Chairman
Chung-Dar Lei

Reflecting on 2023, the global banking sector encountered various challenges, including international geopolitical conflicts, US-China tensions, global inflation, significant US interest rate hikes, and climate change, all of which significantly impacted financial markets. For Mega Bank, the substantial increase in US interest rates boosted interest rate spreads and income from interest-bearing assets but also dampened customer loan demand and raised deposit funding costs. Nevertheless, the Bank prudently responded to various internal and external factors, seizing the opportunity to widen the interest rate differential between the New Taiwan Dollar (NTD) and the US Dollar (USD) in 2023. Thus, the Bank effectively utilized ample USD liquidity for financial operations, substantially enhancing overall profitability. Additionally, businesses in consumer finance and wealth management experienced notable growth due to active business transformation initiatives. With the concerted efforts of all staff, the Bank achieved a post-tax net profit of NTD 31.025 billion in 2023, ranking second among all domestic banks and setting a new historical record with a YoY growth rate of 28.3%, the highest increase among state-owned banks in Taiwan.

Looking ahead to 2024, despite lingering uncertainties in external conditions, the US inflation rate is expected to cool down gradually, and mild interest rate cuts are projected to commence this year. Taiwan's economic fundamentals indicate a steady recovery. Consequently, Mega Bank will persist in solidifying core niche businesses such as syndicated loans, corporate finance, international finance, overseas markets, and foreign exchange while actively boosting market share in major sectors like deposits and loans. Moreover, the Bank will leverage various Fin-Tech applications to continually refine relevant business structures, including strengthening ties with SMEs, expanding the scale of wealth management and consumer finance businesses, optimizing profit structures, and diversifying customer portfolios.

While ensuring robust risk management and regulatory compliance, Mega Bank remains dedicated to cultivating a diverse and balanced profit landscape, advancing digital transformation, embracing ESG sustainable finance practices, and fortifying cybersecurity and consumer protection measures. Through tangible actions, the Bank will persist in demonstrating its unwavering commitment to customer services: treated as kin and served like a king.

Operation Results of 2023

I. Global & Domestic Economic Dynamics

1. Economic Growth

In 2023, although most countries benefited from a rapid post-pandemic recovery in tourism-related entertainment demand, high inflation, weak global commodity demand, and continued destocking in the supply chain led to a significant hindrance in the manufacturing sector. As a result, the IMF reported a global economic growth rate of 3.2% in 2023, down by 0.3% from 2022. Looking ahead to 2024, the IMF forecasts that the global economic growth rate will remain at 3.2%. However, regional performances vary, and downside risks to the economic outlook persist. Key reasons include the previously hasty and substantial tightening of monetary policies, leading to increased vulnerability in financial markets and corporate and household sectors. Structural issues such as the correction in China's real estate sector still affect the Chinese economy. Furthermore, if the Israel-Palestine conflict expands to more Middle Eastern countries, it could escalate inflation risks and limit economic growth.

In 2023, Taiwan's economic growth rate was 1.31%. The economy in Q1 continued its weakness from the latter half of 2022, contracting by 3.5%. This was mainly due to poor end demand suppressing export and investment performance. Although exports slightly improved from Q2 onwards, the recovery momentum was yet to be apparent, and there were disparities in industry performance. Many enterprises postponed investments due to uncertain global economic prospects. At the same time, private consumption remained stable due to a robust job market, increased post-pandemic travel willingness, and government cash handout policies. In the latter half of the year, the impact of inventory destocking slightly eased, coupled with a lower base period, leading to a gradual quarterly GDP growth rate recovery.

For 2024, Taiwan's Directorate-General of Budget, Accounting, and Statistics (DGBAS, under Executive Yuan) estimates that exports and investments are expected to stabilize and rebound due to a lower base period. The unemployment rate is expected to remain low, and the increase in basic wages and record highs in the stock market are expected to boost consumer confidence, contributing to moderate growth in private consumption. Reducing the impact of inventory destocking will also turn inventory changes into a positive contribution to economic growth. Taiwan's economic growth rate is expected to increase to 3.43% in 2024, significantly rebounding from 2023. However, increased imports will result in a relatively weak contribution of net external demand to economic growth.

2. Financial Market

Regarding interest rates, in 2023, the Federal Reserve (Fed) continued its rate hike pace, raising rates four times by 25 basis points each from January to July, bringing the policy rate ranging from 5.25% to 5.5%. The Fed remained hawkish until November due to slow inflation cooling and a strong labor market. However, with the gradual easing of inflation towards the end of the year, the Fed softened its hawkish stance at the December monetary policy meeting and relaxed expectations for the magnitude of rate cuts in 2024.

In Taiwan, the Central Bank (CBC) raised rates by 12.5 basis points in March 2023, bringing the discount rate to 1.875%. This marked the fifth rate hike since March 2022, totaling an increase of 75 basis points. Subsequently, CBC maintained interest rates unchanged, mainly considering factors such as the expected gradual return of inflation, a more severe-than-expected slowdown in economic growth, a negative output gap, and a downward-leaning economic outlook. After the rate hike in March, the overnight call rate fluctuated between 0.68% and 0.69% from April to December.

Regarding foreign exchange rates, in 2023Q1, NTD against USD exhibited a V-shaped trend, starting from around NTD 30.7 at the beginning of the year, then briefly rising to nearly NTD 29.7 in early February before depreciating again. This was mainly due to the resilience of the US economy, which altered market expectations regarding the extent of rate hikes by the Fed. From early March to mid-June, the NTD fluctuated around 30.65 against the USD. Subsequently, the Fed's hawkish forward guidance and the continued rise in international USD and US Treasury yields led to new highs. In Q3, with the peak season for domestic dividend payments, substantial capital outflows by foreign investors, and weak trade momentum, the NTD gradually depreciated to nearly 32.5 against the USD by the end of October. Later, as year-end inflation in the US slowed down, market expectations of a US interest rate cut increased and non-US currencies strengthened as the USD weakened generally; the NTD against the USD rose to around 30.74 by the end of the year. The average exchange rate of the NTD against the USD in 2023 was 31.15, depreciating by 4.4% compared to 2022.

II. Change in Organization Structure

Effective January 1, 2023, the payment business was integrated and placed under the coordination of the Card Department to streamline resource utilization across the Bank and maximize marketing efficiency. Additionally, the Card Department was renamed to the Card & Payment Department. Furthermore, to effectively utilize the workforce and enhance management efficiency, the Overseas Business Planning Department and Overseas Business Management Department were merged into the Overseas Business Management Department, effective February 16, 2023. On January 1, 2024, the Appraisal Center integrated with the Credit Analysis Department. The Regional Credit Management Division was renamed the Regional Business Center, with additional supervisory functions for branch business promotion. Simultaneously, the General Administration Group structure was removed to align with actual operations.

III. Operating Results

Units: Millions in NT dollars, except as indicated

Item	Year	2023	2022	Change
Deposits (including due to Chunghwa Post Co., Ltd)		2,895,738	2,924,052	-0.97%
Loans		2,075,709	2,087,539	-0.57%
Foreign Exchange Business (millions in US\$)		711,430	906,391	-21.51%
Securities Purchased		935,849	955,622	-2.07%
Long-term Equity Investments		21,714	21,157	2.63%
Credit Card Loans		1,752	1,733	1.10%
Trust Assets		710,014	701,514	1.21%

Note 1: All figures above are average balance, except foreign exchange business.

Note 2: At the end of 2023, the amount of the Bank's non-performing loans was NT\$3,636 million, NPL ratio 0.17%, and coverage ratio was 985%.

Note 3: The decrease in forex undertakings in 2023 compared to 2022 is mainly due to the higher base period in 2022. Additionally, the decline in Taiwan's foreign trade in 2023 resulted in a downturn in Mega Bank's import and export business, reflecting the broader environmental impact.

IV. Budget Implementation

2023 Net Income (millions in NT dollars)	2023 Net Income Budget (millions in NT dollars)	Budget Achievement Rate
31,025	23,382	132.69%

Summary of Business Plan for 2024

I. Business Plan

- Increase corporate banking business momentum and promote integrated marketing to strengthen the Bank's core business.
- Develop diversified and digital consumer banking businesses based on customer needs.
- Implement differential management for individual offshore locations and cultivate foreign markets to uplift the operation momentum.
- Promote digital transformation and financial ecosystem while developing innovative AI financial services.
- Optimize performance in financial operations to generate solid investment returns.
- Ensure the effectiveness of internal control and regulatory compliance systems to establish a corporate culture of ethical corporate management.
- Fortify the risk control mechanism and enhance the identification, assessment, and management of climate risks.
- Effectuate ESG sustainable finance policies and exert positive impacts to promote social prosperity.

President
Kuang-Hua Hu

II. Business Objectives

With consideration of current economic and financial developments, the Bank has set up the following business targets based on competitive strategies for the year of 2024: total deposits of NT\$2,910,467 million, total loans of NT\$2,138,356 million and foreign exchange business of US\$728,199 million.

Development Strategies

The Bank's medium and long-term development strategy, detailed implementation plan, various businesses and financial objectives are based on the conglomerate's medium and long-term development strategy disclosed by the Bank's parent company Mega Financial Holding Co., Ltd.

- In terms of financial and customers
 - ❖ Scale up capital assets to boost the market status of Mega Financial Holdings group.
 - ❖ Strengthen overseas businesses and identify opportunities to relocated Taiwanese businesses.
 - ❖ Consolidate competitive advantages in corporate banking and foreign exchange and deepen the cross-selling of the Group.
 - ❖ Develop consumer banking and wealth management services to enrich the Group's active customer base.
- In terms of internal procedures
 - ❖ Increase corporate governance standards and pursue the Group's sustainable development.
 - ❖ Improve the Group's management efficiency to optimize business operations and increase return.
 - ❖ Reinforce the risk control of the Group and implement internal and external legal compliance.
 - ❖ Protect the Group's intellectual properties and increase investment of digitalization and IT.

- In terms of learning and growth
 - ❖ Motivate and enhance employee value and foster more digital talents.
 - ❖ Develop the Group's digital culture and encourages all types of R&D and innovations.

Major Regulatory Changes and Influences

- On August 25, 2023, the Financial Supervisory Commission (FSC) revised the "Regulations Governing Internal Operating Systems and Procedures for the Outsourcing of Financial Institution Operation," requiring financial institutions to establish effective layered governance frameworks, risk assessment structures, and internal control mechanisms for outsourced operations. They also adjusted the application process and documents needed for outsourcing operations.
- In accordance with the letter No. JGYG11102303402 issued by the FSC on January 10, 2023, the Bankers Association (BAROC) revised the "Credit Guidelines for Members of the Republic of China Banking Association" on November 3, 2023, to encourage the inclusion of Sustainable Economic Activity Assessment Reference Guidelines in credit business operations.
- On December 7, 2023, the FSC issued Directive No. JGYF11202738872, interpreting relevant provisions of Article 45 of the Financial Holding Company Act, including restrictions on financial holding company (FHC) principals serving as principals of enterprises referred to in Article 45, Paragraph 1, Subparagraph 2 of the Financial Holding Company Act, and specifying the calculation method for the balance of short-term securities and bond transactions.
- On July 12, 2023, BAROC revised the "Corporate Governance Practices Guidelines for the Banking Industry" to require directors and supervisors to participate in a certain number of hours of corporate sustainability courses starting from the next fiscal year after assuming office.

Bank Profile

Historical Overview

Mega International Commercial Bank Co., Ltd. (Mega Bank) has come into being as a result of the merger of The International Commercial Bank of China and Chiao Tung Bank, effective on August 21, 2006. Both banks have been proud of their longtime histories of outstanding track records in our country.

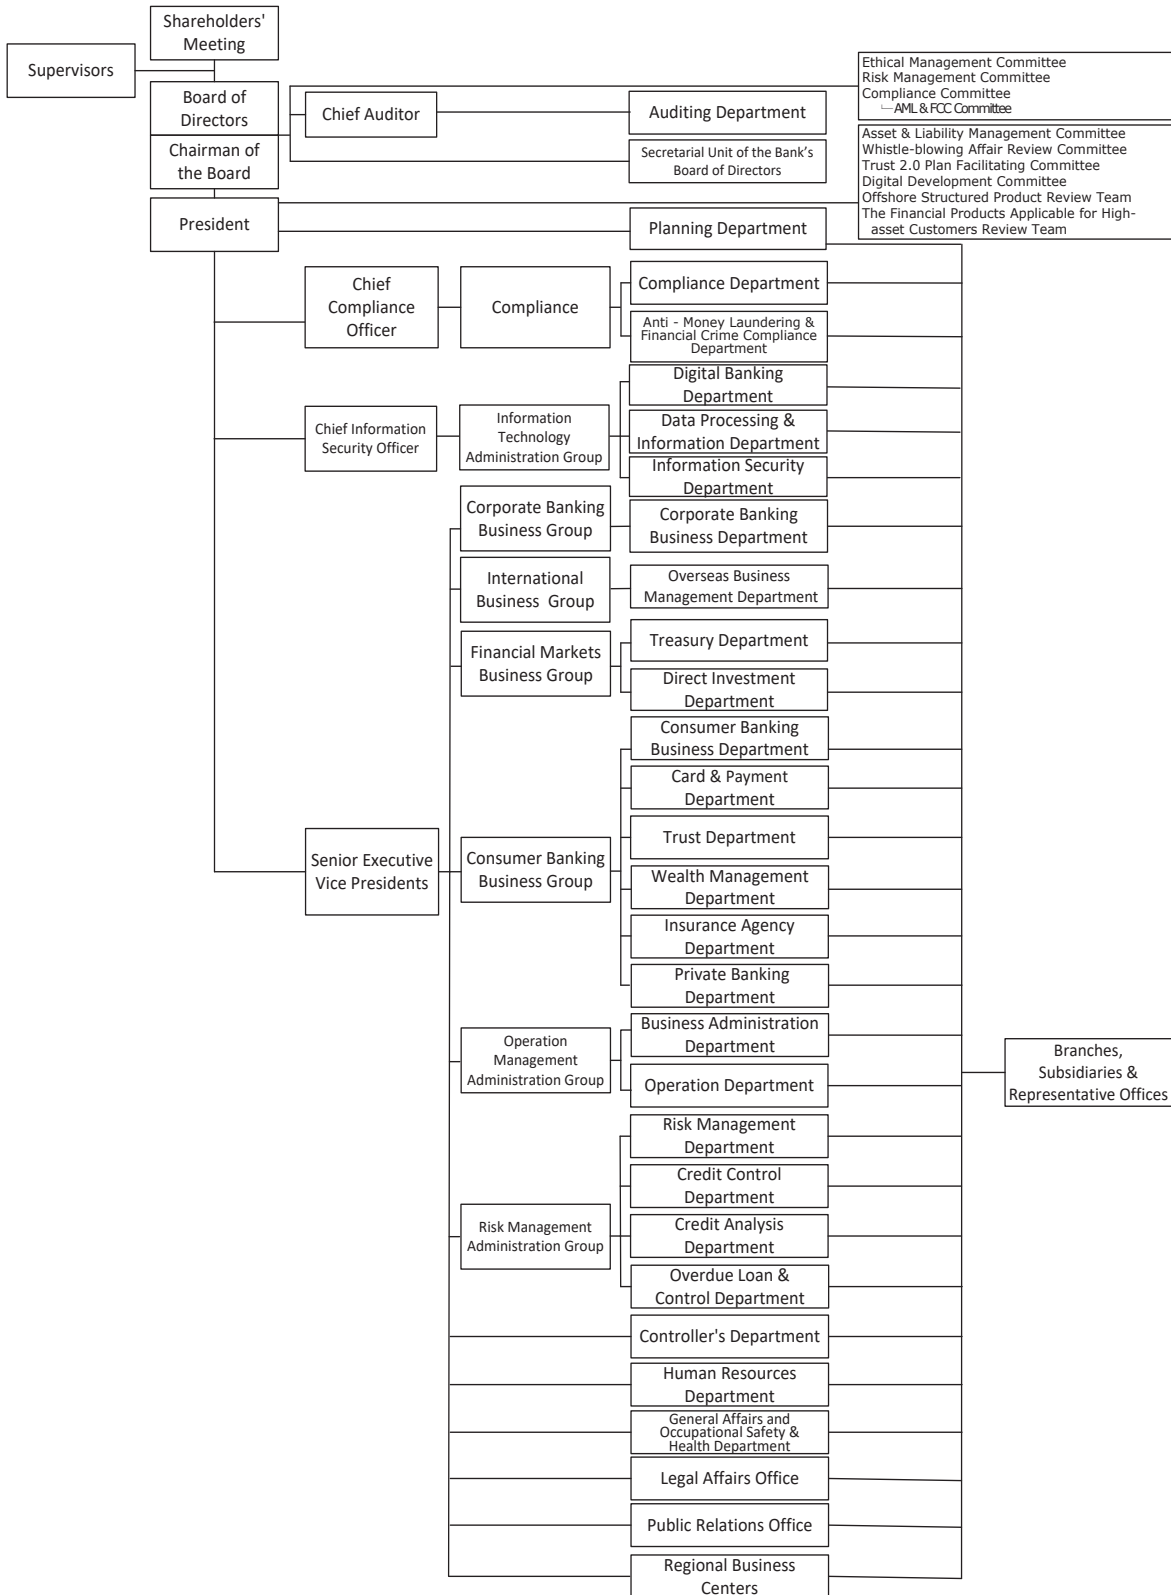

In 1971, The Bank of China was privatized to become The International Commercial Bank of China Co., Ltd. (ICBC), whose origin dates back to the Ta Ching Bank and its predecessor, the Hupu Bank (the bank under the finance arm of the imperial court in the Ching Dynasty). The Bank of China had been entrusted with the mission to serve as an agent of the Treasury and a note-issuing bank before the establishment of the Central Bank of China in 1928. The Bank of China was designated as a licensed specialized bank for international trade and foreign exchange thereafter. Taking advantage of its specialization in foreign exchange, worldwide network of outlets and correspondence banks, superb bank assets, and excellent business performance, ICBC has become a top-notch bank in the Republic of China.

Set up five years before the founding of the Republic of China, Chiao Tung Bank Co., Ltd. (CTB) had also been delegated to act as an agent of the government coffer and a note-issuing bank in concert with the Bank of China at the outset of the Republic. Transforming from a licensed bank for industries in 1928, an industrial bank in 1975, and a development bank in 1979, CTB turned from a state-controlled bank into a privately-owned one in 1999. It has engaged in loan extensions for medium- and long-term development, innovation and guidance investment (equity investment), and venture capital ever since. For years, CTB has made significant contributions to the improvement of industrial structure and the promotion of the upgrading of industry by assisting in the development of strategic and vital industries in line with the economic policy and the economic development plan of the government.

Building on the professional advantages inherited from The International Commercial Bank of China and Chiao Tung Bank, the Bank leads the domestic banking industry in various areas, including international trade and foreign exchange, international syndicated loans, project financing, and innovative and venture capital. Leveraging the advantage of its global presence and correspondent banks, the Bank has made immense contributions in supporting domestic companies to expand internationally, upgrading industrial, and promoting economic developments. In recent years, by following the footsteps of peers in advanced countries, the Bank is dedicating all efforts to optimizing corporate governance and promoting sustainable development.

By the end of 2023, in addition to Offshore Banking Branch, the Bank has 108 branches (including Foreign Department) at home, and 24 branches, 7 sub-branches, and 3 representative offices (including marketing office) abroad. Together with the network are wholly-owned bank subsidiaries in Thailand, along with their branches, bringing the number of overseas outposts to 39 in total. It has 6,894 employees and an aggregate paid-in capital of NT\$85.362 billion.

Organization Chart

Directors, Supervisors & Major Shareholders of the Institutional Shareholders

I. Board of Directors and Supervisors

As of December 31, 2023

Title	Name	Current Position / Occupation

	Old Labor Pension Fund (1.38%)

III. Policies for Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal obligation or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Bank and subsidiaries calculate the number of shares based on the closing price at the previous day of the Board of Directors' resolution day.

Execution of Corporate Governance

I. Attendance Record

A total of forty-nine meetings of the Board of Directors (including meetings of Board of Managing Directors) were held in 2023. The attendance of directors and supervisors was as follows:

Title	Name	Attendance in Person	By Proxy	Attendance Rate	Remarks
Chairman of the Board	Chung-Dar Lei	26	2	92.9%	Assumed on Jun. 16, 2023
Chairman of the Board	Chao-Shun Chang	16	1	94.1%	Resigned on May. 26, 2023
Managing Director	Kuang-Hua Hu	49	0	100%	Re-elected on Dec. 29, 2021
Managing Director	Yu-Mei Hsiao	32	1	97.0%	Assumed on May. 25, 2023
Managing Director	Chien-Liang Chiu	48	1	98.0%	Re-elected on Dec. 29, 2021
Independent Managing Director	Fu-Long Chen	48	1	98.0%	Re-elected on Dec. 29, 2021
Independent Director	Ying Wu	13	1	92.9%	Re-elected on Dec. 29, 2021
Independent Director	Chih-Jen Hsu	13	1	92.9%	Re-elected on Dec. 29, 2021
Director	Chia-Chi Hsiao	12	2	85.7%	Assumed on Nov. 23, 2022
Director	Shin-Horng Chen	13	1	92.9%	Assumed on Dec. 29, 2021
Director	Chao-Huang Kuo	13	1	92.9%	Re-elected on Dec. 29, 2021
Director	Yen-Te Wu	12	2	85.7%	Assumed on Dec. 29, 2021
Director	Chih-Yang Cheng	14	0	100%	Re-elected on Dec. 29, 2021
Director	Hung-Chang Lee	8	1	88.9%	Assumed on May. 24, 2023
Director	Chia-Chung Chen	9	0	100%	Resigned on Jul. 1, 2023
Director	Cheng-Chiang Hsu	14	0	100%	Re-elected on Dec. 29, 2021
Resident Supervisor	Sheng-Chang Liu	45	4	91.8%	Re-elected on Dec. 29, 2021
Supervisor	Miao-Hsiang Chen	14	0	100%	Re-elected on Dec. 29, 2021
Supervisor	Yu-Ling Hung	14	0	100%	Re-elected on Dec. 29, 2021
Supervisor	Ming-Sung Kao	14	0	100%	Assumed on Dec. 29, 2021
Supervisor	Yung-Cheng Yang	12	2	85.7%	Assumed on Dec. 29, 2021

Note: 1. The Bank's directors and supervisors are appointed by the Mega Financial Holding Company. The term in office for 17th Board of Directors is from Dec. 29, 2021 to Dec. 28, 2024.

II. Corporate Governance Implementation Status and Deviations from “Corporate Governance Best-Practice Principles for Banks”

Year 2023

Evaluation Item	Implementation Status		Abstract Illustration
	Yes	No	
<p>A. Ownership Structure and Shareholders’ Equity</p> <p>1. Does the Bank establish an internal operating procedure to deal with shareholders’ suggestions, doubts, disputes and litigations, and implement based on the procedure?</p>	✓		<ul style="list-style-type: none"> ■ The Bank is a 100% owned subsidiary of Mega Financial Holding Company (“Mega FHC”). The Bank’s operation and management, financial business information and audit management are handled in accordance with the “Regulations on Supervision of Mega FHC’s Subsidiaries”. Recommendations or questions regarding the Bank’s operations may be conveyed through formal letters, telephones, emails, etc. The Bank’s business supervisory units will handle or explain the case, in accordance to the internal operating procedures. ■ Mega FHC is the Bank’s sole shareholder. Any shareholders’ dispute or litigation shall be handled by the supervisory units. However, if it is necessary to engage a lawyer, the units, according to the Bank’s “Directions for Handling Legal Cases”, shall request for approval from the authorized level before engaging a lawyer.
<p>2. Does the Bank possess the identities of its major shareholders as well as the ultimate owners of those shares?</p>	✓		<ul style="list-style-type: none"> ■ Mega FHC is the Bank’s sole shareholder and ultimate controller.
<p>3. Does the Bank establish and execute the risk management and firewall system within its conglomerate structure?</p>	✓		<ul style="list-style-type: none"> ■ The responsibilities for the management and risk control mechanism of assets and financial matters of the Bank and affiliated companies are completely independent; and tight firewall mechanisms are established and executed. ● Information security: The internet between the Bank and affiliated companies is connected directly through peer-to-peer which is the safest way of internet connection, and controlled by Firewall to avoid unauthorized connection. ● Client confidentiality: An internal control process has been set for person in charge of processing, using customer information and entering and removing customers’ personal particulars, and a post-execution supervision mechanism is in place to ensure the appropriateness of authorization.

Evaluation Item	Implementation Status		
	Yes	No	
			<p>Abstract Illustration</p> <ul style="list-style-type: none"> ● Stakeholder transactions: The Bank has established “Related Party Transaction Principles”. Also, in accordance with the relevant laws and regulations, the stakeholder transaction balance is submitted to the parent company, Mega FHC, regularly. Mega FHC then discloses the related information and submits it to the competent authority.
<p>B. Composition and Responsibilities of the Board of Directors</p> <p>1. Has the Board of Directors established a diversity policy and specific management objectives?</p>	✓		<ul style="list-style-type: none"> ■ The Bank’s sole institutional shareholder supports on the diversity, professional background, and experiences of the Board of Directors. ■ In the 17th Board of Directors (BOD) of Mega Bank, as of the end of December 2023, there are currently 14 directors and five supervisors. Among them are two directors with employee status (representing 14.3% of the current directors) and four combined female directors and supervisors (representing 21.1% of BOD). The average age is 59.9 years old. ■ The Board of Directors comprises members from different backgrounds in the financial industry, government agencies, industrial circles, and academia, including lawyers, accountants, financial scholars, and IT network specialists. Their professional backgrounds and experiences cover law, accounting, industrial economics, tax administration, financial management, FinTech, and online payment. The members’ professional skills consist of business management, risk management, regulatory compliance, anti-money laundering, internal control, finance and banking, economic analysis, knowledge in industrial finance, ESG and corporate sustainability, etc.
<p>2. Does the Bank voluntarily establish other functional committees in addition to the Remuneration Committee and the Audit Committee?</p>	✓		<ul style="list-style-type: none"> ■ After joining Mega FHC, the Bank is delisted from the stock market and is not mandatory to set up a Remuneration Committee. The design and adjustment of the Bank’s remuneration is submitted to Mega FHC for approval. ■ Mega FHC has established an Audit Committee. According to regulations issued by the Financial Supervisory Commission (FSC), a financial institution wholly owned by a financial holding company (FHC) may choose to establish an audit committee or appoint supervisors. The Bank operates under a supervisory system and expects to

Evaluation Item	Implementation Status		
	Yes	No	
			<p>Abstract Illustration</p> <p>establish an Audit Committee to replace the supervisors. The Bank's supervisors have the authority to communicate with the Bank's employees, the head of internal audit, and shareholders at any time. They may also convene supervisor meetings on an ad hoc basis, with the attendance of an external auditor when necessary.</p> <ul style="list-style-type: none"> ■ The Bank has set up the committees under the Board of Directors, including the Risk Management Committee, Compliance Committee, Compliance Action Committee, and Ethical Management Committee, and the related minutes were reported to the Board of Directors to grasp the Bank's business plan and important policies and effectively supervise the management.
3. Has the listed bank established and implemented methods for assessing the performance of the Board of Directors, conducted performance evaluation annually, presented the performance evaluation results to the Board of Directors, and used the results as reference for remuneration and re-election nominations of individual director?	✓		<ul style="list-style-type: none"> ■ The Bank is not listed and not traded OTC and is a 100% owned subsidiary of Mega FHC. ■ In order to establish a sound corporate governance system, the Bank formulated the “Corporate Governance Best Practice Principles” which includes detailed regulations about the operation of the Board of Directors to build an effective corporate governance framework. Reference was made to the relevant provisions of the “Corporate Governance Best Practice Principles for Banks” promulgated by the Bankers Association of the Republic of China. ■ To enhance corporate governance and improve the functionality and efficiency of BOD, the Bank amended its "Board Performance Evaluation Guidelines" on June 9, 2023. According to these guidelines, BOD should conduct a performance evaluation at the end of each fiscal year, following the prescribed evaluation procedures and criteria. The Bank reported the results of the performance evaluation for the year 2023 to its 17th BOD at its 29th meeting on January 5, 2024.
4. Does the company regularly evaluate the independence of CPAs?	✓		<ul style="list-style-type: none"> ■ When appointing a CPA, the Bank shall assess its independence and request it to provide “Independence Declaration on the Auditing and Attestation of Financial Report by the Certified Public Accountant”.
C. Has the Bank established adequate number of competent corporate governance personnel and officer who are in charge of corporate governance-	✓		<ul style="list-style-type: none"> ■ The Bank has a chief corporate governance officer and relevant personnel of corporate governance to deal with the related affairs. The Bank's General Affairs and Occupational Safety & Health Department is in charge of matters related to company

The relevant measures are as follows: <ul style="list-style-type: none"> ❖ The “Implementation Standard on Compliance Risk Assessment” has been formulated, and the Bank’s annual regulatory compliance risk assessment report is submitted to the Board of Directors and then the FSC. ❖ Monitor the implementation status of key indicators and any improvement measures introduced to address internal control weaknesses as identified in the abovementioned report on a regular basis. The results are reported to the Board of Directors and Supervisors every six months. <p>Corporate governance</p>

Evaluation Item	Implementation Status	
	Yes	No
<p>C. Environmental Topic</p> <p>1. Has the Bank established an appropriate environmental management system suited to the banking industry's characteristics?</p>	✓	<p>Abstract Illustration</p> <ul style="list-style-type: none"> ■ The Bank adheres to Mega FHC's "Environmental Sustainability Management Procedures. The work plan and implementation status of relevant goals created by the "Environmental Sustainability Working Group" under Sustainable Development Committee are reported to Mega FHC on a regular basis. ■ The Bank's headquarters, the Chi-Lin Building, was the first to adopt the "ISO-14001 Environmental Management System" in the year 2021 and gradually expanded its scope in subsequent years. By 2023, all operational sites in the northern region of Taiwan will be included in the above-mentioned scope. (Verification date: 2023/07/05. The certification remains valid from 2022/09/05 to 2025/09/04). ■ The Bank's headquarters, Chi-Lin Building, adopted the "ISO-50001 Energy Management System" and has since undergone third-party verification annually. (Verification date: 2023/08/31. The certification remains valid from 2021/10/08 to 2024/10/07).
<p>2. Is the Bank committed to improving resource efficiency and to the use of renewable materials with low environmental impact?</p>	✓	<ul style="list-style-type: none"> ■ The Bank appointed resource managers and uses renewable materials with a low environmental impact as it strives to improve resource efficiency. The relevant measures are as follows: <ul style="list-style-type: none"> (1) Recycling: <p>As part of Mega FHC Group's waste reduction plan, the Group emphasizes reducing daily household waste among employees. Efforts have focused on strengthening advocacy for waste classification and reduction. Branches that fail to meet standards are urged to analyze the reasons and implement improvements.</p> (2) Water resource management: <p>The Bank aligns with Mega FHC's water-saving targets and manages water resources by prioritizing purchasing and installing water-saving devices, such as sensor taps and dual-flush toilets. Additionally, the Bank reviews the data</p>

		<p>kg, with 124,291.92 kg being recyclable and 192,963.90 kg disposed of.</p> <p>2. Reduction Measures:</p> <p>(1) Since 2018, the Bank has implemented the waste reduction plan formulated by Mega FHC by removing individual office waste bins and promoting and implementing waste classification and reduction to employees and floor supervisors on an ad-hoc basis.</p> <p>(2) In 2023, the Bank procured recycled materials, recyclable, low-pollution, or energy-saving products certified by the Environmental Protection Administration (under the Executive Yuan), with a total procurement amount of NTD 71,501,348.</p> <p>Note: Data for 2023 is pending validation by consultants.</p>
<p>D. Social Topic</p> <p>1. Has the Bank adopted policies and procedures in accordance with applicable legislation and international human rights conventions?</p>	✓	<ul style="list-style-type: none"> ■ The Bank adheres to the “Human Rights Policy” established by Mega FHC, which has incorporated the essence and principles of human rights from international guidelines such as “United Nations Universal Declaration of Human Rights,” “United Nations Global Compact,” “United Nations International Labor Organization,” and “United Nations Guiding Principles on Business and Human Rights.” ■ The Bank’s relevant management policies and procedures fully protect employees’ legal rights and prevent discriminatory hiring practices. There is no discrimination against employees based on their gender, race, marital status, religion, etc. The Bank does not restrict or hinder the formation of unions or employee associations, nor impose compulsory or forced labor, and does not violate the indigenous rights or interests of the employees. ■ In order to implement the “Human Rights Policy”, the Bank regularly holds internal training on human rights protection (including sexual harassment prevention, occupational safety, and gender equality). Matters associated with a high risk of human rights violation or potential impact will be submitted to Mega FHC, which then consolidates the data from all subsidiaries and submits to Sustainable Development Committee and Board of Directors.

Evaluation Item	Implementation Status		Abstract Illustration
	Yes	No	
2. Has the Bank established appropriately managed employee welfare measures (including salary and compensation, leave, and others) and linked operational performance or achievements with employee salary and compensation?	✓		<ul style="list-style-type: none"> ■ The Bank sets salary standards by job position. In addition to providing special leave days and paid family care leave that go beyond those in the Labor Standards Act, there are also employee welfare measures such as marriage and birth allowance, emergency relief fund, group insurance, traditional festival delivery order (or Gift Vouchers) and employee stock ownership trust system. ■ For years, the Bank has prioritized gender equality issues. In 2023, out of a total of 2,275 full-time executives, women accounted for 33%. There was an addition of 14 female executives compared to the previous year, resulting in a male-to-female executive ratio of 1:1.27. ■ The Bank formulated standards on rewards and punishments of its employees. It has set up a Personnel Appraisal Committee, which is composed of representatives of the Bank and the trade union to jointly review the rewards and punishments of its employees. Relevant rewards and punishments will also be reflected in the annual performance appraisal of employees, which will serve as the basis for subsequent salary adjustment and promotion. ■ In accordance with the Bank's relevant regulations on bonus distribution, the bonus distribution of employees has been appropriately linked to the operating performance of the units to which the employees belong.
3. Does the Bank provide a safe and healthy working environment for its employees, and offer them regular safety and health education?	✓		<ul style="list-style-type: none"> ■ In order to ensure the environmental quality of the workplace, the Bank conducts carbon dioxide and lighting tests every six months in accordance with the "Implementation Measures for Labor Working Environment Monitoring", so as to maintain the safety and health of employees. ■ The Bank conducts one hour of general safety and health education and training courses for employees every year to implement safety and health education. ■ The Bank regularly conducts staff health examinations and health video lectures every year, and monthly onsite visits to the branches and health consultations are provided by the staff of the labor safety department, doctors, and nurses. ■ The Bank adopted ISO 45001 Occupational Health and Safety Management Systems in 2023 and obtained relevant certification. Both permanent and temporary employees are included in the above system. However, the Bank and the staffing agency have agreed that the staffing agency is responsible for providing all relevant education,

Evaluation Item	Implementation Status		
	Yes	No	
			<p>training, and health checks for temporary employees.</p> <ul style="list-style-type: none"> ■ In 2023, there were 8 cases of occupational injuries involving 8 employees, accounting for 0.12% of total permanent employees. The Bank initiates an incident investigation following a major incidence of occupational injury and actively investigates the cause of the accident and any health impact suffered by the employee involved. Subsequently, according to the Labor Insurance Act, the Bank assists employees in applying for occupational injury compensations relating to outpatient appointments, hospitalization, injury, or disability. Sick leaves are granted to the employee involved. The responsible nurse will follow up on the employee's health condition, analyze the cause of the accident and propose preventive and improvement measures. ■ In 2023, the Bank experienced no fire incidents, and there were no casualties or injuries resulting from fires. ■ All units are required to nominate outstanding mid-level employees with ambition and development potential for professional development programs on a regular basis. The Bank also provides subsequent external professional training to equip them as management trainees, management associates or expatriates, etc. ■ When providing goods or services, the Bank shall comply with the Financial Consumer Protection Act and relevant financial regulations. After fully understanding the customer's professional knowledge, trading experience, investment demand, risk tolerance, financial resources, and other factors, the Bank will provide appropriate commodities, and fully disclose the important contents and risks of various commodities. ■ To protect the privacy of customers and exercise the rights related to personal data, the Bank has formulated the "Personal Data Protection Management Policy," "Standards of Security Maintenance of Personal Data File" and "Personal Data Protection Control Notice" and other relevant regulations. When dealing with files or documents involving personal privacy data, the Bank shall comply with these regulations. The Bank implemented the PIMS system in 2022 and successfully obtained BS10012 Certification through third-party verification by SGS. ■ To protect investors, before they are offered to clients, the Bank's financial products must be selected and inspected by the law, and they must pass the examination of the
4. Has the Bank established a career skills development program for its employees?	✓		
5. Does the Bank comply with applicable legislation and international standards regarding customer health, safety, privacy, marketing and labeling in its products and services? Has the Bank adopted policies regarding the protection of consumer or customer interests? Has it established complaint procedures?	✓

		<p>Abstract Illustration</p> <p>relevant commercial examination committee. In addition, following the standard of the Securities Investment Trust & Consulting Association of the ROC, the Bank has established a classification of fund risk-reward levels to assist investors in selecting investment commodities suitable for their risk attributes. In addition, under the KYP regulations of the competent authority, there are operating procedures for regular evaluation of offshore funds after they are offered to clients, to properly safeguard the rights and interests of investors.</p> <ul style="list-style-type: none"> ■ In order to protect the rights and interests of customers, the advertisements or publicity of goods and services related to wealth management business shall be reviewed by the business director and the legal compliance director in accordance with the regulations of the competent authority to confirm that the content and labeling are not improper, misrepresented, misleading customers or violating relevant laws and regulations. If it involves other relevant departments, it can only be distributed and used after being approved by the relevant departments. ■ To enhance the protection of consumers and enhance consumers' confidence in the Bank, the Bank's "Treating Customers Fairly Policy" was formulated in accordance with the "Financial Services Enterprise Treating Customers Fairly Principle" promulgated by the Financial Supervisory Commission. With reference to the "Consumer Protection Act", "Financial Consumer Protection Act", and relevant laws and regulations, the "Treating Customers Fairly and Financial Consumer Protection Standard" is formulated for all employees to follow. ■ The Bank has established guidelines such as the "Complaints and Financial Consumer Dispute Handling Guidelines" and "Consumer Complaint and Customer Feedback Case Management Guidelines." Additionally, it has obtained "ISO 10002 Certification - Complaint handling management system certification" for its complaint quality management system, providing financial consumers with more transparent and streamlined complaint channels and processes to ensure prompt and appropriate handling of each complaint case. The Bank consolidates and analyzes complaint cases quarterly, reporting them to the BOD to review the causes of complaints and improvement measures. Furthermore, a 24-hour "Customer Services Special Area" has been set up to provide multiple complaint channels for consumers to lodge complaints.

Evaluation Item	Implementation Status	
	Yes	No
<p>6. Has the Bank adopted supplier management policies that require suppliers to comply with legal requirements governing such matters as environmental protection, occupational safety and health, and labor rights? What is the state of implementation of these policies?</p>	✓	<p>■ To implement supplier management, the Bank has formulated “The Management Guidelines for Supplier Sustainability” to incorporate labor rights and human rights, occupational safety and health, environmental sustainability, and ethical corporate management into the norms that suppliers should abide by.</p> <p>■ Before engaging in business with suppliers, it is necessary to conduct a comparison through online systems provided by regulatory authorities (such as the Ministry of Labor, Ministry of Environment, etc.) to understand whether suppliers have any adverse records affecting the environment or society, which serve as references for assessment and screening. Additionally, the Bank prioritizes local and green-labeled products when procuring goods and services.</p> <p>■ When signing the purchase or service contract with the supplier, the Bank asks the supplier to sign the Supplier Sustainability Statement. The statement requires the suppliers to meet the following requirement: comply with the labor laws, basic human rights; establish labor health. and occupational safety regulations and procedure; take various measures, including implementing assessment and management on environmental impact; operate with integrity and prohibit illegal practice to fulfill sustainability and avoid the impact on the Bank’s reputation because of business relations. In 2023, the suppliers which signed the contract with the bank did not violate the laws or above mention legal or guidelines/statement.</p>
<p>E. Does the Bank follow internationally recognized standards or guidelines when preparing and publishing reports (such as corporate sustainability report) that disclose non-financial information? Does the Bank obtain a third-party verification institution’s confirmation or guarantee for such reports?</p>	✓	<p>■ The Bank is a wholly owned subsidiary of Mega FHC. The information disclosed in the “2022 Sustainability Report” follows the GRI Universal Standards 2021 and United Nations Sustainable Development Goals (SDGs) and references some of the standards issued by SASB for commercial banks. Deloitte Taiwan issued an assurance report on the information disclosed in the report, as mentioned above, based on the ISAE 3000 standards. Verification of the 2023 Mega Holdings Sustainability Report is due for submission in May 2024.</p>

IV. Implementation Status of the Year 2023 Climate Related Information

Year 2023

Item	Implementation Status
<p>A. Elaborate on the supervision and governance of climate-related risks and opportunities by the board of directors and management.</p>	<ul style="list-style-type: none"> ■ Mega FHC coordinates the group's sustainability-related initiatives, and its BOD establishes the SDC. This committee oversees five working groups: Environmental Sustainability, Sustainable Finance, Employee Care, Social Prosperity, and Corporate Governance. The "Environmental Sustainability Group" is responsible for green operations, climate change risk management, supplier management, and environmental performance management, while the "Sustainable Finance Group" handles green finance and low-carbon transition strategies. ■ In line with the implementation of ESG-related plans and tasks by the FHC, the Bank established the "Bank ESG Steering Group" in January 2021. The Group is chaired by the President and coordinated by the Planning Department. The group meetings are convened bi-monthly to monitor the progress of sustainability development initiatives. The achievement of ESG indicators (including climate metrics and targets) is reported to BOD semi-annually. ■ Furthermore, in 2022, the Bank established the "CFD Task Group" to implement climate management mechanisms and enhance its climate-related financial information disclosures. The Group convenes quarterly meetings to report work progress, exchange views on issues related to climate-related risks and opportunities and explore the best feasible practice.
<p>B. Elaborate on how identified climate risks and opportunities impact the business, strategy, and finances of the enterprise (short-term, medium-term, long-term).</p>	<ul style="list-style-type: none"> ■ Risks <ol style="list-style-type: none"> (1) Transition Risk: Transitioning to a lower-carbon economy may entail extensive policy, legal, technology, and market changes to address mitigation and adaptation requirements related to climate change. <ul style="list-style-type: none"> ❖ Short and Medium Term Risks: The imposition of carbon taxes or fees, non-compliance with climate-related external regulations or internal norms. ❖ Long Term Risks: The Bank's investees and borrowers might fail to complete the low-carbon transition. (2) Physical Risk: The Bank will be affected financially by extreme weather events and progressive shifts in climate patterns.

Item	Implementation Status
	<ul style="list-style-type: none"> ❖ Short and Medium Term: Increased occurrences of flooding and landslide hazards. ❖ Long Term: Sustained high temperatures leading to sea-level rises or prolonged heatwaves. ■ Opportunities <ul style="list-style-type: none"> ❖ Short Term: The Bank will leverage its core competence in business to drive the development of sustainable finance and to expand green banking products and services, such as sustainability-linked loans, green bonds, green funds, and green insurance products. In addition, the Bank will increase investment in green bonds to support corporate in pursuing sustainable development. ❖ Medium to Long Term: The Bank will increase the level of financial flows to enterprises for adopting concrete measures to address issues of energy conservation and emission reduction, enhancing carbon reduction technologies, developing and introducing new green products and technologies, as well as adopting low-carbon business models that promote environmental protection and provide climate solutions. Furthermore, the Bank will provide financial support for the replacement of energy-saving equipment and the development of new technologies such as hydrogen energy, biomass energy, carbon capture, and carbon storage to facilitate energy transition, industrial transition, lifestyle transition, and social transition to achieve the national goal of net-zero by 2050.
<p>C. Elaborate on the impact of extreme weather events and transition actions on finances.</p>	<ul style="list-style-type: none"> ■ In accordance with the FSC's requirement outlined in the "Guidelines for Domestic Banks' Climate Risk Financial Disclosure," the Bank has reported to the regulatory authority about the Bank's annual disclosure of climate-related information, including the assessment results of expected losses from corporate exposures and individual exposures under different scenarios such as orderly transition, disorderly transition and no policy for the year 2030 and 2050 as a ratio to net worth and a ratio to pre-tax income of the benchmark year.
<p>D. Elaborate on how the process of identifying, assessing, and managing climate risks is integrated into the overall risk management system.</p>	<ul style="list-style-type: none"> ■ The Bank has established a "Risk Management Policy and Guidelines" approved by BOD and various risk management guidelines. These documents clearly outline the need to develop effective mechanisms for identifying, measuring, monitoring, reporting, and responding to risks. They also establish risk management objectives and ensure regular monitoring of their implementation. Additionally, the BOD has approved "Principles of Climate Risk Management," which define the governance framework for climate risk management across the Bank, including the responsibilities of the BOD, senior management, and relevant business units of the three lines of defense. These guidelines also establish the basic principles of climate risk identification, assessment, management, and reporting to strengthen the climate risk management mechanism and mitigate the impact of climate change risks.

Item	Implementation Status
<p>E. If applying scenario analysis to assess resilience to climate change risks, explain the scenarios, parameters, assumptions, analysis factors, and key financial impacts utilized.</p>	<ul style="list-style-type: none"> ■ The Bank considers climate risk a driving factor for various risks such as credit, market, and operational. It places equal importance on climate risk as other types of risks. The Bank is gradually integrating mechanisms for identifying, assessing, and managing climate risk into its overall risk management system. (1) Credit Risk Management: The Bank incorporates climate risk into its underwriting and management processes for investments and financing. It differentiates the management of investment and financing targets based on their credit risk and ESG risk levels. The Bank has established decarbonization policies and industry policies. It refrains from funding for industries or entities categorized as "prohibited" for high-risk industries or entities, gradually withdraws funding, limits engagement, or strengthens post-lending management. Risk mitigation measures are taken when it becomes aware that a credit recipient is not effectively managing its ESG risks. (2) Market Risk Management: The Bank is progressively establishing mechanisms to incorporate ESG and climate risk into pre-trade investment assessment and post-investment management. It continuously monitors the impact of climate risk on existing market risk positions and future investments. (3) Operational Risk Management: Considering the potential impact of climate risk events on the Bank's daily operations, the Bank has incorporated physical risks into its disaster (crisis) response, information system management, information security management, human resources management, and other operational risk-related management processes. (4) Other Risks: In the long term, climate risk may affect the Bank's operations and business trends. Therefore, the Bank also adopts necessary strategic adjustments to seize potential opportunities and ensure the Bank's good reputation.
<p>E. If applying scenario analysis to assess resilience to climate change risks, explain the scenarios, parameters, assumptions, analysis factors, and key financial impacts utilized.</p>	<ul style="list-style-type: none"> ■ The Bank conducts its climate scenario analysis in accordance with the "Planning for Climate Change Scenario Analysis by Domestic Banks." Its methodology relies on international best practices, incorporating scenario assumptions from the Network for Greening the Financial System (NGFS) concerning "Net Zero 2050," "Delayed Transition," and "Baseline." These scenarios form the basis for macroeconomic factors such as GDP growth, unemployment, and long-term interest rates. Moreover, the analysis draws on assumptions from the Intergovernmental Panel on Climate Change (IPCC) regarding RCP2.6 and RCP8.5 scenarios for environmental factors, precisely temperature change values, to derive physical risk-related factors. Finally, it integrates these factors into three climate

Item	Implementation Status
<p>F. If there is a transformation plan to address climate-related risks, explain the plan's content and the indicators and goals used to identify and manage physical and transition risks.</p>	<p>change assumption scenarios: "Orderly Transition (2050 Net Zero Transition)," "Disorderly Transition," and "No Policy."</p> <ul style="list-style-type: none"> ■ Climate risk types, impact factors, and linkage elements: <ul style="list-style-type: none"> (1) Climate Risk Types: <ul style="list-style-type: none"> ❖ Transition risk factors incorporate carbon pricing simulation data, corporate carbon emission data, and macroeconomic factor simulation data. ❖ Physical risks encompass "extreme rainfall/flooding" and "drought." (2) Impact factors: <ul style="list-style-type: none"> ❖ "Macroeconomic Transmission Channels ": The Bank estimates the overall economic impact on PD (probability of default) by multiplying the macroeconomic factors from the Joint Credit Information Center's output baseline default rate table and IAM and NiGEM models by the PD stress multiplier. Different PD tables are generated, reflecting overall default rate levels under various scenarios. ❖ " Microeconomic Transmission Channels ": The Bank estimates revenue loss for individual companies due to changes in carbon tax prices and individual emissions. (3) Linkage Elements: The impacts of climate change on the Banks' individual counterparties are captured through accessing the financial flexibility and collateral value. Estimates of PD are obtained by examining the changes of "Revenue to Loan Ratio" and "Collateral Ratio" under different scenarios. <ul style="list-style-type: none"> ■ Based on the existing regulatory stress testing framework, the Bank incorporates the factors and pathways of climate change mentioned above into the estimation process. It combines PD under stressed scenarios with LGD and exposure at default (EAD) to calculate expected losses (EL). <ul style="list-style-type: none"> ■ In response to the global trend towards net zero emissions, the Bank actively implements the decarbonization strategy of its parent company, Mega FHC, to continually enhance its financial influence in achieving this goal. <ul style="list-style-type: none"> (1) No longer financing investments in coal mining and unconventional oil and gas industries. (2) No longer investing in power plants where coal-fired generation exceeds 50%.

Item	Implementation Status
<p>G. If applying internal carbon pricing as a planning tool, explain the basis for price determination.</p>	<p>(3) Ceasing project financing for coal-fired power plants. (4) Phasing out coal-fired power plant financing by 2040.</p> <ul style="list-style-type: none"> ■ Based on the electricity consumption and Tradable Renewable Energy Certificates (T-RECs) purchasing costs of its parent company, Mega FHC, in 2022, the Bank estimates an internal carbon price of NTD 4,324 per metric ton for 2023. When procuring or leasing hybrid vehicles, the Bank conducts a comprehensive analysis considering acquisition cost, energy consumption, and durability to estimate the accumulated carbon costs and perform carbon reduction benefit analysis, thereby implementing green operations.
<p>H. If setting climate-related goals, provide information on the activities covered, the scope of greenhouse gas emissions, planning timeline, annual progress achieved, etc. If using carbon offsets or Renewable Energy Certificates (RECs) to accomplish these goals, explain the source and quantity of carbon offset credits exchanged or the amount of RECs used.</p>	<ul style="list-style-type: none"> ■ Climate goal setting: The Bank's climate goals align with Mega FHC's Group greenhouse gas reduction plan and related policies. In line with the national goal of achieving net-zero emissions by 2050, Mega FHC has adopted an absolute reduction approach since 2023, setting reduction targets for Scope 1 and Scope 2 carbon emissions to achieve a 42% reduction by 2030 compared to the baseline year (2022) based on the science-based target (SBT) of limiting temperature increase to 1.5°C. This translates to an annual reduction of at least 5.25% compared to 2022 since 2023. Additionally, the Bank implements various systematic carbon reduction measures. It integrates international ISO standards and green building schemes outlined in Mega FHC's "Sustainable Development Roadmap" to enhance its operational environmental and energy management efficiency. ■ Scope of carbon emission calculation: The Bank and its consolidated subsidiaries have conducted verification and assurance procedures for Scope 1 and Scope 2 emissions for 2023. Overseas operations have obtained verification statements from ARES Corporation, while domestic branches undergo DNV verification procedures. Carbon inventory verification standards are based on ISO 14064-1:2018. The total carbon emissions amount to 15,784.5704 tCO₂e. Scope 1 emissions mainly consist of fuel consumption in official vehicles, diesel generators, and gas usage, while Scope 2 emissions primarily originate from electricity consumption. ■ Progress in carbon reduction for 2023: The carbon reduction targets for Scope 1 and Scope 2 emissions in 2023 were to achieve a reduction of at least 5.25% compared to 2022. However, the actual carbon emissions for 2023 increased by 1,706.8526 metric tons (+12.1%) compared to 2022 (excluding 866 thousand units of Tradable Renewable Energy Certificates in 2023, equivalent to a reduction of 428.67 tCO₂e). The main reason for the increase is the addition of 52 units to the verification scope in 2023 compared to 2022. Detailed comparisons of the verification units are disclosed in Item 9(1) note 2.

Item	Implementation Status																											
	<ul style="list-style-type: none"> Carbon reduction plan: In addition to energy conservation and waste reduction measures, the Bank plans to purchase 4,741 and 7,294 kWh of green energy in 2024 and 2025, respectively. Furthermore, starting in 2024, the Bank will embark on a five-year project to establish 26 solar-powered branches. 																											
<p>I. Item
Implementation Status
(2) Greenhouse gas assurance information

The Bank's greenhouse gas verification, validation, and assurance status have been consolidated with data from other subsidiaries of Mega FHC Group and jointly disclosed in the Mega FHC's Sustainability Report. The greenhouse gas verification/ assurance status of the Bank for the past two years is as follows:

Year	Greenhouse Gas Verification/Assurance Status
2022	<p>(1) Mega FHC has submitted its greenhouse gas assertion for verification in accordance with ISO 14064-1:2018 requirements. A bilateral agreement has been reached with the verification body, Taiwan Inspections Co., Ltd. (SGS), to conduct greenhouse gas quantification, monitoring, and reporting in accordance with ISO 14064-1:2018 and ISO 14064-3:2006. The verification covers both direct and indirect greenhouse gas emissions from January 1, 2022, to December 31, 2022. During this period, the Bank's greenhouse gas emissions amounted to 1,001,831.7178 tCO₂e equivalent. The SGS verification results categorize emission sources as reasonable assurance for categories one and two and limited assurance for categories three to six, with a verification report issued.</p> <p>(2) Deloitte Taiwan has planned and performed limited assurance work in accordance with ISAE 3000 "Assurance Engagements Other than Audits or Reviews of Historical Financial Information" to determine whether, in all material respects, the selected information in Mega FHC's 2022 Sustainability Report (total waste volume categorized, internal energy consumption, water intake) is free from material misstatement. A limited assurance report has been issued.</p> <p>(3) Assurance Opinion: Deloitte Taiwan did not find, in all material respects, that the selected information mentioned above fails to comply with the measurement criteria stipulated in the "Operation Rules for the Preparation and Submission of Sustainability Reports by Listed Companies" of the Taiwan Stock Exchange, GRI's General Standards, industry standards, and material topic standards and therefore requires correction.</p>
2023	<p>The complete verification and assurance information will be disclosed in the Mega FHC's 2023 Sustainability Report.</p>

Item

Implementation Status

- Greenhouse Gas Reduction Targets, Strategies, and Specific Action Plans:
The Bank adheres to the greenhouse gas reduction plan and related policies established by its parent company, Mega FHC, and actively implements various measures.

Initiatives	Short/Medium/Long Term Targets	Strategies, and Specific Action Plans	2023 Achievements
Total greenhouse gas emissions (Scope 1 + Scope 2)	2023 as Baseline year	Obtaining the "Green Building Certification" of Silver Level or above. Headquarters operating locations use over 36% green energy.	Diamond Level: Chi-Lin Building Headquarters and Harbor City Branch. Gold Level: Hengyang Building. Green energy of 867,967 kWh has been introduced, with a utilization rate of 41.53%.
	Reduce emissions by 42% by the year 2030 (equivalent to annual reduction of 5.25% starting from the baseline year)	Establishment of solar-powered branches.	The Harbor City Branch has completed the installation of solar modules.
	Achieve net zero emissions by the year 2050.	Purchase electric cars (automobiles and scooters) or hybrid cars in quantities equivalent to 70% of the total number of corporate vehicles purchased in the current year.	The total number of leased corporate vehicles is 46, with 33 being hybrid cars, accounting for 71.7%.

Loss arising from derecognition of financial assets measured at amortized cost	2	0.00%
Foreign exchange gains	2,435,219	3.54%
Impairment losses and (reversal gains) on assets	(66,481)	-0.10%
Share of profit (loss) of associates and joint ventures accounted for using equity method	574,103	0.83%
Net other revenue other than interest income	433,620	0.63%
NET REVENUE	68,762,531	100.00%

Taiwan Banking Industry & Market Overview

■ **The uncertainty surrounding global inflation continues to elevate instability in financial markets**

From March 2022 to July 2023, the US raised interest rates significantly by 525 basis points, and CBC also raised rates by 75 basis points. In this environment of drastic rate hikes, the Bank's average loan and deposit rates and interest rate spreads showed an upward trend. However, the substantial increase in USD rates suppressed borrowing demand, leading to a significant decline in the USD loan to deposit ratio. Additionally, the widening gap between USD demand deposit and fixed deposit rates increased demand for fixed deposits, thereby decreasing demand deposit rates and raising funding costs. Consequently, the Bank's net interest income was reduced accordingly. However, due to ample USD liquidity, the Bank obtained significant returns through financial operations such as FX swaps.

The Fed is anticipated to moderately lower interest rates in 2024. However, the timing and extent of rate cuts will depend on macroeconomic indicators such as US inflation, unemployment, and economic growth rates. Furthermore, global trade volume is expected to rebound in 2024, which will help boost Taiwan's export and investment momentum. Nevertheless, the impact and timing of major central banks' tightening policies on the real economy remain uncertain, and geopolitical risks and abnormal weather patterns will affect corporate operations. This will increase the credit risk borne by Mega Bank. Therefore, the Bank will cautiously assess and select credit and investment opportunities and closely monitor changes in customer operations to ensure a balanced relationship between returns and risks.

■ **In a fiercely competitive domestic banking landscape, Mega Bank is dedicated to refining its business models, enhancing profitability, and embracing ESG sustainable finance practices**

Despite the abundant presence of banks and branches nationwide, the industry grapples with uniformity in business operations, posing challenges in augmenting interest rate spreads. While the recent upsurge in interest rates has bolstered interest rate spreads, increased borrowing costs and a global economic downturn have subdued customer lending demand. These factors, combined with a dwindling loan to deposit ratio and escalating deposit funding expenses, have adversely affected the banking sector's net interest income.

Mega Bank boasts a robust foundation in corporate lending, international finance, foreign exchange, and investments. The Bank is poised to fortify these sectors further by capitalizing on its strengths in syndicated lending, tapping into its extensive corporate clientele, exploring opportunities within group supply chains, broadening its reach in the SME sector, and fostering closer collaboration with domestic and international branches. The Bank remains steadfast in expanding its global footprint, mainly focusing on emerging markets that exhibited growth potential and aligned with initiatives like the New Southbound policy.

Recognizing the escalating significance of ESG-related concerns, Mega Bank pledges adherence to international sustainable finance initiatives and pertinent green finance regulations mandated by regulatory bodies. Through its core operations, the Bank endeavors to exert a positive impact on fostering a sustainable society. The Bank remains committed to collaborative efforts with its clients to champion net-zero emissions and advance the objectives of ESG sustainable finance policies.

■ **Utilizing new technologies to accelerate financial digitization, enhancing its ability to respond to cybersecurity risks**

The Bank has initiated a five-year digital transformation plan in response to the digitalization trend and the emergence of virtual banks as new competitors. This involves the digitalization of services in stages, automation of operating procedures, cross-industry collaboration within the financial ecosystem, and further development of innovative AI financial services. The plan aims to strengthen operational resilience, develop sustainability, and promote financial inclusion. In the future, the Bank will continue to integrate FinTech, such as Robotic Process Automation (RPA), Application Programming Interface (API), and big data analytics, to expand the scope of technology applications and operational efficiency and continue to engage with alliances in various fields. This will enable the Bank to extend the service scope of the financial ecosystem, promote service innovations, and acquire new customer segments.

Additionally, to strengthen the defense mechanisms of its trading systems, Mega Bank will introduce intelligent threat intelligence analysis methods supplemented by big data technology to improve the efficiency of threat intelligence analysis. The Bank will regularly conduct vulnerability scans, intrusion penetration testing, and cybersecurity incident response drills to enhance the early warning mechanism for information security risks and strengthen response capabilities.

I. Positive Factors

- Domestic and foreign central banks are expected to maintain interest rates at high levels for longer. As loan rates for new loans or renewals gradually reflect higher rates, there is potential for increased interest income for banks. Additionally, as major central banks complete their interest rate hike cycles, it may help reduce the amplitude of financial market volatility.
- The CBC has indicated that even if inflation falls below 2%, interest rates may remain relatively high if they remain higher than in previous years. Furthermore, with the continued resilience of the US economy, the Fed is discussing whether the neutral interest rate has increased, which could signal a departure from the long-term low-interest-rate environment and potentially improve bank operations.
- At the end of 2023, Taiwan's domestic banks' non-performing loan ratio was 0.14%, and their bad debt provision coverage ratio was 968.74%, both indicating favorable levels. This demonstrates that domestic banks maintain robust risk-bearing capabilities and capital adequacy even amidst changes in the global economic and financial environment.

II. Negative Factors

- International major institutions expect the global economy to remain relatively weak in 2024. Despite reduced recession risks, concerns about an economic hard landing have not entirely subsided. Moreover, if the divergent performances between the manufacturing and service sectors persist, it will adversely affect Taiwan's economy, which relies heavily on exports.
- Countries must continue cooling inflation towards central bank targets to create room for moderate interest rate cuts. Recent volatility in financial markets often stems from disparities between market expectations regarding monetary policy and the views of major central banks. If inflation cooling falls short of expectations again, it could escalate financial market instability.
- The significant interest rate hikes by central banks worldwide have led to a noticeable increase in interest burdens for households and businesses, with bankruptcies in advanced countries rising noticeably compared to previous years. If the rising costs of government and private debt financing persist, it could jeopardize debt sustainability, exacerbate financial market turmoil, and hinder the stable development of the global economy.

III. Winning Strategies

- The global economic landscape remains multifaceted. As banks expand their presence in overseas markets and diversify their business portfolios, it's crucial to bolster risk management practices, adhere to regulatory compliance mechanisms, and prioritize risk diversification principles. Mega Bank will continue monitoring macroeconomic conditions domestically and internationally for decision-making references.
- With the emergence of new operational models like digital transformation and financial technology, it's imperative to enhance cybersecurity awareness and fortify information systems to mitigate risks effectively.
- The post-pandemic economic recovery, structural shifts in industry landscapes, and the transition of regional supply chains underscore the importance of proactively identifying potential opportunities to foster economic diversification and reduce the impact of cyclical downturns in homogeneous industries.

Business Plan

The Bank's 2023 core and prioritized operations are focused on the following:

■ Business

- ❖ To strengthen its advantages in syndicated lending, Mega Bank primarily focuses on green energy financing, project financing, merger and acquisition financing, and offshore banking unit (OBU) lending. Responding to government policies, the Bank promotes loans to the six core strategic industries and captures opportunities from relocating industrial chains. Leveraging its prominent corporate client base, the Bank expects to explore opportunities within group supply chains and expands its customer base in the SME sector through digital marketing channels, external partnerships, government policy loans, and the effective use of SME credit guarantee mechanisms.
- ❖ Mega Bank anticipates enhancing collaboration with domestic and international branches to quickly identify and select opportunities, expand its presence overseas, and increase visibility in the global syndicated loan market. The Bank also plans to continue growing its business in countries under the New Southbound policy to enhance localization efforts.
- ❖ With a customer-centric approach, Mega Bank intends to develop diversified and digital consumer finance

services, strengthen Wealth Management 2.0 and private banking services to serve high-net-worth clients, and promote ESG-oriented products and services. Examples include reverse mortgages or other policy loans, ESG-rated financial products, elderly care or local elderly trusts, and insurance products addressing aging/retirement/protection issues to promote inclusive finance and implement Trust 2.0 policies.

- ❖ Mega Bank will manage interest rates, exchange rate fluctuations, and international stock and bond market trends, flexibly managing liquidity funds and increasing investment returns through flexible financial operations. In addition, the Bank plans to actively engage in ESG-related equity, bond, and long-term equity investments, implementing ESG principles in investment evaluation and management mechanisms.
- ❖ Mega Bank will continue to drive digital transformation initiatives, gradually digitizing services, automating operational processes, collaborating across industries to build a financial ecosystem, and deepening the development of AI-powered finance projects. The Bank also plans to continue researching and developing innovative digital services to enhance operational resilience and sustainable development and achieve inclusive finance goals.
- ❖ Through its core business, Mega Bank aims to positively influence shaping a sustainable society by promoting products and services aligned with sustainable principles, increasing opportunities for customer engagement, and guiding customers towards low-carbon transformation through green credit, renewable energy financing, and sustainable-linked loans, among other sustainable financial products.

■ Management

- ❖ Adopting a risk-based internal audit system, Mega Bank strengthens audits of critical areas such as the prevention of misappropriation of client funds by wealth management specialists, controlling credit and investment risks in overseas and mainland China regions, corporate governance, and sustainable finance, protection for elderly financial consumers, digital finance and information security management, suspicious account management, and fraud prevention mechanisms.
- ❖ Apply for the trial and implementation of the Internal Ratings-Based (IRB) approach by asset class in stages, aligning with the IRB approach-related laws and regulations issued by competent authorities. The Bank aims to achieve capital savings by internalizing the credit risk parameters while optimizing the efficiency of risk management.
- ❖ Climate risk identification, assessment, and management mechanisms are integrated into Mega Bank's overall risk management system as three lines of defense, gradually implementing execution. Measures are taken to manage high-risk industries effectively, preparing for the transformation risks brought about by carbon border taxes and decarbonization economies.

Human Resources Profile

Item		As of December 31,	
		2023	2022
Number of Employees	Domestic	6,122	5,937

	Below Senior High School	8	11

Social Responsibility

The Bank actively engages with various social welfare undertakings to give back to society. The community has praised the Bank for sponsoring various sports, education, arts and culture, and volunteering charity events through the Mega Bank C&E Foundation, which has helped build a positive corporate image. Looking forward, the Bank will continue to contribute resources to hold and sponsor various charity events.

Risk Management

Credit Risk Management System

Year 2023

Item	Content
<p>A. Credit Risk Strategies, Goals, Policies, and Procedures</p>	<ol style="list-style-type: none"> When developing the Bank's credit and investment businesses, besides complying with the relevant laws and regulations such as the Banking Act of the Republic of China, the business supervisory units shall set risk management targets (capital adequacy ratio, non-performing loans ratio, NPL coverage ratio, etc.), and the Risk Management Department compiles and submits reports to the Bank's Risk Management Committee, Risk Management Committee of Mega FHC and the Bank's Board of Directors for approval. The Bank also sets its risk appetite by establishing various credit and investment regulations, maintaining a sound credit risk management framework and standard. In response to implementing the New Basel Capital Accord, the Bank has been progressively developing models and assessment mechanisms to estimate various credit risk components. This includes implementing an internal rating system linked to the probability of default (PD) and loss given default to predict customers' PD and loss given default using quantitative analysis tools. These efforts strengthen the Bank's internal risk management capabilities, enabling more precise measurement and control of credit risk and assets. Before engaging in credit and investment businesses, the Bank shall ensure thorough credit investigation and review with clear authorization limits by a hierarchical delegation framework to enhance service efficiency and shorten operating processes. Regular review is also conducted by establishing a reporting mechanism to report irregular or emergent incidents within the stipulated time. The Overdue Loan & Control Department is in charge of non-performing/non-accrual loans management. Proper guidelines, rules and procedures have been set to ensure effective monitoring and collection of NPLs.
<p>B. Organization of Credit Risk Management</p>	<ol style="list-style-type: none"> The Board of Directors has the ultimate responsibility for the Bank's credit risk management, in charge of approval of entire Bank's credit risk policies, framework, strategies/goals and important credit risk management regulations of the Bank. The Risk Management Committee is delegated by the Board of Directors and is convened by Chairman of the Board with the responsibility to review and discuss risk management policies, regulations, etc. The Loan Committee and Investment Committee are in charge of reviewing credit and investment cases, related policies and implementation status in this regard. The Problem Loan Committee manages problem loans and debt collection, and reviews related policies of non-performing/non-accrual loans. Each Head Office department in charge of credit risk shall, according to their duties, implement credit risk management procedures such as identification, measurement, monitoring, reporting, etc., and continue to enhance risk management mechanism. The Risk Management Department shall coordinate and supervise the various units in establishing the credit risk management mechanism, and gradually develop tools such as internal rating system to enhance credit risk management, and submits risk management report to the Board of Directors and Mega FHC regularly.
<p>C. Scope and Characteristics of the Credit Risk, Reporting and Measuring System</p>	<ol style="list-style-type: none"> The Bank's credit risk management objectives are set annually using a bottom-up method, and are submitted to the Board of Directors for approval. The implementation progress and status are evaluated regularly according to economic conditions, the Bank's financial status and risk exposure, etc., so as to strengthen the Bank's overall risk management. Meanwhile, in accordance with the regulations of the competent authority, related credit risk information is disclosed on the Bank's website. To control the same concerned party (groups of related counterparties), industries, country risk, etc., and prevent over-concentration of risk, the Bank has set various credit and investment limits for the same concerned party (groups of related counterparties), industries, etc., according to economic performance, industry outlook and credit risk level, and reports to the

Item	Content
	<p>senior management regularly on the implementation status and compliance status of the laws and regulations, such as the Banking Act of the Republic of China, and internal credit and investment related regulations of the Bank.</p> <ol style="list-style-type: none"> 3. Conducts regular credit review to better understand customers, increases the frequency of review for loan customers with high and abnormal credit risk, and reports the review status to the senior management after annual analysis and review. 4. Different units are responsible for the investment and evaluation of long-term equity, and the fair value of investment positions is regularly evaluated by appropriate methods according to the characteristics of investment objects. 5. Irregularity reporting system: if customers encounter irregular operation, financial difficulty or other unexpected material incident that would affect the company's operation, the business unit shall immediately report to the senior management through the departments in charge, and to Mega FHC through the Risk Management Department, so that related information can be relayed and necessary measures carried out immediately. 6. Asset evaluation: for the various credit assets, investments, other assets and contingent assets, business supervisory units shall base on the Bank's historical loss experience on bad debts write-off, provision, bad debt recovery, etc., current non-performing loans ratio, collection status and the competent authority's regulations, generally accepted accounting principles, etc., to evaluate the possible loss and provide for bad debts or cumulative impairment.
<p>D. Credit Risk Hedging or Mitigation Policy, and Strategies and Procedures for Monitoring the Continuing Effectiveness of Hedging and Mitigation Instruments</p>	<p>Through prudent credit investigation and review mechanism with fully understanding of customers' financial and operation status, the following countermeasures are adopted:</p> <ol style="list-style-type: none"> 1. When the probability of loss occurrence of loans or transactions is high, and the severity of expected losses is significant, e.g. a newly incorporated company with low credit rating and with credit risk higher than profit, the Bank does not undertake such business. 2. When the probability of loss occurrence of loans or transactions is low, but the severity of expected losses is high, such business can be undertaken by self-liquidating trade finance, account receivable finance, etc., and strengthen foreign exchange transactions, and manage cash flow to further reduce risk. Major credit exposures, housing loans, etc., may be undertaken by requesting for collateral or guarantor, or through a syndicated loan, or selling off part of positions in the secondary market after undertaking, or engaging in debt securitization, so as to reduce or transfer risk. 3. When the probability of loss occurrence of loans or transactions is high, but the severity of expected losses is minor, the Bank shall sign agreements with the clauses such as financial or non-financial covenants and prohibition on sale of assets or mortgage so as to control the credit risk of the borrower or counterparty. 4. When the probability of loss occurrence of loans or transactions is low, and the severity of expected losses is minor, the Bank shall undertake such business if upon assessment, the profit is higher than risk borne. 5. For collaterals such as securities, real estates, etc., the Bank regularly monitors loan-to-value ratios for each case. For guarantors' creditworthiness, the Bank monitors through measures such as credit review to ensure the effectiveness of risk mitigation tools.
<p>E. Method of Legal Capital Allocation</p>	<ol style="list-style-type: none"> 1. The Bank currently adopts the Standardized Approach for credit risk regulatory capital charge. 2. The Bank has gradually developed various credit rating models to measure and enhance risk management effectively. These models, linked to the probability of default, have been introduced into the credit investigation process to enable more precise risk assessment. Additionally, the Bank is progressively developing a system that complies with the credit risk Internal Ratings-Based Approach under the New Basel Capital Accord.

Operational Risk Management System

Year 2023

Item	Content
A. Operational Risk Management Strategies and Procedures	<ol style="list-style-type: none"> 1. Strategies <ul style="list-style-type: none"> ■ Establish an effective framework and formulate internal control procedures for each level. ■ Enhance employee training in laws, regulations and business. ■ Strengthen control of operating procedures. ■ Implement internal and external audit and supervision measures to reduce the entire bank’s operational risk loss. 2. Procedures <ul style="list-style-type: none"> ■ Conduct risk identification and assessment, suitability analysis and planning of information system, before launching new products or businesses or establishing new overseas branches, and the proposal shall be submitted to relevant committees for review and confirmation in accordance with the Bank’s “Operational Directions for Launching New Businesses, New Products and New Overseas Operations”. ■ Formulate business management regulations, operational specifications, and establish them in the Compliance Management System to allow staff to inquire timely and to comply with, when performing related duties. ■ Conduct self-assessment of operational risk to identify and measure all kinds of operational risk, strengthen risk management awareness, and improve current control mechanism. ■ Conduct self-reviews to understand the implementation of various business control mechanism, and rectify the deficiencies immediately. ■ Submit and compile operational risk loss incidents based on the 8 major industry types and 7 major loss incident types stipulated in Basel II, and conduct reviews on the factors of occurrence of the loss and improve them. ■ Establish key indicators for operational risk to monitor operational risk, and apply appropriate management measures where necessary.
B. Organization of Operational Risk Management	<ol style="list-style-type: none"> 1. Board of Directors: approve the organizational structure and policies of operational risk management of the Bank. 2. Auditing Department: conduct regular reviews on the effectiveness of operational risk management mechanism to each unit, and to supervise and follow up the improvements for the deficiencies. 3. Senior Management: approve the operating standards for relevant businesses and the duties with respect to operational risk management of Head Office’s business supervisory units. 4. Risk Management Department: formulate and amend the operational risk management policies and targets; supervise the implementation of the operational risk management targets; establish operational risk management mechanism and ensure the implementation of all units; prepare and report the Bank’s operational risk exposure profile. 5. Head Office’s business supervisory units: responsible for operational risk related to functional duties; formulate the risk management targets of business; formulate and amend the policies and manuals of business administration. 6. All units of the Bank: identify the operational risk of all kinds of business; follow the policies and manuals to implement internal control and risk management; conduct self-reviews and self-assessment of operational risk, and submit reports on loss incidents.
C. Scope and Characteristics of the Operational Risk Reporting and Measurement System	<ol style="list-style-type: none"> 1. When an incident involving operational risks occurs in the business unit, the unit shall submit a report complying with the regulations and thoroughly evaluate the cause of the incidence, implement follow-up measures and formulate improvement plans. Subsequently, the head office operating unit shall report the incidence according to the nature of the operational risk, review the Bank’s relevant regulations, operating procedures, or systems to decide if adjustments are required, and follow up on the improvements. The Auditing Department shall report to competent authorities if the operational risk-related incident is deemed significant. The Risk Management Department analyzes all operational risk-related incidents reported by

Item	Content
	<p>all units monthly, compiles and submits them to the Senior Executive Vice President, which is then further submitted to the Risk Management Committee and Board of Directors on a quarterly basis.</p> <p>2. To measure the Bank’s operational risk exposure and enhance risk management awareness, domestic and overseas units implementing operational risk self-assessment should conduct the assessments on various businesses annually. Each unit shall propose improvements to existing control mechanisms, and the head office operating unit will compose countermeasures and notify relevant units for compliance. The Risk Management Department will report the operational risk assessment results and the implementation status of the improvement proposals to Risk Management Committee and submit them to the Board of Directors and Risk Management Committee at Mega FHC.</p>
D. Operational Risk Hedging or Mitigation Policy, and Strategies and Procedures for Monitoring the Continuing Effectiveness of Hedging and Mitigation Instruments	<p>1. The Bank transfers the possible operational risk loss through insuring on banker’s blanket bond insurance, fire insurance, earthquake insurance, third-party liability insurance, group personal accident insurance, etc. The content of insurance also reviews and renews to maintain the effectiveness of risk transfer.</p> <p>2. The contract that the Bank signs with contractors for outsourced operations shall specify the scope of outsourced operations and the relevant regulations so as to clarify the attributions of responsibilities and transfer possible operational risk. Also, regular evaluations are conducted on the contractors for outsourced operations to ensure that the outsourced operations are in compliance with the relevant regulations of the competent authority.</p>
E. Method of Legal Capital Allocation	The Bank currently adopts the Basic Indicator Approach (BIA) for operational risk regulatory capital charge.

Market Risk Management System

Year 2023

Item	Content
A. Market Risk Management Strategies and Procedures	<p>1. Strategies:</p> <ul style="list-style-type: none"> ■ According to the risk management objectives and risk limits approved by the Board of Directors, supervise the entire bank’s market risk position and tolerable loss. ■ According to the Bank’s “Principles of Market Risk Management” and other relevant regulations, implement market risk management in order to maintain a healthy capital adequacy ratio. ■ Establish market risk information system to enable effective monitoring of limit management, profit and loss assessment, sensitivity factor analysis, execution of stress test, etc., of the financial products’ position, and compile a risk report to be submitted to the head for review and use as reference for decision-making. <p>2. Procedures:</p> <p>Set different types of risk management rules for financial products based on their different business natures and include the process for risk identification, measurement, monitoring and reporting into the regulations. The Risk Management Department monitors the compliance status of the transaction unit.</p> <ul style="list-style-type: none"> ■ Daily transactions: Prepare daily market risk position and income statement, compile and analyze domestic and overseas transaction unit data, summarize and analyze various financial products’ position, assess profit and loss, sensitivity risk factor analysis, and submit monthly stress test results to enable the top management to understand the entire bank’s market risk exposure; and regularly compile the balances, gains and losses, and market assessments of investments in securities and trades of derivative financial products

Item	Content
	<p>and submit to the (Managing) Board of Directors for the Board of Directors to understand the market risk control of the Bank.</p> <ul style="list-style-type: none"> ■ Exception management: Each transaction has limits and stop-loss rules. If the transaction reaches the stop-loss limit, action shall be taken immediately. If stop-loss is not executed, the transaction unit shall state the reason for not executing stop-loss and the contingency plan, submit to top management for approval, and report to the Risk Management Committee and Board of Directors based on the type of financial products.
<p>B. Organization of Market Risk Management</p>	<ol style="list-style-type: none"> 1. The Board of Directors is the Bank’s highest supervisory unit for market risk, in charge of the approval of risk strategies and various risk limits, and sets up the Risk Management Committee which supervises market risk. 2. Conduct Risk Management Committee council regularly, and the Risk Management Department shall submit a report on the management of the Bank’s various financial products position for reference by the committee. Besides submitting report on the Bank’s management status such as market risk and liquidity risk, the business supervising unit shall submit a special report on the current period’s major extraordinary event. 3. Risk Management Department is in charge of establishing risk control mechanism and formulating internal regulations. It compiles and analyzes data such as position, assesses the profit and loss, sensitivity risk factor analysis and stress test of various financial products regularly, and reports to the supervisory top management and Mega FHC. 4. Stress test is conducted on market risk factor changes on a monthly basis. Also, the Risk Management Department shall, according to market conditions, set the stress scenario every half a year and submit this to the top management for approval for execution of the stress test. The results are then submitted to the top management for review, and then to the competent authority according to the regulations of the competent authority. 5. Risk Management Department compiles and submits the balances, gains and losses, and market assessments of securities investments and derivative financial products to the (Managing) Board of Directors regularly to enable them to understand the Bank’s market risk management status. 6. The Treasury Department, the Direct Investment Department, Offshore Banking Branch, and overseas branches (including subsidiary banks) shall comply with relevant regulations and operating rules on market risks of the Bank and execute risk control based on business characteristics and scales; overseas branches (including subsidiary banks) shall also comply with the regulations of local supervisory authorities.
<p>C. Scope and Characteristics of Market Risk Reporting and Measurement</p>	<ol style="list-style-type: none"> 1. The content of the Bank’s market risk report includes exchange rate, interest rate, as well as the position, profit and loss assessment and sensitivity factor analysis of financial products such as equity securities, credit default swap, etc. 2. The domestic transaction units shall submit the financial products’ positions and gain or loss to the management on a daily basis. When positions are near to stop-loss alert indicator, close monitoring of market changes will be carried out. 3. The risk management unit conducts monthly stress test and submits reports to the Risk Management Committee meetings regularly. 4. For non-hedging transactions of derivative financial products, the risk is assessed based on daily market price; for hedging transactions, the risk is assessed twice per month. 5. When stop-loss limits for loss assessment of securities such as shares, mutual funds, bonds, etc. and derivative financial products are reached, stop-loss shall be executed immediately. The transaction unit shall state the reasons for not executing stop-loss and the response measures, and submit the status to the management or the top management for approval. When these products exceeded a certain amount of loss, such incident shall be reported to the Risk Management Committee and Board of Directors based on the type of financial product.

Item	Content
D. Market Risk Hedging or Mitigation Policy, and Strategies and Procedures for Monitoring the Continuing Effectiveness of Hedging and Mitigation Instruments	<ol style="list-style-type: none"> 1. The hedging strategy of the Bank is to use spot or derivative financial products as hedging tools to avoid market risk. Targeting the financial products to be hedged and the tools used to hedge, the Bank combines positions and profit/loss stop limits of both and evaluates whether the loss is within acceptable range and whether the currently used risk management measures are appropriate. 2. If the assessed risk is too high, the Bank will transfer the risk by reducing the exposure or adopting other approved hedging methods to reduce the risk to a tolerable range.
E. Method of Legal Capital Allocation	The Bank adopts the Standardized Approach for market risk capital charge.

Liquidity Risk Management System

Year 2023

Item	Content
A. Liquidity Risk Management Strategies and Procedures	<ol style="list-style-type: none"> 1. Strategies: <ul style="list-style-type: none"> ■ Monitor the Bank’s overall liquidity risk limit according to the risk management objectives approved by the Board of Directors. ■ According to the regulations of the Bank’s “Liquidity Risk Management Guidelines”, “Guidance for Contingency Funding Plan”, and “Guidance Governing Stress Test of Liquidity Risk”, implement liquidity risk management to ensure the Bank’s payment ability. ■ Conduct stress test regularly to ensure that when the Bank’s internal operation or external financial environment suffers severe impact, under any circumstance whether at present or in the future, the Bank’s liquid funds are sufficient to meet asset increase requirements or fulfill due obligations, so that the Bank can attain sustainable operation. 2. Process: <ul style="list-style-type: none"> ■ According to the Bank’s “Liquidity Risk Management Guidelines”, Treasury Department shall control intra-day liquidity positions and risks of NTD and foreign currencies held by domestic units on a daily basis, set aside deposit reserves and maintain liquidity reserves as per the regulations of the Central Bank of the Republic of China (Taiwan), and adjust the liquidity gap based on changes in daily cash flows and market status to ensure the proper liquidity. Overseas branches shall abide by the rules of the home country and the competent authority and hold proper liquid assets to maintain the sufficient liquidity. ■ Risk Management Department monitors the liquidity risk management indicators of major currencies, inspects regulatory compliance regularly, and reports to the Fund Management Committee, Risk Management Committee and the Board of Directors. ■ Risk Management Department sets stress scenario for specific event crisis for individual organizations or overall market environmental crisis. Stress tests shall be conducted regularly, and the results submitted to the Asset & Liability Management Committee and the Board of Directors.

Item	Content
B. Organization of Liquidity Risk Management	<ol style="list-style-type: none"> 1. The Board of Directors is the Bank’s highest supervisory unit for liquidity risk, and is in charge of the approval of risk strategies and limits. 2. Treasury Department is the executive unit for managing liquidity risk. 3. Risk Management Department is the supervising unit responsible for monitoring all risk limits and reviewing the appropriateness of the implementation procedures by the implementing units on a regular basis. It shall, on a regular basis, report the monitoring results of the liquidity risk to the Fund Management Committee, Asset & Liability Management Committee, Risk Management Committee, and the Board of Directors.
C. Scope and Characteristics of Liquidity Risk Reporting and Measurement	<ol style="list-style-type: none"> 1. The main purpose of the Bank’s liquidity risk report is to estimate the impact of various businesses’ future cash flow on the Bank’s capital movement, and control the cash flow gap or ratio under a tolerable risk limit. 2. When the liquidity indicator reaches an alert level, the Risk Management Department shall immediately report to the Chairman of the Fund Management Committee, and report at the meeting of the Fund Management Committee. 3. When the level for activating contingency plan is reached, the Risk Management Department shall immediately request the Chairman of the Fund Management Committee to convene a special meeting to review the liquidity contingency plan and implement it upon approval by the President. 4. Upon approval of the plan, the Treasury Department shall immediately implement liquidity contingency plan and the Risk Management Department shall request overseas branches (including subsidiary banks) to cooperate according to the plan, so as to fill the funding gap. 5. The Bank conducts stress test regularly and analyzes test results from the perspective of cash flow, liquidity position, repayment ability, etc. If the test results are not up to expectation, and if the liquidity gap is mild, adjust the fund structure as a response measure within stipulated time. In case of high liquidity gap or difficulty in raising short-term funds in the market, activate fund emergency contingency plan to reduce the impact of liquidity risk.
D. Liquidity Risk Hedging or Mitigation Policy, and Strategies and Procedures for Monitoring the Continuing Effectiveness of Hedging and Mitigation Instruments	<p>In response to liquidity crisis such as abnormal deposit withdrawal, huge drain of funds, other serious shortage of liquidity, etc., the Bank has formulated “Operational Directions for Contingency Funding Plan” to fill the funding gap, reduce liquidity risk, maintain normal operation of the entire Bank and the goal of sustainable operation.</p>

INDEPENDENT AUDITORS' REPORT

PWCR23000361

To the Board of Directors and Stockholders of Mega International Commercial Bank Co., Ltd.

Opinion

We have audited the accompanying consolidated balance sheets of Mega International Commercial Bank Co., Ltd. and subsidiaries (collectively the “Bank and subsidiaries”) as at December 31, 2023 and 2022, and the related consolidated statements of comprehensive income, of changes in equity and of cash flows for the years then ended, and notes to the consolidated financial statements, including a summary of material accounting policies.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Bank and subsidiaries as at December 31, 2023 and 2022, and its consolidated financial performance and its consolidated cash flows for the years then ended in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks, and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission.

Basis for opinion

We conducted our audits in accordance with the Regulations Governing Financial Statement Audit and Attestation Engagements of Certified Public Accountants, Jin-Guan-Yin-Fa-Zi Letter No.10802731571 and Standards on Auditing of the Republic of China. Our responsibilities under those standards are further described in the *Auditors' responsibilities for the audit of the consolidated financial statements* section of our report. We are independent of the Bank and its subsidiaries in accordance with the Norm of Professional Ethics for Certified Public Accountant of the Republic of China, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key audit matters

Key audit matters are those matters that, in our professional judgement, were of most significance in our audit of the Bank and subsidiaries' 2023 consolidated financial statements. These matters were addressed in the context of our audit of the consolidated financial statements as a whole and, in forming our opinion thereon, we do not provide a separate opinion on these matters.

Key audit matters for the Bank and subsidiaries' 2023 consolidated financial statements are stated as follows:

Impairment assessment of discounts and loans

Description

The impairment and assessment of discounts and loans complies with the regulations under IFRS 9 “Financial Instruments” and relevant regulations issued by the competent authority. For the accounting policy of impairment and assessment of discounts and loans, please refer to Note 4(9); for critical accounting judgements, estimates, and assumption uncertainty of the recognition and measurement of expected credit losses on discounts and loans, please refer to Note 5(2). For information on gross discounts and loans and allowance for bad debts, which amounted to NT\$2,169,518,741 thousand and NT\$36,176,730 thousand, respectively, as at December 31, 2023, please refer to Note 6(7); for disclosures of related credit risks, please refer to Note 8(3).

The Bank and subsidiaries assess the impairment of its discounts and loans based on the expected credit loss model. At each financial reporting date, financial instruments are categorized into three stages based on the degree of change in its credit risk since initial recognition. Provision for impairment loss is measured either using 12-month expected credit losses (i.e. stage 1, there has been no significant increase in credit risk since initial recognition) or lifetime expected credit losses (i.e. stage 2, there has been a significant increase in credit risk since initial recognition; or stage 3, the credit has impaired). The measurement of expected credit losses, which includes various parameters and assumptions and reflects reasonable and supportable information about past events, current conditions and forecasts of future economic conditions. For example, the probability of default and loss given default are estimated using grouping and historical data and subsequently calibrated according to forward-looking information.

The aforementioned impairment and assessment of discounts and loans, which involves various assumptions, estimates, and judgements, as well as predictions and assessments of future economic conditions and credit behavior of debtors. The amounts, recognized in accordance with regulations and interpretations, are directly subject to the measurement results. Thus, we have included the assessment of expected credit losses on discounts and loans as one of the key audit matters in our audit.

How our audit addressed the matter

We performed the following audit procedures on the key audit matter mentioned above:

1. Obtained an understanding and assessed the related written policies and internal control system, the expected credit loss impairment model and methodology, and the approval process of discounts and loans.
2. Sampled and tested the implementation effectiveness of internal controls related to the recognition and measurement of expected credit losses, including management of collateral and its value assessment, controls for changes in parameters, and approval for provisioning of expected credit losses.
3. Sampled and tested the consistency of measurement criteria for the samples in the three stages of expected credit loss with the judgement results of the system.
4. Sampled and tested probability of default, loss given default, exposure at default, and the discount rate.
 - (1) Sampled and tested assumptions for the parameters of the expected credit loss model, including the historical data on probability of default, loss given default, and exposure at default.
 - (2) Sampled and tested whether the calculation method of the discount rate of loss given default is in accordance with existing policy.

5. Sampled and tested forward-looking information
 - (1) Sampled and tested the data on macroeconomics (economic growth rate, price index, etc.) adopted by management to measure expected credit losses under IFRS 9.
 - (2) Assessed the forward-looking scenarios and their respective weights adopted by the management.
6. Sampled and tested cases in stage 3 (credit impaired) with material amounts that were assessed individually. Assessed the reasonableness and calculation accuracy of the various assumed parameter values (including the borrower's time of past due, financial and operational conditions, guarantees provided by external parties and historical data) adopted in the estimation of future cash flows.
7. Assessed whether the provision of impairment loss is in compliance with the relevant regulations of the competent authority.

Fair value measurement of unlisted stocks without an active market

Description

For the accounting policy for unlisted stocks without an active market (included financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income), please refer to Note 4(7); for critical accounting judgements, estimates, and assumption uncertainty of unlisted stocks without an active market, please refer to Note 5(1); for details on financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income, please refer to Notes 6(3) and (4). The fair values of unlisted stocks without an active market were classified as financial assets at fair value through profit or loss and financial assets at fair value through other comprehensive income as at December 31, 2023, and amounted to NT\$8,466,102 thousand and NT\$15,883,349 thousand, respectively.

The fair value of unlisted stocks is determined by valuation techniques since these financial instruments have no quoted prices from active market. Management uses the market approach and net asset approach to measure the fair value. The market approach is based on the fair value of comparable listed companies in similar industries or recently published price-to-book ratios of industries in which the valuation target operates, and incorporates discounting factor according to market liquidity or specified risk.

The aforementioned fair value measurement involves various assumptions and significant inputs that are not observable. This leads to estimates that are highly uncertain and rely on the subjective judgement of management. Any changes to the judgements and estimates will affect the final measurement results, and in turn affect the financial condition of the Bank and subsidiaries. Thus, we have included the fair value measurement of unlisted stock without active market as one of the key audit matters in our audit.

How our audit addressed the matter

We performed the following audit procedures on the key audit matter mentioned above:

1. Obtained an understanding and assessed the related written policies, internal control system, fair value measurement models, and approval process of the fair value measurement of stocks of unlisted companies.
2. Sampled and assessed the measurement methodology used by the management is commonly used by the industry.
3. Sampled and assessed the reasonableness of similar and comparable companies used by management.
4. Sampled and examined the inputs and calculation formulas used in the valuation models and agreed such data to the supporting documents.

Other matter- Parent company only financial report

We have audited and expressed an unqualified opinion on the parent company only financial statements as at and for the years ended December 31, 2023 and 2022.

Responsibilities of management and those charged with governance for the consolidated financial statements

Management is responsible for the preparation and fair representation of the consolidated financial statements in accordance with Regulations Governing the Preparation of Financial Reports by Public Banks, and the International Financial Reporting Standards, International Accounting Standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the Financial Supervisory Commission, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Bank and subsidiaries' ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Bank and subsidiaries or to cease operations, or has no realistic alternative but to do so.

Those charged with governance, including supervisors, are responsible for overseeing the Bank and subsidiaries' financial reporting process.

Auditors' responsibilities for the audit of the consolidated financial statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditors' report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with the Standards on Auditing of the Republic of China will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of an audit in accordance with the Standards on Auditing of the Republic of China, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

1. Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
2. Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Bank and subsidiaries' internal control.
3. Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

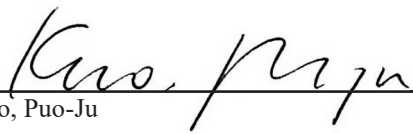

4. Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank and subsidiaries' ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditors' report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditors' report. However, future events or conditions may cause the Bank and subsidiaries to cease to continue as a going concern.
5. Evaluate the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
6. Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Bank and subsidiaries to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

MEGA INTERNATIONAL COMMERCIAL BANK CO., LTD. AND ITS SUBSIDIARIES

NOTES TO THE CONSOLIDATED FINANCIAL STATEMENTS

FOR THE YEARS ENDED DECEMBER 31, 2023 AND 2022

(EXPRESSED IN THOUSANDS OF NEW TAIWAN DOLLARS, EXCEPT AS OTHERWISE INDICATED)

1. HISTORY AND ORGANISATION

- (1) Mega International Commercial Bank Co., Ltd. (the “Bank”; formerly the International Commercial Bank of China Co., Ltd.) was reorganized on December 17, 1971 in accordance with the “Law for International Commercial Bank of China” as announced by the President of the Republic of China (R.O.C.) (which was then abolished in December, 2005) and other related regulations. As of December 31, 2002, the Bank became an unlisted wholly owned subsidiary of Mega Financial Holding Co. Ltd., through a share swap transaction. With the view to enlarging business scale and increasing market share, the Bank entered into a merger agreement with Chiao Tung Bank Co., Ltd. on August 21, 2006, the effective date of the merger. The Bank was later renamed Mega International Commercial Bank Co., Ltd. Mega Financial Holding Co., Ltd. holds 100% equity interest in the Bank and is the Bank’s ultimate parent company.

The Bank and Mega Life Insurance Agency Co., Ltd. (“Mega Life Insurance Agency”) are both wholly owned subsidiaries of Mega Financial Holding Co. Ltd. To integrate all the resource of the Group and create synergies, the Bank merged with Mega Life Insurance Agency on May 12, 2020, and concurrently engages in personal insurance agent business.

- (2) The Bank engages in the following operations: (a) commercial banking operations authorized by the R.O.C. Banking Law; (b) foreign exchange and related operations; (c) import and export financing and guarantees; (d) financial operations related to international trade; (e) trust operations; (f) investment services on consignments by clients; (g) loan operations, including mid-term to long-term development loan and guarantee operations; (h) venture capital activities; (i) the insurance agent business which commercial banks are permitted to engage in under Insurance Act; and (j) other related operations approved by the R.O.C. government.
- (3) The Bank’s business and operations are widely managed by the head office. The Bank expands its network by opening branches at key locations in both domestic and foreign markets. The Bank was incorporated as company limited by shares under the provisions of the Company Law of the Republic of China (R.O.C.). As of December 31, 2023, in addition to Offshore Banking Unit, the Bank had 108 domestic branches (excluding Head Office business unit), 24 overseas branches, 1 overseas subsidiary, 7 overseas sub-branches, 2 overseas representative offices, and 1 marketing office.
- (4) As of December 31, 2023 and 2022, the Bank and subsidiaries had 7,093 and 6,913 employees, respectively.

2. THE DATE OF AUTHORIZATION FOR ISSUANCE OF THE CONSOLIDATED FINANCIAL STATEMENTS AND PROCEDURES FOR AUTHORIZATION

These consolidated financial statements were authorized for issuance by the Board of Directors on February 29, 2024.

3. APPLICATION OF NEW STANDARDS, AMENDMENTS AND INTERPRETATIONS

- (1) Effect of the adoption of new issuances of or amendments to International Financial Reporting Standards (“IFRS”) Accounting Standards that came into effect as endorsed by the Financial Supervisory Commission (“FSC”)

New standards, interpretations and amendments endorsed by FSC and became effective from 2023 are as follows:

New Standards, Interpretations and Amendments	Effective date by International Accounting Standards Board(IASB)
Amendments to IAS 1, 'Disclosure of accounting policies'	January 1, 2023
Amendments to IAS 8, 'Definition of accounting estimates'	January 1, 2023
Amendments to IAS 12, 'Deferred tax related to assets and liabilities arising from a single transaction'	January 1, 2023
Amendments to IAS 12, 'International tax reform - pillar two model rules'	May 23, 2023

Except for the following, the above standards and interpretations have no significant impact to the Bank and subsidiaries’ financial condition and financial performance based on the Bank and subsidiaries’ assessment.

Amendments to IAS 12, ‘International tax reform - pillar two model rules’

The amendments give companies temporary relief from accounting for deferred income taxes arising from tax law enacted or substantively enacted to implement the Pillar Two model rules published by the Organization for Economic Co-operation and Development (OECD). An entity shall neither recognize nor disclose information about deferred tax assets and liabilities related to Pillar Two income taxes.

- (2) Effect of new issuances of or amendments to IFRS Accounting Standards as endorsed by the FSC but not yet adopted by the Bank and subsidiaries

New standards, interpretations and amendments endorsed by the FSC and will become effective from 2024 are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 16, 'Lease liability in a sale and leaseback'	January 1, 2024
Amendments to IAS 1, 'Classification of liabilities as current or non-current'	January 1, 2024
Amendments to IAS 1, 'Non-current liabilities with covenants'	January 1, 2024
Amendments to IAS 7 and IFRS 7, 'Supplier finance arrangements'	January 1, 2024

The above standards, interpretations have no significant impact to the financial condition, financial performance of the Bank and subsidiaries.

- (3) IFRS Accounting Standards issued by IASB but not yet endorsed by the FSC

New standards, interpretations and amendments issued by IASB but not yet included in the IFRS Accounting Standards as endorsed by the FSC are as follows:

New Standards, Interpretations and Amendments	Effective date by IASB
Amendments to IFRS 10 and IAS 28, 'Sale or contribution of assets between an investor and its associate or joint venture'	To be determined by IASB
IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Insurance contracts'	January 1, 2023
Amendments to IFRS 17, 'Initial application of IFRS 17 and IFRS 9-comparative information'	January 1, 2023
Amendments to IAS 21, 'Lack of exchangeability'	January 1, 2025

The above standards, interpretations on the financial condition, financial performance of the Bank and subsidiaries are yet to be assessed.

4. SUMMARY OF MATERIAL ACCOUNTING POLICIES

The principal accounting policies applied in the preparation of these consolidated financial statements are set out below. These policies have been consistently applied to all the periods presented, unless otherwise stated.

(1) Compliance statement

The consolidated financial statements of the Bank and subsidiaries have been prepared in accordance with the Regulations Governing the Preparation of Financial Reports by Public Banks, International Financial Reporting Standards, International Accounting standards, IFRIC Interpretations, and SIC Interpretations that came into effect as endorsed by the FSC (collectively referred herein as the "IFRSs").

(2) Basis for preparation

- A. Except for financial assets and financial liabilities (including derivatives) recognized at fair value, financial assets at fair value through other comprehensive income, and defined benefit liabilities recognized based on the net amount of pension fund assets less present value of defined benefit obligation, the consolidated financial statements have been prepared under the historical cost convention.
- B. The analysis of expense is classified based on the nature of expenses.
- C. The management has to make certain significant accounting estimates based on their professional judgement and decide the accounting policy according to the IFRSs that came into effect as endorsed by the FSC. Any change in the assumption could result in a significant change in the financial statements. The management of the Bank and subsidiaries believes that the assumptions used in the consolidated statements are appropriate. For highly complicated matters, matters requiring high level of judgements, significant judgements that could have an impact on the consolidated financial statements and estimates and key sources of assumption uncertainty, please refer to Note 5 for further details.

(3) Basis for preparation of consolidated financial statements

- A. All subsidiaries are included in the Bank and subsidiaries' consolidated financial statements. Subsidiaries are all entities controlled by the Bank. The Bank controls an entity when the Bank is exposed, or has rights, to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Consolidation of subsidiaries begins from the date the Bank obtains control of the subsidiaries and ceases when the Bank loses control of the subsidiaries.

Inter-company transactions, balances and unrealized gains or losses on transactions between companies within the Bank and subsidiaries are eliminated. Accounting policies of subsidiaries have been adjusted where necessary to ensure consistency with the policies adopted by the Bank.

Profit or loss and each component of other comprehensive income are attributed to the owners of the parent. Total comprehensive income is also attributed to the owners of the parent.

- B. Subsidiaries included in the consolidated financial statements:

Name of investor	Name of subsidiaries	Major business activities	Percentage of holding shares (%)	
			December 31, 2023	December 31, 2022
The Bank	Mega International Commercial Bank, Public Co., Ltd. (Thailand)	Commercial Banking	100.00	100.00

C. Subsidiaries not included in the consolidated financial statements:

Name of investor	Name of subsidiaries	Major business activities	Percentage of holding shares (%)	
			December 31, 2023	December 31, 2022
The Bank	Mega Management Consulting Co., Ltd.	Investment consulting, corporate management consulting and venture investment management consulting	100.00	100.00
The Bank	Cathay Investment & Warehousing Co., S.A.	Real estate investments	100.00	100.00
The Bank	Ramlett Finance Holdings Inc.	Real estate investments	100.00	100.00
The Bank	Yung-Shing Industries Co.	Agency of manpower and printing, packaging service	99.56	99.56
The Bank	China Products Trading Company	Investments in products businesses, storage businesses and other businesses	68.27	68.27
Yung-Shing Industries Co.	Win Card Co., Ltd.	Corporate management consulting, data processing business, general advertising services, general merchandise, credit card agency services, overdue accounts receivable management services	100.00	100.00
Yung-Shing Industries Co.	ICBC Assets Management & Consulting Co., Ltd.	Investment consulting, corporate management consulting and venture investment management consulting	100.00	100.00

As the individual total assets or operating revenue amounts of the above subsidiaries are immaterial, the accounts of these subsidiaries are not included in the Bank's consolidated financial statements although the Bank holds more than 50% equity interest in these subsidiaries. The investments of certain subsidiaries are accounted for using equity method.

D. Adjustments for subsidiaries with different balance sheet dates : None.

E. Nature and extent of the restrictions on fund remittance from subsidiaries to the parent company: None.

(4) Foreign currency translations

A. Functional and presentation currency

Items included in the financial statements of each of the Bank and subsidiaries' entities are measured using the currency of the primary economic environment in which the entity operates (the "functional currency"). The consolidated financial statements are presented in New Taiwan Dollars, which is the Bank's functional and the Bank and subsidiaries' presentation currency.

B. Transactions and balances

The transactions denominated in foreign currency or to be settled in foreign currency are translated into a functional currency at the spot exchange rate between the functional currency and the underlying foreign currency on the date of the transaction.

Foreign currency monetary items should be reported using the closing rate (market exchange rate) at the date of each balance sheet. When multiple exchange rates are available for use, they should be reported using the rate that would be used to settle the future cash flows of the foreign currency transactions or balances at the measurement date. Foreign currency non-monetary items measured at historical cost should be reported using the exchange rate at the date of the transaction. Foreign currency non-monetary items measured at fair value should be reported at the rate that existed when the fair values were determined.

Exchange differences arising when foreign currency transactions are settled or when monetary items are translated at rates different from those at which they were translated when initially recognized or in previous financial statements are reported in profit or loss in the period.

If a gain or loss on a non-monetary item is recognized in other comprehensive income, any foreign exchange component of that gain or loss is also recognized in other comprehensive income. Conversely, if a gain or loss on a non-monetary item is recognized in profit or loss, any foreign exchange component of that gain or loss is also recognized in profit or loss.

C. Translation of foreign operations

The operating results and financial position of the entire Bank and subsidiaries' entities in the consolidated financial statements that have a functional currency (which is not the currency of a hyperinflationary economy) different from the presentation currency are translated into the presentation currency as follows:

- Assets and liabilities presented are translated at the Bank and subsidiaries' closing exchange rate at the date of that balance sheet;
- The profit and loss presented is translated by the average exchange rate in the period (except for the situation that the exchange rate on the trade date shall be adopted when the exchange rate fluctuate rapidly); and
- All resulting exchange differences are recognized in other comprehensive income.

The translation differences arising from above processes are recognized as 'Exchange differences on translation of foreign financial statements' under equity items.

(5) Cash and cash equivalents

‘Cash and cash equivalents’ in the consolidated balance sheet includes cash on hand, due from other banks, short-term highly liquid investments that are readily convertible to known amount of cash and subject to an insignificant risk of changes in value. In respect of the consolidated statements of cash flows, cash and cash equivalents include cash and cash equivalents in the consolidated balance sheet, due from the Central Bank and call loans to banks, and securities purchased under resell agreements meeting the definition of cash and cash equivalents as stated in IAS No. 7 “Cash Flow Statements” as endorsed by the FSC.

(6) Securities sold under repurchase or resell agreements

The transactions of bills and bonds with a condition of repurchase agreement or resell agreement are accounted for under the financing method. The interest expense and interest income are recognized as incurred at the date of sale and purchase and the agreed period of sale and purchase. The repo trade liabilities, bond liabilities, reverse repo trade bills and bond investments are recognized at the date of sale or purchase.

(7) Financial assets or liabilities

A. Financial assets

Financial assets owned by the Bank and subsidiaries are classified based on both the Bank and subsidiaries' business model for managing the financial assets and the contractual cash flow characteristics of the financial assets into ‘discounts and loans’, ‘receivables’, ‘financial assets at fair value through profit or loss’, ‘financial assets at fair value through comprehensive income’, and ‘investments in debt instrument at amortized cost’.

Business model refers to the method by which the Bank and subsidiaries manage the financial assets to generate cash flows, which originates from collecting contractual cash flows, selling financial assets, or both. When determining whether the contractual cash flows of the asset are solely payments of principal and interest on principal amount outstanding, the Bank and subsidiaries assess whether the contractual cash flows are consistent with those required in a basic loan agreement. In other words, the Bank and subsidiaries determine whether interest is solely based on the time value of money, credit risk related to the principal amount outstanding on specified dates, other risks and costs associated with the basic loan agreement, and marginal profits consideration.

(A) A regular way purchase or sale

The Bank and subsidiaries recognize a regular way purchase or sale of financial assets using trade date accounting based on their category and accounting classification.

(B) Discounts and loans

Discounts and loans consist of export bills negotiation, export bills discount, loans, and overdue receivables arising from loans. Discounts and loans are measured at amortized cost using the effective interest rate method. Measurement at initial investment amount is allowed if effect of discounting is immaterial.

If a discount and loan held by the Bank and subsidiaries is renegotiated or has its terms modified due to financial difficulties of the borrower, so that it is required to be derecognized, entirely or partially, in accordance with IFRS 9, the old financial assets is derecognized, and a new financial asset and related gains or losses are recognized.

If a discounts and loans held by the Bank and subsidiaries is renegotiated or has its terms modified due to financial difficulties of the borrower, but is not required to be derecognized, or if renegotiations or modification of terms are for reasons other than financial difficulties, which rarely results in the derecognition of the asset, the carrying amount of the asset is recalculated and resulting gains or losses are recognized in profit or loss.

Interest arising from discounts and loans is recognized as ‘interest income’.

(C) Receivables, net

Receivables include receivables originated and not originated by the Bank and subsidiaries. Receivables originated by the entity arising from a direct provision of money, goods or services to debtors while receivables not originated by the Bank and subsidiaries include otherwise.

Receivables are measured at amortized cost using the effective interest method. However, short-term accounts receivable without bearing interest are subsequently measured at initial invoice amount as the effect of discounting is immaterial.

The Bank and subsidiaries determine whether the receivables that have been discounted or transferred qualify derecognition under IFRS 9 based on how much control over the risks and rewards of the receivables it has retained.

Significant amounts of receivables due from related parties are shown separately.

Interest arising from receivables are recognized as ‘interest income’.

(D) Financial assets at fair value through profit or loss

Financial assets at fair value through profit or loss are financial assets that are not measured at amortized cost or fair value through other comprehensive income. Financial assets at amortized cost or fair value through other comprehensive income are designated as at fair value through profit or loss at initial recognition when they eliminate or significantly reduce a measurement or recognition inconsistency.

At initial recognition, the Bank and subsidiaries measure the financial assets at fair value. All related transaction costs are recognized in profit or loss. The Bank and subsidiaries subsequently measure these financial assets at fair value with any gain or loss recognized in profit or loss.

Dividends are recognized as gain (loss) on financial assets or liabilities at fair value through profit or loss - dividend revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Bank and its subsidiaries and the amount of the dividend can be measured reliably.

- (E) Investments in debt instruments at amortized cost
 - a. Financial assets at amortized cost are those that meet all of the following criteria:
 - (a) The objective of the Bank and subsidiaries' business model is achieved by collecting contractual cash flows.
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
 - b. At initial recognition, the Bank and subsidiaries measure the financial assets at fair value plus transaction costs. Interest income from these financial assets is included in finance income using the effective interest method. A gain or loss is recognized in derecognition designated as gain (loss) on financial assets at amortized cost when the asset is derecognized or impaired.
- (F) Financial assets at fair value through other comprehensive income
 - a. Financial assets at fair value through other comprehensive income comprise equity securities which are not held for trading, and for which the Bank and subsidiaries have made an irrevocable election at initial recognition to recognize changes in fair value in other comprehensive income and debt instruments which meet all of the following criteria:
 - (a) The objective of the Bank and subsidiaries' business model is achieved both by collecting contractual cash flows and selling financial assets; and
 - (b) The assets' contractual cash flows represent solely payments of principal and interest.
 - b. At initial recognition, the Bank and subsidiaries measure the financial assets at fair value plus transaction costs. The Bank and subsidiaries subsequently measure the financial assets at fair value:
 - (a) The changes in fair value of equity investments that were recognized in other comprehensive income are reclassified to retained earnings and are not reclassified to profit or loss following the derecognition of the investment. Dividends are recognized as realized gains (losses) on financial assets at fair value through other comprehensive income-dividend revenue when the right to receive payment is established, future economic benefits associated with the dividend will flow to the Bank and subsidiaries and the amount of the dividend can be measured reliably.
 - (b) Except for the recognition of impairment loss, interest income and gain or loss on foreign exchange which are recognized in profit or loss, the changes in fair value of debt instruments are taken through other comprehensive income. When the financial assets is derecognized, the cumulative gain or loss previously recognized in other comprehensive income is reclassified from equity to profit or loss.

(G) Reclassification of financial assets

When, and only when, the Bank and subsidiaries change its business model for managing financial assets it reclassifies all affected financial assets except for equity instruments and financial assets designated as at fair value through profit or loss. The Bank and subsidiaries apply the reclassification prospectively from the reclassification date and does not restate any previously recognized gains, losses or interest.

B. Financial liabilities

Financial liabilities held by the Bank and subsidiaries comprise financial liabilities at fair value through profit or loss and financial liabilities measured at amortized cost.

(A) Financial liabilities at fair value through profit or loss

Financial liabilities are classified in this category of held for trading if acquired principally for the purpose of repurchasing in the short-term. Derivatives are also categorized as financial liabilities held for trading unless they are designated as hedges. Or financial liabilities at fair value through profit or loss. Financial liabilities that meet one of the following criteria are designated as at fair value through profit or loss at initial recognition:

- a. Hybrid (combined) contracts; or
- b. They eliminate or significantly reduce a measurement or recognition inconsistency; or
- c. They are managed and their performance is evaluated on a fair value basis, in accordance with a documented risk management policy.

At initial recognition, the Bank and subsidiaries measure the financial liabilities at fair value. All related transaction costs are recognized in profit or loss. The Bank and subsidiaries subsequently measure these financial liabilities at fair value with any gain or loss recognized in profit or loss.

If the credit risk results in fair value changes in financial liabilities designated as at fair value through profit or loss, they are recognized in other comprehensive income in the circumstances other than avoiding accounting mismatch or recognizing in profit or loss for loan commitments or financial guarantee contracts.

(B) Financial liabilities measured at amortized cost

Liabilities not classified as financial liabilities at fair value through profit or loss and financial guarantee contracts are all included in financial liabilities carried at amortized cost.

C. Decision of fair value

Fair value and level information of financial instruments are provided in Note 7.

D. Derecognition of financial instruments

- (A) The Bank and subsidiaries derecognize a financial asset when one of the following conditions is met:
 - a. The contractual rights to receive cash flows from the financial assets expire.
 - b. The contractual rights to receive cash flows from the financial assets have been transferred and the Bank and subsidiaries have transferred substantially all risks and rewards of ownership of the financial assets.
 - c. The contractual rights to receive cash flows from the financial assets have been transferred; however, it has not retained control of the financial assets.
- (B) A financial liability is derecognized when the obligation under the liability specified in the contract is discharged or cancelled or expires.
- (C) In case of securities lending or borrowing by the Bank and subsidiaries or provision of bonds or stocks as security for repo trading, the Bank and subsidiaries do not derecognize the financial assets, because substantially all risks and rewards of ownership of the financial assets are still retained in the Bank and subsidiaries.

(8) Offsetting financial instruments

Financial assets and liabilities are offset and reported in the net amount in the consolidated balance sheet when (A) there is a legally enforceable right to offset the recognized amounts and (B) there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(9) Impairment of financial assets

For due from banks and call loans to banks, discounts and loans, receivables, debt instruments measured at fair value through other comprehensive income, financial assets at amortized cost, loan commitments, financial guarantee contracts and other financial assets etc., at each reporting date, the Bank and subsidiaries recognize the impairment provision for 12 months expected credit losses if there has not been a significant increase in credit risk since initial recognition or recognize the impairment provision for the lifetime expected credit losses (ECLs); if such credit risk has increased since initial recognition after taking into consideration all reasonable and verifiable information that includes forecasts.

The Bank and subsidiaries measure expected credit losses in a way that reflects:

- A. An unbiased and probability-weighted amount that is determined by evaluating a range of possible outcomes;
- B. The time value of money; and
- C. Reasonable and supportable information about past events, current conditions and reasonable and supportable forecasts of future events and economic conditions at the reporting date.

For loan assets, the Bank and subsidiaries assess the loss allowance at the balance sheet date in accordance with “Regulation Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans” as issued by the FSC, “Financial-Supervisory-Banks Letter No. 10300329440” issued on December 4, 2014 relating to the strengthening of domestic banks’ risk endurance to real estate loans, “Financial-Supervisory-Banks Letter No. 10410001840” issued on April 23, 2015 relating to the strengthening of domestic banks’ risk endurance to management of exposures in China as well as IFRS 9 requirements. The loss allowance is provisioned at the higher of the amounts assessed in compliance with the aforementioned domestic regulations and IFRS 9 and then presented at net value.

(10) Non-hedging and embedded derivatives

- A. Non-hedging derivatives are initially recognized at fair value on the date a derivative contract is entered into and recorded as financial assets or financial liabilities at fair value through profit or loss. They are subsequently remeasured at fair value and the gains or losses are recognized in profit or loss.
- B. Under the financial assets, the hybrid contracts embedded with derivatives are initially recognized as financial assets at fair value through profit or loss, financial assets at fair value through other comprehensive income and financial assets at amortized cost based on the contract terms.
- C. Under the non-financial assets, whether the hybrid contracts embedded with derivatives are accounted for separately at initial recognition is based on whether the economic characteristics and risks of an embedded derivatives are closely related in the host contract. When they are closely related, the entire hybrid instrument is accounted for by its nature in accordance with the applicable standard. When they are not closely related, the derivatives are accounted for differently from the host contract as derivatives while the host contract is accounted for by its nature in accordance with the applicable standard. Alternatively, the entire hybrid instrument is designated as a derivative instrument included in financial liabilities at fair value through profit or loss upon initial recognition, and no separate accounting is required.

(11) Leasing arrangements (lessor) – operating leases

Lease income from an operating lease (net of any incentives given to the lessee) is recognized in profit or loss on a straight-line basis over the lease term.

(12) Investments measured by equity method

- A. Associates are all entities over which the Bank and subsidiaries have significant influence but not control. In general, it is presumed that the investor has significant influence, if an investor holds, directly or indirectly 20 percent or more of the voting power of the investee. Investments in associates are accounted for using equity method and are initially recognized at cost.

- B. The Bank and subsidiaries' share of its associates' post-acquisition profits or losses is recognized in profits or loss, and its share of post-acquisition movements in other comprehensive income is recognized in other comprehensive income. When the Bank and subsidiaries' share of losses in an associate equals or exceeds its interest in the associate, including any other unsecured receivables, the Bank and subsidiaries do not recognize further losses, unless it has incurred legal or constructive obligations or made payments on behalf of the associate.
- C. Unrealized gains on transactions between the Bank and subsidiaries and its associates are eliminated to the extent of the Bank and subsidiaries' interest in the associates. Unrealized losses are also eliminated unless the transaction provides evidence of an impairment of the asset transferred. Accounting policies of associates have been adjusted where necessary to ensure consistency with the policies adopted by the Bank and subsidiaries.
- D. When changes in an associate's equity that are not recognized in profit or loss or other comprehensive income of the associates and such changes not affecting the Bank and subsidiaries' ownership percentage of the associate, the Bank and subsidiaries recognized the Bank and subsidiaries' share of change in equity of the associate in 'capital reserve' in proportion to its ownership.
- E. When the Bank and subsidiaries dispose its investment in an associate, if it loses significant influence over this associate, the amounts previously recognized as other comprehensive income in relation to the associate are transferred to profit or loss. If it still retains significant influence over this associate, then the amounts previously recognized as other comprehensive income in relation to the associate are transferred to profit or loss proportionately.

(13) Property and equipment

The property and equipment of the Bank and subsidiaries are recognized on the basis of the historical cost less accumulated depreciation. Historical cost includes all costs directly attributable to the acquisition of the assets.

Such assets are subsequently measured using the cost model. Subsequent costs are included in the asset's carrying amount or recognized as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Bank and subsidiaries and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognized. All other repairs and maintenance are charged to profit or loss during the financial period in which they are incurred.

Land is not affected by depreciation. Depreciation for other assets is provided on a straight-line basis over the estimated useful lives of the assets till residual value. If each part of an item of property and equipment with a cost that is significant in relation to the total cost of the item must be depreciated separately.

The assets' residual values, useful lives and depreciation methods are reviewed, and adjusted if appropriate, at each balance sheet date. If expectations for the assets' residual values and useful lives differ from previous estimates or the patterns of consumption of the assets' future economic benefits embodied in the assets have changed significantly, any change is accounted for as a change in estimate under IAS 8, 'Accounting Policies, Changes in Accounting Estimates and Errors', from the date of the change. The estimated useful lives of property, plant and equipment are as follows:

Item	Year
Buildings and accessory equipment	1~60
Machinery and computer equipment	1~20
Transportation equipment	1~10
Other equipment	3~10

(14) Investment property

The properties held by the Bank and subsidiaries, with an intention to obtain long-term rental profit or capital increase or both and not being used by any other enterprises of the consolidated entities, are classified as investment property. Investment property includes the office building and land leased out in a form of operating lease.

Part of the property may be held by the Bank and subsidiaries and the remaining will be used to generate rental income or capital appreciation. If the property held by the Bank and subsidiaries can be sold individually, then the accounting treatment should be made respectively.

When the future economic benefit related to the investment property is highly likely to flow into the Bank and subsidiaries and the costs can be reliably measured, the investment property shall be recognized as assets. When the future economic benefit generated from subsequent costs is highly likely to flow into the entity and the costs can be reliably measured, the subsequent expenses of the assets shall be capitalized. All maintenance cost is recognized as incurred in the consolidated statement of comprehensive income.

An investment property is stated initially at its cost and measured subsequently using the cost model. The depreciation method, remaining useful life and residual value should apply the same rules as applicable for property and equipment.

(15) Leasing arrangements (lessee) — right-of-use assets/ lease liabilities

- A. Leases are recognized as a right-of-use asset and a corresponding lease liability at the date at which the leased asset is available for use by the Bank and subsidiaries. For short-term leases or leases of low-value assets, lease payments are recognized as an expense on a straight-line basis over the lease term.
- B. Lease liabilities include the net present value of the remaining lease payments at the commencement date, discounted using the incremental borrowing interest rate.

Lease payments are comprised of the following:

- (a) Fixed payments, less any lease incentives receivable;
- (b) Variable lease payments that depend on an index or a rate;
- (c) Amounts expected to be payable by the lessee under residual value guarantees;

- (d) The exercise price of a purchase option, if the lessee is reasonably certain to exercise that option; and
- (e) Payments of penalties for terminating the lease, if the lease term reflects the lessee exercising that option.

The Bank and subsidiaries subsequently measure the lease liability at amortized cost using the interest method and recognizes interest expense over the lease term. The lease liability is remeasured and the amount of remeasurement is recognized as an adjustment to the right-of-use asset when there are changes in the lease term or lease payments and such changes do not arise from contract modifications.

- C. At the commencement date, the right-of-use asset is stated at cost comprising the following:

- (a) The amount of the initial measurement of lease liability;
- (b) Any lease payments made at or before the commencement date;
- (c) Any initial direct costs incurred by the lessee; and
- (d) An estimate of costs to be incurred by the lessee in dismantling and removing the underlying asset, restoring the site on which it is located or restoring the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is measured subsequently using the cost model and is depreciated from the commencement date to the earlier of the end of the asset's useful life or the end of the lease term. When the lease liability is remeasured, the amount of remeasurement is recognized as an adjustment to the right-of-use asset.

- D. For lease modifications that decrease the scope of the lease, the lessee shall decrease the carrying amount of the right-of-use asset to reflect the partial or full termination of the lease, and recognize the difference between remeasured lease liability in profit or loss.

(16) Foreclosed properties

Foreclosed properties are stated at the lower of carrying amount or fair value less selling cost on the financial reporting date.

(17) Impairment of non-financial assets

The Bank and subsidiaries assess at each balance sheet date the recoverable amounts of those assets where there is an indication that they are impaired. An impairment loss is recognized for the amount by which the asset's carrying amount exceeds its recoverable amount. The recoverable amount is the higher of an asset's fair value less cost to sell or value in use. When the circumstances or reasons for recognizing impairment loss for an asset in prior years no longer exist or diminish, the impairment loss shall be reversed. The increased carrying amount due to reversal should not be more than what the depreciated or amortized historical cost would have been if the impairment had not been recognized.

(18) Provisions for liabilities, contingent liabilities and contingent assets

When all the following criteria are met, the Bank and subsidiaries shall recognize a provision:

- A. A present obligation (legal or constructive) as a result of a past event;
- B. It is probable that an outflow of resources embodying economic benefits will be required to settle the obligation; and
- C. The amount of the obligation can be reliably estimated.

If there are several similar obligations, the outflow of economic benefit as a result of settlement is determined based on the overall obligation. Provisions for liabilities should be recognized when the outflow of economic benefits is probable in order to settle the obligation as a whole even if the outflow of economic benefits from any one of the obligation is remote.

Provisions are measured by the present value of expense which is required for settling the anticipated obligation. The pre-tax discount rate is used with timely adjustment that reflects the current market assessments on the time value of money and the risks specific to the obligation.

Contingent liability is a possible obligation that arises from past event, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank and subsidiaries. Or it could be a present obligation as a result of past event but the payment is not probable or the amount cannot be measured reliably. The Bank and subsidiaries did not recognize any contingent liabilities but made appropriate disclosure in compliance with relevant regulations.

Contingent asset is a possible asset that arises from past event, whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the Bank and subsidiaries. The Bank and subsidiaries did not recognize any contingent assets and made appropriate disclosure in compliance with relevant regulations when the economic inflow is probable.

(19) Financial guarantee contracts and loan commitments

A financial guarantee contract is a contract that requires the Bank and subsidiaries to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

A loan commitment is an agreement to provide credit under predetermined terms and conditions.

The Bank and subsidiaries initially recognize financial guarantee contracts at fair value on the date of issuance. The Bank and subsidiaries charge a service fee when the contract is signed and therefore the service fee income charged is the fair value at the date that the financial guarantee contract is signed. Service fee received in advance is recognized in deferred accounts and amortized through straight-line method during the contract term.

Loss provisions are recognized for financial guarantee contracts and loan commitments, and the amounts of loss allowance are determined by expected credit losses.

Subsequently, the Bank and subsidiaries should measure the financial guarantee contract issued at the higher of:

- A. The amount of loss allowance is determined by using an expected-credit-loss model; and
- B. The initially recognized amount less the cumulative gains that were recognized under IFRS 15 'Revenue from contracts with customers'.

Loss allowance for the aforementioned reserve for guarantee liabilities is assessed in accordance with "Regulations Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans" as issued by the FSC and IFRS 9 requirements. A provision is then recognized at the higher of the amounts assessed in compliance with the aforementioned domestic regulations and IFRS 9.

The Bank and subsidiaries determine loss allowance for the loan commitments based on expected credit loss.

The loss allowance is recognized as provision for loan commitments and financial guarantee contracts. If the financial instrument contains both a loan (i.e. financial assets) and an undrawn commitment (i.e. loan commitment) component and the Bank and subsidiaries are unable to identify the expected credit losses (ECLs) of the financial assets and loan commitment component, the ECLs of loan commitment is recognized together with the loss allowance for financial assets. A provision is recognized for the aggregate ECLs exceeding the carrying amount of the financial assets.

The increase in liabilities due to financial guarantee contracts and loan commitments is recognized in 'bad debts expense, commitment and guarantee liability provision'.

(20) Employee benefits

A. Short-term employee benefits

The Bank and subsidiaries should recognize the undiscounted amount of the short-term benefits expected to be paid in the future as expenses in the period when the employees render service.

B. Employee preferential savings

The Bank provides preferential interest rate for employees, including flat preferential savings for current employees and flat preferential savings for retired employees. The difference gap compared to market interest rate is deemed as employee benefits.

According to Regulation Governing the Preparation of Financial Statements by Public Banks, the preferential monthly interest paid to current employees is calculated based on accrual basis, and the difference between the preferential interest rate and the market interest rate is recognized under "employee benefit expense". According to Article 30 of Regulation Governing the Preparation of Financial Statements by Public Banks, the excessive interest arising from the interest rate upon retirement agreed with the employees in excess of general market interest rate should be recognized in accordance with IAS 19, "Employee Benefits", as endorsed by the FSC. However, various parameters should be in compliance with competent authorities if indicated otherwise.

C. Termination benefits

Termination benefits are employee benefits provided in exchange for the termination of employment as a result from either the decisions of the Bank and subsidiaries to terminate an employee's employment before the normal retirement date, or an employee's decision to accept an offer of redundancy benefits in exchange for the termination of employment. The Bank and subsidiaries recognize expense as it can no longer withdraw an offer of termination benefits or it recognizes relating restructuring costs, whichever is earlier.

Benefits that are expected to be due more than 12 months after balance sheet date shall be discounted to their present value.

D. Post-employment benefit

The pension plan of the Bank and subsidiaries include both Defined Contribution Plan and Defined Benefit Plan. In addition, defined contribution plan is adopted for employees working overseas according to the local regulations.

(A) Defined Contribution Plan

The contributions are recognized as pension expenses when they are due on an accrual basis. Prepaid contributions are recognized as an asset to the extent of a cash refund or a reduction in the future payments.

(B) Defined Benefit Plan

a. Net obligation under a defined benefit plan is defined as the present value of an amount of pension benefits that employees will receive on retirement for their services with the Bank and subsidiaries in current period or prior periods. The liability recognized in the balance sheet in respect of defined benefit pension plans is the present value of the defined benefit obligation at the balance sheet date less the fair value of plan assets. The defined benefit net obligation is calculated annually by independent actuaries using the projected unit credit method. The rate used to discount is determined by using interest rates of high-quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have terms to maturity approximating to the terms of the related pension liability; when there is no deep market in high-quality corporate bonds, the Bank and subsidiaries use interest rates of government bonds (at the balance sheet date) instead.

b. Remeasurement arising on defined benefit plans are recognized in other comprehensive income in the period in which they arise and are recorded as retained earnings.

c. Past service costs are recognized immediately in profit or loss.

E. Employees' compensation and directors' and supervisors' remuneration

Employees' compensation and directors' and supervisors' remuneration are recognized as expenses and liabilities, provided that such recognition is required under legal obligation or constructive obligation and those amounts can be reliably estimated. Any difference between the resolved amounts and the subsequently actual distributed amounts is accounted for as changes in estimates. If employee compensation is distributed by shares, the Bank and subsidiaries calculate the number of shares based on the closing price at the previous day of the Board of Directors' resolution day.

(21) Employee share-based payment

For the equity-settled share-based payment arrangements, the employee services received are measured at the fair value of the equity instruments granted at the grant date, and are recognized as compensation cost over the vesting period, with a corresponding adjustment to equity. The fair value of the equity instruments granted shall reflect the impact of market vesting conditions and non-market vesting conditions. Compensation cost is subject to adjustment based on the service conditions that are expected to be satisfied and the estimates of the number of equity instruments that are expected to vest under the non-market vesting conditions at each balance sheet date. And ultimately, the amount of compensation cost recognized is based on the number of equity instruments that eventually vest.

(22) Revenue and expense

Income and expense of the Bank and subsidiaries are recognized as incurred. Expenses consist of employee benefit expense, depreciation and amortization expense and other business and administration expenses. Dividend revenues are recognized within 'financial assets and liabilities at fair value through profit or loss' and 'financial assets and liabilities at fair value through other comprehensive income' in the consolidated statement of comprehensive income when the right to receive dividends is assured.

- A. Other than those classified as financial assets and liabilities at fair value through profit and loss, all the interest income and interest expense generated from interest-bearing financial assets are calculated by effective interest rate according to relevant regulations and recognized as "interest income" and "interest expense" in the consolidated statement of comprehensive income.
- B. Service fee income and expense are recognized upon the completion of services of loans or other services; service fee earned from performing significant items shall be recognized upon the completion of the service, such as syndication loan service fee received from sponsor, service fee income and expense of subsequent services of loans are amortized or included in the calculation of effective interest rate of loans and receivables during the service period.

(23) Income tax

- A. The tax expense for the period comprises current and deferred tax. Tax is recognized in profit or loss, except to the extent that it relates to items recognized in other comprehensive income or items recognized directly in equity, in which cases the tax is recognized in other comprehensive income or equity.
- B. The current income tax expense is calculated on the basis of the tax laws enacted or substantively enacted at the balance sheet date in the countries where the Bank and subsidiaries operate and generate taxable income. Management periodically evaluates positions taken in tax returns with respect to situations in accordance with applicable tax regulations. It establishes provisions where appropriate based on the amounts expected to be paid to the tax authorities. An additional tax is levied on the unappropriated retained earnings and is recorded as income tax expense in the following year after the Board of Directors make resolution in respect of earnings appropriation proposal on behalf of stockholders.
- C. Deferred income tax is recognized, using the balance sheet liability method, on temporary differences arising between the tax bases of assets and liabilities and their carrying amounts in the consolidated balance sheet. However, the deferred income tax is not accounted for if it arises from initial recognition of goodwill or of an asset or liability in a transaction other than a business combination that at the time of the transaction affects neither accounting nor taxable profit or loss and does not give rise to equal taxable and deductible temporary differences. Deferred income tax is provided on temporary differences arising on investments in subsidiaries, except where the timing of the reversal of the temporary difference is controlled by the Bank and subsidiaries and it is probable that the temporary difference will not reverse in the foreseeable future. Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realized or the deferred income tax liability is settled.
- D. Deferred income tax assets are recognized only to the extent that it is probable that future taxable profit will be available against which the temporary differences can be utilized. At each balance sheet date, unrecognized and recognized deferred income tax assets are reassessed.
- E. Current income tax assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously. Deferred income tax assets and liabilities are offset on the balance sheet when the entity has the legally enforceable right to offset current income tax assets against current income tax liabilities and they are levied by the same taxation authority on either the same entity or different entities that intend to settle on a net basis or realize the asset and settle the liability simultaneously.

(24) Share capital and dividends

Dividends on ordinary shares are recognized in the financial statements in the period in which they are approved by the shareholders. Cash dividends are recorded as liabilities. Stock dividends are recorded as stock dividends to be distributed and are reclassified to ordinary shares on the effective date of new shares issuance; they are not recognized and only disclosed as subsequent event in the notes if the dividend declaration date is later than the consolidated balance sheet date.

(25) Operating segments

Information of operating segments of the Bank and subsidiaries is reported in the same method as the internal management report provided to the chief operating decision-maker (CODM). The CODM is the person or group in charge of allocating resources to operating segments and evaluating their performance. The CODM of the Bank and subsidiaries is the Board of Directors.

5. CRITICAL ACCOUNTING JUDGEMENTS, ESTIMATES AND KEY SOURCES OF ASSUMPTION UNCERTAINTY

The preparation of these consolidated financial statements requires management to make critical judgements in applying the Bank and subsidiaries' accounting policies and make critical assumptions and estimates concerning future events. Assumptions and estimates may differ from the actual results and are continually evaluated and adjusted based on historical experience and other factors.

Management's critical judgements in applying the Bank and subsidiaries' accounting policies that have significant impact on the consolidated financial statements are outlined below:

(1) Fair value measurement of investment in unlisted stock

The fair value of unlisted stocks without an active market is determined by using valuation techniques such as market approach and net asset approach. The measurement of fair value may adopt observable information or models of similar financial instruments or use assumptions in an appropriate manner if the observable parameters are unavailable in the market. Observable information is the primary source of reference. When valuation models are used for the measurements, calibration are performed to ensure its accountability in reflecting real information and market price.

In the fair value measurement, the Bank and subsidiaries primarily use reference of the latest updated market multipliers of similar listed stocks in the industry alike and takes into account marketability discount and discount in the specialized risks. Any changes in these judgements and estimates will impact the fair value measurement of these unlisted stocks. Please refer to Note 7 for the financial instruments fair value information.

(2) Expected credit losses

For financial assets at amortized cost and financial assets at fair value through other comprehensive income, the measurement of expected credit losses (ECLs) involves complex model and various assumptions associated with macro-economic projections and borrowers' situation in terms of the probability of default and losses-given-default. Information relating to parameters, assumptions, methods of estimation, ECL's sensitivity analysis corresponding to the aforementioned factors is provided in Note 8(3).

The measurement of ECLs in accordance with the framework of accounting principles involves several significant judgements, such as:

- A. Criteria in determining whether there has been a significant increase in credit risk;
- B. A selection of appropriate models and assumptions in ECLs measurement;
- C. Forward-looking information to be taken into consideration in terms of different products; and
- D. Grouping the financial instruments to include financial assets with the same credit risk characteristics into one group.

Please refer to Note 8(3) for the aforementioned judgements and estimates with respect of ECLs.

(3) Post-employment benefit

The present value of post-employment benefit obligations is estimated based on several assumptions. Any changes in those assumptions will affect the carrying amounts of post-employment benefit obligations.

The assumptions used to determine net pension cost (revenue) comprise discount rate. The Bank and subsidiaries determine the appropriate discount rate at the end of each year, and use the discount rate in calculating the present value of future cash outflow of post-employment benefit obligations. The discount rate is chosen by reference to the rate of government bonds where the currency and maturity date of government bonds are in agreement with those of post-employment benefit obligations. Any changes in these assumptions could significantly impact the carrying amount of defined pension obligations.

6. DETAILS OF SIGNIFICANT ACCOUNTS

(1) Cash and cash equivalents

	December 31, 2023	(Reclassified) December 31, 2022	(Reclassified) January 1, 2022
Cash on hand and petty cash	\$ 20,023,324	\$ 19,185,744	\$ 16,005,097
Checks for clearance	273,248	487,555	375,969
Due from banks (Note)	113,583,075	64,605,910	76,238,187
Subtotal	133,879,647	84,279,209	92,619,253
Less: Allowance for bad debt - due from banks	-	(31)	(12)
Total	<u>\$ 133,879,647</u>	<u>\$ 84,279,178</u>	<u>\$ 92,619,241</u>

Note: As overseas banks and domestic banks have different definitions for the nature of transactions of inter-bank funds transfers, the Bank reclassified the relevant transactions and recorded them under a consistent line item. As of December 31, 2022 and January 1, 2022, the amounts reclassified from cash and cash equivalents to due from the Central Bank and call loans to banks were NT\$25,116,690 thousand and NT\$41,124,913 thousand, respectively.

Information relating to credit risk is provided in Note 8(3).

(2) Due from the Central Bank and call loans to banks

	December 31, 2023	(Reclassified) December 31, 2022	(Reclassified) January 1, 2022

Subtotal	29,495,887	23,587,038
Valuation adjustment	20,683,262	8,503,059
Equity instruments, net	50,179,149	32,090,097
Total	\$ 407,864,306	\$ 404,518,469

- A. The Bank and subsidiaries have elected to classify investments that are considered to be strategic investments and with steady dividend income as financial assets at fair value through other comprehensive income. The fair value of such investments both were the carrying amounts of these assets at December 31, 2023 and 2022.
- B. Since the investee, Ability I Venture Capital Corporation, negotiated with major shareholders or their designated third parties to buy back the equity held by shareholders in response to shareholders' requests on the return of capital, the Bank and subsidiaries disposed all of its shares on May 5, 2023 and recognized a loss on disposal of \$5,531 thousand. Further, as the investee, Grand Cathay Venture Capital III Co., Ltd. (Grand Cathay Venture Capital) has completed the dissolution and liquidation processes and distributed residual assets, the Bank and subsidiaries recognized a loss on disposal of \$7,648 thousand for the year ended December 31, 2023 after writing off the balance of investment in Grand Cathay Venture Capital. In addition, as the investee, Euroc Venture Capital Corp. (Euroc Venture Capital) has completed the dissolution and liquidation processes and distributed residual assets, the Bank and subsidiaries recognized a loss on disposal of \$4,405 thousand after writing off the balance of investment in Euroc Venture Capital. Moreover, the Bank and subsidiaries have sold equity instruments in tranches as individual stocks with declining revenue may affect the future dividend distribution ability and dividend yield level, in the fair value amount of equity investments - listed stocks of NT\$9,196,854 thousand, resulting in the gains on disposal amounting to NT\$247,082 thousand for the year ended December 31, 2023.
- C. Since the investee, Riselink Partners Ltd., has stopped making new investments, the Bank and subsidiaries sold all its shares in the investee on June 10, 2022 to accelerate the capital recovery, and gains on disposal of NT\$761 thousand has been recognized for the year ended December 31, 2022. Further, the investee, YFY Biotech Management Company (YFY Biotech), has completed the dissolution and liquidation processes and distributed residual assets. Consequently, the Bank and subsidiaries received ordinary shares of OTC-listed companies, TaiGen Biopharmaceuticals Holdings Limited and Medeon Biodesign Inc., according to its capital contribution ratio and recognized investment costs based on the fair values of stock closing prices on the stock transfer date, January 11, 2022, and a gain on disposal of NT\$68,437 thousand after writing off the balance of investment in YFY Biotech. In addition, the investee, H&QAPGCGF, has stopped making new investments, started to dispose the assets on account and returned the investment proceeds to the Bank; therefore, a gain on disposal of NT\$136 thousand has been recognized. Moreover, the Bank and subsidiaries have sold equity instruments in tranches as individual stocks with declining revenue may affect the future dividend distribution ability and dividend yield level, in the fair value amount of equity investments - listed stocks of NT\$12,719,203 thousand, resulting in the losses on disposal amounting to NT\$2,494,836 thousand for the year ended December 31, 2022.
- D. Amounts recognized in profit or loss and other comprehensive income in relation to the financial assets at fair value through other comprehensive income are listed below:

	2023	2022
<u>Equity instruments at fair value through other comprehensive income</u>		
Fair value change recognized in other comprehensive income	\$ 12,409,700	(\$ 4,993,560)
Cumulative (gains) losses reclassified to retained earnings due to derecognition	(\$ 229,498)	\$ 2,425,502
Dividend income recognized in profit or loss		
Held at end of year	\$ 1,970,562	\$ 1,782,227
Derecognized during the year	-	543,730
	<u>\$ 1,970,562</u>	<u>\$ 2,325,957</u>
<u>Debt instruments at fair value through other comprehensive income</u>		
Fair value change recognized in other comprehensive income	\$ 2,430,881	(\$ 19,719,295)
Cumulative other comprehensive income reclassified to profit or loss		
Reclassified due to impairment recognition (reversal)	\$ 35,691	(\$ 100,826)
Reclassified due to derecognition	40,996	(18,199)
	<u>\$ 76,687</u>	<u>(\$ 119,025)</u>
Interest income recognized in profit or loss	\$ 9,530,296	\$ 5,982,946

- E. As of December 31, 2023 and 2022, the financial assets at fair value through other comprehensive income, amounting to NT\$7,839,159 thousand and NT\$12,501,305 thousand, were pledged to other parties as collateral for business reserves and guarantees, respectively.
- F. As of December 31, 2023 and 2022, the financial assets at fair value through other comprehensive income undertaken for repurchase agreements amounted to NT\$37,566,058 thousand and NT\$36,662,259 thousand, respectively.
- G. Information relating to credit risk is provided in Note 8(3).

(5) Investments in debt instruments at amortized cost

	December 31, 2023	December 31, 2022

Note : In January 2019, the Board of Directors of the Bank resolved to establish an internet-only bank, NEXT COMMERCIAL BANK Co., LTD. (referred herein as the Next Bank), with Chunghwa Telecom, which has been approved by the FSC in July 2019. On January 31, 2020, the registration for establishment was completed and the internet-only bank was reclassified as investment accounted for using the equity method. On December 9, 2021, Next Bank has obtained the business license from the FSC and is expected to officially commence operations in March 2022. In addition, the Bank have provided the necessary financial support letter to Next Bank. Information relating to credit risk is provided in Note 13(3).

For the years ended December 31, 2023 and 2022, the Bank and subsidiaries recognized cumulative investment losses amounting to NT\$251,438 thousand and NT\$251,809 thousand, respectively, based on Next Bank's unaudited financial statements. As of December 31, 2023 and 2022, from the acquisition date of investments, the accumulated investment losses have been recognized amounting to NT\$843,379 thousand and NT\$591,941 thousand, respectively.

- A. The carrying amount of the Bank and subsidiaries' interests in all individually immaterial associates and the Bank and subsidiaries' share of the operating results are summarized as follows:

	For the years ended December 31,	
	2023	2022
Loss for the year	(\$ 81,085)	(\$ 131,988)
Other comprehensive income (loss) (after income tax)	329,614	(156,583)
Total comprehensive income (loss)	\$ 248,529	(\$ 288,571)

- B. The shares of associates that the Bank and subsidiaries own have no quoted market price available in an active market. There is no significant restriction on fund transfer from the associates to their shareholders, i.e. distribution of cash dividends, repayment of loans or money advanced.
- C. The ownership percentage of the Bank and subsidiaries investment in Universal Venture Capital Investment Corporation is 11.84%. However, due to the Bank occupying 2 board seats of Universal Venture Capital Investment Corporation's total 11 board seats, and the Bank being elected as the chairman of the board, the Bank has influence over decision-making. Therefore, the investment is measured by equity method.

- D. The ownership percentage of the Bank and subsidiaries investment in China Real Estate Management Corporation is 16.65%. However, due to the Bank occupying 3 board seats of China Real Estate Management Corporation's total 9 board seats, and the Bank has influence over decision-making. Therefore, the investment is measured by equity method.
- E. The ownership percentage of the Bank's investment in Mega Growth Venture Capital Co., Ltd. is 11.81%. However, the combined ownership percentage of the Bank and the Bank's associated companies was over 20%. Therefore, the investment is measured by equity method.

(11) Leasing arrangements – lessee

- A. The Bank and subsidiaries lease various assets including land and land improvements, buildings and auxiliary equipment, machinery and equipment. Lease contracts are typically made for periods of 1 year and 8 months to 30 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. The lease contracts do not impose covenants, but leased assets may not be used as security for borrowing purposes.
- B. Short-term leases with a lease term of 12 months or less comprise assets, such as buildings and equipment. Low-value assets comprise multifunctional printers.
- C. The carrying amount of right-of-use assets and the depreciation expense are as follows:

	December 31, 2023		December 31, 2022	
	Carrying amount		Carrying amount	
Land and land improvements	\$	432,253	\$	454,842
Buildings and auxiliary equipment		1,785,249		1,588,140
Machinery and equipment		107,116		103,552
Others		52		46
Total	\$	<u>2,324,670</u>	\$	<u>2,146,580</u>

	For the year ended December 31,			
	2023		2022	
	Depreciation expense		Depreciation expense	
Land and land improvements	\$	25,402	\$	25,239
Buildings and auxiliary equipment		549,748		538,216
Machinery and equipment		50,781		48,872
Others		91		105
Total	\$	<u>626,022</u>	\$	<u>612,432</u>

- D. The information on profit and loss accounts and cashflow relating to lease contracts is as follows:

	For the year ended December 31,			
	2023		2022	
<u>Items affecting profit or loss</u>				
Interest expense on lease liabilities	\$	28,133	\$	25,027
Expense on short-term lease contracts		9,842		11,983
Expense on leases of low-value assets		6,441		6,307
<u>Other disclosures</u>				
Additions to right-of-use assets	\$	830,378	\$	930,803
Cash outflow for leases	(654,509)	(644,510)

(12) Leasing arrangements – lessor

- A. The Bank and subsidiaries lease various assets including land and land improvements, buildings and auxiliary equipment, machinery and equipment. Lease contracts are typically made for periods of 1 to 20 years. Lease terms are negotiated on an individual basis and contain a wide range of different terms and conditions. To protect the lessor's ownership rights on the leased assets, leased assets may not be used as security for borrowing purposes, or a residual value guarantee was required.
- B. For the years ended December 31, 2023 and 2022, the Bank and subsidiaries recognized rental income in the amounts of NT\$155,383 thousand and NT\$153,735 thousand based on the operating lease contracts, of which variable lease payments amounted to NT\$14,637 thousand and NT\$1,698 thousand, respectively.
- C. The maturity analysis of the lease payments under the operating leases is as follows:

	For the year ended December 31,			
	2023		2022	
Within 1 year	\$	156,811	\$	157,683
1-2 years		105,426		134,691
2-3 years		89,991		84,513
3-4 years		37,698		71,107
4-5 years		26,411		21,718
After 5 years		87,467		61,478
Total	\$	<u>503,804</u>	\$	<u>531,190</u>

Total				<u>\$ 513,800</u>	<u>\$ 513,800</u>	

(Note 1)It was a general bank debenture.

(Note 2)A fixed interest rate of 2.8% for the first year, and a structured interest rate for the period after the first year to 18 months.

(Note 3)A fixed interest rate of 4.8% for the first year, and a structured interest rate for the period between the second year to the fifth year.

As of December 31, 2023 and 2022, the outstanding balances of the above-mentioned bank notes both amounted to US\$513,800 thousand, and NT\$15.5 billion and NT\$15 billion, respectively. In addition, among the above bank notes, the general bonds of US\$513,800 thousand were designated as financial liabilities at fair value through profit or loss and hedged by interest rate swap contracts. The interest rate swaps were measured at fair value, with changes in fair value recognized in profit or loss. In order to eliminate the inconsistency in accounting, the above bank notes are also designated as financial liabilities at fair value through profit or loss.

(21) Provisions

	December 31, 2023	December 31, 2022
Provisions for employee benefits	\$ 12,881,735	\$ 11,770,815
Provisions for guarantee liabilities	2,605,680	2,723,269
Provisions for loan commitments	182,446	131,941
Provisions for others	24,021	18,127
Total	<u>\$ 15,693,882</u>	<u>\$ 14,644,152</u>

Provisions for employee benefits are as follows:

	December 31, 2023	December 31, 2022
Recognized in consolidated balance sheet:		
-Defined benefit plans	\$ 6,894,033	\$ 5,829,832
-Employee preferential savings plans	5,987,702	5,940,983
Total	<u>\$ 12,881,735</u>	<u>\$ 11,770,815</u>

A. Defined benefit plans

(A) The Bank has a defined benefit pension plan in accordance with the Labor Standards Law, covering all regular employees' service years prior to the enforcement of the Labor Pension Act on July 1, 2005 and service years thereafter of employees who chose to continue to be subject to the pension mechanism under the Law. Under the defined benefit pension plan, two units are accrued for each year of service for the first 15 years and one unit for each additional year thereafter, subject to a maximum of 45 units. Pension benefits are based on the number of units accrued and the average monthly salaries and wages of the last 6 months prior to retirement. The Bank contributed monthly an amount equal to 10.376% (The contribution percentage from January 2022 to June 2022 was 10.822%; the contribution percentage from July 2022 to June 2023 was 10.415%; the contribution percentage from July 2023 to December 2023 was 10.376%) of the employees' monthly salaries and wages to the retirement fund deposited with Bank of Taiwan, the trustee, under the name of the independent retirement fund committee. Also, the Bank would assess the balance in the aforementioned labor pension reserve account by the end of December 31, every year. If the account balance is insufficient to pay the pension calculated by the aforementioned method, to the employees expected to be qualified for retirement next year, the Bank will make contributions to cover the deficit by the end of next March.

(B) The amounts recognized in the balance sheet are determined as follows:

	December 31, 2023	December 31, 2022
Present value of funded obligations	\$ 15,242,810	\$ 14,468,994
Fair value of plan assets	(8,348,777)	(8,639,162)
Net defined benefit liability	<u>\$ 6,894,033</u>	<u>\$ 5,829,832</u>

(C) Movements in net defined benefit liabilities are as follows:

	Present value of defined benefit obligation	Fair value of plan assets	Net defined benefit liability
2023			
Balance at January 1	\$ 14,468,994	(\$ 8,639,162)	\$ 5,829,832

- (D) The Bank of Taiwan is commissioned to manage the Fund of the Bank's defined benefit pension plan in accordance with the Fund's annual investment and utilization plan and the "Regulations for Revenues, Expenditures, Safeguard and Utilization of the Labor Retirement Fund" (Article 6: The scope of utilization for the Fund includes deposit in domestic or foreign financial institutions, investment in domestic or foreign listed, over-the-counter, or private placement equity securities, investment in domestic or foreign real estate securitization products, etc.), and the performance of fund utilization is supervised by the Labor Funds Supervisory Committee. With regard to the utilization of the Fund, its minimum earnings in the annual distributions on the final financial statements shall be no less than the earnings attainable from the amounts accrued from two-year time deposits with the interest rates offered by local banks. If the earnings is less than aforementioned rates, government shall make payment for the deficit after being authorized by the Regulator. The Bank has no right to participate in managing and operating that fund and hence the Bank is unable to disclose the classification of plan asset fair value in accordance with IAS 19 paragraph 142. The composition of fair value of plan assets as of December 31, 2023 and 2022 is given in the Annual Labor Retirement Fund Utilization Report announced by the government.
- (E) The principal actuarial assumptions used are as follows:

	For the years ended December 31,	
	2023	2022
Discount rate	<u>1.25%</u>	<u>1.70%</u>
Rate of future salary increases	<u>3.88%</u>	<u>3.22%</u>

Assumptions regarding future mortality rate are set based on the 6th Chart of Life Span Estimate Used by the Taiwan Life Insurance Enterprises.

Because the main actuarial assumption changed, the present value of defined benefit obligation is affected. The analysis was as follows:

	Discount rate		Rate of future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2023				
Effect on present value of defined benefit obligation	<u>(\$ 309,560)</u>	<u>\$ 319,624</u>	<u>\$ 310,645</u>	<u>(\$ 302,561)</u>

	Discount rate		Rate of future salary increases	
	Increase 0.25%	Decrease 0.25%	Increase 0.25%	Decrease 0.25%
December 31, 2022				
Effect on present value of defined benefit obligation	<u>(\$ 293,548)</u>	<u>\$ 303,147</u>	<u>\$ 297,878</u>	<u>(\$ 289,985)</u>

The sensitivity analysis above is based on other conditions that are unchanged but only one assumption is changed. In practice, more than one assumption may change all at once. The method of analyzing sensitivity and the method of calculating net pension liability in the balance sheet are the same.

- (F) Expected contributions to the defined benefit pension plans of the Bank for the year ended December 31, 2024 amount to NT\$395,000 thousand.
- (G) As of December 31, 2023, the weighted average duration of that pension plan is 8.2 years.

B. Defined contribution plans

(A) Effective July 1, 2005, the Bank has established a funded defined contribution pension plan (the “New Plan”) under the Labor Pension Act (the “Act”), applicable to employees of local citizenship. Under the New Plan, the Bank contributes monthly an amount not less than 6% of the employees’ monthly salaries and wages to the employees’ individual pension accounts at the Bureau of Labor Insurance. The payment of pension benefits is based on the employees’ individual pension fund accounts and the cumulative profit in such accounts, and the employees can choose to receive such pension benefits monthly or in a lump sum.

(B) The pension costs under the defined contribution pension plan for the years ended December 31, 2023 and 2022 were NT\$200,489 thousand and NT\$185,353 thousand, respectively. For local employees of overseas branches and subsidiaries, pension expenses under defined contribution plans following local regulations for the years ended December 31, 2023 and 2022, were NT\$34,937 thousand and NT\$29,385 thousand, respectively.

C. The Bank’s payment obligations of fixed-amount preferential savings of retired employees follow the internal regulation “Rules Governing Pension Preferential Savings of Staff of Mega International Commercial Bank”. The excessive interest arising from the interest rate upon retirement agreed with the employees in excess of general market interest rate should be accounted for in accordance with IAS 19, “Employee Benefits”.

(A) Adjustment of assets and liabilities recognized in the consolidated balance sheets, present value of defined benefit obligation, and fair value of plan assets is as follows:

	December 31, 2023	December 31, 2022
Present value of defined benefit obligation	\$ 5,987,702	\$ 5,940,983
Less: Fair value of plan assets	-	-
	<u>\$ 5,987,702</u>	<u>\$ 5,940,983</u>

(B) Movements in net defined benefit liabilities are as follows:

	Present value of defined benefit obligation	Fair value of plan assets	Net defined benefit liability
2023			
Balance at January 1	\$ 5,940,983	\$ -	\$ 5,940,983
Interest expenses	227,197	-	227,197
	<u>6,168,180</u>	<u>-</u>	<u>6,168,180</u>
Remeasurements:			
Change in demographic assumptions	252,325	-	252,325
Experience adjustments	630,305	-	630,305
	<u>882,630</u>	<u>-</u>	<u>882,630</u>
Pension fund contribution	-	(1,063,108)	(1,063,108)
Paid pension	(1,063,108)	1,063,108	-
Balance at December 31	<u>\$ 5,987,702</u>	<u>\$ -</u>	<u>\$ 5,987,702</u>

	Present value of defined benefit obligation	Fair value of plan assets	Net defined benefit liability
2022			
Balance at January 1	\$ 5,988,485	\$ -	\$ 5,988,485
Interest expenses	229,125	-	229,125
	<u>6,217,610</u>	<u>-</u>	<u>6,217,610</u>
Remeasurements:			
Change in demographic assumptions	132,731	-	132,731
Experience adjustments	644,960	-	644,960
	<u>777,691</u>	<u>-</u>	<u>777,691</u>
Pension fund contribution	-	(1,054,318)	(1,054,318)
Paid pension	(1,054,318)	1,054,318	-
Balance at December 31	<u>\$ 5,940,983</u>	<u>\$ -</u>	<u>\$ 5,940,983</u>

(C) Actuarial assumptions are as follows:

	For the years ended December 31,	
	2023	2022
Discount rate for employee preferential interest savings	4.00%	4.00%
Return rate on capital deposited	2.00%	2.00%
Annual decreasing ratio for account balance	1.00%	1.00%
Probability of change in preferential savings system in the future	50.00%	50.00%

Because the main actuarial assumption changed, the present value of employee preferential interest savings obligation is affected. The analysis was as follows:

	Discount rate		Rate of deposit cost	
	Increase 0.25%	Decrease 0.25%	Increase 0.05%	Decrease 0.05%
December 31, 2023				
Effect on present value of defined benefit obligation	(\$ 125,660)	\$ 130,571	(\$ 29,873)	\$ 29,873

	Discount rate		Rate of deposit cost	
	Increase 0.25%	Decrease 0.25%	Increase 0.05%	Decrease 0.05%
December 31, 2022				
Effect on present value of defined benefit obligation	(\$ 125,840)	\$ 130,795	(\$ 28,970)	\$ 28,970

(D) The Bank and subsidiaries recognized employee benefit expenses of NT\$1,438,564 thousand and NT\$1,317,376 thousand for the years ended December 31, 2023 and 2022, respectively.

D. Please refer to Note 8(3) for the movement information on provisions for loan commitments and guarantee liabilities for the years ended December 31, 2023 and 2022.

E. Information relating to credit risk of provisions for loan commitments and guarantee liabilities is provided in Note 8(3).

(22) Other financial liabilities

	December 31, 2023	December 31, 2022
Principal received on structured notes	\$ 17,449,068	\$ 15,621,912
Cumulative earnings on appropriated loan fund	1,003,067	312,226
Total	\$ 18,452,135	\$ 15,934,138

(23) Other liabilities

	December 31, 2023	December 31, 2022
Guarantee deposits received	\$ 2,445,103	\$ 7,956,410
Temporary credits	3,424,146	1,522,394
Advance receipt	1,864,100	1,925,727
Other liabilities to be settled	468,889	447,480
Others	230,253	200,351
Total	\$ 8,432,491	\$ 12,052,362

(24) Equity

A. Common stock

As of December 31, 2023 and 2022, the Bank's authorized and paid-in capital were both NT\$85,362,336 thousand and outstanding shares were both 8,536,234 thousand, with a par value of NT\$10 per share.

B. Share-based payment - compensation to employees

The following share-based compensation to employees is generated by the parent company, Mega Financial Holdings Co., Ltd., which increased capital by issuing new shares and reserved 15% of the total number of issued shares for employee pre-emption of the Group in accordance with Company Act Article 267, paragraph 1.

(A) As of December 31, 2023, the share-based payment transactions of the Bank were as follows:

Type of arrangement	Grant date	Quantity granted (in shares) (Note)	Vesting conditions
Cash capital increase reserved for employee pre-emption	2023/12/04	37,117,802	Vested immediately

Note: The quantity granted (in shares) is the total number of shares allocated by the Bank (including subsidiaries).

(B) Capital surplus arising from share-based payment transactions amounted to NT\$217,856 thousand.

C. Capital surplus

- (A) Pursuant to the R.O.C. Company Act, capital surplus arising from paid-in capital in excess of par value on issuance of common stocks and donations can be used to cover accumulated deficit or to issue new stocks or cash to shareholders in proportion to their share ownership, provided that the Bank has no accumulated deficit. Further, the R.O.C. Securities and Exchange Law requires that the amount of capital surplus to be capitalized mentioned above should not exceed 10% of the paid-in capital each year. Capital surplus should not be used to cover accumulated deficit unless the legal reserve is insufficient.
- (B) As of December 31, 2023 and 2022, the details of the Bank's capital surplus are as follows:

	December 31, 2023	December 31, 2022
Additional paid-in capital	\$ 31,495,952	\$ 31,495,952
Consolidation surplus arising from share conversion	30,109,277	30,109,277
Changes in additional paid-in capital of investees accounted for using equity method	375,908	375,908
Share-based payment (Note)	456,259	238,403
Total	<u>\$ 62,437,396</u>	<u>\$ 62,219,540</u>

Note: The above-mentioned share-based payment includes the subsidiaries.

D. Legal reserve and Special reserve

(A) Legal reserve

Except for covering accumulated deficit or issuing new stocks or cash to shareholders in proportion to their share ownership, the legal reserve shall not be used for any other purpose. The use of legal reserve for the issuance of stocks or cash to shareholders in proportion to their share ownership is permitted, provided that the distribution of the reserve is limited to the portion in excess of 25% of the Bank's paid-in capital. As of December 31, 2023 and 2022, the Bank's legal reserves were NT\$119,281,053 thousand and NT\$112,293,953 thousand, respectively.

(B) Special reserve

Upon the first-time adoption for IFRSs, equivalent amounts of special reserve with regard to the unrealized revaluation increment under the stockholders' equity and cumulative translation adjustment (gains) transferred to retained earnings should be set aside. For the said special reserve, reversal of distributed earnings shall be based on the proportion of the original ratio of special reserve provision in the subsequent use, disposal or reclassification for the related assets. As of December 31, 2023 and 2022, the special reserves of the Bank were NT\$16,174,049 thousand and NT\$4,210,485 thousand, respectively. In accordance with Financial-Supervisory-Securities-Corporate No.1090150022 of the FSC dated on March 31, 2021, the Bank shall set aside an equivalent amount of special reserve from earnings after tax of the current year and the undistributed earnings of the prior period based on the net decreased amount of other stockholders' equity in the current period before distributing earnings. If there is any reversal of decrease in other stockholders' equity, the earnings may be distributed based on the reversal proportion.

In accordance with Financial-Supervisory-Banks Letter No. 10510001510 of the FSC dated on May 25, 2016, as a response to the development of financial technology, and to ensure the rights of bank practitioners, the Bank shall, upon appropriating the earnings of 2016 to 2018 fiscal years, provision 0.5% to 1% of income after taxes as special reserve. Starting from the 2017 fiscal year, public banks may reverse an amount of the aforementioned special reserve commensurate to employee termination or arrangement expenditures resulting from the development of financial technology. Moreover, in pursuant to Financial-Supervisory-Banks Letter No. 10802714560 dated May 15, 2019, public banks are no longer required to set aside the special reserve starting from 2019, and the special reserve set aside in the previous years can be used for the payment of employee termination or arrangement expenditures.

(25) Retained earnings and dividend policies

- A. The current year's earnings, if any, shall first be used to pay all taxes and offset prior year's deficit, and the remaining amount should then be set aside as legal reserve and special reserve in accordance with provisions under the applicable laws and regulations. Whether to payout dividends, bonus or keep the remaining earnings plus prior year's accumulated unappropriated earnings are subject to the approval of shareholders' meeting.
- B. The legal reserve is to be used exclusively to offset any deficit or to increase capital by issuing new shares or distribute cash dividends to original shareholders in proportion to the number of shares being held by each of them and is not to be used for any other purposes. For the legal reserve to be used for issuing new shares or distributing cash dividends, only the portion of the legal reserve exceeding 25% of paid-in capital may be capitalized or released.
- C. The appropriations and distributions for 2022 and 2021 approved by the Bank's Board of Directors on the stockholders' behalf on May 12, 2023 and May 13, 2022, respectively, was as follows:

	For the years ended December 31,	
	2022	2021
Legal reserve	\$ 6,987,100	\$ 5,706,456
Special reserve (Note)	12,018,428	29,011
Cash dividends (NT\$0.50 and NT\$1.50 dollar per share)	4,268,117	12,804,350
	<u>\$ 23,273,645</u>	<u>\$ 18,539,817</u>

Note: The special reserves were reversed amounting to NT\$51,789 thousand and NT\$36,821 thousand for the years ended December 31, 2022 and 2021, respectively.

Information on the appropriation of the Bank's earnings as approved by the Board of Directors on behalf of the shareholders' meeting is posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

D. The appropriation of 2023 earnings resolved by the Board of Directors on February 29, 2024 is set forth below:

	For the year ended December 31, 2023	
Legal reserve	\$	9,090,104
Special reserve (Note)		86,240
Cash dividends (NT\$ 2.52 dollar per share)		21,511,309
Cash dividends (NT\$ 1.26 dollar per share)		10,755,664
	<u>\$</u>	<u>41,443,317</u>

Note: The special reserve was reversed amounting to NT\$12,026,742 thousand for the year ended December 31, 2023.

E. For information related to employee compensation, please refer to Note 6 (33).

(26) Other equity

	Exchange differences on translation of foreign financial statements	Gains (losses) on financial assets at fair value through other comprehensive income	Other equity-other	Total

The Bank and subsidiaries provide custody, trust, and investment management and consultation service to the third party, and therefore the Bank and subsidiaries are involved with the exercise of planning, managing and trading decision of financial instruments. In relation to the management and exercise of trust fund and portfolio for brokerage, the Bank and subsidiaries record and prepare the financial statements independently for internal management purposes, which are not included in the financial statements of the Bank and subsidiaries.

Note:

- A. In 2023 and 2022, the fee income generated by the Bank and subsidiaries concurrently in electronic payment business amounted to NT\$257 thousand and NT\$317 thousand, respectively.
- B. Due to the Bank and subsidiaries concurrently in electronic payment business, in 2023 and 2022, the interest earned from utilizing funds received from users both amounted to NT\$0, based on the calculation required in Article 4 of "Regulations Governing the Organization and Administration of Sinking Fund Established by Electronic Payment Institutions".

	For the years ended December 31,	
	2023	2022
Impairment (losses) reversal gains on investment in debt instruments measured at fair value through other comprehensive income	(\$ 35,691)	\$ 100,826
Impairment (losses) reversal gains on investments in debt instruments measured at amortized cost	(30,999)	26,987
Total	<u>(\$ 66,690)</u>	<u>\$ 127,813</u>

(32) Net other revenue other than interest income

	For the years ended December 31,	
	2023	2022
Net income from rent	\$ 171,232	\$ 170,227
Net gains on sale of non-performing loans	84,101	197,548
Gains on disposal of property and equipment	36,748	995
Losses on retirement of assets	(6,641)	(232)
Other revenue	148,858	114,515
Total	<u>\$ 434,298</u>	<u>\$ 483,053</u>

(33) Employee benefits expenses

	For the years ended December 31,	
	2023	2022
Payroll expenses	\$ 12,745,979	\$ 11,580,058
Preferential interest deposit for retired employees	1,438,564	1,317,376
Pension	671,535	662,413
Staff insurance	871,849	787,717
Other staff expenses	1,814,537	1,481,147
Total	<u>\$ 17,542,464</u>	<u>\$ 15,828,711</u>

- A. Please refer to Note 1(4) for information on number of employees, the calculating basis agreed with employee benefit expense excluding preferential interest deposit for retired employees.
- B. According to the articles, a ratio of distributable profit of the current year, after covering accumulated losses, shall be distributed as employees' compensation. In case there are earnings at the end of each fiscal year, the employees' compensation of the Bank shall be 2~6% of the amount of net profit before income tax and employees' compensation, under the Board's discretion after taking into account the performance indicators and industry benchmark.
- C. For the years ended December 31, 2023 and 2022, employees' compensation was accrued at NT\$1,858,867 thousand and NT\$1,404,800 thousand, respectively. The above-mentioned amounts were recognized in payroll expenses.
- D. The actual distributed amount of employees' compensation for 2022 resolved at the Board of Directors' annual meeting was NT\$1,432,896 thousand, which has a difference of NT\$28,096 thousand compared to the 2022 consolidated financial statements where the employee compensation amounted to NT\$1,404,800 thousand. The amount of difference was due to the change an accounting estimate, and the difference was recognized as profit or loss in 2023.
- E. Information about employees' compensation of the Bank as resolved by the Board of Directors will be posted in the "Market Observation Post System" at the website of the Taiwan Stock Exchange.

(34) Depreciation and amortization expenses

	For the years ended December 31,	
	2023	2022
Depreciation expense	\$ 1,496,313	\$ 1,490,938
Amortization expense	662,087	566,970
Total	<u>\$ 2,158,400</u>	<u>\$ 2,057,908</u>

(35) Other general and administrative expenses

	For the years ended December 31,	
	2023	2022
Taxes	\$ 2,985,013	\$ 2,199,897
Computer software maintenance fees	756,679	617,275
Professional expenses	640,420	646,078
Insurance charges	549,165	509,725
Others	2,438,237	2,223,920
Total	<u>\$ 7,369,514</u>	<u>\$ 6,196,895</u>

(36) Income tax expense

A. Income tax expense

(A) Components of income tax expense:

	For the years ended December 31,	
	2023	2022
Current income tax:		
Current tax on profits for the year	\$ 4,699,953	\$ 3,703,869
Tax on undistributed surplus earnings	6,128	-
Prior year income tax overestimation	(341,447)	(964,795)
Total current income tax	<u>4,364,634</u>	<u>2,739,074</u>
Deferred income tax:		
Origination and reversal of temporary differences	61,592	(119,293)
Total deferred tax	<u>61,592</u>	<u>(119,293)</u>
Income tax expense	<u>\$ 4,426,226</u>	<u>\$ 2,619,781</u>

(B) The income tax relating to components of other comprehensive income is as follows:

	For the years ended December 31,	
	2023	2022
Changes in fair value of financial assets at fair value through other comprehensive income	\$ 129,597	(\$ 207,696)
Remeasurement on defined benefit plan	(239,634)	384,052
	<u>(\$ 110,037)</u>	<u>\$ 176,356</u>

B. Reconciliation between income tax expense and accounting profit:

	For the years ended December 31,	
	2023	2022
Income tax calculated based on pre-tax income using statutory tax rate enacted in the country where the branch operates	\$ 8,094,675	\$ 5,278,317
Effects of items disallowed by tax regulation relevant regulations	10,892	(1,527)
Tax on undistributed surplus earnings	6,128	-
Prior year income tax over estimation	(341,447)	(964,795)
Adjusted effects on income tax exemption and other adjustments	(3,344,022)	(1,692,214)
Income tax expense	<u>\$ 4,426,226</u>	<u>\$ 2,619,781</u>

C. Deferred tax assets or liabilities arising from the temporary differences are as follows:

Temporary differences:	2023			
	January 1	Recognized in profit or loss	Recognized in other comprehensive income	December 31
Deferred income tax assets				
Allowance for doubtful accounts in excess of limit	\$ 2,225,779	\$ 301,389	\$ -	\$ 2,527,168
Reserve of guarantees in excess of limit	234,820	-	-	234,820
Employee benefit liabilities reserve	2,346,042	(17,492)	239,634	2,568,184
Unrealized impairment loss	872,080	14,333	-	886,413
Others	395,726	(92,807)	(129,597)	173,322
	<u>\$ 6,074,447</u>	<u>\$ 205,423</u>	<u>\$ 110,037</u>	<u>\$ 6,389,907</u>
Deferred income tax liabilities				
Land value increment tax	(\$ 1,053,300)	\$ -	\$ -	(\$ 1,053,300)
Unrealized exchange gains and losses	(297,658)	(4,225)	-	(301,883)
Investment income accounted for using equity method	(1,007,291)	25,055	-	(982,236)
Others	(83,366)	(287,845)	-	(371,211)
	<u>(\$ 2,441,615)</u>	<u>(\$ 267,015)</u>	<u>\$ -</u>	<u>(\$ 2,708,630)</u>

Temporary differences:	2022			
	January 1	Recognized in profit or loss	Recognized in other comprehensive income	December 31
Deferred income tax assets				
Allowance for doubtful accounts in excess of limit	\$ 2,011,949	\$ 213,830	\$ -	\$ 2,225,779
Reserve of guarantees in excess of limit	234,820	-	-	234,820
Employee benefit liabilities reserve	2,782,992	(52,898)	(384,052)	2,346,042
Unrealized impairment loss	891,162	(19,082)	-	872,080
Others	154,695	33,335	207,696	395,726
	<u>\$ 6,075,618</u>	<u>\$ 175,185</u>	<u>(\$ 176,356)</u>	<u>\$ 6,074,447</u>
Deferred income tax liabilities				
Land value increment tax	(\$ 1,053,300)	\$ -	\$ -	(\$ 1,053,300)
Unrealized exchange gains losses	(282,176)	(15,482)	-	(297,658)
Investment income accounted for using equity method	(955,668)	(51,623)	-	(1,007,291)
Others	(94,579)	11,213	-	(83,366)
	<u>(\$ 2,385,723)</u>	<u>(\$ 55,892)</u>	<u>\$ -</u>	<u>(\$ 2,441,615)</u>

- D. The income tax returns of the Bank have been approved by National Taxation Bureau of Taipei until year 2018. However, the Bank disagreed with the result of the 2018 income tax return. As a result, the parent company, Mega Financial Holding Co., Ltd, has appealed for a review. The review case of the 2014 income tax return has been closed.
- E. The Bank's overseas branches are within the scope of the Pillar Two model rules published by OECD. Since Pillar Two legislation was enacted in the U.K., Japan, Vietnam, French and the Netherlands, the jurisdiction in which certain overseas branches are incorporated, and will come into effect from January 1, 2024, the Bank has no related current income tax exposure as of December 31, 2023.
- F. The Bank has applied Amendments to IAS 12, 'Income taxes', issued on May 23, 2023 and applied the exception to recognizing and disclosing information about deferred tax assets and liabilities related to Pillar Two income taxes.

(37) Earnings per share

Basic earnings per share

Basic earnings per share is calculated by dividing consolidated profit attributable to owners of the parent by the weighted-average number of ordinary shares in issue during the period.

	For the years ended December 31,	
	2023	2022
Weighted-average number of shares outstanding common stock (Unit: Thousand)	8,536,234	8,536,234
Profit attributable to ordinary shareholders of the parent	<u>\$ 31,024,594</u>	<u>\$ 24,181,435</u>
Basic earnings per share (in NT dollars)	<u>\$ 3.63</u>	<u>\$ 2.83</u>

(38) Change in liabilities from financing activities

	Bank notes payable
January 1, 2023	\$ 15,000,000
Issuance of bank notes	1,500,000
Repayment of bank notes	(1,000,000)
December 31, 2023	<u>\$ 15,500,000</u>

	Financial liabilities at fair value through profit or loss	Bank notes payable
January 1, 2022	\$ 16,607,738	\$ 1,000,000
Issuance of bank notes	589,208	14,000,000
Other changes	(277,022)	-
December 31, 2022	<u>\$ 16,919,924</u>	<u>\$ 15,000,000</u>

7. FAIR VALUE INFORMATION OF FINANCIAL INSTRUMENTS

(1) Overview

Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. Financial instruments are recorded at fair value upon their initial recognition, where often fair value refers to the transaction price; for subsequent measurements, other than a portion of financial instruments being measured at amortized cost, fair value is elected for measurements. The best evidence for fair value is a public quote in an active market. If the market of a financial instrument is not active, the Bank and subsidiaries select valuation techniques or references Bloomberg or the quotes of counterparties to measure the fair value of the financial instrument. In addition, through the valuation process, information on the counterparties' and the Bank and subsidiaries' credit risk is also considered.

(2) Fair value information of financial instruments

Except for those listed in the table below, the carrying amount of some of certain financial instruments held by the Bank and subsidiaries (e.g. cash and cash equivalents, due from the Central Bank and call loans to banks, securities purchased under resell agreements, receivables, discounts and loans, investments in debt instruments at amortized cost-Central Bank's certificates of deposit and short-term notes and bills, deposits from the Central Bank and banks, due to the Central Bank and banks, securities sold under repurchase agreements, payables, deposits and remittances, bank notes payable and other financial liabilities) are approximate to their fair value (please refer to Note 7 (5)). The fair value information of financial instruments measured at fair value is provided in Note 7(6).

	Book Value	Fair Value
December 31, 2023		
Investments in debt instruments at amortized cost	\$ 82,627,042	\$ 81,219,631
December 31, 2022		
Investments in debt instruments at amortized cost	\$ 62,983,681	\$ 60,946,285

The fair values of the above-mentioned investments in debt instruments at amortized cost are classified as Level 1 and Level 2.

(3) Financial instruments measured at fair value

The quoted market price is used as the fair value when the financial instruments have an active market, such as market prices provided by the Stock Exchange Corporation, Bloomberg and Reuters are all foundation of fair value for listed equity securities and debt instruments with a quoted market price in an active market.

If the market quotation from Stock Exchange Corporation, commission merchants, underwriters or pricing service institutions can be frequently obtained on time, and the price represents the actual and frequent transactions at arm's length, then a financial instrument is deemed to have an active market. If the above condition is not met, the market is deemed inactive. In general, significant price variance between the purchase price and selling price or significantly increasing price variance are both indicators of an inactive market.

In addition to above financial instruments with an active market, other financial instruments at fair value are assessed by evaluation technique with reference to other financial instruments at fair value with similar conditions and characteristics in actual practice, cash flow discounting method and other evaluation technique, including market information obtained by exercising the model at balance sheet date (such as yield curve used in Over-The-Counter (hereinafter OTC) and the Taipei Interbank Offered Rate (Taibor) price curve).

When a financial instrument has no standardized evaluation and with less complexity involved, such as interest rate swap, currency swap and options. The Bank and subsidiaries usually adopt the valuation generally accepted by market users. The inputs used in the valuation method to measure these financial instruments are normally observable in the market. For financial instruments with higher complexity, the fair value is assessed through the valuation model developed by valuation methods and techniques generally accepted by competitors. These kinds of valuation models are usually applicable for derivative instruments, debt instruments with no quoted market price (including debt instrument of embedded derivatives) or other debt instruments with low market liquidity. Certain inputs used in these valuation models are not observable in the market, and the Bank and subsidiaries need to make appropriate estimates based on the assumptions.

The valuation of derivative instruments is based on valuation model widely accepted by market participants, such as present value techniques and option pricing models. Forward exchange contracts are usually valued based on the current forward exchange rate. Structured interest derivative instruments are measured by using appropriate option pricing models.

The output of the evaluation model is an estimate, and the valuation technique may not reflect all the relevant factors of the financial instruments held by the Bank and subsidiaries. As a result, the estimate generated by valuation model will be slightly adjusted based on additional inputs, such as model risk, liquidity risk or credit risk of counterparties. According to the Bank and subsidiaries' valuation model management and other related controlling procedures, the adjustment made is adequate and necessary and the balance sheet is believed to present fairly, in all material aspects, the fair value of financial instruments. The inputs and pricing information used during valuation are carefully assessed and adjusted based on current market conditions.

- A. NTD Central Government Bond: The yield rates across different contract length and one-hundred price bulletined by OTC are used.
- B. NTD corporate bonds, financial debentures, government bonds, bond-type beneficiary securities and designated financial debentures issued by the Bank and subsidiaries: The present value of future estimated cash flows is calculated by using the yield curve.
- C. NTD short-term bills and NTD bill-type beneficiary securities: The present value of future estimated cash flows is calculated by using quotes of TAIBOR from Reuters.
- D. Foreign securities: Bloomberg.
- E. Listed stock and emerging stock in active market : The closing price listed in exchanges is adopted.

- F. Emerging stock not in active markets: The Bank and subsidiaries shall first adopt the 30 days average price or representative trading in the recent half year in accordance with the classifications of transaction volume, amount and turnover rates during the month. The trading price might be the best estimate of stocks' fair value. The Bank and subsidiaries secondly adopt the 30 days average price, net of the discount on liquidity as stocks' fair value, of which the discount on liquidity is calculated based on the market liquidity condition under a 30 days average price basis.
- G. Unlisted stock: The sale price in the most recent year or rights offering price is adopted as stock's fair value if they were available for the objective company's stocks and its stock price or operation and industry has no significant change; the average price is adopted for more than one sale price or rights offering price available; otherwise, the fair value is estimated through the market approach or net asset approach under the consideration of life cycle, profitability and asset and liability structure of the objective company. The fair value of stock is measured at equity value that has taken into consideration the discount on liquidity and materialization adjustments if the market approach is adopted by the objective company or the fair value is equivalent to the book value if the objective company adopted the net asset approach.
- H. Funds: net asset value is adopted.
- I. Derivatives:
- (A) Foreign exchange forward contract, currency swaps, forward rate agreement, interest rate swaps and cross currency swaps: The discounting future cash flow is adopted.
 - (B) Options: Black-Scholes model is mainly adopted for valuation.
 - (C) Some structured derivatives are valued by using Fastval.
 - (D) Some foreign-currency derivatives are valued by using the quoted prices from Bloomberg.
- (4) Credit risk value adjustment
- A. Credit risk value adjustments can be primarily classified as either credit value adjustments or debit value adjustments. The definitions are as follows:
 - (A) Credit value adjustments refer to adjustments through fair value, which reflect the possibility that a counterparty may default on repayments and that an entity may not be able to recover, in full, the market value, for transactions in non-centralized markets (i.e. valuation adjustments on derivative contracts traded OTC).
 - (B) Debit value adjustments refer to adjustments through fair value, which reflect the possibility that the Bank may default on repayments and that the Bank may not be able to pay, in full, the market value, for transactions in non-centralized markets (i.e. valuation adjustments on derivative contracts traded OTC).
 - B. The Bank and subsidiaries have incorporated credit risk value adjustments in the considerations for calculating the fair value of financial instruments in order to respectively reflect the counterparty's credit risk and the Bank and subsidiaries' credit quality.
- (5) Financial instruments not measured at fair value through profit or loss
- A. In relation to cash and cash equivalents, securities purchased under resell agreements, due from the Central Bank and call loans to banks, receivables, refundable deposits, deposits from the Central Bank and banks, due to the Central Bank and banks, securities sold under repurchase agreements, payables and guarantee deposits received, the book value of the financial instruments which have a short maturity period will be considered as their fair value. While the maturities are quite closed or the future payment or receipt is closed to the carrying amount, the carrying amount at the consolidated balance sheet date is used to estimate the fair value.
 - B. Interest rates of the Bank and subsidiaries' discounts and loans (including non-performing loans) are generally based on the benchmark interest rate plus or minus certain adjustment to reflect the market interest rate. Thus, their fair values are based on the book value after adjustments of estimated recoverability. Fair values for long-term loans with fixed interest rates shall be estimated using their discounted values of expected future cash flows. However, as such loans account for only a small portion of all loans, the book value is used to estimate the fair value.
 - C. When there is a quoted market price available in an active market, the fair value of financial assets measured at amortized cost is determined using the market price. If there is no quoted market price for reference, a valuation technique or quoted price offer by the counterparties will be adopted to measure the fair value.
 - D. The fair value of deposits and remittances is represented by the book value.
 - E. The coupon rate of bank notes payable issued by the Bank and subsidiaries is equivalent to market interest rate; therefore, the fair value estimated based on the present value of future cash flows is equivalent to the book value.
 - F. For other financial assets, such as investments in debt instruments without active market, as they have no quoted price in active market and their valuation results by using different valuation methods are significantly different, their fair value cannot be measured reliably and is not disclosed here.
- (6) Level information of financial instrument at fair value
- A. Three definitions of the Bank and subsidiaries' financial instruments at fair value
 - (A) Level I

Level I is quoted prices (unadjusted) in active markets for identical assets or liabilities. An active market refers to a market in which transactions for the asset or liability take place with sufficient frequency and volume to provide pricing information on an ongoing basis. The Bank and subsidiaries' investment in listed stock, beneficiary certificates, popular Taiwan government bonds and the derivatives with a quoted price in an active market are deemed as Level I.

(B) Level 2

Level 2 inputs are observable prices other than quoted prices included in Level 1, including observable direct (e.g. prices) or indirect (e.g. those inferred from prices) inputs in an active market. The Bank and subsidiaries' investments in non-popular government bonds, corporate bonds, bank debentures, convertible bonds, derivatives and corporate bonds issued by the Bank and subsidiaries belong to this category.

(C) Level 3

Level 3 inputs are inputs for assets or liabilities that are unobservable in the market (unobservable inputs, e.g. option pricing model using history volatility rate, because history volatility rate cannot represent the expectation value of market participants for future volatility rate).

B. Information of fair value hierarchy of financial instruments

Recurring fair value measurements	December 31, 2023			
	Total	Level 1	Level 2	Level 3
<u>Non-derivatives</u>				
Assets				
Financial assets at fair value through profit or loss				
Investment in stock	\$ 18,941,803	\$ 7,347,549	\$ 4,445,918	\$ 7,148,336

C. Transfer between Level 1 and Level 2

On December 31, 2023, the Bank and subsidiaries has no transfer between Level 1 and Level 2.

On December 31, 2022, the balance of the Bank and subsidiaries' 2022 Fiscal Year Order 2 Category 1 Central Government Construction Bonds was NT\$1,366,854 thousand. Due to the bonds becoming inactive securities in the Index, thus the bonds were transferred from Level 1 to Level 2.

D. Movements of financial instruments classified into Level 3 of fair value are as follows:

(A) Movements of financial assets classified into Level 3 of fair value are as follows:

For the year ended December 31, 2023:

Items	Beginning Balance	Gain and loss on valuation		Addition		Reduction		Ending balance
		Recognized as gain and loss	Recognized as other comprehensive income	Purchased or issued	Transferred to Level 3	Sold, disposed or settled	Transferred from Level 3	
Financial assets at fair value through profit or loss Investment in stock	\$ 7,023,866	\$ 387,223	\$ -	\$ -	\$ 89,761	(\$ 116,226)	(\$ 236,288)	\$ 7,148,336
Financial assets at fair value through other comprehensive income Investment in stock	13,914,656	-	827,498	2,827	786,644	(42,939)	(1,006,695)	14,481,991
Total	\$ 20,938,522	\$ 387,223	\$ 827,498	\$ 2,827	\$ 876,405	(\$ 159,165)	(\$ 1,242,983)	\$ 21,630,327

The Bank and subsidiaries held unlisted stock amounting to NT\$876,405 thousand, which had been originally valued using the market price within a year. Because the stock is now valued using the market approach or net asset approach, thus the stock was transferred from Level 2 to Level 3.

The Bank and subsidiaries held unlisted stock amounting to NT\$1,242,983 thousand, which had been originally valued using the market approach or net asset approach. Because the stock is now valued using the market price within a year, thus the stock was transferred from Level 2 to Level 3.

For the year ended December 31, 2022:

Items	Beginning Balance	Gain and loss on valuation		Addition		Reduction		Ending balance
		Recognized as gain and loss	Recognized as other comprehensive income	Purchased or issued	Transferred to Level 3	Sold, disposed or settled	Transferred from Level 3	
Financial assets at fair value through profit or loss Investment in stock	\$ 6,238,342	\$ 310,956	\$ -	\$ 8,433	\$ 575,967	(\$ 64,973)	(\$ 44,859)	\$ 7,023,866
Financial assets at fair value through other comprehensive income Investment in stock	15,816,954	-	(1,868,721)	9,448	-	(43,025)	-	13,914,656
Total	\$ 22,055,296	\$ 310,956	(\$ 1,868,721)	\$ 17,881	\$ 575,967	(\$ 107,998)	(\$ 44,859)	\$ 20,938,522

The Bank and subsidiaries held unlisted stock amounting to NT\$575,967 thousand, which had been originally valued using the market price within a year. Because the stock is now valued using the market approach or net asset approach, thus the stock was transferred from Level 2 to Level 3.

The Bank and subsidiaries held unlisted stock amounting to NT\$44,859 thousand, which had been originally valued using the market approach or net asset approach. Because the stock is now valued using the market price within a year, thus the stock was transferred from Level 3 to Level 2.

In relation to the above, valuation gains and losses are recognized in gain and loss in the period. The net gains belonging to assets as of December 31, 2023 and 2022 were NT\$312,958 thousand and NT\$282,289 thousand, respectively.

In relation to the above, valuation gains and losses are recognized in gain and loss in other comprehensive income. The net (losses) gains belonging to assets as of December 31, 2023 and 2022 were NT\$810,469 thousand and NT\$(1,793,658) thousand, respectively.

(B) Movements of financial liabilities classified into Level 3 of fair value are as follows: None.

E. Fair value measurement to Level 3, and the sensitivity analysis of the substitutable appropriate assumption made on fair value.

The Bank and subsidiaries' fair value measurement of financial instruments was reasonable. However, if valued using different model or parameters, it would obtain different results. For Level 3, if the parameters of valuation varied up or down by 10%, the effect on profit or loss would be shown as follows:

December 31, 2023	Changes in the fair value recognized in the current profit or loss		Changes in the fair value recognized in the comprehensive income or loss	
	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes
Financial assets at fair value through profit or loss Investment in stock	\$ 714,834	(\$ 714,834)	\$ -	\$ -
Financial assets at fair value through other comprehensive income Investment in stock	-	-	1,448,199	(1,448,199)

December 31, 2022	Changes in the fair value recognized in the current profit or loss		Changes in the fair value recognized in the comprehensive income or loss	
	Favorable changes	Unfavorable changes	Favorable changes	Unfavorable changes
Financial assets at fair value through profit or loss Investment in stock	\$ 702,387	(\$ 702,387)	\$ -	\$ -
Financial assets at fair value through other comprehensive income Investment in stock	-	-	1,391,466	(1,391,466)

The favorable changes and unfavorable changes meant the fluctuation of fair value, and the fair value was calculated by the unobservable parameters in different levels. If the fair value of financial instrument was affected by one of the above parameters, the favorable changes and unfavorable changes would not consider the correlation and variability in the table.

F. Quantitative information of fair value measurement of significant unobservable inputs (level 3)

Those measured at fair value belonging to level 3 of the Bank and subsidiaries are mainly for equity investment-unlisted stock.

Investments in equity instruments without active market have compound significant unobservable inputs, but are not correlated with each other because they are independent.

Table below summaries quantitative information of significant unobservable inputs:

December 31, 2023	Fair value	Valuation technique	Significant unobservable input	Range (weighted average)	Relationship of inputs to fair value
Financial assets measured at fair value through profit or loss	\$ 6,199,048	Market approach	Lack of liquidity discount	10%-30%	The higher liquidity discount, the lower fair value.

8. MANAGEMENT OBJECTIVE AND POLICY FOR FINANCIAL RISK

(1) Overview

The Bank and subsidiaries earn profits mainly from lending, financial instruments trading and investments. The Bank and subsidiaries are supposed to bear and manage any risks from these business activities. These risks include credit risk, market risk, operating risk and liquidity risk. Among those risks, credit risk, market risk and liquidity risk have greater impact.

In response to the climate change, the Bank and subsidiaries have strengthened resilience, managed and controlled energy use and gas emissions, developed sustainable finance policies and developed low-carbon products and services.

The Bank and subsidiaries regard any potential factors that might negatively affect earnings and reputation as risks. To maintain steady profits and good reputation and avoid losses from incidental events, the Bank and subsidiaries' risk management policies focus on prevention and reduction of anticipated business risks and increase of capital in response to future anticipated risks. In order to meet the solid operating requirements by the competent authorities, depositors and other stakeholders for management objectives for risks, business risks are controlled within the tolerable scope.

(2) The organization framework of risk management

Based on the risk management policies and guidelines of the parent company, Mega Financial Holdings, the Bank and subsidiaries establish risk management organization, policies, objectives, procedures, internal control operation, risk monitor mechanism and risk limits, and report to the parent company on risk management issues, which could be met to the group's overall risk management structures and reporting system.

The Board of Directors is the highest instruction unit of the risk management organization structure and is responsible for establishing risk management system and ensuring effectiveness of operation, including risk management policies, organization structure, risk preference, internal control system and management of significant business cases.

Under the Board of Directors, the Risk Management Committee is established. The Risk Management Committee is responsible for review and monitor of risk management. Under the management, several committees and other administrative units are established. They are responsible for assessing and monitoring the related risk of loans, investments, trading of financial products.

The Bank has the Risk Management Center, which is responsible for supervising the establishment of risk management mechanism, risk limits setting, risk monitoring and reporting. Each business management unit is responsible for identifying possible risks that may be generated within their respective jurisdictions, establishing internal control procedures and regulations, periodically measuring risk degrees and adopting response measures for possible negative effects.

Business units follow operating procedures and report to the management units directly. Risk management unit is responsible for monitor of overall risk positions and concentration and reporting to the management or Board of Directors.

Auditing office examines the operations of business and administration units regularly or irregularly to ensure the three risk management defense lines operate normally.

The Bank has assigned personnel to sit on the Board of Directors of each subsidiary to monitor the governance of each subsidiary.

The Bank has established climate risk management guidelines in accordance with the financial holding company policy and relevant regulations, which define the governance framework for climate risks, including the responsibilities of the Board of Directors, senior management, and related units at all three lines of defense. The Board of Directors of the Bank is the highest governance unit for climate-related issues.

(3) Credit risk

A. The source and definition of credit risk

Credit risk pertains to the risk of loss that the borrowers, issuers or counterparties might default on contracts due to deterioration in their finance or other factors.

The Bank and subsidiaries are exposed to credit risk mainly on businesses of corporate and individual loans, guarantees, trade financing, interbank deposits and call loans and securities investments.

Credit risk is the primary risk of the Bank and subsidiaries' capital charge.

B. Credit risk management policies

The objectives of the Bank and subsidiaries' credit risk management are to maintain stable asset allocation strategy, careful loaning policy and excellent asset quality to secure assets and earnings.

The management mechanism of the Bank and subsidiaries for credit risk includes:

The establishment of Risk Management, Loan and Investment committees which adopt responding measures to market environment, changes in industry, and capital limits, and review relevant regulations and cases of significant lending and investments;

Setting careful prior review procedures for lending and criteria of handling subsequent matters, regular post-lending follow-up, understanding of clients' operation and capital outflows, and increase in the frequency of review on clients with higher risk;

Classifying credit ratings based on clients' probability of default or behavior scoring with management put in practice;

Controlling concentration of credit risk by setting credit limits for individuals, corporate groups, industries, areas, and different types of collaterals;

Setting credit risk limits by reference to external ratings and prospects with attention to changes in market credit spread and risk concentration of counterparties;

Establish an early warning mechanism for credited customers;

Assessing assets quality regularly and setting aside sufficient reserve for losses;

Setting creditor's rights management unit and advisory committee in charge of accelerating collection of non-performing loans.

The procedures for credit risk management of the Bank and subsidiaries and related measurement approaches are outlined below:

(A) Credit extensions

Internal risk ratings and classification of credit assets are as follows:

a. Internal risk rating

Corporate credit risk is measured by using the borrower's default probability model in which financial and non-financial factors are incorporated, which predicts the default probability of borrower within the next year. Besides, the extent of risk is measured by using credit rating table and taking into account the characteristics and scale of business. Lending examination and post management are dealt with based on clients' credit rating. Individual borrowers are grouped into different risk levels and managed by using application scoring and behavior scoring cards. Back-testing is conducted on internal models regularly; those models are subject to adjustments when necessary. Clients' credit ratings are reviewed annually and subject to adjustments when there is significant change in their credit ratings.

b. Classification of credit assets

The internal rating for lending is classified as strong, good, satisfactory and weak, and corresponds to the Standard & Poor's rating as follows:

Internal risk rating	Strong	Good	Satisfactory	Weak
Corresponding to S&P	AAA~BBB-	BB+~BB-	B+	B and below

(B) Interbank deposits and call loans

Before trading with other banks, the Bank and subsidiaries must assess the credit of the counterparty, generally referencing external rating agencies, assets and scale of equity of the counterparty, and the credit rating of the counterparty's country of origin in order to set different transaction limits, as well as periodically examining the ratings and changes in stock prices of the counterparty in order to monitor the risks of counterparty.

(C) Bonds and derivatives

The limits of bonds purchased by the Bank and subsidiaries are set by considering the credit rating of bond issuers or guarantors (ex. S&P, Moody's, Fitch, Taiwan ratings or Fitch Taiwan), which is necessary to meet the minimum rating set by the Board of (Managing) Directors, and country risk at the application, changes in CDS quoted prices and market condition.

The Bank and subsidiaries have set trading units and overall total risk limit for non-hedging derivatives, and use positive trading contract evaluation and the potential exposure as the basis for calculating credit risk and add the limit to the total credit risk limit for monitoring.

(D) Asset quality

The Bank and subsidiaries have set the minimum requirements and examination procedures for the quality of financial assets of each type, and controls risk concentration of assets portfolios of each type based on the risk limit of each type. The Bank and subsidiaries also monitor the changes in assets quality regularly during the duration of the assets and takes measures to maintain their quality. According to the policies and regulations, reserve for losses is provided adequately for those assets to actually reflect and safeguard the value of owners' equity.

C. Expected credit losses calculation

In the assessment of impairment and calculation of expected credit losses, the Bank and subsidiaries consider reasonable and supportable information (including forward-looking information that can be obtained without costing excessive costs or inputs) about past events, current conditions and reasonable and supportable forecasts of future economic conditions. The Bank and subsidiaries determine at the reporting date whether there has been a significant increase in credit risk since initial recognition or whether credit impairment has occurred, and recognize expected credit loss according to which stage the asset belongs: no significant increase in credit risk or low credit risk at balance sheet date (Stage 1), significant increase in credit risk (Stage 2), and credit impaired (Stage 3). 12-month expected credit losses are recognized for assets in Stage 1, and lifetime expected credit losses are recognized for assets in Stage 2 and Stage 3.

The definition of each stage and the recognition of expected credit loss are as follows:

Low credit risk (Stage 1)

The Bank and subsidiaries estimate the 12-month expected credit losses if financial assets which has low credit risk at reporting date, or there has not been a significant increase in credit risk since initial recognition.

Significant increase in credit risk (Stage 2)

The Bank and subsidiaries estimate the lifetime expected credit losses if such credit risk has significant increased since initial recognition but not impaired after taking into consideration all reasonable and verifiable information.

Credit-impaired (Stage 3)

The credit is impaired when expected future cash flows of the financial assets have one or more events that occurred with adverse effects, and the Bank and subsidiaries shall estimate the lifetime expected credit losses.

(A) Determination of a significant increase in credit risk after initial recognition

a. Loan business

The Bank and subsidiaries assess the changes in default risk over the lifetime of each category of credit assets at each reporting date to determine whether there has been a significant increase in credit risk. The assessment takes into account reasonable and supportable information including forward-looking information that demonstrates a significant increase in credit risk after initial recognition. The main indicators taken into consideration include:

(a) Quantitative indicators

I. Changes in internal/external credit ratings

The credit risk of the financial instrument is assessed to be significantly increased after initial recognition if its credit rating were lowered over a certain grade and it qualified other conditions at the reporting date. A no-rated financial instrument is determined by default events and qualitative indicators.

II. Default events

The repayment of principal and interest is later 1 to 3 months over when contractually dues, and not included in credit-impaired (Stage 3).

(b) Qualitative indicators:

I. The Bank and subsidiaries, reported a dishonored check issued by debtor.

II. Debtor was notified as a dishonored account by Taiwan clearing house.

III. The pledged collateral of the debtor is seized by another bank.

IV. Debtor's loans from other financial institutions have been reclassified as overdue loan or written off as bad debt.

V. The independent accountant issues an opinion expressing material uncertainty over the company's ability to continue as a going concern.

VI. The debtor has other records of bad credit that has affected its capital procurement and normal operation.

The loan assets of the Bank and subsidiaries are assumed to have no significant increase in credit risk since initial recognition if they are of low credit risk at the reporting date.

b. Note and bond investments and counterparty transactions

The Bank and subsidiaries assess the changes in default risk over the lifetime of note and bond investments and counterparty transactions at each reporting date to determine whether there has been a significant increase in credit risk. The assessment takes into account reasonable and supportable information including forward-looking information that demonstrates a significant increase in credit risk after initial recognition. The main indicators taken into consideration include:

(a) Quantitative indicators:

I. The repayment including interests is over a certain number of days past due.

II. The fair value and cost are lower than a certain percentage.

III. A change in internal/external credit ratings.

At the reporting date, if the external credit rating of the financial instrument has decreased by more than certain grades since initial recognition, or if the instrument is not investment grade, it is determined to have significant increase in credit risk. If the financial instrument only has an internal credit rating, the assessment is based on the equivalent external credit rating.

IV. The CDS spread of note and bond issuer/counterparty is over certain basis points five business days before the reporting date.

V. Fluctuation rate of individual stock price relative to the overall market price.

The fluctuation rate of individual stock price of the note and bond issuer/ counterparty relative to the overall market price is lower than a certain percentage in consecutively certain number of days.

(B) Definition of default and credit impaired financial assets

a. Credit business

The Bank and subsidiaries use the credit-impaired indicators as follows:

- (a) Quantitative indicator: Except for the accounts receivable factoring without recourse resulting from a non-financial factor, the repayment of principal and interest is over 90 days past due.
- (b) Qualitative indicators:
 - I. The accounts receivable factoring without recourse has been recorded as non-performing loans.
 - II. Overdue receivables.
 - III. The amount cannot be expected to be recovered because of the debtor's financial difficulties.
 - IV. A modification of the contractual terms led by the debtor's financial difficulties, including an extended repayment term of principal and a punctual repayment of interests, extended repayment term of interests, and debt negotiations for agreed settlement administered by the Bank Association.
 - V. The debtor has filed for bankruptcy or is likely to file for bankruptcy.
 - VI. The debtor entered into reorganization or is likely to file for reorganization.
 - VII. A debtor's credit rating has been downgraded significantly, and its operations or financial condition may have deteriorated, which has been approved by irregular transaction reporting of head office to be recognized as credit-impaired (Stage 3).

b. Note and Bond investments and counterparty transactions

The Bank and subsidiaries use the credit-impaired indicators as follows:

- (a) The repayment is over a certain number of days past due.
- (b) Overdue receivables.
- (c) Bad debts.
- (d) The issuer or debtor encounters financial difficulties.
- (e) A modification of the contractual terms led by the debtor's financial difficulties, including an extended repayment term of principal and a punctual repayment of interests, and extended repayment term of interests.
- (f) The debtor has filed for bankruptcy or is likely to file for bankruptcy.
- (g) The debtor entered into reorganization or is likely to file for reorganization.
- (h) The credit rating at the reporting date is classified as "D".
- (i) The debtor's credit rating has been downgraded significantly, and its operations or financial condition may have deteriorated, which has been approved by irregular transaction reporting of Head office.
- (j) Reclassified as credit-impaired after the expert's judgement.

(C) Write-off policy

The Bank and subsidiaries write-off the financial assets partially or entirely to the extent of the amount which cannot be reasonably expected to be recovered.

The indicators for reasonably expected to be unrecoverable include:

- a. The recourse procedures has ceased.
- b. The debtor's assets or income is evaluated to be insufficient to repay outstanding payments.

The Bank and subsidiaries may proceed recourse activities for the written-off financial assets and undergo recourse procedures in accordance with related policies.

(D) Measurement of expected credit loss

The Bank and subsidiaries recognize the impairment provision for 12 months expected credit losses (ECLs) if there has not been a significant increase in credit risk since initial recognition and recognizes the impairment provision for the lifetime expected credit losses if such credit risk has increased since initial recognition.

a. Credit business

Expected credit loss are measured based on probability of default (“PD”), loss given default (“LGD”) and exposure at default (“EAD”).

(a) Probability of default (“PD”):

The estimation of PD is based on the rated financial assets and no-rated financial assets of the Bank and subsidiaries, with the 12-month PD and lifetime PD estimated separately.

- I. Calculate the actual 12-month PD from historical data, which is adjusted by using forward-looking information, and use it to estimate the future 12-month PD parameter.
- II. Lifetime PD: The Bank and subsidiaries adopt Markov Chain to estimate lifetime PD, which is obtained by a matrix multiplication from rating transition matrix.

In addition, probability of default of externally rated financial assets is measured by the same method with “Note and bond investments and counterparty transactions”.

(b) Loss given default (“LGD”):

Loans are grouped according to type (corporate or consumer) and whether they are secured with collateral, and the LGD of each group is calculated based on historical recovery experience.

(c) Exposure at default (“EAD”):

- I. On balance sheet: calculated from the total book value at the reporting date (including interest receivable).
- II. Off balance sheet: off balance sheet figures multiplied by the credit conversion factor (CCF). The CCF is estimated according to the rules described in the “Calculation Method of Equity Capital and Risky Assets and Accompanying Forms-Credit Risk Standard Rules.”

b. Note and bond investments and counterparty transactions

(a) PD is calculated based on external credit ratings data, which takes into consideration forward-looking information.

(b) LGD is an average LGD obtained from external credit ratings.

(c) EAD:

- I. Stage 1: calculated from total book value (including interest receivable).
- II. Stage 2 and Stage 3: calculated from the cash flows of notes and bonds during the duration.

(E) Consideration of forward-looking information

a. Credit business

The Bank and subsidiaries incorporate forecastable information when determining whether there has been a significant increase in credit risk since initial recognition and measuring expected credit losses.

(a) For determining significant increase in credit risk

Clients’ financial condition, repayment ability, corporate governance and forward-looking information such as industry’s prospects are taken into consideration.

(b) For measuring expected credit losses

Consideration of forward-looking information are reflected by PD and LGD. Consideration of forward-looking information classifies loans into three types: loans I. with internal credit ratings, II. merely with external credit ratings, and III. without credit ratings:

I. Loans with internal credit ratings:

To measure the PD of internally rated financial assets, the Bank and subsidiaries assess corporate loan and consumer loan business, refer to academic literatures across countries and employ statistical methods to identify relevant macro-economic factors (including economic growth rate, unemployment rate, consumer price index, interest rate, exchange rate and real estate price index) in order to assess the effects on each rating level while the macro-economic changes, and use it to be the forward-looking information adjustment of future PD. In addition, the Bank and subsidiaries’ adjustment of forward-looking information includes the analysis under the different macroeconomic environments, which are appropriated the weight in accordance with its incidence. As a result, the weighted average was calculated based on different economic environments, and it reflects the non-linear system between the incidence of different macroeconomic environments and the existence of credit loss.

II. Loans merely with external credit ratings: ECLs are measured by the same approach by considering the same forward-looking information adopted for note and bond investments and counterparty transactions.

III Loans without credit ratings: Estimate according to the prosperity of major economic regions.

To measure the LGD of no-rated financial assets, the Bank and subsidiaries consider forward-looking information by complying with the impairment estimation methodology guidelines released by the Bankers Association of the Republic of China. And adjust according to the economic prosperity of major economic regions.

b. Note and bond investments and counterparty transactions

To measure the forecastable estimation of PD, the PDs under different ratings and limits are obtained by constructing the regression model and combining the result of regression with the assessment of macroeconomic.

D. Policies of hedging and mitigation of credit risk

To reduce credit risk, the Bank and subsidiaries adopt the following policies:

(A) Obtaining collaterals and guarantors

The Bank and subsidiaries have established policies on collateral management, mortgage loan line setting, scope of collaterals, collateral valuation, collateral management and disposal. Besides, protection of creditor's right, collateral terms and offsetting terms are all addressed in the credit extension contract in case of any occurrence of credit event, of which the amount may be deductible, loan repayment schedule may be shortened or deemed as matured, or the debtor's deposits can be used to offset its liabilities to mitigate credit risks.

(B) Loan limit control

To avoid extreme credit risk concentration, the Bank and subsidiaries established policies for control of credit risk concentration and set up credit extension limit for a single individual, a single group, a single industry, a single area/country, and single collateral.

(C) Master netting arrangements

The Bank and subsidiaries' transactions predominantly settle at gross amount. A portion of transactions have entered into master netting arrangements with counterparties or upon the event of a default may cease all transactions with the counterparties and settle by net amount in order to further reduce credit risk.

(D) Other credit enhancements

The Bank and subsidiaries have offsetting terms within their credit contracts, which clearly define that all deposits in the Bank and subsidiaries from debtors may be offset against their liabilities upon a credit event, and have guarantees from third parties or financial institutions, in order to decrease credit risk.

E. Maximum credit risk exposure

The maximum credit risk exposure of financial assets within the balance sheets is presented in book values. The maximum credit risk exposure of guarantees and irrevocable commitments off balance sheets is calculated based on their limits. Letters of credit and the guarantee refer to those issued but not used.

(A) The maximum credit risk exposure of financial assets of the Bank and subsidiaries excluding collaterals or other credit enhancement instruments is approximately equal to book value. The related information on credit risk of the financial assets held by the Bank and subsidiaries that have the maximum exposure to credit risk by credit ratings is as follows:

H. Credit risk concentration

Extreme credit risk concentration will enhance risk degree, such as large amount of risk exposure concentrated on single credit product, single client, or a few clients, or a group of clients in the same industry or with similar business or in the same area or with the same risk characteristics. When adverse economic changes occur, financial institutions may incur significant losses.

To avoid extreme credit risk concentration, the Bank and subsidiaries have set credit limit and management rules for single client, single business group and large amount of risk exposure. The subsidiaries have to monitor and control the credit risk concentration not to exceed the limit. Status of credit risk concentration by industry, area/country, collateral and other forms must be analyzed in the risk report regularly.

(A) Loans and credit commitments of the Bank and subsidiaries are shown below by industry:

Unit: In NT Thousand Dollars, %

		Loans and credit commitments			
		December 31, 2023		December 31, 2022

Without recourse factoring (Note 7)		\$ 3,590	\$ 15,333,425	0.02%	\$ 215,499	6002.76%

Notes:

1. The amount recognized as non-performing loans is in accordance with the “Regulation Governing the Procedures for Banking Institutions to Evaluate Assets and Deal with Non-performing/Non-accrual Loans”. The amount included in overdue accounts for credit cards is in accordance with Financial-Supervisory-Banks (4) Letter No.0944000378 dated July 6, 2005.
2. Non-performing loan ratio = non-performing loans/gross loans. Overdue account ratio for credit cards=overdue accounts/balance of accounts receivable.
3. Coverage ratio for loans = allowance for bad debts of loans/non-performing loans. Coverage ratio for accounts receivable of credit cards = allowance for bad debts for accounts receivable of credit cards/overdue accounts.
4. For residential mortgage loans, the borrower provides his/her (or spouses' or minors') house as collateral in full and mortgages it to the financial institution for the purpose of obtaining funds to purchase or add improvements to a house.
5. Small amount of credit loans apply to the norms of the Financial-Supervisory-Banks (4) Letter No. 09440010950 dated December 19, 2005, excluding credit card and cash card services.
6. Consumer banking-Others is specified as secured or unsecured consumer loans other than residential mortgage loans, cash card services and small amount of credit loans, and excluding credit card services.
7. Pursuant to Banking Bureau Letter No. 09850003180 dated August 24, 2009, the amount of without recourse factoring will be recognized as overdue accounts within three months after the factor or insurance company resolves not to compensate the loss.

(B) Non-performing loans and overdue receivables exempted from reporting to the competent authority

Unit: In NT Thousand Dollars

	December 31, 2023	
	Total amount of non-performing loans exempted from reporting to the competent authority	Total amount of overdue receivables exempted from reporting to the competent authority
Performing amounts exempted from reporting to the competent authority as debt negotiation (Note 1)	\$ -	\$ -
Performing amounts in accordance with debt liquidation program and restructuring program (Note 2)	899	2,837
Total	\$ 899	\$ 2,837

	December 31, 2022	
	Total amount of non-performing loans exempted from reporting to the competent authority	Total amount of overdue receivables exempted from reporting to the competent authority

Performing amounts in accordance with debt liquidation program and restructuring program (Note 2)	79	2,859
Total	\$ 79	\$ 2,859

Note 1: The Bank disclosed the total amount of non-performing loans and overdue receivables exempted from reporting to the competent authority as debt negotiation in accordance with Banking Bureau (1) Letter No. 09510001270 dated April 25, 2006.

Note 2: The Bank disclosed the total amount of non-performing loans and overdue receivables exempted from reporting to the competent authority as debt liquidation program and restructuring program in accordance with Banking Bureau (1) Letter No. 09700318940 dated September 15, 2008 and Banking Bureau (1) Letter No. 10500134790 dated September 20, 2016.

(C) The Bank and subsidiaries' credit risk concentration is as follows:

Unit: In NT Thousand dollars, %

Year	December 31, 2023		
Ranking (Note 1)	Industry of Company/ Enterprise Group (Note 2)	Total outstanding loan amount (Note 3)	Total outstanding loan amount/ net worth of the current year (%)
1	A Group - Chemical Material Manufacturing	\$ 38,859,646	11.73%
2	B Company - Transport via Railways	37,475,296	11.31%
3	C Group - Other Financial Service Activities Not Elsewhere Classified	32,844,497	9.92%
4	D Group - Manufacture of Panel and Components	23,754,314	7.17%
5	E Group - Packaging and Testing of Semi-conductors	19,019,167	5.74%
6	F Group - Ship Transportation	17,017,202	5.14%
7	G Group - Real Estate Development Activities	16,602,308	5.01%
8	H Group - Real Estate Development Activities	16,578,749	5.01%
9	I Group - Financial Leasing Industry	16,221,077	4.90%
10	J Group - Real Estate Development Activities	16,136,777	4.87%

Unit: In NT Thousand dollars, %

Year	December 31, 2022		
Ranking (Note 1)	Industry of Company/ Enterprise Group (Note 2)	Total outstanding loan amount (Note 3)	Total outstanding loan amount / net worth of the current year (%)
1	A Group - Other Financial Service Activities Not Elsewhere Classified	\$ 42,908,359	14.80%
2	B Company - Transport via Railways	39,282,410	13.55%
3	C Group - Chemical Material Manufacturing	30,711,057	10.59%
4	D Group - Manufacture of Panel and Components	22,203,712	7.66%
5	E Group - Real Estate Development Activities	16,839,218	5.81%
6	F Group - Real Estate Development Activities	16,401,192	5.66%
7	G Group - Ship Transportation	15,786,448	5.44%
8	H Group - Computer Manufacturing Industry	14,864,332	5.13%
9	I Group - Real Estate Development Activities	14,617,307	5.04%
10	J Group - Financial Leasing Industry	14,439,486	4.98%

Note 1: Ranking of the top ten enterprise groups other than government and government enterprise is based on their total outstanding loan amount. Outstanding loan that belongs to an enterprise group, should be categorized and listed in one lump sum, and disclosed by "code" with "industry type" (for example, company (or group) A - Manufacture of Panel and Components). If it is an enterprise group, industry type of maximum exposure of the enterprise group would be disclosed. Industry type should be filled in accordance with "Standard Industrial Classification System" of Directorate-General of Budget, Accounting and Statistics, Executive Yuan.

Note 2: Definition of enterprise group is based on Article 6 of Supplementary Provisions to the Taiwan Stock Exchange Corporation Rules for Review of Securities Listings.

Note 3: Total outstanding loan amount is the sum of balances of all types of loans (including import negotiation, export negotiation, bills discounted, overdraft, short-term loan, short-term secured loan, margin loans receivable, medium-term unsecured loan, medium-term secured loan, long-term unsecured loan, long-term secured loan and overdue loan), bills purchased, without recourse factoring, acceptance receivable and guarantees.

(4) Liquidity risk

A. Definition and sources of liquidity risk

The Bank and subsidiaries define liquidity risk as the risk of financial loss to the Bank and subsidiaries arising from default by any companies of financial instruments on the payment obligations. For example, the companies are default on payment obligations, such as withdrawals paid to depositors and loans repayment. Or, the company is unable to obtain funds within a certain period at reasonable cost in response to increased demand for assets.

B. Procedures for liquidity risk management and measurement of liquidity risk

The Bank and subsidiaries are mainly engaged in financial services. Therefore, the management for capital liquidity is highly focused by the Bank and subsidiaries. The objectives for liquidity risk management are (a) to meet the liquidity index regulation (b) to maintain reasonable liquidity based on business development plans, to ensure capability of daily payment obligations and to meet business growth requirements with adequate highly-liquid assets and capability of raising funds from others in case of emergency.

The financial department of the Bank and subsidiaries is responsible for daily capital liquidity management. According to the limits authorized by the Board of (Managing) Directors, the Bank and subsidiaries monitor the indexes of liquidity risk, execute capital procurement trading and report the conditions of capital liquidity to the management. The management department reports the liquidity risk

control to the Fund Management Committee, Risk Management Committee and the Board of (Managing) Directors regularly, and performs regular liquidity stress-testing to ensure sufficient capital to meet the funding requirements for increase in assets and payment obligations.

The Bank and subsidiaries daily perform intensive control over sources and the period gaps of fund and liquidity risk management. Future cash flows are estimated based on the financial liability contracts due date and expected cash collection date of financial assets. The Bank and subsidiaries also consider the extent of practical utilization of capital in contingent liabilities such as use of loan limits, guarantees and commitments.

Assets used to pay obligations and loan commitments include cash and cash equivalents, due from the Central Bank and call loans to banks, financial assets at fair value through profit or loss, securities purchased under resell agreements, bond investment, receivables, discounts and loans, financial assets at fair value through other comprehensive income, financial assets at amortized cost, and other financial assets held in response to unexpected cash outflows.

The liquidity management policies of the Bank and subsidiaries include:

- (A) Maintain the ability to perform all payment obligations immediately.
- (B) Maintain solid assets/liabilities structure to ensure medium and long-term liquidity safety.
- (C) Diversify fund sources and absorb stable core deposits to avoid depending on certain large-sum deposits.
- (D) Avoid risk of unexpected loss which will increase capital cost and capital procurement pressure.
- (E) Conduct due date management to ensure that cash inflow is greater than cash outflow in short term.
- (F) Keep liquidity ratio required by supervisory authorities.
- (G) Own assets of high-quality, and high-liquidity.
- (H) Be aware of the liquidity, safety and diversity of financial instruments.
- (I) The Bank and subsidiaries have capital emergency plans, which are reviewed regularly.
- (J) The overseas branches of the Bank and subsidiaries must obey the regulations of R.O.C. and the local supervisory authorities. IF they are difference, follow the stricter regulation.

C. Maturity date analysis for non-derivatives

The table below lists analysis for cash inflow and outflow of the non-derivatives held by the Bank and subsidiaries for liquidity risk management based on the remaining period at the financial reporting date to the contractual maturity date.

The Bank and subsidiaries' analysis for capital maturity gaps

(5) Market risk

A. Definition of market risk

Market risk refers to the potential loss of the Bank and subsidiaries' on-balance-sheet and off-balance-sheet positions due to the Bank and subsidiaries enduring fluctuations of market prices (for example: fluctuations of market interest, exchange rates, stock prices and price of products).

B. Objective of market risk management

The objective of the Bank and subsidiaries' market risk management is to confine risks within a tolerable scope to avoid the fluctuations of financial product prices impacting future returns and the value of assets and liabilities.

C. Market risk management policies and procedures

The Board of (Managing) Directors decided the degree of risk tolerance, position limits, and loss limits. Market risk management comprises trading book control and banking book control. Trading book operation is mainly for trading purposes and hedges against trading book position Policies for financial instrument trading of bank are based on back-to-back operation principle. Banking book is based on held-to-maturity principle and adopts hedging measures.

D. Procedures for market risk management

(A) The Bank and subsidiaries' objectives of market risk management are respectively proposed by Treasury Department and Risk Management Department, and then Risk Management Department summarizes and reports these objectives to Risk Management Committee of Mega Financial Holdings and the Bank's Board of Directors for approval.

(B) Risk Management Department not only daily prepares statement of market risk position and profit and loss of various financial instruments but regularly compiles securities investment performance evaluation and reports to the Board of (Managing) Directors for the Board's to grasp the Bank and subsidiaries' risk control over securities investment and derivatives. Risk Management Department summarizes and analyzes various financial instrument position, profit and risk-sensitive factors. Also, it conducts stress testing and examines stress testing limits for senior management to grasp the Bank's market risk exposure.

E. Market risk measurement and control principle

(A) The Bank and subsidiaries' market risk report contains interest rate, exchange rate, positions of equity securities, credit default swap (CDS) and profit and loss assessment. Every transaction has limit and stop-loss provisions, which shall be submitted to approval management in accordance with the Bank and subsidiaries' regulations. Stop-loss limit shall be implemented as soon as a transaction reaches the threshold. If no stop-loss limit will be implemented, trading units shall immediately make statement about reasons to not implement stop-loss limit and coping plan, which shall be submitted to senior management for approval and reported to the Board of (Managing) Directors regularly.

(B) Non-hedging trading positions of derivatives are daily assessed based on the market value, whereas hedging trading positions of futures are daily assessed and others are assessed twice a month.

(C) SUMMIT information system and DW information system for market risk provides functions in relation to risk management such as real-time limits, profit and loss assessment, analysis on risk-sensitive factors, stress testing, etc.

F. Policies and procedures of trading-book risk management

The Bank and subsidiaries daily monitor trading-book positions, changes in risk exposures, and various risk limits, including trading rooms, traders and product line risk limits.

If trading-book financial instruments have market price, the valuation of those instruments is conducted at least one time daily using the independent source and available information. If using mathematical model valuation, the assumptions and parameters used in the model are reviewed regularly.

The method of risk measurement is sensitivity analysis.

The Bank conducts stress test on the positions of its interest rate, equity securities, foreign exchange rate products and credit default swap (CDS) on the assumptions of the monthly change in interest rate, securities market index, foreign exchange rate and CDS by +1%, -15%, +3% and +100 basis points, respectively, and periodically reports to the Risk Management Committee.

G. Trading-book interest rate risk management

Trading-book interest rate risk refers to the financial loss of the decline in values of interest rate products held due to unfavorable changes in interest rates, including securities and derivatives with interest.

The Bank and subsidiaries interest rate products are traded mainly for hedging.

The trading group screens the credits and financial positions of issuers and selects investment objectives by judging interest rate trend and a variety of country risks and based on the authorized minimum investment criteria. The Bank and subsidiaries set trading-book trading limits and stop-loss limits (including trading rooms, traders, trading products, counterparties, and daily and overnight limits) based on business strategies and market conditions, and measure monthly the extent of impact of interest rate risk on investment portfolios using DV01 value.

H. Banking book interest rate risk management

Banking book interest rate risk mainly comes from the unmatched maturity dates of assets and liabilities or price resetting dates, and inconsistent changes in base interest rates for assets and liabilities. The Bank and subsidiaries' interest rate risk mainly comes from the unmatched periods of interest-rate sensitive assets and liabilities of the Bank and subsidiaries.

As the Bank and subsidiaries have interest-rate sensitive gaps, market interest rate fluctuations have good or bad impacts on the Bank and subsidiaries' earnings and economic values.

The Bank and subsidiaries' measure the effect of interest fluctuations on the Bank and subsidiaries' earnings and economic value through on/off balance sheets assets and liabilities of banking book with the support of model parameters. The Bank and subsidiaries document the model building and verification procedure, methodology of change of interest rate, and the assumptions and parameters used in the models, and examine the reasonableness of assumptions and parameters periodically.

The Bank and subsidiaries periodically analyze and monitor interest rate risk management indexes. If the limit is exceeded, the Bank and subsidiaries will adopt responding measures and report the analysis and monitoring results to the Fund Management Committee, the Risk Management Committee and the Board of Directors.

I. Foreign exchange risk management

Foreign exchange risk refers to the losses caused by the exchange of two different currencies at different times. The Bank and subsidiaries' foreign exchange risk mainly comes from its derivatives business such as spot foreign exchange, forward foreign exchange and foreign exchange options. The foreign exchange trading of the Bank and subsidiaries is mainly for offsetting customers' positions on the same day; therefore, foreign exchange risk is relatively low.

To control trading-book foreign exchange risk, the Bank and subsidiaries have set trading limits and stop-loss limits for trading rooms and traders and also set the annual maximum loss limits to control the losses within the tolerable scopes.

K. Risk management for equity securities

Due to the needs of proprietary, make market and tactic, etc., the Bank and subsidiaries held equity securities within the regulations of the law. The market risk comprises the risk of individual equity security arising from the security's market price changes and the general market risk arising from overall equity securities market price changes.

The investment operating group mainly selects blue chip stocks which have high liquidity and sets the investment price according to fundamentals and market transactions. After the investment has been approved by the Investment Deliberation Committee, the operational personnel purchase the stock within the maximum percentage of the approved price, as the case may be.

Daily trading records, details of investment portfolios and overview of profit or loss shall be reported to the management and measurement of the extent of the impact of systematic risk on investment portfolios using β value monthly. The Bank and subsidiaries generally set a stop loss, stop interest, pre-warning and exception handling requirements, and limit control to held individual stock and industry concentration.

- Interest rate sensitivity gap = Interest rate sensitive assets - Interest rate sensitive liabilities
- Ratio of interest rate sensitive assets to interest rate sensitive liabilities = Interest rate sensitive assets ÷ Interest rate sensitive liabilities

(6) Transfer of financial assets

Transferred financial assets that are not derecognized in their entirety

The Bank and subsidiaries' transferred financial assets that do not meet derecognition conditions are mainly debt instruments that are used as collaterals by counterparties repurchase agreements. These transactions are fundamentally pledged loans, and reflects the fact that related liabilities of transferred financial assets that will be repurchased at a fixed price in the future. The Bank and subsidiaries may not use, sell or pledge the transferred financial assets during the valid period of the transaction, but the Bank and subsidiaries are still exposed to interest rate risk and credit risk. Financial assets that do not meet the derecognition conditions and related financial liabilities are analyzed as follows:

Unit: In NT Thousand Dollars

December 31, 2023		
Financial assets category	Carrying amount of financial assets transferred	Carrying amount of associated financial liabilities
Financial assets at fair value through profit or loss

Financial assets at fair value through other comprehensive income		
Repurchase agreement	\$ 36,581,215	\$ 33,023,833

(7) Offsetting financial assets and financial liabilities

The Bank and subsidiaries have engaged in financial instrument transactions that apply the offsetting requirements in Paragraph 42 of IAS 32 as endorsed by the FSC. Financial assets and financial liabilities related to these transactions are reported at net amount on the balance sheet.

The Bank and subsidiaries have also engaged in offsetting terms that do not conform to the IFRSs. However, they have entered into enforceable master netting arrangements or similar agreements with counterparties. For example: global master repurchase agreements or similar repurchase or reverse repurchase agreements. When the above-mentioned enforceable master netting arrangements or similar agreements are elected by both parties to be settled by net amount, settlements may be made by using the net amount after the offsetting of financial assets and financial liabilities. Conversely if no such arrangements are made, settlements are made using the gross amount. However, upon the event of a default of a party, the counterparty may choose settle by net amount.

The following table lists information related to the above-mentioned offsetting of financial assets and financial liabilities:

December 31, 2023

9. CAPITAL MANAGEMENT

(1) Objective of capital management

- The Bank and subsidiaries' qualifying self-owned capital should meet the regulatory requirements and meet the minimum regulated capital adequacy ratio. This is the basic objective of capital management of the Bank and subsidiaries. The calculation and provision of qualifying self-owned capital and regulated capital shall follow the regulations of the competent authority.
- In order to have adequate capital to take various risks, the Bank and subsidiaries shall assess the required capital with consideration of the risk portfolio it faces and the risk characteristics, and manages risk through capital allocation to realize optimum utilization of capital allocation.
- As of December 31, 2023 and 2022, the Bank and subsidiaries met the minimum adequacy rate regulated by the competent authority.

(2) Capital management procedures

- Following the "Regulations Governing the Capital Adequacy Ratio of Banks" of the Financial Supervisory Commission, the Bank calculates capital adequacy ratio on a consolidated basis and reports this information regularly.
- The calculation of capital adequacy ratio of subsidiaries shall follow the regulations of regulatory authorities; if without regulations, capital adequacy ratio is computed as net of qualifying self-own capital divided by regulated capital.

(3) Capital adequacy ratio

Capital adequacy shown in the following table was calculated in accordance with "Regulations Governing the Capital Adequacy Ratio of Banks" effective on December 31, 2023 and 2022.

Unit: In NT Thousand Dollars, %

Items	Annual		December 31, 2023	December 31, 2022
Self-owned capital	Capital of Common equity		\$ 314,865,920	\$ 283,543,847
	Other Tier 1 Capital		-	-
	Tier 2 Capital, net		49,279,457	43,890,403
	Self-owned capital, net		364,145,377	327,434,250
Total risk-weighted assets (Note 1)	Credit risk	Standardized Approach	2,238,703,440	2,163,720,620
		Internal Ratings-Based Approach	-	-
		Asset securitization	14,534,062	13,320,285
	Operation risk	Basic Indicator Approach	105,384,038	91,720,925
		Standardized Approach / Alternative Standardized Approach	-	-
		Advanced Measurement Approaches	-	-
	Market risk	Standardized Approach	21,045,463	28,610,713
		Internal Models Approach	-	-
Total risk-weighted assets		2,379,667,003	2,297,372,543	
Capital adequacy ratio (Note 2)		15.30%	14.25%	
Common equity to total risk assets, net Ratio		13.23%	12.34%	
Tier 1 Capital to total risk assets, net Ratio		13.23%	12.34%	
Leverage ratio		7.24%	7.01%	

Note 1: The self-owned capital, risk-weighted assets and exposures amount in the table above should be filled in accordance with "Regulations Governing the Capital Adequacy Ratio of Banks" and "calculation method and table of self-owned capital and risk-weighted assets".

Note 2: Current and prior year's capital adequacy ratio should be disclosed in the annual reports. In addition to current and prior year's capital adequacy, capital adequacy ratio at the end of prior year should be disclosed in the semi-annual reports.

Note 3: The relevant formulas are as follows:

1. Self-owned capital = Tier 1 Capital of Common equity, net + Other Tier 1 Capital, net + Tier 2 Capital, net
2. Total risk-weighted assets = credit risk-weighted assets + (operation risk charge+ market risk charge) * 12.5
3. Capital adequacy ratio = Self-owned capital / Total risk-weighted assets
4. Common equity to total risk assets, net Ratio = Common equity / Total risk-weighted assets
5. Tier 1 Capital to total risk assets, net Ratio = (Common equity + Other Tier 1 Capital, net) / Total risk-weighted assets
6. Leverage ratio = Tier 1 capital/Risk exposure amount

Note 4: For the first-quarter and third-quarter financial reports, the table of capital adequacy ratio is not required to be disclosed.

10. OPERATING SEGMENTS INFORMATION

(1) General information

The Bank and subsidiaries use reported information to the Chief Operating Decision-Maker (CODM) to identify segments and geographic information. The Bank and subsidiaries mainly focus on the businesses in Taiwan, Asia and North America. The disclosed operating segment by the Bank and subsidiaries is stipulated in Article 3 of the Banking Law, and the generated income is the main source of income.

(2) Information of segment profit or loss, assets and liabilities

The Bank and subsidiaries' management mainly focuses on the operating results of the whole bank, which is consistent with that of the consolidated statements of comprehensive income. Please refer to the consolidated statements of comprehensive income.

(3) Information of major customers

The Bank and subsidiaries' source of income is not concentrated on transactions with a single customer or single counterparty.

(4) Information by products and services

All operating segments' operating results of the Bank and subsidiaries mainly come from interest income from external clients and is measured on a consistent basis compared with the statement of comprehensive income. The segmental income also consist of internal profit and loss appropriated by the terms agreed amongst segments other than external revenue. Please refer to the information by geography for relevant components of income balances.

(5) Financial Information By Geographic Area

	For the year ended December 31, 2023

12. PLEDGED ASSETS

The details for assets of the Bank and subsidiaries pledged as collateral as of December 31, 2023 and 2022, are provided in the Notes 6(4), (5), and (9).

13. SIGNIFICANT CONTINGENT LIABILITIES AND UNRECOGNIZED CONTRACT COMMITMENTS

(1) Significant commitments

- A. The New York State Department of Financial Services (NYDFS) fined the Bank and Mega New York Branch for failing to comply with Bank Secrecy Act (BSA) anti-money laundering laws (AML). The 180 million US dollar fine was part of a consent order entered into with the NYDFS on August 19, 2016, pursuant to which the Bank and Mega New York Branch shall take immediate steps to correct the non-compliance. According to the consent order, the Bank and Mega New York Branch shall engage an independent compliance consultant of NYDFS' selection for six months to immediately consult about, oversee and address deficiencies in Mega New York Branch's compliance function, including compliance with BSA/AML requirements. In addition, the Bank and Mega New York Branch shall retain an independent monitor to conduct a comprehensive review of the effectiveness of the Branch's program for compliance with BSA/AML requirements, laws and regulations and prepare a written report of findings, conclusions, and recommendations and conduct a review of Mega New York Branch's U.S. dollar clearing transaction activity from January 1, 2012 through December 31, 2014, to determine whether the Mega New York Branch's suspicious transaction activity can be recognized appropriately and be declared in accordance with relevant reporting regulations, and transactions are inconsistent with or in violation of the Office of Foreign Asset Control (OFAC) Regulations.

As of December 31, 2023, for the issues listed in the aforementioned consent order, Mega New York Branch has completed improvements on the abovementioned issues, but it still needs to improve its sustainability of the implementation of each improvement measure in order that the competent authorities could approve the implementation results at the subsequent annual financial examinations, so as to remove the conservatorship. Additionally, a retrospective investigation on Mega New York Branch's U.S. dollar clearing transaction activity was conducted by the independent third party, which was completed in the end of February 2020. All the results identified during the review period have been reported to the Board of Directors and related competent authorities. After the review, the competent authority has also notified the closure of the case.

- B. Following the examination of June 30, 2016, December 31, 2016, and September 30, 2016, the supervisory authorities disclosed deficiencies relating to risk management and compliance with the BSA/AML requirements of Mega New York Branch, Mega Chicago Branch and Mega Silicon Valley Branch (collectively, the "Branches"). Therefore, on January 17, 2018, the Bank, the Branches, the Board of Governors of the Federal Reserve System (FED) and the Illinois Department of Financial and Professional Regulation (IDFPR), Division of Banking entered into a Consent Order to Cease and Desist and Order of Assessment of a Civil Money Penalty (C&D). The Bank and the Branches were imposed a fine amounting to US\$29 million and shall jointly submit an individual written plan as well as retain an independent third party to conduct a review of Mega New York Branch's U.S. dollar clearing transaction activity from January 1, 2015 through June 30, 2015.

Additionally, as of December 31, 2023, the Branches have completed improvements on the abovementioned issues. Those written action plans were periodically reported to the Board of Directors and submitted to the Federal Reserve Bank. However, the Branches would continue to ensure that each improvement measure is effectively and continuously implemented. The full removal of conservatorship remains contingent on the recognition by the competent authorities of the overall improvement results and sustainability made by U.S. branches of the Bank. A retrospective investigation on Mega New York Branch's U.S. dollar clearing transaction activity was conducted by the independent third party during the abovementioned period, which was completed in the end of February 2020. All the results identified during the review period have been reported to the Board of Directors and related competent authorities. After the review, the competent authority has also notified the closure of the case.

- (2) As of December 31, 2023 and 2022, the Bank and subsidiaries had the following commitments:

	December 31, 2023		December 31, 2022	
Irrevocable loan commitments	\$	211,960,332	\$	143,460,826
Securities sold under repurchase agreement		40,074,725		34,963,970
Securities purchased under resell agreement		11,352,883		1,222,960
Credit card line commitments		110,786,282		104,491,116
Guarantees issued		138,416,990		145,193,003
Letters of credit		61,763,981		64,571,662
Customers' securities under custody		358,048,341		387,285,244
Properties under custody		1,705,865		2,097,620
Guarantee effects received		151,990,380		150,815,749
Collections receivable for customers		72,177,005		76,584,185
Collections payable for customers		182,920		185,865
Trustee sales license		1,025		452
Payables on consignments-in		1,533		1,544
Agent for government bonds		77,440,200		85,912,700
Agent for marketable securities under custody		98,343,404		162,690,258
Trust liability		710,013,604		701,514,489
Certified notes paid		3,154,368		3,503,384

- (3) The Bank committed to provide necessary financial support to Next Bank under the specific circumstances in the future in accordance with the related regulations. The Bank will continually hold more than 25% equity interests in Next Bank equity only if the regulations are changed or any other banks or financial holding companies are willing to acquire Next Bank with a total shareholding ratio over 25% equity interests.
- (4) As of December 31, 2023, the total contract price for the Bank's new building construction of Chung Shan Branch and Nan Tze Branch was NT\$2,925,000 thousand, and the unpaid amount was NT\$2,652,429 thousand.

14. SIGNIFICANT DISASTER LOSS

None.

15. SIGNIFICANT SUBSEQUENT EVENT

To support mid-term and long-term loan and investment business, the Bank issued the 1st senior unsecured 3-year financial debenture in 2024 amounting to NT\$1 billion and the 2nd senior unsecured 5-year USD callable interest rate linked financial debenture in 2024 amounting to US\$9,550 thousand on January 15, 2024 and January 30, 2024, respectively, with a coupon rate of 1.45% and a combination of fixed interest rate and structured interest rate (fixed interest rate of 5.80% for the first 1.5 years and 4 times (5% - reference index interest rate) for more than 1.5 years to the 5th year, with a ceiling of 8% and a lower limit of 0%).

16. OTHERS

- (1) Information on financial assets transfers and liabilities extinguishing
None.
- (2) Significant adjustment in the organization and significant changes in the management system
In order to integrate the Bank's resources and maximize marketing efficiency, the Bank's payment business has been integrated and handled by the "Card Department" effective on January 1, 2023, and the "Card Department" has been renamed "Card and Payment Department". In addition, to effectively utilize human resources and improve management efficiency, the "Overseas Business Management Department" and the "Overseas Business Planning Department" have been merged into the "Overseas Business Management Department" effective on February 16, 2023.
- (3) Significant impact arising from changes in government laws and regulations
None.
- (4) Information for Company's share held by subsidiaries
None.
- (5) Information for private placement securities
None.
- (6) Information for discontinued operations
None.
- (7) Major operating assets or liabilities transferred from (or to) other financial institutions
None.
- (8) Profitability of the Bank and subsidiaries

Units: %

Items	December 31, 2023		December 31, 2022	
	Before tax	After tax	Before tax	After tax
Return on total assets	0.92	0.81	0.71	0.64
Return on stockholders' equity	11.41	9.99	9.10	8.21
Net profit margin ratio	44.79		44.79	

Note 1: Return on total assets = Income before (after) income tax / average total assets.

Note 2: Return on stockholders' equity = Income before (after) income tax / average stockholders' equity.

Note 3: Net profit margin ratio = Income after income tax / total operating income.

Note 4: The term "Income before (after) income tax" represents net income accrued from January 1 to the balance sheet date of the reporting period.

Note: The amount of Non-discretionary Money Trust Investments in Foreign Securities of OBU branch was NT\$31,731,612 thousand and NT\$29,601,497 thousand as of December 31, 2023 and 2022, respectively.

(10) Information for cross-selling

A. Businesses and transactions: Please refer to Note 11.

B. Joint promotion of businesses:

In order to create synergies within the Group of Mega Financial Holding and provide customers financial services in all aspects, the Bank has continuously established other financial consulting service centers (including banking services, securities trading services, and insurance services) in its and the parent company's subsidiaries' branches and simultaneously promoted service business in banking, securities and insurance areas.

C. Sharing of information or operating facilities or premises

Under the Financial Holding Company Act, Personal Data Protection Law, and the related regulations stipulated by MOF, when customers' information of a financial holding company's subsidiary is disclosed to other subsidiaries under the Bank and subsidiaries or exchanged between the subsidiaries for the purpose of cross selling of products, the subsidiaries receiving, utilizing, managing or maintaining the information are restricted to use the information for the joint promotion purposes only. In addition, the Bank is required to disclose its "Measures for Protection of Customers' Information" in its website. Customers also reserve the right to have their information withdrawn from the information sharing mechanism.

17. SUPPLEMENTARY DISCLOSURES

(1) Related information on material transaction items of the Bank and subsidiaries:

A. Information regarding stock of short-term equity investment for which the purchase or sale amount for the period exceeded NT\$300 million or 10% of the Bank's paid-in capital:

(Unit: In NT Thousand Dollars)

Investor	Marketable securities	Item	Counterparty	Relationship	Balance as of January 1, 2023		Addition		Disposal			Balance as of December 31	
					Number of shares (in thousands)	Amount	Number of shares (in thousands)	Amount	Number of shares (Note)(in thousands)	Amount	Gain (loss) on disposal	Number of shares (in thousands)	Amount
The Bank	Common stocks: Mega International Commercial Public Co., Ltd.	Investments accounted for using equity method	Mega International Commercial Public Co., Ltd.	The subsidiary	400,000	\$ 3,551,600	100,000	\$ 931,400	-	\$ -	\$ -	500,000	\$ 4,483,000
The Bank	Privately common stock	Investments accounted for using equity method	Next Bank	Investments accounted for using equity method of the company	251,000	\$ 2,510,000	75,556	\$ 755,563	66,339	\$ -	\$ -	260,217	\$ 3,265,563

Note: The number of stocks of the equity investees Next Bank held by the Bank was reduced by 66,339 thousand shares due to the capital reduction to replenish accumulated deficits.

B. Information on the acquisition of real estate for which the purchase amount exceeded NT\$300 million or 10% of the Bank's paid-in capital: None.

C. Information on the disposal of real estate for which the sale amount exceeded NT\$300 million or 10% of the Bank's paid-in capital: None.

D. Information regarding discounted processing fees on transactions with related parties for which the amount exceeded NT\$5 million: None.

E. Information regarding receivables from related parties for which the amount exceeded NT\$300 million or 10% of the Bank's paid-in capital: None.

F. Information regarding selling non-performing loans:

(a) Summary of disposal of non-performing loans

For the year ended December 31, 2023, disposal of non-performing loans of the bank are as follows:

(In NT Thousand dollars)

Transaction date	Transaction counterparty	Content of right of claim	Carrying amount	Sale price	Gain or loss on disposal	Attached conditions	Relationship with the Bank	Note
2023.03.20	Merrill Lynch International	Corporate Loan	\$ -	\$ 84,101	\$ 84,101	None	None	None

(b) In a single transaction, amount of disposal of non-performing loans exceeding NT\$1 billion (except selling to related parties): None

G. Information on and categories of securitized assets which are approved by the authority pursuant to Financial Asset Securitization Act or the Real Estate Securitization Act: None.

H. Other material transaction items which were significant to the users of the financial statements: None.

Note 1: The numbers in the No. column represent as follows:

1. 0 for the parent company.
2. According to the sequential order, subsidiaries are numbered from 1.

Note 2: Relationship between transaction company and counterparty is classified into the following three categories;

1. Parent company to subsidiary.
2. Subsidiary to parent company.
3. Subsidiary to subsidiary.

Note 3: Regarding percentage of transaction amount to consolidated total operating revenues or total assets, it is computed based on period-end balance of transaction to consolidated total assets for balance sheet accounts and based on accumulated transaction amount for the period to consolidated total operating revenues for income statement accounts.
