Disclaimer and Limitation of Liability

This 2022 Annual Report of PT Bank Negara Indonesia (Persero) Tbk (“BNI”) is prepared by referring to the standard parameters and criteria applicable in Indonesia, the domicile where BNI carries out its business activities. The Annual Report uses the standards provided in the Financial Services Authority (“OJK”) Regulation No. 29/POJK.04/2016 concerning the Annual Report of Issuers or Public Companies, OJK Circular Letter No. 16/SEOJK.04/2021 concerning the Form and Content of Issuers or Public Companies’ Annual Report, and OJK Circular Letter No. 9/SEOJK.03/2020 concerning Transparency and Publication of Conventional Commercial Bank’s Reports.

This Annual Report contains statements of financial conditions, operations results, projections, plans, strategies, policies, and objectives of BNI. The prospective statements in this Annual Report are prepared based on various assumptions about the latest condition, the future condition, and the business environment where BNI performs its business activities. These statements are subject to prospective risks, uncertainties, and could cause actual results that differ materially from the reported results.

This Annual Report contains the words “BNI”, the “Company”, or “Bank” that are defined as PT Bank Negara Indonesia (Persero) Tbk. Sometimes the word “we” is also used to make it easy to designate BNI in general. This Report is presented in two languages, Indonesian and English, and can be viewed and downloaded on the official website of BNI: www.bni.co.id.

BNI for Stronger Indonesia

The COVID-19 pandemic has left various interesting stories, one of which is the growing awareness of the importance of sustainability. The holding of the G20 international events in Bali, Indonesia, in 2021-2022 have emphasized the importance of Indonesia's position in the theme of sustainability at the global level, both Indonesia's role in the post-COVID-19 recovery and the Indonesian Government's strong desire to achieve net zero emission in 2060.

The theme of the 2022 BNI Annual Report is also related to all the great intention. **"Recover Together, Recover Stronger"** is the theme of the G20 Presidency, in which Indonesia invites the whole world to work hand in hand, support each other to recover together and grow stronger and more sustainable. In line with the theme of the G20 Presidency, BNI and all stakeholders involved in its business chain strive to create a more resilient Indonesia. The manifestation is expressed both in terms of the Bank's performance, the issue of Green Bonds, as well as various important efforts with stakeholders to create an established and sustainable banking industry.

Uniting Energy to Revive the Country

2019

Digitalization For Excellent Services

2018

Adapting Quickly to Face Changes

To deal with the COVID-19 pandemic which is not over yet requires an endless fighting spirit. The Indonesian Badminton National Team's success in bringing home the Thomas Cup after 19 years certainly has inspired many parties. The theme of BNI's 2021 Annual Report is "Jumping Higher for the Country" and uses visuals of badminton players. The purpose is to portray BNI's spirit and performance as we continue to focus on jumping and transforming our digital and global capabilities to achieve a superior performance and become the pride for the country. This theme follows BNI's 75th Anniversary theme "Jump Higher." In addition, BNI should be proud of being appointed by the SOEs Ministry as the SOE Participating in the Coaching of Badminton Sports.

In a situation where Indonesia still struggled to deal with the pandemic, BNI as one of the drivers of the national economy was determined to unite the energy to stem the spread of the pandemic while simultaneously reviving the country from the pandemic's negative impacts.

BNI relentlessly transforms as well as develop, and strengthen our capabilities as a digital bank. The digitalization of distribution channels and business processes have enabled BNI to consistently grow its business each year on the strength of expanded market access as well as higher operating efficiency. The ongoing initiatives at digital technology capability enhancement will bring BNI ever closer to become a highly competitive digital bank in the industry 4.0 era.

BNI's performance in 2018 became more solid by recording achievements that exceeded the banking standards. BNI continued its transformation and adapted quickly to the current changes in the modern banking industry. In the technology disruption era, BNI has become one of the banks with competitive advantages based on digital technology. This is achieved through digital transformation, starting from internal process improvements, preparing our competent human capital to master technology, to offering our customers many electronic and digital services and products, such as BNI DigiCare, DigiDeal, DigiMaster, and DigiSport. The digital services transformation to BNI is a must when facing the challenge of becoming a bank that remains relevant and offers fast, flexible and mobile solutions to our customers.

BNI

Competitive Advantages

“Since 1946, BNI has been **continuously growing** and become a banking corporation with a commitment to develop together with the Indonesian people.”

Excellent Reputation and Experience in Corporate and Institutional Banking

BNI has a DNA as corporate banking with international network excellence, which is embedded through extensive experience and a global reputation as a national bank that actively supports Indonesian business actors in various economic cycles. Loans to the corporate segment are still the credit segment with the largest credit share in BNI with an average share of 50.3% in the last 3 (three) years. Specifically in December 2022, the composition of BNI's corporate loans reached 50.6% and became a catalyst for the growth of other credit segments. The current management strategy is to focus on expanding to superior debtors who are key industry players and optimizing cooperative relationships with institutions.

National Bank with Global Capacity

BNI has the widest network of offices abroad, located in the world's business and financial centers, namely in Singapore, Hong Kong, Tokyo, New York, London, Seoul and Amsterdam. Supported by strategic alliances and a network of correspondent banks abroad, BNI has a global reputation as a national bank which actively bridges business and investment from Indonesia to abroad and from abroad to Indonesia. Throughout 2022, BNI continuously made the efforts to spur our international performance. One of efforts is through the BNI Xpora program, which is specifically implemented to encourage MSME players to export abroad. Supported by the Xpora program, in 2022 BNI had an export loan portfolio of up to Rp26.7 trillion, which was distributed to more than 39 thousand customers.

Bank with Leading Sustainable Finance Practices in Indonesia

In 2022, BNI took several strategic measures to continuously embody its commitment to supporting sustainable finance, including the issue of green bonds which are used for financing and refinancing projects in the Eco-Friendly Business Activities (KUBL) category, including projects related to renewable energy, energy efficiency, waste management, and others. Moreover, BNI was also proactive in introducing Sustainability Linked Loans (SLL). One of the main aspects of SLL is the provision of incentives for customers to improve ESG aspects of their business. Throughout 2022, BNI distributed SLL of USD 355 million or equivalent to Rp5.3 trillion to top-tier debtors in priority industrial sectors, such as Fast-Moving Consumer Goods and manufacturing. For its sustainable financial practices, BNI currently receives an “A” rating from MSCI, which is one of the best ratings among major banks in Indonesia.

Comprehensive and Competitive Digital Ecosystem

BNI focuses on working on customer business potential from various aspects, one of which is through a one stop solution digital financial services strategy. Through this strategy, BNI's digital financial services are available to answer the needs of customers in the consumer & retail and business banking segments on an end-to-end basis. Champion products from BNI digital services are BNI Mobile Banking, BNIDirect and BNI Xpora. BNI Mobile banking has now been used by more than 13.6 million customers, with the advantage of complete transaction features and ease of use anytime and anywhere. In 2022 BNIDirect recorded a total user growth of 24.9% Year on Year (YoY) with more than 100 thousand users. The development of BNI Xpora has led BNI to transform into a Bank with a focus on providing international banking services to all its customers. Apart from these three champion products, in 2022 BNI completed the acquisition process of Bank Mayora to become the controlling shareholder with ownership reaching 63.92%. Bank Mayora will be transformed into a digital bank that focuses on the SME segment.

Widespread domestic office network to reach all levels of society

The growth of BNI's Third Party Funds in the last 3 years has reached 10.2% per year. This high growth rate is attributable to the increased public trust, supported by BNI's network infrastructure and services spreading throughout Indonesia. Until the end of 2022, BNI has had 1,808 outlets, 16,125 ATMs, and 164,979 Branchless Banking Agents (BNI Agen46).

BNI optimizes the branch office network by paying attention to the spread of an effective outlet network, as well as diverting customer banking transactions to digital channels, especially BNI Mobile Banking which offers an easy, fast, safe, and comfortable transaction experience. Branchless banking or commonly referred to as BNI Agen46 functions optimally to support financial inclusion. As of December 2022, BNI Agen46 recorded a transaction volume of Rp73.8 trillion with a total of 83 million transactions spread across 34,000 villages throughout Indonesia, including areas categorized as Frontier, Remote and Disadvantaged (3T).

1946

The establishment of PT Bank Negara Indonesia (Persero) Tbk as the first state-owned bank, functioning as a central bank and a commercial bank.

1950

BNI as a development bank was given the right to act as a foreign exchange bank.

1955

BNI converted to a commercial bank and BNI opens its first overseas branch in Singapore.

1960

BNI supported the Indonesian economy and introduced various banking services such as Floating Banks and Mobile Banks.

1968

As a commercial bank with the name "Bank Negara Indonesia 1946", BNI was given the task of improving the economy of the people of Indonesia and participated in the national economic development by empowering various industrial sectors in Indonesia.

1986

BNI conducted operational restructuring and corporate reforms, including developing its vision and mission and Performance Improvement Program (PIP).

1989

BNI launched its new logo "the ark of sailing in the middle of the ocean" as a reflection and expression of the Company's expectations.

2009

BNI shareholders agreed to spin-off BNI Syariah business units as an independent business entity.

2008

Under a new Management team, BNI stepped up in the midst of the global economic crisis, reinforcing its financial foundation through five key strategies: adequacy of reserves, improving the quality of assets, focusing on profitability, creating sustainable business models and maintaining efficient cost structures.

2007

BNI issued new shares listed on the Jakarta and Surabaya Stock Exchanges at the same time as the government share divestment program. With the completion of both programs, public ownership increased to 23.64%.

2004

BNI launched its new corporate logo and identity related to efforts to build a firm image of the Company in the face of competition.

1999

BNI obtained additional capital from the Government through the bank recapitalization program. BNI succeeded in obtaining ISO 9002 certificate in recognition of quality standards including the Joint Processing Unit (UPB).

1997

The monetary crisis hit Asia and Indonesia. Like other banks, BNI was also affected by the crisis, as reflected in the decline in financial performance indicators.

1996

BNI conducted an initial public offering and listed its shares on the Jakarta and Surabaya Stock Exchanges. This made BNI the first government bank to become a public company.

2010

BNI issued new shares through a Rights Issue so that public ownership increased to 40%.

2012

BNI issued Global Bonds through its London branch office worth USD500 million. BNI's Global Bonds were registered at the Singapore Stock Exchange.

2013

BNI joined a strategic partnership with Sumitomo Life Insurance Company which purchased new shares issued by PT BNI Life Insurance worth Rp4.2 trillion.

2014

BNI's Net Income for the first time broke the double-digit figure (Rp10.8 trillion), as one result of BNI's transformation programs implemented since 2008.

2015

To adapt to the changing dynamic business environment, to meet the needs of all stakeholders' interests, and to align with regulations related to management for financial conglomerate institutions, BNI restated its vision: "Becoming a Superior Financial Institution in Service and Performance".

2016

For the second time BNI achieved a double-digit profit of Rp11.4 trillion with better fundamentals, indicated by a coverage ratio of 146% and CAR of 19.4%.

2017

BNI Sustainable Bonds I Phase I Year 2017 were issued with a value of Rp3 trillion for a period of 5 years with a coupon of 8% per annum. BNI Bonds were published on July 11, 2017 and listed on BEI on July 12, 2017.

2018

BNI Subordinate I Medium Term Notes (MTN) Year 2018 were issued with a value of Rp100 billion for a period of 5 years with a fixed interest rate of 8% per annum. The MTN were registered at OJK, effective June 8, 2018.

2019

In 2019, BNI became the first Government Bank to launch Digital Account Opening through its mobile banking application. Negotiable Certificates of Deposit (NCD) with a value of Rp2.39 trillion were issued on September 25, 2019.

2022

- BNI acquired PT Bank Mayora. Going forward, Bank Mayora will be transformed into a digital bank that supports the development of BNI's digital solutions focusing on the MSME (Micro, Small and Medium Enterprises) segment.
- Establishment of PT BNI Modal Ventura or referred to as "BNI Ventures" as BNI's strategy to support the development of the digital ecosystem in Indonesia.
- Addition to equity participation in PT Bank Syariah Indonesia Tbk amounting to Rp500,000,000,000 (five hundred billion rupiah); thus, BNI's share ownership becomes 23.24%.
- Issuance of PT Bank Negara Indonesia (Persero) Tbk Green Bond I Year 2022 with a principal amount of Rp5 trillion. This bond is the first Green Bond product in Indonesia issued in Rupiah.

2021

- BNI issued Tier 2 Subordinated Notes (BNI Tier 2 Capital Bond 2021) on the Indonesia Stock Exchange for USD500 million with an interest rate of 3.75%, as well as Additional Tier 1 ("AT-1") Perpetual Non-Cumulative Capital Securities on the Singapore Stock Exchange for USD600 million with a yield of 4.3% p. a. The AT-1 Capital Securities issue was monumental as BNI became the first bank in Indonesia to issue Additional Tier 1 capital instruments.
- BNI also strengthened its vision, from the previous "To become a Financial Institution with Sustainable Service and Performance Excellence," to "To become a Superior Financial Institution with Sustainable Service and Performance Excellence". The word "Unggul" has been prefixed with "Ter", showing BNI's commitment to become the most superior.
- BNI divestment in PT Bank BNI Syariah, which was merged with PT Bank Mandiri Syariah and PT Bank BRI Syariah Tbk to become PT Bank Syariah Indonesia Tbk ("BSI") Holding.
- BNI Securities Pte. Ltd. ("BSPL"), a subsidiary of PT BNI Sekuritas, has officially operated in Singapore.

2020

BNI made a restatement of the Company's vision of "To Become a Prime Financial Institution that excels in services and sustainable performance" and a restatement of its mission to become "Providing excellent services and digital solutions to all customers, as the primary partner of choice" and "Strengthening international services to support the needs of our global business partners". The purpose was to strengthen BNI's excellence in international business through overseas and local network, partnership cooperation as well as development of digital banking in response to challenges and competition whereby BNI will always sustainably excel in services and performance. Moreover, in order to support the formation of a national Islamic bank with global capacity, BNI together with Bank BRI and Bank Mandiri signed a Merger Agreement between BNI Syariah, Mandiri Syariah, and BRI Syariah.

Bank Mayora

Acquisition

“BNI acquired Bank Mayora to complement services in the MSME segment which is currently focusing on the global expansion.”

BNI has been developing a digital business in responding to the increasing potential for digital business in the banking industry and changes in customer behavior which have led to digital shifting in the banking services. Development is conducted both organically and inorganically. BNI conducted organic development by sustainably developing digital channel innovations such as BNI Mobile Banking and BNI Direct. BNI has also carried out inorganic development through the acquisition of Bank Mayora, which was previously owned by the Mayora Group, one of the leading FMCG business groups in Indonesia.

On May 18, 2022, BNI signed the deed of acquisition of PT Bank Mayora shares and signed the deed of sale and purchase of shares which marked the effective acquisition of PT Bank Mayora by BNI. Additionally, BNI has obtained approval for this corporate action plan. The acquisition is already approved by BNI shareholders at the BNI Annual General Meeting of Shareholders (GMS) on March 15, 2022. With the

effective takeover of Bank Mayora shares, BNI has recorded to own 1,198,229,838 shares of Bank Mayora representing 63.92% of the total issued and fully paid shares, while 36.08% of the shares are owned by PT Mayora Inti Utama.

The acquired Bank Mayora will be transformed into a Digital Bank that supports BNI's digital development and will be focused on the MSME (Micro, Small and Medium Enterprises) segment which plays an important role in the economic growth in Indonesia. The presence of Bank Mayora will make it easier for BNI to penetrate services to the MSME segment which has not been optimally utilized by Branch Offices and Business Centers. In addition, this acquisition also strengthens BNI in providing comprehensive solutions and complements BNI Xpora service that is previously developed for the MSME segment with focus on the global expansion. The acquisition of Bank Mayora is in line with BNI's long-term strategy in achieving future goals to become a Digital-Based Integrated Financial Solutions Provider with International Excellence.

BNI Ventures

Establishment

“The establishment of BNI Ventures is BNI's effort to support the development of Indonesia's digital ecosystem, especially through the support for startup companies in Indonesia.”

The current industrial growth encourages banks to grow collaboratively by developing ecosystem businesses together with technology companies that are quicker in adapting to the times. To support the development of technological innovation in the BNI Group through synergy and investment in financial technology companies, on April 12, 2022 BNI established a venture capital company named PT BNI Modal Ventura or also known as “BNI Ventures”. The subsidiary will later be able to collaborate, including in the form of participation in startup companies.

In its implementation, BNI placed fund of Rp500 billion or equivalent to 500 thousand shares. For this placement, BNI was recorded to own 99.98% of the total issued shares, while the remaining shares were owned by PT BNI Asset Management.

“Obligasi Berwawasan Lingkungan (Green Bond) I BNI 2022.”

On June 21, 2022, BNI again reinforced its commitment to green financing by becoming the first bank in Indonesia to issue Green Bonds denominated in Rupiah with a maximum issuance value of Rp5 trillion. The Green Bonds consist of 2 (two) series, Series A with a tenor of 3 years with a value of Rp4 trillion and an interest of 6.35%; and Series B with a tenor of 5 years with a value of Rp1 trillion and an interest of 6.85%.

This issuance is done by considering the Financial Services Authority Regulation No. 60/POJK.04/2017 concerning Issuance of and Requirements for Green Bonds.

All proceeds obtained from the Green Bonds will be used to finance and refinance projects in the category of Eco-Friendly Business Activities (EFBA), including projects related to renewable energy, energy efficiency, waste processing into energy and waste management, sustainable use of natural resources and land, conservation of terrestrial and aquatic biodiversity, eco-friendly transportation, sustainable water and wastewater management, climate change adaptation, eco-sound buildings, and sustainable agriculture.

2022

Accomplishments

Transformation and Innovation

are the keys to achieving solid business performance amidst a dynamic business environment throughout 2022

BNI managed to close 2022 by recording an impressive performance and successfully surpassing market consensus. This was reflected in the consolidated net profit which was recorded at Rp18.3 trillion, growing significantly by 68% year-on-year (YoY) and the highest net income that exceeded pre-pandemic achievements. This outstanding performance was realized amidst a dynamic business environment throughout 2022 and efforts to ensure that the Company's transformation agenda will continue according to the blueprint.

* Income For the Year Attributable to Equity Holders of The Parent Entity

* using average equity as the denominator

Business growth is carried out in a prudent and quality manner with a focus on low-risk segments, accompanied by strong improvements in asset quality to drive impressive performance.

Information on Corporate Actions

GREEN BOND

As one of the banks that is the driving force for implementing Sustainable Finance in Indonesia, PT Bank Negara Indonesia (Persero) Tbk ("BNI") continues to mobilize energy to continue to be at the forefront of realizing sustainable finance. BNI believes that what is being done is in line with and supports sustainable development, in addition to increasing BNI's resilience and competitiveness.

On June 21, 2022, BNI has issued green bonds or a maximum of Rp5 trillion. The corporate action was carried out to finance projects in the category of environmentally sound business activities (KUBL).

The KUBL projects include those relating to renewable energy, energy efficiency projects, processing waste into energy and waste management, natural resource management and sustainable land use, conservation of terrestrial and aquatic biodiversity, environmentally friendly transportation, sustainable water and wastewater management, climate change adaptation, green building and sustainable agriculture.

BNI released this green bond consisting of two series. First, Series A has a principal value of Rp4 trillion with an interest rate of 6.35% per year. This series has a term of 3 years from the date of issue. Meanwhile, the green bond payment will be made in full (bullet payment) of 100% of the principal amount of series A green bonds at the due date of June 21, 2025. Second, Series B with a principal amount offered of Rp1 trillion with an interest rate of 6.85% with a maturity of 5 years from the date of issuance. This green bond payment will be made in full (bullet payment) of 100% of the principal amount of series A green bonds at the due date of June 21, 2027.

BNI has developed a green bond framework in which there are arrangements regarding the mechanism for project selection and use of funds as well as reporting mechanisms obtained from green bond public offerings.

SHARE DIVIDENDS

1. Share Dividend Distribution in 2022

After approval by the shareholders at the Annual General Meeting of Shareholders (AGMS) for the 2021 Book Year held on March 15, 2022, the shareholders approved the distribution of dividends of 25.0% of the net income for the year attributable to owners of the parent entity for the 2021 book year or the equivalent of Rp2,724,629,398,182 to be distributed as cash dividends to shareholders.

The dividend value per share distributed is Rp146.29 per share. Taking into account the composition of the 60.0% government-owned shares, the Bank paid dividends worth Rp1,636,944,231,460 to the state's general treasury. Meanwhile, public ownership amounting to 40.0% worth Rp1,087,685,166,716 will be given to shareholders in accordance with their respective ownership portions. Meanwhile, 75.0% of the Bank's profit or Rp8,173,888,194,547 will be used as retained earnings for the Bank's business development.

2. Share Dividend Distribution in 2021

After approval by the shareholders at the 2020 Annual General Meeting of Shareholders (AGMS) held on March 29, 2021, BNI distributed dividends equal to 25.0% of the current year's net profit attributable to owners of the parent entity for the 2020 Fiscal Year of Rp3,280,403,281,976, or the equivalent of Rp820,100,820,494.

The dividend value per share distributed was Rp44.02 per share. As the Government owns 60.0% of the shares, BNI paid dividends of Rp492,577,663,633.03 to the state treasury account. For the 40.0% of the shares own by the public, Rp327,523,159,322.46 was paid to shareholders based on their respective ownership.

Share Dividend distribution paid by BNI for the last 5 (five) years is as follows:

	Dividend Distribution Year				
	2022 (for business results in 2021)	2021 (for business results in 2020)	2020 (for business results in 2019)	2019 (for business results in 2018)	2018 (for business results in 2017)
Total Dividends Distributed (Rp- billion)	2.724,6	820,1	3.846,1	3.753,8	4.765,8
Dividend per Share (Rp/ Shares)	146,3	44,0	206,2	201,3	255,5
Dividend Ratio (%)	25% of net profit for the year attributable to owners of the parent entity for the 2021 fiscal year	25% of net profit for the year attributable to owners of the parent entity for the 2020 fiscal year	25% of net profit for the year attributable to owners of the parent entity for the 2019 fiscal year	25% of net profit for the year attributable to owners of the parent entity for the 2018 fiscal year	35% of net profit for the year attributable to owners of the parent entity for the 2017 fiscal year
Date of Announcement	March 17, 2022	March 31, 2021	February 24, 2020	May 15, 2019	March 22, 2018

BNI Mobile Banking • QRIS BNI

Board of Commissioners' Report

DEAR DISTINGUISHED SHAREHOLDERS AND STAKEHOLDERS,

Even during the escalating world geopolitical tensions that exacerbated the fragmentation and global economic and financial prospects, the domestic economic performance remained strong. Economic growth in 2022 was predicted to be in the range with an upward bias trend, and will continue to remain strong in 2023.

During situation that was still full of pressure, allow me on behalf of the Board of Commissioners to submit the Annual Report of PT Bank Negara Indonesia (Persero) Tbk for the 2022 Financial Year that provides an overview of BNI's efforts to continue to create added value for shareholders.

THE ECONOMY AND BANKING IN THE MIDST OF RECOVERY ACCELERATION

The post-pandemic recovery from the COVID-19 was important for the economic conditions in 2022. Economic inequality between countries triggered a gap between global demand and supply, which ultimately led to very high world inflation. This condition was exacerbated by the Russia-Ukraine tensions that impacted the supply of food as well as energy commodities, and worsened inflation and triggered the risk of recession in many countries.

Facing this, the majority of the central banks of countries in the world issued policies to raise interest rates over the long time. With the driving force being the United States (US) central bank, The Federal Reserve (The Fed), during 2022 raised the Federal Funds Rate (FFR) benchmark rate by 425 bps, and this triggered an increase in the benchmark interest rates in global monetary policies. The Fed's increase in interest rates led to a massive withdrawal of investor funds from developing countries, including Indonesia, to investment instruments considered liquid and close to cash. This condition then triggered a strengthening of the US Dollar currency against other currencies in the world, including the Rupiah currency.

Even though the world economy is projected to be headed for a global recession, the national economy is showing recovery based on a strong foundation. On the trade side, the increase in food and energy commodities provided fresh air for Indonesia, although on the other side the spike in prices impacted consumer inflation. For example, the Government of Indonesia's policy to increase the price of fuel oil (BBM) in the QIII 2022, led

to an increase in Indonesia's inflation. Since September 2022, Indonesia's inflation has been above 5% and closed at 5.5% at the end of 2022. However, Indonesia's inflation is far better than global inflation that increased to 8.9% at the end of 2022.

As the monetary authority in Indonesia, Bank Indonesia has responded to the high inflation and the depreciating Rupiah by making adjustments to the benchmark interest rate. Throughout 2022, Bank Indonesia raised interest rates 5 (five) times with a total increase of 200 bps. At the end of 2022, the benchmark interest rate reached 5.5%.

The banking industry must respond wisely to the increase in interest rates, especially in connection with the desire of banks to maintain their profitability at the expected level. Especially during the accelerated post-COVID-19 pandemic recovery, which provided banks with many opportunities to increase their business.

In general, the Indonesian economy is showing its strength to keep growing optimistically. The economic growth of Indonesia in 2022 is at 5.3%, an increase compared to the previous year of 3.7%. The national banking industry recorded an encouraging performance, where deposits from customers or Third Party Funds (TPF) managed to grow 9.0% YoY. Bank loans recorded growth of 11.4% YoY, with a non-performing loan (NPL) ratio of 2.6%. The banking capital adequacy ratio of 25.4% also showed a fairly good fundamental picture of the situation and condition of the national banking system.

ASSESSMENT ON THE BOARD OF DIRECTORS' PERFORMANCE IN MANAGING BNI

Carrying the shareholders' aspiration to perform supervision over management of the Bank by the Board of Directors, the Board of Commissioners has a role to provide views to the Board of Directors on an accountable and prudent management of the Bank.

The Board of Commissioners appreciates the performance achievements shown by BNI throughout 2022. The fundamental business growth showcases a big picture of BNI's development in the future. This can be seen in the increase in loans complemented by a decrease in NPLs, which certainly lays a strong foundation for BNI to grow its business in a sustainable manner.

Likewise, BNI Third Party Funds (TPF) also recorded an increase compared to the previous year, showcasing that the management of BNI is on the right track with the shareholders' aspiration. This growth in TPF is reinforced by an increase in low-cost funds ratio or Current Account/Saving Account (CASA), which will certainly have a positive impact on profitability as expected by the shareholders.

Capital management is also a big concern in managing a healthy bank. BNI's capital performance shows quite good results. Although there were slight adjustments as seen in the capital ratios, the realization of the Capital Adequacy Ratio (CAR) was still far above the minimum level required by the regulator.

If compared with the targets 2022, BNI's performance has shown quite good achievements. In term of balance sheet performance, the achievements of asset quality, net profit and profitability, and capital were above the targets. This illustrates that management of the Bank by the Board of Directors has been running in accordance with the plans prepared at the beginning of the year.

In addition, the performance of Environmental, Social and Governance (ESG) accomplishments in the Bank's operations also demonstrated BNI's commitment to implementing its sustainability program. This strong commitment shall become an important note, especially with the issuance of Green Bonds in 2022 which shows a big picture of BNI's development direction in the future.

BOARD OF COMMISSIONERS' VIEW ON BNI'S PROSPECTS FOR 2023

The 2022 economic challenges are predicted to continue in 2023. The high inflation and the shadow of a world economic slowdown must be watched closely and anticipated through strategic steps, especially with the tensions between Russia and Ukraine yet to show any reconciliation.

BNI predicts that the Indonesian economy will grow 5.0% in 2023, higher than the average global economy, which is predicted to grow 2.5%. The projected economic growth in 2023 is ± 30 bps lower than in 2022 due to a slowdown in consumption, investment and exports. To encourage a sustainable economic recovery, the Government will direct its fiscal policy as a shock absorber to protect communities, support priority sectors, and encourage national economic recovery through fiscal stimulus to deal with the impact of COVID-19 and stabilize domestic prices.

With the economy starting to recover, and to protect the domestic economy from the spillover effects of global turmoil, the monetary policy is aimed at maintaining stability. Meanwhile, macroprudential policies, payment systems, money market development, and the economic and financial inclusion will still be directed at boosting economic growth. Fiscal and monetary policy synergy will be further strengthened through Bank Indonesia's participation in funding the State Revenue and Expenditure Budget (APBN), which includes handling health and humanity due to the COVID-19 pandemic.

Indonesia's inflationary pressure is in fact expected to subside and soon return to the level of 3.75% as the impact of the fuel price hike in September 2022 has subsided earlier than expected. However, the interest rate of BI-7 Day Reverse Repo Rate (BI7DRR) policy is predicted to remain high to support the exchange rate, following the Fed's move to maintain the FFR at a high level for a long time.

The potential risk of an economic recession is likely to have a little impact on Indonesia's main trading partners, which will create good demand for Indonesia's exports. Although primary commodity prices have recently been corrected, they are still relatively better than prices during the pre-pandemic period. BNI believes Indonesia will record a trade surplus in 2023 with a more controlled current account deficit.

Global volatility is predicted to improve in 2023. This will bring the Rupiah exchange rate closer to its fundamental, in contrast to the 2022 depreciation which was more driven by a sentiment factor amid global volatility. The combination of good Gross Domestic Product (GDP) growth, controlled inflation, competitive interest rates, a manageable current account deficit, and reduced global volatility, is predicted to ease pressure on exchange rates in 2023.

The Board of Commissioners have agreed with BNI's performance projections outlined for 2023. The Board of Commissioners views that the financial projections in the 2023 are quite realistic given the challenging global economic situation. BNI's loan growth in 2023 is expected to be better, especially with the challenge of the benchmark interest rate which is predicted to be quite high. On the liabilities side, TPF is expected to grow in line with the expansive efforts that will be carried out by BNI in 2023. The Board of Commissioners is fully supportive and ready to become a strategic partner for the Board of Directors to achieve those projections.

SUPERVISION ON BNI'S STRATEGIC POLICY IMPLEMENTATION

performing the supervisory function, there are limitation in the responsibilities and roles carried out by both the Board of Commissioners and the Board of Directors. This supervisory function is conducted by the Board of Commissioners in particular by providing advice and suggestions to the Board of Directors, and ensuring that BNI implements Good Corporate Governance (GCG).

The Board of Commissioners provides advice and suggestions to the Board of Directors through the implementation of the Board of Commissioners meetings, meetings of committees under the Board of Commissioners, written directives and advice, as well as working visits.

1. Implementation of Board of Commissioners Meetings
Board of Commissioners meetings are carried out internally by the Board of Commissioners, or by inviting Directors and/or Senior Executive Vice Presidents (SEVP) who are related to the meeting agenda, as well as regular joint meetings between the Board of Commissioners and the Board of Directors.
2. Meetings of Committees under the Board of Commissioners
The active role of the committees under the Board of Commissioners in assisting and supporting the smooth running of the Board of Commissioners' duties are realized through, among others, the implementation of committee meetings as well as evaluating, analyzing or reviewing matters that become the Board of Commissioners' duties.
3. Written Directives and Advice
Provision of written directions and opinions of the Board of Commissioners to the Board of Directors in response to the reports on the implementation of the Board of Directors' duties, requests for approval or consultation submitted by the Board of Directors as well as information regarding strategic and significant issues.
4. Board of Commissioners' Working Visit
Board of Commissioners makes working visits to BNI work units and provides its directives and advice to the Board of Directors based on the working visit results.

Board of Commissioners' Meetings, both internal meetings, or by inviting relevant Directors and/or Senior Executive Vice Presidents, are one of the most effective forms of formal supervision. In these meetings, the Board of Commissioners can provide advice, directives, and

input to the Board of Directors regarding specific themes as well as recent discussions on BNI's performance.

During 2022, the Board of Commissioners held 57 (fifty-seven) internal meetings by inviting relevant Directors, and 7 (seven) Joint Meetings with the Board of Directors. These meetings served as a forum for the Board of Commissioners to carry out intensive and in-depth evaluations of various current themes, some of which are:

1. Latest Developments in economic and industrial conditions;
2. Consultation regarding loans with the Board of Commissioners;
3. Bank's Risk Profile and Health Level, including studies on Risk Appetite and Risk Tolerance, as well as the Minimum Capital Adequacy Requirement according to the Risk Profile;
4. Latest report on BNI's consolidated financial performance;
5. Follow-up process on the results of the GMS resolution regarding the provision of general audit services for the BNI Consolidated Financial Statements for the 2022 Financial Year, which was then realized through a Kick Off Meeting of BNI's 2022 Consolidated Financial Statements Audit by the appointed Public Accountant Firm (KAP);
6. The Board of Directors' Key Performance Indicator (KPI) targets collegially and individually;
7. Policies, systems and procedures for the nomination/replacement of the Board of Commissioners and/or the Board of Directors;
8. Development and plans for the BNI Network and Services;
9. BNI's 2022 RBB and 2023 RBB;
10. BNI capital;
11. Progress of Good Corporate Governance implementation, including the Anti-Bribery Management System (SMAP);
12. BNI's equity participation in subsidiaries and discussions on the management of subsidiaries, including discussions on acquisition and equity participation in PT Bank Mayora, establishment of PT BNI Venture Capital, and capital addition in PT Bank Syariah Indonesia Tbk; and
13. Evaluation of Payment Service Provider Activities; and
14. Discussion on BNI Material Cases.

The Board of Commissioners also supports the transformation initiated by BNI since the previous year. Changes to the nomenclature of the Board of Directors as stated in the results of the Extraordinary General Meeting of Shareholders (GMS) on August 31, 2022 confirms BNI's role as a global bank with a wide-spread international network. Not only that, the acquisition of Bank Mayora in 2022 will strengthen BNI's digital services. Likewise, the establishment of a subsidiary, PT BNI Ventura,, will provide a vehicle for BNI to expand its wings and create synergy with startup companies in Indonesia.

BANK HEALTH LEVEL

Bank Health Level is the result of assessing condition of a bank based on risks (Risk-Based Bank Rating) and its performance. Bank Health Level is a means for BNI to identify problems early, develop and implement corrective actions, and establish business strategies in the future.

The BNI Health Level Assessment is carried out based on 4 (four) factors as follows:

- Risk Profile**
Risk Profile Assessment is carried out by assessing Inherent Risk (risk inherent in BNI activities) and the Quality of Risk Management (KPMR) Implementation for 8 (eight) types of risks.
- Governance (Good Corporate Governance)**
The Corporate Governance Assessment is an assessment of the BNI's management quality on the implementation of Corporate Governance principles.
- Rentability (Earnings)**
The assessment of Rentability factor includes evaluating the Rentability performance, sources of Rentability, Earnings Sustainability, and Rentability management.
- Capital**
Assessment of capital factor includes assessment of capital adequacy and capital management adequacy. In assessing capital adequacy, BNI links capital adequacy to its risk profile.

Assessment of Bank Health Level is reported to the regulator, in this case the Financial Services Authority (OJK), every 6 (six) months (semesterly) in June and December. The results of the BNI Bank Health Level assessment for the period of December 31, 2022 are rated "Healthy", which means that:

- BNI's condition is generally healthy, so it is considered capable of facing significant negative influences from changes in business conditions and other external factors;
- The ratings of the assessment factors (Risk Profile, Governance, Earnings and Capital) are generally good. If there are weaknesses, in general these weaknesses are less significant.

HUMAN CAPITAL

In terms of Human Capital (HC), the Board of Commissioners considers that the implementation of the Bank's strategy and policies by the Board of Directors in managing HC has gone well. BNI continuously places employees as strategic partners as well as stakeholders in achieving the Bank's goals through the implementation of various strategic policies that focus on developing effective employee competencies. Every year, the efforts made by the Board of Directors in HC are able to increase a risk awareness culture and a compliance culture through various programs conducted.

The Board of Commissioners views the implementation of the BNI Human Capital Architecture as the architecture of the Bank's policy in the field of HC, which actually culminates in the Employee Value Proposition (EVP) namely "Together make BNI the best place to contribute, learn and grow". The emphasis on the phrase "Together" shows that employees and BNI are 2 (two) entities that are interrelated and inseparable in realizing BNI's vision. The Board of Commissioners hopes that employees can demonstrate performance that supports the achievement of organizational goals, competencies that are aligned with strategy, and employee behavior that is in line with the organizational culture.

The Board of Commissioners has instructed that the Human Capital policy be forward looking, and can accommodate the direction of future organizational changes. Any disclosure of policies should use an end-to-end human capital framework approach in line with the employee life cycle.

INFORMATION TECHNOLOGY

Strengthening Information Technology (IT) infrastructure is a must for modern financial institutions. For optimizing IT, the Board of Commissioners delivered a message that strengthening the Bank's IT facilities and infrastructure is a basic necessity that must be addressed through well-executed strategic steps, in terms of planning, development, management, security and utilization, so as to provide confidence to Shareholders and Stakeholders that the Bank's IT is strong and tested, managed professionally, and supports the BNI Branch Offices in Indonesia and Overseas business development in a robust manner. This is in line with the global financial services trend towards digital finance and digital banking.

The Board of Commissioners views that BNI is quite capable of making innovation in services digitization, especially to be at the forefront of providing the best digital banking services. The Board of Commissioners supports the efforts made by the Board of Directors in providing added value to customers through several key technologies, which have been adopted to significantly contribute to the needs of developing BNI's digital banking products and services in recent years.

In addition, the Board of Commissioners also supervises the ongoing implementation of IT system compliance in accordance with applicable regulations, including its relation to BNI IT system principal support, both in terms of policies, standards, and procedures, as well as in term of information security aspect. In an effort to improve information security, besides implementing various protections that refer to international standards, BNI established a special organization (Information Security Division) whose functions include information security to maintain independence, focusing more on evaluating, implementing, monitoring, and improving cybersecurity.

VIEWS ON THE BANK GOVERNANCE IMPLEMENTATION/GOOD CORPORATE GOVERNANCE (GCG)

The Ministry of State-Owned Enterprises (BUMN), the Financial Services Authority (OJK), the Indonesia Stock Exchange (IDX), and regulators with an interest in the capital market and the development of the Indonesian business world, are committed to encouraging the application and implementation of Good Corporate Governance principles, as a value that must be carried out by every business entity doing business in Indonesia. BNI is committed to consistently and continuously implementing and upholding the implementation of GCG principles in every business activity, especially as the implementation of GCG through its 5 (five) basic principles, transparency, accountability, responsibility, independence and fairness, has proven to be one of the factors that supports the of business world sustainability and investment climate.

As explained above, the Board of Commissioners plays role in fulfill the aspirations of shareholders, most notably in carrying out the supervisory function, and the Board of Commissioners also believes that GCG at BNI is important, and should be implemented at all levels. The Board of Commissioners has carried out its supervisory function of the implementation of GCG by the Board of Directors, and the Board of Commissioners' view is that the implementation of GCG within BNI refers to a Governance Framework that is structured through 4 pillars, namely Governance Principles, Governance Structure, Governance Process and Governance Outcome, and in practice it is continuing to improve over time. Development of an adequate governance structure and infrastructure including continuously updated policy tools, ensures the effectiveness of the process of implementing GCG principles supported by adequate corporate governance structures and infrastructure, up to evaluation and monitoring of GCG, and this is a reflection of management's commitment to implement GCG principles and practices in all elements of the Bank's operations and business.

One important aspect in the successful implementation of GCG principles is good synergy and collaboration between the supporting organs of the Board of Commissioners and the Board of Directors. By having these supporting organs, all aspects of the GCG principles can be implemented and monitored, be it compliance, risk management, audits, and development of HC and Information Technology as one of the foundations for realizing the Bank's accountability.

The Board of Commissioners specifically emphasizes the importance of the code of conduct underlain on the Core Values or "AKHLAK" values. The Code of Conduct implementation is part of the formation of BNI Hi-Movers behavior with integrity, which will ultimately shape personal behavior in daily life.

To strengthen the of Integrated Governance implementation, the Board of Commissioners has assigned this role to all Financial Services Institutions that are members of the BNI Financial Conglomerate. The BNI Financial Conglomerate has a shared commitment to

implementing Integrated Governance in the Financial Conglomerate as outlined in the BNI Financial Conglomerate Corporate Charter, which was approved and signed by the President Director of all Financial Services Institutions Members in the BNI Financial Conglomerate.

The Board of Commissioners view is that the Board of Directors must implement Integrated Governance to support the BNI Financial Conglomerate business and operations, by continuing to promote integrated application of the transparency, accountability, responsibility, independence or professionalism, and fairness) principles within the BNI Financial Conglomerate.

BANK RISK MANAGEMENT

To anticipate the increasing risk exposure faced by BNI, there is a need of an effective and integrated capital and risk management system that is able to support sustainable performance achievement and growth while increasing competitiveness. Risk management at BNI is carried out in an integrated manner with business strategy. The implementation of risk management is proactive and forward looking with the aim of maximizing added value for shareholders, managing capital comprehensively, and ensuring profitability and sustainable business growth.

The alignment between business strategy and objectives with risk management and risk appetite is an important element in the implementation of risk management. The risk management strategy and risk appetite are translated into governance, processes, policies and tools and methodologies that are supported by robust information technology, human capital and strong risk culture.

For this reason, BNI implements the General Policy of Risk Management as a policy that serving as a strategic and comprehensive basic reference in the implementation of Risk Management. As a guideline for implementing Risk Management, BNI has policies and procedures as a basis for managing each risk. Risk Management Procedures are procedures that guide the implementation of Risk Management.

The Board of Commissioners encourages an effective implementation of Risk Management based on the established Risk Governance. Risk Governance clearly regulates roles and responsibilities, decision-making processes, linkages between risk management functions, and establishes policies to ensure that the risks are managed properly.

Additionally, the Board of Commissioners always prioritizes efforts to mitigate risks through active supervision of the risk management implementation. The Board of Commissioners' supervisory function is conducted through the meeting forums of the Board of Commissioners and the Board of Directors, as well as in meetings of the Risk Monitoring Committee, the Integrated Governance Committee, and the Audit Committee.

This supervision is carried out through the following mechanisms:

1. Approving BNI's risk management policies including risk management strategies and frameworks that are determined according to the level of risk to be taken (risk appetite) and risk tolerance;
2. Evaluating risk management policies and strategies;
3. Evaluating the accountability of the Board of Directors and provide directions for improvements on the implementation of BNI's risk management policies; and
4. Ensuring that risk management policies and processes are implemented effectively and integrated into BNI's overall risk management process.

With the support of the Risk Monitoring Committee as a supporting organ, the Board of Commissioners continuously monitors the implementation of risk management initiatives carried out by the Board of Directors in an effort to mitigate the Bank's main risk factors and prevent risks and ensure the long-term sustainability of the Bank's business.

In terms of the implementation of Integrated Risk Management, BNI Financial Conglomerate shares a common commitment to carry out the duties and responsibilities of each Financial Services Institution as outlined in the BNI Financial Conglomerate Corporate Charter which has been approved and signed by the President Directors and the all Financial Services Institution Members of the BNI Financial Conglomerate.

The Board of Commissioners is of the opinion that the implementation of the Bank's individual and integrated Bank risk management in 2022 has gone well. The Board of Commissioners views that BNI has adequate policies, risk tolerance and risk limits which are regularly reviewed with the approval of the Board of Directors. BNI also has adequate processes for identifying, measuring, monitoring and controlling risks on an ongoing basis for all material risk factors supported by Risk Management Information System.

The Board of Commissioners encourages the Board of Directors to continuously increase risk awareness among all employees at all levels/positions using a structured and sustainable risk culture program, as risk awareness is an important key to controlling risk through the application of effective controls. Thus, it is expected that the Board of Directors and all levels of employees have the awareness, and adopt the habit to work within the corridors of applicable regulations, and to avoid unprudent business practices.

INTERNAL CONTROL SYSTEM

The Control System is a monitoring mechanism established by management on an ongoing basis which is carried out by management and all employees at every level of the Bank's organization. An effective Internal Control System is an important component in Bank management and forms the basis for sound and safe Bank operations. Implementation of the Internal Control System is the responsibility of all parties involved in the Internal Control System, as outlined in the duties and responsibilities of each party, including the roles of the Board of Commissioners and the Board of Directors.

In accordance with the Financial Services Authority Circular Letter (SEOJK) No. 35/SEOJK.03/2017 dated July 7, 2017 concerning Guidelines for Internal Control System Standards for Commercial Banks, the Board of Commissioners is responsible for the supervision of internal control in general, including the Board of Directors policies that determine the internal control, in order to achieve a reliable and effective Internal Control System.

The Board of Commissioners places the Internal Control System as an important monitoring component in the Bank management and serves as a reference for sound and controlled Bank operational activities. The Internal Control System supports the achievement of the Bank's goals, to increase values for the stakeholders, minimize the risk of loss, and maintain compliance with the applicable laws and regulations.

The internal control framework is prepared to ensure compliance with the adequacy of financial and operational controls, financial reporting, operational effectiveness and efficiency, as well as compliance with applicable laws and regulations. BNI's Internal Control System refers to OJK Circular Letter No. 35/SEOJK.03/2017 dated July 07, 2017 concerning Standard Guidelines for Internal Control Systems for Commercial Banks, and are in line with the COSO and Basel Committee - Internal Control frameworks, by covering 5 (five) main elements that are interrelated in the Bank's internal control system, namely management supervision and control culture, risk identification and assessment, control activities and segregation of functions, accounting systems, information and communication, as well as monitoring activities and actions to correct irregularities/weaknesses.

The Board of Commissioners is of the opinion that BNI's Internal Control throughout 2022 has functioned properly, however, it will still be necessary to increase strengthening in all banking lines and aspects to create healthy, safe and controlled Bank operational activities, especially when entering the digital banking era.

ASSESSMENT OF THE BOARD OF COMMISSIONERS' SUPPORTING ORGANS PERFORMANCE

Board of Commissioners' Supporting Committees

The implementation of the Board of Commissioners' duties and functions in supervising the BNI management is supported by the Audit Committee, Risk Monitoring Committee, Nomination & Remuneration Committee, and the Integrated Governance Committee. The implementation of the Committees under the Board of Commissioners duties is guided by the charter of each Committee that has been prepared. At the beginning of each year, the committees under the Board of Commissioners prepare their respective work plans which are used as a reference in carrying out their duties in assisting the implementation of the Board of Commissioners' duties, through monitoring, reviewing, and providing advice or recommendations to the Board of Commissioners on matters that are related to the functions and duties of the committees concerned.

Performance assessment of the Committees under the Board of Commissioners is carried out based on the following matters:

1. Accomplishment of all Work Plans/Programs of the Committees set at the beginning of the year; as well as
2. Implementation of Committee Meetings and the level of attendance of the Committee members.

The implementation of the Committees' Program/work plan is carried out through a committee meeting mechanism including by inviting the relevant Directorate or divisions/work units as well as in-depth review/evaluation/review by each committee outside the meeting forum where the results are submitted in writing to the Board of Commissioners.

In 2022, the Board of Commissioners considers that these committees have carried out their functions, duties and responsibilities properly, with the following explanation::

1. The Audit Committee has carried out its functions, duties and responsibilities, including reviewing the financial information that will be issued by the Bank to the public and/or the Authorities. The Audit Committee also reviews the compliance with laws and regulations related to the Bank's activities, as well as evaluates the effectiveness of the audit/services provided by the Public Accountant Firm (KAP), including examining the independence and objectivity of the KAP;
2. The Risk Monitoring Committee has also evaluated the risk management policies suitability and the implementation of Bank policies, as well as monitored and evaluated the risk management committee and the risk management work unit duties, so as to provide recommendations to the Board of Commissioners. The risk management evaluation is carried out on 8 (eight) key Bank risks, namely Credit Risk, Market Risk,

Liquidity Risk, Operational Risk, Strategic Risk, Legal Risk, Compliance Risk, Reputation Risk, as well as 2 (two) other additional risks that include in integrated risk management, namely Insurance Risk and Intragroup Transaction Risk;

3. The Nomination and Remuneration Committee carried out its supervisory functions, duties and responsibilities regarding the application of the nomination and remuneration policies at all levels of the organization, starting with the Board of Commissioners, Board of Directors and employees, in accordance with the prevailing regulations, and the Committee also provided recommendations to the Board of Commissioners concerning the Nomination, Remuneration and related functions for Talent Management, and has carried out other tasks assigned by the Board of Commissioners related to the nomination and remuneration functions; and
4. The Integrated Governance Committee has evaluated the implementation of Integrated Governance by assessing the adequacy of internal controls, implementing the integrated compliance function and implementing the Integrated Governance Guidelines. The Integrated Governance Committee has also provided recommendations to the BNI Board of Commissioners regarding the Integrated Governance evaluation results, and improvements to the Integrated Governance Guidelines, and has evaluated the compatibility between the Integrated Governance Policies and the application of these policies, and provided recommendations to the BNI Board of Commissioners regarding Integrated Governance policies and their implementation to ensure that Integrated Governance management has been carried out adequately in all Financial Services Institutions within the BNI Financial Conglomerate.

In particular, each Committee has a performance assessment of the committee members who come from independent parties or not from the Board of Commissioners. The committee chairman evaluates/assesses the performance of the committee members from independent parties every 6 (six) months or at any time. The evaluation or assessment includes Performance Assessment Indicators which include but are not limited to competency and expertise, quality of output, discipline and attendance level of the committee members concerned, as well as implementation of duties and obligations in accordance with the committee charter and work rules applicable to independent members of the committee under the Board of Commissioners. The results of the evaluation and assessment referred to are submitted as a recommendation to the Board of Commissioners to extend or continue or terminate the appointment of the members of the committee concerned.

The Board of Commissioners expresses its appreciation for the performance and implementation of tasks that have been demonstrated by all committees. Supports from the committees are the basis for the Board of Commissioners to be able to provide formal input to the Board of Directors to continue improving the Bank management.

WHISTLEBLOWING SYSTEM MANAGEMENT (WBS)

The existence of Whistleblowing System (WBS) is a part of BNI's commitment to making GCG principles the foundation of every aspect of BNI's daily operations and business. The WBS enables a reporting mechanism that guarantees the confidentiality of the informant. WBS implementation aims to detect early and prevent irregularities or violations in every aspect of the Bank's business activities. WBS can create a work climate that is open, sincere, honest and responsible within BNI. WBS is a form of active participation by BNI Hi-Movers to report violations that occur within BNI.

The Board of Commissioners' role in managing the BNI WBS includes conducting supervision to ensure the implementation of WBS with the auspice of the Audit Committee. The Board of Commissioners together with the Audit Committee and other units constantly evaluate and follow up on the reports received. Reports that are proven to be true based on the investigation results are followed up by imposing administrative sanctions in the form of giving Warning Letters to Termination of Employment (PHK) and other actions, including transfers and counseling.

Throughout 2022 the Internal Control (IC) or Internal Audit (IAD) has examined 60.7% of incoming reports. As a follow-up of the reports that have been examined and proved to have violations, BNI has given strict sanctions according to the weight of violations including in the form of layoffs to 6 employees who were proven to be fraudulent. Progress of WBS reports under examination process are always communicated to the informant through the WBS system.

Throughout 2022, there were 178 reports of alleged violations received through the WBS mechanism with the most complaints sent via emails, consisting of 43 reports outside the scope of the WBS and 135 reports within the scope of the WBS. Reports of violations were followed up by a research process conducted by IC and/or by IAD, where 54 reports were not proven/insufficient evidence, 28 reports were proven, and 53 reports are still in the process of being resolved. Of all WBS reports where research process was completed, several cases required firm action to be taken for violations categorized as fraud. For violations in the non-fraud category, sanctions were given based on the level of the violation committed. The number of incoming reports has increased compared to the previous year. This shows that BNI Hi-Movers is quite aware of the WBS existence and utilizes it as an independent reporting channel.

CHANGES TO BOARD OF COMMISSIONERS COMPOSITION IN 2022

Throughout 2022 there were changes to the Board of Commissioners composition based on the Extraordinary GMS resolutions held on August 31, 2022. The following table presents a chronology of changes to the Board of Commissioners composition.

Chronology of BNI Board of Commissioners Composition Throughout 2022		
Period of January 1 to August 31, 2022	Period of August 31 to December 31, 2022	Description
Agus Dermawan Wintarto Martowardojo (President Commissioner/Independent Commissioner)	Agus Dermawan Wintarto Martowardojo (President Commissioner/Independent Commissioner)	-
Pradjoto (Deputy President Commissioner/Independent Commissioner)	Pradjoto (Deputy President Commissioner/Independent Commissioner)	-
Sigit Widyawan (Independent Commissioner)	Sigit Widyawan (Independent Commissioner)	-
Asmawi Syam (Independent Commissioner)	Asmawi Syam (Independent Commissioner)	-
Iman Sugema (Independent Commissioner)	Iman Sugema (Independent Commissioner)	-
Septian Hario Seto (Independent Commissioner)	Septian Hario Seto (Independent Commissioner)	-
Erwin Rijanto Slamet (Independent Commissioner)	Erwin Rijanto Slamet (Independent Commissioner)	-
Askolani (Commissioner)	Askolani (Commissioner)	-
Susyanto (Commissioner)	Susyanto (Commissioner)	-
Ratih Nurdianti (Commissioner)		No longer served according to the EGMS resolution dated August 31, 2022.
	Fadlansyah Lubis (Commissioner)	Appointed based on the Extraordinary General Meeting of Shareholders resolution on August 31, 2022.

On behalf of the Board of Commissioners and all BNI Hi-Movers, I express my profound appreciation and gratitude to Ms. Ratih Nurdianti who has given her dedication to the progress of BNI, especially in carrying out the supervisory function of the Board of Commissioners, and actively participates in providing advice and suggestion to the Board of Directors and management of Bank Negara Indonesia.

Thus, the Board of Commissioners composition as of December 31, 2022 is as follows.

BNI Board of Commissioners Composition as of December 31, 2022			
Name	Position	Basis of Appointment	Effective Date of Appointment*)
Agus Dermawan Wintarto Martowardojo	President Commissioner/Independent Commissioner	Resolution of Annual GMS dated February 20, 2020	June 23, 2020
Pradjoto	Deputy President Commissioner/Independent Commissioner	Resolution of Annual GMS dated February 20, 2020	June 23, 2020
Sigit Widyawan	Independent Commissioner	Resolution of Annual GMS dated March 20, 2018	September 7, 2018
Asmawi Syam	Independent Commissioner	Resolution of Annual GMS dated February 20, 2020	June 23, 2020
Iman Sugema	Independent Commissioner	Resolution of Annual GMS dated February 20, 2020	August 19, 2020
Septian Hario Seto	Independent Commissioner	Resolution of Annual GMS dated February 20, 2020	August 19, 2020
Erwin Rijanto Slamet	Independent Commissioner	Resolution of Annual GMS dated March 29, 2021	August 6, 2021
Askolani	Komisaris	Resolution of Extraordinary GMS dated August 30, 2019	December 20, 2019
Susyanto	Komisaris	Resolution of Annual GMS dated February 20, 2020	August 3, 2020
Fadlansyah Lubis	Komisaris	Resolution of Extraordinary GMS dated August 31, 2022	December 23, 2022

*) The Board of Commissioners' position becomes effective after obtaining OJK approval for the Fit and Proper Test. This is in accordance with OJK Regulation No. 27/POJK.03/2016 dated July 22, 2016 concerning Fit and Proper Test for Main Parties of Financial Services Institutions.

CLOSING REMARKS

To all shareholders and investors, the Board of Commissioners expresses its gratitude for the trust given. We would also like to send our gratitude for the support provided by the regulators and the stakeholders. To the Board of Directors and all BNI Hi-Movers, allow us to express our pride in the performance they have shown. We hope that all the achievements in 2022 will become the foundation for BNI to continue growing in a sustainable manner, and to continue providing added value to shareholders and all stakeholders.

Jakarta, February 21, 2023
On behalf of PT Bank Negara Indonesia (Persero) Tbk
Board of Commissioners,

Agus Dermawan Wintarto Martowardojo
President Commissioner/Independent Commissioner

Board of Directors' Report

DEAR DISTINGUISHED SHAREHOLDERS AND STAKEHOLDERS,

As part of the economic pillars, the banking industry has an important role in creating socio-economic stability of the society. The intermediary role has given banking industry a position as a fundamental element in Indonesia's economic system. As an institution that provides comprehensive financial services, BNI certainly contributes to the stability of the Indonesian economy. For this reason, allow me representing the Board of Directors and all BNI Hi-Movers to submit a performance report of PT Bank Negara Indonesia (Persero) Tbk for the 2022 financial year.

ECONOMIC RECOVERY AND THE ROLE OF BANKING INDUSTRY

The Indonesian government has been working hard to accelerate recovery from the Corona Virus Disease 2019 (COVID-19) pandemic which has been hitting since 2020. This can be seen from the Indonesian economy in 2022 which is able to grow quite well, reach to 5.2%, an increase compared to the previous year's economic growth of 3.7%. This growth is mainly due to a relaxation in social and business activities, after in the previous 2 (two) years the Government of Indonesia has strictly implemented a policy of limiting activities in order to control the spread of COVID-19.

Challenges emerged when global inflation increased as the result of economic recovery and geopolitical conditions. This condition then also had an impact on Indonesia, which experienced an increase in inflation to 5.5% in 2022. Indonesia's success in controlling inflation cannot be separated from the interest rate policy role implemented by Bank Indonesia.

Although Bank Indonesia's benchmark rate was high enough to offset the rise in inflation, the high interest rate was considered quite conducive. In line with the program to accelerate national economic recovery, various policies were continued. This had a positive impact on the relatively stable performance of the banking industry in terms of capital, liquidity and financial intermediation.

Banking Third Party Funds (TPF) strengthened throughout 2022, which had a positive impact on national banking liquidity. Bank lending also recorded quite good growth, which was supported by steady demand for corporate and household consumption. Bank loans grew positively in almost all types of loans and in the majority of economic sectors. The growth of TPF at the end of 2022 was recorded at 9.0% YoY, while loans managed to grow 11.3% YoY. Interest rate of deposits from customers increased, showing that the national banking system was gradually responding to the increasing central bank's benchmark rate (BI7DRR). In general, the banking industry still showed stability, as reflected in the adequate capital adequacy ratio of 25.4% and the non-performing loans (NPL) ratio of 2.6%.

Banking liquidity at the end of 2022 was predicted to be well-maintained. This was most notably supported by the growth in TPF, which still recorded satisfactory performance amidst the post-COVID-19 economic recovery.

BNI STRATEGIC POLICIES IN 2022

One of the important adjustments in BNI management was conducted during the Extraordinary General Meeting of Shareholders (EGMS) held on August 31, 2022. In the EGMS, shareholders made changes to the nomenclature of the Board of Directors positions, as shown below.

CHANGES IN THE BOARD OF DIRECTORS' NOMENCLATURE

Before	After
Finance Director	Finance Director
Risk Management Director	Risk Management Director
Treasury and International Director	Treasury Director
Consumer Business Director	Consumer Banking Director
MSME Business Director	Enterprise and Commercial Banking Director
Information Technology and Operations Director	Technology and Operations Director
Human Capital and Compliance Director	Human Capital and Compliance Director
Institutional Relations Director	Institutional Banking Director
Services and Network Director	Network and Services Director
Corporate Banking Director	Corporate and International Banking Director

The above table shows the separation of Treasury and International, which used to be in 1 (one) directorate. Subsequently, International Banking was moved to be in the same directorate with Corporate Banking. This adjustment has further emphasized BNI's role in becoming a global bank that will provide services through its international network.

BNI has developed a strategic direction up to 2025 as "A Provider of Integrated Digital-Based Financial Solution with International Excellence". This strategic direction has become a unique value proposition BNI will build in the future by focusing on integrated, digital and international financial solutions.

In achieving this strategic direction, BNI has developed strategic initiatives in 5 (five) business pillars, namely Corporate Banking, Institutional Banking, International Banking, Commercial & SME Banking, and Consumer Banking, which are supported through the development of 7 (seven) enablers as business foundations, namely Digital, IT, Operations, Network & Services, Risk Management, Finance, and Human Capital.

The strategic initiative begins with the Enhancing the Basics phase focusing on improving the business foundations, with a view to to encourage sustainable growth of BNI. This initiative was developed in the period of 2021-2022. In an effort to achieve the predetermined targets, BNI has 2022 strategic policies as set out below.

BNI has improved assets quality through risk management optimization and disciplined loan process. BNI is transforming the end-to-end loan process to improve loan quality and enhance the risk culture, while continuing to improve Loan at Risk (LaR) by optimizing loan restructuring which focuses on priority sectors. In addition, loan quality is improved by enhancing the capability to understand market development and strengthening relationship to anticipate debtor business movements, as well as by optimizing the Remedial & Recovery process to accelerate loan quality improvement.

In terms of income and Third Party Fund (TPF), BNI seeks to maintain business sustainability by increasing Fee Based Income (FBI) and low-cost funds or Current Accounts/Saving Accounts (CASA) through the enhancement of services, solutions and programs to increase integrated transactions according to customers' business needs. In addition, in an effort to improve FBI and CASA, BNI also continuously increase debtor transactions by optimizing BNI Accounts, conducting cross selling and upselling through cross-segment and subsidiary product offerings, optimizing product bundling through data analytics, maximizing digital-based ecosystem to provide easy transactions, as well as continuing to increase Agen46 and digital channel transactions.

BNI also seeks to continue increasing selective business expansion and constantly providing financial solutions through the expansion of corporate segment loans focusing on the Top Tier priority sectors, as well as initiating green financing to support sustainable finance implementation initiatives. In 2022, BNI issued Green Bonds denominated in Rupiah with a maximum issuance value of Rp5 trillion. The proceeds from the Green Bonds issuance will be used to finance and refinance projects in the category of environmentally sound business activities (KUBL).

Business expansion was also carried out in the Micro, Small and Medium Enterprises (MSMEs) segment, especially MSMEs from the corporate value chain in leading sectors. The MSME segment plays an important role in the economic growth in Indonesia. This market segment absorbs 97% of Indonesia's workforce and contributes more than 60% of Indonesia's Gross Domestic Product (GDP). BNI has been working on the MSME segment on an ongoing basis through BNI Xpora with a view to increase the potential of "UMKM Go Global", which will certainly have a positive impact on BNI's overall business cycle. Moreover, BNI also supports the development of the MSME sector through distribution of People's Business Credit (KUR) and other programs.

The international market is also a concern. BNI seeks to increase global market expansion through accelerating international business strategies, through developing global banking transaction solution capabilities to increase trade, remittance and cash management businesses, as well as increasing transactions and expanding international business services through partnerships with fintech and third parties. With an extensive network of Overseas Branch Offices (KCLN), BNI seeks to strengthen the role of KCLN as a center of excellence in operations and business in the global market.

BNI's business development is also accelerated through the synergy between BNI and its business group, particularly its subsidiaries. BNI has an interest in making every subsidiary a market leader in each industry. This would be a positive impact both for the respective subsidiary and for BNI as the parent entity.

One of the most important efforts is the utilization of Capital Management by strengthening BNI's capital through several corporate actions and optimizing the use of capital distribution in businesses that provide competitive yields. Digitization is also an important point, especially in encouraging synergy within the BNI Group by increasing the digitization of business processes in subsidiaries through the synergy between BNI Parent Entity and partnerships.

Business process support is also an important part of BNI's strategies in 2022. This includes the enhancement of digital capability which is pursued both through innovation in digital-based internal business processes to meet customer needs and increasing partnerships through optimizing API Management. Digitalization is carried out in various aspects that will support BNI's effective, efficient and accountable operations and business, such as the utilization of data quality and data analytics, digital marketing to increase customer base and transactions, utilization of block chains, Digital Risk Mitigation, and the development of digital tools for Risk Management and sales.

Equally important is business process support through Human Capital (HC) and operations. As a fundamental element in banking services, developing and strengthening HC and operations is one of the continuing strategies BNI adopts every year. BNI relentlessly optimizes talent management and workforce planning in an effort to support business development, while of course continuing to improve HC capabilities to understand market developments, risk culture, global banking, digital mindset, and advanced analytics. On the operational side, BNI is aware of the importance of Information Technology (IT) and continues to improve IT capabilities to support digitalization as previously mentioned. BNI also continues to evaluate and improve the operating model so that the operating model can run in a more agile and flexible manner to support business processes and digitalization. Not forgetting, organizational design is a consideration to support efficiency and effectiveness in the digitalization era.

BNI CORPORATE TRANSFORMATION

The above-mentioned strategic policy measures were then outlined in the BNI Corporate Transformation Program which had been initiated since the previous year. This program is carried out to respond to various challenges and changes in the banking industry, accelerate financial performance improvement in a sustainable manner, and serves as BNI's effort to achieve strategic direction in 2025 through the development of strategic initiatives (transformation). The BNI Corporate Transformation initiatives have begun to be implemented at all levels of the organization at the Head Office, Regional Offices and Branch Offices. BNI Corporate Transformation strategic initiatives are emphasized on 5 (five) business focuses, namely:

1. The strengthening of BNI as the parent entity in strengthening its existence in the banking industry. In 2022, BNI acquired Bank Mayora which is being

prepared to become a Digital Bank and focus on encouraging the MSME segment business in Indonesia. The presence of this Digital Bank will enhance BNI's service penetration in the MSME segment, as well as provide faster and more flexible development of financial service features.

In addition, BNI also established PT BNI Modal Ventura ("BNI Ventures") as a subsidiary engaged in providing venture capital. BNI Ventures is expected to be able to support the development of technological innovation, accelerate BNI's digital transformation, and provide synergistic value creation in the future.

Additionally, BNI also strengthened its holding company through an addition to the equity participation in PT Bank Syariah Indonesia Tbk ("BSI"). On December 19, 2022, BNI exercised a capital addition of Rp500,000,000,000 (five hundred billion rupiah) through Partial Preemptive Rights. With this capital addition, the number of BNI shares increased to 10,720,230,418 shares so that the percentage of BNI's share ownership became 23.24%. The capital addition was intended to strengthen BSI's capital which can be channeled in the form of financing, to strengthen BSI's business growth, and to support BSI's achievement of becoming a Top 10 Global Islamic Bank.

2. Enhancement of loan quality through a more prudent loan process discipline.
To respond to the COVID-19 pandemic challenges, especially in managing the potential decline in bank loan quality due to delayed loan payments, BNI has developed the End to End Credit Process and Loan at Risk (LaR) management initiatives to improve loan quality, discipline the credit process, supported by the provision of tools to ease the loan management and increasing awareness of risk culture. By doing these initiatives, BNI can reduce NPLs, reduce Credit Cost and BOPO ratio, and minimize allowance which ultimately have an impact on increasing BNI's income.
3. The shifting of business focus to become a provider of banking solutions and ecosystem development.
The increasingly competitive banking condition has pushed BNI to develop institutional business solution initiatives and increase cross selling that focuses on top tier customers to provide banking solutions. This service is not only limited to products and services owned by BNI, but also optimizes products and services from the BNI Group. Through this initiative, BNI's top tier customer portfolio has increased, institutions and institutional customers are managed in an integrated manner, as well as an increase in

business volume which is reflected in an increase in business transactions, loans, to the FBI.

BNI has also developed banking solutions through business ecosystems, such as the establishment of the BNI Xpora ecosystem. In the BNI Xpora initiative, BNI encourages MSMEs to be able to market their products to the global market by developing the concepts of go digital, go productive, and go global, and establish 7 (seven) Hubs spread across several strategic locations to capture the international market-oriented MSME business potential. The management of export-oriented MSME customers has an impact on increasing the volume of trade finance, debit balances, FBI, and low-cost funds.

BNI has also strengthened its international business and expanded its international network, such as the opening of BNI Amsterdam Overseas Branch Office.

4. Operational improvements on business processes, channels, and IT.
Business development is certainly followed by more efficient and faster operational processes as well as high accuracy. In this regard, BNI has developed several initiatives to support business processes, including:
 - a. Improvement of operational processes starting from loan documentation process to operational improvements in business channels;
 - b. New channel model to ease the customers accessing BNI channel, by mapping channel based on customer needs; and
 - c. Solid IT Capability updates in digital development supported by strengthening cybersecurity.
5. Increasing productivity through new, more flexible ways of working.
To support the faster business development process, BNI increases employee productivity by changing ways of working to be more agile through the New Way of Working (NWOW) initiative and improving performance management (channel, products and segments) to increase performance awareness. Moreover, BNI also continues to develop talent management in preparing future leaders.

BOARD OF DIRECTORS' ROLE IN THE COMPANY'S STRATEGIC POLICY

BNI periodically in every year compiles strategic policies contained in the Bank's Business Plan (RBB) which are then reported to the Financial Services Authority (OJK). The preparation of this RBB also refers to the Corporate Plan prepared for the next 5 (five) years with the main foundation

being the established vision and mission. The Corporate Plan and RBB are prepared by the Board of Directors with supervision and directions from the Board of Commissioners.

The strategic policies as described in the discussion of "BNI Strategic Policies for 2022" and "BNI Corporate Transformation" above, are carried out by all units related to the main tasks and functions of each unit. The Board of Directors plays an active role in ensuring that each unit understands the main tasks and functions being carried out therefore the previously determined work plan can be achieved. The Board of Directors also has a position as a strategic decision maker, especially regarding matters that require the highest level of decision making on aspects of product development, business, marketing and sales, to risk management and bank governance.

BNI PERFORMANCE GROWTH

With all the strategies and policies implemented throughout 2022, BNI has shown performance that can become the foundation for sustainable growth. BNI's total assets in 2022 increased by 6.7%. The growth in these assets was mainly influenced by a 10.9% increase in loans from Rp582.4 trillion in 2021 to Rp646.2 trillion in 2022. Loans, or also known as credit disbursed by the Bank, have the largest contribution to total BNI's assets with a composition of 62.7% in 2022 from 60.4% in the previous year, which reflects BNI's core business as a loan provider. This growth in lending was offsetted by a stronger loan quality, where the NPL Gross in 2022 was 2.8%, down from 3.7% the previous year.

On the other hand, other earning assets in the form of Government bonds, which contributed 11.8% to BNI's total assets, increased by 8.9%, from Rp111.4 trillion in 2021 to Rp121.3 trillion in 2022. In addition, Current Accounts in Bank Indonesia, which has the third largest contribution with a composition of 8.1%, also experienced a significant increase of 70.3% or the equivalent of Rp34.2 trillion from Rp48.7 trillion in 2021 to Rp82.9 trillion in 2022. Almost all BNI's assets increased.

BNI's liabilities also grew well, increasing by 6.1% to Rp889.6 trillion in 2022. This increase in liabilities was mainly supported by an increase in customer deposits or TPF which grew 5.5%, from Rp729.2 trillion in 2021 to Rp769.3 trillion in 2022. This growth in TPF is strengthened by an increase in the ratio of low-cost funds, or CASA, from 69.4% in 2021 to 72.4% in 2022. This growth in customer deposits is needed to support the Bank's core business in lending.

Good business management has a positive impact on BNI's income performance. Interest income and sharia income grew 9.3% from Rp50.0 trillion in 2021 to Rp54.7 trillion in 2022, with operating income increased by 10.0% from Rp55.9 trillion in 2021 to Rp61.5 trillion in 2022. Net income, or income attributable to equity holders of the parent entity, increased by 68.0% from Rp10.9 trillion in 2021 to Rp18.3 trillion in 2022.

This promising income performance has a positive impact on financial ratios. Return on Equity (ROE) and Net Interest Margin (NIM) recorded an increase compared to the previous year. In line with this increase in profitability, BNI was able to manage effective and efficient operations, where the Cost of Fund (CoF) ratio, Operating Costs to Operating Income (BOPO), and Cost to Income Ratio (CIR) reflect a fairly good efficiency ratio. CIR was recorded to have improved from 1.6% in 2021 to 1.5% in 2022. BOPO also recorded quite good results, from 81.2% to 68.6%. Likewise with CIR which recorded a yield of 42.6%, an improvement from the previous year of 43.3%.

TARGET ACCOMPLISHMENT IN 2022

BNI's target accomplishment is reflected in the realization of the 2022 RBB. In compiling the RBB, BNI uses various macro and micro assumptions, including global and national economic growth, inflation rate, Rupiah exchange rate, BI-7 Days Reverse Repo Rate reference rate (BI-7DRRR), as well as growth in bank loans and TPF.

By mapping the risks from the impact of the COVID-19 pandemic and a number of predetermined assumptions, BNI has been quite successful in achieving the targets set out in the RBB. When compared to the 2022 target, loan distribution was able to exceed the loan distribution target, with an achievement of 100.77%. This relatively good loan distribution performance was offsetted by the gross NPL ratio which was below target. Meanwhile, deposits from customers were able to record a target achievement of 104.35%. This achievement in customer deposits was obtained in particular from the realization of collection of current account funds which reached the target quite well. Although time deposits achievement was below the target, the good performance of demand deposits and savings had a positive impact on the growth of BNI's low-cost funds.

Likewise with profitability. Realization of net income recorded the achievement of the 2022 target of 114.93%, supported by the realization of Return on Assets (ROA), ROE and NIM which exceeded the 2022 target. BNI also managed to achieve efficiency, with the realization of BOPO and CIR below the 2022 targets. BNI's capital also recorded a good performance, as the realization of the Minimum Capital Adequacy Ratio (CAR) in 2022 was 19.27% with a target achievement of 103.71%. This certainly indicates BNI's success in formulating strategies in early 2022 and implementing these strategic policies throughout 2022.

OBSTACLES, CHALLENGES, AND SOLUTIONS

The biggest challenge for BNI in particular and the national banking industry in general arises from external factors, especially the global economy which has an impact on national economic conditions. As stated above, the global economic recovery in various countries has had an impact on increasing purchasing power and consumption in various countries, which in turn has created high inflation.

The high global inflation which is caused by several things also hit Indonesia. The momentum for a simultaneous recovery in global demand has not been accompanied by the same speed of recovery in global supply chains, which were disrupted during the COVID-19 pandemic. In addition, the geopolitical tensions between Ukraine and Russia are causing pressure on global supplies of food and energy.

One of the Indonesian Government efforts to reduce the inflation rate was carried out by adjusting the benchmark interest rate by Bank Indonesia. This certainly has an impact on the lending policies carried out by banks, including BNI. An increase in interest rates will certainly have an impact on the Cost of Fund (CoF) which will ultimately have an impact on BNI's profitability. Facing these conditions, BNI seeks to expand and accelerate selective credit, which is balanced with efforts to maintain asset quality as expected. This strategy proved to be quite successful, in which BNI was still able to increase the value of loans while being offsetted by a decrease in NPLs.

In addition, BNI also faces a challenge related to increasingly tight banking liquidity. BNI's strong capital provides its own optimism in addressing this challenge. To maintain its profitability, BNI seeks to increase its low-cost funds, which are expected to have a positive impact on low interest expenses. This strategy proved to be quite successful, where the ratio of low-cost funds or CASA recorded a fairly good increase, which could provide benefits for BNI's profit performance.

BUSINESS PROSPECTS FOR 2023

The year 2023 will have its own challenges, especially with inflationary pressures as a continuation of global inflation. The inflation has been occurring since 2022, the potential for an economic slowdown, and geopolitical conflicts have not shown signs of ending.

However, Indonesia's economy is expected to continue to grow stronger compared to most other countries, with projected growth of 5.0%. Inflation is expected to decline in line with the easing of the impact of rising fuel prices. The strong fundamentals of the Indonesian economy are expected to be able to provide a special attraction for foreign capital flows, which will then have a positive impact on the Rupiah exchange rate against the United States Dollar. It is estimated that Bank Indonesia's benchmark interest rate still has the opportunity to increase in line with the anticipation of Rupiah volatility and adjustments to monetary tightening policies in the United States.

From the banking industry perspective, the national economy stability will be a catalyst for healthy business growth. BNI predicts Indonesia's economic growth in 2023 is at of 5%, with industrial loan growth in the range of 7.0% to 9.0% and industrial deposit growth of 7.2% to 8.5%.

In 2023, BNI projects quality business growth, with a loan growth target in the range of 9.0% to 10.0%, and Gross NPL is kept lower than 2.5%. To support this credit distribution, deposit growth is projected in the range of 6.0% to 7.0%. With an optimal composition of assets and liabilities, the Net Interest Margin (NIM) is projected to be above 4.8%, with an average ROE of balance sheet equity projected in the range of 15.7% to 16.0%.

To achieve this projection, BNI is pursuing various strategic steps to be taken in 2023, namely:

1. Developing transaction and ecosystem solutions to meet customer needs.
2. Developing technology infrastructure and digital innovation through data driven based on analytics, customer experience, and expanding partnerships.
3. Focusing on continuous improvement of CASA and FBI.
4. Increasing business expansion in the corporate top tier and priority sectors, value chains and cross selling by prioritizing a risk culture.
5. Continuing the transformation of HC, Culture and Operations to be more agile and lean in supporting the business.
6. Strengthening international business networks to support global market penetration.
7. Optimizing BNI Group synergy in strengthening the position of subsidiaries.

IMPORTANT CHANGES OCCURING IN THE BANK AND THE BANK'S BUSINESS GROUP

In 2022, BNI carried out a series of corporate actions which resulted in several changes within the business group, namely:

1. On May 18, 2022, BNI signed the deed of acquisition of PT Bank Mayora shares and signed the deed of sale and purchase of shares which marked the effective acquisition of PT Bank Mayora by BNI. The approval for this corporate action plan was also already obtained. The acquisition was approved by BNI shareholders at the BNI Annual General Meeting of Shareholders on March 15, 2022. With the effective acquisition of Bank Mayora's shares, BNI was recorded as owning 1,198,229,838 shares of Bank Mayora or representing 63.92% of the total issued and fully paid shares, while 36.08% of the shares were owned by PT Mayora Inti Utama.

2. On April 12, 2022 BNI established a venture capital company under the name PT BNI Modal Ventura or also known as "BNI Ventures". This subsidiary will later be able to collaborate, one of which is in the form of participation in startup companies.
3. In its implementation, BNI deposited Rp500 billion or the equivalent of 500 thousand shares. For this placement, BNI was recorded as owning 99.98% of the total issued shares, while the remainder was owned by PT BNI Asset Management.

On December 19, 2022, BNI made additional equity participation in PT Bank Syariah Indonesia Tbk ("BSI") of Rp500 billion by exercising part of BNI's Pre-emptive Rights (HMETD) of 500,000,000 HMETD with an exercise price of Rp1,000 per HMETD.

The transaction is intended to strengthen BSI's capital where the use of proceeds will be channeled in the form of financing to support BSI's business growth, including to support the accomplishment of its set Vision, namely as a Top 10 Global Islamic Bank.

After the transaction was exercised, total shares owned by BNI in BSI increased to 10,720,230,418 shares. The percentage of BNI's shareholding in BSI was diluted to 23.24%.

SERVICE NETWORK DEVELOPMENT

The service network is part of the banking services provided by BNI to customers. The development of BNI services and networks is carried out by optimizing office networks (outlets), electronic networks, BNI Agen46 and carrying out various process improvements. Strengthening sales management at outlets is also a BNI's strategy in an effort to increase solution-based productivity for customers. Therefore the Product Holding Ratio (PHR) is getting better and creating a customer transaction ecosystem (closed loop transaction).

In 2022, BNI focused on transforming office networks towards digitizing and optimizing business outlets and services by relocating 78 outlets to potential areas/ business centers, and rationalizing 97 outlets consisting of 3 (three) Sub-Branch Offices (KCP), 46 Offices Cash, 47 Payment Points, and 1 (one) Money Changer by merging outlets in a clustering/consolidation/ simplification manner as a consolidation strategy with a focus on increasing coverage area to optimize business potential and productivity. In addition, BNI continues to encourage Outlet Business Optimization (OBO) of Sub-branch offices by granting them the authority to make loan decisions supported by digital processing capabilities.

In addition to restructuring the office network, BNI added 104 BNI DigiCS as part of the electronic network to support business and service outlets and relocated 1,043 ATM-CRM-BNI DigiCS. BNI also focuses on increasingly modern banking services by improving business processes and making services at branches

simpler according to customer expectations with digital service devices such as BNI DigiCS, T-Care, and Self Service Passbook Printers.

HUMAN CAPITAL MANAGEMENT

Human Capital is essential in realizing BNI's vision and mission to become the Best Financial Institution in Sustainable Finance and Performance. For this reason, BNI carries out Human Capital management by continuing to innovate and consistently developing its employees' capabilities so that they can adapt according to increasingly rapid business changes. Many initiatives have been carried out in the human capital aspect in implementing employee management optimization strategies, including:

1. Strengthening the Human Capital function into 2 (two) focuses, namely Human Capital Strategy and Human Capital Services. Human Capital Strategy has the authority to set policies, and Human Capital Services has the authority to carry out optimal operationalization of guidelines for all employees.
2. Strengthen the role of business partners to focus more on strategic functions to partner with work units and provide solutions related to human capital aspects to support the achievement of business targets.
3. One of the priorities in human capital management at BNI is to ensure the availability of employees in functions that support the achievement of BNI's business strategy. In line with the Bank's business strategy, this year's recruitment will continue to focus on credit, risk, and digital/IT functions, including recruiting the best talents in the market to fill positions both at BNI and in the BNI Group to make them more competitive.
4. BNI understands that Human Capital needs to be managed in a structured system, taking into account external provisions that are long-term oriented and paying attention to best practices in the industry. Therefore, BNI has made improvements to its human capital policy in line with the Integrated Human Capital Framework, which covers the end-to-end human capital life cycle from planning to employee resignation or retirement.
5. To encourage increased employee productivity and as a form of BNI's readiness to adopt an agile organization, strengthening the performance management aspect is carried out through the implementation of a more dynamic individual performance management system. This strengthening is carried out through a shorter monitoring cycle so that if there are gaps and areas of improvement, feedback can be given more quickly so that improvements can be made immediately.
6. The remuneration strategy implemented at BNI aims to foster a performance culture, increase the effectiveness in attracting, motivating, and retaining targeted talent groups. One of the initiatives that have been implemented is the Employee Stock Allocation (ESA) Program which is carried out to increase employee motivation and sustainable performance, increase employees' sense of belonging to the company, and as a retention effort.

7. Carrying out a culture transformation that aims to ensure alignment between values and the company's vision, mission and strategy. In the implementation of strengthening values, a Roadmap is needed, which contains a number of work programs. This Cultural Transformation Strategic Roadmap serves as the basis for implementing the cultural transformation program in the next few years.
8. As a form of making BNI the best place to learn, grow, and contribute to Indonesia (Learn, Grow, and Contribute to Indonesia), BNI always provides support for employees to develop themselves. BNI offers full scholarships for employees who are able and those who want to continue education S2 (Postgraduate) in the Top 50 Universities worldwide through the Global Postgraduate Program. In addition, BNI provides opportunities for employees at the executive level to participate in overseas executive education in collaboration with world-class Business Schools, including Harvard Business School, Stanford Business School and the Massachusetts Institute of Technology.

INFORMATION TECHNOLOGY OPTIMIZATION

During 2022, BNI continued its digital transformation initiatives, by referring to the BNI Corporate Plan and IT Strategic Plan (ITSP), to address business development needs, and to optimize the Bank operations. There are 3 (three) key focuses of the IT Strategic Plan (ITSP), namely Business Innovation & Transformation, Service Resilience for sustainable growth, and Transformation into an Agile Digital IT Organization.

The IT strategy was implemented within a corridor of effective and comprehensive IT governance, so as to mitigate risks while still providing added value to the Bank. BNI's IT Governance Implementation was carried out by aligning the IT Strategic Plan with the Bank's business strategy, optimizing resources, utilizing IT, measuring performance, and implementing effective risk management while still complying with the provisions of the Financial Services Authority and Bank Indonesia regulations.

The five main IT programs based on BNI's IT Mission and Strategy included: Digital Innovation (Through Data Driven, Customer Experience, and Operational Excellence), Accelerate Business Expansion with Risk Oriented Culture, Technology Modernization to Support Business, Strengthen IT Hygiene to Enable Service Resilience, IT Agile and Lean Organization.

BNI continuously maintains and increases the capacity of its IT systems by applying the latest technology, as well as by increasing the system capabilities to support the business and services. BNI has 3 (three) Data Centers (2 DC, 1 DRC) and regularly tests the Disaster Recovery Plan (DRP), and Switch Over & Switch Back (SO-SB), to test the backup systems capability in running its services, especially for critical and transactional applications to provide a sense of security and trust from customers.

BNI has an Information Security Unit that handles all information security activities at BNI, including: security governance, data security, security access control, security business process, security application development, operational information security, digital forensics, cybercrime incident handling & monitoring.

BNI has implemented a digital transformation program by applying a digital technology mindset, established an employee culture in line with BNI's transformation. BNI had also made changes to its organizational design, and implemented new ways of working, so that BNI can optimally collaborate with peers, fintech and startups and the digital ecosystem.

BNI's IT advantages in supporting its business, include the following:

1. Artificial Intelligence (AI) to provide better service to clients and customers.
2. Development of "BNI Ready to Metaverse", a BNI virtual world containing a number of BNI products that can be accessed through cross-platform metaverse channels.
3. Using Robotic Process Automation (RPA) to automate repetitive and rule-based business operations.
4. A data center infrastructure supported by a disaster recovery center that guarantees maximum service availability.
5. Optimum security through the BNI channel cybersecurity.
6. Big Data Platform and Data Warehouse for the development of bank wide reports and analytics.
7. Using biometric technology as a validation method based on unique physical properties.
8. Using Watchlist Filtering (WLF) in the Anti Money Laundering application as a real-time screening process for potential BNI customers.
9. Fraud Detection System (FDS) for early detection of fraudulent transactions in the E-Banking channels.

10. Developing a Digital Loan System to increase the product delivery speed, efficient processing, connection flexibility via API, and support for BNI's retail loan business.

DEVELOPMENT OF BANK GOVERNANCE IMPLEMENTATION

Having the status as a public company as well as a state-owned enterprise bank, BNI is highly obliged to carry out operations and business management in compliance with applicable laws and regulations, which are then set forth in the implementation of Good Corporate Governance (GCG). The implementation of GCG principles is primarily based on 5 (five) basic principles, namely transparency, accountability, responsibility, independence and fairness, which have proven to be a reference for responsible decision making, avoiding conflicts of interest, optimizing performance, and increasing accountability.

Management continuously strives to create, develop and improve itself in accordance with GCG principles with a view to improve the quality of GCG implementation within BNI. In order for the implementation of GCG principles and practices to achieve its ultimate goal, which is to become part of the values and culture, BNI considers it important to socialize GCG to all BNI Hi-Movers. BNI periodically socializes GCG to employees and all stakeholders, either through appeals, meetings, Sharing Sessions, webinars, delivering modules/materials, training, signing integrity pacts, as well as installing outdoor media and publications in the mass media. This GCG dissemination is expected to provide understanding and awareness of all stakeholders, especially BNI Hi-Movers, to be able to implement business ethics within BNI.

To be able to monitor the implementation of GCG comprehensively, BNI conducts assessments to fulfill compliance or voluntary assessments. As have been done in previous years, in 2022 BNI participated in the Corporate Governance Perception Index (CGPI) organized by The Indonesian Institute for Corporate Governance (IICG), and conducted an assessment of the ASEAN Corporate Governance Scorecard (ACGS) by the ASEAN Capital Market Forum. The 2022 CGPI rating gave BNI a score of 91.66, an increase compared to the 2021 CGPI rating of 91.60. While the results of the ACGS assessment for 2022 showed that BNI's overall weighted score was 106.02 points and was included in the title of "Leadership in Corporate Governance" or Level 5. This means that BNI's GCG practices as a whole have adopted international standards. This achievement increased compared to the previous year, where BNI received a score of 97.33 with the title "Very Good". These two assessments, as well as other compliance assessments, have provided input for BNI to continue making improvements going forward and enhance the implementation of GCG principles.

In particular, management emphasizes integrity as the main key to implementing GCG principles and practices. Management has a high commitment to continue cultivating integrity as an integral part of the competency and capacity development of human capital. It is only with integrity, BNI organization will be able to achieve its vision.

ASSESSMENT OF THE PERFORMANCE OF THE COMMITTEES UNDER THE BOARD OF DIRECTORS

In carrying out its management duties, the Board of Directors has formed supporting organs according to BNI's business needs and regulatory provisions that are expected to create operational effectiveness and efficiency, including:

1. Credit Committee;
2. Credit Policy Committee;
3. Business Committee;
4. Asset & Liability Committee (ALCO);
5. Human Capital (HC) Committee;
6. Performance Management Committee;
7. Risk Management and Anti-Fraud Committee;
8. Technology Management Committee;
9. Integrated Risk Management Committee;
10. Subsidiary Committee.

Throughout 2022, the Board of Directors considers that the Committees under the Board of Directors have performed their respective functions properly, according to the purpose of their formation. This is based on the realization of fulfilling the duties of each Committee in accordance with the Committee Charter, competencies and skills, as well as the level of attendance of the Committee members in the committee meetings.

ENCOURAGING THE IMPLEMENTATION OF SUSTAINABLE ESG

BNI realizes that the progress and success of the Bank's performance cannot be separated from the environmental and social impacts arising from the activities carried out. The impacts or consequences arising from an event or activity have become a factor BNI takes into account in all operational and business schemes carried out. These include the consequences or impacts that occur, and stakeholders who are affected by banking activities carried out by BNI.

After in 2021 BNI formed ESG Sub Committee under the Risk Management & Anti-Fraud Committee, in 2022 BNI continued to make organizational improvements by forming an ESG Implementation Coordinating Group. BNI also partners with consultants to provide assistance in the process of preparing ESG framework, roadmap and implementation within BNI.

BNI also evaluates the implementation of Sustainable Finance using the Morgan Stanley Capital Investment (MSCI) rating method which can be seen in this annual report. For BNI, sustainability is part of the commitment to realizing the vision and mission, and to create a better future for all stakeholders.

BNI continues to increase its commitment to support sustainable finance in ESG in line with the increasing trend of sustainable business investment. For this reason, BNI has collaborated with several corporations for the Sustainability Linked Loan (SLL) program, where throughout 2022 BNI has distributed SLL of USD355 million (equivalent to Rp5.3 trillion) to top tier debtors who also have the same spirit in supporting aspects ESG.

INFORMATION ON THE BOARD OF DIRECTORS' COMPOSITION IN 2022

Throughout 2022 there were changes to the nomenclature and composition of the Board of Directors pursuant to the resolutions of the Extraordinary GMS held on August 31, 2022. The following presents a chronology of changes to the nomenclature and composition of the Board of Directors.

FINAL WORDS

For all the success recorded in 2022, please allow the Board of Directors to express our gratitude to God Almighty, as well as our appreciation to all shareholders and investors for the trust given. We would also like to show our respect and gratitude to the Board of Commissioners for the direction and strategic partnership in managing BNI's operations and business. Likewise to regulators, customers, suppliers, and business partners, we would like to thank you all for the cooperation that has been created.

To all BNI Hi-Movers, the Board of Directors would like to express our highest appreciation for the dedication shown. These accomplishments would form a foundation for BNI to optimize its potential and achieve its best performance in the future.

PT Bank Negara Indonesia (Persero) Tbk (hereinafter referred to as “BNI” or “Bank”) was officially established by the Government of the Republic of Indonesia on July 5, 1946 through Government Regulation in Lieu of Law No. 2 of 1946 concerning the Establishment of Bank Negara Indonesia (BNI), referred to as the 1946 BNI Law dated July 5, 1946. Through this Regulation, BNI, which was previously named “Poesat Bank Indonesia” as a foundation legal entity, officially became “Bank Negara Indonesia” and carried out its functions as a circulation/central bank and a commercial bank.

As a circulation/central bank, BNI had the sole right to regulate the issuance and circulation of Oeang Republik Indonesia (ORI) within the boundaries of the territory of the Republic of Indonesia. Apart from its function as a circulation bank, Bank BNI also functioned as a commercial bank, continuing the work of the previous Poesat Bank Indonesia. The inauguration of BNI was held in Yogyakarta on the first anniversary of the Proclamation of Indonesian Independence on August 17, 1946.

In the Round Table Conference which ended on November 2, 1949, BNI’s status as a central bank was removed and De Javasche Bank was designated as the Central Bank, while BNI was designated as a Development Bank.

On February 4, 1955, through Emergency Law No. 2 of 1955 concerning Bank Negara Indonesia, BNI was designated as a commercial bank. Then in 1961, this Emergency Law was made into law. Based on this law, BNI’s duties and business activities were to assist and promote people’s prosperity and national economic development.

In 1965, through Presidential Decree No. 17 of 1965 concerning the integration of State Commercial Banks and Bank Tabungan Pos into a single bank, BNI again underwent a name change to “Bank Negara Indonesia Unit III”.

In 1968, through Law no. 17 of 1968, which specifically regulated the business activities of Bank Negara Indonesia, it stipulated that the official name “Bank Negara Indonesia Unit III” be changed to “Bank Negara Indonesia 1946”. Through this law, BNI received a mandate to improve the people’s economy and participate in national development.

In 1992, through Government Regulation no. 19 of 1992 dated April 29, 1992 concerning the Adjustment of the Legal Form of Bank Negara Indonesia 1946 to become a Limited Liability Company (Persero), BNI underwent an adjustment in its legal form to become a Limited Liability Company (Persero). Through Government Regulation no. 19 of 1992, Bank Negara Indonesia 1946 was declared dissolved with the provision that all rights and obligations, assets and employees of Bank Negara Indonesia 1946, which existed at the time of its dissolution, be transferred to the Limited Liability Company (Persero).

The adjustment of this legal form was also recorded as a milestone in the re-establishment of the Limited Liability Bank (Persero) Bank Negara Indonesia, where its establishment has the aims and objectives, as explained in Article 2, Chapter II, Government Regulation No. 19 of 1992, namely to conduct business in the banking sector in the broadest sense, and other businesses that support these business activities.

The adjustment in the legal form to a Persero was confirmed through Notary Deed No. 131, dated July 31, 1992, drawn up before Muhani Salim, S.H., and approved by the Minister of Justice of the Republic of Indonesia No. C2-6582.HT.01.01.TH.92 and announced in the Republic of Indonesia State Gazette No. 73 dated September 11, 1992 Supplement No. 1A.

In 1996, BNI listed its shares on the Jakarta Stock Exchange and the Surabaya Stock Exchange (now IDX), this step made BNI the first BUMN bank (State Owned Enterprise) to become a public company. The listing of shares on the Stock Exchange aims to strengthen the financial structure and increase business competition in the banking world. Other corporate action steps taken by BNI included a recapitalization process by the Government in 1999, the divestment of Government shares in 2007, and a limited public offering in 2010.

To fulfill the provisions of Law 40 of 2007 dated August 16, 2007 on Limited Liability Companies, BNI’s Articles of Association were amended. The amendments were stated in Deed No. 46 dated June 13, 2008, made before Fathiah Helmi, S.H., notary in Jakarta, based on an Extraordinary General Meeting Shareholders decision dated May 28, 2008, which was approved by the Minister of Justice and Human Rights of the Republic of Indonesia, by Decree AHU-AH.01.02-50609 dated August 12, 2008 and published in the Republic of Indonesia State Gazette No. 103 dated December 23, 2008, Supplement No. 29015.

The latest amendment to the BNI Articles of Association were included in Deed No. 23 dated April 20, 2021 made before Notary Fathiah Helmi, S.H., and approved in the Ministry of Law and Human Rights of the Republic of Indonesia Decree No. AHU-AH.01.03.0264697 dated April 26, 2021.

In 2022, BNI continued to develop and strengthen its steps as a “development agent” through continuous transformation to provide the maximum performance boost during the economic recovery period. One of the efforts taken was in digital transformation by acquiring a national private bank, PT Bank Mayora, on May 18, 2022, with a 63.92% share ownership, while PT Mayora Inti Utama (MIU) owns 36.08%. The acquisition was carried out to support the Company’s transformation into an integrated digital bank and is expected to have a positive impact on BNI’s performance going forward.

As well as acquiring Bank Mayora, BNI also established a new subsidiary engaged in venture capital, called PT BNI Modal Ventura. The deed of establishment was signed on April 12, 2022, with BNI owning 99.98% of the shares, while the remaining 0.02% are owned by PT BNI Asset Management. The establishment and equity participation in PT BNI Modal Ventura is part of BNI's strategy in response to the potential for digital banking development in the future, a strategic vehicle for the BNI group has been established to support the development of technological innovation within the company while carrying out its mission to strengthen a healthy ecosystem in the venture capital and startups industry.

Currently, 60% of BNI shares are owned by the Government of the Republic of Indonesia and 40% are owned by the public, both domestic and foreign individuals and institutions. BNI is supported by a number of subsidiary companies in order to strengthen its integrated financial services, including BNI Multifinance, BNI Securities, BNI Life Insurance, BNI Remittance Ltd, PT Bank Mayora, and PT BNI Modal Ventura.

BNI also offers depository and loan facilities for the corporate, medium and small segments. Some of the key products and services have been adapted to the needs of customers ranging from childhood, youth, adulthood, to retirement. BNI is now listed as one of the largest national banks in Indonesia, in terms of total assets, total loans and total third party funds.

CHANGE OF NAME

BNI is a historic bank, and has a long history in line with the history of the Indonesian nation's struggle for independence in 1945. In its journey to 2022, BNI has undergone 3 (three) name changes, as described in the following table:

NO.	NAME	REASON FOR CHANGE	EFFECTIVE DATE OF NAME CHANGE
1	Bank Negara Indonesia 1946	In 1968, through Law no. 17 of 1968, the Government reorganized BNI's business activities and changed the name of Bank Negara Indonesia Unit III to Bank Negara Indonesia 1946.	1968
2	Perusahaan Perseroan (Persero) Bank Negara Indonesia	Due to adjustments in the legal form by the Government of Indonesia through Government Regulation No. 19 of 1992 dated April 29, 1992 concerning the Adjustment of the Legal Form, Bank Negara Indonesia 1946 became a Limited Liability Company (Persero).	April 29, 1992
3	PT Bank Negara Indonesia (Persero) Tbk	Due to an adjustment through Law no. 40 of 2007 concerning Limited Liability Companies, BNI added "PT" as a limited liability company and "Tbk" as a public company.	June 13, 2008

Company Brand

SERVING THE COUNTRY, PRIDE OF THE NATION

The Slogan **“serving the Country, the Pride of the Nation”** is the philosophy and vision of the Bank to give high impact that can be felt by all of Indonesian people.

As the first state bank in Indonesia that was established on July 5, 1946, and popularly known as BNI 46, the number 46 is chosen as the BNI Logo to further strengthens the corporate signature as a state-owned bank that has been in operation for 75 years. The colour scheme in the BNI 46 logo is dominated by orange, symbolizing the spirit of BNI that continues to move forward to compete and be agile in capturing business opportunities in the digital era, so as to become a leading digital financial institution. Orange also illustrates the new passion, in which BNI always innovates continuously to serve all segments of Indonesian people. In addition, orange also conveys the message that BNI has a strong belief to achieve expectations and always shine throughout time. Meanwhile, the turquoise color on the BNI logo reflects the strength, authority and stability of BNI, as well as implies a unique and modern image.

As a comprehensive and trusted digital financial institution, BNI will continue to provide digital innovation experience, both in terms of corporate and consumer banking, for people throughout the country. Since 2021, BNI has established a value proposition for a Digital-Based Integrated Financial Solution Provider with International Excellence.

Vision, Mission and Corporate Culture

Board of Commissioners and Board of Directors Review of the Vision and Mission

BNI's Vision and Mission are prepared after considering all stakeholders' input including the Board of Commissioners, Management, Subsidiaries, representatives of all levels of employees, the public, and relevant experts in the financial industry, using several methods such as surveys, interviews, and joint discussions. BNI's Vision and Mission were outlined in the Long Term Plan (revised corporate plan 2019-2023) following approval through the Board of Commissioners No. DK/116 dated November 29 2021 and BNI's Medium Term Plan (Bank Business Plan/RBB 2022-2024) in accordance with the Board of Commissioners Approval No. DK/111 November 29, 2021.

Each year the Vision and Mission are reviewed in accordance with the latest BNI conditions as a reference for developing future business strategies.

VISION

**“To become a Financial Institution with Sustainable
Service and Performance Excellence”**

VISION EXPLANATION

1. To become a Financial Institution
 - a. Technological developments in the digital era and changes in customer preferences have prompted banks to be able to develop their product and service propositions to meet the increasingly complex customer needs. This development is supported by the increasingly integrated and complementary financial service products, as well as the emerging of Fintech era in financial services.
 - b. Increasingly complex customer needs for financial services, for banking transactions, sharia, investment, insurance, and alternative financing besides credit.
 - c. The policy issued by the regulator (OJK) encourages integrated governance (corporate governance, compliance, auditing, and risk management) in conglomeration management for group companies that own banks and other financial services.
2. Excels in Services
 - a. Services are key and are offered to customers of financial service providers.
 - b. Excellent services and a positive customer experience will add value for customers when choosing a financial institution.
 - c. Financial institution services are required to cover all customer segments so as to make financial institutions a lifetime financial partner and a total financial solutions provider, customized to customer needs, and includes serving the business ecosystem in an integrated manner.
3. Excels in Performance
 - a. The Company's financial performance is an aspect that can increase the value for customers, investors, employees, communities and industry.
 - b. Good company performance is a benchmark to seeing the company health level and excellence in the industry.
 - c. Good company performance also increases the Company's sustainability (sustainable growth).
 - d. Company performance is supported by the performance of the entire organization at all levels to be the best.
4. Sustainability
 - a. Services provided to customers and company performance illustrate the company's success that must be maintained in supporting the company's existence in the financial industry.
 - b. Excellent service and performance needs to be carried out to provide positive feedback to shareholders over an indefinite period of time.

MISSION

- Providing excellent services and digital solutions to all customers, and as the primary partner of choice
- Strengthening international services to support the needs from our global business partners
- Increasing the prime investment value for investors
- Creating the best conditions for employees as a place of pride for work and accomplishment
- Increasing awareness and responsibility to the environment and society
- Becoming a reference for the implementation of compliance and good corporate governance for the industry

BNI's mission covers the 5 (five) key stakeholders that influence BNI's Vision achievement in providing superior service and performance. The 5 (five) key stakeholder groups are:

- a. Investors;
- b. Customers (including global business customers);
- c. Employees;
- d. Communities;
- e. Government.

MISSION EXPLANATION

BNI's mission explanation is as follows:

1. Providing excellent services and digital solutions to all customers, and as the primary partner of choice, as follows:
 - a. Providing complete, integrated, quality, reliable, and dependable products/banking services;
 - b. Providing "one stop solution" services for both business and individual customers;
 - c. Providing best-in-class products and services;
 - d. Improving customer experience for processes considered critical by customers;
 - e. Proactively making adjustments and improvements in accordance with development of customer needs and demands for quality products/services offered by BNI;
 - f. Providing convenience for customers in conducting transactions through digital solution services.
2. Strengthening international services to support the needs from our global business partners:
 - a. Providing quality products as the partner of choice for Indonesian companies to expand globally;
 - b. Providing gateway services to help foreign companies penetrating Indonesian market;
 - c. Providing financial institution products/services to Indonesians living abroad.
3. Increasing the investment value for investors
 - a. Achievement of maximum operating profit (profitability);
 - b. Growth that is sustainable and can be justified (sustainable growth);
 - c. Healthy financial institutions;
 - d. Cost control (cost effectiveness);
 - e. Stable and increasing share prices;
4. Creating the best conditions for employees as a place of pride for work and achievement
 - a. Providing equal and broad opportunities for increasing knowledge, skills, and certainty of career paths;
 - b. Creating and supporting talent management programs to create future leaders for both BNI and Indonesia;
 - c. Providing facilities and a work environment that is safe, comfortable, harmonious to support the achievement of the target of increasing productivity.
5. Increasing awareness and responsibility to the environment and society
 - a. Actively serving banking needs for all levels of society;
 - b. Actively seeking and entering new businesses that are in line with the latest rules and regulations;
 - c. Actively developing international business for business expansion in prospective countries;
 - d. Actively improving the quality of the environment and community in line with business development.
6. Becoming a reference for the implementation of compliance and good corporate governance for industry
 - a. Implementation of integrated risk management;
 - b. Accommodate whistle blowers to protect the interests of the Company and society;
 - c. Active communication between Company Management and all employees and leaders who can become role models;
 - d. Actively updating rules, regulations, and implementing them in a disciplined and systematic manner, to become a trusted financial institution.

Corporate Culture

"AKHLAK" as the key value, consists of Trustworthy, Competent, Harmonious, Loyal, Adaptive, Collaborative, has been proclaimed as BNI's work culture.

AKHLAK

AMANAH KOMPETEN HARMONIS
LOYAL ADAPTIF KOLABORATIF

CORE VALUES	BEHAVIORAL GUIDELINES
Trustworthy	<ul style="list-style-type: none">• Keeping promises and commitments• Be responsible with the duties, decisions made, and actions taken• Upholding moral and ethical values
Competent	<ul style="list-style-type: none">• Improving self-competence to respond to ever-changing challenges• Helping others to learn• Accomplishing duties with highest quality
Harmonious	<ul style="list-style-type: none">• Respect everyone regardless of their background• Likes to help others• Building conducive work environment
Loyal	<ul style="list-style-type: none">• Maintaining reputation of fellow employees, leaders, SOE, and the State• Willing to sacrifice to achieve a greater goal• Obeying the leader as long as not against the law and ethics
Adaptive	<ul style="list-style-type: none">• Promptly adjusting oneself to be better• Continuously making improvements• Be proactive
Collaborative	<ul style="list-style-type: none">• Providing opportunities for various parties to contribute• Be open in working together to generate added values• Mobilizing the use of various resources for common goals

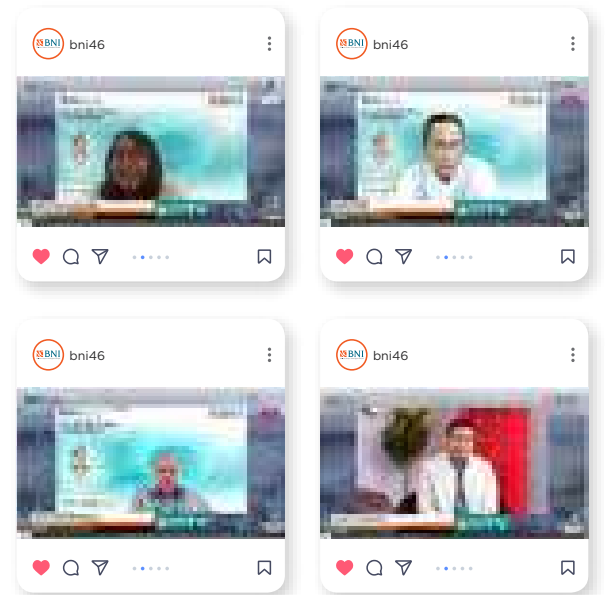

CORPORATE CULTURE SOCIALIZATION AND INTERNALIZATION

APPLICATION OF AKHLAK

AKHLAK implementation at BNI is supported and accelerated by the transformation of work culture to align BNI's values. The AKHLAK Core Values (Trustworthy, Competent, Harmonious, Loyal, Adaptive, Collaborative) mandated by the Ministry of SEOs are applied simultaneously while strengthening PRINCIPLE 46 as BNI's Belief. The process of internalizing AKHLAK's core values has been carried out for two years and will continue to be carried out through many activities and methods that are constantly being evaluated so that the application of these values can run optimally.

In 2022, AKHLAK internalization and socialization for the application of AKHLAK was carried out, as follows:

Program	Information Description
Leadership Measure	AKHLAK measurement as a component of behavior implemented for all employees
AKHLAK Wide Campaign	Publications to increase employee awareness about AKHLAK through various BNI communication channels
Implementation of the AKHLAK Series Webinar by BNI Corporate University	
	E-Learning is mandatory for all officers regarding AKHLAK
AKHLAK Education	

Program	Information Description
Change Agent	Appointment of a Change Agent called RACE Champion whose job is to spread the AKHLAK values and work culture programs in all Divisions, Regions, and Branches 
Akhlak Award	BNI won the AKHLAK Award 2022 in the Financial Services Cluster category and the Best Competent SOEs category. This award from an independent party recognizes BNI's application of AKHLAK

Period January 1, 2022 - August 31, 2022

For the period January 1, 2022 - August 31, 2022, the Board of Directors numbered 12 (twelve) people consisting of 1 (one) President Director, 1 (one) Vice President Director, 10 (ten) Directors.

Board of Directors' Composition for the Period January 1, 2022 - August 31, 2022					
No	Name	Position	Domicile	Basis of Appointment	Effective Date of Appointment*)
1	Royke Tumilaar	President Director	Jakarta	September 2, 2020	November 19, 2020
2	Adi Sulistyowati	Vice President Director	Jakarta	<ul style="list-style-type: none">March 17, 2015 (appointed Director of Institutional Relations)February 20, 2020 (term of office ends, reappointed as Director)September 2, 2020 (transfer to Vice President Director)	<ul style="list-style-type: none">May 22, 2015November 6, 2020
3	Novita Widya Anggraini	Finance Director	Jakarta	September 2, 2020	November 19, 2020
4	David Pirzada	Risk Management Director	Jakarta	September 2, 2020	December 1, 2020
5	Henry Panjaitan	Treasury & International Director	Jakarta	September 2, 2020	November 12, 2020
6	Corina Leyla Karnalies	Consumer Business Director	Jakarta	February 20, 2020	June 26, 2020
7	Muhammad Iqbal	MSME Business Director	Jakarta	September 2, 2020	November 19, 2020
8	Y.B. Hariantono	Information Technology & Operations Director	Jakarta	February 20, 2020	August 12, 2020
9	Bob Tyasika Ananta	Human Capital & Compliance Director	Jakarta	<ul style="list-style-type: none">March 17, 2015 (appointed Director of Risk Management)February 20, 2020 (end of term of office, and reappointed as Director)	May 22, 2020
10	Sis Apik Wijayanto	Institutional Relations Director	Jakarta	February 20, 2020	June 26, 2020
11	Silvano Winston Rumanthir	Corporate Banking Director	Jakarta	September 2, 2020	December 1, 2020
12	Ronny Venir	Network & Services Director	Jakarta	September 2, 2020	November 6, 2020

*) The Board of Directors took office after obtaining OJK approval for the Fit and Proper Test. This is in accordance with OJK Regulation No. 27/POJK.03/2016 dated July 22, 2016 concerning Fit and Proper Test for Main Parties of Financial Services Institutions.

Period August 31, 2022 - December 31, 2022

On August 31, 2022, based on an Extraordinary General Meeting of Shareholders decision, there was a change in the Board of Directors composition together with a change in nomenclature. The Extraordinary General Meeting of Shareholders honorably dismissed Henry Panjaitan as Director of Treasury and International and YB Hariantono as Director of IT and Operations. The Extraordinary General Meeting of Shareholders also confirmed the honorable discharge of Bob Tyasika Ananta as Director of Human Capital and Compliance as of May 27, 2022.

The Extraordinary General Meeting of Shareholders then appointed Putrama Wahyu Setyawan as Treasury Director, Toto Prasetyo as Technology and Operations Director, and Mucharom as Human Capital and Compliance Director.

Changes in the BNI Board of Directors composition and composition were carried to maintain the BNI Board of Directors membership composition. Therefore, for the period August 31, 2022-December 31, 2022, the Board of Directors composition numbered of 12 (twelve) Directors consisting of 1 (one) President Director, 1 (one) Vice President Director, and 10 (ten) Directors.

EMPLOYEE COMPETENCY DEVELOPMENT

COMPETENCY DEVELOPMENT POLICY

For BNI, Human Capital is its biggest asset and is the foundation for supporting the implementation of BNI's strategies. Therefore, in a planned and sustainable manner, BNI provides equal opportunities for all employees to attend competency training and development. Up to the end of December 2022, BNI held education and training programs for 27,626 employees or 99.17%, of the total number of employees, amounting to a total of 1,057,238 training participants, at an average of 38.90 times per employee.

BNI provides routine development for the employees who manage Collection. During 2022, Assistant Collection, Dunning Collection - Small Segment, Refreshment Collection and Refreshment Consumer Collection training was held for 210 employees.

Total Employees	Total Training Hours (in hours)	Training Hours per Employee	Number of Training Participants	Number of Trained Employees* (people)
27,170	5,208,973	191.67	1,057,238	27,676

*) Includes 731 terminated employees.

The following shows the top 5 (five) training and competency development followed by each position level, based on the Position Level and Gender Equality in 2022.

Board of Commissioners

Commissioner	Agung Turanto Sutarno
Commissioner	Hari Satriyono

Board of Directors

President Director	Yenanto
Director of Business	Albertus Henditrianto
Director of Finance and Operational	Legendariah

PT BNI SEKURITAS

PT BNI Sekuritas ("BNI Sekuritas") was established based on Limited Liability Company Deed No. 22 dated April 12, 1995, as amended by Deed of Amendment No. 39 dated May 3, 1995, both of which were made before Koesbiono Sarmanhadi, S.H., M.H., Notary in Jakarta, and was approved by the Minister of Justice of the Republic of Indonesia based on Decree No. C2-6278.HT.01.01.TH'95 dated May 19, 1995, and registered in the Company Register book at the Central Jakarta District Court Office under No. 903/1995 dated June 8, 1995, and announced in the State Gazette of the Republic of Indonesia No. 55 dated July 11, 1995, Supplement No. 5804.

Based on the Articles of Association, the scope of BNI Sekuritas business activities includes securities trading, acting as a broker-dealer, underwriter, mutual fund sales agent, securities company other than investment management, custodian and other activities determined or approved by the authorized body/agency. BNI Sekuritas obtained business licenses for securities brokerage, stock underwriter, investment manager, and mutual fund selling agent from the relevant authorities, respectively through (i) Chairman of the Capital Market Supervisory Agency Decree No. KEP-19/PM/1995, (ii) No. KEP-020/PM/1995 dated August 8, 1995, (iii) No. KEP-07/PM-MI/1995 dated October 23, 1995 which were later transferred to PT BNI Asset Management, and (iv) OJK Letter No. S-1507/PM.211/2016.

To implement the independence function of investment managers based on Bapepam-LK No. V.D.11, an annex to the Chairman of Bapepam-LK decree No. Kep-480/BL/2009 dated December 31, 2009 on Investment Manager Guidelines, the Company completed the separation/division of business (spin-off) of the business operations division for investment management by forming a new group called PT BNI Asset Management, with 99.99% ownership of BNI Sekuritas based on Establishment Act No. 50 dated 28 March 2011 made in front of Fathiah Helmi, S.H., Notary in Jakarta.

In mid 2011, the BNI Sekuritas ownership structure was strengthened by the joining of a strategic investor from Japan, namely SBI Sekuritas Co. Ltd., to also own shares in BNI Sekuritas, so the current composition of BNI Sekuritas share ownership is 75% owned by PT Bank Negara Indonesia (Persero) Tbk and 25% owned by SBI Sekuritas Co. Ltd. In 2014, the ownership of SBI Securities Co. Ltd was transferred to SBI Financial Services Co. Ltd so that the ownership of BNI Sekuritas became BNI (75%) SBI Financial Services Co. Ltd. (25%).

As part of BNIS' journey to become a global securities company, on September 8, 2021, a BNIS subsidiary, BNI Securities Pte. Ltd. ("BSPL") received approval from the Monetary Authority of Singapore ("MAS") with license number CMS 101132. With the BSPL operating license, BNI Sekuritas will be able to carry out capital market service activities

in Singapore, both in the business of fixed income brokerage, equity brokerage and underwriting through BSPL. Furthermore, BSPL will focus on helping the BNI Group and BNI customers to gain access to global investors. The BSPL Singapore operations also strengthens Bank BNI's position as a global bank that provides banking and capital market services. BSPL is located at 30 Cecil Street #17-08 Prudential Tower Singapore (049712), in the same building as Bank BNI Singapore Branch Office.

Throughout 2022, BNI Sekuritas business operations were conducted by 377 employees as of December 31, 2022 who provided services to customers through 16 branch offices. PT BNI Sekuritas Head Office is located at Sudirman Plaza Indofood Tower, 16th Floor, Jl. Jenderal Sudirman Kav. 76-78, Jakarta 12910, Indonesia

PT BNI Sekuritas Board of Commissioners and Board of Directors composition is based on the Shareholders Deed of Statement No. 167 dated September 28, 2022 made before Jose Dima Satria, S.H., M.Kn., Notary in South Jakarta, and received a Company Data Notification Letter of Acceptance No. AHU-AH.01.09-0062334 dated October 5, 2022 and registered in the Company Register at the Ministry of Law and Human Rights of the Republic of Indonesia No. AHU-0198740.AH.01.11.TAHUN 2022 dated October 5, 2022, as follows:

Board of Commissioners

Commissioner	Yoshihiro Ishiwata
Commissioner	I Made Sukajaya

Board of Directors

President Director	Agung Prabowo
Director	Putu Bagus Kresna

Director	Yoga Mulya

PT BNI LIFE INSURANCE

BNI Life was originally established under the name of "PT Asuransi Jiwa BNI Jiwasraya" based on Deed No. 24 dated November 28, 1996 in Jakarta. On November 26, 2004, the Company changed its name to PT Asuransi Jiwa BNI Jiwasraya, which was endorsed by the Minister of Justice and Human Rights of the Republic of Indonesia through No. C-31600 HT.01.04.TH.2004 dated December 29, 2004.

In accordance with the Articles of Association, the Company's scope of activities is conducting business in life insurance including life insurance business with Islamic principles. The Company obtained a license as a life insurance company based on the Ministry of Finance of the Republic of Indonesia Number 305/KMK.017/1997 dated July 7, 1997. The Company also obtained a license to open a branch office with Islamic principles based on the Ministry of Finance of the Republic of Indonesia No. KEP-186/KM.6/2004 dated May 19, 2004.

In early May 2014, Sumitomo Life Insurance Company (Sumitomo Life), one of the largest insurance companies in Japan, officially became one of BNI Life's shareholders. The equity participation realization was Rp4.2 trillion with 40% share ownership in BNI Life.

The strategic cooperation with Sumitomo Life Insurance accelerated business growth and provided huge space to gain future business opportunities. As proof of Sumitomo Life Insurance's seriousness in the BNI Life business development, they have placed representatives in BNI Life management as Commissioners, Directors, and professional experts.

BNI Life offers various insurance products such as life, health, education, investment, pension and sharia insurance. BNI Life's business operations are supported by competent human resources in the insurance sector. Currently BNI Life has 723 employees with competencies that continue to be developed to provide the best service to customers.

To carry out its business activities, until December 31, 2022 BNI Life operated the following 7 (seven) Service Offices/Service Points: Jakarta/ Menara BNI Pejompongan, Jl. Pejompongan Raya No. 5; Bandung/Jl. Burangrang No. 38, Lengkong; Denpasar/Jl. Diponegoro No. 122; Semarang/Rukan Pemuda Mas Block A1-A2 Floor 2, DP Mall, Jalan Pemuda No. 150; Surabaya/ Gedung Graha Pangeran Lt. XI, JL. Ahmad Yani No. 286; Palembang/Jl. Basuki Rahmat No.24B, Palembang; Yogyakarta/Jl. Laksda Adisucipto No. 27, Gondokusuman, Yogyakarta. BNI Life Head Office Address is Centennial Tower Lt. 9, Jl. Gatot Subroto Kav. 24-25, South Jakarta.

The PT BNI Life Insurance Board of Commissioners and Board of Directors composition, based on the Shareholders’ Decree No. Deed. 89 dated October 31, 2022 and Deed No. 104 dated December 20, 2022 is as follows:

BNI REMITTANCE LTD.

BNI Remittance Limited (BNI Remittance) is a BNI subsidiary established by BNI Hong Kong on November 19, 1996, based on Certificate of Incorporation No. 574748 under the name of “High Motivation Company”, and changed its name to BNI Nakertrans Ltd in 1997. To further optimize its business activities in accordance with the rules of the local authorities, after a comprehensive business assessment, it was decided to separate the BNI Nakertrans Ltd management from BNI Hong Kong as well as change the name to BNI Remittance Ltd, in 2009.

BNI Remittance is currently registered as a Money Service Operator with register number 12-08-00768 and subject to Hong Kong Custom and Excise Department. To conduct its business, BNI Remittance manages outlets spread in 3 (three) areas of Hong Kong, namely Keswick Main Office in Hong Kong Island, Tsuen Wan Branch Office and Yuen Long Branch Office in the New Territories and Hung Hom Branch Office in Kowloon. BNI Remittance Central Office is located at Flat/RM5 on G/F, Nos 1-7 Keswick Street, Causeway Bay, Hong Kong.

Besides providing services through these outlets, BNI Remittance cooperates with BNI in its financial inclusion program, providing financial access through the widest possible digital services for Indonesian Migrant Workers (PMI) in Hong Kong. At the end of 2021, there were an additional 2 BNI ATM machines bringing the total in Hong Kong to 8 BNI ATM machines enabling customers to more freely carry out financial transactions with the same service features as ATM machines in Indonesia, including cash withdrawals, balance checks, transfers between BNI/other bank accounts, credit/ticket purchases and bill payments. Since mid-2017, BNI Mobile Banking services can be activated directly from Hong Kong to further strengthen its digital services.

The BNI Remittance Board of Commissioners and Board of Directors composition is based on The Companies Ordinance (Chapter 32) Ordinary Resolution of BNI Remittance Limited, Company No. 0574748 dated October 19, 2020 as follows:

Board of Directors

Director	Indra Kusuma

PT BANK MAYORA

PT Bank Mayora (“Bank Mayora”) is a national private bank that has operated since July 28, 1993 under a Commercial Bank business license in accordance with the Republic of Indonesia Minister of Finance Decree No. 719/KMK.017/1993 dated July 14, 1993, and became a Foreign Exchange Commercial Bank in 2013 based on BI Governor Decree No. 15/5/KEP.DPG/2013 dated May 7, 2013. Since May 18, 2022, Bank Mayora has officially been a subsidiary of the BNI Group through the Menkumham letter No. AHU-AH.01.03-0238599 concerning receipt of notification of changes to Bank Mayora’s articles of association, as well as Letter of Menkumham No. AHU-AH.01.09-0013352 concerning receipt of notification of changes to Bank Mayora’s corporate data.

Bank Mayora’s current shareholder composition is 63.92% owned by PT Bank Negara Indonesia (Persero) Tbk and 36.08% owned by PT Mayora Inti Utama. Along its journey, Bank Mayora has experienced a cyclical process of ups and downs, which has strengthened its position in the Indonesian banking industry. Bank Mayora’s toughest test was the monetary crisis in 1997-1998. A number of banks collapsed at that time, however Bank Mayora was able to survive as a healthy bank and did not need recapitalization. Their survival was due to Bank Mayora managing its business based on the principles of good corporate governance.

Bank Mayora’s transformation process continued over the years, and a stronger foundation for growth was built covering various aspects of credit, services, information technology, human resources, risk management and infrastructure, as can be seen in Bank Mayora’s various deposit products such as Current Accounts, Savings and Time Deposits.

Through its products and services designed according to customer needs, as well as its sincere and personal service, Bank Mayora has increasingly consolidated the steps needed to support the national banking sector, to control the growth of the customer’s business going forward.

To support its business, Bank Mayora has 33 branch offices spread across Jakarta, Bogor, Tangerang, Bekasi, Bandung, Karawang, Sukabumi, Surabaya and Lampung. Bank Mayora Head Office is located on Jl. Tomang Raya Kav. 21-23, West Jakarta 11440.

PT Bank Mayora’s Board of Commissioners and Board of Directors composition is based on the Deed of Statement of Shareholders Decree No. 21 dated October 14, 2022, as follows:

Board of Commissioners

President Commissioner	Dharmawan Atmadja
Independent Commissioner	Taryadi Supangkat
Independent Commissioner	Rufina Tinawati Marianto
Independent Commissioner	Joys Djajanto

Board of Directors

President Director	Ricky Budiono

Director	Ir. Prihadiyanto

PT BNI MODAL VENTURA

PT BNI Modal Ventura (“BNI Ventures” or “BNV”) is a subsidiary of PT Bank Negara Indonesia (Persero), Tbk (“BNI”), and was established on April 12, 2022 based on the Deed of Establishment No. 17 dated April 12, 2022, made before Ariani L. Rachim, S.H., Notary in Jakarta. BNV received its first capital investment of Rp500.1 billion (five hundred billion one hundred million rupiah) on May 12, 2022. BNV is a subsidiary of BNI engaged in the venture capital industry. On April 19, 2022 the establishment of BNV was approved by the Minister of Law and Human Rights No. AHU-0027437.AH.01.01. 2022. The BNV Board of Directors and Board of Commissioners passed the Fit and Proper test (F&P) process from the Financial Services Authority (OJK) in December 2022, while permits to carry out venture capital business activities are still awaiting approval from OJK as the regulator. BNI is the Majority Shareholder of BNV with a total ownership of 99.98%, or 500,000 (five hundred thousand) shares. The other shareholder is PT BNI Asset Management (BNI-AM) with ownership of 0.02%.

The BNI Ventures Board of Commissioners and Board of Directors composition is based on the Deed of Statement of Shareholders Decree No. 8 dated August 3, 2022, as follows:

Board of Commissioners	
President Commissioner	Rian Eriana Kaslan
Independent Commissioner	Kartika Hendrawan
Board of Directors	
President Director	Mardianto E. Danusaputro
Director	Lugas Prancafitri

BRIEF INFORMATION ON INDIRECT SUBSIDIARIES

PT BNI ASSET MANAGEMENT

PT BNI Asset Management (BNI-AM) is a Financial Services Business in the Capital Markets industry. As a pioneer in the Investment Manager business in Indonesia, BNI-AM has license as an Investment Manager (IM) from the Capital Market Authority with license No. KEP-05/BL/MI/2011. This investment manager business was started on October 23, 1995 when it joined PT BNI Sekuritas. With the development of IM's business, on July 7, 2011 BNI-AM conducted a spin off from BNI Sekuritas as a Limited Liability Company.

BNI-AM provides investment management services for Third Party Funds through investment instruments in the form of complete Mutual Fund products and also Fund Management Contracts. The Mutual Fund products provided are Regular Mutual Fund products, Structured Mutual Funds, Special Mutual Funds and fund management tailored to the customer's Risk Appetite, and the period is adjusted to the customer's needs. BNI-AM also provides Investment Advisory services based on the license issued by OJK No: KEP-50/D.04/2017.

BNI-AM is part of the BNI conglomerate, one of the largest state-owned banks in Indonesia, which is included in the ranks of Indonesian public companies in the global class. When carrying out its business activities, BNI-AM's business grows in synergy with other BNI subsidiary companies, namely BNI Life, BNI Sekuritas, BNI Multifinance, BNI Remittance and Bank Mayora.

Supported by a strong understanding of investment in the Capital Market in Indonesia, and by having a professional Investment Team, BNI-AM is ready to help manage investors' funds through a variety of Mutual Fund investment products ranging from Open-end Mutual Funds, Protected Mutual Funds, and alternative investments such as Limited Participation Mutual Funds (RDPT), Asset Backed Securities Collective Investment Contracts (KIK-EBA), etc.

BNI Asset Management Head Office is located at Centennial Tower Lt. 19, Jl. Gatot Subroto Kav. 24-25, South Jakarta.

PT BNI Asset Management's Board of Commissioners and Board of Directors composition is based on a Shareholders' Deed of Statement Circular Outside the Extraordinary General Meeting of Shareholders Resolution No. 8 dated May 24, 2022, as follows:

Board of Commissioners	
Board of Commissioner/Independent Commissioner	Eko Priyo Pratomo
Independent Commissioner	Eddy Siswanto
Commissioner	Efrizal
Board of Directors	
President Director	Putut Endro Andanawarih
Business Director	Donny Susatio Adjie
Operational Director	Ade Yusriansyah

BNI SECURITIES PTE. LTD.

BNI Securities Pte. Ltd. ("BSPL"), a wholly-owned overseas subsidiary of PT BNI Sekuritas, was established in Singapore on March 22, 2021. BSPL was established to act as a liaison for the BNI Group in terms of international capital market activities, including establishing communication with investment-based institutions global.

BSPL has a Capital Markets Services license issued by the Monetary Authority of Singapore ("MAS") to carry out activities regulated by MAS, specifically in the capital market, including securities trading, with an initial focus on Fixed Income and other activities that are in line with the main business in Capital Markets and Sales & Trading.

The BSPL Board of Directors composition is as follows:

Board of Directors	
Executive Director	Edwin Chew
Non-Executive Director	Ujuan Marihot H. P.

BRIEF INFORMATION ON ASSOCIATED ENTITIES

PT PEMERINGKAT EFEK INDONESIA

PT Pemeringkat Efek Indonesia, better known as PEFINDO, is the oldest and most trusted rating company in Indonesia established on December 21, 1993 based on the initiative of the Financial Services Authority (OJK), formerly known as the Capital Market Supervisory Agency/BAPEPAM and Bank Indonesia.

PEFINDO, which is a securities rating agency owned by domestic shareholders, conducts ratings of many entities and debt securities listed on the Indonesia Stock Exchange (IDX/IDX). To date, PEFINDO has conducted ratings of more than 1100 entities.

To maintain its independence, PEFINDO is owned by 78 legal entities (as of December 6, 2022) representing the Indonesian capital market with none of the shareholders owning more than 50% of the shares.

The number of shares owned by BNI in PEFINDO is currently 143 shares, or 0.143% ownership.

PT KUSTODIAN SENTRAL EFEK INDONESIA

PT Kustodian Sentral Efek Indonesia (KSEI) is a Depository and Settlement Institution (LPP) in the Indonesian Capital Market that provides central Custodian services and settlement of Securities transactions in an orderly, fair and efficient manner, as mandated by Law Number 8 of 1995 concerning Capital Markets. KSEI was established in Jakarta on December 23, 1997 and obtained a business license on November 11, 1998.

KSEI is a Self-Regulatory Organization (SRO), together with the Indonesia Stock Exchange (IDX) and the Indonesian Clearing and Guarantee Corporation (KPEI). KSEI started its operational activities for settlement of securities transactions by script on January 9, 1998, taking over a similar function from PT Kliring Depository Securities Indonesia (KDEI) as the Depository and Settlement Clearing House (LKPP). In 2000, KSEI together with other SROs implemented scripless trading and settlement of Securities transactions in the Indonesian Capital Market. This application is supported by KSEI's main system, namely The Central Depository and Book Entry Settlement System (C-BEST).

Regarding its affiliation with BNI, KSEI is a minority subsidiary company with direct investment, in which BNI began to own shares since September 24, 1998. The number of shares owned by BNI in KSEI currently reaches 60 shares, which is equivalent to 1.00% ownership.

PT BANK MIZUHO INDONESIA

PT Bank Mizuho Indonesia (“Bank Mizuho”) was originally established under the name PT Fuji Bank International Indonesia. Amendments to the Bank’s Articles of Association included a change of name from PT Bank Fuji International Indonesia to PT Bank Mizuho Indonesia and changes to the Bank’s capital and Board of Commissioners and Board of Directors composition, following the merger of PT Bank Dai-Ichi Kangyo Indonesia (BDKI) and PT Bank IBJ Indonesia (IBJ) with PT Fuji Bank International Indonesia which became effective on October 1, 2001.

Regarding its affiliation with BNI, Bank Mizuho is a minority subsidiary company with direct investment, in which BNI began to own shares since October 13, 2003. The number of shares owned by BNI in Bank Mizuho currently reaches 73,847 shares, or 1.00% ownership.

PT BANK BTPN TBK

Bank BTPN is a foreign exchange bank resulting from a merger between PT Bank Tabungan Pensiunan Nasional Tbk (BTPN) and PT Bank Sumitomo Mitsui Indonesia (SMBCI) which became effective on February 1, 2019.

In the disclosure of information submitted to the Indonesia Stock Exchange (IDX) on February 5, 2019, on February 1, 2019 there has been a change in the composition of the shareholders of PT Bank BTPN Tbk. Currently 97.34% of BTPN’s shares are owned by Sumitomo Mitsui Banking Corporation, PT Bank Negara Indonesia Tbk (BBNI) with 0.15%, PT Bank Cental Asia Tbk (BBCA) with 1.02% and the Public with 1.49%.

Bank BTPN before the merger was a bank that focused on lending to the mass market (retail), while SMBCI focused on the corporate business segment.

Regarding its affiliation with BNI, Bank BTPN is a minority subsidiary company with direct investment, in which BNI began to own shares on April 18, 2004. The number of shares owned by BNI in Bank BTPN is currently 12,007,137 shares, or 0.15% ownership.

PT BANK SYARIAH INDONESIA TBK

Bank Syariah Indonesia (“BSI”) is a new entity born as a result of the merger of three state-owned sharia banks, namely Bank Syariah Mandiri, BNI Syariah, and BRI Syariah on February 1, 2021.

Given the history from the BNI side, Bank BNI Syariah was originally a Sharia Business Unit (UUS) within the BNI organization. Then in October 2009, BNI Management through the Extraordinary General Meeting of Shareholders (EGMS) approved a plan to spin off the Sharia Business Unit (UUS) to become a Sharia Commercial Bank (BUS) taking into account the increasingly advanced development of the Islamic banking business and the increasing demands of consumers who wanted a pure Islamic bank at that time. In June 2010, BNI Management conducted the spin off of PT BNI Syariah from the BNI Syariah Business Unit (UUS).

To capture the growing opportunity for the Islamic economy in Indonesia, three state-owned Islamic banks, Bank Syariah Mandiri, BNI Syariah and BRI Syariah, decided to form a strategic alliance. On February 1, 2021, which coincides with 19 Jumadil Akhir 1442 H, marked the merger of Bank Syariah Mandiri, BNI Syariah and BRI Syariah into one entity, namely BSI. This merger will unite the advantages of these three Islamic Banks to present a more complete service, a wider reach, and have a better capital capacity. Supported by synergies with their parent companies (Mandiri, BNI, BRI) and the Government commitment through the Ministry of BUMN, BSI was encouraged to compete at the global level.

As one of the controlling shareholders in BSI, the number of shares owned by BNI in BSI at the end of 2022 was 10,720,230,418 shares, or 23.24% ownership. Previously, in 2021 BNI’s ownership in BSI reached 10,220,230,418 shares or 24.85%.

Share Issuance and/or Listing Chronology

INITIAL PUBLIC OFFERING

On October 28, 1996, BNI undertook an initial public offering of 1,085,032,000 Class B shares with a par value per share of Rp500 (full amount) and offering price per share of Rp850 (full amount) to the public in Indonesia. The shares began trading on the Jakarta and Surabaya Stock Exchanges (currently Indonesia Stock Exchange or IDX) on November 25, 1996.

LIMITED PUBLIC OFFERING I

On June 30, 1999, BNI undertook a Limited Public Offering I ("LPO I") through the issuance of pre-emptive rights of 151,904,480,000 Class C shares with a par value per share of Rp25 (full amount). Each holder of 1 (one) share was entitled to buy 35 new shares for Rp347.58 (full amount) per share. As a result of LPO I, BNI increased its capital by 683,916,500 Class C shares to the public on July 21, 1999 and the LPO I listed in the Jakarta and Surabaya Stock Exchanges (currently IDX). On April 7, 2000 and June 30, 2000, BNI also issued 151,220,563,500 Class C shares to the Government of Indonesia through the recapitalization program under Government Regulation No. 52 year 1999.

RECAPITALIZATION

On March 30, 2000, the Minister of Finance approved BNI's recapitalization amounting to Rp61.8 trillion, which was Rp9 trillion higher than the amount stated in the Government Regulation No. 52 year 1999. In connection with the increase in the recapitalization amount, which was approved in the Government Regulation No. 32 year 2000, BNI issued an additional 44,946,404,500 Class C shares without pre-emptive rights.

On July 20, 2001, BNI's capital was reduced by 1,965,701,500 Class C shares in connection with the refund of excess recapitalization funds to the Government of Indonesia. The refund was approved by the shareholders at the Extraordinary General Shareholders' Meeting held on June 25, 2001.

LIMITED PUBLIC OFFERING II

On July 30, 2007, the Extraordinary General Shareholders' Meeting approved the issuance up to 1,992,253,110 new Class C shares through Limited Public Offering II with a par value per share of Rp375 (full amount).

Each owner of 20 old shares whose name was registered in the BNI Shareholders List as of August 9, 2007 at 16.00 WIB was entitled to 1 (one) pre-emptive rights where each right entitled the owner to buy a new share at a price of Rp2,025 (full amount) per share. From the Limited Public Offering II, BNI raised Rp747,094 additional share capital and Rp3,287,218 additional paid-in capital with Rp195,280 shares issuance costs. The initial trading took place on August 13, 2007 at the Jakarta Stock Exchange and Surabaya Stock Exchange (currently IDX).

LIMITED PUBLIC OFFERING III

On November 25, 2010, at the Extraordinary General Shareholders' Meeting, the shareholders decided, among other matters, to increase the issued and paid-up capital through a limited public offering with preemptive right (LPO III) to shareholders for the issuance of 3,374,715,948 new Class C shares with a par value per share of Rp375 (full amount), with an offer price of Rp3,100 per Preemptive Right that could be traded inside and outside the

Indonesia Stock Exchange (IDX) from December 10, 2010 to December 16, 2010, taking into account the applicable provisions in the capital market sector. From the LPO III, BNI obtained Rp1,265,518 additional share capital, net after deducting the issuance of shares amounting to Rp8,950,869 million.

NAMES OF STOCK EXCHANGES WHERE THE COMPANY'S SHARES ARE LISTED

Bond Issuance Chronology

To support business growth, and to strengthen its capital with sufficient sources of funds with a good spread of tenors, BNI has issued several bonds denominated in Rupiah and foreign currencies. The bonds include BNI Global Bonds in 2012, followed by the issuance of BNI Sustainable Bonds in 2017 which realized funds of Rp3 trillion over a tenor of 5 (five) years. In 2021 BNI again issued a Global Tier 2 Capital Bonds and Additional Tier 1 Capital Bonds with funds raised of USD500,000,000 (full amount) and USD600,000,000 (full amount), respectively.

GLOBAL BOND 2012

BNI issued USD-denominated senior bonds (global bond) on April 27, 2012 with a principal amount of USD500,000,000 (full amount). The bonds were issued at a price of 98.89% with a coupon of 4.125% paid every 6 months. The bonds had a term of 5 years with a due date of April 27, 2017. The Bank has settled the entire principal amount of USD500.000.000 (full amount) at price 100,00%.

REGISTRATION OF SUSTAINABLE BONDS 2017

On June 22, 2017, BNI obtained an effective statement from OJK through letter number S-349/D.04/2017 to issue Sustainable Bonds I BNI Phase I 2017 ("Bonds"). The value of bonds issued amounted to Rp3,000,000,000,000 (full amount), for a period of 5 years, with a coupon of 8% per annum that will be paid quarterly. The BNI Bonds were issued on July 11, 2017 and listed on the Indonesia Stock Exchange on July 12, 2017. The first coupon payment to the bondholders was made on October 11, 2017.

Acting as Underwriters were PT BNI Sekuritas, PT Mandiri Sekuritas, PT Bahana Sekuritas, PT Danareksa Sekuritas, PT Indo Premier Sekuritas and PT BCA Sekuritas. Acting as Trustee was PT Bank Rakyat Indonesia (Persero) Tbk.

TIER 2 CAPITAL BOND 2021 (GLOBAL BOND)

BNI issued debt instruments with capital characteristics in the form of Tier II Capital Bonds, which were listed on the Singapore

Exchange (SGX Listing) with a principal amount of USD500,000,000.00 with a write down feature that can be counted as a Tier II capital component through OJK letter No. S-64/PB.31/2021 dated March 31, 2021. The Tier II Capital Bond issuance is one of BNI's strategies for increasing the Bank's capital through Tier 2 Capital.

The Tier II Capital Bonds were offered at a fixed interest rate of 3.75% p.a. for a term of 5 (five) years. Acting as institutions and supporting professions for the issuance of the Tier II Capital Bonds were HSBC and Citi Group. The legal consultants were Ginting & Reksodiputro in association with Allen & Overy and HSBC acted as Trustee and Paying Agent. The bonds received a rating on long-term debt securities from Fitch Rating of BB, and from Moody's Rating of Ba2.

ADDITIONAL TIER 1 CAPITAL BOND 2021 (GLOBAL BOND)

BNI issued debt instruments with capital characteristics in the form of Additional Tier I Capital Bonds, which were listed on the Singapore Exchange (SGX Listing) with a principal amount of USD600,000,000 (full amount) with a write down feature that can be counted as a Tier I capital component through OJK letter No. S-210/PB.31/2021 dated September 30, 2021.

The issuance of the Additional Tier I Capital Bond aimed to increase Tier I Capital, general funding, and improve the structure of long-term funds. Additional Tier I Capital Bonds were offered with a fixed interest rate of 4.30% p.a. perpetual term (no maturity) with call options after 5.5 (five and a half) years. Acting as institutions and supporting professions for the issuance of the Additional Tier I Capital Bonds were BNI Sekuritas, JP Morgan and UBS. The legal consultants used were Hadiputranto, Hadinoto & Partners in association with Baker McKenzie and HSBC acted as Trustee and Paying Agent. The bonds received a rating on long-term debt securities from Moody's Rating of Ba3.

ENVIRONMENTAL BONDS (GREEN BOND) I BNI 2022

On June 10 2022, BNI received an effective statement from OJK through letter no. S-93/D.04/2022 to issue Green Bond I PT Bank Negara Indonesia (Persero) Tbk Year 2022 on June 21, 2022. The Principal Amount of Green Bonds issued is Rp5,000,000,000,000 (five trillion Rupiah) with Green Bond interest of 6.35% (six point three five percent) per year for series A and 6.85% (six point eight five percent) per year for series B. Green Bond I 2022 was offered at 100% (one hundred percent) of the principal amount of the bonds, with coupons paid quarterly, and listed on the Indonesia Stock Exchange (IDX) on June 22, 2022. The first coupon payment to bondholders was made on September 21, 2022.

The proceeds from the bond issuance, after deducting emission costs, will all be used by BNI to finance and refinance projects in the Environmentally Friendly Business Activities (KUBL) category, namely projects related to renewable energy, energy efficiency, processing waste into energy and waste management, sustainable use of natural resources and land use, conservation of terrestrial and aquatic biodiversity, environmentally friendly transportation, sustainable management of water and wastewater, climate change adaptation, environmentally sound buildings, and sustainable agriculture, taking into account OJK Regulation No. 60/POJK.04/2017 concerning Issuance and Requirements for Green Bonds.

Acting as Underwriters for the Issue were PT BNI Sekuritas, PT BCA Sekuritas, PT Mandiri Sekuritas, PT BRI Danareksa Sekuritas, PT CIMB Niaga Sekuritas, and PT Maybank Sekuritas. Acting as Trustee was PT Bank Mandiri (Persero) Tbk.

SUBORDINATED MEDIUM TERM NOTES 2018

In 2018, BNI issued debt instruments with capital characteristics in the form of Medium Term Notes (MTN) through a limited offering under the name “BNI Subordinated MTN I Year 2018” with a write down feature that can be calculated as a capital component, and were recorded in the administrative supervision of the Financial Services Authority, with an effective date of June 8, 2018 and a total principal amount of Rp100 billion.

The Subordinated MTN were issued to comply with OJK Regulation No. 14/POJK.03/2017 Article 24 and Article 37 concerning the Recovery Plan, whereby systemic banks were required to have debt securities with capital characteristics no later than December 31, 2018.

The 2018 BNI Subordinated MTN I was offered with a fixed interest rate of 8.00% p.a. for a term of 5 (five) years. Acting as supporting institutions and professions for the issuance of the Subordinated MTN were BNI Sekuritas, Danareksa Sekuritas, and Mandiri Sekuritas. The legal consultant used was Hanafiah Ponggawa & Partners. The notary used was Ir. Nanette Cahyanie, SH. and PT Kustodian Sentral Efek Indonesia (KSEI) acted as Paying Agent.

In accordance with POJK No. 07/2017 and Regulation No.IX.C.11, for the issuance of these Bonds, BNI obtained a rating for its long-term debt securities from PT Pemeringkat Efek Indonesia (“Pefindo”) for the period July 5, 2021 to July 1, 2022. in their letter No. RC-701/PEF-DIR/V11/2021 dated July 5, 2021, with a rating of idAAA (Triple A Stable Outlook) for Sustainable Bond I Phase I Year 2017, and No. RC-700/PEF-DIRN2/2021 dated July 5, 2021 with a rating of idAA (Double A) for BNI's 2018 Subordinated Medium Term Notes I. BNI rates its bonds annually so long as the obligations for the securities have not been paid off.

Other Securities Issuance and/or Listing Chronology

In 2016, BNI conducted an NCD offering in two stages consisting of several series with the realization of the issuance of Rp5.22 trillion. In 2017, BNI again issued an NCD with the realization of the issuance of Rp2.7 trillion. In 2019 BNI issued NCD in three stages with the realization of the issuance of Rp4.34 trillion consisting of several series.

The Arrangers of the BNI Rupiah NCD issuance were BNI Sekuritas, Danareksa Sekuritas, Mandiri Sekuritas, and BCA Sekuritas. The notary was Fathiah Helmi, SE., PT Indonesian Central Securities Depository (KSEI) acted as a Paying Agent. The issuance of the NCD was a Bank strategy to increase Rupiah liquidity.

In 2020, BNI issued scripless Rupiah Negotiable Certificate of Deposit (NCD) in four series as follows:

1. Rupiah NCD BNI I Year 2020 Series A with an emission of Rp400 billion;
2. Rupiah NCD BNI I Year 2020 Series B with an emission of Rp580 billion;
3. Rupiah NCD BNI I Year 2020 Series C with an emission of Rp50 billion;
4. Rupiah NCD BNI I Year 2020 Series D with an emission of Rp360 billion.

On December 8, 2022, BNI again issued scripless Negotiable Certificates of Deposit (NCD), denominated in Rupiah and USD. The NCDs issued were as follows:

1. NCD Rupiah BNI Year 2022 with an issue value of Rp2.5 trillion in 3 (three) series, namely:
 - a. BNI Rupiah NCD Year 2022 Series A with an issue value of Rp1 trillion;
 - b. BNI Rupiah NCD Year 2022 Series B with an issue value of Rp500 billion;
 - c. BNI Rupiah NCD Year 2022 Series C with an issue value of Rp1 trillion.
2. NCD US Dollar BNI Year 2022 with an emission value of USD31.5 million.

The arrangers for the BNI NCD issuance were BNI Sekuritas, BCA Sekuritas, and Trimegah Sekuritas Indonesia, with PT Kustodian Sentral Efek Indonesia (KSEI) acting as Paying Agent. The NCD issuance is the Bank's strategy for credit expansion in the framework of development.

In addition, BNI also issued a scripless USD Global Certificate of Deposit (CD) through the New York Overseas Branch Office (KCLN) in January 2020. BNI through the New York KCLN became the first Indonesian Bank to issue CDs denominated in USD as a short-term investment product on the global market. The selected Arrangers for this CD issuance were Bank DBS, Citibank as Issuing & Paying Agent (IPA), and there were also 11 (eleven) Dealers in this issuance, namely: Citibank, Credit Suisse, BNP Paribas, DBS, HSBC, Mizuho, MUFG, SMBC Nikko, ANZ, UOB, and Credit Agricole. BNI also reissued USD scripless Global Certificate of Deposit (CD) through the New York Overseas Branch Office (KCLN) in September 2022.

During 2022, the Indonesian economy grew rapidly in line with the decline in restrictions of social and business activities. Economic growth in 2022 reaches 5.3% driven by the growth of household consumption, investment, and also net exports, which grew mainly due to rising commodity prices.

During the national economic recovery, Indonesia was faced with a highly global inflation challenge, which began due to the geopolitical crisis, and this triggered an increase in the price of food and energy commodities. Indonesia was also affected by this global inflation increase, especially in 2022 when inflation rose to 5.5%. Nonetheless, this inflation was much better than the inflation challenges faced by many other countries in the world. Bank Indonesia responded to rising inflation and the depreciation of the Rupiah by increasing its interest rate to 5.5% in December 2022.

Gradually, an increase in interest rates also occurred in the banking industry in response to the increase in interest rate policies. Rising interest rates were seen as still helpful to support economic recovery. This was due to the increase being relatively limited, supported by adequate liquidity.

The growth in Third Party Funds (DPK) was recorded at 9.0% yoy, with loans at 11.4% yoy (as of December 2022). Broadly speaking, the banking industry was quite stable with an adequate capital adequacy ratio (25.4% as of December 2022) and a good non-performing loan (NPL) ratio of 2.6% (December 2022).

ECONOMIC OVERVIEW

The national economic performance strengthened in 2022, with the growth reaching 5.3%, far higher than 3.7% in 2021. Strengthening investment and exports as well as a continuation of the recovery in public consumption will be the main support of growth. The contribution of household consumption to aggregate GDP growth returned to pre-pandemic levels in 2022. This was due to a recovery in economic activity throughout 2022 after the increased public immunity due to the comprehensive vaccination program. The economic activity recovery increased the income of workers and entrepreneurs, thus restoring purchasing power that had fallen due to the pandemic the previous year.

Consumption growth in 2022 reached 5%, a large increase compared to 2.1% in 2021. For the household consumption component, the fastest growth was in transportation and the communication expenditure category (9.4%) and food expenditure in restaurants (6.6%). The rapid growth in these two categories of household spending confirmed that strong consumption growth was supported by a return of activities in sectors that were closed/limited operations during the pandemic.

Other than consumption, investments also grew positively by 4.9% and contributed to approximately 1/4 of aggregate economic growth; the same was true of net export performance that also contributed 1/4 of total economic growth and increases by 30.9% in 2022.

The growth in net export performance was supported by rising prices in Indonesia's main export commodities on the global market. During 2022, Indonesia's export goods average price increased by 24.3% YoY, while the import goods average price only increased 18.3% YoY. In terms of volume during 2022, total exports only increased by 4% YoY, while total imports increased 2.8% YoY. In total value, the sharp increase in average export prices compensated for the minimal increase in terms of volume, resulting in a significant growth in the trade balance of 53.9% YoY.

Comparison of Economic Growth and Projections in Groups of Countries

Note:

Projection of Economic Growth in the Southeast Asia Region

Note:
*) Average forecast of development agencies: ADB, IMF, and World Bank; BNI OCE Calculation

During the ongoing recovery, both in Indonesia and in other countries in the world, the global economy is experiencing inflation challenges. The higher global inflation was caused by a number of factors, namely (1) the simultaneous ongoing recovery momentum in global demand, (2) this recovery was not accompanied by the same speed of recovery in the global supply chain that was disrupted during the pandemic, and (3) the conflict between Ukraine and Russia causing additional pressure on global food and energy supplies. In March 2022, the prices of food and energy commodities experienced a sharp spike, which impacted the whole world including Indonesia. Although in terms of trade, Indonesia experienced a positive impact from rising commodity prices as shown above, while another impact from geopolitical tensions also spread to consumer inflation.

As a result of rising fuel prices on the global market, the Indonesian Government raised the price of fuel oil (BBM) in the QIII 2022, which resulted in increased inflation in Indonesian. Since September 2022, Indonesia's inflation was above 5%, and closed at 5.5% at the end of the year. Even though Indonesia's general inflation has jumped quite a lot compared to the pre-pandemic average for the last 5 years (2015-2019: 3.9%), this inflation achievement is far better than the phenomenon of global inflation, which has increased by 8.9%*) in 2022. For the record, this increase in global inflation was far above the 2015-2019 world inflation average, which was 2%.

Throughout 2022, the central banks of the majority of countries in the world also increased their reference rate. This was in response to rising inflation during a period of economic recovery and as a result of geopolitical events. The increase in the benchmark interest rate was driven by the United States (US) central bank, The Federal Reserve (The Fed), where during 2022 the Fed raised the Federal Funds Rate (FFR) benchmark rate by 425bps. As a result of the sharp increase in interest rates in the US, many global funds have moved to the US market, so that the US dollar strengthened against many other currencies in the world. Against the US dollar, the Rupiah depreciated by 9.2% during 2022. This depreciation is deeper than the average historical data for the previous five years, which was 1.5%. When compared to other developing countries, the depreciation of the Rupiah in 2022 was more than that of Vietnam (3.5%), Thailand (3.6%), Malaysia (5.7%), China (8.9%); but lower than the Philippines (9.3%), India (11.3%), and Turkey (40.6%).

Description:
*) Figures are based on provisional estimates, official figures have not been released at the time of writing

Bank Indonesia, as the monetary authority in Indonesia, also responded to rising inflation and the depreciation of the Rupiah by making adjustments to its benchmark interest rate. During 2022, Bank Indonesia raised interest rates 5 times with a total increase of 200 bps, so that at the end of 2022 the benchmark interest rate was 5.5%. Nominally, Indonesia's interest rate is on par with the Philippines (5.5%), above Thailand (1.3%), Singapore (2.7%) and Malaysia (2.8%), but below Vietnam (6%) and India (6.3%). When compared to the inflation rate in these countries, Indonesia's real interest rate entered positive territory along with several other developing countries, including India, Vietnam, China, Mexico, and Brazil. Positive real interest rates should be an attractive signal for global placement of funds in Indonesia, which started in late 2022.

From the fiscal side, state revenue in 2022 increased rapidly by 30.6% YoY to Rp2,626 trillion, while state spending increased 10.9% to Rp3,091 trillion, which caused a deficit of Rp464.3 trillion. The Government succeeded in carrying out its mandate in Perppu No. 1 of 2020, which allowed the pandemic deficit to cross the threshold of 3% of GDP for 3 years, but must return to below 3% in 2023. The 2022 budget deficit was recorded at 2.4% of GDP, an achievement for the Government and state finance performance that is expected to be appreciated by the market and rating agencies.

Non Performing Loan (%)

Information:
*) Provisional Figures

The banking industry performance remained stable, both in terms of capital, liquidity and financial intermediation. The economic recovery in 2022 encouraged increased performance in the banking sector, supported by increasingly positive corporate performance.

Bank loan growth in December 2022 grew 11.4% (yoy), higher than the previous year's growth of 5.2% (yoy). The loan in credit growth occurred evenly across all economic sectors and all types of loan, especially for Investment Loans and Working Capital Loans. The positive development in the Bank's lending was influenced by improvements in demand and supply. On the supply side, the increase was supported by a banking liquidity that remained loose, and on the demand side, the increase in loans/financing was supported by steady corporate demand and household consumption.

Sectoral lending grew positively in all business areas, except for the Electricity, Gas and Water sector that was still negative by the end of 2022. There was an increasing trend in credit risk that needed to be watched, especially in the fisheries sector, Accommodation & Food and Beverage Provision, Wholesale and Retail Trade, Industry Processing, as well as in Construction.

Banking liquidity was maintained, supported by strong growth in Third Party Funds (TPF) throughout 2022. TPF growth in December 2022 was 9.0% (yoy), indicating high public interest in saving their funds in banks.

Banking interest rates are still conducive to supporting economic recovery, although they have gradually increased in response to the increase in the Central Bank's benchmark interest rate (BI7DRR). The increase in banking interest rates, which began to be limited, was due to loose liquidity.

Banking capital remains strong with the December 2022 Capital Adequacy Ratio (CAR) remaining high at 25.4%. Along with strong capital, credit risk is still under control, reflected in the non-performing loans (NPL) ratio in December 2022 of 2.6%.

BNI Strategic Policy for 2022

BNI CORPORATE PLAN 2021-2025

BNI has compiled the strategy direction until 2025 in response to external conditions that changed quite dynamically in recent years following the COVID-19 Pandemic, and fundamental changes in the banking industry landscape. The of the BNI strategy direction until 2025 was established as “Provider of Integrated Digital-Based Financial Solutions With International Excellence”.

This strategy direction brings with it unique value propositions that BNI will build upon in the future by focusing on 3 (three) areas, namely integrated, digital and international financial solutions. These three areas will be developed into a superior value for BNI to compete with competitors in the banking industry.

To achieve this strategy direction, BNI developed strategy initiatives in 5 (five) business pillars, namely Corporate Banking, Institutional Banking, International Banking, Commercial & SME Banking, and Consumer Banking, supported by development in 7 (seven) Enablers as a business foundation, namely Digital, IT, Operation, Network & Services, Risk Management, Finance, & Human Capital. The strategic initiative begins with the basic enhancing phase that focuses on improving the business foundation so that BNI can grow sustainably that was developed in the period 2021-2022.

BNI 2022 STRATEGIC POLICY

Guided by the Company’s vision, mission, policy direction, and BNI Corporate Plan for 2021-2025, and to support the development of strategic initiatives for enhancing the basics phase, BNI established the following strategic policy in 2022:

1. Optimizing risk management and discipline in the loan process by improving the quality of assets.
 - a. Developing end-to-end transformation of loan processes to improve loan quality and improve risk culture;
 - b. Optimizing restructuring that focuses on the priority sectors for improving LaR;
 - c. Improving the capabilities of market development and relationships to anticipate debtor business movements;

- d. Optimizing the Remedial & Recovery Process for Accelerating Credit Quality Improvement.
2. Increasing selective business expansion and sustainable financial solutions.
 - a. Increasing Corporate Segment Loan Expansion with a focus on the top tier priority sectors;
 - b. Initiating Green Financing in the BNI credit portfolio to support ESG initiatives;
 - c. Optimizing the MSME business from the corporate value chain in the leading sector;
 - d. Improving the MSME business through BNI Xpora to increase the potential for UMKM Go Global;
 - e. Supporting Government programs through the distribution of KUR and other programs;
 - f. Developing consumer loans in digital ecosystems in accordance with the Customer Journey.
3. Increasing global market expansion through the acceleration of international business strategies.
 - a. Developing the global banking transaction solutions capabilities to improve the trade, remittance and cash management business;
 - b. Increasing transactions and expanding international business services through partnership cooperation with fintech and third parties;
 - c. Increasing the productivity and role of KCLN as centers of excellence.
4. Increasing Sustainable FBI and CASA by offering transaction solutions.
 - a. Improving services, solutions and integrated transaction improvement programs according to the business needs of customers who use Giro;
 - b. Increasing debtor transactions through BNI account optimization;
 - c. Increasing cross selling and upselling by actively offering cross product segments & subsidiaries;
 - d. Optimizing product bundling by optimizing analytic data;
 - e. Optimizing digital-based ecosystems to provide convenience of transactions;
 - f. Increasing BNI Agen46 transactions and optimizing digital channels.
5. Strengthening digital capability through innovation and increasing partnerships.
 - a. Developing digital-based innovations to meet customer needs;

- b. Increasing partnership through API Management optimization;
- c. Increasing Quality Data and Analytic Data in Supporting Business;
- d. Optimizing innovation in digital-based business process internal processes;
- e. Increasing digital marketing to increase customer based and transactions;
- f. Developing Digital Tools for RM and Sales in supporting sales;
- g. Developing digital risk mitigation;
- h. Initiating the use of blockchain.
6. Increasing the synergy of BNI Group in optimizing the position of the Subsidiaries.
 - a. Increasing the penetration of subsidiary companies (PA) to strengthen PA positioning in heading to the market leader in each industry;
 - b. Increasing the digitization of the business processes in the Subsidiaries through synergy with the BNI Parent and Partnership;
 - c. Strengthening venture capital by supporting BNI synergy with Subsidiaries;
 - d. Continuing the strategy of strengthening and utilizing capital management by strengthening BNI capital through corporate actions, and optimizing the use of capital distribution to businesses that provide competing yields.
7. Optimizing Human Capital and operations in supporting business processes.
 - a. Optimizing talent management and workforce planning in supporting business development;
 - b. Increasing HC capabilities to understand market development, risk culture, global banking, digital mindset, and advance analytic;
 - c. Increasing unit and individual productivity through the development of superior performance and cultural-based organizations;
 - d. Increasing IT capabilities in supporting digitalization;
 - e. Developing operating models to be more agile and flexible to support business processes and digitalization;
 - f. Strengthening governance to support the development of operating models to support ESG initiatives;
 - g. Developing an organization design and optimizing the organization size to support efficiency and effectiveness in the digitalization era.

BNI CORPORATE TRANSFORMATION

BNI has carried out various improvements and innovations of business processes in Enhancing The Basics phase through the BNI Corporate Transformation program since 2021. The BNI Corporate Transformation program is run to answer several challenges and changes in the banking industry, accelerating financial performance improvement in a sustainable manner, as BNI’s effort to achieving the strategy direction in 2025 through the development of strategic initiatives (transformation).

Armed with BNI RACE Value, namely Risk Culture, Agile, Collaboration, dan Execution Oriented that encourages the spirit of transformation, the BNI Corporate Transformation program has produced various transformation initiatives that have begun to be implemented at all levels of the organization, in the Head Office, Regional Offices, and Branch Offices. Strategic Initiative Transformation focuses on 5 (five) business focuses, namely:

1. Strengthening the Company’s holding by strengthening its existence in the banking industry. To support the holding transformation process and achieve business potential in public digital transactions, BNI acquired one of the private banks in Indonesia, namely Bank Mayora, which will be transformed into a digital bank. Digital banks will focus on encouraging the Micro, Small, and Medium Enterprises (MSMEs) segment business in Indonesia, where the MSME segment plays an important role in economic growth in Indonesia as it absorbs 97% of Indonesian workers and contributes more than 60% to Indonesia’s GDP.

This digital bank will become a BNI channel to support MSME businesses in running their business using digital banking service solutions. The presence of this digital banking will perfect the penetration of BNI services in the MSME segment, also provide a faster and flexible financial service feature development.

BNI also strengthened its holding through the establishment of BNI Ventures as a subsidiary engaged in the field of venture capital. The BNI Ventures formation is intended to support BNI’s strategy of strengthening and expanding its network of cooperation with third parties more efficiently, and to provide added value in the collaboration process between BNI and third parties (startups). It is hoped that BNI Ventures will support the development of technology innovation, acceleration of BNI digital transformation and provide synergistic values in the future.

BNI also made additional equity participation in PT Bank Syariah Indonesia Tbk (“BSI”) through a Limited Public Offering process with the issuance of Preemptive Rights (HMETD), carried out by BSI on December 19, 2022. Through the process, BNI owns 1,242,439,344 Preemptive Rights shares at a price of Rp1,000 (full amount) per share. BNI decided to use only a portion of the Preemptive Rights with an additional investment of Rp500,000,000,000 (five hundred billion rupiahs), so the number of shares BNI owns in BSI increased to 10,720,230,418 shares and the percentage of BNI’s ownership in BSI has diluted from 24.85% to 23.24%.

The additional capital is intended to strengthen BSI's capital to be channeled for BSI's financing and business growth, as well to support BSI becoming a Top 10 Global Islamic Bank.

2. Improvement of loan quality through a more prudent loan process discipline.

The COVID-19 pandemic conditions affected economic conditions, including a decrease in loan quality. To address this condition, BNI developed the End to End Credit Process and Management of Loans at Risk (LAR) to improve loan quality, discipline in the lending process, supported by tools to facilitate loan management and improve awareness of the risk culture. Through these initiatives, BNI lowered its NPLs, reduced Credit Costs, while maintaining an adequate reserve ratio to anticipate future economic volatility.

3. Transfer of business focus towards providers of banking solutions & ecosystem development. To maintain business continuity in increasingly competitive conditions, BNI has developed initiatives for institutional business solutions, and increases to cross selling, with a focus on top tier customers to provide banking solutions, not only limited to the Bank's products & services, but also by Optimizing the products & services of the subsidiaries. Through this initiative, BNI's top tier customer portfolio has increased, institutional customers that are managed in an integrated manner are also increasing, as well as business volumes increasing as reflected in increasing business transactions, loans, and Fee Based Income (FBI).

BNI has also developed banking solutions using business ecosystems, such as the establishment of the BNI Xpora ecosystem. To move the economic wheels in Indonesia, and support the directives of the Ministry of

SOEs, BNI developed the BNI Xpora initiative and international business development. In the BNI Xpora initiative, BNI encourages MSMEs to market their products to the global market by developing the concepts of Go Digital, Go Productive, and Go Global, and has established 7 hubs in several strategic locations to capture the potential of MSME business oriented to the international market. The management of export-oriented MSME customers has increased the volume of trade finance, baki debit, FBI, and cheap funds. BNI also strengthened its international business by expanding its international network with the opening of BNI Representative Office Amsterdam.

4. Improvement of Business Operations in Business Processes, Channels, and IT

Increasing business development is followed by a more efficient and faster and high accuracy operational process. In this case, BNI developed several initiatives to support business, including:

- a. Improving operational processes ranging from the loan documentation process to operational improvement in the business channels;
- b. New Channel Model in facilitating customers in accessing BNI channels by mapping channels based on customer needs;
- c. Renewing the IT capability sturdiness in digital development, supported by strengthening cybersecurity.

5. Increasing productivity through a new more flexible way of working.

By supporting the faster business development process, BNI increases its employee productivity by changing their ways to be more agile through the New Way of Working (NWOW) initiative, and by improving performance management (channel, product, & segment) to increase performance awareness and talent management development In preparing future leaders.

Operational Overview

Per Business Segment

Based on the Articles of Association as set out in Deed No. 23 April 20 2021, BNI carries out its business and activities in the banking sector with the main activities being:

1. Collecting funds from the public in the form of deposits in the form of demand deposits, time deposits, certificates of deposit, savings, and/or other equivalent forms;
2. Providing credit;
3. Issuing debt acknowledgment letters;
4. Buying, selling, or guaranteeing at our own risk, or for the benefit of and at the behest of our customers (bills including money orders accepted by BNI as a Bank whose validity period is no longer than the custom in trading such letters);
5. Debt acknowledgment letters and other trade papers whose validity period is no longer than the custom in trading the said papers;
6. State treasury papers and Government Guarantee Letters;
7. Bank Indonesia Certificates (SBI);
8. Bonds;
9. Trade letters with a maturity in accordance with the laws and regulations;
10. Other securities instruments with a maturity in accordance with laws and regulations;
11. Transferring money both for our own interest and for the interest of customers;
12. Placing funds at, borrowing funds from, or lending funds to other banks, either by using letters, telecommunication facilities or by money orders, checks or other means;
13. Receiving payments from bills on securities and perform calculations with or between third parties;
14. Providing a place to store goods and securities;
15. Carrying out custodial activities for the benefit of other parties based on a contract;
16. Placing funds from customers with other customers in the form of securities that are not listed on the Stock Exchange;

17. Performing financing and/or carry out other activities including activities based on sharia principles, in accordance with the provisions stipulated by the competent authority;
18. Conducting factoring activities, credit card business and trusteeship activities;
19. Carrying out activities in foreign currency by fulfilling the provisions stipulated by the competent authority;
20. Conducting equity participation activities in banks or other companies in the financial sector;
21. Conducting temporary investment activities to overcome the consequences of loan failure, including failure of financing based on sharia principles with the condition they must withdraw their participation in accordance with the provisions stipulated by the competent authority;
22. Acting as the founder of the pension fund and administrator of the pension fund in accordance with the provisions of laws and regulations;
23. Conducting financial services, commercial banking and other investment banking activities; and
24. Conducting other activities that are commonly carried out by the Bank so long as they do not conflict with laws and regulations.

In addition to these main business activities, BNI also conducts supporting business activities to optimize the use of its resources to support the main business activities so long as they do not conflict with laws and regulations.

The BNI segment is divided based on 2 (two) aspects, namely:

1. Operating segment, based on main customer groups and products, divided into several segments, Corporate, Medium and Small, Consumer, Treasury and International, and Head Office, and Subsidiaries;
2. Geographical segment that describes the geographical distribution of BNI's business, divided into Indonesia, the United States, Europe and Asia.

BNI Segment Distribution

Operating Segment

Operations Segment Based on main customer groups and products

Geographic Segment

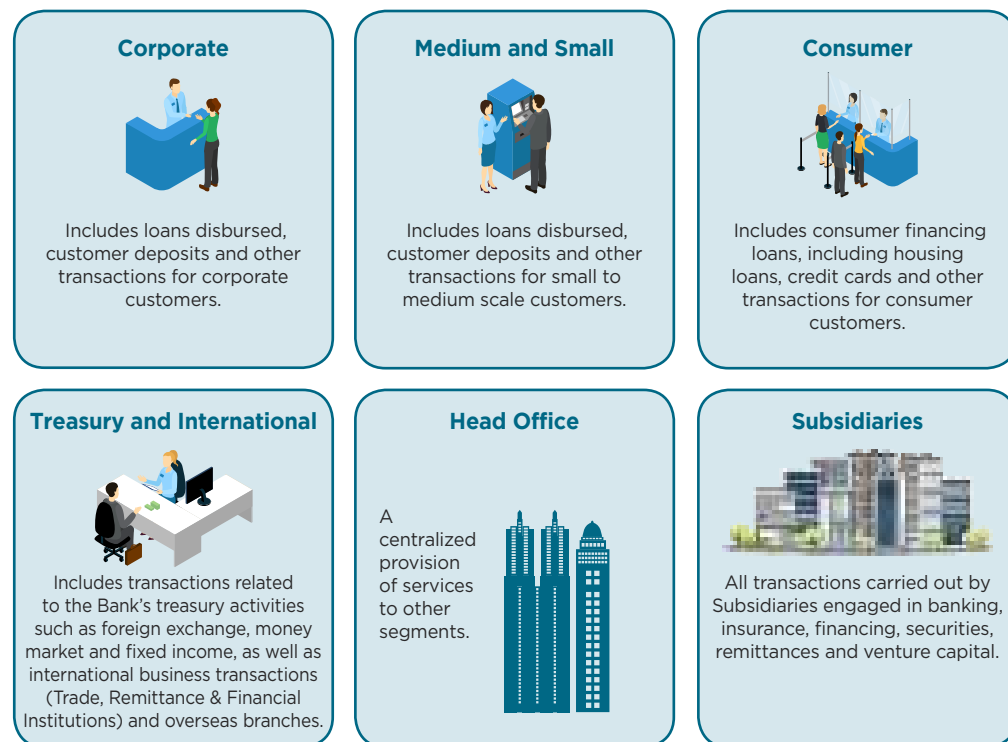

Geographic Segment Describes the geographic spread of BNI's business

OPERATING SEGMENT

The operating segment describes BNI's business based on main customer groups and products, which are divided into several segments, namely Corporate, Medium and Small, Consumer and Retail, Treasury and International Segments, Head Offices, and Subsidiaries.

For determining segment results, several asset, liability and related revenue and expense accounts are distributed to each segment based on management's internal reporting policies. Transactions between business segments are treated like third party transactions, which are recorded in each segment and eliminated at the Bank level.

The respective reports per operating segment at BNI are as follows.

In 2022, the Company changed its business segment performance calculation methodology, which was carried out improve the performance management system so it could drive performance in each segment. The changes included adjusting customer segmentation in accordance with the criteria and definition of each segment, as well as the nomenclature of the Board of Directors, which was changed at the General Meeting of Shareholders (GMS) on August 31, 2022. Presentation of business segment performance data can be found in the Audited Financial Report December 31, 2022 , notes to financial statements No. 47 (segment information).

In addition, the operating segment performance discussion in this chapter is presented according to the definition of operating segments described in the chart above, consisting of Corporate, Medium and Small, Consumer, Treasury and International, Head Office and Subsidiaries, as follows:

Segment Contribution to Interest Income and Sharia-Net Income

Segment	2022		2021*		2021		Increase (Decrease) 2021*-2022	
	Rp-billion	%	Rp-billion	%	Rp-billion	%	Nominal (Rp-billion)	Percentage (%)

Total Assets	1,029,837	100.0	964,838	100.0	964,838	100.0	64,999	6.7

*) Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

From the above table and graphics, it can be seen that in 2022 the Consumer segment contributed the most to the Bank's interest and sharia net income with 29.9%, while the Corporate segment contributed the most to the Bank's total assets with 29.8%.

The following shows the performance and achievements of each segment.

CORPORATE SEGMENT

Corporate Segment Activities

Corporate Segment Business Activities are derived from 3 (three) main business activities, including Loans Disbursed, Customer Deposits, and Other Banking Transactions for corporate customers. Corporate business activities are supervised by the Corporate & International Banking Director and the Institutional Banking Director, as explained below:

- Corporate Lending Segment, the provision of lending facilities for corporate customers (and their business groups) with the criteria for a maximum loan limit of more than Rp500 billion and sales/turnover for 1 (one) year of more than Rp1.5 trillion. Specifically for corporate customers such as Ministries/Institutions, State-Owned Enterprises (BUMN), large national and multinational companies in Indonesia and their business groups that are included in the LQ45 category (for public companies) or those that have key persons who are included in the top 50 according to Forbes, are included in the corporate segmentation without regard to the minimum lending or sales criteria.
- Customer Deposits or Third Party Funds (DPK) for the Corporate Segment are funds and transactions originating from:
 - Debtors who meet the corporate segment lending criteria;
 - Non-debtor company customers consisting of Ministries or Institutions, State-Owned Enterprises, large national and multinational companies in Indonesia and their business groups included in the LQ45 category (for public companies) or those that have key persons who are included in the top 50 according to Forbes;
 - Non-debtor corporate customers who have TPF deposit balances above Rp75 billion.
- Other transactions for Corporate Segment customers represent potential that is worked on by BNI to provide superior integrated digital solutions to support customer transactional activities.

Corporate Segment Strategy for 2022

To develop business in the Corporate segment, in 2022 BNI will instigate several efforts, namely:

- Corporate Segment Loan Development Strategy
 Re-sharpening the focus on Corporate Segment loans growth in a quality manner to top industry players with a good reputation in the market. This growth strategy can be explained as follows:
 - Prudent and sustainable credit growth
 - Determining the priority customers who are the main target for expansion into the Diamond and Wave Client group, namely companies that meet the criteria as market leaders in their respective economic sectors;

- Providing quality services by prioritizing process speed, facility structuring according to customer needs, comprehensive financial solutions and offering competitive prices;
 - Exploring business potential that can be developed with existing customers and their business groups;
 - Increasing lending in the sustainable finance sector in line with the Company's commitment to Environmental, Social and Governance (ESG) aspects, through financing to the renewable energy sector, energy efficiency, pollution prevention and control, management of biological natural resources and sustainable land use, environmentally friendly green building transportation, or other industrial sectors that apply ESG principles;
- Lending quality improvement
 - Maintaining asset quality by implementing quality pipeline management;
 - Improving monitoring and the Early Warning System (EWS) as well as intensive monitoring of business activities and periodic debtor financial reports;
 - Reducing the Loan at Risk portfolio in the Corporate Segment through holistic strengthening of the loan facility structure and other efforts to improve debtor performance.
 - Lending process improvement
 - Improving the speed and quality of the lending process by implementing an end-to-end loan process;
 - Improving HC capability & productivity as marketers and advisors who can provide comprehensive solutions for customer/debtor banking needs through training and certification.

2. Development Strategy for Corporate Segment Customer Deposits

To complement BNI's strategy of achieving an optimal funding structure, initiatives carried out in 2022 included:

- Collection of Corporate Customer TPF
 - Mapping the business potential of Corporate customers, acquiring transactions, and conducting regular monitoring;
 - Offering superior total financial solutions through BNI Cash Management products, bank guarantees, trade and supply chain financing that customers can use;
 - Optimizing TPF from the flow of goods and capital spending at Ministries/Institutions (K/L) with the largest limits;
 - Capturing the flow of corporate customer employee spending by optimizing payroll services and consumer products.
- Maintain Sustainable TPF
 - Maintaining relationships with managed customers and conducting regular engagement with corporate segment customers to maintain a superior customer experience for customers;

- ii) Making breakthroughs through integration of BNI products with partners or strategic partners to increase customer engagement and loyalty;
- iii) Strengthening digital capabilities with innovations on existing platforms and new products, as well as expanding transactional services. For example during 2022:
 - Providing competitive TPF interest rate pricing accompanied by a product bundling package to support BNI's profitability.
 - Providing online account opening facilities to make it easier for corporate customers to open current accounts and deposits in real time;
 - Launched the Multi Currency Current Account product that provides nine currencies namely rupiah (IDR), yen (JPY), pound sterling (GBP), United States dollar (USD), euro (EUR), Australian dollar (AUD), Singapore dollar (SGD), Hong Kong dollar (HKD), Chinese yuan (CNY), thus accommodating customers to settle payments in multiple currencies using one account.
 - Providing tax application services through BNI PJAP services (Tax Application Service Providers) from multi-billing agencies.
 - As an international bank, improving services for overseas customers by developing the Overseas Branch Office (KCLN) BNIDirect platform.
- c. Exploring the potential and penetration of the business ecosystem to explore sticky CASA and generate sustainable FBI from customer-derived businesses
 - i) Focusing, as a financial advisory, on providing end-to-end closed loop transaction solutions;
 - ii) Increasing exposure to BNI's digital ecosystem solutions to business people;
 - iii) Acquisition of partners and merchants from Ministry/Institution (K/L) customer work units;
 - iv) Deepening corporate customer value chains by acquiring potential suppliers, distributors and merchants from customer derivative businesses;
 - v) Synergizing with subsidiary companies to improve the implementation of business solutions for customers.

3. Other Transaction Development Strategy for Corporate Segment Customers
BNI supports customers by creating efficient business financial processes and increasing customer business productivity by offering cash management services that are effective, safe and reliable to non-individual customers. With the BNI Cash Management solution, customers can independently manage their corporate financial cash flow more regularly and monitor it online. BNI Cash Management products include various features, including: payment management for payments such as taxes, billing and other payments, collection management such as virtual accounts and e-collection, liquidity management and information management.

The BNI platform that customers can use for their cash management transactions is known as BNIDirect. BNIDirect is an integrated platform that can be accessed via a website and mobile app that has been tested for safety, by using the internet from anywhere and at any time, via the address [https:// bnidirect.bni.co.id](https://bnidirect.bni.co.id) or using the BNIDirect Mobile application, which can be downloaded via the Appstore or Playstore. BNIDirect is also equipped with BNI Trade Online to make it easier for customers to make export and import transactions online. All daily customer transaction needs can be made anytime and anywhere, with a trusted and reliable system.

BNIDirect in 2022 is developing new capabilities as a one-stop solution platform with seamless access to all business services such as Cash Management, e-Bank Guarantee for bank guarantee transactions, FSCM for Supply Chain Financing transactions, API, Smart Commerce Pay, and FX on one platform. Complementing this development, BNIDirect is also carrying out several innovations such as: integrated reporting - adding features that make it easier for customers to identify cash inflows, monitor liquidity, and carry out all transactional needs, and overall financial management.

By making the transaction process quick, precise and efficient, BNI has developed the latest API (Application Programming Interface) services such as the SNAP API, BNI Credit Card Information API, BNI Card Management API, BNI Billpayment API, and other API services as one of the product champions of BNI cash management services.

Corporate Segment Productivity

Productivity in the Corporate segment is reflected in the performance of Loans, Customer Deposits and Other Transactions for Corporate Customers, with an explanation below.

1. Productivity of Corporate Credit

BNI's loan portfolio is well diversified in BNI's priority sectors. The list of economic sectors and business sectors for the 10 largest individual and group debtors at the end of 2022 is as follows.

List of 10 Largest Individual Debtors by Economic Sector	
Economic Sector	Total (Rp-million)
Other Civil Buildings	7,940,306
Government Administration, and Economic and Social Policy	7,925,756
Scheduled Air Transport	6,806,711
Domestic Rice Trade	5,683,882
Cigarette Industry	4,967,113
Other Electricity	4,823,850
Iron and Steel Base Metal Industry	4,754,627
Cement, Lime and Gypsum Industry, As well as Products from Cement and Lime	4,005,499
Telecommunications Network	4,000,000
Copper Ore Mining	3,917,500
Total	54,825,244

List of 10 Largest Group Debtors by Economic Sector	
Business Sector	Total (Rp-million)
Toll Road construction;	12,461,568
Palm oil plantations; Telecommunication; Cement Industry; Car sales; electricity; Agriculture; F&B	12,084,445
Other Civil Buildings; Toll Road Construction	11,557,085
Pulp, Paper and Cardboard/Paper Board Industry; Palm Oil Industry; Real Estate; Multifinance	8,394,578
Coal Mining & Trading; Real Estate; Palm Oil plantation	8,231,141
Electricity; Trading; Real Estate	7,203,395
Petrochemicals; Electricity	6,926,112
Oil and Gas Mining & Trading	6,529,949
Telecommunications Network	6,380,577
Palm Oil Plantation & Industry	6,307,912
Total	86,076,762

The largest individual corporate segment credit disbursement based on business sector was in the other civil construction sector with a debit balance of Rp7.9 trillion, or 2.4% of total corporate loans. At the same time, the largest loans distribution to the corporate segment based on debtor groups was in the toll road construction, trading with Rp12.5 trillion or 3.8% of total corporate loans.

The Corporate segment loan growth is presented in the following table:

Corporate Segment Loan Growth (Incl. Overseas)						
Product	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Investment Loans	115,445	35.6	100,521	35.0	14,924	14.8
Working Capital Loans	208,805	64.4	186,953	65.0	21,852	11.7
Total	324,250	100.0	287,474	100.0	36,776	12.8

Total loans in the Corporate segment including Overseas amounted to Rp324.3 trillion. Overseas loans are loans extended by BNI Overseas Branch Offices (KCLN) to overseas debtors (local loans). Based on the type of loan disbursed in 2022, the majority of corporate loans were Working Capital Loans, which accounted for 64.4% of total corporate loans, or Rp208.8 trillion, with the remaining 35.6% or Rp115.4 trillion being Investment Loans.

2. Corporate Customer Savings Productivity

Customer Deposits Productivity in the Corporate segment was reflected in the growth of Third Party Funds (TPF) and the number of accounts, as shown below:

Total Corporate Segment Third Party Funds						
Product	2022		2021*		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Current Accounts	222,635	65.6	205,889	62.3	16,746	8.1
Savings	6,044	1.8	3,668	1.1	2,376	64.8
Deposits	110,536	32.6	121,107	36.6	(10,571)	(8.7)
Total	339,215	100.0	330,664	100.0	8,551	2.6

*) Restated 2021 data based on business resegmentation

The total current accounts for the corporate segment as of December 31 2022 amounted to Rp16.7 trillion, an increase of 8.1% from the previous year. The increase in TPF deposit funds was mainly driven by an increase in corporate customer transactions through BNI's cash management solutions. Judging from its composition, the portion of TPF low-cost funds for the corporate segment increased from 63.4% in 2021 to 67.4% in 2022. This was in line with BNI's efforts to continue to maintain sustainable low-cost TPF by making BNI the main bank for customers saving funds, and by carrying out transactions on an ongoing basis.

Total Corporate Segment Customer Savings Accounts						
Product	2022		2021*		Increase (Decrease)	
	Total (Number of Accounts)	Composition (%)	Total (Number of Accounts)	Composition (%)	Total (Number of Accounts)	Percentage (%)
Current Accounts	73,301	85.1	71,880	84.3	1,421	2.0
Deposits	12,858	14.9	13,397	15.7	(539)	(4.0)
Total	86,159	100.0	85,277	100.0	882	1.0

*) Restated 2021 data based on business resegmentation

The number of BNI Corporate Segment Customer Savings Accounts as of December 31 2022 was 86,159, an increase of 882 from the previous year. This increase was mainly due to an increase in the number of current accounts, by 1.0% from the previous year.

3. Other Corporate Customers Transactions Productivity

The Other Corporate Banking segment Transactions Productivity is reflected in the number of BNI Cash Management account units and BNIDirect product transactions. In 2021, BNI was resegmenting; so causing a portfolio shift between corporate segment customers and small and medium segment customers.

Total BNI Cash Management Accounts for the Corporate Segment				
Product	2022 (Number of Accounts)	2021 (Number of Accounts*)	Increase (Decrease)	
			Nominal (Number of Accounts)	Percentage (%)
BNI Cash Management Corporate Segment	27,323	24,327	2,996	12.3

*) Restated 2021 data based on business resegmentation

The number of BNI Cash Management accounts for the Corporate segment as of December 31, 2022 27,323 an increase of 12.3% compared to 24,327 accounts at the end of 2021.

BNI Cash Management Transactions for the Corporate Segment

Description	2022	2021**	Increase (Decrease)	
			Nominal	Percentage (%)
Transaction Nominal (Rp-billion)	4,442	2,875	1,567	54.5
Total Users*	1,243	1,063	180	16.9

*) The number of CM users who are actively transacting for corporations is calculated based on CIF

**) Figures after resegmentation

In 2022, BNI Cash Management transactions for corporate customers accounted for Rp4.442 billion in transactions. This an increase of Rp1,567 billion from the previous year. The increase in nominal value of these transactions is in accordance with the increase in the number of corporate customers who are actively transacting using BNI Cash Management solutions. The increase in the number of transactions came from transfer, collection and payment activities carried out by corporate customers.

Corporate Segment Profitability

Revenue and profitability of the Corporate segment are presented as follows:

Account	2022 (Rp-billion)	2021* (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Profit (Loss)				
Interest income and sharia income - net	11,118	11,693	(575)	(4.9)
Other operating income	3,260	3,220	40	1.2
Other operating expenses	(4,838)	(4,732)	(106)	2.2
Establishment of allowance for impairment losses	(8,025)	(8,195)	170	(2.1)
Operating profit	1,515	1,986	(471)	(23.7)
Non-Operating Income (Expense) - Net	-	-	-	-
Income Before Tax Expenses	1,515	1,986	(471)	(23.7)
Financial Position				
Total Assets	306,837	270,797	36,040	13.3%
Total Liabilities	357,217	345,084	12,133	3.5%

*) Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

Profit before tax expense in the Corporate segment in 2022 was Rp1.5 trillion, driven by growth in other operating income that grew 1.2% or Rp40 billion compared to Rp3.2 trillion in 2021. The total assets in the corporate segment in 2022 was Rp306.8 trillion, an increase of 13.3% compared to 2021, or an increase of Rp36.0 trillion. While total liabilities in the Corporate segment in 2022 amounted to Rp357.2 trillion, an increase of Rp12.1 trillion, or 3.5% compared to the previous year.

Prospects, Potential and Strategy for the Corporate Segment in the Next Year

Overall, Indonesia's macroeconomic conditions in 2023 are projected to experience growth supported by private consumption, export performance and investment (Foreign Capital Inflow). The repeal of the Community Activity Restrictions (PPKM) policy in early 2023 will also contribute to a positive signal in moving the wheels of the economy, as well as providing space for growth for businesses that were previously affected by the PPKM policy.

In implementing a quality and sustainable loan asset growth strategy, BNI management has established target markets in priority sectors such as Energy-based sectors (Mining, Energy & Renewable Energy, Oil & Gas, Petrochemical), Agribusiness, Manufacture, Fast Moving Consumer Goods (FMCG), Retailers, Healthcare/Pharmacy, Telecommunication & Digital Economy and Transportation. The contributions from these sector will have a positive impact on increasing BNI's market share, quality of loan assets and profitability.

The factors considered to support BNI's loan expansion in the Energy-based sector (Mining, Energy & Renewable Energy, Oil & Gas, Petrochemical) and Agribusiness include:

1. Growth of the mining sector driven by an increase in demand for coal commodities, caused by the Russia & Ukraine conflict that has resulted in an energy crisis and China's economic recovery, as one of the largest coal importing countries in the world. Another factor is the existence of Government support to carry out a downstream program for mineral mining products (copper, gold, nickel, bauxite) and regulations prohibiting the export of mineral ores so as to provide added value for export products and generate foreign exchange. The increase in demand for copper and nickel is projected to increase along with the need for raw materials for the manufacture of electric vehicles (EV). The demand for gold has fairly good stability as it is the prima donna of the world's investment instruments.
2. Specifically in renewable energy, this will provide a positive color for BNI during the trend of Government support for environmentally friendly businesses, as regulated in the Presidential Regulation on New and Renewable Energy (EBT) 2022.
3. The Oil & Gas and Petrochemical industries are the backbone of the national economy. The large scope of this industry is a clear illustration for capturing existing business potentials.
4. In the agribusiness sector, the Government's policy to reopen the palm oil export faucet will encourage the upstream to downstream industrial sector to meet world demand for palm oil.

The manufacturing sector (including FMCG) still has the potential to grow with the following positive sentiments:

1. The central government has instructs all ministries/agencies to use domestic products, so as to create a multiplier effect from upstream to downstream in the manufacturing sector.
2. Improvements in consumption levels supported by increases in average minimum wages and reductions in production costs with easy accessibility to travel or toll roads that have been connected throughout Java Island and parts of Sumatra.

Pharmacies is a promising sector and is part of the priority sectors for realizing the Making Indonesia 4.0 program. The Indonesian Government is trying to increase the competitiveness of the medical device and pharmaceutical sector by encouraging the technology-based digital transformation, as well as the Government's focus on developing the health

industry in an effort to overcome a dependence on imported raw materials.

There was a trend of lifestyle changes caused by the dynamic technological developments that had a good impact on the telecommunication sector and the digital economy where digital connectivity and services have become basic needs during the pandemic until now. The shift in people's behavior towards a less-contact economy due to the COVID-19 pandemic has driven growth in the digital economy in Indonesia, which currently includes e-commerce, ride hailing, online media, and online travel.

Finally, the transportation sector currently has the highest growth compared to other sectors, in line with the revocation of the PPKM policy by the Government at the end of December 2022.

1. Corporate Segment Loan Business Strategy Plan for 2023
 - a. Prudent, quality and sustainable credit growth
 - i) Increase market share by focusing on quality growth through expansion in Diamond and Wave Clients as well as top industry players in Indonesia with a good reputation in the market.
 - ii) Acquire top tier clients in resilience/ toughness industries such as Fast Moving Consumer Goods FMCG/Retailers, Manufacturing, Healthcare/Pharmacies, Agribusiness, Mining, Energy & Renewable Energy, Oil & Gas, Petrochemical, Telecommunications, Transportation, Digital Economy;
 - iii) Prioritizing offering integrated financial solutions (One Stop Financial Solution) that also includes products and services from subsidiaries as added value.
 - iv) Increase BNI's ESG portfolio by expanding into the renewable energy sector, energy efficiency, pollution prevention and control, management of biological natural resources and sustainable land use, environmentally friendly transportation, green building, or other industrial sectors that apply ESG principles;
 - v) Become the lead structuring bank for Structure Financing & Syndication, and provide the best solutions needed by customers.
 - b. Loan quality improvement
 - i) Rebalancing portfolios and crisis protocols by periodically conducting stress tests and sensitivity analysis on external factors.
 - ii) Remapping the lending portfolio to accelerate loan quality improvement in a more measurable manner.

- c. Loan process improvement
 - i) Accelerating business processes by increasing the speed and quality of loan processes through an end-to-end process.
 - ii) Improving the competence and capabilities of employees in both hard skills and soft skills to become reliable Financial Advisors for customers.
2. Corporate Segment Customer Savings Business Strategy Plan for 2023
 - a. Increasing the number of corporate customers who are actively transacting at BNI, especially from top-tier customers, customers in the supply chain financing ecosystem, and biller customers who use BNI collection solutions
 - b. Enlarging the customer base by exploring the potential for customer acquisition from stakeholders involved in the business processes of existing customers and potential derivative businesses from top-tier customers
 - c. Encouraging customer business growth with services, solutions and programs that are effective, integrated and based on clients' needs
 - d. Speeding up the Synergy and collaboration with Branches/KCLN, subsidiaries, new potential and/or partners/strategic partners by initiating new ecosystems and providing optimal total and advisory solutions
3. Business Strategy Plan for Other Transactions for Corporate Segment Customers in 2023
In 2023, BNI will continue to develop sustainable products and transaction services. One of the main developments carried out by BNI in the transactional business will be the addition of the Digital Executive Dashboard capability to BNIDirect allowing customers to access all transaction services through one BNIDirect platform, consolidating the company's

financial aspects, and monitoring liquidity on one dashboard. BNIDirect will also be equipped with seamless digital onboarding to facilitate the customer experience in starting transactions. In addition, in order to expand transactional services to support the needs of global business partners, BNI will continue to launch the BNIDirect platform for Overseas Branch Offices (KCLN) after successfully presenting BNIDirect services for KCLN in London in 2022.

Apart from BNIDirect, BNI also has several product champions to support customer business productivity such as BNI AUTOPAY - a direct transaction payment facility on the site and/or Biller application, with daily limits and OTP for registration validation; Supplier Financing - a financing facility provided to Corporate Partners (Supplier) for corporate bills/receivables; GB Paperless - an electronic Bank Guarantee issuance facility equipped with a digital signature and e-stamp; and BI FAST - a national retail payment system that can facilitate retail payments in an efficient, real-time, secure manner and is available 24 hours.

BNI is also working on the potential for increasing transactions from priority customers, potential derivative businesses for existing customers, increasing the level of integration of BNI digital products with existing partner solutions, meeting the needs of customized customer Application Programming Interface (API) services, synergizing with subsidiary companies to provide business solutions that are optimal for customers, as well as increasing cross-selling and up-selling to customers. Efforts to keep corporate customer transactions sustainable are also being carried out by increasing monitoring of system reliability to make it more effective and efficient as well as to provide superior after sales service, focused on excellence customer experience.

What They Say

Testimony from a Corporate Customer (Loans, Deposits and Other Transactions):

Bayu Adjie M
Executive Vice President of PT Perusahaan Listrik
Negara (PLN)

BNIDirect is an integrated cash management solution that is the PLN Group's top choice for transactions. With a variety of features that are complete, attractive, and user-friendly, BNIDirect is also supported by reliable system and operational reliability. Apart from BNIDirect, the PLN Group also actively transacts using the API service, namely One Gate Payment for managing the PLN Group's transactional needs efficiently and optimally.

The financial solutions offered by BNI also include managing the financial liquidity of the PLN business group with the Notional Pooling scheme. This collaboration is part of PLN's efforts to realize a good financial structure, and is one of the company's priorities, where PLN chose BNI to be the bank providing Notional Pooling services for PLN.

We hope that in the future BNI can grow in line with the PLN Group's business development through SOE synergy and remain the main bank partner for PLN.

Hendrik Polisar Finance Director of PT Mayora Indah, Tbk

Bank BNI is one of the Top Tier Banks in Indonesia that provides the best banking services. BNI has an awesome Professional team and dedicated staff. Their Leadership is Organic and deeply rooted for the vested interests of its clients and the success of partnership between its Clients and the bank. Our relationship with BNI (Bank Negara Indonesia). Since BNI became one of the banks that supported our Funding Needs. Starting from working capital loans, our relationship has developed into investment loans, trade facilities and cash management. We are very impressed by their vision, hard work, Outstanding performance, and wonderfull team. Looking forward to a long relationship with BNI.

Nining Ngudi Purnamaningtyas Director of Fund Distribution for the Environmental Fund Management Agency, Ministry of Finance of the Republic of Indonesia

BNIDirect has really helped us in channeling benefits down to the site level, through fast and responsive digital services. As an institution that will continue to grow, I believe BNIDirect services are solutions for transactions based on our needs. Are there other transaction innovations that can extend services to the remote fringes of forests?

Denni Puspa Purbasari Executive Director of Management Implementing the Pre-Employment Card Program

BNI is a strategic partner in the Pre-Employment Card Program. Thank you BNI for your efforts to provide cash management services from the start of the program, where BNI helped us serve all stakeholders involved in this program, both recipients of the Pre-Employment Card Program, digital platform partners, and e-wallet payment partners.

Ari Kuncoro Rector, Universitas Indonesia

BNI FINANCIAL SERVICES

One of BNI's advantages compared to other banks in Indonesia is its ability to provide the best cash management services, which allows parties appointed by the company to supervise each other's transactions, to ensure transaction security is maintained.

BNI was the first bank in the University environment to provide solutions for University needs through the Campus Financial Ecosystem for the University's extended family in terms of providing financial and academic transactions.

MEDIUM AND SMALL

Medium Segment Activities

The Medium segment manages productive loans ranging from above Rp15 billion to Rp500 billion for individual customers and group customers. Medium business activities are supervised by the Enterprise & Commercial Banking Director. In 2021, BNI will expand the management of the middle segment to become enterprise and commercial.

Enterprise (Large Commercial) is a sub-segment that manages loan portfolios ranging from Rp150 billion to Rp500 billion, while commercial manages loan portfolios ranging from Rp15 billion to Rp150 billion.

In addition to providing productive loans, this segment also provides Customer Savings or Third Party Funds (DPK) services originating from customers who have productive loan facilities. The Middle Segment also provides other banking transaction services using superior products such as BNIDirect.

Medium Segment Strategy for 2022

The Medium Segment in 2022 focused on quality business growth and Loan at Risk (LaR) improvement, as well as continuing to handle debtors affected by the COVID-19 pandemic. The quality business expansion focus was through target market execution sourced from top tier players in priority sectors in each region, exporters, corporate customer value/supply chains and potential existing non-debtor customers with the support of fast and prudent business processes through digitalization of business processes.

For this reason, since 2022 BNI has initiated the development of an end-to-end credit tools system application to support fast and prudent business processes. Efforts to create a healthy and sustainable portfolio continue to be carried out through a team to accelerate the improvement of Loan at Risk (LaR) debtors, which has existed since 2020, and has had a positive impact by reducing the number of Loans at Risk (LaR) in the medium segment.

To support this strategy, the middle segment also instigated several other supporting strategies.

1. Medium Segment Loan Channeling Business Strategy
 - a. Determining the customers/prospective customers in prime and non-prime categories with different relationship patterns in order to produce sustainable customers in partnership with BNI.
 - b. Increasing the capability of Relationship Managers as marketers and advisors who can provide comprehensive solutions for customer/debtor banking needs.

- c. Implementing pipeline management by strengthening the pre-screening function and developing Risk Acceptance Criteria (RAC) to produce quality customers.
 - d. Reducing Loan at Risk (LaR) using conventional and non-conventional rescue and settlement patterns/solutions.
 - e. Optimizing cooperation with government and private guarantee companies as additional risk mitigation in certain financing schemes.
 - f. Increasing the green financing ratio in BNI's loan portfolio to support Environmental, Social and Governance (ESG) initiatives;
 - g. Encouraging debtors to carry out ESG initiatives to obtain sustainability linked loan (SLL) facilities so that debtors receive economic incentives.
2. Medium Segment Customer Savings Business Strategy
 - a. Working on the business potential of non-debtor customers with derivatives from vendors or suppliers from Diamond Client partners.
 - b. Developing a business ecosystem for potential industrial sectors.
 3. Other Transaction Business Strategy for the Medium Segment
 - a. Improving services, solutions and programs to increase transactions that are integrated according to the business needs of shift customers.
 - b. Increasing debtor transactions by optimizing BNI accounts.
 - c. Increasing cross-selling and up-selling by actively offering cross-segment and subsidiary products.
 - d. Optimizing product bundling by optimizing data analytics.
 - e. Optimizing digital-based ecosystems to provide easy transactions.

Small Segment Activities

For the Small Segment, BNI manages productive loans to individual customers, companies and business groups with a maximum loan of up to Rp15 billion.

During 2022, BNI continued to focus on developing and implementing several key strategies to help recover the businesses of customers affected by COVID-19, and implementing strategic policies by continuing to encourage the growth of the Small Segment with maintained loan quality through several strategic expansion and credit management initiatives.

Also, in 2022 BNI will focus on helping MSME debtors to Go Global through the BNI Xpora platform by conducting business matching, collaborating with diaspora, participating in foreign exhibitions etc.

During 2022 BNI Xpora succeeded in encouraging 32 thousand MSMEs to Go Global, an increase of 140% compared to the previous year, with the export loan distribution for MSMEs also increasing from 19 trillion to 27 trillion.

1. Small Segment Lending Business Strategy
 - a. Executing guarantee-based and subsidized business potential in this case the People's Business Loan (KUR).
 - b. Improving the capabilities of digital business processes to increase work effectiveness and provide optimal work productivity.
 - c. Optimizing the BNI Corporate Customer Value Chain business by developing comprehensive financial solutions to expand outreach to MSMEs, which are the BNI Corporate Customer Value Chain.
 - d. Increasing financing based on digital ecosystems and agricultural clusters.
 - e. Strengthening the capabilities of business personnel through a series of development programs, especially on industry knowledge and capabilities as a business partner for customers.
 - f. Increase the dunning team's contribution in maintaining and monitoring small segment customers.
 - g. Strengthening integrated business solutions (loans, transactions, and business capability enhancement) to support export-oriented MSMEs through BNI Xpora.
2. Small Segment Customer Savings Business Strategy
 - a. Encouraging customers to use existing transaction channels at BNI, including BNI Mobile Banking, BNI Agen46, Merchants, BNIDirect and others.
 - b. Working on the cash to cash cycle of the business from upstream to downstream customers at BNI.
 - c. Maintaining relationships with managed customers and conducting regular engagement with small segment customers.
 - d. Collaborating internally by conducting continuous employee training programs in regions and branches.
3. Other Banking Transaction Business Strategy for the Small Segment
 - a. Synergizing subsidiaries in increasing Fee Based Income (FBI).
 - b. Utilizing overseas channels to encourage remittance transactions focused on Indonesian migrant worker customers.
 - c. Making it easy for customers to receive non-cash loan facilities accessed at the nearest BNI outlet.

Medium and Small Segment Productivity

The Medium and Small segment productivity is reflected in the Loans, Customer Deposits and Other Banking Transactions for Medium and Small Customers performance, as explained below.

1. Medium Segment Credit Productivity

Based on sub-segments, the loan performance for the medium segment was as follows:

Medium Segment Loan Disbursement by Sub-Segment						
Sector	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Enterprise	53,141	50.0	40,905	41.3	12,236	29.9
Commercial	53,173	50.0	58,227	58.7	(5,054)	(8.7)
Total	106,314	100.0	99,132	100.0	7,182	7.2

The implementation and execution of the Medium Segment strategies in 2022 resulted in the Medium Segment loan performance per sector, as follows.

Medium Segment Loan Disbursement by Sector						
Sector	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Trade, Restaurant and Hotel	28,855	27.1	25,808	26.0	3,047	11.8
Mining	6,774	6.4	1,683	1.7	5,091	302.5
Industry	30,065	28.3	28,039	28.3	2,026	7.2

Medium Segment Loan Disbursement by Sector

Sector	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Agriculture	9,845	9.3	10,023	10.1	(178)	(1.8)
Construction	7,144	6.7	7,201	7.3	(57)	(0.8)
Transportation, Warehousing and Communication	8,624	8.1	9,936	10.0	(1,312)	(13.2)
Electricity, Gas and Water	2,937	2.8	2,205	2.2	732	33.2
Business Services	8,888	8.4	10,782	10.9	(1,894)	(17.6)
Social Services	3,182	3.0	3,455	3.5	(273)	(7.9)
Total	106,314	100.0	99,132	100.0	7,182	7.2

Loan growth was largely supported by the Enterprise sub-segment with the largest growth in the Mining Sector (302.5%), the Electricity, Gas and Water Sector (33.2%), and the Trade, Restaurant and Hotel Sector (11.8%). In addition, loan quality improved with a decrease in the Pre-NPL ratio to 4.3% from the previous 12.8%, and the NPL ratio to 6.4% from the previous 8.9%.

2. Small Segment Loan Productivity

The Small segment productivity is reflected in the loan performance for this segment by product type, namely People's Business Loans (KUR) and Non-KUR and by sector, as shown below:

Small Segment Loan Growth per Product Type

Product	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
KUR	52,708	51.9	44,008	46.0	8,700	19.8
Non KUR	48,931	48.1	51,744	54.0	(2,813)	(5.4)
Total	101,639	100.0	95,752	100.0	5,887	6.1

The Small Segment maintained loan growth amid the spread of COVID-19. The Small Segment in 2022 reached Rp101.6 trillion, an increase of 6.1%, or Rp5.9 trillion from the previous year. This growth was supported by KUR products that grew 19.8% or an increase of Rp8.7 trillion from the previous year.

The quality of small loans, especially the NPL ratio, was maintained at 2.5% during the impact of the spread of COVID-19, which massively affected the Indonesian economy. This impacted any improving business processes starting from the selection of target markets, analytical methods including scoring systems as well as monitoring and loan management.

Small Segment Loan Disbursement by Economic Sector

Sector	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Industry	8,563	8.4	8,758	9.1	(195)	(2.2)
Trade, Restaurant and Hotel	57,449	56.5	53,234	55.6	4,215	7.9
Agriculture	16,663	16.4	15,084	15.8	1,579	10.5
Business Services	4,953	4.9	5,468	5.7	(515)	(9.4)
Transportation, Warehousing and Communication	2,271	2.2	2,316	2.4	(45)	(1.9)

Small Segment Loan Disbursement by Economic Sector

Sector	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Construction	3,129	3.1	3,273	3.4	(144)	(4.4)
Electricity, Gas and Water	196	0.2	145	0.2	51	35.2
Mining	496	0.5	452	0.5	44	9.7
Social Services	7,919	7.8	7,022	7.3	897	12.8
Total	101,639	100.0	95,752	100.0	5,887	6.1

The small segment credit growth in 2022 was largely supported by the Electricity, Gas and Water sector (35.2%), the Social Services sector (12.8%), and the Agriculture sector (10.5%), with a stable NPL ratio from 2021 at 2.5%.

Compositionally, the loan portfolio in the Small segment in 2022 was dominated by the Trade, Restaurant and Hotel sector (56.5%), the Agriculture sector (16.4%), and the Industrial sector (8.4%).

3. Medium and Small Segment Customer Deposits Productivity

In addition, the productivity of the Medium and Small segments is also reflected in Customer Deposits for this customer segment.

Total Middle and Small Segment Third Party Funds

Product	2022		2021*		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Current Accounts	84,545	61.8	69,695	60.7	14,850	21.3
Savings	25,880	18.9	22,733	19.8	3,147	13.8
Deposits	26,474	19.3	22,385	19.5	4,089	18.3
Total	136,899	100.0	114,813	100.0	22,086	19.2

*) Restated 2021 data based on business resegmentation

Total current accounts in the medium and small segments as of December 31, 2022 increased by Rp14.9 trillion, or an increase of 21.3% from the previous year. Looking at its composition, the Middle and Small customer deposits were mostly current accounts (61.8%) and savings accounts (18.9%). The number of demand deposits and savings accounts in the middle and small segments was made up of 596,805 (36.3%) current accounts and 1,030,028 (62.6%) savings accounts from an overall total of 1,644,611 accounts. Looking forward, BNI will continue to encourage an increase in the number of low-cost TPF from current and savings accounts through developments and innovations, and programs that will make it easier for customers to carry out their transactions, and encourage customers to continue doing digital transactions using BNIDirect.

Number of Medium and Small Segment Accounts

Product	2022		2021*		Increase (Decrease)	
	Total (Number of Accounts)	Composition (%)	Total (Number of Accounts)	Composition (%)	Nominal (Number of Accounts)	Percentage (%)
Current Accounts	596,805	36.3	581,166	35.1	15,639	2.7
Savings	1,030,028	62.6	1,059,893	63.9	(29,865)	(2.8)
Deposits	17,778	1.1	16,848	1.0	930	5.5
Total	1,644,611	100.0	1,657,907	100.0	(13,296)	(0.8)

*) Restated 2021 data based on business resegmentation

4. Other Banking Transactions for the Medium and Small Segments Productivity

BNI also provides Other Banking Transaction services for the Medium and Small segments as reflected in the number of BNI Cash Management account units, and the number of accounts, as shown below.

Number of BNI Cash Management Account Units for the Medium and Small Segments

Produk	2022 (Number of Accounts)	2021 (Number of Accounts)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
BNI Cash Management Medium and Small Segments	259,784	213,143	46,641	21.9

*) Figures after resegmentation

The number of BNI Cash Management accounts in the medium and small segments as of 31 December 2022 was 259,784 accounts, a growth of 21.9% from 213,143 at the end of 2021.

BNI Cash Management Transactions for the Medium and Small Segments

	2022	2021**	Increase (Decrease)	
			Nominal	Percentage (%)
Transaction Nominal (Rp-billion)	1,725	1,321	404	30.6
Total Users*	93,623	79,375	14,248	18.0

*) The number BNI Cash Management users for medium and small is calculated by CIF

**) Number after resegmentation

In 2022, the nominal BNI Cash Management transactions for the Medium and Small segments amounted to Rp1,725 trillion, an increase of Rp404 trillion (30.6%) from 2021. This increase was generated by 93,623 Cash Management users, an increase of 14,248 users (18.0%) from the previous year. The increase in nominal transactions was in line with the increase in the number of middle and small segment users who actively transact through BNIDirect, of 4,823 or 53.4% from 2021.

Medium and Small Segment Profitability

The Medium and Small segments income and profitability is presented as follows.

1. Medium Segment Profitability

Medium Segment Profitability

Account	2022 (Rp-billion)	2021* (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Profit (Loss)				
Interest income and sharia income - net	5,118	4,611	507	11.0
Other operating income	1,295	938	357	38.1
Other operating expenses	(2,165)	(1,838)	(327)	17.8
Establishment of allowance for impairment losses	361	(4,092)	4,453	(108.8)
Operating profit	4,609	(381)	4,990	1,309.7
Non-Operating Income (Expense) - Net	-	-	-	-
Income Before Tax Expenses	4,609	(381)	4,990	1,309.7
Financial Position				
Total Assets	104,618	92,738	11,880	12.8
Total Liabilities	72,106	63,758	8,348	13.1

*) Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

In 2022, profit before tax expense in the Medium segment amounted to Rp4.6 trillion, a significant increase of 1,309.7%, or Rp5.0 trillion compared to 2021. This growth in 2022 was mainly due to an increase in interest income and net sharia income of 11.0%, and other operating income of 38.1% compared to 2021. The provision for impairment losses improved by Rp4.5 trillion compared to the previous year.

Total assets in 2022 amounted to Rp104.6 trillion, an increase of Rp11.9 trillion, or 12.8% compared Rp92.7 trillion in, mainly due to loan growth.

Total liabilities in 2022 amounted to Rp72.1 trillion, an increase of 13.1%, or Rp8.3 trillion from Rp63.8 trillion in 2021, due to an increase in the total third party funds.

2. Small Segment Profitability

Small Segment Profitability

Account	2022 (Rp-billion)	2021* (Rp-billion)	Increase (Decrease) Nominal (Rp-billion)	Percentage (%)
Profit (Loss)				
Interest income and sharia income - net	8,160	7,211	949	13.2
Other operating income	1,660	1,630	30	1.8
Other operating expenses	(3,243)	(2,986)	(257)	8.6
Establishment of allowance for impairment losses	(2,381)	(1,810)	(571)	31.5
Operating profit	4,196	4,044	152	3.8
Non-Operating Income (Expense) - Net	-	-	-	-
Income Before Tax Expenses	4,196	4,044	152	3.8
Financial Position				
Total Assets	157,775	154,984	2,791	1.8
Total Liabilities	74,907	58,787	16,120	27.4

*) Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

Profit before tax expense in the Small segment was Rp4.2 trillion, an increase of 3.8%, or Rp152 billion compared to 2021, was mainly due to an increase in interest income and net sharia income of 13.2%, and other operating income of 1.8% compared to 2021.

Total assets in 2022 stood at Rp157.8 trillion, an increase of Rp2.8 trillion or 1.8% compared to Rp155.0 trillion in 2021, of mainly due to a growth of KUR.

Total liabilities in 2022 stood at Rp74.9 trillion, an increase of 27.4%, or Rp16.1 trillion compared to 2021 Rp58.8 trillion in 2021, due to an increase in total third party funds.

Prospects, Potential, and Strategies for the Small and Medium Segments in the Next Year

2023 will provide greater opportunities for businesses to grow, especially after the repeal of PPKM reflecting better control of the COVID-19 pandemic. However, fluctuations in the global situation need to be addressed to mitigate potential risks that may occur.

In line with BNI's strategic policy bank wide, the Medium and Small segments will seek to continue quality and sustainable credit expansion in 2023 through the following strategies:

A. Medium Segment

- Medium Segment Credit Business Strategy Plan for 2023
 - Increasing Medium Segment loan expansion with a focus on top tier sector priorities.
 - Optimizing lead execution from target markets, exporters for global markets and selected corporate partners.
 - Implementing prime and non-prime customer classification for an appropriate management model approach and increase customer loyalty to BNI.
 - Developing lending models for potential types of businesses such as supply chain financing and distribution financing.
 - Increasing financing for Environmental Social and Governance (ESG) based businesses.

- Implementing an end-to-end credit tools system to accelerate business processes.
 - Continuing to improve capabilities and competencies at all levels of business management in the Medium Segment, in particular increasing competencies related to priority sector business models, advisory capabilities that provide total solutions for customers and increasing risk culture.
 - Implementing an Integrated Monitoring System (SIMON) that will monitor debtor conditions in order to obtain the right account strategy determination for each customer.
 - Improving portfolio quality.
 - Increasing green financing ratio for the BNI loan portfolio to support the ESG initiative.
 - Encouraging debtors to carry out ESG initiatives to obtain Sustainability Linked Loan (SLL) facilities, so that debtors receive economic incentives.
 - Optimizing the Medium Segment business through the corporate value chain in leading sectors.
 - Improving enterprise and commercial business through BNI Xpora to increase the potential for MSMEs to Go Global.
 - Specifically for Enterprise Banking, additional strategies, include:
 - Penetrating the debtor financial transactions and their ecosystem through BNI.
 - Dividing the portfolio management based on Expertise Industry.
- Business Strategy Plan for Medium Segment Customer Deposits in 2023
 - Encouraging closed loop debtor transactions through BNIDirect's flagship digital solution.
 - Developing, arranging and strengthening the commercial segment fund management function in the Regional and Head Offices.
 - Increasing the number of account executions sourced from the existing customer family tree.
 - Capturing the flow of employee spending in the Middle segment by optimizing payroll services and consumer products.
 - Increasing the number of middle segment customers actively transacting at BNI, especially from customers in the Financial Supply Chain Financing ecosystem and biller customers using BNI collection solutions.
 - Synergizing and collaborating with branches, subsidiaries, potential partners in initiating new ecosystems and in providing optimal solutions and advisories.
 - Maximizing the potential for increasing the Product Holding Ratio (PHR) of existing customers.

- Business Strategy Plan for Other Banking Transactions for Medium Customer Segment in 2023
 - Encouraging debtor financial activities through cash management as a transaction solution.
 - Enriching and improving capabilities and system/application features to support transaction activities for Middle Segment customers to be more convenient and secure.
 - Building a Middle Segment customer transaction monitoring system that is integrated with end-to-end credit tools.
 - Ongoing collaboration to conduct training programs related to transactional banking products for regions and branches.
 - Increasing collaboration between units and channels in the region to work on commercial business through the business committees led by the region.

BNIDirect is an integrated digital solution to support transactional activities for medium and small segment customers. It covers a number of complete and user-friendly transactional features, starting from collection management, liquidity management, to payment management. BNIDirect also covers digital trade transactions, international transfers, request financing, and is directly connected to Financial Supply Chain Management services. As well as BNIDirect, one of BNI's product champions, other corporate transaction services includes Bank Guarantees, Trade Finance, Remittances, Supply Chain Financing, and other transactions for medium and small segment customers.

B. Small Segment

- Small Credit Business Strategy Plan for 2023
 - Expanding customers who are top tier players in small segments in leading sectors in the work area.
 - Strengthening the value chain business development by increasing synergies with the Corporate segment.
 - Encouraging global business growth in the small segment through the Xpora program to attract export-oriented customers, both direct and indirect exporters. Including encouraging the integration of MSME businesses based on going global through the use of the Xpora program related to the provision of financing needs, financial transactions, and the ease of opening market access.

- Deepening the HC capabilities of business personnel as customers' business partners in building a business through strengthening industry knowledge and ecosystem-based financing.
 - Improving digital-based end-to-end business processes as a basis for quality, measurable and comprehensive loan expansion steps.
 - Expansion of financing products to support MSME Graduation.
 - Increasing the capacity and capability of HC through understanding the process of giving and business in accordance with the potential of each region.
 - Increasing ecosystem-based financing in synergy with stakeholders/customers' digital partners using competitive business schemes.
- Small Segment Customer Savings Business Strategy Plan for 2023
 - Encouraging small segment customer financial transactions at BNI and increasing the Product Holding Ratio (PHR) by cross selling with other BNI products.
 - Working on the cash to cash cycle of the business from upstream to downstream customers at BNI.
 - Growing the customer base by exploring the potential for small segment customer acquisition from stakeholders involved in existing customer business processes.
 - Business Strategy Plan for Other Banking Transactions for Small Segment Customers in 2023
 - Optimizing the contribution of subsidiaries to encourage Fee Based Income (FBI).
 - Utilizing overseas channels to encourage remittance transactions focused on Indonesian Migrant Worker customers.
 - Making it easy for customers to receive non-cash loan facilities at the nearest BNI outlet.
 - Ongoing collaboration by conducting training programs related to transactional banking products for regions and branches.

What They Are Saying?

Nanang Hengky Suharto
PT Mahakarya Geo Survey

Until now we have been doing infrastructure business that can be considered massive. This has all be done with support from BNI. We have been using BNI services since 2015 and acceleration has occurred to date. BNI has customers who are also our customers, such as oil, telkom and mining companies. There are times when we can become the main contractor, there are also times when we receive work from the main contractors such as the EPC Company, Drilling Company and Telecommunication Company. BNI makes us a strategic partner with a lot of added value for us.

Tulus Widodo
PT Tenang Jaya Sejahtera

Tenang Jaya Sejahtera was established in 2008, and we have been working with BNI since 2014. BNI is always present to provide financial solutions for Tenang Jaya Sejahtera and the group. Ease of transactions and access to capital to support our needs are strong reasons for us to continue to choose BNI as our main bank. In the future, we hope that BNI will continue to provide support to us and to all economic players in Indonesia and abroad. Hopefully BNI and Tenang Jaya Sejahtera can continue to progress and develop.

Wayan Seria UD Krisna Eby

As strawberry farmers, financing is important as it can help us to increase productivity. Thank you for the People's Business Loan (KUR) disbursed by BNI. This KUR helps farmers with capital to develop into the export market as well as to innovate agriculture to create farmer entrepreneurship with superior products that have added value and are competitive.

Roymond Wong Finance Director PT Gunung Raja Paksi Tbk

PT Gunung Raja Paksi Tbk was founded in 1990 and started collaborating with BNI in 2021. We would like to thank BNI for their support and trust given to our company. We are also proud of BNI's commitment to ESG, this was stated in the form of a Sustainability Linked Loan for our NGO Factory, which resulted in higher productivity and efficiency in energy use, has had a positive impact on reducing carbon emissions. This certainly supports the national steel industry and supports the Indonesian economy in general.

Sri Lestari & Supono Wonosari Art

UMKM WONOSARI ART is a Handicrafts business producing wood carvings such as Klithic Puppets, Leather Puppets etc. This business was started in 1990, UMKM WONOSARI ART currently has sales outlets in several malls in Jakarta and Tangerang including Sarinah Thamrin Mall, Grand Indonesia Hall, Pasar Raya Blok M and Pendopo Living World - Alam Sutera Tangerang, where investments have been made in several of these malls is to open up opportunities for the export market, as in these large malls in Jakarta there are many expatriates or foreign nationals from several countries who are interested in products from WONOSARI ART.

BNI provides financing in the form of People's Business Loans (KUR), where this capital is used to increase capital for wayang production, which has a high selling value.

David Soebiantoro President Director of PT Seruni Indah

PT Seruni Indah has collaborated with BNI since 1973, when BNI gave PT Seruni Indah loans to develop its business, and it has become the main bank for conducting business transaction activities. During the last pandemic, PT Seruni Indah began conducting Cash Management activities through BNIDirect and was greatly assisted by transfer facilities and other transactions that were safe, superior and reliable. Business continues to run smoothly thanks to BNIDirect.

Gregorius Nong President Director of PT Makmur Lestari Primatama

Using BNIDirect, payment and financial monitoring at PT Makmur Lestari Primatama (PT MLP) is more optimal. BNIDirect is the right solution to support corporate transactions. BNI is TOP!

CONSUMER SEGMENT

Consumer Segment Business Activities and Products

The Consumer segment is a segment that manages the business of individual customers and non-business customers in a broad sense (mass market), including lending, managing customer deposits or Third Party Funds (TPF), and other transactions that support the financial and business needs of customers. Consumer business activities are supervised by the Consumer Banking Director. In selling and distributing products in the Consumer segment, BNI uses a variety of qualified digital channels so that BNI's banking services become more inclusive and easily accessible anywhere and anytime. Currently, the main digital channel used by BNI to sell savings or loan products is BNI Mobile Banking, where customers can apply for financial facilities using this application.

In order to meet customer needs, the Consumer Loan business is channeled in the form of lending or financing for consumption purposes, including housing loans, multipurpose loans, collateral-free loans, pension loans, guaranteed loans or ORI (Instant), credit cards and cash cards.

1. Home Ownership Loans

BNI Griya is a loan facility aimed at individuals wanting to own a new or used house, apartment, shop-house and vacation home (villa). This facility can also be used to purchase plots/land, build, renovate, refinance, take over, top up through the BNI Griya Multiguna program.

BNI Griya Housing Financing Liquidity Facility (FLPP) is a Government Program where housing loan facilities are provided specifically for Low-Income Communities (MBR) supported by FLPP funds from the Government.

2. Unsecured Credit

BNI Fleksi is a BNI Unsecured Loan product available for active employees and retirees who channel their income, payments and retirement benefits through BNI.

3. Credit Card

A credit card is a consumer loan product as a means of payment using a card or virtual card that can be used by individuals as well as corporations to make payments for obligations that arise such as shopping transactions and/or cash withdrawals. BNI Credit Card products consist of:

- Regular Credit Cards, consisting of: BNI Visa Gold, BNI Mastercard Gold, BNI JCB Gold, and BNI AMEX Vibe.
- Premium Credit Cards, consisting of: BNI Mastercard Style Titanium, BNI Visa Platinum, BNI American Express Business Card, BNI JCB Precious, BNI Mastercard World, Visa Signature, and BNI Visa Infinite;
- Co-Branding Credit Card, consisting of Garuda BNI, BNI Pertamina, BNI Telkomsel, BNI Bank BJB, BNI Bank DKI, BNI LOTTE Mart, BNI Batik Air, and BNI JD.ID;
- Affinity Credit Cards, consisting of: University Affinity Cards, Affinity Association Affinity Cards, and Community/Organization Affinity Cards, and Company Employee Affinity Cards;
- Corporate Credit Cards, consisting of: BNI Visa Corporate Card Gold, BNI Visa Corporate Card Platinum, BNI Mastercard Virtual Card Number, and BNI Government Credit Cards;
- Private Label Credit Cards consisting of: BNI Traveling Card, BNI Gasoline Card, and BNI Health Card;
- BNI Cash Card is a revolving loan without collateral and can be converted into fixed installments, which can only be used to make cash withdrawals and transfers at BNI ATMs.

BNI Credit Card users can enjoy comfort and certainty in managing their credit cards through the My Credit Card service in BNI Mobile Banking.

4. BNI Instan

BNI Instan is a loan product guaranteed by Deposits, Savings, BNI Current Accounts, and securities (ORI).

For the management of customer deposits or DPK, BNI has a number of deposit products to meet the needs of all customers, which include savings and deposit products.

BNI savings products are as follows:

1. Savings

Various types of BNI Savings Products as follows:

- Tabungan Plus (Taplus), a savings account that provides PLUS services with various features and benefits;
- Taplus Bisnis, a savings product intended for businesses and non-businesses, both individuals and non-individuals, equipped with features and facilities that provide convenience and flexibility in supporting business ventures;

- TAPPA (Taplus Employee/Member), is a savings account intended for Employees/Members of a Company/Institution/Association/Professional Organization that cooperates with BNI, which functions as a means of savings, Employee/Member identity cards;
- Taplus Muda, a savings product in the form of savings intended for young people with ages ranging from 17 (seventeen) years to 35 (thirty five) years;
- Taplus Anak, is a savings product to help teach children to save from an early age, intended for children under 17 (seventeen) years of age;
- Emerald Saving, a savings product for Emerald segment customers (Personal, Priority and Private Banking);
- BNI Dollar, a deposit in a foreign currency (USD/SGD/AUD) with a more stable exchange rate and provides convenience in transactions;
- Tapenas, a time deposit to assist financial planning to realize future goals with greater certainty;
- Student Savings, savings for students of PAUD, TK, SD, SMP, SMA, Madrasah (MI, MTs, MA) or equivalent issued nationally by banks in Indonesia, with easy and simple requirements and attractive features, in order to finance education and inclusion to encourage a culture of saving from an early age;
- Tabunganku, a savings product for individuals with easy and light requirements that is jointly issued by banks in Indonesia to foster a culture of saving and improve people's welfare;
- BNI Pandai, a savings account for individuals with easy and light requirements issued by BNI which has the characteristics of a Basic Saving Account (BSA) and can be opened through BNI Branch Offices or through Agents.
- Taplus Diaspora, an individual savings account for the diaspora segment that can be opened through a digital opening account and has a non-physical debit card that can be used to activate BNI Mobile Banking.

2. Deposits

BNI Deposito, a time deposit in a variety of currencies (IDR/USD/SGD/JPY/HKD/EUR/GBP/AUD) with attractive interest rates. BNI Deposito can be an investment choice for customers who want relatively higher yields. The current BNI Deposito opening service is also very flexible, where users can make withdrawals and open Deposit accounts using BNI Mobile Banking. One of the advantages of BNI Digital Deposit is that it is easy to access anywhere and anytime, with the availability of various time period options and deposit amounts according to customer needs and wishes.

3. BNI Debit Card

BNI Debit Cards, a flexible choice to meet the needs of everyday customer transactions carrying typical Indonesian batik designs to energetic designs for young people. With various types of Silver, Gold, Platinum Debit Cards and BNI Emerald Cards (especially for priority customers divided into Personal, Priority and Private segments). BNI Debit Cards can be used for transactions on the spot (offline) as well as transactions on the network (online) using the 3D Secure Mastercard method. Since July 2020 the BNI Debit Card with the GPN logo has been able to make online transactions through the expansion of online merchant cooperation as an addition to the flexibility of customer transactions. BNI also continues to collaborate with communities and institutions in the form of Lotte Wholesale Co-Brand Debit Cards, Indogrosir Debit Cards, Garuda Debit Cards, Citilink Debit Cards, and Batik Air Debit Cards. In addition, BNI also issues Community Affinity Debit Cards such as the Indonesian Notary Association Debit Card, UI Iluni Debit Card (UI Alumni Association), Indonesian Doctors Association Debit Card, Indonesian Student Association (PPI) Card. This year, there were collaborations with affinity cards from more than 30 partners. In order to expand its expansion into the Diaspora segment, BNI is also working with the Indonesian Student Association (PPI) to provide services and ease of transactions for Indonesian students spread all over the world.

BNI always plays a role in supporting Government programs for the implementation of the National Payment Gateway (GPN), a national payment system through the issuance of Debit Cards with the GPN Logo, which can be accepted for transactions at all ATMs and EDCs that are connected to GPN. With the GPN, customer transaction data will be protected, and will also provide transaction cost efficiency. The number of debit cards with the GPN logo issued by BNI grew 8% compared to the same period last year.

In line with Bank Indonesia provisions to increase security and convenience, the BNI debit card has been replaced from a magnetic stripe to a debit card that uses a chip for general customers, and this reached 100% in November 2022, the deadline from Bank Indonesia, and for public customers who have not made a replacement by the deadline, the magnetic stripe debit card for general customers will be deactivated. This replacement continues to be encouraged through education to change cards so that they can make transactions safely and comfortably for both e-commerce transactions and transactions through EDC at merchants, and can enjoy attractive offer programs at various leading merchants.

4. Digital Account

In January 2021 BNI launched the newest feature for opening savings accounts through the BNI Mobile Banking digital channel, namely “Open Savings Simply with a Selfie” where previously customers when opening digital savings still needed video calls with a bank officer or had to visit the nearest BNI branch office. It is hoped that with this new feature, the customer experience will improve and the myth of difficulties when opening a bank account can be answered through BNI’s breakthrough. The products that can be opened include Taplus, Taplus Bisnis and Taplus Muda. In addition, BNI is the first bank to launch a savings account feature with just a selfie where an account is created immediately and can be used immediately for transactions.

Of course, this service was welcomed very positively by the community during a pandemic, where people’s mobility was limited and visits to branch offices were not their main choice. Even after the end of social restrictions and the infection rate having dropped dramatically, people still prefer the digital account opening method. This shows that the “Open Savings Simply with a Selfie” feature is very popular with the public because of its ability to provide convenience to customers in opening a savings account anywhere and anytime.

During 2022 opening savings through the “Open Savings Simply with a Selfie” feature saw a growth of 147.4% from the previous year. In total, more than 1 million savings accounts have been opened through all of BNI’s digital channels in 2022. In the future, opening digital savings accounts will be encouraged by various developments aimed at facilitating the user experience for potential customers, such as updating the user interface, to be simpler and easier, the availability of potential customer validation options such as through video calls, feature adjustments, and more competitive savings product costs. In addition, there will be additional Optical Character Recognition (OCR) services, which will make it easier for prospective customers to complete the supporting data for opening a savings account.

The BNI Fortune Lottery Program #GaPakeNanti is a lottery program for individual BNI savings customers with an automatic conversion mechanism and the exchange of BNI POIN+ to raffle coupons. For 2022, the program period ran from September 12, 2022 to April 30, 2023.

2022 event campaigns were held in two cities, on October 14-16, 2022 at Summarecon Mall Bekasi and on December 8-11, 2022 at the Cirebon Super Block Mall.

Furthermore, various promotional programs for opening BNI digital savings will continue in 2023, such as BNI POIN+ bonuses, which will be larger when opening savings through channel outlets, shopping vouchers at leading e-commerce, with various e-wallet balance bonuses and additional initial deposit cashback.

For developing market potential, BNI is also expanding into new market segments that have not been optimally exploited before. One of these markets is with the communities with high engagement, such as eSports and Metaverse communities. In 2022, BNI conducted a series of events in collaboration with the communities, such as the BNI - Telkomsel Tournament eSports 2022 event, where BNI acquired savings for game enthusiasts through a digital savings opening service. Looking forward, BNI will focus more on acquisition activities for other communities, so that the potential for customers to make closed loop transactions can be even higher.

Apart from collaborating with leading partners in recommending opening savings accounts, BNI will also continue with its referral program that is used by BNI employees and BNI customers where for each referral given there will be attractive rewards. It is hoped that these activities will encourage the opening of savings accounts through digital channels using an easier, faster digital capability development process as well as a variety of attractive promotional program offers.

Digital Account Opening has also been developed through BNI’s support for the Pre-Employment Card Program by making it easy for Pre-Employment Card participants to open accounts digitally through the Pre-Employment E-form. This service can be accessed via the Pre-Employment website or smartphone of each Pre-Employment Card participant. This account can be directly used by recipients of the Pre-Employment Card Program incentives as well as used for various banking transactions as it has been directly integrated with BNI Mobile Banking facilities. BNI also provides direct benefits to Pre-Employment card customers, through life insurance facilities and attractive programs such as motorcycle prize draws, smartphones, e-vouchers, etc.

During the process of opening this digital account, apart from customers being able to choose a regular type of debit card for the Taplus, Taplus Bisnis and Taplus Muda savings products, they can also directly choose the BNI Batik Air debit card, so that customers can immediately enjoy special benefits attached to BNI debit card holders, which has a unique present value (UPV) for customers who own BNI Batik Air debit cards.

Consumer Segment Strategy for 2022

To develop business in the Consumer segments, in 2022 BNI carried out several initiatives, including:

1. Consumer Credit Development Strategy

The consumer credit performance strategy for each product is presented as follows.

- a. BNI Griya: Home Ownership Loan
BNI Griya continued to grow better than 2021, in line with predictions of the property industry’s growth in 2022, and grew by Rp53.5 trillion with a growth (YoY) of 7.9%. This growth was driven by the implementation of strategies including the expansion of BNI Griya to the low risk segment and existing customers, as well as by optimizing the value chain business through synergies with Business Banking (Corporate, Commercial and Retail), increasing partnerships with third parties (fronting agents, multifinance & online website, etc.), and digitizing loan applications (e-Forms).

BNI has always played a role in supporting government programs in providing housing needs for low-income people (MBR), through the Housing Financing Liquidity Facility (FLPP) distribution program and Savings-Based Housing Financing Assistance (BP2BT) programs in collaboration with the Ministry of Public Works and Public Housing. The strategies undertaken to support the expansion of Subsidized Griya in 2022 were as follows:

- i) Accelerating BNI Griya FLPP bookings for additional BNI Griya FLPP quota commitments from the Government. In order to accelerate BNI Griya FLPP bookings, BNI implemented a Mass Contract Program as it has done in previous years. The target for the 2022 Mass Contract Program overall was for more than 5,000 applications with the realization of the FLPP Mass Contract Program of more than 6,000 applications or more than Rp900 billion which significantly contributed to achieving the BNI Griya FLPP 2022 target.

- ii) To encourage the absorption of BNI Griya FLPP, BNI cooperates with Developer Associations, local Subsidized KPR Developers and conducts socialization in the regions involving both internal and stakeholder.

- b. BNI Fleksi and Fleksi Pensiun: BNI Fleksi Unsecured Loan is a consumer loan with the main basis of payroll/employee benefit, which is the main factor driving the growth of consumer credit. BNI Fleksi Pensiun is also present as a product feature for Unsecured Loans by providing loan facilities to pensioners participating in PT Taspen, Asabri, and other selected BUMN/BUMD pension institutions and prospective civil servant pensioners participating in Taspen, TNI/POLRI, and selected BUMN/BUMD institutions.

BNI Fleksi is a consumer loan based on payroll/employee benefits, which is the main factor driving consumer loan growth. BNI’s realization of BNI Fleksi Aktif in 2022 reached Rp38.9 trillion with a growth (YoY) of 22.1%. The growth of BNI Fleksi was supported by optimizing the Corporate Segment database and selected institutions as well as expanding the segment for cooperation with third partners. During 2022 BNI Fleksi focused on expanding customers with a low risk profile.

BNI Fleksi Aktif product expansion was carried out in 2022 with increased growth obtained through the following strategies:

- i) Focusing on expanding to selected institutions and companies by using various marketing channels by optimizing the role of branches as office channeling and e-channels.
- ii) Penetrating potential payroll customers by optimizing data analytics and optimizing data leads of existing debtors, customers managed by Institutional Banking, Corporate Banking and Sales Distribution.
- iii) Expanding the segment through collaboration with third parties, communities and ecosystems as well as providing easy acquisitions to optimize the digital channel e-Form website and BNI Mobile Banking.
- iv) Acquiring new Payroll accounts during 2022 provided the potential to increase BNI Fleksi by collaborating with several institutions or companies and optimizing the value chain of existing customers. Cultivating the BNI Fleksi consumer business as a BNI payroll loan for 2022 was carried out through the following strategy:

- Ease of applying for BNI Fleksi Aktif is that it can be submitted at any nearest BNI branch or digitally, with a relatively short processing time. The increase in the acquisition of BNI Fleksi Aktif is also supported by the flexibility of marketing channels through ATM channels, BNI Mobile Banking (Digital Loans), websites/e-forms, in addition to process acceleration with a credit process SLA for 1 (one) day, document simplification and ease of processing.
- Increased Acquisition of BNI Fleksi Aktif through Payroll's existing data leads, as well as take over programs.
- Distribution of BNI Fleksi with marketing targets, namely non-payroll customers according to debtor criteria set through a channeling scheme with Third Parties (Fintech/P2P).

To increase BNI Fleksi Pensiun loan expansion in 2022, the strategies focused on:

- Expansion of pension loans for selected Pensioners participating in Taspen, Asabri, and DPPK BUMN/BUMD with document simplification and fast credit process SLA;
- Expansion of pension loans for Civil Servants Pension Candidates, Members of the TNI/POLRI and Employees of BUMN/BUMD selected through a fast process.

BNI Fleksi Pensiun is a consumer loan product that is included in the low risk category and still has a large market potential. BNI Fleksi Pensiun Marketing is supported by Regions and Branches through internal sales and external sales marketing channels using several strategies such as offering attractive programs and schemes, optimizing payroll databases, and good relationships with pension institutions/agencies.

BNI Fleksi Pensiun product expansion carried out in 2022 with increased growth obtained using the following strategy:

- BNI Fleksi Pensiun marketing was supported by Regions and Branches through internal sales and external sales marketing channels using several strategies such as offering attractive programs and schemes, optimizing payroll databases, and good relationships with pension institutions/agencies.
- BNI Fleksi Pensiun held an event to welcome the anniversary of BNI and the anniversary of the Republic of Indonesia in the form of a seminar on financial planning

preparing for retirement & a quiz with the theme For a Better Life. With this event, it is hoped that it will build brand awareness regarding BNI Fleksi Pensiun products for prospective retirees and retirees.

- The communication material strategy implemented is by marketing using BTL (below the line) and ATL (above the line) to pension institutions/institutions and approaching the retiree community by giving seminars related to retirement preparation and offering attractive products.

c. BNI Credit Card

As the post-pandemic community's economy improves, the potential for credit card transactions in 2022 was still quite high, even though many digital credit platforms were emerging, credit cards still have their own market share, with various benefits provided to cardholders. This means credit cards are still in demand by various segments.

To improve and maintain positioning and market share in the credit card industry, as well as to make credit cards the main choice for transactions, various initiatives were carried out as follows:

- Increase credit card sales volume growth that focuses on:
 - New lifestyle transactions, in line with changes in post-pandemic cardholder transaction behavior;
 - Top merchant transactions both offline (face to face) and online (e-commerce);
 - Merchant-related travel transactions and overseas transactions, in line with the easing of public mobility policies;
 - Increasing credit card sales volume in all regions through cooperation with local strategic merchants;
 - Optimizing the use of Corporate Cards and Corporate Virtual Card Numbers (VCN) for third party corporate payments and increasing usage and acquisition of Corporate Cards in the region;
 - Increasing sales volume through strategic co-brands and affinity partners and adding new partners.
- Increasing credit card acquisition through:
 - Application for opening a digital credit card via <https://applycreditcard.bni.co.id> as well as a massive acquisition program campaign through social media and e-commerce;

- Optimization of captive and non-captive customer lead data for selected card holders, as well as bundling and cross selling programs for consumer and business banking products.
- Increased cooperation in the issuance of Government Credit Cards (KKP) with Regional Government Banks (BPD) and Regional Work Units (SKPD).

- Increasing credit card portfolio growth with extended installment and balance conversion programs for selected card holders, as well as optimizing recurring transactions.
- Implementing the use of contactless-based credit cards to increase customer security and convenience in conducting transactions without making physical contact with Electronic Data Capture (EDC) terminals.
- Developing all in one credit card management services in the BNI My Credit Card feature in the BNI Mobile Banking application and Credit Card Mobile application. Through these two applications, cardholders can carry out activities such as requesting a limit increase, viewing cash transaction history, changing installments, bill payments, and insurance.
- Mitigating and managing credit risk through asset quality improvement programs and providing credit card payment convenience for cardholders.

d. BNI Instan

BNI Instan or Cash Collateral Credit (C3), is a credit product for BNI customers as a loan facility guaranteed by deposits in the form of BNI Deposits/Giro/Savings, and Indonesian Government Bonds, including Government Securities (SUN) which are liquid, including Retail State Bonds (ORI), Retail Sukuk (SR), Fixed Rate (FR), Variable Rate (VR), etc., except for Sukuk Tabungan (ST) and Retail Saving Bonds (SBR) purchased by customers at BNI/Other Banks/Security Companies as selling agents and deposited at the Sub-Registry in accordance with the provisions.

BNI Instan product expansion in 2022 was carried out with the following strategies:

- Providing competitive spread rates to potential customers selectively and case by case.
- Making offers to Emerald customers who want to pledge their bonds to receive loans at attractive rates.

2. Consumer Customer Deposits Development Strategy

The choices of savings products offered by BNI are tailored to the needs of customers at every stage of life. The strategy for achieving Third Party Funds (TPF) for the Consumer segments was carried out throughout 2022 is through a cross-selling strategy for consumer fund products, one being through the savings acquisition program followed by obtaining POIN+ along with direct activation of BNI debit cards and BNI Mobile Banking.

The following shows the strategies for developing customer deposits by BNI in each of its products.

a. Savings

i) Taplus

As a core savings product with the largest portfolio, BNI Taplus plays an important role in achieving growth in Third Party Funds (TPF). By increasing the penetration of BNI Taplus products, BNI continues to develop one for opening of BNI Taplus digitally, where customers who do not yet have BNI savings can open BNI Taplus simply by taking selfies, and savings customers can directly make transactions anywhere and anytime through the BNI Mobile Banking application.

BNI Taplus in general as a generic BNI savings account prioritizes the convenience of opening digital accounts and providing easy transaction solutions for customers by providing attractive programs including:

- The BNI Rejeki BNI #GakPakeNanti Program, a national-scale lottery program, is the main program to show appreciation for its loyal customers. This program also provides a holistic experience for customers, where every activity carried out, such as transactions and balance increases, will result in prizes in the form of POINTS+ which can then be exchanged for Lottery Points.
- Several Taplus signature events were held again in 2022 with the acquisition of good transactions through the BNI Java Jazz Festival event, the launch of Rejeki BNI Gak Pake Nanti, Garuda Travel Fair, Emirates Travel Fair.
- Taplus marketing collaboration for Diaspora through Co-Brand collaboration with PPI (Indonesian Student Association) Worldwide.

ii) BNI POIN+

As a form of loyalty appreciation for savings customers, BNI provides rewards to individual savings customers in the form of reward points, called BNI POIN+. Individual savings customers who are active in conducting financial transactions and also increasing balances will receive BNI POIN+ and the accumulated BNI POIN+ can be exchanged for a variety of gift options at BNI Mobile Banking, including shopping e-Vouchers, donations, to auction coupons, games, and lottery.

In addition to developing benefits that customers receive, BNI POIN+ continues to develop features and systems to make them easier to use, through single sign on at BNI Mobile Banking.

The BNI POIN+ program also provides opportunities for BNI savings customers to win a variety of prizes that can be chosen according to the customer's wishes.

iii) Emerald Saving

In an effort to reach savings funds in the Emerald segment, BNI provides special savings for High Net Worth Individual (HNWI) customers. Emerald Saving is a product provided exclusivity to Emerald customers. Customers will receive higher interest rates than regular types of savings.

Emerald Saving and BNI Emerald Card are superior products for Emerald customers. Customers can enjoy priority services when they come to the branch, plus a series of privileges and promos at selected merchants.

BNI holds regular programs that focus on meeting customer needs and providing more rewards to customers as a form of loyalty by customer with BNI. Programs implemented include: New To Emerald, Emerald Get Emerald and the New to Bank Acquisition Program with cash rewards or precious metals plus BNI Poin+ for Emerald bonuses, which allow customers to receive higher points+. Emerald Saving's business performance in 2022 saw a growth of 17.9% yoy.

iv) Taplus Bisnis

Programs and events have been carried out In an effort to become transactional banking, and BNI continues to innovate

features and benefits of savings products for the entrepreneurial segment for monitoring finances or the flow of business transactions. The Taplus Bisnis product is also equipped with attractive features available in BNI Mobile Banking according to the needs of Entrepreneurial customers, especially for monitoring business transactions through the monitoring feature and downloading transactions in the form of E-Statement Digital Invoices contained in the BNI Mobile Banking Transaction History feature.

Taplus Bisnis targets customers in the entrepreneurial segment such as merchants both offline and online merchants, KUR and BCM Debtors and BNI Agen46. Entrepreneurial customers are given convenience when opening accounts through Digital Account Opening and ease of transactions through BNI Mobile Banking.

BNI Taplus Bisnis customers are also provided with Digital Invoice facilities in BNI Mobile Banking, a feature that can help entrepreneurs with digital billing by sharing payment links, making it easier for businesses, in this case customers, to record sales, and for invoice tracking and business operations.

Programs and events carried out in 2022 related to Taplus Bisnis included:

- The Taplus Bisnis acquisition and Incoming program provided rewards in the form of BNI POIN+ to customers who open BNI Taplus Bisnis accounts and actively use BNI as a holding account for business based on incoming transfers to BNI accounts.
- The Taplus Bisnis acquisition and Incoming Transfer program managed to raise funds in 2022 of Rp2.0 trillion during the program period.
- Events targeting entrepreneurs/ MSMEs held in 2022 such as Inacraft and Kriyanusa succeeded in increasing EDC Sales Volume, which had a positive impact on increasing Third Party Funds (TPF).
- Cooperation with third parties was also continuously being developed, such as cooperation with e-commerce such as Tokopedia and Bukalapak as well as with the fintech startup Carinih.

v) Payroll

In an effort to increase the collection of low-cost funds, particularly in increasing savings balances, BNI marketed BNI Taplus and BNI TAPPA (Employee/Member Taplus) products specifically for employees of Giran customers and Companies/Institutions, especially those who have become BNI Customers/Debtors in the Business Banking sector (Corporate, Commercial and Retail).

Company employees who payroll with BNI, receive various benefits, including BNI Fleksi loan facilities with competitive interest rates and fast-processing KPR BNI Griya. In addition to these benefits, BNI payroll customers can also enjoy debit shopping promos in the form of discounts or cashback, product bundling with other savings products such as Taplus Anak and Tapenas through the Family Benefit Program, payroll loyalty program and promo info through the BNI Mobile Banking application.

vi) Taplus Anak and Taplus Muda

The Taplus Anak savings product focuses on providing benefits for parents to teach their children how to save, and can also be used by parents to prepare funds for their children's future. Getting closer to the children segment is achieved by collaborating with online schools, providing sponsorship, collaborating in distributing children's program prizes, as well as creating programs that encourage children to save, and provide literacy on the importance of saving from an early age.

Taplus Muda focuses on the lifestyle and transaction style of young people. The style of using banking products is in accordance with the youth segment starting from the channels provided for account opening, account opening promos or transactions, to the style of transactions with fun debit card designs bearing the Mastercard logo (worldwide transactions). Customers can open Taplus Muda savings digitally through BNI Mobile Banking, just take a selfie to open a savings account, and digital savings transactions will be provided in the form of E-Statements. Taplus Muda works together and collaborates with podcasts, talks and local brands, and also provides sponsorship at events that are often attended by young people. Taplus Muda is a savings that fills the transaction style of young people.

Apart from being a savings account that fills the transaction style of young people, BNI is also known by the jargon BNI is a Campus friend

that is inherent in society. Until now, BNI is still trying to color and become a companion for students at more than 300 higher education institutions throughout Indonesia.

BNI really understands that one of the largest youth communities is the campus, so the BNI Taplus Muda Co-brand and Student Identity Card (KTM) products are available as products suitable for female students.

KTM Combo Card, is a multifunctional student card that has features as a student identification card or student ID, BNI debit card, can also be used as an electronic money card (Tapcash). Students can start saving and managing their finances independently through BNI Mobile Banking and can use banking products within the campus environment.

It doesn't stop there, currently BNI has collaborated with various Alumni Associations at tertiary institutions so that after graduation, they can still continue their savings and debit cards with the Special Alumni Association Debit Card. With the Alumni Association Special Debit Card, BNI's existence remains attached to the academic community. In addition, BNI also collaborates in the form of partnerships and sponsorships in various activities organized by the campus and its alumni associations.

Taplus Anak and Taplus Muda are the starting point for customers to experience a lifetime journey of saving and managing their finances with BNI.

vii) Tapenas

BNI Tapenas as a future planned savings, is a BNI term savings account to help realize financial plans as future goals with greater certainty. BNI Tapenas customers automatically receive premium-free personal accident insurance protection as a manifestation of BNI's commitment to provide more certainty for the realization of customer plans in the future, a choice of IDR & USD currencies, free to determine monthly deposits starting from Rp100,000 to Rp25,000,000 (multiples of Rp50,000).

viii) Support for Government Financial Literacy and Inclusion Programs

Apart from general customers, BNI savings products with basic savings account characteristics are also used to support the distribution of government programs, conduct financial literacy and inclusion in the community, including the following:

1) Financial Literacy

BNI's financial literacy programs in 2022 included:

- Collaboration with Provincial/District/City Governments to implement financial literacy for the general public and students through the "Ayo Menabung dengan Sampah" program.

This program has been implemented in several neighborhoods and various schools throughout Indonesia as a form of learning for the community and students regarding finance combined with concern for the environment. The implementation of the "Ayo Menabung dengan Sampah" program with a SimPel account has won the KEJAR Award in 2022 in the following categories:

- » The Best Pursue Implementation Bank in the category of BUMN Bank
- » The Bank's Innovative Pursuit Implementation

BNI has also developed digitization of children's savings for SimPel savings, where children can easily open accounts digitally anywhere using their mobile phones.

- Collaboration with BP2MI to provide financial literacy and education materials to Indonesian Migrant Workers (PMI) before departure through BNI Branch Offices in the country and while working abroad through BNI Overseas Branch Offices. Literacy and education are carried out in relation to banking transaction products and services.
 - » Financial Inclusion: BNI's financial inclusion programs in 2022 included:
 - a) Acquisition of Student Savings through a SimPel account carried out in conjunction with the Ayo Menabung dengan Sampah program and the Smart City integrated program. With the development of digitizing children's savings in SimPel

accounts, account opening can also be achieved anywhere using a mobile phone.

- b) Acquisition of savings for Indonesian Migrant Workers and Families through PMI's Taplus account to facilitate PMI in conducting banking transactions both overseas and after returning to Indonesia.

» Distribution of Government Programs:

Strategy in 2022 to support Government Program Disbursement:

- a) Accelerating the disbursement of government program assistance funds in collaboration with the Ministries distributing aid funds.
- b) Optimizing Weekend Banking to serve Government Program distribution.

The Government programs implemented in 2022

- a) Smart Indonesia Program at the Ministry of Education and Culture's SMA/SMK level of education
- b) The Indonesia Smart Card Program for Lectures at the Ministry of Education and Culture and Research and Technology
- c) Ministry of Social Attention Program
- d) Ministry of Social Hope Family Program
- e) Ministry of Social Basic Food Program
- f) The Ministry of Education and Culture's Indonesian Talent Development Center Program
- g) Pre-Employment Program
- h) Midwife Vaccination Assistance Program
- i) Wage Subsidy assistance program

b. Deposits

As a supporting product for increasing customer Product Holding Ratio (PHR) using an acquisition program through digital channels and branches. One of BNI's Time Deposit sales strategies for 2022 was to offer directly via Whatsapp Blast based on lead data with the highest potential for Deposit acquisitions.

Consumer Sector Time Deposit Products are targeted at Affluent and Emerald segment customers. Programs carried out to increase deposits in the consumer sector include, the new BNI Mobile Banking Deposit customer education program under the name BNI Mobile Banking Race Up Deposits program, offering deposits through Digital channels, and million customers offered a special Deposit program opened through branches, namely the Gift Program for Deposit.

The BNI Debit Card strategy in 2022 is as follows:

- a. Increasing customer preferences and customer experience as well as increasing debit card transactions through the usage debit program for both Point of Sales (POS) and e-commerce transactions, while continuing to focus on the 10 top Merchant Category Code (MCC) especially those that support routine transactions including BNI's iconic events which targeting various segments.
- b. Increasing number of new customers making transactions through an attractive and specific program for new customers opening savings accounts in 2022.
- c. Optimizing data selection analytics, communication media with attractive designs and messages to support efforts to increase transactions.
- d. Optimizing promo cooperation with local merchants through the nearest BNI branch office to increase savings customer transaction activities with a historical emotional approach to local customers.

With the increasing sales volume of Debit Card transactions in 2022, there were promo as follows:

- a. National Promo 2022
 - i) Debit card promotion program for 2022 at merchants located for routine customer transactions including Supermarket outlets, Convenience Stores, Department Stores and Restaurants. Collaborations with various favorite merchants, carried out to form and increase public awareness of the benefits of debit cards as a transaction tool to replace cash. In an effort to increase convenience for debit card holders, BNI continues to expand cooperation with potential partners.

- ii) The BNI debit card has an e-commerce promo with the tagline "Shopping Anytime, Discounts Always Available" with various promos in e-commerce every Monday to Sunday with well-known merchants such as Tokopedia Semangat Senin, Shopee Shopping Selasa, Rabu Lucu di Blibli, Kamis Manis di JD.ID, Jumat Hemat di Bukalapak, Sabtu Mewah di Lazada and Minggu Seru di Bhinneka.

- iii) In connection with the higher vaccination coverage and the return of a new normal, there was a decrease in PPKM levels in a number of areas, in 2022 BNI worked again with strategic partners to run a number of iconic events such as Java Jazz 2022, Inacraft, IMBEX and travel fairs such as Emirates Travel Fair and Garuda Travel Fair in a number of big cities, Medan, Surabaya and Makassar.

b. Local Promo 2022

BNI Debit also cooperated with local merchants in areas to get closer to BNI Debit card holders, 75% of whom are outside the Jabodetabek area. Partnerships with several business communities are also being improved, especially in loyalty and activation programs.

c. BNI Kartu Debit

To continue to encourage customer transactions that can have a positive impact on increasing savings balances and Fee Based Income, in addition to the merchant usage program, programs are also being implemented to encourage transactions for customers who have just opened a savings account and have a debit card through the 1st usage program, 3 month usage, e-commerce activation, by providing special benefits besides the general and national debit usage program. In addition, to ensure that the debit card continues to be used to make transactions, reminders are also given to customers through the pre-dormant program. In providing support for the government programs, and for the convenience of beneficiaries of government program assistance when making transactions and disbursing aid funds, different types of debit cards with special designs are also provided for the government programs, including KIP and KIP College Debit Cards (PIP Program), Prosperous Family Debit Cards (PKH Program), Debit Cards for BSU Programs, Debit Cards for BPUM Programs, Farmer Card Program Debit Cards, etc.

Consumer Segment Productivity

The Consumer Loan products productivity is reflected in the Loan and TPF performance for this segment, as explained for each product below.

1. Consumer Loan Performance

Consumer Loan Performance						
Product	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Mortgage (BNI Griya)	53,502	48.6	49,573	50.1	3,929	7.9
Payroll Loan	43,068	39.1	35,797	36.2	7,271	20.3
Fleksi	38,920	35.3	31,869	32.2	7,051	22.1
Employee Loan	4,148	3.8	3,928	4.0	220	5.6
Credit Card	12,341	11.2	11,868	12.0	473	4.0
Others*)	1,204	1.1	1,753	1.8	(549)	(31.3)
Total Consumer Loan	110,115	100.0	98,991	100.0	11,124	11.2

*) Others: Instan, Multiguna, Oto

Based on the types of loans provided, in 2022 the majority of loans for the Consumer segments were channeled through BNI Griya loan products that accounted for 48.6% of the total Consumer loans.

Total loans for the BNI Consumer segments as of December 31, 2022 amounted to Rp110.1 trillion, an increase of 11.2% or Rp11.1 trillion compared to Rp99.0 trillion at the end of 2021.

BNI Griya product loan portfolio in 2022 amounted to Rp53.5 trillion, an increase of 7.9% or Rp3.9 trillion compared to Rp49.6 trillion at the end of 2021.

Payroll Loans product in 2022 amounted to Rp43.1 trillion, an increase of 20.3%, or Rp7.3 compared to Rp35.8 trillion at the end of 2021.

The credit card portfolio for 2022 amounted to Rp12.3 trillion, an increase of 4%, or Rp472 billion compared to Rp11.9 trillion at the end of 2021.

BNI continues to strive to increase credit card transactions, with strategies and innovations in line with government policy directives to support national economic growth.

Various attractive programs for BNI Credit Card holders as well as the development of features and services continued to be carried out to expand the market for BNI Credit Card users during 2022, including:

- Collaborated with strategic e-commerce merchants to increase transactions. The e-commerce partners BNI has worked together with included Tokopedia, Shopee, Bukalapak, Traveloka, Tiket.com, Pegipegi, Agoda, Blibli, JD.ID, Lazada, Zalora, and other favorite e-commerce merchants. In an effort to provide services to cardholders, BNI also offers regular, tactical programs, 0% or low interest installment facilities, and BNI Rewards Point redemption.
- As well as working with e-commerce merchants, the program continues at merchants that provide daily needs in the Jakarta and non-Jakarta areas (regional), including LOTTE Mart, Superindo, Indomaret, Alfa Midi, Grand Lucky, Food Hall, Semarang Supermarkets, Hokky Surabaya, Smarco Medan, Diamond Palembang and many more. Other collaborations been carried out include the healthcare category, the restaurant category both in Jakarta and in non-Jakarta (regional) areas, including merchants in tourist attractions.
- Improving the loyalty program for cardholders by offering BNI Rewards Point redemption, with a variety of attractive options, ranging from shopping discounts at e-commerce merchants such as Tokopedia, JD.ID, Blibli, Citilink, Dinomarket, and Garuda Indonesia. In addition, cardholders can exchange points for Garuda Miles, Krisflyer Miles and Air Asia Points mileage.

- Organizing events with strategic partners such as the Indonesia Maternity Baby & Kids Expo (IMBEX) series namely Mommy & Me and IMBEX, Garuda Indonesia Online Travel Fair (GOTF), Garuda Indonesia Sales Office Travel Fair (SOTF), Garuda Indonesia Travel Fair (GATF) Regional in 3 cities (Medan, Surabaya and Makassar), Emirates Travel Fair, Inacraft, launching Samsung and iPhone products, as well as festive promos at the leading mall, namely Senayan City.
- Creating programs or campaigns for BNI Credit Card holders during the festive season, such as Chinese New Year promos, Ramadhan Promos, 76th BNI Anniversary, RI 77th Anniversary, Pay Day e-commerce campaigns, National Customer Day, National Online Shopping Day, as well as Christmas and New Year promos.
- Providing attractive benefits for prospective cardholders who submit credit card applications through digital acquisition.

2. Performance of Consumer Customer Deposits Productivity of Customer Deposits for the Consumer segments is reflected in the savings collection and the number of savings accounts for this segment, as shown below.

Consumer Customer Deposits Performance						
Product	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Savings	241,784	78.5	224,630	75.4	17,154	7.6
Deposits	66,201	21.5	73,191	24.6	(6,990)	(9.6)
Total	307,985	100.0	297,821	100.0	10,164	3.4

Total savings in the BNI Consumer segment as of December 31, 2022 reached Rp308.0 trillion, an increase of 3.4%, or Rp10.2 trillion compared to Rp297.8 trillion at the end of 2021.

Total Consumer Deposit Fund Accounts						
Product	2022		2021		Increase (Decrease)	
	Total (Number of Accounts)	Composition (%)	Total (Number of Accounts)	Composition (%)	Nominal (Number of Accounts)	Percentage (%)
Savings	67,251,558	99.4	64,171,821	99.4	3,079,737	4.8
Deposits	375,118	0.6	394,677	0.6	(19,559)	(5.0)
Total	67,626,676	100.0	64,566,498	100.0	3,060,178	4.7

The number of savings accounts for the Consumer segment as of December 31, 2022 reached 3,060,176, an increase of 4.7% compared to 64,566,498 at the end of 2021, in line with a sustainable low-cost fund acquisition strategy.

For BNI Debit Cards, product productivity is reflected in sales volume and number of transactions, as shown below.

Debit Card Performance				
Description	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Sales Volume (Rp-billion)	37,250	30,430	6,820	22.4
Total Transactions	84,399,878	63,843,045	20,556,833	32.2

Debit card sales volume as of December 31, 2022 reached Rp37.2 trillion, an increase of 22.4% compared to Rp30.4 trillion at the end of 2021, together with an increase in the number of debit card transactions.

Digital Account Opening (DOA)

Description	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Total Accounts	351,011	141,857	209,154	147.4
Balance (Rp-billion)	1,026	313	713	227.8

The number of accounts opened through digital channels as of December 31, 2022 was 351 thousand, an increase of 147.4% in line with innovations in BNI's digital channels and customer online transaction behavior.

Digital Account Opening including Pre-Employment Card E-Form

Description	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Total Accounts	987,419	433,103	554,316	128.0
Balance (Rp-billion)	3,292	1,805	1,487	82.4

Consumer Segment Profitability

Consumer segments revenue and profitability are presented as follows:

Account	2022 (Rp-billion)	2021* (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Profit (Loss)				
Interest income and sharia income - net	12,347	11,118	1,229	11.1
Other operating income	7,381	6,754	627	9.3
Other operating expenses	(9,673)	(9,460)	(213)	2.3
Establishment of allowance for impairment losses	(1,284)	(912)	(372)	40.8
Operating profit	8,771	7,500	1,271	16.9
Non-Operating Income (Expense) - Net	0	0	0	0.0
Income Before Tax Expenses	8,771	7,500	1,271	16.9
Financial Position				
Total Assets	125,623	112,267	13,356	11.9
Total Liabilities	300,441	292,577	7,864	2.7

*) Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

Profit before tax expense in the Consumer segment was Rp8.8 trillion, an increase of 16.9%, or Rp1.3 trillion compared to 2021. This growth was mainly due to an increase in interest income and net sharia income of 11.1 % and other operating income of 9.3% compared to 2021.

Total assets in 2022 stood at Rp125.6 trillion, an increase of Rp13.4 trillion or 11.9% compared to Rp112.2 trillion in 2021.

Total liabilities in 2022 stood at Rp300.4 trillion, an increase of 2.7%, or Rp7.9 trillion compared to Rp292.6 trillion in 2021, due to an increase in total customer deposits.

Consumer Segments Prospects, Potential, and Strategies for the Next Year

Prospects and strategies for the consumer corporate segment and retail in 2023 for Consumer Credit Products (BNI Griya, BNI Fleksi, Credit Cards, BNI Instan) and TPF Savings Products (Savings and Deposits), and Debit Cards) are as follows:

1. Consumer Credit Business Strategy Plan for 2023
 - a. BNI Griya products
 - i) BNI Griya Commercial Products. The growth of BNI Griya Commercial will be primarily focused on:
 - Expansion in the primary market segment in collaboration with Developer partners with competitive programs such as tiered interest rates and accelerated processes through instant approval programs;

- Optimizing business synergies from BNI business banking & corporate managed institutions through BNI Griya penetration to its employees by offering a home ownership program;
 - Expansion of marketing channels through collaboration with third parties, communities and ecosystems in supporting the consumer business, especially with the development of digitization, including through the online application e-Form and DigiGriya, a web-based property information portal specifically for developers working with BNI.
- ii) To maintain its commitment to supporting the Subsidized Mortgage Program, BNI will also continue to expand in 2023 with the following strategic focus:
- Focus on accelerating subsidized BNI Griya bookings to increase the BNI Griya Subsidized commitment/quota from the Government, with a commitment to plan distribution in 2023 to increase by 3 thousand units from the commitment in 2022 so that the commitment target for distribution in 2023 will be 25 thousand units;
 - To accelerate BNI Griya FLPP bookings, BNI will organize the Mass Contract Program as an annual routine program as in previous years, with plans to increase the application target for each region to adjust the increase in distribution commitments to the Government;
 - To optimize the distribution of BNI Griya FLPP, BNI will also continue to increase cooperation with Developer Associations, Subsidized KPR local Developers and outreach to regions involving both internal and stakeholder.

b. BNI Fleksi & Fleksi Pensiun products

BNI Fleksi Aktif portfolio growth plan focuses on expanding to selected institutions and companies as well as segment expansion through collaboration with third parties, communities and ecosystems in supporting the consumer business.

To increase BNI Fleksi Aktif loan expansion in 2023, the strategy will be focused on:

- Expanding to selected institutions and companies with low risk profiles, especially customers managed by Institutional Banking, Corporate Banking and Sales Distribution through attractive program offers and marketing channels by optimizing the role of branches as office channeling and e-channels;
- Penetrating potential payroll customers by optimizing data analytics and optimizing existing debtor data leads, customers managed by Institutional Banking, Corporate Banking and Sales Distribution;

- Expanding segments through collaboration with third parties, communities and ecosystems in supporting the consumer business and financial transactions as a whole (one stop solution) and providing easy acquisitions to optimize the digital channel e-Form website and BNI Mobile Banking;
- Penetrating potential non-payroll customers according to debtor criteria determined through a channeling scheme by adding Third Party partners (Fintech/P2P);
- Easing application up to BNI Fleksi disbursement through end to end BNI Fleksi Digital Loans;
- Digital development planned for 2023 includes BNI Fleksi Loan Approval Automation for certain Criteria and BNI Paylater.

Seeing the potential for the pension loan market is still very large, and the achievements during 2022, for 2023 the BNI Fleksi Pensiun expansion strategy will remain focused on prospective pensioners & retirees participating in Taspen, Asabri, BUMN Employer Pension Funds, and employees in institutions owned by BUMN/BUMD, by providing the best banking services including competitive features, programs and pricing, fast credit processes, and establishing cooperation with quality bank or non-bank partners.

Plans or projections for the growth portfolio of Fleksi Pensiun in 2023 with an increase in BNI Fleksi Pensiun market share in the pension credit market in the form of offering attractive and competitive features and programs supported by marketing by Regions and Branch Offices through BNI's internal sales and external sales marketing channels.

c. Credit Card Products

As the Indonesian economy began to improve in 2022, and supported by the large potential for credit card penetration in Indonesia, BNI Credit Card is optimistic that it can continue to grow in 2023. The provision of credit cards will still refer to the precautionary principle to maintain credit quality. BNI continues to carry out initiatives to increase business expansion and increase card business transactions in a sustainable manner. BNI Credit Card focus and strategy in 2023 includes:

- Improving credit quality through implementing a risk management system and granting credit cards to selected customers;
- Increasing sales volume and customer preferences with a strategy that focuses on increasing e-commerce transactions, and new lifestyle transactions (groceries, health, dining, and gadgets), by maintaining partnerships with existing merchants and acquiring potential merchants, both national and regionally;

- Increasing sales volume with a focus on increasing merchant travel related transactions while still referring to the provisions for community mobility in 2023;
- Optimizing the use of Government Credit Cards for operational expenses and official travel for both Central Work Units and Regional Work Units in line with Ministry of Finance Regulations and Ministry of Home Affairs Regulations to encourage the implementation of the Indonesian Payment System Blueprint;
- Increasing digital capability to meet customer needs, through digital-based product developments and tokenization, as well as developing credit card features and services on My Credit Card Mobile in BNI Mobile Banking;
- Optimizing cooperation with strategic partners, as well as optimizing the potential of the card business with subsidiary companies.

d. BNI Instan Products

To increase BNI Instan's expansion in 2023, the focus will be on providing special spread rates to potential customers selectively and case by case.

2. Consumer Customer Deposits Business Strategy Plan for 2023

a. TPF and Transactional Products

In 2023 improvements and innovations will be made to existing performance and strategies by developing the following:

- Taplus Bisnis, Taplus Business Non-Individual in 2023 will target individual state-owned companies. An individual Persero is a new legal entity recognized by the State with terms and conditions that are easier to establish. Taplus Non-Individual Business will be sold with a special program aimed at these individual Persero customers.
- BNI Dollar, in 2023 account opening through BNI Mobile Banking will be developed.
- Taplus Anak, in 2023 account opening through BNI Mobile Banking will be developed.
- Multicurrency Savings and Hybrid Savings will also be developed in 2023 to facilitate the choice of customer needs in transactions.

- Deposits, in 2023 Deposits will be developed as a customer's choice of foreign exchange deposit products with easier access through BNI Mobile Banking. For the initial development of Forex Deposits through BNI Mobile Banking, customers can place funds in USD or SGD.
- Debit Card, will be developed and launched to provide convenience for customers both in making transactions and several matters related to debit cards, such as the following:
 - Contactless features to provide convenience and speed in making transactions, debit control features in BNI Mobile Banking to give customers control in carrying out activities related to debit cards such as transaction limits and including requesting debit cards to be sent directly to their home addresses as well as digital cards to facilitate transactions without using physical debit cards.
 - Debit control features carried out by customers on a self-initiated basis will be included in BNI Mobile Banking, such as controlling transaction limits, blocking/unblocking cards, resetting the PIN if the customer forgets their PIN, requesting card delivery directly to the customer's home/office address and performing e-commerce transactions using digital cards. This digital card feature will also be further developed with the NFC feature, so that customers can also make contactless transactions using the NFC feature in their mobile banking at EDC BNI or overseas merchants simply by tapping the customer's smartphone on the EDC or contactless device with NFC. For customer convenience, this digital card will also be provided with security features through the tokenization process.
 - The combine payment feature is an expansion of the POIN+ channel redemption feature at BNI EDC where transactions using a BNI debit card at EDC can be combined or combined with BNI POIN+.

What They Say

Arwin Rasyid
Banker, Entrepreneur

BNI Emerald team is more than professional. They are committed and dedicated team to give the best to customer

Adi Satria
Senior Vice President Operations and
Government Relations

I have been a BNI Credit Card holder since 2015. BNI Credit Cards are always helpful in terms of doing transactions. Some of the programs that I really like are promo groceries at Grand Lucky, paying gas stations, paying routine monthly bills, events for family needs such as Imbex Expo, Travel Fair and of course 0% installments and low interest.

Lisa Desi Puspasari
BNI Customer HR Muhammad Branch

Winner of BNI Fortune Lottery #GaPakeNanti 2022-2023
December 2022 Drawing Period
Regular Category, Honda Beat Motorcycle Prize

I have been a loyal customer of Bank BNI, and this has turned out to be fruitful. I didn't think that I would win a prize of 1 (one) Honda Beat motorcycle from BNI. Come on, other customers continue to increase your transactions through BNI so you get prizes too. Continued success for BNI!

Nadia Marsya Audiari
BNI Customer Graha Pangeran Surabaya Branch

Winner of the BNI Fortune Lottery #GaPakeNanti 2022-2023
December 2022 Draw Period
Regular Category, Honda Beat Motorcycle Prize

Thank you BNI because I didn't expect to get a prize through the Gelegar BNI Rejeki #GaPakeNanti event. I really enjoy doing transactions in BNI Mobile Banking because the transactions are very fast and easy. The service is also friendly and if there are problems they can be quickly resolved. I am satisfied and will continue to save, increase transactions through BNI so that I will get the opportunity to win prizes. Thank you BNI!

Chusnur Ismiati BNI Graha Pangeran Surabaya Customer

Winner of the BNI Fortune Lottery #GaPakeNanti 2022-2023
December 2022 Drawing Period
Entrepreneurial Category, Honda Scoopy Motorcycle Prize

I'm happy I won a motorbike prize, all thanks to BNI, starting from opening an account, always transacting through BNI Mobile Banking has turned out to be fruitful. Paying bills, installments, to transactions with colleagues, can be through BNI Mobile Banking. Being with BNI, we collect points and win prizes.

TREASURY AND INTERNATIONAL

Treasury and International Segment Business Activities, Strategy and Productivity

In the Treasury and International segments, BNI provides investment solutions while prioritizing customer needs and types of risk by offering the best banking products. The Treasury and International segment includes the Bank's treasury activities consisting of transactions for foreign exchange, money market, capital market and fixed income, as well as international business such as Trade, Remittance and Financial Institutions as well as supervision of overseas branches. The treasury business activities are supervised by the Treasury Director, while international business activities are supervised by the Corporate & International Banking Director.

The range of Treasury and International products can be explained as follows:

1. Variety of Treasury Products and Services
BNI Treasury products are classified into Transactional products, Investment products and Hedging products.
 - a. Transactional
These transactional products consist of Forex-TOD, ForexTOM, Forex-SPOT, and Forex-Bank Notes. Details related to transactional products are described as follows:
 - Forex – TOD
Sale and purchase of foreign currencies where transaction agreements and transaction settlements are carried out on the same day.
 - Forex – TOM
Sale and purchase of foreign currency where the settlement of the transaction is carried out 1 (one) working day after the date of the transaction agreement.
 - Forex – SPOT
Sale and purchase of foreign currencies where the settlement of transactions is carried out 2 (two) working days after the date of the transaction agreement.

- Forex – Bank Notes
Transactions that involve the exchange of physical ownership of the currency (banknotes) involved in the transaction.
2. Investment
Treasury investment products consist of Deposit on Call (DOC), Money Market Account (MMA), and retail bonds. Details related to investment products are described as follows:
 - a. Deposit on Call (DOC)
 - Placement of funds for a minimum period of 3 (three) days up to 30 (thirty) days;
 - The interest rate refers to the interbank interest rate;
 - Can be disbursed at any time;
 - Minimum placement of Rp100 million or USD 75 thousand.
 - b. Money Market Accounts (MMA)
 - Placement of funds for a minimum period of 1 (one) day up to 1 (one) year;
 - The interest rate refers to the interbank interest rate;
 - Can be disbursed at any time;
 - Minimum placement of Rp1 billion or USD 100 thousand.
 - c. Retail Bonds
Bonds are proof of debt from the issuer that will be repaid at maturity in accordance with predetermined conditions and conditions. Bond transactions that can be made between the Treasury Division and Individual Customers include the following:
 - In the primary market, includes corporate bonds and non-retail government bonds;
 - In the secondary market, includes corporate bonds, retail government bonds, bonds;
 - Non-retail government and other government bonds.
 - d. Depo Swap
Depo Swap is an investment product in a foreign currency with a maximum rate of return and a guaranteed principal of 100%. Depo Swap is a combination of forex

transactions in the form of FX Swaps and deposits. In this transaction, the customer exchanges their foreign currency into another foreign currency and at the same time exchanges the foreign currency back in the future at a tenor and exchange rate that has been determined at the beginning of the transaction agreement. Gain on foreign exchange transactions (forex gain) is an optimal return on investments in customer placements.

- e. Market Linked-Dual Currency Investment (ML-DCI)
ML-DCI is a structured product that is a combination of foreign exchange deposit products and FX Options. This product provides high yields when compared to conventional deposit products as it combines deposit products with a view of exchange rate movements. This product has the characteristics of non-capital protected/does not guarantee the principal investment.

3. Hedging

- a. Currency Forward
Sale and purchase of foreign currency where the settlement of transactions is carried out more than 2 (two) working days after the date of the transaction. The exchange rate used in this forward transaction takes into account the forward points.
 - Domestic Non-Deliverable Forward (DNDF)
Standard (plain vanilla) foreign currency derivative transactions against the rupiah in the form of forward transactions with a fixing mechanism carried out in the domestic market. The fixing mechanism is a transaction settlement mechanism without the movement of principal funds by calculating the difference between the forward transaction rate and the reference rate on a certain date specified in the contract (fixing date).
 - PAR Forward
Par Forward is a derivative contract to carry out a series of sales/purchases of a currency (reference currency) against another currency (non-reference currency) in a period, where the settlement/delivery of funds (settlement) is carried out in more than 2 (two) working days after the date of the transaction agreement (trade date).
- b. Currency Swap
Transactions 'sell and buy' or 'buy and sell' of a currency against another currency that is carried out (simultaneously) at the same time with the same counterparty (customer).
- c. Currency Option
An agreement to give the right and not the obligation of the seller (option writer) to the buyer (option holder) to buy or sell a certain nominal amount of currency for the future at a predetermined price (strike price) at or before a certain time (expiry dates).

d. Interest Rate Swap (IRS)

An agreement between two parties to exchange a series of fixed interest payments (fixed rate) in one currency with a series or series of fluctuating interest payments (variable rates) in the same currency (or vice versa), without exchanging the principal of the loan.

- Overnight Index Swap (OIS)
OIS is an interest rate derivative product, namely a contract/agreement between 2 parties to exchange interest rates in Rupiah periodically during a certain contract period, which is calculated on a daily interest basis (Daily Compounding). The transaction scheme is the same as the Interest Rate Swap (IRS) but the interest calculation method is daily compounding with the overnight reference rate.

e. Cross Currency Swap (CCS)

An agreement between two parties to exchange principal and interest payments in different currencies. The principal exchange of the loan uses the exchange rate at the start of the transaction.

f. Call Spread Option (CSO)

Call Spread Option is a Structured Products with a combination of 2 (two) Currency Option transactions, namely Buy Call Option (purchase of the right to buy a certain currency) and Sell Call Option (sale of the right to buy a certain currency), with a nominal and term the same transaction time but with a different strike price for each of the Buy Call Option and Sell Call Option. CSO transactions must be carried out in Dynamic Hedging with the aim that hedging actors are not exposed to exchange rate risk due to market rates exceeding the Sell Call Option strike price.

- Series Of Call Spread
Series of CSO is a contract for a series of call spread options in a period.

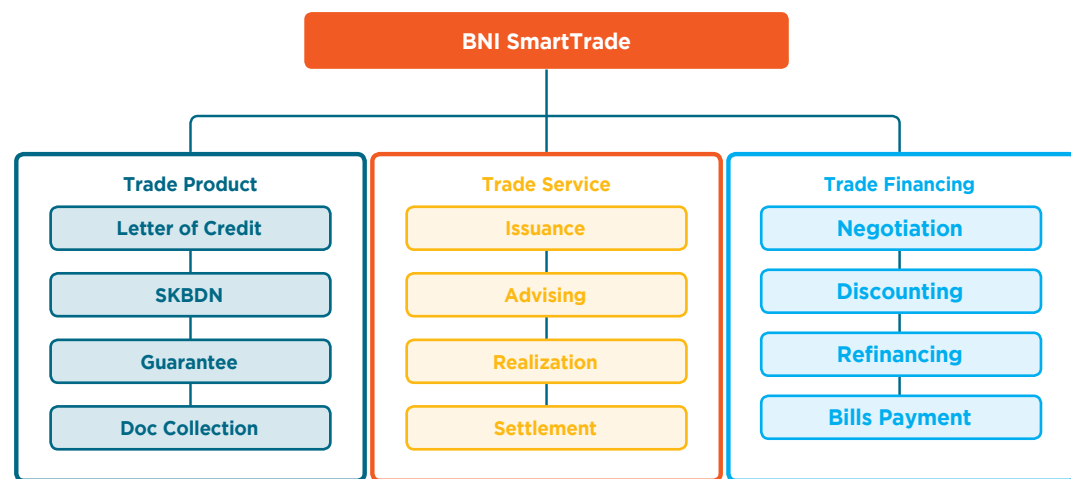

4. Variety of International Products and Services

The International segment is managed by international businesses that offer international services and services both through Domestic Branch Offices and Overseas Branch Offices, including banking services in the form of Trade Finance, Remittance services, International Desk and Financial Institutions.

a. Domestic International Banking Services

The International Segment offers business services and services from branch offices in Indonesia (domestic), including banking products in the form of BNI Smart Trade, Financial Institutions, Remittance and International Desk.

- BNI Smart Trade
BNI Smart Trade consists of trade products, trade services and trade financing.

• Trade Product

» Letter of Credit

Letter of Credit (L/C) is a payment guarantee instrument issued by a bank (Issuing Bank to Beneficiary) subject to Uniform Customs and Practice of Documentary Credits (UCPDC).

» Letter of Credit with Domestic Documents

Domestic Letter of Credit (SKBDN) is a payment guarantee instrument issued by a bank (Issuing Bank) to a beneficiary (Beneficiary) subject to Bank Indonesia Regulations and used for domestic trade transactions.

» Demand Guarantee/Standby Letter of Credit (Guarantee)

The guarantee is an agreement/script issued by the issuing bank that is obliged to pay the party receiving the guarantee (Beneficiary) if the guaranteed party (Applicant) defaults or defaults. Guarantee issued in the form of a Demand Guarantee subject to the Uniform Rules for Demand Guarantee (URDG) or Standby Letter of Credit subject to UCPDC or International Standby Practices (ISP).

» Documentary Collection (Non LC)

Documentary Collection is one of the payment systems in the world of commerce that is carried out through banking services in the form of document invoices that are subject to the Uniform Rules for Collections (URC).

» Irrevocable and Confirmed L/C

This L/C is considered the most perfect and safest from the point of view of the L/C recipient (beneficiary) as the payment or settlement of the draft

drawn on this L/C is fully guaranteed by the opening bank or by the advising bank, if all conditions are met, and cannot be easily canceled because it is irrevocable.

• Trade Services

Trade Services is a trade business that provides services to customers to obtain services in the context of trade or trade transactions with the scope of export/import and domestic.

The following are trade services:

» Issuance

Issuance is a service to issue an instrument (L/C, SKBDN, Guarantee) that guarantees certainty of payment or guarantees the implementation of certain contracts to the recipient party with conditions in accordance with the terms of the L/C, SKBDN, Guarantee.

» Advising

Advising is a service for forwarding L/C, SKBDN, Guarantee to be delivered to the beneficiary in accordance with instructions from the Issuing Bank.

» Realization

Realization is a service for delivering documents in the framework of trade to recipients of documents as importers/buyers with agreed conditions.

» Settlement

Settlement is a service for settlement of trade transactions in the form of payments for transactions that have been carried out or agreed upon. This service is a cycle of trade transactions by making payments to exporters/sellers via bank transfer.

• Trade Financing

Trade Financing is financing to customers in the context of trade transactions with instruments in the form of L/C, SKBDN, Documentary Collection, Bills Payment, and Invoices or invoice-based.

The following are trade financing services:

» Negotiation

Negotiation is a takeover payment of the value of the note drawn up by the beneficiary to a bank on the basis of documents presented and stated in accordance with the terms and conditions of the LC/SKBDN/SBLC with a sight tenor.

» Discounting

Discounting is a takeover payment of the value of the note drawn up by the beneficiary to a bank on the basis of documents presented and stated in accordance with the terms and conditions of the LC/SKBDN/SBLC with the tenor of usage.

» Refinancing

Refinancing is financing in the form of taking over payments with a background of L/C or SKBDN issuance transactions. Financing in the form of refinancing can be carried out at the time of initial issuance or at the time of payment approaching maturity.

» Non LC Financing

Non LC Financing is financing for exporters/sellers and importers/buyers on the basis of documentary collection/open account transactions.

• BNI Trade Online

BNI Trade Online is a trade transaction service for customers using an Internet network-based (web-based) Application System that customers can use to submit trade transaction requests and receive the results of trade transaction decisions from the bank online.

• Financial Institutions Products and Services

Products and services from the Financial Institution business are Bank to Bank services as follows:

» Bank Guarantee Under Counter (BGUC)

Is the issuance of a Bank Guarantee on the basis of a request and with a definite guarantee from a correspondent bank (The Instructing Party).

» Bank to Bank Financing – Refinancing

Refinancing is financing that is done by BNI to correspondent banks in the form of payment for the realization of LC or SKBDN based on a loan agreement between BNI and the correspondent bank.

» Bank to Bank Financing-Trade Advance Financing

This is financing made by BNI to correspondent banks with underlying transactions in the form of LC/SKBDN or non-LC/SKBDN.

» Bank to Bank Financing-Forfaiting

Is a purchase of collection rights without regress rights over Banker's Acceptance (B/A) owned by Correspondent Banks as Nominated Banks (forfaitee) in connection with L/C or SKBDN transactions.

» Bank to Bank Financing-Term Loan Facility Bank

Is the provision of credit facilities to other banks, whether those with the status of BUMN, BUSN, BUMD, or foreign bank branch offices domiciled in Indonesia.

» Risk Participation

Is the transfer of part of the risk owned by an applicant bank to BNI in the form of funded or unfunded related to trade transactions that have been agreed between the applicant bank and other banks.

• Non-Bank Financial Institutions Products and Services

» Provision of Securities Company Limits (PE)

* Intraday Limit

Provision of cash bailout funds for PE used to settle transactions in which the bailout funds must be settled/returned on the same day (same day settlement). Intraday facilities are not categorized as loans.

* Global Line Limit

This is a limit given to PE to carry out certain types of transactions with BNI.

» Provision of Insurance Company Limits

Commercial Line

This is a limit given to Insurance/Guarantee Companies to guarantee the issuance of Bank Guarantees (GB), Letters of Credit (L/C) and Domestic Bank Certificates (SKBDN). Insurance/guarantee companies that can be provided by Commercial Line are those that have become partners with BNI.

» Securities Company Facilities

Working Capital Loan

Provision of Working Capital Loan facilities for transactional/operational activities of Securities Companies, including: repo/reverse repo transactions.

» Loans to Multifinance (KKM) Represents the provision of loan facilities (cash loans) to finance companies (multifinance) that are business entities that carry out financing activities for the procurement of goods and/or services with private status and/or Himbara subsidiaries.

• Custodian Services

Custodians are parties that provide safekeeping services for securities and other assets related to securities and other services, including receiving dividends, interest/coupons and other rights, completing securities transactions, and representing account holders who are their customers.

BNI obtained a license as a Custodian Bank from Bapepam LK No. KEP-162/PM/1991 dated December 9, 1991, and as a Sub-Registry (for securities issued by the Government of the Republic of Indonesia) appointed by Bank Indonesia in 2000.

Services provided are as follows:

- » Settlement: Settlement of online and realtime transactions that are safe, fast with Straight Through Processing (STP) capabilities that are able to connect the Core Custody System with the BNI Core Banking System and other systems related to the capital market.
- » Safekeeping: storage, management and administration of securities in the Indonesian and international capital markets.
- » Corporate Action: managing corporate actions such as rights issues, bonus shares, payment of dividends/coupons, etc.
- » Proxy: representing securities holders who become their customers to attend the General Meeting of Shareholders and General Meetings of Debt Securities Holders (Bonds, MTN, Sukuk, etc.)
- » Reporting: Submission of reports and information related to securities and/or securities owned by customers kept and administered by BNI Custodian, reporting to regulators and mass media.

To support the needs of customers/investors in investing in securities instruments, BNI Kustodian facilitates these needs by providing a variety of services:

- » As a custodian for customers/investors investing in capital market and money market instruments in Indonesia (core custody).

- » As a Sub-registry to serve customers/investors investing in Government Securities (SUN) including Government Bonds or State Treasury Bills and Bank Indonesia Certificates (SBI).
- » As a foreign exchange securities custodian (through Euroclear) to serve customers/investors investing in securities and assisting the settlement of foreign currency securities transactions recorded at the Euroclear Operations Centre. BNI Custodian is a direct member of Euroclear.
- » As a custodian for the administration of mutual funds and discretionary fund contracts issued and managed by investment managers.
- » As a custodian for the administration of Exchange Trade Funds (ETFs) issued and managed by investment managers.

BNI insures customer portfolios kept at BNI Custodian against possible losses arising from securities depository and transfer in accordance with OJK (formerly Bapepam-LK) regulations

• Trustee

Bank BNI has provided Trustee Services since 1983. The operating license for trustee activities was renewed and re-registered with Bapepam and LK based on Decree No. 01/STTD-WA/PM/1996 dated March , 1996.

The services offered are as follows:

- » Trustee and monitoring agent (trustee) services for the issuance of bonds and MTN
- » Escrow agent services
- » Paying agent services
- » IPO/Initial Public Offering (receiving bank) fund collection services
- » Guarantee agent services (security agent)

Both BNI Trustees and Custodian Services have received ISO 9001:2015 service quality standard certification.

- Bank Business Activities in the Form of Custody with Management (Trust)
Trust is a safekeeping service with the management of the customer's assets (settlor) based on a written agreement between Bank BNI as the trustee and the customer for the benefit of the beneficiary.

Bank BNI has obtained a principle license and a letter of confirmation of trust services based on Bank Indonesia Letter No. 15/29/DPB1/PB1-6 dated March 21, 2013 and No. 15/19/DPB1/ PB1-6 dated August 23, 2013.

The functions of the BNI Trust Bank Service are as follows:

- » Paying agent, namely opening and closing accounts for and on behalf of the customer (settlor), receiving and depositing funds into the Trust account, making payments from the settlor's Trust account, recording, documenting, and administering documents related to the Trust account property of the settlor and carry out other activities in order to carry out the function as trustee.
- » Investment agent, namely investing funds based on clear and detailed written instructions from the Settlor.

BNI's Trust Bank services also manage customers from various segments, including oil and gas companies, corporate and commercial, as well as non-profit organization customers for the distribution of proceeds from gas sales, buying and selling/acquisitions of companies, holdings for foreign aid funds etc.

• Remittance Services

Remittance is a form of money transfer service to another designated party (beneficiary customer or institution) based on a written order or individual request, legal entity (ordering customer or institution) to a money sending institution (remitting bank/institution) both inside and outside country.

The types of Remittances are as follows:

- » Incoming Fund Transfer or Incoming Transfer (ITR) or Incoming Money Transfer
Incoming Remittances are remittances from a person or legal entity through a remitting bank overseas in foreign currency/rupee or through a domestic bank specifically in foreign currency addressed to BNI as the receiving bank, for the benefit of the recipient whose name is designated in the remittance, either as customers or non-customers of BNI in the country.
- » Outgoing Fund Transfer (OTR) or Outgoing Remittance is an order unconditional written statement from BNI at the request of a customer and/or for the benefit of BNI itself addressed to a correspondent bank to pay a certain amount of money to a person/entity

(beneficiary) in foreign currency both at home and abroad. BNI money transfer services can be received on the same day (same day service) according to the cut off time that has been determined for each currency. BNI also has a multi-currency remittance service, which is a money transfer service that can be received in 125 (one hundred and twenty five) types of local currency in 160 (one hundred and sixty) countries.

• International Desk

As a Gate to Investment, BNI focuses on increasing the role of Foreign Branch Offices and Financial Institutions (FI) in supporting Foreign Direct Investment (FDI), as well as developing International Desks in providing banking services to foreign entities investing in Indonesia through the following facilities:

» Loan

The International Desk unit delivers Lending services in the form of IDR and offshore loans in USD and JPY as well as Open Account Financing (OAF) to International Corporate Customers in Indonesia with interest rates competitive on the basis of Standby LC (SBLC) guaranteed by international banking/financial institutions. In terms of providing this loan as well as the Open Account Financing (OAF) scheme, the International Desk coordinates with the Credit unit.

» Third-party funds

Collaborating with both Overseas Branch Offices and Domestic Branch Offices in providing services for opening Savings, Current Accounts and Time Deposits to Customers, both foreign individuals and international corporations in Indonesia.

» Cash Management

Collaborating with the Wholesale Solution Division (WHS), marketing BNI Cash Management products to international corporate customers in Indonesia.

» Credit card

Collaborating with the Business Card Division (CARD) to offer personal credit cards for foreign individuals and international corporations.

- b. International Banking Services and Services from Overseas Branch Offices (KCLN) The existence of Overseas Branch Offices is a manifestation of BNI's competitiveness in strengthening international business and to support Global business partners in expanding their business.

In implementing its business, KCLN implements 3 Strategic Values as follows:

- Source of International Funding
BNI focuses on increasing the role of Overseas Branch Offices (KCLN) and correspondent banks as a source of low-cost funding to support BNI's business growth and customer business development, especially export-based corporations.
- Go Global with BNI
BNI's effort to support Indonesian business people to develop in the global market and play an active role in providing digital-based global services.
- Gate to Investment
Optimizing the role of Overseas Branch Offices and Financial Institution (FI) units to support foreign investment and optimizing the International Desk in providing banking and advisory services to foreign entities that will invest in Indonesia.

These strategic values are guided and implemented by all KCLN through banking services and services to customers, including in the form of products:

- Loan Financing Products
The provision of loan financing is focused on the value chain of Indonesian Related companies that will develop their business through:
 - » Local Loan
Local loans are loan facilities offered by Overseas Branch Offices (KCLN) to Indonesian business group companies and counterparties from Indonesian companies abroad, both bilaterally and syndicated. The types of loans offered can be in the form of working capital loans (KMK), investment loans (KI) and term loans.
 - » Offshore Loan
Offshore Loans are facilities offered by KCLN to domestic debtor customers for (short-term) working capital financing needs in the form of foreign exchange for the procurement of capital goods for rehabilitation, modernization or expansion purposes with payment settlements in the medium or long term.
 - » Trade Loan
Trade Loan is a facility offered by KCLN on the basis of Trade Finance transactions carried out by Indonesian business groups and counterparties from Indonesian companies overseas.

- Third Party Fund Products
Overseas Branch Offices with Full License Bank status (Singapore KCLN, Hong Kong KCLN, Tokyo KCLN and Seoul KCLN) can carry out activities to collect Third Party Funds (TPF) from local customers where the KCLN is located consisting of Savings, Deposits and Current Accounts products.

Overseas TPF products include:

- » Savings
Deposit services developed to accommodate individual customer needs.
- » Current Account
Deposit services for individual and corporate customers to meet their payment needs for operational activities with a check facility as a withdrawal tool.
- » Deposits
Funding services offered by KCLN with terms ranging from 1 (one) to 12 months.
- Bank to Bank Funding
Bank to Bank Funding is an interbank lending-borrowing activity to meet the liquidity and financing needs of customers. These activities include Banker Acceptance, Term Loans or Money Market Borrowing. Bank to Bank Funding is carried out by utilizing synergies and reciprocal business relationships with leading correspondents around the world.

Treasury and International Segment Strategy for 2022

Throughout 2022, BNI implemented strategies and policies for the Treasury and International segments as follows:

Treasury Strategy for 2022

Throughout 2022, BNI implemented the following strategies and policies for the Treasury segment:

1. Financial Strategy
 - a. Optimizing liquidity to support business activities through the money market and capital market.
 - b. Developing a prudent securities portfolio according to market conditions.
 - c. New product diversification as a one stop solution for customer needs.
 - d. Optimizing forex trading, both through proprietary trading, banking and customer flow as well as hedging transaction volume.
 - e. Increasing Securities portfolio held in the "Green Bond" category.

2. Non-financial strategy
 - a. Maintaining liquidity in an efficient and profitable position.
 - b. Issuing Environmentally Friendly Bonds (Green Bond 2022).
 - c. Issuing FNK denominated in USD in the context of refinancing FNK with a maturity of USD 500 Million.
 - d. Expanding market share through the customer loyalty program.
 - e. Developing Treasury transactions through digital platforms for capital market and FX transactions.
 - f. Implementing LIBOR Discontinuity Bridging.

International Strategy for 2022

The International Division has aspirations to provide integrated solutions for global companies and continue to support BNI's business through implementing various strategies to strengthen international business during 2022, including:

1. Strengthening the role of the Syndicated Loan Desk at the Singapore KCLN to explore the syndication business potential for Indonesia-related businesses in the Southeast Asia region through synergistic collaboration with the Syndication & Corporate Solution (SCS) Division at the Head Office.
2. Focusing on enhancing banking services for Indonesian Diaspora overseas, including financing for Indonesian Diaspora MSMEs, opening Diaspora Savings accounts digitally, financial inclusion, as well as investment offers in the form of securities and government bonds.

Treasury and International Segment Productivity

The Treasury and International segment productivity is reflected in the performance of Domestic International Banking Services and Services and Overseas Branch Offices, as follows.

1. Domestic International Banking Services and Services

International Business Revenue						
Perihal	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Komposisi (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Fee Based Income	1,714	59.7	1,832	64.1	(118)	(6.4)
Interest Income	1,155	40.3	1,025	35.9	130	12.7
Net Operating Income	2,869	100.0	2,857	100.0	12	0.4

Even though the pandemic conditions have improved, geopolitical issues at the beginning of the year, the ban on the export of certain commodities and the increase in interest rates were some of the factors that affected the performance of International Business. Domestic International Business Revenue in 2022 in total increased by Rp12 billion, a growth of 0.4% YoY, driven by the growth of Fee Based Income especially from the Financial Institutions, Remittance and Custody businesses as well as Interest income from the Financial Institution and International Desk businesses.

The ban on the export of certain commodities and the increase in interest rates were factors that affected the Trade Finance performance. FBI Trade Finance was under pressure due to reduced customer transactions due to the ban on the export of certain commodities in 2022. This resulted in a decrease in Fee Based Income from BNI's Trade Finance business. However, the decrease in Fee-Based Income was compensated by a significant growth in Interest Income in the Financial Institutions business, namely 308% YoY, which came from an increase in Bank to Bank Financing provided by BNI to correspondent banks.

Remittance activities, which were previously affected by the COVID-19 pandemic, have shown improvement with an increase in volume of 8.3% to USD83.6 billion. Digitizing the remittance process as the main strategy has changed customer behavior in choosing transactions through digital channels, making transactions easier and more efficient. This strategy kept the remittance business income stable throughout 2022.

2. Overseas Branch Offices (KCLN)

The following shows the productivity in the Treasury and International segments originating from the Overseas Branch Offices (KCLN) activities.

Development of Overseas Branch Office Assets (KCLN)						
Description	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Total Loans	64,005	68.9	59,105	66.8	4,900	8.3
Other Assets	28,832	31.1	29,348	33.2	(516)	(1.8)
Total Assets	92,837	100.0	88,453	100.00	4,384	5.0

In 2022, KCLN channel financing amounted to Rp64.01 trillion, an increase of Rp64.0 triliion, an increase of 8.3% compared to 2021. This growth is also in line with KCLN's strategy to focus on financing Indonesia-Related Business and the Indonesian Diaspora, especially in supporting the Value Chain business of Indonesian companies in foreign countries, and to provide superior global services as a manifestation and effort of KCLN's efforts in supporting Indonesian Go Global companies and increase trade transactions between Indonesia and the World.

Total Third Party Funds (TPF) in Overseas Branch Offices (KCLN)						
Description	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Savings	126	2.7	120	2.5	6	5.1
Current Accounts	2,600	56.6	3,475	72.8	(875)	(25.2)
Deposits	1,870	40.7	1,178	24.7	692	58.7
Total	4,596	100.0	4,773	100.0	(177)	(3.7)

During 2022, the total TPF in KCLN amounted to Rp4.6 trillion, a decrease YoY of 3.7%. However, there was an increase in terms of deposits originating from the outstanding Certificate of Deposit (CD) at the New York KCLN. During 2022, the number of NCDs issued amounted to USD222.60 million. This is in line with BNI's strategy to focus on increasing the role of Overseas Branch Offices (KCLN) as a source of low-cost funding to support BNI's business growth and customer business development.

Overseas Branch Offices (KCLN) Income				
Description	2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Fee Based Income	338	346	(8)	(2.3)
Net Operating Income	2,117	2,253	(136)	(6.0)

Net Operating Income in 2022 amounted to Rp2.1 trillion. During 2022 there was an increase in interest rates globally making market conditions less conducive so that affected the KCLN cost of funds in 2022 that impacted a slowing Net Operating Income by 6.0% YoY.

Treasury and International Segment Profitability

Treasury and International segments Revenue and profitability are presented as follows:

Account	2022 (Rp-billion)	2021* (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Profit (Loss)				
Interest income and sharia income - Net	2,344	2,225	119	5.4
Other operating income	3,939	2,857	1,082	37.9
Other operating expenses	(1,893)	(1,709)	(184)	10.8
Establishment of allowance for impairment losses	(456)	(2,731)	2,275	(83.3)
Operating profit	3,934	642	3,292	512.8
Non-Operating Income (Expense) - Net	-	-	-	0.0
Income Before Tax Expenses	3,934	642	3,292	512.8
Financial Position				
Total Assets	302,704	310,426	(7,722)	(2.5)
Total Liabilities	58,732	61,554	(2,822)	(4.6)

* Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

Profit before tax expense in the Treasury and International segment amounted to Rp3.9 trillion, a significant increase of 512.8%, or Rp3.3 trillion compared to 2021. This was mainly due to an increase in interest income and net sharia income of 5.4%, and other operating income of 37.9% compared to 2021. The provision for impairment losses in this segment improved by Rp2.3 trillion compared to the previous year. Total assets and total liabilities in 2022 stood at Rp302.7 trillion and Rp58.7 trillion respectively.

Treasury and International Segment Prospects, Potential, and Strategies for the Year to Come

1. Strategic Plan for the Treasury Segment for 2023

The Treasury Division's mission is to maintain healthy liquidity conditions and create strong capital and provide maximum profit contribution by conducting a superior treasury business. With the potential for continued interest rate hikes by the United States Central Bank (The Fed) and Bank Indonesia and projected high volatility in the Rupiah exchange rate, the Treasury Division will manage liquidity risk and market risk to maintain the continuity of BNI's balance sheet growth and obtain a higher optimal profit through transactions with customers, and by playing an active role in the financial market and capital market through the following strategies:

a. Financial Strategy

- Manage rupiah and foreign currency liquidity so they are always in an efficient and profitable position.
- Optimizing excess liquidity on instruments that provide the best return (yield) while taking into account daily liquidity conditions and financial market conditions.
- Increasing the portfolio of securities and forex trading book with measurable risk, both through the Primary Market and the Secondary Market.
- Optimizing the management of banking book securities and NOP positions by taking into account liquidity needs, customer needs, existing ratios, as well as domestic and global financial market conditions.
- Optimizing the management of hedging products to support the improvement of hedging solution services to customers, improve the FBI, and support financial market deepening.

b. Non-Financial Strategy

- Increasing synergy with related business units including Corporate Banking, Institutional Banking, Syndication & Corporate Solution, International, and Regional/Branch to acquire top tier and diamond customers including through regional sales.
- Proactively providing education and offering hedging products to customers to help them choose the right hedging solution according to their business characteristics and risk appetite for FX and Bonds products (Bond Forward and Bond Option)
- Integrate Treasury products and services (BNI FX, Secondary Market Bond Transactions, Forex Transactions, Multi Currency Accounts, BNI DigiHedge, and BNI FX Mobile) to Digital Channels owned by BNI (BNI Direct and BNI Mobile Banking) to increase customer convenience for access and to perform Treasury product transactions.

2. International Segment Strategic Plans for 2023

2022 was a challenging year for the International segment. Even though the pandemic conditions have improved, geopolitical issues at the beginning of the year, the ban on the export of certain commodities and the increase in interest rates were some of the factors that mainly affected the performance of Trade Finance and Overseas Branch Offices. However, the strengthening of infrastructure and technology enhancement has succeeded in driving performance, especially in terms of digitizing services and products.

In 2023, the International segment will continue to focus on strengthening technology in order to provide integrated solutions for customers both domestically and overseas, from the Retail segment to global companies.

Some of the strategies planned for 2023 include:

- Standing in the cities of trade and economic centers of the world, Overseas Branch Offices have different advantages and characteristics. In 2023, Sharpening the KCLN business will continue in accordance with the strength of the relationship between Indonesia and the country where the KCLN is located. Business sharpening is also supported by strengthening infrastructure and digital capabilities in each KCLN;
- Improvement, addition and expansion of banking products and services for Indonesian Diaspora Abroad;
- Expansion of BNIDirect in KCLN as a platform to support transactional banking activities to meet the expectations of customer needs in all KCLN;
- The Remittance Business in 2023 will focus on increasing digital channel capacity with a faster, transparent and efficient service process, focusing on programs that have a massive impact on increasing transactions, collaborating with related units to work on certain segments, and growing the number of customer based customers;
- The Financial Institution business in 2023 will focus on being a comprehensive product and service provider (one stop shop solution) through collaboration with all existing networks to provide optimal solutions such as transactions, digital solutions, banking services, financing and investment banking in the client segment that covering regional and global business partners;
- The Trade Finance business will focus on expanding and penetrating the export market with the following initiatives:
 - Providing structured trade financing schemes to debtors and their value chains to meet more accurate financing needs

with a minimal level of risk, as well as to provide more competitive pricing;

- Building a Trade ecosystem between customers and their counterparts by directing transactions to be carried out in a closed-loop manner between BNI Branches;
 - Increasing the number of active customers who transact through BNI Trade Online (BTO) as BNI's flagship product in providing Digital-based Trade Finance services.
- g. The International Business Desk as an FDI Advisory Unit to become an entry point to reach business potential from FDI companies by optimizing cooperation with stakeholders related to trade and investment such as the Ministry of Investment, Coordinating Ministry for Maritime Affairs and Investment, KADIN, and business or entrepreneur associations.
- h. Custodian, Trustee and Trust services business strategies in 2023 will include:
- Acquisition and addition of new Custodian Bank customers.
 - Partnership with internal BNI (related business divisions and BNI branches) that has a customer base of pension funds, insurance and corporations (non-individuals).
 - Collaborating with Investment Managers for new products, such as ETFs, Index mutual funds, Multi Share Class, KIK-Dinfra.
 - Increasing cooperation with top 20 Investment Managers in Indonesia.
- i. Non-Bank Financial Institutions Service Strategies will include:
- Through Cash Loan and Non-Cash Loan Growth Financing products through new or additional expansions through the following types of customers:
 - Multi Finance Financing (KMK and KI)
 - Securities Company Financing - KMK
 - Insurance Financing - Commercial Line
 - Maximizing Intraday Facility Giving and Utilization

Provision of Intraday Facility to Securities Companies with the following approach:

 - Underlying diversification (Bonds and Shares)
 - Currency Diversification (IDR and USD)
 - Intraday with Customized Structure
 - Increasing Core Funding via Dynamic offering program and RDN
 - Making Insurance Companies the main customers of DPK;
 - Dynamic Placement Program in the form of offering a special rate based on Liquidity Condition - Treasury Division;
 - Offering RDN as a bundling with other products to Securities Companies.

What They Say

David Kosasih
Finance Director PT Barito Pacific

Thank you for the excellent cooperation so far with the BNI Treasury Team in providing excellent service and competitive prices. Hopefully this cooperation can be maintained for years to come. Success is always for BNI.

Jin Hyuk Yang
Executive Director Korindo Group

We, Korindo group has operated efficiently, supported by BNI treasury service which is target oriented and with active bankers to give excellent service in timely manner. BNI treasury team is one of the main business partners in my group and we Korindo is confident that BNI will have a high degree of success in upcoming years too.

Adrian Etyantyo
Senior Manager Cash Management
PT Garuda Indonesia

BNI's treasury services is satisfactory and is one of the best, both in terms of ease of transaction, flexibility provided, and also very competitive rates. Going forward, we will develop needs related to BNI's treasury, we hope that BNI can accommodate Garuda's various needs in the future.

Susilawati Nasution
Director & Chief Financial Officer
PT Medco Power Indonesia

Thank you for the treasury services provided to us. BNI's range of treasury products has provided solutions for us in managing market risk amidst conditions of high volatility in interest rates and exchange rates. Hopefully the cooperation that has been well established so far can be maintained. Success is always for BNI.

Jenny Lesmana
Executive Director
UOB Indonesia

UOB is truly honored for having mutual trust and longstanding relationship with BNI, across teams and products. Along with UOB Global FIG's focus in Asian markets and gateway cities, we preserve to maintain and further enhance the partnership with BNI across multiple markets. With the ongoing transformation, we wish BNI a continued success and great journey ahead!

HEAD OFFICE

The Head Office segment is a BNI Cost Center activity that cannot be classified into other segments.

Head Office segment Revenue and profitability is presented as follows:

Account	2022 (Rp-billion)	2021* (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Profit (Loss)				
Interest income and sharia income - Net	1,874	1,003	871	86.8

Income Before Tax Expenses	(310)	(1,560)	1,250	(80.1)
Financial Position				
Total Assets	-	-	-	-
Total Liabilities	2,378	-	2,378	-

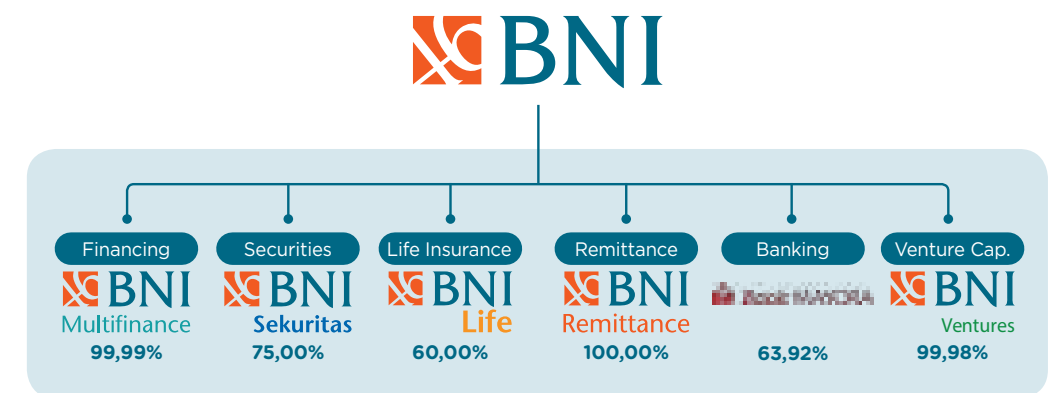

*) Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

SUBSIDIARIES

As one of the main banks in Indonesia, the role of BNI and its Subsidiaries, as members of the BNI Group, in the financial industry occupies a very strategic position. For this reason, BNI continues to increase the synergy between BNI and its Subsidiaries so that they can provide comprehensive financial services under one umbrella to customers.

Subsidiaries where BNI acts as the majority shareholder are PT BNI Life Insurance (60.00%), PT BNI Sekuritas (75.00%), PT BNI Multifinance (99.9%), BNI Remittance Ltd (100.0%), PT Bank Mayora (63.92%) and PT BNI Venture Capital (99.9%). While minority shareholdings include PT Bank Syariah Indonesia Tbk (23.24%), PT Pemeringkat Efek Indonesia (0.14%), PT Kustodian Sentral Efek Indonesia (1.0%), PT Bank Mizuho Indonesia (1.0 %), and PT Bank Tabungan Pensiunan Nasional Tbk (0.15%).

In 2022, BNI established PT BNI Venture Capital and acquired PT Bank Mayora. The establishment of PT BNI Modal Ventura ("BNI Ventures") aim is to be a venture capital solution for the BNI Group, focusing on digital innovation through collaboration with start-ups and exploring BNI's internal potential. The acquisition of PT Bank Mayora is aimed at creating a digital bank as a provider of digital-based integrated financial solutions, especially in the MSME segment.

The development of public and corporate needs for increasingly diverse financial services is a challenge for banks to provide integrated financial services. With the restrictions on banking services/products from the authorities, banks cannot fulfill all stakeholder needs for financial services, therefore it is necessary to involve Subsidiaries.

BNI Subsidiaries Profit Performance						
	2022* Total (Rp-billion)	2021 Total (Rp-billion)	Increase (Decrease) 2021-2022		2020 Total (Rp-billion)	2019 Total (Rp-billion)
			Nominal (Rp-billion)	Percentage (%)		
BNI Life (PSAK 71)	298	202	96	47.5	85.98	302.10
BNI Sekuritas	38	61	(23)	(37.7)	36.39	20.72
BNI Multifinance	(115)	17	(132)	(776.5)	6.25	19.37
BNI Remittance	0	3	(3)	(100.0)	3.98	0.77
Bank Mayora	89	-	-	-	-	-
BNI Ventures	4	-	-	-	-	-
Jumlah	314	283	31	11.0	132.60	342.96

*) Unaudited

In 2022, most of BNI's Subsidiaries posted a positive performance, with a total profit of Rp314 billion, an increase of 11.0% compared to 2021. The biggest profit growth was at BNI Life, in line with the growth in Investment and Premium income, although it was still overshadowed by rising costs. Claims related to the COVID-19 pandemic at the beginning of the year gradually decreased. Also, the total profits of BNI Subsidiaries was supported by the Acquisition of Bank Mayora and the formation of BNI Ventures which recorded profits of Rp89 billion and Rp4 billion. BNI Multifinance's performance decreased so that it recorded a loss of Rp115 billion due to the business transformation process and quality improvement. Likewise the performance of BNI Sekuritas and BNI Remittance saw a decline due to geopolitical conflict shocks and the COVID-19 Pandemic, which was still raging in early 2022.

PT BNI Life Insurance (“BNI Life”)

PT BNI Life Insurance (“BNI Life”) is a Subsidiary of BNI that runs a life insurance business including life insurance business with Sharia principles. BNI Life offers a variety of insurance products such as life, health, education, investment, pension and sharia insurance.

BNI Life was established based on Notarial Deed No. 24 dated November 28, 1996 in Jakarta, notarized by Laura Elisabeth Palilingan, SH., and ratified by Minister of Justice of the Republic of Indonesia Decree No. C2-1787 HT.01.01.Th97 dated March 14, 1997 and published in the State Gazette No. 74 Supplement No. 4121 dated September 16, 1997.

On November 26, 2004, the Company changed its name to PT BNI Life Insurance in accordance with the deed of the Minutes of the Extraordinary General Meeting of Shareholders of PT Asuransi Jiwa BNI Jiwasraya No. 10, made before Ruli Iskandar, SH, Notary in Jakarta, and ratified by Minister of Law and Rights Human Rights of the Republic of Indonesia Decree No. C-31600 HT.01.04. TH.2004 dated December 29, 2004. In order to

expand the market segment, in 2004 BNI Life formed a Sharia Unit.

As of December 31, 2022, the composition of BNI Life’s share ownership was 60.000000% owned by PT Bank Negara Indonesia (Persero) Tbk; 39.999993% owned by Sumitomo Life Insurance Company; 0.000003% owned by Yayasan Kesejahteraan Pegawai BNI (YKP BNI), and 0.000003% owned by Yayasan Danar Dana Swadharma (YDDS).

To achieve the company’s performance in 2022, the company adapted and prepared a strategic business plan for changes that might occur to obtain premium growth in 2022.

BNI Life established several main strategies, as follows:

1. Claim expense management and all channel business optimization as an effort to increase profitability.
2. Prepare product mix improvements.
3. Optimize the marketing strategy for BNI Life products.
4. Optimize stable and prudent investment income.

BNI Life’s performance can be seen below.

BNI Life Financial Performance				
Account	2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Financial Position				
Assets	23,322	22,815	507	2.2

Non Operational Expenses	106	88	18	20.5
Profit before tax	279	150	129	86.0
Tax	19	52	(33)	(63.5)
Net Profit	298	202	96	47.5

Note: BNI Life’s Financial Statements using the PSAK 71 version

In 2022, BNI Life Insurance posted a net profit after tax of Rp298 billion, an increase of 47.5% from Rp202 billion in 2021. The increase in profit was in line with the increase in Revenue in 2022 of 5.7% that was greater than the increase in costs of 3.6%. The highest growth was in Net Premium Income with 6.2%, which was supported by the increase in GWP from Bancassurance. BNI Life also managed to make OPEX efficiency exclude acquisition costs, which only decreased by 2.5%. BNI Life’s assets stood at Rp23,3 billion, an increase of 2.2% from Rp22,8 billion in 2021.

BNI Life Financial Ratio Performance			
	2022 (%)	2021 (%)	Difference (%)
Return On Asset (ROA)	1.3	0.9	0.4
Return On Equity (ROE)	5.0	3.4	1.6
Operating Expenses to Operating Income (BOPO)	94.0	96.1	(2.1)
Investment Return	6.1	6.2	(0.1)
Risk Based Capital (RBC)	666.2	717.3	(51.1)

BNI Life’s ROA and ROE in 2022 were 1.3% (0.9% in 2021) and 5.0% (3.4% in 2021), an increase in line with profit growth. BOPO decreased to 94.0% from 96.1% in 2021 due to increased performance and efficiency of business costs. BNI Life’s RBC in 2022 was 666.2%, a decrease from 717.3% in 2021 in line with business growth.

In recognition of its performance achievement, BNI Life again received various awards in 2022 including the following:

PT BNI Sekuritas (“BNI Sekuritas”)

PT BNI Sekuritas (“BNI Sekuritas”) is a BNI Subsidiary that runs a business that includes securities trading, including acting as a securities broker, underwriter, and other activities related to these activities with due observance of the regulations of the Capital Market Supervisory Agency and Financial Institutions (BAPEPAM-LK) and other applicable laws and regulations.

To achieve the Company’s performance in 2022, BNI Sekuritas instiagtged the following main strategies:

1. Increased the customer base and business volume through a synergy of opening RDN for mass & upper-mass customers, one of which was through opening RDN via BNI Mobile Banking.
2. Increased synergy with BNI corporate banking to provide advisory and IPO services to BNI customers.
3. Continuously improved the quality of technology infrastructure and the use of digital technology through collaboration with BNI.

BNI Sekuritas’ performance can be seen below.

PT BNI Multifinance ("BNI Multifinance")

PT BNI Multifinance ("BNI Multifinance") is a Subsidiary of BNI that was established on April 8, 1983 based on Notary Deed No 21 before Kartini Muljadi, S.H., and the Company's Articles of Association were ratified by the Minister of Justice in Decree No. C2-4406-HT.01.01.Th.8 dated June 11, 1983 and announced in the State Gazette of the Republic of Indonesia No. 48 dated June 17, 1983, supplement no. 610. The name of the Company has been changed several times, most recently to PT BNI Multifinance, this decision notarized in Deed No. 103 dated June 27, 1994 before Notary Koesbiono, S.H., and announced in the State Gazette of the Republic of Indonesia No. 5 dated January 17, 1997, Supplement No. 216.

In accordance with article 3 of the Company's Articles of Association, the scope of the company's activities is to carry out activities in the field of Investment Financing, Working Capital Financing, Multipurpose Financing and Operating Leases. The company's current focus is on Multipurpose Financing or the Consumer Segment, with its superior products being regular (new) Four-Wheeled Vehicle Financing, or through the COP (Car Ownership Program) program, and (new) Two-Wheeled Vehicle Financing, or through the MOP (Motorcycle Ownership Program).

When preparing for business competition in 2022, BNI Multifinance developed comprehensive business strategies as follows:

1. Acceleration of new bookings for the consumer segment in an effort to offset the decline in the commercial segment's financing portfolio, and to optimize interest income;
2. Strengthen BNIMF funding from the BNI Group through lowering interest rates, and adding new loan facilities with competitive rates and maximum ceilings;
3. Increase in sales of withdrawal/recovery assets.

BNI Multifinance's performance can be seen below.

BNI Multifinance Financial Performance				
Account	2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)	
Financial Position			Nominal (Rp-billion)	Percentage (%)

Tax	-	(8)	8	(100.0)
Net Profit After Tax	(115)	17	(132)	(776.5)

As of December 2022, BNI Multifinance recorded a loss of Rp115 billion, a decrease of 776.5% from Rp17 billion in 2021 due to a business transformation process and to improve quality. Assets stood at Rp1,029 billion, a decrease of 16.6% from Rp1,233 billion in 2021. The decrease in assets was due to BNI Multifinance shifting its business strategy with a focus on financing the consumer segment, especially for synergies with the BNI Group, with selected low risk customers to maintain a healthy portfolio.

BNI Multifinance Financial Ratio Performance

	2022	2021	Selisih
Non Performing Loan (NPL) (%)	3.4	3.6	(0.2)
Return On Asset (ROA) (%)	(9.1)	1.6	(10.7)
Return On Equity (ROE) (%)	(44.7)	5.6	(50.3)
Operating Expenses to Operating Income (BOPO)	170.9	87.4	83.5
Debt Equity Ratio (DER) (times)	5.7	3.6	2.1

BNI Multifinance's ROA and ROE in 2022 stood at -9.1% (1.6% in 2021) and -44.7% (5.6% in 2021), with each decreasing in line with the decrease in net profit. BOPO of 170.9% (in 2021 of 87.4%) increased due to an increase in reserves and operational expenses related to transformation efforts. The NPL ratio in 2022 was 3.4%, a decrease from 3.6% in 2021. DER in 2022 was 5.7, an increase from 3.6 in 2021 in line with the decrease in equity.

In recognition of its performance achievement, BNI Multifinance again received various awards in 2022 including the following:

BNI Remittance Limited ("BNI Remittance")

BNI Remittance Ltd. ("BNI Remittance") is a Subsidiary of BNI engaged in remittances. BNI Remittance cooperates with BNI in the financial inclusion program, providing financial access through the widest possible range of digital services for Indonesian Migrant Workers (PMI) in Hong Kong. In addition to the remittance business, BNI Remittance in Hong Kong has a strategic role as a representative of BNI's retail services in Hong Kong where BNI customers in Hong Kong can use BNI services as easily as in Indonesia. Various BNI digital services can now be accessed easily in Hong Kong, such as the BNI Mobile Banking service which is currently a favorite of BNI customers in Hong Kong for conducting financial transactions and also for opening a BNI Taplus account digitally either through the Digital Opening Account (DOA) application or via eForms. BNI Remittance is also actively involved in several activities with PMI such as capacity building, financial literacy, visits to PMI communities in Hong Kong, etc.

To achieve company performance in 2022, BNI Remittance developed the following key strategies:

1. Explored other business potential by optimizing synergies with the BNI Group.
2. Maximized remittance transactions by counterparties.
3. Started developing digital remittance capabilities.

BNI Remittance's performance can be seen below.

BNI Remittance Financial Performance

	2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Financial Position

Expenses	11	12	(1)	(8.3)
Operational Expenses	11	12	(1)	(8.3)
Earning Before Tax	0,01	3	(3,0)	(99.7)
Tax*	-	-	-	-
Earning After Tax	0,01	3	(3,0)	(99.7)

*) There is no tax liability for BNI Remittance due to the negative accumulated profit balance in the equity component

In 2022, BNI Remittance recorded a profit of Rp0.01 billion, a decrease of 99.7% from Rp3 billion in 2021. This decrease was due to a decrease in the exchange gain in 2022 of Rp0.8 billion from Rp1.2 billion in 2021, due to a fall in the HKD exchange rate to Rp. BNI Remittance's main business decreased compared to the previous year due to shifting customer behavior in line with digital developments, as many customers have started to switch to BNI Mobile Banking. The total assets of BNI Remittance in 2022 stood at Rp18.2 billion, a decrease of 10.0% from Rp20.1 billion in 2021.

BNI Remittance Financial Ratio Performance

	2022	2021	Selisih
Return On Asset (ROA) (%)	0.04	15.49	(15.45)
Return On Equity (ROE) (%)	0.07	29.36	(29.29)
Operating Expenses to Operating Income (BOPO) (%)	99.93	78.69	21.24
Debt Equity Ratio (DER) (times)	0.57	0.89	(0.32)

BNI Remittance ROA and ROE in 2022 stood at 0.04% (15.49% in 2021) and 0.07% (29.36% in 2021), respectively decreasing in line with the decrease in profit and increase in equity from retained earnings. BOPO increased to 99.93% in 2022 from 78.69% in 2021.

PT Bank Mayora (“Bank Mayora”)

PT Bank Mayora (“Bank Mayora”) officially became a BNI Subsidiary following the takeover of the majority shares by BNI on May 18, 2022. Also, Bank Mayora will be transformed into a Digital Bank with a vision to become the “Leading Digital-First SME Bank in Indonesia”. Bank Mayora’s transformation process will continue by building a stronger foundation for growth in various aspects including loans, services, information technology, human capital, risk management and infrastructure.

The development of the financial performance aspects has been continuously carried out since Bank Mayora joined the BNI Group. Improvement initiatives were carried out by prioritizing the synergy between the BNI Group and Bank Mayora to provide added value and cost efficiency as a group. Bank Mayora has played an active role in supporting the MSME segment through a variety of savings and loan products.

To achieve company performance in 2022, Bank Mayora developed key strategy by optimizing the BNI Induk ecosystem with the following details:

1. Synergy program in the management of the Bank’s financing portfolio
2. Synergy program by utilizing the BNI Main network
3. Partnership program with fintech to expand MSME market penetration Bank Mayora’s performance can be seen below.

Bank Mayora’s performance can be seen below.

PT BNI Modal Ventura (“BNI Modal Ventura”)

PT BNI Modal Ventura (“BNI Ventures” or “BNV”) is a subsidiary of PT Bank Negara Indonesia (Persero), Tbk (“BNI”) and was established on April 12, 2022 based on the Deed of Establishment No. 17 dated April 12, 2022, before Ariani L. Rachim, SH, Notary in Jakarta. BNV received its first capital investment of Rp500.1 billion (five hundred billion one hundred million rupiah) on May 12, 2022. BNV is a subsidiary of BNI engaged in the venture capital industry. Currently the permit to carry out venture capital business activities is still awaiting approval from OJK as the regulator.

Profitabilitas Segmen Entitas Anak

Subsidiary segment revenue and profitability are presented as follows:

Account	2022 (Rp-billion)	2021* (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)
Profit (Loss)				
Interest income and sharia income - Net	412	371	41	11.1
Premium income - Net	1,552	1,399	153	10.9
Other operating expenses	729	594	135	22.8
Other operating expenses	(2,143)	(1,910)	(233)	12.2
Establishment of allowance for impairment losses	(111)	(51)	(60)	117.6
Operating profit	440	404	36	8.9
Non-Operating Income (Expense) - Net	(103)	(98)	(5)	5.1
Income Before Tax Expenses	337	306	31	1.6
Financial Position				
Total Assets	38,120	25,686	12,434	48.4
Total Liabilities	25,954	18,228	7,726	42.4

*) Restated 2021 data based on business segmentation according to the Audited Consolidated Financial Statements December 31, 2022, the table above is taken from the Audited Consolidated Financial Statements Note No. 47 (Segment Information), and is presented with several adjustments including adjustments to debtor segmentation and business regrouping to maximize BNI's customer-focused business.

Net interest income of subsidiaries in 2022 increased by 11.1%, due to the addition of Bank Mayora, which was recently acquired in May 2022. Net premium income increased by 10.9%, while other operating income increased by 22.7% due to by a decrease in Brokerage Income. Profit before tax increased 1.6%, several BNI entities recorded positive profit before tax performance, and increases from the previous year with growth in Insurance and Bank entities, while securities, financing and Remittance entities experienced a decrease.

Subsidiary Segment Strategies, Prospects, Potential, for the Next Year

The subsidiary segment's growth prospects in 2023, will follow the improvement in people's purchasing power along with economic growth, capital market growth and insurance growth with increasing awareness of the importance of insurance products. To capture the business prospects, the subsidiary segment strategies are:

- Improving and strengthening the Subsidiary's business synergy with BNI;
- Digitalization & Business Refocusing of subsidiary entities;
- Increasing the customer base and business volume of subsidiaries.

1. BNI Life

In the coming year, BNI Life will adapt and prepare a strategic business plan for changes that may occur in order to obtain premium growth in 2023. BNI Life defines several main strategies, as follows:

- Maintaining regular premiums and profitable products.
The increase in the Company's premium income every year is seen as positive as it can create a sustainable business. In 2023, the company is optimistic it can increase regular premium income, which is its core business by focusing on selling profitable products.
- Improving business models, product mix, and persistence.
The Company is actively developing digital business models and increasing market penetration, especially penetration of BNI customers who have great potential for business growth. In addition to the business model, the Company is also active in improving its product mix in order to sell more profitable products and increase persistence.
- Optimizing investment income and risk management.
The Company always maintains the allocation of investment assets as an effort to increase Company profits. To anticipate fluctuating market conditons, BNI Life has prepared an investment strategy to place assets that can provide a good rate of return on investment and increase profitability.

In addition to these strategies, the Company will also focus on developing digital-based business processes and making improvements in operational areas to achieve the set GWP targets and investment returns, in order to make it easier for the public to obtain insurance protection.

2. BNI Sekuritas

Business growth in securities trading in 2022 experienced market uncertainty, and it is projected that in 2023 it will still experience the same, therefore it will be necessary to apply efficiency policies.

In addition, competition in the securities brokerage business is getting tighter, but is still under good supervision and regulation by regulators. Innovations in online stock trading business competition are also intensifying by offering a one-stop application for investing in stocks, mutual funds and bonds. Providing services such as delivery of the latest research reports, market update services by capital market analysts and corporate access services are areas being considered by institutional investors in choosing securities, in line with the intense competition.

Facing this business situation for 2023, BNI Sekuritas has developed the following main strategies:

- Increase customer base and transaction volume through referral programs, joint marketing and reciprocal transactions with the BNI Group.
- Cooperate with the BNI Group to offer services to BNI Group customers who need financial services from BNI Sekuritas.
- Strengthen business and increase the variety of business services through strategic partnership programs within the BNI Group.
- Strengthen funding and capital to increase productivity and business capacity.
- Increase the role of BSPL in reaching global investors through BSPL promotion to BNI corporate customers as a global bond issuance solution.
- Integrate BNI Sekuritas mobile banking with BNI Mobile Banking, as well as technology development developed by BNI (eg face recognition).
- Adopt the BNI IT security and data protection standards for implementation benchmarks at BNI Sekuritas

3. BNI Multifinance

The shocks from the geopolitical conflicts in 2022 had an impact on the world economy causing great disruption in global supply chains. Even though economic conditions are still unstable, the Association of Indonesian Financing Companies (APPI) is optimistic that the financing business after the pressure of the COVID-19 pandemic is targeted to grow 5-6% in 2023.

When preparing for business competition in 2023, BNI Multifinance has developed comprehensive business strategies as follows:

- Strengthen the Company's Financial Structure
- Grow the Consumer Business
- Managet Strong Collections
- Improve Business Processes
- Optimize Information Technology

4. BNI Remittance

In 2023, BNI Remittance will focus on developing a digitalization strategy whereby BNI Remittance will expand its digital services by cooperating with local fintech to provide mobile remittance services. Current developments in digital technology have changed customer transaction patterns where convenience and flexibility in conducting transactions is currently a priority.

5. Bank Mayora

In 2023, Bank Mayora will begin to transform into a digital bank with a target focus on the Micro, Small and Medium Enterprises (MSMEs) segment. In this regard, the Bank's policies in the short and medium term will prioritize Digital Transformation efforts.

In 2023, Bank Mayora will develop general strategies as follows:

- Complete Digital Transformation Phase I
- Start Digital Transformation Stage 2
- Expand New Business Stream
- Partner with Tech Partners
- Optimize Business to support the Digital Bank embryo by synergizing and collaborating with the BNI Group
- Rebrand to build a new image to become a Digital Bank
- Develop Partnerships with Other Ecosystems that support the MSME business

6. BNI Ventures

In 2023, BNI Ventures has prepared a work plan to invest in digital-based startups through equity participation schemes, quasi-equity participation, and other forms of funding schemes, both directly and through venture fund management, with reference to POJK provisions for Venture Capital Companies. In addition to investment activities, BNI Ventures also plans to carry out fee-based service activities. These work plans are a form of company support to develop technological innovation in the BNI Group, and strengthen a healthy ecosystem in the venture capital and start-up industry.

What They Say

Arwin Rasyid BNI Sekuritas Customer

I have been a customer of BNI Sekuritas since 2016. I received many benefits, especially in terms of the customer relationship service that I received from BNI Sekuritas. This shows that BNI Sekuritas is a financial institution that is experienced and understands what customers need.

Good communication, complete information, as well as the financial advice provided made me feel that I was not wrong in choosing a partner in financial services, especially securities institutions as supporting companies in the capital market.

Congratulations and success for BNI Sekuritas.

Anhari Fityanto General Manager General Service Telkomsel - BNI Multifinance Customer

We have been working with BNI Multifinance for about 1 year, and have received excellent service satisfaction. Many challenges and new events have passed while working together, all of which were positive lessons. Of course, the solutions offered were also very helpful in serving our employees.

We hope that this collaboration can continue, be developed, and provide added value. Not only in the scope of vehicle rental, but also in the field of financial services for Telkomsel employees.

Continued success for BNI Multifinance.

Mahjudin President Director of PT MNC Finance - BNI Multifinance Customer

We are very proud and grateful to be working with BNI Multifinance so far, with their very professional, and friendly Board of Directors, very informative and fast service, interest rates that are also quite competitive. We wish you continued success in the coming years.

Continued success for BNI Multifinance.

Chika Yunindra Entrepreneur, BNI Life customer

I have been a BNI Life customer for almost 5 years since 2017.

After starting a family and having children, I felt the need for financial planning for myself and my family.

After talking to my colleague, I was recommended to come to the BNI branch office and was directed to meet with a BNI Life Bancassurance Specialist.

After meeting and receiving detailed product explanations, I understood what products I needed, and in the end I chose the HY-end Pro product from BNI Life, this product is perfect for what I need for the future for me and my family.

Thank you BNI Life #EazylifeBNILife

Prof. Dr. H. Moh. Isom, MA
Director of Curriculum, Facilities, Institutions, and
Madrasah Student Affairs Ministry of Religion - BNI
Life Customer

I am Prof. Dr. H. Moh. Isom, M.A., and on this occasion I would like to share my experience in choosing a Life Insurance Product

Old age and the future of the family must be prepared. So far, I have always tried to provide the best for my family.

We never know what risks will occur in the future and must always be ready to ensure that the family I love receives financial security to survive.

After studying many life insurance products, I chose a unit-linked life insurance product from BNI Life, called Blife Plan Multiprotection as this product has 2 benefits at once, namely life protection and investment in one policy.

Thank you BNI Life #EazylifeBNILife

Nurwenda
(Head of Chancery (HoC) Consulate General of
the Republic of Indonesia (KJRI) Hong Kong - BNI
Remittance Customer)

Thank you to BNI Remittance Ltd. Hong Kong for the excellent performance and service that is fast, friendly and tireless in serving customers, especially the Indonesian Consulate General and Indonesian Migrant Workers in Hong Kong.

Hendriawan
Owner of Sinar Mandiri Aluminum -Bank Mayora
customer

I felt the many benefits provided by ClickMayora and Mayora Mobile Banking that were easy to use.

GEOGRAPHICAL SEGMENT

As well as presenting operating segments based on main customer groups and products, BNI's Audited Financial Report also provides geographic segment information that can provide an overview of BNI's business distribution. BNI's geographical segment is divided into Indonesia, the United States, Europe, and Asia.

To provide an overview of the distribution of business from geographical segments, the following shows the contribution per region to BNI's interest income and total assets.

Bank Interest Income and Sharia-Net Income Composition per Geographical Segment						
Segment	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Indonesia	39,682	96.0	36,381	95.1	3,301	9.1
United States of America	438	1.1	325	0.8	113	34.8
Europe	320	0.7	425	1.1	(105)	(24.7)
Asia	973	2.4	1,133	3.0	(160)	(14.1)
Adjustment and Elimination	(92)	(0.2)	(17)	(0.0)	(75)	441.2
Total Interest Income and Sharia-Net Income	41,321	100.0	38,247	100.0	3,074	8.0

Bank Assets Composition per Region						
Segment	2022		2021		Increase (Decrease)	
	Total (Rp-billion)	Composition (%)	Total (Rp-billion)	Composition (%)	Nominal (Rp-billion)	Percentage (%)
Indonesia	937,500	91.1	882,365	91.5	55,135	6.2
United States of America	22,953	2.2	17,121	1.8	5,382	34.1
Europe	16,341	1.6	16,063	1.7	278	1.7
Asia	58,883	5.7	55,659	5.8	3,224	5.8
Adjustment and Elimination	(5,840)	(0.6)	(6,370)	(0.7)	530	(8.3)
Total Assets	1,029,837	100.0	964,838	100.0	64,999	6.7

From the above tables and graphics, it can be seen that in 2022 the Indonesian region made a major contribution to the Bank’s interest and sharia net income, and also to the Bank’s total assets. The contribution of all regions to the Bank’s interest income and sharia net income in 2022 was Rp41 trillion, an increase of 8.0% compared to Rp38 trillion in 2021. Meanwhile, the contribution of all regions to the Bank’s assets in 2022 was Rp1,030 trillion, an increase of 6.7% compared Rp965 trillion in 2021.

The following shows the financial performance by geographical segments for 2021-2022.

Geographical Segment Profitability																	
Account	Indonesia				United States of America					Eropa				Asia			
	2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)		2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)			2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)		2022 (Rp-billion)	2021 (Rp-billion)	Increase (Decrease)	
			Nominal (Rp-billion)	Percentage (%)			Nominal (Rp-miliar)	Percentage (%)				Nominal (Rp-billion)	Percentage (%)			Nominal (Rp-billion)	Percentage (%)
Profit (Loss)																	
Interest income and sharia income - Net	39,682	36,381	3,301	9.1	438	325	113	34.5		320	425	(105)	(24.7)	974	1,133	(159)	(14.0)

Financial Statements

The financial industry disruption by digital technology is something that cannot be avoided. For example, BNI digital channel transactions for consumer and corporations have increased successively from 2020 to 2022. Of course, this shows that there has been a change in consumer behavior in the financial industry, including in BNI.

Due to these changes and challenges, BNI develops digital banking on an ongoing basis through quality digital products, and is able to provide added value for customers from BNI business segments. The increasing use of BNI's digital banking products has seen an increase in BNI's sustainable income and third party funds. In addition, digitizing business processes to simplify business processes and opening up new business potentials will increase efficiency at BNI.

BNI's development of digital services was also carried out to respond to regulatory policies in the Bank Indonesia vision of the Indonesia 2025 payment system, which encourages banks to transform to a digital end to end, especially through development of open banking, data openness, Retail payment system improvement, as well as interlinks between banks and digital financial services.

To support customer convenience in carrying out banking transaction activities, BNI has flagship products called BNI Mobile Banking for retail customers and BNIDirect for corporate customers. Both of these flagship products have won national and international awards. BNI Mobile Banking and BNI Direct have customer-centric features that have been adjusted to customer needs for their daily activities. These digital products are supported by qualified IT capabilities, advanced data analytics and Open APIs connected to third-party services.

Digital Banking Products and Services for Consumer

1. ATM

This banking service channel is ready to facilitate customers 24 hours a day to conduct checking balances, transfers, payment and purchases (Cash Recycle Machine). BNI currently has 16,125 ATM machines as of December 31, 2022 spread throughout Indonesia, connected to ATM Link, ATM Bersama, ATM Prima, ATM Alto networks, and international networks such as Mastercard, Visa, JCB, APN, Union Pay and Cirrus.

ATM Performance				
	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Total Transactions (million)	1,374,1	1,532,5	(158,4)	(10,3)
Transaction Volume (Rp-million)	675.848,8	734.447,3	(58.598,5)	(7,8)

ATM transactions are predominately interbank transfer transactions, cash withdrawals and bill payments. The decline in the number and volume of ATM transaction values in 2022 was due to changes in customer behavior as they shifted ATM transactions to digital transactions. At BNI, this decline was seen in the increase in BNI Mobile Banking transactions.

Currently, the development of ATM channel focuses on the development of joint partnerships with third parties such as e-commerce partners and BPDs in Indonesia that provide cash withdrawal banking services without cards, and other services. The ATM channel development is also focused on the CRM (Cash Recycle Machine) channel development, where customers can make cash withdrawal deposit transactions without the need to go to the branch. In the long run, the use of CRM channels makes it easy for customers to transition from cash transactions to digital, so as to create cashless society supported by the BNI digital banking products.

2. SMS Banking

BNI SMS Banking is a banking service facility that can be used by customers to transact, pay and purchase, which can be accessed through the BNI SMS Banking application (for Android & iOS -based smartphone users), SMS syntax and USSD access *141#. SMS banking services provide banking transaction inclusiveness and convenience for BNI customers who want to make financial transactions, but are in areas that have low internet connectivity.

SMS Banking Performance

	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Users (millions)	12,6	12,3	0,3	2,8
Number of Transactions (million)	697,8	704,1	(6,3)	(0,9)
Transaction Volume (Rp-billion)	27.150,5	28.530,5	(1.380,0)	(4,8)

SMS Banking transactions are dominated by transfer transactions between banks, Telcos (Postpaid and Prepaid) and Utilities (PLN, PDAM). There was a decrease in the number and volume of transaction values in 2022, compared to 2021, due to the transition from SMS transactions to fully digital-based transactions, namely BNI Mobile Banking. These statistics show that user conversion to BNI Mobile Banking has occurred successfully, where customers can enjoy a wider variety of services and features on the BNI Mobile Banking digital channel.

3. Internet Banking

As well as from smartphones, BNI's digital banking services are also available for PC/Laptop users. Through BNI Internet Banking, customers can enjoy banking service channels that can be accessed via a web browser with the BNI Internet Banking URL. Not only transactional services, BNI Internet Banking also has a reliable feature in the form of Personal Financial Management that allows customers to make financial plans according to their needs, complete with automatic deposit scheduling, and can be used to monitor cash flow and trends in spending/incoming funds in graphical form. BNI Internet Banking is also equipped with security standards that use two types of financial transaction authorization tools, namely BNI e-Secure and BNI m-Secure based on customer needs when conducting business transactions.

4. BNI Mobile Banking

BNI Mobile Banking is a BNI digital banking application that provides convenience to individual customers in making transfers, investments, bill payment transactions in one application. Currently, BNI Mobile Banking is available on IOS and Android devices and can be activated and used for overseas transactions. With a rating of 4.6 on Google Play and 4.7 on the App Store, BNI Mobile Banking has proven successful in providing easy transactions wherever and whenever. This transactional capability, in the end, promotes inclusive and sustainable banking, especially for customers who are in rural areas and overseas.

Mobile Banking Performance

	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Users (millions)	13,6	10,8	2,8	26,1
Number of Transactions (million)	597,0	433,8	163,2	37,6
Transaction Volume (Rp-billion)	802.274,8	615.046,4	187.228,4	30,4

BNI Mobile Banking is BNI's flagship product that makes it easy for users to make transactions anywhere and anytime. They include several superior features for BNI customers, namely inter-bank transfers, telco and Utilities purchases/payments. This significant increase occurred because BNI's Mobile Banking products have value-added features, such as digital account opening, fast payments with QRIS Payment, cardless cash withdrawals both at ATMs and BNI partners such as Alfamart and Indomaret, investments, Foreign currency exchange, International Transfers, Lifestyle features such as buying airplane tickets and ordering taxis, all of which provide convenience, speed and convenience in customer transactions.

Looking forward, BNI Mobile Banking will continue to innovate to be even better, especially for providing services to customers based on their persona. The variety of services tailored to the persona will assist in fulfilling the customer's daily banking activities and transactions.

5. BNI Agen46

BNI Agen46 is a BNI partner providing banking services to the public in the context of financial inclusion. As well as being a BNI partner providing banking services, BNI Agen46 is also a partner in government programs, such as distributing social assistance and subsidies for beneficiary families.

Through BNI Agen46, banking transactions have become easier, faster and closer to the surrounding communities, especially in rural areas that are not yet reached by banking services. With the number of agents increasing every year, BNI Agen46 acts as an extension of the BNI channel, and works on the business potential of the surrounding communities, such as the potential for TPFs through Pandai Savings, and banking transactions such as payments and purchases, which can all be used as potential referral transactions for People's Business Loans distribution.

BNI Agen46 Performance

	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Number of BNI Agen46 (agents)	164.979	157.632	7.347	4,7
Transaction Volume (million)	83,0	146,4	(63,4)	(43,3)
Transaction Nominal (Rp-billion)	73,8	92,3	(18,5)	(20,0)
Number of Pandai Accounts (million)	20,0	19,8	0,2	1,2
BNI Pandai (Rp-billion)	920	1.387	(467)	(33,6)
BNI Agen46 (Rp-trillion)	2,7	3,5	(0,8)	(23,6)

BNI Agen46 has succeeded in providing inclusive digital finance to customers in remote areas. In 2022, there was an increase of 5% in the number of registered BNI Agent46, reaching a total of 164.97 thousand agents. With this increase, BNI continues to fulfill its commitment to provide digital financial services that are open to all customers, with channels available in many regions. There are excellent BNI Agen46 features, such as deposit - cash withdrawal, bill payments and top - up e-wallets. Looking forward, BNI plans to provide other value-added services, such as top-up game vouchers and entertainment vouchers.

6. TapCash

To build an all - in - one digital financial ecosystem, BNI believes that digital banking services cannot only be carried out through Smartphone or computer channels, but must also be conducted directly to provide a digital cash transaction experience. This BNI strategy is for a chip-based electronic money product called TapCash. TapCash is a substitute for cash that can be used at acceptance points through merchant cooperation with BNI, as well as for transportation, parking and toll roads. TapCash users are also spoiled with the TapCash Go application and the TapCash feature in BNI Mobile Banking that makes it easy to check balances and top up TapCash cards.

Looking forward, TapCash's top up capability will be further enhanced to provide convenience for customers for topping up balances through available channels. To expand this capability, BNI continues to increase cooperation with retail partners (such as minimarkets), e-commerce and fintech. This top up capability expansion is also carried out with the expansion in the number of BNI Agen46, so that customers in rural areas can top up their TapCash balances easily.

TapCash Performance

	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Number of Transactions (million)	56,7	38,0	18,7	49,3
Transaction Volume (Rp-billion)	1.530,5	1.033,6	496.9	48,1

In 2022, TapCash cards had reached more than 9 million. This increase was due to Go-To-Market strategies for TapCash products, such as BNI's TapCash collaboration with Regional Banks (BPD), and due to communities with strong engagement. BNI has also succeeded in integrating the BNI TapCash product with other new ecosystems, such as the eSports and Metaverse ecosystems, which have the potential to increase customer satisfaction and brand loyalty.

7. BNI Debit Online

BNI Debit Online (BDO) is a payment method for online transactions using a Virtual Card Number (VCN) that can be requested through BNI Mobile Banking to provide convenience for customers making transactions. The Virtual Card Number also improves customer account security by preventing the customer's original debit card number from being known by third parties.

8. SMS Notification

This is an information service for customer banking transactions delivered via SMS to the mobile number registered for the customer for notification of debit/credit transactions made by customers, especially BNI Taplus/BNI Giro Rupiah Individual account holders. Through SMS Notifications, customers will be informed about all financial transactions that occur in their accounts to prevent potential unauthorized transactions.

9. iPay

BNI iPay is a product derivative from BNI Internet Banking that makes it easy for BNI Internet Banking users to complete online shopping transactions in one transaction flow. After selecting goods or services on the e-commerce site, the User will be directed to the BNI iPay site to make payments immediately using the user id, password, and secure code generated by e-secure or m-secure BNI Internet Banking.

10. Smartpay

BNI Smartpay is a product derivative from BNI SMS Banking that provides convenience (seamless transaction) for BNI SMS Banking user customers when conducting their online shopping transactions in one transaction flow. After selecting goods or services on the e-commerce site, the customer then only needs to input the challenge pin from incoming SMS 3346.

11. BNI Merchant Business

To support the digitization of financial transactions at merchants in Indonesia, as well as to increase overall retail economic activity, BNI has Merchant Business services consisting of Electronic Data Capture (EDC) transactions, Quick Response Code Indonesian Standard (QRIS) and Online Merchant transactions. One of BNI's strategies to develop the Merchant business is rapid acquisition of merchants that are currently popular in various cities in Indonesia. EDC and QRIS services will be offered simultaneously, based on the conditions of each merchant so that BNI can absorb all of the existing business potential to the maximum. A similar strategy was also implemented with online merchants, where payment services through BNI were included on eCommerce sites and other sites.

The BNI EDC network is a network that serves payment transactions using card-based payment instruments (credit, debit and prepaid cards) and QRIS. The BNI EDC merchant network has wide acceptance, and is a collaboration between BNI as the acquirer bank and global principals such as VISA, MasterCard, JCB, Chin, American Express and local principals.

QRIS is also a payment service using Bank Indonesia's National QR code standard. Through QRIS, BNI Merchants can receive payments from the BNI Digital Application and other Banks and e-Wallets, at relatively affordable costs. There are 3 QRIS payment models used at BNI, namely Static Merchant Presented Mode (MPM), Dynamic Merchant Presented Mode (MPM) and Customer Presented Mode (CPM). BNI adapts the use of these QRIS payment models to the type of merchant, where static MPM will be used for MSME merchants, dynamic MPM for medium and large merchants and CPM for merchants with high transaction needs such as modern retail.

BNI Merchant provides an H+0 settlement facility making it easy for these merchants to help receive money from their sales on the same day to maintain a stable cash circulation level.

Online Acquiring is a service specifically for online payments. Through online acquiring, customers can make payments for bills (such as telco and electricity bills) using BNI digital channels and can make payments at online merchants (such as eCommerce). BNI collaborates with other parties, such as International Online Merchants and BPD to expand its payment capabilities, so that customers can transact easily using BNI's digital channels both locally and internationally.

Merchant Business Performance				
	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Number of Transactions (million)	97,8	78,9	18,9	24,0
Transaction Volume (Rp-billion)	82.859,2	69.489,7	13.369,5	19,2

BNI's merchant business experienced a significant increase in value and number of transactions in 2022, after successful acquisitions of leading merchants. Looking forward, BNI's Merchant Business will continue to improve to reach a variety of quality merchants who are in demand by customers. The bundling and cross selling of BNI Merchant services to corporate and MSME customers will also be constantly improved to ensure closed-loop transactions can occur at BNI. From a technical perspective, BNI Merchant products (EDC, QRIS and Online Acquiring) are also constantly being improved through the development of EDC Android and increased technical support for merchants.

12. BNI Credit Card Mobile and My Credit Card in Mobile Banking

BNI's credit card service is application-based so it helps cardholders receive their transaction information via smartphone. BNI Credit Card Mobile and My Credit Card in Mobile Banking are equipped with features such as billing information, recorded transactions, installment conversions, bill payments and insurance registration, cash withdrawals, as well as credit limit increase request services and data updates. BNI Credit Card Mobile and My Credit Card in Mobile Banking also provide information on BNI Credit Card promos and products.

13. Contactless Credit Cards

The BNI Credit Card works with the Principle where the cardholder simply taps the BNI Credit Card onto an EDC machine with the contactless logo. This feature provides more benefits to cardholders where transactions become more practical and secure.

14. Digital Acquisition

Credit card application facilities or channels using the mobile web can be accessed anytime and anywhere using a smartphone via the applycreditcard.bni.co.id link. This Digital Acquisition provides advantages such as:

- The prospective cardholder's data is directly stored in the system thereby minimizing the risk of data leakage.
- Credit card applications can be made digitally via a smartphone without the need to meet with sales or come to a branch
- Faster processing of credit card applications and decisions.

15. BNI Credit Card Virtual Card Number

The BNI Credit Card feature is used as an alternative payment for credit card transactions that is more effective and efficient and provides comfort and convenience for online transactions (card does not have to be presented), using a unique virtual number as a substitute for the original credit card number to be used in BNI Corporate Credit Cards.

16. QRIS Source of Domestic Government Credit Card Funds (KKPD)

The QRIS payment feature with Domestic Government Credit Card funding sources using BNI Mobile Banking aims to facilitate operational spending and work unit official travel (Satker), at the central and regional levels with Government Credit Card (KKP) payments schemes where processing is carried out through domestic principals.

The Consumer Digital Banking products and services performance can be seen below.

E-Banking User Composition						
Layanan	2022		2021		Increase (Decrease)	
	Total (users)	Composition (%)	Total (users)	Composition (%)	Nominal (users)	Percentage (%)
Internet Banking	2.176.082	7,6	2.128.662	8,4	47.420	2,2
Mobile Banking	13.631.606	48,0	10.812.341	42,9	2.819.265	26,1
SMS Banking	12.602.562	44,4	12.258.085	48,7	344.477	2,8
Total	28.410.250	100,0	25.199.088	100,0	3.211.162	12,7

From the Digital Banking users composition, it shows there has been a decrease in the user composition for SMS Banking and Internet Banking and an increase in the user composition for Mobile Banking. The decline in the SMS Banking and Internet Banking user composition occurred due to the migration of these customers to BNI Mobile Banking super app users. This trend is expected to continue in the following year, where BNI Mobile Banking will become the dominant digital channel for BNI customers.

Variety of Digital Banking Products and Services for Corporations

1. BNIDirect

BNIDirect is an electronic channel provided by BNI for non-individual customers to carry out financial transaction activities from customer accounts at BNI more quickly, easily and safely. BNIDirect can be accessed via the website or mobile app, where its advantages are divided into 3 (three) functions, namely Payment Management, Collection Management and Liquidity Management.

a. Collection Management

The collection process for product/service sales can run effectively and efficiently, and can identify sales results quickly and accurately.

b. Liquidity Management

Solutions provided for Non-Individual Customers so that the company/institutional financial cash flow management can be maintained in an ideal position to meet the company's operational needs. Through BNI Liquidity Management, customers can easily manage the company's largest funds in BNI accounts in real time with the support of an automatic sweeping mechanism, as well as minimizing operation handling costs.

c. Payment Management

Management of payment transactions from BNI makes it easy for Institutional/Company Customers to make payment settlements in a timely and accurate manner. The need for reports on the payment of these obligations can also be obtained quickly and in real time, so that customers will immediately receive a recapitulation of the required reports.

In 2022, BNIDirect took innovative steps by adding BNI Giro Multi Currency services in 9 (nine) currencies, namely Rupiah (IDR), Yen (JPY), Pound Sterling (GBP), United States Dollar (USD), Euro (EUR), Australian Dollars (AUD), Singapore Dollars (SGD), Hong Kong Dollars (HKD) and Chinese Yuan (CNY) to accommodate customers to carry out banking transactional

activities with different currencies from just one account. In addition, BNI also added an online open account feature that allows BNIDirect users to directly open current and time deposit accounts.

- BNIDirect Overseas Branch Offices (KCLN) carry out BNI's mission as a bank with international services capable of supporting the needs of global business partners, and BNI has expanded the reach of BNIDirect services to Overseas Branch Offices (KCLN) by launching BNIDirect KCLN.

BNIDirect KCLN accommodates the transactional needs of diaspora who want to develop their business, business customers who have business branches overseas, and foreign customers who have business partners in Indonesia to carry out direct transaction activities digitally without going through branch offices. Currently, BNIDirect KCLN has been successfully launched in London, and will continue to be developed in 6 (six) other overseas branch offices.

3. BNIDirect Mobile

BNIDirect Mobile is a mobile application designed for Android and iOS-based smartphones to access BNIDirect, and is a new channel as an additional channel for the website version of BNIDirect. BNIDirect Mobile supports the activities of executives of companies/agencies/institutions who have high mobility when carrying out their business/activities. Transaction activities in BNIDirect (web version) can also be monitored via BNIDirect Mobile, and vice versa. BNIDirect Mobile offers convenience and is equipped with the use of M-PIN (Mobile Personal Identification Number) and SMS OTP (One Time Password) for every transaction.

BNIDirect advantages

Fast:

- 24 hour internet access (for in-house transactions and online transfers).

Easy:

- User Friendly;
- Equipped with a transaction guide;
- Can make transactions anywhere.

Safe:

- Secure Line with 128 bit verisign Security Certification SocketnLine (SSL);
- Transaction authorization using Electronic Signature, namely BNI e-Source (Hard Token) or mobile token (soft token);
- Equipped with company ID, User ID and password. The division of transaction authority consists of Maker, Approver and Releaser. The Matrix feature is also available to set transaction authority and transaction limits.

BNIDirect Features Advantages

- A flexible menu that can be adjusted according to customer needs;
- The number of users can be set according to needs;
- Authority access to features and accounts can be determined by the customer;
- Transaction authorization is carried out with a dynamic PIN generated by an electronic signature (BNI w-Secure/mobile token);
- Has various types of report formats that can be downloaded for customer transactions and can be sent via email;
- Comes in three languages, namely in Indonesian, English and Mandarin.

BNIDirect Mobile Advantages

- Accessed via Android and iOS based devices;
- Display based on screen size;
- No need to carry Tokens;
- Layered security;
- Auto update BNIDirect Mobile feature (no need to reinstall).

BNIDirect Mobile Security

- Transaction authentication uses M-PIN and OTP sent to the user's mobile number registered at BNIDirect;
- Access to sensitive menus requires M-PIN;
- Data communication between Device and App server is AES 256 encrypted;
- Web Application Firewall (WAF) verification.

Terms and Conditions to Become a BNIDirect Mobile User Customer

- Already registered on the web version of the BNIDirect application;
- For new customers, use the BNIDirect/BNIDirect Mobile Registration Application by adding the BNIDirect Mobile feature and including the mobile/cell phone number for each user;
- For old (existing) customers, use the BNIDirect/BNIDirect Mobile Maintenance Application to add BNIDirect Mobile features and mobile/cell phone numbers for each user.

BNIDirect Performance				
	2022*	2021*	Increase (Decrease)	
			Nominal	Percentage (%)
Number of Transactions (million)	764	645	119	18,4
Transaction Volume (Rp-billion)	6.168	4.196	1.972	47,0
Fee Base Income Cash Management (Rp-billion)	363	308	55	17,9
Number of Cash Management Users**	100.170	80.232	19.938	24,9

*) Number after resegmentation
**) Number of Users based on CIF

In 2022, the number and volume of BNIDirect transactions increased by 119 million and Rp1,972 trillion respectively from the previous year. The increase was mainly due to customer activity posts for transfers, foreign exchange transactions, and payment of the State Revenue Module (MPN). From the increase in the number and volume of these transactions, the value of Fee Based Income Cash Management generated was Rp363 billion, an increase of 17.9% from 2021.

4. Financial Supply Chain Management (FSCM)

Supply Chain Financing is a business solution in a chain from upstream to downstream that is tailored to the needs of Corporate Customers. Through the BNI Financial Supply Chain Management (BNI FSCM) platform, customers get transparency in monitoring document flows and money flows from three parties (BNI, Corporations and Corporate Partners), real time information, easier and more flexible disbursement and implementation, and makes it easier for customers for paperless and secure reconciliation of invoices.

BNI FSCM services are divided into 3 (three) solutions, namely Supplier Financing, Distributor Financing and Receivable Financing.

a. Supplier Financing

Supplier Financing is a facility for taking over Corporate Partner (Supplier) receivables for Corporate customers before the due date to be paid in a shorter time. Supplier Financing services are provided for companies that wish to increase business growth and speed up their production cash cycle process by providing bailouts for bill payments that have been accepted by Corporate customers.

b. Distributor Financing

Distributor Financing is a financing facility for Corporate customer bills to Corporate Partners (Distributors) on the due date and provides an extension of the settlement of bills from Corporate Partners to BNI. Distributor Financing services are provided for companies that wish to increase business growth and manage their production cash cycle processes with the flexibility of paying off Corporate customer bills. In this case, Corporate Partners can make arrangements for paying bills according to their cash flow capabilities.

c. Receivable Financing

Receivable Financing is a facility in the form of taking over a Corporate customer's bill to a Corporate Partner (Distributor) to be paid before the bill's due date. Receivable Financing services are provided for Corporate customers who want to increase business growth and speed up their production cash cycle process by bailout financing for Corporate customer bills to finance their collection of receivables. BNI provides bailouts for Corporate receivables to be paid faster.

Financial Supply Chain Management

Financial Supply Chain Management (FSCM) Performance

	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Number of Transactions (thousand)	126	101	25	24,8
Transaction Volume (Rp-trillion)	44	16	28	175,0
Fee Based Income (Rp-miliar)	801	680	121	17,8

The number and volume of transactions through the FSCM platform increased by 24.8% and 175% respectively from the previous year. Improved BNI FSCM transactions performance in 2022 resulted in Fee Based Income of Rp801 billion, or an increase of Rp121 billion (17.8%) from 2021. This increase is in line with BNI's strategy that continues to optimize FBI growth through the value chain and supply chain from BNI customers.

5. E-Bank Guarantee

Together with technological developments, BNI presents Online Bank Guarantees (BNI e-Bank Guarantee and m-BG Checking) as a solution that makes it easy for customers to apply for issuance, monitoring and checking bank guarantees online with the following features:

- e-Application (submitting an application for the issuance of a bank guarantee online accompanied by tiered approval);
- e-Tracking (Monitoring the status of bank guarantee issuance);
- e-Reporting (Report of bank guarantees that have been issued (as applicant) and accepted (as beneficiary);

- e-Checking (Checking the validity of bank guarantee documents that have been issued (as an applicant) and/or accepted as a beneficiary);
- e-Plafond Monitoring (Monitoring bank guarantee ceiling (maximum, usage, and remaining ceiling));
- BNI m-BG Checking (validation of bank guarantee documents via mobile apps by scanning the QR Code on bank guarantees).

Garansi Bank Online

(Selengkapnya: <https://gb-online.bni.co.id/>)

Bank Guarantees Performance

	2022	2021	Increase (Decrease)	
			Nominal	Percentage (%)
Transaction Volume (Rp-billion)	33.272	31.860	1.412	4,43

As of December 31, 2022, the volume of BNI Bank Guarantee transactions reached Rp33,272 billion, an increase of Rp1,412 billion (4.43%) from 2021.

6. API Corporate Banking

BNI API is a digital solution that uses Open API technology to facilitate customer transactional activities so they are directly integrated with the BNI banking system. Through the Corporate Banking API service, BNI makes it easier for customers to use BNI's transactional banking services that are integrated into applications built independently by each company. Up to the end of 2022, BNI API Corporate Banking had provided a total of 394 API services to customers.

MARKET ANALYSIS AND BANKING COMPETITION CONDITIONS

In 2023, the economy is expected to grow by 5.0 supported by household consumption, investment, government spending and net exports. Inflation is expected to decline to 3.8 after the impact of the fuel price hike on consumer inflation comes down. Pressure on the Rupiah exchange rate is expected to occur early in the first half of 2023 due to an increase in the benchmark interest rate in the United States, but it should ease in the second half of the year underpinned by Indonesia's strong economic fundamentals in terms of controlled inflation and good economic growth, which have attracted capital flows into the country.

To anticipate Rupiah volatility and the ongoing monetary tightening policy in the US in the first half of 2023, it is estimated that Bank Indonesia's benchmark interest rate will still have a chance to increase to the level of 5.75 and remain at that level throughout 2023.

From the perspective of the banking industry, the stability of the domestic economy is the catalyst for healthy business growth. Bank loan growth in 2023 is estimated to be in the range of 7-9, and TPF growth at the level of 7.2-8.5.

MARKETING STRATEGY

In the current digital era, BNI is committed to becoming an agile bank dealing with rapidly changing market wants and needs as well as increasingly fierce business competition. For this reason, BNI always improves banking services in a sustainable manner in line with the RACE (Risk Culture, Agile, Collaboration, Execution Oriented) values. To communicate these products and services, a marketing communication strategy is needed that is integrated corporately with corporate messages about BNI's products. These messages start from BNI's commitment to become a state-owned bank with global capabilities, to BNI's commitment to become a digital-based bank.

As a national bank with competitive advantages in international business, BNI has aspirations to contribute significantly to Indonesia's economic

growth and bridge Indonesian business in the global arena through the presence of 7 overseas branch offices (KCLN) in New York, London, Tokyo, Osaka, Seoul, Singapore, and Hong Kong. In May 2022, BNI expanded its network to the European continent by opening a representative office in the city of Amsterdam, in an effort to optimize international banking performance. BNI's presence overseas can also be seen as a door for investors, Diaspora and potential customers to get to know Indonesia more through BNI's products and services. This idea is the basis of BNI's corporate message and is emphasized in 2022 with the theme "BNI for Stronger Indonesia" at the 76th anniversary.

Furthermore, this theme is also a form of a commitment that is in line with the G20 presidency theme for 2022, namely "Recover Together, Recover Stronger". BNI is determined to invite Indonesia and the world to work together and support each other in post-pandemic economic recovery to grow stronger. This spirit of optimism is visualized in a video manifesto that describes BNI's journey as a bank that is present with a variety of financial products and services for Indonesia and the world. In making this video, BNI collaborated with Alffy Rev, who is a young Indonesian multitalented artist with a high sense of nationalism that he pours into each of his works. The video went viral online through BNI's official social media account, and has been watched by 181 thousand viewers and generated 32 thousand likes. On the Instagram account @alfy_rev, the video was watched by 373 thousand viewers and received 41 thousand likes.

Another step taken in communicating BNI's message as a bank with global capabilities is to consistently participate in international scale events. One way was through the BNI Indonesian Masters, the largest golf tournament event in Indonesia with number of world-renowned golf athletes and is broadcast on television channels worldwide.

Based on the spirit of optimism to build a stronger and more sustainable business ecosystem, BNI also appointed 3 product champions. Starting from MSMEs and Indonesian Diaspora with Xpora, retail customers with BNI Mobile Banking, to corporate customers with BNIDirect, to provide convenience and comfort for transactions anywhere and anytime for all its customers.

Through BNIDirect, BNI presents digital cash management solutions with superior features such as Collection Management, e-FX (Forex transactions), e-Tax (tax payments), transfer management, liquidity management, information management, Virtual Account Management, e-Payroll, Billing Payment, BNI Trade Online, BNI POPS (Pertamina Ordering and Payment Solution), Smart Commerce Pay, Bulk Payment, and others.

In 2022, features were updated in BNIDirect by adding the Online Account Opening feature, which makes it easier for customers to open current accounts digitally; BNI Giro Multi Currency, which allows customers to make payment settlements in different currencies with just one account. As a form of BNI's commitment to Global Transaction Banking, BNI launched BNIDirect in Overseas Branch Offices (KCLN) to accommodate the needs of digital banking transactional services for diaspora customers who wish to develop their business.

In 2023, BNI will continue to innovate by providing features and services that prioritize customer business convenience by adding Single Sign On features, Financial Dashboard, Online Onboarding, Chatbot, and presenting the BNIDirect Lite Version application.

In 2022, BNI consistently marketed Xpora to the public directly through a series of events held at home and abroad. One being the iconic handicraft exhibition event, INACRAFT, in March and October. Then from June to July, BNI invited MSMEs to join the Xpora Fest 2022 program where MSMEs had the opportunity to do business matching and product showcasing to expand their market at international events. Then in the framework of the BBI Proud Indonesian Made National Movement (Gernas BBI) campaign in September 2022, BNI collaborated with the Ministry of SOEs (KBUMN) to help West Kalimantan MSMEs go digital and go global. With the campaign theme #Corak-CorakKalBar, Xpora was the product highlighted by BNI during the campaign.

Not only MSMEs, but Xpora also helps Indonesian Diaspora throughout the world to expand marketing opportunities for Indonesian MSME products abroad. Through the Tong Tong Fair event held in The Hague, Netherlands, Xpora offered integrated business solutions and assistance programs for MSMEs to go productive, go digital and go global. The consistency of Xpora's communication strategy also resulted in success with awards won from the 2022 BUMN Branding & Marketing Award, namely in the Branding Strategy, Digital Branding, Technology Enhancement, Global Brand and Marketing Strategy, and International Recognition categories.

In the consumer segment, BNI continues to optimize services and responds to customer requests through BNI Mobile Banking. Equipped with features for daily transactions such as education payments, electricity, telco, e-wallet top ups, smart remittances to purchasing streaming and games vouchers, BNI Mobile Banking is a user friendly banking application. For Indonesian Diaspora, BNI Mobile Banking has a feature for opening a Diaspora Savings account. which can be accessed anywhere and anytime through an application without having to go to a branch office and can be accessed worldwide.

Various payment promos through QRIS were provided with the aim of increasing the transaction frequency of BNI customers. These promos were also available at offline events where BNI participated in 2022, such as the BNI Java Jazz music festival, the Kids Indonesia Maternity products, Baby & Kids Expo (IMBEX) and Mommy N' Me, as well as the MedanXBeauty beauty bazaar, where BNI provided attractive offers for BNI Mobile Banking users.

To increase customer loyalty and as a form of appreciation to customers, BNI again conducted a series of Rejeki BNI #GaPakeNanti campaigns consisting of the Rejeki BNI Lottery program #GaPakeNanti, Rejeki BNI #GaPakeNanti Auction, and the Rejeki BNI event #GaPakeNanti. Through these campaigns, BNI invited customers to increase BNI Debit Card and BNI Mobile Banking transactions with the opportunity to win luxury prizes and receive a variety of contemporary items starting with Rp46.

Rejeki BNI #GaPakeNanti is a program for BNI savings customers with a POIN+ exchange mechanism through BNI Mobile Banking, which lasts until April 30, 2023. During this period, loyal BNI customers will have the opportunity to win luxury prizes such as Land Rover Defender 110, Mitsubishi New Triton Double Cabin, Hyundai Creta, Honda Beat Sporty, or Honda Scoopy. For the Rejeki BNI #GaPakeNanti Auction #, BNI customers can win items such as the Iphone 14 Pro Max smartphone, Samsung Galaxy Z-Flip 4 5G, Yamaha Fazio motorcycle, to Samsung LED TV 50 inch, by exchanging POIN+ at BNI Mobile Banking.

During this campaign, BNI took the initiative to carry out offline activation by holding a Rejeki BNI #GaPakeNanti event in major cities in Indonesia. This activity aims to increase awareness of the BNI #GaPakeNanti Lucky Draw program as well as invite customers to exchange POIN+ at BNI Mobile Banking with lottery coupons or e-vouchers. To date, the Rejeki BNI #GaPakeNanti event has been to 2 cities, Bekasi and Cirebon, enlivened by well-known national artists such as D'Masiv, Rossa, Ayu Dewi, Amrizing, Sigi Wimala, Nirina Zubir, and others.

With the broad segment in the younger generation and the rise of the tourism industry in Indonesia, BNI is aware that there is big business potential that can be worked on. BNI began to massively carry out its marketing communication activities for the two segments. To reach a wider audience in the Generation Z segment, BNI collaborated with CXO Media as an online-based media with inspiring, insightful and entertaining digital content, ranging from reading articles, audio articles to video content. To support domestic tourism, BNI collaborated with several airlines such as the Lion Group and Garuda Indonesia to present a travel fair.

Other marketing communication strategies optimized the use of Key Opinion Leaders (KOL) and used social media platforms. Since December 2021, BNI has collaborated with RANS Entertainment to create a digital campaign for educational content for BNI products. As a result, BNI has succeeded in increasing its social media presence and has become one of the leaders in the banking sector. As of December 2022, the BNI Instagram account @bni46 had 1.1 million followers, the BNI Twitter account had 1.2 million followers, the Facebook account had 425 thousand fans, the TikTok account had 349 thousand followers, and the YouTube channel had 31 thousand subscribers.

To communicate attractive campaigns and promos, BNI uses website-based online media, namely bniexperience.co.id and regularly publishes E-Magazine. Placement ads on online media such as Detik Network, Emtek, Kompas.com, and Tribunnews.com, are also still being implemented consistently. In addition to the online platforms, BNI also uses ATL and BTL media such as SMS marketing, email marketing, adlibs on radio, advertisements on television and LED videotron, advertising in print media, etc.

From the marketing communication strategies and efforts to improve service performance, as well as the initiatives that BNI carried out in 2022, it is hoped this will become a strong foundation for building a new spirit in facing all the challenges that will exist for the Higher Leap in 2023.

The development of increasingly dynamic market conditions and increasingly fierce competition in 2022 is a challenge for the marketing team to be more agile. One of the factors that determines the success of the marketing team in achieving business targets is optimizing sales strategies that focus on 3 (three) areas, including:

1. Marketing Team Productivity Improvement Strategy, an effort to form a growth mindset in the marketing team in carrying out the financial advisory function based on customer needs (total solution selling), by optimizing the sales management function including a strategic focus, such as:
 - a. Capability improvement with continuous provision according to competency gaps to support the marketing team's business performance, including:
 - i) Provision of training and certification to support sales activities;
 - ii) Tactical and motivational learning, as a refreshment for the marketing team's knowledge;
 - iii) Strengthening the sales supervisory function to form a Sales Leader Mindset, through the provision of "Enrichment Sales Leaders", to ensure disciplined execution is oriented towards improving the marketing team performance.
 - b. Availability of sales tools to support sales activities, such as:
 - i) Sales tools that help the marketing team's sales activities;
 - ii) Data Leads Management, to optimize financial solutions for more targeted potential customers;
 - iii) Helpdesk services to support the marketing team's sales activities.

- c. Performance Monitoring, to form discipline in the marketing team's sales operations, by providing easy access to Sales Activity Reports (call/visit) for Sales supervisors via WA Blast, letters, e-mails and the Digisales application, to carry out the performance monitoring function.
 - d. Providing Rewards & Recognition, in the form of motivational rewards to increase the marketing team productivity, including the Sales Championship Program as an appreciation & motivation for the best marketing team and units, tactical motivational programs, and career path management for the marketing team.
2. Collaborative Selling Strategy, an integrated marketing activity between multi-sectoral units, through offering solutions to optimize the potential of individual or non-individual customers.

In line with the business expansion strategy that pays attention to quality and prudent, one of the focuses for business expansion in 2022 was optimizing the value chain potential and developing business ecosystems from selected institutional and developer customers, through collaboration in selected customer segments, such as:

- a. Selected corporate customers, included in the Diamond Clients institutional program;
 - b. Selected Institutions through the deal team program, which focuses on selected Ministries, Institutions & universities;
 - c. Selected National Developers and the top 10 biggest Developers per area/region in channeling financing for the purchase of houses and other derivative products;
 - d. The focus of execution on potential business sectors not affected by expansion restriction provisions, such as: Health, Education, Government, Industrial and trade areas;
 - e. 3rd party cooperation strategy, as a step to expand the scope of sales channels by encouraging increased business expansion and market penetration of BNI products.
3. Digital Sales Strategy, a transition to digital transformation in banking services and other service sectors after the COVID-19 pandemic, has encouraged BNI to continuously carry out digital innovations, including sales strategies in line with current customer behavior. The digital strategy in the sales channel focuses on 2 (two) dimensions, including:
 - a. Enhancement Digital Tools, through the development of digital tools to facilitate the marketing team's sales process/activities from pre-sales to post-sales stages as well as the monitoring process by the sales supervisory. Some of the digital tools development initiatives carried out during 2022 included:
 - i) Development of Digisales, to optimize the Performance Monitoring and Activity Management functions;

- ii) Launch of Digigriya, a platform that offers convenience for customers and prospective customers in finding the best property information from selected developers who work with BNI, which is integrated with e-forms to make it easier to apply for mortgage financing through BNI Griya;
 - iii) Leads Management, to encourage marketing team sales effectiveness to potential and targeted customers according to the criteria and needs of their customers. Sales simply contact customers who have gone through the analysis process so that sales can contact customers who have the potential to add PHR (Product Holding Ratio) at BNI.
4. Enhancement of marketing channels, to optimize each potential sales channel to increase business expansion, including:
 - a. Digital cooperation with various digital/e-commerce platforms in an effort to expand the scope of sales channels, such as: Shopee Paylater, Traveloka Paylater, DUMI, Cekaja.com, Sticearn, etc.;
 - b. Optimizing the referral program to increase business, through the use of cooperation schemes with partners (i.e. Agen46) or subsidiary marketing teams (i.e. BNI Life marketers/insurance agents), whose referral and monitoring processes have been carried out digitally through Digisales integration with other sales channel applications.

PRODUCT POSITIONING AND MONITORING INTENSITY TO IMPROVE SALES PRODUCTIVITY

In line with the vision to form Sales who are highly skilled, knowledgeable, and have a positive attitude, throughout 2022 BNI continued to build and instill a strong Sales Culture habit and character, with the aim of creating a culture of disciplined execution that will have an impact on BNI business growth, and monitoring through increased Sales Productivity.

To improve and maintain BNI Sales productivity, leaders played an active role as sales supervisors by conducting regular monitoring, mentoring and coaching to Sales, through:

1. Monitoring the implementation of daily Sales activities in accordance with the Sales work plan in the tactical account plan;
2. Coaching and mentoring Sales, based on competency gaps and historical business achievement per sales;
3. Mentoring and providing motivational learning for Salespeople with low productivity, according to the gap in business achievement and competence.

The performance monitoring function was carried out through the Digisales application, as a tool that can facilitate the sales process and manage the marketing team's performance on a regular basis. Some of the benefits of Digisales include:

1. Ease of accessing BNI product information that is integrated with the Services Digital System application and ongoing promo programs;
2. Ease of access and monitoring of Sales performance realization either via mobile or desktop (PC);
3. Ease of monitoring the activities of the marketing team by sales supervisory in carrying out marketing activities for BNI and its subsidiaries products & services on a daily/monthly basis.

REALIZATION OF BUSINESS EXPANSION (I.E REALIZATION OF BNI GRIYA AND BNI FLEKSI EXPANSION)

BNI Griya and BNI Fleksi Expansion Realization Trends					
	Realization 2018 (Rp-billion)	Realization 2019 (Rp-billion)	Realization 2020 (Rp-billion)	Realization 2021 (Rp-billion)	Realization 2022 (Rp-billion)
Booking Griya	11,973	10,655	8,771	11,263	13,693
Booking Griya Regular	10,770	9,183	6,284	8,669	10,617
Booking Griya Program	1,203	1,473	2,486	2,953	3,076
Booking Fleksi	12,250	10,073	12,762	15,381	22,528
Booking Fleksi Regular	10,172	8,662	10,217	11,264	12,079
Booking Fleksi Fintech	0	0	176	892	6,579
Booking Fleksi Pensiun	2,078	1,411	2,369	3,225	3,870

BNI GRIYA

BNI Griya's bookings in 2022 showed a positive trend, as seen in the achievement of Rp13.69 trillion as of December 2022, a growth of 21.5% YoY from December 2021 (Rp11.26 trillion). This positive growth came from the consistency in distributing Subsidized KPR (Griya Program), which grew by 18.6% from 2021 as a form of BNI's support for the Government's 1 million homes program. The positive growth in the regular Griya expansion contributed to the overall growth in BNI Griya bookings, where the regular Griya grew by 22.4% compared to December 2021. This was a positive impact driven by a sales strategy that focused on the potential for increasing cooperation with Selected & Top Tier BNI Developers.

BNI FLEKSI

Realization of BNI Fleksi bookings in 2022 reached Rp22.58 trillion with an achievement of 113.7% or growth of 31.9% YoY from 2021 (Rp15.38 trillion). This positive growth was due to BNI's success in optimizing the business ecosystem, which was realized from the absorption of derivative products at 38 institutional Diamond Clients corporate segment customers, and selected institutions included in the deal team program.

The achievement of active Fleksi bookings was also supported by an increase in the expansion of Regular Fleksi and Fintech, which grew by an average of 46.6% from 2021 due to exploiting the potential for collaboration with top tier companies and digital collaboration.

In addition to Fleksi aktif, BNI Fleksi Pensiun also grew by 16.7% from 2021, and also contributed to an increase in Fleksi bookings in total, as a result of executing the potential of BNI's Top Tier Institutions & Companies and optimizing programs for customers nearing retirement age (Pre-Retirement).

SALES CHANNEL SPREAD

One of the ways to achieve the 2022 business targets was through the use of sales channels spread across all regions, which consisted of:

1. Business Corporate Sales (BCS):
 - a. Institutional Relationship Managers: 13 people
 - b. Relationship Manager Developers: 17 people
2. Full Time Sales Employee:
 - a. Customer Relationship Managers (CRO-Managers): 50 people
 - b. Customer Relationship Officers (CRO-Assistant): 205 people
 - c. Sales Analysts: 660 people
 - d. Sales Assistants: 885 people

3. Outsourcing Sales:
 - a. Telesales (TS): 282 people
 - b. Direct Sales (DS): 724 people
 - c. Sales Company (SCO), 716 people
 - d. Fronting Agents: 5 Vendors
 - e. Agents & Merchant Assistants (AMA): 1,118 people

*) Source: Indonesian Banking Statistics, Financial Services Authority

**) Since February 1, 2021, BNI Syariah officially joined Bank Syariah Indonesia in accordance with OJK Capital Market approval letter No. S-289/D.04/2020 dated December 11, 2020, as well as OJK Banking Letter No. 4/DK.03/2021 dated January 27, 2021 so it was no longer consolidated in the consolidated financial statements of BNI and Subsidiaries for the 2021 fiscal year. Therefore, the 2020 financial performance are restated by taking into account the impact of the issuance of BNI Syariah's performance.

Market Share by Assets

Over the past few years, BNI has positioned itself as one of the leading banks in Indonesia in terms of assets. BNI's assets increased to Rp1,030 trillion, equivalent to an industry market share of 9.8%. Previously, in 2021, BNI's market share in the industry was 9.8%.

Market Share based on Third Party Funds (TPF)

During the 2021-2022 period, BNI maintained its position as one of the largest banks in Indonesia in terms of collecting TPF. With TPF reaching Rp769 trillion, BNI's market share in terms of TPF was 10.1% in 2022, the same as the market share in 2021.

Market Share based on Loans Distributed

In line with the increase in TPF, BNI optimized its lending given by taking into account loan quality, as it reached Rp646 trillion. This achievement was equivalent to a market share of 10.3% in 2022.

Comparison of Financial Ratios with Commercial Bank Industry Averages

Based on the Company's financial ratios, the capital adequacy level (CAR) in 2022 was 19.3%, down compared to 2021 and still lower than the industry. Meanwhile, operating expenses to operating income (BOPO) decreased in 2022 to 68.6% compared to 81.2% in 2021. Return on assets (ROA) was 2.5% in 2022, the same as the industry. The liquidity rate (LDR) was 84.2% in 2022, higher than last year and the industry.

PROSPECTS, POTENTIALS AND MARKETING PLANS FOR THE NEXT YEAR

To achieve the Company's business targets and optimal profits in line with BNI's vision and mission in 2023, the marketing strategy for BNI products will focus on strengthening the execution strategy in each sales channel function across all BNI outlets, as well as strengthen that were running in 2022, namely:

1. Segmented Channeling Acquisition:
 - a. Executing the potential of selected Institutions and Managed Developers;
 - b. Optimizing the potential and management of Debtors, Non-Corporate Giran, and Business Ecosystems;
 - c. Developing business with the addition of Institutional & Developer Collaboration;
 - d. Strengthening the role of RM – BD managers for Regional and Branches Liaison.
2. Branch Sales Management:
 - a. Optimizing Branch Sales Capacity;
 - b. Increasing Branch Sales Capabilities;
 - c. Developing sales tools and execution of Data Leads;
 - d. Executing Captive Customer potential for Crosssell & Upsell;
 - e. Acquiring new Customers.
3. 3rd Party Channeling:
 - a. Monitoring & increasing sales capacity through 3rd parties;
 - b. Evaluating the sales process through 3rd parties;
 - c. Developing business by adding hybrid and digital 3rd party sales channels

Financial and Other Material Information Overview

PRESENTATION AND COMPLIANCE WITH ACCOUNTING STANDARDS APPLICABLE IN INDONESIA

In presenting the following financial overview, BNI's main reference is based on the Audited consolidated Financial Statements for the positions as at December 31, 2022 and 2021, and for the years ended December 31, 2022 and 2021. The Financial Statements have been audited by the Public Accounting Firm Tanudiredja, Wibisana, Rintis & Rekan (member firm of PricewaterhouseCoopers) and obtain an unmodified opinion, in all material respects, the consolidated financial position of PT Bank Negara Indonesia (Persero) Tbk and its subsidiaries as of December 31, 2022, and their consolidated financial performance and cash flows for the year ended December were based on Indonesian Financial Accounting Standards. The independent auditor's report to the shareholders was dated January 20, 2023 and signed by the Accountant Drs. M. Jusuf Wibisana, M.Ec., CPA with a license No. AP. 0222 to practice public accounting.

Presentation of values for the accounts described in this report represent the net amount after deducting allowance for impairment losses unless otherwise stated.

*) Since February 1, 2021, BNI Syariah officially joined PT Bank Syariah Indonesia Tbk in accordance with OJK Capital Market approval letter No. S-289/D.04/2020 dated December 11, 2020, as well as OJK Banking Letter No. 4/DK.03/2021 dated January 27, 2021 so it was no longer consolidated in the consolidated financial statements of BNI and Subsidiaries for the 2021 fiscal year. Therefore, the 2020 financial performance are restated by taking into account the impact of the issuance of BNI Syariah's performance.

BNI's assets grew by Rp65.0 trillion or 6.7% in 2022. This growth in assets was due to a higher increase in loans than the industry, namely by 10.9% from Rp582.4 trillion in 2021 to Rp646.2 trillion in 2022. Loan accounts were the largest contributor to total assets, reaching 62.7% in 2022 from 60.4% the previous year, reflecting BNI's core business as a loan distributor. On the other side, other productive assets in the form of government bonds, which contributed 11.8% to BNI's total assets, increased by 8.9% from Rp111.4 trillion in 2021 to Rp121.3 trillion in 2022. Also, demand deposits at Bank Indonesia, the third largest contributor, with 8.1%, also saw a significant increase of 70.3%, an increase of Rp34.2 trillion from Rp48.7 trillion in 2021 to Rp82.9 trillion in 2022.

ASSETS

BNI's total assets grew to more than 1,000 trillion, with a significant loan growth of 10% and well-maintained asset quality management.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Cash

In 2022, BNI recorded cash of Rp13.4 trillion a decrease of 1.7% compared to Rp13.7 trillion the previous year. With was a decrease in cash in Rupiah by 4.2% to Rp12.7 trillion in 2022, while cash in foreign currencies saw an increase dominated by USD. The portion of cash in Rupiah remained dominant at 94.4% of BNI's total cash.

Current accounts with Bank Indonesia

BNI and its Subsidiaries are required to keep Minimum Statutory Reserves (GWM) in Rupiah for their activities as a commercial and sharia bank, as well as GWM in foreign currencies for their activities when conducting foreign currency transactions.

Account	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)
Rupiah	76,037	42,949	27,958	33,088	43.5	14,991	53.6
US Dollar	6,885	5,733	5,592	1,152	16.7	141	2.5
Total	82,922	48,682	33,550	34,240	41.3	15,132	45.1

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

In 2022, BNI's current accounts with Bank Indonesia (BI) were Rp82.9 trillion, an increase of 41.3% compared to Rp48.7 trillion the previous year. This account accounted for 8.1% in 2022, up from 5.0% the previous year due to the increase in GWM by BI to maintain banking liquidity. BNI's Minimum Statutory Reserves (GWM) are in accordance with Bank Indonesia Regulations (PBI) Bank Indonesia Regulation (PBI) No. 24/4/PBI/2022 dated March 1, 2022 concerning Statutory Reserves for Commercial Banks in Rupiah and Foreign Currency for Conventional Commercial Banks, and the Board of Governors Members Regulation (PADG) No. 24/8/PADG/2022 dated June, 2022.

Minimum Statutory Reserves	2022 (%)	2021 (%)	2020 (%)
Minimum Statutory Reserves - Rupiah	11.9	7.7	5.4
Minimum Statutory Reserves - Foreign Currencies	4.0	4.0	4.0

BNI's primary GWM ratio for Rupiah currency was 11.9% as of December 31, 2022, and 7.7% as of December 31, 2021, while for foreign currencies they were 4.0% and 4.0%, respectively.

Current Accounts with other Banks

Account	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)
Rupiah	385	472	745	(87)	(18.4)	(273)	(36.6)

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

BNI's current accounts with other banks were Rp15.9 trillion, a decrease of 18.6% in 2022 compared to Rp19.6 trillion the previous year. This decrease was mainly due a decrease in current accounts with other banks in foreign currency (forex) of Rp15.5 trillion (gross), or 18.6% compared to Rp19.1 trillion the previous year due to transactions with counterparty banks. The contribution of this account to total assets was 1.5% in 2022, a decrease compared to the previous year's 2.0%.

Placements with Other Banks and Bank Indonesia

Account	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

All current accounts with other banks are classified as current and the Bank's management believes that the allowance for impairment losses is adequate. The annual interest rate for the account in Yuan is 0.05-0.13% and 2.00%, while for US Dollars it is 0.01-4.75% and 0.02-2.39% for 2022 and 2021 respectively.

Securities

Securities are an alternative placement of funds by BNI other than the loan provided. In addition to earning interest income from investing in these securities, BNI also earns non-interest income from sales transactions and mark to market for these securities. As of December 31, 2022, the Bank total was Rp28.6 trillion in securities, an increase of 10.7% compared to Rp25.8 trillion the previous year. The composition of securities owned by BNI is as follows:

Composition of Securities owned by BNI	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

When viewed from the composition of the issuers of these securities, the securities issued by corporations have the largest portion, reaching 88.0%, or Rp25.4 trillion in 2022, compared to Rp21.8 trillion (gross) the previous year, with a contribution of 83.8%.

From a collectibility perspective, most of the securities owned by BNI are in the current category with a respective portion of 98.1% and 98.8% for the periods ending December 31, 2022 and 2022. Thus, the allowance for possible losses impairment is sufficient.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Securities Purchased under Resell Agreements

As of December 31, 2022, securities purchased with agreements to resell amounted to Rp16.6 trillion with the current classification decreasing by 24.4%, compared to Rp22.0 trillion last year. The biggest decline was with Bank Indonesia counterparts where the decline in Reverse Repo transactions amounted to Rp3.9 trillion. The contractual interest rate for securities purchased under agreements to resell was 5.1%-6.4%.

Export Bills and Other Receivables

BNI's export bills and other receivables amounted to Rp20.7 trillion, an increase of 1.2% in 2022. This increase was mainly due to an increase in export bills transactions in rupiah of Rp2.0 trillion or 16.7% to Rp14. 6 trillion in 2022 from Rp12.5 trillion the previous year. Export bills and other receivables denominated in Rupiah have a dominant portion in the composition with a portion of 70.0% and 62.8% for 2022 and 2021 respectively. Export bills and other receivables are in the form of Documentary Certificates Domestic (SKBDN), export bills, open account financing and supply chain financing.

Acceptance Receivables

Based on the beneficiary, BNI acceptance receivables are divided into non-bank and bank debtors. BNI's acceptance receivables reached Rp18.9 trillion in 2022, a decrease of 7.9% compared Rp20.5 trillion the previous period. This decrease was mainly due to a decrease in acceptance receivables from customers in rupiah from non-bank debtors of Rp11.5 trillion in 2022 compared to Rp14.6 trillion the previous year. Based on Bank Indonesia collectability, there is an outstanding of Rp19.5 trillion in the current classification and Rp552.7 trillion in the classification of special mention with the provision for impairment losses being established in accordance with the applicable regulations. Management believes that the amount of allowance for impairment losses established is adequate.

Derivative Receivables

When conducting business, BNI transacts in derivative financial instruments such as foreign currency futures contracts, foreign currency swaps, interest rate swaps and spot transactions for financing, trading and hedging purposes. The instruments used by BNI are classified based on the type of risk related to exchange rates, interest rates or both. Based on the exchange rate, derivative receivables are in the form of buy/sell future contracts, sell/buy foreign currency swaps, sell/buy foreign currency spots, and buy/sell foreign currency options. Interest rate related instruments are swaps on interest rates while instruments related to exchange rates and interest rates are foreign currency swaps and USD interest rates.

Cumulatively, BNI's derivative receivables amounted to Rp0.69 trillion in 2022, an increase of 38.7% from Rp0.49 trillion the previous year. Of the total derivative receivables, foreign currency swap instruments sold in US Dollars recorded the largest nominal value of Rp2.0 trillion in 2022 from Rp2.5 trillion the previous year. All derivative receivables as of December 31, 2022 were classified as current.

Loans Disbursed

Loans disbursed by BNI still grew year on year by 10.9%. The growth in loans (net) was driven by an increase in Working Capital Loans of Rp39.2 trillion, an increase of 12.6%, where the current position was Rp350.6 trillion against the position in 2021 of Rp311.4 trillion. The loans are the Bank's core business and contributed 62.7% to total assets in 2022 and 60.4% in 2021. BNI loans are disbursed in Rupiah and foreign currencies. Loans in Rupiah still has the largest portion, with 80.1% (2022) and 80.5% (2021). Loans in foreign currency are dominated by US Dollars with a contribution of 19.4% and 17.1% in 2022 and 2021.

The contract interest rate for loans in Rupiah was 0.10%-26.62%; US Dollar (0.10%-13.13%); Chinese Yuan (4.75%-6.50%); and Japanese Yen (0.50%-5.00%) for the period up to December 31, 2022. For the previous one-year period, the contract interest rate for BNI loans in the four currencies was 5.00%-24.00%; 0.02%-8.50%; 4.00%-7.00%; and 0.50%-2.09% respectively.

Based on loan type, BNI disburses working capital loans, investment loans, consumer loans, syndicated loans, employee loans and government program loans. Working capital loans have the largest portion of BNI's loan portfolio (gross) at 54.3% and 53.5% in 2022 and 2021 respectively. Cumulatively, the loan portfolio is well diversified with contributions from other types with relatively large portions, namely investment loans (21.2%); consumer loans (16.4%); and syndicated loans (7.4%) in 2022. The composition of loans by type of loan is as follows:

Loans by Type	2022		2021	2020*		Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

For syndicated loans, BNI's participation in syndicated loans with other banks amounted to Rp48.1 trillion as of December 31, 2022 against Rp39.7 trillion in 2021. Syndicated loans are loans provided to debtors based on joint financing agreements with other banks. The percentage of BNI's share in the syndicated loans, where BNI acts as the syndicate head is 5.04% -83.30% in 2022 and 2021.

Employee loans are loans given to employees with interest rates of 3%-5% per annum, which are intended for buying houses and other needs with terms ranging from 1 year to 20 years. Payment of loan principal and interest is paid through salary deductions every month. Government Program Loans consist of Food Security Loans (KKP), Two Steps Loans (TSL), Cattle Breeding Business Loans (KUPS), and Plantation Revitalization, which can be partially and/or fully funded by the Government.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

From the economic sector, the loans disbursed by BNI are well diversified so they are not exposed to the risk of loan concentration in certain economic sectors. The three economic sectors with the highest contribution to loans in 2022 were the industry or manufacturing sector with a portion of 20.7%; trade, restaurants and hotels (17.0%); and agriculture (8.8%). Compared to the previous year, the portion of lending to these three sectors remained relatively unchanged at 20.9%; 17.5%; and 10.2%.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

In terms of Bank Indonesia collectability, the collectibility of loans disbursed by BNI are mostly in the current category with a portion of 93.7% for 2022 against 91.6% and for 2021. The BNI and Subsidiaries ratio of non-performing loans in gross terms (before deducting allowance for impairment losses) as of December 31, 2022 and 2021 was 2.8% and 3.7% respectively. BNI's consolidated non-performing loans ratio on a net basis for the same periods reached 0.5% and 0.7%.

Write-off of Loan Assets and Reacquisition – Bank Only

When the condition of debtors no longer have potential, both in business and operational terms, BNI wrote off loan assets amounting to Rp10.9 trillion in 2022, higher than Rp9.5 trillion in 2021. To do so, BNI Management prioritizes debtors who are bankrupt and/or have legal problems, where maximum efforts have been made. When compared to the total loans disbursed by bank only, the ratio of write-offs on loan assets is relatively low at around 1.7%. Meanwhile, the recovery of loans written off amounted to Rp3.8 trillion with a recovery rate in 2022 of 34.7%, an increase compared to 32.8% in 2021.

Government Bonds

Government bonds are financial instruments that fall under the low risk criteria but offer competitive interest rates. These instruments also helps in funding the Government in managing the state budget. As of December 31, 2022, BNI's Government Bonds amounted to Rp121.3 trillion, an increase of 8.9% compared to the same position in 2021. BNI's Government Bonds are denominated in Rupiah and foreign currency with Government bond transactions in Rupiah reaching Rp88.6 trillion, an increase of 6.8% in 2022, compared to Rp83.0 trillion the previous year. Meanwhile, government bonds in foreign currencies amounted to Rp32.7 trillion and Rp28.5 trillion in 2022 and 2021. The contribution of this account to BNI's total assets in 2022 and 2021 was 11.8% and 11.5%.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Viewed from the type of interest rate on government bonds, Government Bond transactions with fixed interest rates contributed a dominant portion with 99.9% in 2022 and 2021. For floating rate bonds, the portion of government bond transactions was 0.1%.

For fixed interest rates, market prices for Government Bonds ranged from 71.9% to 130.7% and between 100.7% to 132.6% on December 31, 2022 and 2021, respectively. Meanwhile, the market prices for Government Bonds with floating interest rates was 99.9% and 100% as of December 31, 2022 and 2021.

In the Government Bonds financial instruments, there were Government Bonds from the recapitalization program, which as at as of December 31, 2022 and December 31, 2021 amounted to Rp100 billion each.

The contract interest rate for the Government Bonds in 2022 for a fixed interest rate was 4.0%-12.0% in Rupiah; 0.1%-7.8% (US Dollar); and 1.3% (Singapore Dollar), compared to the previous year which were 3.8%-12.9%; 0.7%-5.9%; and 2.8%-3.1%. The annual floating interest rate for Government Bonds in 2022 was 3.5%-4.3% from 3.8%-4.5% the previous year.

Prepaid Taxes and Prepaid Expenses

BNI's prepaid taxes and expenses for the period ending December 31, 2022 was Rp0.6 trillion and Rp3.2 trillion, respectively, compared to Rp1.0 trillion and Rp3.1 trillion respectively the previous year.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

BNI's net fixed assets stood at Rp26.5 trillion in 2022 from Rp26.9 trillion the previous year, with none of BNI's fixed assets pledged as collateral. The Right-of-Use Assets as of December 31, 2022 amounted to Rp1.3 trillion (net). Management believes that there was no impairment in the value of fixed assets owned by BNI during the year as management believes that the carrying value of fixed assets does not exceed the estimated recoverable amount. The contribution of fixed assets (net) to BNI's total assets in 2022 and 2021 was 2.6% and 2.8%.

Deferred Tax Assets - Net

BNI's deferred tax assets net amounted to Rp7.6 trillion in 2022, higher than the previous year's position of Rp6.2 trillion, which was due to an increase in MtM losses on financial assets measured at fair value through other comprehensive income and the establishment of CKPN loans.

Liabilities

The increase in CASA by 10.1% from Third Party Funds (TPF), illustrates that BNI as the best bank is capable of maintaining the effectiveness of funding sources.

BNI's liabilities grew by 6.1% to Rp889.6 trillion in 2022 mainly supported by an increase in customer deposits and borrowings. BNI TPF rose 5.5% to Rp769.2 trillion in line with the increase in CASA to Rp557.3 trillion with a growth of 10.1%. This growth in customer deposits was necessary to support the Bank's core lending business. The growth in liabilities was also affected by the increase in borrowings at overseas branches of Rp3.2 trillion or 9.8% compared to the position in 2021.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Obligations Due Immediately

BNI's obligations due immediately increased by Rp132 billion or 2.9% to Rp4.7 trillion. Compared to the previous position of Rp4.6 trillion, the increase in this account in 2022 was in line with an increase in some of BNI's liabilities to third parties, including obligations as an issuer bank (ATM), which increased in 2022 by Rp641 billion from the previous year.

Deposits from customers

Amid the tight liquidity conditions of the banking industry during 2022, BNI's TPF amounted to Rp769.3 trillion, an increase of 16.2% from Rp729.2 trillion the previous year. Of the total TPF, 72.9% were in the form of Current Account Saving Accounts (CASA) equivalent to Rp557.3 trillion in 2022. Compared to the previous year, this CASA achievement grew 10.1% or Rp51.3 trillion, mainly due to demand deposits increasing by 11.8% to Rp314.6 trillion. This increase was in line with BNI's policy to optimize funding sources from low-cost third parties. BNI's Third Party Funds (TPF) made a dominant contribution to liabilities, of 86.5% and 87.0% of total liabilities in 2022 and 2021.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

BNI's TPF portfolio is well diversified with the composition of current and savings accounts (CASA) at 72.9%, while time deposits are 27.1% in 2022, an increase compared to 2021. This shows that amidst tight liquidity, BNI was able to gather low cost funding. In terms of currency, BNI's TPF in Rupiah is the dominant portion with 81.8% and 83.5% in 2022 and 2021, in line with the lending that is also dominated in Rupiah. The portion of TPF in foreign currency was 18.2% and 16.5%. Of the total TPF in foreign currencies of Rp120.4 trillion, US Dollars TPF is the most dominant with Rp139.9 trillion in 2022 compared to Rp117.3 trillion the previous year.

BNI TPF savings products product are classified into BNI Savings and Hajj Savings. These two types of savings have a respective portion of 99.8% and 0.2% for 2022 and 2021.

In 2022, interest rates and annual profit sharing for TPF in Rupiah were 0.0% - 6.4%; 0.0%-4.8% (US Dollar); 0.0%-1.3% (Singapore Dollar); 0.0%-0.8% (Euro) and 0.0% (Japanese Yen). The previous year's annual interest rate and profit sharing for TPF in Rupiah was 0.0% - 7.3%; 0.0%-1.5% (US Dollars); 0.0%-0.8% (Singapore Dollar); 0.0%-0.8% (Euro) and 0.0% (Japanese Yen).

Deposits from Other Banks

BNI's deposits from other banks reached Rp15.2 trillion, an increase of 6.0% in 2022 compared to Rp14.4 trillion the previous year. This increase was mainly in the Interbank Money Market (PUAB) instrument with Rp8.2 trillion in 2022, 80.0% higher than the 2021 position of Rp4.5 trillion. There was also an increase in the Negotiable Certificate Deposit (NCD) instruments of Rp788 billion issued in December 2022.

Account	2022 (Rp-billion)	2021 (Rp-billion)	2020* (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021

Total	775	110	414	665	604.5	(304)	(73.4)

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

In conducting business, BNI transacts derivative financial instruments such as foreign currency futures contracts, foreign currency swaps, interest rate swaps and spot transactions for financing, trading and hedging purposes. BNI's derivative payables increased by Rp665 billion or 604.5% to Rp775 billion from the previous year's Rp110 billion. The increase in derivative payables came mainly from derivative payables to third parties amounting to Rp556 billion.

Securities Sold Under Repurchase Agreements

BNI's securities sold under agreements to repurchase increased by 57.8% from Rp1.8 trillion in 2021 to Rp2.9 trillion in 2022. The annual interest rate for securities sold under agreements to repurchase was 1.50%-4.75% (US Dollars) for 2021 and 1.00%-2.00% (US Dollars) for 2021. While the annual interest rate in rupiah was 5.63%- 8.13% for 2022.

Acceptances Payable

BNI's acceptances payable decreased from Rp5.6 trillion in 2021 to Rp5.3 trillion in 2022, a decrease of 5.1%. This decrease was from acceptances payable from third parties from the previous year's Rp5.3 trillion to Rp4.3 trillion in 2022.

Accrued Expenses

Account	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)
Issuer Bank Liabilities	308	98	126	210	214.3	(28)	(22.2)

Promotion expenses	6	6	9	-	-	(3)	(33.3)
Others	95	109	139	(15)	(13.6)	(30)	(21.6)
Total	1,441	1,242	1,125	199	16.0	118	10.4

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

BNI's accrued expenses reached Rp1.4 trillion in 2022, an increase of 15.9% compared to the previous year's Rp1.2 trillion. The increase in accrued expenses was mainly due BNI's obligations as an issuer of Rp210 billion.

Taxes Payable

Account	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)
Corporate income tax	1,392	1,210	927	182	15.0	283	30.5
Other taxes	159	74	133	85	114.9	(59)	(44.4)
Total	1,551	1,284	1,060	267	20.8	224	21.1

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

BNI's taxes payable increased from Rp1.3 trillion in 2021 to Rp1.6 trillion in 2022, an increase of 20.8%. This increase was due to the increase in corporate income tax to Rp1.4 trillion in 2022, an increase of Rp182 billion from the previous year. The increase in corporate income tax debt is in line with BNI's profit growth.

Employee Benefits

Account	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021

Total	6,880	6,138	5,652	742	12.1	486	8.6

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Increase of 12.1% compared to Rp6.1 trillion in 2021. BNI's employee costs increased from Rp2.2 trillion in 2021 to Rp3.2 trillion in 2022, an increase of 41.6%, largely due to a change in the discount rate from 6.25% on December 31, 2021 to 7.25 % on December 31, 2022. For long-term employee benefits, especially for the defined benefit pension plan, it decreased by Rp200 billion.

Allowances

The BNI allowances account consists of estimated losses on commitments and contingencies as well as provisions for legal and other cases. BNI recorded a provision of Rp2.7 trillion, an increase compared to the previous year's Rp2.3 trillion. This increase came from the estimated loss on commitments and contingencies, which amounted to Rp2.2 trillion in 2021 compared to Rp2.7 trillion on December 31, 2022. This was due to the establishment of a provision for off balance sheet accounts as a result of the implementation of PSAK 71 in 2020. Meanwhile, reserves for legal cases and other cases decreased by Rp30 billion compared to December 31, 2021.

Other Liabilities

Other liabilities increased by 2.9% from Rp20.5 trillion in 2021 to Rp21.1 trillion in 2022. The largest component of other liabilities was payables to policyholders that increased 7.8% to Rp16.0 trillion in 2022 from the previous year's Rp14.8 trillion.

Debt Securities

By Relationship	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021

Total	35,654	32,458	44,114	3,196	9.8	(11,656)	(26.4)

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

BNI borrowings consist of a number of loan types, namely forwarding loans, liquidity loans for primary cooperative loans to its members, bilateral loans, banker's acceptance, and other loans. Total borrowings for the period ending December 31, 2022 amounted to Rp35.7 trillion, an increase of 9.8% from the previous year's Rp32.5 trillion. This increase was due to the increase in bilateral loans by 2.1% to Rp28.9 trillion in 2022 from Rp28.3 trillion the previous year, which was dominated by an increase in foreign branch loans.

Subordinated Securities

By Relationship	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

As well as corporate bonds, BNI also issued subordinated securities in the form of BNI Subordinated Medium Term Notes I 2018 ("Subordinated MTN"), BNI Tier 2 Subordinated Notes, and BNI Additional Tier 1 Capital Securities.

BNI received an effective statement from OJK through letter No. S-73/PB.31/2018 to issue BNI Subordinated Medium Term Notes I 2018 on June 8, 2018 for a total of Rp100.0 billion with a term of 5 years, and a coupon of 8.0% per year paid quarterly. The BNI Subordinated MTN were issued with a limited offer.

On March 30 2021, BNI issued Tier 2 Subordinated Notes (BNI Tier 2 Capital Bond 2021) for US\$500 million for a period of 5 years, with a coupon of 3.75% per year paid semiannually, and listed on the Singapore Exchange. Tier 2 Subordinated Notes can be recorded as a component of supplementary capital (Tier 2) based on approval from the Financial Services Authority through letter No. S-64/PB.31/2021 dated March 31, 2021.

On September 24, 2021, BNI issued Additional Tier 1 Capital Securities (BNI Additional Tier 1 Capital Bond 2021) for US\$600 million with no term but a call option of 5.5 years, with a coupon of 4.30% per year paid semi-annually, and listed on the Singapore Exchange. Additional Tier 1 Capital Securities can be recorded as a component of additional core capital (Additional Tier 1) based on approval from the Financial Services Authority through letter No. S-210/PB.31/2021 dated September 30, 2021.

BNI used the proceeds from the Subordinated MTN issuance to strengthen complementary capital (Tier 2) and working capital in the context of business development, especially for lending and increasing the composition of long-term fund structure, in accordance with OJK Regulation No. 11/POJK.03/2016 concerning Minimum Capital Adequacy Requirements for Commercial Banks, as amended by OJK Regulation No. 34/POJK.03/2016, and they will subsequently be used by BNI to support the increase in productive assets.

TEMPORARY SYIRKAH FUND

Since February 1, 2021, BNI Syariah has officially joined Bank Syariah Indonesia in accordance with the approval of the Capital Market Supervisory Financial Services Authority (OJK) through letter No. S-289/D.04/2020 dated December 11, 2020 and through OJK Banking Supervision letter No. 4/KDK.03/2021 dated January 27, 2021.

By merging BNI Syariah with Bank Syariah Indonesia, BNI's control over BNI Syariah has ended and consolidation is not carried out in the consolidated financial statements of BNI and its Subsidiaries.

EQUITY

BNI's total equity increased by 13.7% to Rp140.2 trillion in 2022. This significant increase came from an increase in retained earnings of 20.2%, or Rp15.8 trillion compared to 2021 as a result of BNI's profit growth.

Equity	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021

Total Equity	140,198	126,520	110,684	13,678	10.8	15,836	14.3

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Share Capital

BNI's Share capital reached Rp9.1 trillion in 2022, the same as in 2021, which reached Rp9.1 trillion.

Additional Paid-in Capital

BNI's additional paid-in capital/agio shares reached Rp17.0 trillion in 2022, the same as in 2021, which reached Rp17.0 trillion.

Asset Revaluation Reserve

The asset revaluation reserve in 2022 was Rp15.4 trillion, a decrease of Rp586 million from 2021 due to the realization of gains from revaluation of fixed assets in 2021, which were sold in 2022.

Transactions with Non-Controlling Interests

Transactions with non-controlling interests reached Rp2.3 trillion in 2022, the same as in 2021, which reached Rp2.3 trillion.

Unrealized gains/(losses) on marketable securities and Government Bonds, measured at fair value through other comprehensive income, net of tax

Unrealized net losses from the increase in the fair value of marketable securities and Government Bonds measured at fair value through other comprehensive income net of tax at BNI amounted to Rp2.0 trillion in 2022.

This was a decrease of Rp3.9 trillion from 2021 when unrealized profit amounted to Rp1.9 trillion. The decrease was due to the mark to market calculation of FVOCI and AC securities with an increase in market reference rates in 2022 compared to 2021.

Difference in Foreign Currency Translation of Financial Statements

The difference in exchange rates due to the translation of financial statements in foreign currencies at BNI 2022 reached Rp36 billion. This was due to a decrease of Rp 19 billion compared to Rp17 billion in 2021.

Retain Earnings

Retained earnings in 2022 reached Rp94.1 trillion, an increase of Rp15.8 trillion, or 20.2% compared to Rp78.3 trillion the previous year.

Non-controlling interests

BNI's Non-controlling interests in the consolidated net assets of subsidiaries reached Rp4.4 trillion, an increase of 57.6%, or Rp1.6 trillion from Rp2.8 trillion. This increase was due to non-controlling interests of Rp1.4 trillion from the acquisition of Bank Mayora.

Treasury shares

In 2022, the Bank allocated treasury share capital (Treasury Shares) of Rp207,475 million to a Share Ownership Program for Bank Management and Employees in the form of Bonus Shares. So the share capital repurchased (treasury shares) at BNI was nil in 2022.

CONSOLIDATED STATEMENT OF PROFIT OR LOSS AND OTHER COMPREHENSIVE INCOME

BNI recorded a profit in 2022 of Rp18.3 trillion, a significant growth of 68.0% YoY, due to the growth of Net Interest Income (NII) that grew 8.0% YoY, and other Operating Income that also grew positively by 14.7% YoY.

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

**) Mudharabah profit sharing prior to Bank Syariah Indonesia becoming effective as of February 1, 2021

The composition of interest and sharia expenses increased by Rp1.6 trillion or 13.2% compared to the previous period. Customer and other bank deposits were the main source of funding for BNI with a contribution of 80.4% in 2022 and 88.1% in 2021. The increase in interest expense was influenced by an increase in interest expense on borrowings of Rp509 billion, and interest expenses on securities issued of Rp427 billion.

Interest Income and Sharia Income - Net

BNI's interest income and sharia income - net was Rp41.3 trillion, an of 8.0% compared to Rp38.2 trillion 2021. This was due to the Bank's success in optimizing interest income both from loans and other financial assets.

Premium Income - Net

This account represents the contribution of BNI Life as a BNI subsidiary to BNI's consolidated income.. BNI Life's net premium reached Rp1.6 trillion in 2022, an increase of 10.9% compared to Rp1.4 trillion in 2021. In addition, investment income was affected by fluctuations in market prices for securities and government bonds, which are BNI Life's investment vehicles for its development portfolio.

Other Operating Income

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

**) Sharia income from BNI Syariah before the effective merger to PT Bank Syariah Indonesia Tbk as of February 1, 2021.

Overall, other operating expenses increased by 9.1% to Rp27.1 trillion in 2022, an increase of Rp2.3 trillion compared to Rp24.8 trillion in 2021. This increase supported BNI's business expansion throughout 2022. The increase in other operating expenses was dominated by salaries and allowances that increased by Rp1.3 trillion or 11.3% compared to 2021. Increases also occurred in promotion expenses, other expenses, and Deposit insurance premiums of 21.0%, 25.0% and 9.2%.

Allowance for Impairment Losses

The allowance for impairment losses in 2022 decreased by Rp6.8 trillion, or 37.1% to Rp11.5 trillion from the previous Rp18.3 trillion in 2021. This decrease is a bank risk management policy in line with the trend of asset quality recovery and the gradual recovery of economic conditions.

Profit Before Tax Expenses

BNI's profit before tax expenses in 2022 was Rp22.7 trillion, a significant increase of 80.8% compared to Rp12.6 trillion in 2021.

Tax Expense

BNI's tax expense was Rp4.2 trillion in 2022, an increase of 167.2% compared to Rp1.57 trillion in 2021. This was mainly due to an increase in profit before tax of Rp10.1 trillion, from Rp12.6 trillion in 2021 to Rp22.7 trillion in 2022.

Profit for the Year

Supported by the growth in Net Interest Income, and an increase in operating income other than interest, BNI posted profit for the year of Rp18.5 trillion, an increase of 68.4%.

In 2022, BNI's other comprehensive income experienced a loss of Rp3.8 trillion, different from the previous year's profit of Rp745 billion. This was dominated by the loss position from changes in the fair value of financial assets measured at fair value through other comprehensive income. which decreased significantly in 2022.

Total Comprehensive Profit for the Current Year

BNI's attributable profit and comprehensive income reached Rp14.7 trillion, an increase of Rp3.0 trillion, or 25.0% compared to Rp11.7 trillion in 2021.

Earnings per Share Attributable to Owners of the Parent Entity

Basic earnings for the year per share is calculated by dividing profit for the year attributable to owners of the parent entity by the weighted average number of ordinary shares outstanding during the year.

Description	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)
Profit for the current year attributable to Equity Holder of the Parent Entity (Rp-billion)	18,312	10,898	3,280	7,414	68.0	7,619	232.3
Weighted average number of ordinary shares outstanding (million shares)	18,638	18,620	18,632	18	0.1	(12)	(0.06)
Basic earnings per share attributable to Equity Holder of the Parent Entity (full amount)	983	585	176	398	68.0	409	232.4

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

The Company's diluted profit attributable to the owners of the parent entity was Rp983 in 2022 compared to Rp585 in 2021, an increase of 68.0%.

CONSOLIDATED STATEMENT OF CASH FLOWS

On a consolidated basis, in 2022 BNI recorded a decrease in net cash flow of Rp9.6 trillion, a decrease of 120.8% compared to net cash flow in 2021 of Rp45.9 trillion. The decrease in net cash flow was due to investing activities in purchasing securities and government bonds during 2022. Net cash flows from Operating, Investing and Funding Activities in 2022 amounted to Rp20.0 trillion, (Rp32.2 trillion), and Rp2.7 trillion.

Cash Flow from Operating Activities

BNI's net cash from operating activities was Rp20.0 trillion in 2022 and Rp97.5 trillion in 2021. The operating cash flow activities came from customer deposits of Rp32.0 trillion in 2022, lower than the previous year's Rp81.6 trillion. The decrease in cash flow from operating activities was also affected by an increase in loans of Rp65.9 trillion from Rp5.7 trillion in 2021 to Rp71.6 trillion in 2022.

Cash Flow from Investment Activities

BNI net cash used for BNI's investment activities reached Rp32.2 trillion in 2022, and was dominated by purchases of government bonds (net) of Rp22.4 trillion, and purchases of securities (net) of Rp10.7 trillion in 2022. There was also investment cash flow from the acquisition of Bank Mayora of Rp3.5 trillion and the investment in BNI Ventures of Rp500 billion.

Cash Flow from Financing Activities

Cumulatively, net cash used for financing activities was Rp2.7 trillion in 2022. 2 financing activities dominated, namely borrowings of Rp13.7 trillion and borrowings repayments of Rp10.9 trillion. There were also dividend payments and receipts from issued securities (net) of Rp2.7 trillion and Rp2.0 trillion, respectively.

Cash and Cash Equivalents End of Year

BNI recorded a reduced deficit in net cash and cash equivalents of Rp9.6 trillion in 2022, which was dominated by cash flows from buying securities and Government bonds as investment activities. At the end of 2022, cash and cash equivalents amounted to Rp163.9 trillion.

Capital Ratio: Capital Adequacy Ratio

BNI's capital management strategy can be seen in the capital structure target achievement, namely the Minimum Capital Adequacy Ratio (KPMM) in 2022 that was above the set target. This was due to the increase in BNI's performance during 2022. Even though the Capital Adequacy Ratio (CAR) in 2022 decreased to 19.3% compared to 19.7 % in 2021, in nominal terms, BNI's total capital increased by Rp5.7 trillion YoY with core capital which increased by IDR 6.2 trillion compared to 2021 in line with the increase in BNI's profit for the year of Rp7.8 trillion YoY. BNI's capital adequacy ratio achievement was much higher than the provisions set by the regulator of a minimum of 13.8% (according to the bank's risk profile ranking of 2).

Asset Quality Ratios

- Non Performing Loan Ratio (NPL)
BNI's NPL as of December 31, 2022 decreased from the previous year's 3.7% to 2.8% with Net NPL also decreasing from 0.7% to 0.5%. This was due to BNI's policy to prudently manage productive assets during the loan expansion period, by selectively choosing loan sectors that focus on Top Tier debtors, supported by management of debtors in trouble through remedial and restructuring schemes to support the debtor's financial and business conditions, all key steps for BNI's NPL management.
- Coverage Ratio
BNI's coverage ratio on December 31, 2022 was 278.3%, an increase compared to 233.4% in 2021. Establishing a higher coverage ratio is a risk mitigation step for future non-performing loans.

Profitability Ratio

- Return on Assets (ROA)
BNI's Return on Assets (ROA) was 2.5%, a significant increase compared to 1.4% in 2021. This was due to the significant increase in BNI's profit in 2022.

- Return on Equity (ROE)
BNI's Return on Equity (ROE)) - Equity Based was 14.9%, an increase compared to of 9.4% in 2021. This was due to significant increase in BNI's profit in 2022 with BNI's capital being sufficient to support the Company's operations.
- Net Interest Margin (NIM)
BNI's Net Interest Margin (NIM) in 2022 increased from 4.7% in 2021 to 4.8% in 2022. This was due to the Bank's success in increasing business expansion in line with the recovery in economic conditions with Interest Income growing by 9.3% during 2022.
- Ratio of Operating Expenses to Operating Income
BNI's BOPO (Operating Expenses to Operating Income) ratio decreased to 68.6% in 2022 from 81.2% in 2021. This was due to the growth in BNI's operating income that reached 10.0% in 2022, as well as CKPN expenses that recorded negative growth of 37.1% during 2022.
- Cost to Income Ratio (CIR)
Cost to Income Ratio (CIR) is a ratio that measures the efficiency level of operating expenses incurred to optimal income. BNI's CIR fell 0.7% from 43.3% in 2021 to 42.6% in 2022 in line with revenue growth, and operational expenses being maintained at 8.7% growth during 2022, with good allocation of costs, and BNI's transformation for encouraging business growth where efficiency and cost allocation are still being implemented.

Liquidity Ratio

- Loan to Deposit Ratio (LDR)
BNI's Loan to Deposit Ratio shows the ratio of loans disbursed to deposits collected by the Bank. BNI LDR in 2022 was 84.2%, an increase of 4.5% due to lending increasing (10.5% YoY) compared to Third Party Funds (TPF) that only grew 4.6% YoY, mainly due to tighter market liquidity.

Macroprudential Intermediation Ratio (RIM)

BNI's Macroprudential Intermediation Ratio in 2022 increased to 83.4% compared to 74.1% in 2021. The RIM ratio level was still below the regulatory requirements of 84%-94%. However, there was a relaxations not subject to disincentives if the RIM is outside the specified range.

Compliance Ratio

Statutory Reserves (GWM)

BNI consistently maintained an optimal level of liquidity adequacy to support its daily operations and comply with Bank Indonesia regulations through the Minimum Statutory Reserves (GWM). In 2022, BNI's Rupiah GWM position is 11.9% and Foreign Currency GWM was 4.0%, an increase compared to the previous year's Rupiah GWM of 7.7% and 4.0% respectively, as a result of the interest rates policy by Bank Indonesia until the end of 2022.

BNI's Minimum Statutory Reserves (GWM) were in accordance with Bank Indonesia Regulation (PBI) No. 24/4/PBI/2022 dated March 1, 2022 concerning Statutory Reserves for Commercial Banks in Rupiah and Foreign Currency for Conventional Commercial Banks, and the Board of Governors Members Regulation (PADG) No. 24/8/PADG/2022 dated June 30, 2022 (2021: the Bank's Minimum Statutory Reserves (GWM) was in accordance with Bank Indonesia Regulation (PBI) No. 20/3/PBI/2018 dated March 29, 2018 concerning Minimum Statutory Reserves for Commercial Banks in Rupiah and Foreign Currency for Conventional Commercial Banks, and the Board of Governors Members Regulation (PADG) No. 22/19/PADG/2020 dated July 29, 2020).

Net Open Position

BNI's Net Open Position (NOP) for the period ending December 31, 2022 was 1.6%, higher than the previous year's position of 0.9%. However, this figure is still far below the maximum amount set by BI in PBI No. 5/13/PBI/2003 concerning the Net Open Position of Commercial Banks, as amended several times, most recently by PBI No. 17/5/PBI/2015, which is 20% of the capital.

COMMITMENTS AND CONTINGENCIES

BNI has commitments and contingencies. An overview of the Bank's commitments and contingencies stated at contract value are as follows:

	2022 (Rp- billion)	2021 (Rp- billion)	2020* (Rp- billion)	Increase (Decrease) 2021-2022	
				Nominal (Rp- billion)	Percentage (%)

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Commitment receivables increased by 32.8% in 2022 to reach Rp23.6 trillion, most of which was for Purchase of Foreign Currency Futures Not Resolved. The total commitment liabilities in 2022 increased by 21.9% compared to 2021, largely influenced by the increase in the position of Spot Sales and Derivatives that were still running in 2021, of 35.8%. Contingent receivables in 2022 increased by 11.9% compared to 2021, and was dominated by an increase in Bank Guarantees Received by 15.6% and Others by 15.8%. Contingent liabilities increased by 10.4% in 2022 compared to 2021, and was affected by the increase in Bid Bonds. Overall, fluctuations in the movement of commitments and contingencies were in line with loan growth, considering that debtors were increasingly optimizing the use of BNI's products and services with competitive features.

DERIVATIVES AND HEDGING FACILITIES

BNI conducts derivative transactions for the Bank's and the customer's interests. As of December 31, 2022, there was an increase in derivative transactions compared to the previous year. The increase in transactions was in line with the needs of the Bank and the needs of customers to conduct transactions, or also hedge when managing market risk. The increase in derivative transactions was dominated by foreign currency swaps and interest rate swaps.

In conducting its business, BNI conducts derivative financial instrument transactions such as foreign currency futures contracts, foreign currency swaps, interest rate swaps, cross currency swaps and option transactions to manage exposure to market risks such as currency risk and interest rate risk. Derivative financial instruments are recognized in the consolidated statement of financial position at fair value. Any increase in the fair value of a derivative contract is recorded as an asset when the fair value is positive and as a liability when the fair value is negative. Derivative receivables and payables are classified as financial assets and liabilities at fair value through profit or loss. Receivables or losses resulting from changes in fair value are recognized in the consolidated income statement.

The fair value of derivative instruments is determined based on discounted cash flows and brokers' quoted price models or other instruments with similar characteristics.

In addition, in conducting business, BNI carries out derivative financial instruments transactions such as foreign currency forward contracts, foreign currency swaps, interest rate swaps and cross currency swaps for the purpose of customer funding, trading and hedging transaction needs.

All derivative receivables as of December 31, 2022 and 2021 were classified as current based on the Bank's management review and evaluation.

BANK HEALTH LEVEL

The Bank's Health Level (BHL) is the result of the Bank's risk and performance assessment. The Bank Health Level Assessment is carried out using a Risk-based Bank Rating approach both individually as well as on a consolidated basis. The Bank's health level is a means to identify at an early stage the bank's problems, determine the future business strategy, formulate and implement corrective action over the Bank's weakness/problem, provide the basis for the process of linking capital with risk, as a basis for decision-making as well as to enhance competitiveness.

For the supervisory authority, it is a tool for determining the strategy and focus of supervision of the Bank.

The Bank's Health Level Assessment is based on 4 (four) factors as follows:

- Risk Profile**
Risk Profile assessment is conducted by evaluating the risks inherent in the Bank's activities and the quality of risk management implementation on the 8 types of risk.
- Good Corporate Governance**
Good Corporate Governance assessment evaluates the quality of the Bank's management in the application of Good Corporate Governance principles.
- Earnings**
Assessment of the Earnings factor covers the evaluation of profitability performance, profitability sources, profitability sustainability, and profitability management.
- Capital**
Assessment of Capital covers the evaluation of capital adequacy and adequacy of capital structure management. At BNI, evaluation of capital adequacy is related to the Bank's Risk Profile.

Assessment of Bank Health Level is reported to the regulator (OJK) every 6 months (semi-annually) in June and December. Bank BNI's Health Level assessment results for December 31, 2021 ranked "Healthy" meaning that:

- The condition of the Bank is generally healthy, so it is considered capable of facing significant negative effects from changes in business conditions and other external factors.

- The ratings for the assessment factors (Risk Profile, Governance, Profitability, and Capital) are generally good. If there are any weaknesses, then in general these weaknesses are less significant.

PLEDGED ASSETS

In the period ending December 31, 2022, there were no pledged assets at BNI.

IMPACT OF INTEREST RATE CHANGES ON BANK PERFORMANCE

BI's benchmark 7-day (Reverse) Repo Rate (7DRR) interest rate increased by 2.25% in 2022 to 5.75%, and the Financing to Funding Ratio (FFR) increased by 4.25% to 4.50%.

The increase in BI7DRR had an impact on increasing BNI's interest income which was felt in the Q3 2022, as reflected in BNI's loan yield (Bank Only) on a Year to Date (YtD) basis that increased from 7.36% as of June 2022 to 7.41% as of September 2022, and 7.50% as of December 2022. The increase in loan yield was driven by BNI's credit reference and manage rate with a total composition of 82% of BNI's total loans.

BNI's Earning Assets, other than loans, also experienced interest rate adjustments, in line with changes in market interest rates. This was reflected in the marketable securities yield that increased by 3bps from 4.35% as of December 2021 to 4.38% as of December 2022, and placements yields that increased from 0.75% as of December 2021 to 2.17% as of December 2022. Overall, BNI's yield on earning assets increased by 38bps YoY from 6.10% as of December 2021 to 6.48% as of December 2022.

On the liabilities side, the increase in the benchmark interest rate was followed by a change in the Rupiah Minimum Reserve Requirement (GWM) to 9.00% in September 2022, thereby putting pressure on the Cost of Fund (CoF) side. However, BNI had made interest cost efficiencies in Q1 2022 as reflected in the reduction in BNI's TPF CoF from 1.60% as of December 2021 to 1.42% as of June 2022, so that the increase in the benchmark interest rate starting in QIII could be managed by BNI properly, as reflected in BNI's TPF CoF that was maintained at the level of 1.51% as of December 2022, or an increase of 9bps.

The Cost of Interest Bearing Non-TPF Liabilities also increased following the market interest rates movement with increases ranging from 6bps YoY for Marketable Securities Issued, and 213bps YoY for Borrowings & Repo. Overall, the Cost of Interest Bearing Liabilities increased by 23bps YoY from 1.65% as of December 2021 to 1.88% as of December 2022.

As explained above, the impact of rising interest rates on asset and liability portfolios shows that the asset portfolio composition, especially the BNI loan portfolio and the efficiency of the Cost of Fund (CoF) DPK at the beginning of the year had a positive impact on improving BNI's Net Interest Margin (NIM). It should be noted that BNI's NIM increased 11bps YoY from 4.70% as of December 2021 to 4.81% as of December 2022.

PRIME LENDING RATE

Based on OJK Regulation No. 37/POJK.03/2019 concerning Transparency and Publication of Bank Reports and Bank Indonesia Regulation No. 7/6/PBI/2005 concerning Transparency of Bank Product Information and Use of Customer Personal Data (State Gazette of the Republic of Indonesia 2005 Number 16, Supplement to the State Gazette of the Republic of Indonesia No. 4475), Commercial Banks who carry out conventional business activities in Indonesia are

required to report and publish the Prime Lending Rate (SBDK) in Rupiah.

The prime lending rate implementation aims to provide clarity to customers and facilitate customers in weighing the benefits, costs and loan risks offered by the Bank. In addition, publication of prime lending rates are intended to improve good governance and promote healthy competition in the banking industry, among others, through the creation of better market disciplines. In addition, the prime lending rate is used as an indicator of the amount of loan interest rates that will be charged to customers applying for Bank loans. Therefore, BNI updates the prime lending rate in accordance with the movement of the reference interest rate set by Bank Indonesia. In general, the prime lending rate is calculated based on 3 (three) components, namely the Cost of Funds for Loans (HPDK) arising from customer fundraising activities, operating expenses incurred for fundraising and lending and the profit margin component set by the Bank in its lending activities. The prime lending rate calculation does not take into account the risk premium component of the debtor, the amount of which depends on the risk assessment of each debtor. Thus, the loan interest rate charged to debtors is not necessarily the same as the prime lending rate.

BNI is required to report the prime lending rate calculation to Bank Indonesia on a monthly basis and periodically publish in the wider media. The prime lending rate calculation applies to types of corporate loans, retail loans, micro loans, and consumption loans (KPR and non- KPR). However, Bank Indonesia submits the classification of corporate loans, retail loans and consumer loans (KPR and non-KPR) based on the internal criteria used by each bank.

The following shows the prime lending rate determined by BNI in 2022:

	Prime Lending Rate Per Year Based On Business Segments				
	Corporation Loans (%)	Retail Loans (%)	Micro Loans (%)	Consumption Credit	
				KPR (%)	Non KPR (%)
Prime Lending Rate	8.00	8.25	N/A	7.25	8.75

FEE BASED INCOME ACCELERATION GROWTH

	2022 (Rp-billion)	2021 (Rp-billion)	2020 (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)
Recurring Fee	13,629	12,620	11,304	1,009	8.0	1,316	11.6
Non Recurring Fee	1,191	1,019	560	172	16.9	459	82.0
Total	14,820	13,639	11,864	1,181	8.7	1,775	15.0

BNI's Fee Based Income in 2022 amounted to Rp14.8 trillion (Consolidated), an increase of 8.7% from Rp13.6 trillion in 2021. This increase was dominated by 3 (three) banking activities including Syndication, Bank Guarantee Under Counter (BGUC), and Share Investments. A significant increase occurred in Syndications that grew in 2022 by 100.8%, and was dominated by an increase in the Management Fees for syndicated loans. An increase also occurred in the Bank Guarantee Under Counter (BGUC) of 67.7%. In addition, Shares Investments also increased by 53.9%, and was dominated by BNI's profit portion from BSI.

ABILITY TO PAY DEBT

BNI maintained good liquidity and solvency levels for the period until December 31, 2022. This was reflected in BNI's ability to fulfill all maturing obligations in a timely manner, both for principal debt or interest expense payments. The banking financial ratios to measure BNI's liquidity and solvency are as follows:

1. Bank Liquidity: Ability to Pay Short-Term Debt

BNI's ability to meet its short-term obligations is achieved through good liquidity management. To increase short-term liquidity resilience, BNI maintains adequate liquidity by managing several indicators, including the Primary Reserve (Minimum Demand Deposit and Cash), Secondary Reserve (Liquidity Reserve), and Liquidity Coverage Ratio (LCR) in accordance with regulatory requirements. LCR is a comparison ratio between High Quality Liquid Assets (HQLA) and estimated total net cash outflow for the next 30 (thirty) days in a crisis scenario. In December 2022 BNI's LCR reached 219.0% (bank only) and 223.44% (consolidated), above the regulatory provisions, which stipulate that the lowest LCR fulfillment is 85% until January 31, 2023 or during the banking relaxation period. To manage liquidity over a longer time period (1 year), BNI maintained its Net Stable Funding Ratio (NSFR) by increasing the Bank's funding stability, adjusted to the composition of assets and off balance sheet accounts. NSFR is the ratio of the Available Stable Funding to the Required Stable Funding. As of December 2022, BNI's NSFR was 164.1% (Bank Only) and 165.72% (consolidated), above the regulatory requirement for minimum NSFR fulfillment of 85% until January 31, 2023 or during the banking relaxation period.

2. Bank Solvability: Ability to Pay Long-Term Debt

BNI's Capital Adequacy Ratio - CAR is the ratio of capital to Risk Weighted Assets - RWA. In 2022 BNI's CAR decreased to 19.3%, from 19.7% in 2021. This shows that BNI's capital structure has the capability to be able to offset loan risk, market risk and operational risk, as the ratio is higher than the minimum CAR set by the regulator.

LOAN COLLECTIBILITY

ASSET QUALITY

Asset Quality	2022 (%)	2021 (%)	2020 (%)	Increase (Decrease) 2021-2022
Non Performing Loan (NPL) Net	0.5	0.7	0.9	(0.2)
Non Performing Loan (NPL) Gross	2.8	3.7	4.3	(0.9)
Adequacy ratio of provision for losses to non-performing loans/Coverage Ratio	278.3	233.4	182.4	44.9

As of December 31, 2022, BNI's Gross NPL was Rp18.0 trillion, or 2.8% of total loans, a decrease from December 31, 2021 of 0.9%, or Rp3.5 trillion. From the aspect of reserves, this is in accordance with BNI's commitment to establish reserves in accordance with the risk profile where on December 31, 2022 the Coverage Ratio increased from the previous year to 278.3%, an increase of 44.9%.

LOAN RESTRUCTURING

As expected, the total number of restructured loans continued to decline, as of December 31, 2022 BNI's total restructured loans amounted to Rp92.1 trillion, or 14.2% of total loans, a decrease of Rp32.4 trillion, or 36.8% from December 31, 2021.

Restructured Loans based on Restructuring Categories							
Restructuring Category	2022 (Rp-billion)	2021 (Rp-billion)	2020* (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp-billion)	Percentage (%)	Nominal (Rp-billion)	Percentage (%)
Decrease in Loan Interest Rates	27,824	34,984	32,360	(7,160)	(20.5)	2,624	8.1
Extension of Loan Period	26,100	33,912	45,582	(7,812)	(23.0)	(11,670)	(25.6)
Other Restructuring Scheme	38,135	54,033	61,652	(15,898)	(29.4)	(7,619)	(12.4)
Total	92,059	122,929	139,594	(30,870)	(25.1)	(16,665)	(11.9)
Allowance for Impairment Losses	(36,560)	(35,065)	(29,004)	(1,495)	4.3	(6,061)	20.9
Total - Net	55,499	87,864	110,590	(32,365)	(36.8)	(22,726)	(20.5)

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Restructured Loans per Collectability							
Collectibility	2022 (Rp-billion)	2021 (Rp-billion)	2020* (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp-billion)	Percentage (%)	Nominal (Rp-billion)	Percentage (%)
Current	62,684	87,112	106,993	(24,428)	(28.0)	(19,881)	(18.6)
Special Mention	19,183	24,523	20,775	(5,340)	(21.8)	3,748	18.0
Substandard	2,804	3,862	7,036	(1,058)	(27.4)	(3,174)	(45.1)
Doubtful	723	1,528	2,344	(805)	(52.7)	(816)	(34.8)
Bad	6,665	5,904	2,446	761	12.9	3,458	141.4
Total - Net	92,059	122,929	139,594	(30,870)	(25.1)	(16,665)	(11.9)

*) The 2020 financial performance is restated by taking into account the impact of the BNI Syariah performance.

Restructured Loans per Type of Business Sector							
Business Sector	2022 (Rp-billion)	2021 (Rp-billion)	2020 (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp-billion)	Percentage (%)	Nominal (Rp-billion)	Percentage (%)
Business Services	11,250	14,612	18,058	(3,362)	(23.0)	(3,446)	(19.1)
Social Services	1,339	2,196	4,911	(857)	(39.0)	(2,715)	(55.3)
Construction	14,570	18,092	13,389	(3,522)	(19.5)	4,703	35.1
Others	6,908	11,348	13,695	(4,440)	(39.1)	(2,347)	(17.1)

Restructured Loans per Type of Business Sector

Business Sector	2022 (Rp-billion)	2021 (Rp-billion)	2020 (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp-billion)	Percentage (%)	Nominal (Rp-billion)	Percentage (%)
Electricity, Gas and Water	428	2,289	2,676	(1,861)	(81.3)	(387)	(14.5)
Freight, Warehousing and Trade	6,963	5,699	9,956	1,264	22.2	(4,257)	(42.8)
Restaurant and Hotel	19,741	27,457	36,631	(7,716)	(28.1)	(9,174)	(25.0)
Mining	1,283	1,502	1,429	(219)	(14.6)	73	5.1
Industry	24,557	29,904	26,174	(5,347)	(17.9)	3,730	14.3
Agriculture	5,020	9,830	12,675	(4,810)	(48.9)	(2,845)	(22.4)
Total	92,059	122,929	139,594	(30,870)	(25.1)	(16,665)	(11.9)

The decrease in the total number of restructured loans was driven by a decrease in the most affected sector, such as the Restaurant and Hotel sector that fell by Rp7.7 trillion or 28.1%, the industrial sector that fell by Rp5.3 trillion or 17.9%, and the Agriculture sector that fell by Rp4.8 trillion or 48.9% from the positions as at December 31, 2021, which shows that the economy is now in a recovery period.

Restructured Loans per Designation Type

Designation	2022 (Rp-billion)	2021 (Rp-billion)	2020 (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp-billion)	Percentage (%)	Nominal (Rp-billion)	Percentage (%)
Working capital Loans	60,116	74,401	73,197	(14,285)	(19.2)	(1,204)	(1.6)
Investment Loans	26,191	40,677	55,271	(14,486)	(35.6)	14,594	26.4
Consumptive Loans	5,752	7,851	11,126	(2,099)	(26.7)	3,275	29.4
Total - Net	92,059	122,929	139,594	(30,870)	(25.1)	16,665	11.9

When viewed from the type of loan disbursed, the largest restructured loans composition as of December 31, 2022 was in Working Capital Loans that accounted for 65.3% of the total restructured loans of Rp60.1 trillion, but on a YoY basis it experienced a significant decrease of Rp14.3 trillion YoY in line with the economic recovery during 2022.

Restructured Loans per Segment Type

Segment	2022 (Rp-billion)	2021 (Rp-billion)	2020 (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp-billion)	Percentage (%)	Nominal (Rp-billion)	Percentage (%)
Consumer	5,766	7,851	10,940	(2,085)	(26.6)	3,089	28.2
Corporate	48,418	61,349	64,310	(12,931)	(21.1)	2,961	4.6
Small	13,543	19,629	33,180	(6,086)	(31.0)	13,551	40.8
Middle	24,332	34,100	31,164	(9,768)	(28.6)	(2,936)	(9.4)
Total	92,059	122,929	139,594	(30,870)	(25.1)	16,665	11.9

The segment that experienced a decrease in restructured loans was in the Corporate segment that decreased by Rp12.9 trillion, or 21.1% YoY, followed by the Middle segment that decreased by Rp9.8 trillion or 28.6% YoY.

CAPITAL STRUCTURE AND MANAGEMENT POLICIES FOR CAPITAL STRUCTURE AND RISK MANAGEMENT PRACTICES

KEBIJAKAN MANAJEMEN ATAS STRUKTUR MODAL BANK

BNI manages the Bank's capital to maintain a strong capital position to support business growth and maintain investor, depositor, customer and market confidence, and to ensure adequate capital to meet regulatory requirements, and to cover risks managed by the Bank. When managing capital, the Bank considers factors such as: optimizing capital return to shareholders, maintaining a balance between higher profits and gearing ratios, and the security provided by a healthy capital position. This is carried as BNI has a strong commitment to maintaining its capital structure composition in accordance with applicable provisions, and does not violate the minimum limit provisions applied by the Financial Services Authority (OJK) as the banking regulator.

Details of the Bank's Capital Structure

Capital Component-Bank Only	2022	2021	2020	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal	Percentage (%)	Nominal	Percentage (%)
Core Capital (Rp billion)	118,936	112,685	96,481	6,251	5.6	16,204	16.8
Supplementary Capital (Rp billion)	12,400	12,931	6,665	(531)	(4.1)	6,266	94.0
Total Core Capital and Supplementary Capital (Rp billion)	131,336	125,616	103,145	5,720	4.6	22,471	21.8
Risk Weighted Assets (RWA) for Credit Risk (Rp billion)	586,142	547,220	528,899	38,922	7.1	18,321	3.5
Risk Weighted Assets (RWA) for Operational Risk (Rp billion)	92,999	87,259	82,457	5,740	6.6	4,802	5.8
Risk Weighted Assets (RWA) for Market Risk (Rp billion)	2,244	1,722	3,277	522	30.3	(1,555)	(47.5)
Core Capital Ratio (%)	17.5	17.7	15.7	(0.2)		2.0	
Capital Adequacy Ratio for Credit Risk, Operational Risk and Market Risk (%)	19.3	19.7	16.8	(0.4)		2.9	

Core Capital

Core Capital represents the Bank's capital and consists of main core capital and additional core capital in accordance with OJK Regulation (POJK) concerning "Minimum Capital Adequacy Requirements for Commercial Banks". BNI's core capital increased by 5.5% from Rp112.7 trillion in 2021 to Rp118.9 trillion in 2022. This increase was due to an organic increase through retained earnings, and changes in the potential profit/(loss) position of changes in the fair value of financial assets measured at fair value through other comprehensive income, where in 2021 the potential fair value of financial assets was in a profit position Rp1.9 trillion, while in 2022 the potential fair value of financial assets was in a loss position of Rp2.0 trillion.

Supplementary Capital (maximum 100% of core capital)

Supplementary capital (referring to the Bank capital) consists of general reserves for productive assets and capital instruments that meet Tier 2 requirements. BNI's supplementary capital decreased by 4.1% from Rp12.9 trillion in 2021 to Rp12.4 trillion in 2022. This was due to a decrease in the value of sub-debt, calculated in supplementary capital (Tier 2) from the amortization of the value of the sub-debt until maturity.

Risk Management Practices

The Bank's Health Level (BHL) Assessment is reported to the regulator (OJK) every 6 months (semi-annually) in June and December. The results of the BNI BHL assessment for the period to December 31, 2021 were rated "Healthy" (stable compared to the previous year), meaning that:

1. The Bank's condition is generally healthy, and is considered capable of facing significant negative effects from changes in business conditions and other external factors;
2. The assessment factor ratings (Risk Profile, Governance, Profitability, and Capital) are generally good. If there are weaknesses, then in general these weaknesses are less significant.

BNI's risk profile, as one of the BHL assessment factors for the December 31, 2022 period, was ranked 2 (Low to Moderate). As a result of BNI's risk profile being in the Low to Moderate level, and based on calculations using the Internal Capital Adequacy Assessment Process (ICAAP), the minimum CAR based on the risk profile was 9.8%. If added to the buffer capital, the Conservation Buffer 2.5%, Countercyclical Buffer 0.0% and Capital Surcharge 1.5%, then the Minimum Capital Adequacy Ratio (KPMM) was 13.8%.

MATERIAL COMMITMENTS FOR CAPITAL GOODS INVESTMENT

No	Project Name	Vendor
1	IT Infrastructure Capability Improvement	PT Mastersystem Infotama PT Mitra Mandiri Infotama PT Multipolar Technology
2	Procurement of 2021 Advanced Non EMV ATM Replacements)	PT Diebold Nixdorf Indonesia
3	Purchase of Land in the Pantai Indah Kapuk 2 Area (PIK 2)	PT Kuku Mandiri Lestari
4	Construction of Dirkom Grha BNI Workspace	PT Setara Karya Permata
5	Improvement of IT Operational Service Capability	PT Mastersystem Infotama PT Multipolar Technology
6	Customer Biometric Authorization	PT IDPay Asia Jaya
7	Office Automation Furniture	PT Datascrip
8	BNI DigiCS (formerly SONIC)	PT Nusa Sistem Solusi
9	BNI Direct CR 2021	PT Wide Technologies Indonesia
10	Wealth Management Systems	PT Synpulse Indonesia Management Consulting

Commitment Purpose

The material commitment for capital goods investment includes the objective of committing to purchase capital goods as planned in the BNI Bank Business Plan (RBB).

Source of funds

BNI's Sources of funds uses any remaining investment budget, total depreciation expenses, and the distribution or a percentage of net profit from the previous fiscal year as a source of funding for capital expenditure.

Currency Used

All transactions carried out for the purpose of binding capital goods investment materials are denominated in rupiah.

Foreign Currency Risk Protection

BNI does not protect against foreign currency protection risks as all capital goods investment commitments are carried out in rupiah.

CAPITAL GOODS INVESTMENT REALIZATION

BNI issued funds for Capital Expenditure investment to purchase a number of fixed assets or to increase the value of fixed assets that are expected to provide value for future benefits.

Types of Capital Goods Investment

The capital goods investment in 2022 totalled Rp1.451 trillion and consisted of buildings and land, automation furniture, non-automation furniture and vehicles amounting to Rp404 billion, Rp899 billion, Rp146 billion and Rp3 billion respectively.

Capital Goods Investment Purpose

BNI's purchases of capital goods are made to support the Company's overall operational activities.

Capital Goods Investment Value

BNI's capital goods investment reached Rp1,451 trillion in 2022. This was done based on investment needs in that year to support the 2022 strategic policies to improve BNI's digital capabilities, as well to develop business operations and services.

The following table shoes details of the total capital goods investment:

Types of Capital Goods Investment	2022 (Rp-billion)	2021 (Rp-billion)	2020 (Rp-billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp-billion)	Percentage (%)	Nominal (Rp-billion)	Percentage (%)
Building and Land	404	340	483	64	18.8	(143)	(29.6)
Automation Equipment	899	673	414	226	33.6	259	62.6
Non Automation	146	185	87	(40)	(21.1)	99	113.8
Vehicles	3	-	-	3	100.0	-	-
Total	1,452	1,198	984	253	21.2	214	21.7

PROPERTY INVESTMENT

In the period ended December 31, 2022, BNI did not own any property assets used for investment purposes.

TARGET ACHIEVEMENT IN 2022

The Assumptions Used and Process for setting Target for 2022

In 2022, the COVID-19 pandemic in Indonesia and many other countries was coming under control. People's mobility and the economy were gradually returning to normal. Indonesia's trade balance has shown a surplus since May 2020. Domestic economic growth in the Q1 2022 (5.01% yoy) and in QIV 2021 (5.02% yoy).

Nevertheless, the positive growth of the national economy was still overshadowed by rising inflation due to soaring commodity prices and demand that had increased beyond supply. During the process of establishing the 2022 targets, Bank Indonesia believed that the inflation rate in 2022 would reach an upper limit of 4%, then in 2023 it would subside again. The IMF and World Bank projected that Indonesia's economic growth in 2022 would be 5.4% and 5.1%, better than the economic growth of other countries, as Indonesia's economic structure is supported by commodity exports. This was reinforced by historical data showing that Indonesia's economic growth pattern and inflation rate are positively correlated with trends in export commodity prices.

The positive growth of the Indonesian economy had an impact on banking performance. Loan growth continued its positive growth from June 2021. Loan risk also showed a decline, especially in the Q1 2022. Historically, banking NPLs have been more influenced by falling export commodity prices (palm & coal) and are less sensitive to rising inflation and oil prices. However, risks are still being watched due to the uncertainty over the resolution of the Russia-Ukraine conflict and the threat of stagflation, especially in developed countries, such as the United States and the Eurozone as well as increases in global benchmark interest rates.

Looking at data & information on economic developments during the process of setting the 2022 target, and taking into account the Government's direction and the Authorities' economic policies, the projections for Indonesia's 2022 macroeconomic indicators were as follows:

Indicator	2022 Assumptions
Economic Growth (%)	5.0 s.d 5.5
Inflation (%)	4.00 s.d 5.00
Rupiah/United States Dollar Exchange Rate (Rp)	14,000 s.d 15,000
BI 7 Days Repo Rate (%)	4.00 s.d 4,25
Loan Growth (%)	7.0 s.d 9.0
TPF Growth (%)	6.0 s.d 7.0
Oil Price (USD/barrel)	98,20 s.d 103,35

2022 Business Expansion Target Achievements			
	2022 Realization (Rp-billion)	2022 Target (Rp-billion)	Achievement of 2022 Target (%)
Loans disbursed	642,630	637,690	100.8
Deposits From Customers	762,795	731,012	104.3
Current Accounts	313,994	275,812	113.8
Savings	241,859	243,518	99.3
Deposits	206,942	211,682	97.8

BNI's success in establishing its strategies was reflected in the business expansion targets achievement, as reflected in the lending and the collection of TPF. Compared to the 2022 target, loan disbursement exceeded the loan disbursements the previous year. For total TPF, collecting customer deposits also exceeded the 2022 target, especially for demand deposits. Even though deposits recorded achievements below the target, the good performance of demand deposits and savings had a positive impact on the growth of BNI's low-cost funds.

Target Achievement Profitability in 2022 (Bank Only)			
	2022 Realization (Rp-billion)	2022 Target (Rp-billion)	Achievement of 2022 Target (%)
Net Profit (Rp trillion)	18,533	16,126	114.9
Return on Asset (ROA) (%)	2.5	2.2	113.4
Return on Equity (ROE) (%)	16.4	14.4	113.6
Return on Equity (ROE) - Equity Based	14.9	12.3	121.1
Net Interest Margin (NIM) (%)	4.8	4.7	102.8
Operating Expenses to Operating Income (BOPO) (%)	68.6	72.2	95.0
Cost to Income Ratio (CIR) (%)	42.6	42.6	99.9

With the success in achieving the business expansion targets described above, BNI's profitability returned a satisfactory performance. Net profit, Return On Assets (ROA), Return On Equity (ROE), and Net Interest Margin (NIM) all exceeded the targets set. At the same time, Operational Expenses to Operating Income (BOPO) and Cost to Income Ratios (CIR) were well streamlined. This reflects BNI's ability to set profitability targets and manage strategic initiatives to achieve targets; including efficiency strategies continuously carried out to create added value for the Bank's profitability.

Capital Structure and Other Important Financial Ratios Target Achievement in 2022			
	2022 Realization (%)	2022 Target (%)	Achievement of 2022 Target (%)
Minimum Capital Adequacy Ratio (MCAR)	19.27	18.58	103.7
Gross NPL	2.81	2.94	95.6

BNI's capital management strategy can be seen in the target capital structure achievement, in the Minimum Capital Adequacy Ratio (CAR) for 2022 where the achievement was above target. This target achievement was due to the increase in BNI's performance during 2022. Not only that, BNI's success can also be seen in the quality management of its productive assets. The Gross Non-Performing Loans (NPL) fell below set target. This demonstrates BNI's strong commitment to continuing to maintain the quality of its assets.

Human Capital Target Achievement in 2022			
	2022 Realization	2022 Target	Achievement of 2022 Target (%)
Number of Employees (people)	27,170	27,170	100.0
Education and Training Costs (Rp-billion)	26,713	28,282	94.4

HC management within BNI is good. The number of employees met the expected target. Also, the education and training costs were slightly below the target due to a change towards digital learning that had an impact on training cost efficiencies.

BUSINESS PROSPECTS AND PERFORMANCE PROJECTIONS FOR 2023

BUSINESS PROSPECTS IN 2023

Overall, 2023 is predicted to be a year full of challenges arising from inflationary pressures, economic slowdown, and continuing geopolitical conflicts. However, Indonesia's economy is expected to continue to grow at a higher rate than most other countries. Based on historical track records, global recessions generally have less of an impact on developing countries, including and especially Indonesia. The high contribution of domestic consumption and low exposure to exports/imports helps support the Indonesian economy during times of global economic shocks.

In 2023, the economy is expected to grow by 5.0% supported by household consumption, investments, Government spending and net exports. Inflation is expected to decline to 3.8% after the impact of the fuel price hike on consumer inflation subsidies. Pressure on the Rupiah exchange rate is expected to occur early in the first half of 2023 due to an increase in the benchmark interest rate in the United States, but it should ease in the second half of the year underpinned by Indonesia's strong economic fundamentals in terms of controlled inflation and good economic growth, which will attract capital flows into the country.

To anticipate the Rupiah's volatility, and the ongoing monetary tightening policy in the US, Bank Indonesia's benchmark interest rate rose to 5.75% in the first half of 2023, and is expected to remain at that level throughout 2023.

From the banking industry perspective, the stability of the domestic economy will be catalyst for healthy business growth. Bank loan growth in 2023 is estimated to be in the range of 7-9%, and TPF growth at a level of 7.2%-8.5%.

Macroeconomic Projection		
Macroeconomic Indicator	2022	2023F
Real GDP Growth (% YoY)	5.3	5.0
Private Sector Consumption (% YoY)	4.9	4.8
Government Consumption (% YoY)	(4.5)	6.1
Gross Domestic Fixed Capital Formation (% YoY)	3.9	3.6
Exports of Goods and Services	16.3	8.4
Imports of Goods and Services	14.8	9.3
Inflation Rate (% YoY)	5.5	3.8
BI7DRRR (%)	5.5	5.8
Exchange Rate (Annual average, Rp/USD)	14,874	14,950
Current Account Balance (% of GDP)	0.99	(0.2)
Loan Growth (%)	11.4	7.0 – 9.0
TPF Growth (%)	9.0	7.2 – 8.5

PERFORMANCE PROJECTIONS AND STRATEGIC PLANS FOR 2023

Taking into account the prospects and business potential as well as macroeconomic conditions, BNI estimates that Indonesia's economic growth in 2023 is at 5%, with loan growth in the range 7.0% to 9.0% and industry TPF growth by 7.2% to 8.5%. Using these assumptions, BNI prepared a Bank Business Plan (RBB) for 2023, with the following financial targets:

Performance Indicator

2023 Projection

Quality balance sheet growth

Credit Growth	9.0% s.d 10.0%
TPF Growth	6.0% s.d 7.0%
NPL Gross	< 2.5%

Profitability

Net Interest Margin (NIM)	>4.8%
Return on Equity (ROE) - Equity Based	15.7% s.d 16.0%

Our asset growth focus will be on healthy and good quality asset growth, and BNI is targeting loan growth in the range of 9.0% to 10.0% with a maximum gross NPL of 2.5% in 2023. To support loan disbursements, Third Party Funds growth is targeted at 6.0% to 7.0%.

These quality balance sheet growth target should have a positive impact on BNI's profitability, so we project NIM to be in the range of $\geq 4.8\%$ and ROE Equity Based in the range of 15.7% to 16.0%.

To achieve these targets, BNI has determined the following strategic steps for 2023:

1. Developing transaction & ecosystem solutions to meet customer needs.
2. Developing technology infrastructure and digital innovation through data driven based on analytics, customer experience, and expanding partnerships.
3. Focusing on sustainable improvement of CASA and FBI.
4. Increasing business expansion in the corporate top tier and priority sectors, value chains and cross selling by prioritizing a risk culture.
5. Continuing the transformation of human capital, culture and operations so they are more agile and lean in supporting the business.
6. Strengthening the international business networks to support global market penetration.
7. Optimizing BNI Group synergy by strengthening the position of Subsidiaries.

INFORMATION AND MATERIAL FACTS THAT OCCURRED AFTER THE DATE OF THE ACCOUNTANT'S REPORT

There are no material information and facts to report on that occurred after the date of the accountant's report dated January 20, 2023 until the ratification of this annual report on February 10, 2023.

DIVIDEND POLICY AND DISTRIBUTION

Basic Dividend Distribution Policy

Cash dividend payments by BNI are refer to Article 21 paragraph (2) letter b, and Article 26 of the Bank's Articles of Association that stipulate that in the Annual GMS the Board of Directors must submit a proposal for the use of net profit if the Bank has made a positive profit. Referring to Article 70 and Article 71 of Law no. 40 of 2007 concerning Limited Liability Companies, it stipulates that all net profit after deducting the provision for reserves, is distributed to shareholders as dividends, unless otherwise determined in the GMS. The use of net profit, including the determination of the amount of provision for reserves, is decided by the GMS. Dividends may only be distributed if the Bank has a positive profit balance.

In accordance with the prospectus of BNI shares, BNI's dividend policy is set at a minimum of 25% of net profit per year, the amount of which will be determined at the GMS.

Dividends Distributed in 2022 and Dividend Distribution History

BNI's Annual GMS for the fiscal year 2021 held on March 15, 2022 determined the Net Profit for Fiscal Year 2021 of Rp10,898,517,592,729 should be used as follows:

- Dividends of 25%, or Rp2,724,629,398,182 as cash dividends and to be distributed to Shareholders as follows:
 - Dividends for the State's share of 60% ownership, or Rp1,636,944,231,460 to be deposited into the State General Treasury account.
 - For the the 40% public share ownership of Rp1,087,685,166,716 will be given to Shareholders based on their respective ownership portions.
 - To grant authority and power of attorney to the Board of Directors with the right of substitution to determine the schedule and procedure for distributing dividends for Fiscal Year 2021 in accordance with applicable regulations.
- 75% or Rp8,173,888,194,547 to be used as Retained Earnings. Based on this decision, the GMS approved the payment of dividends from its net profit of Rp2,724,629,398,182 or Rp146.29688695 per share to be distributed to Shareholders with the following schedule:

No	Description	Date
1	End of Trading Period Shares With Dividend Rights (Cum Dividend) <ul style="list-style-type: none"> Regular and Negotiation Market Cash Market 	March 23, 2022 March 25, 2022
2	Beginning of Stock Trading Period Without Dividend Rights (Ex Dividend) <ul style="list-style-type: none"> Regular and Negotiation Market Cash Market 	March 24, 2022 March 28, 2022
3	List of Shareholders entitled to Dividends (Recording Date)	March 25, 2022
4	Cash Dividend Payment Date	April 14, 2022

The procedure for distributing cash dividends from BNI's net profit for the 2021 fiscal year was as follows:

- Cash Dividends were distributed to Shareholders whose names were registered in the Register of Shareholders ("DPS") on the recording date and/or share owners in securities sub accounts at PT Kustodian Sentral Efek Indonesia ("KSEI") at the close of trading on March 25, 2022 .
- For Shareholders whose shares are included in KSEI's collective custody, cash dividend payments will be made through KSEI and distributed on April 14, 2022 to the Customer Fund Account (RDN) at the securities company and/or custodian bank where the Shareholders hold a securities account. Whereas for Shareholders whose shares are not included in KSEI's collective custody, cash dividend payments will be transferred to the Shareholders' account.
- The cash dividends will be subject to tax in accordance with the applicable tax laws and regulations.
- Based on the applicable tax laws and regulations, the cash dividend will be excluded from the tax object if it is received by domestic corporate taxpayer shareholders ("WP Badan DN") and the Company will not withhold Income Tax on cash dividends paid to the WP Badan DN. Cash dividends received by domestic individual

taxpayer shareholders ("WPOP DN") will be exempt from tax as long as the dividends have invested in the territory of the Republic of Indonesia. For WPOP DN who do not comply with the above investment conditions, the Cash Dividend received by the person concerned will be subject to income tax ("PPh") in accordance with applicable laws and regulations, and the PPh must be paid by the WPOP DN, in accordance with the provisions of Government Regulation No. 9 of 2021 concerning Tax Treatment to Support Ease of Doing Business.

- Shareholders can obtain confirmation of dividend payment through the securities company and/or custodian bank where the shareholder has a securities account, then the shareholder will be responsible for reporting the receipt of dividends referred to in the tax report for the relevant tax year in accordance with the applicable tax laws and regulations.
- For Shareholders who are Foreign Taxpayers whose tax deduction will use the rate based on the Avoidance of Double Taxation Agreement ("P3B") must comply with the requirements of the Director General of Taxes Regulation No. PER-25/PJ/2018 concerning Procedures for Implementing Double Taxation Avoidance Agreements, and submit DGT/SKD proof of receipt documents that have been uploaded to the Directorate General of Taxes website to

KSEI or BAE by the deadline according to KSEI rules and regulations, without any documents cash dividends paid will be subject to Income Tax Article 26 of 20%.

Realization of dividend distribution in 2022 for 2021 business results is as follows:

Distributed Cash Dividend (Rp-billion)	2,724.6
Dividend per Share (Rp)	146.3
Dividend Payout Ratio from Net Profit for the Year Attributable to Owners of the Parent Entity for Fiscal Year 2021 (%)	25%
Announcement Date	March 17, 2022
Payment Date	April 14, 2022

Development of Total Cash Dividends Distributed in the Last 5 Years (Rp-billion)

TAXATION

BNI TAX CONTRIBUTION

BNI acts as a taxpayer and tax withholding/collector as its contribution to the State. BNI's biggest contribution as a taxpayer is to fulfill corporate income tax obligations. BNI also actively contributes to withholding/collecting taxable objects in carrying out its function as a tax withholder/collector.

BNI is always on time in terms of paying tax obligations on Corporate Income Tax, Employee Income Tax, VAT and Other Taxes. BNI also submits tax liability documents such as annual and monthly tax returns as well as liability documents to regulatory agencies in a timely manner.

Tax Payments 2020-2022							
Type of Tax	2022 (Rp- billion)	2021 (Rp- billion)	2020 (Rp- billion)	Increase (Decrease) 2021-2022		Increase (Decrease) 2020-2021	
				Nominal (Rp- billion)	Percentage (%)	Nominal (Rp- billion)	Percentage (%)
VAT	557	416	238	141	33.9	178	75.2
Withholding Income Tax*)	3,568	3,244	4,016	324	10.0	(772)	(19.2)
Corporate Taxes	4,997	3,240	2,009	1,757	54.2	1,231	61.3
Other Taxes	103	50	61	53	106.0	(11)	(17.6)
Total	9,225	6,950	6,323	2,275	32.7	627	9.9

*Withholding Income Tax consists of Income Tax Article 21/26, 15, 22, 23/26, and Income Tax Article 4 paragraph (2)

In 2022, BNI reported a total tax payment of Rp9.2 trillion, an increase of 32.7% compared to Rp6.9 trillion in 2021.

The increase in tax payments was mainly for corporate income tax following an increase in profit before tax in 2022 compared to the previous year.

Progress of Total Tax Payments 2018-2022 (Rp-billion)

TAXATION LEGAL ISSUES

BNI filed an objection application to the Tax Underpayment Assessment Letter (SKPKB) for Corporate Tax for the 2015 fiscal year. KEP-00670/KEB/WPJ.19/2019, the Directorate General of Taxes (DGT) granted part of BNI's objections to SKPKB Corporate Income Tax for fiscal year 2015. On July 26 2019, BNI has filed an appeal to the Tax Court on some of the objections not yet approved by the DGT. For this matter, on June 24, 2022 through the Tax Court Decision Letter No. PUT-007718.15/2019/PP/M.IIA, the Tax Court partially granted BNI's appeal and reduced the amount of accrued tax in the SKPKB Corporate Income Tax for the 2015 fiscal year (including fines). On October 5, 2022, BNI submitted a Judicial Review decision to the Supreme Court on the appeal decision and until this Annual Report is published, the Supreme Court has not issued a Judicial Review Decision on the request submitted by BNI. The Bank has confidence that the Review will be won by BNI.

TAX PAYMENTS IN ARREARS

BNI has paid all tax assessments as a result of audits that are due for payment as described in the previous point. Although BNI is still in the process of filing legal action, BNI has paid all tax penalties in accordance with applicable regulations. So based on BNI's provisions, there are no tax payments in arrears.

INFORMATION REGARDING THE REALIZATION OF THE USE OF FUNDS

PUBLIC OFFERINGS OF SHARE SECURITIES

On November 25, 2010, at the Extraordinary General Shareholders' Meeting, the shareholders decided, among other matters, to increase the issued and paid-up capital through a limited public offering with preemptive right (LPO III) to shareholders for the issuance of 3,374,715,948 new Class C shares with a nominal value of Rp375 (full amount) per share. The Preemptive Rights could be traded on and off the Indonesia Stock Exchange (IDX) from December 10, 2010 to December 16, 2010, taking into account the applicable provisions in the capital market.

Total Acquisition of Funds

From PUT III, the net realized value after deducting the cost of issuing shares was Rp10.2 trillion.

Use of Funds

Funds sourced from the Rights Issue III were used for:

1. 80% for Corporate, Commercial, Small Business and Consumption loans;
2. 15% or infrastructure development in information technology, outlets, ATMs and others;
3. 5% for the development of subsidiaries, namely BNI Life, BNI Syariah, BNI Sekuritas and BNI Multifinance.

Fund Balance

On December 31, 2018, the proceeds from the Limited Public Offering III were Nil, as 100% of the funds obtained had been disbursed.

Use Of Proceeds Realization From Limited Public Offering III		Nominal
Proceeds from Public Offering (after expenses) - nett		Rp10,216,388,163,029
Use of Proceeds Realization		
About 80% used for corporate, commercial, small business and consumer loans	as of December 31, 2014	Rp8,173,110,530,423
About 15% used for infrastructure development on information technology, outlets, ATMs and others	as of December 31, 2014	Rp1,532,458,224,454
About 5% used for the development of subsidiaries namely BNI Life, BNI Syariah, BNI Securities and BNI Multifinance.	as of December 31, 2014	Rp510,819,408,152
Balance of Funds		Nil

In 2022 BNI was not obliged to submit a report on the realization of the use of funds from a public offering in accordance with OJK Regulation No. 30/POJK.04/2015 concerning Realization Report on the Use of Public Offering Proceeds.

PUBLIC OFFERING OF SUSTAINABLE BONDS

PUBLIC OFFERING (PUB)

On June 22 2017, BNI obtained an effective statement from OJK through letter No.S-349/D.04/2017 to issue Rupiah BNI Sustainable Bonds I Phase I 2017 ("Bonds"). The value of the bonds issued amounted to Rp3,000,000,000,000 (three trillion Rupiah), for aperiod of 5 years, with a coupon of 8% per annum that will be paid quarterly. The BNI Bonds were issued on July 11, 2017 and listed on the Indonesia Stock Exchange on July 12, 2017.

Name of the Bonds	BNI Sustainable Bonds I Phase I 2017
Bond's Principal Amount	Rp3,000,000,000,000

TIER II CAPITAL BOND 2021

BNI issues debt instruments with capital characteristics in the form of Tier II Capital Bonds which are listed on the Singapore Exchange (SGX Listing) with a principal amount of USD500,000,000.00 with a write down feature and can be calculated as a Tier II capital component through OJK letter No. S-64/PB.31/2021 dated March 31, 2021. The issuance of the Tier II Capital Bond is one of BNI's strategies in increasing bank capital through Tier 2 Capital.

Tier II Capital Bonds are offered with a fixed interest rate of 3.75% p.a. for term of 5 (five) years. Acting as supporting institutions and professions for the issuance of Tier II Capital Bonds were HSBC and Citi Group. The legal consultants used were Ginting & Reksodiputro and Allen & Overy, and HSBC acting as Trustees and Paying Agents. The bonds have received a rating on long-term debt securities from Fitch Rating with a BB rating, and a Moody's Rating of Ba2.

Description of Tier II Capital Bonds Offered

Tier II Capital Bonds issued for USD500,000,000,000.00 have a coupon payment period of 3.75% p.a every 6 months (semi-annually), with an interest calculation basis of 30/360 with a tenor of 5 years.

MATERIAL INFORMATION REGARDING INVESTMENTS, EXPANSIONS, DIVESTMENTS, BUSINESS MERGERS, ACQUISITIONS, AND/OR DEBT/CAPITAL RESTRUCTURING

MATERIAL INFORMATION REGARDING INVESTMENTS

The following is material information regarding the investments made by BNI in 2022:

1. On December 19, 2022, BNI exercised its additional equity participation in PT Bank Syariah Indonesia Tbk (“BSI”) with Rp500,000,000,000 by exercising a portion of the HMETD obtained by BNI totaling 500,000,000 HMETD with an exercise price of Rp1,000. In addition, BNI also transferred a portion of 742,439,344 Preemptive Rights to PT CIMB Niaga Sekuritas (“CIMBS”).

The purpose of this transaction was intended to strengthen BSI’s capital where the use of funds will be channeled in the form of financing to support BSI’s business growth, including to support the achievement of its Vision as a Top 10 Global Islamic Bank.

After the transaction was carried out, the number of shares owned by the Company in BSI increased to 10,720,230,418 (ten billion seven hundred twenty million two hundred thirty thousand four hundred and eighteen) shares. The percentage of the Company’s share ownership in BSI is 23.24%.

2. To support BNI’s digital transformation, BNI established a Venture Capital Company under the name PT BNI Modal Ventura. The Deed of Establishment was signed by representatives of PT BNI Modal Ventura Shareholders on April 12, 2022. For its implementation, on May 12, 2022, BNI deposited Rp500,000,000,000, or the equivalent of 500,000 shares of PT BNI Modal Ventura. Through this placement, BNI owns 99.98% of the total issued shares valued at Rp500,100,000,000.

The following shows the composition of the shareholders in PT BNI Modal Ventura:

Shareholders	
BNI	: 99.98%
PT BNI Asset Management	: 0.02%

The company established BNI Modal Ventura as a subsidiary engaged in providing capital for startup companies. Its establishment is part of the Company’s strategy to respond to the potential for developing digital banking by becoming a strategic vehicle for the BNI group in supporting the development of technological innovation within the company while carrying out its mission to encourage potential startups to continue to grow.

MATERIAL INFORMATION REGARDING ACQUISITIONS

On May 18 2022 BNI signed:

1. Deed of Sale and Purchase of Shares No. 83 dated May 18, 2022 with IFC drawn up before Jose Dima Satria SH., Notary in South Jakarta (“Deed of Sale and Purchase”); and
2. Deed of Acquisition of Shares No. 84 dated May 18, 2022 with Bank Mayora drawn up before Satria SH., Notary in South Jakarta (“Deed of Acquisition”) in order to complete the Bank Mayora takeover transaction.

With the takeover of Bank Mayora, BNI held Bank Mayora 1,198,229,838 shares representing 63.92% of the total shares issued and paid up in Bank Mayora. The Bank Mayora capital ownership structure before and after the transaction is as follows:

Disclosure of Related Parties					
Before Transaction			After Transaction		
Shareholder	Number of Shares	Percentage Ownership	Shareholder	Number of Shares	Percentage Ownership
PT Mayora Inti Utama	676,313,152	80.00%	PT Mayora Inti Utama	676,313,152	36.08%
International Finance Corporation	169,078,288	20.00%	BNI	1,198,229,838	63.92%
Total	845,391,440	100.00%	Jumlah	1,874,542,990	100.00%

Through this share ownership percentage, BNI became the Controlling Shareholder of Bank Mayora where in accordance with the OJK Board of Commissioners Members Decree No. KEP-66/D.03/2022 dated April 28, 2022 concerning the Results of the Fit and Proper Test of BNI as the prospective Controlling Shareholder, and the Republic of Indonesia as the Ultimate Shareholder, for Bank Mayora, it was determined that BNI as the prospective Controlling Shareholder of Bank Mayora had met the requirements to become the Controlling Shareholder of Bank Mayora.

The takeover of Bank Mayora became effective on May 18, 2022 based on:

1. Deed of Sale and Purchase;
2. Deed of Acquisition;
3. Minister of Law and Human Rights Decree No. AHU-0033592.AH.01.02.TAHUN 2022 dated May 18, 2022 concerning Approval of Amendment to the Articles of Association of Limited Liability Company PT Bank Mayora;
4. Minister of Law and Human Rights Letter No. AHU-AH.01.03-0238599 dated May 18, 2022 concerning Acceptance of Notification of Amendments to PT Bank Mayora’s Articles of Association; and
5. Minister of Law and Human Rights Letter No. AHU-AH.01.09-0013352 dated May 18, 2022 concerning the Receipt of PT Bank Mayora’s Company Data Change Notification.

The acquisition of Bank Mayora by the Company is in line with the Company’s strategy to form a digital bank to serve the Micro, Small and Medium Enterprises (MSMEs) segment in Indonesia. The MSME segment plays an important role in the Indonesian economy. This segment absorbs nearly 97% of Indonesia’s workforce and contributes more than 60% of Indonesia’s total GDP so that this segment is the engine for future economic growth. However, the services offered to this segment need to be carried out effectively and efficiently, where the digitalization approach is the most relevant solution.

The presence of this digital bank will later complement the service penetration to the MSME segment that currently cannot be served by the Company’s Branch Offices or Business Centers, and is a manifestation of the Company’s commitment to developing the digital economy in Indonesia, as reflected in its improvements to the quality of digital services, increasing access to technology, increasing financial inclusion and developing digital literacy for customers and society in general. The process of transforming Bank Mayora into a digital bank will proceed in stages according to the Company’s work plan.

With the effective takeover of Bank Mayora’s shares, the total oOf the Company’s Subsidiary Companies has now increased to 6 (six), from originally 4 (four), and include BNI Multifinance, BNI Sekuritas, BNI Life, BNI Remittance, BNI Ventures, and Bank Mayora.

MATERIAL INFORMATION REGARDING EXPANSIONS, DIVESTMENTS, BUSINESS MERGERS, AND DEBT/CAPITAL RESTRUCTURING

Apart from the above, there is no further material information regarding expansions, divestments, business mergers and debt/capital restructuring to report on in 2022.

INFORMATION ON MATERIAL TRANSACTIONS THAT CONTAIN CONFLICTS OF INTEREST AND/OR TRANSACTIONS WITH AFFILIATED/RELATED PARTIES

Definition of Affiliated/Related Parties

In the normal course of its business, BNI conducts transactions with related parties due to ownership and/or management relationships. All transactions with related parties are conducted carried out under mutually agreed policies and terms. Total Liabilities	889,639	838,318			51,321	6,1

Total liabilities from related parties increased by Rp5.9 trillion, or 3.8% compared to the previous year. This increase was dominated by an increase in the balance of related parties in customer deposits of Rp2.6 trillion.

Company Policy Concerning Review Mechanism Transactions and Compliance with Related Regulations and Provisions

To protect the interests of shareholders and stakeholders, in carrying out its activities, the Company is subject to policy provisions in terms of the review mechanism for affiliated/related party transactions, which are guided by laws and regulations including PSAK, OJK Regulation No. 42/POJK.04/2020 concerning Affiliated Transactions, and Conflict of Interest Transactions ("POJK 42"), as well as OJK Regulation No. 32/POJK.03/2018 concerning Legal Lending Limits (BMPK) for Commercial Banks).

Based on POJK 42, Affiliated Transactions are defined as any activities and/or transactions carried out by a public company or a controlling company with Affiliates that are a public company or are Affiliated to members of the Board of Directors, members of the Board of Commissioners, the Majority and Controlling Shareholders, including all activities and/or transactions conducted by public companies or controlling companies for the benefit of affiliates of public companies or affiliates of members of the Board of Directors, and the Board of Commissioners, and the Majority and Controlling Shareholders.

POJK 42 regulates the procedural obligations for Public Companies including exceptions, in terms of carrying out Affiliated Transactions. In accordance with Article 8 and Article 9 POJK 42, Affiliated Transactions are business activities carried out to generate business income and are carried out routinely, repeatedly and/or continuously, should be disclosed in the Public Company's annual report or financial report, as disclosed above.

Apart from Affiliated Transactions that are carried out to generate operating income and are carried out routinely, repeatedly and/or continuously, in 2022, the Company recorded 1 (one) Affiliated Transaction which was carried out by taking into account POJK 42, namely BNI Affiliated Transactions with subsidiary, PT BNI Sekuritas, with the object of the transaction to appoint PT BNI Sekuritas to act as Lead Advisor in the Sales Transaction of the Troubled Credit Asset Portfolio. This transaction also took into account OJK Regulation No.40/POJK.03/2019 concerning Asset Quality Assessment for Commercial Banks, as well as other applicable regulations.

The agreement between BNI and BNI Sekuritas for this Affiliated Transaction was signed on February 25, 2022 with a value of Rp65 billion. To determine the fair value of the object of this Affiliated Transaction, BNI appointed the Public Appraiser Service Office (KJPP) Iwan Bachron & Partners. From the assessment carried out, KJPP Iwan Bachron & Partners gave a "fair" opinion on this transaction, and this transaction has no potential to disrupt BNI's business continuity.

This Affiliated Transaction has been disclosed by BNI through the Issuer's or Public Company's Electronic Reporting System (SPE-IDX Net). To avoid doubts, after careful examination and supported by a transaction fairness report prepared by KJPP Iwan Bachron & Partners in connection with the fulfillment of POJK No. 42/2020, then:

1. The Board of Directors and Board of Commissioners stated that this transaction was an Affiliated Transaction and does not contain a conflict of interest;
2. The Board of Directors and Board of Commissioners states that all material information had been disclosed in the Disclosure of Information submitted through SPE-IDX Net, and the information was not misleading; and
3. The Board of Directors declared that this Affiliated Transaction has passed through adequate procedures, and ensured that the Affiliated Transaction was carried out in accordance with generally accepted business practices.

SEOJK No. 28/SEOJK.03/2022 Concerning Risk Management Certification for Commercial Bank Human Resources

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">To support the effective risk management at the Bank, ownership of the Risk Management Certificate is assigned to the Bank's HC.Risk Management Certification for Bank HC is held by LSPs in the banking sector registered with OJK, adjusted to the SKKNI and KKNII in the field of banking risk management.The validity period of the Risk Management Certificate is for a period of 3 (three) years from the date of issuance, and can be extended. The validity period for the extension of the Risk Management Certificate is 3 (three) years after the expiry date of the previous Risk Management Certificate.To maintain the competency of the holder or owner of the Risk Management Certificate in the Bank's risk management field, a Risk Management Certification refreshment program is carried out. The maintenance program can be used to extend the validity period of the Risk Management Certificate, as long as it meets the criteria.
Impact on BNI	:	BNI is guided by the provisions as stipulated in SEOJK No. 28/ SEOJK.03/2022 Concerning Risk Management Certification for Commercial Bank Human Resources.

PBI No. 24/3/PBI/2022 concerning Amendment to PBI No. 23/13/PBI/2021 concerning the Ratio of Macroprudential Inclusive Financing for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Compliance with RPIM is calculated by comparing the results of the reduced scores for Inclusive financing and the SDPI for total loans.The obligation to fulfill RPIM is carried out on the position at the end of December and for the first time for the position in December 2022.Determination of RPIM targets in the Bank's Business Plan (RBB) based on the results of the Bank's self-assessment according to expertise and business model.The RPIM target is the amount of the RPIM fulfillment obligation submitted to BI, determined to be increased compared to the RPIM position at the end of December the previous year. In the event that the RPIM position at the end of December of the previous year is 30% or more, the amount of the obligation to fulfill the RPIM is determined to be at least equal to the fulfillment of the RPIM position at the end of December of the previous year.
Impact on BNI	:	BNI has set the RPIM target in the RBB and submitted it to BI according to a predetermined time.

PBI No. 24/4/PBI/2022, as the Fourth Amendment to PBI No. 20/3/PBI/2018 concerning Statutory Reserves in Rupiah and Foreign Currency for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units (PBI GWM)

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Regulates that relaxation of the obligation to fulfill GWM in rupiah can be given to BUK, BUS, and UUS for fulfilling GWM in rupiah on a daily basis and/or on an average basis based on Bank Indonesia's macroprudential policy considerations.Arrangements concerning the easing of the obligation to fulfill GWM in rupiah for macroprudential policies are carried out in accordance with a separate Bank Indonesia Regulation concerning incentives for banks that provide funds for certain and inclusive economic activities.
Impact on BNI	:	BNI has made adjustments to internal provisions and is guided by the provisions stipulated in the PBI GWM.

PBI No. 24/5/PBI/2022 concerning Incentives for Banks Providing Provision of Funds for Certain and Inclusive Economic Activities

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Bank Indonesia provides incentives for Conventional Commercial Banks, Sharia Commercial Banks and Sharia Business Units that provide funds for certain and inclusive economic activities. The incentives provided are in the form of easing the obligation to fulfill GWM in rupiah that must be met on an average basis.Provision of funds by the Bank for certain and inclusive economic activities include:<ul style="list-style-type: none">a. Providing loans or financing in priority sectors;b. Achievement of Macroprudential Inclusive Financing Ratio (RPIM); and/orc. Other financing determined by Bank Indonesia.The period for granting incentives is valid from March 1, 2022 to December 31, 2024.Criteria for granting incentives:<ul style="list-style-type: none">a. Incentives for granting loan or financing to priority sectors. Banks provide loans or financing to priority sectors and achieve an average growth rate of loans or financing to priority sectors of at least 1% (one percent).b. Incentives for achieving RPIM. Banks meet the RPIM target of at least the target stated in the bank's business plan and achieve a RPIM value of at least 10% (ten percent).
Impact on BNI	:	BNI is guided by the provisions as stipulated in PBI No. 24/5/PBI/2022 concerning Incentives for Banks Providing Provision of Funds for Certain and Inclusive Economic Activities.

PBI No. 24/7/PBI/2022 concerning Transactions in the Foreign Exchange Market

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Types of transactions, namely cash transactions (tod, tom, spot) and exchange rate derivative transactions or hedging transactions based on sharia principles.For transactions made above a certain amount (USD 100,000.00), the customer is required to submit Underlying Transaction Documents (can be final or estimated).Transaction restrictions, include a ban on rupiah transfers overseas, a ban on non-deliverable forward foreign exchange transactions against rupiah overseas, and providing overdrafts, loans, and/or financing in rupiahs or foreign currencies to non-residents.. In addition, the limit for rupiah transfers to non-resident accounts at domestic banks is set at the equivalent of USD1,000,000.00 (without underlying documents).Transaction agents, include:<ul style="list-style-type: none">Transaction agents and Supporting Institutions in the Money Market (LPPU) in the Foreign Exchange Market as follows:<ul style="list-style-type: none">Transaction agents include: Residents and Non-Residents.LPPU in the Foreign Exchange Market includes: brokerage companies and electronic trading platform (ETP) providers.Use of investor identity in conducting transactions with certain underlying transactions.The obligation of the bank in administering the underlying document.
Impact on BNI	:	BNI has made adjustments to internal provisions and is guided by the provisions stipulated in PBI No. 24/7/PBI/2022 concerning Transactions in the Foreign Exchange Market.

PBI No. 24/16/PBI/2022, as the Fourth Amendment to PBI No. 20/4/PBI/2018 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">BI can provide easing in the form of changes to RIM Targets or Sharia RIM Targets.The provision of easing in the form of changes to RIM Targets or Sharia RIM Targets is carried out at the request of the Bank to BI.
Impact on BNI	:	BNI has calculated RIM and adjusted internal regulations based on PBI No. 24/16/PBI/2022 concerning the Fourth Amendment to PBI No. 20/4/PBI/2018 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units.

PBI No. 24/18/PBI/2022, as the Second Amendment to PBI No. 21/14/PBI/2019 concerning Export Proceeds and Import Payments

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Expansion of fund placement instruments originating from Reksus DHE SDA. SDA exporters can place funds from Reksus DHE SDA not only into DHE SDA deposits in accordance with statutory provisions, but also into Forex Monetary Operation (OM) instruments at Bank Indonesia through banks that meet the requirements stipulated by Bank Indonesia.Providing incentives for placement of DHE SDA in OM Valas instruments. The incentives given in relation to placement of funds from Reksus DHE SDA into said OM Forex instruments are in the form of exclusion of the said funds from the Third Party Fund component used in the calculation:<ul style="list-style-type: none">Statutory Reserves in Foreign Currency;Macroprudential Intermediation Ratio; andc. Sharia Macroprudential Intermediation Ratio.
Impact on BNI	:	BNI telah mempedomani ketentuan sebagaimana diatur pada PBI No. 24/18/PBI/2022 tentang Perubahan Kedua atas PBI No. 21/14/PBI/2019 tentang Devisa Hasil Ekspor dan Devisa Pembayaran Impor.

PADG No. 24/1/PADG/2022 dated 25 February 2022, as the Second Amendment to PADG No. 21/18/PADG/2019 concerning Implementation of the National Standard Quick Response Code for Payments

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">The nominal amount of a QRIS Transaction, which was previously set at Rp5,000,000.00 (five million Rupiah), has been adjusted to a maximum of Rp10,000,000.00 (ten million Rupiah) per transaction.Issuers can set daily and/or monthly cumulative nominal limits for QRIS Transactions carried out by each QRIS User taking into account Issuer's risk management and provisions of laws and regulations
Impact on BNI	:	BNI has changed the QRIS transaction nominal to a maximum of Rp10,000,000.00 (ten million Rupiah) per transaction.

PADG No. 24/6/PADG/2022 concerning Regulations for Implementing Macroprudential Inclusive Financing Ratios for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">The Macroprudential Inclusive Financing Ratio (RPIM) is a ratio that describes the Bank's Inclusive Financing portion in accordance with the provisions of Bank Indonesia Regulations. Banks are required to fulfill the RPIM for positions at the end of December, the first time for positions in December 2022.The Bank sets the RPIM target in the RBB based on the results of the Bank's self-assessment in accordance with the expertise and business model. In the event that the Bank makes adjustments to the amount of RPIM fulfillment obligations, the Bank must make changes to the RPIM targets included in the RBB changes.It is determined that the amount of the RPIM fulfillment obligation must increase compared to the Bank's RPIM position at the end of December the previous year. In the event that the Bank's RPIM at the end of December position of the previous year is 30% or more, the amount of the obligation to fulfill the RPIM is determined to be at least equal to the fulfillment of the RPIM at the end of December of the previous year.RPIM calculation formula:<div>$= \frac{\text{Pembiayaan Inklusif} - \text{SDPI}}{\text{Total Kredit atau Pembiayaan}} \times 100\%$</div>
		RPIM
Impact on BNI	:	BNI has set the RPIM target in the RBB and submitted it to BI according at a predetermined time.

PADG No. 24/7/PADG/2022 concerning Implementation of Payment Systems by Payment Service Providers and Payment System Infrastructure Providers

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">So long as the approval process for activity development, product development and/or cooperation is still in progress, PJP or PIP can test the readiness of implementing activity development, product development and/or cooperation with the following provisions:<ul style="list-style-type: none">Trials are carried out on Service Users and limited area coverage for a certain period of time based on BI approval; andSubmitting a report to BI regarding the implementation plan and termination of the trial consisting of:<ul style="list-style-type: none">The trial implementation plan report shall be submitted to BI no later than 30 (thirty) calendar days prior to the trial implementation; andII. The termination report and the results of the trial implementation are submitted to BI no later than 10 (ten) calendar days after the trial date ends.The format of the annual report submitted offline at least includes:<ul style="list-style-type: none">Payment System annual report; andManagement reports and results of supervision of the board of commissioners.
---	---	--

Impact on BNI	:	BNI is guided by the provisions as stipulated in PADG No. 24/7/PADG/2022 concerning Implementation of Payment Systems by Payment Service Providers and Payment System Infrastructure Providers.
---------------	---	---

PADG No. 24/8/PADG/2022 concerning Regulations for Compliance with Statutory Reserves in Rupiah and Foreign Currencies for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Minimum Rupiah GWM requirement for BUK, which was originally 6.0%, increased to:<ul style="list-style-type: none">a. 7.5% from July 1, 2022 andb. 9.0% starting September 1, 2022.The minimum requirement for GWM in Rupiah for BUS and UUS, which was originally 4.5%, increased to:<ul style="list-style-type: none">a. 6.0% from July 1, 2022 andb. 7.5% starting September 1, 2022.Providing a remuneration of 1.5% for meeting GWM obligations after taking into account incentives for banks in channeling lending/financing to priority sectors and MSMEs and/or meeting the Macroprudential Inclusive Financing Ratio (RPIM) target.
Impact on BNI	:	BNI is guided by the provisions as stipulated in PADG No. 24/8/PADG/2022 concerning Regulations for Implementing Statutory Reserves in Rupiah and Foreign Currencies for Conventional Commercial Banks, Sharia Commercial Banks, and Sharia Business Units.

PADG No. 24/9/PADG/2022 concerning Application of the Market Code of Ethics and Implementation of Treasury Certification

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Transaction agents in the Money Market must have internal procedures to ensure Directors and Employees understand and apply the Market Code of Ethics and submit it to BI prior to conducting Treasury Activities.Transaction agents in the Money Market must ensure that Directors and Employees become members of the treasury professional association.Money Market Transaction Agents must ensure that Directors and Employees have Treasury Certificates according to the level determined by BI that must be fulfilled when effectively when occupying positions.
Impact on BNI	:	BNI has made adjustments to internal provisions and is guided by the provisions stipulated in PADG No. 24/9/PADG/2022 concerning Application of the Market Code of Ethics and Implementation of Treasury Certification.

PADG No. 24/10/P ADG/2022 concerning Regulations for Conducting Transactions in the Foreign Exchange Market

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Types of transactions, namely cash transactions (tod, tom, spot) and exchange rate derivative transactions or hedging transactions based on sharia principles.For transactions made above a certain amount (USD 100,000.00), the customer is required to submit an Underlying Document Transactions (can be final or forecast).Limitations on transactions, including prohibition on transfers of rupiah to foreign countries, prohibition on non-deliverable forward foreign exchange transactions against rupiah abroad, and providing overdrafts, loans and/or financing in rupiah or foreign currency to non-residents. In addition, the limit for rupiah transfers to non-resident accounts at domestic banks is set at the equivalent of USD1,000,000.00 (without underlying documents).
Impact on BNI	:	BNI has made adjustments to internal provisions and is guided by the provisions stipulated in PADG No. 24/10/P ADG/2022 concerning Regulations for Conducting Transactions in the Foreign Exchange Market.

PADG No. 24/12/PADG/2022 concerning Amendment to PADG No. 24/4/PADG/2022 concerning Regulations for Implementation of Incentives for Banks Providing Provision of Funds for Certain and Inclusive Economic Activities

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Expansion of priority sub-sectors into 46 (forty six) sub-sectors divided into 3 (three) groups, namely:<ul style="list-style-type: none">c. Priority sector groups that are resilient to economic pressures;d. Priority sector groups that are drivers of economic growth; ande. Priority sector groups that support economic recovery.Adjustment of criteria for Banks to obtain incentives for providing Loans or Financing to priority sectors, as follows:<ul style="list-style-type: none">a. Providing Loans or Financing to priority sectors; andb. Achieving an average value of Loans or Financing growth for 1 (one) or more priority sector groups of at least 1% (one percent).Increasing the amount of incentives to a maximum of 2% (one percent) with details:<ul style="list-style-type: none">a. The maximum amount of incentives originating from the provision of Loans or Financing to priority sectors is 1.5% (one point five percent); andb. The amount of incentive that comes from achieving the highest RPIM is 0.5% (zero point five percent).
Impact on BNI	:	BNI is guided by the provisions as stipulated in PADG No. 24/12/PADG/2022 concerning Amendments to PADG No. 24/4/PADG/2022 concerning Regulations for Implementation of Incentives for Banks Providing Provision of Funds for Certain and Inclusive Economic Activities.

PADG No. 24/14/PADG/2022, as the Fifth Amendment to PADG No. 21/22/PADG/2019 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Banks, Islamic Commercial Banks, and Islamic Business Units

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">BI can provide easing in the form of changes to RIM Targets or Sharia RIM Targets.The provision of easing in the form of changes to RIM Targets or Sharia RIM Targets is carried out at the request of the Bank to BI.Data sources in the form of online reports for calculations of RIM or Sharia RIM, Current Accounts RIM or Sharia RIM Current Accounts, and PLM or Sharia PLM are sourced from integrated commercial bank reports.In calculating RIM or Sharia RIM, in addition to lending data or financing and third party funds (TPF) from domestic branch offices, lending data or financing and TPF from foreign branch offices are also taken into account.
Impact on BNI	:	BNI has carried out RIM calculations and adjusted internal regulations based on PADG No. 24/14/PADG/2022 concerning the Fifth Amendment to PADG No. 21/22/PADG/2019 concerning Macroprudential Intermediation Ratio and Macroprudential Liquidity Buffer for Conventional Commercial Banks, Islamic Commercial Banks, and Islamic Business Units.

PADG No. 24/17/PADG/2022, as the Third Amendment to PADG No. 22/22/PADG/2020 concerning Open Market Operation Instruments

Explanation of Applicable Regulations and/or Legislation	:	<ul style="list-style-type: none">Conventional OPT Term Deposit transactions in foreign currency can be carried out using a non-auction mechanism through an automated auction system for monetary operations in foreign exchange and/or other be determined by BI where in the previous provisions it was only with an auction mechanism.Conventional OMO Term Deposit Transactions in foreign currencies carried out using a non-auction mechanism cannot be carried out for early redemption either in whole or in part, and can be extended (rollover).
Impact on BNI	:	BNI is guided bythe provisions as stipulated in PADG No. 24/17/PADG/2022 concerning the Third Amendment to PADG No. 22/22/PADG/2020 concerning Open Market Operation Instruments.

PADG No. 24/19/PADG/2022, as the Second Amendment to PADG No. 22/3/PADG/2020 concerning Implementation of Competency Standardization in the Field of Payment Systems and Rupiah Currency Management

Explanation of Applicable Regulations and/or Legislation	: <ul style="list-style-type: none">Changing the term supporting documents needed by private LPK SPPUR in an application to become LPK SPPUR recognized by Bank Indonesia from originally “permit” to “licence document” bearing in mind that there was a change in documents received by private LPK SPPUR as proof of approval for the permit to establish an LPK or an addition to the scope .Changing the deadline for fulfilling LPK SPPUR accreditation obligations from one year to three years, given the relatively long period of time for the accreditation process, and following the provisions of the authorized institution.Adjustment of the reporting period for SK SPPUR certificate ownership by SPPUR industry players from semiannual to quarterly, to facilitate supervisors in monitoring the position of certificate SK SPPUR ownership by HC of the SPPUR agent.
Impact on BNI	: <p>BNI is guided by the provisions as stipulated in PADG No. 24/19/PADG/2022 concerning the Second Amendment to PADG No. 22/3/PADG/2020 concerning the Implementation of Competency Standardization in the Field Payment System and Rupiah Money Management.</p>

PADG No. 24/20/PADG/2022 concerning Report on Implementation of the Market Code of Ethics and Implementation of Treasury Certification

Explanation of Applicable Regulations and/or Legislation	: <ul style="list-style-type: none">Money Market Transaction Agents and LSPs (Reporters) have the obligation to prepare and submit reports to Bank Indonesia in a complete, accurate, current, intact and timely manner through the Bank Indonesia Reporting System. The reports submitted are information regarding the ownership and fulfillment of treasury certificates and reports regarding the implementation of the market code of ethics and are prepared in a uniform format and definition in accordance with the metadata stipulated by Bank Indonesia. To be able to submit a report, the reporter needs to appoint an officer and person in charge of the report marked as having a user.Report preparation refers to metadata consisting of guidelines for preparing reports and technical metadata in the form of data structures and validation rules published in the Bank Indonesia Reporting System.The reporter must have a reporting code when submitting reports to Bank Indonesia, obtained by submitting an application letter to Bank Indonesia.Reports submitted by the Reporters are in the form of:<ul style="list-style-type: none">c. List of Directors and Employees and Ownership of Treasury Certificates (for money market transaction actors); andd. List of Treasury Certificate Holders (for Professional Certification Institutions (LSP).Reports must be submitted annually by the Reporting Party no later than January 31 of the following year. In the event that January 31 falls on a Saturday, Sunday or a national holiday, the deadline for Report submission is the following working day unless otherwise stipulated by Bank Indonesia.Reports must be submitted online through the Bank Indonesia Reporting System.
Impact on BNI	: <p>BNI is guided by the provisions as stipulated in PADG No. 24/20/PADG/2022 concerning Report on the Implementation of the Market Code of Ethics and the Implementation of Treasury Certification.</p>

CHANGES IN ACCOUNTING POLICIES AND IMPACT ON THE BANK

Amendments to PSAK 1: Presentation of Financial Statements

Explanation of Applicable Regulations and/or Legislation	: <p>This PSAK 1 Annual Improvement adds paragraph 72B and paragraph 76ZA with respect to the classification of long-term liabilities with the covenant whether presented as short-term or long-term liabilities, depending on whether there is a right to postpone settlement of the liability.</p>
Impact on BNI	: <p>This amendment has no significant impact on BNI and its subsidiaries as BNI as a financial institution does not provide segregation of liabilities according to the tenor.</p>

Amendemen PSAK 73: Sewa

Explanation of Applicable Regulations and/or Legislation	: <p>Amendment to PSAK 73 clarifies the next measurement related to right-of-use assets and lease liabilities from sale and leaseback transactions, where the seller-lessee measures the lease liability in such a way that it will not recognize the amount of gain or loss associated with the right use of assets that are still being maintained.</p>
Impact on BNI	: <p>This amendment has no material impact on BNI and its subsidiaries as until now BNI has not made any lease transactions with a sale and leaseback transaction business model with a material value.</p>

Business

Continuity Information

MATTERS THAT POTENTIALLY HAD A SIGNIFICANT EFFECT ON THE BANK BUSINESS CONTINUITY IN 2022

As the spread of COVID-19 subsides, the global and domestic economies continue to recover. World economic growth continued, but has the potential to be lower than previously estimates due to increasing financial market uncertainty due to the continuing Russia-Ukraine conflict, the increasing global inflationary pressures, and the more aggressive global monetary policy tightening responses. The intended economic recovery will have a positive impact on BNI's performance. BNI will capture this potential through its initiatives so that business continuity can be well maintained, as reflected in its good financial condition and non-financial performance.

BNI continues to maintain the trust of its customers by developing a comprehensive and quality financial solution products with the support of technology and digitalization. To support the digital products growth, BNI has instigated effective digital risk management through the process of identifying, assessing, measuring, monitoring and controlling the risk of digital products in 8 (eight) aspects of digital risk, namely cybersecurity risk, third party risk, process automation risk, data privacy risk, resilience risk, compliance risk, cloud related risk, and workforce risk. BNI has specifically carried out strengthening of cyber security risk management, following standards for cyber security risk management, testing cyber security and reporting on the cyber security risk management. Through these efforts, the digital products risk can be managed properly.

MANAGEMENT ASSESSMENT OF MATTERS WITH A POTENTIALLY SIGNIFICANT INFLUENCE ON THE THE BANK'S BUSINESS CONTINUITY

BNI continues to evaluate the Bank's future business continuity, supported by BNI's current resources. The management Assessment is carried out by considering factors such as an analysis of financial and non-financial conditions. This analysis is reflected in the Bank's Health Level assessment. Based on this assessment, there are no matters that have a significant effect on business continuity.

ASSUMPTIONS USED BY MANAGEMENT IN CONDUCTING ASSESSMENT OF MATTERS THAT HAD A POTENTIALLY SIGNIFICANT EFFECT ON THE BANK'S BUSINESS CONTINUITY

Several assumptions were considered by BNI when conducting an business continuity assessment, including:

1. BNI's financial system stability is experiencing an improving trend in line with gradually improving national economic conditions;
2. BNI's Kealth level is at a composite rating of 2 (two) reflecting the generally healthy condition of the Bank, which is considered capable of facing significant negative influences from changes in business conditions and other external factors;
3. Good Corporate Governance (GCG) is ranked 2 (two) indicating that the Bank's management has implemented good governance.
4. The MSCI ESG rating has increased to "A" since November 2021, and is the highest rating in the banking industry in Indonesia.

Credit

Risk Management

The prolonged impact of the COVID-19 pandemic had a significant impact on the domestic economy and affected the performance of the banking industry. Banking in the face of the current economic situation still prioritizes the prudential principle for managing business risk and the loan portfolio. BNI's strategy is to provide loans to customers with good loan quality, with the loan process carried out very prudently, and with very strict loan monitoring.

2022 Strategy and Policy

BNI consistently sought to maximize a sustainable loan risk management strategy and policy. Through the Credit Risk Unit, BNI applied a Credit Risk Management strategy and policy where the main focus in 2022 was on quality credit expansion, with steps to anticipate the end of the COVID-19 stimulus policy in line with increasingly controlled pandemic conditions.

The strategic loan risk management policy in 2022 was to optimize Credit Risk Management and End to End Credit Process Enhancement, which were carried out in a comprehensive manner throughout the entire lending process, starting with establishing pipelines, underwriting processes, credit monitoring, to strengthening Credit Remedial & Recovery.

Based on the 2022 Bank Credit Policy (KPB), as approved by the Board of Commissioners, and effective as of July 1, 2022, it regulated the role of Credit Operations to carry out a check and balance function to fulfill the Cash Equivalent Value (CEV) calculations carried out by Business Units. The Check and Balance carried out by Credit Operations in the CEV calculation applies to new and additional loans in the Corporate segment (incl. Large Commercial) and the Medium segment and is limited to collateral in the form of fixed assets (land, buildings, machinery and/or other fixed assets). assessed by the Public Appraisal Service Office (KJPP).

Credit Process Flow

In the Business Banking segment, BNI made improvements to the flow of the loan process process for the Corporate, Medium and Small segments. Improvements made to the Corporate and Medium Segments included:

1. Sharpening the business units functions in planning prospect lists, marketing, conducting thorough credit worthiness assessments (including first way out and second way out analysis) and debtor monitoring.
2. Sharpening the function of the risk unit in conducting loan risk analysis (deep dive) and identification-mitigation/risk control, as well as analyzing and monitoring information related to loans and the debtor industries.
3. Adding and sharpening the loan operations function in calculating CEV collateral to strengthen the checks and balances, and to implement the advisory function related to loan operations documentary in the Credit Committee.

In addition, to minimizing risk when disbursing loans for the Business Banking segment, there is a Rejected Debtor Directory (3D) application, where through this application the Business Unit inputs data related to debtors or prospective debtors who are rejected by loan proposers.

BNI made efforts to improve the quality of business banking loans in 2022 through the Credit Risk Unit is directly involved from the pipeline process with the aim of accelerating the loan process (Early on boarding). These efforts included the following:

1. Focused Target Market
 - a. Focused on expanding Diamond Clients, Wave Clients and Regional Target Markets, who are not yet debtors by:
 - Developed a total financial solution with a competitive scheme to meet the needs of customers and their ecosystem.
 - Monitored the progress of Leads execution and evaluating the constraints.
 - Strengthened international business networks to support global market penetration.
 - b. Principle license for acquisitions outside the Risk Appetite.
 - c. Value Chain analysis (suppliers/buyers/others) and Tactical Account Planning (TAP) for each Diamond Client loan proposal for each Corporate customer that can be used as a target market for the Medium and Small Segments by prioritizing the risk culture.
 - d. Initiated green lending in the BNI loan portfolio to support the ESG initiative.

- e. Increased the MSME business through BNI Xpora to increase the potential for MSME to go global.
- f. Supported Government programs through the distribution of KUR and other programs.

2. Credit Process Improvement

- a. Strengthened the role of risk management in determining and executing pipeline management, RAC, as well as prime customer criteria, and added Environmental Social and Corporate Governance (ESG) factors to Industry Risk Appetite and Risk Acceptance Criteria.
- b. Pre-screening to strengthen pipeline management, including Utilization of the Rejected Debtor Directory, Determination of Prime Debtors and Risk Acceptance Criteria.
- c. Participation by the Legal Unit, Credit Operation and Credit Compliance in the loan approval process.
- d. Developed capability tools related to underwriting to support business processes by:
 - Improving underwriting tools to support digital-based loan processes through an end-to-end loan process to speed up the process and improve loan quality.
 - Initiated of LMS development by integrating all end-to-end credit process applications which are expected to have an impact on increasing efficiency, productivity and asset quality.
- e. Prepared a Risk Register as lessons learned and Industrial Studies to be used as guidance in granting loans to certain industries.
- f. BNI also strengthened the four eyes principle in all lines of loan processing units up to making loan decisions through the Credit Committee, which consisted of loan decision-making officials, both for business streams and risks in accordance with their authority, aimed at continuing to maintain the quality of loans disbursed.

3. Loan Operations

- a. Provided advisory on legal aspects of documents and legal operation credit;
- b. Ensured all collateral can be bonded perfectly and the insurance closing process has been carried out in accordance with the lending decision to protect the interests of BNI;
- c. Ensured the fulfillment of loan documentation is complete and running according to the provisions;
- d. Monitored and controlled the activities and performance of loan operations in all credit segments.

4. HC Capability

- a. Optimized talent management and workforce planning to support business development.
- b. Increased HC capability to understand market developments, risk culture, global banking, business acumen, digital mindset and advanced analytics to provide comprehensive solutions for customer/debtor banking needs.

5. Strengthened Remedial & Recovery

- a. Optimized the Remedial & Recovery process in accelerating loan quality improvement.
- b. Implemented Remedial & Recovery in a non-conventional manner.

For consumer loans, risk management was still carried out in a comprehensive and prudent manner and improvements were made, including:

1. Increasing selective business expansion through:
 - a. The focus of BNI Griya's expansion was on the low risk segment, namely:
 - BNI Griya financing for the purchase of a new houses in a cooperative developer, especially for selected developers;
 - BNI Griya Financing for the Fixed Income Selected Institution segment (CASN/ASN, BUMN/BHMN/BUMD, Higher Institutions/ Government Agencies/Ministries, Regulators, State Educational Institutions/ PTN);
 - b. The focus of BNI's expansion of Payroll Active Flexion was on selected institutions based on the classification of institutions or industrial sectors;
 - c. BNI Fleksi Pensiun business improvement through fronting agent partners;
 - d. Improving the Credit Card business by utilizing customer fund lead data;
2. Improving the risk culture through end-to-end transformation of the loan process and restructuring of non-performing loans
 - a. BNI Griya & BNI Fleksi Credit Process Simplification (Regular and Instant Approval) and Risk Acceptance Criteria (RAC) determination based on developer rating, institutional classification or industrial sector;
 - b. Submission of Credit Cards using e-form with digital & scoring verification;
 - c. Monitoring the binding of collateral through the centralization of the Collateral Alert Decision System (CADS) application;
3. Strengthening digital capability through the development of the Loan Origination System (LOS) interface and increasing the Digital Verification capability for consumer loans.
4. Instigating policies related to the prohibition of using BNI Fleksi loan disbursement funds belonging for employees as bailout funds for the interests/operational activities of BNI;

5. Preparing provisions for calculating total liabilities to be paid by debtors when making extra payments and calculating current interest for repayment of BNI Griya/BNI Griya Multiguna before maturity;
6. Instigating BNI Fleksi Strategic Alliance policies related to cooperation with business partners in the marketing framework of BNI Fleksi and patterns of cooperation;
7. Adjusting the BNI Griya Strategic Alliance regarding the stages and amount of BNI Griya disbursement;
8. Preparing policies regarding Certified Electronic Signatures;
9. Amending the provisions on permits for building permits. Building Construction Permit (IMB) becomes Building Construction Approval (PBG);
10. Instigating policies regarding DSR BNI Fleksi BNI employees;
11. Adjusting provisions related to reassessment of debtor capabilities in the framework of loan restructuring using a joint income pattern.

In the event there was a non-performing loan portfolio in the Corporate, Medium, Small and Consumer segments, BNI made efforts to save the loan referred to through collection, remedial (restructuring) and/or recovery activities.

Also, to avoid any practices of Corruption, Collusion and Nepotism (KKN) including gratuities in the loan granting process, BNI strengthened the Integrity Pact by requiring debtors or prospective debtors to sign an Integrity Pact prior to signing the loan agreement (PK). For loan risk management, BNI continued to make improvements by:

1. Instigating electronic Company Guidelines (e-PP) as guidelines for granting loans;
2. Monitoring the maximum loan limit or BMPK and House Limit for large debtors;
3. Applying PSAK 71 in the context of loan risk reserves or ECL.

Loan Monitoring

BNI monitors the lending and debtor industry conditions as well as collects loans intensively to create quality asset growth. This form of monitoring involved looking at business conditions both indirectly (online) and in person, if absolutely necessary, while adhering to the health protocols, reviewing debtor loan eligibility, and monitoring debtor payment obligations. In principle, the loan monitoring process is based on an assessment of the 3 (three) pillars in OJK regulations concerning the quality of earning assets.

Efforts made in the Loan Quality monitoring process in the business banking segment includes:

1. Initiating the development of the Single Integrated Monitoring Tool (SIMON) as a monitoring tool.
2. Optimizing the use of monitoring tools as an early warning system for detecting potentially problematic debtors and monitoring their action plans.
3. Refining the portfolio management analysis through intensive monitoring of the adequacy and availability of funds in debtor accounts to fulfill their obligations.
4. Optimizing the management of the LaR portfolio by carrying out 4M (mapping, reducing, avoiding and controlling).

Also, loan monitoring in the consumer segment was carried out by:

1. Monitoring new accounts based on potential default pareto segmentation (High, Medium and Low Risk)
2. Billing segmentation based on credit card behavior score, namely billing priority segmentation based on historical analysis of credit card transactions and payment of debtors' receivables;
3. Prioritizing billing based on warning list institutional segmentation for BNI Fleksi products;
4. Increasing collection productivity through the the Mobile Collection application for credit card products;
5. Improving the credit monitoring system by strengthening voice blasts and Interactive Voice Response (IVR) capabilities using the latest technology (OMNI Channel-based PABX), as well as collection robot innovations
6. Special monitoring for large debtors (maximum loan of more than Rp1 billion), and monitoring of pareto segmentation for potential arrears (High, Medium and Low Risk);
7. BNI Griya and Fleksi credit monitoring strategy:
 - a. Submitting loan quality improvements to central/ branch;
 - b. Adjusting the debtor's due date based on payment behavior;
 - c. Submitting a list of pending buyback guarantees to the relevant developers;
 - d. Delivering notifications to debtors and collateral owners to immediately extend collateral documents that will fall due through a Notary/PPAT appointed by the Bank.
8. Instigating a strategy for monitoring credit cards by conducting SMS notifications, letters, visits, and telephone calls.

Loan Rescue and Settlement

To strengthen financial fundamentals and maintain loan quality, BNI implemented efforts to optimally handle non-performing loans, coupled with a prudent increase in the coverage ratio. In this case, including loans that have been written off, efforts are also being made to optimally resolve them to minimize the Bank's losses. Efforts to deal with non-performing loans are generally pursued through two strategies, namely credit rescue and settlement.

The Rescue Strategy includes:

1. Restructuring (restructuring, reconditioning, rescheduling) for debtors who are experiencing difficulties in fulfilling their obligations but still have prospects and are considered cooperative;
2. Deposits/payments through strategic investors;
3. Sales of guarantees voluntarily or execution of mortgage/fiduciary rights (including through auctions).
4. Collaborating with third parties to increase the effectiveness of loan rescue efforts, both with advisors and legal consultants.

The settlement strategy applied to debtors who are considered to have no prospects, include:

1. Settlement of loans through strategic investors;
2. Sales of guarantees voluntarily or execution of mortgage/fiduciary rights (including through auctions);
3. Strengthening digitization by improving the BNI Collateral Auction website and application that can also be accessed by the general public, in order to expand and optimize the marketing of non-performing loan collateral;
4. Cooperating with third parties to maximize loan settlement efforts, including with Law Enforcement Officials, advisors, law and property agents;
5. Legal actions in the form of subpoenas, litigation, bankruptcy and civil lawsuits and billing against guarantors (Personal Guarantees and Company Guarantees);
6. Efforts to implement non-conventional schemes to accelerate the settlement of non-performing loans and increase recovery certainty to minimize Bank losses.

As mentioned above, the handling of non-performing loans for consumer loans is pursued through 2 (two) strategies, namely loan rescue and settlement. Loan rescue and settlement strategies include:

1. The Asset Quality Improvement and Recovery Acceleration Program (PPKA) for debtors who experience difficulties in fulfilling their obligations but still have prospects and are considered feasible through restructuring and/or special discounts;
2. Asset Quality Improvement Program & Acceleration of Consumer Credit Recovery (PPKA) specifically for debtors affected by COVID-19;
3. Digitizing the process for submitting consumer loan restructuring/BDO;
4. Optimizing the buyback guarantee (BNI Griya) and the Collateral Auction website;

5. Optimizing Legal Action Collection (simple lawsuit, cessie, subpoena, bankruptcy, and JPN);
6. Accelerating auctions based on the classification of potential collateral (quadran approach) and optimizing the Collateral Auction website, as well as cooperating with third parties (Property Agents).
7. Settling loans through the transfer of NPL receivables and write-off (cessie-transfer or sale of bank-owned loan receivables against debtors to other parties or investors according to the criteria set by the Bank);
8. Optimizing recovery through collaboration with third parties (collection agencies);
9. Adjusting the percentage of BDO for all levels of decision-making officials based on the maximum loan on the Authority to Decide Off Non-Principal Claims/BDO (Interest, Fines, and Fees including PSJT fees) on class 1 debtor loans Restructuring, Pre-NPL, NPL and Write-Off in the context of loan settlement;
10. Adjusting Bank Credit Policy Decisions, including adjustments to the maximum loan limit and decision-making officers on write-off authority.

Loan Risk Management Performance in 2022

Through the implementation and strengthening of the LaR Management Optimization Team, BNI's loan quality has been maintained and has improved. As of December 2022, BNI's Gross NPL ratio improved compared to the end of 2021, from 3.7% to 2.8%, an improvement of 0.9%. The same can be seen in the LaR ratio (including restructuring with the COVID stimulus) that improved 7.3% (YoY) from December 2021 23.3% to 16.0% in December 2022. With the improvement in loan quality, BNI also saw a decrease in provision for losses of 37%.

Strategy and Work Plan in the Next Year

To improve loan quality, BNI will continue to improve its risk culture through an end-to-end loan process transformation program including strengthening the LaR management strategy. In addition, in 2023 BNI will establish strategic policies supported by initiatives to strengthen loan risk management and process discipline, and will continue to optimize the 2022 program. In 2023, the Corporate, Medium and Small Segments are planning the following initiatives:

1. Development of Pipeline Management
 - a. Further development of pipeline management by adding Environmental, Social and Corporate Governance (ESG) factors to the Industry Risk Appetite and Risk Acceptance Criteria.

- b. Strengthening the determination of pipelines to focus on selective expansion including Diamond Clients, Wave Clients and Regional Target Markets, value chains and supply chain financing.
 - c. Continuing to enhance the role of risk management in global market expansion as well as sustainable FBI and CASA by offering transaction solutions through Xpora in the Medium and Small Segments.
 - d. Digitizing the Pipeline Management process through development of RM Tools
2. Developing the underwriting process
 - a. LMS development by integrating all end-to-end loan process applications is expected to have an impact on increased efficiency, productivity and asset quality.
 - b. Improving the capability & quality of data management and advanced data analytics: for the Corporate and Medium Segments.
 - c. Enhancing loan risk analytics through sensitivity analysis and stress testing of loan portfolios and changes in economic conditions, reviewing loan risk methodologies, risk-based pricing, and enhancement of impairment models.
 - d. Optimizing underwriting tools to meet business needs.
 - e. Aligning loan policies for both onshore and KCLN lending.
 - f. Reviewing business processes in the Small Segment by applying a scoring model up to Rp15 billion and improving the RAC.
 3. Strengthening the Monitoring Process
 - a. Optimizing the use and development of monitoring tools.
 - b. Intensive monitoring of debtor conditions, accompanied by comprehensive evaluation and handling of debtors to determine more sustainable debtor loan.
 4. Improving the Capability and Competence of Human Capital
 - a. Improving competencies by organizing Risk Awareness/training/certification, increasing risk mitigation by providing industry expertise data/information in accordance with the managed industry specialization.
 - b. Improving risk management HC capabilities through a focused and structured Risk Culture development program in accordance with AKHLAK.
 - c. Enhancing KCLN HC capabilities to carry out the risk function and implement the Credit Risk Committee to support the development of trade and investment centers.

5. Strengthening Remedial & Recovery
Optimizing loan rescue and settlement using conventional strategies such as restructuring NPL debtors who still have prospects and fulfill the 3 (three) pillars, massive auctions, optimizing cooperation with third parties and non-conventional strategies such as bulk selling collateral, non-performing loan collateral sales acceleration program.

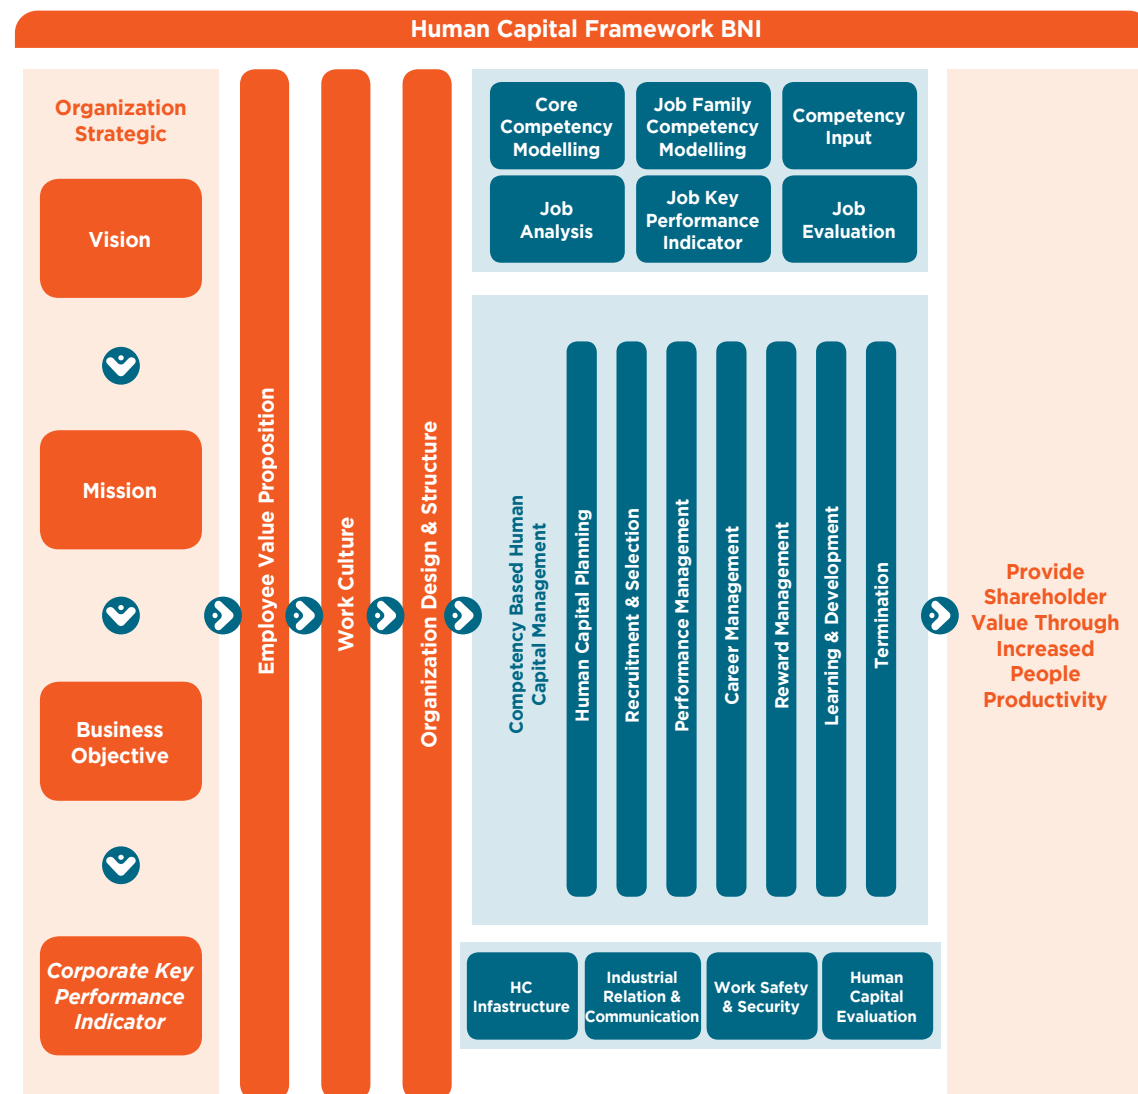

At the same time, plans and strategies for improving loan quality in the consumer segment in 2023 include:

1. Increasing selective business expansion through:
 - a. Optimizing BNI Fleksi Aktif in selected institutions based on determining the classification of institutions, and in collaboration with third parties based on financial technology;
 - b. Optimizing BNI Fleksi Aktif through pre-approval based on established RAC Risk Acceptance Criteria;
 - c. Expanding Credit Cards by utilizing fund/payroll customer data leads or selected debtor data leads;
 - d. Expanding BNI Griya in selected segments, namely fixed income selected partners, existing customers/debtors with good performance, or selected developers according to developer ratings (Top Highly, Highly, Selected, Local Selected, etc.).
2. Improving the risk culture through end-to-end transformation of the loan process by simplifying the loan process and/or adjusting BNI Griya's Debt Service Ratio (DSR) specifically for the selected segment;
3. Optimizing efforts to improve loan quality and recovery through:
 - a. Optimizing Group 4 NPL collection through third parties (collection agencies) for Credit Cards;
 - b. Optimizing recovery in collaboration with third parties (collection agencies) for subsidized BNI Griya, BNI Fleksi and Credit Cards.
4. Strengthening digital capability through innovation:
 - a. Developing the Mobile Collection system to improve billing of consumer products (eg BNI Griya and BNI Fleksi) in the field;
 - b. Using a new billing channel (Collection Talkbot);
5. Maximizing the strategies implemented in the previous year as follows:
 - a. Optimizing the use of IVR (Interactive Voice Response) & Interactive WA;
 - b. Optimizing the Legal Action Collection (simple law suit, Letter of Summons Lawyer, cessie, bankruptcy and Attorney);
 - c. Acceleration based on potential collateral classification (quadrant approach).

Human Capital Management

HUMAN CAPITAL FRAMEWORK

To realize BNI's vision of becoming the Best Financial Institution in Sustainable Service and Performance, an end-to-end Human Capital management framework has been developed aligned with the organizational strategy, and is called the Integrated Human Capital Framework.

BNI understands that employees are an integral part of the organization in realizing a shared vision and mission. Therefore, employee management needs to be managed in a structured system, with due observance of external provisions, long-term orientation and best practice in the industry. Broadly speaking, the components in the Integrated Human Capital Framework include:

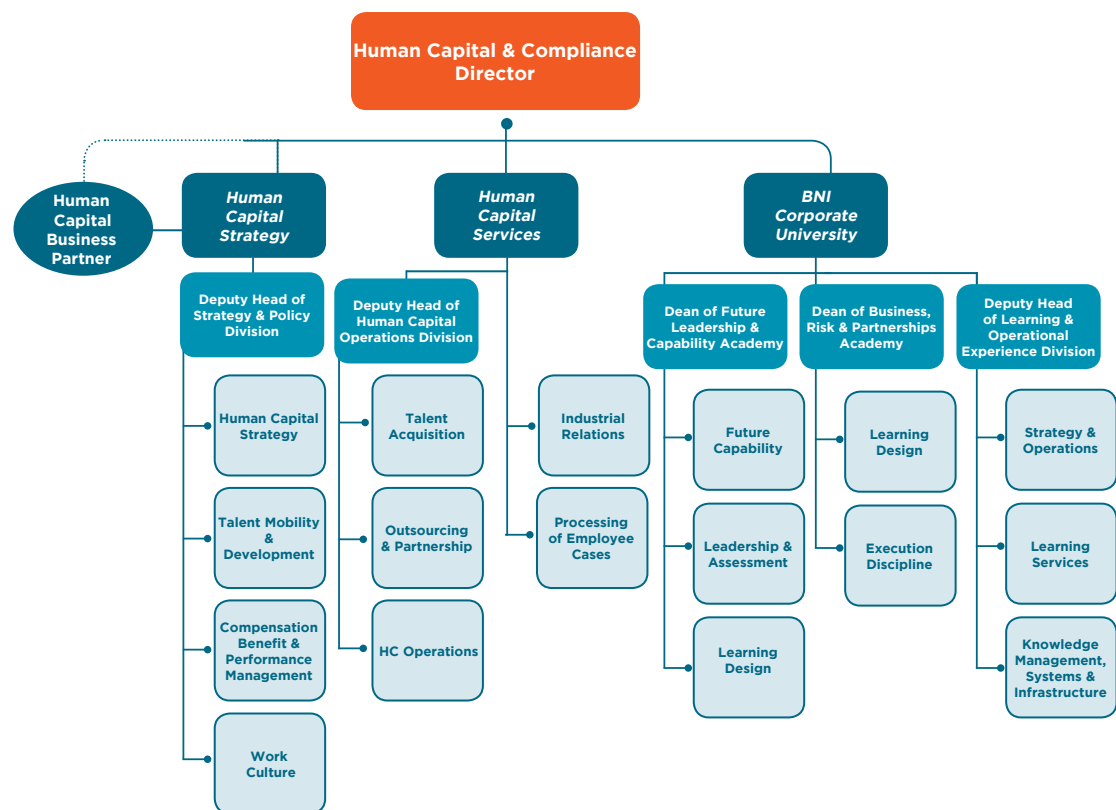

1. Organization Strategic: Long and short term Organization strategy starting from the vision & mission, business targets and key performance indicators at the organizational level.
2. Employee Value Proposition: A commitment between BNI and its employees that is mutually believed and agreed upon. Currently the EVP at BNI "Together create the best place to (Learn, Grow, and Contribute to Indonesia)".
3. Work Culture: The values, attitudes and behaviors expected of employees throughout the organization.
4. Organization Design & Structure: Design and organizational structure, including a clear division of functions, duties, responsibilities and authorities so that each position can carry out its functions optimally
5. Core Competency Modeling, Job Family Competency Modeling, Competency Input, Job Analysis, Job Key Performance Indicator & Job Evaluation as a follow-up to organization design to detail the functions and competencies needed to carry out these functions properly.
6. Competency Based Human Capital Management: Includes competency-based end-to-end human capital management

7. To ensure that all human capital management runs well, it needs to be supported by:
 - a. HC Infrastructure that is integrated with accurate data and is easily accessible by employees.
 - b. Harmonious industrial relations supported by effective communication between all relevant stakeholders
 - c. Work Safety & Security to ensure work safety and security for all employees so that they can carry out their work properly
 - d. Human Capital Evaluation as the embodiment of the principle of continuous improvement, to ensure that the human capital management system can optimally support the Bank's strategy achievement.

BNI HUMAN CAPITAL MANAGEMENT ORGANIZATION STRUCTURE

A strong and solid organization structure needs to be supported by good Human Capital management and staffed by people who are competent in their fields. To support this, BNI has a Human Capital management organization, as part of the Human Capital and Compliance Sector, led by the Human Capital and Compliance Director. There are 4 (four) functions related to Human Capital at BNI, the Human Capital Strategy Division with the authority to establish policies related to HC, Human Capital Business Partners who carry out the role as strategic partners for units, the Human Capital Services Division authorized to carry out HC related operational policies, and the BNI Corporate University with a key role in developing employee capabilities.

BNI Human Capital Management Organization Structure

EMPLOYEE PROFILE

As of December 31, 2022, BNI employed 27,170 people, a relatively stable number compared to the number of employees as of December 31, 2021 of 27,177 people. Information on BNI employee profiles can be seen in the Company Profile Chapter of this Annual Report.

IMPLEMENTATION OF THE HUMAN CAPITAL MANAGEMENT STRATEGY IN 2022

Strategic Workforce Planning & Recruitment to Get the Best Talent

One of the priorities in human capital management at BNI is to ensure the availability of employees in functions that can support the achievement of BNI's business strategies. In line with the Bank's business strategy, this year's workforce planning strategy will continue to focus on lending, risk, and digital/IT functions.

To meet employee needs, BNI has a number of programs including the Assistant Development Program (ADP) and the Officer Development Program (ODP). This recruitment plays an important role in ensuring the availability of talent that is in line with the Bank's business needs, both for the present and for the future.

During 2022, BNI recruited 342 employees through various ODP channels. BNI also supports the BUMN Ministry's program and participates in the BUMN Joint Recruitment Program (PPB) to fill the needs of employees in a number of BNI business units.

Employee Development through an Integrated Career Management Strategy

BNI view is that ensuring the availability of agile leaders with qualified leadership capabilities and global perspectives requires time and long-term programs. Therefore, BNI specifically pays attention to career management aspects so that the Company can develop the best talent who will become the future leaders. The talent management programs implemented in 2022 include:

1. Revamping Career Management Strategy

This program is part of BNI's transformation and aims to improve the process of managing & developing employee careers, especially for those categorized as Talent at BNI. This will be achieved through strengthening the role of Human Capital, improving business processes, and preparing a structured talent development plan.

The results of the transformation is the improvements in the Talent Management policy, including Classification, Development & Mobility. Implementation of this policy is also supported by accelerating IT infrastructure capabilities to facilitate the talent management process effectively and efficiently.

2. Individual Development Plan (IDP)

Each employee has different development needs, therefore BNI ensures that they each have an Individual Development Plan (IDP), prepared based on an assessment of current conditions and future career plans for each employee. When preparing the IDP, each employee is required to have competencies in the form of Hard Competency, Soft Competency,

or Leadership Competency that will be developed in the current year. The competencies selected for development are the result of joint discussions between the employees and their superiors to ensure that the development can be carried out according to its purpose. The implementation of the development program will then be facilitated by BNI Corporate University.

3. Career Acceleration

In line with the Ministry of SOEs mission and the Company's strategy to facilitate young and female talent with superior capacity and capability to fill Company leadership positions, a Career Acceleration program is provided using a speed track mechanism. Speed track is a career acceleration path that allows employees to occupy one position for a shorter period of time (accelerated).

The selection of employees to occupy leadership positions through the Career Acceleration program is carried out through rigorous selection to ensure that employees participating in this program have sufficient capacity and capability as well as high learning agility before occupying the target position

4. Global Postgraduate Program

In line with the strategy to expand its reach globally, BNI provides opportunities for employees who wish to develop their knowledge with Masters Scholarships at the Top 50 World Universities through its Global Postgraduate Program (GPP).

Global Postgraduate Program Testimonials

Yosep Abdulhalim Wardani - Master of Business Administration - Nanyang Technological University Singapore)

The BNI Postgraduate Program gave me the opportunity to continue my education at one of the best universities in the world, namely Nanyang Technological University (NTU) Singapore through a Master of Business Administration (MBA) study program. One interesting fact that I found while studying here, was that we don't only learn in the classroom, but we also learn to be business consultants who are given full responsibility for handling "real clients", so the learning experience became very interesting as we can immediately apply the knowledge gained in class in making an analysis of the project being handled.

Other from that, we also had the opportunity to learn about technology and innovation at Tsinghua University China and learn about leadership at the University of California, Berkeley USA.

The BNI Postgraduate Program provides an extraordinary opportunity for all BNI Hi-Movers to develop themselves and pursue their dream of receiving an education from the world's best campuses. This experience was one of the best moments of my life. I not only learned hard skills but also soft skills working in a new and multicultural environment. Hopefully more and more BNI Hi-Movers will have the opportunity to continue their education to a higher level.

Global Postgraduate Program Testimonials

Dita Oktro Chusnul Chotimah – Master of Arts in Global Digital Innovation – Korea Advanced Institute of Science & Technology (KAIST)

One of the conditions for the BNI Global Postgraduate Program scholarship is being accepted into one of the Top 50 Universities by Subject, where the struggle to get in was not easy for me but it was a worthwhile journey. During this submission process, my supervisor always encouraged and reminded me not to give up. This confirmed to me that BNI does not only facilitate its employees to continue their higher education but also serves as a support system for its employees.

Thank God, in September 2022 I finally had the opportunity to study my Master of Arts in Global Digital Innovation (GDI) at the Korea Advanced Institute of Science & Technology (KAIST) with a full scholarships from KAIST and BNI. In the field of technology, KAIST is the best university in South Korea and is ranked 20th in the field of Subject Engineering & Technology. The GDI curriculum is designed to prepare prospective IT Leaders working in various countries.

Here, I was taught a lot to understand technology as a whole, not only from the technical context but also from the socio-managerial context, looking for added value of technology for the users. In addition, GDI actively sends its students to various conferences to broaden their insight into the latest technological developments and facilitates collaboration projects between countries that can be used to achieve BNI's Go Global vision.

Studying at one of the best universities in the world in a country that became independent around the same time as Indonesia, but whose economic and technological developments are much faster has given me a new perspective and optimism, to be able to contribute better to my country, especially BNI. It's worth fighting for!

Roy Alfred Bohalima - Faculty of Business and Economics - University of Melbourne, Australia

Becoming a participant in the BNI Global Post Graduate Program (GPP) was one of the proudest experiences I've ever had. I really enjoyed my participation in this program as the facilities provided were very complete and guaranteed so that all my needs during the study period could be met and I could fully concentrate on completing my studies comfortably. It was through this program that I successfully completed my postgraduate education at the Faculty of Business and Economics - University of Melbourne, Australia.

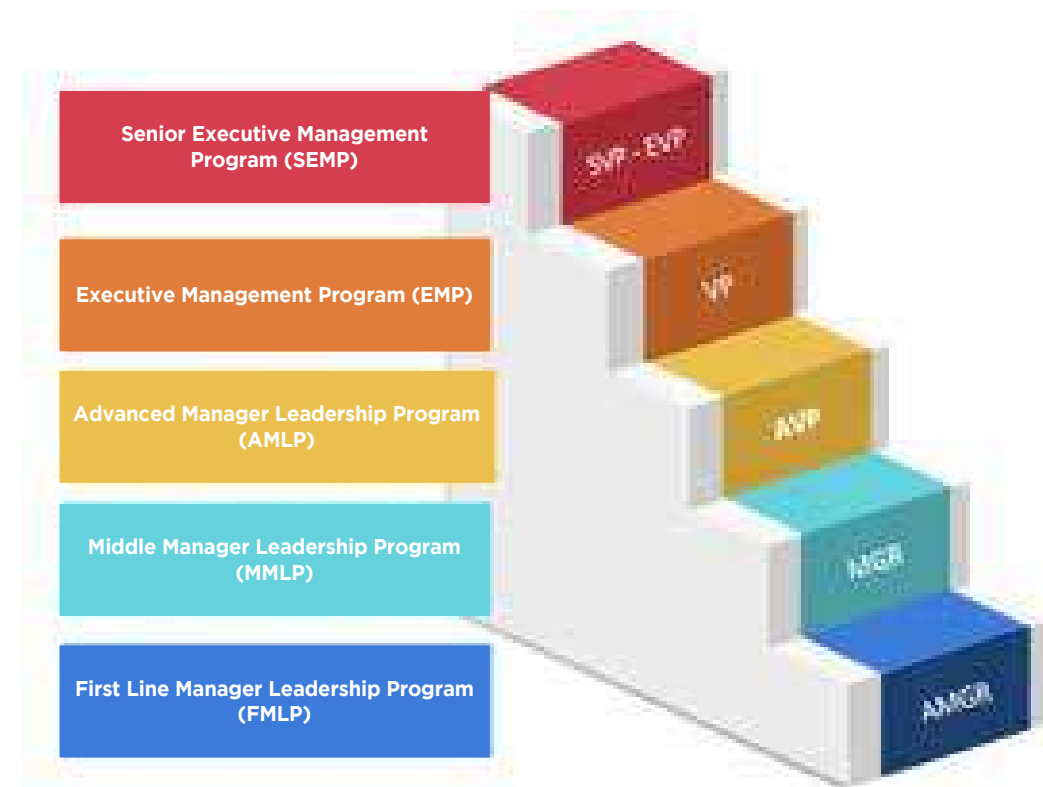

Undergoing education at one of the top 50 best universities in the world not only provided a wealth of updated knowledge in the field of strategic management that I studied but also forged me personally to stand out and become a global leader whose ideas are listened to and appreciated by other fellow students coming from different countries and cultures. I am sure that with more and more young BNI talent participating in this scholarship program, BNI will be able to create future leaders with the global insight and capability to compete at the international level.

5. Leadership Development Program

For facing increasingly complex competition, BNI must have a superior talent pool and be ready to face numerous challenges. Therefore, BNI needs to develop leadership competencies for its employees on an ongoing basis.

BNI has developed a capability development program as part of employee career development starting from leadership at the initial level to the highest level of leadership at BNI. This program covers knowledge, banking skills, personal competence and leadership to prepare employees to become leaders both in their current and future positions. This program has been specifically designed for each level of employment as shown below:

BNI also prepares succession planning in a structured way as a strategy and plan to develop all the potential and capabilities of employees to ensure the readiness of candidates to become successors.

Leadership Development Program Testimonials

I Gusti Ayu Sri Artati (Leader of KCP Selong – KC Mataram) First Line Manager Leadership Program participant

I felt happy and proud to be chosen as one of BNI's Top Talents who had the opportunity to take part in the FMLP brevet. This workshop was very interesting and useful and added to my knowledge. One thing I was taught about those things that were not too influential when working but could cause problems in the future, for example we should avoid multitasking and start focusing on task planning.

Also, we must have a growth mindset so that we don't have a fixed mindset for the dynamic changes that have occurred so far.

Taking this brevet added insight, made us understand more about the art of leadership so that we could manage the team according to expectations,

Becoming wiser in making decisions, managing people by delegating work to the team and creating a solid team needs a lot of knowledge that we can apply when managing the team and carrying out daily work to achieve the targets given.

Leadership Development Program Testimonials

Lea Beny Saputra - Service Quality Division Monitoring Group Leader Advanced Manager Leadership Program participant

I learned a lot during the training sessions. As a leader, we should be equipped with strategic orientation, change leadership, decision making & strategic design thinking, with an agile & digital mindset, to manage people & developing others, and other strategic aspects.

In my opinion, the training which was divided into several sessions, was quite powerful. Apart from in-class, we were required to follow the design thinking approach to develop an action learning project. In addition, this program designed to produce BNI's best talent, also collaborates with fintech and unicorns in Indonesia as partners (internships) so that we can get many things and opportunities and discuss them with them.

This AMLP is proof that BNI is always working to improve competencies and capabilities to produce BNI Hi movers who are reliable and capable of facing current and future challenges and demands. BNI Hi Movers are educated and trained to have a skillset according to market needs.

- Uplift your skill and win the battle -

Developing Human Capital Capabilities for Present Capabilities and Anticipating The Future

As a form of the Bank's responsibility in developing BNI's Human Capital capabilities to achieve BNI's Vision and Mission, the Bank gave BNI Corporate University a mandate to become a strategic engine tasked with integrating all "Learning Resources, Processes and People" within the Company to increase the knowledge, skills & attitude of each individual in the BNI business ecosystem. The BNI Corporate University governance has adapted the Corporate University framework and learning value chain to suit the needs of the organization.

In carrying out its mandate, BNI Corporate University manages HC quality development funds based on the Board of Directors Decree No. 31/310/KEP/DIR of 1999 concerning Provision of Funds for the Development of General Human Capital.

To meet the Bank's capability development needs effectively, BNI Corporate University divides its focus on learning development into two academies, namely:

Academy and Development Focus	
Academy	Development Focus
Future Leadership and Capability Academy	<ul style="list-style-type: none">Leadership capability development and talent development starts at the first level, middle level and executive level, and includes competency assessments.Capability development relates to new business such as Digital Capability and IT CapabilityDevelopment of new employee capabilities such as Rookie 46, Officer Development Program, Assistant Development Program.
Business, Risk and Partnerships Academy	<ul style="list-style-type: none">Development of business capabilities in the Small Business, Large & Commercial Banking, Corporate Banking, Consumer Banking & Sales, Treasury & International Banking and Banking Operations segmentsCapability development is related to Risk Culture, Discipline Execution and Partnership management in the learning sector.

When determining the capability development strategy for 2022 BNI Corporate University refers to the five-year Corporate Plan and 7 BNI Strategic Policies for 2021 - 2022. From BNI's Corporate Plan and Strategic Initiatives, a Capability Development Strategy was established to ensure the achievement of employee capabilities through development programs especially designed by the two academies for 3 matters, namely Run the Bank, Change the Bank and Transform the Bank.

Run the Bank	Change the Bank	Transform the Bank
Risk and Compliance Culture (Operational and Credit), Global Banking Business Enhancement (Xpora, International Banking Literacy, International Banking, Certification); Transactional Banking Solutions, New Entry Program (ODP, ADP)	Development of new capabilities to support the occurrence of Job Shifting/ Job Deconstruction which is needed especially in the context of implementing the New Way of Working (NWOW) as one of the BNI Corporate Transformation agendas and preparing existing employees to be ready to carry out their duties according to the new organization's business model	Planting a new mindset in all BNI employees namely Digital Transformation Mindset and Global Mindset, together with increasing leadership capabilities as well as Digital and IT capabilities

BNI Corporate University established a vision of becoming a world-class learning entity to produce superior holistic and professional leaders for BNI financial institutions. To ensure this vision is achieved, since 2017 until now BNI Corporate University has instigated standard management procedures referring to ISO 9001: 2015, and since 2019 has participated in a special global standard Corporate University accreditation, namely the Corporate Learning Improvement Process (CLIP) from European Foundation of Management Development (EFMD), where in the Re-Accreditation process in 2022 BNI Corporate University was declared to have met the CLIP Accreditation requirements for a period of 5 (five) years.

As a form of making BNI the best place to Learn, Grow, and Contribute to Indonesia, BNI always supports its employees to develop themselves, one way through academic education. In line with BNI's strategy to Go Global, BNI provides full scholarships for capable employees who wish to continue their Masters (Postgraduate) education at the Top 50 Universities around the world through the Global Postgraduate Program. In addition, for employees who have successfully completed their Bachelor's, Master's, and Doctorate degrees independently (Self Development Program), support is available in the form of tuition reimbursement assistance.

Still in the framework of carrying out the Go Global strategy, to increase strategic capability as well as global exposure, BNI provides opportunities for employees at the executive level to participate in overseas executive education in collaboration with world-class Business Schools such as:

1. Harvard Business School
2. Stanford Business School
3. Massachusetts Institute of Technology
4. Columbia Business School
5. London School of Economics
6. Chicago Booth
7. NUS Business School
8. NYU Stern School of Business
9. Cambridge Judge Business School

BNI Corporate University has transformed an agile learning culture by consistently applying the learning paradigm "learner as a center of learning", where in addition to following the lessons prepared by BNI Corporate University, each employee can determine and carry out their own development for what is needed without waiting to be called/assigned training by BNI Corporate University. To support this, BNI Corporate University provides learning facilities and infrastructure, including:

Learning Facilities/Infrastructure	
Facilities/Infrastructure	Description
BNI SMARTER (Integrated Learning System)	<ul style="list-style-type: none">A one stop learning application that serves most of the development activities for all employees - including learning and sharing processes so they can improve the competencies needed to give their best performance at work, for example DEEP 46.Subsidiary employees can also access learning modules through BNI Smarter to fulfill their competencies.

Learning Facilities/Infrastructure

Facilities/Infrastructure	Description
BNI MoRe UnLeaSh	<ul style="list-style-type: none">Compulsory 46 Learning Hours & 46 Sharing Hours (L&S 46) is a program used to create a learning & sharing culture, employees are encouraged to do learning & sharing for a minimum of 46 hours each for a year. If employees do learning & sharing more than 46 hours a year and have an impact on increasing competency and performance, this will be an added value for the employee and will be one of the considerations for changing their Person Value.Within BNI SMARTER there is one menu, namely BNI MoRe UnLeaSh, which can be used by employees to upload/record their learning realizations anytime, anywhere & anyhow.
BNI Learning Wallet	<ul style="list-style-type: none">Personal learning budget managed by each employee, allowing employees to choose their own learning and development journey to meet their competency gaps to create better, faster, and smarter work outcomes.
BNI Center of Digital Assessment & Evaluation (CODAE)	Application for digitally carrying out Soft Competency Assessments for employees at AVP level and below.
BNI CorpuTV	YouTube Live Streaming Channel is used as a platform to provide supplemental learning programs (webinar) on various topics, such as: Business, Non-Business, Updated Issues, Digital Mindset, Hobbies, BNI Transformation, in a Talk-show format with various Hosts and Speakers from internal and external BNI.
Daily Exercise for Employee Program (DEEP) 46	A program to encourage employees to always improve their competency through "bite size learning" and daily tests where reminders appear when employees take attendance digitally through digiHC
BNI Learning Game	BNI Learning Game is digital learning through gamification. Currently, courseware includes two learning games, namely: <ul style="list-style-type: none">Digital Transformation MindsetGlobal Mindset
Mandatory E-learning	E-learning containing courseware designed to support the implementation of good bank governance based on a strong Risk Culture, as required by regulators including: Anti-Fraud Awareness (AFA), Anti-Money Laundering and Prevention of Terrorism Funding (AML and CFT), Risk Culture, Work Culture (AKHLAK), Sustainability Finance, Good Corporate Governance, Gratification & Anti-Bribery
Learning Point	Giving points as a reward for learning conducted by employee
Appreciation & Motivation Awards (AMA) for Learning Resources & Learner	A motivational and awarding appreciation program for all employees who have contributed well in supporting the achievement of BNI's business performance through participation in learning activities.

BNI also plays an active role in educating the general public, especially through student internship programs working closely with the campus ecosystem to provide opportunities for students to gain knowledge, hone and deepen digital skills that are currently acquired and owned on campus to suit the banking industry especially BNI. From these programs, initiated by BNI Corporate University, 779 people have joined in BNI apprenticeship programs, including:

1. Certified Student Internship Program from FHCI Ministry of SOEs;
2. Digital Internship Program Graduates Digital Talent Scholarship (DTS) 2020 Kominfo;
3. Ministry of Education, Culture, Research and Technology (Kemendikbudristek) Independent Campus Internship Program;
4. BNI Digital Bootcamp Malang Internship Program;
5. Individual Internship Program.

Fostering a Culture of Innovation to Be at the Forefront

In this digital era, innovation is the keyword to ensure BNI's competitive advantage over its competitors. To foster a culture of employee innovation, BNI regularly organizes the BNI Innovation Championship (Binnova) as an annual activity. A total of 311 innovative ideas created by BNI Hi-Movers were collected in 2 seasons of Binnova 2022. After following a strict process, 6 grand finalists were selected to compete in the BNI Innovation Championship Grand Final held in Q1 2023, and a panel of judges was invited from internal and external parties.

Reward and Remuneration Strategy to Attract, Retain and Motivate Employees' Performance

The BNI remuneration strategy aims to increase effectiveness in attracting, motivating, and retaining a targeted talented group with superior performance and competence to support the achievement of BNI's vision & mission, strategy achievement, and realizing the Employee Value Proposition (EVP).

BNI's remuneration philosophy of total rewards consists of For More Benefit We Go, and includes:

1. For (Foundational Rewards)
2. More (Motivational Rewards)
3. Benefit
4. WE (Working Environment)
5. GO (Growth Opportunities)

To implement this remuneration strategy, several approaches were carried out in 2022, including the Employee Stock Allocation (ESA) Program. This program is carried out to increase employee motivation and sustainable performance, increase employees' sense of ownership in the Company, and includes retention efforts and increases employee risk awareness. In addition, in an effort to further motivate and retain BNI's top talents to continue their careers and contribute to BNI, there are Retention Programs and Discretionary Bonuses given to selected top BNI talent as decided by the Board of Directors.

Creating a Comfortable Work Environment to Work and Contribute Optimally

Management's vision that places people comes first as the focus by paying attention to the mental and physical health of employees. The focus on Employee Wellbeing is expected to support the level of engagement from employees, so that productivity increases. The slogan Healthy and Happy BNI Hi-Movers is a campaign that continues to be echoed among all employees to increase awareness of the importance of employee health. This is outlined in the Employee Wellbeing Guidebook, a guide for leaders and employees on the importance of wellbeing. The programs carried out in each unit include:

1. BISASAPA
A coaching and mentoring culture is very important to improve the quality of communication between employees, both leaders and teams, or between employees. Teams can get to know each other better, solve problems more effectively, and explore their own potential with the BISA or Casual Talk program. Apart from BISA, there is a SAPA program that emphasizes the habit of greeting employees by name, and the use of the 3 magic words, namely sorry, please, and thank you, which aims to increase mutual respect between employees.
2. Let's Get It Done
Let's Get It Done is a program aimed at improving the effectiveness of meetings so that more efficient and effective results are obtained, ensuring meetings have a clear agenda, so as to ensure meeting effectiveness is the focus of this program.
3. Wellness Day
For improving the quality of employee well-being, the Wellness Day program was created to focus on wellbeing activities on certain days, to provide directions to all employees to carry out joint sports activities on the 10th of each month. This program also appeals to all officers to carry out me time on Saturday (Saturday Self-Care), and family day on Sunday (Sunday Family Day).
4. 46 Society
BNI believes that building a balance between work and a healthy personal life can create a conducive work environment that can support increased employee productivity. One of the efforts to encourage and realize this is through the formation of a community for employees with the aim of facilitating employees to develop hobbies and talent as well as maintaining physical and mental health.

BNI has more than 20 communities based on the hobbies and interests of employees, which are gathered under a platform called 46Society. Each unit can create activities with the community, including both sporting and artistic activities.

In addition, BNI is trying to proactively support work life balance to encourage employee productivity by implementing a hybrid work model policy for employees who do not serve customers directly.

To support this hybrid work model, BNI provides a Work Hub as an alternative workplace for employees. Work Hub provides complete facilities, including adequate offices. It is hoped that the existence of the Work Hub can become a momentum to encourage employee productivity and create a safe work environment in the new normal era.

Testimonials from community representatives (46 Societies)

It is an honor for me to work at BNI as BNI really supports all the communities in BNI, including the Gitaswara 46 community, which is an association of BNI employees who love the world of singing (choirs, group vocals and solo singing). Thank you to BNI for always providing moral and material support for each Gitaswara 46 internal activity program and external competition so it can always produces achievements that BNI can be very proud of such as the Financial Services Sector Choir Competition (1st place in 2019, 3rd place in 2020 and 2nd place 2022) Hopefully BNI will win more and always be loved by all customers and BNI Hi-Movers.

(Simson Padenggan Manjadi/Head of the Gitaswara 46 Choir Community)

BNI really supports the work life balance program in the work environment. One way is by BNI providing basketball court facilities in the BNI Pejompongan Tower office area for routine 46 Ballers community practice. Thank you BNI for being very supportive both morally and materially of the inter-institutional competition activities attended by 46 BNI Ballers, such as BUMN Porseni and the Financial Services League. In 2022 the BNI Basketball team won first place in the 2022 Financial Services League in both the Men's and Women's Divisions thanks to BNI's full support. In the future, it is hoped that the synergy between BNI Management and the communities in BNI will continue to run well and be able to produce achievements for BNI to be proud of.

(Tri Budilaksono/Head of the 46 Ballers Basketball Community)

Starting from a desire to unite and have a forum that can become a facilitator in establishing unity among BNI employees, especially lovers of motorcycling hobbies at BNI, on April 29, 2005 at the BNI Sudirman Jakarta Headquarters, an association of 46 BNI motorbike riders with the name 46 Bikers Club was formed, commonly known as 46 BC. The 46Bikers Club (46BC) is one of the strategic partner organizations of the BNI Workers Union (SP BNI) consisting of BNI employees from all levels, both permanent employees, employee families, outsourcing, retirees, retired families, and customers who share the same hobby, namely riding a motorcycle. This club is Independent, meaning it is not affiliated with any political party. Currently 46BC has more than 5,000 registered members and around 2,000 active members spread across 7 regions and 155 chapters throughout Indonesia (MC Jakarta Raya Region, JABAR, Mid Java, East Java Crazy, Celebes, Borneo, Sumatra and Papua region)

During the 17 years since the formation of 46Bikers Club (46BC), this community has been widely supported by BNI management, both from the Head Office and from Regional Offices and Branch Offices throughout Indonesia. Routine activities are carried out in the form of: National Conference, National Jamboree, National Halal bi halal, National Kopdargab, Country Exploration, Local Touring, Natural Disaster Assistance or Social Service and participation in BNI Management activities and BNI Worker Unions as well as other bikers activities.

(46BC#002-Budi Krisnandar)

Building Digital Infrastructure for Human Capital Management

In 2021, the Human Capital Division launched Digi HC 2.0, a refinement of the previous Digi HC application. BNI Hi-Movers use DigiHC as a "personal assistant" to record daily activities, attendance, daily health surveys, work plans with the daily realization, and financial information to obtain the latest information related to BNI.

IMPACT ON HUMAN CAPITAL MANAGEMENT STRATEGIC INITIATIVES IN 2022

In line with the Human Capital Management Framework, to encourage the realization of BNI's vision is through Highly Engaged and Highly Productive employees. The impact of a number of Human Capital strategies can be seen in the results of the engagement score of 96%. Employee turnover in 2022 was 1.5%, a decrease from 1.6% in 2021.

The ACHI (Akhlak Culture Health Index) measurement has been carried out as a measurement by a third party to measure the implementation of AKHLAK core values in BUMN. BNI together with 125 other SOEs since 2021 has participated in the AKHLAK assessment with ACT Consulting. In 2022, the 2022 BNI AKHLAK Assessment score increased in all assessment categories with a Total Corporate Culture Health Index of 74.7%, an increase from 2021 (53.5%).

The actual number of employees in 2022 was 27,170 people with employee productivity based on the earning per employee indicator of Rp682 million/employee, an increase of 73% from 2021.

APPRECIATION AND AWARDS IN 2022: MEANS OF EVALUATING THE BNI HUMAN CAPITAL MANAGEMENT SYSTEM

Each year, BNI participates in activities involving external parties, on a national and international scale, as a means for evaluating the Human Capital management system

implemented by BNI. In 2022, BNI received appreciations and awards in managing Human Capital, including the 2022 Stellar Workplace Award at the GML event, and at Kontan Media won the Engaging Digital Talents in Hybrid Era award, and received the Akhlak Award 2 in the Financial Services Cluster Category, and Morals Award 2 in the Competent SOE Category held by ACT Consulting International as well as receiving the best II - Business Entity for timely payment of contributions during 2021 at the Business Entity Gathering organized by the Employment Social Security Administrator Body.

HUMAN CAPITAL MANAGEMENT STRATEGIC INITIATIVES FOR 2023

The Human Capital strategy and work program for 2023 will include:

1. Improving the workforce planning strategy by encouraging the achievement of business strategies based on increased productivity. The focus on fulfilling employee needs will be prioritized in functions related to business, digital and IT. Furthermore, BNI will also strengthen the talent acquisition mechanism and expand sourcing channels to get the best talent in the market.
2. Overall strengthening of talent management including an employee career management system aligned with BNI's organization design.
3. Preparing the employees mindset and capabilities to bring BNI into transformation (Transform the Bank), support BNI's future business strategy direction (Change the Bank), and improve capabilities related to the existing business (Run the Bank).
4. Preparing a roadmap and implementing a work culture transformation including, aligning employee attitudes and behavior with the organization culture.
5. Optimizing an integrated human capital infrastructure to encourage digitization of data-based human capital.

Information Technology and Digital Banking

The banking industry has gone through a number of unique challenges that also created new opportunities due to the COVID-19 pandemic. This pandemic resulted in many social restrictions around the world, as a result of which many economic activities experienced a slowdown, changes or adjustments. The impact on the banking industry included changes in loan requests, loan risk, and customer habits. To adapt to this situation, banks generally optimized by improving their digital service in line with the shift in customer habits to using technology to carry out their activities including their financial transactions.

Prominent developments in digital banking technology were driven by key business objectives that largely included a customer-focus, automation, innovation, and a holistic business approach supported by artificial intelligence technology solutions with a particular focus on pattern detection and analysis for personalized offerings, automated business processes and algorithm-driven architectures, as well as integration with internal and external systems to build a collaborative ecosystem.

During 2022, BNI continue with its initiatives to support digital transformation, which refers to the BNI Corporate Plan and the IT strategic plan (ITSP) to address business development needs and optimize bank operations, in line with the 3 (three) main focuses of the IT strategic plan (ITSP), Business Innovation & Transformation, Service Resilience for sustainable growth, and Transformation into an Agile Digital Organization.

With the support of BNI's IT Enterprise Architecture (ITEA) consisting of Business Architecture, Application Architecture, Information Architecture,

Technology Architecture, Security Architecture, which have become the standards for the development of IT systems and applications that deliver Digital Bank or Open Banking products. Alignment between ITEA components makes it easier for BNI to provide solution initiatives to improve business processes, making it easier to integrate BNI solutions with stakeholders.

Digitalization has proven to be capable of sustaining BNI's business growth consistently by expanding market access and operational efficiency. Efforts to improve digital technology capabilities are expected to make BNI a digital bank that can compete in the Industrial Age 4.0 and inspire the banking services industry in the future.

BNI's business strategy initiatives that focus on Global Market Expansion and International Transactions are supported by a network of overseas branch offices spread across 8 (eight) strategic cities, namely Singapore, Hong Kong, Tokyo, New York, London, Osaka, Seoul, and Amsterdam they can provide the best service to domestic and overseas customers.

To support these business strategy initiatives, BNI has a digital transformation program for its international business development for BNI customers to Go Global and attract international investors, by providing BNI's superior solutions in global banking transactions through BNI Direct Overseas Branch Offices. BNI also provides solutions to strengthen the core business of MSMEs in Indonesia to penetrate the global market through BNI Xpora, a holistic business solution, and to become an enabler for Indonesian MSMEs to Go Global.

IT VISION

Become a strategic and trusted partner in carrying out BNI's Digital Transformation through Superior Technology and Operational Solutions.

IT MISSION

1. Business Innovation & Transformation
Continue to deliver innovative and intelligent solutions to drive digital transformation and performance growth, powered by Intelligent data.
2. Service Resilience to Sustain Growth
Rationalize the architecture and prepare a reliable, available, scalable & secure future technology platform to accommodate business growth.
3. Transform to Agile Digital Organization
Transform the IT Operating Model and organizational capabilities, as well as develop digital talent to support IT strategy execution in an Agile environment.

IT STRATEGIC PLAN INITIATIVES

There are 5 (five) main IT programs derived based on the BNI IT Mission and Strategy namely

1. Digital Innovation Through Data Driven, Customer Experience, and Operational Excellence
Developing digital-based innovations and solutions to support business by enhancing customer experience, partnerships and sustainable ecosystems.
2. Accelerate Business Expansion with Risk Oriented Culture
Providing solutions to support business expansion in BNI's priority business sectors and value chains by prioritizing a risk culture.
3. Technology Modernization to Support Business
Modernizing technology to support business, rejuvenation of IT solutions to support business processes and bank services with the aim of increasing service and business productivity.
4. Strengthen IT Hygiene to Enable Service Resilience
Strengthening IT RASS (Reliable, Available, Scalable and Secure) as the foundation and support to ensure perfect service and business delivery.
5. IT Agile and Lean Organization
Supporting an agile and lean IT organization to achieve effective and efficient processes by dividing the IT development operating model into 3: namely, project based, product line and Center of Excellence (CoE).

BNI INFORMATION TECHNOLOGY ADVANTAGES

BNI's IT advantages help support business, including the following:

1. Artificial Intelligence (AI), by using AI, provide better service to customers and clients. The features in BNI AI include Digital Opening Account (Biometric) applications, Credit Scoring, Chatbot Contact Center & Learning Center and others;
2. Currently BNI is developing "BNI Ready to Metaverse", a virtual world for BNI with a variety of BNI products that can be accessed through the cross-platform metaverse channel, both via desktop browsers, mobile apps and VR/AR devices as platforms for users to virtually interact online;
3. Use of Robotic Process Automation (RPA) so that repetitive and rule-based business operational automation processes can run 24 hours for 7 days. The RPA application is expected to improve process accuracy, process speed and increase team productivity and minimize operational risk. RPA is used for remittance processing, loan administration, bank guarantees, merchant payments, clearing and RTGS;
4. BNI uses a data center infrastructure, supported by a disaster recovery center, that ensures maximum service availability. BNI's data center has received Tier III Design Certification in the Tier Certification of Design Documents (TCDD) category, and Tier III Facility in the Tier Certification for Constructed Facilities (TCCF) category from the Uptime Institute;
5. Cybersecurity in the BNI channel has been optimally safeguarded by fulfilling several security devices at each layer with reference to compliance and regulations and is monitored by the BNI Security Operations Center (SOC) team using monitoring devices;
6. The Big Data Platform and Data Warehouse are used for the development of bank wide reports and analytics. Utilization of Big Data to build Analytics based on internal and external data to capture customer behavior and develop insights/leads/platforms to improve BNI's business;
7. Utilization of cloud-based infrastructure is used for R&D Innovation and development sandboxing, as well as for helping the process of changing new ways of working by developing digital solutions with remote and cloud sandboxing both for development

and testing and implementing Cloud for the production process. Currently BNI Cloud is at version 4.0 and includes DevOps, Containers, Hybrid Cloud and Cloud Storage on Premise; Cloud serta Cloud Storage on Premise;

8. Biometrics is a validation method based on unique physical properties. Application of biometric technology, as a substitute for verification other than using a PIN and card. Identification via a PIN or password can be forgotten by the user. The use of Biometrics provides convenience and security in transactions. On this basis, identification has now been developed using unique information attached to each individual such as fingerprints, eyes and face. Use of biometric technology is a solution to complement conventional identification processes such as PINs or passwords;
9. Watchlist Filtering or WLF in the Anti Money Laundering application is used for the real-time screening process for prospective BNI customers against the Politically Exposed Person (PEP) list data and negative lists, both internal and external lists. This detection helps banks increase the effectiveness of KYC on Board. If based on the results of the WLF check, the prospective customer is highlighted by DTTOT (List of Suspected Terrorists and Prohibited Organizations)/DPPSPM (List of Funding for Proliferation of Mass Destruction Weapons)/negative list, then the prospective customer's account opening cannot be continued. And if based on the results of the WLF check, the prospective customer is related to PEP, then the customer service is required to carry out EDD (enhanced due diligence) procedure. Currently, WLF, the BNI Anti Money Laundering application, has been integrated with the front end core banking and other applications/automation machines to replace customer service functions (DigiCS and DigiCS Lite);
10. The Fraud Detection System (FDS) aims to early detect fraudulent transactions originating from E-Banking channels. One of the E-Banking Channels is Retail Mobile Banking. The BNI FDS system is supported by Artificial Intelligence (AI) - Machine Learning technology, where the system can provide rule recommendations automatically based on historical transactions. In the FDS system, the BNI team can also block and send notifications to customers if needed;
11. Development of the surrounding loan system. In order to support the loan business with high volume and short term characteristics as well as in cooperation with e-commerce for the paylater business model, complementing the core system function, BNI is developing a surrounding loan system. This development is to meet the aspects of product delivery speed, efficient processing, flexibility of connection via API, and to support the achievement of BNI's retail loan business.

IT SOLUTION DEVELOPMENT BASED ON IT APPLICATION ARCHITECTURE

BNI's IT Application Architecture is grouped as follows:

1. Public Facing, a collection of solution capabilities that handle public interactions (customers and non-customers) for the distribution of product and service information;
2. Customer Facing (Non Assisted), a collection of solution capabilities that handle customer interactions for retail and corporate product services, in a self-service manner
 - a. Corporate, the capability of managing corporate customer interaction channel solutions to access banking services on a self-service basis;
 - b. Retail, the capability of retail customer interaction channel management solutions to access self-service banking services;
3. Customer Facing (Assisted), a collection of solution capabilities that support BNI front office employees in providing banking services to physical customers (who come directly to the branch);
4. Middleware & Integration, a collection of technology solution capabilities to support and manage integration and interconnection between BNI systems;
5. Customer Relationship Management, a collection of solution capabilities to support marketing, sales, service management processes, and to improve the overall customer experience;
6. Product & Services, a collection of back end solution capabilities to support daily banking transaction processing and to post updates to accounts and other financial records;
7. Operational Support, a collection of back end solution capabilities to support operational banking services and products that are not related to recording customer transactions;
8. Enterprise Support, a collection of back end solution capabilities for managing organizational resources, which include buildings and facilities, equipment, documents, finance, and human resources;
9. Data, a collection of solution capabilities aimed at optimizing the management and utilization of data at a bank;
10. Payment, Clearing, Settlement & Reconciliation, a collection of solution capabilities to support payments, clearing and settlement processes, where solutions in these capabilities are connected to external parties (regulators, etc.);

11. Enterprise Information System and Decision Support System, a collection of solution capabilities that are the result of data processing in the form of modeling and analytics to assist the decision-making process.
 - a. Customer & Business Insight, the capability of data analytics and modeling solutions that focus on customer and business insights;
 - b. Risk Management, the capability of data analysis and modeling solutions that focus on managing financial, operational, loan and market risks to minimize the impact and potential risks of business decisions;
 - c. Compliance & Regulatory, the capability of data analytics and modeling solutions to support reporting needs with regulators, as well as provide oversight of compliance with applicable rules and regulations.

All BNI system/application developments have been based on the IT Application Architecture to produce effective and optimal IT solutions.

INFORMATION TECHNOLOGY INFRASTRUCTURE

Towards IT Operations that are prime, resilient, and can respond quickly to changes.

To provide excellent digital services to all stakeholders, BNI always undertakes continuous improvement through strategic planning as follows:

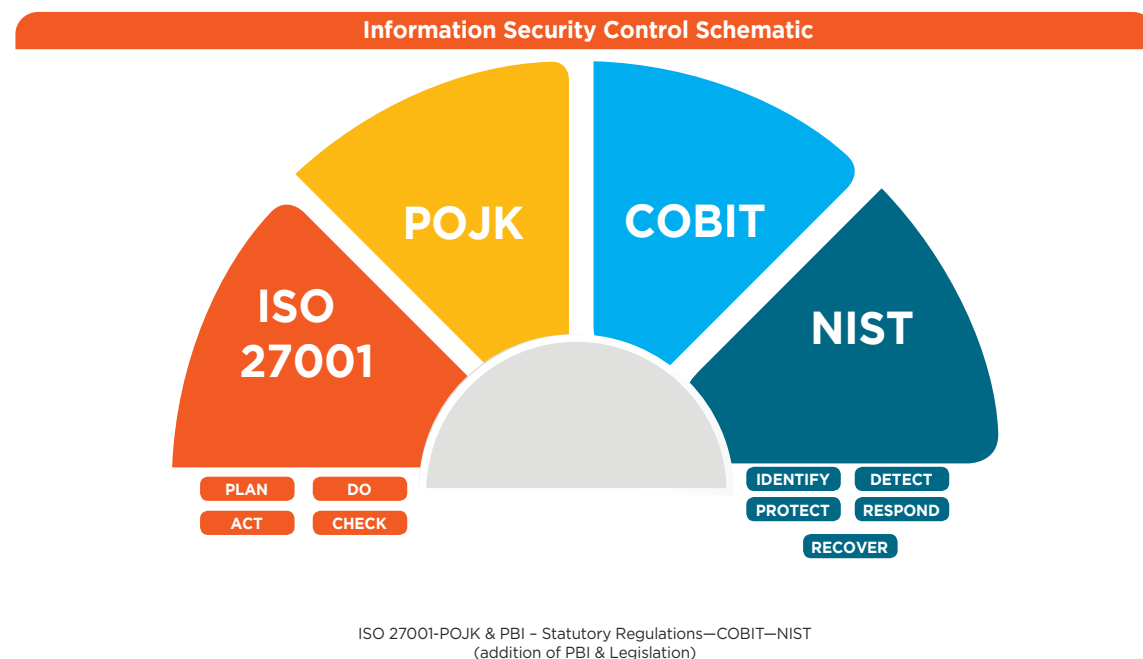

To support digital business development and operations, BNI continues to maintain and increase system capacity by applying the latest appropriate technology, as well as increases system capabilities to support BNI's business. Towards an IT Infrastructure with a Software-Defined Everything paradigm is marked by the implementation and utilization of a Software-Defined Data Center using Cloud and Virtualization technology, Software-Defined Storage using Hyperconverged technology, and the Software-Defined Network & Software-Defined Wide Area Network. Software-Defined Everything provides many benefits in simplifying the IT infrastructure governance, and operations so that it can quickly respond to changes and BNI's business needs.

To maintain the best digital services continuity for all customers, BNI, with the support of 3 Data Centers (DC), consistently strives to ensure the availability of services, as demonstrated through the expansion of the Disaster Recovery Center (DRC) facility and the testing of the Disaster Recovery Plan (DRP) by continuing to increase Switch Over & Switch Back (SO-SB) activities to test the backup systems in running services, especially for critical and transactional applications using automation initiatives so as to provide a sense of security and trust by customers.

Furthermore, in maintaining service continuity, BNI has completed Real Time Monitoring Tools that are not only used for supervision but also for predictive capacity planning and automated task operations through the use of Artificial Intelligence (AI). Together with the Helpdesk and IT Service Management, BNI ensures excellent service monitoring and remediation 24x7.

INFORMATION SECURITY CONTROLS

BNI understands the need to ensure transactions, data and IT services remain secure. Therefore, BNI has strengthened a special organization related to cyber security, with Information Security playing a role in all activities related to information security at BNI, including in the areas of security governance, data security, access control, and security business processes and plays an active role in the field of application development, operational information security life cycle including digital forensics, handling and monitoring incidents related to cybercrime. For addressing cybersecurity, BNI adopts several international frameworks and applicable regulations. Proactive Cybersecurity is an important factor in gaining customer trust so BNI will always pay serious attention for continuous development.

BNI has carried out the following efforts to ensure business continuity from cybercrime threats:

1. Implementing governance, regulations and compliance so that information security functions well and in accordance with internal provisions, prevailing statutory provisions and best practices;
2. Developing security aspects in all application development by applying the Secure SDLC framework;
3. Implementing information security architecture for assets, data, applications, endpoints, networks and perimeter security, which is carried out to ensure the principles of confidentiality, integrity and availability can function properly;
4. Implementing a multi-layer of defense security devices based on international standards as applied in national banking system;
5. Implementing security solutions using machine learning and artificial intelligence security systems;
6. Conducting 24x7 proactive monitoring against cyber threats;
7. Collaborating with official state agencies (such as BI, OJK and BSSN), principal security devices and other cybersecurity activist communities to gain information on threats and weaknesses, the latest technology and products, and support when incidents occur;
8. Educating employees to increase awareness of cyber security, and carrying out phishing simulations for employees on a regular basis;
9. Continuous awareness education with Human Resources competency development programs;
10. Continuously review the security controls that have been implemented and their updates;

11. Periodically conducting security tests on BNI applications to strengthen BNI applications from cyber attacks.

In addition to the aforementioned, and by taking into account the trend of cyber attacks, which are currently increasingly spreading to customers, there are several safeguards on the customer side that have been implemented, including:

1. Mechanism for customer protection against fraudulent transactions caused by malware banking and social engineering;
2. Threat Hunting through detection mechanisms and taking down fake websites on behalf of BNI;
3. Notification mechanisms for transactions made by customers;
4. Continuous education for customers about self-protection through password security, internet banking security, mobile banking security, transaction security at ATMs and others.

BNI continuously develops cybersecurity, in order to oversee banking service innovation so that aspects of customer trust and comfort can always be well maintained. This effort is consistently carried out in line with the direction of business development towards digital banking.

INFORMATION SECURITY AUDIT IN 2022

During 2022, BNI carried an Information Security Audit internally by BNI's Internal Audit (IAD), and has been certified for ISO 27001:2013 - The Information Security Management System in The Provision of Open API Services with the Criteria "RECOMMENDED".

IT HC DEVELOPMENT AND CERTIFICATION PROGRAM

Development of IT HC competencies is needed to improve the quality of IT strategic plans and create competitive advantages for BNI's business. To remain adaptive to changes in the digital era, BNI continues to make adjustments to capabilities that are not only sourced from the process and technology side, but also from the people aspect. BNI is very aware that the development of Human Capital is BNI's most important asset, and is very necessary for the future success of the organization.

In this area, the IT Work Units provide employees with training to develop their soft skills and hard skills. Development of soft skills is carried out through digital leadership training, technology presentation skills, as well as communication & negotiation skills. While hard skill training is carried out through project management training, IT architecture, programming, CI/CD, secure coding, cloud security, etc.

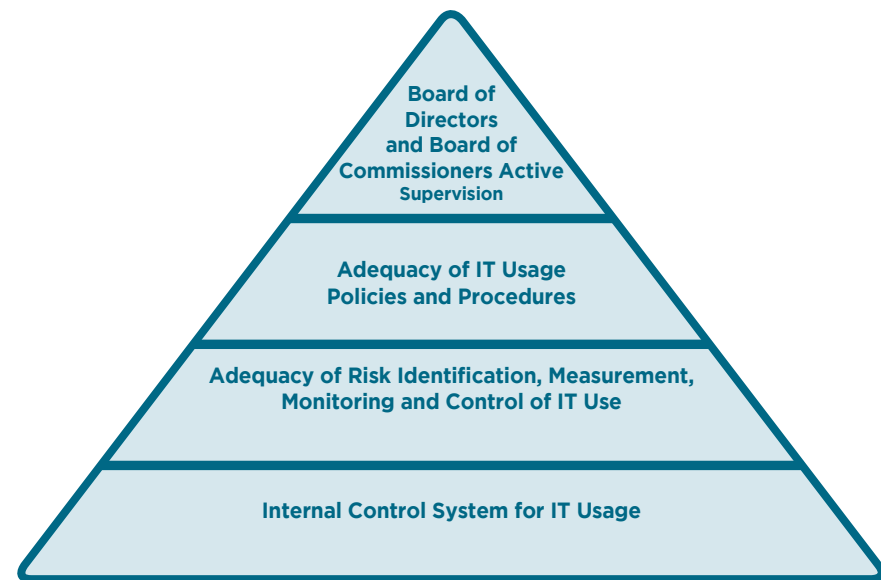

During 2022, BNI's IT employees to participated in education and training, including:

1. Stress Management;
2. Powerful Lobbying and Negotiation Skills;
3. Professional Scrum Master (PSM) Preparation & Certification;
4. Project Management (PMP) Preparation & Certification;
5. JOGET DX Application Workflow;
6. UI/UX Design;
7. Coaching & Mentoring Essential for Leaders;
8. ISTQB - Certified Tester Foundation Level (CTFL);
9. TOGAF 9.2 Foundation with international exam preparation;
10. COBIT (Control Objective for Information and Related Technology) - 2019;
11. CISM (Certified Information Systems Manager);
12. CISSP (Certified Information Systems Security Professional);
13. DevSecOps;
14. Cloud Security;
15. Secure Coding;
16. Introduction to ISO/IEC 27001:2022.

In addition, BNI continuously conducts IT HC certification programs to gain competency recognition nationally and internationally, to increase individual credibility, and to add new insights that cannot be obtained through regular education and training.

INFORMATION TECHNOLOGY GOVERNANCE

IT strategies are implemented in the corridor of effective and comprehensive IT governance, so as to mitigate risks while still providing added value to the Bank. IT Governance at BNI is carried out by aligning the IT Strategic Plan with the Bank's business strategy, optimizing resources, utilizing IT, measuring performance, and implementing effective risk management while still complying with the OJK regulatory provisions and Bank Indonesia regulations. The implementation of IT governance at BNI includes the following:

The use of IT at BNI is regulated in policies, standards and procedures that are applied consistently and continuously in accordance with the provisions in OJK Regulation No. 11/POJK.03/2022 concerning Implementation of Information Technology by Commercial Banks, which includes the aspects of:

- | | | |
|---|--|--|
| 1. Bank IT Governance | 2. Bank IT Architecture | 3. IT Risk Management |
| 4. Resilience and Cybersecurity | 5. Use of IT Service Providers | 6. Placement of Electronic Systems |
| 7. Data Management and Personal Data Protection | 8. IT Service Provider by the Bank | 9. Internal Control and Internal Audit |
| 10. Reporting | 11. Bank Digital Maturity Level Assessment | |

Selection of a good IT governance framework requires a balance between the People, Process, and Technology aspects. Based on these considerations, the IT governance implemented in BNI adopts various frameworks appropriate to the IT services at BNI.

Control Objectives for Information and Related Technologies (COBIT)

Control Objectives for Information and Related Technologies (COBIT) are widely recognized as an IT management and IT governance framework. COBIT manages IT in meeting the needs of BNI's stakeholders through the management of process groups and their enablers, where business objectives are mapped into IT objectives, and measurement of achievement and maturity is carried out. To fully comply with Minister of SOEs Regulation No. PER-03/MBU/02/2018, an IT governance assessment (IT Maturity assessment) was carried out by external consultants using the Cobit 5 framework, and based on the assessment results BNI's IT Maturity Level received a score of 3.62 (from a minimum score of 3 set).

BNI's IT management uses the COBIT framework as a governance reference, due to the synergies between business objectives and IT objectives, its flexibility in following the direction of the Company's work, and can be used in conjunction with other framework standards.

Information Technology Infrastructure Library (ITIL)

The Information Technology Infrastructure Library (ITIL) is a standard framework for IT Service Management (ITSM), used in operational activities to align IT services with BNI's business. ITIL focuses on IT processes, procedures, tasks and service levels to support the Bank's strategy, provide added value, and maintain IT competency levels. With ITIL, BNI's IT operations has established baseline service benchmarks, planning, implementing and measuring achievements.

International Organization for Standardization 9001:2015 (ISO 9001:2015)

ISO 9001:2015 is a quality management system standard (Quality Management Systems) designed to ensure that BNI meets stakeholder demands while complying with regulatory requirements regarding its products and activities. BNI has implemented and received ISO 9001:2015 certification within the scope of IT Operations.

With the establishment of ISO 9001:2015 quality standards and mechanisms that focus on bank performance, through a risk-based thinking approach, BNI IT is more proactive in preventing and reducing unwanted effects and is always improving the system on an ongoing basis (continual improvement).

International Standard to Manage Information Security – ISO/IEC 27001

ISO 27001 is an international standard for information security management systems, commonly referred to as Information Security Management Systems (ISMS). ISO 27001 is an information security framework standard that is widely chosen, has wide acceptance, is trusted by various organizations, and is a reference for other information security frameworks such as the NIST Cybersecurity Framework, SANS, etc. Thus, the ISO 27001 standard can be used to improve IT security and has a positive correlation to boost the level of trust of both customers and business partners/third parties and organizations.

To strengthen BNI in competing with peers and the fintech industry, ISO 27001 standardization is an important achievement to obtain the following benefits:

1. Making BNI more competitive in the banking industry, fintech and other financial institutions by providing a positive image and good perception in securing customers and business partners/third parties.
2. Improving information security governance based on applicable national and/or international standards so that it is relatively easier to gain permission from the regulator.
3. Providing convenience for BNI to improve information security controls for digital banking business processes.

IT AWARDS IN 2022

Various efforts made throughout 2022 yielded good results. BNI received awards for its activities in the IT sector as follows:

1. Certified ISO 9001/2015: Quality Management System on IT Operating Services & Information Technology (IT) Security Management;
2. Certified OUR INDEX;
3. Certified ISO/IEC 27001:2013: The Information Security Management System for The Provision of Open API Services;
4. The 2022 INDI 4.0 Assessment was carried out;
5. The 2022 COBIT 5 Assessment was carried out;
6. Indonesia Digital Innovation & Achievement Award 2022 (IDIA 2022) organized by Business Asia Magazine (Indonesia) and Business Update Magazine. BNI received 2022 Indonesia Digital Innovation and Achievement Awards, including:
 - a. Best digital innovation and leadership in international trade and corporate banking 2022;
 - b. Best overall Indonesia digital innovation and achievement in international trade and corporate banking 2022;
 - c. Toto prasetio best chief technology officer (cto) Indonesia digital innovation and achievement in 2022.
7. Top digital Award 2022 organized by Itwork magazine.
 - a. Top Corporate Digital 2022 #Stars 5;
 - b. Golden Trophy 5 Star winner for 3 consecutive years;
 - c. Royke Tumilaar as the winner of Top Leader for Digital Implementation 2022.
8. The Best Overall Dev Portal Community Prize at the 2022 DevPortal Award.
9. The Best International & Localized DevPortal at the 2022 DevPortal Award.
10. Tempo Financial Award 2022 “The Best Bank in Digital Services”. Conventional Commercial Bank Category;
11. BNI won the Inews Maker Awards 2022 in the Innovation of Operation and Supply Chain category in Jakarta;
12. A special award called New Mobile Banking Innovation was given directly by the Minister of Agriculture, Syahrul Yasin Limpo to BNI IT and Operations Director Y.B. Hariantono.

INFORMATION TECHNOLOGY DEVELOPMENT PLAN FOR THE FUTURE

To realize BNI's IT Vision, IT development in 2023 will refer to an IT strategic plan that supports BNI's digital transformation through the ongoing provision of superior IT technology and operational solutions in service and performance. The initiatives to be carried out include digital innovation to supports business through enhancing customer experience, partnerships and sustainable ecosystems. There are also technology enablement initiatives for business expansion in priority sectors and supply chains, technology modernization to

support bank business and services, strengthening IT RASS (reliability, availability, scalability, and security) to ensure bank service reliability, as well as organizational support an agile and lean IT to achieve effective and efficient processes using a shared IT development operating model.

Technology modernization initiatives in 2023 will be carried out, include updating the switching system, treasury core system, prepaid system, trade system, wealth management system, pension system, enterprise finance system, and rationalization of the overseas branch office system.

To ensure service and business reliability, BNI will also implement technology initiatives through the IT Hygiene program to strengthen RASS (reliability, availability, scalability, & security) aspects, including strengthening infrastructure through modernizing core banking infrastructure, DC-DRC architecture redesign, implementing new middleware to support new digital capabilities, and strengthening the security management, end point security, application security, and data security aspects.

NEW WAYS OF WORKING

The development of digital technology is happening very fast and the adoption of technology and its utilization has changed customer behavior widely, and a number of new business models have emerged that uses digital technology. Under these conditions, the agility in the bank's business is not just something worth achieving, but something that is very important in order to maintain the viability of the bank's business in the long term.

In dealing with these changes, BNI has instigated a digital transformation program by implementing a digital technology mindset, by establishing an employee culture in line with BNI's transformation, and has made changes in the organization design and implemented new ways of working. So that BNI can optimally collaborate with peers, fintech, and startups as well as the digital ecosystem.

BNI IT's Implementation of new ways of working has been carried out in the IT Agile Transformation program, which implements an agile way of working, cloud-based development based on Google Cloud Platform since early 2022, and devsecops to improve an agile work culture, methods and tools, so as to optimize the development process, operations, security and adoption of technology trends, as well as enhancing the capabilities of BNI's IT HC in providing optimal IT solutions.

TECHNOLOGY SYNERGY WITH SUBSIDIARIES

Implementation of BNI's information technology development adopting IT Agile and Lean Organization can strengthen collaboration/synergy between BNI and its subsidiaries, with the aim of efficiency and optimization of IT resources, thus increasing effectiveness and cost efficiency in providing added value to support service and business activities.

Potential digital synergies to support subsidiary companies include:

1. Capability Synergy & Integration
 - a. BNI Life
 - i) Synergizing in developing the BNI digital ecosystem through the integration of MBanking (BNI)
 - ii) Performing Customer Data Consolidation synergy

- b. BNI Multifinance
 - i) Synergizing in developing the BNI digital ecosystem through the integration of MBanking (BNI) and Loan Management System (BNI)
 - ii) Synergizing the content/document management system (BNI)
- c. BNI Sekuritas

Synergizing in developing the BNI digital ecosystem through the integration of MBanking (BNI), Treasury Core (BNI), New DPLK (BNI), BNI Direct (BNI) and BNI Wealth Management System (BNI)
- d. BNI Asset Management
 - i) Synergizing in developing the BNI digital ecosystem through the integration of MBanking (BNI) or BIONS (BNI Sekuritas)
 - ii) Synergizing the Center of excellence for improving HC capabilities in the security sector
- e. BNI Remittance

Synergizing in developing the BNI digital ecosystem through MBanking integration
- f. Bank Mayora

Synergizing in managing Human Capital including online learning.
2. Technology Synergy

Synergizing in the use of BNI data centers, which can have an impact on increasing availability, security and efficiency for BNI and all of its subsidiaries.
3. Procurement/Sourcing Synergy
 - a. BNI Asset Management

Synergizing in the use of licenses to utilize security solutions (i.e. antivirus)
 - b. Bank Mayora

Synergizing in the use of licenses for the use of collaboration tools

Service Digitization

BNI continues to strengthen those digital innovation that deliver a strong contribution, both in terms of operations and profitability. As one of the pioneers of digital banking, BNI continues to encourage digital innovation to accelerate digital transformation in all BNI business and operational lines. The development of information and digital technology through the Internet, Cloud, Big Data, Internet of Things (IoT), and Artificial Intelligence (AI) has triggered changes in the industrial sector, known as industrial revolution 4.0. This has marked an increasing use of communication networks and the internet for various purposes, automation processes integrated with AI, decision making using insights gained from Big Data analysis, optimizing the use of the Cloud for business and personal needs, and connecting daily devices with the Internet. These developments have resulted in changes in consumer behavior, leading to the creation of new, more suitable business models. To anticipate these changes, digital transformation has to be carried out to include the integration of digital technology into business processes.

BNI is continually improving through innovations to create new products and services based on customer needs. BNI is committed to always maintaining and improving service quality, and is proactive in encouraging and developing digital solutions for customers. One of BNI's efforts to adapt to more digital changes in consumer behavior has been to explore innovations and study the latest trends in the use of technology. To optimize innovation in terms of technology and optimization of business processes, BNI has also used the services of the Independent International Research Institute on an ongoing basis since 2007 to gain references, descriptions, trends, and insights on technology and developments in the global industry in general and banking in particular. Several key technologies adopted have contributed significantly to the development needs of BNI's digital banking products and services in recent years.

BNI service products supported by the development of digital technology, including the following:

BNIDirect

BNIDirect is an electronic channel provided by BNI for non-individual customers to carry out financial transaction activities from customer accounts at BNI more quickly, easily and safely. BNIDirect can be accessed by web-based or mobile app, where its advantages can be divided into three functions, namely Payment Management, Collection Management, and Liquidity Management.

The superior features offered are as follows:

1. E-Tax
Virtual tax payment service for non-individual customers.
2. Mass Payment
E-Payroll (channel for paying employee salaries for non-individual customers), bulk payments.
3. E-FX (Forex Transaction)
4. Integrated Reporting
Features that make it easier for customers to identify cash inflows, monitor liquidity, and carry out all transactional needs to overall financial management.
5. Smart Commerce Pay
A digital payment method that accommodates buyers to make payments to sellers according to the invoice value and mutually agreed payment terms. Sellers can apply for a takeover of SCPay to BNI so that sellers receive payments more quickly. This feature makes the process flow in the banking transactional mechanism in the business ecosystem more efficient, facilitates monitoring of payment settlements for company's buying and selling transactions, improves the quality of accounts payable and accounts receivable, and increases trust between the business entities involved.
6. Billing Payment
7. BNI POPS (Pertamina Ordering and Payment Solutions)

BNI API SERVICES

In reaching out to various digital ecosystems, especially those that are relevant to people's current lifestyles, BNI provides open banking facilities through API services that can be accessed

by various e-commerce, ride-hailing platforms, financial technology (fintech), various university startups, corporate SOEs, Ministries, etc. Digital initiatives carried out by BNI through open banking services include products, digital platforms, and service expansion in ecosystems based on a business to business to consumer (B2B2C) model.

To support domestic and foreign businesses, BNI has Corporate API services, and to expand its retail business reach, BNI provides retail API services. For third parties who wish to try the API service, BNI has prepared an API portal (digitalservices.bni.co.id) to conduct trials and simulations of integrating banking services with their applications in the BNI sandbox.

BNI VIRTUAL ACCOUNT

BNI Virtual Account offers the convenience of identifying partners/customers who make payments, with accurate monitoring and reporting, as well as convenience and speed in the reconciliation process.

The Virtual Account can be used as a customer or depositor identification, where every deposit in the virtual account will automatically be recorded in the main account that is the destination of the deposit.

The complete BNI Virtual Account features are accommodated in the BNI e-Collection platform, and can answer various collection management needs based on customer needs.

BNI TRADE ONLINE

To support the trade process digitization, BNI has developed BNI Trade Online, an application for the Trade Finance process integrated with BNIDirect. BNI Trade Online is a feature on BNIDirect where customers can carry out trade activities such as Import LC, Export LC, Collection and Financing. With BNI Trade Online, it is no longer necessary to submit requests for trade transactions through BNI branches, but can be done by accessing BNIDirect. Several system development initiatives have been initiated to improve the features that support customers' trading activities, including the development of a faster and more efficient BNI Trade Online registration process so that customer transactions become more flexible.

By the end of 2022, more than 177 customers have used BNI Trade Online services, for a total of 1,978,873,323 transactions. BNI Trade Online continues to be developed, to explore the potential of trading services for customers, additional product features that can be accessed by customers being added, as well as enhancements to

existing product features. BNI Trade Online is proof that BNI is also developing along with the changing mindset of BNI customers towards the digitalization era as a branchless and paperless service solution.

KCLN BNIDIRECT

In an effort to improve services for overseas customers and as BNI's implementation and support as an international bank, BNI has developed the BNIDirect Overseas Branch Office (KCLN) platform to support the growing diaspora who rely on an international network and branch offices. BNIDirect KCLN also reaches overseas customers who have business partners in Indonesia.

RESEARCH AND DEVELOPMENT (R&D) METAVERSE

Metaverse is a new digital ecosystem that utilizes a combination of Blockchain, Web3 and VR/AR/XR technologies which, in addition to being able to provide humans with the ability to interact with other users through a computer-generated environment, also provide opportunities for the development of products, services and businesses, and is a new digital model for many types of industries, including the banking industry. This technology has the potential to become a disruptor in the banking industry as it can provide new experiences for customers in accessing banking products. In addition, existing business processes can be complemented or streamlined, making them more accessible and more cost-effective to various segments.

Responding to the increasing trend of Metaverse in 2021, BNI conducted Research and Development (R&D) on using Metaverse technology, which has been implemented on a number of occasions. At the Java Jazz Festival 2022 event, BNI held a showcase of this technology at the BNI main booth. After that, other BNI events were also supported by Metaverse technology, such as at the B20 Summit, where BNI conducted education on BNI banking products to international visitors. In addition, BNI also attended and supported the 2023 Indonesia Metaverse Show initiated by the Ministry of SOEs.

Looking forward, BNI will continue to carry out long-term development on the Metaverse ecosystem. User cases have also been prepared, such as the use of Metaverse for BNI employee/prospective employee education, BNI product showcases and the acquisition and activation of banking services in Metaverse. In the end, Metaverse will become an added value for BNI in selling its financial products in the future.

BNI MOBILE CREDIT CARD AND MY CREDIT CARD IN MOBILE BANKING

BNI's credit card service is application-based so it helps cardholders to receive their transaction information via smartphones. BNI Credit Card Mobile and My Credit Card in Mobile Banking come with features such as billing information, recorded transactions, installment conversions, bill payment and insurance registration, cash withdrawals, as well as credit limit increase request services and data updates. BNI Credit Card Mobile and My Credit Card in Mobile Banking also provides information on BNI Credit Card promos and products.

CONTACTLESS CREDIT CARD

The BNI Credit Card in collaboration with the Principals allow Cardholder to simply tap their BNI Credit Card on the EDC machine with the contactless logo. This feature provides more benefits to cardholders where transactions have become more practical and secure.

DIGITAL ACQUISITION

Credit card application facilities or channels using a mobile web can be accessed anytime and anywhere using a smartphone via the applycreditcard.bni.co.id link. This Digital Acquisition provides advantages in the form of:

- The prospective cardholder's data is directly stored in the system thereby minimizing the risk of data leakage.
- The Credit card applications can be completed digitally via a smartphone without the need to meet with sales or come to a branch.
- Faster processing of credit card applications and decisions.

BNI CREDIT CARD VIRTUAL CARD NUMBER

A BNI Credit Card feature that can be used as an alternative payment for credit card transactions that is more effective and efficient and provides comfort and convenience in online transactions (card not present) with a unique virtual number as a substitute for the original credit card number to be used on a BNI Corporate Credit Card.

QRIS SOURCE FOR DOMESTIC GOVERNMENT CREDIT CARD FUNDS

The QRIS payment feature with Domestic Government Credit Card funding sources using BNI Mobile Banking is aimed at facilitating operational expenditure and work unit (Satker) official travel, at the central and regional levels using a Government Credit Card (KKP) payment scheme where processing is carried out through domestic principals.

BNI MOBILE BANKING

BNI Mobile Banking is one of BNI's digital services to meet customer needs (customer centric) and provides convenience for customers when conducting end-to-end banking transactions, from user onboarding to transactional processes.

Currently, digital banking product and service developments is being carried out with a focus on BNI Mobile Banking. This is done considering that BNI Mobile Banking offers convenience for customers to make transactions easily, anywhere and anytime. The following products were developed at BNI Mobile Banking in 2022:

1. All-in-one Investment Platform
To support customers' financial planning and to help customers achieve their life goals, BNI launched investment services, where customers can buy investment products and monitor assets owned on one page. Currently, customers can purchase Secondary Bonds, SBN and Mutual Fund products from a number of experienced Investment Managers. To help customers, there is an "Investment Portfolio" menu that can be used to monitor the value of each asset.
2. Personal Financial Management (PFM)
The PFM feature is an extension of the All-in-one Investment Platform, where users can manage their own finances and pursue their life goals. Within this group, there are a number of features, such as Tapenas Life Goals and consolidated financial reports. The Tapenas Life Goals feature helps customers achieve their life goals through regular monthly saving.

3. Mobile Cash

A mobile cash feature making it easy for customers to easily make cash withdrawals without the need to use a card, but can use BNI Mobile Banking. Apart from ATMs, the Mobile Cash feature is currently also available at various merchants such as minimarkets. Through this feature, customers can maintain the security of their cards from risks (such as losing the card) and enjoy the convenience of cash withdrawals if the customer does not carry the card when traveling.

4. International Digital Banking

As a Go Global oriented bank, one of the advantages of BNI is the ease of conducting transactions between countries through BNI Mobile Banking. In 2022, BNI launched several features, such as FX Mobile (Digital purchase of foreign currency through BNI Mobile Banking), Digital Remittance (Transmitting funds between countries through BNI Mobile Banking) and International Digital Opening Accounts in various countries.

5. Lifestyle & Assorted Choices of Payment Solutions

One of the advantages of BNI Mobile Banking is the personalization of customers' daily activities. To support customer activities, BNI has provided more than 6,500 payment services (such as Telco payments, electricity payments). In addition, BNI Mobile Banking also has a Lifestyle feature, where users can buy entertainment and game vouchers without needing to open another website. Looking forward, BNI will add more billers and other digital services, so that BNI can enjoy a one-stop solution for various payment needs.

Data Management

STRATEGIES AND POLICIES IN 2022

BNI continued to develop data management aspects to support the achievement of BNI's vision of becoming a financial institution that excels in service and performance in a sustainable manner. Through the Data Management & Analytics (DMA) Division, efforts to support selective business expansion, sustainable increase in FBI and CASA, and acceleration of international business strategies were carried out following a strategy of implementing advanced analytics using big data. The DMA Division played an active role in producing advanced analytics output for business and risk aspects that made a significant contribution to the wholesale, SME, consumer and Subsidiary segments. Advanced analytics outputs came in several RACE digital transformation priority projects that focused on driving business growth in each segment.

The DMA Division continued to support business growth by improving the quality of analytics deliverables & performance monitoring. Some of the focus strategies for developing the data management aspects in 2022 included:

1. Implementing Artificial Intelligence to support the Company's initiatives, in terms of increasing revenue, as well as providing the right product recommendations;
2. Center of excellence and knowledge sharing to support data-based decision making.

INNOVATIONS IN 2022

Facing the Digital Transformation era, the DMA Division continued to make continuous improvements with a focus on providing data and analytics, including playing an active role in supporting the BNI Transformation Project. Support highlights carried out by the DMA Division during 2022, included:

1. BI – Antasena Integrated Commercial Bank Report Automation: Report automation to be used to speed up the BI – Antasena LBUT reporting process in accordance with the business units and reporting units criteria and rules;
2. Liquidity Crisis Center: Monitoring financial indicators for management of bank liquidity and accelerating decision making for BNI Management, particularly for TPF & Loan information;
3. BNI Dashboard Rejuvenation: To support the acceleration of leadership decision making, through a dashboard that shows critical data from the perspective of BNI's performance, transactions and operations in real time;
4. Data Scientist and Analytics (DNA): To support Relationship Managers (RM) and business units to expand business in the Business Banking sector through the results of analytic modeling. DNA can also help provide the best consideration in efforts to up-sell and cross-sell BNI products or services for each Business Banking debtor according to profiles and historical transactions;
5. Graph Analytic for Fraud: Modification of Network Analysis used to speed up the Fraud Analysis process from days to minutes, to identify networks in observed objects (e.g. fraud cases) using only a few samples, and to identify potential losses in financial terms in fraud cases.

STRATEGY AND WORK PLAN FOR 2023

The DMA Division will continue to support the sustainable business growth efforts and corporate plans by increasing the resources, reporting and analytics capabilities. The focus strategies by the DMA Division in 2023 will be to provide decision support and information systems management in the form of:

1. Optimizing external data and information to generate market-related insights that support business decision-making processes.
2. Effectiveness of analytics and leads that have an impact on improving business performance including segments, products, and channels.
3. Optimizing the use of Big Data to produce various types of reports and dashboards.
4. Improving customer data quality to improve the quality of data, reports, analytics, and leads.
5. Implementing the use of Master Data Management (MDM) for a single view of the customer.
6. Implementing descriptive analysis to support business improvement.
7. Increasing Human Capital (HC) capabilities through development, training, and certification.

BNI services and networks development is carried out by optimizing office networks (outlets), electronic networks, BNI Agen46 and carrying out various improvement processes. This is one of the efforts to support the BNI network and service business performance achievement. Strengthening sales management at outlets is also one of the Company's strategies to increase solution-based productivity for customers so the Product Holding Ratio (PHR) improves, and helps create a customer transaction ecosystem (closed loop transaction).

STRATEGIES AND POLICIES IN 2022

In the increasingly competitive and fast competition in the banking industry in today's digital era, BNI continues to be committed to transforming its banking services to meet increasingly complex customer demands. In 2022, BNI focused on transforming the office network towards digitalizing, simplifying and optimizing business outlets and services by:

1. Relocating 78 (seventy eight) outlets to potential areas as a strategy to deal with a shift in business center;
2. Rationalizing 97 (ninety seven) outlets consisting of 3 (three) Sub-Branch Offices, 46 (forty six) Cash Offices, 47 (forty seven) Payment Points and 1 (one) Money Changer by merging outlets collectively clustering/consolidation/simplification as a consolidation strategy that focused on increasing the coverage area to optimize business potential and productivity. In 2022, BNI also continued to encourage Optimization of Business Outlets (OBO) for Sub-Branch Offices (KCP) by being given them the authority to decide on loans, supported by digital processing capabilities;
3. In addition to restructuring the office network, BNI added 104 (one hundred and four) BNI DigiCS as part of its electronic network to support business and service outlets and relocated 1,043 (one thousand forty three) ATM-CRM-BNI DigiCS.

In 2022, BNI also focused on modern banking services by improving business processes and making services at branches simpler based on customer expectations with digital service devices such as BNI DigiCS, T-Care and Self Service Passbook Printers.

2022 PERFORMANCE

In line with the 2022 services and networks strategy and policies in, following office network activities were carried out:

1. Moved the addresses of 72 (seventy two) outlets was realized 100% (there was a change in the planned target from 78 outlets to 72 outlets).
2. Rationalized 101 (one hundred and one) outlets was realized 100% (there was an addition in the planned target from 97 outlets to 101 outlets).
3. Moved the addresses of 1,228 ATM-CRM-BNI DigiCS was realized 100% (there was an addition in the planned target from 1,043 units to 1,228 units).
4. To comply with regulatory requirements and reduce ATM operational risk and operational efficiency of ATM machines, BNI also closed 260 obsolete ATM units.

Remittance activities previously affected by the Covid-19 pandemic showed an improvement with an 8.3% increase to reach US\$83.6 billion. Digitizing the remittance process as the main strategy changed customer behavior in choosing transactions through digital channels, making transactions easier and more efficient. This strategy kept the remittance business income stable throughout 2022.

The remittance business performance success story can be seen in the following achievements:

1. BNI collaborated with more than 100 remittance partners worldwide, more than 60% of whom are connected via the BNI API Remittance service with the following features:
 - a. Transactional remittance services aimed at bank accounts, e-wallets, bill payments and can also be collected in cash at all BNI branch offices, BNI Agen46 and BNI partners such as Post Offices and Pawnshops;
 - b. Transaction status inquiry services and transaction mutations can be accessed by partners in real time;
 - c. Account pre-validation service to minimize transaction failures.

2. BNI MoRe, or the Mobile Remittance application, which was launched in 2017 in Singapore is the customer's choice for sending money to Indonesia. Remittance activities from this digital platform was used by more than 12 thousand users in Singapore and has become a standard for development to be implemented in other countries.
3. While in their own country, customers also switched to using digital channels, namely BNI Direct and BNI Mobile Banking to send money overseas. Outgoing Remittance activities through this digital platform grew by 47% with the addition of Multi Currency in Indian Rupee (INR), and tracking of transaction status using the SWIFT Microgateway feature (Online Tracker of Remittance Transaction Status).

This success story demonstrates the role played as Remittance Representatives in 6 countries including Malaysia, Hong Kong, Taiwan, UAE, and Saudi Arabia, as well as the 7 BNI Overseas Branch Offices located in Singapore, Hong Kong, South Korea, Japan, America, England, and the Netherlands in maintaining relationships with partners and conducting marketing activities for Indonesian diaspora communities in these countries.

Meanwhile, for channel development, in 2022 BNI opened a Representative Office (RO) in Amsterdam on May 17, 2022. RO Amsterdam functions as a hub for BNI's business development in the Eurozone and strengthens BNI's presence through BNI London on the European continent.

RO Amsterdam acts as an extension of BNI London and is focused on serving the Indonesian diaspora across the Netherlands, both individual customers and business businesses through superior products, including Diaspora Saving, Diaspora Loans and Xpora. Diaspora Saving, and opening accounts for Diaspora through the BNI Mobile Banking application, as well as Diaspora Loan, by providing loan facilities to Diaspora entrepreneurs overseas. In the corporate segment, RO Amsterdam also facilitated the banking needs of Indonesian companies conducting trade transactions with companies in Europe, or vice versa.

During 2022, BNI also fostered several Indonesian restaurants and trading companies in Europe through Diaspora Loan and Xpora products. On September 2, 2022, the Minister of SOEs (BUMN) Erick Thohir, visited the RO Amsterdam Office where a ceremonial handover

of the Diaspora Loan facility to Warung Padang Lapek Jo, a Diaspora-owned restaurant in The Hague, Netherlands took place.

2022 was also an important milestone for the BNI Overseas Branch Offices (KCLN) both in terms of growth of Earning Asset (5.14% YoY), Loan assets (8.29% YoY) and Securities (12.38% YoY). BNI KCLN also succeeded in disbursing Diaspora Loans for a total of US\$1,199,236.10 with outstandings as at December 2022 amounting to US\$997,332.52, with the total Diaspora Saving TPF of US\$85,904,780.00.

STRATEGY AND WORK PLAN FOR 2023

BNI will continue to be committed to transforming its banking services into a more modern way by improving business processes and services, to meet the increasingly complex customer demands. In 2023, BNI will focus on transforming the office network towards a new outlet format that promotes digitization, simplification and optimization of business outlets and services by:

1. Opening 5 (five) Sub-Branch Offices (KCP) as they have a large business potential and have business collaborations with Corporate Banking customers, which are part of BNI financing syndications with other banks.
2. Changing addresses for 52 (fifty two) outlets consisting of 40 (forty) outlets due to non-business factors (revitalization, space requirements, rental issues, force majeure, external policies, and optimization of property assets), and 12 (twelve) outlets as a strategy to deal with a shift in the business center.
3. Rationalizing 41 (forty one) outlets consisting of 28 (twenty eight) KCP, 4 (four) Commercial Business Centers (SBK), 1 (one) Money Changer (MC), 5 Payment Points (PP), 3 (three) O-Branch by combining outlets using a clustering consolidation strategy that will focus on increasing coverage area and efficiency so as to optimize business potential and productivity.
4. In addition to structuring the office network, BNI will add 200 (two hundred) BNI DigiCS to the electronic network to support business and service outlets and move the addresses to 399 (three hundred ninety nine) ATM-CRM-BNI DigiCS.

With the increasingly borderless global conditions, the international segment has a great opportunity to develop its business by providing integrated solutions for BNI customers both domestically and overseas, in the retail to global companies segment.

Some of the strategies planned for 2023 include:

1. Operating in cities as centers of world trade and economy, Overseas Branch Offices have different advantages and characteristics. In 2023, KCLN business sharpening will continue in accordance with the strength of the relationship between Indonesia and the country where the KCLN is located. Business sharpening will also be supported by strengthening each KCLN's infrastructure and digital capabilities.
2. Improving, adding, and expanding banking products and services for Indonesian Diaspora Overseas
3. Expanding the implementation of BNIDirect at KCLN as a platform to support transactional banking activities to meet the expectations of customer needs at KCLN.
4. The remittance business in 2023 will focus on increasing digital channel capacity to a faster, transparent and efficient service process, focusing on programs that have a massive impact on increasing transactions, collaborating with related units to work on certain segments, and growing the number of customer based.
5. The Financial Institution business will focus on becoming a comprehensive product and service provider (one stop shop solution) by collaborating with subsidiaries to provide optimal solutions for transactions, digital solutions, banking services, financing and investment banking to the regional and global business partners client segment.
6. The Trade Finance business will focus on expanding and penetrating the export market with the following initiatives:
 - a. Providing structured trade financing schemes to debtors and their value chains to meet more accurate financing needs with a minimal level of risk, as well as to provide more competitive pricing.
 - b. Building a Trade ecosystem between customers and their counterparts by directing transactions to be carried out in a closed-loop manner between BNI Branches.
 - c. Increasing the number of active customers who transact through BNI Trade Online (BTO) as BNI's flagship product in providing Digital-based Trade Finance services.
7. The International Business Desk as an FDI Advisory Unit to become an entry point to reach potential business from FDI companies by optimizing cooperation with stakeholders related to trade and investment such as the Ministry of Investment, Coordinating Ministry for Maritime Affairs and Investment, KADIN, and business or entrepreneur associations.
8. Custodian, Trustee and Trust services business strategies in 2023 will include:
 - a. Acquiring and adding new Custodian Bank customers.
 - b. Partnering with internal BNI (related business divisions and BNI branches) with has a customer base of pension funds, insurance and corporations (non-individuals).
 - c. Collaborating with Investment Managers for new products, such as ETFs, Index mutual funds, Multi Share Class, KIK-Dinfra.
 - d. Increasing collaboration with top 20 Investment Managers in Indonesia.
9. The Non-Bank Financial Institutions Service Strategy will include:
 - a. Financing Cash Loan and Non-Cash Loan products.
Growth through new and additional expansion through the following types of customers:
 - i) Multi Finance Financing (KMK and KI).
 - ii) Securities Company Financing – KMK.
 - iii) Insurance Financing – Commercial Line.
 - b. Maximizing Intraday Facility Granting and Utilization.
Providing Intraday Facilities to Securities Companies with the following approach:
 - i) Underlying diversification (Bonds and Shares).
 - ii) Currency Diversification (IDR and USD).
 - iii) Intraday with Customized Structure.
 - c. Increasing Core Funding via Dynamic Offering Program and RDN.
 - i) Making Insurance Companies DPK Main Customers.
 - ii) Dynamic Placement Program in the form of a special rate offer based on Liquidity Condition – Treasury Division.
 - iii) RDN will offer a bundling of other products to Securities Companies.

BNI

Contact Center

The BNI Contact Center as one of the touch points that always tries to provide the best service by providing speed and convenience for customers to obtain information, conduct transactions and find solutions to any problems. In line with customer needs for fast, easy, precise and accurate services, the BNI Contact Center will continue to improve to a better customer experience by providing services through an integrated Omni Channel platform equipped with high flexibility and agile technology.

STRATEGIES AND POLICIES IN 2022

One of BNI's missions is “To provide excellent service and digital solutions to all customers as the preferred Business Partner”, and BNI continues to make adjustments through digital transformation to move BNI from beyond the traditional bank to become a financial service provider entity that provides all-digital services. BNI is carrying out massive digital transformation on all fronts in terms of improving internal processes, preparing Human Capital (HC) who are tech savvy and have a digital mindset, providing services and products supported by the latest digital technology channels and digitizing Contact Center services.

Customer behavior in banking through digital channels continues to increase, thus speeding up the shift to digital. BNI Contact Center has prepared and developed Contact Center services to become an Omni Channel by improving the Contact Center System to improve service quality. In addition, the BNI Contact Center continues to make improvements to Online Request Management, an application for recording requests for information, transactions and customer complaints that is integrated at all BNI touch points to create a better customer journey and customer experience.

BNI Contact Center continued its efforts to add digital channel services to BNI Digital and Global through the development of the WhatsApp Business service. Requests for information and handling complaints through the WhatsApp Business service can now be served by chatbots or directly by BNI Contact Center officers so that customers experience the same experience as communicating directly by telephone. In addition, the BNI Contact Center also has other digital

services such as the BNI Call Virtual Assistant application, Live Chat and Social Media. Through the BNI Call Virtual Assistant application, customers can easily monitor complaint resolution digitally. The addition of this feature will improve the customer experience to the BNI Call 1500046 service. To increase customer engagement, the BNI Contact Center continues to accelerate response times with more up-to-date conversation humanization, so that it becomes a customer preference when using digital channel services to interact with the bank. Optimization and improvement the quality of digital and social media services are continuously carried out, in addition to providing services that are fast, precise, accurate and easily accessible to customers, it also makes BNI more cost efficient.

BNI believes that employees are one of the most valuable assets for organizations and companies. Sustainability will not be possible without the contribution of employees. In supporting digital transformation and BNI Go Global, the BNI Contact Center is ready to provide beyond services to customers by continuing to provide HC with a digital mindset and digital skills with the spirit of Millennial, Digital and Fun, and continuing to improve HC capabilities in a sustainable manner.

The BNI Contact Center's commitment to providing excellent service for BNI customers is also realized through the standardization of process and service quality by obtaining ISO 9001:2015 Certification in 2016 that is renewed every year.

BNI Contact Center as a point of contact for BNI customers, actively plays a role in conveying the voice of customers by coordinating and providing insights and lessons learned to the value chain and business units for improving superior products, features and services to customers, by providing feedback to product owners related to customer complaints; monitoring the Service Level Agreement (SLA) for complaint resolution; making adjustments to internal provisions if there are changes in legislation, and improvements to the Online Request Management customer complaint handling application, so that the achievement of the SLA for resolving customer complaints in 2022 reaches 99.93%.

In addition, the BNI Contact Center also contributes as a source of data to strengthen opportunities for increasing fee-based income in the Consumer and Retail Segments through referral and cross selling programs so that BNI Call 1500046 becomes a point of contact by providing integrated sales and service solutions.

To improve sustainable digital capabilities and accelerate the process of shifting to digital, the BNI Contact Center strategic initiatives in 2022 were as follows:

1. Prepared superior HC to have a digital mindset and digital skills as one of the main keys in shifting to digital in the BNI Contact Center service;
2. Continued to improve customer experience by conducting studies and lessons learned on customer complaints to be submitted to the value chain;
3. Optimized the digital services by shifting call services to digital services and optimizing the capabilities of the BNI Contact Center Conversation Platform to improve the customer experience and create a customer journey for customers when interacting with the bank;
4. Developed WhatsApp for Business as a choice for fast and easy digital service channels for interacting either through chatbots or directly with BNI Contact Center officers;
5. Optimized BNI Call Virtual Assistant with a self-service feature so that customers can directly submit complaints.

As one of BNI's strategic steps to becoming a sustainable business, the BNI Contact Center is committed to always maintaining and improving service quality by making continuous improvements through customer-centric focused innovations to improve the customer experience.

PERFORMANCE IN 2022

The strategies, policies and work programs implemented by the BNI Contact Center helped its achievements in 2022 at the national and international levels. By supporting BNI Go Global, BNI Contact Center can compete with other contact centers around the world. The achievements in 2022 included:

1. BNI Contact Center won the top position in the Phone Banking category based on the results of the Bank Service Excellent Monitor (BSEM) survey from Marketing Research Indonesia (MRI).
2. Won 21 (twenty one) medals in different categories in the 17th Annual Best in Asia Pacific – Contact Center World competition, including:
 - a. 6 (six) Gold medals;
 - b. 7 (seven) Silver medals;
 - c. 8 (eight) Bronze medals.
3. Won 6 (six) medals in different categories in the 17th Annual Best in Global – Contact Center World competition, which was attended by countries and companies from Asia Pacific, America, Europe and Africa, with the following medals:
 - a. 5 (five) Gold medals;
 - b. 1 (one) Silver medal.
4. Won 15 (fifteen) medals in different categories in The Best Contact Center Indonesia 2022 competition, including:
 - a. 3 (three) Platinum medals
 - b. 3 (three) Gold medals;
 - c. 4 (four) Silver medals;
 - d. 5 (five) Bronze medals.
5. The BNI Contact Center has become the place of choice for benchmarking banking and non-banking Contact Centers in Indonesia. In 2022, 4 (four) companies have carried out benchmarking at the BNI Contact Center. This indicates that the BNI Contact Center has become a benchmark for Contact Center Services in Indonesia.

INNOVATIONS IN 2022

To strengthen its digital banking services capabilities, the BNI Contact Center carried out continuous development through a number of innovations in 2022 to improve the customer experience, including:

1. WHATSAPP BUSINESS

To support digital transformation, the BNI Contact Center is ready to provide beyond services to customers by providing WhatsApp Business services. The WhatsApp Business service channel is the customer's choice for obtaining information or solutions to any banking problems quickly and is easily accessible to customers. Customers can be served by chatbots or directly with BNI Contact Center officers.

2. IMPROVEMENT APLIKASI PLATFORM CUSTOMER JOURNEY

The BNI Contact Center continues to make improvements to the Online Request Management (ORM) Application to create the same customer experience when interacting at all BNI touch points. Optimizing this application at all BNI touch points and value chains helped streamline the business processes, which has an impact on accelerating the resolution of customer complaints and improving customer experience.

3. REFRESHMENT CONTACT CENTER

The BNI Contact Center is committed to always maintaining and improving service quality. For this reason, the BNI Contact Center continues to upgrade and improve the Contact Center System towards a better Omni Channel. Increasing the Contact Center application technology capability with high availability and agile technology services to accommodate the needs of individual and non-individual customers.

STRATEGY AND WORK PLAN FOR 2023

In line with BNI's vision "To become a financial institution that excels in service and performance in a sustainable manner" and to support BNI Go Global and towards digital banking transformation, the BNI Contact Center strategic plans in 2023, will include

1. Optimizing and increasing the digital and social media services capabilities integrated into one platform, in order to continue shifting call services to digital services and to improve the customer experience when interacting with the bank;
2. Optimizing and developing self-service features in digital services, so that customers can address complaints digitally and automatically, and receive notifications of the progress of complaint resolution;
3. Improving the competency and capability of HC who are ready to adapt to changes towards digital transformation and preparing superior, agile HC who can provide value creation to the company;
4. Optimizing Voice over Internet Protocol (VoIP) based call services on BNI e-channels as a medium for customers to contact BNI Call via the internet network;
5. Supporting business and sales activities by conducting cross selling through referral programs in an effort to increase fee based income for BNI;
6. Creating customer satisfaction and loyalty as well as a sense of comfort for BNI Call 1500046, 1500098, 1500146 services and Digital services with a focus on improving internal processes, growth and learning and risk mitigation to support the achievement of business targets;
7. Performing business process improvements that focus on improving SLA (Service Level Agreement);
8. Conducting Big Data Voice of Customer research to initiate service improvements, deliver feedback and lessons learned.

The BNI Contact Center continues to make improvements through a number of innovations to improve the customer experience and to create a better customer journey.

Service Quality Function

BNI continues to make improvements and increase added value to service quality based on customer needs, in line with the intense competition in the banking business in the industrial era 4.0. The Service Quality Division (SQU) continues to support BNI's efforts to make BNI the Best Financial Institution for Service and Performance in a Sustainable basis, by creating quality services that always provide excellent service at all times at all levels of society, and results in achieving BNI Wide business performance and building a Good Corporate Image.

SERVICE QUALITY INITIATIVES AND DEVELOPMENT IN 2022

The SQU Division carried out 2 (two) initiative programs for developing service quality, including the people (frontliners), and the digital services aspects, as follows:

1. Scale up Frontliner Capability as Service Advisor
A development program that focuses on increasing all frontliners capabilities, structured based on the characteristics of each existing aspect, including:
 - a. Education Cash Management and Mobile Banking Program for CS (E-Camp)
Education to service officers (CS) at Branches/ Outlets on BNI and Mobile Banking products, features, solutions, promo programs and cash management tools to facilitate officers in providing advisory to customers as a form of service that can make a positive contribution on branch business achievements.
 - b. Security Officer Super Program
A program designed to improve the performance of Security Officer services that focuses on:
 - The officer's understanding of the function and role of a security guard.
 - Mastery of BNI digital service knowledge (DigiCS, BNI Sprint, DOA Face Recognition, Mobile Banking Features, etc.)
 - The officer's understanding of the aspects in the Professional Image.
 - Findings from MRI Industry measurements.

- c. Racing Time Delivery Teller Transaction Program

The program aims to improve the ability and understanding of teller officers at Branches/ Outlets so they can serve based on customer expectations and applicable regulations. In addition, this program is also a form of preparation in facing independent surveyor evaluations to obtain maximum performance.

- d. Digital Competency Enhancement For BNI Digital Assistant (BDA)
BDA officer competency development program in the form of training on Communication Skills, Product Knowledge, and Service Excellence to support BDA's main function of conducting education and shifting transactions to digital.
- e. Frontliner Academy
A learning program to improve the quality of professional services by upgrading soft skills and hard skills as a provision for BNI frontliners (Customer Service, Tellers and BNI Digital Assistants) in communicating and selling BNI products to customers.

- f. Video Service Training
Making educational videos about service excellence for all BNI frontliners (Customer Service, Tellers, BNI Digital Assistants, and Security Guards) to be able to maintain service quality and make service an accelerator of BNI's business achievements.

2. Scale up Digital Service in Branch.
To realize the creation of optimizing the customer's digital experience through shifting customer transactions to BNI's digital automation and service devices, it is necessary to support transaction devices that are reliable, personalized, have many advantages, and can be accessed independently or through self-service.

In line with BNI's commitment to always provide the best service to its customers, BNI has implemented automation devices and digital services including: DigiCS, DigiCS Lite, DigiCS Mobile, ATM, T-CARE, SPRINT, Cash Recycling Machine (CRM), E-Banking application (Mobile Banking, Internet Banking, SMS Banking), Tapcash, Debit Card & Credit Card with Chip based.

In an effort to encourage customer digital experience by shifting customer transactions to automation devices and digital services, BNI Digital Assistant officers are prepared to play a role in educating customers so they become more familiar with and feel the convenience, speed, security and service personalization during transactions using automated devices and BNI digital services.

BNI'S STRATEGY FOR PROVIDING SERVICE EXCELLENCE AT EVERY TOUCH POINT

The SQU Division has launched 3 (three) strategic steps to provide superior and competitive service excellence, including:

1. Digital Services on Customer Centricity
Strengthening and optimizing automation and digital devices to improve service quality for customers while at the same time encouraging BNI to become the transactional bank for every customer.
2. Service as Business Accelerator
Strengthening the service function as a booster to increase the performance achievement of Business Banking, Consumer Retail, Transactional Banking, and the synergy of Subsidiaries
3. Strengthen Service Culture Culture
Implementation serves all levels of the organization

In line with the efforts made to increase added value and service quality based on customer needs, BNI received several awards with satisfactory qualifications. One being the awards given by Infobank magazine and Marketing Research Indonesia (MRI) where BNI was named the #1 Satisfaction Loyalty Engagement (SLE) Index 2022, as it is considered superior in several categories, namely:

1. Peringkat #1 Engagement
2. Peringkat #1 Satisfaction – Teller
3. Peringkat #1 Satisfaction – Kantor Cabang
4. Peringkat #1 Satisfaction – Mobile Banking
5. Peringkat #II Loyalty
6. Peringkat #II Satisfaction – Customer Service
7. Peringkat #II Satisfaction – ATM
8. 1st Overall E-Banking Commercial Bank
9. 1st Phone Banking Commercial Bank

SERVICE STANDARDS DURING COVID-19

BNI continued to improve its service quality based on customer needs, and developments occurring during the COVID-19 period. Responding to banking industry service trends based on customer expectations in the new normal pattern, BNI implemented service standards during the COVID-19 period. All employees were encouraged to always take preventive measures to prevent the spread of the COVID-19 virus through the implementation of 5M (Wearing Masks, Maintaining

Distance, Washing Hands, Staying Away from Crowds, Reducing Mobility). During the pandemic, BNI continued to be committed to always providing the best service for its features, programs, promos and other transaction conveniences.

OPERATIONAL SERVICES DURING THE COVID-19 PANDEMIC

During the pandemic, BNI consistently implemented service excellence, as a fundamental aspect that must be owned and maintained by every employee, both at the Head Office and the Branch Offices. BNI understands that loyal customers are a strategic asset that provide added value in the long term for BNI. For this reason, BNI always strived to provide value-added solutions for customers and continued to strengthen its business network to gain public trust, which will improve BNI's performance. This is in line with BNI's commitment to positioning itself as a bank that is always present to serve all levels of society.

For BNI, the key to creating customer satisfaction that leads to trust and loyalty starts with a good impression, and the quality of service from service personnel. For this reason, frontliners at the forefront of BNI, are always encouraged to always be ready and loyal to serve in providing solutions for all customers from various backgrounds and conditions, especially during a pandemic. Frontliners are also required to prioritize good impressions and services while still prioritizing the values of professionalism and being able to act as a service accelerator capable of contributing to improving BNI's business by meeting customer needs (Service as Business Accelerator) both at the Center and at Branches/BNI Outlets.

IMPLEMENTATION OF HEALTH PROTOCOL STANDARDS

As a form of BNI's compliance with central and local Government regulations or policies, as well as BNI's social concern for the community in preventing the transmission of COVID-19, the SQU Division created a service standard policy on health protocols during the pandemic. BNI Management also continued to supervise and monitor all front end and back end officer activities through a series of health protocols implemented by BNI, which included:

1. Checking Vaccination Status by scanning the QR Code on the PeduliLindungi application
In an effort to reduce the number of COVID-19 cases, BNI requires every employee and visitors to scan their QR Code at every entrance and exit to the banking hall. All employees and visitors are required to scan the QR Code through the PeduliLindungi application to find out the status of the vaccinations in question.

2. Protocols for the use of Personal Protective Equipment (PPE) in each Branch Office/Outlet
 - a. Wearing of masks, gloves, hand sanitizers, thermo guns, and face shields are mandatory items for all frontliners during service operating hours;
 - b. Spraying disinfectants in the banking hall and all work areas;
 - c. Installing acrylic droplet protection boards at each Branch Office/Outlet to maintain customer convenience in communicating and transacting with officers;
 - d. Providing tissue and hand sanitizer to facilitate customers if they want to make transactions at ATMs;
 - e. All marketing officers are encouraged to use online communication media when carrying out marketing or advisory services with customers (adjusted to the customer's conditions). The officers will make an appointment (schedule and meeting location) while still paying attention to the provisions of the local PPKM area if the customer still wants to meet face to face.
3. Implementation of Social/Social Distancing

BNI has banking hall capacity limitation standards and queue management as a strategy to manage the size of customer queues based on the COVID-19 protocol, as a reference or basis for Branches/Outlets to manage queues of customers coming to Outlets so that they run well, orderly and according to COVID-19 protocols.

 - a. Banking Hall Capacity Limitation

COVID-19 preventive measures policies are also carried out by imposing restrictions on the number of customer queues in the banking hall. Banking hall capacity may only be filled to a maximum of 50% of normal capacity. If the queue exceeds the maximum capacity, each Branch Office/Outlet is permitted to add chairs and tents outside the banking hall. For setting the number of chairs in the waiting room, it is adjusted to the conditions of the outlet and the needs of each outlet, taking into account the provisions for physical distancing of at least 1 meter.

- b. Queue Management Operationalization
 - There are 2 types of queue numbers to manage customers, namely arrival queue numbers and transaction queue numbers;
 - Arrival queue number is a queue number that is used to arrange customers to be more orderly in accordance with the arrival of customers at an Outlet/Branch;
 - The arrival queue number is only allowed to be given by the Security Officer to the Customer 30 (thirty) minutes before the Outlet Operational Hours begin. Security guards are not allowed to provide arrival queue numbers before the required hours;
 - The arrival queue number is only applied before service operating hours. After the Outlet is open and during service operational hours, the arrival queue number is not enforced, the customer is simply provided with a transaction queue number;
 - The transaction queue number is the queue number given by the security guard to the customer during and after the service's operational hours according to the type of customer transaction to be directed to the CS/Teller officer.
4. Optimization of Security Officers

As one of the customer's touch points, all Branch and Outlet Security Officers in all BNI Regional Offices are required to inform customers that BNI provides security and convenience for transactions at Branch Offices/Outlets as BNI has strictly implemented the COVID-19 protocol discipline.

 - a. Security guards are responsible for directing customers to wear masks if they want to make transactions in the BNI area, both at banking halls and ATMs;
 - b. The customer's body temperature is measured before entering the banking hall (maximum 37.5°C);
 - c. Application of physical distancing rules (maintain a minimum distance of 1 m);
 - d. Setting customer queues;
 - e. Education to customers to use e-channels as an alternative medium for transactions.

5. Optimization of BNI Digital Assistant (BDA) Officers

So that customers can still make transactions in crowded branch queuing conditions, all BDA officers at a branch office/outlet is required to provide education to customers on how to use the BNI e-channels as an alternative transaction medium so that customers still feel comfortable doing transactions without having to come to the branch/Outlets.

 - a. E-channel education for customers;
 - b. Shifting transactions to digital by directing customers to transact through e-channels;
 - c. Customer Experience, customers perform transactions via BNI e-channels.
 - d. Awareness and Education of Branch Operational Services during the COVID-19 Period.

As the Company's step in educating and providing information related to the health protocols at BNI, and to ensure customer convenience in transactions as well as a form of company compliance with provisions and BNI's concern for community financial activities during the COVID-19 pandemic, BNI through the Service Quality Division also ensures that each Branch Office/Outlets become enablers of the Covid protocol education process to customers. The education process is carried out through educational content in all Branch Offices/Outlets through available communication facilities or media, including announcement posters, banners, and screen monitors in the banking hall.

Some of the educational content created includes:

1. Branch Service Operations E Booklet for the COVID-19 Period;
2. New Normal Education Video for Branch Service Operations;
3. Educational Video on Implementation of Health Protocols at Branch Offices;
4. Educational Video on Providing Social Assistance during the COVID-19 Period;
5. Animated Video of Transaction Transfer to E-Channel, and others.

CORE CAPITAL

Capital is a source of financial support for the overall implementation of the Bank's activities. Capital acts as a buffer to absorb unexpected losses, and as a safety net in crisis conditions to enable the Bank to survive and be sustainable. The amount of capital provided depends on the level of risks faced by the Bank. Sufficient capital adequacy increases stakeholder confidence.

BNI prepares a Capital Plan based on reviews and assessments of the capital adequacy requirements, business needs, and combines it with a review of the latest economic developments. The Capital Plan is prepared by the Board of Directors as part of the Bank's Business Plan and approved by the Board of Commissioners. The Bank always compares its financial targets and capital adequacy with the risk level through the capital planning process. Likewise, business expansion is based on the capital adequacy and the Bank's liquidity requirements of. The capital requirements are planned and discussed on a regular basis with the support of data and analysis.

BNI's capital policy is prepared by taking into account business potential and the continuous application of the precautionary principle, as well as to ensure BNI has strong capital and a good capital structure to support the business expansion development strategies of the Bank and its subsidiaries, and covers the risks inherent in managing the business, to maintain business continuity in the future without reducing the optimization of value for shareholders.

Capital management policies are also used as a guide to identify internal and external sources of capital. The capital policy is set to meet the regulator's capital adequacy requirements and to ensure that the Bank's capital structure is efficient.

In accordance with OJK Regulation (POJK) No. 11/POJK.03/2016 concerning Minimum Capital Adequacy Requirements for Commercial Banks, the Bank's capital consists of Core Capital (Tier-1) and Supplementary Capital (Tier-2).

Core Capital (Tier 1)

Core capital is the Bank's capital comprising of: Core Capital (Common Equity Tier 1 - CET 1) and Supplementary Core Capital (Additional Tier 1). The main core capital includes paid in capital and additional capital reserve (a disclosed reserve). Supplementary capital reserves consist of additional factors: agio, contributed capital, general reserves, previous years income, current year net profit, excess adjustments due to financial statement translation, paid in capital funds, warrants issued as Bank shareholders' incentives, share options, other comprehensive income and fixed assets revaluation and deduction factors, and disagio: previous years losses, current year losses, negative adjustments due to financial statement translation, other comprehensive income, negative differences between regulatory provisions and allowance for impairment losses of earning assets, negative differences on adjustment of fair value on financial instruments in the trading book and total adjustments based on accounting standards as well as non-productive differences in translation of financial statements, other comprehensive income, minus the difference between Allowances for Asset Losses (PPA) of earning assets and Allowances for Losses Impairment Value (CKPN) of earning assets, less difference between the amount of adjustment to the valuation results of financial instruments in the Fair Value Profit and Loss (FVTPL) and the amount of adjustment based on financial accounting standards and non-productive regulatory provision.

Supplementary Capital (Tier 2)

Supplementary Capital (maximum 100% of core capital) including capital instruments in the form of shares or in other forms that meet the agio or disagio requirements originating from the issuance of capital instruments are classified as complementary capital and general PPA reserves on earning assets that must be calculated with a maximum amount of 1.25% of RWA Credit Risk and Reserve Purposes.

In 2022, BNI's Core Capital and Supplementary Capital stood at Rp131.34 trillion, an increase compared to Rp125.62 trillion in 2021. This was due to net profit growth of 68% on an annual or year on year (yoy) basis.

To support business expansion and maintain market share and to comply with the provisions of Financial Services Authority regarding the Capital Adequacy Ratio (CAR) in accordance with the Risk Profile and buffer capital, adequate capital is required.

Therefore, BNI strives to continue to strengthen its capital by increasing organic core capital, in this case mainly by increasing retained earnings and inorganic profits through rights issues and the issuance of subordinated debt instruments (sub debt).

BNI's capital has referred to regulations and is in accordance with Pillar 1 of Basel II, namely for calculating the Minimum Capital Adequacy Requirement (KPMM) for Credit Risk, Market Risk and Operational Risk based on Risk Weighted Assets (RWA).

The RWA calculation method for Credit Risk uses the Standardized Approach, while for Market Risk the RWA calculation method uses the Standard Method, and the RWA calculation method for Operational Risk uses the Basic Indicator Approach.

For risks not considered in the RWA, including Credit Concentration Risk, Interest Rate Risk on the Banking Book, Liquidity Risk, Legal Risk, Strategic Risk, Compliance Risk and Reputation Risk, they are calculated in the Bank's Risk Profile.

Referring to OJK Regulation No. 11/POJK.03/2016 concerning the Minimum Capital Adequacy Requirement for Commercial Banks (KPMM), that banks are required to provide minimum capital based on the Risk Profile, the minimum capital requirement is calculated using the following risk profile ratings:

Risk Profile Score	CAR
1	8%
2	9% s.d < 10%
3	10% s.d < 11%
4 and 5	11% s.d < 14%

In addition to the obligation to provide minimum capital according to the Risk Profile, as of January 2016 BNI is also required to form additional capital as a buffer according to the criteria determined by the Financial Services Authority. The additional buffer capital consists of a Capital Conservation Buffer, a Countercyclical Buffer, and a Capital Surcharge for Systemic Banks. BNI's KPMM ratio for December 31, 2022 was 19.3%, which met the KPMM requirements based on the Risk Profile and additional buffer capital of 13.8%, which applied until February 2023.

RISK MANAGEMENT APPLICATION BASIS

Risk management functions to protect capital and to optimize returns against risk. The large business scale, the wide operational coverage, and the increasing business volume require BNI to implement an integrated risk management pattern to identify, measure, monitor, and control all risk exposures.

In its business practices, BNI develops innovative products and services sustainably which is supported by digital technology and reliable networks. BNI consistently implements a Risk Management process in every business process and operational activities that lead BNI to become a sound and sustainable bank.

BNI's Risk Management is based on national and international regulations, including Financial Authority Regulations (POJK), Financial Authority Circular Letters (SEOJK), Bank Indonesia

Regulations (PBI), Bank Indonesia Circular Letters (SEBI), and Basel Committee on Banking Documents Supervision (BCBS).

Several regulations related to the Bank's Risk Management include:

1. Implementation of Risk Management
 - a. OJK Regulation No. 18/POJK.03/2016 dated March 16, 2016, concerning the Implementation of Risk Management for Commercial Banks.
 - b. OJK Circular Letter No. 34/SEOJK.03/2016 dated September 1, 2016, concerning the Implementation of Risk Management for Commercial Banks.
 - c. Minister of SOEs Regulation No.PER-5/MBU/09/2022 dated September 1, 2022 concerning Implementation of Risk Management in SOEs.

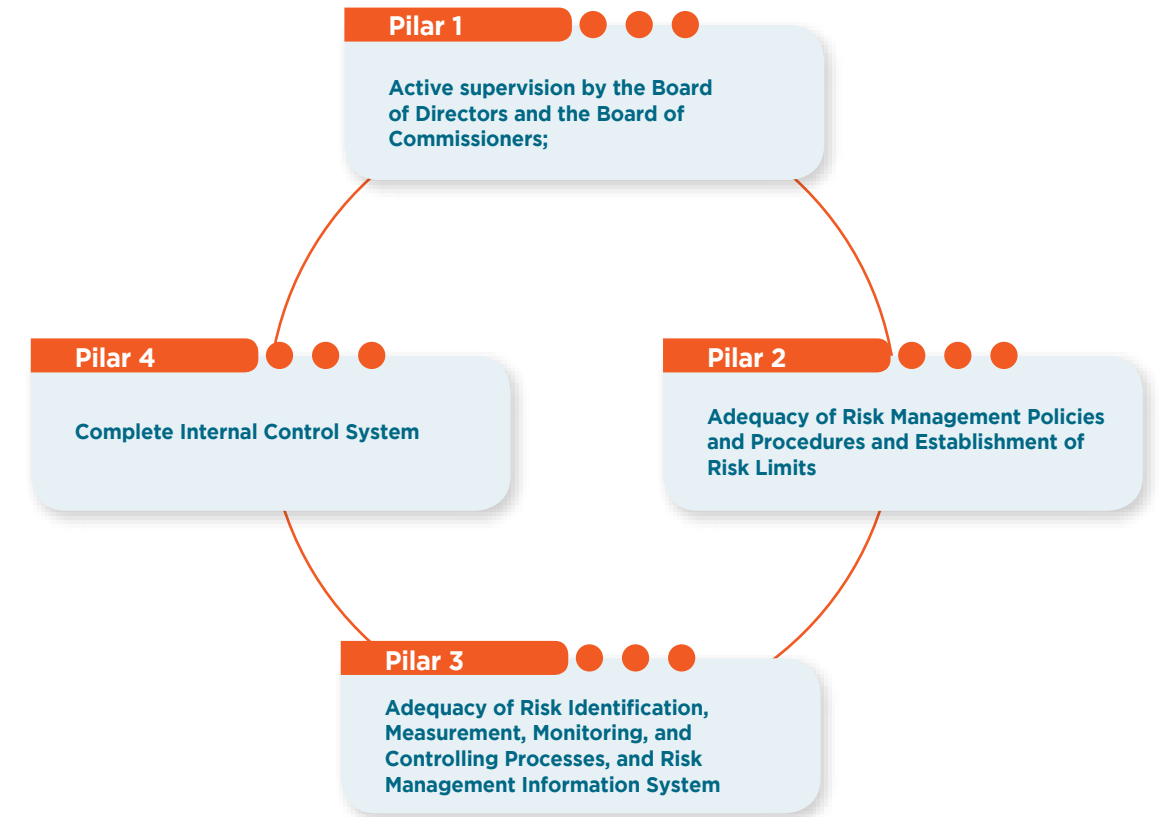

2. Implementation of Consolidated Risk Management with Subsidiaries.
 - a. OJK Regulation No. 38/POJK.03/2017 dated July 12, 2017, concerning the Implementation of Consolidated Risk Management for Banks that Exercise Control over Subsidiaries.
 - b. OJK Circular Letter No. 43/SEOJK.03/2017 dated July 19, 2017, concerning Prudential Principles and Reports for the Implementation of Consolidated Risk Management for Sub-holding Banks.
3. Implementation of Integrated Risk Management.
 - a. OJK Regulation No. 17/POJK.03/2014 dated November 18, 2014, concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
 - b. OJK Regulation No.18/POJK.03/2014 dated November 18, 2014 concerning Implementation of Integrated Governance for Financial Conglomerates, as partially amended by OJK Regulation No.45/POJK.03/2020 dated October 14, 2020 concerning Financial Conglomerates .
 - c. OJK Regulation No. 26/POJK.03/2015 dated December 4, 2015 concerning Integrated Minimum Capital Adequacy Requirements for Financial Conglomerates;
 - d. OJK Circular Letter No. 14/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.
 - e. OJK Circular Letter No.15/SEOJK.03/2015 dated May 25, 2015 concerning Implementation of Integrated Governance for Financial Conglomerates.
4. Risk Management for Commercial Bank Products and Activities, including:
 - a. OJK Regulation No.39/POJK.04/2014 dated December 29, 2014 concerning Mutual Funds Selling Agents.
 - b. OJK Regulation No.8/POJK.03/2016 dated January 26, 2016 concerning the Prudential Principle when Carrying Out Agency Activities for Foreign Financial Products by Commercial Banks.
 - c. OJK Regulation No.9/POJK.03/2016 dated January 26, 2016 concerning Prudential Principles for Commercial Banks that Outsource Part of the Work to Other Parties.
 - d. OJK Regulation No.57/POJK.03/2016 dated December 07, 2016 concerning Implementation of Risk Management in Commercial Banks Performing Prime Customer Services.
 - e. OJK Regulation No. 23/POJK.01/2019 dated September 18, 2019, as an Amendment to OJK Regulation No.12/POJK.01/2017 concerning Implementation of Anti-Money Laundering and Prevention of Terrorism Financing Programs in the Financial Services Sector.
 - f. OJK Regulation No.6/POJK.03/2018 dated April 19, 2018, as an Amendment to OJK Regulation No.7/POJK.03/2016 dated January 26, 2016 concerning Prudential Principles when Carrying out Structured Product Activities for Commercial Banks .
 - g. OJK Regulation No.12/POJK.03/2018 dated August 6, 2018 concerning Implementation of Digital Banking Services by Commercial Banks.
 - h. OJK Regulation No.39/POJK.03/2019 dated December 19, 2019 concerning Implementation of Anti-Fraud Strategy for Commercial Banks.

 - b. Deposit Insurance Corporation (LPS) Regulation No.1/2021 dated March 29, 2021 concerning Resolution Plans for Commercial Banks.
9. Transparency and Publication of Bank Reports
 - a. OJK Regulation No.63/POJK.03/2020 dated December 22, 2020 concerning Commercial Banks Reporting Through the OJK Reporting System.
 - b. OJK Regulation No.36/POJK.03/2019 dated December 18, 2019 concerning Submission of Reports Through the Integrated Reporting Portal.
 - c. OJK Regulation No.37/POJK.03/2019 dated December 19, 2019 concerning Transparency and Publication of Bank Reports.
 - d. OJK Circular Letter No.9/SEOJK.03/2020 dated June 30, 2020 concerning Transparency and Publication of Conventional Commercial Bank Reports.
10. Customer Protection
 - a. OJK Regulation No.6/POJK.07/2022 dated April 14, 2022 concerning Consumer and Public Protection in the Financial Services Sector.
 - b. OJK Regulation No.18/POJK.07/2018 dated September 1, 2018 concerning Consumer Complaint Services in the Financial Services Sector.

- c. Bank Indonesia Regulation No.22/20/PBI/2020 dated December 22, 2020 concerning Bank Indonesia Consumer Protection.
- d. OJK Circular Letter No.17/SEOJK.07/2018 dated December 6, 2018 concerning Guidelines for Implementing Consumer Complaint Services in the Financial Services Sector.
11. Data Protection
 - 2022 Republic of Indonesia Data Protection Law No. 27 dated October 17, 2022 concerning Personal Data Protection.

GENERAL IMPLEMENTATION OF RISK MANAGEMENT

To implement effective Risk Management, both for BNI individually and in a Consolidated and Integrated manner with Subsidiaries, BNI's risk management implementation includes:

1. Pillar 1. Active supervision by the Board of Directors and the Board of Commissioners
 - a. Supervision by the Board of Commissioners
 - Active supervision by the Board of Commissioners is carried out by:
 - i) Approving BNI's risk management policies including strategies and risk management frameworks, as determined by the level of risk taken (Risk Appetite) and the risk tolerance for quantitative and qualitative Risk Appetite;
 - ii) Evaluating risk management policies and strategies at least once a year, or in the event there are changes in factors that significantly affect BNI's business activities;
 - iii) Evaluating the Board of Directors responsibilities and providing improvement directives on the implementation of BNI's risk management policies on a regular basis;
 - iv) Ensuring that risk management policies and processes are implemented effectively and are integrated into the overall BNI risk management process.

The Board of Commissioners has established a Risk Monitoring Committee as stipulated in the Risk Monitoring Committee Charter. The committee's duties include:

- i) Evaluating conformity between risk management policies and the implementation of Bank policies;
- ii) Monitoring and evaluating the Risk Management Committee and the Risk Management Work Unit duties, in order to provide recommendations to the Board of Commissioners;
- iii) Carrying out certain other tasks related to the Risk Monitoring Committee function and scope of duties, assigned by the Board of Commissioners.

In carrying out its supervisory function of BNI's Risk Management and Integrated Risk Management application, BNI's Board of Commissioners is assisted by the Risk Monitoring Committee (KPR), Audit Committee, and Integrated Governance Committee.

The Board of Commissioners' active supervision in the approval and evaluation of the General Risk Management Policy prepared by the Board of Directors. The Board of Commissioners periodically evaluates the risk management policies through the Board of Commissioners' Meeting forum (Radekom), by inviting the Board of Directors to attend the Risk Monitoring Committee (KPR) meetings, and through improvement recommendations submitted in the minutes.

b. Board of Directors Supervision

The Board of Directors active monitoring is performed by:

- i) Preparing written and comprehensive Risk Management policies, strategies and frameworks including overall and Risk Type Risk limits, taking into account the risk appetite and risk tolerance according to Bank's conditions, and taking into account the impact of Risk on capital adequacy. After obtaining approval from the Board of Commissioners, the Board of Directors establishes policies, strategies, and the Risk Management framework;
- ii) Preparing, determining, and updating procedures and tools to identify, measure, monitor, and control Risk;
- iii) Preparing and establishing transaction approval mechanisms, including those that exceed the limits and authority for each level of position.
- iv) Evaluating and/or updating Risk Management policies, strategies, and frameworks at least once a year or more frequently in the event there are significant changes in factors affecting the Bank's business activities, Risk exposure, and/or or Risk profile;
- v) Determining BNI's organization structure, including clear authorities and responsibilities at every position level related to the risk management implementation;

vi) Responsibility for implementing Risk Management policies, strategies, and frameworks that have been approved by the Board of Commissioners, and evaluating and providing guidance based on reports submitted by the Risk Management Work Unit (SKMR), including Risk profile reports;

vii) Ensuring all material risks and impacts caused by such risks have been followed up, and submitting regular accountability reports to the Board of Commissioners, including reports on developments and problems related to material risks together with corrective measures that have been, are being, and will be taken;

viii) Ensuring the implementation of corrective measures taken for problems or irregularities in the Bank's business activities found by the Internal Audit Work Unit (SKAI);

ix) Developing a Risk Management culture including Risk awareness at all organization levels, including adequate communication to all organization levels on the importance of effective internal control;

x) Ensuring the adequacy of resource support to manage and control the Risks;

xi) Ensuring the Risk Management function has been applied independently, as reflected in separation of functions between the SKMR conducting the identification, measurement, monitoring, and risk control, with the work unit performing and completing transactions.

In carrying out its effective risk management function, the Board of Directors is assisted by the Risk Management Work Unit (SKMR) that doubles as the Integrated Risk Management Work Unit (SKMRT). Supervision is carried out through Board of Directors Meetings (Radisi), and Meetings by the Risk Management & Anti-Fraud Committee (KRA) Risk Management Sub-Committee (RMC), Anti-Fraud Sub-Committee (KAF), Credit Policy Committee Meetings (KKP) and Credit Procedures Committee (KPP) and the Integrated Risk Management Committee (KMRT).

2. **Pilar 2. Adequacy of Risk Management Policies and Procedures and Establishment of Risk Limits**
The Risk Management Policy is a written directive for implementing risk management, and needs to be in line with the vision, mission, and strategic plan and be focused more on relevant risks in BNI's business activities, and be prepared by taking into account the risk appetite, risk tolerance and determination of limits.

BNI's Risk Management Policies include:

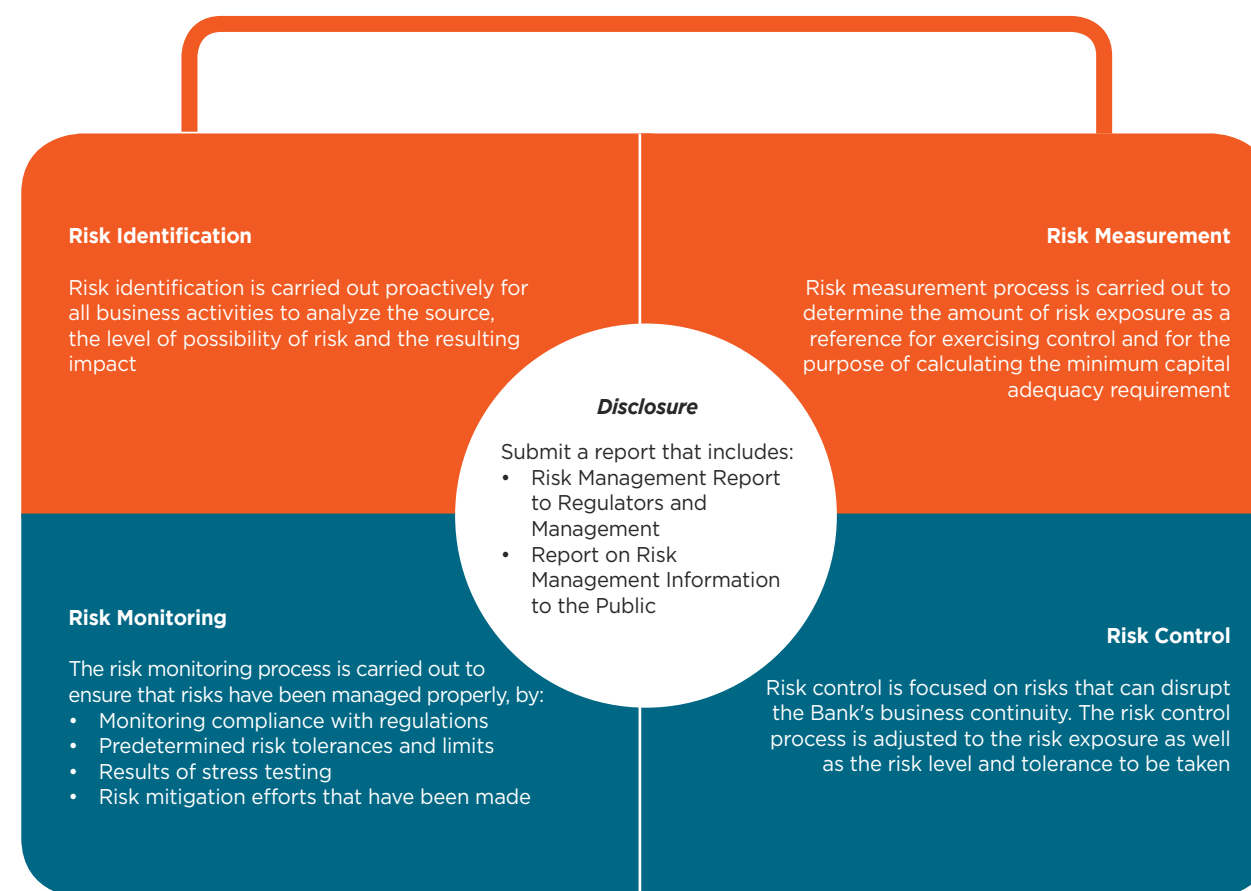

- a. General Risk Management Policy.
- b. Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Compliance Risk, Legal Risk, Strategic Risk, and Reputation Risk Management Policies.
- c. General Policy on Integrated Risk Management and Integrated Capital
- d. Guidelines for Internal Control Systems.

The Risk Management Procedures elaborate the Risk Management Policy's implementation rules and are used as risk management implementation references for each Risk Management Unit and all BNI organizational units, and is adequately documented. The detailed provisions of each procedure are regulated in the technical instructions (Juknis). Evaluations and/or updates to the BNI Risk Management Policies and Procedures are carried out periodically or in the event of significant changes affecting BNI's business activities.

As one of its risk control methods, BNI also has a risk limit, to define the threshold for determining the level of risk mitigation intensity performed by management. The BNI risk limits cover limits per risk (credit risk, market risk, and liquidity risk), limits per functional activity as well as overall limits. The policies, procedures, and risk limits are periodically reviewed with approved up to the Board of Directors through committee meetings or circulation to the Board of Directors according to the level of authority.

3. **Pilar 3. Adequacy of Risk Identification, Measurement, Monitoring, and Controlling Processes, and Risk Management Information System**

The BNI's Risk Management processes includes identification, measurement, monitoring and risk control of 8 (eight) risk types, carried out on an ongoing basis against all material risk factors, and supported by the Risk Management Information System, as described as follows:

Policies concerning risk identification, measurement, monitoring, and control processes for 8 (eight) types of risk (credit, market, liquidity, operational, legal, strategic, compliance, and reputation risks) are stipulated in the Risk Management Policy per risk type; while the Risk Management process Integrated with the BNI Financial Conglomerate is stipulated in the Integrated Risk Management General Policy (KUMRT).

a. Risk Identification

The risk identification process is proactively carried out in all business activities to analyze the sources, possible risk levels, and their impact.

Matters to be considered in the risk identification process are as follows:

- Identification of all risks carried out regularly;
- Having a method or system to identify risks in all BNI products and business activities;
- Specifically identifying risks for new products and activities, before new products/activities are introduced or implemented.

b. Risk Measurement

The risk measurement process is carried out to determine the amount of risk exposure as a reference for risk control and to calculate the Minimum Capital Adequacy Requirement (KPMM).

Risk measurement is carried out both quantitatively and/or qualitatively according to the measurement method established by the regulator or by using an internal method developed by BNI based on best risk measurement practices. To anticipate extreme conditions, risk measurement at BNI is also complemented by stress testing for credit risk, market risk, and liquidity risk.

Matters to be considered in the risk measurement process are as follows:

- The scope of risk measurement should at least measure the sensitivity, tendency, individual risk factors, overall risk exposure per risk by taking into account the correlation and all risks inherent in bank transactions and products;
- The risk measurement method can be implemented quantitatively and/or qualitatively by using the methods established by the regulator or those developed internally;
- The measurement method is adjusted to the provisions of the applicable regulators;
- The internal methods used for measuring credit risk, market risk, and operational risk must take into account the Regulators' requirements, including requirements for use, backtesting, validation, and documentation;
- Risk measurement is carried out by the Risk Management Unit in coordination with the Risk Management Work Unit;

vi) BNI's Individual risk measurement is carried out on 8 (eight) risk types, while for the BNI Financial Conglomerate it is carried out on 10 (ten) risk types. To report the Minimum Capital Adequacy Requirement (KPMM) to regulators, BNI risk measurement is carried out individually against 3 (three) main risks: credit risk, market risk, and operational risk. Meanwhile, the integrated KPMM calculation is carried out by comparing the total actual capital of the Financial Services Institutions (FSI) members of the Financial Conglomerate with the minimum total capital that must be met by the FSI members of the BNI Financial Conglomerate.

Risk measurement is carried out regularly with the measurement results reported to the Regulator as part of the Risk Profile and KPMM BNI reporting individually as well as the Integrated Risk Profile and Integrated KPMM of the BNI Financial Conglomerate.

c. Risk Monitoring

The risk monitoring process ensures the risk management performance by monitoring the established risk mitigation and limits.

Matters to be considered in the risk monitoring process are as follows:

- Risk monitoring includes monitoring of the amount of risk exposure, risk tolerance, limit compliance, and stress testing results as well as consistency in the implementation of established policies and procedures;
- Risk monitoring is carried out by both the Operational Unit and the Risk Management Unit;
- Monitoring results are presented in reports that are submitted periodically to external (Regulator) and internal (Management) parties.

Risk monitoring is conducted both by the Operational Unit (risk-taking unit) as the risk owner and by the risk control unit, with the monitoring results presented in regular reports including Bank Soundness Level Reports, Risk Profile Reports, Minimum Capital Adequacy Requirements (KPMM) Reports, Loan Portfolio Reports, Market Risk and Liquidity Risk Monitoring Reports, Operational Risk Incident & Loss Reports, Business Continuity Management (BCM) Monitoring Reports, Internal Risk Analyst and other risk reports.

d. Risk Control

The risk control process is carried out primarily to manage risks that could interfere with BNI's business continuity.

Matters to be considered in the risk control process are as follows:

- The risk control system refers to the established policies and procedures;
- The risk control process is adjusted to the risk exposure as well as the level of risk to be taken (risk appetite) and risk tolerance;
- The mechanism for hedging and risk mitigation is carried out by the Operational Unit in collaboration with the Risk Management Unit.

Risk control strategies implemented include the following:

- Risk Acceptance**
For risk types that are processively impossible to intervene in to prevent or improve the situation, where the potential risks will be accepted as a consequence of the bank taking advantage of business opportunities, with the consideration that the existing risks are still within the Bank's limits/tolerance. However, strict controls are required to be exercised if this risk control strategy is implemented.
 - Risk Avoidance**
Risk avoidance is carried out to prevent BNI from experiencing an unacceptable risk, or to prevent an increase in existing risk exposures. Risk avoidance is chosen if the potential profit from a business activity is smaller than the possible risk exposure.
 - Risk Transfer**
In the risk transfer strategy, existing risks inherent in the business activities are transferred to other parties. One of the most common methods of risk transfer is the use of insurance services or outsourcing.
 - Risk Mitigation**
Risk control will be optimal if efforts are made to reduce existing risks. Risk mitigation is intended to minimize losses triggered by external factors, as well as events within the bank. One of the alternatives to press and reduce risk is through increased control and improvement of work systems and procedures.
- e. Risk Management Information System
- The Risk Management information system is required to support the identification, measurement, monitoring, and risk control processes.
- Risk Data Management**
Risk data management is used to ensure the level of availability, accuracy, and timeliness of the distribution of risk management information/reports as well as relevant parties in the Risk management report.

ii) Risk Management Reporting

The Risk Management Reporting to certain parties must consider the following matters:

- The frequency of reports adjusted to the needs of relevant parties; therefore, they can provide adequate information for decision-makers;
- The reports contain information on total risk exposure, monitoring of material risks, setting limits, compliance with policies and procedures, achieving business performance, and implementing risk management.

The effectiveness of BNI's Risk Management Information System includes the following:

- Information availability that is accurate, complete, informative, timely, and accessible to the Board of Commissioners, the Board of Directors, and related units of Risk Management to assess, monitor, and mitigate risks faced by BNI, both overall and by risk type;
- The effectiveness of Risk Management includes the policies, procedures, and determination of risk limits;
- Information availability on the results (realization) of Risk Management compared to the targets set by BNI following risk management policies and strategies.

Several risk management applications have been prepared to support the risk management processes in a good, accurate and timely manner, including the Internal Rating System, Scoring System, Operational Risk Toolkit (New PERISKOP), and Market & Liquidity Risk Management Applications.

Several risk management solutions have been prepared to support the implementation of risk management properly and in line with the IT Strategic Plan, including:

- Preparing front-end applications for credit risk, market risk, and operational risk;
- Preparing data storage and information systems.

Before implementing a new risk management information system, tests are carried out to ensure that the processes and outputs produced have gone through the development, testing, and reassessment processes effectively and accurately.

4. Pilar 4. Complete Internal Control System

The application of BNI's Internal Control System is developed and implemented using the Three Lines of Defense model consisting of:

#1 Risk Taking Unit or 1st Line of defense	#2 Risk Control Unit or 2nd Line of defense	#3 Risk Assurance or 3rd Line of defense
<p>Risk Owner, responsible for the risks taken, execution and results (Day to day risk management & control)</p> <ul style="list-style-type: none">Responsible for managing and controlling risks inherent in day-to-day business activities or functions;Identifying, measuring, mitigating, monitoring and reporting risks inherent in business activities/functions in accordance with the strategies/policies/risk parameters set by the 2nd line of defense.	<p>Risk Control, responsible for developing the Bank's risk management framework, policies, principles and methodology:</p> <ul style="list-style-type: none">Preparing proposals for risk management strategies and policies, including risk appetite & limits;Developing frameworks, policies, principles, tools, methodologies and risk management standards;As a risk oversight unit, carrying out aggregation and overall risk reporting;Advising or providing recommendations to the 1st line of defense on implementing risk policies according to authority;Escalating issues/important decisions to Senior Management/Directors and/or Risk Management Committee and Anti Fraud, Risk Management Sub-Committee and/or Integrated Risk Management Committee (Risk Management Committees).	<p>Risk Assurance, responsible for independently evaluating the effectiveness of risk management and internal control implementation:</p> <ul style="list-style-type: none">Conducting independent and periodic internal audits on the risk management and internal control;Preparing corrective action recommendations and monitoring their implementation;Reporting the audit results to the Audit Committee and key stakeholders according to their authority.

The Risk Owner as the first line of defense/Risk-Taking Unit and manages the risks inherent in the business and day-to-day functions. The Enterprise Risk Management Division, Policy Governance Division, and Compliance Division acts as the second line of defense/Risk Control Unit.

The Internal Audit (IAD) acts as a third line of defense/Risk Assurance Unit, and is responsible to the President Director and is tasked with independently assessing the suitability of the risk management implementation processes, and the internal control system with established policies and procedures and the Regulator's provisions.

BNI's Internal Control System has been effective and efficient with the implementation of separation of functions between the Risk-Taking Unit and the Risk Control Unit as well as the Risk Assurance Unit.

SPECIFIC IMPLEMENTATION OF RISK MANAGEMENT

There are 8 (eight) risk profiles managed by BNI as the Bank and 10 (ten) risk profiles managed by the Bank as a Financial Conglomerate, namely credit risk, market risk, liquidity risk, operational risk, legal risk, reputation risk, strategic risk, risk compliance, intra-group transaction risk, and insurance risk.

CREDIT RISK

Credit Risk is the risk of loss due to the failure of other parties to fulfill their obligations. Included in credit risk are credit risk due to debtor failure, credit risk due to concentrated provision of funds (credit concentration risk), credit risk due to counterparty credit risk, credit risk due to settlement failure (settlement risk), and credit risk due to country risk.

Credit Risk Management

As the spread of COVID-19 subsided, the global and domestic economies continued to recover. Improvements in the world economy will continue, however, their potential will be lower than previously estimated, due to the increased financial market uncertainty as a result of the continuation of the Russia-Ukraine conflict, increasing global inflationary pressure, and a more aggressive global monetary policy tightening response.

The economic recovery will bring about a positive impact on the performance and quality of bank lending in Indonesia, as well as loan performance at BNI. BNI captured this potential through its initiatives to encourage prudent loan growth. As at December 2022, BNI's loan realization was Rp646.2 trillion or an increase of 10.9% YoY compared to Rp581.5 trillion, compared to 2021's growth increase of 5.3% YoY.

The main driver for BNI's loan growth was the Corporate segment that posted an increase of 12.3% YoY, followed by the Consumer business segment with 10.2%, which were mostly disbursed as housing ownership and payroll loans. To maintain asset quality, BNI's lending focused on Top Tier customers in a number of industries, as it continues to build overall relationships with customers to ensure integrated financial solutions (close loop transactions).

BNI's loan quality continued to improve throughout 2022 and showed recovery after being depressed due to the COVID-19 pandemic. An encouraging trend can be seen from the gradual reduction in the gross Non-Performing Loan (NPL) ratio driven by the application and monitoring of risk management discipline in loan disbursements, BNI's gross NPL ratio in December 2022 was 2.8%, down from the position at the end of 2021 of 3.7%. The improvement in BNI's NPL was due to improved loan quality in the Corporate segment from 2.8% to 2.0%, and in the Consumer business from 2.3% to 1.7%.

The same trend occurred in the number of restructured loans. As of December 2022, BNI's restructured loans amounted to Rp91.4 trillion (bank only), down compared to Rp122.93 trillion in the last period of 2021. Restructured credit related to the COVID pandemic also improved, where in December 2022 it was Rp49.58 trillion, or 7.71% of the total loans, to Rp72.13 trillion or 12.40% of the total loans in December 2021. Based on the debtor's credit risk classification, BNI's COVID-19 restructured loans was dominated by the Medium Risk category with 61%, followed by the High Risk category with 23% and Low Risk with 16% of the total COVID-19 restructured loans. Most of the debtors who received the COVID-19 credit restructuring facility came from the construction sector with 23%, the Manufacturing Industry sector with

20%, the Accommodation Provision and Food and Drink Provision sector with 13.5% and the Wholesale and Retail Trade sector with 12.8%. BNI will continue to closely monitor restructured loans related to the pandemic, especially with the end of the COVID Stimulus POJK in March 2023.

BNI also measures the Loan at Risk (LaR) ratio that shows a wider range of loan risk. LaR is the sum of loans with collectibility 1 (current) which are restructured, collectibility 2 (Special Mention) and collectibility 3, 4 and 5, which are classified as Problem Loans (NPL). In December 2022, BNI's total LaR Was Rp102.84 trillion, or 16.0% of total loans, an improvement on the previous year's Rp135.71 trillion, or 23.34% of total loans. LaR ratio Improvements occurred accross all segments supported by a decrease in restructuring loans in line with efforts to improve the end to end loan process, and also supported by the increasingly sloping COVID-19 cases so that people's mobility increased, which had a positive impact on recovering debtor business activities. The return to normal loan status took place in stages and was seen in various business sectors.

Following the improvement in loan quality, the cost of credit continued to improve, where as at December 2022 it was 1.8%, down compared to the 2021 period of 3.15%. The cost of credit ratio referred to was still within the management guidance range of 1.9% - 2.1%. Looking forward, BNI will continue to control the cost of credit up to 1.5% in 2023.

Even though loan quality had improved relatively, BNI still anticipated a potential decline in loan quality, and strengthened the reserve ratio or coverage ratio to an adequate level. By the end of 2022, the NPL coverage ratio had increased from 233.4% in 2021 to 278.3%, and the LaR coverage ratio had increased from 37.0% in 2021 to 48.8%.

Currently, BNI has developed a concept and mechanism for implementing a more prudent, measurable end-to-end loan process with consistent and disciplined controls in an effort to build a better loan risk culture, including the following:

- Establishing Risk Acceptance Criteria to apply BNI's aggressive, selective and quality expansion. This is intended so that BNI can still maintain its loan quality when expanding
- Developing of Single Integrated Monitoring (SIMON) Framework tools, a Loan Management System (LMS), Credit Scoring Model for processing loans > IDR 5 billion, and developing RM Tools to improve the quality and efficiency of the loan analysis process.

- Implementing a better control mechanism for debtors to ensure monitoring tools are used in a consistent, disciplined and quality manner so that BNI can determine the right action plan for each debtor and monitor its implementation
- Implementing faster and earlier remedial actions to accelerate improvements in the performance of debtors with potential problems and to mitigate potential risks.
- Conducting regular and in-depth loan training to increase loan knowledge and skills as well as to increase awareness of a risk culture.

Governance and Organization

The four eyes principles in the loan process at BNI is applied in the loan approval process, and is carried out through the Credit Committee, a joint forum for loan decision-making officials with the authority to decide on proposed loans in accordance with established limits. The Credit Committee Members consist of officers from the business unit and business risk units. The business unit and business risk unit act as the first line of defense (risk owner) whose job is to manage and control loan risk in the units' daily operational activities.

In an effort to accelerate loan quality improvement, BNI established an LaR Handling Optimization Team organization. This organization was established to monitor loan quality and handle lower quality debtors more quickly and intensively with a focus on the management process, decisions, action plans and monitoring of debtors Loan at Risk (LaR) according to the set targets and goals. As well as the LaR Handling Optimization Team Organization, the Remedial Recovery Unit also plays a role in handling troubled debtors' loans. BNI carries out faster and earlier remedial actions to accelerate the performance improvement of debtors with potential problems and to mitigate potential risks.

The Risk Management Work Unit and the Policy Governance Unit act as the second line of defense in charge of preparing the loan infrastructure such as formulating loan policies and procedures, setting limits on loan decision-making authority, developing and reviewing risk management methodologies, monitoring and reporting loan risk developments (including limits), preparing a rating and scoring system, together with business units to monitor loan portfolios, as well as prepare other tools needed to support loan activities.

The Internal Audit Work Unit (SKAI) as the third line of defense actively participates in maintaining the quality of the loan portfolio through immediate post reviews, by conducting examinations of several

debtors immediately after the loans are disbursed. SAI also checks debtors by sampling to maintain the quality of debtors who have obtained loan facilities

Policies and Procedures

Establishment of Credit Risk Management Policies and Procedures, is aimed at supporting the provision of sound loans, identifying and dealing with problem loans and monitoring and controlling Credit Risk.

The Credit Policies and Procedures are formulated as the basis for implementing the loan process activities, so loan quality can be maintained while considering the business targets set. BNI has a Bank Credit Policy (KPB), which was decided by the Credit Policy Committee Forum (KKP) and approved by the Board of Commissioners, which is the philosophy and basic principles for sound credit.

The policy is structured in a more detailed lending procedure as a guideline that regulates end-to-end loan processing activities so that laon quality can be maintained while taking into account the set business targets.

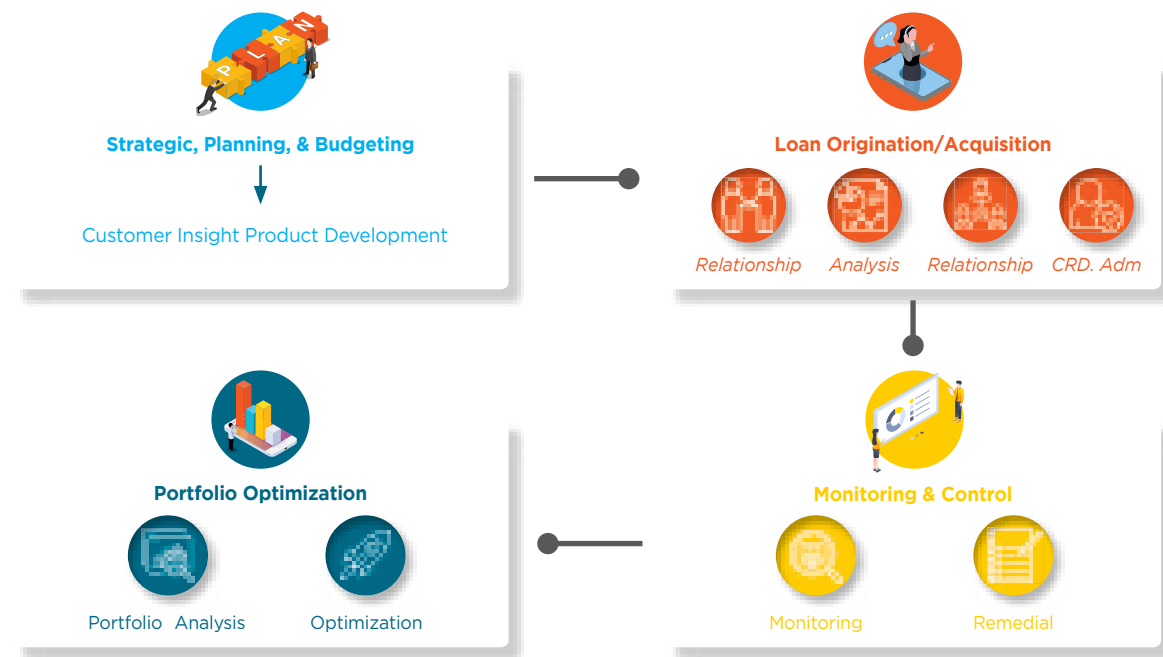

The loan procedures include Business Banking Credit Procedures for the Corporate Segment, Commercial segment, Small segment, Credit Manual for Overseas Branches, Consumer Credit, Trade Finance, Credit Law and Credit Administration Management

In addition, BNI also has a General Risk Management Policy in the form of Credit Risk Management Procedures, and detailed Technical Guidelines such as technical guidelines for setting Loan Exposure Limits, Credit Risk Premium, Credit Risk Stress Testing, Internal Rating Based, Scoring Systems, Calculation of Risk Weighted Assets, Industry Risk Rating and Credit Model Validation.

The Policies and procedures for Credit and Credit Risk Management have been standardized the Company Guidelines. The Company Guidelines used are currently available in the form of online guidelines, namely BNI e-PP (electronic Company Guidelines).

Process

The credit risk management process is implemented for the entire credit process, starting from loan marketing until the loan is paid off. This process takes place continuously in a value chain activity that begins with strategy and planning, customer insight, portfolio planning, product development, loan processing, loan administration, intensive monitoring and portfolio optimization.

For the operational activities for individual customers, the credit risk management process is carried out by the Business Units and the Business Risk Units, including the stages of identification (including verification of data accuracy), measurement (use of credit analysis tools), monitoring (through regular customers visits and review ratings), and control (such as by setting limits, covenants, and mitigant factors).

For the entire portfolio, loan monitoring and reporting is carried out periodically by Management through the Loan Portfolio Report. Also, loan concentration is monitored, whether it is concentrated in certain economic sectors or concentrated in certain segments. Periodically in the Risk Management & Anti-Fraud Committee Forum, the Risk Management Sub Committee (KRA-RMC) evaluates the target achievements, determines steps, and coordinates follow-up improvements, and evaluates the effectiveness of corrective measures.

To improve loan quality, BNI has optimized a number of strategies starting from improving end-to-end loan processes, mitigating more prudent risks, handling non-performing loans earlier and building a strong loan risk culture.

The most basic effort to improve loan quality is through strengthening the risk culture by improving the way of working/behavior in loan extensions and managing credit risk management. The most important risk behaviors to be improved by all employees are increasing the Level of Care, Communication, Openness, Cooperation, and Tolerance.

The end-to-end process improvement is divided into 3 (three) activities, namely:

- Pipeline Management, aims to acquire debtors with good quality and character through a pre-screening process and Risk Acceptance Criteria (RAC) determined according to the industry sector, to direct the loan portfolio to sectors that are stronger and healthier and ensure prospective borrowers comply with BNI's Risk Appetite, to be decided in the Business Acceptance Committee (BAC) forum for approval from a business and risk perspective;
- Underwriting, aims to conduct a comprehensive debtor analysis including first way out and second way out analysis together with risk mitigation by applying sound credit parameters as outlined in the macros excel-based Credit Proposal Memorandum (MPK) that aims to improve the quality of analysis of debtors/prospective debtors using standardizing formats, and to increase data credibility;
- Monitoring, a series of activities to monitor/follow the progress of a debtor's business activities and the development of loans disbursed from the time they are given until they are paid off by building a Single Integrated Monitoring (SIMON) tool as an enhancement to existing monitoring tools such as the Early Warning System (EWS), Watchlist and LaR Zoning aimed at anticipating potential risks that may arise.

Tools and Methods

To support the business process operations and credit risk management, BNI uses credit risk management tools at the individual and portfolio levels. For individual loan exposure in the business banking segment, where BNI already has a rating model in the form of an internal rating system, while for the consumer and retail segments up to Rp3 billion, a debtor scoring system is used to assist in analyzing debtor quality in the loan process.

To prevent the Bank's portfolio from being concentrated on certain debtors and economic sectors, credit limits have been set according to risk appetite and risk tolerance, the ERM Division has also prepared an Industry Risk Appetite (IRA) by taking into account factors including Industry Risk Rating (IRR), Prospective Economic Sector and the Environmental Impact of the economic sector that refers to the Environmental Social and Governance principles in accordance with POJK No. 51 of 2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, issuers and Companies, while to anticipate exceedances in the BMPK BNI has set a house limit with a more prudent limit than the LLL limit set by Regulatory provisions.

To regulate the loan portfolio composition, BNI has a Loan Exposure Limit (LEL) which serves to limit the risk of concentration of loan exposure in each economic sector and each business segment, and serves as a guideline for loan expansion for one year. For industrial risk assessment, BNI implements the Industry Risk Rating (IRR) and financial ratio standards as factors in assessing the quality of debtors from the industry side.

As part of measuring credit risk and anticipating changes in macro factors that may have an impact on the Company, BNI regularly conducts loan risk stress testing using deteriorating scenarios to assess changes in the loan portfolio and the impact on performance and capital for the Bank, as well as the Bank's ability to deal with these conditions.

To integrate documentation in the credit process, BNI uses the e-PAK application for corporate loans to assist in the end-to-end credit processes with documentation carried out by integrating several existing tools.

Establishment of Allowance for Impairment Losses (CKPN)

The establishment of Allowance For Impairment Losses (CKPN) in BNI follows the the Statement of Financial Accounting Standards (PSAK) number 71: Financial Instruments as the accounting standard governing financial instruments that became effective as of January 1, 2020.

PSAK 71 requires the inclusion of information relating to past events, current conditions, and forecasts of future economic conditions. The projected change in loan losses must reflect changes in the related conditions in one period. The calculation for the recognition of Expected Credit Loss- ECL requires a forward-looking estimation of Probability of Default (PD), Loss Given Default (LGD), and Exposure at Default (EAD).

Following these accounting requirements, the coverage of financial assets assessed for the calculation of Expected Loss or Allowance Impairment Losses (CKPN) based on PSAK 71 is as follows:

1. Financial assets, such as debt instruments, are measured at amortized cost or fair value through other comprehensive income (FVOCI) including loans and debt securities;
2. Loan commitments issued are not measured at fair value through profit and loss (FVTPL);
3. Financial guarantee contracts issued that fall within the scope of PSAK 71 and are not measured in FVTPL.

The calculation of impairment value is carried out through two methods, individual or collective impairment.

1. Individual Value Impairment
Based on PSAK 71, ECL for individual credit is calculated using a Discounted Cash Flow method that considers the existing forward-looking scenarios based on 3 (three) scenarios: fair, optimistic and pessimistic economic conditions.
2. Collective Value Impairment
Value Impairment using the collective methodology and is applied to portfolios that not meet the criteria for individual portfolios. The collective value Impairment uses the PD, LGD, and EAD components.

The definition of default used in the calculation of Probability of Default and Loss Given Default for loan portfolios, besides following the regulatory regulations concerning the Assessment of Asset Quality of Commercial Banks and future changes, BNI also uses a definition of default or Past Due of more than 90 days, with an internal rating default, or Collectibility of more than 3. For non-credit portfolios, the definition of default refers to the regulation concerning the Assessment of Asset Quality of Commercial Banks and rating assessments published by external rating agencies.

Based on the general approach to calculating impairment in PSAK 71, financial assets are categorized into 3 (three) stages. Each stage shows the credit quality of the related financial assets, namely:

1. Stage 1: includes financial instruments that do not have a significant increase in credit risk compared to the risk level from the initial recognition, or have a low credit risk at the reporting date. For these assets, ECL calculation will apply for a maximum of 12 months or following the remaining tenor.
2. Stage 2: includes financial instruments that experience an increase in credit risk from the initial recognition (except for credit risks at the reporting date classified as low) but that experience or qualify for default. For these assets, ECL calculation will apply over the remaining tenor, or follow the expected remaining tenor. ECL lifetime is the expected credit loss from all default events that may occur during the estimated life of the financial instrument.
3. Stage 3: includes financial instruments that are shown to be objectively impaired at the reporting date. This stage consists of debtors in default.

Probability of Default (PD)

Probability of Default (PD) is the main component in calculating CKPN and in assessing the potential default of a debtor group based on indicators of earning asset quality for each asset. To fulfill the principles of PSAK 71, PD needs to be established into a transition that has a time dimension known as PD forward-looking.

PD forward-looking defines the potential of default not limited to 1 year but up to the longest tenor held by the bank. PD forward-looking will be distributed each year/month of the projected tenor of the facility. This distribution is known as the PD forward-looking term structure.

PD forward-looking term structure is required for the calculation of CKPN according to the stage in each facility. In generating PD values, BNI uses 3 approaches based on the availability of portfolio data, namely the Vasicek Model, the Bayesian Scalar Model, and the Matrix Transition Model.

Loss Given Default (LGD)

In calculating CKPN PSAK 71, the estimated value of Loss Given Default (LGD) considers BNI recovery data from default accounts. There are 2 (two) LGD segments, namely secured LGD and unsecured LGD. Secured LGD consists of the Appreciated Model, the Depreciation Model, and the Static Model. While the Unsecured LGD consists of the discounted difference in the debit model.

In the LGD calculation, there is a Recovery Secured component, which is a recovery covered by collateral or the LGD portion of the collateral recovery that has been discounted according to the workout period. Unsecured recovery is the recovery derived from cash discounted recoveries according to the workout period. Direct costs are those that arise during the billing or guarantee execution process.

Collateral recovery/recovery secured is divided into 3 types, namely appreciated collateral, depreciated collateral, and static collateral. Determination and management/changing of rules to classify the collateral segmentation into the three types of collateral is carried out periodically.

For the unsecured recovery rate calculation, the population being observed includes accounts that have experienced defaults but are still in default status until the end of the cut-off modeling period and have default ages exceeding the workout period limit.

Exposure at Default (EAD)

Exposure at Default (EAD) is an estimate of the carrying amount at the time of default, considering the cash flows of the relevant financial instrument, as well as the possibility of additional withdrawals from the credit limit up to the date of default. EAD also considers payment and amortization schedules as well as changes in the utilization of outstanding balances before default.

EAD modeling is carried out based on the characteristics of the related financial instruments, divided into several categories, namely installment loans, revolving loans, trade finance products, and treasury.

Some facilities will be subject to a credit conversion factor (CCF) rate in their EAD term structure. CCF will be imposed on facilities that have the following criteria:

1. Has a withdrawal allowance that can be reused if a principal debt is paid;
2. The funding mechanism can be carried out without a credit analysis mechanism.

Expected Credit Loss (ECL)

Broadly speaking, CKPN is measured by the lifetime Expected Credit Loss (ECL) value, if there has been a significant increase in credit risk since initial recognition. If at the reporting date, there has been no significant increase in credit risk since initial recognition, the measurement of allowance for impairment losses on financial assets is carried out for a maximum of ECL 12 months.

Application of PSAK 71 during COVID-19 Pandemic

Referring to the Financial Services Authority (OJK) letter No .S7/D.03/2020 dated April 14, 2020 concerning the Application of PSAK 71 and PSAK 68 during the COVID-19 pandemic, BNI has identified those debtors who have performed well so far but have declined due to the impact of COVID-19, implemented a restructuring scheme referring to the assessment results, classifying debtors who received a restructuring scheme in stage 1, and where no additional CKPN was required, as well as performed identification and monitoring on an ongoing basis, as well as stayed on guard to continue to CKPN form if the Debtors who had received the restructuring facility performed well at first, but were expected to decline due to the impact of COVID-19, and were unable to recover after the restructuring/impact of COVID-19 ends.

Credit Risk Measurement Using Standard Approaches

- Scoring Mechanism using External Rating Agencies
Following the OJK Circular Letter (SEOJK) No. 42/SEOJK.03/2016 dated September 28, 2016, BNI uses External Ratings for the Calculation of Risk-Weighted Assets (RWA), with reference to SEOJK 37/SEOJK.03/2016 concerning Rating Agencies and Ratings Recognized by OJK. The procedure for using ratings in the calculation of RWA is regulated as follows:
 - The Bank only rating, so that even though it is in one business group, the rating of a company cannot be used to determine the risk weight of another company;
 - Domestic ratings (Pefindo and Fitch Indonesia) to determine the risk weighting of receivables in Rupiah, while international ratings (Moody's, S&P Global Ratings, and Fitch) are used to determine the risk weighting of receivables in foreign currencies;
 - The determination of the risk weighting of claims in the form of securities is based on the related securities rating (issue rating). If the securities do not have a rating, the risk weighting shall be based on the risk weighting of the claims without a rating. The determination of risk weighting for claims in the form of other than securities is based on the debtor rating (issue rating). In the case of claims other than securities that do not have a rating, the risk weighting is based on the risk weighting of the claims without a rating;

- Short-term rating is used to determine the risk weighting of short term securities issued by parties included in the scope of Claims on Banks or Claims on Corporations. If the short-term receivables do not have a short-term rating, the risk weighting shall use the long-term rating; and
 - If exposure has more than one qualifying rating, the rating used is the second-lowest risk weighting. In this case, there are only two ranks, so the lowest one is used.
- Portfolio Categorization by Scoring Mechanism
The determination of risk weighting based on the exposure rating as mentioned above is only applied to the following portfolio categories:
 - Claims on the Governments of other countries;
 - Claims on Public Sector Entities;
 - Claims on Multilateral Development Banks and International Institutions;
 - Claims on Banks (Long Term and Short Term);
 - Claims on Corporations (Long Term and Short Term).
 - Rating Agencies Used include recognized rating agencies and ratings as follows:
 - Fitch Ratings
 - Moody's Investor Service
 - S&P Global Ratings
 - PT Fitch Ratings Indonesia
 - PT Pemeringkat Efek Indonesia

Counterparty Credit Risk

Counterparty credit risk is a part of the overall credit risk. Counterparty credit risk is the risk due to the counterparty's failure before the final settlement of cash flows for the transaction. It is influenced by both business conditions and fair value or market value factors, for example in derivatives, repos or reverse repo transactions.

Types of risk mitigation instruments from counterparty credit risk received by the Bank includes:

1. Cash deposited in the bank;
2. Demand deposits, savings, or deposits issued by banks;
3. Indonesian Government securities and State Sharia Securities.

Credit risk due to counterparty failure (counterparty credit risk) arises from the types of transactions that generally have the following characteristics:

1. Transactions affected by movements in fair value or market value;
2. The fair value of transactions is affected by the movement of certain market variables;
3. Transactions result in the exchange of cash flows or financial instruments; And
4. Risk characteristics are bilateral, namely:
 - a. If the fair value of the contract is positive then the Bank is exposed to Credit Risk from the counterparty; or
 - b. If the fair value of the contract is negative, the counterparty is exposed to credit risk from the bank.

For capital adequacy calculation by considering the RWA calculation using the Standard approach, an additional RWA calculation for credit risk from the Counterparty Risk is prepared by including the CVA (Credit Valuation Adjustment) component. Based on SEOJK No. 24/SEOJK.03/2021 concerning the Calculation of Risk-Weighted Assets for Credit Risk Using a Standard Approach for Commercial Banks, the calculation of the CVA component is no longer part of the calculation of Credit Risk RWA. As of January 31, 2023, guidelines for calculating CVA will be regulated in the provisions concerning the calculation of RWA for Market Risk.

1. Derivative Transactions

The scope of derivative transactions calculated for the calculation of RWA Credit Risk for counterparty credit risk includes, Over The Counter (OTC) derivative transactions, exchange traded derivative transactions, and long settlement transactions.

2. Repo and Reverse Repo Transactions

BNI only conducts Repo and Reverse Repo transactions with the underlying assets of the Republic of Indonesia Government Securities (Government Securities).

Credit Risk Mitigation by Using Standard Approach

In the credit process, the collateral received can be in the form of objects financed by credit (movable objects or immovable objects), as well as objects that are not financed (personal guarantees or corporate guarantees). Credit collateral must meet the criteria, including having economic value, marketable, transferable, and having a juridical value.

Based on SEOJK No.24/SEOJK.03/2021, in calculating RWA for credit risk, the Bank can recognize the existence of collateral, guarantees, guarantees or insurance as a Credit Risk Mitigation Technique. The main principles for the recognition of MRK Techniques are:

1. The results of the calculation of Credit Risk RWA after taking into account the impact of the MRK Technique are at least 0 (zero).
2. The impact of the existence of collateral, guarantees, guarantees, or credit insurance that is recognized as an MRK Technique may not be double calculated in the calculation of RWA for Credit Risk.
3. The validity period of collateral binding, guarantees, and/or guarantees or credit insurance, is at least the same as the remaining exposure period.

Credit Risk Mitigation Application by Using the Standard Approach

The application of the MRK Technique for the calculation of RWA for Credit Risk includes the MRK-Collateral Technique, the MRK-Guarantee Technique and the MRK-Credit Insurance Technique as described below:

1. MRK-Collateral Techniques.

The types of collateral recognized in this MRK Technique are cash, current accounts, savings, time deposits, gold kept at the Bank as well as Government Securities (SUN), State Sharia Securities (SBSN), Bank Indonesia Certificates (SBI) and Bank Indonesia Sharia Certificates (SBIS) as well as Securities rated by Rating companies recognized by OJK.

2. MRK-Guarantee Techniques

A guarantee received from the Government of the Republic of Indonesia, Correspondent Banks, and Insurance Companies. In the credit risk mitigation technique, guarantees counted are only guarantees issued by parties included within the category of Claims to the Government of Indonesia, Claims to Governments of Other Countries, Claims to Banks and guarantee/ insurance institutions by taking into account the fulfillment of warranty requirements and guarantee issuers;

3. MRK-Insurance Techniques

Credit Insurance issued by insurance companies by considering the insurance policy requirements fulfillment, insurance issuers and portfolio categories for insurance recipient.

BNI regulates the policies, procedures and processes to assess and manage collateral based on the type of exposure and financing scheme. The collateral adequacy assessment received considers the cash equivalent value existence. For credit exposure (loan), collateral valuation must be conducted periodically at least every 24 months by an independent appraiser, or carried out by internal appraisal staff who are independent from the loan disbursement process.

In addition to mitigation techniques in the form of collateral, BNI also uses guarantees/collateral and credit insurance. Analysis of main parties providing guarantees/collateral is a part of credit worthiness analysis and credit risk mitigation. The guarantee providers include: (1) Government of the Republic of Indonesia's SOE's in the electricity sector for financing KMK subsidized bailouts and syndicated KI, (2) Credit Insurance Companies which are State-Owned Enterprises for financing of Kredit Usaha Rakyat disbursed by BNI.

MARKET RISK

Market risk represents the risk of loss in balance sheet and off-balance sheet positions and derivative transactions due to changes in overall market conditions, Market variables managed by BNI consist of interest rates, exchange rates including derivative transactions and changes in option prices.

Most of the Trading Book's Market Risk is sourced from Domestic and Overseas Branch Offices Treasury business activities, Meanwhile the Banking Book's Market Risk, specifically the Interest Rate Risk in Banking Book and Net Open Position (PDN) is sourced from all company activities, BNI always monitors and manages market risks continuously and closely.

Governance and Organization

To achieve an effective and independent market risk management, Treasury business activities are divided into 3 (three) areas, namely front office, middle office, and back office, Front office acts as a business unit seeking to achieve business targets by executing business activities and dealing with customers, However, as a part of the internal control system, front office also functions as the first line of defense and will try to limit and anticipate market risks due to changes in exchange rates and interest rates in accordance with predetermined limits, In conducting its activities, Treasury business is limited by Risk Appetite and Risk Limit proposed by the Bank's Risk Management Division to the Risk Management Committee and the Anti Fraud Risk Management Sub-Committee (KRA-RMC), Treasury transaction limits are proposed by the Policy Governance Division through the Credit Procedure Committee (CPC) whilst the counterparty limit is assigned by the Business Risk Unit,

The Bank's Risk Management Division as the second line of defense conducts a surveillance function towards market and compliance with risk limits for market, authority and counterparty risk, It also validates fixing prices, checking the fairness of prices for treasury transactions and investigating off-market events and reviewing limit usage, Furthermore, to complement the existing market risk management function, BNI also has a Middle Office that monitors, controls and reports risks on Treasury transactions.

The back office function is in the Banking Operations Division for conducting confirmations, bookkeeping and settlement of Treasury transactions.

Policies and Procedures

To support the business targets, while still paying attention to the precautionary principle, BNI has Corporate Guidelines for Treasury and International Business, In addition, for effective Market Risk management, BNI is guided by the Market Risk Management Company Guidelines. The Company Guidelines contain management and methodologies as well as market risk management models, and are compiled and reviewed and validated periodically by the Bank's Risk Management Division.

Process

Market risk identification, measurement, surveillance and control are executed by units independently from the business unit, Market Risk identification is mainly conducted on every new product or activity, BNI measures Market Risk by using the Standard and Internal Methods, The Standard Method is used to calculate the Minimum Capital Adequacy Requirement (CAR) for Market Risk whilst the daily Market Risk management is used for the Internal Value at Risk Method.

Portfolio coverage calculated within CAR by using the Standard Method is a trading book portfolio for interest rate risk as well as trading and banking book portfolios for domestic exchange rate risk and overseas branch offices.

The Bank's individual market risk exposures, consolidated with its Subsidiaries using the standard method are shown in the following table:

Table of Disclosure of Market Risk Using the Standard Method

(in million rupiah)									
No.	Type Of Risks	December 31, 2022				December 31, 2021			
		Individual	Consolidated			Individual	Consolidated		
		Capital Expense	RWA	Capital Expense	RWA	Capital Expense	RWA	Capital Expense	RWA

3	Equity Risk	-	-	-	-	-	-	2,070	25,876
4	Commodity Risk	-	-	-	-	-	-	-	-
5	Option Risk	-	-	-	-	-	-	-	-
Total		179,542	2,244,275	181,561	2,269,514	137,790	1,722,372	145,186	1,814,823

For internal purposes, BNI also conducts calculations using an Internal method. Calculations of CAR using the Internal method is done by calculating the Value at Risk (VaR), which is the value that represents the maximum potential risk of losses on the Bank due to market movements affecting the Bank's risk exposure in normal market conditions. To arrive at the VaR value, the method uses an Parametic Simulation.

Domestic market value exposures (Risk at Risk) and Overseas Branch Offices are monitored daily and results submitted to Management on a weekly and monthly basis. The price valuation policy currently used for actively traded instruments is mark-to-market, whilst the valuation method for lower actively traded instrumwents uses fair prices from independent sources.

The Bank's individual and consolidated market risk exposures using the internal model (value at risk) are shown in the following table:

Table of Market Risk Using the Internal Method

Interest Rate Risk in the Banking Book (IRRBB) is the Risk due to movements in market interest rates that are contrary to Banking Book position, and has the potential to impact the Bank's present and future capital and income.

Risks in the overall banking book portfolio are periodically monitored in accordance with the measurement methods set by the regulator, namely monitoring the Net Open Position (NOP) for exchange rate risk and interest rate risk in the banking book, with the results submitted to management through Risk Management and Anti Fraud Committee Forum and Asset & Liability Sub-Committee (KRA-ALCO).

Disclosure Reports of interest rate risk exposure in the Banking Book (IRRBB) individually and consolidated are shown in the following tables:

Application of Risk Management for Interest Rate Risk in the Banking Book - Banks Individual

Qualitative Analysis

	Interest Rate Risk in the Banking Book, hereinafter abbreviated as IRRBB, represents current and future risks against the Bank's capital and profitability, arising from interest rate movements in the market which have an impact on the Banking Book position.
1	The IRRBB includes gap risk arising from the term structure of the banking book instruments; the risk basis that describes the impact of the relative changes in interest rates of financial instruments that are valued using different interest rate curves; option risk arising from financial derivative positions or from the element of option risk inherent in financial instruments.
	The Bank manages IRRBB exposure using economic value and earnings based measures. In the application of segregation of duty, the Treasury Division acts as a unit that functions to manage interest rate risk and the Risk Management Division acts as a unit in monitoring interest rate risks that arise.
2	For the purpose of controlling and mitigating interest rate risk in the banking book, the Bank has determined both quantitative control in the form of the application of limits and risk appetite. The Bank also conducts qualitative risk control such as management strategies, risk transfers through the Funds Transfer Pricing (FTP) mechanism and also a hedging strategy.
	The IRRBB calculation is done quarterly and subsequently becomes part of the Risk Profile, Bank Soundness Self Assessment, Quantitative Information on Risk Exposure, and Disclosure of Risk Management Practices.
	To measure IRRBB exposure, the Bank uses economic value and earnings as a basis for measurement methods. Measurement of economic value of equity, hereinafter referred to as EVE, measures changes in the economic value of assets, liabilities and administrative accounts (off balance sheet) of the Bank caused by interest rate movements. For now, the Bank measures changes in EVE as the maximum decrease of the economic value of banking books in the six standard interest scenarios defined by the Basel Committee on Banking Supervision (BCBS) and OJK as stated in SEOJK IRRBB no SEOJK/12/2018.
3	<p>The measurement of bank earnings (earning-based measure) looks at the estimated changes in net interest income, hereinafter abbreviated as NII (net interest income) which is caused by the movement of interest rates in the market for a certain period. For this reason, the Bank measures the change in NII as a maximum decrease from NII if there is a scenario of an increase or decrease in interest rates in parallel as defined by the Basel Committee on Banking Supervision (BCBS) and SEOJK IRRBB no SEOJK/12/2018, compared to planning Bank finance for a period of 12 months.</p> <p>In measuring EVE, BNI uses the standardized approach of SEOJK IRRBB no SEOJK/12/2018, where the interest rate shock scenario used includes:</p> <ol style="list-style-type: none">Parallel shock up;Parallel shock down;Steepener shock, with a combination of short rates down and long rates up;Flattener shock with a combination of short rates up and long rates down;Short rates shock up; andShort rates shock down. <p>In measuring NII, the Bank uses the standardized approach of SEOJK IRRBB no SEOJK/12/2018, where the interest rate shock scenario used includes:</p> <ol style="list-style-type: none">Parallel shock up;Parallel shock down; <p>Going forward, in controlling risk, BNI will also evaluate IRRBB exposure by using an internal stress scenario to measure EVE and NII.</p>
5	There are no methodological differences or modelling assumptions in the framework of the calculations used in the internal management system. In other words, the Bank uses the Standardized Approach as a reference in the calculation of IRRBB as for internal management purposes.
6	The Bank currently has a hedging instrument in the form of an Interest Rate Swap (IRS) to offset potential losses if there is potential loss on AFS securities. The Bank also conducts daily MTM on the IRS instrument.
7	<ol style="list-style-type: none">For the EVE method, the Bank calculates all cash flows from the principal and interest payments which include the commercial margin (client rate) discounted by the risk free rate at the reporting date;

Qualitative Analysis

- b. Bank uses a portfolio replication model and/or uniform slotting method in determining the slotting and repricing maturities for NonMaturity Deposits (NMDs) by taking into account the caps and provisions for the average time period as stated in the IRRBB SEOJK.
- The bank has interest rate exposure from Non-Maturity Deposits (NMDs) positions that come from wholesale and retail customers. To manage this interest rate risk, BNI carries out a two-stage modeling in accordance with the terms of the SEOJK IRRBB. In the first stage, BNI analyzes the change in volume to determine the portion of NMD that is stable in the sense that it has a small possibility for customers to withdraw. In the second stage, BNI measures the proportion of core deposits from stable NMD that customers will not withdraw even if there is a large market interest change while the Bank does not adjust the intended NMD interest. The main dimensions affecting the maturity of core NMDs are deposit interest elasticity against changes in market interest rates.
- Volatility in deposit volumes and other factors including customer behaviour and macroeconomics. By taking into account the limitations of NMD modelling that apply to the Standardized Approach, the Bank determines the distribution and average maturity of repricing maturity by using a replicating portfolio approach and/or uniform slotting method, depending on the availability and reliability of data for each relevant NMD category, currently consists of wholesale NMD, transactional retail NMD and non-transactional retail NMD. Modelling parameters are based on historical observations, statistical analysis and management judgment.
- c. The Bank carries out risk modelling or estimation to determine the prepayment rate of fixed interest loans and early withdrawal rates for time deposits, if this risk is not adequately mitigated, for example by imposing a fine.
- In estimating prepayment rates, the Bank uses statistical methods based on historical data in analysing accelerated loan repayment rates. Some key dimensions that affect customer repayment rates include: market interest rates, lending rates, nominal loans, and several other factors.
- On the other hand, to estimate the early withdrawal rate, the Bank uses the Exponential Weighted Moving Average (EWMA) method. This model assumes that the results of tomorrow's projections are influenced by current and past data. Some main dimensions that affect the level of customer withdrawals include: deposit rates, nominal deposits and several other factors.
- d. There are no other assumptions used by BNI other than the assumptions set by the FSA Circular on IRRBB.
- e. BNI calculates the IRRBB for each material currency and then aggregates it. The aggregation methodology is done by simple addition.

Quantitative Analysis

- The average term for adjusting interest rates (repricing maturity) for Rupiah includes:
- Wholesale for 1.06 years
 - Transactional Retail for 3.30 years
 - Non-Transactional Retail for 1.56 years
- 1 The average time period for interest rate adjustment (repricing maturity) for USD includes:
- Wholesale for 0.96 years
 - Transactional Retail for 3.66 years
 - Non-Transactional Retail for 1.44 years
- The longest period of interest rate adjustment (repricing maturity) for Rupiah includes:
- Wholesale for a period of 5 years
 - Transactional Retail for a period of 5 years
 - Non-Transactional Retail for a period of 5 years
- 2 The longest period of repricing maturity for USD is:
- Wholesale for a period of 5 years
 - Transactional Retail for a period of 5 years
 - Non-Transactional Retail for a period of 5 years

Application of Risk Management for Interest Rate Risk in the Banking Book Consolidated with Subsidiaries

QUALITATIVE ANALYSIS

1	Interest Rate Risk in the Banking Book, hereinafter abbreviated as IRRBB, represents current and future risks against capital and profitability of the Bank and Subsidiary Companies due to the movement of interest rates in the market which affects the position of the Banking Book.
	Included in the IRRBB is the gap risk arising from the term structure of the banking book instruments; the risk basis that describes the impact of the relative changes in interest rates of financial instruments that are valued using different interest rate curves; option risk arising from financial derivative positions or from the element of option risk inherent in financial instruments.
2	BNI and its Subsidiaries manage IRRBB exposures using the economic value approach and earnings-based measures. As a segregation of duty application, there is a separation between the unit that manages interest rate risk and the unit that monitors interest rate risk that arises.
	For the purpose of controlling and mitigating interest rate risk in the banking book, BNI and its Subsidiaries set controls both quantitatively in the form of the application of limits and risk appetite. BNI and its Subsidiaries also carry out qualitative risk control such as management strategies, risk transfers through the Funds Transfer Pricing (FTP) mechanism and also a hedging strategy.
3	The IRRBB calculation is done quarterly which and then become part of the Risk Profile, Bank Soundness Self-Assessment, Quantitative Risk Exposure Information, and Disclosure of Risk Management Practices. In measuring the IRRBB exposure, BNI and its Subsidiaries use economic values and earnings as the basis for the measurement method.
	Measurement of the economic value of equity, hereinafter referred to as EVE, measures changes in the economic value of assets, liabilities and administrative accounts (off balance sheet) of the Bank and Subsidiaries due to movements in interest rates. For now, the Bank and Subsidiaries measure changes in EVE as the maximum reduction of the economic value of banking books in the six standard interest scenarios defined by the Basel Committee on Banking Supervision (BCBS) and OJK as stated in SEOJK IRRBB no SEOJK/12/2018.
	The measurement of bank earnings refers to the estimated changes in net interest income, hereinafter abbreviated as NII (net interest income) which is caused by the movement of interest rates in the market for a certain period. For this, the Bank and Subsidiaries measure the change in NII as a maximum decrease from NII if there is a scenario of an increase or decrease in interest rates in parallel as defined by the Basel Committee on Banking Supervision (BCBS) and SEOJK IRRBB no SEOJK/12/2018, compared to financial planning Bank and Subsidiaries for a period of 12 months.

QUALITATIVE ANALYSIS

4	In measuring EVE, BNI and its Subsidiaries use the standardized approach of SEOJK IRRBB no SEOJK/12/2018, where the interest rate shock scenario used includes: 1. parallel shock up; 2. parallel shock down; 3. steeperer shock, with a combination of short rates down and long rates up; 4. flattener shock, with a combination of short rates up and long rates down; 5. Short rates shock up; and 6. Short rates shock down.
	In measuring NII, the Bank and Subsidiaries use the standardized approach SEOJK IRRBB no SEOJK/12/2018, where the interest rate shock scenario used includes: 1. parallel shock up; 2. parallel shock down;
5	In the future, to control risk, BNI and its Subsidiaries will also evaluate IRRBB exposures by using internal stress scenarios to measure EVE and NII.
	There are no methodological differences or modeling assumptions in the framework of the calculations used in the internal management system. In other words, the Bank and Subsidiary Companies use the Standardized Approach as a reference in the calculation of IRRBB as for internal management purposes.
6	BNI currently has a hedging instrument in the form of an Interest Rate Swap (IRS) to offset potential losses that arise if there are potential losses on AFS securities. The Bank also conducts daily MTM on the IRS instrument.
	a. Regarding the EVE method, BNI and its Subsidiaries calculate all cash flows from the principal and interest payments which include the commercial margin (client rate) discounted by the risk free rate at the reporting date.
7	b. The Bank uses a portfolio replication model and/or uniform slotting method in determining the slotting and repricing maturities for NMDs by taking into account the caps and provisions for the average time period as stated in the IRRBB SEOJK.
	The Bank has interest rate exposure from Non-Maturity Deposits (NMDs) positions that come from wholesale and retail customers. To manage this interest rate risk, BNI carries out a two-stage modeling in accordance with the terms of the SEOJK IRRBB. In the first stage, BNI analyzes the change in volume to determine the portion of NMD that is stable in the sense that it has a small possibility for customers to withdraw. In the second stage, BNI measures the proportion of core deposits from stable NMD that customers will not withdraw even if there is a large market interest change while the Bank does not adjust the intended NMD interest.
c.	The main dimensions affecting the maturity of core NMDs are deposit interest elasticity against changes in market interest rates, volatility in deposit volumes and other factors including customer behaviour and macroeconomics.
	By taking into account the limitations of NMD modelling that apply to the Standardized Approach, the Bank determines the distribution and average maturity of repricing maturity by using a replicating portfolio approach and/or uniform slotting method, depending on the availability and reliability of data for each relevant NMD category, currently consists of wholesale NMD, transactional retail NMD and non-transactional retail NMD. Modelling parameters are based on historical observations, statistical analysis and management judgment.
d.	The Bank and Subsidiaries carry out risk modelling or estimation to determine the prepayment rate of fixed interest loans and early withdrawal rates for time deposits, if this risk is not adequately mitigated, for example by imposing a fine.
	In estimating prepayment rates, the Bank and Subsidiaries use statistical methods based on historical data in analysing accelerated loan repayment rates. Some key dimensions that affect customer repayment rates include: market interest rates, lending rates, nominal loans, and several other factors.
e.	On the other hand, to estimate the early withdrawal rate, the Bank and Subsidiaries use the Exponential Weighted Moving Average (EWMA) method. This model assumes that the results of tomorrow's projections are influenced by current and past data. Some main dimensions that affect the level of customer withdrawals include: deposit rates, nominal deposits and several other factors.
	There are no other assumptions used by BNI and Subsidiaries other than the assumptions set by the FSA Circular on IRRBB.
e.	BNI and subsidiaries calculate the IRRBB for each material currency and then aggregates it. The aggregation methodology is done by simple addition.

QUANTITATIVE ANALYSIS

1	The average term for adjusting interest rates (repricing maturity) for Rupiah includes:
	a. Wholesale for 1.47 years
	b. Transactional Retail for 2.39 years
1	The average time period for interest rate adjustment (repricing maturity) for USD includes:
	a. Wholesale for 1.59 years
	b. Transactional Retail for 1.81 years
2	The longest period of interest rate adjustment (repricing maturity) for Rupiah includes:
	a. Wholesale for a period of 5 years
	b. Transactional Retail for a period of 5 years
2	The longest period of repricing maturity for USD is:
	a. Wholesale for a period of 5 years
	b. Transactional Retail for a period of 5 years
	c. Non-Transactional Retail for 1.61 years
	c. Non-Transactional Retail for 1.34 years
	c. Non-Transactional Retail for a period of 5 years

Devices and Methods

To support business processes and in line with market risk management, BNI uses market risk management tools. The Bank also receives market data from Reuters, Bloomberg and other independent sources. Limits set to manage potential Market Risk losses in the Treasury Division and Overseas Branch Offices include the following:

1. Value at Risk Limit (VaR Limit), the maximum potential loss that might occur at a certain time in the future with a certain confidence level;
2. Stress Value at Risk Limit (Stress VaR Limit), a market risk measurement adjusted to abnormal conditions in the market or maximum potential losses when the market is abnormal;
3. Budget Loss Limit, to limit the realization of losses in business activities;
4. Management Action Trigger (MAT), a limitation to take action on the risk of changes in the value of the loss (early warning signal). MAT supplies the loss limit in the form of a certain percentage of the loss limit;
5. Purchase of securities limit, used to limit the concentration of corporate securities purchases based on rating and type of currency;
6. Asset and liability repricing gap Limit (Interest Rate Risk in Banking Book), to limit interest rate risk in the banking book;
7. Nominal open position limit, the maximum nominal open position that a dealer can hold;
8. Absolute PDN internal limit, the maximum PDN management limit.

Steps to strengthen market risk management to face changes in economic conditions throughout 2022 included closely monitoring movements in market factors with the potential to impact the Bank, including exchange rates, interest rates, stock prices and commodity prices. To determine the potential impact on the Bank, Scenario Analysis and Stress Testing is carried out periodically and incidentally. Periodic Stress Testing uses scenarios that refer to Regulatory provisions and the Bank's internal scenarios. Incidental Stress Testing and Scenario Analysis scenarios adjust to the conditions of macroeconomic factors and market factors at that time. Each Overseas Branch Office also conducts Stress Testing in accordance with internal regulations and local Regulatory provisions. The results of the stress testing are used to prepare a Contingency Plan so that the risks that occur can still be limited and managed properly.

LIQUIDITY RISK

Liquidity risk arises due to the inability to meet obligations due to cash flow funding sources and/ or high quality liquid assets.

Liquidity risk relates to the possibility of the Bank being unable to meet short-term obligations to depositors, investors and creditors, as well as to fulfill of minimum statutory reserves due to limited access to funding or inability to liquidate assets held at reasonable prices.

Liquidity risk management aims to minimize the possibility of the Bank's inability to obtain cash flow funding sources, and to build the strength of structural liquidity in the bank's balance sheet to support sustainable long-term growth.

Governance and Organization

Liquidity Risk Management is executed by the Enterprise Risk Management Division (RMD), Treasury Division (TRS), and Overseas Branch Offices. Liquidity Risk Policies and Procedures are prepared by the ERM Division, and implemented by the TRS Division and all Foreign Branch Offices for their liquidity strategies management. The RMD Division also monitors liquidity management carried out by the TRS Division.

Policies and Procedures

The RMD Division has a Liquidity Risk Policy including the Liquidity Risk Management Guidelines, which are further elaborated into the Liquidity Risk Management Procedures that contain liquidity risk management guidelines including:

1. Availability of Liquid Tools: Cash, Statutory Reserves (GWM), Secondary Reserve, Tertiary Reserve, Early Warning Indicators, Contingency Plans for Head Office and Overseas Branch Offices Liquidity;
2. Liquidity Risk Measurement: Liquidity Ratio Cash Flow Projections, Maturity Profiles, Liquidity Coverage Ratio, Stress testing;
3. Liquidity Risk Monitoring;
4. Liquidity Risk Control;
5. Liquidity Limit Assignment: BNI Wide Cash Limit, Ideal Secondary Reserve limit, Maturity Profile limit, Limit Safety Level, Maturity Profile Limit, and Foreign Currency Credit limit based on Foreign Currency liquidity availability.

Process

In managing liquidity, as well as managing primary reserves (cash and reserve requirements), BNI also maintains secondary reserves to ensure liquidity at a safe level. As a secondary reserve, BNI maintains a tertiary reserve. Limit assignment and surveillance through the BNI Wide Cash limit, the Ideal Secondary Reserve limit, the Maturity Profile limit, and the Foreign Currency Credit limit,), Safety Level limit, Maturity Profile Limit, based on the Availability of Funds conducted periodically by the ERM Division. Whereas the availability of the primary reserve is monitored daily, weekly and monthly by the TRS Division and the ERM Division.

Devices and Methods

For managing liquidity risk, BNI uses daily cash flow projections and monthly maturity profiles, either contractual or behavioral in order to determine appropriate and accurate strategies to anticipate future bank liquidity conditions.

Disclosure of the Bank's individual and consolidated Rupiah and Foreign Exchange Maturity Profile is shown in the following tables.

The maturity profile calculation is in accordance with the regulator's provisions and does not include the maturity profiles of subsidiaries engaged in insurance. One of the strengths of BNI risk monitoring process is the availability of information on the Bank's liquidity profile. This information is available in the LDAP Executive Information Management (EIS) application, which provides information on funds and loans development on a daily basis, so that daily cash flow profiles and monthly maturity profiles can be generated, and can be used as a system for monitoring and managing bank liquidity risk.

Early Warning Indicators

Early warning indicators are set out in the Secondary Reserve indicators as normal conditions, moderate conditions or tight conditions for both Rupiah and foreign currencies, including trends in the BI 7 Days Reverse Repo Rate, JIBOR, LIBOR, average interest rates of Competitors' Bank Deposits or Credit Default Swap (CDS) spreads that rise significantly according to specified limits, trends in foreign exchange reserves dropping significantly in accordance with established limits, trends in dominant customer funds that tend to decrease significantly based on the established limits. The ideal Safety Level assignment in moderate or tight conditions is considered if one of the conditions/ indicators or parameters is exceeded.

Assignments are conducted by the ERM Division based on the above indicators and data obtained from the TRS Division as a business unit. The assignments will apply a moderate or tight Liquidity Contingency Plan (LCP) of Ideal Safety Level. The indicators above are reviewed periodically according to the development of external and internal conditions in line with national, regional and global economic developments.

Liquidity Stress Testing

To determine the liquidity resilience in a crisis period, periodic liquidity stress testing is executed. Stress testing scenarios are performed by using specific bank scenarios in (Idiosyncratic Scenarios), and stress scenarios in the market (Market Wide Scenarios). Idiosyncratic Scenarios use the assumption that banks are in liquidity problems due to loss of investor/depositor confidence in the banks.

While the Market Wide Scenario uses an assumption that there is a disruption to the market/financial system as a whole that results in bank operations disruption.

The stress testing results of these scenario will be used to develop a liquidity funding plan so that risks can be limited and managed properly.

Liquidity Adequacy Ratio

To improve short-term liquidity resilience, the Bank manages its Liquidity Coverage Ratio (LCR) by maintaining adequate High Quality Liquid Assets (HQLA) to meet liquidity needs for the next 30 (thirty) days in a stress scenario that enable the Bank to maintain the liquidity adequacy ratio at more than 100% both individually (Bank only) or consolidated with subsidiaries.

Analysis of Liquidity Coverage Ratio Development for Bank Only

Qualitative Analysis

1	Individual LCR (Bank Only) December 2022 position was 219.01% above the required provisions of 100%.
2	LCR December 2022 compared to LCR November 2022 decreased by 8.53% from 227.54% to 219.01% caused by a decrease in HQLA of 7.00%. The decline in HQLA was dominated by a decrease in securities issued by the Central Government and Bank Indonesia in Rupiah and Foreign Currency by 16.01trillion.
3	The composition of HQLA as of December 2022 was still dominated by HQLA level 1 with 98.68%. Whereas HQLA level 2A was 1.25% and level 2B was 0.07%, still below the required HQLA maximum limit.
4	Outstanding sources of funding are dominated by individual funding with 39.92%, corporate funding with 49.56%, MSME customers with 10.23% and funding with collateral (secured funding) with 0.29%.
5	The average BNI derivative exposure during December 2022 was Net Long Rp203.33 AD
6	The average NOP of BNI during December 2022 was 1.89%.
7	Bank liquidity can be well guarded by fulfilling compliance with regulations and support for bank business activities.
8	There was no cash inflows and cash outflows of LCR calculations not covered in the LCR template, the Bank is considering entering cash inflows and cash outflows as it is relevant to the Bank's liquidity profile.

Analysis of Liquidity Coverage Ratio Development for Bank Consolidated with Subsidiaries

Qualitative Analysis

1	Consolidated LCR as at December 2022 was 223.44% above the required stipulation of 100%
2	Consolidated LCR as at December 2022 decreased by 8.99% compared to November 2022 from 232.43% to 223.44%, due to a decrease in HQLA of 18.85 trillion. The decrease in HQLA was mainly due to a decrease in securities issued by the central government and Bank Indonesia of 16.37 trillion.
3	HQLA composition as at December 2022 was still dominated by Level 1 HQLA with 98.72%, HQLA Level 2A with 1.22%, and Level 2B with 0.06%, still below the maximum required HQLA limit, namely a maximum of 40% for HQLA level 2 and a maximum of 15% for HQLA level 2B of the total HQLA.
4	Consolidated bank liquidity can be well maintained to comply with regulatory requirements and to support the Bank's business activities.

In addition, to determine long-term liquidity resilience, the Bank manages the Net Stable Funding Ratio (NSFR). The NSFR aims to reduce liquidity risk related to funding sources for a longer period of time by requiring Banks to fund their activities with adequate stable sources of funds in order to mitigate the risk of funding difficulties in the future. The Bank manages the NSFR ratio in accordance with the provisions of the Regulator, both individually (Bank only) and in consolidation with subsidiary companies, which is at least 100%.

33 Total RSF					433,676,959	
34 Net Stable Funding Ratio (%)					164,09%	

Qualitative Analysis of Net Stable Funding Ratio PT Bank Negara Indonesia (Persero) Tbk individual

Qualitative Analysis

1	The NSFR position as at December 2022 was 164.09%, still above the required condition of 100%.
2	The NSFR position as at December 2022 compared September 2022 increased from 124.17% to 164.09%. The increase in NSFR in December 2022 was due to an increase in Total Available Stable Funding (ASF), while Total Required Stable Funding (RSF) decreased. Total Stable Funding Available (ASF) increased by Rp95.03 trillion. For Total Required Stable Funding (RSF), there was a decrease of Rp62.92 trillion.
3	The increase in Total Available Stable Funding (ASF) was due to an increase in deposits from individual customers and funding from micro and small business customers of Rp82.86 trillion. In addition, there was an increase in funding from corporate customers of Rp6.52 trillion. While the decline in Total Required Stable Funding (RSF) was dominated by a decrease in Loans in the Current and Special Mention (Performing) categories.
4	There are liabilities that are dependent on certain assets of Rp2.54 trillion in the form of repo transactions.

34	Net Stable Funding Ratio (%)				165,72%

Qualitative Analysis of Net Stable Funding Ratio PT Bank Negara Indonesia (Persero) Tbk Consolidated with Subsidiaries

Qualitative Analysis

1	Consolidated NSFR as at December 2022 was 165.72% above the required 100%.
2	The consolidated NSFR as at December 2022 compared to the NSFR as at September 2022 increased from 125.59% to 165.72%. In December 2022, there was an increase of Rp95.63 trillion in Total Available Stable Funding (Total ASF), while Total Stable Funding Required (Total RSF) decreased by Rp63.22 trillion.
3	On the ASF side, the increase in Total Available Stable Funding was dominated by an increase in Deposits originating from individual customers and from micro and small business customers of Rp83.81 trillion. The decrease in Total Stable Funding Required was dominated by a decrease in Loans in the Current category and Under Special Mention (Performing) and Securities amounting to Rp58.30 trillion.

OPERATIONAL RISK

Operational risk occurs due to insufficient or malfunctioning internal processes, human error, system failure, or external interferences that affects the Bank’s operations. Operational Risk Occurrence includes risk events inherent in every business and operational process carried out by the Bank and can drive Reputation Risk, Legal Risk, Compliance Risk, and other Risks if not managed properly.

In tandem with the increasing diversity and complexity of products and banking activities offered to customers, rapid systems development and supporting technologies, as well as increasing customer expectations for services provided by the Bank, operational risk management is of paramount importance.

Governance and Organization

Operational risk management governance has been implemented by BNI with all domestic and overseas business and support units playing the role of Risk Owner or Risk Taker, as the first line of defense. They are supported by the second line of defense carried out by the Enterprise Risk Management Division, Compliance Division, and the Policy Governance Division as the Risk Control Unit, and the third line of defense, the Internal Audit as the Risk Assurance Unit. In addition, the existence of an Internal Control Communication Forum will increase the effectiveness of the line of defense and second line of defense communication, which will improve the quality of Risk Exposure identification.

Policies and Procedures

The Enterprise Risk Division has Guidelines for Operational Risk Management to support the operational risk management application in all domestic and overseas units, including:

- Domestic Operational Risk Management Policy;
- Operational Risk Management Policy for Overseas Branches.

These policies explain in more detail the Standard Operating Procedures as well as prudent technical transaction and operational guidelines to execute daily business activities including:

- Domestic Operational Risk Management Procedures;
- Operational Risk Self Assessment (SA) Procedures;
- Operational Risk Self Assessment Manual for Overseas Branches;
- Loss Event Database (LED) Procedures;
- Procedure for Key Risk Indicators (KRI) Implementation;
- Bookkeeping Operational Risk Expense Accounts (BRO) Guidelines

Process

BNI’s operational risk management comprises 5 (five) main sustainable processes: identification, assessment, measurement, surveillance and control.

1. Risk Identification

The operational risk identification mechanism is conducted by applying a Macro Process Mapping Assessment to each unit’s work processes/activities to capture potential operational risks by using an interview method (one on one meeting).

2. Risk Assessment

Is conducted by each unit risk owner through operational risk self assessment methods including assessing the impact, frequency, risk causes and control mechanisms.

3. Risk Measurement

To calculate the capital charge and RWA for operational risk, the Bank currently uses the Basic Indicator Approach (BIA) method in accordance with OJK Circular Letter No. 24/SEOJK.03/2016 concerning Calculation of RWA for operational risk using the Basic Indicator Approach (PID).

The following tables shows RWA capital charges and operational risk using the Basic Indicator Approach (BIA) method according to the OJK provisions, as mentioned above.

4. Risk Monitoring

Risk Monitoring is carried out by all units as the first line of defense against major risks for ongoing activities. The Enterprise Risk Management Division also conducts evaluations and reports/feedback on risk assessments based on the self-assessment results and the realization of operational risk losses incurred, including:

- Feedback report for all divisions/units/regions/branches;
- Monthly Report on Operational Risk Surveillance for the Board of Directors;
- Operational Risk Profile Report.

5. Risk Management

The operational risk mitigation mechanism is reflected in the internal control process by implementing 4 (four) mitigation strategies, namely avoid, reduce, transfer and receive, with the aim of minimizing losses due to malfunctioning internal processes, human factors, systems and technology, as well as external events. The four mitigation strategies are contained in the Operational Risk mitigation procedures and includes control procedures, transaction settlement, accounting, asset and custodian storage, product supply and fraud prevention.

Devices and Methods

To assist the operational risk management processs in all work units, BNI has developed a web-based Operational Risk Management tool called the New PERISKOP (Operational Risk Toolkit). New PERISKOP plays a very important

role, namely socializing Risk Culture and increasing Risk Awareness of the 4 (four) main processes in operational risk management, and using these tools in Risk Control Self Assessments (RCSA), Loss Event Database (LED) and Key Risk Indicators (KRI), and Business Continuity Management (BCM).

New Periskop

Self Risk Control Self Assessment (RCSA) Module	Risk Control Self Assessment (RCSA) is a series of activities carried out independently by each unit (risk owner) to identify any potential operational risks in the unit, look for causes, measure potential losses (impact and frequency) that may arise and find solutions to resolve them. A control assessment is carried out for risks that affects the Inherent Risk score. The RCSA results provide an overview of the potential risks faced by the unit for the next 6 (six) months based on historical data from the previous 6 (six) months.
Loss Event Database (LED) Module	A database of all financial losses including actual losses and near misses since the event occurred until completion due to operational risks that occurred in all Bank units. Loss data collected through the LED module, in addition to being used for better operational risk management and to prevent similar cases occurring, is also used as the basis for RWA operational risk calculation to calculate capital requirements to cover operational risk using the Revised Standardized Approach method, which will start to be implemented in 2023.
Key Risk Indicator (KRI) Module	Key Risk indicators are a measure to identify potential operational risk losses inherent in products and activities early and provide an early warning signal if they exceed a certain previously assigned threshold to monitor operational risk exposure and the Bank's control effectiveness.

BUSINESS CONTINUITY MANAGEMENT

Disruptions or disasters caused by natural factors, human actions, or system failures can occur in BNI's critical business functions, causing disruptions to BNI's business activities and services.

To anticipate such events, BNI has implemented Business Continuity Management (BCM) in all domestic and overseas units, which is expected to minimize operational risks in the event of an emergency or disaster.

The implementation of this policy is in line with the Regulator's regulations requiring banks to conduct risk control processes to manage risks that could endanger the banks' business continuity as well as in line with the Basel II documents requirements that requires banks to have business continuity management and contingency plans to ensure the banks' ability to continue operating and limit losses in the event of a disruption to its business activities. In addition to Regulator and Basel II regulations, for Overseas Branch Offices, BCM is implemented by complying with BCM regulations in the local country.

Governance and Organization

In disaster conditions, BNI has established a Crisis Management Team (CMT) and Emergency Task Force (ETF) comprising of Senior Executives/ Highest Management Units as the coordinator with the highest level of authority. The CMT will become active if the Executive Management Team (EMT) as the highest leader of the CMT declares a disaster/ emergency situation.

BNI has the infrastructure required to implement BCM in the Disaster Recovery Center (DRC), Dual Center (DC), Alternative Locations to the BCM Building and a Command Center, which are routinely managed for readiness.

Policies and Procedures

For Business Continuity Management (BCM), BNI has established:

1. Domestic Business Continuity Management (BCM) Policy;
2. Domestic Business Continuity Management (BCM) Procedures;
3. Business Continuity Management (BCM) Policy for Overseas Branches;
4. Business Continuity Management (BCM) Procedures;for Overseas Branches;
5. Crisis Management Protocol (CMP) Policy;
6. Business Continuity Management (BCM) Building Governance Procedures.

Process

Each step of the Recovery and Restoration Strategy is monitored and reported to the Crisis Management Team (CMT) until conditions are declared normal again. To ensure a level of readiness and evaluation of Business Continuity Management (BCM), BNI carries out system tests on critical divisions/units every 3 (three) months, and site visits and disaster management simulations for the BCM in all operational units, which are conducted routinely every year to ascertain the readiness level of each unit, in terms of organization and BCM infrastructure.

The routine evaluations and testing results can be seen in the systematic and directed handling to face disasters whether caused by humans, nature, or systems, so that BNI's operational activities at the disaster site remain operational to a certain degree even though some of the facilities and infrastructure supporting business activities may have been disrupted.

The process of implementing BCM is carried out as follows:

1. Formulating a BCM organizational structure in all BNI work units;
2. Assessing potential risks and threats to obtain an overview of disaster events that have the highest likelihood and greatest impact, as well as estimating the actions and facilities that must be prepared;
3. Identifying critical business processes (Business Impact Analysis – BIA) for BNI's business continuity in the event of an emergency/disaster. BIA is a reference for units to develop recovery priorities and strategies as well as recovery timeframes for their main business activities;
4. Preparing a plan for handling emergency conditions as a reference for units in the prevention and handling of emergencies, as well as a reference for implementing building security and safety standards;
5. Preparing a Recovery Strategy with the aim of preparing an organized way to make decisions in the event of an emergency that disrupts the Bank's business activities;
6. Preparing a Return Strategy with the aim of providing ways to return functions and activities to the service levels before a disaster occurs.

Developing these devices in line with Regulatory regulations requires the Bank to carry out a risk control process for managing risks that could endanger the Bank's business continuity, as well as being in line with the Basel II document requirements that requires Banks to have Business Continuity Management and Contingency Plans to ensure the Bank's can continue operating and limit losses in the event of disruption to its business activities. In addition to Regulatory and Basel II regulations, for Overseas Branch Offices, BCM is implemented by complying with BCM regulations in their respective country.

DIGITAL RISK MANAGEMENT

To support the growth of its digital products, BNI has implemented effective digital risk management through the process of identifying, assessing, measuring, monitoring and controlling the risk of digital products for 8 (eight) aspects of digital risk, namely cybersecurity risk, third party risk, process automation risk, data privacy risk, resilience risk, compliance risk, cloud related risk, and workforce risk.

The growth of digital products and innovation in information technology (IT) will have an impact on increasing cyber security risk threats. For this reason, BNI has specifically strengthened its cyber security risk management using standards for cyber security risk management, testing cyber security, and reporting on the cyber security risk management.

LEGAL RISK

Is the risk of lawsuits caused by weaknesses in the juridical aspect.

Governance and Organization

Legal risk management is carried out by the Legal Division under an active supervision of the Human Capital and Compliance Director. In conducting its legal risk management, the Legal Division works closely with the Legal Management Unit or staff handling legal functions in the Divisions/Units/Regional Offices or other organizational units where the Legal Field Work Unit functions as a 'legal watch', and provides analysis/ legal advice to organizational units and/or employees at all organizational levels to minimize the possibility of negative impacts from weaknesses in the legal aspects, absence and/or changes in legislation and litigation processes. For legal risk management, the Legal Division works closely with the Enterprise Risk Management Management Division to regularly assess and monitor the Legal Risk Management implementation.

Policies and Procedures

Legal risk management implementation refers to the Company's Guidelines for Legal Risk Management and other policies relating to legal risk management.

To establish an appropriate Legal Risk Management policy, the Legal Division and the Enterprise Risk Management Division conduct periodic evaluations, and update legal risk control policies and procedures periodically, in accordance with the prevailing laws and regulations.

Process

To carry out its Legal Risk control function, BNI has instigated a legal risk management policy through the following process flow:

1. Identifying legal risks regularly and continuously.
The process of legal risk identification is conducted by analyzing all sources of legal risk, and are carried at least against the legal risks of BNI's products and business activities, as well as the legal risks of new products and activities through a legal risk management control process before being introduced or carried out;
2. Executing Legal Risk measurements by using a comparative parameter between the case value being faced against BNI's capital, indicators of litigation factors, engagement weakness factors and factors of absence or changes in legislation in Legal Risks identification. Legal Risk measurement results are reflected in the Legal Risk Profile;
3. Legal Risk monitoring by evaluating inherent legal risk exposures especially those that are material or have an impact on BNI's capital. The surveillance results, including legal risk exposures evaluations are compiled in the Legal Risk Management Information System (Legal Risk SIM) that produces periodic legal risk exposure reports (monthly, quarterly and annually) including any necessary follow-up;
4. The Legal Risk control process is mainly used for activities that could endanger BNI's business continuity. Legal Risk control process, and is carried out by:
 - a. Conducting assessments in the form of juridical studies in the event there are new products and/or new activities or there are additions/changes to the BNI product features;
 - b. Providing legal advice and/or legal assistance in the event there is a Legal Risk in the operational activities;
 - c. Conducting periodic reviews of the standard agreement format, especially the loan agreement, to ensure compliance with the laws and regulations and other applicable provisions;
 - d. Conducting periodic reviews of contracts and agreements between BNI and other parties, by reassessing the effectiveness of the enforcement process to check the validity of rights in existing contracts and agreements, especially for non- standard agreements or agreements that have not been standardized in the BNI Company Guidelines;

- e. Conducting intensive monitoring of legal issues, especially lawsuits on the basis of Acts Against the Law involving the Bank as a Defendant or Co- defendant.

STRATEGIC RISK

Strategic risk is caused by the incorrect establishment and implementation of the Bank's strategy, incorrect business decision making or the Bank is not responsive to external changes.

Governance and Organization

Strategic Risk Management is carried out by the Corporate Development & Transformation Division, under the active supervision of the President Director and the Corporate Planning & Accounting Division under the active supervision of the Finance Director.

Strategic Risk Management is carried out through a series of strategic planning processes in the form of planning and budgeting including aligning corporate strategy with unit strategies and cascading bank wide targets into unit targets as outlined in the planning document.

Strategic planning documents include:

1. Corporate Plan, compiled once every 5 (five) years;
2. Bank Business Plan (RBB), compiled once a year;
3. Business Plan, compiled once a year.

The mechanism for preparing strategic planning documents begins with preparing a Corporate Plan as a reference for setting targets and strategies that will be used as a guide in preparing the Bank's Business Plan.

The Board of Directors' General Policy and the Bank's Business Plan will also be a reference for the Operational Planning preparation, as outlined in the Business Plan for Divisions, Regions and Branches/Centers. Regiona Business Plans will be a reference for the preparation of Branch/Center Business Plans. This mechanism will ensure that the strategy alignment process is maintained starting from the corporate level to the lowest unit (branch).I

The Corporate Plan documents must be reviewed annually to adjust to business environment changes.

The Bank's Business Plan Documents and Business Plan Units are reviewed in Semester I, or even in a shorter time period if there are significant environmental changes.

Policies and Procedures

Strategic risk management refers to the Strategic Risk Management Guidelines, Policies and Procedures including Procedures for Product Development and New Activities.

Process

For the Strategic Risk control function, BNI has instigated a strategic risk management policy with the following process flows:

1. Identifying Strategic Risk regularly and continuously.
The process of identifying strategic risk is carried out by identifying strategic risk factors inherent in every functional activity that has a potential to harm BNI, for example due to inappropriate policies, lack of responsiveness towards changes that occur, implementation of policies that are not according to plan, or not being implemented in accordance with a predetermined schedule;
2. Conducting Strategic Risk measurements using 4 (four) parameters: suitability with business environment conditions strategy; high risk and low risk strategy; the Bank's business position towards competitors; and achieving the Bank's Business Plan (RBB). The detailed strategic risk profile assessment is outlined in the strategic risk profile report based on the BNI Risk Profile Assessment Policies and Procedures;
3. Monitoring Strategic Risk by observing the experience of past losses caused by strategic risk and/or deviations in the application of the strategic plan.

For the bank wide scope, BNI has established a working unit that analyzes and monitors realization vs. targets in the Corporate Development & Transformation Division for the strategy and Budgeting, and in the Corporate Planning & Accounting Division for financial targets.

For the Divisions/Units, the supporting units and/or other units are appointed to analyze and monitor the realization vs. the target implementation of the Division/Unit strategies periodically.

The mechanism to monitor the achievement of a predetermined business plan is carried out by comparing the following targets to business realization:

- a. Bankwide performance and strategy monitoring, conducted monthly;
- b. Division performance monitoring, conducted is on a quarterly basis;
- c. TheCompanyandallunitsperformancemonitoring is carried out every semester through the Business Meeting forum at the Head Office and Regional Offices.

4. The Strategic Risk control process is carried out by comparing actual results with expected results to ensure that the risks taken are still within tolerance limits, and reporting significant deviations to the Board of Directors. The risk control system is approved and regularly reviewed by the Board of Directors to ensure its suitability on an ongoing basis.

The strategic risk control mechanism is executed on the monitoring results using the following factors:

- a. Achievement of BNI's performance compared to the proportional targets and the current year target monthly in the Board of Directors' meeting (Radisi), who can take strategic actions to manage strategic risk;
- b. Business Plan Realization Strategies for each Division/Unit so that problems can be identified in the application of strategies and work programs, to be immediately corrected so that the financial targets set can be achieved quarterly;
- c. Realization vs. target of the Bank's Business Plan is reported to the Financial Services Authority (OJK) on a quarterly basis;
- d. The Company and all units performance achievements are conducted semi-annually through the Business Meeting forum at the Head Office and Regional Offices.

The Board of Directors regularly monitors the strategies and target achievements in the Bank's Business Plan (RBB). If any are not on target, the Board of Directors requests the relevant unit to instigate improvements.

COMPLIANCE RISK

A risk caused by the Bank not complying with or not implementing the laws and regulations and other applicable provisions. Compliance risk management is carried out through the consistent application of an internal control system.

Governance and Organization

Compliance Risk Management is carried out by the Compliance Division (KPN), under the active supervision of the Managing Director Human Capital and Compliance. Anti-fraud management is carried out in collaboration with the Anti-Fraud Unit (AFR), under the active supervision of the Human Capital & Compliance Director. The whistleblowing system management is carried out in collaboration with the Internal Audit (IAD) under the active supervision of the President Director.

Policies and Procedures

Compliance Risk Management refers to the Compliance Risk Management Guidelines and other related Policies and Procedures including Compliance Policies, Anti- Fraud Policies, Anti-Money Laundering and Prevention of Terrorism Financing Procedures, Compliance Charter, Conflict of Interest Policies, Gratuity Control Program Policies, and Whistleblowing System Policies.

Process

To contribute to a healthy and sustainable growth of in BNI's business, the Compliance Division assists the Human Capital and Compliance Director in implementing the compliance function and conducts compliance of the risk management processes including Compliance Risk Management, through:

1. Compliance risk Identification is carried out to recognize all types of inherent risks in all functional activities that have the potential to harm BNI, including factors that can increase compliance risk exposure such as:
 - a. The type and complexity of BNI's business activities, including new products and activities;
 - b. The amount (volume) and materiality of BNI's non- compliance with internal policies and procedures, provisions and/or regulations as well as sound business ethics and practices.
2. Compliance Risk Measurement is conducted by using indicators/parameters in the form of:
 - a. The type and significance of violations committed;
 - b. Frequency of violations of regulations (BNI compliance track record);
 - c. Violations of certain financial transaction provisions.

As part of compliance risk measurement, indicators/parameters as well as the weighting and ratios used to measure compliance risk profiles are determined by the Compliance Division by considering input from the Board of Directors, Enterprise Risk Management Division (ERM) and other Units as well as the regulator's provisions.

Compliance risk profile assessment details are outlined in the compliance risk profile report based on the BNI Risk Profile Assessment Procedure. Compliance Risk Assessment is carried out by conducting compliance assessments or testing with policies that will be/have been applied, new products/activities, with compliance opinions on transactions to be carried out by BNI.

3. Compliance Risk Monitoring and Compliance Risk reporting is carried out by the Board of Directors at any time whenever a Compliance Risk occurs or periodically on the:
 - a. Maximum Lending Limit;
 - b. Net Open Position;
 - c. Minimum Mandatory Giro in rupiah and foreign exchange;
 - d. Establishment of Allowance for Productive Assets;
 - e. Non-performing loans;
 - f. Minimum Capital Adequacy Ratio;
 - g. Reporting obligations to external parties;
 - h. Implementation of Bank commitments to external parties;
 - i. Compliance Risk Level;
 - j. Bank Composite Risk Rating.
4. Compliance Risk Control is carried out by taking ex- ante (preventive) actions to ensure policies, regulations, systems and procedures, as well as business activities carried out by BNI are in accordance with OJK and Bank Indonesia (BI) provisions and the prevailing laws and regulations, to ensure BNI's compliance with commitments made by the Bank to Regulators (OJK and BI) and/or other authorized supervisory authorities. Compliance Risk Control is carried out on existing domestic and overseas organizational units. BNI must ensure that it has an adequate level of compliance with statutory regulations in the domestic BNI branch offices.

REPUTATION RISK

Reputation risk is a risk caused by negative publications related to the Bank's business activities or negative perceptions of the Bank.

Governance and Organization

Reputation risk management is carried out by the Corporate Secretary Division (CSE) under the active supervision of the Institutional Banking Director. Monitoring news management and communication crisis management and monitoring opinions/ comments in the news media or social media is carried out by the Corporate Secretary Division. The management of customer complaints is carried out in collaboration with the BNI Contact Center (BCC).

Policies and Procedures

Reputation risk management refers to the Reputation Risk Management Guidelines and other related Policies and Procedures.

Process

The Corporate Secretary Division assists the Institutional Banking Director in carrying out the reputation risk management functions and processes including the following:

1. Reputation Risk identification is carried out using several data/or information sources including mass media reporting, BNI's website and analysis of social media networks, customer complaints through customer service or through mass media and social media, and customer satisfaction survey questionnaires.

BNI must record and administer every event related to Reputation Risk, including the amount of potential losses caused by the incident referred to in its data administration. Recording and administering data is arranged in a statistical manner so it can be used to project potential losses in a certain period and activity. Each data and/or information group is handled differently according to the impact of reputational risk it causes.

2. Measurement of Reputation Risk, carried out by using the following indicators:
 - a. Frequency, Materiality and Negative News Exposure on BNI..
Frequency, type of media, and materiality of negative reporting on BNI, including the Bank management, by determining the following measurements and indicators:
 - i) Frequency and scale of negative coverage on BNI and Subsidiaries in print and online media;
 - ii) Materialization of negative coverage assessed based on BNI's follow-up in response to negative coverage.
 - b. For Customer Complaints' frequency and materiality, the measurements and indicators are:
 - i) Frequency of customer complaints;
 - ii) Settlement of Customer Complaints;
 - iii) Materiality of customer complaints.
 - c. Frequency and materiality of Business Ethics Violations/generally accepted business norms, measurements and indicators, including:
 - i) Frequency and scale of negative reporting related to Financial Information Transparency;
 - ii) Frequency and scale of negative reporting related to BNI business cooperation with other stakeholders.
3. Reputation Risk Monitoring, on a bank wide basis, is conducted by the Corporate Secretary Division (CSE), by reporting existing Reputation Risks to the Board of Directors at the incident time of the incident and periodically, and includes the necessary follow-up actions.

Monitoring of news management and communications crisis management, monitoring of opinions/comments on news media or social media, as well as the selection of strategies to respond to opinions emerging in social media are executed in coordination with the Corporate Secretary Division (CSE). Customer complaints are conducted in collaboration with the BNI Contact Center (BCC).

Daily, weekly, monthly, quarterly and yearly evaluation for BNI's reputational risks, set forth in the Media Monitoring Report.

4. Reputation Risk Control
BNI immediately follows up and resolves customer complaints and lawsuits that can increase Reputation Risk exposure, and has also developed mechanisms to execute effective reputation risk control measures.

Generally, reputation risk management is conducted 2 (two) ways, namely:

- a. To prevent events driving a reputation risk;
- b. To restore BNI's reputation post to an event creating reputation risk.

Mitigation of Reputation Risk and events creating Reputation Risk are executed by considering the materiality of the problem and the costs. Nevertheless, the Reputation Risk may be accepted as long as it is still in accordance with the Risk level taken.

Risk control efforts include:

5. Standardizing public relations/media relations staff competence in the Corporate Secretary Division, branch offices/regional offices in gain the ability and sensitivity to respond to developing issues and opinions.
6. Establishing a Service Level Agreement (SLA) as a standard for responding to customer complaints. Reputation Risk Management during crises is conducted through established Crisis Contingency Plan standards that are applied when crises occur from a mild to severe scale. The Crisis Contingency Plan consists of:
 - a. Problems or chronological review;
 - b. Information flow;
 - c. Person in charge assignment;
 - d. Authority and spokesperson establishment;
 - e. Crisis management activities schedule;
 - f. Alternative communication strategies;
 - g. Evaluation.

INTEGRATED RISK MANAGEMENT IN BNI'S FINANCIAL CONGLOMERATE

BNI'S BUSINESS GROUP STRUCTURE

BNI Legal Entity

Based on the share ownership composition, 60% of the shares are owned by the Government of the Republic of Indonesia whilst the remaining 40% are owned by the public, both individual, institutional, domestic and foreign shareholders. Ownership by the Government of the Republic of Indonesia is represented by the Ministry of SOEs, while for foreign public ownership through foreign institutions. Domestic ownership includes mutual funds, pension funds, foundations, companies, insurance, other domestic institutions and individual ownership.

Ultimate Shareholders

The majority ownership of BNI shares is with the Ministry of SOE as a representation of the Government of the Republic of Indonesia in the General Meeting of Shareholders with 60% ownership.

Sister Company

Based on POJK No. 17/POJK.03/2014 dated November 18, 2014 articles 4, 5 and 6 states that sister companies are Financial Services Institutions (FSI) that are institutionally separated and/or legally but are owned and/or controlled by the same controlling shareholder.

BNI's majority controlling shareholder is the Government of the Republic of Indonesia who also acts as the majority owner of other SOE companies engaged in the Financial Services Institution industry. However, based on POJK, the relationship between the FSI owned and controlled directly by the Central Government of the Republic of Indonesia are excluded from the notion of a Financial Conglomerate, so that Himbara banks are not sister companies of BNI.

Subsidiaries

BNI has placements in 6 (six) subsidiary companies with majority ownership and as the controlling entity, and 6 (six) financial services institutions with minority ownership and not as the controlling entity and 2 (two) subsidiary companies. The BNI group and business groups can be found in the Company Profile chapter in this annual report.

In accordance with POJK No. 17/POJK.03/2014 concerning Integrated Risk Management for Financial Conglomerates (FC), Financial Services Institutions (FSI) included in the FC include FSI banks, insurance and reinsurance companies, securities companies and/or financing companies, including the subsidiary of a subsidiary company.

The BNI Financial Conglomerate structure is determined based on the suitability of the Subsidiary's business types with the OJK provisions and the significance of inclusion for each of the FSI Subsidiaries in BNI's FC.

BNI's Financial Conglomerate Structure comprises:

1. Main Entity: PT Bank Negara Indonesia (Persero) Tbk.
2. FSI members of the Financial Conglomerate:
 - a. PT BNI Multifinance;
 - b. PT BNI Sekuritas;
 - c. PT BNI Life Insurance;
 - d. PT BNI Asset Management;
 - e. BNI Securities Pte Ltd;
 - f. PT Bank Mayora.

As of December 31, 2021, BNI's share ownership in each FSI member of BNI FC, was:

1. BNI Multifinance 99.99%;
2. BNI Sekuritas 75.00%;
3. BNI Life 60.00%;
4. BNI Asset Management 99.90%.
5. BNI Securities Pte Ltd 100.00%;
6. Bank Mayora 63.92%;

The following shows the BNI Financial Conglomerate Structure:

Note

*In 2022, BNI officially acquired Bank Mayora as a new subsidiary of the Bank

TRANSACTIONS BETWEEN THE BANK WITH RELATED PARTIES WITHIN BNI'S FINANCIAL CONGLOMERATE

Financial Relations

To assess material financial relationships in the intra-group relationship between FSI in BNI FC, based on the value of BNI's financial transactions with FSI members of BNI FC as well as amongst FSI members in BNI FC, including transactions: investments, bank guarantees, loans, securities, and demand deposits. The contribution of intra- group transaction value between FSI to total transactions is as follows:

Table of Interrelationships of FSI Financial Transactions within the BNI FC

Entity	BNI	BNIMF	BNIL	BNIS	BNIAM	Bank Mayora	BSPL
BNI		0.12%		46.44%	0.48%	0.09%	0.03%
BNIMF	1.26%					0.10%	
BNIL	1.38%	0.09%		0.01%	0.00%		
BNIS	5.13		0.77%				
BNIAM	13.89%		14.33%	8.00%			
Bank Mayora	7.72%	0.01%					
BSPL				0.16%			

Equity Capital

Based on POJK No. 36/POJK.03/2017 dated July 12, 2017 concerning Prudential Principles in Equity Participation Activities, Equity Participation is bank funds investment in the form of shares in companies engaged in finance, including investment in mandatory convertible bonds or certain types of transactions that result in the Bank owning or will own shares in a company engaged in finance.

The Value of Equity Participation between FSI in the BNI Financial Conglomerate as of December 31, 2022 is as follows:

Table of Interrelationships of FSI Financial Transactions within the BNI FC

Company	Date	%	NOMINAL
PT BNI MULTIFINANCE	April 8, 1983	99.9939%	298,413.99

INTEGRATED RISK MANAGEMENT IMPLEMENTATION

BNI's Financial Conglomerate needs to pay attention to all inherent risks in the Financial Conglomerate that can affect the business continuity.

1. Financial Conglomerate Risk Types include

In implementing Integrated Risk Management, BNI as the Main Entity and all FSI members of the BNI's Financial Conglomerate are required to manage 10 (ten) Risk types, namely:

- Credit Risk**
Risk due to the debtor and/or other parties' failure to fulfill obligations to the Financial Conglomerate.
- Market Risk**
Risk arising from adverse movement in market variables from the portfolio held by the Financial Conglomerate.
- Liquidity Risk**
Risk arising due to the inability of the Financial Conglomerate to meet obligations due from cash flow funding sources and/or from high quality liquid assets pledged, without disrupting the financial activities and conditions of the Financial Conglomerate.
- Operational Risk**
Risk resulting from inadequate and/or malfunctioning internal processes, human error, system failures, and/or external events affecting the Financial Conglomerate operations.
- Legal Risk**
Risk due to lawsuits and/or weaknesses in juridical aspects. The weaknesses in the juridical aspects are due to the lack of knowledge/understanding of laws and/or laws and regulations, the absence of supporting legislation, or agreement weaknesses such as non-fulfillment of conditions for the validity of agreements and binding of imperfect collateral.

- f. Strategic Risk
Risk arising due to inaccuracy in making and/or implementing strategic decisions and failure to anticipate changes in the business environment.
- g. Compliance Risk
Risk arising due to not complying with and/or not implementing the provisions and regulations.
- h. Reputation Risk
Risk arising due to stakeholder's declining confidence due to negative perceptions both for the Financial Services Institution in the Financial Conglomerate and for the Financial Conglomerate as a whole.
- i. Intra-Group Transaction Risk
Risk arising due to dependency of an entity directly or indirectly by other entities in a Financial Conglomerate to fulfil obligations of a written or unwritten agreements, followed by a fund transfer or not a fund transfer.
- j. Insurance Risk
Risk arising due to insurance companies' failure to meet obligations to policyholders as a result of an inadequacy in the risk selection process (underwriting), determination of premiums (pricing), the use of reinsurance, and/or claim handling.

2. BNI Financial Conglomerate's Potential Losses

To ascertain the potential losses faced by the BNI Financial Conglomerate, an Integrated Risk Profile assessment was carried out. Based on the Integrated Risk Profile Self-Assessment results of 10 types of Risk position as at the December 31, 2020 position, BNI's Financial Conglomerate risk rating was 2 (Low to Moderate) meaning that the possibility of loss faced by the Financial Conglomerate as a whole was classified as low for a certain period of time in the future. The quality of the Risk Management as a composite is adequate, even though there are minor weaknesses that need attention from management but these weaknesses can be resolved in normal business activities.

3. Risk Mitigation

BNI as the Main Entity conducts integrated risk control, especially risks that could endanger the business continuity of the Financial Conglomerate.

Integrated Risk control methods are conducted by:

- a. Risk limits Setting, namely:
 - i) Overall Risk Limit (integrated limit for the BNI Financial Conglomerate);
 - ii) Limits for each risk type;
 - iii) Risk Limit for each FSI member in the BNI Financial Conglomerate with risk exposure.
- b. Approval or escalation mechanism in case of exceeding the Risk Limit as a whole.
- c. Feedback/corrective action mechanism for the results of monitoring the Integrated Risk Profile.

Awards

COMMITMENT TO SUSTAINABLE CORPORATE GOVERNANCE IMPLEMENTATION

PT Bank Negara Indonesia Tbk (BNI) continuously strengthens its commitment to implement and uphold the GCG principles in a consistent and sustainable manner in its day-to-day business activities, to comply with all prevailing laws and regulations, and to continuously improve towards best practices that in line with BNI's goals, vision, and mission to grow in a healthy, sustainable manner and create added value for the Bank's Shareholders and other stakeholders.

BNI considers GCG as an important foundation to establish a long-term business growth through strengthening the GCG structure and mechanisms yet implementing BNI's cultural values, which are

Trustworthy, Competent, Harmonious, Loyal, Adaptive, and Collaborative (AKHLAK).

The commitment to consistently and continuously implementing GCG are also reflected in the annual signing of Integrity Pacts and a Gratification and Anti-Bribery Declaration through the DigiHC application, a human capital communication and information platform accessible via mobile phones, tablets, and other similar devices.

The purpose of this program is to emphasize to BNI employees the importance of values in this commitment. Therefore, every BNI employee at every level must understand and deliver on the Governance commitments.

BOARD OF COMMISSIONERS' COMMITMENT

1. Perform duties and work properly and responsible in accordance with the authority granted by the Articles of Association of PT Bank Negara Indonesia (Persero) Tbk (hereinafter referred to as BNI), and comply BNI's Core Values (AKHLAK), Principle 46, BNI Code of Conduct, BNI's internal provisions, applicable laws and regulations as well as the principles of Good Corporate Governance, and bank management principles;
2. Establish a working environment free of corruption, collusion, and nepotism by encouraging and supervising the implementation of the Anti-Bribery Management System and/or Gratification Control, which includes policies, strategies, evaluations, and the sufficiency of HC in SMAP operations;
3. Act objectively, upholding ethical and moral values, fairness, transparency, consistency, and honesty and commitment, and encouraging all working partners to promote ethical, healthy, and transparent business practices;

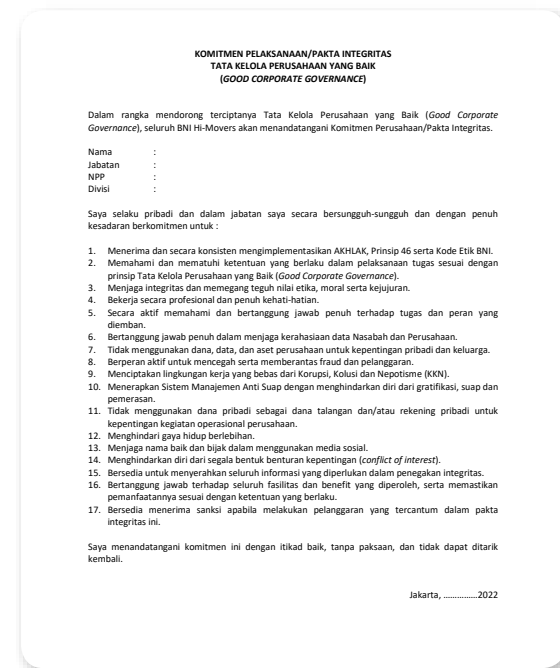

- Avoid all forms of conflict of interest when performing duties, and do not adversely affect the independence of other BNI personnel;
- Play an active role in preventing the possibility of fraud by not committing or tolerating all forms of fraud within the work environment, and be willing to report anything suspected of fraud (occurring within the environment and/or using BNI facilities) through the reporting media in BNI; and
- Being willing to be subject to sanctions if when carrying out their duties and responsibilities as a BNI employee it is proven that they have not carried out the commitments as mentioned above.

BOARD OF DIRECTORS' COMMITMENT

- Carry out duties and work properly and responsibly in accordance with the authority granted by the Articles of Association of PT Bank Negara Indonesia (Persero) Tbk (hereinafter referred to as BNI), and follow BNI's Core Values (AKHLAK), Principle 46, BNI Code of Conduct, BNI's internal provisions, applicable laws and regulations as well as the principles of Good Corporate Governance, and sound bank management principles;
- Create a work environment free from corruption, collusion, nepotism (KKN), by encouraging and supervising the implementation of the Anti-Bribery Management System and/or Gratification Control including the policies, strategies, evaluations and adequacy of HC in SMAP operations, and/or Gratification Control through activities including but not limited to not giving, promising, and/or receiving rewards in any form to or from customers, debtors, vendors, partners, work partners, regulators/supervisors, and/or other parties, both external and internal;
- Act objectively and uphold ethical and moral values, fairness, transparency, consistency and uphold honesty and commitment and always encourage all working partners to promote ethical, healthy and transparent business practices;
- Avoid all forms of conflicts of interest when carrying out duties, and not affect the independence of other BNI personnel;
- Do not use company information and data for personal or other parties' gains where this is prohibited based on internal and external provisions, such as insider trading, misuse of company data etc.;
- Make prudent (duty of care and loyalty) and professional decisions within BNI's operational activities, including procurement of goods and services, HC management, provision of funds, and management of other business activities for the benefit of BNI;
- Play an active role in preventing the possibility of fraud by not committing or tolerating all forms of fraud within the work environment, and be willing to report anything suspected of fraud (occurring within the environment and/or using BNI facilities) through the reporting media in BNI; and
- Being willing to be subject to sanctions if when carrying out their duties and responsibilities as a BNI employee it is proven that they have not carried out the commitments as mentioned above.

BNI HI-MOVERS' COMMITMENT

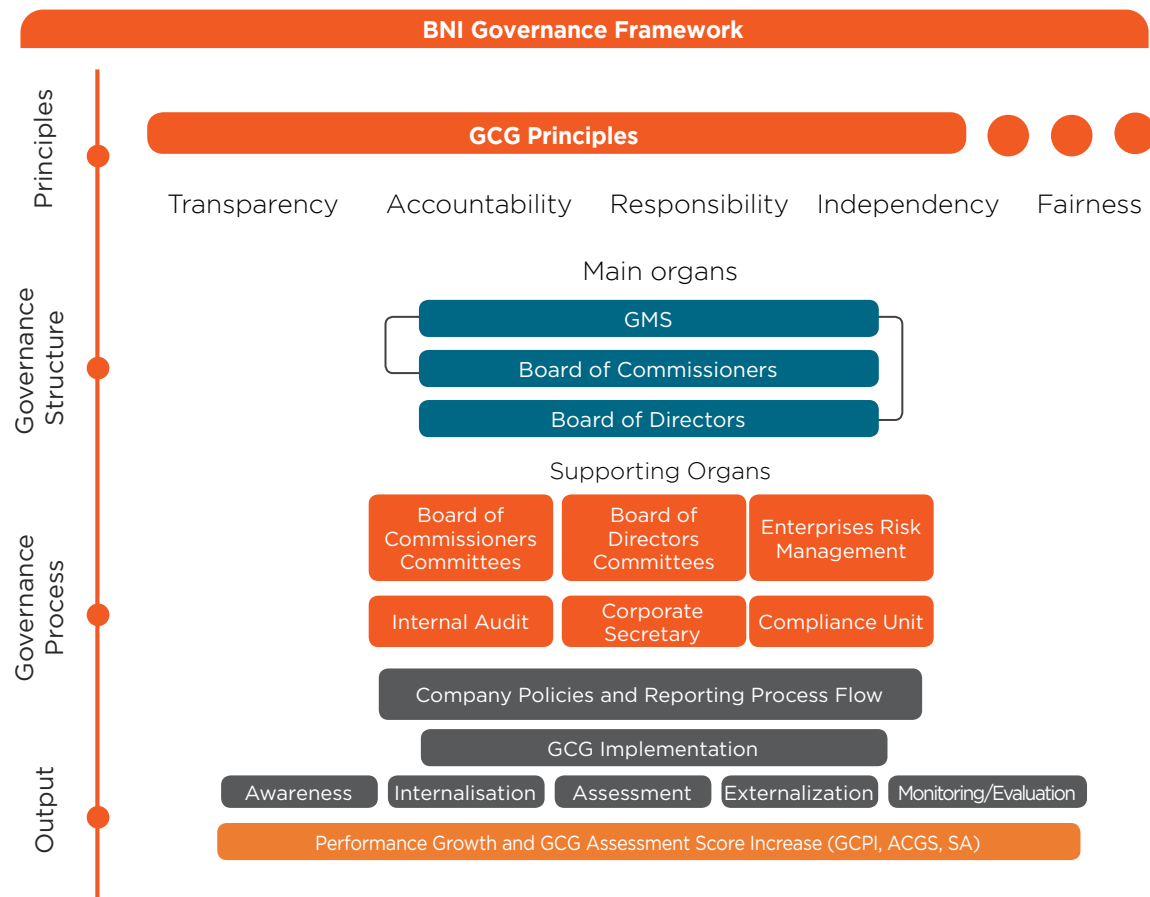

- Accept and consistently implement AKHLAK, Principle 46 and the BNI Code of Ethics;
- Understand and comply with the applicable provisions when carrying out duties in accordance with the Good Corporate Governance principles;
- Maintain integrity and uphold ethical, moral and honest values;
- Work professionally and carefully;
- Actively understand and take full responsibility for the duties and roles;
- Take full responsibility for maintaining the confidentiality of customer and company data;
- Do not use company funds, data and assets for personal and family interests;
- Play an active role in preventing and eradicating fraud and violations;
- Create a work environment free from Corruption, Collusion and Nepotism (KKN);
- Implement an Anti-Bribery Management System by avoiding gratuities, bribes and extortion;
- Do not use personal funds as bailout funds and/or personal accounts for the benefit of the company's operational activities;
- Avoid an excessive lifestyle;
- Maintain a good name and be wise when using social media;
- Avoid all forms of conflict of interest;
- Be willing to submit all information needed to uphold integrity;
- Be responsible for all facilities and benefits obtained, and ensure their use is in accordance with applicable regulations; and
- Be willing to accept sanctions when committing violations listed in this integrity pact.

All levels of BNI's Board of Commissioners, Board of Directors and Employees have signed a Implementation Commitment/Good Corporate Governance Integrity Pact.

GOVERNANCE FRAMEWORK

GCG implementation at BNI refers to the Governance Framework, which is structured through 4 pillars, namely Governance Principles, Governance Structure, Governance Process, and Governance Outcome.

The Governance Structure relates to the adequacy of the Governance Structure and Infrastructure wherein the process of implementing the Good Governance principles produces outcomes that are in line with stakeholder expectations.

The Corporate Governance Structure includes the Board of Commissioners, Board of Directors, Committees and Company Work Units. The governance infrastructure includes policies and procedures, management information systems and the main duties and functions of each level of the organizational structure.

Governance Process is the efficiency of implementing good governance principles, which is supported by the adequacy of the Corporate Governance structure and infrastructure in order

to produce outcomes that meet the expectations of all stakeholders. The resulting Governance Outcome that meets stakeholder expectations is achieved through the process of implementing the Good Governance principles, supported by adequate Governance structures and infrastructure. The Governance Outcome is the final result of the Governance Structure, and it receives adequate support from the Governance Structure. Any flaws in the Governance Structure can lead to weaknesses in the Governance Process.

All BNI Hi-Movers, from management to all employees, are committed to building a sound banking system so that it can grow stronger and sustainably into the future.

GOAL OF CORPORATE GOVERNANCE IMPLEMENTATION

GCG implementation within BNI aims to:

1. Increase BNI's corporate value by implementing the GCG principles of Transparency, Accountability, Responsibility, Independence, and Fairness in its business, so that BNI has a strong national and regional competitiveness and achieves sustainable corporate value;
2. Encourage all BNI organs to always emphasize the GCG culture in all decision making based on applicable values and norms as well as a high level of compliance with prevailing laws and regulations;
3. Improve BNI's performance through corporate efficiency programs created by the implementation of the GCG culture in every BNI organ;
4. Increase investor confidence and place BNI as the first choice for investment.

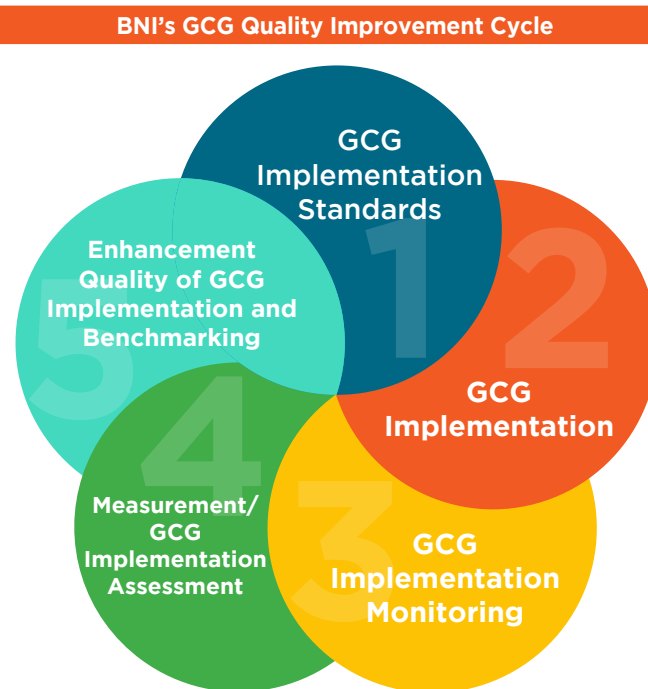

FOUNDATION FOR CORPORATE GOVERNANCE IMPLEMENTATION

GCG implementation at BNI is based on the following provisions and guidelines:

- 1992 Law No. 7 concerning Banking as amended by 1998 Law No. 10;
- 1995 Law No. 8 concerning Capital Markets;
- 2007 Law No. 40 concerning Limited Liability Companies;
- 2022 Law No. 27 concerning Protection of Personal Data;
- Minister of State-Owned Enterprises (SOEs) Regulation No. PER-01/MBU/2011 concerning Good Corporate Governance Implementation in SOEs as amended by the Regulation of the Minister of State for SOEs No. PER-09/MBU/2012;
- Minister of SOEs Regulation No. PER-03/MBU/2012 concerning Guidelines for the Appointment of Members of the Board of Directors and Members of the Board of Commissioners of SOE Subsidiaries, as amended by the Minister of SOEs Regulation No. PER-04/MBU/06/2020;
- Minister of SOEs Regulation No. PER-12/MBU/2012 of 2012 concerning Supporting Organs for the Board of Commissioners or Board of Trustees of SOEs, which has been amended several times, most recently by Minister of SOEs Regulation No. PER-14/MBU/10/2021;
- Minister of SOEs Regulation No. PER-02/MBU/02/2015 concerning Requirements and Procedures for Appointment and Dismissal of Members of the Board of Commissioners or Board of Trustees of SOEs, as amended by Permen BUMN No. PER-10/MBU/10/2020;
- Minister of SOEs Regulation No. PER-11/MBU/11/2020 concerning Management Contracts and Annual Management Contracts for Directors of SOEs;
- Minister of SOEs Regulation No. PER-13/MBU/09/2021 as the Sixth Amendment to the Minister of SOEs Regulation No. PER-04/MBU/2014 concerning Guidelines for Determining Remuneration for Board of Directors, Board of Commissioners, and Supervisory Boards of SOEs.
- Minister of SOEs Regulation No. PER-5/MBU/09/2022 dated September 2, 2022 concerning Implementation of Risk Management in SOEs;
- Minister of SOEs Regulation No. PER-7/MBU/09/2022 dated September 20, 2022, an amendment to the Minister of SOEs Regulation No. PER-11/MBU/07/2021 Concerning Requirements, Procedures for Appointment and Dismissal of Members of the Board of Directors of SOEs;
- Minister of SOEs Circular No. 2/MBU/07/2019 concerning Clean Management of SOEs through Implementation of Prevention of Corruption, Collusion and Nepotism, and Handling Conflicts of Interest and Strengthening Internal Control;
- Minister of SOEs Letter No. S-289/MBU/04/2020 dated April 28, 2020 concerning Arrangement of Board of Directors and Board of Commissioners in Subsidiaries and Affiliates of consolidated SOEs;
- Financial Services Authority Regulation (POJK) No. 17/POJK.03/2014 concerning Implementation of Integrated Risk Management for Financial Conglomerates;
- POJK No. 18/POJK.03/2014 concerning Implementation of Integrated Governance for Financial Conglomerates;
- POJK No. 33/POJK.04/2014 concerning Board of Directors and Board of Commissioners of Issuers or Public Companies;
- POJK No. 35/POJK.04/2014 concerning the Corporate Secretary of Issuers or Public Companies;
- POJK No. 8/POJK.04/2015 concerning Issuer or Public Company Websites;
- POJK No. 21/POJK.04/2015 concerning Implementation of Public Company Governance Guidelines;
- POJK No. 26/POJK.03/2015 concerning Integrated Capital Adequacy Requirements (KPM) for Financial Conglomerates;
- POJK Regulation No. 31/POJK.04/2015 concerning Disclosure of Information or Material Facts by Issuers or Public Companies;
- POJK Regulation No. 56/POJK.04/2015 concerning the Establishment and Guidelines for the Internal Audit Charter;
- POJK No. 4/POJK.03/2016 concerning Assessment of the Soundness Level Assessment for Commercial Banks;
- POJK No. 27/POJK.03/2016 concerning Fit and Proper Test for Main Parties of Financial Services Institutions;
- POJK Regulation No. 29/POJK.04/2016 concerning Annual Reports of Issuers or Public Companies;
- POJK Regulation No. 55/POJK.03/2016 concerning Governance Implementation for Commercial Banks;
- POJK Regulation No. 46/POJK.03/2017 concerning Implementation of the Compliance Function in Commercial Banks;
- POJK No. 1/POJK.03/2019 concerning Implementation of the Internal Audit Function in Commercial Banks;
- POJK Regulation No. 37/POJK.03/2019 concerning Transparency and Publication of Bank Reports;
- POJK No. 15/POJK.04/2020 concerning Planning and Implementing General Meeting of Shareholders in Public Companies;
- POJK Regulation No. 16/POJK.04/2020 concerning Implementation of Electronic General Meeting of Shareholders in Public Companies;
- POJK Regulation No. 45/POJK.03/2020 concerning Financial Conglomerates;
- POJK No. 12/POJK.03/2021 concerning Commercial Banks;
- OJK Circular (SEOJK) No. 14/SEOJK.03/2015 concerning Implementation of Integrated Risk Management for Financial Conglomerates;
- SEOJK No. 15/SEOJK.03/2015 concerning Implementation of Integrated Governance for Financial Conglomerates;
- SEOJK No. 32/SEOJK.04/2015 concerning Public Company Governance;
- SEOJK No. 13/SEOJK.03/2017 concerning Implementation of Governance for Commercial Banks;
- SEOJK No. 16/SEOJK.04/2021 concerning Format and Content of Annual Reports for Issuers or Public Companies;
- Memorandum of Understanding for the Integrated Audit Work Unit on the Development of Audit Quality for the BNI Financial Conglomerate;
- BNI Financial Conglomerate Corporate Charter;
- Various GCG implementation guidelines including the Corporate Governance Principles developed by the Organization for Economic Cooperation and Development (OECD), the ASEAN Corporate Governance Scorecard, and the Principles for Enhancing Corporate Governance issued by the Basel Committee on Banking Supervision.

IMPROVING THE QUALITY OF GCG IMPLEMENTATION SUSTAINABILITY

Efforts to improve the quality of GCG implementation can be seen in the following chart

The cycle for improving the quality of GCG implementation at BNI, includes:

1. Determination of GCG Implementation Quality Standards;
2. GCG Implementation;
3. GCG Monitoring;
4. GCG Measurement/Assessment;
5. GCG Implementation and Benchmarking Quality Improvement.

GCG IMPLEMENTATION STANDARDS AT BNI

As a state-owned enterprise or BUMN, GCG implementation standards at BNI refer to the Minister of SOEs Regulation No. PER-01/MBU/2011 concerning the Implementation of Good Corporate Governance in SOEs, as amended by State Minister for SOEs Regulation No. PER-09/MBU/2012 concerning Amendments to the Minister of SOEs Regulation No. PER-01/MBU/2011 concerning the Implementation of Good Corporate Governance in SOEs, and the Secretary of the Ministry of SOEs Decree No. SK-16/S.MBU/2012 dated June 6, 2012 concerning Indicators/Parameters for Assessment and Evaluation of the Implementation of Good Corporate Governance in SOEs. The GCG implementation standards include:

1. Commitment to the Implementation of Sustainable Good Corporate Governance Aspect;
2. Shareholders and GMS/Capital Owners Aspect;
3. Board of Commissioners/Supervisory Board Aspect;
4. Board of Directors Aspect;
5. Information Disclosure and Transparency Aspect;
6. Other aspects that includes sustainability reporting and the Company's ability to be a benchmark in its field.

In addition, as a business entity whose shares are listed on the Indonesian Stock Exchange and supervised by the Indonesian Financial Services Authority (OJK), BNI's GCG implementation standards also refers to OJK Regulation No. 21/POJK.04/2015 concerning Implementation of Public Company Governance Guidelines, and OJK Regulation No. 55/POJK.03/2016 Concerning Implementation of Governance for Commercial Banks.

To further improve the quality of its GCG implementation, BNI has also researched and aligned itself with the best practices that apply globally, including

1. The principles of Corporate Governance for Stated Owned Companies developed by the Organization for Economic Cooperation and Development (OECD), namely the ASEAN Corporate Governance Scorecard;
2. The Corporate Governance Perception Index (CGPI) organized by The Indonesian Institute for Corporate Governance (IICG). CGPI is a research and ranking program for GCG implementation in Indonesian companies;
3. Principles for Enhancing Corporate Governance issued by the Basel Committee on Banking Supervision; and
4. ESG or Environment, Social, and Governance.
5. The internalization of these laws and regulations and guidelines for national and international standards into BNI's internal policies is a commitment from the Board of Commissioners and Board of Directors as well as all BNI Hi-Movers. This commitment is embodied in the Company's vision, mission and values and is expected to be integrated into the daily behavior of all BNI Hi-Movers.

GCG PRINCIPLES IMPLEMENTATION

The implementation of the Good Corporate Governance principles involves a series of mechanisms or systems that directs and controls BNI in optimizing its value for Shareholders and other stakeholders, based on the prevailing laws and regulations and in accordance with the business ethics values that are upheld by BNI.

With the development of Best Practices in the banking industry and the financial services industry for the implementation of Corporate Governance, as a state-owned bank registered on the capital market, BNI understands that the implementation and development of GCG brings with it enormous benefits. For the GCG implementation and development, BNI already has guidelines for carrying out its business activities that they are always aligned with the goals and needs of each stakeholder.

The Bank's GCG implementation is carried out based on the basic GCG principles of Transparency, Accountability, Responsibility, Independence and Fairness. The application of these principles within BNI has been agreed upon by the Board of Commissioners, Board of Directors, management and all BNI employees so as to create a strong banking structure, increase competitiveness that continues to grow through innovations in running its business.

BNI GCG Principles

The implementation of BNI's GCG principles is explained in the table below.

GCG principles		Application in BNI
Transparency		<ul style="list-style-type: none">The Bank discloses information in a timely, adequate, clear, accurate and comparable manner and can be accessed by stakeholders according to their rights.The Bank discloses information which includes but is not limited to the vision, mission, business objectives, Bank strategy, financial condition, composition and compensation for the management, Controlling Shareholders, executive officers, risk management, internal supervision and control systems, compliance status, systems and implementation of good corporate governance as well as material information and facts that can influence investors' decisions.The principle of openness shall observe provisions on bank secrecy, position secrets and personal rights in accordance with applicable regulations.Bank policies must be written and communicated to stakeholders and those entitled to obtain information about the policy.

Responsibility		<ul style="list-style-type: none">The Bank adheres to prudential bank practices and ensures compliance with applicable regulations.The Bank as a good corporate citizen cares about the environment and carries out social responsibility fairly
Independence		<ul style="list-style-type: none">The Bank avoids unfair domination by any stakeholder and is not affected by unilateral interests and is free from conflicts of interest.The Bank makes decisions objectively and shall be free from any pressure from any party.
Fairness		<ul style="list-style-type: none">The Bank takes into account the interests of all stakeholders by following the principle of equality and fairness (equal treatment).The Bank provides opportunities for all stakeholders to provide input and convey opinions for the Bank's interest as well as open access to information in accordance with the principle of transparency.

BNI GCG IMPLEMENTATION ROADMAP

Year	Activity
2001	BNI is committed to implementing good corporate governance. This commitment was initiated by BNI's Board of Commissioners and Board of Directors with the signing of the Board of Commissioners' and Board of Directors' Collective Decree no. KEP/001/DK and KP/001/DIR dated January 3, 2001 concerning Good Corporate Governance Principles Implementation included in the PT Bank Negara Indonesia (Persero) Tbk Corporate Governance Handbook, as the guidelines for the Board of Commissioners and Board of Directors in governing BNI.
2002	<p>As a part of the commitment to continuously improve the Good Corporate Governance Implementation, BNI carried out the following activities:</p> <ul style="list-style-type: none">Established a Compliance Unit and Anti Money Laundering Unit under the Legal and Compliance Division's responsibility.Established a Remuneration and nomination Committee, with the role and responsibility in preparing work assessment criteria for each member of the Board of Commissioners and Board of Directors and also in assessing the structure, system, and compensation for the Board of Directors and provide recommendations for amendment to the Board of Commissioners if requested.Established an assessment center to improve the process/system for executive officers selectionImproved the banking information system.The Board of Commissioner established an Audit Committee Charter as a guideline for Audit Committee members in performing their duties.
2003	BNI continued to improve its Corporate Governance, in terms of commitment or compliance. All employees are obliged to sign a statement of compliance to the Code of Conduct.

Year	Activity
	<p>One such governance improvement in 2003 involved BNI establishing an executive committee tasked to assist the Board of Director in specific areas, including:</p> <ul style="list-style-type: none">Asset and Liability Committee (ALCO).Risk Management Committee.Credit Policy Committee.Human Resource Committee.Technology Management Committee.
2004	<p>The following were important achievements in the Corporate Governance implementation in 2004:</p> <ul style="list-style-type: none">BNI management approved the establishment of a Good Corporate Governance Committee tasked with assisting the Board of Directors in evaluating and optimizing corporate governance implementation policy effectiveness in BNI.BNI was recognized as one of the top five public companies with good Corporate Governance practices in a survey conducted by Standard and Poor's Governance Services and Corporate Governance and Financial Reporting Center (CGFRC), headquartered in Singapore.Management implemented a Zero Fraud program to foster healthy and responsible banking practices, risk awareness, and supervision of deviating behavior. Through this program, BNI rewards working units that successfully reached zero fraud in their operations, and vice versa, sanctions workings units that fail to prevent fraud.BNI established a Work ethics Team under the Human Capital Committee. This team periodically evaluates the working ethics in BNI. <p>BNI increased stakeholder access to all information that has a material impact to BNI, including quarterly financial reports, annual report information on the use of funds from corporate actions, information that could influence investors' investment decisions, General Meeting of Shareholders' resolutions, and other material events relating to BNI, either through BNI website, reports to OJK, stock exchange, mass media, public exposes, or analyst meetings</p>
2005	BNI's commitment to Corporate Governance improvement was realized by the establishment of a GCG Monitoring implementation unit, based on Board of Director Decree No. KP/174/DIR/R dated April 26, 2005.
2006	Signing of the "Commitment Statement to Implement Good Corporate Governance" by all members of the Board of Director, Board of Commissioners, and Division Heads in the Company Working Meeting, to be followed by all BNI officials at all organization levels and renewed annually.
2007	<p>As follow-up the previous year's "Commitment Statement to Implement Good Corporate Governance", BNI prepared the following GCG programs:</p> <ul style="list-style-type: none">GCG e-learningBoard of Commissioners and Board of Directors Guidelines and Work ProceduresBehavioral Guidelines Book for BNI officials consisting of Working Culture Values and Main Behaviors for BNI officials, known as PRINSIP 46.BNI achieved the title of Trusted Company in the Corporate Governance Perception Index ranking organized by The Indonesian Institute for Corporate Governance (IICG) and SWA magazine.
2008	Concerning the implementation of the know Your Customer Principle and the Money Laundering Crime Law (UU TPPU), the Compliance Division, with the Information Technology Division, developed and continued to improve the integrated system with the iCONS system to identify suspicious financial transactions.
2009	BNI successfully improved its performance leading to an increase in profits of 103% compared to the previous year. This was mainly due to the consistent implementation of GCG by all BNI people.
2010	Launch of an integrated Whistleblowing System (WBS), to increase transparency and ensure all BNI employees understand its implementation. Improvement of the BNI employees' code of conduct, to improve BNI employee quality. BNI participated in the GCG implementation ranking conducted by independent ranking institutions, the Center for Good Corporate Governance of Universitas Gadjah Mada (CGCG UGM), and the Indonesian Institute for Corporate Directorship (IICD).
2011	<p>BNI won a number of awards from national and international institutions. Some of the major awards were included:</p> <ul style="list-style-type: none">Best of The Best Company BUMN 2011Most Admired ASEAN Enterprise Economics Challenges Award 2011Most Trusted Company from The Indonesian Institute for Corporate Governance (IICG)BNI's Corporate information technology Governance was recognized for its reliability with the IT Governance Award given by the Ministry of SOEs.
2012	<ul style="list-style-type: none">Self-assessment results, in accordance with Bank Indonesia provisions, in 2011 and 2012 reflected the stable trend with a composite predicate of Very Good.Establishment of an Anti-Fraud Unit Committee by the Board of Director Decree No. KP/508/DIR/R dated November 9, 2012 concerning the establishment of an Anti-Fraud Unit Committee (KAF). When carrying out its duties and responsibilities, the KAF is assisted by the Ethics Management Unit under the Compliance Division, whose functions include data and reporting liaison with other divisions/units and external parties related to the Anti-Fraud Strategy and database management related to fraud in BNI.

- Ran Appeals for the prevention of gratification related to Christmas and New Year’s Day in Investor Daily;
- Signing of the Integrity Pact by all BNI Hi-Movers as a form of joint commitment and implementation of the AKHLAK, Principle 36 and RACE programs.

GCG IMPLEMENTATION PLAN FOR 2023

1. BNI’s participation in the Corporate Governance Perception Index (CGPI) ranking program;
2. Fulfill the implementation of the ASEAN Corporate Governance Scorecard (ACGS);
3. Implement the Individual Governance Self Assessment and Integrated Governance Self Assessment (TKT);
4. Implement ISO 37001:2016 Anti-Bribery Management System (SMAP) certification in the scope of Goods and Services Procurement and Corporate Credit;
5. Conduct Evaluation of Good Corporate Governance (GCG) Guidelines;
6. Implement Compliance Index (CIX) in all Divisions;
7. Implement the Fraud Detection System to strengthen the detection of transaction anomalies in Card-Based Payment Instruments (APMK) products;
8. Socialize and raise awareness of Good Corporate Governance (GCG), Governance, Risk and Compliance (GRC), Anti Gratification and Anti Fraud Programs.

MONITORING OF GCG IMPLEMENTATION

PERSON IN CHARGE OF GCG IMPLEMENTATION

The Planning, coordination, monitoring, implementation and evaluation of GCG implementation is managed by the Compliance Division and the Corporate Secretary Division who were appointed by the Board of Directors through Board of Directors Decree No. KP/133/DIR/R dated April 7, 2021.

The monitoring carried out is as follows:

Monitoring Good Corporate Governance Implementation	
1	Optimizing the supervisory function of all employees’ duties and responsibilities, carried out in each unit by their direct supervisors, unit heads, and the Internal Audit.
2	Preparing and monitoring the Key Performance Indicators (KPI). The unit head has an active role in the KPI monitoring process.
3	Branch Performance Reward, a reward given to branch offices after assessing their operations, business and improvement efforts. Application of boom and booster in the operations and business assessments as well as the Compliance Index (CIX) to measure compliance with divisions/units/regions/branches/centers.
4	Know Your Employee (KYE), an effort to closely monitor employees. The direct superiors are required to supervise their subordinates to ensure that fraud does not occur by taking into account any indications that need further attention (irregularities).
5	Monitoring and evaluating the implementation of GCG and Internal Control
6	Encouraging a more consistent implementation of Governance, Risk and Compliance (GRC) at all levels, in the parent and subsidiary companies.

GCG IMPLEMENTATION ASSESSMENT

Each year, BNI carries out a GCG implementation Assessment with the aim of measuring the quality of the implementation of GCG principles. This assessment is carried out to ensure the level of GCG implementation within BNI, and to identify appropriate steps to ensure the Bank’s infrastructure and structure are conducive for the effective implementation of GCG. Therefore, BNI carries out GCG Assessments to determine the level of adequacy of its GCG implementation. GCG assessments are carried out periodically and consistently every year, using Self Assessments in accordance with OJK regulations, and Third Party Assessments, as follows:

SELF ASSESSMENT

The GCG self-assessment in BNI is carried out using parameters that refer to SEOJK No. 13/SEOJK.03/2017 concerning Governance for Commercial Banks, POJK No. 55/POJK.03/2016 concerning Governance for Commercial Banks, POJK No. 21/POJK.04/2015 concerning Implementation of Corporate Governance Guidelines for Public Companies, OJK Circular Letter No. 32/SEOJK.04/2015 concerning Corporate Governance for Public Companies, and POJK No. 4/POJK.03/2016 concerning the Health Level Assessment for Commercial Banks, as well as the Bank Indonesia Regulation concerning the Health Level Assessment for Banks, where one of the Health Level

Rating points refers to a self-assessment on the implementation of Good Corporate Governance (GCG) principles in the Bank. The Self Assessment is conducted periodically every semester, in June and December in the current year.

The GCG assessments are also intended to produce a Governance Rating, a factor in determining the Bank's Health Level. This assessment is carried out on 3 (three) aspects in the Governance system, namely the Governance structure, process and results of 11 (eleven) Governance Implementation Assessment Factors. These three aspects are as follows:

1. Governance Structure

The Governance structure assessment is aimed at assessing the adequacy of Bank's GCG governance structures and infrastructures so that the implementation process produces outcomes that match the expectations of the Bank's stakeholders. Included in the Bank's governance structure is the GMS, the Board of Commissioners, the Board of Directors, and Committees and work units at the Bank. The Bank's governance infrastructure, includes the organizational structure of Bank policies and procedures, management information systems and the main duties and functions of each organizational structure. The Governance Structure is an assessment aspect on the fulfillment of the corporate structure and infrastructure in applying GCG as measured through the governance structures which includes:

- Composition of Shareholders and Company Organs; the structure and function of the person in charge for the GCG implementation; the structure of the person in charge of ethics enforcement; structures responsible for information disclosure; structures in charge of supervision and audit; structures in charge of HC management; the structure of the person in charge of operations/production; the structure of the person in charge of marketing; the structure of the person in charge of finance; the risk management structure, structure in charge of information technology management; structure responsible for stakeholder relations; the structure of the person in charge of the procurement of goods and services; and the structure of the person in charge of change management;
- Fulfillment of Company policies, especially related to enforcing the GCG function in carrying out the Company's operations, includes the guidelines and policies related to GCG, ethics enforcement, information disclosure, supervision and audit as well as compliance, HC management, operations/production, marketing, finance and accounting, risk management, information technology governance, relations with stakeholders.

2. Governance Process

The governance process assessment aims to assess the effectiveness of the process of implementing GCG principles supported by the adequacy of the Bank's governance structure and infrastructure so as to produce outcomes that are in line with the expectations of the Bank's stakeholders. The Governance Process is an assessment aspect on the implementation of company systems and mechanisms in applying GCG as measured by:

- The process of implementing GCG implementation, ethics enforcement, information disclosure, supervision and audit as well as compliance, HC management, operations/production, marketing, finance and accounting, risk management, information technology governance, relations with stakeholders etc; and
- The Corporate governance mechanism including the GCG implementation mechanism and process, ethics enforcement, information disclosure, supervision and audit as well as compliance, HC management, operations/production, marketing, finance and accounting, risk management, information technology management, stakeholder relations etc.

3. Governance Outcome

The Governance Outcome aspect is an assessment on the results of the implementation of the Company's systems and mechanisms in applying GCG as measured through the GCG Implementation Results, including outputs and results of the ethical enforcement of the GCG implementation process, information disclosures, supervision and audit as well as compliance, HC management, operations/production, marketing, finance and accounting, risk management, information technology governance, relations with stakeholders etc. For the GCG implementation evaluation, BNI has conducted an assessment of the GCG implementation through a self-assessment based on OJK Regulation No. 55/POJK.03/2016 concerning Implementation of Governance for Commercial Banks, which measures the implementation of GCG from 11 (eleven) aspects consisting of:

- Board of Commissioners' duties and responsibilities Implementation;
- Board of Directors' duties and responsibilities Implementation;
- Committees' duties completeness and implementation;
- Conflicts of interest Handling;
- Compliance function Implementation;
- Internal audit function Implementation;
- External audit function Implementation;
- Risk management Implementation, including internal control systems;

- Provision of funds to related parties and large exposures;
- Bank's financial and non-financial condition transparency, reports on the implementation of Good Corporate Governance and internal reporting;
- Bank Strategic Plan.

The Bank is required to conduct self-assessments on the GCG implementation in line with OJK regulations. The GCG Self Assessment results for the last 3 (three) years can be seen in the table below:

Description	2022	2021	2020
Composite Score	2	2	2

Assessment Result

In semester I 2022, BNI conducted a self-assessment and submitted it to OJK, with the following assessment results:

GCG Implementation Self Assessment Results for Semester I/June 2022		
Rating	Rating Definition	Trend
2	Showing the Bank's management has implemented a governance that in generally good as reflected in the adequate compliance with the Governance principles. In the event there are weaknesses in the application of the Governance principles, generally these weaknesses are insignificant and can be resolved by normal actions by the Bank's management.	Stable

In semester II 2022, BNI conducted a self-assessment and submitted it to OJK, with the following assessment results:

GCG Implementation Self Assessment Results for Semester II/December 2022		
Rating	Rating Definition	Trend
2	Showing the Bank's management has implemented a governance that in generally good as reflected in the adequate compliance with the Governance principles. In the event there are weaknesses in the application of the Governance principles, generally these weaknesses are insignificant and can be resolved by normal actions by the Bank's management.	Stable

These rankings are based on the following strengths and weaknesses of BNI's GCG implementation in 2022:

1. Strengths of the Corporate Governance implementation

- Governance Structure
 - The completeness of the BNI Governance structure having met the established requirements so as to support the implementation of Governance in every unit in BNI;
 - The implementation of good governance at BNI is also supported by the structure of the Internal Audit, the Enterprise Risk Management Division, and the independent and professional Compliance Division;
 - All BNI Personnel are committed to implementing good governance in BNI, which is manifested in the establishment of BNI's sixth mission, "to become a reference in implementing compliance and good corporate governance for the industry".

b. Governance Process

- In general, the GCG implementation process has been implemented well as reflected in the fulfillment of BNI's obligations as a Bank and Issuer to all BNI stakeholders;
- The decision making process for both business and non-business has been carried out based on the Governance principles so as to increase efficiency and achieve the company's targets;
- The Annual GMS for Fiscal Year 2021 dated March 15, 2022 appointed the Public Accounting Firm of Tanudiredja, Wibisana, Rintis & Rekan (a member firm of PwC's global network) to audit the Company's Consolidated Financial Statements, Report on the Micro and Small Business Funding Program (PUMK), as well as other reports for Fiscal Year 2022.

c. Governance Outcome

- i) BNI has fully applied the good governance principles when carrying out its business activities at all organizational levels, as reflected in the BNI's CGPI score that increased from 91,60 in 2021 to 91,66 in 2022 with the title "The Most Trusted Company", as well as BNI's ACGS score that increased from 97,32 in 2021 to 106,02 in 2022 with the title "Leadership in Corporate Governance";
- ii) The internal audit function is adequate and has met the stakeholders' expectations (Board of Commissioners), and this is reflected in the implementation of audit programs, active inspections, reports submitted to the Board of Commissioners through the Audit Committee, and their regular encouragement to complete follow-ups;
- iii) Bank BNI submitted a complete Annual Report in accordance with prevailing regulations on time and submitted it to OJK through letter No. KMP/7/0682 dated February 21, 2022.

2. Weaknesses in the Corporate Governance implementation

a. Governance Structure

BNI's Governance structure and infrastructure is fully in place in accordance with prevailing regulations, however, BNI continues to improve the structure and infrastructure by adjusting to business developments/ conditions and prevailing regulations.

b. Governance Process

Overall the governance process has been well implemented in every activity/business and Bank Operations, however for the implementation of the Internal Control System there are still matters that need attention including internal control improvement, fraud prevention, minimizing warnings/fines, as well as automation & digitalization of the credit process to improve loan quality and operations.

c. Governance Outcome

- i) During 2022, sanctions were still being imposed in the form of reprimands or fines by regulators, showing the need for increased risk awareness, and an effective internal control system in all lines of business and operations.
- ii) Based on the results of the Risk Profile position assessment as at December 31, 2022, Credit Risk and Operational Risk were still ranked 3 or Moderate. This shows that the Bank must continue to pay attention to the implementation of risk management for these two risks, as they still need improving.

CORPORATE GOVERNANCE PERCEPTION INDEX (CGPI)

In 2022, BNI participated in the Corporate Governance Perception Index (CGPI) organized by The Indonesian Institute for Corporate Governance (IICG) with the aim evaluating GCG implementation at BNI. The evaluation results will become a reference for BNI to improve its GCG implementation in the future.

The 2021 CGPI, carried out in 2022 covered the assessment aspects including governance structure, governance process, and governance outcome.

The CGPI assessment uses the mandatory GCG implementation references and generally accepted best practices as well as an approach with a stakeholder perspective where relationships with all stakeholders are increasingly important in maintaining the Company's business continuity over the long term.

Thus, BNI has completed all the requirements and stages of the CGPI assessment for the Fiscal Year 2021, showing very good results and receiving the title "The Most Trusted Company". The CGPI assessment results for the 2018-2022 Fiscal Years are as follows:

CGPI Assessment Results for Fiscal Years 2018-2022			
Indicator	2022	2021	2020
Governance Structure	25.69	32.48	24.59
Governance Process	35.00	33.20	33.01
Governance Outcome	30.97	25.92	33.14
CGPI Score	91.66	91.60	90.74

The CGPI assessment results by IICG show that the GCG implementation at BNI is showing improved results, as reflected in the results that continues to increase from year to year.

The recommendations received by BNI from CGPI for fiscal year 2021 carried out in 2022 and followed up are as follows:

CGPI Assessment Recommendations and Follow-up		
No	Recommendation	Follow-up
	Governance Structure Aspect	
1	<ul style="list-style-type: none"> BNI needs to optimize the succession policy for members of the Board of Directors and Commissioners by taking into account the internal company talent who are competent, competitive, adaptive and agile in dealing with the dynamics of change so as to support corporate resilience. 	<ul style="list-style-type: none"> To prepare for future leadership regeneration, internally the Company has a program aligned with the Minister of SOEs Regulation. Potential employees included in the Talent Pool will have the opportunity to take part in training programs or activities related to management, business strategy, strategic planning, risk analysis and business potential, operational and financial performance analysis, and other similar programs. To support this, BNI conducts a series of internal Talent selection processes by considering capacity, performance and track record. BNI also has a career development program aimed at encouraging young talent to occupy strategic positions. For employees with superior competence and performance, BNI has prepared a structured capability development and leadership development program.

CGPI Assessment Recommendations and Follow-up

No	Recommendation	Follow-up
	<ul style="list-style-type: none">BNI needs to make regular and careful adjustments to company policies and strategies for every dynamic change that occurs by exploring emerging challenges, managing vulnerabilities, adapting to managing change, and taking opportunities by optimizing potential so that it can achieve its goals based on the best results.	<ul style="list-style-type: none">BNI prepared a Bank Business Plan (RBB) and strategic policies adapted to changing external and internal conditions and challenges that occurred during 2022 to maintain business continuity and resilienceThe Bank's 2023-2025 Business Plan is used as a reference when carrying out BNI's operational activities in the short term in accordance with the Company's Vision, Mission and Directives listed in the 2019-2023 Revision of the Long Term Plan (Corporate Plan).
Governance Process Aspect		
	<ul style="list-style-type: none">BNI needs to optimize all resources to build corporate resilience through programs to strengthen corporate fundamentals and resilience, and integrate them with the corporate group.	<ul style="list-style-type: none">To address challenging conditions and prepare to accelerate future financial performance improvements, BNI has made efforts to change and improve through initiatives carried out in the BNI Corporate Transformation. This transformation is BNI's form of responding to challenges, as well as being an effort to improve in achieving the 2021-2025 Corporate Plan.In the context of efficiency and optimization of IT resources, BNI has carried out a synergy program with Subsidiaries for implementing information technology development by adopting IT Agile and Lean Organizations, thus increasing effectiveness and cost efficiency for providing added value to support service and business activities.
2	<ul style="list-style-type: none">BNI needs to develop and update policies and guidelines for disclosure and transparency of company information, especially concerning the use of electronic social media with reference to developments in applicable regulations and guidelines.	<ul style="list-style-type: none">BNI already has a policy for disclosure and transparency of Company information in accordance with applicable regulatory provisions, and has uploaded it to the IDX and OJK Electronic Reporting systems, the BNI website, or through BNI's media channels, which are always updated.
	<ul style="list-style-type: none">BNI needs to optimize the a comprehensive risk culture throughout the corporate group so that it can become a strong foundation for optimizing potential and achieving good performance and sustainable business growth.	<ul style="list-style-type: none">BNI strives to implement a risk culture as a whole, including in its Subsidiaries (BNI Group). One of these efforts involves implementing a risk culture that BNI has socialized through sharing sessions and reviews on the application of a risk culture so as to increase employee awareness of risk.Individual and conglomerate Risk Maturity Index (RMI) assessments have been carried out, accompanied by recommendations and a roadmap for future improvements.
	<ul style="list-style-type: none">BNI needs to optimize the ESG (Environmental, Social, and Governance) concept, integrated into all business lines and consolidated throughout the corporate group so as to provide sustainable added value.	<p>BNI has implemented an integrated ESG (Environmental, Social, and Governance) concept through the following:</p> <ul style="list-style-type: none">Implemented the 2022 Sustainable Finance Action Plan (RAKB).ESG infrastructure strengthening project with ESG companion consultant, PT Surveyor Indonesia.Increased employee awareness and understanding of ESG aspects.Strengthened the Risk Acceptance Criteria (RAC) by takes into account ESG aspects in 4 main sectors, namely Palm Oil Plantations, Mining, Construction and Electricity/Energy.

CGPI Assessment Recommendations and Follow-up

No	Recommendation	Follow-up
	<ul style="list-style-type: none">BNI needs to optimize the company's digital capabilities policies, strategies and programs to support efficient business development and sustainable business growth, and make the company a major part of the digital ecosystem.	<ul style="list-style-type: none">BNI has increased the Company's digital capabilities by increasing the capabilities of solutions, infrastructure, security, and has conducted assessment processes using international frameworks related to IT Maturity (Cobit 5 and Cobit 2019), Cybersecurity (ISO 27001), and is constantly adopting new technologies including AI, Cloud, Robotic Process Automation, Big Data etc.), as well as has a digital business strategy that makes BNI a major part of the digital ecosystem, as well as Open Banking & Partnership.
Governance Outcome Aspect		
	<ul style="list-style-type: none">BNI needs to increase the amount of dividends proportionally and consistently for all shareholders.	<ul style="list-style-type: none">BNI consistently reviews dividend policies so they are aligned with profitability, business plans and capital on an ongoing basis and the Company has achieved a good level of capital adequacy to anticipate future economic volatility
3	<ul style="list-style-type: none">BNI needs to foster a culture of resilience with the ability to quickly adapt and respond to change and manage challenges so that they become opportunities to compete.	<ul style="list-style-type: none">BNI has fostered a work culture by carrying out the Culture Transformation process, as well as activated the theme of the RACE cultural program that focuses on Risk Culture, Agility, Collaboration and Execution Oriented.BNI Corporate Culture with an internalization program based on AKHLAK core values (Trustworthy, Competent, Harmonious, Loyal, Adaptive and Collaborative) and RACE business values (Risk Culture, Agile, Collaborative and Execution Oriented) that were instigated to improve service quality to customers, respond to the needs of the community, as well as strengthen BNI's vision in international and digital banking.
	<ul style="list-style-type: none">BNI needs to develop a culture of AKHLAK values aligned with the Company's vision, mission and DNA to achieve the established strategic goals.	<ul style="list-style-type: none">Strengthening AKHLAK as BNI's Core Values is aligned with the BNI PRINSIP46 belief through work culture thematic programs for each value to be applied in all BNI Units. Furthermore, internalization has been strengthened by activating RACE Champion as a Change Agent who actively disseminated an understanding of BNI's values and work culture programs in each unit throughout BNI.

ASEAN CORPORATE GOVERNANCE SCORECARD (ACGS)

BNI continues to implement GCG in accordance with the standards implemented by the ASEAN Corporate Governance Scorecard, one of the initiatives of the ASEAN Capital Market Forum, to improve the corporate governance standards and practices in public companies in ASEAN , to enhance the global viability for ASEAN listed public companies with good corporate governance, and to demonstrate to the global community that ACGS participating companies are good places to invest.

The ASEAN CG Scorecard uses parameters based on corporate governance principles issued by The Organization for Economic Cooperation and Development (OECD) as follows:

1. Shareholders Rights;
2. Equal Treatment of Shareholders;
3. The Role of Stakeholders;
4. Disclosure and Transparency; and
5. Responsibilities of the Board of Commissioners.

The ASEAN CG Scorecard assessment results for 2022 show that the Company’s overall weighted score was 106.02 points with a predicate of “Leadership in Corporate Governance” or Level 5. This shows that the practices carried out by BNI as a whole have adopted international standards.

No	Assessment Component	Fiscal Year 2022	Fiscal Year 2021
1	Shareholders Rights	9.05	9.52
2	Equal Treatment of Shareholders	9.29	6.67
3	The Role of Stakeholders	15.00	13.85
4	Disclosure and Transparency	23.44	22.66
5	Responsibilities of the Board of Commissioners	36.25	35.63
6	Bonus	15	11
7	Penalty	(2)	(2)
Total Score		106.03 (Leadership in Corporate Governance)	97.33 (Very Good)

For the BNI 2022 ASEAN CG Scorecard assessment, there were several recommendations for future improvements. These recommendations included:

No	Recommendation	Follow-up
1	The Company is expected to not only disclose information concerning the number of questions that occurred during the AGMS, but is also expected to provide details concerning the questions and answers to these questions, both in the Minutes or Summary of Minutes of the AGMS results that are easily accessible to the public.	Follow-up recommendations will be implemented by the next AGMS.
2	The Company is expected to be able to announce the results of the AGMS to the public as soon as possible within 1 working day. In order for the announcement of the AGMS results to be carried out immediately, the Company can use the website (while still informing the date or time of uploading the information).	Follow-up recommendations will be implemented by the next AGMS.
3	Identify and disclose the identity or names of the external auditor who will be appointed to audit the current period's financial statements. For the identity or name of the external auditor, what is meant here is the name of a person, not the name of the KAP.	Disclosures to be made in the publication of summons or other AGMS documents by the next AGMS.
4	Apart from ensuring the fulfillment of the required practices, the Company must also ensure that the value of other non-audit services cannot exceed the value of the audit services paid by the Company to a third party (KAP or External Auditor).	The cost of other non-audit services in 2022 does not exceed the cost of the audit services paid by the company to third parties (KAP or External Auditor).
5	Regarding the audit committee, it is recommended to add a role or function, which is not only recommending the appointment of an external auditor, but also providing recommendations for the dismissal of the Company's external auditor. The roles or functions should be clearly stated or defined in the audit committee charter.	Has become part of the Audit Committee duties and responsibilities as stated in the Audit Committee documents
6	The Company needs to encourage members of the Board of Commissioners to attend at least 75% of the total meetings held during a year, or needs to consider developing a policy that sets a minimum level of attendance of members of the Board of Commissioners meetings (minimum 75% of the total board meetings held in a year).	The overall attendance rate for each member of the Board of Commissioners in 2022 reached more than 75% of the total Board of Commissioners and Board of Directors meetings held in 2022
7	Formulate a remuneration policy by setting measurable standards that link the Board of Directors performance with the long-term interests of the Company, such as claw back provisions, rewards or deferred bonuses using measurements, such as ROE, Cumulative Free Cash Flow, Operating Profit or others. In Indonesia, banking is regulated in POJK 45/2015.	In 2022, the Remuneration policy for Board of Directors, Board of Commissioners and Employees has considered measurable standards that link the Board of Directors performance with the long-term interests of the company, such as claw back provision, rewards or deferred bonuses

No	Recommendation	Follow-up
8	The Company is also advised to conduct an annual assessment of each the Board of Commissioners individually (not only collegially assessing the performance of the Board of Commissioners) and disclose the process carried out during the performance appraisal, as well as the criteria used in the performance appraisal.	<p>In an effort to continue to ensure the Board of Commissioners performance achievement as part of the Good Corporate Governance implementation, the Board of Commissioners has prepared an annual work plan for the Board of Commissioners, as an integral part of the Company's Work Plan and Budget (RKAP). The Board of Commissioners then conducts a collegial performance appraisal to assess the Board of Commissioners performance in the Fiscal Year using the self-assessment method.</p> <p>Collegial performance evaluations are carried out by measuring the achievement of the Board of Commissioners Annual collegial Key Performance Indicators (KPI), which have been prepared and determined at the beginning of the year.</p>

IMPROVING THE QUALITY OF GOVERNANCE IMPLEMENTATION

STRATEGIC INITIATIVE TO STRENGTHEN GCG IMPLEMENTATION

The Bank continues to make efforts to improve the quality of GCG implementation on an ongoing basis by continuing to create, develop and improve itself so that the Bank's GCG implementation is in line with GCG principles.

The Bank has developed a Roadmap as a reference in supporting the GCG practices. BNI evaluates the Corporate Governance implementation on an ongoing basis, so that the Corporate Governance implementation will always experience improvement. In an effort to increase GCG implementation, BNI has instigated the following strategies:

1. Reviewing the Corporate Governance guidelines/policies for BNI and the BNI financial conglomerate to comply with regulatory provisions, guidelines and the latest best practices.
2. Developing new Corporate Governance implementation initiatives, including updating provisions, and GCG campaign programs, etc;
3. Improving the quality of GCG implementation, through the Compliance Index including the calculation method, the Gratification Control Program and the Anti-Bribery Management System (SMAP), and implementing a Governance, Risk and Compliance (GRC) Forum in all Units, monitoring Key Performance Indicators (KPI) and Know Your Employee (KYE), and boom and booster implementation in operational and business assessments;
4. BNI's participating in GCG assessments by independent external parties, including IICG and ACGS, as a means to strengthening GCG implementation at BNI;
5. Facilitating External Complaints regarding GCG to encourage BNI Hi-Movers cultural awareness to always behave in accordance with GCG principles, by providing a Whistleblowing System (WBS) reporting facilities, through websites, telephone, email, letters, SMS/Whatsapp for the general public (public) to submit grievances and complaints on violations of Corporate Governance committed by BNI employees. BNI also provides security protection for WBS reporters while still paying attention to the principle of confidentiality and related provisions that apply at BNI.

Complaints or grievances received through BNI's WBS channel can be used as material for review/ input and evaluation by BNI to make continuous improvements and improve the quality of GCG implementation at BNI to suppress acts of irregularities or violation of GCG principles by BNI employees.

AWARENESS

GCG Socialization and Internalization

During 2022, GCG socialization was carried out at the Head Office and Regional Offices and Subsidiaries. The socialization included presentations on GCG principles, examples of implementation, the latest provisions related to GCG, including socialization to new BNI employees (ODP and Bina), through knowledge supplement webinars (Anti-Bribery Management System, Anti-Fraud Awareness Series, AKHLAK Series, RACE Talks Series, ESG Trends & Market Outlook). Through this socialization, it is hoped that BNI Hi-Movers will have a shared determination and commitment to realize GCG implementation at BNI.

New Employee Induction Program

New employees are the future BNI Hi-Movers who will learn, grow and develop at BNI. As newcomers, instilling the corporate values is essential, as this program will instill the GCG values and Code of Conduct to be followed during the course of their career path at BNI.

Internalisation

For BNI, Corporate Culture is a system that can play a role in developing attitudes that will shape the personality of each individual in the Company, with a set of attitudes forming the interactions between individuals, with integrity that will bring out the character that exists in the Company. Internalization of Corporate Culture including the application of the Corporate Governance principles at BNI is carried out through various tools, which facilitate the process of adopting values that can later be applied in carrying out daily work. The tools used include:

1. Reading Prinsip 46 and the BNI Code of Conduct on every quality day in each unit and at the morning briefing;
2. Self-education methods through GCG e-learning and DEEP 46 (Daily Exercise Employee Program) through BNI Smarter and DigiHC that provide easy GCG learning for BNI Hi-Movers;
3. Online training and webinars with speakers involving internal and external professionals, including:
 - a. Operational Risk Training;
 - b. Execution Discipline Cultural Brevet;
 - c. International Banking Literacy Training.

4. Distribution and installation of anti-gratification and GCG enforcement posters and e-leaflets in each unit, BNI Forum, and through the website so that employees can be aware at any time;
5. Easy access to the Code of Ethics and Corporate Culture through the BNI website, which can be accessed anytime and anywhere;
6. Anti Gratification and Anti Fraud Commitments conveyed by the Board of Directors via video;
7. Learning modules in various formats such as e-books, podcasts, bite size video learning, and gamification; and
8. BNI Learning Wallet (BLW), the freedom to determine learning through individual learning budgets.

Externalization

GCG externalization is closely related to the transparency and fairness principles, whereby the transparency principle means to always observe the Bank secrecy provisions and position secrets and treat stakeholders and the public in a fair and equal manner. BNI delivers GCG externalization to stakeholders and the wider community through the following:

1. GMS

The GMS is a communication media for stakeholders to the Company and is an embodiment of the GCG principles implementation, as in the GMS the Company's Management explains their responsibilities in many aspects. A more detailed explanation of the GMS can be seen in the GMS Section in the Corporate Governance Chapter of this Annual Report. Shareholders' Rights and Ownership rights are always protected and facilitated, and in BNI Shareholders' rights are implemented through dividend payments, the right to ask questions at the GMS, the right to obtain information, and the right to approve/disapprove GMS resolutions through a sound card given at the GMS.
2. Disclosure and Transparency

As a form of the transparency pillar in the GCG principles, BNI continues to provide information disclosure to stakeholders and the wider community through various means including the Annual Report, BNI website, mass media, Electronic Reporting System portal for IDX Issuers, and to regulators through hardcopy or electronic reporting facilities. Given BNI's status as an issuer, this information disclosure is considered very important as a medium of communication as a transparent company. Information disclosure is carried out based on the prevailing capital market regulations.

3. Equal Treatment

All BNI Shareholders including Minority Shareholders and Foreign Shareholders are treated equally. All Shareholders are given the same opportunity to obtain information. This treatment is applied at BNI by providing information on Corporate Actions, and other information disclosure as stipulated in the capital market regulations. Everyone is given the same opportunity to gain information and submit criticisms/suggestions to the Bank. Information, criticism and/or suggestions can be reported through the BNI website and BNI Call 1500046 service.

4. Building a Positive Image of the Bank

Sound GCG practices by all internal parties and stakeholders improves the Company's image in the wider public over the long term so that trust in the Company can be maintained. In the digital era, BNI looks to use different tools to enhance the Company's positive image through different media including print media (newspapers, tabloids, magazines), electronic media (radio and television) and cyber media (website, twitter, instagram, email, etc. news portals, facebook, blogs and other social media). The use of media to support GCG practices is carried out to disseminate anti-fraud, WBS, GCG awareness, including appeals not to give gifts in any form that can be categorized as gratuities/bribes but are not limited to religious holidays.

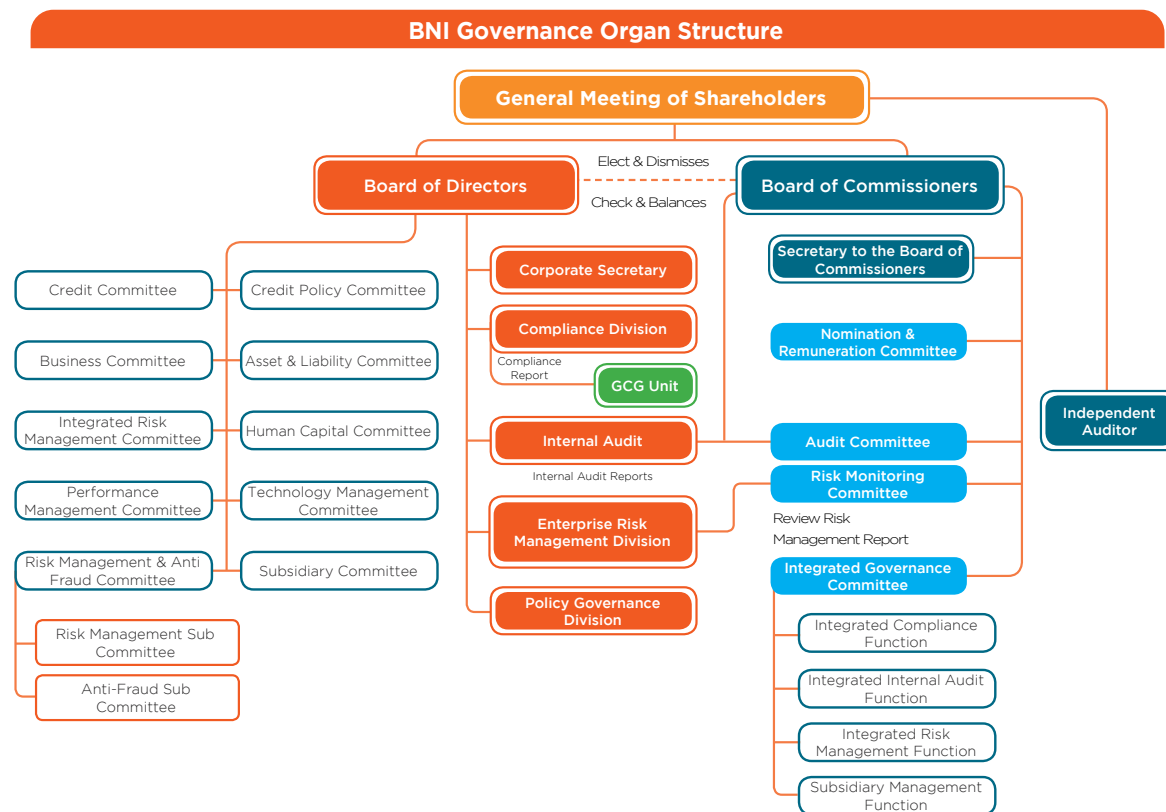

CORPORATE GOVERNANCE STRUCTURE AND MECHANISM

BNI GOVERNANCE ORGAN STRUCTURE

BNI's governance structure consists of three main organs, the General Meeting of Shareholders (GMS), Board of Commissioners and Board of Directors, as well as supporting organs including committees below the Board of Commissioners, Committees below the Board of Directors, Risk Management Work Unit, Internal Audit Work Unit, Compliance Unit, Policy Governance Division and Corporate Secretary.

Each Bank organ plays an important role in implementing effective GCG with the obligation to carry out their functions in accordance with the provisions in the Bank's Articles of Association, with the aim of improving performance, protecting stakeholder expectations, and increasing compliance with prevailing laws and regulations.

For BNI, the GCG implementation and development for the Bank and its Subsidiaries is important in maintaining the Company's business continuity. By following these principles, BNI believes that it can increase its contribution and encourage sustainable growth.

BNI GOVERNANCE INFRASTRUCTURE

GCG implementation carried out by the Bank's organs is supported by various policies/guidelines referred to as the GCG infrastructure. BNI's GCG infrastructure includes:

1. The Company Articles of Association No. 23 dated April 20, 2021 as received and recorded in the Republic of Indonesia Ministry of Law and Human Rights Legal Entity Administration System through No. AHU-AH.01.03-0264697 Year 2021 dated April 26, 2021. The Articles of Association can be accessed and downloaded on the Company's website: <https://www.bni.co.id/id-id/perseroan/tata-kelola/anggaran-dasar-bni>;
2. BNI's Code of Ethics as the BNI Hi-Movers Code of Conduct. The code of conduct can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/kode-etik>;
3. Board of Commissioners updated Board Manual, as validated by Board of Commissioners' Decision Letter No. KEP/0049/ DK/2017 dated October 26, 2017. These guidelines can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/pedoman-dan-tata-tertib>;
4. Board of Directors updated Board Manual, as validated by Board of Directors' Decisions Letter No. KP/228/DIR/R dated June 29, 2018. These guidelines can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/pedoman-dan-tata-tertib>;
5. Audit Committee Charter and Audit Committee Code of Ethics, approved by the Board of Commissioners through the Board of Commissioners Decree No. KEP/007/DK/2021 dated April 15, 2021. The charter can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/komite-dewan-komisaris>;
6. The Risk Monitoring Committee Charter, approved by the Board of Commissioners through the Board of Commissioners Decree No. KEP/007/DK/2022 dated June 2, 2022. The Charter can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/komite-dewan-komisaris>;
7. The Remuneration and Nomination Committee Charter, approved by the Board of Commissioners Decree No. KEP/006/DK/2022 dated June 2, 2022. The Charter can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/komite-dewan-komisaris>;
8. The Integrated Governance Committee Charter, approved by the Board of Commissioners through BNI Board of Commissioners Decree No. KEP/005/ DK/2022 dated June 2, 2022. The Charter can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/komite-dewan-komisaris>;
9. Corporate Governance Handbook (Implementation of Good Corporate Governance Principles). These principles can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/panduan-kebijakan>;
10. Updating the Integrated Governance Guidelines for the BNI Financial Conglomerate, approved through Board of Commissioners No. DK/221 December 29, 2022 and approved through Board of Directors No. DIR/1179 dated December 22, 2022. These guidelines can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/pedoman-dan-tata-tertib>;
11. Integrated Risk Management General Policy as approved by the Board of Commissioners through the Board of Commissioners Letter No. DK/26 dated February 24, 2021 and stated in e-PP No. IN/787/ERM/005 dated September 06, 2022;
12. The updated Internal Audit Charter, through the BNI Board of Directors Decree No. KP/139/DIR/R dated April 14, 2021. The charter can be accessed and downloaded on the Company's website through: <https://www.bni.co.id/id-id/perseroan/tata-kelola/pedoman-dan-tata-tertib>;
13. Conflict of Interest Guidelines as outlined in the Online Company Guidelines (ePP) No. IN/13/KPN/002 dated January 3, 2023;
14. Corporate Secretary Guidelines, approved by the Board of Directors Decree No. KP/356/DIR/R dated September 2, 2016;
15. Company Guidelines for Prohibited and Non-Prohibited Securities Transactions for Insiders, as outlined in the Online Company Guidelines (ePP) No. IN/500/KMP/001 dated September 23, 2019;
16. Anti-Money Laundering and Combating the Financing of Terrorism (APU-PPT) Company Guidelines, as outlined in the Online Company Guidelines (e-PP) No. IN/10/KPN/002 dated January 5, 2021;
17. Procurement Company Guidelines, as outlined in the Online Company Guidelines (ePP) No. IN/911/PGV/013 dated October 20, 2022;
18. Corporate Compliance Guidelines, as outlined in the Online Company Guidelines (e-PP) No. IN/963/KPN/002 dated December 14, 2021;
19. Whistleblowing System Guidelines, as outlined in the Online Company Guidelines (e-PP) No. IN/604/KPN/003 dated October 16, 2020;
20. Anti-Fraud Strategy Guidelines, as outlined in the Online Company Guidelines (e-PP) No. IN/283/KPN/003 dated May 18, 2020;
21. Anti-Bribery Management System Guidelines, as outlined in the Online Company Guidelines (e-PP) No. IN/725/KPN/003 dated September 24, 2021;
22. Gratification Control Guidelines, as outlined in the Online Company Guidelines (e-PP) No. IN/726/KPN/002 dated September 24, 2021;
23. Company Guidelines for Investor Relations Activities, as outlined in the Online Company Guidelines (e-PP) No. IN/41/KMP/001 dated January 26, 2015;
24. Strategic Planning Company Guidelines: Bank Business Plans, as outlined in the Online Company Guidelines (e-PP) No. IN/401/REN/002 dated August 30, 2017;

25. Company Guidelines for Quality Management of Published Financial Reports, as outlined in Online Company Guidelines (e-PP) No. IN/749/PKU/002 dated September 28, 2021;
26. GCG Monitoring Activities and Self-Assessment Reports Guidelines contained in e-PP No. IN/462/KMP/001 dated October 22, 2015;
27. For the Asset & Liability Committee (ALCO) Work Guidelines, approved by the Board of Directors through the Board of Directors Decree No. KP/437/DIR/DIR/R dated September 22, 2021 concerning Structuring the Asset & Liability Committee (ALCO);
28. Work Guidelines for the Risk Management & Anti-Fraud Capital Committee, approved by the Board of Directors through the Board of Directors Decree No. KP/484/DIR/DIR/R dated October 26, 2021 concerning Structuring the Risk Management and Anti-Fraud Committee;
29. Performance Management Committee Guidelines, approved by the Board of Directors through the Board of Directors Decree No. KP/353/DIR/R dated June 21, 2017 concerning the BNI Performance Management Committee (PMC);
30. Business Committee Guidelines (KBI), approved by the Board of Directors through Board of Directors Decree No. KP/439/DIR/R dated October 27, 2022 concerning the Arrangement of the Business Committee (KBI);
31. Technology Management Committee Guidelines, approved by the Board of Directors through Board of Directors Decree No. KP/364/DIR/R dated August 13, 2021 concerning Arrangement of the Technology Management Committee.

GOOD CORPORATE GOVERNANCE MECHANISM

The Good Corporate Governance mechanism includes the Governance principles implementation process, supported by the Bank's governance structure and infrastructure adequacy, to produce outcomes in line with stakeholder expectations. For Governance implementation, it is not enough just to rely on the governance structure pillars, it also requires a clear soft structure in the mechanism process. The process of implementing corporate governance is inherent in the corporate governance structure as seen in the Bank's Governance Organizational Structure.

GENERAL MEETING OF SHAREHOLDERS

The General Meeting of Shareholders (GMS) is the highest Company corporate governance organ with authorities not given to the Board of Directors or the Board of Commissioners within the limits specified in the Limited Liability Company Law and/or the Company's Articles of Association. The GMS is a forum for Shareholders to exercise their rights by expressing opinions and obtaining Company information so long as it is related to the meeting agenda, and does not conflict with the Company interests, and pays attention to the provisions of the Company's Articles of Association and laws and regulations. Decisions taken at the GMS are based on the interests of the Bank, and are carried out fairly and transparently.

BNI GMS are held with reference to the following provisions:

1. 2003 Law No. 19 concerning State-owned enterprises;
2. 2007 Law No. 40 concerning Limited Liability Companies;

3. OJK Regulation No. 15/POJK.04/2020 concerning Planning and Implementing General Meeting of Shareholders in Public Companies;
4. OJK Regulation No. 16/POJK.04/2020 concerning Electronic Implementation of the General Meeting of Shareholders in Public Companies;
5. PT Kustodian Sentral Efek Indonesia Board of Directors Decree No. KEP-0016/DIR/KSEI/0420 of 2020 concerning Implementation of the KSEI electronic General Meeting System (eASY.KSEI) Facility as an Electronic Authorization Mechanism in the Process of Organizing a GMS for Securities Issuers who are Public Companies and whose shares are kept in KSEI Collective Custody; and
6. Company's Articles of Association.

SHAREHOLDERS

In the Company's Articles of Association, what is meant by "Shareholders" are Series A Dwiwarna shareholders, Series B shareholders and Series C shareholders, unless expressly stated otherwise. The Company shares consist of:

1. Series A Dwiwarna shares that can only be owned by the Republic of Indonesia; and

2. Series B and C Series shares as ordinary shares that can be owned by the Republic of Indonesia and the public.

INFORMATION ON MAJORITY AND CONTROLLING SHAREHOLDERS

The Republic of Indonesia is a Series A Dwiwarna shareholder and is the majority and controlling shareholder of BNI with 60% share ownership. So that there are no Majority Shareholders and Individual Controllers.

EQUAL TREATMENT POLICY FOR ALL SHAREHOLDERS

BNI always provides equal treatment and opportunities for all Shareholders, including Minority Shareholders and Foreign Shareholders. When making timely and accurate disclosures, BNI does this by looking at all material aspects of the Company, including the Company's financial situation, performance, ownership and governance (the 2022 Information Disclosure List has been disclosed in the Corporate Secretary discussion).

BNI protects the rights of Shareholders as referred to in the Capital Market provisions. The rights of stakeholders must be recognized in accordance with applicable laws and regulations, and active cooperation between the Bank and stakeholders must be developed in a joint effort to create wealth, jobs and the sustainability of the Bank.

SHAREHOLDERS' RIGHTS, AUTHORITIES AND RESPONSIBILITIES

So long as the Articles of Association do not stipulate otherwise, Series A Dwiwarna shareholders, Series B shareholders and Series C shareholders have the same rights and for every 1 (one) share, are given 1 (one) voting right.

In accordance with the Company's Articles of Association, Series A Dwiwarna shares are shares that are specially owned by the Republic of Indonesia, which grants the holders special rights as holders of Series A Dwiwarna shares.

The Shareholders' rights, authorities and responsibilities include:

1. The right to request the Company holds a GMS;
2. The right to agree at the GMS on the following matters:
 - a. Approval for amendments to the Articles of Association;
 - b. Approval for changes in Capital;
 - c. Approval for the appointment and dismissal of members of the Board of Directors and Board of Commissioners;
 - d. Approval for mergers, consolidations, acquisition, splits and dissolutions;
 - e. Approval for remuneration for members of the Board of Directors and Board of Commissioners;
 - f. Approval for the transfer of assets based on the Articles of Association, requiring the approval of the GMS;
 - g. Approval for participation and reduction in the percentage of equity participation in other companies based on the Articles of Association, requiring the approval of the GMS;
 - h. Approval for the use of profits;
 - i. Approval for non-operational investment and long-term financing based on the Articles of Association, requiring the approval of the GMS;
 - j. Approval of the Annual Report and Ratification of the Company's Consolidated Financial Statements; and
 - k. Approval of the Board Supervision Report.
3. The right to propose Candidates for Members of the Board of Directors and Candidates for Members of the Board of Commissioners;
4. The right to propose GMS agenda; and
5. The right to request and access company data and documents in which the mechanism to use such rights is in accordance with the provisions in the Articles of Association and laws and regulations.

As well as other matters as stipulated in the Company's Articles of Association. The Company's Articles of Association regulates the privileges of Series A Dwiwarna Shareholders.

SHAREHOLDER RELATIONSHIP POLICY

To maximize the Company value through the implementation of good governance principles, especially for the transparency aspect, BNI strives to ensure transparency of Company financial and non-financial information, in a fair and timely manner to all shareholders, including minority shareholders and foreign shareholders.

To realize such information transparency, the Corporate Secretary plays an active role in the implementation of the bank's information disclosure to shareholders as stipulated in Article 5 of OJK Regulation No. 35/POJK.04/2014 concerning Corporate Secretary of Issuers or Public Companies; the Corporate Secretary serves as a liaison between the Bank and shareholders, including OJK and other stakeholders.

As well as complying with the OJK provisions, in order to foster intensive, systematic, and planned Shareholder relationships, the Bank has internal Company policies as stipulated in Company Regulation No. IN/794/KMP/001 dated December 23, 2014.

SHAREHOLDERS ACCESS TO INFORMATION

BNI provides access to Company information, and presents relevant information in a timely manner, enabling Shareholders to exercise their rights and responsibilities. For access to information provided by the Company, includes:

Information Access for Shareholders	
Media	Explanation
GMS	Media for delivering reports and information to enable shareholders to participate in decision making
Print Media	Print media through national and international news/newspapers, magazines, etc. to convey the latest information about the Company.
Electronic Media	Electronic media through national and international news TV, radio, news portals, etc. to convey the latest information about the Company.

GMS IMPLEMENTATION

DATE AND VENUE OF THE GMS

GMS consists of Annual GMS and other GMS. Public Companies are required to hold an Annual GMS no later than 6 (six) months after the fiscal year end, or under certain conditions OJK may set another time. A Public Company may hold other GMS at any time as needed for the interests of the Public Company. In accordance with the provisions, the GMS must be held in the territory of the Republic of Indonesia. The location for holding the GMS must be:

1. At the domicile of the Public Company;
2. Where the Public Company conducts its main business activities;
3. In the Provincial Capital where the Public Company is located or where it conducts its main business activities; or
4. The Province where the stock exchange is located and where the shares of the Public Company are listed.

During 2022, BNI held 2 (two) GMS, the Annual GMS and an Extraordinary GMS as explained below:

No.	GMS	Day/Date, Time, and Place of Execution	Agenda
1	Annual GMS	Day/Date : Tuesday, March 15 2022 Time: 14.00 until finished Place: Ballroom-Menara BNI, 6th Floor, Jln. Pejompongan Raya No. 7, Bendungan Hilir, Central Jakarta	<ol style="list-style-type: none"> 1. Approval of the Annual Report and Ratification of the Company's Consolidated Financial Statements, Approval of the Board of Commissioners' Supervisory Duties Report and Ratification of the Annual Report on the Implementation of the Company's Social and Environmental Responsibility Program for Fiscal Year 2021, as well as granting full release and discharge (volledig acquit et de charge) to the Company's Board of Directors and Board of Commissioners for the management and supervisory actions carried out during Fiscal Year 2021. 2. Approval of the use of the Company's Net Profit for Fiscal Year 2021. 3. Determination of remuneration (salaries/honorarium, facilities and allowances) for Fiscal Year 2022 and tantiem for the Fiscal Year 2021 for the Company's Board of Directors and Board of Commissioners. 4. Appointment of a Public Accounting Firm to audit the Company's Consolidated Financial Statements and the Annual Report on the Implementation of the Social and Environmental Responsibility Programs for Fiscal Year 2022. 5. Approval of the Company's Acquisition of Shares in PT Bank Mayora. 6. Approval of the Transfer of Shares from the Buyback of Shares in 2021 held as Treasury Shares. 7. Confirmation of Enforcement: <ol style="list-style-type: none"> a. Minister of SOEs Regulation No. PER-05/MBU/04/2021 concerning Social and Environmental Responsibility Programs for SOEs; b. Minister of SOEs Regulation No. PER-11/MBU/07/2021 concerning Requirements, Procedures for Appointment and Dismissal of Members of the Board of Directors of SOEs; and c. Minister of SOEs Regulation No. PER-13/MBU/09/2021, as the Sixth Amendment to the of the Minister of SOEs Regulation No. PER-04/MBU/2014 concerning Guidelines for Determining Remuneration for the Board of Directors, Board of Commissioners, and Supervisory Boards of SOEs.
2	Extraordinary GMS	Day/Date: Wednesday, August 31, 2022 Time: 14.00 until finished Place: Ballroom-Menara BNI, 6th Floor, Jln. Pejompongan Raya No. 7, Bendungan Hilir, Central Jakarta	<ol style="list-style-type: none"> 1. Presentation of the Company's Performance up to Semester I of 2022 (Audited); 2. Changes in the Company's Management Composition

PROCEDURES FOR HOLDING GMS

In accordance with OJK Regulations, when holding a GMS, a Public Company must comply with the following conditions:

1. Notify the meeting agenda to OJK, no later than 5 (five) working days before the announcement of the GMS, excluding the date of the announcement of the GMS;
2. Announce the GMS to the shareholders, no later than 14 (fourteen) days prior to the invitation for the GMS, excluding the date of the announcement and the date of the invitation; and
3. Deliver the GMS invitation to the shareholders, no later than 21 (twenty one) days prior to the date of the GMS, excluding the date of the invitation and the date of the GMS.

With reference to:

1. OJK Regulation No. 15/POJK.04/2020 concerning Planning and Implementation of General Meeting of Shareholders in Public Companies;

2. OJK Regulation No. 16/POJK.04/2020 concerning Implementation of Electronic General Meeting of Shareholders in Public Companies;
3. Article 23 paragraph (5) letter d and Article 23 paragraph (7) letter c of the Company's Articles of Association.

Announcements and invitations to shareholders are made at least through:

1. Website of the e-GMS provider
2. Stock Exchange website; and
3. Public Company website, in Indonesian and foreign languages, provided that the foreign language used is at least English.

GMS AGENDA MATERIAL

1. GMS Agenda Material documents contain the Meeting Agenda accompanied by the legal basis and explanations related to the GMS Agenda;
2. The Company shall provide meeting agenda material that can be accessed and downloaded through the Company's website and/or e-RUPS. The meeting agenda material must be available from the date of the invitation to the GMS until the GMS is held;
3. In the event of Changes to the Company's Management, curriculum vitae for candidates as members of the Board of Commissioners and Board of Directors of a Public SOE as proposed to be appointed at the GMS, will be available and announced at the time of the GMS, before making a decisions regarding the appointment of the candidates as a member of the Board of Commissioners and Board of Directors. This is as stipulated in the of the Minister of SOEs Regulation No. PER02/MBU/02/2015 concerning the Requirements and Procedures for Appointment and Dismissal of Members of the Board of Commissioners and Supervisory Board of SOEs, and the Minister of SOEs Regulation No. PER-11/MBU/07/2021 concerning Requirements and Procedures for Appointment and Dismissal of the Board of Directors of SOEs;

4. At the time of the GMS, Shareholders are entitled to receive information on meeting agenda and material related to agendas as long as they do not conflict with the interests of the Company.

GMS CONDUCT

1. The GMS Rules are carried out by referring to OJK Regulation No. 15/POJK.04/2020 concerning Planning and Implementing General Meeting of Shareholders in Public Companies;
2. The GMS Conduct is distributed to the shareholders/proxies at the time of registration;
3. The GMS Conduct regulates meeting participants who have the right to attend the GMS, the Meeting Chairperson, the language used in the GMS, the meeting quorum and decision making, mechanism for questioning and responding, mechanism for decision making, and voting procedures;
4. The GMS Conduct principles are read out prior to the GMS starting;
5. In accordance with the GMS Conduct provisions as stipulated in the Company's Articles of Association, at the opening of the GMS, the Chairperson of the GMS provides an explanation to the shareholders on:

- a. The Company's general condition in brief;
- b. GMS agenda;
- c. Decision making mechanism related to the GMS agenda; and
- d. Procedures for exercising shareholder rights to raise questions and/or share opinions.

SHAREHOLDERS AND OTHER PARTIES ATTENDANCE AT THE GMS

Shareholders, either in person or represented based on a power of attorney, are entitled to attend the GMS. Shareholders who are entitled to attend the GMS are shareholders whose names are registered in the list of shareholders of the Public Company 1 (one) working day prior to the invitation to the GMS.

In the Company's GMS in 2022, the Shareholders entitled to attend or be represented at the GMS were shareholders whose names were registered in the Company's Register of Shareholders on the date:

Recording Date of Shareholders Eligible to Attend	
Annual GMS March 15, 2022	Shareholders entitled to attend/represent and vote at the Meeting were the Company's Shareholders whose names were recorded in the Register of Company Shareholders or Shareholders in securities accounts at PT Kustodian Sentral Efek Indonesia (KSEI) on Friday, February 18, 2022 at 16.15 WIB.
Extraordinary GMS August 31, 2022	Shareholders entitled to attend/represent and vote at the Meeting were the Company's Shareholders whose names were recorded in the Register of Company Shareholders or Shareholders in securities accounts at PT Kustodian Sentral Efek Indonesia (KSEI) on Monday, August 8, 2022 at 16.15 WIB.

GRANTING POWER OF ATTORNEY, ELECTRONIC POWER OF ATTORNEY AND PROVISION OF OPPORTUNITIES TO SUBMIT QUESTIONS AND/OR RESPONSES

Based on OJK Regulation No. 15/POJK.04/2020 concerning Planning and Implementing General Meeting of Shareholders in Public Companies, Shareholders either alone or represented based on a power of attorney are entitled to attend the GMS. In voting, the votes cast by shareholders apply to all shares they own and shareholders are not entitled to give power of attorney to more than one proxy for a portion of the total shares they own with different votes.

At the Annual GMS on March 15, 2022 and the Extraordinary GMS on August 31, 2022, Shareholders unable to attend were given the right to be represented by their proxies by submitting a valid Power of Attorney. In addition, in an effort to prevent and control COVID-19, Shareholders could give their power of attorney to the Proxy through the Electronic General Meeting System (eASY.KSEI) facility provided by PT Kustodian Sentral Efek Indonesia.

Based on OJK Regulation No. 15/POJK.04/2020 concerning Planning and Implementing General Meeting of Shareholders in Public Companies, it regulates the obligation for Public Companies to provide an alternative electronic power of attorney for shareholders to attend and vote at the GMS.

Shareholders' Rights to Raise Questions and/or Provide Responses:

1. The only shareholders or their proxies who have the right to raise questions and/or provide responses at the GMS are shareholders or their proxies who have been registered at the GMS;
2. Using a questions and/or responses form submitted to shareholders or their proxies during the registration at the GMS
3. After the GMS Chairperson, or party appointed by the GMS Chairperson, submits a proposal regarding the matters to be decided in the GMS, the GMS Chairperson will provide an opportunity for the Company's shareholders or their proxies to ask questions and/or provide responses before a vote is held on the matter; and
4. For Shareholders or their proxies who wish to raise questions and/or provide responses, the GMS Chairperson will invite the shareholders/their proxies to ask questions and/or responses to the GMS Chairperson in writing by writing their names and the number of shares owned or represented. Questions and/or responses submitted must be directly related to the GMS Agenda being discussed.

In the Annual GMS held on March 15, 2022 and the Extraordinary GMS held on August 31, 2022, eligible Shareholders were granted the opportunity to ask questions and/or responses.

COMPANY’S EFFORTS TO INCREASE SHAREHOLDER ATTENDANCE AT THE GMS

In an effort by the Bank to facilitate Shareholders in exercising their rights and authority at the GMS, BNI has carried out the following:

1. The Company announces and delivered the Invitation to the GMS in a timely manner, in Indonesian and English, and published both in 2 (two) newspapers with national circulation, the Company’s website, and the Indonesia Stock Exchange website;
2. In the GMS Announcement and Invitation, the Company clearly explains the authorized shareholders who could attend/be represented and vote in the GMS, namely the Company’s Shareholders whose names were registered in the Company’s Shareholders Register or Shareholders in the securities accounts at PT Kustodian Sentral Efek Indonesia on the day of the Invitation;
3. On the website, the Company provided contacts for shareholders to communicate in connection with holding a GMS; and
4. The Company provided services to shareholders requiring information and/or who would ask questions related to the GMS plan and/or GMS agenda through either direct meetings or correspondence via e-mail.

GMS ATTENDANCE QUORUM AND RESOLUTIONS

Attendance Quorum

In accordance with OJK Regulations, a GMS can be held if more than 1/2 (one half) of the total shares with voting rights are present or represented, unless the Articles of Association of the Public Company specify a larger quorum. Based on the Company’s Articles of Association, the GMS can make changes to the Board of Directors and the Board of Commissioners, where it is regulated that the GMS must be attended by Series A Dwiwarna shareholders and other shareholders and/or their legal representatives who together represent at least 1/2 (one half) of the total number of shares with valid voting rights. This applies also to GMS for amending the Articles of Association, where it is regulated that the GMS must be attended by the Series A Dwiwarna shareholders and other shareholders and/or their legal representatives who together represent at least 2/3 (two thirds) of the total shares with valid voting rights.

GMS RESOLUTIONS

GMS resolutions are made based on deliberation to reach consensus. In the event that a resolution based on deliberation to reach a consensus is not reached, the resolution is decided by voting. Resolution by voting must be made with due observance of the GMS attendance quorum and resolution quorum.

The quorum for GMS resolutions is regulated so that resolutions must be approved by more than 1/2 (one half) of the total number of shares present. The GMS to approve amendments to the articles of association must be approved by the Series A Dwiwarna shareholder and other shareholders and/or their legal representatives who jointly represent more than 2/3 (two thirds) of the total shares with valid voting rights present at the GMS, as well as the GMS to approve changes to the Board of Directors and the Board of Commissioners composition must be approved by the Series A Dwiwarna shareholder and other shareholders and/or their legal representatives who jointly represent more than 1/2 (one half) of the total number of shares with voting rights present at the GMS.

At the Annual GMS held on March 15, 2022 and the Extraordinary GMS held on August 31, 2022, all resolutions on the agenda discussed at the GMS were taken based on voting with due egard to the provisions of the GMS attendance quorum and quorum resolution quorum.

With due observance of OJK Regulation No. 15/POJK.04/2020 of 2020 concerning Plans and Implementation of General Meeting of Shareholders of Public Companies and OJK Regulation No. 16/POJK.04/2020 of 2020 concerning Implementation of Electronic General Meeting of Shareholders of Public Companies, in connection with the holding of the Annual GMS on 15 March 2022 and the Extraordinary GMS on 31 August 2022, the Company published a summary of the minutes of the GMS since the closing of the GMS, namely through the KSEI website, the Company website, and Indonesia Stock Exchange website, in Indonesian and foreign languages (English).

APPLICATION OF THE ONE SHARE ONE VOTE PRINCIPLE

At the Annual GMS held on March 15, 2022 and the Extraordinary GMS held on August 31, 2022, the One Share One Vote Principle was applied for decision making and voting procedures. These provisions were contained in the Rules for the 2020 Annual GMS, and among other matters stipulate that each share gave the owner the right to cast 1 (one) vote.

In accordance with OJK Regulation No. 15/POJK.04/2020 concerning the Planning and Implementing of Public Company GMS, in the Fiscal Year 2021 Annual GMS, the GMS Rules were given to shareholders present, and the Principal Rules of the GMS were read out before the GMS started.

PARTIES VALIDATING VOTING RESULTS

During the GMS, the Company engages Independent and professional parties to support the reasonableness and validity of the GMS’s conduct and decisions. The Independent Parties are:

1. Notary
A Notary is a public official authorized to prepare an authentic deed with other authorities as referred to in Notorial Law, and who is registered with OJK as a capital market supporting profession. The Notary’s role is to examine the validity of supporting documents, and the formality requirements for the GMS, to ensure they do not conflict with the laws and regulations and articles of association.
2. Share Register Bureau
The Share Register Bureau is a party contracted with the company/issuer to record the securities ownership and distribution of rights related to securities. The Share Register Bureau assists the company/issuer in concening the GMS, by:
 - a. Preparing proxies from minority shareholders;
 - b. Publishing Written Confirmation for Meetings (KTUR);
 - c. Validating shareholders who are entitled to attend the GMS and registering them;
 - d. Calculating shareholders presence in connection with the GMS quorum;
 - e. Providing voting cards for shareholders;
 - f. Helping the Notary in calculating votes using a barcode scanner

Follow Up	Resolution Realized		

BOARD OF COMMISSIONERS

The Board of Commissioners is the Company organ charged with supervising the policies and management by the Board of Directors, the management and business activities of the Bank, and provides advice to the Board of Directors when carrying out such management. The Board of Commissioners' duties and responsibilities are carried out for the benefit of BNI and in accordance with the Bank's aims and objectives.

LEGAL BASIS

The legal basis for the establishment and appointment of the Bank's Board of Commissioners refers to several provisions, including the 2007 Republic of Indonesia Law No. 40 concerning Limited Liability Companies, as amended in part by 2020 Law No. 11 concerning Job Creation, and the 2003 Republic of Indonesia Law No. 19 dated June 19, 2003 concerning State-Owned Enterprises and other statutory regulations, specifically OJK No. 33/POJK.04/2014 dated December 8, 2014 concerning the Board of Directors and Board of Commissioners of Issuers or Public Companies, and the OJK Regulation No. 55/POJK.03/2016 dated December 7, 2016 concerning Implementation of Governance for Commercial Banks.

BOARD OF COMMISSIONERS' STRUCTURE AND COMPOSITION

1. The BNI Board of Commissioners membership structure consists of a President Commissioner, Vice President Commissioner, and Commissioners;
2. The BNI Board of Commissioners composition consists of Non-Independent Commissioners and Independent Commissioners;
3. The Board of Commissioners is an assembly, and therefore each member of the Board of Commissioners cannot act individually, as they shall be based on resolutions by the Board of Commissioners.

BOARD OF COMMISSIONERS' GUIDELINES AND PROCEDURES

The BNI Board of Commissioners Guidelines and Procedures are stipulated in the BNI Board of Commissioners Decree No. KEP/49/DK/2017 dated October 26, 2017, which regulates the following matters:

1. Legal Basis;
2. Structure;
3. Requirements for Members of the Board of Commissioners;
4. Independent Commissioners;
5. Board of Commissioners' Duties, Authorities, Obligations and Responsibilities;
6. Appointment and Dismissal of Members of the Board of Commissioners;
7. Term of Office of the Board of Commissioners and Vacant Positions;
8. Board of Commissioners' Meetings and Joint Meetings of the Board of Commissioners and Board of Directors;
9. Board of Commissioners' Division of Work and Working Time;
10. Secretariat of the Board of Commissioners and Secretary to the Board of Commissioners;
11. Corporate values;
12. Board of Commissioners' Work Ethics and Prohibitions;
13. Transparency.

BOARD OF COMMISSIONERS' DUTIES AND RESPONSIBILITIES

The Board of Commissioners is tasked and responsible for supervising management policies, the general management of both the Company and the Company's business carried out by the Board of Directors and providing advice to the Board of Directors, including supervising the implementation of the Company's Long Term Plan, the Company's Annual Work Plan and Budget, and the provisions in the Articles of Association, Resolutions of the General Meeting of Shareholders (GMS), as well as the prevailing laws and regulations, for the benefit of the Company and in accordance with the purposes and objectives of the Company. This is in line with the 2007 Republic of Indonesia Law No. 40 of concerning Limited Liability Companies, as partially amended by 2020 Law No. 11 concerning Job Creation, and BNI's Articles of Association.

In carrying out their duties, each member of the Board of Commissioners is obliged to:

1. Comply with the Articles of Association and laws and regulations, as well as the principles of professionalism, efficiency, transparency, independence, accountability, responsibility, as well as fairness and equality;

2. Have good faith, prudence and responsibility when carrying out their supervisory duties and providing advice to the Board of Directors for the interests of the Company and in accordance with the purpose and objectives of the Company.

To maintain objectivity and independency in performing the functions and duties of supervision, as stipulated in the POJK that regulates the implementation of governance for Commercial Banks, the Board of Commissioners is prohibited from participating in making decisions in the Bank's operational activities, except for:

1. Provision of funds to related parties as stipulated in the provisions on a legal lending limit for commercial banks; and
2. Other matters set forth in the Bank's Articles of Association or Laws and Regulations.

The decision making of the Bank's operational activities by the Board of Commissioners is part of the Board of Commissioners' supervisory duties, which does not negate the Board of Directors' responsibilities for the Bank's management activities.

BOARD OF COMMISSIONERS' AUTHORITIES

In accordance with the Bank's Article of Association, the Board of Commissioners' authorities include:

1. Examining books, letters, and other documents, examining the cash for verification purposes and other securities, and examining the Bank's assets;
2. Entering the yards, buildings, and offices used by the Bank;
3. Requesting explanations from the Board of Directors and/or other officials on any issues related to the Bank's management;
4. Understanding all policies and actions that have been and will be carried out by the Board of Directors;
5. Requesting the Board of Directors and/or other officials under the Board of Directors, with the consent of the Board of Directors attend the Board of Commissioners' Meeting;
6. Appointing and dismissing a Secretary to the Board of Commissioners;
7. Temporarily dismissing a member of the Board of Directors in accordance with the provisions stipulated in the Articles of Association;
8. Establishing an Audit Committee, Remuneration and Nomination Committee, Risk Monitoring Committee, Integrated Governance Committee, and other committees if deemed necessary with due observance of the Bank's capability;
9. Involving experts on certain matters and for a certain time period at the Bank's expense, whenever deemed necessary;
10. Performing Bank management in certain circumstances for a certain time period in accordance with the provisions stipulated in the Articles of Association;
11. Approving the appointment and dismissal of the Corporate Secretary and/or Head of the Internal Audit;

12. Attending Meetings of the Board of Directors and providing insights on matters discussed;
13. Carrying out other supervisory authority as long as it is not in contrary to the laws and regulations, Articles of Association, and/or GMS resolutions.

BOARD OF COMMISSIONERS' OBLIGATIONS

Based on BNI's Articles of Association, the Board of Commissioners is obliged to:

1. Provide advice to the Board of Directors in conducting the management of the Bank;
2. Provide opinions and approval for the Bank's Annual Work Plan and Budget, as well as other work plans prepared by the Board of Directors, in accordance with the provisions of the Articles of Association;
3. Follow the Bank's development, provide opinions and suggestions to the GMS on any matters deemed necessary for the management of the Bank;
4. Report to the Dwiwarna Series A Shareholders in the event of any decline in the Bank's performance;
5. Propose to the GMS the appointment of a Public Accounting Firm to audit the Bank's books;
6. Examine and review the periodic reports and Annual Reports prepared by the Board of Directors, including signing the Annual Report;
7. Provide explanations, opinions, and suggestions to the GMS on the Annual Report, if requested;
8. Prepare Minutes of the Board of Commissioners' Meetings and maintain a copy
9. Report to the Bank on any personal and/or familial share ownership in the Bank and any other Companies;
10. Provide a report on the supervisory duties that were performed in the previous fiscal year to the GMS;
11. Provide an explanation on all matters questioned or requested by Dwiwarna Series A Shareholders with due observance of the laws and regulations particularly those applicable in Capital Market sector;
12. Perform other obligations in the framework of supervisory and advisory duties as long as they do not violate the laws and regulations, Articles of Association, and/or GMS resolutions;
13. Grant approval in writing for legal acts performed by the Board of Directors as required in BNI's Articles of Association with regard to the laws and regulations in the Capital Market sector:
 - a. Release/transfer and/or pledge the Bank's assets with criteria and values exceeding certain amounts stipulated by the Board of Commissioners, except assets that are recorded as inventories, with due observance of the provisions in the capital market and banking sector;
 - b. Cooperate with other business entities or parties, in the form of joint operations (KSO), business cooperatives (KSU), license agreements, Build, Operate, and Transfer (BOT), Build, Transfer,

and Operate (BTO), Build, Operate, and Own (BOO), and other agreements that have the same nature, same time period, or value exceeding those set by the Board of Commissioners;

- c. Establish and change the Company's logo;
- d. Establish an organizational structure 1 (one) level below the Board of Directors;
- e. Undertake capital participation with a specified value as stipulated by the Board of Commissioners of other companies, subsidiaries, and joint ventures that is not in the framework of rescuing receivables with due observance of the provisions in the Capital Market sector;
- f. Establish subsidiaries and/or joint venture companies with a certain value as stipulated by the Board of Commissioners with due observance of the provisions in the Capital Market sector;
- g. Propose the Bank's representative as a candidate member of the Board of Directors and Board of Commissioners in a subsidiaries that make a significant contribution to the Bank, and/or has strategic value as stipulated by the Board of Commissioners;
- h. Perform mergers, consolidations, acquisitions, spinoffs, and liquidation of subsidiaries or joint-ventures with a certain value as stipulated by the Board of Commissioners with due observance of the provisions in the Capital Market sector;
- i. Perform actions included in material transactions as stipulated by the laws and regulations in the capital market sector with certain values as determined by the Board of Commissioners, except if such actions are included in material transactions excluded by the laws and regulations applicable in the Capital Market sector;
- j. Actions that are not stipulated in the RKAP;
- k. Actions to transfer including selling, releasing the right to charge and/or not to charge again for:
 - i) The principal of non-performing receivables which have been written off in the framework of credit settlement, either partially or entirely; and
 - ii) The difference between the principal value of non-performing receivables that has been written off with a transfer value including sales or with the value of disposal of right; to be carried out based on the Board of Directors' policies that have been approved by the Board of Commissioners and in the

amount of debt-cancelled limit set by the GMS that shall remain in force until any new limit has been determined by the GMS.

The Board of Commissioners' approval regarding letters a, b, e, f, g, and h above, with certain limits and/or criteria, is determined after obtaining the approval from the Dwiwarna Series A Shareholders. The determination of limits and/or criteria by the Board of Commissioners for the matters referred to in letters a, b, e, f, g, and h above is achieved after obtaining the approval of the Dwiwarna Series A Shareholders, and stated in a Board of Commissioners' Decree.

BOARD OF COMMISSIONERS' TERM OF OFFICE

The Board of Commissioners' term of office is at most 2 (two) consecutive periods, with the following conditions:

1. Members of the Board of Commissioners are appointed for a term of office from the date of the GMS appointing them until the closing of the 5th (fifth) Annual GMS after the date of their appointment, on condition that they do not exceed 5 (five) years with regards to the Capital Market laws and regulations, without prejudice to the right of GMS to dismiss them at any time prior to the end of their term of office; and
2. After their term of office ends, the members of the Board of Commissioners may be reappointed by the GMS for 1 (one) more term of office.

BOARD OF COMMISSIONERS' CRITERIA

Members of the Board of Commissioners shall be obliged to comply with the Law on Limited Liability Companies, legislation in the Capital Market and other applicable regulations and those related to the Company's business activities.

Based on BNI's Articles of Association, individuals who can be appointed as members of the Board of Commissioners are individuals who meet the requirements upon the appointment date and during their tenure:

1. Having good character, morals, and integrity;
2. Competent in carrying out legal actions;
3. Within 5 (five) years before appointment and during their tenure:
 - a. Has not been declared bankrupt;
 - b. Never been a member of a Board of Directors and/or Board of Commissioners found guilty in causing a company to become bankrupt;

- c. Never been convicted of any criminal offense that is detrimental to a country's or financial sector's financial position; and
- d. Never been a member of the Board of Directors and/or Board of Commissioners which during the terms of office:
 - i) Did not hold an AGMS;
 - ii) Their accountability as a member of the Board of Directors and/or Board of Commissioners was not accepted by the GMS or they did not submit their accountability as a member of the Board of Directors and/or Board of Commissioners to the GMS; and
 - iii) Caused a company to obtain a license, approval, or registration from the Financial Services Authority when not complying with its obligation to submit the annual report and/or financial report to the Financial Services Authority.
4. Has the commitment to comply with laws and regulations;
5. Has the knowledge and/or expertise in the fields required by the Company;
6. Meets other requirements as regulated in applicable laws and regulations;
7. Members of the Board of Commissioners and members of the Board of Directors are prohibited from having blood relations to the third degree, either in a straight line or sideways or a relationship that arises due to marriage ties including in-laws; and
8. In addition to meeting the above criteria, appointment of the Board of Commissioners members is carried out by taking into account integrity, dedication, understanding of the company's management issues related to the management function, having adequate knowledge in the Company's line of business, and being able to provide sufficient time to carry out their duties and other requirements based on statutory regulations.

BOARD OF COMMISSIONERS' APPOINTMENT PROCESS

The appointment process of the candidates of the Board of Commissioners is carried out by referring to laws and regulations stipulating the appointment procedures for members of Board of Commissioners for the Bank and SOE sectors, particularly:

1. Minister of SOEs Regulation No. Per-02/MBU/02/2015 dated February 17, 2015 concerning Requirements and Procedures for Appointment and Dismissal of Members of the Board of Commissioners and Supervisory Board of State-Owned Enterprises, as amended by Minister of SOEs Regulation No. PER-10/MBU/10/2020 dated October 16, 2020;

2. Minister of SOEs Regulation No. PER-01/MBU/2011 dated August 01, 2011 concerning Implementation of Good Corporate Governance in SOEs, as amended by Minister of SOEs Regulation No. PER-09/MBU/2012 dated July 6, 2012;
3. Financial Services Authority Regulation No. 27/POJK.03/2016 dated July 22, 2016 concerning Fit and Proper Test for Main Parties of Financial Services Institutions, and Financial Services Authority Circular Letter No. 39/SEOJK.03/2016 dated September 13, 2016 concerning Fit and Proper Test for Prospective Controlling Shareholders, Prospective Members of the Board of Directors and Prospective Members of the Board of Commissioners of the Bank;
4. Financial Services Authority Regulation No. 55/POJK.03/2016 dated December 7, 2016 concerning Implementation of Governance for Commercial Banks;
5. Financial Services Authority Regulation No. 33/POJK.04/2014 concerning Board of Directors and Board of Commissioners of Issuers or Public Companies;
6. BNI's Articles of Association that regulates the appointment of members of the Board of Commissioners.

Members of the Board of Commissioners are appointed at the GMS attended and approved by Dwiwarna Series A Shareholders, and the meeting resolutions shall be approved by Dwiwarna Series A Shareholders with due observance to the provisions of the Articles of Association. GMS resolutions on appointment of members of Board of Commissioners also determine the effectiveness of the appointment. In the event that GMS does not adopt a resolution, then the appointment as member of the Board of Commissioners will effectively start from the close of the GMS. Submission of the proposal for candidate members of Board of Commissioners to the GMS through Dwiwarna Series A Shareholders is carried out by observing the recommendations of the Nomination and Remuneration Committee.

OJK Regulation No. 27/POJK.03/2016 dated July 22, 2016, concerning Fit and Proper Test for the Primary Parties of Financial Services Institutions, regulates that candidate members of Board of Commissioners, who are included as BNI's Primary Party, which is a Financial Services Institution, must obtain approval from OJK before carrying out actions, duties, and functions as a member of the Board of Commissioners. In order to provide such approval, OJK conducts a fit and proper test of candidate members of the Board of Commissioners.

Members of the Board of Commissioners who have passed the fit and proper test without notes and have obtained approval from OJK indicates that such members of the Board of Commissioners have and fulfill the requirements of integrity, competency, and financial reputation in an adequate manner.

BOARD OF COMMISSIONERS' NUMBER AND COMPOSITION

In 2022, the Board of Commissioners composition and number underwent 1 (one) change. More detailed information on the changes and the reasons for the changes are presented in the Board of Commissioners Profile, Profile of Changes Chapter, in this Annual Report. In summary, the Board of Commissioners changes in the number and composition were as follows:

Period January 1 – August 31, 2022

For the period January 1 – August 31, 2022, the Board of Commissioners consists of 10 (ten) members, consisting of 1 (one) President Commissioner who is also an Independent Commissioner, 1 (one) Vice President Commissioner, 5 (five) Independent Commissioners and 3 (three) Commissioners.

Name	Position	Domicile	Basis For Appointment	Effective Date of Office
Agus Dermawan Wintarto Martowardojo	President Commissioner/Independent Commissioner	Jakarta	AGMS Decision on February 20, 2020	June 17, 2020

Septian Hario Seto	Independent Commissioner	AGMS Decision on February 20, 2020
Erwin Rijanto Slamet	Independent Commissioner	AGMS Decision on March 29, 2021

Note:
¹⁾ Served as Commissioner since August 31, 2022 and effective based on OJK approval on December 23, 2022

BOARD OF COMMISSIONERS' DIVISION OF SUPERVISORY ROLES AND RESPONSIBILITIES

PRESIDENT COMMISSIONERS' DUTIES

- Coordinating the implementation of Board of Commissioners' duties;
- Chairing the Board of Commissioners' Meetings;
- Signing written documents including correspondence with other Commissioners;
- Representing the Board of Commissioners by attending forums, meetings and events organized by the authorities, Dwiwarna Series A Shareholders and other institutions;
- Representing the Board of Commissioners in chairing the Company's General Meeting of Shareholders.

In addition to the above duties and responsibilities, each member of the Bank's Board of Commissioners has additional roles and responsibilities. The division of work for members of the BNI Board of Commissioners is carried out by determining the distribution of the positions of the Board of Commissioners' members in Committees established by the Board of Commissioners to assist with the smooth running of their duties, namely in the Audit Committee, the Risk Monitoring Committee, the Nomination and Remuneration Committee and the Integrated Governance Committee. The appointment of each Board of Commissioners member as a committee member is regulated through a Board of Commissioners Decree.

In 2022, there was a change in the Board of Commissioners composition so the Board of Commissioners division of duties and responsibilities was adapted to the latest needs and developments. The changes in the Board of Commissioners' membership composition as committee members during 2021 were as follows:

Period January 1, 2022 – August 31, 2022

Name	Position	Period	Division of Duties
Agus Dermawan Wintarto Martowardojo	President Commissioner/Independent Commissioner	<ul style="list-style-type: none">January 1, 2022-PresentJanuary 1, 2022-Present	<ul style="list-style-type: none">Chairperson of the Nomination and Remuneration CommitteeChairperson of the Integrated Governance Committee

ORIENTATION AND INDUCTION PROGRAM FOR NEW COMMISSIONERS

The orientation and induction program for new commissioners is carried out through documents, presentations or providing explanations from the Board of Directors, Corporate Secretary, related Divisions or units, which generally include information/matters pertaining to:

1. Vision, mission, the organizational structure of the bank, business activities and operational network;
2. Annual Report, the Bank's Work Plan and Budget (RKAP), and the Bank's Business Plan (RBB), Bank's Code of Ethics, BNI's Corporate Cultures, the Boards of Commissioners Manual, Corporate Governance Handbook, and the Articles of Association;
3. Good Corporate Governance (concurrent positions, share ownership, and independent commissioners);
4. The Board of Commissioners and the Board of Directors' duties, authority, and responsibilities, the Board of Commissioners' delegation of authority and limits of authority in conducting supervisory duties on the bank based on the applicable laws and regulations;
5. Committees under the Board of Commissioners, which are established and directly responsible to the Board of Commissioners, Secretary of the Board of Commissioners, and Secretariat of the Board of Commissioners, which facilitates the duties of the Board of Commissioners;
6. Remuneration and facilities provided to members of the Board of Commissioners.

BOARD OF COMMISSIONERS' CONCURRENT POSITIONS

The Board of Commissioners does not have concurrent positions that are prohibited based on the applicable laws and regulations. The Board of Commissioners' concurrent positions that are allowed are based on the applicable Laws and Regulations and are executed by the related members of the Board of Commissioners whilst not ignoring the implementation of duties and responsibilities as members of the Bank's Board of Commissioners.

As of December 31, 2022, the concurrent positions for each member of the Bank's Board of Commissioners, are as follows:

Name	Member Of The Board Of Directors Of State Owned Enterprises, Regional Owned Enterprises, Private Owned Enterprises	Management Board Of Political Parties And/ Or Candidates/ Members Of DPR, DPD, DPRD Level I, And DPRD Level II And/ Or Candidates For Regional Head/ Deputy Regional Head	Other Positions In Accordance With The Provisions Of Laws And Regulations	Other Positions That Can Cause A Conflict Of Interest

²⁾ Served as Commissioner since August 31, 2022 and effective based on OJK approval on December 23, 2022

BOARD OF COMMISSIONERS' CONFLICT OF INTEREST MANAGEMENT

A Conflict of Interest is a situation where the Bank's economic interests contradict with personal economic interests. Regarding such matters, members of the Board of Commissioners are obliged to:

1. Prioritize the Bank's interests and not decrease the Bank's financial in the event of any conflict of interest;
2. Refrain from making decisions in situations and conditions of conflict of interest;
3. Disclose familial relationships, financial relationships, management relationships, ownership relationships with other members of the Board of Commissioners and/or members of the Board of Directors and/or the bank's controlling shareholders and/or other parties in the framework of the Bank's business;
4. Disclose decisions that may have been made in a condition of a conflict of interest.

IMPLEMENTATION OF THE BOARD OF COMMISSIONERS' DUTIES

Implementation of the Board of Commissioners' duties refers to the Board of Commissioners' Work Plan and Budget (RKA) that is prepared and submitted to the Board of Directors at the beginning of the year. The preparation of the RKA is as required based on:

1. Minister of SOEs Regulation No. PER-01/ MBU/2011 dated August 1, 2011 concerning Good Corporate Governance Implementation in State-Owned Enterprises as amended by Minister of SOEs Regulation Number PER-09/ MBU/2012 dated July 6, 2012 Article 12 paragraph (5) which regulates that the Board of Commissioners/ Supervisory Board must prepare a work plan and annual budget of the Board of Commissioners/Supervisory Board which is an integral part and RKAP; and

2. Article 17 paragraph (2) of BNI's Articles of Association that regulates that the Board of Commissioners must prepare a work program for the Board of Commissioners as an inseparable part of the Company's Annual Work Plan and Budget prepared by the Board of Directors.

MECHANISM FOR THE BOARD OF COMMISSIONERS' SUPERVISORY DUTIES IMPLEMENTATION

BNI's Board of Commissioners carries out its functions, duties and obligations through the following mechanisms:

1. Board of Commissioners' Meetings, including internal Board of Commissioners' Meetings, or Meetings by inviting Sectoral Director or Senior Executive Vice Presidents related to the Meeting agenda, or regular joint meetings between the Board of Commissioners and the Board of Directors.
2. The Committees under the Board of Commissioners active roles are to assist and support the duties of the Board of Commissioners, are conducted through the Committee meetings, evaluations, studies or reviews of matters that are part of the duties of the Board of Commissioners.
3. Providing directives and opinions in writing to the Board of Directors as:
 - a. Follow up on the resolutions of the Board of Commissioners Meeting or the joint meetings of the Board of Commissioners and the Board of Directors;
 - b. Responses to reports on the implementation of the Board of Directors duties or requests for approval, consultations or proposals submitted by the Board of Directors to the Board of Commissioners, as well as information on strategic and significant issues, based on the results of the evaluations and reviews of the Board of Commissioners in written reports on the implementation of the Board of Directors' duties to the Board of Commissioners.
4. Visiting the BNI work units, as well as providing directives and opinions of the Board of Commissioners to the Board of Directors based on the results of the Work visits.

BOARD OF COMMISSIONERS' SUPERVISORY DUTIES REALIZATION

Throughout 2022, the Board of Commissioners carried out their duties, obligations and responsibilities to supervise the management policies and management of the Bank in line with the prevailing laws and regulations, the Bank's Articles of Association and the Work Plan set at the beginning of the year, which included the following:

1. Performing the supervisory function of the Bank's Business Plan (RBB), including:

- a. Directing, monitoring and evaluating the implementation of the Bank's 2022 strategic policies, including evaluation of the Corporate Plan and RBB as well as financial performance in 2022 every month;
- b. Supervising efforts to achieve RBB, in particular achieving important aspects in the business plan such as loan distribution, asset quality improvement, third party fund collection, productivity and efficiency;
- c. Reviewing the Revised RBB for 2022-2024;
- d. Evaluating the RBB as reported to the Financial Services Authority every semester and submitting the RBB supervision report to the Financial Services Authority; and
- e. Reviewing and giving approval for the 2023-2025 RBB.
2. Evaluating the Consolidated Financial Performance of BNI every month and submitting a Performance Report to the Ministry of SOEs on a quarterly basis;
3. Reviewing the financial information to be issued by the Company;
4. Reviewing the financial statements audit for the fiscal year 2021 conducted by the Public Accounting Firm (KAP) or other external parties;
5. Proposing the appointment of an External Auditor to conduct an examination of PT BNI (Persero) Tbk for the Fiscal Year 2022;
6. Performing supervisory functions on the implementation of internal controls in BNI, including:
 - a. Ensuring that BNI's internal control system is running well;
 - b. Ensuring the Board of Directors are monitoring the effectiveness of the Internal Audit Work Unit (SKAI) or the BNI Internal Audit;
 - c. Supervising the BNI Internal Supervision Unit duties including:
 - i) Evaluating internal control or BNI Internal Audit;
 - ii) Reviewing the audit plan and implementation as well as monitoring the follow-up audit results on the implementation of the BNI Internal Audit duties;
 - iii) Ensuring that the Board of Directors has followed up on audit findings and recommendations from the BNI Internal Audit, the supervision results by OJK and/or other supervisory authorities, the Supreme Audit Agency findings, external auditors or public accountants audits results, by ensuring the Board of Directors follow up on audit findings both in writing and orally;

- iv) Reviewing the main points of audit results from the BNI Internal Audit as reported to the Financial Services Authority every semester.

23. Appointment of Fadlansyah Lubis as a Member of the Risk Monitoring Committee.

DECISIONS REQUIRING BOARD OF COMMISSIONERS' APPROVAL

Descriptions of Board of Directors' decisions that require approval from the Board of Commissioners are contained in the Company's Articles of Association document, as determined by the Board of Commissioners in a Board of Commissioners' Decree in accordance with certain limitations and/or criteria that have been approved by the Series A Dwiwarna Shareholders. Board of Directors Decisions that require written approval from the Board of Commissioners are in accordance with the Articles of Association, and the above Board of Commissioners Decree with due observance of laws and regulations and provisions in the field of Capital Markets, including:

1. Releasing/transferring and/or pledging the Company's assets with criteria and values exceeding a certain amount determined by the Board of Commissioners, except for assets recorded as inventory, taking into account the provisions in the capital market and banking sector;
2. Establishing cooperation with business entities or other parties, in the form of Operational Cooperation (KSO), Business Cooperation (KSU), License Cooperation, Build, Operate and Transfer (BOT), Build and Transfer (Build), Transfer and Operate/BTO), Build, Operate and Own/BOO and other agreements of the same nature with a term or value exceeding that determined by the Board of Commissioners;

3. Establishing and changing the Company's logo;
4. Establishing an organizational structure 1 (one) level below the Board of Directors;
5. Instigating equity participation, releasing equity participation including changes in the capital structure with a certain value determined by the Board of Commissioners in other companies, subsidiaries and joint ventures that are not in the context of saving receivables with due observance to provisions in the Capital Market sector;
6. Establishing a subsidiary and/or joint venture company with a certain value determined by the Board of Commissioners with due observance of provisions in the Capital Market sector;
7. Proposing representatives of the Company to become candidates for Members of the Board of Directors and Board of Commissioners in subsidiaries that make a significant contribution to the Company and/or have strategic value determined by the Board of Commissioners
8. Performing mergers, consolidations, acquisitions, separations and dissolutions of subsidiaries and joint ventures with a certain value determined by the Board of Commissioners with due observance of provisions in the field of Capital Markets;
9. Carrying out actions that are included in material transactions as stipulated by laws and regulations in the field of capital markets with a certain value determined by the Board of Commissioners, unless these actions are included in material transactions that are excluded by the laws and regulations that apply in the field of capital markets;
10. Carrying out actions that have not been determined in the RKAP;
11. Carrying out actions to transfer include selling, releasing the right to collect and/or not collect again for:
 - a. Principal bad debts that have been written off in the context of loan settlement, either in part or in whole; and
 - b. The difference between the value of the principal bad debts that has been written off and the value of the transfer including sales or the value of the disposal of rights; carried out based on the policy of the Board of Directors, which has been approved by the Board of Commissioners, and in the amount of the limit (limit) for write off as determined by the GMS, which will remain in effect until a new limit is determined by the GMS.

The Board of Commissioners approval concerning points 1, 2, 5, 6, 7 and 8 above with certain limits and/or criteria, is determined after compliance with the limits and/or criteria as approved by the Dwiwarna Series A Shareholders. Determination of limits and/or criteria by the Board of Commissioners for the matters referred to in points 1, 2, 5, 6, 7 and 8 above is determined by the Board of Commissioners in accordance with obtaining certain limits and/or criteria that have received approval from Series Shareholders A Dwiwarna, and has been stated in a Board of Commissioners Decree.

BOARD OF COMMISSIONERS' COMPETENCY DEVELOPMENT

The Board of Commissioners' competency development can be seen in the discussion section on the Company Profile in this Annual Report.

Erwin Rijanto Slamet	Independent Commissioner	Level 2
Fadlansyah Lubis ²⁾	Commissioner	Level 1

Note:

¹⁾ Ceased serving on August 31, 2022

²⁾ Served as Commissioner since August 31, 2022 and effective based on OJK approval on December 23, 2022

BOARD OF COMMISSIONERS' DISMISSAL AND RESIGNATION MECHANISM

The mechanism for dismissal and resignation of the Board of Commissioners is based on BNI's Articles of Association as follows:

- Members of the Board of Commissioners are appointed and dismissed by the GMS, where the GMS is attended by Dwiwarna Series A shareholders and the Meeting's resolution shall be approved by Dwiwarna Series A shareholders, by observing the provisions in the Articles of Association;
- Members of the Board of Commissioners may at any time be dismissed based on a GMS resolution by stating the reasons. The reason for dismissal of the related member of the Board of Commissioners is carried out in the event that it is based on fact that the member of the Board of Commissioners, among others:
 - Failed to perform the duties properly;
 - Violated the provisions of the Articles of Association and/or laws and regulations;
 - Engaged in actions that harms the Company and/or the State;
 - Committed an action that violated the ethics and/or properness that shall be respected as member of the Board of Commissioners;
 - Has been found guilty by a Court decision that has permanent legal force; or
 - Resigns.

- In addition to the aforementioned reasons for the dismissal of member of the Board of Commissioners, members of the Board of Commissioners may be dismissed by the GMS based on other reasons that are deemed appropriate by the GMS for the interests and objectives of the Company.
- The decision to dismiss due to reasons as stated in point 2 letter a, b, c, and d is carried out after the relevant member is given opportunity to defend themselves in the GMS.
- Dismissal as referred to in letter c and e is a dishonorable discharge.
- For members of the Board of Commissioners and among members of the Board of Commissioners and members of the Board of Directors, there must be no blood relationship up to the third degree, either in a straight line or side line, or a marriage relationship/familial relationship arising from marital ties, including son/daughter in law or brother/sister-in-law). In the event of such situation, the GMS has the authority to dismiss one of them.
- A member of the Board of Commissioners has the right to resign from the position before the term of office ends by notifying in writing of the intention to the Company.
- The Company must convene a GMS to resolve the resignation request of a member of the Board of Commissioners no longer than 90 (sixty) days after receiving the resignation letter.

- The Company must disclose the information to public and submit to OJK no later than 2 (two) business days after receiving such resignation request from the member of the Board of Commissioners as referred to in point 7 and the results of the GMS convention as referred to in point 8 above.
- Before the resignation becomes effective, the relevant member of Board of Commissioners will remain obligated to complete the duties and responsibilities in accordance with the Articles of Association and applicable Laws and Regulations.
- The member of the Board of Commissioners who resigns as mentioned above can still be held accountable as a member of the Board of Commissioners since appointment until the approval date of the resignation at the GMS.
- The release of the responsibilities of the resigning members of the Board of Commissioners is given after the Annual GMS releases them.
- In the event that a member of Board of Commissioners resigns and this causes the total number of Board of Commissioners to be less than 3 (three) people, then the resignation becomes valid if it has been resolved by GMS and a new member of Board of Commissioners has been appointed, therefore, the minimum requirements of the number of members of Board of Commissioners is satisfied.
- The position of a member of the Board of Commissioners shall end in the event that:
 - The resignation has become effective as referred to in point 8 above.
 - They pass away;
 - Their term of office ends;
 - They are dismissed based on the GMS; or
 - They are declared bankrupt by a Commercial Court which has legal binding force; permanent or underguarded based on a court decision; and
 - They can no longer fulfill the requirements as a member of the Board of Commissioners based on Articles of Association and other laws and regulations.
- Members of the Board of Commissioners who resign before or after the term of office ends, unless due to death, shall still be responsible for actions whose accountability has not been received by the GMS.

COMPLETENESS OF THE BOARD OF COMMISSIONERS' ORGANS

To support the Board of Commissioners' supervisory duties, supporting organs have been established consisting of committees under the Board of Commissioners and the Secretariat of the Board of Commissioners.

The establishment and implementation of the Secretariat of the Board of Commissioners and the Committees under the Board of Commissioners is carried out by taking into account the applicable laws and regulations, including the Financial Services Authority (POJK) Regulations and the Minister of SOEs (BUMN) regulations, in particular:

- Minister of SOEs Regulation No. PER-12/MBU/2012 dated August 24, 2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs, as amended by Minister of SOEs Regulation No. PER-06/MBU/2021 dated April 13, 2021, and Minister of SOEs Regulation No. PER-14/MBU/10/2021 dated October 29, 2021, whereby the organs of the Board of Commissioners may consist of the Audit Committee, Nomination and Remuneration Committee, Risk Monitoring Committee and Integrated Governance Committee and the Secretariat of the Board of Commissioners;
- OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Governance for Financial Conglomerates, in order to support the effectiveness of carrying out their duties, the Main Entity Board of Commissioners is required to establish an Integrated Governance Committee;
- OJK Regulation No. 45/POJK.03/2015 dated December 23, 2015 concerning the Implementation of Governance in the Provision of Remuneration for Commercial Banks, in carrying out supervisory duties on the implementation of Remuneration policies and periodic evaluation of Remuneration policies, the Board of Commissioners is required to form a Remuneration Committee;
- OJK Regulation No. 55/POJK.04/2015 dated December 23, 2015 concerning the Establishment and Guidelines for the Implementation of Work of Audit Committees, Issuers or Public Companies are required to have an Audit Committee.
- POJK No. 55/POJK.03/2016 dated December 7, 2016 concerning the Implementation of Good Corporate Governance for Commercial Banks, and to support the effectiveness of the implementation of their duties and responsibilities, the Board of Commissioners is required to establish at least an Audit Committee, a Risk Monitoring Committee and a Nomination and Remuneration Committee;
- Minister of SOEs Regulation No. PER-5/MBU/09/2022 dated September 1, 2022 concerning Implementation of Risk Management in SOEs, risk management organs for the implementation of risk management, which consist of the Board of Commissioners, Audit Committee, Risk Monitoring Committee and Integrated Governance Committee.

COMMITTEES UNDER THE BOARD OF COMMISSIONERS

Committees under the Board of Commissioners consist of the Audit Committee (KA), the Risk Monitoring Committee (KPR), the Nomination and Remuneration Committee (KNR), and the Integrated Governance Committee (TKT).

The Board of Commissioners establishes guidelines that regulate the procedures for appointment, dismissal, arrangement of duties and honorarium for members of the Committees under the Board of Commissioners, which are continuously refined and updated in accordance with developments/amendments in the applicable laws

regulations and current conditions. The latest update was made in 2018, which are stipulated in the Board of Commissioners Decision Letter No. KEP/002/DK/2018 dated February 8, 2018, concerning “General Provisions for Appointment, Dismissal, Arrangement of Duties, and Honorarium of Members of Committees Under the Board of Commissioners” which includes the following matters:

1. Procedures for Appointment of Committee Members
2. The principal material that needs to be regulated in the work agreement of the committee members who come from independent parties with BNI
3. Concurrent positions that regulate positions which are permitted and which are prohibited for members of the Committee based on the applicable laws and regulations;
4. The period of appointment/term of office of committee members;
5. Division of duties and scope of duties of the Committee;
6. Committee members' obligation to be present at the Company;
7. Honorarium for Committee members from independent parties;
8. Evaluation/assessment of the performance of Committee members by independent parties;
9. Termination of Appointment of Committee members;
10. Resignation of Committee members.

WORKING MECHANISM FOR COMMITTEES UNDER THE BOARD OF COMMISSIONERS

The Committees under the Board of Commissioners carry out their duties and responsibilities are guided by previously prepared Committee Charters for each Committee, which are continuously refined and updated in accordance with developments/changes in applicable legal regulations and current conditions. The Committee Charter of each Committee under the Board of Commissioners has also been stipulated in a Board of Commissioners Decree and published on the Company's official website, namely:

1. Board of Commissioners Decree No. KEP/007/DK/2021 dated April 15, 2021 concerning “The Audit Committee Charter and Code of Ethics for the Audit Committee of PT Bank Negara Indonesia (Persero) Tbk.”;
2. Board of Commissioners Decree No. KEP/005/DK/2022 dated June 1, 2022 concerning the “Integrated Governance Committee Charter”;
3. Board of Commissioners Decree No. KEP/006/DK/2022 dated June 1, 2022 concerning the “Nomination and Remuneration Committee Charter”;
4. Board of Commissioners Decree No. KEP/007/DK/2022 dated June 1, 2022 concerning the “Risk Monitoring Committee Charter”.

The preparation of the Work Plan Program, which is carried out at the beginning of each year by each Committee under the Board of Commissioners, is used as a reference in carrying out duties that are realized in assisting the implementation of the Board of Commissioners' duties, through monitoring, reviewing and providing advice or recommendations to the Board of Commissioners on matters related to the functions and duties of the committees concerned through the following mechanism:

1. The Committees conduct meetings either internally or by inviting related Directors, units and/or divisions and/or related units;
2. The Committees conduct studies/evaluations/reviews as well as discussions/talks outside the meeting forum which if necessary include discussions with the related units or divisions/units;
3. The results of meetings or evaluations/reviews and discussions/talks outside the meeting forum are submitted by the Committee Chairperson to the Board of Commissioners as a report either in writing or in a meeting of the Board of Commissioners that discusses the related agenda
4. Committees under the Board of Commissioners submit realization reports of work programs/activities every quarter to the Board of Commissioners.

Information concerning each Committee is presented in a separate sub chapter.

PERFORMANCE ASSESSMENT FOR COMMITTEES UNDER THE BOARD OF COMMISSIONERS

The Board of Commissioners periodically evaluates the committees under the Board of Commissioners, consisting of the Audit Committee, Nomination and Remuneration Committee, Risk Monitoring Committee and Integrated Governance Committee.

During 2022, the Board of Commissioners considers that these committees carried out their functions, duties and responsibilities properly as seen from:

1. The achievement of all Committees' Work Plans/Programs set at the beginning of 2022; as well as
2. Implementation of Committee Meetings and level of attendance of Committee members.

These committees have work programs/plans that are realized through a committee meeting mechanism, including by inviting the relevant Sector or divisions/work units, as well as conducting in-depth evaluations/reviews by each committee outside the meeting forum, the results of which are submitted in writing to Board of Commissioners.

The Audit Committee has carried out its functions, duties and responsibilities including reviewing the financial information to be released by the Bank to the public and/or the Authorities. The Audit Committee also reviews compliance with laws and regulations related to the Bank's activities, and evaluated the effectiveness of conducting audits/services provided by the Public Accounting Firm (KAP), including examining the independence and objectivity of the KAP, as well as reviewing the implementation of audits by internal and external auditors including supervising the follow-up of the auditor's findings.

The Nomination and Remuneration Committee has carried out its supervisory functions, duties and responsibilities, including conducting evaluations and preparing and providing recommendations to the Board of Commissioners concerning the systems/policies, including conducting evaluations and compiling and providing recommendations to the Board of Commissioners concerning the nomination and remuneration systems/policies for Commissioners, Directors, executive officers and employees as a whole, including conducting reviews and evaluating the company's talent management systems and policies, as well as evaluating the organizational development proposed by the Board of Directors, in accordance with prevailing regulations.

The Risk Monitoring Committee also evaluated the suitability of the risk management policies and the implementation of Bank policies as well as monitored and evaluated the implementation of the duties of the risk management committee and the risk management work unit, in order to provide recommendations to the Board of Commissioners. The risk management implementation evaluation was carried out on 8 (eight) main risks in the Bank, namely Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Strategic Risk, Legal Risk, Compliance Risk, Reputation Risk, as well as 2 (two) other additional risks, included for integrated risk management, namely Insurance Risk and Intragroup Transaction Risk.

The Integrated Corporate Governance Committee also evaluated the Integrated Governance implementation by assessing the adequacy of internal controls, implementation of the compliance function in an integrated manner, and implementation of the Integrated Governance Guidelines. The Integrated Governance Committee also provides recommendations to the Main Entity's Board of Commissioners concerning the results of the Integrated Governance implementation evaluation, with improvements to the Integrated Governance Guidelines, and evaluated the suitability of the Integrated Governance Policy with the implementation of these policies, and provided recommendations to the Main Entity Board of Commissioners concerning the Integrated Governance policies and their implementation to ensure that Integrated Governance management has been carried out adequately in all Financial Services Institutions in the BNI Financial Conglomerate.

In 2022, the work programs/plans carried out by committees under the Board of Commissioners are reflected in the frequency and attendance rate of meetings, as well as reports on the implementation of the activities of the Audit Committee, Nomination and Remuneration Committee, Risk Monitoring Committee and Integrated Governance Committee, which have demonstrated that the implementation of their duties and responsibilities has been carried out properly.

PERFORMANCE ASSESSMENT OR EVALUATION OF INDEPENDENT COMMITTEE MEMBERS

The committee chairperson evaluates the performance of committee members who come from independent parties. The Performance Appraisal Indicators, include but not limited to competence and expertise, output quality, discipline and attendance of the relevant committee members in the company, as well as the implementation of duties and obligations in accordance with the committee's charter and work procedures that apply to independent committee members under the Board of Commissioners.

The results of the evaluation and assessment referred to are submitted as recommendations to the Board of Commissioners to extend or continue or end the appointment of the relevant committee members to the Company.

The evaluation of Committees under the Board of Commissioners members by Independent Parties (not the Board of Commissioners). The assessment factors are:

1. Duties according to Committee Charter (25%);
2. Competence and Skill (30%);
3. Output quality (30%);
4. Attendance rate (15%).

MANDATORY ATTENDANCE OF COMMITTEE MEMBERS WHO ARE INDEPENDENT PARTIES

Committee members coming from outside the company (independent members) have the obligation to regularly attend on working days and office hours based on the days, number of days, and schedules set by the Board of Commissioners and/or the committee chairperson, and include attending Committee Meetings and carrying out other duties, and completing the attendance list at the Company in order to carry out duties other than attending committee meetings. If necessary, at the request of the Board of Commissioners and/or committee chairperson, Committee members from outside the company must also attend at the company or at Board of Commissioners' Meetings or committee meetings, or at activities that must be attended by the Board of Commissioners in accordance with the requirements outside the frequency and routine attendance schedule.

Information on the Committees under the Board of Commissioners and the Secretary to the Board of Commissioners is presented in a separate sub chapter.

BOARD OF COMMISSIONERS' PERFORMANCE ASSESSMENT

- The Board of Commissioners' performance assessment is based on the achievement of the Board of Commissioners' Work Plan

The Board of Commissioners' Performance Assessment is carried out collegially and reported to Shareholders at the Annual General Meeting of Shareholders (GMS) by submitting the Board of Commissioners' performance in the Board of Commissioners' Monitoring Report. Based on this report, the GMS will subsequently grant full release and discharge (volledig acquit et de charge) to the Company's Board of Commissioners for the supervisory actions carried out in the Fiscal Year ending at the end of the year.

In an effort to continue to ensure the Board of Commissioners' performance achievement, as part of the Good Corporate Governance implementation in line with the Minister of SOEs Regulation No. PER-01/MBU/2011 dated August 1, 2011 concerning Good Corporate Governance Implementation in SOEs, as amended by the Minister of SOEs Regulation No. PER-09/MBU/2012 dated July 6, 2012, at the beginning of the year the Board of Commissioners prepares an annual work plan for the Board of Commissioners, as an integral part of the Company's Work Plan

and Budget (RKAP). To measure the work plan's implementation, the Board of Commissioners then conducts a collegial performance assessment of the Board of Commissioners' performance in the Fiscal Year using the self-assessment method. Collegial performance assessments are carried out by measuring the achievement of the Annual collegial Key Performance Indicator (KPI) for the Board of Commissioners, which are prepared and determined at the beginning of the year.

The 2022 collegial KPI for the Board of Commissioners, which were prepared and determined at the beginning of the year by the Board of Commissioners, were divided into 4 aspects with an individual weight, namely:

- Planning aspect, with a weight of 10%;
- Supervisory and advisory aspect, with a weight of 55%;
- Reporting aspect, with a weight of 15%; and
- Dynamic aspect, with a weight of 20%.

The Board of Commissioners' Performance Assessment is reflected in the Board of Commissioners' KPI for 2022 self-assessment results, which showed that the Board of Commissioners fully implemented the work programs contained in the Board of Commissioners' 2022 work plan in accordance with the targets set, with details of the Board of Commissioners' KPI achievement as follows:

No.	Aspect and Parameter	Weight	Achievement
I.	Planning Aspect Conducted discussions and provided recommendations/approval on the preparation of the Board of Commissioners' work plan for the coming year	10%	100%
II.	Supervisory and Advisory Aspect a. Provided approval/response/recommendation to Shareholders on the Bank's Business Plan for the coming year, and Revisions to the Bank's Business Plan for the current year, Annual Report, and Quarterly Performance Analysis. b. Provided approval and advice to the Board of Directors in accordance with the Board of Commissioners' duties. c. Board of Commissioners' meetings d. Committee meetings of the Board of Commissioners with related Directors/ Units e. Board of Commissioners working visits f. Realization of the Committees under the Board of Commissioners' Work Plan	55%	221%
III.	Reporting Aspect a. Board of Commissioners' KPI Realization Reports b. Board of Commissioners' Supervision Reports to the Authorities and Ministry of SOEs.	15%	100%
IV.	Dynamic Aspect a. External Auditor's proposals to Shareholders b. Competency Improvement through Seminars, Workshops etc c. Board of Commissioners' GCG Assessment Results	20%	155%

- Board of Commissioners' performance assessment through a Self Assessment of the Good Corporate Governance Implementation.
 - Board of Commissioners' performance assessments are also reflected in self-assessments of the Board of Commissioners' implementation of their duties and responsibilities, as part of the Self Assessment on the Bank Governance that must be submitted to OJK every semester as required in OJK Regulation No. 55/POJK.03/2016 dated December 7, 2016 concerning Implementation of Governance for Commercial Banks, as well as OJK Circular No. 13/SEOJK.03/2017 dated March 17, 2017 concerning Implementation of Governance for Commercial Banks. Furthermore, OJK will conduct an assessment or evaluation of the self-assessment report on the application of the said Bank Governance.
 - Self-assessment reports on the Bank Governance implementation are carried out to ensure the implementation of the 5 (five) basic principles of Good Corporate Governance, namely Transparency, Accountability, Responsibility, Independency, and Fairness.
 - For the Bank Governance implementation self-assessment, the Board of Commissioners' duties and responsibilities implementation forms part of the assessment, and is measured based on 3 main parameters namely Government Structure, Governance Process and Governance Outcome. The parameter assessment for the Board of Commissioners' duties and responsibilities implementation is carried out based on a governance structure that consists of 16 (sixteen) indicators, a governance process that consists of 17 (seventeen) indicators, and a governance outcome that consists of 6 (six) assessment indicators.
 - The Good Corporate Governance Implementation self-assessment for the results of the 2022 period overall received a rating of 2 ("Good"). Based on the Governance Factor Rating matrix in Appendix II of SEOJK No. 13/SEOJK.03/2017 dated March 17, 2017 concerning Governance Implementation in Commercial Banks, rating 2 ("Good") is defined by

OJK as "Reflecting that the Bank's management has implemented Governance which is generally good. This is reflected in the adequate fulfillment of the Governance principles. In the event that there are weaknesses in the implementation of the Governance principles, in general these weaknesses are insignificant and can be resolved by normal actions by the Bank's management.

- In assessing the governance implementation quality, BNI also follows the Corporate Governance Perception Index (CGPI) organized by The Indonesian Institute for Corporate Governance (IICG) with the aim of evaluating the GCG implementation at BNI. The results of the 2021 CGPI assessment at BNI showed a score of 91.66, with a "Highly Trusted" predicate. BNI's CGPI results achievement of "Highly Trusted" stated that the company's organs and all members of the company have been committed and consistent in implementing the principles of Good Corporate Governance, and are able to optimize their resources to build a system resilient to the dynamics of change in line with the values, principles and rules of Good Corporate Governance.

PROCEDURES FOR BOARD OF COMMISSIONERS' PERFORMANCE ASSESSMENT Penilaian kinerja The Board of Commissioners' performance Assessment was carried out using the self-assessment method on the performance of the Board of Commissioners and was reported at the GMS.

APPRAISAL PARTY

The Board of Commissioners evaluated the Board of Commissioners' performance in 2022 using the self-assessment method.

INDEPENDENT COMMISSIONERS

CRITERIA AND NUMBER OF INDEPENDENT COMMISSIONERS

Independent Commissioners at BNI are in compliance with the provisions of the OJK Regulation No. 55/POJK.03/2016 dated December 7, 2016 concerning the Implementation of Good Corporate Governance for Commercial Banks. This regulation states that Independent Commissioners in commercial banks must be at least 50% (fifty percent) of the total members of the Board of Commissioners. The composition of BNI Commissioners as of December 31, 2021 was 10 (ten) people consisting of 1 (one) President Commissioner/Independent Commissioner, 1 (one) Vice President Commissioner/Independent Commissioner, 5 (five) Independent Commissioners and 3 (three) Commissioners. Thus, the composition of BNI's Independent Commissioners is more than 50% of the total number of the Board of Commissioners and has complied with the OJK Regulation.

The determination of BNI's Independent Commissioner is carried out by observing and following the provisions governing the requirements and criteria of the Independent Commissioner in the applicable Laws and Regulations particularly:

- 2007 Law No. 40 concerning Limited Liability Companies, as amended by 2020 Law No. 11 concerning Job Creation which stipulated that:
 - The Company's Articles of Association may stipulate the presence of 1 (one) or more independent commissioners and 1 (one) delegated commissioner; and
 - Independent commissioners are appointed based on GMS resolutions from parties that are not affiliated with the majority shareholders, members of the Board of Directors and/or other members of the Board of Commissioners.
- OJK Regulation (POJK) No. 33/POJK.04/2014 dated December 8, 2014 concerning the Board of Directors and Board of Commissioners or Independent Commissioners of Public Companies, which stipulate that:
 - Independent Commissioners are members of the Board of Commissioners from outside the issuer or public company and fulfill the requirements as an Independent Commissioner as referred to in POJK; and

- Independent Commissioner must meet the following requirements:

- Not a person who worked or had the authority and responsibility to plan, lead, control, or supervise activities of the Issuer or Public Company within the last 6 (six) months, except for reappointment as an Independent Commissioner of Issuer or Public Company in the next period;
- Does not own shares either directly or indirectly with the Issuer or Public Company;
- Has no Affiliated relationship with the Issuer or Public Company, members of the Board of Commissioners, members of the Board of Directors, or the main shareholders of the Issuer or Public Company; and
- Does not have a business relationship either directly or indirectly that is related to the business activities of the Issuer or Public Company.

- OJK Circular No. 13/SEOJK.03/2017 dated March 17, 2017 concerning Implementation of Governance for Commercial Banks which stipulates that:

- Independent Commissioners are members of the Board of Commissioners who have no financial relationship, management relationship, ownership relationship, and/or familial relationship with members of the Board of Directors, other members of the Board of Commissioners, and/or controlling shareholder, or relationship with the Bank that may affect the ability to act independently;
- The definition of having a financial relationship, management relationship, ownership relationship, and/or familial relationship with members of the Board of Directors, other members of the Board of Commissioners, and/or controlling shareholder, or relationship with a bank that may affect the ability to act independently is guided by the definitions set forth in the prevailing Laws and Regulations, specifically the OJK Circular Letter concerning Implementation of Governance for Commercial Banks.

- OJK Circular No. No. 28/SEOJK.03/2022 dated December 22, 2022 concerning Risk Management Certification for Human Resources for Commercial Banks stipulates that Ownership of a Risk Management Certificate is one aspect of assessing competency factors in the fit and proper test for prospective members of the Board of Directors and prospective members of the Board of Commissioners in accordance with OJK provisions concerning the fit and proper test for the main parties of financial service institutions.

INDEPENDENT COMMISSIONERS' STATEMENT OF INDEPENDENCE

All Independent Commissioners do not have financial, management, share ownership and/or familial relationships with members of the Board of Directors, other members of the Board of Commissioners and/or the controlling shareholders, or relationships with the Bank that may affect their ability to act independently.

Independence Independent Commissioner

Each member of the Independent Commissioner has made a statement of independence and has submitted it to OJK as one of the requirements to take part in the fit and proper test process at OJK. During 2022, the serving Independent Commissioners were as follows:

INDEPENDENCE APPENDIX

Attachment to the Statement of Independence of Independent Commissioners

BOARD OF DIRECTORS

The Board of Directors is the Company organ with collegial duties and responsibilities in managing BNI for the interests and objectives of BNI, as well as represents the Company both inside and outside the court in accordance with the Articles of Association.

In carrying out their duties and obligations, the Board of Directors is obliged to devote their full energy, mind, attention and dedication to the duties, obligations and achievement of BNI's goals. In addition, members of the Board of Directors must comply with the Articles of Association of the Company and laws and regulations and must implement the principles of professionalism, efficiency, transparency, independence, accountability, responsibility and fairness. Each member of the Board of Directors must carry out their duties and responsibilities in good faith, with full responsibility and prudently, with due observance of the prevailing laws and regulations.

LEGAL BASIS

Based on 2007 Law No. 40 concerning Limited Liability Companies, as partially amended by 2020 Law No. 11 concerning Job Creation, and OJK Regulation No. 33/POJK.04/2014 concerning the Board of Directors and Board of Commissioners of Issuers or Public Companies, the Board of Directors is authorized and fully responsible for the Company and represents the Company, both inside and outside the court in accordance with the provisions of the Articles of Association.

BOARD OF DIRECTORS' GUIDELINES AND WORK CONDUCT

The BNI Board of Directors' Guidelines and Work Conduct were ratified through the BNI Board of Directors Decree No. KP/228/DIR/R dated June 29, 2018.

The Board of Directors Charter regulates, the Legal Basis, Structure, Requirements, Duties, Authorities and Responsibilities of the Board of Directors, Appointment and Dismissal of Members of the Board of Directors, Term of Office of the Board of Directors, Establishment of Committees under the Board of Directors, Board of Directors Meetings and Joint Meetings with the Board of Commissioners, Working Time of the Board of Directors, Company Values, Work Ethics of the Board of Directors, Transparency, and Reporting and Responsibility.

In addition to issues related to the work rules set out above, several key points of the Board of Directors work guidelines set out in the Board of Directors Work Guidelines and Procedures are described as follows.

BOARD OF DIRECTORS' DUTIES AND RESPONSIBILITIES

The Board of Directors is tasked with carrying out all activities related to the management of and is responsible for the management of BNI for the benefit of the Company in accordance with the aims and objectives of the Company and represents the Company both inside and outside the court on all matters and events with restrictions as stipulated in the laws and regulations. invitation, Articles of Association and/or Resolution of the GMS.

BOARD OF DIRECTORS' AUTHORITIES

In performing its duties, the Board of Directors has the authority to:

1. Establish policies deemed appropriate for the management of the Company;
2. Arrange the transfer of power of the Board of Directors to represent the Company inside and outside the court to a person or several persons who are specifically designated for such reason including the Company's employee, either individually or jointly, and/or other entity;
3. Manage provisions on the Company's employment affairs including determining salary, retirement, pension plan, and other income for the Company's employees based on the applicable laws and regulations;
4. Appoint, reward or sanction and dismiss the Company's employees based on the Company's employment regulations and applicable laws and regulations;
5. Appoint and dismiss the Corporate Secretary and/or Head of the Internal Audit with the approval of the Board of Commissioners;
6. Write off bad debts based on provisions stipulated in the Articles of Association and subsequently report them to the Board of Commissioners, which shall subsequently be reported and accounted for in the Annual Report;

- No longer collect interest receivables, fines, fees, and other receivables other than the principal that is carried out in the framework of restructuring and/or settlement of receivables and other actions in order to settle the Company's receivables, with the obligation to report to the Board of Commissioners, in which the provisions and procedures for reporting are determined by the Board of Commissioners.
- Perform any actions and other activities regarding the management or ownership of the Company's assets, bind the Company to other parties and/or other parties to the Company, as well as represent the Company inside or outside court in all matters and occurrences with limitations as stipulated under the laws and regulations, the Articles of Association, and/or GMS Resolutions.

BOARD OF DIRECTORS' OBLIGATIONS

The Board of Directors' obligations include:

- Promoting and ensuring the implementation of the Company's business and activities in accordance with its purposes and objectives as well as its business activities;
- Establishing on time the Company's Long-Term Plan, the Company's Annual Work Plan and Budget, and other work plans, and any amendments to be submitted to the Board of Commissioners for approval.
- Preparing the Shareholders Register, Special Register, GMS Minutes, and Minutes of the Board of Directors' meetings.
- Preparing the Annual Report, which contains the Financial Statements, as a form of accountability of the Company's management as well as the Company's financial documents as referred to in Law on Company Documents;
- Preparing the Financial Statements based on the Financial Accounting Standards and submit them to Public Accountant to be audited;
- Delivering the Annual Report after review by the Board of Commissioners within a maximum period of 5 (five) months after the Company's fiscal year ends to the GMS for approval and ratification;
- Providing explanation to the GMS on the Annual Report;
- Delivering the Balance Sheet and Income Statement after approval by the GMS to the Minister in charge of Law in accordance with the provisions of laws and regulations;
- Preparing other reports mandated by the provisions of laws and regulations;
- Maintaining a Shareholders Register, Special Register, GMS Minutes, Minutes of Board of Commissioners' Meeting, and Minutes of Board of Directors' Meeting, Annual Report, and Company's financial documents and other Company's documents.

- Maintaining the following matters in the Company's domicile: Shareholders Register, Special Register, GMS Minutes, Minutes of Board of Commissioners' Meeting, and Minutes of Board of Directors' Meeting, Annual Report, and Company's financial documents as well as other Company's documents;
- Procuring and maintaining the Company's bookkeeping and administration according to norms applicable to a company;
- Preparing an accounting system in accordance with the Financial Accounting Standards and based on the principles of internal control, especially the functions of handling, recording, storing, and supervising;
- Providing periodic reports in the manner and time in accordance with the applicable provisions, as well as other reports anytime at the request of the Board of Commissioners and/or Shareholders of Dwiwarna Series A; by observing the laws and regulations particularly the regulations in Capital Market sector;
- Preparing the Company's organizational structure complete with the details and duties;
- Providing explanations on all matters questioned or requested by members of the Board of Commissioners and Shareholders of Dwiwarna Series A, by observing the laws and regulations particularly in Capital Market sector.
- Carrying out other obligations in accordance with the provisions stipulated in the laws and regulations, Articles of Association and/or as determined by the GMS.

BOARD OF DIRECTORS' CRITERIA

Those who can be appointed as members of the Board of Directors are individuals who are capable of carrying out legal actions and meet the following requirements:

- Integrity, at least including:
 - Proficient in performing legal actions in the 5 (five) years before appointment and during their term of office:
 - Has never been declared bankrupt; or
 - Has never been a member of the Board of Directors or a member of the Board of Commissioners found guilty of causing a company to be declared bankrupt based on a court decision.
 - Has good character and morals;
 - Has the commitment to comply with prevailing laws and regulations;
 - Has the commitment to develop sound Bank operations;
 - Has not been included in the list of those failing to pass the fit and proper test;

- Has a commitment to not take and/or repeat certain actions and/or actions, for candidates for members of the Board of Directors or candidates for members of the Board of Commissioners who have not passed the fit and proper test and have undergone sanctions;
- Competencies, at least including:
 - Sufficient knowledge in banking relevant to the position;
 - Has the experience and expertise in banking and/or finance; and
 - The ability to carry out strategic management in the context of developing the company and its subsidiaries;
 - Has a good financial reputation with no bad loans;
 - Complies with the laws and regulations in the field of Banking, Capital Market, other laws and regulations and the Company's Articles of Association;
 - Between fellow members of the Board of Directors, and between members of the Board of Directors and members of the Board of Commissioners, it is prohibited to have blood relationship up to the third degree either in a straight line or a sideways line or an affair (son-in-law or brother-in-law).

BOARD OF DIRECTORS TERM OF OFFICE

The Board of Directors term of office is at most 2 (two) consecutive periods, with the following conditions:

- The Board of Directors members are appointed for a period commencing from the date determined by the GMS that appoints them and ends at the closing of the 5 (fifth) Annual GMS after the date of appointment on condition that it should not exceed a period of 5 (five) years, by observing the laws and regulations in the Capital Market sector, but without reducing the right of the GMS to dismiss at any time any members of the Board of Directors before their term of office ends.
- Dismissal is effective from the closing of the GMS, unless otherwise determined by the GMS.

BOARD OF DIRECTORS' NUMBER AND COMPOSITION

In 2022, there were no changes in the number of Directors but there was a change in the nomenclature of the Directors, which was approved at the 2022 Extraordinary GMS held on August 31, 2022. Thus the BNI Board of Directors composition is as follows:

Period January 1, 2022 - August 31, 2022

For the period January 1, 2022 - August 31, 2022, the Board of Directors totaled 12 (twelve) people consisting of 1 (one) President Director, 1 (one) Vice President Director, and 10 (ten) Directors.

³⁾ Ceased serving as a Member of the Board of Directors on August 31, 2022

NEW DIRECTORS' ORIENTATION AND INDUCTION PROGRAM

The orientation and introduction program for new members of the Board of Directors is carried out through:

1. Discussions on the Annual Report, the Company's Work Plan and Budget (RKAP), and the Company's Long-term Plan (RJPP), Code of Ethics, Board of Directors' Guidelines for Work Conduct, Corporate Governance Handbook, and the Articles of Association;
2. Explanations relating to delegated authority, internal and external audits, internal control systems and policies, as well as duties and roles of the Audit Committee and other committees under the Board of Directors and the Board of Commissioners; and
3. Description on duties, authority, and responsibilities of the Board of Commissioners and the Board of Directors.

These explanations are given by way of a presentation by the related Units to the members of the Board of Directors as well as by conducting visits to BNI Regional/Branch Offices.

BOARD OF DIRECTORS' DISTRIBUTION OF DUTIES

Throughout 2022, there was a change in the nomenclature of the Board of Directors, which was stipulated at the 2021 Extraordinary GMS held on August 31, 2022. The work assignments or sectors for each Director is determined based on Board of Directors' SK No. KP/395/DIR/R dated September 30, 2022.

In carrying out their duties and responsibilities, each Director has full authority over the SEVP or the work unit they manage and is authorized to act for and on behalf of the Board of Directors, as long as they do not deviate from:

1. General Meeting of Shareholders Resolutions;
2. The Company's Articles of Association;
3. Corporate Plan;
4. The Board of Directors General Policy (KUD);
5. The Board of Directors specific policies as stipulated in the Board of Directors Meeting or in a Board of Directors Decree or in other written form; and
6. The Board of Directors or in a Board of Directors Decree or in any other written form.

BOARD OF DIRECTORS' ACTIONS THAT MUST RECEIVE WRITTEN APPROVAL FROM THE BOARD OF COMMISSIONERS

- The following actions by the Board of Directors must obtain prior written approval from the Board of Commissioners:
 - Releasing/transferring and/or pledging the Company's assets with criteria and value exceeding a certain amount determined by the Board of Commissioners, except for assets recorded as inventory, with due observance of provisions in the capital market and banking sector;
 - Establishing cooperation with business entities or other parties, in the form of operational cooperation (KSO), business cooperation (KSU), license cooperation, Build, Operate and Transfer (BOT), Build, Transfer and Operate/BTO), Build, Operate and Own (BOO) and other agreements of the same nature whose term or value exceeds that set by the Board of Commissioners;
 - Establishing and changing the Company's logo;
 - Determining the organizational structure of 1 (one) level below the Board of Directors;
 - Making equity participation, releasing equity participation including changes in capital structure of a certain value determined by the Board of Commissioners in other companies, subsidiaries and joint ventures that are not in the context of saving receivables by taking into account the provisions in the Capital Market sector;
 - Establishing a subsidiary and/or joint venture of a certain value determined by the Board of Commissioners with due observance of the provisions in the Capital Market sector;
 - Proposing representatives of the Company to become candidates as members of the Board of Directors and Board of Commissioners in subsidiaries that provide significant contributions to the Company and/or have strategic value as determined by the Board of Commissioners;
 - Merging, consolidating, taking over, separating, and dissolving subsidiaries and joint ventures of a certain value determined by the Board of Commissioners with due observance of the provisions in the Capital Market sector;
 - Performing actions included in material transactions as stipulated by legislation in the field of capital markets of a certain value set by the Board of Commissioners, unless such actions are included in material transactions that are exempted by applicable laws in the field of Capital Markets;
 - Actions not yet specified in the RKAP;
 - The act of transferring includes selling, forfeiting the right to collect and/or no longer charging for:
 - Bad receivables principal that have been written off in order to settle the credit, either in part or in whole;
 - The difference between the value of bad receivables principal that have been written off with the value of the transfer including sales or with the value of the disposal; and
 - Implemented based on a Board of Directors policy as approved by the Board of Commissioners with a ceiling (limit) amount for write-offs as determined by the GMS, which will remain in effect until a new ceiling (limit) is determined by the GMS.

- The approval of the Board of Commissioners regarding letters a, b, e, f, g, and h for certain limitations and/or criteria, is determined after obtaining approval from the Series A Dwiwarna Shareholder.
- Determination of limits and/or criteria by the Board of Commissioners for the matters referred to in letters a, b, e, f, g, and h, is carried out after obtaining approval from the Series A Dwiwarna Shareholder.
- The actions of the Board of Directors as referred to in letter b, as long as they are necessary in the context of carrying out the main business activities that are commonly carried out in the relevant business field with due observance of the provisions of laws and regulations, do not require the approval of the Board of Commissioners and/or GMS.
- Within a maximum period of 30 (thirty) days from the receipt of the application or explanation and complete documents from the Board of Directors, the Board of Commissioners must provide the decision as referred to in number 1.

BOARD OF DIRECTORS' ACTIONS THAT MUST RECEIVE GMS APPROVAL

- The Board of Directors is required to seek GMS approval for:
 - Transferring the Company's assets; or
 - Collateral for the Company's assets debt that constitutes more than 50% (fifty percent) of the total Company net assets in 1 (one) or more transactions, whether related to each other or not, except as the implementation of the Company's business activities as referred to in the Articles of Association.
- Actions carried out without the approval of the GMS remain binding on the Company as long as the other party in the legal act has good intentions; and
- The GMS may reduce restrictions on the Board of Directors actions as regulated in the Articles of Association or determine other restrictions on the Board of Directors other than those stipulated in the Articles of Association.

BOARD OF DIRECTORS' ACTIONS THAT MUST RECEIVE A WRITTEN RESPONSE FROM THE BOARD OF COMMISSIONERS AND APPROVAL AT THE GMS

- The actions below can only be carried out by the Board of Directors after obtaining a written response from the Board of Commissioners and obtaining approval from the GMS for:
 - Performing actions that are included as material transactions as stipulated by legislation in the field of capital markets

with a value above 50% (fifty percent) of the Company's equity, unless such actions are included in material transactions that are exempted by applicable Laws in the field of Capital Markets;

- Conducting transactions that contain a conflict of interest as specified in the Legislation in force in the capital market;
 - Performing other transactions in order to comply with the Laws and Regulations in force in the capital market.
- If within 30 (thirty) days from the receipt of the application or explanation and complete documents from the Board of Directors, the Board of Commissioners does not provide a written response, the GMS may issue a decision without a written response from the Board of Commissioners.
 - Actions carried out without the approval of the GMS remain binding on the Company as long as the other party in the legal act has good intentions.

DIRECTOR IN CHARGE OF THE COMPLIANCE FUNCTION

As the complexity of the Bank's business activities as a bank and a public company increases, mitigation of risks faced by the Bank is needed. To mitigate the risk of such business activities, preventive (exante) and curative (expost) efforts become necessary. As part of preventive efforts, the Bank always adheres to applicable banking rules to reduce or minimize the risk of the bank's business activities.

In this regard, the Board of Directors has an obligation to develop and realize a Compliance Culture at all organizational levels and the Bank's business activities.

To enforce the Bank's compliance function, the Bank has a Director in charge of compliance, whose function is guided by OJK Regulation No. 46/POJK.03/2017 concerning Implementation of Compliance Function of Commercial Bank and Board of Directors Work Conduct.

DIRECTOR IN CHARGE OF THE COMPLIANCE FUNCTION REQUIREMENTS

In relation to its function, the candidate for Director in charge of compliance function shall fulfill the following requirements:

- Candidate for Director in charge of compliance function must have sufficient integrity and knowledge on the provisions of the Financial Services Authority, Bank Indonesia, and applicable laws and regulations.

- The Director in charge of the Compliance Function must fulfill the independence requirement. The "independence requirement" means not having financial, management, share ownership, and/or familial relationships up to second degree with members of Board of Commissioners, Board of Directors, and/or Controlling Shareholders or relationships with the Bank, which may affect their ability to act independently as stipulated in the provisions of Good Corporate Governance Implementation for Commercial banks.

STRUCTURE

- The President Director and/or Vice President Director are not permitted to hold a concurrent position as Director in charge of Compliance Function.
- The Director in charge of Compliance Function is prohibited from being in charge of the following functions:
 - Business and operations;
 - Risk management related to decision making for the Bank's business activities;
 - Treasury;
 - Finance and accounting;
 - Logistics and goods/services procurement;
 - Information Technology; and
 - Internal audit.
- Replacement of Director in charge of compliance function:
 - In the event that the Director in charge of the Compliance function is unable to carry out their duties for more than 7 (seven) consecutive working days, the relevant duties must be temporarily replaced by another Director until the Director in charge of the Compliance function is able to carry out their duties again;
 - In the event that the Director in charge of the Compliance function is permanently unable to, resigns, or their term of office has expired, the Bank must immediately appoint a replacement Director in charge of the Compliance function, no later than 6 (six) months after the Director in charge of the Compliance function is permanently absent, resigns, or their term of office ends;
 - During the process of replacing the Director in charge of the Compliance function, the Bank is required to appoint or assign another Director to temporarily carry out the duties of the Director in charge of the Compliance function;
 - The Director who performs the temporary duties as the Director in charge of the Compliance function, must meet the above requirements, except when there is no Director who meets the requirements in the Company;
 - The temporary replacement of the Director's position in charge of the Compliance function must be reported to the Financial Services Authority.

DIRECTOR IN CHARGE OF COMPLIANCE FUNCTION DUTIES AND RESPONSIBILITIES

The Director in charge of the Compliance function duties and responsibilities, shall at least include:

- Formulating strategies to encourage the creation of the Bank's Compliance Culture.
- Proposing compliance policies or compliance principles to be stipulated by the Board of Directors.
- Establishing compliance systems and procedures to be used to develop the Bank's internal rules and guidelines.
- Ensuring all policies, regulations, systems, and procedures, as well as business activities conducted by the Bank are in accordance with provisions of the Financial Services Authority, Bank Indonesia, and the prevailing laws and regulations.
- Minimizing the Bank's Compliance Risk.
- Taking precautionary measures so that the Bank's Board of Directors policies and/or decisions do not deviate from the provisions of the Financial Services Authority, Bank Indonesia, and the applicable laws and regulations.
- In the context of implementing the Anti Money Laundering (APU) and Prevention of Terrorism Funding (PPT) Program, the Compliance Director has at least the duties and responsibilities to:
 - Proposing strategic written policies and procedures concerning the APU and PPT programs implementation to the Board of Commissioners;
 - Ensuring there are discussions related to money laundering and/or terrorism financing in the Board of Directors and Board of Commissioners meetings;
 - Determining the necessary steps to ensure the Bank has complied with the provisions of the Financial Services Authority concerning APU and PPT and other relevant laws and regulations;
 - Ensuring the scope of active supervision of the Board of Directors has been adequately met;
 - Monitoring and maintaining the Bank's compliance with all commitments made by the Bank to the Financial Services Authority, including commitments in the Action Plan, the Data Update Activity Plan Report, and the results of Bank Indonesia supervision related to the implementation of the APU and PPT Programs;
 - Monitoring the implementation of the Special Work Unit and/or Bank officials duties responsible for the implementation of APU and PPT;
 - Providing recommendations to the President Director concerning the official to lead the Special Work Unit or the official responsible for the implementation of the APU and PPT Programs;
 - Approving the Suspicious Financial Transaction Report (LTKM);
 - Proposing Action Plan Reports and Data Update Plan Reports prior to submission to the Financial Services Authority.

8. The Director in charge of Compliance Function must submit reports to Financial Services Authority on their duties implementation covering:
- Compliance Work Plan contained in the Bank's Business Plan;
 - Compliance Report; and
 - Special Report on Board of Director policies and/or decisions for the Director in charge of Compliance Function that deviate from Financial Services Authority regulations and/or the prevailing laws and regulations, as part of the Director in charge of Compliance Function duties.
9. Reporting the implementation of the President Director duties and responsibilities with copies to the Board of Commissioners at least in a quarterly manner.
10. Performing other duties related to Compliance Function.

BOARD OF DIRECTORS' CONCURRENT POSITIONS

Members of the BNI Board of Directors do not hold concurrent positions that are prohibited under the prevailing laws and regulations. The concurrent positions of members of the Board of Directors that are allowed under the prevailing laws and regulations are carried out by the members of the Board of Commissioners concerned without neglecting the implementation of their duties and responsibilities as a member of the Bank's Board of Commissioners.

The provisions on concurrent position for the Board of Directors are stipulated in the following regulations:

- Minister of SOEs Regulation No. PER-11/MBU/07/2021 concerning Requirements, Procedures for Appointment and Dismissal of Members of the Board of Directors of SOEs, members of the Board of Directors are prohibited from holding concurrent positions as:

- Directors in SOEs, regionally-owned enterprises, private-owned enterprises;
- Board of Commissioners/Supervisory Board of SOEs and other companies;
- Other structural and functional positions in central and/or regional government agencies/institutions;
- Other positions in accordance with the provisions of the legislation;
- Political party administrators, members of the legislature and/or regional heads/deputy regional heads;
- Other positions that may cause a conflict of interest; and/or
- Standing as a legislative candidate or a candidate for regional head/deputy regional head.

In addition to these concurrent positions, members of the Board of Directors are prohibited from holding concurrent positions as members of the Board of Commissioners in other companies, except:

- The Board of Commissioners in a subsidiary of the BUMN/SOE affiliated company concerned, provided that they are only entitled to the highest income from the positions they hold, unless stipulated otherwise by the Minister; and
- Board of Commissioners in other companies that represent/fight for the interests of SOEs as long as they obtain permission from the Minister of SOEs.

Based on OJK Regulation No. 55/POJK.03/2016, members of the Board of Directors are prohibited from holding concurrent positions as members of the Board of Directors, members of the Board of Commissioners or Executive Officers at other banks, companies and/or institutions. However, this does not include concurrent positions in the case of the Board of Directors responsible for supervising the Bank's participation in a Subsidiary Companies, carrying out functional duties as a member of the Board of Commissioners in a non-Bank Subsidiary Companies controlled by the Bank, as long as it does not result in the persons concerned neglecting the implementation of their duties and responsibilities as members of the Board of Directors of the Bank.

MANAGEMENT OF BOARD OF DIRECTORS' CONFLICTS OF INTEREST

Management of the Board of Directors' conflict of interest is stipulated in the Guidelines for Handling Conflict of Interest No. IN/695/KMP/001 dated October 29, 2014. A Conflict of Interest is a condition whereby the Company's economic interests contradict with personal economic interests. Regarding the above matter, members of the Board of Directors:

- Must prioritize the Company's economic interest over personal economic interest or family or other parties;
- Must never use their position for personal interest or for other person's or party's interest that is contrary to the Company's interest.
- Must complete a Special Register containing their own and/or their family's share ownership that reaches 5% (five percent) or more in the Bank or other companies located inside and outside the country.
- Must disclose financial relationships and familial relationships with other members of the Board of Commissioners, members of the Board of Directors, and/or the Company's controlling shareholders.
- Are prohibited from taking actions that may harm the Company or reduce the Company's profit and must disclose conflicts of interest in any decision in the event that a conflict of interest occurs.
- Shall not participate in any discussion and decision making that contains a potential conflict of interest.

BOARD OF DIRECTORS' INDEPENDENCY

Each member of the Board of Directors prepares a statement of independence in the form of a Statement of Acting Independently in the Implementation of the Company's Operational Management at the beginning of each year to state their independence status, and at the end of each year to state whether during the last year there has been a conflict of interest situation by the Board of Directors, and the actions taken.

Members of the Board of Directors are obliged to report if there is a change in status that affects their independence, including if there is a change in share ownership, both personal and familial, in BNI and or in other banks, non-bank financial institutions, and other companies.

BOARD OF DIRECTORS' COMPETENCY DEVELOPMENT

Information related to Board of Directors competency development in 2022 can be seen in the Company Profile section of this Annual Report.

RISK MANAGEMENT CERTIFICATION

All BNI Directors have passed Level 5 Risk Management Certification as one of the requirements for taking the OJK fit and proper test.

BOARD OF DIRECTORS' DISMISSAL AND RESIGNATION MECHANISM

The mechanism for the Board of Directors dismissal and resignation is stipulated in the Company's Articles of Association, which refers to OJK Regulation No. 33/POJK.04/2014 and OJK Regulation No. 15/POJK.04/2014, stating that:

1. The GMS may dismiss members of the Board of Directors at any time by stating the reasons.
2. The reasons for dismissing a member of the Board of Directors is based on fact that the concerned member of the Board of Directors:
 - a. Did not perform/under performed in fulfilling the obligations agreed upon in the management contract.
 - b. Did not perform their duties properly.
 - c. Violated the provisions of Articles of Association and/or laws and regulations.
 - d. Engaged in actions that harmed the Company and/or the State
 - e. Committed actions that violated ethics and/or properness that must be upheld as Board of Directors.
 - f. Convicted by a Court decision that has permanent legal force.
 - g. Resigned.
 - h. Other reasons considered appropriate by the GMS in the interests and objectives of the Company.
3. A decision for dismissal shall be made after the related person has had the opportunity to defend themselves, except for reasons as referred to in item 2 letter f and g.
4. Dismissal for reasons as referred to in item 2, letter d and f shall constitute dishonorable dismissal.
5. A member of the Board of Directors may resign from their post before their term of office expires. In this matter, the member of the

Board of Directors who resigns must submit a resignation request to the Company.

6. BNI must convene a GMS to resolve the resignation proposal of members of the Board of Commissioners no longer than 90 (ninety) days after receipt of the resignation letter.
7. Members of the Board of Directors who resign before or after their term of office ends, unless due to death, the person concerned shall still be responsible to submit accountability for actions not yet received by the GMS.
8. Members of Board of Directors may be dismissed temporarily by the Board of Commissioners by stating the reasons in the event that such a member acts in contrary to the Articles of Association or there is an indication of doing an action that harms the Company or is neglect in performing obligations or there are compelling reasons for the Company by considering the following provisions:
 - a. Such temporary dismissal shall be notified in writing to the concerned member of the Board of Directors together with the reasons causing such action with a copy to the Board of Directors;
 - b. The notification as referred to in item 8 letter a shall be delivered no later than 2 (two) business days after the determination of such temporary dismissal;
 - c. The temporarily dismissed member of the Board of Directors is not authorized to perform Company management in the Company's interest in accordance with the Company's purposes and objectives nor represent the Company, either inside or outside court;
 - d. Within a period of no later than 90 (ninety) days after such temporary dismissal, the Board of Commissioners shall convene a GMS to withdraw or enforce such temporary dismissal resolution;
 - e. In the event that the time period to convene the GMS as referred to in item 8 letter d has passed or the GMS cannot adopt a resolution, then such temporary dismissal shall become void
 - f. The limitation of authority in item 8 letter c shall be effective from the decision of temporary dismissal by the Board of

Commissioners until:

- i) There is a GMS decision confirming or revoking the temporary dismissal in item 8 letter d; or
- ii) The time period in item 8 letter d has passed.
- g. In the GMS as referred to in item 8 letter d, the related members of the Board of Directors are given an opportunity to defend themselves.
- h. Such temporary dismissals cannot be extended or reestablished for the same reasons, in the event that such temporary dismissal is declared void as referred to in item 8 letter e.
- i. In the event that the GMS cancels a temporary dismissal or there are circumstances as referred to in item 8 letter e, then the related member of the Board of Directors must resume their duties properly.
- j. In the event that the GMS reaffirms the temporary dismissal resolution, then the related member of the Board of Directors shall be dismissed going forward.
- k. In the event that the temporary dismissed member of the Board of Directors is not present at the GMS after being summoned in writing, then the temporary dismissed member of the Board of Directors shall be deemed not to have exercised their right to defend themselves in the GMS and has accepted the GMS resolution.

PERFORMANCE ASSESSMENT FOR COMMITTEES UNDER THE BOARD OF DIRECTORS

In carrying out its management duties, the Board of Directors has established committees at Board of Directors' level based on BNI's business needs and regulatory requirements, who are expected to create operational effectiveness and efficiency, including:

1. Credit Committee;
2. Credit and Business Policy Committee;
3. Product Committee;
4. Asset & Liability (ALCO) Committee;
5. Human Capital Committee (HC);
6. Performance Management Committee;
7. Risk Management and Anti Fraud Committee;
8. Technology Management Committee;
9. Integrated Risk Management Committee.

During 2022, the Board of Directors assessed that the performance of the Committees under the Board of Directors, and they carried out their respective functions well, according to the purpose of their formation. This is based on the fulfillment of each committee duties in accordance with the Committee Charter, Competence and Skills as well as Meeting Attendance Level of the Committee members.

BOARD OF DIRECTORS PERFORMANCE ASSESSMENT

The performance appraisal of the Board of Directors in 2021 refers to the Minister of SOE Regulation No. PER-11/MBU/11/2020 dated November 12, 2020 regarding Management Contracts and Annual Management Contracts for SOE Directors and KBUMN Letter No. S-63/MBU/01/2021: January 29, 2021.

BOARD OF DIRECTORS' PERFORMANCE ASSESSMENT PROCEDURES

The 2022 Board of Directors Performance Assessment refers to the Minister of SOEs Regulation No. PER-11/MBU/11/2020 dated November 12, 2020 concerning Management Contracts and Annual Management Contracts for Board of Directors of SOEs and Letter of KBUMN No. S-157/MBU/03/2022 dated March 4, 2022.

BOARD OF DIRECTORS' PERFORMANCE ASSESSMENT CRITERIA

The criteria for assessing the Board of Directors performance consists of collegial Board of Directors' Key Performance Indicators (KPI) and individual Directors' KPIs, which are prepared based on the Company's strategy and focus in the current period as stated in the Bank's Business Plan (RBB)/Work Plan and Corporate Budget (RKAP).

1. Collegial KPI
Collegial KPI are translated into five priority programs, namely:
 - a. Economic and social value for Indonesia including financial and social aspects;
 - b. Business Model Innovation;
 - c. Technology Leadership;
 - d. Increased Investment;
 - e. Talent Development.Each priority program includes several KPI that reflect the financial and non-financial performance targets that are aligned with the established strategic initiatives.
2. Individual KPI
The individual Directors' KPI are prepared according to the duties, main functions and responsibilities of each member of the Board of Directors.

APPRAISAL PARTY

KPI achievements for the Board of Directors collegially and individually are reported in periodic reports to the Board of Commissioners. Also, the calculation of the Board of Directors' KPI achievements is collegially and individually reviewed by the Public Accounting Firm (KAP) that audits the Company's financial statements to be submitted to Shareholders, in this case the Indonesian Ministry of SOEs.

BOARD OF DIRECTORS PERFORMANCE ASSESSMENT RESULTS

1. Achievement of Collegial KPI

The Board of Directors' performance assessment for 2022 for the Collegial KPI was 106.42%.

- Achieve reduction in the ratio of the number of fines imposed by the regulator;
- Fulfill the needs of business policies and procedures.

BOARD OF COMMISSIONERS’ AND BOARD OF DIRECTORS COMPOSITION DIVERSITY POLICY

BOARD OF COMMISSIONERS’ COMPOSITION DIVERSITY POLICY

BNI's Board of Commissioners composition diversity reflects the implementation of Good Corporate Governance, and it is also in accordance with the OJK recommendations concerning Public Company Governance, as stated in the Appendix to the OJK Circular No. 32/SEOJK.04/2015 dated November 27, 2015 concerning Guidelines for Public Company Governance. In the OJK Circular it states that the Board of Commissioners composition should be a combination of characteristics both in terms of the organs of the Board of Commissioners, and the individual members of the Board of Commissioners, in accordance with the needs of a Public Company. These characteristics can be reflected in the expertise, knowledge and experience needed in carrying out supervisory and advisory duties by the Board of Commissioners of a Public Company. A composition that takes into account the needs of the Public Company is a positive thing, especially regarding decision making for implementing the supervisory function, which has to be carried out after considering a wider range of aspects.

In accordance with Article 5 paragraph (4) letter c.2 of the Company's Articles of Association, Series A Dwiwarna Shareholders have the privilege to nominate candidates as members of the Company's Board of Commissioners. Based on Article 14 paragraph (12) of the Articles of Association, members of the Board of Commissioners are appointed and dismissed by the GMS, where the GMS is attended by the Series A Dwiwarna Shareholder and the meeting resolution must be approved by the Series A Dwiwarna Shareholder with due observance of the provisions in the Articles of Association.

Determination of the Board of Commissioners membership composition takes into account the combination of characteristics in terms of the organs of the Board of Commissioners and members of the Board of Commissioners individually, based on the recommendations made by OJK in their Circular Letter No. 32/SEOJK.04/2015 concerning Guidelines for Public Company Governance, which has been fulfilled by Series A Dwiwarna Shareholders as Shareholders with are entitled to nominate candidates for members of the Board of Commissioners. Thus, the current the Board of Directors diversity composition reflecting the education, work experience, age and gender, as presented in the following table:

²⁾ Appointed as Commissioner since August 31, 2022 and effective based on OJK approval since December 23, 2022

BOARD OF DIRECTORS' COMPOSITION DIVERSITY POLICY

BNI's Board of Directors diversity policy refers to the recommendations of OJK as outlined in the Appendix to the OJK Circular Letter No. 32/SEOJK.04/2015 concerning Guidelines for Public Company Governance. The regulation states that the Board of Directors membership composition should take into account the composition diversity of the Board of Directors members. The composition diversity of the Board of Directors members should be a combination of desired characteristics both in terms of the organs of the Board of Directors, and the individual members of the Board of Directors, in accordance with the needs of a Public Company. Thus, considering the combination of characteristics referred to will have an impact on the accuracy of the nomination process and appointment of individual members of the Board of Directors or the collegial Board of Directors.

In accordance with Article 5 paragraph (4) letter c.2 of the Company's Articles of Association, Series A Dwiwarna Shareholders have the privilege to nominate candidates as members of the Company's Board of Directors. Based on Article 11 paragraph (10) of the Articles of Association, members of the Board of Directors are appointed and dismissed by the GMS, where the GMS is attended by the Series A Dwiwarna Shareholder and the meeting resolution must be approved by the Series A Dwiwarna Shareholder with due observance of the provisions in the Articles of Association.

Determination of the Board of Directors membership composition takes into account the diversity of skills, knowledge and experience required as referred to in the OJK Recommendation in the Appendix to the OJK Circular Letter No. 32/SEOJK.04/2015 concerning Guidelines for Public Company Governance, which has been fulfilled by Series A Dwiwarna Shareholders as Shareholders with are entitled to nominate candidates for members of the Board of Directors. Thus, the Board of Directors composition in 2022 has met the aspects of diversity, as reflected in the education, work experience, age and gender, as presented in the following table.

BOARD OF COMMISSIONERS
AND BOARD OF DIRECTORS
REMUNERATION

BOARD OF COMMISSIONERS REMUNERATION POLICY

REMUNERATION GOVERNANCE

The remuneration for the BNI Board of Commissioners refers to OJK Regulation No. 45/POJK.03/2015 dated December 23, 2015, and OJK Circular Letter No. 40/SEOJK.03/2016 concerning Governance Implementation when Providing Remuneration in Commercial Banks, as well as Minister of SOEs Regulation No. PER-04/MBU/2014 dated March 10, 2014 concerning Guidelines for Determining Remuneration for the Board Directors, Board of Commissioners and Supervisory Boards of SOEs, as amended several times, most recently by Minister of SOEs Regulation No. PER13/MBU/09/2021 dated September 24, 2021.

The Board of Commissioners’ Remuneration Governance Policy states that the remuneration given can be fixed and variable. The provision for fixed and variable remuneration is based on business scale, business complexity, peer group, inflation rate, the Company’s condition and financial capability, and does not conflict with laws and regulations.

The determination of fixed remuneration also takes into account differences (gaps) in remuneration between position levels, to prevent potential internal conflicts and operational risks such as fraud or other operational risks.

For the determination of variable remuneration, the Company has based it on prudent risk taking, which refers to the OJK provisions that regulate the Implementation of Risk Management in Commercial Banks.

Based on BNI’s Articles of Association, members of the Board of Commissioners receive an honorarium and benefits/ facilities including bonuses and retirement benefits, the types and amounts of which are determined by the GMS with due observance of the prevailing laws and regulations.

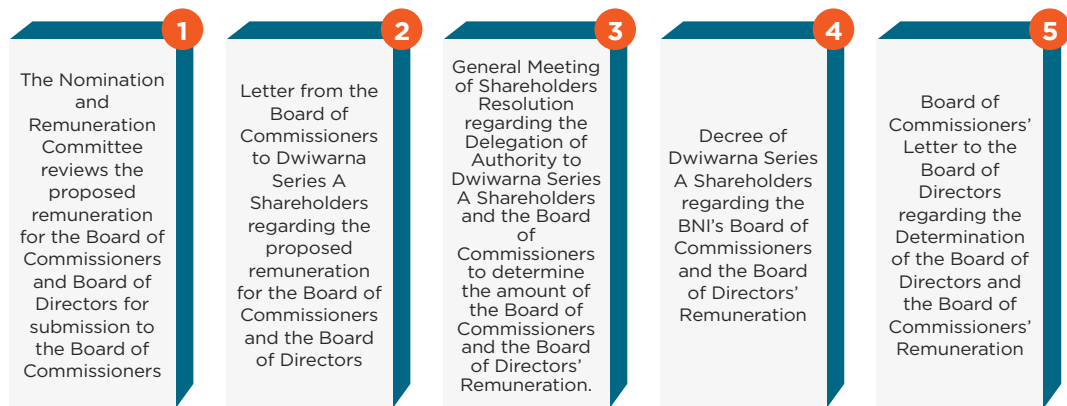

The Board of Commissioners supervises the implementation of the remuneration policy and conducts periodic evaluations through the Nomination and Remuneration Committee. The Nomination and Remuneration Committee evaluates the Remuneration policy based on performance, risk, fairness with peer groups, and the Bank’s goals and long-term strategy, fulfillment of reserves, as stipulated in the laws and regulations, and the Bank’s potential future income.

PROCEDURE FOR REMUNERATION DETERMINATION

In general, the procedure for determining the remuneration of the Board of Commissioners is carried out in the following stages:

1. The Nomination and Remuneration Committee evaluates the remuneration policies applicable to the Board of Commissioners;
2. Then the Nomination and Remuneration Committee provides recommendations to the Board of Commissioners regarding the remuneration policy for the Board of Commissioners;
3. The Board of Commissioners submits the remuneration recommendations for salaries/honorarium and tantiem to the Dwiwarna Series A Shareholder for approval from the GMS.

Procedure of Determining the Board of Commissioners Remuneration

MEMBERS OF THE BOARD OF COMMISSIONERS REMUNERATION STRUCTURE

The remuneration structure for members of the Board of Commissioners is based on Minister of SOEs Regulation No. PER-04/MBU/2014 dated March 10, 2014 concerning Guidelines for Determining the Remuneration for Board of Directors, Board of Commissioners and Supervisory Board of State-Owned Enterprises as amended several times, most recently by the Minister of SOEs Regulation No. PER-13/MBU/09/2021 dated September 24, 2021, and the Minister of SOEs Letter No. SR-33/Wk2.MBU.A/10/2021 dated October 1, 2021 concerning Determining the Remuneration for the BNI Board of Directors and Board of Commissioners in 2021, as follows:

Members of the Board of Commissioners Remuneration Structure

Type of Remuneration/Facility	Description
Honorarium	<ul style="list-style-type: none">President Commissioner is 45% of the salary of the President Director.Vice President Commissioner is 42.5% of the salary of the President Director.Commissioner is 90% of the honorarium of the President Commissioner.
Allowances	
Religious Holiday	Board of Commissioners is given allowances for Religious Holiday for 1 (one) time honorarium
Transportation	Board of Commissioners is given transportation for 20 (twenty) percent of the honorarium.
Post- Employment Insurance	<ul style="list-style-type: none">During the term of office (effective from appointment until it ceases)Premium borne by the Company is 25% (twenty-five percent) of the honorarium in one year.Selecting the program for post-employment insurance is determined by the Board of Directors and the Board of Commissioners, coordinated by the unit managing the facilities and allowances for members of the Board of Directors and the Board of Commissioners.Provision of premium, fee, or other terms relevant to post-employment insurance already includes premium for accident and death insurance.
Facilities	
Health	<ul style="list-style-type: none">Health facilities are given to members of the Board of Commissioners in the forms of health insurance or reimbursement of medical expenses.Health facilities are given to members of the Board of Commissioners, the wife/husband, and maximum 3 (three) children who have not reached the age of 25 (twenty five) provided that in the event that the child is not yet 25 years but had been married or had previously worked, the said child is not entitled to receive health facilities. Health facilities are provided in the forms of:<ul style="list-style-type: none">a. Outpatient and medicines;b. Inpatient and medicines;c. Medical check up subject to 1 (one) time every year and done inside the country.d. In the event that the treating doctor provides referrals for treatment overseas, the health facility is provided in full.

Members of the Board of Commissioners Remuneration Structure

Type of Remuneration/Facility	Description
Legal Aid	<ul style="list-style-type: none">Legal Aid facility to members of the Board of Commissioners is given in the event of any action/activity for and on behalf of a position of members of the Board of Commissioners that is related to the purpose and objective as well as the company's business activities.Legal aid facility is at cost.Legal aid facility is budgeted at the Bank's expense as stated in the Bank's Work Plan and Budget (RKAP).Legal aid facility can only be used during the term of office or no longer in office on the policies taken during the term of office and cannot be given directly to the person concerned.In the event that members of the Board of Commissioners use lawyers/legal consultants of their own choice, either at level of preliminary investigation/ investigation, first-level court, appeal, cassation, and judicial review, then, the lawyer/legal consultant fee is not borne/compensated by the Bank.Procedures for the Board of Commissioners' legal aid facility are carried out by referring to the applicable Laws and Regulations, specifically the Minister of State-Owned Enterprises Regulation which regulates the Guidelines for Determining the Income of the Board of the Directors, the Board of Commissioners, and Supervisory Board of State-Owned Enterprises.

INDICATORS FOR DETERMINING BOARD OF COMMISSIONERS REMUNERATION

The indicators for determining the Board of Commissioners and Board of Directors, the Company refers to Minister of SOEs Regulation No. PER-04/MBU/2014 concerning Guidelines for Determination of Income of Board of Directors, the Board of Commissioners, and Supervisory Board of SOE, as amended several times, lastly by Minister of SOEs Regulation No. PER-13/MBU/09/2021, and includes:

1. Business scale factor;
2. Business complexity factor;
3. Inflation Rate;
4. Company's condition and financial capability;
5. Other relevant factors, so long as not in violation of the laws and regulations.

TOTAL REMUNERATION NOMINAL/COMPONENT FOR THE BOARD OF COMMISSIONERS

The disclosure of the Board of Commissioners remuneration components refers to OJKCircular Letter No. 40/SEOJK.03/2016 concerning Governance Implementation in Providing Remuneration for Commercial Banks.

The following shows the total remuneration nominal/component for the Board of Commissioners in 2022:

Total Remuneration And Other Facilities	Amount Received In 1 (One) Year

Bellow Rp500 million	-	-

TANTIEM

The Tantiem paid in 2022 equated to 2.6% of the Company's net profit for the period January 1, 2021-December 31, 2021, and was given to members of the Board of Commissioners proportionately to the President Director, with the President Commissioner receiving 45%, the Vice President receiving received 42.5%, and other members of the Board of Commissioners receiving 90% of the President Commissioner's tantiem.

As a form of fulfillment of Article 23 of OJK Regulation No. 45/POJK.03/2015 concerning Governance Implementation when Providing Remuneration in Commercial Banks, the 2021 Performance will be paid in 2022 in the amount of 10% (ten percent) of the total Tantiem, paid as deferred Variable Remuneration to parties who become Material Risk Takers (MRT).

Tantiem in the form of deferred Variable Remuneration to Non-Independent Members of the Board of Commissioners is given in the form of BNI shares, while members of the Independent Board of Commissioners it is given in cash, which is kept in the form of deposits.

The Company may postpone the payment of Variable Deferred Remuneration (Malus) or withdraw the Variable Remuneration that has been paid (clawback) to parties who become Material Risk Takers under certain conditions.

BOARD OF DIRECTORS' REMUNERATION POLICY

REMUNERATION GOVERNANCE

Providing remuneration for BNI Directors, refers to OJK Regulation No. 45/ POJK.03/2015 dated December 23, 2015, and the OJK Circular No. 40/SEOJK.03/2016 concerning Governance Implementation when Providing Remuneration n Commercial Banks, as well as the Minister of SOEs Regulation that regulates the Guidelines for determining the remuneration for the Board of Directors, Board of Commissioners and Supervisory Board of SOEs. The Board of Directors' Remuneration Governance Policy states that the remuneration given can be fixed and variable. The provision for fixed and variable remuneration is based on business scale, business complexity, peer group, inflation rate, the Company's condition and financial capability, and does not conflict with laws and regulations.

Regarding the determination of Fixed Remuneration, it observes the difference (gap) of remuneration between position levels, to prevent potential internal conflicts and operational risks such as fraud or other operational risks. For the determination of variable remuneration, the Bank uses the basis of prudent risk taking that refers to the provisions of the Financial Services Authority regulating Risk Management Implementation for Commercial Banks.

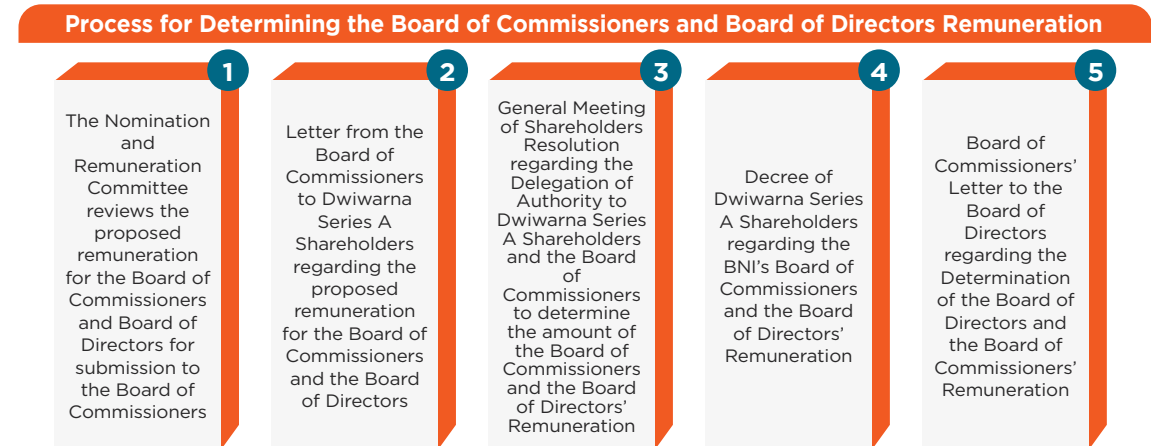

Based on BNI's Articles of Association, members of the Board of Directors are given salaries and allowances/facilities including tantiem and post-retirement benefits, the types and the amounts of which are determined by the GMS with due observance to the prevailing laws and regulations.

The Board of Commissioners supervises the remuneration policies implementation and conducts regular evaluations through the Nomination and Remuneration Committee. The Nomination and Remuneration Committee conducts evaluations on the Remuneration Policy based on performance, risk, fairness with peer group, targets, and the Bank's long term strategy, as well as fulfillment of reserves as regulated in laws and regulations, and the Bank's potential future revenue.

REMUNERATION DETERMINATION PROCEDURE

In general, the procedure for determining the Board of Directors' remuneration is carried out through the following stages:

1. The Nomination and Remuneration Committee evaluates the remuneration policy applicable to the Board of Directors;
2. The Nomination and Remuneration Committee provides recommendations to the Board of Commissioners on the remuneration policy for the Board of Directors;
3. The Board of Commissioners submits proposals on the remuneration recommendation in the form of salaries/honorarium and tantiem to be approved by the GMS.

REMUNERATION STRUCTURE FOR MEMBERS OF THE BOARD OF DIRECTORS

Determination of the remuneration structure for the BNI Board of Directors members refers to the Minister of SOEs Regulation No. PER-04/MBU/2014 dated March 10, 2014 concerning Guidelines for determining remuneration for the Board of Directors, Board of Commissioners and Supervisory Board of SOEs, as amended several times, most recently by Minister of SOEs Regulation No. PER13/MBU/09/2021 dated September 24, 2021, and Minister of SOEs Letter No. SR-23/Wk2.MBU.A/07/2022 dated July 25, 2022 concerning determining remuneration for the Board of Directors and Board of Commissioners of PT Bank Negara Indonesia (Persero) Tbk for 2022, and are as follows:

Remuneration Structure for Members of Board of Directors in 2022

TANTIEM

The Tantiem paid in 2022 equated to 2.6% of the Company's net profit for the period January 1, 2021-December 31, 2021, and was given to members of the Board of Directors proportionately to the President Director, with the President Director receiving 100%, the Vice President Director receiving 90%, and other members of the Board of Directors receiving 85%.

As a form of fulfillment of Article 23 of OJK Regulation No. 45/POJK.03/2015 concerning Governance Implementation when Providing Remuneration in Commercial Banks, the 2021 Performance will be paid in 2022 in the amount of 10% (ten percent) of the total Tantiem, paid as deferred Variable Remuneration to parties who become Material Risk Takers (MRT). Tantiem in the form of deferred Variable Remuneration to all members of the Board of Directors is given in the form of BNI shares.

The Company may postpone the payment of Variable Deferred Remuneration (Malus) or withdraw the Variable Remuneration that has been paid (clawback) to parties who become Material Risk Takers under certain conditions.

EMPLOYEES' REMUNERATION

The remuneration given to BNI employees aims to attract, retain and motivate employees to perform optimally. BNI regularly compares market positions to ensure the competitiveness of its remuneration scheme offered to employees. The employee remuneration components consist of fixed and variable remuneration. Fixed remuneration is given based on the position level and the employee position. The variable remuneration is given based on performance associated with the Bank's performance achievement, unit performance and the performance of the employee concerned.

To implement the remuneration strategy so that it is always competitive in the market, several matters are taken into account when developing the reward management strategy in 2022, including the Employee Stock Allocation (ESA) Program, to increase employee motivation and sustainable performance, increase employee ownership, employees' sense of belonging to the company, as well as efforts to retain and increase employee risk awareness. In addition, to motivate and retain BNI's top talent to continue their careers and contribute to BNI, there is a Retention Program and Discretionary Bonus given to selected top BNI talent, as decided by the Board of Directors.

HIGHEST AND LOWEST EMPLOYEE SALARY RATIO

A salary is an employee's right, a compensation in the form of money, given by the Company or employer for the services rendered by the employee, which is determined and paid based on a work agreement, arrangement, or laws and regulations.

1. Ratio of highest and lowest employee's salary is 40.29:1;
2. Ratio of highest and lowest Director's salary ratio is 1.18:1;
3. Ratio of highest and lowest Commissioners' salary ratio is 1.11:1;
4. Ratio of Director's highest salary and employee's highest salary is 2.22:1

EMPLOYEES AND/OR COMPANY MANAGEMENT STOCK ALLOCATION PROGRAM (MSOP/ESOP)

MANAGEMENT SHARE OWNERSHIP PROGRAM

To uphold the prudential element in managing the Bank and mitigate excessive risk taking by decision makers, BNI complies with and implements the principles set out in OJK Regulation No. POJK 45/POJK.03/2015 concerning application of Governance when Providing Remuneration for Commercial Banks ("POJK 45"), which includes the implementation of Variable Remuneration given in the form of Company shares (BBNI).

Based on POJK 45, Remuneration is the predetermined compensation given to members of the Board of Directors, members of the Board of Commissioners and/or Employees, which can be fixed and variable in nature. Fixed Remuneration is remuneration unrelated to performance and risk, and includes basic salaries, facilities, housing allowance, health allowance, education allowance, holiday allowance, and pension. Whereas Variable Remuneration is Remuneration associated with performance and risk, including bonuses or other equivalent forms.

The Fixed Remuneration Policy must at least pay attention to the business scale, business complexity, peer group, inflation rate, condition and financial capacity, and not conflict with the applicable laws and regulations. Specifically for Variable Remuneration, in addition to paying attention to these matters, its application is also required to encourage prudent risk taking.

By taking into account the above-mentioned matters, in 2022, a Share Ownership Program was established for the Board of Directors, Board of Commissioners and Employees. The program's establishment was based on an Annual General Meeting of Shareholders resolution for the 2021 Fiscal Year, held on March 15, 2022. The total shares used for the Share Ownership Program for Employees and the Share Ownership Program for Board of Directors and Board of Commissioners amounted to 24,682,600 shares. The source of the shares used came from the 2021 buyback shares.

In accordance with Article 18 POJK 45, Variable Remuneration in the form of shares for Independent Commissioners is converted and given in cash. In 2022, the Company's Independent Commissioners did not own Company shares.

EMPLOYEE SHARE OWNERSHIP PROGRAM

In 2022, BNI established an Employee Stock Allocation (ESA) Program, a program for providing share allocations to employees who meet certain criteria and requirements as stipulated in the Program Implementation Guidelines.

The ESA program objectives include:

1. Long term employee retention strategy;
2. Efforts to motivate employees to always provide their best performance;
3. Increasing employees' sense of belonging to the Bank.

DISTRIBUTION OF SHARE EMPLOYEE STOCK ALLOCATION PROGRAM (ESA PROGRAM)

The source of the shares used in the ESA Program were buyback shares obtained by PT Bank Negara Indonesia (Persero) Tbk. Participants in the ESA Program are permanent employees as of December 31, 2021 satisfy the criteria and requirements for allocation, and vesting in accordance with predetermined criteria.

The ESA Program allocation and vesting of was carried out on June 2, 2022, with a lock up period according to a predetermined timeframe. The opening of the lock up period was carried out in stages based on the employee's position level. The opening of the lock up period for employees at the Manager level and below will be carried out in one stage on June 2, 2023. The opening of the lock up for Assistant Vice President (AVP) levels and above will be carried out in stages over a period of 3 (three) years from June 2, 2023 to June 2, 2025. Employees who have received an allocation and vesting must fulfill the requirements for opening a lock up at a predetermined time.

Participants declared eligible for allocation, vesting and lock up opening will be notified through a Human Capital application that can be accessed by all employees. The information conveyed to employees includes the number of shares acquired during the allocation, vesting, and opening of the lock up period. At the opening date of the last lock up period, on June 2, 2025, all shares allocated for the ESA Program will be completely divided among the participants.

SHARE DISTRIBUTION FOR EMPLOYEES THAT ARE MATERIAL RISK TAKER (MRT)

Based on POJK No.45/POJK.03/2015 concerning application of Governance when Providing Remuneration for Commercial Banks, it is stipulated that banks are required to determine parties who become Material Risk Takers (MRT), and at least meet the following criteria:

- Board of Directors and/or other employees who due to their duties and responsibilities make decisions that have a significant impact on the risk profile of the Bank; or
- Board of Directors, Board of Commissioners and/or Employees who receive Variable Remuneration of a large value.

Bank Negara Indonesia (BNI) has applied the Governance for providing remuneration by determining employees who meet the criteria as Material Risk Taker (MRT), namely employees at the Senior Executive Vice President (SEVP) position in accordance with the Board of Directors Meeting Decision on December 20, 2016.

In addition, the Bank is required to defer a certain percentage of the variable remuneration payments to the parties who are Material Risk Takers (MRT). For the 2021 performance payment, the SEVP's Annual Bonus that was paid in 2022, referred to the BNI Board of Commissioners and Board of Directors meeting decision that determined the percentage for the variable remuneration. The suspended (Malus) Annual Bonus for SEVP level employees was in the form of shares from the 2021 buyback.

DISCLOSURE OF INFORMATION ON BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS SHARE OWNERSHIP AND ITS APPLICATION

Based on OJK Regulation No. 11/POJK.04/2017 concerning Reports of Ownership or Any Changes in Ownership of Public Company Shares, Members of the Board of Directors or members of the Board of Commissioners must report to OJK any ownership and any change in ownership of Public Company shares, either directly or indirectly. The said report must be submitted no later than 10 (ten) days after the occurrence of ownership or change.

In addition to the OJK reporting requirements, members of the Board of Directors and members of the Board of Commissioners are also required to submit information to the Public Company regarding ownership and any changes in their ownership of Public Company shares. This information should be submitted no later than 3 (three) working days after the occurrence of ownership or any change in ownership of Public Company shares. Within the Company, members of the Board of Directors and members of the Board of Commissioners convey this information to the Corporate Secretary no later than 3 (three) working days after the ownership occurs.

The policy regarding the obligations of members of the Board of Directors and members of the Board of Commissioners to submit information regarding ownership and any changes in share ownership of the Company's shares is regulated in the Board of Commissioners Decree No. KEP/049/DK/2017 dated October 26, 2017 concerning Guidelines and Work Procedures for the PT Bank Negara Indonesia (Persero) Tbk. Board of Commissioners, and the Board of Directors Decree No. KP/228DIR/R dated June 29, 2018 concerning Improvement to the Board of Directors' Work Guidelines and Rules.

In 2022, there were/were no changes in the ownership of the Company's shares by members of the Board of Directors and Non-Independent members of the Board of Commissioners that had been submitted to the OJK in accordance with the provisions of OJK Regulation No. 11/POJK.04/2017 concerning Reports of Ownership, or Any Changes in Ownership of Public Company Shares.

Information concerning reports on share ownership of members of the Board of Directors and members of the Board of Commissioners in 2022 can be seen as follows:

BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS SHARE OWNERSHIP IN BANKS OR OTHER COMPANIES

BNI always discloses the members of the Board of Commissioners and Board of Directors share ownership in other banks, non-bank financial institutions, and other companies domiciled at home and abroad. This is realized to maintain the independence of each member of the Board of Commissioners and Board of Directors. At the end of December 31, 2022, the entire Board of Commissioners and Board of Directors did not own shares in other banks, non-bank financial institutions and other companies domiciled inside or outside the country.

BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS MEETINGS

BOARD OF COMMISSIONERS MEETINGS

MECHANISM FOR THE BOARD OF COMMISSIONERS MEETINGS AND THE BOARD OF COMMISSIONERS MEETINGS WITH THE BOARD OF DIRECTORS

In accordance with the OJK Regulations and the Company's Articles of Association No. 33/POJK.04/2014 dated December 8, 2014 concerning the Board of Directors and Board of Commissioners of Issuers or Public Companies, the Company's Articles of Association states that the Board of Commissioners is required to hold meetings at least 1 (one) time in 2 (two) months, and hold joint meetings with the Directors regularly, at least 1 (one) time in 4 (four) months. The Board of Commissioners may also hold meetings at any time at the request of 1 (one) or several members of the Board of Commissioners or the Board of Directors, by specifying the matters to be discussed.

The Board of Commissioners may also make valid decisions without holding a Board of Commissioners Meeting provided all members of the Board of Commissioners have been notified in writing and all members of the Board of Commissioners give their approval regarding the proposal submitted in writing and sign the agreement.

The Board of Commissioners has established procedures and mechanisms and guidelines for holding Board of Commissioners and Board of Directors meetings. This procedure is regulated in the Board of Commissioners Decree No. Kep/049/DK/2017 dated October 26, 2017 concerning Guidelines and Work Procedures for the Board of

Commissioners, which was further elaborated in the Board of Commissioners Decree No. KEP/010/DK/2018 dated July 12, 2018 concerning Rules for Board of Commissioners Meetings, and Board of Commissioners and Board of Directors Meetings at PT Bank Negara Indonesia (Persero) Tbk, which contain provisions concerning:

1. Meeting Schedule;
2. Meeting agenda;
3. Meeting Venue;
4. Meeting Participants;
5. Power and Representation;
6. Meeting Summons;
7. Meeting Attendance and Decision Making;
8. Documentation of the implementation of the Meeting and administration of Minutes of Meeting;
9. Decisions of the Board of Commissioners outside the meeting;
10. Meeting of the Board of Commissioners through Teleconference Media;
11. Format and materials for Meeting Presentations.

The Board of Commissioners' meetings consist of:

1. Internal Meetings of the Board of Commissioners;
2. Board of Commissioners meetings by inviting the Field/Sectoral Director or Senior Executive Vice President (SEVP);
3. Joint Meetings of the Board of Directors and the Board of Commissioners, Board of Commissioners Meeting with the Board of Directors, attended by the Corporate Secretary and the Secretary to the Board of Commissioners.

THE BOARD OF COMMISSIONERS' MEETING PLAN FOR 2023

The Board of Commissioners and Board of Directors Plan for 2023, was based on the Board of Commissioners' Work Plan, as determined in early 2023 with due observance of the applicable laws and regulations specifically governing the Board of Commissioners duties, obligations and responsibilities:

- Board of Commissioners with the Board of Directors Meetings:
 - To evaluate Consolidated Business and Financial Performance per quarter;
 - To approve Corporate Plans, Bank Business Plans (RBB), Company Work Plan & Budget (RKAP), and Sustainable Finance Action Plans (RAKB), as well as to monitor the implementation of the Bank's Business Plan and BNI's Financial Performance;
 - Strategic issues.
- Board of Commissioners Meetings consist of Internal Board of Commissioners Meetings, Board of Commissioners Meetings by inviting the Sector/Field Directors, which include:
 - Credit granting decision report that

needs to be consulted with the Board of Commissioners;

- BNI Bank Health Level for Semester II-2022 and Semester I-2023, and BNI Risk Profile per quarter;
- Implementation of BNI Risk Management and Integrated Risk Management in the BNI Financial Conglomerate;
- Evaluation of the Internal Control System and the Effectiveness of the BNI Internal Control Unit;
- Findings and recommendations submitted by OJK, internal auditors, and external auditors;
- Implementation of the BNI Compliance Function;
- Implementation of Anti-Money Laundering (APU) and Combating the Funding of Terrorism (PPT) Programs in the Financial Services Sector, Implementation of Anti-Fraud Strategies, Whistleblowing Systems, and Know Your Customer BNI Principles;
- BNI Human Capital strategic issues;
- Implementation of Good Corporate Governance in BNI;

- Implementation of Integrated Governance in the BNI Financial Conglomerate;
- The quality of BNI's lending or financing portfolio;
- BNI Information Technology Governance and strategic issues;
- Sector Director's performance related to BNI's strategic issues;
- BNI material cases report;
- Loan consultation with the Board of Commissioners;
- Consultation write-off to the Board of Commissioners;
- Proposed Appointment of Public Accounting Firm;
- Evaluation of Remuneration Policy Implementation, HC Management, and Outsourcing Risk Management;
- Evaluation of BNI's DPLK, including the Business Plans, Governance, Internal Control, Internal Audit, and Management Duties;
- Evaluation of Consumer Protection;
- Evaluation of BNI Payment Services, including policies, governance, risk management, ownership and control structures, as well as information system security standards in BNI Payment Services;
- Approval of matters based on statutory regulations, and BNI's Articles of Association that must obtain approval from the Board of Commissioners, including:
 - Approval for the provision of Bank funds to related parties;
 - Approval of Company Policy/Guidelines;
 - Approval of the DPLK Business Plan;
 - Approval of Updated Recovery Plan;
 - Approval of Updated Resolution Plan;
 - Approval of Risk Tolerance Level Determination (Risk Appetite);
 - Approval of annual credit plan including plans for extend loans to parties related to the Bank and loans to certain large debtors as stated in the RBB submitted to OJK;
 - Approval of the annual audit plan and budget allocation for the internal audit function.

BOARD OF DIRECTORS' MEETING

The Board of Directors Meetings are held with reference to the provisions of OJK Regulation No. 33/POJK.04/2014 concerning the Board of Directors and the Board of Commissioners of Issuers or Public Companies and Article 13 of the Company's Articles of Association.

Board of Directors Meeting are held with the following provisions:

Organizing Meetings	<ul style="list-style-type: none">The Board of Directors must hold a Board of Directors' meeting at least 1 (one) time every month.The Board of Directors must hold a joint meeting of the Board of Directors with the Board of Commissioners periodically at least 1 (one) time in 4 (four) months.The Board of Directors' Meetings may be held at any time in the event that<ol style="list-style-type: none">It is deemed necessary by one or more members of the Board of Directors;Upon a written request from one or more members of the Board of Commissioners;Board of Directors meeting materials are available for meetings in 5 (five) working days prior to the meeting.
Meeting Summons	<ul style="list-style-type: none">Meetings can be held at the Bank's domicile or elsewhere in the territory of the Republic of Indonesia or at the place of business of the Company.The summons of Board of Directors' Meeting shall be made by the member of Board of Directors who is entitled to represent the Board of Directors.The summons of the Board of Directors' Meeting shall be made in writing and submitted or delivered directly to each member of the Board of Directors with an adequate receipt or by registered mail or by courier or telex, facsimile, or e-mail no later than 5 (five) days before the meeting is held by not including the Calling Date and the meeting date or in a shorter time if in an urgent situation.The summons of meeting shall state the agenda, date, time, and place of the meeting.Such calling is not required for meetings that have been scheduled based on the decisions of the Board of Directors' Meeting held previously or if all members of the Board of Directors are present at the meeting.

Chair of the Board of Directors' Meeting	<ul style="list-style-type: none">All Board of Directors' Meetings are chaired by the President Director. In the event that the President Director is absent or unavailable, the Vice President Director will chair the Board of Directors' meeting or a Director who is appointed in writing by the President Director will chair the Board of Directors' Meeting in the event that at the same time the Vice President Director is also absent or unavailable or the Director appointed by the Vice President Director who will chair the Board of Directors' Meeting in the event that at the same time the President Director is absent or unavailable and does not appoint anyone.If the GMS does not appoint a Vice President Director, then in the event that the President Director is absent or unavailable, one of the Directors who is appointed in writing by the President Director will chair the Board of Directors' Meeting.In the event that the President Director does not appoint anyone, one of the Directors with the longest term of office as member of Board of Directors will chair the Board of Directors' Meeting.In the event that there is more than 1 (one) member of the Board of Directors who has the longest term of office as a member of the Bank's Board of Directors, then the Director as stated in point 3 above who is the oldest in age will act as the chair of the Board of Directors' Meeting.
Attendance	<ul style="list-style-type: none">Members of the Board of Directors may be represented at the Board of Directors' Meeting only by another member of the Board of Directors based on a Power of Attorney. A member of the Board of Directors may only represent one other member of the Board of Directors.Members of the Board of Directors who are unable to attend a Board of Directors' Meeting can submit their opinions in writing and sign, then submit it to the President Director or Vice President Director or to other members of the Board of Directors who will chair the Board of Directors' Meeting, whether or not they support the matters will be discussed and this opinion will be deemed as a vote legally issued at the Board of Directors' Meeting.In the event that a member of the Board of Directors is unable to attend a meeting physically, then such member of the Board of Directors may attend the meeting through teleconferencing, video conferencing, or other electronic media facilities, in accordance with the applicable regulations.Each member of the Board of Directors who personally in anyway, directly or indirectly, has an interest in a transaction, contract, or proposed contract, in which the Bank is one of the parties shall state the nature of interest in a Board of Directors' Meeting, and therefore, has no right to take part in voting on matters related to such transaction or contract.
Decision Making	<ul style="list-style-type: none">The Board of Directors' Meeting is valid and entitled to make binding decisions if attended and/or represented by more than 1/2 (one half) from the total members of the Board of Directors.In the event that there is more than one proposal, a re-election is conducted so that one of the proposals gets votes more than 1/2 (one half) part of the total votes cast.The Board of Directors' Meeting Decisions shall be made based on deliberation to reach a consensus. In the event that decision based on deliberation to reach a consensus is not reached, then the decision shall be taken by voting based on the agreed votes that are more than 1/2 (one half) part of the total valid votes cast at the related meeting.In Board of Directors' Meetings, each member of the Board of Directors is entitled to cast 1 (one) vote and 1 (one) additional vote for each other member of the Board of Directors represented.Blank votes (abstention) are considered as approving the proposal submitted at the meeting. Void votes are considered non-existent and not counted in determining the number of votes cast at the meeting.Voting concerning an individual shall be in folded ballots without signature, while voting concerning other matters shall be conducted orally, unless otherwise determined by the Chair of the Meeting, without any objection being raised by those present.
Minutes of Meeting	<ul style="list-style-type: none">The results of the Board of Directors' Meeting must be stated in Minutes of Meeting. Minutes of Meeting shall be made by a person present at the meeting who is appointed by the Chair of the Meeting, and then signed by all members of the Board of Directors present and delivered to all members of the Board of Directors.Results of Board of Directors' Meetings with the Board of Commissioners must be stated in Minutes of Meeting. Minutes of Meeting shall be made by a person present at the meeting who is appointed by the Chair of the Meeting, and then signed by all members of the Board of Directors and members of the Board of Commissioners present and delivered to all members of the Board of Directors and members of the Board of Commissioners.In the event that there are members of the Board of Directors and/or members of the Board of Commissioners who do not sign the meeting results as referred to in number 1 and 2 above, such member must state the reason in writing in a separate letter attached to the minutes of meeting.Minutes of Meeting as referred to in number 1 and number 2 above must be documented by the Bank.Minutes of the Board of Directors' Meeting are legitimate evidence for members of Board of Directors and third parties regarding the decisions taken in the related Meeting.
Decisions Outside the Board of Directors Meeting	<ul style="list-style-type: none">The Board of Directors may also make valid decision without holding the Board of Director's Meeting, provided that all members of Board of Directors have been notified in writing and all members of Board of Directors have approved the related proposal submitted in writing and have signed such approvals.Decisions made by such way have the same binding power as that of made validly in the Board of Director's Meeting.

Henry Panjaitan ³⁾	Treasury & International Director	35	33	94.3	3	2	67%

Note:
¹⁾ Appointed on August 31, 2022: Mr. Mucharom has effectively served as Director of the Company since January 06, 2023;
Mr. Putrama Wahyu Setyawan has effectively served as Director of the Company since December 23, 2022;
Mr. Toto Prasetyo effectively served as Director of the Company on January 31, 2023
²⁾ Ceased serving as Member of Director on August 31, 2022
³⁾ Appointed as Director on August 31, 2022

MEETINGS SCHEDULED FOR 2023

Article 13 of the Articles of Association states that the Board of Directors is required to hold regular Board of Directors meetings at least 1 (one) time every month. Meetings of the Board of Directors can be held at any time if deemed necessary by one or more members of the Board of Directors, or at the written request of one or more members of the Board of Commissioners.

The Board of Directors meetings are scheduled to be held 12 (twelve) times. The Board of Directors meeting schedule for 2023 is as follows:

BOARD OF DIRECTORS' AFFILIATED RELATIONSHIPS

The Board of Directors always acts independently, in the sense that it does not have any conflicts of interest that could interfere with their ability to carry out their duties independently and critically, both in relation to each other and to the Board of Commissioners.

The Board of Directors has no financial relationship, management relationship, share ownership, and/or familial relationship with other members of the Board of Commissioners, the Board of Directors, and/or Controlling Shareholders or relationship with the Bank, therefore, the Board can perform the duties and responsibilities independently.

Affiliated relationships between members of the Board of Directors, Board of Commissioners, and Majority and/or Controlling Shareholders includes:

1. Affiliated relationship between member of the Board of Directors and other member of Board of Directors;
2. Affiliated relationship between members of the Board of Directors and members of Board of Commissioners;
3. Affiliated relationship between members of the Board of Directors and Majority and/or Controlling Shareholders.

The Board of Directors Independence and affiliated relationships can be seen in the table below.

ORGANS UNDER THE BOARD OF COMMISSIONERS

In carrying out its supervisory duties and responsibilities for the Company's management by the Board of Directors, the Board of Commissioners has supporting organs consisting of the Secretary to the Board of Commissioners, Audit Committee, Remuneration and Nomination Committee, Risk Monitoring Committee, and Integrated Governance Committee.

SECRETARY TO THE BOARD OF COMMISSIONERS

The Secretary to the Board of Commissioners is a supporting organ for the Board of Commissioners who is appointed and reports directly to the Board of Commissioners based on BNI's Articles of Association. The Secretary to the Board of Commissioners of BNI comes from outside the Company, and is appointed and dismissed by the Board of Commissioners based on a Board of Commissioners Decree and reports directly to the Board of Commissioners.

The Secretary to BNI's Board of Commissioners oversees the Board of Commissioners' Secretariat, which is formed and tasked with assisting and supporting the smooth activities and duties of the Board of Commissioners. In carrying out its duties, the Secretary to the Board of Commissioners, who is from outside the Company, is assisted by the Board of Commissioners Secretarial Staff, and Staff who are internal staff of the Bank.

LEGAL BASIS FOR FORMATION

The Secretary to the Board of Commissioners and the Secretariat to the Board of Commissioners duties is guided by the Minister of SOEs Regulation No. PER-12/MBU/2012 dated August 24, 2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of State-Owned Enterprises, as amended by the Minister

of SOEs Regulation No. PER-06/MBU/04/2021 dated April 13, 2021 and No. PER-14/MBU/10/2021 dated October 29, 2021, which includes regulations relating to the Secretariat to the Board of Commissioners and the Secretary to the Board of Commissioners.

GUIDELINES AND WORK CONDUCT

The Board of Commissioners issued a Decision Letter No. KEP/041/DK/2017 dated September 28, 2017, concerning Guidelines and Work Conduct of the Board of Commissioners Secretariat that regulates the following matters:

1. Appointment and Position of Secretary to the Board of Commissioners;
2. Term of Office of the Secretary to the Board of Commissioners, who is from outside the bank, and the Board of Commissioners' Secretariat Staff;
3. Requirements for Secretary to the Board of Commissioners;
4. Remuneration of the Secretary to the Board of Commissioners, who is from outside the bank, and the Board of Commissioners' Secretariat Staff;
5. Duties of the Secretariat and Secretary to the Board of Commissioners;
6. Access to and confidentiality of information;
7. Working time of the Secretary to the Board of Commissioners, who is from outside the bank, and the Board of Commissioners' Secretariat Staff;
8. Performance assessment of the Board of;
9. Prohibition of concurrent positions;
10. Mechanism for Coordinating the Board of Commissioners' Secretariat with the Corporate Secretary and committees under the Board of

Commissioners.

SECRETARY TO THE BOARD OF COMMISSIONERS DUTIES AND RESPONSIBILITIES

The Secretary to the Board of Commissioners duties and responsibilities include facilitating the Board of Commissioners duties implementation. The Secretary to the Board of Commissioners Duties and Responsibilities include:

1. Coordinating the Board of Commissioners Secretariat duties in performing the following duties:
 - a. Preparing meetings, including briefing sheets for the Board of Commissioners;
 - b. Preparing Minutes of the Board of Commissioners' Meeting according to the Bank's Articles of Association, including attending and preparing Minutes of joint meetings of the Board of Commissioners and the Board of Directors;
 - c. Administering the Board of Commissioner's documents either incoming letters, outgoing letters, minutes of meetings, or any other documents;
 - d. Drafting the Board of Commissioners Work Plan and Budget;
 - e. Drafting the Board of Commissioners' Reports.

2. In addition to performing duties stated in number 1 above, the Secretary of the Board of Commissioners as the head of the Board of Commissioners Secretariat performs the following duties:
 - a. Ensuring that the Board of Commissioners complies with the laws and regulations and implements Good Corporate Governance principles;
 - b. Providing information needed by the Board of Commissioners periodically or at any time when requested;
 - c. Coordinating Committee members, if necessary, to ensure the ease of the Board of Commissioners' duties;
 - d. Becoming the liaison officer between the Board of Commissioners and other parties;
 - e. Performing other duties given by the Board of Commissioners, among others but not limited to:
 - i) Coordinating the studies/reviews required by the Board of Commissioners;
 - ii) Accompanying the Board of Commissioners on work visits/official trips to work units within the Company, and coordinating with committees under the Board of Commissioners in preparing the Board of Commissioners reports on the work visits/official trips; and
 - iii) Accompanying the Board of Commissioners in meetings with the regulators or the Bank supervisors related to the Board of Commissioners duties and obligations as the Company's supervisor.
3. In the framework of administrative order and good corporate governance implementation, the Board of Commissioners Secretariat must ensure that documents reflect the Board of Commissioners' activities, and are well-kept at the Bank.

SECRETARY TO THE BOARD OF COMMISSIONERS PROHIBITION OF CONCURRENT POSITIONS

The Secretary and Board of Commissioners Secretariat staff who come from outside the Bank may not concurrently serve as:

1. Members of the Board of Commissioners/Supervisory Board of another BUMN/Company;
2. Secretary/Staff Secretary to the Board of Commissioners in State-Owned Enterprises (BUMN) or other companies;
3. Other committee members in the Company; and/or
4. Committee members in BUMN/other companies.

IMPLEMENTATION OF THE SECRETARY TO THE BOARD OF COMMISSIONERS DUTIES IN 2022

In carrying out its function as a supporting organ for the Board of Commissioners, the Secretary to the Board of Commissioners assists and supports the Board of Commissioners' duties by providing information, studies and reports needed by the Board of Commissioners.

The Secretary to the Board of Commissioners' duties in 2022 included:

1. Assisting in preparing the Board of Commissioners 2023 Work Plan and 2022 Work Plan Realization Report.
2. Assisting in preparing the Board of Commissioners draft report, which a mandatory obligation for the Board of Commissioners in accordance with the prevailing regulatory provisions, including:
 - a. Quarterly reports to the Republic of Indonesia Ministry of SOEs;
 - b. Financial Services Authority reports;
 - c. Board of Commissioners working visit reports.
3. Monitoring, reviewing and reporting the latest laws and regulations development to be submitted to the Board of Commissioners, including preparing, updating/adjusting the Board of Commissioners Decrees based on the prevailing laws and regulations.
4. Coordinating and organizing Board of Commissioners Meetings and Board of

Commissioners Meetings with the Board of Directors, including preparing meeting schedules, meeting materials, compiling and administering the Board of Commissioners meeting minutes, submitting Board of Commissioners suggestions and opinions based on the Board of Commissioners meeting results to the Board of Directors and monitoring the Board of Commissioners suggestions and opinions follow-up.

5. Assisting and supporting the Committees under the Board of Commissioners duties that support the Board of Commissioners duties based on prevailing regulations, including:
 - a. Coordinating the division of duties for the committees under the Board of Commissioners;
 - b. Coordinating and preparing for committees under the Board of Commissioners meetings, including preparing meeting materials, compiling and administering minutes of meetings, as well as submitting suggestions and opinions on the results of evaluations and committee meetings to the Board of Commissioners as input;
 - c. Monitoring the implementation of the Work Plan of committees under the Board of Commissioners;
 - d. Ensuring the completion of the committees under the Board of Commissioners reports.
6. Carrying out administrative duties to assist the smooth running of the Board of Commissioners duties, including the management, storage and administration of Minutes for Board of Commissioners Meetings, Board of Commissioners with the Board of Directors Meetings, and for Committees under the Board of Commissioners Meetings, and documents/letters from the Board of Commissioners to the Board of Directors and other parties, including preparing draft approval letters as well as strategic input/suggestions from the Board of Commissioners to be submitted to the Board of Directors.
7. Accompanying the Board of Commissioners on work visits/office trips (online) to Company work units, and at meetings with regulators or bank supervisors related to the Board of Commissioners duties and obligations.

AUDIT COMMITTEE

The Board of Commissioners has an Audit Committee, responsible to the Board of Commissioners, to assist in carrying out the Board of Commissioners supervisory duties and functions in supporting the implementation of good corporate governance in every aspect of the Bank's business.

BASIS FOR AUDIT COMMITTEE ESTABLISHMENT

BNI'S Audit Committee was established in 2000 based on the Board of Commissioners' Decree No. Kep/05/DK/2000 dated July 28, 2000 concerning the Establishment of the Audit Committee. When carrying out its duties, obligations and authorities, the BNI Audit Committee is guided by the prevailing laws and regulations, including:

1. Minister of SOEs Regulation No. PER-12/MBU/2012 dated August 24, 2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs, as amended by Minister of SOEs Regulation No. PER-14/MBU/10/2021, as the Second Amendment to the Minister of SOEs Regulation No. PER-12/

- MBU/2012 concerning Supporting Organs for the Board of Commissioners/Supervisory Board of SOEs;
2. Financial Services Authority (OJK) Regulation No. 55/POJK.04/2015 dated December 23, 2015 concerning the Establishment and Work Guide-lines of the Audit Committee;
3. Financial Services Authority Regulation No. 55/POJK.03/2016 dated December 7, 2016 concerning Implementation of Governance for Commercial Banks;
4. Financial Services Authority Regulation No. 13/POJK.03/2017 dated March 27, 2017 concerning the Use of Public Accountant Services and Public Accounting Firms in Financial Service activities;
5. Financial Services Authority Regulation No. 1/POJK.03/2019 dated January 28, 2019 concerning Internal Audit Function for Commercial Banks; and
6. Minister for SOEs Regulation No. PER-5/MBU/09/2022 dated September 2, 2022 concerning Implementation of Risk Management in SOEs.

AUDIT COMMITTEE CHARTER

The Company has an Audit Committee Charter containing the Work Guidelines and Rules, which are continuously being refined and updated in accordance with developments in applicable legal regulations and current conditions. The last revision of the BNI Audit Committee Charter was carried out in 2021 as stipulated in the Board of Commissioners Decree No. KEP/007/DK/2021 dated April 15, 2021 concerning the Audit Committee Charter and Code of Ethics for the Audit Committee of PT Bank Negara Indonesia (Persero).

The Audit Committee Charter stipulates the structure and requirements for members' term of office, duties and responsibilities, authorities, Audit Committee meetings, and reporting obligations on the implementation of the Audit Committee's duties or activities. The Audit Committee's Code of Ethics includes integrity, objectivity and independence, competency and confidentiality.

AUDIT COMMITTEE DUTIES AND RESPONSIBILITIES

In carrying out its function, the Audit Committee duties and responsibilities include:

1. Reviewing the financial information to be published by the Company to the public and/or authorities, such as financial statements, projections, and other statements relating to the Company's financial information;
2. Reviewing the adherence to laws and regulations relating to the Company's activities;
3. Providing independent opinions in the case of:
 - a. Disagreements between management and the Accountant for services rendered; and/or
