## **Introduction**

### **Purpose**

The information contained in this document is for ZA Bank Limited (“the Bank”), and prepared in accordance with the Banking (Disclosure) Rules (“BDR”) and disclosure templates issued by the Hong Kong Monetary Authority (“HKMA”).

This banking disclosure is governed by the Bank’s disclosure policy, which has been approved by the Board of Directors. The disclosure policy sets out the governance, control and assurance requirements for publication of the document. While the regulatory disclosure statement is not required to be externally audited, the document has been subject to independent review in accordance with the Bank’s disclosure policy.

The numbers in this document are expressed in thousands of Hong Kong Dollars, unless otherwise stated.

### **Basis of preparation**

The capital adequacy ratio (“CAR”) was compiled in accordance with the Banking (Capital) Rules (“BCR”) issued by the HKMA. In calculating the risk weighted assets, the Bank adopted the Standardized (Credit Risk) Approach and the Standardized (Market Risk) Approach for credit risk and market risk respectively. For operational risk, the capital requirement is calculated using the alternative approach communicated to HKMA pursuant to section 340 of the BCR.

### **Basis of consolidation**

As of 31 March 2020, the Bank does not have any subsidiaries to consolidate the financial information in this Regulatory Disclosure Statement.

<sup>1</sup> There is no comparative information available prior to 31 December 2019.

<sup>2</sup> The LMR disclosed above represent the arithmetic mean of the average value of its LMR for each calendar month within the quarter.
