5. Financial Services Authority Regulation No. 33/POJK.04/2014 concerning Directors and Board of Commissioners of Issuers or Public Companies; And
6. BNI's Articles of Association which regulate the appointment of members of the Board of Commissioners.

Board of Commissioners Nomination Procedure

Board of Commissioners Appointment Process

The process of appointing prospective members of the Board of Commissioners is carried out in accordance with the statutory regulations which regulate the procedures for appointing members of the Board of Commissioners in the banking and BUMN sectors, in particular:

1. Regulation of the Minister of State for State-Owned Enterprises No. PER-2/MBU/03/2023 dated 03 March 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises;
2. Regulation of the Minister of State for State-Owned Enterprises No. PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises;
3. Financial Services Authority Regulation No. 27/POJK.03/2016 dated July 22, 2016 concerning Fit and Conformity Assessment for Main Parties of Financial Services Institutions and Financial Services Authority Circular Letter No. 39/SEOJK.03/2016 dated September 13, 2016 concerning Fit and Proper Test for Prospective Controlling Shareholders, Prospective Members of the Board of Directors, and Prospective Members of the Board of Commissioners of Banks;
4. Financial Services Authority Regulation No. 17 of 2023 dated September 14, 2023 concerning the Implementation of Governance for Commercial Banks and Financial Services Authority Circular Letter no. 13/SEOJK.03/2017 dated March 17, 2017 concerning Implementation of Governance for Commercial Banks;
5. Financial Services Authority Regulation No. 33/POJK.04/2014 concerning Directors and Board of Commissioners of Issuers or Public Companies; And
6. BNI's Articles of Association which regulate the appointment of members of the Board of Commissioners.

Members of the Board of Commissioners are appointed by the GMS which is attended and approved by the Series A Dwiwarna Shareholders and the meeting decisions must be approved by the Series A Dwiwarna Shareholders considering the provisions in the Articles of Association. The GMS decision regarding the appointment of members of the Board of Commissioners also determines when the appointment and dismissal will take effect. In the event that the GMS does not determine the appointment as a member of the Board of Commissioners will take effect from the closing of the GMS. Submission of proposals for prospective members of the Board of Commissioners to the GMS through Series A Dwiwarna Shareholders is carried out by taking into account the recommendations of the Nomination and Remuneration Committee.

Financial Services Authority Regulation No. 27/POJK.03/2016 dated July 22, 2016 concerning Fit and Proper Test for Main Parties of Financial Services Institutions, among other things, regulates that prospective members of the Board of Commissioners who are included as Main Parties of BNI which is a Financial Services Institution must obtain approval from the Financial Services Authority before carrying out actions, duties and functions as a member of the Board of Commissioners. In order to provide such approval, OJK carries out a fit and proper test for prospective members of the Board of Commissioners.

Members of the Board of Commissioners who have passed the fit and proper test without records and have received approval from the Financial Services Authority, indicate that the relevant members of the Board of Commissioners have and fulfill the requirements of integrity, competence and adequate financial reputation.

PROCEDURE AND IMPLEMENTATION OF REMUNERATION OF THE BOARD OF DIRECTORS AND BOARD OF COMMISSIONERS

Board of Directors' Remuneration Governance Policy, refers to Financial Services Authority Regulation No. 45/POJK.03/2015 dated December 23, 2015 and Financial Services Authority Circular Letter No. 40/SEOJK.03/2016 concerning the Implementation of Governance in Providing Remuneration for Commercial Banks, as well as Regulation of the Minister of State-Owned Enterprises Number PER-3/MBU/03/2023 concerning Organs and Human Resources of State-Owned Enterprises.

In accordance with POJK direction Regulation No. 17 of 2023 concerning the Implementation of Governance for Commercial Banks, POJK No. 45/POJK.03/2015 and SEOJK No. 40/SEOJK.03/2016 Implementation of Governance in Providing Remuneration for Commercial Banks, the scope of BNI's remuneration policy includes:

1. The Board of Directors and Board of Commissioners receive remuneration and other facilities determined based on the GMS Resolution.
2. The prudence principle in providing performance and risk-based remuneration.

3. Determination of Material RiskTaker (MRT) is categorized as follows:
 - a. Material RiskTakers (MRT) can be determined using qualitative methods according to the portion of responsibility that influences the main risk profile which will be determined in accordance with the risk profile evaluation determined by the Company every year.
 - b. Determining the MRT category can also be done quantitatively through a comparison of variable remuneration between MRT and non-MRT employees, taking into account the performance and risk level of the position concerned.
4. Implementation of variable remuneration in accordance with regulatory provisions regarding the application of remuneration for commercial banks.

REMUNERATION GOVERNANCE

Board of Directors Remuneration

The remuneration governance policy states that the remuneration given to the Board of Directors can be fixed or variable. Fixed or variable remuneration is based on business scale, business complexity, peer groups, inflation rates, conditions, and financial capabilities of the Company and do not conflict with laws and regulations.

Regarding the determination of Fixed Remuneration, it observes the difference (gap) of remuneration between position levels, to prevent potential internal conflicts and operational risks such as fraud or other operational risks. For the determination of variable remuneration, the Bank uses the basis of prudent risk taking that refers to the provisions of the Financial Services Authority regulating Risk Management Implementation for Commercial Banks. In accordance with the Company's Articles of Association, members of the Board of Directors are given salaries and benefits/facilities including *tantiem* and post-employment compensation with the type and amount determined by the GMS by taking into account the provisions of the applicable laws and regulations.

The Board of Commissioners supervises the remuneration policies implementation and conducts regular evaluations through the Nomination and Remuneration Committee. The Nomination and Remuneration Committee conducts evaluations on the Remuneration Policy based on performance, risk, fairness with peer group, targets, and the Bank's long term strategy, as well as fulfillment of reserves as regulated in laws and regulations, and the Bank's potential future revenue.

BOARD OF COMMISSIONERS' REMUNERATION

The Board of Commissioners' Remuneration Governance Policy states that the remuneration given can be fixed and variable. The provision for fixed and variable remuneration is based on business scale, business complexity, peer group, inflation rate, the Company's condition and financial capability, and does not conflict with laws and regulations.

The determination of fixed remuneration also takes into account differences (gaps) in remuneration between position levels, to prevent potential internal conflicts and operational risks such as fraud or other operational risks.

Based on the Company's Articles of Association, members of the Board of Commissioners receive an honorarium and benefits/ facilities including bonuses and retirement benefits, the types and amounts of which are determined by the GMS with due observance of the prevailing laws and regulations.

The Board of Commissioners supervises the implementation of the remuneration policy and conducts periodic evaluations

through the Nomination and Remuneration Committee. The Nomination and Remuneration Committee evaluates the Remuneration policy based on performance, risk, fairness with peer groups, and the Bank's goals and long-term strategy, fulfillment of reserves, as stipulated in the laws and regulations, and the Bank's potential future income.

Procedure for Determining Remuneration for the Board of Commissioners

The procedure for determining the Board of Commissioners' remuneration is carried out in the following stages:

1. The Nomination and Remuneration Committee evaluates the remuneration policies applicable to the Board of Commissioners;
2. Then the Nomination and Remuneration Committee provides recommendations to the Board of Commissioners regarding the remuneration policy for the Board of Commissioners;
3. The Board of Commissioners submits the remuneration recommendations for salaries/honorarium and tantiem to the Dwiwarna Series A Shareholder for approval from the GMS.

BOARD OF COMMISSIONERS AND BOARD OF DIRECTORS' COMPOSITION DIVERSITY POLICY

BOARD OF DIRECTORS' COMPOSITION DIVERSITY POLICY

BNI's Board of Directors diversity policy refers to the recommendations of OJK as outlined in the Appendix to the OJK Circular Letter No. 32/SEOJK.04/2015 concerning Guidelines for Public Company Governance. The regulation states that the Board of Directors membership composition should take into account the composition diversity of the Board of Directors members. The composition diversity of the Board of Directors members should be a combination of desired characteristics both in terms of the organs of the Board of Directors, and the individual members of the Board of Directors, in accordance with the needs of a Public Company. Thus, considering the combination of characteristics referred to will have an impact on the accuracy of the nomination process and appointment of individual members of the Board of Directors or the collegial Board of Directors.

BOARD OF COMMISSIONERS' COMPOSITION DIVERSITY POLICY

The diversity of the composition of BNI's Board of Commissioners is an essential part of BNI's efforts to implement Good Corporate Governance. The policy on diversity in the composition of the Board of Commissioners is also in line with the mandate of the Financial Services Authority as stated in the Financial Services Authority's recommendations contained in the Attachment to the Financial Services Authority Circular Letter No. 32/SEOJK.04/2015 dated November 27, 2015 concerning Public Company Governance Guidelines. Through this Circular Letter, the Financial Services Authority stated that the Board of Commissioners composition should be a combination of characteristics both in terms of the organs of the Board of Commissioners and individual members of the Board of Commissioners, in accordance with the needs of the Public Company. These characteristics can be reflected in the expertise, knowledge and experience needed in carrying out supervisory and advisory duties by the Board of Commissioners of a Public Company. A composition that takes into account the needs of the Public Company is a positive thing, especially regarding decision making for implementing the supervisory function, which has to be carried out after considering a wider range of aspects.

Board of Commissioners Composition Diversity

SECRETARY TO THE BOARD OF COMMISSIONERS

To support the functions and effectiveness of the Board of Commissioners, they are assisted by the Secretary to the Board of Commissioners who is appointed and directly responsible to the Board of Commissioners based on BNI's Articles of Association. The Secretary to the Board of Commissioners of BNI comes from outside the Company, and is appointed and dismissed by the Board of Commissioners based on a Board of Commissioners Decree and reports directly to the Board of Commissioners. The Secretary to BNI's Board of Commissioners oversees the Board of Commissioners' Secretariat, which is formed and tasked with assisting and supporting the smooth activities and duties of the Board of Commissioners. In carrying out its duties, the Secretary to the Board of Commissioners, who is from outside the Company, is assisted by the Board of Commissioners Secretarial Staff, and Staff who are internal staff of the Bank.

LEGAL BASIS FOR FORMATION

The implementation of the duties of the Secretary of the Board of Commissioners and the Secretariat of the Board of Commissioners is guided by the Minister of State-Owned Enterprises Regulation No. PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises which regulates the Secretariat of the Board of Commissioners and the Secretary of the Board of Commissioners.

Through Minister of State-Owned Enterprises Regulation No. PER-3/MBU/03/2023 dated 20 March 2023 concerning Organs and Human Resources of State-Owned Enterprises, stipulates that the Board of Commissioners must form a Secretariat of the Board of Commissioners led by a secretary of the Board of Commissioners and assisted by staff of the Secretariat of the Board of Commissioners. The Secretary of the SOE Board of Commissioners and the staff of the Secretariat of the Board of Commissioners come from outside the SOE concerned, and are appointed and dismissed by the SOE Board of Commissioners.

GUIDELINES AND WORK CONDUCT

The Board of Commissioners issued a Decision Letter No. KEP/041/DK/2017 dated September 28, 2017, concerning Guidelines and Work Conduct of the Board of Commissioners Secretariat that regulates the following matters:

1. Appointment and Position of Secretary to the Board of Commissioners;
2. Term of Office of the Secretary to the Board of Commissioners, who is from outside the bank, and the Board of Commissioners' Secretariat Staff;
3. Requirements for Secretary to the Board of Commissioners;
4. Remuneration of the Secretary to the Board of Commissioners, who is from outside the bank, and the Board of Commissioners' Secretariat Staff;
5. Duties of the Secretariat and Secretary to the Board of Commissioners;
6. Access to and confidentiality of information;
7. Working time of the Secretary to the Board of Commissioners, who is from outside the bank, and the Board of Commissioners' Secretariat Staff;
8. Performance assessment of the Board of Commissioners Secretariat;
9. Prohibition of concurrent positions;
10. Mechanism for Coordinating the Board of Commissioners' Secretariat with the Corporate Secretary and committees under the Board of Commissioner.

BASIS FOR AUDIT COMMITTEE ESTABLISHMENT

The Board of Commissioners established an Audit Committee based on the Board of Commissioners' Decree No. KEP/05/DK/2000 dated July 28, 2000 concerning the Establishment of the Audit Committee. When carrying out its duties, obligations and authorities, the BNI Audit Committee is guided by the prevailing laws and regulations, including:

1. Financial Services Authority Regulation No. 55/POJK.04/2015 dated December 23, 2015 concerning the Establishment and Guidelines for Implementing the Work of the Audit Committee;
2. Financial Services Authority Regulation No. 1/POJK.03/2019 dated January 28, 2019 concerning Implementation of the Internal Audit Function in Commercial Banks; and
3. Regulation of the Minister of State-Owned Enterprises No. PER-2/MBU/03/2023 dated March 3, 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.
4. Regulation of the Minister of State-Owned Enterprises No. PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises.
5. Financial Services Authority Regulation No. 9 of 2023 dated July 11, 2023 concerning the Use of Public Accounting Services and Public Accounting Firms in Financial Services Activities.
6. Financial Services Authority Regulation No. 17 of 2023 dated September 14, 2023 concerning Implementation of Governance for Commercial Banks.

AUDIT COMMITTEE CHARTER

The Audit Committee carries out its duties and responsibilities by referring to the Audit Committee Charter which is continuously refined and renewed in accordance with the development of prevailing legal regulations and the latest conditions. The last revision of the BNI Audit Committee Charter was carried out in 2021 as stipulated in the Board of Commissioners Decree No. KEP/007/DK/2021 dated April 15, 2021 concerning the Audit Committee Charter and Code of Ethics for the Audit Committee of PT Bank Negara Indonesia (Persero).

The Audit Committee Guidelines and rules are written documents that regulate the structure and requirements of membership, term of office, duties and responsibilities, authorities, audit committee meetings, and reporting obligations for the implementation of the Audit Committee's duties or activities. The Audit Committee's Code of Ethics includes integrity, objectivity and independence, competency, and confidentiality.

AUDIT COMMITTEE DUTIES AND RESPONSIBILITIES

The Audit Committee's duties and responsibilities include the following:

1. Reviewing the financial information to be published by the Company to the public and/or authorities, such as financial statements, projections, and other statements relating to the Company's financial information;
2. Reviewing the adherence to laws and regulations relating to the Company's activities;

3. Providing independent opinions in the case of:
 - a. Disagreements between management and the Accountant for services rendered; and/or
 - b. Non-compliance of the public accounting firm's audit with applicable auditing standards.
4. Providing recommendations to the Board of Commissioners on the appointment of Public Accountants and Public Accounting Firms to be submitted to the General Meeting of Shareholders as regulated by the regulator. The Audit Committee must ensure that a report on the appointment of a Public Accountant and/or Public Accounting Firm for auditing the annual historical financial information is reported by the Company to OJK no later than 10 working days after the appointments, and must be accompanied by the Audit Committee's recommendations and considerations used in providing their recommendations.
5. Evaluating the audit services for annual historical financial information by Public Accountant and/or Public Accounting Firm, at least through:
 - a. The suitability of the audit performed by the Public Accountant and/or Public Accounting Firm with the applicable audit standards;
 - b. Adequacy of fieldwork time;
 - c. Assessment of the scope of services provided and the adequacy of the quotation test; and
 - d. Recommendations for improvements provided by the Public Accountant and/or Public Accounting Firm.

The Audit Committee must ensure that the Audit Committee's evaluation report on the conduct of providing audit services on annual historical financial information by the Public Accountant and/or Public Accounting Firm, the Company reports to the Financial Services Authority periodically every year no later than 6 (six) months after the fiscal year ends.

6. Reviewing the execution of audits by internal auditors and external auditors, and oversee the implementation of follow-up actions by the Board of Directors on the auditor findings, in order to provide recommendations to the Board of Commissioners;
7. Reviewing complaints relating to the Company's accounting and reporting process;
8. Reviewing and advising the Board of Commissioners regarding potential conflict of interest (if any);
9. The Audit Committee provides recommendations to the Board of Commissioners concerning the appointment and dismissal of the Head of the Internal Audit (IAD), and must ensure that the Head of IAD appointment or dismissal report is signed by the President Director and the Chief Commissioner to the Financial Services Authority no later than 10 (ten) working days after the date of appointment or dismissal of the Head of IAD;
10. Providing recommendations to the Board of Commissioners regarding the stipulation of Internal Audit Charter. The Audit Committee must ensure that the Internal Audit Charter is reviewed at least once in 3 (three) years;

11. Providing recommendations to the Board of Commissioners regarding the preparation of the audit plan, scope and budget of the Internal Audit;
12. In carrying out the internal audit function, the Audit Committee is responsible for:
 - a. Monitoring and reviewing the Bank's internal audit implementation effectiveness;
 - b. Evaluating IAD Performance;
 - c. Ensuring IAD communicates with the Board of Directors, the Board of Commissioners, external auditors, and the Financial Services Authority;
 - d. Ensuring IAD works independently;
 - e. Providing recommendations to the Board of Commissioners concerning the preparation and determination the IAD audit plan, scope, and budget;
 - f. Reviewing audit reports and ensuring the Board of Directors takes the necessary corrective actions quickly to anticipate control weaknesses, fraud, compliance issues with policies, laws and regulations, or other issues identified and reported by IAD;
 - g. Providing recommendations to the Board of Commissioners Concerning the IAD annual remuneration as a whole and performance awards; and
 - h. Ensuring IAD upholds integrity in carrying out its duties.
13. Providing recommendations to the Board of Commissioners regarding the appointment of an independent quality controller from an external party to conduct a review of the IAD's performance. The Audit Committee must ensure that the report on the results of an independent external review party signed by the President Director and the President Commissioner is submitted to the Financial Services Authority no later than 2 (two) months after the review period ends;
14. The Audit Committee must ensure that special reports regarding any internal audit findings that are expected to endanger the business continuity of the Bank, signed by the President Director and the Head of Audit Committee, are submitted to the Financial Services Authority no later than 3 (three) working days after they are discovered;
15. The Audit Committee is obliged to ensure that the report on the implementation of the main results of the internal audit, which is signed by the President Director and the Chair of the Audit Committee, is submitted to the Financial Services Authority semi-annually at the latest:
 - a. July 31 of the current year for the first semester;
 - b. January 31 of the following year for the second semester.
16. Maintaining the confidentiality of Company documents, data and information. In carrying out its duties and responsibilities, the Audit Committee takes into account the Audit Committee Code of Conduct as follows:
 - a. Integrity

Audit Committee Members are committed to always being consistent in thoughts, sayings and actions based on conscience and belief in essential truth principles. In performing their duties Audit Committee Members:

 - Shall carry out their duties honestly, diligently and responsibly;
 - Shall be subject to the law and make disclosures in accordance with the rules of law and profession;
 - Shall practice and encourage others to act in a professional manner;
 - Shall respect and support the established Vision and Mission of BNI;
 - Shall be prohibited from intentionally becoming part of illegal activities, or engaging in acts that undermine the credibility of the Audit Committee; and
 - Shall be prohibited from deliberate misrepresentation or manipulation in carrying out the duties, responsibilities and authorities given.
 - b. Objective and Independent

The Audit Committee Members provides a fair and balanced assessment of all relevant conditions and are not influenced by personal or other parties' interests when expressing their opinions. In performing their duties, Audit Committee Members:

 - Shall pay attention to balance, and place the interests of stakeholders above other interests;
 - Shall disclose all material facts which, if not disclosed, may obscure the result reporting;
 - Shall disclose if there is a relationship that has the potential to affect explicit judgment and cause a conflict of interest;
 - Shall be prohibited from accepting anything that may, or may potentially, affect professional judgement.
 - c. Competency

Audit Committee Members use their knowledge, expertise, and experience necessary to perform the tasks, responsibilities, and authorities provided. In performing their duties, Audit Committee Member:

 - Shall perform the duties, responsibilities, and authorities given in accordance with their competences;
 - Shall maintain and improve their knowledge and expertise sustainably.
 - d. Confidentiality

Audit Committee Members shall always keep the confidentiality of information that is secret and confidential to the Bank in accordance with the Bank's policies and prevailing regulations. In performing their duties, Audit Committee Members:

 - Shall be prudent in the use and safeguard information obtained;
 - Shall be prohibited from using information for personal or other purposes unless there is a legal obligation or professional

POLICY AND IMPLEMENTATION OF AUDIT COMMITTEE MEETINGS

1. The Audit Committee must hold a meeting at least once in 1 (one) month;
2. The Audit Committee Meeting may make decisions if attended by at least 51% (fifty one percent) of the total members, including Independent Commissioner and Independent Party;
3. Decisions made in the committee meetings are based on deliberation to reach consensus. In the event that consensus agreement does not occur, decision making shall be carried out by majority votes;
4. The meeting is chaired by the Audit Committee Chairman or a member of the Audit Committee from an Independent Commissioner if the Audit Committee Chairman is unable to attend;
5. Each Audit Committee meeting must be stated in the minutes of the meeting and signed by all Audit Committee members present. Dissenting opinions that occur in committee meetings must be clearly stated in the minutes of the meeting along with the reasons for such differences;
6. Meetings can be held physically or via video conference or other media facilities that allow all Audit Committee Meeting participants to see and hear each other directly and participate in the meeting.

In 2023, the Audit Committee held 34 (thirty four) meetings, both internal Committee meetings, joint meetings with related Sector and Divisional Directors, as well as through Board of Commissioners Meetings attended by members of the Audit Committee with the aim that substantive matters be immediately reported to the Board of Commissioners.

The following shows the Audit Committee Meetings frequency and attendance rate in 2023:

Name	Position	Number of Meetings	Attended	Percentage
Asmawi Syam	Chairman	34	34	100%
Sigit Widyawan	Member	34	34	100%
Iman Sugema	Member	34	34	100%
Human Brillianto	Independent Member	34	34	100%
Suhendi Muharam	Independent Member	34	34	100%

BRIEF REPORT ON THE AUDIT COMMITTEE'S ACTIVITIES IN 2022

To ensure Good Corporate Governance implementation, the Board of Commissioners has an Audit Committee that carries out its duties and responsibilities in accordance with applicable regulations. The Audit Committee duties and responsibilities and its Code of Ethics have been included in the Audit Committee Charter and Code of Ethics, as stipulated by the Board of Commissioners.

To fulfill the OJK Regulation No. 55/POJK.04/2015 dated December 23, 2015, BNI has posted the Audit Committee Charter and other information required in the OJK Regulation on the Company's website.

During 2023, the Audit Committee carried out the following duties and responsibilities:

1. Reviewing the financial information to be issued by the Company to the public and/or the authorities;
2. Reviewing compliance with laws and regulations related to the Company's activities;
3. Evaluating the effectiveness of the audit/services provided by the Public Accounting Firm (KAP), including reviewing its independence and objectivity;
4. Providing recommendations to the Board of Commissioners on the appointment of Public Accountants and Public Accounting Firm for the fiscal year 2023 audit;
5. Preparing a report on the KA evaluation results on the provision of KAP audit services for fiscal year 2022;
6. Reviewing the audit by the internal and external auditors, and supervising the follow-up actions by the Board of Directors on the auditors' findings:
 - a. Reviewing the planning and implementation of the IAD audit and consultation, as well as supervising the follow-up to the IAD audit results;
 - b. Reviewing the planning and implementation of the Compliance Division review, as well as supervising the follow-up of the Compliance Division review results;
 - c. Reviewing the implementation of the OJK Examination, as well as supervising the follow-up to the OJK examination results;
 - d. Reviewing the implementation of the BPK Audit, as well as supervising the follow-up to the BPK audit results;
 - e. Reviewing the implementation of the KAP Audit, as well as supervising the follow-up to the of the KAP audit results (Management Letter);
 - f. Monitoring the preparation of reports from the Board of Directors and Board of Commissioners on the main points of the audit results;
 - g. Monitoring the progress of the settlement of employee cases, and follow up on cases related to fraud;
7. Conducting an assessment of the BNI Internal Control System.
 - a. Evaluating the implementation of the Whistleblowing System (WBS);
 - b. Evaluating the implementation of the Anti Fraud Strategy Program.
8. Reviewing the Company's monthly performance reports;
9. Reviewing the Company's Good Corporate Governance (GCG) implementation;
10. Reviewing the Financial Institution Pension Fund Investment Performance (DPLK);
11. Reviewing the Supervision of Business Realization of Financial Institution Pension Funds (DPLK);
12. Reviewing the Supervision of Governance of Financial Institution Pension Funds (DPLK);
13. Reviewing the 2023 Baseline Proposal and the 2024 Target of Macprudential Inclusive Financing in order to Achieve BNI's Macprudential Inclusive Financing Ratio (RPIM);
14. Reviewing Management's proposals that require the approval of the Board of Commissioners;
15. Conducting Audit Committee Work Visits to Branches/ Centra/ Regions, as well as Data Centers and Disaster Recovery Centers;
16. Preparing reports related to the Audit Committee duties:
 - a. Audit Committee Report for the Annual Report;
 - b. Report on the realization of the Audit Committee work program.
17. Audit Committee Review of the Write-Off Plan with a Limit of IDR200 billion;
18. Reviewing and Input the Audit Committee Write-Off Plans with a Limit of IDR100 billion up to IDR200 billion;
19. Reviewing Fraud that Occurred;
20. Coordinating committees;
21. Carry out dispositions from the Board of Commissioners.

Through Committee meetings held throughout 2023, the Audit Committee also held discussions with related parties regarding the following matters:

1. Management

The Audit Committee reviews the audited and unaudited financial statements to be published in 2023, to ensure the information content and disclosure is in accordance with accounting standards and prevailing regulations. Evaluations of the audit effectiveness, independence, objectivity, and adequacy of the audit scope by external auditors is also carried out by the Audit Committee through discussions with Management. The Audit Committee also discusses and monitors the follow-up completion of the internal and external audit findings, monitors the follow-up to the settlement of cases that occur in order to encourage the acceleration of settlement as well as the necessary administrative sanction steps.

To improve the quality of the Bank's lending, the Audit Committee through the Board of Commissioners has recommended Management conduct a thorough review of BNI's loan process.

2. External Auditor

Regarding the audit process of the company's financial statements as of December 31, 2023 carried out by the Public Accounting Firm (KAP), the Audit Committee discussed the audit plan, monitored the audit progress including findings that required adjustments, evaluated internal control including internal control over the Company's financial reporting, as well as the quality of the Company's overall financial reporting.

In the monitoring function of the audit results conducted by external auditors, namely Bank Indonesia (BI), the Financial Services Authority (OJK), the Supreme Audit Agency (BPK), the Financial Transaction Reports and Analysis Center (PPATK), and KAP, the Audit Committee evaluated the follow-up actions taken by the Management on the audit results of the said external auditor. The review and evaluation of the results of external audits conducted by the Audit Committee until the end of 2023 were as follows:

1. Progress in completing BI audit results was 87.69% with a total of 16 pending commitments out of a total of 130 commitments;
2. Progress in completing the OJK audit results was 98.80% with a total of 14 recommendations pending out of a total of 1168 recommendations;
3. Progress in completing the BPK audit results was 86.16% with a total of 53 recommendations pending out of a total of 383 recommendations;
4. Progress in completing the Management Letter for KAP Tanudiredja, Wibisana, Rintis & Partners (member of Pricewaterhouse Coopers) is 94.12% with the number of pending recommendations being 1 out of a total of 17 recommendations.

The Audit Committee has prepared an Evaluation Results Report Implementation of Audit Services for Annual Historical Financial Information for Fiscal Year 2022 by KAP Tanudiredja, Wibisana, Rintis & Partners (a member firm of the PricewaterhouseCoopers network). In order to comply with OJK Regulation no. 13/POJK.03/2017 dated March 27, 2017 as revoked by OJK Regulation No. 9 of 2023 concerning the Use of Public Accounting Services and Public Accounting Firms in Financial Services Activities, the Company has reported the Audit Committee Evaluation Results Report to the OJK in June 2023.

3. Internal Audit

The Audit Committee reviews the annual internal audit plan, monitors the inspection results, as well as the follow-up on its completion by the Company's Management. The Audit Committee also held discussions with the Internal Audit (IAD), in an effort to encourage the effectiveness and strengthening of the functions of the IAD.

Based on the IAD's 2023 Annual Work Plan and Budget (RKAT), the realization of the planned activities carried out by IAD were as follows:

No.	Type of Activity	Plan	Realization
1	Audit Delivery Channel	116	109
2	Audit KCLN	5	4
3	Mandatory Audit	12	17
4	Division Audit	2	2
5	Audit of Subsidiaries	4	6
6	Thematic/Activity Audit IT incl. IT applications and Non-IT	60	74
7	Independent Review	9	17
8	Consultation	2	3
9	Surprise	-	1
10	Deepening	-	15
Total		210	248

The Internal Audit activities carried out realized 118,10% of the plan determined based on the 2023 Annual Work Plan and Budget (RKAT).

From the results of the review and evaluation of the Internal Audit's follow-up up to the end of 2023, the IAD audit follow-up progress reached 99.63%. There are 88 follow-ups that are still in the process of being completed, namely 28 pending follow-ups in 2022, and 60 pending follow-ups in 2023.

Based on the results of the review and evaluation of the Whistleblowing System (WBS) reports, during 2023 there were 235 reports submitted through the WBS, consisting of 82 reports outside the scope of the WBS and 153 reports within the scope of the WBS. Of the 235 reports, 113 reports were not proven to be true/insufficient evidence, 38 follow-up reports are still in the process of completion, and 48 reports have been proven. Of the proven reports, there were 12 proven reports related to unethical behavior, 5 proven reports related to fraud, 14 proven reports related to violations of regulations/laws, and 1 proven reports related to conflicts of interest.

To optimize its role, the Audit Committee has recommended the implementation of Risk Based Audit as an audit method and approach used by IAD in conducting audits.

4. Compliance Director

Based on the results of the Audit Committee's review of the Compliance Report on Banking provisions and other relevant legislation, the results are submitted in the form of a Compliance Director's Duties Implementation Report. During 2023, the Company routinely submitted these reports to OJK in accordance with OJK Regulation No. 46/POJK.03/2017 concerning Implementation of Compliance Function for Commercial Banks. In addition to this, the Audit Committee also conducted reviews and discussions on the Compliance Division work plans, development of employee case processes, and implementation of the Anti-Fraud Strategy Program.

Discussion of the Compliance Division's work plan was carried out to encourage effective synergy between the Compliance, Anti-Fraud and Internal Audit Divisions in carrying out supervisory functions, especially the Company's compliance with applicable regulations.

Based on the results of the examination and evaluation of the employee case resolution process in 2023, there are 156 (one hundred and fifty-six) cases, consisting of 108 (one hundred and eight) cases that have been processed, while 48 (forty eight) cases are still in the process of being resolved.

For cases that have been processed, employees who are proven to have committed violations and/or fraud will be followed up by providing administrative sanctions in the form of:

- Termination of employment for 66 (sixty-six) employees;
- Demotion of 20 (twenty) employees;
- Letter of Strong Reprimand to 24 (twenty-four) employees;
- Letter of Reprimand to 42 (forty-two) employees;
- Letter of Guidance to 79 (seventy-nine) employees.

The implementation of the Anti-Fraud Strategy for Semester II 2023 was reported to OJK in January 2024, and the Implementation of the Anti-Fraud Strategy for Semester I 2023 was reported to OJK in July 2023. In 2023 the number of internal frauds that occurred was 69 (sixty-nine) incidents (2 of which were significant fraud which were reported incidentally to the OJK), while the number of external frauds that occurred was 16 (sixteen) incidents.

5. Board of Commissioners

The Audit Committee Duties and responsibilities, as well as recommendations, have been periodically reported to the Board of Commissioners, as follows:

- a. Review of the proposed KAP appointment and the Audit Committee recommendations to the Board of Commissioners to appoint KAP Tanudiredja, Wibisana, Rintis & Partners (member of PricewaterhouseCoopers) to audit the BNI Consolidated Financial Statements ending December 31, 2023, and review of the effectiveness of the Public Accounting Firm Audit Services including aspects of independence and objectivity;
- b. Review of the Bank's Published Financial Statements;
- c. Review of the effectiveness of the Internal Audit function related to the RKAT, audit findings and recommendations including compliance with Internal Control, risk management processes and implementation of corporate governance (GCG);
- d. Review of the follow-up effectiveness on the completion of the findings of the Internal Auditors and External Auditors (OJK, BPK, PPATK);
- e. Review of the monthly performance report of the Company, the proposed revision of the RBB for the Year 2023- 2025, and the proposed RBB for the year 2024-2026 submitted by the Management;
- f. Review and providing input on plans to write off loans with a limit of IDR100 billion to IDR200 billion;
- g. Review of the Management's proposals requiring the approval of the Board of Commissioners;
- h. Prepared the main points of the Audit Committee advice and opinions based on the Audit Committee Meeting results, and recommended to the Board of Commissioners to submit the main points of Audit Committee advice and opinions to the Management for follow-up.

NOMINATION AND REMUNERATION COMMITTEE

The Nomination and Remuneration Committee is a supporting organ tasked with assisting the Board of Commissioners in carrying out its supervisory function and providing advice regarding determining the qualifications and nomination process as well as remuneration for the Board of Commissioners and Board of Directors, Committee members at the Board of Commissioners level, and all Bank employees based on applicable regulations.

BASIS FOR ESTABLISHMENT OF THE NOMINATION AND REMUNERATION COMMITTEE

BNI's Nomination and Remuneration Committee was established in 2002 based on the Board of Commissioners Decree No. Kep/01/DK/2002 dated December 2, 2002 concerning the Establishment of the Nomination and Remuneration Committee. The Nomination and Remuneration Committee was established by the Board of Commissioners and carries out their duties according to the following regulations:

1. Financial Services Authority Regulation No. 34/POJK.04/2014 dated December 8, 2014 concerning the Nomination and Remuneration Committee of Issuers or Public Companies;
2. OJK Regulation No. 45/POJK.03/2015 dated December 23, 2015 concerning the Implementation of Remuneration Corporate Governance in Commercial Banks;
3. OJK Circular Letter No. 40/SEOJK.03/2016 dated September 26, 2016 concerning the Implementation of Remuneration Corporate Governance in Commercial Banks;
4. Financial Services Authority Regulation no. 17 of 2023 dated September 14, 2023 concerning Implementation of Governance for Commercial Banks;
5. OJK Circular Letter No. 13/SEOJK.03/2017 dated March 17, 2017 concerning the Implementation of Corporate Governance in Commercial Banks;
6. Regulation of the Minister of State-Owned Enterprises No. PER-2/MBU/03/2023 dated March 3, 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises.
7. Regulation of the Minister of State-Owned Enterprises No. PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises.

NOMINATION AND REMUNERATION COMMITTEE STRUCTURE, MEMBERSHIP AND EXPERTISE

The Nomination and Remuneration Committee structure and membership is set forth in the Nomination and Remuneration Committee Charter as follows:

1. The Nomination and Remuneration Committee is established by the Board of Commissioners. The Board of Commissioners may establish a separate Nomination and Remuneration Committee;
2. The Nomination and Remuneration Committee shall act in an independent and responsible manner reporting directly to the Board of Commissioners;
3. Appointment of Nomination and Remuneration Committee members for the Board of Directors is based on a Board of Commissioners' Meeting Decision;
4. The Nomination and Remuneration Committee consists of at least three (3) members, namely 1 (one) Independent Commissioner serving as Chairman, 1 (one) Commissioner and 1 (one) company executive officer in charge of human resources, or those who occupy managerial positions below the Board of Directors in charge of human resources at BNI;
5. Nomination and Remuneration Committee Members, other than those mentioned in point 4 above may come from other Board of Commissioners members and those from outside BNI;
6. In the event that the membership of the Nomination and Remuneration Committee is more than 3 (three) persons, committee members who are Independent Commissioners shall be at least 2 (two) persons;
7. Other Nomination Committee members as referred to in point 5 cannot come from managerial parties under the Board of Directors in charge of human resources;
8. The Nomination and Remuneration Committee Chairman will be an Independent Commissioner at BNI;
9. The Nomination and Remuneration Committee Chairman shall not concurrently serve as chairman in more than 1 (one) other committee, and may only concurrently serve as Committee Chairman in at most 1 (one) other committee in BNI;
10. Nomination and Remuneration Committee Members shall not be allowed from the Board of Directors, either in BNI or other Banks;
11. If deemed necessary, the Committee may appoint a Secretary to the Committee with the assignment, rights, powers and responsibilities established by the Chairman of the Committee.

Up until December 31, 2023, the Nomination and Remuneration Committee membership composition changed as follows:

³⁾Served as a member of the Nomination and Remuneration Committee since September 21, 2023

⁴⁾Served as a member of the Nomination and Remuneration Committee since May 26, 2023, replacing Dandy Perwandi Sjamsudin who ceased serving as a member of the Nomination and Remuneration Committee on May 26, 2023.

NOMINATION AND REMUNERATION COMMITTEE MEMBERS' TERM OF OFFICE

- The term of office for Nomination and Remuneration Committee members who are Board of Commissioners members is equal to the period of their appointment as a Commissioner as determined by the General Meeting of Shareholders;
- Nomination and Remuneration Committee Members who are Board of Commissioners member shall cease if the term of office as a member of the Board of Commissioners ends;
- If a Board of Commissioners member appointed as a member of the Nomination and Remuneration Committee resigns from their position as a Board of Commissioners member before their term of office is completed, then they said Committee member may be replaced by another member of the Board of Commissioners;
- If a member of the Board of Commissioners serving as the Nomination and Remuneration Committee Chairman resigns from their position as a member of the Board of Commissioners, the Nomination and Remuneration Committee Chairman shall be replaced by another member from the Independent Board of Commissioners within 30 (thirty) days at the latest;
- Placement of Nomination and Remuneration Committee member who is not from the Board of Commissioners shall take place no later than 60 (sixty) days after the Nomination and Remuneration Committee member ceases performing their functions; and
- The term of office for Nomination and Remuneration Committee independent party members is 3 (three) years and this can be extended once for 2 (two) years, so the accumulation tenure in the company is for a maximum of 5 (five) years, but not prejudicing the rights of the Board of Commissioners to discharge any member of the Committee at any time.

NOMINATION AND REMUNERATION COMMITTEE INDEPENDENCY

The Chairman and Members of the Nomination and Remuneration Committee provide a fair assessment on all relevant conditions and shall not be influenced by personal or any other parties interests when conveying their opinions.

NOMINATION AND REMUNERATION COMMITTEE DUTIES AND RESPONSIBILITIES

recommendations to the Board of Commissioners regarding nomination and remuneration systems/ policies for Commissioners, Directors, executive officers and employees as a whole, including in this case reviewing and evaluating the company's talent management systems and policies, as well as evaluating the organization development proposed by the Board of Directors.

1. Related to nomination:

a. Provides recommendations to the Board of Commissioners on:

- Membership Composition for the Board of Directors and/or members of the Board of Commissioners;
- Policies and criteria required in the Nomination process; and
- Performance evaluation policies for Members of the Board of Directors and/or members of the Board of Commissioners.

- Assists the Board of Commissioners to assess the Board of Directors and/or Board of Commissioners members performance based on benchmarks that had been developed as an evaluation;
- Provides recommendations to the Board of Commissioners regarding the capacity building program for Board of Directors and/ or Board of Commissioners members;
- Provides proposals/recommendations for candidates who qualify as Board of Directors and/ or Board of Commissioners members to the Board of Commissioners to be submitted to the General Meeting of Shareholders;
- Develops and provides recommendations to the Board of Commissioners regarding the systems and procedures for replacement of Board of Commissioners and/or Board of Directors members to the Board of Commissioners to be submitted to the General Meeting of Shareholders;

- f. Prepares and provides recommendations to the Board of Commissioners regarding the process of managing and implementing talent development for the executives of State Owned Enterprises (Directors and one level below the Board of Directors);
 - g. Provides recommendations to the Board of Commissioners on Independent parties who will become members of the Audit Committee and the Risk Monitoring Committee.
2. Related to remuneration
 - a. Evaluates remuneration system/policy based on performance, risk, fairness against peer groups, target, and long term Bank strategy, fulfillment of reserves as regulated in rules and regulations and future potential of Bank earnings.
 - b. Develops and provides recommendations to the Board of Commissioners regarding:
 - Remuneration structure;
 - Remuneration policy; and
 - Amount of remuneration.
 Structure, policy and amount of remuneration for the Board of Commissioners and the Board of Directors mentioned above to be evaluated by the Nomination and Remuneration Committee at least once a year.
 - c. Deliver evaluation results and provide recommendations to the Board of Commissioners on:
 - Remuneration policy for the Board of Directors and the Board of Commissioners to be submitted to the General Meeting of Shareholders;
 - Remuneration policy for executive officers and employees overall to be submitted to the Board of Directors.
 - d. Ensure the remuneration policy is in accordance with prevailing regulations.
 - e. Conduct regular evaluations of the Implementation of remuneration policies.
 - f. Assist the Board of Commissioners in conducting performance appraisals in accordance with the remuneration received by each of the Board of Directors and/or the Board of Commissioners members.
 3. Related to Talent Management
 - a. Evaluate the Talent Classification systems and procedures carried out by the Board of Directors;
 - b. Conduct regular reviews of the Company's Talent Management System and monitor and evaluate its implementation;
 - c. Validate and calibrate the Talent proposed by the Board of Directors to the Board of Commissioners/ Supervisory Board (Selected Talent), to produce a list of Talent to be nominated by the Board of Commissioners/ Supervisory Board to the GMS/ Minister (Nominated Talent).
 4. Carry out other duties assigned by the Board of Commissioners related to the nomination and remuneration functions.
 5. The procedure for carrying out the Nomination and Remuneration Committee duties and functions is carried out in accordance with the OJK Regulations that regulates the Nomination and Remuneration Committee for Commercial Banks, the OJK Regulations that regulates the Nomination and Remuneration Committee of Issuers or Public Companies and the OJK Regulations that regulates the implementation of corporate governance. management in the provision of remuneration for commercial banks.

NOMINATION AND REMUNERATION COMMITTEE AUTHORITIES, RIGHTS, AND OBLIGATIONS

1. Based on a written assignment from the Board of Commissioners, Nomination and Remuneration Committee may access the records or information about employees, funds, assets, and other resources owned by the company relating to the performance of its duties. The Committee shall report in writing the results of the assignment to the Board of Commissioners;
2. To carry out its duties, the Nomination and Remuneration Committee shall cooperate with the Human Capital Division and other relevant Divisions;
3. The Nomination and Remuneration Committee, with the approval of the Board of Commissioners, reserves the right to appoint a third party (person or entity) to assist their duties;
4. The Nomination and Remuneration Committee Members shall perform their duties properly and maintain the confidentiality of all documents, data and company information from both internal and external parties and use them only for the benefit of the Committee's duties;
5. The Nomination and Remuneration Committee, related to the remuneration policy, shall take into account at least:
 - a. Financial performance and fulfillment of reserves as regulated in applicable legislation;
 - b. Individual work performance;
 - c. Appropriateness with peer groups; and
 - d. Consideration of the Bank's long-term targets and strategies.

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

6. Before the end of the current fiscal year, the Nomination and Remuneration Committee shall prepare and submit work plan and annual budget to the Board of Commissioners to be set, with a copy delivered by the Board of Commissioners to the Board of Directors. The implementation of Nomination and Remuneration Committee work plan and annual budget will be reported to the Board of Commissioners;
7. The Nomination and Remuneration Committee shall prepare and submit reports on their tasks, responsibilities and procedures to the Board of Commissioners.

NOMINATION AND REMUNERATION COMMITTEE CHARTER

In order to carry out the duties of the Nomination and Remuneration Committee optimally, the Bank has a Committee Charter that is continuously refined and updated in accordance with developments of prevailing legal regulations and current conditions. The latest update/improvement of the Nomination and Remuneration Committee Charter was carried out in 2022 as stipulated in the PT Bank Negara Indonesia (Persero) Tbk Board of Commissioners Decree No. KEP/006/DK/2022 dated June 2, 2022 concerning the Nomination and Remuneration Committee Charter.

The Nomination and Remuneration Committee Charter contains:

1. Legal Basis;
2. Nomination and Remuneration Organizational structure and Committee membership;
3. Remuneration and Nomination Committee Membership requirements;
4. Remuneration and Nomination Committee responsibilities;
5. Remuneration and Nomination Committee duties;
6. Remuneration and Nomination Committee authorities, rights and obligations;
7. Remuneration and Nomination Committee Meetings;
8. Remuneration and Nomination Committee members Term of Office.

POLICY AND IMPLEMENTATION OF FREQUENCY OF NOMINATION AND REMUNERATION COMMITTEE MEETINGS

1. Nomination and Remuneration Committee meetings shall be held in accordance with the needs of the Company, at least four (4) times a year;
2. Nomination and Remuneration Committee meetings may only be held if attended by a majority of members, with the majority there being the Chairman and 1 (one) Executive Officer in charge of Human Resources, or the party occupying a managerial position under the Board of Directors in charge of Human Capital;
3. The meetings shall be chaired by the Chairman, and if they are unable to attend the meeting, it shall be chaired by a senior committee member appointed/agreed upon in the meeting;
4. Decision making in the meetings shall be conducted based on consensus agreement. In the absence of consensus, decisions shall be made on the basis of a majority vote with the principle of 1 (one) person 1 (one) vote;
5. If the result of voting is a tie, then the decision shall be made on the basis of a majority vote with the principle of 1 (one) person 1 (one) vote, excluding the votes from the Executive Officer of Human Capital, or the party occupying a managerial position under the Board of Directors in charge of Human Capital;
6. The results of meetings will be recorded in the meeting minutes and signed by all members of the Committee and properly documented;
7. Any dissenting opinions that occurred in the meeting shall be clearly detailed in the meeting minutes;
8. The meeting minutes, as referred to in item 6 above, shall be submitted in writing by the Nomination and Remuneration Committee to the Board of Commissioners;
9. Members attendance at meetings will be reported in a quarterly report and the annual report of the Nomination and Remuneration Committee.

BRIEF REPORT ON THE NOMINATION AND REMUNERATION COMMITTEE ACTIVITIES IN 2023

During 2023, the Nomination and Remuneration Committee (KNR) Committee carried out all programs/Work Plans set at the beginning of 2023 in order to assist the implementation of the Board of Commissioners duties. The mechanism of implementing KNR activities/tasks is carried out through:

1. Implementation of the KNR Meetings;
2. Studies/evaluations/reviews outside the meeting forum.

The results of the KNR Meeting and monitoring, reviews/evaluations of the KNR were submitted to the Board of Commissioners as reports and recommendations both in writing and in the Board of Commissioners' Meeting forum.

The implementation of KNR activities in general covered the following matters:

1. Implementation of nomination tasks
 - a. Conducting a review of prospective BNI management from internal BNI parties as well as providing suggestions/recommendations regarding prospective BNI administrators who meet the requirements to be proposed at the BNI GMS through Series A Dwiwarna Shareholders;

- b. Reviewing the completeness of requirements for prospective BNI management for the purpose of submitting a fit and proper test to OJK as candidates for BNI management;
- c. Conducting a review of the candidates for the management of BNI's subsidiary companies who must obtain approval from the Board of Commissioners and who will be proposed to the Series A Dwiwarna Shareholders (Ministry of SOEs);
- d. Making recommendations regarding the Capability Development Program for members of the Board of Directors and the Board of Commissioners;
- e. Preparing recommendations on the Nomination System for Members of the Board of Directors and Board of Commissioners;
- f. Conducting performance appraisal for members of the Board of Directors and members of the Board of Commissioners, followed up by submitting input from the Board of Commissioners to each individual member of the Board of Directors through the President Director. The Board of Commissioners' input letters covered performance improvement as well as input for competency improvement for each individual member of the Board of Directors;
- g. Reviewing the HC management nomination system as a whole;

- h. Conducting discussions with the Board of Directors regarding:
 - Human Capital policies and problems encountered related to Human Capital
 - Human Capital policy improvement plans, which were followed up with a letter from the Board of Commissioners with suggestions and advice for the Human Capital policies
 - Human Capital policy proposals
 - Progress of completeness of Human Capital policies
 - i. Evaluating the HC development in accordance with the Corporate Plan;
 - j. Evaluating the transfer, promotion and employee sanctions system;
 - k. Evaluating the Talent Management System;
 - l. Evaluating the Board of Directors' recommendation regarding the Company's organization structure.
2. Implementation of remuneration duties
 - a. Evaluating the remuneration system/policy for members of the Board of Directors and Board of Commissioners, executive officers and employees as a whole;
 - b. Reviewing the Board of Directors and Board of Commissioners remuneration for 2023 and tantiem for 2022;
 - c. Evaluating and making recommendations regarding the remuneration structure, remuneration policy and amount of remuneration for members of the Board of Directors and Board of Commissioners to be submitted to the GMS through the Series A Dwiwarna Shareholders, including a review of the proposed remuneration for the Board of Directors related to the allocation of Long Term Incentives;
 - d. Ensuring the employee remuneration policy is in accordance with applicable regulations by conducting periodic evaluations of the implementation of the employee remuneration policy.

NOMINATION AND REMUNERATION COMMITTEE OBLIGATIONS RELATED TO THE BOARD OF DIRECTORS SUCCESSION POLICY

BNI has developed a Board of Directors succession policy program, aligned with Minister of State-Owned Enterprises Regulation No. PER-2/MBU/03/2023 dated March 3, 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises, and Minister of State-Owned Enterprises Regulation No. PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises. This program included criteria, namely potential employees to be included in the Talent Pool will have the opportunity to attend training programs or activities related to management, business strategy, strategic planning, risk analysis and business potential, operational and financial performance analysis and other similar programs.

Through this program, if the Bank requires leadership replacements, BNI will propose internal candidates from the program participants, facilitated by the Board of Commissioners, after considering recommendations from the Nomination and Remuneration Committee. Furthermore, the results of the internal candidates selection will be submitted to the Ministry of SOEs to undergo a fit and proper test.

RISK MONITORING COMMITTEE

The Risk Monitoring Committee was established by the Board of Commissioners to support the effective implementation of the Board of Commissioners duties and responsibilities, related to risk management in the Bank and the application of the principles of Good Corporate Governance.

BASIS FOR THE ESTABLISHMENT OF THE RISK MONITORING COMMITTEE

BNI's Risk Monitoring Committee was established in 2004 based on the Board of Commissioners Decree No. Kep/002/DK/2004 dated March 1, 2004 concerning Establishment of the Risk and Compliance Committee. BNI established the Risk Monitoring Committee to carry out the following duties in accordance with laws and regulations:

1. Financial Services Authority Regulation Number 17 of 2023 dated September 14, 2023 concerning Implementation of Governance for Commercial Banks;
2. OJK Circular No. 13/SEOJK.03/2017 dated March 17, 2017 concerning Governance Implementation for Commercial Banks;
3. Regulation of the Minister of State for State-Owned Enterprises Number PER-2/MBU/03/2023 dated March 3, 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises;
4. Regulation of the Minister of State for State-Owned Enterprises Number PER-3/MBU/03/2023 dated March 20, 2023 concerning Organs and Human Resources of State-Owned Enterprises;
5. OJK Regulations governing Risk Management for Commercial Banks and Integrated Risk Management for Financial Conglomerates;
6. PT Bank Negara Indonesia (Persero) Tbk. Articles of Association.

RISK MONITORING COMMITTEE STRUCTURE AND MEMBERSHIP

1. The Risk Monitoring Committee was established based on the Board of Commissioners meeting decision and in a Board of Commissioners Decree;
2. The Risk Monitoring Committee is under the coordination of the Board of Commissioners and is directly responsible to the Board of Commissioners;
3. Appointment of the Risk Monitoring Committee members is carried out by the Board of Directors based on the Board of Commissioners meeting decision;

4. The Risk Monitoring Committee Membership shall be at least:
 - a. 1 (one) Independent Commissioner concurrently serving as a chairman;
 - b. 1 (one) person from an independent party who has expertise in the field of risk management;
 - c. 1 (one) person from an independent party who has expertise in the financial sector.
5. Independent commissioners and independent parties who are members of the Risk Monitoring Committee shall make up at least 51% (fifty one percent) of the total members of the Risk Monitoring Committee;
6. The Risk Monitoring Committee Chairman is an Independent Commissioner concurrently serving as a member as stipulated in the Board of Commissioners meeting decision, and determined in a Board of Commissioners Decree;
7. The Risk Monitoring Committee Chairman can only hold concurrent positions as Chair of the Committee in at most 1 (one) other Committee at BNI;
8. Former members of BNI Board of Directors and former executive officers or parties with links to BNI that may influence their ability to act independently, who may become an independent member of Risk Monitoring Committee, shall be subject to a 6 (six) month long cooling off period. The cooling off provision shall not apply to former members of the Board of Directors and former BNI executive officer whose duties are only to perform supervisory function for at least 6 (six) months. The term "cooling off" refers to the cooling off period as stipulated in OJK Regulations and Circular on the Implementation of Governance for Commercial Banks;
9. Members of the Risk Monitoring Committee who come from independent parties are not allowed to have concurrent positions as:
 - a. Member of the Board of Commissioners/Supervisory Board at SOEs/other companies;
 - b. Secretary/Sekretariat staff to the Board of Commissioners/Supervisory Board in SOEs/other companies.
10. The Board of Directors shall appoint and dismiss independent parties members of the Risk Monitoring Committee based on a Board of Commissioners' meetings decision and a Board of Commissioners' Decree;
11. The Risk Monitoring Committee Chairman shall have the right to propose a replacement for members of the Risk Monitoring Committee to the Board of Commissioners if one of the members of the Risk Monitoring Committee ends their term of office, resigns or is dismissed;
12. Risk Monitoring Committee Members are prohibited from being members of the Board of Directors of BNI or other banks;
13. The Risk Monitoring Committee shall work collectively when performing its duties to assist the Board of Commissioners;
14. The Risk Monitoring Committee is independent both in performing its duties and in reporting, and is directly responsible to the Board of Commissioners; and
15. In performing the Committee's daily tasks, staff from outside BNI or the Committee secretary can assist it. The Committee staff or Secretary is appointed based on a Board of Commissioners Meeting decision and is determined in the Board of Commissioners Decree.

In 2023, the membership composition of the Risk Monitoring Committee changed as follows:

RISK MONITORING COMMITTEE DUTIES

The Risk Monitoring Committee duties include the following:

1. Evaluating the suitability of risk management policies and the implementation of Bank policies, which include:
 - a. Evaluating the conformity between the Bank's risk management policies and the implementation of these policies, which consist of credit risk, market risk, liquidity risk, operational risk, strategic risk, legal risk, compliance risk and reputation risk;
 - b. Evaluating the conformity between the integrated risk management policies with the implementation of these policies, consisting of the 8 (eight) risks in point 1.a above, as well as insurance risk and intra-group transaction risk;
 - c. Providing recommendations to the Board of Commissioners on the suitability of risk management and integrated risk management policies to ensure that BNI manages risks adequately; and
 - d. Reviewing and providing opinions to the Board of Commissioners on the General Credit Policy and other policies required by regulators, and submitted by the Board of Directors for approval by the Board of Commissioners.
2. Monitoring and evaluating the implementation of the Risk Management Committee and risk management work unit duties, in order to provide recommendations to the Board of Commissioners, including:
 - a. Monitoring the implementation of the Risk Management Work Unit work plans and the Risk Management Committee duties;
 - b. Monitoring the implementation of the Integrated Risk Management Work Unit work plans and the Integrated Risk Management Committee duties;
 - c. Providing recommendations to the Board of Commissioners to enhance the effectiveness of risk management at BNI, including the implementation of integrated risk management in the Subsidiaries; and
 - d. Providing evaluation results on risk-related regulator assessments to the Board of Commissioners.
3. Carrying out certain other duties related to the Risk Oversight Committee function and scope of duties as assigned by the Board of Commissioners.

RISK MONITORING COMMITTEE AUTHORITIES

1. Based on written assignments from the Board of Commissioners, the Risk Monitoring Committee can access records or information about employees, funds, assets and other resources owned by BNI relevant to the performance of its duties. The Committee shall report in writing the results of the assignments to the Board of Commissioners;
2. Risk Monitoring Committee is authorized to conduct testing and perform inspections of BNI branches/representatives/regions and business units, if necessary;

3. Members of the Risk Monitoring Committee are authorized to communicate directly with parties related to the Risk Monitoring Committee duties, including communicating matters related to financial and management information; and
4. In carrying out its duties the Risk Monitoring Committee may cooperate with the Risk Management Committee, Integrated Risk Management Committee, Risk Management Work Unit and other relevant work units.

RISK MONITORING COMMITTEE RIGHTS AND OBLIGATIONS

1. Members of the Risk Monitoring Committee must carry out their duties properly in accordance with the Risk Monitoring Committee Charter;
2. Members of the Risk Monitoring Committee from independent parties have the right to receive an honorarium from BNI, the amount of which is determined by the Board of Commissioners based on the prevailing laws and regulations;
3. Members of the Risk Monitoring Committee must maintain the confidentiality of all documents, data, information and everything related to the implementation of the Risk Monitoring Committee duties;
4. Before the current fiscal year, the Risk Monitoring Committee must prepare and submit an Annual Work Plan and Budget to the Board of Commissioners for determination, with copies submitted by the Board of Commissioners to the Board of Directors for information. Implementation of the Risk Monitoring Committee Annual Work Plan and Budget is reported to the Board of Commissioners;
5. Members of the Risk Monitoring Committee must prepare and submit a report to the Board of Commissioners, signed by the Committee Chair and Committee Members as follows:
 - a. Reports on each duty implementation accompanied by recommendations if necessary;
 - b. Quarterly reports and annual reports.
6. Every year, the Committee through the Board of Commissioners reports to the General Meeting of Shareholders on their responsibilities and achievements as well as other information that needs to be submitted;
7. Members of the Risk Monitoring Committee are prohibited from accepting gifts or gifts in kind related to their position;
8. Members of the Risk Monitoring Committee must provide sufficient time to carry out their duties and responsibilities optimally;
9. Committee members from independent parties must attend the Company's working days and hours under the following conditions:
 - a. At least 2 (two) day every week according to the day and attendance schedule determined by the Board of Commissioners and/or Committee Chairman, attend the Committee Meetings and carry out other duties according to assigned duties and obligations; as well as;

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

- b. If necessary, at the request of the Board of Commissioners and/or Committee Chairman, Committee members from independent parties must attend the Board of Commissioners' Meetings or Committee Meetings, or activities that must be attended by the Board of Commissioners in accordance with the requirements outside the daily or routine attendance schedule.
10. In order to avoid overlapping duties among the Committees under the Board of Commissioners and cooperation in the duties' implementation, the Risk Monitoring Committee must coordinate with other Committees under the Board of Commissioners.

RISK MONITORING COMMITTEE CHARTER

The Risk Monitoring Committee has a Risk Monitoring Committee Charter, which is continuously refined and updated in accordance with developments/changes in prevailing laws and regulations as well as current conditions. The last update/improvement of the BNI Risk Monitoring Committee Charter was carried out in 2022, which was stipulated in the Board of Commissioners Decree No. KEP/007/DK/2022 dated June 02, 2022 concerning the "Risk Monitoring Committee Charter".

The Risk Monitoring Committee Charter includes:

1. Basis for establishing and carrying out the duties of the Risk Monitoring Committee;
2. The Risk Monitoring Committee purpose and objectives;
3. Risk Monitoring Committee Structure and membership;
4. Risk Monitoring Committee membership requirements;
5. Risk Monitoring Committee Duties;
6. Risk Monitoring Committee Authorities;
7. Risk Monitoring Committee Rights and obligations;
8. Risk Monitoring Committee Meetings;
9. Risk Monitoring Committee members Term of office.

12. Committee Members Attendance in meetings shall be reported in the Committee's quarterly report and annual report.

POLICY AND IMPLEMENTATION FREQUENCY OF RISK MONITORING COMMITTEE MEETINGS

1. The Risk Monitoring Committee shall meet at least 1 (one) time in 1 (one) month;
2. Risk Monitoring Committee Meetings shall only be conducted if attended by at least 51% (fifty one percent) of the total number of members including an Independent Commissioner and Independent Party members;
3. Risk Monitoring Committee meeting shall be led by the Risk Monitoring Committee Chairman or most senior Risk Monitoring Committee Member, if absent;
4. If deemed necessary, the Risk Monitoring Committee may invite other parties related to the meeting to attend the Risk Monitoring Committee Meeting;
5. Committee meeting decisions shall be made on the basis of consensus;
6. In the absence of consensus, decision-making shall be based on majority votes with the principle of 1 (one) person 1 (one) vote;
7. Risk Monitoring Committee meetings decisions shall be considered valid if approved by more than 1/2 (one-half) of the Risk Monitoring Committee members present. The principle of votes for members shall be 1 (one) person 1 (one) vote;
8. The Committee meeting results shall be recorded in the meeting minutes signed by all members of the Committee present and documented in accordance with the laws and regulations;
9. Any dissenting opinions that occur in committee meetings shall be clearly stated in the meeting minutes together with the reasons for these differences of opinion;
10. Minutes of Committee Meetings shall be prepared by the Secretary of the Committee;
11. Minutes of Committee Meetings shall be submitted in writing by the Risk Monitoring Committee to the Board of Commissioners;

RISK MONITORING COMMITTEE MEETING AGENDA

BRIEF REPORT ON THE RISK MONITORING COMMITTEE ACTIVITIES

In 2023, the Risk Monitoring Committee carried out all programs/Work Plans that were established at the beginning of 2023 to support the supervisory duties of the Board of Commissioners. The mechanism for implementing KPR activities/tasks is carried out through:

1. Holding KPR Meetings by inviting related Directors, related divisions/units;
2. Attending the Board of Commissioners meetings and the Board of Commissioners meetings with the Board of Directors where the agenda is related to the KPR duties;
3. Studys/reviews evaluations outside the meeting forum.

The Risk Monitoring Committee Meeting and monitoring results, reviews/evaluations are submitted to the Board of Commissioners as reports and recommendations both in writing and in the Board of Commissioners meeting forum During 2023, KPR held 21 (twenty one) meetings and made 65 (sixty five) reviews/evaluations. The Risk Monitoring Committee activities included the following:

1. Reviewing and meetings related to BNI Bank Health Level, BNI Risk Profile, Integrated Risk Profile and the duties of the Risk Management Committee and the BNI Integrated Risk Management Committee;
2. Meetings and in-depth reviews on the main issues of Operational Risk, Legal Risk, Compliance Risk, Strategic Risk, Reputation Risk, Credit Risk, Market Risk and Liquidity Risk, Insurance Risk and Intra-group Risk;
3. Duties related to credit:
 - a. Meetings and reviews related to the Development of Loan at Risk (LaR) Handling and loan restructuring at BNI Wide and Regional levels, for the Corporate, Enterprise, Commercial and Small segments (including KUR);
 - b. Meetings and reviews related to loan consultations submitted by the Board of Directors to the Board of Commissioners;
 - c. Meeting and review of plans for providing credit facilities to Related Parties which require approval from the Board of Commissioners;
 - d. Meetings and reviews regarding Remedial & Recovery Discussions;
 - e. Review regarding the performance of the Directorate of Enterprise Banking and Commercial Banking segments.
 - f. Review of the Maximum Credit Limit Report.
4. Reviewing the updated General Policy on Risk Management and General Policy on Integrated Risk Management & Integrated Capital of BNI proposed by the Board of Directors to the Board of Commissioners;
5. Reviewing the BNI 2023/2024 Recovery Plan Document update proposed by the Board of Directors for approval by the Board of Commissioners;
6. Review of Bank BNI's Business Plan for 2023 and Revision of Bank BNI's Business for 2023;
7. Meeting and review of BNI's 2022 Risk Appetite Statement proposed by the Board of Directors to obtain approval from the Board of Commissioners;

8. Review of Anti-Money Laundering Policies and Procedures, Prevention of Terrorism Financing and Prevention of Funding for the Proliferation of Weapons of Mass Destruction (APU PPT and PPPSPM) in 2023;
9. Meeting and review of plans for additional Capital Inclusion and Provision of Funds to Related Parties in BNI Group Subsidiary Companies which require approval from the Board of Commissioners;
10. Review of Risk Management Policy and Accountability for the Implementation of BNI DPLK Risk Management proposed by the Board of Directors to the Board of Commissioners;
11. Review of the Risk Monitoring Committee Charter.

INTEGRATED GOVERNANCE COMMITTEE

The Integrated Governance Committee assists the Board of Commissioners in strengthening its supervisory function and is guided based on applicable laws and regulations, especially OJK Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning the Integrated Governance for Financial Conglomerates, and OJK Circular Letter No. 15/SEOJK.03/2015 dated May 25, 2015 concerning Integrated Governance for Financial Conglomerates.

BASIS FOR ESTABLISHING AN INTEGRATED GOVERNANCE COMMITTEE

The Integrated Governance Committee was established based on the PT Bank Negara Indonesia (Persero) Tbk Board of Commissioners Decree No. KEP/006/DK/2015 dated June 22, 2015 concerning Establishment of the Integrated Governance Committee. The Integrated Governance Committee shall be independent both in carrying out its duties and in reporting, and is directly responsible to the Main Entity's Board of Commissioners. BNI established the Integrated Governance Committee that performs its duties in accordance with laws and regulations, including:

1. Financial Services Authority Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning Integrated Governance for Financial Conglomerates;
2. Financial Services Authority Circular No. 15/SEOJK.03/2015 dated May 25, 2015 concerning Integrated Governance for Financial Conglomerates.
3. Financial Services Authority Regulation No. 45/POJK.03/2020 dated October 16, 2020 concerning Financial Conglomerates;
4. Financial Services Authority Regulation no. 17 of 2023 dated 14 September 2023 concerning Implementation of Governance for Commercial Banks;
5. Minister of State-Owned Enterprises Regulation No. PER-2/MBU/03/2023 dated 3 March 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises; And
6. Regulation of the Minister of State-Owned Enterprises No. PER-3/MBU/03/2023 dated 20 March 2023 concerning Organs and Human Resources of State-Owned Enterprises.

INTEGRATED GOVERNANCE COMMITTEE MEMBER REQUIREMENTS

1. General Requirements
 - a. Have good integrity, character and morals and sufficient work experience related to committee duties;
 - b. Has no personal interests/relationships that may cause negative impacts and conflicts of interest to the Financial Services Institutions in the BNI Financial Conglomerate.
2. Competency Requirements
 - a. Have adequate educational background, ability, knowledge and experience in banking or other financial service institutions;
 - b. Able to work together, have good and effective communication skills, and can provide sufficient time to carry out their duties;
 - c. Have sufficient knowledge and understanding of the principles and processes of Good Corporate Governance in general, laws and regulations in the banking sector, and other financial service institutions, especially related to the operational activities of banking and other financial service institutions.
3. Independence Requirements
Members of the Integrated Governance Committee as independent parties:
 - a. Is a party outside of BNI who has no financial, management, share ownership and/or familial relationships with the Board of Commissioners, Supervisory Board, Board of Directors and/or Controlling Shareholders of the Financial Services Institutions in the BNI Financial Conglomerate, or relationships with Financial Services Institutions in the BNI Financial Conglomerate that may affect their ability to act independently. The financial relationship, management, share ownership and/or familial relationship shall be in accordance with the definitions stipulated by the prevailing laws and regulations;
 - b. Has no direct or indirect business relationship related to the business activities of Financial Services Institutions within the BNI Financial Conglomerate.

INTEGRATED GOVERNANCE COMMITTEE MEMBERSHIP

1. The Integrated Governance Committee consists of at least:
 - a. An Independent Commissioner who is the Chair of one of the committees in the Main Entity, and concurrently serves as a member;
 - b. An Independent Commissioner who represents and is appointed by each Financial Services Institution in the BNI Financial Conglomerate, as a member;
 - c. An independent party who serves as member. An independent party may come from an independent party Committee member in the Main Entity; and
 - d. Members of the Sharia Supervisory Board of the Financial Services Institutions that carry out business activities based on Sharia principles in the BNI Financial Conglomerate as members, whose numbers are adjusted to the needs of BNI Financial Conglomerate as well as the efficiency and effectiveness of the Integrated Governance.
2. The number and composition of Independent Commissioners who are members of the Integrated Governance Committee as referred to in point 1 letter b above, are adjusted to the needs of the BNI Financial Conglomerate and the efficiency and effectiveness of carrying out the duties of the Integrated Governance Committee by taking into account the minimum representation of each financial services sector;
3. The membership of Independent Commissioners in the Integrated Governance Committee, referred to in point 1 letter b above, can be in the form of permanent and non-permanent members, in accordance with the needs of the BNI Financial Conglomerate, where if necessary the Main Entity can add a non-permanent member as an Independent Commissioner who is not yet a member of Integrated Governance Committee; and
4. Membership of Independent Commissioners, Independent parties and members of the Sharia Supervisory Board as referred to in point 1 above, in the Integrated Governance Committee in the BNI Financial Conglomerate are not considered as concurrent positions.

APPOINTMENT, DISMISSAL, AND TERM OF SERVICE OF INTEGRATED GOVERNANCE COMMITTEE MEMBERS

1. The Integrated Governance Committee Chairperson and members are appointed and dismissed by the Main Entity Board of Commissioners;
2. Members of the Integrated Governance Committee can be members of the Main Entity Board of Commissioners, or the Board of Commissioners and Supervisory Board of the Financial Services Institutions:
 - a. The term of office shall be equal to the term of appointment as a member of the Board of Commissioners or Supervisory Board determined by the GMS;
 - b. Ceases automatically when their term of office as a member of the Board of Commissioners or Supervisory Board ends.
3. The term of office for independent party members of the Integrated Governance Committee is for a maximum of 3 (three) years and can be extended once for another 2 (two) years so that the total term of office for independent party members of the Integrated Governance Committee is for a maximum of 5 (five) years without prejudice to the right of the Board of Commissioners of the Main Entity to dismiss the member of the committee concerned at any time;
4. The Main Entity Board of Commissioners may dismiss any member of the Integrated Governance Committee if they are deemed to have not performed their duties as members of the committee as set forth in the Appointment Decree of the committee member concerned;
5. In the event a member of the Main Entity Board of Commissioners who concurrently serves as Chair of the Integrated Governance Committee ceases to serve as a member of the Main Entity Board of Commissioners, the Committee Chair shall be replaced by another Independent Main Entity member of the Board of Commissioners who is one of the Main Entity's Committee Chairman within 30 (thirty) days at the latest; and
6. Dismissal and appointment of Committee members is reported to the GMS.

INTEGRATED GOVERNANCE COMMITTEE INDEPENDENCE

The Integrated Governance Committee Members provide a fair and balanced assessment of all relevant conditions and are not influenced by personal interests or other parties in expressing their opinions.

INTEGRATED GOVERNANCE COMMITTEE DUTIES, RESPONSIBILITIES, AND AUTHORITIES

Integrated Governance Committee's duties and responsibilities include:

1. Evaluating Integrated Governance implementation at least through assessment of adequacy of internal controls, implementation of integrated compliance functions and implementation of Integrated Governance Guidelines. When conducting the evaluations, The Integrated Governance Committee obtains information in the form of evaluation results on the implementation of internal audits, implementation of risk management functions and implementation of compliance functions for each Financial Services Institution from members of the Board of Commissioners of each Financial Services Institution who are members of the Integrated Governance Committee;
2. Providing recommendations to the Main Entity Board of Commissioners regarding the Integrated Governance and improvement evaluations of Integrated Governance Guidelines;
3. Carrying out the duties of the Main Entity's Board of Commissioners to review and evaluate material related to the duties of the Integrated Governance Committee and/or other duties as determined by the Main Entity's Board of Commissioners;
4. Evaluating the suitability of the Integrated Governance Policy against the implementation of these policies and provide recommendations to the Board of Commissioners of the Main Entity for the Integrated Governance policies and their implementation to ensure that Integrated Governance management has been carried out adequately;
5. Prior to the current fiscal year, the Integrated Governance Committee must prepare and submit an Annual Work Plan and Budget to the Main Entity's Board of Commissioners for approval, a copy is submitted by the Main Entity's Board of Commissioners to the Main Entity's Board of Directors for information purposes. The implementation of the Integrated Governance Committee's Annual Work Plan and Budget is reported to the Main Entity's Board of Commissioners; and
6. Members of the Integrated Governance Committee are required to carry out their duties properly and maintain the confidentiality of all documents, data, information, and everything related to the implementation of the Integrated Governance Committee's Duties and can only used for the benefit of carrying out their duties.

The Integrated Governance Committee also has the following powers:

1. The Integrated Governance Committee may request an explanation or the necessary information about employees, funds, assets, and other resources related to the performance of its duties to the Institute of Financial Services in the BNI Financial Conglomerate, with due regard to the prevailing regulations. The Committee shall report in writing the result of the assignment to the Board of Commissioners;

2. Members of the Integrated Governance Committee are authorized to communicate directly with work units in the Main Entity, for functions including Internal Audit, legal and compliance, finance and risk management, human resources and aspects of business operational functions required, to obtain information, clarification and request reports required in an integrated manner and/or to fulfill duties of the Integrated Governance Committee; and duties of the Integrated Governance Committee; And
3. To carry out its duties the Integrated Governance Committee can cooperate or coordinate with Committees under the Board of Commissioners of other Main Entities, as well as relevant divisions/units/work units in the Main Entity or other Financial Services Institutions within the BNI Financial Conglomerate.

INTEGRATED GOVERNANCE COMMITTEE CHARTER

The Integrated Governance Committee Charter has been set by the Board of Commissioners as a reference and guideline for the Integrated Governance Committee framework. This guideline is continuously refined and updated in accordance with developments/changes in applicable legal regulations and current conditions. The last update/refinement to the BNI Integrated Governance Committee Charter was carried out in 2022, as stipulated in Board of Commissioners Decree No. KEP/005/DK/2022 dated June 01, 2022 concerning the Integrated Governance Committee Charter. The Integrated Governance Committee Charter has also been published on the BNI official website, and contains the legal basis; definitions; committee formation and structure; committee member requirements; committee membership; committee duties, responsibilities and authorities; appointment, dismissal and term of office of committee members; committee meetings, and reporting.

POLICY AND IMPLEMENTATION OF INTEGRATED GOVERNANCE COMMITTEE MEETING FREQUENCY

1. Integrated Governance Committee shall meet at least 1 (one) time in 1 (one) semester;
2. Integrated Governance Committee Meetings shall only be conducted if attended by at least 51% (fifty one percent) of the total number of members;
3. Integrated Governance Committee meeting shall be led by the Integrated Governance Committee Chairman or most senior Integrated Governance Committee Member, if absent;
4. If deemed necessary, the Integrated Governance Committee may invite other parties related to the meeting to attend Risk Monitoring Committee Meeting;

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

5. The committee meeting must be attended by Independent Commissioners from the Financial Services Institutions in the BNI Financial Conglomerate who are members of the Integrated Governance Committee. In the event that the independent Commissioner concerned is unable to attend the Integrated Governance Committee meeting, other Commissioners who are not members of the Integrated Governance Committee or officials at the relevant Financial Services Institution may be asked to attend the Integrated Governance Committee meeting by filling in the meeting, but not will not be counted in the attendance quorum and voting to reach a decision at the meeting;
6. Committee meetings decisions shall be made on the basis of consensus;
7. In the absence of consensus, decision-making shall be based on majority votes. Integrated Governance Committee meetings decisions shall be considered valid if approved by more than 1/2 (one-half) of Integrated Governance Committee members present. The principle of votes for members shall be 1 (one) person 1 (one) vote;
8. Committee meetings results shall be recorded in minutes of meeting signed by all members of Committee present and documented in accordance with the laws and regulations;
9. The results of the Committee's meeting shall be stated in the minutes of the meeting signed by all Committee members present and properly documented;
10. Any dissenting opinions that occur in committee meetings shall be clearly detailed in the minutes of meeting along with reasons for dissent;
11. Attendance of Committee Members at meetings shall be reported in the quarterly reports and annual reports of the Committee.

In 2023, the Risk Monitoring Committee carried out all programs/Work Plans set at the beginning of 2023 to support the supervisory duties of the Board of Commissioners. The following shows the strategic steps taken in 2023:

1. Improve the quality of the implementation of the integrated compliance function by conducting a self-assessment of the implementation of the compliance culture in each BNI Subsidiary, evaluating the implementation of anti-fraud strategies, and the Whistleblowing System, Anti-Money Laundering, Prevention of Terrorism Financing, and Prevention of Funding for the Proliferation of Weapons of Mass Destruction (APUPPP-PPPSPM) at the BNI financial conglomerate, as well as evaluating the implementation of the integrated compliance function.
2. Improving the quality of integrated internal control by ensuring the quality and number of auditors in Subsidiaries is sufficient, evaluating the effectiveness of the integrated internal control system, and evaluating the results of the Subsidiary's internal audit and follow-ups.
3. Improving the quality of integrated risk management by monitoring action plans, improving root causes in integrated risk management, evaluating integrated risk profiles and Quality of Integrated Risk Management (KPMR) implementation, and reviewing the Integrated Risk Management General Policy.
4. Maintaining the quality of Integrated Governance by evaluating integrated governance structures, processes and results, reviewing and evaluating Integrated Governance Guidelines, and increasing knowledge of best practices for implementing integrated governance.
5. Monitor the effectiveness of integrated governance results by evaluating integrated financial performance, as well as evaluating synergy plans between BNI and Subsidiary and synergies between Subsidiaries.

Based on the strategy and work program of the Integrated Governance Committee, the activities/tasks of the Integrated Governance Committee are carried out through the following mechanisms:

1. Holding Integrated Governance Committee Meetings, including those by inviting related Directors, related divisions/units;
2. Following the Board of Commissioners meetings, and Board of Commissioners meetings with the Board of Directors where the agenda is related to the implementation of the Integrated Governance Committee duties;
3. Studies/evaluations/review outside the meeting forum.

The results of the Integrated Governance Committee Meeting and monitoring, review/evaluation/review of the Integrated Governance Committee are submitted to the Board of Commissioners as reports and recommendations both in writing and in the Board of Commissioners Meeting forum, and the Integrated Governance Committee also submits suggestions, opinions and recommendations from the implementation of the Integrated Governance Committee Meeting in writing to the Board of Directors for follow-up. During 2023, the Integrated Governance Committee held 9 (nine) meetings, holding discussions and discussing 29 (twenty-nine) meeting agendas. The implementation of the Integrated Governance Committee activities generally includes the following matters:

1. Review and discuss the performance of the Subsidiary along with the development strategy of the Subsidiary in line with the vision of PT Bank Negara Indonesia (Persero) Tbk to become a financial institution that leads in service and performance, including evaluating the Integrated Financial Performance Evaluation in December 2022 and Synergy in 2022 : Parent Entity and Subsidiary & between Subsidiaries, as well as discussing the Strategic & Business plans of Subsidiary Companies for 2023 and Synergy Plans for 2023: Parent Entity and Subsidiary & between Subsidiaries;

Capital & Risk Management
Practices

Good Corporate
Governance

Statements

2. Encourage and provide suggestions for improving the implementation of synergies for Subsidiary Companies as part of the BNI Group, including synergies in financing cooperation, sharing information, information and technology, human resources, exploring prospective new products and optimizing business opportunities from PT Bank Negara Indonesia (Persero) Tbk as Holding Company;
3. Encourage acceleration and provide suggestions so that Subsidiary Companies in the BNI Financial Conglomeration can continue to increase positive contributions that have an impact on the profitability of the BNI Financial Conglomerate, of course accompanied by adequate risk management and internal control, the fulfillment of quality human resources, and good governance. Good;
4. Discuss and recommend resolution of Governance problems that occur in Subsidiary Companies, including improvements to the implementation of integrated compliance functions in building a culture of compliance in each Subsidiary;
5. Evaluate and provide recommendations to the Board of Commissioners regarding the implementation of Integrated Governance including evaluating the adequacy of integrated internal control; evaluation of the implementation of the integrated compliance function; implementation of integrated risk management; implementation of the Integrated Governance Guidelines, and achievement of Subsidiary performance;
6. Evaluate and provide recommendations for the Integrated Governance Guidelines for the BNI Financial Conglomerate for the 2022 period;
7. Evaluate the effectiveness and provide advice on the implementation of the Anti-Fraud Strategy, Whistleblowing System, and Implementation of Anti-Money Laundering, Prevention of Terrorism Financing, and Prevention of Funding for the Proliferation of Weapons of Mass Destruction (APUPPP-PPSPM) throughout all members of the BNI Financial Conglomerate;
8. Review and recommend updates to the Integrated Governance Policy, General Integrated Risk Management Policy and Integrated Capital Management Policy;
9. Evaluate and provide advice on the adequacy of integrated internal control methodology and problems based on audit results at the Main Entity and Subsidiaries, including evaluation of improvements in the quality and number of Auditors at Subsidiary Companies, the effectiveness of the Integrated Internal Control System (SPI) Semester II 2022 & Semester I of 2023, until the results of the Subsidiary Company's Internal Audit and follow-up;
10. Evaluate and provide advice on the preparation of the Integrated Risk Profile and Integrated KPMR for Semester II 2022 and Semester I 2023, integrated risk appetite, and limits for all integrated exposures;
11. Review and ensure that the Integrated Governance Report to the Financial Services Authority has identified the strengths and weaknesses of the implementation of integrated Governance through an Evaluation of the Structure, Process and Results (SPH) of Integrated Governance Semester II/2022 & Semester I/2023, and ensure Action plans/improvement steps have been made for existing weaknesses;
12. Conduct monthly and/or quarterly evaluation, review and monitoring of the financial performance and performance of Subsidiaries in order to achieve business targets as one of the results of Integrated Governance;
13. Evaluate and deepen the implementation of the compliance function at BNI Multifinance and BNI Life Insurance, with the things being studied, namely Evaluation of the Hierarchy of Policies/Procedures in Subsidiaries, including Policies/Procedures that must be Approved by the Board of Directors and/or Board of Commissioners, Fulfillment of Principle Indicators Prudence that must be managed in accordance with regulatory restrictions, follow-up to audit findings, and follow-up to repeated audit findings;
14. Monitor and ensure that the results of OJK findings and internal audits on the Main Entity and Subsidiaries have been followed up and provide suggestions for improvements related to human resources, database needs, completeness of regulations including those related to conflicts of interest in Subsidiary Companies;
15. Prepare an Evaluation report on the Implementation of Integrated Governance along with recommendations for improvements to the Board of Commissioners;
16. Conduct effectiveness reviews and provide recommendations to the Board of Commissioners regarding integrated internal control and audit results at Subsidiary Companies;
17. Review and update the Integrated Governance Committee Charter in accordance with developments in the implementation of the Integrated Governance Committee's duties;
18. Report the implementation of the duties of the Integrated Governance Committee every quarter to the Board of Commissioners;
19. Prepare a work program for the Integrated Governance Committee for 2024 with a focus on:
 - a. Encouraging increased achievement of integrated governance through evaluating the effectiveness of company guidelines, monitoring financial performance achievements, improving the quality of integrated compliance and APU-PPT functions, and improving the quality of Integrated Risk Management Implementation;
 - b. Improving the quality of integrated internal control and integrated audit, through evaluation of the results of self-assessment of the implementation of the integrated internal control system for the semester period, evaluation of the implementation of integrated internal audit, and evaluation of the results of the Subsidiary internal audit and its follow-up;
 - c. Increasing the effectiveness of the Integrated Governance Committee's performance

Supporting Organs of The Board Of Directors

In carrying out the management of the Bank, the Board of Directors is assisted by Directors' Supporting Organs, namely the Corporate Secretary, Internal Audit Division, Enterprise Risk Management Division, Compliance Division, and Policy Governance Division.

CORPORATE SECRETARY

The Corporate Secretary is an individual or person in charge of a work unit that carries out the functions of the Corporate Secretary. The Corporate Secretary is appointed and dismissed based on a Board of Directors decision. Based on the Company's Articles of Association, the Board of Commissioners has the authority to approve the appointment and dismissal of the Corporate Secretary. The Corporate Secretary is also prohibited from holding concurrent positions in other Issuers or Public Companies. In carrying out its role, the Corporate Secretary is also expected to continuously update information on regulations that must be complied with by the Company, and provide important information to the Board of Directors and the Board of Commissioners for decision making.

The Corporate Secretary provides a positive value in assisting the management of Issuers or Public Companies, so as to increase the trust of shareholders, as well as other stakeholders. Therefore, the Corporate Secretary s required to have qualifications in accordance with their duties and responsibilities, as well as to increase their knowledge and ability to support them in carrying out their duties.

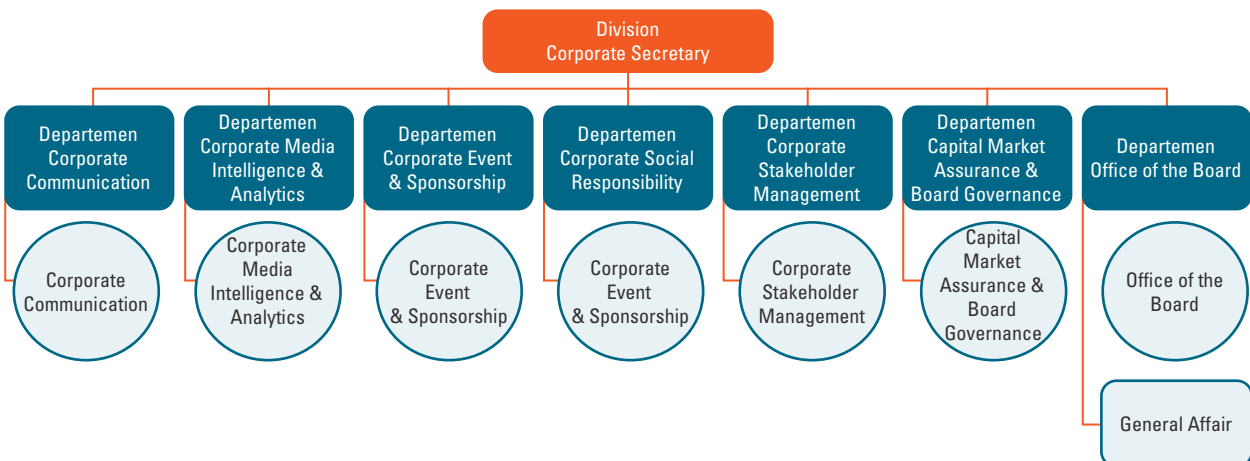

LEGAL BASIS

The establishment, appointment and implementation of the Corporate Secretary refers to the following regulations and laws:

1. Law No. 19 of 2003 concerning State-Owned Enterprises;
2. Regulation of the Minister of State-Owned Enterprises No. PER-2/MBU/03/2023 dated 03 March 2023 concerning Guidelines for Governance and Significant Corporate Activities of State-Owned Enterprises;
3. Financial Services Authority Regulation No. 35/POJK.04/2014 concerning Corporate Secretaries of Issuers or Public Companies;
4. BNI Articles of Association;

CORPORATE SECRETARY ORGANIZATIONAL STRUCTURE

Based on Board of Directors' Decree No. KP/208/DIR/R dated 31 May 2023 and Corporate Development & Transformation Division Memo No. CDV/2/684 dated 10 April 2023, the function of BNI Corporate Secretary is carried out by the Head of the Corporate Secretary Division with the following structure description:

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

CORPORATE SECRETARY DUTIES AND RESPONSIBILITIES

When carrying out its duties, the BNI Corporate Secretary is directly responsible to the President Director with a mission to support the creation of a good corporate image consistently and continuously. This is achieved by managing effective communication programs to all stakeholders. In addition, the Corporate Secretary has access to material and relevant information related to the Bank and understands the laws and regulations in the capital market sector, especially those related to information disclosure issues.

The Corporate Secretary function refers to OJK Regulation no. 35/POJK/2014 concerning Corporate Secretary of Issuers or Public Companies which includes:

1. Following developments in the Capital Market, especially the laws and regulations in force in the Capital Market sector;
2. Providing input to the Board of Directors and Board of Commissioners of Issuers or Public Companies to comply with statutory provisions in the Capital Market sector;
3. Assisting the Board of Directors and Board of Commissioners in the corporate governance implementation including:
 - a. Information Disclosure to the public, including the availability of information on the Issuer's or Public Company's Website;
 - b. Submitting timely reports to OJK;
 - c. Implementing and documenting the General Meeting of Shareholders;
4. Organizing and documenting the Board of Directors and/or the Board of Commissioners Meetings;
5. Organizing an orientation program for the Board of Directors and/or the Board of Commissioners.
4. Acting as a liaison between the Issuer or Public Company and the shareholders of the Issuer or Public Company, OJK, and other stakeholders.
5. Provide information required by shareholders and stakeholders relating to the condition of the Company
6. Attend Board of Directors Meetings, Board of Commissioners Meetings, joint meetings of the Board of Directors and Board of Commissioners and prepare Meeting Minutes
7. Manage the Shareholder Register and Special Shareholder Register
8. Responsible for holding the GMS. Prepare the necessary materials related to the Board of Directors' routine reports/activities which will be submitted to external parties. Prepare the necessary materials/materials relating to matters that require a decision from the Board of Directors regarding the management of the Company;
9. Holding meetings within the Board of Directors, both routine and non-routine
10. Carry out activities related to shareholders and stakeholders through analyst meetings, public exposes, conference calls, non-deal roadshows, and meetings with shareholders.

In line with the functions of the Corporate Secretary based on the Financial Services Authority Regulations, related laws and regulations, and best practice, in accordance with the BNI Company Organization Guidelines for the Corporate Secretary Division, the duties and functions of the Corporate Secretary include:

INVESTOR RELATIONS FUNCTION

Investor Relations activities are an integral part of the strategic function in a company and an aspect of corporate public relations activities. Investor Relations has the responsibility to establish and maintain company relationships with shareholders and other financial communities in order to maximize the company's market capitalization. The main functions of the Investor Relations Division include:

1. Managing cooperative relationships with parties related to the Indonesian capital market, including fund managers, analysts, stock brokers, investment bankers, rating agencies, as well as parties related to the Association of Indonesian Issuers (AEI);
2. Communicating the Company's performance and strategy to capital market analysts and investors in order to achieve BNI share valuation in the long term through analyst meetings, conference calls, roadshows and related events;
3. Representing BNI management in meetings with analysts and investors both one-on-one basis and through public presentations in order to communicate opinions, attitudes and reactions to the company's challenges and/or opportunities and to convey strategic follow-ups for BNI management;
4. Managing activities related to Company performance and rating;
5. Monitoring and analyzing the development of the Company's stock performance, stock exchanges, peer groups;
6. Managing Company performance databases, stocks, investors, contact reports, mailing lists of fund managers, and other related parties;
7. Maintaining transparency, accuracy and timeliness of information disclosure to capital market players.

The following is a summary of Investor Relations activities during 2023 carried out as the main functions of Investor Relations:

COMMITTEES UNDER THE BOARD OF DIRECTORS

The Board of Directors has established committees to its effectiveness and efficiency, including making strategic decisions regarding the Company's operational activities. The committees under the Board of Directors are as follows:

1. Credit Committee;
2. Integrated Risk Management Committee;
3. Asset & Liability Committee (ALCO);
4. Risk Management and Anti-Fraud Committee;
5. Business Committee;
6. Performance Management Committee;
7. Technology Management Committee;
8. Credit Policy Committee;
9. Human Capital (HC) Committee;
10. Subsidiary Committee.

CREDIT COMMITTEE

CREDIT COMMITTEE STRUCTURE AND MEMBERSHIP

The Credit Committee is a committee tasked with deciding on the granting of credit, covering the business functions and risk functions using a four-eyes Principle based on authority, and avoiding conflicts of interest. The Credit Committee (KK) consists of the Head Office Level Credit Committee, Division Level Credit Committee, and Regional Level Credit Committee. When providing credit decisions, the credit committee considers the policies and procedures for granting credit, debtor condition, credit security and the application of good corporate governance.

PROFILE AND CERTIFICATION OF CREDIT COMMITTEE MEMBERS

The profile of each committee member can be found in the discussion of the Board of Directors Profile and Senior Executive President (SEVP) Profile. All credit committee members have fulfilled the specified certification.

CREDIT COMMITTEE INDEPENDENCE STATEMENT

The Credit Committee has carried out the duties and responsibilities independently as stated in the Integrity Pact which is signed periodically.

TRAINING AND/OR COMPETENCY IMPROVEMENT OF THE CREDIT COMMITTEE

Information on training and/or improving the competence of the Credit Committee can be found in the discussion on Training and/or Increasing the Competency of Board of Directors, Chapter on Corporate Governance and Competency Development Based on Position Level and Gender Equality in 2023, Chapter on Company Profile, this Annual Report.

CREDIT COMMITTEE JOB DESCRIPTION AND DUTIES AND RESPONSIBILITIES

DESCRIPTION OF DUTIES AND RESPONSIBILITIES OF TECHNOLOGY MANAGEMENT COMMITTEE

The duties and responsibilities of Technology Management Committee consist of several fields, namely:

1. Field of IT Strategy and Policy Formulation
 - a. Provide recommendations regarding the formulation of key IT policies, standards and procedures, especially related to aspects of IT system development and procurement, IT operational activities and communications networks, information security, end user computing, e-banking activities, use of IT service providers, and management implementation risks of using BNI IT;
 - b. Provide recommendations regarding the Information Technology Strategic Plan (RSTI)/Information Technology Strategic Plan and Information Technology Development Plan (RPTI) which are in line with BNI's business strategic plan, taking into account factors of efficiency, effectiveness and implementation plan (roadmap), resources (resources) needed, as well as the costs and benefits that will be obtained when the plan is established;
 - c. Conduct evaluations and recommendations on the suitability of approved projects with the Information Technology Strategic Plan (RSTI) and Information Technology Development Plan (RPTI);
 - d. Provide approval for IT and information security budget recommendations;
 - e. Establish an IT strategic plan;
 - f. Establish policies, standards and procedures related to the implementation and use of IT.
2. IT Project Portfolio Management Field
 - a. Evaluating the IT project portfolio, including proposed projects, projects that have been approved in principle, projects that are in progress and projects that have been completed;
 - b. Determine the priority status of critical IT projects that have a significant impact on BNI's operational activities;
 - c. Make decisions on continuing, de-prioritizing or terminating a project;
 - d. Conduct evaluations and recommendations regarding the adequacy and allocation of existing resources;
 - e. Monitoring project implementation, ensuring timelines and resource requirements are met;
 - f. Conduct evaluations and recommendations on problematic or risky projects;
 - g. Reviewing financial aspects of ongoing IT projects (total project cost, project profit & loss, budget realization).
3. IT Risk Management Sector
 - a. Provide recommendations regarding steps to minimize risks regarding BNI investments in the IT sector so that these investments can contribute to achieving BNI's business goals;
 - b. Carrying out evaluations and recommendations on efforts to resolve various IT-related problems that cannot be resolved by IT user & operator units;
 - c. Identify key issues, mitigation plans and next steps/actions needed.
4. Field of IT Performance Measurement and Evaluation
 - a. Conduct evaluations and recommendations regarding the suitability of IT with the needs of Management Information Systems that support the management of BNI's business activities;
 - b. Conduct evaluations and recommendations regarding the suitability between the implementation of IT projects and the agreed project plan (project charter);
 - c. Monitoring IT performance and improvement efforts.

TECHNOLOGY MANAGEMENT COMMITTEE CHARTER

In carrying out its duties and responsibilities, the Technology Management Committee is guided by the Technology Management Committee Charter which is continuously refined and updated in accordance with developments/changes in applicable legal regulations. This Technology Management Committee Charter has been signed by the Board of Directors and stipulated in Board of Directors' Decree No. KP/364/DIR/R dated 13 August 2021.

INTERNAL AUDIT UNIT

Based on the Financial Services Authority (SEOJK) Circular Letter Number 35/SEOJK.03/2017 concerning Internal Control Systems for Commercial Banks, Internal Control is an ongoing monitoring mechanism established by the Bank's Management to support the Bank performance objectives achievement, increase value for stakeholders, minimize potential losses and maintain compliance with applicable laws and regulations. BNI has implemented an effective and efficient Internal Control System by separating functions between the Risk Taking Unit (First Line Roles), Risk Control Units (Second Line Roles) and Risk Assurance Units (Third Line Roles).

The Internal Audit Unit (IAD) as the third line in the Three Lines Model, plays a role in monitoring activities and encouraging corrective actions for deviations or weaknesses to play a role in ensuring the adequacy and effectiveness of risk management and internal control.

The Assurance Function includes the Risk Based Audit based on the risk assessment analysis results, while the consulting function is carried out both formally and informally, and involves independent reviews of the launch of new products or activities (according to OJK regulations) and special assignments requested by management or at the initiative of the IAD.

To support its function, the Internal Audit Unit has refined audit methodology and innovated in the use of the Audit Management System so that the implementation of assurance and consultation is in line with business developments, thus having a good impact in encouraging improvements in the quality and effectiveness of risk management as well as the adequacy and effectiveness of internal control, including ensuring quality. performance achievement.

DUTIES AND RESPONSIBILITIES OF THE INTERNAL AUDIT UNIT

The implementation of the internal audit function as stipulated in the Financial Services Authority Regulation concerning the Implementation of the Internal Audit Function in Commercial Banks, is the responsibility of the Board of Directors, The Board of Commissioners, and the Audit Committee through the Internal Audit Unit with the following duties:

1. Assisting the President Director and the Board of Commissioners in conducting supervision by describing the planning, implementation and monitoring of audit results in operational terms;
2. Examining and assessing the efficiency and effectiveness of finance, accounting, operations, human resources, marketing, information technology and other activities through audits;
3. Identifying all possibilities to improve and increase the efficiency of the use of resources and funds used;
4. Providing recommendations for improvements and objective information on the examination results in the form of an Audit Report and submit the report to the President Director and the Board of Commissioners with copies to the Audit Committee and the Director in charge of the Compliance function;
5. Providing consulting services to BNI internally to add value and improve the quality of control, risk management, and corporate governance as long as it does not affect the independence and objectivity of the IAD, and adequate resources are available;
6. Carrying out follow-up monitoring of audit results as well as periodically submit a Pending Follow-up Report on Audit Results to the President Director and the Board of Commissioners with copies to the Audit Committee, as well as the Director in charge of the Compliance function; and
7. Conducting an in-depth audit at the request of the Board of Directors and/or Commissioners, or as a follow-up to the general audit results of an object or event that is suspected to contain indications of violation and/or fraud if necessary.

In addition, the Head of Internal Audit duties and responsibilities are as follows:

1. Ensuring the internal audit function is in accordance with the Internal Audit Function in Commercial Banks and the Internal Audit Code of Ethics;
2. Allocating audit resources, determining the objectives, scope, and audit plans or schedules and techniques;
3. Determining strategies, methodologies, tools, audit approaches as well as implementation of quality control in carrying out predetermined main tasks, including subsidiaries/affiliates/financial service institutions owned by BNI, relating to the implementation of audits and consultations;
4. Ensuring that IAD Auditors follow continuous professional development and adequate training in their fields in order to keep abreast of company developments;

5. Preparing and reviewing the internal audit charter periodically;
6. Preparing the Annual Audit Plan and Annual Consultation together with the President Director and Board of Commissioners approved budget allocation by considering the Audit Committee recommendations and monitoring its implementation;
7. Reporting immediately any audit findings that are thought may interfere with BNI's business continuity to the President Director and the Board of Commissioners, with copies to the Audit Committee and the director in charge of the compliance function, as well as monitoring the follow-up;
8. Carrying out follow-up monitoring of audit results as well as periodically submitting a Pending Follow-up Report on Audit Results to the President Director and the Board of Commissioners; and
9. Ensuring the use of external party services is only temporary in nature so as not to affect the independence and objectivity of the IAD function, and is in accordance with the BNI internal audit charter.

AUTHORITY OF THE INTERNAL AUDIT UNIT

In order to the duties and responsibilities can run with optimal results, the Internal Audit Unit is given the authority to:

1. Have full, free and unlimited access to BNI records, information, employees, funds, assets, locations/areas, and other resources, including BNI's subsidiaries/affiliates/financial service institutions, relating to the implementation of audits and consultation;
2. Conduct verification, interviews, confirmations, and other audit techniques with customers or other parties related to the implementation of audits and consultations;
3. Communicate directly with the Board of Directors, the Board of Commissioners and Audit Committee;
4. Conduct regular and incidental meetings with the Board of Directors, the Board of Commissioners and the Audit Committee;
5. Attend strategic meetings;
6. Request assistance from other work units or use the services of external parties in conducting audits if deemed necessary; and
7. Coordinate and build synergistic relationships with other assurance units/functions (compliance unit and risk management) in order to obtain comprehensive and optimal audit results.

INTERNAL AUDIT UNIT OBJECTIVITY

Internal Audit Unit provisions govern the implementation of audit assignments to maintain objectivity, and include:

1. It is regulated in the Code of Ethics that must be obeyed by all auditors.
2. They are not allowed to be involved/conduct business/operational activities, including:

- a. Having the authority and responsibility or being involved in/or conducting operational activities in BNI or its subsidiaries/affiliates/financial service institutions;
- b. Holding concurrent duties and positions for the implementation of operational activities BNI or its subsidiaries/affiliates/financial service institutions; and
- c. Being involved in making decisions on BNI operational activities.
3. Does not have a relationship that creates a potential conflict of interest, such as:
 - a. Having a familial relationship with employees in the auditee unit up to the second degree, both horizontally and vertically;
 - b. The auditor has been an employee in the auditee unit, both as a Head or Non-Head;
 - c. Is conducting an audit of an audit object where the internal auditor was previously involved in providing consulting services/other tasks regarding the object.
4. Not being involved in activities or having a relationship that will cause a conflict of interest
5. Regulated in the cooling-off period policy, including::
 - a. Reassignment of the auditor to the unit/auditee where a potential conflict of interest can be given at least after the audit of the auditee unit conducted 1 (one) time and/or after a period of 1 (one) year has passed; and
 - b. Not allowed to audit an auditee 2 (two) times in a row as team leader.

In addition, Internal Audit Unit has a code of ethics that all auditors must obey, as follows:

1. **Integrity**
 - a. Carrying out their duties honestly, diligently, and responsibly;
 - b. Complying with the law and making disclosures in accordance with the laws and regulations and the profession;
 - c. Not intentionally/consciously becoming involved in prohibited/illegal activities, not taking actions that can damage Internal Audit's credibility and internal audit profession;
 - d. Supporting goals of BNI and Internal Audit Unit.
2. **Confidentiality**
 - a. Being careful in using and maintaining information obtained in the execution of their duty; and
 - b. Not using information for the benefit of anyone and/or in any way that would conflict with the law and/or Company provisions.
3. **Competency**
 - a. Carry out duties in accordance with their knowledge, skills and experience;

- b. Carry out audits in accordance with the Standards for the Bank's Internal Audit Function and/or other applicable audit standards; and
- c. Improve competence continuously.

AUDIT QUALITY CONTROL

Audit quality control through the Quality Assurance and Improvement Program (QAIP) is designed to evaluate the conformity of Internal Audit activities with standards and the application of a code of ethics, including the development of audit methodology and refinement of audit programs so that they comply with best practice and follow the development of existing business processes. Quality control over the implementation of the internal audit function is carried out by external and internal parties.

In accordance with POJK No. 1/POJK.03/2019, quality control by external parties through a review of the implementation of the internal audit function is carried out at least once every 3 (three) years. A review of BNI's internal audit function was carried out by PT RSM Indonesia Konsultan in 2021 with the results:

1. "In general, internal audit activities comply with the provisions of OJK Regulation No.1/ POJK.03/2019 concerning the Implementation of the Internal Audit Function in Commercial Banks, as well as OJK Regulation No. 38/ POJK.03/2016 and OJK Circular No. 21/ SEOJK.03/2017 concerning Implementation of Risk Management in the Use of Information Technology by Commercial Banks, particularly related to the Internal Audit Process";
2. The effectiveness in using the Audit Management System (FAST) application for Application Controls and General Controls has been running well, where the application has become the catalyst for the digital-based audit process.

In addition, the implementation of the internal audit function by internal parties in accordance with the International Professional Practices Framework (IPPF) standards is carried out through:

- a. On going Monitoring (Continuous Monitoring)
Continuous monitoring is carried out to ensure that the audit process for each assignment is effective, including ensuring that planning and reporting activities are carried out in accordance with internal audit policies and procedures.
- b. Periodic Self-Assessments:
Periodic assessments are carried out to evaluate comprehensive internal audit activities that focus on:
 - Conformity with the Internal Audit Charter, IIA Definition of Internal Audit, Code of Ethics and Standards.
 - Audit quality includes quality of supervision and compliance with internal audit methodology.
 - Infrastructure, including policies and procedures that support internal audit activities.

AUDIT METHODOLOGY

The Internal Audit Unit prepares an audit plan using a Risk Based Audit approach, namely:

1. Preparation of Audit and Consultation Work Plans using a Macro & Micro Assessment approach.
 - a. Macro Assessment, of BNI's overall performance and risk indicators with the aim of identifying certain themes/topics that will be the focus of the audit with an orientation towards business process improvement, in line with BNI's General Policy of the Board of Directors (KUD), considering BNI's Risk Profile in accordance with the Risk Management Committee (RMC), input or concerns from the Board of Directors and Senior Management, conditions/issues that occur in accordance with BNI business developments.
 - b. Micro Assessment, a process of assessing the risk level of auditee units is carried out through assessing the risk level based on predetermined risk parameters. Identify high risk audit objects to determine audit priorities.
2. Implementation of audits, to ensure the adequacy and effectiveness of risk management and internal control, supported by establishing an audit rating methodology for risk management and internal control. The rating scales determined are satisfactory, good, needs improvement, and unsatisfactory as well as rating assessment components for credit activities and non-credit/operational activities. The audit rating assessment mechanism is automatically generated through the Audit Monitoring System (FAST) from the level of significance per finding (low, medium, high, & critical).
3. Audit reporting, including in the form of an Audit Results Report on the implementation of all audit activities and Audit Results Principles (PPHA) which are reported quarterly to the Financial Services Authority (FSA).

To support the optimization of its functions, the Internal Audit Unit has carried out initiatives to improve audit methodology and innovate the development of audit tools as follows:

1. Digital capability in developing data processing systems/applications in the form of enhanced reports distributed through the ASR application.
2. Improvements to the Audit Management System (FAST) in the form of enhanced Reports and Dashboards in the FAST application.
3. Optimizing the Early Warning System by increasing the automation of the detection process through enhancing the Exception Report (ER) and Selected Report (SR)

INTERNAL AUDIT CHARTER (INTERNAL AUDIT CHARTER)

In carrying out his duties, the Internal Audit Unit duties are carried out based on the Internal Audit Charter that was signed by the President Director and the Board of Commissioners. This charter was also stipulated in Board of Directors' Decree No. KP/139/DIR/R dated April 14, 2021. The Internal Audit Charter is prepared based on the

Financial Services Authority Regulations No. 1/POJK.03/2019 concerning the Internal Audit Function in Commercial Banks and the prevailing professional audit standards, and includes the IAD Vision and Mission, the IAD Structure and Position, the IAD Duties and Responsibilities, Authorities, Code of Ethics, Independence and Objectivity, Objectives and Scope of Audit Activities, Auditor Requirements and Development, Audit Risk and Legal Protection to Head and Auditors, Audit Quality Control Program, IAD Integrated Governance Function, and IAD Relations with external auditors.

INTERNAL AUDIT WORK PROGRAM FOR 2023

In order to support the achievement of BNI's 2023 strategy, IAD has developed an initiative strategy outlined in the 2023 IAD Business Plan and work program in the 2023 Audit and Consultation Plan, including:

1. Strengthening the Internal Control System (SPI) to identify and manage risks so that they are within tolerance limits (risk appetite) and provide adequate confidence in achieving company goals through:
 - a. Strengthening the Internal Control System (SPI) of Subsidiary through optimizing the Integrated SKAI function of Subsidiary Companies to support BNI Group Synergy, evaluating SPI of Subsidiary, and carrying out audits of Subsidiary.
 - b. Strengthening the Internal Control System (SPI) of Foreign Offices to support the strengthening of international business networks, including through optimizing risk control of KLN business activities, evaluating KLN SPI, and supervising & coordinating the implementation of KLN audits.
 - c. Implementation of BNI Wide Internal Control System (SPI) evaluation.
2. Business Process Improvement in the Corporate, Commercial & SME, Consumer, Network & Services and Digital Business segments to support BNI's MAP strategy through carrying out activity audits.
3. IAD Value Added Services to support the acceleration of BNI's business strategy by increasing IAD's partnerships with units at BNI to encourage operational process improvements through initiating operational process improvements, monitoring monitoring of certain activities, and implementing Independent Reviews.
4. Optimizing the Early Warning System (EWS) by increasing the automation of the detection process through enhanced Exception Report (ER) and Selected Report (SR) as well as limited reviews as a follow-up to the EWS which is part of the Surveillance function.
5. Digital capability in developing data processing systems/applications in the form of enhanced reports distributed to operational units in the ASR application, enhanced Reports and Dashboards in the FAST application, and the use of outsourced IT Auditors.
6. New model methodology and audit tools that are agile and flexible as well as strengthening programs and developing auditor competency in order to support the transformation of Human Capital, Culture and Operations.

7. Whistleblowing System (WBS) management is implemented to support the realization of good and professional corporate governance, including improving processes to increase SLAs and improving criteria to identify problems with the quality of business processes and leadership.

Based on the results of a study of the Company's direction in 2023, risk assessment, audit implementation priorities, HR availability, and challenges that must be faced by IAD, including the transformation of NWOW with an agile and lean organization, as well as the trend of bank digitalization in meeting customer needs which leads to transaction-based digital, then IAD determines the audit implementation strategy for 2023, as follows:

1. Increase audits on one particular activity/issue that has a strategic impact on the bank as well as activity audits with a focus on the development of follow-up audits of previous activities and considering the development of the BNI NWOW organization, including strengthening Operational Risk (formation of a Senior Operation Risk Executive-SORX).

2. Optimizing surveillance analytics data for thematic/ activity audits, determining audit sampling that focuses more on symptoms, and/or optimizing continuous auditing.
3. Optimizing consultative functions, including in the form of Independent Reviews on the issuance of new products/activities and reviewing and monitoring BNI business projects/digital activities, reconciling digital transactions, fintech and cyber security.
4. Carry out audits of delivery channel units in accordance with risk based audits.

IAD AUDIT & CONSULTATION REALIZATION IN 2023

The 2023 Audit and consulting realization reached 118,10% of the target, with audit delivery channels, Division, KLN and Subsidiaries audit realization reaching 95,3% , and Thematic Audits, IT Activities, Non-IT Applications, IT Applications, Independent Reviews, Consultation and Mandatory Audit reached 133.7%, as follows:

REALISASI AUDIT 2023

- Apart from carrying out assignments according to RAT, IAD has carried out 38 Ad-Hoc Assignments, including:
 - a. Assignment to review Debtor Write-Offs of 10 Corporate Debtors.
 - b. Assignment of Corporate, Enterprise and Commercial Tax Arrears
 - c. Assignment to review Enterprise Banking debtors for 7 groups (17 debtors).
 - d. Additional Independent Review of 8 assignments (incl. 1 IR as Consultation realization – IR eCP Jalin)
 - e. Additional Mandatory Audit (2 Assignments, ISO 303010:2019, ISO 9001 and SWIFT BNI Wide)
 - f. Audit Subsidiaries (2 Assignments)
 - g. BNI Event Consultation (2 Assignments)
 - h. 1 KUR Surprise Audit Assignment
- During 2023, IAD will carry out 28 in-depth audits, of which 15 assignments carried out by the auditor general.

COMPLETION OF FOLLOW-UP RESULTS

As part of the audit process/stages, after reporting the audit, the audit activity that must be carried out is 4 monitoring the audit results. Monitoring activity is an activity to find out and ensure the implementation of follow-up audit results including the completion of IAD Recommendations and Disposition of the Board of Directors, both by the auditee and other related parties.

Every quarter, IAD submits the progress on the completion of follow-up audit results in the form of a Pending Report on the Follow-Up of Audit Results to the Board of Directors and the Board of Commissioners through the Audit Committee as an effort to encourage completion rates, evaluation materials and monitoring of BNI's performance.

The level of completion of follow-up to Audit Recommendations and Directors' Disposition on audit results is as follows:

Apart from monitoring IAD audit results, IAD also monitors the follow-up to external party audit results. In connection with the IAD function as a liaison for external parties (OJK, BI, BPK and KAP), During 2023, the follow-up on the external audit results shown in the following table:

Audit	Period to December 2023	
	Finished	In Progress
Bank Indonesia (BI)	114	16
Indonesia Financial Services Authority (FSA)	1154	14
RI Financial Audit Board (BPK RI)	330	53
Public Accounting Firm (KAP)	16	1

IAD HC COMPETENCY COMPOSITION AND DEVELOPMENT

IAD HC Personnel

The Internal Audit has 201 (two hundred and one) employees as shown in the following diagram:

IAD HC COMPETENCY DEVELOPMENT

The Internal Audit Unit is committed to carrying out developing the auditors' competencies and capabilities. To support competency development, IAD has established a minimum annual training/refreshment period policy, which all auditors are required to take part in a capability development program. The competency development carried out by IAD during 2023, was as follows:

INTERN AUDIT IMPLEMENTATION GUIDELINES

In carrying out its duties, the Internal Audit Unit guides OJK Regulations No. 1/POJK.03/2019 concerning the Implementation of the Internal Audit Function in Commercial Banks that has been stated in the Internal Audit Charter.

Meanwhile, in carrying out IT Audits, IAD refers to OJK Regulations No. 11/POJK.03/2022 concerning Implementation of Information Technology by Commercial Banks, and SEOJK No. 21/SEOJK.03/2017 concerning Application of Risk Management for the Use of Information Technology by Commercial Banks.

Apart from provisions by regulators, Internal Audit guidelines are adapted to IPPF International Standards (International Professional Practices Framework) to ensure the implementation of effective and comprehensive audits so that they can provide added value for the bank and can mitigate the risks faced by the bank.

INTEGRATED INTERNAL AUDIT WORK UNIT (SKAIT)

In order to implement the Integrated SKAI function as stated in POJK No. 1/POJK.03/2019 concerning Implementation of the Internal Audit Function for Commercial Banks and POJK No. 18/POJK.03/2014 dated 18 November 2014 and Circular Letter no. 15/SEOJK.03/2015 dated 25 May 2015 concerning the Implementation of Integrated Governance for Financial Conglomerates, the implementation of the duties and responsibilities of Integrated Internal Audit has been carried out by the Integrated SKAI.

Furthermore, in supporting the BNI Financial Conglomeration so that it grows healthily, prudently, sustainably and has high competitiveness, BNI as the Main Entity has formed a commitment between the Internal Audit Unit (IAD) and SKAI of Subsidiary. Through this commitment, it is hoped that the Integrated Internal Audit function can be implemented and the quality of its development can be monitored so that it can ensure that the implementation of the internal control function is effective in all operational activities of Subsidiary at all levels of management.

IAD carries out assurance and consultation functions independently and objectively and integrates with the SKAI of Subsidiary Companies, to provide added value in increasing the effectiveness of risk management, control and governance processes. In connection with its role as SKAIT, IAD has routinely established communication and coordination with the Subsidiary Company's Internal Audit Work Unit, including through joint communication forums, implementing audit methodology knowledge sharing and integration of audit planning, implementation and reporting to support the implementation of Integrated Governance (TKT) for BNI financial conglomerate.

SKAIT duties and responsibilities stipulated in the TKT guidelines are as follows:

1. Evaluating and providing input on the adequacy of the Subsidiary's SKAI audit methodology, policies and procedures in accordance with the size, characteristics and complexity of the subsidiary, both at the stages of audit planning, audit implementation, reporting of audit results and monitoring of follow-up completion;
2. Submitting a report on the main results of the integrated audit to the Main Entity's President Director and the Board of Commissioners with a copy to the Director in charge of the Main Entity's Compliance Function;
3. Monitoring the follow-up of internal audit results in an integrated manner and report the results to the President Director and the Board of Commissioners of the Main Entity with a copy to the Director in charge of the Main Entity's Compliance Function;
4. Submitting the integrated internal audit report to the President Director, the Director appointed to carry out the supervisory function of LJK in the Financial Conglomerate and the Main Entity's Board of Commissioners as well as the Director in charge of the Main Entity's Compliance Function;
5. Monitoring and follow-up on recommendations from the Integrated Governance Committee;
6. Third line IAD in the Three Lines Model ensures internal control in each line in the BNI Financial Conglomerate, by conducting audits and consulting with subsidiaries. IAD can conduct audits and consultations on Subsidiaries without requiring prior approval from the Subsidiaries' Board of Commissioners;
7. IAD carries out internal supervision over all areas, operational and business activities as well as coordinates with the internal control function in the Subsidiaries.

To carry out these duties and responsibilities, including developing audit quality, the Subsidiary's IAD and SKAI integrate the internal audit function with a scope that includes:

Integrated Audit Methodology

IAD with the Subsidiaries' SKAI conducts alignment/evaluation according to the size, characteristics, and complexity of the subsidiary, including, risk-based audit methodology as well as audit policies and procedures of each Subsidiary, through:

1. IAD coordinating the alignment of the risk-based audit methodology used by the Subsidiary SKAI;
2. IAD providing input on the adequacy of Subsidiary Company Audit Policy and SOP.

Capital & Risk Management
Practices

Good Corporate
Governance

Social & Environmental
Responsibility

ESG
Commitment

Financial
Statements

Integrated Audit Planning

IAD with the Subsidiary's SKAI prepare an Integrated Annual Audit planning with the following mechanisms

1. IAD input on the annual audit plan prepared by the Subsidiary SKAI;
2. Information concerning the Subsidiary SKAI audit results to be used by IAD as evaluation material in preparing an integrated audit plan;
3. IAD consolidates the integrated annual audit plan and submits it to the President Director and the Board of Commissioners of the Main Entity.

Implementation of Integrated Audits

The integrated audit can be carried out using the following mechanism:

1. Audits are carried out individually;
2. Joint Audit.

Integrated Auditor Competency Development

IAD with BNI Subsidiary Internal Audit conducts auditor development through the following mechanisms:

1. IAD includes Subsidiary SKAI in joint training held by BNI's Internal Audit.
2. IAD and SKAI of Subsidiaries carry out joint workshops.
3. Subsidiary IAD and SKAI provide auditor internship opportunities at the Subsidiary Company as well as at BNI's Internal Audit.

Integrated Audit Results Reporting

1. Subsidiary Internal Audit submits reports on the internal audit function to BNI Internal Audit through an integrated internal audit communication forum on a quarterly basis. The report contains at least the following information:
 - a. Subsidiary Company's Annual and Periodic Internal Audit Plan;
 - b. Realization of Subsidiary Internal Audit implementation;
 - c. Main audit results of Internal Audit of Subsidiaries and External Audit of Subsidiaries;
 - d. Follow-up on the completion of audit results by Internal Audit of Subsidiaries, BNI Internal Audit, and External Subsidiaries;
 - e. Subsidiaries Internal Audit Maturity Profile.
2. IAD submits an Integrated Internal Audit Report containing information related to the main integrated internal audit report and the follow-up of the integrated internal audit results, with the reporting time as follows:
 - a. Reports are submitted quarterly to the Director appointed to carry out the supervisory function of Subsidiaries in the Financial Conglomerate, and the Director in charge of the compliance function in the Main Entity; and
 - b. Reports are submitted to the Main Entity Board of Commissioners every semester.

Integrated Audit Work Unit Activities Realization

During 2023 IAD together with SKAI Subsidiaries have realized the following Integrated Audit Activities:

1. Organizing integrated auditor training with material for all Subsidiary IAD and SKAI auditors, namely Investigation and Confirmation Techniques. Apart from that, it also specifically provides training related to procurement activities (consisting of IT Procurement, Premises Procurement, Asset Maintenance and Optimization, Self Estimated Prices, Subsidiary Company business audits (consisting of Investment Banking Activities, Equity Brokerage Activities, Bond Brokerage Activities, Settlement Activities Product, Compliance Activities, Investment Banking and Brokerage Activities, Investment & Product Research Activities, Asset Management Product Development & Management Activities, Operational Activities & Accounting Treatment of Asset Management Products), consumer business cluster training (consisting of Digital Loan (Fintech) Credit Product Development Non CC Consumer, Digital Verification System), IT training (consisting of BNI IT Observations, IT Observations from Cyber, Container Cloud & Cloud Computing and MRTI POJK 11/POJK.03/2022), palm oil industry training, food and beverage industry training, as well as chemical industry training.
2. Conduct a joint audit with SKAI BNI Life, Hibank and BNI Asset Management.
3. Preparing the Internal Control System (SPI) Assessment Methodology for Subsidiaries and Carrying out the Evaluation by Self Assessment in each Subsidiary every semester.
4. Conducting Integrated Audit Work Unit communication forums which are held consistently every quarter, namely Quarter I in April 2023, Quarter II in July 2023, Quarter III in October 2023, and Quarter IV in January 2024, which among other things discusses:
 - a. Realization of Subsidiary SKAI Audit Work Plan.
 - b. Highlights of SKAI Audit Results SKAI Subsidiary.
 - c. Progress of Follow-up on Subsidiary Company SKAI Audit Results, IAD, and External Audits (OJK, BPK RI, etc.).
 - d. Monitoring Maturity Profile SKAI of Subsidiary Companies dhi. organization, fulfillment of the number of formations and capabilities (certification/training) of auditors, completeness of enablers, output and SKAI development plans for Subsidiary Companies.
 - e. Discussion of the results of the Self Assessment evaluation of the Subsidiary Internal Control System.
 - f. Discussion of follow-up to the Suggestions and Opinions of the BNI Board of Commissioners regarding Subsidiary.

Apart from that, IAD, in order to carry out its duties as an Integrated SKAI, also periodically reviews the Integrated Governance Guidelines and every semester evaluates the Structure, Process and Results of Integrated Governance to assess the Governance Structure, Governance Process and Governance Outcomes of the Integrated Audit Work Unit.

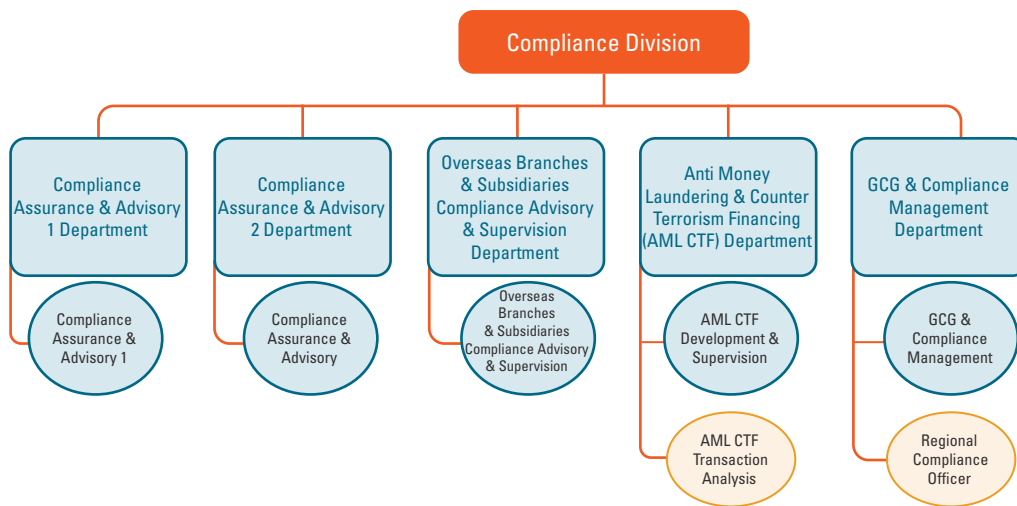

COMPLIANCE FUNCTION

As a financial institution, BNI operates by prioritizing the principle of trust as its main foundation. In order to grow in a healthy and sustainable manner, BNI also needs a strong good corporate governance foundation is required and consistent application of prudential banking principles, one of which is through the Bank's compliance. BNI has targeted one of its goals in the sixth mission statement, namely "Becoming the Reference for the Implementation of Compliance and Good Corporate Governance for Industry".

Based on this mission, the implementation of compliance is not only to fulfill regulatory compliance but is also an organizational must. Thus, compliance must be built into an internalized and organized culture.

COMPLIANCE WORK UNIT ORGANIZATIONAL STRUCTURE

BNI appointed a Director who is responsible for the compliance function and established a Compliance Division to implement this function. Apart from that, the BNI Board of Commissioners is also actively involved in supervising the implementation of compliance within the bank. As for the organizational structure of the cfm Compliance Work Unit, Board of Directors' Decree No. KP/136/DIR/R dated April 12, 2023 is as follows:

ACTIVE SUPERVISION OF THE BOARD OF COMMISSIONERS COMPLIANCE FUNCTION

The Board of Commissioners active supervisory function as well as compliance with POJK related to Compliance Function Implementation in Commercial Banks is carried out by:

1. Evaluating the implementation of the Bank's compliance function at least 2 (two) times a year;
2. Providing suggestions to improve the implementation of the Bank's compliance function quality.

Either directly or through the Committees under them, the Board of Commissioners actively supervises and provides suggestions for improvements through meetings or through periodic reports, such as:

1. Regular Board of Commissioners meetings with the Director in charge of the Compliance function;
2. Periodic meetings of the Committees under the Board of Commissioners (Audit Committee, Risk Monitoring Committee, and/or Integrated Governance Committee) with the Director in charge of the compliance function and/or the Compliance Division;

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

3. Periodic reports submitted include Corporate Governance Self-Assessment Report, Integrated Governance Self-Assessment Report, Compliance Report, Integrated Governance, Compliance Reports, Reports on the Implementation of Integrated Compliance Functions, and Reports related to the Implementation of the Anti-Money Laundering Program for Prevention of Terrorism Financing and Prevention of Funding for the Proliferation of Weapons of Mass Destruction (APU PPT and PPPSPM).

DIRECTOR IN CHARGE OF COMPLIANCE FUNCTION

The director in charge of the compliance function at BNI is currently Mucharom as BNI Human Capital & Compliance Director. The appointment and implementation of the Director in charge of the compliance function duties is carried out based on the applicable regulations, in particular the provisions concerning the Implementation of the Compliance Function, General Provisions, the Provisions for the Fit and Proper Test, as well as the provisions for the Use of Expatriate Employees in the Banking Sector, that regulate:

1. Must obtain approval from Financial Services Authority (FSA) before carrying out duties and functions in their position. Through the Financial Services Authority letter No. SR-3/PB.12/2023 dated January 4, 2023, the Financial Services Authority approved the appointment of Mr. Mucharom as Human Capital & Compliance Director;
2. Must fulfill independence requirements, namely not having financial, management, share ownership and/or familial relations up to the second degree with members of the Board of Commissioners, the Board of Directors and/or Controlling Shareholders or relationship with the Bank that may affect their ability to act independently;
3. Must have adequate integrity and knowledge regarding banking regulations and prevailing laws and regulations;
4. Are prohibited from appointing or using expatriate employees;
5. Does not hold concurrent positions as President Director and/or Vice President Director;
6. Not in charge of the following functions: operational business, risk management that makes decisions on banking activities, treasury, finance, accounting, logistics, procurement, information technology and internal audit.

Based on the applicable BNI organizational structure, the BNI Human Capital & Compliance Director oversees the following organizations:

1. Compliance Division;
2. Legal Division;
3. Human Capital Strategy Division;
4. Human Capital Services Division;
5. Human Capital Business Partner;
6. BNI University;
7. Policy Governance Division.

Overall, the duties and responsibilities of the Director in charge of the compliance function include:

1. Formulating strategies to encourage the creation of a compliance culture;
2. Proposing compliance policies or compliance principles to be approved by the Board of Directors;
3. Establishing compliance systems and procedures to formulate the Bank's internal provisions and guidelines;
4. Ensuring all policies, regulations, systems and procedures as well as the Bank's business activities are in accordance with the provisions of the Financial Services Authority, Bank Indonesia and the prevailing laws and regulations;
5. Minimizing the Bank's Compliance Risk;
6. Taking preventive measures so that the policies and/or decisions made by the Bank's Board of Directors do not deviate from the provisions of the Financial Services Authority, BI and the prevailing laws and regulations;
7. Performing other duties related to Compliance Function, such as monitoring and maintaining the Bank's compliance with the commitments made by the Bank to the Financial Services Authority, BI and other supervisory authorities;
8. In addition to the above duties and responsibilities, in order to implement the integrated compliance function, the Director in charge of the compliance function has duties to direct, monitor and evaluate the implementation of the Integrated Compliance function as well as follow up on directions or advice from the Board of Commissioners of the Main Entity or the Integrated Governance Committee in order to improve Integrated Compliance Function.

COMPLIANCE WORK UNIT

The duties of implementing the compliance function is carried out by the Compliance Division, which is a work entity that operates independently and has direct responsibility to the Director in charge of the compliance function. Furthermore, the Compliance Division is also designated as an Integrated Compliance Work Unit.

To implement the provisions contained in OJK Regulation no. 18/POJK.03/2014 concerning the Implementation of Integrated Governance for Financial Conglomerates, the Compliance Division as the Integrated Compliance Work Unit (SKKT), BNI has carried out its duties in monitoring and evaluating the implementation of compliance functions in various Subsidiaries, including:"

1. Realizing the implementation of a culture of compliance at all organizational levels and activities in each Subsidiary Company;
2. Manage Compliance Risks faced by each Subsidiary;
3. Ensure that the policies, provisions, systems and procedures as well as business activities carried out by each Subsidiary Company are in accordance with Regulatory provisions (including OJK, Bank Indonesia, Ministry of Finance, etc.) and applicable laws and regulations including Sharia Principles for Subsidiary Companies that implement Sharia Principles; And

COMPLIANCE UNIT WORK PROGRAM IMPLEMENTATION IN 2023

As it operates in an increasingly complex business, BNI strives to reduce the risks that are increasing due to developments in information technology, globalization and financial market integration. Therefore, BNI continues to strive to mitigate risks in the Bank's business activities, both preventive (ex-ante) and curative (ex-post). In line with the regulations stipulated in OJK Regulation No. 46/POJK.03/2017 concerning the Implementation of the Compliance Functions for Commercial Banks, there is a need to increase the role and function of compliance.

To encourage the realization of a compliance culture in all organization units, the following compliance programs have been implemented:

1. Realizing the implementation of a compliance culture at all organizational levels and in bank business activities:

- Delivering Training/Socialization to all employees covering Compliance Culture, Good Corporate Governance (GCG) materials, Gratification and Anti-Bribery Control through digital and classical media as well as mandatory e-learning (Gratification and GCG Control);
- Delivering a Compliance Reminder (CORE) for the Daily Exercise Employee Program (DEEP46) with regular AML-CFT and PPPSPM, and gratification material to improve the employee compliance culture;
- Delivering on site supervision related to AML-CFT and PPPSPM and the GRC (Governance, Risk and Compliance) Forum;
- Handling Gratification Control in BNI's work areas, in collaboration with the Corruption Eradication Commission (KPK) to improve Good Corporate Governance (GCG) and Compliance Culture;
- Monitoring the effectiveness of Good Corporate Governance and Integrated Governance implementation at BNI.

- f. Developing a Compliance Information Management System (CIMS) application, as an information system, database and monitoring of online compliance review results and implementation of AML-CFT and PPPSPM;
 - g. Preparing a Measurement of Compliance Index (CIX) as a reference to measure and ensure that the compliance function is running well;
2. Managing the compliance risks faced by the Bank; Compliance risk is a risk arising from the failure to comply with and/or not implementing the prevailing laws and regulations.

Based on such matters, the Compliance Division actively strives to minimize compliance risk. The composite compliance risk profile assessment includes an assessment of the inherent risks and assessment of the quality of Risk Management implementation so that it reflects the compliance risk control (risk control system). In a composite manner, BNI's Compliance Risk Profile in 2023 stood at level 2 (low to moderate), with the following details:

- a. BNI's Inherent Risk in 2023 BNI was at level 2 (Low to Moderate);
- b. The Quality of Risk Management Implementation (KPMR) was at level 2 (Satisfactory).

The Compliance Division continues to make improvement efforts to minimize Compliance Risk, including:

- a. Identifying, monitoring and periodically disseminating the fulfillment of obligations and matters prohibited by regulations as a preventive measure;
 - b. Reminding organization units they in charge of the fulfillment of obligations periodically;
 - c. Making corrective actions based on the compliance risk database;
 - d. Preparing sanctions from regulators/supervisors as a source of compliance risk into the Compliance Index, and making the compliance index part of the unit Key Performance Report Indicators (KPI).
3. Ensuring that policies, regulations, systems and procedures as well as the Bank's business activities carried out by the Bank is in accordance with regulations. As one of the preventive measures to prevent compliance risks from arising and to support healthy and sustainable growth, the Compliance Division takes preventive (ex-ante) measures by conducting compliance tests to ensure that all internal regulations and certain banking activities comply with applicable banking principles. The compliance test activities include:

- a. Test of compliance on drafts of policies, as well as on new/updated systems and procedures;
 - b. Compliance test/review of existing policies, systems and procedures;
 - c. Compliance test on the design of publishing or new/updated products/activities;
 - d. Compliance checklist on the fit and proper test of prospective controlling shareholders, Controller, member of Board of Directors, and/or member of Board of Commissioners;
 - e. Compliance test/Credit Compliance Review (C2R) for the proposed Credit Application Tool (PAK);
 - f. Compliance test/Procurement Compliance Review (PCR) for the proposed Procurement of Goods and/or Services Document;
 - g. Compliance test/review on plans for opening and relocating Bank offices (regional offices, branch offices, sub-branch offices, and functional offices);
 - h. Compliance test/review of branch and center operational activities.
4. Ensuring bank compliance with commitments made by the bank to OJK/BI and other supervisory authorities. Monitoring commitments to the supervisory authority is carried out together with the Internal Audit (IAD).
5. Expanding C2R carried out by the Compliance Division with the following criteria:
- a. Provision of new, additional and restructuring funds with the authority of the Head Office Credit Committee (Corporate, Enterprise and Commercial Segment) and Division Level Credit Committee (Commercial Segment); or
 - b. Reviewing the provision of funds, where at least 1 (one) Credit Committee member is from the Board of Directors;
 - c. Modifications include, but are not limited to changes in structure, release of collateral, changes to requirements where at least 1 (one) member of the Credit Committee is a Director; or
 - d. Proposals for the provision of funds after consultation with the Board of Commissioners, or the provision of funds to Bank related parties must obtain permission from the Board of Commissioners.
6. Developing the BNI AML System in line with the POJK concerning the implementation of AML-CFT and PPPSPM programs by ensuring there is a system that effectively identifies, analyzes, monitors and provides reports on the customer transaction characteristics carried out automatically.

INTEGRATED COMPLIANCE UNIT WORK PROGRAM IN 2023

To show the duties and functions of monitoring and evaluating the implementation of the compliance function at each Financial Services Institution (LJK) within the BNI Financial Conglomerate (KK), the Integrated Compliance Work Unit carried out the following:

1. Analyze the latest external provisions that have a significant impact and have major sanctions for LJKs in the BNI KK and submit them to the relevant LJKs for follow-up, including:
 - a. POJK No. 3 of 2023 concerning Increasing Financial Literacy and Inclusion in the Financial Services Sector for Consumers and/or the Community;
 - b. POJK No. 17 of 2023 concerning Commercial Bank Governance;
 - c. SEOJK No. 15/SEOJK.05/2019 concerning Reassessment of Main Parties of Non-Bank Financial Services Institutions.
 - d. SEOJK No. 19/SEOJK.05/2020 concerning Insurance Product Marketing Channels;
 - e. SEOJK No. 24/SEOJK.04/2022 concerning Accounting Treatment of Bond and Share Sale and Purchase Transactions by Securities Companies;
 - f. SEOJK No. 25/SEOJK.04/2022 concerning Accounting Treatment of Securities Company Funding Transactions;
2. Perform alignment the internal policies in each FSI within the BNI FC and then provided the necessary input or recommendations while taking into account the business sector, complexity, needs, size, conditions and regulations that apply to each FSI within the BNI FC;
3. Perform alignment the Compliance Risk management mechanism through monthly monitoring of compliance with the Regulatory Business Conduct of each FSI in the BNI FC based on the regulations of each FSI through a Self Assessment;
4. Implemented the Compliance Index (CIX) in the FSIs in the BNI FC as a means of monitoring the compliance function in the FSIs by using the parameters in the form of fraud, violation cases, sanctions and fines from regulators, pending findings of external and internal auditors, updating customer data and Regulatory Business Conduct of each FSI;
5. Analyzed the FSI Compliance Function Implementation Report in the BNI FC periodically to include the implementation of:
 - a. Compliance Culture;
 - b. Compliance Risk and Compliance Index;
 - c. Regulatory Compliance;
 - d. Company Compliance with Commitments to Regulators;And
 - e. Implementation of the Anti-Money Laundering, Prevention of Terrorism Financing and Prevention of Funding for the Proliferation of Mass Destruction (APU PPT and PPPSPM) programs is based on 5 (five) pillars of implementing the AML-CFT and PPPSPM programs, namely active supervision of the Board of Directors and Board of Commissioners, Policies and Procedures, Internal Control, Systems Management information, as well as Human Resources and Training.
6. Conducted periodic meetings with each FSI in the BNI FC with discussions including the following:
 - a. Follow up on suggestions or recommendations submitted by the Integrated Compliance Work Unit and the Integrated Governance Committee;
 - b. Recent issues related to the compliance function at each FSI in the KK BNI as well as follow-up settlement and mitigation;
 - c. Implement and adjust to the latest external regulations for each FSI in the KK BNI;
 - d. Implement of the AML-CFT and PPPSPM programs at each LJK in the BNI KK based on the 5 pillars of implementing the AML-CFT and PPPSPM programs as well as Self Assessment risk assessment for institutions based on the Institutional Risk Assessment by taking into account the results of the National Risk Assessment issued by PPAK and Sectoral Risk Assessment issued by OJK;
 - e. Align the anti-bribery/anti-gratification application provisions;
 - f. Implement mandatory learning and understanding of tests for all employees at each FSI in the KK BNI in a consistent and sustainable manner;
 - g. Implement routine and periodic GRC forums at each FSI in the KK BNI;
 - h. Implement reviews and adjustments to the guidelines and internal policies for each FSI in the KK BNI in accordance with the latest external regulations.
7. Prepare and submit periodic reports on the Compliance function oversight and evaluation duties and responsibilities at each FSI in the BNI FC periodically to the Compliance Director, as well as prepare periodic reports on the integrated compliance duties and responsibilities submitted by the Compliance Director to the President Director and the BNI Board of Commissioners;
8. Make efforts to improve the Human Capital competence in the compliance units at each FSI in the BNI FC by organizing sharing sessions by BNI on the topic of Compliance Culture, Flow and Licensing Reporting Process for New Products and/or Activities to Regulators, Consumer Protection and Integrated Compliance, Anti-Fraud Strategy at BNI, Good Corporate Governance, Management of Anti-Gratification and Anti-Bribery Management System (SMAP), as well as Anti-Money Laundering and Prevention of Terrorism Funding (APU PPT);
9. Synergize with each FSI in the BNI FC, including Training and Learning between BNI and each FSI in the BNI FC.

External Auditor

As an effort to carry out an independent supervisory function on the financial aspects of the Bank, BNI appoints a Public Accounting Firm (KAP). In this case, the External Auditor to examine BNI's finances for the 2023 fiscal year was determined at the Annual GMS, taking into account the Board of Commissioners recommendations, following the recommendation of the Audit Committee. The selection process was carried out in accordance with the applicable goods and services procurement mechanism. To ensure the independence and quality of the audit results, the appointed External Auditor may not have a conflict of interest with the Bank.

IMPLEMENTATION OF EXTERNAL AUDIT FUNCTION

In carrying out operational activities, apart from internal auditors, Bank is also supervised by external auditors, namely the Financial Services Authority, Bank Indonesia, the Supreme Audit Agency and the Public Accounting Firm.

APPOINTMENT OF PUBLIC ACCOUNTANT

Following up on the General Meeting of Shareholders ("GMS") resolutions for the Fiscal Year 2022. The Board of Commissioners appointed KAPTanudiredja, Wibisana, Rintis & Partners (member of global PricewaterhouseCoopers) as the external auditor for examining the Bank's Financial Statements and other reports for the Fiscal Year 2023. Fiscal year 2023, is the second audit year period for KAP Tanudiredja, Wibisana,, Rintis & Rekan (member of global PricewaterhouseCoopers)

Basis of appointment was as follows:

1. Based on the Financial Services Authority Regulation No. 13/POJK.03/2017 dated March 27, 2017, concerning the Use of Public Accountant Services and Public Accounting Firms in Financial Services Activities in Article 16 Paragraph 1, it is stated that Parties carrying out financial services activities must limit the use of audit services for annual historical financial information from the same AP for a maximum audit period of 3 (three) consecutive reporting fiscal years. as revoked by Financial Services Authority Regulation No. 9 of 2023 concerning the Use of Public Accounting Services and Public Accounting Firms in Financial Services Activities in article 7 paragraph 1 states that parties in the form of commercial banks, issuers and public companies are obliged to limit the use of audit services for annual historical financial information from the same AP for a period no longer than audits for 7 (seven) cumulative years;
2. Based on FSA Regulation No. 37/POJK.03/2019 concerning Transparency and Publication of Financial Statements in conjunction with FSA Circular Letter No. 9/SEOJK.03/2020 concerning Transparency and Publication of Conventional Commercial Bank Reports, Article 4 paragraph 2 states that Banks must include the name of the Public Accounting Firm conducting the annual financial statements audits, together with the name of the Public Accountant, partner in charge of the audit, including the opinion given in the announcement of the Quarterly Publication Report for the position at the end of December;
3. The appointment process for KAPTanudiredja, Wibisana, Rintis & Rekan (member of PricewaterhouseCoopers) as the external auditor was carried out through a "Tender" mechanism.

COORDINATION BETWEEN THE EXTERNAL AUDITOR AND AUDIT COMMITTEE

To implement its monitoring function on the audit results conducted by external auditors, namely Bank Indonesia (BI), Financial Services Authority (FSA), the Supreme Audit Agency (BPK), the Financial Transaction Reports and Analysis Center (PPATK), and KAP, the Audit Committee has evaluated the follow-up actions taken by the Management on the audit results of the said external auditors. Complete coordination can be seen in the description of the Audit Committee Report.

EXTERNAL AUDIT EFFECTIVENESS AND BANK COMPLIANCE WITH PROVISIONS CONCERNING RELATIONSHIPS BETWEEN THE BANK, THE PUBLIC ACCOUNTANTS, AND BANK INDONESIA

BNI conducted an effective external audit and the Bank's compliance with the provisions concerning the relationship between the Bank, Public Accountants and Bank Indonesia for the Bank, including the following:

- As stated in PBI No. 7/50/PBI/2005 concerning Amendments to PBI No. 3/22/PBI/2001 concerning Transparency of Bank Financial Conditions, in providing audit assignments for Financial Reports, BNI is required to appoint a Public Accountant and Public Accounting Firm that has been registered with Bank Indonesia. Through the Board of Commissioners letter No. DK/33 dated 28 February 2023, the Board of Commissioners appointed the Tanudiredja, Wibisana, Rintis & Rekan Public Accounting Firm (a member firm of the PwC global network) as the external auditor in examining the Company's Financial Report and other reports for the 2023 fiscal year;
- Based on Financial Services Authority Regulation No. 13/POJK.03/2017 dated 27 March 2017 as revoked by Financial Services Authority Regulation No. 9 of 2023 concerning the Use of Public Accounting Services and Public Accounting Firms in Financial Services Activities in article 7 paragraph 1 states that parties in the form of commercial banks, issuers and public companies are obliged to limit the use of audit services for annual historical financial information from the same AP for a period no longer than audits for 7 (seven) cumulative years;

3. The appointment of the same Public Accountant and/or Public Accounting Firm by BNI must be based on a work agreement;
4. The Public Accountant who audits the Bank's Annual Financial Statements is required to conduct audits in accordance with the Public Accountant Professional Standards, the work agreement, and the audit scope. The Public Accountant and/or Public Accounting Firm is required to observe the Bank Confidentiality as regulated in the Law No. 7 of 1992 on Banking, as amended by Law No. 10 of 1998;
5. In the framework of preparing and implementing the audit, the Public Accountant may request information from Bank Indonesia regarding the condition of the Bank to be audited;
6. Bank Indonesia and/or FSA can request information from a Public Accountant even though the work agreement has ended.

Internal Control System

The Internal Control System (SPI) is a monitoring mechanism established by Bank management on an ongoing basis and implemented by all management and employees at every level of the organization. Therefore, an effective SPI is an important component in Bank management as well as being the basis for healthy and safe Bank operational activities. Implementation of the Internal Control System within the Bank is the responsibility of all parties involved as outlined in the duties and responsibilities of each party.

CONTROL PURPOSES

FINANCIAL AND OPERATIONAL CONTROL, AND COMPLIANCE WITH LAW REGULATIONS

The purposes of the Internal Control System in BNI includes:

1. Compliance with the provisions and laws and regulations (Compliance objective). This is intended to guarantee that all BNI's business activities are carried out in accordance with the provisions and laws and regulations, either provisions issued by the government, FSA, or internal policies and procedures established by BNI.
2. Availability of complete, accurate, effective, and timely financial and management information (Information objective). This is intended to guarantee the availability of complete, accurate, effective, and timely reports necessary to make appropriate and accountable decisions.
3. Effectiveness and efficiency in BNI's business activities (operational objective). This is intended to increase the effectiveness and efficiency of the use of assets and other resources to protect BNI from any risk of loss.
4. Increasing the effectiveness of risk culture in BNI's organization as a whole (risk Culture objective) This is intended to identify weaknesses and assess deviations early, as well as reassess the reasonableness of the policies and procedures in BNI on an ongoing basis.

CONTROL ENVIRONMENT

The control environment reflects the overall commitment, behavior, concern and steps of the Board of Directors and Board of Commissioners in carrying out BNI's operational control activities. The elements of BNI's control environment include:

1. Sufficient organizational structure;
2. BNI's leadership style and management philosophy;
3. Integrity and ethical values, as well as employees' competencies;
4. Human Capital policies and procedures;
5. Attention and direction of BNI's management and other committees, such as the Risk Management Committee.
6. External factors affecting BNI's operations and the risk management implementation.

BNI's Internal Control System Covers:

1. Strategic control, to ensure each strategy or policy is in accordance with BNI's objectives, vision and mission;
2. Operations control, to achieve operational efficiency and effectiveness;
3. Reporting control, to ensure the quality of all information/reporting produced and used in internal or external decision making;
4. Obedience control, to ensure the level of compliance with law, regulations and laws related to operations.

Risk Assessment

The risk assessment (measurement) system is used to measure risk exposure as a reference to controlling risk. Risk assessment cover 8 (eight) risk types managed by BNI as follows:

1. Credit Risk Assessment
Credit Risk Assessment is carried out including the following aspects:
 - a. Amount, quality, and composition of exposure of balance sheet and administrative accounts;
 - b. The level of credit risk of debtors/counterparties;
 - c. Credit characteristics;
 - d. Business environment condition;
 - e. Internal rating system and scoring system.
 - f. Credit risk stress testing.
 - g. The use of internal ratings to determine asset quality and the amount of reserves by calculating the Expected Credit Loss (ECL) value, which reflects the estimation of potential credit losses through the calculation of 3 basic parameters, namely Probability of Default (PD), Loss Given Default (LGD), Exposure at Default (EAD).
2. Market Risk Assessment
Market risk assessment is carried out on all trading book and banking book portfolios. Market risk assessment on the trading book includes:

- a. Measurement of market risk sensitivity – standard method;
- b. Aggregation using Value at Risk (VaR) – internal model;
- c. Market risk stress testing;
- d. Budget loss; and
- e. Back testing.

Market risk assessment on the banking book, includes:

- a. Measurement of interest rate risk on the banking book;
- b. Measurement of exchange rate risk on the banking book.

3. Liquidity Risk Assessment

Liquidity risk assessment is carried out to measure and monitor the need for sustainable net funding. The liquidity risk assessment process includes:

- a. Assessment of liquidity ratios includes Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR);
- b. Maturity profile assessment;
- c. Projected cash inflows and outflows;
- d. Liquidity risk stress testing.
- e. Availability of liquid assets (Cash), Secondary Reserve (SR); and
- f. Liquidity Ratio.

4. Operational Risk Assessment

One method that can be used to assess operational risk in BNI is Risk & Control Self Assessment (RCSA), a series of activities carried out by each unit (risk owner) to identify operational risk issues in each unit, looking for causes, measuring potential losses (impact and frequency) that may arise, and finding solutions to overcome them, as well as control mechanisms for existing risks.

Operational risk is classified into categories and sub categories to facilitate risk assessment, control, and reporting of 7 (seven) operational risk events, which are:

- a. Internal fraud;
- b. External crime;
- c. Employment and occupational safety practices;
- d. Clients, products, and business practices;
- e. Damage to physical assets;
- f. Business interruption and system failure; and
- g. Execution, shipping, and process management.

5. Legal Risk Assessment

Legal risk assessment/measurement uses indicators/parameters in the form of:

- a. Potential losses arising from litigation claims;
- b. Weakness in binding; and
- c. The absence/occurrence of inregulations/laws changes that underlie the issuance of a product or service.

6. Strategic Risk Assessment

Strategic risk assessment/measurement uses indicators/parameters such as:

- a. Strategy suitability with business environment conditions;
- b. High-risk strategies, and low-risk strategies;
- c. BNI's business position towards competitors; and
- d. Achievement of the Bank's Business Plan (RBB).

7. Compliance Risk Assessment

Compliance risk assessment/measurement uses indicators/parameters such as:

- a. Type, significance, and frequency of violations against the applicable provisions; and
- b. Violations against provisions of certain financial transactions.
- c. Frequency of violations (BNI compliance track record).

8. Reputation Risk Assessment

Reputation risk assessment/measurement uses indicators/parameters such as:

- a. Reputation influence from the owner of BNI and related companies;
- b. Violation of business ethics;
- c. Product complexity, and BNI's business cooperation;
- d. Frequency and materiality of the Bank's negative reporting; and
- e. Frequency and materiality of customer complaints.

COMPLIANCE WITH COSO FRAMEWORK

BNI's Internal Control System refers to the FSA Circular No. 35/SEOJK.03/2017 dated July 7, 2017 concerning the Standard Guidelines for Internal Control Systems for Commercial Banks, in line with the COSO framework and the Basel Committee - Internal Control, covering 5 (five) key interrelated elements in the Bank's internal control system including:

1. Management culture Risk supervision and control;
2. Risk identification and assessment;
3. Control activities and separation of functions;
4. Accounting, information and communication systems;
5. Monitoring activities and deviations/weaknesses corrective actions.

CONTROL ACTIVITIES

Control activities are carried out to ensure that appropriate actions have been taken in controlling a risk. Internal control activities in the Company include:

1. General Control Activities

Involves all employees including the Board of Directors, and are planned and carried out to ensure that management directives have been carried out. Control activities are contained in policies and procedures to ensure that every activity is carried out effectively and to encourage anticipatory actions against the risks inherent in each operational activity.

2. Control Activities According to Organizational Functions

An effective Internal Control System requires establishment of a control structure in accordance with the organizational structure, and includes:

a. Top Management Reviews

The Board of Directors actively requests presentations and performance reports on a regular basis, in order to evaluate BNI's progress towards its intended objectives. Determination of objectives are in accordance with the established risk management policy after considering the risk level to be taken (risk appetite), the level and type of risk that is maximally set (risk tolerance), and limit setting.

b. Operational Performance Review (Functional Reviews)

Reviews are periodically carried out by IAD.

c. Information System Control

Includes verification of the accuracy and completeness of transactions and authorizations, general control and application control.

d. Physical Asset Control

Physical Asset Control activities include securing assets, limiting access to computers and data files.

e. Documentation, including adequacy of accounting policies documentation, procedures, systems & standards as well as audit processes.

3. Control Activities based on Type of Risk

Control activities have been set out in policy and procedure documents to identify risks (market, liquidity, credit, operation, legal, compliance, reputation, and strategic risks)..

a. Credit Risk Control

- i) Credit supervision covers all credit aspects and all objects of supervision without exception;
- ii) Internal credit control.

b. Market Risk Control

For control purposes, the process of identifying and measuring market risk is carried out by units independent of the business activities, and is carried out by the Risk Management Work Unit.

The Risk Management Work Unit authority and responsibilities in controlling market risk are:

- i) Approving and validating the proposed model/method used in measuring market risk;
- ii) Developing market risk measurement models;
- iii) Checking the correctness of the market risk calculation based on risk report received
- iv) Determining the confidence level used;
- v) Setting parameters for market risk stress testing;

vi) Proposing models and parameters used in measuring market risk by the Treasury Division;

vii) Measuring market risk;

viii) Conducting back testing and stress testing.

c. Operational Risk Control

Operational risk management and control is carried out through coordination between the Risk Management Work Unit and the Operational Work Unit in stages. BNI also has an Operational Risk Management Forum (FRO) as a means of formal coordination between work units to discuss operational risk issues as well as follow up on mitigation that must be taken. The roles and supports needed from the Operational Work Unit are:

- i) Submitting periodic/incidental risk exposure reports to the Risk Management Work Unit;
- ii) Ensuring risk management is in each operational Work Unit (risk taking unit/risk owner), so the units will be responsible for managing the risks inherent in transactions/ activities on a daily basis.

Operational risk control also includes Business Continuity Plan (BCP) procedures. BCP is a formal mechanism/plan that combines the established strategies, policies, procedures, and organizations to ensure the continuity of operations of critical business functions at a certain service level during any disruption or disaster.

d. Liquidity Risk Control

Liquidity risk control is carried out by:

- i) Monitoring and taking alternative strategic steps for each Secondary Reserve (SR) traffic light, namely: Dark Green, Light Green, Light Yellow, Dark Yellow and Red;
- ii) Conducting funding strategies, managing liquidity position and daily liquidity risk, managing liquidity position and intra-group liquidity risk as stipulated in the Global Funding Policy, Asset Management Policy and Asset and Liability Management Policy

e. Legal Risk Control

Legal risk control is carried out by ensuring BNI's agreements with third parties have secured BNI's interests. Legal risk control is carried out by a Work Unit functioning to manage legal risk, and includes:

- i) Preparing assessments through a juridical study, in the event there are plans to add/develop new products and/or activities;
- ii) Providing legal advice, and/or legal assistance in the event there are legal risks in operational activities;

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

- iii) Reviewing contracts and agreements with other parties periodically.
- f. Strategic Risk Control
Strategic risk control is carried out by:
 - i) Conducting an effective, independent and objective review of strategic policies as outlined in the review of the implementation and performance achievement against the targets set in the Bank's Business Plan through Board of Commissioners meetings, meetings inviting the Board of Directors (Radekom), Board of Directors Meetings (Radisi), Sector Meetings and Business Reviews;
 - ii) Adequate testing and reviewing of management information systems.
- g. Compliance Risk Control
Compliance risk control is carried out through ex-ante (preventive) actions aimed at:
 - i) Ensuring policies, provisions, systems and procedures, as well as business activities at BNI are in accordance with the provisions of the regulator and prevailing regulations;
 - ii) Ensuring compliance with established commitments
- h. Reputation Risk Control
Reputation risk control is carried out by:
 - i) Managing, following up and resolving customer complaints and lawsuits that can immediately increase reputation risk; and
 - ii) Developing a reliable mechanism for effective reputation risk control measures.

INFORMATION AND COMMUNICATION

The information system produces reports on business, financial conditions, risk management implementation, and fulfillment of provisions that support the implementation of the Board of Directors and the Board of Commissioners duties.

Such information includes:

1. Internal and external information obtained and submitted to Management related to the performance of achieving the Company's goals; and
2. The resulting information to be sufficient and timely, therefore, it can carry out its responsibilities effectively and efficiently.

The necessary information system includes:

1. BNI organizing a contingency recovery plan, and a back-up system to prevent high-risk business failures;
2. BNI owning and maintaining a management information system that is organized, in electronic and non-electronic format.

Necessary communication includes effective communication channels to ensure all employees understand, and comply with applicable policies and procedures in carrying out their duties and responsibilities, as well as having effective external communication channels to communicate required information to shareholders, regulators, customers, and other third parties.

When processing information in electronic format, the system used shall have an adequate audit trail.

MONITORING ACTIVITIES

Monitoring of BNI's activities in business units and functional units is carried out through Three Line Roles, which are:

#1 Risk Taking Unit or 1st Line Roles	#2 Risk Control Unit or 2nd Line Roles	#3 Risk Assurance or 3rd Line Roles
<p>Risk Owner, responsible for the risks taken, execution and results (Day to day risk management & control)</p> <ol style="list-style-type: none"> 1. Responsible for managing and controlling risks inherent in day- to-day business activities or functions 2. Identifying, measuring, mitigating, monitoring and reporting risks inherent in business activities/ functions in accordance with the strategies/policies/risk parameters set by the 2nd line roles 	<p>Risk Control, responsible for developing the Bank's risk management framework, policies, principles and methodology</p> <ol style="list-style-type: none"> 1. Preparing proposals for risk management strategies and policies, including risk appetite & limits 2. Developing frameworks, policies, principles, tools, methodologies and risk management standards 3. As a risk oversight unit, carries out aggregation and overall risk reporting 4. Advising or providing recommendations to the 1st line roles on implementing risk policies according to authority 5. Escalating issues/important decisions to Senior 6. Management/ Directors and/or Risk Management Committee and Anti Fraud, Risk Management Sub-Committee and/ or Integrated Risk Management Committee (Risk Management Committees) 	<p>Risk Assurance, responsible for independently evaluating the effectiveness of risk management and internal control implementation</p> <ol style="list-style-type: none"> 1. Conducting independent and periodic internal audits on the implementation of risk management and internal control 2. Preparing corrective action recommendations and monitoring their implementation 3. Reporting the audit results to the Audit Committee and key stakeholders according to their authority

REVIEW OF EFFECTIVENESS INTERNAL CONTROL SYSTEM

As an important component in Bank management, the Internal Control System (SPI) forms the basis for healthy and safe Bank operational activities. An effective Internal Control System assists the Board of Directors and the Board of Commissioners in protecting the Bank assets, ensures the availability of reliable financial and managerial reporting, increases the Bank compliance with applicable laws and regulations, and reduces the risk of losses, irregularities and violations in the precautionary aspect.

For the SPI, the BNI Board of Directors has the responsibility for establishing and maintaining adequate SPI, and ensuring the system operates safely and reliably in accordance with the Bank's established internal control objectives.

The Internal Audit Work Unit (SKAI) conducts evaluations, through audits and consultations, and plays an active role in improving the SPI effectiveness on an ongoing basis in connection with the Bank's operations that have the potential to cause losses in achieving the targets set by Bank management.

To achieve this, the evaluation results are submitted to the Board of Directors to be followed up and monitored to ensure SPI they are running adequately. The Board of Commissioners, through the Audit Committee, plays an active role in relation to SPI evaluation by reviewing the Internal Audit evaluation results. Based on the evaluation carried out, BNI's SPI runs adequately.

STATEMENT OF THE BOARD OF DIRECTORS AND/OR BOARD OF COMMISSIONERS ON THE ADEQUACY OF THE INTERNAL CONTROL SYSTEM

The Board of Commissioners is responsible for and has supervised the implementation of the Internal Control System (SPI), namely approving and monitoring the Board of Directors' policies that determine internal control. In carrying out its duties, authority and responsibility for supervision, the Board of Commissioners is also assisted by the Audit Committee, Risk Monitoring Committee, Nomination and Remuneration Committee, and Integrated Governance Committee.

The Board of Directors is also responsible for the implementation of a reliable and effective Internal Control System (SPI) as well as making efforts to improve an effective risk awareness culture at every level of the organization. Meanwhile, the Director who oversees the compliance function plays an active role in preventing deviations by management in establishing policies related to the precautionary principle.

The Internal Audit Unit (IAD) has continuously evaluated the effectiveness of SPI related to operational implementation in achieving the targets set by the Company, including through inspection activities on units and activities.

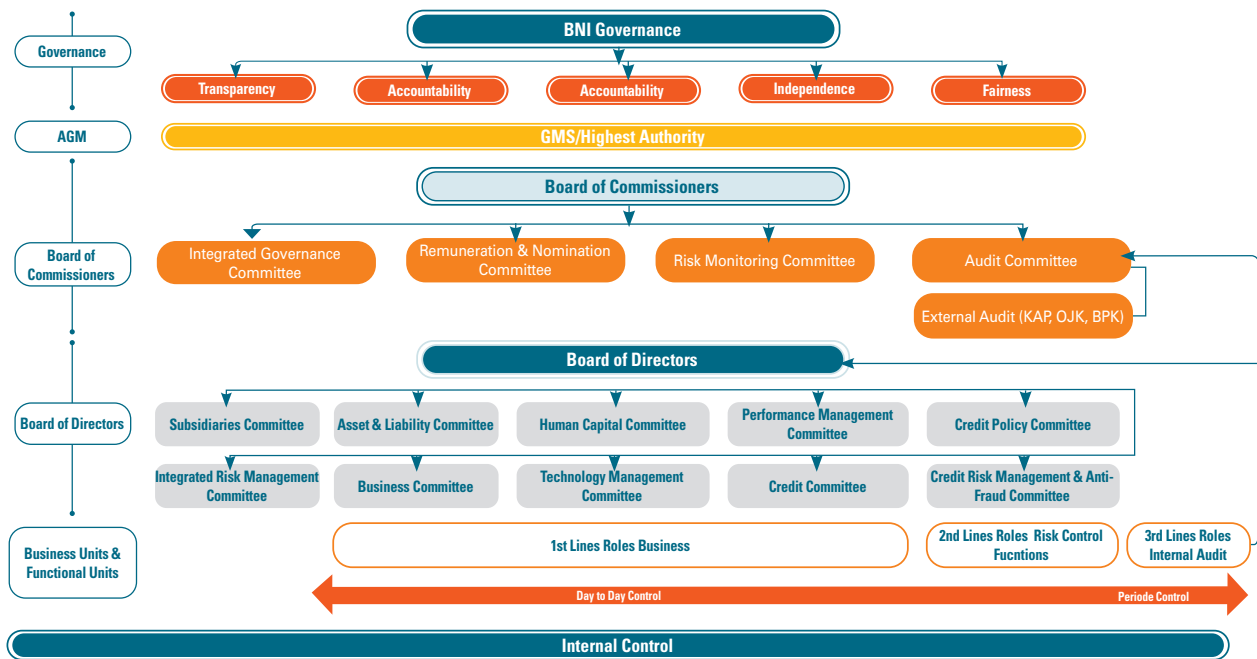

The evaluation results obtained are always submitted to the Board of Directors and related units for follow-up and implementation monitoring. Concerning problems that arise, improvements are always made and monitoring is carried out consistently to ensure that the SPI is running effectively. The Board of Commissioners through the Audit Committee has played an active role in evaluating SPI through reviewing the results of inspections carried out by IAD.

Risk Management System

GENERAL DESCRIPTION OF THE RISK MANAGEMENT SYSTEM IMPLEMENTED BY BNI

BNI has established a system to manage risk and capital in an effective and integrated manner in order to anticipate economic challenges, and any increased risk exposure that may arise in carrying out its business activities. This also aims to support sustainable performance achievement and growth and increase the company's competitiveness.

BNI's risk management is proactive and forward looking. This is intended to maximize added value to shareholders, manage capital comprehensively, and ensure profitability and sustainable business growth. Moreover, BNI as a Financial Services Institution with a number of subsidiaries that are members of the BNI Financial Conglomerate, also requires an integrated risk management system. The risk management governance can be described as follows:

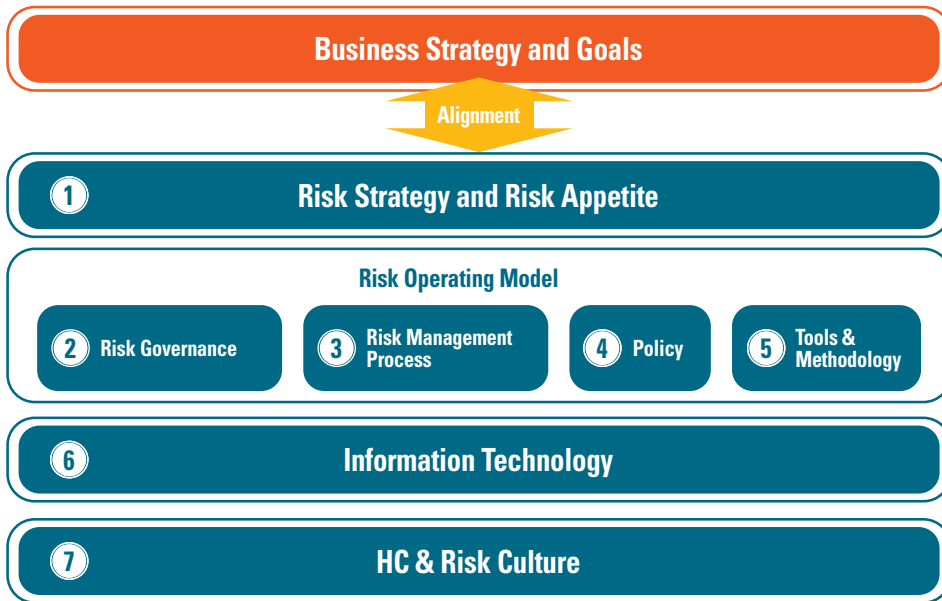

RISK MANAGEMENT FRAMEWORK

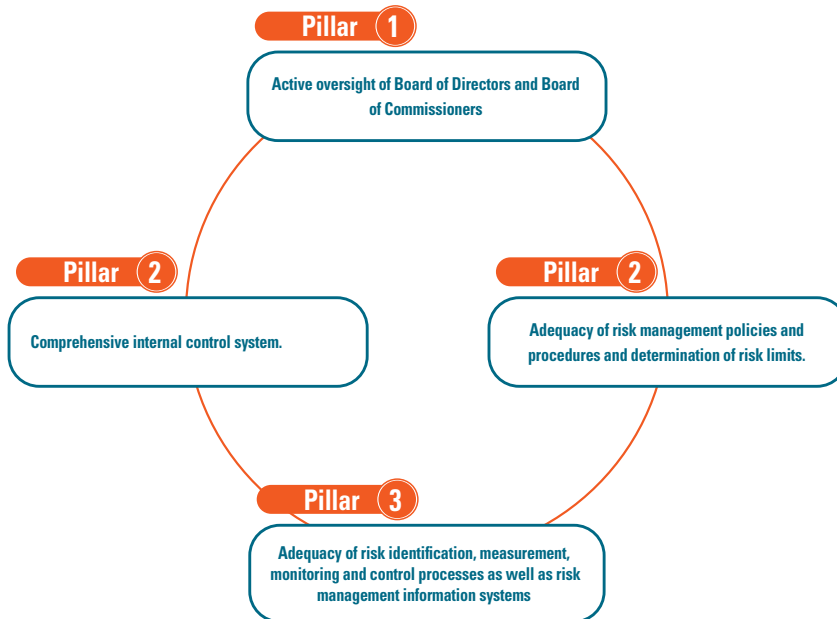

The risk management framework starts from determining a risk strategy and risk appetite that is in line with BNI's business strategy and objectives. Risk management is carried out based on a risk operating model which includes governance, processes, policies as well as tools and methodology. Risk management is supported by adequate Information Technology, adequate quality and quantity of human resources, as well as strengthening risk awareness through the internalization of risk culture.

The risk management framework is depicted in the following chart:

In order to implement effective risk management, both for BNI individually and consolidated and integrated with subsidiaries, the implementation of BNI risk management includes:

PILLAR 1. ACTIVE SUPERVISION OF THE BOARD OF DIRECTORS AND BOARD OF COMMISSIONERS

BOARD OF DIRECTORS SUPERVISION

Active monitoring of Board of Directors is performed by:

1. Prepare written and comprehensive Risk Management policies, strategies and frameworks, including overall Risk limits and per Risk type, taking into account the level of Risk to be taken (Risk Appetite) and Risk Tolerance according to the Bank's conditions, and taking into account Risk impact on capital adequacy. After obtaining approval from the Board of Commissioners, the Board of Directors determines Risk Management policies, strategies and framework.

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

2. Prepare, establish and update procedures and tools to identify, measure, monitor and control risks.
3. Prepare and determine transaction approval mechanisms, including those that exceed limits and authority for each level of position.
4. Evaluate and/or update Risk Management policies, strategies and frameworks at least 1 (one) time in 1 (one) year or more frequently if there are changes in factors that influence the Bank's business activities, Risk exposure and/ or Risk profile significantly.
5. Establish the organizational structure, including clear authority and responsibility at each level of position related to the implementation of Risk Management.
6. Responsible for implementing Risk Management policies, strategies and frameworks that have been approved by the Board of Commissioners as well as evaluating and providing direction based on reports submitted by the Risk Management Work Unit (SKMR) including reports regarding Risk profiles.
7. Ensure that all material risks and impacts caused by the risks in question have been followed up and submit accountability reports to the Board of Commissioners on a regular basis, including including reports on developments and problems related to material risks along with corrective steps that have been, are being and will be taken.
8. Ensuring the implementation of corrective actions on issues found by the Internal Audit (IAD);
9. Develop a Risk Management culture including Risk awareness at all levels of the organization, including, among other things, adequate communication to all levels of the organization regarding the importance of effective internal control.
10. Ensure adequate resource support to manage and control risks.
11. Ensure that the Risk Management function has been implemented independently, which is reflected in, among other things, the separation of functions between the SKMR which carries out risk identification, measurement, monitoring and control and the work unit which carries out and completes transactions.

The Board of Directors' supervisory function is carried out through the Board of Directors Meeting Forum (Radisi), Risk Management & Anti Fraud Committee Meeting (KRA), Risk Management Sub-Committee (RMC), Anti-Fraud Sub-Committee (KAF), Credit Policy Committee Meeting Forum, and Credit Procedure Committee (KPP).

SUPERVISION OF THE BOARD OF COMMISSIONERS

Active supervision by the Board of Commissioners is carried out, among other things, by:

1. Approve BNI's risk management policy including the risk management strategy and framework determined in accordance with the level of risk to be taken (Risk Appetite) and risk tolerance (Risk Tolerance), both quantitative and qualitative Risk Appetite
2. Evaluate risk management policies and strategies at least 1 (one) time in 1 (one) year or in the event that there are changes in factors that significantly influence BNI's business activities;
3. Evaluate the accountability of the Board of Directors and provide direction for improvements to the implementation of BNI's risk management policies on a regular basis;
4. Ensuring that risk management policies and processes are carried out effectively and are integrated into the overall BNI risk management process.

The Board of Commissioners formed a Risk Monitoring Committee as stated in the Risk Monitoring Committee Charter, with the committee's duties including:

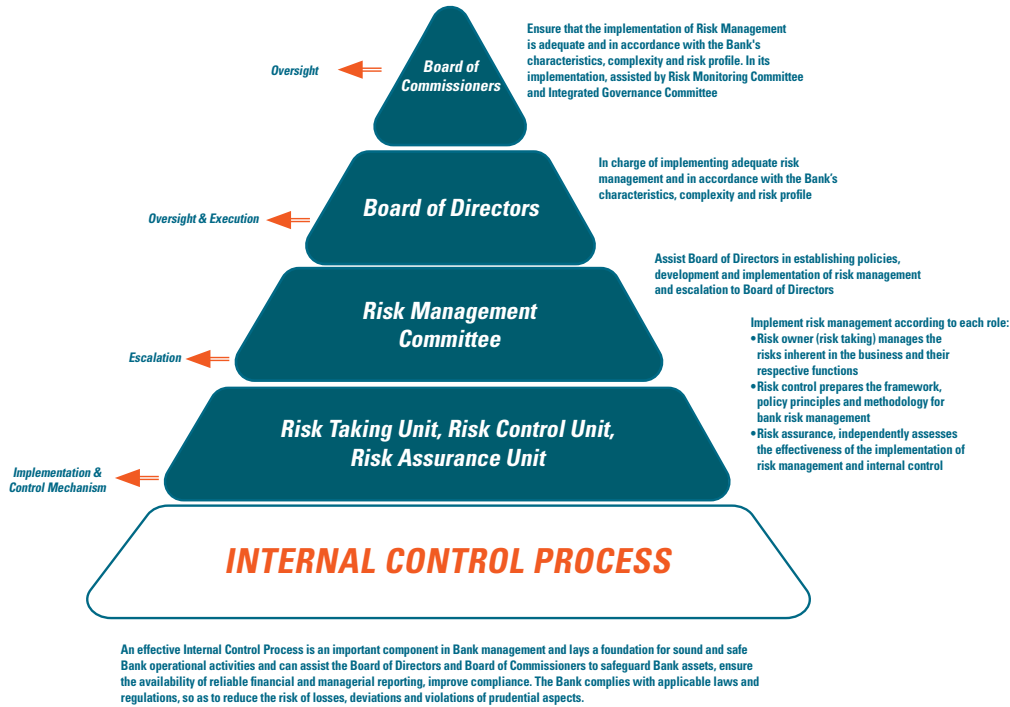

1. Evaluate the conformity of risk management policies with the implementation of Bank policies;
2. Monitor and evaluate the implementation of the duties of the Risk Management Committee and Risk Management Work Unit in order to provide recommendations to the Board of Commissioners;
3. Carrying out certain other tasks related to the function and scope of duties of the Risk Monitoring Committee as assigned by the Board of Commissioners.

In carrying out its function of supervising the implementation of BNI Risk Management and Integrated Risk Management, the BNI Board of Commissioners is assisted in its implementation by the Risk Monitoring Committee (KPR), Audit Committee and Integrated Governance Committee.

In order for the implementation of risk management to run effectively, its implementation must be carried out based on the risk management that has been established by BNI. Risk governance clearly regulates roles, responsibilities, decision-making processes, linkages between risk management functions, as well as establishing policies to ensure that the risks faced by BNI are managed well. Risk governance at BNI can be described in the following diagram:

BNI RISK MANAGEMENT

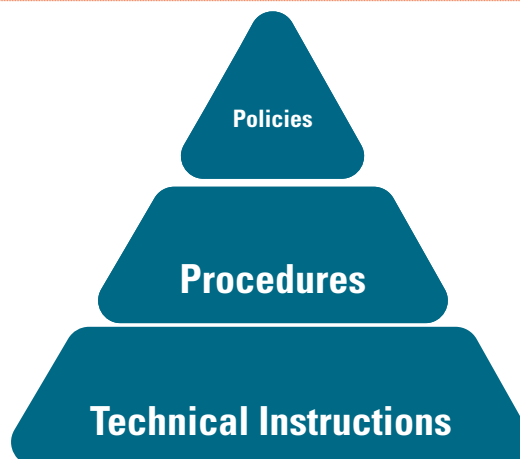

PILLAR 2. ADEQUACY OF POLICIES, PROCEDURES AND LIMIT DETERMINATION

The Risk Management Policy is a written direction in implementing risk management and must be in line with the vision, mission and strategic plan and focus more on relevant risks in BNI's business activities, and is prepared by taking into account the level of risk that is willing to be taken (risk appetite), risk tolerance, and setting limits.

In order to support the effective implementation of risk management, BNI has a risk management policy document that has been approved by the Board of Commissioners, and functions as a strategic and comprehensive basic reference, including:

1. General Policy for Risk Management.
2. General Policy for Integrated Risk Management and Integrated Capital.
3. General Policy for Internal Control Systems

Risk Management Procedures are an elaboration and implementation rules of the Risk Management Policy and are used as a reference for implementing risk management for each Risk Management Unit and all BNI organizational units, and are adequately documented. Detailed provisions for each procedure are regulated in technical instructions (Juknis). Evaluation and/or updating of BNI Risk Management Policies and Procedures is carried out periodically, or in the event of significant changes that affect BNI's business activities. Procedures and technical instructions in the following chart:

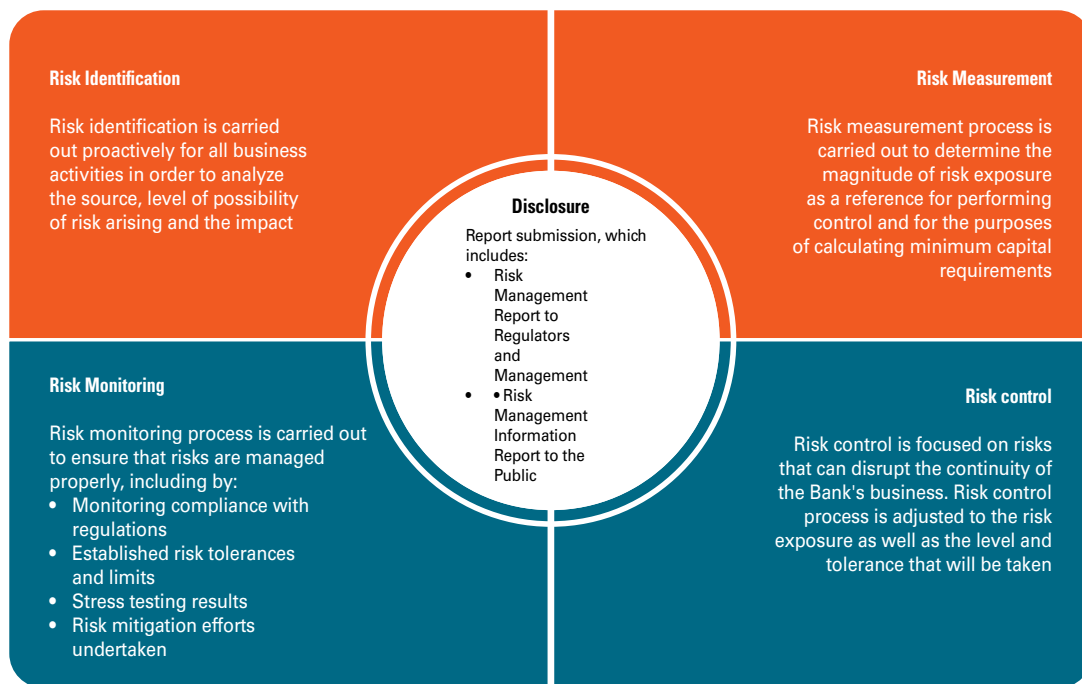

As one of the risk control methods, BNI also has risk limits. Risk limits are thresholds for determining the level of intensity of risk mitigation that will be implemented by management. Determination of BNI risk limits includes limits per risk (Credit Risk, Market Risk and Liquidity Risk), limits per functional activity and limits as a whole. These policies, procedures and risk limits are periodically reviewed with approval up to the Board of Directors level through committee meetings or through circulation to the Board of Directors according to the level of authority.

PILLAR 3. ADEQUACY OF RISK IDENTIFICATION, MEASUREMENT, MONITORING AND CONTROL PROCESSES, AND RISK MANAGEMENT INFORMATION SYSTEMS

The Risk Management process at BNI includes the stages of identifying, measuring, monitoring and controlling risks for 8 (eight) types of risks on an ongoing basis for all material risk factors supported by the Risk Management Information System, which can be described as follows:

Policies regarding the process of identifying, measuring, monitoring and controlling risks for 8 (eight) types of risk (credit, market, liquidity, operational, legal, strategic, compliance and reputation risks) are stipulated in the General Risk Management Policy (KUMR), while the Management process Integrated Risk in the BNI Financial Conglomerate is stipulated in the General Policy for Integrated Risk Management and Integrated Capital (KUMRT).

1. Identify Risks

The risk identification process is carried out proactively for all business activities in order to analyze the source, level of possibility of risk and its impact. The things to pay attention to in the risk identification process are:

- Identification of all risks is carried out periodically.
- Have a method or system to identify risks in all BNI products and business activities.
- Specifically identifying risks for new bank products, before new bank products are introduced or implemented.

2. Risk Measurement

The risk measurement process is carried out in order to determine the magnitude of risk exposure as a reference for carrying out risk control and for the purposes of calculating the Minimum Capital Requirement (KPMR).

Risk measurement is carried out either quantitatively and/or qualitatively according to the measurement methods established by the Regulator or by using internal methods developed by BNI based on best practice in risk measurement. To anticipate extreme conditions, risk measurement at BNI is also equipped with stress testing for credit risk, market risk and liquidity risk.

The things to pay attention to in implementing risk measurements are:

- a. The scope of risk measurement at least measures sensitivity, tendencies, individual risk factors, risk exposure as a whole or per risk by considering correlation, and all risks inherent in bank transactions and products.
- b. Risk measurement methods can be carried out quantitatively and/or qualitatively using methods determined by the Regulator or those developed internally.
- c. The application of measurement methods is adjusted to the applicable Regulatory provisions.
- d. The use of internal methods in measuring credit risk, market risk, liquidity risk and operational risk must take into account Regulatory requirements, including requirements for use, backtesting, validation and documentation.
- e. Risk measurement is carried out by the Risk Management Unit in coordination with the Risk Management Work Unit.

Risk measurement for BNI individually is carried out on 8 (eight) types of risk, while for the BNI Financial Conglomerate it is carried out on 10 (ten) types of risk. For the purposes of reporting the Minimum Capital Requirement (KPMM) to the Regulator, BNI's individual risk measurement is carried out on 3 (three) main risks, namely credit risk, market risk and operational risk. Meanwhile, the integrated KPMM calculation is carried out by comparing the actual total capital of Financial Services Institutions (LJK) members of the Financial Conglomeration with the total minimum capital that must be met by LJK members of the BNI Financial Conglomeration.

Risk measurements are carried out periodically which the measurement results are reported to the Regulator as part of the individual BNI Risk Profile and KPMM reporting as well as the BNI Financial Conglomerate's Integrated Risk Profile and KPMM reporting.

3. Risk Monitoring

The risk monitoring process is carried out to ensure that risks have been managed well, including by monitoring the mitigation and risk limits that have been set.

The things to pay attention to in implementing risk monitoring are:

- a. Risk monitoring includes, among other things, monitoring the magnitude of risk exposure, risk tolerance, limit compliance, and stress testing results as well as consistent implementation of established policies and procedures;

- b. Risk monitoring is carried out by both the Operational Work Unit and the Risk Management Work Unit;
- c. Monitoring results are presented in reports that are submitted periodically to external (Regulator) and internal (Management) parties.

Risk monitoring is carried out both by the Operational Work Unit (Risk Taking Unit) as the risk owner (Risk Owner) and by the Risk Control Unit, and the results of monitoring are presented in regular reports, including Bank Health Level Report, Risk Profile Report, Capital Provision Requirement Report Minimum (KPMM), Loan Portfolio Report, Market Risk and Liquidity Risk Monitoring Report, Operational Risk Incident & Loss Report, Business Continuity Management (BCM) Monitoring Report, Internal Risk Analysis and other risk reports.

4. Risk Control

The risk control process is carried out primarily to manage risks that could disrupt BNI's business continuity.

The things to pay attention to in risk control are:

- a. The risk control system refers to established policies and procedures.
- b. The risk control process is adjusted to the risk exposure as well as the level of risk to be taken (risk appetite) and risk tolerance (risk tolerance).
- c. Risk hedging and mitigation mechanisms are carried out by the Operational Working Unit in collaboration with the Risk Management Working Unit.

Risk control strategies that can be implemented include the following:

- a. Accepting Risk (Risk Acceptance)
For types of risks where the process does not allow for preventive intervention or improvement of the situation, the existing potential risks will be accepted as a consequence of the bank taking advantage of business opportunities, taking into account that the existing risks are still within the Bank's limits/tolerance. However, strict controls must be implemented if this risk control strategy is implemented.
- b. Avoiding Risk (Risk Avoidance)
Risk avoidance is carried out to prevent BNI from experiencing an unacceptable risk, or to prevent increasing existing risk exposure. Risk avoidance is chosen if the potential profit from a business activity is smaller than the risk exposure that may occur.

- c. **Transferring Risk (Risk Transfer)**
In a risk transfer strategy, the existing risks are still attached to the business activity, but the risks are transferred to other parties. One of the most common risk transfer methods is the use of insurance services or outsourcing.
 - d. **Reducing Risk (Risk Mitigation)**
Risk control will be optimal if efforts are made to reduce existing risks. Risk mitigation is intended to minimize losses triggered by external factors or events within the bank. One alternative to suppress and reduce risks is through increasing control and improving work systems and procedures.
5. **Risk Management Information System**
The Risk Management information system must be able to support the implementation of risk identification, measurement, monitoring and control processes.
- a. **Risk Data Management**
Risk data management is the management of risk data which is used to ensure the level of availability, accuracy and timeliness of distribution of risk management information/reports as well as to parties with an interest in risk management reports.
 - b. **Risk Management Reporting**
Risk Management reporting to certain parties must at least pay attention to the following matters:
 - i) The frequency of submitting reports is adjusted to the needs of interested parties, so as to provide adequate information for decision makers.
 - ii) The report contains information regarding total risk exposure, monitoring of material risks, setting limits, compliance with policies and procedures, achievement of business performance and implementation of risk management.

The effectiveness of the implementation of the BNI Risk Management Information System includes:

- a. Availability of information that is accurate, complete, informative, timely, and can be used by the Board of Commissioners, Directors and related work units in implementing Risk Management to assess, monitor and mitigate risks faced by BNI, both overall risks and per type of risk.
- b. The effectiveness of implementing Risk Management includes policies, procedures and setting risk limits.

- c. **Availability of information about the results (realization) of implementing Risk Management compared to targets set by BNI in accordance with risk management implementation policies and strategies.**

Several risk management applications prepared to support the implementation of the risk management process properly, accurately and on time, including the Internal Rating System, Early Warning System, Scoring System, Operational Risk Tool (New PERISKOP), and Market & Liquidity Risk Management Application

Several risk management solutions have been prepared to support the implementation of risk management properly and in line with the IT Strategic Plan, including:

- a. Preparing front end applications for credit risk, market risk and operational risk.
- b. Preparing data storage and information systems.

Before implementing a new risk management information system, testing must be carried out to ensure that the process and output produced have gone through the development, testing and reassessment process effectively and accurately.

BNI has used several models and tools as tools to assist in the risk management process and business decision making. Before implementing a new risk management model or information system, testing and validation must be carried out to ensure that the model, system, process and output produced have gone through the development, testing and reassessment process effectively and accurately. BNI has an independent validation function in the Risk Management Sector.

To optimize the validation process, efficiency of the model life cycle and the potential for model risk to arise from the implemented model, BNI is developing a Risk Management Framework Model as part of quality risk management.

Model risk can be defined as the potential loss due to errors in the development, implementation, validation, or use of a model owned by a bank. The possibility of model risk increases as the number of models implemented, the complexity of a model, or the magnitude of the impact arising from implementing a model risk.

The Risk Management Model Framework currently being developed includes:

a. Risk Assessment Model

It is a process of measuring model risk to be able to carry out priority assessment and model risk assessment to quantify the model based on the materiality and complexity of the model.

b. Model Control

Model control is carried out through validation during the initial stages of the model being developed along with regular validation after the model is implemented. The model validation carried out includes validation of the modeling methodology and validation of performance scoring.

c. Life Cycle Model

Through the Model Life Cycle, BNI can track the position of a model in the Model Risk Management cycle, starting from the development, validation, to implementation stages. This information includes implementation status and whether the model has been reviewed periodically.

d. Inventory Model

Inventory model is an inventory of existing models at BNI. Model inventory includes information related to the model, including the data source used, the purpose of the model being developed, the model owner/developer, the results of model validation and documentation related to the model.

PILLAR 4. COMPLETE INTERNAL CONTROL

The company's implementation of the Internal Control System uses the Three Lines Roles model which consists of:

#1 Risk Taking Unit or 1st Line Roles	#2 Risk Control Unit or 2nd Line Roles	#3 Risk Assurance or 3rd Line Roles
<p>Risk Owner, responsible for risks taken, execution and results (Day to day risk management & control):</p> <ol style="list-style-type: none"> 1. Responsible for management and control of risks inherent in daily business activities or function; 2. Identify, measure, mitigate, monitor and report risks attached to appropriate business activities/functions with strategies/policies/parameters the risk that has been determined by the 2nd line roles. 	<p>Risk Control, responsible for preparation of frameworks, policies, principles, and Bank risk management methodology: Prepare strategy and policy proposals</p> <ol style="list-style-type: none"> 1. risk management, including risk appetite & limits; 2. Develop frameworks, policies, principles, tools, methodologies and standards risk management; 3. As a risk oversight unit, carry out risk aggregation and reporting whole; 4. Advice or recommendations to 1st line roles in implementing policies risks according to authority; 5. Escalating problems/ important decisions to Senior Management/ Directors and/or Committee Risk Management & Anti Fraud Risk Management Sub Committee (Risk Management Committee) and/or Committee Integrated Risk Management. 	<p>Risk Assurance, responsible for independently assess effectiveness implementation of risk management and internal control:</p> <ol style="list-style-type: none"> 1. Carry out internal audits independent and periodic to implementation of risk management and internal control; 2. Develop recommendations corrective action and monitoring its implementation; 3. Report audit results to the Committee Audit and key stakeholders according to their authority.

The Risk Owner as the first line role/Risk Taking Unit manages the risks inherent in the business and its functions on a daily basis (day to day). The Enterprise Risk Management Division, Operational Risk Management Division, Policy Governance Division and Compliance Division act as second line roles/Risk Control Unit.

The Internal Audit Unit (IAD) acts as a third line role/Risk Assurance Unit, which is responsible to the President Director and is tasked with independently assessing the suitability of the risk management implementation process and internal control system with established policies and procedures and with the provisions of the Regulator.

The implementation of the Internal Control System at BNI has been running effectively and efficiently by implementing a separation of functions between the Risk-Taking Unit and the Risk Control Unit and the Risk Assurance Unit.

TYPES OF RISKS AND HOW TO MANAGE THEM

There are 8 (eight) risks managed by BNI as a Bank and 10 (ten) risks managed by BNI as a financial conglomerate, namely credit risk, market risk, liquidity risk, operational risk, legal risk, reputation risk, strategic risk, compliance risk, intra-group transaction risk, and insurance risk. A comprehensive explanation of the risk profile and its management is in the discussion of Types of Risk and How to Manage It, Capital and Risk Management Practices Chapter, this Annual Report.

REVIEW OF THE EFFECTIVENESS OF RISK MANAGEMENT SYSTEMS

The assessment of the quality of Risk Management implementation reflects an assessment of the adequacy of the Risk control system which covers all pillars of Risk Management implementation as regulated in the provisions of the Financial Services Authority regarding the implementation of Risk Management for Commercial Banks.

The implementation of bank risk management varies greatly according to the scale, complexity and level of risk that can be tolerated by the bank. Thus, in assessing the Quality of Risk Management Implementation, it is necessary to pay attention to the characteristics and complexity of the Bank's business.

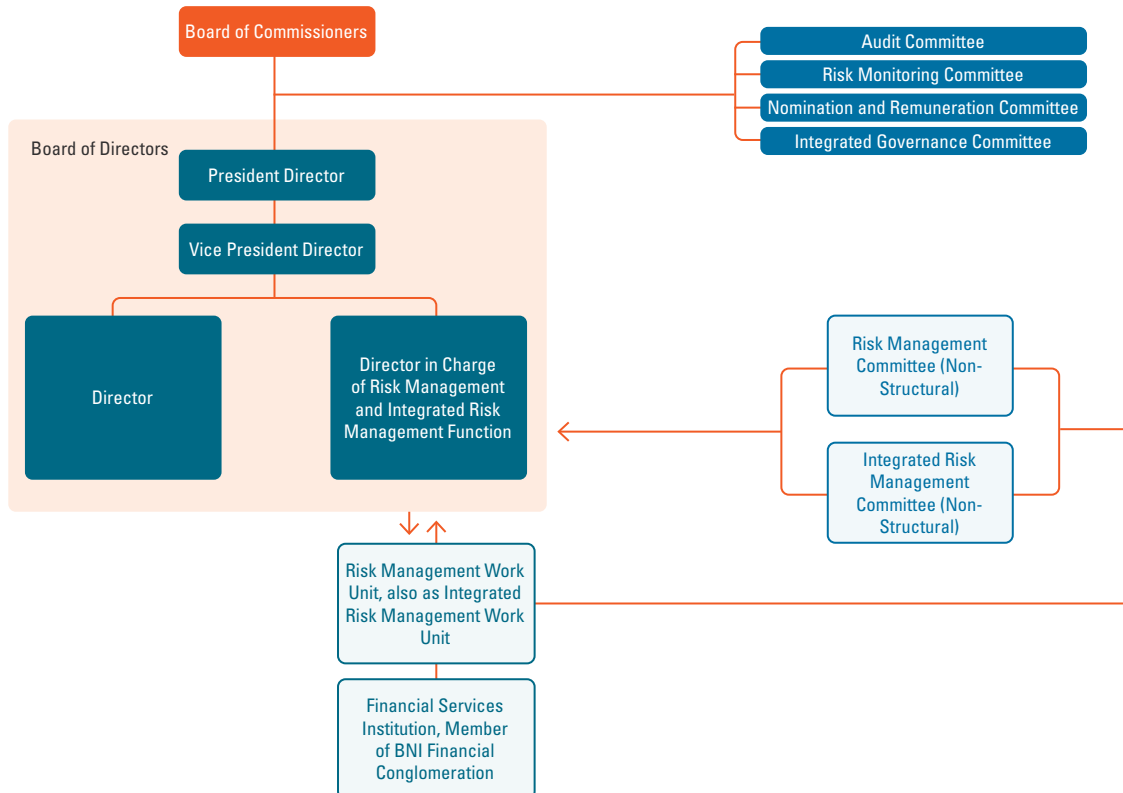

The assessment of the quality of Risk Management implementation is an assessment of 4 (four) interrelated aspects, namely:

1. Risk governance;
2. Risk Management Framework;
3. Risk Management Process, adequacy of human resources, and adequacy of management information systems; as well as
4. Adequacy of the Risk control system, considering the characteristics and complexity of the Bank's business.

The results of the BNI Individual Risk Profile self-assessment as of December 31 2023 are ranked 2 (low to moderate) with a low to moderate Inherent Risk Rating and a Satisfactory Risk Management Implementation Quality (KPMR) rating. From the results of the self-assessment, it is reflected that the risk management system has been implemented by BNI well and effectively.

RISK MANAGEMENT ORGANIZATION STRUCTURE

Risk Management Organization Structure

BNI's Financial Conglomerate was prepared and established as follows:

1. BNI's Board of Directors and Board of Commissioners are authorized and responsible for ensuring the implementation of BNI's Risk Management individually or in an integrated manner;
2. In carrying out its functions to supervise the implementation of BNI's Risk Management and Integrated Risk Management, BNI's Board of Commissioners is assisted by the Risk Monitoring Committee, Audit Committee, Nomination and Remuneration Committee and Integrated Governance Committee;
3. BNI's Director in charge of the Risk Management function carry out the Risk Management function for BNI, and also the Integrated Risk Management function for BNI's Financial Conglomerate;
4. In carrying out its functions to implement an effective risk management, the Board of Directors is assisted by a Risk Management sub- committee of the Risk and Capital Committee (KRK-RMC) and an Integrated Risk Management Committee (KMRT);
5. If necessary, the Director in charge of Risk Management can discuss Risk Management issues in other committee meetings at the Board of Directors' level, or at the Board of Directors' meetings;
6. In implementing BNI's Risk Management, the Board of Directors is assisted by the Risk Management Work Unit (SKMR) that also functions as an the Integrated Risk Management Work Unit (SKMRT);
7. The Risk Management Unit is responsible for facilitating and coordinating with BNI risk management units, and all LJK members of the Financial Conglomerate in managing 8 (eight) types of risks in BNI: credit risk, market risk, liquidity risk, operational risk, legal risk, strategic risk, compliance risk, and reputation risk, and 10 (ten) types of risks in BNI's Financial Conglomerate, including intragroup transaction risk and insurance risk;
8. The Risk Management Work Unit in carrying out its functions, authorities and responsibilities is independent to the Operational Work Unit (risk taking unit) and does not carry out activities related to the Bank's business.

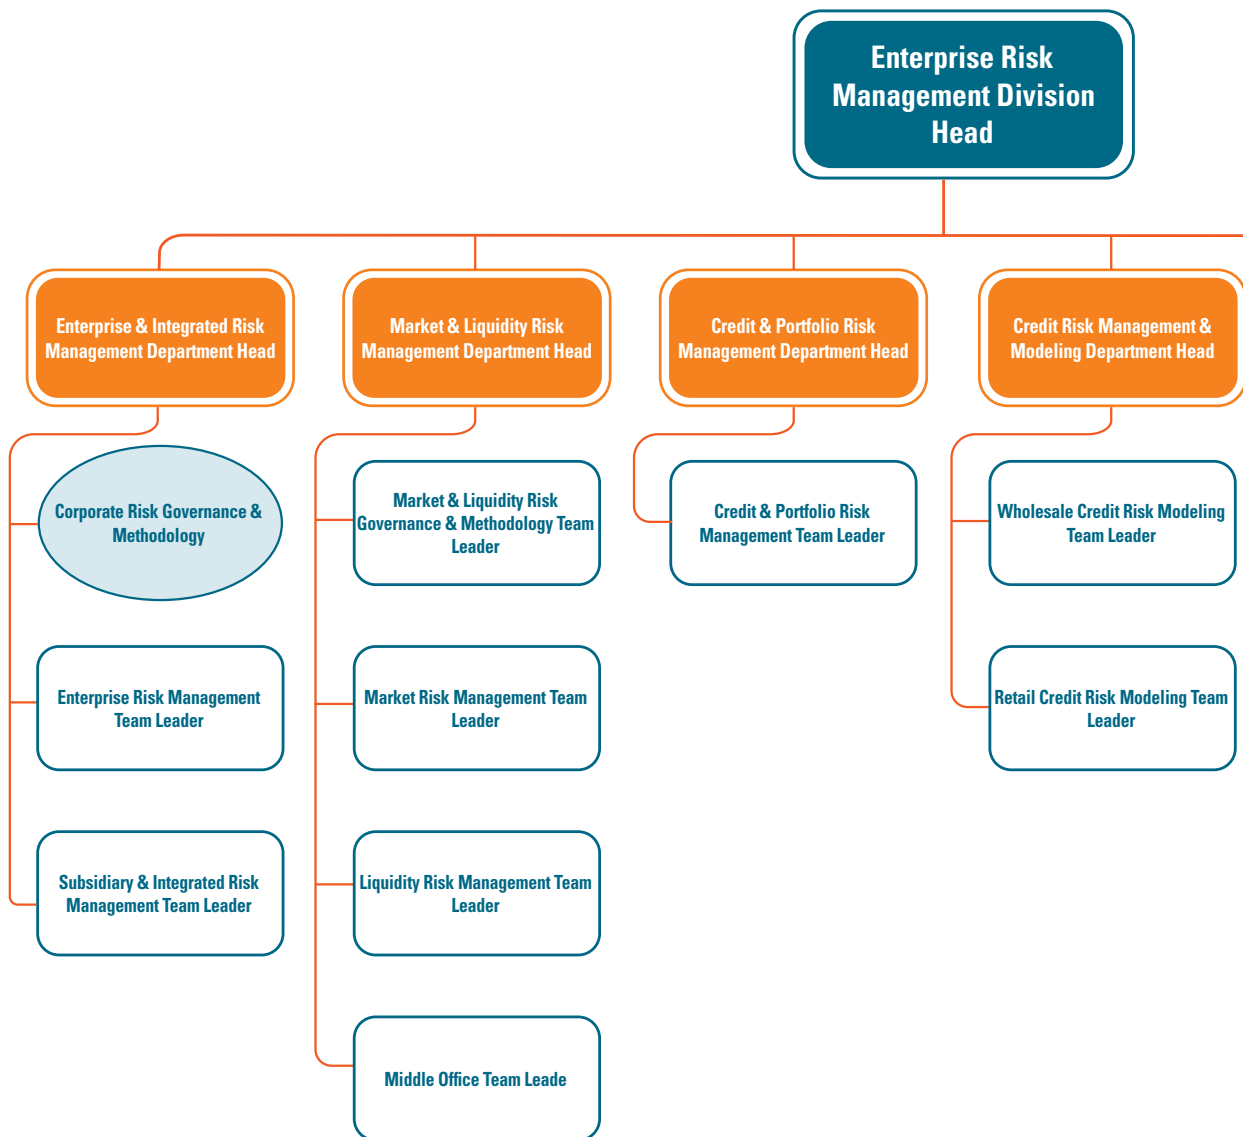

In carrying out its functions, the Risk Management Work Unit can escalate issues up to Risk Management subcommittee of the Risk and Capital Committee (KRA-RMC), or the Director in charge of the Risk Management function. Whereas the Integrated Risk Management Work Unit can escalates issues up to the Integrated Risk Management Committee or Director in charge of the Integrated Risk Management function.

THE ENTERPRISE RISK MANAGEMENT (ERM) DIVISION AND OPERATIONAL RISK MANAGEMENT (ORM)

The Enterprise Risk Management (ERM) Division and Operational Risk Management (ORM) Division at BNI act as the Risk Management Work Unit (SKMR) and Integrated Risk Management Work Unit which are under and directly responsible to the Director of Risk Management who oversees the Risk Management function and Integrated Risk Management. Apart from the ERM Division, BNI has also established an Operational Risk Management (ORM) Division which plays the role of SKMR and is directly responsible to the Risk Management Director.

RISK MANAGEMENT DIVISION DUTIES AND RESPONSIBILITIES

As a Risk Management Work Unit (SKMR) and Integrated Risk Management Work Unit (SKMRT), the Enterprise Risk Management Division has the following functions:

1. Risk Management Work Unit
 - a. Monitoring the implementation of risk management strategies that have been approved by the Board of Directors;
 - b. Conduct regular reviews of the risk management process;
 - c. Prepare proposed bank risk management strategies and policies;
 - d. Monitor the overall risk position (composite), per type of risk, per type of functional activity and carry out stress testing;
 - e. Develop and evaluate the accuracy of models used to measure risk;
 - f. Review proposed new products and activities from the risk aspect;
 - g. Provide recommendations to operational work units (risk taking units) according to their authority;
 - h. Evaluate the independence and effectiveness of the bank's risk management infrastructure on a regular basis;
 - i. Supervise the implementation of risk management, including through the implementation of an integrated risk control system and the determination of risk exposure limits;
 - j. Prepare and submit risk reports periodically to the Board of Directors through the Director in charge of the risk management function;
 - k. Independent from the risk taking unit in carrying out risk management oversight functions. The supervisory function aims to ensure that the bank's risks and portfolio are managed well, including by establishing risk parameters and limits;
2. Integrated Risk Management Work Unit
 - a. Providing input to the Main Entity's Board of Directors, including in the preparation of Integrated Risk Management policies;
 - b. Monitor the implementation of Integrated Risk Management policies including developing procedures and tools for identifying, measuring, monitoring and controlling risks;
 - c. Monitoring risks at the BNI Financial Conglomerate based on the results of the assessment:
 - Risk Profile of each Financial Services Institution (LJK) in the Financial Conglomeration;
 - Risk Level of each risk in an integrated manner;
 - Integrated Risk Profile.
 - Leading Risk Indicator;
 - Integrated Risk Appetite;
 - Integrated Risk Limit;
 - Integrated Minimum Capital Requirement (KMMM).
 - d. Prepare proposals for establishing an integrated Risk Appetite Statement;
 - e. Carrying out stress testing;
 - f. Carrying out regular reviews to ensure the adequacy of the implementation of Integrated Risk Management and the implementation of Risk Management in each LJK member of the Financial Conglomerate;
 - g. Reviewing proposed new business lines that are strategic in nature and have a significant impact on Financial Conglomeration Risk exposure;
 - h. Provide information to the Integrated Risk Management Committee regarding matters that need to be followed up from the results of the evaluation of the implementation of Integrated Risk Management;
 - i. Providing input to the Integrated Risk Management Committee in the preparation and improvement of Integrated Risk Management policies;
 - j. Prepare and submit regular Integrated Risk profile reports to the Director of the Main Entity who is in charge of the Integrated Risk Management function and to the Integrated Risk Management Committee.

RISK MANAGEMENT CERTIFICATION

Up until December 31 2023, risk management certification was implemented to increase professionalism, performance, develop personal potential and to support the risk management duties. The certification carried out was as follows:

Certification Level	Position	Number of Employees
1	Assistant	2
	Assistant Manager	552
	Manager	80
	Assistant Vice President	8
2	Manager	74
	Assistant Vice President	3
3	Assistant Vice President	14
4	Assistant Vice President	1
	Vice President	33
	Senior Vice President	2

RISK MANAGEMENT SYSTEM

REALIZATION OF TARGETS AND STRATEGIC INITIATIVES FOR RISK MANAGEMENT IMPLEMENTATION IN 2023

Throughout 2023 BNI has set a number of strategic targets and initiatives for implementing risk management as follows:

a. Credit Risk

1. Conduct a review of the 2023 Credit Risk Appetite;
 - i) Calculation of Risk Weighted Assets (RWA) for Credit Risk in 2023.
 - ii) Calculating Credit Risk RWA using the Standard method according to SEOJK No.42/SEOJK.03/2016;
 - iii) Conduct trial calculations for BNI Credit Risk ATMR in accordance with SEOJK No.24/SEOJK.03/2021 for the position at the end of December 2022;
 - iv) Implementation of Credit Risk RWA calculations using the Standard method in accordance with SEOJK No.24/SEOJK.03/2021 from the position of the reporting month January 2023;

2. Conduct BNI Credit Risk RWA Calculation Analysis.
3. Prepare quantitative disclosures of Credit Risk exposure in 2023;
4. Carry out credit risk stress testing in 2023;
5. Carry out Credit Risk analysis/assessment on new/existing Bank products, activities and transactions;
6. Reviewing the parameters, measurement/methodology of the 2023 Credit Risk Profile;
7. Support updating the BNI Recovery Plan document for 2023/2024;
8. Prepare a review document for Credit Risk Management Procedures for 2023;
9. Conduct a review of BNI's 2023 Loan Exposure Limit (LEL);
10. Reviewing the 2023 Credit Risk Premium (CRP) calculation;
11. Conduct loan portfolio analysis/study including study of 25 core debtors and Non-Performing Loan (NPL) analysis;
12. Calculating and reporting BNI's credit quality, including restructuring credit, to regulators;
13. Monitoring available loan space periodically;
14. Preparing Unsecured and Secured LGD Models for IFRS 9 calculations;
15. Reviewing financial ratio standards per industry for 2023;
16. Prepare a review of the Industry Risk Rating (IRR) for 2023;
17. Carrying out risk analysis/studies in the economic sector;
18. Prepare a review of the 2023 Industry Risk Appetite for the Corporate segment, Enterprise & Commercial segment;
19. Prepare Risk Acceptance Criteria per Economic Sector for the Corporate segment, Enterprise & Commercial segment, Retail segment, Overseas Offices, Non-Financial Institutions;
20. Implementing the Internal Rating System (IRS) and Financial Institution (FI)/Bank as well as monitoring the implementation of the rating system in the Corporate segment, Enterprise & Commercial segment, Retail segment, and reviewing the use of external ratings;
21. Developing the IRB model and improving the debtor rating system in the Corporate segment, Enterprise & Commercial segment, Retail segment
22. Monitoring the Early Warning System (EWS) system in the corporate segment for public companies;
23. Develop, review and/or calibrate credit scoring (application/ behavior/ collection) and other risk modeling through the use of internal (customer level) and external data for Consumer, Mass Retail and Retail segment Credit Products up to IDR 10 Billion;
24. Developing scorecard models for consumer products (Credit Cards and BNI Griya) as well as KUR products with ensemble methods that combine machine learning models;
25. Implementation (piloting/full implementation) of application/behavior/collection scorecard for consumer credit products, mass retail (e.g. BNI Wirausaha and KUR) and Retail segment up to Rp. 10 billion using a scoring system on the loan application system/Integrated Decision Automated System (IDEAS);
26. Enhance IDEAS through adding internal data, external data and integration of surrounding systems;
27. Developing a Governance Scorecard related to monitoring and reviewing scoring and modeling for consumer and mass retail credit products (e.g. BNI Wirausaha and KUR) and the Retail segment that uses a scoring system;
28. Company profiling and prioritization for BNI Fleksi marketing.
29. Prepare analytical reports for consumer and retail portfolios;
30. Carrying out external credit scoring backtesting as well as assistance in determining Risk Acceptance Criteria (RAC) and mitigating credit risks related to plans for collaboration with Bank partners as providers of technology-based financial services;
31. Conduct studies related to financial ratio alerts per economic sector for KUR products.
32. Carrying out the rerating process for debtors in the Corporate segment, Enterprise & Commercial segment for the formation of CKPN;
33. Prepare analytical reports for consumer and retail portfolios;
34. Supporting the end-to-end Credit Processing development process by assisting with the document preparation process, Proof of Concept (POC) and User Acceptance Test (UAT) Loan Management System (LMS);
35. Carrying out joint development of Single Integrated Monitoring model for the Corporate segment, Enterprise segment & Commercial of Retail segment;
36. Carrying out credit risk assessments, backtesting external credit scoring as well as assistance in determining Risk Acceptance Criteria (RAC) and mitigating credit risks related to cooperation plans with Bank partners as providers of technology-based financial services;
37. Implementation of the Credit Card Behavior Scorecard to support Customer Management Programs such as Increase Limit Program (CLIP), Shadow Limit, LOP and Win Back;
38. Active support in implementing the Digital Loan Program through eFORM (Credit Card), KUR (BNI Move) and Mbanking (BNI Fleksi) which are integrated with IDEAS;
39. Calibrate and update Control Testing (CT) for the Enterprise & Commercial segment;
40. Become a risk advisor for the development and implementation of the BNI Internal Credit Risk Model through the process of understanding, evaluating, replicating and recommending all strategic methodology or model developments.

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

41. Validating the methodology for the Application, Behavior and Collection Credit Scorecard of credit products and the BNI Rating Model in order to support the bank's business targets and fulfill regulatory requirements.
42. Carrying out first validation for the Credit Risk Stress Test at the Bottom up Stress Test and Recovery Plan (RP) to ensure the suitability of the calculations is able to provide an overview of the Bank's resilience in extreme conditions;
43. Carrying out advisory models, first validation and backtesting of Expected Credit Loss (ECL) calculations using International Financial Reporting Standards (IFRS 9 / PSAK 71) along with the ECL forming components (PD/LGD/EAD).

b. Market Risk

1. Reviewing and developing Market Risk Management Strategy and Framework;
2. Reviewing and developing Risk Appetite and Risk Tolerance for Market Risk in 2023;
3. Review and develop Market Risk Management Policies, Procedures and Methodologies for both the Banking Book and Trading Book;
4. Reviewing policy documents, procedures, methodology and IRRBB (Interest Rate Risk In Banking Book) reporting for BNI Individual and Consolidated;
5. Developing and reviewing Market Risk models/ methodologies which include:
 - i) Market Risk Profile Parameters;
 - ii) Market Risk Stress Testing;
 - iii) Financial Instrument Valuation;
 - iv) Risk Weighted Assets (RWA) Market Risk.
6. Prepare qualitative disclosures of Market Risk related to applicable Internal and External Policies;
7. Carrying out consultation (advisory) functions regarding Market Risk policies;
8. Developing, reviewing and proposing market risk limits for the BNI portfolio, which includes:
 - i) Market Risk Limit (VaR, Budget Loss, Stress VaR);
 - ii) Review EWS Forex parameters;
 - iii) Review EWS parameters for Securities;
 - iv) Review Off Market Price parameters;
 - v) Review JIBOR Quotation Fairness parameters;
 - vi) Review the IRRBB Modeling results.
9. Vasicek Remodeling of Treasury instruments for the purposes of IFRS 9;
10. Monitoring and controlling treasury business risks (market risk, credit risk, operational risk and compliance risk);
11. Monitoring and controlling treasury product & business performance at the Head Office and Overseas Branch Offices (KCLN);
12. Monitoring and analyzing the accuracy of reports and the fairness of profit and loss reports;
13. Carrying out measurements, monitoring and analysis of securities portfolios regarding holding periods & significance limits;
14. Carrying out preparation and analysis of risk measurement and monitoring of securities purchases;
15. Monitoring and analyzing the realization of Treasury and KLN budget losses;
16. Monitoring the transaction authority/deal size of Treasury and KLN dealers;
17. Preparing studies and providing input on the preparation of treasury business operational policies and strategies;
18. Carrying out advisory functions in implementing risk management in treasury and PSF portfolios.
19. Manage market risk monitoring systems/ applications;
20. Developing, compiling and analyzing Market Risk monitoring using internal models (value at risk/VaR) on Treasury and KLN portfolios;
21. Evaluate the calculation of BNI's Interest Rate Risk in Banking Book (IRRBB) individually, and compile and analyze the development of BNI's IRRBB on a consolidated basis;
22. Carry out calculations and analyze the adequacy of BNI Individual and Consolidated market risk capital using the Standardized Model, namely Risk Weighted Assets (RWA) Market Risk on a regular basis;
23. Carrying out backtesting on Value at Risk (VaR);
24. Validate the Market Risk model;
25. Developing, compiling and analyzing exchange rate and interest rate stress testing calculations (market risk stress testing) in accordance with Regulator requests and internal needs to provide an overview of the Bank's resilience in conditions of extreme interest rate and exchange rate movements;
26. Prepare a scenario analysis and analyze the results of the scenario analysis and submit it to Management in the form of a scenario analysis of the impact of changes in BNI's conditions in the Recovery Plan document;
27. Monitoring, calculating and compiling individual market risk profiles and providing advice on the preparation of risk profiles for Subsidiary on a regular basis;
28. Develop, compile and analyze market risk disclosures related to quantitative monitoring based on BNI's market risk development monitoring activities.
29. Carry out Market Risk analysis/assessment on the Bank's new/existing products, activities and transactions and prepare risk mitigation proposals and submit them to the relevant units;
30. Validating and backtesting the VaR/sVaR model to ensure the VaR model is able to estimate potential losses that may occur in the Head Office and Foreign Office portfolios;

31. Validate the Interest Rate Risk in Banking Book (IRRBB) calculation to test the feasibility level of the model.

c. Liquidity Risk

1. Prepare review documents for Liquidity Risk Management Policies and Procedures;
2. Conduct limit reviews and develop Liquidity Risk Management Policies, Procedures and methodologies, which include:
 - i) BNI Wide and Regional Rupiah and Foreign Currency cash ceilings;
 - ii) Safety Level Limits for both Rupiah and Foreign Currency;
 - iii) Maturity Profile Limits in both Rupiah and Foreign Currency;
 - iv) Early Warning Indicators for both Rupiah and Foreign Currency.
3. Reviewing and developing Policies, Procedures and methodologies for Domestic and Overseas Branch Office Liquidity Risk Management;
4. Prepare individual and consolidated BNI policy, procedure, methodology and Liquidity Coverage Ratio (LCR) reporting documents;
5. Prepare individual and consolidated BNI policy, procedure, methodology and Net Stable Funding Ratio (NSFR) reporting documents;
6. Monitoring and analyzing cash management per region;
7. Prepare quantitative disclosures of Liquidity Risk exposure;
8. Carrying out Liquidity Risk stress testing according to schedule (business as usual), monitoring and analyzing the development of incidental liquidity risk stress testing parameters and recovery plan scenario analysis;
9. Carrying out Liquidity Risk analysis/assessment on new/existing Bank products, activities and transactions;
10. Reviewing Liquidity Risk Appetite Risk;
11. Review the parameters and measurements of the Liquidity Risk Profile;
12. Monitor liquidity periodically;
13. Prepare the 2023/2024 BNI Recovery Plan document;
14. Monitor Pension Fund Liquidity.

d. Operational Risk

1. Prepare, evaluate and submit proposals for determining Operational Risk Appetite and Risk Tolerance in 2023;
2. Prepare, evaluate and submit proposed reviews of Procedures and Technical Instructions for Operational Risk Management including the duties and responsibilities of SORX and Business Continuity Management (BCM);
3. Carry out calculations and validation of Operational Risk Weighted Assets (RWA) using the Standard Approach method in accordance with SEOJK No.6/SEOJK.03/2020 dated 29 April 2020;

4. Carry out analysis and assessment of Operational Risk on new/modified Bank products, activities and transactions;
5. Manage, implement, evaluate and develop Operational Risk and Business Continuity Management (BCM) tools;
6. Manage operational risk management processes, including the adequacy of operational risk identification, measurement, monitoring and control processes including Business Continuity Management (BCM).

e. Legal Risk

1. Reviewing Legal Policy
2. Reviewing Legal Risk Management Procedures
3. Carrying out legal analysis/studies in the form of providing written and verbal advice
4. Carrying out legal counseling/training;
5. Carrying out legal reviews of non-standard agreements using the scoring system calculation method;
6. Provide assistance to business units related to business activities;
7. Handling and resolving legal cases;
8. Supervise case handling;
9. Carry out Legal Risk analysis/assessment on new/existing Bank products, activities and transactions;
10. Reviewing the parameters and measurements of the Legal Risk Profile;
11. Carrying out legal reviews and following the Credit Committee on credit proposals decided by the Board of Directors

f. Reputation Risk

1. Review Reputation Risk Management Procedures;
2. Submitting answers/responses to the mass media regarding customer complaints/complaints against BNI;
3. Maintain BNI's reputation and image towards all stakeholders;
4. Carry out Reputation Risk analysis/assessment on the Bank's new/existing products, activities and transactions;
5. Reviewing the parameters and measurements of the Reputation Risk Profile.

g. Strategic Risk

1. Reviewing Strategic Risk Management Procedures;
2. Sharpen long-term strategies and targets in the 2022-2023 Corporate Plan which focuses on digital-based business development;
3. Prepare short-term plans in the Directors' General Policy (KUD) by considering macroeconomic conditions and industrial competition, as well as competitive assessment of peers;
4. Prepare medium-term plans in the Bank Business Plan (RBB) by strengthening unit strategy alignment in an effort to achieve corporate strategies and targets;

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

5. Conduct socialization of strategies and targets that have been set in the KUD and RBB to all Divisions/Units/Units/Regions;
6. Carry out continuous organizational improvements, in particular by strengthening branch and regional offices, structuring business support functions, and reviewing business processes related to digital business models;
7. Sharpening information and reviews regarding world, national, regional economic and business conditions and the latest business potential of subsidiary to broaden horizons and assist in strategic decision making;
8. Prepare studies related to BNI's priority sectors (including Industry Overview, industry characteristics, Key Success Factors & Key Risk Factors, industrial developments studied, BNI's financing portfolio and lessons learned regarding this financing, as well as the Industrial Outlook);
9. Evaluate and monitor the realization of the achievement of strategies and targets set in the KUD, RBB and Business Plan Unit;
10. Reviewing and monitoring new products and activities, especially related to digital products and activities;
11. Carrying out Strategic Risk assessments on new/existing Bank products, activities and transactions;
12. Reviewing the parameters and measurements of the Strategic Risk Profile.

h. Compliance Risk

1. Reviewing Compliance Work Procedures;
2. Reviewing Compliance Risk Management Procedures;
3. Ensure that policies, provisions, systems and procedures as well as business activities carried out by the Bank are in accordance with regulatory provisions and applicable laws and regulations;
4. Monitor and maintain the Bank's compliance with commitments to Bank Indonesia, the Financial Services Authority and other Authorities;
5. Develop and improve compliance tools/systems and communication media (Compliance Forum);
6. Implement and evaluate compliance index;
7. Carry out Compliance Risk assessments on new/existing Bank products, activities and transactions;
8. Reviewing the parameters and measurements of the Compliance Risk Profile;
9. Manage compliance risks;
10. Gratification Control and Anti-Bribery;
11. Monitor compliance functions in Subsidiaries and Overseas Offices.

i. Risk Integration

1. Reviewing Risk Management Policies: General Risk Management Policy (KUMR) and General Internal Control System Policy (KUSPI);
2. Reviewing Risk Integration Procedures in the Risk Culture Chapter;
3. Carry out analysis and assessment of BNI Health Levels individually;
4. Conduct analysis and assessment of BNI's Risk Profile and provide suggestions and recommendations for improvement;
5. Calculating BNI's Minimum Capital Requirement (KPMR) according to the Risk Profile;
6. Analyze 8 (eight) types of risk in Internal Risk Analysis (IRA);
7. Optimizing the preparation of risk strategies and Risk Appetite which are in line with business goals and strategies;
8. Preparation of BNI Risk management implementation documents in the Bank Business Plan;
9. Monitoring Risk Appetite and Risk Tolerance;
10. Preparing disclosures regarding Bank Risk Management Implementation;
11. Carry out risk analysis/assessment on the Bank's new/existing products, activities and transactions;
12. Prepare the 2023/2024 Recovery Plan Document;
13. Reviewing the company's Recovery Plan guidelines;
14. Carrying out analysis and monitoring of the Threshold Recovery Plan;
15. Improving risk culture, coordinating with the culture specialist group;
16. Reviewing the parameters and methodology for measuring the BNI Risk Profile;
17. Developing Branch Level Risk Profile initiatives (including calculation methodology, parameters and implementation);
18. Prepare Risk Management Implementation and Monitoring Reports to the Ministry of BUMN;
19. Compile Risk Data for Draft Company Work Plan and Budget (RKAP) to the Ministry of BUMN;
20. Prepare a follow-up to the resolvability test of the 2022 BNI Resolution Plan document.

j. Integrated Risks of BNI Financial Conglomerate

1. Review the Integrated Risk Management and Integrated Capital (KUMRT) Policy
2. Review and develop procedures for implementing Integrated Risk Management
3. Review the 2023 Integrated Risk Appetite Statement and Integrated Risk Limits
4. Conduct Integrated Risk Appetite monitoring analysis
5. Conduct Integrated Risk Limit monitoring analysis
6. Carry out analysis and assessment of Bank Health Levels on a consolidated basis

7. Carry out analysis and assessment of BNI's Risk Profile in a consolidated and integrated manner and provide suggestions and recommendations for improvement
8. Calculating BNI's Minimum Capital Requirements (KPMM) in a consolidated and integrated manner
9. Analyzing and monitoring the main risks of all LJK members of the BNI Financial Conglomerate through the Leading Risk Indicator (LRI)
10. Prepare monitoring and review documents for the implementation of integrated risk management in the BNI Financial Conglomerate
11. Ensure that all Financial Services Institutions/ Subsidiary have policies and procedures related to the implementation of risk management
12. Provide guidance and input to Subsidiary in implementing Risk Management
13. Organizing Integrated Risk Management Committee (KMRT) meetings and providing input to KMRT in the context of preparing recommendations for policies, strategies and Integrated Risk Management frameworks
14. Carrying out integrated stress testing
15. Prepare a gap analysis of the risk management organs of each subsidiary in accordance with BUMN Ministerial Regulation No. PER-2/MBU/09/2023;
16. Prepare a follow-up to the results of the integrated risk culture survey in 2023.

INTEGRATED RISK MANAGEMENT GOVERNANCE

In general, the scope of integrated risk management arrangements in accordance with the OJK Regulation No.17/POJK.03/2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates and the OJK Circular Letter No. 14/SEOJK.03/2015 include:

1. The Financial Conglomerate (KK) must implement Integrated Risk Management.
2. The Financial Conglomerate's Financial Services Institutions (FSI) are as follows:
 - a. Bank;
 - b. Insurance/Reinsurance Companies;
 - c. Securities Companies;
 - d. Financing Companies
3. The Financial Conglomerate must have a Main Entity. In the event that the Financial Conglomerate structure consists of a parent FSI and subsidiary FSI, the Main Entity is the parent FSI.

In carrying out Integrated Risk Management Governance, apart from complying with the Financial Services Authority Regulations above, BNI is also subject to the SOE Ministry Regulation No. PER-2/MBU/03/2023 where BNI meets the characteristics of a Conglomerate SOE with Systemic risk classification A.

BNI BUSINESS GROUP STRUCTURE

1. BNI Legal Entity

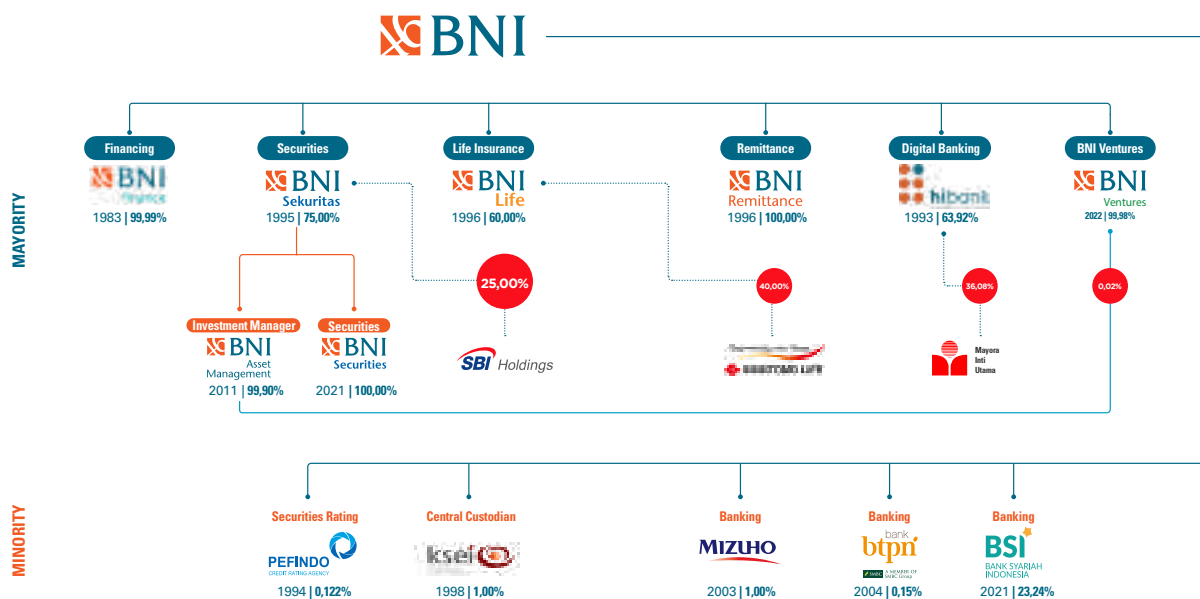

Based on the composition of share ownership, 60% BNI shares are owned by the Government of the Republic of Indonesia, while the remaining 40% are owned by the public, including individual, institutional, domestic and foreign shareholders. Ownership of Indonesian Government is represented by SOE, while foreign public ownership is through foreign institutions. For domestic public ownership, including through mutual funds, pension funds, foundations, companies, insurance, other domestic institutions and ownership by individuals
2. Ultimate Shareholders

The majority ownership of BNI shares is the SOE Ministry as the representative of the Indonesian Government at the General Meeting of Shareholders with ownership of 60%.
3. Related Companies (Sister Company)

Based on article 4 POJK No. 17/POJK.03/2014 dated 18 November 2014, related companies (sister companies) are several Financial Services Institutions (LJK) that are institutionally and/or legally separate but owned and/or controlled by the same controlling shareholder. The main controlling shareholder of BNI is the Government of the Republic of Indonesia which is also the majority owner of other state-owned companies operating in the Financial Services Institutions industry. However, based on the POJK, relationships between FSI that are owned and controlled directly by the Central Government of the Republic of Indonesia are excluded from the definition of Financial Conglomeration, so that Himbara banks are not BNI sister companies
4. Subsidiaries

BNI has capital placements in 5 (five) subsidiaries with majority ownership and as controlling entities, and 6 (six) financial services institutions with minority ownership and not as controlling entities as well as 2 (two) subsidiaries.

BNI Business Group Structure

Notes:

1. In 2022, BNI officially acquired Bank Mayora as a new bank subsidiary and established a new subsidiary, namely BNI Ventures.
2. Until now, BNI does not have a joint venture company or Special Purpose Vehicle (SPV).

In accordance with POJK No. 17/POJK.03/2014 concerning the Implementation of Integrated Risk Management for Financial Conglomerates (KK), Financial Services Institutions (LJK) included in the KK include bank LJK types, insurance and reinsurance companies, securities companies and/or finance companies, including subsidiaries.

The structure of the BNI Financial Conglomeration is determined considering the conformity of the Subsidiary Entity's type of business with OJK provisions and considering the significance of BNI's participation in each LJK Subsidiary that is a member of the BNI KK. The structure of the BNI Financial Conglomeration consists of:

1. Main Entity: PT Bank Negara Indonesia Persero Tbk.

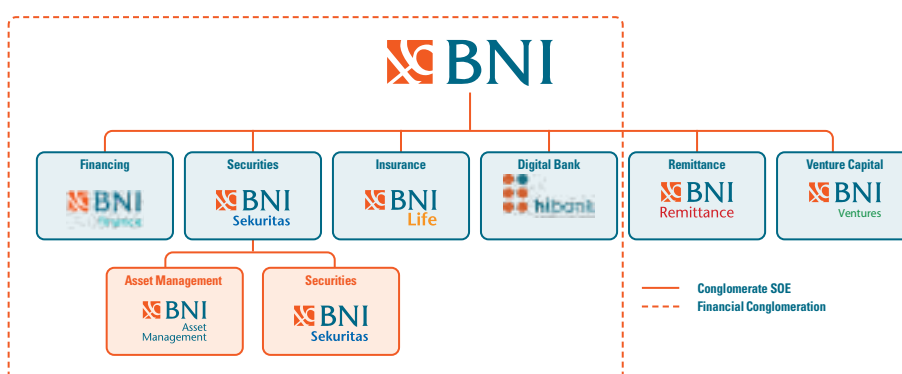

2. LJK member of the Financial Conglomeration:
 - a. PT BNI Multifinance
 - b. PT BNI Sekuritas
 - c. PT BNI Life Insurance
 - d. PT BNI Asset Management
 - e. BNI Securities Pte Ltd
 - f. PT Bank Hibank Indonesia

Based on the composition of BNI's share ownership in LJK members of the BNI KK as of 31 December 2023, BNI's ownership in each LJK member of the BNI KK, namely:

1. BNI Multifinance 99.99%
2. BNI Sekuritas 75.00%
3. BNI Life 60.00%
4. BNI Asset Management 99.90%
5. BNI Securities Pte Ltd 100.00%
6. Bank Hibank Indonesia 63.92%

The following is the BNI Financial Conglomeration Structure:

BNI Financial Conglomeration Structure:

In accordance with BUMN Ministerial Regulation No. PER-2/MBU/03/2023, the obligation to fulfill risk management organs is adjusted to the category and classification of BUMN and BUMN Subsidiaries with the provisions

Risk Management Organs	Systemic A	Systemic B	Significant	Neutral
Board of Commissioners/Supervisory Board	✓	✓	✓	✓
Board of Directors	✓	✓	✓	✓
Audit Committee	✓	✓	✓	✓
Risk Monitoring Committee	✓	✓	✓	Concurrently Audit Committee
Integrated Governance Committee	✓	Concurrently KPR	Concurrently KPR	
Director in charge of Risk Management	✓	✓	Concurrently Director in charge of Financial Management	Concurrently Director in charge of Financial Management
Director in charge of Financial Management	✓	✓	✓	✓
SPI (Internal Audit Function)	✓	✓	✓	✓

As a Conglomerate BUMN, BNI and Subsidiaries have fulfilled the obligation to fulfill the risk management organs required by KBUMN based on the Risk Classification of each Company with the following details:

Risk Management Organs	BNI (Systemic A)	BNIS (Systemic B)	BNIAM (Neutral)	BNIMF (Neutral)	BNIL (Neutral)	HIBANK (Neutral)	BSPL (Neutral)	BRL (Neutral)	BNV (Neutral)
1 Board of Commissioners/Supervisory Board	✓	✓	✓	✓	✓	✓	✓	✓	✓
2 Board of Directors	✓	✓	✓	✓	✓	✓	✓	✓	✓

4 Risk Monitoring Committee**	✓	✓	✓	✓	✓	✓	✓	✓	✓
5 Integrated Governance Committee	✓	Independent Committee/Sharia Supervisory Board (BNIL) as member of BNI KTKT							
6 Director in charge of Risk Management**	✓	✓	✓	✓	✓	✓	✓	✓	✓
7 Director in charge of Financial Management	✓	✓	✓	✓	✓	✓	✓	✓	✓
8 SPI (Internal Audit Function)	✓	✓	✓	✓	✓	✓	✓	✓	✓

In implementing Integrated Risk Management, the BNI Financial Conglomerate has a joint commitment to carry out the duties and responsibilities of each LJK as outlined in the Corporate Charter which has been approved and signed by the President Director/President Director of all LJK Members of the BNI Financial Conglomerate.

Financial Conglomerates are required to implement effective Integrated Risk Management, covering 4 (four) pillars, namely:

1. Supervision of the Main Entity's Board of Directors and Board of Commissioners;
2. Adequacy of Integrated Risk Management policies, procedures and limits;
3. Adequacy of the integrated risk identification, measurement, monitoring, control processes and the Integrated Risk Management Information System; And
4. Comprehensive internal control system for the implementation of Integrated Risk Management.

In implementing Integrated Risk Management, BNI as the Main Entity has done the following:

1. Pillar I
supervision of the Main Entity's Board of Directors and Board of Commissioners, namely:
 - a. Forming the BNI Financial Conglomeration Structure;
 - b. Appoint a Director who oversees the Integrated Risk Management function;
 - c. Establish an Integrated Risk Management Committee and an Integrated Risk Management Work Unit;
 - d. Prepare a Corporate Charter which has been signed by the President Director / President Director of all LJK Members of the BNI Financial Conglomerate;
 - e. Implement an Integrated Risk Management Committee (KMRT) at least 2 (two) times a year;
 - f. The Board of Directors prepares a General Policy for Integrated Risk Management (KUMRT) and an Integrated Capital Policy and carries out a review at least 1 (one) time in 1 (one) year;
 - g. The Board of Commissioners gives approval to the General Policy for Integrated Risk Management (KUMRT) and Integrated Capital Policy and carries out evaluations at least 1 (one) time in 1 (one) year; as well as
 - h. Determine integrated risk appetite and risk tolerance in the BNI Financial Conglomeration.
2. Pillar II
Adequacy of Integrated Risk Management policies, procedures and limits, namely:
 - a. Prepare and review the General Policy for Integrated Risk Management (KUMRT) and Integrated Capital Management;
 - b. Develop Integrated Risk Management Procedures including Intra-group Transaction Risk Management Procedures;
 - c. Develop Integrated Risk Profile Assessment Procedures;
 - d. Develop Integrated Capital Management Procedures; as well as
 - e. Establish integrated risk limits and escalation mechanisms for exceeding limits.

3. Pillar III
Adequacy of integrated risk identification, measurement, monitoring and control processes and integrated risk management information systems, namely:
 - a. Determine the Integrated Risk Profile methodology and carry out assessments every semester and report to the Financial Services Authority;
 - b. Determine the methodology for calculating the Integrated Minimum Capital Requirement (KPMM), carry out calculations every semester and report to the Financial Services Authority;
 - c. Determine integrated risk appetite parameters and methodology, carry out quarterly monitoring and report to the Director in charge of Integrated Risk Management;
 - d. Determine the parameters and methodology of Integrated Risk Limits, carry out monitoring every quarter and report to the Director in charge of Integrated Risk Management;
 - e. Determine the parameters and methodology for the Leading Risk Indicator (LRI) assessment, carry out monthly monitoring and report to the Director in charge of Integrated Risk Management;
 - f. Carrying out integrated stress testing of exchange rate volatility and interest rates at the BNI Financial Conglomerate; as well as
 - g. Developing a technology-based Integrated Risk Management Information System.
4. Pillar IV
Comprehensive internal control system for the implementation of Integrated Risk Management, namely:
 - a. Continuously disseminate Integrated Risk Management to all LJK Members of the BNI Financial Conglomerate; And
 - b. Monitoring the implementation of Integrated Risk Management of all LJK members of the BNI Financial Conglomerate.

STATEMENT OF THE BOARD OF DIRECTORS AND/OR BOARD OF COMMISSIONERS REGARDING THE ADEQUACY OF RISK MANAGEMENT

Based on the results of reviews and discussions with Management, Risk Monitoring Committee, Integrated Governance Committee, Audit Committee, Independent Auditor, Internal Auditor and several related Divisions, the Board of Directors and Board of Commissioners assess that BNI's risk management has been adequate in managing risks as reflected in the results of the review. on the completeness and accuracy of risk identification, measurement, monitoring, control and reporting, as well as on the adequacy of the mitigation scenarios proposed by operational work units.

Legal Cases

In 2023, the Company is facing a number of legal cases in the form of civil cases accompanied by demands for payment/compensation against the company and criminal cases which have entered the trial process, both of which have been completed (with permanent legal force/inkracht), or are still in the process of being resolved. In detail, information regarding the cases faced by the Company is as follows:

No	Case Settlement Status	Total	
		Civil	Criminal
1	Case Settled (has permanent legal force/ inkracht)	98	4
2	Case In Settlement Process	280	4
Total		378	8

LEGAL CASES FACED BY THE COMPANY

Based on the table above, there are several important cases facing the company with the following details

IMPACT OF LEGAL PROBLEMS ON THE COMPANY

The Company's policies and Standard Operating Procedures have been designed to be adequate and prudent in protecting the Company's business interests. Thus, all of the above legal issues, both civil and criminal, do not have a significant financial impact on the Company. This is also reflected in the Company's Legal Risk Profile for the 2023 period which is consistently ranked as Low.

EFFORTS TO MINIMIZE LEGAL RISKS

The Company always minimizes legal risks for the Company in carrying out its business activities, as reflected in the following activities:

1. Strengthening procedures, policies, engagements, and handling legal issues for proper legal risk management to protect Company interests at the pre-transaction, transaction, and post-transaction stages in its business and/or operational activities.
2. Optimizing the legal function in providing legal reviews on the credit proposal process decided by the Credit Committee, in order to ensure the implementation of prudent credit transactions, especially from a legal aspect, improve credit quality, and support the achievement of predetermined business targets.
3. Optimizing the function of legal work units in the company, both at the Head Office and Regional Offices, to support the smooth running of business and operational activities of all organizations in the Company.
4. Consistently updating standard legal documentation, such as credit agreements and other accessory agreements, to anticipate the emergence of legal risks in the future due to the weakness of the agreement, to protect the company's legal interests.
5. Making the maximum effort to minimize legal risk in business units, including preventing fraud, by taking preventive actions, including increasing employee legal risk awareness by holding legal discussion forums, legal education, and organizing webinars or sharing sessions related to legal issues in all Company organizations.
6. Collaborating with bona fide external lawyers, senior advisors and State Attorneys (JPN) to optimize legal advice and legal assistance to protect Company legal interests.
7. Making efforts to improve employee competency in Company legal work units at the Head Office and Regional Offices in providing legal advice/reviews and handling cases, to create a professional, reliable, trusted and respected, and to support the direction of the company's transformation.

LEGAL CASES FACED BY THE BOARD OF DIRECTORS AND THE BOARD OF COMMISSIONERS

Throughout 2023, no current members of the Company's Board of Directors and Board of Commissioners were involved in legal cases, either civil or criminal, in connection with the Company's business activities.

IMPORTANT CASES FACED BY SUBSIDIARIES

Throughout 2023, the Subsidiary is facing several cases in the form of civil cases accompanied by demands for compensation against the Subsidiary and criminal cases that have entered the trial process, both those that have been completed (having permanent legal force/inkracht) and those that are still in the process of being resolved with details as follows:

Child entity	Lawsuit	Number of Cases

Administrative Sanctions

Throughout 2023, there were no administrative sanctions/sanctions that have a significant impact on business activities imposed on the Company, and there were no sanctions imposed on members of the Board of Commissioners and members of the Board of Directors, by the OJK and other authorities.

Taxation Governance

In implementing the management of tax obligations, monitoring and controlling taxes, BNI has established a comprehensive and structured process, such as:

1. An approach to tax is instilled in the company through the availability of Taxation Company Guidelines, in collaboration with tax application service providers to provide an application system for depositing and reporting taxes that is connected to the tax authority system on a host to host basis and increasing tax awareness through training and socialization facilities.
2. Identify, manage and monitor tax risks through continuous monitoring and reconciliation.

BNI as a corporate taxpayer is committed to fulfilling tax obligations in accordance with applicable regulations. Tax management at BNI is carried out under the supervision of the Finance Director.

The Finance Director periodically reviews BNI's tax strategy. BNI always complies with every tax regulation so that it is not subject to administrative sanctions, whether in the form of administrative fines, interest sanctions, increase sanctions, as well as criminal sanctions or deficiencies. In the 2015 tax year, there was 1 (one) tax problem faced by BNI, as disclosed in detail in the legal cases section, tax cases sub-section. However, this problem has no impact on the sanctions imposed by the relevant authorities on BNI.

As a taxpayer, BNI's biggest contribution as a taxpayer is to fulfilling corporate income tax obligations. On the other hand, BNI plays an active role in making deductions for each taxable object in carrying out its function as a tax cutter. BNI also submits tax obligation documents such as annual and monthly SPTs as well as obligation documents to regulatory agencies in a timely manner. Detailed information regarding BNI's fulfillment of tax obligations is disclosed in the discussion of Taxation and Non-Tax State Revenue (PNBP): BNI's Contribution to National Development, Management Analysis and Discussion Chapter on Company Performance, this Annual Report.

Apart from operating in Indonesia, BNI also operates abroad, namely New York (United States), London (England), Seoul (South Korea), Tokyo (Japan), Hong Kong and Singapore through the Foreign Office (KLN). Fulfillment of tax obligations in KLN is carried out by each KLN to the local tax jurisdiction.

Company

Code Of Ethics

BNI has a Code of Conduct as a form of commitment BNI in carrying out the compliance function and serves as a code of conduct for all BNI Hi-Movers. The Bank's Code of Ethics uses and applies the applicable basic principles that refer to the Bank's vision, mission, as well as BNI's main values while still paying attention to applicable internal and external regulations. This Code of Ethics is also the principle and basis that guides the relationship between BNI Hi-Movers and stakeholders in doing business. The Code of Ethics contains a system of values, business ethics, work ethics, commitment, and enforcement of BNI regulations in conducting business and other activities, as well as interactions with stakeholders.

Effective on December 1, 2010, the BNI Code of Ethics is the result of the revitalization of the previous Code of Conduct (2001). The BNI Code of Ethics is signed by all BNI Hi-Movers in the BNI Hi-Movers statement letter and must be obeyed and implemented by all BNI Hi-Movers (Board of Commissioners, Board of Directors, BNI Employees).

CODE OF ETHICS PRINCIPLES

The main principles in the BNI Code of Ethics consists of 14 items which in principle require all BNI Hi-Movers to:

1. Act professionally, by prioritizing the values of work culture of Beliefs and Core Values AKHLAK;
2. Become a role model and remind other subordinates, superiors, colleagues and work partners to implement the BNI Code of Ethics;
3. Maintain good relations with fellow BNI Hi-Movers;
4. Maintain bank secrecy and confidentiality of position;
5. Maintain job security;
6. Protect health, natural resources and the environment;
7. Record, report and administer work properly, honestly and accurately;
8. Prevent conflicts of interest that could harm the BNI's interests
9. Not give or receive gifts of any kind, directly or indirectly from any party, if related to their duties and responsibilities;
10. Act as a resource, as long as for the benefit of BNI;
11. Not be a member and donor of a political party;
12. Not disclose false information about BNI
13. Not use BNI assets for personal gain

14. Not misuse BNI's Corporate Identity for personal gain.

COMPLIANCE WITH THE CODE OF ETHICS

The Code of Ethics is BNI's commitment to comply with legal provisions and the highest ethical standards wherever BNI conducts its business/operational activities. In addition to complying with the prevailing laws and regulations, the management of the BNI must uphold ethical norms and values. The Code of Ethics applies to all employees of the Company, namely the Board of Commissioners, the Board of Directors and all BNI Hi-Movers. All BNI Hi-Movers have the awareness to implement good ethics that will enhance and strengthen the BNI reputation.

DISSEMINATION OF THE CODE OF ETHICS

In this case, BNI regularly socializes the Code of Ethics through BNI internal seminars/socialization, BNI internal media (Synergi Magazine and BNI Forum website), which can be accessed by all BNI Hi-Movers, plus sharing sessions through webinar series, BNI internal media (DigiHC, BNI Smarter , BNI CorpuTV, BNI Greeting, Sinergi Magazine and BNI Forum Website), which can also be accessed by all BNI Hi-Movers, Good Corporate Governance (GCG) training and Code of Ethics for BNI Hi-Movers for both new and old employees as well as coaching carried out by employee superiors. Violations of the BNI Code of Ethics will be subject to strict sanctions in accordance with applicable company regulations and policies at BNI.

IMPLEMENTATION AND ENFORCEMENT OF THE CODE OF ETHICS

BNI is committed to developing and implementing GCG principles in every activity at all levels or organizational structures from basic level to top management. Therefore, the implementation and enforcement of the BNI Code of Ethics as part of the implementation of GCG is always carried out through awareness and internalization programs. In this way, the existence of the BNI Code of Ethics can become a reference or guideline for behavior for all BNI Hi-Movers as part of efforts to achieve BNI's Vision and Mission. Enforcement of the BNI Code of Ethics is carried out by periodically monitoring

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

compliance with the BNI Code of Ethics and providing facilities for complaints regarding violations of the BNI Code of Ethics which are regulated separately in the violation reporting mechanism (Whistleblowing System). Every BNI Hi-Movers can report deviations from the BNI Code of Ethics where the identity of the reporter will be protected. Deviation reports must be accompanied by accurate data and/or evidence so that violations can be processed further. Any violation of the BNI Code of Ethics will be subject to sanctions in accordance with applicable policies.

TYPES AND FORMS OF SANCTIONS FOR VIOLATION OF THE CODE OF ETHICS

In the event that BNI Hi-Movers is proven to have violated the BNI Code of Ethics, they will be subject to sanctions according to the applicable policies as follows:

Principal Sanctions	Types And Forms of Violations
Warning Letter	Violations of rules, policies and procedures as well as obligations that do not result in losses. As a form of strengthening to prevent violations, the Guidance Letter is expanded in the form of a Preliminary Guidance Letter for violations that have not yet resulted in losses for BNI..
Reprimand Letter	Violations of rules, policies and procedures as well as obligations that cause non-material losses.
Final Warning Letter	Violations of policies and procedures as well as obligations that cause losses, both material and non-material.
Demotion	Violations of policies and procedures as well as obligations that result in material losses, but there is no fraud/fraud/fictitious/fabrication and/or gratification.
Termination of Employment	Violations of policies and procedures as well as obligations that cause material losses intentionally and contain elements of engineering/fraud/fictitious transactions.

CODE OF ETHICS VIOLATIONS TYPES AND TREND IN 2023

During 2023, there were 77 (seventy-seven) Code of Ethics violations as follows

Sanctions	2023	2022
Warning Letter	9	4
Reprimand Letter	2	1
Final Warning Letter	3	7
Demotion	3	3
Termination of Employment	60	73
Total	77	88

CORPORATE CULTURE

BNI as part of the State-Owned Enterprises (BUMN) places the core values "AKHLAK" as the main value consisting of Trustworthy, Competent, Harmonious, Loyal, Adaptive, Collaborative which has been proclaimed as a core cultural value that must be implemented by all BNI Hi-Movers in carrying out/carrying out daily tasks.

CORE VALUES

Trustworthy, Competent, Harmonious, Loyal, Adaptive, and Collaborative

CODE OF CONDUCT

1. Keeping promises and commitments;
2. Being responsible with the duties, decisions made, and actions taken;
3. Upholding moral and ethical values;
4. Improving self competence to respond to ever changing challenges;
5. Helping others to learn;
6. Accomplishing duties with highest quality;
7. Respecting everyone regardless of their background;
8. Enjoys helping others;
9. Building conducive work environment;
10. Maintaining the reputation of fellow employees, leaders, SOE, and the State;
11. Willing to sacrifice to achieve a greater goal;
12. Obeying the leader as long as not against the law and ethics;
13. Promptly adjusting oneself to be better;
14. Continuously making improvements;
15. Being proactive;
16. Providing opportunities for various parties to contribute;
17. Being open in working together to generate added values;
18. Mobilizing the use of various resources for common goals.

Functions

Long Term Compensation Policy

The Company has a long-term compensation policy that is given based on performance to management and employees. Long-term compensation is provided in the form of a Management Stock Ownership Program (MSOP) and an Employee Stock Ownership Program (ESOP).

MANAGEMENT SHARE OWNERSHIP PROGRAM

The long-term compensation policy for members of the Board of Directors and members of the Independent Board of Commissioners is provided in the context of implementing the principle of prudence in managing the Bank, mitigating excessive risk taking by decision makers, and implementing performance-based remuneration.

The long-term compensation policy is implemented based on Financial Services Authority Regulation No. 45/POJK.03/2015 concerning the Implementation of Governance in Providing Remuneration for Commercial Banks ("POJK 45"), which includes the application of Variable Remuneration.

Variable Remuneration provided by a Bank with the status of a public company (go public) must be in the form of shares issued by the Bank concerned amounting to a certain percentage of the Variable Remuneration. Meanwhile, variable remuneration in the form of shares for Independent Commissioners is converted and given in cash. Remuneration in the form of shares is given in the form of Company shares (share code: BBNI).

Variable remuneration given in the form of shares for members of the Board of Directors and non-independent members of the Board of Commissioners is given in the form of Deferred Tantiem. The implementation of the deferred Tantiem refers to the Regulation of the Minister of BUMN Number PER-3/MBU/03/2023 concerning Organs and Human Resources of State-Owned Enterprises ("Permen BUMN 3/2023").

In accordance with Article 107 of SOE Ministerial Regulation 3/2023, BUMN must defer Tantiem payments to the Directors and Board of Commissioners by a certain percentage determined by the Minister, a minimum of 10% (ten percent). The minimum deferred payment suspension period is 3 (three) years. Deferred Tantiem payments must be paid pro-rata according to the time period. SOE can postpone the payment of part or all of the deferred Tantiem (malus) or withdraw the cash Tantiem that has been paid (clawback) to the Board of Directors and Board of Commissioners under certain conditions determined by the Minister.

ELIGIBLE MANAGEMENT REQUIREMENTS

In accordance with SOE Ministerial Regulation 3/2023, the requirements for members of the Board of Directors and Board of Commissioners based on the GMS determination to receive Tantiem are:

1. The opinion issued by the auditor is Unqualified (WTP);
2. Realization of the lowest health level equal to BBB rating without taking into account burdens/benefits resulting from previous actions of the SOE Directors and/or outside the control of the SOE Directors;
3. The lowest KPI achievement is 80% (eighty percent) without taking into account those outside the control of the SOE Directors; And
4. The condition of the concerned SOE is no longer at a loss compared to the previous year for a SOE in a loss condition, or the SOE is not at a loss from before when it was in a profitable condition without taking into account things outside the control of the SOE Directors.

Apart from the implementation of the Deferred Tantiem, in 2023, members of the Board of Directors and Board of Commissioners are entitled to receive Long Term Incentives (LTI) for the 2023-2025 period. LTI is granted with the following conditions:

1. LTI is given in the form of Company shares for members of the Board of Directors and Non-Independent members of the Board of Commissioners, and in cash for Independent Commissioners;
2. LTI is awarded based on the achievement of agreed performance targets for the next 3 years; And
3. Income tax (PPH) on LTI is the recipient's expense and is not permitted to be charged as a Company expense.

EMPLOYEE SHARE OWNERSHIP PROGRAM

BNI has a Share Ownership Program for Employees, as per the decision of the General Meeting of Shareholders (GMS) on March 15, 2022 which has agreed to grant power and authority to implement the Share Ownership Program for Employees, whether sourced from treasury stock or other sources, to The Company's Board of Directors, while still paying attention to applicable laws and regulations.

The Stock Ownership Program for BNI Employees is called the Employee Stock Allocation (ESA) Program, which is a program that provides share allocation to employees who meet certain criteria and requirements as regulated in the Program Implementation Instructions. The ESA program objectives include:

1. Long term employee retention strategy;
2. Efforts to motivate employees to always provide their best performance;

3. Increasing employees' sense of belonging to the Bank.
4. As part of increasing employee risk awareness as reflected in eligibility and lock up periods

DISTRIBUTION OF SHARE EMPLOYEE STOCK ALLOCATION PROGRAM (ESA PROGRAM)

The allocation and vesting of shares in the Employee Stock Allocation (ESA) Program will be implemented on June 2, 2022, and subsequently as part of a long-term employee retention strategy, as well as efforts to motivate employees to improve their best performance in a sustainable manner, in the implementation of the Employee Stock Allocation (ESA) Program) a lock up period applies.

The lock up period is carried out according to the employee's position level. For the position of Assistant Vice President (AVP) and above for 3 (three) years, while for the position of Manager (MGR) and below for 1 (one) year. During the lock up period, participants receiving ESA Program shares are not permitted to carry out any activities on the shares to which they are entitled.

Furthermore, every year there will be an opening of the lock up period for the ESA Program shares, which is the date on which participants who receive shares are permitted to carry out any activities on the shares to which they have rights. For the purposes of opening the lock up period, participants receiving ESA Program shares must fulfill the criteria and requirements set out in the ESA Program Implementation Instructions.

The opening of the lock up period for the Manager (MGR) level and below will be carried out in one stage at once on June 02, 2023, while for the Assistant Vice President

(AVP) level and above it will be carried out in stages in 3 (three) implementation stages on June 02 2023, 2024 and 2025.

Requirements for employees who are entitled to receive the vesting allocation and opening of the lock up period for the Employee Stock Allocation (ESA) Program are as follows:

1. Permanent employees as of December 31, 2021, and still active at the time of vesting allocation and opening of the ESA Program lock up period;
2. Have a minimum service period of 1 (one) year at the time of granting the ESA Program vesting allocation;
3. Have a performance assessment and employee classification in accordance with the provisions when granting vesting allocations and opening the lock up period of the ESA Program;
4. Not currently undergoing administrative sanctions

Details of Employee Stock Allocation (ESA) Program Grant to Employees

Date of GMS	Date of Allocation and Vesting	Total Share Sheets	Price per Share	Opening Lockup Period
		47,938,100	IDR 8.850	June 02, 2023

On the date of the opening of lock up period stage 3 (three) in 2025, all shares allocated under the Employee Stock Allocation (ESA) Program will be fully allocated to the participants. participants.

SHARE DISTRIBUTION FOR EMPLOYEES THAT ARE MATERIAL RISK TAKERS (MRT)

Based on POJK No. 45/POJK.03/2015 concerning application of Governance when Providing Remuneration for Commercial Banks, it is stipulated that banks are required to determine parties who become Material RiskTakers (MRT), and at least meet the following criteria:

1. Board of Directors and/or other employees who due to

2. their duties and responsibilities make decisions that have a significant impact on the risk profile of the Bank; or
Board of Directors, Board of Commissioners and/or Employees who receive Variable Remuneration of a large value.

Bank Negara Indonesia (BNI) has applied the Governance for providing remuneration by determining employees who meet the criteria as Material RiskTaker (MRT), namely employees at the Senior Executive Vice President (SEVP) position in accordance with the Board of Directors Meeting Decision on December 20, 2016.

Banks are also required to defer the payment of variable remuneration to employees at the Senior Executive Vice President (SEVP) level as parties who are Material Risk Takers (MRT), namely at a certain percentage in accordance with the percentage for the Board of Directors. In the 2022 annual performance bonus payment for SEVP level employees which will be paid in 2023, 10% of the annual bonus will be given in the form of deferred company shares (Malus). These shares come from direct purchases on the market, with the purchase period starting August 8, 2023 to August 14, 2023.

Access To Company Information and Data

BNI strives to provide transparent information. To do so, BNI periodically updates information and provides easy access to information related to the Bank's activities and performance to stakeholders in order they know the condition of the Bank clearly, actual and factual. BNI also provides facilities that function as channels for information disclosure, through various media such as websites (in two languages), mass media, mailing lists, bulletins, meetings with analysts, the IDX official website etc. In this regard, the BNI's Investor Relations continuously builds the good image of the Bank through developing relationships with investors/analysts both interactively and by providing periodic information, especially concerning the Bank's performance.

Access to Company information and data related to corporate actions can be accessed through the Company's official website at <http://bni.co.id/>. Parties who need further information regarding corporate actions and Company data can contact via telephone at 021-5728387, Fax at 6221-5728053 or email to: ir@bni.co.id.

E-SINERGI 46

E-Sinerigi 46 is a special Internal Media for BNI Hi-Movers that can be accessed through mobile and web based apps, which acts as a means of sharing real-time information, experiences and knowledge. The E-Sinerigi 46 application can be downloaded via the Google Play Store and App Store by BNI Hi-Movers. The content contained in E-Sinerigi 46 is presented in written form and also in the form of photos and videos.

To encourage BNI Hi-Movers' active use of the application, E-Sinerigi presents a gamification program in the form of reward points, where every activity in the E-Sinerigi 46 application can earn points. The points collected can be redeemed or exchanged for: Phone Credit Purchases, Purchase of Data Packages, Purchases of vouchers or payment of PLN bills, Top Up Link Aja, Top Up Go Pay, and Top Up OVO. To increase access to information from work units, E-Sinerigi 46 managers also provide incentives for employees who contribute by sending news.

DISCLOSURE OF PUBLIC INFORMATION

BNI is active in improving public information disclosure services through a team of Information and Documentation Management Officers (PPID) to customers and the public by optimizing various communication channels while always prioritizing transparency and accountability in conveying information disclosure to the public as a step in implementing Good Corporate Governance (GCG).

BNI consistently provides easy access by building digital information service needs such as building awareness on websites, developing SOPs, financial literacy, empowering Agen46 to disseminate information, integrating service features, and updating services offline.

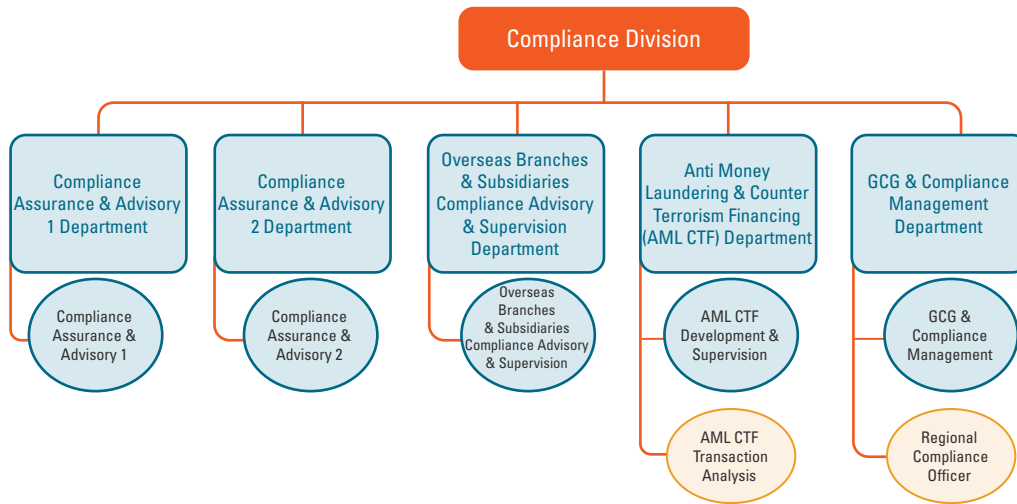

With all these achievements, BNI received the title "Informative" in the Public Information Disclosure Award (2023).

Implementation Of Anti-Money Laundering (Aml) Programs, Prevention Of Terrorism Financing (Ptf) And Prevention Of Funding For The Proliferation Of Weapons Of Mass Destruction

ORGANIZATIONAL STRUCTURE IN IMPLEMENTING APU PPT AND PPPSPM PROGRAM

To support the implementation of the APU PPT and PPPSPM program, the Compliance Division has been designated as a Special Work Unit (UKK) that responsible to increase APU PPT and PPPSPM Programs and Implementation in BNI. Compliance Division reports and directly liable to the Director of Human Capital and Compliance as the Director in charge of the compliance function at BNI. Regional Compliance Officers (RCO) in all Regional offices also implements the APU and PPT programs. The RCO have the function of supervising the implementation of APU PPT and PPPSPM Programs in all Branch Offices of each region, and ensuring that branch operational activities are in accordance with the implementation of APU PPT and PPPSPM program. BNI as the holding entity has been supervising the APU PPT and PTF Programs in its Subsidiaries continuously through the application of the 5 APU PPT and PPPSPM pillars. The APU PPT and PPPSPM organizational structure in 2023 can be seen below:

IMPLEMENTATION OF AML AND CFT PROGRAMS

BNI has implemented APU PPT and PPPSPM as an effort to prevent and minimize the use of banks as a means of money laundering and financing the proliferation of weapons of mass destruction. The APU PPT and PPPSPM programs implemented by BNI are through:

1. Bank Risk assessment ofTPPU andTCFT using a regular risk-based approach (RBA) that is periodically reviewed;
2. Active Supervision of the Board of Directors and the Board of Commissioners The active supervision of the Board of Directors and the Board of Commissioners is very necessary to create effective APU and PPT Programs since the role of the Board of Directors and the Board of Commissioners will affect the achievement level of the APU and PPT Programs Implementation Goal. The active supervision also applies to BNI wide network across all branches and subsidiaries under the same Financial Conglomerate. The forms of active supervision by the Board of Directors and Board of Commissioners includes:

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

- a. The approval by The Board of Directors on the designation of the Compliance Division as a Special Work Unit (UKK) that responsible for implementing the APU PPT and PPPSPM Programs;
 - b. The approval by Board of Directors and the Board of Commissioners for the APU PPT & PPPSPM;
 - c. Evaluate the Policies and Procedures for implementing the APU PPT and PPPSPM programs;
 - d. Periodic reports (monthly, quarterly and semi-annually) regarding reporting obligations and implementation of the APU PPT and PPPSPM Programs to the Board of Directors and Board of Commissioners;
 - e. Board of Directors approval of the Plan and Realization Report on Updating Customer Data;
 - f. Meeting of the Board of Directors and Board of Commissioners to discuss the implementation of the APU PPT and PPPSPM Programs.
3. There are Policies & Procedures prepared by the Compliance Division and periodically reviewed/updated/ improved in accordance with applicable regulations. To strengthen the implementation of the APU PPT and PPPSPM programs, procedures for each banking product and activity are also regulated in procedures for implementing APU PPT and PPPSPM, in order to identify and assess the risk of money laundering crimes and/or terrorist financing crimes for each product and activity. To ensure that the implementation of the APU PPT and PPPSPM programs is running as it should, supervision is carried out by the Compliance Division. Policies and procedures for implementing the APU PPT and PPPSPM programs include, among other things, regulating:
- a. Active supervision of the Board of Directors and Board of Commissioners;
 - b. Customer Due Diligence Procedures (CDD) and/or Enhanced Due Diligence (EDD) against Prospective Customers/Beneficial Owners (BO) and Walk in Customers (WIC), including ensuring the Potential Customers/Customers/Beneficial Owner (BO) and Walk in Customers (WIC) is out of the list of suspected terrorists and terrorist organizations (DTTOT) and/or the list of weapons proliferation of mass destruction (DPPSPM); and other watchlist lists (OFAC List, UN List);
 - c. The Implementation of the APU PPT and PPPSPM Programs based on a Risk-Based Approach;
 - d. Procedures for Customer Profile and Transactions Monitoring;
 - e. The implementation of Fund Transfer Procedures;
 - f. Administrating Customer Documents and Transactions;
 - g. The Implementation of APU PPT and PPPSPM Programs across Branches and Subsidiaries Networks under the same Financial Conglomerate;
 - h. Internal control; and
 - i. Human Capital and Training.
4. Effective internal control in and the APU PPT and PPPSPM implementation, carried out by:
- a. Having adequate APU and PPT policies and procedures as well as internal monitoring;
 - b. b) Having clear authorities and responsibilities for work units related to the APU PPT and PPPSPM programs, either through the first line of defense (risk taking units), second line of defense and third line of defense; and
 - c. Conducting inspections by the Internal Audit to ensure the APU PPT and PPPSPM Programs are effectively implemented.
 - d. Follow up on all internal and external audit results related to the implementation of APU PPT and PPPSPM in accordance with the specified time; And
 - e. Improving the quality of customer data and reporting analysis to regulators in accordance with regulations
5. Information Management System
- BNI has been developing information system technology continuously to optimize APU PPT and PPPSPM transaction monitoring program, including:
- a. Improving the systems and supporting applications for Anti Money Laundering Detection System, Filtering & Screening Terrorist (DTTOT List), PEP Screening Detection and Customer Due Diligence (CDD) Risk Scoring, as a batch or real time, in the BNI AML System. The BNI AML System is used to support a better Know Your Customer (KYC) Principle, particularly in detecting/monitoring customer transactions that have suspicious patterns on behavior and transaction for money laundering, and the financing of terrorism, and the financing of the proliferation of weapons of mass destruction.
 - b. Developing and improving the Suspect Account to Verify (SAV) system.
 - c. Developing a Walk in Customer application system.
 - d. Developing a Politically Exposed Person (PEP) data utilization PPAK application.
 - e. Developing a KYC on Board application to filter and screen prospective customers against the Terrorist Data/Terrorist List (DTTOT), the List of Proliferation of Weapons of Mass Destruction (PPSPM), PEP List, OFAC List, UN List and Fraudulent List.
 - f. Developing a internal application system to support the reporting obligations in accordance with the PPAK goAML reporting format and requirements.
 - g. Developing the goAML interface system to support the reporting obligations that have been adjusted to the GoAML provisions.
 - h. Developing PPAK's Suspected Terrorism Financing Information System (SIPENDAR);
 - i. Developing Filtering & Screening Terrorist (DTTOT List), PEP Screening Detection for digital account opening.

6. Human Capital and Training

BNI conducts training, socialization and reminder of the implementation of APU PPT and PPPSPM Programs to officials and/or for all employees continuously. The training methods are as follows:

- a. Training, both in person or virtually, including:
 - Electronic/Online base training, that is training through APU PPT and PPPSPM e-Learning on BNI Smarter, with a minimum passing grade, equipped with Pre Test and Post Test for all participants, Learning Videos, Webinars and Podcasts.
 - Face-to-face training, that is training provided to Prospective New Employees (ODP), certain divisions/units (including operational, IT, Custody, overseas business, Cross Border Correspondent Banking).
- b. Supervision and Socialization of the APU and PPT Program at sampled Branch (based on the results of the Branch Risk Rating assessment), related Units and Divisions.
- c. Implementation of APU PPT and PPPSPM refreshment programs for the Board of Commissioners and Directors of BNI as well as Subsidiary Companies.
- d. Increasing employee awareness and competency by delivering reminder letters regarding typologies, the latest modes and lessons learned related to APU PPT to all Branch Offices, Regions, Divisions, Units and Units.

7. Implementing programs to improve the quality of customer data by applying the Completeness, Consistency and Composite methods to strengthen the Single Source of Truth (SSOT) aspect through customer data quality improvement programs, a.i. improving data governance policies, implementing the Data Quality Index (DQI) and implementing Master Data Management towards creating a Single View of Customer;

8. Establish and foster active cooperation and coordination with regulators and Law Enforcement Officials, especially in fulfilling requests for customer data and/or information as well as providing information in efforts to prevent and eradicate the crime of money laundering, preventing the financing of terrorism and preventing the financing of the proliferation of weapons of destruction. Bulk;

9. Implementation of the APU PPT and PPPSPM Programs in Subsidiary Companies and Foreign Offices. As a form of responsibility for Banks that have office networks both at home and abroad as well as within the framework of the BNI Financial Conglomeration, to ensure that the implementation of APU PPT and PPPSPM is effective, the Compliance Division also supervises the implementation of the APU PPT and PPPSPM Programs through:

- a. Discussion Forum for the Board of Directors and Board of Commissioners regarding the implementation of the integrated APU PPT and PPPSPM Program;
- b. Monitoring the implementation of the APU PPT and PPPSPM Programs for Subsidiaries and Foreign Offices through regular periodic reports and providing feedback on the reports submitted;
- c. Implementation of supervision in the form of One on One meetings to discuss the implementation of the AML-CFT and PPPSPM Programs for Subsidiaries and Foreign Offices on a quarterly basis; and
- d. Review of the Foreign Office's APU PPT and PPPSPM program policies and procedures in accordance with applicable regulations.

10. Taking an active role in programs and activities under the APU PPT and PPPSPM regime organized by the regulator/government, including:

- a. Preparing the National Risk Assessment (NRA) of Money Laundering and Terrorist Financing Risk Assessment and Sectoral Risk Assessment (SRA);
- b. Implementing the Financial Integrity Rating for Money Laundering and Terrorist Financing (FIR on ML/TF) for Banks;
- c. Supporting the draft of FSA Regulation concerning the Implementation of the APU and PPT Programs in the financial services sector;
- d. Play an active role in surveys and assessments of PPATK performance effectiveness indices Effectiveness Performance Index Survey and Evaluation in the effort to prevent and eradicate TPPU and TPPT;
- e. Bank resource person/piloting for APOLO, Go AML reporting;
- f. Appointed as Team Tactical Hub – INTRACNET for the National Public Private Partnership (PPP) project, which directly contributes to the preparation of Operational Alert on Fraud with the Business Email Compromise (BEC) Narcotics Crime and Investment Fraud;
- g. Appointed as Co Lead for the Green Financial Crime (GFC) project;
- h. Participating in 2 Decades of AML and CFT Movement activities in Indonesia, including: tree planting event in the Anyer area, Talkshow and Publication of the "AML and PTF" edition of Tapcash.
- i. Participate in the activities of the National Movement for 21 (twenty one) Years of the APU PPT Regime in Indonesia, publishing the "AML-CFT" and PPATK Mengajar editions of Tapcash;
- j. Participation in the Collaborative Analysis Team (CAT) related to the 2024 General Election and Regional Head Election; And
- k. Implementation of research/in-depth study activities related to the 2024 General Election by PPATK.

Capital & Risk Management Practices

Good Corporate Governance

Protection Of Creditors' Rights

BNI has implemented an honest and transparent information disclosure system with equal treatment for all creditors without any discrimination to protect creditors' rights. This is in line with one of the ASEAN Corporate Governance Scorecard Governance principles.

Through information disclosure, all creditors and business partners can obtain relevant information based on to their needs so that all parties can make objective decisions based on fair, reasonable and accurate considerations.

BNI always ensures the fulfillment of rights and maintains creditors' trust in the Bank. BNI guarantees that the creditor's rights are carried out properly, as outlined in the agreement agreed by both parties. As part of the creditor rights, the Bank carries out its obligations as agreed in a timely manner and strives to avoid delays or negligence that could potentially cause losses to both parties.

Anti-Gratification & Anti-Bribery Policy

BNI always prioritizes Good Corporate Governance and the Code of Conduct, including implementing the Gratification Control and Anti-Bribery Management System (SMAP). As an initial stage in establishing the Gratification Control Unit (UPG), an Anti- Gratification Commitment was signed between the BNI President Director and the Chair of the Corruption Eradication Commission (KPK) on October 17, 2016. Since that date, BNI has implemented Gratification control in its operational activities, including reporting Acceptance/Rejection of Gratification that is reported to BNI UPG through the Online Gratification application (GOL).

The UPG assigned to the Compliance Division is responsible for:

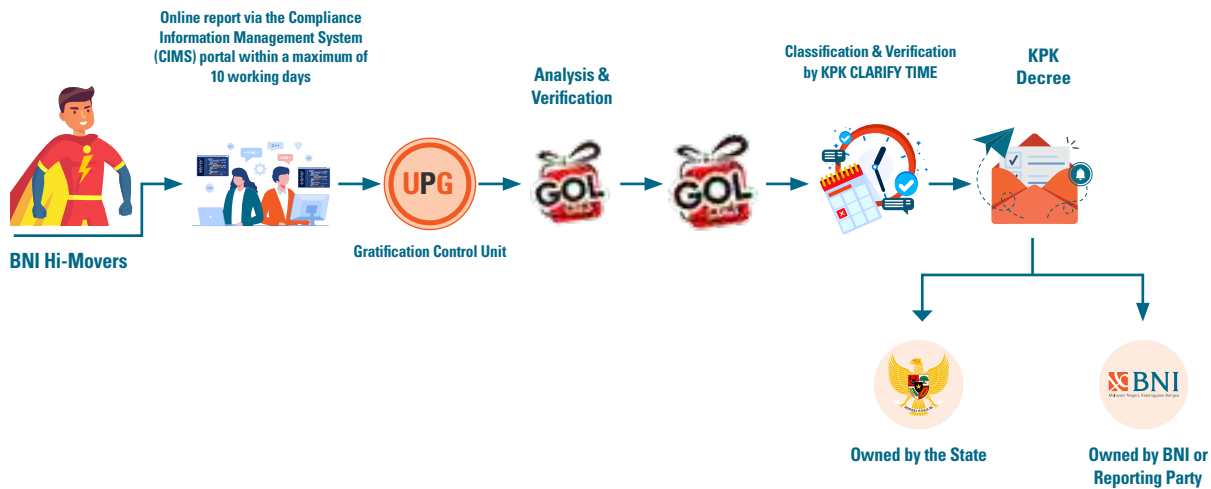

1. Preparing a rules, technical instructions and other similar requirements to support the implementation of gratification control;
2. Receiving, analyzing, and administering reports of acceptance and rejection of gratification. If necessary, the UPG may request information from the recipient of the gratuity regarding the completeness of the gratification report.
3. Continuing the report on receipt of gratification to the Corruption Eradication Commission in accordance with applicable regulations.
4. Delivering the results of the gratification report management and proposed gratification control policies to the management/directors.

5. Mapping the vulnerable points of receiving and giving gratification.
6. Monitoring and evaluating the implementation of gratification control at BNI.
7. Carrying out advisory and socialization functions within BNI.
8. Coordinating with related units at BNI in order to carry out their duties and responsibilities as a gratification control unit in BNI.
9. Storing gratification goods and/or gratification gifts and forwarding them to the Corruption Eradication Commission or delivering them back to the complainant in accordance with the decisions issued by the KPK and/or UPG.

In order to improve control over gratification and anti-bribery, BNI appointed the Compliance Division as manager of the Anti-Bribery Management System (SMAP). After going through several stages of ISO 37001: 2016 certification regarding SMAP, on August 11, 2020 BNI obtained ISO 37001: 2016 certification for the Procurement of Goods and Services, since February 9, 2022 the scope has been expanded to the Corporate Credit Segment and in 2023, the scope of ISO 37001:2016 certification will be expanded to Pension Fund Activities. Obtaining this certification demonstrates that the gratification, bribery (anti-bribery) and whistleblowing system control systems at BNI are well managed in accordance with international standards and practices set by ISO.

Furthermore, since December 2018, all BNI employees can report gratification through the Compliance Information Management System (CIMS) portal, which is integrated with the KPK Gratification Online (GOL) application, in an effort to digitize paperless gratification reporting at BNI.

SOCIALIZATION OF ANTI-GRATIFICATION POLICY, GRATIFICATION REPORTING & ANTI-BRIBERY

BNI carries out socialization and education regarding Gratification & Anti-Bribery through webinars, the BNI website, print media, and internal media including BNI Forum, BNI Digi-HC, BNI Menyapa e-mail, Instagram Quickpose, and Instagram BNI46. The activities carried out by UPG BNI during the 2023 period are as follows:

1. Declaration of Gratification and Anti-Bribery at DigiHC BNI as a commitment of all BNI employees regarding compliance with gratification control.
2. Reporting of acceptance and rejection of gratuities in 2023 to all BNI employees as a form of transparency broadcast through the BNI Forum.
3. Implementation of gratuity reporting appreciation in June 2023 in the form of an Award Charter given to 62 (sixty two) active gratification reporters during 2022 with a total of 295 reports.
4. Socialization by the Gratification Control Unit includes:
 - a. Socialization of Gratification Control and SMAP to Outsourced Personnel (TAD), Bina BNI Officer Development Program (ODP), Secretary of Directors, Personal Assistant to Directors and Protocol.
 - b. Sharing Session on Gratification Control and SMAP Implementation with all Subsidiary Companies as the BNI Financial Conglomerate.
 - c. Sharing Session on Gratification Control and SMAP Implementation as a follow-up to the benchmarking invitation of PT Pegadaian on July 7 2023 and PT Telkom Indonesia (Persero) Tbk on June 14 2023.
5. Reminder of reading the Integrity Pact at the time of signing the Credit Agreement as an effort to inform and commit BNI regarding Gratification Control from stakeholders, in this case debtors.
6. Submission of a Compliance Reminder (CORE) with the theme "Gratification Reporting" which was broadcast at the BNI Forum in January 2023.
7. Socialization of SMAP and Commemoration of World

Anti-Corruption Day (HAKORDIA) to internal and external parties through video and digital banners at the BNI Office and BNI website.

8. Socialization of the Corruption Prevention Guide (CEK) of the KPK to all BNI subsidiary companies with the resource person, the Director of Anti-Corruption for Business Entities (AKBU) of the KPK, Mr. Aminudin, on May 23 2023.
9. Socialization of anti-corruption activities and violation reporting media at BNI through the Whistleblowing System (WBS) on video and posters displayed at the 2023 HAKORDIA Commemoration at Istora Senayan Jakarta. BNI received appreciation as the Participant with the Best Booth at the 2023 HAKORDIA implementation.
10. Appeal to the Board of Directors, Board of Commissioners, and all Divisions/Units/Units not to give/receive gratuities related to religious holidays (Imlek, Eid al-Fitr and Christmas) and New Year which are also broadcast via the BNI Forum which can be accessed by all employees as well as to BNI stakeholders through posters, the BNI website and national mass media.
11. An appeal for prohibiting the use of official facilities for personal gain to all organizations, this is in line with the KPK circular to avoid potential conflicts of interest in the implementation of company operational activities.
12. An appeal to prohibit receiving and giving gratuities related to BNI's 2023 anniversary celebrations to all Divisions/Units/Units which was also broadcast through the BNI Forum as a reminder of the implementation of gratification control and SMAP at BNI.
13. Acceptance of Anti-Corruption Instructor (PAKSI) competency certificates from LSP KPK to 16 (sixteen) BNI employees as one of the driving forces of the Anti-Corruption program at BNI.
14. Mandatory E-Learning on Gratification Control and SMAP at BNI SMARTER in video form which has been accessed and completed by 25.356 BNI employees.
15. Implementation of SMAP Recertification with audit

results containing no major or minor findings, thus showing BNI's commitment and consistency regarding the implementation of SMAP.

GRATIFICATION CONTROL MONITORING & EVALUATION BY KPK

BNI's Gratification Control Unit (UPG) reports the Gratification Control Program results to the Corruption Eradication Commission (KPK) on a quarterly basis, then the KPK conducts an assessment of gratification control based on 6 predetermined criteria

1. Internal Dissemination;
2. External Dissemination;
3. Identification of Risks/Points Prone to Gratification;
4. Risk Mitigation;
5. Innovation; and
6. Handling Gratification Reporting.

In 2023, BNI UPG received the maximum Total Gratification Control Program Implementation Score (PPG), namely 100 and received a Certificate of Appreciation from the Corruption Eradication Committee as the UPG with the highest score in the BUMN/BUMD/Subsidiary category based on the Monitoring and Evaluation Results of the 2022 Gratification Control Program cfm. Certificate of Appreciation No. PPG/23-03/APRESIASIMONEV/8 March 3, 2023.

GRATIFICATION REPORT 2023

The acceptance/rejection of gratification report is submitted by the reporter (BNI employee) to UPG BNI in the Compliance Division, and then forwarded to KPK through the Online Gratification (GOL) application. Reports of acceptance/rejection of gratification submitted by the Reporting Party have been forwarded to the KPK within an average reporting period of no later than 2.26 working days from the deadline of 30 working days. In 2023 gratification reports to UPG an increase/decrease in the amount of gratification reporting to UPG has increased by 8% from 295 reporting in 2022 to 320 reporting in 2023.

In addition to the OJK reporting requirements, members of the Board of Directors and members of the Board of Commissioners are also required to submit information to the Public Company regarding ownership and any changes in their ownership of Public Company shares. This information should be submitted no later than 3 (three) working days after the occurrence of ownership or any change in ownership of Public Company shares. Within the Company, members of the Board of Directors and members of the Board of Commissioners convey this information to the Corporate Secretary no later than 3 (three) working days after the ownership occurs.

The policy regarding the obligations of members of the Board of Directors and members of the Board of Commissioners to submit information regarding ownership and any changes in share ownership of the Company's shares is regulated in the Board of Commissioners Decree No. KEP/049/DK/2017 dated October 26, 2017 concerning

Guidelines and Work Procedures for the PT Bank Negara Indonesia (Persero) Tbk. Board of Commissioners, and the Board of Directors Decree No. KP/228DIR/R dated June 29, 2018 concerning Improvement to the Board of Directors' Work Guidelines and Rules.

During 2023, there was changes in ownership of the Company's shares owned by members of the Board of Directors and Non-Independent members of the Board of Commissioners that had been submitted to OJK in accordance with the provisions of OJK Regulation No. 11/POJK.04/2017 concerning Reports of Ownership, or Any Changes in Ownership of Public Company Shares.

Board Of Commissioners And Board Of Directors Share Ownership In Banks Or Other Companies

BNI always discloses the members of the Board of Commissioners and Board of Directors share ownership in other banks, non-bank financial institutions, and other companies domiciled at home and abroad. This is realized to maintain the independence of each member of the Board of Commissioners and Board of Directors. At the end of December 31, 2023, the entire Board of Commissioners and Board of Directors did not own shares in other banks, non-bank financial institutions and other companies domiciled inside or outside the country.

Violation Reporting System (Whistleblowing System)

To increase the effectiveness of Good Corporate Governance (GCG) implementation, especially in the application of the transparency, accountability and independence principles, BNI is committed to running the company professionally based on company behavior that is in accordance with the code of ethics and work culture, in order to realize good corporate governance. To realize this, BNI provides an independent and confidential means of reporting violations and has a whistleblower protection mechanism, namely the Whistleblowing System (WBS).

WHISTLEBLOWING SYSTEM PURPOSE

The implementation of BNI's Whistleblowing System (WBS) with the name "WBS to CEO" is one of the early detection mechanisms for violations at BNI that can cause financial losses, including things that can damage BNI's image. WBS management is carried out in collaboration with an independent consultant, namely Deloitte. Thus, WBS is a commitment to creating a clean work environment and integrity in the form of active participation by BNI personnel with external parties to report violations that occur within BNI.

Since March 2 2021, BNI has collaborated with the Corruption Eradication Commission of the Republic of Indonesia (KPK) regarding handling complaints in efforts to eradicate criminal acts of corruption, the implementation of which is regularly reported to the KPK.

WHISTLEBLOWING SYSTEM MANAGEMENT

The person responsible for WBS at BNI is the President Director assisted by the Director of Human Capital & Compliance. In this case, the President Director appoints the Head of Internal Audit Unit as WBS Manager who is responsible for managing the WBS and reports to the President Director.

SUBMISSION OF VIOLATION REPORTS

The reporter is given an alternative way of conveying his/her identity when reporting violations committed by BNI personnel via the WBS, namely:

1. Reporters who are willing to reveal their identity to the recipient of the report to the WBS Consultant Team and BNI WBS officers (Full Disclosure).
2. Reporters who are willing to reveal their identity only to the WBS Consultant Team. In this case, the WBS Consultant Team will not forward the identity of the reporter to BNI (Partial Anonymity).
3. Reporting parties who are not willing to reveal their identity to the WBS and BNI Consultant Team (Anonymous).

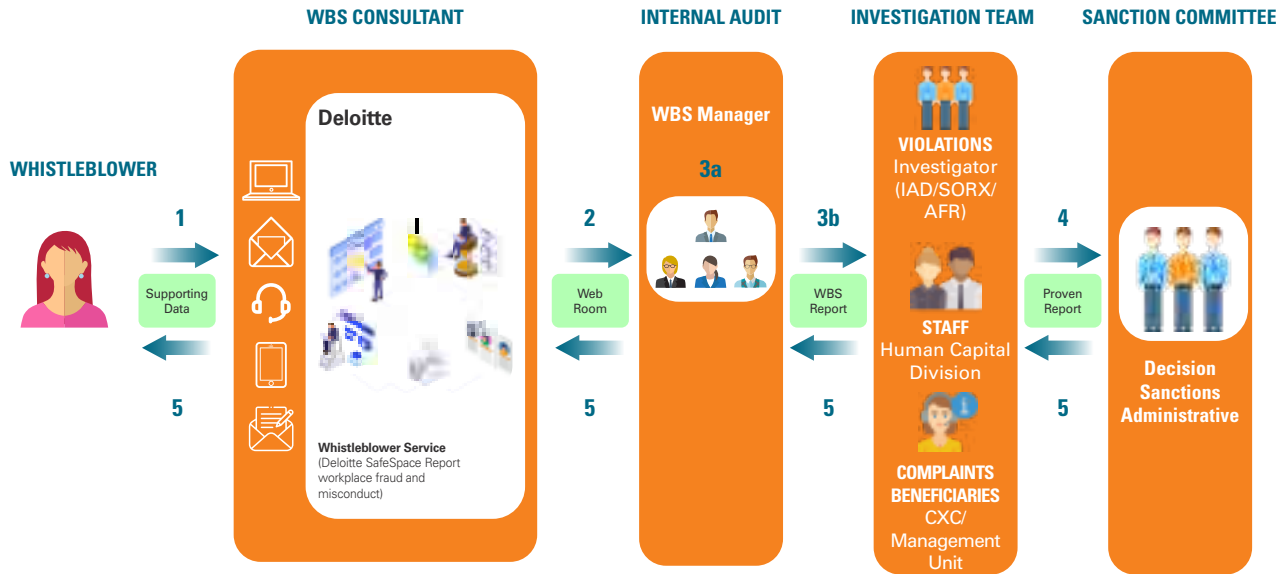

Reporting violations via WBS can be carried out by:

BNI can impose sanctions on Internal Reporting Persons/BNI personnel if it is proven that the report submitted is slanderous and is proven to have other purposes that deviate from the aims and objectives of the WBS Policy. The referred sanctions refer to the applicable provision at BNI.

REPORT SUBMISSION MECHANISM

- The reporter submits the WBS report via telephone, email, letter, website, or SMS/Whatsapp to the Deloitte WBS Consultant.
 - Deloitte screens WBS reports. WBS reports that do not comply with 4W1H (What, Who, Where, When, How) will be requested for supporting data from the Reporter.
 - The reporter provides supporting data to Deloitte.
- Deloitte submits the WBS report to the WBS Manager, namely Internal Audit.
- Internal Audit analyzes the WBS report (3a) and conducts a direct investigation, and/or forwards it to the Senior Operational Risk Executive (SORX)/Anti-Fraud Unit (AFR) or related Division/Unit/Unit according to the type of report, (3b), namely
 - Related violations are forwarded to the Investigator unit
 - Employees cases are forwarded to the Human Capital Division
 - Customer complaints are forwarded to the Customer Experience Center Division/Management Unit
- Results of follow-up WBS reports that are proven to violate provisions will be given administrative sanctions in accordance with applicable regulations.
- Each unit/division that follows up on the WBS report, submits the results of the follow-up to Internal Audit and then be submitted to Deloitte to be informed to the Reporter.

PROTECTION FOR WHISTLEBLOWERS

The first protection for whistleblowers is the confidentiality of their identity and reports submitted by the whistleblower. The form of protection for whistleblowers is adjusted to the form of threats/actions received. BNI Providing protection with due observance of the principle of confidentiality and related applicable provisions.

COMPLAINT HANDLING

The handling of reporting complaints through WBS, namely:

- The WBS Consultant Team will send an email to the appointed BNI WBS Manager and/or Officer regarding the new complaint report. Regarding any new complaint reports entered into Conduct Watch;
- The time period to provide a response regarding the follow-up of the complaint report is as follows:
 - First response: no later than 14 (fourteen) working days after the complaint report is entered into Conduct Watch;
 - Subsequent responses: at the end of each month following the first response.
- In order to maintain independence, if there is a report of misconduct that mentions the name of or involves one of the WBS officers, the officer will not be able to access Conduct Watch.

TYPES OF REPORTABLE VIOLATIONS

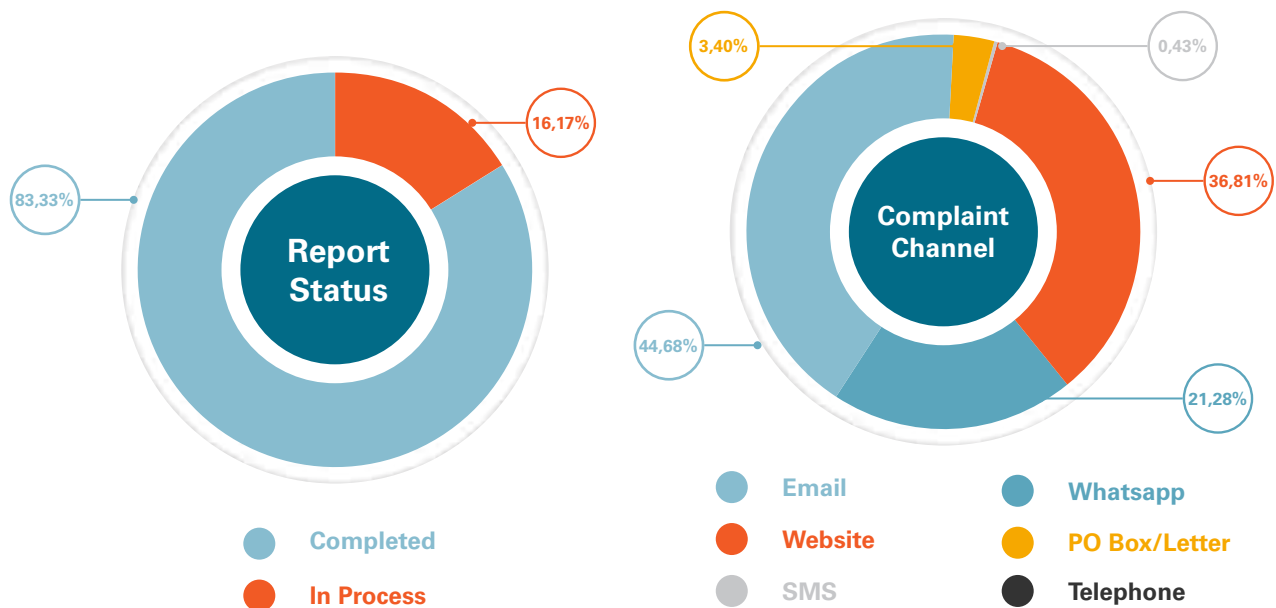

Reports submitted through the WBS are reports of violations related to the following:

- 1. Fraud**
Fraud is dishonest or deceptive acts including, fraud, extortion, forgery, concealment or destruction of documents/ reports or using fake documents, committed by a person/group of people that causes potential loss or real loss to the company;
- 2. Violation regulations/laws**
Violation acts subject to sanctions according to applicable internal and external legal provisions.
- 3. Conflict of Interest**
A situation where members of the Board of Directors, members of the Board of Commissioners, committee members, permanent/non-permanent/outsourcing employees (BNI Personnel) due to their position, or authority at BNI have personal interests that can objectively influence the duties mandated by BNI, resulting in a conflict between personal and/or group and/or family interests and the economic interests of BNI.
- 4. Bribery/gratification/extortion (extortion)**
Receiving something in any form, and regardless of the amount/value, from other parties related to their position/ authority/responsibility at BNI.
- 5. Violation of the Code of Ethics/Unethical Conduct**
Acts or actions taken by BNI Personnel that cannot be justified ethically, such as violations of the BNI Code of Conduct.

RESULTS OF HANDLING COMPLAINTS

NUMBER OF COMPLAINTS ENTERED AND PROCESSED IN THE FISCAL YEAR

There were 235 reports of alleged violations received via the WBS channel.

1. The reporter chose the email complaint channel (44.68%) as the highest means of receiving complaints, followed by the website (26.81%) and WhatsApp (21.28%).
2. From total 83.83% of complaints (197 reports) received during 2023, 48 reports were proven and 149 reports were not proven.

FOLLOW UP ON COMPLAINTS IN 2023

Every WBS report that after investigation is proven to violate the provisions, will be given sanctions according to BNI regulations. During 2023, BNI has given sanctions to 14 employees, including termination of employment for 4 employees who were proven to have committed violations.

Anti Corruption Policy

ANTI CORRUPTION POLICY

To enforce its anti-corruption policies, BNI ensures that all company activities are carried out in compliance with applicable laws and regulations and applies Good Corporate Governance practices. BNI has stipulated sanctions to create a deterrent effect, including Termination of Employment (PHK) for violations committed by employees related to corruption, gratification and bribery. These violations can be reported to Law Enforcement Officials (APGAKUM) in accordance with applicable legal provisions. This is also expected to maintain the trust of all shareholders, stakeholders and the wider community.

As part of its anti-corruption commitment, every year the Board of Commissioners, Board of Directors and all BNI employees sign an Integrity Pact. The Integrity pact includes a commitment to create a corruption-free work environment that is free from corruption. Administrative sanctions will be imposed on the breach of the anti-corruption program at BNI. Filling in the Integrity Pact is also carried out by all stakeholders collaborating with BNI, including information on violation reporting channels through the Whistleblowing System (WBS).

Furthermore, BNI has outlined anti-corruption policies in various guidelines, including the Code of Conduct, Gratification Control Guidelines, Anti-Bribery Management Systems (SMAP) Guidelines, Anti-Bribery Policies, Guidelines for Anti-Fraud Strategies and Whistleblowing Systems. These guidelines have been properly implemented and their effectiveness is evaluated annually.

PROGRAMS AND PROCEDURES FOR OVERCOMING CORRUPTION PRACTICES, FRAUD, BRIBERY, GRATIFICATION AND/OR RETURN

1. BNI has established a Gratification Control Unit (UPG) and manages the Anti-Bribery Management System (SMAP) as the driving force for the anti-corruption programs at BNI. Activities and programs related to gratification and bribery are detailed in the Anti-Gratification and Anti-Bribery Policy Chapter.
2. Determination of severe sanctions (PHK) for actions that fall into the category of bribery and fraud.
3. Anti-fraud awareness to all employees of BNI and its subsidiaries, through webinars, socialization and campaigns through BNI's official social media or related divisions.
4. Appreciation to employees who contribute to fraud prevention efforts.

ANTI-CORRUPTION TRAINING/ SOCIALIZATION TO EMPLOYEES

BNI always involves its employees in training. The training/ certification that was attended was Anti-Corruption Counselor (PAKSI) training, SMAP ISO 37001:2016 certification, webinars, E-Learning, Daily Exercise Employee Program (DEEP46) as well as outreach related to gratification control and anti-bribery to prevent the corruption in BNI during 2023.

It has been resolved	0	0	9	10	0	2
On Bank Internal Settlement Process	0	0	2	4	0	5
No solution has been attempted yet	0	0	0	0	0	0
Has been followed up through the legal process	0	0	3	2	0	1

Information:
Loss > 100 Million

Provision of Funds For Related Parties and Large Exposure

Regarding the Legal Lending Limit (LLL), lending to Related Parties and also policies that govern credit limits per industry sector, together with monitoring and settlement. BNI periodically conducts Credit Procedure Committee and Credit Policy Committee meetings as well as Board of Directors Meetings to discuss matters related to credit policies, procedures and operational activities.

To ensure that the provision of funds to related parties and large exposures is in accordance with the principle of prudence, BNI has an internal control system as follows:

1. Established policies and procedures in the process of granting loans;
2. Conducting an ex-ante review on the loan granting process through a Credit Compliance Review conducted by the Compliance Work Unit with the following criteria:
 - a. Providing new and additional funds with the authority of the Medium Credit Committee, Regions (excluding small segments), Divisions and Head Office; or
 - b. Restructuring with the authority of the Medium Credit Committee, Regions (excluding small segments), Divisions and Head Office; or
 - c. Reviewing provision of funds, where at least 1 (one) member of the Credit Committee is on the Board of Directors;
 - d. Modifications include, but are not limited to changes in structure, release of collateral, changes to requirements where at least 1 (one) member of the Credit Committee is on the Board of Directors;
 - e. Proposals for provision of funds that must be consulted with the Board of Commissioners or provision of funds for parties related to the Bank must obtain approval from the Board of Commissioners.
3. Ex-post reviews are carried out by the Compliance Work Unit and the Internal Audit;
4. Provision of funds to related parties need approval from the Board of Commissioners;
5. Provision of large funds needs approval from the management and for certain amounts must be consulted with the Board of Commissioners;
6. IAD conducts assessment of credit centers based on risk assessment to ensure the adequacy of risk management and internal control, including in the credit granting process.

In applying the provision of funds by the Bank to related parties or for large exposures:

1. Management pays attention to the provision of large credit amounts, through the provision of funds to debtors through the Internal Rating System (corporate, enterprise, commercial, and small business), Loan Portfolio Management, Loan Exposure Limits (per segment, per economic sector and per regional), LLL (for internal BNI through Internal House Limit), and Country Exposure Limit;
2. Total capital and Capital Adequacy Ratio (CAR) are always reported to Management and all units in order to have guidelines in carrying out bank business activities, especially those concerning the provision of funds.

Submission of reports to OJK by BNI has been carried out in accordance with applicable regulations. The amount of funds available to related parties and large customers can be seen in the table below:

Funds Available	Total	
	Debtor	Nominal (IDR-million)
To Related Parties	319	1.837.129
To Individual Debtors Group	20	213.772.386

Providing Loans To Related Parties

Based on the Republic of Indonesia FSA Regulation No. 32/POJK.03/2018 dated December 27, 2018 concerning the Maximum Limit for Loans and Provision of Large Funds for Commercial Banks, as amended by POJK No. 38/POJK.03/2019 dated December 19, 2019, Article 5 states, that the entire portfolio of Provision of Funds to Related Parties with Banks is set at a maximum of 10% (ten percent) of the Bank's Capital. The definition of Provision of Funds is the investment of Bank funds in the form of, loans, securities, placements, claims for securities purchased with agreements to resell (reverse repo) and others.

BNI's policy concerning the provision of loans to related parties is stated in the Company's Guidelines No. IN/409/PGV/005 dated August 16, 2019, which stipulates that the Bank is prohibited from providing Provision of Funds (hereinafter referred to as "Lending") to Related Parties without the Board of Commissioners' approval.

Related Parties as regulated in POJK No. 32/POJK.03/2018 dated December 27, 2018, as amended by POJK No. 38/POJK.03/2019, dated December 19, 2019, includes:

- a. Individuals or companies controlling the Bank;
- b. Legal entities in the event that the Bank is the controller;
- c. Companies in the case relate to individuals or Companies as referred to in letter a as a controller;
- d. Members of the Board of Directors, Board of Commissioners, and Executive Officers of the Bank; An Executive Officer is an official directly responsible to the Board of Directors or has a significant influence on the Bank's policies and/or operations, including the Division Heads, Regional Office Heads, Branch Office Heads, Functional Office Heads whose position is at least equal to the Branch Office Heads, Risk Management work unit Heads, Compliance work unit Heads, and Internal Audit work unit Heads and/or other equivalent officials;
- e. Parties who have familial relationships horizontally and vertically:
 1. From an individual who is controlling the Bank as referred to in letter a; and
 2. From members of the Board of Directors and/or members of the Board of Commissioners at the Bank as referred to in letter d. Familial relationships horizontally or vertically, include:

- Biological/step/adoptive parents;
- Step/adoptive Siblings;
- Biological/step/adopted children;
- Biological/step/adoptive grandparents;
- Biological/step/adopted grandchildren;
- Siblings/step/adoptive from parents;
- Husband or wife;
- Parents in law;
- Husband or wife of biological/step/adopted children.

- f. Members of the Board of Directors and/or Board of Commissioners, in the Companies referred to in letter a, b and/or c;
- g. Companies whose members of the Board of Directors and/or Board of Commissioners are members of the Bank's Board of Commissioners;
- h. Companies/entities with 50% (fifty percent) or more of the members of the Board of Directors and/or Board of Commissioners, are Directors and/or Commissioners in the Companies referred to in letter a, b and/or c;
- i. Companies/entities where:
 1. Members of the Board of Directors, Board of Commissioners, and/or Executive Officers of the Bank as referred to in letter d. act as controllers; and
 2. Members of the Board of Directors and/or Board of Commissioners in the parties as referred to in letter a, b and/or c act as controllers;
- j. Collective investment contracts where the Bank and or the parties referred to in letters a. to i. own 10% (ten percent) or more shares in the Investment Manager of the collective investment contract;
- k. Companies that have financial relationships with the Bank and/or parties as referred to in letter a. up to the letter i; Financial relationships include:
 1. There is financial assistance from the Bank and/or Related Parties or financial assistance to the Bank and/or other Related Parties with requirements that cause parties providing financial assistance to be able to determine (controlling influence) the strategic policies of Companies receiving financial assistance;
 2. There is a significant business chain linkage in the business operations of the Bank or Related Parties with other Companies so there is dependence between one party and another which can result in:
 - One party being unable to easily transfer business transactions to another party; and

Provision of Funds For Social and Political Activities

BNI has a policy that prohibits BNI employees from becoming members and/or donors of political parties. In 2022, there was no funding for political activities. The budget spent on social activities through the Social and Environmental Responsibility Program throughout 2023 was Rp135,958 billion.

Procurement of Goods and/or Services

THE BANK'S PROCUREMENT OF GOODS AND/OR SERVICES BASIC PRINCIPLES ARE AS FOLLOWS:

BNI's procurement of goods and/or services basic principles are as follows:

1. Efficient: goods and/or services procurement must be endeavored to obtain optimal and best results in the shortest amount of time by spending minimum funds and capability in a reasonable manner and not solely aimed at getting the lowest price.
2. Effective: goods and/or services procurement must be in accordance with the predetermined requirements and provides the maximum benefit in accordance with the targets set.
3. Competitive: goods and/or services procurement must be open to all Goods and/or Services Providers that meet the qualifications, and is performed through fair competition between equal Providers of goods and/or services that meet certain conditions/criteria based on clear and transparent rules and procedures.
4. Transparent: goods and/or services procurement provisions and information regarding, including procurement administrative technical requirements, evaluation procedures, evaluation results, determination of prospective suppliers of goods and/or services, are open to all qualified goods and/or services providers.
5. Just and Fair: all prospective Goods and/or Service Providers who meet the requirements must receive an equal treatment.
6. Open: goods and/or services procurement can be pursued by all prospective goods and/or services providers that meet the requirements.
7. Accountable: must achieve the target and can be accounted for so as to stay away from potential misuse and irregularities.

While the ethics in implementing the Procurement of Goods and/or Services at BNI are as follows:

1. Carrying out tasks in an orderly manner, with a sense of responsibility to achieve the Procurement of Goods and/or Services goals, smoothness, and accuracy of objectives;
2. Working professionally, independently, and maintaining information confidentiality which by its nature must be kept confidential to prevent irregularities in the Goods and/or Services Procurement;
3. Not influencing each other, either directly or indirectly, resulting in unfair business competition;
4. Accepting and being responsible for all decisions made in accordance with the written agreement of the parties concerned;
5. Avoiding and preventing conflicts of interest with related parties, either directly or indirectly, which may result in unfair business competition in the Goods and/or Services Procurement;
6. Avoiding and preventing wastage and leakage of state/company finances;
7. Avoiding and preventing abuse of authority and/or collusion; and/or
8. Not accepting, not offering, and not promising the giving or receiving of gifts, rewards, commissions, rebates, and anything from or to anyone who is known or reasonably suspected to be related to the Goods and/or Services Procurement.

METHODS OF PROCUREMENT OF GOODS AND/OR SERVICES

The procurement of goods and/or services at BNI is carried out through the Tender, Limited Tender, Direct Appointment, Direct Procurement and Self-Management methods. The criteria for the procurement method are as follows:

Tender

1. Procurement of goods and/or services is announced widely and openly at least 2 Business Days for each supplier of goods and/or services.
2. If necessary, the following can be done:
 - a. Written notification to the association of providers of goods/services/principals;
 - b. Sending Tender invitations to partners who potentially meet the requirements.
3. Followed by at least 3 (three) vendors who register and fulfill the requirements in the tender announcement.
4. The price negotiation process is carried out using the e-auction module unless it is not possible to do so.
5. For certain needs, more than 1 (one) vendor of goods and/or services may be appointed.

Limited Tender	<ol style="list-style-type: none"> 1. Procurement of goods/services offered to several parties is limited to a value determined by the Company. 2. If needed, it is possible to invite potential participants by way of announcements. 3. At least 2 (two) candidates who meet the requirements.
Direct Appointment	<ol style="list-style-type: none"> 1. Goods and services needed for BNI's main performance and cannot be delayed (business critical assets). 2. There is only one Provider who can carry out work according to user requirements, or in accordance with the provisions of prevailing laws and regulations. 3. Goods and services that are knowledge intensive in which to use and maintain these products requires continuity of knowledge from the Provider. 4. If the Procurement using a Tender or Limited Tender method has been carried out 2 (two) times and does not find a Provider, or there is no party meeting the criteria, or no parties participating in the Tender. 5. Goods and services owned by holders of Intellectual Property Rights (IPR) or who have warranties from Original Equipment Manufacturers 6. Emergency management for security, community safety, and company strategic assets. 7. Procurement of goods and/or services that constitute a purchase or re- procurement (repeat order). 8. Emergency management due to local and national natural disasters (force majeure). 9. Additional or continuing work that cannot be avoided in the context of completing the procurement of goods and/or services. 10. Providers of goods and/or services are BUMN, BUMN Subsidiaries or BUMN Affiliated Companies as long as the goods and/or services referred to are products or services from BUMN, BUMN Subsidiaries, BUMN Affiliated Companies and/or small and micro businesses and as long as they are of quality, prices, and purpose, and can be justified. 11. Consultants not planned in advance to deal with certain problems where the work must be carried out immediately and cannot be delayed. 12. Procurement of goods and or services with a defined value determined by the Company.
Direct Procurement	<ol style="list-style-type: none"> 1. By way of Direct Procurement of the Provider or direct seller. 2. Can be done without a Work Order (SPK) or Contract. 3. Direct Procurement of goods and/or services with a certain value can be carried out 4. Procurement Method if it fulfills one of the following conditions: <ol style="list-style-type: none"> a. Items are specially designed/created/made by a certain party or have artistic value/art work, including sculptures, paintings, handicrafts; or b. Subscription goods (subscription/membership) based on the result sof studies that can be accounted for, including gardner, forrester; or c. Procurement is carried out based on widely published public tariffs, including electricity, telephone/ communication, clean water, fuel oil, gas fuel; or d. Procurements carried out in accordance with established business practices, including: hotel fees, transportation tickets.
Self-Management	<ol style="list-style-type: none"> 1. Renovation work of buildings/offices, repairs/maintenance of equipment/ furniture. 2. Self-Management is implemented for work that is incidental and/or simple and easy to supervise/ monitor. If the work is carried out by contract or daily workers, it must be by individuals. 3. Procurement by means of Self-Management must obtain prior approval from the Head of the implementing unit. 4. Type of Self-Management: <ol style="list-style-type: none"> a. All activities carried out by BNI employees; or b. Some work can be done through piece rate, daily/weekly; or c. Some work can be assisted by individual experts (consultants). 5. To meet the need for materials, tools and/or experts that are not available at BNI, the procurement process continues to refer to the procurement method in accordance with the provisions stipulated in the direct appointment procurement method, limited tender, tender and direct procurement.. 6. Self-management procurement is carried out with a certain value.

GENERAL PROCUREMENT OF GOODS & SERVICES

PROVISION	PROCUREMENT CENTRALIZATION	PROCUREMENT STRATEGY	SEPARATION OF FUNCTION	AUTHORITY DECISION LEVEL
Procurement of Goods and Services refers to external and internal provisions (Company Guidelines)	In principle, the procurement of goods and services adheres to a centralized procurement system that considers efficiency, effectiveness and security. However, in some cases, procurement decentralization can be carried out with consideration to optimizing the functions and authorities in all units and providing opportunities for local partners to participate in Goods and/or Services procurement.	<ol style="list-style-type: none"> 1. Improving the quality of management 2. Sharpening specifications 3. Packaging based on work/type of goods 4. Selective acquisition of vendors 5. Enhancing E-Procurement 	Separation of functions between procurement processing units by: <ol style="list-style-type: none"> 1. Units requiring procurement 2. Vendor Management Units selecting partners and recommending a list of partners 3. Units preparing their own approximate prices 4. Units preparing the contracts 5. Units making payments 6. Units supervising 	The authority to decide on procurement is made tiered with consideration of risk level and level of procurement value through a decision-making mechanism in the procurement committee

PROCUREMENT THROUGH ELECTRONIC PROCUREMENT (E-PROC) APPLICATION

One of the efforts to support BNI's strategy to transform into digital banking in order to face business competition, increase stakeholder satisfaction and GCG principles, BNI uses the Electronic Procurement (e-Proc) application to digitize the goods and services procurement process in the form of Procurement Management, Vendor Management and Contract modules Management.

With modules in the e-Procurement application accessible via <https://e-proc.bni.co.id>, both participants, committees and administrators of the procurement process are connected digitally in an end-to-end starting from partner registration, starting with partner registration, procurement process, Compliance test, contracts and payments. By using the e-Proc application, it is hoped that the procurement process will become more efficient, effective, competitive, transparent, fair and reasonable, open, accountable, with maintained governance.

Since 2018, the e-Procurement application has been available at the Head Office and beyond so that all procurement processes carried out by the Head Office and Regional Offices can be integrated and monitored properly through dashboard monitoring. E-Procurement will be rolled out in stages to all BNI Regional Offices starting in 2023.

2. Being firm against all forms of bribery to realize good corporate governance and being free from all forms of corruption, collusion and nepotism (KKN);
3. Playing an active role in ensuring the implementation of the Anti-Bribery Management System, including reporting suspected anti-bribery policy violations in accordance with the applicable mechanism at BNI;
4. Willing to accept sanctions set by the Company if proven to have violated the anti-bribery policy.

To support this commitment, the Company has established the anti-bribery compliance function as an independent function, to develop, oversee the implementation and encourage continuous improvement of the Anti-Bribery Management System, as well as to take firm action in accordance with its authority for violations of the Anti-Bribery Management System.

This Anti-Bribery management system policy is communicated and socialized to BNI and other stakeholders to ensure Good Corporate Governance, free from Corruption, Collusion and Nepotism (KKN), and periodic reviews carried out in accordance with the Company's commitments.

In 2023, a recertification audit was carried out on the goods and/or services procurement process carried out at BNI and succeeded in maintaining the Anti-Bribery Management System Certification.

ISO 9001:2015 QUALITY MANAGEMENT SYSTEM IN HPS PARTS (SELF ESTIMATED PRICE)

In order to improve the quality of Self Estimated Price management according to international standards, BNI has received ISO 9001:2015 certification in the field of Quality Management Systems in the field of Self Estimated Price management. The certification in question shows that BNI is committed to being a service provider that customers can rely on by providing reasonable prices, on time, complying with applicable rules and regulations and striving to make continuous improvements to improve service quality in accordance with internationally accepted standards and practices.

In 2023, BNI has successfully maintained the third year Surveillance Audit of ISO 9001:2015 Quality Management System certification in the field of Vendor Management.

ISO 9001:2015 QUALITY MANAGEMENT SYSTEM IN THE VENDOR MANAGEMENT SECTION

In order to improve the quality of Self Estimated Price management according to international standards, BNI has received ISO 9001:2015 certification in the field of Quality Management Systems in the field of Self Estimated Price management. The certification in question shows that BNI is committed to being a service provider that customers can rely on by providing reasonable prices, on time, complying with applicable rules and regulations and striving to make continuous improvements to improve service quality in accordance with internationally accepted standards and practices.

In 2023, BNI has successfully maintained the third year Surveillance Audit of ISO 9001:2015 Quality Management System certification in the field of Vendor Management.

Bank's Strategic Plan

BNI CORPORATE PLAN 2021-2025

BNI has developed strategic directions for 2025 in response to external conditions that have changed quite dynamically over recent years due to the COVID-19 Pandemic, and the fundamental changes in the banking industry landscape. BNI's strategic direction in 2025 has been determined as follows "Integrated Digital-Based Financial Solution Provider with International Excellence"

This strategic direction is a unique value proposition that will be developed by BNI to focus on 3 (three) areas, namely integrated, digital and international financial solutions. These three areas are a concern for developing into leading values for BNI to compete with competitors in the banking industry.

In achieving this strategic direction, BNI has developed strategic initiatives in 5 (five) business pillars, Corporate Banking, Institutional Banking, International Banking, Commercial & SME Banking, and Consumer Banking, supported by the development of 7 (seven) enablers as business foundations, Digital, IT, Operations, Network & Services, Risk Management, Finance, & Human Capital. The strategic initiatives began with the Enhancing The Basics phase that focused on improving the business foundation so that BNI could grow in a sustainable manner, and was developed during the 2021-2022 period. Furthermore, in 2023 BNI entered into the best in class capability phase which focuses on implementing improvements to new ways of working, digitizing business processes and implementing several strategic initiatives in the BNI Corporate Transformation program

BNI STRATEGIC POLICY 2023

Based on the Vision, Mission, Company Policy Direction and BNI Corporate Plan 2021-2025, BNI has set the company's aspirations, namely "To become one of the most profitable financial institutions in Indonesia". The BNI strategic policies for 2023 that have been determined are as follows:

1. Develop transaction & ecosystem solutions to meet customer needs.
2. Develop technology infrastructure and digital innovation through driven data based on analytics, customer experience and expanding partnerships.
3. Focus on increasing sustainable CASA and FBI.
4. Increase the business expansion in the corporate top tier as well as priority sectors, value chains and cross selling by prioritizing risk culture.

5. Continuing the Transformation of Human Capital, Culture and Operations to be more agile and lean in supporting the business.
6. Strengthening international business networks to support global market penetration.
7. Optimizing BNI Group synergies in strengthening the position of Subsidiaries.

BNI CORPORATE TRANSFORMATION

BNI has carried out business process improvements and innovations in the Enhancing The Basics phase through the BNI Corporate Transformation Program since 2021. The BNI Corporate Transformation program was carried in response to the challenges and changes in the banking industry, to accelerate continuous improvement in financial performance, as well as BNI's efforts to achieve the strategic direction by 2025 through the development of strategic initiatives (transformation).

After BNI strengthened its business foundation in 2021-2022, BNI is currently entering into the Best in Class Capability phase (2023 – 2024). Armed with the BNI RACE values, Risk Culture, Agile, Collaboration, and Execution Oriented, to encourage a spirit of transformation, the BNI Corporate Transformation program has produced transformation initiatives that have so far been implemented at all levels of the organization both at the Head Office, Regional Offices, until Branch Offices. The strategic transformation initiatives focused on 5 (five) business focuses, namely:

1. In line with the transformation carried out by BNI, a number of subsidiaries are also carrying out transformations, one of which is PT BNI Multifinance ("BNI Finance"). BNI Finance resegmented the business that had previously been run, namely the commercial segment, to focus on the consumer segment specifically through providing motor vehicle financing.

In order to support BNI Finance's transformation plan, in 2023, BNI has paid additional capital to BNI Finance amounting to IDR 800,000,000,000 (eight hundred billion rupiah) which will be used for company expansion including but not limited to business, infrastructure IT, branch operations and HR.

In addition, in 2023, re-branding had been carried out on one of the Subsidiary which was effectively acquired by BNI last year, namely PT Bank Mayora ("Bank Mayora"). This re-branding implementation is intended to be in line with the implementation of the acquisition of Bank Mayora which will be transformed into a Digital Bank with a focus on the main MSME segment.

The name change was carried out from Bank Mayora to PT Bank Hibank Indonesia ("hibank"), the main aim was to increase awareness among the general public that Hibank is part of the BNI Group and to give a new minimalist and simple nuance and an impression that shows that Hibank is a fresh digital bank, easy to access and focuses on customers, especially the MSME segment.

The choice of the name Hibank represents an identity that is in line with the vision and mission promoted and describes the character of a gracious digital bank, simple, friendly and reliable for MSMEs. By changing the company name and logo to Hibank as a digital bank that becomes an orchestrator for MSMEs in Indonesia by providing easy access to banking in one destination.

2. Selection of top tier customers in the Commercial & Retail Productive segment

In 2022, BNI will focus on increasing cross selling by providing banking solutions for top tier corporate and institutional customers. With the increase in the portfolio and business volume of top tier customers in this segment, in 2023 BNI will also select top tier customers in the commercial & retail productive segment. Through this initiative, BNI can manage selected top tier customers more optimally and the quality of the resulting business will also be better.

3. Increasing transactions through optimizing customer value chain businesses

In maintaining business continuity amidst increasingly fierce competition, BNI focuses on value chain-based solutions. Starting with determining top tier customers from the Corporate to Retail Productive segments, BNI collaborates between units to manage customers by offering cross-selling business solutions. Not only limited to offering business solutions owned by banks, but also by optimizing Subsidiary Company products & services.

4. Continuous digitalization of business processes to support business growth

The impact of the COVID-19 pandemic on economic conditions has resulted in a decline in credit quality. To overcome this challenge, the BNI Corporate Transformation Program began by developing end-to-end Credit Process and Loan at Risk (LaR) Management initiatives to improve credit quality, discipline the credit process and increase awareness of risk culture. After developing the end-to-end credit process, the BNI Corporate Transformation Program then focused on business process digitalization initiatives to support business growth through providing the CONNECT tool which is used by all Relationship Managers (RM) in the Corporate, Enterprise, Commercial and Retail Productive; and branch transformation as a customer touch point to improve customer digital experience (new outlet format, Biometric, SPRINT, DigiCS, ATM & CRM).

5. Increasing productivity through new, more flexible ways of working and leaner organizational adjustments

In order to strengthen and sharpen the organizational side and to support an increasingly rapid business development process, BNI increases employee productivity by adopting a more agile way of working through the New Way of Working (NWOW) initiative, adapting a leaner organization, improving performance management (channel, product, & segment) in increasing performance awareness, as well as carrying out enhancements to develop leadership capabilities across all lines.

Conflict Of Interest Policy (Including Insider Trading)

To avoid conflicts of interest, all members of the Company are required to:

1. Prioritize the interests of the Company, through:
 - a. An obligation to serve all of the Company's stakeholders as well as possible according to their respective duties and responsibilities;
 - b. To carry out these duties and responsibilities, it must be based on applicable regulations and policies without prioritizing personal interests or the interests of affiliated parties, including those coming from religions, professions, political parties, ethnicity, and must avoid matters that may cause a conflict of interest;
 - c. Prohibited from including elements of personal interest when making decisions or actions that may affect the quality of the decisions/actions;
 - d. Prohibited from giving special treatment to certain parties by ignoring the applicable procedures or provisions;
 - e. Prohibited from seeking or receiving improper benefits so as to affect the performance of their duties;
 - f. In the event of a conflict of interest, BNI people are required to prioritize the company's economic interests and avoid companies that may arise or the possibility of reduced company profits.
2. Creating transparency when handling Conflicts of Interest:
 - a. Handling conflict of interest requires transparency from BNI people so that the conflict of interests that occur can be controlled and handled adequately;
 - b. BNI people who face a potential conflict of interest must express the existence of personal interests and/or affiliated relationships that have the potential to cause conflicts of interest.
3. Encouraging individual responsibilities and role models
 - a. All BNI people must be able to maintain their credibility and integrity in order to be an example for other BNI people;
 - b. All BNI people must be able to separate personal affairs from company affairs so that they can avoid conflicts of interest that can harm or reduce company profits;
- c. All BNI people are required to make annual statements related to conflicts of interest and will try to avoid all forms of possible conflict of interest when carrying out their duties.
4. Creating a culture of anti conflict of interest
 - a. The company is required to submit an annual statement to the public about the prohibition for BNI people to receive prizes or gifts from customers, partners, vendors and other parties;
 - b. To build awareness and a culture of anti-conflicts of interest, it is necessary to continue to socialize matters related to conflicts of interest, so that all BNI people can avoid conflicts of interest and proactively report the situation/condition that indicates conflicts of interest in their work environment through Internal Complaints Means.
5. Enforcing the policy of conflict of interest that each BNI person who is proven to have violated the conflict of interest provisions will be subject to sanctions in accordance with the provisions in force in the company.

BNI has also implemented policies on conflicts of interest and a policy on securities transactions for insider trading. This is stated in the Guidelines for Companies Contracting Transactions that are prohibited and not prohibited for people in No. IN/500/KMP/001 dated September 23, 2019, and Guidelines for Conflict of Interests as outlined in the Guidelines for Online Corporate (EPP) No. IN/13/ KPN/002 dated January 3, 2023.

The Bank has asserted the prohibition of use of insider information (insider trading) in personal transactions by employees and management (in this case members of the Board of Directors and the Board of Commissioners). With this policy, the Company does not use information for the personal interests of employees and management (insiders) during 2023.

Shares And Bonds Buyback

Throughout 2022, the Composite Stock Price Index ("IHSG") moved quite fluctuating, influenced by geopolitical conditions, commodity prices and the monetary policy of world central banks in making rate adjustments. However, as the Company's financial performance continues to improve, the Company's share price at the end of 2022 was recorded at IDR9,225 or an increase of 36.7% YoY.

At the beginning of 2023, the JCI fluctuated, influenced, among other things, by sentiment from the Fed which was still hinting at more interest rate increases, the ongoing geopolitical impact, as well as the normalization of pandemic policies in China which caused foreign outflow to the Chinese market after 3 years of lockdown. Fluctuations in the market and selling pressure are expected to continue until Semester I 2023. For this reason, Buyback is intended to help offset selling pressure in the market when the JCI was fluctuating. The Company's share price as of February 3, 2023 was recorded at IDR 9,300 (+0.8% YtD), with a Price to Book Value ("PBV") of 1.27x. This PBV value was still below the 10 year average of 1.42x. On March 15, 2023, the Company received approval from the Annual GMS to carry out a Buyback of Company Shares ("Buyback") with reference to Financial Services Authority Regulation No. 30/POJK.04/2017 concerning Buyback of Shares Issued by Public Companies. The number of shares to be repurchased by the Company was estimated to be IDR905,000,000,000 (nine hundred and five billion Rupiah) or 10% of the total paid-up capital.

In accordance with Article 8 of FSA Regulation No. 30/POJK.04/2017 concerning the Buyback of Shares issued by Public Companies, the Buyback of Shares (buyback) is carried out and must be completed no later than 18 (eighteen) months after the date of the GMS which approves the Buyback of Shares (buyback), so that in the event The Company can carry out a Share Buyback for 18 (eighteen) months from the date of the decision of the 2022 Annual GMS which will be held on March 15, 2023 or at the latest it must be completed on September 15, 2024.

Buyback Timeline

No.	Activity	Date
1.	Announcement of information on share buyback plans and Announcement of the Annual GMS for the 2022 Fiscal Year	February 6, 2023
2.	Date of Approval of Annual GMS for Fiscal Year 2022	March 15, 2023
3.	Buyback Period	March 16 – September 15, 2024

As of December 31, 2023, the Company has carried out a buyback of IDR179,959,897,500 (one hundred seventy-nine billion nine hundred fifty-nine million eight hundred ninety-seven thousand five hundred rupiah) or the equivalent of 20,257,300 (twenty million two hundred fifty seven thousand three hundred) shares.

Management Of State Officials' Assets Reports (LHKPN)

LHKPN POLICY

BNI has a policy concerning the implementation of the State Officials Asset Report (LHKPN) based on:

1. Law Number 28 of 1999 concerning State Officials who are Clean and Free from Corruption, Collusion and Nepotism;
2. Law Number 30 of 2002 concerning the Corruption Eradication Commission. Law Number 10 of 2015 concerning Stipulation of Government Regulation in Lieu of Law Number 1 of 2015 concerning Amendments to Law No. 30 of 2002 concerning the Corruption Eradication Commission jo. Republic of Indonesia Law No. 19 of 2019 concerning the Second Amendment to Law No. 30 of 2002 concerning the Corruption Eradication Commission;
3. KPK Regulation No. 07 of 2016, as amended by KPK Regulation No. 2 of 2020 concerning Procedures for Registration, Announcement and Examination of State Officials' Assets;
4. Minister of Republic of Indonesia SOEs Circular No. SE-12/MBU/10/2021 concerning Obligations to Submit State Officials' Asset Reports (LHKPN) for Officials in State-Owned Enterprises.

These policies regulate the Position of BNI State Officials to report their assets, delivery procedures, LHKPN management and administrator work units, to the sanctions that can be imposed on employees who do not carry out their reporting obligations.

MANDATORY LHKPN REPORT

Based on the LHKPN Policy, LHKPN Mandatory Reporting applies to Structural Officials within the Bank, namely:

1. The Board of Commissioners;
2. The Board of Directors;
3. Senior Executive Vice President (SEVP);
4. Division/Unit Head or equivalent;
5. Regional Head;
6. General Manger (GM) Head of Overseas Branch; And
7. Board of Commissioners/Directors of Consolidated Subsidiaries/Affiliated Companies.

LHKPN MANAGEMENT

The LHKPN reporting manager consists of the LHKPN Management Coordinator, Application Admin, and LHKPN Work Unit Admin with the following details:

1. The LHKPN Management Coordinator is the unit that oversees the Human Capital Services function with the following scope of duties:
 - a. Coordinating with KPK in monitoring, filling out, and submitting LHKPN as well as socializing LHKPN obligations;
 - b. Coordinating with the Ministry of SOEs and KPK regarding the management and administration of the Mandatory LHKPN Application.
2. LHKPN Application Admin is an official who oversees the Human Capital Services function in the field of industrial relations with the following scope of duties:
 - a. Submit data regarding changes in positions of State Administrators to the Corruption Eradication Commission;
 - b. Coordinate with the KPK in managing LHKPN..
3. LHKPN Work Unit Admin is an official who monitors and coordinates with the LHKPN Application Admin. There are 3 Admin Work Units at BNI, namely:
 - a. Corporate Secretary Division;
 - b. Subsidiaries Management Division;
 - c. International Banking & Financial Institutions Division.

2023 LHKPN REPORT

As of the end of the 2023, out of 122 persons required to report, 122 or 100% fulfilled their LHKPN reporting obligations.

Transparency Of Financial and Non-Financial Conditions

Based on Financial Services Authority Regulation (FSAR) Number 14/POJK.04/2022 concerning Submission of Periodic Financial Reports for Issuers or Public Company, article 20 chapter Media and Broadcasting, it is stated that listed issuers or Public Company are required to publish Periodic Financial Reports only through the Stock Exchange website (paragraph 1) and through the issuer's or public company's website (paragraph 3). Prior to the issuance of the POJK on August 22 2022, the Bank strives to fulfill its financial and non-financial transparency and publication obligations in accordance with applicable regulations. The delivery and publication of information is carried out both through print and on the Bank's website as follows:

1. Monthly Financial Reports to regulators, which are also published through the FSA reporting system and the BNI website;
2. Quarterly Financial Reports to regulators, which are also published through the FSA reporting system and the BNI website;
3. Annual Financial Report to the regulator, which is also published through the FSA reporting system, the BNI website, and the issuer or public company reporting system;
4. BNI Annual Report submitted to regulators, rating agencies, banking development institutions, research institutions/institutions and published via the BNI website;
5. Periodic and incidental reports in order to comply with regulations in the Capital Market sector, published on the Company's website and the Indonesian Stock Exchange, and reported to the FSA, Indonesian Stock Exchange, Ministry of BUMN, and related regulators;
6. Corporate Governance Information, which includes the Annual Corporate Governance Report, Vision, Mission, Company Values, Code of Ethics, Composition and Profile of the Board of Commissioners and Directors, as well as internal provisions related to governance starting from the Articles of Association to the Corporate Charter which are also published via the BNI website;
7. Information on Company Products and Services including its office network is published through the Annual Report and BNI website, so that customers, investors and the wider public can easily access information on BNI products and services;
8. Information on Procedures for Submitting Complaints, BNI SafeTips for Customers to maintain data confidentiality when using banking services, which are published on the BNI website for the implementation of consumer protection provisions;
9. Other information aimed at supporting information disclosure, financial education and services to the community.

EASE OF SERVICE ACCESS

CUSTOMER EXPERIENCE CENTER AS BNI TOUCH POINT

In line with one of BNI's missions, namely providing excellent service and digital solutions to all customers as the main choice of business partner, the Customer Experience Center, as one of BNI's touch points, continues to strive to provide the best service for BNI customers.

The availability of call services 24/7 via BNI Call 1500046 (domestic) or +62-21-30500046 (overseas) makes it easy for customers to interact with BNI anytime and anywhere. With a focus on services that are easier, faster and more economical for customers, the Customer Experience Center is shifting call services to digital services by providing official BNI social media services on Facebook, Instagram, and X (Twitter), as well as services, Live Chat services on the BNI website, Ask BNI on BNI Mobile Banking, WhatsApp Business and the BNI Call Virtual Assistant application which can be downloaded via Playstore and Appstore. Apart from that, customers can send complaints to BNI via email bnicall@bni.co.id.

The Customer Experience Center is determined to consistently improve the quality of service to BNI customers. This effort is reflected in standardizing the quality of service processes by obtaining ISO 9001:2015 since 2016 and continuing to renew certification (resertification) every 3 years.

Always supporting BNI Go Global, the Customer Experience Center also has Trade & Remittance and Wholesale Services which provide support for the BNI Xpora program and BNI Direct customers. With this service, both domestic and foreign customers (individuals and corporations) will be assisted in carrying out import-export transactions. BNI also has BNI Emerald Call Service 1500098 to serve BNI priority customers and Merchant Care Service 1500146 to serve BNI and Agen46 merchant customers. To provide convenience and comfort for customers in obtaining information and submitting requests and complaints, all of the above services can be accessed 24 hours a day.

BNI CUSTOMER SERVICE AND COMPLAINT RESOLUTION PROCEDURES

As one of BNI's front line in providing services to customers, CXC is committed to providing the best service, including resolving every customer complaint for banking, credit card, merchant, trade & remittance and wholesale services. BNI customers are given easy access to complaint services with various media options, both verbal and written.

Instagram, and X (Twitter), as well as services, Live Chat

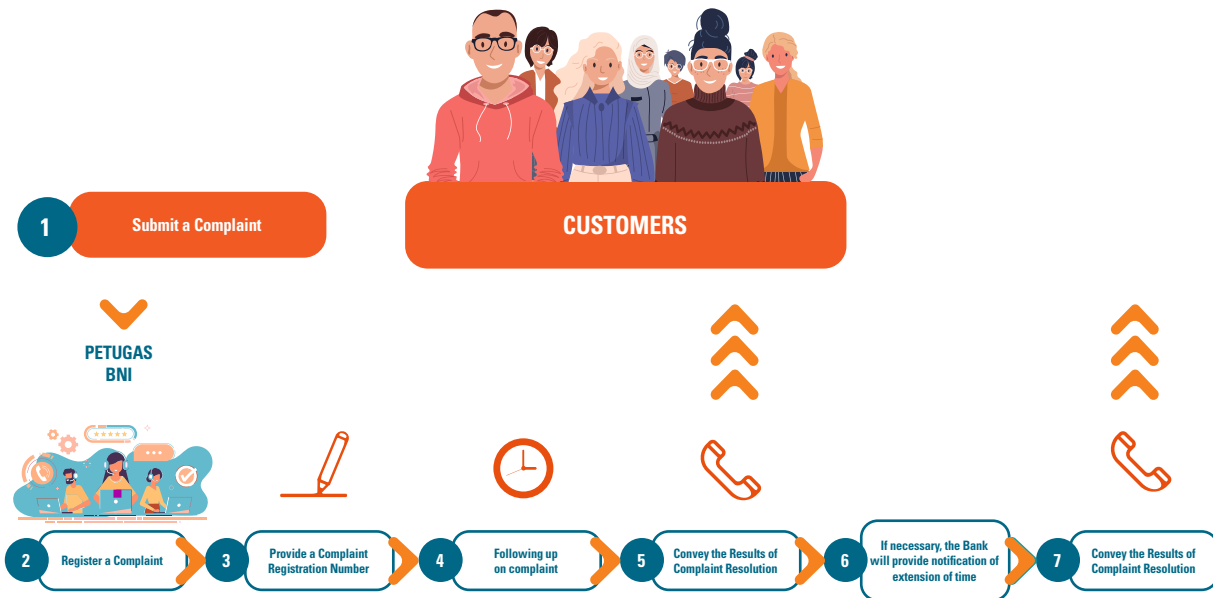

BNI provides solutions for resolving customer complaints submitted verbally within a maximum of 5 (five) working days, while resolving written complaints takes a maximum of 20 (twenty) working days. If supporting documents are required for a customer complaint submitted verbally, BNI will ask the customer to submit the complaint in writing. In this regard, customers can complete documents regarding complaints submitted within 20 (twenty) working days and can be extended within 20 (twenty) working days.

Under certain conditions, the resolution of written complaints can be extended within the next 20 (twenty) working days in accordance with POJK No. 1/POJK.07/2013 which has been updated through POJK No. 6/POJK.07/2022 concerning Consumer and Public Protection in the Financial Services Sector and POJK No. 18/POJK.07/2018 concerning Consumer Complaint Services in the Financial Services Sector. Information on the extension of time for resolving complaints is notified in writing to customers via telephone, e-mail, letter or WhatsApp.

Starting December 22, 2023, BNI implemented the written complaint resolution for a maximum of 10 (ten) working days and can be extended within a period of 10 (ten) working days in accordance with POJK No. 22 of 2023. This regulation also states that customers can complete documents regarding complaints submitted within 10 (ten) working days and can be extended within 10 (ten) working days.

Complaint Submission and Resolution Flow

If the customer feels that the resolution solution provided by BNI does not meet expectations, then the customer can continue the complaint resolution process through an Alternative Dispute Resolution Institution in accordance with POJK Number 6/POJK.07/2022 concerning Consumer and Community Protection in the Financial Services Sector, it is regulated that in terms of complaint services If an agreement is not reached by the PUJK, the consumer can resolve the dispute outside of court or through court. Dispute resolution in the financial services sector outside of court is carried out through the Alternative Financial Services Sector Dispute Resolution Institution (LAPS SJK).

Bad Corporate Governance Practices

The Company understands that bad corporate governance practices can disrupt the implementation of Good Corporate Governance (GCG). Therefore, throughout 2023, BNI is determined not to carry out actions and policies related to the practices shown in the following table:

Information	Practice
There is a report as a company that pollutes the environment	Nil
Important cases currently being faced by the Bank, its subsidiaries, members of the Board of Directors and/or members of the Board of Commissioners who are currently serving are not disclosed in the Annual Report	Nil
Non-compliance in fulfilling tax obligations	Nil
The inconsistency of the presentation of the Annual Report and Financial Statements with the applicable regulations and Financial Accounting Standards	Nil
Cases related to labor and employees	Nil
There is no disclosure of operating segments in listed companies	Nil
There is a discrepancy between the hardcopy Annual Report and the softcopy Annual Report	Nil

Integrated Governance Implementation

As an effort to ensure transparency in the implementation of Integrated Governance in the BNI Financial Conglomerate, as well as a follow-up to the provisions contained in Financial Services Authority Regulation No. 18/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Governance for Financial Conglomerates and Financial Services Authority Circular Letter No. 15/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Governance for Financial Conglomerates, the implementation of Integrated Governance for the BNI Financial Conglomerate in 2023 consists of:

1. Self-Assessment Report on the Implementation of Integrated Governance during 2023;
2. BNI Financial Conglomerate Structure;
3. Share ownership structure in the BNI Financial Conglomerate until December 2023;
4. BNI Financial Conglomerate Management Structure;
5. Basic Principles of Integrated Governance of the BNI Financial Conglomerate;
6. Intra-Group Transaction Policy in the BNI Financial Conglomerate.

The following is the implementation of BNI's Good Corporate Governance as the Main Entity in the BNI Financial Conglomerate.

Assessment Factors

No.	Assessment Factors
1.	Implementation of Duties and Responsibilities of Main Entity Board of Directors
2.	Implementation of Duties and Responsibilities of Main Entity Board of Commissioners
3.	Duties and Responsibilities of the Integrated Governance Committee
4.	Duties and Responsibilities of Integrated Compliance Work Unit
5.	Duties and Responsibilities of Integrated Internal Audit Work Unit
6.	Implementation of Integrated Risk Management
7.	Preparation and Implementation of Integrated Governance Guidelines

In 2023 period, BNI has prepared its own assessment regarding the implementation of Integrated Governance of the BNI Financial Conglomerate as follows:

Results of Self-Assessment of Integrated Governance Implementation

June 2023	December 2023	Rating Definition
2	2	The Financial Conglomerate is considered to have implemented Integrated Governance which is generally good. This is reflected in adequate fulfillment of the implementation of Integrated Governance principles. If there are weaknesses in the implementation of Integrated Governance, in general they can be resolved using normal actions by the Main Entity and/or Financial Services Institution.

SELF-ASSESSMENT REPORT ON IMPLEMENTATION OF INTEGRATED GOVERNANCE DURING 2023

Financial Services Authority Regulation No.18/POJK.03/2014 dated November 18, 2014 concerning the Implementation of Integrated Governance for Financial Conglomerates and Financial Services Authority Circular Letter No. 15/SEOJK.03/2015 dated May 25, 2015 concerning the Implementation of Integrated Governance for Financial Conglomerates, among other things, requires Financial Conglomerates to prepare Integrated Governance Self Assessment reports periodically (June and December) to the Financial Services Authority and submitted no later than the 15th of the second month after the end of the reporting month in question (August 15 and February 15).

Self Assessment of the implementation of Integrated Governance principles in the BNI Financial Conglomerate is carried out on 3 (three) aspects of Governance, namely Structure, Process and Results (Outcome) Self Assessment, at least must be realized and focused on 7 (seven) factors for assessing the implementation of Governance Integrated Management consisting of:

Based on the results of the Self Assessment of 7 (seven) Integrated Governance Implementation Assessment factors for 2023, we can conclude as follows:

1. Board of Directors of Main Entity

- a. All BNI Board of Directors have met the qualifications stipulated by applicable legislation. The number of Directors is 12 (twelve) people and all of them have fulfilled the requirements for integrity, competence and financial reputation as required by the Financial Services Authority (FSA);
- b. All members of the Board of Directors have adequate and relevant competencies for their position to carry out their duties and responsibilities and are able to implement their competencies in carrying out their duties and responsibilities;
- c. In the Integrated Governance process, the duties and responsibilities of the BNI Board of Directors related to the Integrated Governance process have been carried out and followed up in accordance with the direction of the BNI Board of Commissioners;
- d. The BNI Board of Directors has followed up on input from the BNI Board of Commissioners regarding the evaluation of the Integrated Governance Guidelines, as well as ensuring that audit findings from both internal and external sources have been followed up properly.

2. Board of Commissioners of Main Entity

- a. In the Integrated Governance structure, the entire BNI Board of Commissioners has met the qualifications stipulated by applicable legislation. The Board of Commissioners consists of 11 (eleven) people, 7 (seven) of whom are Independent Commissioners. 9 (Nine) Commissioners have obtained fit and proper test approval from the Financial Services Authority (FSA) and 2 (two) Commissioners are awaiting FSA approval.
- b. In the Integrated Governance process, the BNI Board of Commissioners has carried out its duties and responsibilities, including: holding regular meetings; supervising the implementation of the duties and responsibilities of the Main Entity Board of Directors as well as supervising the implementation of TKT; and provide input and direction as well as evaluation of audit findings, both internal and external, for follow-up by the Board of Directors; as well as providing input to the BNI Board of Directors in order to improve the Integrated Governance Guidelines;
- c. Minutes of Main Entity Board of Commissioners Meetings as well as recommendations from the supervision of the Main Entity Board of Commissioners related to the implementation of the duties and responsibilities of the BNI Board of Directors have been well documented.

3. Integrated Governance Committee

- a. The Integrated Governance Committee has been formed in accordance with applicable regulations;
- b. The TKT Committee has evaluated the implementation of TKT, at least through assessing the adequacy of internal control, implementation of integrated risk management and compliance functions;

- c. During 2023, the TKT Committee has held 9 (nine) TKT Committee Meetings to provide input regarding the implementation of Governance in the BNI Financial Conglomerate.

4. Integrated Compliance Work Unit

- a. The Compliance Division as an Integrated Compliance Work Unit (SKKT) is independent in accordance with applicable regulations;
- b. SKKT has carried out monitoring and evaluation through LJK Compliance Reports, meetings between SKKT and each Subsidiary which is an LJK in the BNI Financial Conglomerate which are held quarterly through one on one meetings and monitoring LJK business conduct every month.
- c. SKKT has submitted the results of monitoring, evaluation and suggestions for improving the implementation of the compliance function in each LJK periodically, namely quarterly, to the Director in charge of the Compliance function and semi-annually to the President Director and the Board of Commissioners.

5. Integrated Internal Audit Work Unit

- a. The Internal Audit Unit as the Integrated Internal Audit Work Unit (SKAIT) is independent in accordance with applicable regulations;
- b. SKAIT monitors the implementation of internal audits including:
 - i) Implementation of integrated audits for each LJK with audit mechanisms carried out individually, joint audits and SKAI LJK submitting implementation reports and the main points of audit results to SAI have been carried out by SKAI LJK.
 - ii) Evaluation of the implementation of the internal audit function in each LJK.
 - iii) Coordination with the LJK Internal Audit Work Unit (SKAI) LJK on a quarterly basis, with material discussing the Audit Work Plan, Principal Audit Results, and Follow-up to the Internal and External Audit Results of each LJK.
- c. SKAIT acts objectively in carrying out its duties and responsibilities, and submits reports on the implementation of its duties and responsibilities to the President Director and Board of Commissioners of the Main Entity with a copy to the Director in charge of the Compliance Function of the Main Entity.

6. Implementation of Integrated Risk Management

- a. Enterprise Risk Management Division as an independent Integrated Risk Management Work Unit (SKMRT) in accordance with applicable regulations;
- b. SKMRT has established and updated policies and determined risk limits that apply to all LJKs;
- c. The implementation of Integrated Risk Management has accommodated 4 (four) pillars of Risk Management implementation in accordance with Financial Services Authority Regulations.

BASIC PRINCIPLES OF INTEGRATED GOVERNANCE OF THE BNI FINANCIAL CONGLOMERATE

In order to support the business and operations of the BNI Financial Conglomerate, basic principles of Integrated Governance are needed which refer to the GCG Roadmap published by the Financial Services Authority and the ASEAN Corporate Governance Scorecard which is a reference for the implementation of GCG.

In accordance with this, the basic principles of Integrated Governance of the BNI Financial Conglomerate are as follows:

1. Implementation of Integrated Governance of the BNI Financial Conglomerate aims to create superior performance and add economic value for shareholders and other stakeholders, as well as ensuring that the operations of the BNI Financial Conglomerate comply with applicable laws and regulations, business ethics and Governance principles. Manage a Good Company;
2. Referring to the applicable statutory provisions, Financial Services Institutions (LJK) members of the Financial Conglomerate (KK) are separate legal entities from BNI and therefore have their own duties and responsibilities in managing the company;

3. KK Member of LJK is a legal entity in accordance with applicable statutory provisions, where in its management BNI is the Controlling Shareholder in the BNI financial Conglomerate;
4. Integrated Governance principles apply to KK Member LJKs as long as they are not regulated differently according to applicable laws and regulations. Articles of Association of KK Member LJKs that are not yet in compliance must be adjusted while taking into account the provisions that apply to KK Member LJKs.

INTRA-GROUP TRANSACTION POLICY IN THE BNI FINANCIAL CONGLOMERATE UNDERSTANDING INTRA-GROUP TRANSACTION RISK

UNDERSTANDING INTRA-GROUP TRANSACTION RISK

Ownership and/or control relationships in various financial services sectors will affect the business continuity of Financial Services Institutions (LJK) due to risk exposures that arise either directly or indirectly from the business activities of entities that are members of a Financial Conglomerate. Therefore, the Financial Services Authority (FSA) has issued a number of regulations regarding the implementation of integrated Risk Management in conglomerates in the financial services industry, one of which is the obligation of Financial Conglomerates to manage intra-group transaction risks.

Intra-group transaction risk is the risk that arises as a result of an entity's dependence, either directly or indirectly, on other entities within a Financial Conglomerate in order to fulfill written and unwritten agreement obligations which are followed by the transfer of funds and/or are not followed by the transfer of funds.

PURPOSE OF INTRA-GROUP TRANSACTION RISK MANAGEMENT

The implementation of intra-group transaction risk management in the BNI Financial Conglomerate aims to:

1. Regulate and supervise the risks of intra-group transactions of the Financial Conglomerate based on the principle of prudence;
2. Ensure that the integrated risk management process can minimize the possibility of negative impacts resulting from the dependence of an LJK either directly or indirectly on other LJKs within a Financial Conglomerate, as well as negative impacts on the business conditions of the BNI Financial Conglomerate as a whole.

INTRA-GROUP TRANSACTION RISK MANAGEMENT PRINCIPLES

There are several things that need to be done by BNI as the

main entity in implementing intra-group transaction Risk Management in the BNI Financial Conglomerate, including:

1. Have an adequate intra-group transaction risk management process for the Financial Conglomerate as a whole;
2. Monitor intra-group transactions within the Financial Conglomerate and prepare regular reports;
3. Encourage public disclosure regarding intra-group transactions;
4. Consider the impact of intra-group transactions on the performance of LJK members of the Financial Conglomerate directly and on the BNI Financial Conglomerate as a whole.

TYPES OF TRANSACTION THAT MIGHT POSE INTRA-GROUP TRANSACTION RISKS

Types of transactions that might pose risk to intra-group transaction in the BNI Financial Conglomerate include the following, but are not limited to:

1. Cross ownership between LJKs in Financial Conglomerates;
2. Centralization of short-term liquidity management in Financial Conglomerates;
3. Guarantees, loans and commitments given or obtained by an LJK from other LJKs in the Financial Conglomerate;
4. Exposure to controlling shareholders, including loan and off-balance sheet exposure such as guarantees and commitments;
5. Purchase or sale of assets from one LJK to another LJK in a Financial Conglomerate;
6. Risk transfer through reinsurance; And
7. Transactions to divert third party risk exposure between FSI in the Financial Conglomerate.

ADEQUACY OF RISK IDENTIFICATION, MEASUREMENT, MONITORING AND CONTROL PROCESSES AND INTRA-GROUP TRANSACTION RISK MANAGEMENT INFORMATION SYSTEMS

Implementing intra-group transaction risk management, BNI as the Main Entity carries out the process of identifying, measuring, monitoring and controlling risks for all material risk factors in an integrated manner, and supported by an adequate intra-group transaction risk management information system.

1. Identify Intra-Group Transaction Risks
Identification of intra-group transaction risks is carried out by analyzing the types of products and/or transactions between LJKs in the BNI Financial Conglomerate which could give rise to intra-group transaction risks in the BNI Financial Conglomerate.
2. Measurement of Intra-Group Transaction Risk
The aim of measuring intra-group transaction risk is to obtain a ranking of the level of risk of the Financial Conglomerate's intra-group transactions. Things that need to be done by BNI as the main entity in measuring intra-group transaction risk is to develop a methodology for

Capital & Risk Management
Practices

Good Corporate
Governance

Social & Environmental
Responsibility

ESG
Commitment

Financial
Statements

measuring intra-group transaction risk and evaluate the suitability of assumptions, data sources and procedures used to measure intra-group transaction risk.

3. Intra-Group Transaction Risk Monitoring

Intra-group transaction risk monitoring is carried out by evaluating the exposure to Intra-group Transaction Risk which is material or which has an impact on the capital condition of the Financial Conglomerate; as well as improving the reporting process and coverage, among other things, if there are material changes in business activities, products, transactions and risk factors.

To assess material intra-group financial relationships between LJKs in the BNI Financial Conglomerate, it is measured based on the value of BNI's financial transactions with LJK members of the BNI Financial Conglomerate, as well as between fellow LJKs in the BNI Financial Conglomerate.

4. Intra-Group Transaction Risk Control

order to implement risk control, BNI as the Main Entity ensures that the BNI Financial Conglomerate has control methods for intra-group transaction risks that could endanger the continuity of the Financial Conglomerate's business.

Intra-group transaction risk control in the BNI Financial Conglomerate is carried out by paying attention to:

- a. Composition of inherent risk parameters of intra-group transactions in the integrated risk profile assessment;
- b. Fulfillment of the arm's length principle (transaction fairness) regarding intra-group transactions;
- c. Availability and completeness of intra-group transaction documentation; And
- d. Fulfillment of applicable legal/regulatory provisions for each intra-group transaction.

5. The intra-group transaction risk management information system includes:

- a. Intra-group transaction risk profile report which is part of the integrated risk profile report;
- b. Intra-group transaction report, containing:
 - i) Recapitulation of transactions with related parties;
 - ii) Important agreements with related parties.

BNI as the Main Entity prepares and submits intra-group transaction risk profile reports as part of the integrated risk profile report and intra-group transaction reports to the Financial Services Authority on a semi-annual basis for June and December reporting positions.

As of December 31, 2023, all intra-group transactions have been carried out fairly (meeting the arm's length principle).

Corporate Governance Aspects And Principles Implementation In Accordance With Financial Services Authority Regulations

BNI always strives to implement the principles of Good Corporate Governance in every aspect of its business by referring to applicable laws and regulations as regulated in POJK No. 21/POJK.04/2015 concerning Implementation of Public Company Governance Guidelines and SEOJK No. 32/SEOJK.04/2015 concerning Public Company Governance Guidelines, there are 5 (five) aspects, 8 (eight) principles and 25 (twenty five) recommendations for implementing aspects and principles of good corporate governance. Recommendations for implementing aspects and principles of good corporate governance in the Governance Guidelines are standards for implementing aspects and principles of good corporate governance that must be implemented by the Bank to implement governance principles. BNI implements these aspects, principles and recommendations based on the “comply or explain” approach in 2023 as follows:

No.	Principle	Recommendation	Statement of Financial Services Authority Recommendations	Explanation of Implementation at BNI
I	Aspect 1: Public Company Relationship with Shareholders in Ensuring Shareholder Rights			
	Principle 1 Increasing the Value of Holding GMS	Public Company have technical methods or procedures for collecting votes (voting) both openly and privately that prioritize independence, and shareholder interests.	Each share with voting rights issued has one voting right (one share one vote). Shareholders can use their voting rights when making decisions, especially when making decisions by collecting votes. However, the decision-making mechanism by means of voting, both openly and privately, has not been regulated in detail. Public Company are recommended to have voting procedures in making decisions on a GMS agenda. The voting procedures must maintain the independence or freedom of Shareholders. For example, voting is done openly by raising hands in accordance with the choice instructions offered by the chairman of the GMS. Meanwhile, closed voting is carried out on decisions that require confidentiality or at the request of Shareholders, by using voting cards or by using electronic voting.	Voting procedures in making decisions on a Company's GMS agenda are carried out by voting both openly and closed in accordance with the 2022 Annual GMS and 2023 Extraordinary GMS rules, namely by the Shareholders or their Proxies raising their hands and handing over their voting cards to the officers. and for shareholders or their proxies who do not raise their hands, they are deemed to have agreed to the proposal submitted in connection with the Meeting Agenda being discussed. Apart from that, voting was also carried out using electronic voting provided by eASY.KSEI. Procedures and procedures for calculating the quorum, questions and answers and meeting decision-making mechanisms have been outlined in the GMS Rules and Regulations which refer to Financial Services Authority Regulation No. 15/POJK.04/2020 concerning Planning and Organizing General Meetings of Shareholders of Public Company as well as Financial Services Authority Regulation no. 16/POJK.04/2020 concerning Implementation of Electronic General Meetings of Shareholders of Public Company.

No.	Principle	Recommendation	Statement of Financial Services Authority Recommendations	Explanation of Implementation at BNI
		The Public Company discloses the Public Company's communication policy with shareholders or investors on the Website	Disclosure of communication policies is a form of transparency regarding the Public Company's commitment to providing equality to all Shareholders or investors regarding the implementation of communications. Disclosure of this information also aims to increase the participation and role of Shareholders or investors in implementing Public Company communication programs	Disclosure of communication policies and communication agendas with Shareholders or investors have been uploaded to the Investor Relations website. Description: Comply
II Aspect 2: Functions and Roles of the Board of Commissioners				
	Principle 3 Strengthening the Membership and Composition of the Board of Commissioners	Determining the number of members of the Board of Commissioners by considering the conditions of the Public Company.	The number of members of the Board of Commissioners can influence the effectiveness of the implementation of the duties of the Board of Commissioners. Determining the number of members of a Public Company's Board of Commissioners must refer to the provisions of applicable laws and regulations, which is at least consisting of 2 (two) people based on the provisions of the Financial Services Authority regulations regarding the Board of Directors and Board of Commissioners of Issuers or Public Company. Apart from that, it is also necessary to consider the conditions of Public Company, which include, among other things, characteristics, capacity and size, as well as achieving goals and meeting different business needs among Public Company. However, the number of members of the Board of Commissioners that is too large has the potential to disrupt the effectiveness of the implementation of the Board of Commissioners' functions.	The number of members of the Board of Commissioners at BNI as of December 31 2023 is 11 (eleven) people taking into account the diversity of composition, this number is deemed sufficient and in accordance with BNI's conditions and adjusted to the provisions of Financial Services Authority Regulation No. 33/POJK.04/2014. Description: Comply
		Determining the composition of members of the Board of Commissioners takes into account the diversity of skills, knowledge and experience required.	The composition of the Board of Commissioners is a combination of characteristics both in terms of the organs of the Board of Commissioners and individual members of the Board of Commissioners, in accordance with the needs of the Public Company. These characteristics can be reflected in determining the skills, knowledge and experience required in carrying out supervisory duties and providing advice by the Board of Commissioners of a Public Company. A composition that takes into account the needs of Public Company is a positive thing, especially regarding decision making in the context of implementing the supervisory function which is carried out by considering various broader aspects.	The current composition of the Board of Commissioners meets the elements of diversity, namely a combination of independence, expertise/education, work experience, age, taking into account the needs and complexity of BNI. This has been explained in the Sub-Chapter on Diversity in the Composition of the Board of Commissioners in this Governance Report. Description: Comply
	Principle 4 Improving the Quality of Implementation of Duties and Responsibilities of the Board of Commissioners	The Board of Commissioners has a self-assessment policy to assess the performance of the Board of Commissioners.	The Board of Commissioners' self-assessment policy is a guideline used as a form of accountability for the collegial performance assessment of the Board of Commissioners. Self Assessment or self-assessment is carried out by each member to assess the implementation of the performance of the Board of Commissioners in a collegial manner, and not to assess the individual performance of each member of the Board of Commissioners. With this Self Assessment, it is hoped that each member of the Board of Commissioners can contribute to improving the performance of the Board of Commissioners on an ongoing basis. This policy may include the assessment activities carried out along with their aims and objectives, the timing of their implementation on a regular basis, and the benchmarks or assessment criteria used in accordance with the recommendations provided by the nomination and remuneration function of the Public Company, where the existence of this function is required in the Regulations. Financial Services Authority regarding the Nomination and Remuneration Committee of Issuers or Public Company.	The Self Assessment policy is to assess the performance of the Board of Commissioners based on the achievement of the realization of the Board of Commissioners' work program in accordance with the Board of Commissioners' Work Plan and Budget (RKA) and through a GCG Self Assessment which includes indicators of the duties and responsibilities of the Board of Commissioners. The Self Assessment policy to assess the performance of the Board of Commissioners based on the achievement of the realization of the Board of Commissioners' work program in accordance with the Board of Commissioners' Work Plan and Budget (RKA) is described through advisory indicators on performance, strengthening executive functions and monitoring compliance. Meanwhile, the assessments contained in the GCG Self Assessment are divided into 3 (three) benchmarks, namely Governance Process and Governance Outcome. Governance structure consists of 14 (fourteen) indicators, governance process consists of 17 (seventeen) indicators while governance outcomes consist of 6 (six) indicators. Description: Comply

Financial Statements

No.	Principle	Recommendation	Statement of Financial Services Authority Recommendations	Explanation of Implementation at BNI
		The self-assessment policy for assessing the performance of the Board of Commissioners is disclosed in the Public Company's Annual Report.	Disclosure of the Self Assessment policy on the performance of the Board of Commissioners is carried out not only to fulfill the transparency aspect as a form of accountability for the implementation of their duties, but also, to provide confidence, especially to Shareholders or investors regarding the efforts that need to be made to improve the performance of the Board of Commissioners. With this disclosure, Shareholders or investors know the check and balance mechanism for the performance of the Board of Commissioners.	Disclosure of the Self Assessment policy on the performance of the Board of Commissioners. The self-assessment policy contained in the RKA is conveyed through the Public Company's Annual Report, while the results of the GCG Self Assessment on the duties and responsibilities of the Board of Commissioners are submitted to the regulator. Description: Comply
		The Board of Commissioners has a policy regarding the resignation of members of the Board of Commissioners if they are involved in financial crimes.	The policy of resigning members of the Board of Commissioners who are involved in financial crimes is a policy that can increase stakeholders' trust in Public Company, so that the company's integrity will be maintained. This policy is needed to help the legal process run smoothly and so that the legal process does not interfere with the running of business activities. Apart from that, from a morality perspective, this policy builds an ethical culture within the Public Company environment. These policies can be included in the Guidelines or Code of Ethics that apply to the Board of Commissioners. Furthermore, what is meant by being involved in a financial crime is the existence of a convicted member of the Board of Commissioners from the competent authority. Financial crimes include manipulation and various forms of embezzlement in financial services activities as well as criminal acts of money laundering as intended in Law no. 8 of 2010 concerning Prevention and Eradication of Money Laundering.	The resignation policy of the Board of Commissioners is contained in the Articles of Association, namely Article 14 paragraph 16 c and f which states that the dismissal of members of the Board of Commissioners, among other things, if they are involved in actions that are detrimental to the Company and/or the State, Article 14 paragraph 18 which states that the decision to dismiss is for this reason taken after the person concerned is given the opportunity to defend themselves at the GMS, as well as Article 14 paragraph 26 f which states that the position of a member of the Board of Commissioners automatically ends if they no longer fulfill the requirements as a member of the Board of Commissioners based on these Articles of Association and statutory regulations. Description: Comply
		The Board of Commissioners or the Committee that carry out the Nomination and Remuneration function prepares a succession policy for members of the Board of Directors.	Based on the provisions of the Financial Services Authority Regulation concerning Nomination and Remuneration Committees for Issuers or Public Company, the committee carrying out the nomination function has the task of formulating the policies and criteria required in the nomination process for prospective members of the Board of Directors. One policy that can support the nomination process as intended is the succession policy for members of the Board of Directors. The policy regarding succession aims to maintain the continuity of the leadership regeneration or cadre process at BNI in order to maintain business continuity and BNI's long-term goals.	One of the organs of the Board of Commissioners is the Nomination and Remuneration Committee which carries out nomination functions, including assisting the Board of Commissioners in assessing the performance of members of the Board of Directors and/or members of the Board of Commissioners based on benchmarks that have been prepared as evaluation material, guided by BUMN regulation No. Per-3/MBU/03/2023 2023. Description: Comply
III Aspect 3: Functions and Roles of the Board of Directors				
	Principle 5 Strengthening the Membership and Composition of the Board of Directors.	Determining the number of members of the Board of Directors by considering the condition of BNI Open and effectiveness in decision making.	As a company organ with authority to manage BNI, determining the number of Directors greatly influences the performance of a Public Company. Thus, the determination of the number of members of the Board of Directors must be carried out through careful consideration and must refer to the provisions of the applicable Laws and Regulations, which based on the Financial Services Authority Regulations concerning the Board of Directors and Board of Commissioners of Issuers or Public Company consists of at least 2 (two) people. In addition, determining the number of Board of Directors must be based on the need to achieve the goals and objectives of the Public Company and adjusted to the conditions of the Public Company, including the characteristics, capacity and size of the Public Company as well as how effective the Board of Directors' decision making is achieved.	The number and capacity of members of the Board of Directors are based on the provisions of Financial Services Authority Regulation No. 33/POJK.04/2014. The number of members of the Board of Directors as of December 31 2022 is 12 (twelve) people. Description: Comply

No.	Principle	Recommendation	Statement of Financial Services Authority Recommendations	Explanation of Implementation at BNI
		Determining the composition of members of the Board of Directors takes into account the diversity of skills, knowledge and experience required	As with the Board of Commissioners, diversity in the composition of members of the Board of Directors is a combination of desirable characteristics both in terms of the Board of Directors and individual members of the Board of Directors, in accordance with the needs of the Public Company. This combination is determined by taking into account the appropriate skills, knowledge and experience in the division of duties and functions of the Board of Directors in achieving the goals of the Public Company. Thus, consideration of the combination of characteristics referred to will have an impact on the accuracy of the process of nominating and appointing individual members of the Board of Directors or collegial Directors.	The current composition of BNI's Board of Directors meets the elements of diversity, namely a combination of independence, expertise/education, work experience, age and gender by taking into account BNI's needs and complexity. This has been explained in the Sub-Chapter on Diversity of Directors' Composition in this Governance Report. Description: Comply
		Members of the Board of Directors who are in charge of accounting or finance have expertise and/or knowledge in accounting.	Members of the Board of Directors who are in charge of accounting or finance have expertise and/or knowledge in accounting.	The Finance Director, Novita Widya Anggraini, has an educational background in accounting economics and throughout 2023 will increase her competency in this field. For further information, see the Company Profile Chapter, Directors Profile Sub-chapter, Page 94 Description: Comply
	Principle 6 Improving the Quality of Implementation of Directors' Duties and Responsibilities.	The Board of Directors has a self-assessment policy to assess the performance of the Board of Directors.	As with the Board of Commissioners, the Board of Directors' Self Assessment policy is a guideline used as a form of accountability for the collegial assessment of the Directors' performance. Self-assessment or self-assessment is carried out by each member of the Board of Directors to assess the implementation of the performance of the Board of Directors in a collegial manner, and not to assess the individual performance of each member of the Board of Directors. With this Self Assessment, it is hoped that each member of the Board of Directors can contribute to improving the performance of the Board of Directors on an ongoing basis. This policy may include assessment activities carried out along with their aims and objectives, the timing of their implementation on a regular basis, and the benchmarks or assessment criteria used in accordance with the recommendations provided by the nomination and remuneration function of the Public Company, where the establishment of this function has been required in the Regulations. Financial Services Authority regarding the Nomination and Remuneration Committee of Issuers or Public Company.	The Board of Directors' performance assessment policy is contained in the BOD's Guiding Principle Key Performance Indicator (KPI). The performance measurement of the Board of Directors consists of several KPIs which are measured collegially among all Directors and are both quantitative and qualitative in nature. This policy includes assessment activities carried out on several factors, namely market capitalization, profit, market share and leadership. The Remuneration and Nomination Committee has evaluated and prepared and provided recommendations to the Board of Commissioners regarding the nomination and remuneration system/policy for Board of Commissioners, Board of Directors, executive officers and employees as a whole. Description: Comply
		The self-assessment policy for assessing the performance of the Board of Directors is disclosed in the Public Company's annual report. The Self-Assessment policy for assessing the performance of the Board of Directors is disclosed in the Public Company's annual report.	Disclosure of the Self Assessment policy on the performance of the Board of Directors is carried out not only to fulfill the transparency aspect as a form of accountability for the implementation of their duties, but also to provide important information regarding improvement efforts in the management of Public Company. This information is very useful in providing confidence to Shareholders or investors that there is certainty that company management will continue to be carried out in a better direction. With this disclosure, Shareholders or investors know the check and balance mechanism for the performance of the Board of Directors.	Every year, the Board of Directors' Performance Assessment is disclosed in the Annual Report which can be accessed by Shareholders/investors and other stakeholders via the BNI website so that this information is very useful in providing confidence to Shareholders or investors that there is certainty that the company's management will continue to be carried out in a better direction. 			<p>The policy of resigning members of the Board of Directors who are involved in financial crimes is a policy that can increase stakeholders' trust in Public Company, so that the integrity of the company will be maintained. This policy is needed to help the legal process run smoothly and so that the legal process does not interfere with the running of business activities. Apart from that, from a morality perspective, this policy will build an ethical culture within the Public Company environment. These policies can be included in the Guidelines or Code of Ethics that apply to the Board of Directors. Furthermore, what is meant by being involved in a financial crime is that a member of the Board of Directors has a convicted status from the authorized party. Financial crimes include manipulation and various forms of embezzlement in financial services activities as well as criminal acts of money laundering as intended in Law Number 8 of 2010 concerning Prevention and Eradication of Money Laundering Crimes.</p>	<p>The Company will act actively if a financial crime occurs, as stated in the Articles of Association, namely Article 11 paragraph 13 paragraph 23 in conjunction with Article 11 paragraph 14 d which states that members of the Board of Directors can be dismissed at any time for reasons, among others, if they are involved in actions that are detrimental to the Company and/or State, Article 11 paragraph 15 states that the decision to dismiss for this reason is taken after the person concerned has been given the opportunity to defend himself at the GMS, and Article 11 paragraph 24 f which states that the position of a member of the Board of Directors automatically ends if they no longer fulfill the requirements as a member of the Board of Directors based on these Articles of Association and statutory regulations. Apart from that, the Articles of Association also state that members of the Board of Directors can be temporarily dismissed by the Board of Commissioners by stating the reasons if the person concerned acts contrary to the Articles of Association or there are indications of causing losses to the Company or neglecting their obligations or there are urgent reasons for the Company. The Company has a BNI Anti-Money Laundering and Countering Financing of Terrorism (AML & CFT) Policy Statement in the context of enforcing Law no. 8 of 2010 concerning Prevention and Eradication of Money Laundering.</p> <p>Description: Comply</p>
IV Aspect 4: Stakeholder Participation				
	Principle 7 Improving Corporate Governance Aspects through Stakeholder Participation.	Public Company have policies to prevent insider trading	<p>A person who has insider information is prohibited from carrying out securities transactions using inside information as intended in the Law on Capital Markets. Public Company can minimize the occurrence of insider trading through prevention policies, for example by strictly separating confidential data and/or information from public ones, as well as dividing duties and responsibilities for managing the information in question proportionally and efficiently.</p>	<p>BNI has a policy regarding insider information to prevent insider trading. This policy is outlined in the Company Guidelines (e-PP).</p> <p>Description: Comply</p>
		Public Company have anti-corruption and anti-fraud policies.	<p>Anti-corruption policies are useful for ensuring that Public Company business activities are carried out legally, prudently and in accordance with the principles of good governance. This policy can be part of a code of ethics, or in its own form. This policy may include, among other things, programs and procedures carried out to overcome corrupt practices, kickbacks, fraud, bribery and/or gratification in Public Company. The scope of the policy must describe the Public Company's prevention of all corrupt practices whether giving or receiving from other parties.</p>	<p>In order to comply with FSA regulations no. 39/POJK.03/2019 concerning Implementation of Anti-Fraud Strategies for Commercial Banks SEBI No. 13/28/DPNP dated 9 December 2011 concerning the Implementation of an Anti-Fraud Strategy to grow the Anti-Fraud Committee to foster anti-Fraud culture and awareness at all levels of the organization. The no Fraud for our bank Policy and Principles are implemented through the Implementation of an Anti-Fraud Strategy. To measure the realization of a culture of compliance, the Compliance Division has developed a tool called Compliance Index (CIX). Meanwhile, anti-corruption policies have been regulated in the code of ethics, Gratification Guidelines and BNI Whistleblowing System that can be accessed by all employees and stakeholders via the BNI website.</p> <p>Description: Comply</p>

		Public Company have policies regarding the selection and improvement of supplier or vendor capabilities.	<p>Policies regarding supplier or vendor selection are useful for ensuring that Public Company obtain the required goods or services at competitive prices and good quality. Meanwhile, the policy of increasing supplier or vendor capabilities is useful for ensuring that the supply chain runs efficiently and effectively. The ability of suppliers or vendors to supply/fulfill the goods or services needed by the company will affect the quality of the company's output. Implementation of these policies can guarantee continuity of supply, both in terms of quantity and quality required by Public Company. The scope of this policy includes criteria for selecting suppliers or vendors, transparent procurement mechanisms, efforts to increase the capabilities of suppliers or vendors, and fulfillment of rights related to suppliers or vendors.</p>	<p>The Company has a policy for selecting and improving the capabilities of suppliers or vendors which is outlined in the form of Company Guidelines (e-PP) for Procurement No. IN/156/PGV/017. The policy also regulates Procurement Procedures including the methods and process flow. The implementation of this policy is always implemented in the process of Procurement of Goods and/or Services and is guided by all employees. Providers of goods and/or services required by BNI must be registered in the manual system or in the e-Procurement application system. Notification of winners for procurement of goods and/or services is also carried out transparently.</p> <p>Description: Comply</p>
		Public Company have policies regarding fulfilling creditor rights.	<p>Policies regarding the fulfillment of creditors' rights are used as guidelines in making loans to creditors. The aim of the policy in question is to ensure the fulfillment of rights and maintain creditors' trust in Public Company. This policy includes considerations in entering into agreements, as well as follow-up actions in fulfilling the Public Company's obligations to creditors.</p>	<p>Policies regarding creditor rights have been stated in the agreement in the event that BNI enters into a loan agreement with creditors. In the agreement, the rights and obligations of the parties are stated, related to creditor rights, for example providing transparent, accurate and timely information both at the time of request and use of a loan, maintaining appropriate financial ratios (Current Ratio, DeR, Debt to Service Ratio). with the ratio agreed with creditors, submit annual audited financial reports within the time period agreed with creditors, and so on.</p> <p>Description: Comply</p>
		Public Company have a whistleblowing system policy.	<p>A well-drafted whistleblowing system policy will provide certainty of protection for witnesses or whistleblowers regarding indications of violations committed by employees or management of a Public Company. Implementation of these system policies will have an impact on the formation of a good corporate governance culture. The whistleblowing system policy includes, among other things, the types of violations that can be reported through the whistleblowing system, how to make complaints, protection and guarantee of confidentiality of the reporter, handling of complaints, parties who manage complaints, and the results of handling and follow-up on complaints.</p>	<p>Management of the Whistleblowing System (WBS) at BNI under the name "WBS to CEO". WBS is a commitment to creating a clean work environment with integrity in the form of active participation by BNI Hi-Movers to report violations that occur within BNI. You can report violations via WBS carried out by telephone, email, letter or website.</p> <p>Description: Comply</p>

		Public Company have a policy of providing long-term incentives to Board of Directors and employees	<p>Long-term incentives are incentives that are based on long-term performance achievements. Long-term incentive plans are based on the premise that the company's long-term performance is reflected by the growth in the value of shares or other long-term company targets. Long-term incentives are useful in maintaining loyalty and providing motivation to Directors and employees to improve their performance or productivity which will have an impact on improving company performance in the long term. The existence of a long-term incentive policy is a real commitment of the Public Company to encourage the implementation of providing long-term incentives to the Board of Directors and Employees with terms, procedures and forms that are adapted to the long-term goals of the Public Company. The policy in question may include, among other things: the aims and objectives of providing long-term incentives, conditions and procedures for providing incentives, as well as conditions and risks that Public Company must pay attention to when providing incentives. The policy may also be included in the Public Company's existing remuneration policy.</p>	<p>In order to comply with article 23 of FSA Regulation No 45/POJK.03/2015 concerning the Implementation of Governance in Providing Remuneration for Commercial Banks, for the 2022 Performance which is paid in 2023, 10% (ten percent) of the total Tantiem, will be paid as Variable remuneration is deferred for 3 years to the Board of Directors and Board of Commissioners, as an implementation of Long Term Incentives.</p> <p>Tantiem in the form of deferred variable remuneration to non-independent members of the Board of Directors and Board of Commissioners is given in the form of Company shares, while to members of the Independent Board of Commissioners it is given in the form of cash kept in the form of deposits.</p> <p>The Company can postpone the payment of deferred Variable Remuneration (Malus) or withdraw Variable Remuneration that has been paid (clawback) to parties who are Material Risk Takers under certain conditions.</p> <p>This deferred Variable Remuneration payment policy is BNI's commitment which is adjusted to the Company's long-term goals and statutory provisions.</p> <p>Description: Comply</p>
V Aspect 5: Information Disclosure				
	Principle 8 Improving the Implementation of Information Disclosure.	Public Company make wider use of information technology apart from Websites as a medium for information disclosure	<p>The use of information technology can be useful as a medium for information disclosure. The information disclosure carried out is not only information disclosure that has been regulated in statutory regulations, but also other information related to Public Company which is felt to be useful for Shareholders or investors to know. By utilizing information technology more widely apart from websites, it is hoped that companies can increase the effectiveness of disseminating company information. However, the use of information technology still takes into account the company's benefits and costs.</p>	<p>Apart from the website, BNI also utilizes other information technology such as BNI Greeting email, X, Instagram, and TikTok (@BNI46) as a means of communication and a medium for information disclosure. Information disclosure carried out is not only disclosure of information regulated in statutory regulations but also other information related to Public Company which is felt to be useful for Shareholders/investors to know.</p> <p>Description: Comply</p>
		The Annual Report of a Public Company discloses the ultimate beneficial owner in Public Company share ownership of at least 5% (five percent), in addition to disclosure of the ultimate beneficial owner in Public Company share ownership through the main and controlling shareholders.	<p>Legislation in the Capital Market sector which regulates the submission of annual reports of Public Company has regulated the obligation to disclose information regarding Shareholders who own 5% (five percent) or more of the shares of a Public Company as well as the obligation to disclose information regarding the main and controlling Shareholders of Public Company either directly or indirectly up to the last beneficial owner in ownership of the shares. In these Governance Guidelines it is recommended to disclose the ultimate beneficial owner of Public Company share ownership of at least 5% (five percent), in addition to disclosing the ultimate beneficial owner of share ownership by the main and controlling Shareholders</p>	<p>The final beneficial owner of Public Company share ownership of at least 5% (five percent) has been disclosed in the Annual Report Sub-chapter List of Shareholders and Sub-chapter Share Ownership of Directors and Board of Commissioners.</p> <p>Description: Comply</p>

Implementation Of Indonesian Corporate Governance General Guidelines (PUGKI)

The Company applies the principles and recommendations of PUGKI 2021 based on an "comply/explain" approach with implementation details as follows:

Principle	Recommendation	Implementation

Principle	Recommendation	Implementation
1.3. Roles and Responsibilities of the Board of Commissioners	<p>1.3.1. The Board of Commissioners reviews the corporate strategy at least annually and approves the mission, vision and corporate strategy formulated by the Board of Directors. The Board of Commissioners also reviews, provides advice and approves business plans and long-term financial plans and short-term financial plans of the corporation. The Board of Commissioners provides advice and monitors the Board of Directors regarding implementation management. The Board of Directors and Board of Commissioners are involved in very important decisions for the corporation, regulated in the corporation's articles of association.</p>	<p>Applied The Board of Commissioners has reviewed the corporate strategy at least annually by providing approval for the Bank Business Plan (RBB) and Company Budget Work Plan (RKAP) documents, as well as RBB and RKAP Revisions. The Board of Commissioners has also provided advice and monitored the Board of Directors regarding implementation management through Board of Commissioners Meetings inviting the Board of Directors every quarter to review the Company's performance. The Board of Commissioners also prepares an RBB Monitoring Report which is submitted to the competent authority every semester.</p>
1.3.2.	<p>The types of decisions that require approval from the Board of Commissioners must be disclosed in the annual report</p>	<p>Applied, Based on BNI's Articles of Association, it is stipulated that the Board of Commissioners has obligations, one of which is to provide written approval for legal actions carried out by the Board of Directors as required in BNI's Articles of Association, taking into account the laws and regulations and provisions in the Capital Market sector, namely as follows:</p> <ul style="list-style-type: none"> a. Releasing/transferring and/or pledging Company assets with criteria and value exceeding a certain amount determined by the Board of Commissioners, except for assets recorded as inventory, taking into account provisions in the capital market and banking sector; b. Cooperating with business entities or other parties, in the form of Operational Cooperation (KSO), Business Cooperation (KSU), License Cooperation, Build, Operate and Transfer (BOT), Build, Transfer (Build, Transfer), and Operate/BTO, Build, Operate and Own/BOO, and other agreements of the same nature whose term or value exceeds that determined by the Board of Commissioners; c. Determine and change the Company's logo; d. Establish an organizational structure 1 (one) level below the Board of Directors; e. Make capital investments, release capital investments, including changes to the capital structure with a certain amount determined by the Board of Commissioners in other companies, subsidiaries and joint venture companies that are not in the context of saving receivables by taking into account provisions in the Capital Market sector; f. Establish a subsidiary and/or joint venture company with a certain value determined by the Board of Commissioners by taking into account provisions in the Capital Market sector; g. Proposing representatives of the Company to become candidates for members of the Board of Directors and Board of Commissioners in subsidiaries that make significant contributions to the Company and/or have strategic value as determined by the Board of Commissioners; h. Carry out mergers, consolidations, takeovers, separations and dissolution of subsidiaries and joint ventures with certain values determined by the Board of Commissioners taking into account provisions in the Capital Market sector; i. Carry out actions which are included in material transactions as determined by statutory regulations in the capital markets sector with a certain value determined by the Board of Commissioners, unless such actions are included in material transactions which are excluded by the applicable Legislative Regulations in the Capital Markets sector; j. Actions that have not been specified in the RKAP; k. Actions to transfer include selling, relinquishing the right to collect and/or no longer collecting: <ul style="list-style-type: none"> i. Bad principal receivables that have been written off in the context of credit settlement, either in part or in whole; And ii. The difference between the value of bad debts that have been written off and the value of the transfer including sales or the value of the disposal of rights; carried out based on the policy of the Board of Directors which has been approved by the Board of Commissioners and within the amount of the ceiling (limit) for write-offs that has been determined by the GMS which will remain in effect until a new ceiling (limit) is determined by the GMS. <p>Approval of the Board of Commissioners regarding poin a, b, e, f, g, and h above with certain limitations and/or criteria, determined in accordance with the limitations and/or criteria that have received approval from the Series A Dwiwarna Shareholders. Determination of limits and/or criteria by the Board of Commissioners for the matters referred to poin a, b, e, f, g, and h above have also been determined by the Board of Commissioners in accordance with certain limits and/or criteria that have received approval from Dwiwarna Series A Shareholders above, and stated in the Decree of the Board of Commissioners.</p>

Principle	Recommendation	Implementation
	<p>1.3.3. By taking into account the recommendations of the Nomination and Remuneration Committee, the Board of Commissioners proposes to, and is decided by, the GMS the appointment and/or dismissal of members of the Board of Directors and members of the Board of Commissioners. In proposing the above, the Board of Commissioners pays attention to diversity, non-discriminatory elements and provides equal opportunities without distinction between ethnicity, religion, race, group and gender. The Board of Commissioners ensures that the nomination and election process for members of the Board of Directors and members of the Board of Commissioners is formal and transparent.</p>	<p>Applied. Prior to the implementation of the GMS, an agenda for the Nomination and Remuneration Committee meeting was carried out.</p>
	<p>1.3.4. The Board of Commissioners or the Committee that carries out the nomination function prepares a succession policy in the nomination process for members of the Board of Directors. Every year, the Board of Commissioners reviews reports on the implementation of development and succession plans submitted by the President Director.</p>	<p>Applied. The Board of Commissioners, through the Nomination and Remuneration Committee, is scheduled to discuss the development and succession of the Board of Directors</p>
	<p>1.3.5. Board of Commissioners a. submit to the GMS, which may be preceded by a proposal from the Committee carrying out the remuneration function, the amount of remuneration for members of the Board of Directors and members of the Board of Commissioners that is in line with sustainable corporate development and the long-term interests of the corporation and shareholders; b. periodically review the remuneration system for the Board of Directors and Board of Commissioners.</p>	<p>Applied. The Nomination and Remuneration Committee conducts discussions and proposals for remuneration. The Nomination and Remuneration Committee conducts studies and reviews of Remuneration</p>
	<p>1.3.6. The Board of Commissioners supervised the effectiveness of corporate governance policies and their implementation and proposes changes if necessary.</p>	<p>Applied. The Board of Commissioners, also with the support of the Integrated Governance Committee as one of the organs of the Board of Commissioners, has carried out its supervisory function regarding through discussions with the Board of Directors regarding the implementation of the Company's Corporate Governance, as well as supervision of the Governance of Subsidiaries which are members of the BNI Financial Conglomerate in accordance with the concept Integrated Governance which is mandatory according to OJK Regulations.</p>
	<p>1.3.7. The Board of Commissioners supervises and directs the corporation to implement appropriate and effective risk management and internal control systems that are in line with corporate goals, objectives and strategies and comply with applicable laws and regulations, codes of conduct and standards.</p>	<p>Applied. The Board of Commissioners has carried out monitoring and supervision, including providing suggestions and advice to the Board of Directors, through a series of meetings between the Board of Commissioners and the Board of Directors, to discuss the implementation of Risk Management in the Company, and the implementation of the Internal Control System.</p>
	<p>1.3.8. The Board of Commissioners supervises and directs the achievement of the integrity of the corporate accounting and financial reporting system, as well as the independence of the internal and external audit functions.</p>	<p>Applied. The Board of Commissioners has discussed with the Board of Directors regarding the Determination of an External KAP for the Audit of BNI's Annual Financial Report and Other Reports for the Fiscal Year, as well as discussions on the Company's Annual Audit and Consultation Plan in order to achieve the integrity of the corporate accounting and financial reporting system, as well as the independence of the internal and external audit functions.</p>
	<p>1.3.9. The Board of Commissioners supervises, reviews and approves the Corporation's annual reports and sustainability reports and ensures their integrity, as well as oversees the corporate disclosure and communication process.</p>	<p>Applied. The Board of Commissioners has monitored and reviewed the annual report prepared by the Company, including making sure to include information regarding the Board of Commissioners that must be included in the Annual Report, so that disclosure of the Company's governance from the Annual Report is ensured to have been carried out.</p>
	<p>1.3.10. The Board of Commissioners Charter is periodically reviewed.</p>	<p>Applied. The Board of Commissioners has guidelines and work rules for the Board of Commissioners and Rules for Meetings of the Board of Commissioners and Meetings of the Board of Commissioners with the Board of Directors, which serve as guidelines in carrying out its duties and functions. Each Committee of the Board of Commissioners, as a form of Organ of the Board of Commissioners, specifically also has guidelines stated in the Committee Charter, which are updated periodically and approved by the Board of Commissioners.</p>

Capital & Risk Management Practices

Good Corporate Governance

Principle	Recommendation	Implementation
	1.3.11. The Board of Commissioners has a policy regarding the resignation of members of the Board of Commissioners if they are involved in financial crimes and are proven to have made a mistake.	Applied The Board of Commissioners has guidelines and work rules for the Board of Commissioners which regulate the dismissal of the Board of Commissioners. In accordance with the Articles of Association, the Rules and Regulations stipulate that members of the Board of Commissioners can be dismissed at any time based on a GMS decision, among other things, if they violate the provisions of the Articles of Association and/or statutory regulations; involved in actions that are detrimental to the Company and/or the state; carry out actions that violate the ethics and/or propriety that should be respected as a member of the Board of Commissioners; or declared guilty by a court decision that has permanent legal force.
	1.3.12. Independent commissioners are highly expected to be able to contribute to honest, objective, active and constructive discussions at Board of Commissioners meetings.	Applied, All Independent Commissioners have no financial, management, share ownership and/or family relationships with members of the Board of Directors, other members of the Board of Commissioners and/or controlling shareholders, or relationships with the Bank that could affect their ability to act independently. This independence shows the objectivity of the Independent Commissioner in carrying out his duties, to play an active, objective and constructive role in carrying out his functions.
	1.3.13. President Commissioner acts as coordinator of the Board of Commissioners and ensures its effectiveness. The Chief Commissioner encourages a culture of openness and constructive dialogue that allows a variety of views to be expressed, including coordinating the setting of appropriate board meeting agendas and ensuring sufficient time is available to discuss all agenda items. Apart from that, there must also be an opportunity for the Board of Commissioners to meet with the Board of Directors and senior management.	Applied, The President Commissioner has carried out his functions optimally, both in his role as coordinator of the Board of Commissioners in ensuring the effectiveness of the duties and responsibilities of the Board of Commissioners, including in carrying out his duties as Chair of the Integrated Governance Committee and the Nomination and Remuneration Committee, in accordance with his duties and functions. The President Commissioner's active role is demonstrated in leading the Board of Commissioners Meetings according to the agendas that must be discussed, and making collegial decisions.
1.4. Committee Formation	1.4.1. The Corporation has committees under the Board of Commissioners consisting of at least: Audit Committee, Nomination and Remuneration Committee, and Risk Management Monitoring Committee.	Applied, The Board of Commissioners has formed committees under the Board of Commissioners consisting of the Nomination and Remuneration Committee, Integrated Governance Committee, Risk Monitoring Committee and Audit Committee.
	1.4.2. The Board of Commissioners ensures that all members of the Audit Committee are independent and that the majority of other committees formed by the Board of Commissioners are independent, and that all committee members are competent, committed and have sufficient authority to carry out their roles effectively and independently.	Applied, The Board of Commissioners has ensured that all members of the Audit Committee are independent parties, including Independent Commissioners and Independent Parties (Non-Commissioners) whose competencies and capabilities are in accordance with the needs of the Audit Committee's duties, and ensure that the duties are carried out effectively and independently.
	1.4.3. To ensure that monitoring of the implementation of the Audit Committee's duties is objective and independent, President Commissioner may not be chairman of the Audit Committee, except in extraordinary circumstances which must be explained in the annual report.	Applied, The Board of Commissioners has confirmed that the Company's President Commissioner does not hold the position of Chair of the Audit Committee, and has also confirmed that the Chair of the Audit Committee is held by an Independent Commissioner.
1.5. Performance Assessment - Board of Commissioners and Members	1.5.1. The Board of Commissioners conducts an annual formal evaluation objectively to determine the effectiveness of the Board, its committees and each individual commissioner.	Applied, The Performance Assessment of the Board of Commissioners has been carried out collegially and reported to Shareholders at the Annual General Meeting of Shareholders (GMS) through the presentation of the Board of Commissioners' performance as contained in the Board of Commissioners' Supervision Report. The Board of Commissioners also periodically evaluates the committees under its authority, including the Audit Committee, Risk Monitoring Committee, Nomination and Remuneration Committee, Risk Monitoring Committee and Integrated Governance Committee.
1.6. Conflict of Interest	1.6.1. Members of the Board of Directors who hold concurrent positions outside the corporation must obtain approval from the Board of Commissioners. A Commissioner notifies the Board of Commissioners and the chair of the committee performing the nominating function, before accepting a new appointment as director or commissioner of a publicly traded corporation, other directorship or other position with a significant time commitment.	There are no Directors who have concurrent positions.
	1.6.2. The Board of Commissioners monitors and manages potential conflicts of interest of management, members of the Board of Directors, Board of Commissioners and shareholders, including misuse of corporate assets and misuse in related party transactions. Commissioners who have a conflict of interest do not participate in monitoring and making decisions regarding potential conflicts of interest involving the Commissioner or affiliates of the Commissioner concerned.	Applied, The Board of Commissioners objectively continues to carry out its supervisory function over the Company's performance through meetings of the Board of Commissioners and Directors which, among other things, discuss the Company's performance, which of course ensures achievement of targets and is in line with the direction and objectives of the Company.

Principle	Recommendation	Implementation
1.7 Increasing the Competency of Members of the Board of Directors and Board of Commissioners	1.7.1. The Board of Commissioners ensures that members of the Board of Directors and Board of Commissioners understand their roles and responsibilities, corporate characteristics and operations, relevant laws and regulations and standards as well as other applicable obligations. The Board of Directors through the corporate secretary supports all members of the Board of Directors and Board of Commissioners in updating and refreshing their skills and knowledge necessary to carry out their roles on the Board.	Applied, Before carrying out their duties and functions as Commissioners / Directors, the Board of Commissioners and Directors have participated in a series of induction activities to ensure understanding of their respective duties and responsibilities in accordance with regulations. Periodically, the Board of Commissioners and Directors also participate in competency development activities that support the implementation of their duties and responsibilities in updating and refreshing their skills and knowledge needed to carry out their respective roles.
Principle 2: Composition and Remuneration of the Board of Directors and Board of Commissioners	2.1.1. In determining prospective director candidates, the Board of Commissioners through the Nomination and Remuneration Committee does not only rely on recommendations from the Board of Commissioners, management or majority shareholders. The Board of Commissioners through the Nomination and Remuneration Committee can use independent sources to determine candidates who meet the requirements.	Applied, Candidates for director nominee have the results of assessments from independent parties TB
	2.1.2. The Board of Commissioners ensures that the criteria for selecting members of the Board of Directors include at least the knowledge, abilities and skills required to appropriately fulfill the role of the Board of Directors and pay attention to the fulfillment of the diversity of the Board of Directors.	Applied, Through KNR, Board of Commissioners screen the candidates according to the criteria
	2.1.3. Corporate policies regarding diversity among the Board of Directors and Board of Commissioners are disclosed in the Annual Report.	The corporate policy regarding diversity on the Board of Commissioners has been disclosed in the Company's Annual Report.
	2.1.4. The Board of Commissioners ensures that the policies and procedures for the selection and nomination of Commissioners are clear and transparent so as to produce the desired Board composition. The Board of Commissioners uses independent sources to determine qualified candidates.	Applied, Transparent and uses independent consultants
	2.1.5. The Board of Commissioners/Committee which carries out the nomination function determines nomination procedures and criteria that are consistent with the Board of Commissioners' skills matrix which has been approved by the Board of Commissioners and ensures that the candidate profile meets the requirements set out in the skills matrix and nomination criteria.	Applied, Determination of nomination procedures and criteria consistent with the Board of Commissioners' expertise matrix
	2.1.6. The composition of the Board of Commissioners must be formed in such a way that its members as a group reflect the diversity in terms of abilities, skills, knowledge, experience, age, cultural background and gender required to appropriately fulfill the role of the Board of Commissioners.	Applied, The diversity in the composition of BNI's Board of Commissioners implemented is in line with the mandate of the Financial Services Authority as stated in the Financial Services Authority's recommendation that provisions regarding diversity in the composition of the Board of Commissioners and Directors have been included in the Attachment to Financial Services Authority Circular Letter No. 32/SEOJK.04/2015 dated 27 November 2015 concerning Public Company Governance Guidelines, which regulates the composition of the Board of Commissioners as a combination of characteristics both in terms of the organs of the Board of Commissioners and individual members of the Board of Commissioners, in accordance with the needs of the Public Company. These characteristics can be reflected in determining the skills, knowledge and experience required in carrying out supervisory duties and providing advice by the Board of Commissioners of a Public Company. A composition that takes into account the needs of Public Companies is a positive thing, especially regarding decision making in the context of implementing the supervisory function which is carried out by considering various broader aspects.
	2.1.7. To enable the Board of Commissioners to provide independent advice and supervision to the Board of Directors and for roles where there is a potential conflict of interest, the Board of Commissioners consists of a sufficient number of Independent Commissioners, with limited terms of office and disclosure of the term of membership of the Board of Commissioners and their independence. from a corporate perspective.	Applied, The Board of Commissioners has a number of Independent Commissioners that is in accordance with applicable laws and regulations, including ensuring that the terms of office of Independent Commissioners are also limited, with terms of office that have been published in the Company's Annual Report.
	2.1.8. To facilitate the effective functioning of the Board of Directors and Board of Commissioners and to increase investor and stakeholder confidence, the Nomination and Remuneration Committee ensures that there is a formal, strict and transparent process for the appointment and appointment of members of the Board of Directors and Board of Commissioners	Applied, Through the General Meeting of Shareholders (GMS) process TB

Principle	Recommendation		Implementation	
2.2. Remuneration of Directors and Board of Commissioners	2.2.1.	The remuneration policy for members of the Board of Directors consists of a remuneration structure that is oriented towards sustainable corporate development and encourages the achievement of long-term goals. Directors' remuneration must be proposed, possibly through the Nomination and Remuneration Committee, by the Board of Commissioners to be decided by the GMS. The amount of remuneration proposed to the GMS is determined by considering the role of each member of the Board of Directors and the economic situation and corporate performance.	<p>Comply</p> <p>As disclosed in this Annual Report, the remuneration structure of the Board of Directors and Board of Commissioners is prepared by taking into account the principle of prudent risk taking, to encourage the maintenance of the Company's business continuity. As an implementation, in 2023 there will be a suspension of variable components of the remuneration of the Board of Directors and Board of Commissioners, for a certain period of time. In accordance with the Nomination and Remuneration Committee Charter published on the Company's website, the functions of the Nomination and Remuneration Committee include preparing and providing recommendations to the Board of Commissioners regarding the structure, policies and amount of remuneration. As stated in this Annual Report, at the Company's Annual GMS held on March 15 2023 there was an agenda item discussing the determination of remuneration (salary/honorarium, facilities and allowances) for 2023 as well as bonuses for the 2022 Financial Year for the Company's Board of Directors and Board of Commissioners.</p>	
	2.2.2.	The remuneration policy for members of the Board of Commissioners consists of a remuneration structure that is oriented towards sustainable corporate development and encourages the achievement of long-term goals. The amount of remuneration proposed by the Board of Commissioners to the GMS is determined by considering the role of each member of the Board of Commissioners and the economic situation and corporate performance. Apart from that, consideration must also be given to his position as President Commissioner and chairman as well as his membership in committees.		
	2.2.3.	To ensure that remuneration packages are determined based on the achievements, qualifications and competencies of directors and commissioners by taking into account corporate operational performance, individual performance and market conditions, the Nomination and Remuneration Committee ensures that there are fair and transparent procedures for determining remuneration policies for members of the Board of Directors and Board of Commissioners.		
Principle 3: Working Relationship between the Board of Directors and the Board of Commissioners	3.1. Nature of Employment Relationships	3.1.1.	<p>Comply</p> <p>The Company's Directors and Board of Commissioners synergistically work together in formulating the corporate vision, mission and strategy through forums of Board of Commissioners and Board of Directors meetings, Board of Directors and Board of Commissioners meetings, Board of Commissioners meetings inviting relevant Directors, as well as other forums and meetings. Mr. Okki Rushartomo as Corporate Secretary has a strategic role in supporting the effectiveness of the working relationship between the Board of Directors and the Board of Commissioners, as well as actively encouraging the implementation of good corporate governance practices, including communication with shareholders and other stakeholders.</p>	
		3.1.2.		In accordance with their respective duties and roles, the Board of Directors collaborates with the Board of Commissioners in formulating the corporate mission, vision and strategy and regularly discusses their implementation.
		3.1.3.		The Corporate Secretary has an important role in supporting the effectiveness of the working relationship between the Board of Directors and the Board of Commissioners, encouraging the implementation of good corporate governance practices, including effective communication with shareholders and other stakeholders.
3.2. Access to Information on the Board of Commissioners	3.2.1.	The Board of Directors is responsible for ensuring that the Board of Commissioners has access to accurate, relevant and timely information. The Board of Commissioners itself ensures that it obtains adequate information. The Board of Directors provides information to the Board of Commissioners regularly, without delay and comprehensively on all issues relevant to the corporation. The Board of Commissioners may at any time ask the Board of Directors to provide additional information.	<p>Comply</p> <p>To ensure that the supervisory function of the Board of Commissioners can run effectively, the Board of Directors ensures that the Board of Commissioners has access to information that is accurate, relevant and timely. The Company's Articles of Association and internal policies ensure the availability of information for the Board of Commissioners, including the authority of the Board of Commissioners to at any time request the Board of Directors to provide additional information.</p>	
3.3. Responsibility of the Board of Directors and Board of Commissioners for the Impact of Ownership Structure on the Corporation	3.3.1.	The impact of ownership structure on corporations. The Board of Directors and Board of Commissioners consider their responsibilities in the context of the share ownership structure and relationships between corporate shareholders that may have an impact on the management and operations of the corporation.	<p>Comply</p> <p>The Company's Board of Directors and Board of Commissioners carry out their duties and responsibilities objectively and independently.</p>	

Principle	Recommendation		Implementation
Principle 4: Ethical and Responsible Behavior	4.1. Code of Ethics and Conduct	4.1.1. This statement is outlined in the Code of Business Conduct and Ethics which must clearly express the corporation's expectations that each member of the Board of Directors and Board of Commissioners as well as employees will: <ul style="list-style-type: none"> Acting in the best interests of the corporation; Act honestly and with high standards of integrity; Be independent and act based on complete information, in good faith, with due diligence and care; Comply with the laws and regulations that apply to the corporation and its operations; Avoid actions that violate laws and regulations or unethical actions based on corporate ethical guidelines; Not be involved or participate in any activity that will create a conflict of interest with the best interests of the corporation or that will have a negative impact on the corporation's reputation; Do not take advantage of property or information owned by the corporation, ownership of other assets or its customers for personal gain or which causes losses to the corporation and its customers; Not taking advantage of his position or the opportunities resulting from his position for personal gain; Avoid the act of requesting or receiving from a third party payments, gratuities or other benefits for oneself or for another person which creates a conflict of interest/provides benefits to a third party in violation of statutory regulations; Respect differences of opinion and the rights of every member of the Board of Directors, Board of Commissioners and employees. Ensure complete, fair, accurate, timely and understandable disclosure in reports and documents submitted by the corporation to regulators and in other public communications. 	<p>Comply</p> <p>The Company has a Code of Ethics document which is an internal company guideline containing a system of values, business ethics, work ethics, commitment, and enforcement of company regulations for every Company employee in carrying out business and other activities, as well as in interacting with stakeholders.</p> <p>The Board of Directors has established policies and practices for anti-money laundering and terrorism financing, anti-bribery, anti-corruption, anti-fraud, involvement in politics as outlined in the Company's Anti-Money Laundering and Prevention of Terrorism Financing (APU-PPT) Guidelines, which have been outlined in the Company's Guidelines Online (e-PP) No. IN/12/KPN/002 dated January, 3 2023, Anti-Fraud Strategy Company Guidelines, which have been outlined in Online Company Guidelines (e-PP) No. IN/0/SAF/002 dated July, 18 2023; Anti-Bribery Management System Company Guidelines, which have been outlined in Online Company Guidelines (e-PP) No. IN/004/CMP/004 dated November 15, 2023; and Company Guidelines for Gratification Control, which have been outlined in Online Company Guidelines (e-PP) No. IN/726/KPN/002 dated September, 24 2021;</p>
		4.1.2. The Board of Directors establishes policies and anti-money laundering and terrorism financing terrorism, anti-bribery, anti-corruption, anti-fraud, political involvement with (antifraud), involvement in politics by referring to national or international standards on anti-money laundering, anti-bribery, anti-corruption, anti-fraud or other relevant standards. other relevant standards.	
	4.2. Organizational Values and Culture	4.2.1. Corporations articulate, grow and express corporate culture and values	<p>Comply</p> <p>The Company determines and enforces "AKHLAK" which consists of Trustworthy, Competent, Harmonious, Loyal, Adaptive, Collaborative as the main values that must be implemented by all Company personnel in carrying out/carrying out their daily tasks. The implementation of AKHLAK in the Company is supported and accelerated by the transformation of work culture which aims to align BNI's values. The Core Values AKHLAK (Trustworthy, Competent, Harmonious, Loyal, Adaptive and Collaborative) are implemented simultaneously with strengthening PRINCIPLE 46 as BNI's Belief. The process of internalizing the AKHLAK core values has been carried out for three years and will continue to be carried out through various activities and methods which are constantly evaluated so that the implementation of these values can run optimally.</p>
	4.3. Communication and Code of Ethics Enforcement, Values, and Culture	4.3.1. The corporate code of conduct and ethics are communicated effectively to the Board of Directors, Board of Commissioners and all employees, integrated into corporate strategy and operations including the risk management system and remuneration structure, and enforced.	<p>Comply</p> <p>The Board of Directors consistently internalizes Corporate Culture to shape the attitude and character of every person in the Company. Internalization is integrated into the Company's strategy and operations, including the risk management system and remuneration structure which is prepared based on prudent risk taking.</p>
Principle 5: Risk Management, Internal Control, and Compliance	5.1. Internal Control and Compliance	5.1.1. The Board of Directors carries out regular reviews of the accuracy of the design and operational effectiveness of the governance system, risk management, internal control and corporate compliance and reports the implementation and results of the review to shareholders through the Corporation's annual report.	<p>Comply</p> <p>The Board of Directors implements, reviews and updates the Company's governance, risk management, internal control and Company compliance, and reports them in this Annual Report as a form of reporting to shareholders and stakeholders, which will then be reported at the GMS.</p>

No	Parameter	Guiding Reference	Implementation Description
A.2.4	Does the company disclose the voting procedures used before the start of meeting?	<p>G20/OECD Principles of Corporate Governance (2023): II.C. Shareholders should have the opportunity to participate effectively and vote in general shareholder meetings, and should be informed of the rules, including voting procedures, that govern general shareholder meetings.</p> <p>ICGN (2021) PRINCIPLE 10: 10.4 Meeting procedures Companies should publish meeting procedures (either in person, by proxy or by virtual electronic means) alongside the publication of the AGM Notice. This should include information on the meeting format, registration, access, participant identification, shareholding verification, voting options and the approach to asking/ answering questions. All matters on the ballot should be voted by poll and voting by a 'show of hands' should not be permitted.</p>	<p>Yes As stated in the GMS rules and regulations published on the Company's website 21 days before the GMS held.</p>
A.2.5	Do the minutes of the most recent AGM record that the shareholders were given the opportunity to ask questions and the questions raised by shareholders and answers given recorded?	<p>G20/OECD Principles of Corporate Governance (2023): II.C.4. Shareholders should have the opportunity to ask questions to the board, including on the annual external audit, to place items on the agenda of general meetings, and to propose resolutions, subject to reasonable limitations.</p>	<p>Yes In accordance with the implementation of the Annual GMS held on March 15, 2023 and contained in the Minutes Summary of GMS published on March 16, 2023 on the Company's website</p>
A.2.6	Does the company disclose the voting results including approving, dissenting, and abstaining votes for all resolutions/each agenda item for the most recent AGM?	<p>ICGN (2021) PRINCIPLE 10: 10.10 Vote disclosure The board should ensure that equal effect is given to votes whether cast in person or in absentia and all votes should be properly counted and recorded via ballot. The outcome of the vote, the vote instruction (reported separately for, against or abstain) and voting levels for each resolution should be published promptly after the meeting on the company website. If a board-endorsed resolution has been opposed by a significant proportion of votes (e.g., 20% or more), the company should explain subsequently what actions were taken to understand and respond to the concerns that led shareholders to vote against the board's recommendation. At the following AGM, the board should report how the views from shareholders were considered to address the concern and any actions taken.</p>	<p>Yes In accordance with the implementation of the Annual GMS held on March 15, 2023 and contained in the Minutes Summary of GMS published on March 16, 2023 on the Company's website.</p>
A.2.7	Does the company disclose the list of board members who attended the most recent AGM?	<p>G20/OECD Principles of Corporate Governance (2023): II.C.4. Shareholders should have the opportunity to ask questions to the board, including on the annual external audit, to place items on the agenda of general meetings, and to propose resolutions, subject to reasonable limitations.</p>	<p>Yes In accordance with the implementation of the Annual GMS held on March 15, 2023 and contained in the Minutes Summary of GMS published on March 16, 2023 on the Company's website.</p>
A.2.8	Does the company disclose that all board members and the CEO (if he is not a board member) attended the most recent AGM?	<p>G20/OECD Principles of Corporate Governance (2023): II.C.4. Shareholders should have the opportunity to ask questions to the board, including on the annual external audit, to place items on the agenda of general meetings, and to propose resolutions, subject to reasonable limitations.</p>	<p>Yes In accordance with the implementation of the Annual GMS held on March 15, 2023 and contained in the Minutes Summary of GMS published on March 16, 2023 on the Company's website.</p>
A.2.9	Does the company allow voting in absentia?	<p>G20/OECD Principles of Corporate Governance (2023): II.C.6. Shareholders should be able to vote in person or in absentia, and equal effect should be given to votes whether cast in person or in absentia.</p>	<p>Yes As stated in the GMS rules and regulations published on the Company's website 21 days before the GMS held.</p>

A.2.10	Did the company vote by poll (as opposed to by show of hands) for all resolutions at the most recent AGM?	ICGN (2021) PRINCIPLE 10: 10.9 Vote execution The board should clearly publicise a date by which shareholders should cast their voting instructions. The practice of share blocking or requirements for lengthy shareholdings should be discontinued. Companies should ensure accuracy of tracking and reconciling any advance votes received pre-AGM with any live votes cast during the AGM itself.	Yes As stated in the GMS rules and regulations published on the Company's website 21 days before the GMS and in accordance with the implementation in the Annual GMS held on March 15, 2023 and contained in the Minutes Summary of GMS published on March 16, 2023 on the Company's website.
A.2.11	Does the company disclose that it has appointed an independent party (scrutineers/ inspectors) to count and/or validate the votes at the AGM?		Yes As stated in the GMS rules and regulations published on the Company's website 21 days before the GMS and in accordance with the implementation in the Annual GMS held on March 15, 2023 and contained in the Minutes Summary of GMS published on March 16, 2023 on the Company's website.
A.2.12	Does the company make publicly available by the next working day the result of the votes taken during the most recent AGM/EGM for all resolutions?		Yes In accordance with the implementation of the Annual GMS and Extraordinary GMS held on March 15, 2023 and September 19, 2023, and contained in the Minutes Summary of the Annual GMS and Extraordinary GMS published on 16 March 2023 and 20 September 2023 on the Company's website.
A.2.13	Does the company provide at least 21 days notice for all AGMs and EGMs?	G20/OECD Principles of Corporate Governance (2023): II.C.1. Shareholders should be furnished with sufficient and timely information concerning the date, format, location and agenda of general meetings, as well as fully detailed and timely information regarding the issues to be decided at the meeting.	Yes As stated in the Announcement of the Annual GMS and Extraordinary GMS on February 6, 2023 and August 11, 2023 as well as the Publication of the Invitation to the Annual GMS and Extraordinary GMS on February 21, 2023 and August 28, 2023 on the Company's website.
A.2.14	Does the company provide the rationale and explanation for each agenda item which require shareholders' approval in the notice of AGM/circulars and/or the accompanying statement?		Yes As stated in the Invitation to the Annual GMS and Extraordinary GMS on February 21, 2023 and 28 August 2023 on the Company's website.
A.2.15	Does the company give the opportunity for shareholders to place item/s on the agenda of general meetings and/or to request for general meetings subject to a certain percentage?	G20/OECD Principles of Corporate Governance (2023): II.C.4. Shareholders should have the opportunity to ask questions to the board, including on the annual external audit, to place items on the agenda of general meetings, and to propose resolutions, subject to reasonable limitations.	Yes As stated in the Announcement of the Annual GMS on August 11, 2023 on the Company's website.
A.3 Markets for corporate control should be allowed to function in an efficient and transparent manner.			
A.3.1	In cases of mergers, acquisitions and/or takeovers requiring shareholders' approval, does the board of directors/commissioners of the company appoint an independent party to evaluate the fairness of the transaction price?	G20/OECD Principles of Corporate Governance (2023): II.H.1. The rules and procedures governing the acquisition of corporate control in capital markets, extraordinary transactions such as mergers, and sales of substantial portions of corporate assets, should be clearly articulated and disclosed so that investors understand their rights and recourse. Transactions should occur at transparent prices and under fair conditions that protect the rights of all shareholders according to their class.	In the 2023 fiscal year, there were no mergers, acquisitions and/or takeovers that require shareholder approval

A.4 The exercise of ownership rights by all shareholders, including institutional investors, should be facilitated.			
A.4.1	Does the company disclose its practices to encourage shareholders to engage with the company beyond general meetings?	<p>G20/OECD Principles of Corporate Governance (2023): II.D. Shareholders, including institutional shareholders, should be allowed to consult with each other on issues concerning their basic shareholder rights as defined in the Principles, subject to exceptions to prevent abuse.</p> <p>ICGN (2021) PRINCIPLE 1: 1.4 Dialogue The board, particularly the chair, lead (or senior) independent director and committee chairs, should constructively engage with shareholders and relevant stakeholders (particularly the workforce) for meaningful dialogue. This infers two-way communication between companies and shareholders/ stakeholders and not a unilateral presentation from just one party. Such dialogue should encompass all matters of material relevance to a company's governance, strategy, innovation, risk management and performance as well as environmental and social policies and practices.</p>	<p>Yes</p> <p>In accordance with the implementation of the Annual GMS and Extraordinary GMS held on March 15 2023 and September 19, 2023, and contained in the Minutes Summary of the Annual GMS and Extraordinary GMS published on March 16 2023 and September 20, 2023 on the Company's website.</p>
A.5 Shares and voting rights			
A.5.1	Where the company has more than one class of shares, does the company publicise the voting rights attached to each class of shares (e.g. through the company website / reports/ the stock exchange/ the regulator's website)?	<p>G20/OECD Principles of Corporate Governance (2023): II.E. All shareholders of the same series of a class should be treated equally. All investors should be able to obtain information about the rights attached to all series and classes of shares before they purchase. Any changes in economic or voting rights should be subject to approval by those classes of shares which are negatively affected.</p> <p>ICGN (2021) PRINCIPLE 9: 9.1. Share classes Ordinary or common shares should feature one vote for each share. Divergence from a 'one-share, one-vote' standard which gives certain shareholders power or control disproportionate to their economic interests should be avoided or in the event of the existence of such classes, they should be disclosed and explained and sunset mechanisms should be put into place. Dual class share structures should be discouraged, and where they are in place kept under review and should be accompanied by commensurate extra protections for minority shareholders, particularly in the event of a takeover bid. The board should disclose sufficient information about the material attributes of all of the company's classes and series of shares on a timely basis.</p>	<p>Yes</p> <p>As stated in the Company's Articles of Association</p>

No	Parameter	Guiding Reference	Implementation Description
A.6.1	Does each of the resolutions tabled at the most recent annual general meeting deal with only one item, i.e., there is no bundling of several items into the same resolution?	II.C. Shareholders should have the opportunity to participate effectively and vote in general shareholder meetings, and should be informed of the rules, including voting procedures, that govern general shareholder meetings.	Yes As stated in the Minutes Summary of the Annual GMS published on March 16, 2023 on the Company's website
A.6.2	Are the company's notice of the most recent AGM/circulars fully translated into English and published on the same date as the local-language version?	II.C.1. Shareholders should be furnished with sufficient and timely information concerning the date, format, location and agenda of general meetings, as well as fully detailed and timely information regarding the issues to be decided at the meeting. II.C.2. Processes, format and procedures for general shareholder meetings should allow for equitable treatment of all shareholders. Company procedures should not make it unduly difficult or expensive to cast votes.	Yes As published in the Invitation to the Annual GMS on the Company's website: https://www.bni.co.id/portals/1/bni/usaha/docs/Invitation-RUPS-Annual-Tahun- Buku-2023-EN.pdf IDX: file:///C:/Users/59768/Downloads/20230221_BBNI_Summons%20RUPS_31258105_lamp3.pdf
	Does the notice of AGM/circulars have the following details:	II.C.5. Effective shareholder participation in key corporate governance decisions, such as the nomination and election of board members, should be facilitated. II.C.6. Shareholders should be able to vote in person or in absentia, and equal effect should be given to votes whether cast in person or in absentia.	No Company Explanation: Article 38 paragraph (7) BUMN Ministerial Regulation No. PER-3/MBU/03/2023 concerning Organs and Human Resources of State-Owned Enterprises regulates that for public BUMNs, the curriculum vitae of prospective members of the Board of Commissioners/Directors of BUMNs who will be proposed for appointment at the GMS, must be available and announced at the time of the GMS prior to making a decision regarding the appointment. Concerned as a member of the Board of Commissioners/Directors. Considering that the Company is a publicly state-owned company, the Company is subject to these provisions.
A.6.3	Are the profiles of directors/commissioners (at least age, academic qualification, date of first appointment, experience, and directorships in other listed companies) in seeking election/re-election included?	ICGN (2021) PRINCIPLE 3: Composition and appointment The Board should comprise a sufficient mix of directors with relevant knowledge, independence, competence, industry experience and diversity of perspectives to generate effective challenge, discussion and objective decision-making in alignment with the company's purpose, long-term strategy and relevant stakeholders.	No
A.6.4	Are the auditors seeking appointment/re-appointment clearly identified?	3.7 Director election process Directors should be elected to the board preferably on an annual basis, or stand for election once every three years, and be accountable to shareholders by approval of a majority of shares voted in favour on each resolution. Boards should disclose the process for director election / re-election along with information about board candidates which includes:	No
A.6.5	Were the proxy documents made easily available?	<ul style="list-style-type: none"> board member identities and rationale for appointment; core competencies, qualifications, and professional background; recent and current board and management mandates at other companies, as well as significant roles on non-profit/charitable organisations; factors affecting independence, including relationship/s with controlling shareholders; length of tenure; any shareholdings in the company. <p>9.2 Major decisions The board should ensure that shareholders have the right to vote on major decisions which may change the nature of the company in which they have invested. Such rights should be clearly described in the company's governing documents and include: a) appoint or remove a director, with or without cause, by a majority of votes cast;</p>	Yes As in the publication of the Power of Attorney for the Annual GMS and EGMS on the Company's website: https://www.bni.co.id/id-id/perseroan/tata-kelola/rups

No	Parameter	Guiding Reference	Implementation Description
A.7 Insider trading and abusive self-dealing should be prohibited.			
A.7.1	Are the directors / commissioners required to report their dealings in company shares within 3 business days?	<p>G20/OECD Principles of Corporate Governance (2023): III.E. Insider trading and market manipulation should be prohibited and the applicable rules enforced.</p> <p>ICGN (2021) PRINCIPLE 4: 4.4 Employee share dealing The board should develop clear rules regarding any trading by directors and employees in the company's own securities. Individuals should not benefit directly or indirectly from knowledge which is not generally available to the market</p>	<p>Yes The Company has these provisions contained in the provisions of the Company Guidelines for Prohibited and Not Prohibited Transactions for Insiders reported in the 2023 Fiscal Year Annual Report regarding Governance Principles to Improve Aspects of Corporate Governance through Stakeholder Participation</p>
A.8 Related party transactions by directors and key executives.			
A.8.1	Does the company have a policy requiring a committee of independent directors/ commissioners to review material RPTs to determine whether they are in the best interests of the company and shareholders?	<p>G20/OECD Principles of Corporate Governance (2023): II.F. Related party transactions should be approved and conducted in a manner that ensures proper management of conflicts of interest and protects the interests of the company and its shareholders.</p>	<p>Yes As stated in the Board of Directors' Work Guidelines and Rules and Board of Commissioners' Work Guidelines and Rules</p>
A.8.2	Does the company have a policy requiring board members (directors/commissioners) to abstain from participating in the board discussion on a particular agenda when they are conflicted?	<p>II.F.1. Conflicts of interest inherent in related party transactions should be addressed. II.F.2. Members of the board and key executives should be required to disclose to the board whether they, directly, indirectly or on behalf of third parties, have a material interest in any transaction or matter directly affecting the corporation.</p>	<p>Yes As stated in the Board of Directors' Work Guidelines and Rules and Board of Commissioners' Work Guidelines and Rules</p>
A.8.3	Does the company have policies on loans to directors and commissioners either forbidding this practice or ensuring that they are being conducted at arm's length basis and at market rates?	<p>ICGN (2021) PRINCIPLE 9: 9.3 Conflicts of interest The board should ensure that policies and procedures on conflicts of interest are established, understood and implemented by directors, management, workers and other relevant parties, including members of related business groups. If a director has an interest in a matter under consideration by the board, then the director should promptly declare such an interest and be precluded from voting on the subject or exerting influence. The use of relationship agreements with controlling shareholders are encouraged to ensure that real or potential conflicts of interest are avoided or mitigated and should confirm that transactions involving conflicted parties will be based on customary market terms.</p> <p>9.4 Related party transactions The board should develop, adopt and disclose a related party transactions (RPT) Policy and have a robust process for approving, reviewing and monitoring RPTs and any inherent conflicts of interest. This includes establishing a committee of independent directors, either as a separate committee, or an existing committee comprised of independent directors, for example the audit committee. The committee should review significant related party transactions to determine whether they are in the best interests of the company and, if so, to determine what terms are fair and reasonable. The conclusion of committee deliberations on significant related party transactions should be disclosed in the company's annual report to shareholders</p>	<p>Yes As stated in the Board of Directors' Work Guidelines and Rules and Board of Commissioners' Work Guidelines and Rules.</p>

A.9.2	In case of related party transactions requiring shareholders' approval, is the decision made by disinterested shareholders?	<p>G20/OECD Principles of Corporate Governance (2023): II.G. Minority shareholders should be protected from abusive actions by, or in the interest of, controlling shareholders acting either directly or indirectly, and should have effective means of redress. Abusive self-dealing should be prohibited.</p> <p>ICGN (2021) PRINCIPLE 9: 9.5 Shareholder approval of RPTs Shareholders should have the right to approve significant RPTs above an appropriate materiality threshold, and this should be based on the approval of a majority of disinterested shareholders.</p> <p>9.7 Equality and redress The board should ensure that shareholders of the same series or class are treated equally and afforded protection against misuse or misappropriation of the capital they provide due to conduct by the company's board, its management or controlling shareholder, including market manipulation, false or misleading information, material omissions and insider trading. Minority shareholders should be protected from abusive actions by, or in the interest of, controlling shareholders acting either directly or indirectly, and should have effective means of redress. Proper remedies and procedural rules should be put in place to make the protection effective and affordable. Where national legal remedies are not afforded the board is encouraged to ensure that sufficient shareholder protections are provided in the company's bylaws.</p>	Yes

C. SUSTAINABILITY AND RESILIENCE

No	Parameter	Reference Guide	Implementation Description
C.1	Sustainability-related disclosures must be consistent, comparable and reliable, and include material retrospective and forward-looking information that investors consider important in making investment or voting decisions.		
	Material Sustainability-related information should be specified		
C.1.1	Does the company identify/report ESG topics that are material to the organization's strategy?	<p>Corporate Governance (2023): VI.A.1. Sustainability-related information could be considered material if it can reasonably be expected to influence an investor's assessment of a company's value, investment or voting decisions.</p> <p>ICGN (2021) PRINCIPLE 7: 7.7 Materiality and sustainability Sustainability disclosures should focus on materially relevant factors, with many environmental and social factors being sector specific, linked to the company's management of its natural and human capital. Where possible, sustainability related reporting should also seek to address "double materiality"; for reporting on the company's external impacts on society and the environment, as well as internal impacts on the company's own financial performance. Moreover, boards should build an awareness of "dynamic materiality", recognising that materiality evolves over time alongside factors including emerging technology, product innovation and regulatory developments.</p>	<p>Yes As stated in the 2023 Annual Report for the ESG Commitment section</p>

Capital & Risk Management Practices

No	Parameter	Reference Guide	Implementation Description
C.1.2	Does the company identify climate change as an issue?	<p>G20/OECD Principles of Corporate Governance (2023): VI.A. Investors are increasingly considering disclosures about how companies assess, identify and manage material climate change and other sustainability risks and opportunities, including for human capital management.</p> <p>ICGN (2021) PRINCIPLE 7: 7.5 Climate change The board should assess the impact of climate change on the company business model and how it will be adapted to meet the needs of a net zero economy as part of a long-term strategy. This includes setting and disclosing targets to reduce carbon emissions and a period for achievement. Where climate change risks, whether physical or transitional, are identified as material and relevant, reporting should include discussion of the diligence process, strategy, metrics, targets and initiatives used to manage the risks. Disclosure around these actions would help investors understand the resilience of companies facing climate change risks and to assess progress towards achieving net zero targets.</p>	<p>Yes As stated in the 2023 Annual Report for the ESG Commitment section.</p>
C.1.3	Does the company adopt an internationally recognized reporting framework or standard for sustainability (i.e. GRI, Integrated Reporting, SASB, IFRS Sustainability Disclosure Standards)?	<p>G20/OECD Principles of Corporate Governance (2023): VI.A.3. Corporate disclosure frameworks, including financial reporting standards and regulatory filing requirements (e.g. public offering prospectuses), should have the same goal of providing information that a reasonable investor would consider important in making an investment and voting decision. It follows that information understood as material in a sustainability-related report should also be considered and assessed in the preparation and presentation of the financial statements. The same level of rigour applied to the measurement and reporting of financial information should be applied to the measurement and reporting of sustainability-related information.</p>	<p>Yes As stated in Annual Report for Financial Year 2023.</p>
<p>If a company publicly sets a sustainability-related goal or target, the disclosure framework should provide that reliable metrics are regularly disclosed in an easily accessible form</p>			
C.1.4	Does the company disclose quantitative sustainability target?	<p>G20/OECD Principles of Corporate Governance (2023): VI.A.4. If a company publicly sets a sustainability-related goal or target, the disclosure framework should ensure that verifiable metrics are disclosed to allow investors to assess the credibility and progress toward meeting the announced goal or target.</p>	<p>Yes As stated in the Annual Report and Sustainability Report for the 2023 Financial Year.</p>

C.1.5	Does the company disclose sustainability-related performance progress in relation to its previously set targets?	<p>G20/OECD Principles of Corporate Governance (2023): VI.A.4. If a company publicly sets a sustainability-related goal or target, the disclosure framework should ensure that verifiable metrics are disclosed to allow investors to assess the credibility and progress toward meeting the announced goal or target.</p> <p>ICGN (2021) PRINCIPLE 7: 7.4 Sustainability reports The board should provide sustainability reporting to reflect the complexities inherent in a contemporary business by blending financial, human and natural capital considerations in the context of a company's current and future strategic direction. Such disclosures should: b. put historical performance into context, and portray the risks, opportunities and prospects for the company in the future; d. explain key performance indicators to measure progress towards achieving sustainability related targets;</p>	<p>Yes As stated in the Annual Report and Sustainability Report for the 2023 Financial Year.</p>
C.1.6	Does the company confirm that its Sustainability Report / Reporting is reviewed and /or approved by the Board or Board Committee?	<p>G20/OECD Principles of Corporate Governance (2023): VI.A.3. Disclosure of sustainability matters, financial reporting and other information should be connected.</p> <p>Corporate disclosure frameworks, including financial reporting standards and regulatory filing requirements (e.g. public offering prospectuses), should have the same goal of providing information that a reasonable investor would consider important in making an investment and voting decision. It follows that information understood as material in a sustainability-related report should also be considered and assessed in the preparation and presentation of the financial statements. The same level of rigour applied to the measurement and reporting of financial information should be applied to the measurement and reporting of sustainability-related information.</p>	<p>Yes As stated in the 2023 Fiscal Year Sustainability Report</p>
C.2	Corporate governance frameworks should allow for dialogue between a company, its shareholders and stakeholders to exchange views on sustainability matters		
C.2.1	Does the company engage internal stakeholders to exchange views and gather feedback on sustainability matters that are material to the business of the company?	<p>G20/OECD Principles of Corporate Governance (2023): VI.A.1: The determination of which information is material may vary over time, and according to the local context, company-specific circumstances, and jurisdictional requirements. The assessment of material information may also consider sustainability matters that are critical to a company's workforce and other key stakeholders.</p> <p>G20/OECD Principles of Corporate Governance (2023): VI.B: Corporate governance frameworks should allow for dialogue between a company, its shareholders and stakeholders to exchange views on sustainability matters as relevant for the company's business strategy and its assessment of what matters ought to be considered material.</p>	<p>Yes As stated in the Annual Report and Sustainability Report for the 2023 Fiscal Year.</p>

No	Parameter	Reference Guide	Implementation Description
C.4.3	The company's efforts to ensure that its value chain is environmentally friendly or is consistent with promoting sustainable development?		Yes As stated in the Annual Report for the 2023 Fiscal Year in the Social Responsibility section and in the Sustainability Report for the 2023 Fiscal Year.
C.4.4	The company's efforts to interact with the communities in which they operate?	jurisdictions, it is mandatory for companies to carry out human rights and environmental due diligence. Nevertheless, even in areas where stakeholder interests are not legislated or established by contract, many companies make additional commitments to stakeholders, given that concern over corporate reputation and corporate performance often requires the recognition of broader interests. This may in some jurisdictions be achieved by companies using the OECD Guidelines for Multinational Enterprises for risk-based due diligence to identify, prevent and mitigate actual and potential adverse impacts of their businesses, and account for how these impacts are addressed.	Yes As stated in the Annual Report for the 2023 Fiscal Year in the Social Responsibility section and in the Sustainability Report for the 2023 Fiscal Year.
C.4.5	The company's anti-corruption programmes and procedures?		Yes As stated in the Annual Report for Fiscal Year 2023 in the Corporate Social Responsibility section related to Fair Operations.
C.4.6	How creditors' rights are safeguarded?		Yes As stated in several sections in the Annual Report for the 2023 Financial Year, including the section on Implementation of Aspects of Corporate Governance Principles in accordance with the provisions of the Financial Services Authority.
C.4.7	Does the company have a separate report/section that discusses its efforts on environment/economy and social issues?		Yes As stated in the Annual Report for Fiscal Year 2023.
C.5			
Where stakeholder interests are protected by law, stakeholders should have the opportunity to obtain effective redress for violation of their rights.			
C.5.1	Does the company provide contact details via the company's website or Annual Report which stakeholders (e.g. customers, suppliers, general public etc.) can use to voice their concerns and/or complaints for possible violation of their rights?	G20/OECD Principles of Corporate Governance (2023): VI.D.2: The legal framework and process should be transparent and not impede the ability of stakeholders to communicate and to obtain redress for the violation of rights at a reasonable cost and without excessive delay.	Yes The Company published the Sustainability Report for the 2023 Fiscal Year and can be accessed via the Company's website: https://bni.co.id/id-id/kerja/investor/reportpresentasi

No	Parameter	Reference Guide	Implementation Description
C.6 Mechanisms for employee participation should be permitted to develop.			
C.6.1	Does the company explicitly disclose the policies and practices on health, safety and welfare for its employees?	G20/OECD Principles of Corporate Governance (2023): VI.D.3: The degree to which employees participate in corporate governance depends on national laws and practices, and may vary from company to company as well. In the context of corporate governance, mechanisms for participation may benefit companies directly as well as indirectly through the readiness by employees to invest in firm specific skills. Examples of mechanisms for employee participation include employee representation on boards and governance processes such as works councils that consider employee viewpoints in certain key decisions. International conventions and national norms also recognise the rights of employees to information, consultation and negotiation. With respect to performance enhancing mechanisms, employee stock ownership plans or other profit sharing mechanisms can be found in many jurisdictions. Pension commitments are also often an element of the relationship between the company and its past and present employees. Where such commitments involve establishing an independent fund, its trustees should be independent of the company's management and manage the fund in the interest of all beneficiaries.	Yes As stated in the Annual Report for Fiscal Year 2023
C.6.2	Does the company explicitly disclose the policies and practices on training and development programmes for its employees?		Yes As stated in the Annual Report for Fiscal Year 2023
C.6.3	Does the company have a reward/compensation policy that accounts for the performance of the company beyond short-term financial measures?		Yes As stated in the Annual Report for Fiscal Year 2023
C.7 Stakeholders including individual employee and their representative bodies, should be able to freely communicate their concerns about illegal or unethical practices to the board and their rights should not be compromised for doing this.			
C.7.1	Does the company have a whistle blowing policy which includes procedures for complaints by employees and other stakeholders concerning alleged illegal and unethical behaviour and provide contact details via the company's website or annual report?	G20/OECD Principles of Corporate Governance (2023): VI.D.5. Unethical and illegal practices by corporate officers may not only violate the rights of stakeholders but also be detrimental to the company in terms of reputational effects. It is therefore important for companies to establish a confidential whistleblowing policy with procedures and safe-harbours for complaints by workers, either personally or through their representative bodies, and others outside the company, concerning illegal and unethical behaviour. The board should be encouraged to protect these individuals and representative bodies and to give them confidential direct access to someone independent on the board, often a member of an audit or an ethics committee.	Yes The Company announces the Company's contact details in the Annual Report for Fiscal Year 2023 and the Company's website: https://bni.co.id/id-id/kontak/kontakbni/produktikami
C.7.2	Does the company have a policy or procedures to protect an employee/person who reveals alleged illegal/unethical behaviour from retaliation?		Yes As stated in the Annual Report for Fiscal Year 2023.

DISCLOSURE AND TRANSPARENCY

No	Parameter	Availability	Implementation Description
D.1 Transparent ownership structure		Guiding Reference	
D.1.1	Does the information on shareholdings reveal the identity of beneficial owners, holding 5% shareholding or more?	G20/OECD Principles of Corporate Governance (2023): IV.A. Disclosure should include, but not be limited to, material information on:	Yes As stated in the 2023 Financial Year Annual Report in the Main and Controlling Shareholder Information section.
D.1.2	Does the company disclose the direct and indirect (deemed) shareholdings of major and/or substantial shareholders?	IV.4. Major share ownership, including beneficial owners, and voting rights. One of the basic rights of investors is to be informed about the ownership structure of the company and their rights vis-a-vis the rights of other owners. The right to such information should also extend to information about the structure of a group of companies and intra-group relations. Such disclosures should make the objectives, nature and structure of the group transparent. Disclosure of ownership data should be provided once certain thresholds of ownership are passed. In equity markets characterised by dispersed ownership structures where small shareholdings may assure significant influence over a company, these thresholds could be set lower. Such disclosure might include data on major shareholders and others that, directly or indirectly, may significantly influence or control the company through, for example, special voting rights, shareholder agreements, the ownership of controlling or large blocks of shares, the use of holding company structures involving layering of companies or significant cross-shareholding relationships and cross guarantees. It is also required or considered good practice in some jurisdictions to disclose shareholdings of directors, including non-executives, and it is good practice that such disclosure is made on an ongoing basis.	Yes As stated in the 2023 Financial Year Annual Report in the Main and Controlling Shareholder Information section.
D.1.3	Does the company disclose the direct and indirect (deemed) shareholdings of directors (commissioners)?		Yes As stated in the 2023 Financial Year Annual Report in the Main and Controlling Shareholder Information section.
D.1.4	Does the company disclose the direct and indirect (deemed) shareholdings of senior management?		Yes As stated in the 2023 Fiscal Year Annual Report in the Main and Controlling Shareholder Information section.
D.1.5	Does the company disclose details of the parent/holding company, subsidiaries, associates, joint ventures and special purpose enterprises/ vehicles (SPEs)/ (SPVs)?	For enforcement purposes in particular, and to identify potential conflicts of interest, related party transactions and insider trading, information about record ownership needs to be complemented with current information about beneficial ownership. An increasing number of jurisdictions use a centralised national registry while others may require a company-level registry to facilitate access to up-to-date and accurate information on beneficial ownership. In cases where such registries are not available, information about the beneficial owners should be obtainable at least by regulatory and enforcement agencies and/or through the judicial process. In addition, guidance issued by the Financial Action Task Force and the IMF that advocates a multi-pronged approach to ensure availability of information on beneficial ownership can be useful in this regard.	Yes As stated in the Annual Report for Fiscal Year 2023 in the Name and Address of Subsidiaries, Associated Entities section.

D.2 Quality of Annual Report			
Does the company's annual report disclose the following items:			
D.2.1	Corporate objectives	G20/OECD Principles of Corporate Governance (2023): IV.A. Disclosure should include, but not be limited to, material information on:	Yes As stated in the Annual Report of 2023 Fiscal Year in the Vision, Mission, and Corporate Culture section.
D.2.2	Financial performance indicators	IV.A.1. The financial and operating results of the company. IV.A.2. Company objectives and sustainability-related information. IV.A.5. Information about the composition of the board and its members, including their qualifications, the selection process, other company directorships and whether they are regarded as independent by the board.	Yes As stated in several sections in the Annual Report of 2023 Fiscal Year, including the Financial Highlights and Management Report sections
D.2.3	Non-financial performance indicators	IV.A.6. Remuneration of members of the board and key executives.	Yes As stated in several sections in the Annual Report of 2023 Fiscal Year, including the Operational Highlights and Management Report sections.
D.2.4	Dividend policy	IV.A.7. Foreseeable risk factors. IV.A.10. Debt contracts, including the risk of non-compliance with covenants.	Yes As stated in the Annual Report of 2023 Fiscal Year in the Dividend Policy section.
D.2.5	Biographical details (at least age, academic qualifications, date of first appointment, relevant experience, and any other directorships of listed companies) of all directors/ commissioners	ICGN (2021) PRINCIPLE 2: Leadership and independence ICGN (2021) PRINCIPLE 3: Composition and appointment ICGN (2021) PRINCIPLE 5: Remuneration	Yes As stated in the Annual Report of 2023 Fiscal Year in the Board of Directors' Profile and Board of Commissioners' Profile sections.
Corporate Governance Confirmation Statement			
D.2.6	Does the Annual Report contain a statement confirming the company's full compliance with the code of corporate governance and where there is non-compliance, identify and explain reasons for each such issue?	G20/OECD Principles of Corporate Governance (2023): IV.A. Disclosure should include, but not limited to, material information on: IV.A.9. Governance structures and policies, including the extent of compliance with national corporate governance codes or policies and the process by which they are implemented	Yes As stated in the Annual Report of 2023 Fiscal Year in the Management Report and Implementation of Corporate Governance Aspects and Principles sections in accordance with Financial Services Authority Regulations, as well as Bad Corporate Governance Practices.
D.3 Remuneration of Members of the Board and Key Executives			
D.3.1	Is there disclosure of the fee structure for non-executive directors/commissioners?	ICGN (2021) PRINCIPLE 5: 5.9. Non-executive director remuneration The board, or shareholders as required by law in some jurisdictions, should determine levels of pay for non- executive directors and the non-executive chair and ensure that it is structured in a way which ensures independence, objectivity and alignment with the long- term interests of the company and all its shareholders. Remuneration paid to non-executive directors should be publicly disclosed. Performance-based pay or share options should not be granted to non-executive directors and non- executive chairs.	Yes As stated in the Annual Report for Fiscal Year 2023

D.3.2	Does the company publicly disclose [i.e. annual report or other publicly disclosed documents] details of remuneration of each non-executive director/ commissioner?	No	<p>G20/OECD Principles of Corporate Governance (2023): IV.A. Disclosure should include, but not be limited to, material information on: IV.A.6 Remuneration of members of the board and key executives</p> <p>Disclosure on an individual basis (including termination and retirement provisions) is increasingly regarded as good practice and is now required or recommended in most jurisdictions. Some of these jurisdictions call for remuneration of a certain number of the highest paid executives to be disclosed, while in others it is confined to specified positions.</p>
D.3.3	Does the company disclose its remuneration (fees, allowances, benefit-in-kind and other emoluments) policy/ practices (i.e. the use of short term and long term incentives and performance measures) for its executive directors and CEO?	Yes	<p>V.D. The board should fulfil certain key functions, including:</p> <p>V.D.5 Aligning key executive and board remuneration with the longer term interests of the company and its shareholders. It is regarded as good practice for boards to develop and disclose a remuneration policy statement covering board members and key executives, as well as to disclose their remuneration levels set pursuant to this policy. Such policy statements may specify, especially with respect to executives, the relationship between remuneration and performance with ex-ante criteria linked to performance, and include measurable standards that emphasise the long-term interests of the company and the shareholders over short-term considerations. Such measurable standards among others may relate to total shareholder return and appropriate sustainability goals and metrics. Policy statements generally tend to set conditions for payments to board members for extra-board activities, such as consulting. They also often specify terms to be observed by board members and key executives about holding and trading the stock of the company, and the procedures to be followed in granting and re-pricing options. In some jurisdictions, policy statements also provide guidance on the payments to be made when hiring and/or terminating the contract of an executive. The board may also monitor the implementation of the policy statement on remuneration.</p> <p>As stated in the Annual Report for Fiscal Year 2023.</p>
D.3.4	Does the company publicly disclose [i.e. annual report or other publicly disclosed documents] the details of remuneration of each of the executive directors and CEO [if he/she is not a member of the Board]?	No	<p>G20/OECD Principles of Corporate Governance (2023): IV.A.6.</p> <p>Disclosure on an individual basis (including termination and retirement provisions) is increasingly regarded as good practice and is now required or recommended in most jurisdictions. D.4 Disclosure of related party transactions (RPT)			
D.4.1	Does the company disclose its policy covering the review and approval of material RPTs?	<p>G20/OECD Principles of Corporate Governance (2023): IV.A. Disclosure should include, but not limited to, material information on: IV.A.7. Related party transactions.</p>	<p>Yes As stated in the 2023 Fiscal Year Annual Report in the Transactions with Related Parties and Prohibitions, Limitations and/or Significant Obstacles section for Transferring Funds between Banks and Other Entities in One Business Group.</p>
D.4.2	Does the company disclose the name, relationship, nature and value for each material RPTs?	<p>ICGN (2021) PRINCIPLE 9: 9.4 Related party transactions The board should develop, adopt and disclose a related party transactions (RPT) Policy and have a robust process for approving, reviewing and monitoring RPTs and any inherent conflicts of interest. This includes establishing a committee of independent directors, either as a separate committee, or an existing committee comprised of independent directors, for example the audit committee. The committee should review significant related party transactions to determine whether they are in the best interests of the company and, if so, to determine what terms are fair and reasonable. The conclusion of committee deliberations on significant related party transactions should be disclosed in the company's annual report to shareholders.</p>	<p>Yes As stated in the 2023 Fiscal Year Annual Report in the Transactions with Related Parties and Prohibitions, Limitations and/or Significant Obstacles section for Transferring Funds between Banks and Other Entities in One Business Group.</p>
D.5 Directors and commissioners dealings in shares of the company			
D.5.1	G20/OECD Principles of Corporate Governance (2023): V.D. The board should fulfil certain key functions, including:	<p>G20/OECD Principles of Corporate Governance (2023): IV.A. Disclosure should include, but not be limited to, material information on: IV.A.4. Major share ownership, including beneficial owners, and voting rights.</p> <p>ICGN (2021) PRINCIPLE 4: 4.4 Employee share dealing The Board should develop clear rules regarding any trading by directors and employees in the company's own securities. Individuals should not benefit directly or indirectly from knowledge which is not generally available to the market.</p> <p>ICGN (2021) PRINCIPLE 5: 5.5 Share ownership The board should disclose the company policy concerning ownership of shares of the company by the CEO, non-executive directors and executives. This should include the company policy as to how share ownership requirements are to be achieved and for how long they are to be retained. While CEO and executive share ownership is encouraged, the use of derivatives or other structures that enable the hedging of an individual's exposure to the company's shares should be prohibited.</p>	<p>As stated in the 2023 Fiscal Year Annual Report in the Ownership Report/Changes in Share Ownership Report section for the Board of Commissioners and Directors.</p>

No	Parameter	Guide	Implementation Description
E.1.2	Are the types of decisions requiring board of directors/commissioners' approval disclosed ?	G20/OECD Principles of Corporate Governance (2023): V.The responsibilities of the board V.D.The board should fulfil certain key functions, including: 1. Reviewing and guiding corporate strategy, major plans of action, annual budgets and business plans; setting performance objectives; monitoring implementation and corporate performance; and overseeing major capital expenditures, acquisitions and divestitures. 2. Reviewing and assessing risk management policies and procedures. 3. Monitoring the effectiveness of the company's governance practices and making changes as needed. 4. Selecting, overseeing and monitoring the performance of key executives, and, when necessary, replacing them and overseeing succession planning. 5. Aligning key executive and board remuneration with the longer term interests of the company and its shareholders.	Yes, Published in the Company's Articles of Association. http://bni.co.id/Portals/1/BNI/Company/TaKelola/Docs/GCG/072018_resize_AD%20BNI%202018%20(And%20AHU).pdf As also stated in the Annual Report for Fiscal Year 2023 in the Board of Commissioners' Decisions and Board of Directors' Decisions 2023/2023 section
E.1.3	Are the roles and responsibilities of the board of directors/commissioners clearly stated ?	6. Ensuring a formal and transparent board nomination and election process. 7. Monitoring and managing potential conflicts of interest of management, board members and shareholders, including misuse of corporate assets and abuse in related party transactions. 8. Ensuring the integrity of the corporation's accounting and reporting systems for disclosure, including the independent audit, and that appropriate systems of control are in place, in compliance with the law and relevant standards. 9. Overseeing the process of disclosure and communications.	Yes, Published on Board of Directors and Board of Commissioners' Work Guidelines and Regulations and the Company's Articles of Association. http://bni.co.id/id-id/company/tatakelola/Ponseldantataterib As also stated in the 2023 Fiscal Year Annual Report in the Duties and Responsibilities of the Board of Commissioners and Duties and Responsibilities of the Board of Directors.
Corporate Vision/Mission			
E.1.4	Does the company have an updated vision and mission statement?	G20/OECD Principles of Corporate Governance (2023): V.The responsibilities of the board V.D.The board should fulfil certain key functions, including: 1. Reviewing and guiding corporate strategy, major plans of action, annual budgets and business plans; setting performance objectives; monitoring implementation and corporate performance; and overseeing major capital expenditures, acquisitions and divestitures.	Yes As stated in the 2023 Fiscal Year Annual Report in Section of Vision, Mission and Company Culture
E.1.5	Does the board of directors play a leading role in the process of developing and reviewing the company's strategy at least annually?	ICGN (2021) PRINCIPLE 1: Board role and responsibilities 1.1 Responsibilities The board is accountable to shareholders and relevant stakeholders for preserving and enhancing sustainable value over the long-term in alignment with a company's purpose and long-term strategy.	Yes As stated in the 2023 Financial Year Annual Report in the Management Report and Business Prospects section.
E.1.6	Does the board of directors have a process to review, monitor and oversee the implementation of the corporate strategy?	G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.D.The board should fulfil certain key functions, including: 1. Reviewing and guiding corporate strategy, major plans of action, annual budgets and business plans; setting performance objectives; monitoring implementation and corporate performance; and overseeing major capital expenditures, acquisitions and divestitures.	Yes As stated in the 2023 Fiscal Year Annual Report in the Management Report and Business Development Strategy section.

E.2 Board structure			
Guiding Reference			
Code of Ethics or Conduct			
E.2.1	Are the details of the code of ethics or conduct disclosed?	G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.C. The board should apply high ethical standards. The board has a key role in setting the ethical tone of a company, not only through its own actions, but also in appointing and overseeing key executives and consequently the management in general. High ethical standards are in the long-term interests of the company as a means to make it credible and trustworthy, not only in day-to-day operations, but also with respect to longer term commitments. To make the objectives of the board clear and operational, many companies have found it useful to develop company codes of conduct based on, among others, professional standards and sometimes broader codes of behaviour, and to communicate them throughout the organisation. This may include a commitment by the company (including its subsidiaries) to comply with the OECD Guidelines for Multinational Enterprises and associated due diligence standards. Similarly, jurisdictions are increasingly demanding that boards oversee the lobbying, finance and tax planning strategies, thus providing authorities with timely and targeted information and discouraging practices, for example the pursuit of aggressive tax planning schemes, that do not contribute to the long-term interests of the company and its shareholders, and can cause legal and reputational risks.	Yes Yes, it is regulated in the Work Guidelines and Regulations for the Board of Directors and Board of Commissioners which are published on the Company's website http://bni.co.id/id-id/ company/tatakelola/ produkdantatertib As also stated in the Annual Report for Financial Year 2023 in the Code of Ethics section Company.
E.2.2	Are all directors/commissioners, senior management and employees required to comply with the code/s?		Yes As stated in the Annual Report 2023 Books section Compliance with the Code of Ethics
E.2.3	Does the company have a process to implement and monitor compliance with the code/s of ethics or conduct?	Company-wide codes serve as a standard for conduct by both the board and key executives, setting the framework for the exercise of judgement in dealing with varying and often conflicting constituencies. At a minimum, the code of ethics should set clear limits on the pursuit of private interests, including dealings in the shares of the company. An overall framework for ethical conduct goes beyond compliance with the law, which should always be a fundamental requirement	Yes As stated in the 2023 Fiscal Year Annual Report section on Efforts to Implement and Enforce the Code of Ethics
Board Structure & Composition			
E.2.4	Do independent directors/ commissioners make up at least 50% of the board of directors/ commissioners?	G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.E. The board should be able to exercise objective independent judgement on corporate affairs.	Yes As published in the 2023 Annual Report and Company website https://bni.co.id/ id/company/aboutbni/commissioner

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

No	Parameter	Guide	Implementation Description
E.2.5	<p>Does the company have a term limit of nine years or less or 2 terms of five years¹ each for its independent directors/commissioners?</p> <p>1 The five years term must be required by legislation which pre-existed the introduction of the ASEAN Corporate Governance Scorecard in 2011</p>	<p>G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.E. The board should be able to exercise objective independent judgement on corporate affairs. While national approaches to defining independence vary, a range of criteria are used, such as the absence of relationships with the company, its group and its management, the external auditor of the company and substantial shareholders, as well as the absence of remuneration, directly or indirectly, from the company or its group other than directorship fees. The board may also be required to make an affirmative finding that a director is independent of the company because they have no material relationship with the company or that the director has no relationship which would interfere with the exercise of independent judgement in carrying out the responsibilities of a director. Many jurisdictions also set a maximum tenure for directors to be considered independent.)</p> <p>ICGN (2021) PRINCIPLE 3: Composition and appointment 3.4 Tenure Independent non-executive directors should serve for an appropriate length of time to ensure they contribute an impartial perspective to board discussion and decision-making. Term limits, where they exist, and the identity of directors who have exceeded such limits (and thus no longer deemed independent) should be disclosed. Director tenure should be reviewed by the Nomination Committee annually and director re-election contingent on a satisfactory evaluation of his or her contribution to the board.</p>	<p>Yes It has been regulated in the Work Guidelines and Regulations for the Board of Directors/Board of Commissioners in the Tenure of Directors/Board of Commissioners section http://bni.co.id/id-id/company/tatakelola/guidelines and rules</p>
E.2.6	<p>Has the company set a limit of five board seats that an individual independent/non-executive director/commissioner may hold simultaneously?</p>	<p>G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.E. The board should be able to exercise objective independent judgement on corporate affairs. V.E.3 Board members should be able to commit themselves effectively to their responsibilities. Service on too many boards or committees can interfere with the performance of board members. Some jurisdictions have limited the number of board positions that can be held. Specific limitations may be less important than ensuring that members of the board enjoy legitimacy and confidence in the eyes of shareholders. Disclosure about other board and committee memberships and chair responsibilities to shareholders is therefore a key instrument to improve board and committee nominations. Achieving legitimacy would also be facilitated by the publication of attendance records for individual board members (e.g. whether they have missed a significant number of meetings) and any other work undertaken on behalf of the board and the associated remuneration.</p>	<p>Yes It has been regulated in the Work Guidelines and Regulations for the Board of Directors/Board of Commissioners in the Tenure of Directors/Board of Commissioners section http://bni.co.id/id-id/company/tatakelola/guidelines and rules</p>
E.2.7	<p>Does the company have any executive directors who serve on more than two boards of listed companies outside of the group?</p>	<p>Achieving legitimacy would also be facilitated by the publication of attendance records for individual board members (e.g. whether they have missed a significant number of meetings) and any other work undertaken on behalf of the board and the associated remuneration.</p>	<p>No</p>

Nominating Committee			
	Does the company have a Nominating Committee?	G20/OECD Principles of Corporate Governance (2023): II: The rights and equitable treatment of shareholders and key ownership functions II.C.5 Effective shareholder participation in key corporate governance decisions, such as the nomination and election of board members, should be facilitated. Shareholders should be able to make their views known, including through votes at shareholder meetings, on the remuneration of board members and/or key executives, as applicable. The equity component of compensation schemes for board members and employees should be subject to shareholder approval.	Yes The Company has a Nomination and Remuneration Committee http://bni.co.id/id-id/ company/tatakelola/ board of commissioners committee
E.2.9	Is the Nominating Committee comprised of a majority of independent directors/ commissioners?		Yes As stated in the 2023 Fiscal Year Annual Report in the Nomination and Remuneration Committee section.
E.2.8		With respect to nomination of candidates, boards in many companies have established nomination committees to ensure proper compliance and transparency with established nomination procedures and to facilitate and co-ordinate the search for a balanced, diverse and qualified board. It is regarded as good practice for independent board members to have a key role on this committee. To further improve the selection process, the Principles also call for full and timely disclosure of the experience and background of candidates for the board and the nomination process, which will allow an informed assessment of the abilities and suitability of each candidate. It is required or considered good practice in some jurisdictions to also disclose information about any other board positions or committee memberships that nominees hold, and in some jurisdictions also positions that they are nominated for.	Yes As per the Annual Report 2023 Fiscal Year, Chairman of the Nomination and Remuneration Committee served by Agus Dermawan Wintarto Martowardojo, President Commissioner/Independent Commissioner. Then at the 2023 Extraordinary GMS held on September 19 2023, the GMS transferred Mr Pradjoto as President Commissioner/Independent Commissioner and become the Nomination and Remuneration Committee.
E.2.10	Is the chairman of the Nominating Committee an independent director/ commissioner?	G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.E.1 Boards should consider assigning a sufficient number of independent board members capable of exercising independent judgement to tasks where there is a potential for conflicts of interest. Examples of such key responsibilities are ensuring the integrity of financial and other corporate reporting, the review of related party transactions, and nomination and remuneration of board members and key executives.	
E.2.11	Does the company disclose the terms of reference/ governance structure/charter of the Nominating Committee?	G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.E The board should be able to exercise objective independent judgement on corporate affairs. V.E.2. Boards should consider setting up specialised committees to support the full board in performing its functions, in particular the audit committee – or equivalent body – for overseeing disclosure, internal controls and audit-related matters. Other committees, such as remuneration, nomination or risk management, may provide support to the board depending upon the company's size, structure, complexity and risk profile. Their mandate, composition and working procedures should be well defined and disclosed by the board which retains full responsibility for the decisions taken.	Yes As published on the Company's website. https://bni.co.id/id-id/ company/tatakelola/ board of commissioners committee
E.2.12	Is the meeting attendance of the Nominating Committee disclosed and if so, did the Nominating Committee meet at least twice during the year?	Where justified in terms of the size, structure, sector or level of development of the company as well as the board's needs and the profile of its members, the use of committees may improve the work of the board and allow for a deeper focus on specific areas. In order to evaluate the merits of board committees, it is important that the market receives a full and clear picture of their mandate, scope, working procedures and composition. Such information is particularly important in the many jurisdictions where boards are required to establish independent audit committees with powers to oversee the relationship with the external auditor.	Yes Annual Report for Fiscal Year 2023, section of Nomination and Remuneration Committee Meeting Agenda, as well as Frequency and Attendance Level of Nomination and Remuneration Committee Meetings.

Remuneration Committee / Compensation Committee			
E.2.13	Does the company have a Remuneration Committee?	G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.D. The board should fulfil certain key functions, including: V.D.5 Aligning key executive and board remuneration with the longer term interests of the company and its shareholders.	Yes The Company has a Nomination and Remuneration Committee http://bni.co.id/id-id/company/tatakelola/board-of-commissioners-committee
E.2.14	Is the Remuneration Committee comprised entirely of non-executive directors/commissioners with a majority of independent directors/commissioners ?	It is regarded as good practice for boards to develop and disclose a remuneration policy statement covering board members and key executives, as well as to disclose their remuneration levels set pursuant to this policy. Such policy statements may specify, especially with respect to executives, the relationship between remuneration and performance with ex ante criteria linked to performance, and include measurable standards that emphasise the long-term interests of the company and the shareholders over short-term considerations. Such measurable standards among others may relate to total shareholder return and appropriate sustainability goals and metrics. Policy statements generally tend to set conditions for payments to board members for extra-board activities, such as consulting. They also often specify terms to be observed by board members and key executives about holding and trading the stock of the company, and the procedures to be followed in granting and re-pricing options. In some jurisdictions, policy statements also provide guidance on the payments to be made when hiring and/or terminating the contract of an executive. The board may also monitor the implementation of the policy statement on remuneration.	Yes As stated in the 2023 Fiscal Year Annual Report in the Nomination Committee section and Remuneration and information on the Company's website. http://bni.co.id/id-id/company/governance/board-of-commissioners-committee
E.2.15	Is the chairman of the Remuneration Committee an independent director/commissioner?	Many jurisdictions recommend or require that remuneration policy and contracts for board members and key executives be handled by a special committee of the board comprising either wholly or a majority of independent directors and excluding executives that serve on each other's remuneration committees, which could lead to conflicts of interest. The introduction of malus and claw-back provisions is considered good practice. They grant the company the right to withhold and recover compensation from executives in cases of managerial fraud and other circumstances, for example when the company is required to restate its financial statements due to material noncompliance with financial reporting requirements.	Yes As per the Annual Report for Fiscal Year 2023 , Chairman of the Nomination and Remuneration Committee served by Agus Dermawan Wintarto Martowardojo, President Commissioner/Independent Commissioner. Then at the 2023 Extraordinary GMS held on September 19 2023, the GMS transferred Mr Pradjoto as President Commissioner/Independent Commissioner and become Chair of the Nomination and Remuneration Committee.

No	Parameter	Guide	Implementation Description
E.2.16	Does the company disclose the terms of reference/ governance structure/ charter of the Remuneration Committee?	G20/OECD Principles of Corporate Governance (2023): V. The responsibilities of the board V.E. The board should be able to exercise objective independent judgement on corporate affairs. V.E.2. Boards should consider setting up specialised committees to support the full board in performing its functions, in particular the audit committee – or equivalent body – for overseeing disclosure, internal controls and audit-related matters. Other committees, such as remuneration, nomination or risk management, may provide support to the board depending upon the company's size, structure, complexity and risk profile. E.2.22	Does at least one of the independent directors/ commissioners of the committee have accounting expertise (accounting qualification or experience)?	ICGN (2021) PRINCIPLE 8: Internal and external audit 8.3. Audit committee The board should establish an audit committee comprised entirely of independent non-executive directors. At least one member of the audit committee should have recent and relevant financial expertise and all audit committee members should be financially literate, including a basic understanding of accounting. Audit committees should also have a clear understanding of how sustainability factors can impact the company's financial statements.	Yes As stated in the Annual Report for Fiscal Year 2023 in Audit Committee Structure, Membership and Expertise section.
E.2.23	Is the meeting attendance of the Audit Committee disclosed and, if so, did the Audit Committee meet at least four times during the year?		Yes, as stated in Annual Report for the 2023 Fiscal Year section of the Nomination and Remuneration Committee Meeting Agenda, as well as the Frequency and Attendance Level of Audit Committee Meetings.
E.2.24	Does the Audit Committee have primary responsibility for recommendation on the appointment, and removal of the external auditor?	ICGN (2021) PRINCIPLE 8: Internal and external audit 8.3 Audit committee The board should establish an audit committee comprised entirely of independent non-executive directors. At least one member of the audit committee should have recent and relevant financial expertise and all audit committee members should be financially literate, including a basic understanding of accounting. Audit committees should also have a clear understanding of how sustainability factors can impact the company's financial statements. The terms of reference for the committee should be publicly disclosed and include: (f) recommending the appointment, reappointment and, if necessary, the removal of the external auditor, as well as the approving audit fees. Any non-audit fees should normally be less than the audit fee and, if not, there should be a clear explanation as to why it was necessary for the auditor to provide these services and how the independence and objectivity of the audit was assured;	No
E.3 Board Processes			
Board meetings and attendance			
E.3.1	Are the board of directors meeting scheduled before the start of financial year?	Scheduling board meetings before or at the beginning of the year would allow directors to plan ahead to attend such meetings, thereby helping to maximise participation, especially as non-executive directors often have other commitments. Additional ad hoc meetings can always be scheduled if and when necessary. It is common practice for boards in developed markets to schedule meetings in this way.	Yes As stated in the 2023 Fiscal Year Annual Report in the Board of Directors' Meetings section
E.3.2	Does the board of directors/ commissioners meet at least six times during the year?	G20/OECD Principles of Corporate Governance (2023): V.The responsibilities of the board V.E.3 Board members should be able to commit themselves effectively to their responsibilities. "Achieving legitimacy would also be facilitated by the publication of attendance records for individual board members (e.g. whether they have missed a significant number of meetings) and any other work undertaken on behalf of the board and the associated remuneration." ICGN (2021) PRINCIPLE 1: Board role and responsibilities 1.5 Commitment The board should meet regularly to discharge its duties and directors should commit adequate time to board meeting preparation and attendance. E.3.3	Has each of the directors/commissioners attended at least 75% of all the board meetings held during the year?	<p>G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.E. The board should be able to exercise objective independent judgement on corporate affairs. V.E.3 Board members should be able to commit themselves effectively to their responsibilities. Service on too many boards or committees can interfere with the performance of board members. Some jurisdictions have limited the number of board positions that can be held. Specific limitations may be less important than ensuring that members of the board enjoy legitimacy and confidence in the eyes of shareholders. Disclosure about other board and committee memberships and chair responsibilities to shareholders is therefore a key instrument to improve board and committee nominations. Achieving legitimacy would also be facilitated by the publication of attendance records for individual board members (e.g. whether they have missed a significant number of meetings) and any other work undertaken on behalf of the board and the associated remuneration.</p>	<p>Yes As stated in the 2023 Fiscal Year Annual Report in the Board of Commissioners and Board of Directors Meetings section.</p>
E.3.4	Does the company require a minimum quorum of at least 2/3 for board decisions?	<p>G20/OECD Principles of Corporate Governance (2023): V. The responsibilities of the board V.E. The board should be able to exercise objective independent judgement on corporate affairs. "... Independent board members can contribute significantly to the decision making of the board. They can bring an objective view to the evaluation of the performance of the board and management. In addition, they can play an important role in areas where the interests of management, the company and its shareholders may diverge such as executive remuneration, succession planning, changes of corporate control, take-over defences, large acquisitions and the audit function. In order for them to play this key role, it is desirable that boards declare who they consider to be independent and the criterion for this judgement. Some jurisdictions also require separate meetings of independent directors on a periodic basis."</p>	<p>No As regulated in the Company's Articles of Association https://bni.co.id/id-id/company/tatakelola/ bni's articles of association</p>
E.3.5	Did the non-executive directors/commissioners of the company meet separately at least once during the year without any executives present?	<p>ICGN (2021) PRINCIPLE 2: Leadership and independence 2.7. Independent meetings The chair should regularly hold meetings with the non-executive directors without executive directors present. In addition, the non-executive directors (led by the LID) should meet at least annually, without the chair present, to appraise the chair's performance or as appropriate.</p>	<p>Yes As stated in the Annual Report for 2023 Fiscal Year in the Board of Commissioners and Board of Directors Meetings section.</p>

Access to information			
E.3.6	Are board papers for board of directors/commissioners meetings provided to the board at least five business days in advance of the board meeting?	<p>G20/OECD Principles of Corporate Governance (2023): V.The responsibilities of the board V.F. In order to fulfil their responsibilities, board members should have access to accurate, relevant and timely information. Board members require relevant information on a timely basis in order to support their decision-making. Non-executive board members do not typically have the same access to information as key managers within the company. The contributions of non-executive board members to the company can be enhanced by providing access to certain key managers within the company such as, for example, the company secretary, the internal auditor, and the head of risk management or chief risk officer, and recourse to independent external advice at the expense of the company.</p> <p>In order to fulfil their responsibilities, board members should have access to and ensure that they obtain accurate, relevant and timely information. In cases when a publicly traded company is a part of a group, the regulatory framework should also ensure board members' access to key information about the activities of its subsidiaries to manage group-wide risks and implement group-wide objectives. At the same time, the regulatory framework should maintain safeguards to ensure that insiders will not use such information for their personal gain or of others. Where companies rely on complex risk management models, board members should be made aware of the possible shortcomings of such models.</p>	<p>Yes As stated in Annual Report for Fiscal Year 2023</p>
E.3.7	Does the company secretary play a significant role in supporting the board in discharging its responsibilities?	<p>G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.F. In order to fulfil their responsibilities, board members should have access to accurate, relevant and timely information. Board members require relevant information on a timely basis in order to support their decision-making. Non-executive board members do not typically have the same access to information as key managers within the company. The contributions of non-executive board members to the company can be enhanced by providing access to certain key managers within the company such as, for example, the company secretary, the internal auditor, and the head of risk management or chief risk officer, and recourse to independent external advice at the expense of the company.</p>	<p>Yes As stated in Annual Report for Fiscal Year 2023 on Corporate Secretary section.</p>
E.3.8	Is the company secretary trained in legal, accountancy or company secretarial practices and has kept abreast on relevant developments?	<p>ICGN (2021) PRINCIPLE 1: Board role and responsibilities 1.8. Advice The board should have adequate resources to fulfil its responsibilities efficiently and effectively under relevant law and regulation. The board should have access to advice from a company secretary (or general counsel) and/ or independent advice as appropriate at the company's expense.</p>	<p>Yes As stated in Annual Report for Fiscal Year 2023 on Corporate Secretary section.</p>

Board Appointments and Re-Election			
E.3.9	Does the company disclose the criteria used in selecting new directors/commissioners?	<p>G20/OECD Principles of Corporate Governance (2023): II. The rights and equitable treatment of shareholders and key ownership functions II.C.5 Effective shareholder participation in key corporate governance decisions, such as the nomination and election of board members, should be facilitated. Shareholders should be able to make their views known, including through votes at shareholder meetings, on the remuneration of board members and/or key executives, as applicable. The equity component of compensation schemes for board members and employees should be subject to shareholder approval. Electing the members of the board is a basic shareholder right. For the election process to be effective, shareholders should be able to participate in the nomination of board members and vote on individual nominees or on different lists of them. To this end, shareholders have access in a number of countries to the company's voting materials which are made available to shareholders, subject to conditions to prevent abuse. With respect to nomination of candidates, boards in many companies have established nomination committees to ensure proper compliance and transparency with established nomination procedures and to facilitate and co-ordinate the search for a balanced, diverse and qualified board. It is regarded as good practice for independent board members to have a key role on this committee. To further improve the selection process, the Principles also call for full and timely disclosure of the experience and background of candidates for the board and the nomination process, which will allow an informed assessment of the abilities and suitability of each candidate. It is required or considered good practice in some jurisdictions to also disclose information about any other board positions that nominees hold, and in some jurisdictions also positions that they are nominated for.</p>	<p>Yes As stated in Annual Report for Fiscal Year 2023.</p>
E.3.10	Did the company describe the process followed in appointing new directors/commissioners?	<p>G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.D. The board should fulfil certain key functions, including: V.D.6 Ensuring a formal and transparent board nomination and election process. The Principles promote an active role for shareholders in the nomination and election of board members. The board, with the support of a nomination committee if established, has an essential role to play in ensuring that the nomination and election processes are respected. First, while actual procedures for nomination may differ among countries, the board has the responsibility to make sure that established procedures are transparent and respected. Second, the board has a key role in defining the general or individual profile of board members that the company may need at any given time, considering the appropriate knowledge, competencies and expertise to complement the existing skills of the board. Third, the board or nomination committee has the responsibility to identify potential candidates to meet desired profiles and propose them to shareholders, and/or consider those candidates advanced by shareholders. The board's engagement and dialogue with shareholders is considered good practice in this process, provided that the board ensures transparency, equal treatment and that inside and business sensitive information is not disclosed. It is considered good practice to conduct open search processes extending to a broad range of backgrounds to respond to diversity objectives and the evolving nature of risks.</p>	<p>Yes As stated in Annual Report for Fiscal Year 2023.</p>

Internal Audit			
E.3.14	Does the company have a separate internal audit function?	<p>G20/OECD Principles of Corporate Governance (2023): V.The responsibilities of the board V.D.The board should fulfil certain key functions, including: V.D.8. Ensuring the integrity of the corporation's accounting and reporting systems for disclosure, including the independent audit, and that appropriate systems of control are in place, in compliance with the law and relevant standards.</p> <p>The board should demonstrate a leadership role to ensure that an effective means of risk oversight is in place. Ensuring the integrity of the essential reporting and monitoring systems will require that the board sets and enforces clear lines of responsibility and accountability throughout the organisation. The board will also need to ensure that there is appropriate oversight by senior management.</p> <p>Normally, this includes the establishment of an internal audit function. This function can play a critical role in providing ongoing support to the audit committee of the board or an equivalent body of its comprehensive oversight of the internal controls and operations of the company. The role and functions of internal audit vary across jurisdictions, but they can include assessment and evaluation of governance, risk management, and internal control processes.</p>	<p>Yes As stated in the 2023 Annual Report for the Internal Audit Unit section.</p>
E.3.15	Is the head of internal audit identified or, if outsourced, is the name of the external firm disclosed?	<p>Companies often disclose that they have an internal audit but, in practice, it is not uncommon for it to exist more in form than in substance. For example, the in-house internal audit may be assigned to someone with other operational responsibilities. As internal audit is unregulated, unlike external audit, there are firms providing outsourced internal audit services which are not properly qualified to do so. Making the identity of the head of internal audit or the external service provider public would provide some level of safeguard that the internal audit is substantive.</p>	<p>Yes As stated in the 2023 Annual Report for the Internal Audit Unit section.</p>
E.3.16	Does the appointment and removal of the internal auditor require the approval of the Audit Committee?	<p>G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.D.The board should fulfil certain key functions, including: V.D.8. Ensuring the integrity of the corporation's accounting and reporting systems for disclosure, including the independent audit, and that appropriate systems of control are in place, in compliance with the law and relevant standards.</p> <p>It is considered good practice for the internal auditors to report to an independent audit committee of the board or an equivalent body which is also responsible for managing the relationship with the external auditor, thereby allowing a co-ordinated response by the board.</p>	<p>Yes As stated in the 2023 Annual Report for the Internal Audit Unit section.</p>

Risk Oversight			
E.3.17	Does the company establish a sound internal control procedures/risk management framework and periodically review the effectiveness of that framework?	<p>G20/OECD Principles of Corporate Governance (2023): V: The responsibilities of the board V.D. The board should fulfil certain key functions, including: V.D.2. Reviewing and assessing risk management policies and procedures. V.D.8. Ensuring the integrity of the corporation's accounting and reporting systems for disclosure, including the independent audit, and that appropriate systems of control are in place, in compliance with the law and relevant standards.</p> <p>ICGN (2021) PRINCIPLE 6: Risk oversight The board should proactively oversee the assessment and disclosure of the company's key risks and approve the approach to risk management and internal controls regularly with any significant business change and satisfy itself that the approach is functioning effectively.</p>	<p>Yes As stated in the 2023 Financial Year Annual Report in the Risk Management section.</p>
E.3.18	Does the Annual Report/ Annual CG Report disclose that the board of directors/ commissioners has conducted a review of the company's material controls (including operational, financial and compliance controls) and risk management systems?	<p>ICGN (2021) PRINCIPLE 6: Risk oversight The board should proactively oversee the assessment and disclosure of the company's key risks and approve the approach to risk management and internal controls regularly with any significant business change and satisfy itself that the approach is functioning effectively.</p>	<p>Yes As stated in the 2023 Fiscal Year Annual Report in the Risk Management section.</p>
E.3.19	Does the company disclose the key risks to which the company is materially exposed to (i.e. financial, operational including IT, environmental, social, economic)?	<p>G20/OECD Principles of Corporate Governance (2023): IV: Disclosure and Transparency IV.A Disclosure should include, but not be limited to, material information on: IV.A.8 Foreseeable risk factors Users of financial information and market participants need information on reasonably foreseeable material risks that may include: risks that are specific to the industry or the geographical areas in which the company operates; dependence on commodities and value chains; financial market risks including interest rate or currency risk; risks related to derivatives and off-balance sheet transactions; business conduct risks; digital security risks; and sustainability risks, notably climate-related risks.</p> <p>The Principles envision the disclosure of sufficient and comprehensive information to fully inform investors and other users of the material and foreseeable risks of the company. Disclosure of risk is most effective when it is tailored to the particular company and industry in question. Disclosure about the system for monitoring and managing risk is increasingly regarded as good practice, including the nature and effectiveness of related due diligence processes.</p>	<p>Yes As stated in the 2023 Financial Year Annual Report in the Risk Management section.</p>
E.3.20	Does the Annual Report/ Annual CG Report contain a statement from the board of directors/commissioners or Audit Committee commenting on the adequacy of the company's internal controls/risk management systems?	<p>G20/OECD Principles of Corporate Governance (2023): V. The responsibilities of the board V.D. The board should fulfil certain key functions, including: V.D.8 Ensuring the integrity of the corporation's accounting and reporting systems for disclosure, including the independent audit, and that appropriate systems of control are in place, in compliance with the law and relevant standards.</p> <p>It is considered good practice for the internal auditors to report to an independent audit committee of the board or an equivalent body which is also responsible for managing the relationship with the external auditor, thereby allowing a co-ordinated response by the board. Both internal and external audit functions should be clearly articulated so that the board can maximise the quality of assurance it receives. It should also be regarded as good practice for the audit committee, or equivalent body, to review and report to the board the most critical policies which are the basis for financial and other corporate reports. However, the board should retain final responsibility for oversight of the company's risk management system and for ensuring the integrity of the reporting systems. Some jurisdictions have provided for the chair of the board to report on the internal control process.</p>	<p>Yes As stated in the Annual Report for Fiscal Year 2023</p>

E.4 People on the Board			
Board Chairman			
E.4.1	Do different persons assume the roles of chairman and CEO?	<p>G20/OECD Principles of Corporate Governance (2023): V.The responsibilities of the board V.E.The board should be able to exercise objective independent judgement on corporate affairs.</p> <p>In jurisdictions with single tier board systems, the objectivity of the board and its independence from management may be strengthened by the separation of the role of chief executive and Cchair. Separation of the two posts is generally regarded as good practice, as it can help to achieve an appropriate balance of power, increase accountability and improve the board's capacity for decision making independent of management.The designation of a lead director who is independent of management is also regarded as a good practice alternative in some jurisdictions if that role is defined with sufficient authority to lead the board in cases where management has clear conflicts. Such mechanisms can also help to ensure high quality governance of the company and the effective functioning of the board.The chair or lead independent director may, in some jurisdictions, be supported by a company secretary.</p>	<p>Yes As stated in Annual Report for Fiscal Year 2023 section: Distribution of Supervisory Roles and Responsibilities for Each Member of the Board of Commissioners.</p>
E.4.2	Is the chairman an independent director/commissioner?	<p>ICGN (2021) PRINCIPLE 2: Leadership and independence 2.1 Independent leadership There should be a clear division of responsibilities between the role of the chair of the board and the CEO to avoid unfettered powers of decision-making in any one individual.This is particularly relevant in controlled companies when either the chair or CEO are significant shareholders.The Board should be chaired by an independent director who should be independent on the date of appointment. Should the role of the chair and CEO be combined, the board should explain the reasons why this is in the best interests of the company in the annual report and keep the structure under review.The responsibilities of the chair, CEO, lead independent director and committee chairs should be clearly described and publicly disclosed.</p>	<p>Yes, as stated in Annual Report for Fiscal Year 2023 in the Independent Commissioner section.</p>

Capital & Risk Management Practices

Good Corporate Governance

No	Parameter	Guide	Implementation Description
E.4.3	Is any of the directors a former CEO of the company in the past 2 years?	<p>ICGN (2021) PRINCIPLE 2: Leadership and independence 2.5 CEO succession to Chair</p> <p>The practice of a company's retiring CEO remaining on the board as a director should be discouraged, regardless of any cooling off period, or in the event this practice does take place, the retiring CEO should not serve on board committees that require independent representation. If, exceptionally, the board decides that a retiring CEO should succeed to become chair, the board should consult with shareholders in advance setting out a convincing rationale and provide detailed explanation in the annual report. Unless there are extraordinary circumstances, there should be a break in service between the roles (e.g., a period of two years)</p>	No
E.4.4	Are the roles and responsibilities of the chairman disclosed?	<p>ICGN (2021) PRINCIPLE 2: Leadership and independence 2.3 Role of the Chair</p> <p>The chair should lead the board and ensure its effectiveness while inspiring a shared commitment among directors to the company's purpose and long-term strategy. This includes encouraging a culture of openness to allow a range of views to be expressed and adequate time for discussion of all agenda items. The chair should set the meeting agenda, ensuring that board members have sufficient and timely information to constructively challenge and debate managerial proposal.</p>	<p>Yes</p> <p>As stated in Annual Report for Fiscal Year 2023 section: Distribution of Supervisory Roles and Responsibilities for Each Member of the Board of Commissioners.</p>
Lead Independent Director			
E.4.5	If the Chairman is not independent, has the Board appointed a Lead/Senior Independent Director and has his/her role been defined?	<p>ICGN (2021) PRINCIPLE 2: Leadership and independence 2.4 Lead independent director</p> <p>The Board should appoint a Lead Independent Director (LID) even when the chair is independent. The LID provides shareholders, relevant stakeholders and directors with a valuable channel of communication to discuss matters that may involve a conflict of interest for the board chair which may include significant shareholders if there is a connection between them. The LID should not have directorship tenure in the company that raises questions as to the LID's independence as set out in Guidance 2.6.h. In a two-tier board the LID role could be assumed by a vice chair.</p>	No
Skills and Competencies			
E.4.6	Does at least one non-executive director/commissioner have prior working experience in the major sector that the company is operating in?	<p>ICGN (2021) PRINCIPLE 3: Composition and appointment</p> <p>The Board should comprise a sufficient mix of directors with relevant knowledge, independence, competence, industry experience and diversity of perspectives to generate effective challenge, discussion and objective decision-making in alignment with the company's purpose, long-term strategy and relevant stakeholders.</p>	<p>Yes</p> <p>As stated in Annual Report for Fiscal Year 2023, Board of Commissioners Profile section</p>

BONUS ITEMS

No	Parameter	Availability	Implementation Description
(B)A. Rights of shareholders			
(B)A.1	Right to participate effectively in and vote in general shareholders meeting and should be informed of the rules, including voting procedures, that govern general shareholders meeting.		
(B)A.1.1	Does the company practice real time secure electronic voting in absentia at general meetings of shareholders?	G20/OECD Principles of Corporate Governance (2023): II.C.6. The objective of facilitating shareholder participation suggests that jurisdictions and/or companies promote the enlarged use of information technology in voting, including secure electronic voting in all listed companies. The principles recommend that voting by proxy be generally accepted. Indeed, it is important to the promotion and protection of shareholders rights that investors can place reliance upon directed proxy voting	Yes As stated in the Annual Report for Fiscal Year 2023.
(B)B. Equitable treatment of shareholders			
(B)B.1	Notice of AGM		
(B)B.1.1	Does the company release its notice of AGM (with detailed agendas and explanatory circulars), as announced to the Exchange, at least 28 days before the date of the meeting?	G20/OECD Principles of Corporate Governance (2023): II.C.1. Shareholders should be furnished with sufficient and timely information concerning the date, location and agenda of general meetings, as well as full and timely information regarding the issues to be decided at the meeting. II.C.5 Effective shareholder participation in key corporate governance decisions, such as the nomination and election of board members ICGN (2021) PRINCIPLE 10: 10.3 Meeting Notice The board should ensure that the meeting agenda is posted on the company's website at least one month prior to the meeting taking place.	No
(B)C. Sustainability and Resilience			
(B)C.1	Does the company disclose how it manages climate-related risks and opportunities?	G20/OECD Principles of Corporate Governance (2023): VI.A.4. If a company publicly sets a sustainability-related goal or target, the disclosure framework should ensure that verifiable metrics are disclosed to allow investors to assess the credibility and progress toward meeting the announced goal or target. ICGN (2021) PRINCIPLE 7: 7.5 Climate change The board should assess the impact of climate change on the company business model and how it will be adapted to meet the needs of a net zero economy as part of a long-term strategy. This includes setting and disclosing targets to reduce carbon emissions and a period for achievement. Where climate change risks, whether physical or transitional, are identified as material and relevant, reporting should include discussion of the diligence process, strategy, metrics, targets and initiatives used to manage the risks. TCFD, Metrics and Targets a. Disclose the metrics used by the organisation to assess climate-related risks and opportunities in line with strategy and risk management process b. Disclose Scope 1, Scope 2, and if appropriate, Scope 3 GHG emissions and related risks c. Describe the targets used by the organisation to manage climate-related risks and opportunities and performance against targets TCFD, Metrik dan Target	Yes As stated in the Annual Report for Fiscal Year 2023.

(B)E.2	Board Structure		
(B)E.2.1	Is the Nominating Committee comprise entirely of independent directors/ commissioners?	ICGN (2021) PRINCIPLE 2: 2.2 Independence levels The board should comprise a majority of independent non-executive directors as a general standard. This should be regarded as best practice not only for companies with widely-held share ownership, but also for companies with concentrated share ownership and Subsidiaries. At a minimum, controlled companies should seek to link board independence levels to the economic stake held by minority shareholders.	No
(B)E.2.2	Does the Nominating Committee undertake the process of identifying the quality of directors aligned with the company's strategic directions?	G20/OECD Principles of Corporate Governance (2023) V.D.6. Ensuring a formal and transparent board nomination and election process. The board, with the support of a nomination committee if established, has an essential role to play in ensuring that the nomination and election processes are respected. First, while actual procedures for nomination differ among jurisdictions, the board has the responsibility to make sure that established procedures are transparent and respected. Second, the board has a key role in defining the collective or individual profile of board members that the company may need at any given time, considering the appropriate knowledge, competencies and expertise to complement the existing skills of the board. Third, the board or nomination committee has the responsibility to identify potential candidates to meet desired profiles and propose them to shareholders, and/or consider those candidates advanced by shareholders.	Yes As stated in the Annual Report for Fiscal Year 2023
(B)E.3	Board Appointments and Re-Election		
(B)E.3.1	Does the company use professional search firms or other external sources of candidates (such as director databases set up by director or shareholder bodies) when searching for candidates to the board of directors/ commissioners?	G20/OECD Principles of Corporate Governance (2023): V.D.6. The board or nomination committee has the responsibility to identify potential candidates to meet desired profiles and propose them to shareholders, and/or consider those candidates advanced by shareholders.	No
(B)E.4	Board Structure & Composition		
(B)E.4.1	Do independent non-executive directors/ commissioners make up more than 50% of the board of directors/ commissioners for a company with independent chairman?	G20/OECD Principles of Corporate Governance (2023): V.E.1. Boards should consider assigning a sufficient number of independent board members capable of exercising independent judgement to tasks where there is a potential for conflicts of interest. Examples of such key responsibilities are ensuring the integrity of financial and other corporate reporting, the review of related party transactions, and nomination and remuneration of board members and key executives	Yes As stated in the Annual Report for Fiscal Year 2023

(B)E.5	Risk Oversight		
(B)E.5.1	Does the company disclose that its Board identified key risk in relation to information technology including disruption, cyber security, and disaster recovery, to ensure that such risks are managed and integrated into the overall risk management framework?	G20/OECD Principles of Corporate Governance (2023): V.D.2. When fulfilling these key functions, the board should ensure that material sustainability matters are considered. With a view to increasing resilience, boards should also ensure that they have adequate processes in place within their risk management frameworks to deal with significant external company relevant risks, such as health crises, supply chain disruptions and geopolitical tensions. These frameworks should work ex ante (as companies should foster their resilience in the event of a crisis) and ex post (as companies should be able to set up crisis management processes at the onset of a sudden negative event). Of notable importance is the management of digital security risks, which are dynamic and can change rapidly. Risks may relate, among other matters, to data security and privacy, the handling of cloud solutions, authentication methods, and security safeguards for remote personnel working on external networks. As with other risks, these risks should be integrated more broadly within the overall cyclical company risk management framework.	Yes As stated in the Annual Report for Fiscal Year 2023
(B)E.6	Board Performance/Commissioners		
(B)E.6.1	Does the company have a separate board level Risk Committee?	ICGN (2021) PRINCIPLE 6: 6.5 Risk Committee While ultimate responsibility for a company's risk management approach rests with the full board, having a risk committee can be an effective mechanism to bring the transparency, focus and independent judgement needed to oversee the company's approach to risk management and internal controls. A risk committee, and the board more generally, should be informed through the company's enterprise-wide internal control and risk management system.	Yes As stated in the Annual Report for Fiscal Year 2023

(P)A.4	Capital structures and arrangements that enable certain shareholders to obtain a degree of control disproportionate to their equity ownership should be disclosed.		
	Did the company fail to disclose the existence of:		
(P)A.4.1	Shareholders agreement?		No
(P)A.4.2	Voting cap?	G20/OECD Principles of Corporate Governance (2023): II.D.	No
(P)A.4.3	Multiple voting rights?		No
(P)A.5	A.5 Capital structures and arrangements that enable certain shareholders to obtain a degree of control disproportionate to their equity ownership should be disclosed.		
		G20/OECD Principles of Corporate Governance (2023): IV.A.3. Some capital structures such as pyramid structures, cross-shareholdings and shares with limited or multiple voting rights allow shareholders to exercise a degree of control over the corporation disproportionate to their equity ownership in the company.	
(P)A.5.1	Is a pyramid ownership structure and/ or cross holding structure apparent?	Company groups are often complex structures that involve several layers of subsidiaries, including across different sectors and jurisdictions. These structures may limit the ability of non-controlling shareholders of the parent and Subsidiaries to influence corporate policies and understand the risks involved, and may allow controlling shareholders to extract private benefits from group companies	
		Given the potential of these mechanisms to redistribute the influence of shareholders on company policy, and also its relevance for the enforcement of takeover regulation, the disclosure of such capital structures, group structures and their control arrangements should be required. Disclosure about such schemes also allows shareholders, debtholders and potential investors to make better informed decisions.	
(P)B.	Equitable treatment of shareholders		
(P)B.1	Insider trading dan transaksi pribadi yang merugikan tidak diperbolehkan		
		G20/OECD Principles of Corporate Governance (2023): III.E. Institutional investors, stock markets, and other intermediaries III.E.3. Insider trading and market manipulation should be prohibited and the applicable rules enforced.	
(P)B.1.1	Has there been any conviction of insider trading involving directors/commissioners, management and employees in the past three years?	ICGN (2021) PRINCIPLE 4: 4.4 Employee share dealing The board should develop clear rules regarding any trading by directors and employees in the company's own securities. Individuals should not benefit directly or indirectly from knowledge which is not generally available to the market.	No

(P)B.2	Protecting minority shareholders from abusive action		
		G20/OECD Principles of Corporate Governance (2023): III. Institutional investors, stock markets, and other intermediaries III.E. Insider trading and market manipulation should be prohibited and the applicable rules enforced.	
(P)B.2.1	Has there been any cases of non compliance with the laws, rules and regulations pertaining to material related party transactions in the past three years?	ICGN (2021) PRINCIPLE 9: 9.3 Conflicts of interest The board should ensure that policies and procedures on conflicts of interest are established, understood and implemented by directors, management, workers and other relevant parties, including members of related business groups. If a director has an interest in a matter under consideration by the board, then the director should promptly declare such an interest and be precluded from voting on the subject or exerting influence 9.4 Related party transactions The board should develop, adopt and disclose a related party transactions (RPT) Policy and have a robust process for approving, reviewing and monitoring RPTs and any inherent conflicts of interest. This includes establishing a committee of independent directors, either as a separate committee, or an existing committee comprised of independent directors, for example the audit committee.	No
(P)B.2.2	Were there any RPTs that can be classified as financial assistance (i.e not conducted at arms length) to entities other than wholly-owned Subsidiaries?	G20/OECD Principles of Corporate Governance (2023): II.G. Minority shareholders should be protected from abusive actions by, or in the interest of, controlling shareholders acting either directly or indirectly, and should have effective means of redress. Abusive selfdealing should be prohibited.	
(P)C.	Role of stakeholders		
(P)C.1	The rights of stakeholders that are established by law or through mutual agreements are to be respected.		
		G20/OECD Principles of Corporate Governance (2023): IV.D. The rights of stakeholders that are established by law or through mutual agreements are to be respected.	
(P)C.1.1	Have there been any violations of any laws pertaining to labour/ employment/ consumer/ insolvency/ commercial/ competition or environmental issues?	(8) Companies are also well advised to establish and ensure the effectiveness of internal controls, ethics, and compliance programmes or measures to comply with applicable laws, regulations and standards, including statutes criminalising the bribery of foreign public officials, as required under the OECD Anti-Bribery Convention, and other forms of bribery and corruption. Moreover, compliance must also relate to other laws and regulations such as those covering securities, taxation, competition, and work and safety conditions.	No
(P)C.2	Where stakeholders participate in the corporate governance process, they should have access to relevant, sufficient and reliable information on a timely and regular basis.		
		G20/OECD Principles of Corporate Governance (2023): IV.D.4. Where stakeholders participate in the corporate governance process, they should have access to relevant, sufficient and reliable information on a timely and regular basis.

(P).C.2.2	Is there any evidence that the company is engaging in greenwashing activities?	G20/OECD Principles of Corporate Governance (2023): VI.C. Boards should ensure that companies' lobbying activities are coherent with their sustainability-related goals and targets. Boards should effectively oversee the lobbying activities management conducts and finances on behalf of the company, in order to ensure that management gives due regard to the long-term strategy for sustainability adopted by the board. For instance, lobbying against any carbon pricing policy may be expected to increase a company's short-term profits but not be in line with the company's goal to make an orderly transition to a low carbon economy.	No
(P)D. Disclosure and transparency			
(P)D.1	Sanctions from regulator on financial reports	Guiding Reference	Implementation Description
(P)D.1.1	Did the company receive a "qualified opinion" in its external audit report?	G20/OECD Principles of Corporate Governance (2023): IV: Disclosure and Transparency IV.B. Information should be prepared and disclosed in accordance with internationally recognised accounting and disclosure standards.	No
(P)D.1.2	Did the company receive an "adverse opinion" in its external audit report?	IV.C. An annual external audit should be conducted by an independent, competent and qualified auditor in accordance with internationally recognised auditing, ethical and independence standards in order to provide reasonable assurance to the board and shareholders on whether the financial statements are prepared, in all material respects, in accordance with an applicable financial reporting framework.	No
(P)D.1.3	Did the company receive a "disclaimer opinion" in its external audit report?		No
(P)D.1.4	Has the company in the past year revised its financial statements for reasons other than changes in accounting policies?	ICGN (2021) PRINCIPLE 8: 8.2 External audit The board should establish formal procedures to ensure an effective and independent external audit of the company's financial statements to provide assurance to shareholders and relevant stakeholders around a company's financial position, performance and prospects. The external auditor's direct reporting relationship and accountability should be to the independent audit committee.	No
(P)E. Responsibilities of the Board			
(P)E.1	Compliance with listing rules, regulations and applicable laws		
(P)E.1.1	Is there any evidence that the company has not complied with any listing rules and regulations apart from disclosure rules over the past year?	G20/OECD Principles of Corporate Governance (2023): VI.D.8. Ensuring the integrity of the corporation's accounting and reporting systems for disclosure, including the independent external audit, and that appropriate control systems are in place, in compliance with the law and relevant standards. Companies are also well advised to establish and ensure the effectiveness of internal controls, ethics, and compliance programmes or measures to comply with applicable laws, regulations and standards, including statutes criminalising the bribery of foreign public officials, as required under the OECD Anti-Bribery Convention, and other forms of bribery and corruption. Moreover, compliance must also relate to other laws and regulations such as those covering securities, taxation, competition, and work and safety conditions. Other laws that may be applicable include those relating to human rights, the environment, fraud and money laundering. Such compliance programmes will also underpin the company's code of ethics.	No
(P)E.1.2	Have there been any instances where non-executive directors/commissioner have resigned and raised any issues of governance-related concerns?	UK CODE (JULY 2018) Provision 8. Where directors have concerns about the operation of the board or the management of the company that cannot be resolved, their concerns should be recorded in the board minutes. On resignation, a non-executive director should provide a written statement to the chair, for circulation to the board, if they have any such concerns.	No

(P)E.4	Board structure and composition		
(P)E.4.1	Has the chairman been the company CEO in the last three years?	<p>G20/OECD Principles of Corporate Governance (2023): V.E. The board should be able to exercise objective independent judgement on corporate affairs. In jurisdictions with single tier board systems, the objectivity of the board and its independence from management may be strengthened by the separation of the role of chief executive and chair. Separation of the two posts is regarded as good practice, as it can help to achieve an appropriate balance of power, increase accountability and improve the board's capacity for decision-making independent of management. The designation of a lead director who is independent of management is also regarded as a good practice alternative in some jurisdictions if that role is defined with sufficient authority to lead the board in cases where management has clear conflicts</p> <p>ICGN (2021) PRINCIPLE 2: 2.5 CEO succession to Chair The practice of a company's retiring CEO remaining on the board as a director should be discouraged, regardless of any cooling off period, or in the event this practice does take place, the retiring CEO should not serve on board committees that require independent representation. If, exceptionally, the board decides that a retiring CEO should succeed to become chair, the board should consult with shareholders in advance setting out a convincing rationale and provide detailed explanation in the annual report. Unless there are extraordinary circumstances, there should be a break in service between the roles (e.g., a period of two years).</p>	No
(P)E.4.2	Do non-executive directors/commissioners receive options, performance shares or bonuses?	<p>UK CODE (JULY 2018) Provision 34. Levels of remuneration for the chair and all non-executive directors should reflect the time commitment and responsibilities of the role. Remuneration for all non-executive directors should not include share options or other performance-related elements.</p> <p>ASX CODE (FEB 2019) Box 8.2: Suggested guidelines for Non-executive director remuneration</p> <p>Composition: non-executive directors should be remunerated by way of cash fees, superannuation contributions and non-cash benefits in lieu of fees (such as salary sacrifice into superannuation or equity).</p> <p>Fixed remuneration: levels of fixed remuneration for non-executive directors should reflect the time commitment and responsibilities of the role.</p> <p>Performance-based remuneration: nonexecutive directors should not receive performance-based remuneration as it may lead to bias in their decision-making and compromise their objectivity</p> <p>Equity-based remuneration: it is generally acceptable for non-executive directors to receive securities as part of their remuneration to align their interests with the interests of other security holders.⁸⁰ However, nonexecutive directors generally should not receive options with performance hurdles attached or performance rights as part of their remuneration as it may lead to bias in their decision-making and compromise their objectivity</p> <p>Termination payments: non-executive directors should not be provided with retirement benefits other than superannuation.</p>	Yes, Board of Directors receive share options

Do shareholders have the right to participate in:			
A.2.1	Amendments to the company's constitution?	G20/OECD (2015) Principle II (B) Shareholders should be sufficiently informed about, and have the right to approve or participate in, decisions concerning fundamental corporate changes such as: (1) amendments to the statutes, or articles of incorporation or similar governing documents of the company.	Yes As stated in Article 28 of the Company's Articles of Association.
A.2.2	The authorisation of additional shares?	G20/OECD (2015) Principle II (B): (2) the authorisation of additional shares.	Yes As stated in Article 4 paragraph (5) of the Company's Articles of Association, Yes, as stated.
A.2.3	The transfer of all or substantially all assets, which in effect results in the sale of the company?	G20/OECD (2015) Principle II (B): (3) extraordinary transactions, including the transfer of all or substantially all assets, that in effect result in the sale of the company G20/OECD (2015) Prinsip II	Yes As stated in Article 12 paragraph (7) of the Company's Articles of Association.
B.1.1	Does the company's ordinary or common shares have one vote for one share?	OECD Principle II E. All shareholders of the same series of a class should be treated equally. Capital structures and arrangements that enable certain shareholders to obtain a degree of influence or control disproportionate to their equity ownership should be disclosed. 1. Within any series of a class, all shares should carry the same rights. All investors should be able to obtain information about the rights attached to all series and classes of shares before they purchase. Any changes in economic or voting rights should be subject to approval by those classes of shares which are negatively affected. ICGN Principle 9.1 Share classes Sufficient information about the material attributes of all of the company's classes and series of shares should be disclosed on a timely basis. Ordinary or common shares should feature one vote for each share. Divergence from a 'one-share, one-vote' standard which gives certain shareholders power disproportionate to their economic interests should be disclosed and explained. Dual class share structures should be kept under review and should be accompanied by commensurate extra protections for minority shareholders, particularly in the event of a takeover bid.	Yes As stated in the rules of the Annual GMS and Extraordinary GMS and Annual Report for Fiscal Year 2023 in the General Meeting of Shareholders and have been published on the Company's website.
B.3.1	Does the company have policies and/or rules prohibiting directors/ commissioners and employees to benefit from knowledge which is not generally available to the market?	OECD Principle III E. Insider trading and market manipulation should be prohibited and the applicable rules enforced. ICGN Principle 4. Corporate Culture 4.5 Employee share dealing There should be clear rules regarding any trading by directors and employees in the company's own securities. Individuals should not benefit directly or indirectly from knowledge which is not generally available to the market.	Yes As stated in the Annual Report for Fiscal Year 2023

Implementation Of Corporate Governance Principles For Banks According To Basel Committee On Banking Supervision Standards

The standard implementation of corporate governance principles for banks issued by the Basel Committee on Banking Supervision includes 12 principles. The implementation at BNI was as follows:

Principle	Explanation	Implementation at BNI
Principle 1 Board of Commissioners Responsibilities	The Board of Commissioners responsibilities include: approval and supervision of the implementation of business strategy, structure and governance mechanisms and corporate culture	The Board of Commissioners has duties, responsibilities and authorities as stipulated in the Work Guidelines and Rules of the Board of Commissioners of PT Bank Negara Indonesia (Persero) Tbk, which was ratified through the PT Bank Negara Indonesia (Persero) Tbk Board of Commissioners Decree of No.KEP/049/DK/2017 dated October 26, 2017 concerning Guidelines and Working Rules for the PT Bank Negara Indonesia Tbk Board of Commissioners
Principle 2 Board of Commissioners Qualifications and Composition	Members of the Board of Commissioners be qualified in accordance with their duties and responsibilities, both individually and collegially. The Board of Commissioners must understand its role in supervising and implementing corporate governance, and being able to carry out sound and objective decision making	Each member of the BNI Board of Commissioners is qualified according to their duties and responsibilities, both individually and collegially as stipulated in the Company's Articles of Association, which states that the requirements for members of the Board of Commissioners must comply with the provisions of the Law on Limited Liability Companies, laws and regulations in the Capital Market sector, and other applicable laws and regulations related to the Company's business activities
Principle 3 Board of Commissioners Structure and Mechanism	The Board of Commissioners must establish appropriate governance structures and practices for carrying out their duties, and periodically review their effectiveness.	In the BNI Governance Structure, the duties and responsibilities of the Board of Commissioners is supported by Board of Commissioners' Supporting Organs consisting of the Secretary to the Board of Commissioners, the Audit, Remuneration and Nomination Committee, the Risk Monitoring Committee, and the Integrated Governance Committee. Supporting Organs of the Board of Commissioners are appointed and responsible to the Board of Commissioners. The Board of Commissioners regularly/periodically reviews and evaluates the effectiveness of the Board of Commissioners supporting organs.
Principle 4 Board of Directors	Under the direction and supervision of the Board of Commissioners, the Board of Directors manages the Bank's activities in accordance with the business strategy, risk appetite, remuneration policies and other policies that have been approved by the Board of Commissioners.	Good corporate governance mechanisms at BNI have been running well and effectively and are in accordance with laws and regulations and the best standards for implementing governance that apply nationally and globally, where the Board of Commissioners functions to supervise the management of the Company by the Board of Directors and the Board of Directors has the duty of managing the company in accordance with the principles of good corporate governance. All policies underlying BNI's operational activities must obtain approval from the Board of Commissioners. The governance mechanism effectiveness has had a positive impact on achieving targets and improving the Bank's performance

Principle	Explanation	Implementation at BNI
Principle 5 Business Group Governance Structure	Within a business group, the Board of Commissioners of the Parent Company has overall responsibility for the Business Group and for ensuring the establishment and implementation of clean governance practices related to the structure, business and risks of business groups and entities. The Board of Commissioners and Board of Directors must understand the organizational structure of the Business Group and the risks it faces.	As a Holding Company with 6 (six) subsidiary companies, BNI implements Integrated Governance, Integrated Risk Management, and Integrated Minimum Capital Requirements. The BNI Board of Commissioners has also formed an Integrated Governance Committee that consists of representatives from all member entities of the Financial Conglomerate. BNI as the Holding Company also issues Integrated Governance Guidelines, Integrated Risk Management Policies and frameworks, Integrated Compliance Guidelines and Internal Audit, and other related policies. These policies are applied to all member companies of the BNI Financial Conglomerate as long as they do not conflict with regulations that govern each company more specifically.

BNI's risk management strategy is carried out in an integrated manner with business strategy. The implementation of risk management is proactive and forward looking with the aim of maximizing added value for shareholders, managing capital comprehensively, and ensuring profitability and sustainable business growth.

BNI has a Risk Management Organ Structure which is presented as follows:

Principle 6 Risk Management Function

The Bank must have a qualified risk management function, that is independent, has quality resources and has access to the Board of Commissioners.

The Enterprise Risk Management (ERM) Division acts as a Risk Management Work Unit (SKMR) and Integrated Risk Management Work Unit (SKMRT). Based on its organizational structure, the Enterprise Risk Management Division is under and directly responsible to the Director of Risk Management who oversees the Risk Management function and the Integrated Risk Management function.

In carrying out its functions, the Risk Management Work Unit can escalate problems that occur to the Risk Management & Anti-Fraud Committee, Risk Management Sub-Committee (KRA-RMC) or the Director in charge of the Risk Management function. Meanwhile, the Integrated Risk Management Work Unit escalates problems to the Integrated Risk Management Committee or the Director in charge of the Integrated Risk Management function.

Principle	Explanation	Implementation at BNI
<p>Principle 7 Identification of Risk Monitoring Management</p>	<p>Risks must be identified, monitored and controlled for all Bank activities. The risk management and internal control infrastructure quality must be keep up with changes in the Bank's risk profile, external risk conditions and industry practices.</p>	<p>BNI implements a risk management process including a continuous process of identifying, measuring, monitoring and controlling risks for all material risk factors supported by a Risk Management Information System.</p> <p>The risk identification process is carried out proactively to analyze the source, the level of possibility of risk arising, and the impact experienced by the company. The things to pay attention to in the risk identification process are:</p> <ol style="list-style-type: none"> 1. Identification of all risks is carried out periodically; 2. Have a method or system to identify risks for all BNI products and business activities; 3. Specifically identify risks for new products and activities, before new products/activities are introduced or implemented. <p>The risk measurement process is carried out to determine the magnitude of risk exposure as a reference in controlling risk and meeting Capital Adequacy. Risk measurement is carried out quantitatively and/or qualitatively according to the measurement method determined by the regulator or by using internal methods for methods that have not been specifically determined. Risk measurement at BNI is also equipped with stress testing for credit risk, market risk and liquidity risk to anticipate extreme conditions.</p> <p>The risk monitoring process is carried out to ensure that risks have been managed properly, including through monitoring the mitigation and risk limits that have been set. Risk monitoring is carried out both by the Operational Work Unit (Risk Taking Unit) as the risk owner and by the Risk Management Work Unit as the Risk Control Unit.</p> <p>The risk control process carried out by BNI aims to manage risks that could disrupt the continuity of the company's business. The risk control strategy carried out by BNI is reducing risk (risk mitigation), accepting risk (risk acceptance), avoiding risk (risk avoidance), and transferring risk (risk transfer).</p> <p>In addition, BNI has also developed a Risk Management Information System to support the implementation of risk identification, measurement, monitoring and control processes, and ensure the availability of accurate, complete, informative, timely and reliable information so that it can be used in the decision-making process by Management to anticipate changes in the Bank's risk profile, industry practices and external risk conditions.</p>
<p>Principle 8 Risk Communication</p>	<p>Effective implementation of risk governance requires accurate risk communication within the Bank between the organization, and through reporting to the Board of Commissioners and Directors.</p>	<p>In implementing risk management in the company, BNI considers the need for alignment between strategy and business objectives with risk management strategy and risk appetite. The risk management strategy consists of 4 (four) main components, namely:</p> <ol style="list-style-type: none"> 1. The level of risk to be taken (risk appetite) and risk tolerance (risk tolerance); 2. Risk management principles and policies; 3. Risk governance; 4. Type of risk exposure and market conditions. <p>The governance for determining risk management strategies consists of:</p> <ol style="list-style-type: none"> 1. The risk management strategy is one of the bases (references) in determining the business strategy outlined in the BNI Bank Business Plan (RBB) which is determined annually and submitted to the Regulator; 2. The risk management strategy is prepared and prepared by the Risk Management Work Unit, decided by the Board of Directors through the Risk Management & Anti-Fraud Committee Meeting for Risk Management and approval is sought from the Board of Commissioners. <p>The risk management strategy is communicated by the Board of Directors to Divisions/Work Units and reviewed periodically in line with changes in business strategy, taking into account economic conditions, banking business, changes in regulations by regulators and their impact on the Bank's financial performance.</p>

Principle	Explanation	Implementation at BNI
Principle 9 Compliance	The Board of Commissioners is responsible for overseeing management related to the Bank's compliance risk. The Board of Commissioners must establish a compliance function and provide approval for policies and processes for identifying, assessing, monitoring and reporting, and providing advice on compliance risks.	The Board of Commissioners supervisory function on the Bank's compliance risk is carried out by the Risk Monitoring Committee, in relation to the application of the precautionary principle, to ensure that all Bank activities and policies have been carried out in accordance with the applicable laws and regulations. The Board of Commissioners regularly reviews and evaluates the compliance function
Principle 10 Internal Auditing	The internal audit function must report independent assurance activities to the Board of Commissioners and must support the Board of Commissioners and the Board of Directors in encouraging an effective governance process and the long term health of the Bank.	BNI already has an internal audit work unit, which is carried out by Internal Audit, with the main task of carrying out assurance and consulting to provide added value and improvement to the quality of control, risk management and corporate governance, independently and objectively, as described in this Annual Report in the about Internal Audit section.
Principle 11 Compensation	The Bank's remuneration structure must support the Application of corporate governance and risk management.	BNI has a Nomination and Remuneration Committee whose formation and functions are in accordance with applicable laws and regulations, so that the remuneration policies support the implementation of corporate governance and risk management.
Principle 12 Disclosure and Transparency	The Bank's governance implementation must be carried out in a transparent manner to Shareholders, Depositors, other relevant Stakeholders and Market Participants.	BNI has a high commitment to applying the corporate governance principles, including the transparency principle. BNI always prioritizes disclosure and transparency about the Company to shareholders and other stakeholders in accordance with applicable rules and regulations.

Social and Environmental Responsibility **Commitment** and Policies

As a state-owned enterprises (SOEs) playing a role as a development agent, PT Bank Negara Indonesia (Persero) Tbk, or BNI, is committed to consistently contribute to facilitating the economy and accelerating the achievement of Sustainable Development Goals (SDGs), which have become a worldwide concern and also the agenda of Indonesian Government, one of which is through the implementation of Social and Environmental Responsibility (SER) programs and activities.

State-owned Enterprise's Social and Environmental Responsibility Program, also known as SOEs SER Program, is an activity that represent SOEs' commitment and dedication to sustainable development by providing economic, social, environmental, legal, and governance benefits based on more integrated, directed, measurable, and accountable are part of the company's business strategy, inline with Minister of SOEs Regulation No. PER-1/MBU/03/2023 concerning Special Assignments also Social and Environmental Responsibility Programs for SOEs.

BNI's SER Program is created in accordance with the Bank's Mission and Environmental, Social, and Governance (ESG)

components, guided by applicable laws and regulations, namely:

1. 2007 Law No. 40 concerning Limited Liability Companies;
2. 2012 Government Regulation No. 47 concerning Social and Environmental Responsibility in Limited Liability Companies;
3. Minister of SOEs Regulation of the Republic of Indonesia No. PER-1/MBU/03/2023 dated March 03, 2023 concerning Special Assignments and Social and Environmental Responsibility Programs for State-Owned Enterprises.
4. OJK Regulation No. 51/POJK.03/2017 dated July 18, 2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers and Public Companies;
5. Bank Internal Guidelines.

Following relevant laws and regulations, BNI has established policies used as basis for implementing compliance with information disclosure on the impact of Bank's business decision and activities on society and the environment via transparent and ethical behaviour. BNI's SER Program policies include:

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

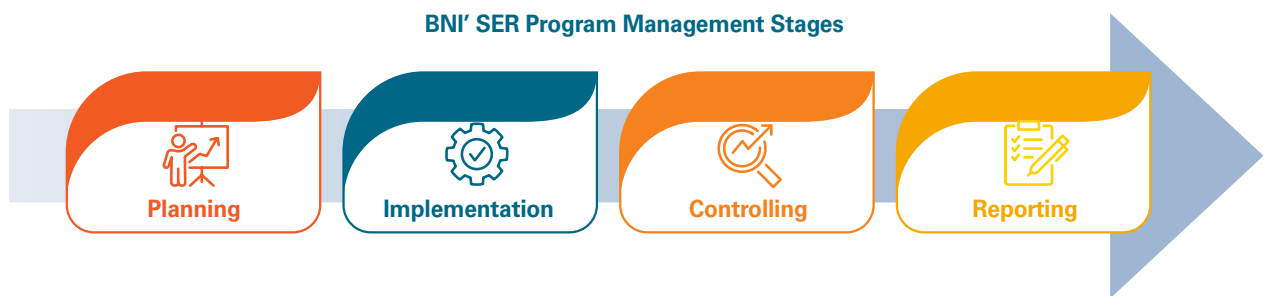

Financial Statements

1. Corporate Guidelines No. IN/924/KMP/001 dated January 03, 2022 concerning the Social and Environmental Responsibility (SER) program;
2. Corporate Guidelines on Business Banking Credit BUKU I Corporate Segment for customer credit risk analysis that regulates the requirements for AMDAL or PROPER (Company Rating Assessment Program in Environmental Management) BPP No. IN/690/PGV/001 dated December 20, 2018;
3. Corporate Guidelines on Community Development Management No. IN/341/KMP/001 dated July 17, 2017;
4. Corporate Guidelines on Environmentally Friendly Lifestyle No. IN/418/KMP/001 dated September 12, 2017.

The BNI's SER Program is carried out systematically and in an integrated manner to ensure the implementation, achievement of success, and impact management in accordance with Program priorities and/or objectives. Thus, BNI manages SER Program through the following stages:

1. Planning;
2. Implementation;
3. Controlling; dan
4. Reporting.

BNI' SER Program Management Stages

BNI's SER Program Objectives

According to the Minister of State-Owned Enterprises of the Republic of Indonesia Regulation No. PER-1/MBU/03/2023 dated March 03, 2023 concerning Special Assignments and Social and Environmental Responsibility Programs for State-Owned Enterprises, BNI's SER Program objectives are:

1. Providing benefits for economic development, social development, environmental development as well as legal and corporate governance development;
2. Contributing to the creation of added value for the Company with integrated, targeted, measurable, and accountable principles;
3. Fostering micro and small businesses to be more resilient and independent, as well as the communities around the company.

BNI's SER Program Principles

BNI's SER Program is carried out by applying the following principles:

1. Integrated, namely based on risk analysis and business processes related to stakeholders;
2. Targeted, namely having clear direction to achieve corporate goals;
3. Measurable, namely making contributions and providing benefits that generate changes or added value for stakeholders and the Company; and
4. Accountability, namely being accountable and thereby avoiding the potential for misuse and deviations.

BNI's SER Main Pillars

BNI's SER program is also carried out with reference to 4 (four) main pillars:

1. Social, to achieve fair and equal fulfilment of essential human rights in order to increase welfare for the entire community;
2. Environment, for sustainable management of natural resources, and the environment as a support for all life;
3. Economy, to achieve quality economic growth through sustained employment and business opportunities, innovation, inclusive industry, adequate infrastructure, affordable clean energy, and supported by partnerships; and
4. Law and governance: to provide legal certainty and effective, transparent, accountable, and participatory government in order to ensure security stability and a law-based state.

The four main pillars cover 17 Sustainable Development Goals: (1) No Poverty; (2) Zero Hunger; (3) Good Health and Well-Being; (4) Quality Education; (5) Gender Equality; (6) Clean Water and Sanitation; (7) Affordable and Clean Energy; (8) Decent Work and Economic Growth; (9) Industry, Innovation and Infrastructure; (10) Reduced Inequalities; (11) Sustainable Cities and Communities; (12) Responsible Consumption and Production; (13) Climate Action; (14) Life Below Water; (15) Life on Land; (16) Peace, Justice and Strong Institutions; (17) Partnerships for the Goals.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM MAIN FOCUS, AND COMPANY SUPPORT FOR SUSTAINABLE DEVELOPMENT GOALS

BNI has the main focus programs consists of 5 (five) BNI Sustainability Pillars as a form of BNI’s support for the Sustainable Development Goals. The five BNI Sustainability Pillars include, BNI for Indonesia, BNI for Customers, BNI for the Environment, BNI for the Community, and BNI for Employees.

5 (Five) Pillars of BNI Sustainability

BNI FOR INDONESIA

Running the Company’s business by integrating economic, social and environmental interests and governance.

BNI FOR THE EMPLOYEES

Creating the best conditions for employees as a place of pride to work and achieve.

BNI FOR CUSTOMERS

Providing excellent service, digital solutions, security and privacy protection for all customers.

PILLARS OF SUSTAINABILITY

BNI FOR THE COMMUNITY

Increasing awareness and responsibility at all levels of society in line with business development.

BNI FOR THE ENVIRONMENT

Improving the environment’s quality in line with business development.

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

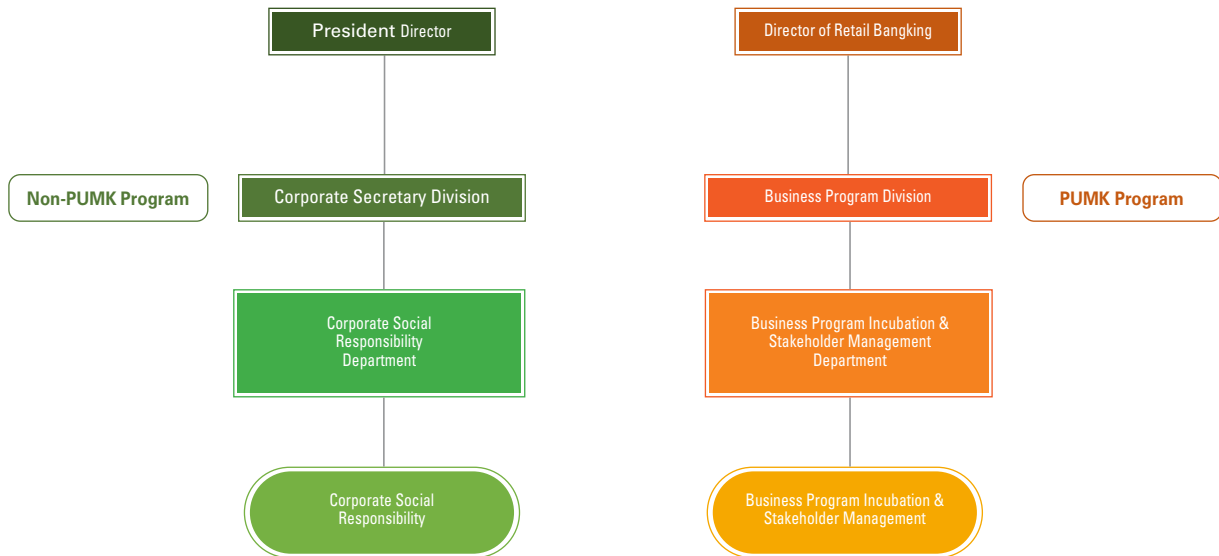

Financial Statements

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM MANAGER

In order for all SER programs within BNI to be effectively implemented, the overall program execution is divided across several divisions, each with responsibilities corresponding to program categories. BNI's SER program management is currently under the Corporate Secretary Division (CSE) and the Business Program Division (SBP), both reporting directly to the President Director, as attached below.

SER Program Management Organizational Structure

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY IMPLEMENTATION STRATEGY AND PROGRAM BASED ON THE CONCEPT OF SUSTAINABLE FINANCE

In developing strategies and implementing its SER programs, BNI adheres to the concept of sustainable finance. BNI seeks to exert a positive influence and contribute to the social well-being of communities and broader society connected to BNI, through proper and long-lasting impact of SER programs implementation.

The strategies and programs for implementing SER programs are also designed to consistently value and consider stakeholders' expectations, comply with applicable laws, and align with internationally behavioural norms.

In addition, BNI also avoids SER program with sole objective of improving BNI's image in the eyes of the public and the business environment. Understanding the SER program objectives being implemented and the expected positive impact is BNI's main goal to achieve the ideal, objective, targeted and sustainable SER implementation goals in line with the concept of sustainable finance to achieve the sustainable development goals.

The concept of sustainable finance as BNI's foundation in developing strategies and programs for implementing BNI's SER, reflects BNI's commitment to complying with OJK No. 51/POJK.03/2017 dated July 18, 2017 concerning the Implementation of Sustainable Finance for Financial Services Institutions, Issuers and Public Companies.

This POJK was issued to support FSA's Sustainable Finance Roadmap, covering public health and welfare, through to the financial industry and financial institutions. This will have an impact on BNI's efforts to encourage responsible behaviour in all parts of the organization.

In this regard, BNI's management including the Board of Commissioners and Board of Directors provide their support in planning and direct supervision related to sustainable finance. Through the President Director, BNI has instigated the implementation of sustainable finance and the division of functions related to sustainable finance through the President Director Decree No. KMP/4/2602 dated June 21, 2019 concerning the Implementation of Sustainable Finance.

BNI has also established an ESG (Environmental, Social & Governance) Sub-Committee under the Risk Management & Anti-Fraud Committee through the Board of Directors Decree No. KP/484/DIR/R dated October 26, 2021. Furthermore, BNI has a special work unit, namely the Environment Social Governance (ESG) Management Department, based on Board of Directors' Decree No. KP/218/DIR/R dated 17 June 2022. The ESG Management Department is part of the Enterprise Risk Management (ERM) Division. The ESG Subcommittee and the ESG Management Department of the ERM Division have the same authority to report sustainability performance to management.

In addition, the substance of SER program implementation as interpreted by BNI is to fulfil POJK 51 Sustainable Finance, which has led to BNI Sustainability Pillar to build harmonious and mutually beneficial relationships with the environment, community and stakeholders, both locally, nationally and globally, as well as to provide a positive impact on the way of thinking and environmental life.

The BNI SER implementation program includes the followings:

1. Micro and Small Business Funding Program (PUMK))
 - a. Focusing on clustering disbursement by establishing synergistic cooperation with SOEs/ROEs/Local Governments to manage fostered partners or MSMEs;
 - b. Collaborating with Community Empowerment Institutions (LPM) that foster MSMEs.
2. Social and Environmental Responsibility Program (Non PUMK)
 - a. Distributing SER funds in line with the provisions;
 - b. Cooperating with professional and competent partners to organize community empowerment programs;
 - c. Collaborating in community development to improve the programs' quality;
 - d. Increasing the fostered partners capacity and capability by providing education, training, apprenticeship, marketing and other forms of assistance.

The above SER activity program is divided into 3 (three) major programs, namely:

1. BNI Initiation Program
Activity based on BNI thematic initiatives related to the SDGs (Sustainability Development Goals) and BNI's vision and mission. BNI Initiation can also be based on developing national issues that have a broad impact on society.
2. Collaboration Program
Program that is carried out in collaboration with various parties to create a wider and more sustainable program impact.
3. National Support
Activity based on the initiative of the Government as the primary stakeholder, and other community stakeholders.

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM FINANCING BUDGET AND REALIZATION IN 2023

In determining the budget for implementing the TJSL program, the approach taken by BNI until 31 December 2023 refers to the Regulation of the Minister of State-Owned Enterprises of the Republic of Indonesia No. PER-6/MBU/09/2022 of 2022 concerning Amendments to the Regulation of the Minister of State-Owned Enterprises No. PER-05/MBU/04/2021 concerning the Social and Environmental Responsibility Program of State-Owned Enterprises. As mandated in this regulation, BNI has set a budget for implementing the TJSL (Non-PUMK) program as of December 31 2023. Until the end of 2023, the realization of the TJSL program was IDR135.958 billion.

According to Letter of the Minister of SOE No. S-721/MBU/11/2022 dated November 10, 2022, there are direction regarding the optimization of PUMK funds, namely the appointment of PT. Bank Rakyat Indonesia Persero Tbk (BRI) as manager of the PUMK Cooperation Program. On this basis, the Cooperation Agreement No. B.21/MBD/12/2022 and No. SBP/1/018 was signed on December 13, 2022 between BNI and BRI as manager of the PUMK Cooperation Programme for a term of 5 (five) years from 2022 to 2027. In accordance with the direction of the Minister of BUMN, PUMK distribution will be focused on BRI as the manager of the PUMK Cooperation Program.

Upon completion of the Cooperation Agreement, BRI will pay BNI the remaining cash amounts from the UMK Funding Program and gradually deposit the PUMK refund monies.

The SER Program Budget, Realization and Absorption is based on 4 (four) main pillars, namely Social, Environmental, Economic and Legal and Governance which the achievement of Program budget absorption was 99.83%. The realization of the TJSJ Program based on the Main Pillars and Sustainable Development Goals (TPB) is:

SOCIAL AND ENVIRONMENTAL RESPONSIBILITY PROGRAM PERFORMANCE

BNI CONTRIBUTION TO SUSTAINABLE DEVELOPMENT GOALS

Sustainability is part of BNI's commitment to realizing its vision and mission, and to creating a better future for all stakeholders. Therefore, BNI consistently applies sustainable finance and increases its support for the achievement of the Sustainable Development Goals (SDGs), one of which is through the implementation of SER activity programs.

BNI strives to support the initiatives to achieve the Sustainable Development Goals as part of the efforts to meet global scale sustainable development targets set out in the 17 Sustainable Development Goals (SDGs) goals. BNI, as a financing institution, is selective in channelling financing to industries that have mutual understanding on the principles of sustainable development in order to create a better future.

The following shows BNI's contribution or support for the Sustainable Development Goals (SDGs) that are appropriate and relevant to BNI's activities and business fields.

SDG Priorities

2023 Achievements	Strategies to Support SDG Achievement
BNI for Indonesia	
<ul style="list-style-type: none"> Total MSME loans as of the end of 2023 was IDR113.2 trillion. KUR realization amounted to IDR17.82 trillion. 25,643 employees or 93.0% of the total employees have received sustainable finance awareness and/or competency development. Determined an ESG Framework & Roadmap, and a Net Zero Emission (NZE) target. Carried out the initial phase of Climate Risk Stress Test (CRST) Phase 1 in several sectors, such as coal, palm oil plantations, pulp & paper. Total GHG emission reduction of 233,748.99 ton CO2 eq from green bonds. Realized Sustainability Linked Loan (SLL) distribution of IDR4.6 trillion. 	<ul style="list-style-type: none"> Running MSME Go Productive, Go Digital, and Go Global. programs. Included sustainability topics in the mandatory e-learning that all employees must attend once a year. Distributed green bonds in accordance with sector targets in the Green Bond Framework Developed governance for SLL distribution. Improved the scope and methodology for calculating financing emissions.
BNI for Customers	
<ul style="list-style-type: none"> Did not receive any complaints cases related to data leaks. 2,723 ATM units are disability friendly. Increased the number of BNI Mobile Banking users by 19.4%. 	<ul style="list-style-type: none"> Instigated data security policies and improved the BNI applications and systems security. Expanded the distribution of disability friendly ATMs in several cities/districts that have yet been reached. Provided Tips & Education for transaction security.
BNI for the Environment	
<ul style="list-style-type: none"> Energy intensity of 14.8 GJ/IDR. Emission intensity for scopes 1, 2, & 3 was 0.00000045579 tons CO2eq/IDR. Planted 88,023 trees. 2 orangutan conservation programs. Conservation program for 79 rhinos in Ujung Kulon National Park (TNUK) 	<ul style="list-style-type: none"> Implemented energy efficiency in all BNI offices. Use solar panels for lighting emergency stairs at Plaza BNI. Determined operational NZE targets in 2028. Strengthened BNI's operational emissions data infrastructure. Expanded the coverage areas for tree planting. Conserved orangutans and rhinos in the critically endangered status.
BNI for the Community	
<ul style="list-style-type: none"> Realized SER funds of IDR129.8 billion. 8,201 Rumah BUMN fostered partners. 778 scholarship recipients accumulated by the end of 2023. Carried out infrastructure development for 99 schools or educational institutions as well as providing facilities and infrastructure in BNI areas. 	<ul style="list-style-type: none"> Collaborated with professional and competent partners to organize the programs community empowerment. Collaborated with communities (community development) to improve the program quality. Increased the capacity and capability of fostered partners through education, training, apprenticeships, marketing and other forms of assistance.
BNI for Employees	
<ul style="list-style-type: none"> 52.2% of the total employees are female. Women occupy 30.8% of the positions above manager. 	<ul style="list-style-type: none"> Provided equal opportunities for men and women to occupy the same positions. The performance assessment mechanism pays attention to achieving the key performance indicators (KPI) for all employees.

BNI'S SER PROGRAM IMPLEMENTATION

CREATE SHARE VALUE PROGRAM (CSV)

One of the implementation of SER programs carried out by BNI is applying the Creating Shared Value (CSV) approach as part of BNI's strategy to increase its competitive value and support its business processes that simultaneously provide social and economic benefits for the communities and the environment.

Creating Shared Value (CSV) is a concept introduced by Porter and Kramer in 2011. Shared values are policies and practices that improve a company's competitiveness and communities condition where the company operates. CSV aims to identify, integrate, and expand the link between social and economic issues. According to Porter and Kramer's paper *Creating Shared Value as Business Strategy*, CSV is a development of Corporate Social Responsibility (CSR), which does not only address social concerns in society but also creates economic value. Companies can create their economic value by creating social and environmental value. This can be accomplished in three ways: by reconceiving products and markets, redefining productivity in value chain, and enabling local cluster industries that support the company's location.

As of December 31, 2023, BNI implemented SER programs using the Creating Shared Value (CSV) approach, with details in the table below.

CSV Program Commitment, Realization and Generated Benefit as of December 31, 2023

Program	Benefit Value for the Company
KAWAN Program (Local Tourism Area)	<ol style="list-style-type: none"> 1. The CSV program aligns with the company's business strategy by cross-selling banking products. 2. Supporting SDGs - Decent Work and Economic Growth, or Economic Pillar 3. Strengthening the local economy to attract future BNI clients.

BNI KAWAN Program

BNI strives to encourage Indonesian tourism ecosystems and sustainable economy development, especially in Indonesian tourism destination. Through Local Tourism Area (KAWAN) program, BNI KAWAN focuses on three locations: Cunca Wulang Village (Labuan Bajo), Kuta Village (Lombok) and Marinsow Village (Likupang).

BNI also focuses on building infrastructure facilities and developing Human Resources (HR). Human resource development is carried out for Village-Owned Enterprises (BUMDes), Tourism Awareness Groups (Pokdarwis), and other tourism-related entities. Human resource development is held regularly to have a direct impact on the establishment of governance and management of tourism in the village, as the main foundation for managing tourism villages. Furthermore, the assistance provided through BNI KAWAN program is expected to increase the attraction of both local and international tourists, which will have direct impact on increasing the number of tourists and forming a tourism ecosystem that carries the concept of interaction between nature, culture and local communities with good governance. This effort begins with community development (people

to village attractions (products), impacting the appeal and economic performance of the community in KAWAN BNI location.

FLAGSHIP PROGRAM

In line with its role as an SOE engaged in the financial sector, BNI's SER program is aligned with its corporate objectives and implemented in a directed, structured and sustainable manner. As well as improving BNI's corporate image and corporate business, BNI's SER program is also aimed at having a positive impact on society and the environment and is oriented towards Sustainable Development Goals.

BNI is committed to continuing its innovations and designing flagship programs that can have positive impact on society and the environment. The following explains the flagship programs carried out by BNI in 2023.

BNI Undergraduate Scholarship Program

To carry out the Social and Environmental Responsibility Program for SOEs, BNI initiated a scholarship program. The target is to give equal opportunities for all levels of society to gain higher education at university level,

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

in line with Sustainability Development Goal (SDGs) no. 4, Quality Education. This program is also a form of appreciation for TAD (Outsourced Personnel) employees who have worked and served BNI, such as waiters, drivers, security guards and cleaning services.

MSME Certification

BNI is committed to implementing a long-term program for developing MSMEs through the MSME halal certification, with a target of 1,000 MSMEs. The MSME halal certification covers Pre-Audit or Certification Preparation, Product Halal Inspection, and Halal Certification Application.

MSME Structuring Program

To support the Government's community economic empowerment program, especially for MSEs, BNI participates by implementing Social and Environmental Responsibility programs, especially in the BNI work areas, by structuring MSE Culinary Canteens, and infrastructure in the form of construction/revitalization of all selling places in the BNI Grha area, BNI Tower, Bakauheni Harbor City (BHC) area, and Pejambon Jl. Merdeka Timur area, where the aim of this program is to organize the location of MSE traders so they become better in terms of infrastructure and beauty, in line with urban and sustainable development.

Critical Land Rehabilitation Program

To support the Indonesian Government's commitment to maintaining climate resilience, BNI through the BNI Sharing Program carries out seeding, planting and maintenance activities on land that has been rehabilitated using an agroforestry strategy by involving the role of the community to produce non-timber and wood products, which will have an impact on improving environmental quality and the economy of the surrounding community. Environmental impacts include improving land and air quality, as well as mitigating the prevention of disasters, both landslides and floods, as well as supporting BNI's Net Zero Emission Program from an operational perspective. The economic impact is gained from the harvest of vegetables and seasonal crops as well as in the long term wood products. BNI is gradually distributing productive tree plants which are expected to have a positive impact on the economic, social and environmental aspects. This program is a form of BNI's effort to increase customer awareness of climate change.

Endangered Wildlife Conservation Program

Banking activities may not directly impact environmental conservation or biodiversity. However, BNI remains committed to supporting the conservation of rare fauna in Indonesia. Preserving biodiversity plays a significant role in supporting environmental ecosystems and reducing emissions produced.

BNI plays a role in the Conservation Program for protected Endangered Animals as stipulated in Law Number 5 of 1990 concerning Conservation of Biological Natural Resources and Their Ecosystems, as well as the Minister of Environment and Forestry Regulation Number P.106 of 2018 concerning the Second Amendment to the Amendment to the Minister of Environment and Forestry Regulation No. P.20/MENLHK/SETJEN/KUM.1/6/2018 concerning Protected Plant and Animal Types, including the Javan Rhinoceros (*Rhinoceros sondaicus*) and the Kalimantan Orangutan (*Pongo pygmaeus*).

Javan Rhinoceros Conservation

The Javan Rhinoceros, scientifically named *Rhinoceros sondaicus*, is a priority species for conservation efforts. The Javan Rhinoceros is one of only two rhinoceros species whose habitat is exclusively found in Indonesia, with current population limited to the southwest peninsula of Java, within the Ujung Kulon National Park (TNUK) area. This single-horned rhinoceros is also one of only five rhinoceros species remaining worldwide, and it stands as one of the rarest large mammal species globally. According to the Red List Data Book by IUCN, the Javan Rhinoceros is classified as Critically Endangered due to its narrow population distribution, small population size, and the level of risk to its habitat and population.

BNI maintains consistency in preserving Indonesia's biodiversity, particularly the Javan Rhinoceros, as done in previous years. At the end of 2023, BNI continues its support for Javan Rhinoceros conservation in collaboration with the Ministry of Environment, Ujung Kulon National Park Authority, and Integrated Forest Conservation Alliance (ALeRT). This support includes the establishment of a Buffalo Livestock Management Field School (SLPTK) and continuation of Individual Javan Rhinoceros Genetic Mapping. Both activities are crucial for the sustainability of the Javan Rhinoceros in Ujung Kulon National Park (TNUK). The purpose of creating the SLPTK is to ensure that buffalo do not enter the Javan Rhino area considering that rhinos are a species that spend more time alone, and to ensure that the buffalo around the TNUK are healthy and eliminate the possibility of disease transmission to the Javan Rhino. Meanwhile, genetic mapping is aimed at knowing the genetics of each individual which is used to determine the level of genetic health of the Javan Rhinoceros.

BNI's Support for Javan Rhinoceros (*Rhinoceros Sondaicus*) conservation contributes to the achievement of Sustainable Development Goals (SDGs), particularly Goal 15, which focuses on preserving life on land. This effort aligns with BNI's fifth mission, which is to enhance awareness and responsibility towards environment and community. In 2023, there were 81 Javan Rhinos in Ujung Kulon National Park.

Functions

Conservation of Kalimantan Orangutans

The richness of the tropical rainforest ecosystem on Kalimantan Island is very high compared to other ecosystems in the world, as it has extensive tropical rainforests with very diverse biodiversity. The Kalimantan orangutan (*Pongo pygmaeus*) is one of the most valuable biodiversity treasures and needs to be protected, considering that in 2016 the IUCN (International Union for Conservation of Nature and Natural Resources) determined that the Kalimantan orangutan had CE (Critically Endangered) status on the Red List Data Book, where the status of the Bornean Orangutan (*Pongo Pymgaeus*) is one step closer to extinction.

BNI has strengthened its commitment to preserve the Kalimantan orangutan in Indonesia since 2016 and in 2023 together with the Ministry of Environment and Forestry (KLHK), where BNI and the Borneo Orangutan Survival Foundation (BOSF) work together to preserve the Kalimantan Orangutan (*Pongo Pymgaeus*) at the Orangutan Rehabilitation Center Samboja Lestari in Kutai Kartanegara Regency, East Kalimantan.

BNI's support for the Kalimantan orangutan rehabilitation program goes beyond an adoption program for financing the needs of two individual Kalimantan orangutans during their stay at rehabilitation centre, but also supports the rehabilitation of a critical land area spanning 4 (four) hectares. This rehabilitation area is planted with endemic Kalimantan plants, comprising fruit plants (40%) and timber plants (60%) totaling 1,600 trees. BNI hopes this area will serve as a food source for orangutans, function as a Forest School location within the BOS Foundation's rehabilitation program, or serve as a sanctuary for orangutans that cannot be released back into their natural habitat in the wild. This land rehabilitation program has the potential to absorb biomass of up to 117 tons/hectare and carbon uptake can reach 58 tons of carbon/hectare. BNI, through its BNI GoGreen Program, supports the Indonesian Government's efforts to ensure that Kalimantan orangutans remain sustainable and protected in the wild. The critical land rehabilitation and maintenance program over five years is expected to support BNI's Net Zero Emission plan and achieve the Sustainable Development Goals (SDGs), especially Goal No. 15 to protect land ecosystems. This is in line with BNI's 5th mission, namely increasing awareness and responsibility for the environment and society.

Food Security Program

During the impact of El Nino in Indonesia, BNI is increasingly committed to solving the problems of food security and hunger that occur in society. El Nino is a climate phenomenon characterized by periodic warming of sea surface temperatures in the central and eastern tropical Pacific Ocean, which has an impact on Indonesia, leading to drought, lack of clean water, crop failure, forest and land fires, etc.

To implement food security, BNI distributes food packages through two special programs, namely the food security program in the context of Religious Holidays (Jump Higher Carving Goodness Program, Jump Higher Gapai Tri Hita Kirana Saka New Year 1945 Program, and Christmas Joy To The World Program) and food security programs in the context of handling the impact of El Nino in Indonesia. This program involves regularly distributing food packages to the communities in all BNI work areas every year through a series of religious holiday celebrations.

In 2023, BNI distributed 476,287 food packages, with the number of food packages distributed being 114,850 food packages divided into the distribution of religious holiday programs, and 361,437 packages for dealing with the impact of El Nino and other initiation assistance.

Food packages are delivered through agencies or institutions that coordinate with the local government in collecting data on poor and deserving communities to receive food package assistance. The impact of the food security program includes sharing happiness, helping to ease the burden on the communities, especially underprivileged communities affected by El Nino in Indonesia, and improving community welfare.

All food package distribution activities carried out by BNI pay attention to the principle of caution in distribution so as not to duplicate assistance for basic food assistance provided by the Government.

Cataract Surgery Health Program

PT Bank Negara Indonesia (Persero) Tbk (BNI) assists in providing cataract surgery for residents in Eastern Indonesia. This social service activity is expected to help the communities in preventing blindness. The first operations began in Sumbawa Regency, West Nusa Tenggara, the second took place at Bhayangkara Hospital, Jayapura City. And, the third took place on Buru Island, Maluku.

Cataract Surgery Program

Cataracts are one of the main preventable causes of blindness worldwide. The estimated incidence of cataracts is 0.1% per year among 1,000 people who are new cataract sufferers. Based on data from 2014 to 2016 collected by Perdami (Indonesian Association of Ophthalmologists), and the Health Research and Development Agency of the Ministry of Health through the Rapid Assessment of Avoidable Blindness (RAAB) document, it shows that the blindness rate in Indonesia reached 3% with up to 81% caused by cataracts. In addition, in an effort to reduce the prevalence of visual impairment nationally, one of the Government's program efforts as stated in the document "Visual Impairment Control Program in Indonesia 2017 - 2030 Roadmap" is to reduce the prevalence of visual impairment due to cataracts, while continuing to make efforts to overcome visual impairment by other causes.

To pay close attention to the data on cataract sufferers above, it is the responsibility of many parties to jointly prevent blindness due to cataracts together with the Government. BNI is aware that cataracts are an eye disorder that can affect people's performance. Even though surgery can be done, not everyone has access to good health facilities. Therefore, BNI collaborated with the Pundi Amal Peduli Kasih Foundation (YPP

SCTV Indosiar by holding the BNI Sharing Program for cataract surgery at four locations in Eastern Indonesia with a target of 450 eyes.

The BNI Sharing Program presents Cataract Operation activities as a concrete manifestation of the Company's commitment to improving the quality of public health and efforts to reduce the rate of blindness due to cataracts in Indonesia. BNI consistently strives to contribute to reducing the amount of blindness due to cataracts in Indonesia so that it can decrease over time.

Waste Management Program

Waste management, especially household waste and industrial waste, is still a problem that needs attention. Based on this phenomenon, BNI participates by providing assistance in the form of mini dump trucks carrying waste in Kab. Cirebon – West Java.

The distance between Final Disposal Sites (TPA) and the absence of an adequate number of waste transport vehicles makes it increasingly difficult for people to manage waste, so people still throw rubbish at Temporary Waste Disposal Sites (TPS) and this results in a lot of rubbish strewn all over the roads which creates problems, and has a negative impact on public health and the surrounding environment.

BNI's assistance has had an impact on +6,000 people in the Cirebon district – West Java by participating in increasing the role of the communities in the Clean and Healthy Living Behavior Program (PHBS).

Provision of Clean Water and Sanitation Facilities

Clean water and sanitation are basic human needs. Due to climate change, in 2023, several regions in Indonesia

2023
Performance

Management
Report

Company
Profile

Management Discussion and
Analysis on Company Performance

Business Support
Functions

faced a clean water crisis due to extreme drought. BNI committed itself to supporting the provision of clean water and sanitation.

In 2023, BNI helped provide water tank trucks with a maximum capacity of 4,000 liters in the Sikka District, East Nusa Tenggara. Water tank trucks were a major necessity for the communities due to water shortages. To date, the community had relied on water from the Wair Puan spring, but as the water level was decreasing, coupled with the effects of a long drought, the spring was unable to meet the communities' water needs.

With the help of water tank vehicles provided by BNI, it is hoped that they will provide benefits and fulfill the communities' water needs and be able to overcome the shortage or lack of supply of water received from the Wair Puan spring.

BNI also provided assistance in the form of clean water and sanitation across West Sumatra, Bengkulu, D.I. Yogyakarta, West Java, Central Java, Bali, South Sulawesi and North Kalimantan through assistance for repairing water channels, building water storage tanks and installations. pipes, etc.

Ambulance Health Facilities

In 2023, BNI distributes assistance in the form of 1 water ambulance in Bulungan District, North Kalimantan. The condition of health services in Bulungan District, North Kalimantan is inadequate due to the geographical conditions in the area such as small islands and rivers so that the mobilization of patients in emergency situations is hampered in reaching more representative health facilities.

The water ambulance assistance provided is intended primarily for the Tanjung Buka Transmigration Settlement Central area SP 1 – 10 and Peso Subdistrict, Bulungan District, North Kalimantan as this area is difficult to reach by land, so it requires the assistance of a water ambulance.

This assistance is intended primarily for underprivileged communities, the majority of which are middle to lower class people whose livelihoods are in agriculture, fishermen and transmigrants, and is free for receiving first aid in the water ambulance before getting more complete help at the nearest hospital.

BNI also distributed 66 ambulance units across throughout Indonesia. BNI's ambulance assistance is in collaboration with agencies that have permits to operate in the social and health sectors so that they can operate on target. Ambulance vehicles supported by BNI are used free of charge, especially for poor people.

Places of Worship

To create a nation with character and to implement sustainable environmental development, BNI helps build and/or renovate infrastructure for religious facilities across various religions throughout BNI's working areas. BNI provides assistance for places of worship facilities in the form of infrastructure and supporting facilities, or the infrastructure for places of worship facilities.

In 2023, BNI has assisted 120 places of worship from different religions, spread throughout BNI's working areas, including West Sumatra, Bengkulu, Java Island, Bali, Maluku, and others. The real impact of this program is to create sustainable cities and communities, improve and repair religious facilities, and increase BNI's awareness and responsibility for its surrounding communities. The assistance provided for religious facilities contributes to providing comfort and security for the congregations in carrying out their worship activities.

Education Facilities

In 2023, BNI participated in efforts to create high-quality education through assistance to 99 schools or educational institutions in the BNI Working Areas, including building school buildings, building/renovating classrooms, training, providing Information and Communication Technology (ICT) infrastructure, providing learning support infrastructure, and providing educational teaching aids, etc.

The BNI assistance is spread throughout Indonesia, including West Java, Central Java, East Java, Bali, Riau, North Sumatra and Maluku. It is hoped that the assistance provided can increase comfort for students and teaching staff in carrying out teaching and learning activities to create superior students in the future.

SME Certification

BNI continues to demonstrate its commitment to supporting the development of Micro, Small and Medium Enterprises (MSMEs) in Indonesia. One of BNI's real efforts to improve the quality of MSMEs is through the BNI Sharing program by providing assistance with halal certification training and onboarding training as well as marketplace optimization.

This assistance program was provided to 422 food MSMEs, including customers, debtors and potential debtors. This halal certification assistance training and onboarding training was held in December 2023, at DPP Hidayatullah, Jatinegara, East Jakarta.

Halal certification not only provides a guarantee of product halalness, but also increases consumer confidence. With halal certification, MSMEs can reach a wider market and

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

even go global, especially among consumers who pay attention to the halal aspects of their products.

Online on boarding training assistance and marketplace optimization is also aimed at expanding the marketing reach of MSMEs, so that sustainable economic growth can be achieved.

In the later training, participants will receive several materials including training on halal certification (function, objectives, procedures for obtaining halal certification), assistance in preparing documents as certification requirements and assistance in inputting data through the application. In addition, there is also material on assistance with certification audits, providing certificates and onboarding training (online) as well as marketplace optimization.

MICRO AND SMALL ENTERPRISES FUNDING AND DEVELOPMENT PROGRAM

Micro and Small Business Funding Program

The PUMK program is an SER activity that is more directed at improving the life quality of surrounding communities by fostering micro and small businesses formed with community. The PUMK program aims to provide easy access to capital for micro and small businesses as well as provide guidance to improve the capabilities of MSEs to make them more resilient and independent.

The PUMK program refers to the Ministry of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning the Social and Environmental Responsibility Program for State-Owned Enterprises, and the Ministry of SOEs Amendment Regulation No. PER-6/MBU/09/2022 dated September 15, 2022. The PUMK program at BNI has been carried out by the Small Business and Program Division since 2017. BNI channels the PUMK Program in the form of soft loans to fostered partners by currently only charging administrative services at 3% per year from the loan limit, and this is channelled in the form of:

1. Loans to finance working capital and or purchase of fixed assets in order to increase production and sales;
2. Special loans to finance the business activities of fostered partners in the form of additional and short-term loans to fulfil orders from their customers;
3. Development Expenses:
 - a. Expenses for education, training, apprenticeships, marketing, promotion, and other activities related to increase the productivity of fostered partners and for conducting the assessments/research related to the Small Business and Micro Business Funding Program (PUMK);

- b. Development program expenses in the form of grants with a maximum amount of 20% of the Partnership Program funds disbursed in the current year;
- c. Development Program expenses can only be given to or for the benefit of fostered partners.

In accordance with the assignment from the Ministry of SOEs in Letter No. S-721/MBU/11/2022 dated November 10, 2022, regarding PUMK Program Collaboration by appointing BRI as manager of PUMK Program Collaboration and the signing of Cooperation Agreement (PKS) between BNI and BRI regarding the implementation of PUMK Program Collaboration for 5 (five) years from 2022 to 2027. In accordance with the Minister of SOEs directive, distribution is focused on BRI as the manager of the PUMK Cooperation Program.

Micro and Small Business Development Program

BNI's fostered partners are micro and small businesses actors who are technically not familiar with banking due to their limited access to receiving loans from banks. These micro and small businesses operate in various formal and non-formal economic sectors, but have a strategic role in real sector economy and micro and small business segment has been proven to be relatively more resilient to economic crises. BNI's fostered partners are expected to increase their business activities, business capital, entrepreneurial spirit, access to banking, business administration, product quality and marketing outreach.

BNI consistently provides guidance to its fostered micro and small business partners, so they can improve the management of their business towards better governance and generate increased benefits. This is intended to empower BNI's fostered partners who are micro and small business actors, to become the driver of economic movement in their area.

Based on the Ministry of SOEs Regulation No. PER-05/MBU/04/2021 dated April 20, 2021 concerning Social and Environmental Responsibility Program for SOEs, and its amendment, Ministry of SOEs Regulation No. PER-6/MBU/09/2022 dated September 15, 2022, Fostered Partner development funds form part of the SER fund distribution program. Development expenses are directed at increasing the capacity of fostered partners.

Information on the Financial Statements of Micro and Small Business Funding Program (PUMK)

Referring to Article 33 Paragraph 2 of the Republic of Indonesia Minister of SOEs Regulation No. Per-1/MBU/03/2023 concerning Special Assignments and Social and Environmental Responsibility Programs, the annual financial statements of MSME Funding Program must be audited by a public accounting firm. BNI arranged an audit of the PUMK Program Financial Report for the fiscal year ending December 31, 2023, which was carried out by Public Accounting Firm Tanudiredja, Wibisana, Rintis & Partners (Pricewaterhouse Coopers).

Donation of 1,000 tree seedlings for orangutan conservation. It is hoped that by conserving tree seedlings, orangutans can easily find food sources for their livelihood.

By distributing tree seedlings, it is hoped that the community can participate in preserving nature.

Teacher certification is expected to increase the competence in improving the quality of education.

BNI is strongly committed to supporting the Government programs for assisting and improving the quality of MSMEs so that they advance in class, while being able to become pioneers in implementing sustainable economic principles

In synergy with other stakeholders, BNI is committed to preserving the Kalimantan orangutan (*Pongo pygmaeus*) at the Nyaru Menteng Orangutan Rehabilitation Center, Central Kalimantan

BNI continues its support for Javan Rhino conservation together with the Ministry of Environment and the Ujung Kulon National Park Center as well as the Integrated Forest Sustainable Alliance (ALeRT) by creating a Buffalo Management Field School (SLPTK) and continuing Genetic Mapping of the Javan Rhino Individuals.

Special Assignment

In accordance with the Republic of Indonesia Minister of SOEs directive in Regulation No. PER-1/MBU/03/2023 dated March 3, 2023, concerning Special Assignments and Social and Environmental Responsibility Program for SOEs, it is stipulated that an SOE may receive Special Assignments from the Central Government to carry out functions for public benefit as well as national research and innovation. Special Assignments are specific tasks assigned by the Central Government to SOEs to perform functions for public benefit and national research and innovation. The special assignments for BNI are as follows:

BANKING SERVICES (FINANCING, TRANSACTIONS, AND AGENCY) IN COFFEE PLANTATION ECOSYSTEM IN COFFEE NUSANTARA PMO ECOSYSTEM

Indonesia is one of the largest coffee producing countries in the world, ranking fourth after Brazil, Vietnam and Colombia. Indonesia's potential to become the largest coffee producing country is very open, but there are several challenges, including low productivity, low processing quality, no value added and low use of appropriate land.

BNI Jejak Kopi Khatulistiwa (JKK) can answer this challenge through the development of social forestry in the form of community economic empowerment through the formation of a green economic financing ecosystem for coffee farmers and coffee farming stakeholders by forming a close loop financial ecosystem. To form a close loop financial ecosystem for coffee farming stakeholders, BNI JKK includes 3 processes:

1. Digitalization of on farm, off farm and online market processes to create go digital MSMEs;
2. On-farm and off-farm development so that environmentally friendly processes occur to realize go ESG;

3. Grading to connect with international markets to realize go global MSMEs, by assessing coffee specifications including aroma, flavour, aftertaste, acidity and other characteristics with the following results:
 - a. Garut District: Final Score 84.25 (Excellent)
 - b. Rejang Lebong District: Final Score 81.5 (Excellent)
 - c. Temanggung District: Final Score 84.13 (Excellent)
 - d. Jember District: Final Score 78.5 (Very Good)

The BNI Jejak Kopi Khatulistiwa Coffee Trail operates in 5 locations, Garut District (West Java Province), Rejang Lebong District (Bengkulu Province), Temanggung (Central Java Province), Jember District (East Java Province) and Humbang Hasundutan District (North Sumatra Province).

BNI has joined the PMO Kopi Nusantara together with SOEs and related stakeholders in the Indonesian coffee commodity, as contained to letter DPS/X/1566/2023 dated May 23, 2023. This program is a development of the Social Forestry Program initiated by BNI since 2017.

This Jejak Kopi Khatulistiwa is considered to be in line with environmental aspects, appropriate use of forest land, financial inclusion, and with coffee products and their unique taste they can unlock the potential of Go Global MSMEs. Through the synergy of this program, increased coffee productivity will be realized that will have an impact on the welfare of stakeholders in the Indonesian coffee ecosystem.

By the end of 2023, the total People's Business Credit (KUR) distributed under the Jejak Kopi Khatulistiwa program amounted to IDR6.81 billion for 197 farmers. The KUR distributed for Jejak Kopi Khatulistiwa forms part of BNI's Social Forestry KUR. As of December 31, 2023, the total distributed was IDR181 billion to 9,993 social forest farmers.

PROVISION OF FINANCING TO MSMEs THROUGH THE PROVISION OF FUNDS WITH LOW INTEREST RATES

In order to provide support for MSMEs development, the Indonesian government collaborates with BNI to channel People's Business Credit (KUR). For the fiscal year 2023, BNI has been allocated a target disbursement of KUR amounting to IDR36.5 trillion according to the Letter from Indonesian Coordinating Ministry for Economic Affairs No. B/KUR/326/D.I.M.EKON/12/2022 dated December 28, 2023.

To optimize KUR National ceiling absorption and considering the achievement performance of BNI's KUR disbursement, it has been decided to set the target for BNI's KUR disbursement at IDR18 trillion, in accordance with the Letter from the Coordinating Ministry for Economic Affairs of the Republic of Indonesia No. B/PK.KUR/153/D.I.M.EKON/09/2023 dated September 25, 2023.

KUR disbursement aims to assist small entrepreneurs with access to capital and business development. By the end of 2023, BNI has provided KUR financing amounting to IDR17.82 trillion, achieving 98.99% of the Indonesian Government's contribution target.

Disbursement of KUR Based on Types of KUR as of December 31, 2023

Type of KUR	Number of Debtors	Maximum Credit (IDR Billion)	Target (IDR Billion)	Achievement
Supermicro	703	5.46	10.00	54.6%
Micro	51,234	2,193.34	2,300.00	95.4%
Small	58,741	15,595.28	15,650.00	99.7%
PMI	983	24.73	40.00	61.8%
Total	111,661	17,818.81	18,000.00	99.0%

Disbursement of KUR Based on Economic Sectors as of December 31, 2023

Economic Sector	Number of Debtors	Maximum Credit (IDR Billion)
Processing Industry	3,787	869.90
Business Services	1,068	280.84
Social and Community Services	6,693	1,263.80
Construction	723	213.87
Transportation, Warehousing, & Communication	625	167.75
Trade, Restaurants, & Hotels	49,985	11,077.18

BANKING SUPPORT IN NIB REGISTRATION FOR MSME AND BANKING SERVICE SUPPORT FOR MSME

The government encourages business permit registration through online single submission (OSS) in order to help MSME proceed to the next level of business efficiency. To support this, BNI collaborates with the Investment Coordinating Board (BKPM) to conduct socialization and guidance through webinars to expedite business permit registration. With more MSME having a Business Identification Number (NIB), BNI hopes that micro businesses can develop more quickly and move up to export class (go global). By the end of 2023, efforts to accelerate the issuance of NIBs for BNI small segment debtors was carried out for 11,387 debtors, or 3% of the total 380,078 small segment debtors, so that the YoY growth of MSMEs that already have NIBs has reached 465%.

TEAM FOR INCREASING THE USE OF DOMESTIC PRODUCTS

Indonesian President Joko Widodo (Jokowi) has issued Presidential Instruction No. 2 dated 2022 regarding Acceleration of Increasing the Use of Domestic Products and Micro, Small, and Cooperative Business Products to support the success of the National Movement Proud of Indonesian Products (Gernas BBI) in the Implementation of Government Procurement of Goods/Services.

To implement this Presidential Instruction, the Team for Increasing Domestic Products Usage (Team P3DN) was formed, aiming to optimize domestic products usage. BNI plays a role in assisting and mentoring MSMEs, including coordination, supervision, monitoring, and evaluation of implementation the use of domestic products and/or MSME products, including procurement through the MSME Digital Market (PaDi UMKM). Additionally, for MSME empowerment, BNI provides various facilities such as:

1. Financing for MSMEs as working capital in producing domestic products;
2. Assisting & Mentoring MSMEs on the financing facilities obtained;
3. Education & Coaching as BNI Partners through PaDi UMKM;
4. CSR, which is the implementation of CSR for business capacity improvement;
5. Others, referring to other actions related to MSME empowerment

To support the #BelaPemadaan and #ProudofMakingIndonesia programs, BNI actively participates in the Ministry of SOEs platform, called "PaDi UMKM". By the end of 2023, 867 BNI-assisted MSMEs have been on-boarded onto the PaDi MSME platform as sellers, with 140 MSMEs of them being BNI debtors. Realization of BNI purchasing-procurement transactions on the PaDi UMKM platform amounted to IDR39.81 billion with a total transaction volume of 9,011.

FLPP HOME OWNERSHIP LOAN (SUBSIDIZED MORTGAGE)

BNI and the State Ministry of Public Housing have signed a Joint Agreement (MOU) No.02/SKB/DP/2010-DIR/071 and Operational Work Agreement (PKO) No.27/SM.6/HK.02.04/10/2010 DIR/ 072 dated 25 October 2010 concerning Distribution of Funds for Housing Financing Liquidity Facilities (FLPP). Through this cooperation agreement, BNI carries out the task of providing housing credit facilities for Low Income Communities (MBR) supported by Housing Financing Liquidity Facility (FLPP) funds from the Government, namely KPR BNI Griya FLPP.

BNI Griya FLPP Home commitment to supporting government programs in the field of providing housing needs for low-income people (MBR). Until the end of 2023, BNI has realized the distribution of the BNI Griya FLPP KPR budget of IDR 2,177,441,108,000. The strategies implemented to support the expansion of Griya FLPP Home until the end of 2023 include:

1. BNI providing appreciation/rewards to subsidized developers;
2. To encourage the absorption of BNI Griya FLPP, BNI collaborates with the Developer Association, subsidized developers, and conducts socialization in various regions involving external and internal stakeholders.

ENVIRONMENTAL ASPECT

a. Financing:

1. BNI's green financing (KUBL) distribution reached Rp67.89 trillion or 9.87% of total loans (bank only), a growth of 13.6% (YoY)
2. Sustainability Linked Loans (SLL) distribution reached Rp4.6 trillion
3. BNI distributed funds from green bonds for green projects that meet the requirements for funding and have obtained opinions from Environmental Experts as a second party (second party opinion/SPO) provided by Sustainalytics regarding the positive contribution of the project to the environment.

Allocation Portion

The remaining 22.94% of the green bond distribution was allocated to other KUBLs in accordance with POJK 60/2017. The positive impact on the environment from the use of green bond funds by debtors is shown below:

Further information regarding projects funded by the BNI Green Bond and the reported impacts is presented in the 2023 BNI Green Bond Report which is available on the BNI website on the Environment, Social and Governance page: <https://www.bni.co.id/en-us/company/bni-esg>.

4. Establishing Operational NZE Roadmap for 2028 & Financing NZE for 2060
5. Implementing the initial phase of Climate Risk Stress Test (CRST) Phase I
6. Strengthening Risk Acceptance Criteria (RAC) for 18 Sectors with ESG Aspects
7. Special Renewable Energy Sector Financing Unit that supports:
 - i. Supporting energy transition financing by replacing PLTU projects to PLTG/GU.
 - ii. Supporting financing for PLTGas, to reduce fuel use by increasing the use of gas as a cleaner energy source.
 - iii. Supporting the development of NRE production and optimizing BBN (Biodiesel or biohydrocarbon) production, including PLTSa as a by-product of waste management
 - iv. Supporting financing for PLTS, PLTA, PLTGeothermal and other NRE as energy transition source programs.
- b. Operational:
 1. Developing Emission Data Management Infrastructure
 2. Calculating carbon emissions including Scope 1, Scope 2, and Scope 3 (Operations and Financing Emissions)
 3. Two BNI Head Office Buildings have received Green Building certification, namely Menara Pejompongan BNI with Gold Certification and BNI Plaza with Platinum Certification
 4. Installation of solar panels with a capacity of 2,200 watts for lighting at the emergency stairs of Plaza BNI, BSD.
 5. Reducing light usage through electrical efficiency at Grha BNI, Plaza BNI, Gedoeng BNI, and Menara BNI
 6. BNI becoming the first bank in Indonesia to use the Public Electric Vehicle Charging Station (SPKLU) Partnership Investor Own Investor Operate (IO2) cooperation scheme from PLN.

SOCIAL ASPECT

- a. Human Capital (HC):
 1. Employee Engagement reached 96%
 2. Employee Satisfaction level reached 92%
 3. Preparation and approval of the Respectful Workplace Policy.
- b. Access to Finance:
 1. BNI had 185,697 BNI Agen46
 2. Let's Save with Waste Program
 3. MSME empowerment programs through the BNI MSME Environmentally Friendly (BUMI), the Khatulistiwa Coffee Trail (JKK), Millennial Smartfarming, Fisheries Cultivation Villages programs, etc.
- c. Privacy & Data Security
 1. BNI has a CISO Division whose duties include maintaining information and improving cyber security
 2. Implementing Data Loss Prevention (DLP) mechanisms
 3. Implementing Threat Hunting
 4. Adopting international security frameworks and standards such as ISO 27001 and the National Institute of Standards and Technology (NIST)
 5. BNI has a Digital Risk Framework adopted from the best practice framework
 6. In connection with RI Law No. 27 of 2022 concerning Personal Data Protection (PDP), BNI has instigated the related procedures, assessment and mitigation/prevention, management of infrastructure, applications and IT systems as well as security implementation.
 7. Implemented a masking process for sensitive data
 8. Implemented an Incident Handling Maturity Level Measurement (IHMLM), a tool for mapping the level of organizational readiness for handling and recovering cyber security incidents, including detecting and responding if there is an incident of personal data leakage due to system security gaps
 9. Conducted a Cyber Security Maturity (CSM) assessment, an instrument from BSSN to assess the level of cyber security maturity of an organization, including assessing the maturity of managing and protecting the confidentiality of personal data (data privacy).
 10. Implemented third party risk assessments including vendor security assessments in the Technology, Information and Cyber aspects.

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

11. BNI requires a Non-Disclosure Agreement (NDA) from third parties if there is collaboration in the use of customer data, and only sends customer data according to the customer's approval.
 12. BNI subsidiaries carry out reporting related to data management issues and discussion topics, including data privacy and security as a data harmonization process in Subsidiaries.
 13. Conducted regular security awareness to educate employees and customers on the importance of maintaining the confidentiality and security of personal data
- d. Consumer Financial Protection
1. Customer satisfaction score or Customer Satisfaction Survey (CSS) in 2023: 4.26
 2. Percentage of customer complaint resolution in 2023: 99.99%
 3. Providing training on consumer financial protection

GOVERNANCE ASPECT

1. BNI has an ESG Sub Committee under the Risk Management & Anti Fraud Committee.
2. BNI has a special work unit, the Environment, Social & Governance (ESG) Management Department under the Enterprise Risk Management (ERM) Division.
3. BNI ESG Policies:
 - a. BNI ESG Framework and Roadmap
 - b. Determination of the Net Zero Emission Roadmap
 - c. Green Loan Incentive Terms.
 - d. Emission Data Technical Instructions
 - e. Technical Instructions for Environmentally Friendly Business Activities (KUBL)
 - f. Sustainability Linked Loan (SLL) SOP
4. The Board of Directors has KPIs for ESG performance, which are then handed down to Work Units (Green Loan and ESG Rating)

ESG Implementation Commitment

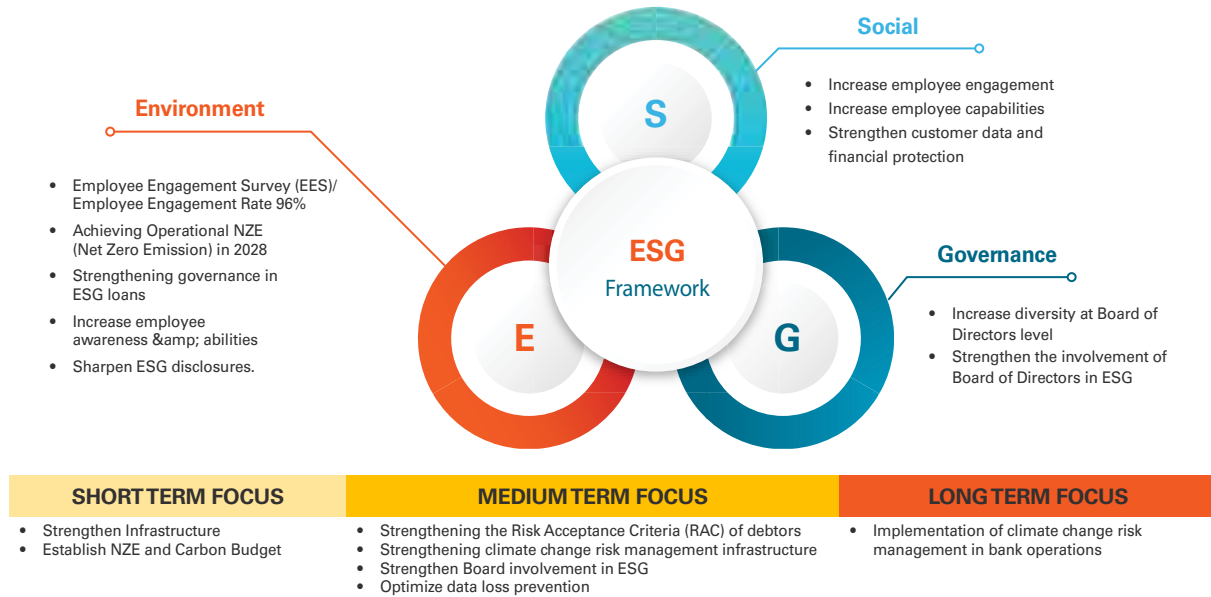

ELEVATING IMPACT, EMPOWERING SUSTAINABILITY

BNI supports the achievement of the Sustainable Development Goals (SDGs) very seriously as this has become a global issue and a key focus of the Indonesian Government. BNI prioritizes the application of sustainability principles including the environmental, social and governance (ESG) aspects in all areas of its business.

BNI believes that sustainability will have a positive impact on all stakeholders, which will leave a beneficial legacy for future generations. As a business entity whose shares are mostly owned by the State, BNI continues to move forward to become a leading transformation agent in implementing the environmental, social and governance principles.

BNI ESG FRAMEWORK & ESG ROADMAP

ESG TARGET FOR BNI NET ZERO EMISSION (NZE)

BNI is committed to achieving Operational Net Zero Emission (NZE) in 2028 and Financing NZE in 2060. The strategies used to achieve this target includes:

1. Sustainable product development, such as:
 - a. Launching of Sustainability Linked Loan to encourage debtors to implement ESG and have a transition map towards green.
 - b. Providing green loan incentives to encourage green portfolio growth.
 - c. Distributing green bonds for green projects is currently being carried out in 5 sectors, namely Renewable Energy, Environmentally Friendly Transportation, Environmentally Friendly Buildings, Waste to Energy Management and Waste Management, and Sustainable Use of Natural Resources and Land Use.
 - d. Developing financing schemes to support and develop an environmentally oriented MSME ecosystem, such as the Khatulistiwa Coffee Trail - Social Forestry and the BNI Environmentally Friendly MSME (BUMI) program.
 - e. Financing in the energy transition sector to encourage the transition to clean energy.
 - f. Evaluating the possibility of issuing other sustainability-oriented bonds.
 - g. Collaborating with strategic partners to issue sustainable products for individuals, such as environmentally friendly credit cards in collaboration with WWF, and issuing credit cards using recyclable raw materials in collaboration with AMEX.
 - h. Optimizing the saving with waste program to increase student awareness in managing plastic waste.
2. Energy efficiency
 - c. Using electricity saving technology.
 - d. Arranging and optimizing the use of air conditioners and lights in office buildings.
 - e. Using renewable energy in Gedung Plaza BNI.
 - f. Owning green building certified buildings: Gedung Plaza BNI and Menara BNI.
 - g. Developing a waste management program to increase avoidable emissions.
 - h. Optimizing online media for meetings.
3. Nature-based solution program
 - d. up to 2023, BNI has carried out a tree planting program covering an area of 229 ha. This program will continue to be developed as one of BNI's emission reduction programs.
 - e. BNI coordinates with its Subsidiaries to align the implementation of the ESG Framework and Net Zero Roadmap in its Subsidiaries.

Capital & Risk Management Practices

Social & Environmental Responsibility

ESG Commitment

Financial Statements

BNI ESG Risk Management

ESG-BASED PIPELINE MANAGEMENT

BNI adheres firmly to the policies of the Financial Services Authority (OJK) as the Central Bank in paying attention to the environmental and climate change risks. One form of this support is that BNI has already instigated an industry risk appetite and risk acceptance that pays attention to ESG issues. BNI pays attention to the issues of deforestation, flooding, deforestation, loss of biodiversity, environmental pollution and drought. Even though these do not have a direct impact on the Bank's business, the financial risk analysis covers financing to debtors with the same risk potential.

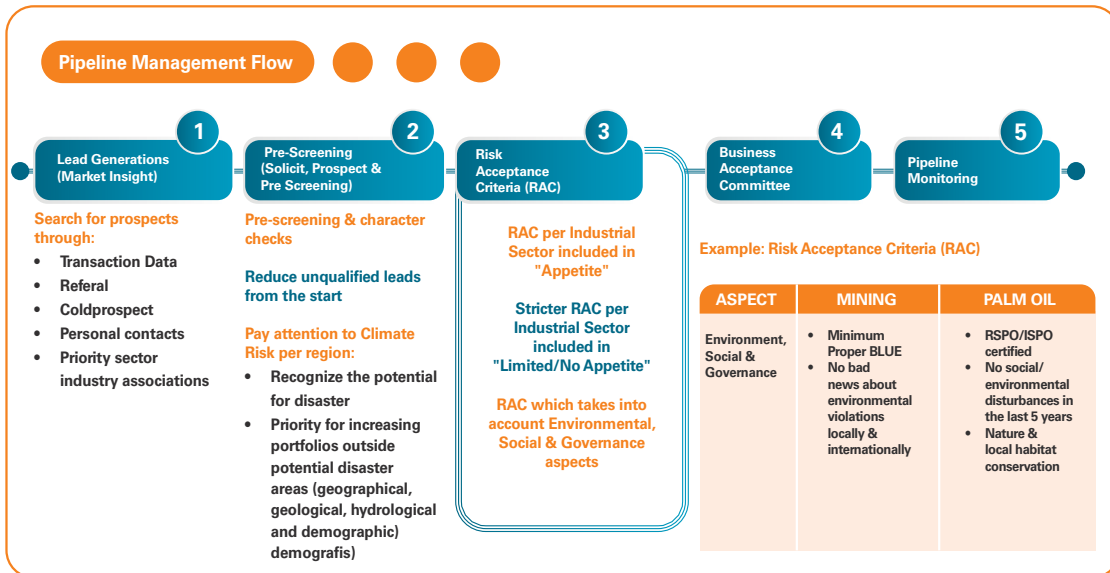

Therefore, BNI is very careful to not finance business sectors that have a potential risk of damaging the environment or have the potential to increase global warming/climate change.

BNI has instigated an ESG-oriented credit policy, as well as mapped the banking activities to start mitigating and adapting to climate change.

This process is consistently carried out by the Corporate Banking Division 1, 2, 3 and 4, International Division, Enterprise Banking Division, Commercial Banking Division 1 and 2, Institutional Banking Division 1 & 2, Syndication & Structured Finance Division, Retail Productive Banking Division, Small Business & Program Division, Corporate & Enterprise Credit Risk Division, as well as the Commercial Credit Risk Division.

The BNI ESG risk management flow can be seen in the following chart:

Pipeline Management Flowchart by considering ESG

ESG-BASED PIPELINE MANAGEMENT MECHANISM

1. In determining industrial sectors aimed at increasing the portfolio, BNI carries out reviews through discussions between business units, risk units and risk management. BNI uses Industry Risk Appetite (IRA) in determining industrial sectors that have considered the Industry Risk Rating (IRR), prospect factors for leading industrial sectors/regional/regional advantages, and opinions on business considerations and pipelines.

The initial screening process focuses on efforts to identify potential prospects in each region who meet BNI's sustainability requirements, such as climate risk and potential natural disasters. These steps also aim to ensure that the businesses are not involved in exposures prohibited by the Government, such as violations of local community rights, forced labor, child exploitation, human rights, and other Government regulations.

In addition, BNI is also oriented towards selecting business actors in sectors that have implemented sustainable finance principles or that have prioritized ESG factors in company operations, although this implementation process is still being improved gradually and continuously. Based on these factors, BNI classifies the industrial sector into three categories, namely Appetite, Limited Appetite, and No Appetite.

2. To support pipeline management, BNI has strengthened its Risk Acceptance Criteria (RAC) to include 18 (eighteen) industrial sectors in the corporate segment, 11 (eleven) industrial sectors in the medium segment and 10 (ten) industry sectors for the retail productive segment, among other.

The 18 (eighteen) industrial sectors in the corporate segment include:

1. Recurring Real Estate;
2. Non-Recurring Real Estate;
3. Pharmaceutical Industry
4. Fast Moving Consumer Goods (FMCG);
5. Electricity;
6. Metal and Metal Ore Trading (Trader);
7. Base Metal Industry (Smelter Refiner);
8. Metal Ore Mining;
9. Chemical Industry;
10. Construction;
11. Toll Road Building Construction;
12. Telecommunications Contractors;
13. Telecommunications and Data Center Operators;
14. Cement Industry;
15. Hospitals;
16. Palm Oil Plantations (including Palm Oil Mills (PKS));
17. Palm Oil Processing Industry;
18. Metal Goods Industry (Fabricators).

The 11 (eleven) industrial sectors in the middle segment include:

1. Generic (sub sector that has not set/does not have a specific RAC);
2. Domestic Wholesale Trade;
3. Palm Oil Plantations;
4. Processing Industry;
5. Chemical, Rubber and Plastic Industries;
6. Provision of accommodation;
7. Rental Business Services;
8. Health Services and Social Activities;
9. Construction;
10. Transportation;
11. Import Export Trade.

The 10 (ten) industrial sectors for the small segment include:

1. Generic (sub sector that has not set/does not have a specific RAC);
2. Domestic Large Trade (wholesale);
3. Retail Trade;
4. Processing Industry;
5. Palm Oil Plantations;
6. Chemical Industry;
7. Import Export Trade;
8. Public Transportation;
9. Construction;
10. Accommodation Provider.

The RAC for the industrial sector are prepared with an emphasis on implementing ESG based on the characteristics of the industrial sector. In 2023, BNI strengthened RAC in 4 main sectors, Palm Oil Plantations (Upstream and Midstream), Mining (Mine Operators, Smelter Refiners, Fabricators, Traders), Construction (Contractors and Toll Road Contractors) and Electricity/Energy.

3. The BNI Compliance Division will conduct a Credit Compliance Review (C2R) prior to loan approval to ensure that the loan process complies with all applicable regulations, including the ESG aspects set by BNI.
4. The credit committee will analyze the debtor/prospective debtor, including all risks and risk mitigation, before deciding to approve or reject the loan, including issues related to ESG. The Credit Committee is structured in stages according to their authority to decide, up to the level of the Board of Directors.
5. Pipeline Monitoring:
 - a. Periodically the Business Unit will conduct monitoring using a watchlist system and assess the debtor's ratings. If a violation of the ESG aspect is found, BNI will verify it with related parties and may make adjustments to the debtor's rating if it is proven that the debtor does not meet the specified ESG aspects;
 - b. The Internal Audit will regularly conduct audits of debtors whose operational activities can have a negative impact on the environment.

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

BNI continues to ensure that the loans disbursed are used to support businesses that are productive, responsible and do not damage the environment. Routinely, the Business Unit monitors using a watchlist system and assesses the debtors' ratings. The results of the watchlist system will be reported every three months to the Corporate & Enterprise Credit Risk (CER) Division and the Commercial Credit Risk (CMR) Division. In addition, each responsible unit is also required to carry out assessments of a sample of debtors as part of the monitoring process.

If violations of environmental, social and governance (ESG) aspects are detected, BNI will verify with relevant parties and potentially downgrade if it is proven that the debtor does not comply with ESG regulations.

In 2023, the Bank mapped the fulfillment of ESG aspects in portfolios with a high impact on the environment to support ESG implementation, including:

- 49 debtor companies have RSPO/ISPO certificates, while 9 other companies are in the process of obtaining RSPO/ISPO certificates.
- Debtors operating in the Cement Industry, have received the GREEN and BLUE Rating Assessment Program (PROPER) BLUE and GOLD;
- Debtors in the mining industry (Mine Operator) have partially received BLUE, GREEN and GOLD PROPER Rating Program;
- In this area, BNI continues to encourage debtors in the palm oil sector to obtain ISPO and RSPO certification, and fulfill their certification in accordance with each industrial sector.

IMPROVEMENTS IN ESG RISK MANAGEMENT

BNI adheres firmly to its role as an agent of change by applying the ESG principles. In 2023, BNI improved and refined Risk Management in the ESG aspect, starting by strengthening policies related to ESG, developing tools & guidance related to ESG aspects, and setting Net Zero Emission (NZE) targets for both operations and financing.

1. Strengthening Policy
 - a. In line with BNI's commitment to applying ESG, in 2023 BNI collaborated with consultants to strengthen its ESG policies, which included preparing an ESG framework and re-sharpening policies related to the environment, social and governance as well as establishing BNI's short, medium and long-term roadmap towards Net Zero Emissions.
 - b. Has set an operational NZE target by 2028 and a financing NZE target by 2060.
2. BNI strengthened tools and guidance related to ESG, including:
 - a. Established an emissions data infrastructure to obtain operational emissions data from BNI regional and branch offices by the end of 2023 so that emissions developments can be monitored periodically.
 - b. BNI identified the sectors with high emissions in the Corporate and Medium segment credit portfolio. For these high emission sectors, BNI regulates the portfolios through Loan Exposure Limits (LEL) in each of these industries.
 - c. Strengthened the Risk Acceptance Criteria for 18 sectors in the corporate segment, 11 sectors in the medium segment and 10 sectors in the small segment by 2023.
3. In June 2023, the initial phase Climate Risk Stress Test (CRST) for the Coal sector (including PLTU), Palm Oil Plantations and Pulp & Paper was carried out. CRST will be carried out again in 2024 to cover a minimum of 50% of the loan portfolio covering the sectors required by OJK.

Persons Responsible for ESG Implementation at BNI

BNI has established the Environment, Social, and Governance (ESG) Sub Committee, as the body responsible for implementing ESG aspects. It was established based the Board of Directors Decree No. KP/745/DIR/R dated October 26, 2021. The ESG Sub-Committee is under a Board of Directors' Committee, namely the Risk Management & Anti-Fraud Committee.

The ESG Sub Committee membership composition is as follows:

Chair	Vice President Director
Vice Chair	Risk Management Director
Secretary	Head of Enterprise Risk Management Division (also a permanent non-voting member)
Permanent Members at the Board of Directors and SEVP level (Voting Members)	<ol style="list-style-type: none"> 1. Finance Director 2. Wholesale & International Banking Director 3. Head of Card Business Division 28. Head of Agen46 Division
Non-Voting Members	Director/SEVP/Division Head related to the topic of discussion.

Note:

*) Specifically, the Director of Human Capital & Compliance has special duties and responsibilities as regulated in the Committee's Work Guidelines

Capital & Risk Management Practices

Good Corporate Governance

Social & Environmental Responsibility

ESG Commitment

Financial Statements

The ESG Sub Committee's duties and responsibilities include:

1. Developing Environmental, Social & Governance (ESG) management policies and strategies and their changes;
2. Identifying potential ESG risks that have an impact on both BNI and BNI stakeholders;
3. Monitoring the implementation of the sustainable finance strategy;
4. Monitoring, evaluating, and providing recommendations on BNI's ESG assessment results;
5. Evaluating the implementation of the ESG strategy in all BNI business lines.

The sustainability aspects management is part of the responsibility of all work units, under the supervision of the Board of Commissioners and Board of Directors. To ensure the application of sustainability governance, and to monitor the application of Sustainable Finance, BNI has a special work unit, called the Environmental Social & Governance Management (ESM) Department, a Department in the Enterprise Risk Management (ERM) Division.

The Environmental Social & Governance Management (ESM) Department main duties include:

1. Developing an ESG framework & roadmap as a guide for the Bank in implementing ESG principles
2. Developing, reviewing and monitoring the Net Zero Emission Bank roadmap
3. Developing a framework to manage and monitor climate change risks
4. Coordinating the application of ESG principles and climate change risks across all Bank business lines, including Subsidiaries
5. Acting as a liaison with external parties related to ESG implementation
6. Carrying out activities as coordinator of the Supporting Staff Group (SSG) of the ESG Sub-Committee
7. Monitoring and managing the realization of ESG implementation based on a bankwide roadmap
8. Coordinating the preparation and monitoring of the Sustainable Financial Action Plan (RAKB) and/or Corporate Plan related to ESG
9. Monitoring exposure and reporting to regulators/other external parties regarding ESG (Green portfolio, Green Bond and other ESG-oriented bonds, Indonesian Green Taxonomy (THI), Sustainability Report (sustainable governance, sustainable financing and carbon emissions data).

BNI's ESG Implementation Supervision and Evaluation

BNI's ESG Monitoring and evaluation can be summarized as follows:

Senior management consisting of BNI's Board of Directors and Board of Commissioners play a role in supervising the application of good governance principles by all work units to ensure responsible business practices, as well as to

encourage using the prudential principle when managing risks. The Bank continues to maintain the highest ethical behavior standards through accountable, accurate and transparent operations and reporting, as well as maintains compliance with prevailing laws and regulations.

The governance structure, policies and operational processes implemented are directed at identifying and managing environmental, social and governance (ESG) risks throughout the BNI value chain.

Implementation of Sustainable Finance In Subsidiary Companies

The implementation of sustainable finance in subsidiaries has been carried out by preparing and submitting Sustainable Finance Action Plan (RAKB) documents to OJK:

- PT BNI Multifinance;
- PT BNI Sekuritas;
- PT BNI Life Insurance;
- PT Bank Hibank Indonesia.

PT BNI Multifinance

1. Developing financing for battery-powered electric motorized vehicles;
2. Developing the company's internal capacity for the introduction/socialization of RAKB;
3. Implementing social activities for the environment and society including blood donations, caring for the environment, providing social assistance, minimizing the use of plastic containers and energy saving movements;
4. Preparing sustainable financial guidelines by considering the social and environmental aspects.

PT BNI Sekuritas

1. Developing sustainable financial products and/or services by conducting socialization and identification of business products/financial services related to sustainable financial activities as well as environmental, social and governance to the business department at BNI Sekuritas;
2. Developing Internal capacity through training related to sustainable financial activities as well as environment, social and governance;
3. Implementing sustainable financial activity policies as well as environmental, social and governance in BNI Sekuritas business activities;
4. Assessing & controlling environmental, social and governance risks related to BNI Sekuritas business activities;
5. Adjusting the Corporate Social Responsibility program to the concept of sustainable financial activities;
6. Implementing a Green Office at BNI Sekuritas.

PT BNI Life Insurance

1. Implementing a sustainable finance training program;
2. Implementing social, environmental and literacy responsibility programs;
3. Implementing a productive credit life insurance marketing program for MSMEs;
4. Implementing efficiency programs to reduce plastic waste, paper use and electricity & water consumption;
5. Applying finetuning to the organization by reviewing business processes and increasing digitalization of sustainable financial activities.

PT Bank Hibank Indonesia

1. Increasing the financing portfolio for debtors included in the sustainable business activity category;
2. Increasing the sustainable mutual funds category portfolio;
3. Carrying out efficiencies for irreplaceable resources such as the use of paper, electrical energy and water resources;
4. Installing separate organic and non-organic waste bins at the Head Office;
5. Implementing social, environmental and literacy responsibility programs for the community.

menyatakan bahwa:

declare that:

- 1. Kami bertanggung jawab atas penyusunan dan penyajian laporan keuangan konsolidasian PT Bank Negara Indonesia (Persero) Tbk dan Entitas Anak, 2. Laporan keuangan konsolidasian PT Bank Negara Indonesia (Persero) Tbk dan Entitas Anak telah disusun dan disajikan sesuai dengan Standar Akuntansi Keuangan di Indonesia, 3. Semua informasi dalam laporan keuangan konsolidasian PT Bank Negara Indonesia (Persero) Tbk dan Entitas Anak telah dimunculkan lengkap dan benar, 4. Laporan keuangan konsolidasian PT Bank Negara Indonesia (Persero) Tbk dan Entitas Anak tidak mengandung informasi atau fakta material yang tidak benar, dan tidak menghilangkan informasi atau fakta material, 4. Kami bertanggung jawab atas sistem pengendalian internal dalam PT Bank Negara Indonesia (Persero) Tbk dan Entitas Anak.

- 1. We are responsible for the preparation and the presentation of PT Bank Negara Indonesia (Persero) Tbk and Subsidiaries' consolidated financial statements, 2. PT Bank Negara Indonesia (Persero) Tbk and Subsidiaries' consolidated financial statements have been prepared and presented in accordance with Indonesian Financial Accounting Standards, 3. a. All information in the PT Bank Negara Indonesia (Persero) Tbk and Subsidiaries' consolidated financial statements have been disclosed in a complete and truthful manner, b. PT Bank Negara Indonesia (Persero) Tbk and Subsidiaries' consolidated financial statements do not contain any incorrect information or material facts, nor do they omit material information or material facts, 4. We are responsible for PT Bank Negara Indonesia (Persero) Tbk and Subsidiaries' internal control system.

Dengan pernyataan ini dibuat dengan sebenarnya

This statement is made truthfully

Atas nama dan mewakili Direksi/For and on behalf of the Directors, Jakarta, 25 JAN 2024, Royke Tumilauw (President Director), Novita Widya Anggrani (Managing Director - Finance)

PT Bank Negara Indonesia (Persero) Tbk, Kantor Pusat, J. Jenderal Sudirman Kav. 1, Jakarta 10220, Indonesia, www.bni.co.id

LAPORAN AUDITOR INDEPENDEN
KEPADA PARA PEMEGANG SAHAM

INDEPENDENT AUDITORS' REPORT
TO THE SHAREHOLDERS OF

PT BANK NEGARA INDONESIA (PERSERO) TBK

Opini

Kami telah mengaudit laporan keuangan konsolidasian PT Bank Negara Indonesia (Persero) Tbk dan entitas anaknya ("Grup"), yang terdiri dari laporan posisi keuangan konsolidasian tanggal 31 Desember 2023, serta laporan laba rugi dan penghasilan komprehensif lain konsolidasian, laporan perubahan ekuitas konsolidasian dan laporan arus kas konsolidasian untuk tahun yang berakhir pada tanggal tersebut, serta catatan atas laporan keuangan konsolidasian, termasuk informasi kebijakan akuntansi material.

Menurut opini kami, laporan keuangan konsolidasian terlampir menyajikan secara wajar, dalam semua hal yang material, posisi keuangan konsolidasian Grup tanggal 31 Desember 2023, serta kinerja keuangan konsolidasian dan arus kas konsolidasiannya untuk tahun yang berakhir pada tanggal tersebut, sesuai dengan Standar Akuntansi Keuangan di Indonesia.

Basis opini

Kami melaksanakan audit kami berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia. Tanggung jawab kami menurut standar tersebut diuraikan lebih lanjut dalam paragraf "Tanggung jawab auditor terhadap audit atas laporan keuangan konsolidasian" pada laporan kami. Kami independen terhadap Grup berdasarkan ketentuan etika yang relevan dalam audit kami atas laporan keuangan konsolidasian di Indonesia, dan kami telah memenuhi tanggung jawab etika lainnya berdasarkan ketentuan tersebut. Kami yakin bahwa bukti audit yang telah kami peroleh adalah cukup dan tepat untuk menyediakan suatu basis bagi opini audit kami.

Hai audit utama

Hai audit utama adalah hal-hal yang, menurut pertimbangan profesional kami, merupakan hal yang paling signifikan dalam audit kami atas laporan keuangan konsolidasian periode kini. Hal-hal tersebut disampaikan dalam konteks audit kami atas laporan keuangan konsolidasian secara keseluruhan, dan dalam merumuskan opini kami atas laporan keuangan konsolidasian terkait, kami tidak menyatakan suatu opini terpisah atas hal audit utama tersebut.

Opinion

We have audited the consolidated financial statements of PT Bank Negara Indonesia (Persero) Tbk and its subsidiaries (the "Group"), which comprise the consolidated statement of financial position as at 31 December 2023, and the consolidated statement of profit or loss and other comprehensive income, consolidated statement of changes in equity and consolidated statement of cash flows for the year then ended, and notes to the consolidated financial statements, including material accounting policy information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at 31 December 2023, and its consolidated financial performance and its consolidated cash flows for the year then ended, in accordance with Indonesian Financial Accounting Standards.

Basis for opinion

We conducted our audit in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants. Our responsibilities under those standards are further described in the "Auditors' responsibilities for the audit of the consolidated financial statements" paragraph of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Indonesia, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Kantor Akuntan Publik Tanudiredja, Wibisana, Rintis & Rekan

Report No. 1234-1234-1234-1234

00018/E.1026IAU/107.0222-2/11/2024

Hal audit utama yang teridentifikasi dalam audit kami dirangkai sebagai berikut.

1. Kerugian kredit ekspektasian ("KKE") – cadangan kerugian penurunan nilai atas pinjaman yang diberikan

Seperti yang dijelaskan dalam Catatan 12, Pinjaman yang diberikan, atas laporan keuangan konsolidasian pada tanggal 31 Desember 2023, cadangan kerugian penurunan nilai atas pinjaman yang diberikan Grup adalah sebesar Rp 47.158.131 juta.

Cadangan kerugian penurunan nilai atas pinjaman yang diberikan ditentukan oleh Grup berdasarkan kerangka KKE sesuai dengan PSAK 71 "Instrumen Keuangan", seperti yang dijelaskan dalam Catatan 2c (x). Cadangan kerugian penurunan nilai atas aset keuangan.

Kami memberikan fokus pada area ini karena nilai tercatat atas pinjaman yang diberikan mewakili 64% dari total aset Grup pada tanggal 31 Desember 2023 dan besarnya nilai cadangan kerugian penurunan nilai yang dibentuk atas pinjaman tersebut nilainya signifikan terhadap laporan keuangan konsolidasian Grup. Lebih lanjut, perhitungan cadangan kerugian penurunan nilai melibatkan pertimbangan manajemen yang subjektif dan penggunaan estimasi dengan tingkat ketidakpastian yang tinggi.

Untuk pinjaman yang diberikan dimana Grup menghitung KKE secara individual, Grup menggunakan estimasi arus kas ekspektasian dari pinjaman yang diberikan, yang membutuhkan pertimbangan signifikan dalam mengestimasi probabilitas rata-rata tertimbang kerugian kredit, serta estimasi waktu dan jumlah pembayaran dari pinjaman yang diberikan.

Untuk pinjaman yang diberikan dimana Grup menghitung KKE secara kolektif, Grup menggunakan model KKE dengan beberapa asumsi utama, antara lain, probabilitas rata-rata tertimbang dan probability of default, loss given default dan exposure at default, setelah memperhitungkan faktor perkiraan masa depan dan informasi eksternal lainnya termasuk proses identifikasi atas pinjaman yang diberikan yang mengalami peningkatan risiko kredit secara signifikan.

The key audit matters identified in our audit are outlined as follows:

1. Expected credit losses ("ECL") – allowance for impairment losses of loans

As described in Note 12, Loans, to the consolidated financial statements, as at 31 December 2023, the allowance for impairment losses of loans of the Group was Rp 47,158,131 million.

The allowance for impairment losses of loans was determined by the Group based on the ECL framework under SFAS 71 "Financial Instruments", as described in Note 2c (x). Allowance for impairment losses on financial assets.

We focused on this area as the carrying value of loans represented 64% of the total assets of the Group as at 31 December 2023 and the allowance for impairment losses provided against the loans were significant to the Group's consolidated financial statements. Furthermore, the calculation of the allowance for impairment losses involves subjective management judgement and is subject to a high degree of estimation uncertainty.

For loans where the Group assessed ECL individually, the Group used the estimated cash flows which are expected to be obtained from the loans, which requires significant judgement in estimating the weighted average probability of credit losses, and the timing and amount of the repayments against the loans.

For loans where the Group assessed ECL collectively, the Group used an ECL model that incorporates key assumptions, such as, the weighted average probability of default, loss given default and exposure at default, after considering forward looking factors and other external information including the identification process over loans that have experienced a significant increase in credit risk.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami memperoleh pemahaman atas pendekatan Grup dalam mengidentifikasi aset keuangan yang mengalami peningkatan risiko kredit secara signifikan atau bukti objektif penurunan nilai, dan melakukan pengujian atas pengendalian pececaan berdasarkan rating internal berdasarkan uji petik.
- Kami menguji keakuratan dari klasifikasi kualitas pinjaman yang diberikan berdasarkan uji petik dengan memeriksa dokumen kredit dari debitur-debitur yang menjadi sampel.
- Ketika bukti objektif penurunan nilai diidentifikasi oleh Grup dan ketepatan penurunan nilai dibagi secara individual, kami menguji, berdasarkan uji petik, kecukupan cadangan kerugian penurunan nilai yang ditetapkan oleh manajemen dengan membandingkan baik jumlah dan waktu dari arus kas masa depan yang digunakan oleh Grup dalam perhitungan kerugian penurunan nilai dengan jadwal pembayaran kembali yang tercantum dalam perjanjian pinjaman yang diberikan dan menguji probabilitas rata-rata tertimbang yang digunakan dalam menyusun arus kas.
- Kami menilai metodologi dan menguji asumsi pemodelan signifikan yang digunakan dalam model KKE, dengan bantuan pakar pemodelan kredit kami. Kami menguji *probability of default*, *loss given default* dan *exposure at default*, yang mencakup (i) evaluasi perkiraan makroekonomi Indonesia dengan membandingkan perkiraan dengan informasi yang tersedia untuk umum tentang prospek makroekonomi Indonesia; dan (ii) menguji kelengkapan dan keakuratan data yang digunakan dalam model dengan data aktual yang tersedia di Grup dengan melibatkan spesialis Teknologi Informasi ("TI") kami.
- Kami melakukan perhitungan ulang untuk KKE yang ditata secara kolektif dan menguji akurasi perhitungan KKE yang ditata secara individual berdasarkan uji petik.

How our audit addressed the key audit matter

We performed the following audit procedures to address this key audit matter:

- We understood the Group's approach over the identification of financial assets that have experienced a significant increase in credit risk or objective evidence of impairment, and tested the controls over the internal rating process on a sample basis.
- We tested the accuracy of the credit quality classification of a sample of loans by reviewing the credit files of those sampled debtors.
- Where objective evidence of impairment was identified by the Group and impairment losses were individually calculated, we tested, on a sample basis, the adequacy of the allowance for impairment losses determined by management by comparing the quantum and timing of future cash flows used by the Group in the impairment loss calculation with the repayment schedule in the loan agreement and tested the probability-weighted outcomes used in preparing the cash flows.
- We assessed the methodologies applied and tested the significant modeling assumptions used in the ECL models, with assistance from our credit modeling expert. We tested the *probability of default*, *loss given default* and *exposure at default*, which included (i) evaluating the forecasts of Indonesia macroeconomics by comparing forecasts with publicly available information on the Indonesia macroeconomic outlook; and (ii) testing the completeness and accuracy of data used in the model with the actual data available within the Group by involving our Information Technology ("IT") specialists.
- We recalculated the collective ECL and tested the accuracy of the individual ECL calculation on a sample basis.

2. Estimasi atas utang ke pemegang polis

Seperti yang dijelaskan dalam Catatan 28, Liabilitas lain-lain, atas laporan keuangan konsolidasian, pada tanggal 31 Desember 2023, utang ke pemegang polis adalah sebesar Rp 17.010.970 juta.

Estimasi atas utang ke pemegang polis ditentukan oleh Grup sesuai dengan PSAK 62, "Kontrak Asuransi" ("PSAK 62") seperti yang dijelaskan dalam Catatan 2y, Kontrak asuransi.

Kami memfokuskan fokus pada area ini karena estimasi atas utang ke pemegang polis melibatkan pertimbangan manajemen yang subjektif dan penggunaan estimasi dengan tingkat ketidakpastian yang tinggi yang melibatkan penilaian yang kompleks dan subjektif terhadap kejadian yang akan datang, dimana adanya perubahan asumsi dapat memberikan dampak yang material terhadap estimasi atas kewajiban tersebut. Manajemen dibantu oleh pakar aktuaris untuk melakukan perhitungan utang tersebut.

Asumsi-asumsi aktuaris yang digunakan dalam perhitungan estimasi atas utang ke pemegang polis meliputi tingkat suku bunga, tingkat mortalitas, tingkat morbiditas, tingkat upre, inflasi dan asumsi biaya.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami memperoleh pemahaman dan menilai metodologi yang digunakan untuk perhitungan estimasi atas utang ke pemegang polis, dengan bantuan pakar aktuaris kami.
- Kami menilai kompetensi, kapabilitas, dan objektivitas pakar aktuaris manajemen yang membantu manajemen untuk melakukan perhitungan estimasi atas utang ke pemegang polis.
- Dengan bantuan pakar aktuaris kami, kami melakukan perhitungan utang, secara uji petik, atas liabilitas manfaat polis masa depan, estimasi atas klaim yang telah terjadi namun belum dilaporkan ("IBNR") dan mengevaluasi Pengujian Kecukupan Liabilitas ("LAT").
- Kami melakukan perhitungan utang, secara uji petik, atas cadangan atas premi yang belum merupakan pendapatan.

2. Estimation of the obligation to policyholders

As described in Note 28, Other liabilities to the consolidated financial statements, as at 31 December 2023, the obligation to policyholders was Rp 17,010,970 million.

Estimation of the obligation to policyholders is determined by the Group based on SFAS 62, "Insurance Contract" ("SFAS 62") as described in Note 2y, Insurance contract.

We focused on this area as the estimation of the obligation to policyholders involves subjective management judgement and is subject to a high degree of estimation uncertainty as it involves a complex and subjective valuation of future events, where a change in assumptions could have a material impact to the estimation of the obligation. Management was assisted by an actuarial expert in its calculation of the obligation.

The actuarial assumptions used to calculate the estimation of the obligation to policyholders, included the interest rate, mortality rate, morbidity rate, lapse rate, inflation and expense assumption.

How our audit addressed the key audit matter

We performed the following audit procedures to address this key audit matter:

- We understood and assessed the methodology used to calculate the estimation of the obligation to policyholders with assistance from our actuarial expert.
- We assessed the competency, capability and the objectivity of the management's actuarial expert who assisted management in the calculation of the estimation of the obligation to policyholders.
- With assistance from our actuarial expert, we recalculated, on a sample basis, the liabilities for future policy benefits, the estimate of claims incurred but Not yet Reported ("IBNR"), and evaluated the Liability Adequacy Testing ("LAT").
- We recalculated, on a sample basis, the unearned premium reserves.

- Kami menguji kelengkapan data yang digunakan dalam perhitungan utang ke pemegang polis dengan melakukan *Computer Assisted Audit Technique* ("CAATs"), dengan bantuan spesialis TI kami. Kami juga menguji akurasi data yang digunakan dengan memeriksa dokumen-dokumen pendukung, seperti dokumen polis dan klaim, berdasarkan uji polis.

3. Sistem dan pengendalian Teknologi Informasi ("TI") yang berdampak pada pelaporan keuangan

Grup sangat bergantung pada infrastruktur, sistem, dan pengendalian TI untuk mendukung kegiatan operasional sehari-hari dan proses pelaporan keuangan. Lingkungan TI Grup dianggap kompleks dengan mempertimbangkan jumlah dan kompleksitas dari sistem utama pelaporan keuangan dan antarmuka sistem. Oleh karena itu, kami menganggap pengoperasian pengendalian teknologi informasi Grup sebagai hal audit utama.

Bagaimana audit kami merespons hal audit utama

Kami melakukan prosedur-prosedur audit berikut untuk merespons hal audit utama ini:

- Kami melibatkan spesialis TI untuk mengevaluasi risiko yang terkait dengan lingkungan TI Grup, sehubungan dengan proses pelaporan keuangan.
- Kami memperoleh pemahaman tentang sistem TI dan pengendalian yang mendukung proses pelaporan keuangan dan menilai efektivitas rancangan, implementasi dan pengoperasian dan pengendalian utama yang dirancang untuk mempertahankan integritas dari sistem utama pelaporan keuangan. Penilaian ini termasuk evaluasi atas:
 - i. Pengendalian atas manajemen perubahan: Proses dan pengendalian untuk mengembangkan, menguji dan melakukan otorisasi perubahan pada fungsi dan konfigurasi di dalam sistem;
 - ii. Pengendalian atas keamanan hak akses; Pengendalian hak akses dirancang untuk melaksanakan pemisahan tugas, mengatur penggunaan akun umum dan istimewa, atau memastikan bahwa perubahan data hanya dilakukan melalui proses yang sah;
 - iii. Pengendalian atas operasional TI: Pengendalian atas operasi digunakan untuk memastikan bahwa setiap masalah yang muncul dikelola dengan tepat; dan

- We tested the completeness of the data used for the calculation of the obligation to policyholders by performing *Computer Assisted Audit Technique* ("CAATs"), with assistance from our IT specialists. We also tested the accuracy of the data, by inspecting supporting documents, such as policy and claim documents, as a sample base.

3. Information Technology ("IT") systems and controls that impact financial reporting

The Group is heavily reliant on its IT infrastructure, systems and controls for its daily operations and financial reporting processes. The IT environment of the Group is considered to be complex due to the number and complexity of the key financial reporting systems and their system interfaces. Therefore, we consider the operation of the Group's information technology controls to be a key audit matter.

How our audit addressed the key audit matter

We performed the following audit procedures to address this key audit matter:

- We involved IT specialists in evaluating the risks associated with the Group's IT environment in respect of its financial reporting processes.
- We understood the IT systems and controls that support the financial reporting process and assessed the effectiveness of the design, implementation and operation of the associated key controls designed to maintain the integrity of the key financial reporting systems. This assessment included evaluating:
 - i. Change management controls: The processes and controls to develop, test and authorise changes to the functionality and configurations within systems;
 - ii. Access security controls: The access controls designed to enforce segregation of duties, govern the use of generic and privileged accounts or check that data is only changed through authorised means;
 - iii. IT operation related controls: The controls over operations used to check that any issues that arise are managed appropriately; and

iv. Pengendalian pengembangan sistem:
Pengendalian atas pengembangan,
konfigurasi dan implementasi dari sistem
baru atau yang sudah ada.

- Kami menguji pengendalian TI Grup atas sistem yang relevan dengan audit kami dan pengendalian utama yang bergantung pada TI yang mendukung proses pelaporan keuangan, seperti penghitungan otomatis sistem, pemrosesan transaksi, pembuatan laporan dan perpindahan data antar sistem. Pengujian kami mencakup pemeriksaan konfigurasi sistem yang relevan dan pengujian keluaran sistem, berdasarkan uji pebk.

Informasi lain

Manajemen bertanggung jawab atas informasi lain. Informasi lain terdiri dari informasi yang tercantum dalam laporan tahunan, tetapi tidak termasuk laporan keuangan konsolidasian dan laporan auditor kami. Laporan tahunan diharapkan akan tersedia bagi kami sebelum tanggal laporan auditor ini.

Opini kami atas laporan keuangan konsolidasian tidak mencakup informasi lain, dan oleh karena itu, kami tidak menyatakan bentuk keyakinan apapun atas informasi lain tersebut.

Selubungan dengan audit kami atas laporan keuangan konsolidasian, tanggung jawab kami adalah untuk membaca informasi lain yang teridentifikasi di atas, jika tersedia dan, dalam melakukannya, mempertimbangkan apakah informasi lain mengandung ketidakkonsistensian material dengan laporan keuangan konsolidasian atau pemahaman yang kami peroleh selama audit, atau mengandung kesalahan penyajian material.

Ketika kami membaca laporan tahunan, jika kami menyimpulkan bahwa terdapat suatu kesalahan penyajian material di dalamnya, kami diharuskan untuk mengomunikasikan hal tersebut kepada pihak yang bertanggung jawab atas tata kelola dan mengambil tindakan tepat berdasarkan Standar Audit yang ditetapkan oleh Institut Akuntan Publik Indonesia.

Tanggung jawab manajemen dan pihak yang bertanggung jawab atas tata kelola terhadap laporan keuangan konsolidasian

Manajemen bertanggung jawab atas penyusunan dan penyajian wajar laporan keuangan konsolidasian tersebut sesuai dengan Standar Akuntansi Keuangan di Indonesia, dan atas pengendalian internal yang dianggap perlu oleh manajemen untuk memungkinkan penyusunan laporan keuangan konsolidasian yang bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan.

iv. System development controls: The controls relating to the development, configuration and implementation of new or existing systems.

- We tested the Group's IT controls over systems that were relevant to our audit and the key IT dependent controls supporting the financial reporting process, such as the automated system calculations, transaction processing, generation of reports and data interfaces between systems. Our testing included the inspection of relevant system configurations and testing system outputs on a sample basis.

Other information

Management is responsible for the other information. The other information comprises the information included in the annual report but does not include the consolidated financial statements and our auditors' report thereon. The annual report is expected to be made available to us after the date of this auditors' report.

Our opinion on the consolidated financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the consolidated financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the consolidated financial statements or our knowledge obtained in the audit, or otherwise appears to be materially misstated.

When we read the annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take appropriate actions in accordance with Standards on Auditing established by the Indonesian Institute of Certified Public Accountants.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with Indonesian Financial Accounting Standards, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

Dalam penyusunan laporan keuangan konsolidasian, manajemen bertanggung jawab untuk menilai kemampuan Grup dalam mempertahankan kelangsungan usahanya, mengungkapkan, sesuai dengan kondisinya, hal-hal yang berkaitan dengan kelangsungan usaha; dan menguraikan basis akuntansi kelangsungan usaha, kecuali manajemen memiliki intent untuk mengliquidasi Grup atau menghentikan operasi, atau tidak memiliki alternatif yang realistis selain melaksanakannya.

Pihak yang bertanggung jawab atas laba bersih bertanggung jawab untuk mengawasi proses pelaporan keuangan Grup.

Tanggung jawab auditor terhadap audit atas laporan keuangan konsolidasian

Tujuan kami adalah untuk memperoleh keyakinan memadai tentang apakah laporan keuangan konsolidasian secara keseluruhan bebas dari kesalahan penyajian material, baik yang disebabkan oleh kecurangan maupun kesalahan, dan untuk menerbitkan laporan auditor yang mencakup opini kami. Keyakinan memadai merupakan suatu tingkat keyakinan tinggi, namun bukan merupakan suatu jaminan bahwa audit yang dilaksanakan berdasarkan Standar Audit akan selalu mendeteksi kesalahan penyajian material ketika hal tersebut ada. Kesalahan penyajian dapat disebabkan oleh kecurangan maupun kesalahan dan dianggap material jika, baik secara individual maupun secara agregat, dapat diekspektasikan secara wajar akan memengaruhi keputusan ekonomi yang diambil oleh pengguna berdasarkan laporan keuangan konsolidasian tersebut.

Sebagai bagian dari suatu audit berdasarkan Standar Audit, kami menerapkan pertimbangan profesional dan mempertahankan skeptisisme profesional selama audit. Kami juga

- Mengidentifikasi dan menilai risiko kesalahan penyajian material dalam laporan keuangan konsolidasian, baik yang disebabkan oleh kecurangan maupun kesalahan, mendesain dan melaksanakan prosedur audit yang responsif terhadap risiko tersebut, serta memperoleh bukti audit yang cukup dan tepat untuk menyediakan basis bagi opini kami. Risiko tidak terdeteksinya kesalahan penyajian material yang disebabkan oleh kecurangan lebih tinggi dari yang disebabkan oleh kesalahan, karena kecurangan dapat melibatkan kolusi, pemalsuan, penghapusan secara sengaja, penyataan salah, atau pengabaian pengendalian internal.

In preparing the consolidated financial statements management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Group's financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance but is not a guarantee that an audit conducted in accordance with Standards on Auditing will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with Standards on Auditing, we exercise professional judgement and maintain professional scepticism throughout the audit. We also:

- *Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.*

- Memperoleh suatu pemahaman tentang pengendalian internal yang relevan dengan audit untuk mendesain prosedur audit yang tepat sesuai dengan kondisinya, tetapi bukan untuk tujuan menyatakan opini atas keefektifan pengendalian internal Grup.
- Mengevaluasi ketepatan kebijakan akuntansi yang digunakan serta kewajaran estimasi akuntansi dan pengungkapan terkait yang dibuat oleh manajemen.
- Menyimpulkan ketepatan penggunaan basis akuntansi kelangsungan usaha oleh manajemen dan, berdasarkan bukti audit yang diperoleh, apakah terdapat suatu ketidakpastian material yang terkait dengan peristiwa atau kondisi yang dapat menyebabkan keraguan signifikan atas kemampuan Grup untuk mempertahankan kelangsungan usahanya. Ketika kami menyimpulkan bahwa terdapat suatu ketidakpastian material, kami diharuskan untuk menarik perhatian dalam laporan auditor kami ke pengungkapan terkait dalam laporan keuangan konsolidasian atau, jika pengungkapan tersebut tidak memadai, harus menentukan apakah perlu untuk memodifikasi opini kami. Kesimpulan kami didasarkan pada bukti audit yang diperoleh hingga tanggal laporan auditor kami. Namun, peristiwa atau kondisi masa depan dapat menyebabkan Grup tidak dapat mempertahankan kelangsungan usaha.
- Mengevaluasi penyajian, struktur, dan isi laporan keuangan konsolidasian secara keseluruhan, termasuk pengungkapannya, dan apakah laporan keuangan konsolidasian mencerminkan transaksi dan peristiwa yang mendasarinya dengan suatu cara yang mencapai penyajian wajar.
- Memperoleh bukti audit yang cukup dan tepat terkait informasi keuangan entitas atau aktivitas bisnis dalam Grup untuk menyatakan opini atas laporan keuangan konsolidasian. Kami bertanggung jawab atas arahan, supervisi dan pelaksanaan audit grup. Kami tetap bertanggung jawab sepenuhnya atas opini audit kami.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

Kami mengomunikasikan kepada pihak yang bertanggung jawab atas tata kelola mengenai, antara lain, ruang lingkup dan saat yang direncanakan atas audit serta temuan audit signifikan, termasuk setiap defisiensi signifikan dalam pengendalian internal yang diidentifikasi oleh kami selama audit.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

Kami juga memberikan suatu pernyataan kepada pihak yang bertanggung jawab atas tata kelola bahwa kami telah mematuhi ketentuan etika yang relevan mengenai independensi, dan mengkomunikasikan seluruh hubungan serta hal-hal lain yang dianggap secara wajar berpengaruh terhadap independensi kami, dan jika relevan, pengamanan terkait.

Dari hal-hal yang dikomunikasikan kepada pihak yang bertanggung jawab atas tata kelola, kami menentukan hal-hal tersebut yang paling signifikan dalam audit atas laporan keuangan konsolidasian periode kini dan oleh karenanya menjadi hal audit utama. Kami menguraikan hal audit utama dalam laporan auditor kami kecuali peraturan perundang-undangan melarang pengungkapan publik tentang hal tersebut atau ketika, dalam kondisi yang sangat jarang terjadi, kami menentukan bahwa suatu hal tidak boleh dikomunikasikan dalam laporan kami karena konsekuensi merugikan dari mengkomunikasikan hal tersebut akan diperkirakan secara wajar melebihi manfaat kepentingan publik atas komunikasi tersebut.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe those matters in our auditors' report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

1. INFORMASI UMUM

a. Pendirian Bank

PT Bank Negara Indonesia (Persero) Tbk ("BNI" atau "Bank") pada awalnya didirikan di Indonesia sebagai bank sentral dengan nama "Bank Negara Indonesia" berdasarkan Peraturan Pemerintah Pengganti Undang-Undang No. 2 tahun 1946 tanggal 5 Juli 1946. Selanjutnya, berdasarkan Undang-Undang No. 17 tahun 1968, BNI ditetapkan menjadi "Bank Negara Indonesia 1946", dan statusnya menjadi Bank Umum Milik Negara.

Berdasarkan Peraturan Pemerintah No. 19 tahun 1992, tanggal 29 April 1992, telah dilakukan penyesuaian bentuk hukum BNI menjadi perusahaan perseroan terbatas (Persero). Penyesuaian bentuk hukum menjadi Persero, dinyatakan dalam Akta No. 131, tanggal 31 Juli 1992, dibuat di hadapan Muhani Salim, S.H., yang telah diumumkan dalam Berita Negara Republik Indonesia No. 73 tanggal 11 September 1992 Tambahan No. 1A.

Untuk memenuhi ketentuan Undang-Undang No. 40 Tahun 2007 tanggal 16 Agustus 2007 tentang Perseroan Terbatas, Anggaran Dasar BNI telah dilakukan penyesuaian. Penyesuaian tersebut dinyatakan dalam Akta No. 46 tanggal 13 Juni 2008 yang dibuat di hadapan Fathiah Helmi, S.H., notaris di Jakarta, berdasarkan keputusan Rapat Umum Pemegang Saham Luar Biasa tanggal 28 Mei 2008 dan telah mendapat persetujuan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia, dengan Surat Keputusan No. AHU-AH.01.02-50609 tanggal 12 Agustus 2008 dan telah diumumkan dalam Berita Negara Republik Indonesia No. 103 tanggal 23 Desember 2008 Tambahan No. 29015.

Anggaran Dasar BNI sebagaimana termaktub dalam Akta Pernyataan Keputusan RUPS Tahunan Nomor 23 tanggal 20 April 2021 Notaris Fathiah Helmi yang telah mendapatkan persetujuan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dengan Surat Nomor AHU-0076627.AH.01.11 tanggal 26 April 2021 dan telah diubah berdasarkan Akta Pernyataan Keputusan RUPS Luar Biasa Nomor 18 tanggal 19 September 2023 oleh Notaris Ashoya Ratam, S.H., M.Kn. yang telah diterima dan dicatat oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia dengan Surat Nomor AHU-AH.01.03-0119983 tanggal 19 September 2023.

1. GENERAL INFORMATION

a. Establishment of the Bank

PT Bank Negara Indonesia (Persero) Tbk ("BNI" or "Bank") was originally established in Indonesia as the central bank under the name "Bank Negara Indonesia" based on Government Regulation in Lieu of Law No. 2 of 1946 dated 5 July 1946. Subsequently, by virtue of Law No. 17 of 1968, BNI became "Bank Negara Indonesia 1946", and changed its status to a state-owned commercial bank.

Based on Government Regulation No. 19 of 1992, dated 29 April 1992, BNI changed its legal status to a limited liability corporation (Persero). The change in legal status to become a limited liability corporation was covered by Notarial Deed No. 131, dated 31 July 1992 of Muhani Salim, S.H., and was published in Supplement No. 1A of the State Gazette No. 73 dated 11 September 1992.

In compliance with the Indonesian Limited Liability Company Law No. 40 Year 2007 dated 16 August 2007, BNI's Articles of Association has been amended. The amendment was covered by Notarial Deed No. 46 dated 13 June 2008 of Fathiah Helmi, S.H., a notary in Jakarta, as approved in the Extraordinary General Shareholders' Meeting on 28 May 2008 and approved by the Minister of Laws and Human Rights of the Republic of Indonesia, in its Decision Letter No. AHU-AH.01.02-50609 dated 12 August 2008 and published in Supplement No. 29015 of the State Gazette No. 103 dated 23 December 2008.

BNI's Articles of Association as stated on Notarial Deed No. 23 dated 20 April 2021 of Fathiah Helmi, S.H., and has been approved by the Minister of Laws and Human Rights of the Republic of Indonesia, in its decision letter No. AHU-0076627.AH.01.11 Tahun 2021 dated 26 April 2021 has been amended as stated in the Notarial Deed of Extraordinary General Shareholders' Meeting No. 18 dated 19 September 2023 by Notary Ashoya Ratam, SH, M.Kn., which has been approved by the Minister of Law and Human Rights of the Republic of Indonesia in its decision letter No. AHU-AH.01.03-0119983 dated 19 September 2023.

(Expressed in millions of Rupiah, unless otherwise stated)

1. INFORMASI UMUM (lanjutan)

a. Pendirian Bank (lanjutan)

Berdasarkan Pasal 3 Anggaran Dasar BNI, ruang lingkup kegiatan BNI adalah melakukan usaha di bidang perbankan umum.

b. Penawaran Umum Perdana Saham

Pada tanggal 28 Oktober 1996, BNI melakukan penawaran umum perdana atas 1.085.032.000 saham Seri B dengan nilai nominal sebesar Rp500 (nilai penuh) setiap saham dan harga penawaran setiap saham sebesar Rp850 (nilai penuh) kepada masyarakat di Indonesia. Saham yang ditawarkan tersebut mulai diperdagangkan di Bursa Efek Jakarta dan Surabaya (sekarang Bursa Efek Indonesia atau BEI) pada tanggal 25 November 1996.

c. Penawaran Umum Saham Terbatas I

Pada tanggal 30 Juni 1999, BNI melakukan Penawaran Umum Terbatas I dalam rangka penerbitan Hak Memesan Efek Terlebih Dahulu (HMETD) sebanyak 151.904.480.000 saham Seri C dengan nilai nominal sebesar Rp25 (nilai penuh) setiap saham. Setiap pemegang 1 saham lama berhak membeli 35 saham baru dengan harga Rp347,58 (nilai penuh) setiap saham. Dari penawaran umum ini, BNI meningkatkan modal sahamnya sebanyak 683.916.500 lembar saham Seri C yang diterbitkan kepada masyarakat umum pada tanggal 21 Juli 1999 dan terdaftar di Bursa Efek Jakarta dan Surabaya (sekarang BEI). BNI juga menerbitkan 151.220.563.500 lembar saham Seri C kepada Pemerintah Indonesia pada tanggal 7 April 2000 dan 30 Juni 2000 melalui program rekapitalisasi berdasarkan Peraturan Pemerintah No. 52 tahun 1999.

d. Rekapitalisasi

Pada tanggal 30 Maret 2000, Menteri Keuangan menyetujui rekapitalisasi BNI sebesar Rp61,8 triliun, yang meningkat sebesar Rp9 triliun dibandingkan dengan jumlah yang ditetapkan dalam Peraturan Pemerintah No. 52 tahun 1999. Sehubungan dengan peningkatan rekapitalisasi tersebut, yang telah disetujui melalui Peraturan Pemerintah No. 32 tahun 2000, BNI menerbitkan tambahan saham Seri C sebanyak 44.946.404.500 saham tanpa Hak Memesan Efek Terlebih Dahulu.

1. GENERAL INFORMATION (continued)

a. Establishment of the Bank (continued)

According to Article 3 of BNI's Articles of Association, BNI's scope of activity is to engage in general banking services.

b. Initial Public Offering ("IPO")

On 28 October 1996, BNI undertook an initial public offering of 1,085,032,000 Class B shares with a par value per share of Rp500 (full amount) and offering price per share of Rp850 (full amount) to the public in Indonesia. The shares began trading on the Jakarta and Surabaya Stock Exchanges (currently Indonesia Stock Exchange or IDX) on 25 November 1996.

c. Limited Public Offering I

On 30 June 1999, BNI undertook a Limited Public Offering I ("LPO I") through the issuance of pre-emptive rights of 151,904,480,000 Class C shares with a par value per share of Rp25 (full amount). Each holder of 1 share was entitled to buy 35 new shares for Rp347.58 (full amount) per share. As a result of LPO I, BNI increased its capital by 683,916,500 Class C shares issued to the public on 21 July 1999 and the LPO I listed in the Jakarta and Surabaya Stock Exchanges (currently IDX). On 7 April 2000 and 30 June 2000, BNI also issued 151,220,563,500 Class C shares to the Government of Indonesia through the recapitalization program under the Government Regulation No. 52 year 1999.

d. Recapitalization

On 30 March 2000, the Ministry of Finance approved BNI's recapitalization amounting to Rp61.8 trillion, which was Rp9 trillion higher than the amount stated in the Government Regulation No. 52 year 1999. In connection with the increase in the recapitalization amount, which was approved in the Government Regulation No. 32 year 2000, BNI issued additional 44,946,404,500 Class C shares without pre-emptive rights.

(Expressed in millions of Rupiah, unless otherwise stated)

1. INFORMASI UMUM (lanjutan)

d. Rekapitalisasi (lanjutan)

Pada tanggal 20 Juli 2001, modal saham BNI berkurang sebanyak 1.965.701.500 saham Seri C sehubungan dengan pengembalian kelebihan dana rekapitalisasi kepada Pemerintah Indonesia. Pengembalian tersebut telah disetujui oleh pemegang saham dalam Rapat Umum Pemegang Saham Luar Biasa pada tanggal 25 Juni 2001.

e. Kuasi-reorganisasi

Untuk menghilangkan konsekuensi negatif karena dibebani dengan saldo rugi, BNI melakukan kuasi-reorganisasi sesuai keputusan Rapat Umum Pemegang Saham Luar Biasa ("RUPS-LB") tanggal 15 Desember 2003.

Penyesuaian kuasi-reorganisasi yang telah dibukukan pada tanggal 30 Juni 2003 adalah sebagai berikut:

Akumulasi kerugian	(58,905,232)	
Cadangan umum dan wajib	432,952	
Cadangan khusus	382,541	
Selisih penilaian kembali aktiva tetap	1,190,598	
Laba yang belum direalisasi atas efek-efek dalam kelompok tersedia untuk dijual	58,660	
Kenaikan penilaian kembali nilai wajar aktiva bersih	2,472,634	
Tambahan modal disetor	54,367,847	
	<hr/>	
	<hr/>	
	-	

Anggaran Dasar BNI telah mengalami perubahan sehubungan dengan perubahan tambahan modal disetor karena adanya kuasi-reorganisasi sesuai dengan Akta Notaris Agung Prihatin, S.H., No. 42 tanggal 30 Desember 2003 dan telah disahkan oleh Menteri Hukum dan Hak Asasi Manusia Republik Indonesia berdasarkan surat keputusan No. C-29647.HT.01.07.TH.2003 tanggal 19 Desember 2003 dan diumumkan pada Berita Negara Republik Indonesia No. 1152 tanggal 30 Januari 2004, Tambahan No. 9.

f. Penawaran Umum Saham Terbatas II

Pada tanggal 30 Juli 2007, pada Rapat Umum Pemegang Saham Luar Biasa ("RUPSLB"), Pemegang Saham telah memutuskan untuk melakukan Penawaran Umum Terbatas II kepada para pemegang saham dalam rangka penerbitan sampai dengan sejumlah 1.992.253.110 saham Seri C baru dengan nilai nominal Rp375 (nilai penuh) setiap lembar saham.

1. GENERAL INFORMATION (continued)

d. Recapitalization (continued)

On 20 July 2001, BNI's capital was reduced by 1,965,701,500 Class C shares in connection with the refund of excess recapitalization funds to the Government of Indonesia. The refund was approved by the shareholders at the Extraordinary General Shareholders' Meeting held on 25 June 2001.

e. Quasi-reorganization

In order for BNI to eliminate the negative consequences of being burdened by accumulated losses, BNI undertook quasi-reorganization as approved in the Extraordinary General Shareholders' Meeting ("RUPS-LB") on 15 December 2003.

The quasi-reorganization adjustments which were booked on 30 June 2003 were as follows:

Accumulated losses
General and legal reserve
Specific reserve
Fixed assets revaluation reserve
Unrealized gain on available for sale securities
Revaluation uplift in the fair value of net assets
Additional paid-in capital

BNI's Articles of Association were amended to reflect the changes in additional paid-in capital as a result of quasi-reorganization, based on Notarial Deed of Agung Prihatin, S.H., No. 42 dated 30 December 2003 which was approved by the Minister of Law and Human Rights of the Republic of Indonesia in its decision letter No. C-29647.HT.01.07.TH.2003 dated 19 December 2003 and was published in the State Gazette No. 1152, Supplement No. 9 dated 30 January 2004.

f. Limited Public Offering II

On 30 July 2007, the Extraordinary General Shareholders' Meeting approved the issuance of up to 1,992,253,110 new Class C shares through Limited Public Offering II to shareholders with a par value per share of Rp375 (full amount).

1. INFORMASI UMUM (lanjutan)

f. Penawaran Umum Saham Terbatas II
(lanjutan)

Setiap pemegang 20 saham lama yang namanya tercatat dalam Daftar Pemegang Saham BNI pada tanggal 9 Agustus 2007 pukul 16.00 WIB mempunyai 3 HMETD, dimana setiap 1 HMETD memberikan hak kepada pemegangnya untuk membeli sebanyak 1 saham baru dengan harga pelaksanaan Rp2.025 (nilai penuh) setiap saham. Dari Penawaran Umum Terbatas II, BNI mendapatkan tambahan modal disetor sebesar Rp747.094 dan tambahan agio saham sebesar Rp3.287.218 dan biaya emisi penerbitan saham sebesar Rp195.280.

Perdagangan perdana dilaksanakan pada tanggal 13 Agustus 2007 di Bursa Efek Jakarta dan Bursa Efek Surabaya (sekarang BEI).

g. Penawaran Umum Saham Terbatas III

Pada tanggal 25 November 2010, dalam Rapat Umum Pemegang Saham Luar Biasa (RUPSLB), Pemegang Saham telah memutuskan antara lain untuk menyetujui peningkatan modal ditempatkan dan disetor BNI melalui Penawaran Umum Terbatas III (PUT III) dengan penerbitan HMETD sebesar 3.374.715.948 saham Seri C baru dengan nilai nominal Rp375 (nilai penuh) setiap lembar saham. HMETD tersebut dapat diperdagangkan di dalam dan di luar Bursa Efek Indonesia (BEI) mulai tanggal 10 Desember 2010 sampai dengan 16 Desember 2010, dengan memperhatikan ketentuan yang berlaku di bidang pasar modal. Dari PUT III tersebut, BNI mendapatkan tambahan modal disetor sebesar Rp1.265.519 dan tambahan agio saham, bersih setelah dikurangkan dengan biaya emisi penerbitan saham, sebesar Rp8.950.869.

h. Pemecahan nilai nominal saham BNI

Berdasarkan keputusan RUPSLB tanggal 19 September 2023 yang dituangkan dalam Akta No. 18, tanggal 19 September 2023, yang dibuat dihadapan Ashoya Ratam SH, M.kn, pemegang saham BNI antara lain menyetujui pemecahan nilai nominal saham (*stock split*) Bank dengan rasio 1:2 yang berlaku efektif pada tanggal 10 Oktober 2023 (lihat Catatan 33).

1. GENERAL INFORMATION (continued)

f. Limited Public Offering II (continued)

Each owner of 20 old shares whose name was registered in the List of Shareholders of BNI as of 9 August 2007 at 16.00 WIB was entitled to 3 pre-emptive rights where each right entitles the owner to buy a new share at the price of Rp2,025 (full amount) per share. From the Limited Public Offering II, BNI raised Rp747,094 additional share capital and Rp3,287,218 additional paid-in capital and Rp195,280 shares issuance cost.

The initial trading took place on 13 August 2007 at the Jakarta Stock Exchange and Surabaya Stock Exchange (currently IDX).

g. Limited Public Offering III

On 25 November 2010, at the Extraordinary General Shareholders' Meeting, the shareholders decided, among other matters, to increase the issued and paid-up capital through limited public offering (LPO III) with pre-emptive right to shareholders for the issuance of 3,374,715,948 new Class C shares with a par value per share of Rp375 (full amount). Such pre-emptive rights can be traded inside and outside the Indonesia Stock Exchange (IDX) starting 10 December 2010 until 16 December 2010, with consideration to the existing capital market regulation. From the LPO III, BNI obtained Rp1,265,519 additional share capital and Rp8,950,869 additional paid-in capital, net of shares issuance cost.

h. Stock split of BNI

Based on the decision of the Extraordinary General Meeting of Shareholders (RUPSLB) dated 19 September 2023, as stated in Deed No. 18 dated 19 September 2023, as recorded in the Notarial Deed of Ashoya Ratam, SH, M.Kn., the shareholders of BNI, among others, approved the nominal value split (stock split) of the bank with a ratio of 1:2, effective from 10 October 2023 (see Note 33).

PT Bank Hibank Indonesia (formerly PT Bank Mayora)

PT Bank Mayora was established in 1993 based on Notarial Deed No. 14 dated 25 February 1993 of Dr. Widjojo Wilami, S.H., public notary in Jakarta. The Deed of Establishment was approved by the Minister of Justice of the Republic of Indonesia in his Decision Letter No. C2-2108.HT.01.01.Th.1993 dated 10 April 1993 and published in the State Gazette of the Republic of Indonesia No.44 dated 2 June 1993, Supplement No.2457. Bank Mayora's Articles of Association has been amended several times. The latest amendment of PT Bank Mayora's Articles of Association was made regarding change its name to PT Bank Hibank Indonesia based on Notarial Deed No. 42 dated 11 April 2023 of Notary Jose Dima Satria, SH., M.KN. and has been approved by the Minister of Laws and Human Rights of the Republic of Indonesia, in its Decision Letter No. AHU-0022392.AH.01.02 dated 14 April 2023.

PT Bank Hibank Indonesia incorporated in the BNI Bank Business Group (KUB) as an affirmation of the plan to establish a BNI KUB by the Financial Services Authority (OJK) confirmed by OJK Letter No. S-83/PB.31/2022 dated 23 May 2022 and became a Financial Services Institution member of the BNI Financial Conglomerate as recorded in the OJK supervision administration confirmed by OJK Letter No. S-88/PB.31/2022 dated 9 June 2022.

In accordance with the Decree of Bank Indonesia No.15/5/KEP.DpG/2013 dated 7 May 2013, the Bank was authorized to operate as a Foreign Exchange Bank.

k. Entitas Asosiasi

PT Bank Syariah Indonesia Tbk

BNI Syariah didirikan dengan Akta Pendirian Nomor 160 tanggal 22 Maret 2010 yang dibuat di hadapan Aulia Taufani, S.H., sebagai Pengganti Sutjipto, S.H., notaris di Jakarta. Akta Pendirian tersebut telah memperoleh pengesahan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia melalui Surat No. AHU-15574.AH.01.01.Tahun 2010 tanggal 25 Maret 2010.

Sejak tanggal 1 Februari 2021, BNI Syariah telah resmi bergabung ke Bank Syariah Indonesia sesuai persetujuan Otoritas Jasa Keuangan (OJK) Pasar Modal melalui surat No. S-289/D.04/2020 tertanggal 11 Desember 2020 serta melalui surat OJK Perbankan No. 4/KDK.03/2021 tanggal 27 Januari 2021.

Dengan bergabungnya BNI Syariah ke Bank Syariah Indonesia, maka pengendalian BNI terhadap BNI Syariah telah berakhir dan tidak dilakukan konsolidasi atas laporan keuangan Bank Syariah Indonesia pada laporan keuangan konsolidasian BNI dan Entitas Anak.

Sejak 1 Februari 2021, Penyertaan BNI terhadap Bank Syariah Indonesia dianggap sebagai penyertaan terhadap perusahaan asosiasi dengan pengaruh signifikan yang dicatat menggunakan metode ekuitas.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG MATERIAL

Laporan keuangan konsolidasian BNI dan Entitas Anak (“Grup”) ini diselesaikan dan diotorisasi untuk terbit oleh Direksi pada tanggal 25 Januari 2024.

Kebijakan akuntansi material yang diterapkan dalam penyusunan laporan keuangan konsolidasian BNI dan Entitas Anak (“Grup”) adalah seperti dijabarkan dibawah ini:

1. GENERAL INFORMATION (continued)

**PT BNI Modal Ventura (“BNI Ventures”)
(continued)**

BNI Ventures head office is located in Jakarta, at Menara BNI Lt. 2, Jl. Pejompongan Raya No.7, Tanah Abang, Central Jakarta. BNI Ventures had 12 employees and 5 employees as of 31 December 2023 and 2022 (unaudited).

k. Associates

PT Bank Syariah Indonesia Tbk

BNI Syariah was established based on Establishment Deed No. 160 dated 22 March 2010 which was notarized by Aulia Taufani, S.H., as the substitute of Sutjipto, S.H., notary in Jakarta. The Establishment Deed was approved by the Ministry of Laws and Human Rights of the Republic of Indonesia through Letter No. AHU-15574.AH.01.01.Year 2010 dated 25 March 2010.

Since 1 February 2021, BNI Syariah has officially joined Bank Syariah Indonesia as approved by The Financial Service Authority (OJK) Capital Market through letter No. S-289/D.04/2020 dated 11 December 2020 as well as through OJK Perbankan through letter No. 4/KDK.03/2021 dated 27 January 2021.

By joining BNI Syariah to Bank Syariah Indonesia, BNI's control of BNI Syariah has ended and there is no consolidation of the financial statements of Bank Syariah Indonesia in the consolidated financial statements of BNI and its Subsidiaries.

Since 1 February 2021, BNI's participation in Bank Syariah Indonesia is considered as participation in associated companies with significant influence which is recorded using the equity method.

2. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The consolidated financial statements of BNI and its Subsidiaries (“Group”) were completed and authorized for issuance by the Board of Directors on 25 January 2024.

The material accounting policies adopted in preparing the consolidated financial statements of BNI and Subsidiaries (“Group”) are set out below:

CATATAN ATAS LAPORAN KEUANGAN

FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

a. Dasar penyusunan laporan keuangan
konsolidasian

Berikut ini adalah ikhtisar kebijakan akuntansi material yang diterapkan dalam penyusunan laporan keuangan konsolidasian Grup yang disusun berdasarkan Standar Akuntansi Keuangan di Indonesia yang mencakup Pernyataan Standar Akuntansi Keuangan ("PSAK") dan Interpretasi Standar Akuntansi Keuangan ("ISAK") yang diterbitkan oleh Ikatan Akuntan Indonesia dan Peraturan Badan Pengawas Pasar Modal dan Lembaga Keuangan ("BAPEPAM-LK") No. VIII.G.7 tentang Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik, yang terlampir dalam surat keputusan No. KEP-347/BL/2012. Peraturan tersebut sekarang merupakan regulasi dari Otoritas Jasa Keuangan ("OJK").

Laporan keuangan konsolidasian disusun sesuai dengan PSAK 1, "Penyajian Laporan Keuangan".

Laporan keuangan konsolidasian telah disajikan berdasarkan konsep harga perolehan, yang dimodifikasi oleh revaluasi tanah dan bangunan, aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset dan liabilitas keuangan (termasuk instrumen derivatif) yang diukur pada nilai wajar melalui laba rugi, serta disusun dengan dasar akrual, kecuali laporan arus kas konsolidasian.

Laporan arus kas konsolidasian disusun dengan menggunakan metode langsung dengan mengelompokkan arus kas dalam aktivitas operasi, investasi dan pendanaan. Kas dan setara kas terdiri dari kas, giro pada Bank Indonesia dan giro pada bank lain, penempatan pada bank lain dan Sertifikat Bank Indonesia yang jatuh tempo dalam waktu 3 bulan atau kurang sejak tanggal perolehan, sepanjang tidak digunakan sebagai jaminan atas pinjaman yang diterima serta tidak dibatasi penggunaannya.

Pos-pos dalam penghasilan komprehensif lainnya disajikan terpisah antara akun-akun yang akan direklasifikasikan ke laba rugi dan akun-akun yang tidak akan direklasifikasikan ke laba rugi.

Mata uang pelaporan yang digunakan dalam laporan keuangan konsolidasian adalah mata uang Rupiah (Rp). Angka-angka yang disajikan dalam laporan keuangan konsolidasian, kecuali bila dinyatakan secara khusus, adalah dibulatkan dalam jutaan Rupiah.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

a. Basis of preparation of the consolidated
financial statements

Presented below are the summary of material accounting policies applied in the preparation of the consolidated financial statements of the Group in accordance with Indonesian Financial Accounting Standards which comprise of Statements of Financial Accounting Standards ("SFAS") and Interpretation of Financial Accounting Standards ("ISAK") issued by Institute of Indonesian Chartered Accountant and the Capital Market and Financial Institution Supervisory Agency ("BAPEPAM-LK")'s Regulation No. VIII.G.7 regarding the Presentations and Disclosures of Financial Statements of Listed Entity, enclosed in the decision letter No. KEP-347/BL/2012. The regulation is now a regulation under Indonesian Financial Services Authority ("OJK").

The consolidated financial statements are prepared in accordance with SFAS 1, "Presentation of Financial Statements".

The consolidated financial statements have been prepared on a historical cost basis, as modified by revaluation of land and buildings, financial assets at fair value through other comprehensive income, and financial assets and liabilities (including derivative instruments) at fair value through profit or loss, and under the accrual basis of accounting, except for consolidated statements of cash flows.

The consolidated statements of cash flows are prepared in the direct method with cash flows classified into operating, investing and financing activities. Cash and cash equivalents consist of cash, current accounts with Bank Indonesia and current accounts with other banks, placements with other banks and Certificates of Bank Indonesia maturing within 3 months from the date of acquisition, and which are not pledged as collateral for borrowings nor restricted.

Items within other comprehensive income are classified separately, between accounts which will be reclassified to profit or loss and which will not be reclassified to profit or loss.

The reporting currency used for the consolidated financial statements is the Indonesian Rupiah (Rp). Unless otherwise stated, all figures presented in the consolidated financial statements are rounded off to millions of Rupiah.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

b. Perubahan Pernyataan Standar Akuntansi
Keuangan dan Interpretasi Standar
Akuntansi Keuangan

Berikut ini adalah standar akuntansi keuangan, perubahan dan interpretasi standar akuntansi keuangan yang berlaku efektif sejak 1 Januari 2023.

- Amendemen PSAK 1: "Penyajian laporan keuangan tentang pengungkapan kebijakan akuntansi";
- Amendemen PSAK 16: "Aset tetap tentang hasil sebelum penggunaan yang diintensikan";
- Amendemen PSAK 25: "Kebijakan akuntansi, perubahan estimasi akuntansi dan kesalahan tentang definisi estimasi akuntansi";
- Amendemen PSAK 46: "Pajak penghasilan tentang reformasi pajak internasional ketentuan model pilar dua"; dan
- Amendemen PSAK 73 "Sewa" - Liabilitas Sewa pada Transaksi Jual dan Sewa Balik.

Berikut ini adalah standar akuntansi keuangan, perubahan dan interpretasi standar akuntansi keuangan yang berlaku efektif sejak 1 Januari 2024.

- Amendemen PSAK 1 "Penyajian Laporan Keuangan" - Klasifikasi liabilitas lancar atau tidak lancar;
- Amendemen PSAK 1 "Penyajian Laporan Keuangan" - Liabilitas Jangka Panjang dengan Kovenan; dan
- Amendemen PSAK 73: "Sewa" - Liabilitas Sewa pada Transaksi Jual dan Sewa Balik.

PSAK 74: Kontrak Asuransi

PSAK 74 mengatur relaksasi beberapa ketentuan antara lain berupa penambahan pengecualian ruang lingkup, penyesuaian penyajian laporan keuangan, penerapan opsi mitigasi risiko dan beberapa modifikasi pada ketentuan transisi. PSAK 74 juga mensyaratkan pemisahan yang jelas antara pendapatan yang dihasilkan dari bisnis asuransi dengan yang berasal dari kegiatan investasi.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

b. Changes to Statements of Financial
Accounting Standards and Interpretations
of Statements of Financial Accounting
Standards

The followings are financial accounting standard, amendments and interpretation of financial accounting standard which become effective starting 1 January 2023.

- Amendment to SFAS 1: "Presentation of financial statements on disclosure of accounting policies";
- Amendment to SFAS 16: "Fixed assets on proceeds before intended use";
- Amendment to SFAS 25: "Accounting policy, changes in accounting estimates and errors in the definition of accounting estimates";
- Amendment to SFAS 46: "Income taxes regarding international tax reform - pillar two model rules"; and
- Amendment of SFAS 73 "Leases" - lease liability in a Sale and Leaseback.

The followings are financial accounting standard, amendments and interpretation of financial accounting standard which become effective starting 1 January 2024.

- Amendment to SFAS 1: "Presentation of financial statements" - Classification of Liabilities as Current or Noncurrent;
- Amendment to SFAS 1: "Presentation of financial statement" - Non-current Liabilities with Covenants; and
- Amendment to SFAS 73: "Leases" - Lease Liability in a Sale and Leaseback.

SFAS 74 "Insurance Contract"

PSAK 74 regulates the relaxation of several provisions, including the addition of scope exceptions, adjustments to the presentation of financial statements, application of risk mitigation options and some modifications to transitional provisions. PSAK 74 also requires a clear separation between income generated from the insurance business and from investment activities.

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

b. Perubahan Pernyataan Standar Akuntansi Keuangan dan Interpretasi Standar Akuntansi Keuangan (lanjutan)

PSAK 74: Kontrak Asuransi (lanjutan)

Tanggal efektif penerapan PSAK 74: Kontrak Asuransi di Indonesia akan berlaku pada 1 Januari 2025 dengan penerapan dini diperkenankan. BNI Life, saat ini sudah menyelesaikan tahapan penyusunan *Technical Position Paper* sebagai rujukan pelaksanaan PSAK 74 yang sesuai dengan standar. Proses pemilihan konsultan *engine* perhitungan *Contractual Service Margin* ("CSM") juga sudah dilakukan. Di 2024, BNI Life Insurance berencana untuk melakukan proses paralel run untuk output CSM sesuai standard PSAK 74.

Implementasi dari standar-standar tersebut tidak menghasilkan perubahan substansial terhadap kebijakan akuntansi Grup dan tidak memiliki dampak yang material terhadap laporan keuangan konsolidasian di tahun berjalan atau tahun sebelumnya. Mulai dari 1 Januari 2024, referensi terhadap masing-masing PSAK dan ISAK akan diubah sesuai dengan penerbitan oleh DSAK-IAI.

Terkait adanya siaran pers DSAK IAI "Pengatribusian Imbalan pada Periode Jasa" pada bulan April 2022, Grup mengubah kebijakan terkait atribusi imbalan pensiun pada periode jasa sesuai ketentuan dalam PSAK 24 untuk pola fakta umum dari program pensiun berbasis UU Cipta Kerja No. 11/2020 dan PP 35/2021. Dampak perubahan perhitungan tersebut adalah tidak material terhadap Grup, sehingga dibukukan seluruhnya pada laporan keuangan konsolidasian pada tahun berjalan, saat terjadinya perubahan kebijakan akuntansi tersebut.

c. Aset dan liabilitas keuangan

(i) Klasifikasi

Grup mengklasifikasikan aset keuangannya berdasarkan kategori sebagai berikut pada saat pengakuan awal:

- Aset keuangan yang diukur pada nilai wajar melalui laba rugi;
- Aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain;
- Aset keuangan yang diukur pada biaya perolehan diamortisasi.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

b. Changes to Statements of Financial Accounting Standards and Interpretations of Statements of Financial Accounting Standards (continued)

SFAS 74 "Insurance Contract" (continued)

The effective date for implementing PSAK 74: Insurance Contracts in Indonesia will take effect on January 1 2025 with early implementation permitted. BNI Life has currently completed the stages of formulating the Technical Position Paper as a reference for the implementation of PSAK 74 in accordance with the Standard. BNI Life has also completed the process of selecting consultant for Contractual Service Margin ("CSM") calculations engine. In 2024, BNI Life plans to conduct a parallel run process for CSM outputs in accordance with PSAK 74 standards.

The implementation of the above standards did not result in substantial changes to the Group's accounting policies and had no material impact to the consolidated financial statements for current or prior financial years. Beginning 1 January 2024, references to the individual PSAKs and ISAKs will be changed as published by DSAK-IAI.

Regarding the DSAK IAI press release "Compensation Attribution in the Service Period" in April 2022, the Group changed the policy related to the attribution of pension compensation in the service period in accordance with the provisions in SFAS 24 for the general fact pattern of pension programs based on the UU Cipta Kerja No. 11/2020 dan PP 35/2021. The impact of the change in calculation is immaterial to the Group, therefore the impact of the changes is recorded entirely in the consolidated financial statements for the current year, at the time the change in accounting policy happened.

c. Financial assets and liabilities

(i) Classification

The Group classifies its financial assets according to the following categories at initial recognition:

- Financial assets measured at fair value through profit or loss;
- Financial assets measured at fair value through other comprehensive income;
- Financial assets measured at amortized cost.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

(i) Klasifikasi (lanjutan)

Aset keuangan diukur pada biaya perolehan diamortisasi jika memenuhi kondisi sebagai berikut:

- aset keuangan dikelola dalam model bisnis yang bertujuan untuk memiliki aset keuangan dalam rangka mendapatkan arus kas kontraktual;
- persyaratan kontraktual dari aset keuangan tersebut memberikan hak pada tanggal tertentu atas arus kas yang diperoleh semata dari pembayaran pokok dan bunga (SPPI) dari jumlah pokok terutang.

Aset keuangan diukur pada nilai wajar melalui penghasilan komprehensif lain jika memenuhi kondisi sebagai berikut:

- Aset keuangan dikelola dalam model bisnis yang bertujuan untuk mendapatkan arus kas kontraktual dan menjual aset keuangan; dan
- Persyaratan kontraktual dari aset keuangan tersebut memenuhi kriteria SPPI.

Pada saat pengakuan awal, Grup dapat membuat pilihan yang tidak dapat dibatalkan untuk menyajikan instrumen ekuitas yang bukan dimiliki untuk diperdagangkan pada nilai wajar melalui penghasilan komprehensif lain.

Aset keuangan lainnya yang tidak memenuhi persyaratan untuk diklasifikasikan sebagai aset keuangan diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain, diklasifikasikan sebagai diukur pada nilai wajar melalui laba rugi.

Saat pengakuan awal Grup dapat membuat penetapan yang tidak dapat dibatalkan untuk mengukur aset yang memenuhi persyaratan untuk diukur pada biaya perolehan diamortisasi atau nilai wajar melalui penghasilan komprehensif lain pada nilai wajar melalui laba rugi, apabila penetapan tersebut mengeliminasi atau secara signifikan mengurangi inkonsistensi pengukuran atau pengakuan (kadang disebut sebagai "accounting mismatch").

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

(i) Classification (continued)

Financial assets are measured at amortized cost if they meet the following conditions:

- financial assets are managed in a business model that aims to have financial assets in order to obtain contractual cash flow;
- the contractual terms of the financial assets provide rights on a certain date for cash flow obtained solely from payment of principal and interest (SPPI) on the principal amount owed.

Financial assets are measured at fair value through other comprehensive income if they meet the following conditions:

- Financial assets are managed in a business model that aims to obtain contractual cash flow and sell financial assets; and
- The contractual requirements of the financial assets meet the SPPI criteria.

At initial recognition, the Group may make an irrevocable choice to present equity instruments that are not held for trading at fair value through other comprehensive income.

Other financial assets that do not meet the requirements to be classified as financial assets measured at amortized cost or fair value through other comprehensive income, are classified as measured at fair value through profit or loss.

At initial recognition, the Group can make an irrevocable determination to measure assets that meet the requirements to be measured at amortized cost or fair value through other comprehensive income at fair value through profit or loss, if the determination eliminates or significantly reduces the measurement or recognition inconsistencies (sometimes referred to as "accounting mismatch").

(i) Klasifikasi (lanjutan)

(i) Classification (continued)

Penilaian model bisnis

Evaluation of business models

Model bisnis ditentukan pada level yang mencerminkan bagaimana kelompok aset keuangan dikelola bersama-sama untuk mencapai tujuan bisnis tertentu.

The business model is determined at a level that reflects how groups of financial assets are managed together to achieve certain business objectives.

Penilaian model bisnis dilakukan dengan mempertimbangkan, tetapi tidak terbatas pada, hal-hal berikut:

The evaluation of the business model is carried out by considering, but not limited to, the following:

- Bagaimana kinerja dari model bisnis dan aset keuangan yang dimiliki dalam model bisnis dievaluasi dan dilaporkan kepada personil manajemen kunci Grup;
- Apakah risiko yang mempengaruhi kinerja dari model bisnis (termasuk aset keuangan yang dimiliki dalam model bisnis) dan khususnya bagaimana cara aset keuangan tersebut dikelola; dan
- Bagaimana penilaian kinerja pengelola aset keuangan (sebagai contoh, apakah penilaian kinerja berdasarkan nilai wajar dari aset yang dikelola atau arus kas kontraktual yang diperoleh).

- How the performance of the business model and financial assets held in the business model are evaluated and reported to the Group's key management personnel;
- What risks affect the performance of the business model (including financial assets held in the business model) and specifically how the financial assets are managed; and
- How to evaluate the performance of managers of financial assets (for example, whether performance appraisals are based on the fair value of the assets being managed or the contractual cash flows obtained).

Aset keuangan yang dimiliki untuk diperdagangkan atau dikelola dan penilaian kinerjanya berdasarkan nilai wajar diukur pada nilai wajar melalui laba rugi.

Financial assets held for trading or managed and which performance appraisals based on fair value are measured at fair value through profit or loss.

Derivatif juga dikategorikan dalam kelompok ini, kecuali derivatif yang ditetapkan sebagai instrumen lindung nilai efektif.

Derivatives are also categorized under this classification, unless they are designated as effective hedging instruments.

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga

Evaluation of contractual cash flows obtained solely from payment of principal and interest

Untuk tujuan penilaian ini, pokok didefinisikan sebagai nilai wajar dari aset keuangan pada saat pengakuan awal. Bunga didefinisikan sebagai imbalan untuk nilai waktu atas uang dan risiko kredit terkait jumlah pokok terutang pada periode waktu tertentu dan juga risiko dan biaya peminjaman standar, dan juga margin laba.

For the purpose of this evaluation, principal is defined as the fair value of financial assets at initial recognition. Interest is defined as compensation for the time value of money and credit risk in relation to the principal amount owed over a certain period of time and also the risk and standard borrowing costs, as well as profit margins.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(i) Klasifikasi (lanjutan)

**Penilaian mengenai arus kas
kontraktual yang diperoleh semata dari
pembayaran pokok dan bunga (lanjutan)**

Penilaian mengenai arus kas kontraktual yang diperoleh semata dari pembayaran pokok dan bunga dilakukan dengan mempertimbangkan persyaratan kontraktual, termasuk apakah aset keuangan mengandung persyaratan kontraktual yang dapat mengubah waktu atau jumlah arus kas kontraktual. Dalam melakukan penilaian, Grup mempertimbangkan:

- Peristiwa kontinjensi yang akan mengubah waktu atau jumlah arus kas kontraktual;
- Fitur *leverage*;
- Persyaratan pembayaran di muka dan perpanjangan kontraktual;
- Persyaratan mengenai klaim yang terbatas atas arus kas yang berasal dari aset spesifik; dan
- Fitur yang dapat mengubah nilai waktu dari elemen uang.

Liabilitas keuangan diklasifikasikan ke dalam kategori sebagai berikut pada saat pengakuan awal:

- Liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi, yang memiliki 2 (dua) sub-klasifikasi, yaitu liabilitas keuangan yang ditetapkan demikian pada saat pengakuan awal dan liabilitas keuangan yang telah diklasifikasikan dalam kelompok diperdagangkan;
- Liabilitas keuangan lain. Liabilitas keuangan lainnya merupakan liabilitas keuangan yang tidak dimiliki untuk dijual atau ditentukan sebagai nilai wajar melalui laba rugi saat pengakuan liabilitas.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(i) Classification (continued)

**Evaluation of contractual cash flows
obtained solely from payment of
principal and interest (continued)**

An assessment of contractual cash flows obtained solely from principal and interest payments is made by considering contractual terms, including whether financial assets contain contractual terms that can change the timing or amount of contractual cash flows. In assessing, the Group considers:

- Contingency events that will change the timing or amount of contractual cash flow;
- Leverage feature;
- Terms of advance payment and contractual extension;
- Requirements regarding limited claims for cash flows from specific assets; and
- Features that can change the time value of money element.

Financial liabilities are classified into the following categories at initial recognition:

- Financial liabilities at fair value through profit or loss, which has 2 (two) sub-classifications, i.e. those designated as such upon initial recognition and those classified as held for trading;
- Other financial liabilities. Other financial liabilities pertain to financial liabilities that are not held for trading nor designated as at fair value through profit or loss upon recognition of the liability.

(ii) Pengakuan awal

(ii) Initial recognition

- a. Pembelian atau penjualan aset keuangan yang memerlukan penyerahan aset dalam kurun waktu yang telah ditetapkan oleh peraturan dan kebiasaan yang berlaku di pasar (pembelian secara reguler) diakui pada tanggal perdagangan, yaitu tanggal Grup berkomitmen untuk membeli atau menjual aset.
- b. Aset keuangan dan liabilitas keuangan pada awalnya diukur pada nilai wajarnya. Dalam hal aset keuangan atau liabilitas keuangan tidak diklasifikasikan sebagai nilai wajar melalui laba rugi, nilai wajar tersebut ditambah/dikurangi biaya transaksi yang dapat diatribusikan secara langsung dengan perolehan atau penerbitan aset keuangan atau liabilitas keuangan.

- a. Purchase or sale of financial assets that requires delivery of assets within a time frame established by regulation or convention in the market (regular purchases) is recognized on the trade date, i.e., the date that the Group commits to purchase or sell the assets.
- b. Financial assets and financial liabilities are initially recognized at fair value. For those financial assets or financial liabilities not classified as fair value through profit or loss, the fair value is added/deducted with directly attributable transaction costs to the issuance of financial assets or liabilities.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

(ii) Pengakuan awal (lanjutan)

Grup, pada pengakuan awal, dapat menetapkan aset keuangan dan liabilitas keuangan tertentu sebagai nilai wajar melalui laba rugi (opsi nilai wajar). Opsi nilai wajar dapat digunakan hanya bila memenuhi ketentuan sebagai opsi nilai wajar mengurangi atau mengeliminasi ketidak-konsistenan pengukuran dan pengakuan (*accounting mismatch*) yang dapat timbul.

(iii) Pengukuran setelah pengakuan awal

Aset keuangan dalam kelompok aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain dan aset keuangan dan liabilitas keuangan yang diukur pada nilai wajar melalui laba rugi diukur pada nilai wajarnya. Aset keuangan kelompok biaya perolehan diamortisasi dan liabilitas keuangan lainnya diukur pada biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif.

(iv) Penghentian pengakuan

a. Aset keuangan dihentikan pengakuannya jika:

- Hak kontraktual atas arus kas yang berasal dari aset keuangan tersebut berakhir; atau
- Grup telah mentransfer haknya untuk menerima arus kas yang berasal dari aset tersebut atau menanggung liabilitas untuk membayarkan arus kas yang diterima tersebut secara penuh tanpa penundaan berarti kepada pihak ketiga dibawah kesepakatan pelepasan, dan antara (a) Grup telah mentransfer secara substansial seluruh risiko dan manfaat atas aset, atau (b) Grup tidak mentransfer maupun tidak memiliki secara substansial seluruh risiko dan manfaat atas aset, tetapi telah mentransfer kendali atas aset.

Ketika Grup telah mentransfer hak untuk menerima arus kas dari aset atau telah memasuki kesepakatan pelepasan dan tidak mentransfer serta tidak mempertahankan secara substansial seluruh risiko dan manfaat atas aset atau tidak mentransfer kendali atas aset, aset diakui sebesar keterlibatan Grup yang berkelanjutan atas aset tersebut.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

(ii) Initial recognition (continued)

The Group, upon initial recognition, may designate certain financial assets and financial liabilities, at fair value through profit or loss (fair value option). The fair value option is only applied when the application of the fair value option reduces or eliminates the measurement or recognition inconsistencies (*accounting mismatch*) that would otherwise arise.

(iii) Subsequent measurement

Financial assets at fair value through other comprehensive income and financial assets and financial liabilities at fair value through profit or loss are measured at fair value. Financial assets classified as amortized cost and other financial liabilities measured at amortized cost using the effective interest rate method.

(iv) Derecognition

a. Financial assets are derecognized when:

- The contractual rights to receive cash flows from the financial assets have expired; or
- The Group has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flow in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the Group has transferred substantially all the risks and rewards of the asset, or (b) the Group has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

When the Group has transferred its rights to receive cash flows from an asset or has entered into a pass-through arrangement and has neither transferred nor retained substantially all the risks and rewards of the asset nor transferred control of the asset, the asset is recognized to the extent of the Group's continuing involvement in the asset.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

(iv) Penghentian pengakuan (lanjutan)

a. Aset keuangan dihentikan pengakuannya jika: (lanjutan)

Pinjaman yang diberikan dihapusbukukan ketika tidak terdapat prospek yang realistis mengenai pengembalian pinjaman atau hubungan normal antara Grup dan debitur telah berakhir. Pinjaman yang tidak dapat dilunasi tersebut dihapusbukukan dengan mendebit cadangan kerugian penurunan nilai.

b. Liabilitas keuangan dihentikan pengakuannya jika liabilitas yang ditetapkan dalam kontrak dilepaskan atau dibatalkan atau kadaluarsa.

Jika suatu liabilitas keuangan yang ada digantikan dengan liabilitas yang lain oleh pemberi pinjaman yang sama pada keadaan yang secara substansial berbeda, atau berdasarkan suatu liabilitas yang ada yang secara substansial telah diubah, maka pertukaran atau modifikasi tersebut diperlakukan sebagai penghentian pengakuan liabilitas awal dan pengakuan liabilitas baru, dan perbedaan nilai tercatat masing-masing diakui dalam laporan laba rugi.

(v) Pengakuan pendapatan dan beban

a. Pendapatan dan beban bunga atas aset keuangan yang diukur pada nilai wajar melalui penghasilan komprehensif lain serta aset keuangan dan liabilitas keuangan yang dicatat berdasarkan biaya perolehan diamortisasi, diakui pada laporan laba rugi dengan menggunakan metode suku bunga efektif.

Jumlah tercatat bruto aset keuangan adalah biaya perolehan diamortisasi aset keuangan sebelum disesuaikan dengan cadangan penurunan nilai.

Dalam menghitung pendapatan dan beban bunga, tingkat bunga efektif diterapkan pada jumlah tercatat bruto aset (ketika aset tersebut bukan aset keuangan memburuk) atau terhadap biaya perolehan diamortisasi dari liabilitas.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(iv) Derecognition (continued)

a. Financial assets are derecognized when: (continued)

Loans are written off when there is no realistic prospect of collection in the near future or the normal relationship between the Group and the borrowers have ceased to exist. When a loan is deemed uncollectible, it is written off against the related allowance for impairment losses.

b. Financial liabilities are derecognized when the obligation under the liability is discharged or cancelled or has expired.

Where an existing financial liability is replaced by another liability from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognized in the profit or loss.

(v) Income and expense recognition

a. Interest income and expense on financial assets measured at fair value through other comprehensive income as well as financial assets and financial liabilities recorded at amortized cost are recognized in the statement of profit or loss using the effective interest rate method.

The gross carrying amount of a financial asset is the amortized cost of a financial asset before adjusting for allowance for impairment.

In calculating interest income and expenses, the effective interest rate is applied to the gross carrying amount of an asset (when the asset is not an impaired financial asset) or to the amortized cost of a liability.

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL** (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

(v) Pengakuan pendapatan dan beban (lanjutan)

- b. Keuntungan dan kerugian yang timbul dari perubahan nilai wajar atas aset keuangan yang diklasifikasikan dalam kelompok nilai wajar melalui penghasilan komprehensif lain diakui secara langsung dalam laporan laba rugi dan penghasilan komprehensif lain (merupakan bagian dari ekuitas), sampai aset keuangan tersebut dihentikan pengakuannya atau adanya penurunan nilai, kecuali keuntungan atau kerugian akibat perubahan nilai tukar untuk instrumen utang.

Pada saat aset keuangan dihentikan pengakuannya atau dilakukan penurunan nilai, keuntungan atau kerugian kumulatif yang sebelumnya diakui dalam ekuitas harus diakui pada laporan laba rugi.

(vi) Reklasifikasi aset keuangan

Grup mereklasifikasi aset keuangan jika dan hanya jika, model bisnis untuk pengelolaan aset keuangan berubah.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui laba rugi dicatat sebesar nilai wajarnya. Selisih antara nilai tercatat dengan nilai wajar diakui sebagai keuntungan atau kerugian pada laba rugi dan penghasilan komprehensif lain.

Reklasifikasi aset keuangan dari klasifikasi biaya perolehan yang diamortisasi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat sebesar nilai wajarnya.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui penghasilan komprehensif lain ke klasifikasi nilai wajar melalui laba rugi dicatat pada nilai wajarnya. Keuntungan atau kerugian yang belum direalisasi direklasifikasi ke laba rugi.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES** (continued)

c. Financial assets and liabilities (continued)

(v) *Income and expense recognition* (continued)

- b. *Gains and losses arising from changes in the fair value of financial assets that classified as fair value through statement of profit or loss and other comprehensive income are recognized directly in other comprehensive income (as part of equity), until the financial asset is derecognized or impaired, except gain or loss arising from changes in exchange rate for debt instruments.*

When a financial asset is derecognized or impaired, the cumulative gains or losses previously recognized in equity are recognized in profit or loss.

(vi) *Reclassification of financial assets*

The Group reclassifies financial assets if and only if, the business model for managing financial assets changes.

Reclassifications of financial assets from amortized cost classifications to fair value through profit or loss are recorded at fair value. The difference between the recorded value and fair value is recognized in profit or loss on the statement of profit or loss and other comprehensive income.

Reclassifications of financial assets from amortized cost classifications to fair value classifications through other comprehensive are recorded at their fair values.

Reclassification of financial assets from fair value through other comprehensive income to fair value through profit or loss is recorded at fair value. Unrealized gains or losses are reclassified to profit or loss.

(vi) Reklasifikasi aset keuangan (lanjutan)

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui penghasilan komprehensif lain ke klasifikasi biaya perolehan yang diamortisasi dicatat pada nilai wajarnya pada tanggal reklasifikasi. Keuntungan atau kerugian yang belum direalisasi dihapus dari ekuitas dan disesuaikan terhadap nilai wajar.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui laba rugi ke klasifikasi nilai wajar melalui penghasilan komprehensif lain dicatat pada nilai wajar.

Reklasifikasi aset keuangan dari klasifikasi nilai wajar melalui laba rugi ke klasifikasi biaya perolehan yang diamortisasi dicatat pada nilai wajar.

(vii) Saling hapus

Aset keuangan dan liabilitas keuangan saling hapus buku dan nilai netonya disajikan dalam laporan posisi keuangan konsolidasian jika, dan hanya jika Grup memiliki hak yang berkekuatan hukum untuk melakukan saling hapus atas jumlah yang telah diakui tersebut dan adanya maksud untuk menyelesaikan secara neto atau untuk merealisasikan aset dan menyelesaikan liabilitasnya secara bersamaan.

Hal yang berkekuatan hukum harus tidak kontingen atas peristiwa di masa depan dan harus dapat dipaksakan di dalam situasi bisnis yang normal, peristiwa kegagalan atau kebangkrutan dari Grup atau pihak lawan.

Pendapatan dan beban disajikan dalam jumlah neto hanya jika diperkenankan oleh standar akuntansi.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

(vi) *Reclassification of financial assets (continued)*

Reclassification of financial assets from fair value through other comprehensive income to the amortized cost is recorded at fair value at the date of reclassification. Unrealized gains or losses is removed from equity and is adjusted against the fair value.

Reclassifications on financial assets from fair value through profit or loss to fair value through other comprehensive income are recorded at fair value.

Reclassification of financial assets from fair value through profit or loss to amortized cost classification is recorded at fair value.

(vii) *Offsetting*

Financial assets and liabilities are set off and the net amount is presented in the consolidated statement of financial position when, and only when, the Group has a legal right to set off the amounts and intends either to settle on a net basis or to realize the asset and settle the liability simultaneously.

The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy of the Group or the counterparty.

Income and expenses are presented on a net basis only when permitted by the accounting standards.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

(viii) Pengukuran biaya diamortisasi

Biaya perolehan diamortisasi dari aset keuangan atau liabilitas keuangan adalah jumlah aset keuangan atau liabilitas keuangan yang diukur pada saat pengakuan awal dikurangi pembayaran pokok pinjaman, ditambah atau dikurangi amortisasi kumulatif menggunakan metode suku bunga efektif yang dihitung dari selisih antara nilai pengakuan awal dan nilai jatuh temponya, dan dikurangi penurunan nilai.

(ix) Pengukuran nilai wajar

Nilai wajar adalah harga yang akan diterima untuk menjual suatu aset atau harga yang akan dibayar untuk mengalihkan suatu liabilitas dalam suatu transaksi teratur antara pelaku pasar pada tanggal pengukuran.

Jika tersedia, Grup mengukur nilai wajar dari suatu instrumen dengan menggunakan harga kuotasi di pasar aktif untuk instrumen terkait. Suatu pasar dianggap aktif bila harga yang dikuotasikan tersedia sewaktu-waktu dari bursa, pedagang efek (*dealer*), perantara efek (*broker*), kelompok industri, badan pengawas (*pricing service or regulatory agency*), dan merupakan transaksi pasar aktual dan teratur terjadi yang dilakukan secara wajar. Nilai wajar dapat diperoleh dari *Interdealer Market Association (IDMA)* atau harga pasar atau harga yang diberikan oleh *broker (quoted price)* dari *Bloomberg* atau *Reuters* pada tanggal pengukuran.

Jika pasar untuk instrumen keuangan tidak aktif, Grup menetapkan nilai wajar dengan menggunakan teknik penilaian.

Grup menggunakan beberapa teknik penilaian yang digunakan secara umum untuk menentukan nilai wajar dari instrumen keuangan dengan tingkat kompleksitas yang rendah, seperti opsi nilai tukar dan *swap* mata uang. Input yang digunakan dalam teknik penilaian untuk instrumen keuangan di atas adalah data pasar yang diobservasi.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

(viii) Amortized cost measurement

The amortized cost of a financial asset or liability is the amount at which the financial asset or liability is measured at initial recognition, minus principal repayments, plus or minus the cumulative amortization using the effective interest rate method of any difference between the initial amount recognized and the maturity amount, minus any reduction for impairment.

(ix) Fair value measurement

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at measurement date.

When available, the Group measures the fair value of an instrument using quoted prices in an active market for that instrument. A market is regarded as active if quoted prices are readily and regularly available from an exchange, dealer, broker, industry group, pricing service or regulatory agency and those prices represent actual and regularly occurring market transaction on an arm's length basis. The fair value can be obtained from IDMA's (Interdealer Market Association) or quoted market prices or broker's quoted price from Bloomberg or Reuters on the measurement date.

If a market for a financial instrument is not active, the Group establishes fair value using a valuation technique.

The Group uses widely recognized valuation models for determining fair values of financial instruments of lower complexity, such as exchange value options and currency swaps. For these financial instruments, inputs into models are generally market-observable data.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

Untuk instrumen yang lebih kompleks, Grup menggunakan model penilaian internal, yang pada umumnya berdasarkan teknik dan metode penilaian yang umumnya diakui sebagai standar industri. Model penilaian terutama digunakan untuk menilai kontrak derivatif yang ditransaksikan melalui pasar *over-the-counter, unlisted debt securities* (termasuk surat utang dengan derivatif melekat) dan instrumen utang lainnya yang pasarnya tidak aktif.

Untuk instrumen keuangan yang tidak mempunyai harga pasar, estimasi atas nilai wajar efek-efek ditetapkan dengan mengacu pada nilai wajar instrumen lain yang substansinya sama atau dihitung berdasarkan arus kas yang diharapkan terhadap aset bersih efek-efek tersebut.

Hasil dari suatu teknik penilaian merupakan sebuah estimasi atau perkiraan dari suatu nilai yang tidak dapat ditentukan dengan pasti, dan teknik penilaian yang digunakan mungkin tidak dapat menggambarkan seluruh faktor yang relevan atas posisi yang dimiliki Grup. Dengan demikian, penilaian disesuaikan dengan faktor tambahan seperti *model risk*, risiko likuiditas dan risiko kredit *counterparty*. Berdasarkan kebijakan teknik penilaian nilai wajar, pengendalian dan prosedur yang diterapkan, manajemen berkeyakinan bahwa penyesuaian atas penilaian tersebut di atas diperlukan dan dianggap tepat untuk menyajikan secara wajar nilai dari instrumen keuangan yang diukur berdasarkan nilai wajar dalam laporan posisi keuangan konsolidasian. Data harga dan parameter yang digunakan di dalam prosedur pengukuran pada umumnya telah ditelaah dan disesuaikan jika diperlukan, khususnya untuk perkembangan atas pasar terkini.

Nilai wajar atas pinjaman yang diberikan dan piutang, serta liabilitas kepada bank dan nasabah ditentukan menggunakan nilai berdasarkan arus kas kontraktual, dengan mempertimbangkan kualitas kredit, likuiditas dan biaya.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

(ix) Fair value measurement (continued)

For more complex instruments, the Group uses internally developed models, which are usually based on valuation methods and techniques generally recognized as standard within the industry. Valuation models are used primarily to value derivatives transacted in the *over-the-counter market, unlisted debt securities* (including those debt with embedded derivatives) and other debt instruments for which markets were or have become inactive.

For financial instruments with no quoted market price, a reasonable estimate of the fair value is determined by reference to the fair value of another instrument which substantially has the same characteristics or calculated based on the expected cash flows of the underlying net asset base of the marketable securities.

The output of a valuation technique is an estimation or approximation of a value that cannot be determined with certainty, and the valuation technique employed may not fully reflect all factors relevant to the positions that the Group holds. Valuations are therefore adjusted, with additional factors such as *model risk, liquidity risk and counterparty credit risk*. Based on the established fair value valuation technique policy, related controls and procedures applied, management believes that these valuation adjustments are necessary and considered appropriate to fairly state the values of financial instruments measured at fair value in the consolidated statement of financial position. Price data and parameters used in the measurement procedures applied are generally reviewed and adjusted, if necessary, particularly in view of the current market developments.

The fair value for loans and receivables as well as liabilities to banks and customers are determined using a present value model on the basis of contractually agreed cash flows, taking into account credit quality, liquidity and costs.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

(ix) Pengukuran nilai wajar (lanjutan)

Semua aset dan liabilitas dimana nilai wajar diukur atau diungkapkan dalam laporan keuangan konsolidasian dapat dikategorikan pada level hirarki nilai wajar, berdasarkan tingkatan sebagai berikut:

- Tingkat 1: Harga kuotasian (tidak disesuaikan) dari pasar aktif untuk aset atau liabilitas yang identik.
- Tingkat 2: Input selain harga yang dikutip dari pasar yang disertakan pada Tingkat 1 yang dapat diobservasi untuk aset dan liabilitas, baik secara langsung (yaitu sebagai suatu harga) atau secara tidak langsung (sebagai turunan dari harga).
- Tingkat 3: Input untuk aset atau liabilitas yang tidak didasarkan pada data pasar yang dapat diobservasi (informasi yang tidak dapat diobservasi).

(x) Cadangan kerugian penurunan nilai atas aset keuangan

- Grup mengakui penyisihan kerugian kredit ekspektasian pada instrumen keuangan yang tidak diukur pada nilai wajar melalui laba rugi.
- Tidak ada penyisihan kerugian kredit ekspektasian pada investasi instrumen ekuitas.
- Grup mengukur cadangan kerugian sejumlah kerugian kredit ekspektasian sepanjang umurnya, kecuali untuk hal berikut, diukur sejumlah kerugian kredit ekspektasian 12 bulan:
 - instrumen utang yang memiliki risiko kredit rendah pada tanggal pelaporan; dan
 - instrumen keuangan lainnya yang risiko kreditnya tidak meningkat secara signifikan sejak pengakuan awal.

Grup menganggap instrumen utang memiliki risiko kredit yang rendah ketika peringkat risiko kreditnya setara dengan definisi *investment grade*.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

(ix) Fair value measurement (continued)

All assets and liabilities which fair value is measured or disclosed in the consolidated financial statements can be classified in fair value hierarchy levels, based on following level:

- Level 1: Quoted price (unadjusted) in active markets for identical assets or liabilities.
- Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (as a price) or indirectly (as derived from price).
- Level 3: Input for asset or liability based on unobservable inputs for the asset or liability.

(x) Allowance for impairment losses on financial assets

- The Group recognizes the allowance for expected credit losses on financial instruments that are not measured at fair value through profit or loss.
- There is no allowance for expected credit losses on investment in equity instruments.
- The Group measure the allowance for losses for the lifetime of an expected credit losses, except for the following, which are measured according to 12 months expected credit losses:
 - debt instruments that have low credit risk at the reporting date; and
 - other financial instruments for which credit risk has not increased significantly since initial recognition.

The Group considers debt instruments to have low credit risk when the credit risk rating is at par with the definition of *investment grade*.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Kerugian kredit ekspektasian 12 bulan adalah bagian dari kerugian kredit ekspektasian sepanjang umurnya yang merepresentasikan kerugian kredit ekspektasian yang timbul dari peristiwa gagal bayar instrumen keuangan yang mungkin terjadi dalam 12 bulan setelah tanggal pelaporan.

Pengukuran Kerugian Kredit Ekspektasian

Kerugian Kredit Ekspektasian adalah estimasi probabilitas tertimbang dari kerugian kredit yang diukur sebagai berikut:

- aset keuangan yang tidak memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sepanjang umur aset yang timbul dari kemungkinan gagal bayar di masa yang akan datang dalam kurun waktu 12 bulan sejak tanggal pelaporan. Kredit ekspektasian terus ditentukan oleh dasar ini sampai timbul peningkatan risiko kredit yang signifikan pada instrumen tersebut atau instrumen tersebut telah mengalami penurunan nilai kredit. Jika suatu instrumen tidak lagi dianggap menunjukkan peningkatan risiko kredit yang signifikan, maka kerugian kredit ekspektasian dihitung kembali berdasarkan basis 12 bulan;
- aset keuangan yang memburuk pada tanggal pelaporan, kerugian kredit ekspektasian diukur sebesar selisih antara jumlah tercatat bruto dan nilai kini arus kas masa depan yang diestimasi;
- komitmen pinjaman yang belum ditarik, kerugian kredit ekspektasian diukur sebesar selisih antara nilai kini jumlah arus kas jika komitmen ditarik dan arus kas yang diperkirakan akan diterima oleh Grup;
- kontrak jaminan keuangan, kerugian kredit ekspektasian diukur sebesar selisih antara pembayaran yang diperkirakan untuk mengganti pemegang atas kerugian kredit yang terjadi dikurangi jumlah yang diperkirakan dapat dipulihkan.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

The 12-month expected credit loss is part of the expected credit loss throughout its lifetime that represents an expected credit loss arising from a default on financial instruments that might occur 12 months after reporting date.

Measurement of Expected Credit Losses

Expected Credit Loss is an estimate of the weighted probability of a credit loss measured as follows:

- financial assets that do not deteriorate at the reporting date, the expected credit loss is measured at the lifetime cash shortfalls arising from possible default events up to 12 months into the future from the reporting date. Expected credit losses continue to be determined on this basis until there is either a significant increase in the credit risk of an instrument or the instrument becomes credit impaired. If an instrument is no longer considered to exhibit a significant increase in credit risk, expected credit losses will revert to being determined on a 12-month basis;
- financial assets that deteriorate at the reporting date, the expected credit loss is measured at the difference between the gross carrying amount and the present value of estimated future cash flows;
- for undisbursed loan commitments, expected credit losses are measured at the difference between the present value of the amount of cash flow if the commitments is withdrawn and the cash flow expected to be received by the Group;
- for financial guarantee contracts, expected credit losses are measured at the difference between the estimated payments to replace the holder for the credit losses incurred less the amount estimated to be recoverable.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Aset Keuangan yang Direstrukturisasi

Jika ketentuan aset keuangan dinegosiasikan ulang atau dimodifikasi atau aset keuangan yang ada diganti dengan yang baru karena kesulitan keuangan peminjam, maka dilakukan penilaian apakah aset keuangan yang ada harus dihentikan pengakuannya dan kerugian kredit ekspektasian diukur sebagai berikut:

- Apabila syarat-syarat tersebut berbeda secara substansial, Grup menghentikan pengakuan aset keuangan awal dan mengakui aset keuangan yang 'baru' pada nilai wajarnya dan menghitung kembali suku bunga efektif yang baru untuk aset tersebut. Tanggal renegotiasi syarat pinjaman dianggap sebagai tanggal pengakuan awal untuk keperluan perhitungan penurunan nilai, termasuk untuk menentukan apakah terdapat kenaikan signifikan risiko kredit. Namun, Grup juga menilai apakah aset keuangan baru dianggap sebagai aset keuangan yang mengalami penurunan nilai pada pengakuan awal, terutama dalam keadaan dimana renegotiasi didorong oleh peminjam yang tidak dapat melakukan pembayaran yang sudah disetujui sebelumnya. Selisih dari nilai tercatat juga diakui pada laporan laba rugi konsolidasian di pembentukan cadangan kerugian penurunan nilai sebagai laba rugi dari penghentian pengakuan aset keuangan. Untuk Grup, bila kerugian berelasi dengan risiko kredit, Grup mengklasifikasikan kerugian ke dalam pembentukan cadangan kerugian penurunan nilai.
- Apabila syarat-syarat tersebut tidak berbeda secara substansial, renegotiasi atau modifikasi tidak menghasilkan penghentian pengakuan, dan Grup menghitung kembali nilai tercatat bruto berdasarkan arus kas yang sudah dimodifikasi dari aset keuangan dan mengakui laba atau rugi modifikasian di laporan laba rugi konsolidasian. Nilai tercatat bruto yang baru dihitung kembali dengan mendiskontokan arus kas yang telah dimodifikasi dengan menggunakan tingkat suku bunga efektif awal.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

Restructured Financial Assets

If the terms of the financial assets are renegotiated or modified or the existing financial assets are replaced with new ones due to the borrower's financial difficulties, an assessment is made whether recognition of existing financial assets must be derecognized and expected credit losses measured as follows:

- If the terms are substantially different, the Group derecognizes the original financial asset and recognizes a 'new' asset at fair value and recalculates a new effective interest rate for the asset. The date of renegotiation is consequently considered to be the date of initial recognition for impairment calculation purposes, including for the purpose of determining whether a significant increase in credit risk has occurred. However, the Group also assesses whether the new financial asset recognized is deemed to be credit-impaired at initial recognition, especially in circumstances where the renegotiation was driven by the debtor being unable to make the originally agreed payments. Differences in the carrying amount are also recognised in the consolidated statement of profit or loss in allowance for impairment losses as a gain or loss on derecognition. For the Group, to the extent that the loss does relate to credit risk, the Group classifies that loss within allowance for impairment losses.
- If the terms are not substantially different, the renegotiation or modification does not result in derecognition, and the Group recalculates the gross carrying amount based on the revised cash flows of the financial asset and recognizes a modification gain or loss in consolidated statements of profit or loss. The new gross carrying amount is recalculated by discounting the modified cash flows at the original effective interest rate.

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Aset Keuangan yang Memburuk

Pada setiap tanggal pelaporan, Grup menilai apakah aset keuangan yang dicatat pada biaya perolehan diamortisasi dan aset keuangan instrumen utang yang dicatat pada nilai wajar melalui penghasilan komprehensif lain mengalami penurunan nilai kredit (memburuk). Aset keuangan memburuk ketika satu atau lebih peristiwa yang memiliki dampak merugikan atas estimasi arus kas masa depan dari aset keuangan telah terjadi.

Bukti bahwa aset keuangan mengalami penurunan nilai kredit (memburuk) termasuk data yang dapat diobservasi mengenai peristiwa berikut ini:

- kesulitan keuangan signifikan yang dialami penerbit atau pihak peminjam;
- pelanggaran kontrak, seperti peristiwa gagal bayar atau peristiwa tunggakan;
- pihak pemberi pinjaman, untuk alasan ekonomi atau kontraktual sehubungan dengan kesulitan keuangan yang dialami pihak peminjam, telah memberikan konsesi pada pihak peminjam yang tidak mungkin diberikan jika pihak peminjam tidak mengalami kesulitan tersebut;
- terjadi kemungkinan bahwa pihak peminjam akan dinyatakan pailit atau melakukan reorganisasi keuangan lainnya;
- hilangnya pasar aktif dari aset keuangan akibat kesulitan keuangan; atau
- pembelian atau penerbitan aset keuangan dengan diskon sangat besar yang mencerminkan kerugian kredit yang terjadi.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

Credit-impaired Financial Assets

At each reporting date, the Group assesses whether the financial assets recorded at amortized cost and the debt instrument financial assets which are recorded at fair value through other comprehensive income are credit-impaired (worsening). Financial assets deteriorate when one or more events that have an adverse effect on the estimated future cash flows of the financial assets have occurred.

Evidence that financial assets become credit impaired including observable data regarding the following events:

- significant financial difficulties experienced by the issuer or the borrower;
- breach of contract, such as a default or arrears;
- the lender, for economic or contractual reasons in relation to the financial difficulties experienced by the borrower, has given concessions to the borrower which is not possible if the borrower does not experience such difficulties;
- it is probable that the borrower will enter bankruptcy or the other financial reorganization;
- loss of an active market for financial assets due to financial difficulties; or
- purchase or issuance of financial asset at significant discount which reflect the credit loss that occurs.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Aset Keuangan yang dibeli atau yang berasal dari aset keuangan memburuk

Aset keuangan dikategorikan sebagai POCI apabila terdapat bukti objektif penurunan nilai pada saat pengakuan awal. Pada saat pengakuan awal, tidak ada penyisihan kerugian kredit yang diakui karena harga pembelian atau nilainya telah termasuk estimasi kerugian kredit sepanjang umurnya. Selanjutnya, setiap perubahan kerugian kredit ekspektasian sepanjang umurnya akan diakui sebagai keuntungan atau kerugian penurunan nilai dalam laporan laba rugi konsolidasian.

Penyajian Penyisihan Kerugian Kredit Ekspektasian Dalam Laporan Posisi Keuangan Konsolidasian

Penyisihan kerugian kredit ekspektasian disajikan dalam laporan posisi keuangan konsolidasian sebagai berikut:

- aset keuangan yang diukur pada biaya perolehan diamortisasi, penyisihan kerugian kredit ekspektasian disajikan sebagai pengurang dari jumlah tercatat bruto aset;
- komitmen pinjaman dan kontrak jaminan keuangan, penyisihan kerugian kredit ekspektasian disajikan sebagai provisi;
- instrumen utang yang diukur pada nilai wajar melalui penghasilan komprehensif lain, penyisihan kerugian kredit ekspektasian tidak diakui dalam laporan posisi keuangan karena jumlah tercatat dari aset-aset ini adalah nilai wajarnya. Namun demikian penyisihan kerugian kredit ekspektasian diungkapkan dan diakui dalam penghasilan komprehensif lain.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

Purchased or originated credit-impaired financial assets - POCI

Financial assets are categorized as POCI if there is objective evidence of impairment at initial recognition. At initial recognition, no allowance for credit losses is recognized because the purchase price or value has included lifetime estimated credit losses. Subsequently, any changes in the lifetime expected credit losses will be recognised as an impairment gain or loss in the consolidated statement of profit or loss.

Presentation of Allowance for Expected Credit Losses in the Statement of Consolidated Financial Position

Allowance for expected credit losses is presented in the statement of consolidated financial positions as follows:

- for financial assets measured at amortized cost, allowance for expected credit losses is presented as a deduction from the gross carrying amount of the asset;
- for loan commitments and financial guarantee contracts, allowance for expected credit losses is presented as a provision;
- for debt instruments measured at fair value through other comprehensive income, allowance for expected credit losses are not recognized in the statement of financial position because the carrying amounts of these assets are at their fair values. However, allowance for expected credit losses is disclosed and recognized in other comprehensive income.

MATERIAL (lanjutan)

c. Aset dan liabilitas keuangan (lanjutan)

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

Perhitungan penurunan nilai secara individual

Bank menetapkan pinjaman yang diberikan yang harus dievaluasi penurunan nilainya secara individual, dengan ketentuan sebagai berikut:

- a. Pinjaman yang diberikan Segmen Korporasi dan Menengah yang memenuhi kriteria:
- Memiliki umur tunggakan lebih dari 90 hari (kolektibilitas 3-5); atau
 - Memiliki *rating default* (*rating* 20-23); atau
 - Memiliki *rating non-investment grade* (*rating* 13-19) dan dilakukan restrukturisasi (kecuali untuk restrukturisasi Covid-19).
- b. Pinjaman yang diberikan Segmen Kecil dan Konsumer yang memiliki maksimum lebih besar atau sama dengan Rp15 miliar (nilai penuh) yang memenuhi kriteria:
- Memiliki umur tunggakan lebih dari 90 hari (kolektibilitas 3-5); atau
 - Dilakukan restrukturisasi (kecuali untuk restrukturisasi Covid-19).

Perhitungan penurunan nilai secara kolektif

Bank menetapkan pinjaman yang diberikan yang harus dievaluasi penurunan nilainya secara kolektif, jika memenuhi salah satu kriteria di bawah ini:

- a. Pinjaman yang diberikan yang secara individual memiliki nilai tidak signifikan; atau
- b. Pinjaman yang diberikan yang direstrukturisasi yang secara individual memiliki nilai tidak signifikan.

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan

Ketika pinjaman yang diberikan tidak tertagih, pinjaman yang diberikan tersebut dihapusbuku dengan menjurnal balik cadangan kerugian penurunan nilai. Pinjaman yang diberikan tersebut dapat dihapus buku setelah semua prosedur yang diperlukan telah dilakukan dan jumlah kerugian telah ditentukan.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

c. *Financial assets and liabilities* (continued)

- (x) *Allowance for impairment losses on financial assets* (continued)

Individual impairment calculation

The Bank determines that loans should be evaluated for impairment through individual evaluation with the following criteria:

- a. *Loans for Corporate and Middle Segment that meet the criteria:*
- *Has overdue age more than 90 days (collectability 3-5); or*
 - *Has a default rating (rating 20-23); or*
 - *Has a non-investment grade rating (rating 13-19) and is undergoing restructuring (except for restructuring Covid-19).*
- b. *Loans for Small and Consumer Segment with the maximum of more than or equal to Rp15 billion (full amount) that meet the criteria:*
- *Has overdue age > 90 days (collectability 3-5); or*
 - *Has been restructured (except for restructuring Covid-19).*

Collective impairment calculation

The Bank determines loans to be evaluated for impairment through collective evaluation if one of the following criteria is met:

- a. *Loans which individually have insignificant value; or*
- b. *Restructured loans which individually have insignificant value.*

Recoveries of written-off financial assets

When a loan is uncollectible, it is written-off against the related allowance for impairment loss. Such loans are written off after all the necessary procedures have been completed and the amount of the loss has been determined.

- (x) Cadangan kerugian penurunan nilai atas aset keuangan (lanjutan)

**Penerimaan kembali atas aset
keuangan yang telah dihapusbukukan
(lanjutan)**

Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun berjalan dikreditkan dengan menyesuaikan akun cadangan kerugian penurunan nilai. Penerimaan kembali atas aset keuangan yang telah dihapusbukukan pada tahun sebelumnya dicatat sebagai pendapatan operasional selain pendapatan bunga.

d. Prinsip konsolidasian

Laporan keuangan konsolidasian meliputi laporan keuangan BNI beserta seluruh Entitas Anak yang berada di bawah pengendalian BNI. Entitas anak adalah seluruh entitas (termasuk entitas terstruktur) dimana Grup memiliki pengendalian.

Dalam hal pengendalian terhadap Entitas Anak dimulai atau diakhiri dalam suatu tahun berjalan, maka hasil usaha Entitas Anak yang diperhitungkan ke dalam laporan keuangan konsolidasian hanya sebatas hasil pada saat pengendalian tersebut mulai diperoleh atau hingga saat pengendalian itu berakhir.

Pengendalian didapat ketika BNI terekspos atau memiliki hak atas imbal hasil variabel dari keterlibatannya dengan Entitas Anak dan memiliki kemampuan untuk mempengaruhi imbal hasil tersebut melalui kekuasaannya atas Entitas Anak.

BNI mengendalikan Entitas Anak, jika dan hanya jika, BNI memiliki hal berikut ini:

- a) kekuasaan atas Entitas Anak (hak yang ada saat ini yang memberi kemampuan kini untuk mengarahkan aktivitas relevan yang secara signifikan mempengaruhi imbal hasil Entitas Anak);
- b) eksposur atau hak atas imbal hasil variabel dari keterlibatannya dengan Entitas Anak; dan
- c) kemampuan untuk menggunakan kekuasaannya atas Entitas Anak untuk mempengaruhi jumlah imbal hasil Entitas Anak.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

c. Financial assets and liabilities (continued)

- (x) Allowance for impairment losses on financial assets (continued)

**Recoveries of written-off financial
assets (continued)**

The recoveries of written-off financial assets in the current year are credited by adjusting the allowance for impairment losses accounts. Recoveries of written-off financial assets from previous years are recorded as operating income other than interest income.

d. Principles of consolidation

The consolidated financial statements include the financial statements of BNI and all its Subsidiaries that are controlled by BNI. Subsidiaries are all entities (including structured entities) over which the Group has control.

Where Subsidiaries either began or ceased to be controlled during the year, the results of operations of those Subsidiaries are included in the consolidated financial statements only from the date that the control has commenced or up to the date that the control has ceased.

Control is acquired when BNI is exposed or has rights to variable returns from its involvement with Subsidiaries and has the ability to affect those returns through its power over Subsidiaries.

BNI controls a Subsidiary if, and only if, BNI has the following:

- a) power over a Subsidiary (existing rights that provide the current ability to direct the relevant activities that significantly affect returns of a Subsidiary);
- b) exposure, or rights to variable returns from its involvement with the Subsidiary; and
- c) the ability to use its power over the Subsidiary to affect the amount of the Subsidiary's returns.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

d. Prinsip konsolidasian (lanjutan)

Bila Grup tidak memiliki hak suara atau hak serupa secara mayoritas atas suatu Entitas Anak, Grup mempertimbangkan semua fakta dan keadaan yang relevan dalam mengevaluasi apakah mereka memiliki kekuasaan atas Entitas Anak, termasuk:

- i) Pengaturan kontraktual dengan pemilik hak suara lainnya dari Entitas Anak,
- ii) Hak yang timbul atas pengaturan kontraktual lain, dan
- iii) Hak suara dan hak suara potensial yang dimiliki Grup.

Grup menilai kembali apakah mereka mengendalikan Entitas Anak bila fakta dan keadaan mengindikasikan adanya perubahan terhadap satu atau lebih dari ketiga elemen dari pengendalian. Konsolidasi atas Entitas Anak dimulai sejak Grup memperoleh pengendalian atas Entitas Anak dan tidak lagi mengkonsolidasikan ketika Grup kehilangan pengendalian atas Entitas Anak. Aset, liabilitas, penghasilan dan beban dari Entitas Anak yang diakuisisi pada tahun tertentu disertakan dalam laporan keuangan konsolidasian sejak tanggal Grup memperoleh kendali sampai tanggal Grup tidak lagi mengendalikan Entitas Anak tersebut.

Kombinasi bisnis dicatat dengan menggunakan metode akuisisi. Imbalan yang diserahkan untuk akuisisi suatu entitas anak adalah sebesar nilai wajar aset yang diserahkan, saham yang diterbitkan atau liabilitas yang diakui pada tanggal akuisisi. Kelebihan jumlah imbalan yang dialihkan dan nilai wajar jumlah kepentingan non-pengendali atas jumlah aset teridentifikasi bersih yang diperoleh dan kewajiban yang timbul dicatat sebagai *goodwill*. Jika jumlah imbalan yang diserahkan lebih rendah dari nilai wajar aset bersih entitas anak yang diakuisisi, selisihnya diakui langsung dalam laporan laba rugi konsolidasian.

Jika akuntansi awal untuk kombinasi bisnis belum selesai pada akhir periode pelaporan saat kombinasi terjadi, Grup melaporkan jumlah sementara untuk pos-pos yang proses akuntansinya belum selesai dalam laporan keuangannya. Selama periode pengukuran, pihak pengakuisisi menyesuaikan, aset atau liabilitas tambahan yang diakui, untuk mencerminkan informasi baru yang diperoleh tentang fakta dan keadaan yang ada pada tanggal akuisisi dan, jika diketahui, akan berdampak pada jumlah yang diakui pada tanggal tersebut.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

d. Principles of consolidation (continued)

When the Group has less than a majority of the voting or similar rights of a Subsidiary, the Group considers all relevant facts and circumstances in assessing whether it has power over a Subsidiary, including:

- i) The contractual arrangement with the other vote holders of the Subsidiary,*
- ii) Rights arising from other contractual arrangements, and*
- iii) The Group's voting rights and potential voting rights.*

The Group re-assesses whether or not it controls a Subsidiary if facts and circumstances indicate that there are changes to one or more of the three elements of control. Consolidation of a Subsidiary begins when the Group obtains control over the Subsidiary and ceases when the Group loses control of the Subsidiary. Assets, liabilities, income and expenses of a Subsidiary acquired during the year are included in the consolidated financial statements from the date the Group obtains the control up to the date of the Group ceases the control the Subsidiary.

The acquisition method is used to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair value of the assets given, shares issued or liabilities incurred at the date of acquisition. The excess of the aggregate of the consideration transferred and the fair value of non-controlling interest over the net identifiable assets acquired and liabilities is recorded as goodwill. If this consideration is lower than the fair value of the net assets of the subsidiary acquired, the difference is recognized directly in the consolidated profit or loss.

If the initial accounting of a business combination is incomplete by the end of the reporting period in which the combination occurs, the Group reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted during the measurement period, or additional assets or liabilities are recognised, to reflect new information obtained about facts and circumstances that existed as of the acquisition date that, if known, would have affected the amount recognised as of that date.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

d. Prinsip konsolidasian (lanjutan)

Untuk setiap akuisisi, Grup mengakui kepentingan non-pengendali pada pihak yang diakuisisi baik sebesar nilai wajar atau sebesar bagian proporsional kepentingan non-pengendali atas aset bersih pihak yang diakuisisi. Kepentingan non-pengendali disajikan di ekuitas dalam laporan posisi keuangan konsolidasian, terpisah dari ekuitas pemilik entitas induk.

Biaya terkait akuisisi dibebankan pada saat terjadinya.

Seluruh saldo dan transaksi termasuk keuntungan/kerugian yang belum direalisasi antara BNI dan Entitas Anak yang signifikan dieliminasi untuk mencerminkan posisi keuangan dan hasil usaha konsolidasian BNI dan Entitas Anak sebagai satu kesatuan usaha.

Laporan keuangan konsolidasian disusun dengan menggunakan kebijakan akuntansi yang sama untuk peristiwa dan transaksi sejenis dalam kondisi yang sama. Apabila laporan keuangan Entitas Anak menggunakan kebijakan akuntansi yang berbeda dari kebijakan akuntansi yang digunakan dalam laporan keuangan konsolidasian, maka dilakukan penyesuaian yang diperlukan terhadap laporan keuangan Entitas Anak tersebut.

Kepentingan non-pengendali disajikan di ekuitas dalam laporan posisi keuangan konsolidasian dan dinyatakan sebesar proporsi pemegang saham non-pengendali atas laba tahun berjalan dan ekuitas Entitas Anak tersebut sesuai dengan persentase kepemilikan pemegang saham non-pengendali pada Entitas Anak tersebut.

Entitas Asosiasi

Entitas asosiasi adalah seluruh entitas dimana Grup memiliki pengaruh signifikan namun bukan pengendalian, biasanya melalui kepemilikan hak suara antara 20% dan 50%. Investasi pada entitas asosiasi dicatat dengan metode ekuitas, setelah pada awalnya diakui pada nilai perolehan dikurangi kerugian penurunan nilai, jika ada.

Investasi pada entitas asosiasi pada awalnya diakui sebesar biaya perolehan. Biaya perolehan diukur berdasarkan nilai wajar aset yang diserahkan, instrumen ekuitas yang diterbitkan atau liabilitas yang timbul atau diambil alih pada tanggal akuisisi, ditambah biaya yang berhubungan langsung dengan akuisisi.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

d. Principles of consolidation (continued)

The Group recognizes any non-controlling interests in the acquiree on an acquisition by acquisition basis, either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets. Non-controlling interests are reported as equity in the consolidated statement of financial position, separate from the owner of the parent's equity.

Acquisition-related costs are expensed as incurred.

All significant balances and transactions, including unrealized gains/losses among BNI and Subsidiaries are eliminated to reflect the consolidated financial position and results of operations of BNI and its Subsidiaries as a single entity.

The consolidated financial statements are prepared using uniform accounting policies for transactions and events in similar circumstances. If the Subsidiaries' financial statements use accounting policies different from those adopted in the consolidated financial statements, appropriate adjustments are made to the Subsidiaries' financial statements.

The non-controlling interest is presented in the equity of the consolidated statement of financial position and represents the non-controlling stockholders' proportionate share in the income for the year and equity of the Subsidiaries based on the percentage of ownership of the non-controlling stockholders in the Subsidiaries.

Associates

Associates are all entities over which the Group has significant influence but not control, generally accompanying a shareholding of between 20% and 50% of the voting rights. Investment in associates are accounted for using the equity method of accounting, after initially being recognised at cost less impairment losses, if any.

Investment in an associate is initially recognised at cost. The cost of an acquisition is measured at the fair value of the assets transferred, equity instruments issued or liabilities incurred or assumed as at the date of acquisition, plus costs directly attributable to the acquisition.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

d. Prinsip konsolidasian (lanjutan)

Entitas Asosiasi (lanjutan)

Goodwill pada akuisisi entitas asosiasi merupakan selisih lebih yang terkait dengan biaya perolehan investasi pada entitas asosiasi dengan bagian Grup atas nilai wajar neto aset teridentifikasi dari entitas asosiasi dan dimasukkan dalam jumlah tercatat investasi.

Dalam menerapkan metode ekuitas, bagian Grup atas laba rugi entitas asosiasi setelah perolehan diakui dalam laba rugi, dan bagian Grup atas penghasilan komprehensif lain setelah tanggal perolehan diakui dalam penghasilan komprehensif lain.

Perubahan dan penerimaan distribusi dari entitas asosiasi setelah tanggal perolehan disesuaikan terhadap nilai tercatat investasi.

Jika bagian Grup atas rugi entitas asosiasi sama dengan atau melebihi kepentingannya pada entitas asosiasi, termasuk piutang tidak lancar tanpa jaminan, maka Grup menghentikan pengakuan bagiannya atas rugi lebih lanjut, kecuali Grup memiliki kewajiban untuk melakukan pembayaran atau telah melakukan pembayaran atas nama entitas asosiasi.

Keuntungan yang belum direalisasi atas transaksi antara Grup dengan entitas asosiasi dieliminasi sebesar bagian Grup dalam entitas asosiasi tersebut. Kerugian yang belum direalisasi juga dieliminasi kecuali transaksi tersebut memberikan bukti penurunan nilai atas aset yang ditransfer. Kebijakan akuntansi entitas asosiasi akan disesuaikan, apabila diperlukan, agar konsisten dengan kebijakan akuntansi Grup.

Dividen yang akan diterima dari entitas asosiasi diakui sebagai pengurang jumlah tercatat investasi.

Pada setiap tanggal pelaporan, Grup menentukan apakah terdapat bukti objektif bahwa telah terjadi penurunan nilai atas investasi pada entitas asosiasi. Jika bukti tersebut ada, maka Grup menghitung besarnya penurunan nilai sebagai selisih antara jumlah yang terpulihkan dan nilai tercatat atas investasi pada entitas asosiasi dan mengakui selisih tersebut pada laba rugi.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

d. Principles of consolidation (continued)

Associates (continued)

Goodwill on acquisition of an associate represents the excess of the cost of acquisition of the associate over the Group's share of the fair value of the identifiable net assets of the associate and is included in the carrying amount of the investment.

In applying the equity method of accounting, the Group's share of its associate's post-acquisition profit or loss is recognised in profit or loss and its share of post-acquisition other comprehensive income is recognised in other comprehensive income.

These post-acquisition movements and distributions received from an associate are adjusted against the carrying amounts of the investment.

When the Group's share of the losses of an associate equals or exceeds its interest in the associate, including any other unsecured non-current receivables, the Group does not recognise further losses, unless it has obligations to make or has made payments on behalf of the associate.

Unrealised gains on transactions between the Group and its associate are eliminated to the extent of the Group's interest in the associate. Unrealised losses are also eliminated unless the transaction provides evidence of impairment of the asset being transferred. The accounting policies of the associate will be changed where necessary to ensure consistency with the accounting policies adopted by the Group.

Dividend receivables from an associate are recognised as reductions in the carrying amounts of the investment.

The Group determines at each reporting date whether there is any objective evidence that the investment in an associate is impaired. If any such evidence exists, the Group calculates the amount of impairment as the difference between the recoverable amount of the associate and its carrying value and recognises the amount in profit or loss.

d. Prinsip konsolidasian (lanjutan)

Entitas Asosiasi (lanjutan)

Jika bagian kepemilikan entitas pada entitas asosiasi atau ventura bersama berkurang, tetapi investasi tetap diklasifikasikan masing-masing sebagai entitas asosiasi atau ventura bersama, maka entitas mereklasifikasi ke laba rugi proporsi keuntungan atau kerugian yang telah diakui sebelumnya dalam penghasilan komprehensif lain yang terkait dengan pengurangan bagian kepemilikan tersebut jika keuntungan atau kerugian tersebut disyaratkan untuk direklasifikasi ke laba rugi atas pelepasan aset atau liabilitas yang terkait.

e. Transaksi dalam mata uang asing dan penjabaran

Transaksi dalam mata uang asing

Pos-pos yang disertakan dalam laporan keuangan setiap entitas anggota Grup diukur menggunakan mata uang yang sesuai dengan lingkungan ekonomi utama di mana entitas beroperasi ("mata uang fungsional").

BNI dan Entitas Anak yang berdomisili di Indonesia menyelenggarakan pembukuannya dalam mata uang Rupiah, kecuali untuk BNI Remittance yang pembukuan akuntansinya dilakukan dalam Dolar Amerika Serikat. Transaksi-transaksi dalam mata uang selain Rupiah yang terjadi di sepanjang tahun dicatat dengan nilai kurs yang berlaku pada saat terjadinya transaksi yang bersangkutan.

Laporan keuangan konsolidasian disajikan dalam Rupiah yang merupakan mata uang fungsional BNI.

Pada tanggal laporan posisi keuangan konsolidasian, aset dan liabilitas moneter dalam mata uang asing dijabarkan ke dalam mata uang Rupiah dengan menggunakan kurs tengah Reuters pada pukul 15:00 WIB. Keuntungan atau kerugian yang timbul sebagai akibat dari penjabaran aset dan liabilitas moneter dalam mata uang asing dicatat dalam laporan laba rugi konsolidasian tahun berjalan.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

d. Principles of consolidation (continued)

Associates (continued)

If an entity's ownership interest in an associate or a joint venture is reduced, but the investment continues to be classified either as an associate or a joint venture respectively, the entity shall reclassify to profit or loss the proportion of the gain or loss that had previously been recognised in other comprehensive income relating to the reduction in ownership interest if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

e. Foreign currency transactions and translations

Transactions denominated in foreign currencies

Items included in the financial statements of each of the Group's entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency").

BNI and its Subsidiaries domiciled in Indonesia maintain their accounting records in Rupiah, except for BNI Remittance in which its accounting records are maintained in United States Dollar. Transactions during the year involving currencies other than Rupiah are recorded at the exchange rates prevailing at the time the transactions were made.

The consolidated financial statements are presented in Rupiah, which is the functional currency of BNI.

At the consolidated statement of financial position date, all monetary assets and liabilities denominated in foreign currencies are translated to Rupiah using the Reuters middle rate at 15:00 Western Indonesian Time (WIB). The resulting gains or losses from the translation of monetary assets and liabilities in foreign currencies are recognized in the consolidated statement of profit or loss for the current year.

penjabaran (lanjutan)**

Penjabaran aset dan liabilitas dalam mata
uang asing (lanjutan)

Pada tanggal 31 Desember 2023 dan 2022, kurs mata uang asing yang digunakan untuk penjabaran mata uang asing terhadap Rupiah adalah sebagai berikut (dalam Rupiah penuh):

	2023	2022
1 Pound Sterling Inggris	19,627	18,786
1 Euro Eropa	17,038	16,582
1 Dolar Amerika Serikat	15,397	15,568
1 Dolar Singapura	11,676	11,593
1 Dolar Australia	10,521	10,558
1 Dolar Hong Kong	1,971	1,997
1 Yen Jepang	109	118

Penjabaran laporan keuangan sehubungan
dengan konsolidasian laporan cabang BNI
yang berkedudukan di luar negeri

Cabang BNI yang berkedudukan di luar negeri menyelenggarakan pembukuannya dalam mata uang negara tempat kedudukannya.

Untuk tujuan konsolidasian, laporan keuangan cabang BNI tersebut dijabarkan ke dalam mata uang Rupiah dengan cara sebagai berikut:

- Saldo akun-akun aset dan liabilitas dijabarkan dengan menggunakan kurs *spot Reuters* jam 15:00 WIB pada tanggal laporan posisi keuangan konsolidasian;
- Saldo akun-akun laba rugi setiap bulannya dijabarkan dengan menggunakan kurs *spot Reuters* jam 15:00 WIB rata-rata untuk bulan yang bersangkutan. Saldo untuk tahun berjalan merupakan jumlah dari penjabaran bulanan tersebut;
- Akun ekuitas dijabarkan dengan menggunakan kurs historis; dan
- Selisih yang timbul sebagai akibat dari penjabaran ini disajikan di laporan posisi keuangan konsolidasian sebagai bagian dari ekuitas pada akun "Selisih Kurs karena Penjabaran Laporan Keuangan dalam Mata Uang Asing".

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

**e. Foreign currency transactions and
translations (continued)**

Translation of assets and liabilities
denominated in foreign currencies (continued)

As of 31 December 2023 and 2022, the foreign currency exchange rates used for translation of foreign currencies to Rupiah are as follows (amounts in full Rupiah):

	2023	2022
1 Pound Sterling Inggris	19,627	18,786
1 Euro Eropa	17,038	16,582
1 Dolar Amerika Serikat	15,397	15,568
1 Dolar Singapura	11,676	11,593
1 Dolar Australia	10,521	10,558
1 Dolar Hong Kong	1,971	1,997
1 Yen Jepang	109	118

Translation of financial statements relating to
consolidation of BNI branches domiciled
outside of Indonesia

BNI's branches domiciled outside of Indonesia maintain their accounting records in their respective domestic currencies.

For consolidation purposes, the financial statements of such branches domiciled outside of Indonesia are translated into Rupiah as follows:

- Assets and liabilities accounts are translated using the *Reuters spot rates* at 15:00 WIB at the consolidated statement of financial position date;
- Revenues and expenses accounts are translated using the average *Reuters spot rate* at 15:00 WIB for the respective month. The balances for the year represent the sum of those monthly translations;
- Equity accounts are recorded using the historical rates; and
- Differences arising from translation are presented in the consolidated statement of financial position balance as part of equity under "Exchange Difference on Translation of Foreign Currency Financial Statements".

MATERIAL** (lanjutan)

f. Giro pada bank lain dan Bank Indonesia

Giro pada bank lain dan Bank Indonesia diklasifikasikan sebagai biaya perolehan yang diamortisasi. Giro pada bank lain dan Bank Indonesia dinyatakan sebesar biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi cadangan kerugian penurunan nilai.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

g. Penempatan pada bank lain dan Bank Indonesia

Penempatan pada bank lain dan Bank Indonesia terdiri dari *Deposit Facility* Bank Indonesia, *Term Deposit*, *call money* dan deposito berjangka.

Penempatan pada bank lain dan Bank Indonesia diklasifikasikan sebagai biaya perolehan yang diamortisasi. Penempatan pada bank lain dinyatakan sebesar biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi cadangan kerugian penurunan nilai.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

h. Efek-efek dan Obligasi Pemerintah

Efek-efek yang dimiliki terdiri dari Sertifikat Bank Indonesia (SBI), Sertifikat Deposito Bank Indonesia, unit penyertaan reksa dana, obligasi, obligasi subordinasi dan instrumen utang lainnya yang diperdagangkan di pasar uang dan pasar modal.

Obligasi Pemerintah terdiri dari Obligasi Rekapitalisasi Pemerintah yang diterbitkan kepada BNI dan bank lainnya berkaitan dengan program rekapitalisasi Pemerintah dan obligasi lainnya yang diterbitkan oleh Pemerintah Indonesia dan negara lainnya yang tidak berkaitan dengan program rekapitalisasi yang diperoleh melalui pasar perdana dan sekunder.

Pada saat pengakuan awal, efek-efek dan Obligasi Pemerintah dicatat sesuai dengan kategorinya yaitu aset keuangan diklasifikasikan pada biaya perolehan yang diamortisasi, nilai wajar melalui penghasilan komprehensif lain atau nilai wajar melalui laba rugi.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES** (continued)

f. Current accounts with other banks and Bank Indonesia

The current accounts with other banks and Bank Indonesia are classified as amortized cost. Current accounts with other banks and Bank Indonesia are stated at amortized cost using the effective interest rate method less allowance for impairment losses.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

g. Placements with other banks and Bank Indonesia

Placements with other banks and Bank Indonesia consist of Bank Indonesia Deposit Facility, Term Deposit, call money and time deposits.

Placements with other banks and Bank Indonesia are classified as amortized cost. Placements with other banks are stated at amortized cost using the effective interest rate method less allowance for impairment losses.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

h. Marketable securities and Government Bonds

Marketable securities consist of Certificates of Bank Indonesia (SBI), Certificates Deposits of Bank Indonesia, mutual fund units, bonds, subordinated bonds and other debt instruments traded in the money market and stock exchanges.

Government Bonds consist of Government Recapitalization Bonds issued to BNI and other banks with respect to the recapitalization program of the Government and other bonds issued by the Government of Indonesia and other countries, that are not related to the recapitalization program, acquired through the primary and secondary markets.

At initial recognition, the marketable securities and Government Bonds are recorded according to their category, i.e., amortized cost, fair value through other comprehensive income or at fair value through profit or loss.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

h. Efek-efek dan Obligasi Pemerintah (lanjutan)

Surat Berharga Syariah adalah surat bukti investasi berdasarkan prinsip syariah yang lazim diperdagangkan di pasar uang syariah dan/atau pasar modal syariah antara lain obligasi syariah (sukuk) dan surat berharga lainnya berdasarkan prinsip syariah.

Pada saat pengakuan awal, Grup mengakui investasi pada sukuk sebagai diukur pada biaya perolehan dan pada nilai wajar melalui penghasilan komprehensif lain sebesar nilai wajar ditambah atau dikurangi biaya transaksi terkait perolehan investasi tersebut. Sedangkan investasi pada Sukuk ijarah dan sukuk mudharabah yang diukur pada nilai wajar melalui laba rugi diakui sebesar nilai wajar.

Grup menentukan klasifikasi investasi pada surat berharga, khususnya sukuk, berdasarkan model usaha yang ditentukan berdasarkan klasifikasi sesuai PSAK 110 (Revisi 2020) tentang "Akuntansi Sukuk" sebagai berikut:

- Surat berharga diukur pada biaya perolehan disajikan sebesar biaya perolehan (termasuk biaya investasi) yang yang disesuaikan dengan premi dan/atau diskonto yang belum diamortisasi. Premi dan diskonto diamortisasi selama periode hingga jatuh tempo.
- Surat berharga diukur pada nilai wajar melalui laba rugi, yang dinyatakan sebesar nilai wajar. Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajarnya disajikan dalam laporan laba rugi periode yang bersangkutan.
- Surat berharga yang diukur pada nilai wajar melalui penghasilan komprehensif lainnya disajikan sebesar nilai wajar. Keuntungan atau kerugian yang belum direalisasi akibat kenaikan atau penurunan nilai wajarnya disajikan dalam penghasilan komprehensif lain. Premi dan diskonto diamortisasi selama periode hingga jatuh tempo.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

h. Marketable securities and Government
Bonds (continued)

Sharia Securities are proof of investment based on sharia principles that are commonly traded in the sharia money market and/or sharia capital markets, including sharia bonds (sukuk) and other securities following sharia principles.

At initial recognition, the Group recognise investments in sukuk are stated at cost and measured at fair value through other comprehensive income at fair value increase/decrease transaction cost related to acquisition investment. Whereas investment in sukuk ijarah and sukuk mudharabah measured at fair value through profit and loss and recognise at fair value.

The Group defines the classification of investment in marketable securities, specifically sukuk, based on business model in accordance with SFAS 110 (Revised 2020) on "Accounting for Sukuk" as follows:

- At cost securities are stated at cost (including transaction costs), adjusted by unamortised premium and/or discount. Premium and discount are amortised over the period until maturity.
- Securities are stated at fair values through profit or loss, and stated at fair value. Unrealized gains or losses from the increase or decrease in fair values are presented in current period profit or loss.
- At fair value through other comprehensive income securities are measured at fair value. Unrealized gains or losses from the increase or decrease in fair value are presented in other comprehensive income. Premium and discount are amortized over the period until maturity.

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

**i. Efek-efek yang dibeli/dijual dengan janji
dijual/dibeli kembali**

Efek-efek yang dibeli dengan janji untuk dijual kembali diklasifikasikan sebagai biaya perolehan yang diamortisasi.

Efek-efek yang dibeli dengan janji untuk dijual kembali disajikan sebagai aset dalam laporan posisi keuangan konsolidasian sebesar jumlah penjualan kembali dikurangi dengan pendapatan bunga yang belum diamortisasi dan cadangan kerugian penurunan nilai. Selisih antara harga beli dan harga jual kembali diperlakukan sebagai pendapatan bunga yang ditangguhkan, dan diakui sebagai pendapatan selama periode sejak efek-efek tersebut dibeli hingga dijual menggunakan suku bunga efektif.

Efek-efek yang dijual dengan janji untuk dibeli kembali diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Efek-efek yang dijual dengan janji untuk dibeli kembali disajikan sebagai liabilitas dalam laporan posisi keuangan konsolidasian sebesar jumlah pembelian kembali, dikurangi dengan bunga dibayar di muka yang belum diamortisasi. Selisih antara harga jual dan harga beli kembali diperlakukan sebagai bunga dibayar di muka dan diakui sebagai beban bunga selama jangka waktu sejak efek-efek tersebut dijual hingga dibeli kembali menggunakan metode suku bunga efektif.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

j. Wesel ekspor dan tagihan lainnya

Wesel ekspor dan tagihan lainnya terdiri atas tagihan dari *Letters of Credit* dan Surat Kredit Berdokumen Dalam Negeri (SKBDN) kepada eksportir.

Wesel ekspor dan tagihan lainnya diklasifikasikan sebagai biaya perolehan yang diamortisasi.

Wesel ekspor dan tagihan lainnya dicatat pada biaya perolehan diamortisasi setelah dikurangi cadangan kerugian penurunan nilai.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

**i. Securities purchased/sold under
agreements to resell/repurchase**

Securities purchased under agreements to resell are classified as amortized cost.

Securities purchased under agreements to resell are presented as assets in the consolidated statement of financial position, at the resale price net of unamortized interest income and allowance for impairment losses. The difference between the purchase price and the resale price is treated as unearned interest income, and recognized as income over the period starting from when those securities are purchased until they are sold using effective interest rate method.

Securities sold under agreements to repurchase are classified as financial liabilities measured at amortized cost.

Securities sold under agreements to repurchase are presented as liabilities in the consolidated statement of financial position, at the repurchase price, net of unamortized prepaid interest. The difference between the selling price and the repurchase price is treated as prepaid interest and recognized as interest expense over the period starting from when those securities are sold until they are repurchased using effective interest rate method.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

j. Bills and other receivables

Bills and other receivables consists of receivables from Letters of Credit and Domestic Documentary Letters of Credit to exporters.

Bills and other receivables are classified as amortized cost.

Bills and other receivables are stated at amortized cost less allowance for impairment losses.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

k. Instrumen keuangan derivatif

Dalam melakukan usaha bisnisnya, BNI melakukan transaksi instrumen keuangan derivatif seperti kontrak berjangka mata uang asing, *swap* mata uang asing, *swap* atas suku bunga, dan transaksi *spot* untuk mengelola eksposur pada risiko pasar seperti risiko mata uang dan risiko tingkat suku bunga.

Instrumen keuangan derivatif diakui di laporan posisi keuangan konsolidasian pada nilai wajar. Setiap kenaikan nilai wajar kontrak derivatif dicatat sebagai aset apabila memiliki nilai wajar positif dan sebagai liabilitas apabila memiliki nilai wajar negatif.

Tagihan dan liabilitas derivatif diklasifikasikan sebagai aset dan liabilitas keuangan yang diukur pada nilai wajar melalui laporan laba rugi.

Keuntungan atau kerugian yang terjadi dari perubahan nilai wajar diakui dalam laporan laba rugi konsolidasian.

Nilai wajar instrumen derivatif ditentukan berdasarkan diskonto arus kas dan model penentu harga atau harga yang diberikan oleh *broker (quoted price)* atas instrumen lainnya yang memiliki karakteristik serupa.

Kontrak berjangka mata uang asing, *swap* mata uang asing dan *cross currency swap* dan tingkat suku bunga *swap* dilakukan untuk tujuan pendanaan dan perdagangan.

l. Pinjaman yang diberikan

Pinjaman yang diberikan

Pinjaman yang diberikan adalah penyediaan uang atau tagihan yang dapat disetarakan dengan itu, berdasarkan persetujuan atau kesepakatan pinjam-meminjam dengan debitur yang mewajibkan debitur untuk melunasi utang dan bunganya setelah jangka waktu tertentu, dan tagihan yang berasal dari fasilitas *trade finance* yang telah jatuh tempo yang belum diselesaikan dalam waktu 15 hari.

Pinjaman yang diberikan diklasifikasikan sebagai biaya perolehan yang diamortisasi.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

k. Derivative financial instruments

In the normal course of its business, BNI enters into transactions involving derivative financial instruments such as foreign currency forward contracts, foreign currency swaps, interest rate swaps, and spot transactions to manage exposures on market risks, such as currency risk and interest rate risks.

Derivative financial instruments are recognized in the consolidated statement of financial position at fair value. Each increase in fair value derivative contract is carried as asset when the fair value is positive and as liability when the fair value is negative.

Derivative receivable and payable are classified as financial assets and liabilities at fair value through profit or loss.

Gains or losses resulting from fair value changes are recognized in the consolidated statement of profit or loss.

The fair value of derivative instruments is determined based on discounted cash flows and pricing models or quoted prices from brokers of other instruments with similar characteristics.

Foreign currency forward contracts, foreign currency swaps, and cross currency and interest rate swaps are for funding and trading purposes.

l. Loans

Loans

Loans represent funds provided or receivables that can be considered as equivalents thereof, based on agreements or financing contracts with borrowers, where borrowers are required to repay their debts with interest after a specified period, and matured trade finance facilities which have not been settled within 15 days.

Loans are classified as amortized cost.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL** (lanjutan)

l. Pinjaman yang diberikan (lanjutan)

Pinjaman yang diberikan pada awalnya diukur pada nilai wajar ditambah dengan biaya transaksi yang dapat diatribusikan secara langsung untuk memperoleh aset keuangan tersebut, dan setelah pengakuan awal diukur pada biaya perolehan diamortisasi menggunakan metode suku bunga efektif dikurangi dengan cadangan kerugian penurunan nilai.

Pinjaman sindikasi dan pinjaman penerusan dicatat sesuai dengan porsi pinjaman yang risikonya ditanggung oleh Grup.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

m. Kontrak jaminan keuangan

Kontrak jaminan keuangan adalah kontrak yang mengharuskan penerbit untuk melakukan pembayaran yang ditetapkan untuk mengganti uang pemegang kontrak atas kerugian yang terjadi karena debitur tertentu gagal untuk melakukan pembayaran pada saat jatuh tempo, sesuai dengan ketentuan dari instrumen hutang. Jaminan keuangan tersebut diberikan kepada bank-bank, lembaga keuangan dan badan-badan lainnya atas nama debitur untuk menjamin kredit dan fasilitas-fasilitas perbankan lainnya.

Jaminan keuangan diakui awalnya sebesar nilai wajar pada tanggal jaminan diberikan. Nilai wajar dari jaminan keuangan pada saat dimulainya transaksi pada umumnya sama dengan provisi yang diterima untuk jaminan diberikan dengan syarat dan kondisi normal. Pendapatan provisi yang diperoleh diamortisasi selama jangka waktu jaminan menggunakan metode garis lurus.

Setelah pengakuan awal kontrak, jaminan keuangan dicatat pada nilai yang lebih tinggi antara nilai wajar amortisasi dengan nilai kerugian kredit ekspektasian sesuai PSAK 71 "Instrumen Keuangan".

Cadangan kerugian penurunan nilai atas kontrak jaminan keuangan yang memiliki risiko kredit dihitung berdasarkan model kerugian ekspektasian.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES** (continued)

l. Loans (continued)

Loans are initially measured at fair value plus transaction costs that are directly attributable obtain financial assets, and after initial recognition are measured at amortized cost based on the effective interest rate method less allowance for impairment losses.

Syndicated loans and two step loans are recorded according to the proportion of risks borne by the Group.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

m. Financial guarantee contracts

Financial guarantee contracts are contracts that require the issuer to make specified payments to reimburse the holder for a loss incurred because a specified debtor defaulted to make payments when due, in accordance with the terms of a debt instrument. Such financial guarantees are given to banks, financial institutions and other institutions on behalf of customers to secure loans and other banking facilities.

Financial guarantees are initially recognized at fair value on the date the guarantee was given. The fair value of a financial guarantee at inception is likely to equal the premium received because all guarantees are agreed on arm's length terms. The fee income earned is amortized over the period of guarantees using the straight line method.

After initial recognition of the contract, the financial guarantee is recorded at the higher of the amortized fair value and the expected credit loss value in accordance with SFAS 71 "Financial Instrument".

Allowances for impairment on financial guarantee contracts with credit risk are calculated based on expected credit losses model.

MATERIAL (lanjutan)

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

n. Tagihan dan liabilitas akseptasi

Tagihan akseptasi diklasifikasikan sebagai aset keuangan dalam kelompok biaya perolehan diamortisasi. Liabilitas akseptasi diklasifikasikan sebagai liabilitas keuangan yang diukur dengan biaya perolehan diamortisasi.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

o. Penyertaan saham

Penyertaan saham merupakan penanaman dana dalam bentuk saham pada perusahaan non-publik yang bergerak di bidang jasa keuangan untuk tujuan jangka panjang.

Investasi dengan persentase kepemilikan di bawah 20% dan tidak memiliki pengaruh signifikan yang diklasifikasikan sebagai aset keuangan yang dimiliki untuk dijual dicatat pada nilai wajar melalui laba rugi.

Investasi dengan persentase kepemilikan di bawah 20% dan tidak memiliki pengaruh signifikan yang diklasifikasikan sebagai aset keuangan yang dimiliki tidak untuk dijual dicatat pada nilai wajar melalui penghasilan komprehensif lain.

Penyertaan sementara pada perusahaan debitur timbul akibat konversi pinjaman yang diberikan menjadi saham. Pada saat pengakuan awal, saham yang diterima diakui dengan nilai wajar. Selanjutnya, saham tersebut dinilai dengan menggunakan metode ekuitas apabila BNI memiliki pengaruh signifikan terhadap *investees* dan diklasifikasikan sebagai aset keuangan apabila BNI tidak memiliki pengaruh signifikan terhadap *investees*.

p. Aset tetap, aset hak-guna, liabilitas sewa dan aset takberwujud

Aset tetap

Grup menerapkan kebijakan akuntansi model revaluasi untuk aset tetap berupa tanah dan bangunan. Untuk aset tetap selain tanah dan bangunan menggunakan model biaya.

n. Acceptance receivables and payables

Acceptance receivables are classified as financial assets measured at amortized cost. Acceptance liabilities are classified financial liabilities measured at amortized cost.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

o. Equity investments

Equity investments represent investments in the form of shares of stock, in non-public companies engaged in financial services held for long-term purposes.

Investments with an ownership interest below 20% and have no significant influence classified as financial asset which held for sale is measured at fair value through profit or loss.

Investments with an ownership interest below 20% and have no significant influence classified as financial asset which are not held for sale are measured at fair value through other comprehensive income.

Temporary investments in debtor companies arise from conversion of loans to shares/equity. At initial recognition, shares received were recognized at fair value. Subsequently, the shares were recognized using equity method if BNI has significant influence over the investees or classified as financial asset if BNI does not have significant influence over the investees.

p. Fixed assets, right-of-use assets, lease liabilities and intangible assets

Fixed assets

Group applies revaluation model as accounting policy for land and buildings. For fixed assets other than land and buildings, it applies cost model.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

p. Aset tetap, aset hak-guna, liabilitas sewa
dan aset takberwujud (lanjutan)

Aset tetap (lanjutan)

Tanah dan bangunan disajikan sebesar nilai wajar, dikurangi akumulasi penyusutan untuk bangunan. Penilaian terhadap tanah dan bangunan dilakukan oleh penilai independen eksternal yang telah memiliki sertifikasi. Penilaian atas aset tersebut dilakukan secara berkala untuk memastikan bahwa nilai wajar aset yang direvaluasi tidak berbeda secara material dengan nilai tercatatnya. Nilai tercatat bruto disesuaikan dengan cara yang konsisten dengan nilai tercatat revaluasi aset. Sebagai contoh, nilai tercatat bruto dapat direvaluasi dengan mengacu pada data pasar yang dapat diobservasi atau dapat direvaluasi secara proporsional dengan perubahan nilai tercatat. Akumulasi penyusutan pada tanggal revaluasi disesuaikan dengan selisih antara nilai tercatat bruto dan nilai tercatat aset setelah memperhitungkan akumulasi kerugian penurunan nilai.

Jika nilai wajar dari aset yang direvaluasi mengalami perubahan yang signifikan, maka perlu direvaluasi secara tahunan, sedangkan jika nilai wajar dari aset yang direvaluasi tidak mengalami perubahan yang signifikan, maka perlu dilakukan revaluasi paling kurang 3 tahun sekali.

Kenaikan nilai tercatat yang timbul dari revaluasi tanah dan bangunan dicatat sebagai "Cadangan Revaluasi Aset" dan disajikan sebagai "Penghasilan Komprehensif Lain". Penurunan nilai tercatat yang timbul dari revaluasi dicatat sebagai beban pada tahun berjalan. Apabila aset tersebut memiliki saldo "Keuntungan Revaluasi Aset Tetap" yang disajikan sebagai "Penghasilan Komprehensif Lain", maka selisih penurunan nilai tercatat tersebut dibebankan terhadap "Keuntungan Revaluasi Aset Tetap" dan sisanya diakui sebagai beban tahun berjalan.

Aset tetap selain tanah dan bangunan disajikan sebesar harga perolehan dikurangi dengan akumulasi penyusutan.

Biaya perolehan termasuk biaya penggantian bagian aset tetap saat biaya tersebut terjadi, jika memenuhi kriteria pengakuan.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

p. Fixed assets, right-of-use assets, lease
liabilities and intangible assets (continued)

Fixed assets (continued)

Land and buildings are shown at fair value, less subsequent depreciation for buildings. Valuation of land and buildings are performed by external independent valuers with certain qualification. Valuations are performed with sufficient regularity to ensure that the fair value of a revalued asset does not differ materially from its carrying amount. The gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset. For example, the gross carrying amount may be revalued by reference to observable market data or it may be revalued proportionately to the change in the carrying amount. The accumulated depreciation at the date of the revaluation is adjusted to equal the difference between the gross carrying amount and the carrying amount of the assets after taking into account accumulated impairment losses.

If the fair value of the revalued asset change significantly, it is necessary to revalue on an annual basis, whereas if the fair value of the revalued asset does not change significantly, it is necessary to revalue at a minimum every 3 years.

Increases in the carrying amount arising on revaluation of land and building is recorded in "Asset Revaluation Reserve" and presented as "Other Comprehensive Income". Decreases in carrying amount as the result of revaluation is recorded as expense in the current year. If the asset has a balance on its "Gain on Revaluation of Fixed Assets", loss from revaluation of fixed asset is charged to "Gain on Revaluation of Fixed Assets" which is presented as "Other Comprehensive Income" and the rest of the amount is charged to current year's expenses.

Fixed assets besides land and buildings are stated at historical cost less accumulated depreciation.

Cost includes the replacement cost of a part of the fixed assets when the expenditure meets the criteria for recognition.

FINANCIAL STATEMENTS
31 DECEMBER 2023 AND 2022**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

**p. Aset tetap, aset hak-guna, liabilitas sewa
dan aset takberwujud (lanjutan)**

Aset tetap (lanjutan)

Semua biaya pemeliharaan dan perbaikan yang tidak memenuhi kriteria untuk dikapitalisasi diakui dalam laporan laba rugi pada saat terjadinya. Pada setiap akhir tahun buku, nilai residu, umur manfaat, dan metode penyusutan ditelaah kembali dan jika sesuai dengan keadaan, disesuaikan secara prospektif.

Semua aset tetap kecuali tanah, disusutkan berdasarkan metode garis lurus selama estimasi masa manfaat aset tersebut sebagai berikut:

	<u>Tarif Penyusutan/ Depreciation Rate</u>
Bangunan	6.67%
Perlengkapan kantor dan kendaraan bermotor	20.00%

Perlengkapan kantor terdiri dari perabotan dan perlengkapan, instalasi, Anjungan Tunai Mandiri (ATM), perangkat lunak dan perangkat keras komputer, peralatan komunikasi dan peralatan kantor lainnya.

Grup menganalisa fakta dan keadaan untuk masing-masing jenis hak atas tanah dalam menentukan akuntansi untuk masing-masing hak atas tanah tersebut sehingga dapat merepresentasikan dengan tepat suatu kejadian atau transaksi ekonomi yang mendasarinya. Jika hak atas tanah tersebut tidak mengalihkan pengendalian atas aset pendasar kepada Grup, melainkan mengalihkan hak untuk menggunakan aset pendasar, Grup menerapkan perlakuan akuntansi atas transaksi tersebut sebagai sewa berdasarkan PSAK 73 "Sewa", kecuali jika hak atas tanah secara substansi menyerupai pembelian tanah, maka Grup menerapkan PSAK 16 "Aset tetap".

Apabila nilai tercatat aset lebih besar dari nilai yang dapat diperoleh kembali, nilai tercatat aset diturunkan menjadi sebesar nilai yang dapat diperoleh kembali, yang ditentukan sebagai nilai tertinggi antara harga jual neto dan nilai yang dipakai.

Apabila aset tetap tidak digunakan lagi atau dijual, maka nilai perolehan dan akumulasi penyusutannya dihapuskan dari akun tersebut. Keuntungan atau kerugian yang terjadi diakui dalam laporan laba rugi.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

p. Fixed assets, right-of-use assets, lease liabilities and intangible assets (continued)

Fixed assets (continued)

All maintenance and repair costs which do not fulfill the capitalization criteria, are recognized in profit or loss upon occurrence. At each financial year end, the assets' residual values, useful lives and methods of depreciation are reviewed, and adjusted prospectively as appropriate.

All fixed assets, except land, are depreciated using the straight-line method over their expected useful lives as follows:

	<u>Tahun/Years</u>	
Bangunan	15	Buildings
Perlengkapan kantor dan kendaraan bermotor	5	Office equipment and motor vehicles

Office equipment consists of furniture and fixtures, installation, Automatic Teller Machines (ATM), computer software and hardware, communication and other office equipment.

The Group analyses the facts and circumstances for each type of landrights in determining the accounting for each of these land rights so that it can accurately represent an underlying economic event or transaction. If the landrights do not transfer control of the underlying assets to the Group, but gives the rights to use the underlying assets, the Group applies the accounting treatment of these transactions as leases under SFAS 73 "Leases", except if landrights substantially similar to land purchases, the Group applies SFAS 16 "Property, plant and equipment".

When the carrying amount of an asset is greater than its estimated recoverable amount, it is written down to its recoverable amount, which is determined as the higher of the net selling price or value in use.

When fixed assets are retired or disposed of, their costs and the related accumulated depreciation are derecognized from the accounts. Any resulting gain or loss is recognized in profit or loss.

p. Aset tetap, aset hak-guna, liabilitas sewa
dan aset takberwujud (lanjutan)

Aset tetap (lanjutan)

Akumulasi biaya konstruksi aset tetap dikapitalisasi dan dicatat sebagai "Aset dalam Penyelesaian". Biaya tersebut direklasifikasi ke akun aset tetap yang terkait pada saat proses konstruksi atau pemasangan telah selesai.

Aset hak-guna dan liabilitas sewa

Pada tanggal permulaan kontrak, Grup menilai apakah kontrak merupakan atau mengandung sewa. Suatu kontrak merupakan atau mengandung sewa jika kontrak tersebut memberikan hak untuk mengendalikan penggunaan aset identifikasian selama suatu jangka waktu untuk dipertukarkan dengan imbalan. Grup dapat memilih untuk tidak mengakui aset hak guna dan liabilitas sewa untuk:

- Sewa dengan jangka waktu kurang atau sama dengan 12 bulan dan tidak terdapat opsi beli;
- Sewa atas aset dengan nilai rendah.

Untuk menilai apakah kontrak memberikan hak untuk mengendalikan penggunaan aset identifikasian, Grup harus menilai apakah:

- Grup memiliki hak untuk mendapatkan secara substansial seluruh manfaat ekonomi dari penggunaan aset identifikasian; dan
- Grup memiliki hak untuk mengarahkan penggunaan aset identifikasian. Grup memiliki hak ini ketika Grup memiliki hak untuk pengambilan keputusan yang relevan tentang bagaimana dan untuk tujuan apa aset digunakan telah ditentukan sebelumnya:
 1. Grup memiliki hak untuk mengoperasikan aset; dan
 2. Grup telah mendesain aset dengan cara menetapkan sebelumnya bagaimana dan untuk tujuan apa aset akan digunakan selama periode penggunaan.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

p. Fixed assets, right-of-use assets, lease
liabilities and intangible assets (continued)

Fixed assets (continued)

The accumulated costs of construction of fixed assets are capitalized and recognized as "Construction in progress". These costs are reclassified to the related fixed asset account when the construction or installation is completed.

Right-of-use assets and lease liabilities

At the inception of a contract, the Group assesses whether the contract is or contains a lease. A contract is or contains a lease if the contract conveys the right to control the use of an identified assets for a period of time in exchange for consideration. The Group can choose not to recognise the right-of-use assets and lease liabilities for:

- Leases with a term of less or equal to 12 months and there is no call option;
- Leases of low value assets.

To assess whether a contract conveys the right to control the use of an identified asset, the Group shall assess whether:

- The Group has the right to obtain substantially all the economic benefit from use of the asset throughout the period of use; and
- The Group has the right to direct the use of the asset. The Group has described when it has a decision-making right that are the most relevant to changing how and for what purpose the asset is used are predetermined:
 1. The Group has the right to operate the asset; and
 2. The Group has designed the asset in a way that predetermine how and for what purposes it will be used.

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

**p. Aset tetap, aset hak-guna, liabilitas sewa
dan aset takberwujud (lanjutan)**

Aset hak-guna dan liabilitas sewa (lanjutan)

Pada tanggal permulaan sewa, Grup mengakui aset hak-guna dan liabilitas sewa. Aset hak-guna diukur pada biaya perolehan, dimana meliputi jumlah pengukuran awal liabilitas sewa yang disesuaikan dengan pembayaran sewa yang dilakukan pada atau sebelum tanggal permulaan, ditambah dengan biaya langsung awal yang dikeluarkan. Aset hak-guna diamortisasi dengan menggunakan metode garis lurus sepanjang jangka waktu sewa.

Liabilitas sewa diukur pada nilai kini pembayaran sewa yang belum dibayar pada tanggal permulaan, didiskontokan dengan menggunakan suku bunga implisit dalam sewa atau jika suku bunga tersebut tidak dapat ditentukan, maka menggunakan suku bunga pinjaman inkremental. Pada umumnya, Grup menggunakan suku bunga pinjaman inkremental sebagai tingkat bunga diskonto.

Pembayaran sewa dialokasikan menjadi bagian pokok dan biaya keuangan. Biaya keuangan dibebankan pada laba rugi selama periode sewa sehingga menghasilkan tingkat suku bunga periodik yang konstan atas saldo liabilitas untuk setiap periode.

Jika sewa mengalihkan kepemilikan aset pendasar kepada Grup pada akhir masa sewa atau jika biaya perolehan aset hak guna merefleksikan Grup akan mengeksekusi opsi beli, maka Grup menyusutkan aset hak-guna dari tanggal permulaan hingga akhir umur manfaat aset pendasar. Jika tidak, maka Grup menyusutkan aset hak-guna dari tanggal permulaan hingga tanggal yang lebih awal antara akhir umur manfaat aset hak-guna atau akhir masa sewa.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

**p. Fixed assets, right-of-use assets, lease
liabilities and intangible assets (continued)**

**Right-of-use assets and lease liabilities
(continued)**

The Group recognises a right-of-use assets and a leases liability at the leases commencement date. The right-of-use assets is initially measured at cost, which comprises the initial amount of the leases liability adjusted for any leases payment made at or before the commencement date, plus any initial direct cost incurred. The right-of-use assets is amortized over the straight-line method throughout the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date, discounted using the interest rate implicit in the lease or, if that right cannot be readily determined, using incremental borrowing rate. Generally, the Group uses its incremental borrowing rate as a discount rate.

Each leases payment is allocated between the liability and finance cost. The finance cost is charged to profit or loss over the leases period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

If the leases transfers ownership of the underlying asset to the Group by the end of the leases term or if the cost of the right-of-use assets reflects that the Group will exercise a purchase option, the Group depreciates the right-of-use asset from the commencement date to the end of the useful life of the underlying asset. Otherwise, the Group depreciates the right-of-use assets from the commencement date to the earlier of the end of the useful life of the right-of-use assets or the end of the leases term.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

p. Aset tetap, aset hak-guna, liabilitas sewa
dan aset takberwujud (lanjutan)

Modifikasi sewa

Grup mencatat modifikasi sewa sebagai sewa terpisah jika:

- Modifikasi meningkatkan ruang lingkup sewa dengan menambahkan hak untuk menggunakan satu aset pendasar atau lebih;
- Imbalan sewa meningkat sebesar jumlah yang setara dengan harga tersendiri untuk peningkatan dalam ruang lingkup dan penyesuaian yang tepat pada harga tersendiri tersebut untuk merefleksikan kondisi kontrak tertentu.

Aset takberwujud

Aset takberwujud diakui jika, dan hanya jika, biaya perolehan aset tersebut dapat diukur secara andal dan kemungkinan besar Bank dan Entitas Anak akan memperoleh manfaat ekonomis masa depan dari aset tersebut. Aset takberwujud terdiri dari *goodwill*, hubungan pelanggan dan merek dagang yang diperoleh pada saat akuisisi.

Lihat Catatan 2d untuk kebijakan akuntansi terkait *goodwill*.

q. Agunan yang diambil alih

Agunan yang diambil alih disajikan dalam akun "Aset Lain-lain".

Agunan yang diambil alih (AYDA) adalah aset yang diperoleh BNI dan Entitas Anak, baik melalui pelelangan maupun diluar pelelangan berdasarkan penyerahan maupun secara sukarela oleh pemilik agunan atau berdasarkan kuasa untuk menjual diluar lelang dari pemilik agunan dalam hal debitur tidak memenuhi liabilitasnya kepada BNI dan Entitas Anak. AYDA merupakan jaminan kredit yang diberikan yang telah diambil alih sebagai bagian dari penyelesaian kredit yang diberikan dan disajikan pada "Aset Lain-lain".

Agunan yang diambil alih diakui sebesar nilai neto yang dapat direalisasi atau sebesar nilai *outstanding* kredit yang diberikan, mana yang lebih rendah. Nilai neto yang dapat direalisasi adalah nilai wajar agunan yang diambil alih dikurangi dengan estimasi biaya untuk menjual agunan tersebut. Selisih lebih saldo kredit di atas nilai neto yang dapat direalisasi dari agunan yang diambil alih dibebankan ke dalam akun cadangan kerugian penurunan nilai aset. Selisih antara nilai agunan yang diambil alih dengan hasil penjualan diakui sebagai keuntungan atau kerugian pada saat penjualan.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

p. Fixed assets, right-of-use assets, lease
liabilities and intangible assets (continued)

Lease modification

The Group account for a lease modification as a separate lease if both:

- The modification increases the scope of the lease by adding the right to use one or more underlying assets;
- The consideration for the lease increases by an amount commensurate with the stand-alone price for the increase in scope and any appropriate adjustments to that stand-alone price to reflect the circumstances of the particular contract.

Intangible Assets

Intangible assets are recognized if, and only if the cost of the asset can be measured reliably and it is probable that the Bank and Subsidiaries will obtain future economic benefits from the asset. Intangible assets consist of *goodwill*, customer relationships and trademarks acquired by the Bank and Subsidiaries when acquisition.

Refer to Note 2d for the accounting policies of *goodwill*.

q. Foreclosed collaterals

Foreclosed collaterals are included in the "Other Assets" account.

Foreclosed collaterals represent assets acquired by BNI and Subsidiaries, both from auction and non auction based on voluntary transfer by the debtor or based on debtor's approval to sell the collateral where the debtor could not fulfill their obligations to BNI and Subsidiaries. Foreclosed collaterals represent loan collateral that were taken over as part of loans settlement and presented in "Other Assets".

Foreclosed collaterals are stated at net realizable value or stated at loan outstanding amount, whichever is lower. Net realizable value is the fair value of the foreclosed collaterals less the estimated costs to sell the assets. The excess of loan receivable over the net realizable value of the foreclosed collateral is charged to allowance for impairment losses. The difference between the recorded amount of the foreclosed collateral and the proceeds from the sale of such collateral is recorded as a gain or loss at the time of sale.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL** (lanjutan)

q. Agunan yang diambil alih (lanjutan)

Beban-beban yang berkaitan dengan pemeliharaan agunan yang diambil alih dibebankan dalam laporan laba rugi pada saat terjadinya.

Bila terjadi penurunan nilai yang bersifat permanen, maka nilai tercatatnya dikurangi untuk mengakui penurunan tersebut dan kerugiannya dibebankan dalam laporan laba rugi.

r. Liabilitas segera

Liabilitas segera dicatat pada saat liabilitas kepada masyarakat maupun kepada bank lain timbul.

Akun ini diklasifikasikan sebagai liabilitas keuangan lain dan dihitung berdasarkan biaya perolehan diamortisasi.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

s. Simpanan nasabah

Tabungan merupakan simpanan nasabah di BNI dan Entitas Anak yang bergerak di bidang perbankan yang penarikannya hanya dapat dilakukan melalui *counter* dan Anjungan Tunai Mandiri (ATM) atau dengan cara pemindahbukuan melalui *SMS Banking, Phone Banking, Mobile Banking* dan *Internet Banking* jika memenuhi persyaratan yang disepakati, tetapi penarikan tidak dapat dilaksanakan dengan menggunakan cek atau instrumen setara lainnya.

Deposito berjangka merupakan simpanan nasabah di BNI dan Entitas Anak yang bergerak di bidang perbankan yang penarikannya hanya dapat dilakukan pada waktu tertentu sesuai dengan perjanjian antara nasabah dengan BNI dan Entitas Anak yang bergerak di bidang perbankan.

Simpanan nasabah diklasifikasikan sebagai liabilitas keuangan lain yang diukur dengan biaya perolehan diamortisasi menggunakan metode suku bunga efektif. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan nasabah dikurangkan dari jumlah simpanan yang diterima.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES** (continued)

q. Foreclosed collaterals (continued)

Maintenance and repair costs related to foreclosed collaterals are charged as an expense in profit or loss when incurred.

If there is permanent decline in value, the carrying amount of foreclosed collaterals is written down to recognize such permanent decline in value and any losses from such write-down is recognized in profit or loss.

r. Obligations due immediately

Obligations due immediately are recorded at the time obligations to public customers or other banks arise.

This account is classified as other financial liabilities and is measured at amortized cost.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

s. Deposits from customers

Savings account represent deposits of customers in BNI and a Subsidiary engaged in banking that may only be withdrawn over the counter and via ATMs or funds transfers by SMS Banking, Phone Banking, Mobile Banking and Internet Banking when certain agreed conditions are met, but which may not be withdrawn by cheque or other equivalent instruments.

Time deposits represent customer's deposits in BNI and a Subsidiary engaged in banking that may be withdrawn at a certain time based on the agreement between the depositor and BNI and a Subsidiary engaged in banking.

Deposits from customers are classified as other financial liabilities which are measured at amortized cost using effective interest rate method. Incremental costs directly attributable to the acquisition of deposits from customers are deducted from the amount of deposits.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

t. Simpanan dari bank lain

Simpanan dari bank lain terdiri dari liabilitas terhadap bank lain baik lokal maupun luar negeri, dalam bentuk giro, *inter-bank call money* dengan periode jatuh tempo menurut perjanjian kurang dari atau 90 hari, deposito berjangka dan sertifikat deposito.

Simpanan dari bank lain diklasifikasikan sebagai liabilitas keuangan lain yang diukur dengan biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya tambahan yang dapat diatribusikan secara langsung dengan perolehan simpanan dari bank lain dikurangkan dari jumlah simpanan yang diterima.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

u. Efek-efek yang diterbitkan

Efek-efek yang diterbitkan terdiri dari obligasi yang diterbitkan oleh Grup.

Efek-efek yang diterbitkan diklasifikasikan sebagai liabilitas keuangan lain yang diukur dengan biaya perolehan diamortisasi. Biaya tambahan yang dapat diatribusikan secara langsung dengan penerbitan efek dikurangkan dari jumlah efek-efek yang diterbitkan.

Obligasi yang diterbitkan dicatat sebesar nilai nominal dikurangi saldo diskonto yang belum diamortisasi. Biaya-biaya yang terjadi sehubungan dengan penerbitan obligasi dicatat sebagai pengurang hasil emisi dan diamortisasi selama jangka waktu obligasi dengan menggunakan metode suku bunga efektif.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

v. Pinjaman yang diterima

Pinjaman diterima merupakan dana yang diterima dari bank lain, Bank Indonesia atau pihak lain dengan liabilitas pembayaran kembali sesuai dengan persyaratan perjanjian pinjaman.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

t. Deposits from other banks

Deposits from other banks represent liabilities to local and overseas banks, in the form of current accounts, inter-bank call money with original maturities of 90 days or less, time deposits and certificates of deposits.

Deposits from other banks are classified as other financial liabilities which are measured at amortized cost using effective interest rate method. Incremental costs directly attributable to the acquisition of deposits from other banks are deducted from the amount of deposits.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

u. Securities issued

Securities issued consist of bonds issued by the Group.

Securities issued are classified as other financial liabilities which are measured at amortized cost. Incremental costs directly attributable to the issuance of marketable securities are deducted from the amount of securities issued.

Bonds issued are presented at nominal value net of unamortized discount. Costs incurred related to the bond issuance are presented as deduction from the proceeds of bonds issued and amortized over the term of the bonds using the effective interest rate method.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

v. Borrowings

Borrowings are funds received from other bank, Bank Indonesia or other parties with payment obligation based on borrowings agreement.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL** (lanjutan)

v. Pinjaman yang diterima (lanjutan)

Pinjaman diterima diakui sebesar nilai wajar pada awalnya dan selanjutnya diukur sebesar biaya perolehan diamortisasi dengan menggunakan metode suku bunga efektif. Biaya perolehan diamortisasi dihitung dengan memperhitungkan adanya diskonto atau premi terkait dengan pengakuan awal pinjaman diterima dan biaya transaksi merupakan bagian tidak terpisahkan dari metode suku bunga efektif.

Lihat Catatan 2c untuk kebijakan akuntansi atas aset dan liabilitas keuangan.

w. Pendapatan bunga dan beban bunga

Pendapatan dan beban bunga untuk semua instrumen keuangan yang dikenakan suku bunga diakui pada laporan laba rugi dengan menggunakan metode suku bunga efektif.

Suku bunga efektif adalah suku bunga yang secara tepat mendiskontokan estimasi pembayaran atau penerimaan kas di masa datang selama perkiraan umur dari aset keuangan atau liabilitas keuangan (atau, jika lebih tepat, digunakan periode yang lebih singkat) untuk memperoleh nilai tercatat bersih dari instrumen keuangan atau liabilitas keuangan. Pada saat menghitung suku bunga efektif, Grup mengestimasi arus kas di masa datang dengan mempertimbangkan seluruh persyaratan kontraktual dalam instrumen keuangan tersebut, tetapi tidak mempertimbangkan kerugian kredit di masa mendatang. Perhitungan ini mencakup seluruh komisi, provisi, dan bentuk lain diterima oleh para pihak dalam kontrak yang merupakan bagian tidak terpisahkan dari suku bunga efektif, biaya transaksi, dan seluruh premi atau diskon lainnya.

Kredit yang pembayaran angsuran pokok atau bunganya telah lewat 90 hari atau lebih setelah jatuh tempo, atau kredit yang pembayarannya secara tepat waktu diragukan, secara umum diklasifikasikan sebagai kredit yang mengalami penurunan nilai (*impairment*).

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES** (continued)

v. Borrowings (continued)

Borrowings are initially recognized at fair value and subsequently measured at amortized cost using the effective interest rate method. Amortized cost is calculated by taking into account any discount or premium related to the initial recognition of borrowings and transaction costs are an integral part of the effective interest rate method.

Refer to Note 2c for the accounting policies of financial assets and liabilities.

w. Interest income and interest expense

Interest income and expense for all interest-bearing financial instruments are recognized in profit or loss using the effective interest rate method.

The effective interest rate is the rate that exactly discounts the estimated future cash payments or receipts through the expected life of the financial assets and financial liabilities (or, where appropriate, a shorter period) to the carrying amount of the financial asset or financial liability. When calculating the effective interest rate, the Group estimates future cash flows considering all contractual terms of the financial instrument but not future credit losses. This calculation includes all commissions, fees, and other forms received by the parties in the contract are an integral part of the effective interest rate, transaction costs, and all other premiums or discounts.

Loans for which the principal or interest has been past due for 90 days or more, or where reasonable doubt exists as to its timely collection, are generally classified as impaired loans.

MATERIAL (lanjutan)

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

x. Pendapatan provisi dan komisi

Pendapatan provisi dan komisi yang berkaitan langsung dengan kegiatan pinjaman, atau pendapatan provisi dan komisi yang berhubungan dengan jangka waktu tertentu, diamortisasi sesuai dengan jangka waktu kontrak menggunakan metode suku bunga efektif dan diklasifikasikan sebagai bagian dari pendapatan bunga pada laporan laba rugi.

Pendapatan provisi dan komisi yang tidak berkaitan dengan kegiatan pemberian kredit atau suatu jangka waktu diakui sebagai pendapatan pada saat terjadinya transaksi sebagai pendapatan operasional lainnya.

y. Kontrak asuransi

Kontrak asuransi adalah kontrak yang diterbitkan oleh perusahaan asuransi dimana pada saat penerbitan polis perusahaan asuransi menerima risiko asuransi yang signifikan dari pemegang polis.

Risiko asuransi yang signifikan adalah kemungkinan untuk membayar manfaat secara signifikan kepada pemegang polis apabila suatu kejadian yang diasuransikan terjadi dibandingkan dengan manfaat minimum yang akan dibayarkan apabila risiko yang diasuransikan tidak terjadi. Skenario-skenario yang diperhatikan adalah skenario yang mengandung unsur komersial.

Grup mendefinisikan risiko asuransi yang signifikan sebagai kemungkinan membayar manfaat pada saat terjadinya suatu kejadian yang diasuransikan, yang setidaknya 10% lebih besar dari manfaat yang dibayarkan jika kejadian yang diasuransikan tidak terjadi. Jika suatu kontrak asuransi tidak mengandung risiko asuransi yang signifikan, maka kontrak tersebut diklasifikasikan sebagai kontrak investasi. Ketika sebuah kontrak telah diklasifikasi sebagai kontrak asuransi, reklasifikasi terhadap kontrak tersebut tidak dapat dilakukan kecuali ketentuan perjanjian kemudian diamandemen.

x. Fees and commission income

Fees and commissions directly related to lending activities, or fee and commission income which relates to a specific period, is amortized over the term of contract using the effective interest rate method and classified as part of interest income in profit or loss.

Fees and commissions income which are not related to lending activities or a specific period are recognized as revenues on the transaction date as other operating income.

y. Insurance contract

Insurance contract is contract issued by insurance company which accepts significant insurance risk from policyholder upon the issuance of the policy.

Significant insurance risk is the possibility of paying significantly more benefit to the policyholder upon the occurrence of insured event compared to the minimum benefit payable in a scenario where the insured event does not occur. Scenarios considered are those with commercial substance.

Group defines significant insurance risk as the possibility of having to pay benefits on the occurrence of an insured event of at least 10% more than the benefits payable if the insured event did not occur. If the insurance contract does not contain significant insurance risk, the contract will be deemed as an investment contract. Once a contract has been classified as an insurance contract, no reclassification can be performed unless the terms of the agreement are later amended.

y. Kontrak asuransi (lanjutan)

y. Insurance contract (continued)

Grup menerbitkan kontrak asuransi untuk produk asuransi tradisional dan produk asuransi yang dikaitkan dengan investasi. Kedua jenis produk ini mempunyai risiko asuransi yang signifikan.

Group issues insurance contracts for traditional insurance product and investment linked insurance product. Both of these products have significant insurance risk.

Produk-produk dari Grup dibagi berdasarkan kategori utama sebagai berikut:

Group's products may be divided into the following main categories:

Tipe polis/ Policy type	Deskripsi manfaat/ Description of benefits
1) Asuransi jiwa tradisional <i>non-participating/traditional non-participating life insurance</i>	Produk <i>non-participating</i> memberikan perlindungan untuk menutupi risiko kematian, kecelakaan, penyakit kritis, dan kesehatan dari pemegang polis. Jumlah uang pertanggungan akan dibayarkan pada saat terjadinya risiko yang ditanggung. <i>Non participating products provide protection to cover the risk of death, accident, critical illness, and health of the insured. The basic sum assured will be paid upon the occurrence of the risks covered.</i>
2) Produk asuransi <i>unit link/ Unit-linked insurance products</i>	<p><i>Unit link</i> adalah produk asuransi dengan pembayaran premi tunggal maupun regular yang dikaitkan dengan investasi yang memberikan kombinasi manfaat proteksi dan manfaat investasi. <i>Unit-linked is the insurance product with single and regular premium payment which linked to investment products, which provide a combined benefit of the protection and investment.</i></p> <p>Manfaat dari perlindungan asuransi adalah untuk menanggung risiko kematian yang memberikan manfaat sebesar nilai uang pertanggungan dan ditambah manfaat investasi berupa akumulasi nilai dana investasi yang akan dibayarkan pada saat terjadinya risiko yang ditanggung. <i>The benefit of protection is to cover the risks of death which provide basic sum assured plus the cumulative balance of the fund value, these benefit will be paid upon the occurrence of the risks covered.</i></p> <p>Nilai dana investasi akan dihitung berdasarkan tingkat pengembalian investasi yang didapat dari <i>fund</i> tergantung dari tipe <i>fund</i> yang dipilih oleh pemegang polis berdasarkan profil risiko investasi. <i>The investment fund value will be measured based on the yield of return from the underlying fund depend on the fund type which is chosen by the policyholders, depending on investment risk profile.</i></p>

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

y. Kontrak asuransi (lanjutan)

Grup memisahkan komponen deposit dari kontrak *unit link* seperti yang disyaratkan oleh PSAK 62 hanya jika kondisi-kondisi di bawah ini terpenuhi:

- Grup dapat mengukur komponen “*deposit*” secara terpisah (termasuk opsi penyerahan melekat, yaitu tanpa memperhitungkan komponen “*asuransi*”); dan
- Kebijakan akuntansi Grup tidak mensyaratkan untuk mengakui semua hak dan kewajiban yang timbul dari komponen “*deposit*”.

Karena hanya kondisi pertama di atas terpenuhi, maka Grup tidak memisahkan komponen deposit dari kontrak *unit link*.

Pengujian kecukupan liabilitas

PSAK 62, “Kontrak Asuransi” mengharuskan setiap akhir periode pelaporan, Grup menilai apakah liabilitas manfaat polis masa depan, premi yang belum merupakan pendapatan dan estimasi klaim yang diakui dalam laporan posisi keuangan konsolidasian telah mencukupi, dengan membandingkan total tercatat tersebut dengan estimasi arus kas masa depan sesuai dengan kontrak asuransi.

Jika perbandingan tersebut menunjukkan bahwa nilai tercatat atas liabilitas kontrak asuransi (dikurangi dengan biaya akuisisi tanggungan dan aset takberwujud terkait) lebih rendah dibandingkan dengan estimasi nilai kini atas arus kas masa depan, maka kekurangan tersebut diakui dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian.

Tes kecukupan liabilitas dihitung berdasarkan diskonto dari arus kas untuk semua arus kas yang terkait yaitu arus kas keluar dan arus kas masuk seperti yang disebutkan di atas dengan menggunakan asumsi-asumsi aktuarial berdasarkan estimasi terbaik terkini yang ditetapkan oleh aktuaris Perusahaan, termasuk asumsi tingkat bunga, mortalitas/morbiditas, *lapse*, asumsi biaya dan inflasi tanpa margin atas risiko pemburukan (dan tanpa *flooring* atas cadangan untuk bisnis Konvensional).

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

y. Insurance contract (continued)

Group unbundles the deposit component of *unit-linked contract* as required by SFAS 62 only when both of the following conditions are met:

- Group can measure separately the “*deposit*” component (including any embedded surrender option, i.e. without taking into account the “*insurance*” component); and
- Group’s accounting policies do not otherwise require to recognize all obligations and rights arising from the “*deposit*” component.

Since only the first condition above is met, Group does not unbundle the deposit component of *unit-linked contract*.

Liability adequacy tests

SFAS 62, “Insurance Contracts” requires that at each end of reporting period, Group evaluates whether the liabilities for future policy benefits, unearned premium and estimated claims as recognised in the consolidated statement of financial position have been adequately recognised by comparing the carrying amount with the estimated future cash flows in accordance with the insurance contracts.

If the valuation indicates that the carrying value of insurance contract liabilities (net of deferred acquisition costs and relevant intangible assets) is lower compared to the estimated present value of future cash flows, then such deficiency is recognised in the consolidated statement of profit or loss and other comprehensive income.

The liability adequacy test is calculated based on discounted cash flows basis for all related cash flows i.e. both of cash outflows and cash inflows as mentioned above using a set of most recent best estimate actuarial assumptions which is set by the Company’s appointed actuary, including interest rate assumptions, mortality/morbidity assumptions, *lapse* assumptions, expense assumptions and inflation assumptions without margin for adverse deviation assumption (and without reserve *flooring* for Conventional business).

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

y. Kontrak asuransi (lanjutan)

Pengujian kecukupan liabilitas (lanjutan)

Grup menerapkan metode *Gross Premium Reserve* dalam perhitungan liabilitas kepada pemegang polis dengan menggunakan asumsi aktuarial berdasarkan asumsi estimasi terbaik dan margin atas risiko pemburukan, kecuali untuk asumsi biaya (untuk bisnis Konvensional) dan asumsi tingkat bunga, sehingga tes kecukupan liabilitas perlu dilakukan. Berdasarkan hasil uji, estimasi liabilitas lebih tinggi dari estimasi arus kas yang memenuhi persyaratan minimum yang menunjukkan bahwa estimasi liabilitas tersebut cukup.

Pengakuan pendapatan premi

Premi kontrak jangka pendek diakui sebagai pendapatan dalam periode kontrak sesuai dengan proporsi total proteksi asuransi yang diberikan. Premi kontrak jangka panjang diakui sebagai pendapatan pada saat polis jatuh tempo.

Pendapatan premi yang diterima sebelum jatuh tempo polis dicatat sebagai titipan premi di laporan posisi keuangan.

Premi reasuransi bruto diakui sebagai beban pada saat dibayarkan atau pada tanggal di mana polis tersebut efektif.

Grup menghitung cadangan atas premi yang belum merupakan pendapatan dengan menggunakan metode amortisasi harian.

Cadangan atas premi yang belum merupakan pendapatan hanya diterapkan terhadap premi yang mempunyai risiko (asuransi jangka warsa, kecelakaan diri, dan kesehatan) yang periode asuransinya tidak lebih dari satu tahun.

Penurunan/(kenaikan) cadangan atas premi yang belum merupakan pendapatan diakui dalam laporan laba rugi periode berjalan.

Ujrah/fee yang diterima oleh Perusahaan diakui sebagai pendapatan dalam laporan laba rugi dan penghasilan komprehensif lain. Ujrah diamortisasi menggunakan metode garis lurus.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

y. *Insurance contract (continued)*

Liability adequacy tests (continued)

Group applies the Gross Premium Reserve method to calculate the liability for future policy benefit based on actuarial assumptions which are based on best estimate assumptions and margin for adverse deviation, except for expense assumptions (for Conventional business) and interest rate assumptions, therefore, the liability adequacy test is required. Based on the assessment, the estimated liability is higher than the measure of cash flows that meet the minimum requirement which shows that the estimated liability is adequate.

Premium income recognition

Premiums received from short-term insurance contracts are recognised as income within the contract period based on the insurance coverage provided. Premium income from long duration contracts is recognised as revenue when the policy is due.

Premium income received before the due date of the respective policies are reported as policyholders' deposits in the statement of financial position.

Gross reinsurance premiums are recognised as an expense when payable or on the date in which the policy becomes effective.

The Group calculates unearned premium reserves using daily amortization method.

Unearned premium reserves only apply to premiums that are short-term with less than one year insurance period which have risk component only (term life, personal accident, and health insurance).

Decrease/(increase) in unearned premium reserves is recognised in the current year's profit or loss.

Ujrah/fee received by the Company is recognised as income in the statement of profit or loss and other comprehensive income. Ujrah is amortized using straight-line method.

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

y. Kontrak asuransi (lanjutan)

Reasuransi

Grup mereasuransikan sebagian porsi risikonya kepada perusahaan reasuradur. Total premi yang dibayar atau porsi premi atas transaksi reasuransi prospektif diakui sesuai dengan proporsi total proteksi reasuransi yang diterima berdasarkan kontrak reasuransi.

Aset reasuransi termasuk saldo yang diharapkan dibayarkan oleh perusahaan reasuransi untuk *ceded* liabilitas manfaat polis masa depan, *ceded* estimasi liabilitas klaim dan *ceded* premi yang belum merupakan pendapatan. Total manfaat yang ditanggung oleh reasuradur diperkirakan secara konsisten sesuai dengan liabilitas yang terkait dengan polis reasuransi.

Jika aset reasuransi mengalami penurunan nilai, Grup mengurangi nilai tercatat dan mengakui kerugian penurunan nilai tersebut dalam laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Aset reasuransi mengalami penurunan nilai jika ada bukti obyektif, sebagai akibat dari suatu peristiwa yang terjadi setelah pengakuan awal aset reasuransi, bahwa Grup tidak dapat menerima seluruh total karena di bawah syarat-syarat kontrak, dan dampak pada total yang akan diterima dari reasuradur dapat diukur secara andal.

Klaim dan manfaat polis

Klaim dan manfaat polis terdiri dari klaim yang telah diselesaikan, klaim dalam proses penyelesaian dan estimasi atas klaim yang telah terjadi namun belum dilaporkan (IBNR). Klaim dan manfaat polis diakui sebagai beban pada saat terjadinya liabilitas untuk memberikan proteksi. Klaim reasuransi yang diperoleh dari Grup diakui dan dicatat sebagai pengurang klaim dan manfaat polis pada periode yang sama dengan periode pengakuan klaim dan manfaat polis.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

y. *Insurance contract* (continued)

Reinsurance

Group reinsures a portion of its risk with reinsurance companies. The amount of premium paid or portion of premium from prospective reinsurance transactions is recognized over the reinsurance contract in proportion with the protection received.

Reinsurance assets include balances expected to be recovered from reinsurance companies for ceded liability for future policy benefits, ceded estimated claim liabilities and ceded unearned premiums. Amounts recoverable from reinsurers are estimated in a manner consistent with the liability associated with the reinsured policy.

If a reinsurance asset is impaired, Group reduces the carrying amount and recognises the impairment loss in the consolidated statement of profit or loss and other comprehensive income. A reinsurance asset is impaired if there is objective evidence, as a result of an event that occurred after initial recognition of the reinsurance asset, that Group may not receive all amounts due to it under the terms of the contract, and the impact of the amounts that will receive from the reinsurer can be reliably measured.

Claims and policy benefits

Claims and policy benefits consist of settled claims, claims that are still in process of completion and estimate of claims incurred but not yet reported (IBNR). Claims and policy benefits are recognized as expenses when the liabilities to cover claims are incurred. Reinsurance claims recoveries from reinsurance Group are recognized and recorded as deduction from claims and policy benefits consistent in the same period with the claims and policies benefits recognition.

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

y. Kontrak asuransi (lanjutan)

Klaim dan manfaat polis (lanjutan)

Total klaim dalam penyelesaian, termasuk klaim yang telah terjadi namun belum dilaporkan, dinyatakan berdasarkan estimasi menggunakan teknik perhitungan teknis oleh aktuaris yang dilaporkan sebagai bagian dari "Estimasi liabilitas klaim" yang diakui pada laporan keuangan konsolidasian di liabilitas lain-lain. Perubahan dalam estimasi liabilitas klaim, sebagai hasil dari evaluasi lebih lanjut dan perbedaan antara estimasi klaim dengan klaim yang dibayarkan, diakui sebagai biaya tambahan atau pengurang biaya pada periode terjadinya perubahan.

Utang klaim

Utang klaim merupakan liabilitas yang timbul dari klaim yang diajukan oleh pemegang polis dan disetujui oleh Grup tetapi belum dibayar hingga tanggal laporan posisi keuangan. Utang klaim diakui pada saat total yang harus dibayar disetujui. Liabilitas tersebut dihentikan pengakuannya pada saat kontrak berakhir, dilepaskan atau dibatalkan.

Liabilitas manfaat polis masa depan

Liabilitas manfaat polis masa depan merupakan nilai sekarang estimasi manfaat polis masa depan yang akan dibayarkan kepada pemegang polis atau ahli warisnya dikurangi dengan nilai sekarang dari estimasi premi masa depan yang akan diterima dari pemegang polis dan diakui secara konsisten pada saat pengakuan pendapatan premi. Liabilitas manfaat polis masa depan ditentukan dan dihitung dengan menggunakan rumus tertentu oleh aktuaris Grup.

Grup menghitung liabilitas manfaat polis masa depan dengan menggunakan metode *Gross Premium Valuation* yang mencerminkan nilai sekarang estimasi pembayaran seluruh manfaat yang diperjanjikan termasuk seluruh opsi yang disediakan, nilai sekarang estimasi seluruh biaya yang dikeluarkan dan juga mempertimbangkan penerimaan premi di masa depan.

Perubahan liabilitas manfaat polis masa depan diakui dalam laba rugi tahun berjalan.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

y. Insurance contract (continued)

Claims and policy benefits (continued)

Total claims in process, including claims incurred but not yet reported, are stated at estimated amounts determined based on the actuarial technical insurance calculations which is reported as part of "Estimated claim liabilities" which recognised in the consolidated statement of financial position in other liabilities. Changes in estimated claim liabilities as a result of further evaluation and the difference between estimated claims and paid claims are recognized as addition to or deduction from expenses in the period the changes occurred.

Claims payable

Claims payable represents liability arising from the submitted claim by policyholders and approved by the Group but not yet paid as of statement of financial position date. Claims payable is recognised at the time the amount to be paid is approved. The liability is derecognised when the contract expires, discharged or cancelled.

Liability for future policy benefits

The liabilities for future policy benefits represent the present value of estimated future policy benefits to be paid to policyholders or their heirs less present value of estimated future premiums to be received from the policyholders and recognized consistently with the recognition of premium income. The liabilities for future policy benefits are determined and computed based on certain formula by Group's actuary.

Group calculates the liabilities for future policy benefits using *Gross Premium Valuation* method that reflect the present value of estimated payments throughout the guaranteed benefits including all the embedded options available, the estimated present value of all handling costs incurred and also considering the future premium receipt.

Changes in the liabilities for future policy benefits are recognized in the current year's profit or loss.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

y. Kontrak asuransi (lanjutan)

Liabilitas manfaat polis masa depan (lanjutan)

Untuk produk *unit link*, liabilitas kepada pemegang polis *unit link* diakui pada saat penerimaan dana dikonversi menjadi unit setelah dikurangi biaya-biaya dan akan bertambah atau berkurang sesuai dengan nilai aset bersih efektif yang berlaku. Risiko investasi terkait ditanggung oleh pemegang polis *unit link*.

Penerimaan dana dari nasabah untuk produk non syariah diakui sebagai pendapatan premi bruto di laporan laba rugi dan penghasilan komprehensif lain konsolidasian. Liabilitas kepada pemegang polis *unit link* diakui di laporan posisi keuangan konsolidasian di liabilitas lain-lain yang termasuk di dalam liabilitas manfaat polis masa depan sebesar jumlah yang diterima setelah dikurangi dengan bagian premi yang merupakan pendapatan Entitas Anak, disertai dengan pengakuan kenaikan liabilitas kepada pemegang polis *unit link* di laba rugi.

Setiap bunga, keuntungan atau kerugian dari kenaikan atau penurunan nilai pasar investasi dicatat sebagai pendapatan atau beban, disertai dengan pengakuan kenaikan atau penurunan liabilitas manfaat polis masa depan di laporan laba rugi dan liabilitas manfaat polis masa depan di laporan posisi keuangan konsolidasian.

Penerimaan dana dari nasabah untuk produk *unit link* diakui sebagai liabilitas manfaat polis masa depan (diakui di liabilitas lain-lain) dan di laporan posisi keuangan sebesar total yang diterima setelah dikurangi *charges* atau *admin fee* lainnya dalam rangka mengelola pendapatan dari produk *unit link*.

z. Perpajakan

Beban pajak terdiri dari pajak kini dan pajak tangguhan. Pajak diakui dalam laporan laba rugi, kecuali jika pajak tersebut terkait dengan transaksi atau kejadian yang diakui di penghasilan komprehensif lain atau langsung diakui ke ekuitas. Dalam hal ini, pajak tersebut masing-masing diakui dalam penghasilan komprehensif lain atau ekuitas.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

y. *Insurance contract (continued)*

Liabilities for future policy benefits (continued)

For unit-linked products, the liabilities to unit-linked policyholders is recognized at the time the funds received are converted into units, net of related expenses and will increase or decrease in accordance with effective net asset value. Related investment risk are born by the unit-linked policyholders.

Funds received from customers for non-sharia products are recognized as gross premiums income in the consolidated statement of profit and loss and other comprehensive income. Liabilities to unit-linked policyholders are recognized in the consolidated statement of financial position in the other liabilities which is included in the liabilities for future policy benefits for the amount received net of the portion of premium representing Subsidiary's revenue, with corresponding profit or loss recognition for the increase in liabilities to unit-linked policyholders.

Any interest, gain or loss due to increases or decreases in market value of investments are recorded as income or expense, with a corresponding recognition of increase or decrease in liabilities for future policy benefits in the profit or loss and liabilities for future policy benefits in the consolidated statement of financial position.

Funds received from customers for unit-linked products are recognised as liabilities for future policy benefits (recognised in other liabilities) in the consolidated statement of financial position for the amount received net of charges or other admin fee in managing the unit-linked product revenue.

z. *Taxation*

The tax expense comprises of current and deferred tax. Tax are recognized in the profit or loss, except to the extent that it relates to items recognized in other comprehensive income or directly in equity. In this case, the tax is also recognized in other comprehensive income or directly in equity, respectively.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

z. Perpajakan (lanjutan)

Beban pajak kini dihitung berdasarkan peraturan perpajakan yang berlaku pada tanggal pelaporan keuangan. Manajemen secara periodik mengevaluasi posisi yang dilaporkan di Surat Pemberitahuan Tahunan (SPT) sehubungan dengan situasi dimana aturan pajak yang berlaku membutuhkan interpretasi. Jika perlu, manajemen menentukan provisi berdasarkan jumlah yang diharapkan akan dibayar kepada otoritas pajak.

Pajak penghasilan tangguhan diakui, dengan menggunakan metode posisi keuangan untuk semua perbedaan temporer antara dasar pengenaan pajak aset dan liabilitas dengan nilai tercatatnya pada laporan keuangan konsolidasian. Namun, liabilitas pajak penghasilan tangguhan tidak diakui jika berasal dari pengakuan awal *goodwill* atau pada saat pengakuan awal aset dan liabilitas yang timbul dari transaksi selain kombinasi bisnis yang pada saat transaksi tersebut tidak mempengaruhi laba rugi akuntansi dan laba rugi kena pajak. Pajak penghasilan tangguhan ditentukan dengan menggunakan tarif pajak yang telah berlaku atau secara substantif telah berlaku pada akhir periode pelaporan dan diharapkan diterapkan ketika aset pajak penghasilan tangguhan direalisasi atau liabilitas pajak penghasilan tangguhan diselesaikan.

Aset pajak penghasilan tangguhan diakui hanya jika besar kemungkinan jumlah penghasilan kena pajak dimasa depan akan memadai untuk dikompensasi dengan perbedaan temporer yang masih dapat dimanfaatkan.

Aset dan liabilitas pajak penghasilan tangguhan dapat saling hapus apabila terdapat hak yang berkekuatan hukum untuk melakukan saling hapus antara aset pajak kini dengan liabilitas pajak kini dan apabila aset dan liabilitas pajak penghasilan tangguhan dikenakan oleh otoritas perpajakan yang sama, baik atas entitas kena pajak yang sama ataupun berbeda dan adanya niat untuk melakukan penyelesaian saldo-saldo tersebut secara neto.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

z. Taxation (continued)

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the reporting date. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provision where appropriate on the basis of amounts expected to be paid to the tax authorities.

Deferred income tax is recognized, using the financial position method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated financial statements. However, deferred tax liabilities are not recognized if they arise from the initial recognition of goodwill and deferred income tax is not accounted for if it arises from initial recognition of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss. Deferred income tax is determined using tax rates that have been enacted or substantially enacted as at reporting period and is expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled.

Deferred tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilised.

Deferred tax assets and liabilities are offset when there is a legally enforceable right to offset current tax assets against current tax liabilities and when the deferred income taxes assets and liabilities relate to income taxes levied by the same taxation authority either the same taxable entity or different taxable entities where there is an intention to settle the balances on a net basis.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN
31 DESEMBER 2023 DAN 2022**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

z. Perpajakan (lanjutan)

Koreksi terhadap kewajiban perpajakan diakui saat surat ketetapan pajak diterima atau jika mengajukan keberatan, pada saat keputusan atas keberatan tersebut telah ditetapkan.

aa. Imbalan kerja

Imbalan kerja jangka pendek

Imbalan kerja jangka pendek diakui pada saat terutang kepada karyawan.

Imbalan pensiun dan imbalan pasca-kerja lainnya

BNI memiliki program pensiun imbalan pasti dan iuran pasti.

Program pensiun imbalan pasti adalah program pensiun yang menetapkan jumlah imbalan pensiun yang akan diterima oleh karyawan pada saat pensiun, yang biasanya tergantung pada satu faktor atau lebih, seperti umur, masa kerja, dan jumlah kompensasi. Program ini dikelola oleh Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun").

Program pensiun iuran pasti adalah program pensiun dimana Bank akan membayar iuran tetap kepada sebuah entitas yang terpisah (dana pensiun) dan tidak memiliki liabilitas hukum atau konstruktif untuk membayar kontribusi lebih lanjut. Program ini dikelola oleh Dana Pensiun Lembaga Keuangan PT Bank Negara Indonesia (Persero) Tbk ("DPLK").

BNI diharuskan menyediakan imbalan pensiun minimum yang diatur dalam Undang-Undang Cipta Kerja No. 11/2020 dan PP 35/2021, yang merupakan liabilitas imbalan pasti. Jika imbalan pensiun sesuai dengan Undang-Undang Cipta Kerja No. 11/2020 dan PP 35/2021 lebih besar, selisih tersebut diakui sebagai bagian dari liabilitas imbalan pensiun.

Karena Undang-Undang Cipta Kerja menentukan rumus tertentu untuk menghitung jumlah minimal imbalan pensiun, pada dasarnya program pensiun berdasarkan Undang-Undang Cipta Kerja adalah program imbalan pasti.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2023 AND 2022**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

z. Taxation (continued)

Corrections to taxation obligations are recorded when an assessment is received or, if appealed against, when the appeal has been decided.

aa. Employee benefits

Short-term employee benefits

Short-term employee benefits are recognized when they accrued to the employees.

Pension benefits and other post-employment

BNI has defined benefit and defined contribution pension plans.

A defined benefit pension plan is a pension plan that defines an amount of pension that will be received by the employee on becoming entitled to a pension, which usually depends on one or more factors such as age, years of service and compensation. This plan is managed by Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun").

A defined contribution plan is a pension plan under which the Bank pays fixed contributions into a separate entity (pension fund) and has no legal or constructive obligation to pay further contributions. This plan is managed by Dana Pensiun Lembaga Keuangan PT Bank Negara Indonesia (Persero) Tbk ("DPLK").

BNI is required to provide minimum pension benefits as stipulated in Undang-Undang Cipta Kerja No. 11/2020 and PP 35/2021 which represents an underlying defined benefit obligation. If the pension benefits based on Undang-Undang Cipta Kerja No. 11/2020 and PP 35/2021 are higher, the difference is recorded as part of the overall pension benefits obligation.

Since the Undang-Undang Cipta Kerja sets the formula for determining the minimum amount of benefits, in substance pension plans under the Undang-Undang Cipta Kerja represent defined benefit plans.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

KONSOLIDASIAN
31 DESEMBER 2023 DAN 2022**

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL** (lanjutan)

aa. Imbalan kerja (lanjutan)

**Imbalan pensiun dan imbalan pasca-kerja
lainnya** (lanjutan)

Sehubungan dengan program imbalan pasti, liabilitas diakui pada laporan posisi keuangan konsolidasian sebesar nilai kini kewajiban imbalan pasti pada akhir periode pelaporan dikurangi nilai wajar aset program. Kewajiban imbalan pasti dihitung setiap tahun oleh aktuaris yang independen dengan menggunakan metode *projected unit credit*.

Nilai kini kewajiban imbalan pasti ditentukan dengan mendiskontokan arus kas keluar yang diestimasi dengan menggunakan tingkat bunga Obligasi Pemerintah (dikarenakan saat ini tidak ada pasar aktif untuk obligasi perusahaan yang berkualitas tinggi) yang didenominasikan dalam Rupiah dimana imbalan akan dibayarkan dan memiliki jangka waktu jatuh tempo mendekati jangka waktu kewajiban pensiun.

Keuntungan dan kerugian aktuarial yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial langsung diakui seluruhnya melalui penghasilan komprehensif lainnya pada saat terjadinya.

Biaya jasa lalu diakui segera dalam laporan laba rugi.

Keuntungan dan kerugian dari kurtailmen atau penyelesaian program manfaat pasti diakui di laba rugi ketika kurtailmen atau penyelesaian tersebut terjadi.

Grup juga memberikan imbalan pasca kerja lainnya, seperti uang penghargaan dan uang pisah. Imbalan berupa uang penghargaan diberikan apabila karyawan bekerja hingga mencapai usia pensiun. Sedangkan imbalan berupa uang pisah, dibayarkan kepada karyawan yang mengundurkan diri secara sukarela, setelah memenuhi minimal masa kerja tertentu. Imbalan ini dihitung dengan menggunakan metodologi yang sama dengan metodologi yang digunakan dalam perhitungan program pensiun imbalan pasti.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS
31 DECEMBER 2023 AND 2022**

(Expressed in millions of Rupiah, unless otherwise stated)

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES** (continued)

aa. Employee benefits (continued)

**Pension benefits and other post-
employment benefits** (continued)

The liability recognized in the consolidated statement of financial position in respect of defined benefit pension plans is the present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit obligation is calculated annually by independent actuaries using the projected unit credit method.

The present value of the defined benefit obligation is determined by discounting the estimated future cash outflows using interest rates of Government Bonds (considering that currently there is no active market for high-quality corporate bonds) that are denominated in Rupiah in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension obligation.

Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are charged or credited to equity in other comprehensive income in the period in which they arise.

Past-service costs are recognized immediately in profit or loss.

Gains or losses on the curtailment or settlement of a defined benefit plan are recognized in profit or loss when the curtailment or settlement occurs.

The Group also provides other post-employment benefits, such as service pay and separation pay. The service pay benefit vests when the employees reach their retirement age. The separation pay benefit is paid to employees in the case of voluntary resignation, subject to a minimum number of years of service. These benefits have been accounted for using the same methodology as for the defined benefit pension plan.

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

aa. Imbalan kerja (lanjutan)

Imbalan jangka panjang lainnya

Imbalan jangka panjang lainnya seperti cuti berimbalan jangka panjang, imbalan cacat permanen dan penghargaan *jubilee* dihitung dengan menggunakan metode *projected unit credit* dan didiskontokan ke nilai kini. Keuntungan dan kerugian aktuarial yang timbul dari penyesuaian dan perubahan dalam asumsi-asumsi aktuarial diakui dalam laporan laba rugi.

ab. Laba per saham dasar

Laba per saham dasar dihitung dengan membagi laba tahun berjalan yang tersedia bagi pemegang saham biasa (laba *residual*) dengan jumlah rata-rata tertimbang lembar saham biasa yang beredar selama tahun berjalan.

ac. Transaksi dengan pihak-pihak berelasi

BNI dan Entitas Anak melakukan transaksi dengan pihak-pihak berelasi seperti yang didefinisikan dalam PSAK 7 tentang "Pengungkapan Pihak-pihak Berelasi" dan Peraturan Bapepam-LK No. KEP-347/BL/2012 tanggal 25 Juni 2012 tentang "Pedoman Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik" yang didefinisikan antara lain:

- (i) perusahaan di bawah pengendalian BNI dan Entitas Anak;
- (ii) perusahaan asosiasi;
- (iii) investor yang memiliki hak suara, yang memberikan investor tersebut suatu pengaruh yang signifikan;
- (iv) perusahaan di bawah pengendalian investor yang dijelaskan dalam Catatan iii di atas;
- (v) karyawan kunci dan anggota keluarganya; dan
- (vi) entitas yang dikendalikan, dikendalikan bersama atau dipengaruhi secara signifikan oleh Pemerintah yaitu Menteri Keuangan yang merupakan pemegang saham dari entitas.

Semua transaksi signifikan dengan pihak-pihak berelasi, telah diungkapkan pada catatan atas laporan keuangan konsolidasian.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

aa. Employee benefits (continued)

Other long-term benefits

Other long-term employee benefits such as long service leave, permanent disability benefit and jubilee awards are calculated using the projected unit credit method and discounted to present value. Actuarial gains and losses arising from experience adjustments and change in actuarial assumption are recognised and credited to profit or loss.

ab. Basic earnings per share

Basic earnings per share is computed by dividing income for the year available to shareholders of ordinary shares (residual income) by the weighted average number of ordinary shares outstanding during the current year.

ac. Transactions with related parties

BNI and Subsidiaries enter into transactions with parties which are defined as related parties in accordance with SFAS 7 regarding "Related Party Disclosures" and Regulation of the Capital Market and Financial Institution Supervisory Board (Bapepam-LK) No. KEP-347/BL/2012 dated 25 June 2012 regarding "Guidelines for Financial Statements Presentation and Disclosure of Issuers or Public Companies", which are defined, among others, as:

- (i) entities under the control of BNI and Subsidiaries;
- (ii) associated companies;
- (iii) investors with voting rights that gives them significant influence;
- (iv) entities controlled by investors under Note iii above;
- (v) key employees and family members; and
- (vi) entity that is controlled, jointly controlled or significantly influenced by Government, which is defined as the Minister of Finance who has share ownership in the entity.

All significant transactions with related parties have been disclosed in notes to the consolidated financial statements.

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)**

ad. Dividen

Pembagian dividen kepada para pemegang saham diakui sebagai liabilitas dalam laporan keuangan konsolidasian pada periode ketika dividen tersebut disetujui oleh para pemegang saham.

ae. Pelaporan segmen

Grup mengidentifikasi segmen operasi sebagai suatu komponen dari entitas:

- a) yang terlibat dalam aktivitas bisnis yang mana memperoleh pendapatan dan menimbulkan beban (termasuk pendapatan dan beban terkait dengan transaksi dengan komponen lain dari entitas yang sama);
- b) hasil operasinya dikaji ulang secara reguler oleh pengambil keputusan operasional untuk membuat keputusan tentang sumber daya yang dialokasikan pada segmen tersebut dan menilai kinerjanya; dan
- c) tersedia informasi keuangan yang dapat dipisahkan.

Sesuai dengan PSAK No. 5 tentang "Segmen Operasi", Grup menyajikan segmen operasi berdasarkan laporan internal Grup yang disajikan kepada pengambil keputusan operasional. Pengambil keputusan operasional adalah Direksi.

Pada tahun 2022, Grup mengungkapkan segmen operasionalnya berdasarkan segmen usaha sebagai berikut: *Corporate & International Banking, Institutional Banking, Enterprises & Commercial Banking, Consumer Banking, Treasury*, Kantor Pusat dan Entitas Anak.

Di tahun 2023, Grup menerapkan perubahan terhadap pengelompokan segmen operasi yang berdasarkan hasil Rapat Umum Pemegang Saham yang digunakan dalam laporan kinerja manajemen internal. Grup mengungkapkan segmen operasionalnya berdasarkan segmen usaha sebagai berikut: *Wholesale & International Banking, Institutional Banking, Enterprises & Commercial Banking, Retail Banking, Treasury*, Kantor Pusat dan Entitas Anak dengan terdapat reklasifikasi di masing-masing bisnis segmen sesuai dengan organisasi direksi dan pembidangan yang baru.

**2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)**

ad. Dividends

Dividend distribution to the shareholders is recognized as a liability in the consolidated financial statements in the period in which the dividends are approved by the shareholders.

ae. Segment reporting

The Group defines an operating segment as a component of an entity:

- a) *that engages in business activities from which it may earn revenues and incur expenses (including revenues and expenses relating to transactions with other components of the same entity);*
- b) *whose operating results are reviewed regularly by the entity's chief operating decision maker to make decisions about resources to be allocated to the segment and assess its performance; and*
- c) *for which discrete financial information is available.*

Refer to SFAS No.5 about "Operating Segments", the Group discloses its operating segments based on Group's internal report presented to operation-decision makers. The operation-decision makers are the Board of Directors.

In 2022, the Group discloses its operating segments defined based on business segments as follows: Corporate & International Banking, Institutional Banking, Enterprises & Commercial Banking, Consumer Banking, Treasury, Head Office and Subsidiaries.

In 2023, the Group implements some changes in disclosing its operational segments based on General Annual Meeting of Shareholder for the internal management performance report. The new operating segments are defined based on business segments as follows: Wholesale & International Banking, Institutional Banking, Enterprises & Commercial Banking, Retail Banking, Treasury, Head Office and Subsidiaries with some reclassification for each business segments referring to the new organizational of board of directors.

KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

2. IKHTISAR KEBIJAKAN AKUNTANSI YANG
MATERIAL (lanjutan)

af. Biaya emisi penerbitan saham

Biaya-biaya emisi efek yang terjadi sehubungan dengan penawaran saham kepada masyarakat (termasuk penerbitan hak memesan efek terlebih dahulu) dikurangkan langsung dari hasil emisi dan disajikan sebagai pengurang pada akun "Tambahkan Modal Disetor - Bersih", sebagai bagian dari Ekuitas pada laporan posisi keuangan konsolidasian.

ag. Saham treasuri

Ketika entitas Grup membeli modal saham ekuitas entitas (saham treasuri), imbalan yang dibayar, termasuk biaya tambahan yang secara langsung dapat diatribusikan (dikurangi pajak penghasilan) dikurangkan dari ekuitas yang diatribusikan kepada pemilik ekuitas entitas sampai saham tersebut dibatalkan atau diterbitkan kembali. Ketika saham biasa tersebut selanjutnya diterbitkan kembali, imbalan yang diterima, dikurangi biaya tambahan transaksi yang terkait dan dampak pajak penghasilan yang terkait dimasukkan kepada ekuitas yang dapat diatribusikan kepada pemilik ekuitas entitas.

ah. Kompensasi berbasis saham

Bank menjalankan program kompensasi berbasis saham dengan penyelesaian menggunakan ekuitas. Nilai wajar dari jasa karyawan yang dikompensasikan dengan saham Bank diakui sebagai beban di laporan laba rugi. Jumlah keseluruhan yang diakui sepanjang periode *vesting* ditentukan berdasarkan nilai wajar saham yang diberikan pada tanggal pemberian kompensasi.

ai. Tanggung Jawab Sosial dan Lingkungan

Berdasarkan PER-05/MBU/04/2021 tentang Program Tanggung Jawab Sosial dan Lingkungan Badan Usaha Milik Negara tanggal 20 April 2021 sebagaimana diubah terakhir dengan PER1/MBU/03/2023 tentang Penugasan Khusus dan Program Tanggung Jawab Sosial dan Lingkungan Badan Usaha Milik Negara tanggal 24 Maret 2023, istilah PKBL (Program Kemitraan dan Bina Lingkungan) tidak digunakan lagi dan diganti menjadi TJSL (Tanggung Jawab Sosial & Lingkungan). Alokasi dana tidak dialokasikan dari saldo laba berdasarkan hasil keputusan Rapat Umum Pemegang Saham (RUPS) akan tetapi diakui dan dibebankan ke laporan laba rugi dan penghasilan komprehensif lain konsolidasian tahun berjalan.

2. SUMMARY OF MATERIAL ACCOUNTING
POLICIES (continued)

af. Shares issuance costs

Costs related to the public offering of shares (including pre-emptive rights issue) are deducted from the proceeds and presented as a deduction of "Additional Paid-In Capital - Net" account, under Equity section in the consolidated statement of financial position.

ag. Treasury shares

When any Group entity purchases the entity's equity share capital (treasury shares), the consideration paid, including any directly attributable incremental costs (net of income taxes) is deducted from equity attributable to the entity's equity holders until the shares are cancelled or reissued. When ordinary shares are subsequently reissued, any consideration received, net of any directly attributable incremental transaction costs and the related income tax effects, is included in equity attributable to the entity's equity holders.

ah. Share-based payment

Bank operates an equity-settled, share-based compensation plan. The fair value of the employee services received in exchange for the grant of shares is recognised as an expense in the statements of profit or loss. The total amount to be recognised over the vesting period is determined based on the fair value of the shares granted on the grant date.

ai. Social and Environmental Responsibility

Based on PER-05/MBU/04/2021 concerning Social and Environmental Responsibility Programs for State-Owned Enterprises dated 20 April 2021, as last amended by PER 1/MBU/03/2023 concerning Special Assignments and Social and Environmental Responsibility Programs for Owned Enterprises, 24 March 2023, the term PKBL (Partnership and Community Development Program) is no longer used and replaced with TJSL (Social and Environmental Responsibility). Allocation of funds is not made from retained earnings based on resolutions of the General Meeting of Shareholders (GMS), but is recognized and charged to the consolidated statement of profit or loss and other comprehensive income for the current year.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING**

Beberapa estimasi dan asumsi dibuat dalam rangka penyusunan laporan keuangan konsolidasian dimana dibutuhkan pertimbangan manajemen dalam menentukan metodologi yang tepat untuk penilaian aset dan liabilitas.

Manajemen membuat estimasi dan asumsi yang berimplikasi pada pelaporan nilai aset dan liabilitas atas tahun keuangan satu tahun kedepan. Semua estimasi dan asumsi yang diharuskan oleh PSAK adalah estimasi terbaik yang didasarkan pada standar yang berlaku. Estimasi dan pertimbangan dievaluasi secara terus menerus dan berdasarkan pengalaman masa lalu dan faktor-faktor lain termasuk harapan atas kejadian yang akan datang.

Walaupun estimasi dan asumsi ini dibuat berdasarkan pengetahuan terbaik manajemen atas kejadian dan tindakan saat ini, hasil yang timbul mungkin berbeda dengan estimasi dan asumsi semula.

Sumber utama ketidakpastian estimasi:

a. Cadangan kerugian penurunan nilai aset keuangan

Kondisi spesifik *counterparty* yang mengalami penurunan nilai dalam pembentukan cadangan kerugian atas aset keuangan dievaluasi secara individu berdasarkan estimasi terbaik manajemen atas nilai kini arus kas yang diharapkan akan diterima, baik dari waktu dan jumlah. Dalam mengestimasi arus kas tersebut, manajemen membuat pertimbangan tentang situasi keuangan *counterparty* dan nilai realisasi bersih dari setiap agunan, serta probabilitas rata-rata tertimbang kerugian kredit. Setiap aset yang mengalami penurunan nilai dinilai sesuai dengan manfaat yang ada, dan strategi penyelesaian serta estimasi arus kas yang diperkirakan dapat diterima.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS**

Certain estimates and assumptions are made in the preparation of the consolidated financial statements and these require management judgement in determining the appropriate methodology for valuation of assets and liabilities.

Management makes estimates and assumptions that affect the reported amounts of assets and liabilities within the next financial year. All estimates and assumptions required in conformity with SFAS are best estimates undertaken in accordance with the applicable standard. Estimates and judgements are evaluated on a continuous basis, and are based on past experiences and other factors, including expectations with regard to future events.

Although these estimates and assumptions are based on management's best knowledge of current events and activities, actual result may differ from those estimates and assumptions.

Key sources of estimation uncertainty:

a. Allowances for impairment losses of financial assets

In the calculation of allowance for impairment losses of financial assets, the specific condition of impaired counterparty is individually evaluated based on management's best estimate of the present value of the expected cash flows to be received, including both timing and amount. In estimating these cash flows, management makes judgements about the counterparty's financial situation and the net realizable value of any underlying collateral, including weighted average probability of credit losses. Each impaired asset is assessed on its merits, and the workout strategy and estimated cash flows considered recoverable.

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING

Sumber utama ketidakpastian estimasi: (lanjutan)

a. Cadangan kerugian penurunan nilai aset
keuangan (lanjutan)

Perhitungan cadangan penurunan nilai kolektif meliputi kerugian kredit yang melekat dalam portofolio aset keuangan dengan karakteristik ekonomi yang sama, tetapi penurunan nilai secara individu belum dapat diidentifikasi. Dalam menilai kebutuhan untuk cadangan kolektif, manajemen mempertimbangkan faktor-faktor seperti kualitas kredit dan jenis produk. Guna membuat estimasi cadangan yang diperlukan, manajemen membuat asumsi untuk menentukan kerugian yang melekat, termasuk probabilitas rata-rata tertimbang kerugian kredit, *loss given default* dan *exposure of default*, dan untuk menentukan parameter input yang diperlukan, berdasarkan pengalaman masa lalu, kondisi ekonomi saat ini dan perkiraan kondisi ekonomi dimasa depan. Keakuratan penyisihan tergantung pada seberapa baik estimasi arus kas masa depan untuk cadangan *counterparty* tertentu dan asumsi model dan parameter yang digunakan dalam menentukan cadangan kolektif.

Dalam menentukan nilai wajar aset keuangan dan liabilitas yang tidak mempunyai harga pasar, Grup menggunakan teknik penilaian seperti yang dijelaskan dalam Catatan 2c. Untuk instrumen keuangan yang jarang diperdagangkan dan memiliki informasi harga yang terbatas, nilai wajar menjadi kurang objektif dan membutuhkan berbagai tingkat penilaian tergantung pada likuiditas, konsentrasi, faktor ketidakpastian pasar, asumsi harga dan risiko lainnya.

b. Menentukan nilai wajar instrumen
keuangan

Masukan (*input*) untuk model ini berasal dari data pasar yang bisa diamati. Bila data pasar yang bisa diamati tersebut tidak tersedia, manajemen mempertimbangkan masukan dan asumsi diperlukan untuk menentukan nilai wajar. Pertimbangan tersebut mencakup *feedback* model atas likuiditas volatilitas untuk transaksi derivatif dan tingkat diskonto yang berjangka waktu panjang, tingkat pelunasan dipercepat dan asumsi tingkat gagal bayar.

3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS

Key sources of estimation uncertainty: (continued)

a. Allowances for impairment losses of
financial assets (continued)

Collectively assessed impairment allowances cover credit losses inherent in portfolios of financial assets with similar economic characteristics, but the individually impaired items cannot yet be identified. In assessing the need for collective allowances, management considers factors such as credit quality and type of product. In order to estimate the required allowance, assumptions are made to define the way inherent losses are modelled, which include weighted average probability of default, loss given default and exposure at default, and to determine the required input parameters, based on historical experiences, current economic conditions and forecast on future economic condition. The accuracy of the allowances depends on how well these estimated future cash flows for specific counterparty allowances and the model assumptions and parameters are used in determining collective allowances.

In determining the fair value for financial assets and financial liabilities for which there is no observable market price, the Group uses the valuation techniques as described in Note 2c. For financial instruments that are traded infrequently and there is a lack of price transparency, fair value is less objective and requires varying degrees of judgement depending on liquidity, concentration, uncertainty of market factors, pricing assumptions and other risks affecting the specific instrument.

b. Determining fair values of financial
instruments

The input for this model comes from observable market data. When observable market data are not available, management considers necessary inputs and assumptions to determine the fair value. The above considerations include liquidity and volatility feedback model for derivative transactions and long term discount rate, the level of early payment and the level of default assumption.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi: (lanjutan)

c. Imbalan kerja karyawan

Nilai kini atas imbalan kerja karyawan tergantung dari banyaknya faktor yang dipertimbangkan oleh aktuaris berdasarkan beberapa asumsi. Perubahan atas asumsi-asumsi tersebut akan mempengaruhi *carrying amount* atas imbalan kerja karyawan.

Asumsi yang digunakan dalam menentukan biaya atau pendapatan bersih untuk imbalan kerja termasuk tingkat diskonto. Grup menentukan tingkat diskonto yang tepat pada setiap periode pelaporan. Ini merupakan tingkat suku bunga yang digunakan untuk menentukan nilai kini atas arus kas masa depan yang diestimasi akan digunakan untuk membayar imbalan kerja. Dalam menentukan tingkat diskonto yang tepat, Grup mempertimbangkan tingkat suku bunga atas Obligasi Pemerintah yang mempunyai jatuh tempo yang menyerupai jangka waktu imbalan kerja karyawan.

Asumsi kunci liabilitas pensiun lainnya sebagian ditentukan berdasarkan kondisi pasar saat ini.

d. Provisi perpajakan

Grup menentukan provisi perpajakan berdasarkan estimasi atas kemungkinan adanya tambahan beban pajak. Jika hasil akhir dari hal ini berbeda dengan jumlah yang dicatat semula, maka perbedaan tersebut akan berdampak terhadap laba/rugi.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Key sources of estimation uncertainty: (continued)

c. Employee benefit

The present value of the employee benefit obligations depends on a number of factors that are determined on an actuarial basis using a number of assumptions. Any changes in these assumptions will impact the carrying amount of employee benefit obligations.

The assumptions used in determining the net cost or for employee benefits include the discount rate. The Group determines the appropriate discount rate at the end of each reporting period. This is the interest rate that should be used to determine the present value of estimated future cash outflows expected to be required to settle the pension obligations. In determining the appropriate discount rate, the Group considers the interest rates of Government Bonds that have terms to maturity approximating the terms of the related employee benefit liability.

Other key assumptions for pension obligations are partly based on current market conditions.

d. Provision for taxes

The Group provides for tax provision based on estimates whether the additional taxes will be due. Where the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will impact the profit/loss.

(Expressed in millions of Rupiah, unless otherwise stated)

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)

Sumber utama ketidakpastian estimasi: (lanjutan)

e. Liabilitas asuransi untuk kontrak asuransi
dan reasuransi aset

Aset yang timbul dari kontrak reasuransi juga dihitung dengan menggunakan metode di atas. Selain itu, pemulihan aset ini dinilai secara periodik untuk memastikan bahwa jumlahnya mencerminkan jumlah yang pada akhirnya akan diterima, mempertimbangkan faktor-faktor seperti *counterparty* dan risiko kredit. Penurunan nilai diakui dimana terdapat bukti objektif bahwa Perusahaan tidak dapat menerima jumlah yang terhutang untuk itu dan jumlah ini dapat diukur secara andal.

Cadangan teknis Entitas Anak dicatat di laporan posisi keuangan konsolidasian sebagai bagian dari "Liabilitas lain-lain" berdasarkan perhitungan teknis asuransi dengan menggunakan asumsi-asumsi aktuarial yaitu asumsi estimasi terbaik dan margin atas risiko pemburukan. Termasuk dalam cadangan teknis adalah liabilitas manfaat polis masa depan, estimasi liabilitas klaim, dan premi yang belum merupakan pendapatan. Entitas Anak menggunakan metode *Gross Premium Reserve* yang menghitung liabilitas manfaat polis masa depan berdasarkan asumsi estimasi terbaik dan margin atas risiko pemburukan.

f. Aset pajak tangguhan

Aset pajak tangguhan diakui atas jumlah pajak penghasilan terpulihkan (*recoverable*) pada periode mendatang sebagai akibat perbedaan temporer yang boleh dikurangkan. Justifikasi manajemen diperlukan untuk menentukan jumlah aset pajak tangguhan yang dapat diakui, sesuai dengan waktu yang tepat dan tingkat laba fiskal di masa mendatang sejalan dengan strategi rencana perpajakan ke depan.

3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)

Key sources of estimation uncertainty: (continued)

e. Insurance liabilities on insurance contracts
and reinsurance assets

Assets arising from reinsurance contracts are also computed using the above methods. In addition, the recoverability of these assets is assessed on a periodic basis to ensure that the balance is reflective of the amounts that will ultimately be received, taking into consideration factors such as *counterparty* and credit risk. Impairment is recognised where there is objective evidence that the Company may not receive amounts due to it and these amounts can be reliably measured.

Technical reserves of the Subsidiary recorded in the consolidated statement of financial position as part of "Other liabilities" are calculated based on insurance technical calculation using certain actuarial assumptions which are based on best estimate assumptions and margin for adverse risk. Included in the technical reserves are liability for future policy benefits, estimated claim liabilities, and unearned premium income. The Subsidiary uses *Gross Premium Reserve* method in calculating liability for future policy benefits which are based on best estimate assumptions and margin for adverse risk.

f. Deferred tax asset

Deferred tax assets are recognized for the future recoverable taxable income arising from temporary difference. Management judgment is required to determine the amount of deferred tax assets that can be recognized, based upon the likely timing on level of future taxable profits together with future strategic planning.

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)

Sumber utama ketidakpastian estimasi: (lanjutan)

g. Revaluasi aset tetap

Revaluasi aset tetap Grup bergantung pada pemilihan asumsi yang digunakan oleh penilai independen dalam menghitung jumlah-jumlah tersebut. Asumsi tersebut termasuk antara lain: tingkat diskonto, nilai tukar, tingkat inflasi dan tingkat kenaikan pendapatan dan biaya. Grup berkeyakinan bahwa asumsi tersebut adalah wajar dan sesuai, perbedaan signifikan dalam asumsi yang ditetapkan Grup dapat mempengaruhi secara material nilai aset tetap yang direvaluasi.

h. Konsolidasian entitas terstruktur

Dalam menentukan tingkat pengendalian yang dimiliki, Grup mempertimbangkan apakah entitas tersebut memenuhi definisi Entitas Terstruktur dan apakah Grup, secara substansi, mengendalikan entitas tersebut.

Ketika Grup, secara substansi, mengendalikan entitas terstruktur tersebut, entitas tersebut dikonsolidasikan oleh Grup.

i. Menentukan jangka waktu kontrak dengan opsi perpanjangan dan penghentian kontrak - Grup sebagai lessee

Grup menentukan jangka waktu sewa sebagai jangka waktu sewa yang tidak dapat dibatalkan, bersama dengan periode yang dicakup oleh opsi untuk memperpanjang masa sewa jika dipastikan akan dilaksanakan, atau periode apapun yang dicakup oleh opsi untuk menghentikan sewa, jika cukup wajar untuk tidak dilakukan.

Grup memiliki beberapa kontrak sewa yang mencakup opsi perpanjangan dan penghentian jangka waktu sewa. Grup menerapkan penilaian dalam mengevaluasi apakah dapat dipastikan jika akan menggunakan opsi untuk memperpanjang atau menghentikan sewa. Hal tersebut dilakukan dengan mempertimbangkan seluruh fakta dan keadaan yang relevan yang memberikan insentif ekonomi untuk melakukan perpanjangan atau penghentian sewa. Setelah tanggal dimulainya, Grup menilai kembali masa sewa, jika terdapat peristiwa atau perubahan signifikan dalam keadaan yang berada dalam kendali dan mempengaruhi apakah lessee cukup pasti untuk mengeksekusi opsi memperpanjang atau menghentikan sewa.

3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)

Key sources of estimation uncertainty: (continued)

g. Fixed asset revaluation

The Group's fixed assets revaluation depends on its selection of certain assumptions used by the independent appraisal in calculating such amounts. Those assumptions include among others: discount rate, exchange rate, inflation rate and revenue and cost increase rate. The Group believes that its assumptions are reasonable and appropriate and significant differences in the Group's assumptions may materially affect the valuation of its fixed assets.

h. Consolidation of structured entities

In determining the degree of control exercised, the Group considers whether these entities meet the definition of Structured Entities and whether the Group, in substance, controls such entities.

When the Group, in substance, controls the entity to which the financial assets have been transferred, the entity is consolidated by the Group.

i. Determine the contract term with extension and contract termination options - the Group as lessee

The Group determines the lease term as non-cancellable term, together with the period covered by the option to extend the lease if it is determined to be exercised, or any period covered by the option to terminate the lease, if it is reasonably certain not to be exercised.

The Group has several lease contracts that include extension and contract termination in the lease terms. The Group applies its judgment in evaluating whether it is certain to exercise the option to extend or terminate the lease. This is done by considering all relevant facts and circumstances that provide economic incentives to extend or terminate the lease. After the commencement date, the Group reassesses the lease term, if there is a significant event or change in circumstances which is under its control and affects whether the lessee is certain enough to exercise the option to extend or terminate the lease.

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)

Sumber utama ketidakpastian estimasi: (lanjutan)

j. Penurunan nilai aset non-keuangan

Grup mengevaluasi penurunan nilai aset apabila terdapat kejadian atau perubahan keadaan yang mengindikasikan bahwa nilai tercatat aset tidak dapat dipulihkan kembali. Faktor-faktor penting yang dapat menyebabkan penelaahan penurunan nilai adalah sebagai berikut:

- a) performa yang tidak tercapai secara signifikan terhadap ekspektasi historis atau proyeksi hasil operasi di masa yang akan datang;
- b) perubahan yang signifikan dalam cara penggunaan aset atau strategi bisnis secara keseluruhan; dan
- c) industri atau tren ekonomi yang secara signifikan bernilai negatif.

Grup mengakui kerugian penurunan nilai apabila nilai tercatat aset melebihi nilai yang dapat dipulihkan. Jumlah terpulihkan adalah nilai yang lebih tinggi antara nilai wajar dikurang biaya untuk menjual dengan nilai pakai aset (atau unit penghasil kas). Jumlah terpulihkan diestimasi untuk aset individual atau, jika tidak memungkinkan, untuk unit penghasil kas yang mana aset tersebut merupakan bagian daripada unit tersebut.

Pembalikan rugi penurunan nilai, untuk aset selain *goodwill*, diakui jika, dan hanya jika, terdapat perubahan estimasi yang digunakan dalam menentukan jumlah terpulihkan aset sejak pengujian penurunan nilai terakhir kali. Pembalikan rugi penurunan nilai tersebut diakui segera dalam laba rugi, tetapi tidak boleh melebihi akumulasi rugi penurunan nilai yang telah diakui sebelumnya. Rugi penurunan nilai yang diakui atas *goodwill* tidak dibalik lagi.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)

Key sources of estimation uncertainty: (continued)

j. Impairment of non-financial assets

The Group assesses impairment of assets whenever events or changes in circumstances that would indicate that the carrying amount of an asset may not be recoverable. The factors that the Group considers important which could trigger an impairment review include the following:

- a) significant underperformance relative to expected historical or projected future operating results;
- b) significant changes in the manner of use of the acquired assets or the strategy for overall business; and
- c) significant negative industry or economic trends.

The Group recognizes an impairment loss whenever the carrying amount of an asset exceeds its recoverable amount. The recoverable amount is the higher of an asset's (or cash-generating unit's) fair value less costs to sell and its value in use. Recoverable amounts are estimated for individual assets or, if it is not possible, for the cash-generating unit to which the asset belongs.

Reversal on impairment loss for assets other than goodwill would be recognized if, and only if, there has been a change in the estimates used to determine the assets' recoverable amount since the last impairment test was carried out. Reversal on impairment losses will be immediately recognized in profit or loss, but not in excess of any accumulated impairment loss previously recognized. Impairment losses relating to goodwill would not be reversed.

**3. PENGGUNAAN ESTIMASI DAN PERTIMBANGAN
AKUNTANSI YANG PENTING (lanjutan)**

Sumber utama ketidakpastian estimasi (lanjutan)

k. *Additional Tier 1 Perpetual Non-Cumulative Capital Securities* ("AT-1 Capital")

Dalam mengklasifikasikan *AT-1 Capital* sebagai liabilitas keuangan, Bank telah menetapkan bahwa dalam *terms and conditions*, terdapat klausul *mandatory redemption - redemption for a capital trigger event* dimana ketika *Capital Adequacy Ratio* ("CAR") BNI mencapai rasio tertentu maka BNI harus melakukan pelunasan terhadap pokok terutang dan bunga dari *AT-1 Capital*. Hal ini telah memenuhi kriteria *contingent settlement* yang bersifat *genuine* dan tidak dapat dihindari sehingga akan menimbulkan kewajiban kontraktual dimasa yang akan datang.

Dalam mengklasifikasikan *AT-1 Capital* pada liabilitas keuangan, Bank telah menetapkan bahwa *AT-1 Capital* tersebut telah memenuhi persyaratan klasifikasi sebagaimana disebutkan di atas.

l. Kombinasi bisnis

Proses awal akuisisi melibatkan pengidentifikasian dan penentuan nilai wajar yang akan dialokasikan ke aset dan liabilitas yang dapat diidentifikasi dari entitas yang diakuisisi. Nilai wajar dari aset tetap dan aset tidak berwujud ditentukan oleh penilai independen dengan mengacu pada biaya penggantian atau nilai sekarang dari arus kas bersih yang diharapkan dari aset tersebut. Setiap perubahan dalam asumsi yang digunakan dan estimasi yang dibuat dalam menentukan nilai wajar, dan kemampuan manajemen untuk mengukur dengan andal imbalan kontinjensi dari entitas yang diakuisisi akan berdampak pada nilai tercatat aset dan liabilitas tersebut. Manajemen membuat pertimbangan dalam menentukan dasar yang digunakan untuk mencatat jumlah sementara pos-pos yang akuntansi awalnya belum selesai dilaporkan.

**3. USE OF CRITICAL ACCOUNTING ESTIMATES
AND JUDGMENTS (continued)**

Key sources of estimation uncertainty (continued)

k. *Additional Tier 1 Perpetual Non-Cumulative Capital Securities* ("AT-1 Capital")

In classifying AT-1 Capital as a financial liability, the Bank has determined that in terms and conditions, there is a mandatory redemption clause - redemption for a capital trigger event where when BNI's Capital Adequacy Ratio ("CAR") reaches a certain ratio, BNI shall repay the outstanding principal and interest from AT-1 Capital. This has met the criteria for contingent settlement which is genuine and unavoidable hence that it will create contractual obligations in the future.

In classifying AT-1 Capital as a financial liability, the Bank has determined that the AT-1 Capital has met the classification requirements as stated above.

l. Business combination

The initial process on the acquisition involves identifying and determining the fair values to be assigned to the identifiable assets and liabilities of the acquired entities. The fair value of fixed assets and intangible assets are determined by independent valuers by reference to replacement cost or present value of expected net cash flows from the assets. Any changes in the assumptions used and estimates made in determining the fair values, and management's ability to measure reliably the contingent consideration of the acquired entity will impact the carrying amount of these assets and liabilities. Management exercised judgement in determining the basis to record the provisional amounts for the items for which initial accounting is incomplete.

Bank BNI (lanjutan)

Pada tanggal 31 Desember 2023 dan 2022, Giro Wajib Minimum (GWM) Bank telah sesuai dengan Peraturan Bank Indonesia (PBI) No. 24/4/PBI/2022 tanggal 1 Maret 2022 tentang Giro Wajib Minimum Bank Umum Dalam Rupiah dan Valuta Asing Bagi Bank Umum Konvensional dan Peraturan Anggota Dewan Gubernur (PADG) No. 24/8/PADG/2022 tanggal 30 Juni 2022, yang masing-masing sebesar:

	2023	2022
Rupiah		
- GWM Primer Harian*)	6.80%	7.90%
- Rata-rata*)	0.00%	0.00%
- PLM**)	6.80%	7.90%
Mata uang asing***)	5.00%	6.00%
	4.00%	4.00%

*) Mulai berlaku per 1 September 2022. Bank melakukan penyediaan dana untuk kegiatan ekonomi tertentu dan inklusif, sehingga Bank mendapatkan insentif berupa kelonggaran GWM dalam Rupiah pada 31 Desember 2023 sebesar 2,20%. GWM dalam Rupiah yang harus dipenuhi Bank pada 31 Desember 2023 yang seharusnya sebesar 9,00% dengan ketentuan harian 0,00% dan rata-rata 9,00% menjadi sebesar 6,80% dengan ketentuan harian 0,00% dan rata-rata 6,80%.

**) Berdasarkan PADG Nomor 18 Tahun 2023 tanggal 29 November 2023 tentang kewajiban pemenuhan Penyangga Likuiditas Makroprudensial (PLM) ditetapkan perubahan menjadi 5%.

***) Per 16 Maret 2020, berdasarkan PADG Nomor 22/2/PADG/2020 tanggal 13 Maret 2020. Penyesuaian kebijakan pengaturan GWM dengan menurunkan GWM Valuta Asing untuk Bank Umum Konvensional (BUK) sebesar 400 bps dari 8% (delapan persen) menjadi 4% (empat persen).

Giro Wajib Minimum (GWM) adalah simpanan minimum yang wajib dipelihara oleh Bank dalam bentuk saldo Rekening Giro pada Bank Indonesia. Penyangga Likuiditas Makroprudensial (PLM) adalah cadangan minimum yang wajib dipelihara oleh Bank berupa Sertifikat Bank Indonesia (SBI), Sertifikat Deposito Bank Indonesia (SDBI), Sukuk Bank Indonesia (SukBI) dan/atau Surat Berharga Negara (SBN). Giro RIM adalah tambahan simpanan minimum yang wajib dipelihara oleh Bank dalam bentuk saldo Rekening Giro pada Bank Indonesia, jika RIM Bank dibawah minimum RIM target Bank Indonesia (84%) atau jika di atas maksimum RIM target Bank Indonesia (94%) dan Kewajiban Penyediaan Modal Minimum (KPMM) Bank lebih kecil dari KPMM Insentif Bank Indonesia sebesar 14%.

5. CURRENT ACCOUNTS WITH BANK INDONESIA (continued)

Bank BNI (continued)

As of 31 December 2023 and 2022, the Bank's Minimum Statutory Reserve complied with Bank Indonesia (BI) Regulation PBI No. 24/4/PBI/2022 dated 1 March 2022 and Regulation of Members of The Board of Governors (PADG) No. 24/8/PADG/2022 dated 30 June 2022 concerning Minimum Statutory Reserve of Commercial Banks with BI in Rupiah and foreign currency, which are as follows:

	2023	2022
Rupiah		
- Primary Minimum Statutory Reserve - Daily*)	6.80%	7.90%
- Average*)	0.00%	0.00%
- PLM**)	6.80%	7.90%
Foreign Currencies***)	5.00%	6.00%
	4.00%	4.00%

*) Effective from 1 September 2022. Bank provides funds for certain and inclusive economic activities, so that Bank gets incentives in the form of relaxation of the Statutory Reserves in Rupiah on 31 December 2023 amounting to 2,20%. Statutory Reserves in Rupiah that must be fulfilled by the Bank on 31 December 2023 which should be 9,00% with daily provisions of 0,00% and an average of 9,00% become 6,80% with daily provisions of 0,00% and an average of 6,80%.

**) Based on PADG No. 18 / 2023 dated 29 November 2023 regarding fulfillment of Macroprudential Liquidity Buffer (PLM) with changes to 5%.

***) As of 16 March 2020, based on PADG No. 22/2/PADG/2020 dated 13 March 2020. Adjusting the statutory reserve requirement policy by lowering the Foreign Exchange Reserve Requirement for Bank Umum Konvensional (BUK) by 400 bps from 8% (eight percent) to 4% (four percent).

Minimum Statutory Reserve is a minimum reserve that should be maintained by the Bank in Current Accounts with Bank Indonesia. Macroprudential Liquidity Buffer are the minimum reserves that should be maintained by the Bank which comprised of Certificates of Bank Indonesia (SBI), Certificates Deposit of Bank Indonesia (SDBI), Sukuk of Bank Indonesia (SukBI), and/or Government Securities (SBN). RIM Current Account is the additional reserve that should be maintained by the Bank in the form of Current Accounts with Bank Indonesia, if the Bank's RIM is below the minimum of RIM targeted by Bank Indonesia (84%) or if the Bank's RIM is above the maximum of RIM targeted by Bank Indonesia (94%) and the Capital Adequacy Ratio (CAR) is below Bank Indonesia requirement of 14%.

h. Pinjaman yang direstrukturisasi

Berikut ini adalah jenis dan jumlah kredit yang telah direstrukturisasi per 31 Desember 2023 dan 2022:

	2023
Perpanjangan jangka waktu	25,939,841
Penurunan suku bunga kredit	23,729,178
Lainnya*)	26,121,994
	75,791,013

*) Program restrukturisasi lain-lain terutama terdiri dari penambahan fasilitas kredit, Perjanjian Penyelesaian Hutang (PPH) dan *Interest Balloon Payments (IBP)*.

Jumlah kredit yang telah direstrukturisasi dan dalam kategori kredit bermasalah pada tanggal 31 Desember 2023 dan 2022 adalah masing-masing sebesar Rp5.428.100 dan Rp10.192.217.

BNI telah melakukan restrukturisasi kredit untuk debitur yang terdampak pandemi Covid-19 sesuai dengan Peraturan Otoritas Jasa Keuangan No.17/POJK.03/2021 (POJK 17/2021) tentang Perubahan Kedua Atas Peraturan Otoritas Jasa Keuangan Nomor 11/POJK.03/2020 Tentang Stimulus Perekonomian Nasional Sebagai Kebijakan Countercyclical Dampak Penyebaran Coronavirus Disease 2019, dimana peraturan tersebut diperpanjang sampai dengan 31 Maret 2024 melalui Siaran Pers OJK No. SP 85/DHMS/OJK/XI/2022 tanggal 28 November 2022 tentang Perpanjangan Kebijakan Restrukturisasi Kredit dan Pembiayaan secara Targeted dan Sektoral Atasi Dampak Lanjutan Pandemi Covid-19.

i. Pinjaman sindikasi

Pinjaman sindikasi merupakan pinjaman yang diberikan kepada debitur berdasarkan perjanjian pembiayaan bersama dengan bank-bank lain.

Keikutsertaan Grup dalam pinjaman sindikasi dengan bank-bank lain adalah sebesar Rp97.600.163 dan Rp48.079.093 masing-masing pada tanggal 31 Desember 2023 dan 2022.

h. Restructured loans

Below are the types and amounts of restructured loans as of 31 December 2023 and 2022:

	2023	2022	
Perpanjangan jangka waktu	25,939,841	26,100,325	<i>Extension of loan maturity dates</i>
Penurunan suku bunga kredit	23,729,178	27,824,140	<i>Reduction of interest rates</i>
Lainnya*)	26,121,994	38,134,764	<i>Others*)</i>
	75,791,013	92,059,229	

*) *Other restructuring schemes mainly includes additions of loan facilities, debt settlement agreements (PPH) and Interest Balloon Payments (IBP).*

The total of restructured loans that are categorised as non-performing loan amounted to Rp5,428,100 and Rp10,192,217 as of 31 December 2023 and 2022, respectively.

BNI has undertaken credit restructuring for debtors affected by the Covid-19 pandemic in accordance with Financial Services Authority Regulation No. 17/POJK.03/2021 (POJK 17/2021) on the Second Amendment to Financial Services Authority Regulation No. 11/POJK.03/2020 Concerning National Economic Stimulus as a Countercyclical Policy Impacting the Spread of Covid-19. This regulation has been extended until 31 March 2024, as communicated in the Financial Services Authority Press Release No. SP 85/DHMS/OJK/XI/2022 dated 28 November 2022, regarding the Extension of Credit Restructuring Policies in a Targeted and Sectoral to address ongoing impacts of the Covid-19 pandemic.

i. Syndicated loans

Syndicated loans represent loans provided to debtors based on syndication agreements with other banks.

Group participation in syndicated loans with other banks amounted to Rp97,600,163 and Rp48,079,093 as of 31 December 2023 and 2022, respectively.

12. PINJAMAN YANG DIBERIKAN (lanjutan)

m. Informasi pokok lainnya sehubungan dengan pinjaman yang diberikan

Grup memiliki agunan atas pinjaman yang diberikan dalam bentuk kas, deposito, agunan yang diikat dengan hipotik, garansi serta jaminan dalam bentuk aset lainnya.

Pinjaman karyawan adalah pinjaman yang diberikan kepada karyawan dengan tingkat bunga sebesar 3% - 5% per tahun yang ditujukan untuk pembelian rumah dan keperluan lainnya dengan jangka waktu berkisar antara 1 tahun sampai 20 tahun. Pembayaran pokok pinjaman dan bunga dilunasi melalui pemotongan gaji setiap bulan.

Pada tanggal 31 Desember 2023 dan 2022, tidak terdapat pelanggaran maupun pelampauan Batas Maksimum Pemberian Kredit (BMPK) kepada pihak berelasi dan pihak ketiga sesuai dengan peraturan yang ditetapkan Otoritas Jasa Keuangan.

12. LOANS (continued)

m. Other significant information relating to loans

The Group holds collateral against loans in the form of cash, deposits, registered mortgages, guarantees and other assets held as collaterals.

Loans to employees which carried interest rate of 3% - 5% per annum are intended for purchase of houses and other necessities with 1 year to 20 years period. The loan principal and interest payments are settled through monthly payroll deductions.

As of 31 December 2023 and 2022, there is neither any breach nor violation of Legal Lending Limit (LLL) to related parties and third parties as required by Regulation of Financial Services Authority.

13. OBLIGASI PEMERINTAH

Informasi mengenai Obligasi Pemerintah diungkapkan pada Catatan 46e.

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

18. ASET LAIN-LAIN - BERSIH (lanjutan)

Pada tanggal 31 Desember 2023, piutang bunga sebagian besar merupakan bunga yang berasal dari pinjaman yang diberikan dan Obligasi Pemerintah masing-masing sebesar Rp1.885.321 dan Rp1.798.596 (31 Desember 2022: Rp1.591.451 dan Rp1.639.814).

BNI telah melakukan upaya penyelesaian atas agunan yang diambil alih dengan melakukan upaya penjualan dalam bentuk lelang atau pengambilalihan agunan oleh investor atas agunan yang diambil alih.

Properti terbengkalai termasuk di dalam pos "lain-lain" sebesar Rp2.734 setelah dikurangi cadangan kerugian penurunan nilai sebesar Rp27.260 dan akumulasi penyusutan properti terbengkalai sebesar Rp1.995 pada tanggal 31 Desember 2023 dan sebesar RpNihil setelah dikurangi cadangan kerugian penurunan nilai sebesar Rp27.260 dan akumulasi penyusutan properti terbengkalai sebesar Rp1.726 pada tanggal 31 Desember 2022.

BNI telah melakukan upaya penyelesaian atas properti terbengkalai dalam bentuk pemanfaatan untuk kegiatan operasional Bank (kantor, outlet, galeri, rumah dinas dan gudang kearsipan).

Manajemen berpendapat bahwa cadangan kerugian penurunan nilai yang dibentuk atas aset-aset yang disebutkan di atas telah memadai.

18. OTHER ASSETS - NET (continued)

As of 31 December 2023, interest receivables are mostly comprised of interest from loans and Government Bonds amounting to Rp1,885,321 and Rp1,798,596, respectively (31 December 2022: Rp1,591,451 and Rp1,639,814).

BNI has made efforts to settle foreclosed collaterals by making an attempt to sell in the form of an auction or take over of collateral by investors on foreclosed collaterals.

Abandoned properties are included in "Others" amounting to Rp2,734, net of allowance for impairment losses of Rp27,260 and accumulated depreciation of Rp1,995, as of 31 December 2023 and amounting to RpNil, net of allowance for impairment losses of Rp27,260 and accumulated depreciation of abandoned property amounting to Rp1,726, as of 31 December 2022.

BNI has made efforts to resolve abandoned properties by utilizing them for the Bank's operational activities (offices, outlets, gallery, official houses and warehouse).

Management believes that the allowance for impairment losses on the respective assets outlined above is adequate.

Pada tanggal 31 Desember 2023 dan 2022, Grup melakukan peninjauan kembali atas masa manfaat, metode penyusutan, dan nilai residu aset tetap dan menyimpulkan bahwa tidak terdapat perubahan atas metode dan asumsi tersebut.

As of 31 December 2023 and 2022, the Group performed a review on useful life, depreciation method, and residual value of fixed assets and concluded that there was no change in those methodology and assumptions.

Beban penyusutan untuk tahun yang berakhir pada tanggal 31 Desember 2023 dan 2022 masing-masing sebesar Rp1.719.216 dan Rp2.359.225 dicatat pada beban umum dan administrasi pada laporan laba rugi.

Depreciation expense for the year ended 31 December 2023 and 2022 amounted to Rp1,719,216 and Rp2,359,225 are recorded on general and administrative expense in the statement of profit or loss.

Aset tetap yang telah terdepresiasi penuh namun masih digunakan oleh Grup sebesar Rp9.616.323 dan Rp8.676.026 masing-masing pada tanggal 31 Desember 2023 dan 2022, antara lain berupa perlengkapan kantor dan kendaraan bermotor.

The fixed assets that have been fully depreciated but still in use by the Group amounted to Rp9,616,323 and Rp8,676,026 as of 31 December 2023 and 2022, respectively, including, among others, office equipment and motor vehicles.

Manajemen berkeyakinan bahwa tidak terdapat penurunan nilai aset tetap yang dimiliki Grup selama tahun berjalan karena manajemen berpendapat bahwa nilai tercatat aset tetap tidak melebihi estimasi nilai yang dapat diperoleh kembali.

Management believes that there is no impairment in the value of fixed assets owned by the Group during the year because management believes that the carrying amounts of fixed assets do not exceed the estimated recoverable amount.

Aset tetap Bank pada tanggal 31 Desember 2023 dan 2022 diasuransikan terhadap risiko kebakaran dan pencurian dengan nilai pertanggungan sebesar Rp18.714.609 (31 Desember 2022: Rp18.694.506). Manajemen berpendapat bahwa nilai pertanggungan tersebut cukup untuk menutupi kemungkinan kerugian atas aset tersebut.

As of 31 December 2023 and 2022, the fixed assets of the Bank were insured against risk of fire and theft with sum insured amounting to Rp18,714,609 (31 December 2022: Rp18,694,506). Management believes that the sum insured is adequate to cover possible losses on the assets insured.

	<u>1,239,297</u>	<u>707,409</u>

Estimasi persentase tingkat penyelesaian aset dalam penyelesaian pada tanggal 31 Desember 2023 adalah berkisar antara 89% - 97% dan 31 Desember 2022: 86% - 95%. Aset dalam penyelesaian pada tanggal 31 Desember 2023 tersebut diperkirakan akan selesai pada tahun 2024.

Nilai wajar tanah dan bangunan yang dimiliki Grup pada tanggal 31 Desember 2023 dan 2022 tidak berbeda jauh dengan nilai tercatat karena Grup melakukan penilaian pada tanah dan bangunan pada tanggal 30 September 2021. Pada tahun 2023, PT Bank Hibank Indonesia melakukan perubahan pencatatan pada tanah dan bangunan mengikuti kebijakan Grup dengan menggunakan metode revaluasi. PT Bank Hibank Indonesia telah menugaskan jasa penilai terdaftar untuk melakukan penilaian (revaluasi) aset tetap (tanah dan bangunan) pada tanggal 19 Desember 2023.

Tidak ada aset tetap yang dijaminkan.

Berdasarkan keputusan Ketua Badan Pengawas Pasar Modal Dan Lembaga Keuangan No. KEP-347/BL/2012 tanggal 25 Juni 2012 tentang Penyajian dan Pengungkapan Laporan Keuangan Emiten atau Perusahaan Publik butir 27.e, dengan mempertimbangkan nilai buku aset tetap (tanah dan bangunan) yang telah dilakukan revaluasi pada tahun 2015 dan 2018, maka pada tanggal 31 Desember 2021 Grup telah menugaskan perusahaan jasa penilai terdaftar untuk melaksanakan penilaian (revaluasi) aset tetap (tanah dan bangunan). Grup melakukan penilaian kembali atas tanah dan bangunan tersebut bukan untuk tujuan perpajakan tetapi hanya untuk pemenuhan ketentuan Bapepam dan LK tersebut.

Penilaian atas tanah dan bangunan dilakukan oleh penilai independen eksternal sebagai berikut:

- KJPP Toha Okky Heru & Rekan
- KJPP Rengganis Hamid & Rekan
- KJPP Toto Suharto & Rekan
- KJPP Abdullah Fitriantoro & Rekan

Penilaian atas tanah dan bangunan dilakukan oleh penilai independen eksternal KJPP Ova Mustopa Soleh & Rekan untuk PT Bank Hibank Indonesia.

19. FIXED ASSETS AND RIGHT-OF-USE OF ASSETS (continued)

Construction in progress as of 31 December 2023 and 2022 are as follows:

	2023	2022
Land	-	119,121
Buildings	450,350	262,613
Office equipment	788,947	325,675
	<u>1,239,297</u>	<u>707,409</u>

The estimated percentage of completion of construction in progress as of 31 December 2023 is between 89% - 97% and 31 December 2022: 86% - 95%. Those construction in progress as of 31 December 2023 are estimated to be completed in 2024.

There is no significant difference between fair value and carrying value of land and building owned by the Group as of 31 December 2023 and 2022 because the Group performed revaluation over land and buildings on 30 September 2021. In 2023, PT Bank Hibank Indonesia change the recording of its land and buildings following the Group policy which using revaluation method. PT Bank Hibank Indonesia has assigned registered independent appraisers to appraise (revalue) its fixed assets (land and buildings) dated 19 December 2023.

There were no fixed assets pledged as collateral.

Based on Decision of Chairman of Bapepam and LK No. KEP-347/BL/2012 dated 25 June 2012, about the presentation and disclosure in financial report of issuer or a public company in point 27.e, by considering the book value of fixed assets (land and buildings) that on which revaluation has been conducted in 2015 and 2018, therefore on 31 December 2021, the Group assigned registered independent appraisers to appraise (revalue) its fixed assets (land and buildings). The Group has revalued the value of that land and buildings not for tax purpose rather for the compliance of the aforementioned Bapepam and LK regulation.

The valuations of land and buildings are performed by the following external independent appraisers:

- KJPP Toha Okky Heru & Rekan
- KJPP Rengganis Hamid & Rekan
- KJPP Toto Suharto & Rekan
- KJPP Abdullah Fitriantoro & Rekan

The valuations of land and buildings are performed by KJPP Ova Mustopa Soleh & Rekan external independent appraisers:

19. ASET TETAP DAN ASET HAK-GUNA (lanjutan)

Penilaian dilakukan berdasarkan Standar Penilaian Indonesia, ditentukan berdasarkan transaksi pasar terkini dan dilakukan dengan ketentuan - ketentuan yang lazim. Metode penilaian yang dipakai adalah metode data pasar, metode biaya dan metode pendapatan. Elemen-elemen yang digunakan dalam perbandingan data untuk menentukan nilai wajar aset antara lain:

- a) Jenis dan hak yang melekat pada properti
- b) Kondisi pasar
- c) Lokasi
- d) Karakteristik fisik
- e) Karakteristik dalam menghasilkan pendapatan
- f) Karakteristik tanah

Informasi mengenai penilaian kembali aset tetap pada tanggal 31 Desember 2021 untuk kelompok aset tanah dan bangunan Grup di Indonesia dan luar negeri adalah sebagai berikut:

	Nilai Buku sebelum Revaluasi/ Carrying Amount Before Revaluation	Nilai Buku Setelah Revaluasi/ Carrying Amount after Revaluation	Keuntungan Revaluasi bersih/ Net gain revaluation	
Tanah	15,350,940	15,968,903	617,963	Land
Bangunan	5,842,108	6,137,001	294,893	Buildings
Jumlah	21,193,048	22,105,904	912,856	Total

Penilaian kembali yang dilakukan atas tanah menghasilkan jumlah kenaikan nilai tercatat sebesar Rp617.963 yang terdiri dari kenaikan nilai tanah yang dicatat sebagai "Penghasilan Komprehensif Lain" sebesar Rp669.629 dan penurunan nilai tanah yang diakui sebagai beban tahun 2021 sebesar Rp51.666.

Kenaikan nilai tercatat yang timbul dari revaluasi bangunan dicatat sebesar Rp294.893. Kenaikan ini terdiri dari kenaikan nilai bangunan yang dicatat sebagai "Penghasilan Komprehensif Lain" sebesar Rp315.945 dan penurunan nilai bangunan yang diakui sebagai beban tahun 2021 sebesar Rp21.052.

Secara total kenaikan nilai tercatat yang timbul dari revaluasi tanah dan bangunan dicatat sebagai "Penghasilan Komprehensif Lain" adalah sebesar Rp912.856. Penurunan nilai tercatat yang timbul dari revaluasi dicatat sebagai beban pada tahun 2021 adalah sebesar Rp72.718.

Informasi mengenai penilaian kembali aset tetap pada tanggal 31 Desember 2023 untuk kelompok aset tanah dan bangunan PT Bank Hibank di Indonesia adalah sebagai berikut:

	Nilai Buku sebelum Revaluasi/ Carrying Amount Before Revaluation	Nilai Buku Setelah Revaluasi/ Carrying Amount after Revaluation	Keuntungan Revaluasi bersih/ Net gain revaluation	
Tanah	13,408	22,923	9,515	Land
Bangunan	288	770	482	Buildings
Jumlah	13,696	23,693	9,997	Total

19. FIXED ASSETS AND RIGHT-OF-USE OF ASSETS (continued)

Valuations are performed based on Indonesian Valuation Standards, determined based on reference to recent market transactions done on arm's length terms and appropriate requirements. The valuation methods used are market value approach, cost approach and income approach. Elements used in data comparison to determine fair value of assets, among others are as follows:

- a) Types and rights attached to the property
- b) Market condition
- c) Location
- d) Physical characteristics
- e) Income producing characteristics
- f) Land characteristics

Information on revaluation of land and buildings of the Group on 31 December 2021 located in Indonesia and overseas are as follows:

The revaluation of land resulted in an increase in the carrying amount of land amounting to Rp617,963 which consists of the increase in the carrying amount of land recognized as "Other Comprehensive Income" amounting to Rp669,629 and a decrease in carrying amount of land recognized in 2021 expenses amounting to Rp51,666.

Increase in carrying amount of buildings from the revaluation of building is recorded at Rp294,893. The increase consists of the increase in the carrying amount of buildings recognized in "Other Comprehensive Income" amounting to Rp315,945 and decrease in the carrying amount of buildings recognized in 2021 expenses amounting to Rp21,052.

In total, the increase in the carrying amount from revaluation of land and buildings is recognized in "Other Comprehensive Income" amounting to Rp912,856. The decrease of carrying amount from revaluation results recognized in 2021 expenses amounting to Rp72,718.

19. ASET TETAP DAN ASET HAK-GUNA (lanjutan)

Jumlah pengeluaran kas untuk sewa selama tahun yang berakhir pada 31 Desember 2023 adalah Rp240.769 (31 Desember 2022: Rp341.741).

Beban penyusutan untuk tahun yang berakhir pada tanggal 31 Desember 2023 dan 2022 masing-masing sebesar Rp585.308 dan Rp503.906 dicatat pada beban umum dan administrasi pada laporan laba rugi.

19. FIXED ASSETS AND RIGHT-OF-USE OF ASSETS (continued)

The total cash outflow for leases for the years ended 31 December 2023 is amounting to Rp240,769 (31 December 2022: Rp341,741).

Depreciation expense for the years ended 31 December 2023 and 2022 amounted to Rp585,308 and Rp503,906 are recorded on general and administrative expense in the statement of profit or loss.

20. ASET TAKBERWUJUD

Aset takberwujud terdiri dari:

	<u>2023</u>	<u>2022</u>	
Goodwill	727,786	727,786	Goodwill
Hubungan pelanggan	16,637	13,966	Customer relationships
Merek dagang	-	10,559	Trademarks
	<u>744,423</u>	<u>752,311</u>	

20. INTANGIBLE ASSETS

Intangible assets consist of the following:

Pada bulan Mei 2022, Grup telah mengakuisisi PT Bank Hibank Indonesia. Atas transaksi ini, Grup memperoleh goodwill dan aset takberwujud tertentu berupa kontrak hubungan pelanggan dan merek dagang.

Penurunan nilai atas goodwill

Pengujian penurunan nilai atas goodwill yang dilakukan setiap tahun (pada tanggal 31 Desember) dan ketika terdapat suatu indikasi bahwa nilai tercatatnya mengalami penurunan nilai.

Nilai terpulihkan ditentukan berdasarkan perhitungan nilai wajar dikurangi biaya yang menggunakan metode *Discounted Cash Flow* 5 tahun. Grup menentukan unit penghasil kas ("UPK") sejalan dengan Bank Hibank sebagai UPK sendiri. Nilai tersebut dikategorikan berada dalam kategori pengukuran nilai wajar level 3.

Asumsi kunci yang digunakan dalam perhitungan nilai wajar dikurangi biaya untuk menjual pada tanggal 31 Desember 2023 adalah sebagai berikut:

	<u>31 Desember/ December 2023</u>	
Tingkat pertumbuhan	4.94%	Growth rate
Tingkat diskonto (WACC)	9.80%	Discount rate (WACC)

Tidak ada penurunan nilai goodwill yang diidentifikasi.

Lihat Catatan 43 untuk informasi mengenai akuisisi PT Bank Hibank Indonesia.

In May 2022, the Group acquired PT Bank Hibank Indonesia. As a result of this acquisition, the Group recognised goodwill and certain intangible assets, such as contractual customer relationships and trademarks.

Impairment of goodwill

Goodwill are tested for impairment annually (as at 31 December) and when circumstances indicate that the carrying value may be impaired.

The recoverable amount was determined based on fair value less cost of disposal calculations that uses the 5 years Discounted Cash Flow method. The Group determine the cash generating unit ("CGU") aligned with the Bank Hibank as a separate CGU. The value is within the category of fair value measurement level 3.

Certain key assumptions used in the fair value less cost of disposal calculation at 31 December 2023 are as follows

No impairment of the goodwill was identified.

Refer to Note 43 for details acquisition of PT Bank Hibank Indonesia.

(Expressed in millions of Rupiah, unless otherwise stated)

27. PENYISIHAN (lanjutan)

- a. Perubahan cadangan atas perkara hukum adalah sebagai berikut:

	2023	2022	
Saldo awal	14,674	44,358	Beginning balance
Pembalikan selama tahun berjalan	(7,000)	(29,684)	Reversal during the year
	7,674	14,674	

Bank saat ini masih menghadapi permasalahan hukum diantaranya dengan debitur, pemilik dana dan/atau pihak ketiga. Saat ini permasalahan hukum tersebut masih dalam proses/upaya hukum.

Jumlah klaim terhadap Bank dan estimasi biaya penyelesaian perkara atas tuntutan hukum yang belum selesai pada tanggal 31 Desember 2023 dan 2022 masing-masing sebesar Rp7.660 dan Rp14.654. Pada tanggal 31 Desember 2023 dan 2022, Manajemen berpendapat bahwa jumlah cadangan atas perkara hukum telah memadai.

- b. Perubahan nilai tercatat bruto pada komitmen dan kontinjensi adalah sebagai berikut:

27. PROVISIONS (continued)

- a. The movements of the allowance for legal cases are as follows:

The Bank has a number of outstanding litigation cases, including lawsuits with debtors, fund owners and/or third parties. Currently, litigation cases are still in legal process.

The Bank's total potential financial exposure and estimation on settlement of legal cases arising from outstanding lawsuits as of 31 December 2023 and 2022 amounted to Rp7,660 and Rp14,654, respectively. As of 31 December 2023 and 2022, Management believes that the provision for legal cases is adequate.

- b. The movements of gross carrying amount on commitments and contingencies are as follows:

	2023

28. LIABILITAS LAIN-LAIN (lanjutan)

Term Deposit Valas Devisa Hasil Ekspor merupakan suatu instrumen dimana dana devisa hasil ekspor dari rekening khusus eksportir ditempatkan pada Bank Indonesia melalui rekening Bank sesuai mekanisme pasar.

Utang ke pemegang polis

Utang kepada pemegang polis merupakan liabilitas Entitas Anak yang terdiri dari liabilitas kontrak asuransi jangka panjang, liabilitas manfaat polis masa depan, cadangan premi yang belum merupakan pendapatan dan estimasi klaim.

Rincian jumlah utang kepada pemegang polis adalah sebagai berikut:

	<u>2023</u>	<u>2022</u>
Utang klaim	1,533	2,865
Cadangan atas premi yang belum mendapatkan pendapatan	134,610	89,490
Estimasi liabilitas klaim	259,964	264,869
Liabilitas manfaat polis masa depan	10,176,551	9,286,606
Penyisihan manfaat polis masa depan dan kontribusi yang belum menjadi hak	135,181	133,615
Liabilitas kepada pemegang unit link	6,282,559	6,170,446
<i>Ujrah</i> diterima dimuka	20,572	19,788
	<u>17,010,970</u>	<u>15,967,679</u>

Grup mengakui liabilitas manfaat polis masa depan, penyisihan kontribusi yang belum menjadi hak, estimasi liabilitas klaim dan premi yang belum merupakan pendapatan berdasarkan perhitungan internal aktuaris pada tanggal 31 Desember 2023 dan 2022.

a. Liabilitas manfaat polis masa depan

Liabilitas manfaat polis masa depan merupakan total dana yang disediakan untuk seluruh kewajiban yang timbul dari persyaratan yang tertera pada polis-polis yang masih berlaku pada tanggal laporan posisi keuangan. Perhitungan liabilitas manfaat polis masa depan menggunakan asumsi-asumsi aktuarial sebagai berikut:

28. OTHER LIABILITIES (continued)

Term Deposits of Foreign Exchange from Export Proceeds is an instrument where foreign exchange from export proceeds from exporters' special account are placed in Bank Indonesia through Bank's accounts in accordance with market mechanisms.

Obligation to policyholders

Obligation to policyholders represent liabilities of Subsidiary which consist of liabilities for long-term insurance contracts, liabilities for future policy benefits, unearned premium reserves and estimated claims.

Details of obligation to policyholders represent liabilities are as follows:

*Obligation to policyholders
Unearned premium reserves
estimated claim liabilities
Estimated claim liabilities
Liabilities for future
policy benefits
Provision for liabilities
for future policy benefits
and unearned contributions
Liabilities to unit linked
holders
Unearned Ujrah*

The Group recognized liabilities for future policy benefits, unearned contributions provisions, estimated claim liabilities and unearned premiums as of 31 December 2023 and 2022, based on internal actuary's calculations.

a. Liabilities for future policy benefits

Liabilities for future policy benefits represents amount provided for all obligations arising from the terms of the policies in force at the statement of financial position. The computation of liabilities for future policy benefits is based on the following actuarial assumptions:

Tabel berikut menyajikan sensitivitas dari nilai liabilitas asuransi terhadap perubahan asumsi yang digunakan dalam estimasi liabilitas asuransi. Korelasi asumsi akan memiliki dampak yang signifikan dalam menentukan cadangan teknis, tetapi untuk menunjukkan dampak akibat perubahan asumsi, asumsi harus diubah secara individual. Tabel ini juga menunjukkan dampak terhadap cadangan teknis akibat perubahan asumsi aktuarial (tidak diaudit).

The following tables present the sensitivity of the value of insurance liabilities to the movements in the assumptions used in the estimation of insurance liabilities. The correlation of assumptions will have a significant effect in determining the ultimate technical reserves, but to demonstrate the impact due to changes in assumptions, assumptions had to be changed on an individual basis. This table also indicates the impact on the technical reserve due to the changes in the actuarial assumptions (unaudited).

	Persentase perubahan/ Percentage of change	Saldo liabilitas asuransi/ Balance of insurance liabilities		
		<u>2023</u>	<u>2022</u>	
Tingkat suku bunga	+1%	16,433,969	15,459,630	Interest rate
Tingkat suku bunga	-1%	17,287,845	16,152,383	Interest rate
Tingkat mortalitas	+10%	16,905,890	15,857,994	Mortality rate
Tingkat mortalitas	-10%	16,758,319	15,701,376	Mortality rate

Liabilitas lain-lain

Jumlah beban bunga atas liabilitas sewa sebesar Rp43.171 pada tanggal 31 Desember 2023 dan Rp44.601 pada tanggal 31 Desember 2022.

Other liabilities

The balances of interest expense from lease liabilities amounted to Rp43,171 as of 31 December 2023 and Rp44,601 as of 31 December 2022.

Analisis jatuh tempo liabilitas lain-lain terkait sewa adalah sebagai berikut:

Pada tanggal 31 Maret 2020, Pemerintah menerbitkan Peraturan Pemerintah Pengganti Undang-Undang (Perpu) Republik Indonesia No. 1 Tahun 2020 yang telah menjadi Undang-Undang (UU) No. 2 Tahun 2020, serta menetapkan Peraturan Pemerintah (PP) No. 30 Tahun 2020 tentang Penurunan Tarif Pajak Penghasilan bagi Wajib Pajak Badan Dalam Negeri yang Berbentuk Perseroan Terbuka dan berlaku sejak tanggal 19 Juni 2020. Aturan tersebut menetapkan penurunan tarif pajak penghasilan wajib pajak badan dalam negeri dan bentuk usaha tetap dari semula 25% menjadi 22% untuk tahun pajak 2020 dan 2021 dan 20% mulai tahun pajak 2022 dan seterusnya.

Pada tanggal 29 Oktober 2021, Pemerintah menerbitkan Undang-Undang Republik Indonesia No. 7 Tahun 2021 tentang Harmonisasi Peraturan Perpajakan. Aturan tersebut menetapkan tarif pajak penghasilan wajib pajak dalam negeri dan bentuk usaha tetap sebesar 22% yang mulai berlaku pada tahun pajak 2022 dan seterusnya, dan pengurangan tarif pajak sebesar 3% untuk wajib pajak dalam negeri yang memenuhi syarat tertentu. Dengan demikian, penetapan tarif pajak sebelumnya sebesar 20% menjadi tidak berlaku setelah Undang-Undang ini disahkan.

29. TAXATION (continued)

c. Tax expense (continued)

Taxable income for the current year and the estimated corporate income tax payable of BNI are as follows:

	<u>2023</u>	<u>2022</u>
Beban pajak penghasilan sesuai tarif pajak yang berlaku	4,386,618	-
19% x Rp23,087,462	-	4,997,178
19% x Rp26,300,936	-	-
Beban pajak penghasilan	4,386,618	4,997,178
Pajak dibayar di muka	(3,706,949)	(3,626,301)
Utang pajak penghasilan - BNI	679,669	1,370,877

On 31 March 2020, the Government issue Government Regulation in Lieu of Law (Perpu) of the Republic of Indonesia No. 1 year 2020 which has become Law (UU) No. 2 year 2020, as well as stipulated Government Regulation (PP) No. 30 year 2020 concerning Tariff Reduction for Domestic Public Companies Taxpayers and effective since 19 June 2020. The regulation has stipulated the reduction in the income tax rates for domestic corporate taxpayers and business establishments from 25% to 22% for Fiscal Year 2020 and 2021 and 20% for the Fiscal Year 2022 onwards.

On 29 October 2021, the Government issue Law of the Republic of Indonesia No.7 year 2021 concerning Harmonization of Tax Regulations. The regulation has stipulated the income tax rate for domestic taxpayers and business establishments of 22% which will be effective from the Fiscal Year 2022 onwards, and a further reduction of the tax rate by 3% for domestic taxpayers who meet certain requirements. Hence, the previously tax rate determination of 20% will be invalid after the ratification of this Law.

29. PERPAJAKAN (lanjutan)

c. Beban pajak (lanjutan)

Untuk tahun pajak 2023 dan 2022, berdasarkan Pasal 3 dari Peraturan Pemerintah No. 30 tahun 2020 tentang Penurunan Tarif Pajak Penghasilan ("PPH") bagi Wajib Pajak Badan Dalam Negeri Yang Berbentuk Perseroan Terbuka, Wajib Pajak dapat memperoleh penurunan tarif PPh sebesar 3% (tiga persen) lebih rendah dari tarif PPh Wajib Pajak Badan dalam negeri sebagaimana diatur dalam Undang-undang Perpajakan tersebut diatas apabila memenuhi tambahan kriteria sebagai berikut:

1. Jumlah kepemilikan saham publiknya 40% (empat puluh persen) atau lebih dari keseluruhan saham yang disetor dan saham tersebut dimiliki paling sedikit oleh 300 (tiga ratus) pihak.
2. Masing-masing pihak yang dimaksud di atas hanya boleh memiliki saham kurang dari 5% (lima persen) dari keseluruhan saham yang disetor.
3. Ketentuan tersebut harus dipenuhi oleh Wajib Pajak dalam waktu paling singkat 6 (enam) bulan (183 (one hundred and eighty three) calendar days) dalam jangka waktu 1 (satu) tahun pajak.
4. Pihak-pihak yang memenuhi persyaratan 300 (tiga ratus) pihak dan 5% (lima persen) sebagaimana di atas, tidak termasuk: Wajib Pajak Perseroan Terbuka yang membeli kembali sahamnya; dan/atau yang memiliki hubungan istimewa sebagaimana diatur dalam Undang-Undang Pajak Penghasilan dengan Wajib Pajak Perseroan Terbuka (tercermin dari kepemilikan saham oleh pengendali dan/atau pemegang saham utama).

Berdasarkan Laporan Bulanan Kepemilikan Saham Nomor DE/I/2024-0032 tanggal 3 Januari 2024 dan Nomor DE/I/2023-0035 tanggal 3 Januari 2023 dari Biro Administrasi Efek, Datindo Entrycom, atas kepemilikan saham BNI masing-masing selama tahun 2023 dan tahun 2022, semua kriteria untuk memperoleh fasilitas penurunan tarif pajak tersebut di atas telah terpenuhi.

Pajak penghasilan badan BNI untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2023 dan 2022 telah dihitung dengan menggunakan tarif pajak 19%.

29. TAXATION (continued)

c. Tax expense (continued)

For the fiscal year 2023 and 2022, based on Article 3 of Government Regulation No. 30 year 2020 regarding the Decrease in Income Tax Rates ("PPH") for Domestic Corporate Tax Payers in the Form of Public Companies, tax payers can obtain a reduction in the PPh rate of 3% (three percent) lower than the rate of domestic corporate tax payers as regulated in the Taxation Law, if it meets the following additional criteria:

1. The public owned 40% (forty percent) or more of the total paid up shares and those shares are owned by at least 300 (three hundred) parties.
2. Each party can only own less than 5% (five percent) of total paid-up shares.
3. The tax payer should fulfill the above mentioned criteria at least within 6 (six) months (183 (one hundred and eighty three) calendar days) in 1 (one) fiscal year.
4. Parties that meet the requirements of 300 (three hundred) parties and 5% (five percent) as stated above, do not include: Public Company Tax Payers who buy back their shares; and/or Those who have a special relationship as stipulated in the Income Tax Law with Public Company Tax Payers (reflected in: share ownership by the controlling party and/or major shareholder).

Based on the Monthly Shareholding Report Number DE/I/2024-0032 dated 3 January 2024 and Number DE/I/2023-0035 dated 3 January 2023 from the Registrar, Datindo Entrycom, regarding BNI's shares during the year 2023 and year 2022 respectively, BNI has met all criteria mentioned above to obtain a facility of tax rate reduction.

BNI's corporate income tax for year ended 31 December 2023 and 2022 are calculated using the tax rate of 19%.

29. PERPAJAKAN (lanjutan)

e. Surat ketetapan pajak

Pada tanggal 5 Februari 2018, BNI telah menerima Surat Ketetapan Pajak Kurang Bayar (SKPKB) atas PPh Badan untuk tahun fiskal 2015 sebesar Rp2.461.364 (termasuk denda) dan disetujui BNI sebesar Rp162.130. Pada tanggal 2 Maret 2018, BNI telah melakukan pembayaran sebagian SKPKB sebesar Rp1.785.691. Pada tanggal 4 Mei 2018, BNI mengajukan surat keberatan atas Surat Ketetapan Pajak Kurang Bayar (SKPKB) ke Direktorat Jenderal Pajak.

Pada tanggal 30 April 2019, BNI menerima Keputusan Direktorat Jenderal Pajak yang mengabulkan sebagian keberatan BNI dan mengurangi jumlah pajak yang masih harus dibayar dalam SKPKB atas PPh Badan untuk tahun fiskal 2015 (termasuk denda) menjadi Rp1.212.517 dan disetujui BNI sebesar Rp163.628. Atas kelebihan pembayaran pajak di muka sebesar Rp573.174, setelah dikurangi dengan STP tahun 2019 sebesar Rp481, Bank telah menerima restitusi pajak melalui kompensasi pembayaran pajak penghasilan badan tahun 2019. Pada tanggal 26 Juli 2019, BNI telah mengajukan permohonan banding keberatan ke Pengadilan Pajak. Pada tanggal 24 Juni 2022, BNI menerima Putusan Banding dari Pengadilan Pajak yang mengabulkan sebagian banding BNI dan mengurangi jumlah pajak yang masih harus dibayar dalam SKPKB atas PPh Badan untuk tahun fiskal 2015 (termasuk denda) menjadi Rp789.519. Pada tanggal 5 Oktober 2022, BNI telah mengajukan upaya hukum Peninjauan Kembali ke Mahkamah Agung atas putusan banding tersebut dan sampai dengan tanggal penyelesaian laporan keuangan konsolidasian ini, belum terdapat Putusan Peninjauan Kembali dari Mahkamah Agung.

29. TAXATION (continued)

e. Tax assessment letters

On 5 February 2018, BNI received tax assessment for underpayment of tax (SKPKB) which stated that there was an under payment of corporate income tax for fiscal year 2015 amounting to Rp2,461,364 (including penalties) which was partially agreed by BNI for the amount of Rp162,130. On 2 March 2018, BNI made a partial payment for the amount of Rp1,785,691. On 4 May 2018, BNI submitted Objection Letter for these SKPKB to the Directorate General of Tax.

On 30 April 2019, BNI received Directorate General of Tax decision which partially approved BNI Objection and reduced the SKPKB for fiscal year 2015 (including penalties) to become Rp1,212,517 which is partially agreed by BNI amounting to Rp163,628. For the overpayment amounting to Rp573,174, after less of STP for fiscal year 2019 amounting to Rp481, the Bank has received a tax refund through compensation for corporate income tax in 2019. On 26 July 2019, BNI submitted the request for appeal on the above to the Tax Court. On 24 June 2022, BNI received an Appeal Decision from the Tax Court which partially granted BNI's appeal and reduced the amount of tax accrued in the SKPKB on Corporate Income Tax for the 2015 fiscal year (including fines) to Rp789,519. On 5 October 2022, BNI submitted the Judicial Review to the Supreme Court for the appeal decision and up to the date of this consolidated financial statements, there has been no Judicial Review Decision from the Supreme Court.

Pinjaman bilateral

BNI memiliki pinjaman bilateral sebagai salah satu strategi pendanaan Bank untuk menjaga komposisi pendanaan jangka pendek dan jangka panjang. Termasuk di dalam pinjaman bilateral adalah fasilitas pinjaman di bawah ini:

- a) Pinjaman bilateral luar negeri dengan China Development Bank sebesar USD700.000.000 (nilai penuh) dengan jangka waktu pinjaman selama 10 tahun serta tingkat suku bunga LIBOR 6 bulan ditambah margin tertentu per tahun dan akan jatuh tempo pada tanggal 16 September 2025. Sehubungan dengan adanya transisi LIBOR, Bank telah melakukan amandemen perjanjian penggunaan *reference rate* dari LIBOR 6 bulan ditambah margin tertentu per tahun menjadi SOFR 6 bulan ditambah margin tertentu per tahun yang telah berlaku. Pada tanggal 31 Desember 2023 dan 2022, saldo pinjaman setelah dikurangi dengan biaya penerbitan yang belum diamortisasi masing-masing sebesar USD186.736.438 (nilai penuh) atau ekuivalen Rp2.875.182 dan USD279.528.131 (nilai penuh) atau ekuivalen Rp4.351.554.

Bilateral loans

BNI has bilateral loan which is one of the Bank's strategy to maintain funding profile between short term and long term funding. Bilateral loans include the following borrowing facilities:

- a) Offshore bilateral loan with China Development Bank amounting to USD700,000,000 (full amount) with tenure of 10 years and with interest rate of 6-month LIBOR plus a certain margin per annum and will mature on 16 September 2025. Regarding to the LIBOR transition, the Bank had amended the agreement for the use of reference rate from 6-month LIBOR plus a certain margin per annum to 6-month SOFR plus a certain margin per annum which already applies. As of 31 December 2023 and 2022, outstanding loan less unamortized issuance costs amounted to USD186,736,438 (full amount) or equivalent to Rp2,875,182 and USD279,528,131 (full amount) or equivalent to Rp4,351,554, respectively.

31. PINJAMAN YANG DITERIMA (lanjutan)

a. Berdasarkan jenis dan mata uang (lanjutan)

Pinjaman bilateral (lanjutan)

- e) Pada tanggal 22 November 2023, BNI memperoleh fasilitas pinjaman bilateral dalam negeri dengan MUFG Bank, Ltd. senilai USD200.000.000 (nilai penuh) dengan jangka waktu 3 tahun. Tingkat suku bunga pinjaman adalah suku bunga tetap 6% per tahun untuk tahun pertama, dan selanjutnya menjadi tingkat suku bunga mengambang dengan menggunakan SOFR 3 bulan ditambah margin tertentu per tahun. Fasilitas ini akan jatuh tempo pada tanggal 20 November 2026. Pada tanggal 31 Desember 2023, saldo pinjaman fasilitas tersebut sebesar USD200.000.000 (nilai penuh) atau ekuivalen Rp3.079.400 (2022: Rpnil).

Persyaratan-persyaratan penting (*financial covenants*) dalam perjanjian pinjaman Bank antara lain:

- Rasio *Non-Performing Loan* (NPL) maksimum 5%.
- Nilai *Capital Adequacy Ratio* (CAR) minimum 9% atau sesuai dengan ketentuan regulasi yang berlaku.
- Nilai Rasio Modal Inti (*Tier 1 Ratio*) minimum 6%.
- Nilai Rasio Modal Inti Utama (*Core Tier 1 Ratio*) minimum 5%.
- Rasio *Return on Average Assets* minimum 0,6%, dengan ketentuan bahwa jika nilai *Capital Adequacy Ratio* (CAR) sama dengan atau lebih besar dari 12,5%.

Pada tahun-tahun yang berakhir pada 31 Desember 2023 dan 2022, Bank telah memenuhi persyaratan penting yang dipersyaratkan dalam perjanjian ini.

Pinjaman penerusan

Pinjaman penerusan pada tanggal 31 Desember 2023 dan 2022 mencakup pinjaman penerusan dari *Kreditanstalt fur Wiederaufbau* untuk pembiayaan *Industrial Efficiency and Pollution Control Phase I* dan II yang diterima pada tahun 2001 dan 2004.

31. BORROWINGS (continued)

a. By type and currency (continued)

Bilateral loans (continued)

- e) On 22 November 2023, BNI obtained onshore bilateral loan with MUFG Bank, Ltd. amounting to USD200,000,000 (full amount) with a tenure of 3 years. Interest rate of the borrowing is a fixed interest rate of 6% per annum for the first year, and then a floating interest rate using 3-month SOFR plus a certain margin per year. This loan facility will mature on 20 November 2026. As of 31 December 2023, the outstanding loan balance under this facility amounted to USD200,000,000 (full amount) or equivalent to Rp3,079,400 (2022: Rpnil).

The significant requirements (*financial covenants*) in the Bank's loan agreement include the following:

- *Non-Performing Loan* (NPL) ratio maximum of 5%.
- *Capital Adequacy Ratio* (CAR) minimum 9% or according to the applicable regulation.
- *Tier 1 Ratio* minimum of 6%.
- *Core Tier 1 Ratio* minimum of 5%.
- *Return on Average Assets* ratio minimum of 0.6%, provided that *Capital Adequacy Ratio* (CAR) is equal to or greater than 12.5%.

During the years ended 31 December 2023 and 2022, the Bank has fulfilled the terms required set forth in the agreements.

Two step loans

Two step loans as of 31 December 2023 and 2022 are step loans from *Kreditanstalt fur Wiederaufbau* to finance *Industrial Efficiency and Pollution Control Phase I and II* that was received in 2001 and 2004.

31. PINJAMAN YANG DITERIMA (lanjutan)

a. Berdasarkan jenis dan mata uang (lanjutan)

Pinjaman penerusan (lanjutan)

Berdasarkan Perjanjian Penerusan Pinjaman antara BNI dan Departemen Keuangan No. SLA-1145/DP3/2001 tertanggal 30 Maret 2001 dan SLA-1174/DP3/2004 tertanggal 25 Agustus 2004, Pemerintah telah menyetujui BNI sebagai bank pelaksana dengan jumlah fasilitas masing-masing tidak melebihi DM11.700.000 dan EUR9.000.000 (nilai penuh). Tanggal terakhir penarikan pinjaman adalah masing-masing pada tanggal 30 Juni 2001 dan 30 Desember 2007. Jangka waktu pinjaman penerusan ini adalah masing-masing selama 12 tahun termasuk masa tenggang 2 tahun dan 40 tahun termasuk masa tenggang 10 tahun.

Pada tanggal 31 Desember 2023, saldo pinjaman penerusan untuk *Phase I* dan *II* adalah masing-masing sebesar Rp53 dan EUR3.030.000 (nilai penuh) atau ekuivalen Rp51.808 (2022: EUR3.327.080 (nilai penuh), ekuivalen Rp55.169).

Kredit likuiditas untuk kredit koperasi primer kepada anggotanya

Merupakan fasilitas kredit yang diperoleh dari Bank Indonesia terutama ditujukan untuk debitur BNI sehubungan dengan program kredit Pemerintah untuk pinjaman investasi usaha kecil, pinjaman modal kerja dan pinjaman pengusaha kecil. Sesuai dengan Peraturan Pemerintah, manajemen program kredit likuiditas telah dialihkan ke PT Permodalan Nasional Madani, Badan Usaha Milik Negara, yang akan jatuh tempo dalam beberapa tanggal, berdasarkan penyelesaian dari program-program tersebut.

Tingkat bunga atas fasilitas ini berkisar antara 3,00% sampai dengan 7,00% per tahun.

31. BORROWINGS (continued)

a. By type and currency (continued)

Two step loans (continued)

Based on the two step loans agreements between BNI and the Ministry of Finance No. SLA-1145/DP3/2001 dated 30 March 2001 and SLA-1174/DP3/2004 dated 25 August 2004, the Government appointed BNI as an executing bank with total facilities for each not exceeding DM11,700,000 and EUR9,000,000 (full amount). Latest withdrawal date were on 30 June 2001 and 30 December 2007, respectively. The terms of the two step loans are 12 years including 2 years grace period and 40 years including 10 years grace period, respectively.

As of 31 December 2023, two step loans for Phase I and II amounted to Rp53 and EUR3,030,000 (full amount) or equivalent Rp51,808, respectively (2022: EUR3,327,080 (full amount), equivalent Rp 55,169).

Liquidity loan for members of primary cooperatives

This is a credit facility provided by Bank Indonesia specifically for BNI's debtors in relation to the Government's loan program for small investment loans, working capital loans and small business loans. In accordance with the Government Regulation, the management of this liquidity loan program was transferred to PT Permodalan Nasional Madani, a state-owned enterprise. The loan will mature on various dates based on the completion of such programs.

Interest rates on the facility range from 3.00% to 7.00% per annum.

MTN Subordinasi I BNI tahun 2018

Pada tanggal 8 Juni 2018, BNI telah mendapatkan pernyataan efektif dari OJK melalui surat nomor S-73/PB.31/2018 untuk menerbitkan *Medium Term Notes Subordinasi I BNI Tahun 2018* ("MTN Subordinasi"). Nilai MTN Subordinasi yang diterbitkan sebesar Rp100.000, jangka waktu 5 tahun, dengan kupon sebesar 8% per tahun yang akan dibayarkan secara triwulanan. MTN Subordinasi BNI diterbitkan dengan penawaran terbatas. Pembayaran kupon pertama kepada para pemegang MTN Subordinasi telah dilakukan pada tanggal 10 November 2018.

Pada tanggal 31 Desember 2023 MTN Subordinasi telah jatuh tempo dan dibayar lunas. MTN Subordinasi BNI memiliki nilai bersih sebesar Rp99.994 setelah dikurangi biaya penerbitan yang belum diamortisasi sebesar Rp6 pada 31 Desember 2022.

Subordinated MTN I BNI year 2018

On 8 June 2018, BNI obtained an effective statement from OJK through letter number S-73/PB.31/2018 to issue *Continuous Subordinated Medium Term Notes I BNI Year 2018* ("Subordinated MTN"). The value of subordinated MTN issued amounted to Rp100,000 with the term of 5 years and coupon of 8% per annum to be paid quarterly. BNI Subordinated MTN was issued with limited offering. The first coupon payment to Subordinated MTN holders was made on 10 November 2018.

As of 31 December 2023 Subordinated MTN has matured and fully repaid. The net value of Subordinated MTN BNI was Rp99,994 after deducting unamortized issuance cost amounted Rp6 on 31 December 2022.

32. EFEK-EFEK SUBORDINASI (lanjutan)

BNI Tier 2 Subordinated Notes

Pada tanggal 30 Maret 2021, BNI telah menerbitkan *Tier 2 Subordinated Notes (BNI Tier 2 Capital Bond 2021)* sebesar USD500 juta jangka waktu 5 tahun, dengan kupon sebesar 3,75% per tahun yang dibayarkan setiap semester, dan tercatat di *Singapore Exchange*. *Tier 2 Subordinated Notes* dapat dicatat sebagai komponen modal pelengkap (*Tier 2*) sesuai persetujuan dari Otoritas Jasa Keuangan melalui surat No. S-64/PB.31/2021 tanggal 31 Maret 2021.

Pada tanggal 31 Desember 2023, BNI *Tier 2 Capital Bond 2021* memiliki nilai bersih sebesar Rp7.696.213 setelah dikurangi biaya penerbitan yang belum diamortisasi sebesar Rp2.287 (31 Desember 2022: Rp7.780.345).

Penggunaan dana hasil penerbitan *Tier 2 Subordinated Notes* digunakan oleh BNI untuk memperkuat modal pelengkap (*tier 2*) dan modal kerja dalam rangka pengembangan usaha terutama pemberian kredit serta peningkatan komposisi struktur dana jangka panjang, sesuai dengan Peraturan OJK No. 11/POJK.03/2016 tentang Kewajiban Penyediaan Modal Minimum Bank Umum sebagaimana telah diubah dengan Peraturan OJK No. 34/POJK.03/2016 dan selanjutnya akan digunakan oleh BNI untuk mendukung peningkatan aset produktif.

Pada tanggal 31 Desember 2023 dan 2022, BNI telah memperoleh hasil pemeringkatan atas *Tier 2 Subordinated Notes* dari Moody's dan Fitch dengan peringkat masing-masing Ba2 dan BB.

Tier 2 Subordinated Notes ini dapat mengalami *write down* dan ditangguhkan pembayaran pokok dan bunganya apabila OJK menetapkan bahwa BNI berpotensi terganggu kelangsungan usahanya (*point of non-viability*) sesuai dengan peraturan OJK No. 11/POJK.03/2016 yang diubah dengan peraturan OJK No. 34/POJK.03/2016. *Point of non-viability* terjadi akibat bank mencapai *trigger level* pada indikator permodalan yang ditetapkan OJK, sesuai SEOJK No. 20/SEOJK.03/2016 Fitur Konversi Menjadi Saham Biasa atau *Write Down* terhadap Instrumen Modal Inti Tambahan dan Modal Pelengkap.

32. SUBORDINATED SECURITIES (continued)

BNI Tier 2 Subordinated Notes

On 30 March 2021, BNI has issued *Tier 2 Subordinated Notes (BNI Tier 2 Capital Bond 2021)* with total nominal value of USD500 million with the term of 5 years and coupon of 3.75% per annum paid on semi-annual basis, and listed in *Singapore Exchange*. *Tier 2 Subordinated Notes* can be treated as supplementary capital components (*Tier 2*) according to the approval from Financial Services Authority through letter No-S-64/PB.31/2021 dated 31 March 2021.

As of 31 December 2023, the net value of BNI *Tier 2 Capital Bond 2021* was Rp7,696,213 after deducting unamortized issuance cost amounted Rp2,287 (31 December 2022: Rp7,780,345).

The proceeds from *Tier 2 Subordinated Notes* issuance was used by BNI to strengthen tier 2 capital and working capital in the context of business development, especially loan disbursement and increase in the composition of the long-term fund structure, in accordance with OJK Regulation No. 11/POJK.03/2016 concerning the Minimum Capital Requirement for Commercial Banks as amended by OJK Regulation No. 34/POJK.03/2016 and will then be used by BNI to support increase in productive assets.

As of 31 December 2023 and 2022, BNI obtained the rating of *Tier 2 Subordinated Notes* from Moody's and Fitch with Ba2 and BB rating, respectively.

This *Tier 2 Subordinated Notes* can experience *write down* and the payment of principal and interest will be postponed if the OJK stipulates that BNI has the potential to be subject to business continuity issues (*point of non-viability*) in accordance with OJK regulations No. 11/POJK.03/2016 amended by OJK regulation No. 34/POJK.03/2016. *Point of non-viability* occurs due to a bank achieving a trigger level in the capital indicator set by OJK, according to SEOJK No. 20/SEOJK.03/2016 Conversion Features into Common Shares or Write Down of Additional Core Capital Instruments and Supplementary Capital.

32. EFEK-EFEK SUBORDINASI (lanjutan)

BNI Additional Tier 1 Capital Securities

Pada tanggal 24 September 2021, BNI telah menerbitkan *Additional Tier 1 Capital Securities* (*BNI Additional Tier 1 Capital Bond 2021*) sebesar nilai nominal USD600 juta dan tidak memiliki jangka waktu, dengan opsi *call* 5,5 tahun, dengan kupon sebesar 4,30% per tahun yang dibayarkan setiap semester, dan tercatat di *Singapore Exchange*. *Additional Tier 1 Capital Securities* dapat dicatat sebagai komponen modal inti tambahan (*Additional Tier 1*) sesuai persetujuan dari Otoritas Jasa Keuangan melalui surat No. S-210/PB.31/2021 tanggal 30 September 2021.

Pada tanggal 31 Desember 2023, *BNI Additional Tier 1 Capital Bond 2021* memiliki nilai bersih sebesar Rp9.232.518 setelah dikurangi biaya penerbitan yang belum diamortisasi sebesar Rp5.682 (31 Desember 2022: Rp9.332.811).

Pada tanggal 31 Desember 2023 dan 2022, BNI telah memperoleh hasil pemeringkatan atas *Additional Tier 1 Capital Securities* dari Moody's Ba3.

Additional Tier 1 Capital Securities yang diterbitkan telah mengikuti persyaratan POJK 11/POJK.03/2016 (Pasal 15) sehingga instrumen keuangan tersebut dapat dikategorikan sebagai Modal Inti Tambahan (*Additional Tier 1*). Namun, terdapat klausul *mandatory redemption - redemption for a capital trigger event* ketika CAR BNI mencapai rasio tertentu maka Bank harus melakukan pelunasan terhadap sisa pokok dan bunga dari AT-1. Oleh karena itu, Bank mencatat *BNI Additional Tier 1 Capital Securities* ini sebagai instrumen liabilitas pada laporan keuangan konsolidasian.

Additional Tier 1 Capital Securities ini dapat mengalami *write down* dan ditangguhkan pembayaran pokok dan bunganya apabila OJK menetapkan bahwa BNI berpotensi terganggu kelangsungan usahanya (*point of non-viability*) sesuai dengan peraturan OJK No. 11/POJK.03/2016 yang diubah dengan peraturan OJK No. 34/POJK.03/2016. *Point of non-viability* terjadi akibat bank mencapai *trigger level* pada indikator permodalan yang ditetapkan OJK, sesuai SEOJK No. 20/SEOJK.03/2016 Fitur Konversi Menjadi Saham Biasa atau *Write Down* terhadap Instrumen Modal Inti Tambahan dan Modal Pelengkap.

32. SUBORDINATED SECURITIES (continued)

BNI Additional Tier 1 Capital Securities

On 24 September 2021, BNI has issued *Additional Tier 1 Capital Securities* (*BNI Additional Tier 1 Capital Bond 2021*) with total nominal value of USD600 million perpetual non callable 5.5 years and coupon of 4.30% per annum paid on semi-annual basis, and listed in *Singapore Exchange*. *Additional Tier 1 Capital Securities* can be treated as supplementary capital components (*Additional Tier 1*) according to the approval from *Financial Services Authority* through letter No.S-210/PB.31/2021 dated 30 September 2021.

As of 31 December 2023, the net value of *BNI Additional Tier 1 Capital Bond 2021* was Rp9,232,518 after deducting unamortized issuance cost amounted Rp5,682 (31 December 2022: Rp9,332,811).

As of 31 December 2023 and 2022, BNI obtained the rating of *Additional Tier 1 Capital Securities* from Moody's with Ba3 rating.

Additional Tier 1 Capital Securities issued has comply in accordance with OJK Regulation No. 11/POJK.03/2016 (Article 15) hence the financial instrument can be categorised as supplementary capital components (*Additional Tier 1*). However, there is a *mandatory redemption clause - redemption for a capital trigger event* when BNI's CAR reaches a certain ratio, the Bank shall pay off the remaining principal and interest from AT-1. Therefore, the Bank recorded this *BNI Additional Tier 1 Capital Securities* as a liability instrument in the consolidated financial statements.

This *Additional Tier 1 Capital Securities* can experience *write down* and the payment of principal and interest will be postponed if the OJK stipulates that BNI has the potential to be subject to business continuity issues (*point of non-viability*) in accordance with OJK regulations No. 11/POJK.03/2016 amended by OJK regulation No. 34/POJK.03/2016. *Point of non-viability* occurs due to a bank achieving a *trigger level* in the capital indicator set by OJK, according to SEOJK No. 20/SEOJK.03/2016 *Conversion Features into Common Shares or Write Down of Additional Core Capital Instruments and Supplementary Capital*.

Pemecahan nilai nominal saham BNI

Berdasarkan keputusan RUPSLB tanggal 19 September 2023 yang dituangkan dalam Akta No. 18, tanggal 19 September 2023, yang dibuat dihadapan Ashoya Ratam SH, M.kn, pemegang saham BNI antara lain menyetujui pemecahan nilai nominal saham (*stock split*) Bank dengan rasio 1:2 yang berlaku efektif pada tanggal 10 Oktober 2023. Sehingga:

- a. Nilai nominal per Saham Seri A Dwiwarna dan Seri B dari sebesar Rp7.500 (nilai penuh) menjadi Rp3.750 (nilai penuh) dengan ketentuan:
 - i. 1 (satu) saham Seri A Dwiwarna tetap dipertahankan sebagai saham Seri A Dwiwarna milik Negara Republik Indonesia dengan nilai nominal sebesar Rp3.750 (nilai penuh); dan
 - ii. 1 (satu) saham Seri A Dwiwarna menjadi 1 (satu) saham Seri B milik Negara Republik Indonesia dengan nilai nominal sebesar Rp3.750 (nilai penuh).
- b. Nilai nominal per Saham Seri C dari Rp375 (nilai penuh) menjadi Rp187,5 (nilai penuh).

Modal ditempatkan setelah pemecahan nilai nominal saham (*stock split*) berubah menjadi sebagai berikut:

- a. Saham Seri A Dwiwarna - 1 lembar saham
- b. Saham Seri B - 578.683.733 lembar saham
- c. Saham Seri C - 36.678.114.582 lembar saham

Stock split of BNI

Based on the decision of the Extraordinary General Meeting of Shareholders (RUPSLB) dated 19 September 2023, as stated in Deed No. 18 dated 19 September 2023, as recorded in the Notarial Deed of Ashoya Ratam, SH, M.Kn., the shareholders of BNI, among others, approved the nominal value split (stock split) of the bank with a ratio of 1:2, effective from 10 October 2023. Therefore:

- a. *The nominal value per Series A Dwiwarna and Series B shares, originally Rp7,500 (full amount), split to Rp3,750 (full amount), with the following conditions:*
 - i. *1 (one) Series A Dwiwarna share is retained as a full-nominal value Series A Dwiwarna share owned by the Republic of Indonesia with a nominal value of Rp3,750 (full amount); and*
 - ii. *1 (one) Series A Dwiwarna share is converted into 1 (one) Series B share owned by the Republic of Indonesia with a nominal value of Rp3,750 (full amount).*
- b. *The nominal value per Series C share is split from Rp375 (full amount) to Rp187.5 (full amount).*

The issued capital after the nominal value split (stock split) changed as follows:

- a. *Series A Dwiwarna shares - 1 share*
- b. *Series B shares - 578,683,733 shares*
- c. *Series C shares - 36,678,114,582 shares.*

34. PENGGUNAAN LABA BERSIH

Berdasarkan keputusan Rapat Umum Pemegang Saham Tahunan tanggal 15 Maret 2023 dan 15 Maret 2022, pengalokasian laba bersih masing-masing untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2022 dan 2021 adalah sebagai berikut:

	<u>2022</u>	<u>2021</u>	
Pembagian dividen	7,324,821	2,724,629	<i>Distribution of dividends</i>
Saldo laba	10,987,233	8,173,889	<i>Retained earnings</i>
	<u>18,312,054</u>	<u>10,898,518</u>	

Rapat Umum Pemegang Saham telah menyetujui pembagian dividen dari laba bersih tahun 2022 dan 2021, sebesar Rp7.324.821 pada tanggal 15 Maret 2023 dan Rp2.724.629 pada tanggal 15 Maret 2022.

34. APPROPRIATION OF NET INCOME

In accordance with the resolutions of the Annual General Shareholders' Meetings held on 15 March 2023 and 15 March 2022, the allocation of the net income for the years ended 31 December 2022 and 2021, respectively, are as follows:

General Shareholders' meeting has approved the dividend distribution of Rp7,324,821 and Rp2,724,629 from the 2022 net income on 15 March 2023 and 2021 net income on 15 March 2022.

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

35. CADANGAN UMUM DAN WAJIB

Cadangan umum dan wajib pada awalnya dibentuk dalam rangka memenuhi ketentuan Pasal 61 ayat (1) Undang-undang No. 1/1995 mengenai Perseroan Terbatas (kemudian diganti dengan Undang-undang Perseroan Terbatas No. 40/2007 pasal 70), yang mengharuskan perusahaan Indonesia untuk membuat penyisihan cadangan umum dan wajib sebesar sekurang-kurangnya 20% dari jumlah modal yang ditempatkan dan disetor penuh. Undang-undang tersebut tidak mengatur jangka waktu untuk pembentukan penyisihan tersebut.

36. CADANGAN KHUSUS

Cadangan khusus terdiri dari cadangan yang dibentuk dalam rangka tujuan investasi dan *legal reserve* dari cabang luar negeri.

Sehubungan dengan adanya penerapan Peraturan Otoritas Jasa Keuangan (POJK) No. 34/POJK.03/2016 tanggal 22 September 2016 tentang Perubahan atas POJK No. 11/POJK.03/2016 tentang "Kewajiban Penyediaan Modal Minimum" yang mulai berlaku pada tanggal 26 September 2016 ("tanggal diberlakukannya"), untuk menjaga struktur permodalannya, Bank telah melakukan reklasifikasi atas saldo laba yang sudah ditentukan penggunaannya (cadangan khusus) sebesar Rp5.613.100 dan cadangan cabang luar negeri sebesar Rp92.276 per 31 Desember 2016, menjadi laba ditahan yang tidak ditentukan penggunaannya.

Reklasifikasi atas saldo laba tersebut telah mendapatkan persetujuan melalui berita acara Rapat Umum Pemegang Saham Tahunan No. 42 tanggal 16 Maret 2017.

37. PENDAPATAN BUNGA

	2023	2022
Pinjaman yang diberikan	50,752,741	46,101,583
Obligasi Pemerintah	6,343,115	5,375,934
Penempatan pada bank lain dan Bank Indonesia	2,780,518	1,537,454
Wesel ekspor dan tagihan lainnya	1,090,839	577,344
Efek-efek	352,453	700,515
Lain-lain	152,030	365,851
	61,471,696	54,658,681

Pada tanggal 31 Desember 2023 dan 2022, termasuk dalam pendapatan bunga di atas adalah pendapatan dari pihak berelasi terkait transaksi Obligasi Pemerintah dan SPN masing-masing sebesar Rp6.308.862 dan Rp5.185.918.

35. GENERAL AND LEGAL RESERVES

The general and legal reserves were originally provided in accordance with Indonesian Limited Liability Company Law No. 1/1995 article 61 paragraph (1) (later superseded by Limited Liability Company Law No. 40/2007 article 70), which requires Indonesian companies to set up a general and legal reserve amounting to at least 20% of the issued and paid-up share capital. This particular law does not regulate the period of time in relation to the provision of such reserves.

36. SPECIFIC RESERVES

Specific reserves consist of reserve for investment purposes and legal reserve from overseas branches.

In relation with implementation of Regulation of the Financial Services Regulatory Authority (POJK) No. 34/POJK.03/2016 dated 22 September 2016 on Amendments to POJK No. 11/POJK.03/2016 concerning "Minimum Capital Requirement for Commercial Bank" which came into force on 26 September 2016 ("date of enactment"), to maintain its capital structure, the Bank has reclassified retained earnings that has been appropriated (specific reserve) amounting to Rp5,613,100 and reserve of overseas branch amounting to Rp92,276 as of 31 December 2016 into the unappropriated retained earnings.

The reclassification of retained earnings has been approved through Annual General Shareholders Meeting No. 42 dated 16 March 2017.

37. INTEREST INCOME

	2023	2022
Loans	50,752,741	46,101,583
Government Bonds	6,343,115	5,375,934
Placements with other banks and Bank Indonesia	2,780,518	1,537,454
Bills and other receivables	1,090,839	577,344
Marketable securities	352,453	700,515
Others	152,030	365,851
	61,471,696	54,658,681

As of 31 December 2023 and 2022, include in interest income is income from related parties related to Government Bonds and SPN transactions amounting to Rp6,308,862 and Rp5,185,918 respectively.

41. IMBALAN KERJA (lanjutan)

Program dana pensiun Bank ini dikelola oleh Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun"). Kontribusi pegawai adalah sebesar 7,5% dari penghasilan dasar pensiun karyawan dan sisa jumlah yang diperlukan untuk mendanai program tersebut ditanggung oleh BNI.

Program pensiun manfaat pasti

Penilaian aktuarial atas manfaat pensiun pada tahun yang berakhir tanggal 31 Desember 2023 dan 2022, dilakukan oleh perusahaan konsultan aktuarial terdaftar independen, PT Towers Watson Purbajaga dengan menggunakan metode "Projected Unit Credit".

Rekonsiliasi status pembiayaan atas program pensiun berdasarkan laporan aktuarial tanggal 2 Januari 2024 dan 17 Januari 2023 disajikan sebagai berikut:

	<u>2023</u>	<u>2022</u>
Nilai wajar aset dana pensiun	7,022,652	6,908,086
Nilai kini liabilitas manfaat pasti yang didanai	(8,875,379)	(8,306,111)
Selisih kurang pendanaan	<u>(1,852,727)</u>	<u>(1,398,025)</u>

Mutasi nilai kini liabilitas manfaat pasti yang didanai selama tahun berjalan adalah sebagai berikut:

	<u>2023</u>	<u>2022</u>
Pada awal periode	8,306,111	8,370,091
Biaya jasa kini	250,969	305,380
Biaya bunga	463,119	475,518
	<u>9,020,199</u>	<u>9,150,989</u>
Pengukuran kembali:		
Keuntungan aktuarial yang timbul dari perubahan asumsi keuangan	589,020	(191,022)
Keuntungan aktuarial yang timbul karena penyesuaian atas demografik	(162,935)	-
Keuntungan aktuarial yang timbul karena penyesuaian atas pengalaman	(26,705)	(134,881)
	<u>399,380</u>	<u>(325,903)</u>
Pembayaran dari program:		
luran peserta	24,743	25,286
Imbalan yang dibayar	(568,943)	(544,261)
	<u>(544,200)</u>	<u>(518,975)</u>
	<u>8,875,379</u>	<u>8,306,111</u>

41. EMPLOYEE BENEFITS (continued)

The pension plan of the Bank is managed by Dana Pensiun PT Bank Negara Indonesia (Persero) Tbk ("Dana Pensiun"). The employees' contributions are 7.5% of the employee's pension salary-based and the remaining amounts required to fund the program/pension plan are contributed by BNI.

Defined benefit pension plan

The actuarial calculations of pension benefits for year ended 31 December 2023 and 2022 are prepared by a registered independent actuarial consulting firm, PT Towers Watson Purbajaga using the "Projected Unit Credit" method.

A reconciliation of the funding status of the pension plan based on the actuarial reports dated 2 January 2024 and dated 17 January 2023 are as follows:

	<u>2023</u>	<u>2022</u>
Fair value of pension plan assets	7,022,652	6,908,086
Present value of funded defined benefit obligation	(8,875,379)	(8,306,111)
Funding deficit	<u>(1,852,727)</u>	<u>(1,398,025)</u>

The movements in the present value of funded defined benefit obligations for the year are as follows:

	<u>2023</u>	<u>2022</u>
At beginning of the period	8,306,111	8,370,091
Current service cost	250,969	305,380
Interest cost	463,119	475,518
	<u>9,020,199</u>	<u>9,150,989</u>
Remeasurements:		
Actuarial gains from changes in financial assumption	589,020	(191,022)
Actuarial gains from changes in demographic	(162,935)	-
Actuarial gains from changes in experience	(26,705)	(134,881)
	<u>399,380</u>	<u>(325,903)</u>
Payments from plan:		
Employees' contributions	24,743	25,286
Benefits paid	(568,943)	(544,261)
	<u>(544,200)</u>	<u>(518,975)</u>
	<u>8,875,379</u>	<u>8,306,111</u>

41. IMBALAN KERJA (lanjutan)

Program pensiun manfaat pasti (lanjutan)

Rekonsiliasi atas perubahan aset bersih selama tahun yang berakhir 31 Desember 2023 dan 2022 yang diakui di laporan posisi keuangan dana pensiun adalah sebagai berikut:

	2023	2022
Kewajiban bersih pada awal periode	1,398,025	1,583,467
Beban tahun berjalan	250,969	305,380
Kontribusi pemberi kerja	(198,454)	(125,065)
Jumlah yang diakui pada penghasilan komprehensif lain	402,187	(365,757)
	1,852,727	1,398,025

Mutasi nilai wajar aset program untuk tahun yang berakhir adalah sebagai berikut:

	2023	2022
Pada awal periode	6,908,086	6,786,624
Hasil dari aset program	463,119	475,518
(Kerugian)/keuntungan aktuarial	(2,807)	39,854
Kontribusi pemberi kerja	198,454	125,065
Kontribusi pekerja	24,743	25,286
Imbalan yang dibayar dan beban administrasi	(568,943)	(544,261)
	7,022,652	6,908,086

Biaya imbalan pensiun yang dibebankan pada laporan laba rugi adalah sebagai berikut:

	2023	2022
Biaya jasa kini	170,009	170,642
Biaya jasa lalu	(43,152)	36,988
Bunga bersih	124,112	97,750
Biaya yang dibebankan pada laporan laba rugi	250,969	305,380
Biaya yang dilaporkan pada laba rugi	250,969	305,380
Pengukuran kembali yang diakui pada penghasilan komprehensif lain	402,187	(365,757)
Biaya imbalan pasti	653,156	(60,377)

Asumsi-asumsi utama yang digunakan dalam perhitungan di atas adalah:

	2023	2022
Asumsi ekonomi:		
Tingkat diskonto	6.75% - 8.75%	7.25% - 8.75%
Tingkat kenaikan gaji	7.00%	7.00%
Pendapatan dari dana pensiun iuran pasti	5.50%	5.50%
Tingkat kenaikan manfaat pensiun	3.00%	3.00%
	per tahun/annually	per tahun/annually
Manfaat lain	2,500,000	2,500,000

41. EMPLOYEE BENEFITS (continued)

Defined benefit pension plan (continued)

The reconciliation of the movements of the net assets during the years ended 31 December 2023 and 2022 recognized in the pension fund's statement of financial position is as follows:

*Net liabilities at beginning of period
Current year expenses
Employer's contributions
Total amount recognized in other comprehensive income*

The movements in the fair value of plan assets for the years ended are as follows:

*At beginning of the period
Return on plan assets
Actuarial (loss)/gains
Employer's contributions
Employees' contributions
Benefits paid and administrative expenses paid*

Pension expenses recognized in profit or loss, are as follows:

*Current service cost
Past service cost
Net interest
Expense recognized in profit or loss*

*Expense recognized in profit or loss
Remeasurement effect recognized in other comprehensive income*

Defined benefit cost

The key assumptions used in the above calculation are:

*Economic assumptions:
Discount rate
Rate of salary increases
Interest credited to defined contribution fund
Pension increase rate*

Other benefits

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

41. IMBALAN KERJA (lanjutan)

Program pensiun manfaat pasti (lanjutan)

Analisis sensitivitas didasarkan pada perubahan atas satu asumsi aktuarial dimana asumsi lainnya dianggap konstan. Dalam perhitungan sensitivitas kewajiban imbalan pasti atas asumsi aktuarial utama, metode yang sama (perhitungan nilai kini kewajiban imbalan pasti dengan menggunakan metode *projected unit credit* di akhir periode) telah diterapkan seperti dalam penghitungan kewajiban pensiun yang diakui dalam laporan posisi keuangan konsolidasian.

Pada tanggal 31 Desember 2023 dan 2022, aset program terdiri dari:

	2023	2022	
Obligasi pemerintah	2,042,937	1,890,122	Government bonds
Penempatan langsung	1,677,546	1,663,537	Direct participation
Obligasi Saham	1,477,500	1,597,539	Bonds Shares
Properti	1,027,890	1,037,753	Property
Deposito	315,597	332,755	Time deposits
Deposito <i>on call</i>	278,222	262,929	On call deposits
Reksa Dana	29,230	42,194	Mutual funds
Lain-lain	76,138	81,257	Others
	97,592	-	
	7,022,652	6,908,086	

Investasi telah terdiversifikasi dengan baik, sehingga kinerja buruk satu investasi tidak akan memberikan dampak material bagi seluruh kelompok aset. Proporsi terbesar aset investasi ditempatkan pada instrumen utang. Diyakini bahwa instrumen utang memberikan imbal hasil yang paling baik dalam jangka panjang pada tingkatan risiko yang dapat diterima. Untuk program manfaat pasti sebagian besar instrumen surat utang merupakan portofolio obligasi Pemerintah Republik Indonesia dan obligasi korporasi di Indonesia.

Hasil yang diharapkan dari aset program ditentukan dengan mempertimbangkan imbal hasil yang diharapkan atas aset yang mengacu pada kebijakan investasi. Hasil investasi bunga tetap didasarkan pada hasil pengembalian bruto pada tanggal pelaporan. Hasil yang diharapkan dari investasi ekuitas dan properti mencerminkan tingkat imbal hasil jangka panjang aktual yang terjadi untuk tiap-tiap pasar.

Bank terekspos beberapa risiko atas program imbalan kerja seperti risiko yang terekspos pada program manfaat pasti adalah adanya tingkat hasil investasi dibawah asumsi *discount rate* dan kenaikan gaji aktual yang lebih besar dari asumsi. Hal tersebut menimbulkan peningkatan iuran yang dibayarkan kepada Dana Pensiun.

41. EMPLOYEE BENEFITS (continued)

Defined benefit pension plan (continued)

The sensitivity analysis is based on a change in an assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the pension liability recognized within the consolidated statement of financial position.

As of 31 December 2023 and 2022, plan assets comprise the following:

	2023	2022	
	2,042,937	1,890,122	Government bonds
	1,677,546	1,663,537	Direct participation
	1,477,500	1,597,539	Bonds Shares
	1,027,890	1,037,753	Property
	315,597	332,755	Time deposits
	278,222	262,929	On call deposits
	29,230	42,194	Mutual funds
	76,138	81,257	Others
	97,592	-	
	7,022,652	6,908,086	

Investments are well-diversified, such that the failure of any single investment would not have a material impact to the overall group of assets. The largest proportion of assets are invested in debt instruments. Debt instruments are expected to contribute best yields in the long term at an acceptable risk level. For defined benefit program, most of the debt instruments are Government of Indonesia bonds and corporate bonds.

The expected return on plan assets is determined by considering the expected returns available on the assets in accordance with the current investment policy. Expected yields on fixed interest investments are based on gross redemption yields as of the reporting date. Expected returns on equity and property investments reflect long-term real rates of return experienced in the respective markets.

The Bank is exposed to a number of risks through its employee benefit plans such as the exposed risks in defined benefit pension plan is the lower return on investment compared to assumption on discount rate and the increase in the actual salary is higher than its assumption. These will cause an increase in benefit paid to Pension Fund.

41. IMBALAN KERJA (lanjutan)

Program pensiun manfaat pasti (lanjutan)

Untuk memastikan bahwa posisi investasi yang telah diatur dalam kerangka *Asset Liability Management (ALMA)*, Bank melakukan pemantauan terhadap investasi atas program pensiun (baik iuran pasti maupun manfaat pasti) dan memastikan tingkat investasi dimaksud mencapai tingkat diskonto yang digunakan. Selain itu, dilakukan implementasi kebijakan penyesuaian gaji sesuai dengan asumsi yang telah digunakan dalam perhitungan aktuarial untuk mengurangi selisih hasil perhitungan atas proyeksi imbalan kerja pasca kerja dengan realisasinya.

Rata-rata durasi kewajiban manfaat pasti pada tanggal 31 Desember 2023 adalah 9,00 tahun (31 Desember 2022: 8,23 tahun).

Analisis jatuh tempo yang diharapkan dari manfaat pensiun yang tidak terdiskonto untuk Entitas Induk adalah sebagai berikut:

	Kurang dari 1 tahun/ Less than a year	2 sampai 5 tahun/ Between 2 to 5 years	Lebih dari 5 tahun/ Over 5 years	Jumlah/ Total	
31 Desember 2023					31 December 2023
Pensiun	533,638	2,804,070	21,221,091	24,558,799	Pension
Cuti besar	106,013	629,952	2,060,639	2,796,604	Long leave
Penghargaan masa kerja	31,959	353,650	1,754,823	2,140,432	Gratuity
Total	671,610	3,787,672	25,036,553	29,495,835	Total
	Kurang dari 1 tahun/ Less than a year	2 sampai 5 tahun/ Between 2 to 5 years	Lebih dari 5 tahun/ Over 5 years	Jumlah/ Total	
31 Desember 2022					31 December 2022
Pensiun	590,286	2,772,026	20,610,906	23,973,218	Pension
Cuti besar	132,582	494,061	1,874,969	2,501,612	Long leave
Penghargaan masa kerja	63,443	198,632	1,604,363	1,866,438	Gratuity
Total	786,311	3,464,719	24,090,238	28,341,268	Total

Program pensiun iuran pasti

Bank juga memiliki program pensiun iuran pasti, untuk karyawannya yang dikelola oleh Dana Pensiun Lembaga Keuangan PT Bank Negara Indonesia (Persero) Tbk, dimana kontribusi iuran bank adalah sebesar 1,5% sampai dengan 6,5% dari gaji karyawan sesuai jabatan karyawan, sedangkan kontribusi iuran karyawan adalah sebesar 0,5% dari upah yang ditetapkan oleh Bank untuk karyawan tetap yang dipekerjakan sebelum tanggal 1 September 2005. Untuk karyawan tetap yang dipekerjakan mulai tanggal 1 September 2005, kontribusi Bank dan karyawan adalah masing-masing sebesar iuran 11,5% dan 3,5% dari gaji karyawan.

Karyawan tetap yang bergabung dengan Bank sebelum bulan September 2005, memiliki hak atas program pensiun manfaat pasti ditambah dengan program pensiun iuran pasti, atau imbalan kerja yang disediakan sesuai dengan Undang-Undang No. 11 Tahun 2020 dan peraturan penerapan terkaitnya PP No. 35 Tahun 2021, mana yang lebih tinggi.

41. EMPLOYEE BENEFITS (continued)

Defined benefit pension plan (continued)

To ensure that the result of investments is consistent with the *Asset Liability Management (ALMA)* framework, the Bank performs monitoring over the investment for the pension program (for both defined benefit and contribution plans) and performs action to ensure the return of investments will meet the applicable discount rate. Apart from that, implementation of salary adjustment policy has been performed in accordance to the assumptions used by actuarial calculation to reduce the gap on the calculation of projected post-employment benefits with its realization.

The average duration of the defined benefit obligation as of 31 December 2023 is 9.00 years (31 December 2022: 8.23 years).

Expected maturity analysis of undiscounted pension benefit for Parent Only is as follows:

	Kurang dari 1 tahun/ Less than a year	2 sampai 5 tahun/ Between 2 to 5 years	Lebih dari 5 tahun/ Over 5 years	Jumlah/ Total	
31 Desember 2023					31 December 2023
Pensiun	533,638	2,804,070	21,221,091	24,558,799	Pension
Cuti besar	106,013	629,952	2,060,639	2,796,604	Long leave
Penghargaan masa kerja	31,959	353,650	1,754,823	2,140,432	Gratuity
Total	671,610	3,787,672	25,036,553	29,495,835	Total
	Kurang dari 1 tahun/ Less than a year	2 sampai 5 tahun/ Between 2 to 5 years	Lebih dari 5 tahun/ Over 5 years	Jumlah/ Total	
31 Desember 2022					31 December 2022
Pensiun	590,286	2,772,026	20,610,906	23,973,218	Pension
Cuti besar	132,582	494,061	1,874,969	2,501,612	Long leave
Penghargaan masa kerja	63,443	198,632	1,604,363	1,866,438	Gratuity
Total	786,311	3,464,719	24,090,238	28,341,268	Total

Defined contribution pension plan

The Bank also has a defined contribution pension plan for its employees which is managed by Dana Pensiun Lembaga Keuangan PT Bank Negara Indonesia (Persero) Tbk, whereby the contribution of the Bank is 1.5% to 6.5% of the employees' salaries according to the position of each employee, while the contribution of employees is 0.5% of the employees' salaries, determined by the Bank for employees hired before 1 September 2005. For employees hired after 1 September 2005, the Bank and its employees contribute 11.5% and 3.5%, respectively, of the employees' salaries.

Permanent employees who joined the Bank prior to September 2005 are entitled to defined benefits pension plan plus defined contribution pension plan, or the benefits provided for under the Labor Law No. 11 Tahun 2020 and its implementing regulation PP No. 35 Tahun 2021, whichever is higher.

41. IMBALAN KERJA (lanjutan)

Program pensiun iuran pasti (lanjutan)

Beban pensiun iuran pasti yang telah dibebankan pada laporan laba rugi adalah sebesar Rp246.060 dan Rp223.410 masing-masing untuk periode yang berakhir pada tanggal 31 Desember 2023 dan 2022.

Liabilitas atas imbalan pasca kerja meliputi uang jasa, uang pisah dan pesangon sesuai dengan Undang-Undang Cipta Kerja No. 11/2020, PP 35/2021 dan kompensasi lainnya.

Imbalan kerja jangka panjang lainnya

Imbalan jangka panjang lainnya seperti cuti berimbalan jangka panjang, imbalan cacat permanen dan penghargaan *jubilee* dihitung dengan menggunakan metode *projected unit credit* dan didiskontokan ke nilai kini.

Penilaian aktuarial atas imbalan kerja jangka panjang lainnya untuk tahun-tahun yang berakhir tanggal 31 Desember 2023 dan 2022 dilakukan oleh perusahaan konsultan aktuarial terdaftar independen, PT Towers Watson Purbajaga dengan menggunakan metode "*Projected Unit Credit*" sebagaimana yang tercantum dalam laporan masing-masing pada tanggal 2 Januari 2024 dan 17 Januari 2023.

Perubahan liabilitas imbalan kerja yang diakui Bank pada laporan posisi keuangan konsolidasian adalah sebagai berikut:

	<u>2023</u>	<u>2022</u>
Liabilitas bersih pada awal periode	2,324,859	2,325,272
Dampak akuisisi	-	66,930
Biaya selama tahun berjalan	600,541	360,615
Penyesuaian atas perubahan metode atribusi - laba rugi	-	(309,394)
Jumlah yang diakui pada penghasilan komprehensif lain	112,469	89,867
Penyesuaian atas perubahan metode atribusi	-	(3,227)
Pembayaran imbalan	(409,300)	(205,204)
	<u>2,628,569</u>	<u>2,324,859</u>

Biaya imbalan kerja yang dibebankan Bank pada laporan laba rugi:

	<u>2023</u>	<u>2022</u>
Biaya jasa kini	358,023	226,616
Biaya bunga	155,674	160,191
Keuntungan aktuarial periode berjalan - bersih	86,844	(26,192)
Penyesuaian atas perubahan metode atribusi	-	(309,394)
Biaya yang dibebankan pada laba rugi	<u>600,541</u>	<u>51,221</u>

41. EMPLOYEE BENEFITS (continued)

Defined contribution pension plan (continued)

Defined contribution pension expense that was charged to profit or loss amounted to Rp246,060 and Rp223,410 for the period ended 31 December 2023 and 2022, respectively.

The liability for post employment benefits consisted of service payments, severance and termination benefits based on Undang-Undang Cipta Kerja No. 11/2020, PP 35/2021 and other compensations.

Other long-term employee benefits

Other long-term employee benefits such as long service leave, permanent disability benefit and jubilee awards are calculated using the projected unit credit method and discounted to present value.

The actuarial valuation of other long-term employee benefits for the years ended 31 December 2023 and 2022 were prepared by a registered independent actuarial consulting firm, PT Towers Watson Purbajaga using the "*Projected Unit Credit*" method as stated in its reports dated 2 January 2024 and 17 January 2023, respectively.

The movements of the employee benefits liability recognized by the Bank in the consolidated statement of financial position are as follows:

Net liability at the beginning of the period	2,325,272
Impact of acquisition	66,930
Expense recognized during the current year	360,615
Adjustment due to change in benefit attribution method	(309,394)
Total amount recognized in other comprehensive income	89,867
Adjustment due to change in benefit attribution method	(3,227)
Actual benefit payments	(205,204)

Employee benefits expense recognized by Bank in profit or loss:

Current service cost	226,616
Interest cost	160,191
Net actuarial gain recognized in current period	(26,192)
Adjustment due to change in benefit attribution period	(309,394)
Expense recognized in profit or loss	<u>51,221</u>

(Expressed in millions of Rupiah, unless otherwise stated)

41. IMBALAN KERJA (lanjutan)

Imbalan pasca kerja lainnya dan imbalan kerja jangka panjang lainnya (lanjutan)

Biaya imbalan kerja yang dibebankan Bank pada laporan laba rugi: (lanjutan)

	2023	2022
Biaya imbalan pasti yang diakui pada laba rugi	600,541	51,221
Pengukuran kembali yang diakui pada penghasilan komprehensif lainnya	112,469	89,867
Penyesuaian atas perubahan metode atribusi	-	(3,227)
Biaya imbalan pasti	713,010	137,861

Asumsi-asumsi utama yang digunakan dalam perhitungan di atas adalah:

	2023	2022
Asumsi ekonomi:		
Tingkat diskonto per tahun	6.75%	7.25%
Tingkat kenaikan gaji	7.00%	7.00%
Pendapatan dari dana pensiun iuran pasti	5.50%	6.00%
Asumsi lainnya:		
Usia pensiun normal	55 tahun/years	55 tahun/years
Tingkat kematian	Modifikasi Tabel Mortalita Indonesia 2019 (TMI2019)/ Adjusted Mortality Table Indonesia 2019 (TMI2019)	Modifikasi Tabel Mortalita Indonesia 2019 (TMI 2019)/ Adjusted Mortality Table Indonesia 2019 (TMI2019)
Tingkat cacat	10% dari tingkat/kematian/10% from mortality rate	10% dari tingkat/kematian/10% from mortality rate
Tingkat pengunduran diri		
Umur 20-29	4.2%	4.2%
Umur 30-34	2.8%	2.8%
Umur 35-39	3.0%	3.0%
Umur 40-50	1.7%	1.7%
Umur 51-52	1.3%	1.3%
Umur >52	0%	0%

Sensitivitas dari kewajiban imbalan pasca kerja lainnya terhadap perubahan asumsi aktuarial adalah sebagai berikut:

**Dampak
imbalan kerja jangka panjang lainnya/
Impact on
other long-term employee benefits**

2023	Perubahan Asumsi/ Change in Assumption	Nilai kini kewajiban imbalan kerja/ Present value of benefit obligation	Biaya jasa kini/ Current service cost	2023
Tingkat diskonto	Kenaikan/increase 1% Penurunan/decrease 1%	(145,466) 163,528	(5,338) 6,074	Discount rate
Tingkat kenaikan gaji	Kenaikan/increase 1% Penurunan/decrease 1%	228,078 (191,423)	8,466 (6,789)	Salary increase rate

41. EMPLOYEE BENEFITS (continued)

Post employment benefits and other long-term employee benefits (continued)

Employee benefits expense recognized by Bank in profit or loss: (continued)

	2023	2022
Biaya imbalan pasti yang diakui pada laba rugi	600,541	51,221
Pengukuran kembali yang diakui pada penghasilan komprehensif lainnya	112,469	89,867
Penyesuaian atas perubahan metode atribusi	-	(3,227)
Biaya imbalan pasti	713,010	137,861

The key assumptions used in the above calculation are:

	2023	2022
Economic assumptions:		
Annual discount rate	6.75%	7.25%
Rate of salary increases	7.00%	7.00%
Interest credited to defined contribution fund	5.50%	6.00%
Other assumptions:		
Normal retirement age	55 tahun/years	55 tahun/years
Mortality rate	Modifikasi Tabel Mortalita Indonesia 2019 (TMI2019)/ Adjusted Mortality Table Indonesia 2019 (TMI2019)	Modifikasi Tabel Mortalita Indonesia 2019 (TMI 2019)/ Adjusted Mortality Table Indonesia 2019 (TMI2019)
Disability rate	10% dari tingkat/kematian/10% from mortality rate	10% dari tingkat/kematian/10% from mortality rate
Turnover rate		
Age 20-29	4.2%	4.2%
Age 30-34	2.8%	2.8%
Age 35-39	3.0%	3.0%
Age 40-50	1.7%	1.7%
Age 51-52	1.3%	1.3%
Age >52	0%	0%

The sensitivity of other post benefit obligation to changes in the actuarial assumptions is as follows:

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

41. IMBALAN KERJA (lanjutan)

41. EMPLOYEE BENEFITS (continued)

Imbalan pasca kerja lainnya dan imbalan kerja jangka panjang lainnya (lanjutan)

Post employment benefits and other long-term employee benefits (continued)

2022	Perubahan Asumsi/ Change in Assumption	Dampak imbalan kerja jangka panjang lainnya/ Impact on other long-term employee benefits		2022
		Nilai kini kewajiban imbalan kerja/ Present value of benefit obligation	Biaya jasa kini/ Current service cost	
Tingkat diskonto	Kenaikan/increase 1% Penurunan/decrease 1%	(122,534) 137,592	(2,672) 7,150	Discount rate
Tingkat kenaikan gaji	Kenaikan/increase 1% Penurunan/decrease 1%	195,354 (164,373)	9,251 (3,956)	Salary increase rate

Analisis sensitivitas didasarkan pada perubahan atas satu asumsi aktuarial dimana asumsi lainnya dianggap konstan. Dalam perhitungan sensitivitas kewajiban imbalan pasti atas asumsi aktuarial utama, metode yang sama (perhitungan nilai kini kewajiban imbalan pasti dengan menggunakan metode *projected unit credit* di akhir periode pelaporan) telah diterapkan seperti dalam penghitungan kewajiban pensiun yang diakui dalam laporan posisi keuangan konsolidasian.

The sensitivity analysis is based on a change in an actuarial assumption while holding all other assumptions constant. When calculating the sensitivity of the defined benefit obligation to significant actuarial assumptions, the same method (present value of the defined benefit obligation calculated with the projected unit credit method at the end of the reporting period) has been applied as when calculating the pension liability recognized within the consolidated statement of financial position.

42. LABA PER SAHAM DASAR/DILUSIAN DIATRIBUSIKAN KEPADA PEMILIK ENTITAS INDUK

42. BASIC/DILUTED EARNINGS PER SHARE ATTRIBUTABLE TO EQUITY HOLDERS OF THE PARENT ENTITY

Laba tahun berjalan per saham dasar dihitung dengan membagi laba tahun berjalan diatribusikan kepada pemilik entitas induk dengan rata-rata tertimbang jumlah lembar saham biasa yang beredar pada tahun bersangkutan.

Basic earnings per share is computed by dividing income for the year attributable to owners of the parent entity by the weighted average number of outstanding common shares during the related year.

	2023	2022	
Laba tahun berjalan yang dapat diatribusikan kepada pemilik entitas induk	20,909,476	18,312,054	Income for the year attributable to owners of the parent entity
Rata-rata tertimbang jumlah lembar saham biasa yang beredar (dalam nilai penuh)	37,256,798,316	18,638,372,041	Weighted average number of outstanding ordinary shares (in full amount)
Laba per saham dasar diatribusikan kepada pemilik entitas induk (dalam Rupiah penuh)	561	983	Basic earnings per share attributable to equity holders of the parent entity (in full Rupiah amount)

Bank dan Entitas Anak tidak memiliki potensi saham yang bersifat dilutif.

Bank and Subsidiaries have no dilutive potential shares.

43. KOMBINASI BISNIS

Pada bulan Mei 2022, Grup mengakuisisi 63,92% saham PT Bank Hibank Indonesia ("Bank Hibank") dengan total harga perolehan adalah sebesar Rp3.500.000. Bank Hibank merupakan sebuah Bank yang bergerak di bidang perbankan komersial. Bank Hibank merencanakan untuk mengembangkan bisnis Bank Hibank dalam perbankan digital, dan akan melakukan aliansi serta sinergi bisnis dengan kegiatan usaha Grup.

Anggaran Dasar Bank Hibank telah mengalami beberapa kali perubahan. Perubahan terakhir Anggaran Dasar PT Bank Hibank dilakukan antara lain tentang perubahan penamaan perseroan menjadi PT Bank Hibank Indonesia sesuai dengan Akta Notaris No. 42 tanggal 11 April 2023 dari Jose Dima Satria, SH., M.KN. dan telah mendapat persetujuan dari Menteri Hukum dan Hak Asasi Manusia Republik Indonesia, dengan Surat Keputusan No. AHU-0022392.AH.01.02 tanggal 14 April 2023.

Tabel berikut ini merupakan rekonsiliasi arus kas yang dibayarkan dan diperoleh dalam transaksi akuisisi Bank Hibank (sebelumnya Bank Mayora):

	18 Mei/ May 2022	
Imbalan kas yang dibayar	3,500,000	<i>Cash consideration paid</i>
Penempatan pada bank lain dan Bank Indonesia		<i>Placements with other banks and Bank Indonesia</i>
- Kas	(48,271)	<i>Cash -</i>
- Penempatan pada bank lain dan Bank Indonesia	(6,780,426)	<i>Placements with other banks and Bank Indonesia -</i>
	(3,328,697)	

Imbalan, jumlah aset yang diperoleh, dan liabilitas yang diambil alih, dan *goodwill* terkait pada tanggal akuisisi menggunakan jumlah sementara adalah sebagai berikut:

	18 Mei/ May 2022	
Imbalan kas yang dibayar	3,500,000	<i>Cash consideration paid</i>
Nilai wajar dari aset teridentifikasi yang diperoleh dan liabilitas yang diambil alih	(2,742,430)	<i>Fair value of identifiable assets acquired and liabilities assumed</i>
Penyesuaian:		<i>Adjustments</i>
- Merek dagang	(11,298)	<i>Trademarks -</i>
- Hubungan pelanggan	(18,486)	<i>Customer relationships -</i>
<i>Goodwill</i>	727,786	<i>Goodwill</i>

Untuk mendapatkan substansi transaksi berdasarkan PSAK 22 "Kombinasi Bisnis", nilai wajar merek dagang, dan hubungan pelanggan diukur berdasarkan penilaian yang dilakukan oleh penilai independen.

In May 2022, the Group acquired 63.92% of the shares of PT Bank Hibank Indonesia ("Bank Hibank") with a total cost of Rp3,500,000. Bank Hibank is a commercial banking. Bank's Hibank plans to develop business in digital banking, and conduct alliances and business synergise with the Group's business activities.

Bank Hibank's Articles of Association has been amended several times. The latest amendment of PT Bank Hibank's Articles of Association was made regarding change its name to PT Bank Hibank Indonesia based on Notarial Deed No. 42 dated 11 April 2023 of Notary Jose Dima Satria, SH., M.KN. and has been approved by the Minister of Laws and Human Rights of the Republic of Indonesia, in its Decision Letter No. AHU-0022392.AH.01.02 dated 14 April 2023.

The following table is the reconciliation of cash flow payment and received from the acquisition of Bank Hibank (formerly Bank Mayora):

Consideration, total acquired assets and liabilities assumed and the related goodwill at the acquisition date under the provisional amounts were as follows:

In order to gain the substance of the transaction based on PSAK 22 "Business Combinations", fair value of trademarks and customer relationships were measured based on the valuation performed by the independent valuer.

43. KOMBINASI BISNIS (lanjutan)

Tabel berikut ini merangkum nilai wajar yang diperoleh dan liabilitas yang diambil alih pada tanggal akuisisi:

ASET	18 Mei/ May 2022
Kas	48,271
Penempatan pada bank lain dan Bank Indonesia	6,780,426
Efek-efek	975,069
Efek-efek yang dibeli dengan janji dijual kembali	1,530,760
Tagihan akseptasi	81,471
Pinjaman yang diberikan - bersih	3,036,398
Aset tetap dan aset hak guna - bersih	104,476
Beban dibayar dimuka	17,531
Aset lain-lain - bersih	128,118
Jumlah aset	12,702,520
LIABILITAS	
Liabilitas segera	(12,535)
Simpanan nasabah	(8,090,651)
Simpanan dari bank lain	(101,215)
Liabilitas akseptasi	(81,875)
Utang pajak	(4,869)
Beban bunga	(9,541)
Imbalan kerja	(58,154)
Pinjaman yang diterima	(2,858)
Liabilitas pajak tangguhan	(379)
Liabilitas lain-lain	(50,111)
Jumlah liabilitas	(8,412,188)
Jumlah aset teridentifikasi neto	4,290,332
Kepentingan non-pengendali	(1,547,902)
Merek dagang (Catatan 20)	11,298
Hubungan pelanggan (Catatan 20)	18,486
Goodwill (Catatan 20)	727,786
Imbalan kas yang dibayar	3,500,000

Biaya yang terkait dengan akuisisi sebesar Rp882 telah dibebankan pada beban administrasi pada laporan laba rugi untuk tahun yang berakhir pada 31 Desember 2022.

Pendapatan Bank Hibank yang termasuk di dalam laporan laba rugi sejak 18 Mei 2022 sebesar Rp40.842. Hibank juga memberikan kontribusi laba sebesar Rp26.107 selama periode yang sama.

Jika Bank Hibank dikonsolidasi sejak 1 Januari 2022, maka laba rugi laporan keuangan untuk tahun yang berakhir 31 Desember 2022 akan menunjukkan tambahan pendapatan sebesar Rp60.340 dan jumlah laba sebesar Rp38.570.

Pada tanggal 31 Desember 2023, Manajemen berpendapat tidak terdapat indikasi penurunan nilai terhadap goodwill dari transaksi akuisisi Bank Hibank.

43. BUSINESS COMBINATION (continued)

The following table summarises the fair value of the assets acquired and liability assumed recognized at the acquisition date:

ASSETS
Cash
Placements with other banks and Bank Indonesia
Marketable securities
Securities purchased under agreements to resell
Acceptance receivables
Loans - net
Fixed assets and right-of-use assets - net
Prepaid expenses
Other assets - net
Total assets
LIABILITIES
Obligations due immediately
Deposits from customers
Deposits from other banks
Acceptance liabilities
Taxes payable
Accrued interest
Employee benefits
Borrowings
Deferred tax liabilities
Other liabilities
Total liabilities
Total identifiable net assets
Non-controlling interest
Trademarks (Note 20)
Customer relationships (Note 20)
Goodwill (Note 20)
Cash consideration paid

Acquisition-related costs of Rp882 have been charged to administrative expenses in the profit or loss for the year ended 31 December 2022.

The revenue included in the profit or loss since 18 May 2022 contributed by Bank Hibank was Rp40,842. Hibank also contributed a profit of Rp26,107 over the same period.

Had Bank Hibank been consolidated from 1 January 2022, the profit or loss of the consolidated financial statements for the year ended 31 December 2022 would have shown revenue increase of Rp60,340 and total profit of Rp38,570.

As of 31 December 2023, Management believes that there is no indication of impairment of goodwill from the acquisition transaction of Bank Hibank.

44. PEMBAYARAN BERBASIS SAHAM

Berdasarkan Keputusan Rapat Umum Pemegang Saham (RUPS) Tahunan BNI tanggal 29 Maret 2021 yang diaktakan dengan akta No. 14, yang dibuat dihadapan Notaris Fathiah Helmi, S.H., dengan tanggal yang sama, RUPS telah menyetujui untuk mengalihkan secara keseluruhan saham hasil pembelian kembali (*buyback*) tahun 2020 yang disimpan sebagai saham treasury sebanyak 19.579.700 saham dalam rangka Program Kepemilikan Saham oleh Pegawai dan Program Kepemilikan Saham oleh Direksi dan Dewan Komisaris.

Selanjutnya, berdasarkan Surat Kementerian Badan Usaha Milik Negara (KBUMN) No. SR-33/Wk2.MBU.A/10/2021 tanggal 1 Oktober 2021, Menteri Negara BUMN telah menetapkan besarnya Jumlah Tantiem untuk Direksi dan Dewan Komisaris atas kinerja Tahun Buku 2020. Menindaklanjuti hal tersebut, dengan memperhatikan ketentuan POJK No.45/POJK.03/2015 tentang Penerapan Tata Kelola Dalam Pemberian Remunerasi Bagi Bank Umum dan berdasarkan keputusan manajemen bahwa 20% dari jumlah Tantiem dibayarkan sebagai remunerasi yang harus ditangguhkan dan dibayarkan dalam bentuk saham untuk Direksi dan Dewan Komisaris non Independen, serta dalam bentuk deposito bagi Komisaris Independen.

Bank telah memberikan saham sebagaimana disebutkan di atas pada tanggal 30 Desember 2021 sebanyak 5.724.673 lembar saham dengan pembukaan periode *lock-up* beserta pembagiannya sebagai berikut:

1. Periode *lock-up* tahap I pada tanggal 5 Juni 2022 dengan jumlah saham sebesar 1.642.746 lembar saham;
2. Periode *lock-up* tahap II pada tanggal 5 Juni 2023 dengan jumlah saham sebesar 1.642.738 lembar saham;
3. Periode *lock-up* tahap III pada tanggal 5 Juni 2024 dengan jumlah saham sebesar 1.642.726 lembar saham; dan
4. Periode *lock-up* tahap IV pada tanggal 5 Juni 2025 dengan jumlah saham sebesar 796.463 lembar saham.

Saham diberikan kepada Direksi dan Dewan Komisaris tertentu berdasarkan pada pencapaian performa kinerja Bank. Harga eksekusi yang diberikan sama dengan harga pasar pada tanggal pemberian yaitu sebesar Rp6.750 (nilai penuh).

44. SHARE-BASED PAYMENT

Based on the decision of the BNI's Shareholders Annual General Meeting held on 29 March 2021, notarized by deed No. 14, made before Notary Fathiah Helmi, S.H., on the same date, the shareholders approved the granting of authority and approved to transfer all of the shares from the 2020 buyback that has been registered as treasury shares of 19,579,700 for the purpose of the Employee Shares Ownership Program and the Board of Directors and the Board of Commissioners share ownership program.

Furthermore, according to the Letter of the Ministry of State-Owned Enterprises (KBUMN) No. SR-33/Wk2.MBU.A/10/2021 dated 1 October 2021, the Minister of State-Owned Enterprises has determined the amount of Tantiem for the Board of Directors and Board of Commissioners for the performance of Fiscal Year 2020. Following up on this, taking into account to POJK No.45/POJK 03/2015 concerning the Implementation of Good Corporate Governance in Providing Remuneration for Commercial Banks and based on management's decision that 20% of the amount of Tantiem is paid as remuneration which must be deferred and paid in the form of shares for Board of Directors and non Independent Board of Commissioners, as well as in the form of deposits for Independent Commissioners.

The Bank has granted 5,724,673 shares as mentioned above on 30 December 2021 with the opening lock-up period and the distribution are as follows:

1. *First phase of the lock-up period on 5 June 2022 with a total of 1,642,746 shares;*
2. *Lock-up period phase II on 5 June 2023 with a total of 1,642,738 shares;*
3. *Lock-up period phase III on 5 June 2024 with a total of 1,642,726 shares, and;*
4. *Lock-up period phase IV on 5 June 2025 with a total of 796,463 shares.*

Shares are granted to Board of Directors and Board of Commissioners based on Bank's performance target achievement. The exercise price of the granted options is equal to the market price at the grant date amounting to Rp6,750 (full amount).

44. PEMBAYARAN BERBASIS SAHAM (lanjutan)

Selain itu, berdasarkan Keputusan Rapat Umum Pemegang Saham (RUPS) Tahunan BNI tanggal 15 Maret 2022 yang diaktakan dengan akta No. 22, yang dibuat dihadapan Notaris Fathiah Helmi, S.H., dengan tanggal yang sama, RUPS telah menyetujui untuk mengalihkan secara keseluruhan saham hasil pembelian kembali (*buyback*) tahun 2021 yang disimpan sebagai saham treasury sebanyak 24.682.600 saham dalam rangka Program Kepemilikan Saham oleh Pegawai dan Program Kepemilikan Saham oleh Direksi dan Dewan Komisaris.

Selanjutnya, berdasarkan Surat Kementerian Badan Usaha Milik Negara (KBUMN) No. SR-23/Wk2.MBU.A/07/2022 tanggal 25 Juli 2022, Menteri Negara BUMN telah menetapkan besarnya Jumlah Tantiem untuk Direksi dan Dewan Komisaris atas kinerja Tahun Buku 2021. Menindaklanjuti hal tersebut, dengan memperhatikan ketentuan POJK No.45/POJK.03/2015 tentang Penerapan Tata Kelola Dalam Pemberian Remunerasi Bagi Bank Umum dan berdasarkan keputusan manajemen bahwa 10% dari jumlah Tantiem dibayarkan sebagai remunerasi yang harus ditangguhkan dan dibayarkan dalam bentuk saham untuk Direksi dan Dewan Komisaris Non Independen, serta dalam bentuk deposito bagi Komisaris Independen.

Bank telah memberikan saham sebagaimana disebutkan di atas pada tanggal 29 Juli 2022 sebanyak 3.001.097 lembar saham dengan pembukaan periode *lock-up* beserta pembagiannya sebagai berikut:

1. Periode *lock-up* tahap I pada tanggal 5 Juni 2023 dengan jumlah saham sebesar 922.460 lembar saham;
2. Periode *lock-up* tahap II pada tanggal 5 Juni 2024 dengan jumlah saham sebesar 1.039.325 lembar saham; dan
3. Periode *lock-up* tahap III pada tanggal 5 Juni 2025 dengan jumlah saham sebesar 1.039.312 lembar saham.

Saham diberikan kepada Direksi, Dewan Komisaris dan karyawan tertentu tersebut berdasarkan pada pencapaian performa kinerja Bank. Harga eksekusi yang diberikan sama dengan harga pasar pada tanggal pemberian yaitu sebesar Rp7.850 (nilai penuh).

44. SHARE-BASED PAYMENT (continued)

Other than that, based on the decision of the BNI's Shareholders Annual General Meeting held on 15 March 2022, notarized by deed No. 22, made before Notary Fathiah Helmi, S.H., on the same date, the shareholders approved the granting of authority and approved to transfer all of the shares from the 2021 buyback that has been registered as treasury shares of 24,682,600 for the purpose of the Employee Shares Ownership Program and the Board of Directors and the Board of Commissioners share ownership program.

Furthermore, according to the Letter of the Ministry of State-Owned Enterprises (KBUMN) No. SR-23/Wk2.MBU.A/07/2022 dated 25 July 2022, the Minister of State-Owned Enterprises has determined the amount of Tantiem for the Board of Directors and Board of Commissioners for the performance of Fiscal Year 2021. Following up on this, taking into account to POJK No.45/POJK 03/2015 concerning the Implementation of Good Corporate Governance in Providing Remuneration for Commercial Banks and based on management's decision that 10% of the amount of Tantiem is paid as remuneration which must be deferred and paid in the form of shares for Board of Directors and non Independent Board of Commissioners, as well as in the form of deposits for Independent Commissioners.

The Bank has granted 3,001,097 shares as mentioned above on 29 July 2022 with the opening *lock-up* period and the distribution are as follows:

1. First phase of the *lock-up* period on 5 June 2023 with a total of 922,460 shares;
2. *Lock-up* period phase II on 5 June 2024 with a total of 1,039,325 shares; and
3. *Lock-up* period phase III on 5 June 2025 with a total of 1,039,312 shares.

Shares are granted to Board of Directors, Board of Commissioners and several employee based on Bank's performance target achievement. The exercise price of the granted options is equal to the market price at the grant date amounting to Rp7,850 (full amount).

44. SHARE-BASED PAYMENT (continued)

Employee Stock Allocation ("ESA") Program

Based on the decision of the BNI's Shareholders Annual General Meeting held on 15 March 2022, notarized by deed No. 22, made before Notary Fathiah Helmi, S.H., on the same date, the shareholders approved the granting of authority and approved to transfer all of the shares from the 2021 buyback that has been registered as treasury shares of 24,682,600 for the purpose of the Employee Shares Ownership Program and the Board of Directors and the Board of Commissioners Shares Ownership program. Approved and grant power and authority to implement the Share Ownership Program for Employees and/or Share Ownership Program for the Board of Directors and the Board of Commissioners, whether sourced from treasury shares or other source.

The Bank has granted shares as mentioned above on 2 June 2022 as many as 67,795,400 shares with the opening lock-up period and the distribution are as follows:

1. First phase of the lock-up period on 2 June 2023 with a total of 47,938,100 shares;
2. Lock-up period phase II on 2 June 2024 with a total of 10,854,800 shares; and
3. Lock-up period phase III on 2 June 2025 with a total of 9,002,500 shares.

Shares are granted to directors and to selected employees based on Bank's performance target achievement. The exercise price of the granted options is equal to the market price at the grant date amounting to Rp8,850 (full amount).

On 29 December 2022, The Bank has granted shares as many as 10,355,756 shares with the opening lock-up period and the distribution are as follows:

1. First phase of the lock-up period on 2 June 2023 with a total of 7,975,689 shares;
2. Lock-up period phase II on 2 June 2024 with a total of 622,400 shares;
3. Lock-up period phase III on 2 June 2025 with a total of 1,551,800 shares.
4. First phase of the lock-up period on 29 March 2023 with a total of 102,933 shares;

47. INFORMASI SEGMENT

Sebelumnya pada tahun 2022, segmen operasi Grup dibagi berdasarkan kelompok nasabah utama dan produk, sebagai berikut: *Corporate & International Banking, Institutional Banking, Enterprises & Commercial Banking, Consumer Banking, Treasury*, Kantor Pusat dan Entitas Anak. Dalam menentukan hasil segmen, beberapa akun aset dan liabilitas dan pendapatan dan biaya yang terkait diatribusikan ke masing-masing segmen berdasarkan kebijakan pelaporan internal manajemen.

Grup menerapkan Konsep 3 Dimensi untuk penilaian kinerja secara internal yaitu Dimensi Segmen, Dimensi *Channel* dan Dimensi Produk. Konsep ini dipakai sejak tahun 2022. Untuk kepentingan pelaporan Segmen, maka yang dilaporkan adalah berdasarkan Dimensi Segmen.

Pada tahun 2023, Grup menerapkan perubahan terhadap segmen operasi yang diselaraskan perubahan nomenklatur direksi berdasarkan hasil Rapat Umum Pemegang Saham Tahunan 2023.

Terkait perubahan segmen operasi sesuai Rapat Umum Pemegang Saham Tahunan 2023, Grup melakukan perubahan antara lain:

- Perpindahan Bisnis SME dari *Enterprises & Commercial Banking* serta Bisnis Program dari *Institutional Banking* digabung dengan *Consumer Banking* menjadi segmen *Retail Banking*.

Dibawah ini adalah penjelasan mengenai pelaporan masing-masing segmen per 31 Desember 2023:

- **Wholesale & International Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan transaksi-transaksi lainnya milik nasabah korporasi, baik BUMN dan badan usaha swasta termasuk institusi keuangan dan nasabah kantor cabang luar negeri.
- **Institutional Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan transaksi-transaksi lainnya milik nasabah Kementerian, Lembaga Pemerintah, yayasan dan universitas.

47. SEGMENT INFORMATION

In previous year 2022, the Group's operating segments represent the key customers and product groups, as follows: Corporate & International Banking, Institutional Banking, Enterprises & Commercial Banking, Consumer Banking, Treasury, Head Office and Subsidiaries. In determining the segment results, certain assets and liabilities items and related revenues and expenses are attributed to each segment based on internal management reporting policies.

The Group applies the 3 Dimensional Concept for internal performance assessment, namely Segment, Channel and Product Dimensions. This concept has been used since 2022. For the purpose of Segment reporting, what is reported is based on the Segment Dimension.

In 2023, the Group implemented changes to the operating segments in line with changes in the nomenclature of the directors based on the results of the 2023 Annual General Meeting of Shareholders.

Due to changes in the operating segments as of 2023 Annual General Meeting of Shareholders, the Group has perform changes as follows:

- *Transfer of SME business from Enterprises & Commercial Banking and program loans from Institutional Banking to merge with Consumer Banking to become the Retail Banking segment.*

Below is an explanation of the reporting of each segment as of 31 December 2023:

- **Wholesale & International Banking:** *including loans, customer deposits and other transactions belonging to corporate customers, both BUMN and private business entities including financial institutions and overseas branch customers.*
- **Institutional Banking:** *including loans, customer deposits and other transactions belonging to customers of Ministries, Government Institutions, foundations and universities.*

47. INFORMASI SEGMENT (lanjutan)

Dibawah ini adalah penjelasan mengenai pelaporan masing-masing segmen per 31 Desember 2023: (lanjutan)

- **Enterprises & Commercial Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan transaksi-transaksi lainnya milik nasabah dengan skala menengah/komersial.
- **Retail Banking:** termasuk pinjaman yang diberikan, simpanan nasabah dan transaksi-transaksi lainnya milik nasabah SME, kredit program dan konsumen termasuk kredit pembiayaan konsumsi termasuk kredit kepemilikan rumah, kartu kredit serta produk dan jasa lainnya seperti dana pihak ketiga, transaksi pembayaran dan transaksi-transaksi lainnya milik nasabah individual.
- **Treasury:** terkait dengan kegiatan treasury Bank termasuk transaksi valuta asing, *money market*, *fixed income* dan pasar modal.
- **Kantor Pusat:** terutama mengelola aset dan liabilitas Grup selain yang telah dikelola oleh segmen operasi lainnya termasuk menerima alokasi biaya atas penyediaan jasa servis secara sentralisasi kepada segmen lainnya serta pendapatan/biaya yang tidak teralokasi ke pelaporan segmen lainnya.
- **Entitas Anak:** seluruh transaksi yang dilakukan oleh Entitas Anak yang bergerak di bidang asuransi, pembiayaan konsumen, perbankan, modal ventura dan sekuritas.

Kinerja diukur berdasarkan laba segmen sebelum pajak penghasilan, sebagaimana dilaporkan dalam laporan internal manajemen yang ditelaah oleh Manajemen Bank. Keuntungan segmen digunakan untuk mengukur kinerja dimana manajemen berkeyakinan bahwa informasi tersebut paling relevan dalam mengevaluasi hasil segmen tersebut relatif terhadap entitas lain yang beroperasi dalam industri tersebut.

47. SEGMENT INFORMATION (continued)

Below is an explanation of the reporting of each segment as of 31 December 2023: (continued)

- **Enterprises & Commercial Banking :** *including loans, customer deposits and other transactions belonging to customers of middle/commercial.*
- **Retail Banking:** *including loans, customer deposits and other transactions belonging to consumer customers including SME, credit program, and consumer financing loans including home ownership loans, credit cards, other products and services such as third party funds, payment transactions and other transactions belonging to customers individual.*
- **Treasury:** *related to the Bank's treasury activities including foreign exchange transactions, money market, fixed income, and capital market.*
- **Head Office:** *mainly manages the Group's assets and liabilities in addition to those already managed by other operating segments including receiving cost allocation for centralized service provision to other segments as well as revenues/costs that are not allocated to other segment reporting.*
- **Subsidiaries:** *all transactions conducted by Subsidiaries engaged in insurance, consumer financing, banking, venture capital and securities.*

Performance is measured based on segment profit before income tax, as included in the internal management reports that are reviewed by the Bank's Management. Segment profit is used to measure performance of that business segment as management believes that such information is the most relevant in evaluating the results of those segments relative to other entities that operate within these industries.

48. MANAJEMEN RISIKO

Untuk mengantisipasi tantangan ekonomi domestik maupun global serta peningkatan eksposur risiko yang dihadapi oleh BNI, dibutuhkan suatu sistem pengelolaan risiko dan permodalan yang efektif dan terintegrasi, yang mampu mendukung pencapaian dan pertumbuhan kinerja secara berkelanjutan sekaligus meningkatkan daya saing Bank.

Risiko adalah potensi kerugian akibat terjadinya suatu peristiwa tertentu. Risiko dalam konteks perbankan merupakan suatu kejadian potensial, baik yang diperkirakan (*expected*) maupun yang tidak diperkirakan (*unexpected*) yang berdampak negatif terhadap pendapatan dan permodalan Bank.

Manajemen risiko merupakan serangkaian metodologi dan prosedur yang digunakan untuk mengidentifikasi, mengukur, memantau, dan mengendalikan risiko yang timbul dari seluruh kegiatan usaha Bank, termasuk upaya untuk memitigasi dan/atau meminimalkan kerugian finansial maupun non-finansial yang mungkin timbul dari produk atau aktivitas Bank, hubungan antara Bank dengan nasabah maupun dalam internal Bank.

Penerapan Manajemen Risiko BNI berlandaskan pada regulasi nasional maupun internasional, meliputi Peraturan Otoritas Jasa Keuangan (POJK), Surat Edaran Otoritas Jasa Keuangan (SEOJK), Peraturan Bank Indonesia (PBI), Surat Edaran Bank Indonesia (SEBI), dan dokumen *Basel Committee on Banking Supervision* (BCBS).

Beberapa regulasi yang terkait dengan Manajemen Risiko Bank adalah sebagai berikut:

1. POJK No.18/POJK.03/2016 tanggal 16 Maret 2016 dan SEOJK No.34/SEOJK.03/2016 tanggal 1 September 2016 tentang Penerapan Manajemen Risiko bagi Bank Umum.
2. POJK No. 38/ POJK.03/2017 tanggal 12 Juli 2017 dan SEOJK No. 43/SEOJK.03/2017 tanggal 19 Juli 2017 tentang Prinsip Kehati-hatian dan Laporan dalam rangka Penerapan Manajemen Risiko secara Konsolidasi bagi Bank yang Melakukan Pengendalian terhadap Perusahaan Anak.
3. POJK No.17/POJK.03/2014 tanggal 19 November 2014 dan SEOJK No.14/SEOJK.03/2015 tanggal 25 Mei 2015 tentang Penerapan Manajemen Risiko Terintegrasi bagi Konglomerasi Keuangan.

48. RISK MANAGEMENT

To anticipate domestic and global economic challenges and also increase risk exposures faced by BNI, an effective and integrated risk and capital management system is needed, which is able to support the achievement and growth of sustainable performance while enhancing the competitiveness of the Bank.

Risk is the potential loss due to certain events. Risk in the banking context is a potential event, either an expected or an unexpected that has a negative impact on bank income and capital of the Bank.

Risk management is a set of methodologies and procedures used to identify, measure, monitor, or control the risks arising from the entire Bank's business activities, including the efforts to mitigate and/or minimize financial or non-financial losses that may arise from products or activities of the Bank, the relationship between the Bank and its customer and also within the internal Bank.

The implementation of BNI Risk Management is based on national and international regulations, including Financial Services Authority Regulations (POJK), Financial Services Authority Circular Letters (SEOJK), Bank Indonesia Regulations (PBI), Bank Indonesia Circular Letters (SEBI), and *Basel Committee on Banking Supervision* (BCBS).

Some of the agreements related to the Bank's Risk Management are as follows:

1. POJK No. 18/POJK.03/2016, dated 16 March 2016 and SEOJK No.34/SEOJK.03/2016 dated 1 September of 2016 concerning the Implementation of Risk Management for Commercial Banks.
2. POJK No. 38/POJK.03/2017 dated 12 July 2017 and SEOJK No. 43/SEOJK.03/2017 dated 19 July 2017 concerning Prudential Principles and Reports within the framework of the Application of Consolidated Risk Management for Banks that Control Subsidiaries.
3. POJK No.17/POJK.03/2014 dated 19 November 2014 and SEOJK No.14/SEOJK.03/2015 dated 25 May 2015 concerning the Implementation of Integrated Risk Management for Financial Conglomerates.

48. MANAJEMEN RISIKO (lanjutan)

Penerapan Manajemen Risiko didasari oleh kebutuhan akan keseimbangan fungsi bisnis dengan pengelolaan risiko, dimana Manajemen Risiko menjadi *strategic partner* dari Unit Bisnis untuk mengoptimalkan pendapatan dari Unit Bisnis secara keseluruhan.

Dalam rangka penerapan Manajemen Risiko yang efektif, baik untuk BNI secara individu maupun secara Konsolidasi dan Terintegrasi dengan Entitas Anak, penerapan manajemen risiko dilakukan melalui 4 (empat) pilar penerapan manajemen risiko yaitu: (i) Pengawasan aktif direksi dan dewan komisaris; (ii) Kecukupan kebijakan, dan prosedur manajemen risiko serta penetapan limit risiko; (iii) Kecukupan proses identifikasi, pengukuran, pemantauan, dan pengendalian risiko serta Sistem Informasi Manajemen Risiko, dan (iv) Sistem pengendalian internal yang menyeluruh.

Penerapan manajemen risiko di BNI secara umum terangkum dalam kerangka manajemen risiko. Kerangka manajemen risiko ini dituangkan dalam kebijakan, prosedur, limit-limit transaksi, kewenangan dan ketentuan lain serta diaplikasikan dalam perangkat manajemen risiko, yang berlaku di seluruh lingkup aktivitas usaha.

Secara berkala dilakukan evaluasi terhadap kebijakan dan prosedur manajemen risiko agar sesuai dengan perkembangan bisnis dan perubahan regulasi.

Sebagai bagian dari Strategi Manajemen Risiko, BNI menetapkan *Risk Appetite Statement* (RAS). RAS merupakan jenis dan tingkat risiko yang sanggup diambil/ dihadapi Bank yang berada dalam kapasitas risiko yang dimiliki dalam rangka mencapai tujuan bisnis. Adapun *Risk Appetite Statement* BNI sebagai berikut:

Risk Appetite	Risk Appetite Statement
Permodalan	Memelihara modal sesuai dengan tingkat risiko dan di-review secara periodik.
Rentabilitas	Memelihara rentabilitas secara berkesinambungan dalam jangka panjang untuk mendukung pertumbuhan permodalan dan kinerja bank.
Risiko Kredit	a. Memelihara pertumbuhan kredit yang berkualitas fokus pada sektor prioritas. Pemberian kredit kepada sektor industri dan kegiatan usaha berisiko tinggi dilakukan dengan sangat hati-hati dan selektif. b. Mengelola risiko konsentrasi pada level yang menghasilkan return optimum. c. Meningkatkan kualitas kredit dan efektivitas pengelolaan kredit bermasalah.

48. RISK MANAGEMENT (continued)

The Risk Management implementation is based on the need to maintain balance between the business functions with the risk management, where Risk Management becoming a strategic partner for the Business Unit to optimize the revenue from the Business Unit as a whole.

In order to implement effective Risk Management, both for BNI individually and as a Consolidated and Integrated subsidiaries, the application of risk management is done through 4 (four) pillars of risk management: (i) Active control from board of directors and board of commissioners; (ii) The adequacy of policies and risk management procedures and, ie. Risk limit determination; (iii) The adequacy of identification process, measurement, monitoring, and risk control and Risk Management Information Systems, and (iv) Overall internal control systems.

Implementation of risk management in BNI is undertaken within the risk management framework. This risk management framework is outlined in the policies, procedures, transaction limits, authorities and other regulations as well as being applied in the risk management tools, which is applicable in the whole scope of business activities.

Periodic evaluation is applied to risk management policies and procedures to ensure it reflects the Bank's current business and regulations.

As part of the Risk Management Strategy, BNI establishes a Risk Appetite Statement (RAS). RAS is the type and level of risk that a Bank can take/face within its risk capacity in order to achieve business objectives. The BNI Risk Appetite Statement is as follows:

Risk Appetite	Risk Appetite Statement
<i>Capital</i>	<i>Maintaining capital according to the level of risk and reviewed periodically.</i>
<i>Rentability</i>	<i>Maintain sustainable profitability in the long term to support capital growth and bank performance.</i>
<i>Credit Risk</i>	a. <i>Maintaining quality credit growth focusing on priority sectors. Lending to the industrial sector and high-risk business activities is carried out very carefully and selectively.</i> b. <i>Manage concentration risk at a level that generates optimum returns.</i> c. <i>Improving credit quality and effectiveness in managing non-performing loans.</i>

48. MANAJEMEN RISIKO (lanjutan)

Risk Appetite	Risk Appetite Statement
Risiko Pasar	Memelihara tingkat Risiko Pasar sesuai ketentuan dengan tetap memperhatikan pencapaian target bisnis.
Risiko Likuiditas	Memelihara ketersediaan likuiditas sesuai ketentuan dengan tetap memperhatikan pencapaian target bisnis.
Risiko Operasional	a. <i>Intolerance</i> pada <i>internal fraud</i> . b. Memastikan kecukupan mitigasi risiko atas peningkatan transaksi <i>e-channel/digital</i> . c. Memastikan <i>awareness</i> seluruh pegawai terhadap potensi risiko dan setiap aktivitas yang dilakukan. d. Segenap pegawai berkomitmen untuk melaksanakan kontrol dalam setiap aktivitasnya untuk meminimalkan kerugian baik finansial maupun non finansial yang bersumber dari ketidakcukupan proses internal, kelemahan SDM, dan kegagalan sistem. e. Menjaga implementasi proyek IT sesuai jadwal yang telah ditetapkan.
Risiko Hukum	Meminimalisir potensi kerugian akibat permasalahan hukum dalam kegiatan usaha BNI.
Risiko Strategik	a. Menghasilkan pendapatan yang berkelanjutan dengan risiko yang terjaga. b. Memelihara permodalan sesuai ketentuan regulator dan kebutuhan saat normal maupun krisis. c. Meningkatkan ekspansi pasar global melalui akselerasi strategi bisnis internasional. d. Memperkuat <i>digital capability</i> melalui inovasi dan peningkatan partnership. e. Memelihara Tingkat Kesehatan Bank dan Profil Risiko di Rating 2 atau lebih baik.
Risiko Kepatuhan	Meminimalisir secara berkelanjutan denda dari Regulator sehingga menurun dari waktu ke waktu.
Risiko Reputasi	Menjaga rating BNI tetap investment grade.

Agar penerapan manajemen risiko dapat berjalan secara efektif, BNI menyusun *Risk Governance* sebagai bagian dari sistem Tata Kelola Perusahaan (*Corporate Governance*) yang fokus pada struktur, proses dan pendekatan pengelolaan risiko dalam upaya pencapaian tujuan bisnis.

48. RISK MANAGEMENT (continued)

Risk Appetite	Risk Appetite Statement
<i>Market Risk</i>	<i>Maintaining the level of Market Risk in accordance with regulations while taking into account the achievement of business targets.</i>
<i>Liquidity Risk</i>	<i>Maintaining the availability of liquidity in accordance with the provisions by taking into account the achievement of business targets.</i>
<i>Operational Risk</i>	a. <i>Intolerance to internal fraud.</i> b. <i>Ensuring the adequacy of risk mitigation for increased e-channel/digital transactions.</i> c. <i>Ensuring awareness of all employees on potential risks and every activity carried out.</i> d. <i>All employees are committed to implementing controls in each of their activities to minimize both financial and non-financial losses originating from inadequate internal processes, human resource weaknesses, and system failures.</i> e. <i>Maintain the implementation of IT projects according to a predetermined schedule.</i>
<i>Legal Risk</i>	<i>Minimizing potential losses due to legal issues in BNI's business activities.</i>
<i>Strategic Risk</i>	a. <i>Generate sustainable income with manageable risk.</i> b. <i>Maintaining capital according to regulatory provisions and needs during normal times and crises.</i> c. <i>Increase global market expansion through acceleration of international business strategies.</i> d. <i>Strengthening digital capability through innovation and increasing partnerships.</i> e. <i>Maintain Bank Soundness Level and Risk Profile at Rating 2 or better.</i>
<i>Compliance Risk</i>	<i>Minimizing on an ongoing basis fines from Regulators so that they decrease over time.</i>
<i>Reputation Risk</i>	<i>Maintaining BNI's investment grade rating.</i>

Risk Governance is formed to enforce the effectiveness of risk management implementation, and as a part of Corporate Governance system, which focuses on structure, process and approach to risk management in achieving the business goals.

48. MANAJEMEN RISIKO (lanjutan)

Inisiatif dan langkah-langkah penyempurnaan telah dilakukan untuk meletakkan landasan yang kuat dalam manajemen risiko di BNI yang mencakup aspek-aspek organisasi, strategi, sistem informasi dan operasi, serta pengembangan sumber daya manusia. BNI juga telah melakukan langkah-langkah antisipatif yang menyentuh aspek humanis dan personal setiap individu BNI, yaitu dengan membangun budaya risiko yang kuat yang merupakan bagian dari budaya perusahaan BNI. BNI terus berupaya untuk meningkatkan budaya risiko segenap insan BNI agar tercipta budaya risiko yang kuat.

Terkait dengan produk atau aktivitas baru yang akan diterbitkan, penilaian yang komprehensif dilakukan terhadap risiko yang melekat pada produk atau aktivitas baru untuk memastikan bahwa potensi risiko yang mungkin timbul telah dimitigasi dengan baik.

Pengelolaan risiko kredit, risiko likuiditas, risiko pasar dan operasional BNI sebagaimana diuraikan pada Catatan 49 sampai dengan Catatan 52 adalah sesuai dengan definisi dari Regulator (tidak diaudit).

BNI juga melakukan pengelolaan terhadap risiko lainnya sesuai aturan Regulator, yaitu (i) risiko hukum untuk mengurangi kemungkinan kerugian dari tuntutan hukum atau kelemahan aspek yuridis seperti ketiadaan peraturan perundang-undangan yang mendukung atau kelemahan perikatan seperti tidak dipenuhinya syarat sahnya kontrak atau pengikatan agunan yang tidak sempurna.; (ii) risiko reputasi untuk mengurangi kemungkinan kerugian akibat menurunnya tingkat kepercayaan pemangku kepentingan (*stakeholder*) yang bersumber dari persepsi negatif terhadap Bank; (iii) risiko strategis untuk mengurangi kemungkinan kerugian akibat ketidaktepatan dalam pengambilan dan/ atau pelaksanaan suatu keputusan strategis serta kegagalan dalam mengantisipasi perubahan lingkungan bisnis; dan (iv) risiko kepatuhan untuk mengurangi kemungkinan kerugian karena Bank tidak mematuhi atau tidak melaksanakan peraturan perundang-undangan dan ketentuan.

Upaya-upaya yang dilakukan untuk mengelola risiko hukum, risiko reputasi, risiko strategis dan risiko kepatuhan seperti tersebut di atas diantaranya adalah:

- Mengelola Pedoman Perusahaan untuk manajemen risiko hukum, risiko reputasi, risiko strategis, dan risiko kepatuhan;
- Melakukan analisis aspek risiko hukum dan uji kepatuhan terhadap produk atau aktivitas *existing* dan baru;
- Melakukan kaji ulang berkala terhadap format standar perjanjian, khususnya perjanjian kredit, guna memastikan kesesuaian dengan peraturan perundang-undangan;

48. RISK MANAGEMENT (continued)

Initiatives and corrective actions have been taken to build a solid foundation for BNI's risk management, covering aspect of organization, strategies, information system and operations, and human capital. BNI has taken some anticipatory actions related to humanity and personal aspects of each individual of BNI by implementing risk culture enhancement to build a strong risk culture that is part of the BNI's company culture. BNI constantly strives to improve employee's risk culture in order to create a strong risk culture.

Related to new product or activity, a comprehensive assessment for each of inherent risk in those new product or activity is done to ensure the potential risk that may occur is mitigated.

The management of BNI's credit, liquidity, market and operational risks, as described in Notes 49 to 52 are consistent with Regulator's definition (unaudited).

BNI also has risk management for other risks as regulated by Regulator, as follows (i) legal risk to minimize possible losses from lawsuits or weakness in juridical aspects such as the absence of laws and regulations, or weaknesses such as non-compliance with the terms of the engagements validity of contracts or imperfect binding of collaterals; (ii) reputation risk to minimize possible losses due to stakeholder's declining levels of trust which comes from the negative perception of the Bank; (iii) strategic risk to minimize possible losses arising from inappropriate or improper implementation of the Bank's strategy and business decisions, or strategy that is not responsive to external changes; and (iv) compliance risk to minimize possible losses of the Bank from non-compliance or failure to implement the prevailing laws and regulations.

The initiatives taken to manage legal risk, reputation risk, strategic risk and compliance risk as described above, among others, are as follows:

- *Manage Operational Guidance Manual for legal risk, reputation risk, strategic risk, and compliance risk;*
- *Analysis of the legal aspects and compliance test for existing and new product or activities;*
- *Conduct periodic reviews of the standard format of the agreement, especially the credit agreement, to ensure compliance with statutory regulations;*

48. MANAJEMEN RISIKO (lanjutan)

Upaya-upaya yang dilakukan untuk mengelola risiko hukum, risiko reputasi, risiko strategis dan risiko kepatuhan seperti tersebut di atas diantaranya adalah: (lanjutan)

- Melakukan kaji ulang secara berkala terhadap kontrak dan perjanjian antara BNI dengan pihak lain, antara lain dengan cara melakukan penilaian kembali terhadap efektivitas proses enforcement guna mengecek validitas hak dalam kontrak dan perjanjian yang ada;
- Melakukan pengelolaan komplain/keluhan nasabah dengan optimalisasi fungsi sarana *Online Request Management (ORM)*, selanjutnya menyelesaikan permasalahan tersebut;
- Mengelola jumlah pemberitaan negatif yang ada di media, baik media cetak maupun media elektronik dan menindaklanjuti pemberitaan tersebut sesuai dengan ketentuan;
- Melakukan perencanaan strategis melalui serangkaian proses untuk penyesuaian strategi perusahaan dengan strategi unit;
- Melakukan pemantauan pencapaian rencana bisnis yang telah ditetapkan, dilakukan dengan membandingkan target terhadap realisasi bisnis;
- Melakukan sertifikasi kepatuhan terhadap kebijakan dan prosedur sesuai dengan ketentuan; dan
- Melakukan pemantauan terhadap jenis, signifikansi dan frekuensi pelanggaran terhadap ketentuan (*track record* kepatuhan BNI).

Sesuai dengan Surat Edaran OJK (SEOJK) No.14/SEOJK.03/2015, BNI selaku Entitas Utama Konglomerasi Keuangan wajib menerapkan Manajemen Risiko Terintegrasi secara komprehensif dan efektif. Tujuan penerapan manajemen risiko terintegrasi tersebut yaitu untuk mengelola seluruh risiko yang melekat pada aktivitas/kegiatan usaha konglomerasi keuangan BNI serta menciptakan keunggulan kompetitif dan memelihara pertumbuhan yang berkesinambungan sehingga dapat meningkatkan nilai (*shareholder value*) konglomerasi keuangan BNI secara keseluruhan.

48. RISK MANAGEMENT (continued)

The initiatives taken to manage legal risk, reputation risk, strategic risk and compliance risk as described above, among others, are as follows: (continued)

- *Conduct periodic reviews of contracts and agreements between BNI and other parties, among others by reassessing the effectiveness of the enforcement process to check the validity of rights in existing contracts and agreements;*
- *Manage customer complaints by optimizing the function of Online Request Management (ORM) facilities, then resolve the issue;*
- *Managing the amounts of negative news on media, whether printed or electronic media, and follow up the proclamation in accordance with the prevailing policies;*
- *The strategic planning done through a series of strategic planning process to align the corporate strategy and strategy unit;*
- *Planning the completion of a business that has been determined, is done by comparing the target to the realization of the business;*
- *Compliance certification to all policies and procedures in accordance with applicable regulations; and*
- *Monitoring of types, significance and frequency of violations of regulations (BNI compliance track record).*

In accordance with the Circular Letter of Financial Services Authority regulations (SEOJK) No. 14/SEOJK.03/2015, BNI as the parent entity of a financial conglomerate has to implement the integrated risk management comprehensively and effectively. The purpose of the implementation of integrated risk management implementation is to manage the whole inherent risks in the financial conglomerate's business activities, and also to create competitive advantages and maintain sustainable growth, so that it can increase the financial conglomeration shareholder value of BNI as a whole.

48. MANAJEMEN RISIKO (lanjutan)

Secara umum seluruh Lembaga Jasa Keuangan (LJK) anggota Konglomerasi Keuangan BNI, baik BNI sebagai LJK Induk (Entitas Utama) dan masing-masing LJK Anak telah menerapkan manajemen risiko, antara lain dengan membentuk unit risiko pada masing-masing LJK. Manajemen risiko pada masing-masing LJK Anak secara operasional dilakukan terpisah dari unit bisnis dan menjalankan fungsinya secara independen. Untuk mendukung penerapan manajemen risiko, pada organisasi LJK Anak juga dibentuk unit/fungsi intern yang melakukan pemantauan kepatuhan terhadap kontrol internal secara rutin dan berkala.

Disamping itu, Dewan Komisaris dan Direksi pada masing-masing LJK Anak secara aktif juga melakukan pemantauan, dan evaluasi melalui laporan-laporan yang disampaikan oleh setiap LJK Anak untuk selanjutnya digunakan sebagai salah satu bahan pertimbangan dalam menetapkan kebijakan pada LJK Anak.

BNI selaku Entitas Utama telah melakukan koordinasi dengan LJK Anak untuk menerapkan manajemen risiko sesuai ketentuan Otoritas Jasa Keuangan, antara lain dengan melakukan pemantauan dan pengukuran risiko yang dituangkan dalam bentuk penilaian Kecukupan Penyediaan Modal Minimum (KPMM) Konsolidasi, KPMM Terintegrasi, penilaian Tingkat Kesehatan Bank (TKB) konsolidasi, serta penilaian Profil Risiko Konsolidasi dan penilaian Profil Risiko Terintegrasi Konglomerasi Keuangan BNI (tidak diaudit).

Penilaian profil risiko BNI individu menggambarkan risiko yang melekat dalam kegiatan bisnis Bank (*inherent risk*) termasuk kualitas penerapan Manajemen Risiko yang mencerminkan sistem pengendalian risiko (*risk control system*) pada 8 (delapan) jenis risiko yaitu Risiko Kredit, Risiko Pasar, Risiko Likuiditas, Risiko Operasional, Risiko Hukum, Risiko Reputasi, Risiko Strategik, dan Risiko Kepatuhan. Penilaian Profil Risiko BNI telah dilakukan sesuai dengan lampiran SEOJK No. 14/SEOJK.03/2017 tentang Penilaian Tingkat Kesehatan Bank Umum.

Berdasarkan hasil laporan terakhir atas penilaian sendiri (*self assessment*), peringkat risiko inheren BNI posisi 31 Desember 2023 adalah *low to moderate* dengan peringkat kualitas penerapan manajemen risiko yang memadai (*satisfactory*) sehingga peringkat komposit Profil Risiko BNI adalah 2 (*low to moderate*) (tidak diaudit).

48. RISK MANAGEMENT (continued)

Generally, all of the Financial Services Institutions (FSI) as part of the BNI Financial Conglomeration, where BNI as the Parent FSI (Main Entity) and each Subsidiaries FSI have implemented risk management, among others by establishing a risk unit in each FSI. Risk management in each FSI is operating separately from the business unit and conducts its function independently. To support the implementation of risk management, the FSI have established internal control units/function in their organizational structure, which monitors the compliance with internal controls regularly and periodically on a regular basis.

In addition, the Boards of Commissioners and Directors of the respective Subsidiaries actively monitor and evaluate the internal controls of the Subsidiaries, through the reports submitted by the respective Subsidiaries, as a basis in formulating and developing appropriate policies for the Subsidiaries.

As the Parent Entity, BNI coordinates with its FSI Subsidiaries regarding the implementation of risk management policies as defined by Indonesia Financial Services Authority, among others by implementing risk monitoring and measurement in the form of consolidated Capital Adequacy Ratio (CAR) assessment, integrated Capital Adequacy Ratio (CAR) assessment, the Bank's consolidated soundness rating consolidated assessment, consolidated risk profile and also integrated risk profile assessment on BNI Financial Conglomeration (unaudited).

The risk profile assessment of BNI reflects the inherent risk of the Bank's business, including the risk control system for 8 (eight) type of risk are assessed are Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Legal Risk, Reputation Risk, Strategic Risk, and Compliance Risk. The risk profile of BNI has been performed based on attachment of SEOJK No. 14/SEOJK.03/2017 about the Bank's soundness rating assessment.

Based on the results of a recent self-assessment report, inherent risk rank of BNI as of 31 December 2023 is low to moderate and the quality of the risk management implementation rank is satisfactory, therefore the risk profile composite rank of BNI is 2 (low to moderate) (unaudited).

48. MANAJEMEN RISIKO (lanjutan)

Penilaian Profil Risiko Terintegrasi merupakan penilaian terhadap 10 (sepuluh) jenis Risiko berdasarkan Risiko Inheren dan Kualitas Penerapan Manajemen Risiko (KPMR) terintegrasi. Kesepuluh jenis Risiko tersebut adalah Risiko Kredit, Risiko Pasar, Risiko Likuiditas, Risiko Operasional, Risiko Hukum, Risiko Reputasi, Risiko Strategik, Risiko Kepatuhan, Risiko Transaksi Intra-Grup dan Risiko Asuransi. Penilaian Profil Risiko BNI Terintegrasi tersebut telah dilakukan sesuai dengan lampiran SEOJK No. 14/SEOJK.03/2015 tanggal 25 Mei 2015 tentang Penerapan Manajemen Risiko Terintegrasi bagi Konglomerasi Keuangan.

Penilaian Profil Risiko Terintegrasi dilakukan semesteran. Berdasarkan hasil laporan terakhir secara penilaian sendiri (*self assessment*), peringkat risiko inheren posisi 31 Desember 2023 adalah *low to moderate* dengan peringkat kualitas penerapan manajemen risiko yang memadai (*satisfactory*) sehingga peringkat komposit Profil Risiko Konglomerasi Keuangan BNI adalah 2 (*low to moderate*) (tidak diaudit).

Penilaian Tingkat Kesehatan Bank (TKB) BNI *self assessment* posisi 31 Desember 2023 yang berada pada Peringkat 2 (PK 2) dengan predikat "sehat" atau stabil dibandingkan dengan TKB BNI posisi 31 Desember 2022 (tidak diaudit).

1. Profil Risiko
Hasil penilaian Profil Risiko BNI posisi 31 Desember 2023 masih stabil di Peringkat 2 (*Low to Moderate*) dengan tren menurun.
2. Rentabilitas
Terjadi penurunan tren risiko pada parameter Rentabilitas yang dipicu oleh pencapaian rasio profitabilitas yang telah membaik dan sesuai target.
3. Permodalan
Penurunan tren risiko pada parameter permodalan diakibatkan peningkatan rasio CAR BNI karena peningkatan total modal BNI secara modal tier 1 melalui laba ditahan serta penerbitan *Additional Tier 1 Capital Securities* dan peningkatan modal tier 2 melalui penerbitan *subdebt*.
4. Tata Kelola
Tata kelola BNI posisi 31 Desember 2023 dibandingkan dengan posisi 31 Desember 2022 relatif stabil.

48. RISK MANAGEMENT (continued)

Integrated Risk Profile assessment is the assessment of the 10 (ten) types of risks based on Inherent Risks and the integrated Implementation of Risk Management Quality (KPMR). The ten types of Risks being assessed are Credit Risk, Market Risk, Liquidity Risk, Operational Risk, Legal Risk, Reputation Risk, Strategic Risk, Compliance Risk, Intra Group Transactions Risk and Insurance Risk. Assessment of the Integrated Risk Profile has complied with the SEOJK No. 14/SEOJK.03/2015 dated 25 May 2015 about Integrated Risk Management Implementation for Financial Conglomerate.

Integrated Risk Profile assessment is conducted semi annually. Based on the results of the last self-assessment report, the inherent risk rank of BNI as of 31 December 2023 is low to moderate with the quality of the risk management implementation rank as satisfactory, therefore the composite rank of BNI's Risk Profile as a financial conglomeration is 2 (low to moderate) (unaudited).

BNI Bank Soundness Level (TKB) self assessment for the position as of 31 December 2023 which is in Rank 2 (PK 2) with the predicate "healthy" or stable compared to the TKB BNI at the position in 31 December 2022 (unaudited).

1. Risk Profile
The results of the BNI Risk Profile assessment for the position 31 December 2023 are still stable at Rank 2 (Low to Moderate) with decreasing trend.
2. Rentability
The decreasing of risk trend which occurred in Rentability parameter which was triggered by improvement of the achievement of a profitability ratio as target.
3. Capital
The decreasing risk trend in the capital parameter was due to an increase in the BNI's total capital component due to an increase of BNI's tier 1 capital from retained earnings as well as issuance of Additional Tier 1 Capital Securities and increase of tier 2 capital due to subdebt issuance.
4. Governance
BNI's governance for the position of 31 December 2023 is relatively stable compared to the position in December 2022.

49. RISIKO KREDIT

Pengelolaan kredit Bank diarahkan untuk melakukan ekspansi kredit dan mengelola kualitas setiap kredit sejak saat diberikan sampai dengan dilunasi oleh debitur dan untuk mencegah kredit tersebut menjadi kredit bermasalah (*Non-Performing Loan/NPL*). Pengelolaan kredit yang efektif dapat meminimalkan kerugian dan mengoptimalkan penggunaan modal yang dialokasikan untuk risiko kredit.

Pengelolaan risiko kredit BNI selain bertujuan untuk memenuhi persyaratan yang ditetapkan oleh Regulator, juga untuk meminimalkan kemungkinan kerugian yang timbul akibat debitur gagal memenuhi kewajibannya atas fasilitas kredit yang diberikan dan kontrak keuangan lainnya, baik pada tingkat individu debitur maupun portofolio kredit secara keseluruhan.

BNI telah memiliki kebijakan dan prosedur perkreditan serta kebijakan manajemen risiko kredit yang diputuskan melalui forum Komite Kebijakan Perkreditan (KKP), Komite Prosedur Perkreditan (KPP), Komite Manajemen Risiko dan Anti Fraud sub Komite Manajemen Risiko (KRA-RMC) yang beranggotakan Direksi dan beberapa anggota manajemen senior serta Rapat Direksi (Radisi) serta disetujui oleh Dewan Komisaris. Kebijakan Perkreditan Bank disetujui oleh Dewan Komisaris dan ditinjau paling lama setiap 3 (tiga) tahun sekali. Selanjutnya kebijakan dan prosedur tersebut dituangkan dalam Pedoman Perusahaan (PP) Perkreditan dan Pedoman Perusahaan Manajemen Risiko Kredit.

Pedoman Perusahaan (PP) Perkreditan memberikan pedoman secara lengkap dan terperinci atas kegiatan manajemen kredit dari saat pengajuan kredit, proses analisis, persetujuan, pemantauan, pendokumentasian, pengendalian, penyelamatan/restrukturisasi dan penyelesaian kredit bermasalah, sehingga kualitas kredit dapat terjaga dengan tetap memperhatikan target bisnis yang ditetapkan (tidak diaudit).

Dalam rangka mendukung proses pemberian kredit yang lebih hati-hati, BNI melakukan penelaahan dan penyempurnaan kebijakan perkreditan dan kebijakan manajemen risiko kredit secara periodik sesuai dengan perkembangan bisnis terkini.

49. CREDIT RISK

The Bank's loan management is aimed to support the loan expansion and to manage the quality of each loan from the time the loan was granted until the loan is fully repaid by the debtors and to prevent the loan becoming a Non-Performing Loan (NPL). Effective loan management is intended to minimize the risk of losses and optimize the use of capital allocated for credit risk.

The purpose of BNI's credit risk management other than to comply with Regulatory requirement is to minimise the possible losses resulting from the debtors' failure to pay credit facility and other financial contracts at the minimum level, both on the individual and loan portfolio level.

BNI already has loan policies and procedures for credit and credit risk management that was decided in the Credit Policy Committee (KKP), Credit Procedures Committee (KPP), Risks Management and Anti Fraud Committee sub division of Risk Management (KRA-RMC) consisting of Board of Directors and several members of senior management and also Board of Directors meetings and approved by Board of Commissioner. Bank Credit Policies is approved by Board of Commissioner and reviewed at least once in 3 (three) years. These policy and procedures are written in the Credit Company Guidelines (PP) and Credit Risk Management Company Guidelines.

These Credit Company Guidelines (PP) provide complete and detailed guidance on loan management activities from loan proposal, analysis process, approval, monitoring, documentation, controls, restructuring and the settlements of non-performing loans, so that credit quality can be maintained by taking into account the business targets set (unaudited).

To support a prudent loan granting process, BNI conducts periodic reviews and enhances its loan and credit risk management policies in line with current business developments.

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

49. RISIKO KREDIT (lanjutan)

Pengelolaan risiko kredit diterapkan pada tingkat individu dan tingkat portofolio. Pada tingkat individu pinjaman untuk kredit produktif, setiap usulan pemberian kredit dilakukan melalui proses analisis kredit oleh Unit Bisnis dan ditinjau oleh unit risiko kredit. Mekanisme proses persetujuan kredit dilakukan melalui rapat Komite Kredit. Komite Kredit merupakan lembaga pemutus kredit yang beranggotakan pemutus dari Unit Bisnis dan Unit Risiko Bisnis, dengan demikian proses pemberian kredit menjadi lebih komprehensif dan hati-hati.

Untuk mempercepat proses ekspansi bisnis segmen kecil, fungsi pemasaran dan proses analisa kredit dilakukan oleh *Relationship Manager* yang berada di bawah Unit Bisnis yaitu dengan melakukan analisa bisnis dan analisa risiko serta memberikan mitigasi risiko yang diperlukan terhadap calon debitur yang diusulkan.

Adapun untuk segmen menengah dan korporasi dilakukan oleh *Relationship Manager* dan *Business Analyst* yang berada di Unit Bisnis dengan tugas memproses usulan dari calon debitur, sementara analisis dan review risiko calon debitur di segmen Korporasi dan Menengah dilakukan oleh fungsi *Credit Risk Manager* yang berada di bawah Unit Risiko.

Penerapan *four eyes principles* dalam proses perkreditan di BNI diimplementasikan dalam proses persetujuan kredit yang dilakukan melalui Komite Kredit, yaitu forum bersama pejabat pemutus kredit yang mempunyai wewenang memutus kredit yang diusulkan sesuai dengan limit yang ditetapkan. Anggota Komite Kredit terdiri dari pejabat unit bisnis dan unit risiko bisnis. Dengan demikian proses pemberian kredit menjadi lebih komprehensif dan hati-hati.

Unit bisnis dan unit risiko bisnis berperan sebagai *first line of defense (risk owner)* yang bertugas mengelola dan mengendalikan risiko kredit pada kegiatan operasional harian unit tersebut.

Proses analisis dan persetujuan kredit dilakukan melalui serangkaian proses penilaian tingkat risiko kredit calon debitur, yang diantaranya dengan menggunakan *internal rating system* (untuk kredit produktif) dan *credit scoring* pada *decision engine IDEAS* yang telah terintegrasi dengan *Loan Origination System* (untuk kredit konsumtif dan kredit produktif segmen ritel sampai dengan Rp5 Miliar), sekaligus juga strategi mitigasi risikonya. Hasil proses analisis dan penilaian tingkat risiko kredit kemudian diajukan kepada Komite Kredit untuk mendapatkan persetujuan.

49. CREDIT RISK (continued)

Credit risk management is implemented both at the individual and portfolio level. At the individual level, for productive loans, each loan granting proposal is made through a process of analysis by the Business Unit and reviewed by the credit risk unit. The credit approval process mechanism is through a Credit Committee meeting. The Credit Committee constitutes the decision maker for credit approval, which consists of representatives from Business Units and the Credit Risk Unit, so that the loan granting process becomes more comprehensive and prudent.

To accelerate the process of business expansion in small segment, the marketing and credit analysis process function is performed by the Relationship Manager under the Business Unit by conducting business analysis and risk analysis as well as providing risk mitigation against the proposed debtor candidates.

As for the middle and corporate segment these are performed by Relationship Managers and Business Analyst who are in the Business Unit and have the task of processing the proposals from prospective debtors, while the analysis and risk review of prospective debtors in the Corporate and Middle segment are performed by Credit Risk Manager who is under the Risk Unit.

The application of four eyes principles in the lending process at BNI is implemented in the credit approval process through Credit Committees, that is a forum of credit decision makers who have the authority to approve the credit in accordance with the specified limit. The members of the Credit Committee consist of business unit officers and business risk unit officers. Thus the process of granting credit becomes more comprehensive and prudent.

Business units and business risk units act as first line of defense (risk owner) in charge of managing and controlling credit risk in daily operations of the unit.

Loan analysis and approval process is conducted through several assessment processes of the applicant's credit risks, i.e. through internal rating system (for productive loans) and credit scoring on the IDEAS decision engine which has been integrated with Loan Origination System (for consumer loans and productive retail loans up to IDR 5 Million), followed by the related risk mitigation strategy. The results of the credit analysis and risk assessment process will be forwarded to the Credit Committee for approval.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

49. RISIKO KREDIT (lanjutan)

Kredit yang bermasalah dikelola oleh Divisi *Corporate Remedial & Recovery* untuk segmen Korporasi, Divisi *Enterprise & Commercial Remedial & Recovery* untuk segmen *Enterprise*, Komersial dan Ritel produktif serta Divisi *Retail Collection & Recovery* untuk segmen Konsumer dan Program, agar penyelamatan/ penyelesaian kredit dapat dilakukan secara lebih baik dan memungkinkan Unit Usaha untuk dapat fokus pada pengelolaan debitur lancar dan melakukan ekspansi kredit.

Untuk menjaga agar portofolio Bank tidak terkonsentrasi pada debitur dan sektor ekonomi tertentu, maka telah ditetapkan pembatasan kredit sesuai *risk appetite*, sedangkan untuk mengantisipasi pelampauan BMPK BNI telah menetapkan limit BMPK yang disebut *house limit* dengan batas yang lebih *prudent* dibandingkan limit BMPK sesuai ketentuan regulator.

Untuk mengatur komposisi portofolio pinjaman BNI, setiap tahun sekali ditetapkan batas maksimum pinjaman (*Loan Exposure Limit*) yang bertujuan untuk mendiversifikasi portofolio pinjaman berdasarkan sektor industri dan sub sektor industri untuk mengoptimalkan pendapatan dengan mempertimbangkan risiko di masing-masing sektor industri serta mengurangi risiko konsentrasi. Dalam penentuan konsentrasi tiap sektor industri yang optimal, Bank mengembangkan metode *Credit Portfolio Optimisation (CPO)* dengan memperhitungkan korelasi *risk-return* dari tiap sektor industri. Selanjutnya Bank memonitor status kelonggaran ekspansi pinjaman (*space available*) secara periodik berdasarkan *Loan Exposure Limit (LEL)*.

Pengembangan manajemen risiko kredit dilakukan secara bertahap sesuai dengan kerangka kerja yang ditetapkan Otoritas Jasa Keuangan. Sejak 1 Januari 2023 BNI telah mengimplementasikan perhitungan ATMR Risiko Kredit dengan pendekatan Standar sesuai SEOJK No.24/SEOJK.03/2021 tentang Perhitungan Aset Tertimbang Menurut Risiko Untuk Risiko Kredit Dengan Menggunakan Pendekatan Standar Bagi Bank Umum (tidak diaudit).

Sebagai bagian dari pengukuran risiko kredit dan untuk mengantisipasi terjadinya perubahan faktor makro yang berpengaruh pada Bank, BNI secara berkala melakukan *stress testing* risiko kredit untuk menilai perubahan portofolio kredit dan pengaruhnya bagi Bank serta kemampuan Bank menghadapi kondisi tersebut.

49. CREDIT RISK (continued)

Non-performing loan is managed by Corporate Remedial & Recovery Division for corporate segment, Enterprise & Commercial Remedial & Recovery Division for Enterprise, Commercial & productive Retail and Retail Collection & Recovery Division for Consumer and Program segment, to ensure better credit recovery and settlement, and to enable the Business Unit to focus on the management of performing debtors and loan expansion.

To prevent the Bank portfolio from being concentrated to certain debtors and economic sectors, credit restrictions have been set according to the risk appetite, while to anticipate exceeding the Legal Lending Limit, BNI has set limits on the Maximum Limit of Credit License called House Limit with a more prudent limit than the limit of Maximum Credit Granting in accordance with the provisions of the regulator.

To manage the composition of BNI loan portfolio, the loan exposure limit is determined annually to diversify loan portfolio among different industry sectors and industry sub sector in order to optimize return regarding risk in each sector and to reduce concentration risk. In the determination of optimal concentration in industry sectors, the Bank has developed a method of Credit Portfolio Optimisation (CPO) by calculating the correlation of risk return from each industry sectors. Furthermore, the Bank monitors the status of the space available based on Loan Exposure Limit (LEL) periodically.

The development of credit risk management is conducted in stages, and in line with the framework set by- As 1 January 2023 BNI has implemented the calculation of Credit Risk Weighted Assets using the standard approach according to SEOJK No.24/ SEOJK.03/ 2021 concerning Calculation of Risk Weighted Assets for Credit Risk Using a Standard Approach for Commercial Banks (unaudited).

As part of the measurement of credit risk and to anticipate the occurrence of macro-factors changes affecting the Bank, BNI periodically performs stress testing of credit risk to assess changes in loan portfolio and its impact to the Bank and the Bank's ability to face such condition.

49. RISIKO KREDIT (lanjutan)

(i) Eksposur maksimum risiko kredit (lanjutan)

Tabel di atas menggambarkan eksposur maksimum atas risiko kredit bagi Grup pada tanggal 31 Desember 2023 dan 2022. Untuk aset pada laporan posisi keuangan konsolidasian, eksposur di atas ditentukan berdasarkan nilai tercatat bersih seperti yang diungkapkan pada laporan posisi keuangan konsolidasian.

Pada tanggal 31 Desember 2023 dan 2022, masing-masing sebesar 63,65% dan 61,87% adalah jumlah eksposur risiko kredit maksimum terhadap aset pada laporan posisi keuangan konsolidasian yang berasal dari pinjaman yang diberikan.

Manajemen yakin akan kemampuan Bank untuk mengendalikan dan memelihara eksposur risiko kredit yang berasal dari kredit yang diberikan, berdasarkan hal-hal sebagai berikut:

- Proses peningkatan pengelolaan kredit secara berkelanjutan melalui penyempurnaan *end to end credit process*, pengembangan produk penyempurnaan organisasi perkreditan, peningkatan kemampuan SDM di bidang perkreditan dan pengembangan perangkat kredit berbasis teknologi.
- BNI telah memiliki pedoman tertulis mengenai kebijakan dan proses kredit yang mencakup seluruh aspek pemberian kredit yang dilakukan. Setiap pemberian kredit harus senantiasa mengacu pada kebijakan tersebut.
- BNI telah menetapkan *risk appetite* dan *risk tolerance* yang selaras dengan sasaran strategis Bank, yang digunakan sebagai acuan tingkat risiko yang akan diambil Bank dalam pencapaian sasaran bisnis.
- BNI telah melakukan *stress test* risiko kredit untuk menilai kemampuan Bank bertahan dalam kondisi tidak normal serta sebagai alat untuk pengambilan keputusan Bank.
- BNI telah memiliki sistem deteksi dini permasalahan melalui "*early warning system*" dan pemantauan yang disiplin.
- Seluruh kredit diberikan dengan agunan kecuali untuk jenis kredit tertentu seperti kartu kredit, *personal loans* dan fasilitas antar bank.

49. CREDIT RISK (continued)

(i) Maximum exposure of the credit risk (continued)

The table above represents credit risk exposures of the Group as of 31 December 2023 and 2022. For assets on the consolidated statement of financial position, the exposures set out above are based on net carrying value as reported in the consolidated statement of financial position.

As of 31 December 2023 and 2022, the total maximum credit risk exposure toward asset in the consolidated statement of financial position from loans is 63.65% and 61.87%, respectively.

Management is confident in its ability to control and sustain exposure of credit risk to the Bank resulting from its loans based on the following:

- The process of improving credit management in a sustainable manner by improving *end to end credit process*, product development credit organization improvement, credit capability improvement of human resources and development of technology based for credit application.
- BNI has documented credit policies and manual procedures that cover all aspects of the Bank's lending activities. Each loan transaction must adhere to the requirements of the Bank's policy.
- BNI has set risk appetite and risk tolerance in accordance with the Bank's strategic objectives, which are used as a reference level of risk to be taken by the Bank in achieving business goals.
- BNI has performed stress test on credit risk to assess the ability of the Bank to stay in the abnormal condition and as an instrument for decision making for the Bank.
- BNI has an early problem detection system through "*early warning system*" and disciplined monitoring.
- All loans are secured by collaterals, except for certain loans such as credit cards, personal loans and interbank loans.

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

49. RISIKO KREDIT (lanjutan)

- (ii) Analisa eksposur maksimum terhadap risiko kredit setelah memperhitungkan dampak agunan dan mitigasi risiko kredit lainnya

BNI menentukan struktur kredit termasuk penentuan *covenant* yang tepat sesuai kebutuhan dan kondisi debitur, sehingga kredit yang diberikan benar-benar efektif dan menguntungkan bagi debitur maupun Bank. Jenis agunan yang dimiliki oleh Bank adalah kas, deposito, agunan yang diikat dengan hipotik dan hak tanggungan, garansi/penjaminan pihak ketiga (termasuk penjaminan kredit oleh perusahaan asuransi) serta jaminan dalam bentuk aset lainnya. Perkiraan nilai wajar dari agunan yang digunakan oleh Bank didasarkan pada nilai agunan yang dinilai oleh penilai internal maupun eksternal.

Ketentuan *coverage* atau kecukupan agunan untuk tiap segmen ditentukan sebagai berikut: (tidak diaudit)

49. CREDIT RISK (continued)

- (ii) Analysis of maximum exposure to credit risk after taking into account the impact of collateral and other credit risk mitigation

BNI sets loan structure for every debtor through appropriate covenants that aligns with debtor needs and condition. This is to ensure the debtor uses the loan according to its original purpose so that the Bank and the debtor's interests are fulfilled. Collateral types held by the Bank are cash, deposits, registered mortgages, guarantees and other registered securities over assets. Estimates of fair value of collaterals held by the Bank is based on the value of collaterals assessed internally or externally by the independent appraisers.

The collateral coverage criteria for each segment is divided as follows: (unaudited)

Segmen/Segment	Jenis Agunan/Collateral	Jumlah Coverage Minimal / Minimum Coverage Amount
Korporasi/ Wholesale	Aset tetap/Fixed Asset	100% dari limit kredit/from credit limit
	Kas/Cash	
	Standby letter of credit ("SBLC")	
	Tanah dan Bangunan/Land and Building	
	Piutang/Receivable	
	Kendaraan/Vehicle	
Menengah/ Middle	Agunan lain yang diterima oleh Bank/Other collaterals held by the Bank	125% dari limit kredit/from credit limit
	Aset tetap/Fixed Asset	
	Kas/Cash	
	SBLC	
	Tanah dan Bangunan/Land and Building	
	Piutang/Receivable	
Kecil/Retail	Kendaraan/Vehicle	110% dari limit kredit/from credit limit
	Agunan lain yang diterima oleh Bank/Other collaterals held by the Bank	
	Aset tetap/Fixed Asset	
	Kas/Cash	
	SBLC	

Nilai tercatat dari aset keuangan bank selain kredit yang diberikan dan efek-efek yang dibeli dengan janji dijual kembali pada umumnya menggambarkan eksposur maksimum atas risiko kredit.

The carrying amounts of financial assets other than bank loans and securities purchased under agreements to resell is generally equal to the maximum exposure of credit risk.

(Expressed in millions of Rupiah, unless otherwise stated)

50. RISIKO LIKUIDITAS

Risiko likuiditas berhubungan dengan adanya kemungkinan bank tidak mampu untuk memenuhi kewajiban jangka pendek terhadap deposan, investor dan kreditor, serta pemenuhan giro wajib minimum (GWM) yang diantaranya disebabkan keterbatasan akses pendanaan atau ketidakmampuan untuk melikuidasi aset yang dimiliki dengan harga yang wajar.

Manajemen Risiko Likuiditas dilakukan oleh Divisi Enterprise Risk Management (ERM), Divisi Treasury (TRS), dan Kantor Cabang Luar Negeri. Kebijakan dan Prosedur Risiko Likuiditas disusun oleh Divisi ERM, selanjutnya dilaksanakan oleh Divisi TRS dan segenap Kantor Cabang Luar Negeri, yang diwujudkan dalam manajemen strategi likuiditas.

Divisi ERM juga melakukan monitoring terhadap pelaksanaan manajemen likuiditas yang dilakukan oleh Divisi Treasury tersebut.

Divisi ERM menyusun Kebijakan Risiko Likuiditas berupa Pedoman Penerapan Manajemen Risiko Likuiditas, yang lebih lanjut dijabarkan ke dalam Prosedur Manajemen Risiko Likuiditas yang berisi panduan pelaksanaan manajemen risiko likuiditas, antara lain berupa:

- a. Ketersediaan Alat Likuid: Kas, GWM, *Secondary Reserve*, *Early Warning Signal* (EWS) Likuiditas, *Liquidity Contingency Plan Head Office* maupun Kantor Cabang Luar Negeri.
- b. Pengukuran Risiko Likuiditas : Rasio Likuiditas, Proyeksi Arus Kas, Profil Maturitas, Rasio Kecukupan Likuiditas dan *Stress testing*.
- c. Pemantauan Risiko Likuiditas
- d. Pengendalian Risiko Likuiditas
- e. Penetapan Limit Likuiditas:, Pagu Kas *Bank Wide* dan Wilayah (Rupiah dan Valas), *Safety Level*, Limit Profil Maturitas. Pembatasan Kredit Valas berdasarkan ketersediaan likuiditas valas.

Divisi ERM juga menyusun *risk appetite* dan *risk tolerance* Risiko Likuiditas yang selaras dengan sasaran strategis Bank, yang digunakan sebagai acuan tingkat risiko yang akan diambil Bank dalam pencapaian sasaran bisnis.

Dalam mengelola likuiditas, selain mengelola *primary reserve* (kas dan GWM), BNI menjaga dan mempertahankan *secondary reserve* untuk memastikan likuiditas berada pada level yang aman. Sebagai antisipasi pemenuhan *secondary reserve* yang ideal, BNI menjaga dan mempertahankan *tertiary reserve*.

50. LIQUIDITY RISK

Liquidity risk relates to the possibility that the Bank will be unable to meet short-term obligations to depositors, investors and creditors, as well as fulfill Statutory Reserve Requirements due to, among others, limited access to financing or the inability to liquidate assets at reasonable prices.

Liquidity Risk Management is carried out by the Enterprise Risk Management (ERM), Treasury Division (TRS), and Branch Offices of Foreign Affairs. Liquidity Risk Policies and Procedures was prepared by the Division ERM, subsequently implemented by the Division of TRS and all Branch Offices of Foreign Affairs, which is manifested in the liquidity strategy management.

ERM Division also monitors the implementation of the liquidity management performed by the Treasury Division.

ERM Division prepares Liquidity Risk Policy Guidelines in Liquidity Risk Management Implementation Guidelines, which is further elaborated into the Liquidity Risk Management Procedures which contains guidelines for liquidity risk management practices, which include:

- a. *Availability Liquidity Tools: Cash, Statutory Reserve Requirement, Secondary Reserve, Early Warning Signal (EWS) for Liquidity, Liquidity Contingency Plan Head Office or Branch Office of Foreign Affairs-*
- b. *Measurement of Liquidity Risk: Liquidity Ratio, Cash Flow Projection, Maturity Profile, Liquidity Adequacy Ratio and Stress testing.*
- c. *Liquidity Risk Monitoring*
- d. *Liquidity Risk Management*
- e. *Determination of Liquidity Limit:, Cash Ceiling Bank Wide and Regional Are (Rupiah and Valas), Safety Level, Maturity Profile Limit. Credit in Foreign Currency Limit based on the availability of liquidity for Foreign Currency.*

ERM Division also prepares risk appetite and risk tolerance for Liquidity Risk in accordance with the Bank's strategic objectives, which are used as a reference level of risk to be taken by the Bank in achieving business goals

In managing liquidity, beside addition to managing primary reserve (cash and statutory reserve requirement), BNI keeps and maintains secondary reserve to ensure liquidity is at a safe level. In anticipation of fulfilling the ideal secondary reserve, BNI preserves and maintains a tertiary reserve.

50. RISIKO LIKUIDITAS (lanjutan)

Penetapan dan pemantauan limit, yaitu *Safety Valas* dan pembatasan kredit valas berdasarkan ketersediaan likuiditas valas dilakukan secara berkala oleh Divisi ERM. Sedangkan ketersediaan atas keseluruhan *reserve* dipantau secara harian, mingguan, dan bulanan oleh Divisi Treasury dan Divisi ERM.

Tabel di bawah ini menunjukkan sisa jatuh tempo kontraktual dari liabilitas keuangan berdasarkan *undiscounted cash flows*.

50. LIQUIDITY RISK (continued)

The setting and monitoring of limits, i.e. *Safety Level and Credit Limitation for Foreign Currency* based on the availability of *Liquidity for Foreign Currency* is conducted periodically by the *ERM Division*. While the availability of the whole *reserve* is monitored daily, weekly, and monthly by the *Treasury Division* and the *ERM Division*.

The table below shows the remaining contractual maturities of the financial liabilities based on *undiscounted cash flows*.

Dalam rangka meningkatkan ketahanan likuiditas, BNI menerapkan perhitungan rasio kecukupan likuiditas yaitu *Liquidity Coverage Ratio* (LCR) dan *Net Stable Funding Ratio* (NSFR) dan mengelola rasio Kecukupan Likuiditas tersebut sesuai ketentuan regulator, baik secara individu (*bank only*) maupun konsolidasi dengan Entitas Anak (tidak diaudit).

LCR bertujuan untuk meningkatkan ketahanan likuiditas jangka pendek dengan memelihara *High Quality Liquid Assets* (HQLA) yang memadai untuk memenuhi kebutuhan likuiditas BNI selama periode 30 hari ke depan dalam kondisi *stress*, sedangkan NSFR bertujuan untuk mengurangi risiko likuiditas terkait sumber pendanaan untuk jangka waktu yang lebih panjang dengan mensyaratkan BNI mendanai aktivitas dengan sumber dana stabil yang memadai dalam rangka memitigasi risiko kesulitan pendanaan pada masa depan.

Laporan rasio Kecukupan Likuiditas BNI tersebut dilaporkan secara bulanan dan triwulanan kepada Otoritas Jasa Keuangan (OJK) (tidak diaudit).

In order to increase liquidity resilience, BNI implements Liquidity Coverage Ratio (LCR) and Net Stable Funding Ratio (NSFR) calculations and manages requirement of the Liquidity Adequacy Ratio subject to regulators, either individually (bank only) or consolidated with Subsidiaries (unaudited).

LCR aims to improve the Bank's short-term liquidity resilience by maintaining High Quality Liquid Assets (HQLA) to meet liquidity needs over the next 30 days under stress conditions, while NSFR aims to reduce liquidity risk related to longer term funding sources requiring BNI to fund activities with sufficient stable funding sources in order to mitigate future financial hardship risks.

BNI Liquidity Adequacy Ratio are reported monthly and quarterly to the Otoritas Jasa Keuangan (OJK) (unaudited).

51. RISIKO PASAR

Risiko pasar adalah risiko kerugian yang timbul akibat perubahan faktor pasar yang tidak sesuai dengan posisi yang diambil oleh BNI baik pada posisi aset dan liabilitas keuangan dan rekening administratif. Risiko Pasar melekat pada hampir seluruh aktivitas Bank, baik *trading book* maupun *banking book* yang mencakup Risiko Suku Bunga dan Risiko Nilai Tukar.

Pengelolaan Risiko Pasar BNI dilakukan melalui koordinasi beberapa Divisi terkait, yaitu Divisi Enterprise Risk Management (Divisi ERM) yang bertanggung jawab kepada Direktur Risk Management (Dir. RMT), Policy Governance (Divisi PGV) yang bertanggung jawab kepada Direktur Human Capital & Compliance (Dir. HCC), Divisi Treasury (Divisi TRS) dan Kantor Cabang Luar Negeri dalam pengawasan Divisi Internasional & Financial Institution (Divisi INT) yang bertanggung jawab kepada Direktur Wholesale & International Banking (Dir. WHI). Dalam mengelola Risiko Pasar, Direksi didukung oleh *Risk Management Committee* (RMC) dan Komite Aset dan Liabilitas (ALCO) serta dalam pengawasannya didukung oleh Komisaris melalui Komite Pemantau Risiko.

51. MARKET RISK

Market risk is the risk of loss due to the adverse volatility of market price movements against BNI's financial assets and liabilities (on balance sheet) including administrative accounts (off balance sheet). Market risk is embedded in the Bank's business activities, both in trading and banking books, which cover Interest Rate risks and Foreign Exchange risks.

Market Risk Management is done through coordination with BNI's several related divisions such as: Enterprise Risk Management Division (ERM) which report to the Director of Risk Management (Dir.RMT), Policy Governance Division (PGV) which report to the Director of Direktur Human Capital & Compliance, and Treasury Division (TRS) as well as Overseas branches supervised by the International & Financial Institutions Division (INT) which report to the Director of Wholesale & International Banking (Dir. WHI). The Market Risk Management is also supported by Risk Management Committee (RMC) and Assets and Liabilities Committee (ALCO) and supervised by the Board of Commissioners through the Risk Monitoring Committee.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

51. RISIKO PASAR (lanjutan)

BNI telah memiliki Aplikasi Manajemen Risiko Pasar untuk mendukung proses pengelolaan Risiko Pasar. Pengukuran potensi risiko pasar untuk pengendalian internal BNI dilakukan secara harian menggunakan Model Internal - *Value at Risk (VaR) Methodology*, sedangkan pengukuran risiko pasar dalam rangka perhitungan Kewajiban Penyediaan Modal Minimum dilakukan secara bulanan menggunakan Metode Standar. BNI juga melakukan pengukuran risiko suku bunga pada *banking* -(IRBB) secara triwulanan menggunakan Pendapatan bunga bersih (NII) dan pendekatan nilai ekonomis dari ekuitas (EVE) serta pengukuran Risiko Nilai Tukar pada *banking book* melalui perhitungan Posisi Devisa Neto (PDN) secara harian dan bulanan sesuai ketentuan Regulator (tidak diaudit).

Sehubungan dengan penggunaan Model Internal (VaR) dalam pengukuran Risiko Pasar, BNI telah melakukan proses validasi melalui *Back Testing* secara periodik untuk menilai akurasi pengukuran VaR yang digunakan. Selain itu, BNI telah melakukan proses *Stress Testing* terhadap instrumen keuangan yang terekspos risiko nilai tukar dan risiko suku bunga (portofolio obligasi) untuk menilai ketahanan Bank dalam menghadapi perubahan faktor pasar yang ekstrim pada saat kondisi pasar abnormal. *Stress Testing* dilakukan setiap 6 (enam) bulan sekali atau periode yang lebih pendek jika terjadi kondisi abnormal.

Limit Risiko Pasar BNI sebagai bagian dari proses pengendalian Risiko Pasar ditetapkan dan dikaji ulang secara periodik oleh Divisi ERM dan Divisi PGV yang independen terhadap *risk taking units* (Divisi TRS dan kantor cabang luar negeri). Limit-limit Risiko Pasar adalah sebagai berikut:

- a. Limit Risiko Pasar pada *trading book*:
 - (i) Limit *Value at Risk (VaR)* dan limit *Stressed Value at Risk (SVaR)*
 - (ii) Limit nominal transaksi
 - (iii) Limit nominal *open position*
 - (iv) Limit Budget Loss
 - (v) Limit Early Warning Signal Forex
 - (vi) Limit Early Warning Signal Surat Berharga
 - (vii) Limit Off Market Price
 - (viii) Limit Kewajaran Kuotasi Jibor
- b. Limit Risiko Pasar pada *banking book*:
 - (i) Limit IRBB (EVE dan NII)
 - (ii) Limit Posisi Devisa Neto internal BNI.

51. MARKET RISK (continued)

BNI has Market Risk Tools to support the implementation of the Market Risk Process. The measurement of potential market risk, for internal control purposes, is conducted on a daily basis using an Internal Model - *Value at Risk (VaR) Methodology*. On the other hand, the market risk measurement for Capital Adequacy Ratio purposes, is conducted on a monthly basis using the Standard Method. BNI also conducts on a quarterly basis the measurement of interest rate risk on *banking book*-(IRBB) using net interest income perspective (NII) and economic value of equity perspective (EVE) and the measurement for foreign exchange risk on *banking book* by calculating the Net Open Position (NOP) both daily and monthly in accordance with the Regulator's regulation (unaudited).

In line with the use of the Internal Model (VaR) in measuring market risk, BNI conducts *Back Testing* periodically to assess the accuracy of the VaR methodologies used. *Stress Testing* has also been conducted for the financial instruments that are exposed to foreign exchange risk and interest rate risk (limited to bond positions) in order to assess the Bank's resilience in encountering extreme change of risk factors in abnormal market conditions. *Stress Testing* is done every 6 (six) months or in case there is an abnormal condition whichever is earlier.

BNI Market Risk limit as a part of the risk controlling process is set and reviewed periodically by ERM and PGV which are independent from *risk taking units* (TRS and overseas branches). The Market Risk limits are as follows:

- a. Market Risk limits on *trading book*:
 - (i) *Value at Risk (VaR) limit* and *Stressed Value at Risk (SVaR) limit*
 - (ii) *Transaction nominal limit*
 - (iii) *Open position limit*
 - (iv) *Budget Loss limit*
 - (v) *Early Warning Signal Limit for Forex*
 - (vi) *Early Warning Signal Limit for Securities*
 - (vii) *Off Market Price Limit*
 - (viii) *Fairness Limit for Jibor Quotations*
- b. Market Risk limits on *banking book*:
 - (i) *IRBB Limit (EVE and NII)*
 - (ii) *Internal BNI Net Open Position Limit.*

FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

51. RISIKO PASAR (lanjutan)

Divisi ERM juga menyusun *risk appetite* dan *risk tolerance* Risiko Pasar yang selaras dengan sasaran strategis Bank, yang digunakan sebagai acuan tingkat risiko yang akan diambil Bank dalam pencapaian sasaran bisnis.

Pemantauan Risiko Pasar dilakukan melalui laporan yang memberikan informasi mengenai eksposur risiko pasar dan kepatuhan terhadap limit-limit. Laporan VaR diberikan kepada manajemen BNI secara berkala (harian, mingguan dan bulanan) melalui laporan sirkulasi atau forum RMC. Khusus terkait dengan laporan perkembangan Risiko Suku Bunga pada *banking book* disampaikan kepada manajemen setiap bulan melalui forum *Asset & Liabilities Committee (ALCO)*.

BNI menggunakan model *Value at Risk (VaR)* untuk menghitung potensi risiko pasar yang timbul akibat perubahan faktor pasar yang dapat mempengaruhi nilai pasar pada portofolio produk Bank. Cakupan Risiko Pasar adalah sebagai berikut:

- a. Risiko Nilai Tukar pada *trading book* dan *banking book*.
- b. Risiko Suku Bunga pada *trading book* dan *banking book* (tidak termasuk aset-aset/investasi yang dimiliki hingga jatuh tempo).

Metode untuk menghitung VaR yang digunakan BNI adalah *Variance Covariance/Risk Metrics*. Metode ini menggunakan formula dengan memasukkan parameter-parameter seperti volatilitas dan korelasi. Metode ini mengasumsikan bahwa segala perubahan dalam faktor risiko yang mempengaruhi kondisi pasar normal akan mengikuti distribusi normal. Sedangkan untuk kondisi pasar harian yang tidak normal, dilakukan perhitungan *Stressed VaR*.

VaR tidak menyediakan informasi potensi laba atau rugi pada kondisi pasar yang ekstrim atau *stress*. BNI melakukan *stress testing* untuk kondisi pasar yang ekstrim tersebut.

Pengukuran VaR adalah estimasi maksimum potensi kerugian Risiko Pasar untuk 1 (satu) hari ke depan dengan tingkat keyakinan 99% dengan posisi portofolio yang dimiliki tidak berubah. Penggunaan tingkat keyakinan 99% berarti dalam rentang waktu satu hari, kerugian harian yang melebihi VaR dalam kondisi pasar normal tidak akan terjadi lebih dari 1 (satu) kali dalam 100 hari.

51. MARKET RISK (continued)

ERM Division also prepares *risk appetite* and *risk tolerance* for Liquidity Risk in accordance with the Bank's strategic objectives, which are used as a reference level of risk to be taken by the Bank in achieving business goals.

Market Risk monitoring is conducted through reports which give information about the market risk exposures and the limit compliance. The VaR reports are submitted to BNI management on a periodic basis (daily, weekly, and monthly) through circular reports or RMC forum. Specifically the report for interest rate risk on banking book is submitted to management on a monthly basis through the ALCO forum.

BNI uses Value at Risk model (VaR) to measure potential market risk arising from possible changes of market factors which can affect the market value of the Bank portfolio. The scope of Market Risk is as follows:

- a. Foreign exchange risk on trading book and banking book.
- b. Interest rate risk on trading book and banking book (excluding held-to-maturity assets/investments).

The VaR method used in BNI is *Variance Covariance/Risk Metrics*. This method uses formulas with some parameters such as volatility and correlation. It assumes that any changes that occurs in the risk factors affecting the normal market conditions will follow normal distribution. For abnormal market condition, *Stressed VaR* calculation is applied.

VaR does not provide information for potential gain or loss in the extreme or stress market condition. BNI performs stress testing in the extreme market condition.

The VaR calculation is an estimate using a 99% confidence level of the potential loss that is not expected to be exceeded if the current market risk positions were to be held unchanged for one day. The use of a 99% confidence level means that, within a one day horizon, losses exceeding the VaR figure should occur, on average under normal market conditions, not more than once every one hundred days.

51. RISIKO PASAR (lanjutan)

Karena VaR adalah bagian dari pengelolaan Risiko Pasar Bank, limit-limit VaR telah dibentuk untuk seluruh *trading operation* dan eksposur perlu ditinjau oleh manajemen secara harian terhadap *limit-limit*.

Tabel dibawah ini menunjukkan VaR agregat pada portofolio *trading book* dan *banking book* milik Bank: (tidak diaudit)

51. MARKET RISK (continued)

Since VaR is an integral part of the Bank's market risk management, VaR limits have been established for all trading operations and exposures are required to be reviewed daily against the limits by management.

The table below presents the aggregate VaR on the Bank's trading book and banking book portfolio: (unaudited)

	2023			
	Risiko mata uang asing/ <i>Foreign exchange risk</i>	Risiko nilai wajar suku bunga/ <i>Fair value interest rate risk</i>		
		<i>Trading book</i>	<i>Banking book</i>	
2023 - 31 Desember	13,732	2,892	251,871	2023 - 31 December
2023 - Rata-rata harian	12,495	4,008	268,548	2023 - Average daily
2023 - Tertinggi	23,217	9,249	316,015	2023 - Highest
2023 - Terendah	8,533	1,497	222,009	2023 - Lowest
	2022			
	Risiko mata uang asing/ <i>Foreign exchange risk</i>	Risiko nilai wajar suku bunga/ <i>Fair value interest rate risk</i>		
		<i>Trading book</i>	<i>Banking book</i>	
2022 - 31 Desember	10,659	2,143	299,324	2022 - 31 December
2022 - Rata-rata harian	8,287	3,669	265,979	2022 - Average daily

2022 - Terendah	3,277	1,059	186,457	2022 - Lowest

(i) Risiko tingkat suku bunga

Risiko tingkat suku bunga timbul pada instrumen keuangan yang mempunyai kemungkinan kerugian akibat perubahan tingkat suku bunga yang akan berdampak pada arus kas masa depan atau nilai wajar instrumen keuangan.

Komite Manajemen Risiko dan Anti Fraud Sub Komite Manajemen Risiko (KRA-RMC) BNI, bertanggung jawab untuk menetapkan, melaksanakan serta menjaga kebijakan pengelolaan risiko tingkat suku bunga sesuai dengan pedoman umum BNI. Tujuan utama Komite Manajemen Risiko dan Anti Fraud Sub Komite Manajemen Risiko (KRA-RMC) BNI adalah memaksimalkan hasil usaha BNI dengan tetap memperhatikan *limit* risiko yang ditetapkan.

(i) Interest rate risk

Interest rate risks arise from financial instruments which have the loss possibilities from changes in interest rates that will affect future cash flows or fair value of the financial instruments.

BNI's Risk Management and Anti Fraud Committee sub Committee Risk Management (KRA-RMC) held responsible for determining, executing and overseeing the interest rate risk management policy in accordance with the overall guidelines of BNI. The main objective of the Risk Management and Anti Fraud Committee sub Committee Risk Management (KRA-RMC) is to maximize BNI's returns within the predetermined risk limits.

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

51. RISIKO PASAR (lanjutan)

(i) Risiko tingkat suku bunga (lanjutan)

Tabel berikut menunjukkan sensitivitas terhadap kemungkinan perubahan suku bunga dalam Rupiah yang wajar, dengan semua variabel lainnya tetap konstan, dalam laporan laba rugi Bank. Sensitivitas laporan laba rugi adalah dampak dari perubahan asumsi suku bunga pada laporan laba rugi pada periode tersebut. Sensitivitas total laba atau rugi didasarkan pada asumsi bahwa ada pergeseran paralel kurva hasil.

2023	
Perubahan persentase/ Percentage Change	Pengaruh terhadap laporan laba rugi/ Impact to profit or loss
±25 bps	±401,363
±50 bps	±802,725

2022	
Perubahan persentase/ Percentage Change	Pengaruh terhadap laporan laba rugi/ Impact to profit or loss
±25 bps	±310,574
±50 bps	±621,147

BNI memiliki eksposur terhadap risiko tingkat suku bunga dalam mata uang Dolar Singapura, Dolar Amerika Serikat, Euro dan lainnya. BNI telah melakukan penilaian atas dampak dari risiko tingkat suku bunga tersebut dan hasilnya tidak signifikan.

The following tables demonstrate the sensitivity to a reasonable possible change in IDR interest rates, with all other variables held constant, in the Bank's profit or loss. The sensitivity of profit or loss is the effect of the changes in interest rates assumptions on the profit or loss for the period. The total sensitivity of profit or loss is based on the assumption that there are parallel shifts in the yield curve.

BNI has exposure to interest rate risks in Singapore Dollar, United States Dollar, Euro and others. BNI assessed that the impact of those interest rate risks is not significant.

(ii) Risiko mata uang

Risiko valuta asing timbul sebagai akibat adanya aset dan liabilitas keuangan dalam valuta asing dan rekening administratif konsolidasian baik pada sisi aset konsolidasian maupun liabilitas konsolidasian. Posisi valuta asing BNI dapat dikelompokkan dalam dua aktivitas yaitu: *trading book*, yang dilakukan dalam rangka memperoleh keuntungan transaksi valuta asing, dan *banking book*, yang dilakukan dalam rangka mengendalikan Posisi Devisa Neto BNI secara keseluruhan.

BNI memiliki kebijakan untuk menjaga eksposur mata uang asing dalam batas yang wajar dan berdasarkan peraturan yang berlaku. Manajemen berkeyakinan bahwa saat ini eksposur mata uang asing atas aset dan liabilitas masih dalam batas yang konservatif.

(ii) Currency risk

Foreign currency risks arise from the consolidated financial assets and liabilities and administrative accounts in foreign currency positions, both on the consolidated assets and liabilities. BNI's foreign currency position is divided into two activities: the *trading book*, which is prepared to generate profit from the exchange rate, and the *banking book*, which is prepared to control BNI's overall Net Open Position.

BNI's policy is to maintain foreign currency exposure within acceptable limits and within existing regulatory guidelines. The Management believes that its current profile of foreign currency exposure on its assets and liabilities is within conservative limits.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

52. RISIKO OPERASIONAL

Dalam rangka menerapkan manajemen risiko operasional, BNI mengacu pada ketentuan Bank Indonesia atau Otoritas Jasa Keuangan serta *International Best Practices*.

Agar pengelolaan manajemen risiko operasional berjalan dengan baik, BNI memiliki Kerangka Kerja Manajemen Risiko Operasional yang terdiri dari 6 komponen utama, yaitu:

1. Strategi dan Tujuan Bisnis
Strategi dan tujuan bisnis Bank sebagai acuan dalam penerapan manajemen risiko operasional.
2. Strategi Manajemen Risiko Operasional
Strategi Manajemen Risiko Operasional dirumuskan sesuai strategi dan tujuan bisnis secara keseluruhan dengan memperhatikan tingkat risiko yang akan diambil (*risk appetite*) dan toleransi risiko (*risk tolerance*). Tujuan penetapan strategi manajemen risiko operasional adalah untuk memastikan bahwa eksposur risiko operasional telah dikelola secara terkendali sesuai dengan kebijakan dan prosedur intern serta peraturan perundang-undangan dan ketentuan lain yang berlaku.
3. Model Manajemen Risiko Operasional
 - a. Tata Kelola Manajemen Risiko Operasional
Tata kelola manajemen risiko operasional telah diimplementasikan BNI di mana segenap unit bisnis dan unit pendukung baik di dalam maupun di luar negeri, berperan sebagai *Risk Owner* atau *Risk Taker* yang bersama dengan SORX memiliki peran sebagai *first line roles*. *Risk Owner* bertanggung jawab terhadap risiko yang diambil, eksekusi dan hasilnya (*Day to day Risk Management & Control*) sedangkan SORX bertanggung jawab memastikan kontrol berjalan dengan baik. Implementasi tersebut didukung oleh Divisi *Enterprise Risk Management* dan Divisi *Operational Risk Management* sebagai *second line roles* yang bertanggung jawab dalam penyusunan *framework*, kebijakan, prinsip dan metodologi pengelolaan risiko.

52. OPERATIONAL RISK

In order to implement operational risk management, BNI made reference to Bank Indonesia or Financial Authority Regulations, and also International Best Practices.

In order for operational risk management to run well, BNI has an Operational Risk Management Framework which consists of 6 main components, namely:

1. *Strategy and Business Objectives*
Bank business strategies and objectives as a reference in the implementation of operational risk management.
2. *Operational Risk Management Strategy*
The Operational Risk Management Strategy is formulated according to the overall business strategy and objectives by taking into account the level of risk to be taken (risk appetite) and risk tolerance. The objective of establishing an operational risk management strategy is to ensure that operational risk exposure is managed in a controlled manner in accordance with internal policies and procedures as well as applicable laws and regulations and other provisions.
3. *Operational Risk Management Model*
 - a. *Operational Risk Management Governance*
BNI has implemented operational risk management governance where all business units and support units, both domestic and overseas, act as Risk Owners or Risk Takers, together with SORX act as first line roles. The Risk Owner is responsible for the risks taken, execution and results (Day to day Risk Management & Control) while SORX is responsible for ensuring that control are implemented properly. This implementation of control is supported by Enterprise Risk Management Division and Operational Risk Management as second line roles who are responsible for assigning frameworks, policies, principles and methodologies for bank risk management.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

52. RISIKO OPERASIONAL (lanjutan)

Sedangkan, *third line roles* yaitu Satuan Internal Audit memiliki peran sebagai *Risk Assurance Unit* yang bertanggung jawab menilai secara independen efektivitas implementasi manajemen risiko dan pengendalian internal. Selain itu, adanya komunikasi antara ORIC dan Divisi *Operational Risk Management* secara periodik diharapkan dapat meningkatkan efektivitas komunikasi *first line roles* dan *second line roles* yang nantinya dapat meningkatkan kualitas identifikasi *risk exposure*.

- b. Proses Manajemen Risiko Operasional
Proses manajemen risiko operasional meliputi identifikasi, pengukuran, pemantauan dan pengendalian terhadap risiko operasional, yang dijabarkan sebagai berikut:
- Identifikasi risiko dilakukan secara proaktif terhadap seluruh aktivitas, proses, dan produk dalam rangka menganalisa sumber, tingkat kemungkinan timbulnya risiko operasional serta dampak yang ditimbulkannya;
 - Pengukuran risiko dilakukan dalam rangka mengetahui perkembangan dan besarnya eksposur risiko operasional sebagai acuan untuk melakukan pengendalian serta untuk keperluan perhitungan kewajiban penyediaan modal minimum;
 - Pemantauan risiko dilakukan untuk memastikan bahwa risiko operasional telah dikelola dengan baik, antara lain dengan:
 - melakukan pemantauan kepatuhan pada regulasi
 - toleransi dan limit risiko yang telah ditetapkan
 - upaya mitigasi risiko yang telah dilakukan;
 - Pengendalian risiko dilakukan untuk mengurangi dan mengendalikan dampak dan frekuensi risiko operasional yang teridentifikasi selama tahap penilaian dan pengukuran. Proses pengendalian risiko disesuaikan dengan eksposur risiko maupun tingkat dan toleransi risiko yang akan diambil.

52. OPERATIONAL RISK (continued)

As well as *third line roles*, *Internal Audit Unit* act as a *Risk Assurance Unit* which is responsible for assessing the effectiveness of the implementation of risk management and internal control independently. In addition, the existence of the ORIC Communication Forum is expected to increase the effectiveness of communication between *first line roles* and *second line roles*, which in turn can improve the quality of *Risk Exposure identification*.

- b. *Operational Risk Management Process*
The process of operational risk management includes identification, assessment/measurement, monitoring and control of operational risk, which is described as follows:
- Risk identification* is carried out proactively on all activities, processes and products in order to analyze the source, the level of possibility of operational risk and the resulting impact;
 - Risk assessment/ measurement* is carried out in order to determine the progress and magnitude of operational risk exposure as a reference for carrying out controls as well as for the purposes of calculating the minimum capital adequacy requirement;
 - Risk monitoring* is carried out to ensure operational risks are managed properly, including by monitoring :
 - compliance with regulations
 - risk tolerance and limits
 - implementation of risk mitigation;
 - Risk control* is carried out to reduce and control the impact and frequency of operational risks that have been identified during the assessment and measurement stages. The risk control process is implemented based on risk level, risk exposure, and risk tolerance.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

52. RISIKO OPERASIONAL (lanjutan)

- c. Kebijakan dan Permodalan Risiko Operasional
Divisi *Operational Risk Management* (ORM) telah memiliki Pedoman Penerapan Manajemen Risiko Operasional untuk mendukung implementasi manajemen risiko operasional pada segenap unit baik di dalam maupun di luar negeri. Kebijakan tersebut dijabarkan lebih rinci dalam Prosedur atau *Standard Operating Procedure* serta Petunjuk Teknis transaksi dan operasional yang prudent untuk menjalankan aktivitas bisnis sehari-hari seperti:
1. Prosedur Manajemen Risiko Operasional;
 2. Petunjuk Teknis Manajemen Risiko Operasional;
 3. Petunjuk Teknis SORX.
- Divisi ORM melakukan perhitungan modal risiko operasional untuk memastikan BNI memiliki modal yang cukup untuk menyerap risiko operasional yang dihadapi.

- d. *Tools and Methods*
Dalam menerapkan manajemen risiko operasional, Bank juga perlu dilengkapi dengan *tools* dan metodologi. *Tools* yang diterapkan dalam manajemen risiko operasional antara lain: *Risk Control Self Assessment* (RCSA), *Loss Event Database* (LED), *Key Risk Indicator* (KRI), dan *Business Continuity Management* (BCM).

3. Teknologi Informasi dan Data
Penggunaan dan penerapan teknologi informasi dan data yang terintegrasi untuk risiko operasional mampu menghasilkan laporan yang lengkap dan akurat dalam rangka mendeteksi dan mengoreksi penyimpangan atas proses bisnis secara tepat waktu. Pemanfaatan data yang berkualitas menghasilkan analisis yang dapat digunakan dalam pengelolaan risiko operasional serta sebagai bahan pendukung dalam pengambilan keputusan oleh manajemen.
4. Sumber Daya Manusia (SDM) dan Budaya Risiko
Penerapan budaya risiko (*risk culture*) yang efektif di BNI dapat menciptakan mekanisme yang melibatkan seluruh pegawai untuk mengidentifikasi dan mencegah kelemahan dan penyimpangan secara dini dengan efisien dan efektif.

52. OPERATIONAL RISK (continued)

- c. *Operational Risk Policy and Capital*

The *Operational Risk Management* (ORM) Division has *Operational Risk Management Implementation Guidelines* to support the implementation of operational risk management in all units both at domestic and overseas. This policies are described in more detail in the *Standard Operating Procedures* as well as prudent operational risk instructions for carrying out daily business activities such as:

1. *Operational Risk Management Procedures*;
 2. *Technical Instructions for Operational Risk Management*;
 3. *Technical Instructions for SORX*.
- The ORM Division calculates operational risk capital to ensure BNI has sufficient capital to absorb the operational risks.

- d. *Tools and Methods*
In implementing operational risk management, Bank need to be equipped with strong tools and methodologies. The tools implemented in operational risk management include: *Risk Control Self Assessment* (RCSA), *Loss Event Database* (LED), *Key Risk Indicator* (KRI), and *Business Continuity Management* (BCM).

3. *Information Technology and Data*
The use and the application of integrated information and data technology for operational risk can produce complete and accurate reports in order to detect and correct the deviations arise from business processes in a timely manner. The utilization of quality data produces analysis that can be used in managing operational risk and decision making by management.
4. *Human Resources (HR) and Risk Culture*
Implementation of an effective risk culture at BNI can create a mechanism that involves all employees to identify and prevent weaknesses and irregularities early in an efficient and effective manner.

52. RISIKO OPERASIONAL (lanjutan)

5. Assurance

Assurance adalah aktivitas penilaian oleh pihak independen atas implementasi kerangka kerja manajemen risiko operasional. Penilaian ini dilakukan oleh Internal Audit (IAD) maupun pihak eksternal.

Perangkat yang digunakan untuk melakukan pengelolaan risiko operasional di BNI adalah New PERISKOP (Perangkat Risiko Operasional). New PERISKOP terdiri dari empat (4) modul utama, yaitu:

- Modul *Risk Control Self Assessment (RCSA)*, merupakan salah satu metode yang digunakan untuk mendeteksi kemungkinan terjadinya risiko operasional di suatu unit. Metode ini terdiri dari serangkaian kegiatan penilaian yang dilakukan sendiri (*self assessment*) oleh setiap unit pemilik risiko (*risk owner*) secara independen dalam mengidentifikasi, menilai, mengontrol dan memantau risiko operasional yang terjadi di unitnya. Modul RCSA wajib diisi oleh segenap unit setiap 6 (enam) bulan sekali, dengan melakukan pengukuran terhadap frekuensi dan dampak setiap *risk issue* di unitnya serta mencari penyebab risiko tersebut timbul serta menentukan solusinya.
- *Loss Event Database (LED)*, merupakan *database event* sejak event terjadi hingga penyelesaiannya akibat risiko operasional yang terjadi di seluruh unit di Bank. Dari modul ini akan diketahui tipe risiko yang terjadi, penyebab kejadian tersebut, lokasi (lini bisnis) tempat terjadinya risiko serta besarnya (*amount*) risiko yang terjadi atau liabilitas hukum yang terjadi serta pengembalian kerugian (jika ada). Sarana ini sangat penting untuk memonitor profil dan eksposur risiko operasional secara teratur. Data yang diperoleh dari *Loss Event Database (LED)* merupakan input data utama dalam penerapan metode pendekatan standar (*Standardized Approach*) untuk mengukur risiko kecukupan modal operasional yang telah diterapkan mulai 1 Januari 2023 berdasarkan SEOJK Nomor 6/SEOJK.03/2020 tanggal 29 April 2020 tentang Perhitungan Aset Tertimbang Menurut Risiko untuk Risiko Operasional dengan Menggunakan Pendekatan Standar Bagi Bank Umum (tidak diaudit).

52. OPERATIONAL RISK (continued)

5. Assurance

Assurance is an assessment activities by an independent party on the implementation of the operational risk management framework. This assessment is carried out by the Internal Audit Division (IAD) or external parties.

BNI using operational risk management system to manage operational risk, namely New PERISKOP that consist of 4 (four) main modules:

- *Risk Control Self Assessment (RCSA) Module*, is a methodology to detect the possibility that an operational risk has occurred. This method is a self-assessment process conducted by every risk owner independently in identifying, assessing, controlling and monitoring operational risk in each unit. RCSA Module should be filed by all units, once every six-month; by conducting an assessment of the existing risk issue frequency and impacts and finding solutions to mitigate emerging operational risks and define the solutions.
- The *Loss Event Database (LED)* is an event database from the time the event occurs until its operational risks resolution that occur in all units in the Bank. The module will generate information such as type of risk, cause of risk, location (line of businesses) where the risk emerge and the amount of risk or legal obligation and the recovery (if any). This system is very important to monitor operational risk exposure and profile in an orderly manner. The data gathered from the *Loss Event Database (LED)* will become the main input when the Bank applies standardize approaches to measure its minimum operational risk capital adequacy ratio, that has been implemented since 1 January 2023 based on SEOJK Number 6/SEOJK.03/2020 dated 29 April 2020 related to the Calculation of Risk Weighted Assets for Operational Risk using the Standard Approach for Commercial Banks (unaudited).

FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

52. RISIKO OPERASIONAL (lanjutan)

5. Assurance (lanjutan)

- *Key Risk Indicator (KRI)*, merupakan serangkaian parameter yang ditetapkan untuk mengidentifikasi potensi kerugian risiko operasional yang utama/ dominan, yang berpotensi mengganggu pencapaian *Key Performance Indicator (KPI)* unit kerja, sebelum peristiwa risiko operasional tersebut terjadi. Perangkat tersebut akan memberikan *warning/alert* jika nilainya sudah di luar *range/ threshold* yang ditetapkan sebelumnya (*early warning signal*) yang menuntut adanya tindak lanjut manajemen unit untuk mengatasi permasalahan tersebut.
- *Business Continuity Management*, merupakan salah satu upaya untuk mendukung pengelolaan dokumentasi langkah penanganan dampak gangguan/ bencana dan proses pemulihan agar kegiatan operasional Bank dan pelayanan nasabah dapat tetap berjalan pada kondisi bencana. Modul ini terdiri dari penyusunan *call tree*, pembentukan Organisasi *Crisis Management Team (CMT) / Emergency Task Force (ETF)*, penyusunan *Business Impact Analysis (BIA)*, *Threat and Risk Assessment (TRA)* dan Pemeliharaan sarana prasarana BCM serta pencatatan *monitoring* kejadian dan potensi bencana.

Selain New PERISKOP, BNI saat ini telah memiliki rekening Kerugian Risiko Operasional (KRO) serta *Recovery KRO*, yang digunakan untuk membukukan kerugian atau *recovery* yang disebabkan oleh risiko operasional. Guna memitigasi risiko operasional, setiap bulan dilakukan *monitoring* terhadap rekening KRO dan *Recovery KRO*. Terkait dengan kelangsungan usaha bila terjadi kondisi *disaster* (bencana), BNI juga sudah mempunyai kebijakan *Business Continuity Management (BCM)*, yaitu suatu mekanisme formal yang merupakan kombinasi antara strategi, kebijakan, prosedur, dan organisasi yang dikembangkan untuk memastikan kelangsungan operasional dari fungsi-fungsi usaha yang kritis pada tingkat layanan tertentu pada saat terjadi gangguan atau bencana. Kebijakan ini mencakup semua unit usaha yang ada di BNI, baik di dalam negeri maupun di luar negeri.

BNI memiliki infrastruktur yang dibutuhkan dalam implementasi BCM seperti *Data Center (DC)*, *Disaster Recovery Center (DRC)*, Lokasi Alternatif Gedung BCM dan *BCM Center*. Secara rutin BNI melakukan pengujian sistem dan aplikasi pada divisi/unit kritis setiap 3 (tiga) bulan sekali, melakukan *site visit* dan simulasi pada cabang dan wilayah guna memastikan kesiapan menghadapi bencana.

52. OPERATIONAL RISK (continued)

5. Assurance (continued)

- *Key Risk Indicators*, is a series of parameters established to identify main potential loss from operational risk, that potentially disrupts the achievement of *Key Performance Indicators (KPI)* before it happens. The module will give a warning/alert when the exposure exceeds a predetermined range/threshold (early warning signal) that has been set and requires follow up from unit's management to overcome the problems.
- *Business Continuity Management*, is a supporting tool for managing documentation for handling the impact of disturbances/ disasters and the recovery process so that Bank operations and customer services can continue in disaster conditions. This module consists of compiling a call tree, establishing an *Organizational Crisis Management Team (CMT) / Emergency Task Force (ETF)*, compiling a *Business Impact Analysis (BIA)*, *Threat and Risk Assessment (TRA)* and Maintenance of BCM infrastructure as well as recording monitoring of events and potential disaster.

In addition to New PERISKOP, BNI has *Operational Risk Loss (Kerugian Risiko Operasional (KRO))* and *KRO Recovery accounts*, which will be used to record losses or recoveries caused by operational risks. To mitigate the operational risk, KRO account and recovery will be monitored monthly. Regarding the business resilience when disaster occurs, BNI has *Business Continuity Management (BCM)* policies, which is a formal mechanism which combined strategies, policies, procedures and organizations developed to ensure operational continuity of critical functions under certain levels of services when a disturbance or disaster is encountered. This policy is applied for all business units in BNI for both domestic and overseas.

BNI has the infrastructure needed to implement BCM such as *Data Center (DC)*, *Disaster Recovery Center (DRC)*, *BCM Alternative Building and BCM Center*. Regularly BNI performs a system and application testing on critical Division/Unit every 3 (three) months, do a site visit and simulation to the branch and region to ensure the disaster readiness.

*) Aset lain-lain - bersih terdiri dari piutang bunga, piutang terkait transaksi ATM dan kartu kredit, piutang lain-lain dan piutang dari nasabah - Entitas anak.

**) Liabilitas lain-lain terdiri dari utang ke pemegang polis, setoran jaminan, rekening dalam penyelesaian, utang reasuransi dan komisi, serta utang nasabah - Entitas Anak.

*) Other assets - net consist of interest receivables, receivables from transactions related to ATM and credit card, other receivables and receivables from customers - Subsidiary.

**) Other liabilities consist of obligation to policyholders, guarantee deposits, unsettled account, reinsurance payable and commission, and payable to customers - Subsidiary.

Bank menggunakan hirarki berikut untuk menentukan dan mengungkapkan nilai wajar dari instrumen keuangan:

- (i) Tingkat 1: Harga dikutip (tidak disesuaikan) dari pasar yang aktif untuk aset atau liabilitas keuangan yang identik;
- (ii) Tingkat 2: Input selain harga yang dikutip dari pasar yang disertakan pada Tingkat 1 yang dapat diobservasi untuk aset dan liabilitas keuangan, baik secara langsung (yaitu sebagai sebuah harga) atau secara tidak langsung (yaitu sebagai turunan dari harga);
- (iii) Tingkat 3: Input untuk aset atau liabilitas keuangan yang tidak didasarkan pada data pasar yang dapat diobservasi (informasi yang tidak dapat diobservasi).

The Bank adopts the following hierarchy for determining and disclosing the fair value of financial instruments:

- (i) Level 1: Quoted prices in active market for the same/identical financial asset or liability;
- (ii) Level 2: Inputs other than quoted market prices included in Level 1 that are observable for the financial asset or liability, either directly (as a price) or indirectly (as derived from price);
- (iii) Level 3: Inputs for the financial assets or liability that are not based on observable market data (unobservable information).

Tidak terdapat perpindahan antara tingkat 1 dan tingkat 2 hirarki nilai wajar.

There is no transfer between level 1 and level 2 of the fair value hierarchy.

Nilai wajar instrumen keuangan yang diperdagangkan dalam pasar aktif (contohnya surat berharga yang diukur dan tersedia untuk dijual), ditentukan dengan berdasarkan harga pasar yang dikutip pada tanggal pelaporan. Suatu pasar dianggap aktif apabila informasi mengenai harga kuotasian dapat diakses dengan mudah dan tersedia secara berkala dari suatu bursa, pedagang efek, broker, kelompok penilai harga pasar industri tertentu, regulator dan harga tersebut mencerminkan transaksi pasar yang aktual dan regular pada tingkat yang wajar. Harga pasar dikutip untuk aset keuangan yang dimiliki Grup adalah harga penawaran (*bid price*). Instrumen-instrumen tersebut digolongkan dalam Tingkat 1. Instrumen yang termasuk dalam Tingkat 1 umumnya meliputi investasi yang diklasifikasikan sebagai surat berharga yang diukur pada nilai wajar melalui laba rugi dan yang diukur pada nilai wajar melalui penghasilan komprehensif lain.

The fair value of financial instruments traded in an active market (i.e. measured and available-for-sale securities), is based on quoted market price at reporting date. A market is regarded as active if quoted prices are readily and regularly available from exchange, dealer or broker, industry group pricing service or regulatory agency, and those prices represent actual and regularly occurring market transaction on an arm's length basis. The quoted market price used for financial asset held by group is bid price. These instruments are included in Level 1. Instruments included in Level 1 comprise primarily of securities classified as fair value through profit or loss and fair value through other comprehensive income.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)

Nilai wajar instrumen keuangan yang tidak diperdagangkan di pasar aktif (contohnya derivatif *over-the-counter*) ditentukan dengan teknik penilaian. Teknik-teknik penilaian tersebut menggunakan data pasar yang dapat diobservasi dan sedapat mungkin meminimalisir penggunaan estimasi spesifik dari entitas. Apabila seluruh input yang dibutuhkan untuk menentukan nilai wajar instrumen keuangan dapat diobservasi, maka instrumen keuangan tersebut dikategorikan dalam Tingkat 2. Sebaliknya, jika salah satu atau lebih data tidak didasarkan pada data pasar yang dapat diobservasi, instrumen ini termasuk dalam Tingkat 3.

Teknik penilaian spesifik yang digunakan untuk melakukan penilaian pada instrumen keuangan, antara lain:

- Harga yang dikutip dari pasar atau pedagang efek instrumen serupa
- Nilai wajar dari *swap* tingkat suku bunga yang diperhitungkan sebagai nilai kini dari estimasi arus kas masa datang berdasarkan kurva imbal hasil yang dapat diobservasi
- Nilai wajar dari kontrak berjangka valuta asing yang ditentukan berdasarkan kurs berjangka pada tanggal pelaporan keuangan, dan
- Teknik-teknik lainnya, seperti analisis arus kas diskontoan yang digunakan untuk menentukan nilai wajar instrumen keuangan lainnya

- (i) Giro pada Bank Indonesia, giro pada bank lain, penempatan pada bank lain dan Bank Indonesia, efek-efek, wesel ekspor dan tagihan lainnya, efek-efek yang dibeli dengan janji dijual kembali, penyertaan saham, tagihan akseptasi dan aset lain-lain:

Penempatan pada bank lain dan Bank Indonesia merupakan penanaman dana dalam bentuk Bank Indonesia *Deposit Facility*, *Term Deposit*, *Deposit Facility Syariah*, *call money*, penempatan "*fixed-term*", deposito berjangka dan lain-lain.

Estimasi nilai wajar penyertaan saham ditetapkan berdasarkan harga pasar atau harga kuota perantara (*broker*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasi yang serupa atau dinilai dengan menggunakan metode penilaian.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)

The fair value of financial instruments that are not traded in an active market (i.e. *over-the-counter derivatives*) is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity's specific estimates. If all significant inputs required for the fair value of an instrument are observable, the instrument is included in Level 2. Otherwise, if one or more of the significant inputs is not based on observable market data, the instrument is included in Level 3.

Specific valuation techniques used to value financial instruments include:

- Quoted market prices or dealer quotes for similar instruments
- Fair value of interest rate swap is calculated as the present value of estimated future cashflow based on observable yield curves
- Fair value of foreign exchange contracts is determined using forward exchange rates at reporting date, and
- Other techniques, such as discounted cash flow analysis, are used to determine fair value for other financial instruments

- (i) Current accounts with Bank Indonesia, current accounts with other banks, placements with other banks and Bank Indonesia, marketable securities, bills and other receivables, securities purchases under agreements to resell and other assets, equity investments, acceptance receivables and other assets:

Placements with other banks and Bank Indonesia represent placements in the form of Bank Indonesia *Deposit Facility*, *Term Deposit*, *Sharia Deposit Facility*, *call money*, "*fixed-term*" placements, time deposits and others.

The fair value for equity investment are based on the market prices or broker/dealer price quotations. When this information is not available, the fair value is estimated using quoted market prices for securities with similar characteristics or using valuation model.

DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN**

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)**

- (i) Giro pada Bank Indonesia, giro pada bank lain, penempatan pada bank lain dan Bank Indonesia, efek-efek, wesel ekspor dan tagihan lainnya, efek-efek yang dibeli dengan janji dijual kembali, penyertaan saham, tagihan akseptasi dan aset lain-lain: (lanjutan)

Nilai tercatat dari kas dan setara kas, serta penempatan dengan suku bunga mengambang adalah perkiraan yang layak atas nilai wajar.

Estimasi nilai wajar terhadap penempatan dengan suku bunga tetap, efek-efek, wesel ekspor dan tagihan lainnya, tagihan akseptasi dan aset lain-lain ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga pasar uang yang berlaku untuk utang dengan risiko kredit dan sisa jatuh tempo yang serupa. Karena sisa jatuh tempo di bawah satu tahun sehingga nilai tercatat dari penempatan dengan suku bunga tetap, wesel ekspor dan tagihan lainnya, efek-efek yang dibeli dengan janji untuk dijual kembali, tagihan akseptasi dan aset lain-lain adalah perkiraan yang layak atas nilai wajar.

- (ii) Pinjaman yang diberikan

Portofolio kredit Bank secara umum terdiri dari pinjaman yang diberikan dengan suku bunga mengambang dan pinjaman yang diberikan jangka pendek dengan suku bunga tetap. Pinjaman yang diberikan dinyatakan berdasarkan *amortized cost*. Nilai wajar dari pinjaman yang diberikan menunjukkan nilai diskon dari perkiraan arus kas masa depan yang diharapkan akan diterima oleh Bank dengan menggunakan suku bunga pasar saat ini.

Nilai tercatat dari pinjaman yang diberikan dengan suku bunga mengambang dan nilai tercatat atas pinjaman jangka pendek dengan suku bunga tetap adalah perkiraan yang layak atas nilai wajar.

**53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)**

- (i) *Current accounts with Bank Indonesia, current accounts with other banks, placements with other banks and Bank Indonesia, marketable securities, bills and other receivables, securities purchases under agreements to resell and other assets, equity investments, acceptance receivables and other assets: (continued)*

The carrying amount of cash and cash equivalents, as well as placements with floating rates are a reasonable approximation of fair value.

The estimated fair values of fixed interest bearing placements, marketable securities, bills and other receivables, acceptance receivables and other assets were based on discounted cash flows using prevailing money market interest rates for debts with similar credit risk and remaining maturity. Since the maturity is less than one year, the carrying amounts of fixed rate placements, bills and other receivables, securities purchased under agreements to resell, acceptance receivables and other assets were a reasonable approximation of their fair value.

- (ii) *Loans*

Generally, the Bank's portfolio consists of loans with floating interest rate and short-term loans with fixed interest rate. Loans are stated at amortized cost. The estimated fair value of loans represents the discounted amount of estimated future cash flows expected to be received by the Bank using the current market rates.

The carrying amount of floating rate loans and short-term fixed rate loans are the reasonable approximation of their fair values.

**PT BANK NEGARA INDONESIA (PERSERO) Tbk
DAN ENTITAS ANAK/AND SUBSIDIARIES**

**CATATAN ATAS LAPORAN KEUANGAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

**NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS**

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

**53. NILAI WAJAR ASET DAN LIABILITAS
KEUANGAN (lanjutan)**

- (iii) Liabilitas segera, simpanan nasabah dan simpanan dari bank lain, liabilitas akseptasi dan liabilitas lain-lain

Estimasi nilai wajar liabilitas segera, simpanan tanpa jatuh tempo, termasuk simpanan tanpa bunga adalah sebesar jumlah yang harus dibayarkan kembali sewaktu-waktu.

Estimasi nilai wajar terhadap simpanan dengan tingkat suku bunga tetap dan liabilitas akseptasi ditetapkan berdasarkan diskonto arus kas dengan menggunakan suku bunga utang baru dengan sisa jatuh tempo yang serupa. Karena sisa jatuh tempo dibawah satu tahun sehingga nilai tercatat dari simpanan dengan suku bunga tetap, liabilitas akseptasi dan liabilitas lain-lain adalah perkiraan yang layak atas nilai wajar.

- (iv) Efek-efek dan Obligasi Pemerintah

Nilai wajar untuk efek-efek dan Obligasi Pemerintah yang dimiliki hingga jatuh tempo ditetapkan berdasarkan harga pasar atau harga kuotasi perantara (*broker*)/pedagang efek (*dealer*). Jika informasi ini tidak tersedia, nilai wajar diestimasi dengan menggunakan harga pasar kuotasi efek yang memiliki karakteristik kredit, jatuh tempo dan *yield* yang serupa atau dinilai dengan menggunakan metode penilaian.

- (v) Efek-efek yang diterbitkan, pinjaman yang diterima, dan efek-efek yang dijual dengan janji dibeli kembali dan efek-efek subordinasi.

Nilai wajar agregat berdasarkan model diskonto arus kas menggunakan kurva *yield* terkini yang tepat untuk sisa periode jatuh temponya.

54. MANAJEMEN MODAL

Tujuan manajemen permodalan Bank adalah untuk mempertahankan posisi modal yang kuat untuk mendukung pertumbuhan bisnis dan mempertahankan investor, deposan, pelanggan dan kepercayaan pasar. Dalam pengelolaan permodalan, Bank mempertimbangkan faktor-faktor seperti: pengembalian modal yang optimal pada pemegang saham, menjaga keseimbangan antara keuntungan yang lebih tinggi dengan *gearing ratio* serta keamanan yang diberikan oleh posisi modal yang sehat.

**53. FAIR VALUE OF FINANCIAL ASSETS AND
LIABILITIES (continued)**

- (iii) *Obligations due immediately, deposits from customers and deposits from other banks, acceptance payables and other liabilities*

The estimated fair value of obligations due immediately, deposits with no stated maturity, which include non-interest bearing deposits, are the amounts repayable on demand.

The estimated fair values of fixed interest-bearing deposits and acceptance payables are based on discounted cash flows using interest rates for new debts with similar remaining maturity. Since the maturity is below one year, the carrying amounts of fixed rate deposits, acceptance payables and other liabilities are the reasonable approximation of their fair values.

- (iv) *Marketable securities and Government Bonds*

The fair value for amortized cost marketable securities and Government Bonds are based on the market prices or broker/dealer price quotations. When this information is not available, the fair value is estimated using quoted market prices for securities with similar credit, maturity and yield characteristics or using internal valuation model.

- (v) *Securities issued, borrowings, securities sold under agreements to repurchase and subordinated securities.*

Their aggregate fair values are based on discounted cash flow model using current yield curve appropriate for the remaining term to maturity.

54. CAPITAL MANAGEMENT

The Bank's capital management objective is to maintain a strong capital position to support business growth and to sustain investor, depositor, customer and market confidence. In managing its capital, the Bank considers factors such as: providing optimal capital rate of return to shareholders, maintaining a balance between high return gearing ratio and safety provided by a sound capital position.

54. MANAJEMEN MODAL (lanjutan)

Pada tanggal 31 Desember 2023 dan 2022, Bank telah memenuhi semua persyaratan modal yang diwajibkan.

Rasio Liabilitas Penyediaan Modal Minimum

Rasio Liabilitas Penyediaan Modal Minimum (*Capital Adequacy Ratio* (CAR)) adalah rasio modal terhadap aset tertimbang menurut risiko (*Risk - Weighted Assets* (RWA)). Berdasarkan peraturan Bank Indonesia, jumlah modal untuk risiko kredit terdiri dari Modal Inti ("Tier I") dan Modal Pelengkap ("Tier II") dikurangi penyertaan pada Entitas Anak. Sesuai dengan Peraturan OJK No. 11/POJK.03/2016, Peraturan OJK No. 34/POJK.03/2016, dan Peraturan OJK No. 27 Tahun 2022 tentang Kewajiban Penyediaan Modal Minimum Bank Umum dan Surat Edaran OJK No.9/SEOJK.03/2020 tentang Transparansi dan Publikasi Laporan Bank Umum Konvensional, sejak akhir bulan September 2016, Cadangan Tujuan tidak dapat lagi diperhitungkan sebagai komponen Modal Bank.

Rasio Kecukupan Modal (hanya BNI) pada tanggal-tanggal 31 Desember 2023 dan 2022 adalah sebagai berikut:

54. CAPITAL MANAGEMENT (continued)

As of 31 December 2023 and 2022, the Bank has complied with all capital requirements.

Capital Adequacy Ratio

The *Capital Adequacy Ratio* (CAR) is the ratio of the Bank's capital over its *Risk - Weighted Assets* (RWA). Based on Bank Indonesia regulations, the total capital for credit risk consists of core capital (Tier I) and supplementary capital (Tier II) less investments in Subsidiaries. In accordance with OJK Regulation No. 11/POJK.03/2016, OJK Regulation No. 34/POJK.03/2016, OJK Regulation No. 27 of 2022 concerning the Minimum Capital Requirement for Commercial Banks and OJK Circular Letter No.9/SEOJK.03/2020 on Transparency and Publication Conventional Commercial Bank Report, since the end of the month of September 2016, Specific Reserves can no longer be taken into account as a component of Capital Bank.

The CAR of BNI (BNI only) as of 31 December 2023 and 2022 is as follows:

	2023	2022	
BNI - tanpa memperhitungkan risiko pasar			BNI - without considering market risk
Aset Tertimbang Menurut Risiko	609,160,539	586,141,753	<i>Risk Weighted Assets</i>

55. AKTIVITAS JASA LAINNYA

BNI menyediakan jasa kustodi, *trustee*, pengelolaan investasi dan reksadana kepada pihak-pihak ketiga. Aset yang terdapat dalam aktivitas jasa lainnya tidak termasuk dalam laporan keuangan konsolidasian ini. Jumlah komisi yang diterima dari pemberian jasa ini adalah masing-masing sebesar Rp94.343 dan Rp97.707 untuk tahun yang berakhir pada tanggal-tanggal 31 Desember 2023 dan 2022.

Kegiatan Jasa Kustodian

Jasa Kustodian BNI mendapat izin operasi oleh Bapepam dan LK berdasarkan Surat Keputusan No. KEP-162/PM/1991 tertanggal 9 Desember 1991. Kustodian BNI merupakan bagian dari Divisi Operasional, dimana jasa-jasa yang ditawarkan adalah sebagai berikut:

- a. Penyimpanan (*safekeeping*) dan administrasi (*administration*) atas efek-efek maupun dokumen berharga lainnya;
- b. Penyelesaian transaksi (*settlement*) jual dan beli efek berbentuk warkat (*script*) maupun tanpa warkat (*scriptless*);
- c. Pengurusan hak-hak nasabah atas kepemilikan efek-efek yang disimpan sehingga hak tersebut efektif di rekening nasabah (*corporate action*);
- d. Perwalian (*proxy*) pada Rapat Umum Pemegang Saham dan Rapat Umum Pemegang Obligasi;
- e. Penyampaian laporan (*reporting*) dan informasi (*information*) yang terkait dengan efek-efek dan/atau dokumen berharga milik nasabah yang disimpan dan diadministrasikan oleh Kustodian BNI.

Untuk memenuhi kebutuhan investor dalam melakukan investasi pada berbagai instrumen efek-efek, Kustodian BNI memfasilitasinya dengan menyediakan beragam layanan:

- a. Kustodian umum untuk melayani investor yang melakukan investasi pada instrumen pasar modal dan pasar uang di Indonesia;
- b. *Sub-Registry* untuk melayani investor yang melakukan transaksi dan investasi pada Surat Utang Negara (SUN - Obligasi Pemerintah atau Surat Perbendaharaan Negara) serta Sertifikat Bank Indonesia (SBI);
- c. Kustodian reksadana (*mutual fund*) dan kontrak pengelolaan dana (*discretionary fund*) yang diterbitkan dan dikelola oleh manajer investasi;
- d. Kustodian *Euroclear* bagi nasabah yang akan melakukan investasi dan penyelesaian transaksi efek-efek yang tercatat di *Euroclear Operations Centre*, Brussels. Kustodian BNI merupakan anggota langsung dari *Euroclear*.

55. OTHER ACTIVITIES

BNI provides custodian, *trustee*, investment management and mutual fund services to third parties. Assets that are held in other activities are not included in these consolidated financial statements. Total fees received from these services amounted to Rp94,343 and Rp97,707 for the year ended 31 December 2023 and 2022, respectively.

Custodian Services

BNI Custodian Services has obtained an operating license based on the Decision Letter of Bapepam and LK No. KEP-162/PM/1991 dated 9 December 1991. BNI's Custodian Department, which is part of the Operational Division, provides a full range of custodian services such as:

- a. Safekeeping and administration of marketable securities and other valuable assets;
- b. Settlement and handling services for script and scriptless trading transactions;
- c. Corporate action services related to the rights of the marketable securities;
- d. Proxy services for its customers' shareholder meetings and bond holder meetings;
- e. Generate reports and information regarding customers' marketable securities which are kept and administered by BNI's custodian department.

In order to fulfill the investors' needs in investing in various marketable securities and instruments, BNI's Custodian Operations facilitates various services as follows:

- a. General custodian which provides services to investors investing in capital markets or money markets in Indonesia;
- b. *Sub-Registry* service provider for settlement of Government Debenture Debt (SUN - either Government Bonds or Surat Perbendaharaan Negara) and SBI transactions;
- c. Custodian for mutual funds and discretionary funds issued and managed by investment manager;
- d. *Euroclear* Custodian for customer who is conducting investment and settlement of securities transactions listed in *Euroclear Operations Center*, Brussels. BNI Custodian is a direct member of *Euroclear*.

55. AKTIVITAS JASA LAINNYA (lanjutan)

Kegiatan Jasa Kustodian (lanjutan)

Pada tanggal-tanggal 31 Desember 2023 dan 2022, Kustodian BNI memiliki 189 nasabah dan 15 175 nasabah (tidak diaudit). Nasabah utama terdiri dari dana pensiun, perusahaan asuransi, bank, yayasan, perusahaan sekuritas, reksadana, institusi/ badan hukum lain dan perseorangan. Nilai portofolio yang disimpan pada tanggal 31 Desember 2023 dan 2022 adalah masing-masing sebesar Rp261.346.086 dan Rp376.579.572 (tidak diaudit).

BNI mengasuransikan portofolio nasabah yang disimpan di Kustodian terhadap kemungkinan kerugian yang timbul dari penyimpanan dan pemindahan efek-efek sesuai dengan ketentuan OJK, dahulu Bapepam dan LK.

Kegiatan Wali Amanat

BNI mendapat izin operasi untuk kegiatan wali amanat berdasarkan Surat Keputusan Badan Pengawas Pasar Modal dan Lembaga keuangan No. 01/STTD-WA/PM/1996 tertanggal 27 Maret 1996. Jasa-jasa yang ditawarkan oleh wali amanat adalah sebagai berikut:

- a. Jasa Wali Amanat untuk obligasi dan *medium-term notes* (MTN)
- b. Jasa Agen Pengelola Rekening Penampungan
- c. Jasa Agen Pembayaran
- d. Jasa Penampungan Dana IPO
- e. Jasa Agen Penjaminan

BNI selaku Wali Amanat, telah mengelola 63 emisi dengan nilai emisi (obligasi dan MTN) sebesar Rp31.051.866 pada tanggal 31 Desember 2023 dan 49 emisi dengan nilai emisi (obligasi dan MTN) sebesar Rp31.782.994 pada tanggal 31 Desember 2022 (tidak diaudit).

56. KREDIT KELOLAAN

BNI mengelola dana yang langsung dikeluarkan oleh Pemerintah Republik Indonesia (didanai oleh kreditur luar negeri) yang ditujukan kepada penerima pinjaman untuk keperluan pembiayaan proyek tertentu. Penerima pinjaman ini telah disetujui oleh Pemerintah Republik Indonesia. Pembayaran yang diterima oleh BNI dari penerima pinjaman dikembalikan lagi ke Pemerintah. BNI tidak menanggung risiko kredit atas transaksi-transaksi tersebut. Pinjaman tersebut bukan merupakan aset BNI dan dana yang diterima dari Pemerintah Republik Indonesia bukan merupakan liabilitas BNI. Pinjaman tersebut tidak dibukukan dalam laporan keuangan konsolidasian BNI. BNI memperoleh pendapatan atas pengelolaan pinjaman tersebut sebesar 0,25% dari rata-rata saldo baki debet pinjaman dalam mata uang Rupiah dan 0,15% dari rata-rata saldo baki debet pinjaman dalam mata uang Dolar Amerika Serikat.

55. OTHER ACTIVITIES (continued)

Custodian Services (continued)

As of 31 December 2023 and 2022. BNI's custodians operations has 189 customers and 175 customers (unaudited), respectively. The customer are primarily pension funds, insurance companies, banks, foundations, securities companies, mutual funds, other institution/ legal entities and individual customers with total portfolio value as of 31 December 2023 and 2022 amounted to Rp261,346,086 and Rp376,579,572, respectively (unaudited).

BNI carries insurance on custodian services against potential losses from safekeeping and transit of securities in accordance with OJK, previously Bapepam and LK regulation.

Trust Operations

BNI has obtained the operating license for trustee services based on Decision Letter of Capital Market and Financial Institutions Supervisory Agency No. 01/STTD-WA/PM/1996 dated 27 March 1996. The Trustee Services Business (TSB) provides a full range of the following services:

- a. Trustee for bond and medium-term notes (MTN)
- b. Escrow Account Agent
- c. Paying Agent
- d. Initial Public Offering / IPO Receiving Bank
- e. Security Agent

BNI as a Trustee, has 63 bonds and MTN issued amounting to Rp31,051,866 as of 31 December 2023 and 49 bonds and MTN issued amounting to Rp31,782,994 as of 31 December 2022 (unaudited).

56. CHANNELLING LOANS

BNI administers loans directly disbursed by the Government of the Republic of Indonesia (financed by overseas creditors) to the borrowers of certain specified projects. These borrowers are approved by the Government of the Republic of Indonesia. Payments received by BNI from borrowers are remitted back to the Government. BNI bears no credit risk on these transactions. These loans are not the assets of BNI and funds received from the Government of Republic of Indonesia are not the liabilities of BNI. These loans are not recognized in BNI's consolidated financial statements. BNI receives fees for administering the loans of 0.25% from the average of loans outstanding balance in Rupiah and 0.15% of the average of loan outstanding balance in United States Dollar.

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

58. STANDAR AKUNTANSI KEUANGAN BARU YANG TELAH DISAHKAN NAMUN BELUM BERLAKU EFEKTIF

Dewan Standar Akuntansi Keuangan Ikatan Akuntan Indonesia ("DSAK-IAI") telah menerbitkan standar baru, amandemen dan interpretasi berikut, namun belum berlaku efektif untuk tahun buku yang dimulai pada 1 Januari 2023 adalah sebagai berikut:

- Amendemen PSAK 1: "Penyajian Laporan Keuangan" terkait liabilitas jangka panjang dengan kovenan; dan
- Amendemen PSAK 73: "Sewa" terkait liabilitas sewa pada transaksi jual dan sewa-balik.

Standar tersebut akan berlaku efektif pada 1 Januari 2024 dan penerapan dini diperbolehkan.

- PSAK 74: "Kontrak Asuransi"; dan
- Amendemen PSAK 74: "Kontrak Asuransi" terkait Penerapan Awal PSAK 74 dan PSAK 71 - Informasi Komparatif.

Standar tersebut akan berlaku efektif pada 1 Januari 2025.

Pada saat penerbitan laporan keuangan konsolidasian, Grup masih mempelajari dampak yang mungkin timbul dari penerapan standar baru dan revisi tersebut serta pengaruhnya pada laporan keuangan konsolidasian Grup.

59. ANALISIS KUALITAS KREDIT

Pengukuran Kerugian Kredit Ekspektasian

Peningkatan Risiko Kredit Secara Signifikan

Ketika menentukan apakah risiko gagal bayar pada instrumen keuangan telah meningkat secara signifikan sejak pengakuan awal, Bank mempertimbangkan informasi yang wajar dan didukung, serta relevan yang tersedia tanpa biaya atau upaya yang berlebihan. Hal tersebut mencakup informasi dan analisa kuantitatif dan kualitatif, berdasarkan pada pengalaman historis dan penilaian pakar kredit dan termasuk perkiraan masa depan (*forward-looking*).

Tujuan dari penilaian ini adalah untuk mengidentifikasi apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi dengan membandingkan:

- *Probability of default* (PD) atas umur tersisa pada tanggal pelaporan; dengan
- *Probability of default* (PD) atas umur tersisa yang diestimasi pada saat pengakuan awal eksposur (jika relevan, disesuaikan dengan perubahan ekspektasi pembayaran di muka).

58. NEW FINANCIAL ACCOUNTING STANDARDS ISSUED BUT NOT YET EFFECTIVE

Financial Accounting Standard Board of Indonesian Institute of Accountants ("DSAK-IAI") has issued the following new standards, amendments and interpretations, but not yet effective for the financial year beginning 1 January 2023 are as follows:

- *Amendment of SFAS 1: "Presentation of Financial Statements" regarding long-term liabilities with the covenant; and*
- *Amendment of SFAS 73: "Leases" regarding lease liabilities in sale-and-lease back transactions.*

The above standards will be effective on 1 January 2024 and early adoption is permitted.

- *SFAS 74: "Insurance Contract"; and*
- *Amendment of SFAS 74: "Insurance Contract" regarding Initial Application of SFAS 74 and SFAS 71 - Comparative Information.*

The above standards will be effective on 1 January 2025.

As at the authorisation date of these consolidated financial statements, the Group is still evaluating the potential impact of these new and revised standards to the Group's consolidated financial statements.

59. CREDIT QUALITY ANALYSIS

Measurement of Expected Credit Losses

Significant Increase in Credit Risk

When determining whether the risk of default on financial instruments has increased significantly since initial recognition, the Bank considers reasonable and supported relevant information that is available without excessive costs or efforts. This includes quantitative and qualitative information and analysis, based on historical experience and credit expert assessments and including forward-looking estimates.

The purpose of this assessment is to identify whether a significant increase in credit risk of exposure has occurred by comparing:

- *Probability of default (PD) for the remaining age at the reporting date; with*
- *Probability of default (PD) for the estimated remaining age at initial recognition of the exposure (if relevant, adjusted for change in expectations of prepayment).*

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

59. ANALISIS KUALITAS KREDIT (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)

Peningkatan Risiko Kredit Secara Signifikan
(lanjutan)

Bank menggunakan kriteria berikut dalam menentukan apakah peningkatan risiko kredit secara signifikan atas eksposur telah terjadi:

- pengujian kuantitatif berdasarkan perubahan *probability of default* (PD);
- indikator kualitatif;
- tertunggak lebih dari 30 hari.

Credit Risk Grades

Bank mengalokasikan setiap eksposur ke *credit risk grades* berdasarkan variasi data yang ditentukan dapat memprediksi risiko gagal bayar dan menerapkan pengalaman atas kredit. *Credit risk grades* ditetapkan menggunakan faktor kualitatif dan kuantitatif yang dapat mengindikasikan risiko gagal bayar. Faktor-faktor ini bervariasi tergantung pada sifat eksposur dan jenis peminjam.

Credit risk grades ditetapkan dan dikalibrasi sedemikian rupa sehingga risiko terjadinya gagal bayar meningkat secara eksponensial seiring dengan penurunan *rating* risiko kredit, sebagai contoh, selisih antara *credit risk rating grades* 1 dan 2 lebih kecil dari pada selisih antara *credit risk rating grades* 2 dan 3.

Setiap eksposur dialokasikan ke *credit risk grades* pada pengakuan awal berdasarkan informasi yang tersedia tentang peminjam. Eksposur ini dipantau secara berkelanjutan, dan dapat mengakibatkan eksposur dipindahkan ke *credit risk grades* yang berbeda. Pemantauan biasanya menggunakan data berikut: laporan keuangan, penggunaan fasilitas kredit, dan estimasi kondisi ekonomi.

Penentuan Struktur *Probability of Default*

Credit risk grades adalah input utama dalam penentuan struktur PD *term structure* atas eksposur. Bank mengumpulkan informasi kinerja dan gagal bayar tentang eksposur risiko kredit yang dianalisa berdasarkan yurisdiksi atau wilayah dan menurut jenis produk dan peminjam serta penilaian risiko kredit. Untuk beberapa portofolio, informasi yang dibeli dari penilai kredit eksternal juga digunakan.

59. CREDIT QUALITY ANALYSIS (continued)

Measurement of Expected Credit Losses
(continued)

Significant Increase in Credit Risk (continued)

Bank use these criteria for determining whether there has been a significant increase in credit :

- quantitative test based on movement in *probability of default* (PD);
- qualitative indicators;
- a backstop of 30 days past due.

Credit Risk Grades

The Bank allocated each exposure to *credit risk grades* based on a variety of data that is determined to predict the risk of default and apply credit experience judgement. *Credit risk grades* are determined using qualitative and quantitative factors that can indicate the risk of default. These factors vary depending on the nature of the exposure and the type of borrower.

Credit risk grades are determined and calibrated in such a way that the risk of default is increasing exponentially as *credit risk rating* decreases, for example, the difference between *credit risk rating grades* 1 and 2 is smaller than the difference between *credit risk rating grades* 2 and 3.

Each exposure is allocated to *credit risk grades* at initial recognition based on available information on the borrower. This exposure is monitored on an ongoing basis, and can result in the exposure being transferred to different *credit risk grades*. Monitoring usually uses the following data: financial statements, use of credit facilities and estimates of economic conditions.

Determination of the *Probability of Default* Structure

Credit risk grades are the main input in determining the PD *term structure* of the exposure. The Bank collects performance and default information about *credit risk exposures*, which are analyzed by jurisdiction or region and by product and borrower type as well as *credit risk assessment*. For some portfolios, information purchased from external credit analyst is also used.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

59. ANALISIS KUALITAS KREDIT (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)

Penentuan Struktur *Probability of Default*
(lanjutan)

Bank menggunakan model statistik untuk menganalisa data yang dikumpulkan dan menghasilkan perkiraan *probability of default* (PD) atas umur tersisa dan bagaimana hal ini diperkirakan akan berubah sebagai akibat dari berlalunya waktu.

Analisa ini mencakup identifikasi dan kalibrasi hubungan antara perubahan tingkat gagal bayar dan perubahan dalam faktor-faktor makro ekonomi utama serta analisa mendalam tentang dampak faktor-faktor lain tertentu (misalkan restrukturisasi) pada risiko gagal bayar. Untuk sebagian besar eksposur, indikator makro ekonomi utama meliputi: pertumbuhan PDB, suku bunga acuan, dan tingkat pengangguran. Untuk eksposur pada industri dan/atau wilayah tertentu, analisa dapat mencakup harga komoditas dan/atau harga properti yang relevan.

Penentuan Terjadinya Peningkatan Risiko Kredit Secara Signifikan

Bank mempergunakan sejumlah kriteria untuk menentukan telah terjadi peningkatan risiko kredit secara signifikan.

Kriteria tersebut ditetapkan menggunakan faktor kuantitatif dan kualitatif termasuk penentuan berdasarkan status hari tunggakan yang dapat mengindikasikan telah terjadi peningkatan risiko kredit yang signifikan terhadap saat awal diberikan.

Bank dimungkinkan menggunakan penilaian dari analisis kredit dan jika memungkinkan, pengalaman historis yang relevan, dalam menentukan bahwa eksposur mungkin saja telah mengalami peningkatan risiko kredit yang signifikan berdasarkan indikator kualitatif tertentu yang dianggap dapat mengindikasikan hal tersebut dimana pengaruhnya mungkin belum sepenuhnya tercermin pada saat dilakukan analisis kuantitatif secara komprehensif dan tepat waktu.

59. CREDIT QUALITY ANALYSIS (continued)

Measurement of Expected Credit Losses
(continued)

Determination of the Probability of Default Structure (continued)

The Bank uses a statistical model to analyze the collected data and produce an estimate of the probability of default (PD) for the remaining life and how this is expected to change as a result of the passage of time.

This analysis includes the identification and calibration of the relationship between changes in default rates and changes in key macroeconomic factors as well as an in-depth analysis of the impact of other certain factors (e.g. restructuring) on the risk of default. For most exposures, the main macroeconomic indicators include: GDP growth, benchmark interest rates, and the unemployment rate. For exposures in certain industries and/or regions, the analysis can include commodity prices and/or relevant property prices.

Determination of Significant Increase in Credit Risk

Bank uses several criteria for determining that credit risk has increased significantly.

The criteria are determined using qualitative and quantitative factors including determination based on arrear day status that can indicate significant increase in credit risk since initial recognition.

The Bank can also use the judgment of credit analysts and, if possible, relevant historical experience, in determining that the exposure may have experienced a significant increase in credit risk based on certain qualitative indicators that are considered to indicate this and their effects may not be fully reflected in quantitative analysis in a comprehensive manner on a timely manner.

CATATAN ATAS LAPORAN KEUANGAN
KONSOLIDASIAN

31 DESEMBER 2023 DAN 2022

(Disajikan dalam jutaan Rupiah, kecuali dinyatakan lain)

NOTES TO THE CONSOLIDATED
FINANCIAL STATEMENTS

31 DECEMBER 2023 AND 2022

(Expressed in millions of Rupiah, unless otherwise stated)

59. ANALISIS KUALITAS KREDIT (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)

Penentuan Terjadinya Peningkatan Risiko Kredit Secara Signifikan (lanjutan)

Bank menentukan bahwa peningkatan risiko kredit secara signifikan belum terjadi apabila masih kurang dari 30 hari tunggakan. Hari tunggakan ditentukan dengan menghitung jumlah hari sejak tanggal jatuh tempo awal dimana pembayaran penuh belum diterima. Tanggal jatuh tempo ditentukan tanpa mempertimbangkan masa tenggang yang mungkin tersedia bagi peminjam.

Bank memantau efektivitas kriteria yang digunakan dalam mengidentifikasi peningkatan risiko kredit yang signifikan dengan cara reviu berkala.

Modifikasi Aset Keuangan

Ketentuan kontraktual pinjaman dapat dimodifikasi untuk beberapa alasan, termasuk perubahan kondisi pasar, retensi pelanggan dan faktor-faktor lain yang tidak terkait dengan penurunan kredit saat ini. Pinjaman yang ketentuan kontraktualnya dimodifikasi dapat menyebabkan pinjaman awal dihentikan pengakuannya dan pinjaman hasil modifikasi diakui sebagai pinjaman baru pada nilai wajar.

Ketika ketentuan kontraktual pinjaman dimodifikasi dan tidak mengakibatkan penghentian pengakuan, penentuan terjadinya peningkatan risiko kredit secara signifikan dilakukan dengan cara membandingkan:

- Sisa PD sepanjang umur pada tanggal pelaporan berdasarkan ketentuan yang dimodifikasi; dengan
- Sisa PD sepanjang umur yang diestimasi berdasarkan data pada saat pengakuan awal dan ketentuan kontraktual awal.

Definisi Gagal Bayar (Default)

Grup menganggap aset keuangan dalam keadaan *default/gagal bayar* ketika:

- Debitur tidak mungkin membayar kewajiban kreditnya kepada secara penuh, tanpa bantuan (*recourse*) dari Grup; atau
- Debitur telah melewati jatuh tempo lebih dari 90 hari atas kewajiban kredit material apapun kepada Grup.

59. CREDIT QUALITY ANALYSIS (continued)

Measurement of Expected Credit Losses
(continued)

Determination of Significant Increase in Credit Risk (continued)

The Bank determines that a significant increase in credit risk has not occurred if it is still less than 30 days in arrears. Arrear days are determined by counting the number of days from the initial due date where full payment has not been received. The due date is determined without considering the grace period that might be available to the borrower.

The Bank monitors the effectiveness of the criteria used in identifying significant increases in credit risk by periodic review.

Modification of Financial Assets

Loan contractual terms can be modified for a number of reasons, including changes in market conditions, customer retention and other factors not related to the current credit decline. Loans with modified contractual terms can cause the initial loan to be derecognized and recognized the modified loan as a new loan at fair value.

When the contractual terms of the loan are modified and do not result in termination of recognition, determining the occurrence of a significant increase in credit risk is done by comparing:

- PD remaining life at reporting date based on modified provision; with
- Residual PD throughout the estimated age based on data at initial recognition and initial contractual provisions.

Definition of Failed Payment (Default)

The Group considers financial assets as default when:

- The debtor is unlikely to pay its credit obligation in full, without assistance (*recourse*) from the Group; or
- The debtors have past due more than 90 days for any material credit obligations to the Group.

(Expressed in millions of Rupiah, unless otherwise stated)

59. ANALISIS KUALITAS KREDIT (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian
(lanjutan)

Definisi Gagal Bayar (Default) (lanjutan)

Dalam menilai apakah debitur dalam keadaan *default*/gagal bayar, Grup mempertimbangkan indikator berikut:

- Kualitatif seperti pelanggaran persyaratan perjanjian (*covenants*);
- Kuantitatif seperti status tunggakan; dan
- Berdasarkan data yang dikembangkan secara internal dan diperoleh dari sumber eksternal.

Input, Asumsi, dan Teknik yang Digunakan dalam Mengestimasi Penurunan Nilai

Penggunaan informasi perkiraan masa depan (forward-looking)

Grup menggunakan informasi *forward-looking* dalam menilai apakah telah terjadinya peningkatan risiko kredit secara signifikan dan pengukuran kerugian kredit ekspektasian. Berdasarkan saran dari Komite Manajemen Risiko, pakar ekonomi dan pertimbangan berbagai informasi aktual dan perkiraan eksternal, Grup merumuskan pandangan dasar (*base case*) tentang pergerakan variabel ekonomi yang relevan di masa depan serta perkiraan skenario lain yang mungkin terjadi. Proses ini meliputi pengembangan dua atau lebih skenario ekonomi tambahan dan mempertimbangkan probabilitas relatif dari keluaran (*output*) yang mungkin. Informasi eksternal mencakup data ekonomi dan perkiraan yang diterbitkan oleh, seperti badan pemerintah dan analis sektor swasta dan akademisi terpilih.

Pandangan dasar (*base case*) mencerminkan keluaran dengan probabilitas yang paling tinggi dan digunakan dalam perencanaan strategis dan anggaran. Skenario yang lain, mencerminkan keluaran yang lebih optimis dan keluaran yang lebih pesimis.

Pengukuran Kerugian Kredit Ekspektasian

Input utama dalam pengukuran kerugian kredit ekspektasian adalah variabel berikut :

- *Probability of default* (PD);
- *Loss of given default* (LGD);
- *Exposure at default* (EAD).

59. CREDIT QUALITY ANALYSIS (continued)

Measurement of Expected Credit Losses
(continued)

Definition of Failed Payment (Default)
(continued)

In assessing whether a debtor is in default, the Group considers the following indicators:

- *Qualitative such as violations of the terms of the agreement (covenants);*
- *Quantitative such as arrears status; and*
- *Based on data developed internally and obtained from external sources.*

Inputs, Assumptions, and Techniques Used in Estimating Impairment

Use of forward-looking information

The Group uses forward-looking information in assessing whether there has been a significant increase in credit risk and measurement of expected credit losses. Based on advice from the Risk Management Committee, economists and consideration of various actual information and external forecast, the Group formulated a base case for the movement of relevant economic variables in future as well as forecasts of other possible scenarios. This process involves developing two or more additional economic scenarios and considering the relative probabilities of the possible outputs. External information includes economic data and estimation published by, such as government agencies and selected private sector analysts and academics.

The base case reflects the output with the highest probability and is used in strategic planning and budgeting. Another scenario, reflects more optimistic outputs and more pessimistic outputs.

Measurement of Expected Credit Loss

The main inputs in measuring expected credit loss are the following variables:

- *Probability of default (PD);*
- *Loss of given default (LGD);*
- *Exposure at default (EAD).*

59. ANALISIS KUALITAS KREDIT (lanjutan)

Input, Asumsi, dan Teknik yang Digunakan dalam Mengestimasi Penurunan Nilai (lanjutan)

Pengukuran Kerugian Kredit Ekspektasian (lanjutan)

Parameter ini umumnya berasal dari model statistik yang dikembangkan secara internal dan data historis lainnya. Parameter ini disesuaikan untuk mencerminkan informasi *forward-looking*.

Estimasi PD adalah estimasi pada tanggal tertentu, yang dihitung berdasarkan model peringkat statistik, dan dinilai menggunakan *rating* yang disesuaikan dengan berbagai kategori dari debitur dan eksposur. Model statistik ini didasarkan pada data yang disusun secara internal yang terdiri dari faktor kuantitatif dan kualitatif.

LGD adalah besarnya kerugian jika terjadi gagal bayar. Parameter LGD diestimasi secara historis berdasarkan tingkat pemulihan atas klaim terhadap debitur yang gagal bayar. Model LGD mempertimbangkan struktur, jaminan, senioritas klaim, industri debitur, dan biaya pemulihan setiap jaminan yang merupakan bagian integral dari aset keuangan.

EAD merepresentasikan estimasi eksposur jika terjadi gagal bayar. EAD suatu aset keuangan adalah jumlah tercatat bruto. Untuk komitmen pinjaman dan jaminan keuangan, EAD mencakup jumlah yang telah ditarik, serta jumlah potensial di masa depan yang akan ditarik, yang diestimasi berdasarkan pengamatan historis dan perkiraan berwawasan ke depan (*forward-looking*).

Ketika pemodelan parameter dilakukan secara kolektif, instrumen keuangan dikelompokkan berdasarkan kesamaan karakteristik risiko yang meliputi:

- jenis instrumen;
- peringkat risiko kredit;
- jenis agunan;
- tanggal pengakuan awal;
- sisa waktu jatuh tempo;
- industri; dan
- lokasi geografis debitur.

60. BEBAN TANGGUNG JAWAB SOSIAL DAN LINGKUNGAN (TJSL)

Beban TJSL yang telah dibebankan pada laporan laba rugi untuk tahun yang berakhir pada tanggal 31 Desember 2023 dan 2022 adalah masing-masing sebesar Rp135.958 dan Rp108.344.

59. CREDIT QUALITY ANALYSIS (continued)

Inputs, Assumptions, and Techniques Used in Estimating Impairment (continued)

Measurement of Expected Credit Loss (continued)

These parameters generally come from statistical models that are developed internally and other historical data. This parameter is adjusted to reflect forward-looking information.

PD estimation is an estimate on a certain date, which is calculated based on a statistical ranking model, and is assessed using a rating that is adjusted to various categories of debtors and exposures. This statistical model is based on data compiled internally consisting of quantitative and qualitative factors.

LGD is the amount of loss if there is a default. LGD parameters are historically estimated based on the level of recovery of claims against debtors who default. The LGD model considers the structure, collateral, claim seniority, the debtor industry, and the cost of recovering any collateral that is an integral part of a financial asset.

EAD represents the estimated exposure in case of default. EAD of a financial asset is the gross carrying amount. For loan commitments and financial guarantees, EAD includes the amount that has been withdrawn, as well as potential future amounts to be withdrawn, which are estimated based on historical observations and forward-looking estimates.

When parameter modelling is done collectively, financial instruments are grouped according to the similarity of risk characteristics which include:

- *type of instrument;*
- *credit risk rating;*
- *type of collateral;*
- *date of initial recognition;*
- *remaining due date;*
- *industry; and*
- *debtor's geographical location.*

60. TANGGUNG JAWAB SOSIAL DAN LINGKUNGAN (TJSL) EXPENSE

TJSL expense that was charged to profit or loss amounted to Rp135,958 and Rp108,344 for the year ended 31 December 2023 and 2022, respectively.

1. Ikhtisar kebijakan akuntansi yang penting

Dasar penyusunan laporan keuangan tersendiri entitas induk.

Laporan keuangan tersendiri entitas induk disusun sesuai dengan Pernyataan Standar Akuntansi Keuangan ("PSAK") 4 (revisi 2013), "Laporan Keuangan Tersendiri".

PSAK 4 (Revisi 2013) mengatur dalam hal entitas menyajikan laporan keuangan tersendiri maka laporan tersebut hanya dapat disajikan sebagai informasi tambahan dalam laporan keuangan konsolidasian. Laporan keuangan tersendiri adalah laporan yang disajikan oleh entitas induk yang mencatat investasi pada entitas anak, entitas asosiasi, dan pengendalian bersama entitas berdasarkan kepemilikan ekuitas langsung bukan berdasarkan pelaporan hasil dan aset bersih investee.

Kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan tersendiri entitas induk adalah sama dengan kebijakan akuntansi yang diterapkan dalam penyusunan laporan keuangan konsolidasian sebagaimana diungkapkan pada Catatan 2 atas laporan keuangan konsolidasian, kecuali untuk penyertaan pada Entitas Anak yang disajikan pada biaya perolehan.

2. Penyertaan Saham

Informasi mengenai Entitas Anak yang dimiliki Bank diungkapkan pada Catatan 1i atas laporan keuangan konsolidasian.

1. Summary of significant accounting policies

Basis of preparation of the separate financial statements of the parent entity.

The separate financial statements of the parent entity are prepared in accordance with the statement of Financial Accounting Standards ("SFAS") 4 (revised 2013), "Separate Financial Statements".

SFAS 4 (Revised 2013) regulates that when an entity presents the separate financial statements, such financial statements should be presented as supplementary information to the consolidated financial statements. Separate financial statements are those presented by a parent entity, in which the investments of subsidiaries, associated entities and jointly controlled entities are accounted for on the basis of the direct equity interest rather than on the basis of the reported results and net assets of the investees.

Accounting policies adopted in the preparation of the parent entity separate financial statements are the same as the accounting policies adopted in the preparation of the consolidated financial statements as disclosed in Note 2 to the consolidated financial statements, except for investments in Subsidiaries which are stated at cost.

2. Equity Investment

Information pertaining to Subsidiaries of the Bank is disclosed in Note 1i to the consolidated financial statements.

Lampiran – 5 – Schedule

Attachment of Republic of Indonesia Financial Services Authority Circular Letter No. 9/SEOJK.03/2020 Concerning Transparency and Publication of Conventional Commercial Bank Reports

DESCRIPTION	PAGE
1. Informasi Umum	
a. Financial Highlights presents financial information in a comparative format for 2 (two) fiscal years, or since the Bank began its business for banks that have been in business for less than 2 (two) years. At the very least, financial highlights covers:	18-23
i) Net interest income;	
ii) Operating profit;	
iii) Profit before tax;	
iv) Net profit;	
v) Total comprehensive profit (loss);	
vi) Net income per share;	
vii) Total assets;	
viii) Total liabilities;	
ix) Total equity;	
x) Earning assets;	
xi) Third party funds;	
xii) Borrowing;	
xiii) CAR;	
xiv) Return on Assets (ROA);	
xv) Return on Equity (ROE);	
xvi) Profit margin (loss) to income ratio)	
xvii) Operating Expenses to Operating Income Ratio (BOPO);	
xviii) Cost to Income Ratio (CIR);	
xix) Percentage of violations and Exceedance of Legal lending Limit (BMPK);	
xx) Mandatory Minimum Reserves (GWM) ration;	
xxi) Net Open Position (PDN) Ratio; And	
xxii) Other information and ratios relevant to the banking industry.	
b. Bank Profile	
The Bank Profile covers at the very least:	
1) Name of the Bank, including if there is a name change, the reason for the change, and the effective date of the name change in the financial year;	72; 77
2) Access to Banks, including branch offices or representative offices that enable the public to obtain information regarding Issuers or Public Companies, including:	73-74
•Address;	√
•Telephone number;	√
•Electronic mail address; and	√
•Website address;	√
3) Brief history of the Bank;	76-77
4) Bank vision and mission;	78-79
5) Business activities according to the latest articles of association, business activities carried out in the financial year, as well as the types of goods and/or services produced;	82-85
6) The Bank's organizational structure is at least 1 (one) level below the board of directors, accompanied by name and position;	88-89

DESCRIPTION	PAGE
7) Shareholders structure and composition, namely the names of shareholders and percentage of ownership, including:	152-158
•Shareholders structure and composition, namely the names of shareholders and percentage of ownership, including:	√
•Members of the board of directors and members of the board of commissioners who own Bank shares;	√
•Public shareholder groups, namely groups of shareholders who each own less than 5% (five percent) of the Bank's shares;	√
•Information regarding the main and controlling shareholders of the Bank, both directly and indirectly, down to individual owners, presented in the form of a scheme or chart;	√

Cross-Reference No. 16/ SEOJK.04/2021: Format and Completing the Annual Report of Issuers or Public Companies

DESCRIPTION	PAGE
I. General Terms	
In this Financial Services Authority Circular Letter what is meant by:	√
a. The Annual Report is a report on the board of directors and board of commissioners accountability in managing and supervising issuers or public companies within a period of 1 (one) fiscal year to the general meeting of shareholders prepared based on the provisions of the Financial Services Authority Regulation concerning the Annual Report of issuers or public companies.	√
b. Issuers are parties who make public offerings.	√
c. A Public Company is a company whose shares are owned by at least 300 (three hundred) shareholders and has a paid-up capital of at least Rp3,000,000,000.00 (three billion rupiah) or a number of shareholders and paid-up capital as determined by the Financial Services Authority.	√
d. A Public Company is an Issuer that has made a public offering of equity securities or a Publically-listed Company	√
e. A Sustainability Report is a report published to the public that contains the economic, financial, social, and environmental performance of a financial service institution, Issuer, and Public Company in running a sustainable business.	√
f. Board of Directors:	√
i) For an Issuer or a Public Company in the form of a limited liability company, it is the Board of Directors as referred to in the Financial Services Authority Regulation concerning the Board of Directors and Board of Commissioners of an Issuer or Public Company; and	√
ii) For an Issuer or a Public Company in the form of a legal entity other than a limited liability company, it is the body that carries out the management of the legal entity as referred to in the laws and regulations concerning the legal entity.	√
g. Board of Commissioners:	√
i) For an Issuer or a Public Company in the form of a limited liability company, the Board of Commissioners as referred to in the Financial Services Authority Regulation concerning the Board of Directors and Board of Commissioners of an Issuer or Public Company; and	√
ii) For the Issuer or Public Company in the form of a legal entity other than a limited liability company, it is the body that supervises the legal entity as referred to in the laws and regulations concerning the legal entity.	√
h. General Meeting of Shareholders hereinafter abbreviated as GMS:	√
i) For an Issuer or a Public Company in the form of a limited liability company, it is the GMS as referred to in the Financial Services Authority Regulation concerning the Planning and Organizing of the General Meeting of Shareholders of a Public Company; and	√
ii) For an Issuer or Public Company in the form of a legal entity other than a limited liability company, it is the body that has authority that is not given to any other body that carries out management and supervisory functions, within the limits specified in the legislation and/or articles of association governing the legal entity.	√
The Annual Report of Issuers or Public Companies is an important source of information for investors or shareholders as one of the basic considerations in making investment decisions and a means of supervision of Issuers or Public Companies.	√
Along with the development of the capital market and the increasing need for information disclosure by investors or shareholders, the Board of Directors and the Board of Commissioners are required to present quality, accurate, and accountable information through the Annual Reports of Issuers or Public Companies.	√
Annual Reports that are prepared regularly and informatively can provide convenience for investors or shareholders and stakeholders in obtaining the required information.	√
This Financial Services Authority Circular is a guideline for Issuers or Public Companies that must be applied in preparing Annual Reports and Sustainability Reports.	√
