How to Read the Financial Statements of Trust Banks (Unaudited)

Balance Sheets of Trust Banks

(1) The financial statements of trust banks comprise two balance sheets: one for a banking account and the other for a trust account. The balance sheet for the banking account presents capital, fund management, and finance of trust banks. The balance sheet for the trust account shows assets that trust banks manage, administer, and dispose on behalf of the beneficiaries, according to the trusts' investment objectives, when the trusts have been set up for the trustors.

Balance sheet of banking account

Statement of trust account

(2) The outcomes (gains or losses) of asset management, administration, and disposition of the trust account pertain to the beneficiaries (after deducting trust fees). In principle, they do not affect the banking account. However, loan trusts and jointly operated money trusts ("JOMTs"), which are covered by deposit insurance, are treated as exceptions due to their principal guaranteed feature. As a result, the balance sheets for loan trusts and the JOMT accounts are disclosed, and, together with the banking account, become the "three major accounts" of trust banks. It is common for trust banks to manage various financial risks at the level of these accounts.

(Note) Japanese trust banks have stopped offering new loan trusts. The loan trusts, therefore, have a limited impact on the balance sheet and financial reporting.

(3) The liabilities section in statements of trust accounts shows the balance for each trust type. The assets section shows assets, such as loans, securities, real estate, and monetary claims, held in various trusts.

Money trusts include a wide variety of trust products. They include, for example, products with discretionary management rights, such as JOMTs and individually operated designated money trusts (referred to as *Shiteitan*), and products without discretionary management rights, such as specified money trusts (referred to as *Tokkin*). Fees for these products vary. Aside from money trusts, the trust banks have discretionary management rights for loan trusts and pension trusts, but not for investment trusts or securities trusts.

Statements of Income of Trust Banks

The trust banks disclose statements of income for banking accounts. The main components of "Net Business Profit before Credit Costs," which is equivalent to operating profit for other companies are as follows:

- (1) Trust Fees
- (2) Net Credit Cost of loan trusts and JOMT accounts
- (3) Net Interest Income
- (4) Net Fees and Commissions
- (5) Net Trading Income
- (6) Net Other Ordinary Income (gains or losses on sales of bonds, net gain or loss on foreign exchange transactions, net income or expense on derivatives other than trading or hedging)
- (7) Gross Business Profit: (1)+(3)+(4)+(5)+(6)
- (8) General and Administrative Expenses
- (9) Transfer to general allowance for loan losses
- (10) Net Business Profit: (7)-(8)-(9)
- (11) Net Business Profit before Credit Costs: (10)+(2)+(9)

Fee Revenues of Trust Banks: Trust Fees and Net Fees and Commissions

In trust banks, broadly speaking, there are two types of fee revenues: "Trust Fees" and "Net Fees and Commissions." Fees that trust banks receive on trust contracts are posted to "Trust Fees." Fees and commissions on general service contracts are posted to "Net Fees and Commissions." Note that fees related to the loan trusts and JOMT accounts have characteristics similar to the banking business (deposits and loans) and are generally excluded from "Trust Fees." Sumitomo Mitsui Trust Holdings, Inc. and its consolidated subsidiaries (together, the "SuMi TRUST Group") include these fees in "Net Interest Income and Related Profit."

Fee Revenues

Trust Fees (excluding loan trusts & JOMTs)

- Pension trust fees *1
- Individually operated designated money trust fees *1
- Investment trust & specified money trust fees *2
- Asset securitization-related trust fees
- Real estate brokerage fees

Net Fees and Commissions

- Investment trust and insurance sales fees
- Discretionary investment fees
- Real estate brokerage fees
- Stock transfer agency fees
- Syndicated loan fees

*1 Fees related to management and administration of money trusts with discretionary management rights

*2 Fees related to administration of money trusts without discretionary management rights

Management's Discussion and Analysis (Unaudited)

Overview of Business Activities of the Company

Economic and Financial Environment

In looking back on the financial and economic environment during the fiscal year under review, domestic and overseas economies bore the brunt of the negative impacts of the global spread of the COVID-19 pandemic. At the beginning of spring 2020, governments overseas took steps to contain the spread of infection by enforcing city-wide lockdowns, among other measures, whilst in Japan, people refrained from going out for non-essential reasons and some branches were requested to cease operations under a declared state of emergency. As a result, the level of economic activity in many countries declined sharply. Even though domestic and overseas economies headed towards a recovery thereafter as economic activity picked up again, economic activity is still being weighed down by the impact of repeated fresh waves of infections and restrictions imposed on people's movements.

In the financial markets, however, stock prices trended higher worldwide, buoyed mainly by expectations for a return to economic normalcy owing to the announcement of large-scale financial and economic stimulus packages and the rollout of vaccination programs in multiple countries. The Nikkei Stock Average climbed from below 18,000 yen at the start of April 2020 to hit the 30,000 yen level by February 2021. The Japanese yen gradually appreciated against the US dollar, but then weakened in response to a widening US-Japan interest rate differential. Yields on 10-year Japanese Government Bonds remained close to 0% on the whole but rose slightly from February 2021 onwards in sympathy with higher UST yields.

Developments of Business Activities

The SuMi TRUST Group kicked off a new three-year Medium-Term Management Plan running from fiscal 2020 through fiscal 2022. Guided by the core management philosophy of balancing the creation of both social value and economic value, the concept of creating new value with the power of trust and let prosperous future for our clients and society bloom was defined in the new plan as the Group's reason for existence (purpose). This purpose represents the Group's determination as the "best partner" most trusted by our clients to take responsibility for the next generation and contribute to the building and passing of a society that is

even more capable of coping with change.

Despite the considerable impacts of COVID-19 in fiscal 2020—the first year of the new Medium-Term Management Plan—we still pushed ahead with the following initiatives whilst prioritizing the safety and health of clients and Group employees alike and the stable functioning of all Group operations.

1. Strengthening our business portfolio

We pushed forward with efforts to enhance our abilities to meet the increasingly diverse and sophisticated needs of our clients by building more robust business platforms and establishing new growth fields.

For the purpose of tackling social issues in an era during which many people will likely live to the age of 100, we started offering to individual clients the Anshin Support Trust (fund wrap-type), an asset administration product suitable for clients preparing for dementia. We also endeavored to enhance client convenience, chiefly with the use of quasi-face-to-face online sales in branches and the digitalization of mortgage loan applications. Also, as one of our many social contribution activities, we extended our support to medical research by setting up an account to accept donations to fund the development of a COVID-19 vaccine and related therapeutic drugs.

Sumitomo Mitsui Trust Club took steps to improve services across the entire Group, including the provision of special benefits to clients in collaboration with SuMi TRUST Bank. By working more closely with SuMi TRUST Bank, Sumitomo Mitsui Trust Realty endeavored to maintain housing brokerage revenue predominately with a strategy of opening branch offices in core focus areas. As face-to-face sales activities continued to face constraints due to the pandemic, UBS SuMi TRUST Wealth Advisory started offering real estate solutions and investment products in earnest and strove to establish a consulting process for business owners and wealthy individual clients.

For our corporate clients, all Group companies worked hand in hand to provide a broad range of solutions mainly in the area of corporate governance consulting to address the issues that significantly impact corporate management from the perspectives of the SDGs and ESG. And in catering to the particular characteristics of our clients' employee benefit schemes and pension payment systems, we focused

on delivering comprehensive consulting services that contribute to optimal asset formation and asset management for employees of client firms. Moreover, we stepped up our initiatives for positive impact finance, which targets activities that have positive impacts on the environment, society, and the economy, as well as initiatives aimed at extending Japan's first-ever "transition loans" to facilitate the shift towards a low-carbon society and to support CO₂ emission reduction efforts. We also beefed up our support of innovative companies capable of generating new industries and value.

Sumitomo Mitsui Trust Panasonic Finance focused on the medium- to long-term strengthening of its finance business for ship-related assets as a potential new growth domain. Sumitomo Mitsui Trust Loan & Finance continued to manage loan operations with an emphasis on balancing quality with quantity and successfully maintained its loan balance by controlling credit costs in a tough business environment for such a finely-tuned consulting-based sales model.

SuMi TRUST Bank steadily increased assets under management for mainly corporate pension, public pension, and financial institution clients by continuing to provide high value-added information that caters to the needs of clients and by developing products incorporating non-traditional assets. SuMi TRUST Bank maintained its leading market share in the administration of defined contribution pension plans by focusing its resources on improving the quality of administration services for operational management institutions even as the industry continues to mature.

Under a Group-wide investment strategy, Sumitomo Mitsui Trust Asset Management brushed up its human capital resources, products, and solutions offerings, and bolstered its engagement activity in light of expanding ESG investment. Nikko Asset Management leveraged its global network to develop innovative new products and garnered strong support from a broad-ranging client base, highlighted by its selection for a Japan equity investment management mandate by one of the world's largest institutional investors.

In the asset administration business, operations came online in July 2020 at Custody Bank of Japan, an entity in which shares are held directly by SuMi TRUST Holdings. Boasting the most assets under custody in Japan, this bank has also taken steps to enhance its framework for supporting domestic securities settlement infrastructure and broadly meeting the needs of clients.

2. Capital strategy and risk control practices

The outlook for the future has grown increasingly uncertain in recent times due to various megatrends like changes in the competitive environment owing to the increased pace of digitalization and changes in social structures stemming from an aging population. And the impact of the COVID-19 pandemic has clouded this outlook even more.

In this environment, we heavily allocated human resources to, and invested in systems for, new growth fields and domains that contribute to the strengthening of our risk management and compliance frameworks so that the Group may realize sustained and stable growth. Furthermore, we appropriately responded to demand for capital from both individual and corporate clients in light of the impact of COVID-19 whilst also making sure we held enough capital to satisfy regulatory requirements. And following on from last fiscal year, we booked special provisions in preparation for a deterioration in the economic environment caused by the pandemic. Moreover, as a result of systematically reducing our balance of strategic shareholdings for the purpose of minimizing financial risks, the balance (on an acquisition cost basis) of Japan-listed shares held by SuMi TRUST Holdings and consolidated subsidiaries in fiscal 2020 decreased 24.9 billion yen.

3. Improving service quality

In addition to the above, the Group also pushed ahead with the following initiatives in order to meet the expectations of society and clients alike.

(1) Fiduciary duties and client-oriented initiatives

With the finance sector growing increasingly homogenized, we continued to periodically keep an eye on our initiatives geared towards providing products and services that deliver profits to clients and undertook activities aimed at improving those initiatives so that we might reinforce our client-oriented and client satisfaction-focused business operations as the source of competitiveness. In addition, SuMi TRUST Bank clarified its processes for evaluating initiatives that help improve fiduciary duty practices and client satisfaction and put in place a performance evaluation mechanism that emphasizes not just sales results, but the processes that yield them.

(2) Promoting HR development and active participation

To further accelerate the Group's diversity and inclusion initiatives, we strived to develop suitable working environments and cultivate human resources with various personnel systems and infrastructure that helps empower women in the workplace. We also stepped up initiatives concerning the mental and physical well-being of employees. As a result, for the second year running we were listed by Bloomberg in the 2021 Bloomberg Gender-Equality Index in recognition of our initiatives to further gender equality, and for the fourth year in a row we were selected in METI's White 500 as an organization having outstanding health and productivity management.

Also, given the ongoing diversification of working styles and values among our employees, SuMi TRUST Bank extended the retirement age so that motivated senior personnel can smoothly pass on their specialist knowledge and experience to others and demonstrate their capabilities for as long as possible. The Bank also took action to develop infrastructure supportive of flexible working styles centering mainly on satellite office-based work and telecommuting.

(3) Promoting sustainability management

Based on the thinking that sustained and stable growth hinges on the existence of a sustainable environment and society, we employed a value creation approach that blends solutions for social issues with the Group's management strategy.

More specifically, we set a new long-term target for sustainable finance: 5.0 trillion yen in cumulative loans for the period 2021 through 2030. And as a result of endeavoring to improve upon the information we disclose to all stakeholders in an effort to better their understanding of the Group's activities, we won an excellence award in the 2020 Nikkei Annual Report Awards in recognition of our social impact and value creation process. Furthermore, in December 2020 we published the Group's first TCFD Report in light of the recommendations of the Task Force on Climate-related Financial Disclosures (TCFD) and in January 2021 we issued a Sustainability Report incorporating the common metrics for measuring stakeholder capitalism compiled by the big four global accounting firms.

Also, as one initiative for supporting the community, SuMi TRUST Bank launched Japan's first commercial forestry trust to support stable forest management and revitalize the

forestry industry.

Whilst we have continued to improve the quality of our services, in fiscal 2020 it was revealed that we had long engaged in inappropriate handling when aggregating general shareholder meeting voting forms on behalf of client companies.

We have taken steps to rectify this inappropriate handling mainly by reviewing how we collect voting forms, but to give this issue more context, the use of online platforms for the exercise of voting rights in Japan has yet to gain traction, which is why we also strengthened our efforts to encourage our client firms to utilize online voting.

Along with the above-mentioned incident, a scandal came to light in which a former employee of SuMi TRUST Bank had been embezzling money from clients. The Group took these two incidents very seriously and not only did we implement a coordinated response to strengthen operational risk management, but we also utilized various opportunities to raise awareness about compliance among all employees.

We will make every effort to prevent such incidents from happening again and in order to regain the lost trust and confidence of our clients as their "best partner," all directors, executive officers, and employees will steadily knuckle down to deliver honest and high-quality services worthy of our clients' support.

Results of Business Activities

(Consolidated Financial Results for the Fiscal Year 2021)

For the fiscal year ended March 31, 2021, "Net Business Profit" increased by ¥5.6 billion (U.S. \$51 million) from the previous fiscal year to ¥294.7 billion (U.S. \$2,663 million), due to an increase in substantial funds-related income (*) primarily due to the improvement in net income and expenses on loans and deposits in Japan, while income from fees and commissions in investment management consulting business and real estate brokerage business of group companies decreased due to the effects of limitation of operating activities due to the spread of COVID-19.

"Ordinary Profit" decreased by ¥74.5 billion (U.S. \$673 million) from the previous fiscal year to ¥183.1 billion (U.S. \$1,655 million). The decrease primarily reflects a decrease in net gains on stocks as a result of partial recognition of valuation gains on strategic shareholdings and valuation losses on hedging transactions.

“Net Income Attributable to Owners of the Parent” decreased by ¥20.8 billion (U.S. \$188 million) from the previous fiscal year to ¥142.1 billion (U.S. \$1,285 million) as a result of recording impairments of software and other assets as extraordinary losses, considering adoption of the new normal,

while the full amount of past service costs for retirement benefits was charged to profit or loss in the fiscal year they occur as extraordinary income.

(*) Substantial funds-related income refers to funds-related income plus surplus funds in foreign currency included in foreign exchange gains or losses.

Over Head Ratio (%)	62.2%	2.1%	63.4%	60.1%		(1.0)%	(3.3)%	61.1%
Return on Shareholders' Equity (%)				5.98%		(1.14)%		7.12%
Consolidated Equity Tier 1 Capital Ratio (%)				12.12%		(0.5)% (Note 2)		12.62%

(Notes)

1) The amounts of the net business profit before credit costs, the substantial gross business profit, and general and administrative expenses are counted in accordance with the internal administration of the Company, taking into account the profits and losses of affiliated companies accounted for by the equity method.

2) The consolidated equity Tier 1 capital ratio (calculated based on the finalization of the Basel III reforms) as of March 31, 2021 is 9.4%.

Consolidated BIS Capital Adequacy Ratio

Consolidated Equity Tier 1 capital ratio was 12.12%, Consolidated Tier 1 capital ratio was 13.51%, and Consolidated Total capital ratio was 15.76% as of March 31, 2021, exceeding the minimum regulatory requirements of 7.50%, 9.00%, and 11.00%, respectively.

The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan. The translation has been made at the rate of ¥110.65 to U.S. \$1, the approximate rate of exchange as of March 31, 2021.

Operating Results (Consolidated)

Years Ended March 31	Millions of Yen			Millions of U.S. Dollars
	2021	2020	Changes	2021

Net Business Profit Before Credit Costs	294,707	289,011	5,696	2,663

(Notes)

1) Gross Operating Profit = Trust Fees + (Interest Income – Interest Expenses) + (Fees and Commissions – Fees and Commissions Payments) + (Trading Income – Trading Expenses) + (Other Ordinary Income – Other Ordinary Expenses)

2) Net Business Profit Before Credit Costs is Substantial Gross Business Profit, less General Administrative Expenses. (The amounts of Substantial Gross Business Profit and General Administrative Expenses are calculated for internal control purposes, taking into account of share of profit and

losses of affiliated companies accounted for by the equity method.) Note that the differences between the amounts of Substantial Gross Business Profit and Gross Profit, and Total General Administrative Expenses and General Administrative Expenses are primarily the amount of Ordinary Profits (adjusted for non-recurring effects) from Affiliated Companies Accounted for by the Equity Method multiplied by the Ratio of Equity Holdings.

3) Amounts in parentheses represent losses or expenses, and profit decreases from the previous fiscal year.

(Notes)

1) The amounts of the net business profit before credit costs, the substantial gross business profit, and general and administrative expenses are counted in accordance with the internal administration of the company, taking into account the profits and losses of affiliated companies accounted for by the equity method.

2) The amount of the substantial interest income is the sum of "Interest Income" and profits earned from market deployment of surplus foreign currency fund included in "Profits (Losses) on Sales of Foreign Exchanges."

3) The total number of shares outstanding is the average number of common stock (excluding treasury stock) outstanding.

Major Profit and Losses (Consolidated)

Years Ended March 31	Millions of Yen			Millions of U.S. Dollars
	2021	2020	Changes	2021
Interest Income	¥ 260,248	¥ 158,661	¥ 101,586	\$ 2,352
Other Profits	87,857	178,127	(90,270)	794
Profits Earned from Market Deployment of Surplus Foreign Currency Fund	29,183	112,731	(83,548)	264
Profits other than Profits Earned from Market Deployment of Surplus Foreign Currency Fund	58,673	65,395	(6,721)	530

Interest income increased by ¥101.5 billion (U.S. \$918 million) from the previous fiscal year to ¥260.2 billion (U.S. \$2,352 million), due to improvements in domestic earnings related to deposits and loans and one-off factors such as profit from limited partnerships. The substantial interest income, which includes profits earned from market deployment of surplus foreign currency fund increased by ¥18.0 billion (U.S. \$163 million) from the previous fiscal year to ¥289.4 billion (U.S. \$2,615 million).

While “Fees and Commissions Related Income” in investment management consulting business and real estate brokerage business remained sluggish due to the limitation of operating activities, it increased by ¥14.6 billion (U.S. \$132 million) from the previous fiscal year to ¥391.1 billion (U.S. \$3,535 million) as a result of recovery in the second half of the fiscal year.

On the other hand, “General and Administrative Expenses” decreased by ¥9.0 billion (U.S. \$81 million) from the previous fiscal year to ¥444.5 billion (U.S. \$4,017 million) due to reduction from implementation of online operating activities and a decrease in expenses linked to gross profit in group companies.

As a result, “Net Business Profit Before Credit Costs,” which represents the actual profit level calculated by making necessary adjustments to the above results, increased by ¥5.6 billion (U.S. \$51 million) from the previous fiscal year to ¥294.7 billion (U.S. \$2,663 million).

Credit Costs (Consolidated)

“Total Credit Costs” decreased by ¥36.0 billion (U.S. \$326 million) from the previous fiscal year to ¥7.8 billion (U.S. \$71 million), mainly because of a decrease in net provision for general allowance for loan losses due to the reversal of special allowance amounting to approximately ¥12.0 billion (U.S. \$108 million) prepared for economic slowdown associated with the spread of the novel coronavirus disease during the fiscal year ended March 31, 2020.

Net Gains (Losses) on Stocks and Other Securities (Consolidated)

“Net Gains (Losses) on Stock and Other Securities” decreased by ¥83.6 billion (U.S. \$756 million) from the previous fiscal year to ¥43.5 billion (U.S. \$393 million) of losses. This was because of the recognition of losses on sale of bear funds of approximately ¥135.0 billion (U.S. \$1,220 million) and gains on sale of strategic shareholdings of approximately ¥93.0 billion (U.S. \$840 million) as a result of partial recognition of valuation gains on strategic shareholdings and valuation losses on hedging transactions loss on valuation of hedge transactions due to increases in stock prices and the improvement in the prices of hedging positions.

Extraordinary Gain and Losses (Consolidated)

"Extraordinary Gains and Losses" increased by ¥33.7 billion (U.S. \$305 million) from the previous fiscal year to ¥16.8 billion (U.S. \$152 million) of gains, mainly because of the following:

- the recognition of approximately ¥37.7 billion (U.S. \$341 million) of profit resulted from charging the full amount of past service costs for retirement benefits to profit or loss due to changes in the system including the extension of the retirement age
- the recognition of approximately ¥20.0 billion (U.S. \$1,808 million) of impairment losses on software based on the earning forecasts for the "Retail Total Solution Services"

Financial Condition

Assets and Liabilities

As of March 31, 2021, consolidated "Total Assets" were ¥62,163.8 billion (U.S. \$562 billion), an increase of ¥5,663.3 billion (U.S. \$51 billion), and consolidated "Total Net Assets" were ¥2,722.5 billion (U.S. \$25 billion), an increase of ¥131.6 billion (U.S. \$1 billion), compared with those as of the end of the previous fiscal year, respectively.

In particular, "Cash and Due from Banks" increased by ¥5,347.5 billion (U.S. \$48 billion) to ¥18,488.7 billion (U.S. \$167 billion), "Loans and Bills Discounted" increased by ¥803.5 billion (U.S. \$7 billion) to ¥30,506.9 billion (U.S. \$276 billion), "Securities" increased by ¥545.8 billion (U.S. \$5 billion) to ¥6,983.4 billion (U.S. \$63 billion), and "Deposits"

increased by ¥2,778.7 billion (U.S. \$25 billion) to ¥33,467.6 billion (U.S. \$302 billion), compared with those as of the end of the previous fiscal year.

In the consolidated financial statements of the SuMi TRUST Group, Cash and Due from Banks, credits on Loans and Bills Discounted and Securities, and reception of Deposits are mainly in Japanese yen. However, the SuMi TRUST Group's policy is to balance the operations and financing in all currencies and to diversify and stabilize the funding base in foreign currencies through yen-based investment transactions by utilizing customer-related deposits and swap markets and issuance of bonds.

"Total Assets of Trust Accounts" were ¥239,846.5 billion (U.S. \$2,168 billion) as of March 31, 2021, an increase of ¥15,421.2 billion (U.S. \$139 billion), compared with the amount as of the end of the previous fiscal year.

Problem Assets under the Financial Reconstruction Act

As of March 31, 2021, the total balance of Bankrupt and Practically Bankrupt Loans, Doubtful Loans, and Substandard Loans of the Banking Account and the Principal Guaranteed Trust Accounts with a disclosure requirement under the Financial Reconstruction Act, increased by ¥26.6 billion (U.S. \$0.2 billion) from the end of the previous fiscal year to ¥113.4 billion (U.S. \$1.0 billion). The ratio of "Problem Assets under the Financial Reconstruction Act" to Total Balance increased by 0.1% to 0.4% since the previous fiscal year.

Notes to Consolidated Financial Statements

Basis of Presentation of Financial Statements

The accompanying consolidated financial statements (banking account) have been prepared from the accounts maintained by Sumitomo Mitsui Trust Holdings, Inc. ("SuMi TRUST Holdings") and its consolidated subsidiaries (together, "SuMi TRUST Group") in accordance with the accounting principles generally accepted in Japan and certain accounting and disclosure rules under the Financial Instruments and Exchange Act of Japan and the Banking Act of Japan, which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

In preparing these consolidated financial statements, the consolidated financial statements of SuMi TRUST Holdings issued in Japan have been reclassified and rearranged in order to present them in a form that is more familiar to readers outside Japan.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which SuMi TRUST Holdings is incorporated and operates. The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan. The translation has been made at the rate of ¥110.65 to U.S. \$1, the approximate rate of exchange as of March 31, 2021. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million Japanese yen have been rounded down and amounts less than one million U.S. dollars have been rounded off. As a result, total balances may not be equal to the sum of individual amounts.

Significant Accounting Policies and Practices

1. Scope of Consolidation

(1) Consolidated Subsidiaries as of March 31, 2021:

63 companies

Principal Company:

Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank")

Changes in the consolidated subsidiaries during the current fiscal year are as follows:

SuMi TRUST Consulting (Beijing) Co., Ltd is newly established and included in the scope of the consolidation from the fiscal year ended March 31, 2021.

(2) Unconsolidated Subsidiaries

Principal Companies:

Hummingbird Co., Ltd.

ASIA GATEWAY I, L.P.

Hummingbird Co., Ltd. and 10 other companies are excluded from the scope of consolidation in accordance with Article 5, Paragraph 1, Item 2 of the Consolidated Financial Statements Regulations because they are operators engaged in leasing activities through silent partnership arrangements and their assets and profits/losses do not belong to the subsidiaries.

ASIA GATEWAY I, L.P. and other unconsolidated subsidiaries are excluded from the scope of consolidation because they are immaterial to the extent that excluding such companies from consolidation would not prevent a reasonable assessment of the corporate group's financial position and financial results. Such materiality is determined based on the size of their assets, ordinary income, net income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries), retained earnings (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries), accumulated other comprehensive income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries), and other financial data.

2. Application of the Equity Method

(1) Unconsolidated Subsidiaries Accounted for by the Equity Method:

None

(2) Affiliated Companies Accounted for by the Equity Method:

33 companies

Principal Companies:

Custody Bank of Japan, Ltd.

SBI Sumishin Net Bank, Ltd.

Changes in the affiliated companies accounted for by the equity method during the current fiscal year are as follows:

Yuryo Loan Co., Ltd is newly included in the scope of application of the equity method due to the acquisition of its shares from the fiscal year ended March 31, 2021.

Since JTC Holdings, Ltd. and Trust & Custody Services Bank, Ltd. were dissolved as a result of the absorption-type merger with Japan Trustee Services Bank, Ltd. as the surviving company, both companies have been excluded from the scope of application of the equity method effective from the fiscal year ended March 31, 2021. Japan Trustee Services Bank, Ltd. has changed the corporate name to Custody Bank of Japan, Ltd.

(3) Unconsolidated Subsidiaries and Affiliated Companies that are Not Accounted for by the Equity Method:

Principal Companies:

Hummingbird Co., Ltd.

ASIA GATEWAY I, L.P.

Hummingbird Co., Ltd. and 10 other companies are excluded from the scope of the application of the equity method in accordance with Article 10, Paragraph 1, Item 2 of the Consolidated Financial Statements Regulations because they are operators engaged in leasing activities through silent partnership arrangements, and their assets and profits/losses do not belong to the subsidiaries.

ASIA GATEWAY I, L.P. and other unconsolidated subsidiaries and affiliated companies that are not accounted for by the equity method are excluded from the scope of application of the equity method because such exclusion would not materially affect the consolidated financial statements for the current fiscal year. Such materiality is determined based on the size of their net income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries and affiliated companies), retained earnings (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries and affiliated companies), accumulated other comprehensive income (amount corresponding to SuMi TRUST Holdings' interest in subsidiaries and affiliated companies), and other financial data.

3. Balance Sheet Dates of the Consolidated Subsidiaries

(1) Balance sheet dates of consolidated subsidiaries are as follows:

April 30:	2 companies
May 31:	1 company
August 31:	1 company
September 30:	5 companies
November 30:	1 company
December 31:	7 companies
March 31:	46 companies

(2) Subsidiaries are consolidated using the financial statements as of the following dates:

- Consolidated subsidiaries with a balance sheet date of April 30: Provisionally prepared financial statements as of January 31
- A consolidated subsidiary with a balance sheet date of May 31: Provisionally prepared financial statements as of February 28
- A consolidated subsidiary with a balance sheet date of August 31: Provisionally prepared financial statements as of February 28

- Consolidated subsidiaries with a balance sheet date of September 30: Provisionally prepared financial statements as of March 31
- A consolidated subsidiary with a balance sheet date of November 30: Provisionally prepared financial statements as of February 28
- The other consolidated subsidiaries: Financial statements as of their respective balance sheet dates.

Material transactions arising between the consolidated balance sheet date, March 31, 2021, and the above balance sheet dates of consolidated subsidiaries have been reflected in the consolidated financial statements.

4. Significant Accounting Policies

(1) Trading Assets/Liabilities and Income/Expenses

Trading account activities are conducted to seek profits by taking advantage of short-term fluctuations in interest rates, currency rates, financial markets or other indicators, or inter-market differences (for trading purposes). The fluctuations in such items are presented as "Trading Assets" or "Trading Liabilities" in the consolidated balance sheet on a trade-date basis, and gains and losses from such transactions are presented as "Trading Income" or "Trading Expenses" in the consolidated statement of income.

For the measurement of trading assets and trading liabilities, securities and monetary claims are stated at their fair values as of the consolidated balance sheet date, and trading-related financial derivatives, such as swaps, futures, and options, are stated at the amounts that would be settled if they were terminated on the consolidated balance sheet date.

Trading income and trading expenses include interest income or expenses, adjusting valuation differences of securities and monetary claims during the fiscal year and differences in resulting gains or losses from the settlement of financial derivatives assuming that the settlement was made in cash as of March 31, 2021 and 2020.

(2) Securities

(a) Under the accounting standards for financial instruments in Japan, SuMi TRUST Holdings is required to determine the purposes of holding each security and classify such security into (i) securities held for trading purposes ("Trading Securities"), (ii) debt securities intended to be held to maturity ("Held-to-Maturity Debt Securities"), (iii) equity securities issued by subsidiaries and affiliated companies, or (iv) all other securities that are not classified in any of the above categories ("Available-for-Sale Securities"). "Held-to-Maturity Debt Securities" are carried at amortized cost using the moving-average method (the straight-line method). Equity securities issued

by unconsolidated subsidiaries and affiliated companies not accounted for by the equity method are stated at moving-average cost. "Available-for-Sale Securities" are, in principle, valued at the market price at the balance sheet date (cost of securities sold is calculated using primarily the moving-average method). "Available-for-Sale Securities" for which their fair values are extremely difficult to be determined are carried at cost using the moving-average method.

Valuation differences on "Available-for-Sale Securities" are recorded as a separate component of net assets and reported in the consolidated balance sheet.

(b) Securities in money held in trust are classified and accounted for in the same manner as those described in 4. (1) and 4. (2) (a) above.

(3) Financial Derivatives

Financial derivatives, excluding those for trading purposes, are stated at fair value.

(4) Depreciation and Amortization Methods

(a) Tangible fixed assets other than lease assets

Tangible fixed assets are depreciated using primarily the straight-line method.

Useful lives of major asset categories:

Buildings:	3 to 60 years
Others:	2 to 20 years

(b) Intangible fixed assets other than lease assets

Intangible fixed assets are amortized using the straight-line method. Software for internal use is amortized over the useful life specified by SuMi TRUST Holdings or the consolidated subsidiaries, generally five years.

(c) Lease assets

The lease assets under "Tangible Fixed Assets" and "Intangible Fixed Assets" that are related to finance leases that do not transfer ownership of the lease assets to lessees are depreciated using the straight-line method over the lease term, assuming a residual value of zero.

(5) Allowance for Loan Losses

The major domestic consolidated subsidiaries record allowance for loan losses in accordance with internally established criteria for write-offs and allowance for loan losses.

For claims against borrowers that have initiated special liquidation proceedings or other bankruptcy proceedings ("bankrupt borrowers") and against borrowers that are in substantially similar adverse condition ("virtually bankrupt borrowers"), the allowance is provided based on the amount of claims, after the write-off stated below, net of the expected amount of recoveries from collateral and guarantees. For

claims against borrowers that have not yet initiated bankruptcy proceedings, but are very likely to become bankrupt in the future ("possibly bankrupt borrowers"), an allowance is provided for the amount deemed necessary based on the overall assessment of the borrowers' solvency, after deducting the amount expected to be collected through the disposal of collateral or execution of guarantees from the claims.

For claims against large borrowers with certain credit risks and credit amounts that are classified as possibly bankrupt borrowers, restructured loan borrowers, or close-observation borrowers, if future cash flows from collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the "estimated cash flow method").

For claims that are classified as other than those above, the allowance is provided based on the estimated loan losses over the next one to three years, which are calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past one to three years.

All claims are assessed at branches and credit supervision departments based on the criteria for self-assessment of asset quality. The Risk Management Department, which is independent from the operating sections, monitors the results of such assessments.

As for the other consolidated subsidiaries, the allowance for loan losses for general claims is provided based on the historical loan-loss ratios, and the allowance for loan losses for specific claims, such as possible uncollectible claims, is provided based on the estimate of unrecoverable amount for each claim.

For claims against bankrupt borrowers or virtually bankrupt borrowers with collateral or guarantees, claims against borrowers in legal or virtually bankrupt borrowers, net of amounts expected to be collected through the disposal of collateral or through the execution of guarantees, are directly deducted from the original amount of claims. The deducted amount was ¥24,592 million (U.S. \$222 million) and ¥22,391 million as of March 31, 2021 and 2020, respectively.

(6) Provision for Bonuses

A provision for bonuses is provided for the estimated employee bonuses attributable to the current fiscal year.

(7) Provision for Directors' Bonuses

A provision for directors' bonuses is provided for the estimated directors' bonuses attributable to the current fiscal year.

(8) Provision for Stocks Payment

A provision for stocks payment is provided at SuMi TRUST Holdings and some of the consolidated subsidiaries for the estimated stock-based payments to directors under a stock compensation system attributable to the current fiscal year.

(9) Provision for Reward Points Program

A provision for reward points program is provided for the use of points granted to holders of Diners Club Card and other credit cards in the amount deemed necessary based on the reasonable estimates of the points to be used in the future.

(10) Provision for Reimbursement of Deposits in Dormant Accounts

At SuMi TRUST Bank, a provision for reimbursement of deposits in dormant accounts is provided for the deposits that were derecognized as liabilities under certain conditions. Such provision is provided against the estimated future reimbursement to be requested by customers based on the past reimbursement record.

(11) Provision for Contingent Losses

A provision for contingent losses is provided for contingent losses associated with off-balance sheet transactions or trust transactions in the amount deemed necessary based on the estimated possible future losses.

(12) Accounting for Retirement Benefits

In determining the retirement benefit obligations, projected benefits to the periods up to the year ended March 31, 2021, are attributed based on the plan's benefit formula.

Past service cost and actuarial gains or losses are expensed using the following methods:

Past service cost: The full amount of past service cost is charged to profit or loss in the fiscal year they occur, in principle.

Actuarial gains or losses: Actuarial differences are expensed using the straight-line method, primarily over 10 years within the employees' average remaining service period, commencing from the next fiscal year of incurrence.

Some consolidated subsidiaries adopt the simplified method in calculating liabilities for retirement benefits and retirement benefit expenses for lump-sum retirement benefit plans, recording liabilities at amounts that would be required for voluntary termination at the year-end.

(13) Foreign Currency Translation

Assets and liabilities of SuMi TRUST Bank that are denominated in foreign currencies and overseas branch accounts are generally translated into yen at the exchange rates prevailing at the consolidated balance sheet date, except for shares of stocks in affiliated companies translated into yen at the exchange rates prevailing at the acquisition dates.

Assets and liabilities of other consolidated subsidiaries that are denominated in foreign currencies are translated into yen at the exchange rates prevailing at their respective balance sheet dates.

(14) Accounting for Leases

As for the consolidated subsidiaries in Japan, income and expenses arising from transactions of finance leases that do not transfer ownerships to lessees are recognized as sales and costs of sales when lease payments are collected.

(15) Hedge Accounting**(a) Interest-related risk hedge**

SuMi TRUST Bank manages interest rate risk arising from various assets and liabilities by using financial derivatives transactions. Such transactions are generally treated as deferred hedges as specified in "Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry" (Japanese Institute of Certified Public Accountants ("JICPA") Industry Committee Implementation Guidance No. 24 of October 8, 2020, "Guidance No. 24"). To evaluate the effectiveness of hedges designed to offset market fluctuations, hedged items, such as deposits, loans and bills discounted, and hedging instruments, such as interest rate swaps, are grouped by duration to maturity. The effectiveness of hedges designed to fix cash flow is evaluated by verifying the correlation between the interest rate volatility factors for the hedged items and the hedging instruments.

In accordance with "Temporary Treatment for Accounting and Auditing concerning Application of Accounting Standard for Financial Instruments in Banking Industry" (JICPA Industry Auditing Committee Report No. 15), SuMi TRUST Bank has adopted "Macro Hedge Accounting" to account for certain interest-related derivatives, which are utilized to manage interest rate risk arising from transactions, such as loans and bills discounted, and deposits. Deferred gains (losses) on hedges in the consolidated balance sheet as of the end of the current fiscal year that have resulted from existing "Macro Hedge Accounting" are amortized over the remaining period designated under "Macro Hedge Accounting" of each hedging transaction.

Deferred losses on hedges associated with “Macro Hedge Accounting” were ¥17 million (U.S. \$0.2 million) and ¥35 million as of March 31, 2021 and 2020, respectively, before tax effect.

(b) Currency-related risk hedge

SuMi TRUST Bank manages the foreign exchange risk arising from various assets and liabilities denominated in foreign currencies using financial derivatives transactions. Such transactions are generally treated as deferred hedges as specified in “Treatment for Accounting and Auditing of Application of Accounting Standard for Foreign Currency Transactions in Banking Industry” (JICPA Industry Committee Implementation Guidance No. 25 of October 8, 2020, “Guidance No. 25”). The effectiveness of hedging instruments, such as cross-currency swaps and foreign exchange swaps, as a means of mitigating the foreign exchange risk arising from monetary claims and debts denominated in foreign currencies, is evaluated by verifying that the foreign currency positions of such hedging instruments are in amounts equivalent to the corresponding monetary claims and debts denominated in foreign currencies, which are the hedged items.

Additionally, transactions intended to hedge the foreign exchange risk associated with foreign-denominated securities (other than bonds) are treated as portfolio hedges. Fair value hedge accounting has been adopted to account for such transactions on the conditions that specific foreign-denominated securities are designated in advance as hedged items and that foreign currency payables of spot and forward foreign exchange contracts exist in excess of the acquisition cost of such foreign-denominated securities on a foreign currency basis.

The foreign exchange risk associated with investment in the shares of stocks in foreign subsidiaries and affiliated companies is individually hedged using forward exchange contracts denominated in the same currency, and foreign currency translation adjustments arising from the hedging instruments are included in “Foreign Currency Translation Adjustments.”

(c) Internal hedge transactions and others

Among derivatives transactions of SuMi TRUST Bank that take place between consolidated subsidiaries or that are made internally between designated trading accounts and some other accounts, those interest rate swaps and cross-currency swaps designated as hedging instruments are carried out in accordance with standards for cover deals with external parties, which eliminate discretion and enable strict management on hedges pursuant to Guidance No. 24 and Guidance No. 25. Accordingly, income or expenses arising from such interest rate swaps and cross-currency swaps are recognized as profits or losses, or deferred, rather than eliminated.

Deferred hedge accounting has been adopted for certain assets and liabilities by individual transactions.

Other consolidated subsidiaries account for such transactions as deferred hedges or exceptional treatment for interest rate swaps.

(16) Amortization of Goodwill

Goodwill is amortized over a period within 20 years that is reasonably determined for each case. Goodwill deemed immaterial, however, is expensed as incurred.

(17) Scope of Cash and Cash Equivalents in the Consolidated Statement of Cash Flows

The balance of “Cash and Cash Equivalents” in the consolidated statement of cash flows is equivalent to the balance of “Cash and Due from Banks” presented in the consolidated balance sheet (cash and due from the Bank of Japan for SuMi TRUST Bank).

(18) National and Local Consumption Taxes

National and local consumption taxes (“consumption taxes”) payable by SuMi TRUST Holdings and its consolidated subsidiaries in Japan are accounted for by the tax-excluded method. However, any nondeductible consumption taxes associated with asset purchases are recorded as expenses in the current fiscal year.

(19) Adoption of Consolidated Tax Return System

SuMi TRUST Holdings adopts the consolidated tax return system.

(20) Adoption of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System

SuMi TRUST Bank and some of its consolidated subsidiaries in Japan did not adopt Paragraph 44 of “Implementation Guidance on Tax Effect Accounting” (Accounting Standards Board of Japan (ASBJ) Guidance No. 28, February 16, 2018) in accordance with Paragraph 3 of “Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System” (ASBJ Practical Issues Task Force (PITF) No.39, March 31, 2020) and account for deferred tax assets and deferred tax liabilities based on the tax regulations before the revision. Such treatment is adopted on items transitioned to group tax sharing system established under “The Law Revising a Portion of Income Tax Law” (Act No.8, 2020) and single taxation system items revised in conjunction with the transition to the group tax sharing system.

Significant Accounting Estimates

1. Estimates of Allowance for Loan Losses

(1) The Amount Recognized during the Fiscal Year Ended March 31, 2021:

¥129,223 million (U.S. \$1,168 million)

(2) Other Information that Assists Users of the Consolidated Financial Statements in Understanding the Nature of the Estimates

SuMi TRUST Bank assigns each borrower a “classification” in accordance with the borrower’s solvency based on their financial conditions, funding stability, profitability, and others whenever there is disclosure of financial results or an event with an impact on the borrower’s creditworthiness. SuMi TRUST Bank measures allowance for loan losses based on the “classification” assigned and transaction conditions of collateral and other factors. When deriving the “classification,” quantitative as well as qualitative factors are taken into consideration.

Definition of each classification is as follows:

Classification	Definitions
Normal borrowers	Borrowers with good earnings performances and no significant financial problems
Borrowers requiring caution	Close monitoring is required due to sluggish/unstable business, financial problems, or problems with meeting loan terms and conditions such as reduction of interest rate and suspended payments
Substandard borrowers	Obligors with loans that are more than three months past due or with restructured loans within the “Borrowers Requiring Caution” category
Possibly bankrupt borrowers	Experiencing business difficulties, making insufficient progress in restructuring and highly likely to go bankrupt
Virtually bankrupt borrowers	Though not yet legally or formally bankrupt, has serious business difficulties and rehabilitation is unlikely
Bankrupt borrowers	Legally or formally bankrupt

The standards for allowances for loan losses for each classification are as follows:

Classification	Standards for allowances for loan losses
Normal borrowers	The allowance for loan losses is provided based on the estimated loan loss ratio, which is calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past one year.

Borrowers requiring caution and Substandard borrowers	The allowance for loan losses is provided based on the estimated loan loss ratio, which is calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past three years. For some borrowers, if future cash flows from collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the “estimated cash flow method”).
Possibly bankrupt borrowers	The allowance is provided for the amount deemed necessary based on the overall assessment of the borrowers’ solvency, after deducting the amount expected to be collected through the disposal of collateral or execution of guarantees from the claims. For some borrowers, if future cash flows from collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the “estimated cash flow method”).
Virtually bankrupt borrowers and Bankrupt borrowers	The allowance is provided based on the amount of claims, net of the expected amount of recoveries from collateral and guarantees. For claims against borrowers who are legally bankrupt or virtually bankrupt with collateral or guarantees, the amounts expected to be collected through the disposal of collateral or through the execution of guarantees, are directly deducted from the original amount of claims.

For normal borrowers, borrowers requiring caution, and substandard borrowers, changes in the loan loss ratio have an impact on the allowance for loan losses. For possibly bankrupt borrowers, virtually bankrupt borrowers, and bankrupt borrowers, changes in the amount expected to be collected through the disposal of collateral or execution of guarantees have a significant impact on the allowance for loan losses.

(3) Responding to Uncertainties Caused by COVID-19 (Adjustments of Expected Credit Losses)

The impact of the spread of COVID-19 on borrowers is reflected in the decision of the classification of individual borrowers to the extent that reasonable estimates can be made. However, there is a high level of uncertainty in the estimates because the impact is complex and diverse.

Some consolidated subsidiaries estimate the impact on credit risks that have not yet been reflected in the financial information of the borrowers and make necessary adjustments to expected future credit losses, considering the impact of the spread of COVID-19 on the business and profit or loss of borrowers (corporate borrowers).

In the fiscal year ended March 31, 2020, some of the consolidated subsidiaries identified industries and products (collectively, the "industries") that may have been affected by downturn of business performance due to the spread of COVID-19, and recorded an additional allowance ("special allowance") of ¥24,635 million for loan losses for estimated credit losses in the future assuming that internal rating of certain credits of the industries would be downgraded to some extent.

In the fiscal year ended March 31, 2021, some of the consolidated subsidiaries changed the assumptions and now believe that the spread and the lull of COVID-19 will continue to alternate and it will take time to settle down (in the fiscal year ended March 31, 2020, they assumed that the effects of COVID-19 would settle down in a certain period of time.).

Considering the changes in the economic environment and internal ratings in the fiscal year ended March 31, 2021, some of the consolidated subsidiaries made assumptions about the extent of deterioration of the future credit risk for each industry, re-estimated credit losses expected in the future for some credits in the industry, and recognized a special allowance of ¥18,432 million (U.S. \$167 million), depending on the degree of impact on business performance caused by the spread of COVID-19 and the degree of prospects for recovery after the end of the pandemic.

There is a high level of uncertainty about the assumptions used to recognize a special allowance, and the consolidated financial statements can be significantly affected if there is a change in the impact on the business and profit or loss of borrowers due to the spread of COVID-19.

2. Estimates of Retirement Benefit Obligations

(1) The Amount Recognized during the Fiscal Year Ended March 31, 2021:

¥431,223 million (U.S. \$3,897 million)

The amounts of assets for retirement benefits and liabilities for retirement benefits recorded in the consolidated financial statements for the fiscal year ended March 31, 2021 were ¥231,165 million (U.S. \$2,089 million) and ¥13,752 million (U.S. \$124 million), respectively. The net amount of ¥217,412 million (U.S. \$1,965 million) was calculated by deducting plan assets of ¥648,636 million (U.S. \$5,862 million) from retirement benefit obligations of retirement benefit plans with and without plan assets of ¥417,978 million (U.S. \$3,777 million) and ¥13,245 million (U.S. \$120 million), respectively.

(2) Other Information that Assists Users of the Consolidated Financial Statements in Understanding the Nature of the Estimates

Retirement benefit obligations, plan assets, and retirement benefit expenses are calculated based on assumptions used in actuarial calculation. These assumptions include discount rate, expected long-term rate of return on plan assets, employee turnover rate, and mortality rate.

Major assumptions used in actuarial calculation are as follows:

Discount rate	Expected long-term rate of return on plan assets
Mainly 0.5%	4.6%

SuMi TRUST Bank, which accounts for 93.5% of asset retirement obligations of the SuMi TRUST Group, has set a discount rate based on the interest rates of high-quality domestic corporate bonds whose maturities are equal to the expected period up to the payment of salaries in the future.

The expected long-term rate of return on plan assets is determined by evaluating the historical results of operation and the expected interest rate in the future. The expected long-term rate of return on plan assets is the weighted average rate of expected long-term rates of return on plan assets by groups of investment assets such as stocks and bonds.

(3) Impact of Changes in Assumptions on the Consolidated Financial Statements

The assumptions described in (2) will have a significant impact on retirement benefit obligations and retirement benefit expenses. The impacts on the consolidated financial statements when each of the discount rate and the expected long-term rate of return on plan assets of SuMi TRUST Bank changes by 0.5% are as follows:

	Impact on retirement benefit expenses	Impact on retirement benefit obligations
Discount rate:		
0.5% decrease	¥2,600 million increase	¥33,491 million increase
0.5% increase	¥2,324 million decrease	¥29,676 million decrease
Expected long-term rate of return on plan assets:		
0.5% decrease	¥3,164 million increase	—
0.5% increase	¥3,164 million decrease	—

3. Impairment of Fixed Assets (Including Goodwill)

(1) The Amount Recognized during the Fiscal Year Ended March 31, 2021:

In the Retail Total Solution Services of SuMi TRUST Bank, the business environment has significantly changed due to the spread of COVID-19. Therefore, the SuMi TRUST Group has evaluated this change as a significant deterioration of business environment and considered the need to record impairment losses, judging from the indication that assets may be impaired.

As a result of the consideration, the carrying amount of operating assets in the Retail Total Solution Services of SuMi TRUST Bank before the impairment was ¥86,475 million (U.S. \$ 782 million) and exceeded the recoverable amount. Therefore, impairment losses of ¥19,364 million (U.S. \$ 175 million), which include impairment losses of tangible fixed assets of ¥1,655 million (U.S. \$ 15 million) and those of software of ¥17,708 million (U.S. \$ 160 million), were recognized.

(2) Other Information that Assists Users of the Consolidated Financial Statements in Understanding the Nature of the Estimates

The SuMi TRUST Group's reportable segments are defined as operating segments for which discrete financial information is available. The Board of Directors and the Executive Committee of SuMi TRUST Holdings periodically receive reporting on the operating results and other relevant information of the reportable segments to make decisions about the allocation of management resources and to assess performance. SuMi TRUST Bank, a major consolidated subsidiary, considers six operating segments as the smallest grouping units ("asset groups") to identify an indication of impairment, decide to recognize impairment losses, and measure those losses. Corporate assets are allocated to each operating

segment based on a reasonable allocation method, such as the number of personnel in each operating segment by leveraging the management accounting framework.

Identification of indication that assets may be impaired

An indication of impairment is identified if the asset group falls under any of the following conditions:

- profit (loss) or cash flows from operating activities has been continuously negative, or is expected to continue to be negative
- the business environment for the relevant asset group has been significantly deteriorated, or is expected to be deteriorated
- the fair value of the asset or asset group has significantly decreased
- there was a change in the use of the assets in the asset group, which caused a significant decrease in the recoverable amount

Decision on recognition of an impairment and measurement

For asset groups with an indication of impairment, the total amount of undiscounted future cash flows associated with the asset group is compared with the carrying amount of assets in the asset group, and an impairment loss is recognized if the carrying amount exceeds the total amount of undiscounted future cash flows. Branches which the SuMi TRUST Group decides to close are excluded from the asset groups described above, and the recoverable amounts are measured by the net selling prices of individual branches. The net selling prices are calculated by deducting expected costs of disposal from a real estate appraisal value.

An impairment loss is the difference between the value in use or the net selling price of an asset and its carrying amount.

Value in use is calculated by the present value of the undiscounted future cash flows with the discount rate based on capital costs, which is calculated on the basis of risk-free rates, stock betas, market risk premiums, and other factors.

Undiscounted future cash flows are measured in accordance with the business plan, considering markets and economic conditions in the future. They can change due to unforeseeable events and changes in assumptions used in the business plan in the future.

The future cash flows used to measure the value in use of the Retail Total Solution Services in SuMi Trust Bank, which recognized impairment losses in the fiscal year ended March 31, 2021, are estimated based on the business plan of the SuMi TRUST Group, and take into account major assumptions such as the expected amount of credit transactions and sales plans for insurance and investment trusts.

Changes in Accounting Policies

Change in Accounting Treatment of Past Service Cost

SuMi TRUST Bank, a consolidated subsidiary of SuMi TRUST Holdings, announced the amendment in relevant policies due to the partial revision of defined benefit corporate pension plans in January 2021 and put the amendment into practice on April 1, 2021. The revision was implemented as SuMi TRUST Bank extended the retirement age and revised their remuneration system to provide more extensive treatment for their employees depending on their roles in order to create a working environment that allows employees to work vigorously as the average life expectancy and healthy life expectancy increased. Accounting procedures under the revised pension plans are in accordance with "Accounting for Transfers between Retirement Benefit Plans" (Accounting Standards Board of Japan (ASBJ) Guidance No. 1, December 16, 2016) and "Practical Solution on Accounting for Transfers between Retirement Benefit Plans" (ASBJ Practical Issues Task Force (PITF) No. 2, February 7, 2007). The past service cost, which is a decrease in retirement benefit obligations of ¥37,734 million (U.S. \$341 million) was incurred as a result of the revision.

Although past service costs were previously recognized using the straight-line method, primarily over 10 years within the employees' average remaining service period at incurrence, past service costs are primarily charged fully to profit or loss in the fiscal year they occur from the fiscal year ended March 31, 2021. This is because past service costs incurred from amendments in pension plans will not affect the financial statements in the future, while accounting treatment under the previous accounting method will. In addition, the SuMi TRUST Group considers that charging the full amount of past service costs to profit or loss in the fiscal year they occur clarifies the relationship between income and expenses of the SuMi TRUST Group, including the increased personnel expenses as a result of the extension of the retirement age and the revision of the remuneration system, and more appropriately presents financial position and results of operations.

The change in the accounting method to account for past service costs is not applied retrospectively because the amount of unrecognized past service cost is insignificant as of March 31, 2020, and the unrecognized past service cost in addition to the past service cost incurred during the fiscal year ended March 31, 2021 is recognized as extraordinary income in the fiscal year ended March 31, 2021. As a result, compared to the case where the previous accounting method was applied, ordinary profit decreased by ¥859 million

(U.S. \$8 million) and income before income taxes increased by ¥36,721 million (U.S. \$332 million) in the fiscal year ended March 31, 2021.

New Accounting Standards and Interpretations Not Yet Adopted

The following standard and guidance were issued but not yet adopted.

1. Accounting Standard for Revenue Recognition

- Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020)
- Implementation Guidance on Accounting Standard for Revenue Recognition (ASBJ Guidance No. 30, March 26, 2021)

(1) Overview

The above standard and guidance provide comprehensive principles for revenue recognition. Under the standard and guidance, revenue is recognized by applying following 5 steps:

- Step 1: Identify contract(s) with customers.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligation in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

(2) Effective date

Effective from the beginning of the fiscal year ending March 31, 2022.

(3) Effects of the application of the standards

SuMi TRUST Holdings is currently in the process of determining the effects of these new standards on the consolidated financial statements.

2. Accounting Standard for Fair Value Measurement

- Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30, July 4, 2019)
- Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31, July 4, 2019)
- Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019)
- Implementation Guidance on Disclosures about Fair Value of Financial Instruments (ASBJ Guidance No. 19, March 31, 2020)

(1) Overview

“Accounting Standards for Fair Value Measurement” and “Implementation Guidance on Accounting Standard for Fair Value Measurement” (“the standard and guidance for fair value measurement”) are developed in order to enhance comparability with international accounting standards and, provide guidance for methods of fair value measurement. The standard and guidance for fair value measurement are adopted to fair value measurement of the following item:

- Financial instruments defined in “Accounting Standard for Financial Instruments”

In addition, “Implementation Guidance on Disclosures about Fair Value of Financial Instruments” has been revised and specified what to disclose in the notes, such as the breakdown by the levels of the fair value hierarchy of financial instruments.

(2) Effective date

Effective from the beginning of the fiscal year ending March 31, 2022.

(3) Effects of the application of the standards

SuMi TRUST Holdings is currently in the process of determining the effects of these new standards on the consolidated financial statements.

Changes in Presentation

Adoption of “Accounting Standard for Disclosure of Accounting Estimates”

“Accounting Standard for Disclosure of Accounting Estimates” (ASBJ Statement No. 31, March 31, 2020) has been adopted to the consolidated financial statements from the fiscal year ended March 31, 2021, and notes to significant accounting estimates are presented in the consolidated financial statements. However, the notes do not include information for the fiscal year ended March 31, 2020 in accordance with the transitional treatment provided in the conditional clause in Paragraph 11 in this accounting standard.

Additional Information

Share Delivery Trust for the Directors

1. Overview

A Performance-Based Stock Compensation System (the “System”) was introduced that utilizes a trust, and applies to SuMi Trust Holdings’ directors (excluding directors who are Audit Committee members and external directors) and executive officers (as defined in the Companies Act and as defined in SuMi Trust Holdings’ internal policies), and the directors (excluding directors who are Audit and Supervisory Committee members and external directors) and executive officers (as defined in the internal policies) of SuMi TRUST Bank and Sumitomo Mitsui Trust Asset Management Co., Ltd. (“SuMi TRUST AM”), which are core companies of the SuMi TRUST Group. The above mentioned directors and executive officers of SuMi TRUST Holdings, SuMi TRUST Bank, and SuMi TRUST AM are collectively referred to as the “Directors.”

Under the System, a portion of the remuneration of the Directors is linked to performance targets set out in SuMi TRUST Holdings’ current Midterm Management Plan. By paying part of the remuneration for Directors in shares, the linkage between the remuneration of the Directors and the performance of the SuMi TRUST Group becomes clearer, and the Directors share the same benefits and risks of share price fluctuations with the shareholders. Through these initiatives, the System is designed to heighten the Director’s attention to enhancement of medium- and long-term business performance and the corporate value of the SuMi TRUST Group.

SuMi TRUST Holdings contributes money to a trust set up under the System, and the trust acquires shares of SuMi TRUST Holdings. The Directors are awarded points based on the Shares Delivery Rules established individually by SuMi TRUST Holdings, SuMi TRUST Bank, and SuMi TRUST AM, and the number of shares of SuMi TRUST Holdings corresponding to the points granted are issued to the Directors through the trust.

2. Remaining Number of Shares of SuMi TRUST Holdings Held by the Trust

The carrying amount and the number of shares of SuMi TRUST Holdings held by the Trust as of March 31, 2021 and 2020, were ¥1,446 million (U.S. \$13 million) and 422 thousand shares, and ¥1,469 million and 429 thousand shares, respectively. The shares are recorded as treasury stock in the net assets section of the consolidated balance sheet as of March 31, 2021.

Notes to the Consolidated Balance Sheet

1. Trading Assets and Trading Liabilities

(1) Trading assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Securities in Trading Account	¥ 39,520	¥ 6,096	\$ 357
Derivatives of Trading Securities	—	13	—
Derivatives of Securities Related to Trading Transactions	29	498	0
Trading-Related Financial Derivatives	389,215	450,031	3,518
Other Trading Assets	5,000	51,006	45
Total	¥ 433,766	¥ 507,646	\$ 3,920

(2) Trading liabilities as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Derivatives of Trading Securities	¥ 8	¥ —	\$ 0
Derivatives of Securities Related to Trading Transactions	983	—	9
Trading-Related Financial Derivatives	320,585	371,950	2,897
Total	¥ 321,576	¥ 371,950	\$ 2,906

2. Securities

Securities held as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Government Bonds	¥ 1,760,490	¥ 1,480,969	\$ 15,910
Local Government Bonds	23,686	14,785	214
Corporate Bonds	699,775	671,856	6,324
Stocks	1,655,699	1,333,637	14,963
Other Securities	2,843,830	2,936,350	25,701
Total	¥ 6,983,483	¥ 6,437,599	\$ 63,113

“Securities” include stocks and equity investments in unconsolidated subsidiaries and affiliated companies as follows.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Stocks	¥ 163,676	¥ 153,657	\$ 1,479
Equity Investments	27,031	33,528	244

Securities borrowed under unsecured loan agreements and securities purchased under resale agreements or borrowed with cash collateral that SuMi TRUST Holdings has a right to freely sell or repledge, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Securities that are Further Collateralized	¥ 154,547	¥ 1,197,832	\$ 1,397
Securities that are Further Loaned	1,034,192	1,139,619	9,347
Securities Held without Selling or Repledging as of the End of the Fiscal Year	5,221	—	47

The bonds presented under “Securities” included guarantee obligations on corporate bonds that were placed through private securities offerings (Article 2, Paragraph 3 of the Financial Instruments and Exchange Act) amounting to ¥76,840 million (U.S. \$694 million) and ¥91,755 million as of March 31, 2021 and 2020, respectively.

3. Loans and Bills Discounted

Loans and bills discounted as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Bills Discounted	¥ 763	¥ 1,123	\$ 7
Loans on Bills	146,219	217,701	1,321
Loans on Deeds	28,752,736	27,801,810	259,853
Overdrafts	1,607,249	1,682,740	14,526
Total	¥ 30,506,968	¥ 29,703,375	\$ 275,707

Bills discounted are treated as financial transactions in accordance with Guidance No. 24. SuMi TRUST Holdings has a right to freely sell or (re-)pledge such commercial bills.

Loans and bills discounted as of March 31, 2021 and 2020, included the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Loans in Bankruptcy Proceedings	¥ 2,253	¥ 4,998	\$ 20
Delinquent Loans	74,255	53,112	671
Loans Past Due Three Months or More	3,042	3,341	27
Restructured Loans	49,176	38,964	444
Total	¥ 128,729	¥ 100,416	\$ 1,163

Loans in bankruptcy proceedings are loans whose interest receivable is not recorded due to delinquency in principal or interest payments for a significant period or other reasons excluding loans that have been written off (“nonaccrual loans”), and that meet the conditions as prescribed in Paragraph 1, Items 3 and 4 of Article 96 of “Enforcement Ordinance for the Corporation Tax Act” (Cabinet Order No. 97 of 1965).

Delinquent loans are nonaccrual loans other than (i) loans

in bankruptcy proceedings and (ii) loans for which the terms of interest payments have been extended in connection with the borrower’s business restructuring or to otherwise provide support.

Loans past due three months or more are those loans for which principal or interest payments are more than three months past due (calculated from the day following the contractual payment date), excluding loans classified as loans in bankruptcy proceedings or delinquent loans.

Restructured loans are those loans whose terms have been modified by reducing or waiving interest, granting interest payment extensions, granting principal repayment extensions, forgiving debt, or otherwise providing some arrangements favorable to the borrower in connection with

the borrower's business restructuring or to otherwise provide support, excluding those loans classified as loans in bankruptcy proceedings, delinquent loans, or loans past due three months or more.

4. Assets Pledged

Assets pledged as collateral as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Assets Pledged as Collateral:			
Trading Assets	¥ 29,978	¥ 3,000	\$ 271
Securities	2,325,240	2,039,182	21,014
Loans and Bills Discounted	5,012,590	5,333,699	45,301
Lease Receivables and Investment Assets	50,491	57,605	456
Other Assets	109,610	99,232	991
Total	¥ 7,527,910	¥ 7,532,720	\$ 68,034
Corresponding Liabilities to Assets Pledged as Collateral:			
Deposits	¥ 19,273	¥ 22,045	\$ 174
Call Money and Bills Sold	—	54,345	—
Payables under Repurchase Agreements	709,711	582,927	6,414
Borrowed Money	4,398,213	3,723,322	39,749

In addition to the foregoing, the following assets have been pledged as collateral for settlement of exchange and others, or as a substitution of margin of futures and others.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Securities	¥ 399,318	¥ 329,749	\$ 3,609

"Other Assets" include initial margins of futures, security deposits, cash collateral pledged for financial instruments, and cash collateral pledged for repurchase agreement transactions. Such amounts are as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Initial Margins of Futures Markets	¥ 54,685	¥ 8,204	\$ 494
Security Deposits	25,978	23,654	235
Cash Collateral Pledged for Financial Instruments-Assets	785,742	801,997	7,101
Cash Collateral Pledged for Repurchase Agreement Transactions	3,198	8,759	29

5. Overdraft Facility Agreements and Commitment Lines of Credit

Overdraft facility agreements and commitment lines of credit are agreements to extend a certain amount of credit at the customer's request as long as the terms of the agreement have not been violated. The amounts of unused credit under such agreements were ¥14,037,261 million (U.S. \$126,862 million) and ¥12,416,801 million, of which ¥8,771,924 million (U.S. \$79,276 million) and ¥8,133,494 million were attributable to agreements expiring within one year or which may be unconditionally canceled at any time, as of March 31, 2021 and 2020, respectively.

The balance of unused credit will not necessarily affect the future cash flows of the consolidated subsidiaries because

most of these agreements expire without credit being extended. Most of these agreements contain clauses allowing the consolidated subsidiaries to reject requests for credit outright or reduce the credit limits due to changed financial circumstances, the need to preserve claims, or other reasonable causes. Besides requesting collateral, such as real estate or securities, as necessary at the time of entering into the agreement, SuMi TRUST Holdings has also adopted other measures to keep its credit sound, such as periodically assessing the condition of customers' businesses following the internal procedures and revising agreements, as necessary.

6. Tangible Fixed Assets

Tangible fixed assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Land	¥ 130,586	¥ 114,713	\$ 1,180
Buildings	73,966	73,926	668
Lease Assets	5,061	5,178	46
Construction in Progress	108	370	1
Other	18,458	19,358	167
Total	¥ 228,180	¥ 213,547	\$ 2,062

Accumulated depreciation amounted to ¥181,392 million (U.S. \$1,639 million) and ¥167,302 million, and advance depreciation amounted to ¥25,882 million (U.S. \$234 million) and ¥26,175 million as of March 31, 2021 and 2020, respectively.

In accordance with the Act on Revaluation of Land (Act No. 34, promulgated on March 31, 1998), land for commercial use of SuMi TRUST Bank was revalued, and the amount equivalent to the taxes on the resulting valuation difference was recorded as a "Deferred Tax Liabilities for Land Revaluation" in liabilities, and the amount net of such difference was recorded as a "Revaluation Reserve for Land" in net assets.

Revaluation date: March 31, 1999

Revaluation method prescribed by Paragraph 3 of Article 3 of the Act:

The revaluation was calculated by reasonably adjusting the value of land based on the posted prices for benchmark properties as prescribed by Item 1 of Article 2 of the "Order for Enforcement of the Act on Revaluation of Land" (Cabinet Order No. 119, promulgated on March 31, 1998) and the land assessments under Item 4 of Article 2 of the same Order.

The difference between the fair value and the revalued carrying amount of the land for commercial use subject to Article 10 of the Act as of March 31, 2021 is not presented because the fair value of the land exceeded its carrying amount. The difference between the fair value and the revalued carrying amount of the land was ¥710 million as of March 31, 2020.

7. Intangible Fixed Assets

Intangible fixed assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Software	¥ 69,946	¥ 79,211	\$ 632
Goodwill	37,292	45,087	337
Lease Assets	—	0	—
Other	5,065	5,156	46
Total	¥ 112,303	¥ 129,455	\$ 1,015

8. Other Assets

Other assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Domestic Exchange Settlement Account, Debit	¥ 1,177	¥ 1,057	\$ 11
Prepaid Expenses	7,367	7,640	67
Accrued Income	146,459	147,844	1,324
Initial Margins of Futures Markets	54,685	8,204	494
Variation Margins of Futures Markets	2,568	1,994	23
Financial Derivatives Other Than Trading Assets	621,262	429,705	5,615
Receivables for Securities Transactions	143,708	192,369	1,299
Cash Collateral Pledged for Financial Instruments-Assets	785,742	801,997	7,101
Other	497,426	533,230	4,495
Total	¥ 2,260,399	¥ 2,124,043	\$ 20,428

9. Deposits

Deposits as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Current Deposits, Ordinary Deposits, Saving Deposits and Deposits at Notice	¥ 9,437,974	¥ 8,527,615	\$ 85,296
Time Deposits	23,064,332	20,767,636	208,444
Other	965,371	1,393,668	8,725
Total	¥ 33,467,678	¥ 30,688,920	\$ 302,464

10. Borrowed Money

Borrowed money as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Subordinated Borrowings	¥ 60,000	¥ 60,000	\$ 542
Other Borrowed Money	5,722,602	5,796,384	51,718
Total	¥ 5,782,602	¥ 5,856,384	\$ 52,260

Weighted average interest rates on borrowed money were 0.11% and 0.24% for the fiscal years ended March 31, 2021 and 2020, respectively.

Annual maturities of borrowed money as of March 31, 2021, for the next five years are as follows:

Fiscal Years Ending March 31	Millions of Yen	Millions of U.S. Dollars
	2021	2021
2022	¥ 1,669,700	\$ 15,090
2023	200,281	1,810
2024	813,327	7,350
2025	2,357,735	21,308
2026	97,506	881
Total	¥ 5,138,551	\$ 46,440

11. Bonds Payable

Bonds payable as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Perpetual Subordinated Bonds	¥ 286,100	¥ 340,000	\$ 2,586
Subordinated Bonds	494,495	590,958	4,469
Other Bonds Payable	765,010	194,773	6,914
Total	¥ 1,545,605	¥ 1,125,731	\$ 13,968

Annual maturities of bonds payable as of March 31, 2021, for the next five years are as follows:

Fiscal Years Ending March 31	Millions of Yen	Millions of U.S. Dollars
	2021	2021
2022	¥ 2,595,546	\$ 23,457
2023	60,000	542
2024	419,612	3,792
2025	46,500	420
2026	250,650	2,265
Total	¥ 3,372,308	\$ 30,477

12. Borrowed Money from Trust Account

Borrowed money from trust account represents surplus funds in the trust accounts loaned to the banking account and utilized.

13. Other Liabilities

Other liabilities as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Domestic Exchange Settlement Account, Credit	¥ 963	¥ 1,123	\$ 9
Income Taxes Payable	17,367	20,131	157
Accrued Expenses	61,185	88,342	553
Unearned Income	84,647	80,246	765
Variation Margins of Futures Markets	2,111	977	19
Financial Derivatives Other Than Trading Liabilities	665,336	539,042	6,013
Lease Obligations	12,265	9,854	111

Cash Collateral Accepted for Financial Instruments-Liabilities	155,739	134,626	1,407
Other	211,653	234,031	1,913
Total	¥ 1,359,860	¥ 1,215,433	\$ 12,290

Notes to the Consolidated Statement of Income

1. Other Interest Income and Expenses

(1) Other interest income for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Interest on Monetary Claims Bought	¥ 2,778	¥ 5,217	\$ 25
Others	2,216	4,422	20
Total	¥ 4,994	¥ 9,640	\$ 45

(2) Other interest expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Interest on Interest Rate Swaps	¥ 27,641	¥ 42,586	\$ 250
Others	20,928	18,577	189
Total	¥ 48,570	¥ 61,163	\$ 439

2. Trading Income and Expenses

(1) Trading income for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Net Income from Trading Securities and Derivatives	¥ —	¥ 787	\$ —
Net Income from Trading Transactions	—	1,034	—
Net Income from Trading-Related Financial Derivatives Transactions	—	100,309	—
Other Trading Income	76	57	1
Total	¥ 76	¥ 102,189	\$ 1

(2) Trading expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Net Expenses on Trading Securities and Derivatives	¥ 391	¥ —	\$ 4
Net Expenses on Trading Transactions	2,097	—	19
Net Expenses on Trading-Related Financial Derivatives Transactions	30,812	—	278
Total	¥ 33,300	¥ —	\$ 301

3. Other Ordinary Income and Expenses

(1) Other ordinary income for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Net Gains on Foreign Exchange Transactions	¥ 79,280	¥ 50,064	\$ 716
Gains on Sales and Redemption of Bonds	16,135	46,682	146
Net Income from Derivatives Other Than for Trading or Hedging	17,819	—	161
Others	289,158	253,031	2,613
Total	¥ 402,394	¥ 349,778	\$ 3,637

(2) Other ordinary expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Losses on Sales and Redemption of Bonds	¥ 22,917	¥ 11,338	\$ 207
Others	267,432	269,150	2,417
Total	¥ 290,350	¥ 280,488	\$ 2,624

4. Other Income and Expenses

(1) Other income for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Gains on Sales of Stocks and Other Securities	¥ 99,814	¥ 65,336	\$ 902
Gains on Money Held in Trust	3,071	45	28
Recoveries of Written-Off Claims	809	1,149	7
Equity in Earnings of Affiliated Companies	11,677	9,929	106
Gains on Disposal of Fixed Assets	151	3,154	1
Others (Note)	42,662	16,066	386
Total	¥ 158,185	¥ 95,680	\$1,430

(Note) "Others" include extraordinary income of ¥37,580 million (U.S. \$340 million) which was recognized as SuMi TRUST Bank charged the full amount of past service costs for retirement benefits to profit or loss in the fiscal year they occur as described in "Changes in Accounting Policies."

(2) Other expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Provision for Allowance for Loan Losses	¥ 3,277	¥ 39,972	\$ 30
Losses on Sales of Loans	—	972	—
Write-Off of Loans	4,272	3,475	39

Losses on Disposal of Fixed Assets	710	731	6
Losses on Impairment of Fixed Assets (Note)	20,173	19,360	182
Losses on Investment in Partnerships	3,853	2,397	35
Others	31,956	19,180	289
Total	¥ 207,586	¥ 112,333	\$ 1,876

(Note) The SuMi TRUST Group has revised the cost restructuring reform and the strategies at branches considering the new normal as a result of the change in business environment due to the spread of COVID-19. In addition, the SuMi TRUST Group has continuously implemented initiatives to enhance management accounting. The application method of asset impairment accounting for fixed assets has been revised to apply these initiatives. In particular, SuMi TRUST Bank, a major consolidated subsidiary, switched the asset group under the asset impairment accounting from a branch or other asset groups to six operating segments. In addition, SuMi TRUST Bank now allocates corporate assets to each operating segment based on a reasonable method such as the number of personnel in each segment.

As a result of these revisions, impairment losses were recognized as the investment of operating assets for the Retail

Total Solution Services were deemed unrecoverable.

The impairment losses recognized due to the revision of the application method of asset impairment accounting described above were ¥19,364 million (U.S. \$175 million), which include impairment losses of tangible fixed assets of ¥1,655 million (U.S. \$15 million) and those of software of ¥17,708 million (U.S. \$160 million). The entire impairment losses including those due to the revision were ¥20,173 million (U.S. \$182 million), which include impairment losses of tangible fixed assets of ¥1,893 million (U.S. \$17 million) and those of software of ¥18,280 million (U.S. \$165 million).

The recoverable amounts of the asset groups described above are measured by value in use, which is calculated by discounting future cash flows based on business plans and others by the discount rate of 6.9%.

5. General and Administrative Expenses

General and administrative expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Taxes other than Income Taxes	¥ 16,888	¥ 17,796	\$ 153
Personnel Expenses	201,807	192,824	1,824
Others	212,727	222,834	1,923
Total	¥ 431,422	¥ 433,455	\$ 3,899

Note to the Consolidated Statement of Comprehensive Income

Reclassification Adjustments and the Related Tax Effects Concerning Other Comprehensive Income

Notes to the Consolidated Statement of Changes in Net Assets

1. Class and the Number of Issued Shares of Common Stock and Treasury Stock

Classes and the number of issued shares of common stock and treasury stock for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Thousands of Shares				
	Authorized	Number of Shares Outstanding at the Beginning of the Fiscal Year	Increase	Decrease	Number of Shares Outstanding at the End of the Fiscal Year
March 31, 2021					
Number of Issued Shares:					
Common Share	850,000	375,291	—	—	375,291
Treasury Stock:					
Common Share		755	6	15	745

(Notes)

1) The number of shares of common stock held as treasury stock increased by 6 thousand shares due to the purchase of odd-lot or less than one thousand shares.

2) The number of shares of common stock held as treasury stock decreased by 15 thousand shares and its breakdown is as follows.

- Decreased by 0 thousand shares due to purchase requests from odd-lot or less than one thousand shareholders.
- Decreased by 8 thousand shares due to transfer of shares upon exercise of stock option rights.

- Decreased by 6 thousand shares due to the sales under the share delivery trust for the Directors system.

3) The number of shares of common stock held as treasury stock at the end of the fiscal year include 422 thousand shares of SuMi TRUST Holdings held by share delivery trust for the Directors. The decrease in the number of shares of common stock with regard to share delivery trust for the Directors is 6 thousand shares as of March 31, 2021.

	Thousands of Shares				
	Authorized	Number of Shares Outstanding at the Beginning of the Fiscal Year	Increase	Decrease	Number of Shares Outstanding at the End of the Fiscal Year
March 31, 2020					
Number of Issued Shares:					
Common Share	850,000	390,348	—	15,057	375,291
Treasury Stock:					
Common Share		11,751	4,492	15,488	755

(Notes)

1) The number of shares of common stock decreased by 15,057 thousand shares due to cancellation.

2) The number of shares of common stock held as treasury stock increased by 4,492 thousand shares and its breakdown is as follows.

- Increased by 6 thousand shares due to the purchase of odd-lot or less than one thousand shares.
- Increased by 4,057 thousand shares due to the acquisition of treasury stock which was resolved at the meeting of the board of directors held on May 15, 2019.
- Increased by 429 thousand shares due to the acquisition under share delivery trust for the Directors system.

3) The number of shares of common stock held as treasury stock decreased by 15,488 thousand shares and its

breakdown is as follows.

- Decreased by 0 thousand shares due to purchase requests from odd-lot or less than one thousand shareholders.
- Decreased by 2 thousand shares due to transfer of shares upon exercise of stock option rights.
- Decreased by 429 thousand shares due to the sales under the share delivery trust for the Directors system.
- Decrease by 15,057 thousand shares due to cancellation.

4) The number of shares of common stock held as treasury stock at the end of the fiscal year include 429 thousand shares of SuMi TRUST Holdings held by share delivery trust for the Directors. The increase in the number of shares of common stock with regard to share delivery trust for the Directors is 429 thousand shares as of March 31, 2020.

2. Subscription Rights to Shares

Subscription rights to shares for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

		Millions of Yen		Millions of U.S. Dollars
		2021	2020	2021
SuMi TRUST Holdings	Subscription Rights to Shares as Stock Options	¥ 1,024	¥ 1,057	\$ 9

3. Dividends

Dividends paid for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

As for the fiscal year ended March 31, 2021:

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen (Millions of U.S. Dollars)		Yen (U.S. Dollars)		
June 26, 2020						
Ordinary General Meeting of Shareholders	Common Share	¥ 28,122 (\$254)	Retained Earnings	¥ 75.00 (\$0.68)	March 31, 2020	June 29, 2020

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen (Millions of U.S. Dollars)		Yen (U.S. Dollars)		
November 12, 2020						
Board of Directors' Meeting	Common Share	¥ 28,122 (\$254)	Retained Earnings	¥ 75.00 (\$0.68)	September 30, 2020	December 2, 2020

(Notes)

1) Cash dividends declared in Ordinary General Meeting of Shareholders held on June 26, 2020 include ¥32 million (U.S. \$0.3 million) of dividends for treasury stock held by the share delivery trust for the Directors.

2) Cash dividends declared at the Board of Directors' Meeting held on November 12, 2020 include ¥31 million (U.S. \$0.3 million) of dividends for treasury stock held by the share delivery trust for the Directors.

Dividends with a record date during the current fiscal year ended March 31, 2021, but whose effective date is after March 31, 2021, are as follows:

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen (Millions of U.S. Dollars)		Yen (U.S. Dollars)		
June 23, 2021						
Ordinary General Meeting of Shareholders	Common Share	¥ 28,122 (\$254)	Retained Earnings	¥ 75.00 (\$0.68)	March 31, 2021	June 24, 2021

(Note) Cash dividends declared in Ordinary General Meeting of Shareholders held on June 23, 2021 include ¥31 million (U.S. \$0.3 million) of dividends for treasury stock held by the share delivery trust for the Directors.

As for the fiscal year ended March 31, 2020:

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen		Yen		
June 27, 2019						
Ordinary General Meeting of Shareholders	Common Share	¥ 28,394	Retained Earnings	¥ 75.00	March 31, 2019	June 28, 2019

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen		Yen		
November 13, 2019						
Board of Directors' Meeting	Common Share	¥ 28,122	Retained Earnings	¥ 75.00	September 30, 2019	December 3, 2019

(Note) Cash dividends declared at the Board of Directors' Meeting held on November 13, 2019 include ¥32 million (U.S. \$0.3 million) of dividends for treasury stock held by the share delivery trust for the Directors.

Dividends with a record date during the fiscal year ended March 31, 2020, but whose effective date is after March 31, 2020, are as follows:

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen		Yen		
June 26, 2020						
Ordinary General Meeting of Shareholders	Common Share	¥ 28,122	Retained Earnings	¥ 75.00	March 31, 2020	June 29, 2020

(Note) Cash dividends declared in Ordinary General Meeting of Shareholders held on June 26, 2020 include ¥32 million (U.S. \$0.3 million) of dividends for treasury stock held by the share delivery trust for the Directors.

Notes to the Consolidated Statement of Cash Flows

Reconciliation of Cash and Cash Equivalents

The following table reconciles cash and cash equivalents in the consolidated statement of cash flows and cash and due from banks in the consolidated balance sheet as of March 31, 2021 and 2020.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Cash and Due from Banks	¥ 18,488,763	¥ 13,141,192	\$ 167,092
Due from Banks Held by SuMi TRUST Bank (Excluding Due from the Bank of Japan)	(1,689,616)	(2,181,167)	(15,270)
Cash and Cash Equivalents	¥ 16,799,146	¥ 10,960,024	\$ 151,822

Leases

1. Finance Leases

As a lessee:

Finance leases that do not transfer ownership of the lease assets to lessees

1) Description of lease assets

i) Tangible fixed assets

Mainly branch buildings and office equipment

ii) Intangible fixed assets

Software

2) Method for amortizing lease assets

Refer to "(4) Depreciation and Amortization Methods" of "4. Significant Accounting Policies" in the Significant Accounting Policies and Practices.

2. Operating Leases

As a lessee:

Total future lease payments under non-cancelable operating leases as of March 31, 2021 and 2020, were as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Due in One Year or Less	¥ 3,922	¥ 3,827	\$ 35
Due in More Than One Year	18,162	20,390	164
Total	¥ 22,084	¥ 24,218	\$ 200

As a lessor:

Total future lease payments under non-cancelable operating leases as of March 31, 2021 and 2020, were as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Due in One Year or Less	¥ 6,492	¥ 5,364	\$ 59
Due in More Than One Year	49,946	24,470	451
Total	¥ 56,439	¥ 29,835	\$ 510

Financial Instruments

1. Circumstances of Financial Instruments

(1) Policy on Financial Instruments

SuMi TRUST Group is engaged in a variety of financial service businesses, primarily trust banking business operated by SuMi TRUST Bank. To facilitate these businesses, SuMi TRUST Group raises funds through deposits from individual and corporate customers, borrowed money, and issuance of corporate bonds, and manages such funds as loans to individual and corporate customers, and securities on the investment side.

Each group company determines policies as well as measures for investing and funding financial assets and financial liabilities under its annual plan.

SuMi TRUST Holdings monitors risks associated with the group-wide financial assets and liabilities.

SuMi TRUST Bank monitors its respective risks while implementing comprehensive Asset-Liability Management (ALM). Meanwhile, SuMi TRUST Bank conducts derivatives transactions to control the market risk and other risks arising from its assets and liabilities within the level commensurate with its financial capacity. SuMi TRUST Bank is also engaged in trading securities and derivatives through trading accounts ("Trading Accounts") that are segregated from other accounts ("Banking Accounts") in accordance with Article 13-6-3 of the Ordinance for Enforcement of the Banking Act. Some consolidated subsidiaries are also engaged in trading securities.

(2) Description and Risks of Financial Instruments

1) Trading accounts

SuMi TRUST Group deals with over-the-counter (OTC) and listed derivatives transactions related to interest rates, exchange rates, bonds, credits, and commodities, as well as trading securities. These derivatives transactions are exposed to risks associated with fluctuation in interest rates, exchange rates, prices, credit risks, and other risks.

2) Banking accounts

Financial assets of SuMi TRUST Group are primarily loans to corporations and individuals in Japan and such assets are exposed to credit risks arising from default on contracts by customers.

Securities mainly consist of stocks and bonds that are held as strategic investments, and for business development. These securities are exposed to issuers' credit risks, and risks associated with fluctuation in interest rates and market prices.

Deposits from individuals and corporations, borrowed money, and bonds payable are exposed to liquidity risks as becoming insolvent at their maturities, such as being out of markets under certain circumstances.

SuMi TRUST Group deals with OTC and listed derivatives transactions related to interest rates, exchange rates, stocks, bonds, and credits for avoiding market risks.

To reduce interest rate risk, a major risk, SuMi TRUST Group comprehensively manages various financial assets and liabilities, such as loans and bills discounted and deposits, by categorizing them based on characteristics of their interest rate risks, and applies hedge accounting to hedge such risk using interest rate swaps designated as hedging instruments. The hedge accounting is applied to some assets and liabilities by individual transaction.

To mitigate the exchange rate risk arising from various financial assets and liabilities of SuMi TRUST Bank denominated in foreign currencies, hedge accounting is applied to the exchange rate risk of foreign currency assets and liabilities designated as hedged items, using currency swaps and foreign exchange swaps designated as hedging instruments.

The details of hedge accounting are described in "Significant Accounting Policies and Practices."

(3) Risk Management for Financial Instruments

SuMi TRUST Group considers that the basis of group-wide risk management is to ensure the effectiveness of PDCA (Plan, Do, Check, Action) cycles for each risk category according to the "Risk Management Policy" established by the board of directors.

The risk management framework of each risk category is as follows:

1) Credit risk management

Credit risk is the risk of financial loss of SuMi TRUST Group when a customer or counterparty fails to meet its contractual obligations, and such risk is generated from claims, mainly loans, bills discounted, and securities. Credit risk is the most basic financial risk related to a credit creating function. SuMi TRUST Group continuously diversifies its credit portfolios and builds up a stronger customer base by expanding its credit risk management framework further, and by meeting a new and sound demand for credit.

(a) Risk management policy on credit risk

The basic policy of SuMi TRUST Group on credit risk management calls for "a diversified credit portfolio" and "strict management for individual credits."

For the former, SuMi TRUST Group manages credit exposures of each customer based on its limited credit amount, and periodically reviews impacts of identified risks to large customers and concentration in industry sectors, including the measurement of the credit risk. SuMi TRUST Group makes efforts to mitigate credit concentration risk on a country-by-country basis by managing the diversification of the overall credit portfolio.

For the latter, SuMi TRUST Group manages individual credits through processes, such as credit screening, self-assessment, and internal credit ratings. Credit ratings indicate the credit status of customers and the possibility of defaults on a scale, and provide the basis for credit screening of individual transactions and credit portfolio management. SuMi TRUST Group continuously evaluates solvency and collectability of credits based on the analysis, for instance the customer's financial condition, cash flows, and earning capacity through the self-assessment.

(b) Risk management framework for credit risk

In SuMi TRUST Bank, the board of directors decides on important matters related to credit risk management when developing management plans. The board of directors also decides on credit strategy and economic capital allocation plans, and approves the "Self-Assessment Rules" based on reports on credit risk management, including asset-assessment management, to ensure the soundness of the assets. As for screening and credit management of each case, the Global Credit Supervision Department is segregated from branches as part of a check-and-balance system. Furthermore, the Research Department evaluates credit risks by implementing internal credit ratings based on industry research and credit analysis of individual companies along with performing quantitative analysis from a neutral standpoint. SuMi TRUST Bank periodically holds a meeting of the Executive Committee and Credit Risk Committee to deliberate on material matters of controlling and managing credit risks. SuMi TRUST Bank has built up an appropriate management framework for risk management through the check-and-balance function, the committees' discussions, and the validation of the credit risk management and operation by the Risk Management Department.

2) Market risk management

Market risk is the risk of financial loss of SuMi TRUST Group through changes in income and value of assets and liabilities held, including off-balance items, due to fluctuations in various market risk factors, such as interest rates, exchange rates, equity prices, commodity prices, and credit spreads.

(a) Risk management policy on market risk

In managing market risk, SuMi TRUST Group ensures the soundness of its business by appropriately controlling risks, and strives to secure reasonable profits which correspond to strategic goals, the scale and nature of its operations, and risk profiles through an advanced risk management framework.

(b) Risk management framework for market risk

With regard to market risk, SuMi TRUST Group maintains a basic policy for setting and controlling various risk limits and segregation of organizations related to market risk under its Rules for Risk Management. The practical application of the basic policy is stated in the Rules for Market Risk Management. Divisions that execute transactions (the front office) are clearly segregated from divisions that process transactions (the back office) for independent check purposes, and the Risk Management Department, which is independent from both of the front and back offices, centrally manages market risk. This department identifies and analyzes group-wide risk, tracks adherence to risk limits, and reports to respective directors in charge on a daily basis and to the board of directors periodically.

In SuMi TRUST Bank, the board of directors resolves ALM basic plans and risk management plans as important matters related to market risk under management plans. The ALM Committee resolves basic matters of ALM basic plans and risk management plans related to market risk regarding company-wide comprehensive risk management for assets and liabilities.

In SuMi TRUST Bank, the Risk Management Department is responsible for planning and implementing market risk management. The role of the Risk Management Department includes measuring risk levels and profits or losses and monitoring the status of market risk managed under ALM basic plans and the status of compliance with risk limits. The department reports its findings to the members of the ALM Committee on a daily basis, and to the ALM Committee as well as the board of directors periodically.

(c) Market risk management approach

SuMi TRUST Group uses Value at Risk ("VaR") to measure market risk exposures. VaR uses historical market fluctuation to statistically predict the maximum expected losses under specific conditions. Based on an internal model developed by SuMi TRUST Group, SuMi TRUST Group manages market risks by measuring VaR, calculating various risk management indicators, and carrying out various simulations.

VaR based on the internally developed model is calculated basically using the historical simulation method. Market risk can be classified into categories, such as interest rate risk, stock price risk, exchange rate risk, and others according to its characteristics. SuMi TRUST Group calculates market risk by simply adding up the risks of all categories without considering the correlation among these categories.

(d) Quantitative information related to market risk**(i) Trading accounts**

SuMi TRUST Group uses VaR for managing risks associated with trading securities and some currency and interest-related derivatives transactions held in the Trading Accounts. The VaR model used is primarily based on the historical simulation method (with a holding period of 10 business days, confidence interval of 99%, and observation period of 1,300 business days).

As of March 31, 2021, the total amount of market risk (estimated potential loss) of financial instruments held by SuMi TRUST Group in the Trading Accounts was ¥9.3 billion (U.S. \$84 million).

SuMi TRUST Group performs back testing that compares the results of VaR calculations based on its internal model with actual profits or losses. The back testing for the fiscal year ended March 31, 2021, resulted in zero instance where actual losses were in excess of VaR; therefore, SuMi TRUST Group considers that the measurement model properly captures market risk with sufficient accuracy. However, as VaR measures the amount of market risk under certain probabilities statistically calculated based on the past volatility, it may not properly capture those risks under extreme market movements.

(ii) Banking accounts

SuMi TRUST Group uses VaR for managing risks associated with financial assets and liabilities held in the Banking Accounts. The historical simulation method is the primary measurement method (with a holding period of a maximum of one year according to a position, confidence interval of 99%, and observation period of 1,300 business days).

As of March 31, 2021, the total amount of market risk (estimated potential loss) of financial instruments held by SuMi TRUST Group in the Banking Account was ¥860.9 billion (U.S. \$7,780 million).

SuMi TRUST Group performs back testing on certain positions held in the Banking Accounts that compares the results of VaR calculations based on its internal model with actual profits or losses regarding financial assets and liabilities subject to measurement. SuMi TRUST Group considers that the measurement model properly captures market risk with sufficient accuracy. However, as VaR measures the amount of market risk under certain probabilities statistically calculated based on past volatility in the market, it may not properly capture those risks under extreme market movements.

3) Funding liquidity risk management

Funding liquidity risk is the risk of financial loss to SuMi TRUST Group when the Group fails to raise necessary funds or is forced to raise funds at significantly higher rates.

(a) Funding liquidity risk management policy

With regard to funding liquidity risks, SuMi TRUST Group designs and implements a policy to build up a risk management framework for funding liquidity risks, recognizing that financial difficulties due to exposure to such risks could possibly lead SuMi TRUST Group directly to bankruptcy under certain circumstances.

(b) Funding liquidity risk management framework and methods

Funding liquidity risk management departments determine the extent of SuMi TRUST Group's cash crunch appropriately in cooperation with the liquidity management departments, while gathering and analyzing information related to both the internal environment, such as the Group's risk profiles, and external environment, such as economic circumstances or market conditions based on the risk management plan approved by the board of directors semiannually.

To reduce funding liquidity risks, the liquidity management departments manage cash flow within the predetermined appropriate limits, and the liquidity management departments monitor its compliance.

(4) Supplementary Explanation Concerning Fair Value of Financial Instruments

Fair value of financial instruments is based on quoted prices in markets. If a quoted price is not available, a reasonably calculated amount is used as fair value. Calculation of such amounts involves certain assumptions and may vary when different assumptions are employed.

2. Fair Values of Financial Instruments

The carrying amounts on the consolidated balance sheet and fair values of financial instruments as of March 31, 2021 and 2020, as well as the differences between these values are presented below. The fair values of unlisted stocks are excluded from the following table, because such fair values are extremely difficult to be determined (See Note 2).

	Millions of Yen			Millions of U.S. Dollars

(*1) The allowance for credit losses corresponding to Cash and Due from Banks, Monetary Claims Bought, and Lease Receivables and Investment Assets is directly deducted from the carrying amounts on the consolidated balance sheet, because the balance of the allowance is immaterial.

(*2) A general allowance for loan losses and specific allowances for loan losses are deducted from Loans and Bills Discounted.

(*3) Derivatives transactions recorded in Trading Assets and Trading Liabilities or in Other Assets and Other Liabilities are presented collectively.

Receivables and payables arising from derivatives transactions are presented on a net basis. Negative figures represent a liability balance after netting.

(*4) Derivative transactions qualifying for hedge accounting include interest rate swaps designated as hedging instruments to fix cash flows of hedged items such as loans and bills discounted, and deferred hedges have been adopted, in principle. In addition, "Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR" (ASBJ PITF No.40, September 29, 2020) has been adopted to these hedge transactions.

(Note 1) Method for Calculating Fair Values of Financial Instruments

Assets

(1) Cash and Due from Banks, (2) Call Loans and Bills Bought, (3) Receivables under Resale Agreements, (4) Receivables under Securities Borrowing Transactions, and (10) Foreign Exchanges

These instruments with transactions without stated maturities are stated at their carrying amounts because the carrying amounts approximate fair value. For transactions with stated maturities, corresponding instruments are stated at their carrying amounts because most of such transactions have short contractual terms (one year or less) and the carrying amounts approximate fair value.

(5) Monetary Claims Bought

Fair values of monetary claims bought for which counterparties' quoted prices or dealer/broker-quoted prices are available are stated at such prices. Fair values for all other claims are calculated by classifying them according to their internal ratings and maturities and discounting future cash flows to their present values.

(6) Trading Assets

Bonds and other securities held for trading purposes are stated at dealer association prices or counterparties' quoted prices. For short-term corporate bonds, their fair values are calculated by discounting future cash flows to their present values.

(7) Money Held in Trust

Securities managed as trust assets in money held in trust, which are individually managed with the principal objective of securities portfolio management, are stated at quoted market prices or dealer/broker-quoted prices. Notes regarding money held in trust by holding purposes are presented under the "Money Held in Trust" section.

(8) Securities

Stocks are stated at quoted market prices. Bonds are stated at quoted market prices, dealer association prices, counterparties' quoted prices, or dealer/broker-quoted prices. Investment trusts are stated at published reference prices.

Fair values of privately placed bonds guaranteed by SuMi TRUST Bank are calculated by classifying them according to their internal ratings and maturities, and discounting future cash flows to their present value.

Notes regarding securities by their holding purpose are presented under the "Securities" section.

(9) Loans and Bills Discounted

Fair values of loans and bills discounted are calculated by grouping loans according to loan terms, internal ratings, and maturities; and discounting the aggregate principal and interest by the assumed interest rate for similar new loans. However, floating-rate loans for which their carrying amounts are deemed to approximate fair value, due to the nature of the loan or the borrower's credit situation subsequent to the execution of the loans, are stated at their carrying amounts.

For claims executed to borrowers who went into legal bankruptcy, virtual bankruptcy, and possible bankruptcy, estimated loan losses are calculated based on the present value of estimated future cash flows or the expected recoverable amounts from collateral or guarantees. Therefore, fair values for these claims are stated at the amounts by deducting the allowance for loan losses from the amounts in the consolidated balance sheet at the consolidated balance sheet date, because such deducted amounts approximate fair value.

Loans without stated maturities (as the amount of credit is limited to the value of the collateral or due to some other special characteristics) are stated at their carrying amounts as the carrying amounts are deemed to approximate fair value because of the expected repayment periods and the interest terms.

(11) Lease Receivables and Investment Assets

Fair values of lease receivables and investment assets are calculated by grouping these assets according to their internal ratings and maturities, and discounting the aggregate principal and interest by the assumed interest rate for similar new agreements.

Liabilities

(1) Deposits and (2) Negotiable Certificates of Deposit

Demand deposits are stated at the amount that would have to be paid on demand at the consolidated balance sheet date (carrying amount).

Yen fixed-rate time deposits are grouped by product type and stated at the present value of their future cash flows discounted by the rates that would be paid on new deposits. Fixed-rate time deposits with short maturities (one year or less) and floating-rate time deposits are generally stated at their carrying amounts because the carrying amounts approximate the fair values.

(3) Call Money and Bills Sold, (4) Payables under Repurchase Agreements, (6) Foreign Exchanges, (7) Short-Term Bonds Payable, and (9) Borrowed Money from Trust Account

The obligations without stated maturities are stated at the amounts that would have to be paid on demand at the consolidated balance sheet date (carrying amount). Obligations with stated maturities are stated at their carrying amounts, because most of the obligations have short contractual

terms (one year or less) and the carrying amounts approximate the fair values.

(5) Borrowed Money

Borrowed money at floating rates is stated at their carrying amounts. The carrying amounts are deemed to approximate fair value because such amounts reflect short-term market interest rates, and there have been no significant changes in credit condition subsequent to undertaking the borrowed money. Fair values of borrowed money at fixed rates are calculated by discounting their future cash flows by the assumed interest rate on similar borrowings. Fair values for obligations with short maturities (one year or less) are stated at their carrying amounts because they approximate fair value.

(8) Bonds Payable

Bonds issued by SuMi TRUST Holdings and its consolidated subsidiaries are stated at market prices, if such prices are available. Fair values for other bonds are calculated by discounting future cash flows to their present values by the assumed interest rate on issuance of similar bonds.

Derivatives Transactions

Notes regarding fair values of derivatives are presented under the "Derivatives" section.

(Note 2) The amounts of financial instruments on the consolidated balance sheet whose fair values are extremely difficult to be determined are as stated below, and such amounts are not included in the fair value information for financial instruments presented under the "Assets, (5) Monetary Claims Bought" or "Assets, (8) Available-for-Sale Securities" sections.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
	Carrying Amount	Carrying Amount	Carrying Amount
Monetary Claims Bought	¥ 6,165	¥ 11,227	\$ 56
Securities	239,624	208,340	2,166
(1) Unlisted Stocks (*3)	76,368	73,478	690
(2) Investments in Associations	123,514	103,219	1,116
(3) Others (*3)	39,741	31,642	359
Total	¥ 245,790	¥ 219,567	\$ 2,221

(*1) The above financial instruments are excluded from the fair value disclosure because there are no quoted market prices, and therefore, there is no reliable measure of fair value.

(*2) Stocks of subsidiaries and affiliated companies are not included in the above table.

(*3) During the fiscal year ended March 31, 2021, impairment losses of ¥520 million (U.S. \$5 million) were recognized against Unlisted Stocks.

During the fiscal year ended March 31, 2020, impairment losses of ¥1,735 million and ¥440 million were recognized against Unlisted Stocks and Others, respectively.

Short-Term Corporate Bonds	—	—	—
Corporate Bonds	77	0	—
Other Securities	20,228	192	1,471
Foreign Stocks	18	0	1
Foreign Bonds	15,461	131	188
Others	4,749	61	1,282
Total	\$ 27,298	\$ 1,047	\$ 1,495

(Note) The above figures include "Available-for-Sale Securities" whose fair values are extremely difficult to be determined.

6. Securities Reclassified due to the Change of the Holding Purpose

There were no securities reclassified due to the change of the holding purpose during the fiscal years ended March 31, 2021 and 2020.

7. Impairment of Securities

Securities other than securities whose fair values are extremely difficult to be determined, or those deemed to be trading securities, are treated as impaired when their fair values have declined significantly from the acquisition cost and it is deemed unlikely to recover to the acquisition cost. Such securities are recorded at their fair values in the consolidated balance sheet. The difference between the acquisition cost and the fair values is recognized as an impairment loss.

Impairment losses on Stocks recognized during the fiscal years ended March 31, 2021 and 2020, were ¥289 million

(U.S. \$3 million) and ¥10,738 million, respectively. Impairment losses on Others recognized during the fiscal year ended March 31, 2021 and 2020 were ¥5 million (U.S. \$0.05 million) and ¥21 million.

The criteria for determining whether the fair values of securities have significantly declined are as follows:

For securities whose issuers are classified as "normal" under the asset self-assessment, a decline of 50% or more in the fair values compared with the acquisition cost; for securities whose issuers are classified as "close-observation borrowers," a decline of 30% or more in the fair values compared with the acquisition cost. In addition, the fair values of some securities are deemed unrecoverable and impairment losses are recognized when their fair values have declined more than 30% but less than 50% from acquisition cost and the fair values have continued to decline over a certain period.

Money Held in Trust

1. Money Held in Trust for Trading Purposes

Year Ended March 31, 2021	Millions of Yen	
	Carrying Amount	Valuation Difference Reflected in the Statement of Income
Money Held in Trust for Trading Purposes	¥ 10,857	¥ 3,038

Year Ended March 31, 2020	Millions of Yen	
	Carrying Amount	Valuation Difference Reflected in the Statement of Income
Money Held in Trust for Trading Purposes	¥ 5,823	¥ (1,076)

Year Ended March 31, 2021	Millions of U.S. Dollars	
	Carrying Amount	Valuation Difference Reflected in the Statement of Income
Money Held in Trust for Trading Purposes	\$ 98	\$ 27

2. Held-to-Maturity Money Held in Trust

There was no held-to-maturity money held in trust for the fiscal years ended March 31, 2021 and 2020.

3. Other Money Held in Trust (other than those held for trading purposes or held-to-maturity)

March 31, 2021	Millions of Yen				
	Carrying Amount	Acquisition Cost	Difference	Positive Difference	Negative Difference
Other Money Held in Trust	¥ 1,365	¥ 985	¥ 380	¥ 380	¥ —

March 31, 2020	Millions of Yen				
	Carrying Amount	Acquisition Cost	Difference	Positive Difference	Negative Difference
Other Money Held in Trust	¥ 1,406	¥ 1,018	¥ 388	¥ 388	¥ —

March 31, 2021	Millions of U.S. Dollars				
	Carrying Amount	Acquisition Cost	Difference	Positive Difference	Negative Difference
Other Money Held in Trust	\$ 12	\$ 9	\$ 3	\$ 3	\$ —

(Note) The amount of "Difference" is net of "Positive Difference" and "Negative Difference."

Valuation Differences on Available-for-Sale Securities

The following table shows components of "Valuation Differences on Available-for-Sale Securities" in the consolidated balance sheet.

March 31	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Valuation Differences			
Available-for-Sale Securities	¥ 469,518	¥ 499,573	\$ 4,243
Other Money Held in Trust	380	388	3
Total Valuation Differences	469,898	499,961	4,247
Amount Equivalent to Deferred Tax Assets (Liabilities)	(142,109)	(151,869)	(1,284)
Total (Before Adjustment for Non-Controlling Interests and Parent Company's Portions in Available-for-Sale Securities Owned by its Affiliated Companies)	327,788	348,092	2,962
Non-Controlling Interests	(159)	(74)	(1)
Parent Company's Portions in Available-for-Sale Securities Owned by its Affiliated Companies	1,800	3,442	16
Valuation Differences on Available-for-Sale Securities	¥ 329,429	¥ 351,459	\$ 2,977

(Notes)

1) Foreign currency translation adjustments on available-for-sale securities, for which fair values are extremely difficult to be determined, are included in the "Available-for-Sale Securities" under "Valuation Differences."

2) The valuation difference of ¥2,288 million (U.S. \$21 million) and ¥2,132 million on available-for-sale securities composing assets held by associated companies as of March 31, 2021

and 2020, respectively, is included in "Available-for-Sale Securities" under "Valuation Differences."

3) The unamortized portion of valuation difference as of March 31, 2020 arising from the reclassification of the holding purpose of securities is included in "Available-for-Sale Securities" under "Valuation Differences."

Derivatives

1. Derivatives Transactions Not Qualifying for Hedge Accounting

Derivatives transactions not qualifying for hedge accounting are grouped by type of underlying transactions. The notional amounts (or the amount equivalent to the principal specified in the contracts), the fair values, and the valuation differences as of the consolidated balance sheet date, as well as the methods for determining such fair values are presented below. The notional amounts do not reflect the market risk associated with the derivatives.

(1) Interest-Related Transactions

Interest-related transactions not qualifying for hedge accounting as of March 31, 2021 and 2020, consist of the following:

	Millions of Yen				Millions of U.S. Dollars

(Notes)

1) The above transactions are stated at their fair values and valuation differences are recorded in the consolidated statement of income.
2) The fair values are calculated using the net present value method.

3) "Sold" represents transactions under which the credit risk has been assumed, and "Purchased" represents transactions under which the credit risk has been transferred to another party.

2. Derivatives Transactions Qualifying for Hedge Accounting

Derivatives transactions qualifying for hedge accounting are grouped by type of underlying transactions. The notional amounts (or the amount equivalent to the principal specified in the contracts) and the fair values as of the consolidated balance sheet date, as well as the methods for determining such fair values are presented below. The notional amounts do not reflect the market risk associated with the derivatives.

(1) Interest-Related Transactions

Interest-related transactions qualifying for hedge accounting as of March 31, 2021 and 2020, consist of the following:

Major Hedged Item	Millions of Yen			Millions of U.S. Dollars		
	2021		Fair Value	2021		Fair Value

(Notes)

1) In principle, deferred hedge accounting stipulated in Guidance No. 25 and Report No. 25 is applied during the fiscal years ended March 31, 2021 and 2020, respectively.

2) Fair values are calculated mainly using the net present value method.

(3) Stock-Related Transactions

There were no stock-related transactions qualifying for hedge accounting as of March 31, 2021 and 2020.

(4) Bond-Related Transactions

There were no bond-related transactions qualifying for hedge accounting as of March 31, 2021 and 2020.

Retirement and Pension Plans**1. Outline of the Retirement Benefit Plans Adopted by SuMi TRUST Holdings**

SuMi TRUST Bank, a consolidated subsidiary of SuMi TRUST Holdings, has defined benefit plans (a corporate pension fund plan and a lump-sum retirement benefit plan). Additionally, a lump-sum retirement benefit plan is offered to contract employees according to internal rules. SuMi TRUST Bank also has a defined contribution pension plan and may provide extra retirement payments to retiring employees in some cases. SuMi TRUST Bank sets up employee retirement benefit trusts as part of its pension plan assets.

SuMi TRUST Bank partially revised defined benefit

corporate pension plans in April 2021 as described in Changes in Accounting Policies.

Other consolidated subsidiaries have lump-sum retirement benefit plans, defined benefit corporate pension plans and defined contribution pension plans. Some consolidated subsidiaries also participate in multiple employer pension plan.

Some consolidated subsidiaries adopt the computational shortcut method in calculating liabilities for retirement benefits and retirement benefit expenses for their defined benefit corporate pension plans and lump-sum retirement benefit plans.

2. Defined Benefit Plans**(1) Reconciliation of Retirement Benefit Obligations**

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Retirement Benefit Obligations (opening balance)	¥ 462,975	¥ 465,033	\$ 4,184

Plan Assets (closing balance)	¥ 648,636	¥ 536,026	\$ 5,862

(3) Reconciliation between Closing Balances of Retirement Benefit Obligations and Plan Assets, and Liabilities and Assets for Retirement Benefits Recorded in the Consolidated Balance Sheet

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Retirement Benefit Obligations of Retirement Benefit Plans with Plan Assets	¥ 417,978	¥ 450,214	\$ 3,777
Plan Assets	(648,636)	(536,026)	(5,862)
	(230,657)	(85,812)	(2,085)
Retirement Benefit Obligations of Retirement Benefit Plans without Plan Assets	13,245	12,761	120
Net of Liabilities and Assets Recorded in the Consolidated Balance Sheet	¥ (217,412)	¥ (73,051)	\$ (1,965)

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Liabilities for Retirement Benefits	¥ 13,752	¥ 14,044	\$ 124
Assets for Retirement Benefits	(231,165)	(87,096)	(2,089)
Net of Liabilities and Assets Recorded in the Consolidated Balance Sheet	¥ (217,412)	¥ (73,051)	\$ (1,965)

(4) Breakdown of Retirement Benefit Expenses

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Service Cost-Benefits Earned during the Fiscal Year	¥ 12,813	¥ 13,895	\$ 116
Interest Cost on Projected Benefit Obligations	2,278	2,340	21
Expected Return on Plan Assets	(24,766)	(24,496)	(224)
Amortization of Actuarial Differences	11,577	1,993	105
Amortization of Past Service Cost (Note)	(37,632)	28	(340)
Other	455	671	4
Retirement Benefit Expenses for Defined Benefit Obligations	¥ (35,273)	¥ (5,568)	\$ (319)

(Note) ¥37,580 million (U.S. \$340 million) of amortization of past service cost is recognized as extraordinary income for the fiscal year ended March 31, 2021.

(5) Remeasurements of Defined Benefit Plans

The breakdown of remeasurements of defined benefit plans (before tax effects) is as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Past Service Cost	¥ 101	¥ 28	\$ 1
Actuarial Differences	92,811	(71,042)	839
Total	¥ 92,912	¥ (71,014)	\$ 840

(6) Accumulated Remeasurements of Defined Benefit Plans

The breakdown of accumulated remeasurements of defined benefit plans (before tax effect) is as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Unrecognized Past Service Cost	¥ (295)	¥ (193)	\$ (3)
Unrecognized Actuarial Differences	6,065	98,876	55
Total	¥ 5,770	¥ 98,683	\$ 52

(7) Plan Assets

1) The asset categories and proportion of the total plan asset are as follows:

	Proportion (%)	
	2021	2020
Debt Securities	24	32
Equity Securities	61	53
Cash and Due from Banks	3	2
Other	12	13
Total	100	100

(Note) The total plan asset includes the retirement benefit trusts set up for a corporate pension plan and a lump-sum retirement benefit plan. They account for 59% and 52% of the total plan asset for the fiscal years ended March 31, 2021 and 2020, respectively.

2) Expected long-term rate of return on plan assets

In order to determine the expected long-term rate of return on plan assets, SuMi TRUST Holdings considers the current and projected plan asset allocation, as well as the current and expected long-term rate of return on assets composing plan assets.

(8) Assumptions Used

Major assumptions used in actuarial calculation for the fiscal years ended March 31, 2021 and 2020, are as follows:

	2021	2020
Discount Rate	Mainly 0.5%	Mainly 0.5%
Expected Long-Term Rate of Return on Plan Assets	4.6%	4.1%

3. Defined Contribution Pension Plans

Contributions by SuMi TRUST Holdings and its consolidated subsidiaries to the defined contribution pension plans were ¥2,242 million (U.S. \$20 million) and ¥2,155 million for the years ended March 31, 2021 and 2020, respectively.

Stock Option Plans

1. Expenses Recorded in Connection with Stock Options during the Fiscal Years Ended March 31, 2021 and 2020

(1) SuMi TRUST Holdings

There were no relevant items.

(2) Nikko Asset Management Co., Ltd. (consolidated subsidiary)

There were no relevant items.

2. Description of Stock Options

(1) SuMi TRUST Holdings

The following tables show stock options effective as of March 31, 2021. The number of stock options represents the number of shares after converting into equivalent shares, taking into account the consolidation of shares at a ratio of ten existing shares into one share effected on October 1, 2016.

1) Description of Stock Options

Year Ended March 31, 2021	SuMi TRUST Holdings Series 1 Subscription Rights to Shares	SuMi TRUST Holdings Series 2 Subscription Rights to Shares
Number of Eligible Persons and their Position	Directors and officers of SuMi TRUST Holdings: 22 Directors and officers of The Chuo Mitsui Trust and Banking Company, Limited: 19 Directors and officers of The Chuo Mitsui Asset Trust and Banking Company, Limited: 7 Directors and officers of The Sumitomo Trust and Banking Co., Ltd.: 24 Total: 72	Directors and officers of SuMi TRUST Holdings: 22 Directors and officers of SuMi TRUST Bank: 44 Total: 66

ii) Unit price information

Year Ended March 31, 2021	Resolution during Fiscal Year 2011	Resolution during Fiscal Year 2016
Grant Date	October 7, 2011	July 15, 2016
Exercise Price	¥ 737 (Note3)	¥ 558
Fair Price on the Grant Date (Note 1)	0	0

	Resolution during Fiscal Year 2016	Resolution during Fiscal Year 2017
Grant Date	April 27, 2017	April 27, 2018
Exercise Price	¥ 553	¥ 694
Fair Price on the Grant Date (Note 1)	0	0

(Notes)

1) In lieu of fair value per share, the fair price refers to an estimate of each option's intrinsic value (the difference between the fair value of the share calculated by the comparable transaction price method and the exercise price).
2) The total amount of intrinsic value of the options was ¥1,738 million (U.S. \$16 million) as of March 31, 2021.

3) If the IPO price is set as any amount exceeding ¥737 (U.S. \$7), the Exercise Price shall be adjusted to an amount equal to the IPO Price on the IPO Date (the Exercise Price shall be adjusted to reflect appropriately the nature of any split or consolidation of shares after the Allotment Date, if any).

3. Method for Estimating a Fair Unit Price for Stock Options

There were no subscription rights granted in the fiscal year ended March 31, 2021.

4. Method for Estimating the Number of Vested Stock Options

SuMi TRUST Holdings has adopted a method to reflect only the number of stock options that have been actually forfeited, because it is difficult to reasonably estimate the number that will be forfeited in the future.

Income Taxes

1. Deferred Tax Assets and Liabilities

Year Ended March 31	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021

Net Deferred Tax Assets (Liabilities)	¥ (67,134)	¥ (36,311)	\$ (607)

2. Effective Income Tax Rate

Year Ended March 31	2021	2020
Effective Statutory Tax Rate	30.62%	—%
Adjustments:		
Changes in Valuation Allowance	(0.35)	—
Amortization of Goodwill	1.19	—
Share of Profit of Equity-Method Affiliated Companies	(1.79)	—
Permanent Differences (e.g., Cash Dividends Received)	(0.83)	—
Others	(0.81)	—
Effective Income Tax Rate	28.03%	—%

(Note) Disclosure on reconciliation between the effective statutory tax rate and the effective income tax rate is omitted since the difference was 5% or less of the effective statutory tax rate for the fiscal years ended March 31, 2020.

Segment Information

1. Reportable Segment Information

The SuMi TRUST Group's reportable segments are defined as operating segments for which discrete financial information is available. The Board of Directors and the Executive Committee of SuMi TRUST Holdings periodically receive reporting on the operating results and other relevant information of the reportable segments to make decisions about the allocation of management resources and to assess performance.

The main activities of the reportable segment are presented below:

Retail Total Solution Services:

Provision of services to individual customers

Wholesale Financial Services:

Provision of services to corporate customers

Stock Transfer Agency Services:

Undertaking of stock-related services on behalf of customers

Real Estate:

Provision of services related to the real estate business

Fiduciary Services:

Operation of the pension business, the asset management business, and the asset administration business

Global Markets:

Marketing operations, market-making operations, investment operations, and financial management operations

2. Method for Calculating Substantial Gross Business Profit and Net Business Profit by Each Reportable Segment

Segment information is prepared based on internal management reports and the accounting policies used for the reportable segments are generally the same as those presented under "Significant Accounting Policies and Practices"; however, the reportable segments are accounted for in accordance with the rules for the internal management.

"Net Business Profit" represents "Substantial Gross Business Profit," less "Substantial G&A Expenses." "Substantial Gross Business Profit" and "Substantial G&A Expenses" are financial figures generated on the basis of internal management reporting, and they represent "Gross Profit" and "General and Administrative Expenses (excluding any non-recurring expenses)" of SuMi TRUST Holdings and its consolidated subsidiaries, reflecting profits or losses of equity-method affiliated companies (proportionate share of profits or losses, excluding any non-recurring items).

Income earned from inter-segment and cross-segment transactions is calculated by applying the criteria (market prices) specified in the rules for internal management.

"Fixed Assets" disclosed in the assets by reportable segments are the total amount of tangible fixed assets and intangible fixed asset. These assets are owned by SuMi TRUST Bank and allocated to each segment.

3. Profit or Loss and Fixed Assets by Reportable Segment

	Millions of Yen

Fixed Assets	\$ 607	\$ 300	\$ 20	\$ 80	\$ 151	\$ —	\$ 177	\$ 1,743	\$ 3,077

(Notes)

1) The figures represent “Substantial Gross Business Profit” in substitution for net sales to be presented by companies in other industries.

2) The amounts of “Substantial Gross Business Profit” include net interest income, net trust fees, net fees and commissions, net trading income, and net other ordinary income and expenses.

3) “General and Administrative Expenses” include personnel expenses and rent expenses.

4) Figures for the “Asset Management Business” are combined total of SuMi TRUST AM (consolidated), Nikko Asset Management Co., Ltd (consolidated), and two affiliated companies accounted for using the equity method which are involved in asset management operations.

5) “Others” include costs of capital funding, dividends for shares for cross-shareholdings, general and administrative expenses of headquarters, and elimination of internal transactions.

6) “Fixed Assets” are allocated to each segment from the fiscal year ended March 31, 2021 in response to enhancement of management accounting.

7) The amount of “Fixed Assets” for each segment represents the amount of fixed assets owned by SuMi TRUST Bank. “Others” within “Fixed Assets” include corporate assets not allocated to any segment, fixed assets owned by consolidated subsidiaries outside the scope of allocation of resources, and adjustments for consolidation. For fixed assets not allocated to each segment, some of related expenses are allocated to each segment based on a reasonable allocation method.

4. Reconciliation Between Total Profit or Loss for Reportable Segments and Income before Income Taxes in the Consolidated Statement of Income

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Net Business Profit	¥ 294,707	¥ 289,011	\$ 2,663
Other Income	158,185	95,680	1,430
Other Expenses	(207,586)	(112,333)	(1,876)
Other Adjustments	(45,303)	(31,636)	(409)
Income before Income Taxes	¥ 200,003	¥ 240,721	\$ 1,808

Related Information

1. Information by Services

Disclosure of information by services is omitted as similar disclosure is included in the “3. Profit or Loss by Reportable Segment” in the “Segment Information” section.

2. Geographic Information

(1) Income

Income by geographical area for the fiscal years ended March 31, 2021 and 2020, consists of the following:

Year Ended March 31, 2021	Millions of Yen				
	Japan	Americas	Europe	Asia and Oceania	Total
	¥ 1,249,557	¥ 70,908	¥ 42,935	¥ 54,764	¥ 1,418,166

Year Ended March 31, 2020	Millions of Yen				
	Japan	Americas	Europe	Asia and Oceania	Total
	¥ 1,173,962	¥ 160,931	¥ 91,734	¥ 111,927	¥ 1,538,556

Year Ended March 31, 2021	Millions of U.S. Dollars				
	Japan	Americas	Europe	Asia and Oceania	Total
	\$ 11,293	\$ 641	\$ 388	\$ 495	\$ 12,817

(Notes)

1) The figures represent income in substitution for net sales to be presented by companies in other industries.

2) Income related to transactions by SuMi TRUST Holdings, SuMi TRUST Bank (excluding overseas branches), and other domestic consolidated subsidiaries are presented under

“Japan.” Income related to transactions by overseas branches of SuMi TRUST Bank and foreign consolidated subsidiaries are presented under “Americas,” “Europe,” or “Asia and Oceania” based on the location of each overseas branch and subsidiary, reflecting their geographical proximity.

(2) Tangible Fixed Assets

More than 90% of SuMi TRUST Group's tangible fixed assets on the consolidated balance sheet as of March 31, 2021 and 2020, are located in Japan; accordingly, tangible fixed assets by geographical area are not presented.

3. Information by Major Customer

Due to highly diversified income-generating transactions between SuMi TRUST Group and a significantly large number of SuMi TRUST Group's customers, transactions are not classified by major counterparty; accordingly, information by major customer is not presented.

Information Related to Losses on Impairment of Fixed Assets by Reportable Segment

Losses on impairment of fixed assets recognized during the fiscal year ended March 31, 2021 are as follows:

Year Ended March 31, 2021	Millions of Yen								Total
	Retail Total Solution Services	Wholesale Financial Services	Stock Transfer Agency Services	Real Estate	Fiduciary Services		Global Markets	Others	
					Asset Management Business				
Losses on Impairment of Fixed Assets	¥ 19,364	¥ —	¥ —	¥ —	¥ —	¥ —	¥ —	¥ 809	¥ 20,173

Year Ended March 31, 2021	Millions of U.S. Dollars								Total
	Retail Total Solution Services	Wholesale Financial Services	Stock Transfer Agency Services	Real Estate	Fiduciary Services		Global Markets	Others	
					Asset Management Business				
Losses on Impairment of Fixed Assets	\$ 175	\$ —	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 7	\$ 182

Losses on impairment of fixed assets are not allocated to the reportable segments for the fiscal year ended March 31, 2020. Losses on impairment of fixed assets recognized during the fiscal year ended March 31, 2020 were ¥19,360 million.

Information Related to Amortization of Goodwill and Unamortized Balance of Goodwill by Reportable Segment

Amortization of goodwill and unamortized balance of goodwill are not allocated to the reportable segments.

Amortization of goodwill recognized during the fiscal years ended March 31, 2021, and 2020, were ¥7,875 million (U.S. \$71 million) and ¥9,422 million, respectively. Unamortized balance of goodwill as of March 31, 2021, and 2020, were ¥37,292 million (U.S. \$337 million) and ¥45,087 million, respectively.

Information Related to Gain on Negative Goodwill by Reportable Segment

There were no gains on negative goodwill by reportable segment during the fiscal years ended March 31, 2021 or 2020.

Related-Party Transactions

1. Related-Party Transactions

There were no material transactions that need to be disclosed for the fiscal years ended March 31, 2021 or 2020.

2. Notes to the Parent Company or Significant Affiliated Companies

(1) Parent Company

Not applicable

(2) Condensed Financial Information of Significant Affiliated Companies

Custody Bank of Japan, Ltd. is a significant affiliated company for the fiscal year ended March 31, 2021, and its condensed financial information (mainly the items in the balance sheet and the statement of income) is as follows:

As of March 31	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Total Assets	¥ 17,277,835	¥ —	\$ 156,149
Total Liabilities	17,158,453	—	155,070
Total Net Assets	119,382	—	1,079

Year Ended March 31	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Ordinary Income	¥ 49,297	¥ —	\$ 446
Income Before Income Taxes	988	—	9
Net Income	680	—	6

(Note) Custody Bank of Japan, Ltd. became a significant affiliated company from the fiscal year ended March 31, 2021 due to the increase in materiality.

Financial Data: Independent Auditors' Report

Independent Auditor's Report

To the Board of Directors of
Sumitomo Mitsui Trust Holdings, Inc.:

Opinion

We have audited the accompanying consolidated financial statements of Sumitomo Mitsui Trust Holdings, Inc. ("the Company") and its consolidated subsidiaries (collectively referred to as "the Group"), which comprise the consolidated balance sheet as at March 31, 2021, the consolidated statement of income, statement of comprehensive income, statement of changes in net assets and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Estimated amount of allowance for loan losses for corporate customers	
The key audit matter	How the matter was addressed in our audit
<p>In the consolidated financial statements of Sumitomo Mitsui Trust Holdings, Inc. ("SuMi TRUST Holdings") and consolidated subsidiaries, "Allowance for Loan Losses" amounted to ¥129.2 billion, which was provided for the total credit portfolios of ¥32,076.5 billion. "Loans and Bills Discounted" amounting to ¥30,506.9 billion represented the vast majority of the total credit portfolios and also accounted for a significant portion of the total assets of ¥62,163.8 billion.</p> <p>(1) Classification of borrowers</p> <p>As described in Note 4, "Significant Accounting Policies, (5) Allowance for Loan Losses" and the Note, "Significant Accounting Estimates, 1. Estimates of Allowance for Loan Losses (2)" to the consolidated financial statements, Sumitomo</p>	<p>The primary procedures we performed to assess the reasonableness of the estimated amount of allowance for loan losses for corporate customers included the following:</p> <p>(1) Internal control testing</p> <p>In order to test the design and operating effectiveness of certain internal controls related to the estimate of allowance for loan losses, we performed the following procedures with the assistance of specialists in credit risk and those in IT within our firm:</p> <p>(SuMi TRUST Bank)</p> <ul style="list-style-type: none"> assessment of whether the internal regulations for the self-assessment and the write-offs and provisions were appropriately maintained;

KPMG AZSA LLC, a limited liability audit corporation incorporated under the Japanese Certified Public Accountants Law and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

Mitsui Trust Bank, Limited (“SuMi TRUST Bank”), a major consolidated subsidiary, performs the loan reviews and validates them, based on its internal criteria for self-assessment of asset quality, and records an allowance for loan losses in accordance with its policy for write-offs and provisions, according to the determined classification of each borrower.

The vast majority of allowance for loan losses in the consolidated financial statements was for corporate customers of SuMi TRUST Bank. These corporate customers are classified primarily based on the credit rating assigned by the credit risk management system that takes into account quantitative information, such as the borrowers' financial information, as well as qualitative factors.

Specifically, the process to determine the classification of borrowers includes examining the borrowers' solvency, based on their substantive financial condition, cash flow position, and earning capability, among others, and an overall assessment of their business sustainability and future profitability; ability to generate cash flows available for debt repayment; the reasonableness and feasibility of their business improvement plans; and support from other financial institutions, in addition to their industry/sector specific characteristics. This determination involves subjective management judgment.

Especially in determining the classification of corporate customers whose financial performance has been deteriorating due to the spread of COVID-19, it was necessary to consider the impact of the spread of COVID-19 on their classification. However, its impacts are complicated and have a wide variety of implications, such as deterioration of the real economy and corporate cash flow position arising from restrictions on movement of people and goods, reduced production activities, change in the consumer behaviors, among others, and the estimation thereof involved a high degree of uncertainty. Therefore, a higher level of management judgment was required in determining the classification of borrowers.

(2) Estimated amount of allowance for loan losses considering the impact of the spread of COVID-19

As described in Note, “Significant Accounting Estimates, 1. Estimates of Allowance for Loan Losses (3)” to the consolidated financial statements, considering the effects of the spread of COVID-19 on borrowers' (corporate customers') operations and financial performance, certain consolidated subsidiaries of SuMi TRUST Holdings estimated the

- evaluation of controls to ensure that borrowers' financial information entered into the credit risk management system by branches is complete and accurate;
- evaluation of controls at the Risk Management Department relevant to the maintenance and operation of the credit rating determination model;
- evaluation of IT application controls relevant to determining credit ratings using quantitative information in the credit risk management system; and
- evaluation of controls at the Credit Supervision Department and the Risk Management Department that validate the results of the self-assessment and write-offs/provisions for compliance with the internal regulations.

(Certain consolidated subsidiaries including SuMi TRUST Bank)

- evaluation of controls in which the reasonableness of any adjustment to the allowance for loan losses is assessed based on the current situation and future outlook at the meetings of top executives of each subsidiary.

(2) Classification of borrowers

In order to assess whether borrowers were appropriately classified, we selected certain individual corporate customers for our testing based on both quantitative and qualitative factors. Specifically, in order to select important borrowers whose credit risk could possibly change significantly due to changes in internal or external economic environments including the impact of COVID-19 (i.e. borrowers for whom a significant amount of allowance for loan losses may be recognized due to deterioration in credit risks), we took the following factors into account;

- quantitative factors: the possible effect on the amount of allowance for loan losses from inappropriate classification; and
- qualitative factors: extent of adverse impact of the spread of COVID-19 on the financial performance and resilience to such impact.

In order to evaluate whether the corporate customers selected through the above process were classified appropriately, we:

- assessed whether the borrowers were classified in accordance with the internal regulations for the self-assessment by inspecting the results of an analysis on the borrowers' financial

impact of the credit risks that had not yet been reflected in the borrowers' financial information and recognized an additional allowance for loan losses of ¥18.4 billion (¥24.6 billion for the previous fiscal year) as a necessary adjustment to credit losses expected in the future.

In estimating the amount of allowance for loan losses, industries where the adverse impact on the financial performance was considered more severe than others were identified, and the amount of credit losses was estimated for certain credit portfolios within those industries assuming that their credit rating assigned by the credit risk management system had been downgraded to a certain extent. Specifically, assumptions regarding future deterioration in credit risks, that reflected the extent to which the spread of COVID-19 impacted the financial performance and an expected level of recovery after the pandemic ceases, were developed for each industry, considering the changes in economic environment and the internal credit ratings during the current fiscal year.

As estimating the impact of the spread of COVID-19 involved a high degree of estimation uncertainty and required subjective management judgment, there may be a material impact on the consolidated financial statements if the assumptions used for the estimate were not reasonable.

We, therefore, determined that our assessment of the reasonableness of the estimated amount of allowance for loan losses for corporate customers was one of the most significant in our audit of the consolidated financial statements for the current fiscal year, and accordingly, a key audit matter.

information, as well as other documents supporting the borrower classification using qualitative judgment; and

- inquired of personnel in the relevant departments (branches, the Credit Supervision Department, and the Risk Management Department) of SuMi TRUST Bank and assessed the borrowers using the respective information we obtained independently.

(3) Estimated amount of allowance for loan losses considering the impact of the spread of COVID-19

In assessing the impact of the spread of COVID-19 on allowance for loan losses of Sumitomo Mitsui Trust Group ("SuMi TRUST Group") companies, we inspected the materials for the meetings at SuMi TRUST Group companies in which the additional allowance was discussed and the recognition of the allowance was approved, and inquired of members of the meetings and other attendees.

In addition, in order to assess the reasonableness of key assumptions used in estimating the amount of allowance for loan losses considering the impact of the spread of COVID-19, we:

- inquired of personnel in the relevant departments (the Research Department, Credit Supervision Department, Financial Planning Department, and Risk Management Department) of SuMi TRUST Bank as well as the relevant departments of other consolidated subsidiaries;
- inspected information from external sources, such as the results of impact studies published by third-party institutions and reports issued by external economists; and
- assessed the consistency of key assumptions used in estimating the amount of allowance for loan losses with the result of an analysis and information for the measurement of credit risks within the SuMi TRUST Group's credit risk management.

Estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan and the change in the method of recognizing past service costs in earnings	
The key audit matter	How the matter was addressed in our audit
As described in the Note, "Changes in Accounting Policies" to the consolidated financial statements, SuMi TRUST Bank, a consolidated subsidiary of SuMi TRUST Holdings announced in January 2021 revisions to the provisions and terms of retirement	The primary procedures we performed to assess the appropriateness of the estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan as well as management judgment that the change in the method of recognizing

benefits to give effect to a partial amendment to its defined benefit corporate pension plan, and the amendment took effect on April 1, 2021. As a result, a negative past service cost of ¥37.7 billion (i.e. decrease in retirement benefit obligations) was incurred for the current fiscal year and is reported as other income in the consolidated statement of income.

- (1) Estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan

As described in the Note, "Significant Accounting Estimates, 2. Estimates of Retirement Benefit Obligations" to the consolidated financial statements, the measurement of retirement benefit obligations requires a high level of actuarial expertise. In addition, determining the calculation basis (i.e. key assumptions) used in the actuarial calculations requires management judgment.

Especially for the current year, it was necessary to measure retirement benefit obligations before and after the plan amendment to quantify the difference, if any, to be accounted for as a past service cost, which had a material impact on the consolidated financial statements. Accordingly, there might be a material impact on the consolidated financial statements if the plan amendment had not been properly reflected in the determination of key assumptions and in the actuarial calculations.

- (2) Change in the method of recognizing past service costs in earnings

As described in the Note, "Changes in Accounting Policies" to the consolidated financial statements, the method of recognizing past service costs in earnings was changed in the current fiscal year. Under the new method, past service costs are primarily recognized fully in earnings in the year when they are incurred.

While management concluded that this change in accounting policy was made on justifiable grounds, management judgment had a material impact on the consolidated financial statements for the current and subsequent fiscal years. A change in accounting policy is made on justifiable grounds only if:

- the change in accounting policy is made in response to any change in the entity's business or any change in internal/external management environment; and
- the new accounting policy after the change depicts accounting events and other matters more faithfully in the financial statements.

past service costs in earnings was made on justifiable grounds included the following:

- (1) **Internal control testing**

We tested the design and operating effectiveness of certain of SuMi TRUST Bank's internal controls relevant to estimating retirement benefit obligations. In this assessment, we focused our testing on controls designed to ensure the reasonableness of the determination of key assumptions and the appropriateness of the actuarial calculations.

- (2) **Estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan**

In order to assess whether the plan amendment was properly reflected in the determination of key assumptions and in the actuarial calculations when retirement benefit obligations after the plan amendment were estimated, we performed the following procedures with the assistance of actuarial specialists within our firm:

- assessed whether key assumptions were properly determined based on the substance of retirement benefit provisions before and after the plan amendment by inquiring of personnel in the Human Resources Department of SuMi TRUST Bank, which was responsible for determining key assumptions, about the rationale for those assumptions and examining the reasonableness thereof. In addition, we traced key assumptions to the supporting documents that provided the basis for the determination; and
- compared the amount of retirement benefit obligations we calculated independently with the amount of retirement benefit obligations included in the actuarial valuation report prepared by the Pension Administration Department of SuMi TRUST Bank, and assessed whether the difference between these two amounts was within the acceptable range we had established.

- (3) **Change in the method of recognizing past service costs in earnings**

In order to understand the reason why the method of recognizing past service costs in earnings was changed, we inspected the approval document and supporting materials. Then, we assessed the reasonableness of the reason for the change by performing the following procedures:

- compared the circumstances leading to a past service cost incurred in the past with the circumstance in the current fiscal year to confirm that these situations were significantly different; and

We, therefore, determined that our assessment of the appropriateness of the estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan and the change in the method of recognizing past service costs in earnings was one of the most significant in our audit of the consolidated financial statements for the current fiscal year, and accordingly, a key audit matter.

- assessed the reasonableness of management's conclusion that with the change in accounting policy, the plan amendment would be reflected more appropriately in the consolidated financial statements. In evaluating the reasonableness of management judgment, we considered the relationship of an increase in labor costs (i.e. considerations for employees' services) due to the postponement of retirement age and the past service cost incurred due to the plan amendment to revenues to be generated from those employees' services.

Change in the method of applying impairment accounting and the recognition of impairment losses on fixed assets

The key audit matter	How the matter was addressed in our audit
<p>In the consolidated statement of income of SuMi TRUST Holdings, impairment losses of ¥20.1 billion were reported. As described in the Note, "Significant Accounting Estimates, 3. Impairment of Fixed Assets (Including Goodwill)" and Note 4, "Other Income and Expenses (2)" to the consolidated financial statements, ¥19.3 billion of this amount (consisting of ¥1.6 billion for tangible fixed assets and ¥17.7 billion for software) was recognized on operating assets used in the business units belonging to the Retail Total Solution Services Business ("Retail TS Services Business").</p> <p>In applying impairment accounting for fixed assets, an entity is allowed to allocate corporate assets to asset groups using a reasonable allocation basis. Asset groups to which corporate assets are allocated are tested for impairment whenever there is an impairment indicator. An impairment test is performed by comparing the undiscounted future cash flows that are expected to be generated from the respective asset groups with their carrying amounts. If the recognition of an impairment loss is deemed necessary, the carrying amount is reduced to the recoverable amount (e.g. a value in use calculated by using a discount rate), and the resulting decrease in the carrying amount is recognized as an impairment loss for the current year.</p> <p>(1) Grouping of assets and allocation of corporate assets</p> <p>In the current fiscal year, the grouping of assets and the treatment of corporate assets for the purpose of the impairment testing were changed in order to enhance the application of impairment accounting, in response to cost structure reforms and revisions to the branch strategy in light of changes in business</p>	<p>The primary procedures we performed to assess the appropriateness of the method of applying impairment accounting and the amount of the impairment losses recognized on fixed assets included the following:</p> <p>(1) Internal control testing</p> <p>We assessed the design and operating effectiveness of certain internal controls related to determining the method of allocating corporate assets to each operating segment and the judgment on whether an impairment loss should be recognized, as well as the measurement of the impairment loss.</p> <p>In this assessment, we focused our testing on controls relevant to the determination of allocation bases for corporate assets and the estimate of future cash flows used in the judgment on whether an impairment loss should be recognized.</p> <p>(2) Grouping of assets and allocation of corporate assets</p> <p>(Changes in the method of application)</p> <p>We evaluated the reasonableness of management's conclusion that with the changes in the method of grouping assets and allocating corporate assets for the impairment testing, the carrying amount of and impairment losses on fixed assets would be reflected more appropriately in the consolidated financial statements</p> <p>In assessing the reasonableness of management judgment, we considered that under the new method, the identification of impairment indicators, the judgment on whether an impairment loss should be recognized, and the measurement of an impairment loss on corporate assets are all made based on the profitability of each operating segment, rather than the entity-wide profitability used in the past, which</p>

environment due to the spread of COVID-19 from the perspective of continuous improvements in management reporting.

Specifically, SuMi TRUST Bank changed to a new method under which it identified its six operating segments as the smallest groups of assets and allocated the corporate assets to the respective segments using allocation bases that were deemed reasonable (e.g. the number of employees for each operating segment).

There may be a material impact on the consolidated financial statements if the change itself or the application of the new method were not reasonable.

(2) Recognition of impairment losses

SuMi TRUST Bank tested the Retail TS Services Business for impairment, because it determined that management environment had significantly deteriorated due to the spread of COVID-19 and thus identified an impairment indicator in the current fiscal year.

The future cash flows used in the impairment testing were estimated based on its business plan developed by the Retail Business Planning Department of SuMi TRUST Bank. In developing the business plan, key assumptions regarding the expected amount of credit transactions to be executed and the sales plan of insurance and investment trust products were used considering future market and economic conditions. Therefore, these estimates involved a high degree of uncertainty and subjective management judgment.

In addition, in measuring the recoverable amount after it was determined that an impairment loss should be recognized, a high level of valuation expertise was required to select an appropriate valuation model and input data to estimate a discount rate.

We, therefore, determined that our assessment of the appropriateness of the change in the method of applying impairment accounting and the recognition of impairment losses on fixed assets was one of the most significant in our audit of the consolidated financial statements for this fiscal year, and accordingly, a key audit matter.

enables the recognition of more granular impairment losses compared to the previous method.

In addition, to assess whether the change was made in response to changes in business environment from the perspective of improving management reporting, we:

- inspected relevant Executive Committee meeting materials and other supporting documents regarding cost structure reforms and revisions to the branch strategy in response to changes in business environment due to the spread of COVID-19; and
- inquired of personnel in the Financial Planning Department of SuMi TRUST Bank, which is responsible for management reporting, regarding the status of improving management reporting, and inspected relevant Executive Committee meeting materials and other supporting documents.

(Allocation bases for corporate assets)

In order to assess whether allocation bases for corporate assets were determined appropriately, we:

- inquired of personnel in the Financial Planning Department of SuMi TRUST Bank, which was responsible for determining allocation bases, and inspected relevant Executive Committee meeting materials and other supporting documents; and
- assessed whether allocation bases for corporate assets were related to the future cash flows generated from each operating segment.

(3) Recognition of impairment losses

In order to assess the reasonableness of the estimated future cash flows of the Retail TS Services Business, we:

- assessed the reasonableness of key assumptions used in the business plan, which formed the basis for estimating future cash flows, by inspecting materials supporting the business plan and inquiring of personnel in the Retail Business Planning Department and those in the Personal Loan Business Promotion Department of SuMi TRUST Bank, which are responsible for developing the plans;
- assessed whether the market environment and competitive environment as a background of developing key assumptions were consistent with our understanding based on information available from SuMi TRUST Bank and external sources; and
- assessed the feasibility of achieving the business plan based on actual results of achievement of

	<p>the past business plans.</p> <p>In addition, we performed the following procedures by involving enterprise valuation specialists within our network firms who assisted our evaluation of the discount rate used in calculating the value in use:</p> <ul style="list-style-type: none"> ● evaluation of whether the discount rate used in calculating the value in use complied with the requirements of the accounting standards; and ● evaluation of the reasonableness of input parameters (risk-free rate, beta, and the market risk premium).
--	---

Responsibilities of Management and the Audit Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The audit committee are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or

conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.

- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit committee regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide the audit committee with a statement that we have complied with relevant ethical requirements regarding independence, and communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with the audit committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Convenience Translation

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2021 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in "Basis of Presentation of Financial Statements" to the consolidated financial statements.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

See Notes to Statements of Trust Account (Unaudited).

Notes to Statements of Trust Account (Unaudited)

1. Trust Accounts

Under the Trust Act of Japan, trust activities must be administered separately from a commercial banking business. As a result, assets accepted in trust must be segregated from the assets held by SuMi TRUST Holdings. Within the general category of trust accounts, each trust account is segregated from other trust assets. Accordingly, the financial statements of SuMi TRUST Holdings do not reflect SuMi TRUST Holdings' records as to the assets accepted in trust, which are maintained separately under the trust account.

Under certain trust agreements, repayments of the principal of the customers' trust assets are guaranteed by SuMi TRUST Bank, and such guaranteed principal as of March 31, 2021 and 2020, were ¥4,634,580 million (U.S. \$41,885 million)

and ¥4,602,967 million, respectively.

The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan. The translation has been made at the rate of ¥110.65 to U.S. \$1, the approximate rate of exchange as of March 31, 2021. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million Japanese yen have been rounded down and amounts less than one million U.S. dollars have been rounded off. As a result, the total may not be equal to sum of individual amounts.

2. Loans and Bills Discounted

Loans as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Loans on Deeds	¥ 1,428,073	¥ 1,160,640	\$ 12,906
Loans on Bills	376,320	382,520	3,401
Total	¥ 1,804,393	¥ 1,543,160	\$ 16,307

The balances of guaranteed trust account loans as of March 31, 2021 and 2020 stood at ¥15,959 million (U.S. \$144 million) and ¥26,710 million respectively, which included the following:

Under certain trust agreements, repayment of the principal of customers' trust assets are guaranteed by SuMi TRUST Bank, and loans on such guaranteed trust assets as of March 31, 2021 and 2020, included the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Other Delinquent Loans	¥ 134	¥ 680	\$ 1
Restructured Loans	30	34	0
Total	¥ 164	¥ 714	\$ 1

3. Securities

Securities held as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Government Bonds	¥ 457,214	¥ 599,390	\$ 4,132
Local Government Bonds	30	30	0
Corporate Bonds	66,718	113,807	603
Stocks	7,910	8,164	71
Other Securities	325,736	353,792	2,944
Total	¥ 857,610	¥ 1,075,184	\$ 7,751

(Note) The balances as of March 31, 2021 and 2020 are for SuMi TRUST Bank only.

4. Balance of Money Trusts

The principal amount of certain money trusts is guaranteed and the balance of these accounts is as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Assets:			
Loans and Bills Discounted	¥ 15,959	¥ 26,710	\$ 144
Other	4,618,947	4,576,633	41,744
Total	¥ 4,634,907	¥ 4,603,344	\$ 41,888
Liabilities:			
Principal	¥ 4,634,580	¥ 4,602,967	\$ 41,885
Allowance for Impairment of Guaranteed Trust Principal	19	70	0
Other	307	306	3
Total	¥ 4,634,907	¥ 4,603,344	\$ 41,888

In the case of certain money trusts, the principal amount is guaranteed, and as the above table indicates, an allowance for the impairment of guaranteed trust principal is set aside by SuMi TRUST Bank. The figures in the table include funds entrusted from other trusts managed by SuMi TRUST Bank.

Notes to Consolidated Financial Statements

Basis of Presentation of Financial Statements

The accompanying consolidated financial statements (banking account) have been prepared from the accounts maintained by Sumitomo Mitsui Trust Bank, Limited (“SuMi TRUST Bank”) and its consolidated subsidiaries (together, “SuMi TRUST Bank Group”) in accordance with the accounting principles generally accepted in Japan and certain accounting and disclosure rules under the Financial Instruments and Exchange Act of Japan and the Banking Act of Japan, which are different in certain respects as to application and disclosure requirements of International Financial Reporting Standards.

In preparing these consolidated financial statements, the consolidated financial statements of SuMi TRUST Bank issued in Japan have been reclassified and rearranged in order to present them in a form that is more familiar to readers outside Japan.

The consolidated financial statements are stated in Japanese yen, the currency of the country in which SuMi TRUST Bank is incorporated and operates. The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan. The translation has been made at the rate of ¥110.65 to U.S. \$1, the approximate rate of exchange as of March 31, 2021. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million Japanese yen have been rounded down and amounts less than one million U.S. dollars have been rounded off. As a result, total balances may not be equal to the sum of individual amounts.

Significant Accounting Policies and Practices

1. Scope of Consolidation

(1) Consolidated Subsidiaries as of March 31, 2021:

40 companies

Principal Companies:

Sumitomo Mitsui Trust Loan & Finance Co., Ltd.

Sumitomo Mitsui Trust Realty Co., Ltd.

Sumitomo Mitsui Trust Club Co., Ltd.

Sumitomo Mitsui Trust Panasonic Finance Co., Ltd.

Sumitomo Mitsui Trust and Bank (U.S.A.) Limited

Changes in the consolidated subsidiaries during the current fiscal year are as follows:

Sumi TRUST Consulting (Beijing) Co., Ltd. is newly established and included in the scope of the consolidation from the fiscal year ended March 31, 2021.

(2) Unconsolidated Subsidiaries

Principal Companies:

Hummingbird Co., Ltd.

ASIA GATEWAY I, L.P.

Hummingbird Co., Ltd., and 10 other companies are excluded from the scope of consolidation in accordance with Article 5, Paragraph 1, Item 2 of the Consolidated Financial Statements Regulations, because they are operators engaged in leasing activities through silent partnership arrangements and their assets and profits/losses do not belong to the subsidiaries.

ASIA GATEWAY I, L.P. and other unconsolidated subsidiaries are excluded from the scope of consolidation, because they are immaterial to the extent that excluding such companies from consolidation would not prevent a reasonable assessment of the corporate group’s financial position and financial results. Such materiality is determined based on the size of their assets, ordinary income, net income (amount corresponding to SuMi TRUST Bank’s interest in subsidiaries), retained earnings (amount corresponding to SuMi TRUST Bank’s interest in subsidiaries), accumulated other comprehensive income (amount corresponding to SuMi TRUST Bank’s interest in subsidiaries), and other financial data.

2. Application of the Equity Method

(1) Unconsolidated Subsidiaries Accounted for by the Equity Method:
None

(2) Affiliated Companies Accounted for by the Equity Method:
24 companies

Principal Companies:

SBI Sumishin Net Bank, Ltd.

Changes in the affiliated companies accounted for by the equity method during the current fiscal year are as follows:

Yuryo Loan Co., Ltd. is newly included in the scope of application of the equity method due to the acquisition of its shares from the fiscal year ended March 31, 2021.

(3) Unconsolidated Subsidiaries and Affiliated Companies that are Not Accounted for by the Equity Method:

Principal Companies:

Hummingbird Co., Ltd.

ASIA GATEWAY I, L.P.

Hummingbird Co., Ltd., and 10 other companies are excluded from the scope of application of the equity method in accordance with Article 10, Paragraph 1, Item 2 of the Consolidated Financial Statements Regulations because they are operators engaged in leasing activities through

silent partnership arrangements, and their assets and profits/losses do not belong to the subsidiaries.

ASIA GATEWAY I, L.P. and other unconsolidated subsidiaries and affiliated companies that are not accounted for by the equity method are excluded from the scope of application of the equity method because such exclusion would not materially affect the consolidated financial statements for the current fiscal year. Such materiality is determined based on the size of their net income (amount corresponding to SuMi TRUST Bank's interest in subsidiaries and affiliated companies), retained earnings (amount corresponding to SuMi TRUST Bank's interest in subsidiaries and affiliated companies), accumulated other comprehensive income (amount corresponding to SuMi TRUST Bank's interest in subsidiaries and affiliated companies), and other financial data.

3. Balance Sheet Dates of the Consolidated Subsidiaries

(1) Balance sheet dates of consolidated subsidiaries are as follows:

April 30:	2 companies
May 31:	1 company
August 31:	1 company
September 30:	5 companies
November 30:	1 company
December 31:	5 companies
March 31:	25 companies

(2) Subsidiaries are consolidated using the financial statements as of the following dates:

- Consolidated subsidiaries with a balance sheet date of April 30: Provisionally prepared financial statements as of January 31
- A consolidated subsidiary with a balance sheet date of May 31: Provisionally prepared financial statements as of February 28
- A consolidated subsidiary with a balance sheet date of August 31: Provisionally prepared financial statements as of February 28
- Consolidated subsidiaries with a balance sheet date of September 30: Provisionally prepared financial statements as of March 31
- A consolidated subsidiary with a balance sheet date of November 30: Provisionally prepared financial statements as of February 28
- The other consolidated subsidiaries: Financial statements as of their respective balance sheet dates.

Material transactions arising between the consolidated balance sheet date, March 31, 2021, and the above balance

sheet dates of consolidated subsidiaries have been reflected in the consolidated financial statements.

4. Significant Accounting Policies

(1) Trading Assets/Liabilities and Income/Expenses

Trading account activities are conducted to seek profits by taking advantage of short-term fluctuations in interest rates, currency rates, financial markets or other indicators, or inter-market differences (for trading purposes). The fluctuations in such items are presented as "Trading Assets" or "Trading Liabilities" in the consolidated balance sheet on a trade-date basis, and gains and losses from such transactions are presented as "Trading Income" or "Trading Expenses" in the consolidated statement of income.

For the measurement of trading assets and trading liabilities, securities and monetary claims are stated at their fair values as of the consolidated balance sheet date, and trading-related financial derivatives, such as swaps, futures, and options, are stated at the amounts that would be settled if they were terminated on the consolidated balance sheet date.

Trading income and trading expenses include interest income or expenses, adjusting valuation differences of securities and monetary claims during the fiscal year and differences in resulting gains or losses from the settlement of financial derivatives assuming that the settlement was made in cash as of March 31, 2021 and 2020.

(2) Securities

(a) Under the accounting standards for financial instruments in Japan, SuMi TRUST Bank is required to determine the purposes of holding each security and classify such security into (i) securities held for trading purposes ("Trading Securities"), (ii) debt securities intended to be held to maturity ("Held-to-Maturity Debt Securities"), (iii) equity securities issued by subsidiaries and affiliated companies, or (iv) all other securities that are not classified in any of the above categories ("Available-for-Sale Securities"). "Held-to-Maturity Debt Securities" are carried at amortized cost using the moving-average method (the straight-line method). Equity securities issued by unconsolidated subsidiaries and affiliated companies not accounted for by the equity method are stated at moving-average cost. "Available-for-Sale Securities" are, in principle, valued at the market price at the balance sheet date (cost of securities sold is calculated using primarily the moving-average method). "Available-for-Sale Securities" for which their fair values are extremely difficult to be determined are carried at cost using the moving-average method.

Valuation differences on “Available-for-Sale Securities” are recorded as a separate component of net assets and reported in the consolidated balance sheet.

(b) Securities in money held in trust are classified and accounted for in the same manner as those described in 4. (1) and 4. (2) (a) above.

(3) Financial Derivatives

Financial derivatives, excluding those for trading purposes, are stated at fair value.

(4) Depreciation and Amortization Methods

(a) Tangible fixed assets other than lease assets

Tangible fixed assets are depreciated using primarily the straight-line method.

Useful lives of major asset categories:

Buildings: 3 to 60 years

Others: 2 to 20 years

(b) Intangible fixed assets other than lease assets

Intangible fixed assets are amortized using the straight-line method. Software for internal use is amortized over the useful life specified by SuMi TRUST Bank or the consolidated subsidiaries, generally five years.

(c) Lease assets

The lease assets under “Tangible Fixed Assets” and “Intangible Fixed Assets” that are related to finance leases that do not transfer ownership of the lease assets to lessees are depreciated using the straight-line method over the lease term, assuming a residual value of zero.

(5) Allowance for Loan Losses

SuMi TRUST Bank records allowance for loan losses in accordance with internally established criteria for write-offs and allowance for loan losses.

For claims against borrowers that have initiated special liquidation proceedings or other bankruptcy proceedings (“bankrupt borrowers”) and against borrowers that are in substantially similar adverse condition (“virtually bankrupt borrowers”), the allowance is provided based on the amount of claims, after the write-off stated below, net of the expected amount of recoveries from collateral and guarantees. For claims against borrowers that have not yet initiated bankruptcy proceedings, but are very likely to become bankrupt in the future (“possibly bankrupt borrowers”), an allowance is provided for the amount deemed necessary based on the overall assessment of the borrowers’ solvency, after deducting the amount expected to be collected through the disposal of collateral or execution of guarantees from the claims.

For claims against large borrowers with certain credit risks and credit amounts that are classified as possibly bankrupt borrowers, restructured loan borrowers, or close-observation borrowers, if future cash flows from collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the “estimated cash flow method”).

For claims that are classified as other than those above, the allowance is provided based on the estimated loan losses over the next one to three years, which are calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past one to three years.

All claims are assessed at branches and credit supervision departments based on the criteria for self-assessment of asset quality. The Risk Management Department, which is independent from the operating sections, monitors the results of such assessments.

As for the consolidated subsidiaries, the allowance for loan losses for general claims is provided based on the historical loan-loss ratios, and the allowance for loan losses for specific claims, such as possible uncollectible claims, is provided based on the estimate of unrecoverable amount for each claim.

For claims against bankrupt borrowers or virtually bankrupt borrowers with collateral or guarantees, claims against borrowers in legal or virtually bankrupt borrowers, net of amounts expected to be collected through the disposal of collateral or through the execution of guarantees, are directly deducted from the original amount of claims. The deducted amount was ¥24,592 million (U.S. \$222 million) and ¥22,391 million as of March 31, 2021 and 2020, respectively.

(6) Provision for Bonuses

A provision for bonuses is provided for the estimated employee bonuses attributable to the current fiscal year.

(7) Provision for Directors’ Bonuses

A provision for directors’ bonuses is provided for the estimated directors’ bonuses attributable to the current fiscal year.

(8) Provision for Stocks Payment

A provision for stocks payment is provided at SuMi TRUST Bank for the estimated stock-based payments to directors

under a stock compensation system attributable to the current fiscal year.

(9) Provision for Reward Points Program

A provision for reward points program is provided for the use of points granted to holders of Diners Club Card and other credit cards in the amount deemed necessary based on the reasonable estimates of the points to be used in the future.

(10) Provision for Reimbursement of Deposits in Dormant Accounts

A provision for reimbursement of deposits in dormant accounts is provided for the deposits that were derecognized as liabilities under certain conditions. Such provision is provided against the estimated future reimbursement to be requested by customers based on the past reimbursement record.

(11) Provision for Contingent Losses

A provision for contingent losses is provided for contingent losses associated with off-balance sheet transactions or trust transactions in the amount deemed necessary based on the estimated possible future losses.

(12) Accounting for Retirement Benefits

In determining the retirement benefit obligations, projected benefits to the periods up to the year ended March 31, 2021, are attributed based on the plan's benefit formula.

Past service cost and actuarial gains or losses are expensed using the following methods:

Past service cost: In principle, the full amount of past service cost is charged to profit or loss in the fiscal year they occur.

Actuarial gains or losses: Actuarial differences are expensed using the straight-line method, primarily over 10 years within the employees' average remaining service period, commencing from the next fiscal year of incurrence.

Some consolidated subsidiaries adopt the simplified method in calculating liabilities for retirement benefits and retirement benefit expenses for lump-sum retirement benefit plans, recording liabilities at amounts that would be required for voluntary termination at the year-end.

(13) Foreign Currency Translation

Assets and liabilities of SuMi TRUST Bank that are denominated in foreign currencies and overseas branch accounts are generally translated into yen at the exchange rates prevailing as of the consolidated balance sheet date, except for shares of stocks in affiliated companies translated into yen at the exchange rates prevailing at the acquisition dates.

Assets and liabilities of consolidated subsidiaries that are denominated in foreign currencies are translated into yen at the exchange rates prevailing at their respective balance sheet dates.

(14) Accounting for Leases

As for the consolidated subsidiaries in Japan, income and expenses arising from transactions of finance leases that do not transfer ownerships to lessees are recognized as sales and costs of sales when lease payments are collected.

(15) Hedge Accounting

(a) Interest-related risk hedge

SuMi TRUST Bank manages interest rate risk arising from various assets and liabilities by using financial derivatives transactions. Such transactions are generally treated as deferred hedges as specified in "Treatment for Accounting and Auditing of Application of Accounting Standard for Financial Instruments in Banking Industry" (Japanese Institute of Certified Public Accountants ("JICPA") Industry Committee Implementation Guidance No. 24 of October 8, 2020, "Guidance No. 24"). To evaluate the effectiveness of hedges designed to offset market fluctuations, hedged items, such as deposits, loans and bills discounted, and hedging instruments, such as interest rate swaps, are grouped by duration to maturity. The effectiveness of hedges designed to fix cash flow is evaluated by verifying the correlation between the interest rate volatility factors for the hedged items and the hedging instruments.

In accordance with "Temporary Treatment for Accounting and Auditing concerning Application of Accounting Standard for Financial Instruments in Banking Industry" (JICPA Industry Auditing Committee Report No. 15), SuMi TRUST Bank has adopted "Macro Hedge Accounting" to account for certain interest-related derivatives, which are utilized to manage interest rate risk arising from transactions, such as loans and bills discounted, and deposits. Deferred gains (losses) on hedges in the consolidated balance sheet as of the end of the current fiscal year that have resulted from existing "Macro Hedge Accounting" are amortized over the remaining period designated under "Macro Hedge Accounting" of each hedging transaction.

Deferred losses on hedges associated with "Macro Hedge Accounting" were ¥17 million (U.S. \$0.2 million) and ¥35 million as of March 31, 2021 and 2020, respectively, before tax effect.

(b) Currency-related risk hedge

SuMi TRUST Bank manages the foreign exchange risk arising from various assets and liabilities denominated in foreign

currencies using financial derivatives transactions. Such transactions are generally treated as deferred hedges as specified in "Treatment for Accounting and Auditing of Application of Accounting Standard for Foreign Currency Transactions in Banking Industry" (JICPA Industry Committee Implementation Guidance No. 25 of October 8, 2020, "Guidance No. 25"). The effectiveness of hedging instruments, such as cross-currency swaps and foreign exchange swaps, as a means of mitigating the foreign exchange risk arising from monetary claims and debts denominated in foreign currencies, is evaluated by verifying that the foreign currency positions of such hedging instruments are in amounts equivalent to the corresponding monetary claims and debts denominated in foreign currencies, which are the hedged items.

Additionally, transactions intended to hedge the foreign exchange risk associated with foreign-denominated securities (other than bonds) are treated as portfolio hedges. Fair value hedge accounting has been adopted to account for such transactions on the conditions that specific foreign-denominated securities are designated in advance as hedged items and that foreign currency payables of spot and forward foreign exchange contracts exist in excess of the acquisition cost of such foreign-denominated securities on a foreign currency basis.

The foreign exchange risk associated with investment in the shares of stocks in foreign subsidiaries and affiliated companies is individually hedged using forward exchange contracts denominated in the same currency, and foreign currency translation adjustments arising from the hedging instruments are included in "Foreign Currency Translation Adjustments."
(c) Internal hedge transactions and others

Among derivatives transactions of SuMi TRUST Bank that take place between consolidated subsidiaries or that are made internally between designated trading accounts and some other accounts, those interest rate swaps and cross-currency swaps designated as hedging instruments are carried out in accordance with standards for cover deals with external parties, which eliminate discretion and enable strict management on hedges pursuant to Guidance No. 24 and Guidance No. 25. Accordingly, income or expenses arising from such interest rate swaps and cross-currency swaps are recognized as profits or losses, or deferred, rather than eliminated.

Deferred hedge accounting has been adopted for certain assets and liabilities by individual transactions.

Other consolidated subsidiaries account for such transactions as deferred hedges or exceptional treatment for interest rate swaps.

(16) Amortization of Goodwill

Goodwill is amortized over a period within 20 years that is reasonably determined for each case. Goodwill deemed immaterial, however, is expensed as incurred.

(17) Scope of Cash and Cash Equivalents in the Consolidated Statement of Cash Flows

For SuMi TRUST Bank, the balance of "Cash and Cash Equivalents" in the consolidated statement of cash flows is equivalent to the balance of cash and due from the Bank of Japan under "Cash and Due from Banks" presented in the consolidated balance sheet. For the consolidated subsidiaries, the balance of "Cash and Cash Equivalents" in the consolidated statement of cash flows is equivalent to the balance of "Cash and Due from Banks" presented in the consolidated balance sheet.

(18) National and Local Consumption Taxes

National and local consumption taxes ("consumption taxes") payable by SuMi TRUST Bank and its consolidated subsidiaries in Japan are accounted for by the tax-excluded method. However, any nondeductible consumption taxes associated with asset purchases are recorded as expenses in the current fiscal year.

(19) Adoption of Consolidated Tax Return System

SuMi TRUST Bank adopts the consolidated tax return system.

(20) Adoption of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System

SuMi TRUST Bank and some of its consolidated subsidiaries in Japan did not adopt Paragraph 44 of "Implementation Guidance on Tax Effect Accounting" (Accounting Standards Board of Japan (ASBJ) Guidance No. 28, February 16, 2018) in accordance with Paragraph 3 of "Treatment of Tax Effect Accounting for the Transition from the Consolidated Taxation System to the Group Tax Sharing System" (ASBJ Practical Issues Task Force (PITF) No.39, March 31, 2020) and account for deferred tax assets and deferred tax liabilities based on the tax regulations before the revision. Such treatment is adopted on items transitioned to group tax sharing system established under "The Law Revising a Portion of Income Tax Law" (Act No.8, 2020) and single taxation system items revised in conjunction with the transition to the group tax sharing system.

Significant Accounting Estimates

1. Estimates of Allowance for Loan Losses

(1) The Amount Recognized during the Fiscal Year Ended March 31, 2021:

¥129,223 million (U.S. \$1,168 million)

(2) Other Information that Assists Users of the Consolidated Financial Statements in Understanding the Nature of the Estimates

SuMi TRUST Bank assigns each borrower a “classification” in accordance with the borrower’s solvency based on their financial conditions, funding stability, profitability, and others whenever there is disclosure of financial results or an event with an impact on the borrower’s creditworthiness. SuMi TRUST Bank measures allowance for loan losses based on the “classification” assigned and transaction conditions of collateral and other factors. When deriving the “classification,” quantitative as well as qualitative factors are taken into consideration.

Definition of each classification is as follows:

Classification	Definitions
Normal borrowers	Borrowers with good earnings performances and no significant financial problems
Borrowers requiring caution	Close monitoring is required due to sluggish/unstable business, financial problems, or problems with meeting loan terms and conditions such as reduction of interest rate and suspended payments
Substandard borrowers	Obligors with loans that are more than three months past due or with restructured loans within the “Borrowers Requiring Caution” category
Possibly bankrupt borrowers	Experiencing business difficulties, making insufficient progress in restructuring and highly likely to go bankrupt
Virtually bankrupt borrowers	Though not yet legally or formally bankrupt, has serious business difficulties and rehabilitation is unlikely
Bankrupt borrowers	Legally or formally bankrupt

The standards for allowances for loan losses for each classification are as follows:

Classification	Standards for allowances for loan losses
Normal borrowers	The allowance for loan losses is provided based on the estimated loan loss ratio, which is calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past one year.

Borrowers requiring caution and Substandard borrowers	The allowance for loan losses is provided based on the estimated loan loss ratio, which is calculated based on the average historical loan-loss ratios during a certain period on the basis of historical loan losses over the past three years. For some borrowers, if future cash flows from collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the “estimated cash flow method”).
Possibly bankrupt borrowers	The allowance is provided for the amount deemed necessary based on the overall assessment of the borrowers’ solvency, after deducting the amount expected to be collected through the disposal of collateral or execution of guarantees from the claims. For some borrowers, if future cash flows from collection of the principal and interest can be reasonably estimated, the allowance is provided for the difference between the present value of expected future cash flows discounted at the contracted interest rate prior to the loan restructuring and the carrying amount of the claim (the “estimated cash flow method”).
Virtually bankrupt borrowers and Bankrupt borrowers	The allowance is provided based on the amount of claims, net of the expected amount of recoveries from collateral and guarantees. For claims against borrowers who are legally bankrupt or virtually bankrupt with collateral or guarantees, the amounts expected to be collected through the disposal of collateral or through the execution of guarantees, are directly deducted from the original amount of claims.

For normal borrowers, borrowers requiring caution, and substandard borrowers, changes in the loan loss ratio have an impact on the allowance for loan losses. For possibly bankrupt borrowers, virtually bankrupt borrowers, and bankrupt borrowers, changes in the amount expected to be collected through the disposal of collateral or execution of guarantees have a significant impact on the allowance for loan losses.

(3) Responding to Uncertainties Caused by COVID-19 (Adjustments of Expected Credit Losses)

The impact of the spread of COVID-19 on borrowers is reflected in the decision of the classification of individual borrowers to the extent that reasonable estimates can be made. However, there is a high level of uncertainty in the estimates because the impact is complex and diverse.

SuMi TRUST Bank and some consolidated subsidiaries estimate the impact on credit risks that have not yet been reflected in the financial information of the borrowers and make necessary adjustments to expected future credit losses, considering the impact of the spread of COVID-19 on the business and profit or loss of borrowers (corporate borrowers).

In the fiscal year ended March 31, 2020, SuMi TRUST Bank and some of consolidated subsidiaries identified industries and products (collectively, the "industries") that may have been affected by downturn of business performance due to the spread of COVID-19, and recorded an additional allowance ("special allowance") of ¥24,635 million for loan losses for estimated credit losses in the future assuming that internal rating of certain credits of the industries would be downgraded to some extent.

In the fiscal year ended March 31, 2021, SuMi TRUST Bank and some of consolidated subsidiaries have changed the assumptions and now assume that the spread and the lull of COVID-19 will continue to alternate and it will take time to settle down (in the fiscal year ended March 31, 2020, SuMi TRUST Bank and some of consolidated subsidiaries assumed that the effects of COVID-19 would settle down in a certain period of time).

Considering the changes in the economic environment and internal ratings in the fiscal year ended March 31, 2021, SuMi TRUST Bank and some of consolidated subsidiaries made assumptions about the extent of deterioration of the future credit risk for each industry, re-estimated the credit losses expected in the future for some credit in the industry, and recognized a special allowance of ¥18,432 million (U.S. \$167 million), depending on the degree of impact on business performance caused by the spread of COVID-19 and the degree of prospects for recovery after the end of the pandemic.

There is a high level of uncertainty about the assumptions used to recognize a special allowance, and the consolidated financial statements can be significantly affected if there is a change in the impact on the business and profit or loss of borrowers due to the spread of COVID-19.

2. Estimates of Retirement Benefit Obligations

(1) The Amount Recognized during the Fiscal Year Ended March 31, 2021:

¥429,015 million (U.S. \$3,877 million)

The amounts of assets for retirement benefits and liabilities for retirement benefits recognized in the consolidated financial statements for the fiscal year ended March 31, 2021 were ¥231,145 million (U.S. \$2,089 million) and ¥11,696 million (U.S. \$106 million), respectively. The net amount of ¥219,449 million (U.S. \$1,983 million) was calculated by deducting plan assets of ¥648,464 million (U.S. \$5,860 million) from retirement benefit obligations of retirement benefit plans with and without plan assets of ¥417,826 million (U.S. \$3,776 million) and ¥11,188 million (U.S. \$101 million), respectively.

(2) Other Information that Assists Users of the Consolidated Financial Statements in Understanding the Nature of the Estimates

Retirement benefit obligations, plan assets, and retirement benefit expenses are calculated based on assumptions used in actuarial calculation. These assumptions include discount rate, expected long-term rate of return on plan assets, employee turnover rate, and mortality rate.

Major assumptions used in actuarial calculation are as follows:

Discount rate	Expected long-term rate of return on plan assets
Mainly 0.5%	4.6%

SuMi TRUST Bank, which accounts for 94.0% of asset retirement obligations of SuMi TRUST Bank Group, has set a discount rate based on the interest rates of high-quality domestic corporate bonds whose maturities are equal to the expected period up to the payment of salaries in the future.

The expected long-term rate of return on plan assets is determined by evaluating the historical results of operation and the expected interest rate in the future. The expected long-term rate of return on plan assets is the weighted average rate of expected long-term rates of return on plan assets by groups of investment assets such as stocks and bonds.

(3) Impact of Changes in Assumptions on the Consolidated Financial Statements

The assumptions described in (2) will have a significant impact on retirement benefit obligations and retirement benefit expenses. The impacts on the consolidated financial statements when each of the discount rate and the expected long-term rate of return on plan assets of SuMi TRUST Bank changes by 0.5% are as follows:

	Impact on retirement benefit expenses	Impact on retirement benefit obligations
Discount rate:		
0.5% decrease	¥2,600 million increase	¥33,491 million increase
0.5% increase	¥2,324 million decrease	¥29,676 million decrease
Expected long-term rate of return on plan assets:		
0.5% decrease	¥3,164 million increase	—
0.5% increase	¥3,164 million decrease	—

3. Impairment of Fixed Assets (Including Goodwill)

(1) The Amount Recognized during the Fiscal Year Ended March 31, 2021:

In the Retail Total Solution Services of SuMi TRUST Bank, the business environment has significantly changed due to the spread of COVID-19. Therefore, SuMi TRUST Bank Group has evaluated this change as a significant deterioration of business environment and considered the need to record impairment losses, judging from the indication that assets may be impaired.

As a result of the consideration, the carrying amount of operating assets in the Retail Total Solution Services of SuMi TRUST Bank before the impairment was ¥87,087 million (U.S. \$787 million) and exceeded the recoverable amount. Therefore, impairment losses of ¥19,976 million (U.S. \$181 million), which include impairment losses of tangible fixed assets of ¥1,655 million (U.S. \$15 million) and those of software of ¥18,320 million (U.S. \$166 million), were recognized.

(2) Other Information that Assists Users of the Consolidated Financial Statements in Understanding the Nature of the Estimates

SuMi TRUST Bank Group's reportable segments are defined as operating segments for which discrete financial information is available. The Board of Directors and the Executive Committee of SuMi TRUST Bank periodically receive reporting on the operating results and other relevant information of the reportable segments to make decisions about the allocation of management resources and to assess performance. SuMi TRUST Bank considers six operating segments as the smallest grouping units ("asset groups") to identify an indication of impairment, decide to recognize impairment losses, and measure those losses. Corporate assets are allocated to each operating segment based on a

reasonable allocation method, such as the number of personnel in each operating segment, by leveraging the management accounting framework.

Identification of indication that assets may be impaired

An indication of impairment is identified if the asset group falls under any of the following conditions:

- profit (loss) or cash flows from operating activities has been continuously negative, or is expected to continue to be negative
- the business environment for the relevant asset group has been significantly deteriorated, or is expected to be deteriorated
- the fair value of the asset or asset group has significantly decreased
- there was a change in the use of the assets in the asset group, which caused a significant decrease in the recoverable amount

Decision on recognition of an impairment and measurement

For the asset groups with an indication of impairment, the total amount of undiscounted future cash flows associated with the asset group is compared with the carrying amount of assets in the asset group, and an impairment loss is recognized if the carrying amount exceeds the total amount of undiscounted future cash flows. Branches which SuMi TRUST Bank Group decides to close are excluded from the asset groups described above, and the recoverable amounts are measured by the net selling prices of individual branches. The net selling prices are calculated by deducting expected costs of disposal from a real estate appraisal value.

An impairment loss is the difference between the value in use or the net selling price of an asset and its carrying amount.

Value in use is calculated by the present value of the undiscounted future cash flows with the discount rate based on capital costs, which is calculated on the basis of risk-free rates, stock betas, market risk premiums, and other factors.

Undiscounted future cash flows are measured in accordance with the business plan, considering markets and economic conditions in the future. They can change due to unforeseeable events and changes in assumptions used in the business plan in the future.

The future cash flows used to measure the value in use of the Retail Total Solution Services in SuMi Trust Bank, which recognized impairment losses in the fiscal year ended March 31, 2021, are estimated based on the business plan of SuMi TRUST Bank, and take into account major assumptions such as the expected amount of credit transactions and sales plans for insurance and investment trusts.

Changes in Accounting Policies

Change in Accounting Treatment of Past Service Cost

SuMi TRUST Bank announced the amendment in relevant policies due to the partial revision of defined benefit corporate pension plans in January 2021 and put the amendment into practice on April 1, 2021. The revision was implemented as SuMi TRUST Bank extended the retirement age and revised their remuneration system to provide more extensive treatment for their employees depending on their roles in order to create a working environment that allows employees to work vigorously as the average life expectancy and healthy life expectancy increased. Accounting procedures under the revised pension plans are in accordance with "Accounting for Transfers between Retirement Benefit Plans" (Accounting Standards Board of Japan (ASBJ) Guidance No. 1, December 16, 2016) and "Practical Solution on Accounting for Transfers between Retirement Benefit Plans" (ASBJ Practical Issues Task Force (PITF) No. 2, February 7, 2007). The past service cost, which is a decrease in retirement benefit obligations, of ¥37,734 million (U.S. \$341 million) was incurred as a result of the revision.

Although past service costs were previously recognized using the straight-line method, primarily over 10 years within the employees' average remaining service period at incurrence, past service costs are primarily charged fully to profit or loss in the fiscal year they occur from the fiscal year ended March 31, 2021. This is because past service costs incurred from amendments in pension plans will not affect the financial statements in the future, while accounting treatment under the previous accounting method will. In addition, SuMi TRUST Bank Group considers that charging the full amount of past service costs to profit or loss in the fiscal year they occur clarifies the relationship between income and expenses of SuMi TRUST Bank Group, including the increased personnel expenses as a result of the extension of the retirement age and the revision of the remuneration system, and more appropriately presents financial position and results of operations.

The change in the accounting method to account for past service costs is not applied retrospectively because the amount of unrecognized past service cost is insignificant as of March 31, 2020, and the unrecognized past service cost in addition to the past service cost incurred during the fiscal year ended March 31, 2021 is recognized as extraordinary income in the fiscal year ended March 31, 2021. As a result, compared to the case where the previous accounting method was applied, ordinary profit decreased by ¥859 million (U.S. \$8 million) and income before income taxes increased by ¥36,721 million (U.S. \$332 million) in the fiscal year ended March 31, 2021.

New Accounting Standards and Interpretations Not Yet Adopted

The following standard and guidance were issued but not yet adopted.

1. Accounting Standard for Revenue Recognition

- Accounting Standard for Revenue Recognition (ASBJ Statement No. 29, March 31, 2020)
- Implementation Guidance on Accounting Standard for Revenue Recognition (ASBJ Guidance No. 30, March 26, 2021)

(1) Overview

The above standard and guidance provide comprehensive principles for revenue recognition. Under the standard and guidance, revenue is recognized by applying following 5 steps:

- Step 1: Identify contract(s) with customers.
- Step 2: Identify the performance obligations in the contract.
- Step 3: Determine the transaction price.
- Step 4: Allocate the transaction price to the performance obligation in the contract.
- Step 5: Recognize revenue when (or as) the entity satisfies a performance obligation.

(2) Effective date

Effective from the beginning of the fiscal year ending March 31, 2022.

(3) Effects of the application of the standards

SuMi TRUST Bank is currently in the process of determining the effects of these new standards on the consolidated financial statements.

2. Accounting Standard for Fair Value Measurement

- Accounting Standard for Fair Value Measurement (ASBJ Statement No. 30, July 4, 2019)
- Implementation Guidance on Accounting Standard for Fair Value Measurement (ASBJ Guidance No. 31, July 4, 2019)
- Accounting Standard for Financial Instruments (ASBJ Statement No. 10, July 4, 2019)
- Implementation Guidance on Disclosures about Fair Value of Financial Instruments (ASBJ Guidance No. 19, March 31, 2020)

(1) Overview

“Accounting Standards for Fair Value Measurement” and “Implementation Guidance on Accounting Standard for Fair Value Measurement” (“the standard and guidance for fair value measurement”) are developed in order to enhance comparability with international accounting standards and, provide guidance for methods of fair value measurement. The standard and guidance for fair value measurement are adopted to fair value measurement of the following item:

- Financial instruments defined in “Accounting Standard for Financial Instruments”

In addition, “Implementation Guidance on Disclosures about Fair Value of Financial Instruments” has been revised

and specified what to disclose in the notes, such as the breakdown by the levels of the fair value hierarchy of financial instruments.

(2) Effective date

Effective from the beginning of the fiscal year ending March 31, 2022.

(3) Effects of the application of the standards

SuMi TRUST Bank is currently in the process of determining the effects of these new standards on the consolidated financial statements.

Changes in Presentation

Adoption of “Accounting Standard for Disclosure of Accounting Estimates”

“Accounting Standard for Disclosure of Accounting Estimates” (ASBJ Statement No. 31, March 31, 2020) has been adopted to the consolidated financial statements from the fiscal year ended March 31, 2021, and notes to significant accounting estimates are presented in the consolidated financial statements. However, the notes do not include information for the fiscal year ended March 31, 2020 in accordance with the transitional treatment provided in the conditional clause in Paragraph 11 in this accounting standard.

Notes to the Consolidated Balance Sheet

1. Trading Assets and Trading Liabilities

(1) Trading assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Securities in Trading Account	¥ 39,520	¥ 6,096	\$ 357
Derivatives of Trading Securities	—	13	—
Derivatives of Securities Related to Trading Transactions	29	498	0
Trading-Related Financial Derivatives	389,215	450,031	3,518
Other Trading Assets	5,000	51,006	45
Total	¥ 433,766	¥ 507,646	\$ 3,920

(2) Trading liabilities as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Derivatives of Trading Securities	¥ 8	¥ —	\$ 0
Derivatives of Securities Related to Trading Transactions	983	—	9
Trading-Related Financial Derivatives	320,585	371,950	2,897
Total	¥ 321,576	¥ 371,950	\$ 2,906

2. Securities

Securities held as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Government Bonds	¥ 1,760,490	¥ 1,480,969	\$ 15,910
Local Government Bonds	23,686	14,785	214
Corporate Bonds	699,775	671,856	6,324
Stocks	1,591,961	1,270,178	14,387
Other Securities	2,806,755	2,905,313	25,366
Total	¥ 6,882,670	¥ 6,343,103	\$ 62,202

“Securities” include stocks and equity investments in unconsolidated subsidiaries and affiliated companies as follows.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Stocks	¥ 112,069	¥ 104,059	\$ 1,013
Equity Investments	27,031	33,528	244

Securities borrowed under unsecured loan agreements and securities purchased under resale agreements or borrowed with cash collateral that SuMi TRUST Bank has a right to freely sell or repledge, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Securities that are Further Collateralized	¥ 154,547	¥ 1,197,832	\$ 1,397
Securities that are Further Loaned	1,034,192	1,139,619	9,347
Securities Held without Selling or Repledging as of the End of the Fiscal Year	5,221	—	47

The bonds presented under “Securities” included guarantee obligations on corporate bonds that were placed through private securities offerings (Article 2, Paragraph 3 of the Financial Instruments and Exchange Act) amounting to ¥76,840 million (U.S. \$694 million) and ¥91,755 million as of March 31, 2021 and 2020, respectively.

3. Loans and Bills Discounted

Loans and bills discounted as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Bills Discounted	¥ 763	¥ 1,123	\$ 7
Loans on Bills	146,219	217,701	1,321
Loans on Deeds	28,752,736	27,801,810	259,853
Overdrafts	1,607,249	1,682,740	14,526
Total	¥ 30,506,968	¥ 29,703,375	\$ 275,707

Bills discounted are treated as financial transactions in accordance with Guidance No. 24. SuMi TRUST Bank has a right to freely sell or (re)pledge such commercial bills.

Loans and bills discounted as of March 31, 2021 and 2020, included the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Loans in Bankruptcy Proceedings	¥ 2,253	¥ 4,998	\$ 20
Delinquent Loans	74,255	53,112	671
Loans Past Due Three Months or More	3,042	3,341	27
Restructured Loans	49,176	38,964	444
Total	¥ 128,729	¥ 100,416	\$ 1,163

Loans in bankruptcy proceedings are loans whose interest receivable is not recorded due to delinquency in principal or interest payments for a significant period or other reasons excluding loans that have been written off ("nonaccrual loans"), and that meet the conditions as prescribed in Paragraph 1, Items 3 and 4 of Article 96 of "Enforcement Ordinance for the Corporation Tax Act" (Cabinet Order No. 97 of 1965).

Delinquent loans are nonaccrual loans other than (i) loans in bankruptcy proceedings and (ii) loans for which the terms of interest payments have been extended in connection with the borrower's business restructuring or to otherwise provide support.

Loans past due three months or more are those loans for

which principal or interest payments are more than three months past due (calculated from the day following the contractual payment date), excluding loans classified as loans in bankruptcy proceedings or delinquent loans.

Restructured loans are those loans whose terms have been modified by reducing or waiving interest, granting interest payment extensions, granting principal repayment extensions, forgiving debt, or otherwise providing some arrangements favorable to the borrower in connection with the borrower's business restructuring or to otherwise provide support, excluding those loans classified as loans in bankruptcy proceedings, delinquent loans, or loans past due three months or more.

4. Assets Pledged

Assets pledged as collateral as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Assets Pledged as Collateral:			
Trading Assets	¥ 29,978	¥ 3,000	\$ 271
Securities	2,325,240	2,039,182	21,014
Loans and Bills Discounted	5,012,590	5,333,699	45,301
Lease Receivables and Investment Assets	50,491	57,605	456
Other Assets	109,610	99,232	991
Total	¥ 7,527,910	¥ 7,532,720	\$ 68,034
Corresponding Liabilities to Assets Pledged as Collateral:			
Deposits	¥ 19,273	¥ 22,045	\$ 174
Call Money and Bills Sold	—	54,345	—
Payables under Repurchase Agreements	709,711	582,927	6,414
Borrowed Money	4,398,213	3,723,322	39,749

In addition to the foregoing, the following assets have been pledged as collateral for settlement of exchange and others, or as a substitution of margin of futures and others.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Securities	¥ 399,318	¥ 329,749	\$ 3,609

“Other Assets” include initial margins of futures, security deposits, cash collateral pledged for financial instruments, and cash collateral pledged for repurchase agreement transactions. Such amounts are as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Initial Margins of Futures Markets	¥ 53,270	¥ 5,937	\$ 481
Security Deposits	25,660	23,274	232
Cash Collateral Pledged for Financial Instruments-Assets	785,742	801,997	7,101
Cash Collateral Pledged for Repurchase Agreement Transactions	3,198	8,759	29

5. Overdraft Facility Agreements and Commitment Lines of Credit

Overdraft facility agreements and commitment lines of credit are agreements to extend a certain amount of credit at the customer's request as long as the terms of the agreement have not been violated. The amounts of unused credit under such agreements were ¥14,042,261 million (U.S. \$126,907 million) and ¥12,416,801 million, of which ¥8,776,924 million (U.S. \$79,322 million) and ¥8,133,494 million were attributable to agreements expiring within one year or which may be unconditionally canceled at any time, as of March 31, 2021 and 2020, respectively.

The balance of unused credit will not necessarily affect the future cash flows of SuMi TRUST Bank and its consolidated

subsidiaries because most of these agreements expire without credit being extended. Most of these agreements contain clauses allowing SuMi TRUST Bank and its consolidated subsidiaries to reject requests for credit outright or reduce the credit limits due to changed financial circumstances, the need to preserve claims, or other reasonable causes. Besides requesting collateral, such as real estate or securities, as necessary at the time of entering into the agreement, SuMi TRUST Bank has also adopted other measures to keep its credit sound, such as periodically assessing the condition of customers' businesses following the internal procedures and revising agreements, as necessary.

6. Tangible Fixed Assets

Tangible fixed assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Land	¥ 139,523	¥ 123,612	\$ 1,261
Buildings	73,283	73,316	662
Lease Assets	5,015	5,178	45
Construction in Progress	108	370	1
Other	17,500	18,458	158
Total	¥ 235,430	¥ 220,936	\$ 2,128

Accumulated depreciation amounted to ¥177,540 million (U.S. \$1,605 million) and ¥172,832 million, and advance depreciation amounted to ¥27,792 million (U.S. \$251 million) and ¥28,085 million as of March 31, 2021 and 2020, respectively.

In accordance with the Act on Revaluation of Land (Act No. 34, promulgated on March 31, 1998), land for commercial use of SuMi TRUST Bank was revalued, and the amount equivalent to the taxes on the resulting valuation difference was recorded as a "Deferred Tax Liabilities for Land Revaluation" in liabilities, and the amount net of such difference was recorded as a "Revaluation Reserve for Land" in net assets.

Revaluation date: March 31, 1998 and March 31, 1999
Revaluation method prescribed by Paragraph 3 of Article 3 of the Act:

The revaluation was calculated by reasonably adjusting the value of land based on the following prices: the posted prices for benchmark properties as prescribed by Item 1 of Article 2 of the "Order for Enforcement of the Act on Revaluation of Land" (Cabinet Order No. 119, promulgated on March 31, 1998); the standard prices for benchmark properties as prescribed by Item 2 of Article 2, the registered prices in tax lists for such land for commercial use as prescribed by Item 3 of Article 2; and the land assessments under Item 4 of Article 2 of the same Order.

7. Intangible Fixed Assets

Intangible fixed assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Software	¥ 64,813	¥ 75,892	\$ 586
Goodwill	16,877	21,276	153
Lease Assets	—	0	—
Other	3,706	3,746	33
Total	¥ 85,397	¥ 100,915	\$ 772

8. Other Assets

Other assets as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Domestic Exchange Settlement Account, Debit	¥ 1,177	¥ 1,057	\$ 11
Prepaid Expenses	5,566	6,127	50
Accrued Income	110,652	121,132	1,000
Initial Margins of Futures Markets	53,270	5,937	481
Variation Margins of Futures Markets	2,150	1,994	19
Financial Derivatives Other Than Trading Assets	621,260	429,482	5,615
Receivables for Securities Transactions	143,708	192,369	1,299
Cash Collateral Pledged for Financial Instruments-Assets	785,742	801,997	7,101
Other	493,778	512,576	4,463
Total	¥ 2,217,308	¥ 2,072,673	\$ 20,039

9. Deposits

Deposits as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Current Deposits, Ordinary Deposits, Saving Deposits and Deposits at Notice	¥ 9,457,729	¥ 8,548,735	\$ 85,474
Time Deposits	23,071,332	20,774,636	208,507
Other	965,371	1,393,668	8,725
Total	¥ 33,494,433	¥ 30,717,040	\$ 302,706

(Unaudited information) In the event of receivership, winding up proceedings or equivalent proceedings of the bank, Japanese law does not require our bank to confer lower priority to depositors of the foreign offices of our bank, vis-à-vis our home country depositors in the repayment of deposits.

10. Borrowed Money

Borrowed money as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Subordinated Borrowings	¥ 670,000	¥ 700,000	\$ 6,055
Other Borrowed Money	5,722,602	5,796,384	51,718
Total	¥ 6,392,602	¥ 6,496,384	\$ 57,773

Weighted average interest rates on borrowed money were 0.20% and 0.33% for the fiscal years ended March 31, 2021 and 2020, respectively.

Annual maturities of borrowed money as of March 31, 2021, for the next five years are as follows:

Fiscal Years Ending March 31	Millions of Yen		Millions of U.S. Dollars
	2021	2021	2021
2022	¥ 1,669,700		\$ 15,090
2023	200,281		1,810
2024	813,327		7,350
2025	2,387,735		21,579
2026	157,506		1,423
Total	¥ 5,228,551		\$ 47,253

11. Bonds Payable

Bonds payable as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Perpetual Subordinated Bonds	¥ 16,100	¥ 16,100	\$ 146
Subordinated Bonds	154,495	274,494	1,396
Other Bonds Payable	765,010	194,773	6,914
Total	¥ 935,605	¥ 485,368	\$ 8,456

Annual maturities of bonds payable as of March 31, 2021, for the next five years are as follows:

Fiscal Years Ending March 31	Millions of Yen		Millions of U.S. Dollars
	2021		2021
2022	¥ 2,595,546		\$ 23,457
2023	60,000		542
2024	419,612		3,792
2025	16,500		149
2026	190,650		1,723
Total	¥ 3,282,308		\$ 29,664

12. Borrowed Money from Trust Account

Borrowed money from trust account represents surplus funds in the trust accounts loaned to the banking account and utilized.

13. Other Liabilities

Other liabilities as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Domestic Exchange Settlement Account, Credit	¥ 963	¥ 1,123	\$ 9
Income Taxes Payable	7,024	16,567	63

	2021	2020	2021
Net Expenses on Trading Securities and Derivatives	¥ 391	¥ —	\$ 4
Net Expenses on Trading Transactions	2,097	—	19
Net Expenses on Trading-Related Financial Derivatives Transactions	30,812	—	278
Total	¥ 33,300	¥ —	\$ 301

3. Other Ordinary Income and Expenses

(1) Other ordinary income for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Net Gains on Foreign Exchange Transactions	¥ 79,401	¥ 49,901	\$ 718
Gains on Sales and Redemption of Bonds	14,833	45,717	134
Net Income from Derivatives Other Than for Trading or Hedging	22,407	—	203
Others	289,158	253,031	2,613
Total	¥ 405,800	¥ 348,650	\$ 3,667

(2) Other ordinary expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Losses on Sales and Redemption of Bonds	¥ 22,678	¥ 11,295	\$ 205
Others	267,432	269,984	2,417
Total	¥ 290,111	¥ 281,279	\$ 2,622

4. Other Income and Expenses

(1) Other income for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Gains on Sales of Stocks and Other Securities	¥ 99,114	¥ 64,993	\$ 896
Gains on Money Held in Trust	69	70	1
Recoveries of Written-Off Claims	809	1,149	7
Equity in Earnings of Affiliated Companies	8,735	8,612	79
Gains on Disposal of Fixed Assets	150	3,154	1
Others (Note)	42,260	15,549	382
Total	¥ 151,138	¥ 93,529	\$ 1,366

(Note) "Others" include extraordinary income of ¥37,580 million (U.S. \$340 million) which was recognized as SuMi TRUST Bank charged the full amount of past service costs for retirement benefits to profit or loss in the fiscal year they occur as described in "Changes in Accounting Policies."

(2) Other expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Provision for Allowance for Loan Losses	¥ 3,277	¥ 39,972	\$ 30
Losses on Sales of Loans	—	972	—
Write-Off of Loans	4,272	3,475	39
Losses on Sales of Stocks and Other Securities	141,995	13,036	1,283
Losses on Impairment of Stocks and Other Securities	491	16,731	4
Losses on Disposal of Fixed Assets	708	704	6
Losses on Impairment of Fixed Assets (Note)	20,786	19,360	188
Losses on Investment in Partnerships	3,853	2,397	35
Others	30,889	18,613	279
Total	¥ 206,275	¥ 115,262	\$ 1,864

(Note) SuMi TRUST Bank Group has revised the cost restructure reform and the strategies at branches considering the new normal as a result of the change in business environment due to the spread of COVID-19. In addition, SuMi TRUST Bank Group has continuously implemented initiatives to enhance management accounting. The application method of asset impairment accounting for fixed assets has been revised to apply these initiatives. In particular, SuMi TRUST Bank switched the asset group under the asset impairment accounting from a branch or other asset groups to six operating segments. In addition, SuMi TRUST Bank now allocates corporate assets to each operating segment based on a reasonable method such as the number of personnel in each segment.

As a result of these revisions, impairment losses were recognized as the investment of operating assets for the Retail

Total Solution Services were deemed unrecoverable.

The impairment losses recognized due to the revision of the application method of asset impairment accounting described above were ¥19,976 million (U.S. \$181 million), which include impairment losses of tangible fixed assets of ¥1,655 million (U.S. \$15 million) and those of software of ¥18,320 million (U.S. \$166 million). The entire impairment losses including those due to the revision were ¥20,786 million (U.S. \$188 million), which include impairment losses of tangible fixed assets of ¥1,893 million (U.S. \$17 million) and those of software of ¥18,892 million (U.S. \$171 million).

The recoverable amounts of the asset groups described above are measured by value in use, which is calculated by discounting future cash flows measured in the business plan and others by the discount rate of 6.9%.

5. General and Administrative Expenses

General and administrative expenses for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Taxes Other Than Income Taxes	¥ 15,906	¥ 17,001	\$ 144
Personnel Expenses	170,750	171,906	1,543
Others	179,144	196,272	1,619
Total	¥ 365,801	¥ 385,180	\$ 3,306

Note to the Consolidated Statement of Comprehensive Income**Reclassification Adjustments and the Related Tax Effects Concerning Other Comprehensive Income**

Reclassification adjustments and the related tax effects concerning other comprehensive income for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

Notes to the Consolidated Statement of Changes in Net Assets

1. Class and the Number of Issued Shares of Common Stock

Classes and the number of issued shares of common stock for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

	Thousands of Shares				
	Authorized	Number of Shares Outstanding at the Beginning of the Fiscal Year	Increase	Decrease	Number of Shares Outstanding at the End of the Fiscal Year
March 31, 2021					
Number of Issued Shares:					
Common Share	3,000,000	1,674,537	—	—	1,674,537

	Thousands of Shares				
	Authorized	Number of Shares Outstanding at the Beginning of the Fiscal Year	Increase	Decrease	Number of Shares Outstanding at the End of the Fiscal Year
March 31, 2020					
Number of Issued Shares:					
Common Share	3,000,000	1,674,537	—	—	1,674,537

2. Subscription Rights to Shares

There were no subscription rights to shares for the fiscal years ended March 31, 2021 or 2020.

3. Dividends

Dividends paid for the fiscal years ended March 31, 2021 and 2020, consisted of the following:

As for the fiscal year ended March 31, 2021:

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen (Millions of U.S. Dollars)		Yen (U.S. Dollars)		
June 26, 2020						
Ordinary General Meeting of Shareholders	Common Share	¥ 21,735 (\$196)	Retained Earnings	¥ 12.98 (\$0.12)	March 31, 2020	June 29, 2020

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen (Millions of U.S. Dollars)		Yen (U.S. Dollars)		
November 12, 2020						
Board of Directors' Meeting	Common Share	¥ 28,132 (\$254)	Retained Earnings	¥ 16.80 (\$0.15)	September 30, 2020	December 1, 2020

Dividends with a record date during the current fiscal year ended March 31, 2021, but whose effective date is after March 31, 2021, are as follows:

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen (Millions of U.S. Dollars)		Yen (U.S. Dollars)		
June 23, 2021						
Ordinary General Meeting of Shareholders	Common Share	¥ 19,843 (\$179)	Retained Earnings	¥ 11.85 (\$0.11)	March 31, 2021	June 24, 2021

As for the fiscal year ended March 31, 2020:

(1) Cash dividends paid

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen		Yen		
June 27, 2019						
Ordinary General Meeting of Shareholders	Common Share	¥ 36,270	Retained Earnings	¥ 21.66	March 31, 2019	June 28, 2019
		¥ 48,544	Capital Surplus	¥ 28.99	March 31, 2019	June 28, 2019

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen		Yen		
November 13, 2019						
Board of Directors' Meeting	Common Share	¥ 57,269	Retained Earnings	¥ 34.20	September 30, 2019	December 2, 2019

(2) Dividends-in-kind distributed

Resolution	Type of Shares	Type of Dividend Property	Carrying Amount of the Dividend Property	Dividend Resources	Cash Dividends per Share ^(Note)	Record Date	Effective Date
			Millions of Yen		Yen		
June 27, 2019							
Ordinary General Meeting of Shareholders	Common Share	Securities	¥ 107,921	Retained Earnings	¥ —	March 31, 2019	July 1, 2019

(Note) Amounts available for dividends will be allocated in full to the sole owner of the common stock, SuMi TRUST Holdings, and therefore, the amount of cash dividends per share is not determined.

Dividends with a record date during the fiscal year ended March 31, 2020, but whose effective date is after March 31, 2020 are as follows:

Resolution	Type of Shares	Cash Dividends Declared	Dividend Resources	Cash Dividends per Share	Record Date	Effective Date
		Millions of Yen		Yen		
June 26, 2020						
Ordinary General Meeting of Shareholders	Common Share	¥ 21,735	Retained Earnings	¥ 12.98	March 31, 2020	June 29, 2020

Note to the Consolidated Statement of Cash Flows

Reconciliation of Cash and Cash Equivalents

The following table reconciles cash and cash equivalents in the consolidated statement of cash flows and cash and due from banks in the consolidated balance sheet as of March 31, 2021 and 2020.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Cash and Due from Banks	¥ 18,430,787	¥ 13,087,816	\$ 166,568
Due from Banks (Excluding Due from the Bank of Japan)	(1,689,616)	(2,181,167)	(15,270)
Cash and Cash Equivalents	¥ 16,741,171	¥ 10,906,648	\$ 151,298

Leases

1. Finance Leases

As a lessee:

Finance leases that do not transfer ownership of the lease assets to lessees

1) Description of lease assets

i) Tangible fixed assets

Mainly branch buildings and office equipment

ii) Intangible fixed assets

Software

2) Method for amortizing lease assets

Refer to “(4) Depreciation and Amortization Methods” of “4. Significant Accounting Policies” in the Significant Accounting Policies and Practices.

2. Operating Leases

As a lessee:

Total future lease payments under non-cancelable operating leases as of March 31, 2021 and 2020, were as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Due in One Year or Less	¥ 2,574	¥ 2,564	\$ 23
Due in More Than One Year	11,551	12,970	104
Total	¥ 14,125	¥ 15,534	\$ 128

As a lessor:

Total future lease payments under non-cancelable operating leases as of March 31, 2021 and 2020, were as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Due in One Year or Less	¥ 6,492	¥ 5,364	\$ 59
Due in More Than One Year	49,946	24,470	451
Total	¥ 56,439	¥ 29,835	\$ 510

Financial Instruments

1. Circumstances of Financial Instruments

(1) Policy on Financial Instruments

SuMi TRUST Bank Group is engaged in a variety of financial service businesses, primarily trust banking business operated by SuMi TRUST Bank. To facilitate these businesses, SuMi TRUST Bank Group raises funds through deposits from individual and corporate customers, borrowed money, and issuance of corporate bonds, and manages such funds as loans to individual and corporate customers, and securities on the investment side.

Each group company determines policies as well as measures for investing and funding financial assets and financial liabilities under its annual plan.

SuMi TRUST Holdings monitors risks associated with the group-wide financial assets and liabilities.

SuMi TRUST Bank monitors its respective risks while implementing comprehensive Asset-Liability Management (ALM). Meanwhile, SuMi TRUST Bank conducts derivatives transactions to control the market risk and other risks arising from its assets and liabilities within the level commensurate with its financial capacity. SuMi TRUST Bank is also engaged in trading securities and derivatives through trading accounts ("Trading Accounts") that are segregated from other accounts ("Banking Accounts") in accordance with Article 13-6-3 of the Ordinance for Enforcement of the Banking Act. Some consolidated subsidiaries are also engaged in trading securities.

(2) Description and Risks of Financial Instruments

1) Trading accounts

SuMi TRUST Bank Group deals with over-the-counter (OTC) and listed derivatives transactions related to interest rates, exchange rates, bonds, credits, and commodities as well as trading securities. These derivatives transactions are exposed to risks associated with fluctuation in interest rates, exchange rates, prices, credit risks, and other risks.

2) Banking accounts

Financial assets of SuMi TRUST Bank Group are primarily loans to corporations and individuals in Japan and such assets are exposed to credit risks arising from default on contracts by customers.

Securities mainly consist of stocks and bonds that are held as strategic investments, and for business development. These securities are exposed to issuers' credit risks, and risks associated with fluctuation in interest rates and market prices.

Deposits from individuals and corporations, borrowed money, and bonds payable are exposed to liquidity risks as becoming insolvent at their maturities, such as being out of markets under certain circumstances.

SuMi TRUST Bank Group deals with OTC and listed derivatives transactions related to interest rates, exchange rates, stocks, bonds, and credits for avoiding market risks.

To reduce interest rate risk, a major risk, SuMi TRUST Bank Group comprehensively manages various financial assets and liabilities, such as loans and bills discounted and deposits, by categorizing them based on characteristics of their interest rate risks, and applies hedge accounting to hedge such risk using interest rate swaps designated as hedging instruments. The hedge accounting is applied to some assets and liabilities by individual transaction.

To mitigate the exchange rate risk arising from various financial assets and liabilities of SuMi TRUST Bank denominated in foreign currencies, hedge accounting is applied to the exchange rate risk of foreign currency assets and liabilities designated as hedged items, using currency swaps and foreign exchange swaps designated as hedging instruments.

The details of hedge accounting are described in "Significant Accounting Policies and Practices."

(3) Risk Management for Financial Instruments

SuMi TRUST Bank Group considers that the basis of group-wide risk management is to ensure the effectiveness of PDCA (Plan, Do, Check, Action) cycles for each risk category according to the "Risk Management Policy" established by the board of directors.

The risk management framework of each risk category is as follows:

1) Credit risk management

Credit risk is the risk of financial loss of SuMi TRUST Bank Group when a customer or counterparty fails to meet its contractual obligations, and such risk is generated from claims, mainly loans, bills discounted, and securities. Credit risk is the most basic financial risk related to a credit creating function. SuMi TRUST Bank Group continuously diversifies its credit portfolios and builds up a stronger customer base by expanding its credit risk management framework further, and by meeting a new and sound demand for credit.

(a) Risk management policy on credit risk

The basic policy of SuMi TRUST Bank Group on credit risk management calls for "a diversified credit portfolio" and "strict management for individual credits."

For the former, SuMi TRUST Bank Group manages credit exposures of each customer based on its limited credit

amount, and periodically reviews impacts of identified risks to large customers and concentration in industry sectors, including the measurement of the credit risk. SuMi TRUST Bank Group makes efforts to mitigate credit concentration risk on a country-by-country basis by managing the diversification of the overall credit portfolio.

For the latter, SuMi TRUST Bank Group manages individual credits through processes such as credit screening, self-assessment, and internal credit ratings. Credit ratings indicate the credit status of customers and the possibility of defaults on a scale, and provide the basis for credit screening of individual transactions and credit portfolio management. SuMi TRUST Bank Group continuously evaluates solvency and collectability of credits based on the analysis, for instance the customer's financial condition, cash flows, and earning capacity through the self-assessment.

(b) Risk management framework for credit risk

In SuMi TRUST Bank, the board of directors decides on important matters related to credit risk management when developing management plans. The board of directors also decides on credit strategy and economic capital allocation plans, and approves the "Self-Assessment Rules" based on reports on credit risk management, including asset-assessment management, to ensure the soundness of the assets. As for screening and credit management of each case, the Global Credit Supervision Department is segregated from branches as part of a check-and-balance system. Furthermore, the Research Department evaluates credit risks by implementing internal credit ratings based on industry research and credit analysis of individual companies along with performing quantitative analysis from a neutral standpoint. SuMi TRUST Bank periodically holds a meeting of the Executive Committee and Credit Risk Committee to deliberate on material matters of controlling and managing credit risks. SuMi TRUST Bank has built up an appropriate management framework for risk management through the check-and-balance function, the committees' discussions, and the validation of the credit risk management and operation by the Risk Management Department.

2) Market risk management

Market risk is the risk of financial loss of SuMi TRUST Bank Group through changes in income and value of assets and liabilities held, including off-balance items, due to fluctuations in various market risk factors, such as interest rates, exchange rates, equity prices, commodity prices, and credit spreads.

(a) Risk management policy on market risk

In managing market risk, SuMi TRUST Bank Group ensures the soundness of its business by appropriately controlling risks, and strives to secure reasonable profits which correspond to strategic goals, the scale and nature of its operations, and risk profiles through an advanced risk management framework.

(b) Risk management framework for market risk

With regard to market risk, SuMi TRUST Bank Group maintains a basic policy for setting and controlling various risk limits and segregation of organizations related to market risk under its Rules for Risk Management. The practical application of the basic policy is stated in the Rules for Market Risk Management. Divisions that execute transactions (the front office) are clearly segregated from divisions that process transactions (the back office) for independent check purposes, and the Risk Management Department, which is independent from both of the front and back offices, centrally manages market risk. This department identifies and analyzes group-wide risk, tracks adherence to risk limits, and reports to respective directors in charge on a daily basis and to the board of directors periodically.

In SuMi TRUST Bank, the board of directors resolves ALM basic plans and risk management plans as important matters related to market risk under management plans. The ALM Committee resolves basic matters of ALM basic plans and risk management plans related to market risk regarding company-wide comprehensive risk management for assets and liabilities.

In SuMi TRUST Bank, the Risk Management Department is responsible for planning and implementing market risk management. The role of the Risk Management Department includes measuring risk levels and profits or losses and monitoring the status of market risk managed under ALM basic plans and the status of compliance with risk limits. The department reports its findings to the members of the ALM Committee on a daily basis, and to the ALM Committee as well as the board of directors periodically.

(c) Market risk management approach

SuMi TRUST Bank Group uses Value at Risk ("VaR") to measure market risk exposures. VaR uses historical market fluctuation to statistically predict the maximum expected losses under specific conditions. Based on an internal model developed by SuMi TRUST Bank Group, SuMi TRUST Bank manages market risks by measuring VaR, calculating various risk management indicators, and carrying out various simulations.

VaR based on the internally developed model is calculated basically using the historical simulation method. Market risk can be classified into categories, such as interest rate risk, stock price risk, exchange rate risk, and others according to its characteristics. SuMi TRUST Bank calculates market risk by simply adding up the risks of all categories without considering the correlation among these categories.

(d) Quantitative information related to market risk

(i) Trading accounts

SuMi TRUST Bank Group uses VaR for managing risks associated with trading securities and some currency and interest-related derivatives transactions held in the Trading Accounts. The VaR model used is primarily based on the historical simulation method (with a holding period of 10 business days, confidence interval of 99%, and observation period of 1,300 business days).

As of March 31, 2021, the total amount of market risk (estimated potential loss) of financial instruments held by SuMi TRUST Bank Group in the Trading Accounts was ¥9.3 billion (U.S. \$84 million).

SuMi TRUST Bank Group performs back testing that compares the results of VaR calculations based on its internal model with actual profits or losses. The back testing for the fiscal year ended March 31, 2021, resulted in zero instances where actual losses were in excess of VaR; therefore, SuMi TRUST Bank Group considers that the measurement model properly captures market risk with sufficient accuracy. However, as VaR measures the amount of market risk under certain probabilities statistically calculated based on the past volatility, it may not properly capture those risks under extreme market movements.

(ii) Banking accounts

SuMi TRUST Bank Group uses VaR for managing risks associated with financial assets and liabilities held in the Banking Accounts. The historical simulation method is the primary measurement method (with a holding period of a maximum of one year according to a position; confidence interval of 99%; and observation period of 1,300 business days).

As of March 31, 2021, the total amount of market risk (estimated potential loss) of financial instruments held by SuMi TRUST Bank Group in the Banking Account was ¥857.0 billion (U.S. \$7,745 million).

SuMi TRUST Bank Group performs back testing on certain positions held in the "Banking Accounts" that compares the results of VaR calculations based on its internal model with actual profits or losses regarding financial assets and liabilities

subject to measurement. SuMi TRUST Bank Group considers that the measurement model properly captures market risk with sufficient accuracy. However, as VaR measures the amount of market risk under certain probabilities statistically calculated based on past volatility in the market, it may not properly capture those risks under extreme market movements.

3) Funding liquidity risk management

Funding liquidity risk is the risks of financial loss to SuMi TRUST Bank Group when the Group fails to raise necessary funds or is forced to raise funds at significantly higher rates.

(a) Funding liquidity risks management policy

With regard to funding liquidity risk, SuMi TRUST Bank Group designs and implements a policy to build up a risk management framework for funding liquidity risk, recognizing that financial difficulties due to exposure to such risks could possibly lead SuMi TRUST Bank Group directly to bankruptcy under certain circumstances.

(b) Funding liquidity risk management framework and methods

Funding liquidity risk management departments determine the extent of SuMi TRUST Bank Group's cash crunch appropriately in cooperation with the liquidity management departments, while gathering and analyzing information related to both the internal environment, such as SuMi TRUST Bank Group's risk profiles, and external environment, such as economic circumstances or market conditions, based on the risk management plan approved by the board of directors semiannually.

To reduce funding liquidity risks, the liquidity management departments manage cash flow within the predetermined appropriate limits, and the liquidity management departments monitor its compliance.

(4) Supplementary Explanation Concerning Fair Value of Financial Instruments

Fair value of financial instruments is based on quoted prices in markets. If a quoted price is not available, a reasonably calculated amount is used as fair value. Calculation of such amounts involves certain assumptions and may vary when different assumptions are employed.

2. Fair Values of Financial Instruments

The carrying amounts on the consolidated balance sheet and fair values of financial instruments as of March 31, 2021 and 2020, as well as the differences between these values are presented below. The fair values of unlisted stocks are excluded from the following table because such fair values are extremely difficult to be determined (see Note 2).

	Millions of Yen			Millions of U.S. Dollars		
	2021			2021

(*1) The allowance for credit losses corresponding to Cash and Due from Banks, Monetary Claims Bought, and Lease Receivables and Investment Assets is directly deducted from the carrying amounts on the consolidated balance sheet because the balance of the allowance is immaterial.

(*2) A general allowance for loan losses and specific allowances for loan losses are deducted from Loans and Bills Discounted.

(*3) Derivatives transactions recorded in Trading Assets and Trading Liabilities or in Other Assets and Other Liabilities are presented collectively.

Receivables and payables arising from derivatives transactions are presented on a net basis. Negative figures represent a liability balance after netting.

(*4) Derivative transactions qualifying for hedge accounting include interest rate swaps designated as hedging instruments to fix cash flows of hedged items such as loans and bills discounted, and deferred hedges have been adopted, in principle. In addition, "Practical Solution on the Treatment of Hedge Accounting for Financial Instruments that Reference LIBOR" (ASBJ PITF No. 40 September 29, 2020) has been adopted to these hedge transactions.

(Note 1) Method for Calculating Fair Values of Financial Instruments

Assets

(1) Cash and Due from Banks, (2) Call Loans and Bills Bought, (3) Receivables under Resale Agreements, (4) Receivables under Securities Borrowing Transactions, and (10) Foreign Exchanges

These instruments with transactions without stated maturities are stated at their carrying amounts because the carrying amounts approximate fair value. For transactions with stated maturities, corresponding instruments are stated at their carrying amounts because most of such transactions have short contractual terms (one year or less) and the carrying amounts approximate fair value.

(5) Monetary Claims Bought

Fair values of monetary claims bought for which counterparties' quoted prices or dealer/broker-quoted prices are available are stated at such prices. Fair values for all other claims are calculated by classifying them according to their internal ratings and maturities and discounting future cash flows to their present values.

(6) Trading Assets

Bonds and other securities held for trading purposes are stated at dealer association prices or counterparties' quoted prices. For short-term corporate bonds, their fair values are calculated by discounting future cash flows to their present values.

(7) Money Held in Trust

Securities managed as trust assets in money held in trust, which are individually managed with the principal objective of securities portfolio management, are stated at quoted market prices or dealer/broker-quoted prices. Notes regarding money held in trust by holding purposes are presented under the "Money Held in Trust" section.

(8) Securities

Stocks are stated at quoted market prices. Bonds are stated at quoted market prices, dealer association prices, counterparties' quoted prices, or dealer/broker-quoted prices. Investment trusts are stated at published reference prices. Fair values of privately placed bonds guaranteed by SuMi TRUST Bank are calculated by classifying them according to their internal ratings and maturities, and discounting future cash flows to their present value.

Notes regarding securities by their holding purpose are presented under the "Securities" section.

(9) Loans and Bills Discounted

Fair values of loans and bills discounted are calculated by grouping loans according to loan terms, internal ratings, and maturities and discounting the aggregate principal and interest by the assumed interest rate for similar new loans. However, floating-rate loans for which their carrying amounts are deemed to approximate fair value, due to the nature of the loan or the borrower's credit situation subsequent to the execution of the loans, are stated at their carrying amounts.

For claims executed to borrowers who went into legal bankruptcy, virtual bankruptcy, and possible bankruptcy, estimated loan losses are calculated based on the present value of estimated future cash flows or the expected recoverable amounts from collateral or guarantees. Therefore, fair values for these claims are stated at the amounts by deducting the allowance for loan losses from the amounts in the consolidated balance sheet at the consolidated balance sheet date, because such deducted amounts approximate fair value.

Loans without stated maturities (as the amount of credit is limited to the value of the collateral or due to some other special characteristics) are stated at their carrying amounts as the carrying amounts are deemed to approximate the fair values because of the expected repayment periods and the interest terms.

(11) Lease Receivables and Investment Assets

Fair values of lease receivables and investment assets are calculated by grouping these assets according to their internal ratings and maturities, and discounting the aggregate principal and interest by the assumed interest rate for similar new agreements.

Liabilities

(1) Deposits and (2) Negotiable Certificates of Deposit

Demand deposits are stated at the amount that would have to be paid on demand at the consolidated balance sheet date (carrying amount).

Yen fixed-rate time deposits are grouped by product type and stated at the present value of their future cash flows discounted by the rates that would be paid on new deposits. Fixed-rate time deposits with short maturities (one year or less) and floating-rate time deposits are generally stated at their carrying amounts because the carrying amounts approximate the fair values.

(3) Call Money and Bills Sold, (4) Payables under Repurchase Agreements, (6) Foreign Exchanges, (7) Short-Term Bonds Payable, and (9) Borrowed Money from Trust Account

The obligations without stated maturities are stated at the amounts that would have to be paid on demand at the consolidated balance sheet date (carrying amount). Obligations with stated maturities are stated at their carrying amounts because most of obligations have short contractual terms (one year or

less) and the carrying amounts approximate the fair values.

(5) Borrowed Money

Borrowed money at floating rates is stated at their carrying amounts. The carrying amounts are deemed to approximate fair value because such amounts reflect short-term market interest rates, and there have been no significant changes in credit condition subsequent to undertaking the borrowed money. Fair values of borrowed money at fixed rates are calculated by discounting their future cash flows by the assumed interest rate on similar borrowings. Fair values for obligations with short maturities (one year or less) are stated at their carrying amounts because they approximate fair value.

(8) Bonds Payable

Bonds issued by SuMi TRUST Bank and its consolidated subsidiaries are stated at market prices, if such prices are available. Fair values for other bonds are calculated by discounting future cash flows to their present values by the assumed interest rate on issuance of similar bonds.

Derivatives Transactions

Notes regarding fair values of derivatives are presented under the "Derivatives" section.

(Note 2) The amounts of financial instruments on the consolidated balance sheet whose fair values are extremely difficult to be determined are as stated below, and such amounts are not included in the fair value information for financial instruments presented under the "Assets, (5) Monetary Claims Bought" or "Assets, (8) Available-for-Sale Securities" section.

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
	Carrying Amount	Carrying Amount	Carrying Amount
Monetary Claims Bought	¥ 6,165	¥ 11,227	\$ 56
Securities	227,493	194,071	2,056
(1) Unlisted Stocks (*3)	64,237	59,209	581
(2) Investments in Associations	123,514	103,219	1,116
(3) Others (*3)	39,741	31,642	359
Total	¥ 233,659	¥ 205,299	\$ 2,112

(*1) The above financial instruments are excluded from the fair value disclosure because there are no quoted market prices, and therefore, there is no reliable measure of fair value.

(*2) Stocks of subsidiaries and affiliated companies are not included in the above table.

(*3) During the fiscal year ended March 31, 2021, impairment losses of ¥352 million (U.S. \$3 million) were recognized against Unlisted Stocks.

During the fiscal year ended March 31, 2020, impairment losses of ¥1,735 million and ¥440 million were recognized against Unlisted Stocks and Others, respectively.

Total	\$ 27,233	\$ 1,030	\$ 1,488

(Note) The above figures include "Available-for-Sale Securities" whose fair values are extremely difficult to be determined.

6. Securities Reclassified due to the Change of the Holding Purpose

There were no securities reclassified due to the change of the holding purpose during the fiscal years ended March 31, 2021 and 2020.

7. Impairment of Securities

Securities other than securities whose fair values are extremely difficult to be determined, or those deemed to be trading securities, are treated as impaired when their fair values have declined significantly from the acquisition cost and it is deemed unlikely to recover to the acquisition cost. Such securities are recorded at their fair values in the consolidated balance sheet. The difference between the acquisition cost and the fair values is recognized as an impairment loss.

Impairment losses on Stocks recognized during the fiscal years ended March 31, 2021 and 2020, were ¥139 million (U.S. \$1.3million) and ¥14,995 million, respectively.

The criteria for determining whether the fair values of securities have significantly declined are as follows:

For securities whose issuers are classified as "normal" under the asset self-assessment, a decline of 50% or more in the fair values compared with the acquisition cost; for securities whose issuers are classified as "close-observation borrowers," a decline of 30% or more in the fair values compared with the acquisition cost. In addition, the fair values of some securities are deemed unrecoverable and impairment losses are recognized when their fair values have declined more than 30%, but less than 50% from acquisition cost and the fair values have continued to decline over a certain period.

Money Held in Trust

1. Money Held in Trust for Trading Purposes

There was no money held in trust for trading purposes for the fiscal years ended March 31, 2021 and 2020.

2. Held-to-Maturity Money Held in Trust

There was no held-to-maturity money held in trust for the fiscal years ended March 31, 2021 and 2020.

3. Other Money Held in Trust (other than those held for trading purposes or held-to-maturity)

March 31, 2021	Millions of Yen				
	Carrying Amount	Acquisition Cost	Difference	Positive Difference	Negative Difference
Other Money Held in Trust	¥ 1,365	¥ 985	¥ 380	¥ 380	¥ —

March 31, 2020	Millions of Yen				
	Carrying Amount	Acquisition Cost	Difference	Positive Difference	Negative Difference
Other Money Held in Trust	¥ 1,406	¥ 981	¥ 424	¥ 424	¥ —

March 31, 2021	Millions of U.S. Dollars				
	Carrying Amount	Acquisition Cost	Difference	Positive Difference	Negative Difference
Other Money Held in Trust	\$ 12	\$ 9	\$ 3	\$ 3	\$ —

(Note) The amount of "Difference" is net of "Positive Difference" and "Negative Difference."

Valuation Differences on Available-for-Sale Securities

The following table shows components of Valuation Differences on Available-for-Sale Securities in the consolidated balance sheet.

March 31	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Valuation Differences			
Available-for-Sale Securities	¥ 492,061	¥ 526,335	\$ 4,447
Other Money Held in Trust	380	424	3
Total Valuation Differences	492,441	526,760	4,450
Amount Equivalent to Deferred Tax Assets (Liabilities)	(149,138)	(160,215)	(1,348)
Total (Before Adjustment for Non-Controlling Interests and Parent Company's Portions in Available-for-Sale Securities Owned by its Affiliated Companies)	343,303	366,544	3,103
Non-Controlling Interests	(159)	(74)	(1)
Parent Company's Portions in Available-for-Sale Securities Owned by its Affiliated Companies	1,910	3,454	17
Valuation Differences on Available-for-Sale Securities	¥ 345,053	¥ 369,924	\$ 3,118

(Notes)

1) Foreign currency translation adjustments on available-for-sale securities, for which fair values are extremely difficult to be determined, are included in the "Available-for-Sale Securities" under "Valuation Differences."

2) The valuation difference of ¥2,288 million (U.S. \$21 million) and ¥2,132 million on available-for-sale securities composing assets held by associated companies as of March 31, 2021 and

2020, respectively, is included in "Available-for-Sale Securities" under "Valuation Differences."

3) The unamortized portion of valuation difference as of March 31, 2020 arising from the reclassification of the holding purpose of securities is included in "Available-for-Sale Securities" under "Valuation Differences."

Derivatives

1. Derivatives Transactions Not Qualifying for Hedge Accounting

Derivatives transactions not qualifying for hedge accounting are grouped by type of underlying transactions. The notional amounts (or the amount equivalent to the principal specified in the contracts), the fair values, and the valuation differences as of the consolidated balance sheet date, as well as the methods for determining such fair values are presented below. The notional amounts do not reflect the market risk associated with the derivatives.

(1) Interest-Related Transactions

Interest-related transactions not qualifying for hedge accounting as of March 31, 2021 and 2020, consist of the following:

(Notes)

1) The above transactions are stated at their fair values and valuation differences are recorded in the consolidated statement of income.

2) The fair values of listed derivative transactions are based on the closing prices on the Osaka Exchange and other exchanges. The fair values of OTC transactions are calculated using option-pricing models.

(5) Commodity-Related Transactions

There were no commodity-related transactions not qualifying for hedge accounting as of March 31, 2021 and 2020.

(6) Credit Derivatives Transactions

Credit derivatives transactions not qualifying for hedge accounting as of March 31, 2021 and 2020, consist of the following:

	Millions of Yen				Millions of U.S. Dollars			
	2021				2021			
	Notional Amount		Fair Value	Valuation Difference	Notional Amount		Fair Value	Valuation Difference
Total	Over One Year	Total			Over One Year

Total			¥ 131	¥ 131

(Notes)

- 1) The above transactions are stated at their fair values and valuation differences are recorded in the consolidated statement of income.
- 2) The fair values are calculated using the net present value method.

- 3) "Sold" represents transactions under which the credit risk has been assumed, and "Purchased" represents transactions under which the credit risk has been transferred to another party.

2. Derivatives Transactions Qualifying for Hedge Accounting

Derivatives transactions qualifying for hedge accounting are grouped by type of underlying transactions. The notional amounts (or the amount equivalent to the principal specified in the contracts) and the fair values as of the consolidated balance sheet date, as well as the methods for determining such fair values are presented below. The notional amounts do not reflect the market risk associated with the derivatives.

(1) Interest-Related Transactions

Interest-related transactions qualifying for hedge accounting as of March 31, 2021 and 2020, consist of the following:

Major Hedged Item	Millions of Yen			Millions of U.S. Dollars		
	2021			2021		
	Notional Amount		Fair Value	Notional Amount		Fair Value

(Notes)

1) In principle, deferred hedge accounting stipulated in Guidance No. 25 and Report No. 25 is applied during the fiscal years ended March 31, 2021 and 2020, respectively.

2) Fair values are calculated mainly using the net present value method.

(3) Stock-Related Transactions

There were no stock-related transactions qualifying for hedge accounting as of March 31, 2021 or 2020.

(4) Bond-Related Transactions

There were no bond-related transactions qualifying for hedge accounting as of March 31, 2021 or 2020.

Retirement and Pension Plans**1. Outline of the Retirement Benefit Plans Adopted by SuMi TRUST Bank**

SuMi TRUST Bank has defined benefit plans (a corporate pension fund plan and a lump-sum retirement benefit plan). Additionally, a lump-sum retirement benefit plan is offered to contract employees according to internal rules. SuMi TRUST Bank also has a defined contribution pension plan and may provide extra retirement payments to retiring employees in some cases. SuMi TRUST Bank sets up employee retirement benefit trusts as part of its pension plan assets.

SuMi TRUST Bank partially revised defined benefit

corporate pension plans in April 2021 as described in Changes in Accounting Policies.

Other consolidated subsidiaries have lump-sum retirement benefit plans, defined benefit corporate pension plans, and defined contribution pension plans. Some consolidated subsidiaries also participate in multiple employer pension plan.

Some consolidated subsidiaries adopt the computational shortcut method in calculating liabilities for retirement benefits and retirement benefit expenses for their defined benefit corporate pension plans and lump-sum retirement benefit plans.

2. Defined Benefit Plans**(1) Reconciliation of Retirement Benefit Obligations**

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Retirement Benefit Obligations (opening balance)	¥ 460,872	¥ 464,353	\$ 4,165
Service Cost-Benefits Earned during the Fiscal Year	12,559	13,697	114
Interest Cost on Projected Benefit Obligations	2,276	2,339	21
Actuarial Gains and Losses that Arose during the Fiscal Year	8,985	154	81
Retirement Benefits Paid	(17,945)	(18,326)	(162)
Past Service Cost that Arose during the Fiscal Year	(37,734)	—	(341)
Other	—	(1,344)	—
Retirement Benefit Obligations (closing balance)	¥ 429,015	¥ 460,872	\$ 3,877

(2) Reconciliation of Plan Assets

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Plan Assets (opening balance)	¥ 535,869	¥ 589,793	\$ 4,843
Expected Return on Plan Assets	24,765	24,495	224
Actuarial Gains and Losses that Arose during the Fiscal Year	90,226	(72,913)	815
Contributions by the Employer	13,783	10,892	125
Retirement Benefits Paid	(16,180)	(16,398)	(146)
Plan Assets (closing balance)	¥ 648,464	¥ 535,869	\$ 5,860

(3) Reconciliation between Closing Balances of Retirement Benefit Obligations and Plan Assets, and Liabilities and Assets for Retirement Benefits Recorded in the Consolidated Balance Sheet

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Retirement Benefit Obligations of Retirement Benefit Plans with Plan Assets	¥ 417,826	¥ 450,076	\$ 3,776
Plan Assets	(648,464)	(535,869)	(5,860)
	(230,637)	(85,792)	(2,084)
Retirement Benefit Obligations of Retirement Benefit Plans without Plan Assets	11,188	10,796	101
Net of Liabilities and Assets Recorded in the Consolidated Balance Sheet	¥ (219,449)	¥ (74,996)	\$ (1,983)

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Liabilities for Retirement Benefits	¥ 11,696	¥ 12,079	\$ 106
Assets for Retirement Benefits	(231,145)	(87,075)	(2,089)
Net of Liabilities and Assets Recorded in the Consolidated Balance Sheet	¥ (219,449)	¥ (74,996)	\$ (1,983)

(4) Breakdown of Retirement Benefit Expenses

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Service Cost-Benefits Earned during the Fiscal Year	¥ 12,559	¥ 13,697	\$ 114
Interest Cost on Projected Benefit Obligations	2,276	2,339	21
Expected Return on Plan Assets	(24,765)	(24,495)	(224)
Amortization of Actuarial Differences	12,241	5,674	111
Amortization of Past Service Cost (Note)	(37,632)	28	(340)
Other	292	592	3
Retirement Benefit Expenses for Defined Benefit Obligations	¥ (35,028)	¥ (2,164)	\$ (317)

(Note) ¥37,580 million (U.S. \$340 million) of amortization of past service cost is recognized as extraordinary income for the fiscal year ended March 31, 2021.

(5) Remeasurements of Defined Benefit Plans

The breakdown of remeasurements of defined benefit plans (before tax effect) is as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Past Service Cost	¥ 101	¥ 28	\$ 1
Actuarial Differences	93,481	(67,393)	845
Total	¥ 93,583	¥ (67,365)	\$ 846

(6) Accumulated Remeasurements of Defined Benefit Plans

The breakdown of accumulated remeasurements of defined benefit plans (before tax effects) is as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Unrecognized Past Service Cost	¥ (295)	¥ (193)	\$ (3)
Unrecognized Actuarial Differences	6,759	100,240	61
Total	¥ 6,463	¥ 100,046	\$ 58

(7) Plan Assets

1) The asset categories and proportion of the total plan asset are as follows:

	Proportion (%)	
	2021	2020
Debt Securities	24	32
Equity Securities	62	53
Cash and Due from Banks	3	2
Other	11	13
Total	100	100

(Note) The total plan asset includes the retirement benefit trusts set up for a corporate pension plan and a lump-sum retirement benefit plan. They account for 59% and 52% of the total plan asset for the fiscal years ended March 31, 2021 and 2020, respectively.

2) Expected long-term rate of return on plan assets

In order to determine the expected long-term rate of return on plan assets, SuMi TRUST Bank considers the current and projected plan asset allocation, as well as the current and expected long-term rate of return on assets composing plan assets.

(8) Assumptions Used

Major assumptions used in actuarial calculation for the fiscal years ended March 31, 2021 and 2020, are as follows:

	2021	2020
Discount Rate	Mainly 0.5%	Mainly 0.5%
Expected Long-Term Rate of Return on Plan Assets	4.6%	4.1%

3. Defined Contribution Pension Plans

Contributions by SuMi TRUST Bank and its consolidated subsidiaries to the defined contribution pension plans were ¥1,784 million (U.S. \$16 million) and ¥1,882 million for the years ended March 31, 2021 and 2020, respectively.

Income Taxes

1. Deferred Tax Assets and Liabilities

Year Ended March 31	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Deferred Tax Assets:			
Impairment of Securities	¥ 18,982	¥ 18,891	\$ 172
Allowance for Loan Losses (Including Direct Write-Offs of Loans with Guarantees or Collateral)	46,756	48,197	423
Deferred Gains (Losses) on Hedges	18,381	25,662	166
Remeasurements of Defined Benefit Plans	2,196	30,674	20
Other	64,617	53,922	584
Subtotal	150,933	177,347	1,364
Valuation Allowance	(16,384)	(16,839)	(148)
Deferred Tax Assets	¥ 134,549	¥ 160,508	\$ 1,216
Deferred Tax Liabilities:			
Retirement Benefits	¥ (39,223)	¥ (23,034)	\$ (354)
Valuation Differences on Available-for-Sale Securities	(149,206)	(159,820)	(1,348)
Other	(9,818)	(11,278)	(89)
Deferred Tax Liabilities	¥ (198,249)	¥ (194,133)	\$ (1,792)
Net Deferred Tax Assets (Liabilities)	¥ (63,699)	¥ (33,625)	\$ (576)

2. Effective Income Tax Rate

Year Ended March 31	2021	2020
Effective Statutory Tax Rate	30.62%	—%
Adjustments:		
Changes in Valuation Allowance	(0.26)	—
Amortization of Goodwill	0.78	—
Share of Profit of Equity-Method Affiliated Companies	(1.55)	—
Permanent Differences (e.g., Cash Dividends Received)	(1.06)	—
Others	(1.38)	—
Effective Income Tax Rate	27.15%	—%

(Note) Disclosure on reconciliation between the effective statutory tax rate and the effective income tax rate is omitted since the difference was 5% or less of the effective statutory tax rate for the fiscal years ended March 31, 2020.

Segment Information

1. Reportable Segment Information

The SuMi TRUST Bank Group's reportable segments are defined as operating segments for which discrete financial information is available. The Board of Directors and the Executive Committee of SuMi TRUST Bank periodically receive reporting on the operating results and other relevant information of the reportable segments to make decisions about the allocation of management resources and to assess performance.

The reportable segments of SuMi TRUST Bank Group are determined based on services offered by SuMi TRUST Bank.

The main activities of the reportable segment are presented below:

Retail Total Solution Services:

Provision of services to individual customers

Wholesale Financial Services:

Provision of services to corporate customers

Stock Transfer Agency Services:

Undertaking of stock-related services on behalf of customers

Real Estate:

Provision of services related to the real estate business

Fiduciary Services:

Operation of the pension business, the asset management business, and the asset administration business

Global Markets:

Marketing operations, market-making operations, investment operations, and financial management operations

2. Method for Calculating Substantial Gross Business Profit and Net Business Profit by Each Reportable Segment

Segment information is prepared based on internal management reports and the accounting policies used for the reportable segments are generally the same as those presented under "Significant Accounting Policies and Practices"; however, the reportable segments are accounted for in accordance with the rules for the internal management.

Income earned from inter-segment and cross-segment

transactions is calculated by applying the criteria (market prices) specified in the rules for internal management.

"Fixed Assets" disclosed in the assets by reportable segments are the total amount of tangible fixed assets and intangible fixed asset. The assets owned by SuMi TRUST Bank are allocated to each segment.

3. Profit or Loss and Fixed Assets by Reportable Segment

	Millions of Yen							Total
	Retail Total Solution Services	Wholesale Financial Services	Stock Transfer Agency Services	Real Estate	Fiduciary Services	Global Markets	Others	
Year Ended March 31, 2021								
Gross Business Profit	¥ 122,773	¥ 148,846	¥ 23,542	¥ 31,199	¥ 54,870	¥ 69,761	¥ 992	¥ 451,985

	Millions of U.S. Dollars							Total
	Retail Total Solution Services	Wholesale Financial Services	Stock Transfer Agency Services	Real Estate	Fiduciary Services	Global Markets	Others	
Year Ended March 31, 2021								
Gross Business Profit	\$ 1,110	\$ 1,345	\$ 213	\$ 282	\$ 496	\$ 630	\$ 9	\$ 4,085
General and Administrative Expenses	(1,121)	(420)	(34)	(89)	(216)	(139)	(200)	(2,218)
Net Business Profit	\$ (11)	\$ 925	\$ 178	\$ 193	\$ 279	\$ 492	\$ (191)	\$ 1,867
Fixed Assets	\$ 607	\$ 300	\$ 20	\$ 80	\$ 151	\$ 177	\$ 1,565	\$ 2,899

(Notes)

1) The figures represent "Substantial Gross Business Profit" in substitution for net sales to be presented by companies in other industries.

2) The amounts of "Gross Business Profit" include net interest income, net trust fees, net fees and commissions, net trading income, and net other ordinary income and expenses.

- 3) "General and Administrative Expenses" include personnel expenses and rent expenses.
- 4) "Others" include costs of capital funding, dividends for shares for cross-shareholdings, and general and administrative expenses of headquarters.
- 5) "Fixed Assets" are allocated to each segment from the fiscal year ended March 31, 2021 in response to enhancement of management accounting.

- 6) The amount of "Fixed Assets" for each segment represents the amount of fixed assets owned by SuMi TRUST Bank. "Others" within "Fixed Assets" include corporate assets not allocated to any segment, fixed assets owned by consolidated subsidiaries outside the scope of allocation of resources, and adjustments for consolidation. For fixed assets not allocated to each segment, some of related expenses are allocated to each segment based on a reasonable allocation method.

4. Reconciliation Between Total Profit or Loss for Reportable Segments and Income before Income Taxes in the Consolidated Statement of Income

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Total Profit or Loss for Reportable Segments (Net Business Profit)	¥ 206,534	¥ 206,809	\$ 1,867
Net Business Profit of Consolidated Subsidiaries that are Excluded from the Reportable Segments (Note)	55,891	60,067	505
Other Income	151,138	93,529	1,366
Other Expenses	(206,275)	(115,262)	(1,864)
Other Adjustments	(34,166)	(29,785)	(309)
Income before Income Taxes	¥ 173,121	¥ 215,358	\$ 1,565

(Note) The amounts include elimination of internal transactions.

Related Information

1. Information by Services

Disclosure of information by services is omitted as similar disclosure is included in the "3. Profit or Loss by Reportable Segment" in the "Segment Information" section.

2. Geographic Information

(1) Income

Income by geographical area for the fiscal years ended March 31, 2021 and 2020, consists of the following:

Year Ended March 31, 2021	Millions of Yen				
	Japan	Americas	Europe	Asia and Oceania	Total
	¥ 1,144,306	¥ 70,189	¥ 34,235	¥ 44,552	¥ 1,293,283

Year Ended March 31, 2020	Millions of Yen				
	Japan	Americas	Europe	Asia and Oceania	Total
	¥ 1,095,455	¥ 160,783	¥ 87,244	¥ 106,270	¥ 1,449,753

Year Ended March 31, 2021	Millions of U.S. Dollars				
	Japan	Americas	Europe	Asia and Oceania	Total
	\$ 10,342	\$ 634	\$ 309	\$ 403	\$ 11,688

(Notes)

- 1) The figures represent Income in substitution for net sales to be presented by companies in other industries.
2) Income related to transactions by SuMi TRUST Bank (excluding oversea branches) and other domestic consolidated subsidiaries are presented under "Japan." Income related

to transactions by overseas branches of SuMi TRUST Bank and foreign consolidated subsidiaries are presented under "Americas," "Europe," or "Asia and Oceania" based on the location of each overseas branch and subsidiary, reflecting their geographical proximity.

(2) Tangible Fixed Assets

More than 90% of SuMi TRUST Bank Group's tangible fixed assets on the consolidated balance sheet as of March 31, 2021 and 2020, are located in Japan; accordingly, tangible fixed assets by geographical area are not presented.

3. Information by Major Customer

Due to highly diversified income-generating transactions between SuMi TRUST Bank Group and a significantly large number of SuMi TRUST Bank Group's customers, transactions are not classified by major counterparty; accordingly, information by major customer is not presented.

Information Related to Losses on Impairment of Fixed Assets by Reportable Segment

Losses on impairment of fixed assets recognized during the fiscal year ended March 31, 2021 are as follows:

	Millions of Yen							
	Retail Total Solution Services	Wholesale Financial Services	Stock Transfer Agency Services	Real Estate	Fiduciary Services	Global Markets	Others	Total
Year Ended March 31, 2021								
Losses on Impairment of Fixed Assets	¥ 19,976	¥ —	¥ —	¥ —	¥ —	¥ —	¥ 809	¥ 20,786

	Millions of U.S. Dollars							
	Retail Total Solution Services	Wholesale Financial Services	Stock Transfer Agency Services	Real Estate	Fiduciary Services	Global Markets	Others	Total
Year Ended March 31, 2021								
Losses on Impairment of Fixed Assets	\$ 181	\$ —	\$ —	\$ —	\$ —	\$ —	\$ 7	\$ 188

Losses on impairment of fixed assets are not allocated to the reportable segments for the fiscal year ended March 31, 2020. Losses on impairment of fixed assets recognized during the fiscal year ended March 31, 2020 were ¥19,360 million.

Information Related to Amortization of Goodwill and Unamortized Balance of Goodwill by Reportable Segment

Amortization of goodwill and unamortized balance of goodwill are not allocated to the reportable segments.

Amortization of goodwill recognized during the fiscal years ended March 31, 2021, and 2020, were ¥4,399 million (U.S. \$40 million) and ¥6,939 million, respectively. Unamortized balance of goodwill as of March 31, 2021, and 2020, were ¥16,877 million (U.S. \$153 million) and ¥21,276 million, respectively.

Information Related to Gain on Negative Goodwill by Reportable Segment

There was no gain on negative goodwill by reportable segment during the fiscal years ended March 31, 2021 and 2020.

Related Party Transactions

1. Related Party Transactions

Transactions of the SuMi TRUST Bank with its parent company for the fiscal year ended March 31, 2021 and 2020, are as follows:

Year Ended March 31, 2021

Financial Data: Independent Auditors' Report

Independent Auditor's Report

To the Board of Directors of
Sumitomo Mitsui Trust Bank, Limited:

Opinion

We have audited the accompanying consolidated financial statements of Sumitomo Mitsui Trust Bank, Limited ("the Company") and its consolidated subsidiaries (collectively referred to as "the Group"), which comprise the consolidated balance sheet as at March 31, 2021, the consolidated statement of income, statement of comprehensive income, statement of changes in net assets and statement of cash flows for the year then ended, and a summary of significant accounting policies and other explanatory information.

In our opinion, the accompanying consolidated financial statements present fairly, in all material respects, the consolidated financial position of the Group as at March 31, 2021, and its consolidated financial performance and its consolidated cash flows for the year then ended in accordance with accounting principles generally accepted in Japan.

Basis for Opinion

We conducted our audit in accordance with auditing standards generally accepted in Japan. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Consolidated Financial Statements* section of our report. We are independent of the Group in accordance with the ethical requirements that are relevant to our audit of the consolidated financial statements in Japan, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the consolidated financial statements of the current period. These matters were addressed in the context of our audit of the consolidated financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters.

Estimated amount of allowance for loan losses for corporate customers	
The key audit matter	How the matter was addressed in our audit
<p>In the consolidated financial statements of Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank") and consolidated subsidiaries, "Allowance for Loan Losses" amounted to ¥129.2 billion, which was provided for the total credit portfolios of ¥32,076.5 billion. "Loans and Bills Discounted" amounting to ¥30,506.9 billion represented the vast majority of the total credit portfolios and also accounted for a significant portion of the total assets of ¥61,944.5 billion.</p> <p>(1) Classification of borrowers</p> <p>As described in Note 4, "Significant Accounting Policies, (5) Allowance for Loan Losses" and the Note, "Significant Accounting Estimates, 1. Estimates of Allowance for Loan Losses (2)" to the consolidated financial statements, SuMi TRUST</p>	<p>The primary procedures we performed to assess the reasonableness of the estimated amount of allowance for loan losses for corporate customers included the following:</p> <p>(1) Internal control testing</p> <p>In order to test the design and operating effectiveness of certain internal controls related to the estimate of allowance for loan losses, we performed the following procedures with the assistance of specialists in credit risk and those in IT within our firm:</p> <p>(SuMi TRUST Bank)</p> <ul style="list-style-type: none"> assessment of whether the internal regulations for the self-assessment and the write-offs and provisions were appropriately maintained;

KPMG AZSA LLC, a limited liability audit corporation incorporated under the Japanese Certified Public Accountants Law and a member firm of the KPMG network of independent member firms affiliated with KPMG International Cooperative ("KPMG International"), a Swiss entity.

Bank performs the loan reviews and validates them, based on its internal criteria for self-assessment of asset quality, and records an allowance for loan losses in accordance with its policy for write-offs and provisions, according to the determined classification of each borrower.

The vast majority of allowance for loan losses in the consolidated financial statements was for corporate customers of SuMi TRUST Bank. These corporate customers are classified primarily based on the credit rating assigned by the credit risk management system that takes into account quantitative information, such as the borrowers' financial information, as well as qualitative factors.

Specifically, the process to determine the classification of borrowers includes examining the borrowers' solvency, based on their substantive financial condition, cash flow position, and earning capability, among others, and an overall assessment of their business sustainability and future profitability; ability to generate cash flows available for debt repayment; the reasonableness and feasibility of their business improvement plans; and support from other financial institutions, in addition to their industry/sector specific characteristics. This determination involves subjective management judgment.

Especially in determining the classification of corporate customers whose financial performance has been deteriorating due to the spread of COVID-19, it was necessary to consider the impact of the spread of COVID-19 on their classification. However, its impacts are complicated and have a wide variety of implications, such as deterioration of the real economy and corporate cash flow position arising from restrictions on movement of people and goods, reduced production activities, change in the consumer behaviors, among others, and the estimation thereof involved a high degree of uncertainty. Therefore, a higher level of management judgment was required in determining the classification of borrowers.

(2) Estimated amount of allowance for loan losses considering the impact of the spread of COVID-19

As described in the Note, "Significant Accounting Estimates, 1. Estimates of Allowance for Loan Losses (3)" to the consolidated financial statements, considering the impact of the spread of COVID-19 on borrowers' (corporate customers') operations and financial performance, SuMi TRUST Bank and certain consolidated subsidiaries estimated the impact of the credit risks that had not yet been reflected in the borrowers' financial information and

- evaluation of controls to ensure that borrowers' financial information entered into the credit risk management system by branches is complete and accurate;
- evaluation of controls at the Risk Management Department relevant to the maintenance and operation of the credit rating determination model;
- evaluation of IT application controls relevant to determining credit ratings using quantitative information in the credit risk management system; and
- evaluation of controls at the Credit Supervision Department and the Risk Management Department that validate the results of the self-assessment and write-offs/provisions for compliance with the internal regulations.

(SuMi TRUST Bank and certain consolidated subsidiaries)

- evaluation of controls in which the reasonableness of any adjustment to the allowance for loan losses is assessed based on the current situation and future outlook at the meetings of top executives of each subsidiary.

(2) Classification of borrowers

In order to assess whether borrowers were appropriately classified, we selected certain individual corporate customers for our testing based on both quantitative and qualitative factors. Specifically, in order to select important borrowers whose credit risk could possibly change significantly due to changes in internal or external economic environments including the impact of COVID-19 (i.e. borrowers for whom a significant amount of allowance for loan losses may be recognized due to deterioration in credit risks), we took the following factors into account;

- quantitative factors: the possible effect on the amount of allowance for loan losses from inappropriate classification; and
- qualitative factors: extent of adverse impact of the spread of COVID-19 on the financial performance and resilience to such impact.

In order to evaluate whether the corporate customers selected through the above process were classified appropriately, we:

- assessed whether the borrowers were classified in accordance with the internal regulations for the self-assessment by inspecting the results of an analysis on the borrowers' financial

recognized an additional allowance for loan losses of ¥18.4 billion (¥24.6 billion for the previous fiscal year) as a necessary adjustment to credit losses expected in the future.

In estimating the amount of allowance for loan losses, industries where the adverse impact on the financial performance was considered more severe than others were identified, and the amount of credit losses was estimated for certain credit portfolios within those industries assuming that their credit rating assigned by the credit risk management system had been downgraded to a certain extent. Specifically, assumptions regarding future deterioration in credit risks, that reflected the extent to which the spread of COVID-19 impacted the financial performance and an expected level of recovery after the pandemic ceases, were developed for each industry, considering the changes in economic environment and the internal credit ratings during the current fiscal year.

As estimating the impact of the spread of COVID-19 involved a high degree of estimation uncertainty and required subjective management judgment, there may be a material impact on the consolidated financial statements if the assumptions used for the estimate were not reasonable.

We, therefore, determined that our assessment of the reasonableness of the estimated amount of allowance for loan losses for corporate customers was one of the most significant in our audit of the consolidated financial statements for the current fiscal year, and accordingly, a key audit matter.

information, as well as other documents supporting the borrower classification using qualitative judgment; and

- inquired of personnel in the relevant departments (branches, the Credit Supervision Department, and the Risk Management Department) of SuMi TRUST Bank and assessed the borrowers using the respective information we obtained independently.
- (3) Estimated amount of allowance for loan losses considering the impact of the spread of COVID-19**

In assessing the impact of the spread of COVID-19 on allowance for loan losses of SuMi TRUST Bank and its consolidated subsidiaries, we inspected the materials for the meetings at Sumitomo Mitsui Trust Bank Group companies in which the additional allowance was discussed and the recognition of the allowance was approved, and inquired of members of the meetings and other attendees.

In addition, in order to assess the reasonableness of key assumptions used in estimating the amount of allowance for loan losses considering the impact of the spread of COVID-19, we:

- inquired of personnel in the relevant departments (the Research Department, Credit Supervision Department, Financial Planning Department, and Risk Management Department) of SuMi TRUST Bank as well as the relevant departments of certain consolidated subsidiaries;
- inspected information from external sources, such as the results of impact studies published by third-party institutions and reports issued by external economists; and
- assessed the consistency of key assumptions used in estimating the amount of allowance for loan losses with the result of an analysis and information for the measurement of credit risks within the Sumitomo Mitsui Trust Group's credit risk management.

Estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan and the change in the method of recognizing past service costs in earnings

The key audit matter	How the matter was addressed in our audit
As described in the Note, "Changes in Accounting Policies" to the consolidated financial statements, SuMi TRUST Bank announced in January 2021 revisions to the provisions and terms of retirement benefits to give effect to a partial amendment to its	The primary procedures we performed to assess the appropriateness of the estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan as well as management judgment that the change in the method of

defined benefit corporate pension plan, and the amendment took effect on April 1, 2021. As a result, a negative past service cost of ¥37.7 billion (i.e. decrease in retirement benefit obligations) was incurred for the current fiscal year and is reported as other income in the consolidated statement of income.

(1) Estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan

As described in the Note, "Significant Accounting Estimates, 2. Estimates of Retirement Benefit Obligations" to the consolidated financial statements, the measurement of retirement benefit obligations requires a high level of actuarial expertise. In addition, determining the calculation basis (i.e. key assumptions) used in the actuarial calculations requires management judgment.

Especially for the current year, it was necessary to measure retirement benefit obligations before and after the plan amendment to quantify the difference, if any, to be accounted for as a past service cost, which had a material impact on the consolidated financial statements. Accordingly, there might be a material impact on the consolidated financial statements if the plan amendment had not been properly reflected in the determination of key assumptions and in the actuarial calculations.

(2) Change in the method of recognizing past service costs in earnings

As described in the Note, "Changes in Accounting Policies" to the consolidated financial statements, the method of recognizing past service costs in earnings was changed in the current fiscal year. Under the new method, past service costs are primarily recognized fully in earnings in the year when they are incurred.

While management concluded that this change in accounting policy was made on justifiable grounds, management judgment had a material impact on the consolidated financial statements for the current and subsequent fiscal years. A change in accounting policy is made on justifiable grounds only if:

- the change in accounting policy is made in response to any change in the entity's business or any change in internal/external management environment; and
- the new accounting policy after the change depicts accounting events and other matters more faithfully in the financial statements.

We, therefore, determined that our assessment of the appropriateness of the estimate of retirement benefit

recognizing past service costs in earnings was made on justifiable grounds included the following:

(1) Internal control testing

We tested the design and operating effectiveness of certain of SuMi TRUST Bank's internal controls relevant to estimating retirement benefit obligations. In this assessment, we focused our testing on controls designed to ensure the reasonableness of the determination of key assumptions and the appropriateness of the actuarial calculations.

(2) Estimate of retirement benefit obligations considering the partial amendment to the retirement benefit plan

In order to assess whether the plan amendment was properly reflected in the determination of key assumptions and in the actuarial calculations when retirement benefit obligations after the plan amendment were estimated, we performed the following procedures with the assistance of actuarial specialists within our firm:

- assessed whether key assumptions were properly determined based on the substance of retirement benefit provisions before and after the plan amendment by inquiring of personnel in the Human Resources Department of SuMi TRUST Bank, which was responsible for determining key assumptions, about the rationale for those assumptions and examining the reasonableness thereof. In addition, we traced key assumptions to the supporting documents that provided the basis for the determination; and
- compared the amount of retirement benefit obligations we calculated independently with the amount of retirement benefit obligations included in the actuarial valuation report prepared by the Pension Administration Department of SuMi TRUST Bank, and assessed whether the difference between these two amounts was within the acceptable range we had established.

(3) Change in the method of recognizing past service costs in earnings

In order to understand the reason why the method of recognizing past service costs in earnings was changed, we inspected the approval document and supporting materials. Then, we assessed the reasonableness of the reason for the change by performing the following procedures:

- compared the circumstances leading to a past service cost incurred in the past with the circumstance in the current fiscal year to

<p>obligations considering the partial amendment to the retirement benefit plan and the change in the method of recognizing past service costs in earnings was one of the most significant in our audit of the consolidated financial statements for the current fiscal year, and accordingly, a key audit matter.</p>	<p>confirm that these situations were significantly different; and</p> <ul style="list-style-type: none"> assessed the reasonableness of management's conclusion that with the change in accounting policy, the plan amendment would be reflected more appropriately in the consolidated financial statements. In evaluating the reasonableness of management judgment, we considered the relationship of an increase in labor costs (i.e. considerations for employees' services) due to the postponement of retirement age and the past service cost incurred due to the plan amendment to revenues to be generated from those employees' services.

Change in the method of applying impairment accounting and the recognition of impairment losses on fixed assets

The key audit matter	How the matter was addressed in our audit
<p>In the consolidated statement of income of SuMi TRUST Bank, impairment losses of ¥20.7 billion were reported. As described in the Note, "Significant Accounting Estimates, 3. Impairment of Fixed Assets (Including Goodwill)" and Note 4, "Other Income and Expenses (2)" to the consolidated financial statements, ¥19.9 billion of this amount (consisting of ¥1.6 billion for tangible fixed assets and ¥18.3 billion for software) was recognized on operating assets used in the business units belonging to the Retail Total Solution Services Business ("Retail TS Services Business").</p> <p>In applying impairment accounting for fixed assets, an entity is allowed to allocate corporate assets to asset groups using a reasonable allocation basis. Asset groups to which corporate assets are allocated are tested for impairment whenever there is an impairment indicator. An impairment test is performed by comparing the undiscounted future cash flows that are expected to be generated from the respective asset groups with their carrying amounts. If the recognition of an impairment loss is deemed necessary, the carrying amount is reduced to the recoverable amount (e.g. a value in use calculated by using a discount rate), and the resulting decrease in the carrying amount is recognized as an impairment loss for the current year.</p> <p>(1) Grouping of assets and allocation of corporate assets</p> <p>In the current fiscal year, the grouping of assets and the treatment of corporate assets for the purpose of the impairment testing were changed in order to enhance the application of impairment accounting,</p>	<p>The primary procedures we performed to assess the appropriateness of the method of applying impairment accounting and the amount of the impairment losses recognized on fixed assets included the following:</p> <p>(1) Internal control testing</p> <p>We assessed the design and operating effectiveness of certain internal controls related to determining the method of allocating corporate assets to each operating segment and the judgment on whether an impairment loss should be recognized, as well as the measurement of the impairment loss.</p> <p>In this assessment, we focused our testing on controls relevant to the determination of allocation bases for corporate assets and the estimate of future cash flows used in the judgment on whether an impairment loss should be recognized.</p> <p>(2) Grouping of assets and allocation of corporate assets</p> <p>(Changes in the method of application)</p> <p>We evaluated the reasonableness of management's conclusion that with the changes in the method of grouping assets and allocating corporate assets for the impairment testing, the carrying amount of and impairment losses on fixed assets would be reflected more appropriately in the consolidated financial statements</p> <p>In assessing the reasonableness of management judgment, we considered that under the new method, the identification of impairment indicators, the judgment on whether an impairment loss should be recognized, and the measurement of an impairment</p>

in response to cost structure reforms and revisions to the branch strategy in light of changes in business environment due to the spread of COVID-19 from the perspective of continuous improvements in management reporting.

Specifically, SuMi TRUST Bank changed to a new method under which it identified its six operating segments as the smallest groups of assets and allocated the corporate assets to the respective segments using allocation bases that were deemed reasonable (e.g. the number of employees for each operating segment).

There may be a material impact on the consolidated financial statements if the change itself or the application of the new method were not reasonable.

(2) Recognition of impairment losses

SuMi TRUST Bank tested the Retail TS Services Business for impairment, because it determined that management environment had significantly deteriorated due to the spread of COVID-19 and thus identified an impairment indicator in the current fiscal year.

The future cash flows used in the impairment testing were estimated based on its business plan developed by the Retail Business Planning Department of SuMi TRUST Bank. In developing the business plan, key assumptions regarding the expected amount of credit transactions to be executed and the sales plan of insurance and investment trust products were used considering future market and economic conditions. Therefore, these estimates involved a high degree of uncertainty and subjective management judgment.

In addition, in measuring the recoverable amount after it was determined that an impairment loss should be recognized, a high level of valuation expertise was required to select an appropriate valuation model and input data to estimate a discount rate.

We, therefore, determined that our assessment of the appropriateness of the change in the method of applying impairment accounting and the recognition of impairment losses on fixed assets was one of the most significant in our audit of the consolidated financial statements for this fiscal year, and accordingly, a key audit matter.

loss on corporate assets are all made based on the profitability of each operating segment, rather than the entity-wide profitability used in the past, which enables the recognition of more granular impairment losses compared to the previous method.

In addition, to assess whether the change was made in response to changes in business environment from the perspective of improving management reporting, we:

- inspected relevant Executive Committee meeting materials and other supporting documents regarding cost structure reforms and revisions to the branch strategy in response to changes in business environment due to the spread of COVID-19; and
- inquired of personnel in the Financial Planning Department of SuMi TRUST Bank, which is responsible for management reporting, regarding the status of improving management reporting, and inspected relevant Executive Committee meeting materials and other supporting documents.

(Allocation bases for corporate assets)

In order to assess whether allocation bases for corporate assets were determined appropriately, we:

- inquired of personnel in the Financial Planning Department of SuMi TRUST Bank, which was responsible for determining allocation bases, and inspected relevant Executive Committee meeting materials and other supporting documents; and
- assessed whether allocation bases for corporate assets were related to the future cash flows generated from each operating segment.

(3) Recognition of impairment losses

In order to assess the reasonableness of the estimated future cash flows of the Retail TS Services Business, we:

- assessed the reasonableness of key assumptions used in the business plan, which formed the basis for estimating future cash flows, by inspecting materials supporting the business plan and inquiring of personnel in the Retail Business Planning Department and those in the Personal Loan Business Promotion Department of SuMi TRUST Bank, which are responsible for developing the plans;
- assessed whether the market environment and competitive environment as a background of developing key assumptions were consistent with our understanding based on information

	<p>available from SuMi TRUST Bank and external sources; and</p> <ul style="list-style-type: none"> ● assessed the feasibility of achieving the business plan based on actual results of achievement of the past business plans. <p>In addition, we performed the following procedures by involving enterprise valuation specialists within our network firms who assisted our evaluation of the discount rate used in calculating the value in use:</p> <ul style="list-style-type: none"> ● evaluation of whether the discount rate used in calculating the value in use complied with the requirements of the accounting standards; and ● evaluation of the reasonableness of input parameters (risk-free rate, beta, and the market risk premium).
--	--

Responsibilities of Management and the Audit and Supervisory Committee for the Consolidated Financial Statements

Management is responsible for the preparation and fair presentation of the consolidated financial statements in accordance with accounting principles generally accepted in Japan, and for such internal control as management determines is necessary to enable the preparation of consolidated financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the consolidated financial statements, management is responsible for assessing the Group's ability to continue as a going concern, disclosing, as applicable, matters related to going concern in accordance with accounting principles generally accepted in Japan and using the going concern basis of accounting unless management either intends to liquidate the Group or to cease operations, or has no realistic alternative but to do so.

The audit and supervisory committee are responsible for overseeing the directors' performance of their duties with regard to the design, implementation and maintenance of the Group's financial reporting process.

Auditor's Responsibilities for the Audit of the Consolidated Financial Statements

Our objectives are to obtain reasonable assurance about whether the consolidated financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards generally accepted in Japan will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these consolidated financial statements.

As part of our audit in accordance with auditing standards generally accepted in Japan, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the consolidated financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, while the objective of the audit is not to express an opinion on the effectiveness of the Group's internal control.

- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Group's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the consolidated financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Group to cease to continue as a going concern.
- Evaluate whether the presentation and disclosures in the consolidated financial statements are in accordance with accounting standards generally accepted in Japan, the overall presentation, structure and content of the consolidated financial statements, including the disclosures, and whether the consolidated financial statements represent the underlying transactions and events in a manner that achieves fair presentation.
- Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Group to express an opinion on the consolidated financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with the audit and supervisory committee regarding, among other matters, the planned scope and timing of the audit, significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

From the matters communicated with the audit and supervisory committee, we determine those matters that were of most significance in the audit of the consolidated financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Convenience Translation

The U.S. dollar amounts in the accompanying consolidated financial statements with respect to the year ended March 31, 2021 are presented solely for convenience. Our audit also included the translation of yen amounts into U.S. dollar amounts and, in our opinion, such translation has been made on the basis described in "Basis of Presentation of Financial Statements" to the consolidated financial statements.

Interest required to be disclosed by the Certified Public Accountants Act of Japan

We do not have any interest in the Group which is required to be disclosed pursuant to the provisions of the Certified Public Accountants Act of Japan.

See Notes to Statements of Trust Account (Unaudited).

Notes to Statements of Trust Account (Unaudited)

1. Trust Accounts

Under the Trust Act of Japan, trust activities must be administered separately from a commercial banking business. As a result, assets accepted in trust must be segregated from the assets held by SuMi TRUST Bank. Within the general category of trust accounts, each trust account is segregated from other trust assets. Accordingly, the financial statements of SuMi TRUST Bank do not reflect SuMi TRUST Bank's records as to the assets accepted in trust, which are maintained separately under the trust account.

Under certain trust agreements, repayments of the principal of the customers' trust assets are guaranteed by SuMi TRUST Bank, and such guaranteed principal as of March 31, 2021 and 2020, was ¥4,634,580 million (U.S. \$41,885 million) and ¥4,602,967 million, respectively.

The translation of Japanese yen amounts into U.S. dollar amounts is included solely for the convenience of readers outside Japan. The translation has been made at the rate of ¥110.65 to U.S. \$1, the approximate rate of exchange as of March 31, 2021. Such translations should not be construed as representations that the Japanese yen amounts could be converted into U.S. dollars at that or any other rate.

Amounts less than one million Japanese yen have been rounded down and amounts less than one million U.S. dollars have been rounded off. As a result, the total may not be equal to sum of individual amounts.

The amounts presented in the statements of trust account as of March 31, 2021 and 2020, are for trust accounts in SuMi TRUST Bank.

2. Loans and Bills Discounted

Loans as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Loans on Deeds	¥ 1,428,073	¥ 1,160,640	\$ 12,906
Loans on Bills	376,320	382,520	3,401
Total	¥ 1,804,393	¥ 1,543,160	\$ 16,307

The balances of guaranteed trust account loans as of March 31, 2021 and 2020, stood at ¥15,959 million (U.S. \$144 million) and ¥26,710 million respectively, which included the following:

Under certain trust agreements, repayment of the principal of customers' trust assets are guaranteed by SuMi TRUST Bank, and loans on such guaranteed trust assets as of March 31, 2021 and 2020, included the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Other Delinquent Loans	¥ 134	¥ 680	\$ 1
Restructured Loans	30	34	0
Total	¥ 164	¥ 714	\$ 1

3. Securities

Securities held as of March 31, 2021 and 2020, consisted of the following:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Government Bonds	¥ 457,214	¥ 599,390	\$ 4,132
Local Government Bonds	30	30	0
Corporate Bonds	66,718	113,807	603
Stocks	7,910	8,164	71
Other Securities	325,736	353,792	2,944
Total	¥ 857,610	¥ 1,075,184	\$ 7,751

4. Balance of Money Trusts

The principal amount of certain money trusts is guaranteed and the balance of these accounts is as follows:

	Millions of Yen		Millions of U.S. Dollars
	2021	2020	2021
Assets:			
Loans and Bills Discounted	¥ 15,959	¥ 26,710	\$ 144
Other	4,618,947	4,576,633	41,744
Total	¥ 4,634,907	¥ 4,603,344	\$ 41,888
Liabilities:			
Principal	¥ 4,634,580	¥ 4,602,967	\$ 41,885
Allowance for Impairment of Guaranteed Trust Principal	19	70	0
Other	307	306	3
Total	¥ 4,634,907	¥ 4,603,344	\$ 41,888

In the case of certain money trusts, the principal amount is guaranteed, and as the above table indicates, an allowance for the impairment of guaranteed trust principal is set aside by SuMi TRUST Bank. The figures in the table include funds entrusted from other trusts managed by SuMi TRUST Bank.

Basel III Disclosure Data

This section outlines matters to be stated in explanatory documents relating to the fiscal year, separately stipulated by the Commissioner of the Financial Services Agency (Notification No.7 of Financial Services Agency, 2014) with regard to the status of capital adequacy, as set forth in Article 19-2, Paragraph1, Item 5-(d) of the Ordinance for Enforcement of the Banking Act (Ministry of Finance Ordinance No.10, 1982).

The following disclosure, unless otherwise stated, is with respect to Sumitomo Mitsui Trust Holdings, Inc. ("SuMi TRUST Holdings") as of the end of March 2021.

[Qualitative Disclosure Data: SuMi TRUST Holdings]

Sumitomo Mitsui Trust Holdings, Inc.

1. Overview of the Risk Management of the Sumitomo Mitsui Trust Group

(1) Basic Policy on Risk Management

In order to ensure sound management, secure revenue through risk taking based on management strategies, and achieve sustainable growth, the Sumitomo Mitsui Trust Group (the "SuMi TRUST Group") follows a basic policy of accurately assessing risk conditions and implementing necessary risk-related measures through a series of risk management activities, including risk identification, evaluation, monitoring, control and mitigation, validation for advancement, and review, based on the management policy and basic policy on the internal control system of the SuMi TRUST Group.

The risk management framework of the SuMi TRUST Group encompasses the Risk Appetite Framework (please refer to (5) below), and integrates it to function organically within the SuMi TRUST Group.

(2) Risk Characteristics of the SuMi TRUST Group

Based on a fiduciary spirit, and leveraging its significant expertise and comprehensive capabilities, the SuMi TRUST

Group, as a financial group specialised in trust banking, strives to create distinct value through a total solution business model that combines its banking, asset management and administration, real estate businesses and others.

The businesses of the SuMi TRUST Group consist of the Retail Total Solution (TS) Services Business, the Wholesale Total Solution (TS) Services Business, the Wholesale Asset Management (AM) Business, the Stock Transfer Agency Services Business, the Real Estate Business, the Fiduciary Services Business, the Global Markets Business, the Private Banking (PB) Business, and the Asset Formation Advisory, Work place, Business, etc.

The Group faces various risks, including credit risk, market risk, funding liquidity risk, and operational risk, which vary depending on the business characteristics of each of the businesses. In this context, as a basis for improving management of risks related to trust business operations, we have established Group-wide Trust Business Guidelines to provide information about basic matters that warrant caution. Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank") primarily manages these risks in the operational risk category, particularly in terms of its duty of due care as a prudent

• Businesses and Main Risk Characteristics of the Group

• Risk Definition

Risk Category	Definition
Credit Risk	Risk that the Group may incur losses due to a decrease or impairment of the value of assets (including off-balance sheet assets), for reasons such as deterioration of the financial condition of obligors. In this regard, "country risk" in particular refers to the risk that the Group may incur losses on credit provided overseas, due to the foreign exchange, political, or economic conditions in the country where our clients operate.
Market Risk	Risk that the Group may incur losses due to fluctuations in the value of assets/liabilities (including off-balance sheet assets/liabilities), or in the earnings generated from assets/liabilities, due to fluctuations in various market risk factors, such as interest rates, foreign exchange rates, stocks, commodities, and credit spreads. In this regard, "market liquidity risk" in particular refers to the risk that the Group may incur losses due to a situation in which it becomes impossible to conduct transactions in the market, or becomes obligatory to trade at prices that are significantly more disadvantageous than usual, due to market turmoil.
Funding Liquidity Risk	Risk that the Group may incur losses in a situation where it becomes impossible to secure necessary funds, or becomes obligatory to raise funds at interest rates significantly higher than usual.
Operational Risk (Below are "risk sub-categories" within Operational Risk)	Risk that may adversely affect the Group, clients, markets, financial infrastructure, society, or the work environment due to inadequate or failed business processes, the activities of executives or employees, computer systems, or due to external events.
Business Processing Risk	Risk that the Group may incur losses due to inappropriate business procedures arising from executives or employees neglecting to engage in proper business activities, or other incidents such as accidents or fraud.
System Risk	Risk that the Group may incur losses due to reasons such as computer system failures, malfunctions, and defects, as well as the risk that the Group may incur losses due to unauthorized computer usage.
Information Security Risk	Risk that the Group may incur losses due to the improper management or maintenance of information assets. This includes information leaks, information errors, and misuse of information, as well as an inability to use the information system.
Legal & Compliance Risk	Risk that the Group may incur losses due to uncertainty regarding the legal aspects of transactions, or due to insufficient compliance with laws, regulations, etc.
Conduct Risk	Risk that may adversely affect the Group, clients, markets, financial infrastructure, society, or the work environment due to the actions of Group companies, executives, or employees that are unprofessional or do not meet the expectations and trust of stakeholders*. * Appropriate service level set by the Group based on an understanding of reasonable expectations
Human Resource Risk	Risk that the Group may incur losses due to personnel and labor management issues, such as unequal or unfair management of personnel, and harassment.
Event Risk	Risk that the Group may incur losses due to external events that impair business, such as natural disasters, crimes such as terrorism, damage to public infrastructure that prevents its functioning, and the spread of infectious diseases, or due to the inappropriate use or management of tangible assets.
Reputational Risk	Risk that the Group may incur losses as a result of a deterioration of the reputation of SuMi TRUST Holdings or its subsidiaries, due to reasons such as mass media reports, rumors, or speculation.

manager, duty of loyalty, and duty to segregate property as a trustee.

Reporting is regularly performed regarding whether the overall risk of the SuMi TRUST Group, combining the risks of each business, is within the limits of risk capacity (soundness and liquidity) that have been determined by the Board of Directors.

(3) Risk Governance System

For the group-wide risk governance system, the SuMi TRUST Group has developed a Three Lines of Defense system consisting of risk management by individual businesses (first line of defense), risk management by the Risk Management Department and individual risk management-related departments (second line of defense), and validation by the Internal Audit Department (third line of defense).

[First Line of Defense]

Each Group business identifies and gains an understanding of the risk characteristics involved in carrying out its own business, based on knowledge of the services and products in that business.

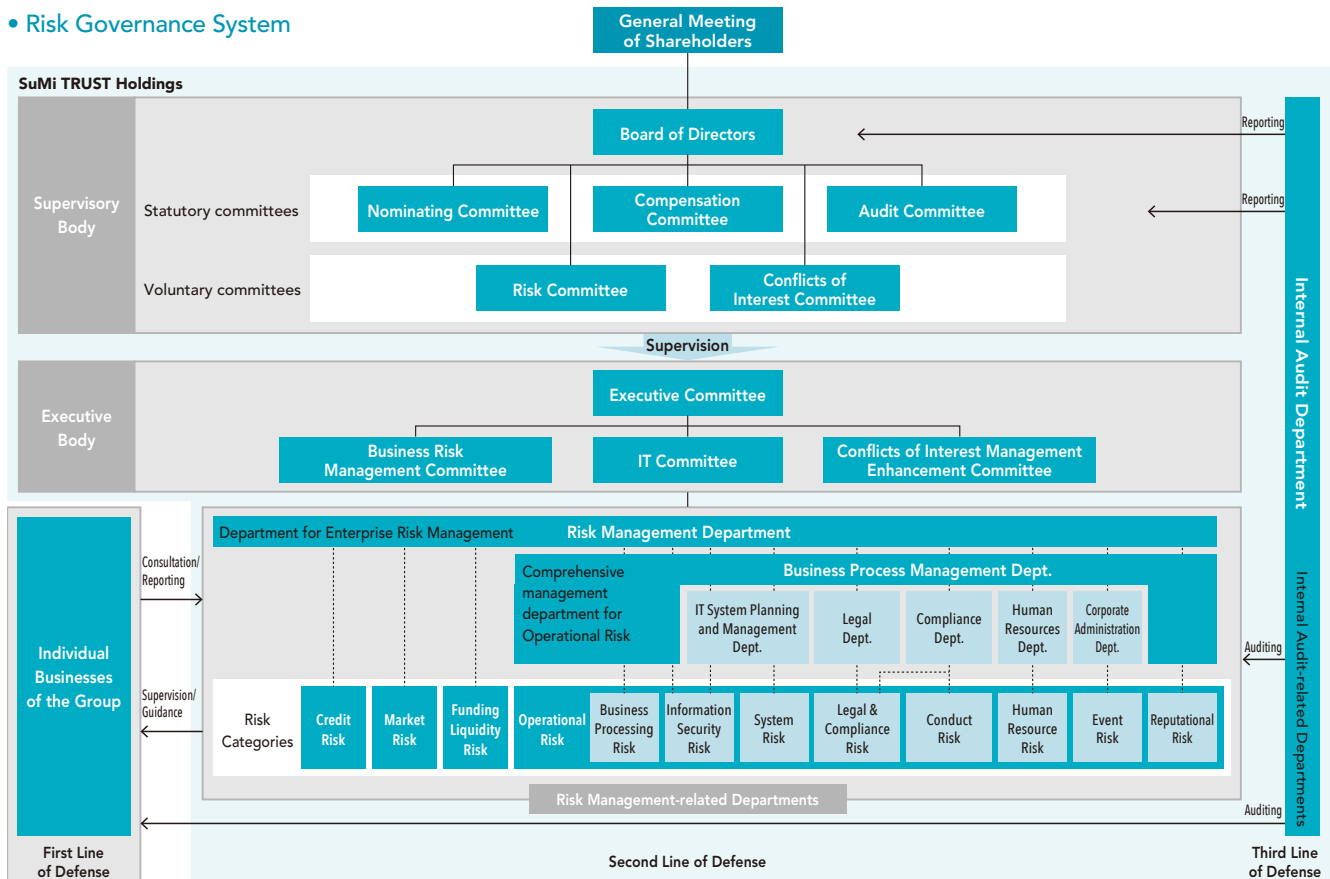

Each business takes risks within the scope of its risk appetite in accordance with its risk-taking policy, evaluates risks, and swiftly implements risk control at the on-site level when risks materialize. In addition, the status of risk management is reported to the second line of defense in a timely manner.

[Second Line of Defense]

The Risk Management Department and risk management-related departments act as control departments responsible for the management of each risk category. In accordance with the Group-wide basic policy on risk management approved by the Board of Directors, the Risk Management Department and risk management-related departments act as a check-and-balance function for the risk taking of the first line of defense, and supervise and provide guidance regarding the risk governance system from an independent standpoint.

The Risk Management Department, as an Enterprise Risk Management Department, performs overall risk management, identifies and evaluates group-wide risks, creates a risk management process, and sets risk limits in accordance with the group-wide risk management policy determined by the

• Risk Governance System

Board of Directors. In addition, it formulates group-wide recovery strategies, in advance, to prepare for cases when risks materialize. Furthermore, it shares information with risk management-related departments appropriately, monitors the overall status of risks and risk management in an integrated manner, and reports the status to the Executive Committee and the Board of Directors.

[Third Line of Defense]

The Internal Audit Department verifies the effectiveness and appropriateness of the group-wide risk governance system and processes from a standpoint independent of the first and second lines of defense.

[Executive Committee]

The Executive Committee is composed of representative executive officers* and executive officers* designated by the President. It makes decisions on matters concerning risk management and undertakes preliminary discussions regarding matters to be resolved by and reported to the Board of Directors.

* Executive officers defined by the Companies Act.

[Board of Directors]

The Board of Directors is composed of all of the directors. It decides on the management policy and strategic goals for risk taking of the SuMi TRUST Group, formulates a risk management policy, etc. that reflects these strategic goals based on a solid understanding of the location and nature of risks, and develops an appropriate risk governance system and supervises its implementation. The Board of Directors has voluntarily established the Risk Committee and the Conflicts of Interest Committee, as advisory bodies, based on the business strategies and risk characteristics of the SuMi TRUST Group.

[Risk Committee]

The Risk Committee receives requests for consultation from the Board of Directors on matters concerning the business circumstances surrounding the SuMi TRUST Group and the effectiveness of its risk management, etc., reviews their appropriateness, and reports its findings.

[Conflicts of Interest Committee]

The Conflicts of Interest Committee receives requests for consultation from the Board of Directors on matters concerning the fiduciary duties and conflict of interest management, which are the foundation on which the SuMi TRUST Group seeks to become the "Best Partner" of its clients based on a fiduciary spirit, reviews their appropriateness, and reports its findings.

(4) Risk Management Process

In the SuMi TRUST Group, the Risk Management Department and individual risk management-related departments act as the second line of defense, performing risk management using the following procedure. This risk management process, along with its associated systems, undergoes regular auditing by the Internal Audit Department, which acts as the third line of defense.

[Risk Identification]

The risks faced by the SuMi TRUST Group are comprehensively identified, while ensuring the comprehensiveness of operations of the SuMi TRUST Group and the risks to be managed are identified based on the scale and characteristics of the identified risks. Of note, risks that are particularly important are managed as material risks.

[Risk Evaluation]

The risks identified as requiring management undergo analysis, assessment, and measurement in a manner appropriate for the business scale, characteristics, and risk profiles. We periodically evaluate material risks in terms of frequency of occurrence, degree of impact, and severity to determine whether they can be classified as "top risks" (risks that require management attention due to their potential to have a material impact on the Group's business capabilities and earnings targets within one year) or "emerging risks" (risks that could have a material impact in the medium to long term; i.e., after one year).

When risks cannot be quantified, their impact is assessed to the greatest extent possible, and they are managed through measures such as implementing preventive measures based on the nature of the risks.

[Risk Monitoring]

Risk conditions are monitored with appropriate frequency, given the conditions of internal environment (risk profiles, allocated capital usage status, etc.) and external environment (economy, markets, etc.) of the SuMi TRUST Group. Recommendations, guidance, and advice are given to the businesses of the SuMi TRUST Group based on the risk conditions. Monitoring contents are reported and submitted to the Board of Directors, the Executive Committee, and other bodies regularly or as needed.*

* The information on risks is reported to the Executive Committee and the Board of Directors on a monthly or quarterly basis according to its content. The information on risks to be reported is created by using internal databases, and risk measurement systems, etc. The SuMi TRUST Group is developing and advancing management information systems while complying with the "Principles for Risk Data Aggregation" of the Basel Committee on Banking Supervision.

• **Main Items to Be Reported to the Board of Directors and Executive Committee**

Frequency	Contents to be reported
Monthly	Comprehensive risk situation (including whether the risk amount is within the limit) ⇒ Specifically, the amount of risk, usage of allocated capital, the amount of regulatory risk, and risk appetite situation, etc., for each business and each risk category are reported.
Quarterly	1) Status of the external environment, including the economic circulation, 2) whether the risk amount is within the limit, the risk profile, and its trend, 3) the progress and evaluation of risk management plans, etc. ⇒ Specifically, the status of top risk, etc., as well as items to be reported monthly are reported.

[Risk Control and Mitigation]

If any incidents that could have a significant impact on the soundness of management occur, such as the risk amounts exceeding the risk limits, or the existence of concerns that it might do so, appropriate reports are presented to the Board of Directors, the Executive Committee, and other bodies, and the necessary countermeasures are implemented.

[Risk predictor management for top risks, etc.]
Risk appetite indicators are defined for risks resulting from internal factors, based on the features of the business model and risk characteristics of the SuMi TRUST Group, and these management indicators are monitored. Regarding risks resulting from external factors, the top risks are selected, and risk predictors are monitored. Countermeasures are implemented based on the monitoring results for both types of risks.

The top risks at present include “the global COVID-19 pandemic” and other risks. Along with countermeasures, these risks are reported to the Board of Directors and the Executive Committee. Emerging risks at present include “climate change” and other risks, and we are analyzing these risks and considering necessary countermeasures.

The Group’s main top risks and emerging risks are listed in the table below.

■ **Main top risks and emerging risks**

Top risks	Risks related to the global COVID-19 pandemic
	Risks related to falling prices for strategic shareholdings and similar assets
	Risk of concentration of credit in major obligors in the credit portfolio
	Risks related to cyber attacks
Emerging risks	Risks related to climate change
	Risks related to innovation
	Risks related to Japan’s declining birthrate and aging population

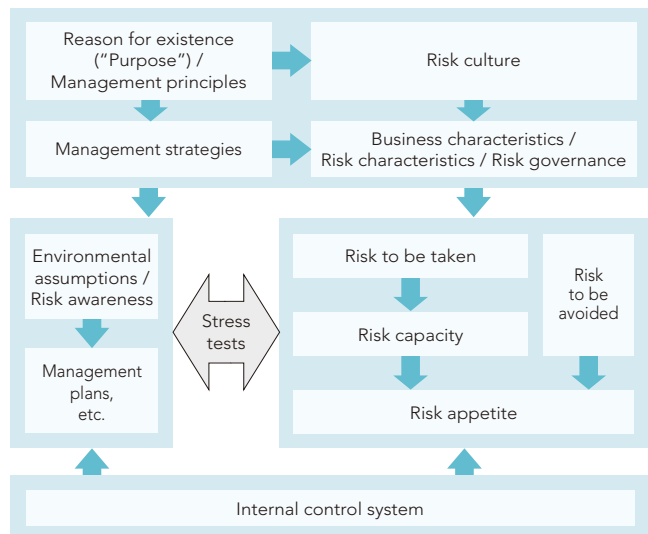

(5) Risk Appetite Framework

The SuMi TRUST Group defines the Risk Appetite Framework (RAF) as a company-wide framework for business

management composed of a process for determining risk appetite (category and level of risk the Group should take to implement management strategies) within the risk capacity range to complete management strategies designed by the Board of Directors based on the reason for existence (Purpose) and management principles of the Group, and internal control system for supporting them.

The main aim of the Group’s RAF is to both improve profitability and enhance risk management. The Group establishes communication processes through the setting, propagation, and oversight of risk appetite and promotes the improvement of transparency in the decision-making process regarding all kinds of risk-taking policies, including capital allocation and profitability maximization. In addition, the Group promotes the optimization and speed-up of management resources allocation and the strengthening of the monitoring system, by using RAF as the universal language of the Group.

• **Outline of the Risk Appetite Framework**

The SuMi TRUST Group formulated the Risk Appetite Statement (RAS), which clearly describes the entire framework of RAF and the details of risk appetite, etc. By thoroughly informing RAS among the staff of the Group, the Group encourages lively discussion on risk appetite and promotes the fostering and spread of sound risk culture. In addition, we have established indicators for risk appetite from the perspectives of return, risk, and cost, and continuously monitor and verify whether we are taking appropriate risks based on our business model. The results of monitoring are reported to the Board of Directors and the Executive Committee every six months.

(6) Fostering of Risk Culture

The SuMi TRUST Group defines risk culture as a basic philosophy that prescribes the codes, attitudes, and conduct of the SuMi TRUST Group’s organization, as well as executives and employees, that flexibly carries out risk-taking, risk management, and risk control based on an appropriate evaluation of risks, guided by a high degree of self-discipline with the background of fiduciary spirit.

In order to improve its corporate value and stakeholder value, the SuMi TRUST Group takes risk based on risk appetite, strictly complies with applicable laws and regulations to establish solid credibility from clients and society, and takes a resolute stance against antisocial forces.

In order to foster and spread “risk culture,” the SuMi TRUST Group clarifies its risk-taking policies by line of business with the aim of building a sustainable business model through adequate risk-taking by all directors, officers and employees. At each office, the SuMi TRUST Group aims to foster the culture of recognizing the “importance of becoming familiar with risks” and “appropriate attitudes for challenging risks” and taking action.

In addition, the executives and employees of the SuMi TRUST Group follow the “Codes of Conduct regarding Risks” in order to support sustainable growth, while ensuring the soundness of management.

(7) Enterprise Risk Management

1) Enterprise Risk Management System

The SuMi TRUST Group manage risks by comprehensively grasping the risks faced by the Group, which are evaluated on an individual risk category basis, and comparing and contrasting them against our corporate strength (enterprise risk management).

We evaluate the effectiveness of our risk management and risk control annually, and when the need arises due to changes in the business environment or other circumstances, we will consider revisions to our risk category system, risk management system, and other policies.

Among the risks we manage through our enterprise risk management, we combine the risk values for risks that can be quantitatively measured using a single standard, such as VaR, and compare the combined value against our corporate strength (capital position), thereby managing risks (integrated risk management).

• Overview of Risk Measurement Approaches in Integrated Risk Management

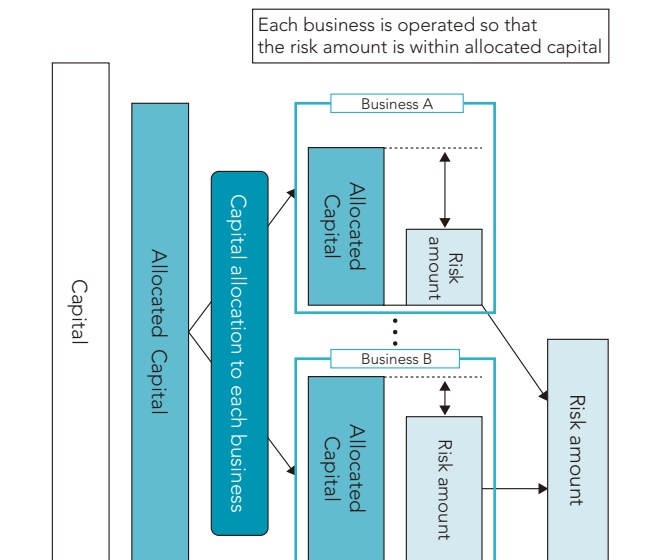

Risk category	Main scope	Main measurement approaches
Credit risk	Assets such as loans and bills discounted (including off-balance transactions)	Monte Carlo Simulation Method
Market risk	Risks related to trading accounts, banking accounts’ interest rates, foreign exchange, stocks, commodities, and credit spreads (including off-balance transactions)	Historical Simulation Method
Operational risk	Business processes, the activities of executives and employees, and computer systems, etc.	Monte Carlo Simulation Method

2) Capital Allocation Operations

For the purpose of capital allocation operations of the SuMi TRUST Group, SuMi TRUST Holdings allocates capital to each business, including the Group companies, based on each risk category (credit risk, market risk, and operational risk) in consideration of the external environment, risk-return performance status, scenario analysis, and the results of assessments of capital adequacy levels. The capital allocation plan is subject to the approval of the Board of Directors. Capital allocation levels are determined based on the Group’s risk appetite.

Each business is operated within both the allocated amount of risk capital and its risk appetite. The Risk Management Department measures the risk amount on a monthly basis, and reports regularly on the risk conditions, compared to the allocated capital and risk appetite, to the Board of Directors, and others.

• Capital Allocation Scheme

3) Stress Tests and Assessment of Capital Adequacy Level

The Risk Management Department performs three types of stress tests (hypothetical scenario stress testing, historical scenario stress testing, and examination of probability of occurrence) each time a capital allocation plan is formulated or reviewed, with the aim of ensuring capital adequacy from the standpoint of depositor protection. Based on the results of these stress tests, it assesses the level of capital adequacy, and reports to the Board of Directors, and others.

- **Hypothetical Scenario Stress Testing**

Assessment of capital adequacy level by formulating a stress scenario that has a sufficiently strong impact and a realistic probability of occurrence and then estimating capital adequacy ratio, etc. in times of stress.

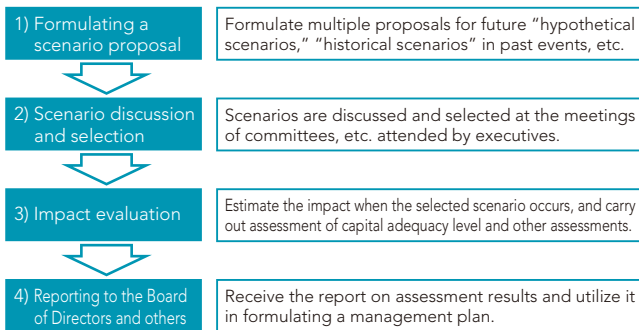

- **Historical Scenario Stress Testing**

Assessment of capital adequacy level through estimation of capital adequacy ratio, etc. in times of stress using parameters from stress times that had occurred in the past.

- **Examination of Probability of Occurrence**

Assessment of capital adequacy level by comparing the risk with 99.9% confidence interval with total capital defined under capital regulatory standards.

- **Stress Test Framework**

(8) Compliance with the Basel Standards

The Basel rules, which are the international standard rules regarding the soundness of banks, consist of "the first pillar," which defines the minimum capital requirements such as capital regulatory standards, "the second pillar," which regulates the inspection on self-management and supervision of financial institutions, and "the third pillar," which regulates market discipline, which is subject to market evaluation based on appropriate disclosure.

Basel II was implemented in Japan at the end of March 2007. Since the end of March 2013, Basel III has been implemented in a phased manner. Basel III is composed of capital regulatory standards, leverage ratio regulations, and liquidity regulations, for improving the quality and amount of capital, strengthening risk identification, etc.

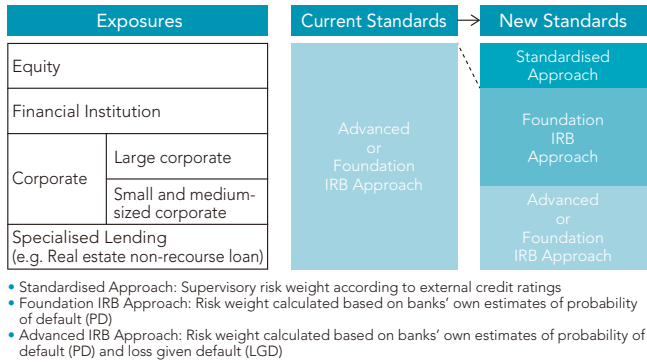

Under such circumstances, as part of the efforts to advance its risk management, the SuMi TRUST Group adopted the Advanced Measurement Approach to operational risks since the end of March 2014, and the Advanced Internal Ratings-Based (AIRB) Approach to credit risks since the end of March 2015, both in compliance with the capital regulatory standards. In addition, as part of the liquidity regulations, liquidity coverage ratio and leverage ratio have been added to the first pillar since the end of March 2015, and the end of March 2019, respectively, with which the SuMi TRUST Group has duly complied.

Moreover, in December 2015, the SuMi TRUST Group was designated as one of Domestic Systemically Important Banks (D-SIBs), which is the "domestic version" of Global Systemically Important Banks (G-SIBs) specified by the Financial Stability Board (FSB), and is subject to the 0.5% surcharge defined under capital regulatory standards.

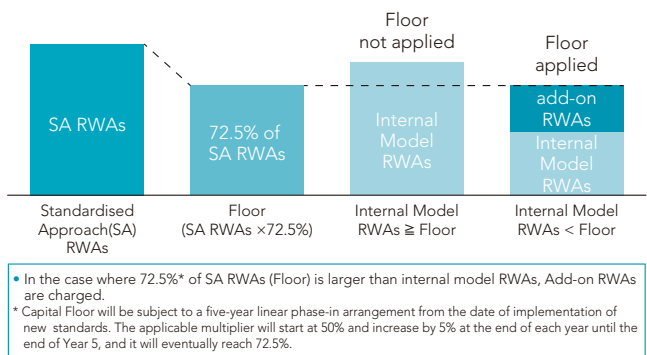

After implementing Basel III, the Basel Committee on Banking Supervision has been continually reviewing capital regulatory standards. To ensure appropriate risk sensitivity, simplicity and comparability of regulations, the Committee made the final agreement to make revisions related to a risk-weighted assets measurement approach, which is the denominator of capital adequacy ratio, in December 2017. While partially constraining the use of internally-modelled approaches by banks, the Committee adopted capital floors based on standardised approaches in order to prevent the undervaluation of risk-weighted assets based on internal models.

In order to comply with this new regulation scheduled to be implemented at the end of March 2023, the SuMi TRUST Group will engage in the development of a risk management system geared to the launch of this new regulation, including the creation of the system for calculating risk assets in compliance with the new regulatory requirements and the preparation for establishing a portfolio management methodology based on adequate profitability control.

• Regulatory Reform of Risk-weighted Assets Measurement Approach for Credit Risk

• Capital Floor Structure

As for the third pillar, from the end of March 2018, the adoption of common disclosure templates for internationally active banks, and the enhancement of disclosure items have been implemented to offer necessary information that is sufficiently comparable to all market participants.

(9) Crisis Management

The SuMi TRUST Group has developed systems to swiftly and appropriately implement emergency and crisis response measures in the event of natural disasters, computer system failures, outbreaks of new infectious diseases, and the like, which are rooted in its public mission and social responsibilities as a financial institution, and strives to disseminate information regarding these systems throughout the organization.

Specifically, we have developed BCPs (business continuity plans) for continuing business in the event of a crisis, after securing the safety of our clients, directors, officers, employees, and their families. In order to ensure the effectiveness of our BCPs, we periodically conduct exercises and revise their content. In addition, we have created a response system in which, in the event of a crisis, an emergency response headquarters is created, which is headed by the President.

For large-scale natural disasters such as earthquakes, which are envisioned as having a significant impact, we are enhancing our response system through the preparation of backup offices and backup systems.

We are also strengthening our security measures at the initiative of management to respond to cyber attacks, which are causing damage throughout society, through the formulation of the "Cyber Security Management Declaration." Specifically, the Group has established SuMiTRUST-CSIRT as an internal organization for gathering information, conducting analysis, implementing measures concerning cyber attacks, and allocating necessary staffing. The Group also works to continuously strengthen human resources and to enhance the management system through collaboration with external specialized agencies. In addition, we are endeavoring to strengthen our ability to respond to incidents through the creation and improvement of manuals, etc. for use in both normal times and emergencies, and periodic training and drills.

To address risks related to business continuity amid the COVID-19 pandemic, we established an emergency task force and set our basic stance of "ensuring the health and safety of our employees and their families," "maintaining business continuity as a key piece of social infrastructure," and "preventing the spread of infection in population (including activities that make the population less vulnerable). In accordance to our stance, we have flexibly implemented measures while taking into account the COVID-19 infection situation in Japan and overseas, government requests, client trends, etc. In addition, we have implemented various business continuity measures as stipulated in our BCP and actively utilize teleworking in order to balance the maintenance of services with safety considerations.

2. Credit Risk Management

(1) Definition of Credit Risk

Credit risk is defined as the "risk resulting in losses incurred by The Sumitomo Mitsui Trust Group (the "SuMi TRUST Group") due to a decrease or impairment in value of an asset (including off-balance sheet assets) owing to such reasons as deterioration in the financial condition of an obligor." Of this, country risk in particular means "risk resulting in losses incurred by the Group on credit provided overseas, due to foreign exchange rates or political and economic conditions of the country of the obligor."

(2) Characteristics of Credit Risk

Credit risk is the most fundamental risk concerning the basic function of finance – “credit creation function” – and it is one of the most significant risks that are borne by the Sumitomo Mitsui Trust Group (the “SuMi TRUST Group”) in performing banking operations.

Major risk among the credit risks for the SuMi TRUST Group is the risk of a large amount of loan-loss (or the provision for the allowance) being generated through default or credit deterioration of our major obligors. To control the “credit concentration risk” arising from the credit concentration to specific corporate groups, and “chain-reacting default risk” arising from the credit concentration to specific regions, industries, etc., the SuMi TRUST Group strives to appropriately control the risks by setting the credit guideline amounts based on obligor ratings and country ratings, and monitoring the balance of credit and risk amount specific to industries, etc.

(3) Credit Risk Management Policy

The basic policy of the SuMi TRUST Group’s credit risk management is “stricter management of individual credit” and “credit portfolio diversification.” Regarding the former, we make our individual credit management more precise through our screening and investigation of each transaction, asset assessment, and credit ratings that we assign internally. Regarding the latter, we endeavor to mitigate the concentration risk by managing diversification of our credit portfolio as a whole according to the industries and countries incorporating major obligors. Additionally, we regularly measure the credit risk amount in order to quantitatively grasp the possibility of the loss of portfolio.

Also, we maintain “risk-return adjustment” by reflecting the profit level established after taking into consideration the projected loss ratio and overhead ratio per credit rating on the transaction terms of individual transactions, to secure the profit margin (spread) proportionate to the risks.

Incidentally, the SuMi TRUST Group’s credit risk management covers not only credit transactions via banking accounts, but also the transactions with trust accounts with a principal guaranteed contract.

(4) Credit Risk Management System

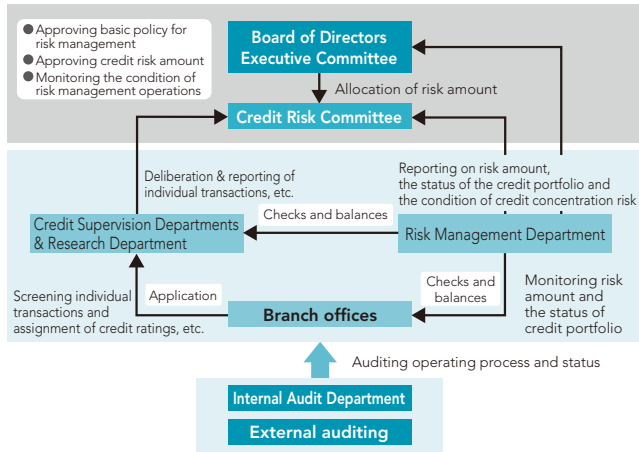

In addition to supervising credit risk management of the entire Group, Sumitomo Mitsui Trust Holdings, Inc. (“SuMi TRUST Holdings”) also works to maintain and establish the systems at each of the Group companies. Sumitomo Mitsui Trust Bank, Limited (“SuMi TRUST Bank”), which is the SuMi TRUST Group’s core bank, maintains the risk management system at the consolidated and global levels in order to manage credit risk.

At SuMi TRUST Bank, the Credit Risk Committee, which is the management-level meeting, establishes credit strategies and credit risk management plans once yearly. The established plans are further submitted to the Executive Committee and the Board of Directors for discussion and resolution (approval) to decide important matters regarding risk management. The Credit Risk Committee is called regularly to discuss the basic policy for credit operations, and important matters concerning individual investments and loans transactions, as well as trust transactions. By controlling credit risk, it is working to secure the revenue while keeping an eye on the soundness of assets.

The Risk Management Department, operating as a credit risk management section, manages the portfolio through credit concentration risk management and credit risk amount measuring; manages and inspects the asset assessment and write-offs and allowances for loan losses systems; manages the internal rating system; and inspects the appropriateness of the rating systems and parameters. The details of monitoring and the risk control measures for credit risk, such as the status of the portfolio, credit risk amount, status of rating fluctuation, and the management status of credit limit amounts, are reported to the Credit Risk Committee each month, and to the Executive Committee once a quarter.

The branch offices apply for the granting of individual transactions and ratings to the credit supervision departments and the research department. The credit supervision departments screen individual transactions, while the research department undertakes industrial research and the creditworthiness research of individual corporations. The Risk Management Department keeps the initiatives of these departments in check. The Internal Audit Department, which is independent from the other departments, audits the internal management system for each of the processes to inspect the appropriateness and effectiveness of the risk management system.

• Credit Risk Management System

(5) Credit Risk Management Method

In order to manage the credit risk appropriately, the SuMi TRUST Group strives to construct and maintain a sound portfolio via the two mutually-complementing approaches: "individual credit management" – managing each individual trans-

action through credit screening at entry point and mid-term monitoring management – and "credit portfolio management" –analyzing and evaluating risk concentration conditions to the specific types of industry, regions, certain corporate groups, etc., while regarding the whole credit as a single lump portfolio to manage them from a macro viewpoint.

1) Credit Rating, Asset Assessment and Write-Offs and Allowances for Loan Losses

A. Credit Rating

"Credit rating" indicates, in a graded manner, a client's credit condition and the possibility of default/loss, and serves as the basis for the screening of individual transactions and credit portfolio management. There are several different types of credit ratings: "obligor rating" aimed at corporations including sovereigns and financial institutions; "structured rating" aimed at structured finances such as real estate non-recourse loans; and "facility rating" indicating the possibility of loss per transaction. For the details of SuMi TRUST Bank's internal rating system, please refer to 2 (6) "Internal Rating System."

• Tables of Credit Rating, Asset Assessment and Disclosed Non-performing Loans

Credit rating		Asset assessment			Classification of non-performing loans based on the Financial Revitalization Act	Classification of risk management loan	
Rating Rank*	Definition	Obligor category	Definition	Asset Classification			Definition
1	Highest credibility of payment of principal and interest	Sound Obligor	Obligor that is operationally and financially sound	Class I (unclassified)	Assets with no risk of collection or no risk of impairment of the asset value	Normal Claims	
2	Very high credibility of payment of principal and interest						
3	High credibility of payment of principal and interest, but prone to be affected by the worsening business environment, etc.						
4	Perceived credibility of payment of principal and interest, but with declining potential						
5	No problem for credibility of payment of principal and interest at present but with potentiality of declining by deterioration of business environment, etc.						
6	Capable for principal and interest payment, but with potentiality of losing the ability if the business environment is deteriorated, etc.						
7	Obligor categorized as "Sub-Performing Obligor" in asset assessment and higher attention is required because of its sluggish and unstable operating performance, weak financial condition, etc.	Sub-Performing Obligor	Obligor required attention for monitoring because of following situations • Obligor with delinquency on obligations (payment of principal or interest) • Obligor with operational or financial problems	Class II	Assets with higher-than-acceptable level of risk of collection	Substandard Claims	Restructured Loans / Loans Past Due Three Months or More
8	Obligor categorized as "Sub-Performing Obligor" in asset assessment and careful attention is required because of its extremely deteriorated financial condition, etc.	Sub-Performing Obligor with Delinquent and/or Restructured debt	Obligor with debt past due three or more months and / or restructured debt				
9	Obligor categorized as "Possibly Insolvent Obligor" in asset assessment	Possibly Insolvent Obligor	Obligor with high probability of bankruptcy in the future due to significantly weak business conditions and unfavorable progress of business restructuring plan	Class III	Assets with high potential of impairment or loss, whose rational estimate of loss amount is difficult	Doubtful Claims	Delinquent Loans
10	Obligor categorized as either "Substantially Insolvent Obligor" or "Bankrupt / Insolvent Obligor" in asset assessment or bankruptcy is occurred	Substantially Insolvent Obligor	Obligor, not legally or formally bankrupt, but virtually bankrupt				
		Bankrupt / Insolvent Obligor	Obligor entering corporate reorganization, liquidation or other statutory procedures				

* As for obligor ratings and structured ratings, we subdivide them further as necessary (e.g. 5+, 5, 5-, etc.).

B. Asset Assessment

Asset assessment signifies the classification of the contents of the SuMi TRUST Group's assets through individually screening them into graded levels of recovery risk and value damage risk, as part of the preparatory process for write-offs and allowances for loan losses. At SuMi TRUST Bank, all assets in banking accounts and the trust accounts with a principal guaranteed contract are put through asset assessment as a general rule and as for clients, their "obligor categorization" based on their repayment capability according to financial condition, funding liquidity, profitability, etc., is determined each time their financial results are disclosed and/or whenever a situation that might affect their creditworthiness arises. Additionally, the "categorization" of each asset is determined once a quarter based on the result of the obligor categorization, security condition, etc., and this is reflected in the write-offs and allowances for loan losses appropriately as well as utilized in the management of credit risk.

C. Relationship Between Credit Rating and Asset Assessment

The two systems – credit rating and asset assessment – are operated with shared financial data on the clients that serve as the basis for mutually securing consistency. We are able to correctly assess the soundness of our credit portfolio by operating the two systems that enable us to grasp the clients' creditworthiness in a timely and appropriate manner.

D. Write-offs and Allowances for Loan Losses

Write-offs and allowances for loan losses signify the act of disposing losses of the appropriate amount in the quarterly settlement of accounts through timely and reasonable estimation of the amount of losses in the future by a track record of loan-loss, etc., based on the result of asset assessment. For the overview of SuMi TRUST Bank's allowances for loan losses and write-off criteria, please refer to page 139 "(5) Allowance for Loan Losses" of "4. Significant Accounting Policies."

E. Disclosure of Non-performing Loans

Non-performing loans to be disclosed include the risk management loans based on the Banking Act, and non-performing loans based on the Financial Revitalization Act.

As seen in the "Tables of Credit Rating, Asset Assessment and Disclosed Non-performing Loans" following below, they are aggregated according to the obligor categorizations through asset assessment.

Incidentally, the delinquent loans that are overdue for or over three months are almost always classified as "Doubtful

Claims" or lower based on the Financial Revitalization Act. However, those with little concern for a long-term delinquency may not occasionally be classified as above "Doubtful Claims" or lower up to roughly six months overdue.

2) Credit Concentration Risk Management

Based on our belief that grasping the exposure of each client is the basis of credit risk management, we uniformly manage the transactions such as loans, investments and off-balance transactions, and monitor the status of observance of credit limit set against each of the segments (specific corporate groups, industries, countries of the location, etc.). We also regularly examine the impact of the materializing risks to major clients and industry diversification.

Based on our various client management systems, we micro-manage the credit conditions, credit balance, trading conditions, etc., of each clients.

3) Credit Risk Quantification

With our credit risk quantification, we quantitatively grasp the potentiality of banks' assets being affected by losses by loan losses over the coming year, and based on the estimation values such as probability of default (PD) and loss given default (LGD) per rating, measure the difference between maximum loan losses (maximum possible amount of loss within the scope of given probabilities) and expected loan losses (the mean value of losses) as credit risk amount.

At SuMi TRUST Bank, we employ the "Monte Carlo Simulation Method" to depict the distribution of loss amount: we run numerous potential scenarios (100,000 cases) as our risk measurement method to estimate the maximum loss via loss severity distribution (please refer to "Credit Risk Amount" below).

• Credit Risk Amount

In measuring them, we take the correlation between individual assets into consideration; therefore our computed credit risk amount is able to reflect not only the quality of individual assets, but also the diversification effect of our credit

portfolio as a whole. By monitoring credit risk amount regularly, we aim to grasp the conditions of “credit portfolio diversification” and “stricter management of individual credit” and check the appropriateness of capital rationing as well as the soundness of business operation.

SuMi TRUST Bank also strives to advance the risk measurement and the scenario setting to suit the characteristics of individual assets.

(6) Internal Rating System

1) Overview of the Internal Rating System

The internal rating system of SuMi TRUST Bank which is the SuMi TRUST Group's core bank, is designed to ensure the accurate evaluation process of financial assets held based on its risk management policies, and to assist in its revenue management and credit risk management. The system in turn consists of a credit rating system and a credit pool management system.

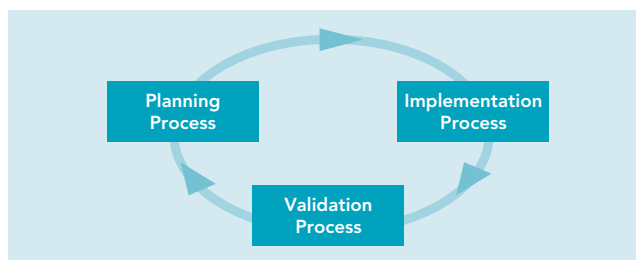

The credit rating system is broadly classified into the Japanese rating system (Japanese credit rating) and the Non-Japanese rating system (Non-Japanese credit rating), and each system comprises obligor ratings that reflect the PD of ordinary corporations; structured ratings that show the potentiality of real estate non-recourse loans and occurrence of default in project finances, etc.; and facility ratings that show the potentiality of occurrence of loss taking guarantees, collateral, credit terms, etc., of each facility into consideration.

Credit pool management system is designed to manage small-lot loans to individuals – such as mortgage loan and card loans – as transaction groups (pools) with similar risk characteristics. Credit pool classifications are compiled using products, clients, transaction details, security condition, delinquency status, etc. as indicators, and they include the mortgage loan pool with related company guarantees and business use loan pool.

2) Operation of the Internal Rating System

The process of the assignment of credit ratings, etc. comprises the “planning process” in which the definition of credit ratings, etc., and the procedures and criteria (credit rating policies) are drawn up, the “implementation process” in which the credit rating assignment criteria and credit pool allotment criteria are appropriately implemented, and the “validation process” in which the appropriateness and objectivity of credit ratings, etc., are ensured.

• Administration Process of Credit Ratings

A. Planning Process

The planning process is a process to formulate models such as specific credit rating assignment criteria, credit pool classification, and “credit rating models” to ensure the objectivity of our internal rating systems, and is carried out by the credit risk management sections.

[Process of Model Introduction (for Credit Rating Models)]

A credit rating model is a tool to statistically estimate the rating ranks corresponding to the PD (probability of default) of the clients using their financial indicators, etc.

When introducing the credit rating models developed by the Group, such as those aimed at the domestic corporations, the following process is followed:

First, the credit risk management sections develop a model and the development process and the verification details are compiled in a document (model description document*). Then the document is verified by the persons in charge but independent from the development project section of the same departments. In addition, the Internal Audit Department audits the document and confirms the validity of the development and validation process.

Meanwhile, when applying the credit rating models developed by external credit rating agencies, etc., such as those aimed at the overseas corporations, the following process is followed:

The credit risk management sections verify said model and put the findings into a document. Then the Internal Audit Department audits the document and confirms the validity of the validation process.

The performances of these models, etc. are also verified as part of the internal rating system annual reviews, and their outlines are reported to both the Credit Risk Committee and the Executive Committee.

* Model description document: a document detailing the contents such as the logic behind the model development, estimation methods, data employed, method of selecting parameters (financial indicators), and performance verification of the developed model (comparison with old models)

B. Implementation Process

During the implementation process, assignment of credit ratings and allotment of credit pool classifications are carried out following the criteria determined during the planning process. The assignment of credit ratings and the allotment of credit pool classifications are carried out by the research department and the Business Management Department as the “implementation departments.” The actual process of implementing the credit ratings comprises new assignment, regular review of at least once a year, and monthly reviews, to help the credit ratings to be reviewed at the right time according to the fluctuation in the clients’ creditworthiness.

Credit ratings are granted as a combination of “quantitative assessment” and “qualitative assessment.” “Quantitative assessment” is an evaluation based on the credit rating models, etc., while the “qualitative assessment” is a human evaluation (by expert judgement). Because credit ratings are evaluated as a combination of “quantitative assessment” and “qualitative assessment,” ultimately monitoring the objectivity of “qualitative assessment” by expert judgement, etc., becomes important in securing the appropriateness of the ratings.

At SuMi TRUST Bank, the credit risk management sections monitor if the assignment of credit ratings by the implementation departments is carried out appropriately according to the criteria, and this monitoring function ensures the appropriateness of the implementation process as a whole, including the expert judges’ objectivity.

• Implementation Process of Credit Ratings

C. Validation Process

In order to ensure the objectivities of credit ratings, etc., and the credit rating models, as well as the appropriateness of their results, the credit risk management sections carry out a validation process annually in the name of the validation department.

In carrying out the validation, the implementation departments manage the data to be verified, and the validation department runs the following validation process:

- Verifying the appropriateness of credit rating results
- Verifying the objectivity of credit rating assignment criteria
- Verifying the appropriateness of credit pool classification
- Verifying the validity of the parameters applied to credit ratings and credit pools respectively

The validation results are reported to both the Credit Risk Committee and the Executive Committee.

3) System Procedure for the Assignment of Internal Ratings

The outline of main procedures in the assignment of ratings and allocating the credit pool classification based on the internal rating system is as follows. For the outline of models used in the SuMi TRUST Group’s individual portfolios, please refer to 2 (7) “Compliance with Capital Regulatory Standards.”

A. Obligor Rating (Japanese Credit Rating)

[Target]

Japanese corporations (domiciled and Japanese-descended non-domicile residents)

[Quantitative Assessment]

The credit rating models (industry-based), in which the clients’ financial indicators are used as the explanatory variables, and their typical PD as the explained variable, are employed.

[Qualitative Assessment]

The information that is not reflected in the financial indicators, such as business affiliations, industry trends, external credit ratings and future cash-flow stability, is evaluated by the persons in charge of assignment of the industry-based credit ratings (expert judges) from the implementation departments. To mitigate the unevenness of the evaluation results, the qualitative assessment items are put together into a document to restrict the adjustment discretion. In addition, the credit risk management sections monitor the adjustment details in order to ensure the objectivity of the evaluation.

B. Obligor Rating (Non-Japanese Credit Rating)

[Target]

Overseas corporations (Non-Japanese-descended and non-domiciled residents)

[Quantitative Assessment]

The credit rating models (industry- and regions-based) to reproduce the external credit ratings by using the financial indicators as the explanatory variables are employed.

[Qualitative Assessment]

These are evaluated mainly through comparing the peer companies in the same industry, but also taking into consideration the evaluation indicators specific to overseas, while ensuring consistency with the qualitative assessment criteria for Japanese credit rating. To mitigate the unevenness of the evaluation results, the qualitative assessment items are put together into a document to limit adjustment discretion. In addition, the credit risk management sections monitor

the adjustment details in order to ensure the objectivity of the evaluation.

C. Structured Rating

[Target]

Structured finance transaction, whose underlying resource for principal and interest payment is cash-flow generated by specific financing asset or the financing project

[Quantitative Assessment]

This is evaluated using indicators with high correlations with probability of default and default risks, depending on the financing asset and the risk characteristics of the transaction. For example, in the case of a real estate non-recourse loan, we would adopt LTV (Loan to Value) and DSCR (Debt Service Coverage Ratio).

[Qualitative Assessment]

Adjustment to the rating level based on quantitative assessments to reflect the financing asset and transaction specific individual characteristics that quantitative assessment indicators are not capable of capturing. For example, if a credit enhancement is available externally, the rating levels are amended based on its probability. As the qualitative assessment of structured ratings tends to be strongly transaction specific, in the assignment of the ratings, the credit risk management sections monitor the validities of the qualitative assessment in order to ensure its objectivity.

D. Facility Rating

[Target]

Loans to corporates, sovereigns, and financial institutions to which an obligor rating (Japanese credit rating) is assigned and loans for specialised lending (but limited to those subject to AIRB) to which a structured rating is assigned (including payment acceptance/commitment line)

[Evaluation Method]

Expected loss taking account of guarantees, collateral, credit terms, etc. of each facility is evaluated and a rating according to the level is assigned.

E. Credit Pool Classification

[Subject of Assignment]

Small credit for loans targeted at individuals. (However, out of loans to individuals, credit transactions for business loan with outstanding balance of 100 million yen or more are subject to credit ratings to each obligor.)

[Assignment of Credit Pool Classification]

Regarding target credit, credit pool classifications (each class consisting of similar level of exposure of credit risk) are set using indicators (risk drivers) such as risk characteristics of clients, risk characteristics of transactions (products), security condition, and delinquency situation. Furthermore, each credit pool is categorized as “residential mortgage exposures,” “qualifying revolving retail exposures” and “other retail exposures.”

Assignment to the credit pool classifications is carried out by the implementation departments based on the products and transaction details.

(7) Compliance with Capital Regulatory Standards

1) Application of the Internal Ratings-based Approach

A. Scope of the Internal Ratings-based Approach Application

As a method of calculating credit risk-weighted assets related to the calculation of required capital demanded by the capital regulatory standards, the SuMi TRUST Group adopts the “internal ratings-based approach” that uses data such as credit ratings, which are used for obligors’ credit management within SuMi TRUST Holdings. Since the end of March 2015, SuMi TRUST Holdings and SuMi TRUST Bank have been using the Advanced Internal Ratings-Based Approach (AIRB). The scope of the application of the internal ratings-based approach in the SuMi TRUST Group is as follows.

(A) Business Unit

Type of the internal ratings-based approach	Major companies
Advanced Internal Ratings-Based Approach (AIRB)	Sumitomo Mitsui Trust Holdings, Inc. Sumitomo Mitsui Trust Bank, Limited
Foundation Internal Ratings-Based Approach (FIRB)	Sumitomo Mitsui Trust Guarantee Co., Ltd. Sumishin Guaranty Company Limited Sumitomo Mitsui Trust Card Co., Ltd. Sumitomo Mitsui Trust Loan & Finance Co., Ltd. Sumitomo Mitsui Trust Panasonic Finance Co., Ltd. Sumitomo Mitsui Trust Club Co., Ltd.

(B) Asset Class

Type of the internal ratings-based approach	Asset contents
Advanced Internal Ratings-Based Approach (AIRB)	Loans and securities for corporates, etc.*
Foundation Internal Ratings-Based Approach (FIRB)	Assets excluding those following below <ul style="list-style-type: none"> • Assets which are subject to AIRB • Assets which are not subject to AIRB or FIRB

* Corporates not subject to specialised lending are limited to those to which a domestic credit rating is assigned.

Out of specialised lending, AIRB applies to real estate non-recourse loans (excluding those with high volatility), project finance, and object finance for ships and aircrafts.

Loans include acceptances & guarantees and commitment lines, etc. Also, those concerning subordinated debt, derivatives transactions, repo transactions and call loans are excluded.

B. Exclusion of the Application of the Internal Ratings-based Approach

In the SuMi TRUST Group, the standardised approach* is applied as exclusion of the application of the internal ratings-based approach, among the subsidiaries of SuMi TRUST Holdings and SuMi TRUST Bank, to the business units in which the proportion of credit operations, etc. is low or credit operation is not performed as well as to certain asset classes that are not significant from the viewpoint of credit risk management. The exclusion is determined carefully based on the importance from the following points with respect to target business units and asset classes.

- The magnitude of the expected loss related to credit risk and the frequency of credit provision
- Positioning in the investments and loans policy or credit risk management policy
- Proportion to the entire credit risk-weighted assets.

* The standardised approach is a method to calculate the risk-weighted assets using the external credit ratings of eligible rating agencies, instead of the SuMi TRUST Bank's credit ratings (internal ratings). The eligible rating agencies that are used to determine risk weights are Rating and Investment Information, Inc. (R&I), Japan Credit Rating Agency, Ltd. (JCR), Moody's Investors Service, Inc. (Moody's), S&P Global Ratings (S&P), and Fitch Ratings, Inc., (Fitch).

C. Phased Rollout of the Internal Ratings-based Approach

The SuMi TRUST Group applies the standardised approach to subsidiaries (business units) that are in preparation for application of the internal ratings-based approach, assuming the approach will change to the internal ratings-based approach in the future. As of the end of March 2021, Sumitomo Mitsui Trust Bank (Thai) Public Company Limited falls under this category.

2) Calculation of the Required Capital Using the Internal Ratings-based Approach

As mentioned in 1), the SuMi TRUST Group mainly applies the internal ratings-based approach to calculate the regulatory required capital.

A. Basic Process of the Internal Ratings-based Approach

With the internal ratings-based approach, the regulatory required capital is calculated by the following three steps.

[First Step] Assignment of Credit Ratings, etc. (Credit Ratings and Credit Pool Classifications)

The bank develops a unique ratings system (internal rating system)* according to its risk characteristics, and based on this system, we give a rating to clients. Credit ratings, etc. not only ensure consistency with asset assessment, but also ensure the accuracy through validation by each credit risk management section.

* For details of the internal rating system of SuMi TRUST Bank, please refer to 2 (6) "Internal Rating System."

[Second Step] Estimation of Parameters

The results of individual credits (default actual data) that are performed based on credit ratings, etc. are aggregated and parameters (input variables) necessary for credit risk-weighted assets calculation are estimated. The validity of the estimated parameters is periodically verified.

[Third Step] Calculation of the Required Capital

The required capital is calculated by applying the parameters to the formula that is announced.

• Basic Process of the IRB Approach

B. Application Method Per Asset Class

The SuMi TRUST Group determines the scope of the internal ratings-based approach based on the accumulation status of internal performance data such as risk characteristics for each asset class and default performance required to estimate parameters. In the capital regulatory standards, methods for calculating risk weights and credit ratings to be used vary for each asset with credit risk. The credit ratings, etc. and the outline of credit risk-weighted assets calculation method that the SuMi TRUST Group applies to each asset class are shown on page 235.

C. Estimation and Verification of Parameters

The key parameters that need to be estimated to calculate the credit risk-weighted assets are probability of default (PD), loss given default (LGD), and exposure at default (EAD) (credit conversion factor (CCF)).

Parameters are estimated for those to be applied to corporate exposures, etc. and those to be applied to retail exposures (credit pool management target). In principle, estimated parameters are verified annually. The verification results are reported to the Credit Risk Committee and the Executive Committee. The results are also subject to internal audits.

The definition of each parameter and the outline of the estimation method and verification method are shown on page 236.

In principle, the parameters used in the capital regulatory standards are the same as the ones that are used for regulatory purposes and internal control management purposes to ensure objectivity and accuracy. For the internal control management purposes, the parameters are used for credit risk amount measurement and credit limit amount management.

The main differences of the parameters used in the calculation of allowances and capital adequacy ratio are as follows.

• Main Differences of the Parameters Used in the Calculation of Allowances and Capital Adequacy Ratio

	Calculation of allowances	Calculation of capital adequacy ratios
Parameters to be used	Expected loan loss ratio based on historical loan loss rate	Probability of Default (PD)
	The actual balance of loans (for the undrawn balance of the commitment line, the amount calculated by multiplying the amount by the actual withdrawal rate)	Loss Given Default (LGD)
Standard of default (loan loss)	When the obligor categorized as "Possibly Insolvent Obligor" or lower	Exposure At Default (EAD)
Parameter calculation method	Expected loan loss ratio: <ul style="list-style-type: none"> for Sound Obligor: The average value of historical one year loan loss rate for the most recent three periods, with floor adjustment taking into consideration the longer-term time horizon. for Sub-Performing Obligor or lower: The average value of historical three years' cumulative loan loss rate for the most recent three periods, with floor adjustment taking into consideration the longer-term time horizon. 	When the obligor categorized as "Sub-Performing Obligor with Delinquent and/or Restructured debt" or lower
		Please refer to "Definition of Each Parameter and the Outline of the Estimation and Verification Method" on page 236

• Credit Risk-weighted Assets Calculation Method and Credit Ratings Applied to Each Asset Class

Approach method	Asset Class*1		EAD ratio*2		Calculation method of credit risk-weighted assets	Assignment of credit ratings, etc.*3	
			1)	2)			
Internal Ratings-based Approach	Corporate Exposures, etc.	Corporate Exposures	—	32%	32%	Supervisory Formula	Obligor Ratings, Facility Ratings
		Specialised Lending	Real estate non-recourse loans (excluding those with high volatility), project finance, and object finance for ships and aircraft	5%	5%	Supervisory Formula	Structured Ratings, Facility Ratings
			Real estate non-recourse loans (with high volatility) and other loans not stated above	0%	0%	Supervisory Slotting Criteria Approach	
		Sovereign Exposures	—	35%	36%	Supervisory Formula	Obligor Ratings, Facility Ratings
		Financial Institution Exposures	—	1%	1%	Supervisory Formula	Obligor Ratings, Facility Ratings
	Retail Exposures	Residential mortgage exposures	17%	17%	Supervisory Formula	Credit Pools	
		Qualifying revolving retail exposures	1%	1%	Supervisory Formula	Credit Pools	
		Other retail exposures	2%	2%	Supervisory Formula	Credit Pools	
	Equity Exposures	Japanese listed equities Japanese unlisted equities of obligors with credit exposures	1%	1%	Supervisory Formula	Obligor Ratings	
		Japanese unlisted equities of obligors with no credit exposures Non-Japanese equities	0%	0%	Simple Risk-weight Method (Market-based Approach)	—	
	Exposures relating to Funds	—	2%	2%	Look-through Approach	Obligor ratings, etc.	
	Purchased Receivables	Regulatory formula for underlying assets	1%	1%	Supervisory Formula	Obligor Ratings, Facility Ratings	
		Slotting criteria approach for underlying assets	0%	0%	Supervisory Slotting Criteria Approach	Structured Ratings	
		Cases where classification is not possible due to multiple underlying assets	0%	0%	Top-down Approach	Credit Pools	
	Others	Other assets, etc.	1%	1%	Designated risk weight is applied	—	
Standardised Approach	Phased rollout/exclusion of IRB Approach	—	2%	2%	Designated risk weight is applied	—	

[Applicable Credit Risk-weighted Assets Calculation Method]

Supervisory Formula	A method of calculating by using a predetermined function formula (risk weight function formula)
Supervisory Slotting Criteria Approach	A method of associating internal ratings with five predetermined ranks and calculating using a designated risk weight
Simple Risk-weight Method	A method of calculating by using a designated risk weight
Look-through Approach	A method of applying the calculation method according to the underlying assets
Top-down Approach	A method of calculating purchased assets as one aggregate using a predetermined function formula (risk weight function formula)

*1 Corporate exposures, etc., include lease transactions. In addition, corporate exposures, etc. include the exposures for small and mid-sized entities (SME).

2 The proportion of EAD for each asset class in total EAD () on the 1) consolidated basis of SuMi TRUST Holdings and 2) consolidated basis of SuMi TRUST Bank is stated.

(*) Counterparty credit risk exposures, such as derivatives transactions and repo transactions and securitisation exposures are excluded from the aggregate calculation. For securitisation exposures, "Method based on Internal Ratings-Based Approach," "Rating-Based Approach," and others are used.

*3 The outline of the rating models used by the SuMi TRUST Group's core bank, SuMi TRUST Bank, is as follows.

	Outline of models	Applied asset class
Japanese obligor ratings	<p>[Rating model] A model (developed in-house) that uses financial indicators as explanatory variables and a typical PD as explained variables is used. Different combinations of financial indicator and weight are used for each of the five industries (manufacturing industry, wholesale/retail industry, service industry [including non-banking], transport/communication industry, construction/real estate industry).</p> <p>[PD estimation] PD is estimated for each rating category.</p>	<ul style="list-style-type: none"> • Corporate exposures • Equity exposures • Exposures relating to Funds • Purchased receivables
Non-Japanese obligor ratings	<p>[Rating model] A model (developed by external credit rating agencies) that uses financial indicators as explanatory variables and reproduces external credit ratings is used. Different combinations of financial indicator and weight are used for each of the eight regions and industries (North America, Europe, Asia, Pacific, emerging countries, airlines, real estate investment business, real estate development business).</p> <p>[PD estimation] PD is estimated for each rating category.</p>	<ul style="list-style-type: none"> • Corporate exposures • Equity exposures • Exposures relating to Funds • Purchased receivables
Credit pool classifications	<p>[Credit pool classifications] Credit pool classifications (consisting of exposures with comparable levels of credit risk) are established based on indicators (risk drivers), such as the risk characteristics of the obligor, the risk characteristics of transactions (products), the security condition, and the delinquency situation, etc.</p> <p>[PD classification] PD is estimated for each credit pool classification or estimation category where multiple credit pool classifications are aggregated.</p>	<ul style="list-style-type: none"> • Retail exposures • Purchased receivables

• Definition of Each Parameter and the Outline of the Estimation and Verification Method

Type of parameters and definition	Summary of the methods for estimation and verification	
	Corporate Exposures, etc.	Retail Exposures
<p>PD (Probability of Default)</p> <p>- An estimate of the probability that a borrower or transaction will be unable to meet its debt obligation in a particular period</p>	<p>[Estimation method]</p> <ul style="list-style-type: none"> • PD is estimated for each rating category. In addition, the estimated value is called “typical PD” as a long-term stable representation of its creditworthiness. • Estimated values are calculated by using the long-term average default rate based on the internal performance data or data of the external credit rating agencies, and modification is made, taking into account the recession period. *1 <p>[Verification method]</p> <ul style="list-style-type: none"> • The validity of the level of estimated values is verified by confirming the order of the actual default rate and carrying out backtestings comparing the actual value with the estimated value. 	<p>[Estimation method]</p> <ul style="list-style-type: none"> • PD is estimated for each credit pool classification or the estimation category where multiple credit pool classifications are aggregated. • For residential mortgage, estimated values are calculated by using the long-term average default rate based on internal performance data, and modification is made, taking into account statistical variance adjustment and seasoning effect. *2 <p>[Verification method]</p> <ul style="list-style-type: none"> • The validity of the level of estimated values is verified by confirming the seasoning effect and carrying out backtestings.
<p>LGD (Loss Given Default)</p> <p>- An estimate of the ratio of expected loss in case a borrower or transaction falls into default against the exposure at default</p>	<p>[Estimation method]</p> <ul style="list-style-type: none"> • LGD is estimated for each security category (classified into four according to the ratio of collateralized amount to exposure amount) or category (classified according to the characteristics of the underlying assets). The estimated value is called “typical LGD” as a long-term stable representation of the loss rate level. • Estimated values are calculated by using the long-term average default loss rate based on internal results data or external results data and adjusted for statistical variances and periods of economic downturn. *3 <p>[Verification method]</p> <ul style="list-style-type: none"> • In addition to verifying the robustness of modeling and adjustment methods, the validity of the level of the estimated value is verified by carrying out backtestings. 	<p>[Estimation method]</p> <ul style="list-style-type: none"> • LGD is estimated for each credit pool classification or the estimation category where multiple credit pool classifications are aggregated. • Estimated values are calculated by using the actual collection results from the default obligor using the internal performance data. Statistical variance adjustment and economic downturn adjustment are added to the model. *4 <p>[Verification method]</p> <ul style="list-style-type: none"> • In addition to verifying the robustness of correction methods, the validity of the level of the estimated value is verified by carrying out backtestings.
<p>EAD (Exposure At Default)</p> <p>- Estimated amount of exposure at default, taking into account the possibility of additional withdrawal of off-balance sheet assets such as commitment line. EAD estimates the withdrawal rate (credit conversion factor (CCF)) against the undrawn balance of offbalance sheet assets</p>	<p>[Estimation method]</p> <ul style="list-style-type: none"> • CCF is not estimated, but estimate values are determined based on parameter set by regulatory authority. 	<p>[Estimation method]</p> <ul style="list-style-type: none"> • EAD is estimated for each credit pool classification or the estimation category where multiple credit pool classifications are aggregated. • Estimated values are calculated by using the actual additional withdrawal results from the default obligor based on the internal performance data, and statistical variance adjustment is made. *5 <p>[Verification method]</p> <ul style="list-style-type: none"> • In addition to verifying the robustness of correction methods, the validity of the level of the estimated value is verified by carrying out backtestings.

- *1 • For the portfolio with low default probability (LDP: Low Default Portfolio), conservative estimates are made by accumulating the rating transition matrix in the estimation process, even for the rating category where no default has occurred or default rarely occurs.
- For corporate exposures, etc., excluding sovereign exposures, if the level of the estimate falls below the regulatory floor level (0.03%) (Japanese rating: 1 to 3, Non-Japanese rating: 1 to 2), the floor value is applied.
- As described above, the estimated value is calculated based on the long-term default actual data including the recession period, and it is confirmed by test that the estimated value is sufficiently conservative as compared with each single year actual default rate in the past three periods.
- *2 • For retail exposures, as for the pool classifications where the level of the estimated value is below the regulatory floor level (0.03%), the floor value is applied.
- As described above, the estimated value is calculated based on the long-term default actual data including the recession period, and, for most of the pool classifications, it is confirmed by conducting backtestings that the estimated value is sufficiently conservative as compared with each single year actual default rate in the past three periods. As a result of backtestings, parameters for pools that exceed the parameter correction standard are corrected to appropriate levels.
- *3 • Correction of the recession period is based on the correlation between LGD and economic indicators.
- When performing estimation based on internal results data, the estimated value is calculated based on the model LGD formulating the relationship between collection factors and collection rate, which enables stable calculation of the estimated values even for LDP portfolios. In addition, the validity of the estimated value level is verified by backtestings.
- When using internal results data, for obligors who have completed the collection procedure, average period from the default of the obligor to the completion of the collection procedure is less than two years.
- *4 • Correction of the recession period is based on the correlation between LGD and economic indicators.
- As for residential mortgage, approximately 80% of the cases have been completed the collection procedure within five years from default.
- *5 • The estimate of CCF uses data on commitment line contracts and line of credit contracts for which installment has not been implemented and employs a cohort method based on the proportion of additional withdrawals up to the default point for undrawn balances at the beginning of the fiscal year.

3. Market Risk Management

(1) Definition of Market Risk

Market risk refers to the risk that the Sumitomo Mitsui Trust Group (the "SuMi TRUST Group") may incur losses due to fluctuations in the value of assets/liabilities (including off-balance sheet assets/liabilities), or in the earnings generated from assets/liabilities, due to fluctuations in various market risk factors, such as interest rates, foreign exchange rates, stocks, commodities, and credit spreads. Of this, "market liquidity risk" in particular means risk that the SuMi TRUST Group may incur losses caused in a situation where it becomes impossible to conduct transactions in the market or becomes obligatory to trade at prices significantly disadvantageous than usual due to market turmoil.

(2) Characteristics of Market Risk

Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank"), the core bank of the SuMi TRUST Group, operates a business (banking) to secure profits through interest rate risk control of assets and liabilities, and a business (trading) to secure profits through transactions such as short-term trading of interest rates and foreign exchange rates. In these businesses, we use Value at Risk (VaR), etc. and manage market risk using the same structure.

For trading, we aim at securing stable profits through market-making operations such as foreign exchange rates and derivatives.

The main risk in the SuMi TRUST Group's market risks is losses due to drop of prices of strategic shareholdings, etc. In addition to the basic policy of reducing strategic shareholdings, we have been working to control risk by hedging against market fluctuations. From fiscal 2021, the Group has shifted to a policy of not holding any of the conventional strategic shareholdings (shareholding of business partners as stable shareholders without the purpose of forming capital or business alliances, etc.), and based on the new policy, we will continue to reduce our strategic shareholdings and hedging volume.

(3) Market Risk Management Policy

In managing market risk, we aim to ensure adequate profits commensurate with the strategic targets, scale and characteristics of the business of the SuMi TRUST Group. We are doing this by improving the management system, along with ensuring its operational soundness by adequate control over risks.

(4) Market Risk Management System

Sumitomo Mitsui Trust Holdings, Inc. ("SuMi TRUST Holdings") oversees risk management of the market and funding liquidity of the entire group and is working to improve the structure of each Group company. SuMi TRUST Bank has developed a risk management system at the consolidated and global levels in order to manage market and funding liquidity risks.

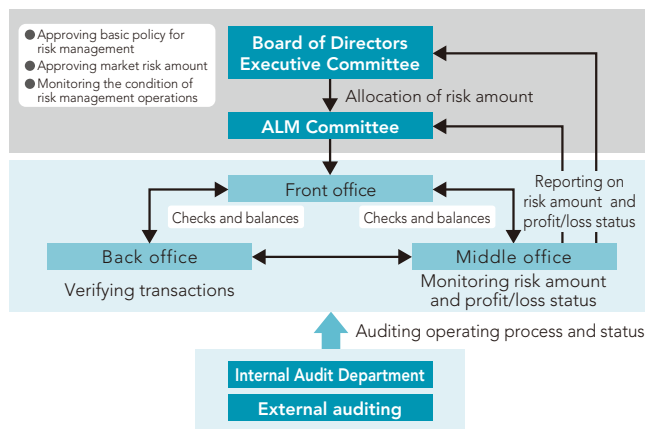

SuMi TRUST Bank develops the Asset Liability Management (ALM)* basic plan that covers comprehensive risk operation and management of assets and liabilities from the viewpoints of the entire company and a risk management plan concerning market risk and funding liquidity risk once in six months at the ALM Committee, a management-level meeting body. The developed plans are deliberated and resolved (approved) by the Executive Committee and the Board of Directors, and important matters related to risk management are decided. By holding the ALM Committee monthly and controlling market risk and funding liquidity risk, we are making efforts to improve the soundness of the composition of assets and liabilities and stabilize earnings.

In addition, the front office (market-based transactions departments), back office (administration departments), and middle office (risk management departments) are independent. This way, a system of mutual check and balance among departments is in place. The front office and back office operate business such as appropriate control of risks in accordance with the size and characteristics, and human resource development in order to ensure the effectiveness of risk management based on accurate recognition of the risks. The middle office develops or operates the risk management process including identification, evaluation, monitoring, control and reduction of market risk, and plans and promotes risk management systems to demonstrate the check function for the front office, etc. In addition to having the function of planning and developing policies and procedures concerning market risk management, the middle office also has the function of monitoring market risk status such as market risk amount and profit and loss measurement.

The appropriateness and effectiveness of the risk management systems are verified by internal auditing or external auditing.

* ALM (Asset Liability Management): managing cash flow, liquidity, foreign exchange risk, and interest rate risk, etc., by grasping the characteristics of expirations and interest rates of our assets and liabilities.

• Market Risk/Funding Liquidity Risk Management System

(5) Market Risk Management Method

Within the scope of capital, SuMi TRUST Holdings develops a capital allocation plan and allocates capital to each Group company. Based on the allocated capital, SuMi TRUST Bank sets various limits including loss limit to control the risk and loss to a certain range.

We conduct multifaceted risk management from quantitative and qualitative perspectives. As for the compliance status of various limits, it is reported daily to the members of the ALM Committee through monitoring of the market risks status. Multiple risk analyses including identifying sensitivities to risk factors for each position, predictive management of risk factor fluctuations, and preparation for emergency using stress tests are also reported regularly to the Board of Directors and the ALM Committee, etc.

In the measurement of interest rate risk, we estimate and reflect the core deposit, term deposits redemption ratio and conditional prepayment rate of mortgage loan, etc. For details, please refer to 3 (7) 6) "Calculation Method of Interest Rate Risk."

Measurement Model for Market Risk Amount

The market risk amount is measured by the internal model method using VaR as a scale. Details of the measurement model are as follows.

Measurement model	Historical simulation method
Confidence interval	99%
Holding period	Trading: 10 days Banking: Convert VaR of holding period 10 days by square route T/10 times ALM related position: 63 days (3 months) Credit investment, strategic shareholdings, and credit valuation adjustment (CVA) 260 days (1 year) Others: 21 days (1 month)
Observation period	1,300 days (5 years)
Update frequency	Daily
Weighting	Historical weight method is applied. (Assign a higher probability to recent historical scenarios than older historical scenarios)
Price revaluation	Full revaluation method (For CVA, sensitivity-based method)
Fluctuation of risk factors	Absolute return

The scope of application of the internal model is interest rate risk, equity position risk, foreign exchange risk, and commodities risk (excluding some products) at SuMi TRUST Bank. The correlation between each risk factor is not taken into consideration, and the risk amount is simply added when creating synthesis of risk.

In order to verify the reliability and effectiveness of the internal model, backtestings are performed to compare the actual results of the daily profit/loss and the virtual profit/loss with the daily VaR whose holding period is one day. In addition, the validity of the model calculation method and precondition is verified periodically to ensure that the assumption for VaR calculation is not deviating from the actual market situation.

The VaR measurement using the historical simulation method that is affected by market fluctuations in the past observation period has a limit that it is impossible to capture large market fluctuations that have not occurred in the past or occurred outside of the observation period. This limit is complemented by implementing stress tests. The amount of loss when applying the expected scenario based on the maximum fluctuation range of each risk factor in the past and the future forecast to the current portfolio is regularly estimated.

(6) Compliance with Capital Adequacy Regulations

Calculation of Market Risk Equivalent Amount

The market risk equivalent amount refers to the sum of market risk in the trading account and foreign exchange risk and commodities risk in accounts other than the trading account, which is a factor used to calculate capital adequacy ratio. The SuMi TRUST Group calculates the market risk equivalent amount mainly by applying the Internal Model Approaches*. For calculation, general market risks and individual risks are simply added.

General market risk consists of VaR, which measures using the most recent market data, and stressed VaR, which measures using market data during the stress period. The preconditions of stressed VaR differ from the market risk measurement model described in 3 (5) "Market Risk Management Method" as follows.

Holding period	10 days (Convert VaR of holding period 1 day by square route ten times)
Observation period	260 days (1 year)
Weighting	Not applicable

Furthermore, the observation period is, in principle, set as the stress period for the stressed VaR in which the risk amount becomes the largest, taking into consideration the market data from 2007 onwards and the holding position in the past one year.

* Standardised approach is applied to the general individual risks of SuMi TRUST Bank as well as the foreign exchange risk of consolidated subsidiaries.

(7) Interest Rate Risk Management in the Banking Book

1) Definition of the Interest Rate Risk in the Banking Book

Interest rate risk in the banking book (IRRBB) is the risk that the capital and profit/loss of banks will be damaged now or in the future due to adverse impact on the banking book positions by changes in interest rate levels.

The present value is considered as economic value of equity (EVE) and future profits are considered as net interest income (NII), and the loss ranges against the current interest rate level are measured as Δ EVE and Δ NII respectively. The scope of the measurement is a position with interest rate risk in the banking book of SuMi TRUST Bank, and other Group companies that hold interest rate risk.

2) Characteristics of Interest Rate Risk in the Banking Book

IRRBB is caused by maturity dates mismatch (gap risk), interest rate mismatch (basis risk), and optionality associated with interest rate change (option risk) in the banking account positions.

Δ EVE is maximized associated with "steepener" for SuMi TRUST Holdings (consolidated) and SuMi Trust Bank (consolidated) and with "parallel down" for SuMi Trust Bank (non-consolidated), which is a change from "parallel up" at the end of last fiscal year. However, the ratio of Δ EVE to Tier 1 capital is still well below the regulated level of 15%, and interest rate risk in the banking book is low.

3) Interest Rate Risk in the Banking Book Management Policy

The risk management policy concerning IRRBB is the same as 3 (3) "Market Risk Management Policy."

To control interest rate risk, hedge accounting is applied to transactions that use interest rate swaps as hedging instruments and meet the application requirements of hedge accounting.

4) Interest Rate Risk in the Banking Book Management System

SuMi TRUST Holdings oversees risk management related to the IRRBB of the entire Group, and SuMi TRUST Bank maintains and manages IRRBB management systems at the consolidated and global levels.

5) Interest Rate Risk in the Banking Book Management Method

At SuMi TRUST Bank, the ALM basic plan that covers comprehensive risk operation and management of assets and liabilities from the viewpoints of the entire company is developed once in six months at the ALM Committee, a management-level meeting body. At that time, alarm points are set for the increase/decrease of the economic value of equity (Δ EVE) of the position. IRRBB is measured monthly, and alarm points are monitored. Reports on the measurement results are submitted monthly to the ALM Committee.

6) Calculation Method of Interest Rate Risk

The assumptions, etc. for calculating IRRBB are as follows.

- **Non-maturity Deposits ("NMDs")**

The maximum maturity of the interest rate revision assigned to non-maturity deposits is five years, and the average maturity is 0.6 years.

- **Core Deposits**

The standardised approach exemplified by the Financial Services Agency is applied to the cases of SuMi TRUST Bank. Out of the NMDs that the clients can withdraw at any time, we recognize the balance that is expected to be stable and non-linked to interest rate as deposits with the maximum maturity of five years and the average maturity of 2.5 years.

- **Term Deposits Redemption Ratio**

Targeting yen-based term deposits, the redemption rate is set after checking past redemption results.

- **Conditional Prepayment Rate of Loans**

Targeting mortgage loan, etc., the prepayment rate is set after checking past repayment results.

- **Treatment of Foreign Currencies**

The target currencies are determined based on their respective ratio in the scale of the balance sheet, importance to the SuMi TRUST Group's position, and other factors.

The correlation (considering dispersion or offset) of different currencies is treated as follows.

Δ EVE: Correlation of different currencies is not considered, and only the currencies for which EVE decreases are combined.

Δ NII: Correlation of different currencies is considered, and the currencies for which NII increases and the currencies for which NII decreases are simply combined.

- **Treatment of Spreads**

In calculation, spreads are not included in discounted interest rates and cash flows.

- **Pass-through Rate of Received Credit Interest Rates**

In measuring Δ NII, upon reviewing of interest rates of received credit (term deposits, etc.), the pass-through rate is estimated based on the past record to understand how much the interest rates of received credit follow the fluctuation of the market interest rates.

7) Interest Rate Risk Other Than Δ EVE and Δ NII

SuMi TRUST Bank measures and manages the market risk amount by the method described in 3 (5) "Market Risk Management Method."

With the stress test conducted to complement the limitation of VaR, we are striving to grasp the potential vulnerability by including the portfolio of the entire SuMi TRUST Bank including both banking accounts and trading accounts in the measurement range, reproducing scenarios that give a certain fluctuation (shock) to risk factors or past stress events such as the collapse of Lehman Brothers, or developing a forward looking virtual scenario that takes into consideration the future position and the market situation.

4. Funding Liquidity Risk Management

(1) Definition of Funding Liquidity Risk

The funding liquidity risk refers to "the risk that the SuMi TRUST Group may incur losses in a situation where it becomes impossible to secure necessary funds or becomes obligatory to raise funds at interest rates significantly higher than usual."

(2) Characteristics of Funding Liquidity Risk

The main risk in the funding liquidity risk of the SuMi TRUST Group is deterioration of foreign currency funding when assuming downgrades of Japan and/or Japanese financial institutions. Sumitomo Mitsui Trust Bank, Limited, which is the core bank of the SuMi TRUST Group, has developed medium- to long-term procurement policies according to each currency's characteristics such as the status of assets/liabilities and market liquidity, and is striving to operate stable foreign currency financing that can withstand the market disruptions and cash outflows in the past.

(3) Funding Liquidity Risk Management Policy

In managing funding liquidity risk, based on the full recognition that risk materialization may directly lead to the bankruptcy of the SuMi TRUST Group, our basic policy is to implement proper funding liquidity risk management with two pillars: 1) "to pursue the balance between funding cost and stability" by various means of procurement, and 2) "emergency preparedness" by verifying procurement capability and countermeasures under the stress environment in advance.

Based on the compliance with international standards on bank capital and liquidity (Basel III, etc.), we will continue to promote the advancement of funding liquidity risk management systems.

(4) Funding Liquidity Risk Management System

The funding liquidity risk management systems are the same framework as 3 (4) "Market Risk Management System."

(5) Funding Liquidity Risk Management Method

As the indicator of funding liquidity risk management, the ALM basic plan specifies the limits for the funding liquidity mismatch amount* for each company, office and currency as well as the responses at the time of limit conflict. The compliance status is also monitored on a daily basis. In addition, stress tests are performed based on multiple scenarios such as sudden changes in the market environment and changes in the procurement environment specific to the SuMi TRUST Group to grasp the amount of funds needed when funding liquidity risk materializes.

As countermeasures for the materialization of funding liquidity risk, a financing phase (peacetime, presage time, concern time, crisis time) is established according to tightness of the financing situation. Qualitative/quantitative events that may affect financing are monitored from peacetime as crisis management indicators, and a contingency plan is developed as countermeasures against the crisis. Regarding the contingency plan, the adequacy of the financing amount at the time of materialization of funding liquidity risk is verified by stress tests to ensure feasibility through periodic training.

* Funding liquidity mismatch amount: the amount of funds needed on a daily basis to cover the final figure of the settlement account for each currency.

5. Operational Risk Management

(1) Definition of Operational Risk

Operational risk refers to the risk that may adversely affect the Sumitomo Mitsui Trust Group (the "SuMi TRUST Group"), clients, markets, financial infrastructure, society, or the work environment due to inadequate or failed business processes, the activities of executives or employees, computer systems, or due to external events. The SuMi TRUST Group classifies operational risk into business processing risk, system risk, information security risk, legal and compliance risk, conduct risk, human resource risk, event risk and reputational risk for the purpose of risk management.

(2) Characteristics of Operational Risk

Major risks related to the SuMi TRUST Group's operational risk are cyber attacks, delay in system development and increases in development costs, along with the risks associated with ineffective anti-money laundering and terrorist financing measures.

Our business operations are exposed to the risk of being adversely affected by cyber attacks (such as ransomware attacks and DDoS attacks*), resulting in suspension of services, leakage of information, destruction and alteration of data, etc. The SuMi TRUST Group recognizes cyber security measures as one of the critical management priorities, and formulated the "Cyber Security Management Declaration," thereby promoting security enhancing measures under the initiative of the management.

* DDoS attack: Distributed Denial of Service attack; an attempt to render services unavailable by imposing high processing load on a target computer from multiple machines.

Furthermore, the SuMi TRUST Group's business performance may be adversely influenced by various factors, including costs arising from postponed system releases due to delay in progress with system development projects and

maintenance of alternative systems, and additional costs incurred for development employee allowances as a result of increases in development costs. The SuMi TRUST Group strives to diminish and mitigate risks through monitoring of development status by related departments, such as risk management-related departments.

Moreover, we face the risk of being used for financial crime activities, including money laundering and terrorist financing, resulting from ineffective anti-money laundering and terrorist financing measures, which could pose a serious threat to the soundness of our financial system. This also exposes us to the risk of being subjected to administrative dispositions such as business suspension orders, payment of large fines, and deterioration of our reputation. The SuMi TRUST Group strives to diminish and mitigate risks through a risk-based approach by enhancing measures for eliminating money laundering, etc., based on gap analysis benchmarking against the regulatory requirements (including those overseas), and the clarification of the challenges to be addressed.

(3) Operational Risk Management Policy

Upon building an operational risk management system, the SuMi TRUST Group recognizes operational risk to be an inevitable risk incidental to business execution, implements proper risk management according to the scale and characteristics of operations and risks, and ensures business soundness and appropriateness.

In preparation for enhancement of the SuMi TRUST Group's operations, and products and services that the SuMi TRUST Group provides, and development of new risks following changes in social and economic environments, such as advancement of information technology and diversifying needs, we will further enhance our operational risk management system.

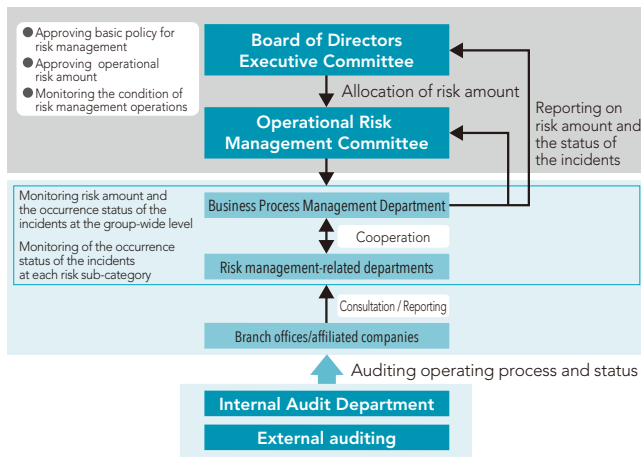

(4) Operational Risk Management System

The SuMi TRUST Group is striving to create a system related to operational risk management of each Group company based on the basic policy on operational risk management of the entire Group.

At Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank"), which is the core bank of the SuMi TRUST Group, policies related to the operational risk management system and other important matters, such as "the risk management plan (operational risk)," are planned and proposed at the Operational Risk Management Committee and the Executive Committee, and resolved (approved) by the Board of Directors.

Based on such policies, we have established a department in charge of comprehensive operational risk management, and risk management-related departments for each sub-category of operational risk. The Business Process Management Department, the department in charge of comprehensive operational risk management, is working on creation and enhancement of the operational risk management system in cooperation with each risk management-related department.

• Operational Risk Management System

(5) Operational Risk Management Method

Operational risks involved in all areas of the SuMi TRUST Group’s business, including outsourced business, are subject to operational risk management, which adequately identifies and assesses risk from both qualitative and quantitative perspectives. Meanwhile, preventative measures against risk materialization, as well as responses in the event of materialization, causal analysis and measures to prevent recurrence are developed to mitigate operational risk.

SuMi TRUST Bank has defined any cases, in which a client or we have incurred losses as a result of inappropriate business procedures in the course of operations by employees and officers, as an operational incident or a minor incident (hereinafter “operational incident, etc.”), and has established a system of reporting and managing operational incidents, etc. in an effort to properly deal with such operational incidents, etc. upon their occurrence, prevent and reduce recurrence, and improve the quality of business processing.

Any operational incident, etc. will be reported upon its occurrence in a timely manner to the business supervision departments, risk management-related departments, and the Risk Management Department through registration to the reporting system by the department that caused operational incidents, etc. Furthermore, according to the impact

of a relevant case, such as the scope of influence and the amount of loss, the operational incident, etc. will be reported to the Operational Risk Management Subcommittee, the Operational Risk Management Committee, the Executive Committee, and any other related committees. The department in which the incident, etc. has occurred will take proper and expeditious action toward clients involved in accordance with the instructions by the business supervision department and other related departments, examine and analyze the causes of the incident, etc., and discuss, plan, and implement measures to prevent recurrence.

As for periodical analysis, the business supervision departments regularly analyze the occurrence tendency of operational incidents, etc. taking place in each business and their causes, and develop measures to prevent recurrence that are deemed effective for the business in general. In addition, risk management-related departments and the Risk Management Department develop and review effective measures to prevent recurrence from group-wide and cross-sectional perspectives.

(6) Risk Management for Each Sub-category

1) Business Processing Risk Management

Business processing risk refers to the risk that the SuMi TRUST Group may incur losses due to inappropriate business procedures arising from executives or employees neglecting to engage in proper business activities, or other incidents such as accidents or fraud.

Engaging in a broad range of businesses including banking, asset management, asset administration (including trust business) and real estate, the SuMi TRUST Group recognizes that business processing risk is something unavoidable in the course of business execution. The SuMi TRUST Group is processing risk management in accordance with the scale and characteristics of business operations and risk so as to ensure peace of mind and satisfaction for its clients.

In SuMi TRUST Bank, the Business Process Management Department, which is responsible for comprehensive management of business processing risk, comprehensively reviews inter-business issues concerning business processing risk and business process streamlining, and develops a system for ensuring the effectiveness of SuMi TRUST Bank’s business processing risk management from a company-wide viewpoint. Meanwhile, we have established a department to oversee and provide guidance to business processing operations at each business, which reviews policies set out in each business and provides guidance and training on general business processing to the head office departments and the business offices. Furthermore, SuMi TRUST Bank

developed a risk management plan that incorporated the goals for business processing risk management and it has implemented activities to mitigate business processing risk, including documentation of business processing, exhaustive checks for clerical errors and associated analysis, development of remedial measures and cautioning based on the macro analysis of clerical errors, outsourcing management, and self-inspection.

2) System Risk Management

System risk refers to the risk that the SuMi TRUST Group may incur losses due to such reasons as computer system failure, malfunctions and defects, as well as the risk that the SuMi TRUST Group may incur losses due to unauthorized use of computers.

Since computer systems are vital for the SuMi TRUST Group to carry out its business operations, it recognizes that system risk is a serious risk with potential impacts on a wide range of clients, which may cause disrepute to the Group. Therefore, the SuMi TRUST Group is conducting adequate system risk management in accordance with the importance, nature and operational function of each system.

In SuMi TRUST Bank, the IT System Planning and Management Department, which is responsible for system risk management, strives to mitigate system risk, through measures to prevent system risk from materializing, adequate response and causal analysis of the risk when materialized, and development of measures to prevent recurrence.

Moreover, SuMi TRUST Bank enhances the credibility of hardware and software as well as system operation, through measures including maintenance of hardware, securing of spare/alternate functions, back-up in place and preparation of manuals. In addition to above, measures for ensuring security of the information system and preventing illegal access and use by insider or through cyber or other attacks are also in place. Meanwhile, in order to minimize the impact of large-scale failures and disasters on the information system and to ensure early recovery and business continuity, we have in place a clarified communication and response system, manuals describing alternate measures and recovery procedures, along with the implementation of education and training on operations.

3) Information Security Risk Management

Information security risk refers to the risk that the SuMi TRUST Group may incur losses because information assets are not properly maintained or managed. This includes information leaks, incorrect information, an inability to use the information system and misuse of information. Since the in-

formation asset is one of the critical management resources involving the risk that could disrupt the basis of management, the SuMi TRUST Group adequately maintains and manages all information assets under its care.

In SuMi TRUST Bank, the Business Process Management Department and the IT System Planning and Management Department, which is responsible for information security risk management, is committed to developing and enhancing an information security risk management system.

SuMi TRUST Bank places degrees of importance on all information assets under its care according to the impact of potential losses that SuMi TRUST Bank and clients may incur in the event of their leaks, loss or alteration. Methods and procedures for acquisition, use, management, safekeeping, internal communication, external use and disposal of information assets are set out according to the degrees of importance, for the effective implementation of security measures.

Meanwhile, we, as a business operator handling personal information and in charge of affairs using the individual number and affairs related to the individual number, adequately manage personal information, individual number and specific personal information (individual number and specific personal information, hereinafter referred to as "Specific Personal Information") in compliance with the Act on the Protection of Personal Information, the Act on the Use of Numbers to Identify a Specific Individual in the Administrative Procedure and guidelines set forth by government agencies, in addition to other standards. In addition, we have announced the "Declaration for the Protection of Personal Information" in an extensive effort to protect the personal information and Specific Personal Information of our clients and shareholders.

SuMi TRUST Bank is providing education and information to raise awareness of the information security risk management on a company-wide basis. Furthermore, the adequacy and effectiveness of the personal information management system are verified and ensured through self-inspection and internal audits.

4) Risk Management of Other Sub-categories

Regarding legal and compliance risk management, we not only are promoting compliance by setting compliance standards that executives and employees should follow and fostering their awareness of compliance, but also examine the consistency and compliance concerning company regulations and other rules, and the legality and suitability of transactions and business procedures from the legal perspective (legal checks).

With respect to conduct risk management, SuMi TRUST

Bank regularly assesses the status of major conduct risks and works to reduce and manage risks and prevent risks from materializing by promoting and fostering the awareness of executives and employees through internal training and other means.

In order to manage human resource risk, we have been poised to handle issues related to personnel and labor management, such as unequal or unfair management of personnel and harassment, through a multitude of approaches, including internal training and education, interviews, and establishment of consultation desk.

As event risk management, in an effort to tackle natural disasters, the spread of infectious diseases, occurrence of fire, crimes, or traffic accidents that may impair business, we have adopted various steps, including measures to avert disaster in case that disaster strikes, preventive measures, such as disaster prevention, protection against crimes, and safe driving management, and establishment of a business continuity management system.

For managing reputational risk, we are striving to prevent any harmful reputation and rumor from growing by detecting mass media reports and online posting that may damage the SuMi TRUST Group's reputations, and have set up a system of dealing with clients and making external announcements in a timely and proper manner in response to negative reputations or rumors, if any.

(7) Compliance with Capital Regulatory Standards

1) Calculation of Operational Risk Equivalent Amount

Since the end of March 2014, the SuMi TRUST Group has adopted the Advanced Measurement Approach in lieu of the Standardised Approach, which was used previously, in the calculation of the operational risk equivalent amount under capital adequacy requirements.

Exceptionally, we adopt the Basic Indicator Approach for a portion of the corporations deemed less important in the calculation of the operational risk equivalent amount and corporations that are in preparation for the adoption of the Advanced Measurement Approach.

2) Outline of the Advanced Measurement Approach

A. Measurement Framework

The SuMi TRUST Group calculates the operational risk equivalent amount by aggregating "each maximum loss amounts of operational risk expected over a period of one year, with 99.9% one-sided confidence interval (hereinafter "VaR")," for each of the eleven quantification units (all business sections, corporate management sections and earthquakes) that are based on the consistency between management re-

garding operational incidents and profit management.

The operational risk equivalent amount is calculated using the four elements that are required for the adoption of the Advanced Measurement Approach, i.e. internal loss data, external loss data, business environment and the internal control status, and scenario analysis, as well as the quantification model. The results of the calculation are utilized in activities to enhance operational risk management, including the deliberation of measures to improve the internal control status.

• Overview of 4 Elements of Scenario Analysis

Element	Details
Internal loss data	Information on operational risk losses arising inside the SuMi TRUST Group
External loss data	Information on operational risk losses collected from the outside of the SuMi TRUST Group
Business environment and internal control status	An element affecting operational risk and relating to the business environment and internal control status of the SuMi TRUST Group
Scenario analysis	An estimation method based on expert knowledge and experience, and information on operational risk, regarding the amount and frequency of serious operational risk losses

Additionally, in the calculation of the operational risk equivalent amount, we do not reflect the mitigating effects of insurance, and do not exclude expected loss or conduct adjustments based on the correlation between the quantification units.

B. Scenario Analysis

In order to accurately understand the SuMi TRUST Group's risk profile, we identify events involving a large amount of losses associated with operational risk that cannot be covered by internal loss data alone when we conduct scenario analysis. We also construct scenario data that estimate loss amount and probability of such events.

The evaluation results of elements including the business environment and the internal control status are reflected in the subjects to the construction of scenario data, and the estimation of loss amount and frequency.

In addition, we ensure the objectivity, accuracy and completeness of the constructed scenario data by conducting verification using both internal loss data and external loss data.

C. Measurement Model for Operational Risk Amount

The VaR of each measurement unit is calculated by plotting frequency distributions and severity distribution based on the internal loss data and the scenario data prepared through the scenario analysis, and expressed through Monte Carlo Simulation that mixes such distributions and estimates

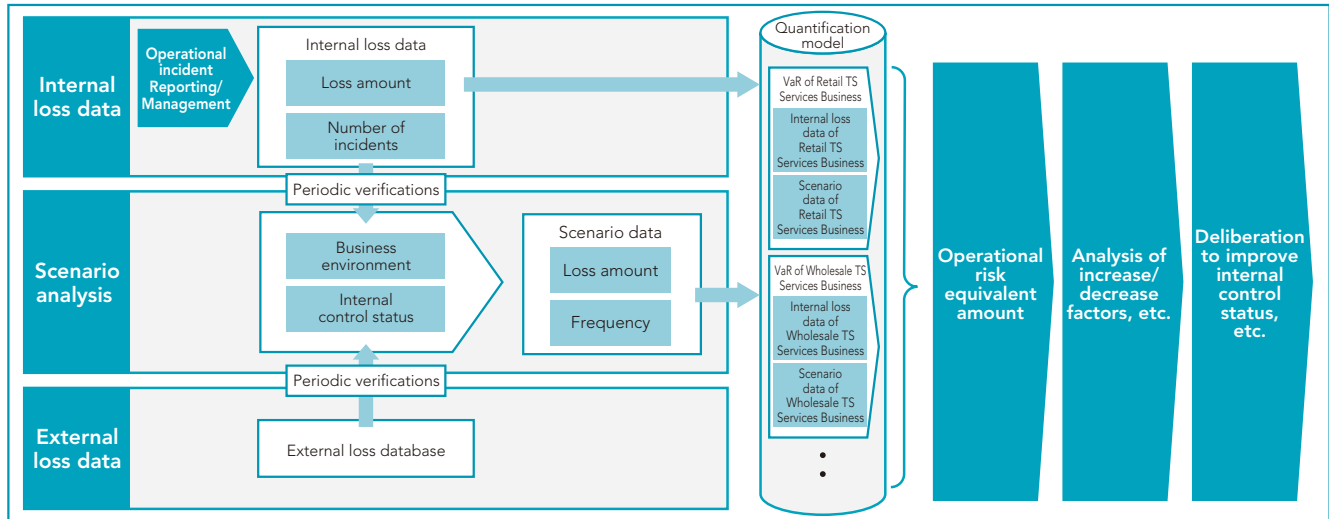

the total severity distribution.

The Poisson distribution has been applied to the frequency distribution, and our own distribution method has been applied to severity distribution in order to grasp the amount

of tail risk.

We confirm the appropriateness of the quantification model and the results of the VaR calculations by conducting periodic verifications such as backtestings.

• Outline of the Quantification Framework

• Outline of Quantification Model

6. Other Matters

(1) Credit Risk Mitigation Techniques

1) Implementation of Credit Risk Mitigation Techniques

Controls of credit exposures can be achieved not simply by reducing the balance of outstanding credit but also by seeking to loan protection via collateral and guarantees.

These protection measures are collectively called “credit risk mitigation techniques.”

While we measure the creditworthiness of clients comprehensively by looking at their business status and technological capabilities as well as their future potential, we also employ the credit risk mitigation techniques in order to cover deficiencies in creditworthiness or enhance the quality of loans.

In doing this, it is necessary for the credit risk mitigation techniques to be “valid” both legally and practically. In order to ensure that validity, we set internal standards for sound and reliable protection and management.

At that time, we uniformly manage information of collateral and guarantees through a system.

2) Details of Collateral Evaluation and Management

As a uniform decision on acceptance of collateral and guarantees cannot be made due to individual circumstances, such as creditworthiness of obligors, we determine whether or not to accept collateral or guarantees by taking into consideration various factors, including the compatibility with the purpose of use and characteristics of loans and bills discounted, collateral value, the guarantor’s capability for performance of guarantee, and legal validity.

As the ultimate purpose of collateral is to acquire monetary value through conversion into cash of a relevant property, we have defined requirements for accepting collateral that 1) collateral value is acknowledged, 2) foreclosure sale of a relevant property is easy, and 3) it is easy to obtain and manage collateral.

Financial assets such as term deposits and securities, and real estate have accounted largely for the collateral that the SuMi TRUST Group has accepted. As a general rule, we evaluate collateral of real estate, and other similar property at least once a year, and other collateral with fair value, such as securities, on a regular basis.

Guarantees are classified into several categories, such as

specific debt guarantee that guarantees only specific debts, and revolving guarantee. The forms of providing guarantees also vary, including the official contract for guarantees, letter of indemnity on guarantee, and commitment to guarantee. Regardless of the category and form of guarantee, the SuMi TRUST Group places emphasis on substantial effectiveness of guarantees by confirming the guarantor’s capacity and intention of guarantee. The guarantees that the SuMi TRUST Group has accepted have been made up greatly of cases in which parent companies guarantee debts of their respective subsidiaries in corporate credit transactions. We regularly check the guarantor’s intention of guarantee.

3) Compliance with Capital Regulatory Standards

The capital regulatory standards specify types and requirements regarding credit risk mitigation techniques that can decrease risk-weighted assets according to the calculation of credit risk-weighted assets in a limited manner. The SuMi TRUST Group has defined the scope of the credit risk mitigation techniques that can be applied to calculation of a capital adequacy ratio depending on risk-weighted assets measurement approaches after closely examining the eligibility for the requirements.

With regard to assets to which the Advanced Internal Ratings-Based Approach (AIRB) is applied, we consider the collateral effect through the Loss Given Default (LGD). We have adopted the credit risk mitigation techniques for assets to which the Foundational Internal Ratings-Based Approach (FIRB) is applied, and the details are as follows:

• Overview of Credit Risk Mitigation Techniques (CRM)

CRM techniques	Major requirements
Offsetting of loans and bills discounted against deposits in our banks (netting)*	<ul style="list-style-type: none"> • Term deposits • A valid banking transaction contract, or any other effective agreement, with a statement about timely offsetting has been concluded.
Guarantees and credit derivatives	<ul style="list-style-type: none"> • The creditworthiness of the guarantor (the party providing protection) is greater than that of the obligor. • The contract has been concluded in writing and does not include any provision that disturbs performance of guarantee (offering of protection).
Eligible collateral	
Eligible financial collateral (deposits in our banks, stocks, and debt securities)	<ul style="list-style-type: none"> • Establishment of security rights (such as the right of pledge) • Any special agreement that restricts exercise of security rights has not been concluded.
Eligible real estate collateral (real estate, foundations)	<ul style="list-style-type: none"> • Register of settlement of mortgage (definitive/provisional registration) • Any special agreement that restricts exercise of security rights has not been concluded. • Investigation of soil pollution has been completed, or the impact of soil pollution has been taken into consideration in evaluation.
Other eligible asset collateral (ships, aircrafts)	<ul style="list-style-type: none"> • Establishment of security rights (definitive/provisional registration; with security rights being set as the first right) • Any special agreement that restricts exercise of security rights has not been concluded.

* In the fiscal year ended March 2021, we employed netting only for assets to which the Foundation Internal Ratings-Based Approach was applied.

4) Concentration of Credit and Market Risks Following the Adoption of Credit Risk Mitigation Techniques

Guarantees and credit derivatives have been considered as approaches involving risk concentration.

In the SuMi TRUST Group, although guarantees on obligors are offered by their respective parent companies in many cases, this is not always significantly inclined for specific guarantors. Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank"), which is the core bank of the SuMi TRUST Group monitors and manages concentration risks for the entire corporate group, with guarantees taken into consideration.

The notional principal of the protection of the credit derivatives that SuMi TRUST Bank has purchased is not noteworthy enough to be defined as risk concentration. It is managed by being included in the credit limit amount of the provider of protection.

(2) Credit Risk for the Other Party of Derivatives Transactions and Repo Transactions (Counterparty Credit Risk)

1) Risk Characteristics

Counterparty credit risk ("CCR") is a risk that the SuMi TRUST Group may incur loss due to nonfulfillment of a contract when a counterparty, the other party of a transaction, such as a derivatives transaction, has gone bankrupt. The SuMi TRUST Group has conducted various derivatives transactions (such as the interest rate swap transaction) with financial institutions.

2) Risk Management Policy

A. Management of Counterparty Credit Risk Exposures

With regard to CCR, the SuMi TRUST Group has set a credit line for clients, such as financial institutions, for each type of market-based transactions and manage CCR exposures. We have managed credit concentration risk of each client by setting a credit limit amount in the same manner as for corporates and adding up credit transactions for loans, etc. and market-based transactions. Furthermore, in the same manner as other exposures, we allocate capital to each business and monitor the usage status.

B. Credit Risk Mitigation Techniques and Collateral Management

As a general rule, SuMi TRUST Bank, the core bank of the Group, reduces credit risk by entering into legally valid bilat-

eral netting contracts (such as an ISDA Master Agreement) with clients when conducting derivatives and repo transactions. Furthermore, with the aim of minimizing credit risk at the time of conducting derivatives transactions, SuMi TRUST Bank is promoting the conclusion of a Credit Support Annex (CSA) as a supplementary contract of the ISDA Master Agreement. A CSA is a bilateral agreement that supplements credit through a pledge of collateral corresponding to the amount of unrealized loss by the party holding unrealized loss to the other party with unrealized gain based on calculation of the present value of derivatives transactions, etc. or other similar items between SuMi TRUST Bank and the counterparty with which SuMi TRUST Bank has concluded the CSA.

The SuMi TRUST Group transfers collateral on a continuous basis with the counterparty with which we have entered into a CSA so that unrealized gains and losses become neutral. However, we will be required to offer additional collateral when the creditworthiness of either party has deteriorated and the party's rating has dropped, with the impacts of such deterioration taken into consideration. The amount of additional collateral varies depending on the details of the contract concluded with each company.

C. Management of Wrong-way Risk

Wrong-way risk is risk of losses expanding through the synergistic effect of any adverse correlation between the derivatives exposures transaction and the creditworthiness of the other party of the transaction (the counterparty). Currently, the SuMi TRUST Group manages this risk by mitigating credit risk through conclusion of CSAs, and grasping CCR in a timely and proper manner.

D. Impact of Deteriorated Creditworthiness of Our Banks

As specified in B. above, the SuMi TRUST Group has regularly transferred collateral with counterparties in derivatives transactions and other similar transactions. In these transactions, we may be required to provide additional collateral to counterparties due to deterioration of our own creditworthiness. However, the proportion of derivatives transactions to the SuMi TRUST Group's overall exposure is currently low, and we have recognized that the impact is limited.

3) Compliance with Capital Regulatory Standards

The SuMi TRUST Group has adopted the “Current Exposure Method” in risk-weighted asset calculation of counterparty credit risk. The approach is one of the methods for calculating the credit equivalent amount of derivatives transactions by adding the add-on (which corresponds to the amount for potential future exposure, and is calculated by multiplying the notional amount by the split based on residual maturity) to the “replacement cost” (as calculated through fair market valuation of transactions).

In accordance with the capital regulatory standards (Basel III) which have been revised with financial crisis taken into consideration, the SuMi TRUST Group calculates risk-weighted assets for Credit Value Adjustment (CVA) that adjusts exposure when the creditworthiness of counterparty has changed, and for the Central Counterparty (CCP) exposures.

(3) Securitisation Transactions

1) Risk Characteristics

Securitisation transactions are transactions in which, on the back of one or more assets, the credit risk related to the assets is stratified into two or more layers that are in a relationship of a senior-subordinated structure and part or all of the assets are transferred to a third party. Typical examples include Residential Mortgage Backed Securities (RMBS), Commercial Mortgage Backed Securities (CMBS), and Collateralized Loan Obligation (CLO) according to underlying assets, and resecuritised products with securitised products as underlying assets. The method of grasping credit risk differs between the originator (the party that composes products) and an investor (the party that purchases products) in securitisation transactions. When the originator has accepted the subordinated part of assets at the time of product composition, some credit risk will remain. Meanwhile, when the investor has bought a securitised product, credit risk will arise. Furthermore, as securitised products underlie resecuritised products, it will become complicated to grasp risks regarding resecuritised products, and credit risk of resecuritised products may become greater than those of general securitised products.

Although the SuMi TRUST Group engages in activities primarily as the investor, we have yielded business results in product composition as an originator.

2) Risk Management Policy

A. Investor

In principle, the SuMi TRUST Group invests in securitised products, to which high external credit ratings have been assigned, and manages risks by the assignment of credit ratings (structured ratings) based on the internal rating system. During an investment period, we strive to obtain stable earnings opportunities by periodically monitoring not only external credit ratings but also the status and performance of the assets underlying securitised products, and risk characteristics and structure status of securitisation transactions, and then reflecting such status for reviewing credit ratings. The SuMi TRUST Group manages resecuritised products in the same manner.

B. Originator

The SuMi TRUST Group will consider using securitisation transactions, which are originated by the SuMi TRUST Group, according to situations as a method for controlling portfolios of finance receivables held. When doing so, we will construct transaction content in which an intended transfer of credit risk is made effectively, and properly calculate the part of credit risk-weighted assets that the SuMi TRUST Group bears after implementation of securitisation. As a general rule, while the securitised products originated by the SuMi TRUST Group have been held by investors outside the consolidated holding company group, part of the products have been owned by SBI Sumishin Net Bank, Ltd., one of the SuMi TRUST Group's affiliates.

3) Risk Management Method

We measure credit risk amount of securitisation exposures based on the value of credit risk-weighted assets specified by the capital regulatory standards. In addition, interest rate risk involved in securitisation exposures is subject to measurement of market risk amount.

4) Securitisation transactions of Third Party Assets

With regard to securitisation transactions of assets purchased from third parties, the SuMi TRUST Group has engaged in liquidation of receivables mainly by buying multiple receivables, such as accounts receivables and bills of credit, via specific purpose companies (SPCs), and provides Asset Based Lending (ABL) to SPCs and sets up backup lines for Asset Backed Commercial Papers (ABCPs) issued by SPCs. In addition, SuMi TRUST Bank has conducted proper management of underlying assets for investors.

In the SuMi TRUST Group, securitisation conduits, such as SPCs and trust as follows, conduct securitisation transactions of third party assets. We have never offered securitisation conduits credit supplementation not stipulated in respective contracts.

Name of securitisation conduit	Whether to be included in the consolidation scope* according to calculation of the capital adequacy ratio	Whether or not securitisation exposure is held
Vector Asset Funding Corporation	Included	Held
Nexus Asset Funding Corporation	Included	Held
Fresco Asset Funding Corporation	Included	Held
Crecer Asset Funding Corporation	Included	Held
RBA Asset Funding Corporation	Not included	Not held
Sumitomo Mitsui Trust Bank, Limited (Trust account)	Not included	Held

* The consolidation scope according to calculation of the capital adequacy ratio of SuMi TRUST Holdings and SuMi TRUST Bank.

5) Accounting Policy

When conducting securitisation transactions, as a general rule, the SuMi TRUST Group adopts a selling process that results in derecognition of financial assets through the transfer of the control over contractual rights to the financial assets to another party in accordance with "Accounting Standards for Financial Instruments" (Accounting Standards Board of Japan (ASBJ) Statement No. 10). For instance, in the case of finance receivables, in principle, assets are derecognized upon legal completion of transfer of the assets and receipt of consideration for the transfer; however, in the event that we hold retained interests after conducting securitisation transactions, the SuMi TRUST Group does not recognize sales of the assets corresponding to the retained interests, and renders it subject to measurement of credit risk-weighted assets. Meanwhile, regarding transactions in which a considerable degree of credit is offered without prior payment of capital, the SuMi TRUST Group will employ a financial process of posting raised capital as a liability. In addition, when we possess assets for the purpose of securitisation transactions, the SuMi TRUST Group evaluates the assets in accordance with "Accounting Standards for Financial Instruments" and records them in the banking account.

6) Compliance with Capital Regulatory Standards

With regard to calculation of credit risk-weighted assets for securitisation exposures, we have prioritized calculation methods, and selected from applicable calculation methods on which the highest priority has been placed. First of all, if it is possible to grasp the required capital ratio of the underlying assets as calculated by using the Internal Ratings-Based Approach, we use the "Securitisation Internal Ratings-Based Approach" to calculate the risk weight. Then, if it is difficult to apply the "Securitisation Internal Ratings-Based Approach," we calculate the risk weight of securitisation exposures to which eligible external ratings has been assigned by applying the "Securitisation External Ratings-Based Approach" Then, if it is difficult to apply either of the aforementioned two approaches, and that it is possible to grasp the required capital ratio of the underlying assets as calculated by using the Standardised Approach, we use the "Securitisation Standardised Approach" to calculate the risk weight. If it is impossible to apply any of the aforementioned approaches, we apply 1,250% risk weight. In the case of resecuritisation products, we use the "Standardised Approach-Based Approach" or apply 1,250% risk weight.

The eligible rating agencies used for calculating the value of credit risk-weighted assets based on the "Rating-Based Approach" include 5 companies, which are Rating and Investment Information, Inc. (R&I), Japan Credit Rating Agency, Ltd. (JCR), Moody's Investors Service, Inc. (Moody's), S&P Global Ratings (S&P), and Fitch Ratings, Inc., (Fitch).

While the SuMi TRUST Group essentially has rendered securitisation exposure subject to calculation of credit risk-weighted assets, we use the "Standardised Approach" for calculating market risk equivalent amount.

(4) Capital Subscriptions and Other Similar Exposures or Equity Exposures

1) Risk Characteristics

As part of capital subscription business, the SuMi TRUST Group has strategically made equity investments in the banking accounts and held stocks with the aim of investing in organizations expected to bring benefits to the SuMi TRUST Group and cementing relationships with clients (strategic shareholdings). Stocks are characterized as involving the risk of fluctuation in their prices (market risk) as well as the risk that the issuers may become in default (credit risk).

Equity investment is aimed to pursue medium-term risk return, being exposed to the risk of fluctuation in cash flows, such as dividend distribution, and the risk that the Net Asset Value of the subscriber's share on the capital may fluctuate.

Strategic shareholdings of listed shares with market prices are subject to fair market valuation and are exposed to a risk of fluctuation in their market prices. Unlisted shares are also exposed to a risk that their estimated value may decline.

2) Risk Management Policy

We properly manage stocks held in the banking accounts, by taking into consideration profitability, within a scope of a certain risk amount through a framework of credit risk and market risk management according to the purpose of holding the stocks and risk characteristics.

For equity investments, etc., we make every effort to limit risk by scrutinizing transactions, taking into account market conditions and the investment performance of the portfolio manager.

In addition, our policy is to not hold conventional strategic shareholdings (shareholding of business partners as stable shareholders without the purpose of forming capital or business alliances, etc.). Based on this policy, we are working to reduce our strategic shareholdings, and we are also flexibly implementing hedging transactions to limit the risk of share price fluctuations.

3) Risk Management Method

Concerning the stocks held in the category of "available-for-sale securities," we measure risk according to whether or not there is a market price. We recognize a risk of price fluctuation for the stocks with market price and measure the stock VaR with a holding period of one year and a 99% confidence interval. Meanwhile, regarding unlisted shares without market prices, as it is not possible to directly observe price fluctuation, we measure the risk amount with the holding period of

one year while using an approach for indirectly estimating the volatility by selecting an appropriate alternate index, and a reference to the Supervisory Formula Approach specified by the capital regulatory standards, depending on situations.

Concerning "Shares of Subsidiaries," we have rendered the assets and liabilities held by a relevant subsidiary subject to direct risk management. Furthermore, as for "Shares of Affiliated Companies," fluctuations in the value of our interest in relevant affiliated companies due to equity in losses or earnings are subject to risk management.

4) Accounting Policy

As of the end of March 2021, with regard to the securities stated in the SuMi TRUST Group's consolidated financial statements, equity securities issued by unconsolidated subsidiaries and affiliated companies not accounted for by the equity method are valued using the "moving-average cost," and securities classified as available-for-sale securities are in principle valued using the "fair value based on the market price, etc., on the consolidated balance sheet date (cost of securities sold is calculated using primarily the moving-average method)." However, "available-for-sale securities" for which their fair values are extremely difficult to be determined are carried at cost using the moving-average method. Valuation differences on "available-for-sale securities" are recorded as a separate component of net assets and reported in the consolidated balance sheets.

5) Compliance with Capital Regulatory Standards

We measure the required capital of credit risk with an approach applied according to whether relevant equities are Japanese or Non-Japanese, and whether or not relevant equities are listed. Japanese equities are measured based on the Supervisory Formula Approach using the credit ratings assigned to relevant issuers.

Furthermore, we apply the Simple Risk-weight Method (Market-Based Approach) that multiplies the risk weight determined according to whether the equities are listed or not, in order to measure any Japanese equities without credit ratings, and Non-Japanese equities. The market risk amount is measured using VaR as a scale. For more details, please refer to "(5) Market Risk Management Method" of "3. Market Risk Management."

Basel III Disclosure Data

Sumitomo Mitsui Trust Holdings, Inc.

This section outlines and discloses matters to be stated in explanatory documents relating to the fiscal year, separately stipulated by the Commissioner of the Financial Services Agency (Notification No.7 of Financial Services Agency, 2014) with regard to the status of capital adequacy, as set forth in Article 19-2, Paragraph 1, Item 5-(d) of the Ordinance for Enforcement of the Banking Act (Ministry of Finance Ordinance No.10, 1982), as well as separately stipulated by the Commissioner of the Financial Services Agency (Notification No.7 of Financial Services Agency, 2015) with regard to the status of management soundness relating to liquidity, as set forth in Article 19-2, Paragraph 1, Item 5-(e) of the Ordinance for Enforcement of the Banking Act.

Capital Adequacy Ratio

Consolidated

We calculate the consolidated BIS capital adequacy ratio in line with provisions of Article 52-25 of the Banking Act and on the basis of calculation formula prescribed under the criteria for judging whether a bank holding company and its subsidiaries' capital adequacy ratios are appropriate in light of assets held (the Financial Services Agency 2006 Notification No. 20, hereinafter referred to as the "FSA Bank Holding Company Capital Adequacy Notification").

As of the end of March 2021, we used the Advanced Internal Ratings-Based (IRB) Approach for the calculation of credit risk-weighted assets, the Advanced Measurement Approach for the calculation of operational risk, and market risk regulations.

Scope of Consolidation

Consolidated

(1) There is no difference between companies belonging to the group of companies subject to the consolidated BIS capital adequacy ratio as prescribed by the FSA Bank Holding Company Capital Adequacy Notification, Article 3 (hereinafter referred to as the "SuMi TRUST Holdings Group") and the companies included in the scope of accounting consolidation.

(2) The number of consolidated subsidiaries that belong to the SuMi TRUST Holdings Group is 63. The principal company is the following.

Name	Principal Business Operations
Sumitomo Mitsui Trust Bank, Limited	Trust and Banking Businesses

(3) There is no affiliated company that undertakes financial services subject to the FSA Bank Holding Company Capital Adequacy Notification, Article 9.

(4) There are no particular restrictions etc. on the transfer of funds and capital within the SuMi TRUST Holdings Group.

(5) Of the subsidiaries which are banking, financial and insurance entities that are outside the scope of regulatory consolidation, none failed to meet the regulatory required capital.

76	Provisions Eligible for Inclusion in Tier 2 in Respect of Exposures Subject to Standardised Approach (Prior to Applicable of Cap)	3,280	3,100	
77	Cap on Inclusion of Provisions in Tier 2 under Standardised Approach	11,187	9,498	
78	Provisions Eligible for Inclusion in Tier 2 in Respect of Exposures Subject to Internal Ratings-Based Approach (Prior to Applicable of Cap)	29,437	42,778	
79	Cap on Inclusion of Provisions in Tier 2 under Internal Ratings-Based Approach	97,352	91,832	
Capital Instruments Subject to Phase out Arrangements				
82	Current Cap on Additional Tier 1 Instruments Subject to Phase out Arrangements	54,500	109,000	
83	Amount Excluded from Additional Tier 1 Due to Cap (Excess over Cap after Redemptions and Maturities)	—	—	
84	Current Cap on Tier 2 Instruments Subject to Phase out Arrangements	85,790	171,581	
85	Amount Excluded from Tier 2 Due to Cap (Excess over Cap after Redemptions and Maturities)	¥ 69,699	¥ 17,609	

Note: SuMi TRUST Holdings received a certain procedure by KPMG AZSA LLC of the calculation of the consolidated BIS capital adequacy ratio in line with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants, August 27, 2019).

The certain procedure is not part of the audit of the consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the consolidated BIS capital adequacy ratio itself or parts of internal control over the procedure to calculate the ratio.

Main Features and Further Information of Regulatory Capital Instruments

Consolidated

Outline and Details of Agreements Concerning Capital Funding Instruments are available on our website (<https://www.smth.jp/english/investors/report/basel>).

Explanation on Reconciliation between Balance Sheet Items and Regulatory Capital Elements

Consolidated

Fiscal Year 2020

CC2: Reconciliation of Regulatory Capital to Balance Sheet

CC2	Items	a	c	d
		Consolidated Balance Sheet (Millions of Yen)	Ref. No. of Composition of Capital	Ref. No. of Appendix
(Assets)				
	Cash and Due from Banks	¥ 18,488,763		
	Call Loans and Bills Bought	8,766		
	Receivables under Resale Agreements	160,268		
	Receivables under Securities Borrowing Transactions	727,689		
	Monetary Claims Bought	892,309		
	Trading Assets	433,766		
	Money Held in Trust	12,223		
	Securities	6,983,483		3-b, 7-a
	Loans and Bills Discounted	30,506,968		7-b
	Foreign Exchanges	25,396		
	Lease Receivables and Investment Assets	695,172		
	Other Assets	2,260,399		7-c
	Tangible Fixed Assets	228,180		
	Intangible Fixed Assets	112,303		3-a
	Assets for Retirement Benefits	231,165		4
	Deferred Tax Assets	14,459		5-a
	Customers' Liabilities for Acceptances and Guarantees	511,782		
	Allowance for Loan Losses	(129,223)		
	Total Assets	¥ 62,163,876		

CC2	Items	a	c	d
		Consolidated Balance Sheet (Millions of Yen)	Ref. No. of Composition of Capital	Ref. No. of Appendix
(Liabilities)				
	Deposits	¥ 33,467,678		
	Negotiable Certificates of Deposit	7,160,594		
	Call Money and Bills Sold	60,675		
	Payables under Repurchase Agreements	1,628,440		
	Trading Liabilities	321,576		
	Borrowed Money	5,782,602		9-a
	Foreign Exchanges	577		
	Short-term Bonds Payable	2,545,049		
	Bonds Payable	1,545,605		9-b

	Total Accumulated Other Comprehensive Income	277,756	(a)	
	Subscription Rights to Shares	1,024		2
	Non-controlling Interests	27,772		8
	Total Net Assets	2,722,556		
	Total Liabilities and Net Assets	¥ 62,163,876		

Note: The regulatory scope of consolidation is the same as the accounting scope of consolidation.

(Appendix)

Note: Amounts in the "Composition of capital" exclude items for regulatory purpose under transitional arrangement.

1. Shareholders' equity**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Capital Stock	¥ 261,608		1-a
Capital Surplus	576,114		1-b
Retained Earnings	1,581,096		1-c
Treasury Stock	(2,815)		1-d
Total Shareholders' Equity	¥ 2,416,003		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Directly Issued Qualifying Common Share Capital Plus Related Capital Surplus and Retained Earnings	¥ 2,416,003	Shareholders' Equity Attributable to Common Shares (before Adjusting National Specific Regulatory Adjustments (Earnings to be Distributed))	
of Which: Capital Stock and Capital Surplus	837,723		1a
of Which: Retained Earnings	1,581,096		2
of Which: Treasury Stock (Deduction)	2,815		1c
of Which: Others	—		
Directly Issued Qualifying Additional Tier 1 Instruments Plus Related Capital Surplus of Which Classified as Equity under Applicable Accounting Standards	—	Shareholders' Equity Attributable to Preferred Shares with a Loss Absorbency at the Point of Non-Viability	31a

2. Subscription Rights to Shares**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Subscription Rights to Shares	¥ 1,024		2
of Which: Subscription Rights to Shares Issued by the Bank Holding Company	1,024		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Subscription Rights to Common Shares	¥ 1,024		1b
Subscription Rights to Additional Tier 1 Instruments	—		31b
Subscription Rights to Tier 2 Instruments	—		46

3. Intangible assets**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Intangible Fixed Assets	¥ 112,303		3-a
Securities	6,983,483		3-b
of Which: Goodwill Arising on the Application of the Equity Method	777		
Associated Deferred Tax Liabilities	22,644		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Goodwill (Net of Related Deferred Tax Liabilities, Including Those Equivalent)	¥ 38,070		8
Other Intangible Assets (Net of Related Deferred Tax Liabilities)	52,366	Excluding Goodwill, Mortgage Servicing Rights (Software, etc.)	9
Mortgage Servicing Rights (Net of Related Deferred Tax Liabilities)	—		
Amount above the 10% Threshold on the Specified Items	—		20
Amount exceeding the 15% Threshold on the Specified Items	—		24
Amount below the Thresholds for Deduction (before Risk Weighting)	—		74

4. Defined-Benefit Pension Fund Net Assets (Assets for Retirement Benefits)**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Assets for Retirement Benefits	¥ 231,165		4
Associated Deferred Tax Liabilities	70,796		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Defined-Benefit Pension Fund Net Assets (Assets for Retirement Benefits) (Net of Related Deferred Tax Liabilities)	¥ 160,369		15

5. Deferred tax assets**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Tax Assets	¥ 14,459		5-a
Deferred Tax Liabilities	81,594		5-b
Deferred Tax Liabilities for Land Revaluation	2,388		5-c
Associated Intangible Fixed Assets	22,644		
Associated Assets for Retirement Benefits	70,796		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Tax Assets That Rely on Future Profitability excluding Those Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	¥ 172	This Item Does not Agree with the Amount Reported on the Consolidated Balance Sheet Due to Offsetting of Assets and Liabilities.	10
Deferred Tax Assets Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	23,744	This Item Does not Agree with the Amount Reported on the Consolidated Balance Sheet Due to Offsetting of Assets and Liabilities.	
Amount above the 10% Threshold on the Specified Items	—		21
Amount exceeding the 15% Threshold on the Specified Items	—		25
Amount below the Thresholds for Deduction (before Risk Weighting)	23,744		75

6. Deferred gains or losses on hedges

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Gains (Losses) on Hedges	¥ (44,926)		6

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Gains or Losses on Derivatives under Hedge Accounting	¥ (40,649)	Excluding those items whose valuation differences arising from hedged items are recognized as "Accumulated other comprehensive income"	11

7. Investments in the Capital and Other TLAC Liabilities of Financial Entities

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Securities	¥ 6,983,483		7-a
Loans and Bills Discounted	30,506,968	Including Subordinated Debts	7-b
Other Assets	2,260,399	Including derivatives	7-c
Other Liabilities	¥ 1,359,860	Including derivatives	7-d

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Investments in Own Capital	¥ 94		
Common Equity Tier 1 Capital	94		16
Additional Tier 1 Capital	—		37
Tier 2 Capital	—		52
Reciprocal Cross-holdings in the Capital and other TLAC Liabilities	—		
Common Equity Tier 1 Capital	—		17
Additional Tier 1 Capital	—		38
Tier 2 Capital and Other TLAC Liabilities	—		53
Investments in the Capital and Other TLAC Liabilities of Banking, Financial and Insurance Entities That are Outside the Scope of Regulatory Consolidation, Where the Bank Does not Own More than 10% of the Issued Share Capital	134,244		
Common Equity Tier 1 Capital	—		18
Additional Tier 1 Capital	—		39
Tier 2 Capital and Other TLAC Liabilities	—		54
Amount below the Thresholds for Deduction (before risk weighting)	134,244		72
Significant Investments in the Capital and Other TLAC Liabilities of Banking, Financial and Insurance Entities That are Outside the Scope of Regulatory Consolidation, Net of Eligible Short Positions	167,135		
Amount above the 10% Threshold on the Specified Items	—		19
Amount exceeding the 15% Threshold on the Specified Items	—		23
Additional Tier 1 Capital	—		40
Tier 2 Capital and Other TLAC Liabilities	1,540		55
Amount below the Thresholds for Deduction (before risk weighting)	165,595		73

8. Non-controlling Interests

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Non-controlling Interests	¥ 27,772		8

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Common Share Capital Issued by Subsidiaries and Held by Third Parties (Amount Allowed in Group Common Equity Tier 1)	¥ —	After Reflecting Amounts Eligible for Inclusion (after Non-controlling Interest Adjustments)	5
Qualifying Additional Tier 1 Instruments Issued by Special Purpose Vehicles	—		30–31ab–32
Additional Tier 1 Instruments Issued by Subsidiaries and Held by Third Parties (Amount Allowed in Group Additional Tier 1)	11,590	After Reflecting Amounts Eligible for Inclusion (after Non-controlling Interest Adjustments)	34–35
Qualifying Tier 2 Instruments Issued by Special Purpose Vehicles	—		46
Tier 2 Instruments Issued by Subsidiaries and Held by Third Parties (Amount Allowed in Group Tier 2)	2,105	After Reflecting Amounts Eligible for Inclusion (after Non-controlling Interest Adjustments)	48–49

9. Other Capital Instruments

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Borrowed Money	¥ 5,782,602		9–a
Bonds Payable	1,545,605		9–b

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Directly Issued Qualifying Additional Tier 1 Instruments Plus Related Capital Surplus of Which Classified as Liabilities under Applicable Accounting Standards	¥ 270,000		32
Directly Issued Qualifying Tier 2 Instruments Plus Related Capital Surplus of Which Classified as Liabilities under Applicable Accounting Standards	335,153		46

Notes: 1. Of exposures subject to the calculation of credit risk-weighted assets, the above lists corporate, retail, equities, etc., purchased receivables, lease transactions as well as exposures subject to phased rollout of the IRB Approach.

2. "Others" in the industry sectors include non-residents and state public services. Exposures for residual maturity of over 5 years include those with no fixed maturities.

3. The above data represents amounts after credit risk mitigation effects of netting contracts allowed under the law and netting against the obligor's cash on deposit.

Term-end Balance of Obligors' exposures related to Loans prescribed in the provisions of the Ordinance for Enforcement of the Act on Emergency Measures for the Revitalization of the Financial Functions, Allowances, and Write-offs, as well as their Breakdown by Geographic Regions and Industry Sectors

	Millions of Yen					
	As of March 31, 2021		FY2020	As of March 31, 2020		FY2019

Total for Industry Sectors	¥ 157,476	¥ 38,669	¥ 11,389	¥ 127,337	¥ 32,689	¥ 14,654

Notes: 1. "Others" in the industry sectors include non-residents.

2. Allowances for loan losses include "general allowances for loan losses" and "specific allowances for loan losses", etc.

Term-end Balance of Exposures by Past Due Periods (excluding "Doubtful Claims" and "Bankrupt and substantially bankrupt Claims")

As of March 31	Millions of Yen	
	2021	2020
< 1 month	¥ 58,814	¥ 65,387
≥ 1 month to < 2 months	10,491	12,095
≥ 2 months to < 3 months	8,556	11,023
≥ 3 months	2,041	3,341
Total	¥ 79,904	¥ 91,848

Note: Among the term-end balance of exposures for each past due period, "Doubtful Claims" and "Bankrupt and substantially bankrupt Claims" prescribed in the provisions of the Ordinance for Enforcement of the Act on Emergency Measures for the Revitalization of the Financial Functions are excluded, in aggregate calculation.

Term-end Balance of Exposures of obligors whose loan conditions were Restructured for the purpose of restructuring or supporting business management ; of which Amounts of Increased Allowances for such exposures and Other Amounts due to the restructuring of the loan conditions

As of March 31	Millions of Yen	
	2021	2020
Amounts of Increased Allowances for Such Exposures Due to the Restructuring of the Loan Conditions	¥ 59,840	¥ 50,311
Other Amounts	—	—
Term-end Balance of Exposures	¥ 59,840	¥ 50,311

Note: Restructured loans are those loans that provide some arrangements favorable to the obligors for the purpose of restructuring or supporting business management, such as by reducing or exempting interest, postponing principal or interest payments, forgiving loans, and providing other benefits to the obligors, excluding those loans classified as "Loans in Bankruptcy Procedures", "Delinquent Loans", and "Loans past due three months or more". In principle, the allowances for restructured loans has been all increased after restructuring loan conditions.

Notes: 1. Derivatives transactions included in "trading assets" and "trading liabilities" and foreign exchanges included in "other assets" and "other liabilities" are subject to capital charge in both counterparty credit risk and market risk. Accordingly, the sum of amounts in Columns a and b is not equal to the sum of amounts in Columns c to g.

2. Among market risks, the foreign exchange risk in banking accounts is not easily linked to individual items of accounts in the consolidated balance sheet. Accordingly, it is not included in the above figures.

Provision for Reimbursement of Deposits		4,867	—	—	—	—	4,867
Provision for Contingent Losses		1,440	—	—	—	—	1,440
Deferred Tax Liabilities		50,875	—	—	—	—	50,875
Deferred Tax Liabilities for Land Revaluation		2,439	—	—	—	—	2,439
Acceptances and Guarantees		518,811	—	—	—	—	518,811
Total Liabilities		¥ 53,909,645	¥ —	¥ 2,604,527	¥ —	¥ 910,992	¥ 51,305,117

Notes: 1. Derivatives transactions included in "trading assets" and "trading liabilities" and foreign exchanges included in "other assets" and "other liabilities" are subject to capital charge in both counterparty credit risk and market risk. Accordingly, the sum of amounts in Columns a and b is not equal to the sum of amounts in Columns c to g.

2. Among market risks, the foreign exchange risk in banking accounts is not easily linked to individual items of accounts in the consolidated balance sheet. Accordingly, it is not included in the above figures.

LI2: Main sources of differences between regulatory exposure amounts and carrying values in financial statements

LI2		Millions of Yen				
		March 31, 2021				
Item No.		a	b	c	d	e
		Total	Credit risk (excluding amounts relevant to columns c and d)	Counterparty credit risk	Securitisation (excluding amounts relevant to column e)	Market risk
		Items subject to:				
1	Asset carrying value amount under scope of regulatory consolidation	¥ 61,452,144	¥ 57,628,820	¥ 2,774,342	¥ 1,004,459	¥ 1,055,029
2	Liabilities carrying value amount under scope of regulatory consolidation	2,746,711	—	2,746,711	—	986,913
3	Total net amount under regulatory scope of consolidation	58,705,432	57,628,820	27,631	1,004,459	68,115
4	Off-balance sheet amounts	4,529,256	4,280,797	—	248,459	—
5	Differences due to netting, the exposure calculation method, etc.	2,371,285	—	2,687,820	—	(316,535)
6	Differences due to consideration of allowances and write-offs	36,982	36,982	—	—	—
7	Regulatory exposure amounts	65,642,958	61,946,601	2,715,451	1,252,918	(248,419)

Notes: 1. Derivatives transactions included in "trading assets" and "trading liabilities" and foreign exchanges included in "other assets" and "other liabilities" are subject to capital charge in both counterparty credit risk and market risk. Accordingly, the amount in Column a is not equal to the sum of amounts in Columns b to e, for Item No. 1, 2, 3, and 7.

2. Among market risks, the foreign exchange risk in banking accounts is not easily linked to individual items of accounts in the consolidated balance sheet. Accordingly, it is not included in the above figures.

3. The major factors in the difference between the amount of exposure in the capital regulatory standards and the amount posted in the consolidated balance sheet for each risk category are as follows:

- Credit Risk and Securitisation Exposures: Off-balance sheet amounts and differences due to consideration of allowances and write-offs
- Counterparty credit risk: Difference due to netting, the application of the credit risk mitigation techniques, and the application of the Current Exposure Method to the exposure calculation method
- Market risk: Difference due to netting, etc.

Notes: 1. On the previous page, Sumitomo Mitsui Trust Holdings, Inc., Sumitomo Mitsui Trust Bank, Limited and specific purpose companies (SPCs) engaging in liquidation of receivables, subject to AIRB and FIRB, are counted. On this page, Group companies (i.e. Sumitomo Mitsui Trust Guarantee Co., Ltd., Sumishin Guaranty Company Limited, Sumitomo Mitsui Trust Card Co., Ltd., Sumitomo Mitsui Trust Loan & Finance Co., Ltd., Sumitomo Mitsui Trust Panasonic Finance Co., Ltd., and Sumitomo Mitsui Trust Club Co., Ltd.), subject to FIRB, are counted.

2. Column a: As for "Corporate Exposures (excluding specialised lending)," "Specialised lending (subject to the PD/LGD Approach)," "Equity exposures (subject to the PD/LGD Approach)," and "Purchased receivables (other than those for corporates, etc. subject to top-down approach)," these portfolio classifications have been integrated into "Corporate Exposures". In addition, different rating systems (PD) are used in Japanese rating and Non-Japanese rating, and so "Corporate Exposures" are classified into "Japanese" and "Non-Japanese."

3. Column c: With reference to the internal rating for each obligor, the range of external rating is stated in accordance with the relation between the internal rating and external rating of the internal rules for the SuMi TRUST Group.

4. The PD estimation of the SuMi TRUST Group covers the one-year default results with the reference date being the end of September every year. Accordingly, Column d and Column e were obtained with the reference date being the end of September 2019. In addition, Column g and Column h were obtained by counting the number of defaulted obligors from the end of September 2019 to the end of September 2020.

5. Column f to Column h: "Qualifying revolving retail exposures," "Residential mortgage exposures," and "Other retail exposures" are tallied with the number of loans, because it is difficult to grasp the number of some obligors.

6. "Average historical annual default rate (5 years)" in column i represents the average value of the actual default rate for each year of the latest eight years rather than the latest five years.

7. The scope of application of the major model used in the consolidation range specified by the capital regulatory standards is determined while considering the portfolio classifications specified by regulations and credit decisions based on the risk driver of each portfolio (explanatory variables of the adopted rating model, etc.). "Credit RWA amounts ratio" of each internal model is stated for each portfolio*.

* "Credit RWA amounts ratio" (obtained with the reference date being the end of September 2020) is the ratio of RWA amounts for each portfolio to the total RWA amounts subject to the IRB approach (excluding counterparty credit risk, the credit risk related to securitisation transactions, and the credit risk related to funds).

8. In the ">10% to <100%" category of "Other retail exposures" of entities subject to FIRB, "Average historical annual default rate (5 years)" in Column i exceeds "Weighted average PD (EAD weighted)" in Column d. This is attributable to the difference in the method for obtaining average values. The appropriateness of the PD estimation in each pool classification is examined regularly every year.

		Total Exposures (F)	¥ 49,441,295	—
		Deposits Held with the Bank of Japan	16,231,435	—
		Total Exposures If Including Deposits Held with the Bank of Japan (F')	65,672,730	—
		Basel III Leverage Ratio If Including Deposits Held with the Bank of Japan (H) = (E)/(F')	4.16%	—

Note: SuMi TRUST Holdings received a certain procedure by KPMG AZSA LLC of the calculation of the Basel III leverage ratio in line with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants, August 27, 2019).

The certain procedure is not part of the audit of the consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the Basel III leverage ratio itself or parts of internal control over the procedure to calculate the ratio.

The key drivers of material changes observed from March 31, 2020 to March 31, 2021

Total exposures substantially decreased, due to the revision of calculation rule that current account with the Bank of Japan was excluded from total exposures, according to the Revision of Financial Services Agency Notification No.12, 2019 (effected on June, 2020).

Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a consolidated basis

(1) Items concerning fluctuations in the LCR over time

Our consolidated LCR has trended steadily for the most part in the past two years.

(2) Items concerning evaluation of the LCR level

Our consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Up ahead, we do not expect our LCR to deviate significantly from the current level.

(3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposit held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

(4) Other items concerning LCR

We apply neither the “treatment for qualifying operational deposit” nor the “additional collateral required to market valuation changes based on the scenario approach.”

Furthermore, taking account of the impact to LCR, we are using month-end data in lieu of daily data for the consolidated subsidiary companies of minor importance with practical restrictions.

Basel III Disclosure Data

This section outlines matters to be stated in explanatory documents relating to the fiscal year, separately stipulated by the Commissioner of the Financial Services Agency (Notification No.21 of Financial Services Agency, 2012) with regard to the matters regarding compensation as having significant consequences on the business operation or asset status of a bank, a bank holding company, or their subsidiaries, as set forth in Article 19-2, Paragraph 1, Item 6, Article 19-3, Item 4 and Article 34-26, Paragraph 1, Item 5 of the Ordinance for Enforcement of the Banking Act (Ministry of Finance Ordinance No. 10, 1982).

The following disclosure, unless otherwise stated, is with respect to Sumitomo Mitsui Trust Holdings, Inc. ("SuMi TRUST Holdings") as of the end of March 2021.

[Compensation Disclosure Data: SuMi TRUST Holdings]

1. Development Status of Organizational Structures Concerning Compensation, etc. for Applicable Officers and Employees within the SuMi TRUST Group	322
2. Adequacy Evaluation of Design and Operation of the Compensation System for Applicable Officers and Employees of SuMi TRUST Holdings	323
3. Regarding the Items about the Consistency between the Systems of Remuneration for Target Executives and Employees of SuMi TRUST Holdings and Risk Management, and the Linkage between the Remuneration and Performance of Target Employees of the SuMi TRUST Group	324
4. Types, Total Amount of Payment, and Payment Method of Compensation, etc. for Applicable Officers and Employees of the SuMi TRUST Group	325
5. Other Items to be Referred Concerning the Compensation System for Applicable Officers and Employees of the SuMi TRUST Group	326

Sumitomo Mitsui Trust Holdings, Inc.

1. Development Status of Organizational Structures Concerning Compensation, etc. for Applicable Officers and Employees within the SuMi TRUST Group

(1) Scope of "Applicable Officers and Employees"

The scope of "applicable officers" and "applicable employees, etc." (collectively the "applicable officers and employees") as defined in the compensation notification to be disclosed is as follows:

(i) Scope of "Applicable Officers"

Applicable officers include directors, and executive officers*¹ of SuMi TRUST Holdings, but exclude external directors.

*¹ Executive officers defined by the Companies Act.

(ii) Scope of "Applicable Employees, etc."

Of SuMi TRUST Holdings' officers and employees outside the scope of applicable officers as well as officers and employees of its significant consolidated subsidiaries, a "person receiving a substantial amount of compensation" with significant consequence on the business operation or asset status of SuMi TRUST Holdings and its significant consolidated subsidiaries, are subject to disclosure as applicable employees, etc.

(a) Scope of "Significant Consolidated Subsidiary"

"Significant consolidated subsidiary" refers to a consolidated subsidiary either with its total assets representing more than 2% of the consolidated total assets, or with significant consequence on the SuMi TRUST Holdings Group's management, namely Sumitomo Mitsui Trust Bank, Limited and Sumitomo Mitsui Trust Panasonic Finance Co., Ltd.

(b) Scope of a "Person Receiving a Substantial Amount of Compensation"

A "person receiving a substantial amount of compensation" refers to a person who receives compensation in excess of a certain threshold amount from SuMi TRUST Holdings or its significant consolidated subsidiaries. Such a threshold amount is set at ¥40 million within the SuMi TRUST Holdings Group. This threshold amount has been determined based on

the average compensation for officers paid in fiscal year 2020 (excluding the compensation paid to the officers who were newly appointed or retired in the fiscal year), and is commonly applicable across all significant consolidated subsidiaries, as more or less the same level and system of compensation is shared among all significant consolidated subsidiaries.

With respect to a person receiving lump-sum retirement benefit, this amount is first wholly deducted from the amount of compensation, then the "lump-sum retirement benefit divided by the number of years of service" is added back to calculate the deemed compensation for the purpose of determining whether the compensation is substantial or not.

(c) Scope of "Those with Significant Consequence on the Business Operation or Asset Status of the SuMi TRUST Holdings Group"

"Those with significant consequence on the business operation or asset status of the group" refers to the persons who normally conduct transactions, or manage business affairs that have considerable impact on the business operation of SuMi TRUST Holdings, the SuMi TRUST Holdings Group or its significant consolidated subsidiaries, or whose transactions can cause loss with significant impact on their asset status. Specifically, they include executive officers*² of SuMi TRUST Holdings and employees equivalent to general managers in the departments involving loan operations and market risk management.

*² Executive officers defined in internal policy.

(2) Names, Compositions, and Duties of the Committees and Other Major Institutions Which Supervise the Determination, Payment, and the Execution of Other Duties Regarding the Compensation, etc. for Applicable Officers and Employees

(i) Establishment and Securement of the Compensation Committee, etc.

SuMi TRUST Holdings is a company with Three Committees and has established a Compensation Committee, a statutory committee, to deliberate and decide the compensation system of directors and executive officers*¹ and the content of the compensation. The Committee shall prescribe policy on decisions on the content of remuneration for individual

directors and executive officers*¹ of SuMi TRUST Holdings, and decide the content of remuneration for individual executive officers*¹ and directors. In addition, the amounts of remuneration for individual executive officers*² of SuMi TRUST Holdings are reported to the Compensation Committee.

The Compensation Committee is chaired by an external director, and a majority of the committee members are external directors. The committee oversees and checks the operation of the remuneration system for directors, executive officers*¹, and executive officers*², and has the authority to determine the policy for setting remuneration while being independent of the business promotion department.

(ii) Determination of Compensation for Applicable Employees, etc.

Compensation for employees, etc. within the SuMi TRUST Holdings Group is payable, subject to the policies established primarily by the Boards of Directors and others of SuMi TRUST Holdings and its significant consolidated subsidiaries. According to such policies, compensation systems are designed by human resources departments of SuMi TRUST Holdings and its significant consolidated subsidiaries, independent of the business promotion departments and documented as payroll rules, etc. Information on the compensation systems of the significant consolidated subsidiaries is reported to, and verified by, the Human Resources Department of SuMi TRUST Holdings on a regular basis.

(iii) Determination of Compensation, etc. for Overseas Employees, etc.

Compensation for overseas employees, etc. are determined and payable under the local compensation system established by each overseas operation on its own, in compliance with local laws and regulations and local employment practice. Establishment and change of overseas compensation systems require consultation with, and validity verification by, the Human Resources Department of SuMi TRUST Holdings.

(iv) Total Amount of Compensation Paid to the Members of the Compensation Committee, etc. and the Number of Meetings Held for Compensation Committee, etc.

	The number of meetings held (April 1, 2020-March 31, 2021)	Total amount of compensation*
Compensation Committee (SuMi TRUST Holdings)	10 times	—
Board of Directors (SuMi TRUST Bank)	2 times	—

Note: The total amount of compensation, etc. is not stated as the amount equivalent to the compensation related to the execution of the duties for the Compensation Committee, etc. alone cannot be calculated separately.

2. Adequacy Evaluation of Design and Operation of the Compensation System for Applicable Officers and Employees of SuMi TRUST Holdings

(1) Policies Concerning Compensation, etc. for Applicable Officers and Employees

(i) Policies Concerning Compensation for “Applicable Officers”

The Compensation Committee determines the content of remuneration for individual directors and executive officers.*¹

Our aim is for the remunerations for directors and executive officers*¹ to function effectively as an incentive for improvement of corporate performance and expansion of enterprise value in order to realize stable and sustainable growth of the SuMi TRUST Group, including its core subsidiary, SuMi TRUST Bank. Furthermore, we have created a remuneration structure that considers the balance of short-term incentives and medium- to long-term incentives. This is to ensure remuneration that is not focusing on single-year performance evaluation in which short-term contribution to profit is emphasized, but focusing on officers’ qualifications and capabilities as senior management, and based on a comprehensive evaluation that reflects assessment of medium- to long-term performance. As a holding company, in order to ensure that the supervisory function is fully exercised at each Group company, SuMi TRUST Holdings determines individual remuneration based on an accurate recognition of the role that corporate officers are expected to play in terms of business management and their results, and highly transparent, fair and objective evaluations.

Furthermore, we have introduced a share delivery trust system as a form of stock compensation linked to our medium-term performance to further enhance the motivation and morale of directors and executive officers so as to help drive stock price increases, improve our medium- to long-term performance, and ultimately boost shareholder profits.

(ii) Policies Concerning Compensation for “Applicable Employees, etc.”

Compensations for the applicable employees, etc. of the SuMi TRUST Group are determined by performance assessments, to reflect each employee’s contribution to corporate performance in determining a performance-linked portion and evaluating target achieving performance. The human resources departments at each company have ensured that compensation payments are not excessively performance-oriented, on the basis of the compensation system in place, current status of performance assessment and actual payment records.

On the other hand, compensations for applicable overseas employees, etc. are determined under a basic principle by which payrolls are determined based on job description and responsibility, while bonuses are determined based on performance. Meanwhile, the total compensation budget is capped locally, based on the performance of each operation, preventing excessive impact on the overall compensation fund from individual employees’ extraordinary performance.

(2) Regarding the influence of the overall level of remuneration on capital

(i) Officer compensation

The Compensation Committee determines remuneration for officers after checking the situation of profit and loss in the current term and the consistency with future management strategies. It has been confirmed that the total payment amount of officer compensation in the current term does not produce significant effects, considering the profit level, etc. in the current term.

(ii) Salaries for employees

As for the salaries for employees, the business situation of SuMi TRUST Holdings is reflected in the part that changes according to the performance of SuMi TRUST Holdings and individuals and bonuses. It has been confirmed that the total payment amount of salaries for employees in the current term does not produce significant effects, considering the profit level, etc. in the current term.

(3) Regarding the monitoring of the operation of the remuneration system

As for performance-based variable remuneration, such as directors’ bonuses, the Compensation Committee monitors the operation of the remuneration system by checking the ratio of variable remuneration to the total amount of remuneration and the appropriateness of the payment amount, and confirms that performance-based pay is not excessive.

3. Regarding the Items about the Consistency between the Systems of Remuneration for Target Executives and Employees of SuMi TRUST Holdings and Risk Management, and the Linkage between the Remuneration and Performance of Target Employees of the SuMi TRUST Group

The remunerations for target executives are determined by the Compensation Committee. Budget allocation is conducted while taking into account the financial condition, etc. of the SuMi TRUST Group in order to determine remuneration for target employees.

4. Types, Total Amount of Payment, and Payment Method of Compensation, etc. for Applicable Officers and Employees of the SuMi TRUST Group

Capital Adequacy Ratio

Consolidated

We calculate the BIS capital adequacy ratio on both a consolidated and non-consolidated basis in line with provisions of Article 14-2 of the Banking Act and on the basis of calculation formula prescribed under the criteria for judging whether a bank's capital adequacy ratio is appropriate in light of assets held (the Financial Services Agency 2006 Notification No. 19, hereinafter referred to as the "FSA Capital Adequacy Notification").

As of the end of March 2021, we used the Advanced Internal Ratings-Based (IRB) Approach for the calculation of credit risk-weighted assets, the Advanced Measurement Approach for the calculation of operational risk, and market risk regulations.

Scope of Consolidation

Consolidated

(1) There is no difference between companies belonging to the group of companies subject to the consolidated BIS capital adequacy ratio as prescribed by the FSA Capital Adequacy Notification, Article 3 (hereinafter referred to as the "SuMi TRUST Bank Group") and the companies included in the scope of accounting consolidation.

(2) The number of consolidated subsidiaries that belong to the SuMi TRUST Bank Group is 40. The principal companies are the following.

Name	Principal Business Operations
Sumitomo Mitsui Trust Panasonic Finance Co., Ltd.	General Leasing, Installment Purchase Services, Credit Card Business
Sumitomo Mitsui Trust Club Co., Ltd.	Credit Card Business
Sumitomo Mitsui Trust Realty Co., Ltd.	Real Estate Brokerage Business
Sumitomo Mitsui Trust Loan & Finance Co., Ltd.	Money Lending Business
Sumitomo Mitsui Trust Bank (U.S.A.) Limited	Banking, Trust Business

(3) There is no affiliated company that undertakes financial services subject to the FSA Capital Adequacy Notification, Article 9.

(4) There are no particular restrictions on the transfer of funds and capital within the SuMi TRUST Bank Group.

(5) Of the subsidiaries which are banking, financial and insurance entities that are outside the scope of regulatory consolidation, none failed to meet the regulatory required capital.

Note: SuMi TRUST Bank received a certain procedure by KPMG AZSA LLC of the calculation of the consolidated BIS capital adequacy ratio in line with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants, August 27, 2019).

The certain procedure is not part of the audit of the consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the consolidated BIS capital adequacy ratio itself or parts of internal control over the procedure to calculate the ratio.

(Appendix)

Note: Amounts in the "Composition of capital" exclude items for regulatory purpose under transitional arrangement.

1. Shareholders' equity**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Capital Stock	¥ 342,037		1-a
Capital Surplus	342,853		1-b
Retained Earnings	1,339,698		1-c
Total Shareholders' Equity	¥ 2,024,588		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Directly Issued Qualifying Common Share Capital Plus Related Capital Surplus and Retained Earnings	¥ 2,024,588	Shareholders' Equity Attributable to Common Shares (before Adjusting National Specific Regulatory Adjustments (Earnings to be Distributed))	
of Which: Capital Stock and Capital Surplus	684,890		1a
of Which: Retained Earnings	1,339,698		2
of Which: Treasury Stock (Deduction)	—		1c
of Which: Others	—		
Directly Issued Qualifying Additional Tier 1 Instruments Plus Related Capital Surplus of Which Classified as Equity under Applicable Accounting Standards	—	Shareholders' Equity Attributable to Preferred Shares with a Loss Absorbency at the Point of Non-Viability	31a

2. Intangible assets**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Intangible Fixed Assets	¥ 85,397		2-a
Securities	6,882,670		2-b
of Which: Goodwill Arising on the Application of the Equity Method	676		
Associated Deferred Tax Liabilities	21,060		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Goodwill (Net of Related Deferred Tax Liabilities, Including Those Equivalent)	¥ 17,554		8
Other Intangible Assets (Net of Related Deferred Tax Liabilities)	47,459	Excluding Goodwill, Mortgage Servicing Rights (Software, etc.)	9
Mortgage Servicing Rights (Net of Related Deferred Tax Liabilities)	—		
Amount above the 10% Threshold on the Specified Items	—		20
Amount exceeding the 15% Threshold on the Specified Items	—		24
Amount below the Thresholds for Deduction (before Risk Weighting)	—		74

3. Defined-Benefit Pension Fund Net Assets (Assets for Retirement Benefits)**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Assets for Retirement Benefits	¥ 231,145		3
Associated Deferred Tax Liabilities	70,789		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Defined-Benefit Pension Fund Net Assets (Assets for Retirement Benefits) (Net of Related Deferred Tax Liabilities)	¥ 160,355		15

4. Deferred tax assets**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Tax Assets	¥ 27,544		4-a
Deferred Tax Liabilities	91,243		4-b
Deferred Tax Liabilities for Land Revaluation	2,388		4-c
Associated Intangible Fixed Assets	21,060		
Associated Assets for Retirement Benefits	70,789		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Tax Assets That Rely on Future Profitability excluding Those Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	¥ 44	This Item Does not Agree with the Amount Reported on the Consolidated Balance Sheet Due to Offsetting of Assets and Liabilities.	10
Deferred Tax Assets Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	25,717	This Item Does not Agree with the Amount Reported on the Consolidated Balance Sheet Due to Offsetting of Assets and Liabilities.	
Amount above the 10% Threshold on the Specified Items	—		21
Amount exceeding the 15% Threshold on the Specified Items	—		25
Amount below the Thresholds for Deduction (before Risk Weighting)	25,717		75

5. Deferred gains or losses on hedges

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Gains (Losses) on Hedges	¥ (44,836)		5

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Gains or Losses on Derivatives under Hedge Accounting	¥ (40,559)	Excluding those items whose valuation differences arising from hedged items are recognized as "Accumulated other comprehensive income"	11

6. Investments in the Capital and Other TLAC Liabilities of Financial Entities

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Securities	¥ 6,882,670		6-a
Loans and Bills Discounted	30,506,968	Including Subordinated Debts	6-b
Other Assets	2,217,308	Including derivatives	6-c
Other Liabilities	¥ 1,329,910	Including derivatives	6-d

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Investments in Own Capital	¥ —		
Common Equity Tier 1 Capital	—		16
Additional Tier 1 Capital	—		37
Tier 2 Capital	—		52
Reciprocal Cross-Holdings in the Capital and Other TLAC Liabilities	—		
Common Equity Tier 1 Capital	—		17
Additional Tier 1 Capital	—		38
Tier 2 Capital and Other TLAC Liabilities	—		53
Investments in the Capital and Other TLAC Liabilities of Banking, Financial and Insurance Entities That are Outside the Scope of Regulatory Consolidation, Where the Bank Does not Own More than 10% of the Issued Share Capital	126,945		
Common Equity Tier 1 Capital	—		18
Additional Tier 1 Capital	—		39
Tier 2 Capital and Other TLAC Liabilities	—		54
Amount below the Thresholds for Deduction (before risk weighting)	126,945		72
Significant Investments in the Capital and Other TLAC Liabilities of Banking, Financial and Insurance Entities That are Outside the Scope of Regulatory Consolidation, Net of Eligible Short Positions	115,304		
Amount above the 10% Threshold on the Specified Items	—		19
Amount exceeding the 15% Threshold on the Specified Items	—		23
Additional Tier 1 Capital	—		40
Tier 2 Capital and Other TLAC Liabilities	1,540		55
Amount below the Thresholds for Deduction (before risk weighting)	113,764		73

7. Non-controlling Interests

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Non-controlling Interests	¥ 27,637		7

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Common Share Capital Issued by Subsidiaries and Held by Third Parties (Amount Allowed in Group Common Equity Tier 1)	¥ —	After Reflecting Amounts Eligible for Inclusion (after Non-controlling Interest Adjustments)	5
Qualifying Additional Tier 1 Instruments Issued by Special Purpose Vehicles	—		30–31ab–32
Additional Tier 1 Instruments Issued by Subsidiaries and Held by Third Parties (Amount Allowed in Group Additional Tier 1)	11,571	After Reflecting Amounts Eligible for Inclusion (after Non-controlling Interest Adjustments)	34–35
Qualifying Tier 2 Instruments Issued by Special Purpose Vehicles	—		46
Tier 2 Instruments Issued by Subsidiaries and Held by Third Parties (Amount Allowed in Group Tier 2)	2,100	After Reflecting Amounts Eligible for Inclusion (after Non-controlling Interest Adjustments)	48–49

8. Other Capital Instruments

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Borrowed Money	¥ 6,392,602		8

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Directly Issued Qualifying Additional Tier 1 Instruments Plus Related Capital Surplus of Which Classified as Liabilities under Applicable Accounting Standards	¥ 270,000		32
Directly Issued Qualifying Tier 2 Instruments Plus Related Capital Surplus of Which Classified as Liabilities under Applicable Accounting Standards	335,153		46

Note: The regulatory scope of consolidation is the same as the accounting scope of consolidation.

(Appendix)

Note: Amounts in the "Composition of Capital" exclude items for regulatory purpose under transitional arrangement.

1. Shareholders' equity**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Capital Stock	¥ 342,037		1-a
Capital Surplus	342,853		1-b
Retained Earnings	1,264,091		1-c
Total Shareholders' Equity	¥ 1,948,981		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Directly Issued Qualifying Common Share Capital Plus Related Capital Surplus and Retained Earnings	¥ 1,948,981	Shareholders' Equity Attributable to Common Shares (before Adjusting National Specific Regulatory Adjustments (Earnings to be Distributed))	
of Which: Capital Stock and Capital Surplus	684,890		1a
of Which: Retained Earnings	1,264,091		2
of Which: Treasury Stock (Deduction)	—		1c
of Which: Others	—		
Directly Issued Qualifying Additional Tier 1 Instruments Plus Related Capital Surplus of Which Classified as Equity under Applicable Accounting Standards	—	Shareholders' Equity Attributable to Preferred Shares with a Loss Absorbency at the Point of Non-Viability	31a

2. Intangible assets**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Intangible Fixed Assets	¥ 100,915		2-a
Securities	6,343,103		2-b
of Which: Goodwill Arising on the Application of the Equity Method	3,322		
Associated Deferred Tax Liabilities	24,024		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Goodwill (Net of Related Deferred Tax Liabilities, Including Those Equivalent)	¥ 24,598		8
Other Intangible Assets (Net of Related Deferred Tax Liabilities)	55,615	Excluding Goodwill, Mortgage Servicing Rights (Software, etc.)	9
Mortgage Servicing Rights (Net of Related Deferred Tax Liabilities)	—		
Amount above the 10% Threshold on the Specified Items	—		20
Amount exceeding the 15% Threshold on the Specified Items	—		24
Amount below the Thresholds for Deduction (before Risk Weighting)	—		74

3. Defined-Benefit Pension Fund Net Assets (Assets for Retirement Benefits)**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Assets for Retirement Benefits	¥ 87,075		3
Associated Deferred Tax Liabilities	26,674		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Defined-Benefit Pension Fund Net Assets (Assets for Retirement Benefits) (Net of Related Deferred Tax Liabilities)	¥ 60,400		15

4. Deferred tax assets**(1) Consolidated balance sheet**

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Tax Assets	¥ 29,142		4-a
Deferred Tax Liabilities	62,767		4-b
Deferred Tax Liabilities for Land Revaluation	2,439		4-c
Associated Intangible Fixed Assets	24,024		
Associated Assets for Retirement Benefits	¥ 26,674		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Tax Assets That Rely on Future Profitability excluding Those Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	¥ 187	This Item Does not Agree with the Amount Reported on the Consolidated Balance Sheet Due to Offsetting of Assets and Liabilities.	10
Deferred Tax Assets Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	14,634	This Item Does not Agree with the Amount Reported on the Consolidated Balance Sheet Due to Offsetting of Assets and Liabilities.	
Amount above the 10% Threshold on the Specified Items	—		21
Amount exceeding the 15% Threshold on the Specified Items	—		25
Amount below the Thresholds for Deduction (before Risk Weighting)	¥ 14,634		75

5. Deferred gains or losses on hedges

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Gains or Losses on Hedges	¥ (57,389)		5

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Gains or Losses on Derivatives under Hedge Accounting	¥ (46,588)	Excluding those items whose valuation differences arising from hedged items are recognized as "Accumulated other comprehensive income"	11

6. Investments in the capital of financial entities

(1) Consolidated balance sheet

Consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Securities	¥ 6,343,103		6-a
Loans and Bills Discounted	29,703,375	Including Subordinated Debts	6-b
Other Assets	2,072,673	Including derivatives	6-c
Other Liabilities	¥ 1,221,403	Including derivatives	6-d

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Investments in Own Capital	¥ —		
Common Equity Tier 1 Capital	—		16
Additional Tier 1 Capital	—		37
Tier 2 Capital	—		52
Reciprocal Cross-Holdings in the Capital and Other TLAC Liabilities	—		
Common Equity Tier 1 Capital	—		17

Total for Industry Sectors	¥ 157,476	¥ 38,669	¥ 11,389	¥ 127,337	¥ 32,689	¥ 14,654

Notes: 1. "Others" in the industry sectors include non-residents.

2. Allowances for loan losses include "general allowances for loan losses" and "specific allowances for loan losses", etc.

Term-end Balance of Exposures by Past Due Periods (excluding "Doubtful Claims" and "Bankrupt and substantially bankrupt Claims")

As of March 31	Millions of Yen	
	2021	2020
< 1 month	¥ 58,814	¥ 65,387
≥ 1 month to < 2 months	10,491	12,095
≥ 2 months to < 3 months	8,556	11,023
≥ 3 months	2,041	3,341
Total	¥ 79,904	¥ 91,848

Note: Among the term-end balance of exposures for each past due period, "Doubtful Claims" and "Bankrupt and substantially bankrupt Claims" prescribed in the provisions of the Ordinance for Enforcement of the Act on Emergency Measures for the Revitalization of the Financial Functions are excluded, in aggregate calculation.

Term-end Balance of Exposures of obligors whose loan conditions were Restructured for the purpose of restructuring or supporting business management ; of which Amounts of Increased Allowances for such exposures and Other Amounts due to the restructuring of the loan conditions

As of March 31	Millions of Yen	
	2021	2020
Amounts of Increased Allowances for Such Exposures Due to the Restructuring of the Loan Conditions	¥ 59,840	¥ 50,311
Other Amounts	—	—
Term-end Balance of Exposures	¥ 59,840	¥ 50,311

Note: Restructured loans are those loans that provide some arrangements favorable to the obligors for the purpose of restructuring or supporting business management, such as by reducing or exempting interest, postponing principal or interest payments, forgiving loans, and providing other benefits to the obligors, excluding those loans classified as "Loans in Bankruptcy Procedures", "Delinquent Loans", and "Loans past due three months or more". In principle, the allowances for restructured loans has been all increased after restructuring loan conditions.

LI2: Main sources of differences between regulatory exposure amounts and carrying values in financial statements

LI2		Millions of Yen				
		March 31, 2021				
Item No.		a	b	c	d	e
		Total	Items subject to:			
			Credit risk (excluding amounts relevant to columns c and d)	Counterparty credit risk	Securitisation (excluding amounts relevant to column e)	Market risk
1	Asset carrying value amount under scope of regulatory consolidation	¥ 61,246,751	¥ 57,499,010	¥ 2,698,759	¥ 1,004,459	¥ 1,055,026
2	Liabilities carrying value amount under scope of regulatory consolidation	2,745,637	—	2,745,637	—	985,839
3	Total net amount under regulatory scope of consolidation	58,501,114	57,499,010	(46,877)	1,004,459	69,187
4	Off-balance sheet amounts	4,533,097	4,284,638	—	248,459	—
5	Differences due to netting, the exposure calculation method, etc.	2,433,938	—	2,760,956	—	(327,018)
6	Differences due to consideration of allowances and write-offs	36,982	36,982	—	—	—
7	Regulatory exposure amounts	65,505,133	61,820,632	2,714,078	1,252,918	(257,830)

- Notes: 1. Derivatives transactions included in "trading assets" and "trading liabilities" and foreign exchanges included in "other assets" and "other liabilities" are subject to capital charge in both counterparty credit risk and market risk. Accordingly, the amount in Column a is not equal to the sum of amounts in Columns b to e, for Item No. 1, 2, 3, and 7.
2. Among market risks, the foreign exchange risk in banking accounts is not easily linked to individual items of accounts in the consolidated balance sheet. Accordingly, it is not included in the above figures.
3. The major factors in the difference between the amount of exposure in the capital regulatory standards and the amount posted in the consolidated balance sheet for each risk category are as follows:
- Credit Risk and Securitisation Exposures: Off-balance sheet amounts and differences due to consideration of allowances and write-offs
 - Counterparty credit risk: Difference due to netting, the application of the credit risk mitigation techniques, and the application of the Current Exposure Method to the exposure calculation method
 - Market risk: Difference due to netting, etc.

CR2: Changes in stock of defaulted loans and debt securities

CR2 Item No.	Millions of Yen	
	March 31, 2021	
	Amounts	
1	Stock of defaulted loans and debt securities at the end of the previous fiscal year	¥ 143,609
2	Of which: Newly defaulted	57,773
3	Changes in stock of loans and debt securities	Of which: Returning to non-defaulted status
4	for each factor during the fiscal year	Of which: Written-offs
5		Of which: Other factors
6	Stock of defaulted loans and debt securities at the end of the fiscal year (1+2-3-4+5)	161,273

Notes: 1. The end of the previous fiscal year indicates March 31, 2020, and the end of the fiscal year indicates March 31, 2021.

2. The main factor for the item 5. "Of which: Other factors" is the stock decrease caused by the collection of defaulted exposures.

CR2 Item No.	Millions of Yen	
	March 31, 2020	
	Amounts	
1	Stock of defaulted loans and debt securities at the end of the previous fiscal year	¥ 138,273
2	Of which: Newly defaulted	95,303
3	Changes in stock of loans and debt securities	Of which: Returning to non-defaulted status
4	for each factor during the fiscal year	Of which: Written-offs
5		Of which: Other factors
6	Stock of defaulted loans and debt securities at the end of the fiscal year (1+2-3-4+5)	143,609

Notes: 1. The end of the previous fiscal year indicates March 31, 2019, and the end of the fiscal year indicates March 31, 2020.

2. The main factor for the item 5. "Of which: Other factors" is the stock decrease caused by the collection of defaulted exposures.

	> 10% to < 100%	/	/	/	/	/	/	44.78	62.54	933	564	458	1	47.59	

- Notes: 1. On the previous page, Sumitomo Mitsui Trust Bank, Limited and specific purpose companies (SPCs) engaging in liquidation of receivables, subject to AIRB and FIRB, are counted. On this page, Group companies (i.e. Sumitomo Mitsui Trust Guarantee Co., Ltd., Sumishin Guaranty Company Limited, Sumitomo Mitsui Trust Card Co., Ltd., Sumitomo Mitsui Trust Loan & Finance Co., Ltd., Sumitomo Mitsui Trust Panasonic Finance Co., Ltd., and Sumitomo Mitsui Trust Club Co., Ltd.), subject to FIRB, are counted.
2. Column a: As for "Corporate Exposures (excluding specialised lending)," "Specialised lending (subject to the PD/LGD Approach)," "Equity exposures (subject to the PD/LGD Approach)," and "Purchased receivables (other than those for corporates, etc. subject to top-down approach)," these portfolio classifications have been integrated into "Corporate Exposures". In addition, different rating systems (PD) are used in Japanese rating and Non-Japanese rating, and so "Corporate Exposures" are classified into "Japanese" and "Non-Japanese".
3. Column c: With reference to the internal rating for each obligor, the range of external rating is stated in accordance with the relation between the internal rating and external rating of the internal rules for the SuMi TRUST Group.
4. The PD estimation of the SuMi TRUST Group covers the one-year default results with the reference date being the end of September every year. Accordingly, Column d and Column e were obtained with the reference date being the end of September 2019. In addition, Column g and Column h were obtained by counting the number of defaulted obligors from the end of September 2019 to the end of September 2020.
5. Column f to Column h: "Qualifying revolving retail exposures," "Residential mortgage exposures," and "Other retail exposures" are tallied with the number of loans, because it is difficult to grasp the number of some obligors.
6. "Average historical annual default rate (5 years)" in column i represents the average value of the actual default rate for each year of the latest eight years rather than the latest five years.
7. The scope of application of the major model used in the consolidation range specified by the capital regulatory standards is determined while considering the portfolio classifications specified by regulations and credit decisions based on the risk driver of each portfolio (explanatory variables of the adopted rating model, etc.). "Credit RWA amounts ratio" of each internal model is stated for each portfolio.
* "Credit RWA amounts ratio" (obtained with the reference date being the end of September 2020) is the ratio of RWA amounts for each portfolio to the total RWA amounts subject to the IRB approach (excluding counterparty credit risk, the credit risk related to securitisation transactions, and the credit risk related to funds).
8. In the ">10% to <100%" category of "Other retail exposures" of entities subject to FIRB, "Average historical annual default rate (5 years)" in Column i exceeds "Weighted average PD (EAD weighted)" in Column d. This is attributable to the difference in the method for obtaining average values. The appropriateness of the PD estimation in each pool classification is examined regularly every year.

- Notes: 1. On the previous page, Sumitomo Mitsui Trust Bank, Limited and specific purpose companies (SPCs) engaging in liquidation of receivables, subject to AIRB and FIRB, are counted. On this page, Group companies (i.e. Sumitomo Mitsui Trust Guarantee Co., Ltd., Sumishin Guaranty Company Limited, Sumitomo Mitsui Trust Card Co., Ltd., Sumitomo Mitsui Trust Loan & Finance Co., Ltd., Sumitomo Mitsui Trust Panasonic Finance Co., Ltd. and Sumitomo Mitsui Trust Club Co., Ltd.), subject to FIRB, are counted.
2. Column a: As for "Corporate Exposures (excluding specialised lending)," "Specialised lending (subject to the PD/LGD Approach)," "Equity exposures (subject to the PD/LGD Approach)," and "Purchased receivables (other than those for corporates, etc. subject to top-down approach)," the same rating system (same PD) is used, and so these portfolio classifications have been integrated into "Corporate Exposures". In addition, different rating systems (PD) are used in Japanese rating and Non-Japanese rating, and so "Corporate Exposures" are classified into "Japanese" and "Non-Japanese".
3. Column c: With reference to the internal rating for each obligor, the range of external rating is stated in accordance with the relation between the internal rating and external rating of the internal rules for the SuMi TRUST Group.
4. The PD estimation of the SuMi TRUST Group covers the one-year default results with the reference date being the end of September every year. Accordingly, Column d and Column e were obtained with the reference date being the end of September 2018. In addition, Column g and Column h were obtained by counting the number of defaulted obligors from the end of September 2018 to the end of September 2019.
5. Column f to Column h: "Qualifying revolving retail exposures," "Residential mortgage exposures," and "Other retail exposures" are tallied with the number of loans, because it is difficult to grasp the number of some obligors.
6. "Average historical annual default rate (5 years)" in column i represents the average value of the actual default rate for each year of the latest seven years rather than the latest five years.
7. The scope of application of the major model used in the consolidation range specified by the capital regulatory standards is determined while considering the portfolio classifications specified by regulations and credit decisions based on the risk driver of each portfolio (explanatory variables of the adopted rating model, etc.). "Credit RWA amounts ratio" of each internal model is stated for each portfolio.
* "Credit RWA amounts ratio" (obtained with the reference date being the end of September 2019) is the ratio of RWA amounts for each portfolio to the total RWA amounts subject to the IRB approach (excluding counterparty credit risk, the credit risk related to securitisation transactions, and the credit risk related to funds).
8. In the ">10% to <100%" category of "Other retail exposures" of entities subject to FIRB, "Average historical annual default rate (5 years)" in Column i exceeds "Weighted average PD (EAD weighted)" in Column d. This is attributable to the difference in the method for obtaining average values. The appropriateness of the PD estimation in each pool classification is examined regularly every year.

19	6	Total Exposures Related to Off-Balance Sheet Transactions (D)	3,391,875	2,700,183
Basel III Leverage Ratio on a Consolidated Basis				
20		The Amount of Capital (Tier 1 Capital) (E)	2,389,620	2,420,402
21	8	Total Exposures (F) = (A)+(B)+(C)+(D)	¥ 49,247,112	¥ 59,140,679
22		Basel III Leverage Ratio on a Consolidated Basis (G) = (E)/(F)	4.85%	4.09%
Basel III Leverage Ratio on a Consolidated Basis If Including Deposits Held with the Bank of Japan				
		Total Exposure (F)	¥ 49,247,112	—
		Deposits Held with the Bank of Japan	16,231,435	—
		Total Exposure If Including Deposits Held with the Bank of Japan (F')	65,478,547	—
		Basel III Leverage Ratio on a Consolidated Basis If Including Deposits Held with the Bank of Japan (H) = (E)/(F')	3.64%	—

Note: SuMi TRUST Bank received a certain procedure by KPMG AZSA LLC of the calculation of the Basel III leverage ratio in line with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants, August 27, 2019).

The certain procedure is not part of the audit of the consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the Basel III leverage ratio itself or parts of internal control over the procedure to calculate the ratio.

The key drivers of material changes observed from the previous fiscal year

Total exposures substantially decreased, due to the revision of calculation rule that current account with the Bank of Japan was excluded from total exposures, according to the Revision of Financial Services Agency Notification No.11, 2019 (effected on June, 2020).

Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a consolidated basis

(1) Items concerning fluctuations in the LCR over time

Our consolidated LCR has trended steadily for the most part in the past two years.

(2) Items concerning evaluation of the LCR level

Our consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Up ahead, we do not expect our LCR to deviate significantly from the current level.

(3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposit held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

(4) Other items concerning LCR

We apply neither the "treatment for qualifying operational deposit" nor the "additional collateral required to market valuation changes based on the scenario approach."

Furthermore, taking account of the impact to LCR, we are using month-end data in lieu of daily data for the consolidated subsidiary companies of minor importance with practical restrictions.

Note: SuMi TRUST Bank received a certain procedure by KPMG AZSA LLC of the calculation of the non-consolidated BIS capital adequacy ratio in line with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants, August 27, 2019).

The certain procedure is not part of the audit of the non-consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the non-consolidated BIS capital adequacy ratio itself or parts of internal control over the procedure to calculate the ratio.

Explanation on Reconciliation between Balance Sheet Items and Regulatory Capital Elements Non-consolidated

Fiscal Year 2020

CC2: Reconciliation of Regulatory Capital to Balance Sheet

CC2 Items	a	b	c	d
	Non-consolidated Balance Sheet (Millions of Yen)	Under Regulatory Scope of Consolidation (Millions of Yen)	Ref. No. of Composition of Capital	Ref. No. of Appendix
(Assets)				
Cash and Due from Banks	¥ 18,216,321	¥ 18,216,322		
Call Loans	8,766	8,766		
Receivables under Resale Agreements	160,268	160,268		
Receivables under Securities Borrowing Transactions	727,689	727,689		
Monetary Claims Bought	105,830	105,830		
Trading Assets	513,273	513,273		
Money Held in Trust	99	99		
Securities	7,090,335	7,090,333		6-a
Loans and Bills Discounted	30,691,618	30,691,618		6-b
Foreign Exchanges	25,396	25,396		
Other Assets	1,812,587	1,812,587		6-c
Tangible Fixed Assets	186,717	186,717		
Intangible Fixed Assets	58,880	58,880		2
Prepaid Pension Expenses	237,191	237,191		3
Customers' Liabilities for Acceptances and Guarantees	383,537	383,537		
Allowance for Loan Losses	(100,846)	(100,846)		
Total Assets	¥ 60,117,669	¥ 60,117,669

Total Net Assets	2,049,539	2,049,539		
Total Liabilities and Net Assets	¥ 60,117,669	¥ 60,117,669		

(Appendix)

Note: Amounts in the "Composition of capital" exclude items for regulatory purpose under transitional arrangement.

1. Shareholders' equity**(1) Non-consolidated balance sheet**

Non-consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Capital Stock	¥ 342,037		1-a
Capital Surplus	343,066		1-b
Retained Earnings	1,066,952		1-c
Total Shareholders' Equity	¥ 1,752,055		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Directly Issued Qualifying Common Share Capital Plus Related Capital Surplus and Retained Earnings	¥ 1,752,055	Shareholders' Equity Attributable to Common Shares (before Adjusting National Specific Regulatory Adjustments (Earnings to be Distributed))	
of Which: Capital Stock and Capital Surplus	685,103		1a
of Which: Retained Earnings	1,066,952		2
of Which: Treasury Stock (Deduction)	—		1c
of Which: Others	—		
Directly Issued Qualifying Additional Tier 1 Instruments Plus Related Capital Surplus of Which Classified as Equity under Applicable Accounting Standards	—	Shareholders' Equity Attributable to Preferred Shares with a Loss Absorbency at the Point of Non-Viability	31a

2. Intangible assets**(1) Non-consolidated balance sheet**

Non-consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Intangible Fixed Assets	¥ 58,880		2
Associated Deferred Tax Liabilities	18,029		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Goodwill (Net of Related Deferred Tax Liabilities, Including Those Equivalent)	¥ —		8
Other Intangible Assets (Net of Related Deferred Tax Liabilities)	40,851	Excluding Goodwill, Mortgage Servicing Rights (Software, etc.)	9
Mortgage Servicing Rights (Net of Related Deferred Tax Liabilities)	—		
Amount above the 10% Threshold on the Specified Items	—		20
Amount exceeding the 15% Threshold on the Specified Items	—		24
Amount below the Thresholds for Deduction (before Risk Weighting)	—		74

3. Defined-benefit pension fund net assets (prepaid pension Expenses)

(1) Non-consolidated balance sheet

Non-consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Prepaid Pension Expenses	¥ 237,191		3
Associated Deferred Tax Liabilities	72,628		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Defined-Benefit Pension Fund Net Assets (Prepaid Pension Expenses) (Net of Related Deferred Tax Liabilities)	¥ 164,563		15

4. Deferred tax assets

(1) Non-consolidated balance sheet

Non-consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Tax Liabilities	¥ 91,342		4-a
Deferred Tax Liabilities for Land Revaluation	2,388		4-b
Associated Intangible Fixed Assets	18,029		
Associated Prepaid Pension Expenses	72,628		

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Tax Assets That Rely on Future Profitability excluding Those Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	¥ —	This Item Does not Agree with the Amount Re- ported on the Balance Sheet Due to Offsetting of Assets and Liabilities.	10
Deferred Tax Assets Arising from Temporary Differences (Net of Related Deferred Tax Liabilities)	—	This Item Does not Agree with the Amount Re- ported on the Balance Sheet Due to Offsetting of Assets and Liabilities.	
Amount above the 10% Threshold on the Specified Items	—		21
Amount exceeding the 15% Threshold on the Specified Items	—		25
Amount below the Thresholds for Deduction (before Risk Weighting)	—		75

5. Deferred gains or losses on hedges

(1) Non-consolidated balance sheet

Non-consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Deferred Gains (Losses) on Hedges	¥ (39,295)		5

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Deferred Gains or Losses on Derivatives under Hedge Accounting	¥ (35,018)	Excluding those items whose valuation differences arising from hedged items are recognized as "Valuation and translation adjustments"	11

6. Investments in the Capital and Other TLAC Liabilities of Financial Entities

(1) Non-consolidated balance sheet

Non-consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Securities	¥ 7,090,335		6-a
Loans and Bills Discounted	30,691,618	Including Subordinated Debts	6-b
Other Assets	1,812,587	Including derivatives	6-c
Other Liabilities	¥ 1,131,052	Including derivatives	6-d

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Investments in Own Capital	¥ —		
Common Equity Tier 1 Capital	—		16
Additional Tier 1 Capital	—		37
Tier 2 Capital	—		52
Reciprocal Cross-Holdings in the Capital and Other TLAC Liabilities	—		
Common Equity Tier 1 Capital	—		17
Additional Tier 1 Capital	—		38
Tier 2 Capital and Other TLAC Liabilities	—		53
Investments in the Capital and Other TLAC Liabilities of Banking, Financial and Insurance Entities That are Outside the Scope of Regulatory Consolidation, Where the Bank Does not Own More than 10% of the Issued Share Capital	123,647		
Common Equity Tier 1 Capital	—		18
Additional Tier 1 Capital	—		39
Tier 2 Capital and Other TLAC Liabilities	—		54
Amount below the Thresholds for Deduction (before risk weighting)	123,647		72
Significant Investments in the Capital and Other TLAC Liabilities of Banking, Financial and Insurance Entities That are Outside the Scope of Regulatory Consolidation, Net of Eligible Short Positions	64,674		
Amount above the 10% Threshold on the Specified Items	—		19
Amount exceeding the 15% Threshold on the Specified Items	—		23
Additional Tier 1 Capital	—		40
Tier 2 Capital and Other TLAC Liabilities	1,540		55
Amount below the Thresholds for Deduction (before risk weighting)	63,134		73

7. Other Capital Instruments

(1) Non-consolidated balance sheet

Non-consolidated Balance Sheet Items	Amount (Millions of Yen)	Remarks	Ref. No.
Borrowed Money	¥ 5,883,091		7

(2) Composition of capital

Items in the Composition of Capital	Amount (Millions of Yen)	Remarks	Basel III Template No.
Directly Issued Qualifying Additional Tier 1 Instruments Plus Related Capital Surplus of Which Classified as Liabilities under Applicable Accounting Standards	¥ 270,000		32
Directly Issued Qualifying Tier 2 Instruments Plus Related Capital Surplus of Which Classified as Liabilities under Applicable Accounting Standards	335,153		46

Note: SuMi TRUST Bank received a certain procedure by KPMG AZSA LLC of the calculation of the Basel III leverage ratio in line with "Practical Guidance on Agreed-Upon Procedures Engagement for Capital Adequacy Ratio and Leverage Ratio Calculation" (Practical Guidance 4465 for Specialized Business of the Japanese Institute of Certified Public Accountants, August 27, 2019).

The certain procedure is not part of the audit of the non-consolidated financial statements or the audit of the internal control over the financial reporting but was conducted by the external auditor on the agreed-upon scope and under agreed-upon examination procedures, and is a report of the results presented to us. It thus does not represent an opinion or conclusion by the external auditor regarding the Basel III leverage ratio itself or parts of internal control over the procedure to calculate the ratio.

The key drivers of material changes observed from the previous fiscal year

Total exposures substantially decreased, due to the revision of calculation rule that current account with the Bank of Japan was excluded from total exposures, according to the Revision of Financial Services Agency Notification No.11, 2019 (effected on June, 2020).

Qualitative Disclosure Items for the Liquidity Coverage Ratio (LCR) on a non-consolidated basis

(1) Items concerning fluctuations in the LCR over time

Our non-consolidated LCR has trended steadily for the most part in the past two years.

(2) Items concerning evaluation of the LCR level

Our non-consolidated LCR satisfies the regulated level (100%) as required under liquidity ratio regulations and the actual LCR is roughly in line with our initial forecast. Up ahead, we do not expect our LCR to deviate significantly from the current level.

(3) Items concerning the composition of totals for eligible high-quality liquid assets

The majority of our eligible high-quality liquid assets are reserve deposit held at central banks and sovereign bonds. There have been no material fluctuations in the composition of currencies, their types and locations. Furthermore, there has been no material difference between totals for eligible high-quality liquid assets and net cash outflows in major currencies.

(4) Other items concerning LCR

We apply neither the “treatment for qualifying operational deposit” nor the “additional collateral required to market valuation changes based on the scenario approach.”

Basel III Disclosure Data

This section outlines matters to be stated in explanatory documents relating to the fiscal year, separately stipulated by the Commissioner of the Financial Services Agency (Notification No.21 of Financial Services Agency, 2012) with regard to the matters regarding compensation as having significant consequences on the business operation or asset status of a bank, a bank holding company, or their subsidiaries, as set forth in Article 19-2, Paragraph 1, Item 6, Article 19-3, Item 4 and Article 34-26, Paragraph 1, Item 5 of the Ordinance for Enforcement of the Banking Act (Ministry of Finance Ordinance No.10, 1982).

The following disclosure, unless otherwise stated, is with respect to Sumitomo Mitsui Trust Bank, Limited ("SuMi TRUST Bank") as of the end of March 2021.

[Compensation Disclosure Data: SuMi TRUST Bank]

1. Development Status of Organizational Structures Concerning Compensation, etc. for Applicable Officers and Employees within the SuMi TRUST Bank Group	414
2. Adequacy Evaluation of Design and Operation of the Compensation System for Applicable Officers and Employees of SuMi TRUST Bank	415
3. Regarding the Items about the Consistency between the Systems of Remuneration for Target Executives and Employees of SuMi TRUST Bank and Risk Management, and the Linkage between the Remuneration and Performance of Target Employees of the SuMi TRUST Bank Group	416
4. Types, Total Amount of Payment, and Payment Method of Compensation, etc. for Applicable Officers and Employees of the SuMi TRUST Bank Group	417
5. Other Items to be Referred Concerning the Compensation System for Applicable Officers and Employees of the SuMi TRUST Bank Group	418

Sumitomo Mitsui Trust Bank, Limited

1. Development Status of Organizational Structures Concerning Compensation, etc. for Applicable Officers and Employees within the SuMi TRUST Bank Group

(1) Scope of "Applicable Officers and Employees"

The scope of "applicable officers" and "applicable employees, etc." (collectively "applicable officers and employees") as defined in the compensation notification to be disclosed is as follows:

(i) Scope of "Applicable Officers"

Applicable officers include directors of the Company, and exclude external directors.

(ii) Scope of "Applicable Employees, etc."

Of SuMi TRUST Bank's officers and employees outside the scope of applicable officers as well as officers and employees of its significant consolidated subsidiaries, a "person receiving a substantial amount of compensation" with significant consequence on the business operation or asset status of SuMi TRUST Bank and its significant consolidated subsidiaries, are subject to disclosure as applicable employees, etc.

(a) Scope of "Significant Consolidated Subsidiary"

"Significant consolidated subsidiary" refers to a consolidated subsidiary either with its total assets representing more than 2% of the consolidated total assets, or with significant consequence on the SuMi TRUST Bank Group's management, namely Sumitomo Mitsui Trust Panasonic Financial Co., Ltd.

(b) Scope of a "Person Receiving a Substantial Amount of Compensation"

A "person receiving a substantial amount of compensation" refers to a person who receives compensation in excess of a certain threshold amount from SuMi TRUST Bank or its significant consolidated subsidiaries. Such a threshold amount is set at ¥40 million within the SuMi TRUST Bank Group.

With respect to a person receiving lump-sum retirement benefit, this amount is first wholly deducted from the amount of compensation, then the "lump-sum retirement benefit di-

vided by the number of years of service" is added back to calculate the deemed compensation for the purpose of determining whether the compensation is substantial or not.

(c) Scope of "Those with Significant Consequence on the Business Operation or Asset Status of the SuMi TRUST Bank Group"

"Those with significant consequence on the business operation or asset status of the group" refers to the persons who normally conduct transactions, or manage business affairs that have considerable impact on the business operation of SuMi TRUST Bank, the SuMi TRUST Bank Group or its significant consolidated subsidiaries, or whose transactions can cause loss with significant impact on their asset status. Specifically, they include executive officers and employees equivalent to general managers in the departments involving loan operations and market risk management.

(2) Names, Compositions, and Duties of the Committees and Other Major Institutions Which Supervise the Determination, Payment, and the Execution of Other Duties Regarding the Compensation, etc. for Applicable Officers and Employees

(i) Establishment and Securement of the Compensation Committee, etc.

SuMi TRUST Bank determines the total amount of remuneration for directors and executive officers at the General Meeting of Shareholders. In determining remuneration for directors and executive officers for this fiscal year, the allocation of remuneration for individual directors, excluding Audit and Supervisory Committee members, is decided by the Board of Directors, while that for individual corporate auditors and directors that are members of the Audit and Supervisory Committee is entrusted to deliberations by corporate auditors and directors that are members of the Audit and Supervisory Committee, within the total amount of remuneration for directors and executive officers decided by the General Meeting of Shareholders.

SuMi TRUST Bank consults the Compensation Committee of SuMi TRUST Holdings on the policy regarding decisions on the content of compensation for directors (excluding

Audit and Supervisory Committee members) and executive officers and reports the findings to the Board of Directors. The amounts of remuneration, etc. determined for individual directors and executive officers are also reported to the Compensation Committee.

(ii) Determination of Compensation for Applicable Employees, etc.

Compensation for employees, etc. within the SuMi TRUST Bank Group is payable, subject to the policies established primarily by the Boards of Directors, etc. of SuMi TRUST Bank and its significant consolidated subsidiaries. According to such policies, compensation systems are designed by human resources departments of SuMi TRUST Bank and its significant consolidated subsidiaries, independent of the business promotion departments and documented as payroll rules, etc. Information on the compensation systems of the significant consolidated subsidiaries is reported to, and verified by, the Human Resources Department of SuMi TRUST Bank on a regular basis.

(iii) Determination of Compensation, etc. for Overseas Employees, etc.

Compensation for overseas employees, etc. are determined and payable under the local compensation system established by each overseas operation on its own, in compliance with local laws and regulations and local employment practice. Establishment and change of overseas compensation systems require consultation with, and validity verification by, the Human Resources Department of SuMi TRUST Bank.

(iv) Total Amount of Compensation Paid to the Members of the Compensation Committee, etc. and the Number of Meetings Held for Compensation Committee, etc.

	The number of meetings held (April 1, 2020-March 31, 2021)	Total amount of compensation*
Board of Directors (SuMi TRUST Bank)	2 times	—

Note: The total amount of compensation, etc. is not stated as the amount equivalent to the compensation related to the execution of the duties for the Board of Directors alone cannot be calculated separately.

2. Adequacy Evaluation of Design and Operation of the Compensation System for Applicable Officers and Employees of SuMi TRUST Bank

(1) Policies Concerning Compensation, etc. for Applicable Officers and Employees

(i) Policies Concerning the Compensation for “Applicable Officers”

The limit on compensation for directors and officers for this fiscal year as decided by the General Meeting of Shareholders is ¥1,160 million per year for directors, excluding Audit and Supervisory Committee members, and ¥240 million per year for directors that are members of the Audit and Supervisory Committee. An annual limit of ¥200 million for stock compensation (share delivery trust) for directors, excluding Audit and Supervisory Committee members, has also been separately resolved. Compensation is capped by these limits.

Compensation for directors is intended to function effectively as an incentive to make improvements in corporate performance and expand corporate value in order to achieve steady and sustainable growth of the SuMi TRUST Bank Group.

The amount of compensation is also aimed at reflecting corporate performance, the contribution of each director to corporate performance, efforts for expansion of business operations in the medium- to long-terms, and for improvement of corporate value, and so forth. Amounts of compensation are determined based on an annual compensation policy determined by the Board of Directors and on an objective evaluation made by the Performance Evaluation Committee.

Furthermore, we have introduced a share delivery trust system as a form of stock compensation linked to our medium-term performance to further enhance the motivation and morale of directors so as to help drive stock price increases, improve our medium- to long-term performance, and ultimately boost shareholder profits.

(ii) Policies Concerning Compensation for “Applicable Employees, etc.”

Compensations for the applicable employees, etc. of the SuMi TRUST Bank Group are determined by performance assessments, to reflect each employee’s contribution to corporate performance in determining a performance-linked portion and evaluating target achieving performance. The human resources departments at each company have ensured that compensation payments are not excessively performance-oriented, on the basis of the compensation system in place, current status of performance assessment and actual payment records.

On the other hand, compensations for applicable overseas employees, etc. are determined under a basic principle by which payrolls are determined based on job description and responsibility, while bonuses are determined based on performance. Meanwhile, the total compensation budget is capped locally, based on the performance of each operation, preventing excessive impact on the overall compensation fund from individual employees’ extraordinary performance.

(2) Regarding the Influence of the Overall Level of Remuneration on Capital

(i) Officer Compensation

The Board of Directors determines remuneration for officers after checking the situation of profit and loss in the current term and the consistency with future management strategies. It has been confirmed that the total payment amount of officer compensation in the current term does not produce significant effects, considering the profit level, etc. in the current term.

(ii) Salaries for Employees

As for the salaries for employees, the business situation of SuMi TRUST Bank is reflected in the part that changes according to the performance of SuMi TRUST Bank and individuals and bonuses. It has been confirmed that the total payment amount of salaries for employees in the current term does not produce significant effects, considering the profit level, etc. in the current term.

(3) Regarding the monitoring of the operation of the remuneration system

As for performance-based variable remuneration, such as directors’ bonuses, the Compensation Committee of SuMi TRUST Holdings monitors the operation of the remuneration system by checking the ratio of variable remuneration to the total amount of remuneration and the appropriateness of the payment amount, and confirms that performance-based pay is not excessive.

3. Regarding the Items about the Consistency between the Systems of Remuneration for Target Executives and Employees of SuMi TRUST Bank and Risk Management, and the Linkage between the Remuneration and Performance of Target Employees of the SuMi TRUST Bank Group

In determining the remuneration of applicable officers, we consult with the Compensation Committee of SuMi TRUST Holdings regarding the policy for determining remuneration for individuals, and the decision is made by the Board of Directors after receiving the report of the Committee. In addition, we have introduced a system whereby individual remuneration is reported to the Compensation Committee for deliberation, and a system is in place to check whether the remuneration is appropriate in accordance with SuMi TRUST Holdings’ policy for determining individual remuneration as reported by the Compensation Committee. In determining the remuneration of applicable employees, the SuMi TRUST Group takes into consideration the Group’s financial situation and other factors before implementing budgetary measures.

4. Types, Total Amount of Payment, and Payment Method of Compensation, etc. for Applicable Officers and Employees of the SuMi TRUST Bank Group

Disclosure Policy

SuMi TRUST Holdings is fully aware of the importance of its social responsibility and public mission, and constantly seeks to secure unwavering trust from society through sound management based on rigorous self-discipline. For this purpose, we endeavor to ensure appropriate disclosure of corporate information to assure the transparency of our corporate management.

Attitude toward Disclosure

We not only comply strictly with various laws and rules, such as the Companies Act, the Banking Law and the Financial Instruments and Exchange Act (including the rules for timely disclosure of corporate information, etc., defined by securities exchanges on which our shares are listed), but also endeavor to disclose corporate information that helps our clients, shareholders, and investors better understand the SuMi TRUST Group, under the basic conditions of appropriate timing, accuracy and fairness, and realize highly transparent management.

We do not release personal information, client data or any information, the disclosure of which violates the rights of the parties concerned by such action.

Disclosure Methods

When disclosing information, we make active use of the Internet, various publications and other media tools to reach the broadest possible number of interested parties, whether clients, shareholders or investors, in or outside Japan, in a timely, accurate and fair manner.

In the disclosure of various materials, we strive to provide easy-to-understand explanations of the main points of SuMi TRUST Group's management policies, business results, finance situation, etc. We explain these main points at our information meetings, etc.

Establishment of Disclosure System

We maintain and promote the appropriate disclosure system by such means as the establishment of an Information Disclosure Committee to ensure disclosure of SuMi TRUST Group's information in accordance with the above disclosure policy.
