Hong Kong Branch

#### Wells Fargo Bank N.A. Hong Kong Branch

#### **Review of Activities**

Wells Fargo Bank N.A. - Hong Kong Branch ("the Branch") is a branch of Wells Fargo Bank N.A. ("the Head Office").

The major business of the Branch is to serve financial institutions and corporate customers with loans, deposits and trade related product and services. The Branch provides regional support services which include supporting Wells Fargo customers across Asia.

During the six months ended 30 Jun 2023, the Branch generated total income HK\$549.9 million in 2023, decreased 18.60% from 2022. Net interest income decreased 62.03% to HK\$7.1 million and non-interest income decreased 17.35% to HK\$542.7million. Total expenses decreased 16.34% to HK\$541.9 million.

Total assets excluding inter-group balances were at HK\$1.3 billion as of 30 Jun 2023. Total liabilities excluding inter-group balances were at HK\$0.9 billion as of 30 Jun 2023. Gross advances to customers were HK\$1.4 million, decreased 95.28% from 31 Dec 2022. There were no customer deposits as of 30 Jun 2023 and 31 Dec 2022.

The Branch's overall liquidity position remains good. Average liquidity maintenance ratio was 612.89% for the quarter ended 30 Jun 2023, compared to 1,145.15% for quarter ended 31 Mar 2023 and 3,997.19% for quarter ended 30 Jun 2022.

The Branch's financial position reflects significant investments in local resources to help strengthen overall internal controls and to effectively manage risks.

International claims which constitute not less than 10% of total international claims are disclosed above based on the physical location of the counterparty after taking into account the transfer of risks. In general, risk transfer is made when claims are guaranteed by a party in a country which is different from that of the counterparty or when the claims are on an overseas branch of a bank whose head office is located in another country.

4. Impairment allowances for impaired assets were as follows:

The collective impairment allowances are centrally done on a global basis by Head Office based on an assessment of the degree of credit risk inherent in Hong Kong Branch's overall portfolio of loans and advances and other exposures.

Individual impairment allowance for impaired assets is made against loans and advances or other exposures as and when they are considered necessary by the management.

There were no collective impairment allowances and individual impairment allowances as at 30 Jun 2023 (31 Dec 2022: Nil).

- Individual impaired loans are those advances where full repayments of principal and / or interest are considered unlikely. Loans are impaired if there is objective evidence of impairment, as at 30 Jun 2023 was Nil (31 Dec 2022: Nil).
- 6. There were no overdue advances to customers as at 30 Jun 2023 (31 Dec 2022: Nil).
- 7. There were no rescheduled advances to customers, banks and other financial institutions as at 30 Jun 2023 (31 Dec 2022: Nil).
- 8. There were no advances to banks which have been overdue for more than 3 months as at 30 Jun 2023 (31 Dec 2022: Nil). No other overdue advances to other financial institutions as at 30 Jun 2023 (31 Dec 2022: Nil).
- 9. There were no repossessed assets held as at 30 Jun 2023 (31 Dec 2022: Nil).

There was no structural and net option position as at 30 Jun 2023 (at 31 Dec 2022: Nil).

Hong Kong Branch

#### IV. Unaudited Off-balance sheet information

#### (i) Contingent liabilities and commitments

The following is a summary of the contractual / notional amounts of each significant class of contingent liabilities and commitments:

|  | 30 Jun 2023<br>HK\$'000 | 31 Dec 2022<br>HK\$'000 |
|--|-------------------------|-------------------------|
| Trade-related contingencies  Other commitments  - with an original maturity of under 1 year or are unconditionally | 394,974                 | 225,227                 |
| cancellable  | 624,524                 | 978,396                 |
| Total  | 1,019,498               | 1,203,623               |

The above amounts represent a worst case scenario of credit risk exposures arising from these instruments, without taking into account any collateral held or other credit enhancements attached. The amounts do not represent amounts at risk at the balance sheet dates.

#### (ii) Derivatives

The contractual / notional amounts of derivative financial instruments are disclosed as follows:

|                         | 30 Jun 2023<br>HK\$'000 | 31 Dec 2022<br>HK\$'000 |
|-------------------------|-------------------------|-------------------------|
| Exchange rate contracts | 129,592                 | 623,218                 |
| Total                   | 129,592                 | 623,218                 |

The total fair value of the above reported instruments obtained by marking to market was HK\$0.33 million (positive value) as at 30 Jun 2023 (31 Dec 2022: HK\$0.93 million (positive value)). The Branch does not enter into any bilateral arrangement for these contracts. The contractual amounts of these instruments indicate the volume of transactions outstanding at the balance sheet date; they do not represent amounts at risk.

### V. Liquidity information

#### 1. Liquidity maintenance ratio

The average liquidity maintenance ratio is the simple average of each calendar month's average liquidity maintenance ratio calculated in accordance with the Banking (Liquidity) Rules (Rule 48) made by the Monetary Authority under section 97H of the Banking Ordinance.

|             | Quarter Ended    | Quarter Ended    | Quarter Ended    |
|-------------|------------------|------------------|------------------|
|             | 30 Jun 2023<br>% | 31 Mar 2023<br>% | 30 Jun 2022<br>% |
| Average LMR | 612.89           | 1,145.15         | 3,997.19         |

Hong Kong Branch

#### V. Liquidity information (continued)

#### 2. Approach to liquidity risk management

"Wells Fargo Bank, N.A., Hong Kong Branch ("the Branch") has primary responsibility for ensuring it is able to meet all on and off-balance sheet obligations as they mature without incurring excessive cost, while continuing to fund its assets and growth therein. The Branch is required to comply with the liquidity regime prescribed by the Hong Kong Monetary Authority ("the HKMA") and to meet the HKMA's requirements as outlined in the Supervisory Policy Manuals LM-1 "Regulatory Framework for Supervision of Liquidity Risk" and LM-2 "Sound Systems and Controls for Liquidity Risk Management" ("Requirements"). The Corporate Governance Groups of the Branch has the responsibility to ensure that the liquidity risk management policies and practices of the Branch are in accordance with its globally coordinated, centralized approach to liquidity risk management.

The Branch's liquidity management policy ("the Policy") is reviewed and approved by APAC Regional Asset and Liability Committee ("APAC ALCO") and Hong Kong Branch Management and Control Committee ("HKMCC") on an annual basis. However, it is likely that the Policy will evolve on a more frequent basis as business activity changes in response to stress test outputs or a changing regulatory environment.

Prudent liquidity planning and management are crucial to maintaining a sound balance sheet and stable earnings at an acceptable level as well as withstanding the stresses resulting from an internal problem or crisis in the marketplace.

Proper liquidity management requires an organizational structure with clearly defined segregation of roles and responsibilities. The Multi-Currency Treasury group in APAC ("MCT APAC") formulates the funding strategy, manages the liquidity and funding needs, the interest rate risk and the mismatched FX exposure of the banking book of the Branch. The APAC ALCO, HKMCC and Independent Risk Management provide oversight and credible challenge of MCT APAC's risk management strategies and assumptions. MCT APAC reports and discusses liquidity strategies, issues and risks with APAC ALCO and HKMCC in their regular meetings.

Liquidity limits are established to ensure that the Branch maintains appropriate liquidity under both normal and stressed conditions. Liquidity risk report on the liquidity maintenance ratio ("LMR") is produced and the cash balances are monitored daily. The monthly liquidity stress testing is to measure the LMR and the minimum cash balance within 3 months under idiosyncratic, market-wide and combined stress scenarios. The stress testing results are reported to APAC ALCO and HKMCC. Proper escalation and notification processes to report breach of any liquidity limits to HK Branch Crisis Management Team, APAC ALCO and HKMCC are established. MCT APAC is required to take corrective actions immediately. As it is crucial to the Branch's viability to maintain appropriate liquidity, a contingency funding plan (CFP) and a recovery plan (RCP) are in place to address liquidity needs under idiosyncratic, market-wide, and/or combined stress events.

The CFP includes procedures for monitoring emerging liquidity events, a governance framework that includes an escalation management process, and potential mitigating actions which the Branch could undertake The CFP is regularly tested for effectiveness and operational feasibility. The RCP is submitted to the HKMA every two years, or sooner if there are any material changes. The RCP provides a framework whereby the Branch can timely identify events and circumstances that could lead to financial distress and that, if uncorrected, could ultimately result in the Branch's failure. As these situations are monitored, the RCP identifies trigger points at which the Branch leadership must consider whether to implement recovery options. These recovery options are designed to counteract the effects of the identified events or circumstances and to strengthen the Branch's financial profile. The RCP states how to evaluate options, including feasibility and speed of execution, as well as the resulting impact on the Branch, Wells

Fargo Bank, N.A. ("WFBNA"), and other WFBNA branches. This RCP also establishes responsibilities for monitoring the financial health of the Branch, monitoring the triggers that lead to potentially implementing recovery options, determining the manner of communicating those options both internally and externally, making decisions associated with selecting recovery options, and executing the selected options. It also addresses who communicates with the HKMA and relevant stakeholders within the Branch, WFBNA, and Wells Fargo & Company. The recovery options include borrowing from WFBNA, extending maturities from WFBNA and rolling off loans and reducing/ceasing lending to other branches. These are the main liquidity risk mitigation techniques for the Branch.

Hong Kong Branch

# V. Liquidity information (continued)

# 2. Approach to liquidity risk management (continued)

The Branch has two sources of liquidity to meet its funding. The primary source is intra-group funding from Head Office. The Branch may also source liquidity directly from customers who have a need to place their cash with a secure financial institution. This deposit taking activity serves as an internal early warning indicator as to the health of both the wholesale money market and of the Branch's standing and perceived financial strength from time to time."

#### 3. Contractual maturity profile
