, AND MANAGEMENT, AS WELL AS RISK MANAGEMENT INFORMATION SYSTEM

BNI's risk management process includes a continuous process of identifying, measuring, monitoring and controlling risks for all material risk factors supported by the Risk Management Information System.

The process of risk identification is carried out to analyze the source, level of possibility of risk occurring, and the impact experienced by the company. The matters to consider in the risk identification process are:

1. Periodically identifying all risks;
2. Having a method or system to identify risks in all BNI products and business activities;
3. Identifying specific risks for new products and activities, before new products/activities are introduced or implemented.

The risk measurement process helps to determine the amount of risk exposure as a reference for controlling risk and meeting Capital Adequacy. Risk measurement is carried out quantitatively and/or qualitatively according to the measurement method determined by the regulator or by using internal methods for those not been specifically determined. BNI's Risk measurement also includes stress testing for credit risk, market risk, and liquidity risk to anticipate extreme conditions.

The risk monitoring process is carried out to ensure that risks are managed properly, and include monitoring established mitigation and risk limits. Risk monitoring is carried out by the Operational Work Unit (risk taking unit) as the risk owner and the Risk Management Work Unit as the risk control unit.

The risk control process is carried out primarily to manage risks that can disrupt BNI's business continuity. The risk control strategy undertaken

by BNI includes reducing risk (risk mitigation), accepting risk (risk acceptance), avoiding risk (risk avoidance) and transferring risk (risk transfer).

BNI's Risk Management Information System supports the the processes of identification, measurement, monitoring and risk control, and ensuring the availability of accurate, complete, informative, timely and reliable information so that it can be used in the framework of Management's decision making.

BUSINESS CONTINUITY MANAGEMENT

Disruptions or disasters caused by natural factors, human actions, and systems may happen to BNI's critical business functions, causing disruptions on BNI'S business activities and services. To anticipate such events, BNI has implemented Business Continuity Management (BCM) in all domestic and overseas units to minimize operational risk in emergency events or disaster situations.

The process of implementing BCM is carried out as follows:

1. Establishing the BCM organizational structure in all BNI work units;
2. Assessing the potential risks and threats to gain a picture of disaster events with the highest likelihood and the greatest impact. As well as estimating the actions and facilities that must be prepared;
3. Identifying critical business processes (Business Impact Analysis - BIA) for BNI business continuity in the event of an emergency/disaster. BIA is a reference for units in developing priorities and recovery strategies and recovery timeframes for their main business activities;
4. Preparing a plan for handling emergency conditions as a reference for units in the prevention and handling of emergency conditions and as a reference for implementing building safety and safety standards;
5. Preparing a Recovery Strategy including the decisions to make in an organized way in the event of an emergency that interferes with the Bank's business activities;
6. Creating a Return Strategy with the aim of providing a way to return functions and activities to the service levels before a disaster occurs.

The development of this tool is in line with the Regulatory requirements requiring banks to implement risk control processes to manage risks that could compromise a bank's business continuity, and also in line with the Basel II document requiring banks to have business continuity management and contingency plans to ensure the bank's ability to keep operating and to limit losses due to disruption on their business activities. Beside the Regulator and Basel II for Overseas Branch Office provisions, BCM is implemented by fulfilling BCM regulations in the local country.

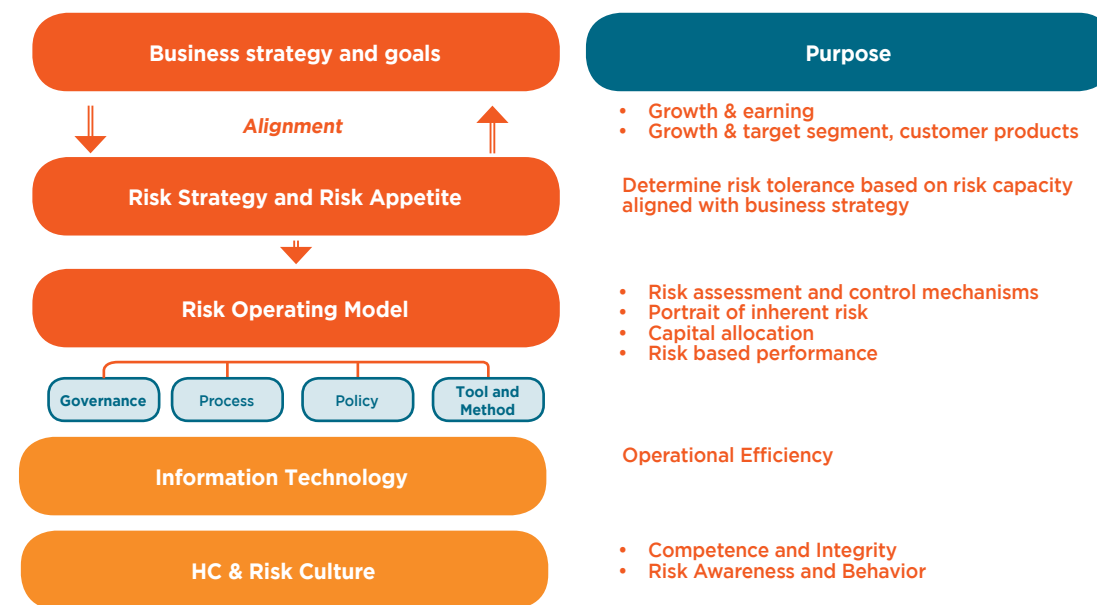

INTERNAL CONTROL SYSTEM

The Company's Internal Control System uses the Three Lines of Defense model which consists of:

1. First Line of Defense or Risk Taking Unit
Performed by the Operational Work Unit as the risk owner who manages the inherent risks in the business and functions (day-to-day risk management and control);
2. Second Line of Defense or Risk Control Unit
Performed by the Enterprise Risk Management Division, Policy Governance Division, and Compliance Division, to encourage all levels of the organization to carry out their functions in accordance with internal regulations;
3. Third Line of Defense or Risk Assurance Unit
Performed by the Internal Audit (IAD) as the Internal Audit Work Unit (SKAI). The Risk Assurance Unit conducts an independent assessment of the Risk Management and Internal Control System process suitability with established internal policies and procedures, as well as compliance with regulatory provisions.

MANAGEMENT RISK STRATEGY

To implement risk management in the Company, BNI considers the need for aligning business strategy and objectives with risk strategy and risk appetite. To do so, the risk strategy and risk appetite are translated into governance, processes, policies, as well as tools and methodologies, supported by strong information technology, human capital, and a risk culture.

Risk management strategies are formulated according to the overall business strategy by considering the level of risk taken (risk appetite) and risk tolerance. The purpose of establishing a risk management strategy is to ensure that risk exposures are managed in a controlled manner in accordance with internal policies and procedures as well as prevailing laws and regulations and other regulations.

The risk management strategy consists of several principles, including:

1. Long-term oriented to ensure the BNI's business continuity;
2. Comprehensive in nature, can control and manage BNI's risk both individually and on a consolidated basis with Subsidiaries and integrated into BNI's Financial Conglomerate;
3. Fulfillment of the required capital adequacy and adequate allocation of resources.

The risk management strategy is prepared by considering the following matters:

1. Economic and industrial developments and their impact on BNI's risk exposure;
2. BNI organization, including the adequacy of human capital and supporting infrastructure;
3. Financial conditions include the ability to generate profits, and BNI's ability to manage risks arising as a result of changes to external and internal factors;
4. Mix and diversify the internal portfolio.

The risk management strategy is formulated according to the business strategy and to provide overall direction in the risk management activities. The risk management strategy consists of 4 (four) main components:

1. The risk level to be taken (risk appetite) and risk tolerance;
2. Risk management principles and policies;
3. Risk governance;
4. Types of risk exposure and market conditions.

The type and magnitude of risk exposures are measured using a risk measurement methodology in accordance with the Regulatory provisions and is linked to risk appetite, risk tolerance, predetermined limit, and capital availability and planning.

Risk management governance strategies:

1. The Risk Management Strategy is one of the references in determining the business strategy as outlined in BNI's Bank Business Plan (RBB), which is determined on an annual basis and submitted to the Regulator;
2. The risk management strategy is drafted and prepared by the Risk Management Work Unit, approved by the Board of Directors through the Risk Management Sector of the Risk and Capital Committee Meeting, as well as approved by the Board of Commissioners.

The Risk Management Strategy is communicated by the Board of Directors to the Divisions/Work Units and is regularly reviewed in line with changes in business strategies, by considering the economic conditions, banking business, changes in regulations by the Regulator and their impact on the Bank's financial performance.

RISK PROFILE AND MANAGEMENT

TYPE OF RISKS

There are at least 10 (ten) types or risks that shall be managed, which are:

1. Credit Risk
Credit risk is risk due to the failure of another party to meet the obligation to the Bank, including Credit Risk due to debtor's failure, credit concentration risk, counterparty credit risk, and settlement risk.

Credit risk can derive from various bank business activities, such as credit provision, securities purchases, acceptances, interbank transactions, trade finance transactions, exchange value and derivative transactions, as well as commitment and contingency obligations, where credit provision is the largest source of credit risk.

2. Market Risk
Market Risk is a risk in balance sheet and administrative account positions including derivative transactions, due to overall changes in market conditions, including the risk of changes in option prices.

Market risks include interest rate risk, foreign exchange risk, equity risk, and commodity risk.

As a Bank, BNI is prohibited from conducting equity (stock) and commodity transactions. The implementation of risk management for equity and commodity risk is applied in the case of consolidating with Subsidiaries.

3. Liquidity Risk
Liquidity risk is a risk due to the Bank's inability to meet the obligations due from the cash flow source of fund and/or from high quality liquid assets that can be pledged, without disturbing the Bank's activity and financial condition. BNI's Liquidity Risk can occur due to the inability to obtain a cash flow source of fund caused by:
 - a. Inability to generate cash flows from productive assets or from the sale of assets including liquid assets; and/or
 - b. Inability to generate cash flows from fund raising, interbank transactions, and loans received.

4. Operational Risk
Operational Risk is risk due to inadequacy and/or malfunction of internal process, human error, system failure, and/or external incidents affecting the Bank's operations. Operational risk arises among others from internal process, human resources, information technology system and infrastructure, and external events.

5. Legal Risk
Legal Risk is a risk as a result of lawsuits and/or weakness of juridical aspect. BNI's Legal Risk may arise among others from Absence/Change of Legislation, or weak agreement such as unfulfilled valid terms of a contract and incomplete collateral binding.

6. Reputation Risk
Reputation risk is a risk due to the decreasing level of stakeholders' trust caused by negative perception towards the Bank. BNI's Reputation Risk may among others arise due to negative media reporting and/or negative rumors about BNI, and BNI's ineffective communication strategy.

7. Strategic Risk
Strategic risk is the risk due to inaccuracy in making and/or implementing a strategic decision and failure to anticipate changes in the business environment.

BNI strategic risks can occur due to strategies being established that are not in line with the vision and mission of BNI, analysis of the strategic environment that is not comprehensive, and/or there is a mismatch of strategic plans between levels. In addition, BNI's strategic risks can also arise due to failures in anticipating changes in the business environment including failures in anticipating technological changes, changes in macroeconomic conditions, dynamics of competition in the market, and changes in relevant authority policies.

8. Compliance Risk
Compliance Risk is a risk due to the bank not complying with and/or not implementing the prevailing laws and regulations and provisions. BNI's compliance risk may arise from legal behavior, which is BNI's behavior/activity that deviates or violates the provisions or laws and regulations, and organizational behavior, which is BNI's behavior/activity that deviates or is contrary to the general standards.

9. Inter-Group Risk
Risk due to the dependence of an entity, either directly or indirectly, on other entities in one Financial Conglomerate to fulfill written and unwritten agreement obligations, followed by transfer of funds and/or not followed by transfer of funds.

10. Insurance Risk
Risk due to failure of the insurance company in meeting its liability to the policyholders as a result of insufficient risk selection process (underwriting), premium determination (pricing), use of reinsurance, and/or claim handling.

RISK MANAGEMENT EFFORTS

To manage risk effectively and comprehensively, a risk management infrastructure is needed that includes Governance and Organization (including HC), Policies and Procedures, Risk Management Processes, Measuring Tools and Methods (including Quantification of Risk Models), supported by Information Technology and strong Risk Culture.

The Risk Management process for each risk developed and implemented to date in BNI is as follows:

Credit Risk

Credit risk identification is carried out to analyze the sources and possibilities of credit risk arising and its impact, which is carried out periodically according to the product characteristics and types of activities. Credit risk identification is also carried out by preparing an Industry Risk analysis in the priority economic sector.

Credit risk measurement forms an integral part and series of the process of implementing credit risk management and is used as a reference for carrying out risk control.

For processing individual exposures in the business banking segment, BNI already has a debtor rating model through an internal rating system, while for the consumer segment a debtor scoring system is used to help analyze debtor quality in the lending process.

To regulate the portfolio composition, BNI has a Loan Exposure Limit (LEL) that serves to limit the risk of concentration of loan exposure in each economic sector in each segment, and serves as a guideline for business units in expanding loans. To assess the risk for each type of industry, BNI has an Industry Risk Rating (IRR) and a Financial Ratio Standard that is used as one of the factors for assessing the quality of debtors from an industry viewpoint.

BNI also uses the Standardized Approach method for calculating Risk Weighted Assets (RWA) for Credit Risk when assessing the adequacy of the Minimum Capital Requirement (KPMM).

To complement the credit risk measurement system, stress testing is carried out by estimating the Bank's potential losses in abnormal market conditions by using certain scenarios to see the sensitivity of BNI's performance against changes in risk factors, and to identify factors that have a significant impact on BNI's portfolio and capital adequacy.

Stress testing is carried out periodically or can be done at any time according to the needs by considering the economic conditions or according to the needs/requirements of the regulator.

The ERM Division prepares stress testing methodology/models for credit risk by considering the product or activity characteristics and harmonizing them with the rules/requirements of the regulator.

Credit risk monitoring aims to see and ensure that the implementation of the entire credit risk management process is running well and the potential credit risk is still within the permissible risk limit. Credit risk monitoring is carried out on the loan portfolios, and covers growth, quality and concentration of loans, monitoring loan exposure compared to Loan Exposure Limit, and monitoring the Legal Lending Limit.

Credit Risk Control is carried out to prevent the occurrence of bigger losses due to Credit Risk and is supported by several credit risk management tools at the individual and portfolio exposure level.

Market Risk

Market risk identification, measurement, monitoring, and control is carried out by an independent unit from the business unit. Market Risk Identification is mainly carried out for each new product or activity.

The Market Risk Identification objectives include:

1. Determining transactions/products exposed to Market Risk;
2. Grouping the Market Risk based on the existing criteria;
3. Facilitating the measurement of Market Risk and its control.

Periodic Market Risk Measurement is carried out on all trading book and banking book portfolios exposed to Market Risk. BNI conducts Risk Market measurement by using a Standardized Method and an Internal Method. The Standardized Method is used to calculate the Minimum Capital Reserve Requirement (KPMM) of Market Risk, while the daily Market Risk management uses the Internal Method (Value at Risk).

The portfolio coverage calculated in KPMM by using Standardized Method is the trading book portfolio for interest rate risk and the trading book and banking book portfolio for domestic and overseas branch office's exchange rate risk.

The process of monitoring and reporting Market Risk is conducted periodically, including:

1. Monitoring and reporting the amount of Market Risk on all Bank portfolios exposed to Market Risk;
2. Monitoring and reporting on compliance with Market Risk limit (realization of Market Risk exposures compared to their limits);
3. Recommending follow-up for occurrence of exceeding limits, and/or occurrence of abnormal market conditions, and/or occurrence of other conditions that lead to increased Market Risk potential.

Market Risk Control is carried out to prevent the occurrence of bigger losses due to Market Risk by establishing market risk limits in the Treasury Division and Overseas Branch Offices, including:

1. Value at Risk Limit (VaR Limit), the maximum potential loss that may occur at any time in the future with certain confidence level;
2. Stress Value at Risk Limit (Stress VaR Limit), a measurement of market risk adjusted to abnormal conditions in the market or maximum potential loss when the market is abnormal;
3. Budget Loss Limit, used to limit the realization of business activities losses;
4. Management Action Trigger (MAT), the Limit to take action against the risk of changes in loss value (early warning signal). MAT completes the loss limit in the form of a certain percentage of the budget loss limit;
5. Limit on securities purchases, which is used to limit the concentration of purchases of corporate securities by rating and type of currency of the securities;

6. The Interest Rate Risk in Banking Book (IRRBB) limit using the Net Interest Income (NII) method and the Economic Value of Equity (EVE) approach to limit interest rate risk in the banking book;
7. Nominal of open position limit, the maximum nominal of open position limit that a dealer can use;
8. Overall NOP internal limit (absolute), the maximum limit of NOP management.

Liquidity Risk

Liquidity Risk Identification is the process of obtaining and analyzing the sources of Liquidity Risk inherent in all business activities/transactions/products that can financially impact the Bank.

Every activity/product/transaction is analyzed and differentiated to ensure that every Liquidity Risk has been identified, measured accurately, managed according to the right method, and is well controlled.

Liquidity risk management aims to minimize the possibility of the Bank's inability to obtain cash flow source of fund, and builds the structural liquidity strength of the bank's balance sheet to support sustainable long-term growth.

Liquidity Risk Measurement Methods include liquidity ratio, maturity profile, cash flow projection, stress testing, and Liquidity Coverage Ratio (LCR). The monitoring process and/or reporting Liquidity Risk is conducted periodically, including:

1. Monitoring and reporting the amount of Liquidity Risk on all Bank activities/products exposed to Liquidity Risk;
2. Monitoring and reporting compliance with Liquidity Risk limit (realization of Liquidity Risk exposures compared to their limits);
3. Monitoring internal and external early warning indicators to determine the potential for increased Liquidity Risk;
4. Recommending follow-up on the occurrence of exceeding limits and/or occurrence of abnormal market conditions, and/or occurrence of other conditions that lead to increased Liquidity Risk potential.

In managing liquidity, in addition to managing the primary reserve (cash and GWM), BNI holds and maintains secondary reserves to ensure that liquidity is at a safe level. For the secondary reserve, BNI holds and maintains a tertiary reserve. Determination and monitoring of limits is carried out periodically, including:

1. BNI Wide Cash Ceiling Limit, the maximum limit for maintaining BNI rupiah cash balances in total consisting of Branch/Central Cash and Other Cash (ATM Replenish Cash, ATM Cash and CRM Cash);

2. The Limit Safety Level, the minimum amount of Secondary Reserve that must be maintained to anticipate withdrawals of TPF based on the volatility of each type of TPF and the volatility of loan disponibles with a certain confidence level;
3. Maturity Profile Limits, cumulative behavioral maturity gap limits up to 1 month. This limit is a condition for the rupiah maturity profile limit and the foreign currency maturity profile limit;

Foreign Currency Loan Limitation is based on Availability of Forex Liquidity, as a mechanism for controlling the maximum amount of foreign currency funds that can be channeled for granting onshore loans, offshore loans and local loans originating from conventional sources of funds and non-conventional funds, as well as a mechanism for mitigating liquidity risk based on the availability of funds, and not as the credit risk limit.

Whereas, the availability of the entire reserve is monitored daily, weekly, and monthly by the Treasury Division (TRS) Division and ERM Division.

Operational Risk

BNI's operational risk management consists of 5 (five) main continuous processes, identification, assessment, measurement, monitoring, and control.

1. Risk Identification
The method used to identify and measure operational risk includes: Risk Control Self-Assessment (RCSA), risk mapping, Key Risk Indicators (KRI), scorecards, event analysis, frequency matrix, quantitative methodologies, and qualitative methodologies. The method used to identify and measure operational risk in BNI is summarized in an application, namely PERISKOP (Operational Risk Tool). PERISKOP is a tool or device used for managing operational risk and includes recording loss events, compiling follow-up actions, and mitigating them.
2. Risk Assessment
Performed by each risk owner unit through operational risk self-assessment methods, including assessment of impacts, frequency, and causes of risks and their solutions.
3. Risk Measurement
In accordance with the Regulatory provisions, the current operational risk measurement is the Basic Indicator Approach method.

4. Risk Monitoring

Performed by all units as the first line of defense on the main risks during ongoing operational activities. The Enterprise Risk Management Division evaluates and prepares report/feedback on risk assessments based on self-assessment results as well as realization on operational risk losses that happen that includes:

- Report feedback for all divisions/units/areas/branches;
- Monthly reports on Operational Risk Expenses Monitoring, submitted to the Board of Directors;
- Operational Risk Profile Report.

5. Risk Control

The operational risk mitigation mechanism is reflected in the internal control process by implementing 4 (four) risk mitigation strategies, namely avoid, reduce, transfer and receive, with the aim of minimizing losses due to malfunctioning internal processes, human factors, systems and technology, and external events. The four risk mitigation strategies are contained in the Operational Risk mitigation procedures and include control procedures, transaction settlement and reconciliation procedures, accounting procedures, asset and custodian safekeeping procedures, product supply procedures and Fraud prevention procedures.

Business Continuity Management

Disturbances or disasters caused by natural factors or as a result of human actions, or systems can occur in critical business functions, causing disruption to business activities and BNI services.

To anticipate such events, BNI has implemented Business Continuity Management (BCM) in all domestic and overseas units to minimize operational risk in emergency events or disaster situations.

The process of implementing BCM is carried out as follows:

- Establishing the BCM organizational structure in all BNI work units;
- Assessing the potential risks and threats to gain a picture of disaster events with the highest likelihood and the greatest impact. As well as estimating the actions and facilities that must be prepared;
- Identifying critical business processes (Business Impact Analysis - BIA) for BNI business continuity in the event of an emergency/disaster. BIA is a reference for units in developing priorities and recovery strategies and recovery timeframes for their main business activities;

- Preparing a plan for handling emergency conditions as a reference for units in the prevention and handling of emergency conditions and as a reference for implementing building safety and safety standards;

- Preparing a Recovery Strategy including the decisions to make in an organized way in the event of an emergency that interferes with the bank's business activities;

- Creating a Return Strategy with the aim of providing a way to return functions and activities to the service levels before a disaster occurs.

The development of this tool is in line with the Regulatory requirements requiring banks to implement risk control processes to manage risks that could compromise a bank's business continuity, and also in line with the Basel II document requiring banks to have business continuity management and contingency plans to ensure the bank's ability to keep operating and to limit losses due to disruption on their business activities. Beside the Regulator and Basel II for Overseas Branch Office provisions, BCM is implemented by fulfilling BCM regulations in the local country.

Digital Risk Management

To support the growth in digital products, BNI has instigated effective digital risk management through the process of identifying, assessing, measuring, monitoring and controlling the risk of digital products for 8 (eight) aspects of digital risk, namely cybersecurity risk, third party risk, process automation risk, data privacy risk, resilience risk, compliance risk, cloud related risk, and workforce risk.

In line with the growth of digital products and innovations in information technology (IT), this will have an impact on increasing the risk of cybersecurity threats. For this reason, BNI specifically carries out strengthening of cyber security risk management following cyber security risk management standards, cyber security testing and reporting on the cyber security risk management.

Recovery Plan

The recovery Plan is a plan to overcome (prevent, recover and improve) financial problems that may occur in the Systemic Bank. The preparation of the Recovery Plan is a fulfillment of OJK Regulation No. 14/POJK.03/2017 dated April 4, 2017 concerning

Recovery Plans for Systemic Banks, which is intended to early address financial problems that may occur in systemic Banks through a "bail in" mechanism" so that these financial problems will not trigger a systemic impact on the national financial system.

BNI as a Systemic Bank is required to prepare a Recovery Plan for OJK on a regular basis at least 1 (one) time in 1 (one) year and submit an update of the Action Plan (Recovery Plan) to OJK no later than the end of November.

The Action Plan Update Document (Recovery Plan) is made up of several components which include:

- Executive summary
- An overview explaining the condition of the bank and business group together with a strategic analysis of the materiality level of business entities, business lines and distribution networks
- Scenario analysis including an analysis of the impact of changes in the Bank's condition based on critical scenarios, namely idiosyncratic, market-wide and combination
- Recovery Options containing recovery indicators, divided into three phases namely Early Warning, Recovery and Corrective, as well as a number of recovery options for the four risk dimensions namely Capital, Liquidity, Earnings and Asset Quality
- Disclosure and Governance, the Governance section regulates organization and decision making authority as well as work mechanisms and escalation of crisis management for each crisis phase.

The Recovery Plan document prepared by BNI for 2022/2023 is an update of the 2021/2022 Recovery Plan Document and has been submitted to OJK.

Legal Risk

The legal risk identification process is carried out by analyzing all legal risk sources, and is carried out on legal risk from BNI's products and business activities, as well as new products and business activities through a legal risk management control process before they are introduced or implemented.

The process of identifying legal risks inherent in the Bank is carried out using the following indicators/parameters:

- Litigation Factor;
- Factors of Engagement Weaknesses;
- The Factor of Absence/Change of Legislation.

Legal risk measurement is calculated using indicators/parameters for identifying legal risks compared to Bank capital. The legal risk measurement results are reflected in the Legal Risk Profile. Monitoring legal risk is carried out by evaluating exposure to inherent legal risk, especially those of a material nature or those may

impact BNI's capital. The monitoring results including evaluation of legal risk exposure are reported regularly and include the necessary follow-up actions.

The legal risk control process is used by BNI to manage legal risks especially those that could endanger BNI's business continuity. Legal Risk control process is carried out by:

- Conducting evaluations/assessments in the form of judicial reviews in the event of new products or new activities, or changes in/additional features on BNI's products;
- Providing legal advice and/or legal assistance in the event of Legal Risks in the operational activities;
- Periodically reviewing standard agreement formats, in particular credit agreements, to ensure compliance with laws and regulations and other applicable provisions;
- Periodically reviewing contracts and agreements between BNI and other parties, especially for non-standard agreements or agreements that have not been standardized in the Company Guidelines;
- Conducting intensive monitoring on legal issues, particularly lawsuits based on Actions Against the Law involving the Bank as Defendant or Co-defendant.

Reputation Risk

To identify and measure the impact of Reputation Risk, BNI uses several sources of information including mass media coverage, Bank websites, and analysis of social networks, customer complaints through customer service, and customer satisfaction questionnaires.

Monitoring of news management and crisis communication management and monitoring of news media/social media opinions/comments is conducted in a coordinated manner by the Bank's Risk Management Division and the Corporate Communication and Secretariat Division, while management of customer complaints/grievances is carried out in collaboration with BNI Contact Center (BCC).

The Corporate Communication and Secretariat (KMP) Division monitors and reports any Reputation Risk that occurs to the Board of Directors both incidentally at the time of the incident and periodically including the necessary follow-up actions. BNI has developed a mechanism for performing effective reputation risk control measures. In general, reputation risk control is carried out through 2 (two) activities:

- Prevention of events leading to reputation risk;
- Recovery of the Bank's reputation after a reputation risk incident occurs.

Compliance Risk

Compliance risk identification is carried out by analyzing factors that can increase compliance risk exposure such as the type and complexity of BNI's business activities, including new products and activities, the volume and materiality of the Bank's non-compliance with internal policies and procedures, as well as the prevailing laws and regulations and provisions as well as sound business ethics and practices.

Compliance Risk Measurement is carried out by using indicators/parameters such as:

1. Types and significance of violations committed;
2. Frequency of violation (Bank's compliance track record);
3. Violations against certain financial transaction provisions.

As part of the compliance risk measurement, the indicators/parameters and the amount of weight and ratio used to measure the compliance risk profile are determined by the Compliance Division with due regard of input from the Board of Directors, the Bank's Risk Management Division (ERM), and other Units as well as Regulatory provisions, if any. The Compliance Division monitors and reports on the Compliance Risk that occurs to the Board of Directors either incidentally at the time the Compliance Risk occurs or periodically.

Compliance Risk Control is carried out through preventive actions or measures to ensure the policies, provisions, systems, and procedures, as well as business activities carried out by BNI are in accordance with the Regulatory provisions and prevailing laws and regulations, as well as to ensure BNI's compliance with the commitments made to the Regulators and/or other authorized supervisors. Compliance Risk Control is not only carried out on organizational units in the country but also includes organizational units overseas.

Strategic Risk

Strategic risk identification is carried out to identify strategic risk factors inherent in every functional activity that could potentially harm BNI, for example inappropriate policies, low responsiveness to changes that occur, implementation of policies that are not according to plan, or because the implementation is not in line with the predefined schedule.

The Risk measurement approach used in measuring Strategic Risk Profile uses 4 (four) parameters: strategy suitability with the business environment

conditions, highrisk strategies and lowrisk strategies, BNI's business position against competitors, and the achievement of Bank's Business Plan (RBB).

The Strategic Planning Division (REN) and the Budgeting and Financial Control Division (PKU) monitors the realization of business strategies on a bank-wide basis and in each Division/Unit so that problems with the implementation of strategies and work programs can be identified and be corrected immediately so that financial targets set can be achieved.

Intra-Group Transaction Risk

Transactions Identification of intra-group transaction risk is carried out by analyzing the types of products and/or transactions between FSI in the BNI Financial Conglomerate that may pose an intra-group transaction risk in the BNI Financial Conglomerate. Measurement of intra-group transaction risk ranks the risk level of intra-group transactions in the Financial Conglomerate. BNI as the main entity measures the intra-group transaction risk and compiles an intra-group transaction risk measurement methodology, and evaluates the suitability of the assumptions, data sources, and procedures used to measure intra-group transaction risk.

Monitoring intra-group transaction risk is carried out by evaluating the material Intra-group Transaction Risk exposure, or those that have an impact on the capital condition of the Financial Conglomerate; and to improve the process and scope of reporting, if there are material changes in business activities, products, transactions, and risk factors.

To assess material financial relationships in an intra-group relationship between the FSI in the BNI Financial Conglomerate, it is measured based on the value of BNI's financial transactions with FSI members of the BNI Financial Conglomerate, and between fellow FSIs in the BNI Financial Conglomerate.

The control of intra-group transaction risk in the BNI Financial Conglomerate is carried out by taking into account:

1. The composition of inherent risk parameters for intra-group transactions in the assessment of integrated risk profiles;
2. Fulfilling the principle of arm's length (fairness of transactions) related to intra-group transactions;
3. Availability and completeness of intra-group transaction documentation; and
4. Fulfilment of legal/regulatory provisions that apply to each intra-group transaction.

Insurance Risk

Group insurance risk identification is achieved by analyzing factors that can increase insurance risk exposure such as inadequate risk selection process (underwriting), determining premiums (pricing), reinsurance use, and/or claim handling. Risk measurement uses the Technical Risk, Insurance Risk Domination of the Overall Business Line, Product Risk Mix and Types of Benefits and Reinsurance Structure parameters.

BNI RISK PROFILE ASSESSMENT

Risk Profile Assessment is an assessment of the inherent risk and quality of risk management in the Bank's operational activities. The risks that must be assessed consist of 8 (eight) types of risks. When assessing the Risk Profile, Banks are also required to pay attention to the scope of risk management as stipulated by the regulator.

INHERENT RISK ASSESSMENT

Inherent Risk Assessment is an assessment of the risks inherent in the Bank's business activities, whether quantified or not, which have the potential to affect the Bank's financial position.

The Bank's inherent risk characteristics are determined by internal and external factors, including business strategy, business characteristics, complexity of products and activities of the Bank, industry where the Bank conducts its business activities, and macroeconomic conditions. Inherent Risk Assessment is carried out by considering quantitative and qualitative parameters/indicators.

Determination of inherent risk level for each risk type refers to the general principles of assessing the Sound Level of Commercial Bank. Determination of inherent risk levels for each risk type is categorized into rank 1 (low), rank 2 (low to moderate), rank 3 (moderate), rank 4 (moderate to high), and rank 5 (high).

RISK MANAGEMENT IMPLEMENTATION QUALITY ASSESSMENT

The Risk Management implementation quality assessment reflects the assessment of the adequacy of Risk control system covering all Risk Management pillars as stipulated in the Financial Services Authority provisions for the Risk Management in Commercial Banks. Bank Risk Management varies greatly according to scale, complexity, and level of risk that the Bank can tolerate. Thus, when assessing the Quality of Risk Management, it is necessary to consider the characteristics and complexity of the Bank's business. The Risk Management quality assessment uses 4 (four) interrelated aspects:

1. Risk governance;
2. Risk Management Framework;
3. Risk Management process, adequacy of human capital, and adequacy of management information systems; and

4. Adequacy of the Risk control system, by considering the Bank's business characteristics and complexity.

Risk Profile Assessment Results

The result of BNI's Individual Risk Profile self-assessment as of December 31, 2022 was ranked 2 (low to moderate) with a low to moderate Inherent Risk Rating and a Satisfactory Risk Management Implementation Quality (KPMR) rating.

BASEL III IMPLEMENTATION

Referring to Financial Services Authority Regulation No. 11/POJK.03/2016 dated February 2, 2016 concerning Minimum Capital Adequacy Requirement for Commercial Banks (KPMR) which has been amended several times, most recently with the Financial Services Authority Regulation No. 27 year 2022 regarding Commercial Banks' Minimum Capital Adequacy Requirement.

Referring to the Financial Services Authority Regulation No. 11/POJK.03/2016 dated February 2, 2016 concerning Minimum Capital Adequacy Requirement for Commercial Banks (KPMR), as amended by the Financial Services Authority Regulation No. 34/POJK.03/2016, that banks are obliged to provide minimum capital according to the Risk Profile.

In addition to the obligation to provide minimum capital according to the Risk Profile, Banks are also obliged to form additional capital as buffers which include Capital Conservation Buffers, Countercyclical Buffers, and Capital Surcharges for Systemic Banks. Based on the results of BNI's capital adequacy calculations for the position of December 31, 2022, BNI's CAR was 19.3%, still above the required capital obligation of 13.8%, namely the requirement according to the Risk Profile (rank 2) and additional capital (buffers) comprising Capital Conservation Buffer 2.5%, Countercyclical Buffer 0% and Capital Surcharge 1.5%.

In addition, for the implementation of Basel III related to liquidity, BNI has also made improvements to liquidity risk management in the form of implementing Liquidity Coverage Ratio (LCR) calculations and calculating Net Stable Funding Ratio (NSFR) which aims to strengthen and improve the quality of liquidity risk management. The LCR calculation aims to increase the resilience of a bank's short-term liquidity by maintaining adequate High Quality Liquid Assets (HQLA) to meet liquidity needs over the next 30 days during a crisis, while NSFR aims to reduce liquidity risk related to funding sources for a longer period by requiring BNI to fund activities with adequate stable sources of funds with a view to mitigate the risk of funding difficulties in the future. Based on the calculation results for December 31, 2022, BNI's LCR was 219.01% and BNI's NSFR was 164.09%, still above the required minimum obligation of 100%.

For improving and refining its risk management for future development, BNI has planned several initiatives to improve the capability and quality of risk management implementation, including:

1. Increased Credit Risk Capability

- Improving risk management and credit processes-through the Development Project of Internal Rating Based (IRB) Model together with the Rating System Structure, as a solution for:
 - Providing the best returns, evaluating and analyzing strategies and supporting the decision-making process by developing risk-based pricing, risk-based performance and portfolio management;
 - Monitoring (monitoring tools) on the performance of Corporate, Medium, and Small debtors;
 - Calculation of CKPN in accordance with PSAK 71.

The benefits of developing IRB Model for BNI include:

- Improving BNI's loan quality;
 - Assisting business units in selecting prospective borrowers;
 - Becoming an early warning signal in monitoring managed debtors, thereby reducing the provision that needs to be made.
- Implementing the Integrated Decision Automated System (IDEAS) is a tool for BNI to move more flexibly and quickly in capturing dynamic and competitive market changes, while still minimizing risk through the implementation of credit scorecard through more comprehensive use of customer data on all customer life cycles. Currently, the IDEAS decision engine has been integrated with several surrounding systems at BNI, including:
 - Consumptive eLO for BNI Griya and BNI Flexi products
 - Productive eLO for KUR, BWU and BCM products
 - eFORM Credit Card
 - Common Collection – CWX Credit Card product
 - Cardlink – core credit card system
 - Customer behavior based on iCONS transactions
 - Fleksi Mbanking Digital Loan Program

- Improving the end to end credit process for a more prudent, measurable loan process with consistent and disciplined control in an effort to build a better credit risk culture, as follows:

- Establishing selective expansion guidelines to direct the credit portfolio to sectors that are stronger against Pandemic conditions.
- Establishing Risk Acceptance Criteria to implement aggressive, selective and quality BNI expansion. This is intended so that BNI can still maintain its credit quality when expanding.
- Developing the Single Integrated Monitoring (SIMON) Framework, Loan Management System (LMS) tools, Credit Scoring Model for credit processes > Rp5 billion, and Developing RM Tools to improve the quality and efficiency of the credit analysis process.
- Compiling a better control mechanism for debtors to ensure that monitoring tools are carried out in a consistent, disciplined and quality manner so that BNI can determine the right action plan for each debtor and monitor its implementation.
- Implementing faster and earlier remedial actions to accelerate the improvement of the debtors' performance with potential problems and to mitigate potential risks.
- Conducting regular and indepth credit training to increase credit knowledge and skills as well as increase awareness of risk culture.

2. Increased Operational Risk Capability

- To meet the regulatory provisions and to better support and be more comprehensive in BNI's operational risk management, tools/ solutions are needed to carry out the process of identifying, measuring, monitoring, and controlling operational risk, including Business Continuity Management (BCM). These tools/solutions include the Operational Risk Management (ORM) solutions and Business Continuity Management (BCM) applications with the capability of:
- Risk Control Self-Assessment (RCSA).
 - Loss Event Database (LED).
 - Key Risk Indicator (KRI).
 - Business Continuity Management (BCM).

The operational risk management tools/ solutions provide substantial benefits to BNI as follows:

- Ability to carry out operational risk management processes in all BNI units in an integrated solution to improve the Bank's risk management quality;
 - Creating a comprehensive, accurate, and timely operational risk database;
 - Providing data analysis and reporting on Operational Risk Management.
 - Improving operational risk management and BCM.
- #### 3. Increased Market Risk Capability
- To increase market risk capability, monitoring support tools have been developed to improve the quality and accuracy of monitoring results, including the following:
- In accordance with the regulatory provisions, all Banks are required to measure the impact of changes in interest rates on the Banking Book (Interest Rate Risk in The Banking Book/IRRBB). The calculation method uses 2 (two) approaches, the Net Interest Income (NII) method and Economic Value of Equity (EVE) method. Banks are required to simulate interest rates using 6 (six) shock scenarios based on Basel and record the impact on the Bank's profitability and capital. By considering the complexity of data, products, and models used, the IRRBB calculation application is currently being developed to ensure the results obtained are more accurate;
 - Off Market Price Limit monitoring application to monitor the fairness of transaction prices (likely and reasonable), in accordance with the range of daily fluctuations in the rate/market price (expected possible daily fluctuations) at that time;
 - The transaction authority limit monitoring application monitors Transaction Limit (Deal Ticket Size), Position Limit, and Stop Loss Limit (Budget Loss Limit);
 - Credit Counterparty Limit monitoring application where there is development in Forex Counterparty Limit calculation using Credit Conversion Factor (FKK);
 - Value at Risk (VaR) monitoring application for HO and KCLN using the historical simulation method to be more accurate as it can cover non-linear risks.

4. Increased Risk Integration Capability (IRS)

One of the initiatives to improve the Quality of Risk Management Implementation is through developing a strong risk culture. Risk culture is a collective form of values, attitudes, and perceptions of each individual or group in the company regarding risk and its management.

Having a Risk Culture greatly influences the effectiveness of risk management and ultimately the achievement of sustainable corporate performance. Matters to be addressed include evaluating the current BNI risk culture through a survey method, identifying gaps or weaknesses based on the survey results, and developing strategies for improvement efforts.

One of the initiatives to improve Risk Management monitoring to be carried out includes enhancing the Risk Management Information System (RMIS), especially for the Bank Health Level (TKB) calculation module and Branch Level Risk Profile calculation. This enhancement will provide a more detailed portrait of BNI Risk up to the Branch Office level to assist in Management decision-making.

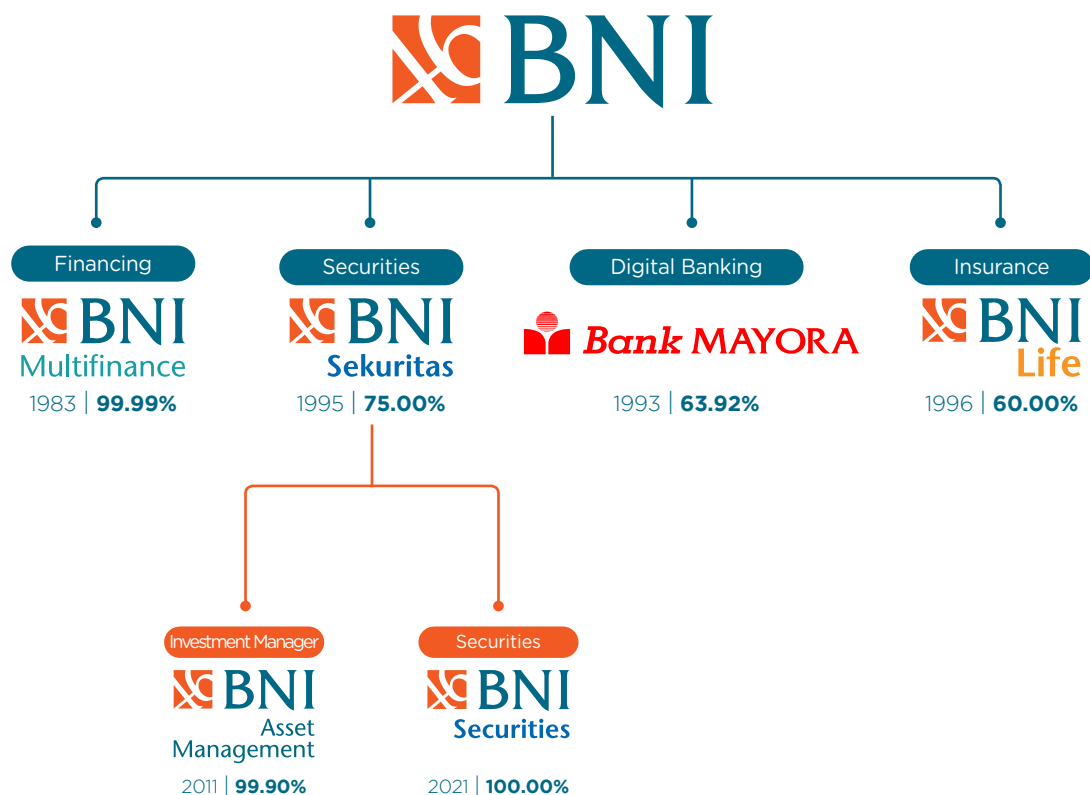

INTEGRATED RISK MANAGEMENT IMPLEMENTATION

In general, the scope of integrated risk management arrangements in accordance with the Financial Services Authority Regulation No.17/POJK.03/2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates and the Financial Services Authority Circular Letter No. 14/SEOJK.03/2015 include:

- The Financial Conglomerate (KK) must implement Integrated Risk Management.
- The Financial Conglomerate's Financial Services Institutions (FSI) are as follows:
 - Bank;
 - Insurance/Reinsurance Companies;
 - Securities Companies;
 - Financing Companies
- The Financial Conglomerate must have a Main Entity. In the event that the Financial Conglomerate structure consists of a parent FSI and subsidiary FSI, the Main Entity is the parent FSI.

BNI has formed its Financial Conglomerate Structure, with BNI as the holding company the Main Entity with 6 (six) Financial Services Institutions as members of BNI's Financial Conglomerate, namely BNI Syariah, BNI Multifinance, BNI Life, BNI Sekuritas, BNI Asset Management, BNI Securities Pte Ltd, and Bank Mayora.

The BNI Financial Conglomerate structure is as follows:

For Integrated Risk Management, BNI's Financial Conglomerate has a joint commitment to perform the duties and responsibilities of each FSI as stated in the Integrated Risk Management Pact, as approved and signed by the President Director and President Commissioner as well as all FSI Members of BNI's Financial Conglomerate.

Based on OJK Regulation No. 17/POJK.03/2014, the Financial Conglomerate must implement an effective Integrated Risk Management that covers the following 4 (four) pillars:

1. Monitoring of the Main Entity's Board of Directors and Board of Commissioners;
2. Adequacy of Integrated Risk Management policies, procedures, and limit establishment;
3. Adequacy of integrated risk identification, measurement, monitoring, and control process, and an Integrated Risk Management Information System;
4. Overall internal control system on the implementation of Integrated Risk Management.

When implementing the Integrated Risk Management, BNI as the Main Entity carried out the following matters:

1. Pillar I: monitoring the Main Entity's Board of Directors and Board of Commissioners, by:
 - a. Establishing BNI's Financial Conglomerate Structure;
 - b. Appointing a Director in charge of Integrated Risk Management function;
 - c. Establishing the Integrated Risk Management Committee and the Integrated Risk Management Work Unit;
 - d. Preparing a Corporate Charter, which has been signed by the President Director/President Director of all FSI Members of the BNI Financial Conglomerate;
 - e. Conducting Integrated Risk Management Committee (KMRT) meetings at least 2 (two) times in a year;
 - f. The Board of Directors prepares the Integrated Risk Management General Policies (KUMRT) and the Integrated Capital Policies as well as conducts review at least 1 (one) time in 1 (one) year;
 - g. The Board of Commissioners gives their approval of the Integrated Risk Management (KUMRT) and the Integrated Capital Policies General Policies as well as conducts evaluations at least 1 (one) time in 1 (one) year;
 - h. Determining the integrated risk appetite and risk tolerance in BNI's Financial Conglomerate.

2. Pillar II: Adequacy of Integrated Risk Management policies, procedures, and limit establishment by:
 - a. Preparing and reviewing the Integrated Risk Management (KUMRT) and the Integrated Capital Management General Policies;
 - b. Preparing the Integrated Risk Management Procedures including Inter-Group Transaction Risk Management Procedures;
 - c. Preparing the Integrated Risk Profile Assessment Procedures;
 - d. Preparing the Integrated Capital Management Procedures; and
 - e. Establishing the integrated risk limit and mechanism of escalation of limit excess.

3. Pillar III: Adequacy of integrated risk identification, measurement, monitoring, and control processes, and the Integrated Risk Management Information system, by:
 - a. Establishing the Integrated Risk Profile methodology and assessing every semester and reporting to OJK;
 - b. Establishing the Integrated Mandatory Minimum Capital Requirement (KPMR), calculated every semester and reporting to OJK;
 - c. Determining the integrated risk appetite parameters and methodology, monitoring every quarter, and reporting to the Director in charge of the Integrated Risk Management;
 - d. Determining the Integrated Risk Limit parameters and methodology, monitoring every quarter, and reporting to the Director in charge of the Integrated Risk Management;
 - e. Determining the Leading Risk Indicator (LRI) assessment parameters and methodology, monitoring every month, and reporting to the Director in charge of the Integrated Risk Management;
 - f. Conducting the integrated stress testing on volatility of exchange rates and interest rates in BNI's Financial Conglomerate;
 - g. Developing a technology-based Integrated Risk Management Information System.

4. Pillar IV: Overall internal control system for Integrated Risk Management, by:
 - a. Disseminating the Integrated Risk Management to all FSI Members of BNI's Financial Conglomerate on a continuous basis.
 - b. Monitoring the Integrated Risk Management implementation by all FSI Members of BNI's Financial Conglomerate.

INTEGRATED RISK PROFILE ASSESSMENT RESULTS

Result of the Integrated Risk Profile assessment was carried out on 10 (ten) types of risks as of December 31, 2022 was ranked 2 (low to moderate) with a low to moderate Inherent Risk Rating and a satisfactory Quality Assessment of Risk Management Implementation (KPMR), this means:

- The probability of loss faced by the Financial Conglomerate as a whole is low for a certain period of time in the future.
- Composite Quality of the Risk Management Implementation is adequate. Even though there are minor weaknesses that need attention from management, these weaknesses can be resolved in normal business activities.

Internal Control System

The Internal Control System (SPI) is a monitoring mechanism established by the Bank's management on an ongoing basis that is implemented by all management and employees at every level of the Bank's organization. Therefore, an effective Internal Control System (SPI) is an important component in Bank management and is the basis for healthy and safe Bank operations. Implementation of the Internal Control System is the responsibility of all parties involved in the Internal Control System, as outlined in the duties and responsibilities of each party.

CONTROL PURPOSES

The purposes of the Internal Control System in BNI include:

1. Compliance with the provisions and laws and regulations (Compliance objective)
This is intended to guarantee that all BNI's business activities are carried out in accordance with the provisions and laws and regulations, either provisions issued by the government, the Financial Services Authority, or internal policies and procedures established by BNI.
2. Availability of complete, accurate, effective, and timely financial and management information (Information objective)
This is intended to guarantee the availability of complete, accurate, effective, and timely reports necessary to make appropriate and accountable decisions.
3. Effectiveness and efficiency in BNI's business activities (operational objective).
This is intended to increase the effectiveness and efficiency of the use of assets and other resources to protect BNI from any risk of loss.
4. Increasing the effectiveness of risk culture in BNI's organization as a whole (risk Culture objective)
This is intended to identify weaknesses and assess deviations early, as well as reassess the reasonableness of the policies and procedures in BNI on an ongoing basis.

CONTROL ENVIRONMENT

The control environment reflects the overall commitment, behavior, concern and steps of the Board of Directors and Board of Commissioners in carrying out BNI's operational control activities.

The elements of BNI's control environment include:

1. Sufficient organizational structure;
2. BNI's leadership style and management philosophy;
3. Integrity and ethical values, as well as employees' competencies;
4. Human Capital policies and procedures;
5. Attention and direction of BNI's management and other committees, such as the Risk Management Committee.
6. External factors affecting BNI's operations and the risk management implementation.

BNI's Internal Control System covers:

1. Strategic control, to ensure each strategy or policy is in accordance with BNI's objectives, vision and mission;
2. Operations control, to achieve operational efficiency and effectiveness;
3. Reporting control, to ensure the quality of all information/reporting produced and used in internal or external decision making;
4. Obedience control, to ensure the level of compliance with law, regulations and laws related to operations.

RISK ASSESSMENT

The risk assessment (measurement) system is used to measure risk exposure as a reference to controlling risk. Risk assessment cover 8 (eight) risk types managed by BNI as follows:

1. Credit Risk Assessment
Credit Risk Assessment is carried out including the following aspects:
 - a. Amount, quality, and composition of exposure of balance sheet and administrative accounts;
 - b. The level of credit risk of debtors/ counterparties;
 - c. Credit characteristics;

- d. Business environment condition;
- e. Internal rating system and scoring system.
- f. Credit risk stress testing.
- g. The use of internal ratings to determine asset quality and the amount of reserves by calculating the Expected Credit Loss (ECL) value, which reflects the estimation of potential credit losses through the calculation of 3 basic parameters, namely Probability of Default (PD), Loss Given Default (LGD), Exposure at Default (EAD).

2. Market Risk Assessment

Market risk assessment is carried out on all trading book and banking book portfolios. Market risk assessment on the trading book includes:

- a. Measurement of market risk sensitivity – standard method;
- b. Aggregation using Value at Risk (VaR) – internal model;
- c. Market risk stress testing;
- d. Budget loss;
- e. Back testing.

Market risk assessment on the banking book, includes:

- a. Measurement of interest rate risk on the banking book;
- b. Measurement of exchange rate risk on the banking book.

3. Liquidity Risk Assessment

Liquidity risk assessment is carried out to measure and monitor the need for sustainable net funding.

The liquidity risk assessment process includes:

- a. Assessment of liquidity ratios includes Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR);
- b. Maturity profile assessment;
- c. Projected cash inflows and outflows;
- d. Liquidity risk stress testing.
- e. Availability of liquid assets (Cash), Secondary Reserve (SR);
- f. Liquidity Ratio.

4. Operational Risk Assessment

One method that can be used to assess operational risk in BNI is Risk & Control Self Assessment (RCSA), a series of activities carried out by each unit (risk owner) to identify operational risk issues in each unit, looking for causes, measuring potential losses (impact and frequency) that may arise, and finding solutions to overcome them, as well as control mechanisms for existing risks.

Operational risk is classified into categories and sub categories to facilitate risk assessment, control, and reporting of 7 (seven) operational risk events, which are:

- a. Internal fraud;
- b. External crime;

- c. Employment and occupational safety practices;
- d. Clients, products, and business practices;
- e. Damage to physical assets;
- f. Business interruption and system failure; and
- g. Execution, shipping, and process management.

5. Legal Risk Assessment

Legal risk assessment/measurement uses indicators/parameters in the form of:

- a. Potential losses arising from litigation claims;
- b. Weakness in binding; and
- c. The absence/occurrence of inregulations/laws changes that underlie the issuance of a product or service.

6. Strategic Risk Assessment

Strategic risk assessment/measurement uses indicators/parameters such as:

- a. Strategy suitability with business environment conditions;
- b. High-risk strategies, and low-risk strategies;
- c. BNI's business position towards competitors;
- d. Achievement of the Bank's Business Plan (RBB).

7. Compliance Risk Assessment

Compliance risk assessment/measurement uses indicators/parameters such as:

- a. Type, significance, and frequency of violations against the applicable provisions; and
- b. Violations against provisions of certain financial transactions.
- c. Frequency of violations (BNI compliance track record).

8. Reputation Risk Assessment

Reputation risk assessment/measurement uses indicators/parameters such as:

- a. Reputation influence from the owner of BNI and related companies;
- b. Violation of business ethics;
- c. Product complexity, and BNI's business cooperation;
- d. Frequency and materiality of the Bank's negative reporting; and
- e. Frequency and materiality of customer complaints.

COMPLIANCE WITH COSO FRAMEWORK

BNI's Internal Control System refers to the OJK Circular No. 35/SEOJK.03/2017 dated July 7, 2017 concerning the Standard Guidelines for Internal Control Systems for Commercial Banks, in line with the COSO framework and the Basel Committee - Internal Control, covering 5 (five) key interrelated elements in the Bank's internal control system including:

1. Management culture Risk supervision and control;
2. Risk identification and assessment;
3. Control activities and separation of functions;
4. Accounting, information and communication systems;
5. Monitoring activities and deviations/weaknesses corrective actions.

CONTROL ACTIVITIES

Control activities are carried out to ensure that appropriate actions have been taken in controlling a risk.

CONTROL ACTIVITIES

1. General Control Activities

Control activities involve all employees including the Board of Directors, and are planned and carried out to ensure that management directives have been carried out. Control activities are contained in policies and procedures to ensure that every activity is carried out effectively and to encourage anticipatory actions against the risks inherent in each operational activity.

2. Control Activities According to Organizational Functions

An effective Internal Control System requires establishment of a control structure in accordance with the organizational structure, and includes:

- Top Management Reviews**
The Board of Directors actively requests presentations and performance reports on a regular basis, in order to evaluate BNI's progress towards its intended objectives. Determination of objectives are in accordance with the established risk management policy after considering the risk level to be taken (risk appetite), the level and type of risk that is maximally set (risk tolerance), and limit setting.
- Top Management Reviews**
Reviews are periodically carried out by IAD.
- Information System Control**
Includes verification of the accuracy and completeness of transactions and authorizations, general control and application control.
- Physical Asset Control**
Physical Asset Control activities include securing assets, limiting access to computers and data files.
- Documentation, including adequacy of accounting policies documentation, procedures, systems & standards as well as audit processes.**

3. Control Activities based on Type of Risk

Control activities have been set out in policy and procedure documents to identify risks (market, liquidity, credit, operation, legal, compliance, reputation, and strategic risks).

- Credit Risk Control**
 - Credit supervision covers all credit aspects and all objects of supervision without exception;
 - Internal credit control.
- Market Risk Control**
For control purposes, the process of identifying and measuring market risk is carried out by units independent of the business activities, and is carried out by the Risk Management Work Unit.

The Risk Management Work Unit authority and responsibilities in controlling market risk are:

- Approving and validating the proposed model/method used in measuring market risk;
 - Developing market risk measurement models;
 - Checking the correctness of the market risk calculation based on risk report received
 - Determining the confidence level used;
 - Setting parameters for market risk stress testing;
 - Proposing models and parameters used in measuring market risk by the Treasury Division;
 - Measuring market risk;
 - Conducting back testing and stress testing.
- Operational Risk Control**
Operational risk management and control is carried out through coordination between the Risk Management Work Unit and the Operational Work Unit in stages. BNI also has an Operational Risk Management Forum (FRO) as a means of formal coordination between work units to discuss operational risk issues as well as follow up on mitigation that must be taken. The roles and supports needed from the Operational Work Unit are:
 - Submitting periodic/incidental risk exposure reports to the Risk Management Work Unit;
 - Ensuring risk management is in each operational Work Unit (risk taking unit/risk owner), so the units will be responsible for managing the risks inherent in transactions/activities on a daily basis.

Operational risk control also includes Business Continuity Plan (BCP) procedures. BCP is a formal mechanism/plan that combines the established strategies, policies, procedures, and organizations to ensure the continuity of operations of critical business functions at a certain service level during any disruption or disaster.

- Liquidity Risk Control**
Liquidity risk control is carried out by:
 - Monitoring and taking alternative strategic steps for each Secondary Reserve (SR) traffic light, namely: Dark Green, Light Green, Light Yellow, Dark Yellow and Red;
 - Conducting funding strategies, managing liquidity position and daily liquidity risk, managing liquidity position and intra-group liquidity risk as stipulated in the Global Funding Policy, Asset Management Policy and Asset and Liability Management Policy.
- Legal Risk Control**
Legal risk control is carried out by ensuring BNI's agreements with third parties have secured BNI's interests.

Legal risk control is carried out by a Work Unit functioning to manage legal risk, and includes:

- Preparing assessments through a juridical study, in the event there are plans to add/develop new products and/or activities;
 - Providing legal advice, and/or legal assistance in the event there are legal risks in operational activities;
 - Reviewing contracts and agreements with other parties periodically.
- Strategic Risk Control**
Strategic risk control is carried out by:
 - Conducting an effective, independent and objective review of strategic policies as outlined in the review of the implementation and performance achievement against the targets set in the Bank's Business Plan through Board of Commissioners meetings, meetings inviting the Board of Directors (Radekom), Board of Directors Meetings (Radisi), Sector Meetings and Business Reviews;
 - Adequate testing and reviewing of management information systems.

g. Compliance Risk Control

Compliance risk control is carried out through ex-ante (preventive) actions aimed at:

- Ensuring policies, provisions, systems and procedures, as well as business activities at BNI are in accordance with the provisions of the regulator and prevailing regulations;
- Ensuring compliance with established commitments

h. Reputation Risk Control

Reputation risk control is carried out by:

- Managing, following up and resolving customer complaints and lawsuits that can immediately increase reputation risk;
- Developing a reliable mechanism for effective reputation risk control measures.

Information and Communication

The information system produces reports on business, financial conditions, risk management implementation, and fulfillment of provisions that support the implementation of the Board of Directors and the Board of Commissioners duties.

Such information includes:

- Internal and external information obtained and submitted to Management related to the performance of achieving the Bank's goals.
- The resulting information to be sufficient and timely, therefore, it can carry out its responsibilities effectively and efficiently.

The necessary information system includes:

- BNI organizing a contingency recovery plan, and a back-up system to prevent high-risk business failures
- BNI owning and maintaining a management information system that is organized, in electronic and non-electronic format.

Necessary communication includes effective communication channels to ensure all employees understand, and comply with applicable policies and procedures in carrying out their duties and responsibilities, as well as having effective external communication channels to communicate required information to shareholders, regulators, customers, and other third parties.

When processing information in electronic format, the system used shall have an adequate audit trail.

Monitoring Activities

Monitoring of BNI's activities in business units and functional units is carried out through three lines of defenses, which are:

#1 Risk Taking Unit or 1st Line of Defense	#2 Risk Control Unit or 2nd Line of Defense	#3 Risk Assurance or 3rd Line of Defense
<p>Risk Owner, responsible for the risks taken, execution and results (Day to day risk management & control)</p> <ul style="list-style-type: none">Responsible for managing and controlling risks inherent in day- to-day business activities or functionsIdentifying, measuring, mitigating, monitoring and reporting risks inherent in business activities/ functions in accordance with the strategies/policies/risk parameters set by the 2nd line of defense	<p>Risk Control, responsible for developing the Bank's risk management framework, policies, principles and methodology</p> <ul style="list-style-type: none">Preparing proposals for risk management strategies and policies, including risk appetite & limitsDeveloping frameworks, policies, principles, tools, methodologies and risk management standardsAs a risk oversight unit, carries out aggregation and overall risk reportingAdvising or providing recommendations to the 1st line of defense on implementing risk policies according to authorityEscalating issues/important decisions to Senior Management/ Directors and/or Risk Management Committee and Anti Fraud, Risk Management Sub-Committee and/ or Integrated Risk Management Committee (Risk Management Committees)	<p>Risk Assurance, responsible for independently evaluating the effectiveness of risk management and internal control implementation</p> <ul style="list-style-type: none">Conducting independent and periodic internal audits on the implementation of risk management and internal controlPreparing corrective action recommendations and monitoring their implementationReporting the audit results to the Audit Committee and key stakeholders according to their authority

INTERNAL CONTROL SYSTEMS IMPLEMENTATION EVALUATION

The Internal Control System (SPI) is an important component in the Bank's management and forms the basis for sound and safe Bank operational activities. An effective Internal Control System assists the Board of Directors and the Board of Commissioners in protecting the Bank assets, ensures the availability of reliable financial and managerial reporting, increases the Bank compliance with applicable laws and regulations, and reduces the risk of losses, irregularities and violations in the precautionary aspect.

The BNI Board of Directors is responsibility for establishing and maintaining adequate SPI, and ensuring the system operates safely and reliably in accordance with the Bank's established internal control objectives.

On an ongoing basis, through audits and consultation, the Internal Audit Work Unit (SKAI) evaluates and plays an active role in improving the SPI effectiveness, especially when the Bank's operations have the potential for causing losses when seeking to achieve targets set by the Bank's management.

Evaluation results are submitted to the Board of Directors to be followed up and monitored to ensure SPI they are running adequately. The Board of Commissioners, through the Audit Committee, plays an active role in relation to SPI evaluation by reviewing the Internal Audit evaluation results. Based on the evaluation carried out, BNI's SPI runs adequately.

STATEMENT OF THE BOARD OF DIRECTORS AND/OR BOARD OF COMMISSIONERS ON THE ADEQUACY OF THE INTERNAL CONTROL SYSTEM

The Board of Commissioners has supervised the implementation of the Internal Control System (SPI), including approving and monitoring the Board of Directors' policies related to internal control. In carrying out its supervisory duties, authorities and responsibilities, the Board of Commissioners is assisted by the Audit Committee, Risk Monitoring Committee, Nomination and Remuneration Committee, and the Integrated Governance Committee.

Also, the Board of Directors is responsible for the application of a reliable and effective Internal Control System (SPI) and has made efforts to enhance an effective risk awareness culture at all organization levels. The Managing Director in charge of the compliance function plays an active role in preventing any deviations made by management when setting policies related to the precautionary principle.

On an ongoing basis, Internal Audit (IAD) evaluates internal control's effectiveness related to operations undertaken to achieve the Company targets, through unit and activities inspections.

The evaluation results are submitted to the Board of Directors and related units for follow up and monitoring. Improvements are always made to problems that arise and monitoring is carried out consistently to ensure that the SPI is running effectively. The Board of Commissioners through the Audit Committee plays an active role in evaluating the SPI through their reviews of the IA inspection results.

Legal Cases

During 2022, BNI faced a number of cases in the form of civil cases accompanied by claims for compensation against BNI as well as criminal cases including cases of specific crimes and general crimes that had entered the trial process, and these have been completed (with permanent legal force/inkracht), or are still in the process of being resolved. Detailed information on the cases faced by BNI are as follows:

No.	Lawsuit	Total	
		Civil	Criminal
1.	Case Settled (has permanent legal force)	68	10
2.	Case In Settlement Process	271	1
Total		339	11

IMPORTANT CASES FACED BY THE COMPANY

In 2022, important cases faced by BNI can be seen in the following table:

CIVIL CASES

No.	Case	Case Lawsuit	Case Status	Risk on the Bank	Management Effort	Sanctions Imposed by the Authorities	Case Value
1.	Case No. 20/Pdt.G/2021/PN.Cik Between: Plaintiff: Dr. HM Rosihan Anwar as Director of CV Insan Cipta Karya Against Defendant: BNI	Lawsuit for the payment of compensation to the Bank related to alleged unlawful act in the form of transferring credit collateral items by the Bank which is controlled by the Plaintiff.	The case has been completed at the District Court level with a decision which basically states that the Plaintiff's lawsuit cannot be accepted.	The risk of paying compensation is equal to the value of the Court Decision. However, with the existence of a District Court Decision that has permanent legal force, the Bank is free from the risk of paying compensation.	The Bank has followed the trial process optimally so that the Bank is declared the winner according to the District Court Decision.	None	Material: Rp1,282,449,634,111.50 Immaterial: -

IMPACT OF LEGAL CASES ON THE COMPANY

BNI's policies and Standard Operating Procedures are adequate and prudent in protecting BNI's business interests. All of the legal issues mentioned above, both civil and criminal, did not result in any significant financial impact on BNI. This is reflected in the Legal Risk Profile for the 2022 period remaining in the Low to Moderate predicate.

EFFORTS TO MINIMIZE LEGAL RISKS

BNI continuously strives to minimize legal risk for BNI when carrying out its business activities, as reflected in the following activities:

1. Strengthening procedures, policies, engagements, and handling legal issues for proper legal risk management to protect BNI's interests at the pre-transaction, transaction, and post-transaction stages in its business and/or operational activities.
2. Optimizing the legal function in providing advice on the loan proposal process in the credit committee, to be decided by the Board of Directors, to maintain prudent loan transactions, especially from a legal perspective, improve credit quality, and achieve predetermined business targets.
3. Optimizing the legal work unit functions at BNI at the Head Office and Regional Offices to support the smooth running of business activities/transactions and operations in all BNI Divisions/Units/Regional Offices/Branch/Centra.
4. Consistently updating standard legal documentation, such as credit agreements and other accessoire agreements, to anticipate the emergence of legal risks in the future due to the weakness of the agreement, to protect BNI's legal interests.

5. Making the maximum effort to minimize legal risk in business units, including preventing fraud, by taking preventive actions, including increasing employee legal risk awareness by holding legal discussion forums, legal education, and organizing webinars or sharing sessions related to legal issues in all BNI organizations.
6. Collaborating with bona fide external lawyers, senior advisors and State Attorneys (JPN) to optimize legal advice and legal assistance to protect BNI's legal interests.
7. Making efforts to improve employee competency in BNI's legal work units at the Head Office and Regional Offices in providing legal advice/ reviews and handling cases, to create a professional and reliable legal work unit, and to support the direction of the company's transformation.

LEGAL CASES FACED BY THE BOARD OF DIRECTORS AND THE BOARD OF COMMISSIONERS

During 2022, no members of the BNI Board of Directors and the Board of Commissioners were involved in civil or criminal lawsuits in connection with BNI's business activities.

CASES FACED BY SUBSIDIARIES

During 2022, the Subsidiaries faced several cases in the form of civil cases accompanied by claims for compensation against the Subsidiaries, as well as criminal cases including general criminal cases that have entered the trial process, both those that have been completed with permanent legal force/ inkracht, or those that are still in the process of completion. The cases faced by the Subsidiaries during 2022 were as follows:

CASES FACED BY SUBSIDIARIES

Subsidiary	Cases	Total	
		Civil	Criminal
PT BNI Life Insurance	Cases completed (already has permanent legal force)	5	1
	Cases in the process of settlement	3	0
	Total	8	1
PT BNI Sekuritas	Cases completed (already has permanent legal force)	-	-
	Cases in the process of settlement	-	-
	Total	-	-
PT BNI Multifinance	Cases completed (already has permanent legal force)	-	-
	Cases in the process of settlement	-	-
	Total	-	-
BNI Remittance Ltd.	Cases completed (already has permanent legal force)	-	-
	Cases in the process of settlement	-	-
	Total	-	-
PT Bank Mayora	Cases completed (already has permanent legal force)	9	-
	Cases in the process of settlement	7	-
	Total	16	-
PT BNI Modal Ventura	Cases completed (already has permanent legal force)	-	-
	Cases in the process of settlement	-	-
	Total	-	-

IMPORTANT CASES FACED BY SUBSIDIARIES

Based on the number of cases faced by the Subsidiaries in the table above, the following describes the important cases faced by the Subsidiaries during 2022:

No.	Parties	Subsidiary	Case Lawsuit	Case Value	Case Status	Effect/Risk
1.	<p>Case No. 660/Pdt.G/2021/PA.Ska</p> <p>Between:</p> <p>Plaintiff: Nur Farida</p> <p>Against</p> <p>Defendant: 1. BSI Surakarta Branch Office 2. PT BNI Life Insurance Unit Syariah</p>	PT BNI Life Insurance	Unlawful Act lawsuit related to PT BNI Life Insurance's refusal to disburse an insurance claim filed by the Plaintiff (the Debtor's heirs) because the cause of the Debtor's death was the result of a disease that was excluded in the insurance policy.	<p>Materiil: Rp3,300,000,000.00</p> <p>Immateriil: -</p>	The case has been completed at the cassation level with a decision that basically rejects the Plaintiff's claim in its entirety.	The risk of claim payment is in accordance with the sum insured. However, with the existence of the Indonesian Supreme Court Decision that has permanent legal force, PT BNI Life Insurance is free from the risk of paying claims in accordance with the sum insured.

Administrative Sanctions

Throughout 2022, no administrative sanctions from the relevant authorities (capital market, banking and others) were imposed on BNI.

Access to Company Information and Data

BNI periodically updates information and provides easy access to information related to the Bank's activities and performance to stakeholders in order they know the condition of the Bank clearly, actual and factual. BNI also provides facilities that function as channels for information disclosure, through various media such as websites (in two languages), mass media, mailing lists, bulletins, meetings with analysts, the IDX official website etc. In this regard, the Bank's Investor Relations continuously builds the good image of the Bank through developing relationships with investors/analysts both interactively and by providing periodic information, especially concerning the Bank's performance.

Access to Company information and data related to corporate actions can be accessed through the Company's official website at <http://bni.co.id/>. Parties who need further information regarding corporate actions and Company data can contact via telephone at 021-5728387, Fax at 6221-5728053 or email to: ir@bni.co.id.

SINERGI 46 MAGAZINE

Internal media specifically for BNI Hi-Movers in the form of a printed magazine that functions as a means of sharing information, experience and knowledge as well as to increase engagement and a sense of pride for BNI Hi-Movers towards BNI.

The themes as the main presentations in this magazine is adapted to the current conditions at BNI. Some of the themes raised based on the latest issue of Sinergi 46 magazine include: Ready to Jump Higher, Reliable Strategy, Encourage Digital Ecosystem Progress, and BNI Hi-Movers for Stronger Indonesia: Ready to Jump Even Higher.

E-SINERGI 46

An application that can only be accessed by BNI Hi-Movers through the Apple Store and Play Store application, provides interesting material to read and share on social media such as Whatsapp; Facebook; Twitter and others. To find out the responses from readers, this application also has a post and comment features that can increase employee involvement when providing feedback on articles.

To be more attractive to BNI Hi-Movers, and more active in using the e-sinergi46 application, there is a gamification program with reward points, for each activity on the e-sinergi46 application you can earn points. Collected points can be redeemed or exchanged for: Phone Credit Purchases, Purchase of Data Packages, Purchases of vouchers or payment of PLN bills, Top Up Link Aja, Top Up Go Pay, and Top Up OVO. To increase access to information from work units, e-sinergi46 managers provide incentives for employees who contribute by sending news.

The Implementation of Anti Money Laundering (AML), Combating the Financing Terrorism (CFT) and the Proliferation of Weapons of Mass Destruction Program

ORGANIZATIONAL STRUCTURE OF AML AND CFT PROGRAM IMPLEMENTATION

Compliance Division has been designated as a Special Work Unit (UKK) that responsible to increase AML and CFT Programs and Implementation in BNI. Compliance Division reports and directly liable to the Director of Human Capital and Compliance as the Director in charge of the compliance function at BNI. The AML and CFT programs are also implemented by Regional Compliance Officers (RCO) in all Regional offices. The RCO have the function of supervising the implementation of AML and CFT Programs in all Branch Offices of each region, and ensuring that branch operational activities are in accordance with the implementation of AML and CFT program. BNI as the holding entity has been supervising the AML and CFT Programs in its Subsidiaries continuously through the application of the 5 AML and CFT pillars.

The AML and CFT organizational structure in 2022 can be seen below:

*Regional Compliance Management has a function to ensure the application of AML and CFT in the Regional Offices, Branches and Centres.

THE IMPLEMENTATION OF AML AND CFT PROGRAMS

As an effort to prevent and minimize the use of the Bank as a vehicle of money laundering and terrorism financing, BNI has implemented AML and CFT programs through:

- Bank Risk assessment of TPPU and TCFT using a regular risk-based approach (RBA) that is periodically reviewed;
- Active Supervision of the Board of Directors and the Board of Commissioners
The active supervision of the Board of Directors and the Board of Commissioners is very necessary to create effective AML and CFT Programs since the role of the Board of Directors and the Board of Commissioners will affect the achievement level of the AML and CFT Programs Implementation Goal. The active supervision also applies to BNI wide network across all branches and subsidiaries under the same Financial Conglomerate. The forms of active supervision by the Board of Directors and Board of Commissioners includes:
 - The approval by The Board of Directors on the designation of the Compliance Division as a Special Work Unit (UKK) that responsible for implementing the AML and CFT Programs;
 - The approval by Board of Directors and the Board of Commissioners for the AML and CFT Policies;
 - Periodic reports (monthly, quarterly and semi-annually) of the implementation of the AML and CFT Programs to the Board of Directors and the Board of Commissioners;
 - The approval of Board of Directors on the report on of the plan and progress of updating customer data;
 - the Board of Directors and the Board of Commissioners Meeting to discuss the implementation of the AML and CFT Programs.
- The Adequacy and Effectiveness of Policies and Procedures
The Compliance Division has been prepared AML and CFT and CFT policies and procedures that periodically have been reviewed/updated/improved in accordance with prevailing rules and regulations. To strengthen the implementation of AML and CFT programs, in each procedure of product and banking activity is aligned and regulated through the AML and CFT procedures to identify and conduct risk assessment of money laundering and/or criminal acts of terrorism financing for each product or activity. To ensure the implementation of AML and CFT programs are running as expected, the implementation will be supervised by the Compliance Division. The AML and CFT programs policies and procedures are align and in accordance with FATF recommendations and OJK Regulations (POJK) No. 12/POJK.01/2017, as amended by POJK No. 23/POJK.01/2019 concerning the implementation of AML and CFT programs in the financial services sector, which include:
 - Active supervision of the Board of Directors and Board of Commissioners;

- Customer Due Diligence Procedures (CDD) and/or Enhanced Due Diligence (EDD) against Prospective Customers/Beneficial Owners (BO) and Walk in Customers (WIC), including ensuring the Potential Customers/Customers/Beneficial Owner (BO) and Walk in Customers (WIC) is out of the list of suspected terrorists and terrorist organizations (DTTOT) and/or the list of weapons proliferation of mass destruction (DPPSPM); and other watchlist lists (OFAC List, UN List);
 - The Implementation of the AML and CFT Programs based on a Risk-Based Approach;
 - Procedures for Customer Profile and Transactions Monitoring;
 - The implementation of Fund Transfer Procedures;
 - Administrating Customer Documents and Transactions;
 - The Implementation of AML and CFT Programs in across Branches and Subsidiaries Networks under the same Financial Conglomerate;
 - Internal control; and
 - Human Capital and Training.
- Effective internal control in the AML and CFT implementation, carried out by:
 - Having adequate AML and CFT policies and procedures as well as internal monitoring;
 - Having clear authorities and responsibilities for work units related to the AML and CFT programs, either through the first line of defense (risk taking units), second line of defense and third line of defense; and
 - Conducting inspections by the Internal Audit to ensure the AML and CFT Programs are effectively implemented.
 - Information Management System
BNI has been developing information system technology continuously to optimize AML and CFT transaction monitoring program, including:
 - Improving the systems and supporting applications for Anti Money Laundering Detection System, Filtering & Screening Terrorist (DTTOT List), PEP Screening Detection and Customer Due Diligence (CDD) Risk Scoring, as a batch or real time, in the BNI AML System. The BNI AML System is used to support a better Know Your Customer (KYC) Principle, particularly in detecting/monitoring customer transactions that have suspicious patterns on behavior and transaction for money laundering .
 - Developing and improving the Suspect Account to Verify (SAV) system.
 - Developing a Walk in Customer application system.
 - Developing a Politically Exposed Person (PEP) data utilization PPAK application.
 - Developing a KYC on Board application to filter and screen prospective customers against the Terrorist Data/Terrorist List (DTTOT), the List of Proliferation of Weapons of Mass Destruction (PPSPM), PEP List, OFAC List, UN List and Fraudulent List.
 - Developing an internal application system to support the reporting obligations in accordance with the PPAK goAML reporting format and requirements.

- g. Developing the goAML interface system to support the reporting obligations that have been adjusted to the GoAML provisions.
 - h. Developing PPATK's Suspected Terrorism Financing Information System (SIPENDAR);
 - i. Developing Filtering & Screening Terrorist (DTTOT List), PEP Screening Detection for digital account opening.
6. Human Capital and Training
- BNI conducts training, socialisation and reminder of the implementation of AML and CFT Programs for all employees continuously. The training methods are as follows:
- a. Training, both in person or virtually, including:
 - i) Electronic/Online base training, that is training through AML and CFT e-Learning on BNI Smarter, with a minimum passing grade, equipped with Pre Test and Post Test for all participants, Learning Videos, Webinars and Podcasts facilitated by BNI Corporate University (BCV).
 - ii) Face-to-face training, that is training provided to Prospective New Employees (ODP), certain divisions/units (including operational, IT, Custody, overseas business, Cross Border Correspondent Banking).
 - b. Supervision and Socialization of the AML and CFT Program at sampled Branch (based on the results of the Branch Risk Rating assessment), related Units and Divisions.
 - c. Submission of Reminder Letters related to typology, latest models and lessons learned related to AML and CFT to all Branches, Regions, Divisions and Units.
7. Implementing programs to improve the quality of customer data by applying the Completeness, Consistency and Composite methods to strengthen the Single Source of Truth (SSOT) aspect;
8. Establishing and fostering cooperation and coordination with regulators and Law Enforcement Officials, particularly in fulfilling customer data and/or information requests.
9. Implementing the AML and CFT Program in Subsidiaries and overseas branches as a form of responsibility for Banks with international office networks, as to ensure the implementation of AML and CFT is running effectively throughout the office network, where the Compliance Division also monitor, analyse and supervise the AML and CFT Programs in:
- a. Domestic Subsidiaries, namely BNI Asset Management, BNI Securitas, BNI Multifinance and BNI Life, Bank Mayora, BNI Securities Pte Ltd dan BNI Remittance Ltd;
 - b. Overseas Branch Offices, namely BNI New York, BNI London, BNI Tokyo, BNI Hong Kong, BNI Seoul, and BNI Singapore.
10. Taking an active role in programs and activities under the AML and CFT regime organized by the regulator/government, including:
- a. Preparing the National Risk Assessment (NRA) of Money Laundering and Terrorist Financing Risk Assessment and Sectoral Risk Assessment (SRA);
 - b. Implementing the Financial Integrity Rating for Money Laundering and Terrorist Financing (FIR on ML/TF) for Banks;
 - c. Supporting the draft of OJK Regulation concerning the Implementation of the AML and CFT Programs in the financial services sector;
 - d. Appointed as a respondent for PPATK Effectiveness Performance Index Survey and Evaluation in the effort to prevent and eradicate ML and TF;
 - e. Be a resource or piloting Bank for APOLO reporting, Go AML, and involved in various regulatory projects, including: Public Private Partnership (PPP), and Provision of PEP Database.
 - f. Appointed as Team Tactical Hub - INTRACNET for the National Public Private Partnership (PPP) project, which directly contributes to the preparation of Operational Alert on Fraud with the Business Email Compromise (BEC) Modus and Narcotics Crime;
 - g. Be a Subject Matter Expert (SME) for Benchmarking, webinars and Forum Group Discussion (FGD) organized by OJK, PPATK and other Agencies;
 - h. Participating in 2 Decades of AML and CFT Movement activities in Indonesia, including: tree planting event in the Anyer area, Talkshow and Publication of the "AML and CFT" edition of Tapcash.

STRENGTHENING THE AML AND CFT PROGRAMS

As complexity of banking products and services are continuously have been increased, as well as the use of digital technology, the risk of bank being used as a vehicle of money laundering by criminals is also increase. Therefore, Bank needs to ensure that the AML and CFT programs are implemented sufficiently and in accordance with the prevailing regulations, yet, bank is required to continuously improve its implementation.

Several improvement initiatives carried out by BNI, including:

1. Increasing employees awareness and competency concerning the implementation of AML and CFT programs;
2. Improving the quality of customer data through customer data quality improvement programs, improving data governance policies, implementing Data Quality Index (DQI) and implementing Master Data Management towards creating a Single View of Customer;
3. Updating policies and procedures as well as adjusting internal provisions in accordance with prevailing regulations.
4. Developing BNI AML System and other applications to support optimization of AML and CFT programs implementation;
5. Improving the quality of customer data and analysis of reporting to regulators in accordance with prevailing regulations;
6. Following up all internal and external audit results both related to the AML and CFT within the stipulated time;
7. Coordinating actively with Regulators and Law Enforcement Officials in fulfilling requests for data and providing information in an effort to prevent and eradicate money laundering and the prevention of the financing of terrorism crimes;

Protection of Creditors' Rights

BNI has implemented an honest and transparent information disclosure system with equal treatment for all creditors without any discrimination to protect creditors' rights. This is in line with one of the ASEAN Corporate Governance Scorecard Governance principles.

Through information disclosure, all creditors and business partners can obtain relevant information based on to their needs so that all parties can make objective decisions based on fair, reasonable and accurate considerations.

BNI always ensures the fulfillment of rights and maintains creditors' trust in the Bank. The Bank guarantees that the creditor's rights are carried out properly, as outlined in the agreement agreed by both parties. As part of the creditor rights, the Bank carries out its obligations as agreed in a timely manner and strives to avoid delays or negligence that could potentially cause losses to both parties.

Anti Corruption Program

ANTI CORRUPTION POLICIES

To enforce its anti-corruption policies, BNI ensures that all company activities are carried out in compliance with applicable laws and regulations and applies Good Corporate Governance practices. BNI has stipulated sanctions to create a deterrent effect, including Termination of Employment (PHK) for violations committed by employees related to corruption, gratification and bribery. These violations can be reported to Law Enforcement Officials (APGAKUM) in accordance with applicable legal provisions. This is also expected to maintain the trust of all shareholders, stakeholders and the wider community.

One of the activities related to the anti-corruption commitment is the signing of the Integrity Pact every year by the Board of Commissioners, the Board of Directors, and all BNI employees. The Integrity pact includes a commitment to create a corruption-free work environment that is free from corruption. Administrative sanctions will be imposed on the breach of the anti-corruption program at BNI. Filling in the Integrity Pact is also carried out by all stakeholders collaborating with BNI, including information on violation reporting channels through the Whistleblowing System (WBS).

BNI has in place anti-corruption policies provided in various guidelines including the Code of Conduct, Gratification Control Guidelines, Anti-Bribery Management Systems (SMAP) Guidelines, Anti-Bribery Policies, Guidelines for Anti-Fraud Strategies and Whistleblowing Systems. These guidelines have been properly implemented and their effectiveness is evaluated annually.

PROGRAMS AND PROCEDURES FOR OVERCOMING ANTI-CORRUPTION, REFUNDS, FRAUD, BRIBERY AND/OR GRATIFICATION

- BNI has established a Gratification Control Unit (UPG) and manages the Anti-Bribery Management System (SMAP) as the driving force for the anti-corruption programs at BNI. Activities and programs related to gratification and bribery are detailed in the Anti-Gratification and Anti-Bribery Policy Chapter.
- Determination of severe sanctions (PHK) for actions that fall into the category of bribery and fraud.
- Anti-fraud awareness to all employees of BNI and its subsidiaries, through webinars, socialization and campaigns through BNI's official social media or related divisions.
- Appreciation to employees who contribute to fraud prevention efforts.

ANTI-CORRUPTION TRAINING/SOCIALIZATION TO EMPLOYEES

Integrity Builder Expert (API) certification training, ISO 37001: 2016 SMAP certification, Webinars, E-Learning, Daily Exercise Employee Program (DEEP46) as well as socialization related to gratification and anti-bribery control for corruption prevention at BNI during 2022.

Company Code of Ethics

BNI has a Code of Conduct as a form of commitment in carrying out the compliance function and serves as a code of conduct for all Bank employees. The Bank's Code of Ethics uses and applies the applicable basic principles that refer to the Bank's vision, mission, and main values as well as internal and external regulations. The Code of Ethics is also the principle and basis that guides the relationship between BNI Hi-Movers and stakeholders in doing business. The Code of Ethics contains a system of values, business ethics, work ethics, commitment, and enforcement of company regulations in conducting business and other activities, as well as interactions with stakeholders.

BNI Code of Conduct was enforced on December 1, 2010 which was the result of a revitalization of the previous Code of Conduct (2001). The BNI Code of Conduct must be obeyed and implemented by all BNI Hi-Movers (BNI's Board of Commissioners, Board of Directors, Employees) which is marked with the signing by all BNI Hi-Movers on the BNI Hi-Movers' Statement of Attitude as a concrete manifestation of commitment to implementing BNI Code of Conduct.

CODE OF ETHICS PRINCIPLES

The main principles in the BNI Code of Ethics consists of 14 items which in principle require all BNI Hi-Movers to:

1. Acting professionally, by prioritizing the values of work culture of Prinsip 46;
2. Becoming a role model and remind other subordinates, superiors, colleagues and work partners to implement the BNI Code of Ethics;
3. Maintaining good relations with fellow BNI Hi-Movers;
4. Maintaining bank secrecy and confidentiality of position;
5. Maintaining job security;
6. Protecting health, natural resources and the environment;
7. Recording, reporting and administering work properly, honestly and accurately;
8. Preventing conflicts of interest that could harm BNI's interests;

9. Not giving or receiving gifts of any kind, directly or indirectly from any party, if related to our duties and responsibilities;
10. Acting as a resource, as long as for the benefit of BNI;
11. Not a member and donor of a political party;
12. Not disclosing false information about BNI
13. Not using BNI assets for personal gain
14. Not misusing BNI's Corporate Identity for personal gain.

COMPLIANCE WITH THE CODE OF ETHICS

The Code of Ethics is BNI's commitment to comply with legal provisions and the highest ethical standards wherever BNI conducts its business/operational activities. In addition to complying with the prevailing laws and regulations, the management of the Company must uphold ethical norms and values. The Code of Ethics applies to all employees of the Company, namely the Board of Commissioners, the Board of Directors and all employees. All Company personnel have the awareness to implement good ethics that will enhance and strengthen the Bank's reputation.

DISSEMINATION OF THE CODE OF ETHICS

To socialize and internalize the BNI Code of Ethics values, a BNI Code of Ethics pocket book has been published and distributed to all BNI Hi-Movers. In addition, the Code of Ethics is regularly disseminated through BNI internal seminars/socialization, BNI internal media (Sinergi Magazine and BNI Forum website), which can be accessed by all BNI employees, sharing sessions during quality month held every month in every BNI organizational unit, GCG and Code of Ethics training for BNI new and existing employees, as well as coaching conducted by employee leaders. Violations of the BNI Code of Ethics will be subject to strict sanctions in accordance with the regulations and company policies that apply to BNI.

IMPLEMENTATION AND ENFORCEMENT OF THE CODE OF ETHICS

To disseminate and internalize BNI Code of Conduct values, BNI Code of Conduct pocket books are published and distributed to all BNI Hi-Movers. In addition, the Code of Conducts dissemination is sustainably carried out through BNI internal seminars/dissemination, BNI internal media (Sinergi Magazine and BNI Forum website) which can be accessed by all BNI employees, sharing sessions through webinar series, BNI internal media (DigiHC, BNI Smarter, BNI CorpuTV, BNI Menyapa, Sinergi Magazine and BNI Forum Website) which can be accessed by all BNI employees, GCG training and the Code of Conduct for BNI employees both new and senior employees as well as coaching conducted by the employees' leaders. Violations to the BNI Code of Conduct will be subject to strict sanctions in accordance with the rules and policies applied.

TYPES AND FORMS OF SANCTIONS FOR VIOLATION OF THE CODE OF ETHICS

BNI Hi-Movers at all levels, if proven guilty of committing BNI Code of Ethics violations, will be subject to sanctions in accordance with the regulations stated in the applicable policies and regulations.

The sanctions are as follows:

Principal Sanctions	Types And Forms Of Violations
Warning Letter	Negligence of the rules in the work environment and/or violation of the procedures/obligation system caused by negligence but does not cause harm
Reprimand Letter	Violation of the procedure/obligation system that causes immaterial losses
Final Warning Letter	Violation of the procedures/obligation system which causes material losses
Demotion	Intentional violation of the procedures/obligation system and causes material losses, but not meeting the elements of fraud/cheating/fictitious/engineered and/or gratification
Termination of Employment	Intentional violation of the procedures/obligation system and causes material losses, as well as meeting the elements of fraud/cheating/fictitious/engineered and/or gratification

CODE OF ETHICS VIOLATIONS TYPES AND TREND IN 2022

During 2022, there were 88 (eighty eight) Code of Ethics violations as follows:

Sanksi Pokok	2022	2021
Warning Letter (SP)	4	6
Reprimand Letter (STE)	1	3
Final Warning Letter (STK)	7	3
Demotion	3	4
Termination of Employment	73	60
Total	88	76

CORPORATE CULTURE

16. Providing opportunities for various parties to contribute;
17. Being open in working together to generate added values;
18. Mobilizing the use of various resources for common goals.

Anti-Gratification & Anti-Bribery Policy

BNI’s Good Corporate Governance and Code of Conduct implementation includes the Gratification Control and Anti-Bribery Management System (SMAP). As an initial stage in establishing the Gratification Control Unit (UPG), an Anti-Gratification Commitment was signed between the BNI President Director and the Chair of the Corruption Eradication Commission (KPK) on October 17, 2016. Since that date, BNI has implemented Gratification control in its operational activities, including reporting Acceptance/Rejection of Gratification that is reported to BNI UPG through the Online Gratification application (GOL).

The UPG assigned to the Compliance Division is responsible for:

1. Preparing a rules, technical instructions and other similar requirements to support the implementation of gratification control;
2. Receiving, analyzing, and administering reports of acceptance and rejection of gratification. If necessary, the UPG may request information from the recipient of the gratuity regarding the completeness of the gratification report.
3. Continuing the report on receipt of gratification to the Corruption Eradication Commission in accordance with applicable regulations.
4. Delivering the results of the gratification report management and proposed gratification control policies to the management/directors.
5. Mapping the vulnerable points of receiving and giving gratification.
6. Monitoring and evaluating the implementation of gratification control at BNI.
7. Carrying out advisory and socialization functions within BNI.
8. Coordinating with related units at BNI in order to carry out their duties and responsibilities as a gratification control unit in BNI.
9. Storing gratification goods and/or gratification gifts and forwarding them to the Corruption Eradication Commission or delivering them back to the complainant in accordance with the decisions issued by the KPK and/or UPG.

In an effort to improve gratification and anti-bribery control, the Compliance Division was appointed as a team leader to implement Anti-Bribery Management System (ABMS). Furthermore, after going through several stages of ISO 37001: 2016 certification regarding SMAP, on August 11, 2020 BNI obtained ISO 37001: 2016 certification for the Procurement of Goods and Services and since February 9, 2022 the scope has been expanded to the Corporate Credit Segment. Obtaining this certification demonstrates that the gratification, bribery (anti-bribery) and whistleblowing system control systems at BNI are well managed in accordance with international standards and practices set by ISO.

As an effort to digitize paperless gratification reporting, since December 2018, BNI Hi-Movers can report gratification through the Compliance Information Management System (CIMS) portal, which is integrated with the KPK Gratification Online (GOL) application.

SOCIALIZATION OF ANTI-GRATIFICATION POLICY, GRATIFICATION REPORTING & ANTI-BRIBERY

Socialization and education related to Gratification & Anti-Bribery has been carried out through webinars, the BNI website, print media, and internal media including the BNI Forum, BNI Digi-HC, BNI Menyapa email, Instagram Quickpose and Instagram BNI46. The activities carried out by UPG BNI during the 2022 period are as follows:

1. Awareness and Socialization
 - a. Signing of the Integrity Pact by all employees in each unit through the DigiHC application in January 2022 with one of its commitments related to the Anti-Bribery Management System (SMAP) and Gratification Control, namely “Creating a work environment that is free from corruption, collusion and nepotism (KKN), including implementing and ensuring the Anti-Bribery Management System (SMAP) and/or Gratification Control which is realized through activities including but not limited to not giving, promising and/or receiving compensation in any form to or from customer funds or debtors, vendors, partners, work partners, regulators/supervisors and/or other parties both external and internal.”;
 - b. Declaration of Gratification and Anti-Bribery in the BNI Digi-HC Application as the commitment of all BNI employees regarding compliance with gratification control;
 - c. Reporting of Gratification Acceptance and Rejection for 2022 to all BNI employees as a form of transparency that is broadcast through the BNI Forum;
 - d. Implementing Gratification Reporting Appreciation in the form of Award Charters to 56 active gratification reporters during 2021 with a total of 191 reports as well as awarding awards to 5 representatives at the “2021 Employee with Integrity” award ceremony given in 2022;
 - e. Providing advice and consultation related to Gratification and Anti-Bribery Control to BNI Internal and Subsidiaries;
 - f. Contributing as a sponsor in supporting the Indonesian Anti-Corruption Extension Jamboree (PAKSI) by the Central Java Anti-Corruption Extension Community (KomPAK) on May 20 to May 22 2022 at Gunung Pati Semarang City, as a form of BNI’s commitment to anti-corruption;

- g. Socialization by Gratification Control Unit to:
 - i) Gratification Control and SMAP to Outsourced Personnel (TAD), Bina BNI and Officer Development Program (ODP).
 - ii) Conducting Brevet Leadership training for the First Line Managers Leadership Program (FLMP) and Advanced Managers Leadership Program (AMLMP);
 - iii) Conducting Sharing Session with all Subsidiaries as a BNI Financial Conglomerate with Gratification Control and SMAP Materials;
- h. Reminding all BNI employees not to ask for and/or receive compensation in any form from third parties;
- i. Socializing to internal and external parties regarding SMAP and the commemoration of World Anti-Corruption Day (HAKORDIA) through video & digital banner facilities at the BNI Office and BNI website;
- j. Socializing Anti-Corruption activities at BNI through videos and posters, including media reporting of violations through the Whistleblowing System (WBS) media to BNI stakeholders, which was shown at the HAKORDIA Exhibition at the Bidakara Tower, Jakarta.

2. Appeals
 - a. Appeals to all Directors, Divisions/Units and Regional Offices not to give/receive gratification related to religious holidays (Imlek, Idul Fitri & Christmas) and New Year, broadcast through the BNI Forum Application, which can be accessed by all employees and stakeholders BNI through posters, BNI website and national mass media;
 - b. Appeals against the use of official facilities for personal gain to all organizations, this is in line with the KPK circular letter to avoid potential conflicts of interest in the implementation of company operational activities;
 - c. Appeals on the Prohibition of Accepting and Giving Gratification related to BNI’s 2022 Birthday celebration for all Divisions/Units/Units, also uploaded on the BNI Forum portal as a reminder of the implementation of Gratification Control and SMAP at BNI;
 - d. Appeals from the President Director regarding Anti-Corruption and Rejection of Gratification in the HAKORDIA Commemoration through video facilities broadcast on BNI Menyapa, Instagram Quickpose, BNI digital communication media and E-Sinergi magazine.

3. Webinars
 - a. Mandatory webinars for all BNI Hi Movers on SMAP and Gratification Control delivered by the Gratification Control Unit (UPG) & Consultants;
 - b. Mandatory webinars for all BNI business partners/associates on SMAP, including Gratification Control material via Live Youtube BNICorpu, attended and witnessed by all business partners/associates and BNI Hi-Movers.
4. E-Learning & Certification
 - a. Receiving an Integrity Building Expert (API) competency certificate with a vest and PIN from LSP KPK to 8 BNI Hi-Movers as one of the driving forces for implementing Integrity at BNI;
 - b. E-learning of Gratification Improvement Program by the Corruption Eradication Commission that has been completed by 37 employees of the Compliance Division;
 - c. Submitting material and questions on Gratification Control and Anti-Bribery as the Daily Exercise Employee Program (DEEP46) which is accessed by all BNI Hi-Movers through the BNI SMARTER & Digi-HC Application;
 - d. Mandatory E-Learning Gratification Control & Anti-Bribery Management System at BNI SMARTER in the form of videos that have been accessed and completed by 25,365 BNI employees.
 - e. Certification of Anti-Bribery Management System (SMAP) ISO 37001:2016 Surveillance Audit of the 2nd Year with no major or minor findings, thus demonstrating BNI’s commitment and consistency regarding the implementation of SMAP.

GRATIFICATION CONTROL MONITORING & EVALUATION BY KPK

BNI’s Gratification Control Unit (UPG) reports the Gratification Control Program results to the Corruption Eradication Commission (KPK) on a quarterly basis, then the KPK conducts an assessment of gratification control based on 6 predetermined criteria.

1. Internal Dissemination;
2. External Dissemination;
3. Identification of Risks/Points Prone to Gratification;
4. Risk Mitigation;
5. Innovation; And
6. Handling Gratification Reporting.

UPG BNI was included in the UPG category of BUMN and received the maximum Total Gratification Control Program (PPG) Implementation Score, of 100 for this assessment.

GRATIFICATION REPORT 2022

The acceptance/rejection of gratification report is submitted by the reporter (BNI employee) to the Compliance Division, and then forwarded to KPK through the Online Gratification (GOL) application. Reports of acceptance/rejection of gratification submitted by the Reporting Party have been forwarded to the KPK within an average reporting period of no later than 2.52 working days from the deadline of 30 working days. In 2022 gratification reports to UPG increased by 35.32% from 218 reports in 2021 to 295 reports in 2022.

Violation Reporting System

To increase the effectiveness of Good Corporate Governance (GCG) implementation, especially in the application of the transparency, accountability and independence principles, BNI is committed to running the company in a professional manner based on corporate behavior that is in accordance with the code of ethics and work culture, in order to realize good corporate governance. To achieve this, BNI provides an independent and confidential means of reporting violations and has a mechanism for protecting reporters, through the Whistleblowing System (WBS).

WHISTLEBLOWING SYSTEM PURPOSE

The Whistleblowing System (WBS) with the name of “WBS to CEO” is an early detection mechanism for any occurrence of a violation in BNI that can cause financial losses, including matters that can damage BNI’s image. WBS management is carried out in collaboration with an external party, namely Deloitte. WBS is a commitment to create a clean and integrity work environment through the active participation of BNI Hi-Movers in reporting violations that occur within BNI.

WHISTLEBLOWING SYSTEM MANAGEMENT

The person in charge for WBS at BNI is the President Director, assisted by the Head of Internal Audit, carries out the duties as the person in charge of WBS, and the President Director has appointed the Compliance Division Head as the WBS Manager. The WBS Manager is the person in charge of WBS implementation at BNI and is responsible to the President Director through the Vice President Director. In carrying out these functions, the WBS Manager is assisted by BNI WBS Officers with the competence and integrity to carry out WBS daily activities. The BNI WBS Officer appointments are carried out by the President Director and/or the Company’s Compliance and Risk Director upon the recommendation of the WBS Manager.

WBS Manager Duties and Authorities include:

1. WBS Manager Duties
 - a. Managing the implementation of the WBS;
 - b. Coordinating the handling of followup on reports received through the WBS;
 - c. Coordinating the provision of protection to Whistleblowers through related units both at the Head Office and outside the Head Office;
 - d. Monitoring the handling of report completion received in the WBS;
 - e. Conducting evaluations and corrective actions on the effectiveness of BNI’s WBS.
2. WBS Manager Authorities
 - a. Providing recommendations to the WBS Person in Charge concerning followup report handling;
 - b. Determining follow-up on reports, especially reports where follow-up decisions are under the authority of the WBS Manager;
 - c. Providing proposals to the Person in Charge of WBS regarding requests for Whistleblower protection;
 - d. Taking other necessary actions for the implementation of the WBS.

SUBMISSION OF VIOLATION REPORTS

Reporting violations through WBS can be made by means of:

Telephone	:	021-57853377
E-mail	:	bni-transparan@tipoffs.com.sg
Letter	:	BNI Transparan PO BOX 2646/JKP 10026
Website	:	http://bni-transparan.tipoffs.com.sg
SMS/Whatsapp	:	081-1970-1946

COMPLAINT HANDLING

Handling complaint reports through WBS, involves:

1. The WBS consultant team sends an email to the BNI WBS Manager and/or the appointed BNI WBS Officers regarding any new disclosure reports entering the e-room.
2. The timeframe for responding to the follow-up to the disclosure report is as follows:
 - a. First response: no later than 15 (fifteen) working days after the disclosure report enters the e-room;
 - b. Subsequent responses: end of each month following the first response.
3. To maintain independence, if there is a violation report that mentions the name or involves a member of the e-room, the e-room member cannot access the e-room.

PROTECTION FOR WHISTLEBLOWERS

The first protection for whistleblowers is the confidentiality of their identity and reports submitted by the whistleblower. The form of protection for whistleblowers is adjusted to the form of threats/actions received. Protection is provided with due observance of the principle of confidentiality and related provisions applicable to BNI.

TYPES OF REPORTABLE VIOLATIONS

Reports submitted through the WBS are reports of violations as follows:

1. Fraud
Fraud is dishonest or deceptive acts including, fraud, extortion, forgery, concealment or destruction of documents/reports or using fake documents, committed by a person/group of people that causes potential loss or real loss to the company;
2. Violation Regulations/Laws
Violation acts subject to sanctions according to applicable internal and external legal provisions;

3. Conflict of Interest

A situation where members of the Board of Directors, members of the Board of Commissioners, committee members, permanent/non-permanent/outourcing employees (BNI Hi-Movers) due to their position, or authority at BNI have personal interests that can objectively influence the duties mandated by BNI, resulting in a conflict between personal and/or group and/or family interests and the economic interests of BNI.

4. Bribery/Gratification

Receiving something in any form, and regardless of the amount/value, from other parties related to their position/authority/responsibility at BNI.

5. Unethical Conduct

Acts or actions taken by BNI Hi-Movers that cannot be justified ethically, such as violations of the BNI Code of Conduct.

WHISTLEBLOWING SYSTEM SOCIALIZATION

Online and offline WBS socialization is carried out on an ongoing basis, including to Branch/Region/Division employees, new employees, SP (Workers Union). In addition, WBS socialization is also carried out through videos, posters and other BNI internal media (e-synergy, bulletins, Instagram) to increase employee understanding and concern for reporting violations through the WBS so as to create a clean and integrity work environment.

NUMBER OF COMPLAINTS

In 2022, 178 (one hundred seventy eight) reports of alleged violations were received through WBS with most complaints via email. Violation reports are followed up using a research process conducted by the Internal Control (KI) and/or by the Internal Audit (IAD).

SANCTIONS/FOLLOW UP ON COMPLAINTS IN 2022

Report Status

Type of Violation

Complaints reported through WBS are always followed up by BNI management. Reports that are proven to be true based on an examination are followed up with administrative sanctions in the form of giving warning letters up to and including termination of Employment (PHK) and other management actions including transfers and counseling.

61.48% of complaints received during 2022 were completed by Internal Control or the Internal Audit, and for reports completed and proven to be violations, BNI gave strict sanctions according to the weight of the error, including laying off 6 employees who were proven to have acted fraudulently.

WBS reports still in the process of being examined are conveyed to the complainant through the WBS system.

Internal Fraud

Internal Fraud is a deviation/fraud committed by the Management, permanent and nonpermanent employees (honorary and outsourcing) related to the Bank's work processes and operational activities that affect the financial condition of the Bank.

Information on the number of internal fraud cases in 2022 can be seen in the table as follows:

Internal Fraud Within 1 Year	Number Of Cases Committed By					
	Members Of Board Of Directors And Board Of Commissioners		Permanent Employees		Non-Permanent Officers And Mobile Workforce	
	2022	2021	2022	2021	2022	2021
Total Fraud	0	0	14 Fraud	9 Fraud	7 Fraud	3 Fraud
Resolved	0	0	10	9	2	3
In progress of internal resolution	0	0	4	0	5	0
Resolution not started	0	0	0	0	0	0
Processed through legal channel	0	0	2	4	1	1

Remark: Internal fraud cases with more than Rp100 million loss

Provision of Funds Related Parties and Large Exposure

BNI already has policies and procedures regarding the Legal Lending Limit (LLL), lending to Related Parties and also policies that govern credit limits per industry sector, together with monitoring and settlement. BNI periodically conducts Credit Procedure Committee and Credit Policy Committee meetings as well as Board of Directors Meetings to discuss matters related to credit policies, procedures and operational activities.

To ensure that the provision of funds to related parties and large exposures is in accordance with the principle of prudence, BNI has an internal control system as follows:

1. Established policies and procedures in the process of granting loans;
2. Conducting an ex ante review on the loan granting process through a Credit Compliance Review conducted by the Compliance Work Unit with the following criteria:
 - a. Providing new and additional funds with the authority of the Medium Credit Committee, Regions (excluding small segments), Divisions and Head Office; or
 - b. Restructuring with the authority of the Medium Credit Committee, Regions (excluding small segments), Divisions and Head Office; or
 - c. Reviewing provisions of funds, where at least 1 (one) member of the Credit Committee is on the Board of Directors;
 - d. Modifications include, but are not limited to changes in structure, release of collateral, changes to requirements where at least 1 (one) member of the Credit Committee is on the Board of Directors;
 - e. Proposals for provision of funds that must be consulted with the Board of Commissioners or provision of funds for parties related to the Bank must obtain approval from the Board of Commissioners.
3. Ex post reviews are carried out by the Compliance Work Unit and the Internal Audit;
4. Provision of funds to related parties need approval from the Board of Commissioners;
5. Provision of large funds needs approval from the management and for certain amounts must be consulted with the Board of Commissioners;
6. IAU conducts assessment of credit centers based on risk assessment to ensure the adequacy of risk management and internal control, including in the credit granting process.

In applying the provision of funds by the Bank to related parties or for large exposures:

1. Management pays attention to the provision of large credit amounts, through the provision of funds to debtors through the Internal Rating System (corporate, commercial, and small business), Loan Portfolio Management, Loan Exposure Limits (per segment, per economic sector and per regional), LLL (for internal BNI through Internal House Limit), and Country Exposure Limit;
2. Total capital and CAR ratios are always reported to Management and all units in order to have guidelines in carrying out bank business activities, especially those concerning the provision of funds.

Submission of reports to OJK has been carried out in accordance with applicable regulations. The amount of funds available to related parties can be seen in the table below:

Funds Available	Debtor	Total	Nominal (Rp-million)
To Related Parties	322		418.584
To Individual and Group Debtors	20		190.191.369

Providing Loans to Related Parties

Based on the Republic of Indonesia Financial Services Authority Regulation No. 32/POJK.03/2018 dated December 27, 2018 concerning the Maximum Limit for Loans and Provision of Large Funds for Commercial Banks, as amended by POJK No. 38/POJK.03/2019 dated December 19, 2019, Article 5 states, that the entire portfolio of Provision of Funds to Related Parties with Banks is set at a maximum of 10% (ten percent) of the Bank's Capital. The definition of Provision of Funds is the investment of Bank funds in the form of, loans, securities, placements, claims for securities purchased with agreements to resell (reverse repo) and others.

BNI's policy concerning the provision of loans to related parties at is stated in the Company's Guidelines No. IN/551/PGV/002 dated July 22, 2021, which stipulates that the Bank is prohibited from providing Provision of Funds (hereinafter referred to as "Lending") to Related Parties without the Board of Commissioners' approval.

Related Parties as regulated in POJK No. 32/POJK.03/2018 dated December 27, 2018, as amended by POJK No. 38/POJK.03/2019, dated December 19, 2019, includes:

- a. Individuals or companies controlling the Bank;
- b. Legal entities in the event that the Bank is the controller;
- c. Companies in the case relate to individuals or Companies as referred to in letter a as a controller;
- d. Members of the Board of Directors, Board of Commissioners, and Executive Officers of the Bank; An Executive Officer is an official directly responsible to the Board of Directors or has a significant influence on the Bank's policies and/or operations, including the Division Heads, Regional Office Heads, Branch Office Heads, Functional Office Heads whose position is at least equal to the Branch Office Heads, Risk Management work unit Heads, Compliance work unit Heads, and Internal Audit work unit Heads and/or other equivalent officials;
- e. Parties who have familial relationships horizontally and vertically:
 1. From an individual who is controlling the Bank as referred to in letter a; and
 2. From members of the Board of Directors and/or members of the Board of Commissioners at the Bank as referred to in letter d. Familial relationships horizontally or vertically, include:
 - Biological/step/adoptive parents;
 - Step/adoptive Siblings;
 - Biological/step/adopted children;
 - Biological/step/adoptive grandparents;

- Biological/step/adopted grandchildren;
 - Siblings/steps/adoptive from parents;
 - Husband or wife;
 - Parents in law;
 - Husband or wife of biological/step/adopted children.
- f. Members of the Board of Directors and/or Board of Commissioners, in the Companies referred to in letter a, b and/or c;
 - g. Companies whose members of the Board of Directors and/or Board of Commissioners are members of the Bank's Board of Commissioners;
 - h. Companies/entities with 50% (fifty percent) or more of the members of the Board of Directors and/or Board of Commissioners, are Directors and/or Commissioners in the Companies referred to in letter a, b and/or c;
 - i. Companies/entities where:
 1. Members of the Board of Directors, Board of Commissioners, and/or Executive Officers of the Bank as referred to in letter d. act as controllers; and
 2. Members of the Board of Directors and/or Board of Commissioners in the parties as referred to in letter a, b and/or c act as controllers;
 - j. Collective investment contracts where the Bank and or the parties referred to in letters a. to i. own 10% (ten percent) or more shares in the Investment Manager of the collective investment contract;
 - k. Companies that have financial relationships with the Bank and/or parties as referred to in letter a. up to the letter i; Financial relationships include:
 1. There is financial assistance from the Bank and/or Related Parties or financial assistance to the Bank and/or other Related Parties with requirements that cause parties providing financial assistance to be able to determine (controlling influence) the strategic policies of Companies receiving financial assistance;
 2. There is a significant business chain linkage in the business operations of the Bank or Related Parties with other Companies so there is dependence between one party and another which can result in:

- One party being unable to easily transfer business transactions to another party; and
 - The inability to easily transfer business transactions causes the cash flow of one of the parties to experience significant disruptions making it difficult to meet obligations; and/or
3. There is a transfer of loan risk through a guarantee where the guarantee party will take over part or all of the financial risk from the guaranteed party.
 - l. The borrower is an individual or a non-bank company with financial relationships through the provision of guarantees to parties as referred to in letters a to k;
 - m. The borrower has financial relationships through guarantees provided by the parties as referred to in letters a to k;
 - n. Other Banks have financial relationships through providing guarantees to parties as referred to in letters a to letter k in the event that there is a counter guarantee from the Bank and/or parties as referred to in letters a to letter k to the other Bank; and
 - o. Other companies where there is an interest in the form of share ownership of 10% (ten percent) or more individually or jointly, from the parties as referred to in letter e.

Provision of Loans to debtors who are not Related Parties that are channeled and/or used for the benefit of the Related Party are classified as Providing Loans to Related Parties.

Provision of Funds for Social and Political Activities

BNI has a policy that prohibits BNI employees from becoming members and/or donors of political parties. In 2022, there was no funding for political activities. The budget spent on social activities through the Social and Environmental Responsibility Program throughout 2022 was Rp99.75 billion.

Procurement of Goods and/or Services

THE BANK'S PROCUREMENT OF GOODS AND/OR SERVICES BASIC PRINCIPLES ARE AS FOLLOWS:

The Bank's procurement of goods and/or services basic principles are as follows:

1. Efficient: goods and/or services procurement must be endeavored to obtain optimal and best results in the shortest amount of time by spending minimum funds and capability in a reasonable manner and not solely aimed at getting the lowest price.
2. Effective: goods and/or services procurement must be in accordance with the predetermined requirements and provides the maximum benefit in accordance with the targets set.
3. Competitive: goods and/or services procurement must be open to all Goods and/or Services Providers that meet the qualifications, and is performed through fair competition between equal Providers of goods and/or services that meet certain conditions/criteria based on clear and transparent rules and procedures.
4. Transparent: goods and/or services procurement provisions and information regarding, including procurement administrative technical requirements, evaluation procedures, evaluation results, determination of prospective suppliers of goods and/or services, are open to all qualified goods and/or services providers.
5. Just and Fair: all prospective Goods and/or Service Providers who meet the requirements must receive an equal treatment.
6. Open: goods and/or services procurement can be pursued by all prospective goods and/or services providers that meet the requirements.
7. Accountable: must achieve the target and can be accounted for so as to stay away from potential misuse and irregularities.

While the ethics in implementing the Procurement of Goods and/or Services at BNI are as follows:

1. Carrying out tasks in an orderly manner, with a sense of responsibility to achieve the Procurement of Goods and/or Services goals, smoothness, and accuracy of objectives;
2. Working professionally, independently, and maintaining information confidentiality which by its nature must be kept confidential to prevent irregularities in the Goods and/or Services Procurement;
3. Not influencing each other, either directly or indirectly, resulting in unfair business competition;
4. Accepting and being responsible for all decisions made in accordance with the written agreement of the parties concerned;
5. Avoiding and preventing conflicts of interest with related parties, either directly or indirectly, which may result in unfair business competition in the Goods and/or Services Procurement;
6. Avoiding and preventing wastage and leakage of state/company finances;
7. Avoiding and preventing abuse of authority and/or collusion; and/or
8. Not accepting, not offering, and not promising the giving or receiving of gifts, rewards, commissions, rebates, and anything from or to anyone who is known or reasonably suspected to be related to the Goods and/or Services Procurement.

METHODS OF PROCUREMENT OF GOODS AND/OR SERVICES

The procurement of goods and/or services at BNI is carried out through the Tender, Limited Tender, Direct Appointment, Direct Procurement and Self-Management methods.

The criteria for the procurement method are as follows:

Tender	1. Procurement of goods and/or services is announced widely and openly at least 2 Business Days for each supplier of goods and/or services.
	2. If necessary, the following can be done: <ul style="list-style-type: none">a. Written notification to the association of providers of goods/services/principals;b. Sending Tender invitations to partners who potentially meet the requirements.
Limited Tender	3. Followed by at least 3 (three) vendors who register and fulfill the requirements in the tender announcement.
	4. The price negotiation process is carried out using the e-auction module unless it is not possible to do so.
Direct Appointment	5. For certain needs, more than 1 (one) vendor of goods and/or services may be appointed.
	1. Procurement of goods/services offered to several parties is limited to a value determined by the Company.
	2. If needed, it is possible to invite potential participants by way of announcements.
	3. At least 2 (two) candidates who meet the requirements.
	1. Goods and services needed for BNI's main performance and cannot be delayed (business critical assets).
	2. There is only one Provider who can carry out work according to user requirements, or in accordance with the provisions of prevailing laws and regulations.
	3. Goods and services that are knowledge intensive in which to use and maintain these products requires continuity of knowledge from the Provider.
	4. If the Procurement using a Tender or Limited Tender method has been carried out 2 (two) times and does not find a Provider, or there is no party meeting the criteria, or no parties participating in the Tender.
	5. Goods and services owned by holders of Intellectual Property Rights (IPR) or who have warranties from Original Equipment Manufacturers
	6. Emergency management for security, community safety, and company strategic assets.
	7. Procurement of goods and/or services that constitute a purchase or re-procurement (repeat order).
	8. Emergency management due to local and national natural disasters (force majeure).
	9. Additional or continuing work that cannot be avoided in the context of completing the procurement of goods and/or services.
	10. Providers of goods and/or services are BUMN, BUMN Subsidiaries or BUMN Affiliated Companies as long as the goods and/or services referred to are products or services from BUMN, BUMN Subsidiaries, BUMN Affiliated Companies and/or small and micro businesses and as long as they are of quality, prices, and purpose, and can be justified.
	11. Consultants not planned in advance to deal with certain problems where the work must be carried out immediately and cannot be delayed.
	12. Procurement of goods and or services with a defined value determined by the Company.

Direct Procurement	1. By way of Direct Procurement of the Provider or direct seller.
	2. Can be done without a Work Order (SPK) or Contract.
	3. Procurement of goods and/or services with a certain value can be carried out using the Direct
	4. Procurement Method if it fulfills one of the following conditions: <ul style="list-style-type: none">a. Items are specially designed/created/made by a certain party or have artistic value/art work, including sculptures, paintings, handicrafts; orb. Subscription goods (subscription/membership) based on the results of studies that can be accounted for, including gardner, forrester; orc. Procurement is carried out based on widely published public tariffs, including electricity, telephone/communication, clean water, fuel oil, gas fuel; ord. Procurements carried out in accordance with established business practices, including: hotel fees, transportation tickets.
Swakelola	1. Renovation work of buildings/offices, repairs/maintenance of equipment/furniture.
	2. Swakelola is implemented for work that is incidental and/or simple and easy to supervise/monitor. If the work is carried out by contract or daily workers, it must be by individuals.
	3. Procurement by means of Swakelola must obtain prior approval from the Head of the implementing unit.
	4. Type of Self-Management: <ul style="list-style-type: none">a. All activities carried out by BNI employees; orb. Some work can be done through piece rate, daily/weekly; orc. Some work can be assisted by individual experts (consultants).
	5. To meet the needs of materials, tools, and/or experts who are not available at BNI, the Procurement process still refers to the Procurement method in accordance with the provisions stipulated in points 1, 2, 3 and 4.
	6. Self-management procurement is carried out with a certain value.

General Procurement of Goods & Services				
PROVISION	PROCUREMENT CENTRALIZATION	PROCUREMENT STRATEGY	SEPARATION OF FUNCTION	AUTHORITY DECISION LEVEL
Procurement of Goods and Services refers to external and internal provisions (Company Guidelines)	In principle, the procurement of goods and services adheres to a centralized procurement system that considers efficiency, effectiveness and security. However, in some cases, procurement decentralization can be carried out with consideration to optimizing the functions and authorities in all units and providing opportunities for local partners to participate in Goods and/or Services procurement.	<ul style="list-style-type: none">1. Improving the quality of management2. Sharpening specifications3. Packaging based on work/type of goods4. Selective acquisition of vendors5. Enhancing E-Procurement	Separation of functions between procurement processing units by: <ul style="list-style-type: none">1. Units requiring procurement2. Vendor Management Units selecting partners and recommending a list of partners3. Units preparing their own approximate prices4. Units preparing the contracts5. Units making payments6. Units supervising	The authority to decide on procurement is made tiered with consideration of risk level and level of procurement value through a decision-making mechanism in the procurement committee

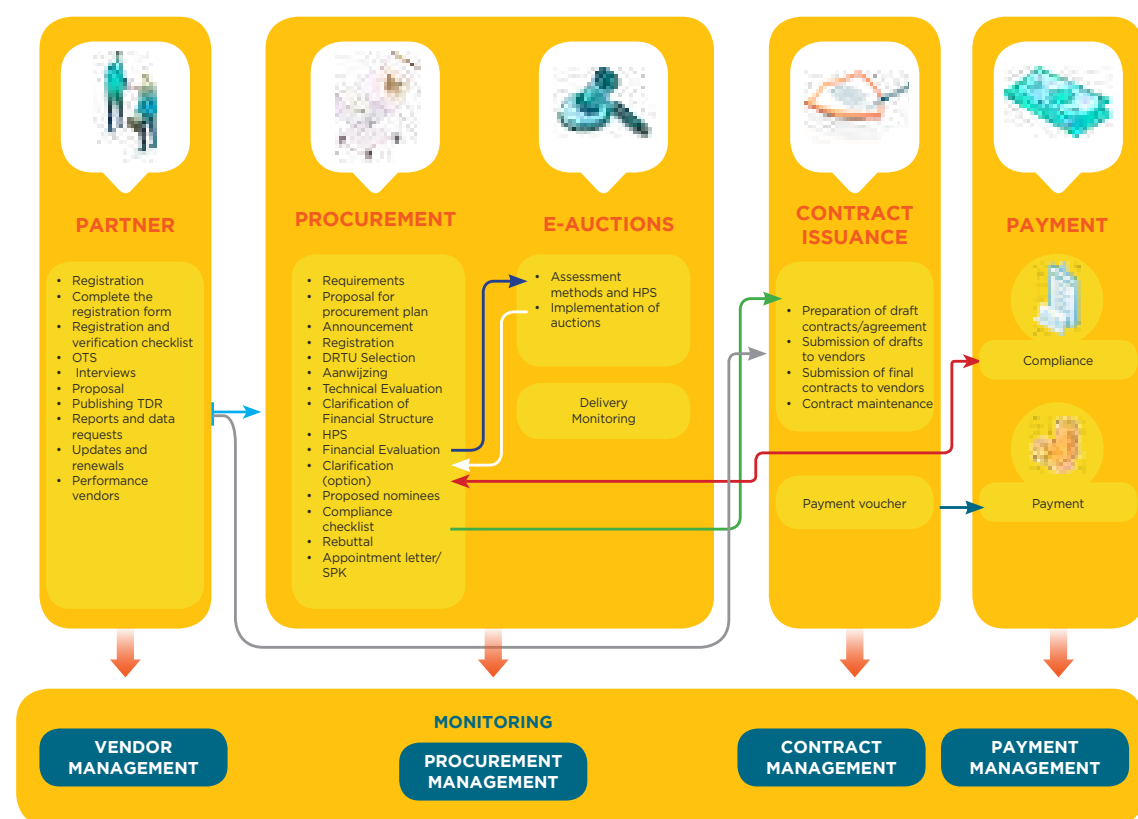

PROCUREMENT THROUGH ELECTRONIC PROCUREMENT (E-PROC) APPLICATION

One of the efforts to support BNI's strategy was to transform into digital banking to face business competition, increase stakeholder satisfaction and GCG principles. BNI uses the Electronic Procurement Application (e-Proc) to digitize the goods and services procurement process in the form of Procurement Management, Vendor Management and Contract Management modules.

With modules in the e-procurement application accessible via <https://e-proc.bni.co.id>, both participants, committees and administrators of the procurement process are connected digitally in an end to end platform, starting from partner registration, procurement processes, compliance tests, contracts and payments. With the use of the e-Proc Application, it is hoped that the procurement process will become more efficient, effective, competitive, transparent, fair and reasonable, transparent, accountable, with well-maintained governance.

Since 2018 the e-Procurement application has been available in the Head Office so that all procurement processes carried out by the Head Office and Regional Offices can be integrated and monitored properly through dashboard monitoring, e-Procurement, and will be rolled-out in stages to all BNI Regional Offices starting year 2023.

Procurement Process Through Electronic Procurement (E-Proc) Application

ISO 37001:2016 ANTI-BRIBERY MANAGEMENT SYSTEM

To implement the Anti-Bribery Management System, PT Bank Negara Indonesia (Persero), Tbk (BNI) obtained SNI ISO 37001:2016 Certification (Anti-Bribery Management System for the Procurement of Goods and Services in the Procurement & Fixed Assets Division). On August 11, 2020, the Procurement & Fixed Assets Division implemented an Anti-Bribery Management System within the scope of Procurement of Goods & Services.

BNI in carrying out all of its activities, carries out its duties and work properly, correctly and responsibly and applies AKHLAK as the main BUMN value, Prinsip 46, BNI Code of Ethics, and complies with internal company regulations, laws and regulations. and prevailing laws and regulations as well as the Good Corporate Governance principles and is committed to:

1. Carrying out Honest Willing and Sincere Behavior as well as being disciplined, consistent and responsible and implementing laws and regulations and internal regulations related to the Anti-Bribery Management System in every action and decision making;
2. Being firm against all forms of bribery to realize good corporate governance and being free from all forms of corruption, collusion and nepotism (KKN);
3. Playing an active role in ensuring the implementation of the Anti-Bribery Management System, including reporting suspected anti-bribery policy violations in accordance with the applicable mechanism at BNI;
4. Willing to accept sanctions set by the Company if proven to have violated the anti-bribery policy.

To support this commitment, the Company has established the anti-bribery compliance function as an independent function, to develop, oversee the implementation and encourage continuous improvement of the Anti-Bribery Management System, as well as to take firm action in accordance with its authority for violations of the Anti-Bribery Management System.

This Anti-Bribery management system policy is communicated and socialized to BNI and other stakeholders to ensure Good Corporate Governance, free from Corruption, Collusion and Nepotism (KKN), and periodic reviews carried out in accordance with the Company's commitments.

In 2022, a second annual Surveillance Audit was carried out, and included the procurement of goods and/or services processes carried out at BNI, and maintained the Anti-Bribery Management System Certification.

ISO 30301: 2019 RECORDS MANAGEMENT SYSTEM

In an effort to improve the quality of archive management according to international standards and support operations in terms of the Archives Management System, BNI initiated the ISO 30301:2019 Archives Management System certification with the scope of BNI Record Center (BRC) Cikupa - Main Building. With the acquisition of the ISO 30301:2019 BNI Records Management System Certification on October 21, 2020.

BNI is committed to implementing a good Records Management System to become an international standard Record Center by:

1. Being responsible for providing Records Management Targets in accordance with BNI's vision and mission;

2. Being responsive in providing excellent service and making continuous improvements to improve the implementation of the ISO 30301:2019 Archives Management System effectively and efficiently;
3. Being careful in complying with all laws and regulations related to archive management at the BNI Record Center.

BNI has maintained the second year Surveillance Audit of the ISO 30301:2019 Records Management Certification.

BNI RECORD CENTER (BRC) CIKUPA

BNI has a Record Center in the Cikupa area, Tangerang, which is one of the largest Record Centers owned by BNI, with an area of 3.4 hectares and a total building area of 1.3 hectares and has a storage capacity of 337,200 boxes.

BRC Cikupa BNI's achievements in archive management:

1. As a BUMN in the banking category was the first to gain Archival Accreditation with an "A" (Special) Grade from the National Archives of the Republic of Indonesia (ANRI);
2. Received the 2nd place title in the Best National Archives Unit Competition in the BUMN category organized by ANRI;
3. Became a study destination for imitating institutions/institutions both for government and private, including: BRI, Bank Mandiri, BTN, Bank DKI, BJB, Police Headquarters, Pelindo III, Pertamina, Ministry of Energy and Mineral Resources, Bank Panin, Bank Danamon, Bank Bukopin, Bank Muamalat, Sinar Mas Bank.

ISO 9001: 2015 QUALITY MANAGEMENT SYSTEM AT HPS SECTION (SELF ESTIMATED PRICE)

To the quality of Self-Estimated Price management, based on international standards, BNI has received ISO 9001:2015 certification for Quality Management Systems in the management of Self-Estimated Prices. This certification shows that BNI is committed to becoming a service provider that customers can trust will provide reasonable, timely prices, comply with applicable laws and regulations and strive to make continuous improvements to improve service quality according to internationally accepted standards and practices.

BNI has maintained its second year Surveillance Audit ISO 9001:2015 Quality Management System Certification on Self-Estimated Price (HPS).

ISO 9001: 2015 QUALITY MANAGEMENT SYSTEM FOR VENDOR MANAGEMENT

To improve the quality of vendor management based on international standards, BNI has received ISO 9001:2015 certification for Quality Management Systems in Vendor Management. This certification shows that BNI is committed to becoming a reliable vendor service provider and supports the process of procuring goods and/or services, by providing quality vendor recommendations related to their fields, and always making continuous improvements to improve the quality of services according to standards and practices that apply internationally.

In 2022, BNI maintained for a second year Surveillance Audit ISO 9001:2015 Quality Management System certification for Vendor Management.

OFFICE BUILDING MANAGEMENT

When managing and operating office buildings, BNI prioritizes Occupational Safety and Health (OHS) and prioritizes the health and safety of all employees/guests/customers and provides a sense of security and comfort.

During the pandemic and the adaptation to new habits, BNI carried out health protocols according to Government recommendations and consistently socialized them to all employees and visitors, and these included:

1. Building Entrance Areas
 - a. Installing the Peduli Protect Application in an effort to minimize the spread of the COVID-19 pandemic;
 - b. Checking body temperature
2. Building Facilities
 - a. Several BNI buildings have been equipped with Face Recognition for security and prevention of the spread of the COVID-19 virus, and are equipped with a Thermal Scanner;
 - b. Carrying out regular cleaning and disinfection in work areas and public areas (disinfecting public facilities that are frequently touched by the public every 4 hours);
 - c. Providing adequate and easily accessible handwashing facilities;
 - d. Installing information media to remind employees/guests to follow the provisions for physical distancing restrictions and washing hands with soap and running water/hand sanitizer, and the discipline in using masks;
 - e. Installing signage to keep a minimum distance of 1 meter in public places, to keep your distance, and avoid crowds
3. Building System
 - a. Plumbing system, including inspection/cleaning of roof tanks and groundwater tanks to maintain water quality, and condition of GWT and RWT rooms that must always be locked, housekeeping and engineering (plumbing) teams flush toilets (sinks and urinals) on H-3, including opening faucets in the janitor and pantry, especially on the Owner/Tenant floors who previously applied WFH, inspection of sump pits, transfer pumps, booster pumps and cleaning of water features (ponds/fountains/swimming pools);
 - b. HPAC system (Heating, ventilation, and air conditioning) including cleaning FCU/AHU filters and other indoor units, cleaning ducting and increasing the volume of clean air intake inside the building, including the basement.

Bank's Strategic Plan

BNI CORPORATE PLAN 2021-2025

BNI has developed strategic directions for 2025 in response to external conditions that have changed quite dynamically over recent years due to the COVID-19 Pandemic, and the fundamental changes in the banking industry landscape. BNI's strategic direction in 2025 has been determined as follows "Integrated Digital-Based Financial Solution Provider with International Excellence".

This strategic direction is a unique value proposition that will be developed by BNI to focus on 3 (three) areas, namely integrated, digital and international financial solutions. These three areas are a concern for developing into superior values for BNI to compete with competitors in the banking industry.

In achieving this strategic direction, BNI has developed strategic initiatives in 5 (five) business pillars, Corporate Banking, Institutional Banking, International Banking, Commercial & SME Banking, and Consumer Banking, supported by the development of 7 (seven) enablers as business foundations, Digital, IT, Operations, Network & Services, Risk Management, Finance, & Human Capital. The strategic initiatives began with the Enhancing The Basics phase that focused on improving the business foundation so that BNI could grow in a sustainable manner, and was developed during the 2021-2022 period.

2022 STRATEGIC POLICY

Guided by BNI's 2021-2025 Vision, Mission, Corporate Policy Directions and Corporate Plan and to support the development of strategic initiatives in the Enhancing The Basics phase, BNI has instigated the following strategic policies for 2022:

1. Optimizing risk management and loan process discipline to improve asset quality.
 - a. Developing end-to-end loan process transformation to improve loan quality and to enhance risk culture.
 - b. Optimizing restructuring to focus on priority sectors to improve LaR.
 - c. Improving market and relationship development capabilities to anticipate debtor business movements.

- d. Optimizing the Remedial & Recovery process to accelerate loan quality improvement.
2. Increasing selective business expansion and sustainable financial solutions.
 - a. Increasing corporate segment loan expansion with a focus on priority Top Tier sectors.
 - b. Initiating green financing in BNI's loan portfolio to support the ESG initiative.
 - c. Optimizing the MSME business from the corporate value chain in leading sectors.
 - d. Increasing the MSME business through BNI Xpora to increase the potential for MSME to go global.
 - e. Supporting Government programs through the distribution of KUR and other programs.
 - f. Developing consumer loans in a digital ecosystem, in line with the customer journey.
 3. Increasing global market expansion through acceleration of international business strategies.
 - a. Developing global transaction banking solution capabilities to improve trade, remittance and cash management businesses.
 - b. Increasing transactions and expanding international business services through partnerships with fintech and third parties.
 - c. Increasing productivity and the role of KCLN as centers of excellence.
 4. Increasing sustainable FBI and CASA by offering transaction solutions.
 - a. Improving services, solutions and programs to increase transactions that are integrated according to the shifting business needs of customers.
 - b. Increasing debtor transactions by optimizing BNI Accounts.
 - c. Increasing cross-selling and up-selling by actively offering cross-segment products & Subsidiaries.
 - d. Optimizing product bundling by optimizing data analytics.
 - e. Optimizing digital-based ecosystems to provide easy transactions.
 - f. Increasing Agen46 transactions and optimizing digital channels.
 5. Strengthening digital capability through innovation and increased partnerships.
 - a. Developing digital-based innovations to meet customer needs.
 - b. Increasing partnerships through optimizing API Management.

- c. Improving data quality and data analytics to support business.
 - d. Optimizing innovations in digital-based internal business processes.
 - e. Improving digital marketing to increase customer base and transactions.
 - f. Developing digital tools for RM and sales to support sales.
 - g. Developing Digital Risk Mitigation.
 - h. Initiating blockchain utilization.
6. Increasing BNI Group synergy by optimizing the position of Subsidiaries.
 - a. Increasing the penetration of Subsidiaries to strengthen PA's positioning towards becoming a market leader in each industry.
 - b. Improving the digitization of Subsidiaries' business processes through BNI Main synergy and partnerships.
 - c. Strengthening Venture Capital to support BNI's synergy with Subsidiaries.
 - d. Continuing the strategy of strengthening and utilizing Capital Management by strengthening BNI's capital through several corporate actions and optimizing the use of capital distribution in businesses that provide competitive yields.
 7. Optimizing Human Capital and Operations to support business processes.
 - a. Optimizing talent management and workforce planning to support business development.
 - b. Improving HC capabilities to understand market developments, risk culture, global banking, digital mindset, and advanced analytics.
 - c. Increasing Unit and Individual productivity through the development of a performance-based organization and a culture of superior performance.
 - d. Improving IT capabilities to support digitalization.
 - e. Developing operating models in a more agile and flexible manner to support business processes and digitalization.
 - f. Strengthening governance to support operating model development through ESG initiatives.
 - g. Developing organization design and optimizing organizational size to support efficiency and effectiveness in the digitalization era.

BNI CORPORATE TRANSFORMATION

BNI has carried out business process improvements and innovations in the Enhancing The Basics phase through the BNI Corporate Transformation Program since 2021. The BNI Corporate Transformation program was carried in response to the challenges and changes in the banking industry, to accelerate continuous improvement in financial performance, as well as BNI's efforts to achieve the strategic direction by 2025 through the development of strategic initiatives (transformation).

Armed with the BNI RACE values, Risk Culture, Agile, Collaboration, and Execution Oriented, to encourage a spirit of transformation, the BNI Corporate Transformation program has produced transformation initiatives that have so far been implemented at all levels of the organization both at the Head Office, Regional Offices, and Branch Offices. The strategic transformation initiatives focused on 5 (five) business focuses, namely:

1. Strengthening the holding company to strengthen its existence in the banking industry.

In supporting the holding transformation process and achieving business potential in digital community transactions, BNI has acquired a private bank in Indonesia, Bank Mayora, which will be prepared to transform into a Digital Bank. Digital Bank will later focus on encouraging the Micro, Small and Medium Enterprises (MSMEs) business segment in Indonesia, where the MSME segment plays an important role in economic growth in Indonesia as it absorbs 97% of the Indonesian workforce and contributes more than 60% to Indonesia's GDP.

This digital bank will become BNI's channel to support MSME businesses in running their businesses by using digital banking service solutions. The presence of digital banking will improve the penetration of BNI services in the MSME segment, as well as provide faster and more flexible development of financial service features.

BNI has also strengthened the holding by establishing BNI Ventures as a subsidiary company engaged in venture capital. The establishment of BNI Ventures, aimed at supporting BNI's strategy of strengthening and expanding the network of cooperation with third parties more efficiently, and providing added value in the process of collaboration between BNI and third parties (startups). BNI Ventures will support the development of technological innovation, accelerate BNI's digital transformation and provide synergistic value creation in the future.

In addition, BNI also strengthened its holding company by increasing its equity participation in PT Bank Syariah Indonesia Tbk ("BSI"). On December 19, 2022, BNI exercised an additional capital of Rp500,000,000,000.00 (five hundred billion rupiah) through partial Pre-emptive Rights (HMETD). With this additional capital, the number of BNI shares held increased to 10,720,230,418 shares, making the percentage of share ownership 23.24%. The additional capital was intended to strengthen the BSI's capital to can be channeled in the form of BSI's financing and business growth, as well as to support the BSI's achievement of becoming a Top 10 Global Islamic Bank.

2. Improving loan quality through a more prudent loan process discipline.

The conditions brought on by the COVID-19 Pandemic affected economic conditions, including a decline in loan quality. In response to this condition, BNI developed the End to End Credit Process and Loans at Risk (LaR) Management initiatives to improve loan quality, discipline in the loan process, supported by the provision of tools to facilitate loan management and increase awareness of risk culture. Through these initiatives, BNI can reduce NPLs, reduce Credit Cost and BOPO ratios, and minimize reserves that ultimately will have an impact on increasing BNI's profits.

3. Shifting business focus towards providing banking solutions & ecosystem development.

To maintain business continuity in today's increasingly competitive conditions, BNI has developed institutional business solution initiatives, and increased cross selling with a focus on top tier customers to provide banking solutions, not only limited to products & services owned by banks, but also by optimizing Subsidiary products & services. Through this initiative, BNI's top tier customer portfolio has increased, institutions, and institutional customers that are managed in an integrated manner have also been added, and has increased business volume, as reflected in an increase in business transactions, loans, through the FBI.

BNI has also developed banking solutions through business ecosystems, such as the BNI Xpora ecosystem. In moving the wheels of the economy in Indonesia and supporting the direction of the Ministry of SOEs, BNI has developed the BNI Xpora initiative and international business development. In the BNI Xpora initiative, BNI encourages MSMEs to market their products to the global market by developing the concepts of go digital, go productive, and go global, and has established 7 Hubs in several strategic locations to capture the business potential of MSMEs that are oriented to the international market. Management of export-oriented MSME customers has had an impact by increasing the volume of trade finance, debit balances, FBI to low-cost funds. BNI has also strengthened its international business and expanded its international network with the opening of the BNI Amsterdam KCLN.

4. Improving Business Operations in business processes, channels and IT

Increased business development was followed by more efficient and faster and more accurate operational processes. In this regard, BNI has developed several initiatives to support business, including:

- Improving operational processes starting from the loan documentation process to operational improvements in business channels.
- Introducing a new channel model to make it easier for customers to access BNI channels by mapping channels based on customer needs.
- Renewing its robust IT Capability in digital development by strengthening cybersecurity.

5. Increasing productivity through new, more flexible ways of working.

- By supporting the faster business development processes, BNI looks to increase employee productivity by trying to change ways of working to be more agile through the New Way of Working (NWOW) initiative, and performance management improvements (channel, product & segment) by increasing performance awareness and developing talent management to prepare future leaders.

Reporting Transparency

To realize the fulfillment of the information disclosure principle that is important to the public as a material consideration for making investment decisions, the Company submits and reports its disclosure of Material Information or Facts to the Financial Services Authority and announces the disclosure of Material Information or Facts to the public.

The Company conveys information to the public through the Company's website, the Integrated Electronic Reporting Facility for Issuers and Public Companies IDX and OJK, as well as the mass media.

Conflict of Interest Policy (Including Insider Trading)

To avoid conflicts of interest, all members of the Company are required to:

- Prioritize the interests of the Company, through:
 - An obligation to serve all of the Company's stakeholders as well as possible according to their respective duties and responsibilities;
 - To carry out these duties and responsibilities, it must be based on applicable regulations and policies without prioritizing personal interests or the interests of affiliated parties, including those coming from religions, professions, political parties, ethnicity, and must avoid matters that may cause a conflict of interest;
 - Prohibited from including elements of personal interest when making decisions or actions that may affect the quality of the decisions/actions;
 - Prohibited from giving special treatment to certain parties by ignoring the applicable procedures or provisions;
 - Prohibited from seeking or receiving improper benefits so as to affect the performance of their duties;
 - In the event of a conflict of interest, BNI people are required to prioritize the company's economic interests and avoid companies that may arise or the possibility of reduced company profits.
- Creating transparency when handling Conflicts of Interest:
 - Handling conflict of interest requires transparency from BNI people so that the conflict of interests that occur can be controlled and handled adequately;
 - BNI people who face a potential conflict of interest must express the existence of personal interests and/or affiliated relationships that have the potential to cause conflicts of interest.

- Encouraging individual responsibilities and role models
 - All BNI people must be able to maintain their credibility and integrity in order to be an example for other BNI people;
 - All BNI people must be able to separate personal affairs from company affairs so that they can avoid conflicts of interest that can harm or reduce company profits;
 - All BNI people are required to make annual statements related to conflicts of interest and will try to avoid all forms of possible conflict of interest when carrying out their duties.
- Creating a culture of anti conflict of interest
 - The company is required to submit an annual statement to the public about the prohibition for BNI people to receive prizes or gifts from customers, partners, vendors and other parties;
 - To build awareness and a culture of anti-conflicts of interest, it is necessary to continue to socialize matters related to conflicts of interest, so that all BNI people can avoid conflicts of interest and proactively report the situation/condition that indicates conflicts of interest in their work environment through Internal Complaints Means.
- Enforcing the policy of conflict of interest that each BNI person who is proven to have violated the conflict of interest provisions will be subject to sanctions in accordance with the provisions in force in the company.

Guidelines for conflict of interest are outlined in the Online Company Guidelines (EPP) No. IN/13/KPN/002 dated January 3, 2023.

In addition, the Bank has already implemented policies on conflicts of interest and a policy on securities transactions for insider trading. This is stated in the Guidelines for Companies Contracting Transactions that are prohibited and not prohibited for people in No. IN/500/KMP/001 dated September 23, 2019, and Guidelines for Conflict of Interests as outlined in the Guidelines for Online Corporate (EPP) No. IN/13/KPN/002 dated January 3, 2023.

The Bank has asserted the prohibition of use of insider information (insider trading) in personal transactions by employees and management (in this case members of the Board of Directors and the Board of Commissioners). With this policy, it is expected that the use of internal information for the personal interests of employees and management (insiders) is mitigated.

Shares and Bonds Buyback

During 2022, the Company did not buy back shares or bonds issued by the company.

Management of State Officials' Assets Reports (LHKPN)

LHKPN POLICY

The Company has a policy concerning the implementation of the State Officials Asset Report (LHKPN) based on:

1. Law Number 28 of 1999 concerning State Officials who are Clean and Free from Corruption, Collusion and Nepotism;
2. Law Number 30 of 2002 concerning the Corruption Eradication Commission. Law Number 10 of 2015 concerning Stipulation of Government Regulation in Lieu of Law Number 1 of 2015 concerning Amendments to Law No. 30 of 2002 concerning the Corruption Eradication Commission jo. Republic of Indonesia Law No. 19 of 2019 concerning the Second Amendment to Law No. 30 of 2002 concerning the Corruption Eradication Commission;
3. KPK Regulation No. 07 of 2016, as amended by KPK Regulation No. 2 of 2020 concerning Procedures for Registration, Announcement and Examination of State Officials' Assets;
4. Minister of Republic of Indonesia SOEs Circular No. SE-12/MBU/10/2021 concerning Obligations to Submit State Officials' Asset Reports (LHKPN) for Officials in State-Owned Enterprises.

These policies regulate the Position of BNI State Officials to report their assets, delivery procedures, LHKPN management and administrator work units, to the sanctions that can be imposed on employees who do not carry out their reporting obligations.

MANDATORY LHKPN REPORT

Based on the LHKPN Policy, LHKPN Mandatory Reporting applies to Structural Officials within the Bank, namely:

1. The Board of Commissioners;
2. The Board of Directors;
3. The Senior Executive Vice President;

4. Executive Officers who report to OJK, namely:
 - a. Division/Unit/Head or equivalent;
 - b. Head of Regional;
 - c. Head of Overseas Branch.
5. Active employees who are placed on the Board of Commissioners/Board of Directors in Subsidiaries.

LHKPN MANAGEMENT

The LHKPN reporting management includes the LHKPN Management Coordinator and e-LHKPN Management Admin with the following details:

1. The LHKPN Management Coordinator is the Group Head Corporate Secretary and Group Head Human Capital Services with the following duties:
 - a. Coordinating with KPK in monitoring, filling out, and submitting LHKPN as well as socializing LHKPN obligations;
 - b. Coordinating with the Ministry of SOEs and KPK regarding the management and administration of the Mandatory LHKPN Application.
2. e-LHKPN Management Admin is an official from the Corporate Secretary Group and Human Capital Services Group with the following duties:
 - a. Managing and updating data required to report LHKPN;
 - b. Managing and monitoring LHKPN reporting obligations.

2022 LHKPN REPORT

As of the end of the 2022, out of 105 persons required to report, 104 or 99.5% fulfilled their LHKPN reporting obligations.

Transparency of Financial and Non-Financial Conditions

In accordance with the OJK Regulation (POJK) No. 14/POJK.04/2022 concerning Submission of Periodic Financial Statements of Issuers or Public Companies, article 20 in Media and Publications chapter, states that listed issuers or public companies are required to announce Periodic Financial Statements only through the Stock Exchange website (paragraph 1), and through the website of the issuer or public company (paragraph 3). Prior to the issuance of this POJK on August 22, 2022, the Bank always fulfilled the obligations of financial and non-financial transparency and publication in accordance with applicable regulations. Submission and publication of information is done both through print and on the Bank's website as follows:

1. Monthly Financial Reports to regulators, which are also published through the OJK reporting system and the BNI website;
2. Quarterly Financial Reports to regulators, which are also published through the OJK reporting system, BNI website, and newspapers or other electronic media;
3. Annual Financial Reports to regulators, which are also published through the OJK reporting system, BNI website,
4. BNI Annual Report submitted to regulators, rating agencies, banking development institutions, research institutions and financial magazines and published through the BNI website;

5. Periodic and incidental reports in compliance with regulations in the Capital Market sector, published on the Company's and the Indonesia Stock Exchange websites, and reported to OJK, Indonesia Stock Exchange, Ministry of SOEs, and relevant regulators;
6. Information on Corporate Governance, including the Annual Report on Corporate Governance, Vision, Mission, Corporate Values, Code of Ethics, Board of Commissioners and Board of Directors Composition and Profiles, and internal regulations related to governance ranging from the Articles of Association to the Corporate Charter are also published on the BNI website;
7. Information on the Company's Products and Services including its office network is published through the Annual Report and the BNI website, so that customers, investors and the wider community can easily access information on BNI products and services;
8. Information on Complaint Submission Procedures, BNI Safe Tips for Customers to maintain data confidentiality when using banking services, are published through the BNI website to comply with consumer protection provisions;
9. Other information aimed at supporting information disclosure, financial education and services to the public.

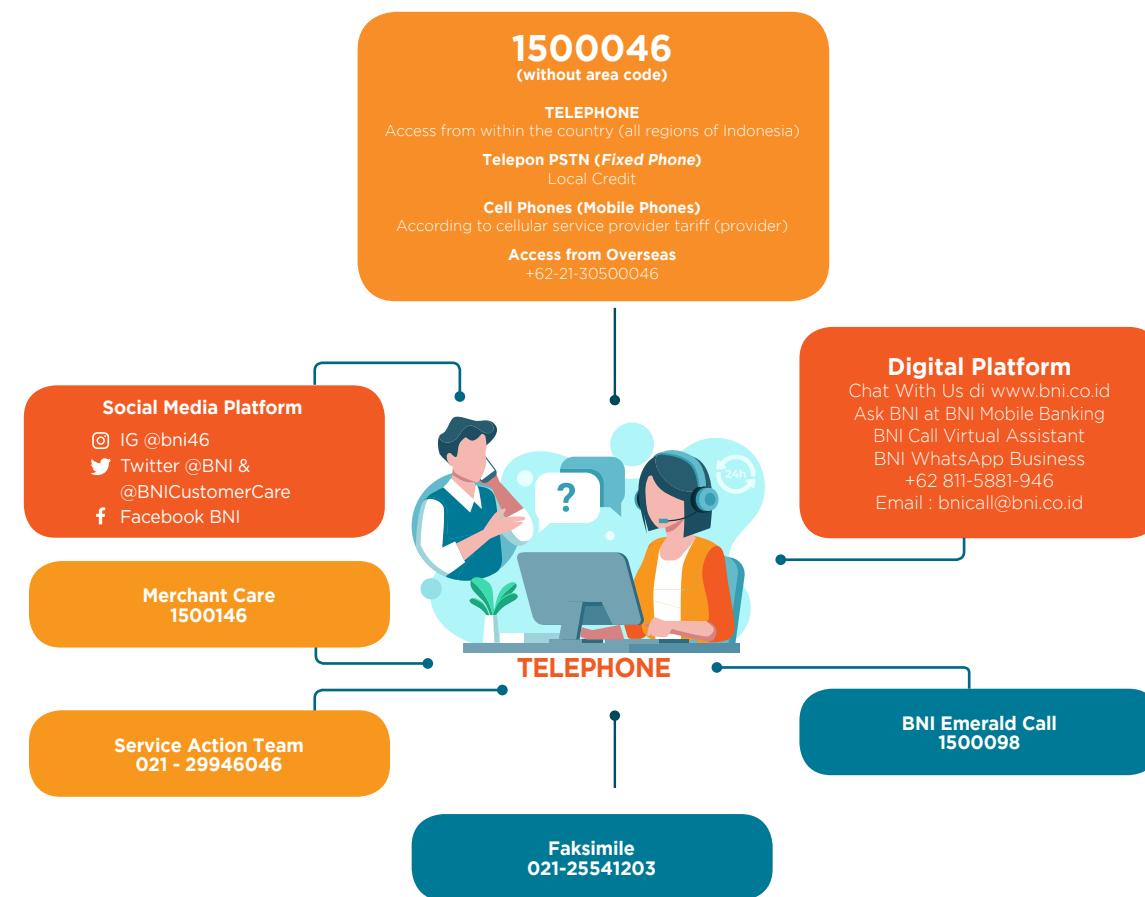

Transparency of Customer Complaints Procedures and Customer Dispute Settlement

EASE OF ACCESS SERVICES

BNI CONTACT CENTER AS BNI TOUCH POINT

One of BNI's missions is to provide excellent service and value-added digital solutions to all customers, and to be the partner of choice. In line with this mission, the BNI Contact Center continues to provide the best service for BNI customers.

BNI Contact Center always prioritizes a fast and easy service for customers by shifting call services to digital services. Customers can easily access the BNI Call 1500046 service, BNI's official social media services on Facebook, Instagram and Twitter, the Live Chat service on the BNI website, the Ask BNI service on BNI Mobile Banking, the WhatsApp Business service and the BNI Call Virtual Assistant application can be downloaded via Playstore and Appstore. In addition, customers can send complaints to BNI via email bnicall@bni.co.id and facsimile 021-25541203.

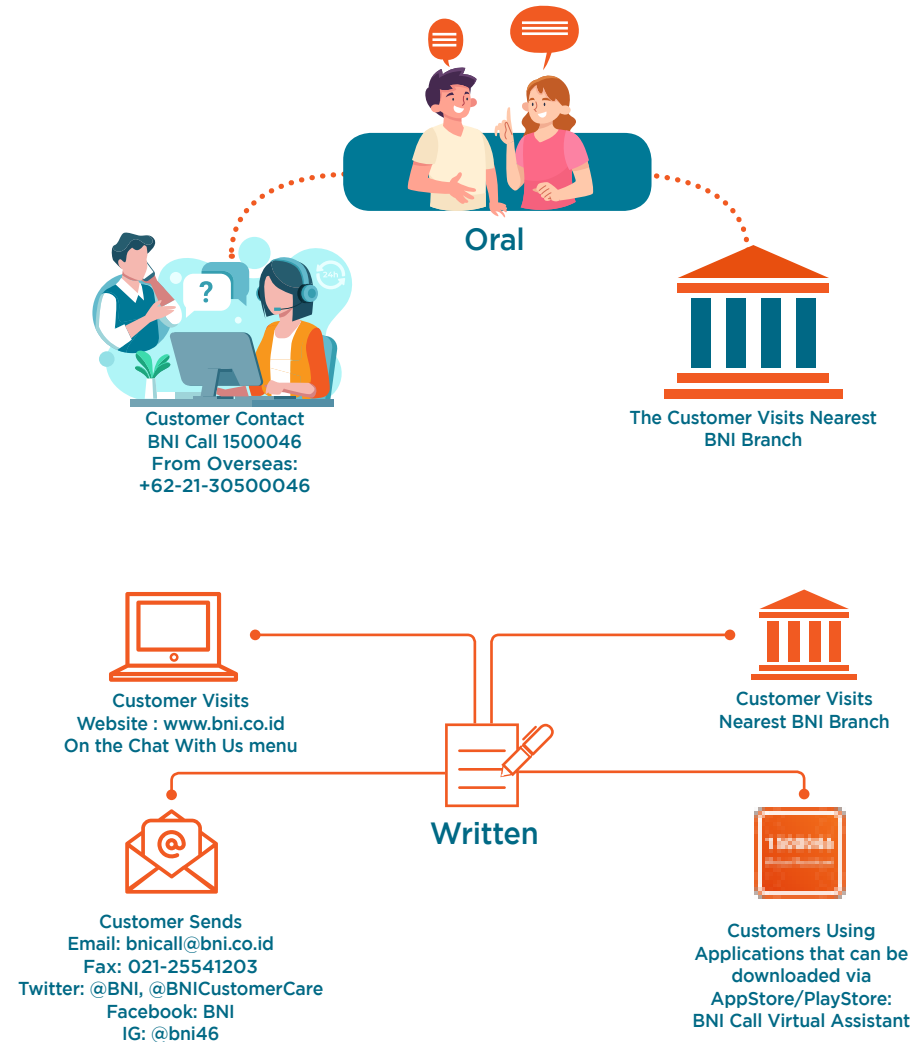

BNI Contact Center's commitment to continuously improve service quality for BNI customers was realized through standardizing the quality of the service process by obtaining ISO 9001:2015 Certification in 2016, and renewing it every year. In 2022, The BNI Contact Center will start using the WhatsApp Business service as a new channel to interact with customers. WhatsApp Business is a digital service channel that is fast, efficient and easy to interact with both through chatbots and with BNI Contact Center officers.

To support BNI Go Global, the BNI Contact Center also has a Trade & Remittance service and a Service Action Team that provides support for the BNI Xpora and BNI Direct program customers. This service helps domestic and foreign customers (individuals and corporations) conduct export-import transactions. As well as BNI Call 1500046, the BNI Contact Center also has a BNI Emerald Call 1500098 service to serve BNI's priority customers, and Merchant Care Service 1500146 to serve BNI merchant customers. BNI Contact Center provides convenience and comfort for customers in obtaining information, requests and submitting complaints, and can be accessed 24 hours a day.

BNI CUSTOMER SERVICE AND COMPLAINT RESOLUTION PROCEDURES

BNI Contact Center, as one of BNI's frontlines, continues to strive to provide the best service, including the resolution of any customer complaints for banking services, credit cards, merchants, Trade & Remittance as well as Wholesale. BNI customers can conveniently access the complaint services using a variety of media options, both verbally and in writing.

BNI Customer Complaints Submission Media

Solutions for resolving customer complaints submitted orally are carried out within a maximum of 5 (five) working days, while the settlement of written complaints is within a maximum of 20 (twenty) working days. If supporting documents are needed for customer complaints submitted orally, BNI will ask customers to submit written complaints. The customer can complete the documents for the complaint submitted within 20 (twenty) working days and this can be extended another 20 (twenty) working days.

Under certain conditions, the settlement of written complaints can be extended for a further 20 (twenty) working days in accordance with POJK No. 1/POJK.07/2013 as updated through through POJK No. 6/POJK.07/2022 concerning Consumer and Community Protection in the Financial Services Sector and POJK No. 18/POJK.07/2018 concerning Consumer Complaint Services in the Financial Services Sector. Information on the extension of the complaint settlement times is notified in writing to customers via telephone, e-mail, letter or short message service (SMS).

Complaint Submission and Resolution Flow

If a customers feels that the settlement provided by BNI does not meet their expectations, then the customer can continue the complaint resolution process through an Alternative Dispute Resolution Agency listed in the List of Alternative Dispute Resolution Agencies set by the Financial Services Authority.

Bad Corporate Governance Practices

BNI is fully aware of the negative influence of Bad Corporate Governance practices that can interfere with the implementation of Good Corporate Governance (GCG), and during 2022 BNI was committed to not undertaking actions and policies related to the following practice:

Note	Practice
There is a report as a company that pollutes the environment	Nil
Important cases currently being faced by the Bank, its subsidiaries, members of the Board of Directors and/or members of the Board of Commissioners who are currently serving are not disclosed in the Annual Report	Nil
Non-compliance in fulfilling tax obligations	Nil
The inconsistency of the presentation of the Annual Report and Financial Statements with the applicable regulations and Financial Accounting Standards	Nil
Cases related to labor and employees	Nil
There is no disclosure of operating segments in listed companies	Nil
There is a discrepancy between the hardcopy Annual Report and the softcopy Annual Report	Nil

Integrated Governance Implementation

As a form of transparency in the implementation of Integrated Governance in the BNI Financial Conglomerate, as well as a follow-up to the provisions stipulated in OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Governance for Financial Conglomerate, and OJK Circular Letter No. 15/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Governance for Financial Conglomerates, the implementation of Integrated Governance of BNI's Financial Conglomerate in 2022 consisted of:

1. Self-Assessment Report on the Integrated Governance Implementation during 2022;
2. Structure of BNI Financial Conglomerate;
3. Structure of share ownership in BNI Financial Conglomerate as of December 2022;
4. Management Structure of BNI Financial Conglomerate;
5. Basic Principles of Integrated Governance of BNI Financial Conglomerate;
6. Intra-Group Transaction Policy at BNI Financial Conglomerate;
7. Report on the Implementation of BNI Good Corporate Governance as the Main Entity in the BNI Financial Conglomerate.

The following shows the Implementation of BNI Good Corporate Governance as the Main Entity in the BNI Financial Conglomerate.

SELF-ASSESSMENT REPORT ON IMPLEMENTATION OF INTEGRATED GOVERNANCE IN 2022

OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning Implementation of Integrated Governance for Financial Conglomerates, and OJK Circular No. 15/SEOJK.03/2015 dated May 25, 2015 concerning Implementation of Integrated Governance for Financial Conglomerates, requires Financial Conglomerates to prepare Periodic Integrated Governance Self Assessment Reports (June and December) to OJK, and to submit them no later than the 15th of the second month after the end of the reporting month concerned (15 August and 15 February). Self Assessments related to the application of the principles of Integrated Governance in the BNI Financial Conglomerate. The self-assessment is categorized into 5 (five) ratings and must at least be realized in 7 (seven) factors for evaluating the application of Integrated Governance, and consist of:

Assessment Factors	
No.	Assessment Factors
1.	Board of Directors of Main Entity
2.	Board of Commissioners of Main Entity
3.	Integrated Governance Committee
4.	Integrated Compliance Work Unit
5.	Integrated Internal Audit Work Unit
6.	Implementation of Integrated Risk Management
7.	Integrated Governance Guidelines

For the 2022 period, BNI prepared a self assessment regarding the implementation of Integrated Governance of the BNI Financial Conglomerate as follows:

Implementation of Integrated Governance Self-Assessment Results		
Rating		Rating Definition
June 2022	December 2022	
2	2	The Financial Conglomerate is considered to have implemented good Integrated Governance. This is reflected in adequate compliance with the Integrated Governance principles. If there are weaknesses in the Integrated Governance implementation, in general these weaknesses are less significant and can be resolved by normal actions by the Main Entity and/or FSI.

Based on the Integrated Governance Implementation Self Assessment using 7 (seven) assessment factors for the period 2022, we can conclude that:

- Board of Directors of main entity
 - In the Integrated Governance structure, all BNI Directors have met the qualifications stipulated by applicable laws;
 - All members of the Board of Directors have sufficient competence relevant to their position to carry out their duties and responsibilities and are able to implement their competencies in carrying out their duties and responsibilities;
 - The Integrated Governance processes have been carried out and followed up in accordance with the BNI Board of Commissioners directives;
 - The BNI Board of Directors has followed up on the BNI Board of Commissioners input on their evaluation of the Integrated Governance Guidelines, as well as ensured that internal and external audit finding have been properly followed up.
- Board of Commissioners of main entity
 - In the Integrated Governance structure, all of BNI's Board of Commissioners have met the qualifications stipulated by applicable laws. Of the 10 (ten) members of the Board of Commissioners, 7 (seven) Commissioners are Independent Commissioners, all members of the Board of Commissioners have passed the fit and proper test, and have obtained an approval letter from the Financial Services Authority (OJK);
 - In the Integrated Governance process, the BNI Board of Commissioners duties and responsibilities related to the Integrated Governance process includes providing input to the BNI Directors to improve the Integrated Governance Guidelines;
 - BNI's Board of Commissioners provided input and directives as well as evaluated the internal and external of audit findings to be followed up by the BNI Directors.

- Integrated Governance Committee
 - The Integrated Governance Committee was established in accordance with applicable regulations;
 - During the January-December 2022 period, the Integrated Governance Committee held 9 (nine) meetings to provide input on the Governance implementation in the BNI Financial Conglomerate.
- Integrated Compliance work unit
 - The Compliance Division as an Integrated Compliance Unit is independent in accordance with applicable regulations;
 - In order to improve the integrated compliance function, the Compliance Division carried out regular coordination and meetings with all work units in each FSI;
 - The Compliance Division monitored, and evaluated the implementation of the compliance function in each FSI and provided suggestions and recommendations on the implementation of the compliance function in each FSI in order to develop and ensure the compliance function in each FSI is running well.
- Integrated Internal audit
 - Internal Audit is an independent Integrated Internal Audit in accordance with applicable regulations;
 - The Internal Audit as the Integrated Internal Audit monitors the internal audit including:
 - Conducting audits of each Subsidiary Company while taking into account the size, characteristics, and business complexity of the subsidiary, as well as coordinating between the FSI SKAI periodically (quarterly) through the Subsidiary Development Division (PPA);
 - Evaluating the implementation of the Internal Audit Work Unit (SKAI) in each FSI;
 - Coordinating with the FSI SKAI periodically involves the Subsidiary Development Division (PPA) every quarter, with material discussed including the FSI Audit Work Plan, Main Audit Results of each LJK and Follow-up on Internal & External Audit Results of each FSI.

- The Internal Audit as the Integrated Internal Audit acts objectively in carrying out its duties and responsibilities, and submits a report on its duties and responsibilities to the President Director and the Board of Commissioners of the Main Entity with a copy to the Director in charge of the Main Entity Compliance Function.
- Implementation of Integrated risk management
 - The Enterprise Risk Management Division is an independent Integrated Risk Management Unit in accordance with applicable regulations;
 - The Risk Management Division has determined and updated the policies and risk limits that apply to all FSI;
 - The implementation of Integrated Risk Management has accommodated the 4 (four) Risk Management pillars in accordance with the OJK Regulation.
 - Integrated Governance Guidelines
 - BNI Financial Conglomerate Integrated Governance Guidelines have been prepared, reviewed and implemented in accordance with OJK Regulation No. 18/POJK/POJK.03/2014 as stipulated in the letters of the Board of Directors and the Board of Commissioners respectively No. DIR/1179 dated December 22, 2022 and No. DK/221 December 29, 2022;
 - The BNI Financial Conglomerate Integrated Governance Guidelines have been communicated to all LJKs in the BNI Financial Conglomerate and will continue to be evaluated in accordance with applicable regulations.

BNI FINANCIAL CONGLOMERATE STRUCTURE

Through Board of Directors Letter No. DIR/401 dated June 02, 2022 The BNI Financial Conglomerate has reported changes to the BNI Financial Conglomerate structure as follows:

The BNI Financial Conglomerate has fulfilled the administrative requirements and has been recorded in the supervision administration of the Financial Services Authority based on OJK Letter No.S-88/PB.31/2022 dated June 9, 2022 with the joining of PT Bank Mayora as a member of the BNI Financial Conglomerate, and in addition that the BNI Financial Conglomerate has an Integrated Governance Committee (TKT) as follows:

Position	Name
Chairman	Agus Dermawan Wintarto Martowardojo (BNI)
Members	<ul style="list-style-type: none"> Askolani (BNI) Susyanto (BNI) Parikesit Suprpto (BNI Life) Siti Haniatunnisa (BNI Life) Eko Priyo Pratomo (BNI Asset Management) Rufina Tinawati Marianto (Bank Mayora) Nurani Raswindriati (Pihak Independen)

BNI has an Integrated Governance Manual, compiled and reviewed in accordance with the prevailing laws and regulations. The Integrated Governance Guidelines were last updated and reviewed through the Board of Commissioners Decree No. DK/221 dated December 29, 2022. BNI's Integrated Governance Guidelines can be accessed through www.bni.co.id.

BASIC PRINCIPLES OF INTEGRATED GOVERNANCE IN BNI FINANCIAL CONGLOMERATE

To support the business and operations of the BNI Financial Conglomerate, BNI uses the GCG Roadmap issued by the Financial Services Authority and the ASEAN Corporate Governance Scorecard as the basic principles of implementing Integrated Governance.

In accordance with this, the basic principles of Integrated Governance of BNI Financial Conglomerate are as follows:

1. Implementation of Integrated Corporate Governance in BNI Financial Conglomerate to create superior performance and add economic value to shareholders and other stakeholders, and ensure that the BNI Financial Conglomerate operation is in accordance with applicable laws, business ethics, and principles of good corporate governance;
2. Referring to the applicable laws and regulations, subsidiaries are separate legal entities from BNI, so they have their own duties and responsibilities in managing the Company;
3. Subsidiaries are independent legal entities in accordance with applicable laws and regulations, in which BNI is the Controlling Shareholder in BNI's Financial Conglomerate;
4. These Good Corporate Governance Principles guidelines apply to Subsidiary Companies as long as they are not regulated differently, according to the prevailing laws and regulations. Articles of Association of Subsidiaries that are not in accordance with this Code must be adjusted.

INTRA-GROUP TRANSACTION POLICY IN BNI FINANCIAL CONGLOMERATE

UNDERSTANDING INTRA-GROUP TRANSACTION RISK

The relationship between ownership and control in various financial services sectors affects the business continuity of Financial Services Institutions (FSI) due to direct or indirect risk exposures arising from the business activities of entities incorporated in a Financial Conglomerate. Therefore, the Financial Services Authority (OJK) has issued a number of regulations regarding the implementation of integrated Risk Management in conglomerates in the financial services industry, one of which is the obligation for the Financial Conglomerate to manage intra-group transaction risk.

Intra-group transaction risk is the risk arising from the dependency of an entity, directly or indirectly, on other entities within a Financial Conglomerate in the context of fulfilling the obligations of a written or unwritten agreement that is followed by a fund transfer and/or is not followed by a fund transfer.

PURPOSE OF INTRA-GROUP TRANSACTION RISK MANAGEMENT

The implementation of Intra-group transaction Risk Management in the BNI Financial Conglomerate aims to:

1. Manage and oversee the risk of intra-group financial conglomerate transactions based on the principle of prudence;
2. Ensure the integrated risk management process minimizes the possibility of negative impacts caused by the dependency of an FSI either directly or indirectly on another FSI in one Financial Conglomerate, as well as the negative impact on the overall business condition of the BNI Financial Conglomerate.

INTRA-GROUP TRANSACTION RISK MANAGEMENT PRINCIPLES

Matters that BNI as the main entity needs to address in Intra-group transaction Risk Management in the BNI Financial Conglomerate includes:

1. Having sufficient intra-group transaction risk management processes for the Financial Conglomerate as a whole;
2. Monitoring intra-group transactions in the Financial Conglomerate and preparing periodic reports;
3. Encouraging public disclosure related to intra-group transactions;
4. Considering the impact of intra-group transactions on the performance of FSI members of the Financial Conglomerate directly or on the BNI Financial Conglomerate as a whole.

TYPES OF TRANSACTIONS THAT MIGHT POSE INTRA-GROUP TRANSACTION RISKS

The types of transactions that may pose risks to intra-group transactions in the BNI Financial Conglomerate include the following, but not limited to:

1. Cross ownership between the FSIs in the Financial Conglomerate;
2. Centralized short-term liquidity management in the Financial Conglomerate;
3. Guarantees, loans, and commitments given or obtained by an FSI from another FSI in the Financial Conglomerate;
4. Exposures to controlling shareholders, including loan exposures and off-balance sheets such as guarantees and commitments;
5. Purchase or sale of assets from one FSI to another FSI in the Financial Conglomerate;
6. Transfer of Risk through reinsurance; and
7. Transactions to divert third party risk exposure between FSIs in the Financial Conglomerate.

ADEQUACY OF THE RISK IDENTIFICATION, MEASUREMENT, MONITORING AND CONTROL PROCESS AND THE INTRA-GROUP TRANSACTION RISK MANAGEMENT INFORMATION SYSTEM

The intra-group transaction risk management, with BNI as the Main Entity carries out the process of identifying, measuring, monitoring and controlling risks to all material risk factors in an integrated manner, and is supported by an adequate intra-group transaction risk management information system.

1. Identification of Intra-group Transaction Risk
Identification of intra-group transaction risk is carried out by analyzing types of products and/or transactions between the FSI in the BNI Financial Conglomerate that may pose an intra-group transaction risk in the BNI Financial Conglomerate.
2. Measurement of Intra-Group Transaction Risk
Measurement of intra-group transaction risk aims to rank the risk level of intra-group transactions in the Financial Conglomerate. The matters to be addressed by BNI as the main entity for measuring intra-group transaction risk is to compile an intra-group transaction risk measurement methodology and to evaluate the suitability of the assumptions, data sources, and procedures used to measure intra-group transaction risk.
3. Intra-group Transaction Risk Monitoring
Monitoring of intra-group transaction risk is carried out by evaluating the exposure of material Intra-group Transaction Risk or that could have an impact on the capital condition of the Financial Conglomerate; and to improve the process and scope of reporting if there are material changes in business activities, products, transactions, and risk factors.

The material financial relationships in an intra-group relationship between the FSI in the BNI Financial Conglomerate is measured based on the value of BNI's financial transactions with FSI members in the BNI Financial Conglomerate, and between fellow FSIs in the BNI Financial Conglomerate.

4. Intra-group Transaction Risk Control

For risk control, BNI as the Main Entity ensures that the BNI Financial Conglomerate has a method of controlling intra-group transaction risks that could endanger the business continuity of the Financial Conglomerate.

The control of intra-group transaction risk in the BNI Financial Conglomerate is carried out by taking into account:

- a. The composition of inherent risk parameters for intra-group transactions in the assessment of integrated risk profiles;
- b. Compliance with the principle of arm's length (fairness of transactions) related to intra-group transactions;
- c. Availability and completeness of intra-group transaction documentation; and
- d. Compliance with legal/regulatory provisions that apply to each intra-group transaction.

5. Intragroup Transaction Risk Management Information System

The intra-group transaction risk management information system includes:

- a. Intra-group transaction risk profile reports as a part of the integrated risk profile report;
- b. Intra-group transaction report, which contains:
 - i) Recapitulation of transactions with related parties;
 - ii) Important agreements with related parties.

BNI as the Main Entity prepares and submits the intra-group transaction risk profile report as part of the integrated risk profile report and the intra-group transaction report to the Financial Services Authority on a semi-annual basis for reporting positions in June and December.

Throughout 2022, all intra-group transactions have been carried out fairly (fulfilling the arm's length principle).

**BNI GOOD CORPORATE GOVERNANCE IMPLEMENTATION REPORT
AS THE MAIN ENTITY IN THE BNI FINANCIAL CONGLOMERATE**

Based on OJK Regulation No. 55/POJK.03/2016 concerning the Implementation of Governance for Commercial Banks, and OJK Regulation No. 4/POJK.03/2016 concerning Rating of Commercial Banks Soundness, each Bank is required to conduct a self-assessment of the Good Corporate Governance (GCG) principles implementation at least every semester for the position at the end of June and December.

Corporate

Governance Aspects and Principles Implementation In Accordance With Financial Services Authority Regulations

Based on POJK No. 21/POJK.04/2015 concerning Implementation of Public Company Governance Guidelines, and SEOJK No. 32/SEOJK.04/2015 concerning Guidelines for Public Company Governance, where there are 5 (five) aspects, 8 (eight) principles and 25 (twenty five) recommendations for the implementation of good corporate governance aspects and principles. Recommendations for the application of good corporate governance aspects and principles in the Governance Guidelines are standards for the application of good corporate governance aspects and principles that must be applied by the Bank when implementing governance principles. BNI applied these aspects, principles and recommendations based on the “comply or explain” approach in 2022 as follows:

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
I Aspect 1: Public Company Relationship with Shareholders in Ensuring Shareholders' Rights;				
	Principle 1 Increasing the Value of the GMS	The Public Company has technical voting methods or procedures, both openly and privately, that prioritize independence and the interests of shareholders	Each share with voting rights issued has one vote (one share one vote). Shareholders can exercise their voting rights when making decisions, especially in making decisions by voting. However, the mechanism for making decisions by means of voting, either openly or in private, has not been regulated in detail. It is recommended that Public Companies have a voting procedure in making decisions on an agenda of the GMS. The voting procedure must maintain the independence or freedom of Shareholders. For example, open voting is carried out by raising one's hand in accordance with the optional instructions offered by the chairman of the GMS. Closed voting is carried out on decisions requiring confidentiality or at the request of Shareholders, by using a ballot card or by using electronic voting.	Voting Procedures in making decisions on an agenda at the BNI GMS are carried out by closed voting by using a ballot card or electronic voting. The procedure for calculating the quorum, question and answer and the mechanism for making meeting decisions has been outlined in the GMS Rules of Procedure which refer to the Financial Services Authority Regulation No. 32/POJK.04/2014 as lastly amended by the Financial Services Authority Regulation No. 10/POJK.04/2017. Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
		All members of the Board of Directors and the Board of Commissioners of a Public Company attend the Annual GMS.	The presence of all members of the Board of Directors and members of the Board of Commissioners of a Public Company is intended so that each member of the Board of Directors and members of the Board of Commissioners can pay attention, explain and directly answer problems that occur or questions raised by shareholders regarding the agenda of the GMS	Taking into account the health protocols, the 2022 BNI Annual GMS was attended by 12 (twelve) members of the Board of Directors and 9 (nine) members of the Board of Commissioners. Description: Explain
		A summary of the minutes of the GMS is available on the Public Company Website for at least 1 (one) year.	The Public Company must make a summary of the GMS minutes in Indonesian and foreign languages (at least in English), and announce it 2 (two) working days after the GMS is held to the public, one of which is through the Public Company Website. The availability of summary minutes of the GMS on the Public Company Website provides an opportunity for absent Shareholders to obtain important information in organizing the GMS easily and quickly. Therefore, the provisions regarding the minimum period of availability of the summary of the GMS minutes on the Website are intended to provide sufficient time for Shareholders to obtain such information.	The summary of the minutes of the Annual GMS has been announced within a maximum of 2 (two) working days after the GMS is held both on the Company's website and in print media as well as through the IDXnet electronic reporting system and the Financial Services Authority e-reporting Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
	Principle 2 Improving the Quality of Public Company Communication with Shareholders or Investors.	The Public Company has a communication policy with shareholders or investors.	The communication between a public company and shareholders or investors is intended so that shareholders or investors have a clearer understanding of the information that has been published to the public, such as periodic reports, information disclosure, business conditions or prospects and performance, and the implementation of public company governance. In addition, Shareholders or investors can also submit input and opinions to the management of the Public Company. The communication policy with shareholders or investors shows the commitment of the Public Company in communicating with shareholders or investors. The policy may include strategies, programs, and timing of communications, as well as guidelines that support shareholders or investors to participate in these communications.	The communication policy with shareholders or investors is contained in the Investor Relations company guidelines No. IN/41/KMP/001 dated 26 January 2015 which includes policies on investor relations activities such as analyst meetings, preparation of annual reports,, investor meetings, public expose, and roadshow. The policy includes strategies, programs, and timing of communication, as well as guidelines that support shareholders or investors to participate in communications. The existence of a communication policy with shareholders or investors shows that BNI as a public company is committed to communicating with shareholders or investors.. Description: Comply
		The Public Company discloses the communication policy of the Public Company with shareholders or investors on the Website.	The disclosure of the communication policy is a form of transparency on the commitment of the Public Company in providing equality to all shareholders or investors in the implementation of communication. The disclosure of information also aims to increase the participation and role of Shareholders or investors in implementing the communication program for Public Companies.	The disclosure of the communication policy as well as the communication agenda with the Shareholders or investors has been uploaded to the Website in the Investor Relations section. Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
II Aspect 2: Functions and Roles of the Board of Commissioners;				
	Principle 3 Strengthening the Membership and Composition of the Board of Commissioners	Determination of the number of members of the Board of Commissioners by considering the conditions of the Public Company.	The number of members of the Board of Commissioners can affect the effectiveness of the implementation of the duties of the Board of Commissioners. Determination of the number of members of the Board of Commissioners of a Public Company must refer to the provisions of the prevailing laws and regulations, consisting of at least 2 (two) persons based on the provisions of the Financial Services Authority regulations concerning the Board of Directors and Board of Commissioners of Issuers or Public Companies. In addition, it is also necessary to consider the conditions of the Public Company, which include among others the characteristics, capacity and size as well as the achievement of objectives and the fulfillment of different business needs among the Public Companies. However, the large number of members of the Board of Commissioners has the potential to interfere with the effectiveness of the implementation of the functions of the Board of Commissioners.	The number of members of the Board of Commissioners at BNI as of December 31, 2022 was 10 (ten) people with due observance of the diversity of composition, this number is deemed sufficient and in accordance with BNI conditions and adjusted to the provisions of the Financial Services Authority Regulation No. 33/POJK.04/2014.
		Determining the composition of the members of the Board of Commissioners takes into account the diversity of expertise, knowledge and experience required.	The composition of the Board of Commissioners is a combination of characteristics, both in terms of the organs of the Board of Commissioners and members of the Board of Commissioners individually, according to the needs of the Public Company. These characteristics can be reflected in the determination of the expertise, knowledge and experience required in the implementation of supervisory duties and providing advice by the Board of Commissioners of	Description: Comply
			The current composition of the Board of Commissioners fulfills the element of diversity, namely a combination of independence, expertise/education, work experience, age and gender by taking into account the needs and complexities of BNI. This has been described in the Sub-Chapter on the Diversity of the Composition of the Board of Commissioners in this Governance Report.	Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
	Principle 4 Improving the Quality of Implementation of Duties and Responsibilities by the Board of Commissioners.	The Board of Commissioners has a self-assessment policy to assess the performance of the Board of Commissioners.	The Board of Commissioners' self-assessment policy is a guideline used as a form of accountability for collegially assessing the performance of the Board of Commissioners. Self-assessment is carried out by each member to assess the performance of the Board of Commissioners collegially, and not to assess the individual performance of each member of the Board of Commissioners. With this Self Assessment, it is expected that each member of the Board of Commissioners can contribute to improving the performance of the Board of Commissioners on an ongoing basis. This policy may include assessment activities carried out along with their aims and objectives, periodic implementation time, and benchmarks or assessment criteria used in accordance with the recommendations given by the nomination and remuneration function of the Public Company, where these functions are required in the Regulation of Financial Services Authority concerning the Nomination and Remuneration Committee of Issuers or Public Companies.	Self-assessment policy to assess the Board of Commissioners performance based on the realization of the work program of the Board of Commissioners in accordance with the Work Plan and Budget (RKA) of the Board of Commissioners and through the GCG Self Assessment in which there are indicators of the duties and responsibilities of the Board of Commissioners. The self-assessment policy (Self Assessment) to assess the performance of the Board of Commissioners based on the realization of the work program of the Board of Commissioners in accordance with the Work Plan and Budget (RKA) of the Board of Commissioners is described through advisory indicators on performance, strengthening of executive functions, and monitoring of compliance. Meanwhile, the assessment contained in the GCG Self Assessment is divided into 3 (three) benchmarks, namely the Governance Structure, Governance Process and Governance Outcome. Governance structure consists of 14 (fourteen) indicators, governance process consists of 17 (seventeen) indicators, while governance outcome consists of 6 (six) indicators.
				Description: Comply
		The self-assessment policy to assess the performance of the Board of Commissioners is disclosed in the Annual Report of the Public Company.	The disclosure of the Self-Assessment policy on the performance of the Board of Commissioners is carried out not only to fulfill the transparency aspect as a form of accountability for the implementation of its duties, but also to give confidence, especially to shareholders or investors, on the efforts that need to be made to improve the performance of the Board of Commissioners. With this disclosure, the Shareholders or investors will know the check and balance mechanism on the performance of the Board of Commissioners.	Disclosure of Self Assessment Policy on the Board of Commissioners performance. The self-assessment policy contained in the RKA is conveyed through the Annual Report of the Public Company, while the results of the GCG Self Assessment on the duties and responsibilities of the Board of Commissioners are submitted to regulators.
				Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
		The Board of Commissioners has a policy regarding the resignation of a member of the Board of Commissioners if the said person is involved in a financial crime.	The policy of resigning members of the Board of Commissioners who are involved in financial crimes is a policy that can increase the trust of stakeholders in the Public Company, so that the integrity of the company will be maintained. This policy is needed to assist the smooth running of the legal process and so that the legal process does not interfere with business activities. In addition, in terms of morality, this policy builds an ethical culture within the Public Company. This policy can be included in the Guidelines or Code of Ethics that apply to the Board of Commissioners. Furthermore, what is meant by being involved in a financial crime is the status of being convicted of a member of the Board of Commissioners from an authorized party. Financial crimes referred to include manipulation and various forms of embezzlement in financial service activities as well as the Criminal Act of Money Laundering as referred to in Law Number 8 of 2010 concerning Prevention and Eradication of Money Laundering.	The Board of Commissioners resignation policy is contained in the Articles of Association, namely Article 14 paragraph 16 c which states that the dismissal of a member of the Board of Commissioners, among others, is involved in an action that is detrimental to the Company and/or the State, Article 14 paragraph 18 which states that the decision to dismiss for that reason is taken after the person concerned is given the opportunity to defend himself in the GMS, as well as Article 14 paragraph 26 f which states that the position of a member of the Board of Commissioners automatically ends if he no longer meets the requirements as a member of the Board of Commissioners based on this Articles of Association and laws and regulations. Description: Comply
		The Board of Commissioners or the Committee that carries out the Nomination and Remuneration function prepares a succession policy in the Nomination process for members of the Board of Directors.	Based on the provisions of the Financial Services Authority Regulation concerning the Nomination and Remuneration Committee of Issuers or Public Companies, the committee that carries out the nomination function has the duty to formulate the policies and criteria required in the nomination process for candidate members of the Board of Directors. One of the policies that can support the Nomination process as referred to is the succession policy for members of the Board of Directors. The succession policy aims to maintain the continuity of the regeneration process or leadership regeneration at BNI in order to maintain business sustainability and BNI's long-term goals.	One of the Board of Commissioners organs is the Nomination and Remuneration Committee (currently all members of the Board of Commissioners) who carry out the nomination function, including assisting the Board of Commissioners in assessing the performance of members of the Board of Directors and/or members of the Board of Commissioners based on benchmarks that have been prepared as evaluation materials, with based on the BUMN Regulation Number Per-02/MBU/02/2015. Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
III	Aspect 3: Functions and Roles of the Board of Directors			
	Principle 5 Strengthening the Membership and Composition of the Board of Directors.	Determining the number of members of the Board of Directors considers the condition of the BNI Open and its effectiveness in decision making.	As a corporate organ authorized in the management of BNI, determining the number of Directors greatly affects the performance of the Public Company. Thus, the determination of the number of members of the Board of Directors must be carried out through careful consideration and must refer to the provisions of the prevailing laws and regulations, where based on the Financial Services Authority Regulation concerning the Board of Directors and the Board of Commissioners of an Issuer or Public Company consisting of at least 2 (two). In addition, determining the number of Directors must be based on the need to achieve the goals and objectives of the Public Company and adjusted to the conditions of the Public Company, including the characteristics, capacity and size of the Public Company as well as how to achieve the effectiveness of the Board of Directors decision making.	The number and capacity of the members of the Board of Directors are based on the provisions of the Financial Services Authority Regulation No. 33/POJK.04/2014. The number of members of the Board of Directors as of December 31, 2022 was 12 (twelve) people. Description: Comply
		Determining the composition of the members of the Board of Directors takes into account the diversity of expertise, knowledge and experience required.	Like the Board of Commissioners, the diversity of composition of the members of the Board of Directors is a combination of desired characteristics, both in terms of the organs of the Board of Directors and individual members of the Board of Directors, according to the needs of the Public Company. This combination is determined by taking into account the expertise, knowledge and experience appropriate to the division of duties and functions of the Board of Directors in achieving the objectives of the Public Company. Thus, consideration of the combination of characteristics referred to will have an impact on the accuracy of the nomination process and the appointment of individual members of the Board of Directors or the Board of Directors collegially.	The current composition of the BNI Board of Directors has fulfilled the diversity element, namely a combination of independence, expertise/ education, work experience, age and gender by taking into account the needs and complexities of BNI. This has been described in the Sub- Chapter on the Diversity of Directors in this Governance Report. Description: Comply
		Members of the Board of Directors in charge of accounting or finance have expertise and/ or knowledge in accounting.	Members of the Board of Directors in charge of accounting or finance have expertise and/or knowledge in accounting.	The Finance Director is Novita Widya Anggraini has an educational background in accounting economics and throughout 2022 improved competencies in finance and accounting as stated in the Board of Directors Education and/or Training in this Annual Report. Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
	Principle 6 Improving the Quality of Implementation of Duties and Responsibilities of the Board of Directors.	The Board of Directors has a self-assessment policy to assess the performance of the Board of Directors.	As is the case with the Board of Commissioners, the Board of Directors 'self-assessment policy is a guideline used as a form of accountability for collegial evaluation of the Board of Directors' performance. Self-assessment is conducted by each member of the Board of Directors to assess the performance of the Board of Directors collegially, and not to assess the individual performance of each member of the Board of Directors. With this Self Assessment, it is hoped that each member of the Board of Directors can contribute to improving the performance of the Board of Directors on an ongoing basis. The policy may include the assessment activities carried out and their aims and objectives, periodic implementation time, and the benchmarks or assessment criteria used in accordance with the recommendations given by the nomination and remuneration function of the Public Company, where the formation of such functions has been mandatory in the Regulations of the Authority. Financial Services concerning the Nomination and Remuneration Committee of Issuers or Public Companies.	The performance appraisal policy for the Board of Directors is contained in the Guiding Principle Key Performance Indicator (KPI) BOD. The measurement of the performance of the Board of Directors consists of several KPIs which are measured collegially for all Directors and are quantitative and qualitative in nature. The policy includes assessments carried out on several factors, namely market capitalization, profits, market share and leadership. The Remuneration and Nomination Committee has evaluated and compiled and provided recommendations to the Board of Commissioners regarding the nomination and remuneration system/policy for Commissioners, Directors, executive officers and employees as a whole. Description: Comply
		The self-assessment policy to assess the performance of the Board of Directors is disclosed in the annual report of the Public Company.	Disclosure of self-assessment policies on the performance of the Board of Directors is carried out not only to fulfill the transparency aspect as a form of accountability for the implementation of their duties, but also to provide important information on efforts to improve the management of the Public Company. This information is very useful to provide assurance to shareholders or investors that there is certainty that the company's management will continue to be in a better direction. With this disclosure, the Shareholders or investors know the check and balance mechanism on the performance of the Board of Directors.	Each year the Board of Directors Performance Assessment has been disclosed in the Annual Report which can be accessed by Shareholders/investors and other stakeholders through the BNI website so that this information is very useful to provide assurance to Shareholders or investors that there is certainty that the company's management will continue to be in a better direction. Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
		The Board of Directors has a policy regarding the resignation of a member of the Board of Directors if involved in a financial crime.	The policy of resigning members of the Board of Directors who are involved in financial crimes is a policy that can increase the trust of stakeholders in the Public Company, so that the integrity of the company will be maintained. This policy is needed to assist the smooth running of the legal process and so that the legal process does not interfere with business activities. In addition, in terms of morality, this policy will build an ethical culture within the Public Company. This policy can be included in the Guidelines or Code of Ethics that apply to the Board of Directors. Furthermore, what is meant by being involved in a financial crime is the status of being convicted of a member of the Board of Directors from an authorized party. These financial crimes include manipulation and various forms of embezzlement in financial service activities as well as the Criminal Act of Money Laundering as referred to in Law Number 8 of 2010 concerning Prevention and Eradication of Money Laundering.	The company will act actively in the event of a financial crime, as stated in the Articles of Association, namely Article 11 paragraph 13 in conjunction with Article 11 paragraph 14 d which states that members of the Board of Directors can be dismissed at any time for reasons, among others, if they are involved in actions that harm the Company and/or the State, Article 11 paragraph 15 which states that the decision to dismiss for that reason is taken after the person concerned is given the opportunity to defend himself in the GMS, and Article 11 paragraph 24 f which states that the position of a member of the Board of Directors automatically ends if no longer meets the requirements as a member of the Board of Directors based on this Articles of Association, and laws and regulations. In addition, the Articles of Association also state that members of the Board of Directors can be dismissed for the time being by the Board of Commissioners stating the reasons if the person concerned is acting contrary to the Articles of Association or there is an indication that the Company has committed losses or neglected its obligations or there is an urgent reason for the Company. The Company already has a BNI Anti- Money Laundering and Countering Financing of Terrorism (AML & CFT) Policy Statement in order to enforce Law Number 8 of 2010 concerning Prevention and Eradication of Money Laundering.

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
IV Aspect 4: Stakeholder Participation				
	Principle 7 Improving Corporate Governance Aspects through Stakeholder Participation.	The Public Company has a policy to prevent insider trading.	A person who has inside information is prohibited from carrying out a Securities transaction using inside information as referred to in the Capital Market Law. Public Companies can minimize the occurrence of insider trading through preventive policies, for example by strictly separating data and/or information that is confidential and public in nature, as well as dividing the duties and responsibilities of managing the information in a proportional and efficient manner.	BNI has policies related to insider information to prevent insider trading. The policy is outlined in the Online Company Guidelines (e-PP). Description: Comply
		Public companies have anti-corruption and anti-fraud policies.	The anti-corruption policy is useful to ensure that the business activities of the Public Company are carried out legally, prudently and in accordance with the principles of good governance. The policy can be part of a code of ethics, or in a separate form. This policy may include, among others, programs and procedures implemented in overcoming corrupt practices, kickbacks, fraud, bribery and/or gratuities in public companies. The scope of the policy must describe the prevention of the Public Company against all corrupt practices, either giving or receiving from other parties.	To comply with OJK regulation No. SEBI No. 39/POJK.03/2019 concerning Implementation of Anti-Fraud Strategy for Commercial Banks No. 13/28/DPNP dated December 9, 2011 concerning Implementation of Anti-Fraud Strategy to foster the Anti-Fraud Committee to foster anti-fraud culture and awareness at all levels of the organization. The no Fraud for our bank Policy and Principles are organized through the Implementation of an Anti Fraud Strategy. To measure the realization of a compliance culture, the Compliance Division has developed a tool called the Compliance index (CIX). Meanwhile, the anti-corruption policy has been regulated in the code of ethics, the Gratification Guidelines and the Whistleblowing System. BNI which can be accessed by all employees and stakeholders through the BNI website. Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
			The policy on supplier or vendor selection is useful to ensure that the Public Company obtains the necessary goods or services at a competitive price and good quality. Meanwhile, the policy of increasing the ability of suppliers or vendors is useful to ensure that the supply chain runs efficiently and effectively. The ability of suppliers or vendors to supply/ fulfill goods or services needed by the company will affect the quality of the company's output. The implementation of these policies can ensure continuity of supply, both in terms of quantity and quality required by the Public Company. The scope of this policy includes criteria in selecting suppliers or vendors, transparent procurement mechanisms, efforts to increase the ability of suppliers or vendors, and fulfillment of rights related to suppliers or vendors.	The company has a policy of selecting and increasing the ability of suppliers or vendors, which is outlined in the form of online procurement guidelines (e-PP). The policy also regulates the Procurement Procedure including the method and process flow. The implementation of this policy is always applied in the process of procuring goods and/or services and is guided by all employees. Providers of goods and/or services needed by BNI must be registered in the manual system or in the e-Procurement application system. The notification of the winner of the procurement of goods and/or services is carried out transparently. Description: Comply
		The Public Company has a policy for fulfilling creditor rights.	The policy for fulfilling creditors' rights is used as a guide when making loans to creditors. The policy's purpose is to maintain the fulfillment of rights and to maintain creditors' trust in the Public Company. The policy includes the considerations when entering into agreements, as well as the follow-up when fulfilling the obligations of a Public Company to creditors.	Loan agreements with creditors. This agreement states the rights and obligations of the parties, related to creditors' rights, for example the form of providing information in a transparent, accurate and timely manner, at the time of requesting and using the loan, maintaining financial ratios (Current Ratio, DeR, Debt to Service Ratio) in accordance with the ratios agreed with the creditor, submitting annual audited financial reports at a time agreed with the creditors, etc. Description: Comply

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
		The Public Company has a whistleblowing system policy.	A well-developed whistleblowing system policy will provide assurance of protection to witnesses or reporters for indications of violations committed by employees or management of the Public Company. The application of this system policy will have an impact on the formation of a culture of good corporate governance. The whistleblowing system policy covers, among others, the types of violations that can be reported through the whistleblowing system, how to complain, protect and guarantee the confidentiality of the reporter, handling complaints, the party who manages the complaint, and the results of the handling and follow-up of complaints	Management of the Whistleblowing System (WBS) at BNI under the name “WBS to CEO”. WBS is a commitment to creating a clean and integrity work environment in the form of active participation of BNI Hi-Movers to report violations that occur within BNI. Violation reports via WBS can be made by telephone, email, letter SMS/ Whatsapp, or website. Description: Comply
		Public Companies have a policy of providing long-term incentives to Directors and employees	Long-term incentives are incentives based on long-term performance achievement. Long-term incentive plans have the premise that the company's long-term performance is reflected by the growth in the value of its shares or other long-term targets. Long-term incentives are useful in order to maintain loyalty and provide motivation to Directors and employees to increase their performance or productivity which will have an impact on improving the company's performance in the long term. The existence of a long-term incentive policy is a real commitment of the Public Company to encourage the implementation of long-term incentives for Directors and Employees with terms, procedures and forms that are adjusted to the long-term goals of the Public Company. Such policies may include, among others: the aims and objectives of providing long-term incentives, the terms and procedures for providing incentives, as well as conditions and risks that must be considered by the Public Company in providing incentives. This policy can also be included in the remuneration policy of the existing Public Company.	To comply with Article 23 of OJK Regulation No. 45/POJK.03/2015 concerning Implementation of Governance when Providing Remuneration for Commercial Banks, for the 2021 Performance to be paid in 2022, at 10% (ten percent) of the total Tantiem, to be paid as Variable remuneration deferred for 3 years for parties who become Material Risk Takers (MRT), as an implementation of Long-Term Incentives. Tantiem in the form of deferred Variable Remuneration to Non-Independent Members of the Board of Commissioners is given in the form of BNI shares, while Independent members of the Board of Commissioners are given cash in the form of deposits. The Company may postpone the Variable Deferred Remuneration payment (Malus), or withdraw the Variable Remuneration paid (clawback), with parties who are Material Risk Takers under certain conditions. This deferred Variable Remuneration payment policy is a BNI commitment that is adjusted to the Company's long-term goals and statutory provisions.

No.	Principle	Recommendation	Statement of Recommendation from OJK	Explanation of Implementation at BNI
V	Aspect 5: Information Disclosure			
	Principle 8 Improving the Implementation of Information Disclosure.	Public Companies make wider use of information technology in addition to website sites as a medium for information disclosure.	The use of information technology can be useful as a medium for information disclosure. The disclosure of information that is carried out is not only disclosure of information that has been regulated in laws and regulations, but also other information related to the Public Company which is deemed useful to be known by Shareholders or investors. With the wider use of information technology in addition to the website, it is hoped that the company can increase the effectiveness of the company's information dissemination. Nonetheless, the use of information technology should still pay attention to the benefits and costs of the company.	In addition to the website, BNI also uses other information technologies such as email, twitter and Instagram as a means of communication and media for information disclosure. Information disclosure carried out is not only disclosure of information regulated in laws and regulations but also other information related to a Public Company that is considered useful for shareholders/investors to know. Description: Comply
		The Annual Report of the Public Company discloses the ultimate beneficial owner in the share ownership of the Public Company of at least 5% (five percent), in addition to the disclosure of the ultimate beneficial owner in the ownership of shares of the Public Company through the major and controlling shareholders.	The laws and regulations in the Capital Market sector that govern the submission of annual reports of Public Companies, have stipulated the obligation to disclose information regarding Shareholders who own 5% (five percent) or more shares of Public Companies and the obligation to disclose information regarding the main and controlling shareholders of the Public Company directly or indirectly up to the ultimate beneficial owner in ownership of the shares. In this Governance Guidelines it is recommended to disclose the ultimate beneficial owner of share ownership of a Public Company of at least 5% (five percent), in addition to disclosing the ultimate beneficial owner of share ownership by the majority and controlling shareholders.	The ultimate beneficial owner of share ownership of a Public Company of at least 5% (five percent) has been disclosed in the Annual Report, Sub-Chapter List of Shareholders and Sub-Chapter Share Ownership of Directors and Board of Commissioners. Description: Comply

Implementation of the ASEAN Corporate Governance Scorecard

As explained in the Governance Assessment section through an independent party assessment based on the ASEAN Corporate Governance Scorecard parameters, BNI was awarded a “Leadership Corporate Governance” predicate with a score of 106.02, which is an increase compared to the previous year’s score of 97.32. The assessment was carried out based on BNI’s information disclosure that can be accessed by all stakeholders based on the ASEAN Corporate Governance Scorecard parameters. The availability of information based on these ASEAN Corporate Governance Scorecard parameters are shown as follows:

ASEAN Corporate Governance			
No.	Parameter	Availability	Presentation Description
Principle A: Shareholder’s Rights			
A.1.1	Does the company pay (interim and final/annual) dividends in an equitable and timely manner; that is, all shareholders are treated equally and paid within 30 days after being (i) declared for interim dividends and (ii) approved by shareholders at annual general meeting (AGM) for final dividends	Yes	It’s appropriate

E.3.3	Has each of the directors/commissioners attended at least 75% of all the board meetings held during the year?	Yes	As stated in the 2022 Annual Report.
E.3.4	Does the company require a minimum quorum of at least 2/3 for board decisions?	No	As state in the Company's Articles of Association https://bni.co.id/id-id/perusahaan/tatakelola/anggarandasarbni
E.3.5	Did the non-executive directors/commissioners of the company meet separately at least once during the year without any executives present?	Yes	As stated in the 2022 Annual Report.

IMPLEMENTATION OF CORPORATE GOVERNANCE PRINCIPLES FOR BANKS
ACCORDING TO BASEL COMMITTEE ON BANKING SUPERVISION STANDARDS

The standard implementation of corporate governance principles for banks issued by the Basel Committee on Banking Supervision includes 12 principles. The implementation at BNI was as follows:

PRINCIPLE	EXPLANATION	IMPLEMENTATION AT BNI
Principle 1 Board of Commissioners Responsibilities	The Board of Commissioners responsibilities include: approval and supervision of the implementation of business strategy, structure and governance mechanisms and corporate culture	The Board of Commissioners has duties, responsibilities and authorities as stipulated in the Work Guidelines and Rules of the Board of Commissioners of PT Bank Negara Indonesia (Persero) Tbk, which was ratified through the PT Bank Negara Indonesia (Persero) Tbk Board of Commissioners Decree of No. KEP/049/DK/2017 dated October 26, 2017 concerning Guidelines and Working Rules for the PT Bank Negara Indonesia Tbk Board of Commissioners

PRINCIPLE	EXPLANATION	IMPLEMENTATION AT BNI
Principle 7 Identification of Risk Monitoring Management	Risks must be identified, monitored and controlled for all Bank activities. The risk management and internal control infrastructure quality must be keep up with changes in the Bank's risk profile, external risk conditions and industry practices.	BNI has instigated a risk management process that includes a continuous process of identifying, measuring, monitoring and controlling risks for all material risk factors supported by a Risk Management Information System.
		The risk identification process is carried out proactively to analyze the source, the level and possibility of risk occurring, as well as the impact on the Company. The Matters to consider in the risk identification process are: 1. Identification of all risks carried out periodically; 2. With a method or system to identify risks in all BNI products and business activities; 3. Specifically identifying risks for new products and activities, before new products/activities are introduced or implemented.
		The risk measurement process is carried out to determine the amount of risk exposure as a reference for carrying out risk control, and for meeting Capital Adequacy. Risk measurement is carried out quantitatively and/or qualitatively according to the measurement method stipulated by the regulator, or by using internal methods for methods that have not been specifically determined. BNI's Risk measurement also includes stress testing for credit risk, market risk and liquidity risk to anticipate extreme conditions.

PRINCIPLE	EXPLANATION	IMPLEMENTATION AT BNI
		The risk monitoring process is carried out to ensure that risks have been managed properly, by monitoring risk mitigation and limits that have been set. Risk monitoring is carried out by the Operational Work Unit (Risk Taking Unit) as the risk owner (risk owner) and by the Risk Management Work Unit as (Risk Control Unit).
		The risk control process carried out by BNI aims to manage risks that can disrupt the Company's business continuity. BNI's risk control strategy is to reduce risk (risk mitigation), accept risk (risk acceptance), avoid risk (risk avoidance), and transfer risk (risk transfer).
		In addition, BNI has also developed a Risk Management Information System to support the risk identification, measurement, monitoring and control processes, and ensure the availability of accurate, complete, informative, timely and reliable information so it can be used in the decision making process by Management in anticipation of changes in the Bank's risk profile, industry practices and external risk conditions.

PRINCIPLE	EXPLANATION	IMPLEMENTATION AT BNI
Principle 8 Risk Communication	Effective implementation of risk governance requires accurate risk communication within the Bank between the organization, and through reporting to the Board of Commissioners and Directors.	When applying risk management in the Company, BNI considers the need for alignment between strategies and business objectives with risk management strategy and risk appetite. The risk management strategies consists of 4 (four) main components, namely: <ol style="list-style-type: none">1. The level of risk to be taken (risk appetite) and risk tolerance (risk tolerance);2. Risk management principles and policies3. Risk governance;4. Types of risk exposure and market conditions..
		The governance for determining the risk management strategies consisted of: <ol style="list-style-type: none">1. The risk management strategy as one of the bases (references) for determining the business strategy as outlined in the annual BNI Bank Business Plan (RBB) that is submitted to Regulators;2. The risk management strategy is compiles and prepared by the Risk Management Work Unit, and approved by the Board of Directors through the Risk Management & Anti-Fraud Committee Meeting for Risk Management, and then the approval of the Board of Commissioners is sought.
		The risk management strategy is communicated by the Board of Directors to the Divisions/Work Units and is reviewed periodically in line with changes in business strategy, taking into account economic conditions, banking business, changes in regulations by regulators and their impact on the Bank's financial performance.
		The Board of Commissioners supervisory function on the Bank's compliance risk is carried out by the Risk Monitoring Committee, in relation to the application of the precautionary principle, to ensure that all Bank activities and policies have been carried out in accordance with the applicable laws and regulations. The Board of Commissioners regularly reviews and evaluates the compliance function.
Principle 9 Compliance	The Board of Commissioners is responsible for overseeing management related to the Bank's compliance risk. The Board of Commissioners must establish a compliance function and provide approval for policies and processes for identifying, assessing, monitoring and reporting, and providing advice on compliance risks.	
Principle 10 Internal Auditing	The internal audit function must report independent assurance activities to the Board of Commissioners and must support the Board of Commissioners and the Board of Directors in encouraging an effective governance process and the long term health of the Bank.	BNI already has an internal audit work unit, which is carried out by Internal Audit, with the main task of carrying out assurance and consulting to provide added value and improvement to the quality of control, risk management and corporate governance, independently and objectively, as described in this Annual Report in the about Internal Audit section.

PRINCIPLE	EXPLANATION	IMPLEMENTATION AT BNI
Principle 11 Compensation	The Bank's remuneration structure must support the Application of corporate governance and risk management.	BNI has a Nomination and Remuneration Committee whose formation and functions are in accordance with applicable laws and regulations, so that the remuneration policies support the implementation of corporate governance and risk management.
Principle 12 Disclosure and Transparency.	The Bank's governance implementation must be carried out in a transparent manner to Shareholders, Depositors, other relevant Stakeholders and Market Participants.	BNI has a high commitment to applying the corporate governance principles, including the transparency principle. BNI always prioritizes disclosure and transparency about the Company to shareholders and other stakeholders in accordance with applicable rules and regulations.

Social Environmental Responsibility Governance

“As a good corporate citizen, BNI always strives to provide economic, social and environmental benefits using more integrated, directed, measurable and accountable principles as part of BNI’s business approach to achieve sustainability and business continuity”

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAMS IMPLEMENTATION COMMITMENT AND POLICIES

In all of its business activities, BNI is committed to contributing to sustainable development, by providing economic, social and environmental benefits with more integrated, directed, measurable and accountable principles as part of the Company’s business approach to achieving sustainability and business continuity.

As a State-Owned Company (SOE) that acts as an agent of development, BNI is strongly committed to developing a sustainable economy by always paying attention to responsibility and balancing the economic, social and environmental aspects. For this reason, BNI organizes its Social and Environmental Responsibility (SER) programs with an awareness that the Bank’s success in maintaining sustainable performance is not only determined by management and operational performance, but also for its support by the communities in its operating areas. This is aligned with the Sustainable Development Goals (SDGs), namely development that maintains a sustainable increase in people’s economic welfare, development that maintains the sustainability of the communities social life, development that maintains environmental quality, and development that guarantees justice, with governance to maintain an increase in the quality of life from one generation to the next.

BNI is committed to implementing its SER programs and activities to contribute to sustainable development, as stated in the BNI Mission statements 5 and 6, namely to increase concern and responsibility for the environment and communities, and to become a reference for implementing compliance and good corporate governance for the industry. BNI has established policies that are used as the basis for implementing compliance with information disclosure on the impact of the Bank’s business decisions and activities on society and the environment through transparent and ethical behavior.

BNI’s SER program policies include:

1. Corporate Guidelines No. IN/924/KMP/001 dated January 03, 2022 concerning the Social and Environmental Responsibility (SER) program;
2. Corporate Guidelines on Business Banking Credit BUKU I Corporate Segment for customer credit risk analysis that regulates the requirements for AMDAL or PROPER (Company Rating Assessment Program in Environmental Management) BPP No. IN/690/PGV/001 dated December 20, 2018;
3. Corporate Guidelines on Community Development Management No. IN/341/KMP/001 dated July 17, 2017;
4. Corporate Guidelines on Environmentally Friendly Lifestyle No. IN/418/KMP/001 dated September 12, 2017.

Meanwhile, as a commitment to implement the sustainable finance, BNI has developed the Sustainable Finance Action Plan (RAKB) of BNI for 2022 which has been approved by the Board of Commissioners, through the letter No. DK/113/R November 29, 2021.

“Comprehensive Information concerning BNI’s social and environmental responsibilities has been disclosed in the 2022 BNI Sustainability Report, which is resented separately from this Annual Report”

BASIS FOR IMPLEMENTING SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAMS

For their implementation, SER programs and activities always refer to and are aligned with the Bank’s Mission and the Environmental, Social and Governance (ESG) aspects and are also guided by the following regulations:

1. 2007 Law No. 40 concerning Limited Liability Companies;
2. 2012 Government Regulation No. 47 concerning Social and Environmental Responsibility in Limited Liability Companies;
3. Minister of SOEs Regulation of the Republic of Indonesia No. PER-6/MBU/09/2022 dated September 15, 2022 as an Amendment to the Minister of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the Social and Environmental Responsibility Program for SOEs.
4. OJK Regulation No. 51/POJK.03/2017 dated July 18, 2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers and Public Companies;
5. Bank Internal Guidelines No. IN/2/KMP/001 dated January 3, 2022 concerning Social and Environmental Responsibility Program (SER) program.

For BNI, the development of its business activities, and to promote a sustainable economy, is carried out with full integrity in line with the applicable laws and regulations, and upholds business ethics. Therefore, BNI carries out its SER programs and activities that are not just for fulfilling regulations, but more than that, SER has become BNI’s responsibility to stakeholders.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM PRINCIPLES AND OBJECTIVES

BNI’s SER program principles and objectives refer to the Minister of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the SER Program for SOEs, and its amendment, Minister of SOEs Regulation No. PER-6/MBU/09/2022 dated September 15, 2022, whereby there are four principles that serve as a reference so that the SER program is carried out in a systematic and integrated manner to ensure the implementation and achievement of the SER program’s success is in accordance with priorities and work plans. These four principles include:

1. Integrated, namely based on risk analysis and business processes related to stakeholders;
2. Targeted, namely having a clear direction to achieve corporate goals;
3. Measurable, namely making a contribution and providing benefits that produce change or added value for stakeholders and the Company; and
4. Accountability, namely being accountable so as to keep away from potential abuse and irregularities.

BNI’s SER program is oriented towards achieving the SGDs based on the SOEs SER program objectives, namely:

1. Providing benefits for economic development, social development, environmental development as well as legal and corporate governance development;
2. Contributing to the creation of added value for the Company with principles that are integrated, directed and measurable, as well as accountable;

3. Fostering micro and small businesses to be more resilient and independent, as well as the communities around the company.

In addition, BNI's SER program is also implemented with reference to 4 (four) main pillars, namely the Social Development Pillar, the Economic Development Pillar, the Environmental Development Pillar, and the Law and Governance Development Pillar, in line with Minister of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the SER Program for SOEs, and its amendment, the Minister of SOEs Regulation No. PER-6/MBU/09/2022 dated September 15, 2022. The four main pillars cover 17 Sustainable Development Goals: (1) No Poverty; (2) Zero

Hunger; (3) Good Health and Well-Being; (4) Quality Education; (5) Gender Equality; (6) Clean Water and Sanitation; (7) Affordable and Clean Energy; (8) Decent Work and Economic Growth; (9) Industry, Innovation and Infrastructure; (10) Reduced Inequalities; (11) Sustainable Cities and Communities; (12) Responsible Consumption and Production; (13) Climate Action; (14) Life Below Water; (15) Life on Land; (16) Peace, Justice and Strong Institutions; (17) Partnerships for the Goals.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY IMPLEMENTATION STRATEGY AND PROGRAM BASED ON THE CONCEPT OF SUSTAINABLE FINANCE

When developing its strategies and programs for implementing SER, as one of the largest banks in Indonesia, BNI always refers to the concept of sustainable finance. Where for its implementation, BNI seeks to have a positive influence, and be able to advance the social conditions of communities and people connected to BNI, through the implementation of appropriate and long-impact SER programs. The SER implementation strategy and activity program is also structured to always respect and take into account the expectations

of stakeholders, to comply with the applicable laws, and to be consistent with international norms of behavior. In addition, BNI also avoids implementing SER programs that only aim to improve BNI's image in the eyes of the public and the business environment. Understanding the SER program objectives being implemented, as well as the expected positive impact, is BNI's main goal to achieve the ideal, objective, targeted and sustainable SER implementation goals in line with the concept of sustainable finance to achieve the sustainable development goals.

The concept of sustainable finance, which is BNI's foundation when developing strategies and programs for implementing BNI's SER, reflects

BNI's commitment to complying with OJK No. 51/POJK.03/2017 dated July 18, 2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers and Public Companies. This POJK was issued to support OJK's Sustainable Finance Roadmap, covering public health and welfare, through to the financial industry and financial institutions. This will have an impact on BNI's efforts to encourage responsible behavior in all parts of the organization. In this regard, BNI's management including the Board of Commissioners and Board of Directors provide support in planning and direct supervision related to sustainable finance. Through the President Director, BNI has instigated the implementation of sustainable finance and the division of functions related to sustainable finance through the President Director's Decree No. KMP/4/2602, June 21, 2019 concerning the Implementation of Sustainable Finance. BNI has also established an ESG (Environmental, Social & Governance) Sub-Committee under the Risk Management & Anti-Fraud Committee through Board of Directors Decree No. KP/484/DIR/R dated October 26, 2021.

In addition, the substance of the SER program implementation, as interpreted by BNI is to fulfill POJK 51 Sustainable Finance, which has lead to BNI establishing Sustainability Pillars to build harmonious and mutually beneficial relationships with the environment, community and stakeholders, both locally, nationally and globally, as well as to provide a positive impact on the way of thinking and environmental life.

The BNI SER implementation program includes the following:

1. Micro and Small Business Funding Program (PUMK)
 - a. Focusing on clustering distribution by establishing synergistic cooperation with BUMN/BUMD/Pemda to manage fostered partners or MSMEs;
 - b. Collaborating with Community Empowerment Institutions (LPM) that fosters MSMEs.
2. Social and Environmental Responsibility Program (Non PUMK)
 - a. Distributing SER funds in line with the provisions;
 - b. Cooperating with professional and competent partners to organize community empowerment programs;
 - c. Collaborating in community development to improve the programs' quality;
 - d. Increasing the SER capacity and capability by providing education, training, apprenticeship, marketing and other forms of assistance.

The above SER activity program is divided into 3 (three) major programs, namely:

1. BNI Initiation

An activity based on BNI thematic initiatives related to the SDGs and BNI's vision and mission. BNI Initiation can also be based on developing national issues that have a broad impact on society.
2. Collaboration Program

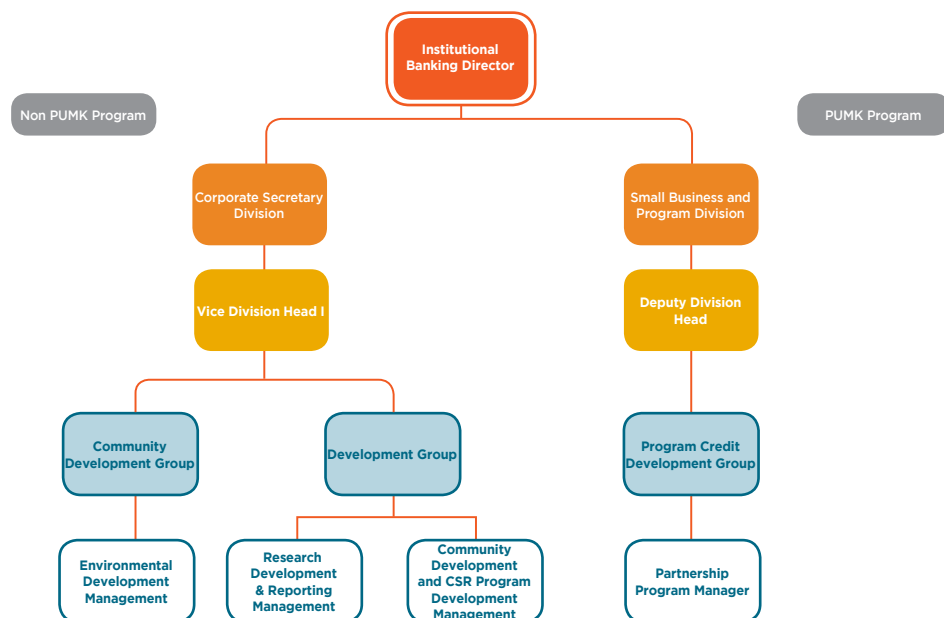

A program that is carried out in collaboration with various parties to create a wider and more sustainable program impact.
3. National Support

An activity based on the initiative of the Government as the primary stakeholder, and other community stakeholders.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM MANAGER

To carry out the SER program within BNI, the programs' implementation is divided across several divisions with responsibilities based on the program category. The BNI SER program management is currently in the Corporate Secretary (CSE) Division and the Small Business and Program (SBP) Division, which are directly responsible to the Institutional Banking Director, as explained in the organizational structure below.

SER Program Management Organizational Structure

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM MAIN FOCUS, AND COMPANY SUPPORT FOR SUSTAINABLE DEVELOPMENT GOALS

BNI continuously strives to be tougher, agile and ready to face challenges to achieve business continuity and sustainability. For BNI, the meaning of sustainability is how to become a financial institution that provides superior performance and service to all customers, increases investment value for investors, creates the best working conditions for employees, increases concern for the environment and society, and upholds corporate governance in the context of sustainable finance. This commitment is in line with BNI's vision and mission.

To realize sustainability and a better future through the SER program, BNI's main focus programs consists of 5 (five) BNI Sustainability Pillars as a form of BNI's support for the Sustainable Development Goals. The five BNI Sustainability Pillars include, BNI for Indonesia, BNI for Customers, BNI for the Environment, BNI for the Community, and BNI for Employees.

5 (five) Sustainability Pillars

BNI FOR THE EMPLOYEES

Creating the best conditions for employees as a place of pride to work and achieve.

BNI FOR INDONESIA

Running the Company's business by integrating economic, social and environmental interests and governance.

BNI FOR CUSTOMERS

Providing excellent service, digital solutions, security and privacy protection for all customers.

BNI FOR THE COMMUNITY

Increasing awareness and responsibility at all levels of society in line with business development.

BNI FOR THE ENVIRONMENT

Improving the environment's quality in line with business development.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM FINANCING BUDGET AND REALIZATION IN 2022

For determining the SER program implementation budget, the approach taken by BNI is to refer to the Ministry of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the SER Program for SOEs, and its amendment, Ministry of SOEs Regulation No. PER-6/MBU/09/2022 dated September 15, 2022. As mandated in this regulation, BNI has established SER program funds for 2022, consisting of the PUMK Program with Rp169,576,888,744 and the SER (Non PUMK) Program, with Rp99,748,806,937.

The SER Program (Non PUMK) Budget is based on 4 (four) main pillars, namely the Social Development Pillar, the Economic Development Pillar, the Environmental Development Pillar, and the Law and Governance Development Pillar, as explained below.

Realization of 2022 Program Funds Based on 4 (four) Pillars		
No	Sustainable Development Goals (SDG) (TPB)	Realization of Funds 2022 (Rp)
SOCIAL PILLAR		
1	SDG 1 (No Poverty)	897,691,757
2	SDG 2 (Zero Hunger)	29,216,635,544
3	SDG 3 (Good Health and Well-Being)	21,516,933,473
4	SDG 4 (Quality Education)	17,116,804,153
5	SDG 5 (Gender Equality)	166,905,000

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM ACTIVITIES

BNI Sharing Program for Education

Submission of Honorary Teacher Appreciation in the 3T Region which was carried out simultaneously throughout Indonesia

Educational Facilities and Infrastructure support

Educational Assistance and Scholarships

BNI Program for the Environment (BNI GoGreen)

Nurseries, Planting and Maintenance Programs in the Citarum Region and the Anyer Coastal Green Belt, Banten

Community Based Waste Management Program which the management is measurable through literacy (BNI Agen46 Waste Bank)

New Renewable Energy Program (EBT) in areas that do not have electricity in the Regions of West Kalimantan and Papua

BNI Sharing Program with MSMEs

MSME Training and Development Program

BNI Xpora MSME Program Abroad

Appreciation for Nurses/Midwives, and Migrant Workers throughout Indonesia

Submission of Nurse/Midwife Appreciation which was carried out simultaneously throughout Indonesia on January 22, 2022

Submission of Appreciation for Indonesian Migrant Workers which was carried out on January 23, 2022

BNI Sharing Disaster Emergency Response Assistance

Assistance from the Trauma Healing Post for Disaster Response in Cianjur, West Java

BNI Emergency Response Assistance Sharing in the Form of Staple Foods at several Disaster points throughout Indonesia

Jump Higher Program Achieves Blessings of Ramadhan, Catur Brata Penyepian, and Christmas Peace

Jumping Higher Program to Achieve Blessings of Ramadhan 1443 H

Jumping Higher Program to Achieve Chess Brata Penyepian

Jumping Higher Program to Achieve Blessings of Christmas Peace 2022

ACHIEVEMENT OF THE 2022 SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM

For its SER program carried out in 2022, BNI received various awards, as evidence of BNI's commitment to implementing the SER program and achieving the Sustainable Development Goals.

The following awards were received by BNI in 2022 for its Social and Environmental Responsibility program.

Awards for the Implementation of the SER Program in 2022			
Awards Event	Category	Award Giver	Date
Appreciation of Scholarship Providers	Corporate Chapter for Platinum Category	Universita Bina Nusantara (Binus)	November 21, 2022
Apresiasi Pemberi Beasiswa	Appreciation of Scholarship Providers	Universitas Indonesia	November 22, 2022
LPS Banking Awards	Most Active Bank in CSR Activities in 2022	Lembaga Penjamin Simpanan	November 29, 2022
LPS Banking Awards	Most Active Bank in Green Banking Practices	Lembaga Penjamin Simpanan	November 29, 2022
LPS Banking Awards	The Best Bank in conveying information about the Deposit Guarantee Program	Lembaga Penjamin Simpanan	November 29, 2022
BI Best MSME Support Bank Award Ranked 2nd in 2022	MSME Support Bank Best of 2022	Bank Indonesia	November 30, 2022
Directorate General of Higher Education, Research and Technology 2022 award	Most Innovative Bank For Digital Campus Transformation 2022	Directorate General of Higher Education, Research and Technology	December 16, 2022
Directorate General of Higher Education, Research and Technology 2022 award	Partners who contributed to the 2022 Higher Education Award	Directorate General of Higher Education, Research and Technology	December 16, 2022
ASRRAT (Asia Sustainable Report Rating)	Gold Rank	NCSR (National Center For Sustainable Reporting)	November 2022

Social Environmental Responsibility Program Performance

THE COMPANY'S CONTRIBUTION TO SUSTAINABLE DEVELOPMENT GOALS

For BNI, sustainability is part of BNI's commitment to realizing its vision and mission, and to creating a better future for all stakeholders. Therefore, BNI consistently applies sustainable finance and increases its support for the achievement of the Sustainable Development Goals (SDG), one way through the SER activity programs.

BNI strives to support the initiatives to achieve the Sustainable Development Goals as part of the efforts to meet global scale sustainable development targets set out in the 17 Sustainable Development Goals (SDGs) goals. BNI, as a financing institution, is selective in channeling financing to industries that have an understanding of the principles of sustainable development in order to create a better future.

The following shows the achievements of BNI's contribution or support for the Sustainable Development Goals (SDG) that are appropriate and relevant to BNI's activities and business fields.

BNI's Support for Sustainable Development Goals (SDG) Achievement

No	Sustainable Development Goals (SDG)	BNI Achievement
1	SDG 1 (No Poverty)	<ul style="list-style-type: none">Student Savings Fund 10.131.096 account with total of Rp1.556,66 billion.Disbursement through the PUMK Program, Rp97.78 billion for 2,428 fostered partners.Disbursement of financing for the marine and fisheries sector for the small segment, Rp2,018.6 billion.Assistance for Uninhabitable Houses (RLTH) for 42 houses in the 3T area.Disaster Response Assistance Program at 30 disaster locations.Employee remuneration above the Provincial Minimum Wage/City/Regency Minimum Wage (UMP/UMK)164,979 BNI Agen46 spread throughout Indonesia, which includes 7,629 BNI Agen46 in the 3T area.Open job vacancies for BINA BNI employee and apprenticeship positions.

FLAGSHIP PROGRAM

In line with its role as an SOE engaged in the financial sector, BNI's SER program is aligned with its corporate objectives and implemented in a directed, structured and sustainable manner. As well as improving BNI's corporate image and corporate business, BNI's SER program is also aimed at having a positive impact on society and the environment and is oriented towards Sustainable Development Goals.

BNI is committed to continuing its innovations and designing flagship programs that can have a positive impact on society and the environment. For 2022, BNI budgeted Rp81,586,242,151 for its flagship program fund, as shown in the table below.

Flagship Programs Budget in 2022

Program	Realization of Funds 2022 (Rp)
Food security	27,237,104,851
Places of Worship Infrastructure Assistance	16,052,768,751
MSME support	11,305,135,154
Honorary Teacher Appreciation and Teacher Certification Program	14,521,730,000
Greening	4,000,000,000
Waste management	2,300,000,000
New Renewable Energy	405,400,000
Healt	1,090,000,000
Collaboration	4,478,643,047
Scholarships for Children of Outsourced Employees	195,460,348
Total	81,586,242,151

The following explains the flagship programs carried out by BNI in 2022.

Description of BNI's flagship programs:

- Food Security Program
 - In line with BNI's progress during the global economic decline, BNI remained committed to solving food security and hunger problems occurring in the communities. BNI understands that its progress is inseparable from delivering a prosperous society. Related to food security, BNI distributed food packages through three special programs including the Jumping Higher Program during Ramadan, the Jumping Higher Program during the Hindu Catur Brata, and the Jumping Higher Program during Christmas. These programs involve distributing food packages to the communities in all BNI work areas on a regular basis every year through a series of religious holiday celebrations. In addition, BNI is playing an active role in handling COVID-19 by distributing Food Packages to people affected by COVID-19.
 - Distribution of the Food Security Program is prioritized for underprivileged communities, communities affected by COVID-19, either through BNI directly or through related foundations/ organizations. The provision of food packages by BNI takes into account the precautionary principle so that BNI's distribution does not duplicate the assistance for basic food assistance provided by the Government.
 - In 2022 BNI distributed food packages with a value reaching Rp27,237,104,851 (twenty seven billion two hundred thirty seven million one hundred four thousand eight hundred and fifty one rupiah), with 79,700 food packages distributed as a response to COVID-19 and 158,369 food packages distributed for religious holidays and other initiation assistance. Food packages delivered through agencies or institutions are coordinated with the local government after collecting data on poor and deserving people needing food package assistance.
 - The impact of the food security program includes sharing happiness, and helping to ease the burden on the communities, especially for the underprivileged and those affected by COVID-19, as well as for improving people's welfare.

- Places of Worship Infrastructure Assistance Program
 - To create a nation with character and to develop a sustainable environment, BNI participates in helping to build and or renovate places of worship infrastructure for religions in all of BNI's work areas. BNI provides assistance to places of worship, which are packaged into three special programs, including the Jumping Higher Program during Ramadan, the Jumping Higher Program during the Hindu Catur Brata, and the Jumping Higher Program during Christmas. The places of worship facilities program does not only help support the infrastructure, but also helps meet the needs for supporting the places of worship facilities or infrastructure.
 - In 2022, BNI assisting 367 places of worship in various religions, at a cost of Rp16,052,768,751 (sixteen billion fifty two million seven hundred sixty eight thousand seven hundred and fifty one rupiah). The impact of this program is to create sustainable cities and communities, improve and repair religious facilities, and increase BNI's concern and responsibility for the surrounding communities.
- Honorary Teacher Appreciation and Teacher Certification Program

In an effort to improve the quality of education in Indonesia, BNI strives to improve the welfare of those frontline educators who will shape the next generation of the nation. To realize this, BNI conducted two series of programs, namely the Honorary Teacher Appreciation in Frontier, Remote and Disadvantaged Regions (3T), and Teacher Certification Training and Appreciation.

 - Honorary Teacher Appreciation Program in 3T Regions
 - This program is a form of appreciation for honorary teachers in 3T areas in 118 districts in 22 provinces, where the welfare of honorary teachers is often a problem, is unclear, lacks incentives/honors that are often not enough for everyday life, and lacks appreciation that honorary teachers receive. As well as those in the 3T areas far from the center of government, they often do not get attention, especially in terms of incentives;
 - The budget allocation for this was given to 3,638 teachers, with a total allocation of Rp18,190,000,000 (eighteen billion one hundred and ninety million rupiah); and
 - The impact of this program is to ease the burden on honorary teachers in meeting their needs and can help support the welfare of honorary teachers.

b. Teacher Certification Training and Appreciation Program in South Sumatra

- i) This is a support program for teachers to develop their competencies through teacher certification, aimed at improving the quality of education and improving the welfare of teachers financially; and
- ii) This program is carried out through two schemes, based on data from the Ministry of Education, Culture, Research and Technology
 - Teacher certification exam preparation training to for 81 teachers who had not passed certification in 2022 in South Sumatra;
 - Appreciation for teachers who have passed the certification (Retaker) in 2022 by giving each Rp500,000 (five hundred thousand rupiah).

4. MSME Support Program

MSMEs are one of the important sectors for national economic growth. To date, MSMEs continue to grow and develop and have a real impact on supporting GDP and employment. To support this, BNI continues to provide support for MSMEs so that they can improve their quality and raise the level of MSMEs to what is often known as “UMKM Class Up”. As a concrete manifestation, BNI has implemented several programs including MSME Certification, Business Equipment Support, and Entrepreneurial Competency Improvement Training and MSME business quality.

a. MSME Certification

- i) The MSME certification program is aimed at improving the quality of MSME by providing guarantees for MSME products being marketed. The program implemented so far is for Halal Certification. The purpose of halal certificates is to guarantee the halal products to provide convenience, security, safety and certainty of the availability of halal products for the public when consuming and using products, as well as to increase added value for businesses to produce and sell halal product;
- ii) Halal certification has been carried out in all BNI work areas for 403 MSMEs at a cost of Rp1,394,575,000 (one billion three hundred ninety four million five hundred seventy five thousand rupiah);
- iii) Overall this program’s impact has increased the value of MSMEs in terms of production, sales, and a wider market reach, so as to increase their income and

welfare. In addition, it also provides a sense of comfort and security for consumers to buy MSME products.

b. Business Equipment

- i) Business equipment assistance is aimed at supporting MSMEs in terms of production productivity, so they have adequate good condition business equipment to increase production to meet market needs;
- ii) To date, BNI has provided support for increasing production and product quality to 90 MSMEs at a cost of Rp858,539,400 (eight hundred fifty eight million five hundred thirty nine thousand and four hundred rupiah); and
- iii) The impact of this assistance will help increase MSME production to meet market needs. As well as guarantee the good quality of the products.

c. Entrepreneurial Competency Improvement Training and MSME business quality;

- i) The Entrepreneurial Competency Improvement and MSME business quality Program is aimed at helping MSMEs gain an understanding and knowledge about business, both in terms of opportunities and broad market conditions;
- ii) This program is carried out by providing training and product marketing support through bazaars or exhibitions held directly by BNI, or at certain events. In addition, BNI also supports sustainable product marketing by helping to provide facilities in the form of strategic and sustainable sales locations;
- iii) To date, support for Entrepreneurial Competency Improvement and MSME business quality has been provided to 7,914 MSMEs at a cost of Rp9,052,020,754 (Nine billion fifty two million twenty thousand seven hundred and fifty four rupiah);
- iv) The impact of this support program has increased the MSMEs welfare, competence, competitiveness, expansion of market share, increased product quality, with the ability to be more competitive and ready to face the Global Economy era and support Indonesia’s economic growth.

5. Greening Program

- a. Based on BNI’s 4th mission to increase awareness and responsibility for the environment and community, as well as being one of the Ministry of SOEs SER Focus, namely the Environment. In 2022 BNI carried out a reforestation program (Seeding, Planting and Maintenance) for 438,941 Plants at a cost of Rp4,000,000,000 (four billion rupiah), through the following programs:

- i) Rehabilitation of critical land and ecosystems in the Upstream Areas of the Citarum & Ciliwung and Cisadane River Basins (DAS),
- ii) Land rehabilitation for the Coastal Area (Green Belt) at Carita Beach – Anyer, Seribu Islands - Banten, Tanjung Balai Karimun - Riau Islands
- iii) The BNI Greening Program does not only involve handling climate change, but also includes preserving Indonesia’s natural environment, and preventing landslides and floods so as to drive the community’s economy from forest products
- iv) Rehabilitation of critical land and ecosystems through sustainable development goals No.13 Climate Action by taking immediate action to combat climate change and its impact, and No.15 Life on Land by protecting, restoring and promoting the sustainable use of terrestrial ecosystems, managing forests, combating, stopping land degradation and stopping the loss of biodiversity.

6. Waste Management Program

- a. The waste management program carried out by BNI follows a pattern of community involvement and measurable waste processing, through literacy (46 waste bank agents) and education where this program has an impact in the form of reducing the amount of waste sent to TPA, and has an economic impact on the segregation of waste that is can still be reused;
- b. BNI as assisted the community-based waste management program through several forms of assistance at a cost of Rp2.3 billion, such as:
 - i) Smart Post Program (Center, Garbage Processing, Sorting, Collecting, Saving, Recycling, Tools and Innovation); and
 - ii) Incinerator assistance, an environmentally friendly machine that does not use fuels such as electricity and gasoline, with minimal smoke that endangers the environment for the management of waste residues by minimizing the buildup of waste in the settlement waste residues to zero and producing waste that has a return value;
 - iii) Assistance with Garbage Motorbikes and Trash Cans for waste processing sites, Bumdes and Schools;
- c. Participating in SDG No. 15 to restore and promote sustainable use of terrestrial ecosystems, and No. 11 to make cities and human settlements inclusive, safe, resilient and sustainable, for the City Government of Bogor, West Java.

7. New Renewable Energy Program

- In supporting the Government’s program in handling climate change, within the broad framework of sustainable development, BNI is implementing a New and Renewable Energy assistance program in 2 locations, namely:
- a. Setia Budi Village, Kec/District Bengkayang–West Kalimantan for those in the middle to lower socio-economic sector, and the livelihood of most traders where villages do not have electricity, through BNI’s

solar panel EBT assistance program for 26 buildings consisting of 22 residents’ houses and 4 public buildings that are well located, and very useful for the people of Setia Budi Village, totaling 476 people, as this will increase community economic activities and study activities at night;

- b. Mandala Village, Merauke City, Papua, a middle to lower class community with livelihoods coming from farmers, traders and laborers who have to pass through public roads that are pitch black every day due to no electricity for street lighting so that from a security point of view it is dangerous and the community’s economic activities is limited. The assistance of 10 (ten) areas of solar-powered public street lighting has been very beneficial for the surrounding communities, with 428 families so that from a security standpoint, the community’s economy and residents’ activities at night can function better.

8. Health program

In order to support the Government’s Program through the Health Program, BNI participates in appreciating nurses and midwives who have contributed to serve and deal with security and safety risks at work, so they are very vulnerable to exposure to COVID-19. In this regard, BNI has succeeded in assisting 423 nurses and midwives in handling COVID-19 in all BNI work areas, with a value of Rp1.09 billion

9. Collaboration Program

As a concrete form of BNI’s seriousness in providing a wider and sustainable impact for the communities, BNI participates by conducting collaborative programs to deliver effective, efficient and targeted problem solving solutions. To date, BNI has implemented the following programs:

- a. Collaboration programs in Lampung Province, for the construction of an MSME Center in West Lampung, Creative Hub Building in the Bakauheni Harbor City Area, Open Sports Building in Central Lampung with total assistance of Rp11,204,000,000 (eleven billion two hundred and four million rupiah) together with 22 SOEs and the Local Government;
- b. Collaboration program in Banten Province, for the construction of a two bridges in Keboncau Village, Kec. Bojongmaik, Kab. Lebak and in Cibitung Village, Kec. Mujul, Kab. Pandeglang Banten Province with assistance of Rp996,882,000 (Nine hundred ninety six million eight eight hundred eighty two thousand rupiah) together with 3 SOEs. Also, collaboration by providing school uniforms to 3,000 students/l in Banten Province with assistance value of Rp375,939,789 (three hundred seventy five million nine hundred thirty nine thousand seven hundred and eighty nine rupiah) together with 15 SOEs;
- c. Collaborative programs for improving education including scholarships for children of migrant workers in collaboration with the Consulate General of the Republic of Indonesia, scholarships for 286

children of TNI POLRI in collaboration with 35 related SOEs. BNI also participated in improving teacher welfare by conducting PPG certification training and also appreciated 373 teachers who passed PPG certification by collaborating with 9 related SOEs. In addition, BNI also participated by collaborating with 31 related SOEs to provide training and entrepreneurship for students to create preneur students, with assistance provided by BNI of Rp1,750,880,128 (one billion seven hundred fifty million eight hundred eighty thousand one hundred and twenty eight rupiah);

- d. Collaboration program for the construction of religious facilities. BNI has also participated in the collaboration program for the construction of religious facilities and infrastructure in DKI Jakarta and West Nusa Tenggara by collaborating with 5 related SOEs with assistance of Rp1,017,183,750 (one billion seventeen million one hundred eighty three million seven hundred and fifty rupiah);
- e. Collaborative program for preventing terrorism. As an important aspect in maintaining national stability, security conditions are an important matter in social life. BNI participates in supporting the prevention of terrorism by collaborating with the National Counterterrorism Agency through business equipment assistance training of Rp337,757,380 (three hundred thirty seven million seven hundred fifty seven thousand three hundred and eighty rupiah);
- f. Collaborative program by providing ±238,069 which were distributed to underprivileged and communities affected by COVID-19 together with 3 SOEs including Bulog, RNI, and Food Station.

10.Scholarships for Children of Outsourced Employees Program

- a. Demonstrates BNI's appreciation for the contribution of outsourced employees who have worked and served BNI, and in line with the Company's commitment contained in the 4th mission statement, to create the best conditions for employees as a place of pride to work and achievement, and the 5th mission, to increase awareness and responsibility to the environment and society;

- b. It is a full scholarship assistance program at the Higher Education level covering assistance for entrance fees and tuition fees per semester up to 8 semesters for S1 (bachelor's degree) and 6 semesters for D3 (Diploma);
- c. The assistance provided for 115 children amounted to Rp10,000,000 (ten million rupiah), allocated as entrance fees, and tuition fees per semester of Rp6,000,000 (six million rupiah);
- d. These scholarships are awarded after selection of prospective recipients not currently receiving scholarships from other parties, not currently experiencing legal cases, already accepted at tertiary institutions or equivalent, and have maintained a 3.0 GPA each semester.
- e. Activity impact:
- i) Provides learning opportunities for children of outsourced employees to pursue higher education;
 - ii) Alleviates the burden on outsourced employees to pay for their children's education, which in turn improves family welfare;
 - iii)Increases outsourced employee productivity with BNI.

CREATE SHARE VALUE PROGRAM

One of BNI's SER programs is to apply the Creating Shared Value (CSV) approach as part of BNI's strategy to increase its competitive value, and support BNI's business processes so they simultaneously provide social and economic benefits for the communities and the environment.

In 2022, BNI implemented a SER program using the Creating Shared Value (CSV) approach, with funds realized for Rp7,385,169,573 with details in the table below.

CSV Program Realization and Generated Benefits in 2022		
CSV Program	Realization of Funds 2022 (Rp)	Generated Benefits
BNI's Local Tourism (KAWAN) Area	1,013,305,000	The benefits/impact from BNI's KAWAN program is to improve the welfare of the Indonesian people, especially in the Labuan Bajo Super Priority Tourism Destinations (DPSP), Kuta Village in the Mandalika DPSP, and Marinsow Village in the Likupang DPSP.
Ponggok Tourism Village	4,549,871,252	The benefits/impact from developing the Ponggok Tourism Village provides added value and benefits for the community so that it can increase local revenue (PAD) for Ponggok Village, and is a form of BNI's commitment to community development and sustainable tourism.
Let's save with waste	1,821,993,321	Benefits/Impact Let's save with waste is to form a culture of saving in the midst of society and provide banking services in areas that have limited access to banking.

The following explains the CSV program carried out by BNI in 2022.

The BNI CSV program includes:
BNI's Local Tourism Area (KAWAN).

PT Bank Negara Indonesia (Persero) Tbk CSV program for the welfare of the Indonesian people, especially in Super Priority Tourism Destinations (DPSP). The three locations that were the focus of the BNI KAWAN program for 2022 were Cunca Wulang Village in the Labuan Bajo DPSP, Kuta Village in the Mandalika DPSP and Marinsow Village in the Likupang DPSP.

During 2022, BNI focused on building infrastructure facilities and developing Human Resources (HR) at the BNI KAWAN locations. HR development was carried out and included Governance & Institutional training, Entrepreneurship, Hospitality & Service and Digital Marketing. The regular training provided by BNI during 2022 will have a direct impact on the governance and management of tourism in the villages as the main foundation for managing tourism villages.

In line with the 8th Sustainable Development Goal (SDG) to promote the community's economy, BNI continues to be committed to KAWAN programs that provide added value to local communities living in tourist destination areas by improving community-based tourism services. The assistance provided through BNI's KAWAN program is expected to increase the attractiveness of local and international tourists, which will have a direct impact on increasing the number of tourists, as well as to form a tourism ecosystem that carries the concept of interaction between nature, culture and local communities with good governance.

In 2022, BNI's KAWAN CSV Program budget realized was Rp1,013,305,000 (One Billion Thirteen Million Three Hundred and Five Thousand Rupiah), which was distributed to assist the development of infrastructure facilities in Kuta Mandalika Village amounting to Rp519,580,000 (Five Hundred Nineteen Million Five Hundred Eighty Thousand Rupiah), and assistance for the construction of infrastructure facilities for Cunca Wulang Village amounting to Rp493,725,000 (Four Hundred Ninety Three Million Seven Hundred Twenty Five Thousand Rupiah).

Ponggok Tourism Village

This village is located in Polanharjo District, Klaten Regency, Central Java. One of the leading tourist destinations in the Ponggok Village is Umbul Ponggok, the location of a modern bathing pool with swimming and diving facilities.

In 2022 BNI contributed to the development of the Ponggok Tourism Village through the construction of the Ponggok Paradiso tourist attraction, the construction of Balkondes, and assistance for drinking water treatment machines. Ponggok Paradiso is the main attraction of Ponggok Village and is managed directly by the Ponggok community and is a driving force for the economy in Ponggok Village.

The provision of drinking water treatment machines will later provide added value and benefits for the community and increase the local revenue (PAD) of Ponggok Village.

BNI help and assistance at the Ponggok Paradiso Tourism Village location is a form of BNI's commitment to community development and sustainable tourism.

Let's save with trash

The Let's Save with Waste program is a program that aims to educate the public in managing a clean, tidy and healthy environment, while at the same time changing the community's paradigm so that waste is seen as something that has economic value. This education is also aimed at forming a culture of saving in the community through Agen46 BNI media, which is an extension of BNI in providing banking services in areas that have limited access to banking.

In 2022, the budget for the CSV Program for the development of the Ponggok Tourism Village was realized in the amount of Rp4,549,871,252 (Four Billion Five Hundred Forty Nine Million Eight Hundred Seventy One Two Hundred Fifty Two Rupiah).

MICRO AND SMALL ENTERPRISES FUNDING AND DEVELOPMENT PROGRAM (PUMK)

Micro and Small Business Funding Program

The PUMK program an SER activity that is more directed at improving the quality of life of the surrounding communities by fostering micro and small businesses formed with the community. The PUMK program aims to provide easy access to capital for micro and small businesses as well as provide guidance to improve the capabilities of MSEs to make them more resilient and independent.

In 2022, the total distribution of the PUMK Program is Rp169,576,888,744 which is classified as follows:

PUMK Program Distribution and Number of Foster Partners by Business Sector in 2022		
Business Sector	Distribution Realization (Rp)	Number of Foster Partners
Processing Industry	2.442.000.000	33
Business Services	6.815.000.000	91
Community Social Services	1.557.257.254	14
Construction	250.000.000	2
Transportation, Warehousing and Communication	1.925.000.000	10
Trading, Restaurant & Hotel	44.464.031.450	647
Farming, Hunting & Farming Facilities	12.123.600.040	157
Distribution through Other SOEs	100.000.000.000	-
Total	169.576.888.744	954

The PUMK program refers to the Ministry of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the Social and Environmental Responsibility Program for State-Owned Enterprises, as amended by Ministry of SOEs Regulation No. PER-6/MBU/09/2022 dated September 15, 2022. The PUMK program at BNI has been carried out by the Small Business and Program Division since 2017. BNI channels the PUMK Program in the form of soft loans to fostered partners by currently only charging administrative services at 3% per year from the loan limit, and this is channeled in the form of:

- Loans to finance working capital and or purchase of fixed assets in order to increase production and sales;
- Special loans to finance the business activities of fostered partners in the form of additional and short-term loans to fulfill orders from their customers;
- Development Program Expenses Coaching Expenses::
 - Expenses for education, training, apprenticeships, marketing, promotion, and other activities related to increase the productivity of the fostered partners and for conducting the assessments/research related to the Small Business and Micro Business Funding Program (PUMK);
 - Development program expenses in the form of grants with a maximum amount of 20% of the Partnership Program funds disbursed in the current year;
 - Development Program expenses can only be given to or for the benefit of fostered partners.

PUMK Program Distribution Based on BNI Regional Offices in 2022			
Region	Budget 2022 (Rp)	Distribution Realization (Rp)	Distribution Realization Compared to Budget (%)
REG 1. MEDAN	3,000,000,000	2,780,000,000	93%

Micro and Small Business Development Program

BNI's fostered partners are micro and small businesses actors who are technically not familiar with banking due to their limited access to receiving loans from banks. These micro and small businesses operate in various formal and non-formal economic sectors, but have a strategic role to play in the real sector economy and it has been proven that the micro and small business segment is relatively more resilient to economic crises. BNI's fostered partners are expected to increase their business activities, business capital, entrepreneurial spirit, access to banking, business administration, product quality and marketing outreach.

BNI provides guidance to its fostered micro and small business partners, so they can improve their business governance towards better governance and generate increased benefits, and by so doing become the driver of economic movement in their area.

Based on the Ministry of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the Social and Environmental Responsibility Program for SOEs, and its amendment, Ministry of SOEs Regulation No. PER-6/MBU/09/2022 dated September 15, 2022, Fostered Partner development funds form part of the SER fund distribution program. Coaching expenses are directed at increasing the capacity of fostered partners.

Information on the Financial Statements of the Micro and Small Business Funding Program (PUMK)

As a form of accountability for the implementation of PUMK, BNI conducted an audit of the PUMK Financial Statements for the fiscal year ending December 31, 2022 by Tanudiredja Public Accounting Firm, Wibisana, Rintis & Partners (a member firm of the PricewaterhouseCoopers network).

Social and Environmental Responsibility Program Strategic Plan for 2023

BNI continues to develop and implement its CSR programs to bring optimal benefits to all stakeholders. The preparation of the work plan and budget for the BNI SER program is guided by the Minister of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the Social and Environmental Responsibility Program for SOEs, and amendment, Minister of SOEs Regulation No. PER-6/MBU/09/2022 dated September 15, 2022, with an orientation towards achieving the Sustainable Development Goals.

The strategic plan for BNI's SER program for 2023 is to optimize the SER program through CSR activities that have an economic, social and environmental impact, to contribute to sustainable development, by implementing the following programs:

1. Initiation Program
 - BNI's national children's tourism area (Kawan);
 - BNI sharing program for the coast;
 - Eco-tourism program (sustainable tourism);
 - New Renewable Energy (EBT) program;
 - Nature conservation program;
 - Employee volunteering program;
 - BNI Non-CID Program;
 - Social programs - stunting;
 - Social programs - disability;
 - UMK certification program;
 - Outsourcing Scholarship Program 2023;
 - Development of educational facilities in the regions;
 - Waste management program;
 - Help for fauna.
2. Other Stakeholder Support
 - Ambulance for regional stakeholders;
 - Tourism village program & stakeholders;
 - Incidental program;
 - Other support programs.
3. Collaboration Program
 - Special business support programs.

ENVIRONMENTAL

BNI is highly committed to implementing the sustainability principles in its financing products and operations.

FINANCING

For financing, BNI applies the following:

Sustainability Linked Loan

BNI disbursed Sustainability Linked Loans (SLL) to top tier debtors in the livestock sector and the food product processing industry, cement processing industry and steel processing industry amounting to Rp5.3 trillion.

Green Bond

Issued the First Environmentally Friendly Bond (Green Bond) with a Rupiah denomination of Rp5 trillion.

KKUB and THI

Achieved Sustainable Business Activity Category (KKUB) portfolio, amounting to Rp182,93 trillion, with a growth of 6.1% YoY and Applied the Indonesian Green Taxonomy when monitoring BNI's green portfolio.

OPERATIONAL

BNI consistently makes efforts to reduce energy consumption to support emission reductions.

SOCIAL

1. Female employees compared to total employees is 52.04%;
2. Females who occupy managerial positions and above is 30%;
3. The average training hours is 191.67 hours;
4. Employee training and education costs amount to Rp265.79 billion;
5. Employee engagement rate is 96%;
6. Customer satisfaction index is 4.27 (Scale 1-5);
7. Customer complaint settlement rate is 99.93%; and
8. The number of participants in financial literacy education is 19,356 people.

GOVERNANCE

- BNI continues to make efforts to improve ESG risk management by developing tools & guidance that takes into account ESG aspects, as follows:
- Initiative Industry Risk Appetite (IRA) for Pipeline Management;
 - Strengthened Risk Acceptance Criteria (RAC) that takes into account ESG aspects;
 - Loan Exposure Limit (LEL) that takes into account ESG and IRA aspects;
 - Internal Rating System (IRS) by sharpening ESG aspects; and
 - Adding ESG Flagging to BNI ICONS for monitoring the sustainable business portfolios.

BNI ESG
Development

BNI is committed to continuing to be a transformation agent for applying environmental, social and governance (ESG) principles. For this reason, BNI continues to actively add green financing and credit classifications to its portfolio to support sustainable businesses. The following shows the application of ESG in BNI:

1	BNI participated in piloting the reporting of Indonesian Green Taxonomy (THI) to the Financial Services Authority (OJK).
2	BNI's KKUB loan portfolio in December 2022 was Rp182.93 billion, a growth of 6.1% compared to December 2021. This shows BNI's continuing support for expansion in sustainable business financing.
3	To support environmentally friendly technology and strengthen its commitment to strengthening the electric vehicle ecosystem, BNI offers electric vehicle financing with special interest rates and relatively mild terms.
4	BNI has proactively participated in preparing the infrastructure for the electric vehicle ecosystem, by becoming the first bank in Indonesia to use the SPKLU Partnership Investor Own Investor Operate (IO2) cooperation scheme from PLN. The development of Public Electric Vehicle Charging Stations (SPKLU) is BNI's concrete step to accelerate the use of Battery-Based Electric Motorized Vehicles (KBLBB) in Indonesia, which will have a positive impact on the environment.
5	BNI issued its first Green Bonds amounting to Rp5 trillion in June 2022, which will become the capital needed for strengthening the green portfolio. Funds from the Green Bond public offering will be used to finance and refinance environmentally sound projects.
Environmentally sound projects must meet the requirements based on the BNI Green Bond Framework, and have obtained a second party opinion (SPO) from Sustainalytics to assess the validity of the framework, and have been assessed and provided confirmation that the projects underlying the issuance of Green Bonds are contributing to the environment, and the investors provide an annual independent assessment of the progress of the projects.	
The following are the Environmentally Friendly Projects that meet the requirements:	
<ul style="list-style-type: none">• Renewable energy;• Energy Efficiency;• Processing of Waste into Energy and Waste Management;• Sustainable Use of Natural Resources and Land Use;• Conservation of Land and Water Biodiversity;• Environmentally Friendly Transportation;• Sustainable Water and Wastewater Treatment;• Climate Change Adaptation;• Environmentally Friendly Buildings;• Sustainable Agriculture.	
6	BNI provides support for energy transition, in the form of: <ul style="list-style-type: none">• Supporting energy transition financing in the form of PLTU replacement projects with PLTG/GU;• Supporting financing for PLTG, including pipeline gas transmission and infrastructure or storage for energy buffer reserves and as a reduction in the use of fuel by increasing the use of gas as a cleaner energy source;• Supporting the development of NRE production and optimizing BBN (Biodiesel or biohydrocarbon) production, including PLTS as a by-product of waste management;• Supporting financing for PLTS, PLTA, PLTGeothermal and other EBT as a source of energy transition programs.
7	In an effort to encourage the development of debtors and prospective debtors towards an environmentally sound business, BNI continues to increase its commitment to promote sustainable business activities in Indonesia and is committed to supporting sustainable ESG finance in line with the increasing trend of sustainable business investment. For this reason, BNI collaborates with several corporations in the Sustainability Linked Loan (SLL) program, including: <ul style="list-style-type: none">• Companies in the livestock sector and food product processing industry by establishing key environmental performance indicators related to achieving sustainability targets aimed at minimizing the impact of water pollution;• Companies in the steel processing industry sector by implementing a Sustainability Framework with indicators for improving the ESG Risk Rating;• Companies in the cement processing industry sector by implementing a sustainability framework to minimize the impact of carbon emissions through a syndicated loan facility.

8	<p>BNI also conducts socialization within BNI for programs that have been created on an ongoing basis, including:</p> <ul style="list-style-type: none">• BNI GoGreen Program;• Mandatory E-Learning related to Sustainable Finance for all employees,• ESG awareness webinar program for all employees, such as a webinar with the theme ESG Trends & Market Outlook, with guest speakers Jewel Myrtel Bautista (Head of Climate Risk Solutions) and Steven Cochrane, PhD (Chief APAC Economist Economic Solutions Moody's Analyst).• Webinar with the theme Building Carbon-Risk-Free Future Business based on ESG, with guest speaker Martinus Haryo Sutejo (Carbon Specialist, ESG & Sustainability Experts).
9	<p>BNI conducts Automated Monitoring of the ESG portfolio using coding or flagging based on the ESG category for BNI ICONS.</p>
10	<p>BNI consistently makes efforts to reduce its energy consumption to support emission reductions, as follows:</p> <ul style="list-style-type: none">• Turning off the lights in the office during break times (12:00-13:00);• Electricity efficiency by reducing the use of lights at Grha BNI, Plaza BNI, Gedoeng BNI and Menara BNI;• AC temperature setting in the range of 23°C-25°C at Menara BNI, Grha BNI, Gedoeng BNI and Plaza BNI;• Reducing chiller use on Saturdays and Sundays;• Application of magnetic bearing technology to Plaza BNI coolers so that it allows minimal friction between the driving components when working (frictionless);• Installing solar panels with a capacity of 2,200 Watt for the emergency staircase at Plaza BNI;• Limiting business trips and replacing them with teleconferences;• Using energy saving lamps; and• Using online taxis as operational vehicles to provide fuel efficiency of around 15%.

ESG Implementation Commitment

BNI is strongly committed to supporting the achievement of sustainable development goals, which has become a global issue and also has the full attention of the Government of Indonesia, by applying sustainability principles that support alignment between business and ESG aspects (Environmental, Social, and Governance). BNI's ESG is carried out by following policies for developing a sustainable financial products & services portfolio, internal capabilities, and organization to increase social value (people), economic value (profit), and ecological value (planet).

For BNI, sustainability means having a positive impact on all stakeholders and the environment, and being able to pass on something useful for future generations. To achieve this, BNI maintains and manages a balance in all aspects of ESG as much as is possible. Through Sustainable Finance, BNI is committed to continuously increasing ESG-oriented financing.

Until the end of 2022, BNI raised funds and disbursed loans with green portfolio criteria (green financing), as well as financing to the MSME sector, which have been monitored through the KPI ESG Assessment as the collegial KPI for the Board of Directors in 2022, and served as a booster for all related divisions. To support this, BNI collaborates with corporations throuh the Sustainability Linked Loan (SLL) program, and provides support for debtors for the energy transition through project financing for replacing PLTU to PLTG/GU and financing for Renewable Energy (EBT).

BNI's business activities, which are always aligned with the ESG aspects, are intended not only to pursue profit, but also to pay attention to the benefits BNI brings to the environment, Government, and other stakeholders that can increases BNI's long-term value.

ESG-Based Pipeline

MANAGEMENT FLOW

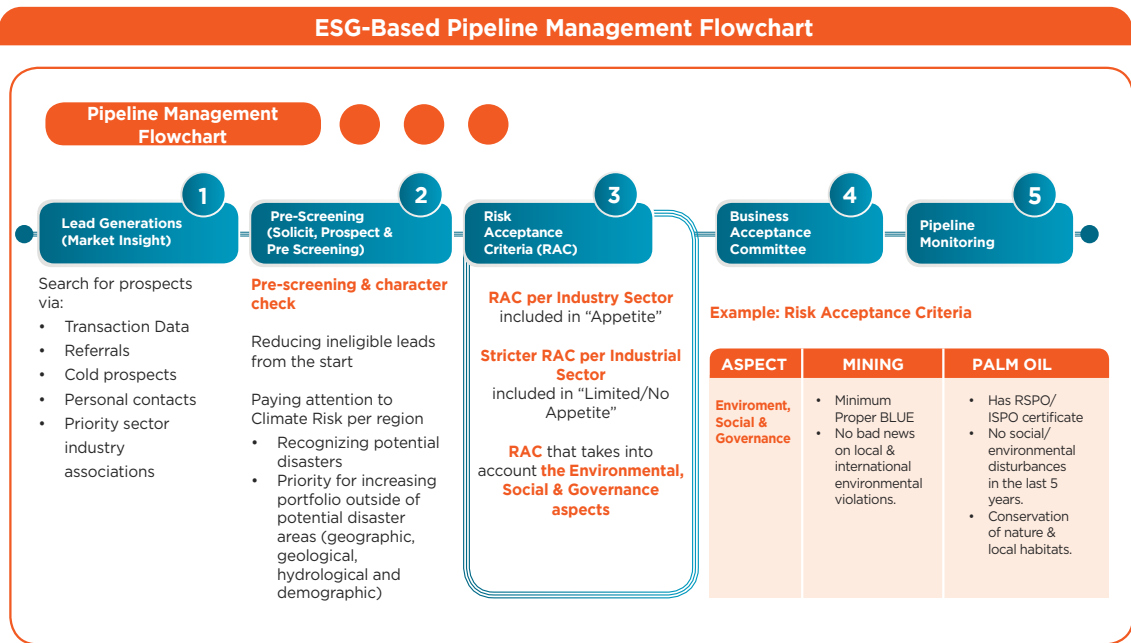

BNI as a financial services institution and SOE, supports Bank Indonesia's policy as the central bank to pay attention to climate change and environmental risks. One form of this support is that BNI has already instigated an industry risk appetite and risk acceptance that pays attention to ESG issues.

BNI pays attention to the issues of forest logging, loss of biodiversity, deforestation, floods, droughts and environmental pollution. Even though these do not have a direct impact on the Bank's business, the financial risk analysis covers financing to debtors with the same risk potential.

Therefore, BNI always prioritizes the precautionary principle and looks to reduce financing to sectors that have the potential risk of damaging the environment or increasing global warming/climate change.

BNI has instigated an ESG-oriented credit policy, as well as mapped the banking activities to start mitigating and adapting to climate change. BNI has also developed a process or flow for ESG risk management. This process is consistently carried out by the Corporate Banking Division 1, 2 and 3, Enterprise Banking Division, Commercial Banking Division, Institutional Banking Division 1 and 2, Syndication & Corporate Solution Division, International Division, SME Banking Division, Small Business & Program Division, SME Risk Corporate & Enterprise Division, and Corporate & Enterprise Credit Risk Division as the units that disburse loans at BNI.

The BNI ESG risk management flow can be explained in the following chart:

PIPELINE MANAGEMENT MECHANISM

1. For determining the industry sectors for portfolio enhancement, BNI will conduct reviews through discussions between business units, risk units and risk management. To determine the industrial sector, BNI uses the Industry Risk Appetite (IRA), whereby the Bank considers the prospects of the leading industrial sector/regional advantage, the Industry Risk Rating (IRR), and opinions on business and pipeline considerations.

The pre-screening process focuses on reducing prospects that do not meet BNI's sustainability requirements, such as climate risk and potential for natural disasters in each region. Furthermore, this process will ensure that businesses are not subject to government-prohibited exposures, such as local community rights violations, forced labor, child exploitation, human rights violations, and other government regulations.

In addition, BNI also focuses on selecting businesses in sectors that have applied the sustainable financial principles, or who have prioritized the ESG factors in the company's operations, although this implementation is still being gradually and continuously improved. Based on these IRA factors, BNI categorizes the industrial sectors into three groups; Appetite, Limited Appetite and No Appetite.

2. To support pipeline management, BNI has Risk Acceptance Criteria (RAC) for the Corporate Segment in 11 industrial sectors, namely:
- Palm Oil Plantations (Upstream and Midstream);
 - Mining (Mine Operator, Smelter Refiner, Fabricator, Trader);
 - Construction (Contractors and Toll Road Contractors);
 - Electricity/Energy;
 - Real Estate;
 - Telecommunications;
 - Chemicals;
 - Non-Metal Mineral Subsector (Cement Industry);
 - Fast Moving Consumer Goods (FMCG);
 - Hospitals;
 - Pharmaceutical.

These RAC industrial sectors were arranged with an emphasis on the application of ESG based on the characteristics of the industrial sector. BNI has strengthened the RAC in 4 main sectors, namely Palm Oil Plantations (Upstream and Midstream), Mining (Mine Operator, Smelter Refiner, Fabricator, Trader), Construction (Contractors and Toll Road Contractors) and Electricity/Energy. Details for the ESG aspect criteria in each sector are explained in the following table:

Risk Acceptance Criteria	
Sector	ESG Aspect Criteria
Palm Oil Plantations	<ul style="list-style-type: none">Minimum ISPO or RSPO certified;Maintaining nature conservation in terms of clearing land that does not disturb the environment and preserving the condition of the land after empowering oil palm plantations;There have been no social/environmental disturbances in the last 5 years that impacted business continuity.
Mining	<p>Mine Operator:</p> <ul style="list-style-type: none">Minimum BLUE PROPER rating;Having a special team for reporting to the Board of Directors to manage corporate social responsibility issues;No bad news concerning violations of local and international environmental regulations;There have been no social/environmental disturbances in the last 5 years that impacted business continuity. <p>Smelter:</p> <ul style="list-style-type: none">Has received environmental impact analysis approval;No bad news concerning violations of local and international environmental regulations;Complies with regulations on air & noise pollution including dust dispersion;Complies with regulations on water, sediment and wastewater treatment;Complies with regulations on the management of hazardous waste materials;Manages social and cultural impact on local communities;Manages wildlife conservation/ecological in local habitats;There have been no social/environmental disturbances in the last 5 years that impacted business continuity.

Risk Acceptance Criteria

Sector	ESG Aspect Criteria
Construction	<ul style="list-style-type: none">• Must have Environmental Impact Analysis (AMDAL) and Health, Safety and Environment (HSE) certification;• Meets and complies with construction sub-sector regulations, including: land use rights, employee occupational safety and health, minimizing pollution, minimizing the effects of hazardous materials, using/maintaining natural water sources;• There have been no social/environmental disturbances in the last 5 years that impacted business continuity.
Electricity/Energy	<ul style="list-style-type: none">• Must have an AMDAL and OHS certificate;• There have been no social and environmental disturbances related to the project in the last 5 years that impacted business continuity.
Real Estate	<ul style="list-style-type: none">• Complies with regional spatial planning plans (Spatial and Regional Planning);• Appropriate land use (Land suitability with its function based on the area/regional master plan, Basic Building Coefficient (KDB), Building Area Coefficient (KLB)); and• There have been no social/environmental disturbances in the last 5 years that impacted business continuity.
Telecommunications	<ul style="list-style-type: none">• There have been no social/environmental disturbances in the last 3 years that impacted business continuity.
Chemicals	<ul style="list-style-type: none">• There have been no social/environmental disturbances in the last 5 years that impacted business continuity.
Cement Industry	<ul style="list-style-type: none">• Minimum BLUE PROPER rating;• There have been no social/environmental disturbances in the last 5 years that impacted business continuity.
Fast Moving Consumer Goods (FMCG)	<ul style="list-style-type: none">• Have AMDAL and OHSE;• There have been no social/environmental disturbances in the last 5 years that impacted business continuity.
Hospitals	<ul style="list-style-type: none">• Minimum ISO 14001 certification;• There has been no malpractice news that impacted business continuity;• Has a hospital waste management unit in accordance with Government regulations;• There have been no social/environmental disturbances in the last 5 years that impacted business continuity.
Pharmaceutical	<ul style="list-style-type: none">• There has never been news of fatal side effects from the drugs produced;• There have been no social/environmental disturbances in the last 5 years that impacted business continuity.

3. The BNI Compliance Division will conduct a Credit Compliance Review (C2R) prior to loan approval to ensure that the loan process complies with all applicable regulations, including the ESG aspects set by BNI.
4. The credit committee will analyze the debtor/prospective debtor, including all risks and risk mitigation, before deciding to approve or reject the loan, including issues related to ESG. The Credit Committee is structured in stages according to their authority to decide, up to the level of the Board of Directors.
5. Pipeline Monitoring:
- a. Periodically the Business Unit will conduct monitoring using a watchlist system and assess the debtor's ratings. If a violation of the ESG aspect is found, BNI will verify it with related parties and may make adjustments to the debtor's rating if it is proven that the debtor does not meet the specified ESG aspects;
 - b. The Internal Audit will regularly conduct audits of debtors whose operational activities can have a negative impact on the environment.

BNI continues to make efforts so that the loans disbursed are aimed at financing productive and responsible businesses that do not damage the environment. Periodically the Banking Business Unit will monitor using a watchlist system and assess the debtor's ratings. The results of the watchlist system will be reported every three months to the Corporate & Enterprise Credit Risk Division (CER) and the Commercial & SME Credit Risk Division (CMR). Each responsible unit is also required to conduct an assessment of a sample of debtors as part of its monitoring.

If violations are found against environmental, social, and governance (ESG) aspects, BNI will verify with the relevant parties, and may make adjustments (downgrading) if it is proven that the debtor has not complied with the ESG regulations.

In 2022, the Bank mapped the fulfillment of ESG aspects in portfolios with a high impact on the environment to support ESG implementation, including:

1. The number of debtors with RSPO/ISPO certificates is 33 companies, while 36 other companies are in the process of obtaining RSPO/ISPO certificates;
2. For debtors operating in the Cement Industry who have received GREEN and BLUE PROPER Rating;
3. For debtors engaged in the Fertilizer Industry, must have received the GOLD Rating Rating Program (PROPER);
4. Debtors in the mining industry (Mine Operators) who have received a GREEN PROPER Rating;

In these cases, BNI continues to encourage debtors in the palm oil sector to obtain RSPO/ISPO certification, and fulfill certification in accordance with their industrial sector.

In addition, BNI has also refined its loan policies and SOPs for lending by taking into account the following ESG factors:

1. General analysis of lending for the palm oil sector that already has RSPO/ISPO certification;
2. General social forestry sector program policies (HPHD, IUPHKm, IUPHHK-HTR, IPHPS); and
3. Fulfillment of AMDAL for all sectors in the manufacturing industry.

**IMPROVEMENTS IN ESG
RISK MANAGEMENT**

BNI is committed to continuing to be a transformation agent when applying ESG principles. During 2022, BNI made improvements and refinements to the ESG Risk Management aspect, starting with the development of tools & guidance related to ESG aspects, participation in the Indonesian Green Taxonomy Piloting Project from OJK, and fulfilled the data required by the regulators, as well as strengthened its ESG-based policies.

1. Tools and Guidance with ESG Aspects

To support BNI's commitment to becoming a Transformation agent when applying the ESG principles, BNI has developed tools and guidance related to the ESG aspects, namely Industry Risk Appetite (IRA), Risk Acceptance Criteria (RAC), Loan Exposure Limit (LEL), and Internal Rating System.

a. Industry Risk Appetite (IRA)

To improve risk management and support the Pipeline Management process, BNI uses an Industry Risk Appetite (IRA) policy with 3 (three) categories namely Appetite, Limited Appetite and No Appetite. Preparation of the Industry Risk Appetite (IRA) takes into account the Industry Risk Rating (IRR) factors that describes the level of risk of each industrial sector, the prospects for the leading industrial sector/regional advantage, the Environmental Impact from the economic sectors, and opinions on business and pipeline developments.

b. Risk Acceptance Criteria (RAC)

BNI's Risk Acceptance Criteria covers the ESG aspects in 11 industrial sectors that have a high impact on the environment, including: the Palm Oil Plantation sector (Upstream & Midstream); Mining (mining operator, smelter refiner, fabricator trader); Construction (Toll Road Contractors and Contractors); Electricity/Energy; Real Estate, Telecommunications; Chemicals; Non-Metal Minerals (Cement Industry); FMCG; Hospitals; and Pharmaceuticals. The industrial sector RAC has been prepared with an emphasis on the application of ESG based on the characteristics of each industrial sector.

c. Loan Exposure Limit (LEL)

BNI has instigated a Loan Exposure Limit (LEL) policy per Economic Sector/sub-sector by taking into account the Environmental, Social and Governance (ESG) policies, Industrial Risk Appetite (IRA) and Economic Sector Recovery Indicators to spread risks and to optimize risks and profitability (risk and return).

d. Internal Rating System (IRS)

BNI already has a rating model in which the parameters include sharpening the ESG aspect.

2. Flagging ESG pada BNI ICONS

BNI carries out Automated Monitoring of the ESG portfolio by coding or flagging based on the ESG category.

3. Monitoring and Mandatory Green Portfolio Reporting Regulations

In an effort to apply the ESG principles, BNI monitors its green portfolio based on regulations issued by OJK, including the Indonesian Green Taxonomy (THI) and the Sustainable Business Activity Category (KKUB). The Indonesian Green Taxonomy is a classification of economic activities that support climate change mitigation and its adaptation in Indonesia, with the aim of developing standard definitions and green criteria for economic sector activities to encourage financial sector growth in funding green economic activities. KKUB is a categorization of sustainable business activities, and describes 11 (eleven) environmentally sound business activities (KUBL), and Micro, Small and Medium Enterprises (MSMEs) activities.

During 2022, BNI as one of the contributors to the THI development, classified the Green Taxonomy of its largest debtors based on their debit balance, with the data sent to OJK for THI development. As well as from THI, BNI also reports data related to KKUB-based green financing to regulators, including the Board of Governor's Meeting Questionnaire (RDG), and Bank Indonesia's Banking Financing Supply Survey every month. KKUB is a categorization of sustainable business activities, and describes 11 (eleven) environmentally sound business activities (KUBL), and Micro, Small and Medium Enterprises (MSMEs) activities.

4. Strengthening ESG-Based Policies

In line with BNI's commitment to applying ESG, in 2022 BNI worked with consultants to strengthen its ESG policies, which refer to the Taskforce For Climate-Related Financial Disclosure (TCFD) standards and guidelines. Strengthening the ESG policies included compiling an ESG framework and re-sharpening the policies related to environmental, social and governance, as well as establishing BNI's short, medium and long term roadmap towards Net Zero Emissions.

Persons Responsible

For Implementing ESG at BNI

BNI has established the Environment, Social, and Governance (ESG) Sub Committee, as the body responsible for implementing ESG aspects. It was established based the Board of Directors Decree No. KP/484/DIR/R dated October 26, 2021. The ESG Sub-Committee is under a Board of Directors' Committee, namely the Risk Management & Anti-Fraud Committee.

ESG Sub Committee membership composition is as follows:

Chair	Vice President Director
Vice Chair	Risk Management Director
Secretary	Head of Enterprise Risk Management Division (also a permanent non-voting member)
Permanent Members at the Board of Directors and SEVP level (Voting Members)	<ul style="list-style-type: none">Finance DirectorCorporate & International Banking DirectorInstitutional Banking DirectorEnterprise & Commercial Banking DirectorTreasury DirectorConsumer Banking DirectorNetwork & Services DirectorSEVP Treasury
Permanent Members at the Board of Directors level (Non-Voting Members)	<ul style="list-style-type: none">Human Capital and Compliance Director
Permanent Members at the Division/Unit Level (Non-Voting Members)	<ul style="list-style-type: none">Head of Enterprise Risk Management DivisionHead of Corporate Secretary DivisionHead of Policy Governance DivisionHead of Investor Relations DivisionHead of Data Management & Analytics DivisionHead of Corporate Planning & Accounting DivisionHead of Corporate Development & Transformation DivisionHead of International DivisionHead of Subsidiaries Development DivisionHead of Treasury DivisionHead of Compliance DivisionHead of Human Capital Strategy DivisionHead of Corporate Banking Division 1Head of Corporate Banking Division 2Head of Corporate Banking Division 3Head of Enterprise Banking DivisionHead of Commercial Banking DivisionHead of Corporate & Enterprise Credit Risk DivisionHead of Commercial & SME Credit Risk DivisionHead of Consumer Product DivisionHead of Channel Management DivisionHead of SME Banking DivisionHead of Small Business & Programs Division
Non-Voting Members	Director/SEVP/Division Head related to the topic of discussion.

- The ESG Sub Committee's duties and responsibilities include:
1. Developing environmental, social and governance (ESG) management policies and strategies and their changes;
 2. Identifying potential ESG risks that have an impact on both BNI and BNI stakeholders;
 3. Monitoring the implementation of the sustainable finance strategy;
 4. Monitoring, evaluating, and providing recommendations on BNI's ESG assessment results;
 5. Evaluating the implementation of the ESG strategy in all BNI business lines.

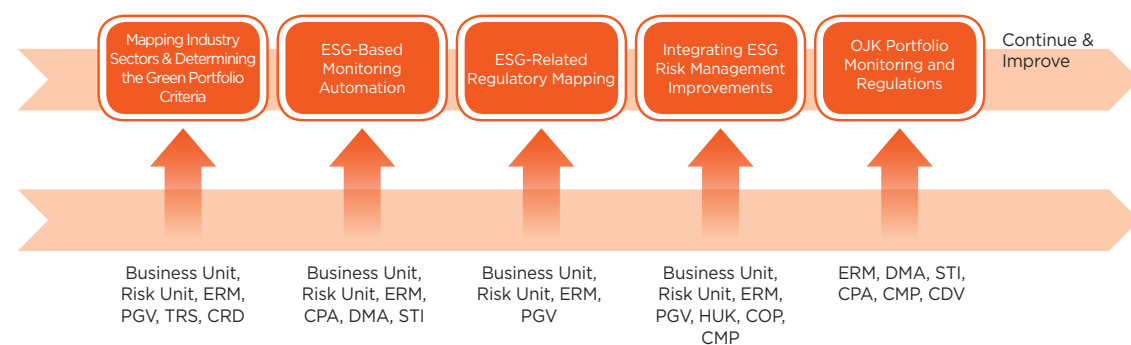

The sustainability aspects management is part of all work units responsibility, under the supervision of the Board of Commissioners and the Board of Directors. To ensure the application of sustainable governance, and to supervise the application of Sustainable Finance, BNI has a special work unit, called the Environment Social Governance (ESG) Management Group established based on Board of Directors Decree No. KP/218/DIR/R dated June 17, 2022. The ESG Management Group is part of the Enterprise Risk Management (ERM) Division.

The ESG Management Group's main duties include:

1. Managing the implementation of ESG strategies and policies
2. Monitoring the integration of ESG management in operational activities
3. Managing BNI ESG communication and publication activities
4. Acting as a liaison with regulators and other external parties.
5. Managing ESG reporting.

BNI's ESG IMPLEMENTATION SUPERVISION AND EVALUATION

BNI's ESG Monitoring and evaluation can be summarized as follows:

Implementation of Sustainable Finance In Subsidiaries

The implementation of sustainable finance in the subsidiary companies has been carried out through the preparation and submission of the Sustainable Finance Action Plan (SFOP) documents to OJK:

1. PT BNI Multifinance;
2. PT BNI Sekuritas;
3. PT BNI Life Insurance; and
4. PT Bank Mayora.

PT BANK NEGARA INDONESIA (PERSERO) TBK

Opini

Kami telah mengaudit laporan keuangan konsolidasian PT Bank Negara Indonesia (Persero) Tbk dan entitas anaknya ("Grup"), yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2022, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas konsolidasian dan laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan konsolidasian, termasuk ikhtisar kebijakan akuntansi signifikan.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2022, serta kinerja keuangan konsolidasian dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf Tanggung jawab auditor terhadap audit atas laporan keuangan konsolidasian pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan konsolidasian di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Hal audit utama

Hal audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Opinion

We have audited the consolidated financial statements of PT Bank Negara Indonesia (Persero) Tbk and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2022, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2022, and its consolidated financial performance and its consolidated cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the Auditors' responsibilities for the audit of the consolidated financial statements paragraph of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Hal audit utama yang teridentifikasi dalam audit kami diuraikan sebagai berikut.

1. Kerugian kredit ekspektasian ("KKE") – cadangan kerugian penurunan nilai atas pinjaman yang diberikan

Seperti yang dijelaskan dalam Catatan 2c.(x) – Cadangan kerugian penurunan nilai atas aset keuangan dan Catatan 12 – Pinjaman yang diberikan, atas laporan keuangan konsolidasian pada tanggal 31 Desember 2022, cadangan kerugian penurunan nilai atas pinjaman yang diberikan Grup adalah sebesar Rp 50.333.988 juta. Cadangan kerugian penurunan nilai atas pinjaman yang diberikan ditentukan oleh Grup berdasarkan kerangka Kerugian Kredit Ekspektasian ("KKE") sesuai dengan PSAK 71, "Instrumen Keuangan" ("PSAK 71").

Kami fokus pada area ini karena nilai tercatat atas pinjaman yang diberikan mewakili 62% dari total aset Grup dan besarnya nilai cadangan kerugian penurunan nilai yang dibentuk atas pinjaman tersebut, yang nilainya signifikan terhadap laporan keuangan konsolidasian Grup. Penentuan KKE membutuhkan pertimbangan manajemen yang subjektif dan melibatkan penggunaan estimasi dengan tingkat ketidakpastian yang tinggi.

Grup menghitung KKE untuk pinjaman yang diberikan yang tidak memburuk dan pinjaman yang diberikan yang memburuk. Untuk pinjaman yang diberikan yang tidak memburuk dan pinjaman yang diberikan yang memburuk, yang secara individual tidak dianggap signifikan, Grup menghitung KKE secara kolektif menggunakan model parameter risiko yang menggunakan beberapa parameter utama, antara lain, *probability of default*, *loss given default*, *exposure at default* dan tingkat diskonto, setelah memperhitungkan faktor masa depan dan informasi eksternal lainnya.

Untuk pinjaman yang memburuk, yang secara individual dianggap signifikan, Grup menghitung KKE secara individual dengan mengestimasi arus kas ekspektasian dari pinjaman yang diberikan.

Pertimbangan-pertimbangan signifikan yang digunakan dalam menentukan KKE meliputi:

- Mengembangkan model penilaian kolektif yang tepat untuk menghitung KKE. Model yang dikembangkan secara inheren kompleks dan melibatkan pertimbangan manajemen dalam menentukan dan mempersiapkan model tersebut;
- Mengidentifikasi pinjaman yang diberikan yang telah mengalami peningkatan risiko kredit secara signifikan; dan

The key audit matters identified in our audit are outlined as follows.

1. Expected credit losses ("ECL") – allowance for impairment losses of loans

As described in Note 2c.(x) – Allowance for impairment losses on financial assets and Note 12 – Loans, to the consolidated financial statements as at 31 December 2022, the allowance for impairment losses of loans of the Group was Rp 50,333,988 million. The allowance for impairment losses of loans is determined by the Group based on the Expected Credit Losses ("ECL") framework under SFAS 71, "Financial Instruments" ("SFAS 71").

We focused on this area as the carrying value of loans represents 62% of the total assets of the Group and the respective allowance for impairment losses provided against the loans is significant to the Group's consolidated financial statements. Determining ECL involves subjective management judgement and is subject to a high degree of estimation uncertainty.

The Group calculated ECL for both non-credit-impaired and credit-impaired loans. For non-credit-impaired loans and for credit-impaired loans which are not considered individually significant, the Group assesses collective ECL using the risk parameter modelling approach that incorporates key parameters, including probability of default, loss given default, exposure at default and discount rate, after considering forward looking factors and other external information.

For credit-impaired loans, which are considered individually significant, the Group assesses individual ECL by estimating the expected cash flows obtained from the loans.

The significant judgements involved in determining the ECL include the following:

- Developing appropriate collective assessment models used to calculate ECL. The models are inherently complex, and management's judgement is applied in determining and preparing the models;
- Identification of loans that have experienced a significant increase in credit risk; and

Kantor Akuntan Publik Tanudiredja, Wibisana, Rintis & Rekan

- Asumsi-asumsi yang digunakan dalam model KKE seperti proyeksi arus kas masa depan yang diharapkan, perkiraan faktor ekonomi makro masa depan, beberapa skenario probabilitas tertimbang dan penyesuaian *overlay* KKE yang dibuat.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami memahami dan menguji pengendalian yang relevan atas identifikasi aset keuangan yang mengalami peningkatan risiko kredit secara signifikan atau bukti objektif penurunan nilai, melalui pengujian atas pengendalian penetapan *rating* internal dan melakukan pemeriksaan secara *sampling* atas dokumen pinjaman. Kami memeriksa sampel aset keuangan yang diidentifikasi oleh Grup memiliki kualitas kredit yang lebih rendah, kredit yang direstrukturisasi, debitur di industri yang terkena dampak COVID-19 dan membuat penilaian independen kami apakah ada peningkatan risiko kredit secara signifikan atau terdapat bukti objektif penurunan nilai.
- Ketika bukti objektif penurunan nilai diidentifikasi oleh Grup dan kerugian penurunan nilai dihitung secara individual, kami menilai kecukupan penyisihan penurunan nilai dengan memeriksa baik jumlah dan waktu dari arus kas masa depan yang digunakan oleh Grup dalam perhitungan kerugian penurunan nilai, menguji rata-rata probabilitas tertimbang yang digunakan dalam menyusun arus kas, termasuk membandingkan jadwal pembayaran kembali dengan perjanjian pinjaman dan memeriksa ketepatan penggunaan faktor diskonto.
- Kami menilai dan menguji metodologi dan asumsi pemodelan signifikan yang digunakan dalam model KKE, termasuk penentuan *probability of default*, *loss given default* dan *exposure at default*, yang diterapkan terhadap persyaratan PSAK 71, yang melibatkan (i) evaluasi model dan metodologi yang digunakan dalam perhitungan; (ii) evaluasi prakiraan makroekonomi Indonesia dengan membandingkan prakiraan dengan informasi yang tersedia untuk umum tentang prospek makroekonomi Indonesia; dan (iii) menguji kelengkapan dan keakuratan data yang digunakan dalam model dengan data aktual yang tersedia di Grup dengan melibatkan spesialis Teknologi Informasi ("TI") kami.

- *Assumptions used in the ECL models such as expected future cash flows, forward-looking macroeconomic factors, probability weighted multiple scenarios and ECL overlay adjustments made.*

How our audit addressed the key audit matter

We have performed the following audit procedures to address this key audit matter:

- *We understood and tested the relevant controls over the identification of financial assets that have experienced a significant increase in credit risk or objective evidence of impairment by performing control testing over the internal rating process and examining the credit files on a sampling basis. We examined sampled financial assets identified by the Group as having lower credit quality, restructured loans, debtors in industries impacted by COVID-19 and formed our own independent judgement as to whether there was a significant increase in credit risk or any objective evidence of impairment.*
- *When objective evidence of impairment was identified by the Group and impairment losses were individually calculated, we assessed the adequacy of impairment allowance by examining both the quantum and timing of future cash flows used by the Group in the impairment loss calculation, testing the probability-weighted outcome used in preparing the cash flows, including comparing the repayment schedule to the credit agreement and checking the appropriateness of discount factor used.*
- *We assessed and tested the methodologies and significant modelling assumptions inherent within the ECL models, which include determination of probability of default, loss given default and exposure at default, which applied against the requirements of SFAS 71, which involved (i) evaluating the models and methodologies used in the calculations; (ii) evaluating the forecasts of Indonesia macroeconomics by comparing forecasts with publicly available information on the Indonesia macroeconomic outlook; and (iii) testing the completeness and accuracy of data used in the model with the actual data available within the Group by involving our Information Technology ("IT") specialists.*

- Kami memeriksa keakuratan data dan perhitungan KKE, dengan melakukan perhitungan ulang atas keseluruhan portofolio yang penurunan nilainya dinilai secara kolektif. Secara sampel, kami melakukan perhitungan ulang atas penurunan nilai yang dinilai secara individual.

2. Penilaian atas utang ke pemegang polis

Seperti yang dijelaskan dalam Catatan 2y – Kontrak asuransi dan Catatan 28 – Liabilitas lain-lain atas laporan keuangan konsolidasian, pada tanggal 31 Desember 2022, utang ke pemegang polis adalah sebesar Rp 15.967.679 juta.

Berdasarkan penilaian dari Grup atas penyisihan penyelesaian klaim masa depan, kewajiban kontraktual asuransi jiwa melibatkan penilaian yang kompleks dan subjektif terhadap kejadian yang akan datang, dimana adanya perubahan asumsi dapat memberikan dampak yang material terhadap penilaian atas kewajiban tersebut. Terdapat juga faktor ketidakpastian dari pandemi COVID-19 dan dampaknya terhadap berbagai asumsi aktuarial.

Asumsi-asumsi yang digunakan dalam perhitungan cadangan kewajiban masa depan ke pemegang polis dan liabilitas klaim ditentukan berdasarkan asumsi-asumsi aktuarial yang ditetapkan oleh Grup termasuk tingkat diskonto, mortalitas, morbiditas, *lapse*, biaya dan inflasi. Asumsi-asumsi ini ditentukan berdasarkan pengalaman aktual dan studi pengalaman Grup. Untuk produk baru, asumsi yang digunakan adalah berdasarkan asumsi-asumsi yang dikembangkan selama *product pricing*.

Bagaimana audit kami merespons hal audit utama

Kami memahami dan telah mengevaluasi penilaian atas utang kepada pemegang polis, dimana kami telah melibatkan pakar aktuarial kami dan melakukan pengujian substantif. Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami memeriksa dan menguji metodologi dan asumsi atas utang ke pemegang polis termasuk konsistensi penerapan asumsi dalam perhitungan, seperti: tingkat diskonto, asumsi morbiditas dan mortalitas, inflasi, tingkat *lapse* dan alokasi biaya.
- Secara sampel, kami melakukan perhitungan matematis ulang secara independen atas *Gross Premium Reserve* ("GPV") dan aset reasuransi untuk portofolio tradisional jangka panjang dan Cadangan Risiko untuk portofolio *non-unit link* pada tanggal 31 Desember 2022 sesuai dengan PSAK 62, "Kontrak Asuransi" ("PSAK 62").

- *We checked the accuracy of data and calculation of the ECL, by recalculating the whole portfolio for the collective impairment assessment for the portfolio. On a sample basis, we recalculated the individual impairment assessment.*

2. Valuation of obligation to policyholders

As described in Note 2y – Insurance Contract and Note 28 – Other liabilities to the consolidated financial statements, as at 31 December 2022, the obligation to policyholders was Rp 15,967,679 million.

Based on the Group's assessment of provision for future claim settlements, life insurance contractual obligations involve a complex and subjective assessment of future events, which a change in assumptions could have a material impact on the assessment of these obligations. There is also uncertainty arising from COVID-19 and its impact on various actuarial assumptions.

The assumptions used to calculate the policyholder's future liability reserves and the claim liabilities are determined using actuarial assumptions set by the Group, including the discount rate, mortality, morbidity, lapse, expense and inflation rates. These are determined based on the Group's actual experience and its experience study. For new products, the assumptions used are based on those developed during product pricing.

How our audit addressed the key audit matter

We understood and evaluated the valuation of obligations to policyholders, in which we involved our actuarial expert and performed substantive testing. We have performed the following audit procedures to address this key audit matter:

- *We examined and tested the methodology and assumptions used in determining the obligation to policyholders, including the consistency of application in calculations, such as: discount rates, assumption of morbidity and mortality, inflation, lapse rate and cost allocation.*
- *On a sample basis, we performed independent mathematical recalculation of the Gross Premium Reserve ("GPV") and reinsurance assets for traditional long-term portfolios and Risk Reserves for non-unit-linked portfolios as at 31 December 2022 based on SFAS 62, "Insurance Contract" ("SFAS 62").*

- Kami melakukan perhitungan matematis ulang secara independen, berdasarkan sampel, atas nilai cadangan kotor dan bersih terhadap klaim yang telah terjadi namun belum dilaporkan (IBNR) dan metodologi yang digunakan pada tanggal 31 Desember 2022 sesuai dengan PSAK 62.
- Kami melakukan perhitungan matematis ulang secara independen atas Pengujian Kecukupan Liabilitas (*Liability Adequacy Testing*) untuk portofolio tradisional sesuai dengan PSAK dan melakukan pemeriksaan terhadap kecukupan cadangan teknis pada tanggal 31 Desember 2022.
- Kami melakukan pemeriksaan atas kelengkapan dan akurasi data yang digunakan untuk menghitung cadangan teknis dengan melakukan rekonsiliasi antara laporan aktuaria dengan angka dalam dokumen pendukung pada tanggal 31 Desember 2022.

3. Sistem dan pengendalian Teknologi Informasi ("TI") yang berdampak pada pelaporan keuangan

Grup sangat bergantung pada infrastruktur, sistem, dan pengendalian TI untuk mendukung kegiatan operasional sehari-hari dan proses pelaporan keuangan. Lingkungan TI Grup dianggap kompleks dengan mempertimbangkan jumlah dan kompleksitas dari sistem utama pelaporan keuangan dan integrasi antar sistem. Oleh karena itu, kami menganggap pengoperasian pengendalian teknologi informasi Grup sebagai hal audit utama.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami melibatkan spesialis TI untuk mengevaluasi risiko yang terkait dengan lingkungan TI Grup.
- Kami menguji pengendalian TI Grup atas sistem informasi yang relevan dengan audit kami.
- Kami mendapatkan pemahaman tentang sistem TI dan pengendalian yang mendukung proses pelaporan keuangan. Kemudian kami menilai efektivitas rancangan, implementasi dan pengoperasian dari pengendalian utama yang dirancang untuk mempertahankan integritas dari sistem utama pelaporan keuangan. Penilaian ini mencakup evaluasi atas hal berikut:

- *We performed independent mathematical recalculation, on a sample basis, on the gross and net adequacy of Incurred but Not Reported ("IBNR") reserves and the IBNR methodology used as at 31 December 2022 based on SFAS 62.*
- *We performed independent mathematical recalculation of Liability Adequacy Testing ("LAT") for traditional portfolios based on SFAS and examined the adequacy of technical reserves as at 31 December 2022.*
- *We checked the completeness and accuracy of the data used to calculate the technical reserve balance by reconciling the actuarial reports to the amounts in the supporting documents as at 31 December 2022.*

3. Information Technology ("IT") systems and controls that impact financial reporting

The Group is heavily reliant on its IT infrastructure, systems and controls for its daily operations and financial reporting processes. The IT environment of the Group is considered to be complex due to the number and complexity of the key financial reporting systems and their system integration. Therefore, we consider the operation of the Group's information technology controls to be a key audit matter.

How our audit addressed the key audit matter

We have performed the following audit procedures to address this key audit matter:

- *We involved IT specialists in evaluating the risks associated with the Group's IT environment.*
- *We tested the Group's IT controls over information systems that were relevant to our audit.*
- *We obtained an understanding of the IT systems and controls that support the financial reporting process. Then we assessed the effectiveness of the design, implementation and operation of the associated key controls designed to maintain the integrity of the key financial reporting systems. This assessment includes the evaluation as follows:*

- i. Pengendalian atas manajemen perubahan: Proses dan pengendalian untuk mengembangkan, menguji dan mengesahkan perubahan pada fungsi dan konfigurasi di dalam sistem;
 - ii. Pengendalian atas keamanan hak akses: Pengendalian hak akses dirancang untuk melaksanakan pemisahan tugas, mengatur penggunaan akun umum dan istimewa, atau memastikan bahwa perubahan data hanya dilakukan melalui proses yang sah; dan
 - iii. Pengendalian atas operasional TI: Pengendalian atas operasi digunakan untuk memastikan bahwa setiap masalah yang muncul dikelola dengan tepat.
- Kami menguji pengendalian utama yang bergantung pada TI yang mendukung proses pelaporan keuangan, seperti penghitungan otomatis sistem, pemrosesan transaksi, pembuatan laporan dan transmisi data. Pengujian kami mencakup pemeriksaan konfigurasi sistem yang relevan dan pengujian keluaran sistem secara sampel.

Informasi lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan, tetapi tidak termasuk laporan keuangan konsolidasian dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami setelah tanggal laporan auditor ini.

Opini kami atas laporan keuangan konsolidasian tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Sehubungan dengan audit kami atas laporan keuangan konsolidasian, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas, jika tersedia dan, dalam melaksanakannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

- i. *Change management controls: The processes and controls to develop, test and authorise changes to the functionality and configurations within systems;*
 - ii. *Access security controls: The access controls designed to enforce segregation of duties, govern the use of generic and privileged accounts or check that data is only changed through authorised means; and*
 - iii. *IT operation related controls: The controls over operations used to check that any issues that arise are managed appropriately.*
- *We tested the key IT dependent controls supporting the financial reporting process, such as the automated system calculations, transaction processing, generation of reports and data transmission. Our testing included the inspection of relevant system configurations and testing system outputs on a sample basis.*

Other information

Management is responsible for the other information. The other information comprises the information included in the annual report, but does not include the consolidated financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Tanggung jawab manajemen dan pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan konsolidasian

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha, dan menggunakan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intensi untuk melikuidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas tata kelola bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

Tanggung jawab auditor terhadap audit atas laporan keuangan konsolidasian

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga:

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghilangan secara sengaja, pernyataan salah, atau pengabaian pengendalian internal.
- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifitasan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*
- *Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.*
- *Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.*
- *Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.*

• Mengevaluasi penyajian, struktur, dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang menjadi penyajian wajar.

• Memperoleh bukti audit yang cukup dan tepat untuk informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas standar, supervisi dan pelaksanaan audit grup. Kami juga bertanggung jawab atasnya atas opini audit kami.

Kami mengkomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, hasil-hasil dari audit yang dilaksanakan atas audit serta temuan audit signifikan, termasuk adanya defisiensi signifikan dalam pengendalian internal yang teridentifikasi oleh kami selama audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengkomunikasikan seluruh hubungan serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengemban terkait.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode ini dan yang karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami kecuali peraturan perundang-undangan, mengenai pengungkapan publik tentang hal tersebut atau bahwa dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena ketidakmampuan kami dan mengkomunikasikan hal tersebut akan dapat mengakibatkan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

JAKARTA
20 Januari/January 2023

Drs. M. Yusuf Wibisono, M.Fil., CPA
Ttd. Revisi: Public/Member of Public Accountant No. AP 0222

• Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

• Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditors' report unless law or regulation precludes public disclosure about the matter or where, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. INFORMASI UMUM

a. Pendirian Bank

PT Bank Negara Indonesia (Persero) Tbk ("BNI" atau "Bank") pada awalnya didirikan di Indonesia sebagai bank sentral dengan nama "Bank Negara Indonesia" berdasarkan Peraturan Pemerintah Pengganti Undang-Undang No. 2 tahun 1946 tanggal 5 Juli 1946. Selanjutnya, berdasarkan Undang-Undang No. 17 tahun 1968, BNI ditetapkan menjadi "Bank Negara Indonesia 1946", dan statusnya menjadi Bank Umum Milik Negara.

Berdasarkan Peraturan Pemerintah No. 19 tahun 1992, tanggal 29 April 1992, telah dilakukan penyesuaian bentuk hukum BNI menjadi perusahaan perseroan terbatas (Persero). Penyesuaian bentuk hukum menjadi Persero, dinyatakan dalam Akta No. 131, tanggal 31 Juli 1992, dibuat di hadapan Muhani Salim, S.H., yang telah diumumkan dalam Berita Negara Republik Indonesia No. 73 tanggal 11 September 1992 Tambahan No. 1A.

Untuk memenuhi ketentuan Undang-Undang No. 40 Tahun 2007 tanggal 16 Agustus 2007 tentang Perseroan Terbatas, Anggaran Dasar BNI telah dilakukan penyesuaian. Penyesuaian tersebut dinyatakan dalam Akta No. 46 tanggal 13 Juni 2008 yang dibuat di hadapan Fathiah Helmi, S.H., notaris di Jakarta, berdasarkan keputusan Rapat Umum Pemegang Saham Luar Biasa tanggal 28 Mei 2008 dan telah mendapat persetujuan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia, dengan Surat Keputusan No. AHU-AH.01.02-50609 tanggal 12 Agustus 2008 dan telah diumumkan dalam Berita Negara Republik Indonesia No. 103 tanggal 23 Desember 2008 Tambahan No. 29015.

Perubahan terakhir Anggaran Dasar BNI dilakukan antara lain tentang penyusunan kembali seluruh Anggaran Dasar sesuai dengan Akta No. 23 tanggal 20 April 2021 Notaris Fathiah Helmi, S.H. telah mendapat persetujuan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia, dengan surat keputusan No. AHU-0076627.AH.01.11 Tahun 2021 tanggal 26 April 2021.

Berdasarkan Pasal 3 Anggaran Dasar BNI, ruang lingkup kegiatan BNI adalah melakukan usaha di bidang perbankan umum.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL INFORMATION

a. Establishment of the Bank

PT Bank Negara Indonesia (Persero) Tbk ("BNI" or "Bank") was originally established in Indonesia as the central bank under the name "Bank Negara Indonesia" based on Government Regulation in Lieu of Law No. 2 of 1946 dated 5 July 1946. Subsequently, by virtue of Law No. 17 of 1968, BNI became "Bank Negara Indonesia 1946", and changed its status to a state-owned commercial bank.

Based on Government Regulation No. 19 of 1992, dated 29 April 1992, BNI changed its legal status to a limited liability corporation (Persero). The change in legal status to become a limited liability corporation was covered by Notarial Deed No. 131, dated 31 July 1992 of Muhani Salim, S.H., and was published in Supplement No. 1A of the State Gazette No. 73 dated 11 September 1992.

In compliance with the Indonesian Limited Liability Company Law No. 40 Year 2007 dated 16 August 2007, BNI's Articles of Association has been amended. The amendment was covered by Notarial Deed No. 46 dated 13 June 2008 of Fathiah Helmi, S.H., a notary in Jakarta, as approved in the Extraordinary General Shareholders' Meeting on 28 May 2008 and approved by the Minister of Laws and Human Rights of the Republic of Indonesia, in its Decision Letter No. AHU-AH.01.02-50609 dated 12 August 2008 and published in Supplement No. 29015 of the State Gazette No. 103 dated 23 December 2008.

The latest amendment of BNI's Articles of Association was made regarding, among other matters, realignment of the entire Articles of Association based on Notarial Deed No. 23 dated 20 April 2021 of Fathiah Helmi, S.H. and has been approved by the Minister of Laws and Human Rights of the Republic of Indonesia, in its decision letter No. AHU-0076627.AH.01.11 Tahun 2021 dated 26 April 2021.

According to Article 3 of BNI's Articles of Association, BNI's scope of activity is to engage in general banking services.

1. INFORMASI UMUM (lanjutan)

b. Penawaran Umum Perdana Saham

Pada tanggal 28 Oktober 1996, BNI melakukan penawaran umum perdana atas 1.085.032.000 saham Seri B dengan nilai nominal sebesar Rp500 (nilai penuh) setiap saham dan harga penawaran setiap saham sebesar Rp850 (nilai penuh) kepada masyarakat di Indonesia. Saham yang ditawarkan tersebut mulai diperdagangkan di Bursa Efek Jakarta dan Surabaya (sekarang Bursa Efek Indonesia atau BEI) pada tanggal 25 November 1996.

c. Penawaran Umum Saham Terbatas I

Pada tanggal 30 Juni 1999, BNI melakukan Penawaran Umum Terbatas I dalam rangka penerbitan Hak Memesan Efek Terlebih Dahulu (HMETD) sebanyak 151.904.480.000 saham Seri C dengan nilai nominal sebesar Rp25 (nilai penuh) setiap saham. Setiap pemegang 1 saham lama berhak membeli 35 saham baru dengan harga Rp347,58 (nilai penuh) setiap saham. Dari penawaran umum ini, BNI meningkatkan modal sahamnya sebanyak 683.916.500 lembar saham Seri C yang diterbitkan kepada masyarakat umum pada tanggal 21 Juli 1999 dan terdaftar di Bursa Efek Jakarta dan Surabaya (sekarang BEI). BNI juga menerbitkan 151.220.563.500 lembar saham Seri C kepada Pemerintah Indonesia pada tanggal 7 April 2000 dan 30 Juni 2000 melalui program rekapitalisasi berdasarkan Peraturan Pemerintah No. 52 tahun 1999.

d. Rekapitalisasi

Pada tanggal 30 Maret 2000, Menteri Keuangan menyetujui rekapitalisasi BNI sebesar Rp61,8 triliun, yang meningkat sebesar Rp9 triliun dibandingkan dengan jumlah yang ditetapkan dalam Peraturan Pemerintah No. 52 tahun 1999. Sehubungan dengan peningkatan rekapitalisasi tersebut, yang telah disetujui melalui Peraturan Pemerintah No. 32 tahun 2000, BNI menerbitkan tambahan saham Seri C sebanyak 44.946.404.500 saham tanpa Hak Memesan Efek Terlebih Dahulu.

1. GENERAL INFORMATION (continued)

b. Initial Public Offering (IPO)

On 28 October 1996, BNI undertook an initial public offering of 1,085,032,000 Class B shares with a par value per share of Rp500 (full amount) and offering price per share of Rp850 (full amount) to the public in Indonesia. The shares began trading on the Jakarta and Surabaya Stock Exchanges (currently Indonesia Stock Exchange or IDX) on 25 November 1996.

c. Limited Public Offering I

On 30 June 1999, BNI undertook a Limited Public Offering I ("LPO I") through the issuance of pre-emptive rights of 151,904,480,000 Class C shares with a par value per share of Rp25 (full amount). Each holder of 1 share was entitled to buy 35 new shares for Rp347.58 (full amount) per share. As a result of LPO I, BNI increased its capital by 683,916,500 Class C shares issued to the public on 21 July 1999 and the LPO I listed in the Jakarta and Surabaya Stock Exchanges (currently IDX). On 7 April 2000 and 30 June 2000, BNI also issued 151,220,563,500 Class C shares to the Government of Indonesia through the recapitalization program under the Government Regulation No. 52 year 1999.

d. Recapitalization

On 30 March 2000, the Ministry of Finance approved BNI's recapitalization amounting to Rp61.8 trillion, which was Rp9 trillion higher than the amount stated in the Government Regulation No. 52 year 1999. In connection with the increase in the recapitalization amount, which was approved in the Government Regulation No. 32 year 2000, BNI issued additional 44,946,404,500 Class C shares without pre-emptive rights.

KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

1. INFORMASI UMUM (lanjutan)

d. Rekapitalisasi (lanjutan)

Pada tanggal 20 Juli 2001, modal saham BNI berkurang sebanyak 1.965.701.500 saham Seri C sehubungan dengan pengembalian kelebihan dana rekapitalisasi kepada Pemerintah Indonesia. Pengembalian tersebut telah disetujui oleh pemegang saham dalam Rapat Umum Pemegang Saham Luar Biasa pada tanggal 25 Juni 2001.

e. Kuasi-reorganisasi

Untuk menghilangkan konsekuensi negatif karena dibebani dengan saldo rugi, BNI melakukan kuasi-reorganisasi sesuai keputusan Rapat Umum Pemegang Saham Luar Biasa ("RUPS-LB") tanggal 15 Desember 2003.

Penyesuaian kuasi-reorganisasi yang telah dibukukan pada tanggal 30 Juni 2003 adalah sebagai berikut:

Akumulasi kerugian	(58,905,232)
Cadangan umum dan wajib	432,952
Cadangan khusus	382,541
Selisih penilaian kembali aktiva tetap	1,190,598
Laba yang belum direalisasi atas efek-efek dalam kelompok tersedia untuk dijual	58,660
Kenaikan penilaian kembali nilai wajar aktiva bersih	2,472,634
Tambahan modal disetor	54,367,847
	-

Anggaran Dasar BNI telah mengalami perubahan sehubungan dengan perubahan tambahan modal disetor karena adanya kuasi-reorganisasi sesuai dengan Akta Notaris Agung Prihatin, S.H., No. 42 tanggal 30 Desember 2003 dan telah disahkan oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia berdasarkan Surat Keputusan No. C-29647.HT.01.07.TH.2003 tanggal 19 Desember 2003 dan diumumkan pada Berita Negara Republik Indonesia No. 1152 tanggal 30 Januari 2004, Tambahan No. 9.

f. Penawaran Umum Saham Terbatas II

Pada tanggal 30 Juli 2007, pada Rapat Umum Pemegang Saham Luar Biasa (RUPSLB), Pemegang Saham telah memutuskan untuk melakukan Penawaran Umum Terbatas II kepada para pemegang saham dalam rangka penerbitan sampai dengan sejumlah 1.992.253.110 saham Seri C baru dengan nilai nominal Rp375 (nilai penuh) setiap lembar saham.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL INFORMATION (continued)

d. Recapitalization (continued)

On 20 July 2001, BNI's capital was reduced by 1,965,701,500 Class C shares in connection with the refund of excess recapitalization funds to the Government of Indonesia. The refund was approved by the shareholders at the Extraordinary General Shareholders' Meeting held on 25 June 2001.

e. Quasi-reorganization

In order for BNI to eliminate the negative consequences of being burdened by accumulated losses, BNI undertook quasi-reorganization as approved in the Extraordinary General Shareholders' Meeting ("RUPS-LB") on 15 December 2003.

The quasi-reorganization adjustments which were booked on 30 June 2003 were as follows:

Accumulated losses
General and legal reserve
Specific reserve
Fixed assets revaluation reserve
Unrealize gain on available for sale securities
Revaluation uplift in the fair value of net assets
Additional paid in capital

BNI's Articles of Association were amended to reflect the changes in additional paid-in capital as a result of quasi-reorganization, based on Notarial Deed of Agung Prihatin, S.H., No. 42 dated 30 December 2003 which was approved by the Ministry of Law and Human Rights of the Republic of Indonesia in its decision letter No. C-29647.HT.01.07.TH.2003 dated 19 December 2003 and was published in the State Gazette No. 1152, Supplement No. 9 dated 30 January 2004.

f. Limited Public Offering II

On 30 July 2007, the Extraordinary General Shareholders' Meeting approved the issuance of up to 1,992,253,110 new Class C shares through Limited Public Offering II to shareholders with a par value per share of Rp375 (full amount).

1. INFORMASI UMUM (lanjutan)

f. Penawaran Umum Saham Terbatas II (lanjutan)

Setiap pemegang 20 saham lama yang namanya tercatat dalam Daftar Pemegang Saham BNI pada tanggal 9 Agustus 2007 pukul 16.00 WIB mempunyai 3 HMETD, dimana setiap 1 HMETD memberikan hak kepada pemegangnya untuk membeli sebanyak 1 saham baru dengan harga pelaksanaan Rp2.025 (nilai penuh) setiap saham. Dari Penawaran Umum Terbatas II, BNI mendapatkan tambahan modal disetor sebesar Rp747.094 dan tambahan agio saham sebesar Rp3.287.218 dan biaya emisi penerbitan saham sebesar Rp195.280.

Perdagangan perdana dilaksanakan pada tanggal 13 Agustus 2007 di Bursa Efek Jakarta dan Bursa Efek Surabaya (sekarang BEI).

g. Penawaran Umum Saham Terbatas III

Pada tanggal 25 November 2010, dalam Rapat Umum Pemegang Saham Luar Biasa (RUPSLB), Pemegang Saham telah memutuskan antara lain untuk menyetujui peningkatan modal ditempatkan dan disetor BNI melalui Penawaran Umum Terbatas III (PUT III) dengan penerbitan HMETD sebesar 3.374.715.948 saham Seri C baru dengan nilai nominal Rp375 (nilai penuh) setiap lembar saham. HMETD tersebut dapat diperdagangkan di dalam dan di luar Bursa Efek Indonesia (BEI) mulai tanggal 10 Desember 2010 sampai dengan 16 Desember 2010, dengan memperhatikan ketentuan yang berlaku di bidang pasar modal. Dari PUT III tersebut, BNI mendapatkan tambahan modal disetor sebesar Rp1.265.519 dan tambahan agio saham, bersih setelah dikurangkan dengan biaya emisi penerbitan saham, sebesar Rp8.950.869.

h. Organisasi dan Struktur Manajemen

Susunan Dewan Komisaris dan Direksi BNI pada tanggal 31 Desember 2022 dan 31 Desember 2021 yang ditetapkan berdasarkan RUPS Luar Biasa BNI tanggal 31 Agustus 2022 yang dinyatakan dengan Akta Notaris No. 16 tanggal 31 Agustus 2022 dan berdasarkan RUPS Luar Biasa BNI tanggal tanggal 29 Maret 2021 yang dinyatakan dengan Akta Notaris No. 14 tanggal 29 Maret 2021 adalah sebagai berikut:

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL INFORMATION (continued)

f. Limited Public Offering II (continued)

Each owner of 20 old shares whose name was registered in the List of Shareholders of BNI as of 9 August 2007 at 16.00 WIB was entitled to 3 pre-emptive rights where each right entitles the owner to buy a new share at the price of Rp2,025 (full amount) per share. From the Limited Public Offering II, BNI raised Rp747,094 additional share capital and Rp3,287,218 additional paid-in capital and Rp195,280 shares issuance cost.

The initial trading took place on 13 August 2007 at the Jakarta Stock Exchange and Surabaya Stock Exchange (currently IDX).

g. Limited Public Offering III

On 25 November 2010, at the Extraordinary General Shareholders' Meeting, the shareholders decided, among other matters, to increase the issued and paid-up capital through limited public offering with pre-emptive right (LPO III) to shareholders for the issuance of 3,374,715,948 new Class C shares with a par value per share of Rp375 (full amount). Such pre-emptive rights can be traded inside and outside the Indonesia Stock Exchange (IDX) starting 10 December 2010 until 16 December 2010, with consideration to the existing capital market regulation. From the LPO III, BNI obtained Rp1,265,519 additional share capital and Rp8,950,869 additional paid-in capital, net of shares issuance cost.

h. Organizational and Management Structure

The composition of the Boards of Commissioners and Directors of BNI as of 31 December 2022 and 31 December 2021 based on BNI's Extraordinary Shareholders' General Meeting held on 31 August 2022 as stated under the Notarial Deed No. 16 dated 31 August 2022 and BNI's Extraordinary Shareholders' General Meeting held on 29 March 2021 as stated under the Notarial Deed No. 14 dated 29 March 2021 are as follows:

1. INFORMASI UMUM (lanjutan)

i. Entitas Anak (lanjutan)

PT Bank BNI Syariah (“BNI Syariah”)

BNI Syariah didirikan dengan Akta Pendirian Nomor 160 tanggal 22 Maret 2010 yang dibuat di hadapan Aulia Taufani, S.H., sebagai Pengganti Sutjipto, S.H., notaris di Jakarta. Akta Pendirian tersebut telah memperoleh pengesahan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia melalui Surat No. AHU-15574.AH.01.01.Tahun 2010 tanggal 25 Maret 2010.

BNI Syariah adalah bank umum syariah yang merupakan hasil pemekaran usaha (*spin-off*) Unit Usaha Syariah BNI (“UUS BNI”). Proses pendiriannya telah disetujui oleh Rapat Umum Pemegang Saham Luar Biasa BNI tanggal 5 Oktober 2009 sesuai Akta No. 37 Notaris Fathiah Helmi, S.H. Pemekaran usaha dilakukan dengan mengacu kepada PBI No. 11/10/PBI/2009 tentang Unit Usaha Syariah dengan cara mendirikan bank umum syariah baru.

Pemberitahuan atas rancangan *spin-off* kepada karyawan, nasabah dan pihak ketiga telah diumumkan di surat kabar nasional pada tanggal 12 Agustus 2009 sedangkan pemberitahuan atas rencana pengalihan hak dan liabilitas UUS BNI telah diumumkan di surat kabar nasional pada tanggal 15 Februari 2010. Pendirian tersebut dilakukan dengan izin Bank Indonesia melalui dua tahap yaitu persetujuan izin prinsip usaha dan izin usaha. Pada tanggal 8 Februari 2010 BNI Syariah telah mendapatkan izin prinsip dari Bank Indonesia untuk melaksanakan pemisahan UUS Bank BNI berdasarkan surat No. 12/2/DpG/Dpbs. Pemisahan UUS BNI dilakukan dengan Akta Pemisahan Nomor 159 tanggal 22 Maret 2010 yang dibuat di hadapan Aulia Taufani, S.H. sebagai pengganti Sutjipto, S.H., notaris di Jakarta.

Pada tanggal 21 Mei 2010, BNI Syariah memperoleh izin usaha dari Bank Indonesia, berdasarkan Keputusan Gubernur Bank Indonesia No. 12/41/KEP.GBI/2010. Selanjutnya pemisahan terjadi secara efektif pada tanggal 19 Juni 2010, yakni saat pertama kalinya BNI Syariah melakukan kegiatan usaha, sebagaimana yang dilaporkan kepada Bank Indonesia dengan surat No. Dir/1/03 tanggal 19 Juni 2010 perihal Laporan Pelaksanaan Pembukaan Bank Umum Syariah Hasil Pemisahan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

1. GENERAL INFORMATION (continued)

i. Subsidiaries (continued)

PT Bank BNI Syariah (“BNI Syariah”)

BNI Syariah was established based on Establishment Deed No. 160 dated 22 March 2010 which was notarized by Aulia Taufani, S.H., as the substitute of Sutjipto, S.H., notary in Jakarta. The Establishment Deed was approved by the Ministry of Laws and Human Rights of the Republic of Indonesia through Letter No. AHU-15574.AH.01.01.Year 2010 dated 25 March 2010.

BNI Syariah is a general sharia bank as a result of the spin-off of the Sharia Business Unit of BNI (“UUS BNI”). The establishment process was approved at the Shareholders’ Extraordinary General Meeting of BNI held on 5 October 2009 in accordance with the Notarial Deed No. 37 of Notary Fathiah Helmi, S.H. The spin-off was conducted in accordance with PBI No. 11/10/PBI/2009 regarding Sharia Business Unit by establishing a new general sharia bank.

The announcement to the employees, customers and third parties regarding the planned spin-off was made through a national newspaper on 12 August 2009 while the announcement regarding the transfer of the rights and obligations of UUS BNI was made through a national newspaper on 15 February 2010. The establishment was approved by Bank Indonesia in two stages, which are the approval of the business license in principle and the business license. On 8 February 2010, BNI Syariah received its license in principle from Bank Indonesia to conduct the separation of UUS BNI based on Bank Indonesia letter No. 12/2/DpG/Dpbs. The separation of UUS BNI was made under Separation Deed No. 159 dated 22 March 2010 which was notarized by Aulia Taufani, S.H., as the substitute of Sutjipto, S.H., notary in Jakarta.

On 21 May 2010, BNI Syariah received its business license from Bank Indonesia, based on the Decision Letter No. 12/41/KEP.GBI/2010 of the Governor of Bank Indonesia. The separation became effective on 19 June 2010, in which BNI Syariah started its operational activity, as reported to Bank Indonesia under letter No. Dir/1/03 dated 19 June 2010 regarding the Report on the Implementation of the Opening of General Sharia Bank Resulting from the Spin-Off.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

1. INFORMASI UMUM (lanjutan)

i. Entitas Anak (lanjutan)

**PT Bank BNI Syariah (“BNI Syariah”)
(lanjutan)**

BNI Syariah menjalankan operasional sebagai bank devisa sejak tanggal 9 Juli 2010 berdasarkan Salinan Surat Keputusan Deputi Gubernur Bank Indonesia No. 12/5/KEP.DpG/2010 tertanggal 9 Juli 2010.

Sehubungan dengan telah beroperasinya BNI Syariah, maka Bank Indonesia pada tanggal 27 Agustus 2010 mencabut izin usaha UUS Bank BNI melalui keputusan Deputi Gubernur Bank Indonesia No. 12/7/KEP.DpG/2010.

Berdasarkan Keputusan Para Pemegang Saham Sebagai Pengganti Rapat Umum Pemegang Saham Luar Biasa BNI Syariah pada tanggal 24 Maret 2020, sesuai dengan Akta Notarial No. 4 dengan dari Notaris & PPAT Gamal Wahidin S.H tanggal 26 Maret dan 29 Juni 2020, di Jakarta, yang telah memperoleh pengesahan Menteri Hukum dan Hak Asasi Manusia Republik Indonesia No. AHU-0059630.AH.01.11 dan AHU-0102042.AH.01.11 tahun 2020. PT Bank Negara Indonesia (Persero) Tbk menambah modal ditempatkan dan disetor penuh sebesar Rp419.835.000.000 (nilai penuh), berupa barang tidak bergerak (*inbreng*).

Kantor pusat BNI Syariah berlokasi di Gedung Tempo Pavillion 1, Jl. HR Rasuna Said Kav. 11, Kuningan, Jakarta 12950 - Indonesia. Pada tanggal 31 Desember 2020, BNI Syariah memiliki 68 kantor cabang, 241 kantor cabang pembantu dan 93 outlet lainnya (tidak diaudit) dan memiliki karyawan sebanyak 5.738 karyawan (tidak diaudit).

Sejak tanggal 1 Februari 2021, BNI Syariah telah resmi bergabung ke Bank Syariah Indonesia sesuai persetujuan Otoritas Jasa Keuangan (OJK) Pasar Modal melalui surat No. S-289/D.04/2020 tertanggal 11 Desember 2020 serta melalui surat OJK Perbankan No. 4/KDK.03/2021 tanggal 27 Januari 2021.

Dengan bergabungnya BNI Syariah ke Bank Syariah Indonesia, maka pengendalian BNI terhadap BNI Syariah telah berakhir dan tidak dilakukan konsolidasi atas laporan keuangan Bank Syariah Indonesia pada laporan keuangan konsolidasian BNI dan Entitas Anak.

PT Bank Mayora (continued)

In accordance with the Decree of Bank Indonesia No.15/5/KEP.DpG/2013 dated 7 May 2013, the Bank was authorized to operate as a Foreign Exchange Bank.

Bank incorporated in the BNI Bank Business Group (KUB) as an affirmation of the plan to establish a BNI KUB by the Financial Services Authority (OJK) confirmed by OJK Letter No. S-83/PB.31/2022 dated 23 May 2022 and became a Financial Services Institution member of the BNI Financial Conglomerate as recorded in the OJK supervision administration confirmed by OJK Letter No. S-88/PB.31/2022 dated 9 June 2022.

PT BNI Modal Ventura ("BNI Ventures")

BNI Ventures was established in 2022 based on Deed No. 17 dated 12 April 2022 from Ariani L. Rachim, a notary in Jakarta. This deed of establishment has been approved by the Minister of Law and Human Rights of the Republic of Indonesia as stated in Letter No. AHU-0027437.AH.01.01.TAHUN 2022 dated 19 April 2022 and announced in the State Gazette of the Republic of Indonesia No.032 Supplement to the State Gazette of the Republic of Indonesia No.014450 dated 22 April 2022.

Based on article 3 of the Articles of Association of BNI Ventures, the scope of its business activities includes conventional venture capital ventures, with business activities including equity participation, equity participation through the purchase of bonds (quasi equity participation), financing through the purchase of issued debt securities by business partners at the initial startup stage and/or business development, and/or productive business financing. In carrying out its business activities, the BNI Ventures can manage venture funds. In addition to venture capital businesses, BNI Ventures can also carry out other business activities, namely fee-based service activities and/or other business activities with the approval of the Financial Services Authority (OJK).

BNI Ventures head office is located in Jakarta, at Menara BNI Lt. 2, Jl. Pejompongan Raya No.7, Tanah Abang, Central Jakarta.

PT BANK NEGARA INDONESIA (PERSERO) Tbk DAN ENTITAS ANAK/AND SUBSIDIARIES

CATATAN ATAS LAPORAN KEUANGAN KONSOLIDASIAN 31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG PENTING

Laporan keuangan konsolidasian BNI dan Entitas Anak ("Grup") ini diselesaikan dan diotorisasi untuk terbit oleh Direksi pada tanggal 20 Januari 2023.

Kebijakan akuntansi utama yang diterapkan dalam penyusunan laporan keuangan konsolidasian BNI dan Entitas Anak ("Grup") adalah seperti dijabarkan dibawah ini:

a. Dasar penyusunan laporan keuangan konsolidasian

Berikut ini adalah ikhtisar kebijakan akuntansi penting yang diterapkan dalam penyusunan laporan keuangan konsolidasian Grup yang disusun berdasarkan Standar Akuntansi Keuangan di Indonesia yang mencakup Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK") yang diterbitkan oleh Ikatan Akuntan Indonesia dan Peraturan Badan Pengawas Pasar Modal dan Lembaga Keuangan ("BAPEPAM-LK") No. VIII.G.7 tentang Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik, yang terlampir dalam surat keputusan No. KEP-347/BL/2012. Peraturan tersebut sekarang merupakan regulasi dari Otoritas Jasa Keuangan ("OJK").

Laporan keuangan konsolidasian disusun sesuai dengan PSAK 1, "Penyajian Laporan Keuangan".

Laporan keuangan konsolidasian telah disajikan berdasarkan konsep harga perolehan, yang dimodifikasi oleh revaluasi tanah dan bangunan, aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset dan liabilitas keuangan (termasuk instrumen derivatif) yang diukur pada nilai wajar melalui laba rugi, serta disusun dengan dasar akrual, kecuali laporan arus kas konsolidasian.

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan. Kas dan setara kas terdiri dari kas, giro pada Bank Indonesia dan giro pada bank lain, penempatan pada bank lain dan Sertifikat Bank Indonesia yang jatuh tempo dalam waktu 3 bulan atau kurang sejak tanggal perolehan, sepanjang tidak digunakan sebagai jaminan atas pinjaman yang diterima serta tidak dibatasi penggunaannya.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS 31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The consolidated financial statements of BNI and its Subsidiaries ("Group") were completed and authorized for issuance by the Board of Directors on 20 January 2023.

The principal accounting policies adopted in preparing the consolidated financial statements of BNI and Subsidiaries ("Group") are set out below:

a. Basis of preparation of the consolidated financial statements

Presented below are the principal accounting policies applied in the preparation of the consolidated financial statements of the Group in accordance with Indonesian Financial Accounting Standards which comprise of Statements of Financial Accounting Standards ("SFAS") and Interpretation of Financial Accounting Standards ("ISAK") issued by Institute of Indonesian Chartered Accountant and the Capital Market and Financial Institution Supervisory Agency ("BAPEPAM-LK")'s Regulation No. VIII.G.7 regarding the Presentations and Disclosures of Financial Statements of Listed Entity, enclosed in the decision letter No. KEP-347/BL/2012. The regulation is now a regulation under Indonesian Financial Services Authority ("OJK").

The consolidated financial statements are prepared in accordance with SFAS 1, "Presentation of Financial Statements".

The consolidated financial statements have been prepared on a historical cost basis, as modified by revaluation of land and buildings, financial assets at fair value through other comprehensive income, and financial assets and liabilities (including derivative instruments) at fair value through profit or loss, and under the accrual basis of accounting, except for consolidated statements of cash flows.

The consolidated statements of cash flows are prepared in the direct method with cash flows classified into operating, investing and financing activities. Cash and cash equivalents consist of cash, current accounts with Bank Indonesia and current accounts with other banks, placements with other banks and Certificates of Bank Indonesia maturing within 3 months from the date of acquisition, and which are not pledged as collateral for borrowings nor restricted.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

**a. Dasar penyusunan laporan keuangan
konsolidasian (lanjutan)**

Pos-pos dalam penghasilan komprehensif lainnya disajikan terpisah antara akun-akun yang akan direklasifikasikan ke laba rugi dan akun-akun yang tidak akan direklasifikasikan ke laba rugi.

Mata uang pelaporan yang digunakan dalam laporan keuangan konsolidasian adalah mata uang Rupiah (Rp). Angka-angka yang disajikan dalam laporan keuangan konsolidasian, kecuali bila dinyatakan secara khusus, adalah dibulatkan dalam jutaan Rupiah.

**b. Perubahan Pernyataan Standar Akuntansi
Keuangan dan Interpretasi Standar
Akuntansi Keuangan**

Berikut ini adalah standar akuntansi keuangan, perubahan dan interpretasi standar akuntansi keuangan yang berlaku efektif sejak 1 Januari 2022.

- Amendemen PSAK 22: "Kombinasi bisnis tentang referensi ke kerangka konseptual";
- Amendemen PSAK 57: "Provisi, liabilitas kontinjensi dan aset kontinjensi tentang kontrak memberatkan - Biaya memenuhi kontrak";
- Penyesuaian tahunan PSAK 71: "Instrumen keuangan"; dan
- Penyesuaian tahunan PSAK 73: "Sewa".

Implementasi dari standar-standar tersebut tidak menghasilkan perubahan substansial terhadap kebijakan akuntansi Grup dan tidak memiliki dampak yang material terhadap laporan keuangan konsolidasian di tahun berjalan atau tahun sebelumnya.

Bank saat ini memiliki sejumlah kontrak yang mengacu pada USD LIBOR dan berlaku hingga lebih dari 31 Desember 2022. Bank telah menentukan suku bunga acuan alternatif pengganti LIBOR yang mengikuti rekomendasi *working group* setiap mata uang. Manajemen akan terus memonitor hal ini dan mengambil tindakan yang diperlukan untuk mengatasi risiko dan ketidakpastian terkait di masa mendatang.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

**a. Basis of preparation of the consolidated
financial statements (continued)**

Items within other comprehensive income are classified separately, between accounts which will be reclassified to profit or loss and which will not be reclassified to profit or loss.

The reporting currency used for the consolidated financial statements is the Indonesian Rupiah (Rp). Unless otherwise stated, all figures presented in the consolidated financial statements are rounded off to millions of Rupiah.

**b. Changes to Statements of Financial
Accounting Standards and Interpretations
of Statements of Financial Accounting
Standards**

The followings are financial accounting standard, amendments and interpretation of financial accounting standard which become effective starting 1 January 2022.

- Amendment of SFAS 22: "Business combination for reference to conceptual framework";
- Amendment of SFAS 57: "Provision, contingent liabilities, and contingent assets related to onerous contracts – Cost of fulfilling the contract";
- Amendment of SFAS 71: "Financial instrument"; and
- Annual improvement of SFAS 73: "Lease".

The implementation of the above standards did not result in substantial changes to the Group's accounting policies and had no material impact to the consolidated financial statements for current or prior financial years.

Bank currently has a number of contracts which refers to USD LIBOR and extend beyond 31 December 2022. The Bank has already determined alternative interest benchmark referring to the recommendation of working group of each currency. Management will continue to monitor this and take the necessary actions to address related risks and uncertainties going forward.

KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

**b. Perubahan Pernyataan Standar Akuntansi
Keuangan dan Interpretasi Standar
Akuntansi Keuangan (lanjutan)**

Tabel berikut berisi rincian instrumen keuangan yang dimiliki Bank pada tanggal 31 Desember 2022 yang mengacu pada USD LIBOR dan belum bertransisi ke acuan suku bunga alternatif:

	2022		
	Aset/ Assets	Liabilitas/ Liabilities	
Pinjaman bank	57,135,209	21,226,597	Bank borrowings
Instrumen keuangan derivatif	9,338,341	9,338,341	Derivative financial instruments
Total aset dan liabilitas yang terekspos terhadap USD LIBOR	66,473,550	30,564,938	Total assets and liabilities exposed to USD LIBOR

Terkait adanya siaran pers DSAK IAI "Pengatribusian Imbalan pada Periode Jasa" pada bulan April 2022, Grup mengubah kebijakan terkait atribusi imbalan pensiun pada periode jasa sesuai ketentuan dalam PSAK 24 untuk pola fakta umum dari program pensiun berbasis UU Cipta Kerja No. 11/2020 dan PP 35/2021. Dampak perubahan perhitungan tersebut adalah tidak material terhadap Grup, sehingga dibukukan seluruhnya pada laporan keuangan konsolidasian pada tahun berjalan.

c. Aset dan liabilitas keuangan

(i) Klasifikasi

Grup mengklasifikasikan aset keuangannya berdasarkan kategori sebagai berikut pada saat pengakuan awal:

- Aset keuangan yang diukur pada nilai wajar melalui laba rugi;
- Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain;
- Aset keuangan yang diukur pada biaya perolehan diamortisasi.

Aset keuangan diukur pada biaya perolehan diamortisasi jika memenuhi kondisi sebagai berikut:

- aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual;

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

**b. Changes to Statements of Financial
Accounting Standards and Interpretations
of Statements of Financial Accounting
Standards (continued)**

The following table contains details of the financial instruments that the Bank holds as of 31 December 2022 which refer to USD LIBOR and have not yet transitioned to an alternative interest rate benchmark:

Regarding the DSAK IAI press release "Compensation Attribution in the Service Period" in April 2022, the Group changed the policy related to the attribution of pension compensation in the service period in accordance with the provisions in SFAS 24 for the general fact pattern of pension programs based on the UU Cipta Kerja No. 11/2020 dan PP 35/2021. The impact of the change in calculation is immaterial to the Group, therefore the impact of the changes is recorded entirety in the consolidated financial statements for the current year.

c. Financial assets and liabilities

(i) Classification

The Group classifies its financial assets according to the following categories at initial recognition:

- Financial assets measured at fair value through profit or loss;
- Financial assets measured at fair value through other comprehensive income;
- Financial assets measured at amortized cost.

Financial assets are measured at amortized cost if they meet the following conditions:

- financial assets are managed in a business model that aims to have financial assets in order to obtain contractual cash flow;

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(i) Klasifikasi (lanjutan)

Aset keuangan diukur pada biaya perolehan diamortisasi jika memenuhi kondisi sebagai berikut: (lanjutan)

- persyaratan kontraktual dari aset keuangan tersebut memberikan hak pada tanggal tertentu atas arus kas yang diperoleh semata dari pembayaran pokok dan bunga (SPPI) dari jumlah pokok terutang.

Aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain jika memenuhi kondisi sebagai berikut:

- Aset keuangan dikelola dalam model bisnis yang bertujuan untuk mendapatkan arus kas kontraktual dan menjual aset keuangan; dan
- Persyaratan kontraktual dari aset keuangan tersebut memenuhi kriteria SPPI.

Pada saat pengakuan awal, Grup dapat membuat pilihan yang tidak dapat dibatalkan untuk menyajikan instrumen ekuitas yang bukan dimiliki untuk diperdagangkan pada nilai wajar melalui penghasilan komprehensif lain.

Aset keuangan lainnya yang tidak memenuhi persyaratan untuk diklasifikasikan sebagai aset keuangan diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain, diklasifikasikan sebagai diukur pada nilai wajar melalui laba rugi.

Saat pengakuan awal Grup dapat membuat penetapan yang tidak dapat dibatalkan untuk mengukur aset yang memenuhi persyaratan untuk diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain pada nilai wajar melalui laba rugi, apabila penetapan tersebut mengeliminasi atau secara signifikan mengurangi inkonsistensi pengukuran atau pengakuan (kadang disebut sebagai "accounting mismatch").

Penilaian model bisnis

Model bisnis ditentukan pada level yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama-sama untuk mencapai tujuan bisnis tertentu.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(i) Classification (continued)

Financial assets are measured at amortized cost if they meet the following conditions: (continued)

- the contractual terms of the financial asset provide rights on a certain date for cash flow obtained solely from payment of principal and interest (SPPI) on the principal amount owed.

Financial assets are measured at fair value through other comprehensive income if they meet the following conditions:

- Financial assets are managed in a business model that aims to obtain contractual cash flow and sell financial assets; and
- The contractual requirements of the financial assets meet the SPPI criteria.

At initial recognition, the Group may make an irrevocable choice to present equity instruments that are not held for trading at fair value through other comprehensive income.

Other financial assets that do not meet the requirements to be classified as financial assets measured at amortized cost or fair value through other comprehensive income, are classified as measured at fair value through profit or loss.

At initial recognition, the Group can make an irrevocable determination to measure assets that meet the requirements to be measured at amortized cost or fair value through other comprehensive income at fair value through profit or loss, if the determination eliminates or significantly reduces the measurement or recognition inconsistencies (sometimes referred to as "accounting mismatch").

Evaluation of business models

The business model is determined at a level that reflects how groups of financial assets are managed together to achieve certain business objectives.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(i) Klasifikasi (lanjutan)

Penilaian model bisnis (lanjutan)

Penilaian model bisnis dilakukan dengan mempertimbangkan, tetapi tidak terbatas pada, hal-hal berikut:

- Bagaimana kinerja dari model bisnis dan aset keuangan yang dimiliki dalam model bisnis dievaluasi dan dilaporkan kepada personil manajemen kunci Grup;
- Apakah risiko yang mempengaruhi kinerja dari model bisnis (termasuk aset keuangan yang dimiliki dalam model bisnis) dan khususnya bagaimana cara aset keuangan tersebut dikelola; dan
- Bagaimana penilaian kinerja pengelola aset keuangan (sebagai contoh, apakah penilaian kinerja berdasarkan nilai wajar dari aset yang dikelola atau arus kas kontraktual yang diperoleh).

Aset keuangan yang dimiliki untuk diperdagangkan atau dikelola dan penilaian kinerjanya berdasarkan nilai wajar diukur pada nilai wajar melalui laba rugi.

Derivatif juga dikategorikan dalam kelompok ini, kecuali derivatif yang ditetapkan sebagai instrumen lindung nilai efektif.

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga

Untuk tujuan penilaian ini, pokok didefinisikan sebagai nilai wajar dari aset keuangan pada saat pengakuan awal. Bunga didefinisikan sebagai imbalan untuk nilai waktu atas uang dan risiko kredit terkait jumlah pokok terutang pada periode waktu tertentu dan juga risiko dan biaya peminjaman standar, dan juga margin laba.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(i) Classification (continued)

**Evaluation of business models
(continued)**

The evaluation of the business model is carried out by considering, but not limited to, the following:

- How the performance of the business model and financial assets held in the business model are evaluated and reported to the Group's key management personnel;
- What risks affect the performance of the business model (including financial assets held in the business model) and specifically how the financial assets are managed; and
- How to evaluate the performance of managers of financial assets (for example, whether performance appraisals are based on the fair value of the assets being managed or the contractual cash flows obtained).

Financial assets held for trading or managed and which performance appraisals based on fair value are measured at fair value through profit or loss.

Derivatives are also categorized under this classification, unless they are designated as effective hedging instruments.

Evaluation of contractual cash flows obtained solely from payment of principal and interest

For the purpose of this evaluation, principal is defined as the fair value of financial assets at initial recognition. Interest is defined as compensation for the time value of money and credit risk in relation to the principal amount owed over a certain period of time and also the risk and standard borrowing costs, as well as profit margins.

KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(i) Klasifikasi (lanjutan)

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga (lanjutan)

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga dilakukan dengan mempertimbangkan persyaratan kontraktual, termasuk apakah aset keuangan mengandung persyaratan kontraktual yang dapat mengubah waktu atau jumlah arus kas kontraktual. Dalam melakukan penilaian, Grup mempertimbangkan:

- Peristiwa kontinjensi yang akan mengubah waktu atau jumlah arus kas kontraktual;
- Fitur *leverage*;
- Persyaratan pembayaran di muka dan perpanjangan kontraktual;
- Persyaratan mengenai klaim yang terbatas atas arus kas yang berasal dari aset spesifik; dan
- Fitur yang dapat mengubah nilai waktu dari elemen uang.

Liabilitas keuangan diklasifikasikan kedalam kategori sebagai berikut pada saat pengakuan awal:

- Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu liabilitas keuangan yang ditetapkan demikian pada saat pengakuan awal dan liabilitas keuangan yang telah diklasifikasikan dalam kelompok diperdagangkan;
- Liabilitas keuangan lain. Liabilitas keuangan lainnya merupakan liabilitas keuangan yang tidak dimiliki untuk dijual atau ditentukan sebagai nilai wajar melalui laba rugi saat pengakuan liabilitas.

31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(i) Classification (continued)

Evaluation of contractual cash flows obtained solely from payment of principal and interest (continued)

An assessment of contractual cash flows obtained solely from principal and interest payments is made by considering contractual terms, including whether financial assets contain contractual terms that can change the timing or amount of contractual cash flows. In assessing, the Group considers:

- Contingency events that will change the timing or amount of contractual cash flow;
- Leverage feature;
- Terms of advance payment and contractual extension;
- Requirements regarding limited claims for cash flows from specific assets; and
- Features that can change the time value of money element.

Financial liabilities are classified into the following categories at initial recognition:

- Financial liabilities at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. those designated as such upon initial recognition and those classified as held for trading;
- Other financial liabilities. Other financial liabilities pertain to financial liabilities that are not held for trading nor designated as at fair value through profit or loss upon recognition of the liability.

(ii) Pengakuan awal

- Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam kurun waktu yang telah ditetapkan oleh peraturan dan kebiasaan yang berlaku di pasar (pembelian secara reguler) diakui pada tanggal perdagangan, yaitu tanggal Grup berkomitmen untuk membeli atau menjual aset.
- Aset keuangan dan liabilitas keuangan pada awalnya diukur pada nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diklasifikasikan sebagai nilai wajar melalui laba rugi, nilai wajar tersebut ditambah/dikurangi biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan atau penerbitan aset keuangan atau liabilitas keuangan.

2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

(i) Classification (continued)

(ii) Initial recognition

- Purchase or sale of financial assets that requires delivery of assets within a time frame established by regulation or convention in the market (regular purchases) is recognized on the trade date, i.e., the date that the Group commits to purchase or sell the assets.
- Financial assets and financial liabilities are initially recognized at fair value. For those financial assets or financial liabilities not classified as fair value through profit or loss, the fair value is added/deducted with directly attributable transaction costs to the issuance of financial assets or liabilities.

PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

(ii) Pengakuan awal (lanjutan)

Grup, pada pengakuan awal, dapat menetapkan aset keuangan dan liabilitas keuangan tertentu sebagai nilai wajar melalui laba rugi (opsi nilai wajar). Opsi nilai wajar dapat digunakan hanya bila memenuhi ketentuan sebagai opsi nilai wajar mengurangi atau mengeliminasi ketidak-konsistenan pengukuran dan pengakuan (accounting mismatch) yang dapat timbul.

(iii) Pengukuran setelah pengakuan awal

Aset keuangan dalam kelompok aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi diukur pada nilai wajarnya. Aset keuangan kelompok biaya perolehan diamortisasi dan liabilitas keuangan lainnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

(iv) Penghentian pengakuan

- Aset keuangan dihentikan pengakuannya jika:
 - Hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir; atau
 - Grup telah mentransfer haknya untuk menerima arus kas yang berasal dari aset tersebut atau menanggung liabilitas untuk membayarkan arus kas yang diterima tersebut secara penuh tanpa penundaan berarti kepada pihak ketiga dibawah kesepakatan pelepasan, dan antara (a) Grup telah mentransfer secara substansial seluruh risiko dan manfaat atas aset, atau (b) Grup tidak mentransfer maupun tidak memiliki secara substansial seluruh risiko dan manfaat atas aset, tetapi telah mentransfer kendali atas aset.

Ketika Grup telah mentransfer hak untuk menerima arus kas dari aset atau telah memasuki kesepakatan pelepasan dan tidak mentransfer serta tidak mempertahankan secara substansial seluruh risiko dan manfaat atas aset atau tidak mentransfer kendali atas aset, aset diakui sebesar keterlibatan Grup yang berkelanjutan atas aset tersebut.

2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

(ii) Initial recognition (continued)

The Group, upon initial recognition, may designate certain financial assets and financial liabilities, at fair value through profit or loss (fair value option). The fair value option is only applied when the application of the fair value option reduces or eliminates the measurement or recognition inconsistencies (accounting mismatch) that would otherwise arise.

(iii) Subsequent measurement

Financial assets at fair value through other comprehensive income and financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Financial assets classified as amortized cost and other financial liabilities measured at amortized cost using the effective interest rate method.

(iv) Derecognition

- Financial assets are derecognized when:
 - The contractual rights to receive cash flows from the financial assets have expired; or
 - The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flow in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(iv) Penghentian pengakuan (lanjutan)

**a. Aset keuangan dihentikan
pengakuannya jika: (lanjutan)**

Pinjaman yang diberikan dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian pinjaman atau hubungan normal antara Grup dan debitur telah berakhir. Pinjaman yang tidak dapat dilunasi tersebut dihapusbukukan dengan mendebit cadangan kerugian penurunan nilai.

**b. Liabilitas keuangan dihentikan
pengakuannya jika liabilitas yang
ditetapkan dalam kontrak dilepaskan
atau dibatalkan atau kadaluarsa.**

Jika suatu liabilitas keuangan yang ada digantikan dengan liabilitas yang lain oleh pemberi pinjaman yang sama pada keadaan yang secara substansial berbeda, atau berdasarkan suatu liabilitas yang ada yang secara substansial telah diubah, maka pertukaran atau modifikasi tersebut diperlakukan sebagai penghentian pengakuan liabilitas awal dan pengakuan liabilitas baru, dan perbedaan nilai tercatat masing-masing diakui dalam laporan laba rugi.

(v) Pengakuan pendapatan dan beban

**a. Pendapatan dan beban bunga atas
aset keuangan yang diukur pada nilai
wajar melalui penghasilan
komprehensif lain serta aset
keuangan dan liabilitas keuangan
yang dicatat berdasarkan biaya
perolehan diamortisasi, diakui pada
laporan laba rugi dengan
menggunakan metode suku bunga
efektif.**

Jumlah tercatat bruto aset keuangan adalah biaya perolehan diamortisasi aset keuangan sebelum disesuaikan dengan cadangan penurunan nilai.

Dalam menghitung pendapatan dan beban bunga, tingkat bunga efektif diterapkan pada jumlah tercatat bruto aset (ketika aset tersebut bukan aset keuangan memburuk) atau terhadap biaya perolehan diamortisasi dari liabilitas.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(iv) Derecognition (continued)

**a. Financial assets are derecognized
when: (continued)**

Loans are written off when there is no realistic prospect of collection in the near future or the normal relationship between the Group and the borrowers have ceased to exist. When a loan is deemed uncollectible, it is written off against the related allowance for impairment losses.

**b. Financial liabilities are derecognized
when the obligation under the liability
is discharged or cancelled or has
expired.**

Where an existing financial liability is replaced by another liability from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the profit or loss.

(v) Income and expense recognition

**a. Interest income and expense on
financial assets measured at fair
value through other comprehensive
income as well as financial assets
and financial liabilities recorded at
amortized cost are recognized in the
statement of profit or loss using the
effective interest rate method.**

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for allowance for impairment.

In calculating interest income and expenses, the effective interest rate is applied to the gross carrying amount of an asset (when the asset is not an impaired financial asset) or to the amortized cost of a liability.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk

**(v) Pengakuan pendapatan dan beban
(lanjutan)**

**b. Keuntungan dan kerugian yang timbul
dari perubahan nilai wajar atas aset
keuangan yang diklasifikasikan dalam
kelompok nilai wajar melalui
penghasilan komprehensif lain diakui
secara langsung dalam laporan laba
rugi dan penghasilan komprehensif
lain (merupakan bagian dari ekuitas)
sampai aset keuangan tersebut
dihentikan pengakuannya atau
adanya penurunan nilai, kecuali
keuntungan atau kerugian akibat
perubahan nilai tukar untuk instrumen
utang.**

Pada saat aset keuangan dihentikan pengakuannya atau dilakukan penurunan nilai, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus diakui pada laporan laba rugi.

(vi) Reklasifikasi aset keuangan

Grup mereklasifikasi aset keuangan jika dan hanya jika, model bisnis untuk pengelolaan aset keuangan berubah.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui laba rugi dicatat sebesar nilai wajarnya. Selisih antara nilai tercatat dengan nilai wajar diakui sebagai keuntungan atau kerugian pada laba rugi dan penghasilan komprehensif lain.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat sebesar nilai wajarnya.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui penghasilan komprehensif lain ke klasifikasi nilai wajar melalui laba rugi dicatat pada nilai wajarnya. Keuntungan atau kerugian yang belum direalisasi direklasifikasi ke laba rugi.

**(v) Income and expense recognition
(continued)**

**b. Gains and losses arising from
changes in the fair value of financial
assets that classified as fair value
through statement of profit or loss
and other comprehensive income are
recognized directly in other
comprehensive income (as part of
equity), until the financial asset is
derecognized or impaired, except
gain or loss arising from changes in
exchange rate for debt instruments.**

When a financial asset is derecognized or impaired, the cumulative gains or losses previously recognized in equity are recognized in profit or loss.

(vi) Reclassification of financial assets

The Group reclassifies financial assets if and only if, the business model for managing financial assets changes.

Reclassifications of financial assets from amortized cost classifications to fair value through profit or loss are recorded at fair value. The difference between the recorded value and fair value is recognized in profit or loss on the statement of profit or loss and other comprehensive income.

Reclassifications of financial assets from amortized cost classifications to fair value classifications through other comprehensive are recorded at their fair values.

Reclassification of financial assets from fair value through other comprehensive income to fair value through profit or loss is recorded at fair value. Unrealized gains or losses are reclassified to profit or loss.

POLICIES (continued)**

c. Financial assets and liabilities (continued)

**(vi) Reclassification of financial assets
(continued)**

Reclassification of financial assets from fair value through other comprehensive income to the amortized cost is recorded at fair value at the date of reclassification. Unrealized gains or losses is removed from equity and is adjusted against the fair value.

Reclassifications on financial assets from fair value through profit or loss to fair value through other comprehensive income are recorded at fair value.

Reclassification of financial assets from fair value through profit or loss to amortized cost classification is recorded at fair value.

(vii) Offsetting

Financial assets and liabilities are set off and the net amount is presented in the consolidated statement of financial position when, and only when, the Group has a legal right to set off the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

Income and expenses are presented on a net basis only when permitted by the accounting standards.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(viii) Pengukuran biaya diamortisasi

Biaya perolehan diamortisasi dari aset keuangan atau liabilitas keuangan adalah jumlah aset keuangan atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok pinjaman, ditambah atau dikurangi amortisasi kumulatif menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai pengakuan awal dan nilai jatuh temponya, dan dikurangi penurunan nilai.

(ix) Pengukuran nilai wajar

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam suatu transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Jika tersedia, Grup mengukur nilai wajar dari suatu instrumen dengan menggunakan harga kuotasi di pasar aktif untuk instrumen terkait. Suatu pasar dianggap aktif bila harga yang dikuotasikan tersedia sewaktu-waktu dari bursa, pedagang efek (*dealer*), perantara efek (*broker*), kelompok industri, badan pengawas (*pricing service or regulatory agency*), dan merupakan transaksi pasar aktual dan teratur terjadi yang dilakukan secara wajar. Nilai wajar dapat diperoleh dari *Interdealer Market Association (IDMA)* atau harga pasar atau harga yang diberikan oleh *broker (quoted price)* dari *Bloomberg* atau *Reuters* pada tanggal pengukuran.

Jika pasar untuk instrumen keuangan tidak aktif, Grup menetapkan nilai wajar dengan menggunakan teknik penilaian.

Grup menggunakan beberapa teknik penilaian yang digunakan secara umum untuk menentukan nilai wajar dari instrumen keuangan dengan tingkat kompleksitas yang rendah, seperti opsi nilai tukar dan *swap* mata uang. Input yang digunakan dalam teknik penilaian untuk instrumen keuangan di atas adalah data pasar yang diobservasi.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(viii) Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

(ix) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at measurement date.

When available, the Group measures the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transaction on an arm's length basis. The fair value can be obtained from IDMA's (Interdealer Market Association) or quoted market prices or broker's quoted price from Bloomberg or Reuters on the measurement date.

If a market for a financial instrument is not active, the Group establishes fair value using a valuation technique.

The Group uses widely recognized valuation models for determining fair values of financial instruments of lower complexity, such as exchange value options and currency swaps. For these financial instruments, inputs into models are generally market-observable data.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

Untuk instrumen yang lebih kompleks, Grup menggunakan model penilaian internal, yang pada umumnya berdasarkan teknik dan metode penilaian yang umumnya diakui sebagai standar industri. Model penilaian terutama digunakan untuk menilai kontrak derivatif yang ditransaksikan melalui pasar *over-the-counter, unlisted debt securities* (termasuk surat utang dengan derivatif melekat) dan instrumen utang lainnya yang pasarnya tidak aktif.

Untuk instrumen keuangan yang tidak mempunyai harga pasar, estimasi atas nilai wajar efek-efek ditetapkan dengan mengacu pada nilai wajar instrumen lain yang substansinya sama atau dihitung berdasarkan arus kas yang diharapkan terhadap aset bersih efek-efek tersebut.

Hasil dari suatu teknik penilaian merupakan sebuah estimasi atau perkiraan dari suatu nilai yang tidak dapat ditentukan dengan pasti, dan teknik penilaian yang digunakan mungkin tidak dapat menggambarkan seluruh faktor yang relevan atas posisi yang dimiliki Grup. Dengan demikian, penilaian disesuaikan dengan faktor tambahan seperti *model risk*, risiko likuiditas dan risiko kredit *counterparty*. Berdasarkan kebijakan teknik penilaian nilai wajar, pengendalian dan prosedur yang diterapkan, manajemen berkeyakinan bahwa penyesuaian atas penilaian tersebut di atas diperlukan dan dianggap tepat untuk menyajikan secara wajar nilai dari instrumen keuangan yang diukur berdasarkan nilai wajar dalam laporan posisi keuangan konsolidasian. Data harga dan parameter yang digunakan di dalam prosedur pengukuran pada umumnya telah ditelaah dan disesuaikan jika diperlukan, khususnya untuk perkembangan atas pasar terkini.

Nilai wajar atas pinjaman yang diberikan dan piutang, serta liabilitas kepada bank dan nasabah ditentukan menggunakan nilai berdasarkan arus kas kontraktual, dengan mempertimbangkan kualitas kredit, likuiditas dan biaya.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(ix) Fair value measurement (continued)

For more complex instruments, the Group uses internally developed models, which are usually based on valuation methods and techniques generally recognized as standard within the industry. Valuation models are used primarily to value derivatives transacted in the over-the-counter market, unlisted debt securities (including those debt with embedded derivatives) and other debt instruments for which markets were or have become illiquid.

For financial instruments with no quoted market price, a reasonable estimate of the fair value is determined by reference to the fair value of another instrument which substantially has the same characteristics or calculated based on the expected cash flows of the underlying net asset base of the marketable securities.

The output of a valuation technique is an estimation or approximation of a value that cannot be determined with certainty, and the valuation technique employed may not fully reflect all factors relevant to the positions that the Group holds. Valuations are therefore adjusted, with additional factors such as model risk, liquidity risk and counterparty credit risk. Based on the established fair value valuation technique policy, related controls and procedures applied, management believes that these valuation adjustments are necessary and considered appropriate to fairly state the values of financial instruments measured at fair value in the consolidated statement of financial position. Price data and parameters used in the measurement procedures applied are generally reviewed and adjusted, if necessary, particularly in view of the current market developments.

The fair value for loans and receivables as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan konsolidasian dapat dikategorikan pada level hirarki nilai wajar, berdasarkan tingkatan sebagai berikut:

- Tingkat 1: Harga kuotasian (tidak disesuaikan) dari pasar aktif untuk aset atau liabilitas yang identik.
- Tingkat 2: Input selain harga yang dikutip dari pasar yang disertakan pada Tingkat 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung (yaitu sebagai suatu harga) atau secara tidak langsung (sebagai turunan dari harga).
- Tingkat 3: Input untuk aset atau liabilitas yang tidak didasarkan pada data pasar yang dapat diobservasi (informasi yang tidak dapat diobservasi).

(x) Cadangan kerugian penurunan nilai atas aset keuangan

- Grup mengakui penyisihan kerugian kredit ekspektasian pada instrumen keuangan yang tidak diukur pada nilai wajar melalui laba rugi.
- Tidak ada penyisihan kerugian kredit ekspektasian pada investasi instrumen ekuitas.
- Grup mengukur cadangan kerugian sejumlah kerugian kredit ekspektasian sepanjang umurnya, kecuali untuk hal berikut, diukur sejumlah kerugian kredit ekspektasian 12 bulan:
 - instrumen utang yang memiliki risiko kredit rendah pada tanggal pelaporan; dan
 - instrumen keuangan lainnya yang risiko kreditnya tidak meningkat secara signifikan sejak pengakuan awal.

Grup menganggap instrumen utang memiliki risiko kredit yang rendah ketika peringkat risiko kreditnya setara dengan definisi *investment grade* yang dipahami secara global.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(ix) Fair value measurement (continued)

All assets and liabilities which fair value is measured or disclosed in the consolidated financial statements can be classified in fair value hierarchy levels, based on following level:

- Level 1: Quoted price (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as a price) or indirectly (as derived from price).
- Level 3: Input for asset or liability based on unobservable inputs for the asset or liability.

(x) Allowance for impairment losses on financial assets

- The Group recognizes the allowance for expected credit losses on financial instruments that are not measured at fair value through profit or loss.
- There is no allowance for expected credit losses on investment in equity instruments.
- The Group measure the allowance for losses for the lifetime of an expected credit losses, except for the following, which are measured according to 12 months expected credit losses:
 - debt instruments that have low credit risk at the reporting date; and
 - other financial instruments for which credit risk has not increased significantly since initial recognition.

The Group considers debt instruments to have low credit risk when the credit risk rating is at par with the globally understood definition of investment grade.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Kerugian kredit ekspektasian 12 bulan adalah bagian dari kerugian kredit ekspektasian sepanjang umurnya yang merepresentasikan kerugian kredit ekspektasian yang timbul dari peristiwa gagal bayar instrumen keuangan yang mungkin terjadi dalam 12 bulan setelah tanggal pelaporan.

Pengukuran Ekspektasian	Kerugian	Kredit
----------------------------	----------	--------

Kerugian Kredit Ekspektasian adalah estimasi probabilitas tertimbang dari kerugian kredit yang diukur sebagai berikut:

- aset keuangan yang tidak memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sepanjang umur aset yang timbul dari kemungkinan gagal bayar di masa yang akan datang dalam kurun waktu 12 bulan sejak tanggal pelaporan. Kredit ekspektasian terus ditentukan oleh dasar ini sampai timbul peningkatan risiko kredit yang signifikan pada instrumen tersebut atau instrumen tersebut telah mengalami penurunan nilai kredit. Jika suatu instrumen tidak lagi dianggap menunjukkan peningkatan risiko kredit yang signifikan, maka kerugian kredit ekspektasian dihitung kembali berdasarkan basis 12 bulan;
- aset keuangan yang memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara jumlah tercatat bruto dan nilai kini arus kas masa depan yang diestimasi;
- komitmen pinjaman yang belum ditarik, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini jumlah arus kas jika komitmen ditarik dan arus kas yang diperkirakan akan diterima oleh Grup;
- kontrak jaminan keuangan, kerugian kredit ekspektasian diukur sebesar selisih antara pembayaran yang diperkirakan untuk mengganti pemegang atas kerugian kredit yang terjadi dikurangi jumlah yang diperkirakan dapat dipulihkan.

POLICIES (continued)**

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

The 12-month expected credit loss is part of the expected credit loss throughout its lifetime that represents an expected credit loss arising from a default on financial instruments that might occur 12 months after reporting date.

Measurement of Expected Credit Losses

Expected Credit Loss is an estimate of the weighted probability of a credit loss measured as follows:

- financial assets that do not deteriorate at the reporting date, the expected credit loss is measured at the lifetime cash shortfalls arising from possible default events up to 12 months into the future from the reporting date. Expected credit losses continue to be determined on this basis until there is either a significant increase in the credit risk of an instrument or the instrument becomes credit impaired. If an instrument is no longer considered to exhibit a significant increase in credit risk, expected credit losses will revert to being determined on a 12-month basis;
- financial assets that deteriorate at the reporting date, the expected credit loss is measured at the difference between the gross carrying amount and the present value of estimated future cash flows;
- for undisbursed loan commitments, expected credit losses are measured at the difference between the present value of the amount of cash flow if the commitments is withdrawn and the cash flow expected to be received by the Group;
- for financial guarantee contracts, expected credit losses are measured at the difference between the estimated payments to replace the holder for the credit losses incurred less the amount estimated to be recoverable.

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Aset Keuangan Yang Direstrukturisasi

Jika ketentuan aset keuangan dinegosiasikan ulang atau dimodifikasi atau aset keuangan yang ada diganti dengan yang baru karena kesulitan keuangan peminjam, maka dilakukan penilaian apakah aset keuangan yang ada harus dihentikan pengakuannya dan kerugian kredit ekspektasian diukur sebagai berikut:

- Apabila syarat-syarat tersebut berbeda secara substansial, Grup menghentikan pengakuan aset keuangan awal dan mengakui aset keuangan yang 'baru' pada nilai wajarnya dan menghitung kembali suku bunga efektif yang baru untuk aset tersebut. Tanggal renegotiasi syarat pinjaman dianggap sebagai tanggal pengakuan awal untuk keperluan perhitungan penurunan nilai, termasuk untuk menentukan apakah terdapat kenaikan signifikan risiko kredit. Namun, Grup juga menilai apakah aset keuangan baru dianggap sebagai aset keuangan yang mengalami penurunan nilai pada pengakuan awal, terutama dalam keadaan dimana renegotiasi didorong oleh peminjam yang tidak dapat melakukan pembayaran yang sudah disetujui sebelumnya. Selisih dari nilai tercatat juga diakui pada laporan laba rugi konsolidasian di pembentukan cadangan kerugian penurunan nilai sebagai laba rugi dari penghentian pengakuan aset keuangan. Untuk Grup, bila kerugian berelasi dengan risiko kredit, Grup mengklasifikasikan kerugian kedalam pembentukan cadangan kerugian penurunan nilai.
- Apabila syarat-syarat tersebut tidak berbeda secara substansial, renegotiasi atau modifikasi tidak menghasilkan penghentian pengakuan, dan Grup menghitung kembali nilai tercatat bruto berdasarkan arus kas yang sudah dimodifikasi dari aset keuangan dan mengakui laba atau rugi modifikasian di laporan laba rugi konsolidasian. Nilai tercatat bruto yang baru dihitung kembali dengan mendiskontokan arus kas yang telah dimodifikasi dengan menggunakan tingkat suku bunga efektif awal.

- (x) Allowance for impairment losses on financial assets (continued)

Restructured Financial Assets

If the terms of the financial assets are renegotiated or modified or the existing financial assets are replaced with new ones due to the borrower's financial difficulties, an assessment is made whether recognition of existing financial assets must be derecognized and expected credit losses measured as follows:

- If the terms are substantially different, the Group derecognises the original financial asset and recognizes a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in the consolidated statement of profit or loss in allowance for impairment losses as a gain or loss on derecognition. For the Group, to the extent that the loss does relate to credit risk, the Group classifies that loss within allowance for impairment losses.
- If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognizes a modification gain or loss in consolidated statements of profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate.

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Aset Keuangan Yang Memburuk

Pada setiap tanggal pelaporan, Grup menilai apakah aset keuangan yang dicatat pada biaya perolehan diamortisasi dan aset keuangan instrumen utang yang dicatat pada nilai wajar melalui penghasilan komprehensif lain mengalami penurunan nilai kredit (memburuk). Aset keuangan memburuk ketika satu atau lebih peristiwa yang memiliki dampak merugikan atas estimasi arus kas masa depan dari aset keuangan telah terjadi.

Bukti bahwa aset keuangan mengalami penurunan nilai kredit (memburuk) termasuk data yang dapat diobservasi mengenai peristiwa berikut ini:

- kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam;
- pelanggaran kontrak, seperti peristiwa gagal bayar atau peristiwa tunggakan;
- pihak pemberi pinjaman, untuk alasan ekonomi atau kontraktual sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, telah memberikan konsesi pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- terjadi kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya; atau
- hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan.
- Pembelian atau penerbitan aset keuangan dengan diskon sangat besar yang mencerminkan kerugian kredit yang terjadi.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

Credit-impaired Financial Assets

At each reporting date, the Group assesses whether the financial assets recorded at amortized cost and the debt instrument financial assets which are recorded at fair value through other comprehensive income are credit-impaired (worsening). Financial assets deteriorate when one or more events that have an adverse effect on the estimated future cash flows of the financial assets have occurred.

Evidence that financial assets become credit impaired including observable data regarding the following events:

- significant financial difficulties experienced by the issuer or the borrower;
- breach of contract, such as a default or arrears;
- the lender, for economic or contractual reasons in relation to the financial difficulties experienced by the borrower, has given concessions to the borrower which is not possible if the borrower does not experience such difficulties;
- it is probable that the borrower will enter bankruptcy or the other financial reorganization; or
- loss of an active market for financial assets due to financial difficulties.
- Purchase or issuance of financial asset at significant discount which reflect the credit loss that occurs.

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Aset Keuangan yang dibeli atau yang berasal dari aset keuangan memburuk

Aset keuangan dikategorikan sebagai POCI apabila terdapat bukti objektif penurunan nilai pada saat pengakuan awal. Pada saat pengakuan awal, tidak ada penyisihan kerugian kredit yang diakui karena harga pembelian atau nilainya telah termasuk estimasi kerugian kredit sepanjang umurnya. Selanjutnya, setiap perubahan kerugian kredit ekspektasian sepanjang umurnya akan diakui sebagai keuntungan atau kerugian penurunan nilai dalam laporan laba rugi konsolidasian.

Penyajian Penyisihan Kerugian Kredit Ekspektasian Dalam Laporan Posisi Keuangan Konsolidasian

Penyisihan kerugian kredit ekspektasian disajikan dalam laporan posisi keuangan konsolidasian sebagai berikut:

- aset keuangan yang diukur pada biaya perolehan diamortisasi, penyisihan kerugian kredit ekspektasian disajikan sebagai pengurang dari jumlah tercatat bruto aset;
- komitmen pinjaman dan kontrak jaminan keuangan, penyisihan kerugian kredit ekspektasian disajikan sebagai provisi;
- instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain, penyisihan kerugian kredit ekspektasian tidak diakui dalam laporan posisi keuangan karena jumlah tercatat dari aset-aset ini adalah nilai wajarnya. Namun demikian penyisihan kerugian kredit ekspektasian diungkapkan dan diakui dalam penghasilan komprehensif lain.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

Purchased or originated credit-impaired financial assets - POCI

Financial assets are categorized as POCI if there is objective evidence of impairment at initial recognition. At initial recognition, no allowance for credit losses is recognized because the purchase price or value has included lifetime estimated credit losses. Subsequently, any changes in the lifetime expected credit losses will be recognised as an impairment gain or loss in the consolidated statement of profit or loss.

Presentation of Allowance for Expected Credit Losses in the Statement of Consolidated Financial Position

Allowance for expected credit losses is presented in the statement of consolidated financial positions as follows:

- for financial assets measured at amortized cost, allowance for expected credit losses is presented as a deduction from the gross carrying amount of the asset;
- for loan commitments and financial guarantee contracts, allowance for expected credit losses is presented as a provision;
- for debt instruments measured at fair value through other comprehensive income, allowance for expected credit losses are not recognized in the statement of financial position because the carrying amounts of these assets are at their fair values. However, allowance for expected credit losses is disclosed and recognized in other comprehensive income.

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Perhitungan penurunan nilai secara individual

Bank menetapkan pinjaman yang diberikan yang harus dievaluasi penurunan nilainya secara individual, dengan ketentuan sebagai berikut:

- a. Pinjaman yang diberikan Segmen Korporasi dan Menengah yang memenuhi kriteria:
- Memiliki umur tunggakan lebih dari 90 hari (kolektibilitas 3-5); atau
 - Memiliki *rating default* (*rating* 20-23); atau
 - Memiliki *rating non-investment grade* (*rating* 13-19) dan dilakukan restrukturisasi (kecuali untuk restrukturisasi Covid-19).
- b. Pinjaman yang diberikan Segmen Kecil dan Konsumer yang memiliki maksimum lebih besar atau sama dengan Rp15 miliar (nilai penuh) yang memenuhi kriteria:
- Memiliki umur tunggakan lebih dari 90 hari (kolektibilitas 3-5); atau
 - Dilakukan restrukturisasi (kecuali untuk restrukturisasi Covid-19).

Perhitungan penurunan nilai secara kolektif

Bank menetapkan pinjaman yang diberikan yang harus dievaluasi penurunan nilainya secara kolektif, jika memenuhi salah satu kriteria di bawah ini:

- a. Pinjaman yang diberikan yang secara individual memiliki nilai tidak signifikan; atau
- b. Pinjaman yang diberikan yang direstrukturisasi yang secara individual memiliki nilai tidak signifikan.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan

Ketika pinjaman yang diberikan tidak tertagih, pinjaman yang diberikan tersebut dihapusbuku dengan menjurnal balik cadangan kerugian penurunan nilai. Pinjaman yang diberikan tersebut dapat dihapus buku setelah semua prosedur yang diperlukan telah dilakukan dan jumlah kerugian telah ditentukan.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

Individual impairment calculation

The Bank determines that loans should be evaluated for impairment through individual evaluation with the following criteria:

- a. Loans for Corporate and Middle Segment that meet the criteria:
- Has overdue age more than 90 days (collectability 3-5); or
 - Has a default rating (rating 20-23); or
 - Has a non-investment grade rating (rating 13-19) and is undergoing restructuring (except for restructuring Covid-19).
- b. Loans for Small and Consumer Segment with the maximum of more than or equal to Rp15 billion (full amount) that meet the criteria:
- Has overdue age > 90 days (collectability 3-5); or
 - Has been restructured (except for restructuring Covid-19).

Collective impairment calculation

The Bank determines loans to be evaluated for impairment through collective evaluation if one of the following criteria is met:

- a. Loans which individually have insignificant value; or
- b. Restructured loans which individually have insignificant value.

Recoveries of written-off financial assets

When a loan is uncollectible, it is written-off against the related allowance for impairment loss. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan (lanjutan)

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun berjalan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun sebelumnya dicatat sebagai pendapatan operasional selain pendapatan bunga.

d. Prinsip konsolidasian

Laporan keuangan konsolidasian meliputi laporan keuangan BNI beserta seluruh Entitas Anak yang berada di bawah pengendalian BNI. Entitas anak adalah seluruh entitas (termasuk entitas terstruktur) dimana Grup memiliki pengendalian.

Dalam hal pengendalian terhadap Entitas Anak dimulai atau diakhiri dalam suatu tahun berjalan, maka hasil usaha Entitas Anak yang diperhitungkan ke dalam laporan keuangan konsolidasian hanya sebatas hasil pada saat pengendalian tersebut mulai diperoleh atau hingga saat pengendalian itu berakhir.

Pengendalian didapat ketika BNI terekspos atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan Entitas Anak dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas Entitas Anak.

BNI mengendalikan Entitas Anak, jika dan hanya jika, BNI memiliki hal berikut ini:

- a) kekuasaan atas Entitas Anak (hak yang ada saat ini yang memberi kemampuan kini untuk mengarahkan aktivitas relevan yang secara signifikan mempengaruhi imbal hasil Entitas Anak);
- b) eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan Entitas Anak; dan
- c) kemampuan untuk menggunakan kekuasaannya atas Entitas Anak untuk mempengaruhi jumlah imbal hasil Entitas Anak.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

Recoveries of written-off financial assets (continued)

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off financial assets from previous years are recorded as operating income other than interest income.

d. Principles of consolidation

The consolidated financial statements include the financial statements of BNI and all its Subsidiaries that are controlled by BNI. Subsidiaries are all entities (including structured entities) over which the Group has control.

Where Subsidiaries either began or ceased to be controlled during the year, the results of operations of those Subsidiaries are included in the consolidated financial statements only from the date that the control has commenced or up to the date that the control has ceased.

Control is acquired when BNI is exposed or has rights to variable returns from its involvement with Subsidiaries and has the ability to affect those returns through its power over Subsidiaries.

BNI controls a Subsidiary if, and only if, BNI has the following:

- a) power over a Subsidiary (existing rights that provide the current ability to direct the relevant activities that significantly affect returns of a Subsidiary);
- b) exposure, or rights to variable returns from its involvement with the Subsidiary; and
- c) the ability to use its power over the Subsidiary to affect the amount of the Subsidiary's returns.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

d. Prinsip konsolidasian (lanjutan)

Bila Grup tidak memiliki hak suara atau hak serupa secara mayoritas atas suatu Entitas Anak, Grup mempertimbangkan semua fakta dan keadaan yang relevan dalam mengevaluasi apakah mereka memiliki kekuasaan atas Entitas Anak, termasuk:

- Pengaturan kontraktual dengan pemilik hak suara lainnya dari Entitas Anak,
- Hak yang timbul atas pengaturan kontraktual lain, dan
- Hak suara dan hak suara potensial yang dimiliki Grup.

Grup menilai kembali apakah mereka mengendalikan Entitas Anak bila fakta dan keadaan mengindikasikan adanya perubahan terhadap satu atau lebih dari ketiga elemen dari pengendalian. Konsolidasi atas Entitas Anak dimulai sejak Grup memperoleh pengendalian atas Entitas Anak dan tidak lagi mengkonsolidasikan ketika Grup kehilangan pengendalian atas Entitas Anak. Aset, liabilitas, penghasilan dan beban dari Entitas Anak yang diakuisisi pada tahun tertentu disertakan dalam laporan keuangan konsolidasian sejak tanggal Grup memperoleh kendali sampai tanggal Grup tidak lagi mengendalikan Entitas Anak tersebut.

Kombinasi bisnis dicatat dengan menggunakan metode akuisisi. Imbalan yang diserahkan untuk akuisisi suatu entitas anak adalah sebesar nilai wajar aset yang diserahkan, saham yang diterbitkan atau liabilitas yang diakui pada tanggal akuisisi. Kelebihan jumlah imbalan yang dialihkan dan nilai wajar jumlah kepentingan non-pengendali atas jumlah aset teridentifikasi bersih yang diperoleh dan kewajiban yang timbul dicatat sebagai *goodwill*. Jika jumlah imbalan yang diserahkan lebih rendah dari nilai wajar aset bersih entitas anak yang diakuisisi, selisihnya diakui langsung dalam laporan laba rugi konsolidasian.

Jika akuntansi awal untuk kombinasi bisnis belum selesai pada akhir periode pelaporan saat kombinasi terjadi, Grup melaporkan jumlah sementara untuk pos-pos yang proses akuntansinya belum selesai dalam laporan keuangannya. Selama periode pengukuran, pihak pengakuisisi menyesuaikan, aset atau liabilitas tambahan yang diakui, untuk mencerminkan informasi baru yang diperoleh tentang fakta dan keadaan yang ada pada tanggal akuisisi dan, jika diketahui, akan berdampak pada jumlah yang diakui pada tanggal tersebut.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

d. Principles of consolidation (continued)

When the Group has less than a majority of the voting or similar rights of a Subsidiary, the Group considers all relevant facts and circumstances in assessing whether it has power over a Subsidiary, including:

- The contractual arrangement with the other vote holders of the Subsidiary,*
- Rights arising from other contractual arrangements, and*
- The Group's voting rights and potential voting rights.*

The Group re-assesses whether or not it controls a Subsidiary if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a Subsidiary begins when the Group obtains control over the Subsidiary and ceases when the Group loses control of the Subsidiary. Assets, liabilities, income and expenses of a Subsidiary acquired during the year are included in the consolidated financial statements from the date the Group obtains the control up to the date of the Group ceases the control the Subsidiary.

The acquisition method is used to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets given, shares issued or liabilities incurred at the date of acquisition. The excess of the aggregate of the consideration transferred and the fair value of non-controlling interest over the net identifiable assets acquired and liabilities is recorded as goodwill. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated profit or loss.

If the initial accounting of a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amount recognised as of that date.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

d. Prinsip konsolidasian (lanjutan)

Untuk setiap akuisisi, Grup mengakui kepentingan non-pengendali pada pihak yang diakuisisi baik sebesar nilai wajar atau sebesar bagian proporsional kepentingan non-pengendali atas aset bersih pihak yang diakuisisi. Kepentingan non-pengendali disajikan di ekuitas dalam laporan posisi keuangan konsolidasian, terpisah dari ekuitas pemilik entitas induk.

Biaya terkait akuisisi dibebankan pada saat terjadinya.

Seluruh saldo dan transaksi termasuk keuntungan/kerugian yang belum direalisasi antara BNI dan Entitas Anak yang signifikan dieliminasi untuk mencerminkan posisi keuangan dan hasil usaha konsolidasian BNI dan Entitas Anak sebagai satu kesatuan usaha.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk peristiwa dan transaksi sejenis dalam kondisi yang sama. Apabila laporan keuangan Entitas Anak menggunakan kebijakan akuntansi yang berbeda dari kebijakan akuntansi yang digunakan dalam laporan keuangan konsolidasian, maka dilakukan penyesuaian yang diperlukan terhadap laporan keuangan Entitas Anak tersebut.

Kepentingan non-pengendali disajikan di ekuitas dalam laporan posisi keuangan konsolidasian dan dinyatakan sebesar proporsi pemegang saham non-pengendali atas laba tahun berjalan dan ekuitas Entitas Anak tersebut sesuai dengan persentase kepemilikan pemegang saham non-pengendali pada Entitas Anak tersebut.

Entitas Asosiasi

Entitas asosiasi adalah seluruh entitas dimana Grup memiliki pengaruh signifikan namun bukan pengendalian, biasanya melalui kepemilikan hak suara antara 20% dan 50%. Investasi pada entitas asosiasi dicatat dengan metode ekuitas, setelah pada awalnya diakui pada nilai perolehan dikurangi kerugian penurunan nilai, jika ada.

Investasi pada entitas asosiasi pada awalnya diakui sebesar biaya perolehan. Biaya perolehan diukur berdasarkan nilai wajar aset yang diserahkan, instrumen ekuitas yang diterbitkan atau liabilitas yang timbul atau diambil alih pada tanggal akuisisi, ditambah biaya yang berhubungan langsung dengan akuisisi.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

d. Principles of consolidation (continued)

The Group recognizes any non-controlling interests in the acquiree on an acquisition by acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. Non-controlling interests are reported as equity in the consolidated statement of financial position, separate from the owner of the parent's equity.

Acquisition-related costs are expensed as incurred.

All significant balances and transactions, including unrealized gains/losses among BNI and Subsidiaries are eliminated to reflect the consolidated financial position and results of operations of BNI and its Subsidiaries as a single entity.

The consolidated financial statements are prepared using uniform accounting policies for transactions and events in similar circumstances. If the Subsidiaries' financial statements use accounting policies different from those adopted in the consolidated financial statements, appropriate adjustments are made to the Subsidiaries' financial statements.

The non-controlling interest is presented in the equity of the consolidated statement of financial position and represents the non-controlling stockholders' proportionate share in the income for the year and equity of the Subsidiaries based on the percentage of ownership of the non-controlling stockholders in the Subsidiaries.

Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investment in associates are accounted for using the equity method of accounting, after initially being recognised at cost less impairment losses, if any.

Investment in an associate is initially recognised at cost. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued or liabilities incurred or assumed as at the date of acquisition, plus costs directly attributable to the acquisition.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

d. Prinsip konsolidasian (lanjutan)

Entitas Asosiasi (lanjutan)

Goodwill pada akuisisi entitas asosiasi merupakan selisih lebih yang terkait dengan biaya perolehan investasi pada entitas asosiasi dengan bagian Grup atas nilai wajar neto aset teridentifikasi dari entitas asosiasi dan dimasukkan dalam jumlah tercatat investasi.

Dalam menerapkan metode ekuitas, bagian Grup atas laba rugi entitas asosiasi setelah perolehan diakui dalam laba rugi, dan bagian Grup atas penghasilan komprehensif lain setelah tanggal perolehan diakui dalam penghasilan komprehensif lain.

Perubahan dan penerimaan distribusi dari entitas asosiasi setelah tanggal perolehan disesuaikan terhadap nilai tercatat investasi.

Jika bagian Grup atas rugi entitas asosiasi sama dengan atau melebihi kepentingannya pada entitas asosiasi, termasuk piutang tidak lancar tanpa jaminan, maka Grup menghentikan pengakuan bagiannya atas rugi lebih lanjut, kecuali Grup memiliki kewajiban untuk melakukan pembayaran atau telah melakukan pembayaran atas nama entitas asosiasi.

Keuntungan yang belum direalisasi atas transaksi antara Grup dengan entitas asosiasi dieliminasi sebesar bagian Grup dalam entitas asosiasi tersebut. Kerugian yang belum direalisasi juga dieliminasi kecuali transaksi tersebut memberikan bukti penurunan nilai atas aset yang ditransfer. Kebijakan akuntansi entitas asosiasi akan disesuaikan, apabila diperlukan, agar konsisten dengan kebijakan akuntansi Grup.

Dividen yang akan diterima dari entitas asosiasi diakui sebagai pengurang jumlah tercatat investasi.

Pada setiap tanggal pelaporan, Grup menentukan apakah terdapat bukti objektif bahwa telah terjadi penurunan nilai atas investasi pada entitas asosiasi. Jika bukti tersebut ada, maka Grup menghitung besarnya penurunan nilai sebagai selisih antara jumlah yang terpulihkan dan nilai tercatat atas investasi pada entitas asosiasi dan mengakui selisih tersebut pada laba rugi.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

d. Principles of consolidation (continued)

Associates (continued)

Goodwill on acquisition of an associate represents the excess of the cost of acquisition of the associate over the Group's share of the fair value of the identifiable net assets of the associate and is included in the carrying amount of the investment.

In applying the equity method of accounting, the Group's share of its associate's post-acquisition profit or loss is recognised in profit or loss and its share of post-acquisition other comprehensive income is recognised in other comprehensive income.

These post-acquisition movements and distributions received from an associate are adjusted against the carrying amounts of the investment.

When the Group's share of the losses of an associate equals or exceeds its interest in the associate, including any other unsecured non-current receivables, the Group does not recognise further losses, unless it has obligations to make or has made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associate are eliminated to the extent of the Group's interest in the associate. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset being transferred. The accounting policies of the associate will be changed where necessary to ensure consistency with the accounting policies adopted by the Group.

Dividend receivables from an associate are recognised as reductions in the carrying amounts of the investment.

The Group determines at each reporting date whether there is any objective evidence that the investment in an associate is impaired. If any such evidence exists, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in profit or loss.

Entitas Asosiasi (lanjutan)

Jika bagian kepemilikan entitas pada entitas asosiasi atau ventura bersama berkurang, tetapi investasi tetap diklasifikasikan masing-masing sebagai entitas asosiasi atau ventura bersama, maka entitas mereklasifikasi ke laba rugi proporsi keuntungan atau kerugian yang telah diakui sebelumnya dalam penghasilan komprehensif lain yang terkait dengan pengurangan bagian kepemilikan tersebut jika keuntungan atau kerugian tersebut disyaratkan untuk direklasifikasi ke laba rugi atas pelepasan aset atau liabilitas yang terkait.

**e. Transaksi dalam mata uang asing dan
penjabaran**

Transaksi dalam mata uang asing

Pos-pos yang disertakan dalam laporan keuangan setiap entitas anggota Grup diukur menggunakan mata uang yang sesuai dengan lingkungan ekonomi utama di mana entitas beroperasi ("mata uang fungsional").

BNI dan Entitas Anak yang berdomisili di Indonesia menyelenggarakan pembukuannya dalam mata uang Rupiah, kecuali untuk BNI Remittance yang pembukuan akuntansinya dilakukan dalam Dolar Amerika Serikat. Transaksi-transaksi dalam mata uang selain Rupiah yang terjadi di sepanjang tahun dicatat dengan nilai kurs yang berlaku pada saat terjadinya transaksi yang bersangkutan.

Laporan keuangan konsolidasian disajikan dalam Rupiah yang merupakan mata uang fungsional BNI.

Pada tanggal laporan posisi keuangan konsolidasian, aset dan liabilitas moneter dalam mata uang asing dijabarkan ke dalam mata uang Rupiah dengan menggunakan kurs tengah *Reuters* pada pukul 15:00 WIB. Keuntungan atau kerugian yang timbul sebagai akibat dari penjabaran aset dan liabilitas moneter dalam mata uang asing dicatat dalam laporan laba rugi konsolidasian tahun berjalan.

Transactions denominated in foreign currencies

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency").

BNI and its Subsidiaries domiciled in Indonesia maintain their accounting records in Rupiah, except for BNI Remittance in which its accounting records are maintained in United States Dollar. Transactions during the year involving currencies other than Rupiah are recorded at the exchange rates prevailing at the time the transactions were made.

The consolidated financial statements are presented in Rupiah, which is the functional currency of BNI.

At the consolidated statement of financial position date, all monetary assets and liabilities denominated in foreign currencies are translated to Rupiah using the Reuters middle rate at 15:00 Western Indonesian Time (WIB). The resulting gains or losses from the translation of monetary assets and liabilities in foreign currencies are recognized in the consolidated statement of profit or loss for the current year.

Penjabaran aset dan liabilitas dalam mata
uang asing (lanjutan)

Pada tanggal 31 Desember 2022 dan 2021,
kurs mata uang asing yang digunakan untuk
penjabaran mata uang asing terhadap Rupiah
adalah sebagai berikut (dalam Rupiah
penuh):

	2022	2021
1 Pound Sterling Inggris	18,786	19,251
1 Euro Eropa	16,582	16,112
1 Dolar Amerika Serikat	15,568	14,253
1 Dolar Singapura	11,593	10,555
1 Dolar Australia	10,558	10,347
1 Dolar Hong Kong	1,997	1,828
1 Yen Jepang	118	124

Penjabaran laporan keuangan sehubungan
dengan konsolidasian laporan cabang BNI
yang berkedudukan di luar negeri

Cabang BNI yang berkedudukan di luar
negeri menyelenggarakan pembukuannya
dalam mata uang negara tempat
kedudukannya.

Untuk tujuan konsolidasian, laporan
keuangan cabang BNI tersebut dijabarkan ke
dalam mata uang Rupiah dengan cara
sebagai berikut:

- Saldo akun-akun aset dan liabilitas
dijabarkan dengan menggunakan kurs
spot Reuters jam 15:00 WIB pada
tanggal laporan posisi keuangan
konsolidasian;
- Saldo akun-akun laba rugi setiap
bulannya dijabarkan dengan
menggunakan kurs *spot Reuters* jam
15:00 WIB rata-rata untuk bulan yang
bersangkutan. Saldo untuk tahun
berjalan merupakan jumlah dari
penjabaran bulanan tersebut;
- Akun ekuitas dijabarkan dengan
menggunakan kurs historis; dan
- Selisih yang timbul sebagai akibat dari
penjabaran ini disajikan di laporan posisi
keuangan konsolidasian sebagai bagian
dari ekuitas pada akun "Selisih Kurs
karena Penjabaran Laporan Keuangan
dalam Mata Uang Asing".

translations (continued)**

Translation of assets and liabilities
denominated in foreign currencies (continued)

As of 31 December 2022 and 2021, the
foreign currency exchange rates used for
translation of foreign currencies to Rupiah are
as follows (amounts in full Rupiah):

	2022	2021	
1 Pound Sterling Inggris	18,786	19,251	Great Britain Pound Sterling 1
1 Euro Eropa	16,582	16,112	European Euro 1
1 Dolar Amerika Serikat	15,568	14,253	United States Dollar 1
1 Dolar Singapura	11,593	10,555	Singapore Dollar 1
1 Dolar Australia	10,558	10,347	Australian Dollar 1
1 Dolar Hong Kong	1,997	1,828	Hong Kong Dollar 1
1 Yen Jepang	118	124	Japanese Yen 1

Translation of financial statements relating to
consolidation of BNI branches domiciled
outside of Indonesia

BNI's branches domiciled outside of
Indonesia maintain their accounting records
in their respective domestic currencies.

For consolidation purposes, the financial
statements of such branches domiciled
outside of Indonesia are translated into
Rupiah as follows:

- Assets and liabilities accounts are
translated using the Reuters spot rates at
15:00 WIB at the consolidated statement
of financial position date;
- Revenues and expenses accounts are
translated using the average Reuters
spot rate at 15:00 WIB for the respective
month. The balances for the year
represent the sum of those monthly
translations;
- Equity accounts are recorded using the
historical rates; and
- Differences arising from translation are
presented in the consolidated statement
of financial position balance as part of
equity under "Exchange Difference on
Translation of Foreign Currency Financial
Statements".

f. Giro pada bank lain dan Bank Indonesia

Giro pada bank lain dan Bank Indonesia
diklasifikasikan sebagai biaya perolehan yang
diamortisasi. Giro pada bank lain dan Bank
Indonesia dinyatakan sebesar biaya
perolehan diamortisasi menggunakan metode
suku bunga efektif dikurangi cadangan
kerugian penurunan nilai.

Lihat Catatan 2c untuk kebijakan akuntansi
atas aset dan liabilitas keuangan.

**g. Penempatan pada bank lain dan Bank
Indonesia**

Penempatan pada bank lain dan Bank
Indonesia terdiri dari *Deposit Facility* Bank
Indonesia, *Term Deposit*, *call money* dan
deposito berjangka.

Penempatan pada bank lain dan Bank
Indonesia diklasifikasikan sebagai biaya
perolehan yang diamortisasi. Penempatan
pada bank lain dinyatakan sebesar biaya
perolehan diamortisasi menggunakan metode
suku bunga efektif dikurangi cadangan
kerugian penurunan nilai.

Lihat Catatan 2c untuk kebijakan akuntansi
atas aset dan liabilitas keuangan.

h. Efek-efek dan Obligasi Pemerintah

Efek-efek yang dimiliki terdiri dari Sertifikat
Bank Indonesia (SBI), Sertifikat Deposito Bank
Indonesia, unit penyertaan reksa dana,
obligasi, obligasi subordinasi dan instrumen
utang lainnya yang diperdagangkan di pasar
uang dan pasar modal.

Obligasi Pemerintah terdiri dari Obligasi
Rekapitalisasi Pemerintah yang diterbitkan
kepada BNI dan bank lainnya berkaitan
dengan program rekapitalisasi Pemerintah dan
obligasi lainnya yang diterbitkan oleh
Pemerintah Indonesia dan negara lainnya
yang tidak berkaitan dengan program
rekapitalisasi yang diperoleh melalui pasar
perdana dan sekunder.

Pada saat pengakuan awal, efek-efek dan
Obligasi Pemerintah dicatat sesuai dengan
kategorinya yaitu aset keuangan
diklasifikasikan pada biaya perolehan yang
diamortisasi, nilai wajar melalui penghasilan
komprehensif lain atau nilai wajar melalui laba
rugi.

Lihat Catatan 2c untuk kebijakan akuntansi
atas aset dan liabilitas keuangan.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

**f. Current accounts with other banks and
Bank Indonesia**

The current accounts with other banks and
Bank Indonesia are classified as amortized
cost. Current accounts with other banks and
Bank Indonesia are stated at amortized cost
using the effective interest rate method less
allowance for impairment losses.

Refer to Note 2c for the accounting policies of
financial assets and liabilities.

**g. Placements with other banks and Bank
Indonesia**

Placements with other banks and Bank
Indonesia consist of Bank Indonesia Deposit
Facility, Term Deposit, call money and time
deposits.

Placements with other banks and Bank
Indonesia are classified as amortized cost.
Placements with other banks are stated at
amortized cost using the effective interest
rate method less allowance for impairment
losses.

Refer to Note 2c for the accounting policies of
financial assets and liabilities.

**h. Marketable securities and Government
Bonds**

Marketable securities consist of Certificates of
Bank Indonesia (SBI), Certificates Deposits of
Bank Indonesia, mutual fund units, bonds,
subordinated bonds and other debt
instruments traded in the money market and
stock exchanges.

Government Bonds consist of Government
Recapitalization Bonds issued to BNI and
other banks with respect to the recapitalization
program of the Government and other bonds
issued by the Government of Indonesia and
other countries, that are not related to the
recapitalization program, acquired through the
primary and secondary markets.

At initial recognition, the marketable securities
and Government Bonds are recorded
according to their category, i.e., amortized
cost, fair value through other comprehensive
income or at fair value through profit or loss.

Refer to Note 2c for the accounting policies of
financial assets and liabilities.

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

h. Efek-efek dan Obligasi Pemerintah (lanjutan)

Surat Berharga Syariah adalah surat bukti investasi berdasarkan prinsip syariah yang lazim diperdagangkan di pasar uang syariah dan/atau pasar modal syariah antara lain obligasi syariah (sukuk) dan surat berharga lainnya berdasarkan prinsip syariah.

Pada saat pengakuan awal, Grup mengakui investasi pada sukuk sebagai diukur pada biaya perolehan dan pada nilai wajar melalui penghasilan komprehensif lain sebesar nilai wajar ditambah atau dikurangi biaya transaksi terkait perolehan investasi tersebut. Sedangkan investasi pada Sukuk ijarah dan sukuk mudharabah yang diukur pada nilai wajar melalui laba rugi diakui sebesar nilai wajar.

Grup menentukan klasifikasi investasi pada surat berharga, khususnya sukuk, berdasarkan model usaha yang ditentukan berdasarkan klasifikasi sesuai PSAK 110 (Revisi 2020) tentang "Akuntansi Sukuk" sebagai berikut:

- Surat berharga diukur pada biaya perolehan disajikan sebesar biaya perolehan (termasuk biaya investasi) yang yang disesuaikan dengan premi dan/atau diskonto yang belum diamortisasi. Premi dan diskonto diamortisasi selama periode hingga jatuh tempo.
- Surat berharga diukur pada nilai wajar melalui laba rugi, yang dinyatakan sebesar nilai wajar. Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajarnya disajikan dalam laporan laba rugi periode yang bersangkutan.
- Surat berharga yang diukur pada nilai wajar melalui penghasilan komprehensif lainnya disajikan sebesar nilai wajar. Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajarnya disajikan dalam penghasilan komprehensif lain. Premi dan diskonto diamortisasi selama periode hingga jatuh tempo.

FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

**h. Marketable securities and Government
Bonds (continued)**

Sharia Securities are proof of investment based on sharia principles that are commonly traded in the sharia money market and/or sharia capital markets, including sharia bonds (sukuk) and other securities following sharia principles.

At initial recognition, the Group recognise investments in sukuk are stated at cost and measured at fair value through other comprehensive income at fair value increase/decrease transaction cost related to acquisition investment. Where as investment in sukuk ijarah and sukuk mudharabah measured at fair value through profit and loss and recognise at fair value.

The Group defines the classification of investment in marketable securities, specifically sukuk, based on business model in accordance with SFAS 110 (Revised 2020) on "Accounting for Sukuk" as follows:

- *At cost securities are stated at cost (including transaction costs), adjusted by unamortised premium and/or discount. Premium and discount are amortised over the period until maturity.*
- *Securities are stated at fair values through profit or loss, and stated at fair value. Unrealized gains or losses from the increase or decrease in fair values are presented in current period profit or loss.*
- *At fair value through other comprehensive income securities are measured at fair value. Unrealized gains or losses from the increase or decrease in fair value are presented in other comprehensive income. Premium and discount are amortized over the period until maturity.*

31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

**i. Efek-efek yang dibeli/dijual dengan janji
dijual/dibeli kembali**

Efek-efek yang dibeli dengan janji untuk dijual kembali diklasifikasikan sebagai biaya perolehan yang diamortisasi.

Efek-efek yang dibeli dengan janji untuk dijual kembali disajikan sebagai aset dalam laporan posisi keuangan konsolidasian sebesar jumlah penjualan kembali dikurangi dengan pendapatan bunga yang belum diamortisasi dan cadangan kerugian penurunan nilai. Selisih antara harga beli dan harga jual kembali diperlakukan sebagai pendapatan bunga yang ditangguhkan, dan diakui sebagai pendapatan selama periode sejak efek-efek tersebut dibeli hingga dijual menggunakan suku bunga efektif.

Efek-efek yang dijual dengan janji untuk dibeli kembali diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Efek-efek yang dijual dengan janji untuk dibeli kembali disajikan sebagai liabilitas dalam laporan posisi keuangan konsolidasian sebesar jumlah pembelian kembali, dikurangi dengan bunga dibayar di muka yang belum diamortisasi. Selisih antara harga jual dan harga beli kembali diperlakukan sebagai bunga dibayar di muka dan diakui sebagai beban bunga selama jangka waktu sejak efek-efek tersebut dijual hingga dibeli kembali menggunakan metode suku bunga efektif.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

k. Instrumen keuangan derivatif

Dalam melakukan usaha bisnisnya, BNI melakukan transaksi instrumen keuangan derivatif seperti kontrak berjangka mata uang asing, swap mata uang asing, swap atas suku bunga, dan transaksi *spot* untuk mengelola eksposur pada risiko pasar seperti risiko mata uang dan risiko tingkat suku bunga.

Instrumen keuangan derivatif diakui di laporan posisi keuangan konsolidasian pada nilai wajar. Setiap kenaikan nilai wajar kontrak derivatif dicatat sebagai aset apabila memiliki nilai wajar positif dan sebagai liabilitas apabila memiliki nilai wajar negatif.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

**i. Securities purchased/sold under
agreements to resell/repurchase**

Securities purchased under agreements to resell are classified as amortized cost.

Securities purchased under agreements to resell are presented as assets in the consolidated statement of financial position, at the resale price net of unamortized interest income and allowance for impairment losses. The difference between the purchase price and the resale price is treated as unearned interest income, and recognized as income over the period starting from when those securities are purchased until they are sold using effective interest rate method.

Securities sold under agreements to repurchase are classified as financial liabilities measured at amortized cost.

Securities sold under agreements to repurchase are presented as liabilities in the consolidated statement of financial position, at the repurchase price, net of unamortized prepaid interest. The difference between the selling price and the repurchase price is treated as prepaid interest and recognized as interest expense over the period starting from when those securities are sold until they are repurchased using effective interest rate method.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

k. Derivative financial instruments

In the normal course of its business, BNI enters into transactions involving derivative financial instruments such as foreign currency forward contracts, foreign currency swaps, interest rate swaps, and spot transactions to manage exposures on market risks, such as currency risk and interest rate risks.

Derivative financial instruments are recognized in the consolidated statement of financial position at fair value. Each increase in fair value derivative contract is carried as asset when the fair value is positive and as liability when the fair value is negative.

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

k. Instrumen keuangan derivatif (lanjutan)

Tagihan dan liabilitas derivatif diklasifikasikan sebagai aset dan liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi.

Keuntungan atau kerugian yang terjadi dari perubahan nilai wajar diakui dalam laporan laba rugi konsolidasian.

Nilai wajar instrumen derivatif ditentukan berdasarkan diskonto arus kas dan model penentu harga atau harga yang diberikan oleh broker (*quoted price*) atas instrumen lainnya yang memiliki karakteristik serupa.

Kontrak berjangka mata uang asing, *swap* mata uang asing dan *cross currency swap* dan tingkat suku bunga *swap* dilakukan untuk tujuan pendanaan dan perdagangan.

l. Pinjaman yang diberikan

Pinjaman yang diberikan

Pinjaman yang diberikan adalah penyediaan uang atau tagihan yang dapat disetarakan dengan itu, berdasarkan persetujuan atau kesepakatan pinjam-meminjam dengan debitur yang mewajibkan debitur untuk melunasi utang dan bunganya setelah jangka waktu tertentu, dan tagihan yang berasal dari fasilitas *trade finance* yang telah jatuh tempo yang belum diselesaikan dalam waktu 15 hari.

Pinjaman yang diberikan diklasifikasikan sebagai biaya perolehan yang diamortisasi.

Pinjaman yang diberikan pada awalnya diukur pada nilai wajar ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung untuk memperoleh aset keuangan tersebut, dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi dengan cadangan kerugian penurunan nilai.

Pinjaman sindikasi dan pinjaman penerusan dicatat sesuai dengan porsi pinjaman yang risikonya ditanggung oleh Grup.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

k. Derivative financial instruments (continued)

Derivative receivable and payable are classified as financial assets and liabilities at fair value through profit or loss.

Gains or losses resulting from fair value changes are recognized in the consolidated statement of profit or loss.

The fair value of derivative instruments is determined based on discounted cash flows and pricing models or quoted prices from brokers of other instruments with similar characteristics.

Foreign currency forward contracts, foreign currency swaps, and cross currency and interest rate swaps are for funding and trading purposes.

l. Loans

Loans

Loans represent funds provided or receivables that can be considered as equivalents there of, based on agreements or financing contracts with borrowers, where borrowers are required to repay their debts with interest after a specified period, and matured trade finance facilities which have not been settled within 15 days.

Loans are classified as amortized cost.

Loans are initially measured at fair value plus transaction costs that are directly attributable obtain financial assets, and after initial recognition are measured at amortized cost based on the effective interest rate method less allowance for impairment losses.

Syndicated loans and two step loans are recorded according to the proportion of risks borne by the Group.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

m. Kontrak jaminan keuangan

Kontrak jaminan keuangan adalah kontrak yang mengharuskan penerbit untuk melakukan pembayaran yang ditetapkan untuk mengganti uang pemegang kontrak atas kerugian yang terjadi karena debitur tertentu gagal untuk melakukan pembayaran pada saat jatuh tempo, sesuai dengan ketentuan dari instrumen hutang. Jaminan keuangan tersebut diberikan kepada bank-bank, lembaga keuangan dan badan-badan lainnya atas nama debitur untuk menjamin kredit dan fasilitas-fasilitas perbankan lainnya.

Jaminan keuangan diakui awalnya sebesar nilai wajar pada tanggal jaminan diberikan. Nilai wajar dari jaminan keuangan pada saat dimulainya transaksi pada umumnya sama dengan provisi yang diterima untuk jaminan diberikan dengan syarat dan kondisi normal. Pendapatan provisi yang diperoleh diamortisasi selama jangka waktu jaminan menggunakan metode garis lurus.

Setelah pengakuan awal kontrak, jaminan keuangan dicatat pada nilai yang lebih tinggi antara nilai wajar amortisasi dengan nilai kerugian kredit ekspektasian sesuai PSAK 71 "Instrumen Keuangan".

Cadangan kerugian penurunan nilai atas kontrak jaminan keuangan yang memiliki risiko kredit dihitung berdasarkan model kerugian ekspektasian.

n. Tagihan dan liabilitas akseptasi

Tagihan akseptasi diklasifikasikan sebagai aset keuangan dalam kelompok biaya perolehan diamortisasi. Liabilitas akseptasi diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

o. Penyertaan saham

Penyertaan saham merupakan penanaman dana dalam bentuk saham pada perusahaan non-publik yang bergerak di bidang jasa keuangan untuk tujuan jangka panjang.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

m. Financial guarantee contracts

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss incurred because a specified debtor defaulted to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other institutions on behalf of customers to secure loans and other banking facilities.

Financial guarantees are initially recognized at fair value on the date the guarantee was given. The fair value of a financial guarantee at inception is likely to equal the premium received because all guarantors are agreed on arm's length terms. The fee income earned is amortized over the period of guarantees using the straight line method.

After initial recognition of the contract, the financial guarantee is recorded at the higher of the amortized fair value and the expected credit loss value in accordance with SFAS 71 "Financial Instrument".

Allowances for impairment on financial guarantee contracts with credit risk are calculated based on expected credit losses model.

n. Acceptance receivables and payables

Acceptance receivables are classified as financial assets measured at amortized cost. Acceptance liabilities are classified financial liabilities measured at amortized cost.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

o. Equity investments

Equity investments represent investments in the form of shares of stock, in non-public companies engaged in financial services held for long-term purposes.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

o. Penyertaan saham (lanjutan)

Investasi dengan persentase kepemilikan di bawah 20% dan tidak memiliki pengaruh signifikan yang diklasifikasikan sebagai aset keuangan yang dimiliki untuk dijual dicatat pada nilai wajar melalui laba rugi.

Investasi dengan persentase kepemilikan di bawah 20% dan tidak memiliki pengaruh signifikan yang diklasifikasikan sebagai aset keuangan yang dimiliki tidak untuk dijual dicatat pada nilai wajar melalui penghasilan komprehensif lain.

Penyertaan sementara pada perusahaan debitur timbul akibat konversi pinjaman yang diberikan menjadi saham. Pada saat pengakuan awal, saham yang diterima diakui dengan nilai wajar. Selanjutnya, saham tersebut dinilai dengan menggunakan metode ekuitas apabila BNI memiliki pengaruh signifikan terhadap *investees* dan diklasifikasikan sebagai aset keuangan apabila BNI tidak memiliki pengaruh signifikan terhadap *investees*.

p. Aset tetap, aset hak guna, liabilitas sewa dan aset tak berwujud

Aset tetap

Grup menerapkan kebijakan akuntansi model revaluasi untuk aset tetap berupa tanah dan bangunan. Untuk aset tetap selain tanah dan bangunan menggunakan model biaya.

Tanah dan bangunan disajikan sebesar nilai wajar, dikurangi akumulasi penyusutan untuk bangunan. Penilaian terhadap tanah dan bangunan dilakukan oleh penilai independen eksternal yang telah memiliki sertifikasi. Penilaian atas aset tersebut dilakukan secara berkala untuk memastikan bahwa nilai wajar aset yang direvaluasi tidak berbeda secara material dengan nilai tercatatnya. Nilai tercatat bruto disesuaikan dengan cara yang konsisten dengan nilai tercatat revaluasi aset. Sebagai contoh, nilai tercatat bruto dapat direvaluasi dengan mengacu pada data pasar yang dapat diobservasi atau dapat direvaluasi secara proporsional dengan perubahan nilai tercatat. Akumulasi penyusutan pada tanggal revaluasi disesuaikan dengan selisih antara nilai tercatat bruto dan nilai tercatat aset setelah memperhitungkan akumulasi kerugian penurunan nilai.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

o. Equity investments (continued)

Investments with an ownership interest below 20% and have no significant influence classified as financial asset which held for sale is measured at fair value through profit or loss.

Investments with an ownership interest below 20% and have no significant influence classified as financial asset which are not held for sale are measured at fair value through other comprehensive income.

Temporary investments in debtor companies arise from conversion of loans to shares/equity. At initial recognition, shares received were recognized at fair value. Subsequently, the shares were recognized using equity method if BNI has significant influence over the investees or classified as financial asset if BNI does not have significant influence over the investees.

p. Fixed assets, right-of-use assets, lease liabilities and intangible assets

Fixed assets

Group applies revaluation model as accounting policy for land and buildings. For fixed assets other than land and buildings, it applies cost model.

Land and buildings are shown at fair value, less subsequent depreciation for buildings. Valuation of land and buildings are performed by external independent valuers with certain qualification. Valuations are performed with sufficient regularity to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be revalued by reference to observable market data or it may be revalued proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the assets after taking into account accumulated impairment losses.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

p. Aset tetap, aset hak guna, liabilitas sewa dan aset tak berwujud (lanjutan)

Aset tetap (lanjutan)

Jika nilai wajar dari aset yang direvaluasi mengalami perubahan yang signifikan dan fluktuatif, maka perlu direvaluasi secara tahunan, sedangkan jika nilai wajar dari aset yang direvaluasi tidak mengalami perubahan yang signifikan dan fluktuatif, maka perlu dilakukan revaluasi paling kurang 3 tahun sekali.

Kenaikan nilai tercatat yang timbul dari revaluasi tanah dan bangunan dicatat sebagai “Cadangan Revaluasi Aset” dan disajikan sebagai “Penghasilan Komprehensif Lain”. Penurunan nilai tercatat yang timbul dari revaluasi dicatat sebagai beban pada tahun berjalan. Apabila aset tersebut memiliki saldo “Keuntungan Revaluasi Aset Tetap” yang disajikan sebagai “Penghasilan Komprehensif Lain”, maka selisih penurunan nilai tercatat tersebut dibebankan terhadap “Keuntungan Revaluasi Aset Tetap” dan sisanya diakui sebagai beban tahun berjalan.

Aset tetap selain tanah dan bangunan disajikan sebesar harga perolehan dikurangi dengan akumulasi penyusutan.

Biaya perolehan termasuk biaya penggantian bagian aset tetap saat biaya tersebut terjadi, jika memenuhi kriteria pengakuan.

Semua biaya pemeliharaan dan perbaikan yang tidak memenuhi kriteria untuk dikapitalisasi diakui dalam laporan laba rugi pada saat terjadinya. Pada setiap akhir tahun buku, nilai residu, umur manfaat, dan metode penyusutan ditelaah kembali dan jika sesuai dengan keadaan, disesuaikan secara prospektif.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

p. Fixed assets, right-of-use assets, lease liabilities and intangible assets (continued)

Fixed assets (continued)

If the fair value of the revalued asset change significantly, it is necessary to revaluate on an annual basis, whereas if the fair value of the revaluated asset does not change significantly, it is necessary to revaluate at a minimum every 3 years.

Increases in the carrying amount arising on revaluation of land and building is recorded in “Asset Revaluation Reserve” and presented as “Other Comprehensive Income”. Decreases in carrying amount as the result of revaluation is recorded as expense in the current year. If the asset has a balance on its “Gain on Revaluation of Fixed Assets”, loss from revaluation of fixed asset is charged to “Gain on Revaluation of Fixed Assets” which is presented as “Other Comprehensive Income” and the rest of the amount is charged to current year’s expenses.

Fixed assets besides land and buildings are stated at historical cost less accumulated depreciation.

Cost includes the replacement cost of a part of the fixed assets when the expenditure meets the criteria for recognition.

All maintenance and repair costs which do not fulfill the capitalization criteria, are recognized in profit or loss upon occurrence. At each financial year end, the assets’ residual values, useful lives and methods of depreciation are reviewed, and adjusted prospectively as appropriate.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

**p. Aset tetap, aset hak guna, liabilitas sewa
dan aset tak berwujud (lanjutan)**

Aset tetap (lanjutan)

Semua aset tetap kecuali tanah, disusutkan berdasarkan metode garis lurus selama estimasi masa manfaat aset tersebut sebagai berikut:

	Tarif Penyusutan/ Depreciation Rate
Bangunan	6.67%
Perlengkapan kantor dan kendaraan bermotor	20.00%

Perlengkapan kantor terdiri dari perabotan dan perlengkapan, instalasi, Anjungan Tunai Mandiri (ATM), perangkat lunak dan perangkat keras komputer, peralatan komunikasi dan peralatan kantor lainnya.

Grup menganalisa fakta dan keadaan untuk masing-masing jenis hak atas tanah dalam menentukan akuntansi untuk masing-masing hak atas tanah tersebut sehingga dapat merepresentasikan dengan tepat suatu kejadian atau transaksi ekonomi yang mendasarinya. Jika hak atas tanah tersebut tidak mengalihkan pengendalian atas aset pendasar kepada Grup, melainkan mengalihkan hak untuk menggunakan aset pendasar, Grup menerapkan perlakuan akuntansi atas transaksi tersebut sebagai sewa berdasarkan PSAK 73 "Sewa", kecuali jika hak atas tanah secara substansi menyerupai pembelian tanah, maka Grup menerapkan PSAK 16 "Aset tetap".

Apabila nilai tercatat aset lebih besar dari nilai yang dapat diperoleh kembali, nilai tercatat aset diturunkan menjadi sebesar nilai yang dapat diperoleh kembali, yang ditentukan sebagai nilai tertinggi antara harga jual neto dan nilai yang dipakai.

Apabila aset tetap tidak digunakan lagi atau dijual, maka nilai perolehan dan akumulasi penyusutannya dihapuskan dari akun tersebut. Keuntungan atau kerugian yang terjadi diakui dalam laporan laba rugi.

**NOTES TO THE CONSOLIDATED

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

**p. Fixed assets, right-of-use assets, lease
liabilities and intangible assets (continued)**

Fixed assets (continued)

All fixed assets, except land, are depreciated using the straight-line method over their expected useful lives as follows:

Tahun/Years	
15	<i>Buildings</i>
5	<i>Office equipment and motor vehicles</i>

Office equipment consists of furniture and fixtures, installation, Automatic Teller Machines (ATM), computer software and hardware, communication and other office equipment.

The Group analyses the facts and circumstances for each type of landrights in determining the accounting for each of these land rights so that it can accurately represent an underlying economic event or transaction. If the landrights do not transfer control of the underlying assets to the Group, but gives the rights to use the underlying assets, the Group applies the accounting treatment of these transactions as leases under SFAS 73 "Leases", except if landrights substantially similar to land purchases, the Group applies SFAS 16 "Property, plant and equipment".

When the carrying amount of an asset is greater than its estimated recoverable amount, it is written down to its recoverable amount, which is determined as the higher of the net selling price or value in use.

When fixed assets are retired or disposed of, their costs and the related accumulated depreciation are derecognized from the accounts. Any resulting gain or loss is recognized in profit or loss.

PENTING (lanjutan)**

**p. Aset tetap, aset hak guna, liabilitas sewa
dan aset tak berwujud (lanjutan)**

Aset tetap (lanjutan)

Akumulasi biaya konstruksi aset tetap dikapitalisasi dan dicatat sebagai "Aset dalam Penyelesaian". Biaya tersebut direklasifikasi ke akun aset tetap yang terkait pada saat proses konstruksi atau pemasangan telah selesai.

Aset hak guna dan liabilitas sewa

Pada tanggal permulaan kontrak, Grup menilai apakah kontrak merupakan atau mengandung sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan. Grup dapat memilih untuk tidak mengakui aset hak guna dan liabilitas sewa untuk:

- Sewa dengan jangka waktu kurang atau sama dengan 12 bulan dan tidak terdapat opsi beli;
- Sewa atas aset dengan nilai rendah.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Grup harus menilai apakah:

- Grup memiliki hak untuk mendapatkan secara substansial seluruh manfaat ekonomi dari penggunaan aset identifikasian; dan
- Grup memiliki hak untuk mengarahkan penggunaan aset identifikasian. Grup memiliki hak ini ketika Grup memiliki hak untuk pengambilan keputusan yang relevan tentang bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya:
 1. Grup memiliki hak untuk mengoperasikan aset; dan
 2. Grup telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

**p. Fixed assets, right-of-use assets, lease
liabilities and intangible assets (continued)**

Fixed assets (continued)

The accumulated costs of construction of fixed assets are capitalized and recognized as "Construction in progress". These costs are reclassified to the related fixed asset account when the construction or installation is completed.

Right-of-use assets and lease liabilities

At the inception of a contract, the Group assesses whether the contract is or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration. The Group can choose not to recognise the right-of-use asset and lease liabilities for:

- Leases with a term of less or equal to 12 months and there is no call option;
- Leases of low value assets.

To assess whether a contract conveys the right to control the use of an identified asset, the Group shall assess whether:

- The Group has the right to obtain substantially all the economic benefit from use of the asset throughout the period of use; and
- The Group has the right to direct the use of the asset. The Group has described when it has a decision-making right that are the most relevant to changing how and for what purpose the asset is used are predetermined:
 1. The Group has the right to operate the asset; and
 2. The Group has designed the asset in a way that predetermine how and for what purposes it will be used.

DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

- p. **Aset tetap, aset hak guna, liabilitas sewa dan aset tak berwujud (lanjutan)**

Aset hak guna dan liabilitas sewa (lanjutan)

Pada tanggal permulaan sewa, Grup mengakui aset hak-guna dan liabilitas sewa. Aset hak guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah dengan biaya langsung awal yang dikeluarkan. Aset hak guna diamortisasi dengan menggunakan metode garis lurus sepanjang jangka waktu sewa.

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental. Pada umumnya, Grup menggunakan suku bunga pinjaman inkremental sebagai tingkat bunga diskonto.

Pembayaran sewa dialokasikan menjadi bagian pokok dan biaya keuangan. Biaya keuangan dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas untuk setiap periode.

Jika sewa mengalihkan kepemilikan aset pendasar kepada Grup pada akhir masa sewa atau jika biaya perolehan aset hak guna merefleksikan Grup akan mengeksekusi opsi beli, maka Grup menyusutkan aset hak guna dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

- p. **Fixed assets, right-of-use assets, lease liabilities and intangible assets (continued)**

Right-of-use assets and lease liabilities (continued)

The Group recognises a right-of-use asset and a leases liability at the leases commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the leases liability adjusted for any leases payment made at or before the commencement date, plus any initial direct cost incurred. The right-of-use asset is amortized over the straight-line method throughout the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that right cannot be readily determined, using incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as a discount rate.

Each leases payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the leases period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

If the leases transfers ownership of the underlying asset to the Group by the end of the leases term or if the cost of the right-of-use asset reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use asset from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the leases term.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

- p. **Aset tetap, aset hak guna, liabilitas sewa dan aset tak berwujud (lanjutan)**

Modifikasi sewa

Grup mencatat modifikasi sewa sebagai sewa terpisah jika:

- Modifikasi meningkatkan ruang lingkup sewa dengan menambahkan hak untuk menggunakan satu aset pendasar atau lebih;
- Imbalan sewa meningkat sebesar jumlah yang setara dengan harga tersendiri untuk peningkatan dalam ruang lingkup dan penyesuaian yang tepat pada harga tersendiri tersebut untuk merefleksikan kondisi kontrak tertentu.

Aset tak berwujud

Aset tak berwujud diakui jika, dan hanya jika, biaya perolehan aset tersebut dapat diukur secara andal dan kemungkinan besar Bank dan Entitas Anak akan memperoleh manfaat ekonomis masa depan dari aset tersebut. Aset tak berwujud terdiri dari *goodwill*, hubungan pelanggan dan merek dagang yang diperoleh pada saat akuisisi.

Lihat Catatan 2d untuk kebijakan akuntansi terkait *goodwill*.

q. Agunan yang diambil alih

Agunan yang diambil alih disajikan dalam akun "Aset Lain-lain".

Agunan yang diambil alih (AYDA) adalah aset yang diperoleh BNI dan Entitas Anak, baik melalui pelelangan maupun diluar pelelangan berdasarkan penyerahan secara sukarela oleh pemilik agunan atau berdasarkan kuasa untuk menjual diluar lelang dari pemilik agunan dalam hal debitur tidak memenuhi liabilitasnya kepada BNI dan Entitas Anak. AYDA merupakan jaminan kredit yang diberikan yang telah diambil alih sebagai bagian dari penyelesaian kredit yang diberikan dan disajikan pada "Aset Lain-lain".

Agunan yang diambil alih diakui sebesar nilai neto yang dapat direalisasi atau sebesar nilai *outstanding* kredit yang diberikan, mana yang lebih rendah. Nilai neto yang dapat direalisasi adalah nilai wajar agunan yang diambil alih dikurangi dengan estimasi biaya untuk menjual agunan tersebut. Selisih lebih saldo kredit di atas nilai neto yang dapat direalisasi dari agunan yang diambil alih dibebankan ke dalam akun cadangan kerugian penurunan nilai aset. Selisih antara nilai agunan yang diambil alih dengan hasil penjualan diakui sebagai keuntungan atau kerugian pada saat penjualan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

- p. **Fixed assets, right-of-use assets, lease liabilities and intangible assets (continued)**

Lease modification

The Group account for a lease modification as a separate lease if both:

- *The modification increases the scope of the lease by adding the right to use one or more underlying assets;*
- *The consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.*

Intangible Assets

Intangible assets are recognized if, and only if the cost of the asset can be measured reliably and it is probable that the Bank and Subsidiaries will obtain future economic benefits from the asset. Intangible assets consist of goodwill, customer relationships and trademarks acquired by the Bank and Subsidiaries when acquisition.

Refer to Note 2d for the accounting policies of goodwill.

q. Foreclosed collaterals

Foreclosed collaterals are included in the "Other Assets" account.

Foreclosed collaterals represent assets acquired by BNI and Subsidiaries, both from auction and non auction based on voluntary transfer by the debtor or based on debtor's approval to sell the collateral where the debtor could not fulfill their obligations to BNI and Subsidiaries. Foreclosed collaterals represent loan collateral that were taken over as part of loans settlement and presented in "Other Assets".

Foreclosed collaterals are stated at net realizable value or stated at loan outstanding amount, whichever is lower. Net realizable value is the fair value of the foreclosed collaterals less the estimated costs to sell the assets. The excess of loan receivable over the net realizable value of the foreclosed collateral is charged to allowance for impairment losses. The difference between the recorded amount of the foreclosed collateral and the proceeds from the sale of such collateral is recorded as a gain or loss at the time of sale.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

q. Agunan yang diambil alih (lanjutan)

Beban-beban yang berkaitan dengan pemeliharaan agunan yang diambil alih dibebankan dalam laporan laba rugi pada saat terjadinya.

Bila terjadi penurunan nilai yang bersifat permanen, maka nilai tercatatnya dikurangi untuk mengakui penurunan tersebut dan kerugiannya dibebankan dalam laporan laba rugi.

r. Liabilitas segera

Liabilitas segera dicatat pada saat liabilitas kepada masyarakat maupun kepada bank lain timbul.

Akun ini diklasifikasikan sebagai liabilitas keuangan lain dan dihitung berdasarkan biaya perolehan diamortisasi.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

s. Simpanan nasabah

Tabungan merupakan simpanan nasabah di BNI dan Entitas Anak yang bergerak di bidang perbankan yang penarikannya hanya dapat dilakukan melalui *counter* dan Anjungan Tunai Mandiri (ATM) atau dengan cara pemindahbukuan melalui *SMS Banking, Phone Banking, Mobile Banking* dan *Internet Banking* jika memenuhi persyaratan yang disepakati, tetapi penarikan tidak dapat dilaksanakan dengan menggunakan cek atau instrumen setara lainnya.

Deposito berjangka merupakan simpanan nasabah di BNI dan Entitas Anak yang bergerak di bidang perbankan yang penarikannya hanya dapat dilakukan pada waktu tertentu sesuai dengan perjanjian antara nasabah dengan BNI dan Entitas Anak yang bergerak di bidang perbankan.

Simpanan nasabah diklasifikasikan sebagai liabilitas keuangan lain yang diukur dengan biaya perolehan diamortisasi menggunakan metode suku bunga efektif. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan nasabah dikurangkan dari jumlah simpanan yang diterima.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

q. Foreclosed collaterals (continued)

Maintenance and repair costs related to foreclosed collaterals are charged as an expense in profit or loss when incurred.

If there is permanent decline in value, the carrying amount of foreclosed collaterals is written down to recognize such permanent decline in value and any losses from such write-down is recognized in profit or loss.

r. Obligations due immediately

Obligations due immediately are recorded at the time obligations to public customers or other banks arise.

This account is classified as other financial liabilities and is measured at amortized cost.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

s. Deposits from customers

Savings account represent deposits of customers in BNI and a Subsidiary engaged in banking that may only be withdrawn over the counter and via ATMs or funds transfers by SMS Banking, Phone Banking, Mobile Banking and Internet Banking when certain agreed conditions are met, but which may not be withdrawn by cheque or other equivalent instruments.

Time deposits represent customer's deposits in BNI and a Subsidiary engaged in banking that may be withdrawn at a certain time based on the agreement between the depositor and BNI and a Subsidiary engaged in banking.

Deposits from customers are classified as other financial liabilities which are measured at amortized cost using effective interest rate method. Incremental costs directly attributable to the acquisition of deposits from customers are deducted from the amount of deposits.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

t. Simpanan dari bank lain

Simpanan dari bank lain terdiri dari liabilitas terhadap bank lain baik lokal maupun luar negeri, dalam bentuk giro, *inter-bank call money* dengan periode jatuh tempo menurut perjanjian kurang dari atau 90 hari, deposito berjangka dan sertifikat deposito.

Simpanan dari bank lain diklasifikasikan sebagai liabilitas keuangan lain yang diukur dengan biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan dari bank lain dikurangkan dari jumlah simpanan yang diterima.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

u. Efek-efek yang diterbitkan

Efek-efek yang diterbitkan terdiri dari obligasi yang diterbitkan oleh Grup.

Efek-efek yang diterbitkan diklasifikasikan sebagai liabilitas keuangan lain yang diukur dengan biaya perolehan diamortisasi. Biaya tambahan yang dapat diatribusikan secara langsung dengan penerbitan efek dikurangkan dari jumlah efek-efek yang diterbitkan.

Obligasi yang diterbitkan dicatat sebesar nilai nominal dikurangi saldo diskonto yang belum diamortisasi. Biaya-biaya yang terjadi sehubungan dengan penerbitan obligasi dicatat sebagai pengurang hasil emisi dan diamortisasi selama jangka waktu obligasi dengan menggunakan metode suku bunga efektif.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

v. Pinjaman yang diterima

Pinjaman diterima merupakan dana yang diterima dari bank lain, Bank Indonesia atau pihak lain dengan liabilitas pembayaran kembali sesuai dengan persyaratan perjanjian pinjaman.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

t. Deposits from other banks

Deposits from other banks represent liabilities to local and overseas banks, in the form of current accounts, inter-bank call money with original maturities of 90 days or less, time deposits and certificates of deposits.

Deposits from other banks are classified as other financial liabilities which are measured at amortized cost using effective interest rate method. Incremental costs directly attributable to the acquisition of deposits from other banks are deducted from the amount of deposits.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

u. Securities issued

Securities issued consist of bonds issued by the Group.

Securities issued are classified as other financial liabilities which are measured at amortized cost. Incremental costs directly attributable to the issuance of marketable securities are deducted from the amount of securities issued.

Bonds issued are presented at nominal value net of unamortized discount. Costs incurred related to the bond issuance are presented as deduction from the proceeds of bonds issued and amortized over the term of the bonds using the effective interest rate method.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

v. Borrowings

Borrowings are funds received from other bank, Bank Indonesia or other parties with payment obligation based on borrowings agreement.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

v. Pinjaman yang diterima (lanjutan)

Pinjaman diterima diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal pinjaman diterima dan biaya transaksi merupakan bagian tidak terpisahkan dari metode suku bunga efektif.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

w. Pendapatan bunga dan pendapatan syariah, beban bunga dan beban syariah

Pendapatan dan beban bunga untuk semua instrumen keuangan yang dikenakan suku bunga diakui pada laporan laba rugi dengan menggunakan metode suku bunga efektif.

Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari aset keuangan atau liabilitas keuangan (atau, jika lebih tepat, digunakan periode yang lebih singkat) untuk memperoleh nilai tercatat bersih dari instrumen keuangan atau liabilitas keuangan. Pada saat menghitung suku bunga efektif, Grup mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian kredit di masa mendatang. Perhitungan ini mencakup seluruh komisi, provisi, dan bentuk lain diterima oleh para pihak dalam kontrak yang merupakan bagian tidak terpisahkan dari suku bunga efektif, biaya transaksi, dan seluruh premi atau diskon lainnya.

Kredit yang pembayaran angsuran pokok atau bunganya telah lewat 90 hari atau lebih setelah jatuh tempo, atau kredit yang pembayarannya secara tepat waktu diragukan, secara umum diklasifikasikan sebagai kredit yang mengalami penurunan nilai (*impairment*).

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

v. Borrowings (continued)

Borrowings are initially recognized at fair value and subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium related to the initial recognition of borrowings and transaction costs are an integral part of the effective interest rate method.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

w. Interest income and sharia income, interest expense and sharia expense

Interest income and expense for all interest-bearing financial instruments are recognized in profit or loss using the effective interest rate method.

The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial assets and financial liabilities (or, where appropriate, a shorter period) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial instrument but not future credit losses. This calculation includes all commissions, fees, and other forms received by the parties in the contract are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Loans for which the principal or interest has been past due for 90 days or more, or where reasonable doubt exists as to its timely collection, are generally classified as impaired loans.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

x. Pendapatan provisi dan komisi

Pendapatan provisi dan komisi yang berkaitan langsung dengan kegiatan pinjaman, atau pendapatan provisi dan komisi yang berhubungan dengan jangka waktu tertentu, diamortisasi sesuai dengan jangka waktu kontrak menggunakan metode suku bunga efektif dan diklasifikasikan sebagai bagian dari pendapatan bunga pada laporan laba rugi.

Pendapatan provisi dan komisi yang tidak berkaitan dengan kegiatan pemberian kredit atau suatu jangka waktu diakui sebagai pendapatan pada saat terjadinya transaksi sebagai pendapatan operasional lainnya.

y. Kontrak asuransi

Kontrak asuransi adalah kontrak yang diterbitkan oleh perusahaan asuransi dimana pada saat penerbitan polis perusahaan asuransi menerima risiko asuransi yang signifikan dari pemegang polis.

Risiko asuransi yang signifikan adalah kemungkinan untuk membayar manfaat secara signifikan kepada pemegang polis apabila suatu kejadian yang diasuransikan terjadi dibandingkan dengan manfaat minimum yang akan dibayarkan apabila risiko yang diasuransikan tidak terjadi. Skenario-skenario yang diperhatikan adalah skenario yang mengandung unsur komersial.

Grup mendefinisikan risiko asuransi yang signifikan sebagai kemungkinan membayar manfaat pada saat terjadinya suatu kejadian yang diasuransikan, yang setidaknya 10% lebih besar dari manfaat yang dibayarkan jika kejadian yang diasuransikan tidak terjadi. Jika suatu kontrak asuransi tidak mengandung risiko asuransi yang signifikan, maka kontrak tersebut diklasifikasikan sebagai kontrak investasi. Ketika sebuah kontrak telah diklasifikasi sebagai kontrak asuransi, reklasifikasi terhadap kontrak tersebut tidak dapat dilakukan kecuali ketentuan perjanjian kemudian diamandemen.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

x. Fees and commission income

Fees and commissions directly related to lending activities, or fee and commission income which relates to a specific period, is amortized over the term of contract using the effective interest rate method and classified as part of interest income in profit or loss.

Fees and commissions income which are not related to lending activities or a specific period are recognized as revenues on the transaction date as other operating income.

y. Insurance contract

Insurance contract is contract issued by insurance company which accepts significant insurance risk from policyholder upon the issuance of the policy.

Significant insurance risk is the possibility of paying significantly more benefit to the policyholder upon the occurrence of insured event compared to the minimum benefit payable in a scenario where the insured event does not occur. Scenarios considered are those with commercial substance.

Group defines significant insurance risk as the possibility of having to pay benefits on the occurrence of an insured event of at least 10% more than the benefits payable if the insured event did not occur. If the insurance contract does not contain significant insurance risk, the contract will be deemed as an investment contract. Once a contract has been classified as an insurance contract, no reclassification can be performed unless the terms of the agreement are later amended.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)

y. Kontrak asuransi (lanjutan)

Grup memisahkan komponen deposit dari kontrak *unit link* seperti yang disyaratkan oleh PSAK 62 hanya jika kondisi-kondisi di bawah ini terpenuhi:

- Grup dapat mengukur komponen “*deposit*” secara terpisah (termasuk opsi penyerahan melekat, yaitu tanpa memperhitungkan komponen “asuransi”); dan
- Kebijakan akuntansi Grup tidak mensyaratkan untuk mengakui semua hak dan kewajiban yang timbul dari komponen “*deposit*”.

Karena hanya kondisi pertama di atas terpenuhi, maka Grup tidak memisahkan komponen deposit dari kontrak *unit link*.

Penujian kecukupan liabilitas

PSAK 62, “Kontrak Asuransi” mengharuskan setiap akhir periode pelaporan, Grup menilai apakah liabilitas manfaat polis masa depan, premi yang belum merupakan pendapatan dan estimasi klaim yang diakui dalam laporan posisi keuangan konsolidasian telah mencukupi, dengan membandingkan total tercatat tersebut dengan estimasi arus kas masa depan sesuai dengan kontrak asuransi.

Jika perbandingan tersebut menunjukkan bahwa nilai tercatat atas liabilitas kontrak asuransi (dikurangi dengan biaya akuisisi tangguhan dan aset tak berwujud terkait) lebih rendah dibandingkan dengan estimasi nilai kini atas arus kas masa depan, maka kekurangan tersebut diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Tes kecukupan liabilitas dihitung berdasarkan diskonto dari arus kas untuk semua arus kas yang terkait yaitu arus kas keluar dan arus kas masuk seperti yang disebutkan di atas dengan menggunakan asumsi-asumsi aktuarial berdasarkan estimasi terbaik terkini yang ditetapkan oleh aktuaris Perusahaan, termasuk asumsi diskonto, mortalitas/morbiditas, *lapse*, biaya, dan inflasi tanpa margin atas risiko pemburukan (dan tanpa *flooring* atas cadangan untuk bisnis Konvensional).

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)

y. Insurance contract (continued)

Group unbundles the deposit component of unit-linked contract as required by SFAS 62 only when both of the following conditions are met:

- Group can measure separately the “*deposit*” component (including any embedded surrender option, i.e. without taking into account the “insurance” component); and
- Group's accounting policies do not otherwise require to recognize all obligations and rights arising from the “*deposit*” component.

Since only the first condition above is met, Group does not unbundle the deposit component of unit-linked contract.

Liability adequacy tests

SFAS 62, “Insurance Contracts” requires that at each end of reporting period, Group evaluates whether the liabilities for future policy benefits, unearned premium and estimated claims as recognised in the consolidated statement of financial position have been adequately recognised by comparing the carrying amount with the estimated future cash flows in accordance with the insurance contracts.

If the valuation indicates that the carrying value of insurance contract liabilities (net of deferred acquisition costs and relevant intangible assets) is lower compared to the estimated present value of future cash flows, then such deficiency is recognised in the consolidated statement of profit or loss and other comprehensive income.

The liability adequacy test is calculated based on discounted cash flows basis for all related cash flows i.e. both of cash outflows and cash inflows as mentioned above using a set of most recent best estimate actuarial assumptions which is set by the Company's appointed actuary, including discount rate assumptions, mortality/morbidity assumptions, *lapse* assumptions, expense assumptions and inflation assumptions without margin for adverse deviation assumption (and without reserve *flooring* for Conventional business).

y. Kontrak asuransi (lanjutan)

Pengujian kecukupan liabilitas (lanjutan)

Grup menerapkan metode *Gross Premium Reserve* dalam perhitungan liabilitas kepada pemegang polis dengan menggunakan asumsi aktuarial berdasarkan asumsi estimasi terbaik dan margin atas risiko pemburukan, kecuali untuk asumsi biaya (untuk bisnis Konvensional) dan asumsi tingkat diskonto, sehingga tes kecukupan liabilitas perlu dilakukan. Berdasarkan hasil uji, estimasi liabilitas lebih tinggi dari estimasi arus kas yang memenuhi persyaratan minimum yang menunjukkan bahwa estimasi liabilitas tersebut cukup.

Pengakuan pendapatan premi

Premi kontrak jangka pendek diakui sebagai pendapatan dalam periode kontrak sesuai dengan proporsi total proteksi asuransi yang diberikan. Premi kontrak jangka panjang diakui sebagai pendapatan pada saat polis jatuh tempo.

Pendapatan premi yang diterima sebelum jatuh tempo polis dicatat sebagai titipan premi di laporan posisi keuangan.

Premi reasuransi bruto diakui sebagai beban pada saat dibayarkan atau pada tanggal di mana polis tersebut efektif.

Grup menghitung cadangan atas premi yang belum merupakan pendapatan dengan menggunakan metode amortisasi harian.

Cadangan atas premi yang belum merupakan pendapatan hanya diterapkan terhadap premi yang mempunyai risiko (asuransi jangka warsa, kecelakaan diri, dan kesehatan) yang periode asuransinya tidak lebih dari satu tahun.

Penurunan/(kenaikan) cadangan atas premi yang belum merupakan pendapatan diakui dalam laporan laba rugi periode berjalan.

Ujrah/fee yang diterima oleh Perusahaan diakui sebagai pendapatan dalam laporan laba rugi dan penghasilan komprehensif lain. Ujrah diamortisasi menggunakan metode garis lurus.

FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

y. Insurance contract (continued)

Liability adequacy tests (continued)

Group applies the *Gross Premium Reserve* method to calculate the liability for future policy benefit based on actuarial assumptions which are based on best estimate assumptions and margin for adverse deviation, except for expense assumptions (for Conventional business) and discount rate assumptions, therefore, the liability adequacy test is required. Based on the assessment, the estimated liability is higher than the measure of cash flows that meet the minimum requirement which shows that the estimated liability is adequate.

Premium income recognition

Premiums received from short-term insurance contracts are recognised as income within the contract period based on the insurance coverage provided. Premium income from long duration contracts is recognised as revenue when the policy is due.

Premium income received before the due date of the respective policies are reported as policyholders' deposits in the statement of financial position.

Gross reinsurance premiums are recognised as an expense when payable or on the date in which the policy becomes effective.

The Group calculates unearned premium reserves using daily amortization method.

Unearned premium reserves only apply to premiums that are short-term with less than one year insurance period which have risk component only (term life, personal accident, and health insurance).

Decrease/(increase) in unearned premium reserves is recognised in the current year's profit or loss.

Ujrah/fee received by the Company is recognised as income in the statement of profit or loss and other comprehensive income. Ujrah is amortized using straight-line method.

y. Kontrak asuransi (lanjutan)

Reasuransi

Grup mereasuransikan sebagian porsi risikonya kepada perusahaan reasuradur. Total premi yang dibayar atau porsi premi atas transaksi reasuransi prospektif diakui sesuai dengan proporsi total proteksi reasuransi yang diterima berdasarkan kontrak reasuransi.

Aset reasuransi termasuk saldo yang diharapkan dibayarkan oleh perusahaan reasuransi untuk *ceded* liabilitas manfaat polis masa depan, *ceded* estimasi liabilitas klaim dan *ceded* premi yang belum merupakan pendapatan. Total manfaat yang ditanggung oleh reasuradur diperkirakan secara konsisten sesuai dengan liabilitas yang terkait dengan polis reasuransi.

Jika aset reasuransi mengalami penurunan nilai, Grup mengurangi nilai tercatat dan mengakui kerugian penurunan nilai tersebut dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Aset reasuransi mengalami penurunan nilai jika ada bukti obyektif, sebagai akibat dari suatu peristiwa yang terjadi setelah pengakuan awal aset reasuransi, bahwa Grup tidak dapat menerima seluruh total karena di bawah syarat-syarat kontrak, dan dampak pada total yang akan diterima dari reasuradur dapat diukur secara andal.

Klaim dan manfaat polis

Klaim dan manfaat polis terdiri dari klaim yang telah diselesaikan, klaim dalam proses penyelesaian dan estimasi atas klaim yang telah terjadi namun belum dilaporkan (IBNR). Klaim dan manfaat polis diakui sebagai beban pada saat terjadinya liabilitas untuk memberikan proteksi. Klaim reasuransi yang diperoleh dari Grup diakui dan dicatat sebagai pengurang klaim dan manfaat polis pada periode yang sama dengan periode pengakuan klaim dan manfaat polis.

**NOTES TO THE CONSOLIDATED

31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

y. Insurance contract (continued)

Reinsurance

Group reinsures a portion of its risk with reinsurance companies. The amount of premium paid or portion of premium from prospective reinsurance transactions is recognized over the reinsurance contract in proportion with the protection received.

Reinsurance assets include balances expected to be recovered from reinsurance companies for *ceded* liability for future policy benefits, *ceded* estimated claim liabilities and *ceded* unearned premiums. Amounts recoverable from reinsurers are estimated in a manner consistent with the liability associated with the reinsured policy.

If a reinsurance asset is impaired, Group reduces the carrying amount and recognises the impairment loss in the consolidated statement of profit or loss and other comprehensive income. A reinsurance asset is impaired if there is objective evidence, as a result of an event that occurred after initial recognition of the reinsurance asset, that Group may not receive all amounts due to it under the terms of the contract, and the impact of the amounts that will receive from the reinsurer can be reliably measured.

Claims and policy benefits

Claims and policy benefits consist of settled claims, claims that are still in process of completion and estimate of claims incurred but not yet reported (IBNR). Claims and policy benefits are recognized as expenses when the liabilities to cover claims are incurred. Reinsurance claims recoveries from reinsurance Group are recognized and recorded as deduction from claims and policy benefits consistent in the same period with the claims and policies benefits recognition.

Klaim dan manfaat polis (lanjutan)

Total klaim dalam penyelesaian, termasuk klaim yang telah terjadi namun belum dilaporkan, dinyatakan berdasarkan estimasi menggunakan teknik perhitungan teknis oleh aktuaris yang dilaporkan sebagai bagian dari "Estimasi liabilitas klaim" yang diakui pada laporan keuangan konsolidasian di liabilitas klaim, sebagai hasil dari evaluasi lebih lanjut dan perbedaan antara estimasi klaim dengan klaim yang dibayarkan, diakui sebagai biaya tambahan atau pengurang biaya pada periode terjadinya perubahan.

Utang klaim

Utang klaim merupakan liabilitas yang timbul dari klaim yang diajukan oleh pemegang polis dan disetujui oleh Grup tetapi belum dibayar hingga tanggal laporan posisi keuangan. Utang klaim diakui pada saat total yang harus dibayar disetujui. Liabilitas tersebut dihentikan pengakuannya pada saat kontrak berakhir, dilepaskan atau dibatalkan.

Liabilitas manfaat polis masa depan

Liabilitas manfaat polis masa depan merupakan nilai sekarang estimasi manfaat polis masa depan yang akan dibayarkan kepada pemegang polis atau ahli warisnya dikurangi dengan nilai sekarang dari estimasi premi masa depan yang akan diterima dari pemegang polis dan diakui secara konsisten pada saat pengakuan pendapatan premi. Liabilitas manfaat polis masa depan ditentukan dan dihitung dengan menggunakan rumus tertentu oleh aktuaris Grup.

Grup menghitung liabilitas manfaat polis masa depan dengan menggunakan metode *Gross Premium Valuation* yang mencerminkan nilai sekarang estimasi pembayaran seluruh manfaat yang diperjanjikan termasuk seluruh opsi yang disediakan, nilai sekarang estimasi seluruh biaya yang dikeluarkan dan juga mempertimbangkan penerimaan premi di masa depan.

Perubahan liabilitas manfaat polis masa depan diakui dalam laba rugi tahun berjalan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

y. Insurance contract (continued)

Claims and policy benefits (continued)

Total claims in process, including claims incurred but not yet reported, are stated at estimated amounts determined based on the actuarial technical insurance calculations which is reported as part of "Estimated claim liabilities" which recognised in the consolidated statement of financial position in other liabilities. Changes in estimated claim liabilities as a result of further evaluation and the difference between estimated claims and paid claims are recognized as addition to or deduction from expenses in the period the changes occurred.

Claims payable

Claims payable represents liability arising from the submitted claim by policyholders and approved by the Group but not yet paid as of statement of financial position date. Claims payable is recognised at the time the amount to be paid is approved. The liability is derecognised when the contract expires, discharged or cancelled.

Liability for future policy benefits

The liabilities for future policy benefits represent the present value of estimated future policy benefits to be paid to policyholders or their heirs less present value of estimated future premiums to be received from the policyholders and recognized consistently with the recognition of premium income. The liabilities for future policy benefits are determined and computed based on certain formula by Group's actuary.

Group calculates the liabilities for future policy benefits using *Gross Premium Valuation* method that reflect the present value of estimated payments throughout the guaranteed benefits including all the embedded options available, the estimated present value of all handling costs incurred and also considering the future premium receipt.

Changes in the liabilities for future policy benefits are recognized in the current year's profit or loss.

Liabilitas manfaat polis masa depan (lanjutan)

Untuk produk *unit link*, liabilitas kepada pemegang polis *unit link* diakui pada saat penerimaan dana dikonversi menjadi unit setelah dikurangi biaya-biaya dan akan bertambah atau berkurang sesuai dengan nilai aset bersih efektif yang berlaku. Risiko investasi terkait ditanggung oleh pemegang polis *unit link*.

Penerimaan dana dari nasabah untuk produk non syariah diakui sebagai pendapatan premi bruto di laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Liabilitas kepada pemegang polis *unit link* diakui di laporan posisi keuangan konsolidasian di liabilitas lain-lain yang termasuk di dalam liabilitas manfaat polis masa depan sebesar jumlah yang diterima setelah dikurangi dengan bagian premi yang merupakan pendapatan Entitas Anak, disertai dengan pengakuan kenaikan liabilitas kepada pemegang polis *unit link* di laba rugi.

Setiap bunga, keuntungan atau kerugian dari kenaikan atau penurunan nilai pasar investasi dicatat sebagai pendapatan atau beban, disertai dengan pengakuan kenaikan atau penurunan liabilitas manfaat polis masa depan di laporan laba rugi dan liabilitas manfaat polis masa depan di laporan posisi keuangan konsolidasian.

Penerimaan dana dari nasabah untuk produk *unit link* diakui sebagai liabilitas manfaat polis masa depan (diakui di liabilitas lain-lain) dan di laporan posisi keuangan sebesar total yang diterima setelah dikurangi *charges* atau *admin fee* lainnya dalam rangka mengelola pendapatan dari produk *unit link*.

z. Perpajakan

Beban pajak terdiri dari pajak kini dan pajak tangguhan. Pajak diakui dalam laporan laba rugi, kecuali jika pajak tersebut terkait dengan transaksi atau kejadian yang diakui di penghasilan komprehensif lain atau langsung diakui ke ekuitas. Dalam hal ini, pajak tersebut masing-masing diakui dalam penghasilan komprehensif lain atau ekuitas.

**NOTES TO THE CONSOLIDATED

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

y. Insurance contract (continued)

Liabilities for future policy benefits (continued)

For unit-linked products, the liabilities to unit-linked policyholders is recognized at the time the funds received are converted into units, net of related expenses and will increase or decrease in accordance with effective net asset value. Related investment risk are born by the unit-linked policyholders.

Funds received from customers for non-sharia products are recognized as gross premiums income in the consolidated statement of profit and loss and other comprehensive income. Liabilities to unit-linked policyholders are recognized in the consolidated statement of financial position in the other liabilities which is included in the liabilities for future policy benefits for the amount received net of the portion of premium representing Subsidiary's revenue, with corresponding profit or loss recognition for the increase in liabilities to unit-linked policyholders.

Any interest, gain or loss due to increases or decreases in market value of investments are recorded as income or expense, with a corresponding recognition of increase or decrease in liabilities for future policy benefits in the profit or loss and liabilities for future policy benefits in the consolidated statement of financial position.

Funds received from customers for unit-linked products are recognised as liabilities for future policy benefits (recognised in other liabilities) in the consolidated statement of financial position for the amount received net of charges or other admin fee in managing the unit-linked product revenue.

z. Taxation

The tax expense comprises of current and deferred tax. Tax are recognized in the profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

z. Perpajakan (lanjutan)

Beban pajak kini dihitung berdasarkan peraturan perpajakan yang berlaku pada tanggal pelaporan keuangan. Manajemen secara periodik mengevaluasi posisi yang dilaporkan di Surat Pemberitahuan Tahunan (SPT) sehubungan dengan situasi dimana aturan pajak yang berlaku membutuhkan interpretasi. Jika perlu, manajemen menentukan provisi berdasarkan jumlah yang diharapkan akan dibayar kepada otoritas pajak.

Pajak penghasilan tangguhan diakui, dengan menggunakan metode posisi keuangan untuk semua perbedaan temporer antara dasar pengenaan pajak aset dan liabilitas dengan nilai tercatatnya pada laporan keuangan konsolidasian. Namun, liabilitas pajak penghasilan tangguhan tidak diakui jika berasal dari pengakuan awal *goodwill* atau pada saat pengakuan awal aset dan liabilitas yang timbul dari transaksi selain kombinasi bisnis yang pada saat transaksi tersebut tidak mempengaruhi laba rugi akuntansi dan laba rugi kena pajak. Pajak penghasilan tangguhan ditentukan dengan menggunakan tarif pajak yang telah berlaku atau secara substantif telah berlaku pada akhir periode pelaporan dan diharapkan diterapkan ketika aset pajak penghasilan tangguhan direalisasi atau liabilitas pajak penghasilan tangguhan diselesaikan.

Aset pajak penghasilan tangguhan diakui hanya jika besar kemungkinan jumlah penghasilan kena pajak dimasa depan akan memadai untuk dikompensasi dengan perbedaan temporer yang masih dapat dimanfaatkan.

Aset dan liabilitas pajak penghasilan tangguhan dapat saling hapus apabila terdapat hak yang berkekuatan hukum untuk melakukan saling hapus antara aset pajak kini dengan liabilitas pajak kini dan apabila aset dan liabilitas pajak penghasilan tangguhan dikenakan oleh otoritas perpajakan yang sama, baik atas entitas kena pajak yang sama atau pun berbeda dan adanya niat untuk melakukan penyelesaian saldo-saldo tersebut secara neto.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

z. Taxation (continued)

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the financial position method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill and deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates that have been enacted or substantially enacted as at reporting period and is expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

z. Perpajakan (lanjutan)

Koreksi terhadap kewajiban perpajakan diakui saat surat ketetapan pajak diterima atau jika mengajukan keberatan, pada saat keputusan atas keberatan tersebut telah ditetapkan.

aa. Imbalan kerja

Imbalan kerja jangka pendek

Imbalan kerja jangka pendek diakui pada saat terutang kepada karyawan.

Imbalan pensiun dan imbalan pasca-kerja lainnya

BNI memiliki program pensiun imbalan pasti dan iuran pasti.

Program pensiun imbalan pasti adalah program pensiun yang menetapkan jumlah imbalan pensiun yang akan diterima oleh karyawan pada saat pensiun, yang biasanya tergantung pada satu faktor atau lebih, seperti umur, masa kerja, dan jumlah kompensasi. Program ini dikelola oleh Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun").

Program pensiun iuran pasti adalah program pensiun dimana Bank akan membayar iuran tetap kepada sebuah entitas yang terpisah (dana pensiun) dan tidak memiliki liabilitas hukum atau konstruktif untuk membayar kontribusi lebih lanjut. Program ini dikelola oleh Dana Pensiun Lembaga Keuangan PT Bank Negara Indonesia (Persero) Tbk ("DPLK").

BNI diharuskan menyediakan imbalan pensiun minimum yang diatur dalam Undang-Undang Cipta Kerja No. 11/2020 dan PP 35/2021, yang merupakan liabilitas imbalan pasti. Jika imbalan pensiun sesuai dengan Undang-Undang Cipta Kerja No. 11/2020 dan PP 35/2021 lebih besar, selisih tersebut diakui sebagai bagian dari liabilitas imbalan pensiun.

Karena Undang-Undang Cipta Kerja menentukan rumus tertentu untuk menghitung jumlah minimal imbalan pensiun, pada dasarnya program pensiun berdasarkan Undang-Undang Cipta Kerja adalah program imbalan pasti.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

z. Taxation (continued)

Corrections to taxation obligations are recorded when an assessment is received or, if appealed against, when the appeal has been decided.

aa. Employee benefits

Short-term employee benefits

Short-term employee benefits are recognized when they accrued to the employees.

Pension benefits and other post-employment

BNI has defined benefit and defined contribution pension plans.

A defined benefit pension plan is a pension plan that defines an amount of pension that will be received by the employee on becoming entitled to a pension, which usually depends on one or more factors such as age, years of service and compensation. This plan is managed by Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun").

A defined contribution plan is a pension plan under which the Bank pays fixed contributions into a separate entity (pension fund) and has no legal or constructive obligation to pay further contributions. This plan is managed by Dana Pensiun Lembaga Keuangan PT Bank Negara Indonesia (Persero)Tbk ("DPLK").

BNI is required to provide minimum pension benefits as stipulated in Undang-Undang Cipta Kerja No. 11/2020 and PP 35/2021 which represents an underlying defined benefit obligation. If the pension benefits based on Undang-Undang Cipta Kerja No. 11/2020 and PP 35/2021 are higher, the difference is recorded as part of the overall pension benefits obligation.

Since the Undang-Undang Cipta Kerja sets the formula for determining the minimum amount of benefits, in substance pension plans under the Undang-Undang Cipta Kerja represent defined benefit plans.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk

KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
PENTING (lanjutan)**

aa. Imbalan kerja (lanjutan)

**Imbalan pensiun dan imbalan pasca-kerja
lainnya (lanjutan)**

Sehubungan dengan program imbalan pasti, liabilitas diakui pada laporan posisi keuangan konsolidasian sebesar nilai kini kewajiban imbalan pasti pada akhir periode pelaporan dikurangi nilai wajar aset program. Kewajiban imbalan pasti dihitung setiap tahun oleh aktuaris yang independen dengan menggunakan metode *projected unit credit*.

Nilai kini kewajiban imbalan pasti ditentukan dengan mendiskontokan arus kas keluar yang diestimasi dengan menggunakan tingkat bunga Obligasi Pemerintah (dikarenakan saat ini tidak ada pasar aktif untuk obligasi perusahaan yang berkualitas tinggi) yang didenominasikan dalam Rupiah dimana imbalan akan dibayarkan dan memiliki jangka waktu jatuh tempo mendekati jangka waktu kewajiban pensiun.

Keuntungan dan kerugian aktuarial yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial langsung diakui seluruhnya melalui penghasilan komprehensif lainnya pada saat terjadinya.

Biaya jasa lalu diakui segera dalam laporan laba rugi.

Keuntungan dan kerugian dari kurtailmen atau penyelesaian program manfaat pasti diakui di laba rugi ketika kurtailmen atau penyelesaian tersebut terjadi.

Grup juga memberikan imbalan pasca kerja lainnya, seperti uang penghargaan dan uang pisah. Imbalan berupa uang penghargaan diberikan apabila karyawan bekerja hingga mencapai usia pensiun. Sedangkan imbalan berupa uang pisah, dibayarkan kepada karyawan yang mengundurkan diri secara sukarela, setelah memenuhi minimal masa kerja tertentu. Imbalan ini dihitung dengan menggunakan metodologi yang sama dengan metodologi yang digunakan dalam perhitungan program pensiun imbalan pasti.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

aa. Employee benefits (continued)

Pension benefits and other post-employment benefits (continued)

The liability recognized in the consolidated statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of Government Bonds (considering that currently there is no active market for high-quality corporate bonds) that are denominated in Rupiah in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

Past-service costs are recognized immediately in profit or loss.

Gains or losses on the curtailment or settlement of a defined benefit plan are recognized in profit or loss when the curtailment or settlement occurs.

The Group also provides other post-employment benefits, such as service pay and separation pay. The service pay benefit vests when the employees reach their retirement age. The separation pay benefit is paid to employees in the case of voluntary resignation, subject to a minimum number of years of service. These benefits have been accounted for using the same methodology as for the defined benefit pension plan.

PENTING (lanjutan)**

aa. Imbalan kerja (lanjutan)

Imbalan jangka panjang lainnya

Imbalan jangka panjang lainnya seperti cuti berimbalan jangka panjang, imbalan cacat permanen dan penghargaan *jubilee* dihitung dengan menggunakan metode *projected unit credit* dan didiskontokan ke nilai kini. Keuntungan dan kerugian aktuarial yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial diakui dalam laporan laba rugi.

ab. Laba per saham dasar

Laba per saham dasar dihitung dengan membagi laba tahun berjalan yang tersedia bagi pemegang saham biasa (laba *residual*) dengan jumlah rata-rata tertimbang lembar saham biasa yang beredar selama tahun berjalan.

ac. Transaksi dengan pihak-pihak berelasi

BNI dan Entitas Anak melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK 7 tentang "Pengungkapan Pihak-pihak Berelasi" dan Peraturan Bapepam-LK No. KEP-347/BL/2012 tanggal 25 Juni 2012 tentang "Pedoman Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik" yang didefinisikan antara lain:

- (i) perusahaan di bawah pengendalian BNI dan Entitas Anak;
- (ii) perusahaan asosiasi;
- (iii) investor yang memiliki hak suara, yang memberikan investor tersebut suatu pengaruh yang signifikan;
- (iv) perusahaan di bawah pengendalian investor yang dijelaskan dalam Catatan iii di atas;
- (v) karyawan kunci dan anggota keluarganya; dan
- (vi) entitas yang dikendalikan, dikendalikan bersama atau dipengaruhi secara signifikan oleh Pemerintah yaitu Menteri Keuangan yang merupakan pemegang saham dari entitas.

Semua transaksi signifikan dengan pihak-pihak berelasi, telah diungkapkan pada catatan atas laporan keuangan konsolidasian.

aa. Employee benefits (continued)

Other long-term benefits

Other long-term employee benefits such as long service leave, permanent disability benefit and jubilee awards are calculated using the projected unit credit method and discounted to present value. Actuarial gains and losses arising from experience adjustments and change in actuarial assumption are recognised and credited to profit or loss.

ab. Basic earnings per share

Basic earnings per share is computed by dividing income for the year available to shareholders of ordinary shares (residual income) by the weighted average number of ordinary shares outstanding during the current year.

ac. Transactions with related parties

BNI and Subsidiaries enter into transactions with parties which are defined as related parties in accordance with SFAS 7 regarding "Related Party Disclosures" and Regulation of the Capital Market and Financial Institution Supervisory Board (Bapepam-LK) No. KEP-347/BL/2012 dated 25 June 2012 regarding "Guidelines for Financial Statements Presentation and Disclosure of Issuers or Public Companies", which are defined, among others, as:

- (i) entities under the control of BNI and Subsidiaries;
- (ii) associated companies;
- (iii) investors with voting rights that gives them significant influence;
- (iv) entities controlled by investors under Note iii above;
- (v) key employees and family members; and
- (vi) entity that is controlled, jointly controlled or significantly influenced by Government, which is defined as the Minister of Finance who has share ownership in the entity.

All significant transactions with related parties have been disclosed in notes to the consolidated financial statements.

PENTING (lanjutan)**

ad. Dividen

Pembagian dividen kepada para pemegang saham diakui sebagai liabilitas dalam laporan keuangan konsolidasian pada periode ketika dividen tersebut disetujui oleh para pemegang saham.

ae. Pelaporan segmen

Grup mengidentifikasi segmen operasi sebagai suatu komponen dari entitas:

- yang terlibat dalam aktivitas bisnis yang mana memperoleh pendapatan dan menimbulkan beban (termasuk pendapatan dan beban terkait dengan transaksi dengan komponen lain dari entitas yang sama);
- hasil operasinya dikaji ulang secara reguler oleh pengambil keputusan operasional untuk membuat keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan menilai kinerjanya; dan
- tersedia informasi keuangan yang dapat dipisahkan.

Sesuai dengan PSAK No. 5 tentang “Segmen Operasi”, Grup menyajikan segmen operasi berdasarkan laporan internal Grup yang disajikan kepada pengambil keputusan operasional. Pengambil keputusan operasional adalah Direksi.

Pada tahun 2021, Grup mengungkapkan segmen operasionalnya berdasarkan segmen usaha yang meliputi Korporasi, Menengah, Kecil, Konsumer dan Ritel, Treasury dan Institusi Keuangan, Kantor Pusat dan Entitas Anak.

Di tahun 2022, Grup menerapkan perubahan terhadap pengelompokan segmen operasi yang digunakan dalam laporan kinerja manajemen internal. Grup mengungkapkan segmen operasionalnya berdasarkan segmen usaha sebagai berikut: *Corporate & International Banking, Institutional Banking, Enterprises & Commercial Banking, Consumer Banking, Treasury*, Kantor Pusat dan Entitas Anak dengan terdapat reklasifikasi di masing-masing bisnis segmen sesuai dengan organisasi direksi dan pembidangan yang baru.

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

ad. Dividends

Dividend distribution to the shareholders is recognized as a liability in the consolidated financial statements in the period in which the dividends are approved by the shareholders.

ae. Segment reporting

The Group defines an operating segment as a component of an entity:

- that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);*
- whose operating results are reviewed regularly by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and*
- for which discrete financial information is available.*

Refer to SFAS No.5 about “Operating Segments”, the Group discloses its operating segments based on Group's internal report presented to operation-decision makers. The operation-decision makers are the Board of Directors.

In 2021, the Group discloses its operating segments based on business segments divisions that consist of Corporate, Middle, Small, Consumer and Retail, Treasury and Financial Institution, Head Office and Subsidiaries.

In 2022, the Group implements some changes in disclosing its operational segments for the internal management performance report. The new operating segments are defined based on business segments as follows: Corporate & International Banking, Institutional Banking, Enterprises & Commercial Banking, Consumer Banking, Treasury, Head Office and Subsidiaries with some reclassification for each business segments referring to the new organizational of board of directors.

PENTING (lanjutan)**

af. Biaya emisi penerbitan saham

Biaya-biaya emisi efek yang terjadi sehubungan dengan penawaran saham kepada masyarakat (termasuk penerbitan hak memesan efek terlebih dahulu) dikurangkan langsung dari hasil emisi dan disajikan sebagai pengurang pada akun “Tambahan Modal Disetor - Bersih”, sebagai bagian dari Ekuitas pada laporan posisi keuangan konsolidasian.

ag. Saham treasury

Ketika entitas Grup membeli modal saham ekuitas entitas (saham treasury), imbalan yang dibayar, termasuk biaya tambahan yang secara langsung dapat diatribusikan (dikurangi pajak penghasilan) dikurangkan dari ekuitas yang diatribusikan kepada pemilik ekuitas entitas sampai saham tersebut dibatalkan atau diterbitkan kembali. Ketika saham biasa tersebut selanjutnya diterbitkan kembali, imbalan yang diterima, dikurangi biaya tambahan transaksi yang terkait dan dampak pajak penghasilan yang terkait dimasukkan kepada ekuitas yang dapat diatribusikan kepada pemilik ekuitas entitas.

ah. Kompensasi berbasis saham

Bank menjalankan program kompensasi berbasis saham dengan penyelesaian menggunakan ekuitas. Nilai wajar dari jasa karyawan yang dikompensasikan dengan saham Bank diakui sebagai beban di laporan laba rugi. Jumlah keseluruhan yang diakui sepanjang periode *vesting* ditentukan berdasarkan nilai wajar saham yang diberikan pada tanggal pemberian kompensasi.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING**

Beberapa estimasi dan asumsi dibuat dalam rangka penyusunan laporan keuangan konsolidasian dimana dibutuhkan pertimbangan manajemen dalam menentukan metodologi yang tepat untuk penilaian aset dan liabilitas.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF SIGNIFICANT ACCOUNTING
POLICIES (continued)**

af. Shares issuance costs

Costs related to the public offering of shares (including pre-emptive rights issue) are deducted from the proceeds and presented as a deduction of “Additional Paid-In Capital - Net” account, under Equity section in the consolidated statement of financial position.

ag. Treasury shares

When any Group entity purchases the entity's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the entity's equity holders until the shares are cancelled or reissued. When ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the entity's equity holders.

ah. Share-based payment

Bank operates an equity-settled, share-based compensation plan. The fair value of the employee services received in exchange for the grant of shares is recognised as an expense in the statements of profit or loss. The total amount to be recognised over the vesting period is determined based on the fair value of the shares granted on the grant date.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS**

Certain estimates and assumptions are made in the preparation of the consolidated financial statements and these require management judgement in determining the appropriate methodology for valuation of assets and liabilities.

31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Manajemen membuat estimasi dan asumsi yang berimplikasi pada pelaporan nilai aset dan liabilitas atas tahun keuangan satu tahun kedepan. Semua estimasi dan asumsi yang diharuskan oleh PSAK adalah estimasi terbaik yang didasarkan pada standar yang berlaku. Estimasi dan pertimbangan dievaluasi secara terus menerus dan berdasarkan pengalaman masa lalu dan faktor-faktor lain termasuk harapan atas kejadian yang akan datang.

Walaupun estimasi dan asumsi ini dibuat berdasarkan pengetahuan terbaik manajemen atas kejadian dan tindakan saat ini, hasil yang timbul mungkin berbeda dengan estimasi dan asumsi semula.

Sumber utama ketidakpastian estimasi:

a. Cadangan kerugian penurunan nilai aset keuangan

Kondisi spesifik *counterparty* yang mengalami penurunan nilai dalam pembentukan cadangan kerugian atas aset keuangan dievaluasi secara individu berdasarkan estimasi terbaik manajemen atas nilai kini arus kas yang diharapkan akan diterima. Dalam mengestimasi arus kas tersebut, manajemen membuat pertimbangan tentang situasi keuangan *counterparty* dan nilai realisasi bersih dari setiap agunan. Setiap aset yang mengalami penurunan nilai dinilai sesuai dengan manfaat yang ada, dan strategi penyelesaian serta estimasi arus kas yang diperkirakan dapat diterima.

Perhitungan cadangan penurunan nilai kolektif meliputi kerugian kredit yang melekat dalam portofolio aset keuangan dengan karakteristik ekonomi yang sama, tetapi penurunan nilai secara individu belum dapat diidentifikasi. Dalam menilai kebutuhan untuk cadangan kolektif, manajemen mempertimbangkan faktor-faktor seperti kualitas kredit dan jenis produk. Guna membuat estimasi cadangan yang diperlukan, manajemen membuat asumsi untuk menentukan kerugian yang melekat, dan untuk menentukan parameter input yang diperlukan, berdasarkan pengalaman masa lalu, kondisi ekonomi saat ini dan perkiraan kondisi ekonomi dimasa depan. Keakuratan penyisihan tergantung pada seberapa baik estimasi arus kas masa depan untuk cadangan *counterparty* tertentu dan asumsi model dan parameter yang digunakan dalam menentukan cadangan kolektif.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Management makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. All estimates and assumptions required in conformity with SFAS are best estimates undertaken in accordance with the applicable standard. Estimates and judgements are evaluated on a continuous basis, and are based on past experiences and other factors, including expectations with regard to future events.

Although these estimates and assumptions are based on management's best knowledge of current events and activities, actual result may differ from those estimates and assumptions.

Key sources of estimation uncertainty:

a. Allowances for impairment losses of financial assets

In the calculation of allowance for impairment losses of financial assets, the specific condition of impaired counterparty is individually evaluated based on management's best estimate of the present value of the expected cash flows to be received. In estimating these cash flows, management makes judgements about the counterparty's financial situation and the net realizable value of any underlying collateral. Each impaired asset is assessed on its merits, and the workout strategy and estimated cash flows considered recoverable.

Collectively assessed impairment allowances cover credit losses inherent in portfolios of financial assets with similar economic characteristics, but the individually impaired items cannot yet be identified. In assessing the need for collective allowances, management considers factors such as credit quality and type of product. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modelled and to determine the required input parameters, based on historical experiences, current economic conditions and forecast on future economic condition. The accuracy of the allowances depends on how well these estimated future cash flows for specific counterparty allowances and the model assumptions and parameters are used in determining collective allowances.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi: (lanjutan)

b. Menentukan nilai wajar instrumen keuangan

Dalam menentukan nilai wajar aset keuangan dan liabilitas yang tidak mempunyai harga pasar, Grup menggunakan teknik penilaian seperti yang dijelaskan dalam Catatan 2c. Untuk instrumen keuangan yang jarang diperdagangkan dan memiliki informasi harga yang terbatas, nilai wajar menjadi kurang objektif dan membutuhkan berbagai tingkat penilaian tergantung pada likuiditas, konsentrasi, faktor ketidakpastian pasar, asumsi harga dan risiko lainnya.

Masukan (*input*) untuk model ini berasal dari data pasar yang bisa diamati. Bila data pasar yang bisa diamati tersebut tidak tersedia, manajemen mempertimbangkan masukan dan asumsi diperlukan untuk menentukan nilai wajar. Pertimbangan tersebut mencakup *feedback* model atas likuiditas volatilitas untuk transaksi derivatif dan tingkat diskonto yang berjangka waktu panjang, tingkat pelunasan dipercepat dan asumsi tingkat gagal bayar.

c. Imbalan kerja karyawan

Nilai kini atas imbalan kerja karyawan tergantung dari banyaknya faktor yang dipertimbangkan oleh aktuaris berdasarkan beberapa asumsi. Perubahan atas asumsi-asumsi tersebut akan mempengaruhi *carrying amount* atas imbalan kerja karyawan.

Asumsi yang digunakan dalam menentukan biaya atau pendapatan bersih untuk imbalan kerja termasuk tingkat diskonto. Grup menentukan tingkat diskonto yang tepat pada setiap periode pelaporan. Ini merupakan tingkat suku bunga yang digunakan untuk menentukan nilai kini atas arus kas masa depan yang diestimasi akan digunakan untuk membayar imbalan kerja. Dalam menentukan tingkat diskonto yang tepat, Grup mempertimbangkan tingkat suku bunga atas Obligasi Pemerintah yang mempunyai jatuh tempo yang menyerupai jangka waktu imbalan kerja karyawan.

Asumsi kunci liabilitas pensiun lainnya sebagian ditentukan berdasarkan kondisi pasar saat ini.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Key sources of estimation uncertainty: (continued)

b. Determining fair values of financial instruments

In determining the fair value for financial assets and financial liabilities for which there is no observable market price, the Group uses the valuation techniques as described in Note 2c. For financial instruments that are traded infrequently and there is a lack of price transparency, fair value is less objective and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

The input for this model comes from observable market data. When observable market data are not available, management considers necessary inputs and assumptions to determine the fair value. The above considerations include liquidity and volatility feedback model for derivative transactions and long term discount rate, the level of early payment and the level of default assumption.

c. Employee benefit

The present value of the employee benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Any changes in these assumptions will impact the carrying amount of employee benefit obligations.

The assumptions used in determining the net cost or for employee benefits include the discount rate. The Group determines the appropriate discount rate at the end of each reporting period. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Group considers the interest rates of Government Bonds that have terms to maturity approximating the terms of the related employee benefit liability.

Other key assumptions for pension obligations are partly based on current market conditions.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi: (lanjutan)

d. Provisi perpajakan

Grup menentukan provisi perpajakan berdasarkan estimasi atas kemungkinan adanya tambahan beban pajak. Jika hasil akhir dari hal ini berbeda dengan jumlah yang dicatat semula, maka perbedaan tersebut akan berdampak terhadap laba/rugi.

e. Liabilitas asuransi untuk kontrak asuransi dan reasuransi aset

Aset yang timbul dari kontrak reasuransi juga dihitung dengan menggunakan metode di atas. Selain itu, pemulihan aset ini dinilai secara periodik untuk memastikan bahwa jumlahnya mencerminkan jumlah yang pada akhirnya akan diterima, mempertimbangkan faktor-faktor seperti *counterparty* dan risiko kredit. Penurunan nilai diakui dimana terdapat bukti objektif bahwa Perusahaan tidak dapat menerima jumlah yang terhutang untuk itu dan jumlah ini dapat diukur secara andal.

Cadangan teknis Entitas Anak dicatat di laporan posisi keuangan konsolidasian sebagai bagian dari "Liabilitas lain-lain" berdasarkan perhitungan teknis asuransi dengan menggunakan asumsi-asumsi aktuarial yaitu asumsi estimasi terbaik dan margin atas risiko pemburukan. Termasuk dalam cadangan teknis adalah liabilitas manfaat polis masa depan, estimasi liabilitas klaim, dan premi yang belum merupakan pendapatan. Entitas Anak menggunakan metode *Gross Premium Reserve* yang menghitung liabilitas manfaat polis masa depan berdasarkan asumsi estimasi terbaik dan margin atas risiko pemburukan.

f. Aset pajak tangguhan

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan. Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Key sources of estimation uncertainty: (continued)

d. Provision for taxes

The Group provides for tax provision based on estimates whether the additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the profit/loss.

e. Insurance liabilities on insurance contracts and reinsurance assets

Assets arising from reinsurance contracts are also computed using the above methods. In addition, the recoverability of these assets is assessed on a periodic basis to ensure that the balance is reflective of the amounts that will ultimately be received, taking into consideration factors such as *counterparty* and *credit risk*. Impairment is recognised where there is objective evidence that the Company may not receive amounts due to it and these amounts can be reliably measured.

Technical reserves of the Subsidiary recorded in the consolidated statement of financial position as part of "Other liabilities" are calculated based on insurance technical calculation using certain actuarial assumptions which are based on best estimate assumptions and margin for adverse risk. Included in the technical reserves are liability for future policy benefits, estimated claim liabilities, and unearned premium income. The Subsidiary uses *Gross Premium Reserve* method in calculating liability for future policy benefits which are based on best estimate assumptions and margin for adverse risk.

f. Deferred tax asset

Deferred tax assets are recognized for the future recoverable taxable income arising from temporary difference. Management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing on level of future taxable profits together with future strategic planning.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN

31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi: (lanjutan)

g. Revaluasi aset tetap

Revaluasi aset tetap Grup bergantung pada pemilihan asumsi yang digunakan oleh penilai independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain: tingkat diskonto, nilai tukar, tingkat inflasi dan tingkat kenaikan pendapatan dan biaya. Grup berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan dalam asumsi yang ditetapkan Grup dapat mempengaruhi secara material nilai aset tetap yang direvaluasi.

h. Konsolidasian entitas terstruktur

Dalam menentukan tingkat pengendalian yang dimiliki, Grup mempertimbangkan apakah entitas tersebut memenuhi definisi Entitas Terstruktur dan apakah Grup, secara substansi, mengendalikan entitas tersebut.

Ketika Grup, secara substansi, mengendalikan entitas terstruktur tersebut, entitas tersebut dikonsolidasikan oleh Grup.

i. Menentukan jangka waktu kontrak dengan opsi perpanjangan dan penghentian kontrak - Grup sebagai lessee

Grup menentukan jangka waktu sewa sebagai jangka waktu sewa yang tidak dapat dibatalkan, bersama dengan periode yang dicakup oleh opsi untuk memperpanjang masa sewa jika dipastikan akan dilaksanakan, atau periode apa pun yang dicakup oleh opsi untuk menghentikan sewa, jika cukup wajar untuk tidak dilakukan.

Grup memiliki beberapa kontrak sewa yang mencakup opsi perpanjangan dan penghentian jangka waktu sewa. Grup menerapkan penilaian dalam mengevaluasi apakah dapat dipastikan jika akan menggunakan opsi untuk memperpanjang atau menghentikan sewa. Hal tersebut dilakukan dengan mempertimbangkan seluruh fakta dan keadaan yang relevan yang memberikan insentif ekonomi untuk melakukan perpanjangan atau penghentian sewa. Setelah tanggal dimulainya, Grup menilai kembali masa sewa, jika terdapat peristiwa atau perubahan signifikan dalam keadaan yang berada dalam kendali dan mempengaruhi apakah *lessee* cukup pasti untuk mengeksekusi opsi memperpanjang atau menghentikan sewa.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Key sources of estimation uncertainty: (continued)

g. Fixed asset revaluation

The Group's fixed assets revaluation depends on its selection of certain assumptions used by the independent appraisal in calculating such amounts. Those assumptions include among others: discount rate, exchange rate, inflation rate and revenue and cost increase rate. The Group believes that its assumptions are reasonable and appropriate and significant differences in the Group's assumptions may materially affect the valuation of its fixed assets.

h. Consolidation of structured entities

In determining the degree of control exercised, the Group considers whether these entities meet the definition of Structured Entities and whether the Group, in substance, controls such entities.

When the Group, in substance, controls the entity to which the financial assets have been transferred, the entity is consolidated by the Group.

i. Determine the contract term with extension and contract termination options - the Group as lessee

The Group determines the lease term as non-cancellable term, together with the period covered by the option to extend the lease if it is determined to be exercised, or any period covered by the option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and contract termination in the lease terms. The Group applies its judgment in evaluating whether it is certain to exercise the option to extend or terminate the lease. This is done by considering all relevant facts and circumstances that provide economic incentives to extend or terminate the lease. After the commencement date, the Group reassesses the lease term, if there is a significant event or change in circumstances which is under its control and affects whether the lessee is certain enough to exercise the option to extend or terminate the lease.

DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi: (lanjutan)

j. Penurunan nilai aset non-keuangan

Grup mengevaluasi penurunan nilai aset apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset tidak dapat dipulihkan kembali. Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:

- performa yang tidak tercapai secara signifikan terhadap ekspektasi historis atau proyeksi hasil operasi di masa yang akan datang;
- perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- industri atau tren ekonomi yang secara signifikan bernilai negatif.

Grup mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurang biaya untuk menjual dengan nilai pakai aset (atau unit penghasil kas). Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

Pembalikan rugi penurunan nilai, untuk aset selain *goodwill*, diakui jika, dan hanya jika, terdapat perubahan estimasi yang digunakan dalam menentukan jumlah terpulihkan aset sejak pengujian penurunan nilai terakhir kali. Pembalikan rugi penurunan nilai tersebut diakui segera dalam laba rugi, tetapi tidak boleh melebihi akumulasi rugi penurunan nilai yang telah diakui sebelumnya. Rugi penurunan nilai yang diakui atas *goodwill* tidak dibalik lagi.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Key sources of estimation uncertainty: (continued)

j. Impairment of non-financial assets

The Group assesses impairment of assets whenever events or changes in circumstances that would indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- significant underperformance relative to expected historical or projected future operating results;
- significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- significant negative industry or economic trends.

The Group recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs.

Reversal on impairment loss for assets other than goodwill would be recognized if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment test was carried out. Reversal on impairment losses will be immediately recognized in profit or loss, but not in excess of any accumulated impairment loss previously recognized. Impairment losses relating to goodwill would not be reversed.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi (lanjutan)

k. Additional Tier 1 Perpetual Non-Cumulative Capital Securities ("AT-1 Capital")

Dalam mengklasifikasikan *AT-1 Capital* sebagai liabilitas keuangan, Bank telah menetapkan bahwa dalam *terms and conditions*, terdapat klausul *mandatory redemption - redemption for a capital trigger event* dimana ketika *Capital Adequacy Ratio* ("CAR") BNI mencapai rasio tertentu maka BNI harus melakukan pelunasan terhadap pokok terutang dan bunga dari *AT-1 Capital*. Hal ini telah memenuhi kriteria *contingent settlement* yang bersifat *genuine* dan tidak dapat dihindari sehingga akan menimbulkan kewajiban kontraktual dimasa yang akan datang.

Dalam mengklasifikasikan *AT-1 Capital* pada liabilitas keuangan, Bank telah menetapkan bahwa *AT-1 Capital* tersebut telah memenuhi persyaratan klasifikasi sebagaimana disebutkan di atas.

l. Kombinasi bisnis

Proses awal akuisisi melibatkan pengidentifikasian dan penentuan nilai wajar yang akan dialokasikan ke aset dan liabilitas yang dapat diidentifikasi dari entitas yang diakuisisi. Nilai wajar dari aset tetap dan aset tidak berwujud ditentukan oleh penilai independen dengan mengacu pada biaya penggantian atau nilai sekarang dari arus kas bersih yang diharapkan dari aset tersebut. Setiap perubahan dalam asumsi yang digunakan dan estimasi yang dibuat dalam menentukan nilai wajar, dan kemampuan manajemen untuk mengukur dengan andal imbalan kontinjensi dari entitas yang diakuisisi akan berdampak pada nilai tercatat aset dan liabilitas tersebut. Manajemen membuat pertimbangan dalam menentukan dasar yang digunakan untuk mencatat jumlah sementara pos-pos yang akuntansi awalnya belum selesai dilaporkan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Key sources of estimation uncertainty (continued)

k. Additional Tier 1 Perpetual Non-Cumulative Capital Securities ("AT-1 Capital")

In classifying *AT-1 Capital* as a financial liability, the Bank has determined that in terms and conditions, there is a mandatory redemption clause - redemption for a capital trigger event where when BNI's Capital Adequacy Ratio ("CAR") reaches a certain ratio, BNI shall repay the outstanding principal and interest from *AT-1 Capital*. This has met the criteria for contingent settlement which is genuine and unavoidable hence that it will create contractual obligations in the future.

In classifying *AT-1 Capital* as a financial liability, the Bank has determined that the *AT-1 Capital* has met the classification requirements as stated above.

l. Business combination

The initial process on the acquisition involves identifying and determining the fair values to be assigned to the identifiable assets and liabilities of the acquired entities. The fair value of fixed assets and intangible assets are determined by independent valuers by reference to replacement cost or present value of expected net cash flows from the assets. Any changes in the assumptions used and estimates made in determining the fair values, and management's ability to measure reliably the contingent consideration of the acquired entity will impact the carrying amount of these assets and liabilities. Management exercised judgement in determining the basis to record the provisional amounts for the items for which initial accounting is incomplete.

Bank BNI (continued)

As of 31 December 2022 the Bank's Minimum Statutory Reserve complied with Bank Indonesia (BI) Regulation PBI No. 24/4/PBI/2022 dated 1 March 2022 and Regulation of Members of The Board of Governors (PADG) No. 24/8/PADG/2022 dated 30 June 2022 concerning Minimum Statutory Reserve of Commercial Banks with BI in Rupiah and foreign currency (2021: the Bank's Minimum Statutory Reserve complied with Bank Indonesia (BI) Regulation PBI No. 20/3/PBI/2018 dated 29 March 2018 and Regulation of Members of The Board of Governors (PADG) No. 22/19/PADG/2020 dated 29 July 2020 concerning Minimum Statutory Reserve of Commercial Banks in Rupiah and foreign currency), which are as follows:

	2022	2021
Rupiah		
- GWM Primer	7.90%	3.50%
- Harian*)	0.00%	0.00%
- Rata-rata*)	7.90%	3.00%
- PLM***)	6.00%	6.00%
Mata uang asing***)	4.00%	4.00%

*) Effective since 1 September 2022. Bank provides funds for certain and inclusive economic activities, so that Bank gets incentives in the form of relaxation of the Statutory Reserves in Rupiah on 30 September 2022 amounting to 1.10%. Statutory Reserves in Rupiah that must be fulfilled by the Bank on 31 December 2022 which should be 9.00% with daily provisions of 0.00% and an average of 9.00% become 7.90% with daily provisions of 0.00% and an average of 7.90%.

**) Based on PADG No. 22/17/PBI/2020 dated 30 September 2020 regarding fulfillment of Macroprudential Liquidity Buffer (PLM) with changes to 6%

***) As of 16 March 2020, based on PADG No. 22/2/PADG/2020 dated 13 March 2020. Adjusting the statutory reserve requirement policy by lowering the Foreign Exchange Reserve Requirement for Bank Umum Konvensional (BUK) by 400 bps from 8% (eight percent) to 4% (four percent)

Minimum Statutory Reserve is a minimum reserve that should be maintained by the Bank in Current Accounts with Bank Indonesia. Macroprudential Liquidity Buffer are the minimum reserves that should be maintained by the Bank which comprised of Certificates of Bank Indonesia (SBI), Certificates Deposit of Bank Indonesia (SDBI), Sukuk of Bank Indonesia (SukBI), and/or Government Securities (SBN). RIM Current Account is the additional reserve that should be maintained by the Bank in the form of Current Accounts with Bank Indonesia, if the Bank's RIM is below the minimum of RIM targeted by Bank Indonesia (84%) or if the Bank's RIM is above the maximum of RIM targeted by Bank Indonesia (94%) and the Capital Adequacy Ratio (CAR) is below Bank Indonesia requirement of 14%.

11. TAGIHAN DAN LIABILITAS DERIVATIF

Dalam melakukan usaha bisnis, BNI melakukan
transaksi instrumen keuangan derivatif seperti
kontrak berjangka mata uang asing, swap mata
uang asing, swap atas suku bunga dan transaksi
spot untuk keperluan pembiayaan, perdagangan
dan lindung nilai.

In the normal course of business, BNI enters into
transactions involving derivative financial
instruments such as foreign currency forward
contracts, currency swaps, interest rate swaps and
spot transactions for financing, trading and hedging
purposes.

loans (continued)**

Pinjaman karyawan adalah pinjaman yang
diberikan kepada karyawan dengan tingkat
bunga sebesar 3% - 5% per tahun yang
ditujukan untuk pembelian rumah dan
keperluan lainnya dengan jangka waktu
berkisar antara 1 tahun sampai 20 tahun.
Pembayaran pokok pinjaman dan bunga
dilunasi melalui pemotongan gaji setiap bulan.

Loans to employees which carried interest rate
of 3% - 5% per annum are intended for
purchase of houses and other necessities with
1 year to 20 years period. The loan principal
and interest payments are settled through
monthly payroll deductions.

Pada tanggal 31 Desember 2022 dan
2021, tidak terdapat pelanggaran maupun
pelampauan Batas Maksimum Pemberian
Kredit (BMPK) kepada pihak berelasi dan
pihak ketiga sesuai dengan peraturan yang
ditetapkan Otoritas Jasa Keuangan.

As of 31 December 2022 and 2021, there is
neither any breach nor violation of Legal
Lending Limit (LLL) to related parties and third
parties as required by Regulation of Financial
Services Authority.

Rasio kredit usaha mikro dan kecil terhadap
jumlah kredit yang diberikan BNI per
31 Desember 2022 dan 2021 masing-masing
adalah sebesar 13,00% dan 13,17%,
sedangkan bila rasio tersebut ditambahkan
dengan kredit menengah maka rasionya
menjadi sebesar 19,17% dan 20,14% masing-
masing untuk tanggal 31 Desember 2022 dan
2021.

The micro and small scale loans to total loans
ratio for BNI as of 31 December 2022 and
2021 were 13.00% and 13.17%, respectively,
whereas if that ratio is added with middle scale
loans, the ratio will become 19.17% and
20.14% as of 31 December 2022 and 2021,
respectively.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021
(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

13. OBLIGASI PEMERINTAH (lanjutan)

a. Berdasarkan jenis dan mata uang (lanjutan)

BNI mengakui adanya keuntungan atau kerugian yang belum direalisasi atas perubahan nilai pasar Obligasi Pemerintah dalam kelompok nilai wajar melalui penghasilan komprehensif lain (bersih setelah pajak) sebesar Rp3.561.533 (rugi) dan Rp516.641 (laba) masing-masing untuk tahun yang berakhir pada tanggal 31 Desember 2022 dan 2021 yang dicatat pada bagian ekuitas laporan posisi keuangan konsolidasian.

Pada 31 Desember 2022 dan 2021, Obligasi Pemerintah dengan tingkat bunga tetap dengan jumlah nominal Rp3.331.098 dan Rp2.200.024 telah dijual dengan janji dibeli kembali hingga jatuh tempo (lihat Catatan 24).

b. Berdasarkan kisaran tanggal jatuh tempo dan jenis bunga

2022		
Nilai wajar melalui laba rugi		Fair value through profit of loss
Obligasi tingkat bunga tetap	04/01/2023 - 12/03/2071	Fixed rate bonds
Nilai wajar melalui penghasilan komprehensif lain		Fair value through other comprehensive income
Obligasi tingkat bunga tetap	15/04/2023 - 15/07/2038	Fixed rate bonds
Obligasi tingkat bunga mengambang	25/04/2025	Floating rate bonds
Biaya perolehan diamortisasi		Amortized cost
Obligasi tingkat bunga tetap	01/03/2023 - 15/05/2037	Fixed rate bonds
2021		
Nilai wajar melalui laba rugi		Fair value through profit of loss
Obligasi tingkat bunga tetap	06/01/2022 - 12/03/2071	Fixed rate bonds
Nilai wajar melalui penghasilan komprehensif lain		Fair value through other comprehensive income
Obligasi tingkat bunga tetap	08/01/2022 - 15/07/2038	Fixed rate bonds
Obligasi tingkat bunga mengambang	25/04/2025	Floating rate bonds
Biaya perolehan diamortisasi		Amortized cost
Obligasi tingkat bunga tetap	08/01/2022 - 15/05/2037	Fixed rate bonds

c. Nilai tercatat bruto dan cadangan kerugian penurunan nilai

Perubahan nilai tercatat bruto adalah sebagai berikut:

2022			
Kerugian kredit ekspektasian 12 bulan/ 12-month ECL	Kerugian kredit ekspektasian sepanjang umurnya - kredit tidak memburuk/ Lifetime ECL Not Credit-impaired	Kerugian kredit ekspektasian sepanjang umurnya - kredit memburuk/ Lifetime ECL Credit-impaired	Total/Total
Obligasi Pemerintah yang diukur pada biaya perolehan diamortisasi	22,120,716	-	22,120,716
Saldo awal	(408,317)	-	(408,317)
Pengukuran kembali bersih penyisihan kerugian*)	14,445,001	-	14,445,001

16. INVESTASI PADA ENTITAS ASOSIASI (lanjutan)

Pada tanggal 19 Desember 2022, PT Bank Syariah Indonesia Tbk ("BSI") melakukan Penawaran Umum Terbatas dalam rangka penerbitan Hak Memesan Efek Terlebih Dahulu (HMETD) sebanyak 4.999.952.795 saham. Grup berhak membeli saham baru sebanyak 1.242.439.344 saham dengan harga Rp1.000 (nilai penuh) per lembar saham. Grup menggunakan sebagian HMETD dan meningkatkan penyertaan modal sahamnya terhadap BSI sebanyak 500.000.000 saham dengan harga Rp500.000. Sisa HMETD Grup dialihkan ke PT CIMB Sekuritas dimana Grup mendapatkan kas sebesar Rp74.244. Peningkatan dalam penyertaan modal terhadap BSI menyebabkan persentase kepemilikan terhadap BSI terdilusi menjadi 23,24% dan Grup membukukan keuntungan dari saham terdilusi senilai Rp46.794.

Pada tanggal 31 Desember 2022 dan 2021, entitas asosiasi yang dimiliki oleh Grup adalah sebagai berikut:

Nama Perusahaan	Persentase Kepemilikan/ Percentage of Ownership			Company Name
	Kegiatan Usaha/ Business Activity	2022	Nilai tercatat/ Carrying Value	
PT Bank Syariah Indonesia Tbk	Perbankan/Banking	23.24%	10,048,975	PT Bank Syariah Indonesia Tbk

PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

18. ASET LAIN-LAIN – BERSIH (lanjutan)

Pada tanggal 31 Desember 2022, piutang bunga sebagian besar merupakan bunga yang berasal dari pinjaman yang diberikan dan Obligasi Pemerintah masing-masing sebesar Rp1.591.451 dan Rp1.639.814 (31 Desember 2021: Rp932.050 dan Rp1.350.384).

BNI telah melakukan upaya penyelesaian atas agunan yang diambil alih dengan melakukan upaya penjualan dalam bentuk lelang atau pengambilalihan agunan oleh investor atas agunan yang diambil alih.

Properti terbengkalai termasuk di dalam pos “lain-lain” sebesar Rp Nihil setelah dikurangi cadangan kerugian penurunan nilai sebesar Rp27.260 dan akumulasi penyusutan properti terbengkalai sebesar Rp1.726 pada tanggal 31 Desember 2022 dan sebesar Rp135 setelah dikurangi cadangan kerugian penurunan nilai sebesar Rp27.618 dan akumulasi penyusutan properti terbengkalai sebesar Rp1.756 pada tanggal 31 Desember 2021.

BNI telah melakukan upaya penyelesaian atas properti terbengkalai dalam bentuk pemanfaatan untuk kegiatan operasional Bank (kantor, outlet, galeri, rumah dinas dan gudang kearsipan).

Manajemen berpendapat bahwa cadangan kerugian penurunan nilai yang dibentuk atas aset-aset yang disebutkan di atas telah memadai.

18. OTHER ASSETS - NET (continued)

As of 31 December 2022, interest receivables are mostly comprised of interest from loans and Government Bonds amounting to Rp1,591,451 and Rp1,639,814, respectively (31 December 2021: Rp932,050 and Rp1,350,384).

BNI has made efforts to settle foreclosed collaterals by making an attempt to sell in the form of an auction or take over of collateral by investors on foreclosed collaterals.

Abandoned properties are included in “Others” amounting to Rp Nihil, net of allowance for impairment losses of Rp27,260 and accumulated depreciation of Rp1,726, as of 31 December 2022 and amounting to Rp135, net of allowance for impairment losses of Rp27,618 and accumulated depreciation of abandoned property amounting to Rp1,756, as of 31 December 2021.

BNI has made efforts to resolve abandoned properties by utilizing them for the Bank's operational activities (offices, outlets, gallery, official houses and warehouse).

Management believes that the allowance for impairment losses on the respective assets outlined above is adequate.

19. ASET TETAP DAN ASET HAK GUNA

*) Lihat Catatan 1

Pada tanggal 31 Desember 2022 dan 2021, Grup melakukan peninjauan kembali atas masa manfaat, metode penyusutan, dan nilai residu aset tetap dan menyimpulkan bahwa tidak terdapat perubahan atas metode dan asumsi tersebut.

Beban penyusutan untuk tahun yang berakhir pada tanggal 31 Desember 2022 dan 2021 masing-masing sebesar Rp2.359.225 dan Rp1.478.495 dicatat pada beban umum dan administrasi pada laporan laba rugi.

Aset tetap yang telah terdepresiasi penuh namun masih digunakan oleh Grup sebesar Rp8.676.026 dan Rp7.484.482 masing-masing pada tanggal 31 Desember 2022 dan 2021, antara lain berupa perlengkapan kantor dan kendaraan bermotor.

Manajemen berkeyakinan bahwa tidak terdapat penurunan nilai aset tetap yang dimiliki Grup selama tahun berjalan karena manajemen berpendapat bahwa nilai tercatat aset tetap tidak melebihi estimasi nilai yang dapat diperoleh kembali.

Aset tetap Bank pada tanggal 31 Desember 2022 diasuransikan terhadap risiko kebakaran dan pencurian dengan nilai pertanggungan sebesar Rp18.694.506 (31 Desember 2021: Rp16.226.239). Manajemen berpendapat bahwa nilai pertanggungan tersebut cukup untuk menutupi kemungkinan kerugian atas aset tersebut.

Refer to Note 1*)

As of 31 December 2022 and 2021, the Group performed a review on useful life, depreciation method, and residual value of fixed assets and concluded that there was no change in those methodology and assumptions.

Depreciation expense for the year ended 31 December 2022 and 2021 amounted to Rp2,359,225 dan Rp1,478,495 are recorded on general and administrative expense in the statement of profit or loss.

The fixed assets that have been fully depreciated but still in use by the Group amounted to Rp8,676,026 and Rp7,484,482 as of 31 December 2022 and 2021, respectively, including, among others, office equipment and motor vehicles.

Management believes that there is no impairment in the value of fixed assets owned by the Group during the year because management believes that the carrying amounts of fixed assets do not exceed the estimated recoverable amount.

As of 31 December 2022, the fixed assets of the Bank were insured against risk of fire and theft with sum insured amounting to Rp18,694,506 (31 December 2021: Rp16,226,239). Management believes that the sum insured is adequate to cover possible losses on the assets insured.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

19. ASET TETAP DAN ASET HAK GUNA (lanjutan)

Aset dalam penyelesaian pada tanggal 31 Desember 2022 dan 2021 adalah sebagai berikut:

	2022	2021
Tanah	119,121	100
Bangunan	262,613	305,610
Peralatan kantor dan kendaraan bermotor	325,675	215,815
	707,409	521,525

Estimasi persentase tingkat penyelesaian aset dalam penyelesaian pada tanggal 31 Desember 2022 adalah berkisar antara 86% - 95% dan 31 Desember 2021: 72% - 99%. Aset dalam penyelesaian pada tanggal 31 Desember 2022 tersebut diperkirakan akan selesai pada tahun 2023.

Nilai wajar tanah dan bangunan yang dimiliki Grup pada tanggal 31 Desember 2022 dan 2021 tidak berbeda jauh dengan nilai tercatat karena Grup melakukan penilaian pada tanah dan bangunan pada tanggal 30 September 2021.

Tidak ada aset tetap yang dijaminkan.

Berdasarkan keputusan Ketua Badan Pengawas Pasar Modal Dan Lembaga Keuangan No. KEP-347/BL/2012 tanggal 25 Juni 2012 tentang Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik butir 27.e, dengan mempertimbangkan nilai buku aset tetap (tanah dan bangunan) yang telah dilakukan revaluasi pada tahun 2015 dan 2018, maka pada tanggal 31 Desember 2021 Grup telah menugaskan perusahaan jasa penilai terdaftar untuk melaksanakan penilaian (revaluasi) aset tetap (tanah dan bangunan). Grup melakukan penilaian kembali atas tanah dan bangunan tersebut bukan untuk tujuan perpajakan tetapi hanya untuk pemenuhan ketentuan Bapepam dan LK tersebut.

Penilaian atas tanah dan bangunan dilakukan oleh penilai independen eksternal sebagai berikut:

- KJPP Toha Okky Heru & Rekan
- KJPP Rengganis Hamid & Rekan
- KJPP Toto Suharto & Rekan
- KJPP Abdullah Fitriantoro & Rekan

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

19. FIXED ASSETS AND RIGHT OF USE OF
ASSETS (continued)

Construction in progress as of 31 December 2022 and 2021 are as follows:

	2022	2021
Land	119,121	100
Buildings	262,613	305,610
Office equipment and motor vehicles	325,675	215,815
	707,409	521,525

The estimated percentage of completion of construction in progress as of 31 December 2022 is between 86% - 95% and 31 December 2021: 72% - 99%. Those construction in progress as of 31 December 2022 are estimated to be completed in 2023.

There is no significant difference between fair value and carrying value of land and building owned by the Group as of 31 December 2022 and 2021 because the Group performed revaluation over land and buildings on 30 September 2021.

There were no fixed assets pledged as collateral.

Based on Decision of Chairman of Bapepam and LK No. KEP-347/BL/2012 dated 25 June 2012, about the presentation and disclosure in financial report of issuer or a public company in point 27.e, by considering the book value of fixed assets (land and buildings) that on which revaluation has been conducted in 2015 and 2018, therefore on 31 December 2021, the Group assigned registered independent appraisers to appraise (revalue) its fixed assets (land and buildings). The Group has revalued the value of that land and buildings not for tax purpose rather for the compliance of the aforementioned Bapepam and LK regulation.

The valuations of land and buildings are performed by the following external independent appraisers:

- KJPP Toha Okky Heru & Rekan
- KJPP Rengganis Hamid & Rekan
- KJPP Toto Suharto & Rekan
- KJPP Abdullah Fitriantoro & Rekan

¹⁾ Termasuk di dalam pendapatan yang belum diakui adalah klaim asuransi yang telah diterima oleh Bank atas Kredit Usaha Rakyat (KUR).

Utang ke pemegang polis

Utang kepada pemegang polis merupakan liabilitas Entitas Anak yang terdiri dari liabilitas kontrak asuransi jangka panjang, liabilitas manfaat polis masa depan, cadangan premi yang belum merupakan pendapatan dan estimasi klaim.

Rincian jumlah utang kepada pemegang polis adalah sebagai berikut:

	2022	2021
Utang klaim	2,865	1,523
Cadangan atas premi yang belum mendapatkan pendapatan	89,490	106,537
Estimasi liabilitas klaim	264,869	318,693
Liabilitas manfaat polis masa depan	9,286,606	8,312,786
Penyisihan manfaat polis masa depan dan kontribusi yang belum menjadi hak	133,615	135,137
Liabilitas kepada pemegang unit link	6,170,446	5,920,996
Ujrah diterima dimuka	19,788	21,248
	15,967,679	14,816,920

Grup mengakui liabilitas manfaat polis masa depan, penyisihan kontribusi yang belum menjadi hak, estimasi liabilitas klaim dan premi yang belum merupakan pendapatan berdasarkan perhitungan internal aktuaris pada tanggal 31 Desember 2022 dan 2021.

**NOTES TO THE CONSOLIDATED

28. OTHER LIABILITIES

	2022	2021
Utang ke pemegang polis	15,967,679	14,816,920
Liabilities	1,146,127	1,281,576
Interest payable	893,932	538,846
Unearned income ¹⁾	537,348	576,546
Guarantee deposits	325,915	237,452
Payable to customers - Subsidiary	253,890	126,563
Unsettled account	241,464	251,572
Liability to third parties	153,272	660,624
Reinsurance payable and commission	90,328	86,496
Others	1,519,425	1,965,406
	21,129,380	20,542,001

¹⁾ Including in unearned income is insurance claim that has been received by the Bank from Kredit Usaha Rakyat (KUR).

Obligation to policyholders

Obligation to policyholders represent liabilities of Subsidiary which consist of liabilities for long-term insurance contracts, liabilities for future policy benefits, unearned premium reserves and estimated claims.

Details of obligation to policyholders represent liabilities are as follows:

	2022	2021
Utang klaim	2,865	1,523
Unearned premium reserves	89,490	106,537
Estimated claim liabilities	264,869	318,693
Liabilities for future policy benefits	9,286,606	8,312,786
Provision for liabilities for future policy benefits and unearned contributions	133,615	135,137
Liabilities to unit linked holders	6,170,446	5,920,996
Unearned Ujrah	19,788	21,248
	15,967,679	14,816,920

The Group recognized liabilities for future policy benefits, unearned contributions provisions, estimated claim liabilities and unearned premiums as of 31 December 2022 and 2021, based on internal actuary's calculations.

28. LIABILITAS LAIN-LAIN (lanjutan)

Utang ke pemegang polis (lanjutan)

a. Liabilitas manfaat polis masa depan

Liabilitas manfaat polis masa depan merupakan total dana yang disediakan untuk seluruh kewajiban yang timbul dari persyaratan yang tertera pada polis-polis yang masih berlaku pada tanggal laporan posisi keuangan. Perhitungan liabilitas manfaat polis masa depan menggunakan asumsi-asumsi aktuarial sebagai berikut:

	2022	2021	
Metode aktuarial	Gross Premium Valuation and Fund Value	Gross Premium Valuation and Fund Value	Actuarial methods
Tabel mortalitas	TMI IV (2019)	TMI IV (2019)	Mortality tables
Tabel morbiditas	Munich Re basis Hospitalisation (Health Insurance & Cash Plan)	Munich Re basis Hospitalisation (Health Insurance & Cash Plan)	Morbidity tables
Suku bunga tahunan			Annual interest rate
Rupiah	4.60% - 7.35%	4.18% - 7.79%	Rupiah
Dolar Amerika Serikat	3.18% - 4.99%	1.03% - 4.18%	US Dollar

Asumsi lain yang digunakan dalam perhitungan liabilitas manfaat polis masa depan adalah tingkat *lapse*, inflasi dan asumsi biaya.

Perhitungan liabilitas manfaat polis masa depan dan cadangan atas premi yang belum merupakan pendapatan pada tanggal 31 Desember 2022 telah diperiksa oleh aktuaris Grup.

Rincian liabilitas manfaat polis masa depan adalah sebagai berikut:

	2022	2021	
Asuransi jiwa			Life insurance
Perorangan	8,243,904	7,233,240	Individual
Kumpulan	1,042,702	1,079,546	Group
	9,286,606	8,312,786	
Unit Link			Unit Link
Perorangan	2,511,141	2,751,650	Individual
Kumpulan	3,659,305	3,169,346	Group
	6,170,446	5,920,996	
	15,457,052	14,233,782	

Termasuk dalam liabilitas manfaat polis masa depan adalah saldo dalam mata uang asing sebesar USD5.465.902 (nilai penuh) atau ekuivalen Rp85.090 (2021: USD5.395.671 (nilai penuh) atau ekuivalen dengan Rp76.902).

Included in the above liabilities for future policy benefits are balances in foreign currencies amounting to USD5,465,902 (full amount) or equivalent Rp85,090 (2021: USD 5,395,671 (full amount) or equivalent Rp76,902).

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

28. LIABILITAS LAIN-LAIN (lanjutan)

Utang ke pemegang polis (lanjutan)

a. Liabilitas manfaat polis masa depan (lanjutan)

Mutasi pada liabilitas manfaat polis masa depan adalah sebagai berikut:

	31 Desember/December 2022		
	Kotor/Gross	Aset Reasuransi/ Reinsurance assets	Bersih/Net
Saldo awal	14,233,782	(29,734)	14,204,048
Perubahan pada liabilitas manfaat polis masa depan	1,223,270	14,795	1,238,065
Saldo akhir	15,457,052	(14,939)	15,442,113

b. Penyisihan manfaat polis masa depan dan kontribusi yang belum menjadi hak

Penyisihan manfaat polis masa depan merupakan total penyisihan untuk memenuhi risiko yang timbul pada periode mendatang. Perhitungan menggunakan asumsi-asumsi aktuarial sebagai berikut:

	2022	2021	
Metode aktuarial	GPV hanya untuk dana tabarru/ only for tabarru' funds	GPV hanya untuk dana tabarru/ only for tabarru' funds	Actuarial method
Tabel mortalita	TMI III (2011) Rate reasuransi (Kecelakaan diri Grup, Ekawarsa) /Reinsurance rate (Group personal accident, Yearly term life)	TMI III (2011) Rate reasuransi (Kecelakaan diri Grup, Ekawarsa) /Reinsurance rate (Group personal accident, Yearly term life)	Mortality tables
Tabel morbidita	Munich Re basis (Health Insurance)	Munich Re basis (Health Insurance)	Morbidity tables
Tingkat bagi hasil tahunan hanya untuk dana tabarru' Rupiah	4.60% - 7.35%	3.68% - 7.29%	Annual profit sharing rate only for tabarru' funds Rupiah

Rincian penyisihan manfaat polis masa depan dan kontribusi yang belum menjadi hak adalah sebagai berikut:

	2022	2021	
Syariah			Sharia
Penyisihan manfaat polis masa depan	124,565	107,801	Provision for future policy benefit
Kontribusi yang belum menjadi hak	9,050	27,336	Unearned contributions
	133,615	135,137	

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

28. OTHER LIABILITIES (continued)

Obligation to policyholders (continued)

a. Liabilities for future policy benefits (continued)

Movements in the liabilities for future policy benefits are as follows:

	31 Desember/December 2021			
	Kotor/Gross	Aset reasuransi/ Reinsurance assets	Bersih/Net	
Saldo awal	13,184,108	(33,202)	13,150,906	Beginning balance

Tabel berikut menyajikan sensitivitas dari nilai liabilitas asuransi terhadap perubahan asumsi yang digunakan dalam estimasi liabilitas asuransi. Korelasi asumsi akan memiliki dampak yang signifikan dalam menentukan cadangan teknis, tetapi untuk menunjukkan dampak akibat perubahan asumsi, asumsi harus diubah secara individual. Tabel ini juga menunjukkan dampak terhadap cadangan teknis akibat perubahan asumsi aktuarial (tidak diaudit).

The following tables present the sensitivity of the value of insurance liabilities to the movements in the assumptions used in the estimation of insurance liabilities. The correlation of assumptions will have a significant effect in determining the ultimate technical reserves, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis. This table also indicates the impact on the technical reserve due to the changes in the actuarial assumptions (unaudited).

		Saldo liabilitas asuransi/ Balance of insurance liabilities		
	Persentase perubahan/ Percentage of change	31 Desember/December		
		2022	2021	
Tingkat suku bunga	+1%	15,459,630	14,381,755	Interest rate
Tingkat suku bunga	-1%	16,152,383	14,978,370	Interest rate
Tingkat mortalitas	+10%	15,857,994	14,717,555	Mortality rate
Tingkat mortalitas	-10%	15,701,376	14,244,408	Mortality rate

Liabilitas lain-lain

Jumlah beban bunga atas liabilitas sewa sebesar Rp44.601 pada tanggal 31 Desember 2022 dan Rp68.822 pada tanggal 31 Desember 2021.

Analisis jatuh tempo liabilitas lain-lain terkait sewa adalah sebagai berikut:

	2022	2021	
1 tahun	312,059	80,198	1 year
2 tahun	223,400	121,541	2 years
3 tahun	181,578	202,646	3 years
4 tahun	109,315	131,210	4 years
5 tahun	319,775	745,981	5 years
	<u>1,146,127</u>	<u>1,281,576</u>	

Other liabilities

The balances of interest expense from lease liabilities amounted to Rp44,601 as of 31 December 2022 and Rp68,822 as of 31 December 2021.

The maturity analysis of other liabilities related to lease is as follows:

29. PERPAJAKAN (lanjutan)

c. Beban pajak (lanjutan)

Beban pajak penghasilan tahun berjalan dan taksiran utang pajak penghasilan BNI adalah sebagai berikut:

	2022
Beban pajak penghasilan sesuai tarif pajak yang berlaku 19% x Rp26.300.935 19% x Rp17.052.503	4,997,178 -
Beban pajak penghasilan Pajak dibayar di muka	4,997,178 (3,626,301)
Utang pajak penghasilan - BNI	1,370,877

Pada tanggal 31 Maret 2020, Pemerintah menerbitkan Peraturan Pemerintah Pengganti Undang-Undang (Perpu) Republik Indonesia No. 1 Tahun 2020 yang telah menjadi Undang-Undang (UU) No. 2 Tahun 2020, serta menetapkan Peraturan Pemerintah (PP) No. 30 Tahun 2020 tentang Penurunan Tarif Pajak Penghasilan bagi Wajib Pajak Badan Dalam Negeri yang Berbentuk Perseroan Terbuka dan berlaku sejak tanggal 19 Juni 2020. Aturan tersebut menetapkan penurunan tarif pajak penghasilan wajib pajak badan dalam negeri dan bentuk usaha tetap dari semula 25% menjadi 22% untuk tahun pajak 2020 dan 2021 dan 20% mulai tahun pajak 2022 dan seterusnya.

Pada tanggal 29 Oktober 2021, Pemerintah menerbitkan Undang-Undang Republik Indonesia No. 7 Tahun 2021 tentang Harmonisasi Peraturan Perpajakan. Aturan tersebut menetapkan tarif pajak penghasilan wajib pajak dalam negeri dan bentuk usaha tetap sebesar 22% yang mulai berlaku pada tahun pajak 2022 dan seterusnya, dan pengurangan tarif pajak sebesar 3% untuk wajib pajak dalam negeri yang memenuhi syarat tertentu. Dengan demikian, penetapan tarif pajak sebelumnya sebesar 20% menjadi tidak berlaku setelah Undang-Undang ini disahkan.

29. TAXATION (continued)

c. Tax expense (continued)

Taxable income for the current year and the estimated corporate income tax payable of BNI are as follows:

	2021	
Income tax based on the applicable tax rates 19% x Rp26,300,935 19% x Rp17,052,503	- 3,239,975	
Corporate income tax expense Prepaid tax	3,239,975 (2,036,570)	
Corporate income tax payable - BNI	1,203,405	

On 31 March 2020, the Government issue Government Regulation in Lieu of Law (Perpu) of the Republic of Indonesia No. 1 year 2020 which has become Law (UU) No. 2 year 2020, as well as stipulated Government Regulation (PP) No. 30 year 2020 concerning Tariff Reduction for Domestic Public Companies Taxpayers and effective since 19 June 2020. The regulation has stipulated the reduction in the income tax rates for domestic corporate taxpayers and business establishments from 25% to 22% for Fiscal Year 2020 and 2021 and 20% for the Fiscal Year 2022 onwards.

On 29 October 2021, the Government issue Law of the Republic of Indonesia No.7 year 2021 concerning Harmonization of Tax Regulations. The regulation has stipulated the income tax rate for domestic taxpayers and business establishments of 22% which will be effective from the Fiscal Year 2022 onwards, and a further reduction of the tax rate by 3% for domestic taxpayers who meet certain requirements. Hence, the previously tax rate determination of 20% will be invalid after the ratification of this Law.

29. PERPAJAKAN (lanjutan)

c. Beban pajak (lanjutan)

Untuk tahun pajak 2022 dan 2021, berdasarkan Pasal 3 dari Peraturan Pemerintah No. 30 tahun 2020 tentang Penurunan Tarif Pajak Penghasilan ("PPh") bagi Wajib Pajak Badan Dalam Negeri Yang Berbentuk Perseroan Terbuka, Wajib Pajak dapat memperoleh penurunan tarif PPh sebesar 3% (tiga persen) lebih rendah dari tarif PPh Wajib Pajak Badan dalam negeri sebagaimana diatur dalam Undang-undang Perpajakan tersebut diatas apabila memenuhi tambahan kriteria sebagai berikut:

1. Jumlah kepemilikan saham publiknya 40% (empat puluh persen) atau lebih dari keseluruhan saham yang disetor dan saham tersebut dimiliki paling sedikit oleh 300 (tiga ratus) pihak.
2. Masing-masing pihak yang dimaksud di atas hanya boleh memiliki saham kurang dari 5% (lima persen) dari keseluruhan saham yang disetor.
3. Ketentuan tersebut harus dipenuhi oleh Wajib Pajak dalam waktu paling singkat 6 (enam) bulan (183 (seratus delapan puluh tiga) hari kalender) dalam jangka waktu 1 (satu) tahun pajak.
4. Pihak-pihak yang memenuhi persyaratan 300 (tiga ratus) pihak dan 5% (lima persen) sebagaimana di atas, tidak termasuk: Wajib Pajak Perseroan Terbuka yang membeli kembali sahamnya; dan/atau yang memiliki hubungan istimewa sebagaimana diatur dalam Undang-Undang Pajak Penghasilan dengan Wajib Pajak Perseroan Terbuka (tercermin dari kepemilikan saham oleh pengendali dan/atau pemegang saham utama).

Berdasarkan Laporan Bulanan Kepemilikan Saham Nomor DE/I/2023-0035 tanggal 3 Januari 2023 dan Nomor DE/I/2022-0024 tanggal 3 Januari 2022 dari Biro Administrasi Efek, Datindo Entrycom, atas kepemilikan saham BNI selama tahun 2022 dan tahun 2021, semua kriteria untuk memperoleh fasilitas penurunan tarif pajak tersebut di atas telah terpenuhi.

Pajak penghasilan badan BNI untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2022 dan 2021 telah dihitung dengan menggunakan tarif pajak 19%.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

29. TAXATION (continued)

c. Tax expense (continued)

For the fiscal year 2022 and 2021, based on Article 3 of Government Regulation No. 30 year 2020 regarding the Decrease in Income Tax Rates ("PPh") for Domestic Corporate Tax Payers in the Form of Public Companies, tax payers can obtain a reduction in the PPh rate of 3% (three percent) lower than the rate of domestic corporate tax payers as regulated in the Taxation Law, if it meets the following additional criteria:

1. The public owned 40% (forty percent) or more of the total paid up shares and those shares are owned by at least 300 (three hundred) parties.
2. Each party can only own less than 5% (five percent) of total paid-up shares.
3. The tax payer should fulfill the above mentioned criteria at least within 6 (six) months (183 (one hundred and eighty three) calendar days) in 1 (one) fiscal year.
4. Parties that meet the requirements of 300 (three hundred) parties and 5% (five percent) as stated above, do not include: Public Company Tax Payers who buy back their shares; and/or Those who have a special relationship as stipulated in the Income Tax Law with Public Company Tax Payers (reflected in: share ownership by the controlling party and/or major shareholder).

Based on the Monthly Shareholding Report Number DE/I/2023-0035 dated 3 January 2023 and Number DE/I/2022-0024 dated 3 January 2022 from the Registrar, Datindo Entrycom, regarding BNI's shares during the year 2022 and year 2021, BNI has met all criteria mentioned above to obtain a facility of tax rate reduction.

BNI's corporate income tax for year ended 31 December 2022 and 2021 are calculated using the tax rate of 19%.

29. PERPAJAKAN (lanjutan)

e. Surat ketetapan pajak

Pada tanggal 5 Februari 2018, BNI telah menerima Surat Ketetapan Pajak Kurang Bayar (SKPKB) atas PPh Badan untuk tahun fiskal 2015 sebesar Rp2.461.364 (termasuk denda) dan disetujui BNI sebesar Rp162.130. Pada tanggal 2 Maret 2018, BNI telah melakukan pembayaran sebagian SKPKB sebesar Rp1.785.691. Pada tanggal 4 Mei 2018, BNI mengajukan surat keberatan atas Surat Ketetapan Pajak Kurang Bayar (SKPKB) ke Direktorat Jenderal Pajak.

Pada tanggal 30 April 2019, BNI menerima Keputusan Direktorat Jenderal Pajak yang mengabulkan sebagian keberatan BNI dan mengurangi jumlah pajak yang masih harus dibayar dalam SKPKB atas PPh Badan untuk tahun fiskal 2015 (termasuk denda) menjadi Rp1.212.517 dan disetujui BNI sebesar Rp163.628. Atas kelebihan pembayaran pajak di muka sebesar Rp573.174, setelah dikurangi dengan STP tahun 2019 sebesar Rp481, Bank telah menerima restitusi pajak melalui kompensasi pembayaran pajak penghasilan badan tahun 2019. Pada tanggal 26 Juli 2019, BNI telah mengajukan permohonan banding keberatan ke Pengadilan Pajak. Pada tanggal 24 Juni 2022, BNI menerima Putusan Banding dari Pengadilan Pajak yang mengabulkan sebagian banding BNI dan mengurangi jumlah pajak yang masih harus dibayar dalam SKPKB atas PPh Badan untuk tahun fiskal 2015 (termasuk denda) menjadi Rp789.519. Pada tanggal 5 Oktober 2022, BNI telah mengajukan upaya hukum Peninjauan Kembali ke Mahkamah Agung atas putusan banding tersebut dan sampai dengan tanggal penyelesaian laporan keuangan konsolidasian ini, belum terdapat Putusan Peninjauan Kembali dari Mahkamah Agung.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

29. TAXATION (continued)

e. Tax assessment letters

On 5 February 2018, BNI received tax assessment for underpayment of tax (SKPKB) which stated that there was an under payment of corporate income tax for fiscal year 2015 amounting to Rp2,461,364 (including penalties) which was partially agreed by BNI for the amount of Rp162,130. On 2 March 2018, BNI made a partial payment for the amount of Rp1,785,691. On 4 May 2018, BNI submitted Objection Letter for these SKPKB to the Directorate General of Tax.

On 30 April 2019, BNI received Directorate General of Tax decision which partially approved BNI Objection and reduced the SKPKB for fiscal year 2015 (including penalties) to become Rp1,212,517 which is partially agreed by BNI amounting to Rp163,628. For the overpayment amounting to Rp573,174, after less of STP for fiscal year 2019 amounting to Rp481, the Bank has received a tax refund through compensation for corporate income tax in 2019. On 26 July 2019, BNI submitted the request for appeal on the above to the Tax Court. On 24 June 2022, BNI received an Appeal Decision from the Tax Court which partially granted BNI's appeal and reduced the amount of tax accrued in the SKPKB on Corporate Income Tax for the 2015 fiscal year (including fines) to Rp789,519. On 5 October 2022, BNI submitted the Judicial Review to the Supreme Court for the appeal decision and up to the date of this consolidated financial statements, there has been no Judicial Review Decision from the Supreme Court.

MTN Subordinasi I BNI tahun 2018 (lanjutan)

Pada tanggal 31 Desember 2022, MTN Subordinasi BNI memiliki nilai bersih sebesar Rp99.994 setelah dikurangi biaya penerbitan yang belum diamortisasi sebesar Rp6 (31 Desember 2021: Rp99.985).

BNI Tier 2 Subordinated Notes

Pada tanggal 30 Maret 2021, BNI telah menerbitkan *Tier 2 Subordinated Notes (BNI Tier 2 Capital Bond 2021)* sebesar USD500 juta jangka waktu 5 tahun, dengan kupon sebesar 3,75% per tahun yang dibayarkan setiap semester, dan tercatat di *Singapore Exchange*. *Tier 2 Subordinated Notes* dapat dicatat sebagai komponen modal pelengkap (*Tier 2*) sesuai persetujuan dari Otoritas Jasa Keuangan melalui surat No. S-64/PB.31/2021 tanggal 31 Maret 2021.

Pada tanggal 31 Desember 2022, BNI *Tier 2 Capital Bond 2021* memiliki nilai bersih sebesar Rp7.780.345 setelah dikurangi biaya penerbitan yang belum diamortisasi sebesar Rp3.405.

Penggunaan dana hasil penerbitan *Tier 2 Subordinated Notes* digunakan oleh BNI untuk memperkuat modal pelengkap (*tier 2*) dan modal kerja dalam rangka pengembangan usaha terutama pemberian kredit serta peningkatan komposisi struktur dana jangka panjang, sesuai dengan Peraturan OJK No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum sebagaimana telah diubah dengan Peraturan OJK No. 34/POJK.03/2016 dan selanjutnya akan digunakan oleh BNI untuk mendukung peningkatan aset produktif.

Pada tanggal 31 Desember 2022 BNI telah memperoleh hasil pemeringkatan atas *Tier 2 Subordinated Notes* dari Moody's dan Fitch dengan peringkat masing-masing Ba2 dan BB.

Tier 2 Subordinated Notes ini dapat mengalami *write down* dan ditangguhkan pembayaran pokok dan bunganya apabila OJK menetapkan bahwa BNI berpotensi terganggu kelangsungan usahanya (*point of non-viability*) sesuai dengan peraturan OJK No. 11/POJK.03/2016 yang diubah dengan peraturan OJK No. 34/POJK.03/2016. *Point of non-viability* terjadi akibat bank mencapai *trigger level* pada indikator permodalan yang ditetapkan OJK, sesuai SEOJK No. 20/SEOJK.03/2016 Fitur Konversi Menjadi Saham Biasa atau *Write Down* terhadap Instrumen Modal Inti Tambahan dan Modal Pelengkap.

a. By type (continued)

**Subordinated MTN I BNI year 2018
(continued)**

As of 31 December 2022, the net value of Subordinated MTN BNI was Rp99,994 after deducting unamortized issuance cost amounted Rp6 (31 December 2021: Rp99,985).

BNI Tier 2 Subordinated Notes

On 30 March 2021, BNI has issued Tier 2 Subordinated Notes (BNI Tier 2 Capital Bond 2021) with total nominal value of USD500 million with the term of 5 years and coupon of 3.75% per annum paid on semi-annual basis, and listed in Singapore Exchange. Tier 2 Subordinated Notes can be treated as supplementary capital components (Tier 2) according to the approval from Financial Services Authority through letter No-S-64/PB.31/2021 dated 31 March 2021.

As of 31 December 2022, the net value of BNI Tier 2 Capital Bond 2021 was Rp7,780,345 after deducting unamortized issuance cost amounted Rp3,405.

The proceeds from Tier 2 Subordinated Notes issuance was used by BNI to strengthen tier 2 capital and working capital in the context of business development, especially loan disbursement and increase in the composition of the long-term fund structure, in accordance with OJK Regulation No. 11/POJK.03/2016 concerning the Minimum Capital Requirement for Commercial Banks as amended by OJK Regulation No. 34/POJK.03/2016 and will then be used by BNI to support increase in productive assets.

As of 31 December 2022, BNI obtained the rating of Tier 2 Subordinated Notes from Moody's and Fitch with Ba2 and BB rating, respectively.

This Tier 2 Subordinated Notes can experience write down and the payment of principal and interest will be postponed if the OJK stipulates that BNI has the potential to be subject to business continuity issues (*point of non-viability*) in accordance with OJK regulations No. 11/POJK.03/2016 amended by OJK regulation No. 34/POJK.03/2016. *Point of non-viability* occurs due to a bank achieving a trigger level in the capital indicator set by OJK, according to SEOJK No. 20/SEOJK.03/2016 Conversion Features into Common Shares or Write Down of Additional Core Capital Instruments and Supplementary Capital.

32. EFEK-EFEK SUBORDINASI (lanjutan)

a. Berdasarkan jenis (lanjutan)

BNI Additional Tier 1 Capital Securities

Pada tanggal 24 September 2021, BNI telah menerbitkan *Additional Tier 1 Capital Securities (BNI Additional Tier 1 Capital Bond 2021)* sebesar nilai nominal USD600 juta dan tidak memiliki jangka waktu, dengan opsi *call* 5,5 tahun, dengan kupon sebesar 4,30% per tahun yang dibayarkan setiap semester, dan tercatat di *Singapore Exchange*. *Additional Tier 1 Capital Securities* dapat dicatat sebagai komponen modal inti tambahan (*Additional Tier 1*) sesuai persetujuan dari Otoritas Jasa Keuangan melalui surat No. S-210/PB.31/2021 tanggal 30 September 2021.

Pada tanggal 31 Desember 2022, BNI *Additional Tier 1 Capital Bond 2021* memiliki nilai bersih sebesar Rp9.332.811 setelah dikurangi biaya penerbitan yang belum diamortisasi sebesar Rp7.689 (31 Desember 2021: Rp 8.542.602).

BNI telah memperoleh hasil pemeringkatan atas *Additional Tier 1 Capital Securities* dari Moody's Ba3.

Additional Tier 1 Capital Securities yang diterbitkan telah mengikuti persyaratan POJK 11/POJK.03/2016 (Pasal 15) sehingga instrumen keuangan tersebut dapat dikategorikan sebagai Modal Inti Tambahan (*Additional Tier 1*). Namun, terdapat klausul *mandatory redemption - redemption for a capital trigger event* ketika CAR BNI mencapai rasio tertentu maka Bank harus melakukan pelunasan terhadap sisa pokok dan bunga dari AT-1. Oleh karena itu, Bank mencatat BNI *Additional Tier 1 Capital Securities* ini sebagai instrumen liabilitas pada laporan keuangan konsolidasian .

Additional Tier 1 Capital Securities ini dapat mengalami *write down* dan ditangguhkan pembayaran pokok dan bunganya apabila OJK menetapkan bahwa BNI berpotensi terganggu kelangsungan usahanya (*point of non-viability*) sesuai dengan peraturan OJK No. 11/POJK.03/2016 yang diubah dengan peraturan OJK No. 34/POJK.03/2016. *Point of non-viability* terjadi akibat bank mencapai *trigger level* pada indikator permodalan yang ditetapkan OJK, sesuai SEOJK No. 20/SEOJK.03/2016 Fitur Konversi Menjadi Saham Biasa atau *Write Down* terhadap Instrumen Modal Inti Tambahan dan Modal Pelengkap.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

32. SUBORDINATED SECURITIES (continued)

a. By type (continued)

BNI Additional Tier 1 Capital Securities

On 24 September 2021, BNI has issued *Additional Tier 1 Capital Securities (BNI Additional Tier 1 Capital Bond 2021)* with total nominal value of USD600 million perpetual non callable 5.5 years and coupon of 4.30% per annum paid on semi-annual basis, and listed in Singapore Exchange. *Additional Tier 1 Capital Securities* can be treated as supplementary capital components (*Additional Tier 1*) according to the approval from Financial Services Authority through letter No.S-210/PB.31/2021 dated 30 September 2021.

As of 31 December 2022, the net value of BNI *Additional Tier 1 Capital Bond 2021* was Rp9,332,811 after deducting unamortized issuance cost amounted Rp7,689 (31 December 2021: Rp 8,542,602).

BNI obtained the rating of *Additional Tier 1 Capital Securities* from Moody's with Ba3 rating.

Additional Tier 1 Capital Securities issued has comply in accordance with OJK Regulation No. 11/POJK.03/2016 (Article 15) hence the financial instrument can be categorised as supplementary capital components (*Additional Tier 1*). However, there is a mandatory redemption clause - redemption for a capital trigger event when BNI's CAR reaches a certain ratio, the Bank shall pay off the remaining principal and interest from AT-1. Therefore, the Bank recorded this BNI *Additional Tier 1 Capital Securities* as a liability instrument in the consolidated financial statements.

This *Additional Tier 1 Capital Securities* can experience write down and the payment of principal and interest will be postponed if the OJK stipulates that BNI has the potential to be subject to business continuity issues (*point of non-viability*) in accordance with OJK regulations No. 11/POJK.03/2016 amended by OJK regulation No. 34/POJK.03/2016. *Point of non-viability* occurs due to a bank achieving a trigger level in the capital indicator set by OJK, according to SEOJK No. 20/SEOJK.03/2016 Conversion Features into Common Shares or Write Down of Additional Core Capital Instruments and Supplementary Capital.

General Shareholders' meeting has approved the dividend distribution of Rp2,724,629 and Rp820,101 from the 2021 net income on 15 March 2022 and 2020 net income on 29 March 2021.

35. CADANGAN UMUM DAN WAJIB

Cadangan umum dan wajib pada awalnya dibentuk dalam rangka memenuhi ketentuan Pasal 61 ayat (1) Undang-undang No. 1/1995 mengenai Perseroan Terbatas (kemudian diganti dengan Undang-undang Perseroan Terbatas No. 40/2007 pasal 70), yang mengharuskan perusahaan Indonesia untuk membuat penyisihan cadangan umum dan wajib sebesar sekurang-kurangnya 20% dari jumlah modal yang ditempatkan dan disetor penuh. Undang-undang tersebut tidak mengatur jangka waktu untuk pembentukan penyisihan tersebut.

35. GENERAL AND LEGAL RESERVES

The general and legal reserves were originally provided in accordance with Indonesian Limited Liability Company Law No. 1/1995 article 61 paragraph (1) (later superseded by Limited Liability Company Law No. 40/2007 article 70), which requires Indonesian companies to set up a general and legal reserve amounting to at least 20% of the issued and paid-up share capital. This particular law does not regulate the period of time in relation to the provision of such reserves.

KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

36. CADANGAN KHUSUS

Cadangan khusus terdiri dari cadangan yang dibentuk dalam rangka tujuan investasi dan *legal reserve* dari cabang luar negeri.

Sehubungan dengan adanya penerapan Peraturan Otoritas Jasa Keuangan (POJK) No. 34/POJK.03/2016 tanggal 22 September 2016 tentang Perubahan atas POJK No. 11/POJK.03/2016 tentang "Kewajiban Penyediaan Modal Minimum" yang mulai berlaku pada tanggal 26 September 2016 ("tanggal diberlakukannya"), untuk menjaga struktur permodalannya, Bank telah melakukan reklasifikasi atas saldo laba yang sudah ditentukan penggunaannya (cadangan khusus) sebesar Rp5.613.100 dan cadangan cabang luar negeri sebesar Rp92.276 per 31 Desember 2016, menjadi laba di tahan yang tidak ditentukan penggunaannya.

Reklasifikasi atas saldo laba tersebut telah mendapatkan persetujuan melalui berita acara Rapat Umum Pemegang Saham Tahunan No. 42 tanggal 16 Maret 2017.

37. PENDAPATAN BUNGA DAN PENDAPATAN SYARIAH

	2022	2021
Pinjaman yang diberikan	46,101,583	43,129,389
Obligasi Pemerintah	5,375,934	4,846,749
Penempatan pada bank lain dan Bank Indonesia	1,537,454	667,630
Efek-efek	700,515	506,161
Wesel ekspor dan tagihan lainnya	577,344	478,945
Marjin, pendapatan bagi hasil dan bonus syariah	-	333,264
Lain-lain	365,851	63,749
	54,658,681	50,025,887

Pada tanggal 31 Desember 2022 dan 2021, termasuk dalam pendapatan bunga dan pendapatan syariah di atas adalah pendapatan dari pihak berelasi terkait transaksi Obligasi Pemerintah dan SPN masing-masing sebesar Rp5.185.918 dan Rp4.697.811.

38. BEBAN BUNGA DAN BEBAN SYARIAH

	2022	2021

41. IMBALAN KERJA

	2022	2021
Imbalan kerja jangka pendek	3,157,084	2,229,024
Imbalan pasca kerja jangka panjang		
Program pensiun manfaat pasti	1,398,025	1,583,467
Imbalan pasca kerja lainnya dan imbalan kerja jangka panjang lainnya	2,324,859	2,325,272
	3,722,884	3,908,739
	6,879,968	6,137,763

Program dana pensiun Bank ini dikelola oleh Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun"). Kontribusi pegawai adalah sebesar 7,5% dari penghasilan dasar pensiun karyawan dan sisa jumlah yang diperlukan untuk mendanai program tersebut ditanggung oleh BNI.

Program pensiun manfaat pasti

Penilaian aktuarial atas manfaat pensiun pada tahun yang berakhir tanggal 31 Desember 2022 dan 2021, dilakukan oleh perusahaan konsultan aktuarial terdaftar independen, PT Towers Watson Purbajaga dengan menggunakan metode "Projected Unit Credit".

41. EMPLOYEE BENEFITS

Long-term employee benefits
Defined benefit pension plan
Post employment benefits
and other long-term employee benefits

The pension plan of the Bank is managed by Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun"). The employees' contributions are 7.5% of the employee's pension salary-based and the remaining amounts required to fund the program/pension plan are contributed by BNI.

Defined benefit pension plan

The actuarial calculations of pension benefits for year ended 31 December 2022 and 2021 are prepared by a registered independent actuarial consulting firm, PT Towers Watson Purbajaga using the "Projected Unit Credit" method.

Umur 51-52	1.3%	1.3%	Age 51-52
Umur >52	0%	0%	Age >52

Sensitivitas dari kewajiban manfaat pasti terhadap perubahan asumsi aktuaria adalah sebagai berikut:

The sensitivity of defined benefit obligation to changes in the weighted assumptions is as follows:

	Dampak terhadap kewajiban manfaat pasti/ Impact on defined benefit obligation		
	Perubahan asumsi/ Change in assumption	Nilai kini kewajiban manfaat pasti/ Present value of benefit obligation	
2022			2022
Tingkat diskonto	Kenaikan/increase 1% Penurunan/decrease 1%	(773,833) 925,564	Discount rate
Tingkat kenaikan gaji	Kenaikan/increase 1% Penurunan/decrease 1%	144,082 (135,286)	Salary increase rate

	Dampak terhadap kewajiban manfaat pasti/ Impact on defined benefit obligation		
	Perubahan asumsi/ Change in assumption	Nilai kini kewajiban manfaat pasti/ Present value of benefit obligation	
2021			2021
Tingkat diskonto	Kenaikan/increase 1% Penurunan/decrease 1%	(806,439) 968,866	Discount rate
Tingkat kenaikan gaji	Kenaikan/increase 1% Penurunan/decrease 1%	160,217 (149,818)	Salary increase rate

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

41. IMBALAN KERJA (lanjutan)

Program pensiun manfaat pasti (lanjutan)

Analisis sensitivitas didasarkan pada perubahan atas satu asumsi aktuarial dimana asumsi lainnya dianggap konstan. Dalam perhitungan sensitivitas kewajiban imbalan pasti atas asumsi aktuarial utama, metode yang sama (perhitungan nilai kini kewajiban imbalan pasti dengan menggunakan metode *projected unit credit* di akhir periode) telah diterapkan seperti dalam penghitungan kewajiban pensiun yang diakui dalam laporan posisi keuangan konsolidasian.

Pada tanggal 31 Desember 2022 dan 2021, aset program terdiri dari:

	2022	2021
Obligasi pemerintah	1,890,122	1,762,924
Penempatan langsung	1,663,537	1,650,568
Obligasi	1,597,539	1,617,067
Saham	1,037,753	954,490
Properti	332,755	346,682
Deposito	262,929	299,176
Deposito <i>on call</i>	42,194	6,761
Reksa Dana	81,257	148,956
	6,908,086	6,786,624

Investasi telah terdiversifikasi dengan baik, sehingga kinerja buruk satu investasi tidak akan memberikan dampak material bagi seluruh kelompok aset. Proporsi terbesar aset investasi ditempatkan pada instrumen utang. Diyakini bahwa instrumen utang memberikan imbal hasil yang paling baik dalam jangka panjang pada tingkatan risiko yang dapat diterima. Untuk program manfaat pasti sebagian besar instrumen surat utang merupakan portofolio obligasi Pemerintah Republik Indonesia dan obligasi korporasi di Indonesia.

Hasil yang diharapkan dari aset program ditentukan dengan mempertimbangkan imbal hasil yang diharapkan atas aset yang mengacu pada kebijakan investasi. Hasil investasi bunga tetap didasarkan pada hasil pengembalian bruto pada tanggal pelaporan. Hasil yang diharapkan dari investasi ekuitas dan properti mencerminkan tingkat imbal hasil jangka panjang aktual yang terjadi untuk tiap-tiap pasar.

Bank terekspos beberapa risiko atas program imbalan kerja seperti risiko yang terekspos pada program manfaat pasti adalah adanya tingkat hasil investasi dibawah asumsi *discount rate* dan kenaikan gaji aktual yang lebih besar dari asumsi. Hal tersebut menimbulkan peningkatan iuran yang dibayarkan kepada Dana Pensiun.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

41. EMPLOYEE BENEFITS (continued)

Defined benefit pension plan (continued)

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the pension liability recognized within the consolidated statement of financial position.

As of 31 December 2022 and 2021, plan assets comprise the following:

	2022	2021	
Obligasi pemerintah	1,890,122	1,762,924	Government bonds
Penempatan langsung	1,663,537	1,650,568	Direct participation
Obligasi	1,597,539	1,617,067	Bonds
Saham	1,037,753	954,490	Shares
Properti	332,755	346,682	Property
Deposito	262,929	299,176	Time deposits
Deposito <i>on call</i>	42,194	6,761	On call deposits
Reksa Dana	81,257	148,956	Mutual funds
	6,908,086	6,786,624	

Investments are well-diversified, such that the failure of any single investment would not have a material impact to the overall group of assets. The largest proportion of assets are invested in debt instruments. Debt instruments are expected to contribute best yields in the long term at an acceptable risk level. For defined benefit program, most of the debt instruments are Government of Indonesia bonds and corporate bonds.

The expected return on plan assets is determined by considering the expected returns available on the assets in accordance with the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as of the reporting date. Expected returns on equity and property investments reflect long-term real rates of return experienced in the respective markets.

The Bank is exposed to a number of risks through its employee benefit plans such as the exposed risks in defined benefit pension plan is the lower return on investment compared to assumption on discount rate and the increase in the actual salary is higher than its assumption. These will cause an increase in benefit paid to Pension Fund.

41. IMBALAN KERJA (lanjutan)

Program pensiun manfaat pasti (lanjutan)

Untuk memastikan bahwa posisi investasi yang telah diatur dalam kerangka *Asset Liability Management* (ALMA), Bank melakukan pemantauan terhadap investasi atas program pensiun (baik iuran pasti maupun manfaat pasti) dan memastikan tingkat investasi dimaksud mencapai tingkat diskonto yang digunakan. Selain itu, dilakukan implementasi kebijakan penyesuaian gaji sesuai dengan asumsi yang telah digunakan dalam perhitungan aktuarial untuk mengurangi selisih hasil perhitungan atas proyeksi imbalan kerja pasca kerja dengan realisasinya.

Rata-rata durasi kewajiban manfaat pasti pada tanggal 31 Desember 2022 adalah 8,23 tahun (31 Desember 2021: 10,87 tahun).

Analisis jatuh tempo yang diharapkan dari manfaat pensiun yang tidak terdiskonto untuk Entitas Induk adalah sebagai berikut:

	Kurang dari 1 tahun/ Less than a year	2 sampai 5 tahun/ Between 2 to 5 years	Lebih dari 5 tahun/ Over 5 years	Jumlah/ Total	
2022					2022
Pensiun	590,286	2,772,026	20,610,906	23,973,218	Pension
Cuti besar	132,582	494,061	1,874,969	2,501,612	Long leave
Penghargaan masa kerja	63,443	198,632	1,604,363	1,866,438	Gratuity
Total	786,311	3,464,719	24,090,238	28,341,268	Total

	Kurang dari 1 tahun/ Less than a year	2 sampai 5 tahun/ Between 2 to 5 years	Lebih dari 5 tahun/ Over 5 years	Jumlah/ Total	
2021					2021
Pensiun	527,991	2,714,702	26,873,792	30,116,485	Pension
Cuti besar	93,608	446,765	1,613,924	2,154,297	Long leave
Penghargaan masa kerja	28,467	190,494	1,398,516	1,617,477	Gratuity
Total	650,066	3,351,961	29,886,232	33,888,259	Total

Program pensiun iuran pasti

Bank juga memiliki program pensiun iuran pasti, untuk karyawannya yang dikelola oleh Dana Pensiun Lembaga Keuangan PT Bank Negara Indonesia (Persero) Tbk, dimana kontribusi iuran bank adalah sebesar 1,5% sampai dengan 6,5% dari gaji karyawan sesuai jabatan karyawan, sedangkan kontribusi iuran karyawan adalah sebesar 0,5% dari upah yang ditetapkan oleh Bank untuk karyawan tetap yang dipekerjakan sebelum tanggal 1 September 2005. Untuk karyawan tetap yang dipekerjakan mulai tanggal 1 September 2005, kontribusi Bank dan karyawan adalah masing-masing sebesar iuran 11,5% dan 3,5% dari gaji karyawan.

Karyawan tetap yang bergabung dengan Bank sebelum bulan September 2005, memiliki hak atas program pensiun manfaat pasti ditambah dengan program pensiun iuran pasti, atau imbalan kerja yang disediakan sesuai dengan Undang-Undang No. 11 Tahun 2020 dan peraturan penerapan terkaitnya PP No. 35 Tahun 2021, mana yang lebih tinggi.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

41. EMPLOYEE BENEFITS (continued)

Defined benefit pension plan (continued)

To ensure that the result of investments is consistent with the *Asset Liability Management* (ALMA) framework, the Bank performs monitoring over the investment for the pension program (for both defined benefit and contribution plans) and performs action to ensure the return of investments will meet the applicable discount rate. Apart from that, implementation of salary adjustment policy has been performed in accordance to the assumptions used by actuarial calculation to reduce the gap on the calculation of projected post-employment benefits with its realization.

The average duration of the defined benefit obligation as of 31 December 2022 is 8.23 years (31 December 2021: 10.87 years).

Expected maturity analysis of undiscounted pension benefit for Parent Only is as follows:

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

41. IMBALAN KERJA (lanjutan)

Program pensiun iuran pasti (lanjutan)

Beban pensiun iuran pasti yang telah dibebankan pada laporan laba rugi adalah sebesar Rp223.410 dan Rp199.372 masing-masing untuk tahun yang berakhir pada tanggal 31 Desember 2022 dan 2021.

Imbalan pasca kerja lainnya dan imbalan kerja jangka panjang lainnya

Liabilitas atas imbalan pasca kerja lainnya meliputi uang jasa, uang pisah dan pesangon sesuai dengan Undang-Undang Cipta Kerja No. 11/2020, PP 35/2021 dan kompensasi lainnya.

Imbalan jangka panjang lainnya seperti cuti berimbalan jangka panjang, imbalan cacat permanen dan penghargaan *jubilee* dihitung dengan menggunakan metode *projected unit credit* dan didiskontokan ke nilai kini.

Penilaian aktuarial atas imbalan kerja jangka panjang lainnya untuk tahun-tahun yang berakhir tanggal 31 Desember 2022 dan 2021 dilakukan oleh perusahaan konsultan aktuaria terdaftar independen, PT Towers Watson Purbajaga dengan menggunakan metode "*Projected Unit Credit*" sebagaimana yang tercantum dalam laporan masing-masing pada tanggal 17 Januari 2023 dan 18 Januari 2022.

Perubahan liabilitas imbalan kerja yang diakui Bank pada laporan posisi keuangan konsolidasian adalah sebagai berikut:

	2022	2021
Liabilitas bersih pada awal periode Dampak akuisisi	2,325,272 66,930	2,603,803 -
Biaya selama tahun berjalan	360,615	267,091
Penyesuaian atas perubahan metode atribusi - laba rugi	(309,394)	-
Jumlah yang diakui pada penghasilan komprehensif lain	89,867	108,195
Penyesuaian atas perubahan metode atribusi	(3,227)	-
Pembayaran imbalan	(205,204)	(653,817)
	2,324,859	2,325,272

Biaya imbalan kerja yang dibebankan Bank pada laporan laba rugi:

	2022	2021
Biaya jasa kini	226,616	193,111
Biaya bunga	160,191	134,905
Keuntungan aktuaria periode berjalan - bersih	(26,192)	(60,925)
Penyesuaian atas perubahan metode atribusi	(309,394)	-
Biaya yang dibebankan pada laba rugi	51,221	267,091

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

41. EMPLOYEE BENEFITS (continued)

Defined contribution pension plan (continued)

Defined contribution pension expense that was charged to profit or loss amounted to Rp223,410 and Rp199,372 for the year ended 31 December 2022 and 2021, respectively.

Post employment benefits and other long-term employee benefits

The liability for post employment benefits consisted of service payments, severance and termination benefits based on Undang-Undang Cipta Kerja No. 11/2020, PP 35/2021 and other compensations.

Other long-term employee benefits such as long service leave, permanent disability benefit and jubilee awards are calculated using the projected unit credit method and discounted to present value.

The actuarial valuation of other long-term employee benefits for the years ended 31 December 2022 and 2021 were prepared by a registered independent actuarial consulting firm, PT Towers Watson Purbajaga using the "Projected Unit Credit" method as stated in its reports dated 17 January 2023 and 18 January 2022.

The movements of the employee benefits liability recognized by the Bank in the consolidated statement of financial position are as follows:

Net liability at the beginning of the period
Impact of acquisition
Expense recognized during the current year
Adjustment due to change in benefit attribution method
Total amount recognized in other comprehensive income
Adjustment due to change in benefit attribution method
Actual benefit payments

Employee benefits expense recognized by Bank in profit or loss:

Current service cost
Interest cost
Net actuarial gain recognized in current period
Adjustment due to change in benefit attribution period
Expense recognized in profit or loss

41. IMBALAN KERJA (lanjutan)

Imbalan pasca kerja lainnya dan imbalan kerja jangka panjang lainnya (lanjutan)

Biaya imbalan kerja yang dibebankan Bank pada laporan laba rugi: (lanjutan)

	2022	2021
Biaya imbalan pasti yang diakui pada laba rugi	51,221	267,091
Pengukuran kembali yang diakui pada penghasilan komprehensif lainnya	89,867	108,195
Penyesuaian atas perubahan metode atribusi	(3,227)	-
Biaya imbalan pasti	137,861	375,286

Asumsi-asumsi utama yang digunakan dalam perhitungan di atas adalah:

	2022	2021
Asumsi ekonomi:		
Tingkat diskonto per tahun	7.25%	7.00%
Tingkat kenaikan gaji	7.00%	7.00%
Pendapatan dari dana pensiun iuran pasti	6.00%	6.00%
Asumsi lainnya:		
Usia pensiun normal	55 tahun/years	55 tahun/years
Tingkat kematian	Modifikasi Tabel Mortalita Indonesia 2019 (TMI2019)/ Adjusted Mortality Table Indonesia 2019 (TMI2019)	Modifikasi Tabel Mortalita Indonesia 2019 (TMI 2019)/ Adjusted Mortality Table Indonesia 2019 (TMI2019)
Tingkat cacat	10% dari tingkat/ kematian/10% from mortality rate	10% dari tingkat/ kematian/10% from mortality rate
Tingkat pengunduran diri		
Umur 20-29	4.2%	4.2%
Umur 30-34	2.8%	2.8%
Umur 35-39	3.0%	3.0%
Umur 40-50	1.7%	1.7%
Umur 51-52	1.3%	1.3%
Umur >52	0%	0%

Sensitivitas dari kewajiban imbalan pasca kerja lainnya terhadap perubahan asumsi aktuarial adalah sebagai berikut:

Dampak imbalan kerja jangka panjang lainnya/ Impact on other long-term employee benefits				
		Nilai kini kewajiban imbalan kerja/ Present value of benefit obligation	Biaya jasa kini/ Current service cost	
2022	Perubahan Asumsi/ Change in Assumption			2022
Tingkat diskonto	Kenaikan/increase 1%	(122,534)	(2,672)	Discount rate
	Penurunan/decrease 1%	137,592	7,150	
Tingkat kenaikan gaji	Kenaikan/increase 1%	195,354	9,251	Salary increase rate
	Penurunan/decrease 1%	(164,373)	(3,956)	

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

41. EMPLOYEE BENEFITS (continued)

Post employment benefits and other long-term employee benefits (continued)

Employee benefits expense recognized by Bank in profit or loss: (continued)

Defined benefit cost recognized in profit or loss
Remeasurement effect recognized in other comprehensive income
Adjustment due to change in benefit attribution period

Defined benefit cost

The key assumptions used in the above calculation are:

Economic assumptions:
Annual discount rate
Rate of salary increases
Interest credited to defined contribution fund
Other assumptions:
Normal retirement age

Mortality rate

Disability rate

Turnover rate
Age 20-29
Age 30-34
Age 35-39
Age 40-50
Age 51-52
Age >52

The sensitivity of other post benefit obligation to changes in the actuarial assumptions is as follows:

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES****CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN****31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS****31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

41. IMBALAN KERJA (lanjutan)**Imbalan pasca kerja lainnya dan imbalan kerja
jangka panjang lainnya (lanjutan)****41. EMPLOYEE BENEFITS (continued)****Post employment benefits and other long-term
employee benefits (continued)**

Dampak program imbalan kerja jangka panjang lainnya/ Impact on other long-term employee benefits				
2021	Perubahan Asumsi/ Change in Assumption	Nilai kini kewajiban imbalan kerja/ Present value of benefit obligation	Biaya jasa kini/ Current service cost	2021
Tingkat diskonto	Kenaikan/increase 1% Penurunan/decrease 1%	(140,207) 158,279	(2,298) 6,020	Discount rate
Tingkat kenaikan gaji	Kenaikan/increase 1% Penurunan/decrease 1%	223,358 (183,242)	7,454 (3,175)	Salary increase rate

Analisis sensitivitas didasarkan pada perubahan atas satu asumsi aktuarial dimana asumsi lainnya dianggap konstan. Dalam perhitungan sensitivitas kewajiban imbalan pasti atas asumsi aktuarial utama, metode yang sama (perhitungan nilai kini kewajiban imbalan pasti dengan menggunakan metode *projected unit credit* di akhir periode pelaporan) telah diterapkan seperti dalam penghitungan kewajiban pensiun yang diakui dalam laporan posisi keuangan konsolidasian.

The sensitivity analysis is based on a change in an actuarial assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the pension liability recognized within the consolidated statement of financial position.

**42. LABA PER SAHAM DASAR DAN DILUSIAN
DIATRIBUSIKAN KEPADA PEMILIK ENTITAS
INDUK**

Laba tahun berjalan per saham dasar dihitung dengan membagi laba tahun berjalan diatribusikan kepada pemilik entitas induk dengan rata-rata tertimbang jumlah lembar saham biasa yang beredar pada tahun bersangkutan.

**42. BASIC AND DILUTED EARNINGS PER SHARE
ATTRIBUTABLE TO EQUITY HOLDERS OF THE
PARENT ENTITY**

Basic earnings per share is computed by dividing income for the year attributable to owners of the parent entity by the weighted average number of outstanding common shares during the related year.

	2022	2021	
Laba tahun berjalan yang dapat diatribusikan kepada pemilik entitas induk	18,312,054	10,898,518	Income for the year attributable to owners of the parent entity
Rata-rata tertimbang jumlah lembar saham biasa yang beredar (dalam nilai penuh)	18,638,372,041	18,620,149,016	Weighted average number of outstanding ordinary shares (in full amount)
Laba per saham dasar diatribusikan kepada pemilik entitas induk (dalam Rupiah penuh)	983	585	Basic earnings per share attributable to equity holders of the parent entity (in full Rupiah amount)

Bank dan Entitas Anak tidak memiliki potensi saham yang bersifat dilutif.

Bank and Subsidiaries have no dilutive potential shares.

Acquisition-related costs of Rp882 have been charged to administrative expenses in the profit or loss for the year ended 31 December 2022.

The revenue included in the profit or loss since 18 May 2022 contributed by Bank Mayora was Rp40,842. Bank Mayora also contributed a profit of Rp26,107 over the same period.

Had Bank Mayora been consolidated from 1 January 2022, the profit or loss would increase revenue of Rp60,340 and total profit of Rp38,570.

The acquisition of Bank Mayora has been conducted in accordance with OJK Regulations.

As of 31 December 2022, Management believes that there is no indication of impairment of goodwill from the acquisition transaction of Bank Mayora.

44. PEMBAYARAN BERBASIS SAHAM

Berdasarkan Keputusan Rapat Umum Pemegang Saham (RUPS) Tahunan BNI tanggal 29 Maret 2021 yang diaktakan dengan akta No. 14, yang dibuat dihadapan Notaris Fathiah Helmi, S.H., dengan tanggal yang sama, RUPS telah menyetujui untuk mengalihkan secara keseluruhan saham hasil pembelian kembali (buyback) tahun 2020 yang disimpan sebagai saham treasuri sebanyak 19.579.700 saham dalam rangka Program Kepemilikan Saham oleh Pegawai dan Program Kepemilikan Saham oleh Direksi dan Dewan Komisaris.

Selanjutnya, berdasarkan Surat Kementerian Badan Usaha Milik Negara (KBUMN) No. SR-33/Wk2.MBU.A/10/2021 tanggal 1 Oktober 2021, Menteri Negara BUMN telah menetapkan besarnya Jumlah Tantiem untuk Direksi dan Dewan Komisaris atas kinerja Tahun Buku 2020. Menindaklanjuti hal tersebut, dengan memperhatikan ketentuan POJK No.45/POJK.03/2015 tentang Penerapan Tata Kelola Dalam Pemberian Remunerasi Bagi Bank Umum dan berdasarkan keputusan manajemen bahwa 20% dari jumlah Tantiem dibayarkan sebagai remunerasi yang harus ditangguhkan dan dibayarkan dalam bentuk saham untuk Direksi dan Dewan Komisaris non Independen, serta dalam bentuk deposito bagi Komisaris Independen.

Bank telah memberikan saham sebagaimana disebutkan di atas pada tanggal 30 Desember 2021 sebanyak 5.724.673 lembar saham dengan pembukaan periode lock-up beserta pembagiannya sebagai berikut:

1. Periode lock-up tahap I pada tanggal 5 Juni 2022 dengan jumlah saham sebesar 1.642.746 lembar saham;
2. Periode lock-up tahap II pada tanggal 5 Juni 2023 dengan jumlah saham sebesar 1.642.738 lembar saham;
3. Periode lock-up tahap III pada tanggal 5 Juni 2024 dengan jumlah saham sebesar 1.642.726 lembar saham; dan
4. Periode lock-up tahap IV pada tanggal 5 Juni 2025 dengan jumlah saham sebesar 796.463 lembar saham.

Saham diberikan kepada Direksi dan Dewan Komisaris tertentu berdasarkan pada pencapaian performa kinerja Bank. Harga eksekusi yang diberikan sama dengan harga pasar pada tanggal pemberian yaitu sebesar Rp6.750 (nilai penuh).

Selain itu, berdasarkan Keputusan Rapat Umum Pemegang Saham (RUPS) Tahunan BNI tanggal 15 Maret 2022 yang diaktakan dengan akta No. 22, yang dibuat dihadapan Notaris Fathiah Helmi, S.H., dengan tanggal yang sama, RUPS telah menyetujui untuk mengalihkan secara keseluruhan saham hasil pembelian kembali (buyback) tahun 2021 yang disimpan sebagai saham treasuri sebanyak 24.682.600 saham dalam rangka Program Kepemilikan Saham oleh Pegawai dan Program Kepemilikan Saham oleh Direksi dan Dewan Komisaris.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

44. SHARE-BASED PAYMENT

Based on the decision of the BNI's Shareholders Annual General Meeting held on 29 March 2021, notarized by deed No. 14, made before Notary Fathiah Helmi, S.H., on the same date, the shareholders approved the granting of authority and approved to transfer all of the shares from the 2020 buyback that has been registered as treasury shares of 19,579,700 for the purpose of the Employee Shares Ownership Program and the Board of Directors and the Board of Commissioners share ownership program.

Furthermore, according to the Letter of the Ministry of State-Owned Enterprises (KBUMN) No. SR-33/Wk2.MBU.A/10/2021 dated 1 October 2021, the Minister of State-Owned Enterprises has determined the amount of Tantiem for the Board of Directors and Board of Commissioners for the performance of Fiscal Year 2020. Following up on this, taking into account to POJK No.45/POJK 03/2015 concerning the Implementation of Good Corporate Governance in Providing Remuneration for Commercial Banks and based on management's decision that 20% of the amount of Tantiem is paid as remuneration which must be deferred and paid in the form of shares for Board of Directors and non Independent Board of Commissioners, as well as in the form of deposits for Independent Commissioners.

The Bank has granted 5,724,673 shares as mentioned above on 30 December 2021 with the opening lock-up period and the distribution are as follows:

1. First phase of the lock-up period on 5 June 2022 with a total of 1,642,746 shares;
2. Lock-up period phase II on 5 June 2023 with a total of 1,642,738 shares;
3. Lock-up period phase III on 5 June 2024 with a total of 1,642,726 shares, and;
4. Lock-up period phase IV on 5 June 2025 with a total of 796,463 shares.

Shares are granted to Board of Directors and Board of Commissioners based on Bank's performance target achievement. The exercise price of the granted options is equal to the market price at the grant date amounting to Rp6,750 (full amount).

Other than that, based on the decision of the BNI's Shareholders Annual General Meeting held on 15 March 2022, notarized by deed No. 22, made before Notary Fathiah Helmi, S.H., on the same date, the shareholders approved the granting of authority and approved to transfer all of the shares from the 2021 buyback that has been registered as treasury shares of 24,682,600 for the purpose of the Employee Shares Ownership Program and the Board of Directors and the Board of Commissioners share ownership program.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

44. PEMBAYARAN BERBASIS SAHAM (lanjutan)

Selanjutnya, berdasarkan Surat Kementerian Badan Usaha Milik Negara (KBUMN) No. SR-23/Wk2.MBU.A/07/2022 tanggal 25 Juli 2022, Menteri Negara BUMN telah menetapkan besarnya Jumlah Tantiem untuk Direksi dan Dewan Komisaris atas kinerja Tahun Buku 2021. Menindaklanjuti hal tersebut, dengan memperhatikan ketentuan POJK No.45/POJK.03/2015 tentang Penerapan Tata Kelola Dalam Pemberian Remunerasi Bagi Bank Umum dan berdasarkan keputusan manajemen bahwa 10% dari jumlah Tantiem dibayarkan sebagai remunerasi yang harus ditanggihkan dan dibayarkan dalam bentuk saham untuk Direksi dan Dewan Komisaris Non Independen, serta dalam bentuk deposito bagi Komisaris Independen.

Bank telah memberikan saham sebagaimana disebutkan di atas pada tanggal 29 Juli 2022 sebanyak 3.001.097 lembar saham dengan pembukaan periode *lock-up* beserta pembagiannya sebagai berikut:

1. Periode *lock-up* tahap I pada tanggal 5 Juni 2023 dengan jumlah saham sebesar 922.460 lembar saham;
2. Periode *lock-up* tahap II pada tanggal 5 Juni 2024 dengan jumlah saham sebesar 1.039.325 lembar saham; dan
3. Periode *lock-up* tahap III pada tanggal 5 Juni 2025 dengan jumlah saham sebesar 1.039.312 lembar saham.

Saham diberikan kepada Direksi, Dewan Komisaris dan karyawan tertentu tersebut berdasarkan pada pencapaian performa kinerja Bank. Harga eksekusi yang diberikan sama dengan harga pasar pada tanggal pemberian yaitu sebesar Rp7.850 (nilai penuh).

Program *Employee Stock Allocation* ("ESA")

Berdasarkan Keputusan Rapat Umum Pemegang Saham (RUPS) Tahunan BNI tanggal 15 Maret 2022 yang diaktakan dengan akta No. 22, yang dibuat dihadapan Notaris Fathiah Helmi, S.H., dengan tanggal yang sama, RUPS telah menyetujui untuk mengalihkan secara keseluruhan saham hasil pembelian kembali (*buyback*) tahun 2021 yang disimpan sebagai saham treasuri sebanyak 24.682.600 saham dalam rangka Program Kepemilikan Saham oleh Pegawai dan Program Kepemilikan Saham oleh Direksi dan Dewan Komisaris. Menyetujui memberikan kuasa dan wewenang pelaksanaan Program Kepemilikan Saham bagi Pegawai dan/atau Program Kepemilikan Saham bagi Direksi dan Dewan Komisaris baik bersumber dari saham treasuri maupun sumber lainnya.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

47. INFORMASI SEGMENT

Pada tahun 2021, segmen operasi Grup dibagi berdasarkan kelompok nasabah utama dan produk, sebagai berikut: Korporasi, Menengah dan Kecil, Konsumer, Treasuri dan Institusi Keuangan, Kantor Pusat dan Entitas Anak. Dalam menentukan hasil segmen, beberapa akun aset dan liabilitas dan pendapatan dan biaya yang terkait diatribusikan ke masing-masing segmen berdasarkan kebijakan pelaporan internal manajemen.

Pada tahun 2022, Grup menerapkan perubahan terhadap segmen operasi yang diselenggarakan dengan segmentasi nasabah yang digunakan laporan kinerja manajemen yang digunakan secara internal. Grup menerapkan Konsep 3 Dimensi untuk penilaian kinerja secara internal yaitu Dimensi Segmen, Dimensi Channel dan Dimensi Produk. Konsep ini merupakan pengembangan dari konsep yang dipakai sebelum tahun 2022 dengan kinerja hanya didasarkan pada 1 Dimensi yaitu Dimensi Segmen. Untuk kepentingan pelaporan Segmen, maka yang dilaporkan adalah berdasarkan dimensi Segmen.

Terkait perubahan segmen operasi, Grup melakukan resegmentasi nasabah antara lain:

- Tambahan sub Segmen *Large Commercial* sebagai bagian dari Segmen *Enterprises & Commercial Banking* yang merupakan migrasi dari segmen *corporate* dan menengah yang ada sebelumnya.
- Pengelolaan nasabah-nasabah Kementerian, Lembaga Pemerintah, yayasan dan universitas dipindahkan ke segmen Hubungan Kelembagaan termasuk di dalamnya nasabah program Pemerintah seperti Kredit Usaha Rakyat yang sebelumnya tercatat di segmen Kecil dimigrasikan pada Segmen *Institutional Banking*.
- Berdasarkan hasil Rapat Umum Pemegang Saham Luar Biasa (RUPS-LB) tanggal 31 Agustus 2022, pengelolaan segmen institusi keuangan dan kantor cabang luar negeri dipindahkan dari Segmen *Treasury & International* ke Segmen *Corporate & International Banking*.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

47. SEGMENT INFORMATION

In 2021, the Group's operating segments represent the key customers and product groups, as follows: Corporate, Middle and Small, Consumer, Treasury and Financial Institution, Head Office and Subsidiaries. In determining the segment results, certain assets and liabilities items and related revenues and expenses are attributed to each segment based on internal management reporting policies.

In 2022, the Group implemented changes to the operating segments that were aligned with customer segmentation which used internal management performance reports. The Group applies the 3 Dimensional Concept for internal performance assessment, namely Segment Dimensions, Channel Dimensions and Product Dimensions. This concept is a development of the previous concept that was used before 2022 with performance based only on 1 Dimension, namely the Segment Dimension. For the purposes of Segment reporting, what is reported is based on the dimensions of the Segment.

Due to changes in the operating segments, the Group has perform customers resegmentation as follows:

- *Additional Large Commercial sub-Segment as part of the Enterprises & Commercial Banking Segment which is a migration from the previous corporate and middle segments.*
- *The management of customers from Ministries, Government Institutions, foundations and universities were transferred to the Institutional Banking segment, including the Government program customers such as Kredit Usaha Rakyat previously listed in the Small segment, migrating to the Institutional Banking Segment.*
- *Based on the results of the Extraordinary General Meeting of Shareholders (EGMS) on 31 August 2022, the management of the financial institution segment and overseas branch offices was transferred from the Treasury & International Segment to the Corporate & International Banking Segment*

KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

47. INFORMASI SEGMENT (lanjutan)

Dibawah ini adalah penjelasan mengenai pelaporan masing-masing segmen per 31 Desember 2022:

- **Corporate & International Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan transaksi-transaksi lainnya milik nasabah korporasi, baik BUMN dan badan usaha swasta termasuk institusi keuangan dan nasabah kantor cabang luar negeri.
- **Institutional Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan dan transaksi-transaksi lainnya milik nasabah Kementerian, Lembaga Pemerintah, yayasan dan universitas, termasuk didalamnya program pemerintah seperti penyaluran Kredit Usaha Rakyat (KUR).
- **Enterprises & Commercial Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan dan transaksi-transaksi lainnya milik nasabah dengan skala menengah/komersial dan kecil (di luar penyaluran program Pemerintah).
- **Consumer Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan transaksi-transaksi lainnya milik nasabah konsumen termasuk kredit pembiayaan konsumsi termasuk kredit kepemilikan rumah, kartu kredit serta produk dan jasa lainnya seperti dana pihak ketiga, transaksi pembayaran dan transaksi-transaksi lainnya milik nasabah individual.
- **Treasury:** terkait dengan kegiatan treasuri Bank termasuk transaksi valuta asing, *money market*, *fixed income* dan pasar modal.
- **Kantor Pusat:** terutama mengelola aset dan liabilitas Grup selain yang telah dikelola oleh segmen operasi lainnya termasuk menerima alokasi biaya atas penyediaan jasa servis secara sentralisasi kepada segmen lainnya serta pendapatan/biaya yang tidak teralokasi ke pelaporan segmen lainnya.
- **Entitas Anak:** seluruh transaksi yang dilakukan oleh Entitas Anak yang bergerak di bidang asuransi, pembiayaan konsumen, perbankan, modal ventura dan sekuritas.

Kinerja diukur berdasarkan laba segmen sebelum pajak penghasilan, sebagaimana dilaporkan dalam laporan internal manajemen yang ditelaah oleh Manajemen Bank. Keuntungan segmen digunakan untuk mengukur kinerja dimana manajemen berkeyakinan bahwa informasi tersebut paling relevan dalam mengevaluasi hasil segmen tersebut relatif terhadap entitas lain yang beroperasi dalam industri tersebut.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

47. SEGMENT INFORMATION (continued)

Below is an explanation of the reporting of each segment as of 31 December 2022:

- **Corporate & International Banking:** including loans, customer deposits and other transactions belonging to corporate customers, both BUMN and private business entities including financial institution and overseas branch customers.
- **Institutional Banking:** including loans, customer deposits and other transactions belonging to customers of Ministries, Government Institutions, foundations and universities, including government programs such as the distribution of Kredit Usaha Rakyat (KUR).
- **Enterprises & Commercial Banking :** including loans, customer deposits and other transactions belonging to customers of middle/commercial and small scale (excluding distribution of Government programs).
- **Consumer Banking:** including loans, customer deposits and other transactions belonging to consumer customers including consumer financing loans including home ownership loans, credit cards, other products and services such as third party funds, payment transactions and other transactions belonging to customers individual.
- **Treasury:** related to the Bank's treasury activities including foreign exchange transactions, money market, fixed income, and capital market.
- **Head Office:** mainly manages the Group's assets and liabilities in addition to those already managed by other operating segments including receiving cost allocation for centralized service provision to other segments as well as revenues/costs that are not allocated to other segment reporting.
- **Subsidiaries:** all transactions conducted by Subsidiaries engaged in insurance, consumer financing, banking, venture capital and securities.

Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Bank's Management. Segment profit is used to measure performance of that business segment as management believes that such information is the most relevant in evaluating the results of those segments relative to other entities that operate within these industries.

48. MANAJEMEN RISIKO

Untuk mengantisipasi tantangan ekonomi domestik maupun global serta peningkatan eksposur risiko yang dihadapi oleh BNI, dibutuhkan suatu sistem pengelolaan risiko dan permodalan yang efektif dan terintegrasi, yang mampu mendukung pencapaian dan pertumbuhan kinerja secara berkelanjutan sekaligus meningkatkan daya saing Bank.

Risiko adalah potensi kerugian akibat terjadinya suatu peristiwa tertentu. Risiko dalam konteks perbankan merupakan suatu kejadian potensial, baik yang diperkirakan (*expected*) maupun yang tidak diperkirakan (*unexpected*) yang berdampak negatif terhadap pendapatan dan permodalan Bank.

48. RISK MANAGEMENT

To anticipate domestic and global economic challenges and also increase risk exposures faced by BNI, an effective and integrated risk and capital management system is needed, which is able to support the achievement and growth of sustainable performance while enhancing the competitiveness of the Bank.

Risk is the potential loss due to certain events. Risk in the banking context is a potential event, either an expected or an unexpected that has a negative impact on bank income and capital of the Bank.

PT BANK NEGARA INDONESIA (PERSERO) Tbk DAN ENTITAS ANAK/AND SUBSIDIARIES

CATATAN ATAS LAPORAN KEUANGAN KONSOLIDASIAN

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

48. MANAJEMEN RISIKO (lanjutan)

Manajemen risiko merupakan serangkaian metodologi dan prosedur yang digunakan untuk mengidentifikasi, mengukur, memantau, dan mengendalikan risiko yang timbul dari seluruh kegiatan usaha Bank, termasuk upaya untuk memitigasi dan/atau meminimalkan kerugian finansial maupun non-finansial yang mungkin timbul dari produk atau aktivitas Bank, hubungan antara Bank dengan nasabah maupun dalam internal Bank.

Penerapan Manajemen Risiko BNI berlandaskan pada regulasi nasional maupun internasional, meliputi Peraturan Otoritas Jasa Keuangan (POJK), Surat Edaran Otoritas Jasa Keuangan (SEOJK), Peraturan Bank Indonesia (PBI), Surat Edaran Bank Indonesia (SEBI), dan dokumen *Basel Committee on Banking Supervision* (BCBS).

Beberapa regulasi yang terkait dengan Manajemen Risiko Bank adalah sebagai berikut:

1. POJK No.18/POJK.03/2016 tanggal 16 Maret 2016 dan SEOJK No.34/SEOJK.03/2016 tanggal 1 September 2016 tentang Penerapan Manajemen Risiko bagi Bank Umum.
2. POJK No. 38/ POJK.03/2017 tanggal 12 Juli 2017 dan SEOJK No. 43/SEOJK.03/2017 tanggal 19 Juli 2017 tentang Prinsip Kehati-hatian dan Laporan dalam rangka Penerapan Manajemen Risiko secara Konsolidasi bagi Bank yang Melakukan Pengendalian terhadap Perusahaan Anak.
3. POJK No.17/POJK.03/2014 tanggal 19 November 2014 dan SEOJK No.14/ SEOJK.03/2015 tanggal 25 Mei 2015 tentang Penerapan Manajemen Risiko Terintegrasi bagi Konglomerasi Keuangan.

Penerapan Manajemen Risiko didasari oleh kebutuhan akan keseimbangan fungsi bisnis dengan pengelolaan risiko, dimana Manajemen Risiko menjadi *strategic partner* dari Unit Bisnis untuk mengoptimalkan pendapatan dari Unit Bisnis secara keseluruhan.

Dalam rangka penerapan Manajemen Risiko yang efektif, baik untuk BNI secara individu maupun secara Konsolidasi dan Terintegrasi dengan Entitas Anak, penerapan manajemen risiko dilakukan melalui 4 (empat) pilar penerapan manajemen risiko yaitu: (i) Pengawasan aktif direksi dan dewan komisaris; (ii) Kecukupan kebijakan, dan prosedur manajemen risiko serta penetapan limit risiko; (iii) Kecukupan proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko serta Sistem Informasi Manajemen Risiko, dan (iv) Sistem pengendalian internal yang menyeluruh.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

48. RISK MANAGEMENT (continued)

Risk management is a set of methodologies and procedures used to identify, measure, monitor, or control the risks arising from the entire Bank's business activities, including the efforts to mitigate and/or minimize financial or non-financial losses that may arise from products or activities of the Bank, the relationship between the Bank and its customer and also within the internal Bank.

The implementation of BNI Risk Management is based on national and international regulations, including Financial Services Authority Regulations (POJK), Financial Services Authority Circular Letters (SEOJK), Bank Indonesia Regulations (PBI), Bank Indonesia Circular Letters (SEBI), and Basel Committee on Banking Supervision (BCBS).

Some of the agreements related to the Bank's Risk Management are as follows:

1. *POJK No. 18/POJK.03/2016, dated 16 March 2016 and SEOJK No.34/SEOJK.03/2016 dated 1 September of 2016 concerning the Implementation of Risk Management for Commercial Banks.*
2. *POJK No. 38/POJK.03/2017 dated 12 July 2017 and SEOJK No. 43/SEOJK.03/2017 dated 19 July 2017 concerning Prudential Principles and Reports within the framework of the Application of Consolidated Risk Management for Banks that Control Subsidiaries.*
3. *POJK No.17/POJK.03/2014 dated 19 November 2014 and SEOJK No.14/ SEOJK.03 /2015 dated 25 May 2015 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.*

The Risk Management implementation is based on the need to maintain balance between the business functions with the risk management, where Risk Management becoming a strategic partner for the Business Unit to optimize the revenue from the Business Unit as a whole.

In order to implement effective Risk Management, both for BNI individually and as a Consolidated and Integrated subsidiaries, the application of risk management is done through 4 (four) pillars of risk management: (i) Active control from board of directors and board of commissioners; (ii) The adequacy of policies and risk management procedures and, ie. Risk limit determination; (iii) The adequacy of identification process, measurement, monitoring, and risk control and Risk Management Information Systems, and (iv) Overall internal control systems.

PT BANK NEGARA INDONESIA (PERSERO) Tbk DAN ENTITAS ANAK/AND SUBSIDIARIES

CATATAN ATAS LAPORAN KEUANGAN KONSOLIDASIAN

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

48. MANAJEMEN RISIKO (lanjutan)

Penerapan manajemen risiko di BNI secara umum terangkum dalam kerangka manajemen risiko. Kerangka manajemen risiko ini dituangkan dalam kebijakan, prosedur, limit-limit transaksi, kewenangan dan ketentuan lain serta diaplikasikan dalam perangkat manajemen risiko, yang berlaku di seluruh lingkup aktivitas usaha.

Secara berkala dilakukan evaluasi terhadap kebijakan dan prosedur manajemen risiko agar sesuai dengan perkembangan bisnis dan perubahan regulasi.

Agar penerapan manajemen risiko dapat berjalan secara efektif, BNI menyusun *Risk Governance* sebagai bagian dari sistem Tata Kelola Perusahaan (*Corporate Governance*) yang fokus pada struktur, proses dan pendekatan pengelolaan risiko dalam upaya pencapaian tujuan bisnis.

Inisiatif dan langkah-langkah penyempurnaan telah dilakukan untuk meletakkan landasan yang kuat dalam manajemen risiko di BNI yang mencakup aspek-aspek organisasi, strategi, sistem informasi dan operasi, serta pengembangan sumber daya manusia. BNI juga telah melakukan langkah-langkah antisipatif yang menyentuh aspek humanis dan personal setiap individu BNI, yaitu dengan membangun budaya risiko yang kuat yang merupakan bagian dari budaya perusahaan BNI. BNI terus berupaya untuk meningkatkan budaya risiko segenap insan BNI agar tercipta budaya risiko yang kuat.

Terkait dengan produk atau aktivitas baru yang akan diterbitkan, penilaian yang komprehensif dilakukan terhadap risiko yang melekat pada produk atau aktivitas baru untuk memastikan bahwa potensi risiko yang mungkin timbul telah dimitigasi dengan baik.

Pengelolaan risiko kredit, risiko likuiditas, risiko pasar dan operasional BNI sebagaimana diuraikan pada Catatan 49 sampai dengan Catatan 52 adalah sesuai dengan definisi dari Regulator.

BNI juga melakukan pengelolaan terhadap risiko lainnya sesuai aturan Regulator, yaitu (i) risiko hukum untuk mengurangi kemungkinan kerugian dari tuntutan hukum atau kelemahan aspek yuridis seperti ketiadaan peraturan perundang-undangan yang mendukung atau kelemahan perikatan seperti tidak dipenuhinya syarat sahnya kontrak atau pengikatan agunan yang tidak sempurna; (ii) risiko reputasi untuk mengurangi kemungkinan kerugian akibat menurunnya tingkat kepercayaan pemangku kepentingan (*stakeholder*) yang bersumber dari persepsi negatif terhadap Bank; (iii) risiko strategi untuk mengurangi kemungkinan kerugian akibat ketidakepatan dalam pengambilan dan/ atau pelaksanaan suatu keputusan strategi serta kegagalan dalam mengantisipasi perubahan lingkungan bisnis; dan (iv) risiko kepatuhan untuk mengurangi kemungkinan kerugian karena Bank tidak mematuhi atau tidak melaksanakan peraturan perundang-undangan dan ketentuan.

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

48. RISK MANAGEMENT (continued)

Implementation of risk management in BNI is undertaken within the risk management framework. This risk management framework is outlined in the policies, procedures, transaction limits, authorities and other regulations as well as being applied in the risk management tools, which is applicable in the whole scope of business activities.

Periodic evaluation is applied to risk management policies and procedures to ensure it reflects the Bank's current business and regulations.

Risk Governance is formed to enforce the effectiveness of risk management implementation, and as a part of Corporate Governance system, which focuses on structure, process and approach to risk management in achieving the business goals.

Initiatives and corrective actions have been taken to build a solid foundation for BNI's risk management, covering aspect of organization, strategies, information system and operations, and human capital. BNI has taken some anticipatory actions related to humanity and personal aspects of each individual of BNI by implementing risk culture enhancement to build a strong risk culture that is part of the BNI's company culture. BNI constantly strives to improve employee's risk culture in order to create a strong risk culture.

Related to new product or activity, a comprehensive assessment for each of inherent risk in those new product or activity is done to ensure the potential risk that may occur is mitigated.

The management of BNI's credit, liquidity, market and operational risks, as described in Notes 49 to 52 are consistent with Regulator's definition.

BNI also has risk management for other risks as regulated by Regulator, as follows (i) legal risk to minimize possible losses from lawsuits or weakness in juridical aspects such as the absence of laws and regulations, or weaknesses such as non-compliance with the terms of the engagements validity of contracts or imperfect binding of collaterals; (ii) reputation risk to minimize possible losses due to stakeholder's declining levels of trust which comes from the negative perception of the Bank; (iii) strategic risk to minimize possible losses arising from inappropriate or improper implementation of the Bank's strategy and business decisions, or strategy that is not responsive to external changes; and (iv) compliance risk to minimize possible losses of the Bank from non-compliance or failure to implement the prevailing laws and regulations.

48. MANAJEMEN RISIKO (lanjutan)

Upaya-upaya yang dilakukan untuk mengelola risiko hukum, risiko reputasi, risiko stratejik dan risiko kepatuhan seperti tersebut di atas diantaranya adalah:

- Mengelola Pedoman Perusahaan untuk manajemen risiko hukum, risiko reputasi, risiko stratejik, dan risiko kepatuhan;
- Melakukan analisis aspek risiko hukum dan uji kepatuhan terhadap produk atau aktivitas existing dan baru;
- Melakukan kaji ulang berkala terhadap format standar perjanjian, khususnya perjanjian kredit, guna memastikan kesesuaian dengan peraturan perundang-undangan;
- Melakukan kaji ulang secara berkala terhadap kontrak dan perjanjian antara BNI dengan pihak lain, antara lain dengan cara melakukan penilaian kembali terhadap efektivitas proses *enforcement* guna mengecek validitas hak dalam kontrak dan perjanjian yang ada;
- Melakukan pengelolaan komplain/keluhan nasabah dengan optimalisasi fungsi sarana *Online Request Management* (ORM), selanjutnya menyelesaikan permasalahan tersebut;
- Mengelola jumlah pemberitaan negatif yang ada di media, baik media cetak maupun media elektronik dan menindaklanjuti pemberitaan tersebut sesuai dengan ketentuan;
- Melakukan perencanaan strategis melalui serangkaian proses untuk penyelarasan strategi perusahaan dengan strategi unit;
- Melakukan pemantauan pencapaian rencana bisnis yang telah ditetapkan, dilakukan dengan membandingkan target terhadap realisasi bisnis;
- Melakukan sertifikasi kepatuhan terhadap kebijakan dan prosedur sesuai dengan ketentuan; dan
- Melakukan pemantauan terhadap jenis, signifikansi dan frekuensi pelanggaran terhadap ketentuan (*track record* kepatuhan BNI).

Sesuai dengan Surat Edaran OJK No.14/SEOJK.03/2015, BNI selaku Entitas Utama Konglomerasi Keuangan wajib menerapkan Manajemen Risiko Terintegrasi secara komprehensif dan efektif. Tujuan penerapan manajemen risiko terintegrasi tersebut yaitu untuk mengelola seluruh risiko yang melekat pada aktivitas/kegiatan usaha konglomerasi keuangan BNI serta menciptakan keunggulan kompetitif dan memelihara pertumbuhan yang berkesinambungan sehingga dapat meningkatkan nilai (*shareholder value*) konglomerasi keuangan BNI secara keseluruhan.

FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

48. RISK MANAGEMENT (continued)

The initiatives taken to manage legal risk, reputation risk, strategic risk and compliance risk as described above, among others, are as follows:

- *Manage Operational Guidance Manual for legal risk, reputation risk, strategic risk, and compliance risk;*
- *Analysis of the legal aspects and compliance test for existing and new product or activities;*
- *Conduct periodic reviews of the standard format of the agreement, especially the credit agreement, to ensure compliance with statutory regulations;*
- *Conduct periodic reviews of contracts and agreements between BNI and other parties, among others by reassessing the effectiveness of the enforcement process to check the validity of rights in existing contracts and agreements;*
- *Manage customer complaints by optimizing the function of Online Request Management (ORM) facilities, then resolve the issue;*
- *Managing the amounts of negative news on media, whether printed or electronic media, and follow up the proclamation in accordance with the prevailing policies;*
- *The strategic planning done through a series of strategic planning process to align the corporate strategy and strategy unit;*
- *Planning the completion of a business that has been determined, is done by comparing the target to the realization of the business;*
- *Compliance certification to all policies and procedures in accordance with applicable regulations; and*
- *Monitoring of types, significance and frequency of violations of regulations (BNI compliance track record).*

In accordance with the Circular Letter of Financial Services Authority regulations (SEOJK) No. 14/SEOJK.03/2015, BNI as the parent entity of a financial conglomerate has to implement the integrated risk management comprehensively and effectively. The purpose of the implementation of integrated risk management implementation is to manage the whole inherent risks in the financial conglomerate's business activities, and also to create competitive advantages and maintain sustainable growth, so that it can increase the financial conglomeration shareholder value of BNI as a whole.

48. MANAJEMEN RISIKO (lanjutan)

Secara umum seluruh Lembaga Jasa Keuangan (LJK) anggota Konglomerasi Keuangan BNI, baik BNI sebagai LJK Induk (Entitas Utama) dan masing-masing LJK Anak telah menerapkan manajemen risiko, antara lain dengan membentuk unit risiko pada masing-masing LJK. Manajemen risiko pada masing-masing LJK Anak secara operasional dilakukan terpisah dari unit bisnis dan menjalankan fungsinya secara independen. Untuk mendukung penerapan manajemen risiko, pada organisasi LJK Anak juga dibentuk unit/fungsi intern yang melakukan pemantauan kepatuhan terhadap kontrol internal secara rutin dan berkala.

Disamping itu, Dewan Komisaris dan Direksi pada masing-masing LJK Anak secara aktif juga melakukan pemantauan, dan evaluasi melalui laporan-laporan yang disampaikan oleh setiap LJK Anak untuk selanjutnya digunakan sebagai salah satu bahan pertimbangan dalam menetapkan kebijakan pada LJK Anak.

BNI selaku Entitas Utama telah melakukan koordinasi dengan LJK Anak untuk menerapkan manajemen risiko sesuai ketentuan Otoritas Jasa Keuangan, antara lain dengan melakukan pemantauan dan pengukuran risiko yang dituangkan dalam bentuk penilaian Kecukupan Penyediaan Modal Minimum (KPM) Konsolidasi, KPM Terintegrasi, penilaian Tingkat Kesehatan Bank (TKB) konsolidasi, serta penilaian Profil Risiko Konsolidasi dan penilaian Profil Risiko Terintegrasi Konglomerasi Keuangan BNI.

Penilaian profil risiko BNI individu menggambarkan risiko yang melekat dalam kegiatan bisnis Bank (*inherent risk*) termasuk kualitas penerapan Manajemen Risiko yang mencerminkan sistem pengendalian risiko (*risk control system*) pada 8 (delapan) jenis risiko yaitu Risiko Kredit, Risiko Pasar, Risiko Likuiditas, Risiko Operasional, Risiko Hukum, Risiko Reputasi, Risiko Stratejik, dan Risiko Kepatuhan. Penilaian Profil Risiko BNI telah dilakukan sesuai dengan lampiran SEOJK No. 14/SEOJK.03/2017 tentang Penilaian Tingkat Kesehatan Bank Umum.

Berdasarkan hasil laporan terakhir atas penilaian sendiri (*self assessment*), peringkat risiko inheren BNI posisi 31 Desember 2022 adalah *low to moderate* dengan peringkat kualitas penerapan manajemen risiko yang memadai (*satisfactory*) sehingga peringkat komposit Profil Risiko BNI adalah 2 (*low to moderate*) (tidak diaudit).

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

48. RISK MANAGEMENT (continued)

Generally, all of the Financial Services Institutions (FSI) as part of the BNI Financial Conglomeration, where BNI as the Parent FSI (Main Entity) and each Subsidiaries FSI have implemented risk management, among others by establishing a risk unit in each FSI. Risk management in each FSI is operating separately from the business unit and conducts its function independently. To support the implementation of risk management, the FSI have established internal control units/function in their organizational structure, which monitors the compliance with internal controls regularly and periodically on a regular basis.

In addition, the Boards of Commissioners and Directors of the respective Subsidiaries actively monitor and evaluate the internal controls of the Subsidiaries, through the reports submitted by the respective Subsidiaries, as a basis in formulating and developing appropriate policies for the Subsidiaries.

As the Parent Entity, BNI coordinates with its FSI Subsidiaries regarding the implementation of risk management policies as defined by Indonesia Financial Services Authority, among others by implementing risk monitoring and measurement in the form of consolidated Capital Adequacy Ratio (CAR) assessment, integrated Capital Adequacy Ratio (CAR) assessment, the Bank's consolidated soundness rating consolidated assessment, consolidated risk profile and also integrated risk profile assessment on BNI Financial Conglomeration.

The risk profile assessment of BNI reflects the inherent risk of the Bank's business, including the risk control system for 8 (eight) type of risk are assessed are Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Legal Risk, Reputation Risk, Strategic Risk, and Compliance Risk. The risk profile of BNI has been performed based on attachment of SEOJK No. 14/SEOJK.03/2017 about the Bank's soundness rating assessment.

Based on the results of a recent self-assessment report, inherent risk rank of BNI as of 31 December 2022 is low to moderate and the quality of the risk management implementation rank is satisfactory, therefore the risk profile composite rank of BNI is 2 (low to moderate) (unaudited).

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

48. MANAJEMEN RISIKO (lanjutan)

Penilaian Profil Risiko Terintegrasi merupakan penilaian terhadap 10 (sepuluh) jenis Risiko berdasarkan Risiko Inheren dan Kualitas Penerapan Manajemen Risiko (KPMR) terintegrasi. Kesepuluh jenis Risiko tersebut adalah Risiko Kredit, Risiko Pasar, Risiko Likuiditas, Risiko Operasional, Risiko Hukum, Risiko Reputasi, Risiko Strategik, Risiko Kepatuhan, Risiko Transaksi Intra-Grup dan Risiko Asuransi. Penilaian Profil Risiko BNI Terintegrasi tersebut telah dilakukan sesuai dengan lampiran SE OJK No. 14/SEOJK.03/2015 tanggal 25 Mei 2015 tentang Penerapan Manajemen Risiko Terintegrasi bagi Konglomerasi Keuangan.

Penilaian Profil Risiko Terintegrasi dilakukan semesteran. Berdasarkan hasil laporan terakhir secara penilaian sendiri (*self assessment*), peringkat risiko inheren posisi 31 Desember 2022 adalah *low to moderate* dengan peringkat kualitas penerapan manajemen risiko yang memadai (*satisfactory*) sehingga peringkat komposit Profil Risiko Konglomerasi Keuangan BNI adalah 2 (*low to moderate*) (tidak diaudit).

Penilaian Tingkat Kesehatan Bank (TKB) BNI *self assesment* posisi 31 Desember 2022 yang berada pada Peringkat 2 (PK 2) dengan predikat “sehat” atau stabil dibandingkan dengan TKB BNI posisi Desember 2021. Dampak Pandemi Covid-19 pada parameter TKB BNI posisi 31 Desember 2022 sebagai berikut (tidak diaudit):

1. **Profil Risiko**
Hasil penilaian Profil Risiko BNI periode 31 Desember 2022 masih stabil di Peringkat 2 (*Low to Moderate*) dengan tren menurun. Beberapa Risiko yang terdampak pandemi Covid-19 antara lain di Risiko Kredit (penurunan pada rasio kualitas kredit).
2. **Rentabilitas**
Terjadi penurunan tren risiko pada parameter Rentabilitas yang dipicu oleh pencapaian rasio profitabilitas yang telah membaik dan sesuai target.
3. **Permodalan**
Penurunan tren risiko pada parameter permodalan diakibatkan peningkatan rasio CAR BNI karena peningkatan total modal BNI secara modal tier 1 melalui laba ditahan serta penerbitan *Additional Tier 1 Capital Securities* dan peningkatan modal tier 2 melalui penerbitan *subdebt*.
4. **Tata Kelola**
Tata kelola BNI posisi Desember 2022 dibandingkan dengan posisi Desember 2021 relatif stabil, tidak terpengaruh secara signifikan dengan Covid-19.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

48. RISK MANAGEMENT (continued)

Integrated Risk Profile assessment is the assessment of the 10 (ten) types of risks based on Inherent Risks and the integrated Implementation of Risk Management Quality (KPMR). The ten types of Risks being assessed are Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Legal Risk, Reputation Risk, Strategic Risk, Compliance Risk, Intra Group Transactions Risk and Insurance Risk. Assessment of the Integrated Risk Profile has complied with the SE OJK No. 14/SEOJK.03/2015 dated 25 May 2015 about Integrated Risk Management Implementation for Financial Conglomerate.

Integrated Risk Profile assessment is conducted semi annually. Based on the results of the last self-assessment report, the inherent risk rank of BNI as of 31 December 2022 is low to moderate with the quality of the risk management implementation rank as satisfactory, therefore the composite rank of BNI's Risk Profile as a financial conglomeration is 2 (low to moderate) (unaudited).

BNI Bank Soundness Level (TKB) self assessment for the position as of 31 December 2022 which is in Rank 2 (PK 2) with the predicate “healthy” or stable compared to the TKB BNI at the position in December 2021. Impact of Covid-19 Pandemic to BNI's TKB parameter as of 31 December 2022 as follows (unaudited):

1. **Risk Profile**
The results of the BNI Risk Profile assessment for the period 31 December 2022 are still stable at Rank 2 (Low to Moderate) with decreasing trend. Some of the risks affected by the Covid-19 pandemic are credit risk (decrease in credit quality ratio).
2. **Rentability**
The decreasing of risk trend which occurred in Rentability parameter which was triggered by improvement of the achievement of a profitability ratio as target.
3. **Capital**
The decreasing risk trend in the capital parameter was due to an increase in the BNI's total capital component due to an increase of BNI's tier 1 capital from retained earnings as well as issuance of Additional Tier 1 Capital Securities and increase of tier 2 capital due to subdebt issuance.
4. **Governance**
BNI's governance in December 2022 is relatively stable compared to the position in December 2021, not affected significantly by Covid-19.

BNI telah menyusun rencana perbaikan dampak pandemi Covid-19 untuk memperbaiki dan memperkuat penerapan Manajemen Risiko di BNI.

49. RISIKO KREDIT

Pengelolaan kredit Bank diarahkan untuk melakukan ekspansi kredit dan mengelola kualitas setiap kredit sejak saat diberikan sampai dengan dilunasi oleh debitur dan untuk mencegah kredit tersebut menjadi kredit bermasalah (*Non-Performing Loan/NPL*). Pengelolaan kredit yang efektif dapat meminimalkan kerugian dan mengoptimalkan penggunaan modal yang dialokasikan untuk risiko kredit.

Pengelolaan risiko kredit BNI selain bertujuan untuk memenuhi persyaratan yang ditetapkan oleh Regulator, juga untuk meminimalkan kemungkinan kerugian yang timbul akibat debitur gagal memenuhi kewajibannya atas fasilitas kredit yang diberikan dan kontrak keuangan lainnya, baik pada tingkat individu debitur maupun portofolio kredit secara keseluruhan.

BNI telah memiliki kebijakan dan prosedur perkreditan serta kebijakan manajemen risiko kredit yang diputuskan melalui forum Komite Kebijakan Perkreditan (KKP), Komite Prosedur Perkreditan (KPP), Komite Risiko dan Anti Fraud sub Komite Manajemen Risiko (KRA-RMC) yang beranggotakan Direksi dan beberapa anggota manajemen senior serta Rapat Direksi (Radisi) serta disetujui oleh Dewan Komisaris. Kebijakan Perkreditan Bank disetujui oleh Dewan Komisaris dan ditinjau paling lama setiap 3 (tiga) tahun sekali. Selanjutnya kebijakan dan prosedur tersebut dituangkan dalam Pedoman Perusahaan (PP) Perkreditan dan Pedoman Perusahaan Manajemen Risiko Kredit.

Pedoman Perusahaan (PP) Perkreditan memberikan pedoman secara lengkap dan terperinci atas kegiatan manajemen kredit dari saat pengajuan kredit, proses analisis, persetujuan, pemantauan, pendokumentasian, pengendalian, penyelamatan/restrukturisasi dan penyelesaian kredit bermasalah, sehingga kualitas kredit dapat terjaga dengan tetap memperhatikan target bisnis yang ditetapkan.

Dalam rangka mendukung proses pemberian kredit yang lebih hati-hati, BNI melakukan penelaahan dan penyempurnaan kebijakan perkreditan dan kebijakan manajemen risiko kredit secara periodik sesuai dengan perkembangan bisnis terkini.

(Expressed in millions of Rupiah, unless otherwise stated)

48. RISK MANAGEMENT (continued)

BNI has prepared an enhanced action plan to improve the impact of the Covid-19 pandemic on the implementation of Risk Management at BNI.

49. CREDIT RISK

The Bank's loan management is aimed to support the loan expansion and to manage the quality of each loan from the time the loan was granted until the loan is fully repaid by the debtors and to prevent the loan becoming a Non-Performing Loan (NPL). Effective loan management is intended to minimize the risk of losses and optimize the use of capital allocated for credit risk.

The purpose of BNI's credit risk management other than to comply with Regulatory requirement is to minimise the possible losses resulting from the debtors' failure to pay credit facility and other financial contracts at the minimum level, both on the individual and loan portfolio level.

BNI already has loan policies and procedures for credit and credit risk management that was decided in the Credit Policy Committee (KKP), Credit Procedures Committee (KPP), Risks and Anti Fraud Committee sub division of Risk Management (KRA-RMC) consisting of Board of Directors and several members of senior management and also Board of Directors meetings and approved by Board of Commissioner. Bank Credit Policies is approved by Board of Commissioner and reviewed at least once in 3 (three) years. These policy and procedures are written in the Credit Company Guidelines (PP) and Credit Risk Management Company Guidelines.

These Credit Company Guidelines (PP) provide complete and detailed guidance on loan management activities from loan proposal, analysis process, approval, monitoring, documentation, controls, restructuring and the settlements of non-performing loans, so that credit quality can be maintained by taking into account the business targets set.

To support a prudent loan granting process, BNI conducts periodic reviews and enhances its loan and credit risk management policies in line with current business developments.

DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

49. RISIKO KREDIT (lanjutan)

Pengelolaan risiko kredit diterapkan pada tingkat individu dan tingkat portofolio. Pada tingkat individu pinjaman untuk kredit produktif, setiap usulan pemberian kredit dilakukan melalui proses analisis kredit oleh Unit Bisnis dan ditinjau oleh unit risiko kredit. Mekanisme proses persetujuan kredit dilakukan melalui rapat Komite Kredit. Komite Kredit merupakan lembaga pemutus kredit yang beranggotakan pemutus dari Unit Bisnis dan Unit Risiko Bisnis, dengan demikian proses pemberian kredit menjadi lebih komprehensif dan hati-hati.

Untuk mempercepat proses ekspansi bisnis segmen kecil, fungsi pemasaran dan proses analisa kredit dilakukan oleh *Relationship Manager* yang berada di bawah Unit Bisnis yaitu dengan melakukan analisa bisnis dan analisa risiko serta memberikan mitigasi risiko yang diperlukan terhadap calon debitur yang diusulkan.

Adapun untuk segmen menengah dan korporasi dilakukan oleh *Senior Relationship Manager* dan *Relationship Manager* yang berada di Unit Bisnis dengan tugas memproses usulan dari calon debitur, sementara analisis dan review risiko calon debitur di segmen Korporasi dan Menengah dilakukan oleh fungsi *Credit Risk Manager* yang berada di bawah Unit Risiko.

Penerapan *four eyes principles* dalam proses perkreditan di BNI diimplementasikan dalam proses persetujuan kredit yang dilakukan melalui Komite Kredit, yaitu forum bersama pejabat pemutus kredit yang mempunyai wewenang memutus kredit yang diusulkan sesuai dengan limit yang ditetapkan. Anggota Komite Kredit terdiri dari pejabat unit bisnis dan unit risiko bisnis. Dengan demikian proses pemberian kredit menjadi lebih komprehensif dan hati-hati.

Unit bisnis dan unit risiko bisnis berperan sebagai *first line of defense (risk owner)* yang bertugas mengelola dan mengendalikan risiko kredit pada kegiatan operasional harian unit tersebut.

Proses analisis dan persetujuan kredit dilakukan melalui serangkaian proses penilaian tingkat risiko kredit calon debitur, yang diantaranya dengan menggunakan *internal rating system* (untuk kredit produktif) dan *scoring system* (untuk kredit konsumtif dan kredit produktif segmen ritel), sekaligus juga strategi mitigasi risikonya. Hasil proses analisis dan penilaian tingkat risiko kredit kemudian diajukan kepada Komite Kredit untuk mendapatkan persetujuan.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

49. CREDIT RISK (continued)

Credit risk management is implemented both at the individual and portfolio level. At the individual level, for productive loans, each loan granting proposal is made through a process of analysis by the Business Unit and reviewed by the credit risk unit. The credit approval process mechanism is through a Credit Committee meeting. The Credit Committee constitutes the decision maker for credit approval, which consists of representatives from Business Units and the Credit Risk Unit, so that the loan granting process becomes more comprehensive and prudent.

To accelerate the process of business expansion in small segment, the marketing and credit analysis process function is performed by the Relationship Manager under the Business Unit by conducting business analysis and risk analysis as well as providing risk mitigation against the proposed debtor candidates.

As for the middle and corporate segment these are performed by Senior Relationship Managers and Relationship Managers who are in the Business Unit and have the task of processing the proposals from perspective debtors, while the analysis and risk review of prospective debtors in the Corporate and Middle segment are performed by Credit Risk Manager who is under the Risk Unit.

The application of four eyes principles in the lending process at BNI is implemented in the credit approval process through Credit Committees, that is a forum of credit decision makers who have the authority to approve the credit in accordance with the specified limit. The members of the Credit Committee consist of business unit officers and business risk unit officers. Thus the process of granting credit becomes more comprehensive and prudent.

Business units and business risk units act as first line of defense (risk owner) in charge of managing and controlling credit risk in daily operations of the unit.

Loan analysis and approval process is conducted through several assessment processes of the applicant's credit risks, i.e. through internal rating system (for productive loans) and scoring system (for consumer and retail loans), followed by the related risk mitigation strategy. The results of the credit analysis and risk assessment process will be forwarded to the Credit Committee for approval.

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

49. RISIKO KREDIT (lanjutan)

Kredit yang bermasalah dikelola oleh Divisi *Corporate & Enterprise Remedial & Recovery* untuk segmen Korporasi dan Divisi *Commercial & SME Remedial & Recovery* untuk segmen menengah dan kecil, agar penyelamatan/ penyelesaian kredit dapat dilakukan secara lebih baik dan memampukan Unit Usaha untuk dapat fokus pada pengelolaan debitur lancar dan melakukan ekspansi kredit.

Untuk menjaga agar portofolio Bank tidak terkonsentrasi pada debitur dan sektor ekonomi tertentu, maka telah ditetapkan pembatasan kredit sesuai *risk appetite*, sedangkan untuk mengantisipasi pelampauan BMPK BNI telah menetapkan limit BMPK yang disebut *house limit* dengan batas yang lebih *prudent* dibandingkan limit BMPK sesuai ketentuan regulator.

Untuk mengatur komposisi portofolio pinjaman BNI, setiap tahun sekali ditetapkan batas maksimum pinjaman (*Loan Exposure Limit*) yang bertujuan untuk mendiversifikasi portofolio pinjaman berdasarkan sektor industri untuk mengoptimalkan pendapatan dengan mempertimbangkan risiko di masing-masing sektor industri serta mengurangi risiko konsentrasi. Dalam penentuan konsentrasi tiap sektor industri yang optimal, Bank mengembangkan metode *Credit Portfolio Optimisation* (CPO) dengan memperhitungkan korelasi *risk-return* dari tiap sektor industri. Selanjutnya Bank memonitor status kelonggaran ekspansi pinjaman (*space available*) secara periodik berdasar *Loan Exposure Limit* (LEL).

Pengembangan manajemen risiko kredit dilakukan secara bertahap sesuai dengan kerangka kerja yang ditetapkan Bank Indonesia/Otoritas Jasa Keuangan. Khusus untuk pengukuran risiko kredit, BNI menggunakan metode standar. Saat ini BNI juga mempersiapkan dan mengembangkan metodologi perhitungan risiko kredit dengan metode *rating internal (internal ratings - based approach)*.

Sebagai bagian dari pengukuran risiko kredit dan untuk mengantisipasi terjadinya perubahan faktor makro yang berpengaruh pada Bank, BNI secara berkala melakukan *stress testing* risiko kredit untuk menilai perubahan portofolio kredit dan pengaruhnya bagi Bank serta kemampuan Bank menghadapi kondisi tersebut.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

49. CREDIT RISK (continued)

Non-performing loan is managed by a Corporate & Enterprise Remedial & Recovery Division for corporate segment and Commercial & SME Remedial Division for middle and small segment, to ensure better credit recovery and settlement, and to enable the Business Unit to focus on the management of performing debtors and loan expansion.

To prevent the Bank portfolio from being concentrated to certain debtors and economic sectors, credit restrictions have been set according to the risk appetite, while to anticipate exceeding the Legal Lending Limit, BNI has set limits on the Maximum Limit of Credit License called House Limit with a more prudent limit than the limit of Maximum Credit Granting in accordance with the provisions of the regulator.

To manage the composition of BNI loan portfolio, the loan exposure limit is determined annually to diversify loan portfolio among different industry sectors in order to optimize return regarding risk in each sector and to reduce concentration risk. In the determination of optimal concentration in industry sectors, the Bank has developed a method of Credit Portfolio Optimisation by calculating the correlation of risk return from each industry sectors. Furthermore, the Bank monitors the status of the space available based on Loan Exposure Limit (LEL) periodically.

The development of credit risk management is conducted in stages, and in line with the framework set by Bank Indonesia/Financial Services Authority. Specifically for measuring credit risk, BNI utilizes the standardized approach method. Furthermore, BNI also prepares and develops internal ratings-based methodology.

As part of the measurement of credit risk and to anticipate the occurrence of macro-factors changes affecting the Bank, BNI periodically performs stress testing of credit risk to assess changes in loan portfolio and its impact to the Bank and the Bank's ability to face such condition.

49. RISIKO KREDIT (lanjutan)

- (i) Eksposur maksimum risiko kredit (lanjutan)

Tabel di atas menggambarkan eksposur maksimum atas risiko kredit bagi Grup pada tanggal 31 Desember 2022 dan 2021. Untuk aset pada laporan posisi keuangan konsolidasian, eksposur di atas ditentukan berdasarkan nilai tercatat bersih seperti yang diungkapkan pada laporan posisi keuangan konsolidasian.

Pada tanggal 31 Desember 2022 dan 2021, masing-masing sebesar 61,87% dan 59,01% adalah jumlah eksposur risiko kredit maksimum terhadap aset pada laporan posisi keuangan konsolidasian yang berasal dari pinjaman yang diberikan.

Manajemen yakin akan kemampuan Bank untuk mengendalikan dan memelihara eksposur risiko kredit yang berasal dari kredit yang diberikan, berdasarkan hal-hal sebagai berikut:

- Proses peningkatan pengelolaan kredit secara berkelanjutan melalui penyempurnaan proses kredit, pengembangan produk penyempurnaan organisasi perkreditan, peningkatan kemampuan SDM di bidang perkreditan dan pengembangan perangkat kredit berbasis teknologi.
- BNI telah memiliki pedoman tertulis mengenai kebijakan dan proses kredit yang mencakup seluruh aspek pemberian kredit yang dilakukan. Setiap pemberian kredit harus senantiasa mengacu pada kebijakan tersebut.
- BNI telah menetapkan *risk appetite* dan *risk tolerance* yang selaras dengan sasaran strategis Bank, yang digunakan sebagai acuan tingkat risiko yang akan diambil Bank dalam pencapaian sasaran bisnis.
- BNI telah melakukan *stress test* risiko kredit untuk menilai kemampuan Bank bertahan dalam kondisi tidak normal serta sebagai alat untuk pengambilan keputusan Bank.
- BNI telah memiliki sistem deteksi dini permasalahan melalui "early warning system" dan pemantauan yang disiplin.
- Seluruh kredit diberikan dengan agunan kecuali untuk jenis kredit tertentu seperti kartu kredit, *personal loans* dan fasilitas antar bank.

FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

49. CREDIT RISK (continued)

- (i) Maximum exposure of the credit risk (continued)

The table above represents credit risk exposures of the Group as of 31 December 2022 and 2021. For assets on the consolidated statement of financial position, the exposures set out above are based on net carrying value as reported in the consolidated statement of financial position.

As of 31 December 2022 and 2021, the total maximum credit risk exposure toward asset in the consolidated statement of financial position from loans is 61.87% and 59.01%, respectively.

Management is confident in its ability to control and sustain exposure of credit risk to the Bank resulting from its loans based on the following:

- The process of improving credit management in a sustainable manner by improving credit processes, product development credit organization improvement, credit capability improvement of human resources and development of technology based for credit application.
- BNI has documented credit policies and manual procedures that cover all aspects of the Bank's lending activities. Each loan transaction must adhere to the requirements of the Bank's policy.
- BNI has set risk appetite and risk tolerance in accordance with the Bank's strategic objectives, which are used as a reference level of risk to be taken by the Bank in achieving business goals.
- BNI has performed stress test on credit risk to assess the ability of the Bank to stay in the abnormal condition and as an instrument for decision making for the Bank.
- BNI has an early problem detection system through "early warning system" and disciplined monitoring.
- All loans are secured by collaterals, except for certain loans such as credit cards, personal loans and interbank loans.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

49. RISIKO KREDIT (lanjutan)

- (ii) Analisa eksposur maksimum terhadap risiko kredit setelah memperhitungkan dampak agunan dan mitigasi risiko kredit lainnya

BNI menentukan struktur kredit termasuk penentuan *covenant* yang tepat sesuai kebutuhan dan kondisi debitur, sehingga kredit yang diberikan benar-benar efektif dan menguntungkan bagi debitur maupun Bank. Jenis agunan yang dimiliki oleh Bank adalah kas, deposito, agunan yang diikat dengan hipotik dan hak tanggungan, garansi/ penjaminan pihak ketiga (termasuk penjaminan kredit oleh perusahaan asuransi) serta jaminan dalam bentuk aset lainnya. Perkiraan nilai wajar dari agunan yang digunakan oleh Bank didasarkan pada nilai agunan yang dinilai oleh penilai internal maupun eksternal.

Ketentuan *coverage* atau kecukupan agunan untuk tiap segmen ditentukan sebagai berikut:

Segmen/ <i>Segment</i>	Jenis Agunan/ <i>Collateral</i>	Jumlah Coverage Minimal/ Minimum Coverage Amount
Korporasi/ <i>Wholesale</i>	Aset tetap/ <i>Fixed Asset</i>	100% dari limit kredit/ <i>from credit limit</i>
	Kas/ <i>Cash</i>	
	<i>Standby letter of credit ("SBLC")</i>	
	Tanah dan Bangunan/ <i>Land and Building</i>	
	Piutang/ <i>Receivable</i>	
	Kendaraan/ <i>Vehicle</i>	
Menengah/ <i>Middle</i>	Agunan lain yang diterima oleh Bank/ <i>Other collaterals held by the Bank</i>	125% dari limit kredit/ <i>from credit limit</i>
	Aset tetap/ <i>Fixed Asset</i>	
	Kas/ <i>Cash</i>	
	SBLC	
	Tanah dan Bangunan/ <i>Land and Building</i>	
	Piutang/ <i>Receivable</i>	
Kecil/ <i>Retail</i>	Kendaraan/ <i>Vehicle</i>	110% dari limit kredit/ <i>from credit limit</i>
	Agunan lain yang diterima oleh Bank/ <i>Other collaterals held by the Bank</i>	
	Aset tetap/ <i>Fixed Asset</i>	
	Kas/ <i>Cash</i>	
	SBLC	

Nilai tercatat dari aset keuangan bank selain kredit yang diberikan dan efek-efek yang dibeli dengan janji dijual kembali pada umumnya menggambarkan eksposur maksimum atas risiko kredit.

(Expressed in millions of Rupiah, unless otherwise stated)

49. CREDIT RISK (continued)

- (ii) Analysis of maximum exposure to credit risk after taking into account the impact of collateral and other credit risk mitigation

BNI sets loan structure for every debtor through appropriate covenants that aligns with debtor needs and condition. This is to ensure the debtor uses the loan according to its original purpose so that the Bank and the debtor's interests are fulfilled. Collateral types held by the Bank are cash, deposits, registered mortgages, guarantees and other registered securities over assets. Estimates of fair value of collaterals held by the Bank is based on the value of collaterals assessed internally or externally by the independent appraisers.

The collateral coverage criteria for each segment is divided as follows:

The carrying amounts of financial assets other than bank loans and securities purchased under agreements to resell is generally equal to the maximum exposure of credit risk.

50. RISIKO LIKUIDITAS

Risiko likuiditas berhubungan dengan adanya kemungkinan bank tidak mampu untuk memenuhi kewajiban jangka pendek terhadap deposan, investor dan kreditur, serta pemenuhan giro wajib minimum (GWM) yang diantaranya disebabkan keterbatasan akses pendanaan atau ketidakmampuan untuk melikuidasi aset yang dimiliki dengan harga yang wajar.

Manajemen Risiko Likuiditas dilakukan oleh Divisi Manajemen Risiko Bank (ERM), Divisi Treasuri (TRS), dan Kantor Cabang Luar Negeri. Kebijakan dan Prosedur Risiko Likuiditas disusun oleh Divisi ERM, selanjutnya dilaksanakan oleh Divisi TRS dan segenap Kantor Cabang Luar Negeri, yang diwujudkan dalam manajemen strategi likuiditas.

Divisi ERM juga melakukan monitoring terhadap pelaksanaan manajemen likuiditas yang dilakukan oleh Divisi Treasuri tersebut.

Divisi ERM menyusun Kebijakan Risiko Likuiditas berupa Pedoman Penerapan Manajemen Risiko Likuiditas, yang lebih lanjut dijabarkan ke dalam Prosedur Manajemen Risiko Likuiditas yang berisi panduan pelaksanaan manajemen risiko likuiditas, antara lain berupa:

- Ketersediaan Alat Likuid: Kas, GWM, Secondary Reserve, Indikator Peringatan Dini, Liquidity Contingency Plan Head Office maupun Kantor Cabang Luar Negeri, dll
- Pengukuran Risiko Likuiditas : Rasio Likuiditas, Proyeksi Arus Kas, Profil Maturitas, Rasio Kecukupan Likuiditas, Stress testing, dll
- Pemantauan Risiko Likuiditas
- Pengendalian Risiko Likuiditas
- Penetapan Limit Likuiditas: Pagu Kas Wilayah, Pagu Kas Bank Wide, SR Ideal, Limit Profil Maturitas, Limit Kredit Valas berdasarkan ketersediaan likuiditas.

Divisi ERM juga menyusun risk appetite dan risk tolerance Risiko Likuiditas yang selaras dengan sasaran strategis Bank, yang digunakan sebagai acuan tingkat risiko yang akan diambil Bank dalam pencapaian sasaran bisnis.

Dalam mengelola likuiditas, selain mengelola primary reserve (kas dan GWM), BNI menjaga dan mempertahankan secondary reserve untuk memastikan likuiditas berada pada level yang aman. Sebagai antisipasi pemenuhan secondary reserve yang ideal, BNI menjaga dan mempertahankan tertiary reserve.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

50. LIQUIDITY RISK

Liquidity risk relates to the possibility that the Bank will be unable to meet short-term obligations to depositors, investors and creditors, as well as fulfill Statutory Reserve Requirements due to, among others, limited access to financing or the inability to liquidate assets at reasonable prices.

Liquidity Risk Management is carried out by the Bank's Risk Management Division (ERM), Treasury Division (TRS), and Branch Offices of Foreign Affairs. Liquidity Risk Policies and Procedures was prepared by the Division ERM, subsequently implemented by the Division of TRS and all Branch Offices of Foreign Affairs, which is manifested in the liquidity strategy management.

ERM Division also monitors the implementation of the liquidity management performed by the Treasury Division.

ERM Division prepares Liquidity Risk Policy Guidelines in Liquidity Risk Management Implementation Guidelines, which is further elaborated into the Liquidity Risk Management Procedures which contains guidelines for liquidity risk management practices, which include:

- Availability Liquidity Tools: Cash, Statutory Reserve Requirement, Secondary Reserve, Early Warning Indicators, Liquidity Contingency Plan Head Office or Branch Office of Foreign Affairs, etc.
- Measurement of Liquidity Risk: Liquidity Ratio, Cash Flow Projection, Maturity Profile, Liquidity Adequacy Ratio, Stress testing, etc.
- Liquidity Risk Monitoring
- Liquidity Risk Management
- Determination of Liquidity Limit: Cash Ceiling for Regional Area, Cash Ceiling Bank Wide, Ideal SR, Maturity Profile Limit, Credit in Foreign Currency Limit based on the availability of liquidity.

ERM Division also prepares risk appetite and risk tolerance for Liquidity Risk in accordance with the Bank's strategic objectives, which are used as a reference level of risk to be taken by the Bank in achieving business goals

In managing liquidity, beside addition to managing primary reserve (cash and statutory reserve requirement), BNI keeps and maintains secondary reserve to ensure liquidity is at a safe level. In anticipation of fulfilling the ideal secondary reserve, BNI preserves and maintains a tertiary reserve.

Dalam rangka meningkatkan ketahanan likuiditas, BNI menerapkan perhitungan rasio kecukupan likuiditas yaitu *Liquidity Coverage Ratio* (LCR) dan *Net Stable Funding Ratio* (NSFR) dan mengelola rasio Kecukupan Likuiditas tersebut sesuai ketentuan regulator, baik secara individu (*bank only*) maupun konsolidasi dengan Entitas Anak.

LCR bertujuan untuk meningkatkan ketahanan likuiditas jangka pendek dengan memelihara *High Quality Liquid Assets* (HQLA) yang memadai untuk memenuhi kebutuhan likuiditas BNI selama periode 30 hari ke depan dalam kondisi *stress*, sedangkan NSFR bertujuan untuk mengurangi risiko likuiditas terkait sumber pendanaan untuk jangka waktu yang lebih panjang dengan mensyaratkan BNI mendanai aktivitas dengan sumber dana stabil yang memadai dalam rangka memitigasi risiko kesulitan pendanaan pada masa depan.

Laporan rasio Kecukupan Likuiditas BNI tersebut dilaporkan secara bulanan dan triwulanan kepada Otoritas Jasa Keuangan (OJK).

51. RISIKO PASAR

Risiko pasar adalah risiko kerugian yang timbul akibat perubahan faktor pasar yang tidak sesuai dengan posisi yang diambil oleh BNI baik pada posisi aset dan liabilitas keuangan dan rekening administratif. Risiko Pasar melekat pada hampir seluruh aktivitas Bank, baik *trading book* maupun *banking book* yang mencakup Risiko Suku Bunga dan Risiko Nilai Tukar.

Pengelolaan Risiko Pasar BNI dilakukan melalui koordinasi beberapa Divisi terkait, yaitu Divisi Manajemen Risiko Bank (Divisi ERM) yang bertanggung jawab kepada Direktur Manajemen Risiko (Dir. MR), Divisi Tata Kelola Kebijakan (Divisi PGV) yang bertanggung jawab kepada Wakil Direktur Utama (Wadiu), Divisi Treasuri (Divisi TRS) dan Kantor Cabang Luar Negeri dalam pengawasan Divisi Internasional (Divisi INT) yang bertanggung jawab kepada Direktur Treasuri dan Internasional (Dir. TS). Dalam mengelola Risiko Pasar, Direksi didukung oleh *Risk Management Committee* (RMC) dan Komite Aset dan Liabilitas (ALCO) serta dalam pengawasannya didukung oleh Komisaris melalui Komite Pemantau Risiko.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

(Expressed in millions of Rupiah, unless otherwise stated)

50. LIQUIDITY RISK (continued)

2021						
	Kurang dari 1 Bulan/ Less than 1 Month	1 - 3 Bulan/ Months	3 - 6 Bulan/ Months	6 - 12 Bulan/ Months	Lebih dari 12 Bulan/ More than 12 Months	Total
KOMITMEN DAN KONTINJENSI						
Unused loan facilities	59,613,881	-	-	-	-	59,613,881
Outstanding irrevocable letters of credit	4,340,640	1,309,902	1,446,584	936,494	712,792	8,746,412
Guarantees issued	20,163,974	6,546,937	4,100,960	9,350,343	17,498,834	57,661,048
Total	84,118,495	7,856,839	5,547,544	10,286,837	18,211,626	126,021,341

In order to increase liquidity resilience, BNI implements *Liquidity Coverage Ratio* (LCR) and *Net Stable Funding Ratio* (NSFR) calculations and manages requirement of the *Liquidity Adequacy Ratio* subject to regulators, either individually (*bank only*) or consolidated with Subsidiaries.

LCR aims to improve the Bank's short-term liquidity resilience by maintaining *High Quality Liquid Assets (HQLA)* to meet liquidity needs over the next 30 days under stress conditions, while NSFR aims to reduce liquidity risk related to longer term funding sources requiring BNI to fund activities with sufficient stable funding sources in order to mitigate future financial hardship risks.

BNI Liquidity Adequacy Ratio are reported monthly and quarterly to the Otoritas Jasa Keuangan (OJK).

51. MARKET RISK

Market risk is the risk of loss due to the adverse volatility of market price movements against BNI's financial assets and liabilities (on balance sheet) including administrative accounts (off balance sheet). Market risk is embedded in the Bank's business activities, both in trading and banking books, which cover Interest Rate risks and Foreign Exchange risks.

Market Risk Management is done through coordination with BNI's several related divisions such as: Enterprise Risk Management Division (ERM) which report to the Director of Risk Management, Policy Governance Division (PGV) which report to the Vice Director, and Treasury Division (TRS) as well as Overseas branches supervised by the International Division (INT) which report to the Director of Treasury and International. The Market Risk Management is also supported by Risk Management Committee (RMC) and Assets and Liabilities Committee (ALCO) and supervised by the Board of Commissioners through the Risk Monitoring Committee.

DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

51. RISIKO PASAR (lanjutan)

BNI telah memiliki Aplikasi Manajemen Risiko Pasar untuk mendukung proses pengelolaan Risiko Pasar. Pengukuran potensi risiko pasar untuk pengendalian internal BNI dilakukan secara harian menggunakan Model Internal - *Value at Risk (VaR) Methodology*, sedangkan pengukuran risiko pasar dalam rangka perhitungan Kewajiban Penyediaan Modal Minimum dilakukan secara bulanan menggunakan Metode Standar. BNI juga melakukan pengukuran risiko suku bunga pada *banking book* secara bulanan menggunakan *Assets & Liabilities Gap Report* serta pengukuran Risiko Nilai Tukar pada *banking book* melalui perhitungan Posisi Devisa Neto (PDN) secara harian dan bulanan sesuai ketentuan Regulator.

Sehubungan dengan penggunaan Model Internal (VaR) dalam pengukuran Risiko Pasar, BNI telah melakukan proses validasi melalui *Back Testing* secara periodik untuk menilai akurasi pengukuran VaR yang digunakan. Selain itu, BNI telah melakukan proses *Stress Testing* terhadap instrumen keuangan yang terekspos risiko nilai tukar dan risiko suku bunga (portofolio obligasi) untuk menilai ketahanan Bank dalam menghadapi perubahan faktor pasar yang ekstrem pada saat kondisi pasar abnormal. *Stress Testing* dilakukan setiap 6 (enam) bulan sekali atau periode yang lebih pendek jika terjadi kondisi abnormal.

Limit Risiko Pasar BNI sebagai bagian dari proses pengendalian Risiko Pasar ditetapkan dan dikaji ulang secara periodik oleh Divisi ERM dan Divisi PGV yang independen terhadap *risk taking units* (Divisi TRS dan kantor cabang luar negeri). Limit-limit Risiko Pasar adalah sebagai berikut:

- a. Limit Risiko Pasar pada *trading book*:
- (i) Limit *Value at Risk* (VaR) dan limit *Stressed Value at Risk* (SVaR)
 - (ii) Limit nominal transaksi
 - (iii) Limit nominal *open position*
 - (iv) Limit kerugian
 - (v) Limit *off market*

Limit ditetapkan pada masing-masing *desk* (*Forex, Fixed Income, Money Market, Investasi, Likuiditas*).

- b. Limit Risiko Pasar pada *banking book*:
- (i) Limit Gap Aset & Liabilitas - Rupiah
 - (ii) Limit Gap Aset & Liabilitas - Valuta Asing
 - (iii) Limit Posisi Devisa Neto Internal BNI.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

51. MARKET RISK (continued)

BNI has Market Risk Tools to support the implementation of the Market Risk Process. The measurement of potential market risk, for internal control purposes, is conducted on a daily basis using an Internal Model - *Value at Risk (VaR) Methodology*. On the other hand, the market risk measurement for Capital Adequacy Ratio purposes, is conducted on a monthly basis using the Standard Method. BNI also conducts on a monthly basis the measurement of interest rate risk on *banking book* using *Assets & Liabilities Gap Report (A/L Gap Report)* and the measurement for foreign exchange risk on *banking book* by calculating the Net Open Position (NOP) both daily and monthly in accordance with the Regulator's regulation.

In line with the use of the Internal Model (VaR) in measuring market risk, BNI conducts Back Testing periodically to assess the accuracy of the VaR methodologies used. Stress Testing has also been conducted for the financial instruments that are exposed to foreign exchange risk and interest rate risk (limited to bond positions) in order to assess the Bank's resilience in encountering extreme change of risk factors in abnormal market conditions. Stress Testing is done every 6 (six) months or in case there is an abnormal condition whichever is earlier.

BNI Market Risk limit as a part of the risk controlling process is set and reviewed periodically by ERM and PGV which are independent from risk taking units (TRS and overseas branches). The Market Risk limits are as follows:

- a. Market Risk limits on trading book:
- (i) *Value at Risk* (VaR) limit and Stressed *Value at Risk* (SVaR) limit
 - (ii) Transaction nominal limit
 - (iii) Open position limit
 - (iv) Loss limit
 - (v) Off market limit

These limits are performed for each trading desk (*Forex, Fixed Income, Money Market, Investment, Liquidity*).

- b. Market Risk limits on banking book:
- (i) Gap Asset & Liability Limit - Indonesian Rupiah
 - (ii) Gap Asset & Liability Limit - Foreign Currency
 - (iii) Internal BNI Net Open Position Limit.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

51. RISIKO PASAR (lanjutan)

Divisi ERM juga menyusun *risk appetite* dan *risk tolerance* Risiko Pasar yang selaras dengan sasaran strategis Bank, yang digunakan sebagai acuan tingkat risiko yang akan diambil Bank dalam pencapaian sasaran bisnis.

Pemantauan Risiko Pasar dilakukan melalui laporan yang memberikan informasi mengenai eksposur risiko pasar dan kepatuhan terhadap limit-limit. Laporan VaR diberikan kepada manajemen BNI secara berkala (harian, mingguan dan bulanan) melalui laporan sirkulasi atau forum RMC. Khusus terkait dengan laporan perkembangan Risiko Suku Bunga pada *banking book* disampaikan kepada manajemen setiap bulan melalui forum Asset & Liabilities Committee (ALCO).

BNI menggunakan model *Value at Risk* (VaR) untuk menghitung potensi risiko pasar yang timbul akibat perubahan faktor pasar yang dapat mempengaruhi nilai pasar pada portofolio produk Bank. Cakupan Risiko Pasar adalah sebagai berikut:

- a. Risiko Nilai Tukar pada *trading book* dan *banking book*.
- b. Risiko Suku Bunga pada *trading book* dan *banking book* (tidak termasuk aset-aset/investasi yang dimiliki hingga jatuh tempo).

Metode untuk menghitung VaR yang digunakan BNI adalah *Variance Covariance/Risk Metrics*. Metode ini menggunakan formula dengan memasukkan parameter-parameter seperti volatilitas dan korelasi. Metode ini mengasumsikan bahwa segala perubahan dalam faktor risiko yang mempengaruhi kondisi pasar normal akan mengikuti distribusi normal. Sedangkan untuk kondisi pasar harian yang tidak normal, dilakukan perhitungan *Stressed VaR*.

VaR tidak menyediakan informasi potensi laba atau rugi pada kondisi pasar yang ekstrem atau *stress*. BNI melakukan *stress testing* untuk kondisi pasar yang ekstrem tersebut.

Pengukuran VaR adalah estimasi maksimum potensi kerugian Risiko Pasar untuk 1 (satu) hari ke depan dengan tingkat keyakinan 99% dengan posisi portofolio yang dimiliki tidak berubah. Penggunaan tingkat keyakinan 99% berarti dalam rentang waktu satu hari, kerugian harian yang melebihi VaR dalam kondisi pasar normal tidak akan terjadi lebih dari 1 (satu) kali dalam 100 hari.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

51. MARKET RISK (continued)

ERM Division also prepares *risk appetite* and *risk tolerance* for Liquidity Risk in accordance with the Bank's strategic objectives, which are used as a reference level of risk to be taken by the Bank in achieving business goals.

Market Risk monitoring is conducted through reports which give information about the market risk exposures and the limit compliance. The VaR reports are submitted to BNI management on a periodic basis (daily, weekly, and monthly) through circular reports or RMC forum. Specifically the report for interest rate risk on *banking book* is submitted to management on a monthly basis through the ALCO forum.

BNI uses *Value at Risk* model (VaR) to measure potential market risk arising from possible changes of market factors which can affect the market value of the Bank portfolio. The scope of Market Risk is as follows:

- a. Foreign exchange risk on *trading book* and *banking book*.
- b. Interest rate risk on *trading book* and *banking book* (excluding held-to-maturity assets/investments).

The VaR method used in BNI is *Variance Covariance/Risk Metrics*. This method uses formulas with some parameters such as volatility and correlation. It assumes that any changes that occurs in the risk factors affecting the normal market conditions will follow normal distribution. For abnormal market condition, *Stressed VaR* calculation is applied.

VaR does not provide information for potential gain or loss in the extreme or stress market condition. BNI performs stress testing in the extreme market condition.

The VaR calculation is an estimate using a 99% confidence level of the potential loss that is not expected to be exceeded if the current market risk positions were to be held unchanged for one day. The use of a 99% confidence level means that, within a one day horizon, losses exceeding the VaR figure should occur, on average under normal market conditions, not more than once every one hundred days.

2021 - Rata-rata harian	17,694	11,061	251,928
2021 - Tertinggi	61,618	16,966	332,559
2021 - Terendah	4,700	4,536	203,569

(i) Risiko tingkat suku bunga

Risiko tingkat suku bunga timbul pada instrumen keuangan yang mempunyai kemungkinan kerugian akibat perubahan tingkat suku bunga yang akan berdampak pada arus kas masa depan atau nilai wajar instrumen keuangan.

Komite Risiko dan Kapital Sub Komite Manajemen Risiko (KRK-RMC) BNI, bertanggung jawab untuk menetapkan, melaksanakan serta menjaga kebijakan pengelolaan risiko tingkat suku bunga sesuai dengan pedoman umum BNI. Tujuan utama Komite Risiko dan Kapital Sub Komite Manajemen Risiko (KRK-RMC) BNI adalah memaksimalkan hasil usaha BNI dengan tetap memperhatikan *limit* risiko yang ditetapkan.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

51. MARKET RISK (continued)

Since VaR is an integral part of the Bank's market risk management, VaR limits have been established for all trading operations and exposures are required to be reviewed daily against the limits by management.

The table below presents the aggregate VaR on the Bank's trading book and banking book portfolio: (unaudited)

(i) Interest rate risk

Interest rate risks arise from financial instruments which have the loss possibilities from changes in interest rates that will affect future cash flows or fair value of the financial instruments.

BNI's Risk and Capital Committee sub Committee Risk Management (KRK-RMC) held responsible for determining, executing and overseeing the interest rate risk management policy in accordance with the overall guidelines of BNI. The main objective of the Risk and Capital Committee Sub Committee Risk Management (KRK-RMC) is to maximize BNI's returns within the predetermined risk limits.

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

51. RISIKO PASAR (lanjutan)

(i) Risiko tingkat suku bunga (lanjutan)

Tabel berikut menunjukkan sensitivitas terhadap kemungkinan perubahan suku bunga dalam Rupiah yang wajar, dengan semua variabel lainnya tetap konstan, dalam laporan laba rugi Bank. Sensitivitas laporan laba rugi adalah dampak dari perubahan asumsi suku bunga pada laporan laba rugi pada periode tersebut. Sensitivitas total laba atau rugi didasarkan pada asumsi bahwa ada pergeseran paralel kurva hasil.

2022	
Perubahan presentase/ Percentage Change	Pengaruh terhadap laporan laba rugi/ Impact to profit or loss
±25 bps	±310,574
±50 bps	±621,147

2021	
Perubahan presentase/ Percentage Change	Pengaruh terhadap laporan laba rugi/ Impact to profit or loss
±25 bps	±208,481
±50 bps	±416,962

BNI memiliki eksposur terhadap risiko tingkat suku bunga dalam mata uang Dolar Singapura, Dolar Amerika Serikat, Euro dan lainnya. BNI telah melakukan penilaian atas dampak dari risiko tingkat suku bunga tersebut dan hasilnya tidak signifikan.

(ii) Risiko mata uang

Risiko valuta asing timbul sebagai akibat adanya aset dan liabilitas keuangan dalam valuta asing dan rekening administratif konsolidasian baik pada sisi aset konsolidasian maupun liabilitas konsolidasian. Posisi valuta asing BNI dapat dikelompokkan dalam dua aktivitas yaitu: *trading book*, yang dilakukan dalam rangka memperoleh keuntungan transaksi valuta asing, dan *banking book*, yang dilakukan dalam rangka mengendalikan Posisi Devisa Neto BNI secara keseluruhan.

BNI memiliki kebijakan untuk menjaga eksposur mata uang asing dalam batas yang wajar dan berdasarkan peraturan yang berlaku. Manajemen berkeyakinan bahwa saat ini eksposur mata uang asing atas aset dan liabilitas masih dalam batas yang konservatif.

51. MARKET RISK (continued)

(i) Interest rate risk (continued)

The following tables demonstrate the sensitivity to a reasonable possible change in IDR interest rates, with all other variables held constant, in the Bank's profit or loss. The sensitivity of profit or loss is the effect of the changes in interest rates assumptions on the profit or loss for the period. The total sensitivity of profit or loss is based on the assumption that there are parallel shifts in the yield curve.

BNI has exposure to interest rate risks in Singapore Dollar, United States Dollar, Euro and others. BNI assessed that the impact of those interest rate risks is not significant.

(ii) Currency risk

Foreign currency risks arise from the consolidated financial assets and liabilities and administrative accounts in foreign currency positions, both on the consolidated assets and liabilities. BNI's foreign currency position is divided into two activities: the trading book, which is prepared to generate profit from the exchange rate, and the banking book, which is prepared to control BNI's overall Net Open Position.

BNI's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines. The Management believes that its current profile of foreign currency exposure on its assets and liabilities is within conservative limits.

51. MARKET RISK (continued)

(ii) Currency risk (continued)

Presented below is the Net Open Position, in absolute amounts, of BNI as of 31 December 2021 by currency, based on Bank Indonesia regulations:

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

52. RISIKO OPERASIONAL

Dalam rangka menerapkan manajemen risiko operasional, BNI mengacu kepada ketentuan Bank Indonesia atau Otoritas Jasa Keuangan, serta *International Best Practices*. Pengelolaan risiko operasional meliputi proses identifikasi, penilaian, pengukuran, pemantauan dan pengendalian risiko operasional.

- 1. Identifikasi Risiko**
Mekanisme identifikasi risiko operasional dilakukan dengan menerapkan *macro process mapping assessment* atas proses kerja/ aktivitas masing-masing unit untuk menangkap potensi risiko operasional yang dilakukan dengan metode *interview (one on one meeting)*.
- 2. Penilaian Risiko**
Dilakukan oleh masing-masing unit pemilik risiko melalui metode *operational risk self assessment*, mencakup penilaian atas dampak, frekuensi dan penyebab risiko serta solusinya.
- 3. Pengukuran Risiko**
Pengukuran risiko operasional saat ini menggunakan metode Pendekatan Indikator Dasar (*Basic Indicator Approach*).
- 4. Pemantauan Risiko**
Dilakukan oleh seluruh satuan kerja sebagai *first line of defense* pada saat aktivitas operasional berlangsung.

Divisi Manajemen Risiko Bank melakukan evaluasi dan laporan/*feedback* atas penilaian risiko berdasarkan hasil *self assessment* serta realisasi atas kerugian risiko operasional yang terjadi, meliputi:

- *Feedback report* untuk seluruh divisi/ satuan/ unit/ wilayah/ cabang.
- Laporan bulanan Pemantauan Beban Risiko Operasional kepada Direksi dan segenap unit.
- Laporan Profil Risiko Operasional.

- 5. Pengendalian Risiko**
Mekanisme mitigasi risiko operasional tergambar pada proses pengendalian internal dengan menerapkan 4 (empat) strategi mitigasi, yaitu hindari, kurangi, transfer dan terima. Keempat strategi mitigasi tersebut tertuang dalam prosedur mitigasi risiko operasional yang meliputi prosedur pengendalian, prosedur penyelesaian transaksi, prosedur akuntansi, prosedur penyimpanan aset dan kustodian, prosedur penyediaan produk dan prosedur pencegahan *fraud*.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

52. OPERATIONAL RISK

In order to implement operational risk management, BNI made reference to Bank Indonesia or Financial Authority Regulations, and also *International Best Practices*. Operational risk management encompasses the identification, assessment, measurement, monitoring and operational control processes.

- 1. Risk Identification**
The operational risk identification mechanism is carried out by applying a macro process mapping assessment of the work processes/ activities of each unit to capture the potential operational risks by conducted interview method (*one-on-one meeting*).
 - 2. Risk Assessment**
Performed by individual risk owner unit through the operational risk self assessment method, including assessment of the impact, frequency and causes of risk and their solutions.
 - 3. Risk Measurement**
Current operational risk measurement uses the Basic Indicator Approach method.
 - 4. Risk Monitoring**
Performed by all units as the first line of defense at the time of operational activity on the main risks in ongoing activities.
- Enterprise Risk Management Division evaluates and report/*feedback* on risk assessment based on self assessment result and realization of loss of operational risk that happened, consisting of:
- *Feedback report* for all divisions/units/ regions/branches.
 - Operational Risk Expenses monthly reports to the Board of Directors and all units.
 - Operational Risk Profile report.

- 5. Risk Control**
Operational risk mitigation mechanism are reflected in the internal control process by implementing 4 (four) mitigation strategies, ie. avoid, mitigate, transfer, and accept. The four mitigation strategies are carried out in operational risk mitigation procedures that include control procedures, transaction settlement procedures, accounting procedures, asset storage and custodians procedures, product supply procedures and fraud prevention procedures.

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

52. RISIKO OPERASIONAL (lanjutan)

Salah satu perangkat yang digunakan untuk melakukan pengelolaan risiko operasional di BNI adalah *New PERISKOP* (Perangkat Risiko Operasional). *New PERISKOP* terdiri dari tiga (3) modul utama, yaitu:

- Modul *Risk Control Self Assessment (RCSA)*, merupakan salah satu metode yang digunakan untuk mendeteksi kemungkinan terjadinya risiko operasional di suatu unit. Metode ini terdiri dari serangkaian kegiatan penilaian yang dilakukan sendiri (*self assessment*) oleh setiap unit pemilik risiko (*risk owner*) secara independen dalam mengidentifikasi, menilai, mengontrol dan memantau risiko operasional yang terjadi di unitnya. Modul *RCSA* wajib diisi oleh segenap unit setiap 6 (enam) bulan sekali, dengan melakukan pengukuran terhadap frekuensi dan dampak setiap *risk issue* di unitnya serta mencari penyebab risiko tersebut timbul serta menentukan solusinya.

- *Loss Event Database*, merupakan sarana yang digunakan untuk mengidentifikasi dan mencatat setiap peristiwa risiko operasional yang menimbulkan dampak finansial yang meliputi *actual loss* dan *near miss* secara langsung. Setiap kali unit pemilik risiko (*risk owner*) mengalami kerugian risiko operasional, maka unit tersebut harus melakukan input dalam modul *Loss Event Database* tersebut. Dari modul ini akan diketahui tipe risiko yang terjadi, penyebab kejadian tersebut, lokasi (lini bisnis) tempat terjadinya risiko serta besarnya (*amount*) risiko yang terjadi atau liabilitas hukum yang terjadi serta pengembalian kerugian (*recovery*). Sarana ini sangat penting untuk memonitor profil dan eksposur risiko operasional secara teratur. Data yang diperoleh dari *Loss Event Database (LED)* merupakan input data utama dalam penerapan metode pendekatan standar (*Standardized Approach*) untuk mengukur risiko kecukupan modal operasional yang akan diterapkan mulai 1 Januari 2023 berdasarkan SEOJK Nomor 6/SEOJK.03/ 2020 tentang Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Operasional dengan Menggunakan Pendekatan Standar Bagi Bank Umum.

- *Key Risk Indicator*, merupakan serangkaian parameter yang ditetapkan untuk mengidentifikasi potensi kerugian risiko operasional yang utama/ dominan, yang berpotensi mengganggu pencapaian *Key Performance Indicator (KPI)* unit kerja, sebelum peristiwa risiko operasional tersebut terjadi. Perangkat tersebut akan memberikan *warning/alert* jika nilainya sudah di luar *range/threshold* yang ditetapkan sebelumnya (*early warning signal*) yang menuntut adanya tindak lanjut manajemen unit untuk mengatasi permasalahan tersebut.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

52. OPERATIONAL RISK (continued)

One of the tools used to perform risk management at BNI is New PERISKOP (Perangkat Risiko Operasional). New PERISKOP consists of three (3) main modules:

- *Risk Control Self Assessment (RCSA) Module, is a methodology to detect the possibility that an operational risk has occurred. This method is a self-assessment process conducted by every risk owner independently in identifying, assessing, controlling and monitoring operational risk in each unit. RCSA Module should be filed by all units, once every six-month; by conducting an assessment of the existing risk issue frequency and impacts and finding solutions to mitigate emerging operational risks and define the solutions.*

- *The Loss Event Database is a system to identify and record every operational risk that causes direct financial impact which includes actual loss and near miss directly. Each time the risk owner unit experience financial loss from operational risk, the unit should record it in the Lost Event Database module. The module will generate information such as type of risk, cause of risk, location (line of businesses) where the risk emerge and the amount of risk or legal obligation and the recovery (if any). This system is very important to monitor operational risk exposure and profile in an orderly manner. The data gathered from the Loss Event Database (LED) will become the main input when the Bank applies standardize approaches to measure its minimum operational risk capital adequacy ratio, that will be implemented at 1 January 2023 based on SEOJK Number 6/SEOJK.03/ 2020 related to the Calculation of Risk Weighted Assets for Operational Risk using the Standard Approach for Commercial Banks.*

- *Key Risk Indicators, is a series of parameters established to identify main potential loss from operational risk, that potentially disrupts the achievement of Key Performance Indicators (KPI) before it happens. The module will give a warning/alert when the exposure exceeds a predetermined range/threshold (early warning signal) that has been set and requires follow up from unit's management to overcome the problems.*

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

52. RISIKO OPERASIONAL (lanjutan)

Selain *New PERISKOP*, BNI saat ini telah memiliki rekening Beban Risiko Operasional (BRO) serta *Recovery BRO*, yang digunakan untuk membukukan kerugian atau *recovery* yang disebabkan oleh risiko operasional. Guna memitigasi risiko operasional, setiap bulan dilakukan *monitoring* terhadap rekening BRO dan *Recovery BRO*.

Terkait dengan kelangsungan usaha bila terjadi kondisi *disaster* (bencana), BNI juga sudah mempunyai kebijakan *Business Continuity Management (BCM)*, yaitu suatu mekanisme formal yang merupakan kombinasi antara strategi, kebijakan, prosedur, dan organisasi yang dikembangkan untuk memastikan kelangsungan operasional dari fungsi-fungsi usaha yang kritis pada tingkat layanan tertentu pada saat terjadi gangguan atau bencana. Kebijakan ini mencakup semua unit usaha yang ada di BNI, baik di dalam negeri maupun di luar negeri.

BNI memiliki infrastruktur yang dibutuhkan dalam implementasi BCM seperti *Disaster Recovery Center (DRC)*, *Data Center (DC)*, Lokasi Alternatif Gedung BCM dan *Command Center*. Secara rutin BNI melakukan pengujian sistem dan aplikasi pada divisi/unit kritis setiap 6 (enam) bulan sekali, melakukan *site visit* dan simulasi pada cabang dan wilayah guna memastikan kesiapan menghadapi bencana.

**53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN**

Tabel di bawah ini menyajikan perbandingan antara nilai tercatat dan nilai wajar dari semua aset dan liabilitas keuangan disajikan per kategori dari instrumen keuangan. Nilai wajar yang diungkapkan adalah berdasarkan informasi relevan yang tersedia pada tanggal-tanggal 31 Desember 2022 dan 2021, dan tidak diperbaharui untuk mencerminkan perubahan dalam kondisi pasar yang telah terjadi setelah tanggal ini.

	2022		2021

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

52. OPERATIONAL RISK (continued)

In addition to New PERISKOP, BNI has Operational Risk Expense (Beban Risiko Operasional (BRO)) and BRO Recovery accounts, which will be used to record losses or recoveries caused by operational risks. To mitigate the operational risk, BRO account and recovery will be monitored monthly.

Regarding the business resilience when disaster occurs, BNI has Business Continuity Management (BCM) policies, which is a formal mechanism which combined strategies, policies, procedures and organizations developed to ensure operational continuity of critical functions under certain levels of services when a disturbance or disaster is encountered. This policy is applied for all business units in BNI for both domestic and overseas.

BNI has the infrastructure needed to implement BCM such as Disaster Recovery Center (DRC), Data Center (DC), BCM Alternative Building and Command Center. Regularly BNI performs a system and application testing on critical Division/Unit every 6 (six) months, do a site visit and simulation to the branch and region to ensure the disaster readiness.

**53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES**

**53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)**

Bank menggunakan hirarki berikut untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan:

(i) Tingkat 1: Harga dikutip (tidak disesuaikan) dari pasar yang aktif untuk aset atau liabilitas keuangan yang identik;

(ii) Tingkat 2: Input selain harga yang dikutip dari pasar yang disertakan pada Tingkat 1 yang dapat diobservasi untuk aset dan liabilitas keuangan, baik secara langsung (yaitu sebagai sebuah harga) atau secara tidak langsung (yaitu sebagai turunan dari harga);

(iii) Tingkat 3: Input untuk aset atau liabilitas keuangan yang tidak didasarkan pada data pasar yang dapat diobservasi (informasi yang tidak dapat diobservasi).

Tabel di bawah ini menunjukkan instrumen keuangan yang diukur pada nilai wajar yang dikelompokkan berdasarkan hirarki nilai wajar:

2022					
Nilai wajar/ <i>Fair value</i>					
	Nilai tercatat/ <i>Carrying value</i>	Tingkat/ <i>Level 1</i>	Tingkat/ <i>Level 2</i>	Tingkat/ <i>Level 3</i>	
Aset keuangan					<i>Financial assets</i>
Nilai wajar melalui laba rugi					<i>Fair value through profit or loss</i>
Efek-efek	7,175,874	-	7,175,874	-	<i>Marketable securities</i>
Obligasi Pemerintah	1,775,053	1,775,053	-	-	<i>Government Bonds</i>
Tagihan derivatif	685,237	-	685,237	-	<i>Derivative receivables</i>
	9,636,164	1,775,053	7,861,111	-	
Nilai wajar melalui penghasilan komprehensif lain					<i>Fair value through other comprehensive income</i>
Obligasi Pemerintah	82,328,187	62,431,066	19,897,121	-	<i>Government Bonds</i>
Efek-efek	20,904,372	13,825,621	6,978,751	-	<i>Marketable securities</i>
Penyertaan saham	608,797	-	-	608,797	<i>Equity investments</i>
	103,841,356	76,256,687	26,875,872	608,797	
	113,477,520	78,031,740	34,736,983	608,797	

The Bank adopts the following hierarchy for determining and disclosing the fair value of financial instruments:

(i) Level 1: Quoted prices in active market for the same/identical financial asset or liability;

(ii) Level 2: Inputs other than quoted market prices included in Level 1 that are observable for the financial asset or liability, either directly (as a price) or indirectly (as derived from price);

(iii) Level 3: Inputs for the financial assets or liability that are not based on observable market data (unobservable information).

The table below shows the financial instruments measured at fair value grouped according to the fair value hierarchy:

PT Fintek Karya Nusantara		Diskon Marketabilitas/Discount for lack of Marketability (DLOM)	18.00	20.00	PT Fintek Karya Nusantara

Tidak terdapat perpindahan antara tingkat 1 dan tingkat 2 hirarki nilai wajar.

Nilai wajar instrumen keuangan yang diperdagangkan dalam pasar aktif (contohnya surat berharga yang diukur dan tersedia untuk dijual), ditentukan dengan berdasarkan harga pasar yang dikutip pada tanggal pelaporan. Suatu pasar dianggap aktif apabila informasi mengenai harga kuotasi dapat diakses dengan mudah dan tersedia secara berkala dari suatu bursa, pedagang efek, broker, kelompok penilai harga pasar industri tertentu, regulator dan harga tersebut mencerminkan transaksi pasar yang aktual dan regular pada tingkat yang wajar. Harga pasar dikutip untuk aset keuangan yang dimiliki Grup adalah harga penawaran (*bid price*). Instrumen-instrumen tersebut digolongkan dalam Tingkat 1. Instrumen yang termasuk dalam Tingkat 1 umumnya meliputi investasi yang diklasifikasikan sebagai surat berharga yang diukur pada nilai wajar melalui laba rugi dan yang diukur pada nilai wajar melalui penghasilan komprehensif lain.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)

Valuation technique and significant input for fair value of level 3 for investments as of 31 December 2022 are as follows:

There is no transfer between level 1 and level 2 of the fair value hierarchy.

The fair value of financial instruments traded in an active market (i.e. measured and available-for-sale securities), is based on quoted market price at reporting date. A market is regarded as active if quoted prices are readily and regularly available from exchange, dealer or broker, industry group pricing service or regulatory agency, and those prices represent actual and regularly occurring market transaction on an arm's length basis. The quoted market price used for financial asset held by group is bid price. These instruments are included in Level 1. Instruments included in Level 1 comprise primarily of securities classified as fair value through profit or loss and fair value through other comprehensive income.

DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)**

Nilai wajar instrumen keuangan yang tidak diperdagangkan di pasar aktif (contohnya derivatif *over-the-counter*) ditentukan dengan teknik penilaian. Teknik-teknik penilaian tersebut menggunakan data pasar yang dapat diobservasi dan sedapat mungkin meminimalisir penggunaan estimasi spesifik dari entitas. Apabila seluruh input yang dibutuhkan untuk menentukan nilai wajar instrumen keuangan dapat diobservasi, maka instrumen keuangan tersebut dikategorikan dalam Tingkat 2. Sebaliknya, jika salah satu atau lebih data tidak didasarkan pada data pasar yang dapat diobservasi, instrumen ini termasuk dalam Tingkat 3.

Teknik penilaian spesifik yang digunakan untuk melakukan penilaian pada instrumen keuangan, antara lain:

- Harga yang dikutip dari pasar atau pedagang efek instrumen serupa
 - Nilai wajar dari *swap* tingkat suku bunga yang diperhitungkan sebagai nilai kini dari estimasi arus kas masa datang berdasarkan kurva imbal hasil yang dapat diobservasi
 - Nilai wajar dari kontrak berjangka valuta asing yang ditentukan berdasarkan kurs berjangka pada tanggal pelaporan keuangan, dan
 - Teknik-teknik lainnya, seperti analisis arus kas diskontoan yang digunakan untuk menentukan nilai wajar instrumen keuangan lainnya
- (i) Giro pada Bank Indonesia, giro pada bank lain, penempatan pada bank lain dan Bank Indonesia, efek-efek, wesel ekspor dan tagihan lainnya, efek-efek yang dibeli dengan janji dijual kembali, penyertaan saham, tagihan akseptasi dan aset lain-lain:

Penempatan pada bank lain dan Bank Indonesia merupakan penanaman dana dalam bentuk Bank Indonesia *Deposit Facility*, *Term Deposit*, *Deposit Facility Syariah*, *call money*, penempatan “*fixed-term*”, deposito berjangka dan lain-lain.

Estimasi nilai wajar penyertaan saham ditetapkan berdasarkan harga pasar atau harga kuotasi perantara (*broker*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasian yang serupa atau dinilai dengan menggunakan metode penilaian.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)**

The fair value of financial instruments that are not traded in an active market (i.e over-the-counter derivatives) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity's specific estimates. If all significant inputs required for the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, if one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

Specific valuation techniques used to value financial instruments include:

- *Quoted market prices or dealer quotes for similar instruments*
 - *Fair value of interest rate swap is calculated as the present value of estimated future cashflow based on observable yield curves*
 - *Fair value of foreign exchange contracts is determined using forward exchange rates at reporting date, and*
 - *Other techniques, such as discounted cash flow analysis, are used to determine fair value for other financial instruments*
- (i) *Current accounts with Bank Indonesia, current accounts with other banks, placements with other banks and Bank Indonesia, marketable securities, bills and other receivables, securities purchases under agreements to resell and other assets, equity investments, acceptance receivables and other assets:*

Placements with other banks and Bank Indonesia represent placements in the form of Bank Indonesia Deposit Facility, Term Deposit, Sharia Deposit Facility, call money, “fixed-term” placements, time deposits and others.

The fair value for equity investment are based on the market prices or broker/dealer price quotations. When this information is not available, the fair value is estimated using quoted market prices for securities with similar characteristics or using valuation model.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)**

- (i) Giro pada Bank Indonesia, giro pada bank lain, penempatan pada bank lain dan Bank Indonesia, efek-efek, wesel ekspor dan tagihan lainnya, efek-efek yang dibeli dengan janji dijual kembali, penyertaan saham, tagihan akseptasi dan aset lain-lain: (lanjutan)

Nilai tercatat dari kas dan setara kas, serta penempatan dengan suku bunga mengambang adalah perkiraan yang layak atas nilai wajar.

Estimasi nilai wajar terhadap penempatan dengan suku bunga tetap, efek-efek, wesel ekspor dan tagihan lainnya, tagihan akseptasi dan aset lain-lain ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga pasar uang yang berlaku untuk utang dengan risiko kredit dan sisa jatuh tempo yang serupa. Karena sisa jatuh tempo di bawah satu tahun sehingga nilai tercatat dari penempatan dengan suku bunga tetap, wesel ekspor dan tagihan lainnya, efek-efek yang dibeli dengan janji untuk dijual kembali, tagihan akseptasi dan aset lain-lain adalah perkiraan yang layak atas nilai wajar.

- (ii) Pinjaman yang diberikan

Portofolio kredit Bank secara umum terdiri dari pinjaman yang diberikan dengan suku bunga mengambang dan pinjaman yang diberikan jangka pendek dengan suku bunga tetap. Pinjaman yang diberikan dinyatakan berdasarkan *amortized cost*. Nilai wajar dari pinjaman yang diberikan menunjukkan nilai diskon dari perkiraan arus kas masa depan yang diharapkan akan diterima oleh Bank dengan menggunakan suku bunga pasar saat ini.

Nilai tercatat dari pinjaman yang diberikan dengan suku bunga mengambang dan nilai tercatat atas pinjaman jangka pendek dengan suku bunga tetap adalah perkiraan yang layak atas nilai wajar.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)**

- (i) *Current accounts with Bank Indonesia, current accounts with other banks, placements with other banks and Bank Indonesia, marketable securities, bills and other receivables, securities purchases under agreements to resell and other assets, equity investments, acceptance receivables and other assets: (continued)*

The carrying amount of cash and cash equivalents, as well as placements with floating rates are a reasonable approximation of fair value.

The estimated fair values of fixed interest bearing placements, marketable securities, bills and other receivables, acceptance receivables and other assets were based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity. Since the maturity is less than one year, the carrying amounts of fixed rate placements, bills and other receivables, securities purchased under agreements to resell, acceptance receivables and other assets were a reasonable approximation of their fair value.

- (ii) Loans

Generally, the Bank's portfolio consists of loans with floating interest rate and short-term loans with fixed interest rate. Loans are stated at amortized cost. The estimated fair value of loans represents the discounted amount of estimated future cash flows expected to be received by the Bank using the current market rates.

The carrying amount of floating rate loans and short-term fixed rate loans are the reasonable approximation of their fair values.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2022 DAN 2021**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)**

- (iii) Liabilitas segera, simpanan nasabah dan simpanan dari bank lain, liabilitas akseptasi dan liabilitas lain-lain

Estimasi nilai wajar liabilitas segera, simpanan tanpa jatuh tempo, termasuk simpanan tanpa bunga adalah sebesar jumlah yang harus dibayarkan kembali sewaktu-waktu.

Estimasi nilai wajar terhadap simpanan dengan tingkat suku bunga tetap dan liabilitas akseptasi ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga utang baru dengan sisa jatuh tempo yang serupa. Karena sisa jatuh tempo dibawah satu tahun sehingga nilai tercatat dari simpanan dengan suku bunga tetap, liabilitas akseptasi dan liabilitas lain-lain adalah perkiraan yang layak atas nilai wajar.

- (iv) Efek-efek dan Obligasi Pemerintah

Nilai wajar untuk efek-efek dan Obligasi Pemerintah yang dimiliki hingga jatuh tempo ditetapkan berdasarkan harga pasar atau harga kuotasi perantara (*broker*)/pedagang efek (*dealer*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasi efek yang memiliki karakteristik kredit, jatuh tempo dan *yield* yang serupa atau dinilai dengan menggunakan metode penilaian.

- (v) Efek-efek yang diterbitkan, pinjaman yang diterima, dan efek-efek yang dijual dengan janji dibeli kembali dan efek-efek subordinasi.

Nilai wajar agregat berdasarkan model diskonto arus kas menggunakan kurva *yield* terkini yang tepat untuk sisa periode jatuh temponya.

54. MANAJEMEN MODAL

Tujuan manajemen permodalan Bank adalah untuk mempertahankan posisi modal yang kuat untuk mendukung pertumbuhan bisnis dan mempertahankan investor, deposan, pelanggan dan kepercayaan pasar. Dalam pengelolaan permodalan, Bank mempertimbangkan faktor-faktor seperti: pengembalian modal yang optimal pada pemegang saham, menjaga keseimbangan antara keuntungan yang lebih tinggi dengan *gearing ratio* serta keamanan yang diberikan oleh posisi modal yang sehat.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

**53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)**

- (iii) *Obligations due immediately, deposits from customers and deposits from other banks, acceptance payables and other liabilities*

The estimated fair value of obligations due immediately, deposits with no stated maturity, which include non-interest bearing deposits, are the amounts repayable on demand.

The estimated fair values of fixed interest-bearing deposits and acceptance payables are based on discounted cash flows using interest rates for new debts with similar remaining maturity. Since the maturity is below one year, the carrying amounts of fixed rate deposits, acceptance payables and other liabilities are the reasonable approximation of their fair values.

- (iv) *Marketable securities and Government Bonds*

The fair value for amortized cost marketable securities and Government Bonds are based on the market prices or broker/dealer price quotations. When this information is not available, the fair value is estimated using quoted market prices for securities with similar credit, maturity and yield characteristics or using internal valuation model.

- (v) *Securities issued, borrowings, securities sold under agreements to repurchase and subordinated securities.*

Their aggregate fair values are based on discounted cash flow model using current yield curve appropriate for the remaining term to maturity.

54. CAPITAL MANAGEMENT

The Bank's capital management objective is to maintain a strong capital position to support business growth and to sustain investor, depositor, customer and market confidence. In managing its capital, the Bank considers factors such as: providing optimal capital rate of return to shareholders, maintaining a balance between high return gearing ratio and safety provided by a sound capital position.

54. MANAJEMEN MODAL (lanjutan)

Pada tanggal 31 Desember 2022 dan 2021, Bank telah memenuhi semua persyaratan modal yang diwajibkan.

Rasio Liabilitas Penyediaan Modal Minimum

Rasio Liabilitas Penyediaan Modal Minimum (*Capital Adequacy Ratio* (CAR)) adalah rasio modal terhadap aset tertimbang menurut risiko (*Risk - Weighted Assets* (RWA)). Berdasarkan peraturan Bank Indonesia, jumlah modal untuk risiko kredit terdiri dari Modal Inti ("Tier I") dan Modal Pelengkap ("Tier II") dikurangi penyertaan pada Entitas Anak. Sesuai dengan Peraturan OJK No. 11/POJK.03/2016 dan Peraturan OJK No. 34/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum dan Surat Edaran OJK No.9/SEOJK.03/2020 tentang Transparansi dan Publikasi Laporan Bank Umum Konvensional, sejak akhir bulan September 2016, Cadangan Tujuan tidak dapat lagi diperhitungkan sebagai komponen Modal Bank.

Rasio Kecukupan Modal (hanya BNI) pada tanggal-tanggal 31 Desember 2022 dan 2021 adalah sebagai berikut:

	2022	2021	
BNI - tanpa memperhitungkan risiko pasar			BNI - without considering market risk
Aset Tertimbang Menurut Risiko	586,141,753	547,219,967	<i>Risk Weighted Assets</i>
Total Modal	131,335,883	125,616,033	<i>Total Capital</i>
Rasio Liabilitas Penyediaan Modal Minimum BNI	22.41%	22.96%	<i>Capital Adequacy Ratio</i>
Rasio Liabilitas Penyediaan Modal Minimum yang diwajibkan oleh Bank Indonesia	9.80%	9.80%	<i>Minimum Capital Adequacy Ratio required by Bank Indonesia</i>
BNI - dengan memperhitungkan risiko pasar dan kredit			BNI - considering market and credit risks
Aset Tertimbang Menurut Risiko	588,386,028	548,942,339	<i>Risk Weighted Assets</i>
Total Modal	131,335,883	125,616,033	<i>Total Capital</i>
Rasio Liabilitas Penyediaan Modal Minimum BNI	22.32%	22.88%	<i>Capital Adequacy Ratio</i>

55. AKTIVITAS JASA LAINNYA

BNI menyediakan jasa kustodi, *trustee*, pengelolaan investasi dan reksadana kepada pihak-pihak ketiga. Aset yang terdapat dalam aktivitas jasa lainnya tidak termasuk dalam laporan keuangan konsolidasian ini. Jumlah komisi yang diterima dari pemberian jasa ini adalah masing-masing sebesar Rp97.707 dan Rp83.921 untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2022 dan 2021.

Kegiatan Jasa Kustodian

Jasa Kustodian BNI mendapat izin operasi oleh Bapepam dan LK berdasarkan Surat Keputusan No. KEP-162/PM/1991 tertanggal 9 Desember 1991. Kustodian BNI merupakan bagian dari Divisi Operasional, dimana jasa-jasa yang ditawarkan adalah sebagai berikut:

- Penyimpanan (*safekeeping*) dan administrasi (*administration*) atas efek-efek maupun dokumen berharga lainnya;
- Penyelesaian transaksi (*settlement*) jual dan beli efek berbentuk warkat (*script*) maupun tanpa warkat (*scriptless*);
- Pengurusan hak-hak nasabah atas kepemilikan efek-efek yang disimpan sehingga hak tersebut efektif di rekening nasabah (*corporate action*);
- Perwakilan (*proxy*) pada Rapat Umum Pemegang Saham dan Rapat Umum Pemegang Obligasi;
- Penyampaian laporan (*reporting*) dan informasi (*information*) yang terkait dengan efek-efek dan/atau dokumen berharga milik nasabah yang disimpan dan diadministrasikan oleh Kustodian BNI.

Untuk memenuhi kebutuhan investor dalam melakukan investasi pada berbagai instrumen efek-efek, Kustodian BNI memfasilitasinya dengan menyediakan beragam layanan:

- Kustodian umum untuk melayani investor yang melakukan investasi pada instrumen pasar modal dan pasar uang di Indonesia;
- Sub-Registry* untuk melayani investor yang melakukan transaksi dan investasi pada Surat Utang Negara (SUN - Obligasi Pemerintah atau Surat Perbendaharaan Negara) serta Sertifikat Bank Indonesia (SBI);
- Kustodian reksadana (*mutual fund*) dan kontrak pengelolaan dana (*discretionary fund*) yang diterbitkan dan dikelola oleh manajer investasi;
- Kustodian *Euroclear* bagi nasabah yang akan melakukan investasi dan penyelesaian transaksi efek-efek yang tercatat di *Euroclear Operations Centre*, Brussels. Kustodian BNI merupakan anggota langsung dari *Euroclear*.

55. OTHER ACTIVITIES

BNI provides custodian, trustee, investment management and mutual fund services to third parties. Assets that are held in other activities are not included in these consolidated financial statements. Total fees received from these services amounted to Rp97,707 and Rp83,921 for the year ended 31 December 2022 and 2021, respectively.

Custodian Services

BNI Custodian Services has obtained an operating license based on the Decision Letter of Bapepam and LK No. KEP-162/PM/1991 dated 9 December 1991. BNI's Custodian Department, which is part of the Operational Division, provides a full range of custodian services such as:

- Safekeeping and administration of marketable securities and other valuable assets;*
- Settlement and handling services for script and scriptless trading transactions;*
- Corporate action services related to the rights of the marketable securities;*
- Proxy services for its customers' shareholder meetings and bond holder meetings;*
- Generate reports and information regarding customers' marketable securities which are kept and administered by BNI's custodian department.*

In order to fulfill the investors' needs in investing in various marketable securities and instruments, BNI's Custodian Operations facilitates various services as follows:

- General custodian which provides services to investors investing in capital markets or money markets in Indonesia;*
- Sub-Registry service provider for settlement of Government Debenture Debt (SUN - either Government Bonds or Surat Perbendaharaan Negara) and SBI transactions;*
- Custodian for mutual funds and discretionary funds issued and managed by investment manager;*
- Euroclear Custodian for customer who is conducting investment and settlement of securities transactions listed in Euroclear Operations Center, Brussels. BNI Custodian is a direct member of Euroclear.*

55. AKTIVITAS JASA LAINNYA (lanjutan)

Kegiatan Jasa Kustodian (lanjutan)

BNI mengasuransikan portofolio nasabah yang disimpan di Kustodian terhadap kemungkinan kerugian yang timbul dari penyimpanan dan pemindahan efek-efek sesuai dengan ketentuan OJK, dahulu Bapepam dan LK.

Kegiatan Wali Amanat

BNI mendapat izin operasi untuk kegiatan wali amanat berdasarkan Surat Keputusan Badan Pengawas Pasar Modal dan Lembaga keuangan No. 01/STTD-WA/PM/1996 tertanggal 27 Maret 1996. Jasa-jasa yang ditawarkan oleh wali amanat adalah sebagai berikut:

- Jasa Wali Amanat untuk obligasi dan *medium-term notes* (MTN)
- Jasa Agen Pengelola Rekening Penampungan
- Jasa Agen Pembayaran
- Jasa Penampungan Dana IPO
- Jasa Agen Penjaminan

BNI selaku Wali Amanat, telah mengelola 49 emisi dengan nilai emisi (obligasi dan MTN) sebesar Rp31.782.994 pada tanggal 31 Desember 2022 dan 64 emisi dengan nilai emisi (obligasi dan MTN) sebesar Rp35.329.019 pada tanggal 31 Desember 2021 (tidak diaudit).

56. KREDIT KELOLAAN

BNI mengelola dana yang langsung dikeluarkan oleh Pemerintah Republik Indonesia (didanai oleh kreditur luar negeri) yang ditujukan kepada penerima pinjaman untuk keperluan pembiayaan proyek tertentu. Penerima pinjaman ini telah disetujui oleh Pemerintah Republik Indonesia. Pembayaran yang diterima oleh BNI dari penerima pinjaman dikembalikan lagi ke Pemerintah. BNI tidak menanggung risiko kredit atas transaksi-transaksi tersebut. Pinjaman tersebut bukan merupakan aset BNI dan dana yang diterima dari Pemerintah Republik Indonesia bukan merupakan liabilitas BNI. Pinjaman tersebut tidak dibukukan dalam laporan keuangan konsolidasian BNI. BNI memperoleh pendapatan atas pengelolaan pinjaman tersebut sebesar 0,25% dari rata-rata saldo baki debet pinjaman dalam mata uang Rupiah dan 0,15% dari rata-rata saldo baki debet pinjaman dalam mata uang Dolar Amerika Serikat.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2022 AND 2021**

(Expressed in millions of Rupiah, unless otherwise stated)

55. OTHER ACTIVITIES (continued)

Custodian Services (continued)

BNI carries insurance on custodian services against potential losses from safekeeping and transit of securities in accordance with OJK, previously Bapepam and LK regulation.

Trust Operations

BNI has obtained the operating license for trustee services based on Decision Letter of Capital Market and Financial Institutions Supervisory Agency No. 01/STTD-WA/PM/1996 dated 27 March 1996. The Trustee Services Business (TSB) provides a full range of the following services:

- Trustee for bond and medium-term notes (MTN)*
- Escrow Account Agent*
- Paying Agent*
- Initial Public Offering / IPO Receiving Bank*
- Security Agent*

BNI as a Trustee, has 49 bonds and MTN issued amounting to Rp31,782,994 as of 31 December 2022 and 64 trusteeship arrangements with the total value of bonds and MTN issued amounting to Rp35,329,019 as of 31 December 2021 (unaudited).

56. CHANNELING LOANS

BNI administers loans directly disbursed by the Government of the Republic of Indonesia (financed by overseas creditors) to the borrowers of certain specified projects. These borrowers are approved by the Government of the Republic of Indonesia. Payments received by BNI from borrowers are remitted back to the Government. BNI bears no credit risk on these transactions. These loans are not the assets of BNI and funds received from the Government of Republic of Indonesia are not the liabilities of BNI. These loans are not recognized in BNI's consolidated financial statements. BNI receives fees for administering the loans of 0.25% from the average of loans outstanding balance in Rupiah and 0.15% of the average of loan outstanding balance in United States Dollar.

**58. STANDAR AKUNTANSI KEUANGAN BARU
YANG TELAH DISAHKAN NAMUN BELUM
BERLAKU EFEKTIF**

Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia ("DSAK-IAI") telah menerbitkan standar baru, amandemen dan interpretasi berikut, namun belum berlaku efektif untuk tahun buku yang dimulai pada 1 Januari 2022 adalah sebagai berikut:

- Amendemen PSAK 1: "Penyajian Laporan Keuangan" tentang pengungkapan kebijakan akuntansi yang mengubah istilah "signifikan" menjadi "material" dan memberi penjelasan mengenai kebijakan akuntansi material";
- Amendemen PSAK 1: "Penyajian Laporan Keuangan" tentang klasifikasi liabilitas;
- Amendemen PSAK 25: "Kebijakan Akuntansi, Perubahan Estimasi Akuntansi, dan Kesalahan" tentang definisi "estimasi akuntansi" dan penjelasannya;
- Amendemen PSAK 16: "Aset Tetap" tentang hasil sebelum penggunaan yang diintensikan;
- Amendemen PSAK 46: "Pajak Penghasilan" tentang Pajak Tangguhan terkait Aset dan Liabilitas yang timbul dari Transaksi Tunggal yang diadopsi dari Amendemen IAS 12 Income Taxes tentang Deferred Tax related to Assets and Liabilities arising from a Single Transaction; dan
- Amendemen PSAK 107: "Akuntansi Ijarah".

Standar tersebut akan berlaku efektif pada 1 Januari 2023 dan penerapan dini diperbolehkan.

- Amendemen PSAK 1: "Penyajian Laporan Keuangan" terkait liabilitas jangka panjang dengan kovenan; dan
- Amendemen PSAK 73: "Sewa" terkait liabilitas sewa pada transaksi jual dan sewa-balik.

Standar tersebut akan berlaku efektif pada 1 Januari 2024 dan penerapan dini diperbolehkan.

- PSAK 74: "Kontrak Asuransi"; dan
- Amendemen PSAK 74: "Kontrak Asuransi" terkait Penerapan Awal PSAK 74 dan PSAK 71 - Informasi Komparatif.

Standar tersebut akan berlaku efektif pada 1 Januari 2025.

Pada saat penerbitan laporan keuangan konsolidasian, Grup masih mempelajari dampak yang mungkin timbul dari penerapan standar baru dan revisi tersebut serta pengaruhnya pada laporan keuangan konsolidasian Grup.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

**58. NEW FINANCIAL ACCOUNTING STANDARDS
ISSUED BUT NOT YET EFFECTIVE**

Financial Accounting Standard Board of Indonesian Institute of Accountants ("DSAK-IAI") has issued the following new standards, amendments and interpretations, but not yet effective for the financial year beginning 1 January 2022 are as follows:

- Amendment of SFAS 1: "Presentation of Financial Statements" regarding disclosure of accounting policies that change the term "significant" to "material" and provide explanations of material accounting policies";
- Amendment of SFAS 1: "Presentation of Financial Statements" regarding classification of liabilities;
- Amendment of SFAS 25: "Accounting Policies, Changes in Accounting Estimates, and Errors" regarding the definition of "accounting estimates" and their explanations;
- Amendment of SFAS 16: "Fixed Assets" regarding proceeds before intended use;
- Amendment of SFAS 46: "Income Tax" on Deferred Tax related to Assets and Liabilities arising from a Single Transaction which adopted from Amended IAS 12 Income Taxes on Deferred Tax related to Assets and Liabilities arising from a Single Transaction; and
- Amendment of SFAS 107: "Ijarah Accounting".

The above standards will be effective on 1 January 2023 and early adoption is permitted.

- Amendment of SFAS 1: "Presentation of Financial Statements" insurance contract regarding long-term liabilities with the covenant; and
- Amendment of SFAS 73: "Leases" regarding lease liabilities in sale-and-lease back transactions.

The above standards will be effective on 1 January 2024 and early adoption is permitted.

- SFAS 74: "Insurance Contract"; and
- Amendment of SFAS 74: "Insurance Contract" regarding Initial Application of SFAS 74 and SFAS 71 - Comparative Information.

The above standards will be effective on 1 January 2025.

As at the authorisation date of these consolidated financial statements, the Group is still evaluating the potential impact of these new and revised standards to the Group's consolidated financial statements.

DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

59. ANALISIS KUALITAS KREDIT

Pengukuran Kerugian Kredit Ekspektasian

Peningkatan Risiko Kredit Secara Signifikan

Ketika menentukan apakah risiko gagal bayar pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Bank mempertimbangkan informasi yang wajar dan terdukung, serta relevan yang tersedia tanpa biaya atau upaya yang berlebihan. Hal tersebut mencakup informasi dan analisa kuantitatif dan kualitatif, berdasarkan pada pengalaman historis dan penilaian pakar kredit dan termasuk perkiraan masa depan (*forward-looking*).

Tujuan dari penilaian ini adalah untuk mengidentifikasi apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi dengan membandingkan:

- *Probability of default* (PD) atas umur tersisa pada tanggal pelaporan; dengan
- *Probability of default* (PD) atas umur tersisa yang di estimasi pada saat pengakuan awal eksposur (jika relevan, disesuaikan dengan perubahan ekspektasi pembayaran di muka).

Bank menggunakan kriteria berikut dalam menentukan apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi:

- pengujian kuantitatif berdasarkan perubahan *probability of default* (PD)
- indikator kualitatif
- tertunggak lebih dari 30 hari

Credit Risk Grades

Bank mengalokasikan setiap eksposur ke *credit risk grades* berdasarkan variasi data yang ditentukan dapat memprediksi risiko gagal bayar dan menerapkan pengalaman atas kredit. *Credit risk grades* ditetapkan menggunakan faktor kualitatif dan kuantitatif yang dapat mengindikasikan risiko gagal bayar. Faktor-faktor ini bervariasi tergantung pada sifat eksposur dan jenis peminjam.

Credit risk grades ditetapkan dan dikalibrasi sedemikian rupa sehingga risiko terjadinya gagal bayar meningkat secara eksponensial seiring dengan penurunan rating risiko kredit, sebagai contoh, selisih antara *credit risk rating grades* 1 dan 2 lebih kecil dari pada selisih antara *credit risk rating grades* 2 dan 3.

Setiap eksposur dialokasikan ke *credit risk grades* pada pengakuan awal berdasarkan informasi yang tersedia tentang peminjam. Eksposur ini dipantau secara berkelanjutan, dan dapat mengakibatkan eksposur dipindahkan ke *credit risk grades* yang berbeda. Pemantauan biasanya menggunakan data berikut: laporan keuangan, penggunaan fasilitas kredit, dan estimasi kondisi ekonomi.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

59. CREDIT QUALITY ANALYSIS

Measurement of Expected Credit Losses

Significant Increase in Credit Risk

When determining whether the risk of default on financial instruments has increased significantly since initial recognition, the Bank considers reasonable and supported relevant information that is available without excessive costs or efforts. This includes quantitative and qualitative information and analysis, based on historical experience and credit expert assessments and including forward-looking estimates.

The purpose of this assessment is to identify whether a significant increase in credit risk of exposure has occurred by comparing:

- *Probability of default* (PD) for the remaining age at the reporting date; with
- *Probability of default* (PD) for the estimated remaining age at initial recognition of the exposure (if relevant, adjusted for change in expectations of prepayment).

Bank use these criteria for determining whether there has been a significant increase in credit :

- *quantitative test based on movement in PD*
- *qualitative indicators*
- *a backstop of 30 days past due*

Credit Risk Grades

The Bank allocated each exposure to credit risk grades based on a variety of data that is determined to predict the risk of default and apply credit experience judgement. Credit risk grades are determined using qualitative and quantitative factors that can indicate the risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

Credit risk grades are determined and calibrated in such a way that the risk of default is increasing exponentially as credit risk rating decreases, for example, the difference between credit risk rating grades 1 and 2 is smaller than the difference between credit risk rating grades 2 and 3.

Each exposure is allocated to credit risk grades at initial recognition based on available information about the borrower. This exposure is monitored on an ongoing basis, and can result in the exposure being transferred to different credit risk grades. Monitoring usually uses the following data: financial statements, use of credit facilities, estimates of economic conditions.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

59. ANALISIS KUALITAS KREDIT (lanjutan)

**Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)**

Penentuan Struktur *Probability of Default*

Credit risk grades adalah input utama dalam penentuan struktur *PD term structure* atas eksposur. Bank mengumpulkan informasi kinerja dan gagal bayar tentang eksposur risiko kredit yang dianalisa berdasarkan yurisdiksi atau wilayah dan menurut jenis produk dan peminjam serta penilaian risiko kredit. Untuk beberapa portofolio, informasi yang dibeli dari penilai kredit eksternal juga digunakan.

Bank menggunakan model statistik untuk menganalisa data yang dikumpulkan dan menghasilkan perkiraan *probability of default* (PD) atas umur tersisa dan bagaimana hal ini diperkirakan akan berubah sebagai akibat dari berlalunya waktu.

Analisa ini mencakup identifikasi dan kalibrasi hubungan antara perubahan tingkat gagal bayar dan perubahan dalam faktor-faktor makro ekonomi utama serta analisa mendalam tentang dampak faktor-faktor lain tertentu (misalkan restrukturisasi) pada risiko gagal bayar. Untuk sebagian besar eksposur, indikator makro ekonomi utama meliputi: pertumbuhan PDB, suku bunga acuan, dan tingkat pengangguran. Untuk eksposur pada industri dan/atau wilayah tertentu, analisa dapat mencakup harga komoditas dan/atau harga properti yang relevan.

Penentuan Terjadinya Peningkatan Risiko Kredit Secara Signifikan

Bank mempergunakan sejumlah kriteria untuk menentukan telah terjadi peningkatan risiko kredit secara signifikan.

Kriteria tersebut ditetapkan menggunakan faktor kuantitatif dan kualitatif termasuk penentuan berdasarkan status hari tunggakan yang dapat mengindikasikan telah terjadi peningkatan risiko kredit yang signifikan terhadap saat awal diberikan.

Bank dimungkinkan menggunakan penilaian dari analis kredit dan jika memungkinkan, pengalaman historis yang relevan, dalam menentukan bahwa eksposur mungkin saja telah mengalami peningkatan risiko kredit yang signifikan berdasarkan indikator kualitatif tertentu yang dianggap dapat mengindikasikan hal tersebut dimana pengaruhnya mungkin belum sepenuhnya tercermin pada saat dilakukan analisis kuantitatif secara komprehensif dan tepat waktu.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

59. CREDIT QUALITY ANALYSIS (continued)

**Measurement of Expected Credit Losses
(continued)**

Determination of the *Probability of Default* Structure

Credit risk grades are the main input in determining the *PD term structure* of the exposure. The Bank collects performance and default information about credit risk exposures, which are analyzed by jurisdiction or region and by product and borrower type as well as credit risk assessment. For some portfolios, information purchased from external credit analyst is also used.

The Bank uses a statistical model to analyze the collected data and produce an estimate of the probability of default (PD) for the remaining life and how this is expected to change as a result of the passage of time.

This analysis includes the identification and calibration of the relationship between changes in default rates and changes in key macroeconomic factors as well as an in-depth analysis of the impact of other certain factors (e.g. restructuring) on the risk of default. For most exposures, the main macroeconomic indicators include: GDP growth, benchmark interest rates, and the unemployment rate. For exposures in certain industries and/or regions, the analysis can include commodity prices and/or relevant property prices.

Determination of Significant Increase in Credit Risk

Bank uses several criteria for determining that credit risk has increased significantly.

The criteria are determined using qualitative and quantitative factors including determination based on arrear day status that can indicate significant increase in credit risk since initial recognition.

The Bank can also use the judgment of credit analysts and, if possible, relevant historical experience, in determining that the exposure may have experienced a significant increase in credit risk based on certain qualitative indicators that are considered to indicate this and their effects may not be fully reflected in quantitative analysis in a comprehensive manner on a timely manner.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2022 DAN 2021

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

59. ANALISIS KUALITAS KREDIT (lanjutan)

**Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)**

**Penentuan Terjadinya Peningkatan Risiko
Kredit Secara Signifikan (lanjutan)**

Bank menentukan bahwa peningkatan resiko kredit secara signifikan belum terjadi apabila masih kurang dari 30 hari tunggakan. Hari tunggakan ditentukan dengan menghitung jumlah hari sejak tanggal jatuh tempo awal dimana pembayaran penuh belum diterima. Tanggal jatuh tempo ditentukan tanpa mempertimbangkan masa tenggang yang mungkin tersedia bagi peminjam.

Bank memantau efektivitas kriteria yang digunakan dalam mengidentifikasi peningkatan risiko kredit yang signifikan dengan cara reviu berkala.

Modifikasi Aset Keuangan

Ketentuan kontraktual pinjaman dapat dimodifikasi untuk beberapa alasan, termasuk perubahan kondisi pasar, retensi pelanggan dan faktor-faktor lain yang tidak terkait dengan penurunan kredit saat ini. Pinjaman yang ketentuan kontraktualnya dimodifikasi dapat menyebabkan pinjaman awal dihentikan pengakuannya dan pinjaman hasil modifikasi diakui sebagai pinjaman baru pada nilai wajar.

Ketika ketentuan kontraktual pinjaman dimodifikasi dan tidak mengakibatkan penghentian pengakuan, penentuan terjadinya peningkatan risiko kredit secara signifikan dilakukan dengan cara membandingkan:

- sisa PD sepanjang umur pada tanggal pelaporan berdasarkan ketentuan yang dimodifikasi; dengan
- sisa PD sepanjang umur yang diestimasi berdasarkan data pada saat pengakuan awal dan ketentuan kontraktual awal.

Definisi Gagal Bayar (Default)

Grup menganggap aset keuangan dalam keadaan *default*/gagal bayar ketika:

- Debitur tidak mungkin membayar kewajiban kreditnya kepada secara penuh, tanpa bantuan (*recourse*) dari Grup; atau
- Debitur telah melewati jatuh tempo lebih dari 90 hari atas kewajiban kredit material apa pun kepada Grup.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

59. CREDIT QUALITY ANALYSIS (continued)

**Measurement of Expected Credit Losses
(continued)**

**Determination of Significant Increase in Credit
Risk (continued)**

The Bank determines that a significant increase in credit risk has not occurred if it is still less than 30 days in arrears. Arrear days are determined by counting the number of days from the initial due date where full payment has not been received. The due date is determined without considering the grace period that might be available to the borrower.

The Bank monitors the effectiveness of the criteria used in identifying significant increases in credit risk by periodic review.

Modification of Financial Assets

Loan contractual terms can be modified for a number of reasons, including changes in market conditions, customer retention and other factors not related to the current credit decline. Loans with modified contractual terms can cause the initial loan to be derecognized and recognized the modified loan as a new loan at fair value.

When the contractual terms of the loan are modified and do not result in termination of recognition, determining the occurrence of a significant increase in credit risk is done by comparing:

- PD remaining life at reporting date based on modified provision; with
- Residual PD throughout the estimated age based on data at initial recognition and initial contractual provisions.

Definition of Failed Payment (Default)

The Group considers financial assets as default when:

- The debtor is unlikely to pay its credit obligation in full, without assistance (*recourse*) from the Group; or
- The debtors have past due more than 90 days for any material credit obligations to the Group.

59. ANALISIS KUALITAS KREDIT (lanjutan)

**Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)**

Definisi Gagal Bayar (Default) (lanjutan)

Dalam menilai apakah debitur dalam keadaan *default*/gagal bayar, Grup mempertimbangkan indikator berikut:

- Kualitatif seperti pelanggaran persyaratan penjanjian (*covenants*);
- Kuantitatif seperti status tunggakan; dan
- Berdasarkan data yang dikembangkan secara internal dan diperoleh dari sumber eksternal.

**Input, Asumsi, dan Teknik yang digunakan
dalam mengestimasi penurunan nilai**

**Penggunaan informasi perkiraan masa depan
(forward-looking)**

Grup menggunakan informasi *forward-looking* dalam menilai apakah telah terjadinya peningkatan risiko kredit secara signifikan dan pengukuran kerugian kredit ekspektasian. Berdasarkan saran dari Komite Manajemen Risiko, pakar ekonomi dan pertimbangan berbagai informasi aktual dan perkiraan eksternal, Grup merumuskan pandangan dasar (*base case*) tentang pergerakan variabel ekonomi yang relevan di masa depan serta perkiraan skenario lain yang mungkin terjadi. Proses ini meliputi pengembangan dua atau lebih skenario ekonomi tambahan dan mempertimbangkan probabilitas relatif dari keluaran (*output*) yang mungkin. Informasi eksternal mencakup data ekonomi dan perkiraan yang diterbitkan oleh, seperti badan pemerintah dan analisis sektor swasta dan akademisi terpilih.

Pandangan dasar (*base case*) mencerminkan keluaran dengan probabilitas yang paling tinggi dan digunakan dalam perencanaan strategis dan anggaran. Skenario yang lain, mencerminkan keluaran yang lebih optimis dan keluaran yang lebih pesimis.

Pengukuran Kerugian Kredit Ekspektasian

Input utama dalam pengukuran kerugian kredit ekspektasian adalah variabel berikut :

- Probability of default (PD)
- Loss of given default (LGD)
- Exposure at default (EAD)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

59. CREDIT QUALITY ANALYSIS (continued)

**Measurement of Expected Credit Losses
(continued)**

**Definition of Failed Payment (Default)
(continued)**

In assessing whether a debtor is in default, the Group considers the following indicators:

- Qualitative such as violations of the terms of the agreement (*covenants*);
- Quantitative such as arrears status; and
- Based on data developed internally and obtained from external sources.

**Inputs, Assumptions, and Techniques used in
estimating impairment**

Use of forward-looking information

The Group uses forward-looking information in assessing whether there has been a significant increase in credit risk and measurement of expected credit losses. Based on advice from the Risk Management Committee, economists and consideration of various actual information and external forecast, the Group formulated a base case for the movement of relevant economic variables in future as well as forecasts of other possible scenarios. This process involves developing two or more additional economic scenarios and considering the relative probabilities of the possible outputs. External information includes economic data and estimation published by, such as government agencies and selected private sector analysts and academics.

The base case reflects the output with the highest probability and is used in strategic planning and budgeting. Another scenario, reflects more optimistic outputs and more pessimistic outputs.

Measurement of Expected Credit Loss

The main inputs in measuring expected credit loss are the following variables:

- Probability of default (PD)
- Loss of given default (LGD)
- Exposure at default (EAD)

59. ANALISIS KUALITAS KREDIT (lanjutan)

**Input, Asumsi, dan Teknik yang digunakan
dalam mengestimasi penurunan nilai (lanjutan)**

**Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)**

Parameter ini umumnya berasal dari model statistik yang dikembangkan secara internal dan data historis lainnya. Parameter ini disesuaikan untuk mencerminkan informasi *forward-looking*.

Estimasi PD adalah estimasi pada tanggal tertentu, yang dihitung berdasarkan model peringkat statistik, dan dinilai menggunakan rating yang disesuaikan dengan berbagai kategori dari debitur dan eksposur. Model statistik ini didasarkan pada data yang disusun secara internal yang terdiri dari faktor kuantitatif dan kualitatif.

LGD adalah besarnya kerugian jika terjadi gagal bayar. Parameter LGD diestimasi secara historis berdasarkan tingkat pemulihan atas klaim terhadap debitur yang gagal bayar. Model LGD mempertimbangkan struktur, jaminan, senioritas klaim, industri debitur, dan biaya pemulihan setiap jaminan yang merupakan bagian integral dari aset keuangan.

EAD merepresentasikan estimasi eksposur jika terjadi gagal bayar. EAD suatu aset keuangan adalah jumlah tercatat bruto. Untuk komitmen pinjaman dan jaminan keuangan, EAD mencakup jumlah yang telah ditarik, serta jumlah potensial di masa depan yang akan ditarik, yang diestimasi berdasarkan pengamatan historis dan perkiraan berwawasan ke depan (*forward-looking*).

Ketika pemodelan parameter dilakukan secara kolektif, instrumen keuangan dikelompokkan berdasarkan kesamaan karakteristik risiko yang meliputi:

- jenis instrumen;
- peringkat risiko kredit;
- jenis agunan;
- tanggal pengakuan awal;
- sisa waktu jatuh tempo;
- industri; dan
- lokasi geografis debitur.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2022 AND 2021

(Expressed in millions of Rupiah, unless otherwise stated)

59. CREDIT QUALITY ANALYSIS (continued)

**Inputs, Assumptions, and Techniques used in
estimating impairment (continued)**

**Measurement of Expected Credit Loss
(continued)**

These parameters generally come from statistical models that are developed internally and other historical data. This parameter is adjusted to reflect forward-looking information.

PD estimation is an estimate on a certain date, which is calculated based on a statistical ranking model, and is assessed using a rating that is adjusted to various categories of debtors and exposures. This statistical model is based on data compiled internally consisting of quantitative and qualitative factors.

LGD is the amount of loss if there is a default. LGD parameters are historically estimated based on the level of recovery of claims against debtors who default. The LGD model considers the structure, collateral, claim seniority, the debtor industry, and the cost of recovering any collateral that is an integral part of a financial asset.

EAD represents the estimated exposure in case of default. EAD of a financial asset is the gross carrying amount. For loan commitments and financial guarantees, EAD includes the amount that has been withdrawn, as well as potential future amounts to be withdrawn, which are estimated based on historical observations and forward-looking estimates.

When parameter modeling is done collectively, financial instruments are grouped according to the similarity of risk characteristics which include:

- *type of instrument;*
- *credit risk rating;*
- *type of collateral;*
- *date of initial recognition;*
- *remaining due date;*
- *industry; and*
- *debtor's geographical location.*

1. Ikhtisar kebijakan akuntansi yang penting

Dasar penyusunan laporan keuangan tersendiri entitas induk.

Laporan keuangan tersendiri entitas induk disusun sesuai dengan Pernyataan Standar Akuntansi Keuangan ("PSAK") 4 (revisi 2013), "Laporan Keuangan Tersendiri".

PSAK 4 (Revisi 2013) mengatur dalam hal entitas menyajikan laporan keuangan tersendiri maka laporan tersebut hanya dapat disajikan sebagai informasi tambahan dalam laporan keuangan konsolidasian. Laporan keuangan tersendiri adalah laporan yang disajikan oleh entitas induk yang mencatat investasi pada entitas anak, entitas asosiasi, dan pengendalian bersama entitas berdasarkan kepemilikan ekuitas langsung bukan berdasarkan pelaporan hasil dan aset bersih investee.

Kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan tersendiri entitas induk adalah sama dengan kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan konsolidasian sebagaimana diungkapkan pada Catatan 2 atas laporan keuangan konsolidasian, kecuali untuk penyertaan pada entitas anak yang disajikan pada biaya perolehan.

2. Penyertaan Saham

Informasi mengenai entitas anak yang dimiliki Bank diungkapkan pada Catatan 1i atas laporan keuangan konsolidasian.

1. Summary of significant accounting policies

Basis of preparation of the separate financial statements of the parent entity.

The separate financial statements of the parent entity are prepared in accordance with the statement of Financial Accounting Standards ("SFAS") 4 (revised 2013), "Separate Financial Statements".

SFAS 4 (Revised 2013) regulates that when an entity presents the separate financial statements, such financial statements should be presented as supplementary information to the consolidated financial statements. Separate financial statements are those presented by a parent entity, in which the investments of subsidiaries, associated entities and jointly controlled entities are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

Accounting policies adopted in the preparation of the parent entity separate financial statements are the same as the accounting policies adopted in the preparation of the consolidated financial statements as disclosed in Note 2 to the consolidated financial statements, except for investments in Subsidiaries which are stated at cost.

2. Equity Investment

Information pertaining to Subsidiaries of the Bank is disclosed in Note 1i to the consolidated financial statements.

Lampiran – 5 – Schedule

Attachment of Republic of Indonesia Financial Services Authority Circular Letter No. 9/SEOJK.03/2020

Concerning Transparency and Publication of Conventional Commercial Bank Reports

Banks that are Issuers and/or Public Companies should include information as stipulated in the provisions concerning the form and content of the annual report of Issuers or Public Companies

✓

Cross-Reference No. 16/ SEOJK.04/2021: Format and Completing the Annual Report of Issuers or Public Companies

DESCRIPTION	PAGE
I. General Terms	
In this Financial Services Authority Circular Letter what is meant by:	✓
a. The Annual Report is a report on the Board of Directors and Board of Commissioners accountability in managing and supervising issuers or public companies within a period of 1 (one) fiscal year to the general meeting of shareholders prepared based on the provisions of the Financial Services Authority Regulation concerning the Annual Report of issuers or public companies.	✓
b. Issuers are parties who make public offerings.	✓
c. A Public Company is a company whose shares are owned by at least 300 (three hundred) shareholders and has a paid-up capital of at least Rp3,000,000,000.00 (three billion rupiah) or a number of shareholders and paid-up capital as determined by the Financial Services Authority.	✓
d. A Public Company is an Issuer that has made a public offering of equity securities or a Publically-listed Company	✓
e. A Sustainability Report is a report published to the public that contains the economic, financial, social, and environmental performance of a financial service institution, Issuer, and Public Company in running a sustainable business.	
f. Board of Directors:	✓
i) For an Issuer or a Public Company in the form of a limited liability company, it is the Board of Directors as referred to in the Financial Services Authority Regulation concerning the Board of Directors and Board of Commissioners of an Issuer or Public Company; and	✓
ii) For an Issuer or a Public Company in the form of a legal entity other than a limited liability company, it is the body that carries out the management of the legal entity as referred to in the laws and regulations concerning the legal entity.	
g. Board of Commissioners:	✓
i) For an Issuer or a Public Company in the form of a limited liability company, the Board of Commissioners as referred to in the Financial Services Authority Regulation concerning the Board of Directors and Board of Commissioners of an Issuer or Public Company; and	✓
ii) For the Issuer or Public Company in the form of a legal entity other than a limited liability company, it is the body that supervises the legal entity as referred to in the laws and regulations concerning the legal entity.	
h. General Meeting of Shareholders hereinafter abbreviated as GMS:	✓
i) For an Issuer or a Public Company in the form of a limited liability company, it is the GMS as referred to in the Financial Services Authority Regulation concerning the Planning and Organizing of the General Meeting of Shareholders of a Public Company; and	✓
ii) For an Issuer or Public Company in the form of a legal entity other than a limited liability company, it is the body that has authority that is not given to any other body that carries out management and supervisory functions, within the limits specified in the legislation and/or articles of association governing the legal entity.	✓
The Annual Report of Issuers or Public Companies is an important source of information for investors or shareholders as one of the basic considerations in making investment decisions and a means of supervision of Issuers or Public Companies.	✓
Along with the development of the capital market and the increasing need for information disclosure by investors or shareholders, the Board of Directors and the Board of Commissioners are required to present quality, accurate, and accountable information through the Annual Reports of Issuers or Public Companies.	✓

DESCRIPTION	PAGE
Annual Reports that are prepared regularly and informatively can provide convenience for investors or shareholders and stakeholders in obtaining the required information.	✓
This Financial Services Authority Circular is a guideline for Issuers or Public Companies that must be applied in preparing Annual Reports and Sustainability Reports.	✓
II. Report Format	
1. The Annual Report is presented in the form of printed and electronic documents.	✓
2. The Annual Report is presented in the form of a printed document, printed on light colored paper, of good quality, A4 size, bound, and can be reproduced with good quality.	✓
3. The Annual Report may present information in the form of pictures, graphs, tables, and/or diagrams by including clear titles and/or descriptions, so that they are easy to read and understand.	✓
4. The Annual Report presented in the form of an electronic document is the Annual Report converted into a portable document format (PDF).	✓
III. Annual Report Contents	
1. The Annual Report shall at least contain:	
a. Overview of important financial data;	22-34
b. Stock information (if any);	36-39
c. Report of the Board of Directors;	73-83
d. Report of the Board of Commissioners;	61-69
e. Profile of the Issuer or Public Company;	90-236
f. Management analysis and discussion;	240-469
g. Governance of Issuers or Public Companies;	604-1085
h. Social and environmental responsibility of the Issuer or Public Company;	1088-1110
i. Audited annual financial report; and	1136-1422
j. Statement letter of members of the Board of Directors and members of the Board of Commissioners regarding their responsibility for the Annual Report.	86-87
2. Description of Annual Report Contents	
a. Summary of Important Financial Data Summary of important financial data containing financial information that is presented in the form of a comparison for 3 (three) fiscal years or since starting its business if the Issuer or Public Company has carried out its business activities for less than 3 (three) years, at least containing:	22-34
