(b) Loans & advances to customers by geographical areas

Advances to customers by geographical areas are classified according to the location of the counterparties after taking into account the transfer of risk. In general, risk transfer applies when an advance is guaranteed by a party in a country which is different from that of the counterparty. Only exposures to a single country outside Hong Kong exceeding 10% of the aggregate gross amount of loans and advances to customer as at the above respective reporting dates are disclosed.

(c) International Claims

International claims include receivables and loans and advances, cash and balances and placements with banks, bills, other debt instruments and investments and accrued interest and overdue interest on the assets. Claims are classified according to the location of the counterparties after taking into account the transfer of risk. For a claim guaranteed by a party situated in a country different from the counterparty, risk will be transferred to the country of the guarantor. For a claim on the branch of a bank or other financial institution, the risk will be transferred to the country where its head office is situated. Claims on individual countries or areas, after risk transfer, amounting to 10 per cent or more of the aggregate cross border claims are shown as follows:

Liquidity Risk Management

(a) Governance of liquidity risk management

The goal of liquidity risk management is to ensure timely funding allocation as to fulfil payment obligations and meet funding demands of the Bank.

Liquidity risk tolerance is the bank's willingness to accept the maximum liquidity risk after considering the business development strategy, operational objectives, financial status and financing capabilities. Limit package is a quantitative standard for controlling liquidity risk. The definition and setting of the bank's liquidity risk is reflected in the current year's limit package. The board of directors regularly reviews, approves the liquidity risk tolerance and limit package.

Asset/Liability Management Committee ("ALCO") of Taishin Holdings is responsible for supervising liquidity risk management in accordance with the bank's Asset/Liability Management Policy, and verifying liquidity risk management procedures and mechanisms to ensure that the executing unit manages liquidity risk within the limits approved by the Board of Directors, and reviewing liquidity risk reports regularly.

"The Finance Management ("FM") unit of Head Office takes ultimate responsibilities to manage liquidity risk of the overseas branches. It is also responsible to formulate policies related to liquidity risk management and to disclose liquidity risk exposure status of overseas branches to ALCO of Head Office. Also, FM unit of Head Office is responsible for monitoring liquidity risk as to ensure that the risk exposure is within the limits. If the risk limit is breached, the FM unit is responsible to further report such incident to the senior management.

The Risk Management ("RM") unit of Head Office is the limit package and stress test formulation and execution unit, which regularly submitting the limit package to the Board of Directors for approval. The RM unit is also responsible for performing liquidity stress tests regularly.

To maintain the bank's smooth operations, the Funding Unit of Head Office is the central unit which undertakes and manages the overall liquidity risk of the bank.

The Funding Unit of HK Branch is responsible to control the liquidity risk and funding gap of the branch. In the event of insufficient funding, this unit may bring up the matter to HK ALCO to liaise amongst various business units so as to relocate the deposit taking and loan strategies, or by borrowing funds from Head Office, or liquidate high grade bonds to eliminate the shortfall. The unit is responsible to provides liquidity risk reports to HK ALCO, FM unit and RM unit of Head Office.

(b) Funding strategy

Funding management principle of the Bank is to keep smooth and clear channels with diversity in their source of funding. The allocation considerations for the use of funds are in the order of liquidity, safety and then profitability.

The execution unit of the Bank's funding position is the Funding unit. The primary goal is to ensure the bank's liquidity is preserved as well as appropriate liquidity level. In order to ensure the effective use of available funds, this unit should pursue reasonable returns without sacrificing the bank's priority of maintain an appropriate level of liquidity.

Also, the funding unit shall monitor liquidity indicators such as the structural and the concentration of funds and deposits. If necessary, this unit may request redistribution of assets and liabilities by the business unit through ALCO to avoid concentration risks. Secondly, the funding unit shall cooperate with financial institution to regularly review the transaction limits provided by the interbank counterparties as a reference for limit package formulation. Lastly, the funding unit shall, through various financial instruments, such as interbank financing, repos etc. update and regularly test the limits provided by other banks to ensure the smooth flow of all source of funds.

The target and principle of funding management shall be formulated by the Head Office in a unified manner. However, it is necessary for the branch to report any structural changes and update of market conditions at the branch's ALCO for appropriate action.
