VII. Liquidity

	For the quarter ended 31 March 2024	For the quarter ended 31 March 2023
<u>1) Average liquidity maintenance ratio</u>	<u>117.11%</u>	<u>138.23%</u>

The average liquidity maintenance ratio is the simple average of each month's average liquidity maintenance ratio for the reporting period. Liquidity maintenance ratio is calculated in accordance with the guidelines of Hong Kong Monetary Authority and Banking (Liquidity) Rules.

2) Liquidity Risk Management

Governance

Mitsubishi UFJ Trust and Banking Corporation, Hong Kong Branch (“HK Branch”) formulates Liquidity Management Policy to measure, monitor and manage liquidity risk in accordance with Head Office policies and rules and HKMA requirements.

HK Branch Senior Management exercises effective oversight of the liquidity management system to ensure the compliance with the relevant rules of Head Office, HK Branch as well as HKMA requirements.

HK Branch Market Risk Committee (MRC) is responsible for managing market risk and liquidity risk, making decisions on the major issues relating to market risk management and liquidity risk management, regularly reviewing risk management reports.

Treasury Group is responsible for managing liquidity position, implementing liquidity management strategies and monitoring market liquidity.

Risk Management Group is responsible for monitoring and reporting the position of liquidity risk metrics and early warning indicators.

Internal Auditors are responsible for reviewing the implementation of the liquidity management system.

Strategies

The liquidity management strategies of HK Branch are to invest in liquefiable assets and ensure diversification and stability of funding by building long term relationship with existing or potential counterparties and customers, maintaining the diverse of funding sources options and monitoring market liquidity.

Risk Tolerance

HK Branch has established internal limits and procedures to monitor the position of the liquidity risk metrics, including Liquidity Maintenance Ratio, Funding Gap and Minimum Amount of Liquefiable Securities, to ensure compliance with HKMA regulatory requirements and adequate liquidity under normal and stressed circumstances.

Section A: Branch Information

VII. Liquidity (continued)

2) Liquidity Risk Management - continued

Risk Controls

In designing the framework of Liquidity Risk Controls, HK Branch has incorporated the principles of complete coverage, appropriateness and effectiveness to set out various types of liquidity risk controls and manage the position of liquidity risk metrics from different perspectives, in consideration of balance sheet structure, cash-flow profile, liquidity position, funding concentration across different dimensions, early warning indicators etc.

As for the implementation of risk controls, HK Branch measures and monitors the position of liquidity risk metrics and reports the results to Market Risk Committee. These risk controls are reviewed regularly to ensure the complete coverage, appropriateness and effectiveness on a continuing basis.

Stress Test

In designing the framework of Liquidity Stress Testing, HK Branch has incorporated the principles of complete coverage, effectiveness and timeliness to conduct the stress testing and provide the results from different perspectives, in consideration of changeable market environment and on the basis of insightful assessment and analysis to Senior Management to make prompt decision on investment and funding strategies and risk remedial or mitigating actions under normal and stressed circumstances.

As for the implementation of stress testing, HK Branch conducts the regular Liquidity Stress Testing for Liquidity Maintenance Ratio and on cash-flow basis and reports the results to Market Risk Committee. The stress scenarios include Bank Specific Scenario, Market Disruption Scenario and Combination Scenario of the above scenarios. These scenarios are reviewed regularly to ensure that the stress testing scenarios are of sufficient severity level and the results are effective to conduct the assessment of the adequacy of liquidity under stressed circumstances.

Contingency Funding Plan

In designing the framework of Contingency Funding Plan (CFP), HK Branch has incorporated the principles of effectiveness, operational feasibility and timeliness to set out various types of contingency funding measures to acquire sufficient funding during the liquidity crisis situation in consideration of funding capacity and support from Head Office, funding and operational costs, current market situation, regulatory requirements, and other short-term or long-term liquidity, financial or operational impacts etc.

As for the implementation of CFP, HK Branch conducts regular testing of CFP to ensure the availability of contingency funding measures and the readiness of the respective arrangements, and evaluate the overall effectiveness, operational feasibility and impacts.

IX. Remuneration system

Remuneration Policy

This disclosure is made in accordance with the Hong Kong Monetary Authority's Supervisory Policy Manual CG-5 'Guideline on a Sound Remuneration System' (HKMA SPM CG-5).

The remuneration policy of Mitsubishi UFJ Trust and Banking Corporation, Hong Kong Branch is established at branch level in accordance with local custom and regulations without setting up a remuneration committee and applies to all locally employed staff. Hong Kong Branch does not engage external consultant in providing advice on remuneration. A few executives in this branch are considered to be senior management and key personnel. Senior management comprises 3 executives being charged with overseeing all the branch activities. They are supported by risk control personnel to monitor the key risks arising from change in local custom and regulations that directly affect minimum wage and statutory benefits. Key personnel are employees on manager grade or above heading major business functions. During the reporting period, the number of key personnel was 21. The remuneration package of this branch is total cash basis with minimal benefits, variable pay only consisting of cash discretionary bonus without any deferment, which enables this branch to retain sufficient human resources in risk management.

Pay for staff is reviewed in March each year based on individual job performance in the immediate past assessment year. Senior management is responsible for the review process and report the decision to Head Office for record. The criteria used for calculating the score of performance measurement are personal achievement, knowledge, competence and teamwork. Discretionary bonus may be paid, subject to senior management's review each year, to the staff in accordance with his or her performance appraisal done in March. Employees carrying out the duties of risk management, financial control, compliance, legal and internal audit are also subject to that review to ensure that they are remunerated independently of the business they oversee.

During the reporting period, no change was made to the remuneration policy and measures to counter key risks. No deferred payment, sign-on bonus, sign-on award or severance payment was paid to any staff in this Branch. Given a small number of executives, disclosure of a breakdown of the remuneration figures of senior management and key personnel is sensitive; therefore, the disclosure of aggregate figures is considered to be appropriate in accordance with Paragraph 3.2.6 of HKMA SPM CG-5. The remuneration of senior management and key personnel for this reporting period was as follows:-

Remuneration for <u>1 April 2023 to 31 March 2024</u>	<u>HKD'000</u>
Fixed Pay	16,996
Variable Pay	806
Remuneration for <u>1 April 2022 to 31 March 2023</u>	<u>HKD'000</u>
