IV Off-balance sheet exposures

(a) The contractual or notional amounts of each of the following class of off-balance sheet exposures outstanding are:

	At 30 Jun 2025	At 31 Dec 2024
Contingent liabilities and commitments		
- Direct credit substitutes	-	-
- Transaction-related contingencies	395,234	395,837
- Trade-related contingencies	336,231	434,554
- Note issuance and revolving underwriting facilities	-	-
- Other commitments	1,331,644	1,165,172

Contingent liabilities and commitments arises from credit-related instruments which include letters of credit, guarantees and commitments to extend credit. The risk involved in these credit-related instruments is essentially the same as the credit risk involved in extending loan facilities to customers. The contract amounts represent the amounts at risk should the contract be fully drawn upon and the customers default. As the facilities may expire without being drawn upon, the contracts amounts do not represent expected future cash flows.

	At 30 Jun 2025	At 31 Dec 2024
Derivative transactions		
 Exchange rate-related derivative contracts 		
(exclude forward foreign exchange contracts		
arising from swap deposit arrangements)	4,844,600	2,283,825
- Interest rate derivative contracts	-	-
- Others	867,316	952,330

The above derivative contracts amounts are the notional amount of the contract, they do not represent amounts at risk. All the derivative contracts held by the Branch are to offset gains/losses on fixed rate bonds and loans.

(b) The total fair value of the above derivative transactions	At 30 Jun 2025	At 31 Dec 2024
- Exchange rate-related derivative contracts	(33,803)	18,340
- Interest rate derivative contracts	•	-

No bilateral netting arrangements for above derivative transactions.

٧	Liquidity	2nd Quarter	2nd Quarter
		Ended 30 Jun 2025	Ended 30 Jun 2024
	The average liquidity maintenance ratio for the period	107.96%	119.35%
	(Calculation period from April to June)		

The liquidity maintenance ratio (LMR) is calculated in accordance with the Banking (Liquidity) Rules effective from 01 January 2015.

The average liquidity maintenance ratio is the arithmmetic mean of each calendar month's average LMR as reported in the "Return of Liquidity Position of an Authorized Institution".

Liquidity Risk Management

The Branch has established a Liquidity Risk Management Policy which is reviewed and approved by the senior management. This policy requires the Branch to maintain a conservative level of liquid funds on a daily basis to meet all financial obligations, and setup the action plan on liquidity contingency.

The liquidity position is monitored through statutory liquidity ratios, cash flow analysis, and inter-bank transactions undertaken by our Branch. The Branch also perform the testing on various type of stress scenarios on monthly basis according to our Liquidity Stress Testing Policy.

40

The key elements of the liquidity risk framework are:

Liquidity Stress Testing

The Branch performs liquidity stress testing on a regular basis, to evaluate the effect of both general market wide and institutional specific disruptions on the Branch's liquidity position. The internal stress testing is to ensure sufficient liquidity for the Branch under different adverse scenarios. The Branch's liquidity stress tests consider the effect of changes in funding assumptions, and the market value of liquidity assets, the results of which are reviewed by senior management and are considered in making liquidity management decisions. Based on the result of the liquidity stress test, the Branch takes necessary (if needed) rebalancing, restructuring actions by risk mitigation or contingency plans.

Contingency Planning

The Branch maintains the liquidity contingency funding plan in case it faces liquidity problem as part of liquidity risk management. The liquidity contingency plan specifies an approach for monitoring and evaulation of actual and potential liquidity events. The plan outlines liquidity identification, monitoring, and measurement of liquidity events. The plan also specifies possible measures, internal and external communication and action to be taken at various stages of crisis.

Funding Diversification

Apart from taking customer deposits as major sources of funding, the Branch boardens its funding source in retail market, money market and capital market by different terms. The Branch also holds a pool of highly liquid, unencumbered assets that can be readily sold or pledged to secure borrowings under stressed conditions.

Oversight and Reporting

The results of stress testing, Liquidity Maintenance Ratio(LMR) and liquidity gap are reported to the management and head office on a reqular basis.

. .

Financial Disclosure as of 30 June 2025

(Expressed in thousand Hong Kong dollars)

VI Bank information (Consolidated basis)

The following table shows the consolidated capital adequacy ratio and the amount of shareholders' funds of Shinhan Financial Group. The basis of preparation is in accordance with the Korean-International Financial Reporting Standards.

(a) Capital and Capital Adequacy	30 Jun 2025	31 Dec 2024
(i) Capital adequacy ratio	16.20%	15.76%
(ii) Total share capital	17,166,310	15,660,795
(iii) Total amount of shareholder funds	347,973,293	310,513,659
(b) Other Financial Information		
(i) Total assets	4,351,069,426	3,901,173,927
(ii) Total liabilities	4,003,096,133	3,590,660,268
(iii) Total loans and advances	2,601,094,861	2,379,365,046
(iv) Total deposits	2,431,185,040	2,229,622,403
	30 Jun 2025	31 Dec 2024
(v) Pre-tax profit	23,571,883	32,295,117

- 1 Shareholders' fund is the sum total of capital and reserves.
- 2 Total liabilities are equal to total assets minus shareholders' fund.
- 3 The conversion rate of HKD/KRW as at 30 Jun 2025 is 172.99.
- 4 The consolidated capital adequacy ratio was calculated in accordance with the Korean-International Financial Reporting Standards adopting Basel III approach.

(Expressed in Thousand of Hong Kong dollars)

VII Disclosure on Remuneration for CG-5 Guideline on a Sound Remuneration System issued by the HKMA

Pursuant to section 3 of CG-5 Guideline on a Sound Remuneration System issued by the HKMA, the following disclosures are made:

a) The design and implementation of the remuneration systems:

The Bank adopts the remuneration policy and systems which are established by the Remuneration Committee of our Head Office for overseas branch. The objective of the remuneration policy is to attract, motivate reward and retain quality staff. The Board ensures that the remuneration polices are in line with the strategic objectives and corporate values of the Bank, and do not give rise to conflicts between the objectives of the Bank and the interests of individual Directors and key executives.

The Remuneration Committee reviews the performance of management and directors over the past fiscal year and settles on remuneration that is proportionate to the individual's responsibilities. It also make sure that the remuneration is on a proper level that improves the long-term interests of the Group and its shareholders.

b) Aggregate quantitative information on remuneration for senior management and key personnel (Note 1) are as follows:

As at 30 Jun 2025

	Amount	Number of Beneficiaries
- Fixed Remuneration	4,149	14
- Variable Remuneration	1,009	-
- Deferred Remuneration	<u> </u>	-
Total	5,158	14

As at 31 Dec 2024

	Amount	Number of Beneficiaries
- Fixed Remuneration	7,307	13
- Variable Remuneration	1,160	-
- Deferred Remuneration		•
Total	8,467	13

No senior management or key personnel has been awarded with new sign-on or severance payments.

Note 1: As defined in CG5 Guideline on a Sound Remuneration System issued by the HKMA, senior management are those who are responsible for oversight of either the Bank's company-wide strategy or activities or those of the Bank's main business lines. Key Personnel are individual employees whose duties or activities in the course of their employment involve the assumption of material risk or the taking on of material exposures on behalf of the Bank.
