### 4. International claims (by ultimate nation)

International claims are on-balance sheet exposures to counterparties based on the location of the counterparties after taking into account the transfer of risk and by types of counterparties. For a claim guaranteed by a party situated in a country different from the counterparty, risk will be transferred to the country of the guarantor. For a claim on the branch of a bank or other financial institution, the risk will be transferred to the country where its head office is situated. Claims on individual countries or areas, after risk transfer, are shown as follows:
