BPI International Finance Limited

Basis of Preparation

The key prudential ratios related to regulatory capital and buffers, leverage ratio and liquidity ratios of BPI International Finance Limited (the “Company”) are calculated in accordance with the Banking (Capital) Rules (“BCR”) and Banking (Liquidity) Rules (“BLR”), respectively.

These regulatory capital ratios represent the solo/combined ratio of the Company under section 3C(1) of the BCR. The Company uses the Basic Approach (“BSC”) in calculating the credit risk of its non-securitization exposures and the Basic Indicator Approach (“BIA”) in calculating its operational risk. The Company is exempted by the Hong Kong Monetary Authority (“HKMA”) from computing its market risk.

The Company is categorized as category 2 institution by the Hong Kong Monetary Authority (HKMA); thus, the following ratios does not apply: Liquidity Coverage Ratio (“LCR”), Net Stable Funding Ratio (“NSFR”), and Core Funding Ratio (“CFR”).

The regulatory capital, RWA’s, risk-based regulatory capital ratios, and additional buffer requirements are from the Return of Capital Adequacy Ratio submitted to the HKMA on a solo/ combined basis under section 3C(1) of the BCR.

The decrease in the total RWA from the previous quarter was mainly due to an increase in loan repayments hence reduced RWA. While the increase in the additional CET1 ratio available after meeting the AI’s minimum capital requirements was mainly due to the decrease in the total RWA and an increase in unaudited profit for the quarter.

The Basel III Leverage Ratio disclosures are from the Return of Leverage Ratio submitted to the HKMA under Part 1C of the BCR.

The decrease in the total leverage ratio exposure was mainly due to the decrease in bank balances which was due to customers’ withdrawn on time deposit when matured.

The liquidity condition of the Company is monitored daily by the Company’s Chief Executive. The balance between liquidity and profitability is carefully considered, but the former is given higher priority in case of conflicts in meeting targets or regulatory requirements.

The Company computes its Liquidity Maintenance Ratio (“LMR”) on Hong Kong office basis as required under rule 10(1)(a) of the BLR. The LMR is calculated based on the average value of the LMR for each calendar month, as reported in the Return of Liquidity Position submitted to the HKMA and the ratios presented above are the average quarterly LMR for the reporting period.

The decrease in the average LMR from the last quarter was mainly due to the increase in the average customer’s time deposit that falls within one month.

Notes:

Elements where a more conservative definition has been applied in the BCR relative to that set out in Basel III capital standards:

Row No.	<i>Description</i>	<i>Hong Kong basis (HK\$ '000)</i>	<i>Basel III basis (HK\$'000)</i>
10	Deferred tax assets net of deferred tax liabilities	3,513	3,513

Explanation

As set out in paragraphs 69 and 87 of the Basel III text issued by the Basel Committee (December 2010), DTAs that rely on future profitability of the bank to be realised are to be deducted, whereas DTAs which relate to temporary differences may be given limited recognition in CET1 capital (and hence be excluded from deduction from CET1 capital up to the specified threshold). In Hong Kong, an AI is required to deduct all DTAs in full, irrespective of their origin, from CET1 capital. Therefore, the amount to be deducted as reported in row 10 may be greater than that required under Basel III.

The amount reported under the column "Basel III basis" in this box represents the amount reported in row 10 (i.e., the amount reported under the "Hong Kong basis") adjusted by reducing the amount of DTAs to be deducted which relate to temporary differences to the extent not in excess of the 10% threshold set for DTAs arising from temporary differences and the aggregate 15% threshold set for MSRs, DTAs arising from temporary differences and significant investments in CET1 capital instruments issued by financial sector entities (excluding those that are loans, facilities and other credit exposures to connected companies) under Basel III.
