

## SUMITOMO MITSUI FINANCIAL GROUP

### Consolidated Financial Statements as of and for the year ended March 31, 2024

This document contains “forward-looking statements” (as defined in the U.S. Private Securities Litigation Reform Act of 1995), regarding the intent, belief or current expectations of Sumitomo Mitsui Financial Group, Inc. (“the Company”) and its management with respect to the Company’s future financial condition and results of operations. In many cases but not all, these statements contain words such as “anticipate,” “believe,” “estimate,” “expect,” “intend,” “may,” “plan,” “probability,” “risk,” “project,” “should,” “seek,” “target,” “will” and similar expressions. Such forward-looking statements are not guarantees of future performance and involve risks and uncertainties, and actual results may differ from those expressed in or implied by such forward-looking statements contained or deemed to be contained herein. The risks and uncertainties which may affect future performance include: deterioration of Japanese and global economic conditions and financial markets; declines in the value of the Company’s securities portfolio; incurrence of significant credit-related costs; the Company’s ability to successfully implement its business strategy through its subsidiaries, affiliates and alliance partners; and exposure to new risks as the Company expands the scope of its business. Given these and other risks and uncertainties, you should not place undue reliance on forward-looking statements, which speak only as of the date of this document. The Company undertakes no obligation to update or revise any forward-looking statements. Please refer to the Company’s most recent disclosure documents such as its annual report on Form 20-F and other documents submitted to the U.S. Securities and Exchange Commission, as well as its earnings press releases, for a more detailed description of the risks and uncertainties that may affect its financial conditions, its operating results, and investors’ decisions.

## NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

### (Basis of presentation)

Sumitomo Mitsui Financial Group, Inc. (“the Company”) was established on December 2, 2002 as a holding company for the SMBC Group (“the Group”) through a statutory share transfer (*kabushiki iten*) of all of the outstanding equity securities of Sumitomo Mitsui Banking Corporation (“SMBC”) in exchange for the Company’s newly issued securities. The Company is a joint stock corporation with limited liability (*Kabushiki Kaisha*) incorporated under the Companies Act of Japan. Upon formation of the Company and completion of the statutory share transfer, SMBC became a direct wholly owned subsidiary of the Company.

The Company has prepared the accompanying consolidated financial statements in accordance with the provisions set forth in the Japanese Financial Instruments and Exchange Act and its related accounting regulations, and in conformity with accounting principles generally accepted in Japan (“Japanese GAAP”), which are different in certain respects as to application and disclosure requirements from International Financial Reporting Standards (“IFRS”).

The accounts of overseas subsidiaries and affiliated companies are, in principle, integrated with those of the Company’s accounting policies for purposes of consolidation unless they apply different accounting principles and standards as required under U.S. GAAP or IFRS, in which case a certain limited number of items are adjusted based on their materiality.

These consolidated financial statements are translated from the consolidated financial statements contained in the annual securities report filed under the Financial Instrument and Exchange Act of Japan (“FIEA based financial statements”) except for the addition of the non-consolidated financial statements and U.S. dollar figures.

Amounts less than ¥1 million have been rounded down. As a result, the totals in Japanese yen shown in the financial statements do not necessarily agree with the sum of the individual amounts.

The translation of the Japanese yen amounts into U.S. dollars is included solely for the convenience of readers outside Japan, using the prevailing exchange rate at March 31, 2024 which was ¥151.33 to US\$1. These translations should not be construed as representations that the Japanese yen amounts have been, could have been, or could in the future be, converted into U.S. dollars at that rate.

## (Significant Accounting Policies for Preparing Consolidated Financial Statements)

### 1. Scope of consolidation

#### (1) Consolidated subsidiaries

The number of consolidated subsidiaries at March 31, 2024 was 175.

Principal companies: Sumitomo Mitsui Banking Corporation (“SMBC”)  
SMBC Trust Bank Ltd.  
SMBC Nikko Securities Inc.  
Sumitomo Mitsui Card Company, Limited  
SMBC Finance Service Co., Ltd.  
SMBC Consumer Finance Co., Ltd.  
The Japan Research Institute, Limited  
Sumitomo Mitsui DS Asset Management Company, Limited  
SMBC Bank International plc  
SMBC Bank EU AG  
Sumitomo Mitsui Banking Corporation (China) Limited  
PT Bank BTPN Tbk  
SMBC Americas Holdings, Inc.  
SMBC Guarantee Co., Ltd.

Changes in the consolidated subsidiaries in the fiscal year ended March 31, 2024 were as follows:

11 companies were newly included in the scope of consolidation as a result of new establishment and for other reasons.

SMBC Mobit Co., Ltd. and NCore Co., Ltd. were excluded from the scope of consolidation because of the merger. SMBC Rail Services LLC and 17 other companies were excluded from the scope of consolidation as they ceased to be subsidiaries due to the sale and for other reasons.

NCore Co., Ltd., a consolidated subsidiary of the Company, merged with Brees corporation, an equity method affiliate of the Company, and changed its name to BPORTUS Co., Ltd. As a result of stock acquisitions, BPORTUS Co., Ltd. became a consolidated subsidiary of the Company.

#### (2) Unconsolidated subsidiaries

Principal company: SBCS Co., Ltd.

6 unconsolidated subsidiaries were investment partnerships, and neither their assets nor profit/loss were substantially attributable to the said subsidiaries, and thus were excluded from the scope of consolidation pursuant to Article 5, Paragraph 1, Item 2 of the Ordinance on the Terminology, Forms, and Preparation Methods of Consolidated Financial Statements.

Other unconsolidated subsidiaries were excluded from the scope of consolidation because their total amounts of total assets, ordinary income, net income and retained earnings were immaterial respectively, as such, they did not hinder a rational judgment of the financial position and results of operations of the Company and its consolidated subsidiaries when excluded from the scope of consolidation.

#### (3) Entities not regarded as subsidiaries even though the Company owns the majority of voting rights in its own account:

Tamago & Company Inc.  
Peraichi Inc.  
All Japan Building Inspection Group Co., Ltd.

(Reasons not regarded as subsidiaries)

The Company's consolidated subsidiary conducting investment business owned the majority of their voting rights primarily to obtain capital gains through investments or restructuring of their business, without any intent to control.

## 2. Application of the equity method

### (1) Unconsolidated subsidiaries accounted for by the equity method

The number of unconsolidated subsidiaries accounted for by the equity method at March 31, 2024 was 5.

Principal company: SBCS Co., Ltd.

### (2) Equity method affiliates

The number of affiliates accounted for by the equity method at March 31, 2024 was 312.

Principal companies: Sumitomo Mitsui Finance and Leasing Company, Limited  
Sumitomo Mitsui Auto Service Company, Limited

Changes in the equity method affiliates in the fiscal year ended March 31, 2024 were as follows:

Rizal Commercial Banking Corporation and Vietnam Prosperity Joint-Stock Commercial Bank and 33 other companies became equity method affiliates due to the acquisition of stocks and for other reasons.

26 companies were excluded from the scope of equity method affiliates as they ceased to be equity method affiliates due to the liquidation and for other reasons.

### (3) Unconsolidated subsidiaries not accounted for by the equity method

6 unconsolidated subsidiaries not accounted for by the equity method were investment partnerships, and neither their assets nor profit/loss were substantially attributable to the said subsidiaries, and thus were excluded from the scope of equity method pursuant to Article 10, Paragraph 1, Item 2 of the Ordinance on the Terminology, Forms, and Preparation Methods of Consolidated Financial Statements.

### (4) Affiliates not accounted for by the equity method

Principal company: Park Square Capital / SMBC Loan Programme S. à r. l.

Affiliates not accounted for by the equity method were also excluded from the scope of equity method because their total amounts of net income and retained earnings were immaterial respectively, as such, they did not hinder a rational judgment of the financial position and results of operations of the Company and its consolidated subsidiaries when excluded from the scope of equity method.

## 3. The balance sheet dates of consolidated subsidiaries

### (1) The balance sheet dates of the consolidated subsidiaries at March 31, 2024 were as follows:

June 30	1
September 30	1
October 31	2
November 30	2
December 31	89
March 31	80

### (2) The subsidiary with balance sheets dated June 30 is consolidated using the financial statements as of December 31, the subsidiary with balance sheets dated September 30 is consolidated using the financial statements as of March 31, the subsidiaries with balance sheets dated October 31 are consolidated using the financial statements as of January 31, and certain subsidiaries with balance sheets dated December 31 are consolidated using the financial statements as of March 31. Other subsidiaries are consolidated using the financial statements as of their respective balance sheet dates.

Appropriate adjustments are made to material transactions during the periods between their respective balance sheet dates and the consolidated closing date.

#### 4. Accounting policies

##### (1) Standards for recognition and measurement of trading assets/liabilities and trading income/losses

Transactions for trading purposes (seeking gains arising from short-term changes in interest rates, currency exchange rates, or market prices of securities and other market related indices or from variation among markets) are included in “Trading assets” or “Trading liabilities” on the consolidated balance sheets on a trade date basis. Profits and losses on trading-purpose transactions are recognized on a trade date basis, and recorded as “Trading income” and “Trading losses” on the consolidated statements of income.

Securities and monetary claims purchased for trading purposes are stated at the fiscal year-end market value, and financial derivatives such as swaps, futures and options are stated at amounts that would be settled if the transactions were terminated at the consolidated balance sheet date.

“Trading income” and “Trading losses” include interest received or paid during the fiscal year. The year-on-year valuation differences of securities and monetary claims are also recorded in the above-mentioned accounts. As for the derivatives, assuming that the settlement will be made in cash, the year-on-year valuation differences are also recorded in the above-mentioned accounts.

In terms of the evaluation of specific market risks and credit risks for derivative transactions, those fair values are calculated by group basis of the financial assets and liabilities based on net asset or liability after offsetting.

##### (2) Standards for recognition and measurement of securities

1) Debt securities that are classified as held-to-maturity securities and are carried at amortized cost (based on straight-line method) using the moving-average method. Investments in affiliates that are not accounted for by the equity method are carried at cost using the moving-average method. Other securities are carried at the fiscal year-end market value (cost of securities sold is calculated using primarily the moving-average method). Stocks with no market prices are carried at cost using the moving-average method.

Net unrealized gains (losses) on other securities are included in “Net assets” except for the amount reflected on the gains or losses by applying fair value hedge accounting.

2) Securities included in money held in trust are carried in the same method as in (1) and (2), 1) above.

##### (3) Standards for recognition and measurement of derivative transactions

Derivative transactions, excluding those classified as trading derivatives, are carried at fair value.

In terms of the evaluation of specific market risks and credit risks for derivative transactions, those fair values are calculated by group basis of the financial assets and liabilities based on net asset or liability after offsetting.

##### (4) Depreciation

###### 1) Tangible fixed assets (excluding assets for rent and lease assets)

Buildings owned by the Company and SMBC, which is a consolidated subsidiary of the Company, are depreciated primarily using the straight-line method.

The estimated useful lives of major items are as follows:

Buildings: 7 to 50 years  
Others: 2 to 20 years

Other consolidated subsidiaries depreciate tangible fixed assets primarily using the straight-line method over the estimated useful lives of the respective assets.

## 2) Intangible fixed assets

Intangible fixed assets are depreciated using the straight-line method. Capitalized software for internal use owned by the Company and its consolidated domestic subsidiaries is depreciated over its estimated useful life (5-10 years).

## 3) Assets for rent

Assets for rent are depreciated using the straight-line method, assuming that lease terms or useful lives of such assets are, in principle, their depreciation period and the salvage values are estimated disposal values when the lease period expires.

## 4) Lease assets

Lease assets with respect to non-transfer ownership finance leases, which are recorded in “Tangible fixed assets,” are depreciated using the straight-line method, assuming that lease terms are their expected lifetime and salvage values are zero.

## (5) Reserve for possible loan losses

The reserve for possible loan losses of major consolidated subsidiaries is provided as detailed below in accordance with the internal standards for write-offs and provisions.

For claims on borrowers that have entered into bankruptcy, special liquidation proceedings or similar legal proceedings (“Bankrupt borrowers”) or borrowers that are not legally or formally insolvent but are regarded as substantially in the same situation (“Effectively bankrupt borrowers”), a reserve is provided based on the amount of claims, after the write-off stated below, net of the expected amount of recoveries from collateral and guarantees. For claims on borrowers that are not currently bankrupt but are perceived to have a high risk of falling into bankruptcy (“Potentially bankrupt borrowers”), a reserve is provided in the amount deemed necessary based on an overall solvency assessment of the claims, net of the expected amount of recoveries from collateral and guarantees.

SMBC, which is a consolidated subsidiary of the Company, applies Discounted Cash Flows (“DCF”) method for claims of large borrowers exceeding a certain amount, of which borrowers categories are bankrupt borrowers, effectively bankrupt borrowers and potentially bankrupt borrowers and whole or part of loans are classified as “Past due loans (3 months or more)” or “Restructured loans” requiring close monitoring, and whose cash flows from collection of principals and interest can be rationally estimated. SMBC establishes a reserve for possible loan losses using the DCF method for such claims in the amount of the difference between the present value of principal and interest (calculated using the rationally estimated cash flows discounted at the initial contractual interest rate) and the book value.

For other claims, they are recorded by estimating the amount of expected loss in the next one year or three years. The estimated amount of expected loss is calculated by using average ratio of loan-loss ratio or probability of bankruptcies for certain periods in the past based on actual loan losses or bankruptcies in the past one year or three years, and by making necessary adjustments including future estimations.

In addition, in light of the latest economic situation and risk factors, for potential losses for specific portfolios that are based on the future prospects with high probability, but cannot be reflected in actual loan losses in the past and in any individual borrower’s classification, a reserve is provided in the amount deemed necessary based on an overall assessment.

For claims originated in specific overseas countries, an additional reserve is provided in the amount deemed necessary based on the assessment of political and economic conditions.

Branches and credit supervision departments assess all claims in accordance with the internal rules for self-assessment of assets, and the Credit Review Department, independent from these operating sections, audits their assessment.

The reserve for possible loan losses of the Company and other consolidated subsidiaries for general claims is provided in the amount deemed necessary based on the historical loan-loss ratios, and for doubtful claims in the amount deemed uncollectible based on assessment of each claim.

For collateralized or guaranteed claims on bankrupt borrowers and effectively bankrupt borrowers, the amount exceeding the estimated value of collateral and guarantees is deemed to be uncollectible and written off against the total outstanding amount of the claims. The amount of write-off for the fiscal years ended March 31, 2023 and 2024 were ¥161,492 million and ¥250,841 million, respectively.

(6) Reserve for employee bonuses

The reserve for employee bonuses is provided for payment of bonuses to employees, in the amount of estimated bonuses, which are attributable to the fiscal year.

(7) Reserve for executive bonuses

The reserve for executive bonuses is provided for payment of bonuses to executives, in the amount of estimated bonuses, which are attributable to the fiscal year.

(8) Reserve for executive retirement benefits

The reserve for executive retirement benefits is provided for payment of retirement benefits to executives, in the amount of deemed accrued at the period-end based on our internal regulations.

(9) Reserve for point service program

The reserve for point service program is provided for the potential future redemption of points awarded to customers under the “V Point” which is the Group-wide point service program, and other customer points award programs. The amount is calculated by converting the outstanding points into a monetary amount, and rationally estimating and recognizing the amount that will be redeemed in the future.

(10) Reserve for reimbursement of deposits

The reserve for reimbursement of deposits which were derecognized as liabilities under certain conditions is provided for the possible losses on the future claims of withdrawal based on the historical reimbursements.

(11) Reserve for losses on interest repayment

The reserve for losses on interest repayment is provided for the possible losses on future claims of repayment of interest based on historical interest repayment results.

(12) Reserves under the special laws

The reserves under the special laws are reserves for contingent liabilities and provided for compensation for losses from securities related transactions or derivative transactions, pursuant to Article 46-5 of the Financial Instruments and Exchange Act.

(13) Employee retirement benefits

In calculating the projected benefit obligation, mainly the benefit formula basis is used to attribute the expected benefit to the period by the end of the fiscal year.

Unrecognized prior service cost is amortized on a straight-line basis, primarily over 9 years within the employees' average remaining service period when the cost is incurred.

Unrecognized net actuarial gain (loss) is amortized on a straight-line basis, primarily over 9 years within the employees' average remaining service period, commencing from the next fiscal year of incurrence.

#### (14) Revenue recognition

##### 1) Revenue recognition

Revenue from contracts with customers is recognized by identifying the satisfaction of performance obligation of each of the transactions based on the actual transaction of the contractual coverage.

##### 2) Revenue recognition of major transactions

Regarding revenue from contracts with customers, the contractual coverage and timing of identifying the satisfaction of performance obligation of each item of fees and commissions are determined as follows.

Revenue for deposits and loans, mainly including the commission fees, etc. for account transfer and commissions for administration fee during the loan period of syndicated loans, is recognized when the transaction starts with the customer or over the period of the transaction of the related services.

Revenue for remittances and transfers, mainly including the fees for domestic and overseas remittances, is recognized when the related services are provided.

Revenue for securities-related business, mainly including trading commissions such as sales commissions of stocks and bonds, is recognized when the transaction starts with the customer.

Revenue for agency business, mainly including the accepted commissions between banks for online alliances, etc., is recognized when the transaction starts with the customer or over the period of the transaction of the related service.

Revenue for safe deposits, mainly including storage fees for safekeeping deposit and usage fees of safes and protective boxes, is recognized over the period of the transaction of the related service.

Revenue for credit card business, mainly including merchant fees, is recognized when the credit sales data arrives.

Revenue for investment trusts, mainly including the commissions for processing sales and records management of investment trusts, etc., is recognized when the transaction starts with the customer or over the period of the transaction of the related service.

#### (15) Translation of foreign currency assets and liabilities

Assets and liabilities of the Company and SMBC, which is a consolidated subsidiary of the Company, denominated in foreign currencies and accounts of SMBC overseas branches are translated into Japanese yen mainly at the exchange rate prevailing at the consolidated balance sheet date, with the exception of stocks of subsidiaries and affiliates translated at rates prevailing at the time of acquisition.

Other consolidated subsidiaries' assets and liabilities denominated in foreign currencies are translated into Japanese yen at the exchange rate prevailing at their respective balance sheet dates.

#### (16) Lease transactions

##### 1) Recognition of income on finance leases

Interest income is allocated to each period.

##### 2) Recognition of income on operating leases

Primarily, lease-related income is recognized on a straight-line basis over the full term of the lease, based on the contractual amount of lease fees per month.

## (17) Hedge accounting

### 1) Hedging against interest rate changes

As for the hedge accounting method applied to hedging transactions for interest rate risk arising from financial assets and liabilities, SMBC, which is a consolidated subsidiary of the Company, applies deferred hedge accounting.

SMBC applies deferred hedge accounting stipulated in “Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry” (JICPA Industry Committee Practical Guideline No. 24, March 17, 2022) to portfolio hedges on groups of large-volume, small-value monetary claims and debts.

As for the portfolio hedges to offset market fluctuation, SMBC assesses the effectiveness of such hedges by classifying the hedged items (such as deposits and loans) and the hedging instruments (such as interest rate swaps) by their maturity. As for the portfolio hedges to fix cash flows, SMBC assesses the effectiveness of such hedges by verifying the correlation between the hedged items and the hedging instruments.

As for the individual hedges, SMBC also assesses the effectiveness of such individual hedges.

### 2) Hedging against currency fluctuations

SMBC, which is a consolidated subsidiary of the Company, applies deferred hedge accounting stipulated in “Treatment of Accounting and Auditing Concerning Accounting for Foreign Currency Transactions in Banking Industry” (JICPA Industry Committee Practical Guideline No. 25, October 8, 2020) to currency swap and foreign exchange swap transactions executed for the purpose of lending or borrowing funds in different currencies.

Pursuant to JICPA Industry Committee Practical Guideline No. 25, SMBC assesses the effectiveness of currency swap and foreign exchange swap transactions executed for the purpose of offsetting the risk of changes in currency exchange rates by verifying that there are foreign-currency monetary claims and debts corresponding to the foreign-currency positions.

In order to hedge risk arising from volatility of exchange rates for stocks of subsidiaries and affiliates and other securities (excluding bonds) denominated in foreign currencies, SMBC applies deferred hedge accounting or fair value hedge accounting, on the conditions that the hedged securities are designated in advance and that sufficient on-balance (actual) or off-balance (forward) liability exposure exists to cover the cost of the hedged securities denominated in the same foreign currencies.

### 3) Hedging against share price fluctuations

SMBC, which is a consolidated subsidiary, applies fair value hedge accounting to individual hedges offsetting the price fluctuation of the shares that are classified under other securities, and accordingly evaluates the effectiveness of such individual hedges.

### 4) Transactions between consolidated subsidiaries

As for derivative transactions between consolidated subsidiaries or internal transactions between trading accounts and other accounts (or among internal sections), SMBC manages the interest rate swaps and currency swaps that are designated as hedging instruments in accordance with the non-arbitrary and strict criteria for external transactions stipulated in JICPA Industry Committee Practical Guidelines No. 24 and No. 25. Therefore, SMBC accounts for the gains or losses that arise from interest rate swaps and currency swaps in its earnings or defers them, rather than eliminating them.

Certain other consolidated subsidiaries apply the deferred hedge accounting, fair value hedge accounting or the special treatment for interest rate swaps.

(18) Amortization of goodwill

Goodwill is amortized using the straight-line method over a period in which its benefit is expected to be realized, not to exceed 20 years. Immaterial goodwill is charged or credited to income directly when incurred.

(19) Scope of “Cash and cash equivalents” on consolidated statements of cash flows

For the purpose of presenting the consolidated statements of cash flows, “Cash and cash equivalents” are cash on hand, non-interest earning deposits with banks and deposits with the Bank of Japan.

(20) Adoption of the group tax sharing system

The Company and certain consolidated domestic subsidiaries apply the group tax sharing system.

## (Significant Accounting Estimates)

### 1. Reserve for possible loan losses

(1) The amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2023 and 2024

<u>Year ended March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Reserve for possible loan losses	¥ 750,369	¥ 817,578

(2) Information on details of the significant accounting estimates for the identified item

Based on the assessment of all claims including loans and bills discounted conducted in accordance with the self-assessment procedures, and borrower category determined depending on their credit risk status, the following amounts are recorded as a reserve for possible loan losses.

- The estimated amount of expected loss calculated for each borrower category based on the average value of historical loan-loss ratio or probability of default over a certain past period is recorded as a reserve for loan losses

- As for claims classified as substandard or lower level classifications whose cash flows from collection of principals and interest can rationally be estimated, the Discounted Cash Flows (“DCF”) method is applied for ones with large borrowers of those claims and the amount calculated by the DCF method is recorded as a reserve for loan losses

- As for expected loss based on the future prospects with high probability, but cannot be reflected in historical loan-losses and in any individual borrower category, the amount deemed necessary based on an overall assessment is recorded as a reserve for loan losses

Reserve for possible loan losses recorded by the method above involves the following uncertainties in the process of estimation, hence requiring high-level managerial judgment.

- Consideration for qualitative factors including forward-looking information in determining borrower category

- Reasonable estimation of future individual cash flows in the DCF method

- Determination of a method for estimating expected loss based on future prospect in consideration of the latest economic environment and risk factors, and of the targeted portfolio

These may be affected by changes in economic environment, which have a potentially significant impact on the amount of reserve for possible loan losses for the next fiscal year.

(Note) For the estimation of the reserve for possible loan losses in consideration of the impact of the current international situation involving Ukraine, the impact of the tightening monetary policies overseas, and the changes in domestic business environment and other factors, refer to (Additional Information).

## 2. Impairment loss for fixed assets

(1) The amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2023 and 2024

<b>Year ended March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Tangible fixed assets	¥ 1,494,527	¥ 1,006,883
Intangible fixed assets	897,848	976,706
Losses on impairment of fixed assets	59,045	13,696

(2) Information on details of the significant accounting estimates for the identified item

(Grouping of assets)

As for land and buildings, etc., at SMBC, a consolidated subsidiary of the Company, a branch is the smallest unit of asset group, and intangible fixed assets and assets of Head Office, etc. which do not produce independent cash flows are treated as corporate assets. Corporate assets that are reasonably deemed to be used solely by each business unit are identified as each business unit's corporate assets, and conducted impairment assessments on a business unit basis together with other related fixed assets. As for other corporate assets, impairment is recognized on a company level.

(Identifying indication of impairment, and testing and calculating recognition of impairment loss)

Fixed assets that have an indication of impairment are tested for recognition of impairment loss, and if recognition is required, their book values are reduced to the recoverable amount and the reduced amount is recorded as impairment loss. Recoverable amount is either net realizable value, which is deducting expected disposal cost from fair value of the fixed asset, or value in use which is the present value of cash flows expected to derive from the continuous use and disposal of the fixed asset after use.

Future cash flows and the growth rate used for testing the recognition of impairment loss as well as for calculating value in use are determined based on the factors including the estimation or judgment by management and the market growth rate, etc. Discount rate used for calculating value in use is determined based on the market interest rate and other market conditions, and these may be affected by changes in economic and financial environment. Therefore, if modification is required, it may have a potentially significant impact on the amount of impairment loss for fixed assets for the next fiscal year.

## 3. Fair value of financial instruments

(1) The amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2024

This is stated in (Notes to financial instruments).

(2) Information on details of the significant accounting estimates for the identified item

This is stated in (Notes to financial instruments).

#### 4. Reserve for losses on interest repayment

(1) The amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2023 and 2024

<u>Year ended March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Reserve for losses on interest repayment	¥ 128,378	¥ 121,947

(2) Information on details of the significant accounting estimates for the identified item

Reserve for losses on interest repayment is recorded based on estimated amount of claim of repayment in preparing for future claims of interest repayment from the customers whose loans are offered at interest rates in excess of the ceiling prescribed under the Interest Rate Restriction Act.

Estimated amount of claim for such repayment is calculated based on certain assumptions using the historical data regarding the number and amount of claims from customers. The trend in future claims of repayment from customers has a potentially significant impact on the amount of reserve for losses on interest repayment for the next fiscal year.

#### 5. Retirement benefits expenses and retirement benefit obligations

(1) The amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2023 and 2024

<u>Year ended March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Net defined benefit asset	¥ 704,654	¥ 913,791
Net defined benefit liability	35,449	37,263
Retirement benefit expenses included in general and administrative expenses	(17,910)	(8,728)

(2) Information on details of the significant accounting estimates for the identified item

Retirement benefit expenses and retirement benefit obligations for the defined benefit plans for employees are recorded based on various assumptions including discount rate, employee turnover and future salary increase rate.

Discount rate is determined based on Japanese government bond yields, while the indicators such as employee turnover and future salary increase rate are determined based on historical data as well as the latest information on future outlook. Determining these key factors and metrics requires high-level managerial judgment, and if modifications are required, it may have significant impact on the amounts of retirement benefit expenses and retirement benefit obligations for the next fiscal year.

## 6. Deferred tax assets

(1) The amount recorded in the consolidated financial statements for the fiscal year ended March 31, 2023 and 2024

<b>Year ended March 31</b>	<b>Millions of yen</b>			
	<b>2023</b>		<b>2024</b>	
Deferred tax assets	¥	74,084	¥	71,427
Deferred tax liabilities		265,354		698,632

(2) Information on details of the significant accounting estimates for the identified item

The amount of tax associated with temporary differences is recorded as deferred tax assets or deferred tax liabilities excluding the amount of tax that is not expected to be collected or paid in the future accounting periods. Deferred tax assets and deferred tax liabilities of the entire group tax sharing entities are offset and presented on a net basis.

While the recoverability of deferred tax assets is determined by reasonably estimating the scheduling of temporary differences and taxable income, in the event of changes to the scheduling of temporary differences, taxable income which is lower than initial estimation, or tax reform such as reduction of corporate income tax rate, there is a potentially significant impact on the amount of deferred tax assets for the next fiscal year.

## **(Unapplied Accounting Standards and Others)**

1. "Accounting Standard for Current Income Taxes" (ASBJ Statement No.27, October 28, 2022), "Accounting Standard for Presentation of Comprehensive Income" (ASBJ Statement No.25, October 28, 2022) and "Implementation Guidance on Tax Effect Accounting" (ASBJ Guidance No.28, October 28, 2022)

### **(1) Outline**

The Accounting Standards and the Implementation Guidance define the treatment of corporate income tax etc. imposed on other comprehensive income and the tax effect accounting for sales of stocks of consolidated subsidiaries in case of implementing the group taxation regime.

### **(2) Date of Application**

The Company will apply the Accounting Standards and the Implementation Guidance from the beginning of the fiscal year commencing on April 1, 2024.

### **(3) Effects of Application of the Accounting Standards and the Implementation Guidance**

The effects of the application of the Accounting Standards and the Implementation Guidance are currently being assessed.

2. "The Accounting for and Disclosure of Current Taxes Related to the Global Minimum Tax Rules" (ASBJ Practical Solution No.46, March 22, 2024)

### **(1) Outline**

The Practical Solution defines the accounting for and disclosure of current taxes related to the global minimum tax rules.

### **(2) Date of Application**

The Company will apply the Practical Solution from the beginning of the fiscal year commencing on April 1, 2024.

### **(3) Effects of Application of the Practical Solution**

The effects of the application of the Practical Solution are currently being assessed.

## **(Additional information)**

1. The estimates of reserve for possible loan losses related to the impact of the current international situation involving Ukraine.

Considering the uncertain business environment caused by the current international situation involving Ukraine, estimation of the reserve for possible loan losses associated with the Russia-related credits is reflected in the consolidated financial statements by the following method. The Russia-related credits are mainly related to corporate customers in Russia.

For losses expected to be incurred in connection with individual borrowers based on the impact of economic sanctions imposed by governments of each country and the countermeasures taken by the Russian government, etc., a reserve for possible loan losses is provided by reviewing, as necessary, borrower categories based on the most recent available information. In addition, a reserve for possible loan losses is recorded as a reserve for claims originated in specific overseas countries at an amount deemed necessary in consideration of the political and economic situation in Russia.

Furthermore, in light of the probability of delays in principal or interest payments and the easing of payment terms, etc. due to the prolonged impact of such economic sanctions and countermeasures, and the deterioration in the credit status of Russia including interest payments on Russian government bonds, a reserve for possible loan losses is recorded at an amount deemed necessary based on an overall assessment.

Also, regarding certain funds of repayment from customers in Russia, given the prolonged difficulty in collecting the funds through overseas remittances as a result of the Russian Presidential decree and instructions of the Central Bank of the Russian Federation, the impact of the countermeasure is estimated, and a reserve for possible loan losses is recorded at an amount deemed necessary based on an overall assessment.

As a result, a reserve for possible loan losses at a total of ¥85,553 million was recorded for the Russia-related credits.

2. The estimates of reserve for possible loan losses related to the impact of the tightening monetary policies overseas

Considering the increasing burden of interest payments for companies due to tightening monetary policies in various countries following suppressed inflationary pressures overseas, the estimation of the reserve for possible loan losses associated with such impact is reflected in the consolidated financial statements by the following method.

For potential losses expected to be incurred related to individual borrowers due to deteriorating business performance and funding, a reserve for possible loan losses is provided by reviewing, as necessary, borrower category based on the most recent available information.

In addition, for potential losses which cannot be reflected in any of individual borrower category, a reserve for possible loan losses is recorded at an amount deemed necessary based on an overall assessment. The assessment includes specifying the portfolios that are considered to be easily affected by the abovementioned factors from perspectives of the forms of lending and industry, and estimating the impact of changes in the market condition and the rising interest rates.

As a result, an additional reserve for possible loan losses at a total of ¥32,000 million was recorded for such portfolios.

3. The estimates of reserve for possible loan losses in consideration of changes in domestic business environment and other factors

For certain portfolios, the estimation of the reserve for possible loan losses associated with impacts including changes in the domestic business environment such as continuously inflated raw material prices and an increase in labor cost, along with changes in the financial environment such as cutback of the governmental funding support to businesses and lifting of negative interest rate policy, is reflected in the consolidated financial statements by the following method, considering concerns over the future deterioration in credit conditions.

For potential losses expected to be incurred related to individual borrowers due to deterioration in business performance and funding, a reserve for possible loan losses is provided by reviewing, as necessary, borrower category based on the most recent available information.

In addition, for potential losses which cannot be reflected in any of individual borrower category, a reserve for possible loan losses is recorded at an amount deemed necessary based on an overall assessment. The assessment includes specifying the portfolios that are considered to be easily affected by the abovementioned factors from perspectives of the forms of lending and ability of debt repayment, and estimating the impact of changes in the market condition.

As a result, an additional reserve for possible loan losses at a total of ¥16,000 million was recorded for such portfolios.

(Notes to consolidated balance sheets)

**\*1 Stocks and investments in unconsolidated subsidiaries and affiliates**

Stocks and investments in unconsolidated subsidiaries and affiliates at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	Millions of yen	
	2023	2024
Stocks	¥ 1,348,039	¥ 1,758,625
Investments	595	5,878

Stocks of jointly controlled entities were as follows:

<u>March 31</u>	Millions of yen	
	2023	2024
Stocks of jointly controlled entities	¥ 466,974	¥ 535,855

**\*2 Unsecured loaned securities for which borrowers have the right to sell or pledge**

The amounts of unsecured loaned securities for which borrowers have the right to sell or pledge at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	Millions of yen	
	2023	2024
Japanese government bonds and Japanese local government bonds in "Securities"	¥ 468,390	¥ 836,386
Trading securities in "Trading assets"	136	9,452

As for the unsecured borrowed securities, securities under resale agreements and securities borrowed with cash collateral with rights to sell or pledge without restrictions, those securities pledged, those securities lent and those securities held without being disposed at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	Millions of yen	
	2023	2024
Securities pledged	¥ 7,694,727	¥ 9,174,753
Securities lent	242,392	219,261
Securities held without being disposed	4,482,661	6,891,140

### \*3 Claims under the Banking Act and the Act on Emergency Measures for the Revitalization of Financial Functions

Claims under the Banking Act and the Act on Emergency Measures for the Revitalization of Financial Functions at March 31, 2023 and 2024 were as follows. The claims were items that were recorded under the following items on the consolidated balance sheet: bonds included in “Securities” (limited to bonds for which the redemption of principal and the payment of interest in whole or in part were guaranteed, and that were issued through private placements (under Article 2, Paragraph 3 of the Financial Instruments and Exchange Act)), loans and bills discounted, foreign exchanges, accrued interest and suspense payments included in “Other assets,” and customers’ liabilities for acceptances and guarantees. If security lending listed in the notes was conducted, such securities (limited to those based on loan for a use agreement or lease agreement) were also included in the claims.

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Bankrupt and quasi-bankrupt loans	¥ 92,941	¥ 160,186
Doubtful loans	494,158	562,626
Substandard loans	340,732	300,322
Past due loans (3 months or more)	19,944	58,365
Restructured loans	320,788	241,957
Subtotal	927,833	1,023,135
Normal loans	115,139,286	125,031,630
Total	¥ 116,067,120	¥ 126,054,765

Bankrupt and quasi-bankrupt loans are claims to borrowers who have fallen into bankruptcy due to reasons such as commencement of bankruptcy proceedings, commencement of reorganization proceedings, or petition for commencement of rehabilitation proceedings, and other similar claims.

Doubtful loans are claims to borrowers who have not yet become bankrupt but whose financial condition and business performance have deteriorated and it is highly probable that the loan principal cannot be collected and interest cannot be received in accordance with the contract, excluding bankrupt and quasi-bankrupt loans.

Past due loans (3 months or more) are loans for which the payment of principal or interest has been delayed for three months or more from the day after the agreed-upon payment date, excluding bankrupt and quasi-bankrupt loans and doubtful loans.

Restructured loans are loans on which terms and conditions have been amended in favor of the borrower with the objective of assisting the borrower’s financial recovery, such as by reducing or exempting interest, postponing interest payment and principal repayment, and forgiving debts, excluding bankrupt and quasi-bankrupt loans, doubtful loans, and past due loans (3 months or more).

Normal loans are loans that do not fall under the classification of bankrupt and quasi-bankrupt loans, doubtful loans, past due loans (3 months or more), and restructured loans, and where the borrower has no financial or business performance problems.

The amounts of loans presented above were the amounts before deduction of reserve for possible loan losses.

#### \*4 Bills discounted

Bills discounted are accounted for as financial transactions in accordance with JICPA Industry Committee Practical Guideline No. 24. SMBC and its banking subsidiaries have rights to sell or pledge bank acceptance bought, commercial bills discounted, documentary bills and foreign exchanges bought without restrictions, etc. The total face value at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Bills discounted	¥ 822,762	¥ 847,887

#### \*5 Assets pledged as collateral

Assets pledged as collateral at March 31, 2023 and 2024 were as follows:

<u>March 31, 2023</u>	<u>Millions of yen</u>	<u>March 31, 2024</u>	<u>Millions of yen</u>
Assets pledged as collateral:		Assets pledged as collateral:	
Cash and due from banks	¥ 13,171	Cash and due from banks	¥ 3,725
Trading assets	1,058,908	Trading assets	1,751,730
Securities	12,418,536	Securities	13,317,016
Loans and bills discounted	12,481,327	Loans and bills discounted	12,297,548
Liabilities corresponding to assets pledged as collateral:		Liabilities corresponding to assets pledged as collateral:	
Deposits	2,654	Deposits	2,836
Payables under repurchase agreements	10,326,742	Payables under repurchase agreements	11,821,596
Payables under securities lending transactions	768,189	Payables under securities lending transactions	908,165
Borrowed money	11,166,368	Borrowed money	11,980,954
Bonds	119,378	Bonds	792,677
Due to trust account	717,178		

In addition to the assets presented above, the following assets were pledged as collateral for cash settlements, and substitution for margins of futures transactions and certain other purposes at March 31, 2023 and 2024:

<u>March 31, 2023</u>	<u>Millions of yen</u>	<u>March 31, 2024</u>	<u>Millions of yen</u>
Cash and due from banks	¥ 15,264	Cash and due from banks	¥ 17,253
Trading assets	1,568,123	Trading assets	1,129,265
Securities	5,149,925	Securities	4,717,168
Loans and bills discounted	21,015	Loans and bills discounted	101,005

Other assets include collateral money deposited for financial instruments, surety deposits, margins of futures markets and other margins. The amounts for such assets were as follows:

<u>March 31, 2023</u>	<u>Millions of yen</u>	<u>March 31, 2024</u>	<u>Millions of yen</u>
Collateral money deposited for financial instruments	¥ 3,072,386	Collateral money deposited for financial instruments	¥ 2,986,049
Surety deposits	75,553	Surety deposits	76,111
Margins of futures markets	68,266	Margins of futures markets	80,522
Other margins	101,637	Other margins	82,434

## \*6 Commitment line contracts on overdrafts and loans

Commitment line contracts on overdrafts and loans are agreements to lend to customers, up to a prescribed amount, as long as there is no violation of any condition established in the contracts. The amounts of unused commitments at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
The amounts of unused commitments	¥ 78,489,500	¥ 88,318,177
The amounts of unused commitments whose original contract terms are within 1 year or unconditionally cancelable at any time	51,277,207	56,229,104

Since many of these commitments are expected to expire without being drawn upon, the total amount of unused commitments does not necessarily affect actual future cash flow. Many of these commitments include clauses under which an application from customers can be rejected or contract amounts can be reduced in the event that economic conditions change, necessity for securing claims, or other events occur. In addition, at the time of contract, collateral such as premises and securities are requested to be pledged. Also after concluding the contracts, customer's financial positions are monitored regularly based on internal procedures, and necessary measures such as revising contracts and securing claims are taken when such needs arise.

## \*7 Land revaluation excess

SMBC, a consolidated subsidiary of the Company, revaluated its own land for business activities in accordance with "Act on Revaluation of Land" (the "Act") (Act No. 34, effective March 31, 1998) and "Act for Partial Revision of Act on Revaluation of Land" (Act No. 19, effective March 31, 2001). The income taxes corresponding to the net unrealized gains are reported in "Liabilities" as "Deferred tax liabilities for land revaluation," and the Company's share of the net unrealized gains, net of deferred taxes, are reported as "Land revaluation excess" in "Net assets."

Date of the revaluation

March 31, 1998 and March 31, 2002

Method of revaluation (stipulated in Article 3, Paragraph 3 of the Act)

Fair values were determined by applying appropriate adjustments for land shape and timing of appraisal to the values stipulated in Article 2, item 3, 4 or 5 of "Order for Enforcement of Act on Revaluation of Land" (Cabinet Order No. 119 effective March 31, 1998).

## \*8 Accumulated depreciation on tangible fixed assets

Accumulated depreciation on tangible fixed assets at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Accumulated depreciation	¥ 958,659	¥ 864,459

## \*9 Deferred gain on tangible fixed assets deductible for tax purposes

Deferred gain on tangible fixed assets deductible for tax purposes at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Deferred gain on tangible fixed assets deductible for tax purposes	¥ 55,240	¥ 54,868
[The consolidated fiscal year concerned]	[149]	[—]

### \*10 Subordinated borrowings

The balance of subordinated borrowings included in “Borrowed money” at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Subordinated borrowings	¥ 196,000	¥ 176,000

### \*11 Subordinated bonds

The balance of subordinated bonds included in “Bonds” at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Subordinated bonds	¥ 1,935,479	¥ 2,970,589

### \*12 Borrowings from trust account in relation to covered bonds issued by trust account

The amounts of borrowings from trust account in relation to covered bonds issued by trust account included in “Due to trust account” at March 31, 2023 and 2024 were as follows. The trust account became a consolidated subsidiary of the Company in the fiscal year ended March 31, 2024. As a result, the amount of the borrowings from the trust account was included in “Bonds” in the fiscal year ended March 31, 2024.

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
The amounts of borrowings from trust account in relation to covered bonds issued by trust account	¥ 717,178	¥ —

### \*13 Guaranteed amount to privately-placed bonds

The amounts guaranteed by banking subsidiaries to privately-placed bonds (stipulated by Article 2, Paragraph 3 of Financial Instruments and Exchange Act) in “Securities” at March 31, 2023 and 2024 were as follows:

<u>March 31</u>	<u>Millions of yen</u>	
	<u>2023</u>	<u>2024</u>
Guaranteed amounts to privately-placed bonds	¥ 1,306,809	¥ 1,200,133

## (Notes to consolidated statements of income)

### \*1 Other income

“Other” in “Other income” for the fiscal years ended March 31, 2023 and 2024 included the following:

<u>Year ended March 31, 2023</u>	<u>Millions of yen</u>	<u>Year ended March 31, 2024</u>	<u>Millions of yen</u>
Gains on sales of stocks and others	¥ 213,106	Gains on sales of stocks and others	¥ 318,534

### \*2 General and administrative expenses

“General and administrative expenses” for the fiscal years ended March 31, 2023 and 2024 included the following:

<u>Year ended March 31, 2023</u>	<u>Millions of yen</u>	<u>Year ended March 31, 2024</u>	<u>Millions of yen</u>
Salaries and related expenses	¥ 749,849	Salaries and related expenses	¥ 835,932
Depreciation	195,530		

### \*3 Other expenses

“Other” in “Other expenses” for the fiscal years ended March 31, 2023 and 2024 included the following:

<u>Year ended March 31, 2023</u>	<u>Millions of yen</u>	<u>Year ended March 31, 2024</u>	<u>Millions of yen</u>
Write-off of loans	¥ 101,161	Write-off of loans	¥ 143,718
Losses on sale of delinquent loans	35,400		
Losses on sales of stocks and others	30,622		

### \*4 Other extraordinary gains

“Other extraordinary gains” for the fiscal year ended March 31, 2024 was gains on step acquisitions.

### \*5 Other extraordinary losses

“Other extraordinary losses” for the fiscal year ended March 31, 2024 was losses related to sale of freight car leasing business.

### \*6 Losses on impairment of fixed assets

The differences between the recoverable amounts and the book value of the following assets were recognized as “Losses on impairment of fixed assets,” and included in “Extraordinary losses” for the fiscal years ended March 31, 2023 and 2024.

<u>Year ended March 31, 2023</u>			<u>Millions of yen</u>
<u>Area</u>	<u>Purpose of use</u>	<u>Type</u>	<u>Impairment loss</u>
Tokyo metropolitan area	Idle assets (126 items)	Land and buildings, etc.	¥ 13,818
Kinki area	Idle assets (99 items)	Land and buildings, etc.	18,178
Other areas in Japan	Idle assets (22 items)	Land and buildings, etc.	1,228
—	—	Software, etc.	6,642
—	—	Goodwill and other intangible fixed assets	19,178

<u>Year ended March 31, 2024</u>			<u>Millions of yen</u>	
<u>Area</u>	<u>Purpose of use</u>	<u>Type</u>	<u>Impairment loss</u>	
Tokyo metropolitan area	Idle assets (66 items)	Land and buildings, etc.	¥	1,387
Kinki area	Idle assets (34 items)	Land and buildings, etc.		620
Other areas in Japan	Branches (5 items)	Land and buildings, etc.		35
	Idle assets (22 items)			350
Americas	Idle assets (1 item)	Buildings, etc.		1,674
—	—	Other intangible fixed assets, etc.		9,627

As for land and buildings, etc., each branch, which continuously manages and determines its income and expenses, is the smallest unit of asset group for recognition and measurement of impairment loss of fixed assets. Intangible fixed assets and assets such as corporate headquarters facilities, training facilities, data and system centers, and health and recreational facilities which do not produce independent cash flows are treated as corporate assets. Some subsidiaries such as SMBC, a consolidated subsidiary of the Company, utilized management accounting framework to identify corporate assets that are reasonably deemed to be used solely by each business unit as each business unit's corporate assets, and conducted impairment assessments on a business unit basis together with other related fixed assets.

As for idle assets, each individual property is treated as an asset group for recognition and measurement of impairment. The carrying amounts of idle assets are reduced to their recoverable amounts, and the decreased amounts are included in "Extraordinary losses" as "Losses on impairment of fixed assets," if there are indicators that the invested amounts may not be recoverable. The recoverable amount is calculated using net realizable value, which is basically determined by subtracting the expected disposal cost from the real estate appraisal value. In the fiscal year ended March 31, 2023, at SMBC, certain branches were expected to be relocated due to the revision of domestic marketing framework under the next Medium-Term Management Plan. Therefore, the carrying amounts of such branches were reduced to their recoverable amounts, and the decreased amounts were included in "Extraordinary losses" as "Losses on impairment of fixed assets."

As for goodwill and other intangible fixed assets, asset group for recognition and measurement of impairment loss is mainly each consolidated subsidiary. In the fiscal year ended March 31, 2023, at TT International Asset Management Ltd, a consolidated subsidiary of the Company, the carrying amounts of goodwill and other intangible fixed assets were no longer expected to recover, as a result of a review of future cash flows in light of the current uncertain market environment. Therefore, all the unamortized amounts for those goodwill and other intangible fixed assets at the end of the fiscal year ended March 31, 2023 were included in "Extraordinary losses" as "Losses on impairment of fixed assets." The recoverable amount was measured by value in use, which was calculated by discounting future cash flows at a rate of 14%.

(Notes to consolidated statements of comprehensive income)

(Notes to consolidated statements of cash flows)

**\*1 The reconciliation of balance of “Cash and cash equivalents” at the end of the fiscal year and the amounts of items stated on the consolidated balance sheets**

<b>Year ended March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Cash and due from banks	¥ 75,913,960	¥ 78,143,100
Interest earning deposits with banks (excluding the deposit with the Bank of Japan)	(10,049,711)	(11,762,770)
Cash and cash equivalents	¥ 65,864,248	¥ 66,380,330

**\*2 The major components of assets and liabilities of companies which were excluded from the scope of consolidation by sale of the shares**

SMBC Americas Holdings, Inc., a consolidated subsidiary of the company, sold the entire interest in SMBC Rail Services LLC (“SMBC RS”) to ITE Management LP (“ITE”). As a result, SMBC RS was no longer a consolidated subsidiary and its main breakdown of assets and liabilities, as well as the relationship between the sale price of the interest and the income from the sale were as follows.

<b>Year ended March 31, 2024</b>	<b>Millions of yen</b>
Assets	¥ 464,501
Liabilities	(385,185)
Gains (losses) on sale of shares, etc.	4,568
Selling price of shares	83,884
Accounts receivable	(8,456)
Cash and cash equivalents included in disposed assets of SMBC RS	(3,387)
Income from sale of shares	¥ 72,040

## (Notes to lease transactions)

### 1. Finance leases

#### (1) Lessee side

##### 1) Lease assets

###### (a) Tangible fixed assets

Tangible fixed assets mainly consisted of branches and equipment.

###### (b) Intangible fixed assets

Intangible fixed assets were software.

##### 2) Depreciation method of lease assets

Depreciation method of lease assets is reported in “(Significant accounting policies for preparing consolidated financial statements) 4. Accounting policies (4) Depreciation.”

#### (2) Lessor side

##### 1) Breakdown of lease investment assets

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Lease receivables	¥ 302,063	¥ 260,831
Residual value	28,278	23,137
Unearned interest income	(104,040)	(76,323)
Total	¥ 226,302	¥ 207,645

##### 2) The scheduled collections of lease payments receivable related to lease investment assets were as follows:

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Within 1 year	¥ 25,559	¥ 58,350
More than 1 year to 2 years	22,678	36,809
More than 2 years to 3 years	21,939	18,786
More than 3 years to 4 years	36,947	19,545
More than 4 years to 5 years	16,934	11,625
More than 5 years	178,004	115,714
Total	¥ 302,063	¥ 260,831

## 2. Operating leases

### (1) Lessee side

Future minimum lease payments on operating leases which were not cancelable were as follows:

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Due within 1 year	¥ 34,651	¥ 37,086
Due after 1 year	186,778	184,207
Total	¥ 221,429	¥ 221,293

### (2) Lessor side

Future minimum lease payments on operating leases which were not cancelable were as follows:

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Due within 1 year	¥ 35,656	¥ 201
Due after 1 year	84,358	874
Total	¥ 120,014	¥ 1,075

## **(Notes to financial instruments)**

### **1. Status of financial instruments**

#### **(1) Policies on financial instruments**

The Group conducts banking and other financial services such as leasing, securities, consumer finance, system development and information processing. Its banking business includes deposit taking, lending, securities trading and investment, remittance and transfer, foreign exchange, bond subscription agent, trust business, and over-the-counter sales of securities investment trusts and insurance products.

These services entail holding of financial assets such as loans and bills discounted, bonds, and stocks. Meanwhile, the Group raises funds through deposit taking, borrowing, bond offering, etc. Furthermore, it undertakes derivative transactions to meet customers' hedging needs to control market risk associated with deposit taking and lending ("ALM purposes"), and to make profit on short-term fluctuations in interest rates, foreign exchange rates, etc. ("Trading purposes"). At SMBC, the Company's major consolidated subsidiary, derivative transactions for the ALM purposes are undertaken by the Treasury Department, the Global Investment Department, and the Portfolio Investment Department of the Treasury Unit, while derivative transactions for the Trading purposes are undertaken by the Trading Department of the Treasury Unit (derivative transactions for both ALM and Trading purposes are undertaken by the Treasury Department, Asia Pacific Division in Asia Pacific region, and the Treasury Department, East Asia Division in East Asia region).

#### **(2) Details of financial instruments and associated risks**

##### **1) Financial assets**

The main financial assets held by the Group include loans to foreign and domestic companies and domestic individuals, and securities such as bonds (government and corporate bonds) and stocks (foreign and domestic stocks), etc. Bonds such as government bonds are held for the ALM purposes, as well as the Trading and held-to-maturity purposes. Stocks are held mainly for strategic investment purposes. These assets expose the Group to credit risk, market risk and liquidity risk. Credit risk is the risk of loss arising from nonperformance of obligations by the borrower or issuer due to factors such as deterioration in the borrower's/issuer's financial conditions. Market risk is the risk stemming from fluctuations in interest rates, exchange rates, or share prices. Liquidity risk is the risk arising from difficulty executing transactions in desired quantities at appropriate prices due to low market liquidity. These risks are properly monitored and managed based on "(3) Risk management framework for financial instruments" below.

##### **2) Financial liabilities**

Financial liabilities of the Group include borrowed money and bonds, etc. in addition to deposits. Deposits mainly comprise deposits of domestic and foreign companies and domestic individuals. Borrowed money and bonds include subordinated borrowings and subordinated bonds with special clause specifying that the repayment order of borrowing or bond subordinates to other borrowings or bonds. Also, financial liabilities, like financial assets, expose the Group to not only market risk but also funding liquidity risk: the risk of the Group not being able to raise funds due to market turmoil, deterioration in the Group's creditworthiness or other factors. These risks are properly monitored and managed based on "(3) Risk management framework for financial instruments" below.

### 3) Derivative transactions

Derivatives handled by the Group include foreign exchange futures; futures, forwards, swaps and options related to interest rates, currencies, equities, bonds and commodities; and credit and weather derivatives.

Major risks associated with derivatives include market risk, liquidity risk, and credit risk arising from nonperformance of contractual obligations due to deterioration in the counterparty's financial conditions. These risks are properly monitored and managed based on "(3) Risk management framework for financial instruments" below.

Hedge accounting is applied to derivative transactions executed for ALM purposes, as necessary. Hedging instruments, hedged items, hedging policy and hedging method to assess the effectiveness of the hedge are described in "(Significant Accounting Policies for Preparing Consolidated Financial Statements), 4. Accounting policies, (17) Hedge accounting."

### (3) Risk management framework for financial instruments

The fundamental matters on risk management for the entire Group are set forth in "Policies on Comprehensive Risk Management." The Company's Management Committee establishes the basic risk management policy for the entire Group, based on the regulations, which is then approved by the Board of Directors. Each Group company has a risk management system based on the characteristics of its particular businesses and in accordance with the basic policy. Furthermore, the Group CRO is established to assess risk management across the Group unitarily and implement appropriate risk management. The Company is sharing information on group-wide risk management and strengthening related systems through the Group CRO Committee, which consists of the Group CRO and risk management representatives from strategically important group companies.

#### 1) Management of credit risk

All group companies follow the fundamental principles established by the Group to manage credit risk on a group-wide basis. Each Group company must comprehensively manage credit risk according to the nature of its business, and manage credit risk of individual loans and credit portfolios quantitatively and using consistent standards.

##### (a) Credit risk management system

At the Group, the Group CRO formulates credit risk management policies each year based on the group-wide basic policies for risk management. Meanwhile, the Credit & Investment Planning Department is responsible for the comprehensive management of credit risk. This department drafts and administers credit risk regulations, including the Group credit policies, manages non-performing loans, and performs other aspects of credit portfolio management. The Company has also established the Credit Risk Committee to serve as a body for deliberating on matters related to group-wide credit portfolios.

At SMBC, the Company's major consolidated subsidiary, the Credit & Investment Planning Department within the Risk Management Unit furnishes the credit risk management system and is thus responsible for the comprehensive management of credit risk. This department establishes, revises or abolishes credit policies, the internal rating system, credit authority regulations, credit application regulations, and manages non-performing loans and other aspects of credit portfolio management. The department also cooperates with the Corporate Risk Management Department and Risk Management Information Department in quantifying credit risk (risk capital and risk-weighted assets) and controls SMBC's entire credit risk. Moreover, the Credit & Investment Planning Department works to stabilize SMBC's overall credit portfolio through selling credit derivatives and loan claims.

The credit department in charge, in cooperation with branches conducts credit risk assessment and manages credit portfolios within each credit department's jurisdiction. The credit approval authority is determined based on the credit amount and internal grades, while credit departments focus on the analysis and management of customers and transactions with relatively high credit risk. The Credit Administration Department is mainly responsible for formulating and implementing measures to reduce the exposure of non-performing loans of borrowers classified as potentially bankrupt or lower. Through industrial and sector-specific surveys and studies of individual companies, the Corporate Research Department works to form an accurate idea of the condition of major borrower companies and identify those with potentially troubled credit positions at an early stage.

Moreover, the Credit Risk Committee, a cross-departmental consultative body, rounds out SMBC's oversight system for undertaking flexible and efficient control of credit risks, and ensuring the overall soundness of SMBC's loan operations.

In addition to these, the Internal Audit Unit, operating independently of the business units, audits asset quality, the accuracy of gradings and self-assessment, and the state of the credit risk management, and reports the results directly to the Management Committee and the Audit Committee.

#### (b) Method of credit risk management

The Company properly manages the credit risk inherent in individual loans and the entire portfolio by assessing and quantifying the credit risk of each borrower/loan using the internal rating system. In addition to management of individual loans through credit screening and monitoring, it manages the credit portfolio as described below in order to secure and improve the credit portfolio's soundness and medium-term profitability.

- Appropriate risk-taking within capital

To take risks within the acceptable level of capital, the Company sets upper limits for overall risk capital, which is an indicator of the risk appetite reflecting soundness, based on the risk appetite and portfolio plan of each business unit and monitors credit risk capital as a breakdown of overall risk capital.

- Controlling concentration of risk

Because concentration of credit risk in an industry or corporate group has the potential to impair the Company's capital significantly, the Company implements measures to prevent excessive concentration of loan in a single industry and to control large exposure to individual borrowers by setting maximum loan amounts and conducting loan reviews thoroughly. To manage country risk, the Company also has credit limit guidelines based on each country's creditworthiness.

- Researching borrowers more rigorously and balancing risk and returns

The Group rigorously researches borrower companies' actual conditions. The Group runs credit operations on the basic principle of earning returns that are commensurate with the credit risk involved, and makes every effort to reduce credit and capital costs as well as general and administrative expenses.

- Preventing and reducing non-performing loans

On non-performing loans and potential non-performing loans, the Company carries out regular loan reviews to clarify handling policies and action plans, enabling it to swiftly implement measures to prevent deterioration of borrowers' business situations, support business recoveries, collect on loans, and enhance loan security.

In regard to financial products, such as investments in certain funds, securitized products, and credit derivatives, that bear indirect risk arising from underlying assets such as bonds and loan obligations are considered to be exposed to both credit risk from the underlying assets as well as "market risk" and "liquidity risk" that arise from their trading as financial products. This is referred to as marketable credit risk. For these types of products, the Company manages credit risk by analyzing and assessing the characteristics of the underlying assets, but, for the sake of complete risk management, the Company also applies the methods for management of market and liquidity risks. In addition, the Company has established guidelines based on the characteristics of these types of risks and appropriately manages the risk of losses.

In regard to credit risk of derivative transactions, the potential exposure based on the market price is regularly calculated and properly managed. When the counterparty is a financial institution with which the Company frequently conducts derivative transactions, measures such as a close-out netting provision, which provide offsetting credit exposures between two parties in a single net payment from one party to the other in case of bankruptcy or other default event, are implemented to reduce credit risk.

## 2) Management of market and liquidity risks

The Company manages market and liquidity risks across the entire Group by setting allowable risk limits; ensuring the transparency of the risk management process; and clearly separating front-office, middle-office, and back-office operations for a highly efficient system of mutual checks and balances.

### (a) Market and liquidity risk management systems

In accordance with the basic risk management policy for the entire Group decided upon by the Management Committee, the Company determines important matters relating to the management of market and liquidity risks, such as basic policies and risk limits, in order to manage these risks. The ALM Committee meets four times a year, in principle, to report on the state of market and liquidity risk management and to discuss ALM operation policies. The Corporate Risk Management Department and Risk Management Information Department, which are independent from the business units that directly handle market transactions, manage market and liquidity risks in an integrated manner. These departments not only monitor the current risk situations but also report regularly to the Management Committee and the Audit Committee. Furthermore, the ALM Committee at SMBC, the Company's major consolidated subsidiary, meets on a monthly basis to examine reports on the state of observance of limits on market and liquidity risks and to discuss ALM operation policies.

In addition, the Internal Audit Department, which is independent of other departments, periodically performs comprehensive internal audits to verify that the risk management framework is properly functioning and reports the audit results to the Management Committee and the Audit Committee.

## (b) Market and liquidity risk management methodology

### • Market risk management

The Company manages market risk by setting maximum loss and VaR (value at risk: maximum potential loss that may be incurred to a specific financial instrument for a given probability) within the market risk capital limit, which is set taking into account stockholders' equity and other factors in accordance with the market transaction policies.

The Company uses the historical simulation method (a method for estimating the maximum loss by running simulations of changes in profit and loss on market fluctuations scenarios based on historical data) to measure VaR. Regarding banking activities (activities for generating profit through management of interest rates, terms, and other aspects such as loans and bonds in assets, deposits in liabilities) and trading activities (activities for generating profit by taking advantage of short-term fluctuations in market values and differences in value among markets), the Company calculates the maximum loss that may occur as a result of market fluctuations in 1 day with a probability of 1% based on 4 years of historical observation. With regard to the holding of shares (such as listed shares) for the purpose of strategic investment, the Company calculates the maximum loss that may occur as a result of market fluctuations in 1 year with a probability of 1% based on 10 years of historical observation.

Regarding risks associated with foreign exchange rates, interest rates, equity risk, option prices and other market risk factors, the Company manages such risks by setting a maximum limit on the indicator suited for each market risk factor such as BPV (basis point value: denotes the change in fair value of a financial instrument resulting from a 0.01 percentage-point change in the yield).

### • Quantitative information on market risks

As of March 31, 2024, total VaR of SMBC and its major consolidated subsidiaries was ¥95.1 billion for the banking activities, ¥40.0 billion for the trading activities and ¥1,567.2 billion for the holding of shares (such as listed shares) for the purpose of strategic investment.

However, it should be noted that these figures are statistical figures that change according to changes in assumptions and calculation methods, and may not cover the risk of future market conditions fluctuating drastically compared to market fluctuations of the past.

### • Liquidity risk management

The Company manages liquidity risk based on the framework of "setting risk appetite measures" and "establishing contingency plans." Risk appetite measures are quantitative benchmarks that select the types and indicate the levels of risk that the Company is willing to take on or tolerate. As an example, the Company sets a lower limit on the number of days over which cash flows could be maintained under the stress conditions such as deposit outflow, so as to secure funding sources that do not fall below the benchmark to avoid excessive reliance on short term funding. In addition, the Company develops contingency plans consisting of instructions, reporting lines and action plans in case of emergency.

Moreover, to manage the liquidity risk of marketable instruments, derivative transactions, etc., the Company has trading limits for each business office classified by currency, instrument, transaction period, etc. As for financial futures, etc., risks are managed by restricting positions to within a certain percentage of open interest in the entire market.

## (4) Supplementary explanations about matters concerning fair value of financial instruments

Fair values of financial instruments have been calculated using certain assumptions, and may differ if calculated based on different assumptions.

## **2. Matters concerning fair value of financial instruments and breakdown by input level**

The amounts on the consolidated balance sheet, the fair value of financial instruments as well as the difference between them by input level are as follows.

The amounts shown in the following tables do not include stocks with no market price, etc., and investments in partnerships (refer to Note 3).

The fair values of financial instruments are classified into the following three levels depending on the observability and significance of the input used in the fair value measurement.

Level 1: Fair value determined based on the (unadjusted) quoted price in an active market for the same asset or liability

Level 2: Fair value determined based on directly or indirectly observable inputs other than Level 1 inputs

Level 3: Fair value determined based on significant unobservable inputs

If multiple inputs with a significant impact are used for the fair value measurement of a financial instrument, the financial instrument is classified to the lowest priority level of fair value measurement in which each input belongs.

Total derivative transactions	¥ 205,845	¥ (1,924,014)	¥ 56,999	¥ (1,661,170)

\*1 The amounts of investment trusts that fall under the classification of Other securities are included in “Other” in the table above.

\*2 The amounts collectively represent the derivative transactions which are recorded as “Trading assets,” “Trading liabilities,” “Other assets” and “Other liabilities.” Debts and credits arising from derivative transactions are presented on a net basis, with net debt presented in round brackets.

\*3 As for derivative transactions applying hedge accounting, ¥(1,342,931) million was recorded on the consolidated balance sheet. These were interest rate swap and other derivative transactions designated as hedging instruments for stabilizing cash flows of loans and bills discounted, etc., that are hedged items. The Company has mainly applied deferred hedge accounting for those derivative transactions. For these hedging relationships, the Company has applied “Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR” (PITF No.40, March 17, 2022).

\*2 The amounts collectively represent the derivative transactions which are recorded as “Trading assets,” “Trading liabilities,” “Other assets” and “Other liabilities.” Debts and credits arising from derivative transactions are presented on a net basis, with net debt presented in round brackets.

\*3 As for derivative transactions applying hedge accounting, ¥(2,124,792) million was recorded on the consolidated balance sheet. These were interest rate swap and other derivative transactions designated as hedging instruments for stabilizing cash flows of loans and bills discounted, etc., that are hedged items. The Company has mainly applied deferred hedge accounting for those derivative transactions. For these hedging relationships, the Company has applied “Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR” (PITF No.40, March 17, 2022).

## (2) Financial assets and liabilities which are not stated at fair value on the consolidated balance sheets

Cash and due from banks, Call loans and bills bought, Receivables under resale agreements, Receivables under securities borrowing transactions, Foreign exchanges, Call money and bills sold, Payable under repurchase agreements, Payable under securities lending transactions, Commercial papers, and Short-term bonds payable is not disclosed in the following tables since they are mostly short-term, and their fair values approximate their carrying amounts in the fiscal year ended March 31, 2023.

In addition to the above categories, Due to trust account is not also disclosed in the following tables for the same reasons in the fiscal year ended March 31, 2024.

March 31, 2023	Millions of yen				Consolidated balance sheet amount	Difference
	Fair value					
	Level 1	Level 2	Level 3	Total		
Monetary claims bought*	¥ —	¥ —	¥ 5,040,361	¥ 5,040,361	¥ 4,991,100	¥ 49,260

(Note 1) Description of the valuation techniques and inputs used to measure fair value

## Assets

### Monetary claims bought

The fair values of subordinated trust beneficiary interests related to securitized housing loans among monetary claims bought are determined by estimating future cash flows using the probability of default, loss given default and prepayment rate, and assessing the value by deducting the value of senior beneficial interests, etc. from the value of underlying housing loans. The fair values of other transactions are, in principle, based on methods similar to the methods applied to Loans and bills discounted.

These transactions are mainly classified into Level 3.

### Trading assets

The fair values of bonds and other securities held for trading purposes are, in principle, based on their market prices as of the consolidated balance sheet date. The fair values of such bonds and other securities are mainly classified into Level 1 depending on the level of market activity. When fair value is determined based on either the prices quoted by the financial institutions, or future cash flows discounted using observable inputs such as interests, spreads, and others, they are classified into Level 2.

### Money held in trust

The fair values of money held in trust are, in principle, fair values of securities in trust property calculated by the same method for securities that the Company owns. They are classified into Level 2.

### Securities

In principle, the fair values of stocks (including foreign stocks and listed investment trusts) are based on the market price as of the consolidated balance sheet date. They are mainly classified into Level 1 depending on the level of market activity. The fair values of securities with market prices other than stocks are based on the market price as of the consolidated balance sheet date. Japanese Government bonds, etc., are mainly classified into Level 1 and other bonds are classified into Level 2.

The fair values of privately-placed bonds with no market prices are based on the present value of estimated future cash flows, taking into account the borrower's probability of default, loss given default, etc. Those present values are discounted by a rate comprising a risk-free interest rate with certain adjustments. However, the fair values of bonds, such as privately-placed bonds issued by bankrupt borrowers, effectively bankrupt borrowers and potentially bankrupt borrowers are based on the bond's book value after the deduction of the expected amount of a loss on the bond computed by using the same method applied to the estimation of a loan loss. The fair values of investment trusts with no market prices are based on the net asset value.

These transactions are mainly classified into Level 2.

### Loans and bills discounted, and Lease receivables and investment assets

Of these transactions, considering the characteristics of these transactions, the fair values of overdrafts with no specified repayment dates are based on their book values as they are considered to approximate their fair values.

For short-term transactions, the fair values are also based on their book values as they are considered to approximate their fair values.

The fair values of long-term transactions are, in principle, based on the present value of estimated future cash flows taking into account the borrower's probability of default, loss given default, etc. Those present values are discounted by a rate comprising a risk-free interest rate with certain adjustments. At certain consolidated subsidiaries of the Company, the fair values are calculated based on the present values of estimated future cash flows, which are computed based on the contractual interest rate. Those present values are discounted by a rate comprising a risk-free rate and a credit risk premium.

Regarding claims on bankrupt borrowers, effectively bankrupt borrowers and potentially bankrupt borrowers, expected losses on such claims are calculated based on either the expected recoverable amount from disposal of collateral or guarantees, or the present value of expected future cash flows. Since the claims' consolidated balance sheet amounts minus the expected amount of loan losses approximate their fair values, such amounts are considered to be their fair values.

These transactions are mainly classified into Level 3.

## Liabilities

### Trading liabilities

The fair values of bonds sold for short sales and other securities for trading purposes are, in principle, based on their market prices as of the consolidated balance sheet date. They are mainly classified into Level 1.

### Deposits, Negotiable certificates of deposit, and Due to trust account

Out of these transactions, the fair values of demand deposits and deposits without maturity are their book values. The fair values of transactions with a short-term remaining maturity are also their book values, as their book values are regarded to approximate their fair values. The fair values of transactions with a long-term remaining maturity are, in principle, based on the present value of estimated future cash flows discounted by the interest rate assuming that the same type of deposit is newly accepted until the end of the remaining maturity.

The fair values of borrowings from the trust account related to covered bond issued by the trust account are based on the amount calculated in accordance with the price quoted by industry associations, etc.

These transactions are classified into Level 2.

### Borrowed money and Bonds

The fair values of short-term transactions are based on their book values, as their book values are considered to approximate their fair values. For long-term transactions, their fair values are based on the present value of estimated future cash flows calculated using the refinancing rate applied to the same type of instruments for the remaining maturity.

For transactions with the price quoted by industry associations, etc., fair value is based on the amount calculated by using the published price data, yield data, etc.

These transactions are mainly classified into Level 2.

### Derivative transactions

The fair values of listed derivatives are based on their closing prices. The fair values of over-the-counter derivative transactions are based on the discounted present value of the future cash flows, option valuation models, etc., using inputs such as interest rate, foreign exchange rate, stock price, commodity price, etc.

Over-the-counter derivative transactions take into account the counterparty's and the Company's credit risks, and the liquidity risks of the unsecured lending funds. Listed derivative transactions are mainly classified into Level 1. Over-the-counter derivative transactions are classified into Level 2 if observable inputs are available or impact of unobservable inputs to the fair values is not significant. If impact of unobservable inputs to the fair values is significant, they are classified into Level 3.

(Note 2) Quantitative information about financial assets and liabilities measured and stated on the consolidated balance sheet at fair value and classified in Level 3

1) Quantitative information on significant unobservable inputs

<b>March 31, 2023</b>	<b>Valuation technique</b>	<b>Significant unobservable inputs</b>	<b>Range</b>
Monetary claims bought	Discounted cash flow	Probability of default	0.1% — 100.0%
		Loss given default	0.0% — 51.3%
		Prepayment rate	2.0% — 7.0%
Trading assets:			
Securities classified as trading purposes	Option valuation model	Equity volatility	25.4% — 62.8%
Securities:			
Japanese corporate bonds	Discounted cash flow	Probability of default	7.8% — 100.0%
		Loss given default	0.0% — 50.0%
Foreign bonds	Discounted cash flow	Probability of default	100.0%
		Loss given default	32.1% — 78.0%
Derivative transactions:			
Interest rate derivatives	Option valuation model	Correlation between interest rates	26.3% — 62.9%
		Correlation between interest rates and foreign exchange rates	5.5% — 41.6%
Currency derivatives	Option valuation model	Correlation between interest rates	28.7% — 99.2%
		Correlation between interest rates and foreign exchange rates	9.5% — 49.8%
		Foreign exchange rate volatility	12.2% — 17.1%
Equity derivatives	Option valuation model	Correlation between equities	47.3% — 93.5%
		Correlation between foreign exchange rates and equities	(0.5)% — 24.6%
Credit derivatives	Credit default model	Equity volatility	12.0% — 70.3%
		Correlation between foreign exchange rates and CDS* spread	15.0% — 25.0%

\* Credit Default Swap

<b>March 31, 2024</b>	<b>Valuation technique</b>	<b>Significant unobservable inputs</b>	<b>Range</b>
Monetary claims bought	Discounted cash flow	Probability of default	0.1% — 100.0%
		Loss given default	0.0% — 51.2%
		Prepayment rate	2.0% — 6.5%
Trading assets:			
Securities classified as trading purposes	Option valuation model	Equity volatility	42.7% — 45.6%
Securities:			
Japanese corporate bonds	Discounted cash flow	Probability of default	7.6% — 100.0%
		Loss given default	0.0% — 40.0%
Foreign bonds	Discounted cash flow	Probability of default	100.0%
		Loss given default	28.9% — 76.0%
Derivative transactions:			
Interest rate derivatives	Option valuation model	Correlation between interest rates	31.3% — 99.4%
		Correlation between interest rates and foreign exchange rates	10.6% — 48.6%
Currency derivatives	Option valuation model	Correlation between interest rates	25.7% — 99.4%
		Correlation between interest rates and foreign exchange rate	6.6% — 48.8%
		Foreign exchange rate volatility	7.0% — 12.7%
Equity derivatives	Option valuation model	Correlation between equities	42.2% — 78.4%
		Correlation between foreign exchange rates and equities	(6.1)% — 15.7%
		Equity volatility	16.6% — 65.8%
Credit derivatives	Credit default model	Correlation between foreign exchange rates and CDS* spread	17.5% — 30.0%

\* Credit Default Swap

### 3) Description of the fair value valuation process

At the Group, the middle division establishes policies and procedures for the calculation of fair value, and the front division develops valuation models in accordance with such policies and procedures. The middle division verifies the reasonableness of the fair value valuation models, the inputs used, and the appropriateness of the classified fair value level of the calculated fair value.

Observable data is utilized as much as possible for the valuation model. If quoted prices obtained from third parties are used, those values are verified by comparison with results recalculated by the Group using the inputs for the valuation.

#### 4) Description of the sensitivity of the fair value to changes in significant unobservable inputs

##### Probability of default

Probability of default represents the likelihood that the default will occur, and is calculated based on actual defaults in the past. A significant increase (decrease) in the default rate would result in a significant decrease (increase) in fair value.

##### Loss given default

Loss given default is the proportion of estimated losses in the event that default occurs to the total balance of bonds or loans and bills discounted, and is calculated based on actual defaults in the past. A significant increase (decrease) in loss given default would result in a significant decrease (increase) in fair value.

##### Prepayment rate

Prepayment rate is the proportion of the principal of securities that is expected to be paid before maturity in each period, and is calculated based on actual payment in the past. In general, a significant change in the prepayment rate would result in a significant decrease (increase) in fair value according to the contractual terms and conditions of financial instruments.

##### Volatility

Volatility is an indicator that represents the estimation of severity of change over a certain period in values of inputs and market values. Volatility is estimated based on actual results in the past, information derived from third parties and other analysis approach. Volatility is mainly used in valuation of derivatives that refer to potential changes of interest rate, foreign exchange rate, stock price, etc. In general, a significant increase (decrease) in volatility would result in a significant increase (decrease) in fair value.

##### Correlation

Correlation is an indicator of the relationship between changes in variables such as interest rate, foreign exchange rate, Credit Default Swap (CDS) spread, and stock price. It is estimated based on actual past results and is mainly used in valuation techniques for complex derivatives, etc. In general, a significant change in correlation would generally result in a significant increase (decrease) in fair value according to the contractual terms and conditions of financial instruments.

(Note 3) Consolidated balance sheet amounts of stocks with no market prices, etc. and investments in partnership, etc. are as follows. In accordance with Paragraph 5 of the “Implementation Guidance on Disclosures about Fair Value of Financial Instruments” (ASBJ Guidance No.19, March 31, 2020) and Paragraph 24-16 of “Guidance for Application of Fair Value Measurement” (ASBJ Guidance No.31, June 17, 2021), these amounts are not included in “Trading assets” and “Securities” stated on the tables disclosed in “Matters concerning fair value of financial instruments and breakdown by input level.”

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Stocks with no market prices, etc.*1, 2	¥ 230,625	¥ 251,904

#### 6. Change of classification of securities

##### *Fiscal year ended March 31, 2023*

There were no significant corresponding transactions to be disclosed.

##### *Fiscal year ended March 31, 2024*

There were no significant corresponding transactions to be disclosed.

## 7. Write-down of securities

Bonds classified as held-to-maturity and other securities (excluding other securities whose consolidated balance sheet amounts are not measured at fair value) are considered as impaired if the fair value decreases materially below the acquisition cost and such decline is not considered as recoverable. The fair value is recognized as the consolidated balance sheet amount and the amount of write-down is accounted for as valuation loss for the fiscal year. Valuation losses for the fiscal years ended March 31, 2023 and 2024 were ¥408 million and ¥42,081 million, respectively. The rule for determining the “material decline” is as follows and is based on the classification of issuers under the rules of self-assessment of assets.

Bankrupt/Effectively bankrupt/Potentially bankrupt issuers: Fair value is lower than acquisition cost.

Issuers requiring caution: Fair value is 30% or lower than acquisition cost.

Normal issuers: Fair value is 50% or lower than acquisition cost.

Bankrupt issuers: Issuers that are legally bankrupt or formally declared bankrupt.

Effectively bankrupt issuers: Issuers that are not legally bankrupt but regarded as substantially bankrupt.

Potentially bankrupt issuers: Issuers that are not bankrupt now, but are perceived to have a high risk of falling into bankruptcy.

Issuers requiring caution: Issuers that are identified for close monitoring.

Normal issuers: Issuers other than the above 4 categories of issuers.

(Notes to money held in trust)

1. Money held in trust classified as trading purposes

<u>March 31, 2023</u>	<u>Millions of yen</u>		
	<u>Consolidated balance sheet amount</u>	<u>Acquisition cost</u>	<u>Net unrealized gains (losses)</u>
Money held in trust classified as trading purposes	¥ 12,645	¥ 13,100	¥ (454)

<u>March 31, 2024</u>	<u>Millions of yen</u>		
	<u>Consolidated balance sheet amount</u>	<u>Acquisition cost</u>	<u>Net unrealized gains (losses)</u>
Money held in trust classified as trading purposes	¥ 23,435	¥ 23,691	¥ (255)

2. Money held in trust classified as held-to-maturity

*Fiscal year ended March 31, 2023*

There were no corresponding transactions.

*Fiscal year ended March 31, 2024*

There were no corresponding transactions.

3. Other money held in trust (other than trading purpose and held-to-maturity)

<u>March 31, 2023</u>	<u>Millions of yen</u>		
	<u>Consolidated balance sheet amount</u>	<u>Acquisition cost</u>	<u>Net unrealized gains (losses)</u>
Other money held in trust	¥ 312	¥ 312	—

<u>March 31, 2024</u>	<u>Millions of yen</u>		
	<u>Consolidated balance sheet amount</u>	<u>Acquisition cost</u>	<u>Net unrealized gains (losses)</u>
Other money held in trust	¥ 315	¥ 315	—

## (Notes to net unrealized gains (losses) on other securities)

The breakdown of “Net unrealized gains (losses) on other securities” reported on the consolidated balance sheets is as shown below:

<b>March 31, 2023</b>	<b>Millions of yen</b>
Net unrealized gains (losses)	¥ 1,915,881
Other securities	1,915,881
Other money held in trust	—
(-) Deferred tax liabilities	443,756
Net unrealized gains (losses) on other securities (before following adjustments)	1,472,124
(-) Non-controlling interests	109,112
(+) The Company’s interest in net unrealized gains (losses) on valuation of other securities held by equity method affiliates	10,509
Net unrealized gains (losses) on other securities	¥ 1,373,521

Notes: 1. There were no net unrealized gains (losses) on other securities shown above for the fiscal year ended March 31, 2023 recognized in the fiscal year’s earnings by applying fair value hedge accounting.  
2. Net unrealized gains (losses) on other securities included foreign currency translation adjustments on foreign currency denominated securities whose fair value was not recognized as consolidated balance sheet amount.  
3. Non-controlling interests included equity acquired from non-controlling stockholders.

<b>March 31, 2024</b>	<b>Millions of yen</b>
Net unrealized gains (losses)	¥ 3,394,843
Other securities	3,394,843
Other money held in trust	—
(-) Deferred tax liabilities	897,124
Net unrealized gains (losses) on other securities (before following adjustments)	2,497,718
(-) Non-controlling interests	106,129
(+) The Company’s interest in net unrealized gains (losses) on valuation of other securities held by equity method affiliates	15,294
Net unrealized gains (losses) on other securities	¥ 2,406,883

Notes: 1. There were no net unrealized gains (losses) on other securities shown above for the fiscal year ended March 31, 2024 recognized in the fiscal year’s earnings by applying fair value hedge accounting.  
2. Net unrealized gains (losses) on other securities included foreign currency translation adjustments on foreign currency denominated securities whose fair value was not recognized as consolidated balance sheet amount.  
3. Non-controlling interests included equity acquired from non-controlling stockholders.

## (Notes to derivative transactions)

### 1. Derivative transactions to which the hedge accounting method was not applied

The following tables set forth the contract amount or the amount equivalent to the notional amount, fair value and valuation gains (losses) by type of derivative with respect to derivative transactions to which the hedge accounting method was not applied at the end of the fiscal year. Contract amount does not indicate the market risk relating to derivative transactions.

Notes: 1. The above transactions were valued at fair value and the valuation gains (losses) were accounted for in the consolidated statements of income.  
2. "Sold" represents transactions in which the credit risk was accepted; "Bought" represents transactions in which the credit risk was transferred.

## 2. Derivative transactions to which the hedge accounting method was applied

The following tables set forth the contract amount or the amount equivalent to the notional amount and fair value by type of derivative and hedge accounting method with respect to derivative transactions to which the hedge accounting method was applied at the end of the fiscal year. Contract amount does not indicate the market risk relating to derivative transactions.

### (1) Interest rate derivatives

<u>March 31, 2023</u>			<u>Millions of yen</u>		
<u>Hedge accounting method</u>	<u>Type of derivative</u>	<u>Principal items hedged</u>	<u>Contract amount</u>		<u>Fair value</u>
			<u>Total</u>	<u>Over 1 year</u>	
Deferral hedge method	Interest rate futures:	Interest-earning/bearing financial assets/liabilities such as loans and bills discounted, other securities, deposits and negotiable certificates of deposit			
	Sold		¥ 6,342,990	¥ 3,372,276	¥ (1,312)
	Bought		2,403,720	1,335,400	4,467
	Interest rate swaps:				
	Receivable fixed rate/ payable floating rate		32,812,237	28,630,312	(931,456)
	Receivable floating rate/ payable fixed rate		22,538,739	20,840,453	640,823
	Interest rate swaptions:				
Sold		185,620	185,620	(21,332)	
Bought		—	—	—	
Recognition of gain or loss on the hedged items	Interest rate swaps:	Loans and bills discounted			
	Receivable floating rate/ payable fixed rate		720,281	591,205	39,900
Special treatment for interest rate swaps	Interest rate swaps:	Borrowed money			
	Receivable floating rate/ payable fixed rate		63,310	50,410	(Note 2)
	Total		/	/	¥ (268,911)

Notes: 1. The Company mainly applied deferred hedge accounting stipulated in JICPA Industry Committee Practical Guideline No. 24.

2. Interest rate swap amounts measured by the special treatment for interest rate swaps were treated with the borrowed money that was subject to the hedge. Therefore such a fair value was included in the fair value of the relevant transaction subject to the hedge stated in the (Notes to financial instruments).

**March 31, 2024****Millions of yen**

Hedge accounting method	Type of derivative	Principal items hedged	Contract amount		
			Total	Over 1 year	Fair value
Deferral hedge method	Interest rate futures:	Interest-earning/bearing financial assets/liabilities such as loans and bills discounted, other securities, deposits and negotiable certificates of deposit			
	Sold		¥ 10,698,217	¥ 8,099,438	¥ 1,200
	Bought		1,815,960	1,815,960	(177)

	Total		/	/	¥ (1,832,622)

Note: The Company mainly applied deferred hedge accounting stipulated in JICPA Industry Committee Practical Guideline No. 25.

## (Notes to employee retirement benefits)

### 1. Outline of employee retirement benefits

The Company's consolidated subsidiaries have funded and unfunded contributory defined benefit pension plans and defined-contribution pension plans for benefit payments to their employees.

Funded contributory defined benefit pension plans mainly consist of contributory funded defined benefit pension plans and lump-sum severance indemnity plans which set up employee retirement benefit trusts.

Unfunded contributory defined benefit pension plans are lump-sum severance indemnity plans which do not use such a trust scheme.

Some consolidated subsidiaries adopt the simplified method in calculating the projected benefit obligation. Additional benefits may also be granted when employees retire.

### 2. Contributory defined benefit pension plan

#### (1) Reconciliation of beginning and ending balances of projected benefit obligation

<b>Year ended March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Beginning balance of projected benefit obligation	¥ 1,061,029	¥ 995,068
Service cost	30,412	27,004
Interest cost on projected benefit obligation	7,352	10,084
Unrecognized net actuarial gain or loss incurred	(38,660)	(34,801)
Payments of retirement benefits	(58,724)	(60,558)

Other	(2,264)	7,914
Ending balance of projected benefit obligation	¥ 995,068	¥ 944,690

#### (2) Reconciliation of beginning and ending balances of plan assets

<b>Year ended March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Beginning balance of plan assets	¥ 1,643,211	¥ 1,664,273
Expected return on plan assets	41,855	42,798
Unrecognized net actuarial gain or loss incurred	8,967	210,893
Contributions by the employer	12,753	12,722
Payments of retirement benefits	(43,138)	(43,838)
Other	623	(65,628)
Ending balance of plan assets	¥ 1,664,273	¥ 1,821,219

(3) Reconciliation of ending balances of projected benefit obligation and plan assets to net defined benefit asset and net defined benefit liability reported on the consolidated balance sheets

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Funded projected benefit obligation	¥ (966,232)	¥ (916,292)
Plan assets	1,664,273	1,821,219
	698,040	904,927
Unfunded projected benefit obligation	(28,835)	(28,398)
Net amount of asset and liability reported on the consolidated balance sheet	¥ 669,205	¥ 876,528

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Net defined benefit asset	¥ 704,654	¥ 913,791
Net defined benefit liability	(35,449)	(37,263)
Net amount of asset and liability reported on the consolidated balance sheet	¥ 669,205	¥ 876,528

(4) Pension expenses

<b>Year ended March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Service cost	¥ 30,412	¥ 27,004
Interest cost on projected benefit obligation	7,352	10,084
Expected return on plan assets	(41,855)	(42,798)
Amortization of unrecognized net actuarial gain or loss	(31,983)	(25,996)
Amortization of unrecognized prior service cost	(2,285)	(2,409)
Other (nonrecurring additional retirement allowance paid and other)	7,349	10,519
Pension expenses	¥ (31,009)	¥ (23,595)

Note: Pension expenses of consolidated subsidiaries which adopt the simplified method are mainly included in "Service cost."

(5) Remeasurements of defined benefit plans

The breakdown of "Remeasurements of defined benefit plans" (before deducting tax effect) was as shown below:

<b>Year ended March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Prior service cost	¥ (1,792)	¥ 2,389
Net actuarial gain or loss	(15,912)	(219,977)
Total	¥ (17,705)	¥ (217,587)

(6) Accumulated remeasurements of defined benefit plans

The breakdown of "Accumulated remeasurements of defined benefit plans" (before deducting tax effect) was as shown below:

<b>March 31</b>	<b>Millions of yen</b>	
	<b>2023</b>	<b>2024</b>
Unrecognized prior service cost	¥ (14,188)	¥ (11,798)
Unrecognized net actuarial gain or loss	(177,996)	(397,974)
Total	¥ (192,184)	¥ (409,772)

## (7) Plan assets

### 1) Major asset classes of plan assets

The proportion of major asset classes to the total plan assets was as follows:

<u>March 31</u>	<u>2023</u>	<u>2024</u>
Stocks	50.5 %	51.5 %
Bonds	14.1 %	12.6 %
General account of life insurance	2.5 %	2.3 %
Other	32.9 %	33.6 %
Total	100.0 %	100.0 %

Note: The retirement benefit trusts set up for employee pension plans and lump-sum severance indemnity plans account for 36.3% and 33.1% of the total plan assets at March 31, 2023 and 2024, respectively.

### 2) Method for setting the long-term expected rate of return on plan assets

The long-term expected rate of return on plan assets is determined based on the current and expected allocation of plan assets and the current and expected long-term rates of return on various asset classes of plan assets.

## (8) Actuarial assumptions

The principal assumptions used in determining benefit obligation and pension expenses were as follows:

### 1) Discount rate

<u>Year ended March 31, 2023</u>	<u>Percentages</u>	<u>Year ended March 31, 2024</u>	<u>Percentages</u>
Domestic consolidated subsidiaries	0.2% to 0.9%	Domestic consolidated subsidiaries	0.4% to 1.2%
Overseas consolidated subsidiaries	0.0% to 7.0%	Overseas consolidated subsidiaries	2.0% to 7.3%

### 2) Long-term expected rate of return on plan assets

<u>Year ended March 31, 2023</u>	<u>Percentages</u>	<u>Year ended March 31, 2024</u>	<u>Percentages</u>
Domestic consolidated subsidiaries	0.0% to 3.6%	Domestic consolidated subsidiaries	0.0% to 3.2%
Overseas consolidated subsidiaries	0.0% to 7.0%	Overseas consolidated subsidiaries	4.8% to 7.3%

## 3. Defined contribution plan

### *Fiscal year ended March 31, 2023*

The amount required to be contributed by the consolidated subsidiaries was ¥13,098 million.

### *Fiscal year ended March 31, 2024*

The amount required to be contributed by the consolidated subsidiaries was ¥14,866 million.

## (Notes to stock options)

<u>March 13, 2024</u>		
Exercise price	¥	100,000
Average exercise price	—	
Fair value at the grant date	—	

(3) Method of estimating fair unit value of stock options

As SMBC Wevox, Inc. was a private company at the time of granting stock options, the fair unit value of the stock options is calculated based on the intrinsic value per unit. In addition, the valuation method for the company's own shares, which forms the basis for calculating the intrinsic value per unit, uses the price calculated by the net asset method.

(4) Method of estimating number of stock options vested

Only the actual number of forfeited stock options is reflected, in principle, because it is difficult to rationally estimate the actual number of stock options that will be forfeited in the future.

(5) The total intrinsic value at the end of the fiscal year ended March 31, 2024 based on the intrinsic value of the stock options, and the total intrinsic value on the exercise date of stock options that had been exercised during the fiscal year ended March 31, 2024.

Note: Fees and commissions obtained through Deposits and loans principally arise in the Wholesale Business Unit and the Global Business Unit, Remittances and transfers principally arise in the Wholesale Business Unit, the Retail Business Unit, and the Global Business Unit, Securities-related business principally arise in the Wholesale Business Unit, the Retail Business Unit, and the Global Business Unit, Credit card business principally arise in the Retail Business Unit, and Investment trusts principally arise in the Retail Business Unit and Head office account and others. Income based on "Accounting Standard for Financial Instruments" (ASBJ Statement No. 10, July 4, 2019) is also included in the table above.

**(Notes to segment and other related information)**

**[Segment information]**

**1. Summary of reportable segment**

The Group's reportable segment is defined as an operating segment for which discrete financial information is available and reviewed by the Board of Directors and the Company's Management Committee regularly in order to make decisions about resources to be allocated to the segment and assess its performance.

The businesses operated by each business unit are as follows:

Wholesale Business Unit: Business to deal with domestic medium-to-large-sized and small-to-medium-sized corporate customers

Retail Business Unit: Business to deal with mainly domestic individual customers

Global Business Unit: Business to deal with international (including Japanese) corporate customers in overseas countries

Global Markets Business Unit: Business to deal with financial market

Head office account: Business other than businesses above

**2. Method of calculating profit and loss amount by reportable segment**

Accounting methods applied to the reported business segment are the same as those described in "(Significant accounting policies for preparing consolidated financial statements)." In case several business units cooperate for transactions, profit and loss, and expenses related to the transactions are recognized in the business units cooperating for the transactions and those amounts are calculated in accordance with internal managerial accounting policy.

The Company does not assess assets by business segments.

### 3. Information on profit and loss amount by reportable segment

Millions of yen						
<b>Year ended March 31, 2023</b>	<b>Wholesale Business Unit</b>	<b>Retail Business Unit</b>	<b>Global Business Unit</b>	<b>Global Markets Business Unit</b>	<b>Head office account and others</b>	<b>Total</b>

<Sale of interest of a subsidiary>

Sale of interest of SMBC Rail Services LLC

On December 14, 2023, SMBC Americas Holdings, Inc., a consolidated subsidiary of the company, sold the entire interest (the “Sale of interest”) in SMBC Rail Services LLC (“SMBC RS”) to ITE Management LP (“ITE”).

#### **1. Objectives of the Sale of interest**

With the acquisition of Flagship Rail Services LLC in 2013 and American Railcar Leasing in 2017, SMBC RS had become a leading freight car leasing company in the U.S. with over 50,000 freight cars. However, under recent financial regulatory environment, SMBC RS, as a subsidiary of a financial institution, was required to fully comply with regulations. While at the same time, as a result of the restructure of the freight car leasing industry and changes in the business environment, it had become an issue to further expand its business to improve efficiency and maintain competitiveness. Considering this situation, the Group had decided to transfer SMBC RS to ITE, which was another leading freight car leasing company in the industry, in order to maximize the value of SMBC RS.

Through the Sale of interest, the Group aimed to realize a more capital-efficient business portfolio and resilient business operations by reallocating the management resources to growth areas, as well as to measures that would contribute to strengthening the management foundation.

#### **2. Outline of the accounting treatments implemented**

##### (1) Amount of gains or losses on sale

Losses related to sale of freight car leasing business:   ¥ 108,191 million

##### (2) Accounting treatments

The Company applied the accounting treatments stipulated in “Accounting Standard for Consolidated Financial Statements” (ASBJ Statement No.22) and “Practical Guidelines on Accounting Standards for Capital Consolidation Procedures in Preparing Consolidated Financial Statements” (JICPA Accounting Practice Committee Statement No.7).

#### **3. Period of the financial results of SMBC RS included in the consolidated financial statements**

From January 1, 2023 to December 14, 2023

#### **4. Outline of the subsidiary excluded from the scope of consolidation (as of December 14, 2023)**

SMBC RS (Reporting segment: Global Business Unit)

Total assets:	¥ 464,501 million
Tangible fixed assets	437,027 million
Total liabilities:	385,185 million
Borrowed money	376,700 million
Ordinary income	43,256 million
Losses attributable to owners of parent	85,122 million

(Note) Ordinary income is used as a substitute of “Sales” for other industries. Losses attributable to owners of parent includes the losses on the fair value valuation related to tangible fixed assets subject to sale, associated with the conclusion of the Sale of interest agreement.

**(Per share data)**

<b>As of and year ended March 31</b>	<b>Yen</b>	
	<b>2023</b>	<b>2024</b>
Net assets per share	¥ 9,430.52	¥ 11,157.36
Earnings per share	590.46	724.55
Earnings per share (diluted)	590.26	724.34

Notes: 1. Earnings per share and earnings per share (diluted) are calculated based on the following.

<b>Year ended March 31</b>	<b>Millions of yen except number of shares</b>	
	<b>2023</b>	<b>2024</b>
Earnings per share:		
Profit attributable to owners of parent	¥ 805,842	¥ 962,946
Amount not attributable to common stockholders	—	—
Profit attributable to owners of parent attributable to common stock	¥ 805,842	¥ 962,946
Average number of common stock during the fiscal year (in thousands)	1,364,770	1,329,025
Earnings per share (diluted):		
Adjustment for profit attributable to owners of parent	¥ —	¥ —
Adjustment of dilutive shares issued by consolidated subsidiaries and equity method affiliates	—	—
Increase in number of common stock (in thousands)	463	386
Stock acquisition rights (in thousands)	463	386
Outline of dilutive shares which were not included in the calculation of “Earnings per share (diluted)” because they do not have dilutive effect:	—	—

2. Net assets per share are calculated based on the following:

<b>March 31</b>	<b>Millions of yen except number of shares</b>	
	<b>2023</b>	<b>2024</b>
Net assets	¥ 12,791,106	¥ 14,799,967
Amounts excluded from net assets	110,640	139,857
Stock acquisition rights	1,145	931
Non-controlling interests	109,495	138,925
Net assets attributable to common stock at the fiscal year-end	¥ 12,680,465	¥ 14,660,110
Number of common stock at the fiscal year-end used for the calculation of net assets per share (in thousands)	1,344,620	1,313,941

## **(Significant subsequent events)**

### ***Fiscal year ended March 31, 2024***

#### 1. Cancellation of Own Shares

On April 15, 2024, the Company has conducted the cancellation of its own shares that was resolved by the Board of Directors held on November 14, 2023 and March 27, 2024.

##### (1) Reason for cancellation of Own Shares

The Company will proceed with a cancellation of its own shares in order to enhance shareholder returns, improve capital efficiency and facilitate a flexible capital policy.

##### (2) Type of shares cancelled: Common stock

(3) Number of shares cancelled: 20,132,000 shares (Equivalent to 1.5% of the number of shares issued before cancellation)

##### (4) Cancellation date: April 15, 2024

#### 2. Stock split and partial amendments to the Articles of Incorporation to conduct the stock split

At the Board of Directors held on May 15, 2024, the Company resolved to implement a stock split, and accordingly, propose partial amendments to the Articles of Incorporation to conduct the stock split at the 22nd Ordinary General Meeting of Shareholders scheduled for June 27, 2024.

##### (1) Purpose of the stock split

By reducing the stock price per investment unit, the Company seeks to develop a more investor-friendly environment and expand the investor base.

##### (2) Method of the stock split

Each share of common stock owned by shareholders listed or recorded in the closing register of shareholders on the record date of September 30, 2024, will be split into three shares per share.

##### (3) Increase in the number of shares due to the stock split

1) Total number of issued shares before the stock split: 1,317,397,084 shares

2) Number of shares to be increased by the stock split: 2,634,794,168 shares

3) Total number of issued shares following the stock split: 3,952,191,252 shares

4) Total number of authorized shares following the stock split: 9,000,564,000 shares

\* The numbers of shares in 1), 2) and 3) above are subject to change prior to the record date.

##### (4) Schedule for the stock split

1) Public notice of record date (tentative): September 13, 2024

2) Record date: September 30, 2024

3) Effective date: October 1, 2024

(5) Partial amendments to the Articles of Incorporation to conduct the stock split

The Company proposes partial amendments to the Articles of Incorporation, effective on October 1, 2024, since it is necessary to increase the total number of issued shares and the total number of authorized shares for common stocks in accordance with the above split ratio of the common stocks.

Existing Articles of Incorporation	Proposed Amendments
(Total Number of Authorized Shares) Article 6. The total number of shares the Corporation is authorized to issue shall be three billion five hundred sixty four thousand (3,000,564,000) shares.	(Total Number of Authorized Shares) Article 6. The total number of shares the Corporation is authorized to issue shall be nine billion five hundred sixty four thousand (9,000,564,000) shares.
(Total Number of Authorized Shares of Each Particular Class of Shares) Article 7. The total number of shares the Corporation is authorized to issue shall consist of three billion (3,000,000,000) common stocks, one hundred sixty seven thousand (167,000) type 5 preferred stocks, one hundred sixty seven thousand (167,000) type 7 preferred stocks, one hundred fifteen thousand (115,000) type 8 preferred stocks and one hundred fifteen thousand (115,000) type 9 preferred stocks.	(Total Number of Authorized Shares of Each Particular Class of Shares) Article 7. The total number of shares the Corporation is authorized to issue shall consist of nine billion (9,000,000,000) common stocks, one hundred sixty seven thousand (167,000) type 5 preferred stocks, one hundred sixty seven thousand (167,000) type 7 preferred stocks, one hundred fifteen thousand (115,000) type 8 preferred stocks and one hundred fifteen thousand (115,000) type 9 preferred stocks.

(6) Effect on per share data

Assuming that the Company conducts the stock split at the beginning of the fiscal year ended March 31, 2024, per share data are as follows:

Year ended March 31	2023	2024
Net assets per share	¥ 3,143.51	¥ 3,719.12
Earnings per share	196.82	241.52
Earnings per share (diluted)	196.75	241.45

3. Repurchase and cancellation of Own Shares

At the Board of Directors held on May 15, 2024, the Company resolved to repurchase its own shares under Article 8 of the Articles of Incorporation pursuant to Paragraph 1 of Articles 459 of the Companies Act and cancel the repurchased shares pursuant to Article 178 of the Companies Act.

(1) Reason for the repurchase of Own Shares

The Company will proceed with a flexible repurchase of its own shares in order to enhance shareholder returns and improve capital efficiency.

(2) Outline of the repurchase

- 1) Type of shares to be repurchased: Common stock
- 2) Aggregate number of shares to be repurchased: Up to 15,000,000 shares (Equivalent to 1.1% of the number of shares issued (excluding treasury stock))
- 3) Aggregate amount to be repurchased: Up to JPY 100,000,000,000
- 4) Repurchase period: From May 16, 2024 to July 31, 2024
- 5) Repurchase method: Market purchase based on a discretionary dealing contract regarding repurchase of its own shares

(3) Outline of the cancellation

- 1) Type of shares to be cancelled: Common stock
- 2) Number of shares to be cancelled: All of the shares repurchased as stated in (2) above
- 3) Scheduled cancellation date: August 20, 2024

#### 4. Acquisition of the Company's shares for Share-Based Compensation Plan for Employees

At the Board of Directors held on May 15, 2024, the Company resolved the details of the acquisition of its shares by the Trustee of the Employee Stock Ownership Plan (the "ESOP") related to the Share-Based Compensation Plan (the "Plan") for the employees of SMBC, a consolidated subsidiary of the Company.

##### (1) Outline of the ESOP

- 1) Name: Stock grant trust for employees
- 2) Trustor: The Company
- 3) Trustee: Sumitomo Mitsui Trust Bank, Limited
- 4) Beneficiary: Employees who meet requirements as beneficiaries
- 5) Trust administrator: A third party that is independent of the Company and its officers will be appointed
- 6) Voting rights: The trustee shall exercise the voting rights during the trust period based on the trust administrator's instructions
- 7) Trust type: Money trust other than a specified cash trust for separate investment
- 8) Date of trust contract: May 23, 2024
- 9) Date to entrust cash: May 23, 2024
- 10) Date to end trust: The end of May 2026 (tentative)

##### (2) Acquisition of the Company's shares by the Trustee of the ESOP

- 1) Type of share to be acquired: Common stock
- 2) Cash entrusted for the acquisition of the shares: JPY 1,490,000,000
- 3) Number of shares: 149,000 (Maximum)
- 4) Method of the share acquisition: Acquisition from the stock market
- 5) Period of the share acquisition: From May 23, 2024 to May 31, 2024

(\*13) This represents straight bonds issued in Euro by the trust account in relation to covered bonds, which became a consolidated subsidiary of the Company from the fiscal year ended March 31, 2024.
3. Figures showed in ( ) in "At the beginning of the fiscal year" and "At the end of the fiscal year" are in foreign currency.  
4. Figures showed in [ ] in "At the beginning of the fiscal year" and "At the end of the fiscal year" are the amounts to be redeemed within one year.  
5. The redemption schedule over the next 5 years after respective balance sheet dates of the consolidated subsidiaries was as follows:

Millions of yen					
Within 1 year	More than 1 year to 2 years	More than 2 years to 3 years	More than 3 years to 4 years	More than 4 years to 5 years	
¥ 2,435,414	¥ 1,693,851	¥ 2,125,076	¥ 1,253,380	¥ 1,092,010	

## [Schedule of borrowings]

Classification	Millions of yen		Percentages	
	At the beginning of the fiscal year	At the end of the fiscal year	Average interest rate	Repayment Term
Borrowed money	¥ 13,674,830	¥ 14,705,266	1.13	—
Other borrowings	¥ 13,674,830	14,705,266	1.13	Apr. 2024 ~ Perpetual
Lease obligations	27,695	33,338	4.03	Apr. 2024 ~ Sep. 2033

Notes: 1. “Average interest rate” represents the weighted average interest rate based on the interest rates and “At the end of the fiscal year” at respective balance sheet dates of consolidated subsidiaries.  
2. The redemption schedule over the next 5 years on Borrowings and Lease obligations after respective balance sheet dates of the consolidated subsidiaries was as follows:

	Millions of yen				
	Within 1 year	More than 1 year to 2 years	More than 2 years to 3 years	More than 3 years to 4 years	More than 4 years to 5 years
Other borrowings	¥ 6,606,072	¥ 1,944,860	¥ 2,145,480	¥ 2,872,928	¥ 138,846
Lease obligations	10,372	8,477	5,459	3,640	2,181

Since the commercial banking business accepts deposits and raises and manages funds through the call loan and commercial paper markets as a normal course of business, the schedule of borrowings shows a breakdown of “Borrowed money” included in the “Liabilities” and Lease obligations included in “Other liabilities” in the consolidated balance sheet.

Reference: Commercial paper issued for funding purpose as a normal course of business is as follows:

	Millions of yen		Percentage	
	At the beginning of the fiscal year	At the end of the fiscal year	Average interest rate	Repayment Term
Commercial paper	¥ 2,349,956	¥ 2,429,179	4.92	Apr. 2024 ~ Aug. 2024

## [Schedule of asset retirement obligations]

Since the amount of asset retirement obligations accounts for 1% or less than the total of liabilities and net assets, the schedule of asset retirement obligation is not disclosed.

## [Others]

Quarterly consolidated financial information in the fiscal year ended March 31, 2024 was as follows:

## **Independent Auditor's Report**

To the Board of Directors of  
Sumitomo Mitsui Financial Group, Inc.:

### **Report on the Audit of the Consolidated Financial Statements**

#### **Opinion**

We have audited the accompanying consolidated financial statements of Sumitomo Mitsui Financial Group, Inc. (“the Company”) and its consolidated subsidiaries (collectively referred to as “the Group”), which comprise the consolidated balance sheets as at March 31, 2024 and 2023, the consolidated statements of income, comprehensive income, changes in net assets and cash flows for the years then ended, and notes, comprising a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2024 and 2023, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with accounting principles generally accepted in Japan.

#### **Basis for Opinion**

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

#### **Key Audit Matters**

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

1. The reasonableness of management's assessment of the reserve for possible loan losses for SMBC's corporate loans

#### **The key audit matter**

In the consolidated balance sheet of Sumitomo Mitsui Financial Group, Inc. and its consolidated subsidiaries (collectively referred to as the “Group”) as of March 31, 2024, the reserve for possible loan losses (the “Reserve”) was ¥504,517 million on loans and bills discounted (the “Loans”) of ¥107,013,907 million (or approximately 36.3% of total assets). Included in such balances were mainly corporate loans and the related reserve of Sumitomo Mitsui Banking Corporation (“SMBC”), a commercial banking subsidiary. As discussed in the “Notes (Additional information, 1. The estimates of reserve for possible loan losses related to the impact of the current international situation involving Ukraine)” to the consolidated financial statements, a reserve of ¥85,553 million was recorded for possible loan losses for Russia-related credits. In addition, as discussed in the “Notes (Additional information, 2. The estimates of reserve for possible loan losses related to the impact of the tightening monetary policies overseas)” to the consolidated financial statements, a reserve of ¥32,000 million was recorded for possible loan

losses for portfolios that were considered to be easily affected by the prolonged high interest rates. Further, as discussed in the "Notes (Additional information, 3. The estimates of reserve for possible loan losses in consideration of changes in domestic business environment and other factors)" to the consolidated financial statements, a reserve of ¥16,000 million was recorded for possible loan losses for portfolios that were considered vulnerable to changes in the domestic business environment, such as persisting high raw material prices and rising labor costs, the cutback of the government funding support to businesses, and changes in the financial environment, such as the lifting of negative interest rate policy.

As discussed in the "Notes (Significant accounting policies for preparing consolidated financial statements), 4. Accounting policy, (5) Reserve for possible loan losses" to the consolidated financial statements, SMBC assesses all claims including the Loans in accordance with the internal criteria for self-assessment of asset quality, and classifies borrowers into credit categories through examining individual credit risk profiles. On the basis of each borrower category, reserves and/or write-offs are recorded based on the methods including one that uses the historical loan-loss ratios or the probability of default to estimate possible loan losses and a discounted cash flow (DCF) method, in accordance with its internal policy for write-offs and provisions. For claims originated in specific overseas countries, an additional specific overseas reserve is recorded in the amount deemed necessary based on the assessment of political and economic conditions. Additionally, considering the recent economic environment and risk factors, a potential loss amount that was deemed necessary in specific portfolios, among others, was recorded in the Reserve at the end of the current fiscal year based on an overall assessment of a probable future outlook for those portfolios that has not been fully captured in the historical data or individual borrower classification.

As discussed in the "Notes (Significant Accounting Estimates)" and the "Notes (Additional information)" to the consolidated financial statements, the assessment of the Reserve for SMBC's corporate loans involved significant estimation uncertainty, and required significant management judgment primarily in the following aspects:

- classifying borrowers into appropriate credit categories through performing a qualitative assessment, including the use of forward-looking information;
- determining whether additional reserves for specific portfolios are deemed necessary, and selecting appropriate methodologies to estimate such additional reserves based on the future outlook in light of the recent economic environment and risk factors; and
- projecting future cash flow scenarios, as an input to the DCF method, for borrowers with large claims classified mainly as substandard or lower-level classifications.

In the judgment and estimation of these elements during the current fiscal year, the prolonged uncertain business environment arising from the current international situation involving Ukraine, the impact of tightening monetary policies overseas and the impact of changes in the domestic business environment, including persisting high raw material prices and rising labor costs, required consideration.

We, therefore, determined that management's assessment of the Reserve for SMBC's corporate loans, specifically, classifying borrowers into credit categories through a qualitative assessment including the use of forward-looking information, determining whether additional reserves for specific portfolios are deemed necessary based on the future outlook in light of the recent economic environment and risk factors as well as determining appropriate methodologies to estimate such additional reserves, and projecting cash flow scenarios used in the DCF method, was of most significance in our audit of the consolidated financial statements for the current fiscal year, and accordingly, a key audit matter.

### **How the matter was addressed in our audit**

The primary procedures we performed to assess the reasonableness of management's assessment of the Reserve for SMBC's corporate loans included the following:

#### **(1) Internal control testing**

We evaluated the design and tested the operating effectiveness of certain of SMBC's internal controls over its process to assess the Reserve for SMBC's corporate loans. In this assessment, we focused on the controls that related to the:

- approval of the internal rules for accounting for the Reserve, including the criteria for self-assessment and the

- policy for write-offs and provisions;
- validation of the obligor grading models;
- classification of individual borrowers into credit categories through a qualitative assessment;
- determination of additional reserves for specific portfolios based on the future outlook in light of the recent economic environment and risk factors; and
- projection of future cash flow scenarios used in the DCF method.

## **(2) Evaluation of the policy for the Reserve and the obligor grading models**

We evaluated the policy for the Reserve for SMBC's corporate loans for compliance with the accounting principles generally accepted in Japan. Additionally, we involved credit risk specialists with industry-specific knowledge and expertise who assisted us in evaluating the appropriateness of the obligor grading models, which provided the basis for borrower classification, through analyzing the consistency of the obligor grades with external ratings, and also through a retrospective review of the models' performance.

## **(3) Evaluation of borrower classification taking into account qualitative factors**

For SMBC's corporate borrowers that we selected based on certain criteria, we involved credit risk specialists with industry-specific knowledge and expertise who assisted us in evaluating the appropriateness of borrower classification taking into account qualitative factors through:

- analyzing the borrowers' current business performance including the sufficiency of liquidity;
- assessing the appropriateness of the borrowers' business plans used as a basis for management's borrower classification, by comparing the plans with the industry outlook and the recent performance, and also by analyzing the impact of stressed scenarios considered by management; and
- analyzing the impact of economic sanctions imposed by the governments of each country and the countermeasures taken by the Russian government on the borrowers' debt-repayment capability and financial positions, including the analysis of the current repayment status.

## **(4) Evaluation of the reasonableness of additional reserves for specific portfolios based on the future outlook in light of the recent economic environment and risk factors**

Given the prolonged uncertain business environment caused by the current international situation involving Ukraine, the impact of tightening monetary policies overseas and the impact of the changes in the domestic business environment including persisting high raw material prices and rising labor costs, we evaluated the reasonableness of additional reserves for specific portfolios through:

- assessing the appropriateness of the selection of portfolios subject to additional reserves, considering the respective industry environment by using the relevant indices and other information published by external agencies;
- assessing the appropriateness of the selection of portfolios subject to additional reserves, considering the analysis of the prolonged impact of economic sanctions imposed by the governments of each country and the countermeasures taken by the Russian government;
- assessing assumptions used in estimating additional reserves, especially the risks of delinquency and loan modifications related to credit exposure in Russia, considering the analysis of the prolonged impact of the economic sanctions imposed by the governments of each country and the countermeasures taken by the Russian government, and the deterioration in the credit status of Russia, including the analysis of the observed trend in the repayment of the Russian government and corporates;
- assessing the appropriateness of the selection of portfolios subject to additional reserves in relation to the prolonged high interest rates, considering the analysis of the impact of tightening monetary policies overseas;
- assessing the consistency of assumptions used in estimating additional reserves, especially the assumptions about changes in overseas interest rates with available external data including interest rates outlook;
- assessing the appropriateness of the selection of portfolios subject to additional reserves in relation to the changes in the domestic business environment including persisting high raw material prices and rising labor costs; and

- involving credit risk specialists with industry-specific knowledge and expertise who assisted us in evaluating the appropriateness of the methodologies used to estimate additional reserves considering the nature of and risk factors identified in each portfolio as well as the result of a retrospective review.

#### **(5) Evaluation of future cash flow scenarios used in the DCF method**

For borrowers that we selected based on certain criteria among those for which the reserves were calculated using the DCF method, we evaluated the appropriateness of the borrowers' future cash flow scenarios through:

- assessing the feasibility of the restructuring plans considering the recent economic environment and the prospect of future economic conditions;
- assessing the borrowers' current progress against the restructuring plans; and
- assessing the borrower's ability to repay considering the schedule and underlying sources of repayments based on the restructuring plans.

#### **Other Information**

The other information comprises the information included in the disclosure documents that contain or accompany the audited financial statements, but does not include the financial statements and our auditor's report thereon.

We do not perform any work on the other information as we determine such information does not exist.

#### **Responsibilities of Management and the Audit Committee for the Consolidated Financial Statements**

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan.

The Audit Committee is responsible for overseeing the directors and the corporate executive officers' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

#### **Auditor's Responsibilities for the Audit of the Consolidated Financial Statements**

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the Audit Committee regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the Audit Committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, actions taken to eliminate threats or safeguards applied.

From the matters communicated with the Audit Committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

### **Fee-related Information**

Fees paid or payable to our firm and to other firms within the same network as our firm for audit and non-audit services provided to the Company and its subsidiaries for the current year are 6,868 million yen and 581 million yen, respectively.

### **Convenience Translation**

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2024 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in basis of presentation in the notes to the consolidated financial statements.

### **Interest required to be disclosed by the Certified Public Accountants Act of Japan**

We do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the

Certified Public Accountants Act of Japan.
