Liquidity stress testing covers general market, institution-specific and combined stress scenarios and the results are reviewed on a quarterly basis at ALCO meeting to identify the Branch's potential vulnerabilities and its capacity to withstand stressed circumstances.

The Branch's contingency funding plan makes use of both qualitative and quantitative early warning indicators on different internal and external factors. Any early signs of significant impact on the Branch's liquidity position will be discussed in ALCO. Testing on the plan is conducted on an annual basis and the plan is also subject to regular review by ALCO.
