中国进出口银行董事长

In 2021, we celebrated the centenary of the Communist Party of China (CPC). As China has realized on schedule the first centenary goal of building a moderately prosperous society in all respects, we are embarking on a new journey toward the second centenary goal of building a modern socialist country in all respects. Under the strong leadership of the CPC Central Committee and the State Council and with the unfailing support and guidance of relevant authorities, we at the Bank followed the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, grounded our work in the new stage of development, applied the new development philosophy and fostered new development dynamics focusing on the main theme of high-quality development. We fulfilled our responsibilities as a policy bank to better serve the real economy, helped boost stability on six fronts and security in six key areas, dealt with various risks and challenges that had emerged, and achieved outstanding progress in performing our role and building the bank into a modernized financial institution. These achievements are the result of concerted efforts and tireless devotion of all our staff and they showcase our strong commitment to living up to the expectations of our clients and the general public.

We strengthened Party leadership, conducted extensive activities to promote CPC history learning and education and gave full support to the central disciplinary inspection work.

We kept to the right political direction, took the study of the CPC's history as a major political task throughout the year, and achieved good results in delivering services based on the needs of the people, accomplishing more than 800 tasks that had been listed. We integrated Party leadership into corporate governance, led Party members in acquiring a deep understanding of the decisive significance of the establishment of both Comrade Xi Jinping's core position on the Party Central Committee and in the Party as a whole and the guiding role of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, and in firmly upholding Comrade Xi Jinping's core position on the Party Central Committee and in the Party as a whole and uphold the Central Committee's authority and its centralized, unified leadership. We acted on the Party's organizational guideline in the new era and gave priority to political standards in selecting loyal, upright, responsible and high-caliber talents. We worked tirelessly to exercise full and rigorous self-discipline within the Party organization, improved work ethics and continued to tackle pointless formalities to ease the burdens on those working on the ground. We established and improved mechanisms to improve Party conduct, build integrity and prevent corruption. We readily committed ourselves, with a high sense of political responsibility, to oversight through disciplinary inspections, and acted upon the requirements to ensure that the inspections were carried out smoothly and practical results were achieved.

We kept in mind the country's most fundamental interests, focused on our main mission and earnestly fulfilled our responsibilities as a policy bank.

We supported high-quality Belt and Road cooperation and took concrete steps to ensure steady progress of such major projects as the China-Laos Railway and the Budapest-Belgrade Railway. We focused on the foreign trade sector, launched a number of foreign trade loan products, and offered more diverse and comprehensive means of support. We introduced pragmatic measures including product portfolio innovation and continued to increase credit supply in an effort to keep the industrial chain and supply chain stable. We enhanced quality and efficiency in serving carbon peaking and carbon neutrality goals by improving the institutional framework and supporting policies, and promoting the carbon emission reduction facility and the re-lending program in support of clean and efficient use of coal. We redoubled efforts to support micro and small businesses, launched foreign trade policy-based facilities for MSEs, and worked to lower down their financing cost. We set up a leading group for rural revitalization to consolidate the achievements made in the poverty alleviation campaign. We strengthened international exchanges and cooperation, cooperated with the New Development Bank to on-lend its special loan, advanced the green credit cooperation with the Asian Infrastructure Investment Bank, and secured the State Council's approval of China-ASEAN Investment Cooperation Fund II.

We furthered our efforts to overcome difficulties in forestalling and defusing risks, improved our risk control system and ushered in a major breakthrough in asset quality management.

We forged ahead with the disposal of non-performing assets and made a series of achievements in forestalling and defusing risks. We further improved comprehensive risk management system, set up customer monitoring and risk warning mechanisms, explored new ways to optimize group client management, introduced a joint meeting mechanism for large-sum credit client, adopted differentiated authorization in credit review and approval, and improved the institutional building and risk management of equity investment business. We integrated audit supervision with the implementation of national strategies and risk management, and tightened follow-up checks on loans with favourable policies and relief loans disbursed during the COVID-19 pandemic. We insisted on accountability for non-performing loans and held accountable those who were responsible.

We formulated the Bank's development plan during the 14th Five-Year Plan period, empowered ourselves with Fintech and consolidated capital base to cement the foundation for development. We drew up the Bank's development plan during the 14th Five-Year Plan period, which determined our strategy centering on five principles, five goals, five key areas, five business segments and five capabilities, setting down the overall requirements for and specific paths toward a policy bank that highlights Chinese characteristics and takes the lead in international practices. We put into operation a new IT system and better empowered ourselves with Fintech, which took us to the forefront among domestic financial institutions. We built up a new product system to serve both domestic and foreign markets, which provided the underlying support and enhanced the quality and efficiency of our financial services. We issued the first policy bank perpetual bond, explored the use of market-oriented approach to broaden capital replenishment channels and to optimize our capital structure, which enabled us to further improve capital adequacy ratio. We made overall planning of a talent pipeline for management positions and conducted talent management in a more strategic, scientific and coordinated manner.

I would like to express, on behalf of the Board of Directors, heartfelt thanks to all those who have given their best wishes and strong support to our Bank in its reform and development.

Bearing in mind our mission in face of challenges, we will continue to forge ahead with confidence and fortitude at this new historical start.

On the journey toward the second centenary goal, we at the Bank will fully act on the guiding principles set at the 19th National Congress of the CPC, the plenary sessions of the 19th Central Committee of the CPC and the Central Economic Work Conference, and make economic stability our top priority and pursue progress while ensuring stability. We will stay true to the mission of the Bank, stay focused on the requirements of the times and the tasks entrusted by the nation, play a bigger role in dealing with various difficulties, risks and challenges, and spare no effort in accomplishing reform and development tasks with great confidence and courage. Only by working hard can we set the stage for the 20th National Congress of the CPC with outstanding achievements.

中国进出口银行行长

In 2021, we at the Export-Import Bank of China followed the guidance of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era, fully implemented the major decisions made by the CPC Central Committee and the State Council, and scaled up the Bank's business in a steady manner. We spared no effort to streamline business structure, enhance performance and increase profitability, and deepened reforms on a continuing basis. All this has contributed to a good start of the Bank's overall performance during the 14th Five-Year Plan period. As of the end of 2021, the Bank's total on- and off-balance sheet assets exceeded RMB5.4 trillion, a year-on-year growth of more than 8%. Its balance of Renminbi and foreign currency loans amounted to nearly RMB4.7 trillion, a year-on-year increase of over 9.4%. The Bank's non-performing loan ratio stood at 1.58%, hitting a record low in the past five years. The Bank's international credit ratings remained the same as China's sovereign ratings.

We strived to meet China's development needs and achieved significant results in serving the real economy.

We targeted our efforts on fulfilling the Bank's mission, and put serving China's development strategies and the real economy top on our agenda. We mobilized financial resources to support key areas and weak links in China's economic and social development, benefiting tens of thousands of enterprises. We provided more credit supply to the foreign trade sector to enable the companies to secure orders, deliver goods, and maintain market shares. As of the end of 2021, the outstanding balance of the Bank's foreign trade loans saw a year-on-year growth of over 17%. We kept up with the trend of green and intelligence-driven manufacturing in the high-end market, strove to modernize industrial and supply chains, and provided support to the manufacturing sector with the focus on boosting leading enterprises, fostering chains and strengthening clusters. The outstanding balance of the Bank's loans to the manufacturing sector increased by 16.9% year on year. We also worked to facilitate Belt and Road cooperation by supporting a number of projects that could generate good economic returns to repay the principal and interest of loans. These projects brought tangible benefits to the local people and increased their confidence in jointly building the Belt and Road. The outstanding balance of the Bank's loans supporting Belt and Road cooperation grew by over 11% year on year.

We remained true to our original aspiration of serving the people and fulfilling our social responsibilities.

We made realizing people's aspirations for a better life the ultimate goal of our financial service, and performed our mission by shouldering our social responsibilities. We coordinated financial services in such sectors as pandemic prevention and control, flood control and disaster relief, energy supply, and introduced tailor-made financial solutions to help ensure the normal order of work and life. We expanded the coverage of our inclusive finance to make financing more accessible to micro and small businesses, and contributed to the accelerated nurturing of small and medium-sized enterprises featuring specialized production, refined management, customized service and innovative development. By the end of 2021, the outstanding balance of the Bank's inclusive loans provided to micro and small businesses grew by over 24% year on year, benefiting 160 thousand enterprises. We attached great importance to green finance, which can be seen in our continued efforts in supporting clean energy industries including photovoltaic and wind power, and in optimizing China's energy structure. The outstanding balance of the Bank's green credit saw a year-on-year increase of 15.4%. In addition, we consolidated the achievements in the poverty alleviation campaign and moved ahead to facilitate rural revitalization. We increased financial support, helped cultivate industries for rural development and mobilized more staff members to work on secondment in less developed areas, with the aim to promote common prosperity.

We guarded against potential dangers and made solid progress in forestalling and defusing risks.

We intensified efforts to fulfill our responsibilities in forestalling and defusing risks. By remaining mindful of potential dangers, we did our utmost to guard against risks. Existing risks were mitigated. We consolidated our achievements in risk prevention and control, stepped up efforts to mitigate risks in key projects and accelerated the disposal of large-scale non-performing assets. Incremental risks were controlled. We were better equipped to forestall risks and established the risk alert system to improve the effectiveness of major risk monitoring and strengthen risk prevention and control on overseas projects. Potential risks were prevented. We continued to foster the culture of compliance and carried out compliance inspections, thus bolstering our capacity for risk management and control and raising staff's awareness of not getting out of line.

We consolidated a stronger foundation for business development and enhanced management efficiency on a continuing basis.

We formulated the Bank's 14th Five-year Plan, which clarifies the Bank's new mandate and mission in the new era as required by the country and rolls out a blueprint for high-quality development of the Bank as a policy-based financial institution. We tapped into the potential of our business, improved liability management, and enhanced our capacity for providing comprehensive services. We fortified the Bank's financial management, strengthened management of and reform on lines of business, and solidified the foundation for sustainable development. We pressed ahead with institutional building and talent pooling as they are crucial to the Bank's reform and development. We integrated research resources to build the Bank's soft power and made it an indispensable part of our corporate image.

We empowered the Bank with science and technology and made new advances in Fintech development.

The brand new IT system, consisting of 203 subsystems, was put into operation. This system is a corporate-level and component-based one that is suited to the Bank's positioning and that can satisfy the needs of its business operation and internal management. A well-functioning business management subsystem and an efficient process subsystem were put in place to improve user experience and the Bank's services. The new IT system won the first prize in the 2020 Award for Fintech Development awarded by the People's Bank of China (PBC) and it marked a crucial step taken by the Bank toward digital transformation.

Outlook for 2022**We should steer ship firm in urging drumming and strike hard on rising waters when starting a new course.**

Nothing is more important than confidence and courage when we embark on a new journey. In 2022, we will rally more closely around the CPC Central Committee with Comrade Xi Jinping at its core, consolidate and expand our achievements in Party history learning and education, and give full play to our role as a policy bank. Through vigorous and determined efforts, we will stick to our mission and strive for innovation in an endeavor to bring the Bank's development to a whole new level in serving China's high-quality economic and social development and embrace the 20th National Congress of the CPC with impressive performance.

The Bank resolutely implemented policies and decisions made by the CPC Central Committee and the State Council, and took pragmatic measures to increase inclusive finance supply at a lower price and enhanced operation efficiency by empowering itself with Fintech. It leveraged its advantages as a policy bank to play a leading and demonstration role in supporting micro and small businesses and made solid progress in this field. The 2021 year-end outstanding balance of inclusive finance loans stood at RMB873.015 billion, up by RMB55.027 billion compared with that at the beginning of the year.

The Bank built a two-leg inclusive micro and small businesses financial service model based on onlending and direct lending. Using onlending as a major vehicle, the Bank

seized the time window when interbank market liquidity was tight to increase inclusive credit supply to micro and small enterprises. By the end of 2021, the Bank's outstanding balance of onlending loans for micro and small enterprises stood at RMB120.431 billion, up by 23.60% compared with that at the beginning of the year, serving more than 160,000 micro and small businesses (individual businesses included). To deliver tangible benefits to these businesses, the Bank closely watched the onlending loan interest rate to commercial banks and the interest rate at the end-users' side to make sure that the end rate was lower than the average rate of inclusive loans extended to micro and small businesses in the Chinese market. As for direct lending to micro and small enterprises, the Bank optimized operation and service with Fintech application, and developed direct lending products with its own characteristics. Thanks to that, only 3 bank staff were needed to perform a transaction of E-factoring, helping the Bank catch up with advanced peers in efficiency. The Bank focused on fulfilling its mission and played an active role to usher in and encourage commercial credit resources targeted to micro and small enterprises in key sectors. Through special onlending, it worked with the on-lenders to scale up allocation of credit resources to support high-quality development of foreign trade and manufacturing industry. The Bank introduced, in five major provinces and municipalities in foreign trade sector, special products for micro and small enterprises on foreign trade, such as risk sharing onlending loan, special E-factoring and special Bao Ying Dai. 天职业字[2022]15553号

中国进出口银行全体股东：

一、 审计意见

我们审计了中国进出口银行（以下简称“进出口行”）财务报表，包括2021年12月31日的合并及银行资产负债表，2021年度的合并及银行利润表、合并及银行现金流量表、合并及银行所有者权益变动表，以及相关财务报表附注。

我们认为，后附的财务报表在所有重大方面按照企业会计准则的规定编制，公允反映了进出口行2021年12月31日的合并及银行财务状况以及2021年度的合并及银行经营成果和现金流量。

二、 形成审计意见的基础

我们按照中国注册会计师审计准则的规定执行了审计工作。审计报告的“注册会计师对财务报表审计的责任”部分进一步阐述了我们在这些准则下的责任。按照中国注册会计师职业道德守则，我们独立于进出口行，并履行了职业道德方面的其他责任。我们相信，我们获取的审计证据是充分、适当的，为发表审计意见提供了基础。

三、 管理层和治理层对财务报表的责任

进出口行管理层负责按照企业会计准则的规定编制财务报表，使其实现公允反映，并设计、执行和维护必要的内部控制，以使财务报表不存在由于舞弊或错误导致的重大错报。

在编制财务报表时，管理层负责评估进出口行的持续经营能力，披露与持续经营相关的事项（如适用），并运用持续经营假设，除非管理层计划进行清算、终止营运或别无其他现实的选择。

治理层负责监督进出口行的财务报告过程。

四、 注册会计师对财务报表审计的责任

我们的目标是对财务报表整体是否不存在由于舞弊或错误导致的重大错报获取合理保证，并出具包含审计意见的审计报告。合理保证是高水平的保证，但并不能保证按照审计准则执行的审计在某一重大错报存在时总能发现。错报可能由于舞弊或错误导致，如果合理预期错报单独或汇总起来可能影响财务报表使用者依据财务报表作出的经济决策，则通常认为错报是重大的。

在按照审计准则执行审计工作的过程中，我们运用职业判断，并保持职业怀疑。同时，我们也执行以下工作：

(1) 识别和评估由于舞弊或错误导致的财务报表重大错报风险，设计和实施审计程序以应对这些风险，并获取充分、适当的审计证据，作为发表审计意见的基础。由于舞弊可能涉及串通、伪造、故意遗漏、虚假陈述或凌驾于内部控制之上，未能发现由于舞弊导致的重大错报的风险高于未能发现由于错误导致的重大错报的风险。

(2) 了解与审计相关的内部控制，以设计恰当的审计程序，但目的并非对内部控制的有效性发表意见。

(3) 评价管理层选用会计政策的恰当性和作出会计估计及相关披露的合理性。

(4) 对管理层使用持续经营假设的恰当性得出结论。同时，根据获取的审计证据，就可能对进出口行持续经营能力产生重大疑虑的事项或情况是否存在重大不确定性得出结论。如果我们得出结论认为存在重大不确定性，审计准则要求我们在审计报告中提请报表使用者注意财务报表中的相关披露；如果披露不充分，我们应当发表非无保留意见。我们的结论基于截至审计报告日可获得的信息。然而，未来的事项或情况可能导致进出口行不能持续经营。

(5) 评价财务报表的总体列报、结构和内容，并评价财务报表是否公允反映相关交易和事项。

(6) 就进出口行中实体或业务活动的财务信息获取充分、适当的审计证据，以对财务报表发表审计意见。我们负责指导、监督和执行集团审计，并对审计意见承担全部责任。

我们与治理层就计划的审计范围、时间安排和重大审计发现等事项进行沟通，包括沟通我们在审计中识别出的值得关注的内部控制缺陷。

Auditor's Report

English Translation for Reference Only
Baker Tilly China [2022] No. 15553

All shareholders of the Export-Import Bank of China:

I. Opinion

We have audited the financial statements of The Export-Import Bank of China (hereinafter "the Bank"), which comprise the consolidated and the Bank's balance sheets as at December 31, 2021, and the consolidated and the Bank's income statements, consolidated and the Bank's cash flow statements and consolidated and the Bank's statements of changes in owner's equity for the year then ended, and notes to the financial statements.

In our opinion, the accompanying financial statements present fairly, in all material respects, the consolidated and the Bank's financial positions as at December 31, 2021, and their financial performance and their cash flows for the year then ended in accordance with the requirements of Accounting Standards for Business Enterprises.

II. Basis for Opinion

We conducted our audit in accordance with China Standards on Auditing. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Bank and have fulfilled our other ethical responsibilities in accordance with the China Code of Ethics for Certified Public Accountants. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

III. Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management of the Bank is responsible for the preparation of the financial statements to achieve fair presentation in accordance with Accounting Standards for Business Enterprises, and for the design, implementation and maintenance of such internal control as management determine is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Bank's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intend to liquidate the Bank or to cease operations, or have no realistic alternative but to do so.

Those charged with governance are responsible for overseeing the Bank's financial reporting process.

IV. Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with auditing standards, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

(1) Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.

(2) Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the internal control.

(3) Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.

(4) Conclude on the appropriateness of the management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Bank's ability to continue as a going concern. If we conclude that a material uncertainty exists, the auditing standards require us to draw attention to users of the financial statements in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Bank to cease to continue as a going concern.

(5) Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

(6) Obtain sufficient appropriate audit evidence regarding the financial information of the entities or business activities within the Bank to express an opinion on the financial statements. We are responsible for the direction, supervision and performance of the group audit. We remain solely responsible for our audit opinion.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

This report, the accompanying financial statements and notes to the financial statements are English translation of the Chinese version of the Bank. This translation is not required by law or any regulation. This material was prepared solely for the information of management of the Bank. The accuracy or completeness of this translation is not guaranteed. In the event of any inconsistency between this English translation and the Chinese version, the Chinese version shall prevail.

财务报表附注

Notes to the Financial Statements

2021年度（除特别注明外，金额单位为人民币元）

For the Year Ended December 31, 2021 (all amounts in RMB unless otherwise stated)

一、财务报表的编制基础

本财务报表按照财政部颁布的企业会计准则及其应用指南、解释及其他有关规定（统称“企业会计准则”）编制。

本财务报表以持续经营为基础列报。

本行的会计核算以权责发生制为基础。

本行执行企业会计准则后，对以下事项仍执行特殊会计政策：

1、外国政府贷款转贷业务

外国政府贷款转贷是指财政部将其代表我国政府借入的国外优惠贷款委托本行再贷给国内债务人，并由本行负责贷款资金的提取和支付、本息和费用回收以及对外偿付等的活动。

按照不同的还款责任，本行的转贷款业务分为以下三类：

第一类项目：由省级财政部门或国务院有关部门作为借款人，并承担还款责任的项目；

第二类项目：由项目单位作为借款人并承担偿还责任，省级财政部门或国务院有关部门提供还款保证的项目；

第三类项目：由项目单位作为借款人并承担偿还责任，省级财政部门或国务院有关部门不提供还款保证的项目。此类项目由本行独立评审，自愿转贷，自担风险并作为对外最终还款人。

按照财政部财债字〔2000〕71号文件有关规定，第三类项目作为本行自营贷款按照权责发生制纳入表内核算；第一类、二类转贷属于代理业务，按照收付实现制原则在表外核算。第一、二类转贷款业务的损益按照对应科目每月逐项结转至本行利润表内，主要包括本行从事代理业务收取的手续费收入、转贷业务的利息收入、支出和转贷业务产生的汇兑损益。本行在资产负债表日按照结转的累计净收益或净亏损金额在其他资产项下的“转贷业务往来”或其他负债项下的“转贷业务往来”项目中予以反映。

2、一般准备金

本行的一般准备金，用于弥补未识别的可能性损失。具体计提比例或数额按照主管政府部门的政策要求确定。

3、退休福利义务

按照主管政府部门的政策要求，本行对退休等员工的福利义务采用收付实现制核算。

二、重要会计政策及会计估计

1、遵循企业会计准则的声明

本财务报表符合财政部颁布的企业会计准则的要求，真实、完整地反映了本行2021年12月31日的合并及银行财务状况以及2021年度的合并及银行经营成果和合并及银行现金流量等有关信息。

2、会计期间

本行会计期间采用公历年度，即每年自1月1日起至12月31日止。

3、记账本位币

本行（除巴黎分行）以人民币为记账本位币，巴黎分行以欧元为记账本位币。本行外币业务采用分账制核算。

4、合营安排的分类及共同经营的会计处理方法

合营安排，是指一项由两个或两个以上的参与方共同控制的安排。本行合营安排分为共同经营和合营企业。

(1) 共同经营

共同经营是指本行享有该安排相关资产且承担该安排相关负债的合营安排。

本行确认与共同经营中利益份额相关的下列项目，并按照相关企业会计准则的规定进行会计处理：

- ① 确认单独所持有的资产，以及按其份额确认共同持有的资产；
- ② 确认单独所承担的负债，以及按其份额确认共同承担的负债；
- ③ 确认出售其享有的共同经营产出份额所产生的收入；
- ④ 按其份额确认共同经营因出售产出所产生的收入；
- ⑤ 确认单独所发生的费用，以及按其份额确认共同经营发生的费用。

(2) 合营企业

合营企业是指本行仅对该安排的净资产享有权利的合营安排。

本行按照长期股权投资有关权益法核算的规定对合营企业的投资进行会计处理。

5、现金及现金等价物的确定标准

现金及现金等价物，是指本行持有的期限短、流动性强、易于转换为已知金额现金、价值变动风险很小的货币性资产，包括现金、存放中央银行的非限定性款项，原始到期日不超过三个月的存放同业及其他金融机构款项、拆出资金和买入返售金融资产款项。

6、外币折算

(1) 外币业务

本行收到投资者以外币投入资本时按当日即期汇率折合为人民币，其他外币交易在初始确认时按交易发生日的即期汇率或采用按照系统合理的方法确定的、与交易发生日即期汇率近似的汇率折算为记账本位币金额。

资产负债表日，对外币货币性项目，采用资产负债表日即期汇率折算成记账本位币，汇兑差额计入当期损益；对以历史成本计量的外币非货币性项目，采用交易发生日的即期汇率折算；以公允价值计量的外币非货币性项目，采用公允价值确定日的即期汇率折算，差额计入当期损益或其他综合收益。

(2) 外币财务报表的折算

本行在编制财务报表时，将外币财务报表折算为人民币。外币资产负债表中资产、负债类项目采用资产负债表日的即期汇率折算；所有者权益类项目除“未分配利润”外及“其他综合收益中的外币报表折算差额”项目外，其他项目采用发生时的即期汇率折算；利润表中的收入与费用项目，采用交易发生日的即期汇率折算。按照上述折算产生的外币报表折算差额，在所有者权益项目下的“其他综合收益”项下反映。外币现金流量采用现金流量交易发生日的即期汇率折算。汇率变动对现金的影响额，在现金流量表中单独列示。

7、金融工具

(1) 金融工具的确认和终止确认

本行于成为金融工具合同的一方时确认一项金融资产或金融负债。

以常规方式买卖金融资产，按交易日会计进行确认和终止确认。常规方式买卖金融资产，是指按照合同条款的约定，在法规或通行惯例规定的期限内收取或交付金融资产。交易日，是指本行承诺买入或卖出金融资产的日期。

满足下列条件的，终止确认金融资产（或金融资产的一部分，或一组类似金融资产的一部分），即从其账户和资产负债表内予以转销：

- ① 收取金融资产现金流量的权利届满；
- ② 转移了收取金融资产现金流量的权利，或在“过手协议”下承担了及时将收取的现金流量全额支付给第三方的义务；并且(a)实质上转让了金融资产所有权上几乎所有的风险和报酬，或(b)虽然实质上既没有转移也没有保留金融资产所有权上几乎所有的风险和报酬，但放弃了对该金融资产的控制。

(2) 金融资产分类和计量

本行的金融资产于初始确认时根据本行管理金融资产的业务模式和金融资产的合同现金流量特征分类为：以摊余成本计量的金融资产、以公允价值计量且其变动计入其他综合收益的金融资产以及以公允价值计量且其变动计入当期损益的金融资产。金融资产的后续计量取决于其分类。

本行对金融资产的分类，依据本行管理金融资产的业务模式和金融资产的现金流量特征进行分类。

A、以摊余成本计量的金融资产

金融资产同时符合下列条件的，分类为以摊余成本计量的金融资产：本行管理该金融资产的业务模式是以收取合同现金流量为目标；该金融资产的合同条款规定，在特定日期产生的现金流量，仅为对本金和以未偿付本金金额为基础的利息的支付。对于此类金融资产，采用实际利率法，按照摊余成本进行后续计量，其摊销或减值产生的利得或损失，均计入当期损益。

B、以公允价值计量且其变动计入其他综合收益的债务工具投资

金融资产同时符合下列条件的，分类为以公允价值计量且其变动计入其他综合收益的金融资产：本行管理该金融资产的业务模式是既以收取合同现金流量为目标又以出售金融资产为目标；该金融资产的合同条款规定，在特定日期产生的现金流量，仅为对本金和以未偿付本金金额为基础的利息的支付。对于此类金融资产，采用公允价值进行后续计量。其折价或溢价采用实际利率法进行摊销并确认为利息收入或费用。除减值损失及外币货币性金融资产的汇兑差额确认为当期损益外，此类金融资产的公允价值变动作为其他综合收益确认，直到该金融资产终止确认时，其累计利得或损失转入当期损益。与此类金融资产相关利息收入，计入当期损益。

C、以公允价值计量且其变动计入其他综合收益的权益工具投资

本行不可撤销地选择将部分非交易性权益工具投资指定为以公允价值计量且其变动计入其他综合收益的金融资产，仅将相关股利收入计入当期损益，公允价值变动作为其他综合收益确认，直到该金融资产终止确认时，其累计利得或损失转入留存收益。

D、以公允价值计量且其变动计入当期损益的金融资产

上述以摊余成本计量的金融资产和以公允价值计量且其变动计入其他综合收益的金融资产之外的金融资产，分类为以公允价值计量且其变动计入当期损益的金融资产。在初始确认时，为了能够消除或显著减少会计错配，可以将金融资产指定为以公允价值计量且其变动计入当期损益的金融资产。对于此类金融资产，采用公允价值进行后续计量，所有公允价值变动计入当期损益。

当且仅当本行改变管理金融资产的业务模式时，才对所有受影响的相关金融资产进行重分类。

对于以公允价值计量且其变动计入当期损益的金融资产，相关交易费用直接计入当期损益，其他类别的金融资产相关交易费用计入其初始确认金额。

(3) 金融负债／权益工具的确认及金融负债分类和计量

本行的金融负债于初始确认时分类为：以摊余成本计量的金融负债与以公允价值计量且其变动计入当期损益的金融负债。

符合以下条件之一的金融负债可在初始计量时指定为以公允价值计量且其变动计入当期损益的金融负债：(1)该项指定能够消除或显著减少会计错配；(2)根据正式书面文件载明的本行风险管理或投资策略，以公允价值为基础对金融负债组合或金融资产和金融负债组合进行管理和业绩评价，并在银行内部以此为基础向关键管理人员报告；(3)该金融负债包含需单独分拆的嵌入衍生工具。

本行在初始确认时确定金融负债的分类。对于以公允价值计量且其变动计入当期损益的金融负债，相关交易费用直接计入当期损益，其他金融负债的相关交易费用计入其初始确认金额。

金融负债的后续计量取决于其分类：

A、以公允价值计量且其变动计入当期损益的金融负债

以公允价值计量且其变动计入当期损益的金融负债，包括交易性金融负债（含属于金融负债的衍生工具）和初始确认时指定为以公允价值计量且其变动计入当期损益的金融负债。

B、以摊余成本计量的金融负债

对于此类金融负债，采用实际利率法，按照摊余成本进行后续计量。

(4) 衍生金融工具及嵌入衍生工具

本行衍生金融工具包括远期外汇合约、货币汇率互换合同、利率互换合同及外汇期权合同等，初始以衍生交易合同签订当日的公允价值进行计量，并以其公允价值进行后续计量。衍生金融工具的公允价值采用活跃市场报价（包括近期市场交易价格）或使用估值方法（包括现金流量贴现模型和期权定价模型等）确定。公允价值为正数的衍生金融工具确认为一项资产，公允价值为负数的确认为一项负债。某些衍生金融工具交易虽然在本行的风险管理策略下，用于对特定的利率和汇率风险提供有效的经济套期，但由于其不满足《企业会计准则第24号》对适用套期会计处理的具体规则，因此，本行将这些衍生金融工具按照以交易目的持有的衍生金融工具处理，其公允价值的变动计入“公允价值变动收益／（损失）”。

(5) 金融资产减值

本行对于以摊余成本计量的金融资产、以公允价值计量且其变动计入其他综合收益的债务工具投资和财务担保合同等，以预期信用损失为基础确认损失准备。信用损失，是指本行按照原实际利率折现的、根据合同应收的所有合同现金流量与预期收取的所有现金流量之间的差额，即全部现金短缺的现值。

本行考虑所有合理且有依据的信息，包括前瞻性信息，以单项或组合的方式对以摊余成本计量的金融资产和以公允价值计量且其变动计入其他综合收益的金融资产（债务工具）的预期信用损失进行估计。

A、预期信用损失一般模型

如果该金融工具的信用风险自初始确认后已显著增加，本行按照相当于该金融工具整个存续期内预期信用损失的金额计量其损失准备；如果该金融工具的信用风险自初始确认后并未显著增加，本行按照相当于该金融工具未来12个月内预期信用损失的金额计量其损失准备。由此形成的损失准备的增加或转回金额，作为减值损失或利得计入当期损益。

通常逾期超过30日，本行即认为该金融工具的信用风险已显著增加，除非有确凿证据证明该金融工具的信用风险自初始确认后并未显著增加。

具体来说，本行将购买或源生时未发生信用减值的金融工具发生信用减值的过程分为三个阶段，对于不同阶段的金融工具的减值有不同的会计处理方法：

第一阶段：信用风险自初始确认后未显著增加

对于处于该阶段的金融工具，应当按照未来12个月的预期信用损失计量损失准备，并按其账面余额（即未扣除减值准备）和实际利率计算利息收入（若该工具为金融资产，下同）。

第二阶段：信用风险自初始确认后已显著增加但尚未发生信用减值

对于处于该阶段的金融工具，应当按照该工具整个存续期的预期信用损失计量损失准备，并按其账面余额和实际利率计算利息收入。

第三阶段：初始确认后发生信用减值

对于处于该阶段的金融工具，应当按照该工具整个存续期的预期信用损失计量损失准备，但对利息收入的计算不同于处于前两阶段的金融资产。对于已发生信用减值的金融资产，应当按其摊余成本（账面余额减已计提减值准备，也即账面价值）和实际利率计算利息收入。

对于购买或源生时已发生信用减值的金融资产，应当仅将初始确认后整个存续期内预期信用损失的变动确认为损失准备，并按其摊余成本和经信用调整的实际利率计算利息收入。

B、本行对在资产负债表日具有较低信用风险的金融工具，选择不与其初始确认时的信用风险进行比较，而直接做出该工具的信用风险自初始确认后未显著增加的假定。

如果银行确定金融工具的违约风险较低，借款人在短期内履行其支付合同现金流量义务的能力很强，并且即使较长时期内经济形势和经营环境存在不利变化，也不一定会降低借款人履行其支付合同现金流量义务的能力，那么该金融工具可被视为具有较低的信用风险。

C、应收款项及租赁应收款

本行对于《企业会计准则第14号——收入》所规定的、不含重大融资成分（包括根据该准则不考虑不超过一年的合同中融资成分的情况）的应收款项，采用预期信用损失的简化模型，始终按照整个存续期内预期信用损失的金额计量其损失准备。

本行对包含重大融资成分的应收款项和《企业会计准则第21号——租赁》规范的租赁应收款，本行作出会计政策选择，选择采用预期信用损失的简化模型，即按照相当于整个存续期内预期信用损失的金额计量损失准备。

(6) 金融资产转移

本行已将金融资产所有权上几乎所有的风险和报酬转移给转入方的，终止确认该金融资产；保留了金融资产所有权上几乎所有的风险和报酬的，不终止确认该金融资产。

本行既没有转移也没有保留金融资产所有权上几乎所有的风险和报酬的，分别下列情况处理：放弃了对该金融资产控制的，终止确认该金融资产并确认产生的资产和负债；未放弃对该金融资产控制的，按照其继续涉入所转移金融资产的程度确认有关金融资产，并相应确认有关负债。

通过对所转移金融资产提供财务担保方式继续涉入的，按照金融资产的账面价值和财务担保金额两者之中的较低者，确认继续涉入形成的资产。财务担保金额，是指所收到的对价中，将被要求偿还的最高金额。

(7) 金融资产和金融负债的抵销

同时满足下列条件的，金融资产和金融负债以相互抵销后的净额在资产负债表内列示：具有抵销已确认金额的法定权利，且该种法定权利是当前可执行的；计划以净额结算，或同时变现该金融资产和清偿该金融负债。

(8) 核销

当本行已经进行了所有必要的法律或其他程序后，贷款仍然不可收回时，根据财政部规定，本行将决定核销贷款及冲销相应的损失准备。如在期后本行收回已核销的贷款，则收回金额冲减减值损失，计入当期损益。

8、公允价值计量

公允价值是指市场参与者在计量日发生的有序交易中，出售一项资产所能收到或者转移一项负债所需支付的价格。

金融工具应按公允价值计量。本行对存在活跃市场的债券投资等金融工具（不含衍生金融产品），一般直接参考活跃市场中的报价，活跃市场中的报价是指易于定期从交易所、经纪商、行业协会、定价服务机构等获得的，且代表了在公平交易中实际发生的市场交易价格。对不存在活跃市场报价的债券投资等金融工具以及衍生金融产品，采用估值方式确定其公允价值。所采用的估值技术包括参考熟悉情况并自愿交易的各方最近进行的市场交易使用的价格、参照实质上相同的其他金融工具的当前公允价值、现金流量折现法和期权定价模型。本行选择市场参与者普遍认同，且被以往市场交易价格验证具有可靠性的估值技术。本行定期评估估值技术，并测试其有效性。

9、买入返售和卖出回购交易

买入返售交易为根据返售协议向交易对手购入证券并在未来某一日期以约定的价格返售相同证券；卖出回购交易为根据回购协议向交易对手卖出证券并在未来某一日期以约定的价格回购相同证券。

买入返售和卖出回购金融资产款按业务发生时实际支付或收到的款项入账并在资产负债表反映。买入返售的已购入标的资产不予以确认，在表外作备查登记；卖出回购的标的资产仍在资产负债表内反映。

买入返售协议中所赚取之利息收入及卖出回购协议须支付之利息支出在协议期间按实际利率法确认为利息收入及利息支出。

10、长期股权投资

长期股权投资包括对子公司、合营企业和联营企业的权益性投资。本行能够对被投资单位施加重大影响的，为本行的联营企业。

(1) 初始投资成本确定

对于企业合并形成的长期股权投资：同一控制下企业合并取得的长期股权投资，在合并日按照取得被合并方所有者权益在最终控制方合并财务报表中的账面价值份额作为投资成本；非同一控制下企业合并取得的长期股权投资，按照合并成本作为长期股权投资的投资成本。

对于其他方式取得的长期股权投资：支付现金取得的长期股权投资，按照实际支付的购买价款作为初始投资成本；发行权益性证券取得的长期股权投资，以发行权益性证券的公允价值作为初始投资成本。

(2) 后续计量及损益确认方法

对子公司的投资采用成本法核算，除非投资符合持有待售的条件；对联营企业和合营企业的投资采用权益法核算。

采用成本法核算的长期股权投资，除取得投资时实际支付的价款或对价中包含的已宣告但尚未发放的现金股利或利润外，被投资单位宣告分派的现金股利或利润，确认为投资收益计入当期损益。

采用权益法核算的长期股权投资，初始投资成本大于投资时应享有被投资单位可辨认净资产公允价值份额的，不调整长期股权投资的投资成本；初始投资成本小于投资时应享有被投资单位可辨认净资产公允价值份额的，对长期股权投资的账面价值进行调整，差额计入投资当期的损益。

采用权益法核算时，按照应享有或应分担的被投资单位实现的净损益和其他综合收益的份额，分别确认投资收益和其他综合收益，同时调整长期股权投资的账面价值；按照被投资单位宣告分派的利润或现金股利计算应享有的部分，相应减少长期股权投资的账面价值；被投资单位除净损益、其他综合收益和利润分配以外所有者权益的其他变动，调整长期股权投资的账面价值并计入所有者权益。在确认应享有被投资单位净损益的份额时，以取得投资时被投资单位各项可辨认资产等的公允价值为基础，并按照本行的会计政策及会计期间，对被投资单位的净利润进行调整后确认。

(3) 减值测试方法及减值准备计提方法

对子公司、联营企业及合营企业的投资，计提资产减值准备的方法见附注二、18。

11、投资性房地产

投资性房地产是指为赚取租金或资本增值，或两者兼有而持有的房地产。本行投资性房地产包括已出租的土地使用权、持有并准备增值后转让的土地使用权、已出租的建筑物。

本行投资性房地产按照取得时的成本进行初始计量，并按照固定资产或无形资产的有关规定，按期计提折旧或摊销。

投资性房地产出售、转让、报废或毁损的处置收入扣除其账面价值和相关税费后的差额计入当期损益。

12、固定资产

(1) 固定资产的确认条件

本行固定资产是指本行为开展业务而持有的使用寿命超过一个会计年度、单位价值较大的有形资产。

固定资产包括房屋及建筑物、机器设备、运输工具和其他，按其取得时的成本作为入账的价值，其中，外购的固定资产成本包括买价和进口关税等相关税费，以及为使固定资产达到预定可使用状态前所发生的可直接归属于该资产的其他支出；自行建造固定资产的成本，由建造该项资产达到预定可使用状态前所发生的必要支出构成；投资者投入的固定资产，按投资合同或协议约定的价值作为入账价值，但合同或协议约定价值不公允的按公允价值入账；融资租赁租入的固定资产，按租赁开始日租赁资产公允价值与最低租赁付款额现值两者中较低者作为入账价值。

与固定资产有关的后续支出，包括修理支出、更新改造支出等，符合固定资产确认条件的，计入固定资产成本，对于被替换的部分，终止确认其账面价值；不符合固定资产确认条件的，于发生时计入当期损益。

(2) 各类固定资产的折旧方法

除已提足折旧仍继续使用的固定资产和单独计价入账的土地外，本行对所有固定资产计提折旧。计提折旧时采用直线法，并根据用途分别计入当期费用。本行主要固定资产的分类折旧年限、预计净残值率、折旧率如下：

类别	使用年限(年)	残值率(%)	年折旧率(%)
房屋及建筑物	30-35	3	2.77-3.23
机器设备	3-5	3	19.40-32.33
运输工具	6	3	16.17
其他设备	5	3	19.40

(3) 固定资产的减值测试方法、减值准备计提方法见附注二、18。

(4) 每年年度终了，本行对固定资产的预计使用寿命、预计净残值和折旧方法进行复核，如发生改变，则作为会计估计变更处理。

当固定资产被处置、或者预期通过使用或处置不能产生经济利益时，终止确认该固定资产。固定资产出售、转让、报废或毁损的处置收入扣除其账面价值和相关税费后的金额计入当期损益。

13、在建工程

本行在建工程成本按实际工程支出确定，包括在建期间发生的各项必要工程支出、工程达到预定可使用状态前的应予资本化的借款费用以及其他相关费用等。

在建工程在达到预定可使用状态时转入固定资产。

在建工程计提资产减值方法见附注二、18。

14、无形资产

本行无形资产包括土地使用权、软件等。

无形资产按照成本进行初始计量，并于取得无形资产时分析判断其使用寿命。使用寿命为有限的，自无形资产可供使用时起，采用能反映与该资产有关的经济利益的预期实现方式的摊销方法，在预计使用年限内摊销；无法可靠确定预期实现方式的，采用直线法摊销；使用寿命不确定的无形资产，不作摊销。

使用寿命有限的无形资产摊销方法如下：

类别	使用寿命(年)	摊销方法
土地使用权	37.75-40	直线摊销法
软件	3-10	直线摊销法

无形资产计提资产减值方法见附注二、18。

15、研究开发支出

本行将内部研究开发项目的支出，区分为研究阶段支出和开发阶段支出。

研究阶段的支出，于发生时计入当期损益。

开发阶段的支出，同时满足下列条件的，才能予以资本化，即：完成该无形资产以使其能够使用或出售在技术上具有可行性；具有完成该无形资产并使用或出售的意图；无形资产产生经济利益的方式，包括能够证明运用该无形资产生产的产品存在市场或无形资产自身存在市场，无形资产将在内部使用的，能够证明其有用性；有足够的技术、财务资源和其他资源支持，以完成该无形资产的开发，并有能力使用或出售该无形资产；归属于该无形资产开发阶段的支出能够可靠地计量。不满足上述条件的开发支出计入当期损益。

本行研究开发项目在满足上述条件，通过技术可行性及经济可行性研究，形成项目立项后，进入开发阶段。

已资本化的开发阶段的支出在资产负债表上列示为开发支出，自该项目达到预定可使用状态之日转为无形资产。

16、抵债资产

在收回已减值贷款和垫款时，本行可通过法律程序收回抵押品的所有权或由借款人自愿交付所有权。如果本行有意按规定进行变现并且不再要求借款人偿还贷款，抵押资产在“抵债资产”中列报。

当本行以抵债资产作为补偿发放贷款和垫款及应收利息的损失时，金融类抵债资产以公允价值入账，对于取得抵债资产应支付的相关税费、垫付诉讼费用和为取得抵债资产所支付的欠缴税费等相关交易费用，根据金融资产的类别，分别计入当期损益或初始入账价值。非金融类抵债资产初始确认按照放弃债权的公允价值作为成本入账，取得抵债资产应支付的相关税费、垫付诉讼费用和为取得抵债资产支付的欠缴税费等相关交易费用，计入抵债资产入账价值。

本行处置抵债资产时，如果取得的处置收入大于抵债资产账面价值，其差额计入营业外收入；如果取得的处置收入小于抵债资产账面价值，其差额计入营业外支出；处置过程中发生的费用从处置收入中抵减。

抵债资产计提资产减值方法见附注二、18。

17、长期待摊费用

本行发生的长期待摊费用按实际成本计价，并按预计受益期限平均摊销。对不能使以后会计期间受益的长期待摊费用项目，其摊余价值全部计入当期损益。

18、其他资产减值

对子公司、联营企业和合营企业的长期股权投资、抵债资产、采用成本模式进行后续计量的投资性房地产、固定资产、在建工程、无形资产的资产减值，按以下方法确定：

于资产负债表日判断资产是否存在可能发生减值的迹象，存在减值迹象的，本行将估计其可收回金额，进行减值测试。

可收回金额根据资产的公允价值减去处置费用后的净额与资产预计未来现金流量的现值两者之间较高者确定。本行以单项资产为基础估计其可收回金额；难以对单项资产的可收回金额进行估计的，以该资产所属的资产组为基础确定资产组的可收回金额。资产组的认定，以资产组产生的主要现金流入是否独立于其他资产或者资产组的现金流入为依据。

当资产或资产组的可收回金额低于其账面价值时，本行将其账面价值减记至可收回金额，减记的金额计入当期损益，同时计提相应的资产减值准备。

资产减值损失一经确认，在以后会计期间不再转回。

19、预计负债

如果与或有事项相关的义务同时符合以下条件，本行将其确认为预计负债：

- (1) 该义务是本行承担的现时义务；
- (2) 该义务的履行很可能导致经济利益流出本行；
- (3) 该义务的金额能够可靠地计量。

对表外开出信用证、开出保函的责任余额比照表内类似金融资产是否存在减值的客观证据进行组合评估的方法计提表外信贷风险准备，确认为预计负债。

预计负债按照履行相关现时义务所需支出的最佳估计数进行初始计量，并综合考虑与或有事项有关的风险、不确定性和货币时间价值等因素。货币时间价值影响重大的，通过对相关未来现金流出进行折现后确定最佳估计数。本行于资产负债表日对预计负债的账面价值进行复核，并对账面价值进行调整以反映当前最佳估计数。

本行对保函、信用证等表外业务参照贷款减值政策确认预计负债。

20、收入

在相关的经济利益能够流入及收入的金额能够可靠地计量时，本行确认收入。

(1) 利息收入

按照实际利率法确认相应利息收入。实际利率法是一种计算某项金融资产或金融负债的摊余成本以及在相关期间分摊利息收入或利息支出的方法。实际利率是将金融资产和金融负债在预计期限内的未来现金流量折现为该金融资产或金融负债账面净值所使用的利率。本行在预计未来现金流量时会考虑金融工具的所有合同条款，但不会考虑未来的信用损失，计算中包括所有归属于实际利率组成部分的所有交易费用和溢折价。

金融资产发生减值后，利息收入应当按照确定减值损失时对未来现金流量进行折现采用的折现率作为利率计算确认。

(2) 手续费及佣金收入

手续费及佣金收入通常在提供相关服务时按权责发生制原则确认。

与可能发放的贷款相关的贷款承诺费（及其相关直接费用）被递延确认并作为对贷款实际利率的调整。当银团贷款安排已完成，且本行自身未保留任何贷款，或只按与其他银团成员相同的实际利率保留部分贷款时，银团贷款手续费确认为收入。

本行独立或参与为第三方提供企业兼并及转让服务、证券发行业务所产生的手续费收入，在交易完成时确认。资产管理及其他管理咨询、服务费及财务担保费基于服务合同约定，通常分期按比例确认。

(3) 汇兑损益

汇兑损益主要是本行保留的外汇敞口随市场汇率波动而形成的汇兑差额。

21、支出确认原则

利息支出采用实际利率法确认在利润表。

其他支出按权责发生制原则确认。

22、所得税

所得税包括当期所得税和递延所得税。除由于企业合并产生的调整商誉，或与直接计入所有者权益的交易或者事项相关的递延所得税计入所有者权益外，均作为所得税费用计入当期损益。

本行根据资产、负债于资产负债表日的账面价值与计税基础之间的暂时性差异，以及未作为资产和负债确认的项目，按照税法规定可以确定其计税基础的项目的账面价值与计税基础之间的暂时性差异，采用资产负债表债务法确认递延所得税。

各项应纳税暂时性差异均确认相关的递延所得税负债，除非该应纳税暂时性差异是在以下交易中产生的：

- (1) 商誉的初始确认，或者具有以下特征的交易中产生的资产或负债的初始确认：该交易不是企业合并，并且交易发生时既不影响会计利润也不影响应纳税所得额；
- (2) 对于与子公司、合营企业及联营企业投资相关的应纳税暂时性差异，该暂时性差异转回的时间能够控制并且该暂时性差异在可预见的未来很可能不会转回。

对于可抵扣暂时性差异、能够结转以后年度的可抵扣亏损和税款抵减，本行以很可能取得用来抵扣可抵扣暂时性差异、可抵扣亏损和税款抵减的未来应纳税所得额为限，确认由此产生的递延所得税资产，除非该可抵扣暂时性差异是在以下交易中产生的：

- (1) 该交易不是企业合并，并且交易发生时既不影响会计利润也不影响应纳税所得额或可抵扣亏损；
- (2) 对于与子公司、合营企业及联营企业投资相关的可抵扣暂时性差异，同时满足下列条件的，确认相应的递延所得税资产：暂时性差异在可预见的未来很可能转回，且未来很可能获得用来抵扣可抵扣暂时性差异的应纳税所得额。

于资产负债表日，本行对递延所得税资产和递延所得税负债，按照预期收回该资产或清偿该负债期间的适用税率计量，并反映资产负债表日预期收回资产或清偿负债方式的所得税影响。

于资产负债表日，本行对递延所得税资产的账面价值进行复核。如果未来期间很可能无法获得足够的应纳税所得额用以抵扣递延所得税资产的利益，减记递延所得税资产的账面价值。在很可能获得足够的应纳税所得额时，减记的金额予以转回。

23、租赁

(1) 本行作为出租人

融资租赁中，在租赁开始日本行按最低租赁收款额与初始直接费用之和作为应收融资租赁款的入账价值，同时记录未担保余值；将最低租赁收款额、初始直接费用及未担保余值之和与其现值之和的差额确认为未实现融资收益。未实现融资收益在租赁期内各个期间采用实际利率法计算确认当期的融资收入。

经营租赁中的租金，本行在租赁期内各个期间按照直线法确认当期损益。发生的初始直接费用，计入当期损益。

(2) 本行作为承租人

在租赁期开始日，本行对租赁确认使用权资产和租赁负债。使用权资产按照成本进行初始计量，包括租赁负债的初始计量金额、在租赁期开始日或之前支付的租赁付款额（扣除已享受的租赁激励相关金额），发生的初始直接费用以及为拆卸及移除租赁资产、复原租赁资产所在场地或将租赁资产恢复至租赁条款约定状态预计将发生的成本。

本行使用直线法对使用权资产计提折旧。对能够合理确定租赁期届满时取得租赁资产所有权的，本行在租赁资产剩余使用寿命内计提折旧。否则，租赁资产在租赁期与租赁资产剩余使用寿命两者孰短的期间内计提折旧。

租赁负债按照租赁期开始日尚未支付的租赁付款额的现值进行初始计量，本行采用其类似经济环境下获得与使用权资产价值接近的资产，与类似期间以类似抵押条件借入资金而必须支付的利率作为增量借款利率。

本行按照固定的周期性利率计算租赁负债在租赁期内各期间的利息费用，并计入当期损益或相关资产成本。未纳入租赁负债计量的可变租赁付款额在实际发生时计入当期损益或相关资产成本。

租赁期开始日后，发生下列情形的，本行按照变动后租赁付款额的现值重新计量租赁负债：

- 根据担保余值预计的应付金额发生变动；
- 用于确定租赁付款额的指数或比率发生变动；
- 本行对购买选择权、续租选择权或终止租赁选择权的评估结果发生变化，或续租选择权或终止租赁选择权的实际行使情况与原评估结果不一致。

在对租赁负债进行重新计量时，本行相应调整使用权资产的账面价值。使用权资产的账面价值已调减至零，但租赁负债仍需进一步调减的，本行将剩余金额计入当期损益。

本行已选择对短期租赁（租赁期不超过12个月的租赁）和低价值资产租赁不确认使用权资产和租赁负债，并将相关的租赁付款额在租赁期内各个期间按照直线法计入当期损益或相关资产成本。

24、职工薪酬

职工薪酬是本行为获得员工提供的服务而给予的各种形式报酬以及其他相关支出。本行员工提供服务的会计期间，将应付的职工薪酬确认为负债，并相应增加资产成本或当期费用。

注：2021年度合并口径实际计提的工资、奖金及补贴金额为1,670,470,904.46元。

(1) 员工社会保障

根据相关政策规定，本行执行事业单位福利政策。总行在职员工参加了失业保险和工伤保险计划。部分分行按照当地相关社会福利政策的要求参加当地社会保障计划。各项社会保险支出于实际发生时计入当期损益。

(2) 员工退休福利

按照主管政府部门的要求，本行为离退休员工支付的退休金及福利，于实际发生时计入当期损益。

(3) 住房公积金及住房补贴

根据相关政策规定，本行在职员工均按当地政府规定参加当地住房公积金计划。本行每月按照员工工资总额的一定比例缴纳住房公积金，支付的款项在发生时计入当期损益。

本行向符合国家相关规定的员工支付住房补贴，住房补贴在实际支付时计入当期损益。

25、受托业务

本行在受托业务中担任客户的托管人、受托人或代理入。本行的资产负债表不包括本行因受托业务而持有的资产以及有关向客户交还该资产的承诺，该资产的风险和收益由客户承担。

委托贷款是指委托人提供资金（委托存款），由本行根据委托人确定的贷款对象、用途、金额、期限、利率等要求而代理发放、监督使用并协助收回的贷款，其风险由委托人承担。本行只收取手续费，并不在资产负债表上反映委托贷款，也不计提贷款减值准备。

26、企业合并的会计处理方法

对于非同一控制下的企业合并，合并成本为购买日为取得对被购买方的控制权而付出的资产、发生或承担的负债以及发行的权益性证券的公允价值。在购买日，取得的被购买方的资产、负债及或有负债按公允价值确认。

对合并成本大于合并中取得的被购买方可辨认净资产公允价值份额的差额，确认为商誉，商誉按成本扣除累计减值准备进行后续计量；对合并成本小于合并中取得的被购买方可辨认净资产公允价值份额的差额，经复核后计入当期损益。

27、合并财务报表编制方法

(1) 合并范围

合并财务报表的合并范围以控制为基础予以确定。控制，是指本行拥有对被投资单位的权力，通过参与被投资单位的相关活动而享有可变回报，并且有能力运用对被投资单位的权力影响其回报金额。子公司，是指被本行控制的主体（含企业、被投资单位中可分割的部分、结构化主体等）。

(2) 合并财务报表的编制方法

合并财务报表以本行和子公司的财务报表为基础，根据其他有关资料，由本行编制。在编制合并财务报表时，本行和子公司的会计政策和会计期间要求保持一致，公司间的交易、往来余额和未实现利润予以抵销。

在报告期内因同一控制下企业合并增加的子公司以及业务，应当调整合并资产负债表的期初数，将该子公司以及业务合并当期期初至报告期末的收入、费用、利润、现金流量纳入合并利润表和现金流量表，视同合并后的报告主体自最终控制方开始控制时点起一直存在。

因非同一控制下企业合并增加的子公司以及业务，不调整合并资产负债表的期初数，将该子公司以及业务自购买日至报告期末的收入、费用、利润纳入合并利润表，将其现金流量纳入合并现金流量表。

子公司的股东权益中不属于本行所拥有的部分，作为少数股东权益在合并资产负债表中股东权益项下单独列示；子公司当期净损益中属于少数股东权益的份额，在合并利润表中净利润项目下以“少数股东损益”项目列示。少数股东分担的子公司的当期亏损超过了少数股东在该子公司期初所有者权益中所享有的份额，其余额仍冲减少数股东权益。

因购买少数股权新取得的长期股权投资成本与按照新增持股比例计算应享有子公司自购买日或合并日开始持续计算的净资产份额之间的差额，以及在不丧失控制权的情况下因部分处置对子公司的股权投资而取得的处置价款与处置长期股权投资相对应享有子公司自购买日或合并日开始持续计算的净资产份额之间的差额，均调整合并资产负债表中的资本公积，资本公积不足冲减的，调整留存收益。

(3) 丧失子公司控制权的处理

因处置部分股权投资或其他原因丧失了对原有子公司控制权的，剩余股权按照其在丧失控制权日的公允价值进行重新计量；处置股权取得的对价与剩余股权公允价值之和，减去按原持股比例计算应享有原子公司自购买日开始持续计算的净资产的份额之间的差额，计入丧失控制权当期的投资收益，同时冲减商誉。

与原有子公司的股权投资相关的其他综合收益等，应当在丧失控制权时转入当期损益，由于被投资方重新计量设定收益计划净负债或净资产变动而产生的其他综合收益除外。

28、重大会计判断和估计

本行根据历史经验和其他因素，包括对未来事项的合理预期，对所采用的重要会计估计和关键假设进行持续的评价。很可能导致下一会计年度资产和负债的账面价值出现重大调整风险的重要会计估计和关键假设列示如下，当未来的实际结果可能与下述会计估计和判断存在重大差异时，本行将根据实际情况做出合理的判断及调整。

(1) 预期信用损失的计量

对于以摊余成本计量和以公允价值计量且其变动计入其他综合收益的债务工具投资，以及贷款承诺及财务担保合同，其预期信用损失的计量中使用了复杂的模型和大量的假设。这些模型和假设涉及未来的宏观经济情况和客户的信用行为（例如，客户违约的可能性及相应损失）。

(2) 金融工具公允价值

对有活跃交易市场的金融工具，本行通过向市场询价确定其公允价值；对没有活跃交易市场的金融工具，本行使用估值技术确定其公允价值。这些估价技术包括使用近期公平市场交易价格，可观察到的类似金融工具价格，使用风险调整后的折现现金流量分析，以及普遍使用的市场定价模型。本行对衍生及其它金融工具公允价值的估值模型使用可观察的市场数据，例如：利率收益率曲线和外汇汇率。使用估值技术计算出的公允价值会根据行业惯例，以及当期可观察到的市场交易中相同或类似金融工具的价格进行验证。

本行根据业务发展和风险管理政策要求，及时修订市值重估业务范围；根据风险量化评估系统的建设和完善，及时修订市场重估的方法和模型。

(3) 所得税

在正常的经营活动中，确定所得税涉及对某些交易事项未来税务处理的判断，最终的税务处理存在不确定性。本行慎重评估各项交易的税务影响，并计提相应的所得税。本行结合当前税收法规对资产减值损失能否税前抵扣进行税务估计。如果这些税务事项的最终认定结果同原估计的金额存在差异，则该差异将对最终认定期间的当期所得税和递延所得税产生影响。

递延所得税资产按可抵扣税务亏损及可抵扣暂时性差异确认。本行持续审阅对递延所得税的判断，如预计未来很可能获得能利用的应纳税所得额，将确认相应的递延所得税资产。

29、重要会计政策、会计估计的变更

(1) 重要会计政策变更

根据财政部于2017年发布的《企业会计准则第22号——金融工具确认和计量》(财会〔2017〕7号)、《企业会计准则第23号——金融资产转移》(财会〔2017〕8号)、《企业会计准则第24号——套期会计》(财会〔2017〕9号)以及《企业会计准则第37号——金融工具列报》(财会〔2017〕14号)，该准则的首次执行日为2021年1月1日。本行根据累积影响数，调整期初留存收益、其他综合收益及财务报表其他相关项目金额，对可比期间信息不予重述。

根据财政部于2018年12月发布的《关于修订印发2018年度金融企业财务报表格式的通知》(财会〔2018〕36号)，本行从2021年1月1日开始的会计年度起采用新的金融企业财务报表格式编制财务报表，本行无需重述前期可比数。上述修订的采用对本行的财务状况、经营成果及现金流量未产生重大影响。

根据财政部于2018年12月颁布的《企业会计准则第21号——租赁》(财会〔2018〕35号)，该准则的首次执行日为2021年1月1日。该变化构成了会计政策变更，本行根据累积影响数，调整使用权资产、租赁负债、期初留存收益及财务报表其他相关项目金额。根据新租赁准则的过渡要求，本行选择不比较期间信息进行重述。

根据财政部于2017年颁布的《企业会计准则第14号——收入》(财会〔2017〕22号)，该准则的首次执行日为2021年1月1日。本行在编制2021年年度财务报表时已采用上述准则，且采用上述准则未对本行的财务报表产生重大影响。

A、新金融工具准则

新金融工具准则就金融资产的分类和计量、金融资产减值的计量以及套期会计引入新的要求，自2021年1月1日起适用，本行按照新金融工具准则的衔接规定，对未终止确认金融工具的分类和计量进行追溯调整。本行未调整比较财务报表数据，将金融工具的原账面价值和金融工具准则实施日的新账面价值之间的差额计入2021年年初未分配利润或其他综合收益。

B、新租赁准则

对于新租赁准则转换，本行选择采用简化处理，对于部分低价值资产的租赁，以及租赁期不超过12个月的短期租赁，本行选择不确认使用权资产和租赁负债。本行在租赁期内按照直线法将该类租赁相关的租赁付款额确认为费用。

本行在计量租赁负债时，使用2021年1月1日的增量借款利率将租赁付款额进行折现。本行采用其类似经济环境下获得与使用权资产价值接近的资产，与类似期间以类似抵押条件借入资金而必须支付的利率作为增量借款利率。

本行运用判断来确定部分本行为承租人且合同包括续租选择权的租赁合同的租赁期。本行是否合理确定会行使上述选择权的评估结果关系到租赁期的确定，而租赁期会对租赁负债以及使用权资产的确认金额产生重大影响。

本行在计量使用权资产时，采用与租赁负债相等的金额，并根据预付租金等进行必要调整。

(2) 重要会计估计变更

本行本年度无重要会计估计变更事项。

(3) 前期重大会计差错更正

本行本年度无前期重大会计差错更正事项。

I. Basis of preparation

The financial statements are prepared in accordance with the Accounting Standards for Business Enterprises and guidelines, interpretations and other related provisions (collectively "Accounting Standards for Business Enterprises").

The financial statements have been prepared on going concern basis.

The Bank adopts the accrual basis of accounting.

Besides of applying the Accounting Standards for Business Enterprises, the Bank also adopted the following specific accounting policies:

1. Re-lending business on loans from foreign governments

Re-lending loans from foreign governments refers to concessional loans borrowed from foreign governments by Chinese Ministry of Finance in the name of Chinese Government. The Bank is entrusted to lend the loans to domestic borrowers and is responsible for the offering and collecting of the principal and interest of loan, as well as repayment to borrower, etc.

The re-lending projects could be classified into three types in accordance with different repayment obligations:

Type One: Projects that the borrower is either a local provincial department of finance or a relevant department of the State Council, who is responsible for the loan repayment.

Type Two: Projects that the borrower is a company and responsible for loan repayment, where the local provincial department of finance or relevant department of the State Council provides repayment guarantee for it.

Type Three: Projects that the borrower is a company and responsible for loan repayment, where the local provincial department of finance or relevant department of the State Council does not provide repayment guarantee for it. The bank assesses the project independently; re-lends on the Bank's own accord, bears the risks and acts as the final repayment party.

To comply with Caizhaizi (2000) No.71 circular issued by the Ministry of Finance, the projects of type three are proprietary loans and accounted on the accrual basis on the financial statements, while the projects of type one and type two are agency transactions and treated as off-balance sheet items on the cash basis. Profit or loss from the projects of type one and type two are accrued in the Bank's income statement according to the corresponding account every month, mainly including commission income from being an agent, interests income and expenses on re-lending loans, and foreign exchange gains/losses on re-lending loans. The Bank presents the cumulative net gain or net loss as of balance sheet date in the caption of "re-lending business current account" under other assets or "re-lending business current account" under other liabilities.

2. General reserves

The Bank's general reserve is used for the compensation of unidentified potential losses. Specific provision rate or amount is according to the regulatory requirement of the supervisory authority.

3. Retirement Benefit Obligations

In accordance with the requirement of the supervisory authority, the obligation of employees' retirement benefits of the Bank is based on cash basis.

II. Significant accounting policies and accounting estimates

1. Statement of compliance with the Accounting Standards for Business Enterprises

The financial statements have been prepared in compliance with the Accounting Standards for Business Enterprises issued by the Ministry of Finance to truly and completely reflect the consolidated and the Bank's financial positions as of December 31, 2021 and their operating performance and their cash flows and other relevant information for the year ended December 31, 2021.

2. Accounting period

The accounting period of the Bank is from 1 January to 31 December of each calendar year.

3. Functional currency

The functional currency of the Bank is Renminbi (RMB), except for the branch in Paris which is using Euro as its functional currency. Foreign currency transactions are accounted by using dual accounts system.

4. Joint arrangement classification and accounting treatment for joint operation

A joint arrangement is an arrangement of which two or more parties have joint control. The Bank classifies joint arrangements into joint operations and joint ventures.

(1) Joint operations

A joint operation is a joint arrangement whereby the joint operators have rights to the assets, and obligations for the liabilities, relating to the arrangement.

The Bank recognizes the following items in relation to its interest in a joint operation, and account for them in accordance with relevant accounting standards:

- A. its solely-held assets, and its share of any liabilities incurred jointly;
- B. its solely-assumed liabilities, and its share of any liabilities incurred jointly;
- C. its revenue from the sale of its share of the output arising from the joint operation;
- D. its share of the revenue from the sale of the output by the joint operation; and
- E. its solely-incurred expenses, and its share of any expenses incurred jointly.

(2) Joint ventures

A joint venture is a joint arrangement whereby the joint ventures have rights to the net assets of the arrangement.

The Bank adopts equity method under long-term equity investment in accounting for its investment in joint venture.

5. Cash and cash equivalents

Cash and cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of change in value, which is including cash, deposits in central bank with unrestricted nature, and due from banks and other financial institutes, interbank lending and financial assets purchased under resale agreement with original maturity not more than 3 months.

6. Foreign currency transactions and translation of foreign currency financial statements

(1) Foreign currency transactions

When the Bank receives capital in foreign currencies from investors, the capital is translated to Renminbi at the spot exchange rate at the date of the receipt. Other foreign currency transactions are, on initial recognition, translated to Renminbi at the spot exchange rates or using reasonably systematic method to determine the exchange rate similar to the dates of the transactions.

Monetary items denominated in foreign currencies are translated to Renminbi at the spot exchange rate at the balance sheet date. The resulting exchange differences between the spot exchange rate on balance sheet date and the spot exchange rate on initial recognition or on the previous balance sheet date are recognized in profit or loss. Non-monetary items that are measured at historical cost in foreign currencies are translated to Renminbi using the exchange rate at the transaction date. Non-monetary items that are measured at fair value in foreign currencies are translated using the exchange rate at the date the fair value is determined, and the exchange differences are recognized in profit or loss for the current period or other comprehensive income.

(2) Translation of foreign currency financial statements

At the balance sheet date, the foreign currency financial statements are translated into RMB. The assets and liabilities of the balance sheet are translated to RMB using the spot exchange rate at the balance sheet date. Items of the shareholders' equity, except for "undistributed profits" and exchange difference resulted in the translation of foreign currency financial statements that recognised in "other comprehensive income", are translated at the spot exchange rate at the dates on which such items arose. The revenue and expenditures in the statement of income are translated using the spot exchange rate at the transaction date. The above exchange differences resulted in the translation of foreign currency financial statements are recognised in "other comprehensive income" under the caption of owner's equity. Items of the cash flow statement are translated using the spot exchange rate when it incurs. Effects arising from changes of exchange rates on cash and cash equivalents are presented separately as "Effect of changes in exchange rates on cash and cash equivalents" in the cash flow statement.

7. Financial instruments

(1) Recognition and derecognition of financial instruments

A financial asset or financial liability is recognized when the Bank becomes a party to the contractual provisions of a financial instrument.

Buying and selling financial assets in a conventional manner should be recognized and derecognized in the trading day. Buying and selling financial assets in a conventional manner means collecting or delivering financial assets within the time limit specified by regulations or convention in accordance with the terms of the contract. The trading day means the date on which the Bank undertakes to buy or sell the financial asset.

Financial asset is derecognized when one of the following conditions is met (part of a financial asset, or part of a group of similar financial assets), write off from its accounts and balance sheet:

- ① the Bank's contractual rights to the cash flows from the financial asset expire;
- ② the rights to receive cash flows from an asset are transferred, or the obligations to pay the cash flows to a third party in full and in a timely manner are assumed;
 - the Bank transfers substantially all of the risks and rewards of ownership of the financial assets;
 - although the Bank neither transfers nor retains substantially all of the risks and rewards of ownership of the financial assets, it does not retain control over the transferred asset.

(2) Classification and measurement of financial assets

The classification of financial assets is generally based on the business model in which a financial assets is managed and its contractual cash flow characteristics. On initial recognition, a financial asset is classified as measured at amortised cost, at FVOCI, or at FVTPL. The subsequent measurements of financial assets depend on their classification.

The bank's classification of financial assets is based on the bank's business model of managing financial assets and the cash flow characteristics of financial assets.

A. Financial assets measured at amortised cost

- it is held within a business model whose objective is to hold assets to collect contractual cash lows; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at amortised cost using the effective interest method. A gain or loss on a financial asset that is measured at amortised cost shall be recognised in profit or loss through the amortisation process or in order to recognise impairment gain or loss.

B. Debt instruments measured at FVOCI

- it is held within a business model whose objective is achieved by both collecting contractual cash flows and selling financial assets; and
- its contractual terms give rise on specified dates to cash flows that are solely payments of principal and interest on the principal amount outstanding.

These assets are subsequently measured at fair value. Interest income calculated using the effective interest method, impairment and foreign exchange gains and losses are recognised in profit or loss. Other net gains and losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to profit or loss.

C. Equity instruments measured at FVOCI

The Bank irrevocably chooses to designate certain investments in non-tradable equity instruments as FVOCI. These assets are subsequently measured at fair value. Dividends are recognised as income in profit or loss. Other net gains or losses are recognised in other comprehensive income. On derecognition, gains and losses accumulated in other comprehensive income are reclassified to retained earnings.

D. Financial assets measured at FVTPL

All financial assets not classified as measured at amortised cost or FVOCI as described above are measured at FVTPL. On initial recognition, the Bank may irrevocably designate a financial asset that otherwise meets the requirements to be measured at amortised cost or at FVOCI as at FVTPL if doing so eliminates or significantly reduces an accounting mismatch that would otherwise arise.

Only if the Bank changes its business model of managing financial assets, all affected related financial assets are reclassified.

For financial assets measured at FVTPL, the relevant fees are directly included in the current profit or loss, and the fees related to other types of financial assets are included in their initial recognition amount.

(3) Recognition of financial liabilities/equity instruments and classification and measurement of financial liabilities

The Bank classifies financial liabilities into different categories at initial recognition: financial liabilities measured at amortized cost or financial liabilities measured at FVTPL.

The Bank may, at initial recognition, irrevocably designate a financial liability as measured at FVTPL: (i) it eliminates or significantly reduces a measurement or recognition inconsistency (sometimes referred to as an accounting mismatch); (ii) a group of financial liabilities or financial assets and financial liabilities is managed and its performance is evaluated on a fair value basis, in accordance with a documented risk management or investment strategy, and information about the group is provided internally on that basis to the entity's key management personnel; (iii) this financial liability contains derivatives that need to be spun off separately.

The Bank classifies financial liabilities into different categories at initial recognition. For financial liabilities measured at FVTPL, the relevant fees are directly included in the current profit or loss, and the fees related to other types of financial liabilities are included in their initial recognition amount.

Subsequent measurement of financial instruments depends on the categories:

A. Financial liabilities measured at FVTPL

Financial liability is classified as measured at FVTPL if it is classified as held-for-trading (including derivative financial liability) or it is designated as such on initial recognition.

B. Financial liabilities measured at amortized cost

Financial liabilities measured at amortized cost using the effective interest method.

(4) Derivative financial instruments and embedded derivative instruments

The Bank's derivative financial instruments include forward exchange contract, currency exchange rate swap agreement, interest rate swap agreement and foreign currency option contract. Derivative financial instruments are initially measured at the fair value of the date a derivative contract entered into and subsequently measured at their fair value. The fair value of derivative financial instruments is determined using active market quotes (including recent market transaction prices) or using valuation methods (including discounted cash flow models and option pricing models).

Derivative financial instruments with positive fair value are recognized as assets while those with negative fair value are recognized as liabilities.

Certain transactions of derivative financial instrument, under the Bank's risk management strategy, are used to provide effective economic hedging for specific interest rate and exchange rate risks. Since they do not meet the Accounting Standards for Business Enterprises No. 24 for applicable hedge accounting, the Bank treats these derivative financial instruments in accordance with derivative financial instruments held for trading purposes, and the changes in fair value are included in "gains or losses from changes in fair value".

(5) Impairment of financial assets

The Bank recognizes loss allowances for ECL on:

- Financial assets measured at amortised cost;
- Debt instruments measured at FVOCI; and
- Loan commitments and financial guarantee contracts.

Credit losses refers to the difference between all contract cash flows receivable under the contract and all cash flows expected to be received, discounted by the Bank at the original effective interest rate, that is, the present value of all cash shortfalls.

The Bank considers all reasonable and substantiated information, including forward-looking information, to estimate the expected credit loss of financial assets measured at amortized cost and financial assets measured at FVOCI (debt instruments) individually or in combination.

A. General model of expected credit loss

If the credit risk of the financial instrument has increased significantly since the initial recognition, the Bank measures its loss provision in an amount equivalent to the expected credit loss over the lifetime of the financial instrument; and if the credit risk of the financial instrument has not increased significantly since the initial recognition, the Bank measures its loss provision in an amount equivalent to the expected credit loss of the financial instrument over the next 12 months. The amount of the resulting increase or reversal of the loss provision is included in the current profit or loss as an impairment loss or gain.

The Bank considers that the credit risk of the financial instrument has increased significantly if there is an more than 30 days overdue payment, unless there is conclusive evidence that the credit risk of the financial instrument has not increased significantly since the initial recognition.

Specifically, the Bank divides the process of credit impairment of financial instruments that are not credit-impaired at the time of purchase or origination into three stages. There are different accounting treatment methods for the impairment of financial instruments in different stages:

The three risk stages are defined as follows:

Stage 1: Credit risk has not increased significantly since initial recognition

For financial instruments at this stage, the Bank shall measure the loss provision based on the expected credit loss in the next 12 months, and calculate the interest income based on its book balance (that is, before deducting the impairment provision) and the actual interest rate (if the instrument is a financial asset, The same below).

Stage 2: Credit risk has increased significantly since initial recognition but no credit impairment has occurred

For a financial instrument at this stage, the Bank shall measure the loss provision based on the expected credit loss of the entire duration of the instrument, and calculate the interest income based on its book balance and actual interest rate.

Stage 3: Credit impairment occurs after initial recognition

For financial instruments in this stage, the Bank shall measure the loss provision according to the expected credit loss of the entire duration of the instrument, but the calculation of interest income is different from the financial assets in the first two stages. For credit-impaired financial assets, the enterprise shall calculate interest income based on its amortized cost (book balance minus provision for impairment, ie book value) and actual interest rate.

For financial assets that have incurred credit impairment at the time of purchasing or origin, only the change in the expected credit loss for the entire period after initial recognition should be recognized as a loss provision. And the interest income shall be calculated at its amortized cost and the credit-adjusted interest rate.

B. The Bank will not compare the credit risk of a financial instrument with a lower credit risk at the balance sheet date, and directly assumed that the credit risk of the instrument had not increased significantly since the initial recognition.

A financial instrument may be considered to have a lower credit risk if the bank determines that the risk of breaking the contract is low, the borrower's ability to perform its obligation is strong, and it will not necessarily reduce the borrower's ability to meet its obligation to pay contractual cash flows even if there are adverse changes in the economic situation and operating environment over a longer period of time.

C. Receivables and lease receivables

The Bank adopts a simplified model of expected credit losses for receivables under CAS14-Revenue that do not contain a material financing component (including where the financing component of a contract not exceeding one year is not taken into account under the Standard) and always measures its loss provision against the amount of the expected credit loss over the lifetime.

For receivables containing a significant financing component and lease receivables regulated by CAS21-Leases, the Bank has chosen to adopt a simplified model of expected credit losses, i.e. to measure loss provisions in an amount equivalent to expected credit losses over the lifetime.

(6) Transfer of financial assets

The Bank derecognizes a financial asset if it transfers substantially all the risks and rewards of ownership of the financial asset to the transferee. If substantially all the risks and rewards of ownership of the financial asset is retained, the financial asset is not derecognized.

The Bank neither transfers nor retains substantially all the risks and rewards of ownership of the financial asset, and the accounting treatment is shown as following: if the Bank has forgone control over the financial asset, the financial assets is derecognized, and new assets and liabilities are recognized. If the Bank retains control over the financial asset, the financial asset is recognized to the extent of its continuing involvement in the transferred financial asset, and an associated liability is recognized.

If the company continues to be involved by providing financial guarantee for the transferred financial assets, the assets formed by continuous involvement shall be recognized according to the lower of the book value of the financial assets and the amount of financial guarantee. The amount of financial guarantee is the maximum amount of consideration received that will be required to be repaid.

(7) Offset between financial assets and financial liabilities

Financial assets and liabilities are offset and the net amount reported in the balance sheet when there is a legally enforceable right to offset the recognized amounts and there is an intention to settle on a net basis or realize the asset and settle the liability simultaneously.

(8) Write off

When the Bank determines that a loan has no reasonable prospect of recovery after the Bank has completed all the necessary legal or other proceedings, the loan is written off against its allowance for impairment losses according to the Ministry of Finance. If in a subsequent period the loan written off is recovered, the amount recovered will be recognised in profit or loss through impairment losses.

8. Fair value measurement

Fair value is the amount that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date.

Financial instruments are measured at fair value. The fair value of the Bank's financial instruments such as bond investments with active markets (excluding derivative financial products) generally refer directly to quotes in active markets. Quotes in active markets refer to readily and regularly available from an exchange, broker, industry group, or pricing service agency, and represents the actual occurring market transactions on an arm's length basis. For financial instruments such as bond investments that do not have active market quotes and derivative financial products, their fair value is determined by valuation method. Valuation techniques used include reference to prices used in recent market transactions by parties familiar with the situation under voluntary transactions, current fair values of other financial instruments that are substantially identical, discounted cash flow methods, and option pricing models. The Bank selects valuation techniques that were generally accepted by market participants and verified by previous market transaction prices. The Bank regularly evaluates valuation techniques and tests their effectiveness.

9. Transaction of purchased under resale agreements and sold under repurchase agreement

A transaction of purchased under resale agreements is the purchase of securities from a counterparty under a resale agreement and the resale of the same securities at an agreed price on a future date. The transaction of sold under repurchase agreement is the sale of securities to a counterparty under the repurchase agreement and the repurchase of the same securities at an agreed price on a future date.

Purchased under resale agreements and sold under repurchase agreement are accounted for as the amount actually paid or received at the time of the transaction and are reflected in the balance sheet. The underlying assets of purchased under resale agreement are not recognised and are registered off-balance sheet. The underlying assets of sold under repurchase agreement are still reflected in the balance sheet.

The interest income earned on the purchased under resale agreement and the interest expense payable on sold under repurchase agreement are recognised as interest income and interest expense over the period of the agreement using the effective interest method.

10. Long-term equity investments

Long-term equity investments include equity investment in subsidiaries, joint ventures and associates. Where the Bank can exercise significant influence over the investee, the investee is an associate.

(1) Determination of investment cost

Long-term equity investment acquired through a business combination: For a business combination involving enterprises under common control, the initial investment cost of a long-term equity investment is the combining party's share of the carrying amount of the owners' equity of the combined party in the consolidated financial statements of the ultimate controlling party at the date of combination. For a business combination not involving enterprises under common control, the initial investment cost of a long-term equity investment is the cost of acquisition.

Long-term equity investment acquired other than through a business combination: For a long-term equity investment acquired by cash, the initial investment cost is the amount of cash paid. For a long-term equity investment acquired by issuing equity securities, the initial investment cost is the fair value of the equity securities issued.

(2) Subsequent measurement and recognition of profit or loss

Long-term equity investments in subsidiaries are accounted for using the cost method, unless the investment satisfies the conditions of held-for-sale. An investment in a joint venture or an associate is accounted for using the equity method for subsequent measurement.

For long-term equity investment which is accounted for using the cost method, the cash dividend or profit announced and distributed is recognized as investment income in profit or loss for the current period, except for those cash dividend or profit which have already included in the actual payment or consideration of offer when the investment was made.

For long-term equity investment which is accounted for using the equity method, where the initial investment cost of a long-term equity investment exceeds the Bank's interest in the fair values of the investee's identifiable net assets, no adjustment is made to the initial investment cost. Where the initial investment cost is less than the Bank's interest in the fair values of the investee's identifiable net assets, the difference is charged to profit or loss for the current period, and the carrying amount of the long-term equity investment is adjusted accordingly.

Under the equity method, the Bank recognizes its share of the investee's net profit or losses and other comprehensive income as investment income or losses and other comprehensive income respectively, and adjusts the carrying amount of the investment accordingly. The carrying amount of the investment is reduced by the portion of any profit distributions or cash dividends declared by the investee that is attributable to the Bank. The Bank's share of the investee's owners' equity changes, other than those arising from the investee's net profit or loss, other comprehensive income or profit distribution, is recognized in the owner's equity, and the carrying amount of the long-term equity investment is adjusted accordingly. The Bank recognizes its share of the investee's net profits or losses based on the fair values of the investee's individual separately identifiable assets at the time of acquisition, after making appropriate adjustments thereto in conformity with the accounting policies and accounting periods of the Bank.

(3) Method of impairment testing and impairment provision

For investment of subsidiaries, associates and joint ventures, refer to Note II. 18 for the method of asset impairment.

11. Investment properties

Investment property is a property held to earn rentals or for capital appreciation. The Bank's investment property includes land use rights and buildings leased to other party, and land use rights held for appreciation.

The Bank's investment property is initially measured at acquisition cost, and is depreciated or amortized according to the same policy for fixed assets or intangible assets.

When an investment property is sold, transferred, retired or damaged, the amount of proceeds on disposal of the property deducting the carrying amount and related taxes and surcharges is recognized in profit or loss for the current period.

12. Fixed assets

(1) Recognition of fixed assets

Fixed assets are tangible assets that are higher unit price and have useful lives more than one accounting year.

Fixed assets include buildings, equipment, motor vehicles and others. A fixed asset is initially measured at cost. The cost of a purchased fixed asset comprises its purchase price, relevant taxes such as tariffs and any directly attributable costs of bringing the asset to its present working condition and location for its intended use. The cost of a proprietary constructed fixed asset comprises those expenditures necessarily incurred for bringing the asset to working condition for its intended use. The fixed assets invested by investors are recorded at the value agreed in the investment contract or agreement, but using fair value when the value stipulated in the contract or agreement is not fair. The cost of fixed assets under finance lease are based on the lower of the fair value of the leased assets on the lease start date and the present value of the minimum lease payment.

Subsequent expenditures incurred on a fixed asset, such as repairs and maintenance cost, dismantlement, removal and restoration costs, is included in the cost of the fixed asset, only if it meets the recognition criteria of a fixed asset. The carrying amount of the replaced part is derecognized. Other subsequent expenditures that fails to meet the recognition criteria of a fixed asset shall be recognized in profit or loss in the period in which they are incurred.

(2) Depreciation methods

The Bank provides depreciation for all its fixed assets other than fully depreciated fixed assets that are still in use and land that is separately valued and accounted for. Depreciation is calculated on the straight-line basis and expensed according to its use. The estimated useful lives, residual value rates and depreciation rates of the Bank's fixed assets are as follows:

Categories	Useful life (years)	Residual rates (%)	Annual depreciation rates (%)
Buildings	30-35	3	2.77-3.23
Equipment	3-5	3	19.40-32.33
Motor vehicles	6	3	16.17
Other equipment	5	3	19.40

(3) Impairment testing and the impairment provision of fixed assets refer to Note II. 18.

(4) The Bank reviews the useful life, estimated net residual value and the depreciation method of fixed assets at the end of each financial year. Useful lives of fixed assets are adjusted if they are different with the initial estimates.

A fixed asset is derecognized upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or losses arising from selling, transferring, retiring or damaging the asset, which calculated as the difference between the net disposal proceeds and the carrying amount of the asset and related tax expenses is recognized in the profit or loss for the current period.

13. Construction in progress

Construction in progress is recognized based on the actual construction cost, including all expenditures incurred for construction projects, capitalized borrowing costs for the construction in progress before it has reached the working condition for its intended use and other related expenses during the construction period.

Construction in progress is transferred to fixed assets when it has reached the working condition for its intended use.

Provision for impairment of construction in progress refers to Note II. 18.

14. Intangible assets

The Bank's intangible assets include land use right and software.

Intangible asset is initially measured at cost and its useful life is determined on acquisition. An intangible asset with a finite useful life is amortized by a method which can reflect the expected realization of economic benefits related to the asset since the intangible asset is available for use. When the expected realization of economic benefits cannot be reliably determined, intangible asset is amortized under straight-line method. An intangible asset with an indefinite useful life is not amortized.

Amortization methods of intangible assets with finite useful life are shown as follows:

Categories	Useful life (years)	Amortization method
Land use right	37.75-40	Straight-line method
Software	3-10	Straight-line method

Impairment method of intangible assets refers to Note II. 18.

15. Research and development expenditures

Expenditures on an internal research and development project is classified into expenditures on the research phase and expenditures on the development phase.

Expenditures on the research phase is recorded in profit or loss when incurred.

Expenditures on the development phase is capitalized only when the Bank can satisfy all of the following conditions: it is technical feasible that the intangible asset can be used or sold upon completion; there is intention to complete the intangible asset for use or sale; the intangible asset can generate economic benefits, including there is evidence that the products produced using the intangible asset has a market or the intangible asset itself has a market; if the intangible asset is for internal use, there is evidence that there is usage for the intangible asset; there is sufficient support in terms of technology, financial resources and other resources in order to complete the development of the intangible asset, and there is capability to use or sell the intangible asset; the expenses attributable to the development stage of the intangible asset can be measured reliably. Expenditures on the development phase is recorded in profit or loss for the current period if the above conditions are not met.

Research and development projects of the Bank will enter into the development phase when they meet the above conditions and pass the technical feasibility and economic feasibility studies and necessary approval of the project.

Capitalized expenditures on the development phase is presented as "development costs" in the balance sheet and is transferred to intangible assets when the project is completed to its intended use.

16. Foreclosed Assets

When recovering the impaired loans and receivables, the Bank may acquire ownership of the foreclosed assets through legal procedures or at the borrower's will. If the Bank intends to liquidate and exempts the borrower from repaying loans, foreclosed assets are presented as "Foreclosed Assets".

When the Bank compensates for losses on loans and advances and accrued interest with foreclosed assets, the financial foreclosed assets are recorded at fair value. The relevant costs, such as taxes and fees payable in respect of the acquisition of a foreclosed asset, the payment of litigation expenses and taxes owed in respect of the acquisition of a foreclosed asset, according to the type of financial asset, should be recorded at the profit and loss of the current period or the initial book value. The initial recognition of non-financial foreclosed assets should be recorded at cost in accordance with the fair value of the abandoning of claims. The relevant costs, such as the relevant taxes, fees, the litigation expenses and the taxes to be paid in order to obtain the foreclosed assets, shall be included in the book value of the foreclosed assets.

When the Bank disposes of the foreclosed asset, if the disposal income is greater than the carrying value of the foreclosed asset, the difference is recorded in non-operating income. If the disposal income is less than the carrying value of the foreclosed asset, the difference is recorded in non-operating expenses. The fees incurred in the disposal is deducted from the disposal income.

Impairment method of foreclosed assets refers to Note II. 18.

17. Long-term deferred expenses

Long-term deferred expenses are recorded at the actual cost, and amortized evenly over the expected benefit period. For the long-term deferred expense that cannot benefit in future accounting period, their amortized value is recognized in profit or loss for the current period.

18. Impairment of other assets

The impairment of subsidiaries, associates and joint ventures in the long-term equity investments, foreclosed assets, investment property subsequently measured at cost model, fixed assets, construction in progress, and intangible assets are determined as follows:

At each balance sheet date, the Bank determines whether there may be indication of impairment of the assets, if there is any, the Bank will estimate the recoverable amount of the asset, and perform test for impairment.

The recoverable amount of an asset is determined by the higher of the net amount after deducting the disposal costs from the asset's fair value and the present value of the asset's estimated future cash flow. The recoverable amount of asset is estimated on individual basis. If it is not possible to estimate the recoverable amount of the individual asset, the Bank determines the recoverable amount of the asset group to which the asset belongs. The identification of the asset group is based on whether the cash flow generated from the asset group is independent of the major cash inflows from other assets or asset groups.

When the asset or asset group's recoverable amount is lower than its carrying amount, the Bank reduces its carrying amount to its recoverable amount. The reduced amount is recorded in profit or loss for the current period and the provision for impairment of assets are recognized.

Once an impairment loss is recognized, it is not reversed in a subsequent period.

19. Provisions

A provision is recognized as a liability when an obligation related to a contingency satisfied all of the following conditions:

- (1) The obligation is a present obligation of the Bank;
- (2) It is probable that an outflow of economic benefits will be required to settle the obligation;
- (3) The amount of the obligation can be measured reliably.

For off-balance sheet, including the outstanding amount of letter of credit and letter of guarantee is taking reference to the similar financial assets on the balance sheet in assessing, on a group basis, whether there are objective evidences for the provision of credit risks and provisions are recognised.

Provisions are initially measured at the best estimate of the payment to settle the associated obligations by considering the relevant risk, uncertainty and time value of money. If the impact of time value of money is significant, the best estimate is determined as its present value of future cash outflow. The Bank reviews the carrying amount of provisions at the balance sheet date and adjusts the carrying amount to reflect the best estimate.

The Bank recognizes the provisions for letters of guarantee and letters of credit off-balance-sheet businesses by referring to the loan impairment policy.

20. Revenue

The Bank recognizes revenue when the relevant economic benefits can flow in and the amount of revenue can be measured reliably.

(1) Interest income

Interest income is recognized according to the effective interest rate method. The effective interest rate method is a method of calculating the amortized cost of a financial asset or financial liability and apportioning interest income or interest expense during the relevant period. An effective interest rate is the interest rate used to discount the future cash flows of financial assets and financial liabilities within the estimated period to the net book value of the financial assets or financial liabilities. The Bank considers all contractual terms of financial instruments when estimating future cash flows, but does not consider future credit losses. The calculation includes all transaction fees and premium or discounts attributable to the component under effective interest rate method.

Where a financial asset is impaired, the interest income is recognized based on the interest rate which is the discount rate used in the assessment of impairment loss.

(2) Fee and commission income

Fee and commission income is generally recognized on an accrual basis when relevant services are provided.

The loan commitment fee (and its associated direct costs) associated with the loan that may be granted is deferred and used as an adjustment to the effective interest rate of the loan. When the syndicated loan arrangement has been completed and the Bank does not retain any loans, or only retains part of the loan at the same effective interest rate as other syndicated members, the syndicated loan handling fee is recognized as income.

The Bank's fee income generated from the Bank's solely or participating in providing mergers and acquisitions and securities issuance services to third parties is recognized when the transaction is completed. Asset management and other management consulting, service fees and financial guarantee fees are based on service contract agreements and are usually recognized on a pro-rata basis by installments.

(3) Foreign exchange gains or losses

Foreign exchange gains and losses are mainly exchange differences resulted by the Bank's retained foreign currency exposure with exchange rate fluctuations in the market.

21. Basis in recognition of expenditures

Interest expense is recognised in the income statement using the effective interest method.

Other expenses are recognized on the accrual basis.

22. Income tax

Income tax comprises of current tax and deferred tax. Current tax and deferred tax are recognized in profit or loss except to the extent that they relate to transactions or items recognized directly in equity and goodwill arising from a business combination.

Temporary differences arising from the difference between the carrying amount of an asset or liability and its tax base, and item not recognized as asset and liability but the temporary difference between the book value and the tax base of that item whose tax base is determined according to the tax law, are recognized as deferred tax using the balance sheet liability method.

All the taxable temporary differences are recognized as deferred tax liabilities except for those incurred in the following transactions:

- (1) Initial recognition of goodwill or initial recognition of an asset or liability in a transaction which is neither a business combination nor affects accounting profit or taxable profit (or deductible loss) when the transaction occurs;
- (2) The taxable temporary differences associated with investments in subsidiaries, associates and joint ventures, and the Bank is able to control the timing of the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The Bank recognizes a deferred tax asset for the carry forward of deductible temporary differences, deductible losses and tax credits to subsequent periods, to the extent that it is probable that future taxable profits will be available against which the deductible temporary differences, deductible losses and tax credits can be utilized, except for those incurred in the following transactions:

- (1) The transaction is neither a business combination nor affects accounting profit or taxable profit (or deductible loss) when the transaction occurs;
- (2) The deductible temporary differences associated with investments in subsidiaries, associates and joint ventures, the corresponding deferred tax asset is recognized when both of the following conditions are satisfied: it is probable that the temporary difference will reverse in the foreseeable future and it is probable that taxable profits will be available in the future against which the temporary difference can be utilized.

At the balance sheet date, deferred tax assets and deferred tax liabilities are measured at the tax rates that are expected to apply to the period when the asset is realized or the liability is settled, and their tax effect is reflected.

At the balance sheet date, the Bank reviews the carrying amount of a deferred tax asset. If it is probable that sufficient taxable profits will not be available in future periods to allow the benefit of the deferred tax asset to be utilized, the carrying amount of the deferred tax asset is reduced. Any such reduction in amount is reversed when it becomes probable that sufficient taxable profits will be available.

23. Leases

(1) As lessor

In finance leases, at the commencement of the lease, the Bank recognizes the sum of minimum lease receipt amount and initial direct costs as the recognized amount of finance leases receivable and also recognized the unguaranteed residual value. The difference between the aggregate of the minimum lease receipts, the initial direct costs and the unguaranteed residual value, and the aggregate of their present value is recognized as unearned finance income. Unrealized finance income is allocated over the lease period by effective interest method and finance income is recognized in profit or loss for the current period.

Income derived from operating leases is recognized in profit or loss using the straight-line method over the lease term. Initial direct costs are charged to profit or loss immediately.

(2) As lessee

The Bank recognises a right-of-use asset and a lease liability at the lease commencement date. The right-of-use asset is initially measured at cost, which comprises the initial amount of the lease liability, any lease payments made at or before the commencement date (less any lease incentives received), any initial direct costs incurred and an estimate of costs to dismantle and remove the underlying asset or to restore the site on which it is located or restore the underlying asset to the condition required by the terms and conditions of the lease.

The right-of-use asset is depreciated using the straight-line method. If the lessee is reasonably certain to exercise a purchase option by the end of the lease term, the right-of-use asset is depreciated over the remaining useful lives of the underlying asset. Otherwise, the right-of-use asset is depreciated from the commencement date to the earlier of the end of the useful life of the right-of-use asset or the end of the lease term.

The lease liability is initially measured at the present value of the lease payments that are not paid at the commencement date. The Bank determined incremental borrowing rate as the interest rate that a lessee would have to pay to borrow to obtain a similar assets, close to the right-of-use asset, in a similar economic environment with a similar term and under similar mortgage conditions.

A constant periodic rate is used to calculate the interest on the lease liability in each period during the lease term with a corresponding charge to profit or loss or included in the cost of assets where appropriate. Variable lease payments not included in the measurement of the lease liability is charged to profit or loss or included in the cost of assets where appropriate as incurred.

Under the following circumstances after the commencement date, the Bank remeasures lease liabilities based on the present value of revised lease payments:

- there is a change in the amounts expected to be payable under a residual value guarantee;
- there is a change in future lease payments resulting from a change in an index or a rate used to determine those payments;
- there is a change in the assessment of whether the Bank will exercise a purchase, extension or termination option, or there is a change in the exercise of the extension or termination option.

When the lease liability is remeasured, a corresponding adjustment is made to the carrying amount of the right-of-use asset, or is recorded in profit or loss if the carrying amount of the right-of-use asset has been reduced to zero.

The Bank has elected not to recognise right-of-use assets and lease liabilities for short-term leases that have a lease term of 12 months or less and leases of low-value assets. The Bank recognises the lease payments associated with these leases in profit or loss or as the cost of the assets where appropriate using the straight-line method over the lease term.

24. Employee benefits

Employee benefits are all forms of consideration given and other relevant expenditures incurred by the Bank in exchange for service rendered by employees. In the accounting period in which an employee has rendered services, the Bank recognizes the employee benefits payable for those services as a liability, and recognizes relevant asset or expense for the current period.

Note: The consolidated amount of salaries, bonuses and subsidies accrued by the Bank in 2021 is RMB1,670,470,904.46.

(1) Social Welfare

According to related regulations, the Bank adopts the social welfare policy for government sponsored institutions. Employees of the headquarters of the Bank are enrolled in unemployment insurance schemes and employment injury insurance schemes. Some branches are enrolled in local social welfare schemes according to the local policies. Expenditures related to payments for employees' social welfare is included in profit or loss for the period in which they are incurred.

(2) Retirement Benefits

According to the regulations issued by the regulatory authority, expenditures related to pension and benefits for retired employees is included in profit or loss for the period in which it is incurred.

(3) Housing Funds and Subsidy

Pursuant to related regulations, all employees of the Bank participate in various local housing funds schemes administered by local governments. The Bank contributes on a monthly basis to these funds based on certain percentages of the salaries of the employees. These payments are recognized in profit or loss for the period in which they are incurred.

The Bank provides housing allowance to the employees applicable. Housing allowance is recognized in profit or loss for the period in which they are disbursed.

25. Fiduciary business

The Bank acts as a custodian, trustee or agent in fiduciary activities. The assets held for fiduciary activities and commitments to return the assets to the clients are not included in the balance sheet of the Bank, and risks and rewards of these assets are the responsibility of the customers.

Entrusted loans are loans funded by the consigner, and the Bank grants loans to borrowers at the direction of the consigner with regard to the borrower, purpose, amounts, term, interest rates, and etc. The Bank is entrusted to make payment to the borrower, supervise the use of the loans and assist in collecting these loans. The consigner bears the risk. The Bank charges a commission related to the entrusted loans, and neither presents the entrusted loans in the balance sheet nor accrues impairment provision for the loans.

26. Accounting treatment of business combination

For business combinations involving enterprises not under common control, the consideration costs include acquisition-date fair values of the assets transferred, liabilities incurred or assumed and the equity instruments issued by the acquirer in exchange for control of the acquire. At the acquisition date, the acquired assets, liabilities and contingent liabilities of the acquiree are measured at their fair value.

Where the combination cost exceeds the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is recognized as goodwill, and subsequently measured on the basis of its costs less accumulated impairment provisions. Where the combination cost is less than the acquirer's interest in the fair value of the acquiree's identifiable net assets, the difference is credited in profit or loss for the current period after reassessment.

27. Basis of preparation of consolidated financial statements

(1) Scope of consolidation

The scope of consolidated financial statements is determined on the basis of control. Control exists when the Bank has power over the investee; exposure, or rights to variable returns from its involvement with the investee and has the ability to affect its returns through its power over the investee. A subsidiary is an entity that is controlled by the Bank (including enterprise, a portion of an investee as a deemed separate component, and structured entity controlled by the enterprise).

(2) Basis of preparation of consolidated financial statements

The consolidated financial statements are prepared by the Bank based on the financial statements of the Bank and its subsidiaries and other relevant information. In preparation of consolidated financial statements, the accounting policies and accounting periods of the subsidiaries should be consistent with those established by the Bank, and all significant intercompany accounts and transactions are eliminated.

During the reporting period, where a subsidiary and business was acquired by business combination under common control, the beginning balances of the consolidated balance sheet were adjusted. The revenue, expenses, profit and cash flow of the subsidiary and business of the current year were consolidated into the reporting period. The subsidiary or business is deemed to be included in the consolidated financial statements from the date they are controlled by the ultimate controlling party.

Where a subsidiary or business has been acquired during the reporting period, through a business combination not involving enterprises under common control, the revenue, expenses and profit of the subsidiary or business after the acquisition date are included in the consolidated income statement, the cash flows after the acquisition date are included in consolidated cash flow statement.

The portion of a subsidiary's equity that is not attributable to the parent is treated as minority interests and presented separately in the consolidated balance sheet within shareholders' equity. The portion of net profit or loss of subsidiaries for the period attributable to minority interests is presented in the consolidated income statement below the "net profit" line item as "minority interests". When the amount of loss for the current period attributable to minority interests of the subsidiary exceeds the minority interests' share of the opening equity of the subsidiary, the excess is still allocated against the minority interests.

Where the Bank acquires a minority interest from a subsidiary's minority shareholders or disposes of a portion of an interest in a subsidiary without a change in control, the transaction is treated as equity transaction, and the book value of shareholder's equity attributed to the Bank and to the minority interest is adjusted to reflect the change in the Bank's interest in the subsidiaries. The difference between the proportion interests of the subsidiary's net assets being acquired or disposed and the amount of the consideration paid or received is adjusted to the capital reserve in the consolidated balance sheet, with any excess adjusted to retained earnings.

(3) Losing control over the subsidiary

When the Bank loses control over subsidiary because of disposing part of equity investment or other reasons, the remaining part of the equity investment is re-measured at fair value at the date when losing control over the subsidiary. A gain or loss is recognized in profit or loss for the current period and is calculated by the aggregate of the consideration received in disposal and the fair value of remaining part of the equity investment deducting the share of carrying value of net assets in proportion to previous shareholding percentage in former subsidiary since acquisition date and the goodwill.

Other comprehensive income related to the former subsidiary is transferred to profit or loss for the current period when the control is lost, except for the comprehensive income arising from the movement of net liabilities or assets in the former subsidiary's re-measurement of defined benefit plan.

28. Significant accounting judgments and estimates

The Bank makes continuous evaluation on significant accounting estimates and key assumptions based on historical experience and other factors, including reasonableness of estimation about future events. The followings are the significant accounting estimations and key assumptions that have a significant risk of causing a material adjustment to the carrying amount of assets and liabilities within the next financial year. When there is significant variance between the reality and the following accounting estimates and judgments, the Bank shall make reasonable adjustment according to the facts.

(1) The measurement of the expected credit loss

The measurement of the expected credit loss allowance for financial assets measured at amortised cost and FVOCI and with exposure arising from loan commitments and financial guarantee contracts, is an area that requires the use of complex models and significant assumptions about future economic conditions and credit behavior (the likelihood of customers defaulting and the resulting losses).

(2) Fair value of financial instruments

The Bank establishes fair value of financial instruments with reference to a quoted market price in an active market or, if there is no active market, using valuation techniques. These valuation techniques include using recent arm's length transactions, observable prices for similar instruments, discounted cash flow analysis using risk-adjusted interest rates, and commonly used market pricing models. Valuation models applied to determine fair value of derivatives and other financial instruments use observable market inputs and data including, for example, interest rate yield curves and foreign currency rates. The results of using valuation techniques are calibrated against industry practice and observable current market transactions in the same or similar instruments.

The Bank revises the valuation scope according to the operational strategy and risk management policies. Valuation techniques and models are updated in accordance with the establishment and improvement of risk quantification and assessment system.

(3) Income tax

In the course of general business, income tax recognition involves judgment on future tax treatment, and, the final tax treatment is uncertain. The Bank assesses the tax effect of all transactions prudentially and calculates relevant income tax. The Bank has taken into consideration the existing tax legislation and the judgment of past practice made by government institutions, to decide whether impairment loss shall deduct taxable income. If the final tax outcome of these matters is different from the amounts that were initially recorded, such differences will be determined as the income tax and deferred income tax for the period.

The Bank recognizes deferred tax assets in accordance with deductible temporary differences and deductible losses. The Bank assesses the judgment on deferred income tax continuously, and recognizes deferred tax assets to the extent that it is probable that taxable profits will be available in the future.

29. Changes in accounting policies and accounting estimates

(1) Changes in accounting policies

According to the accounting standards for Business Enterprises No. 22 – recognition and measurement of financial instruments (CK [2017] No. 7), accounting standards for Business Enterprises No. 23 – transfer of financial assets (CK [2017] No. 8), accounting standards for Business Enterprises No. 24 – hedge accounting (CK [2017] No. 9) and accounting standards for Business Enterprises No. 37 – presentation of financial instruments (CK [2017] No. 14) issued by the Ministry of Finance in 2017, the first implementation date of the standards is January 1, 2021. The bank adjusts the amount of retained earnings, other comprehensive income and other relevant items in the financial statements at the beginning of the period according to the cumulative impact, and does not restate the information of the comparable period.

According to the notice on revising and Issuing the format of financial statements of financial enterprises in 2018 (CK [2018] No. 36) issued by the Ministry of Finance in December 2018, the Bank adopts the new format of financial statements for financial enterprises from the fiscal year beginning on January 1, 2021, and the bank does not need to restate the comparable figures in the previous period. The adoption of the above amendments had no significant impact on the bank's financial position, operating results and cash flow.

According to the accounting standards for Business Enterprises No. 21 – leases (CK [2018] No. 35) issued by the Ministry of Finance in December 2018, the first implementation date of the standards is January 1, 2021. This change is determined as a change in accounting policy. The bank adjusts the amount of use right assets, lease liabilities, opening retained earnings and other relevant items in the financial statements according to the cumulative impact. According to the transition requirements of the new leasing standards, the bank chose not to restate the information of the comparable period.

According to the accounting standards for Business Enterprises No. 14 – Revenue (CK [2017] No. 22) issued by the Ministry of Finance in 2017, the first implementation date of the standard is January 1, 2021. The bank has adopted the above standards when preparing the 2021 annual financial statements, and the adoption of the above standards has no significant impact on the financial position.

A. New financial instruments

New financial instruments introduces new requirements for classification and measurement of financial instruments, measurement of impairment for financial assets and hedge accounting. New financial Instruments is effective on 1 January 2021. The Bank retroactively adjusted the classification and measurement of financial instruments that were not derecognized in accordance with the reconciliations requirements under New financial Instruments. The Bank did not adjust the comparative figures of consolidated financial statements, and included the difference between the original book value of financial instruments and the new book value on the implementation date of New financial Instruments into the undistributed profits or other comprehensive income at the beginning of 2021.

B. New leases standards

When applying new leases standards, the Bank has elected not to recognize right-of-use assets and lease liabilities for the low-value assets and short-term leases with lease terms not exceeding 12 months, known as practical expedient described above. The Bank recognizes the lease payments associated with these leases as an expense on a straight-line basis over the lease term.

When measuring lease liabilities, the Bank discounted lease payments using its incremental borrowing rate at 1 January 2021. The Bank determined incremental borrowing rate as the interest rate that a lessee would have to pay to borrow to obtain a similar assets, close to the right-of-use asset, in a similar economic environment with a similar term and under similar mortgage conditions.

The Bank has applies judgement to determine the lease term for some lease contracts in which it is a lessee that include renewal options. The assessment of whether the Bank is reasonably certain to exercise such options impacts the lease term, which significantly affects the amount of lease liabilities and right-of-use assets recognised.

The Bank chose to measure the right-of-use assets at an amount equal to the lease liabilities, and adjusted by the amount of prepaid lease payment.

(2) Changes in accounting estimates

There was no change in significant accounting estimates in the year.

(3) Correction of major accounting errors in the previous period

There was no correction of major accounting errors in the year.

III. Taxation

1. Major taxes and tax rates
